

ENGINEERING PHYSICS, MASTER OF SCIENCE

Minimum Total Hours (Thesis): 30
Minimum Total Hours (Non-Thesis): 32

Program Code: M372

The balance of courses must be appropriate for the degree and approved by the Engineering Physics Graduate Liaison and Advisory Committee.

Graduate credit cannot be received for any course equivalent to one required in the undergraduate Engineering Physics program.

Thesis Option

Code	Title	Credit Hours
Core Courses		
<i>Physics</i>		
	Choose 9-12 hours (if the advisor is from Engineering, a minimum of 12 hours in Physics courses is required)	9-12
<i>Engineering</i>		
	Choose 9-12 hours (if the advisor is from Physics, a minimum of 12 hours in Engineering courses is required)	9-12
Electives		
	Choose 5-7 hours	5-7
Thesis		
EPHY 5980	Research for Master's Thesis	2-4
Total Credit Hours		30

Non-Thesis Option

Code	Title	Credit Hours
Core Courses		
<i>Physics</i>		
	Choose 12 hours	12
<i>Engineering</i>		
	Choose 12 hours	12
Electives		
	Choose 8 hours	8
Total Credit Hours		32

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.
