

FINE ARTS GRADUATE CERTIFICATES

Graduate Certificate in Arts Management and Entrepreneurship

The curriculum is designed to enable students with industry knowledge and navigational skills in a dynamic arts environment through the strength of synthesizing ideologies and integrative thinking between both the fine arts and business. The strengths found in empathy, exploration, and interdisciplinary research are emphasized in the fine arts history courses detailing how artists and creatives drew inspiration from different ideologies, cultures, and thought. The general sequence of courses will teach students how to think critically, develop adaptive strategies, and negotiate positions in a creative environment. Students will follow a track of interest; in the Price College of Business, two courses (4 hours) from any of the following: Entrepreneurship, Organizational Behavior, Marketing, or Production and Operations Management; in the College of Fine Arts, one course (3 hours) from Visual Arts, Dance, Drama, or Music. The required core course AMGT 5013 aims to bring together the skills, concepts, and knowledge learned into application in a real-world, arts marketplace mindset. One additional course (2 hours), Arts Management Elective, comes from a course list maintained by the department.

Graduate Certificate in Music Performance
