The Center for Spatial Analysis at the University of Oklahoma is a multidisciplinary university research center specializing in the study and application of geospatial science and technology. CSA is composed of three working units that focus on research and development, outreach and training, and applications and services. Through efforts in each of these units CSA seeks to advance the geospatial vision of the university and contribute to education, research, and economic development in the State of Oklahoma. Housed in Two Partners Place, CSA is a member of the National Weather Center program and the OU Research Campus, an affiliate member in the Oklahoma NASA Space Grant Consortium, and a partner to the Center for Applied Social Research. Visit their website for further information.

Cooperative Institute for Mesoscale Meteorological Studies (CIMMS)

Cooperative Institute for Mesoscale Meteorological Studies provides a mechanism to link the scientific and technical resources of the University of Oklahoma and the National Oceanic and Atmospheric Administration (NOAA) to create a center of research excellence in mesoscale meteorology, regional climate studies, and related subject areas.

Oklahoma Alliance for Geographical Education (OKAGE)

Oklahoma Alliance for Geographical Education is an organization for geography educators in Oklahoma, and is affiliated with the National Geographic Society and its national network of state geographic alliances and national geography organizations.

Oklahoma Climatological Survey (OCS)

120 David L. Boren Blvd., Suite 2900 Norman, OK 73072-7305
Phone: (405) 325-2541
ocs@ou.edu
www.ocs.ou.edu/

Oklahoma Climatological Survey was established in 1980 to provide climatological services to the people of Oklahoma, conduct research on the impacts of climate on human activities, and serve as a support facility for the State Climatologist. OCS has a legislative mandate to acquire, process, and disseminate climate and weather data and information for use by the state's citizens. In addition, the Survey maintains an extensive array of climatological information, conducts research on both land-air interactions and applied climatology, educates hundreds of Oklahoma decision-makers annually, and operates the Oklahoma Mesonet, Oklahoma's weather network. OCS is located in the National Weather Center, part of the Norman Research Campus.

Oklahoma Mesonet

The Oklahoma Mesonet consists of over 100 automated observing stations that continuously monitor numerous important weather and soil variables. The Oklahoma Mesonet Program is administered jointly by the University of Oklahoma and Oklahoma State University.

South Central Climate Adaptation Science Center

The South Central Climate Adaptation Science Center is a partnership between the US Geological Survey and a consortium of seven member institutions consisting of the University of Oklahoma (OU), Texas Tech University (TTU), Louisiana State University (LSU), the Chickasaw

Nation (CN), the Choctaw Nation of Oklahoma (CNO), Oklahoma State University (OSU), and NOAA's Geophysical Fluid Dynamics Lab (GFDL). The consortium has broad expertise in the physical, biological, natural, and social sciences to address impacts of climate change on land, water, fish and wildlife, ocean, coastal, and cultural resources.

PARTICIPATION IN THE HONORS PROGRAM

Eligible undergraduate students are encouraged to participate in the University-wide Honors Program described elsewhere in this catalog. Specially designed Honors courses and seminars provide the Honors student with small classes and opportunities for interaction with the University's best and brightest faculty members, both within the student's major field of study and in other courses used to satisfy curricular requirements.

RESEARCH OPPORTUNITIES

Undergraduate students are encouraged to work with faculty on research projects. These student research projects can be an important component of the Honors Program and/or a source of part-time income and scholarship support. Such research participation provides the student with important experience in his or her discipline in addition to meeting normal academic requirements. For more information on undergraduate research, visit the University's Undergraduate Research website.

Faculty-supervised research is an important component of the College of Atmospheric and Geographic Sciences graduate program. Many graduate students are supported financially through research assistantships funded by federal and private industry grants and contracts. Other graduate students are supported financially through teaching assistantships awarded by their academic units. Faculty-supervised student research leading to master's theses and doctoral dissertations is an integral component of the overall graduate degree requirements.

Computing Services

The College of Atmospheric and Geographic Sciences has made a major commitment to integrate and expand computer and network technology in its courses and programs. The college provides a specialized Media lab for exclusive use by its majors in the National Weather Center, Room 3650. This lab contains equipment geared toward the special needs of students majoring in the College of Atmospheric and Geographic Sciences and includes an HP DesignJet 800ps 42" Poster Printer. The college also maintains three state-of-the-art computer labs in Sarkeys Energy Center. The college is a partner in the University of Oklahoma SuperComputing (OSCER-OU SuperComputing Center for Education and Research Center).

Storm Chasing Policy

The University of Oklahoma's College of Atmospheric and Geographic Sciences does not condone or encourage storm chasing by students. Anyone who chooses to chase storms does so at their own risk and should not imply that their activities are connected with the University. The only possible exception is when students are officially included in storm intercept activities conducted as part of well-planned and safety-trained scientific projects lead by faculty or scientists in the National Weather Center research units. Storm chasing is not part of the School of Meteorology course curriculum nor should such activities take precedence over the academic activities of the School such as coursework and attending classes and seminars.

Undergraduate Study

BACHELOR OF ARTS

The **Bachelor of Arts** degrees emphasize the social applications of the discipline. Students pursuing a bachelor of arts will acquire knowledge and skills in foreign language, statistics and social understanding, including policy making.

BACHELOR OF SCIENCE DEGREES

The **Bachelor of Science** degrees emphasize the science and engineering sides of the discipline. Students pursuing a Bachelor of Science degree will acquire knowledge and skills in math, physics and computation.

Accelerated Bachelor/Master Degrees

Several accelerated dual-degree programs are offered through collaboration with the Department of Geography and Environmental Sustainability housed in the College of Atmospheric and Geographic Sciences and the Division of Regional and City Planning, an academic unit in the College of Architecture. These accelerated programs are designed for exceptional students who wish to begin earning the Master of Regional and City Planning in the second semester of their junior year of their Bachelor programs.

MINORS

The College of Atmospheric and Geographic Sciences offers students the option of declaring a minor subject. Minors in the college are available in environmental sustainability, geography, geographic information systems, hydrologic science, physical geography, weather and climate, and meteorology.

SECOND BACHELOR'S DEGREES

A student who has completed the requirements for a bachelor's degree may receive a second bachelor's degree upon the completion of the curriculum prescribed for the second degree, provided that the work completed includes at least 30 additional credit hours of upper-division geography, environmental sustainability, geographic information science, or meteorology, applied science and elective courses appropriate to the field of the second degree. These courses must be over and above the credit hours required for the first degree.

Admission to the College

Students are admitted to the College of Atmospheric and Geographic Sciences from University College once they declare a major in geography, environmental sustainability, geographic information science, or meteorology, and complete the following requirements:

- a minimum of 24 semester hours of college credit.
- a minimum combined retention grade point average of 2.25.

Students transferring into the University of Oklahoma from another institution must have a minimum of 24 semester hours of college credit and a minimum 2.50 retention grade point average to be directly admitted to the College of Atmospheric and Geographic Sciences.

Academic credit from any division of the University of Oklahoma — Norman campus, Health Sciences Center, OU-Tulsa, and Claremore, or Professional and Continuing Studies — is considered resident credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU retention and cumulative grade point averages for purposes of admission or readmission to the University, and to the individual colleges within the University.

Student Advisement

The Atmospheric & Geographic Sciences Dean's Office and your academic advisor will:

- Work with you to establish realistic goals and objectives.
- Encourage you to be responsible for your own academic progress and to realize your full potential as a student at the University of Oklahoma.
- Understand and communicate the Atmospheric and Geographic Sciences curriculum, graduation requirements, and University of Oklahoma policies and procedures.
- Be accessible for meetings by appointment.
- Respond promptly to your e-mails and telephone calls.
- Make referrals to resources outside the college when needed.
- Help you monitor your progress toward graduation.
- Assist you with any problems of an academic nature.

As a student in the College of Atmospheric and Geographic Sciences, you are expected to:

- Learn the requirements for your degree program, which are posted on the college website and in the OU General Catalog.
- Become familiar with Degree Navigator, the University's online system that monitors progress toward the completion of your degree.
- Become knowledgeable about University policies and procedures, e.g., drop/add deadlines, enrollment, how to apply for financial aid.
- Set a projected graduation date and develop a semester-to-semester plan to complete your degree.
- Stay up to date with college events and opportunities by reading Monday Memo, the college's weekly online newsletter which is emailed to your OU email account every Monday during the spring and fall semesters.
- Meet with your academic advisor at least once every semester.
- Schedule a degree check in the A&GS Dean's Office (NWC, Room 3630) by the first semester of your junior year.
- Save a copy of every paper or major assignment, along with all official University documents (e.g., receipts) until you are cleared for graduation.
- Be responsible for your actions and decisions.

Students in the Department of Geography & Environmental Sustainability are advised by a professional academic counselor, who also works with majors to establish faculty mentoring.

Students in the School of Meteorology are advised by a faculty advisor, and also have access to a professional academic counselor in the School's main office.

In addition to the advisor in your academic unit, the Dean's Office (NWC, Room 3630) is available to assist students with degree checks, transfer equivalencies, and any problems of an academic nature. Students may call (405) 325-3095 to schedule an appointment.

Please note that the responsibility for meeting graduation requirements lies with the student and not with the advisor, the school/department, or the Dean.

College Grade Point Average Requirements

To remain in good standing in the College of Atmospheric and Geographic Sciences, students must maintain a 2.25 combined retention grade point

average in all coursework attempted, a 2.25 grade point average in all coursework attempted in the major area, and a 2.25 retention grade point average in all coursework attempted at OU.

Academic Contract

Students whose major, combined retention or OU retention grade point averages fall below 2.25 are placed on academic contract. Students on academic contract are denied enrollment privileges through the College of Atmospheric and Geographic Sciences following any semester in which satisfactory scholastic progress toward a 2.25 has not been made.

Grade point deficiencies must be made up through reenrollment in major courses in which the student had a last-recorded grade of D or F. Should all D or F grades in curriculum courses be raised to a C or above, and the student still has grade point scholastic deficiencies, the student may then enroll in non-major courses. For the freshman and sophomore years any course may be used, but for the junior and senior years, the courses must be numbered 2000 or above, unless the course so elected is approved as an elective in the last two years of the student's major curriculum.

After a student has been reinstated in the University following an unsatisfactory scholastic record, the student must apply to the Dean of the College of Atmospheric and Geographic Sciences for reinstatement in the college. The Dean will determine whether to readmit the student and may prescribe the conditions for reinstatement in the college in accordance with the policies established by the faculty and the Dean.

Additional Academic Regulations

- Any departure by a student from the curriculum requirements and scholastic rules must be approved by a petition and must not conflict with existing University regulations.
- Full-time students may enroll in 12-19 hours of coursework. Enrollment in more than 19 credit hours is permitted only with the approval of the student's advisor and the Dean of the College of Atmospheric and Geographic Sciences. Permission to carry more than 19 hours will depend primarily on the student's scholarship record and his/her ability to carry increased loads.
- Academically superior students are encouraged to contact the Honors College office to investigate their participation in the University's Honors College.
- Pass/no pass enrollments may not be used to satisfy College of Atmospheric and Geographic Sciences requirements.

Ten-Year Limitation Rule

Credit in a student's major that is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the major department or by each department if the student's major is interdisciplinary.

COLLEGE HONOR ROLL

The College of Atmospheric and Geographic Sciences Honor Roll is compiled at the close of each fall and spring semester. It includes students who have completed at least 12 grade point hours (excluding courses graded S/U or P/NP) and have earned an average of 3.50 or higher during the semester. Part-time students enrolled for both the fall and spring semesters of an academic year will be included on the spring semester honor roll provided that, as a result of combining the work completed during the fall and spring semesters, they earn at least 12 grade point hours (excluding courses grade S/U or P/NP) with no withdrawals and an average of 3.50 or better.

College Requirements for Graduation

Graduation Grade Point Average

A minimum 2.25 must be maintained in the major, on all OU work attempted, and on the student's combined retention grade point average to earn a bachelor's degree through the College of Atmospheric and Geographic Sciences.

Distinction and Special Distinction Degrees

The faculty may recommend that the degree "With Distinction" be conferred on graduates who have a retention grade point average at OU of 3.50 or higher and "With Special Distinction" on students who have an OU retention grade point average of 3.75 or higher.

Graduate Study

Refer to the Graduate tabs within the Department of Geography and Environmental Sustainability (p. 454) and the School of Meteorology (p. 508) pages of this catalog for information concerning graduate programs.

Scholarships and Financial Aid

The College of Atmospheric & Geographic Sciences and its academic units offer a number of scholarships. The college also offers research grant opportunities to A&GS upperclassmen. Students are encouraged to file the Free Application for Federal Student Aid, apply for scholarships, and other resources on the University's Financial Aid Services website.

Career Opportunities

Environmental Sustainability

Climate change, habitat destruction, pollution and the overuse of natural resources have contributed to a human environment that may no longer be sustainable. Only by using modern scientific methods and by integrating scientific research with an understanding of the global economy and governmental institutions can we expect to understand and manage a natural environment that will be sustainable, supporting and enhancing the quality of life for generations to come. Skilled professionals educated in the principles of environmental sustainability are essential to the effective management of the natural environment. These professionals will be qualified for numerous sustainability-related positions in government, the private sector, the non-profit sector, and education. Because many managers in these sectors have only a vague understanding of sustainability, persons with degrees in environmental sustainability are positioned very well to achieve important leadership positions, setting agendas for long-run sustainability at the local, regional, national, and global levels.

Geographic Information Science

Location-based data are central to 80 to 90 percent of all governmental information and to a wide range of business endeavors. Students who major in geographic information science study the science and technology of gathering, analyzing, interpreting, distributing and using geographic information. The U.S. Department of Labor declared geospatial technology as one of the twelve targeted industries that are high growth, high demand, and economically vital for the nation. Lending itself to both physical and social sciences, geospatial technology is applied across a broad range of sectors. Career opportunities span academia, government, industry and non-governmental organizations and include careers in agriculture, forestry, urban planning, land use, soil mapping, energy & utilities, redistricting, identifying and monitoring

surface and ground water, flood damage assessment and relief measures, and consumer industries like in-car navigation systems.

Geography

More geographers than ever before are being hired in dozens of different fields. All levels of government hire geographers, who work for local and state economic development or planning offices, conduct research in recreation and park use, or map land use from satellite images. Many geographers at the federal level work for the Environmental Protection Agency, the Central Intelligence Agency, the U.S. Geological Survey, and the Department of State. Geographers also conduct marketing studies, plan transportation routes, understand international markets, advise businesses on the best location for new stores, work in real estate and urban planning, and determine environmental risks associated with site locations. From electric companies to wind-power farms, from forestry to telecommunications, real-time mobile interactive geographic technologies and databases are emerging as the backbone of large-scale management systems for industries with distributed assets and mobile workforces.

Meteorology

Meteorologists are highly trained atmospheric professionals who not only report on the weather, but also forecast it, prepare warnings, study the ozone and pollution levels, brief pilots on hazardous conditions, monitor rainfall and flood levels, and conduct research into specific weather phenomena like severe storms and tornadoes. Although a large number of meteorologists are employed by the media and the National Weather Service, the demand for meteorologists from engineering and environmental firms, private weather forecasters and consultants, and over a dozen federal agencies indicates that the need for professional meteorologists will continue to increase. Employers include all branches of the military, airlines and cargo haulers, the National Aeronautics & Space Administration (NASA), utility and insurance companies, ocean shipping firms, commodity trading firms, federal and state research laboratories, and meteorological software companies.

General Information

The department has three majors: Geography, Environmental Sustainability, and Geographic Information Science (GIS) which all offer a Bachelor of Arts or Bachelor of Science. Geography, environmental sustainability, and geographic information science are all strongly interlinked. Together, they provide new ways of thinking and tools for understanding and managing the planet. Yet each is sufficiently distinct and provides different career paths and opportunities for students and practitioners.

Geography is made up of the study of two interrelated phenomena: spatial patterns (the why of where) and human-environment relationships

(how people interact with where they live, work and play). Geography has a long and sometimes controversial history; geographers created maps of the world, and those maps were used to tell stories about how the world is, and what it ought to be. Contemporary geography includes the making of maps as well as critical examinations of their purposes and uses, but it is not limited to the study of maps. The discipline is often divided into three areas: physical geography (the study of the Earth's physical environments, features, and processes); human geography (the study patterns and dynamics of cultures, societies, economies and regions); and GIS (the study of geospatial information systems, spatial algorithms, and geovisualization). Many geographers find that the discipline is unusually supportive of work at the intersection between physical and social sciences, *making geography an important cognate to environmental and sustainability studies.*

Environmental Sustainability is a growing field that addresses how societies can meet the needs of the present without compromising the ability of future generations to meet their needs. Environmental sustainability has emerged as a field of study following recognition that the resources that support human life and make it comfortable are decreasing in quantity and quality while the demand and consumption for these resources continues to rise. Simultaneously, there is recognition that the issues involved, such as renewable energy resources, climate change, biodiversity loss, water resources, environmental justice, air and environmental quality etc., are cross-cutting issues that are not, and cannot adequately be, addressed by existing disciplines. Thus, there is need for new educational and research paradigms that weave environmental, economic and social issues together to provide students with an interdisciplinary education designed for dealing with such complex issues. Environmental sustainability degree holders are well-prepared for careers in state and municipal government, non-governmental organizations, and business. Graduates of this program will lead efforts in research, decision-making, and policies that underpin the drive for sustainable futures.

Geographic Information Science (GIS) is the science and technology of acquiring, analyzing, visualizing, and interpreting spatial data to enhance understanding, reveal relationships, patterns, and trends, and to support decision-making processes. Geographic Information Science includes the study, development and application of geographic information systems, remote sensing and global positioning systems (GPS). It is by nature multidisciplinary and has considerable applications in many disciplines including anthropology, biology, business management, ecology, energy management, engineering, geography, geology, meteorology, sociology, and urban and regional planning. GIS integrates methods from these different fields in order to solve problems and understand human, natural and physical systems from local to global scales. Any data that has geographic attributes can be analyzed and visualized in GIS to reveal information that is essentially not available using any other means. For these reasons, many businesses and organizations find GIS an indispensable part of routine operations and long term strategic planning. Several faculty members have strong research interests in applying GIS and remote sensing technologies to understand land use land cover change, ecosystem dynamics, and urban environments.

The department's educational mission and scholarship covers the entire spectrum of geography, environmental sustainability, and geographic information science. Faculty research interests in conservation biology, hydrology, global and tropical climatology, land-use land cover, and biogeography. In human geography, faculty research interests include urban and environmental politics, humanities and visual arts, economic and natural resource development, indigenous cultures, specific regions, such as Latin America, Africa, Russia and East Asia, and indigenous use

of media. Research in environmental sustainability focuses on renewable energy resources principally, energy and wind power development, ecosystem valuation, and sustainability perception. Many faculty members make extensive use of geographical information systems (GIS) in both geography and environmental sustainability research, in addition to investigating cutting edge methodological issues in geographic information sciences.

Faculty members also use a wide range of quantitative and analytic methods, including statistics remote sensing, archival methods and qualitative methodologies. The faculty is involved in wide ranging research associated with areas including natural hazards, land-use and land cover change, water resources, applied climatology and sustainability. The faculty is currently working in many geographical areas, including the United States, Canada, Latin America, Africa, the Middle East, and South and East Asia.

Thus, unique among all disciplines, geographic inquiry sits at the intersection of the social sciences, the humanities, and the natural sciences. Within the department, the research interests and expertise of faculty members cover the entire spectrum of geography including biogeography and human impacts on species distribution, applied climatology, renewable energy resources, hydrology and water resources, land cover and land use change, cultures, indigenous identities, political ecology, geohumanities, regional specialties, environmental policy and natural hazards.

Below are the current jobs our alumni have, the employment opportunities, and helpful links for each major:

Recent OU Geography Alumni - Employment

- Analyst at Inegra Realty Resources
- Assistant Planner at Association of Central Oklahoma Governments
- Associate GIS Analyst at Gulfport Energy Corp.
- Associate GIS Tech at OGE Energy Corp
- Bicycle & Pedestrian Coordinator at OK Dept. of Transportation
- Broadcast Meteorologist at TEGNA
- Community Development Specialist at City of Bethany
- EHS Data Analyst I at Chesapeake Energy
- Emergency Management Specialist, Kinston, North Carolina
- Engineering Tech at OGE Energy Corp
- GIS Tech at Aerotek
- Environment Project Specialist at Professionals Service Industries
- Environmental Services at Frito Lay
- Geospatial Analyst at Jeppesen
- GIS & Mapping Specialist at Reagan Smith Energy Solutions
- GIS Analyst at ConocoPhillips
- GIS Analyst at Enercon Services
- GIS Business Analyst III at Kalibrate
- GIS Mapping Specialist at Reagan Smith Energy Solutions
- GIS Specialist at Meshek & Associates
- GIS Specialist at ONEOK
- GIS Specialist at Zayo Group
- GIS Technician at Adecco Group
- Environmental Health Fellow with the U.S. EPA .
- Land Mapping Technologist at Encana Corporation

- Forensic Meteorologist at Weather Decision Technologies
- Mapping Support Specialist at Innovative Systems
- Marketing & Sales Coordinator at Weather Decision Technology
- Mesonet Calibration Lab Technician at Oklahoma Mesonet
- Officer in the U.S. Navy
- Project manager at Tulsa Regional Chamber of Commerce Regional Chamber of Commerce
- Sustainable Development & Transportation Planning at North Central Texas Council of Governments System
- Technician, General Dynamics Information Technology
- Technical Specialist at Baker Hughes
- Transportation planner with the North Central Texas Council of Governments

Recent OU Geography Alumni - Graduate School

- Ph.D. in Geography at the University of Maryland
- Ph.D. in Professional Counseling at Oklahoma State University
- Law Student at Penn State University
- Master of Arch at OU in landscape Arch and Urban Planning
- Master of Arts in Geography at The Univeristy of Oklahoma
- Master of Science in Geography at The University of Oklahoma
- Master of Public Health at The University of Oklahoma Health Sciences Center
- Master of City and Regional Planning at the University of North Carolina
- Master of Public Admin at George Mason
- Master in Geography and Spatial Planning at the University of Luxembourg

Career Options in Geography

- Climatologist
- Community Developer
- Community Resources Specialist
- Emergency Management
- Environmental Impact Analyst
- Environmental Scientist
- Facilities Planner
- Geointelligence Specialist
- Historic Preservationist
- Hydrologist
- Land Economist
- Land Use Analyst
- Location and Siting Analyst
- Logistics Analyst
- Map Analyst
- Map Curator / Librarian
- Natural Hazards Analys
- Natural Resources Manager
- Site Researcher
- Urban and Regional Planner
- Water Resources Specialist

Recent OU Environmental Sustainability Alumni - Employment

- Environmental Programs Specialist II at OK. Dept. of Environmental Quality
- Air Quality Program Coordinator at Choctaw Nation of OK
- Brand & Content Strategist at Opower in San Francisco
- Business Development at CleanTX in Austin
- City Planner for the City of Amarillo
- District Executive for Boys Scouts of America in OKC
- Field Scientist at Terracon in Katy, TX
- Freshest Cargo Route Manager at Fresh Approach in San Francisco
- GIS Specialist at LandWorks, Inc. in Houston, TX
- Director of Marketing and Communications at CleanTX in Austin
- Retail Strategy Architect of Digital Innovation in Norman
- GIS Specialist for Brownsfields Program for Oil and Gas Conservation Division of OK. Corp. Commission
- Health and Safety Executive (HES) Officer. Innospec Oilfield Services in OKC
- Insurance Agent at Kemper in Georgia
- Associate Planner and Program Coordinator at the Office of Sustainability in OKC
- Quality Control Analyst at Cyanotech in Hawaii
- Brown Field Coordinator at Absentee Shawnee Tribe, Office of Environmental Health and Engineering
- Natural Resources and Sustainable Development (NRSD) Graduate porgram in WDC, American University School of International Service (SIS)
- Masters of City and Regional Planning Program, UNC; Graduate Asst. UNC Highway Safety Research Center on safe routes to school

Career Options in Environmental Sustainability

Government

- Sustainable community planner
- Green economic developer
- National Park ranger
- Municipal water conservation program manager
- Green team leader for city government
- Oklahoma Department of Environmental Quality
- Oklahoma Water Resources Board
- United States Environmental Protection Agency
- United States Office of Renewable Energy and Energy Efficiency
- United Nations Sustainable Development Officer

Business

- Green energy entrepreneur
- Corporate social responsibility manager
- Environmental consultant

- Energy auditor
- Environmental journalist
- ISO certification specialist

Nonprofit

- Executive director of a local environmental nonprofit
- State-level engagement coordinator for Greenpeace
- Fundraising and grant writer for Sierra Club
- Communications manager for World Wildlife Fund

Recent OU GIS Alumni - Employment

- OU GIS Alumni hold a variety of jobs in many differing career fields. Below is just a small example of these jobs:
- GIS Technician at the 9-1-1 Dept. of the Association for Central OK Government
- Geospatial Imagery Analyst at US Navy Reserve
- Cartography Technician in Kansas City at Garmin
- Design Technician, Charlotte County, Florida
- GIS Analyst, Williams
- GIS Analyst, KAMO POWER
- GIS Analyst I, Chesapeake Energy
- GIS Technician, Chickasaw Nation, Ada, OK
- GIS Analyst II, Williams, San Antonio, TX
- GIS Analyst at Muscogee Creek Nation
- GIS Analyst, Absentee Shawnee Tribe; Office of Env. Health and Eng.
- GIS Contractor, OGE Energy
- GIS Specialist, Oklahoma Dept. of Transportation
- GIS Technician, Apply, Austin TX
- GIS Tech, Chesapeake
- GIS Tech III, Chesapeake
- GIS Technician, Meshek & Associates GIS Technician at American Energy Partners
- GIS Technician, Apex Systems
- GIS Analyst, Chesapeake Energy
- GIS Analyst, Tapstone Energy
- Routing Technician, Oklahoma Environmental Management Authority
- SAP Specialist and Warehouse Lead Supervisor over the F119 Program, URS Corporation, An AECOM Company
- Software Engineer, Centuria
- IT Analyst II, The University of Oklahoma
- GIS Research Analyst, Templeton Demographics

Career Options in GIS

- Cartographic Design
- Computer Programming
- Data Analysis, Integration, Mining and Visualization
- Database Design and Management
- Disaster Response
- Environmental Analysis and Management
- Intelligence Analyst
- Imagery Analyst
- Logistics Planning and Support
- Planning (Urban, Transportation, Resources)
- Project Management
- System Administration
- Web Mapping

Programs & Facilities

Department offices are housed primarily on the fourth, fifth and sixth floors of Sarkeys Energy Center, while laboratories are located on the first floor of the same building. Available software includes ERDAS, ENVI, ArcMap, Microsoft Office products and SPSS for statistical analysis.

The department has laboratories for physical geography, cartography, and remote sensing, and a maker space and studio for geohumanities research.

University resources include the Bizzell Memorial Library, which has an extensive collection of journals and books on geography and environmental sustainability, a large collection of maps and aerial photographs, and special collections in Western History, the History of Science, and the Geosciences.

The department also houses the Oklahoma Alliance for Geographic Education (OKAGE), an organization for geography educators in Oklahoma. OKAGE is affiliated with the National Geographic Society and its national network of state geographic alliances and national geography organizations. Also associated with the department are the experimental Geography studio, the Center for Spatial Analysis, the South Central Climate Science Center, and the Water-Energy-Food Institute (WEFI).

Study Abroad

Students majoring in geography, environmental sustainability, and geographic information science are strongly encouraged to participate in the University's Study Abroad Program during the junior or senior year. Department advisors work closely with students to ensure that courses

taken abroad will apply to their degrees. Students may study abroad in any of more than 100 cities across 50 countries around the world. Graduates of the program have studied abroad in Austria, Costa Rica, Ecuador, Ireland, Germany, Netherlands, Peru, the Galapagos Islands, and the United Kingdom (English and Scottish universities). The College of Atmospheric and Geographic Sciences offers the John T. Snow Study Abroad Scholarship; this \$1,500 award is presented each year to a junior A&GS student who plans to study abroad, in addition to funding opportunities offered by OU through the Study Abroad Program.

Scholarships

The department offers 12 awards and scholarships (6 of which are endowed) which are used annually to recognize deserving students. The Ralph and Margaret Olson Scholarship Fund provides awards to students on the basis of high academic achievement; undergraduate majors are eligible after completion of the junior year. The Clyde Bollinger Award provides awards to graduating seniors who demonstrate outstanding scholarship and enthusiasm for geography. Additional awards and scholarships are provided annually to outstanding graduate and undergraduate students. The James Davis Geography Early Scholar Award and the Gress Family Scholarship are awarded to freshmen or sophomores who declare a major in geography or environmental sustainability in the freshmen or sophomore year. The Chair's award for Outstanding Senior Capstone is awarded each year to the student or team of undergraduate students that produce an original body of work judged to be the best by the faculty members.

Undergraduate Study

BACHELOR OF ARTS AND BACHELOR OF SCIENCE

All undergraduate students majoring in geography, environmental sustainability, or geographic information science are required to complete a core curriculum in the respective degrees, which provides students with an introduction to the major areas of geography and sustainability. Both the Bachelor of Arts and Bachelor of Science degrees contain electives that allow the student (in consultation with an advisor) to craft a degree program that meets their interests in the various facets of the fields. Students are encouraged to meet with the departmental faculty advisors early in the student's academic career to begin discussing the courses best suited to the student's interests.

- Environmental Sustainability: Culture & Society, Bachelor of Arts in Environmental Sustainability (p. 460)
- Environmental Sustainability: Culture & Society, Bachelor of Science in Environmental Sustainability (p. 462)
- Environmental Sustainability: Planning & Management, Bachelor of Arts in Environmental Sustainability (p. 465)
- Environmental Sustainability: Planning & Management, Bachelor of Science in Environmental Sustainability (p. 467)
- Environmental Sustainability: Science & Natural Resources, Bachelor of Arts in Environmental Sustainability (p. 469)
- Environmental Sustainability: Science & Natural Resources, Bachelor of Science in Environmental Sustainability (p. 472)
- Geographic Information Science, Bachelor of Arts in Geographic Information Science (p. 474)
- Geographic Information Science, Bachelor of Science in Geographic Information Science (p. 476)
- Geography, Bachelor of Science in Geography (p. 479)
- Geography: Geohumanities, Bachelor of Arts in Geography (p. 481)

- Geography: Physical & Social Sciences, Bachelor of Arts in Geography (p. 483)

ACCELERATED DEGREE PROGRAMS

The department now offers accelerated Master's programs with any of our undergraduate degrees and a Masters in Regional and City Planning.

- Environmental Sustainability: Planning & Management, Bachelor of Arts in Environmental Sustainability/Master of Regional & City Planning (p. 487)
- Environmental Sustainability: Planning & Management, Bachelor of Science in Environmental Sustainability/Master of Regional & City Planning (p. 490)
- Geographic Information Science, Bachelor of Arts in Geographic Information Science/Master of Regional & City Planning (p. 493)
- Geographic Information Science, Bachelor of Science in Geographic Information Science/Master of Regional & City Planning (p. 495)
- Geography, Bachelor of Science in Geography/Master of Regional & City Planning (p. 498)
- Geography: Physical & Social Sciences, Bachelor of Arts in Geography/Master of Regional & City Planning (p. 501)

MINORS

Minors offered by the OU Department of Geography and Environmental Sustainability (DGES) provide complimentary knowledge for a variety of careers and degrees. By combining the study of environmental issues and research methods, social, economic, energy and policy considerations, and digital technologies and their applications, our minors prepare graduates to better comprehend and contribute to addressing real-world social and environmental issues.

- Environmental Sustainability, Minor (p. 485)
- Geographic Information Systems, Minor (p. 486)
- Geography, Minor
- Hydrologic Science, Minor (p. 486)
- Physical Geography, Minor (p. 487)

Graduate Study

Master of Arts/Master of Science

The Master of Arts and Master of Science degrees certify that a student has a professional grasp of the concepts and techniques of geography/environmental sustainability and has demonstrated competence and originality in their use. The degrees can be acquired by one of two methods—a thesis option or a non-thesis option.

- Master of Science in Environmental Sustainability (p. 503)
- Master of Art in Geography (p. 504)
- Master of Science in Geography (p. 505): Geospatial Technologies (p. 505)
- Master of Science in Geography (p. 506): (p. 506)Physical Geography (p. 506)

Graduate Certificates

Students interested in pursuing Geospatial Technologies (p. 507) Graduate Certificate must be currently enrolled in a graduate program at the University of Oklahoma.

Doctoral Programs

The Geography Doctoral Program (p. 507) is designed to provide students with a high degree of professional competence in geography, including an important, original contribution to knowledge.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
de Beurs	Kirsten	M	2010	CHAIR OF DEPARTMENT OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2015; CIMMS FELLOW, 2012; PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2018; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2018	PhD, Univ of Nebraska, 2005; MS, Wageningen Univ, 2000
Gliedt	Travis	J	2012	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2018	PhD, Univ of Waterloo, 2012; MS, Univ of Waterloo, 2006; BS, Univ of Waterloo, 2005
Greene	John	S	1995	PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2008; DIRECTOR, OKLAHOMA WIND POWER INITIATIVE, 2015	PhD, Univ of Delaware, 1994; MA, Univ of Hawaii, 1990; BA, Univ of California Berkeley, 1987
Hoagland	Bruce	W	1996	HERITAGE COORDINATOR OF OKLAHOMA BIOLOGICAL SURVEY, 1999; ASSOCIATE HERITAGE ECOLOGIST OF OKLAHOMA BIOLOGICAL SURVEY, 2002; PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2011; PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2011	PhD, Univ of Oklahoma, 1995; MS, Eastern Kentucky Univ, 1990; BA, Univ of Louisville, 1986
Koch	Jennifer	A M	2014	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2014	Dr.-Ing, Univ of Kassel, 2010; Diplom, Univ of Bayreuth, 2005
Lawhon	Mary		2017	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2017	PhD, Clark Univ, 2011; M Env & Dev, Univ of KwaZulu-Natal, 2004; BA, Univ of Kansas, 2003

Loraamm	Rebecca	W	2015	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2015	PhD, Univ of South Florida, 2015; MS, Univ of South Florida, 2011; BS, Florida Southern Univ, 2009
Moreno Ramirez	Hernan	A	2015	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2015	PhD, Arizona State Univ, 2012; MS, Univ Nacl De Colombia-Medellin, 2005; BS, Univ Nacl De Colombia-Medellin, 2002
Neeson	Thomas	M	2015	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2015	PhD, Univ of Michigan, 2010; MA, Univ of Michigan, 2009; MS, Case Western Reserve Univ, 2005; BS, Case Western Reserve Univ, 2003
Pierce	Joseph		2017	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2017; ADJUNCT ASSISTANT PROFESSOR OF REGIONAL AND CITY PLANNING, 2017	PhD, Clark Univ, 2011; MA, Clark Univ, 2010; MA, New York Univ, 2007; BA, Hampshire College, 2000
Purcell	Darren	E	2009	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2013	PhD, Florida State Univ, 2003; MA, Univ of Kentucky, 1996; BA, Univ of Kentucky, 1991
Rundstrom	Robert	A	1991	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 1997; ADJUNCT ASSOCIATE PROFESSOR OF NATIVE AMERICAN STUDIES, 1998	PhD, Univ of Kansas, 1987; MA, California State Univ, 1980; BA, Univ of California Berkeley, 1975
Shafer	Mark	A	1990	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2012; RESEARCH SCIENTIST OF OKLAHOMA CLIMATOLOGICAL SURVEY, 2012; CIMMS FELLOW, 2012	PhD, Univ of Oklahoma, 2005; MS, Univ of Oklahoma, 1990; BS, Univ of Illinois, 1987

Smith	Laurel	C	2007	ADJUNCT ASSISTANT PROFESSOR OF WOMEN'S AND GENDER STUDIES, 2008; ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2014; ADJUNCT ASSOCIATE PROFESSOR OF INTERNATIONAL AND AREA STUDIES, 2016	PhD, Univ of Kentucky, 2005; MA, Univ of Oklahoma, 1994; BA, Univ of Wisconsin, 1989
Widener	Jeffrey	M	2013	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2018; DIRECTOR FOR CENTER FOR SPATIAL ANALYSIS (CSA), 2018	PhD, Univ of Oklahoma, 2015; MA, Univ of Central Oklahoma, 2010; BA, Univ of Central Oklahoma, 2008
Wimberly	Michael		2018	PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2018	Phd, Oregon State Univ; MS, Univ of Washington; BA, Univ of Virginia
Ziolkowska	Jadwiga		2014	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2018	Habilitation, Humboldt Univ of Berlin, 2013; PhD, Humboldt Univ of Berlin, 2007; MS, Univ of Rzeszow, 2004

Environmental Sustainability: Culture & Society, Bachelor of Arts in Environmental Sustainability

Major Requirements

- Courses required for the major may also fulfill University-Wide General Education Requirements.

Code	Title	Credit Hours
Core		
GEOG 1203	Global Environmental Issues	3
GEOG 3233	Principles of Sustainability	3
GEOG 3443	Environment and Society	3
GEOG 3924	Quantitative Methods	4
GEOG 3773	Geography of the United States	3

GEOG 4523	Life Cycle Analysis	3
GEOG 4893	Research Methods and Professional Development	3
GEOG 4953	Capstone (Capstone)	3

Culture & Society

Choose a minimum of 12 hours (p. 460)	12
Total Credit Hours	40

Major Support Requirements

- Courses required for major support may *not* also fulfill University-Wide General Education Requirements.

Additional College Requirements

Code	Title	Credit Hours
Advisor-Approved Electives		
Choose 24 hours of advisor-approved coursework relevant to the student's field(s) of study. These 24 hours are to be outside the student's major School or Department, and must include six hours at the upper-division level (3000-4000-level)		24
Total Credit Hours		24

Culture & Society Course List

A minimum of 12 hours of Culture & Society coursework is required in the major, to be chosen from the following courses or other advisor-approved courses, **with no more than two courses from one department.**

Code	Title	Credit Hours
ANTH 4303	Women and Development in Africa	3
ARCH 4363	Sustainability: Ethics, Efficiency, Community & Design	3
GEOG 3253	Environmental Conservation	3
GEOG 3563	Geography of Natural Resources	3
GEOG 3843	Gender and Environment	3
GEOG 4200	Internship in Geography	1-6
GEOG 4573	Indigenous Peoples and Resources	3
GEOG 4583	Energy Systems and Sustainability	3
HSCI 3483	Technology, Politics, and International Development	3
IAS 3323	The Political Economy of Development	3
NPNG 3033	Fundamentals of Nonprofit Management II	3
SOC 3643	Population and Society	3

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course lists at <http://www.ou.edu/content/gened/courses.html>.

University-Wide General Education (Minimum 40 hours) and College Requirements

Courses graded P/NP will not apply.

At least three hours of Upper-Division General Education coursework must be completed outside the major.

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3

ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-10 hours)</i>		
(0-10 hours) Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language		
Beginning Course		0-5
Beginning Course, continued		0-5
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, 2 courses)		
Choose two courses including one laboratory component		7
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities		
<i>Understanding Artistic Forms (3 hours)</i>		
Choose one course from the General Education Understanding Artistic Forms list		3
<i>Western Civilization and Culture (3 hours)</i>		
HIST 1483	United States, 1492 to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483 & 1493)		3
<i>Non-Western Culture (3 hours)</i>		
Choose one course from the General Education Non-Western Culture list		3
Core Area V: Senior Capstone Experience		
3 hours, fulfilled in Major Requirements		3
Total Credit Hours		37-47

Additional College B.A. Requirements

Code	Title	Credit Hours
Humanities and Social Science Electives (3 hours must be Upper-Division)		
Choose one course from Humanities Gen Ed lists		3
Choose one course from the Social Science Gen Ed list		3
Natural Science Elective		
Choose one Gen Ed-approved course with or without a laboratory component		3-4
Foreign Language		
Choose one course at the intermediate level ²		3
Total Credit Hours		12-13

¹If the student successfully places beyond the second intermediate course, the 13 hours of required foreign language will become free electives.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

HIST 1483	United States, 1492 to 1865	3
	or HIST 1493 United States, 1865 to the Present	
	Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483 & 1493)	3

<i>Non-Western Culture (3 hours)</i>	
Choose one course from the General Education Non-Western Culture list	3
Core Area V: Senior Capstone Experience	
3 hours, fulfilled in Major Requirements	3
Total Credit Hours	37-47

Additional College B.A. Requirements

Code	Title	Credit Hours
Humanities and Social Science Electives (3 hours must be Upper-Division)		
	Choose one course from Humanities Gen Ed lists	3
	Choose one course from the Social Science Gen Ed list	3
Natural Science Elective		
	Choose one Gen Ed-approved course with or without a laboratory component	3-4
Foreign Language		
	Choose one course at the intermediate level ²	3
Total Credit Hours		12-13

¹If the student successfully places beyond the second intermediate course, the 13 hours of required foreign language will become free electives.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
	or EXPO 1213 Expository Writing	
<i>Foreign Language (0-10 hours)</i>		

(0-10 hours in the same language) Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language

Beginning Course		0-5
Beginning Course, continued		0-5
<i>Mathematics (minimum 3 hours)</i>		
MATH 1914	Differential and Integral Calculus I ¹	4
Core Area II: Natural Science (minimum 7 hours, 2 courses)		
CHEM 1315	General Chemistry (Science with Lab) ¹	5
PHYS 2514	General Physics for Engineering and Science Majors (Science without Lab) ¹	4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
	Choose one course from the General Education Social Science list	3
Core Area IV: Humanities		
<i>Understanding Artistic Forms (3 hours)</i>		
	Choose one course from the General Education Artistic Forms list.	3
<i>Western Civilization and Culture (6 hours)</i>		
HIST 1483	United States, 1492 to 1865	3
	or HIST 1493 United States, 1865 to the Present	
	Choose one course from the General Education Western Civilization & Culture list (Excluding HIST 1483 and HIST 1493)	3
<i>Non-Western Culture (3 hours)</i>		
	Choose one course from the General Education Non-Western Culture list	3
Core Area V: Senior Capstone Experience		
	3 hours required, fulfilled in Major Requirements	3
Total Credit Hours		40-50

¹College of Atmospheric and Geographic Sciences requirements.

At least three hours of Upper-Division General Education coursework must be completed outside the major.

Additional College Bachelor of Science Requirements

Code	Title	Credit Hours
MATH 2924	Differential and Integral Calculus II ¹	4
PHYS 2524	General Physics for Engineering and Science Majors	4
Total Credit Hours		8

¹MATH 1823, MATH 2423, and MATH 2433 will also fulfill the college's calculus requirement.

Free Electives

Electives to bring total applicable hours to 120 including 40 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

Free Electives

Electives to bring total applicable hours to 120 including 40 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU

Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography and Environmental Sustainability academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Geography major requirements.

Natural Science Elective		
	Choose one Gen Ed-approved course with or without a laboratory component	3-4
Foreign Language		
	Choose one course at the intermediate level ²	3
Total Credit Hours		12-13

¹If the student successfully places beyond the second intermediate course, the 13 hours of required foreign language will become free electives.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography and Environmental Sustainability academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Geography major requirements.

Total Credit Hours		18

¹To be selected from the Area of Concentration lists for the Environmental Sustainability degrees (Culture & Society, Planning & Management, and Science & Natural Resources). It is preferred that these courses *not* be from the Geography and Environmental Sustainability department.

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Geographic Information Systems, Minor

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree**

A minimum 2.00 GPA is required in all work presented for minor credit.

Required Courses

Code	Title	Credit Hours
Required Course		
GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3
Electives		
Choose 12 hours, with at least 9 hours at the upper division (3000+) level, from the following:		12
GEOG 3483	Remote Sensing & Phenology	
GEOG 3924	Quantitative Methods	
GIS 4013	Fundamentals of Geographic Information Systems	
GIS 4133	Fundamentals of Remote Sensing	
GIS 4233	Digital Image Processing	
GIS 4253	GIS Applications	
GIS 4453	Advanced GIS and Spatial Analysis	
GIS 4653	Spatial Programming and GIS	
GIS 4923	Spatial Statistics	
GIS 4970	Special Topics/Seminar	
Total Credit Hours		15

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Geography, Minor

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

A minimum 2.00 GPA is required in all work presented for minor credit.

Required Courses

Code	Title	Credit Hours
Fundamentals		
Choose a minimum of 6 hours from the following:		6
GEOG 1103	Human Geography ¹	

GEOG 1114	Physical Geography ²	
GEOG 1123	Introduction to Geohumanities	
GEOG 1213	Economic Geography ³	

Techniques

Choose one of the following:		3-4
GEOG 3924	Quantitative Methods	
GIS 4013	Fundamentals of Geographic Information Systems	
GIS 4133	Fundamentals of Remote Sensing	
GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3

Upper Division Electives

Choose at least 6 additional hours of upper division (courses numbered 3000+) graded Geography courses selected in consultation with an academic advisor from the Department of Geography		6
---	--	---

Total Credit Hours 18

¹Also fulfills a General Education Western Civilization requirement.

²Also fulfills a General Education Natural Science with Lab requirement.

³Also fulfills a General Education Social Science requirement.

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Hydrologic Science, Minor

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

The Hydrologic Science minor is designed for students who are interested in expanding their understanding of the role of water in our environment.

The minor requires a minimum of 15 semester credit hours, to include at least one course each from Meteorology, Geography, and Civil or Environmental Engineering. No more than (9) hours may come from any one discipline.

For Meteorology majors, successful completion of the Hydrologic Science minor will satisfy the required elective in meteorology, hydrology, or climatology.

A minimum 2.00 GPA is required in all work presented for minor credit.

Required Courses

Code	Title	Credit Hours
Choose a minimum of 15 hours from the following:		
CEES 4123	Open Channel Flow	
ENGR 4510	Selected Topics	
GEOG 4273	Regional Climatology	
GEOG 4293	Hydrologic Science	
GIS 4013	Fundamentals of Geographic Information Systems	
METR 4624	Radar Meteorology	

METR 4633	Hydrometeorology	
Total Credit Hours		15

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Physical Geography, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

This minor is not available to Geography Majors.

Required Courses

A minimum 2.00 GPA is required in all work presented for minor credit.

- Topics in GEOG 3890 and GEOG 4990 that are related to Physical Geography will also apply.
- In addition to GIS 4133, one upper division course from the Minor in Geospatial Information Science (N467) may be substituted for a course in this minor.

Code	Title	Credit Hours
Choose a minimum of 15 hours from the following:		15
GEOG 3023	Principles of Physical Geography	
GEOG 4203	Geomorphology	
GEOG 4273	Regional Climatology

SOC 3643	Population and Society	3

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course lists at <http://www.ou.edu/content/gened/courses.html>.

University-Wide General Education (Minimum 40 hours) and College Requirements

Courses graded P/NP will not apply.

At least three hours of Upper-Division General Education coursework must be completed outside the major.

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-10 hours)</i>		
(0-10 hours) Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language		
Beginning Course		0-5
Beginning Course, continued		0-5
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, 2 courses)		
Choose two courses including one laboratory component		7
Core Area III: Social Science (6 hours)		

P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3

Core Area IV: Humanities

Understanding Artistic Forms (3 hours)

Choose one course from the General Education Understanding Artistic Forms list		3
<i>Western Civilization and Culture (3 hours)</i>		

HIST 1483	United States, 1492 to 1865	3
or HIST 1493	United States, 1865 to the Present	

Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483 & 1493)		3
<i>Non-Western Culture (3 hours)</i>		

Choose one course from the General Education Non-Western Culture list		3
---	--	---

Core Area V: Senior Capstone Experience

3 hours, fulfilled in Major Requirements		3
--	--	---

Total Credit Hours		37-47
---------------------------	--	--------------

Additional College B.A. Requirements

Code	Title	Credit Hours
------	-------	--------------

Humanities and Social Science Electives (3 hours must be Upper-Division)

Choose one course from Humanities Gen Ed lists		3
Choose one course from the Social Science Gen Ed list		3

Natural Science Elective

Choose one Gen Ed-approved course with or without a laboratory component		3-4
--	--	-----

Foreign Language

Choose one course at the intermediate level ²		3
--	--	---

Total Credit Hours		12-13
---------------------------	--	--------------

¹If the student successfully places beyond the second intermediate course, the 13 hours of required foreign language will become free electives.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

Course	Title	Credit Hours

Electives to bring total applicable hours to 150.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
	Beginning Foreign Language (Core I)	5
	General Education Mathematics course (Core I) ¹	3
	General Education Social Science (Core III) ¹	3
Credit Hours		14
Second Semester		
ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 or Expository Writing	3
	Beginning Foreign Language continued (Core I)	5
P SC 1113	American Federal Government (Core III)	3
	General Education Natural Science (Core II) ¹	3
	College Elective ²	3
Credit Hours		17
Sophomore		
First Semester		
GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3
	Intermediate Foreign Language	3
HIST 1483	United States, 1492 to 1865 (Core IV) or HIST 1493 or United States, 1865 to the Present	3
	General Education Understanding Artistic Forms (Core IV) ¹	3
	General Education Humanities elective ¹	3
Credit Hours		15
Second Semester		
GEOG 3023	Principles of Physical Geography	3
	General Education Social Science elective ¹	3
	General Education Natural Science with laboratory (Core II) ¹	4
	General Education Non-Western Culture (Core IV) ¹	3
	General Education Western Civilization & Culture (Core IV) ¹	3
Credit Hours		16
Junior		
First Semester

RCPL 5203	Urban Land Use Controls ³	3
	College Elective ²	3
Credit Hours		15

Senior		
First Semester		
GEOG 4893	Research Methods and Professional Development	3
	GEOG elective	3
	Regional GEOG course	3
	College Elective ²	3
RCPL 5013	History and Theory of Urban Planning ³	3
RCPL 5113	Urban Planning Research Methods	3
Credit Hours		18
Second Semester		
GEOG 4953	Capstone	3
RCPL 5173	Urban and Regional Analysis ³	3
	Breadth course in selected RCPL specialization	3
Free Elective		3
Credit Hours		12
Fifth Year		
First Semester		
Choose one of the following:		3-5
RCPL 5525	Comprehensive Regional And City Planning Project	
RCPL 5523	Comprehensive RCPL Project: Research and Plan Making ⁴	
	Breadth course in selected RCPL specialization	3
	Breadth course in non-selected specialization	3
	RCPL specialization elective	3
Credit Hours		14
Second Semester		
RCPL 5053	Planning Management ³	3
	Breadth course in selected RCPL specialization	3
	RCPL specialization elective	3
	RCPL specialization elective	3
Choose the following if RCPL 5523 taken in the Fall:		0-2
RCPL 5522	Comprehensive RCPL Project: Reporting and Implementation	
Credit Hours		12
Total Credit Hours		149

¹To be chosen from the University-Wide General Education Approved Course List. Three hours of general education must be upper-division outside the major.

²Twelve hours of advisor-approved coursework relevant to the student's field(s) of study. These hours are to be outside the student's major School or Department.

³These courses are shared between the undergraduate and graduate degrees.

⁴In addition to taking RCPL 5522 in the Spring.

Note: No more than 52 hours of Geography coursework may be taken to fulfill the 120 minimum total credit hours required for the undergraduate degree.

Environmental Sustainability, Master of Science in Environmental Sustainability

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in

all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master’s degree students may be found in the Graduate College Bulletin.

Geospatial Technologies, Graduate Certificate

Masters students in the existing degree program may be focused in physical geography, human geography, or applications of geotechnologies to geographic questions. For this certificate, however, we recommend a subset of existing courses to focus on one or more of the following: geographical information systems (GIS), remote sensing (RS), or management of geodatabases associated with GIS, RS, or other geospatial technologies.

The embedded certificate consists of a minimum of 12 hours consisting of at least four courses, at least two of which are required to have the GIS prefix.

Certificate Requirements

Code	Title	Credit Hours
Fundamentals ¹		
GIS 5013	Fundamentals of Geographic Information Systems	3
or GIS 5133	Fundamentals of Remote Sensing	
Techniques		
Choose at least two courses from the following:		5-6
GIS 5923	Spatial Statistics	
GIS 5653	Spatial Programming and GIS	
ISE 5103	Intelligent Data Analytics	
MIT 5612	Database Design and Administration	
C S 5093	Visual Analytics	
Advanced/Applied Courses ²		
Choose at least one course from the following:		3-4
<i>Geographic Information Science Track</i>		
GIS 5253	GIS Applications	
GIS 5453	Advanced GIS and Spatial Analysis	
GEOG 5623		
RCPL 5463	Geographic Information Systems for Land Use Planning	
RCPL 5970	Special Topics/Seminar (Topic: Advanced GIS)	
<i>Remote Sensing Track</i>		
GIS 5233	Digital Image Processing	
CEES 5903	Remote Sensing Hydrology	
PBIO 5733	Environmental Remote Sensing	
METR 5673	Weather Radar Theory and Practice	
Total Credit Hours		12

¹If the student previously finished a fundamentals course as an undergraduate, they should take a second course from the Advanced/Applied list instead.

²If students started in the Geographic Information Science track, they should continue in this track when choosing Advanced/Applied courses. If students started in the Remote Sensing track, they should continue in this track when choosing Advanced/Applied courses.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Geography and Environmental Sustainability Doctoral Programs

Doctor of Philosophy

The Ph.D. degree certifies that a student has mastered a significant body of geographical knowledge and has demonstrated a high degree of professional competence as a geographer by making an important, original contribution to knowledge. The Ph.D. requires:

- a total of at least 90 semester hours of graduate credit beyond the bachelor’s degree;
- successful completion of GEOG 6973 , GEOG 6953 , and two three-credit hour seminars or graduate courses;
- the demonstration of an acceptable level of competence in two areas of specialization;
- development of a cognate field; and
- completion of an acceptable written dissertation followed by an oral defense of that dissertation.

All Ph.D. students must identify an advisory committee which will consist of the advisor and four other faculty members, one of whom must be from a discipline other than geography.

Students are expected to declare provisional specialties, in consultation with the advisory committee, by the end of the second semester of residence in the Ph.D. program. Coursework requirements in connection with this specialty, as well as with the cognate field, are determined by the student and the advisory committee in a formal conference held before the end of the first year of residence.

Each student must select a cognate field or discipline related to their area of specialization. The advisory committee must approve both the cognate field and the courses which fulfill this requirement.

The readiness of a student to proceed with dissertation research will be evaluated by a proposal as well as written and oral examinations. The proposal presentation will be open to the general public and must be announced in advance, giving the entire department and public a chance to participate. A written statement of the proposal shall be given to each member of the dissertation committee and to the remaining members of the faculty. The comprehensive examinations will be administered by an examining committee of five faculty members, three from geography and at least one external committee member. The written portion of the examination will cover the degree specializations

and cognate field. The examination will be prepared by the advisor from questions suggested by members of the examining committee. The oral examination will consist of follow-up questions related to the written portion and to the student's knowledge of geographic thought and methodology. Satisfactory completion of the written and oral portions of the general examination is followed by formal certification of candidacy for the Ph.D. degree.

The final requirement is the preparation and oral defense of a Ph.D. dissertation, which must be a major piece of research recognized by the dissertation committee as a significant contribution to knowledge. The dissertation committee must consist of at least five faculty members; three or more of them must be faculty members in the department and also on the geography graduate faculty of the University. Members of the advisory committee will normally remain as members of the examination and dissertation committees. All changes in committee membership must be forwarded to the Graduate College for approval at least 30 days prior to defense of the dissertation.

After advancement to candidacy for the Ph.D. degree, a student is expected to submit a dissertation manuscript within four years. After this time, at the discretion of the Department of Geography faculty, the student may be required to repeat the general examinations and/or to resubmit a dissertation proposal as a condition for remaining a degree candidate. As long as there is clear evidence that a student is making progress and is keeping up-to-date professionally, the four-year time period may be extended on recommendation of the dissertation committee. Experience shows, however, that long delays tend to increase the likelihood of problems in completing a dissertation.

The final defense of the dissertation will be scheduled only after the committee has agreed to approve the draft as nearly complete. Procedures for this defense shall follow those outlined by the Graduate College. Major points of conflict regarding substance or style should be resolved before the final defense. However, minor additions and revisions may be expected after the defense.

School of Meteorology

Jens Redemann, Director
National Weather Center
120 David L. Boren Blvd., Suite 5900
Norman, OK 73072-7307

FAX: (405) 325-7689
jredemann@ou.edu
meteorology.ou.edu

General Information

Meteorology, or atmospheric science, is the study of the atmosphere and its interaction with Earth's surface, oceans, and biological systems. Meteorologists seek to describe, understand, and predict weather phenomena that occur on spatial scales ranging from millimeters to thousands of kilometers, and on time scales from microseconds to thousands of years or longer. These phenomena range from localized thunderstorms and tornadoes, to regional frontal systems and hurricanes, to global climate change.

Major scientific areas of research in meteorology today include weather, climate, and the interactions between them. This includes the study and prediction of severe and hazardous weather events that strongly affect life and property. These events include, but are not limited to, lightning,

tornadoes, floods, hail, blizzards, dense fog and hurricanes. Research activities regarding climate and weather-climate interactions include the study of past climates, regional climate, surface and boundary layer processes, climate change and seasonal forecasting. The School of Meteorology is actively engaged in research on all the above-mentioned topics.

The School of Meteorology at the University of Oklahoma is the largest such program in the nation. The undergraduate and graduate programs are unique due to our co-location with NOAA, Department of Interior and Department of Energy programs as well as several university strategic organizations, which broaden the education, training and research portfolio of the school. The school is routinely ranked near the top of the nation in terms of undergraduate awards, such as the annual number of undergraduate scholarships awarded from the NOAA Hollings and American Meteorological Society (AMS) programs. Our students have received numerous best poster and best oral presentation awards at recent conferences and symposium.

Programs & Facilities

National Weather Center

A unique feature of the School of Meteorology is that it has close ties with several university-based state and federal research and operational organizations in Norman. Collectively known as the National Weather Center, these organizations include the School of Meteorology, the Department of Geography and Environmental Sustainability, the Oklahoma Climatological Survey, Center for Spatial Analysis, the Cooperative Institute for Mesoscale Meteorological Studies, the Center for Analysis and Prediction of Storms, the Atmospheric Radar Research Center, the Environmental Verification and Analysis Center, the National Severe Storms Laboratory, the National Weather Service Forecast Office, the Storm Prediction Center, the WSR-88D Doppler Radar Operations Center, and the Warning Decision Training Branch. These organizations provide part- and full-time employment opportunities for undergraduate and graduate students as well as opportunities to participate in state-of-the-art research projects and observational field programs. The high concentration of research and operational institutions also attracts a large number of distinguished visiting scientists for stays varying in length from a day to a year. Nearly all of these organizations have been housed together in the new National Weather Center building since fall 2007.

Facilities available to students and faculty include a PC LINUX-based lab/classroom (25 machines), a general-purpose Apple Macintosh computer lab as well as departmental servers for email, World Wide Web, and weather data. Departmental computing resources are augmented by the College of Atmospheric and Geographic Sciences Amoco PC lab and the resources of the OU Supercomputing Center, OSCER. All these resources are interconnected through the campus network of wired and wireless connections and to the Internet for access to national super-computer centers, the World Wide Web, and other stops on the information superhighway. The school provides a full suite of current weather data, radar data and forecast products from the National Weather Service. Data are also available from the Oklahoma Mesonet, a unique network of remotely operated ground-based sensors providing current weather at the county level for the entire state. The school also helps support two large mobile Doppler radar vehicles (SMART-R) for the detailed study of tornadoes, thunderstorms, hurricanes, fronts and other small-scale phenomena. Observational and experimental work and instrumentation development are pursued in laboratories located in the school, OCS, and on the roof of the NWC. Hands-on experience is

an important part of the degree programs of the School of Meteorology. Facilities at the National Weather Center and its partners taken together provide unique opportunities and challenges for students of all levels.

Atmospheric Radar Research Center (ARRC)

Under the auspices of the University of Oklahoma's Strategic *Radar Initiative*, faculty members from the Schools of Meteorology and Electrical and Computer Engineering have united to form an interdisciplinary team of scientists and engineers to solve challenging Doppler radar research problems and prepare the next generation of students. Through the collaborative nature instilled in its members, the ARRC has proven effective at developing synergy in the field of weather radar between science and engineering. In the National Weather Center and its laboratory facilities in One Partner's Place, meteorology and engineering faculty and students work side-by-side to learn from each other in a true team environment. This interdisciplinary *esprit de corps* has already had a profound effect on both the undergraduate and graduate educational experiences in radar provided to OU students. Since being established in 2004, the ARRC has grown to include 10 faculty members, over 30 graduate students, and several postdoctoral fellows. Areas of research concentration are in radar configuration/design/ optimization, signal processing, phased array/imaging, retrieval algorithm development, quantifications of radar performance and measurement uncertainty, cloud/precipitation microphysics, severe convective storms, boundary layer dynamics, wind-field retrieval, radar-based model parameterization and initialization, electro-magnetic signatures of targets, birds, insects, and hydrometeors, waves in random media, and polarimetry/interferometry techniques. The ARRC offers graduate research assistantships, post-doctoral fellowships, visiting scientist appointments, and undergraduate fellowships. For additional information, visit the ARRC's website.

Center for Analysis and Prediction of Storms (CAPS)

CAPS originated in 1989 as a National Science Foundation Science and Technology Center and graduated from this program in 2000. It continues to be supported by a number of agency grants as well as private industry, and its primary mission remains the development of techniques for the prediction of high-impact local weather with an emphasis on thunderstorms and mesoscale phenomena. Its research programs include numerical modeling and computational fluid dynamics, data assimilation, small-scale predictability, physical process studies, Doppler radar analysis and forecast evaluation. CAPS recently helped initiate a new NSF Engineering Research Center for Collaborative Adaptive Sensing of the Atmosphere (CASA) that is focused on developing new Doppler radar technology and also leads an NSF Information Technology Research grant known as Linked Environments for Atmospheric Discovery (LEAD). CAPS offers graduate research assistantships, post-doctoral fellowships, visiting scientist appointments, and undergraduate fellowships. For additional information, visit the Center's website.

Cooperative Institute for Mesoscale Meteorological Studies (CIMMS)

CIMMS is a joint University of Oklahoma/NOAA cooperative institute designed to improve the effectiveness of research and instruction by providing a stimulating environment where scientists can meet and work on problems of mutual interest. Current research themes include convective and mesoscale processes, forecast improvements, climatic effects of/controls on mesoscale processes, socioeconomic impacts of mesoscale weather systems and regional-scale climate variations, Doppler weather radar research and development, and climate change monitoring and detection. CIMMS is also the home of the Site Scientist

for the DOE Atmospheric Radiation Measurement (ARM) Program for the Southern Great Plains, and the Data Quality Office for all three ARM Sites (Southern Great Plains, Tropical Western Pacific, North Slope of Alaska). CIMMS is housed on the second and third floors in the National Weather Center. For additional information, visit the Institute's website.

South Central climate science center (csc)

The South Central Climate Science Center began in 2012, and in 2014 South Central CSC published its *Tribal Engagement Strategy*. As part of the strategy, they began to build tribal capacity in climate-related areas, invest in the next generation of tribal staff, and train climate researchers to invest in these relationships, among many other new goals. From 2013-2015 the team has had 28 total trainings, 554 tribal attendees, engaged 91 different tribes and nations, and has had 5100 contact hours with first nations. The youth of the tribes have not gone unnoticed in the *Tribal Engagement Strategy*. From 2013-2016, 24 tribal youth events were held by the South Central CSC, and South Central CSC staff members mentored 16 Native American undergraduate and graduate students. In only five years of existence, the South Central CSC has had tremendous success with inclusion and partnership with first nations. The South Central CSC has had the privilege of being able to engage with 61 of the 68 regional tribes or nations. Led by School of Meteorology alumna and adjunct associate professor (and DGES associate professor) Dr. Renee McPherson, the South Central CSC works "with natural and cultural resource managers to gather the scientific information and build the tools needed to help fish, wildlife and ecosystems adapt to the impacts of climate change", according to their website. This important work is accomplished through "a collaborative partnership among USGS scientists, resource management agencies, and a consortium of academic institutions from across the region, including Texas Tech University, Louisiana State University, the Chickasaw Nation, the Choctaw Nation of Oklahoma, Oklahoma State University, and NOAA's Geophysical Fluid Dynamics Lab."

National Severe Storms Laboratory (NSSL)

The NOAA National Severe Storms Laboratory (NSSL) is dedicated to improvement of our understanding of severe convective and mesoscale events. Areas of emphasis include forecasting and analysis techniques, radar development and applications, and applications of multi-scale numerical forecast models. Research assistantships are available through CIMMS and adjunct faculty at the NSSL supervise graduate student research in the School of Meteorology.

National Weather Service Forecast Office (NWSFO)

The NWSFO, a technologically advanced forecast facility prepares and disseminates life-saving warnings, watches and advisories for all types of hazardous weather conditions affecting 48 counties in central, western and southern Oklahoma, and eight counties in western north Texas. Intern and temporary position opportunities are available for OU students.

National Weather Service Storm Prediction Center (SPC)

The NOAA Storm Prediction Center (SPC) is the NWS national center of expertise for mesoscale hazardous weather forecasting. It has responsibility for issuing tornado and severe thunderstorm warnings for the contiguous United States. In addition, SPC prepares outlooks of areas with expected tornado and severe thunderstorm activity during the next eight days. The SPC also produces eight-day forecasts for areas of the country where conditions are compatible with the ignition and spread of wild fires, and short-term forecasts of mesoscale features associated with hazardous winter weather and excessive precipitation. The SPC is one of the organizing partners of the NOAA Hazardous

Weather Testbed which explores ways to improve the timeliness and accuracy of hazardous weather forecasts. The SPC collaborates with meteorologists from around the world, and has conducted many joint projects with programs in the College of Atmospheric and Geographic Sciences.

The **Warning Decision Training Branch** develops and delivers training on the integrated elements of the warning process within a National Weather Center forecast office.

Oklahoma Climatological Survey (OCS)

The OCS is a state agency housed at the University of Oklahoma and serves as one component of the School of Meteorology's current research cluster. The OCS is a dual-purpose organization functioning as a service provider and conducting cutting-edge research. OCS contributes data resources and expertise in a broad field of interests such as climate and climate change, real-life application of weather data, and the operation of the Oklahoma Mesonet, Oklahoma's weather network. Research interests include K-20 education, first-responder instruction and support, surface transportation monitoring systems, and weather instrumentation research. The main office of OCS is located in the National Weather Center, part of the new Norman Research Campus. For additional information, visit the agency's website.

Radar Operations Center (ROC)

The ROC, a NOAA organization partially located in the National Weather Center provides life-cycle hardware and software engineering and maintenance support for a world-class network of 167 Doppler weather radars (also known as NEXRAD) installed nationwide and at several overseas locations. The ROC uses a co-located WSR-88D radar for development and testing, operates a helpdesk to support operations and maintenance activities, and deploys teams of engineers and technicians to perform major maintenance. Working in collaboration with NSSL and OU researchers, the ROC transitions new radar techniques and products to operations to continually improve the nation's weather radar capabilities.

Exchange Program

The School of Meteorology has developed exchange programs with the University of Reading in England, Hamburg University in Germany, and Monash University in Australia. Meteorology majors at the University of Oklahoma can apply to study abroad at one of these institutions during the spring semester of their junior year. Students complete the equivalent of OU meteorology requirements at one of these schools, so there is no delay in graduation. The College of Atmospheric and Geographic Sciences also offers the John T. Snow Study Abroad Scholarship; this \$1,000 award is presented each year to a junior A&GS student who plans to study abroad. Visit School of Meteorology Study Abroad for more information about these programs.

Scholarships and Financial Aid

Depending on availability of funds, the school offers a number of scholarships per year for each of its freshman, sophomore, junior and senior classes. These awards are primarily based on merit and qualified students will receive application forms from the school in advance of the next academic year. The School of Meteorology encourages all applicants to seek University-wide scholarships and financial aid for which they may be eligible. The department offers graduate teaching and research assistantships to highly qualified applicants with undergraduate degrees in meteorology or atmospheric science, physics, mathematics, computer

science, engineering, or other related fields. For information, please write to:

Director, School of Meteorology
University of Oklahoma
120 David L. Boren Blvd., Suite 5900
Norman, OK 73072

Undergraduate Study

Bachelor of Science in Meteorology

The Bachelor of Science in Meteorology (p. 511) is a rigorous degree program designed to prepare students to enter the workforce as strong competitors, or to move on to graduate school at a top institution.

Minors

The College of Atmospheric and Geographic Sciences offers students in the physical sciences and engineering majors a Meteorology Minor (p. 515) and a Weather and Climate Minor (p. 515). Meteorology majors are also encouraged to consider minors offered through other OU academic programs. Possible minors include math, physics, computer science, physical geography, geographic information science, interdisciplinary perspectives on the environment, hydrologic science, general business, entrepreneurship, astronomy, chemistry and geology.

Graduate Study

The School of Meteorology is generally considered at or near the top spot for graduate research on convective storms, radar, and mesoscale meteorology. The school, however, has developed a broad research portfolio in recent years through the addition of new faculty giving us excellent researchers in climate, polar processes and atmospheric chemistry including tropospheric-stratospheric exchanges.

- Master of Science in Meteorology (p. 521)
- Meteorology PhD (p. 521)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Basara	Jeffrey	B	2001	CIMMS FELLOW, 2007; ASSOCIATE PROFESSOR OF METEOROLOGY, 2012; 2018; ASSOCIATE PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE	PhD, Univ of Oklahoma, 2001; MS, Univ of Oklahoma, 1998; BA, Purdue Univ, 1994
Biggerstaff	Michael	I	2002	CIMMS FELLOW, 2002; PROFESSOR OF METEOROLOGY, 2015	PhD, Univ of Washington, 1991; BS, Univ of Texas, 1984
Bluestein	Howard	B	1976	CIMMS FELLOW, 1983; SAMUEL ROBERTS NOBLE PRESIDENTIAL PROFESSOR, 2001; GEORGE LYNN CROSS RESEARCH PROFESSOR OF METEOROLOGY, 2004	PhD, Mass Inst of Tech, 1976; MS, Mass Inst of Tech, 1972; BS, Mass Inst of Tech, 1971

Cavallo	Steven		2011	CIMMS FELLOW, 2012; ASSOCIATE PROFESSOR OF METEOROLOGY, 2017	PhD, Univ of Washington, 2009; MS, Univ of Washington, 2006; BS, Florida State Univ, 2003	Parsons	David	B	2010	MARK AND KANDI MCCASLAND CHAIR EMERITUS, 2018; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2018; PROFESSOR OF METEOROLOGY, 2010; CIMMS FELLOW, 2010	PhD, Washington Univ, 1982; BS, Rutgers Univ, 1976
Chilson	Phillip	B	2004	CIMMS FELLOW, 2007; PROFESSOR OF METEOROLOGY, 2011; DIRECTOR, CENTER FOR AUTONOMOUS SENSING AND SAMPLING; 2017	PhD, Clemson Univ, 1993; MS, Univ of Florida, 1990; BS, Clemson Univ, 1985	Redemann	Jensen		2018	PROFESSOR OF METEOROLOGY, 2018; KANDI AND MARK MCCASLAND CHAIR IN METEOROLOGY, 2018	PhD, Univ of California Los Angeles, 1999; MS, Univ of California Los Angeles, 1997; MS, Freie Universitat, 1995
Fedorovich	Evgeni		1999	PROFESSOR OF METEOROLOGY, 2004; EDITH KINNEY GAYLORD PRESIDENTIAL PROFESSOR, 2012;	PhD, Leningrad State Univ, 1986; MS, Leningrad State Univ, 1979	Richman	Michael	B	1991	CIMMS FELLOW, 1996; EDITH KINNEY GAYLORD PRESIDENTIAL PROFESSOR, 2005; PROFESSOR OF METEOROLOGY, 2006; ADJUNCT PROFESSOR OF LIBERAL STUDIES, 2009	PhD, Univ of Illinois, 1994; MS, Univ of Illinois, 1980; BA, SUNY at Plattsburgh
Furtado	Jason	C	2015	ASSISTANT PROFESSOR OF METEOROLOGY, 2015	PhD, Georgia Inst of Tech, 2010; MS, Colorado State Univ, 2005; BS, Lyndon State College, 2002	Sakaeda	Naoko		2017	Assistant Professor of Meteorology, 2017	B.S. Atmospheric Sciences, University of Washington 2009, Ph.D Atmos Sciences, Univ of Albany, 2015
Homeyer	Cameron	R	2014	ASSISTANT PROFESSOR OF METEOROLOGY, 2014	PhD, Texas A&M Univ, 2012; MS, Texas A&M Univ, 2010; BS, Texas A&M Univ, 2008	Salesky	Scott	T	2017	ASSISTANT PROFESSOR OF METEOROLOGY, 2017	PhD, Pennsylvania State Univ, 2014; MS, Pennsylvania State Univ, 2010; BS, Martin Luther College, 2008
Klein	Petra	M	2001	CIMMS FELLOW, 2002; EDITH KINNEY GAYLORD PRESIDENTIAL PROFESSOR, 2009; PROFESSOR OF METEOROLOGY, 2016	PhD, Univ of Karlsruhe, 1999; Diploma, Univ of Karlsruhe, 1993	Wang	Xuguang		2008	CIMMS FELLOW, 2009; PRESIDENTIAL RESEARCH PROFESSOR, 2014; ASSOCIATE PROFESSOR OF METEOROLOGY, 2014	PhD, Penn State Univ, 2004; BS, Peking Univ, 1998
Martin	Elinor	R	2014	ASSISTANT PROFESSOR OF METEOROLOGY, 2014; CIMMS FELLOW, 2015	PhD, Texas A&M Univ, 2011; MS, Colorado State Univ, 2007; BSc, Univ of Reading, 2005	Xue	Ming		1989	CIMMS FELLOW, 2007; GEORGE LYNN RESEARCH PROFESSOR OF METEOROLOGY, 2018; WEATHERNEWS CHAIR IN APPLIED METEOROLOGY, 2010	PhD, Univ of Reading, 1989; BS, Nanjing Univ, 1984
McFarquhar	Gregory		2017	PROFESSOR OF METEOROLOGY, 2017	PhD, Univ of Toronto, 1993; MS, Univ of Toronto, 1989; BS, Univ of Toronto, 1987	Zhang	Guifu		2005	CIMMS FELLOW, 2007; PROFESSOR OF METEOROLOGY, 2012; ADJUNCT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2014	PhD, Univ of Washington, 1998; MS, Wuhan Univ, 1985; BS, Anhui Univ, 1982
Moore	Berrien		2010	PROFESSOR OF METEOROLOGY, 2010; CHESAPEAKE ENERGY CORPORATION CHAIR IN CLIMATE STUDIES, 2010; CIMMS FELLOW, 2010	PhD, Univ of Virginia, 1969; BS, Univ of North Carolina, 1963						
Palmer	Robert	D	2003	PROFESSOR OF METEOROLOGY, 2004; TOMMY C. CRAIGHEAD CHAIR OF METEOROLOGY, 2007; CIMMS FELLOW, 2007	PhD, Univ of Oklahoma, 1989; MS, Univ of Oklahoma, 1986; BS, Univ of Oklahoma, 1984						

Meteorology, Bachelor of Science in Meteorology

Major Requirements

Code	Title	Credit Hours
Core (48 hours, 15 courses)		
METR 1003	Introduction to the Atmospheric Sciences	3
METR 2004	Atmospheric Circulations	4
METR 2213	Physical Meteorology I: Thermodynamics	3
METR 2613	Atmospheric In-Situ & Surface-Based Measurements	3
METR 3113	Atmospheric Dynamics I: Intro to Atmospheric Kinematics/Dynamics	3
METR 3123	Atmospheric Dynamics II: Theory of Atmospheric Flows	3
METR 3223	Physical Meteorology II: Cloud Physics, Atmos Electricity/Optics	3
METR 3334	Principles of Research & Communication in Meteorology	4
METR 3513	Atmospheric Chemistry in Weather and Climate	3
METR 4133	Atmospheric Dynamics III: Mid-Latitude Synoptic-Scale Dynamics	3
METR 4233	Physical Meteorology III: Radiation and Remote Sensing	3
METR 4424	Synoptic Meteorology Laboratory	4
METR 4433	Mesoscale Meteorology	3
METR 4523	Climate and the General Circulation	3
METR 4913	Senior Seminar (Capstone)	3
Major Elective (3 hours)		
Choose one Meteorology, Hydrology or Climatology upper-division elective (p. 514)		3
Total Credit Hours		51

Major Support Requirements

- Courses required for major support may *not* also fulfill University-Wide General Education Requirements.

Code	Title	Credit Hours
Math and Physics		
MATH 2934 or MATH 2443	Differential and Integral Calculus III Calculus and Analytic Geometry IV	3-4
PHYS 1311	General Physics Lab I	1
MATH 3413	Physical Mathematics I	3
METR 3323 or MATH 4753	Statistical Meteorology Applied Statistical Methods	3
Programming Elective		
Choose one course from the following:		1-4
METR 1313	Introduction to Programming for Meteorology	
C S 1321	Java for Programmers	
C S 1323	Introduction to Computer Programming for Programmers	

C S 1324 Introduction to Computer Programming for Non-Programmers

Total Credit Hours 11-15

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course list at <http://www.ou.edu/content/gened/courses.html>.

University-Wide General Education (minimum 40 hours) and College Requirements

Courses graded P/NP will not apply

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213 or EXPO 1213	Principles of English Composition Expository Writing	3
<i>Foreign Language (0-10 hours)</i>		
(0-10 hours in the same language) Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language		
	Beginning Course	0-5
	Beginning Course, continued	0-5
<i>Mathematics (minimum 3 hours)</i>		
MATH 1914	Differential and Integral Calculus I ¹	4
Core Area II: Natural Science (minimum 7 hours, 2 courses)		
CHEM 1315	General Chemistry (Science with Lab) ¹	5
PHYS 2514	General Physics for Engineering and Science Majors (Science without Lab) ¹	4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities		
<i>Understanding Artistic Forms (3 hours)</i>		
Choose one course from the General Education Artistic Forms list.		3
<i>Western Civilization and Culture (6 hours)</i>		
HIST 1483 or HIST 1493	United States, 1492 to 1865 United States, 1865 to the Present	3
Choose one course from the General Education Western Civilization & Culture list (Excluding HIST 1483 and HIST 1493)		3
<i>Non-Western Culture (3 hours)</i>		
Choose one course from the General Education Non-Western Culture list		3
Core Area V: Senior Capstone Experience		
3 hours required, fulfilled in Major Requirements		3
Total Credit Hours		40-50

¹College of Atmospheric and Geographic Sciences requirements.

At least three hours of Upper-Division General Education coursework must be completed outside the major.

Additional College Bachelor of Science Requirements

Code	Title	Credit Hours
MATH 2924	Differential and Integral Calculus II ¹	4
PHYS 2524	General Physics for Engineering and Science Majors	4
Total Credit Hours		8

¹MATH 1823, MATH 2423, and MATH 2433 will also fulfill the college's calculus requirement.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 52 upper-division hours.

These electives may be used to fulfill the requirements for a minor, if desired, but must include at least nine hours of upper-division coursework.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or School of Meteorology academic advisers to verify that courses selected each semester fulfill

the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Meteorology major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
METR 1003	Introduction to the Atmospheric Sciences ¹	3

¹Students must attain a grade of C or better in all MATH, PHYS, and C S, and in METR courses that are direct prerequisites for other METR courses.

²To be chosen from the University-Wide General Education Approved Course List for Core III (Social Science) and Core IV (Humanities). At least three hours must be upper-division outside the major.

- Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language. This additional coursework may add 6-10 hours to the minimum hours required for graduation.

Computer Science Area of Concentration

The School of Meteorology has joined with the School of Computer Science in the College of Engineering to provide an Area of Concentration within the meteorology curriculum for students interested in further developing their skills in the use of computers in science, engineering, and business. Additional information is available from your faculty advisor.

Minor in Broadcast Meteorology

The College of Journalism and Mass Communication offers a minor in Broadcast Meteorology for meteorology majors interested in careers in broadcast media. **Seventeen hours in communication and journalism courses are required.** Additional information is available from your faculty advisor.

Additional Minors

Minors in Mathematics, Business, Chemistry, Computer Science, Environmental Science, Geography, Geology, Hydrologic Science, Interdisciplinary Perspectives on the Environment, and Physics

Minors in mathematics, business, chemistry, computer science, environmental science, geography, geology, hydrologic science, interdisciplinary perspectives on the environment, and physics are available and students are encouraged to consider one or more of these minors. Students may obtain a minor in mathematics by taking one additional 4000+ MATH course in addition to those required in the curriculum.

Additional information is available from your faculty advisor or from the Atmospheric and Geographic Sciences Dean's Office, National Weather Center, Room 3630.

Meteorology Upper Division Major Elective Course List

The following courses are approved for use as the Meteorology/Hydrology/Climatology Upper Division Major Elective. Please consult the School of Meteorology for the most current list.

Code	Title	Credit Hours
METR 3440	Mentored Research Experience	3
METR 3523	Managing for a Changing Climate	3
METR 3890	Meteorology Internship (with approval from the School)	1-3
METR 4323	Weather Simulation With Computers	3
METR 4330	Information Technology Skills for Meteorology	1-3
METR 4403	Application of Meteorological Theory to Severe-Thunderstorm Forecasting	3
METR 4443	Introduction to Tropical Meteorology	3
METR 4533	Earth's Past Climate	3
METR 4543	Global Climate Change	3
METR 4553	Climate and Renewable Energy	3
METR 4603	Micrometeorological Measurements	3
METR 4633	Hydrometeorology	3
METR 4653	Air Pollution Meteorology and Modeling	3
METR 4663	Radar Engineering	3
METR 4693	Environmental Sampling Methods	3
METR 4713	Private Sector Meteorology	3
METR 4743	Applications of Weather Forecasting	3
METR 4970	Special Topics/Seminar	1-3
GEOG 3443	Environment and Society	3
GEOG 3523	Managing for a Changing Climate	3
GEOG 4273	Regional Climatology	3
GEOG 4293	Hydrologic Science	3
GEOG 4343	Climate, History, and Society	3
GEOG 4513	Applied Climatology	3
GEOG 4943	Natural Hazards	3
GEOL 3633	Introduction to Oceanography	3

IAS 3920	Journey to Italy (Climate Change in Italy: Wine, Art, & Tourism))	1-6
IAS 3653	Energy, Climate, and Security	3
ENST 3503	Energy Use, Climate Change, and the Environment	3
CEES 3213	Water Resources Engineering	3

Meteorology, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

This minor is not available to Meteorology majors.

A minor in Meteorology requires a minimum of 17 hours of courses acceptable for major credit in Meteorology, to include at least 9 hours at the upper division level.

Students must adhere to the course prerequisite policy as set by the School of Meteorology.

Students majoring in Engineering or one of the Physical Sciences who have demonstrated academic excellence may be exempt from the lower division requirements for the Minor in Meteorology. The School of Meteorology will determine which students are eligible for this exemption.

Students who are not required to complete lower division requirements must complete a minimum of 15 hours of upper division coursework in Meteorology, to be chosen by the student and a faculty advisor from The School of Meteorology.

Specific sequences of Meteorology courses may be designed to provide science and engineering majors with expertise in fluid dynamics, radar meteorology and engineering, instrumentation, air quality and physical meteorology. Please contact The School of Meteorology at 325-6561 for additional information.

Required Courses

A minimum 2.00 GPA is required in all work presented for minor credit.

Code	Title	Credit Hours
METR 2013	Introduction to Meteorology I	3
METR 2011	Introduction to Meteorology I Laboratory ¹	1
METR 2023	Introduction to Meteorology II	3
METR 2021	Introduction to Meteorology II Laboratory	1
Choose 9 hours of upper division Meteorology courses		9
Total Credit Hours		17

¹Also fulfills a General Education Science with Lab requirement.

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Weather and Climate, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.

- No minor may be added by completing courses after receiving the bachelor's degree.

This minor is not available to Geography or Meteorology Majors.

A minor in Weather and Climate requires a minimum of 15 hours of courses acceptable for major credit in Geography and Meteorology, to include at least 9 hours at the upper division level.

Required Courses

A minimum 2.00 GPA is required in all work presented for minor credit.

Code	Title	Credit Hours
Choose a minimum of 6 hours from the following:		6
METR 1014	Introduction to Weather and Climate ¹

Total Credit Hours		49

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course list at <http://www.ou.edu/content/gened/courses.html>.

University-Wide General Education (minimum 40 hours) and College Requirements

Courses graded P/NP will not apply

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-10 hours)</i>		
(0-10 hours in the same language) Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language		
	Beginning Course	0-5
	Beginning Course, continued	0-5
<i>Mathematics (minimum 3 hours)</i>		
MATH 1914	Differential and Integral Calculus I ¹	4
Core Area II: Natural Science (minimum 7 hours, 2 courses)		
CHEM 1315	General Chemistry (Science with Lab) ¹	5
PHYS 2514	General Physics for Engineering and Science Majors (Science without Lab) ¹	4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3

Choose one course from the General Education Social Science list	3
Core Area IV: Humanities	
<i>Understanding Artistic Forms (3 hours)</i>	
Choose one course from the General Education Artistic Forms list.	3
<i>Western Civilization and Culture (6 hours)</i>	
HIST 1483 United States, 1492 to 1865 or HIST 1493 United States, 1865 to the Present	3
Choose one course from the General Education Western Civilization & Culture list (Excluding HIST 1483 and HIST 1493)	3
<i>Non-Western Culture (3 hours)</i>	
Choose one course from the General Education Non-Western Culture list	3
Core Area V: Senior Capstone Experience	
3 hours required, fulfilled in Major Requirements	3
Total Credit Hours	40-50

¹College of Atmospheric and Geographic Sciences requirements.

At least three hours of Upper-Division General Education coursework must be completed outside the major.

Additional College Bachelor of Science Requirements

Code	Title	Credit Hours
MATH 2924	Differential and Integral Calculus II ¹	4
PHYS 2524	General Physics for Engineering and Science Majors	4
Total Credit Hours		8

¹MATH 1823, MATH 2423, and MATH 2433 will also fulfill the college's calculus requirement.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 52 at the upper-division level, and at least 30 at the Graduate level (5000-6000-level).

Shared hours with the M.B.A. will replace 12 elective hours in the undergraduate degree,

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or School of Meteorology academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Meteorology major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
METR 1003	Introduction to the Atmospheric Sciences ¹	3

ENGL 1113	Principles of English Composition (Core I)	3
MATH 1914	Differential and Integral Calculus I (Core I) ¹	4
CHEM 1315	General Chemistry (Core II)	5
Credit Hours		15

Second Semester

ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
MATH 2924	Differential and Integral Calculus II (Core I) ¹	4
PHYS 1311	General Physics Lab I ¹	1
PHYS 2514	General Physics for Engineering and Science Majors (Core II) ¹	4
METR 1313	Introduction to Programming for Meteorology (or other programming elective from list in major support) ¹	3
Credit Hours		15

Sophomore

First Semester

METR 2004	Atmospheric Circulations ¹	4
MATH 2934	Differential and Integral Calculus III ¹	4
PHYS 2524	General Physics for Engineering and Science Majors ¹	4
HIST 1483 or HIST 1493	United States, 1492 to 1865 (Core IV) or United States, 1865 to the Present	3
Credit Hours		15

Second Semester

METR 2213	Physical Meteorology I: Thermodynamics ¹	3
METR 2613	Atmospheric In-Situ & Surface-Based Measurements ¹	3

¹Students must attain a grade of C or better in all MATH, PHYS, and C S, and in METR courses that are direct prerequisites for other METR courses.

²To be chosen from the University-Wide General Education Approved Course List for Core III (Social Science) and Core IV (Humanities). At least three hours must be upper-division outside the major.

³The courses are counted towards both the undergraduate Meteorology and graduate Business degrees.

⁴To be chosen from an approved list of MBA electives.

⁵MBA courses that are 8 weeks long.

- Students may enter the accelerated program based on the undergraduate degree pattern offered in the year they first enrolled in the Oklahoma State System of Higher Education or later. **Students must maintain a 3.0 GPA from the time of entering the program until graduation.**
- Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language. This additional coursework may add 6-10 hours to the minimum hours required for graduation.

Meteorology, Bachelor of Science in Meteorology/Master of Science in Data Science and Analytics

Undergraduate Major Requirements

Code	Title	Credit Hours
Core (48 hours, 15 courses)		
METR 1003	Introduction to the Atmospheric Sciences	3
METR 2004	Atmospheric Circulations	4
METR 2213	Physical Meteorology I: Thermodynamics	3
METR 2613	Atmospheric In-Situ & Surface-Based Measurements	3
METR 3113	Atmospheric Dynamics I: Intro to Atmospheric Kinematics/Dynamics	3
METR 3123	Atmospheric Dynamics II: Theory of Atmospheric Flows	3
METR 3223	Physical Meteorology II: Cloud Physics, Atmos Electricity/Optics	3

¹Excluding METR 5990.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Meteorology Doctoral Programs

Doctor of Philosophy

Students seeking the degree of Doctor of Philosophy through the School of Meteorology at the University of Oklahoma (hereafter referred to as candidate) must satisfy all general requirements set forth by the Graduate College as well as all particular requirements set forth by the School of Meteorology. The principal requirements of both are listed below.

- Total number of graduate credit hours required: 90 (Up to 44 credit hours may be approved for transfer from a master's degree).
- Required coursework: 1 hour of METR 6970 (may be repeated for up to 4 credit hours).
- Exams:
 - a. The School of Meteorology's General Exam.
 - b. Dissertation defense.

Ph.D. General Examination

As stipulated by the Graduate College, passing a "General Examination" consisting of a written and oral portion is a degree requirement for receiving a Ph.D. from the University of Oklahoma. The Graduate College defines many procedures about the General Examination, which the student and the student's Doctoral Committee should recognize and heed. This document codifies additional School of Meteorology (the "academic unit") rules pertaining to the "General Examination for a Ph.D. in Meteorology." The Graduate College states: "The General Examination consists of a written and oral portion. It is intended to test the student's mastery of a number of related fields as well as the student's capacity for synthesis, sound generalization and critical ability."

To this end, the following is required: The student's Doctoral Committee will define a task of critical review and analysis of a topic in meteorology. The task may be relevant to the student's specialty within meteorology, but should not be about material that is planned to be directly incorporated into the student's Dissertation. More details about the General Exam can be found in the Meteorology Graduate Student Handbook.

Lynn Sterk-Brooks, Sr. Director of External Relations, Graduate and Executive Center

General Information

History

A curriculum in business subjects was first offered in 1913 through a subordinate school in the College of Arts and Sciences called the School of Commerce and Industry. The first certificates in commerce and industry were granted in 1915. The name was changed to the School of Public and Private Business in 1917. In June 1923, the Board of Regents established a school of business as a separate two-year school of the University and authorized it to confer the degree of Bachelor of Science in Business. The first Bachelor of Science in Business degrees were conferred in 1924. The following year the School of Business was admitted to membership in the Association to Advance Collegiate Schools of Business (AACSB International), the international accrediting agency for bachelor's and master's degrees in business. To earn and retain accreditation, these degree programs must undergo a rigorous initial evaluation and be reevaluated periodically. These programs of the college have been fully accredited since 1926. In addition, programs leading to bachelor's and master's degrees in accounting have met separate AACSB International accreditation standards specifically for accounting programs.

In 1929, the Board of Regents changed the School of Business to the College of Business Administration.

In 1997, alumnus Michael F. Price announced a contribution of \$18 million to the College of Business. The OU Regents officially renamed the College of Business Administration the Michael F. Price College of Business. The Price funds are applied strategically to areas of excellence. This endowment has established endowed faculty positions, a library endowment, scholarships and graduate assistantships, a student support center, and provides support for a number of other initiatives.

Mission: The Purpose of Price

"The Michael F. Price College of Business ensures the enduring global competitiveness of Oklahoma and the nation." Our graduates will grasp opportunities to see how separate pieces of a business puzzle are brought together to create a new business or industry. Conceptual thinking and real-world training allows them to solve complex problems within a business or industry.

The college's strategic plan integrated with that of the University helps the college attain its goals of enhanced excellence and contributions to the economy of the state, nation and the world.

Objectives

To further its mission, the college provides degree programs at the baccalaureate, master's and doctoral levels, with the objective of providing career opportunities in a wide variety of professional and entrepreneurial roles. While most graduates will find employment in the private sector, a Michael F. Price College of Business education will provide a general understanding of, and appreciation for, managerial processes that apply in public sector and not-for-profit institutions as well.

In addition to technical competence in areas of specialty, the college expects graduates to attain a level of understanding of, and appreciation for, the liberal arts and the social sciences. The aim is to provide an educational base upon which the graduate can build not only technical but also social capability through a lifetime of continuing growth and

development. The emphasis is as much on the formation of attitudes and understanding of complex issues as on the attainment of knowledge and skills.

Since formal education may tend to become abstracted from the realities of practice, the college seeks to maintain close ties with the professional communities it serves. Internship opportunities for students, participation by practicing professional managers in the classroom, consulting and research by faculty, boards of advisers to the college, conferences and the like involving people from outside the University provide opportunities for continuing interaction with the world of organizations.

While maintaining a practical, relevant perspective, the faculty seeks to advance the frontiers of knowledge through research, both applied and theoretical. This research is fundamental to the overall excellence of the teaching function. Students at all levels may expect to be exposed not only to well-established knowledge, but also to ideas and issues that are at the forefront of research and experimentation. As a complement to degree programs, the college includes continuing education and managerial development programs for practicing professionals.

Throughout the wide variety of educational programs and in its research and public service objectives, the college strives to maintain standards of excellence consistent with the University's role as one of the leading institutions of higher education in the nation.

Programs Offered

- College of Business Administrated Programs (p. 531)
 - Economics, Bachelor of Business Administration (p. 532)
 - General Business for Non-Business Majors, Minor (p. 534)
 - Economics, BBA/Master of Science in Management of Information Technology (p. 534)
 - Business Administration, Master of Business Administration (p. 537)
 - Energy, Executive Master of Business Administration (p. 537)
 - Professional MBA, Master of Business Administration (p. 538)
 - Executive Management in Aerospace and Defense, Graduate Certificate (p. 539)
 - Departmental list of electives (p. 539)
 - Foundations of Business, Graduate Certificate (p. 539)
 - Departmental list of courses (p. 539)
- John T. Steed School of Accounting (p. 540)
 - Accounting, Bachelor of Business Administration (p. 541)
 - Accounting, Minor (p. 543)
 - Accounting, BBA/Master of Accountancy (p. 544)
 - Accounting, BBA/Finance, Master of Science (p. 546)
 - Accounting, BBA/Master of Science in Management of Information Technology (p. 549)
 - Accounting, Online Accounting, Master of Accountancy (p. 552)
- Division of Entrepreneurship and Economic Development (p. 552)
 - Entrepreneurship and Venture Management, Bachelor of Business Administration (p. 553)
 - Entrepreneurship for Non-Business Majors, Minor (p. 556)
 - Entrepreneurship for Business Majors, Minor (p. 556)
 - Entrepreneurship & Venture Management, BBA/Master of Science in Management of Information Technology (p. 556)
 - Business Entrepreneurship, Graduate Certificate (p. 559)
 - Guided Electives (p. 559)
- Division of Finance (p. 560)
 - Finance, Bachelor of Business Administration (p. 561)

Programs & Facilities

Business Communication Center

The Business Communication Center prepares students for the technology-delivered world. With one-on-one instruction from the center's friendly staff, Price College students learn valuable hands-on skills such as multimedia presentations, Web page design, video conferencing, public speaking, and digital imaging.

Center for Entrepreneurial Studies

The *Princeton Review* and *Entrepreneur* magazine ranked the center eighth in the nation at the undergraduate level. This speaks to the opportunities available to major or minor in Entrepreneurship and Venture Management for business or engineering students at the University of Oklahoma. The goals of the Center for Entrepreneurial Studies are:

- Create entrepreneurial-thinking students.
- Connect faculty, researchers and students to the entrepreneurial world through research, teaching and working labs.
- Provide OU alumni knowledge and resources for Oklahoma's business and entrepreneurial community to assist their growth.
- Start and grow businesses in the state of Oklahoma.
- Commercialize University of Oklahoma intellectual property.

The Center is located in Suite 1036, Price Hall (405) 325-3611.

Fixed Income Fund

The Fixed Income Fund experience exposes senior-level undergraduate students and MBA students to the intricacies associated with the management of portfolios that contain only bond-like financial instruments. The class is divided into teams of students. Students must make real-time decisions using the latest information on financial markets to select fixed income securities to include in the portfolio. The class is sponsored by BOK Financial Corporation, the parent company of the Bank of Oklahoma.

Honors Program

The Honors College offers special classes and sections of regular classes for academically superior students. Students in the Honors Program may graduate *cum Laude*, *Magna cum Laude*, or *Summa cum Laude*, depending upon their grade point average. For information on either of these programs, contact the director of the Honors College, or call (405) 325-5291.

Integrated Business Core

Undergraduate students have the opportunity to enroll in a one-semester (12 hours) project-based program called the Integrated Business Core (IBC), which provides both real-world experience and an integrated introduction to concepts in at least three business disciplines. IBC students gain experience by creating and managing an actual start-up company funded by a loan up to \$5,000 and a hands-on community service project on behalf of a non-profit campus or community organization. Students have donated more than \$1,000,000 dollars and more than 34,000 volunteer hours to charity, and the program has received local, regional and national acclaim.

Students who are participants in IBC:

- are responsible for mastering the concepts and terminology of each of the content courses: Marketing, Management and Legal Studies;

- work as "employees" of an assigned 20-member company which becomes the Entrepreneurship/Community Service Practicum. Here the students have the opportunity to apply the concepts from each of the core business disciplines while at the same time devoting time to their selected community service project;
- Students spend the first seven weeks developing a business plan;
- the plan is submitted to a loan committee which grants, denies or defers the loan application;
- Upon receipt of the loan students have six weeks to implement their business plan.

JCPenney Leadership Center

The Leadership Program of Price College is directed at those students who will become a significant force in the economic, political, social and moral development of our state and nation.

These students have leadership potential because they are academic achievers and have those personal characteristics that thrust them into various activities in which they assume leadership roles.

The college views these student leaders as a valuable resource whose potential should be developed fully for the benefit of themselves and society. These students will help the college fulfill its mission of transmitting knowledge about the continuing adaptation of organizations in a changing global business environment.

The primary objective of the program is to provide these students with opportunities for intellectual and scholastic enrichment, stimulating contact with business and the economic leaders in the nation, and the mutual challenge and benefits of association with a peer group of equally talented students. These opportunities will lead to an enhancement of the students' experiences at the University that will shape the course of their lives.

The three main components of the program include corporate views, fellowships and the Distinguished Speaker Series.

Corporate Views

Participants in this special program accompany executives in their normal work environment and experience firsthand the administrative responsibilities and management styles of successful business leaders. This daylong program significantly expands Associates' classroom educational experience by enhancing their awareness of proven leadership skills and broadening their understanding of actual corporate operations.

Fellowships

The JCPenney Fellowship Program is one of the Center's most exciting and productive avenues and adds greater value to the undergraduate educational experience of Leadership Associates. Each recipient receives a stipend to serve as either a research or training fellow to a Price College faculty mentor for one semester. Eligibility is limited to junior and senior associates. Applications and detailed information is available in the JCPenney Leadership Center.

Distinguished Speaker Series

The Price College of Business and the Kanaly Lecture Series hosts approximately four nationally respected leaders each academic year who have an Oklahoma connection — either through birth, residence, higher education, or business interest. The purpose of the series is to provide the opportunity to learn and grow from the accumulated experience and wisdom of this premier group of opinion leaders.

Student Support Center

The Student Support Center serves graduate students in the Michael F. Price College of Business. The value of the learning experience is expanded for graduate students by providing personal mentoring and career development resources.

Core resources provided to graduate students include:

- mentoring;
- executive visitation;
- career preparation; and
- internships — domestic and international.

AMOCO Business Information Resource Center

Discovery and transmission of knowledge requires information, whether that information is contained in the income statements and financial records of a large U.S. corporation, in profiles of corporate returns on investments, in business trends among the states and regions of the country, or in international trade and investment patterns. Distributive technology — the desktop computers, the interlinked local area networks, the CD-ROM readers — is altering the costs and availability of information acquisition and dissemination, enhancing the potential for greater effectiveness and efficiency in dealing with information.

Price College has developed various “pockets” of expertise in the acquisition of information for instruction and research. The School of Accounting subscribes to the FASB Financial Accounting Research Service, the Center for Financial Studies and the College cooperate in the purchase of CRSP files that contain monthly and daily returns on NYSE, AMEX, and NASDAQ corporations; and the Center for Economic and Management Research subscribes to quarterly updates to the Citibase data system.

While we must rely on various “pockets” to acquire this information, we are limiting our potential for effective utilization of information in our present “distributive” organizational setting. By establishing one central place for the location and dissemination of these information sets, we can greatly enhance our effective use of information.

The AMOCO Business Resources Information Center (BRIC) supports the academic and research goals of Price College by serving as a centralized data repository and technical assistance resource for faculty and students. Individual and group instruction is provided to students and faculty in the use of database software applications and offers technical assistance and support in their use.

Data holdings include industry standard financial, economic and demographic databases obtained from state, federal, and commercial information services. The AMOCO BRIC also maintains a computer lab designed for instruction as well as routine use by students and faculty.

Center for Financial Studies

Price College, through its Division of Finance, has established the Center for Financial Studies. The mission of the Center is to support scholarly research and sponsor educational programs that will improve and share knowledge among finance students, executives and academicians.

The rapid changes occurring in the financial world make it imperative for those involved to be knowledgeable of the innovations, problems and opportunities prevailing in all sectors of the financial markets. The Center for Financial Studies will assume an important leadership role in this endeavor by directing its programs toward mid-and top-level

finance executives and toward academicians with research and teaching interests in finance.

Center for MIS Studies

The Center for MIS Studies, an interdisciplinary center located in Price College, is a partnership between the University and business firms designed to share ideas on MIS topics of direct relevance and major concern to the business partners. Effective industry MIS programs require that businesses understand and utilize rapidly changing technologies and complex organizational policies, strategies and structures. Rapid changes of the Internet era, combined with the move toward outsourcing, makes keeping up exceptionally difficult for IS professionals. Costs of research, development, and training in this complex and dynamic field are high, and results are often disappointing.

The fundamental idea of the Center for MIS Studies is resource sharing — to share the knowledge, skills, and efforts of the University and the member firms in a framework that encourages innovation, quality and productivity. For questions, comments, or additional information, contact:

Center for Management Information System Studies
University of Oklahoma, Price College
307 West Brooks
Norman, OK 73019
Phone: (405) 325-0768
FAX: (405) 325-7482

Library

The Bizzell Memorial Library provides excellent facilities for research and instruction in business and economics. Students, teachers, researchers and the University community at large can research and gain access to materials in a variety of media and in numerous ways. State-of-the-art computer searches through national databases are possible through the University's participation in national library associations. The University is a member of the Research Libraries Group which provides on-line access to the premier libraries in the United States through the Research Libraries Information Network (RLIN). The University is also connected to another, much broader database through the Online Computer Library Center, Inc. (OCLC). In addition, the University has an extensive collection of books, periodicals, microform material, newspapers, trade journals and corporation annual reports. Subscriptions are maintained to various investment, insurance, tax, labor relations and other services which keep patrons in touch with current developments. The University is a designated repository for federal documents which are kept on the fourth floor of the library.

The Bass Collection in Business History

Although ours is a business civilization, relatively little has been done to assemble library materials in the area of business and management history in most American universities. One exception is the University of Oklahoma, which has a distinguished collection in this field, capable of serving not only undergraduate and graduate students, but research scholars throughout the nation.

Through the generosity of the late Harry W. Bass of Dallas, Texas, and the continuing support of the Bass Foundation, a comprehensive collection of books and periodicals in the areas of business and management history are available at the University of Oklahoma. Mr. Bass was a former student in the College of Business.

This distinguished collection of rare and current research materials is housed in a special suite of rooms on the fifth floor of the Bizzell Memorial Library. Dr. Daniel A. Wren is curator of the Bass Collection.

The Ronald B. Shuman Research Fellowship in Business History is designated for graduate and some undergraduate students to work under the direction of the curator of the Bass Collection. This fellowship is in the amount of \$1,000 to be divided between two semesters.

Center for Economic and Management Research

The Center for Economic and Management Research conducts research in business and economics as well as in such diverse areas as energy, delivery of health services, quality of life in Oklahoma and human resources utilization and development. It also provides research support and data to the business community and to federal, state, and local agencies for use in planning, as well as providing a vehicle for directly relating classroom offerings and the research thrust of Price College to the problems faced by business and government.

CEMR also houses the Survey Research Center, which provides the capability for obtaining current information on the economy of the state and on the attitudes of Oklahomans toward various issues in Oklahoma. These data are presented in special reports for use by planners and decision makers in both business and government.

The Center maintains an extensive database and makes this information available to the public through its publications program that includes press releases, reports, a quarterly economic journal (the Oklahoma Business Bulletin) and the annual Statistical Abstract of Oklahoma. Current and historical economic and demographic information are also available via the Oklahoma Resources Integrated General Information Networks Systems (ORIGINS), an Internet accessible data access and retrieval system containing databases of economic time series.

Adams Hall

Adams Hall is currently the primary office and classroom building for Price College. It contains numerous classrooms, many of which are designed with tiered seating to increase eye contact and facilitate discussion. These case study rooms contribute to and stimulate the learning process.

Instruction and research are facilitated by the computer tools made available in our computer technology enhanced classrooms. Adams Hall currently supports multiple microcomputer labs.

Price Hall

Michael F. Price Hall, a \$19 million, 55,000-square-foot addition to the east side of Adams Hall added nine new classrooms, a business communications center with a behavioral lab, four study rooms, three conference rooms, three Student Services offices, two large commons areas and a courtyard with outdoor seating.

Undergraduate Study

The undergraduate degree in business is designed to offer:

- Preparation for intellectual, political and cultural citizenship and leadership.
- A basic familiarity with facts, skills, techniques and attitudes that are relevant to business and management.
- An opportunity to develop a sense of historical perspective and understanding of the impact of the past upon the present and future.

- An intellectual discipline, "a way of thinking," about problems and problem solving or the decision-making process, including the ability to weigh values and form independent judgments.
- An in-depth exposure to a specific function or discipline.

General Information

Admission

To be admitted to the Michael F. Price College of Business, a student must first be admitted to the University of Oklahoma. Inquiries concerning admission to the University should be addressed to the Office of Admissions and Recruitment, 1000 Asp Avenue, Room 127, Norman, OK, 73019-4076.

Freshmen and transfer students who have not completed 24 semester hours with at least a 2.50 combined retention grade point average are automatically enrolled in University College upon their admission to the University of Oklahoma. **University College students may not enroll in upper-division (3000-level or higher) Business Administration courses. All students taking 3000-level or higher business courses must have junior standing and meet the grade point average, course, and permission requirements.**

Admission to an undergraduate program within a degree-recommending college at the University of Oklahoma (Norman campus) shall be based upon the requirements of the University of Oklahoma that are in effect at the time of a student's initial enrollment in any institution (including OU) in the Oklahoma State System of Higher Education.

Academic credit from any division of the University of Oklahoma – Norman campus, Health Sciences Center, OU-Tulsa or Professional and Continuing Studies – is considered resident credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU retention and cumulative grade point averages for purposes of admission or readmission to the University, and to the individual colleges within the University.

Non-Business Majors

Students not admitted to Price College may elect business courses subject to the prerequisites and minimum GPA requirements; however, business students will receive priority. Students from outside the College who seek academic advising on business course selections should inquire in the Price Academic Advising Services, Suite 1010 Price Hall.

Programs of Study

Students must complete the requirements outlined on the following pages for the degree and major chosen.

Bachelor of Business Administration Degree

Emphasis in this program has been placed on an educational rather than a training or vocational approach, although in certain areas, provisions for a limited amount of specialization have been made. The curriculum is designed to provide:

1. an extension and intensification of the cultural foundation begun in the secondary schools,
2. a comprehensive view of the general principles and procedures practiced in the business world, and
3. in the junior and senior years, a limited amount of professional education in certain specialized subjects.

With this degree program, a student must choose one of the following majors: accounting, economics, energy management, entrepreneurship and venture management, finance, general management, human

resources management, international business, management information systems, marketing, or supply chain management.

Double Majors

Price College offers students the option of double majors. A double major consists of hours in the selected major and completion of specific requirements of the additional major. A double major will add to the required number of hours to complete a single major business degree. Only one degree will be awarded, however both majors will be listed on the student's transcript. Students who are not majoring in business may not double major in Price College. No single course may be used by a student to satisfy a major requirement in two majors.

Minors

Minors are offered to both students majoring in business and those majoring in subjects offered in other colleges. No single course may be used by a student to satisfy a major requirement and a minor requirement.

Undergraduate Certificate

The Undergraduate Certificate in The Business of Healthcare supports, among others, students who intend to pursue careers in healthcare such as physical therapy, pharmacy, nursing or medicine. These students only spend the first two or three years on the Norman campus.

The Price Academic Advising Services office offers academic counseling for all students in any area of business. Appointments may be made online at iAdvise.

Accelerated Program for Graduate Study in Business

This program is designed to provide foundational study in the functional areas of business while a student is pursuing his or her undergraduate degree. The designated coursework may be applied toward degree requirements in the master's-level professional degree programs offered through the Price College, as well as be used as electives to complete one's undergraduate degree. Students in any field of study in their junior or senior years may apply for admission to the accelerated program. Because accelerated program students will be enrolled with graduate students in graduate-level classes (5000 or above), admission to the accelerated program will be highly selective and performance closely monitored.

The professional degree programs of Price College assume no prior training in either business administration or related disciplines. Accelerated Program students must designate one of the professional degree programs in business administration at the time of application. The options include the Master of Business Administration and Master of Accountancy.

Students admitted to the Accelerated Program will be provided a plan of study that considers the student's academic background and the number of elective hours remaining in the student's undergraduate program. The plan of study must be approved for both the student's undergraduate degree and the Accelerated Program. Upon receipt of an undergraduate degree, accelerated program students in good standing are admitted to graduate study in a master's-level professional degree program offered through the College of Business.

Undergraduate students who have completed 90 credit hours or more may be admitted to the Accelerated Program. After 75 hours of undergraduate study, students interested in the Accelerated Program should take the Graduate Management Admission Test (GMAT). The GMAT is offered by the Educational Testing Service of Princeton, NJ "on demand" at various sites in Oklahoma and throughout the world.

Only students with a cumulative grade point average at the University of Oklahoma of at least 3.00 and who receive a satisfactory score on the GMAT will be **considered** for admission to the Accelerated Program. The grade point average must be based on at least 60 credit hours taken at the University of Oklahoma. Admission is determined by the grade point average, the GMAT scores, and evidence of maturity, motivation and leadership potential as indicated by personal interviews and letters of recommendation. Though the admission decision may be made prior to the completion of 90 undergraduate credit hours, acceptance is contingent upon continued performance at a high level.

Choice of Degree Program

(The rules and regulations of this catalog become effective beginning summer term, 2010.)

- Transfer students are required to meet the degree requirements and regulations of the degree program that is in effect at the time of their first enrollment in the state system provided they complete the work for a degree within a maximum of seven years. If the work for a degree covers a period longer than seven years, students must adopt a degree program within seven years of the current requirements. (Example: The 2009–2010 requirements may be in effect only until the end of the 2016 school year [Spring, 2016].)
- Resident students shall be governed by the degree requirements and regulations in effect at the time of their initial enrollment at the University of Oklahoma provided they complete the work for a degree within a maximum of seven years. If work for a degree covers a period longer than seven years, students must adopt a degree program within seven years of the current program. (See example in preceding paragraph.)
- Students may adopt any later degree program which becomes effective while enrolled at the University of Oklahoma if they report this change to the Price Academic Advising Services Office, Suite 1010 Price Hall.
- Credit in the major which is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the major division.

Academic Advisement

Price Academic Advising Services Office

Students in Price College or business majors in University College may receive information and assistance in Suite 1010 Price Hall. Full-time academic counselors maintain records on all undergraduate business majors and provide them with information concerning admission, degree audits, degree requirements, contract and stop-out.

Academic Advisement

Career and academic advisement about specific course information is available from the faculty in the major divisions.

The responsibility for meeting all graduation requirements lies with the student.

Credit Hour Load

To be considered full time, an undergraduate student must be enrolled in at least 12 hours in a fall or spring semester and six hours in a summer session. The recommended maximum credit hour enrollment for a regular semester according to the student's cumulative grade point average is as follows:

Less than 2.50 – 16 hours maximum;
2.50–3.00 – 17 hours maximum;
3.00–3.50 – 18 hours maximum;

3.50–4.00 — 19 hours maximum.

Enrollments of 20 hours or more in a fall or spring semester and 10 hours or more in a summer session, must be approved by the Director in the Price Academic Advising Services Office, Suite 1010 Price Hall. Students requesting overload enrollments must have earned a 3.50 GPA in both OU and combined areas.

Course Levels

Undergraduate students are not eligible to enroll in business courses numbered 5000 and above. The only exceptions to the above are graduating seniors who have petitioned the Graduate College to receive graduate credit for the course and whose petitions have been approved.

Graduate-level business courses may not count toward the undergraduate degree; however a student may petition to count non-business courses.

Scholastic Regulations**Attendance**

When absences seriously affect a student's classwork, the instructor will report this fact to the Office of Admissions and Records. The information will also be forwarded to the Price Academic Advising Services Office.

Computation of Grade Point Averages

The resident grade point average includes all courses taken at the University of Oklahoma (including correspondence and extension work) that apply toward a degree in Price College. Academic credit from any division of the University of Oklahoma — Norman campus, Health Sciences Center, OU courses taught in Tulsa or Continuing Education — is considered credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU retention and cumulative grade point averages for purposes of retention.

The transfer grade point average includes all courses transferred from other institutions that are accepted by the University of Oklahoma.

The combined retention grade point average is computed with both transfer and OU credits. Both the resident and overall GPA's consist of three areas: the major, upper-division business, and overall degree. Minimum retention grade point averages of 2.50 are required in all of these areas to be eligible to graduate.

Contract and Enrollment Stops

A minimum grade point average of 2.50 OU retention and combined retention is required for good standing in the Michael F. Price College of Business.

A student who has an enrollment stop for poor scholarship is not eligible to be considered for re-enrollment until after at least one semester has elapsed following the stop. At this time, a student who is stopped from Price College is eligible to apply for readmission. An appeal for readmission, however, does not guarantee automatic readmission. Each request is considered on its individual merit. These students will have one semester to either rectify all deficiencies or meet the conditions for continued enrollment. Those failing to do so will be stopped again from the College for a period of three calendar years after which they may apply for readmission to the College.

All applications for readmission must present clearly documented evidence indicating a high probability the student will successfully complete the B.B.A. degree program. The application will be considered based upon standards of the Petition Committee of the College or such other committee as the dean might designate. If readmission is granted,

it will be subject to such terms and conditions as the committee may prescribe. Some students who are stopped out from Price College may still be eligible for continued enrollment under the University retention policy. These students may continue without interruption only if they are accepted by a college other than the Michael F. Price College of Business.

Degree Information**General Degree Information****Residency Requirement**

Candidates for the BBA degree must complete their last 30 hours as resident students at the University of Oklahoma. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, nine of the last 60 hours may be taken at another university or by correspondence from OU. Students must take a minimum of 24 hours of upper-division business courses in residence for the Bachelor of Business Administration degree. Students must earn 60 hours from a four-year institution.

- Any study abroad program will count toward Price College residency (51 of the last 60 hours or the last 30 hours at OU).
- Students who study abroad will still be required to meet OU and State Regents residency (15 of the last 30 hours at OU).

Transfer Credit

- A maximum of 62 hours will transfer for credit from a two-year college.
- Credit from a two-year college will be accepted to meet lower-division requirements and free electives only.
- A maximum of six hours of transfer work will apply toward the major.

Repeated Courses

Students may not repeat a course in which they earned a grade of A or B, unless the course is one in which there is a change of subject matter (e.g., OSLEP, Independent Study).

If a student repeats a course at the University of Oklahoma for any purpose, the grade received the last time the course was taken becomes the grade for that course. All previous attempts are included in computing grade point averages, but credit for the course is counted only once toward the hours required for the degree. The exception is if it falls in the University repeat policy which affects the retention and graduation grade point averages.

Pass/No Pass Option

A maximum of 12 semester hours, not to exceed one course per semester, may be taken on a pass/no pass basis. This option may be applied to only social science electives and non-business free electives.

Second Bachelor's Degree

A student may earn only one undergraduate business degree from an AACSB accredited institution. Students with business degrees from non-AACSB accredited institutions may petition the College for permission to pursue a BBA. The following conditions must be met:

- At least two semesters must be taken in residence at OU.
- At least 30 additional hours must be completed in the college of the second degree. The 30 hours must be in addition to the total number of hours completed by the student for the first degree.
- At least 24 hours of the 30 must be 3000-4000 level business courses.

If a student is pursuing concurrent degrees in two colleges:

- Both degrees must be completed and certified in the same semester.
- A graduation application must be filed for each degree. Two diplomas will be awarded.
- At least two semesters must be taken in residence at OU.
- At least 30 additional hours must be completed beyond the degree that requires the least number of hours.
- At least 24 hours of the 30 must be 3000-4000 level business courses.

Correspondence Courses

Limitations on Accepted Courses

- A **combined** maximum of 60 hours credit by correspondence courses, extension courses, and advanced standing examinations may be applied to the Bachelor of Business Administration degree with the following constraints:
 - a. A combined maximum of 32 hours of correspondence and extension work.
 - b. A maximum of 30 hours of lower-division credit by advanced standing examinations.
 - c. A maximum of 30 hours of upper-division credit by advanced standing examinations. (Also see "Credit by Examination," below.)
- Credit is given for all correspondence work except for courses presented for the major. Correspondence study may be taken in the major to be used only in the computation of the major grade point average.
- A maximum of six hours from the 15 hours of upper-division business core courses may be taken by correspondence.
- Correspondence work transferred to the College is subject to the same restrictions for all transfer work. Upper-division business courses completed through correspondence and transferred to the College are subject to departmental approval.

Enrollment Regulations

- Students may enroll in correspondence courses by obtaining authorization from Price Academic Advising Services and by contacting the Center for Independent and Distance Learning, 1600 S. Jenkins, Room 101, Norman, OK 73072-6507. Phone: (405) 325-1921.
- A student may enroll in a maximum of six hours of correspondence at one time.
- If students are concurrently enrolled in correspondence and in-residence credit, the total number of hours for one semester may not exceed the recommended maximum shown under Credit Hour Load based on their overall grade point average.
- A student must secure written permission from a counselor in the Price Academic Advising Services (1010 Price Hall) on the correspondence application form.

Advanced Standing Examinations

Students who feel they have a sufficient knowledge of the subject matter of a course offered by the University may take an advanced standing examination for undergraduate credit in the course.

A maximum of 60 hours of credit by advanced standing examinations may apply to the Bachelor of Business Administration degree. A maximum of 30 hours of lower-division credit and a maximum of 30 hours of upper-division credit may apply. (Also see paragraph one of Correspondence Courses, above.) Students who have received a grade in any course, other than a W, may not subsequently take the same course by advanced standing.

The Center for Independent and Distance Learning administers advanced standing examinations by individual appointment for credit in courses offered by Price College.

Graduation

Application

Students must apply for the graduation during their last semester.

Distinction and Special Distinction

Students may graduate with Distinction if they have an overall and OU cumulative grade point average (including the last semester's grades) of at least 3.50. Graduation with Special Distinction requires at least a 3.75 overall and OU cumulative grade point average. To be eligible for Distinction or Special Distinction, 51 of the last 60 hours must be taken at the University of Oklahoma. Students who have been found responsible for academic misconduct under the Academic Integrity Code are not eligible to graduate with Distinction or Special Distinction.

Graduate Study

Admission to each of the graduate programs is available to students with demonstrated aptitude for, and interest in, graduate business education. Previous study in business is not required. Admission decisions are based on a number of factors, including: undergraduate/graduate grade point average, GMAT score, TOEFL (and TSE, if necessary) score, employment history, letters of recommendation and the applicant's personal statement.

Admission recommendations are made on a rolling basis once all application materials are received. It is the student's responsibility to ensure application materials are received on a timely basis.

Master of Business Administration

The Master of Business Administration program at the University of Oklahoma has continued to meet accreditation standards since it was originally established by the American Assembly of Collegiate Schools of Business in 1963.

The MBA program is designed to give the broad perspective needed to manage an overall enterprise, while allowing sufficient flexibility to gain in-depth preparation in an elected area of concentration. The program provides familiarity with the functional areas of business, the necessary tools for management decision making, and the environment in which organizations operate. The MBA program is offered in both a full-time and part-time format.

Full-Time MBA

The full-time MBA is a 49-credit hour, degree. All courses are graduate level. The full-time program is 16 months in length and offers its required courses during the day on the Norman campus. Students in the full-time program will also complete two zero-credit hour courses in Professional Development as part of their curriculum.

Professional MBA

The Professional MBA program is a 37-hour degree program designed for students who work full time. Courses in this program are held in the evenings in Oklahoma City at the OU Health Sciences Center. This program is flexible to allow students to progress toward the MBA degree at an individual pace. While students typically complete the program in approximately 24 months, they have up to five years to earn their MBA. Students are admitted to the Professional MBA program each fall.

Prerequisites for the MBA Programs

While applicants are not required to have previous study in the field of business, they are expected to possess a basic understanding of analytical techniques (including matrix algebra, calculus, and computer usage), and a facility for expressing ideas precisely and coherently. All MBA courses are graduate-level and do not require undergraduate preparation.

Dual Degree Programs

In recognition of the strong demand for interdisciplinary expertise in many settings, Price College, in cooperation with other academic units within the University, offers several dual-degree programs. While the dual-degree programs require less total hours than pursuing the degrees separately, applicants must be admitted to each program independently. Admission, retention, and degree requirements are maintained by the separate colleges.

Honors and Awards

The Delta Sigma Pi Key

Each year, Delta Sigma Pi awards the Delta Sigma Pi Scholarship Key to the graduating senior with the highest academic average for the four years of study in business administration.

The Oklahoma Society of Certified Public Accountants Award

Medals are awarded annually to the three outstanding graduating seniors majoring in accounting. The award is based on academic performance in accounting courses.

John F. Y. Stambaugh Awards

Plaques and cash awards are bestowed annually on the outstanding accounting senior and junior, based on overall academic and extracurricular performance.

The Floyd Lamar Vaughan Memorial Award

The student chapter of the American Marketing Association bestows this annual award for excellence in marketing studies to an outstanding Price College of Business student.

The Julian J. Rothbaum Award

Given annually to a senior student majoring in energy management.

The Kenneth Baker Horning Memorial Award

An annual award given for excellence in business writing.

The Oklahoma City Sales Marketing Executives Awards

Keys and awards are bestowed annually for excellence in marketing and sales studies.

The Oklahoma Chapter Of The Financial Executive Institute Of America Award

A key is awarded annually to an outstanding student majoring in accounting.

The Horace B. Brown Case Study Award

Awarded annually by the Division of Marketing to the undergraduate student (or team) who has made the most significant contribution in classes taught by the case method. The award consists of a certificate and cash award.

The Entrepreneurship Institute Awards

Separate awards are made to graduate and undergraduate students for the best plan involving entrepreneurial activities. The award includes a certificate and cash award.

Scholarships, Fellowships and Loans

The University of Oklahoma has many general financial aid programs, including the following: Perkins Loans, Supplemental Educational Opportunity Grants, PELL, Work-Study, Stafford Student Loans, institutional short-term loans and Lew Wentz Foundation Loans. Students interested in applying for any of these programs should contact the Student Financial Center, 1000 Asp Avenue, room 105, Norman, OK 73019-4078.

In addition, Price College offers a wide variety of scholarships, fellowships, grants, loans, and research and teaching assistantships. Contact the Graduate Programs Office, Michael F. Price College of Business for more information.

College of Business Administrated Programs

The Economics, Bachelor of Business Administration (p. 532) shares with the discipline of economics some of the same conceptual concerns, but its focus is on the business firm and its well-being. Economics is a social science focusing on the economic well-being of society.

The Economics, Bachelor of Business Administration/Master of Science in Management Information Technology (p. 534) program is a great opportunity for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics.

Price College offers a Minor in General Business for Non-Business Majors (p. 534).

The Master of Business Administration (p. 537) cohort-based program enhances teamwork and collaboration through designed case studies and interactive learning. The program offers an array of industry specializations, certificates, summer internships, and dual-degree opportunities so that students' educational experiences are uniquely tailored to their career goals.

The Professional Master of Business Administration (p. 538) program is designed for both rising and seasoned professionals in the Oklahoma City area looking to advance their careers.

The Executive Master of Business Administration in Energy (p. 537) program is designed to create current and future leaders in the energy industry. The program offers students with the business fundamentals specifically customized for energy professionals, a global perspective on energy, and executive career coaching to enhance their leadership skills.

The Executive Management in Aerospace and Defense Graduate Certificate (p. 539) delivers business management education to the growing Aerospace/Defense industry. The graduate certificate is available to managers, executives, and employees in a wide variety of fields who work in the Aerospace/Defense industry. The certificate provides additional management education for these professionals who need specific skills using a flexible format, enabling students to tailor the certificate to their own needs, as well as those of their employer. The program prepares them for careers at the interface of managerial and

leadership positions in aerospace and defense organizations, consulting companies, government agencies, and defense contractors.

The Foundations of Business Graduate Certificate (p. 539) is offered for any OU graduate or professional student.

Business Doctoral Programs (p. 616) are high-quality program stressing solid preparation, collaborative relationships with faculty, support for research and professional travel, and strong placements. These programs provide students with the necessary knowledge, training, and resources to pursue successful careers in research and teaching that expand the frontiers of knowledge in business disciplines.

Economics, Bachelor of Business Administration

To enroll in upper-division business courses, students must be certified for degree candidacy and meet all prerequisites.

Major Requirements

No Independent Study or Online courses. A maximum of 6 hours of transfer work is allowed.

MIS 2113	Computer-Based Information Systems ⁵	3
Total Credit Hours		66-76

¹Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²Courses taken to fulfill the General Education Requirements must be chosen from the University-Wide General Education Approved Course List.

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum grade of C required.

Free Electives

6 hours if exempt from foreign language; may be taken in any lower/upper-division area. B AD 2110, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

1. Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU.
2. Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
3. One upper-division course in each of the following areas is required: FIN, L S, MGT, and MKT.
4. Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
5. A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
6. A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

This major normally requires three semesters of study beyond the business core requirements.

¹Prebusiness course.

²University-Wide General Education course, refer to online listing.

³May be free elective if artistic form, Non-Western culture or science is 3000- or 4000-level.

⁴Behavioral and Social Science courses must be chosen from the following: anthropology, psychology, sociology, political science, or geography (economic, human or political). Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

General Business for Non-Business Majors, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students accepted in the minor will be given permission to enroll in the upper-division credit hours of the minor.

Students must earn a 2.50 overall OU and combined retention GPA to declare the Minor.

Students must complete at least fifteen (15) minor hours in residence at the University of Oklahoma.

No correspondence work may be taken to fulfill requirements.

Courses for the minor may not be taken Pass/No Pass.

Minimum OU and Combined GPA of 2.50 in all specifically required courses. Lower division courses must be taken before upper-division courses.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

• The minor is only available to undergraduate students with a declared major outside Price College of Business.

• If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Business Administration, Master of Business Administration

A student who actively and satisfactorily participates in all Prelude activities will receive a grade of 'S' for B AD 5010. A student who does not satisfactorily participate in 75% of Prelude Week will be required to participate in a make-up session within the first two weeks of the semester. Failure to complete a make-up session will result in a grade of 'U' for B AD 5010, resulting in cancellation of the student's enrollment in the MBA program.

Required Courses

Code	Title	Credit Hours

Electives

Choose 18 hours of elective coursework, only 16 of which can be from the same division within the Price College of Business.

Capstone

B AD 5902	Strategic Management ²	2
-----------	-----------------------------------	---

Total Credit Hours 49

¹Courses may be satisfied on the basis of previous study with approval of the Graduate Liaison, which must be indicated on the Admission to Candidacy Form. The satisfied hours will be made up via additional elective hours to meet the required total of 49 degree applicable hours.

²Must make a grade of 'B' or better in B AD 5902 or it must be repeated. This is the capstone course and serves in lieu of the comprehensive examination. This requirement is non-waivable.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Professional MBA, Master of Business Administration

Required Courses

A student who actively and satisfactorily participates in all Prelude activities will receive a grade of 'S' for B AD 5010. A student who does not satisfactorily participate in 75% of Prelude Week will be required to participate in a make-up session within the first two weeks of the semester. Failure to complete a make-up session will result in a grade of 'U' for B AD 5010, resulting in cancellation of the student's enrollment in the MBA program.

Code	Title	Credit Hours
Required		
B AD 5902	Strategic Management ¹	2
Core Courses		
Courses may be satisfied on the basis of previous study with approval of the Graduate Liaison, which must be indicated on the Admission to Candidacy Form. The satisfied hours will be made up via additional elective hours to meet the required total of 37 degree applicable hours.

Additional information for master's degree students may be found in the Graduate College Bulletin.

Executive Management in Aerospace & Defense, Graduate Certificate

The Executive Management in Aerospace and Defense Graduate Certificate delivers business management education to the growing Aerospace/Defense industry. The graduate certificate is available to managers, executives, and employees in a wide variety of fields who work in the Aerospace/Defense industry. The certificate provides additional management education for these professionals who need specific skills using a flexible format, enabling students to tailor the certificate to their own needs, as well as those of their employer. The program prepares them for careers at the interface of managerial and leadership positions in aerospace and defense organizations, consulting companies, government agencies, and defense contractors.

Certificate Requirements

Code	Title	Credit Hours
EMAD 5302	Financial Management in Aerospace and Defense	2
EMAD 5332	Legal Environment for Aerospace and Defense	2
Choose 4 course from a list maintained by the department (p. 539)		8
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

EMAD 5372	Field Project in Aerospace & Defense (Implementation)	2

Additional graduate level courses as approved by the department and Graduate Liaison

Foundations of Business, Graduate Certificate

The Graduate Certificate in the Foundations of Business will help graduate students in areas outside of business, such as healthcare, to: (1) understand the core principles and theories underlying the functional areas of business; (2) develop frameworks for analyzing, applying and evaluating business processes and practices related to their primary area of interest; and (3) develop a broader perspective that incorporates their primary area of interest in a business context through meaningful interaction with business practitioners and academic professionals. A non-business student admitted to the program will take these courses with other graduate business students, including those in the MBA program, the Master of Accountancy program, and the Master of Information Technology program. By taking these courses with graduate students in the business school, OUHSC graduate students will have the opportunity to learn from each other in addition to gaining insights from current Price College of Business faculty members. A total of 13 hours is required for the certificate.

John T. Steed School of Accounting

Karen Hennes, Ph.D., Interim Director
200 Adams Hall
307 W. Brooks Street
(405) 325-4221
khennes@ou.edu
www.ou.edu/price/accounting

General Information

The John T. Steed School of Accounting is among a limited number of schools nationwide and the first one in Oklahoma to qualify for accounting accreditation from the Association to Advance Collegiate Schools of Business. The evaluation focused on student quality, faculty professional experience and research productivity, academic curriculum and program-support facilities.

The faculty of the school possess impressive credentials. Their academic backgrounds come from leading universities in the country. The faculty members have established strong records of research and professional publication. Some are consultants to major corporations, authors of textbooks and leaders in professional accounting associations.

The School of Accounting curriculum includes courses in financial accounting, cost accounting, taxation, auditing, and accounting information systems. Graduates are recruited by national and regional firms for challenging and rewarding careers in public accounting and business firms; others secure accounting positions in government.

Undergraduate Study

Bachelor of Business Administration

The mission for the Accounting, Bachelor of Business Administration (p. 541) degree is to educate students in the broad concepts and principles governing accounting, auditing and taxation. The program provides students with sufficient depth in internal and external accounting as well as strong analytical skills to prepare them for entry-level accounting positions in industry and government. It also provides a background that will serve as the basis for continued graduate study in professions where an accounting background is useful or necessary.

Accelerated Programs

The Accounting, Bachelor of Business Administration/Master of Accountancy (p. 544) accelerated program allows motivated current OU business undergraduates interested in professional accountancy to begin working on their Masters degree while still completing their undergraduate coursework.

The Accounting, Bachelor of Business Administration/Finance, Master of Science (p. 546) accelerated program provides an excellent education and academic experience. By combining the BBA with the master's in Finance, Accounting students will have a broader range of career options when they enter the job market or they may choose to pursue a PH.D. in Finance.

The Accounting, Bachelor of Business Administration/Master of Science in Management Information Technology (p. 549) accelerated program is a great opportunity for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics.

Minors

An Accounting Minor (p. 543) is also offered.

Master of Accountancy

The Master of Accountancy (p. 552) program at the University of Oklahoma became the first graduate program in the State of Oklahoma to be accredited under the AACSB International's accounting accreditation program.

The MAcc program is designed to prepare students for positions of responsibility in the accounting profession. Students may specialize in tax or auditing.

Part-Time Enrollment

To assist with career or other obligations that conflict with full-time enrollment, the MAcc program permits part-time study. The part-time student is given five years from the time of entrance to complete all degree requirements.

Prerequisites for the MACC Program

Applicants are not required to have previous study in the field of accounting and can enroll in preparatory coursework as part of their MAcc degree plan.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed

B AD 2091	Business and Professional Basics	1
B C 2813	Business Communications ⁵	3
ECON 1113	Principles of Economics-Macro (Core III) ⁵	3
ECON 1123	Principles of Economics-Micro ⁵	3
ECON 2843	Elements of Statistics ⁵	3
MIS 2113	Computer-Based Information Systems ⁵	3
Total Credit Hours		66-76

¹Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List.

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum grade of C required.

Free Electives

5 hours if exempt from foreign language; may be taken in any lower/upper-division area. B AD 2110, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
- One upper-division course in each of the following areas is required: FIN, L S, MGT, and MKT.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
- A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

This major normally requires three semesters of study beyond the business core requirements.

¹Prebusiness course.

²University-Wide General Education course, refer to online listing.

³May be free elective if artistic form, Non-Western culture or science is 3000- or 4000-level.

⁴Behavioral and Social Science courses must be chosen from the following: anthropology, psychology, sociology, political science, or geography (economic, human or political). Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

Accounting, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

No correspondence work may be taken to fulfill requirements.

Courses for the minor may not be taken Pass/No Pass.

All courses with an ACCT designator except the required lower-division prerequisite business ACCT course will be calculated in the minor GPA.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.

- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

COMM 1113	Principles of Communication or COMM 2613 Public Speaking	3

Foreign Language (Core I) - Students who have completed two years of high school foreign language are exempt from this general education requirement 0-10

Behavioral & Social Science

P SC 1113 American Federal Government (Core III) 3

Choose 3 elective hours from the following fields: 3

Anthropology, Geography (economic, human, or political), Political Science, Psychology, or Sociology¹

Humanities

HIST 1483 United States, 1492 to 1865 (Core IV) 3

or HIST 1493 United States, 1865 to the Present

PHIL 1273 Introduction to Business Ethics (Core IV: W. Civ.) 3

Choose one course in each of the following fields (Core IV): 6

Understanding Artistic Forms^{2,3}

Non-Western Culture^{2,3}

Science & Mathematics

Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)² 7

MATH 1643 Functions and Modeling for Business, Life and Social Sciences (Core I)⁴ 3

MATH 1743 Calculus I for Business, Life and Social Sciences (Core I)⁴ 3

MATH 2123 Calculus II for Business, Life and Social Sciences⁴ 3

Basic Business

ACCT 2113 Fundamental Financial Accounting⁵ 3

ACCT 2123 Fundamental Managerial Accounting⁵ 3

B AD 1001 Personal Computing Productivity Tools 1

B AD 2091 Business and Professional Basics 1

B C 2813 Business Communications⁵ 3

ECON 1113 Principles of Economics-Macro (Core III)⁵ 3

ECON 1123 Principles of Economics-Micro⁵ 3

ECON 2843 Elements of Statistics⁵ 3

MIS 2113 Computer-Based Information Systems⁵ 3

Total Credit Hours 66-76

¹Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List.

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum C required. ACCT majors must earn a 2.50 GPA in ACCT 2113 & ACCT 2123.

Free Electives

Six hours if exempt from foreign language; may be taken in any lower/ upper-division area or met with general education requirements. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

1. One upper-division course in each of the following areas is required: FIN, LS, MGT, and MKT.
2. Pass/No Pass **will not** be accepted for any Business or General Education courses or any specifically required courses.
3. Students must complete the GMAT exam with a score of 500 or greater.
4. Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
5. A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
6. A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

During the third year:

- Take GMAT (if required)
- Interview for internships
- Apply for admission to Master of Accountancy program

¹Prebusiness course.

²University-Wide General Education course, refer to online listing.

³May be free elective if Artistic Form, Non-Western Culture, or Science course is 3000-4000-level.

⁴Behavioral and Social Science courses must be chosen from the following: anthropology, psychology, sociology, political science, or geography (economic, human or political). Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

Accounting, Online Accounting, Master of Accountancy

Required Courses

Code	Title	Credit Hours
Required Coursework		
ACCT 5100	Accounting Professional Development	0
ACCT 5113	Advanced Accounting	3
ACCT 5703	Income Tax Accounting II	3
ACCT 6553	Accounting Theory and Research	3
Accounting Electives		
Choose twelve hours of 5000- or 6000-level Accounting courses ¹		12
Graduate Business Electives		
Choose twelve hours of graduate courses in B AD, ECON, ENT, FIN, L S, MGT, MIT, MKT, SCM, or ACCT ²		12
Total Credit Hours		33

¹Except ACCT 5202 and ACCT 5212.

²Maximum three hours of ACCT coursework.

The Non-Thesis degree is a coursework-only degree; a Non-Thesis examination is not required.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Division of Entrepreneurship and Economic Development

Tom Lumpkin, Director
 Three Partners Place
 201 David L. Boren Blvd., Suite 100
 Adams Hall
 307 W. Brooks St.
 (405) 325-1638
 impact@ou.edu
 www.ou.edu/price/entecdev

General Information

OU's Entrepreneurship Program has consistently been ranked as one of the top entrepreneurship programs in the country. The Princeton Review and Entrepreneur Magazine have recently ranked it as #5.

The Division's central mission is to help students connect to the world of opportunity. Their program builds excellent thinking skills, solid content, hands-on innovation-based projects, leadership/ communication skills, and interpersonal/ team skills. Students experience entrepreneurship and learn by doing.

As a part of the Price College of Business, the Division of Entrepreneurship and Economic Development continues to build an entrepreneurial ecosystem that includes experiential learning and enables the launching of successful ventures and successful careers.

Students are immersed in the entrepreneurial process through hands-on innovation curriculum and programs enabling them to learn how to build new ventures with the help of practicing entrepreneurs and leading entrepreneurship scholars. We empower students with the resources and opportunities they need to launch a successful business venture to economically impact Oklahoma and the world.

Programs & Facilities

Tom Love Center for Entrepreneurship

The Tom Love Center for Entrepreneurship enables students to discover entrepreneurship, develop specialized skills, test emerging business ideas and launch breakthrough ventures to transform our state, nation and world.

Tom Love Innovation Hub

The Tom Love Innovation Hub offers a variety of resources such as digital fabrication lab, code lab, visualization lab, legal clinic, and collaborative spaces and classroom.

Coffee with an Entrepreneur

The Coffee with an Entrepreneur program is an opportunity for students to have coffee with successful entrepreneurs and industry experts. The practicing entrepreneurs will share their experience with various industries, startups, technologies, and business strategies. Students are given the opportunity to ask questions, discuss new venture ideas, and receive guidance for their entrepreneurial career. Visiting entrepreneurs include both seasoned and young entrepreneurs with valuable knowledge and experience to impart.

Entrepreneurial Scholars

Entrepreneurial Scholars travel on all expense paid trips to entrepreneurship hubs where they visit prominent entrepreneurs,

companies, and startups. Students learn about how to successfully launch and maintain a thriving company from prominent business leaders and entrepreneurs who have attained success. Students gain valuable mentoring relationships and connections that lead to internship and job opportunities. Entrepreneurial-scholar cities include: San Francisco, Austin, Houston, Beijing, Shanghai, Arezzo, Paris, and London

Sooner Launch Pad

The Sooner Launch Pad (SLP) is a collaborative effort of the Center for Entrepreneurship and the Center for the Creation of Economic Wealth that provides a multidisciplinary environment for OU students, alumni, and the Oklahoma community to propel business ideas into new ventures. SLP provides access to the resources needed to launch a new venture to students, recent graduates, and local entrepreneurs. This is achieved through Venture Strategy Sessions (VSS), where entrepreneurs receive feedback for their venture, and the New Venture Pitch Competition, where student startup teams propose a new business venture and compete for over \$20,000 in seed funding.

Undergraduate Study

Bachelor of Business Administration

Entrepreneurship and Venture Management, Bachelor of Business Administration (p. 553) immerses students in the entrepreneurial process through hands-on innovation programs. Students learn how to build new ventures with the help of practicing entrepreneurs and leading entrepreneurship scholars.

Accelerated Program

The Entrepreneurship & Venture Management, Bachelor of Business Administration/Master of Science in Management of Information Technology (p. 556) accelerated program is a great opportunity for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics.

Minors

An Entrepreneurship for Non-Business Majors Minor (p. 556) and an Entrepreneurship for Business Majors Minor (p. 556) are offered.

Graduate Study

Graduate Certificates

The Graduate Certificate in Business Entrepreneurship (p. 559) teaches students how to assess the feasibility of a new venture, chart a commercialization path for an innovation, analyze other people's plans, and plan for successful capitalization and launch.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Bolen	Ronald	E	2012	ASSISTANT PROFESSOR OF ENTREPRENEURSHIP AND ECONOMIC DEVELOPMENT, 2012	MBA, New York Univ, 1997; JD, Univ of Oklahoma, 1989; BBA, Univ of Oklahoma, 1986
Drover	Andrew	W	2014	ASSISTANT PROFESSOR OF ENTREPRENEURSHIP AND ECONOMIC DEVELOPMENT, 2014	PhD, Southern Illinois Univ, 2014; MBA, California State Univ Long Beach, 2009; BS, Univ of Missouri, 2007

ECON 2843	Elements of Statistics ⁵	3
MIS 2113	Computer-Based Information Systems ⁵	3
Total Credit Hours		66-76

¹Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List.

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum grade of C required.

Free Electives

5 hours if exempt from foreign language; may be taken in any lower/upper-division area. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
- One upper-division course in each of the following areas is required: FIN, L S, MGT, and MKT.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
- A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

This major normally requires three semesters of study beyond the business core requirements.

During the second semester, sophomore year:

- Apply for degree candidacy
- Recommended semester to study abroad

¹University-Wide General Education course, refer to online listing.

²May be free elective if artistic form, Non-Western culture, or science is 3000- or 4000-level.

³Behavioral and Social Science courses must be chosen from the following: anthropology, psychology, sociology, political science, or geography (economic, human or political). Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

Entrepreneurship for Non-Business Majors, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students accepted in the minor will be given permission to enroll in the upper-division credit hours of the minor.

All upper division courses must be completed at OU.

No correspondence work may be taken to fulfill requirements.

Courses for the minor may not be taken Pass/No Pass.

Minimum OU and Combined GPA of 2.50 in all specifically required business and all specifically required upper division business courses. Lower division courses must be taken before upper-division courses.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major outside Price College of Business.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

¹Prebusiness course.

²University-Wide General Education course, refer to online listing.

³Behavioral and Social Science courses must be chosen from the following: anthropology, psychology, sociology, political science, or geography (economic, human or political). Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

⁴May be free elective if Artistic Form, Non-Western Culture, or Science course is 3000-4000-level.

Business Entrepreneurship, Graduate Certificate

The Business Entrepreneurship Certificate program teaches students the theory and principles of entrepreneurship for the development of business opportunity projects, how to commercialize technologies from their respective fields of study, encourages interdisciplinary graduate teams exploring cutting edge innovations from our university laboratories, provides the tools to evaluate their economic feasibility, encourages interdisciplinary graduate teams to build business plans for the commercialization of innovative solutions for opportunities in today's global marketplace, and enhances career opportunities through involvement with entrepreneurial opportunities and business development. A total of 12 hours is required for the certificate.

Certificate Requirements

Code	Title	Credit Hours
ENT 5102	Entrepreneurship & Innovation	2
ENT 5934	Strategic Venture Development	4
Choose 4 hours of guided electives (p. 559)		4
Choose 2 hours general electives (p. 559)		2
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

(405) 325-5591
finance@ou.edu
www.ou.edu/price/finance

General Information

The Division of Finance offers required and elective courses that enable students to specialize in corporate finance, investments, risk management, and banking.

The Division of Finance enjoys a top echelon international reputation for the quality of its faculty. Current faculty in the division have also been the recipient of major research excellence awards and prizes at international conferences and otherwise. These faculty-members have also received grants for research well in excess of \$1 million from national and international research councils and other public bodies.

The international esteem of division faculty-members is reflected by the important elected positions of responsibility they have held in major international professional associations; by the significant consultancy they have undertaken in their respective areas of expertise, both nationally and internationally; by the several international conferences they have Chaired or Co-Chaired; and by the key note addresses they have given at important professional events.

The research areas of the finance faculty include privatization, derivatives, risk management, hedging, market microstructure, international finance, and corporate finance.

Programs & Facilities

Center for Financial Studies

The Center for Financial Studies is an important reason for the prolific research activity of our faculty. The mission of the CFS is to foster and support finance research and scholarship at the University of Oklahoma and to facilitate interaction between students, faculty and the external business and academic community.

Finance Seminar Series

The Finance Seminar Series features faculty presentations from the University of Oklahoma and elsewhere.

Student Investment Fund

The Student Investment Fund is a stock fund for which Mr. Michael Price provided the seed money in 1996 and which has since then been successfully managed by students.

Finance Student Association

The Finance Student Association is an important venue connecting students to employers, faculty, and fellow students.

Undergraduate Study

Bachelor of Business Administration

The Finance, Bachelor of Business Administration (p. 561) program is designed to train students to succeed in multiple career tracks, including financial planning, investment management, commercial banking, investment banking, trading, financial analysis, corporate finance, research, regulation, and more.

The Risk Management, Bachelor of Business Administration (p. 564) trains students how to measure and manage different types of risk arising from all aspects of business and prepare them for many exciting careers: trading financial instruments and commodities, corporate hedging, banking, and others.

Accelerated Programs

The Finance, Bachelor of Business Administration/Finance, Master of Science (p. 567) accelerated program is an excellent opportunity to combine the BBA with a master's degree in Finance which will provide the competitive advantage students need when they search for finance jobs. Students may also choose to pursue a Ph.D. in Finance.

The Finance, Bachelor of Business Administration/Master of Science in Management of Information Technology (p. 570) and the Risk Management, Bachelor of Business Administration/Master of Science in Management of Information Technology (p. 573) programs are great opportunities for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics.

Minor

The Finance Division also offers a Finance for Business Majors Minor (p. 566).

Graduate Study

Master of Science

The Master of Science (p. 575) in Finance provides a unique and high-level educational experience focused on fundamental and advanced topics in the field of modern finance. The curriculum is designed around state-of-the-art thinking and best practices and is taught by scholars who are both high-quality instructors and at the forefront of modern finance research. The curriculum is a build-up structure in which fundamental building blocks are followed by in-depth advanced topical courses which integrate and build upon the courses already completed.

Graduate Certificates

The Graduate Certificate in The Business of Energy (p. 576) provides students with a rigorous curriculum in energy finance that includes a broad overview of the energy sector, along with in-depth examinations of the regulatory, accounting, and tax issues in energy. The curriculum provides preparation for placement in the business and finance side of the energy industry. Courses also provide students with a comprehensive review of energy company decision making as it pertains to the analysis of financing and the valuation of energy projects as well as company-level risk management. In addition, the curriculum focuses on the market for

energy assets and commodities, the trading of such assets, asset pricing, and the role of financial derivative contracts and hedging strategies.

The Graduate Certificate in Finance (p. 576) provides students with rigorous analysis, hands-on practice, and intense discussions to prepare them for and provide the concepts, approaches, and experience to manage portfolios, advise clients, analyze investments, or contribute to a corporate finance practice in industry or banking. Learn how to value financial securities, price and manage assets, manage risk, and model finances. Gain perspective on financing and financial decision making, reporting, and analysis.

Total Credit Hours			66-76

¹Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²**Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List.**

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum C required.

Free Electives

5 hours if exempt from foreign language; may be taken in any lower/upper-division area. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

1. Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU.
2. Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
3. One upper-division course in each of the following areas is required: FIN, L S, MGT, and MKT.
4. Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.

5. A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.

6. A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

This major normally requires three semesters of study beyond the business core requirements.

⁵Minimum C required.

Free Electives

Five hours if exempt from foreign language; may be taken in any lower/ upper-division area. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA. Recommended courses: GEOL 1013, GEOL 1104, GEOL 4143.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
- One upper-division course in each of the following areas is required: FIN, L S, MGT, and MKT.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
- A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses ¹.

This major normally requires three semesters of study beyond the business core requirements.

Course	Title	Credit Hours
Freshman		
First Semester

¹Prebusiness course.

²University-Wide General Education course, refer to online listing.

³Behavioral and Social Science courses must be chosen from the following: anthropology, psychology, sociology, political science, or geography (economic, human or political). Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

Finance for Business Majors, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

No correspondence work may be taken to fulfill requirements.

Courses for the minor may not be taken Pass/No Pass.

All courses beyond FIN 3303 with a FIN designator will be calculated in the minor GPA.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Code	Title	Credit Hours
Prerequisite		
FIN 3303	Business Finance	3
Required		
FIN 3503	Investments	3
FIN 3603	Advanced Corporate Finance	3

Total Credit Hours 66-76

¹Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²**Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List.**

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum C required.

Free Electives

3 hours if exempt from foreign language; may be taken in any lower/upper-division area. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- One upper-division course in each of the following areas is required: FIN, LS, MGT, and MKT.
- Pass/No Pass **will not** be accepted for any Business or General Education courses or any specifically required courses.
- Students must complete the GMAT exam with a score of 500 or greater.
- Comprehensive written exam required at end of program.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
- A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

During the 2nd semester, third year:

- Take GMAT
- Interview for internships
- Apply for admission to Master of Accountancy program

Total Credit Hours 66-76

¹Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List.

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum C required.

Free Electives

2 hours if exempt from foreign language; may be taken in any lower/upper-division area outside Price College or the Department of Economics. B AD 2110, B AD 2113, MKT 2013 and MGT 2013 will not count for credit toward a BBA.

Additional Requirements

- One upper-division course in each of the following areas is required: FIN, LS, MGT, and MKT.
- Pass/No Pass **will not** be accepted for any Business or General Education courses or any specifically required courses.
- Students must complete the GMAT exam with a score of 500 or greater.
- Comprehensive written exam required at end of program.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
- A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

During the 2nd semester, third year:

- Take GMAT
- Interview for internship
- Apply for admission to Master's program

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

The Business of Energy, Graduate Certificate

The Graduate Certificate in The Business of Energy provides students with a rigorous curriculum in energy finance that includes a broad overview of the energy sector, along with in-depth examinations of the regulatory, accounting, and tax issues in energy. The curriculum provides preparation for placement in the business and finance side of the energy industry. Courses also provide students with a comprehensive review of energy company decision making as it pertains to the analysis of financing and the valuation of energy projects as well as company-level risk management. In addition, the curriculum focuses on the market for energy assets and commodities, the trading of such assets, asset pricing, and the role of financial derivative contracts and hedging strategies. A total of 12 hours is required for the certificate.

Certificate Requirements

Code	Title	Credit Hours
ENGB 5142	Introduction to Energy	2
ENGB 5152	Energy Accounting and Regulations	2
ENGB 5162	Energy Corporate Finance	2
ENGB 5172	Energy Assets and Commodities: Financial Instruments, Pricing and Trading	2
ENGB 5182	Enterprise Valuation, Mergers and Acquisitions, and Corporate Restructuring	2
FIN 5322	Derivative Securities and Markets	2
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of

coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Finance, Graduate Certificate

The Graduate Certificate in Finance provides students with rigorous analysis, hands-on practice, and intense discussions to prepare them for and provide the concepts, approaches, and experience to manage portfolios, advise clients, analyze investments, or contribute to a corporate finance practice in industry or banking. Learn how to value financial securities, price and manage assets, manage risk, and model finances. Gain perspective on financing and financial decision making, reporting, and analysis. A total of 12-13 hours is required for the certificate.

Certificate Requirements

Code	Title	Credit Hours
FIN 5322	Derivative Securities and Markets	2

General Information

The goal of the Division of Management and International Business is to educate students so that they can make strategic, administrative and/or supervisory contributions to organizations through critical thinking plus mastery of fundamental skills and concepts. Faculty are active in research plus have publications in leading academic and practitioner-oriented journals in the areas of Human Resources Management, International Business, Organizational Behavior, Social/Environmental Issues in Business, and Strategic Management. The course portfolio ranges from survey courses in cross-cultural management, human resource management, the legal environment of business, organizational behavior and the management of professional sports to skills based courses in consulting, contract law, negotiation and supervision as well as specialty courses including international human resources, natural gas markets, sports logistics and real property law. The award-winning faculty consists of both academics and practitioners which provides students with both an intellectual framework within which to understand world of management and real-world insights to help insure students' success. This combined approach is a dynamic strength of our unit, leading to an application oriented, integrative core approach to the classroom.

Programs & Facilities

Sooner Sports Management Club (SSMC)

The Sooner Sports Management Club enhances leadership skills while providing opportunities to gain experience and strengthen one's personal network with exposure in the sports industry.

Energy Management Student Association

The EMSA provides an abundance of activities including energy industry programs, internship opportunities, scholarship interviews, community service, and more.

Undergraduate Study

Bachelor of Business Administration

The Energy Management, Bachelor of Business Administration (p. 578) is the first (and largest) of its kind in the nation - created in 1958. The energy-focused curriculum is comprised of classes in business, law, petroleum engineering, geology, and meteorology.

The Management, Bachelor of Business Administration (p. 584) prepares students to lead and communicate with people in a professional role. Jobs are available in almost every industry worldwide for managers with strong leadership qualities.

The International Business, Bachelor of Business Administration (p. 581) prepares students for the global business world of the 21st century. A unique feature of the program is that it is a Dual-Major program. Students are required to major in International Business, which provides an across-business-disciplines appreciation of the challenges and strategies for coping in the global business world in which we live today and will continue to live during your lifetime. Additionally, students are required to double major in Accounting, Economics, Entrepreneurship, Finance, Human Resource Management, Management Information Systems, Marketing, or Supply Chain Management.

The Sports Management, Bachelor of Business Administration (p. 586) program combines courses from faculty with extensive experience, exposure to hands-on projects, plus internship opportunities with all types of sports organizations.

Accelerated Program

The Management, Bachelor of Business Administration/Master of Science in Management of Information Technology (p. 591) program is a great opportunity for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics

Minor

The Division of Management and International Business offers these Minors:

- Leadership for Business Majors Minor (p. 589)
- Management Minor (p. 589)
- Sports Management Minor for Business Majors (p. 590)
- Sports Management Minor for Non-Business Majors (p. 590)

ECON 1123	Principles of Economics-Micro ⁵	3
ECON 2843	Elements of Statistics ⁵	3
MIS 2113	Computer-Based Information Systems ⁵	3
Total Credit Hours		67-77

¹Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List.

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum grade of C required.

B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
- One upper-division course in each of the following areas is required: FIN, L S, MGT, and MKT.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
- A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses ¹.

This major normally requires three semesters of study beyond the business core requirements.

B AD 1010	Passport to Success II (4 enrollments required)	0

Pre-Approved International Experience Requirement

Study Abroad Experience (p. 582)

Additional Business Major	18-41
----------------------------------	-------

Students majoring in International Business must also choose a second major in one of the following: Accounting, Economics, Energy Management, Entrepreneurship, Finance, Management Information Systems, Marketing, Risk Management, Sports Management, or Supply Chain Management.

Foreign Language	12
-------------------------	----

Language Met (P408): If Language Met, 12 hours of electives are required. 6 of the hours must be 3000/4000 level nonbusiness.

All other languages: 12 hours minimum coursework in the same language. 6 hours must be 3000/4000 level and focused in composition and/or conversation. Business fluency is preferred.

Total Credit Hours 45-68

¹Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.

Pre-Approved International Experience Requirement

- A minimum 8 weeks, full cultural immersion in a foreign country with exception of Canada. Alternative study abroad programs could be considered case by case basis. Method of completion must be approved by Price College IB Committee.
- Complete and submit the Declaration of Intent to Study Abroad to Price Hall, Suite 1010
- Earn passing credits while abroad (passing credits are determined by foreign institution)

Major Electives

12 hours chosen from the following with a maximum of three hours of non-Business courses:

Code	Title	Credit Hours
ACCT 3023	International Financial Statement Analysis	3
ECON 3613	International Trade Theory and Problems	3
L S 4713	The Law of International Business Transactions	3
or IAS 3013	International Law	
MGT 4323	Cross-Cultural Issues Of Managerial Behavior	3
MGT 4973	International Human Resource Management	3
MKT 4523	International Marketing	3
or MKT 4303	International Advertising	
Study Abroad Course (must be pre-approved by IB Major Coordinator or Division Director)		
Choose a maximum of one of the following: 3		
FIN 3133	International Financial Management for Non-Majors	
FIN 4133	International Financial Management	
ECON 3633	International Finance Theory and Problems

B AD 1010	Passport to Success II	0
Credit Hours		14
Total Credit Hours		122

¹Prebusiness course.

²University-Wide General Education course, refer to online listing.

³May be free elective if artistic form, Non-Western culture, or science is 3000- or 4000-level.

⁴Behavioral and Social Science courses must be chosen from the following: anthropology, psychology, sociology, political science, or geography (economic, human or political). Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

Sports Management, Bachelor of Business Administration

To enroll in upper-division business courses, students must be certified for degree candidacy and meet all prerequisites.

Major Requirements

No Independent Study or Online courses. A maximum of 6 hours of transfer work is allowed.

Code	Title	Credit Hours
Required		
MGT 3153	An Introduction to the Business of Sports	3
Management Skills Elective		
Choose one of the following:		3
L S 4523	The Law of Commercial Transactions	
MGT 3123	Supervision Skills	
MGT 4183	Negotiation	
Sports Management Internship¹		3
MGT 3700	Management Internship for Credit	
Sports Management Topics		
Choose three courses (p. 586)		9
Sport Management Electives		
Choose one course (p. 586)		3
Total Credit Hours		21

¹Internship must be pre-approved by Sports Program Director.

Required Courses

Code	Title	Credit Hours
Core Requirements		
FIN 3303	Business Finance	3
L S 3323	Legal Environment of Business	3
MGT 3013	Principles of Organization and Management	3
MKT 3013	Principles of Marketing	3
B AD 4013	Business Strategy and Policy (Capstone - to be taken last semester of senior year) ¹	3
Additional Requirements		
B AD 1000	Passport to Success I (4 enrollments required)	0
B AD 1010	Passport to Success II (4 enrollments required)	0
Upper-Division Electives		
Choose 12 hours (no more than 6 hours may be taken in business; may be met with general education requirements)		12
Total Credit Hours		27

¹Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.

Sports Management Topics

Choose three from the Division's approved Sports Topics course list (see the Sports Management Program webpage for the current list). One course must be offered by Price College of Business.

Available courses include the following:

Code	Title	Credit Hours
MGT 3700	Management Internship for Credit ¹	1-3
HES 4273	Sport Finance	3
HES 4283	Sports Economics and Policy	3
MGT 3163	Licensing and Intellectual Property Management in Sports	3
MGT 3173	Sports Logistics	3
MGT 3193	Sports Marketing and Management	3
MGT 3203	Pay for Play: College Sports at the Precipice	3
MGT 3213	Sports Sales and Revenue Generation	3
MGT 3223	Sports Analytics	3
MGT 3243	Financing in Sports Business	3
MGT 3253	The Economics of Sports Business	3
MGT 4173	Sports Management Practicum	3
MIS 3213	Business Data Analysis	3
SOC 3123	Social Statistics	3
ECON 4223	Econometric Analysis	3

¹Internship must be pre-approved by Sports Program Director. If used for Analytics Track, must be approved for that purpose. Only one internship can be used for credit

Sports Management Electives

Choose one from the Division's approved Sports Management Elective course list (see the Sports Management Program webpage for the current list). Additionally, any Sports Management Topics course not used previously can be used to fulfill this requirement.

Available courses include the following:

Code	Title	Credit Hours
MKT 4123	Negotiation and Selling (strongly encouraged)	3
H R 3313	Ethical Issues in Intercollegiate Athletics	3
H R 4313	Intercollegiate Athletic Administration	3
PSY 4940	Seminar in Psychology	1-3

Sports Analytics Track

Students pursuing the Analytics Track must pick three of the following or choose courses from the Division's approved Sports Analytics course list:

Code	Title	Credit Hours
MIS 3213 or MIS 3223	Business Data Analysis	3
SOC 3123	Social Statistics	3
ECON 4223	Econometric Analysis	3
MGT 3700	Management Internship for Credit	1-3

General Education and College Requirements

Code	Title	Credit Hours
Communications		
ENGL 1113	Principles of English Composition (Core I)	3

ENGL 1213	Principles of English Composition (Core I)	3
or EXPO 1213	Expository Writing	

COMM 1113	Principles of Communication	3
or COMM 2613	Public Speaking	

Foreign Language (Core I) - Students who have completed two years of high school foreign language are exempt from this general education requirement 0-10

Behavioral & Social Science

P SC 1113	American Federal Government (Core III)	3
-----------	--	---

Choose 3 elective hours from the following fields: 3
Anthropology, Psychology, Sociology, Political Science, Geography (economic, human, or political) ¹

Humanities

HIST 1483	United States, 1492 to 1865 (Core IV)	3
or HIST 1493	United States, 1865 to the Present	

PHIL 1273	Introduction to Business Ethics (Core IV: W. Civ.)	3
-----------	--	---

Choose one course in each of the following fields (Core IV): 6
Understanding Artistic Forms ^{2,3}

Non-Western Culture ^{2,3}

Science & Mathematics

Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II) ² 7

MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ⁴	3
-----------	---	---

MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ⁴	3
-----------	---	---

MATH 2123	Calculus II for Business, Life and Social Sciences ⁴	3
-----------	---	---

Basic Business

ACCT 2113	Fundamental Financial Accounting ⁵	3
-----------	---	---

ACCT 2123	Fundamental Managerial Accounting	3
-----------	-----------------------------------	---

-----------	-------------------------------------	---

MIS 2113	Computer-Based Information Systems ⁵	3
----------	---	---

Total Credit Hours		66-76
--------------------	--	-------

¹PSY 1113 is recommended. Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List.

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum grade of C required.

Free Electives

8 hours if exempt from foreign language; may be taken in any lower/upper-division area. B AD 2110, B AD 2113, MGT 2013 and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
- One upper-division course in each of the following areas is required: FIN, L S, MGT, and MKT.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
- A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

This major normally requires three semesters of study beyond the business core requirements.

- ¹Prebusiness course.
- ²University-Wide General Education course, refer to online listing.
- ³May be free elective if artistic form, Non-Western culture or science is 3000- or 4000-level.
- ⁴Behavioral and Social Science courses must be chosen from the following: anthropology, psychology, sociology, political science, or geography (economic, human or political). Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

Leadership for Business Majors, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

A minimum of nine (9) hours must be completed at OU.

All courses beyond MGT 3013 with a MGT designator will be calculated in the minor GPA.

No correspondence work may be taken to fulfill requirements.

Courses for the minor may not be taken Pass/No Pass.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Code	Title	Credit Hours
Prerequisite		
MGT 3013	Principles of Organization and Management	
Minor Courses		
Choose one from the following:		3
MGT 3133	Leadership	

MGT 3710	Topics in Management (JCPenney Leadership Associates Only)	
MGT 3123	Supervision Skills	3
Electives		
Choose any three of the following in at least two categories:		9
International Leadership:		
B AD 3513	International Business	
MGT 4323	Cross-Cultural Issues Of Managerial Behavior	
Human Capital & Leadership:		
MGT 3363	Organizational Behavior	
MGT 4183	Negotiation	
MGT 3513	Human Resource Management Practice	
Experiential Leadership (JCPenney Leadership Associates Only):		
B AD 3700	Internship in Business Administration	
Outside of Price College of Business:		
PSY 4703	Psychology of Leadership (Prerequisite: senior standing or permission from instructor)	
H R 3013	Introduction to Human Relations	
Total Credit Hours		15

Management, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

No correspondence work may be taken to fulfill requirements.

Courses for the minor may not be taken Pass/No Pass.

All courses beyond MGT 3013 with an MGT designator will be calculated in the minor GPA.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

MGT 3013	Principles of Organization and Management	3
Required		
MGT 3153	An Introduction to the Business of Sports	3
Electives		
Choose 9 hours MGT electives from the following:		9
MGT 3163	Licensing and Intellectual Property Management in Sports	
MGT 3173	Sports Logistics	
MGT 3183	What Makes A Team Work	
MGT 3193	Sports Marketing and Management	
MGT 3700	Management Internship for Credit ¹	
MGT 4173	Sports Management Practicum	
HES 4273	Sport Finance	
HES 4283	Sports Economics and Policy	
Total Credit Hours		15

¹Internship must be pre-approved by Division Director. Only one internship may be used towards minor requirement.

Sports Management for Non-Business Majors, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students accepted in the minor will be given permission to enroll in the upper-division credit hours of the minor.

Sports Management minor for non-business majors will be restricted to no more than 15 new students per year. Student must have a 3.0 retention combined grade point average or better at the time of application. Students must have completed or be concurrently enrolled in the required lower division courses for the minor. Accepted students in the minor will be given permission to enroll in as many as eighteen upper-division credit hours for the minor.

The Sports Management Review Committee will evaluate applicants. Acceptance into the program will be based on academic performance in courses, activities, awards, work experience, and other measures indicative of future performance. Submit Application online at https://ousurvey.qualtrics.com/jfe/form/SV_5urBtBzwh3U93.

All upper division courses must be completed at OU.

No correspondence work may be taken to fulfill requirements.

Courses for the minor may not be taken Pass/No Pass.

Minimum OU and Combined GPA of 2.75 in courses completed in the minor.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major outside Price College of Business.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Code	Title	Credit Hours
Prerequisite		
ECON 1123	Principles of Economics-Micro (grade of B or better)	3
Required		
MGT 2013	Introduction to Management	3
or MGT 3013	Principles of Organization and Management	
MGT 3153	An Introduction to the Business of Sports	3
Electives		
Choose 12 hours MGT electives from the following: ¹		12

MGT 3163	Licensing and Intellectual Property Management in Sports

Total Credit Hours		66-76

¹Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List.

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum grade of C required.

Free Electives

8 hours if exempt from foreign language; may be taken in any lower/upper-division area. B AD 2110, B AD 2113, MKT 2013 and MGT 2013 will not count for credit toward a BBA.

Additional Requirements

- One upper-division course in each of the following areas is required: FIN, LS, MGT, and MKT.
- Pass/No Pass **will not** be accepted for any Business or General Education courses or any specifically required courses.
- Students must complete the GMAT exam with a score of 500 or greater.
- Comprehensive written exam required at end of program.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
- A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

During the 2nd semester, third year:

- Take GMAT
- Interview for internship
- Apply for admission to Master's program

General Information

The Management Information Systems (MIS) Division includes a vibrant group of faculty, staff and students, collaborating to develop student skills, research and advance knowledge on information technologies for organizational use. Since its inception in 1995, the division has grown and thrived as a place for high quality information technology education and research.

The undergraduate major and minor program provides students the knowledge on latest information technologies and organizational applications, practical skill experiences with current tools, that enable them to design, develop, manage and use computer-based information systems in global organizations. The coursework prepares students to understand and apply technology concepts and tools on topics such as data structures, database management, programming, web design, systems analysis and design, business infrastructure and cybersecurity, business analysis, data analytics, enterprise resource planning, enterprise system architecture and project management. Through a field project capstone course, students interact and conduct work for a real-world organization, through an actual system design. The graduate program offers a full set of courses to obtain knowledge and skills on business data analytics by coverage of topics such as business intelligence, data warehousing, data science, predictive modeling, analytics programming, social analytics, visual analytics, health informatics, and health analytics. The doctoral program develops students that can conduct high-quality research and teaching to pursue careers in academia.

The MIS division has dedicated faculty who excel at teaching and research, and their accomplishments are globally recognized. They often earn awards from the college, university and professional organizations for outstanding research, teaching excellence, innovations and service to students and the institution. All faculty members work in a collaborative manner, engaging with students and business partners to regularly improve curriculum and offer the best information technology education.

Programs & Facilities

MIS Student Association

The MIS Student Association (MISSA) is one of the most active in the college. Through MISSA, students receive the opportunity to meet and talk with leading business professionals. Many students spend one or more summers in well-paid internship positions during their program here.

Center for MIS Studies

The Center for MIS Studies (CMISS) is a thriving industry-academic partnership that connect business and government leaders with MIS faculty and students on a regular basis for the mutual exchange of ideas to develop future technology talent and scholarship.

Undergraduate Study

Bachelor of Business Administration

The Management Information Systems, Bachelor of Business Administration (p. 595) provides a strong foundation and knowledge to apply information technologies to empower organizations. The program helps students understand fundamentals of information technology, learn

to apply it to solve business problems, and add value in ways that could not have been done without the use of data and information.

Accelerated Program

The Management Information Systems, Bachelor of Business Administration/Master of Science in Management of Information Technology (p. 598) program is a great opportunity for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics

Minors

The MIS Minor coursework is designed to give students a practical understanding of the information technology tools businesses use to achieve their goals and complete their operations. The minor is perfect for students who wish to know how technologies can be used in different areas of business, and how they can productively use information technologies at work, thereby increasing potential job opportunities in their chosen areas of study.

- MIS Minor for Non-Business Majors (p. 597)
- MIS Minor for Business Majors (p. 598)

Graduate Study

Master of Science in Management of Information Technology

The Master of Science in Management of Information Technology (p. 601) program offers a gamut of courses on applied organizational aspects of Big Data and Analytics with several choices available. Course topics include enterprise data modeling, enterprise data analytics with enterprise systems, business intelligence, social analytics, visual analytics, data science, predictive modeling, database design, data warehousing, advanced database technologies, cloud computing, distributed file processing systems, advanced analytics programming, project management, business infrastructure and cyber security. Popular analytics software and tools will be taught and students will conduct projects using these tools.

Graduate Certificate

The Graduate Certificate in Digital Technologies (p. 601) provides an educational opportunity for those with a specific interest in the core MIT coursework, but do not wish to complete the full MS in MIT. Further, this program serves as a focus for those students matriculating in business or non-business OU graduate degree program who would benefit from a facility with information technology and using IT to solve problems and make decisions.

Dual MBA/MS in MIT

The joint MBA/MS in MIT program allows students to develop a broad general business background along with a deeper understanding of information technology. Students are given the information needed to manage information technology firms as well as other areas of business.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
ChidambaranLakshmanan			2002	W. P. WOOD PROFESSOR OF MANAGEMENT INFORMATION SYSTEMS, 2002; PROFESSOR OF MANAGEMENT INFORMATION SYSTEMS, 2006; FACULTY FELLOW, OFFICE OF THE SENIOR VICE PRESIDENT AND PROVOST, 2017	PhD, Indiana Univ, 1989; MBA, Univ of Georgia, 1985; B Commerce, Loyola College, 1983

MIS 2113	Computer-Based Information Systems ⁵	3
Total Credit Hours		66-76

¹Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²**Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List.**

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum grade of C required.

Free Electives

6 hours if exempt foreign language; may be taken in any lower/upper-division area. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
- One upper-division course in each of the following areas is required: FIN, L S, MGT, and MKT.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
- A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

This major normally requires three semesters of study beyond the business core requirements.

¹Prebusiness course.

²University-Wide General Education course, refer to online listing.

³Behavioral and Social Science courses must be chosen from the following: anthropology, psychology, sociology, political science, or geography (economic, human or political). Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

⁴May be free elective if artistic form, Non-Western culture, or science is 3000- or 4000-level.

MIS for Non-Business Majors, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

A minimum of nine (9) upper division courses must be completed at OU.

No correspondence work may be taken to fulfill requirements.

Courses for the minor may not be taken Pass/No Pass.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major outside Price College of Business.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Code	Title	Credit Hours

MIS for Business Majors, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

A minimum of nine (9) hours must be completed at OU.

No correspondence work may be taken to fulfill requirements.

Courses for the minor may not be taken Pass/No Pass.

All courses with an MIS designator except the required basic business MIS course will be calculated in the minor GPA.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Total Credit Hours	32

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Digital Technologies, Graduate Certificate

The Graduate Certificate in Digital Technologies is intended to impart critical information technology and development skills to individuals with no formal training in Management of Information Technology. The graduate certificate will provide an educational opportunity for those with a specific interest in the core MIT coursework, but do not wish to complete the full MS in MIT. Further, it can serve as a focus for students matriculating in business or non-business graduate degree programs that would benefit from a facility with information technology and using IT to solve problems and make decisions. A total of 12 hours is required for the certificate.

Certificate Requirements

Code	Title	Credit Hours
MIT 5602	Management Information Systems	2
Choose 10 hours from a list of graduate electives (p. 602)		10
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.

- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Division of Marketing and Supply Chain Management

Jack J. Kasulis, Director

1 Adams Hall

307 W. Brooks

Norman OK 73019

(405) 325-3561

www.ou.edu/price/marketing_supplychainmanagement

General Information

The Division of Marketing and Supply Chain Management offers courses that prepare students for decision-making involving the identification of consumer and business needs. Classes provide comprehensive coverage of topics including product/service design, development, and commercialization; pricing of products and services; and promotion (through advertising sales promotion, and personal selling). Primary emphasis is placed on distribution of products/services including channel structure and physical delivery/logistics.

The division faculty have a national reputation for expertise in distribution-related issues and strategy. All have academic credentials from leading U.S. schools, and many have significant business experience. The division faculty have a strong record of publication and research and use this knowledge in the classroom and as consultants to corporations. Members have been elected to prominent leadership positions in professional associations.

Students will find a wide range of opportunities to interact with successful business executives, both formally in the classroom, and informally, through professional student organizations.

Programs & Facilities

Integrated Business Core

Students get hands-on, real-world training through Integrated Business Core. From brainstorming and market analysis, to managing employees and the legal implications of business transactions, to selling products and closing the books on the last sale, IBC develops the skills it takes to launch a successful business. All profits go to local non-profit charities along with 'sweat equity' of up to 500 hours of community service each semester.

Full Semester Study in Italy Program

Marketing & Supply Chain Management will be offering a full semester study in Italy program that allows students to study in Italy throughout the course of the spring 2019 semester.

Undergraduate Study

Bachelor of Business Administration

Marketing, Bachelor of Business Administration (p. 603) students take courses that prepare them for careers involving retailing, negotiation/selling, international marketing, and new product development. Internships can greatly facilitate the job search process and prepare students for their first jobs. Students are strongly encouraged to do an internship.

Supply Chain Management, Bachelor of Business Administration (p. 606) provides an invaluable education experience based of real-world application of distribution, marketing, and management practices. Students take courses in logistics management, purchasing and buying behavior, production operations management, and inventory and materials management.

Accelerated Programs

The Marketing, Bachelor of Business Administration/Master of Science in Management Information Technology (p. 610) and Supply Chain Management, Bachelor of Business Administration/Master of Science in Management Information Technology (p. 613) accelerated programs are great opportunities for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics.

Minors

The Franchising Minor (p. 609) enhances the credentials of Price College students and creates a more attractive recruit. The minor serves all Price College majors, but is particularly beneficial in conjunction with a Marketing Major as a means to increase placement opportunities.

The Healthcare Minor (p. 609) offers additional perspective and credentials that supplements the student's business degree, making them desirable recruits and better prepared employees for hospitals, clinics, and related healthcare organizations.

The Marketing Minor (p. 609) is also available.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Barman	Samir		1987	PROFESSOR OF MARKETING AND SUPPLY CHAIN MANAGEMENT, 2005; BALDWIN CHAIR OF BUSINESS ADMINISTRATION, 2012	PhD, Clemson Univ, 1987; MS, Clemson Univ, 1985; MS, Clemson Univ, 1982; BME, Jadavpur Univ, 1974

2nd Price College of Business major or Price College of Business minor (P660)

Students who choose this concentration must declare a second business major or business minor within Price College in addition to the BBA in Marketing. Students must also choose one additional course from the approved list of MKT courses below; this course will fulfill an upper-division elective:

Code	Title	Credit Hours
MKT 3343	Retailing Management	3
MKT 3413	New Product Development	3
MKT 3613	Healthcare Marketing and Administration	3
MKT 3713	Fundamentals of Franchising	3
MKT 3723	Integrated Franchising Communications	3
MKT 4713	Policies and Strategies in Franchising	3

General Education and College Requirements

Code	Title	Credit Hours
Communications		
ENGL 1113	Principles of English Composition (Core I)	3
ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 Expository Writing	3
COMM 1113	Principles of Communication or COMM 2613 Public Speaking	3

Foreign Language (Core I) - Students who have completed two years of high school foreign language are exempt from this general education requirement 0-10

Behavioral & Social Science		
P SC 1113	American Federal Government (Core III)	3
Choose 3 hours from one of the following fields: Anthropology, Psychology, Sociology, Political Science, Geography (economic, human or political) ¹		

Humanities		
HIST 1483	United States, 1492 to 1865 (Core IV)	3
or HIST 1493	United States, 1865 to the Present	
PHIL 1273	Introduction to Business Ethics (Core IV: W. Civ.)	3

Choose one course in each of the following fields (Core IV):		
Understanding Artistic Forms ^{2,3}		
Non-Western Culture ^{2,3}		

Science & Mathematics		
Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II) ²		

MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ⁴	3
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ⁴	3
MATH 2123	Calculus II for Business, Life and Social Sciences ⁴	3

Basic Business

B AD 2091	Business and Professional Basics	1
B C 2813	Business Communications ⁵	3
ECON 1113	Principles of Economics-Macro (Core III) ⁵	3
ECON 1123	Principles of Economics-Micro ⁵	3
ECON 2843	Elements of Statistics ⁵	3
MIS 2113	Computer-Based Information Systems ⁵	3

Total Credit Hours 66-76

¹PSY 1113 is recommended. Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List.

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum grade of C required.

Free Electives

2 hours if exempt from foreign language; may be taken in any lower/upper-division area. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
- One upper-division course in each of the following areas is required: FIN, L S, MGT, and MKT.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
- A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

This major normally requires three semesters of study beyond the business core requirements.

¹Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List.

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum grade of C required.

Free Electives

5 hours if exempt from foreign language; may be taken in any lower/upper-division area. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
- One upper-division course in each of the following areas is required: FIN, L S, MGT, and MKT.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.

6. A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

This major normally requires three semesters of study beyond the business core requirements.

¹Prebusiness course.

²University-Wide General Education course, refer to online listing.

³Behavioral and Social Science courses must be chosen from the following: anthropology, psychology, sociology, political science, or geography (economic, human or political). Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

⁴May be free elective if artistic form, Non-Western culture, or science is 3000- or 4000-level.

Franchising, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

No correspondence work may be taken to fulfill requirements.

Courses for the minor may not be taken Pass/No Pass.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Code	Title	Credit Hours
Prerequisite		
MKT 3013	Principles of Marketing	3
Required		
FRAN 3343	Retailing Management	3
FRAN 3713	Fundamentals of Franchising	3
FRAN 3723	Integrated Franchising Communications	3
FRAN 4713	Policies and Strategies in Franchising	3
Recommended		
The following are recommended:		
MKT 3323	Purchasing and Buyer Behavior	
MKT 4123	Negotiation and Selling	
Total Credit Hours		15

Healthcare, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

No correspondence work may be taken to fulfill requirements.

Courses for the minor may not be taken Pass/No Pass.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

HCB 4363	Business Infrastructure and Cyber Security	3
HCB 4623	Competitive and Economic Environment of Healthcare	3
Total Credit Hours		15

Marketing, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

A minimum of nine (9) hours must be completed at OU.

No correspondence work may be taken to fulfill requirements.

Courses for the minor may not be taken Pass/No Pass.

All courses beyond MKT 3013 with an MKT designator will be calculated in the minor GPA.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Choose 3 hours of upper-division MKT (3000-4000)		3
Total Credit Hours		15

The Business of Healthcare, Undergraduate Certificate

The curriculum for the Business of Healthcare certificate is designed to support, among others, students who intend to pursue careers in healthcare such as physical therapy, pharmacy, nursing or medicine. The certificate requires 16 total hours and consists of 4 hours of core courses and 12 hours of guided electives. Students must have a 2.5 grade point average for admission to the program, a 2.5 overall GPA at the time they complete the certificate, a C or better in all classes counted toward the certificate, and must have a 2.5 GPA in classes counting toward the certificate.

Certificate Requirements

Code	Title	Credit Hours
<i>Core Courses</i>		
B AD 1001	Personal Computing Productivity Tools	4
HCB 3613	Healthcare Marketing and Administration ¹	
or MKT 3613	Healthcare Marketing and Administration	
<i>Lower-division Guided Electives; choose 2 from the following list</i>		6

¹Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

²**Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List.**

³It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

⁴Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

⁵Minimum grade of C required.

Free Electives

5 hours if exempt from foreign language¹ may be taken in any lower- or upper-division area. B AD 2110, B AD 2113, MKT 2013 and MGT 2013 will not count for credit toward a BBA.

Additional Requirements

- One upper-division course in each of the following areas is required: FIN, LS, MGT, and MKT.
- Pass/No Pass **will not** be accepted for any Business or General Education courses or any specifically required courses.
- Students must complete the GMAT exam with a score of 500 or greater.
- Comprehensive written exam required at end of program.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
- A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

During the 2nd semester, third year:

- Take GMAT
- Interview for internship
- Apply for admission to Master's program

Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

Business Doctoral Programs

Doctor of Philosophy Degree

The Michael F. Price College of Business offers a program leading to the degree of Doctor of Philosophy. The applicant need not hold a degree in business administration, and applications from students in disciplines other than business are encouraged. The degree requires 90 hours beyond the undergraduate degree and dissertation hours cannot exceed 30 of the 90 hours.

Time Limits

The student has four years from the point of admission to candidacy and six years from the point of entering the doctoral program to prepare and successfully defend the dissertation. If the student fails to do so, he/she will be required to retake the general examination. These time limits preclude the admission of part-time students to the doctoral program.

Majors

The major must be selected in Accounting, Entrepreneurship and Economic Development, Finance, Management and International Business, Management Information Systems, or Marketing/Supply Chain Management. The course content of a major and the administration of the general examination are determined by the division in which the major is taken.

Required Coursework

Required background in Business Fields: ACCT 5202; FIN 5302; MKT 5402; and MGT 5702, B AD 5902 or B AD 5102. A student may receive credit for equivalent core courses taken at other institutions at the discretion of the Doctoral Advisory Committee.

Statistics/Quantitative Methods

Nine hours in statistics/quantitative methods are chosen to support the student's plan of study. They may be selected from among the many approved courses offered throughout the University, especially those in the Divisions of Economics and Marketing and the Departments of Mathematics and Psychology.

Research Methods

Six hours in research methods are selected to support the student's plan of study, and may be taken from any department within the University.

Specialization Area

A specialization area is a set of courses taken to gain a mastery of a sub-discipline within or external to business administration. These courses may be wholly within a division of the college, across divisions, or divisions of the college and a University department outside the college. A specialization area must involve at least 21 hours.

Additional Coursework

The student's Doctoral Advisory Committee determines the free graduate electives the student will take to fulfill the remainder of the 90 required hours.

Composition of the Doctoral Committees

The Doctoral Advisory Committee will consist of at least five members, with the majority of the members coming from within the student's major division and no less than one member from outside of the major division. An accepted plan of study will be viewed as a contract between the student and the University. The Doctoral Advisory Committee is

automatically disbanded upon successful completion of the written and oral segments of the student's general examination.

The Doctoral Dissertation Committee will oversee the writing of the student's dissertation proposal, the writing of the dissertation, and the oral defense of the dissertation. The Doctoral Dissertation Committee is constituted upon a student's admission to Ph.D. candidacy, i.e., upon successful completion of the general examination, and will consist of at least five members, with at least two members from the major area and at least one member from each of the two fields. Furthermore, the committee must include at least one member whose appointment is in a department outside of the College of Business. The committee may also include members within or without the student's field who possess professional expertise germane to the student's research.

Evaluation

In lieu of qualifying examinations (i.e., examinations over the required coursework only) the graduate programs director will convene for each student each year those faculty who are instructing the student, and said faculty will assess the performance of that student. A report will be forwarded to the student's advisory committee and entered into the student's permanent file. Students will not be allowed to continue in the program if they earn more than two grades of C or lower in courses taken as part of the program.

General Examination

As the student nears completion of prescribed coursework, the student should prepare for the general examination. Such examinations are not scheduled either during final examination periods or indeed at any time when a suitable committee cannot be assembled. The general examination will be taken only when the student has completed all curriculum coursework.

The student must apply for the examination at least two weeks before it is to be held. The application is completed by the student on a form provided by the Office of Graduate Programs, and is signed by the student and the members of the Doctoral Advisory Committee. The application is then examined by the graduate programs director and the dean of the Graduate College and if it is in order, is approved. Subsequently, the dean of the Graduate College will authorize the examination. The examination will not be authorized unless the student has completed all prescribed courses, and maintained an overall grade point average of B or higher.

The general examination is intended to test the student's mastery of a number of related fields, as well as capacity for synthesis, sound generalization, and reasoning ability. It will consist in part of written examinations covering the three fields, and will be prepared by the committee. This will be followed by an oral examination in the presence of the whole committee. A student's performance on the general examination will be rated Pass with Distinction, Pass, or Failure. If the student fails the examination, they may repeat the examination either the following semester or later at the discretion of the committee; it may not be given a third time. After each attempt at the general examination, the chairperson will submit a report to the graduate dean that indicates whether the student has passed or failed and what further work must be done. If the individual has passed, the graduate dean will admit the student to candidacy for the doctoral degree.

Doctoral Dissertation

After the general examination, the candidate will devote most of their time to research and composition, and may also enroll in enough hours of 6980 to meet the minimum requirements of the major division.

After admission to candidacy students must maintain continuous enrollment in 6980 until the requirements for the degree are completed or degree candidacy is discontinued.

Dissertation Defense

The candidate may apply for this examination upon presentation of a corrected draft of the dissertation and receipts showing that all fees have been paid. At least four members, including the outside member, of the doctoral committee must be present to conduct the examination. The examination is open to the public.

After the examination, the committee will report its decision to the graduate dean.

ADMINISTRATIVE OFFICERS

- Belinda P. Biscoe, Ph.D., Interim Vice President for University Outreach

General Information

The University of Oklahoma Outreach is a lifelong learning organization dedicated to helping individuals, businesses, groups, and communities transform themselves through knowledge. Nationally recognized for its pioneering efforts in continuing education, University Outreach extends the educational resources of the University of Oklahoma on campus, online, and at locations around the world.

Outreach Registration and Records

Outreach Registration and Records (R & R) provides centralized admission, registration, fee collection, and record-keeping services for participants in credit and noncredit activities offered through University Outreach. Additionally, this office serves as the reporting agent to the Department of Veteran Affairs for the processing of VA benefits for eligible recipients. Credit enrollment services include certification of eligible veterans' benefits, processing of materials for university admission, academic course schedules, student and related records retention, and official and complete university transcripts. Noncredit enrollment services include onsite and offsite registration assistance registration material setup and distribution registrant tracking by phone, mail, and online, fee collection, onsite and offsite conference registration services and departmental reporting. For more information regarding the ordering of records or transcripts, please contact Registration and Records, University of Oklahoma Outreach, 1700 Asp Avenue, Room B-1, Norman, OK 73072-6400, 405-325-1022, cceregistration@ou.edu.

Oklahoma Center for Continuing Education

Both University Outreach (College of Continuing Education) and the College of Professional and Continuing Studies are housed in the Oklahoma Center for Continuing Education (OCCE) complex. Originally designed as a comprehensive adult learning community for educational activities, OCCE is one of several W.K. Kellogg Foundation-funded centers in the world. OCCE provides a unique setting for individuals who have

chosen this facility for their meetings, conferences, workshops, and seminars. The Thurman White Forum Building offers facilities for 1,000 participants through a combination of 15 meeting rooms, a computer lab, and the large auditorium-sized Forum Room that seats 600. Equipped with state of the art technology, the Forum can adapt to meet almost any group's conference requirements. On-site technical support is also available for the computer lab.

The OCCE complex includes the James P. Pappas Administration Building, the Pete Kyle McCarter Hall, and the Boomer Outreach Building, all of which house administrative staff for both OU Outreach and the College of Professional and Continuing Studies. In addition, ten duplex cottage units (Sooner Suites) provide an intimate atmosphere with each side featuring a kitchenette, living area, two double bedrooms, and a bath.

For more information on the Oklahoma Center for Continuing Education, call 405-325-7378.

Business, Community, and Education Services AMERICAN INDIAN INSTITUTE

The American Indian Institute (Aii) provides culturally sensitive conferences, training, strategic planning services, and expert technical assistance to American Indian, Alaska Native, and Canadian First Nation tribes and bands. For more information, call 405-325-4127 or visit aii.ou.edu.

CENTER FOR EARLY CHILDHOOD PROFESSIONAL DEVELOPMENT

The Center for Early Childhood Professional Development (CECPD) provides training and technical assistance for early care and education professionals, enabling them to provide improved educational foundations and quality of life for all Oklahoma children. To learn more about the CECPD and its collaborative partners, call 405-799-6383, cecpd@ou.edu, or visit cecpd.org.

CENTER FOR PUBLIC MANAGEMENT

The Center for Public Management (CPM) began in 1994 as a satellite-training network for the Oklahoma Department of Human Services. CPM has since expanded its core services to become a comprehensive solution provider for public partners. CPM works with public agencies, nonprofits, and private industries to deliver cost-effective, customer-oriented solutions tailored to each client. CPM is capable of calling upon the vast resources of the entire university's faculty and staff to help continue to provide creative, effective solutions. To learn more, call 405-325-0519, info@oucpm.org or visit oucpm.org.

CENTER FOR THE STUDY OF SMALL/RURAL SCHOOLS

The University of Oklahoma's Center for the Study of Small/Rural Schools (CSSRS) is endorsed by the National Rural Education Association. Its clients include school boards, teachers, administrators, businesses, community groups, rural organizations, state and federal agencies, as well as international agencies and governments. The center aids small and rural schools through workshops, surveys, needs assessments, and technical assistance to aid in: For more information, visit cssrs.ou.edu.

CHINA OUTREACH

The China Outreach Institute connects the educational resources of the University of Oklahoma to organizations, businesses, and educational partners in China, striving to continually develop educational partnerships through those connections. The Institute offers training and development courses to businesses, academic and government institutions from

China and serves as one of the Overseas Training Vendors for State Administration of Foreign Experts Affairs, People's Republic of China. The Institute has been involved for many years in partnerships with a number of Chinese companies providing training for their personnel, including PetroChina, China National Offshore Oil Company and Dagang Oil Field. For more information on the Institute's programs, call Sharon Gou at (405) 325-5101 or visit China Outreach Institute.

CONFERENCEPROS

Conference Pros began in 1996, providing conference logistics support services for federal and state programs. In 1997, they expanded services to include conference, meeting, and event planning services. Conference Pros aids local, regional, national, and international agencies and organizations in developing and conducting conferences that meet the specific needs of their direct clientele. Conference Pros benefits from the strengths of faculty at OU's College of Continuing Education, as well as a wide range of other resources and consultants in recommending appropriate expertise and presentation skills in various fields of study. The staff of Conference Pros has extensive experience and demonstrated success in designing content, providing logistical support, and conducting large national and international conferences of high impact, visibility, and national or international acclaim. For more information, call 800-203-5494, Laurie Smith, or visit conferencepros.org.

CONSORTIUM FOR STUDENT RETENTION DATA EXCHANGE

The Consortium for Student Retention Data Exchange is a consortium of two-year and four-year institutions dedicated to achieving the highest levels of student success through collaboratively sharing data, knowledge, and innovation. For more information, visit csrde.ou.edu.

CORPORATE ONLINE EDUCATION PROGRAMS

Outreach partners with World Education to offer career-focused, online courses designed to provide the skills necessary to acquire professional caliber positions in many in-demand occupations. For more information, call 405-325-5466, wboni@ou.edu, or visit Career Training Programs.

EDUCATIONAL TECHNICAL ASSISTANCE SERVICES (EDUTAS)

Educational Technical Assistance Services foster educational communities that embrace an ever-changing world through processes that create, support, and sustain lifelong learners. For more information, visit edutas.org.

EDUCATIONAL TRAINING, EVALUATION, ASSESSMENT AND MEASUREMENT

Educational Testing, Evaluation, Assessment, and Measurement (E-TEAM) designs research tools and evaluations to help organizations understand and use data to solve real-world problems. E-TEAM works on projects for the public and private sectors that have a lasting effect on the community. The program helps community leaders determine what is best for the community through evaluation, assessment, and research. For more information, call 405-325-5257, etteam@ou.edu, or visit etteam.ou.edu.

KGOU/KROU RADIO

KGOU Radio is a full-service public radio station presented as a community service through the University of Oklahoma Outreach. KGOU provides a unique program service to the citizens of Oklahoma. Its mission is to help people become deeply informed about the issues that affect their lives, be better prepared to make decisions,

and be more engaged in our community. For more information, call 405-325-3388, manager@kgou.org, or visit kgou.org.

MEDIEVAL FAIR

The Medieval Fair, held annually each spring since 1977, began as a forum for the English Department and later moved to University Outreach reflecting its impact on our community. It was recently recognized in 2011 by *Renaissance Magazine* as the second largest festival in the country of its type for the number of participants attending. It has grown into a program that is supported by the strong community of medieval enthusiasts in the Norman and Oklahoma City Metropolitan areas. During the academic year, a free lecture series is provided by university faculty from across the state of Oklahoma. The Medieval Fair transports patrons away from the worries and cares of today, back in time to the first market fair of spring 1360 in the town of Avalon where they can learn about and become a part of life in the Middle Ages. For more information, call (405) 325-8610, ameckart@ou.edu, or visit the Medieval Fair website.

NATIONAL CENTER FOR DISABILITY EDUCATION AND TRAINING

The National Center for Disability Education and Training (NCDET) improves independent living, employment, and career opportunities for people with disabilities. Through its model programs, NCDET proves that youth and adults with disabilities can be successfully employed. The center develops and delivers customized training programs for professionals in related disability fields. For more information, call 405-325-0158, abaghda1@ou.edu or visit ncdet.ou.edu.

NATIONAL RESOURCE CENTER FOR YOUTH SERVICES

The National Resource Center for Youth Services (NRCYS) works to enhance the quality of life for the nation's youth and their families by improving the effectiveness of human services. NRCYS supports state and federal grants and contracts designed to support professionals working with youth in out-of-home care. The center focuses on working with older youth in foster care and runaway and homeless youth. For more information, call 918-660-3700 or visit nrcys.ou.edu.

PUBLIC SERVICE INSTITUTE

Managing change is critical for schools, churches, public service, and social organizations. A leader's response to change is often the greatest factor affecting the success or failure of his or her organization. The Public Service Institute teaches leaders how to allow their organizations to remain dynamic and supportive of clients despite a constantly changing environment. One of the primary initiatives of the Public Service Institute is the Infopoverty Institute. It aims to eradicate poverty and its negative effects through sustainable development. Through its focus on information access, the Institute uses connectivity to improve living conditions in impoverished communities around the world. For more information, call 405-325-7763 or visit Public Service Institute.

READING PROGRAM DEVELOPMENT

Reading Program Development is a course designed and taught by instructors from the Institute of Reading Development provides speed-reading for academic, professional, and recreational reading for K12 and adult students. For more information, call 800-964-8888 or visit Summer Reading Skills Programs.

SOUTH CENTRAL COMPREHENSIVE CENTER/CENTRAL COMPREHENSIVE CENTER

In 2012, OU Outreach was awarded two grants to support state departments of education in seven states. The first grant, given to

establish the South Central Comprehensive Center (SC3) provided technical assistance on education initiatives in Arkansas, Louisiana, New Mexico, and Oklahoma. The second grant to establish the Central Comprehensive Center (C3) provided similar support to Colorado, Kansas, and Missouri. Partnering with WestEd, the Academic Development Institute, the National Indian Education Association, the Neuhaus Education Center, and Northrop Grumman, the OU centers work to increase the capacity of states to help districts and schools in meeting student achievement goals. The centers are part of a national network of regional centers that provide training and technical assistance to state education agencies in implementing and administering programs under the Elementary and Secondary Education Act. For more information, call 405-325-1729 or visit the website at www.sc3ta.org.

SOUTHWEST CENTER FOR HUMAN RELATIONS STUDIES

Established in 1961, the Southwest Center for Human Relations Studies (SWCHRS) is a program within the Public and Community Division in OU Outreach with the primary mission of extending the resources of the University to communities in the Southwest faced with civic conflict and controversy. The core mission of the Southwest Center for Human Relations Studies is to provide opportunities for learning, facilitated training, research and knowledge dissemination on issues of intercultural and intergroup relations as they pertain to communication, conflict management, collaboration, leadership, organizational culture, decision making and inclusive practices. For more information, call 405-325-3694 or visit the SWCHRS website.

SOUTHWEST PREVENTION CENTER

The Southwest Prevention Center (SWPC) is committed to preventing alcohol, tobacco and drug abuse, and high-risk behavior. This multi-state program provides prevention information, training, and technical assistance and develops prevention resources. SWPC works to support healthy, drug-free environments through community, school, and organizational capacity building. For more information, call 405-325-1454, swpc@ou.edu, or visit the Southwest Prevention Center website.

TEAM QUEST (EXECUTIVE TRAINING)

Team Quest equips teams and leaders with skills and tools to become more effective. Their unique approach addresses the needs of adult learners through training experiences that incorporate action learning exercises, self-assessments, focused discussions, and engaging classroom instruction. For more information, call 405-325-0464, email ETTQ, or visit ouropes.ou.edu.

TRAVEL STUDY

The Travel Study Program provides opportunities for students to study a variety of topics such as advertising, writing, music theatre, architecture, and language while being immersed in an international culture. Travel allows students to gain new perspectives about the world, to immerse themselves in a particular subject of interest, and to experience subjects in a way that cannot be attained in a traditional campus classroom environment.

VIDEO AND MEDIA SERVICES

Serving private and public sector clients throughout the United States, Outreach Video and Media Services provides a full service studio and HD field productions. In addition, digital editing, audio recording and mastering, transcription, closed captioning, satellite services, webinars, live streaming, and electronic media are available through this unit. For more information, visit vms.ou.edu.

email: mstice@ou.edu

General Information

MCEE Mission

The mission of the Mewbourne College of Earth & Energy is to provide an academic environment in earth sciences and engineering, energy education and research that contains the full breadth of the University of Oklahoma educational experience. We also have a key service mission to investigate the State of Oklahoma's land, water, mineral and energy resources.

Vision

Our vision is to offer an intellectual atmosphere combining scholarship, research and teaching that leads to the creativity needed to address the issues of tomorrow, and prepare our students for the global competition they will experience during their professional careers. We will also ensure that OU maintains and builds on its heritage in energy education by continuing to focus on exploration, development and extraction processes in petroleum geosciences and petroleum and geological engineering, while providing close ties to engineering fundamentals and the science base in geology and geophysics. Through the Oklahoma Geological Survey, we will promote the wise use of Oklahoma's natural resources consistent with sound environmental practices.

About MCEE

In a progressive move by the University signaling its ongoing commitment to energy education and research, the Mewbourne College

of Earth and Energy was established January 1, 2006. The Mewbourne College of Earth and Energy consists of the Mewbourne School of Petroleum and Geological Engineering, the ConocoPhillips School of Geology and Geophysics and the Oklahoma Geological Survey. The schools are consistently rated among the top five petroleum engineering, petroleum geology and geophysics programs in the country.

The college provides an academic environment for the development of tomorrow's academic and industry leaders that contains the full breadth of the University of Oklahoma's educational experience while continuing to provide close ties to engineering fundamentals and the science base in geology and geophysics. The Mewbourne College focus is laboratory 'hands-on' education and is an academic leader for end-to-end energy education and research. Distinguished faculty, exceptional students, and state-of-the-art research laboratories are the bedrock of the Mewbourne College of Earth and Energy.

The college's name honors Curtis W. Mewbourne, a Shreveport, Louisiana, native who obtained his degree in petroleum engineering from OU, where he has been honored as a Distinguished Graduate. After serving as an officer in the U.S. Army and working as a petroleum engineer, he founded Mewbourne Oil Company in 1965. Mewbourne Oil is one of the most successful privately owned oil and gas producers in America and Mewbourne continues to operate the company.

In recognition of his longtime support, the University named the Mewbourne School of Petroleum and Geological Engineering in his honor in 2000, and granted him the Doctor of Humane Letters in 2002. In 2007 the Mewbourne College of Earth and Energy was named in his honor and he was presented the Oklahoma Trailblazer Award for his professional achievement and lifetime commitment to the energy center. Mewbourne and his family have contributed millions of dollars to endowed faculty positions and student support.

Programs Offered

- Mewbourne School of Petroleum and Geological Engineering (p. 624)
 - Petroleum Engineering, Bachelor of Science in Petroleum Engineering (p. 626)
 - Petroleum Engineering, Bachelor of Science in Petroleum Engineering/Master of Science (p. 627)
 - Petroleum Engineering, Bachelor of Science in Petroleum Engineering/Master of Business Administration (p. 629)
 - Geological Engineering, Master of Science (p. 630)
 - Natural Gas Engineering & Management, Master of Science in Natural Gas Engineering & Management (p. 631)
 - Petroleum Engineering (Standard), Master of Science (p. 631)
 - Natural Gas Technology, Graduate Certificate (p. 632)
 - Petroleum and Geological Engineering Doctoral Programs (p. 632)
- School of Geosciences (p. 633)
 - Environmental Geology, Bachelor of Science in Geology (p. 638)
 - Geology, Bachelor of Science in Geology (p. 639)
 - Geophysics, Bachelor of Science in Geophysics (p. 640)
 - Paleontology, Bachelor of Science in Geology (p. 641)
 - Petroleum Geology, Bachelor of Science in Geology (p. 642)
 - Geology, Minor (p. 643)
 - Geology, Master of Science (p. 643)

- Geophysics, Master of Science (p. 644)
- Geology and Geophysics Doctoral Programs (p. 644)

Programs & Facilities

Oklahoma Geological Survey

100 East Boyd St., Suite N131 Norman, OK 73019

ogsweb@ou.edu

www.ogs.ou.edu/

The Oklahoma Geological Survey was created by directive of the State Constitution written in 1907. An enabling act was presented to Oklahoma's first legislature and signed into law by Gov. Charles N. Haskell on May 29, 1908.

The Oklahoma Geological Survey is charged with investigating the land, water, mineral, and energy resources of the state, and disseminating the results of those investigations to promote the wise use of Oklahoma's natural resources consistent with sound environmental practices.

The Oklahoma Geological Survey carries out this charter through fossil and unconventional energy research, geological mapping programs, earth-science education activities, operation of a state-wide seismograph network, development of geological databases, an industrial minerals program, and basic geological studies conducted in various areas of Oklahoma. The results of these investigations are made available through publications of technical and educational material, maps, a web site containing data for downloading, the Oklahoma Petroleum Information Center (OPIC), presentations to the public and professional organizations, and organizing workshops for technology transfer to industry and academia.

At the OPIC facility in Norman, thousands of core and well samples, thousands of well logs, a well data library, and other petroleum-related material is available to the public. OGS publications are sold and distributed at this site. The Survey also operates a geophysical observatory at Leonard, near Tulsa, where a statewide network of seismometers feed data to monitor earthquakes from Oklahoma and around the world. In pursuing these activities, the OGS works closely with local, state and federal agencies, as well as with professional and educational organizations and agencies from other states. Academic classes are not taught through OGS, however OGS staff serve as mentors, adjunct faculty, instructors, and committee members for students enrolled at the University of Oklahoma and other universities. As a unit of the Mewbourne College of Earth and Energy, the OGS supports a number of students with the college's research and service efforts.

Energy Institute of the Americas

The Energy Institute of the Americas (EIA) was chartered in May 1995 by the University of Oklahoma and Simon Bolivar University in Caracas, Venezuela, to address issues raised by the growing economic interdependency of the Americas.

It achieves its mission through educating and training professionals in skills and knowledge needed for energy development and related environmental issues; conducting multi-national interdisciplinary research by promoting collaboration between professors and researchers in the Hemisphere; resolving technical problems through application of research results; assisting Oklahoma oil and gas independent and service companies that want to do business in Latin America; providing a hemispheric database and clearinghouse for information and

expertise; and forming a hemispheric network of academic, industrial and government organizations.

Institute for Energy and the Environment

Dedicated to providing the basic scientific foundation upon which solutions for applied environmental problems can be established, Institute for Energy and the Environment scientists work closely with graduate students to investigate biotechnological solutions to contamination problems faced by the oil and gas industry.

Integrated PoroMechanics Institute

The Integrated PoroMechanics Institute (iPMI) formerly known as the PoroMechanics Institute (PMI) offers an integrated platform to researchers of various disciplines including petroleum engineering, geology, geophysics, civil engineering, computer science, and electrical engineering to conduct general and applied research on the mechanics of porous media, in particular geomechanics applied to exploration and production of hydrocarbons.

Jerry Holmes Leadership Program for Engineers and Scientists

The Jerry Holmes Leadership Program for Engineers and Scientists provides a variety of leadership and related development opportunities for students, faculty and staff. The program's mission is to help Gallogly College of Engineering & Mewbourne College of Earth and Energy students learn and practice the skills they will need to be effective and ethical leaders now and throughout their careers.

Participation in the Honors Program

A high percentage of eligible university undergraduate students participate in the university-wide Honors Program described elsewhere in this catalog. Specially designed Honors courses and seminars provide the Honors student with small classes and opportunities for interaction with the university's best and brightest faculty members, both within the student's major field of study and in other courses used to satisfy curricular requirements.

Undergraduate Study

Admission to the College

Students will be admitted to the Mewbourne College of Earth and Energy once they declare a major in Geology, Geophysics or Petroleum Engineering and complete the following requirements:

- Applicants who are direct from high school must be admitted to OU and have earned 24 semester credit hours with an OU and combined retention grade point average of 2.50 or higher.
- Students transferring to the University of Oklahoma must have a retention GPA of a 2.50 or higher.
- University of Oklahoma readmits must have an OU retention and combined retention GPA of a 2.50 or higher

Student Advisement

Each student meets with an advisor during enrollment periods and as necessary during the academic year. The Mewbourne College of Earth and Energy Student Services Center is staffed by academic advisors who are available for student support. Students may visit with an academic advisor in the Mewbourne College of Earth and Energy Student Services Center in Sarkeys Energy Center, N117, or they can call (405) 325-4005. Although the Dean's office checks each student's records, the

responsibility for meeting graduation requirements lies with the student and not with the advisor, the school or the Dean.

Scholastic Requirements

A student must maintain at least a 2.50 grade point average to be in good standing in the college. Any student whose combined, semester or OU retention grade point average falls below 2.50 will be placed on academic performance contract. Further, any student whose OU or combined retention major or curricular grade point average falls below a 2.50 will be placed on academic performance contract. Students on academic performance contract who fail to bring their OU, combined and/or semester GPA to a 2.50 or higher or fail to meet other terms of the contract after one semester will be dismissed (stopped out) from the Mewbourne College of Earth and Energy. Students who fail to make adequate progress toward their degree may be dismissed from the college.

A student dismissed from the Mewbourne College of Earth and Energy may be eligible for enrollment in another college under the University retention policy. To continue at the University of Oklahoma, the student will need to make an appointment with the Center for Student Advancement, Wagner Hall 150, or call 325-2574. However, even if the student is able to continue at the University, further enrollment in Mewbourne College of Earth and Energy courses is not allowed. A student dismissed from the Mewbourne College of Earth and Energy is unlikely to be readmitted to the college. The Mewbourne School of Petroleum and Geological Engineering and the ConocoPhillips School of Geology and Geophysics have additional grade requirements. For details, see the specific school chapter in this section of the catalog.

College Ten-Year Limitation Rule

A student may elect to graduate under the requirements for an undergraduate degree set forth in the catalog in effect at the time of their first enrollment in the state system, provided they complete the work for a degree within a maximum of six years. If the work for a degree covers a period longer than that specified by the college, the college will determine the degree plan in effect for that student's graduation. Credit in a student's major which is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the major department.

Transfer Students

1. Students transferring to the University of Oklahoma Mewbourne College of Earth and Energy must have a retention GPA of a 2.50 or higher.
2. Students should check transfer equivalencies on the transfer equivalency database.
3. Students should visit the Mewbourne College of Earth and Energy Student Services Center to determine exactly how their transfer credits apply toward their degree program.
4. Pass/No Pass course enrollments may not be used to satisfy Mewbourne College of Earth and Energy course requirements.
5. Academic credit from any division of the University of Oklahoma — Norman campus, OU Health Sciences Center, OU-Tulsa, or Continuing Education — is considered resident credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU and combined retention grade point averages for purposes of admission or readmission to the University, and to the individual colleges within the University. (See also Residence Requirements under Graduation Requirements.)

Scholarships and Financial Aid

Students entering the University of Oklahoma are eligible to apply for any of the general scholarships awarded by the University Scholarship Committee. General scholarships are awarded on the basis of academic achievement and financial need. These scholarships and other forms of financial aid may be applied for through the Office of Financial Aid Services, University of Oklahoma, 1000 Asp Avenue, Room 216, Norman, OK 73019-4078.

In addition to general scholarships offered through the University of Oklahoma, the Mewbourne College of Earth and Energy offers several scholarships sponsored by alumni and industry. In addition, the ConocoPhillips School of Geology and Geophysics and the Mewbourne School of Petroleum and Geological Engineering offer many scholarships sponsored by alumni and industry. You may contact the schools directly for application information.

College Graduation GPA Requirements

Students recommended for a bachelor's degree in the Mewbourne College of Earth and Energy must have at least a 2.50 OU and combined retention grade point average in all coursework attempted, in their major area, and in their curriculum. The Schools of Petroleum and Geological Engineering and Geology and Geophysics have additional grade requirements. For details, see the specific school section in this chapter of the catalog.

Graduation Requirements

Basic Requirements

The Mewbourne College of Earth and Energy is organized into two departments and schools. The degree of Bachelor of Science qualified by the name of the field pursued is conferred upon graduates of the College.

The student must satisfy the following requirements:

- Curricular Courses: Complete all prescribed curricular courses or equivalent courses as approved by the faculty.
- Two-year College Transfer Credits: A minimum of 60 semester hours must be earned in a senior institution for a baccalaureate degree.
- Catalog Requirements: Fulfill all requirements listed in the catalog. Although the Dean's office checks each student's records, **the responsibility for meeting graduation requirements lies with the student**, and not with the advisor, the school or the Dean.
- Be in good academic standing with the college and the University.
- Make application for the degree by March 1 for spring graduation, October 1 for fall graduation and July 1 for summer graduation.
- To ensure that the above conditions will be met, the student must submit a completed Graduation Self-Check form to the Mewbourne College of Earth and Energy Student Services Center no later than the semester before the student expects to graduate.
- Residency Requirements: To be recommended for a degree, a candidate must have:
 - a. spent two semesters or the equivalent in residence in the Mewbourne College of Earth and Energy;
 - b. completed at least 36 of the last 60 hours in residence. Twenty-four of these 36 hours must be in the major field;
 - c. fulfilled the grade and grade point requirements of the college and school; **Note:** Academic credit from any division of the University of Oklahoma — Norman campus, OU Health Sciences Center, OU-Tulsa, or Continuing Education — is considered resident credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU and combined retention

grade point averages for purposes of determining completion of degree requirements.

Degrees are awarded at the end of each fall and spring semester and summer session. All diplomas are mailed to students following the official graduation date. The degree and date of the diploma are entered on the student's permanent academic record. The date of graduation is the last day of the semester or summer session in which all requirements for the degree are completed. When a student completes all requirements for a degree other than at the close of a semester or summer session, the Office of Academic Records, upon request, will issue a certified statement that the student is eligible for the degree as of the date when the requirements for the degree were completed.

Dean's Honor Roll

To be eligible for the Mewbourne College of Earth and Energy Dean's Honor Roll, a full-time undergraduate student must earn 12 or more hours and attain a grade point average of 3.00 or higher during a regular fall or spring semester. Part-time students may qualify for the Honor Roll by earning at least 6 but less than 12 hours and attaining a grade point average of 3.00 or higher, provided they have no withdrawals for that semester.

Minors

The Mewbourne College of Earth and Energy offers students the option of declaring a minor. A Geology minor is available in the college, and the specific minor requirements can be found in the Geology and Geophysics section of the catalog. Students may complete minors in other areas and these will be posted on the transcript after graduation. For a listing of the minors offered at the University, reference the OU catalog or website.

Second Bachelor's Degrees

A student who has completed the requirements for a bachelor's degree at OU may also receive a second bachelor's degree upon the completion of the curriculum prescribed for the second degree, provided that the work completed includes at least 30 additional hours of upper-division geology, geophysics or engineering (according to second undergraduate degree program), applied science and elective courses appropriate to the field of the second degree. These courses must be over and above the credit hours required for the first degree.

Graduate Study

The Mewbourne College of Earth and Energy offers programs leading to the Master of Science degree in geology, geophysics, geological engineering, natural gas engineering and management, or petroleum engineering, and the Ph.D. degree in geology, geophysics, geological engineering, or petroleum engineering.

Refer to the Graduate tabs within the Mewbourne School of Petroleum and Geological Engineering (p. 624) and the School of Geosciences (p. 633) pages of this catalog for information concerning graduate programs.

General Information

The Mewbourne School of Petroleum and Geological Engineering is nationally ranked as one of the best. Petroleum is synonymous with energy. A large fraction of the energy used in this country originates from oil or natural gas. Although the overall percentage provided by petroleum is expected to drop, the total amount provided by petroleum sources will increase. The next "energy crisis" may soon occur, and the petroleum industry will be required to meet the international demands for economical sources of fossil mineral fuels. Because of enhanced oil recovery, unconventional natural gas and frontier producing areas will provide a greater fraction of this production, the need for complex technology required to produce such difficult resources will produce a continued demand for qualified petroleum and geological engineers.

Petroleum and geological engineering are many-faceted disciplines that are directed toward exploiting natural resources contained in a geological habitat. Graduates from our programs can work in several different areas and at different levels of technical involvement. They may work on specific production-related problems in a technical area or they may work as broad technical problem solvers within their organizations. Between these extremes is the complete spectrum of job possibilities.

Petroleum and geological engineers are required to utilize complex technologies. Exploration and production are not simple, independent processes. Rather, projects are complex and the extreme financial and physical risks must be integrated into the engineering design of specific exploration and production projects to make them succeed. Engineers who analyze and design systems and facilities for current producing systems must be well prepared. The Mewbourne School of Petroleum and Geological Engineering is prepared to produce such engineers.

Programs & Facilities

Laboratory Facilities

Laboratories, located in the Sarkeys Energy Center and the north campus, are well-equipped to give undergraduate and graduate instruction in all phases of petroleum engineering. Specific laboratory items include equipment for the following: core analysis, capillary pressure and relative permeability measurements; ultrasonic velocity; nuclear magnetic resonance spectra; fines migration and formation damage control; the testing and treatment of drilling muds, emulsions, and oil field brines; pressure-volume-temperature measurements of gas and oil mixtures under reservoir conditions; units for studying the flow of oil, gas, and water through porous media; electrolytic models; gas analysis, regulation, and metering; electrical properties of cores; high pressure PVT equipment; corrosion rate measurement and enhanced oil recovery techniques such as surfactant flooding, polymer flooding, in-situ combustion and microbial processes. Large-scale equipment includes a system for studying crude oil displacement by steam, bottom hole pressure and temperature instruments, drilling and cementing tools, cement consistometer, subsurface pumps, artificial lift equipment, scanning electron microscope, acoustic microscope, Fourier transform infrared spectrometer, load frame and models to illustrate various principles of drilling and production.

The University has access to several thousands of electrical logs and cores from oil and gas wells drilled in Oklahoma.

Undergraduate Study

BACHELOR OF SCIENCE IN PETROLEUM ENGINEERING

The objectives of the Bachelor of Science in Petroleum Engineering (p. 626) are that Petroleum Engineering Bachelor of Science Alumni will:

- will have successful careers as engineers in oil and gas, government, or related industries applying engineering judgement established on fundamentals and instilled with an aspiration for continual growth in their competencies.
- will serve society by involvement in professional activities that impact health, safety and environment through ethical behavior and contemporary knowledge.

Graduates receiving the degree of Bachelor of Science in Petroleum Engineering are professionally prepared for positions in the fields of drilling, production, well completion, reservoir management and evaluation. They may work in industry or government. They are well prepared to continue their education in professional or graduate studies. Students who choose to specialize in advanced developments or research may pursue graduate studies leading to the master's or doctor's degree.

Bachelor of Science in Petroleum Engineering/Master of Science

The accelerated Bachelor of Science in Petroleum Engineering/Master of Science (p. 627) program allows undergraduate students the opportunity to pursue a graduate education in petroleum engineering while completing their undergraduate degree. Having already received core instruction through OU's undergraduate studies, the introductory petroleum engineering course requirements that are required of graduate students are not necessary, which allows more time to explore course electives in complimentary disciplines such as geology, geophysics, mechanical engineering, civil engineering and chemical engineering, making students more versatile in their discipline and increasing their marketability.

Bachelor of Science in Petroleum Engineering/Master of Business Administration

The accelerated Bachelor of Science in Petroleum Engineering/Master of Business Administration (p. 629) program is designed for the petroleum engineering student with an interest in business. The synergy of this track is strengthened by incorporating the Energy specialization of the MBA program into the accelerated curriculum. Students graduating with this option will have a firm foundation in engineering fundamentals along with knowledge of business and energy principles.

Laptop Requirement

Students with a major in Petroleum Engineering are expected to have a laptop computer. The laptop technologies are used to enhance the learning experience. Students should consult with faculty advisors and the Mewbourne College of Earth and Energy Dean's office for additional information.

College Graduation with Distinction

The faculty may recommend that the degree With Distinction be conferred on students who have a combined cumulative grade point

average of 3.40 or higher and With Special Distinction on students who have a combined cumulative grade point average of 3.70 or higher.

Graduate Study

Areas of Specialization

The graduate program offers specialized training in drilling, well completion and stimulation, rock mechanics, production engineering, petrophysics, formation damage and control, miscible, immiscible and microbial enhanced oil recovery, reservoir engineering, natural gas engineering, coal bed methane, geological engineering, oil field management and several other allied areas.

Master of Science Degree

Students may pursue a thesis or non-thesis option in Petroleum Engineering, Geological Engineering or Natural Gas Engineering and Management.

- Petroleum Engineering, Master of Science (p. 631)
- Geological Engineering, Master of Science (p. 630)
- Master of Science in Natural Gas Engineering and Management (p. 631)

Graduate Certificates

- Natural Gas Technology (p. 632)

DOCTORal Programs

Students may pursue a PhD in petroleum engineering or geological engineering (p. 632).

Petroleum Engineering, Bachelor of Science in Petroleum Engineering

ACCREDITED BY THE ENGINEERING ACCREDITATION COMMISSION OF ABET, <http://www.abet.org>

A minimum grade of C is required for each course in the curriculum.

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved lists.

Students must successfully complete prerequisite courses (with a minimum C grade) before proceeding to the next course.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

¹CHEM 1315 and CHEM 1415 can be substituted with CHEM 1335 (Fall only) and CHEM 1435 (Spring only), respectively.

²The MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

³To be chosen from the University-Wide General Education Approved Course List. Three of these twelve hours must be upper-division (3000-4000). See list in the Class Schedule.

⁴An approved PE elective may be taken in place of P E 3222.

⁵Courses applied to both BS and MS degrees.

- Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved lists.

- Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

B.S. PROGRAM ACCREDITED BY THE ENGINEERING ACCREDITATION COMMISSION OF ABET, <http://www.abet.org>

Students may enter the accelerated program based on the undergraduate degree pattern offered in the year they first enrolled in the Oklahoma State System of Higher Education or later. Students must maintain a 3.0 GPA from the time of entering the accelerated program until graduation.

Students must take the GRE and apply for the MS program during the third year; minimum OU GPA and combined GPA of 3.0 is

required. Students should submit an application to the School of Petroleum Engineering for the accelerated program during the fall semester of the Junior year. Students must also apply to the Graduate College during the spring semester of the Senior year to be admitted by that college to the MS program.

Petroleum Engineering, Bachelor of Science in Petroleum Engineering/Master of Business Administration

In order to progress in your curriculum, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum. Students must successfully complete prerequisite courses (with a minimum C grade) before proceeding to the next course.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Natural Gas Technology, Graduate Certificate

The objective of the Natural Gas Engineering and Management program's (NGEM) Certificate in Natural Gas Technology is to equip students with the necessary basic tools to operate productively in the Natural Gas Industry. This program is designed for students who are not interested in the Natural Gas Engineering Management (NGEM) degree program but still are interested in acquiring the basic educational experience which will help improve their performance while continuing their employment in the oil and natural gas industry.

Certificate Requirements

Code	Title	Credit Hours
P E 5613	Natural Gas Engineering	3
P E 5623	Natural Gas Processing	3
CH E 5643	Natural Gas Utilization	3
P E 5643	Natural Gas Finance - Valuation and Investment	3
Choose 3 hours of Graduate Elective, as approved by the Director of the NGEM Program		3
Total Credit Hours		15

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Petroleum and Geological Engineering Doctoral Programs

Doctor of Philosophy

Candidates for the Doctor of Philosophy in Petroleum Engineering or Geological Engineering shall satisfy all requirements for the Ph.D. degree in engineering. The degree requires 90 post-baccalaureate credit hours of coursework including the dissertation. Each candidate must meet the general requirements as specified in the bulletin of the Graduate College, as well as all requirements as specified in the general requirements for the master's degree in Petroleum and Geological Engineering, including the satisfactory passage of the Qualifying and General Examinations.

A student should normally expect to spend the equivalent of three full academic years beyond the master's degree in study for the doctorate. As a general rule, either his/her bachelor's degree or master's degree (or both) will be in PE or GE. All such hours may, on recommendation of the student's Advisory Conference, be applied to his/her doctoral program. Exceptional applicants who have bachelor and master degrees in other

engineering and science fields may be admitted to the MPGE Ph.D. program. Course work deficiencies may be necessary (such as geology), depending upon the applicant's background. Coursework deficiencies will be determined by the Graduate Liaison and will not be counted as part of the student's Ph.D. program.

The coursework applied toward the Ph.D. degree must include a minor consisting of a minimum of 12 hours (out of 90 credit hours) of applied mathematics or other natural sciences. Courses of study are individually structured to capitalize upon each student's background and to meet his/her specific needs and research interests. Every candidate for the Ph.D. degree in petroleum and geological engineering must satisfactorily complete the Qualifying and General Examinations.

School of Geosciences

Gerilyn S. Soreghan, Director
Sarkeys Energy Center, Suite 710
100 E. Boyd Street
Norman, OK 73019-1009
Phone: (405) 325-3253
FAX: (405) 325-3140
geology@ou.edu
geology.ou.edu

General Information

The School of Geosciences, part of the Mewbourne College of Earth and Energy, is located in the Sarkeys Energy Center on the main campus of the University of Oklahoma. Founded in 1900 by Charles Gould, the school has been a leader in the Geological Sciences for over a century, and continues to be a leader in education and research in petroleum-related fields. Today, the school continues to rank among top universities nationwide in placement of graduates in the energy industry. Over the last decade, the school has expanded into additional fields of geology and geophysics research. Presently, research programs in geochemistry and mineralogy, crustal-scale geophysics, diagenesis, paleoecology, and paleoclimate are highly regarded in their own right and increase the scope of educational opportunities for our graduates and undergraduates.

Geology is the study or science of the solid Earth and is one of several related subjects commonly grouped in the geosciences. Geologists are concerned primarily with rocks that make up the outer part of the Earth and the fluids and resources they contain, as well as various aspects of the Earth's deeper interior. An understanding of the Earth involves principles of physics, chemistry, and biology (but with the time domain emphasized, as in stratigraphy and paleontology). The study and mapping of surface forms is shared with geography. Hydrogeology is the study of subsurface fluids and their role in geologic processes, such as contaminant transport. An understanding of fluids is crucial in understanding ore formation and petroleum migration. Paleontology, the study of records left by animals and plants that lived in past ages, is part of geology and involves fundamental aspects of biological science.

Geophysics is the scientific study of the Earth using the methods of physics. The aim of geophysics is to determine the composition and state of the Earth's interior, and the manner in which internal processes produce the observed features of the Earth's surface, primarily through methods of remote sensing. Our geophysics teaching and research concentrates on gravity studies, exploration and development seismology for hydrocarbons, near-surface hydrologic problems, and imaging of

shallow structures; geomagnetics and paleomagnetism; geomechanics; and terrestrial heat flow studies.

The mission of the School of Geosciences is to deliver the highest quality education obtainable in the discipline and to prepare its graduates for successful and rewarding careers in industry, education, and government service. While maintaining the breadth needed for a first-rate earth science program, the school will further enhance its leadership role as one of the premier universities for research and career placement in the petroleum industry.

Programs & Facilities

Programs for Academic Excellence

For the student, excellence can be achieved through immersion in the science itself.

- Students are encouraged to participate with their peers in professional societies through local chapters.
- Seminars and colloquia are regularly offered in the School featuring presentations of the latest advances in the geosciences by experts in the field.
- Students are actively encouraged to become involved in current faculty research projects, develop their own research projects, and present these results at regional and national meetings with school support.
- Opportunities for summer employment in professional and research settings are promoted.
- Strong connections are maintained with the Oklahoma Geological Survey, where many environmentally and economically important site-specific problems are being investigated.
- The school, together with the Oklahoma Geological Survey, maintains one of the best Geology and Geophysics libraries in the country.
- Interdisciplinary programs with other departments are encouraged.

Basin Analysis Laboratory

Petroleum system analysis requires the integration of geology, geophysics, petrophysics, geochemistry, and risk analysis. The generated basin models either incorporate data obtained directly from outcrops around the world or complement the Seismic Stratigraphy Laboratory by generating virtual wells from the interpretative output and taking them an additional step. For basin analyses using data from around the world, this lab incorporates our own computer programs along with the industry standard software of both Schlumberger's Petrel petrophysical software and Platte River's 1D, 2D, and 3D BasinMod, BasinView, and BasinFlow. The subsequent dynamic basin models of the petroleum system criticals (petroleum maturation, migration, and accumulation controlling parameters) with an emphasis upon crustal tectonic analyses are geoconstrained from geochemistry in order to yield risked predictive models of a basin's geodynamic evolution and accompanying hydrocarbon prospectivity.

Electron Microprobe Laboratory

The electron microprobe laboratory is built around a fully automated Cameca SX50 microanalyzer. The five wavelength-dispersive spectrometers, a PGT PRISM 2000 energy-dispersive detector, and a GATAN PanaCL/F spectrophotometer are fully integrated for all analytical and imaging functions (secondary electron, backscattered electron, and cathodoluminescence signals). The system provides quantitative elemental microanalysis of boron to uranium; digital acquisition of electron, x-ray intensity, and visible luminescence images; image analysis

and other data processing routines. See the Electron Microprobe Laboratory website for a full description of the laboratory and its functions.

Experimental Petrology Laboratory

The experimental petrology laboratory has facilities for mineral synthesis, calibration of phase equilibrium reactions, and petrologic analogue or simulation experiments. In addition to sample preparation facilities, the experimental laboratory contains 18 externally heated cold-seal reaction vessels for routine operation to 850° C, 200 MPa, and two vessels capable of operation to 700° C, 400 MPa.

Fluid Inclusion Micro-Thermometry Laboratory

This facility is used to assess the compositions and physical properties of fluid inclusions through microthermometric techniques. In addition to specialized sample preparation equipment, the laboratory includes a new Linkam TH600 programmable heating/freezing stage on a Zeiss Research Photomicroscope.

Poromechanics Institute

The school participates with the Mewbourne School of Petroleum and Geological Engineering and the Sarkeys Energy Center in maintaining laboratories dedicated to characterization of deformation and measurement of rock properties. Pressure vessels and load frames are available to study a variety of problems of interest to structural geology and reservoir characterization such as acoustic imaging of the fracturing process, fault sealing mechanisms, and borehole stability.

Institute of Reservoir Characterization

Roger Slatt, Director of the Institute of Reservoir Characterization (IRC), brings expertise drawn from a 14-year career in the oil and gas industry with Cities Service Co. and ARCO/ARCO International, and focused on various aspects of reservoir characterization globally. He has also been a professor at Memorial University of Newfoundland, Arizona State University, and Colorado School of Mines. At the latter institution, he was Chair of the Department of Geology and Geological Engineering, and Director of the Rocky Mountain Region Petroleum Technology Transfer Council (PTTC). At the University of Oklahoma, he holds the positions of Gungoll Family Chair Professor in Petroleum Geology and Geophysics as well as Director of the IRC. He has published approximately 150 papers in scientific journals, written textbooks on Reservoir Characterization (Elsevier), Petroleum Geology of Deepwater Depositional Systems (AAPG), Argillaceous Rock Atlas (Springer-Verlag) and has been editor/co-editor of additional books. He teaches principles of reservoir characterization, clastic sequence stratigraphy, turbidite petroleum geology, and shale geology to international audiences as well as to OU students. He has graduated approximately 60 graduate students since coming to OU in 2000 as Director of the School of Geology and Geophysics (2000-2005). He has received numerous awards, including Best Paper at an AAPG convention, two Best Poster's at SEPM/AAPG conventions, Distinguished Education (AAPG), Special Commendation Award (SEG), and has been a Distinguished Lecturer for both AAPG and SPE.

Instrumental Neutron Activation Analysis Laboratory

The INAA laboratory contains gamma-ray spectrometers for the determination of rare-earth elements and other trace element abundances in neutron activated geological materials.

Petroleum Geochemistry/Environmental Forensics/ Organic Geochemistry/Stable Isotope Laboratories

The organic above-mentioned laboratories have state of the art wet chemistry facilities and instrumentation for the isolation and analysis of organic compounds from a wide variety of geologic materials.

Dr. Engel has two HPLC systems and a HP GC/MSD instrument used for the analysis of amino acids and peptides. He has a conventional stable isotope laboratory equipped with vacuum lines and a Delta E isotope ratio mass spectrometer for high precision stable carbon isotope analyses of organic matter and carbonates and stable oxygen isotope analyses of carbonates and water.

Dr. Engel also has a state of the art Thermo Delta V Plus isotope ratio mass spectrometer that is equipped for continuous flow as well as with a dual inlet for conventional off-line analyses. For continuous flow, the instrument is interfaced to a Costech Elemental Analyzer for stable carbon, nitrogen and sulfur isotope analyses and a Thermo TC/EA system for stable hydrogen isotope analyses. The instrument is also interfaced to a Thermo gas bench system for automated analyses of carbonates (carbon, oxygen) and water samples (oxygen).

Dr. Philp has a number of gas chromatographs with a variety of detectors for characterizing a wide variety of samples containing hydrocarbons, S and N containing compounds, as well as chlorinated compounds in environmental samples. In addition, he has two Agilent GCMS systems for analyzing organic compounds in many different types of samples and one of these instruments is also used for determination of chlorine isotope composition volatile chlorinated organic compounds. His laboratory also has an additional 3 gas chromatograph–isotope ratio mass spectrometer systems that are used to determine carbon and hydrogen isotope ratios of individual compounds in a wide range of samples related to both petroleum related samples and environmental forensic problems.

Paleomagnetism Laboratory

The paleomagnetic laboratory is located in a magnetically shielded room and contains a 2G cryogenic magnetometer with DC squids, an automated sample handler and alternating field demagnetizer, a thermal demagnetizer, two magnetic susceptibility systems, and an impulse magnetizer. Most of the studies performed in the lab focus on understanding remagnetization mechanisms, paleomagnetic dating of diagenetic events, and paleoclimate studies.

Paleontology Laboratories, Sam Noble Oklahoma Museum of Natural History

Paleontological research is concentrated at the Sam Noble Museum, which includes fully equipped labs for invertebrate paleontology, vertebrate paleontology and paleobotany. Large collection areas house more than half-a-million specimens. In addition to various specimen preparation equipment, there are facilities for scanning electron microscopy and digital macrophotography. Exhibits in the Ancient Life Gallery are fully integrated into undergraduate classes (GEOL 1024; GEOL 3513), and allow detailed study of fossils ranging from trilobites to dinosaurs.

Sedimentology/Stratigraphy Laboratory

The Sedimentology/Stratigraphy Laboratory at OU contains all the necessary equipment and facilities to conduct basic and advanced sedimentological and sedimentary geochemical studies. This equipment includes acid-resistant fume hoods, water purification, centrifuge, freeze dryer, furnace, vacuum filtration system, and rock crusher. More

specialized equipment includes a Beckman-Coulter laser particle-size analyzer, a Bartington portable magnetic susceptibility meter, and several research grade petrographic and stereo microscopes, one of which is equipped with an automated point-count system and with digital image acquisition and analysis systems.

Gas Hydrates Laboratory

The Gas Hydrates Laboratory houses high pressure equipment necessary for forming CO₂ and CH₄ gas hydrates in situ, including two Parr reactors. Analytical equipment includes pressure transducers and thermocouples for measuring the thermodynamics and kinetics of hydrate formation and dissociation, as well as polarized light microscopy for analyzing gas hydrate phases in fluid inclusion samples.

Physical Geochemistry Laboratory

The Physical Geochemistry Laboratory is dedicated to the study of the thermodynamics and kinetics of natural materials relevant to sediments, soils, and solutions on Earth and planetary bodies. Equipment includes Atomic Absorption Spectrometer (Perkin-Elmer 2380), analytical balances, furnaces, gas adsorption analysis for surface area and pore size distribution (Quantachrome Nova 2000), geochemical thermodynamic and reaction path modeling software (Geochemist's Workbench), geochemical reactors of various types, ultracentrifugation, ultrapure water system (Barnstead Nanopure Diamond), UV-visible scanning absorption spectroscopy (Thermo Scientific Genesys 6).

Structural Geology Labs

The digital workroom includes two dual monitor Dell PC workstations, a Sun Blade workstation, and a SGI Octane workstation. The PCs are primarily used for GIS applications, Cross section construction and 3-D modeling. The Sun Blade and SGI workstations are primarily used for seismic interpretation (Landmark and Geoquest) and 3-D visualization.

The physical modeling laboratory is equipped with controlled hydraulic and electric displacement equipment. These are employed to exert a variety of displacement boundary conditions on models made of sand, clay or plaster. Most of the experiments done in this laboratory are directed toward studies of upper crustal deformation, primarily faulting and fracturing.

Seismic Stratigraphy Laboratory

This facility is a premier geophysical exploration and development research laboratory focused upon integrated seismic modeling, processing, and interpretation of seismic data worldwide. Such integration forms a prerequisite foundation for accurate seismic stratigraphic interpretation and of subsequent petroleum system analysis in the Basin Analysis Laboratory. Two-dimensional and three-dimensional seismic data include more than 100,000 km of industry-acquired marine and land seismic field, stacked, and migrated land and marine records from North America, South America, the Middle East, and Southeast Asia.

Two- and three-dimensional AVO modeling and inversion is conducted using our own algorithms as well as Hampson-Russell software. Seismic processing is conducted using Schlumberger's Omega, the preeminent industry standard for commercial processing of 2D and 3D reflection seismic data, and subsequent interpretation incorporates Schlumberger's Petrel software.

Crustal Imaging Facility

This facility provides a state-of-the-art geophysical computer environment for the integration of 2D and 3D modeling, data processing, interpretation, mapping and visualization of seismic reflection and

georadar data, as well as petrophysical analysis and reservoir modeling as related to the data interpretation. The facility provides 22 workstation class PCs with dual monitors in a laboratory class room environment as well as a variety of Linux-based multicore servers for research and development. Industry level software for the PC lab includes Schlumberger's Petrel software for seismic data interpretation and reservoir modeling, the Hampson-Russell suite for geophysical analysis and Tesserat seismic modeling software. The Linux-based servers host Landmark's ProMAX/SeisSpace software for 2D and 3D seismic data processing. The CIF is managed by a full-time system administrator.

Devon Powder X-Ray Diffraction and Clay Mineralogy Laboratory

The Devon lab includes equipment for the preparation and analysis of rock and mineral samples by powder X-ray diffraction, including clay mineral separations. A Rigaku Ultima-IV X-ray diffractometer features cross-beam optics, allowing rapid switching between Bragg-Brentano and parallel-beam optical configurations. Scintillation and Si-strip detectors are mounted with a Y-arm system that facilitates either extremely rapid or extremely precise data collection. The Ultima IV can also be configured for grazing incidence measurements of thin films on diffracting surfaces. Additionally, the lab is equipped for preparation of bulk rock samples, with tools such as a McCrone Micronizing mill, and for the treatment of rock samples for clay analysis, requiring a sequence of extraction steps involving a number of chemical and physical treatments. To accomplish the clay separations, the lab contains a centrifuge, a dialysis bath, desiccators, a drying oven, a furnace, a heating water bath, and a microbalance. For data analysis, updated software tools such as MDI Jade, MDI ClaySim, and Rigaku PDXL are interfaced with databases from the International Centre for Diffraction Data.

The Youngblood Energy Library

A gift to the University of Oklahoma in memory of a leading Oklahoma City oilman has created a spacious geology library ringing a two-story atrium in the heart of the Sarkeys Energy Center. This attractive new library space is named in honor of Laurence S. Youngblood.

The library collection began in the late 1800's with the personal library of Charles N. Gould (one of the earliest university faculty members, the first geologist on the OU faculty, and the first director of the Oklahoma Geological Survey). Its growth was accelerated with the depositor status Gould established with the U.S. Geological Survey that continues today. During the 1950s and 1960s, numerous complete retrospective runs of foreign serials were acquired through the Farmington Plan (a federal program to acquire literature in specific fields for libraries of identified excellence). Via the Oklahoma Geological Survey's domestic and international exchanges, publications are acquired in several languages from nations around the world.

The current collection contains over 170,000 map sheets and approximately 99,000 catalogued volumes on the subjects of geochemistry, geology, geomorphology, geophysics, hydrology, mineralogy, paleontology, petrology stratigraphy, structure and tectonics. The interdisciplinary nature of the Earth sciences is supported by chemistry, math, physics and engineering branch libraries. Bizzell Memorial Library contains the biological sciences and the internationally recognized History of Science Collection.

Field Courses

To geologists and geophysicists, Planet Earth is a natural laboratory. Thus, it is important that students devote a portion of their academic careers to exploring and studying aspects of the Earth away from the

OU campus. Field trips in geology are offered in the central and western U.S. as well as a senior-level geology field camp in Colorado, and faculty members involve students in their active field research programs around the world.

Research Opportunities

Faculty-supervised research is an important component of the School of Geosciences graduate program. Most graduate students are supported financially through research assistantships funded by federal and private industry grants and contracts. Other graduate students are financially supported through teaching assistantships awarded by their academic unit. In either case, faculty-supervised student research leads to master's theses and doctoral dissertations as part of the overall graduate degree requirements. This research is often published in scientific journals which may be useful in assisting graduates to obtain employment. Talented undergraduate students are encouraged to work with faculty on research projects. These student research projects can be an important component of the Honors Program and/or a source of part-time income and scholarship support. Such research participation provides the student with important experience in his or her discipline in addition to meeting normal academic requirements.

Career Opportunities

According to the National Science Foundation, there are approximately 125,000 geologists and geophysicists at work in the United States today. Most are employed by private industry as petroleum geologists and geophysicists whose work is vital to oil and gas companies. Other geologists and geophysicists work for mining companies to locate ore deposits and estimate reserves. Geologists are also employed in other commercial fields such as cement and ceramic industries; sand and gravel firms; railroads; engineering companies; environmental agencies and in the banking industry. The largest single employer of geoscientists in the U.S. is the federal government. Most work for the United States Geological Survey, but others work for the U.S. Department of Energy national laboratories, Soil Conservation Service, Bureau of Land Management, Environmental Protection Agency, National Aeronautics and Space Administration, National Park Service, Bureau of Mines, Forest Service, or the U.S. Army Corps of Engineers. Many geoscientists work for the 50 state geological surveys. Colleges and universities employ about 8,000 geoscientists in teaching and research positions. Many geoscientists are self-employed. Some are independent oil operators; others work as consultants. Most consultants have acquired prior experience in industry, teaching or research. Opportunities also now exist in public school teaching.

The curricula for the Bachelor of Science in Geology and the Bachelor of Science in Geophysics are designed to provide the necessary preparation for professional work or graduate study. Options are available in petroleum geology, environmental geology, paleontology, and in exploration geophysics.

The Master's Degree in Geology or Geophysics is designed to provide a professional level degree for industry employment. Traditionally, this degree level has been favored by major petroleum companies.

The Ph.D. in Geology is a research-oriented degree which provides students the opportunity to seek employment in a variety of areas including academia, industry and government.

Undergraduate Employment Opportunities

Geology and geophysics students are eligible to participate in research projects and part-time employment opportunities with faculty members.

Other opportunities for research and employment exist at the Oklahoma Geological Survey and the Youngblood Energy Library.

Financial Support – Graduate Studies

Several types of financial aid are available to students on a competitive basis. Prospective graduate students are considered automatically for financial aid at the time of application. The school offers annually approximately 20 teaching assistantships with stipends which include a partial waiver of tuition. International students are required to pass an English language proficiency exam (administered by the English Assessment Program) before they can hold a teaching assistantship. Additionally, the school awards several research assistantships and fellowships using funds from industrial and other private sources. Funds for graduate support are also available from the Oklahoma Geological Survey, and the Institutes of the Sarkeys Energy Center. Grant-supported research assistantships are available through faculty conducted federal-, foundation- or industry-sponsored research. These assistantships carry a stipend comparable to teaching assistantships. Ph.D. students are encouraged to write research proposals with their graduate advisors for financial support and to apply for National Science Foundation Graduate Fellowships.

Undergraduate Study

Bachelor of Science in Geology

This curriculum is designed to provide the necessary background for professional work or graduate studies in geology and allied sciences.

- Environmental Geology, Bachelor of Science in Geology (p. 638)
- Geology, Bachelor of Science in Geology (p. 639)
- Paleontology, Bachelor of Science in Geology (p. 641)
- Petroleum Geology, Bachelor of Science in Geology (p. 642)

Bachelor of Science in Geophysics

This Bachelor of Science in Geophysics (p. 640) curriculum constitutes a preparation for professional work and also provides the necessary background for graduate work in geophysics and geology.

Minor

The Geology Minor (p. 643) provides complimentary knowledge for students enrolled in all majors at the University of Oklahoma. The minor should give students a broad overview of Geology and the variety of subset topics within the field.

Graduate Study

The School of Geosciences offers the Master of Science and Doctor of Philosophy degrees. Some important aspects of these degree programs are described below.

Master of Science

The Geology, Master of Science (p. 643) and the Geophysics, Master of Science (p. 644) degree programs are intended primarily for those students who plan careers in the petroleum or minerals industries or with state and federal government agencies. The goal of the M.S. degree program is to prepare students by providing a broad background in the Earth sciences and related science and engineering fields through coursework; and encouraging critical thinking and analysis in the solution of geological and geophysical problems through independent thesis research.

Doctor of Philosophy

The Ph.D. degree programs in geology and geophysics (p. 644) are intended primarily for those students who plan research careers in the earth sciences in universities, industry or government agencies. The goals of the Ph.D. degree program are to prepare the student for a career in research by providing coursework in an area of specialization in geology or geophysics, provide a strong background in allied fields such as mathematics, physical science, biological science, and engineering to give the student the necessary tools to conduct original and significant geological research; and encourage critical thinking and analysis of geological problems through the design of original research projects.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Bedle	Heather		2018	ASSISTANT PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2018	PhD, Northwestern Univ, 2008; MS, Northwester Univ, 2005; BS, Wake Forest Univ, 1999
Behm	Michael		2017	ASSISTANT PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2017	PhD, Vienna Univ of Technology, 2006; MS, Vienna Univ of Technology, 2002
Carpenter	Brett	M	2017	ASSISTANT PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2017	PhD, Penn State Univ, 2012; MS, Penn State Univ, 2007; BS, Mansfield Univ of Pennsylvania, 2005
Chen	Xiaowei		2015	ASSISTANT PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2015	PhD, Univ of California, San Diego, 2013; MS, Univ of California, San Diego, 2010; BS, Univ Sci & Tech of China, 2007
Dee	Kato	T	2018	ASSISTANT PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2018	PhD, Colorado School of Mines; MS, Univ of Kansas; BS, Univ of Kansas
Dulin	Shannon	A	2014	ASSISTANT PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2014	PhD, Univ of Oklahoma, 2014; MS, Univ of Oklahoma, 2006; BS, Univ of Oklahoma, 2003
Elmore	Richard	D	1981	PROFESSOR OF GEOLOGY AND GEOPHYSICS, 1993; EDWARD LAMB MCCOLLOUGH CHAIR IN GEOLOGY AND GEOPHYSICS, 2018	PhD, Univ of Michigan, 1981; MS, Duke Univ, 1976; BA, Earlham College, 1974
Elwood Madden	Megan	E	2007	ASSOCIATE PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2013; STUBBEMAN-DRACE PRESIDENTIAL PROFESSOR, 2013	PhD, Virginia Polytechnic Inst, 2005; BS, Univ of Illinois, 2000
Engel	Michael	H	1982	PROFESSOR OF GEOLOGY AND GEOPHYSICS, 1994; CLYDE BECKER, SR. CHAIR IN GEOLOGY AND GEOPHYSICS, 2009	PhD, Univ of Arizona, 1980; MS, Univ of Arizona, 1976; BA, SUNY at Binghamton, 1973

Liu	Xiaolei		2017	ASSISTANT PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2017	PhD, Univ of Bremen, 2011; MS, Chinese Acad of Sciences, 2007; BS, Shandong Univ, 2003
London	David		1983	PROFESSOR OF GEOLOGY AND GEOPHYSICS, 1994; STUBBEMAN-DRACE PRESIDENTIAL PROFESSOR, 2004; NORMAN R. GELPHMAN PROFESSOR IN GEOLOGY AND GEOPHYSICS, 2005	PhD, Conservatory Music Puerto Rico 1981
Lupia	Richard	A	1999	ASSOCIATE CURATOR, SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 2005; ASSOCIATE PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2005; ASSOCIATE PROFESSOR OF SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 2005	PhD, Univ of Chicago, 1997; MS, Univ of Chicago, 1994; BA, Univ of Pennsylvania, 1991
Madden	Andrew	S	2013	ASSOCIATE PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2013	PhD, Virginia Polytechnic, 2005; BS, Michigan State Univ, 2000
Marfurt	Kurt	J	2007	RESEARCH PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2018; FRANK A. SCHULTZ CHAIR IN GEOPHYSICS, 2007	PhD, Columbia Univ, 1978; MS, Columbia Univ, 1975; BA, Hamilton College, 1973
Mitra	Shankar		1999	PROFESSOR OF GEOLOGY AND GEOPHYSICS, 1999; ASSOCIATE DIRECTOR, ROCK MECHANICS INSTITUTE, 1999; VICTOR E. MONNETT CHAIR IN ENERGY RESOURCES, 1999	PhD, North Lake College, 1977; MS, Univ of Calcutta, 1972; BS, Univ of Calcutta, 1969
Nakata	Norimitsu		2016	LISSA AND CY WAGNER PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2016; ASSISTANT PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2016	PhD, Colorado School of Mines, 2013; MSc, Kyoto Univ, 2010; BSc, Kyoto Univ, 2008
Pigott	John	D	1981	ASSOCIATE PROFESSOR OF GEOLOGY AND GEOPHYSICS, 1996	PhD, Northwestern Univ, 1981; MA, Univ of Texas, 1977; BA, BS, Univ of Texas, 1974

Pranter	Matthew	J	2013	LEW AND MYRA WARD CHAIR IN RESERVOIR CHARACTERIZATION, 2013; PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2013	PhD, Colorado School of Mines, 1999; MS, Baylor Univ, 1989; BS, Colorado School of Mines, 1996; BS, Oklahoma State Univ, 1987
Slatt	Roger	M	2000	PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2000; DIRECTOR, INSTITUTE OF RESERVOIR CHARACTERIZATION, 2006; CARL E. AND THELMA J. GUNGOLL FAMILY CHAIR IN PETROLEUM GEOLOGY, 2010	PhD, Univ of Alaska, 1970; MS, Univ of Alaska, 1967; BA, San Jose State Univ, 1965
Soreghan	Gerilyn	S	1996	WILLIAMS COMPANIES FOUNDATION PRESIDENTIAL PROFESSOR, 2001; PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2008; DAVID L. BOREN PROFESSORSHIP, 2017	PhD, Univ of Arizona, 1992; BS, Univ of California Los Angeles, 1986
Soreghan	Michael	J	2005	ADJUNCT ASSISTANT PROFESSOR OF INTERNATIONAL AND AREA STUDIES, 2014; ASSOCIATE PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2016	PhD, Univ of Arizona, 1994; MS, Univ of Indiana, 1990; BS, Univ of California Los Angeles, 1986
Weaver	Barry	L	1984	ASSOCIATE PROFESSOR OF GEOLOGY AND GEOPHYSICS, 1990	PhD, Univ of Birmingham, 1980; MS, Univ of Birmingham, 1977; BS, Durham Univ, 1976
Westrop	Stephen	R	1998	CURATOR, INVERTEBRATE PALEONTOLOGY, SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 1998; PROFESSOR OF GEOLOGY AND GEOPHYSICS, 1998; WILLARD L. MILLER PROFESSOR OF GEOLOGY AND GEOPHYSICS, 2009	PhD, Univ of Toronto, 1984; MS, Univ of Toronto, 1980; BS, Univ of Wales, 1976

Environmental Geology, Bachelor of Science in Geology

Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language. This additional coursework may add 6-10 hours to the minimum hours required for graduation.

To obtain a BS in Geology with an Environmental Geology option, a student must take the same coursework as that for a BS in Geology except for 16 hours of geology/geophysics and allied science electives which are more narrowly specified. The student must satisfy 6 hours of geology/geophysics and allied science elective requirements by taking an upper-division GEOL/GPHY elective and GEOL 4633. The student must also satisfy 9 additional hours of allied science elective requirements chosen from an approved course list.

In order to progress in your curriculum, and as a specific graduation requirement, a grade of C or better is required in each course listed in the curriculum. Students must also successfully complete all prerequisite courses with a grade of C or better before proceeding to the next course.

¹MATH 1823, MATH 2423, MATH 2433, and MATH 2443 may be substituted for MATH 1914, MATH 2924, and MATH 2934.

²CHEM 1335 and CHEM 1435 may be substituted for CHEM 1315 and CHEM 1415.

³To be chosen from the University-Wide General Education Approved Course List. Three hours of general education must be upper-division outside the major.

⁴GEOL 4413, GEOL 4513 and BIOL 5204 are taught in alternate years and specific semesters. Students should plan their coursework with this in mind so that graduation problems do not arise. The order in which these courses are taken must be approved by faculty advisor.

⁵GEOL 3333 is taught on an irregular basis and may be substituted for ENGL 3513.

⁶Only one of the following courses is required. GPHY 4413 is taught alternate fall semesters; GEOL 4223 is taught alternate spring semesters.

Petroleum Geology, Bachelor of Science in Geology

Students who have not completed two years of the same foreign language courses in high school are required to take two college courses in the same foreign language. This additional coursework may add 6-10 hours to the minimum hours required for graduation.

In order to progress in your curriculum, and as a specific graduation requirement, a grade of C or better is required in each course listed in this curriculum. Students must also successfully complete **all** prerequisite courses with a grade of C or better before proceeding to the next course.

²CHEM 1335 and CHEM 1435 may be substituted for CHEM 1315 and CHEM 1415.

³To be chosen from the University-Wide General Education Approved Course List. Three hours of general education must be upper-division outside the major.

⁴Six hours of electives. Foreign Language courses taken to satisfy University-Wide General Education Requirements may be counted as lower-division free electives.

⁵Only one of the following courses is required. GPHY 4413 is taught alternate fall semesters; GEOL 4223 is taught alternate spring semesters.

⁶A minimum of 9 hours of upper-division science electives. Courses must be chosen from Petroleum Engineering; Meteorology; Geography, Environmental Sustainability & GIS; Anthropology (including archaeology); Biology; Chemistry & Biochemistry; Mathematics; Physics & Astronomy; Civil Engineering & Environmental Science; Chemical, Biological or Materials Engineering; and Computer Science.

⁷GEOL 3333 is taught on an irregular basis and may be substituted for ENGL 3513.

Geology, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Courses presented for minor credit must be completed with a C grade or better.

GEOL 1104 or GEOL 1114 is the only course that may count for both a student's major and minor.

No more than three (3) credit hours may be taken in the form of an Independent Study.

No more than three (3) credit hours may be transferred from another institution or taken through correspondence courses.

Requests to substitute a minor requirement must be approved in writing by the School of Geology & Geophysics.

Required Courses

Code	Title	Credit Hours
GEOL 1104	The Dynamic Earth (Geology for non-Science Majors)	4
	or GEOL 1114 Physical Geology for Science and Engineering Majors	
	Choose 6 hours of Geology coursework (GEOL prefix), Upper- or Lower Division:	6
	Choose an additional 9 hours of Upper Division (3000- and 4000-level) GEOL courses:	9
Total Credit Hours		19

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Geology, Master of Science

- This degree is Thesis Only.

Required Courses

Code	Title	Credit Hours
Core Courses		
Choose one graduate-level course in three of the following six general areas:		9
	Sedimentary Geology	
	Igneous and Metamorphic Petrology	
	Geochemistry	
	Stratigraphy-Paleontology	
	Geophysics	
	Structural Geology	
Science/Math/Engineering		
Choose three hours of graduate credit science, math or engineering courses (outside of geology and geophysics) as approved by the student's thesis committee		3
Thesis		
GEOL 5980	Research for Master's Thesis	4
General Geology		
Choose 14 hours of graduate coursework with advisor approval before enrolling in these courses		14
Total Credit Hours		30

Notes

Students must take 5 letter-graded courses. This means at least one course in addition to the Core and Science/Math/Engineering requirements must be letter-graded.

At least 14 hours (excluding thesis hours) must be in 5000 or 6000-level courses. Per course prerequisite, GEOL 6970 maximum is 20 credit hours.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Geophysics, Master of Science

- *This degree is Thesis Only.*

Required Courses

Code	Title	Credit Hours
Core Courses		
Choose 18 hours of work in Geology, Geophysics and Mathematics		18
Thesis		
GPHY 5980	Research for Master's Thesis	4
Electives		
Choose 8 hours of coursework from Geology, Geophysics, Mathematics, Physics, Engineering and/or Chemistry		8
Total Credit Hours		30

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Geology and Geophysics Doctoral Programs

Doctor of Philosophy

The Ph.D. degree programs in geology and geophysics are intended primarily for those students who plan research careers in the Earth sciences in universities, industry or government agencies. The goals of the Ph.D. degree program are to prepare the student for a career in research by providing coursework in an area of specialization in geology or geophysics, provide a strong background in allied fields such as mathematics, physical science, biological science, and engineering to give the student the necessary tools to conduct original and significant geological research; and encourage critical thinking and analysis of geological problems through the design of original research projects.

The Ph.D. degree in geology normally requires a minimum of three years beyond the M.S. degree. The Graduate College at the University of Oklahoma requires 90 post-baccalaureate semester hours of coursework.

Generally, the first year of residence is devoted primarily to coursework in preparation for the general examination; the remaining two years are devoted to both coursework and research. There are no specified course requirements for the Ph.D. degree in Geology. Rather, a coursework program is designed for each student in consultation with a doctoral committee composed of at least five graduate faculty members, including at least one from outside the major department within the University and one member outside the University. The Ph.D. in Geophysics has specific core requirements which will be determined by the faculty advisor. The purpose of the coursework is to prepare the student for the general examination, which tests the mastery of the field of specialization and related fields as well as the capacity for synthesis, sound generalization, and critical thinking. The examination consists of a written section in the major field of study, written sections in related fields, and oral defense of an original research proposal. Frequently, the original research proposal is the student's dissertation topic.

The dissertation is the culmination of an original research project in the student's field of specialization and should make a significant contribution to scientific understanding in the field. Normally, the student works closely with the faculty advisor in the design and execution of the research project. The student and the advisor may submit proposals to foundations or industry for financial support to carry out the research, and they report the results of the research at regional, national and international meetings and in papers published by national and international journals.

A graduate degree candidate in geology and geophysics must present the results of their dissertation research at a Graduate Colloquium of the School of Geosciences before they may schedule the final oral examination.

Sherry Cox, Ph.D., Assistant Dean for Undergraduate Advising

General Information

HISTORY

One of the stated purposes of the University of Oklahoma when founded in 1890 was the study of the "art of teaching." However, education as a field of study did not become a priority until Stratton D. Brooks assumed the presidency of the University. Under Brooks' leadership, education first became a field of study (1909), then a school of study in the College of Arts and Sciences (1910), and finally an independent school (1920). Brooks brought Warren Waverly Phelan from Baylor University in 1912 to serve as the first director of the school. Phelan served until 1926.

In 1929, the School of Education became the College of Education under the direction of Ellsworth Collings, who had been director of the School of Education. He served until 1945, and eight deans have served the College of Education since Collings. The current dean is Gregg Garn, appointed in 2012.

The College of Education was reorganized in 1986 into three departments: the Department of Educational Leadership and Policy Studies, the Department of Educational Psychology, and the Department of Instructional Leadership and Academic Curriculum. The college currently has more than 700 undergraduate and 800 graduate students who are pursuing degrees and/or certification. The College offers Bachelors, Master's, Ph.D., and Ed.D. degrees; it is second only to the College of Arts and Sciences in the number of doctoral degrees awarded.

MISSION STATEMENT

The primary mission of the Jeannine Rainbolt College of Education is to promote inquiry and practices that foster democratic life and that are fundamental to the interrelated activities of teaching, research, and practice in the multi-disciplinary field of education.

Programs Offered

- Department of Educational Leadership and Policy Studies (p. 651)
 - Adult & Higher Education, Master of Education (p. 654)
 - Adult & Higher Education: Intercollegiate Athletic Administration, Master of Education (p. 654)
 - Intercollegiate Athletic Administration Course List (p. 655)
 - Educational Administration - Curriculum & Supervision, Master of Education (p. 655)
 - Educational Studies, Master of Education (p. 656)
 - College Teaching Certificate, Graduate Certificate (p. 657)
 - Educational Leadership and Policy Studies Doctoral Programs (p. 657)
- Department of Educational Psychology (p. 658)
 - Special Education, Bachelor of Science in Education (p. 661)
 - Clinical Professional Counseling, Master of Education (p. 664)
 - Learning Sciences, Master of Education (p. 664)
 - Professional Counseling, Master of Education (p. 665)
 - Special Education, Master of Education (p. 665)
 - Applications of Educational Research and Evaluation, Graduate Certificate (p. 666)
 - Applied Behavior Analysis, Graduate Certificate (p. 666)
 - Drug and Alcohol Counseling, Graduate Certificate (p. 666)
 - Fundamentals of Special Education, Graduate Certificate (p. 667)
 - Learning Design and Technology, Graduate Certificate (p. 667)
 - Secondary Transition Education Specialist, Graduate Certificate (p. 667)
 - School Counseling, Graduate Certificate (p. 668)
 - Educational Psychology Doctoral Programs (p. 668)
- Department of Instructional Leadership and Academic Curriculum (p. 668)
 - Early Childhood, Bachelor of Science in Education (p. 672)
 - Early Childhood: Birth through Third Grade, Bachelor of Science in Education (p. 675)
 - Elementary, Bachelor of Science in Education (p. 678)
 - Language Arts, Bachelor of Science in Education (p. 681)
 - Mathematics, Bachelor of Science in Education (p. 684)
 - Science Education: Biological Sciences, Bachelor of Science in Education (p. 687)
 - Science Education: Chemistry, Bachelor of Science in Education (p. 690)
 - Science Education: Earth Science, Bachelor of Science in Education (p. 693)
 - Science Education: Physical Science, Bachelor of Science in Education (p. 696)
 - Science Education: Physics, Bachelor of Science in Education (p. 699)
 - Social Studies, Bachelor of Science in Education (p. 703)
 - World Language Education: French, Bachelor of Science in Education (p. 706)
 - World Language Education: German, Bachelor of Science in Education (p. 708)
 - World Language Education: Latin, Bachelor of Science in Education (p. 711)

- World Language Education: Spanish, Bachelor of Science in Education (p. 714)
- ILAC: Early Childhood Education, Master of Education (p. 717)
- ILAC: Elementary Education, Master of Education (p. 718)
- ILAC: English Education, Master of Education (p. 718)
- ILAC: Instructional Leadership, Master of Education (p. 719)
- ILAC: Mathematics Education, Master of Education (p. 720)
- ILAC: Reading Education, Master of Education (p. 721)
- ILAC: Science Education, Master of Education (p. 722)
- ILAC: Science, Technology, Engineering & Math (STEM) Education, Master of Education (p. 722)
- ILAC: Secondary Education, Master of Education (p. 723)
- ILAC: Social Studies Education, Master of Education (p. 724)
- ILAC: Teacher Education, Master of Education (p. 725)
- ILAC: World Language Education, Master of Education (p. 726)
- Reading Specialist, Master of Education (p. 726)
- 21st Century Teaching & Learning, Master of Education (p. 727)
- Communication, Culture and Pedagogy for ESL/ELL Populations in Educational Settings, Graduate Certificate (p. 727)
- Literacy Specialist, Graduate Certificate (p. 727)
- ILAC Doctoral Programs (p. 728)

Programs and Facilities

The Oklahoma Writing Project

The Oklahoma Writing Project, directed by Lawrence Baines, is devoted to improving the quality of composition instruction in elementary and secondary schools. The program, which has professionally prepared more than 500 educators as teacher consultants, is part of the National Writing Project, a network of university school programs across the nation. The OWP Teacher Consultants then travel to schools throughout the state, presenting in-service workshops to assist other educators in developing students' writing performance.

Zarrow Center for Learning Enrichment

The Zarrow Center for Learning Enrichment at the University of Oklahoma studies transition, self-determination, and post-secondary education of youth and adults with disabilities and those at risk for school failure. Masters and doctoral students who conduct research at the Zarrow Center learn skills to become future educational leaders. Faculty and students disseminate their work through books, articles, teaching materials, classes, workshops, and professional presentations. An endowment from the Zarrow Family Foundation of Tulsa funds the Zarrow Center activities.

Center for Educational Development and Research (CEDaR)

The Center for Educational Development and Research (CEDaR) provides support for the research and scholarship of faculty and graduate students in the College of Education. Its work includes data services, academic editing, survey design and administration, and grant-writing support. In addition, CEDaR regularly sponsors workshops on research related software.

The K20 Center for Educational and Community Renewal

The K20 Center for Educational and Community Renewal is a consortium of school-university-community partnerships committed to improving student achievement and democratic citizenship through authentic

teaching, technology integration, and cooperative networking. It is an interdisciplinary, university-wide center with a focus on educational and community renewal in the U.S. and internationally. The K20 Center proposes a model addressing the needs of children and families through interactive, action-oriented partnerships among schools, families, universities, and community and government agencies. The K20 Center brings teachers, administrators, students, parents, school board members, community members, business leaders, information technologists, university faculty and students together to share ideas, observe best practices, identify and analyze problems, and develop strategies for improved teaching, learning, and community life.

Center for Leadership Ethics and Change

The Center for Leadership Ethics and Change's primary mission is to engage with both university-based and PK-12 practitioner initiatives that support its vision.

Early Childhood Education Institute

The Early Childhood Education Institute at OU-Tulsa strives to advance and support early childhood programming and policies by generating, disseminating, and applying meaningful research.

The Hardman Center for Children with Learning Differences

The Hardman Center for Children with Learning Differences was created through a gift from Ruth G. Hardman, a long-time Tulsa resident known for her philanthropy and interest in literacy and education. The Hardman Center has a dual mission of outreach across the state to assist parents, teachers, and schools in helping children with learning differences be more successful in school, and of applied research to close the gap between best and current practices in literacy education.

The Institute of Child Development

The Institute of Child Development, which serves approximately 50 children from the Norman and University communities, has been accredited by the National Academy of Early Childhood Programs. Working with children from 2–5 years old, the Institute meets a variety of strict standards, including providing activities appropriate for preschool children, having an adequate student-staff ratio, meeting stringent health and safety standards, and providing opportunities for parental involvement. The OU Institute of Child Development was in the first group of licensed child care facilities in the United States to be accredited.

John W. Renner Science Education Center

The John W. Renner Science Education Center's mission is to continue to be at the forefront of science education research while preparing teachers and professionals for lasting scholarly work and personal development in order to improve upon science education.

Sandra L. O'Brien Collaborative Learning Hub

The Sandra L. O'Brien Student Computer Lab, recently renovated and renamed "Sandra L. O'Brien Collaborative Learning Hub" is available to students, faculty, and staff of the Jeannine Rainbolt College of Education for academic, research or personal use.

Debt-Forgiveness Program

Debt-Forgiveness Program, a merit and need based assistance initiative directed toward outstanding students in the College with significant debt associated with their education. Students who are currently in the teacher preparation program can apply and once accepted into this

program can receive up to \$5,000 in debt forgiveness for each year they teach in a high need area in the state of Oklahoma upon graduation.

Undergraduate Study

General Information

Admission

There is a two-step admission process for students seeking to enter the Jeannine Rainbolt College of Education.

1. Admission to the Jeannine Rainbolt College of Education (Step 1)

Students at the University of Oklahoma are eligible for admission to the college after they have:

- a minimum of 24 semester hours earned from an accredited institution of higher learning;
- a minimum of 2.75 combined retention grade point average on all coursework attempted;
- declared major in education.

2. Full Admission to a Certification Program (Step 2)

Students are eligible to apply for full admission to a teacher education certification program after they have:

- a minimum of 30 semester hours from an accredited institution of higher learning earning a grade of C or better in the following 24 hours of coursework as defined by the Oklahoma State Regents for Higher Education: English (Composition and Literature) ENGL 1113 and ENGL 1213 or their equivalencies—six hours; MATH (Gen Ed Core I)—three hours; American History—three hours; American Government—three hours; Gen Ed Core IV-AF, WC, NWC; Foreign Language or other advisor approved Gen Ed course – three hours; Social and Behavioral Sciences—three hours; Natural Sciences—three hours;
- a minimum OU retention and combined retention grade point average of 2.75 on all coursework attempted;
- Take and Pass the Oklahoma General Education Test (OGET). Please contact the College if you have taken and passed the PPST in another state. The OGET Exam requires a minimum score of 240. All three portions of the PPST must be passed with a minimum cut score of MATH 171, WRITING 172, and READING 173.

Admission to a teacher education certification program requires meeting particular program requirements, submission of an application and essay, background check, and an interview with program area faculty. Upon successful completion of the interview process, students will be fully admitted to a specific teacher education program and given permission to enroll in education classes.

Academic credit from any division of the University of Oklahoma – Norman campus, Health Sciences Center, OU-Tulsa, or Continuing Education – is considered resident credit at the University of Oklahoma. Grades and hours earned in any of these divisions are included in the OU retention and cumulative grade point averages for purposes of admission or readmission to the University, and to the individual colleges within the University.

Admission requirements are subject to change on an annual basis. For information that applies to you, please consult the degree checklist in effect at the time of your first enrollment in the state system.

Retention

- When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its

regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Conduct Policy.

- Students must maintain a minimum OU retention and combined retention grade point average of 2.75 in all undergraduate coursework and a minimum 3.00 grade point average in all graduate coursework attempted. Students whose OU retention or combined retention grade point average at the undergraduate level falls below 2.75 will be subject to dismissal from the college. Academic credit from any division of the University of Oklahoma – Norman campus, Health Sciences Center, OU-Tulsa, or Continuing Education – is considered resident credit at the University of Oklahoma. Grades and hours earned in any of these divisions are included in the OU retention and cumulative grade point averages for purposes of admission or readmission to the University, and to the individual colleges within the University.
- Students must maintain a minimum of 2.75 grade point average in all professional and all specialized education courses earning no grade less than a C.
- Students must earn a C or better in COMM 1113 or its equivalent.
- Students who have not earned OU retention or combined retention grade point averages of 2.75 after the completion of 60 semester hours will be dismissed from the college.
- Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared education majors must complete at least one college-level math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
- Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.
- Coursework over 10 years old in the professional and specialized education must be reviewed and approved by faculty in the appropriate area before it can be credited toward the completion of a teacher education degree or certification program. There is no guarantee that work over 10 years old will be accepted.
- A student has six years to complete a teacher education degree after full admission to a teacher certification program. After the six-year period, a student must seek readmission to that program and meet the program requirements at the time of readmission.

Requirements for Graduation

The responsibility for meeting all graduation requirements lies with the student. The requirements for graduation from the University of Oklahoma through the Jeannine Rainbolt College of Education are:

- A minimum of 124 semester hours inclusive of general education, professional education, specialized education and elective courses.
- OU retention and combined retention grade point averages of 2.75 or higher.
- Minimum grade point average of 2.75 in all professional and all specialized education coursework.
- A minimum of 40 hours of upper division coursework (3000-4000).
- A grade of C or better in all professional and specialized education coursework.
- A minimum of 60 hours from a senior institution.

- Completion of an Application for Graduation and filed by the published deadline.

General Education

General Education introduces the student to the arts, sciences and humanities as knowledge taken to be worthy in and of itself; as being valuable to the citizen participating in the American democracy; as knowledge useful to all in a technological society; and as an introduction to the fields of knowledge exposing the college student to various career options.

General Education is based on those studies known as the liberal arts and liberal sciences, which embrace the broad areas of the humanities, mathematics, the biological and physical sciences, the social and behavioral sciences, and oral and written communication skills.

Please refer to the respective checksheets for specific General Education requirements.

Professional Education

Professional core education courses are those classes taken by all students who are preparing to become teachers.

Admission to the student teaching internship semester requires students to be in good standing and have completed **all** baccalaureate degree requirements with the exception of the internship and research course.

Continued progress in the professional sequence is dependent upon successful completion of prerequisites.

Specialized Education

Specialized education requirements vary according to the teacher certification program. Continued progress in the specialized education coursework is dependent upon successful completion of prerequisites.

Other Requirements

Transfer Work

All professional education coursework transferred to the University of Oklahoma and submitted by the student as the equivalent of required courses in any teacher certification preparation program will be subject to the approval of the Jeannine Rainbolt College of Education.

Academic Residence

A student in the Jeannine Rainbolt College of Education shall satisfy the minimum academic residence requirement by completing courses offered on the University's Norman campus or at a residence center. Residency begins with full admission to teacher education. The student can meet the residence requirement through one of the two following options:

- Completing in residence 45 of the last 60 hours prior to graduation after being fully admitted to a teacher education program; **or**,
- Completing in residence the last 30 consecutive hours prior to graduation after being fully admitted to a teacher education program.

Advanced Standing, Correspondence and/or Extension

Credit granted through advanced standing may be accepted as residence study. Please refer to the admissions section of this catalog for further information on the regulations governing advanced standing credit.

Credit earned through correspondence cannot be used to meet the basic professional sequence requirements. The maximum allowable accumulation of advanced standing, correspondence and extension study credit in general education, specialized education, and professional

education shall be one-fourth the total semester hours required in each category.

University of Oklahoma regulations pertaining to the acceptance of correspondence and extension credit from other institutions must be met before such work may be applied toward the degree.

Credit Hour Load

Undergraduate Students

Sixteen semester hours constitute a normal enrollment for fall and spring. Students may enroll for 19 semester hours. Students with grade point averages of 3.00 or above may enroll for 20 semester hours if they have the approval of their adviser and the dean of the college. Students with grade point averages of 3.50 may take more than 20, up to a maximum of 24, semester hours if they have the approval of their adviser and the dean of the college. During the summer session the normal enrollment is 14 semester hours. Students with grade point averages of 3.00-3.49 may enroll for 15 summer semester hours or 18 hours with a 3.50 or above if they have the approval of their adviser and the dean of the college. Normal enrollment for a summer intersession is 3 hours. Students may enroll in four Intersession semester hours with grade point average of 3.00-3.49 or for five to six Intersession semester hours with a 3.50 grade point average or above if they have the approval of their adviser and the dean of the college.

Pass/No Pass Option

The pass/no pass option may be used only on elective courses belonging to one of the general education areas of free electives. That is, if a specific course is listed as a requirement in one of these areas, it may not be completed under the pass/no pass option. Since such specific requirements vary with the individual teacher certification programs, it is the responsibility of the students to check their particular program requirements in the general education areas so that they may properly apply the pass/no pass option to their credit for graduation. All professional and specialized education course requirements are also excluded from the pass/no pass option.

Student Responsibility

The Jeannine Rainbolt College of Education disseminates information through the various offices, particularly the Academic Advising Center. An adviser is appointed to every student enrolled in the college. Even so, the student is expected to read the catalog, and know and understand all the requirements stated therein and on the appropriate degree checksheet.

The final responsibility for meeting degree requirements rests with the student.

Academic Retention Notice

Any student whose OU retention or combined retention grade point average falls below 2.75 will be subject to dismissal from the college.

Degrees Awarded

A degree is awarded only upon recommendation of the college, and represents the satisfactory completion of all requirements.

Degrees of Special Distinction will be awarded to graduating seniors who:

- Have grade point averages of not less than 3.75 combined cumulative on all completed coursework;
- Have completed not less than 60 hours of their last 75 hours in residence at the University; and
- Have not been subject to disciplinary action.

Degrees with Distinction will be awarded to graduating seniors who:

- Have grade point averages of not less than 3.50 combined cumulative on all completed coursework;
- Have completed not less than 60 of their last 75 hours in residence at the University; and
- Have not been subject to disciplinary action.

Licensure and Certification

Students who earn their degrees from the University of Oklahoma and who have satisfactorily completed state certification, including success on the required Certification Examinations for Oklahoma Educators, will be recommended by the Jeannine Rainbolt College of Education for state certification. Teaching certification will be issued by the Oklahoma State Department of Education. Because OU's teaching certification program is nationally recognized and accredited, students can be recommended for teaching certification outside of Oklahoma and the U.S.

Teaching Certificate Programs

The following three teacher certification programs are available exclusively through the Jeannine Rainbolt College of Education:

- Early Childhood Education
- Elementary Education
- Special Education

The following are offered either through the Jeannine Rainbolt College of Education or in collaboration with the College of Arts and Sciences:

- World Language Education: French, German, Latin and Spanish
- Language Arts Education
- Mathematics Education
- Science Education-Biological Sciences
- Science Education-Chemistry
- Science Education-Earth Science
- Science Education-Physical Science
- Science Education-Physics
- Social Studies Education

The following is offered through the Weitzenhoffer Family College of Fine Arts:

- Music Education: Instrumental, Vocal

Graduation requirements vary according to which college a student elects to enter, and are stated on the program area checksheets.

Field Experiences

The TE-PLUS program contains three formal field experiences where students are placed in educational environments representing rural, urban, and suburban settings. These field experiences are tied to particular coursework. Students will learn about the expectations and their placements during class. Other, more informal field experiences are affiliated with some of the courses in professional and specialized education courses. These experiences are critical to student's professional development. Each teacher certification program culminates with the student teaching internship as a 16-week full-time field experience.

Graduate Study

Graduate programs in the Jeannine Rainbolt College of Education foster the insights and skills needed to deal with the most pressing challenges facing the education profession. They also are well regarded by professors and educational leaders throughout the nation. Outstanding faculty members construct rigorous coursework and field experiences for graduate students and engage in millions of dollars of funded research.

Master's programs generally prepare graduates for advancements or new roles within their respective fields as practitioners. For educators, the M. Ed. generally provides students with the knowledge and skills needed to obtain leadership positions in schools or to add initial or advanced certification in teaching. Many programs also help students develop methods of inquiry and can lead to careers in research.

Doctoral programs in the Jeannine Rainbolt College of Education foster the insights and skills needed to deal with the most pressing challenges facing the education profession. Our programs are also highly regarded by deans and professors throughout the region and nation. Outstanding, internationally known faculty members construct rigorous opportunities for advanced study, mentor students and engage in millions of dollars of funded research.

The Ph.D. programs prepare researchers to serve in professional positions in universities, research agencies, policy agencies and schools. An Executive Doctor of Education (Ed.D.) degree is offered in Educational Administration, Curriculum and Supervision. All College of Education doctoral students are essential partners in developing new knowledge and in preparing the next generation of educators, practitioners, counselors and scholars.

Student Organizations

Association of Adult, Higher Education, and Development (AHEAD)

AHEAD is a graduate student organization that works to aid its members' personal and professional development through informing and encouraging participation in opportunities in the field of Higher Education. AHEAD also serves as a social organization that helps encourage building relationships across all areas in EDAAH. The organization consists of an executive board that is modeled off of a leadership structure found in many national organizations within the field. The board collectively governs the direction of the organization with collaboration with all members.

The Counseling Student Association (CSA)

The Counseling Student Association aids the entry of graduate students into the professions of Counseling Psychology, Community Counseling, and School Counseling through such activities as mentoring new students, arranging colloquia, and providing input into program curricula and governance.

Diversity Appreciation Group (DAG)

Diversity Appreciation Group (DAG) is a student-run group that is part of the Counseling Student Association. Its main objective is to create a forum in which students and faculty can explore and discuss beliefs, values and behaviors in relation to others who are different in terms of age, gender, race, ethnicity, religion, sexual orientation, physical and mental abilities, socio-economic status, and other differences. Activities and cultural events are organized to help participants challenge their own biases.

EdPsych Graduate Organization (EGO)

The purposes of the EGO are to collect, organize, and disseminate information to all graduate students in the Department of Educational Psychology regarding department news; scholarship, fellowship, assistantship, and research opportunities; employment opportunities; and social gatherings. A further purpose of the group is to serve as a hub for networking and establishing support systems. The group serves as a colloquia from which to learn about the latest theories, ideas, technologies, and practices within the specific areas of Instructional Psychology and Technology, the Counseling Programs, and Special Education. The group also serves as an agency from which to invite outside or local speakers on relevant subjects. Further, the group fosters understanding, cooperation, and collaboration between the specific areas of focus within Educational Psychology.

Graduate Student Council

The Graduate Student Council exists to discuss issues and concerns from the graduate students of the College, and serve as liaisons between the Dean's office and the graduate student organizations. The Council meets monthly during the academic year with the Associate Dean for Graduate Studies and Research, and its members are involved in programs and projects that support graduate student representation and community in the college. The Council consists of a representative from each of the college's graduate student organizations: AHEAD, CSA, EGO, ILAC, OESA and NSTA.

Kappa Delta Pi (KDP)

Kappa Delta Pi, the international honor society in education, recognizes outstanding contributions to education and encourages professional fellowship. Membership is by invitation and is offered for undergraduate and graduate education students who exhibit sound scholarship (a GPA of at least 3.25), commendable personal qualities, and worthy educational ideals.

Oklahoma Sooners National Science Teachers Association Student Chapter (NSTA)

The Oklahoma Sooners National Science Teachers Association Student Chapter is a registered student organization at OU and an official student chapter of the National Science Teachers Association (NSTA). The purpose of our chapter is to advocate the mission of NSTA, which is to promote excellence and innovation in science teaching and learning for all; to acquaint preservice teachers of science with the support resources available from NSTA; to provide additional professional development in science education to preservice teachers; and to create a network of preservice teacher at universities or colleges across the world. Benefits of the student chapter include a free one-year NSTA electronic student membership and opportunities to gain leadership skills, to enhance career growth, to network with peers and experienced science teachers and educators, and to support science education.

Oklahoma Educational Studies Association (OESA)

OESA is an academic organization founded in 2001 to support graduate students and faculty in education studies. Membership in OESA is open to all graduate students and faculty at the University of Oklahoma who are involved in educational inquiry in good academic standing, and committed to high quality scholarship and inquiry in the various fields of education. Education studies derives its character and methods from a number of academic disciplines and area studies, including history, philosophy, sociology, anthropology, religion, politics and law, cultural studies, gender studies and educational policy studies.

The Student Council for Exceptional Children (SCEC)

The University of Oklahoma Student Council for Exceptional Children is dedicated to enhancing the preparation of preservice special educators as they are about to embark on teaching students of all abilities. Professional development on timely topics through specific presentations is ongoing throughout the fall and spring semesters. Direct interaction with fellow students and faculty members further enriches the experiences available through this organization. Service learning provides additional opportunities to strengthen skills that will be needed once practicing in the field. Membership is open to preservice general educators as well as special educators.

Student Oklahoma Education Association (SOEA)

The University of Oklahoma Student Oklahoma Education Association (SOEA) is a pre-professional organization of undergraduate and graduate students currently preparing for careers in education. Through SOEA, students are affiliated with the larger Oklahoma Education Association and the National Education Association. Membership in SOEA provides networking opportunities with professional educators and the opportunity to participate in professional development workshops and unite for special projects.

 www.ou.edu/education/elps

General Information

There are three degree-granting programs in the department of Educational Leadership and Policy Studies (ELPS). Each of the three programs offers the M.Ed. and Ph.D. degrees. In addition, the Ed.D. is offered by the EACS program.

The Adult and Higher Education program focuses on adult learning, continuing higher and professional education, training and development, distributive learning, student affairs administration, intercollegiate athletics, community college leadership, and institutional research. Our graduates assume teaching, administrative, research and leadership positions in a variety of non-profit and for-profit organizational settings, including colleges and universities, governmental agencies, social service and learning centers, and business corporations.

The Educational Administration, Curriculum and Supervision program provides preparation for leadership positions in elementary and secondary school systems, district-level positions, administrative roles in government, researcher roles in policy and advocacy centers, and scholarly positions in colleges and universities. The diverse selection of elective courses provides for shaping the individual's degree program according to their professional interests at both the doctoral and master's levels. Program offerings are located on both the Norman and Tulsa campuses.

Educational Studies offers a foundational core course and urban field experience for undergraduate pre-service teachers. Graduate study in EDS has an explicit research, teaching, and service mission: To foster social justice, non-violence, and democratic life through interpretive, critical, and normative inquiry in historical, philosophical, legal, social, and cultural studies of education—education for children and for adults, by various means, formal and informal, in diverse settings, local and global.

Programs & Facilities

Graduate Student Organizations

Phi Delta Kappa is a national fraternity dedicated to the promotion of excellence in leadership, scholarship and service through the education profession. The University of Oklahoma chapter was established in 1921 and has operated continuously since that time. Membership, available to all graduate students without condition as to race, sex or ethnic origin, is based upon satisfactory performance at the graduate level, and the indication of potential in the furtherance of the objectives of the organization.

Kappa Delta Pi, also a national fraternity that encourages the development of leadership in education, is open to graduate students as well as upper-division and undergraduates who have shown evidence of successful scholastic achievement.

Graduate Study

Master of Education

Admission and Requirements

Admission to a master's degree program in education requires a 3.00 grade point average for the last 60 credits of undergraduate study. Additional qualifications may be required by faculty in some areas.

Applicants for programs leading to the Master of Education degree must present a bachelor's degree in an appropriate field from an accredited college or university. Students must complete degree requirements within six calendar years after their first graduate enrollment at the University of Oklahoma. A written comprehensive examination may be required in the department of Educational Leadership and Policy Studies.

The program for the master's degree includes intensive preparation for a specialized type of educational responsibility with study in associated fields. Work at the graduate level may be required in educational psychology and historical, philosophical and social foundations of education. The exact pattern of the program will be determined after consultation with the advisor. Students may obtain information about specific course requirements for each program area from the department office.

Adult and Higher Education (EDAH)

The Adult and Higher Education, Master of Education (p. 654) prepares individuals to assume entry-level and mid-level administrative roles in appropriate adult and higher education organizations. The master's program is comprised of a comprehensive curriculum and practical experiences designed to prepare students for professional positions in a variety of educational and training organizations including colleges and universities, governmental agencies, educational planning agencies, and business and industry.

Intercollegiate Athletics Administration

The Intercollegiate Athletic Administration, Master of Education (p. 654) is philosophically embedded within the broader study of adult and higher education. As such, it reflects the realities of modern intercollegiate athletics programs within the context of the higher education setting. The curriculum is designed to provide a breadth of knowledge in higher education with specialized course work in intercollegiate athletics. Courses are taught by both regular faculty members and practitioners in the field. This concentration prepares students for careers in each of the main functional units of a contemporary intercollegiate athletics department.

Educational Administration, Curriculum and Supervision (EACS)

The purpose of the Educational Administration - Curriculum and Supervision, Master of Education (p. 655) is to provide graduate-level preparation for professional positions such as elementary school principal, middle school principal, director of elementary education, secondary principal, secondary curriculum consultant or supervisor, general or specific supervisor, curriculum consultant, and curriculum director.

Educational Studies (EDS)

The Educational Studies, Master of Education (p. 656) is designed to engage experienced educators in interpretive, normative, and critical studies of children's and adults' education for social justice in diverse historical and cultural contexts, via the arts, humanities, and social sciences. Such interdisciplinary studies enhance the creative resources of educators and other persons involved in social service work who aim to be transformative leaders. For example, students consider the

state's, institution's, or organization's role as an agent of acculturation or of social change. History, philosophy, sociology, economics, and anthropology are major disciplinary tools that inform the policy and practice of educators.

Certificate Programs

The College Teaching Certificate (p. 657) program is designed to prepare graduate students for higher-education teaching. Through the coursework, participation in the Graduate Teaching Academy, and through teaching or practicum experiences, students will learn and apply the pedagogical and institutional knowledge necessary for successful teaching and student learning.

Doctoral Programs

Doctoral programs in Educational Leadership and Policy Studies (p. 657) are designed to prepare personnel for administrative, service and faculty positions in colleges and universities, public schools and other education and training agencies in government and the private sector. It is possible to study for the doctorate in adult and higher education, educational administration, curriculum and supervision, and educational foundations.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Adams	Curt		2007	ASSOCIATE PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES AT TULSA, 2013; LINDA CLARKE ANDERSON PRESIDENTIAL PROFESSOR, 2014	PhD, Oklahoma State Univ, 2003; MS, Univ of Tulsa, 1999; BS, Univ of Tulsa, 1997
Ballard	Keith	E	2005	PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES AT TULSA, 2005; DIRECTOR, PROFESSIONAL DEVELOPMENT AND LEADERSHIP ACADEMY, 2015; GEORGE KAISER FAMILY FOUNDATION CHAIR IN LEADERSHIP, 2015	EdD, Oklahoma State Univ; MEd, Northwestern Oklahoma State Univ; BA, Fort Hays State Univ
Edwards	Beverly		2006	PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES AT TULSA, 2016	PhD, Univ of Tulsa, 1994; MS, Northeastern State Univ; BS, Northeastern State Univ
Edwards	Kirsten	T.	2012	ASSOCIATE PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2018; ADJUNCT ASSOCIATE PROFESSOR OF WOMEN'S AND GENDER STUDIES, 2018	PhD, Louisiana State Univ, 2012; MPA, Southern Univ, 2005; BS, Louisiana State Univ, 2001

Eodice	Michele	A	2006	PROFESSOR OF WRITING, 2014; ADJUNCT PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2015	PhD, Indiana Univ of Pennsylvania, 1999
Ford	Timothy	G	2014	ASSISTANT PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES AT TULSA, 2014	PhD, Michigan State Univ, 2010; MA, Univ of Kansas, 2004; BS, Truman State Univ, 1998
Forsyth	Patrick	B	2009	PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES AT TULSA, 2009	EdD, Rutgers Univ, 1977; MA, New York Univ, 1971; BA, Univ of Notre Dame, 1969; BA, Marist College, 1968
Frick	William	C	2006	ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2013; RAINBOLT FAMILY ENDOWED EDUCATION PRESIDENTIAL PROFESSOR, 2016; PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2018	PhD, Pennsylvania State Univ, 2006; MS, Bucknell Univ, 1997; BS, Cairn Univ, 1989; BA, Lycoming College, 1988
Garn	Gregg	A.	1998	LINDA CLARKE ANDERSON PRESIDENTIAL PROFESSOR, 2009; PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2009; DIRECTOR, EDUCATION PROFESSION DIVISION, 2011; ADJUNCT PROFESSOR OF FRESHMAN PROGRAMS, 2014	PhD, Arizona State Univ, 1998; MEd, Arizona State Univ, 1996; BA, Univ of Northern Iowa, 1994
Gutierrez	Kathrine	J	2006	ASSOCIATE PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2016; ADJUNCT ASSISTANT PROFESSOR OF WOMEN'S AND GENDER STUDIES, 2015	PhD, Pennsylvania State Univ, 2006; MEd, Pennsylvania State Univ, 2004; MPA, Univ of Guam, 1996; BBA, Univ of Guam, 1991
Hamlin	Daniel	E	2018	ASSISTANT PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES AT TULSA, 2018	PhD, Univ of Toronto; MA, Sejong Univ; BA, Michigan State Univ

Haslerig	Siduri		2014	ASSISTANT PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2014	PhD, Univ of California Los Angeles, 2013; MA, Univ of California Los Angeles, 2008; BA, Swarthmore College, 2007
Hextrum	Kirsten	M	2017	ASSISTANT PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2017	PhD, Univ of California Berkeley, 2017; MA, Univ of California Berkeley, 2012; BA, Univ of California Berkeley, 2007
Houston	Derek	A	2017	ASSISTANT PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2017	PhD, Univ of Illinois, 2016; MS, Univ of Illinois, 2015; EdM, Univ of Illinois, 2010; BS, Univ of Illinois, 2007
Jones	John	R	2014	ASSOCIATE PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2016	EdD, Oklahoma State Univ, 1992; MEd, Univ of Oklahoma, 1976; BA, East Central Univ, 1971
Kim	Junghwan		2014	ASSISTANT PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2014	PhD, Pennsylvania State Univ, 2012; MA, Yonsei Univ, 2007; BA, Yonsei Univ, 2005
Lim	Doo	H	2008	PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2008	PhD, Univ of Illinois, 1998; MEd, Univ of Illinois, 1995; BS, Sogang Univ, 1987
Maiden	Jeffrey		1994	PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2009; ADJUNCT PROFESSOR OF LIBERAL STUDIES, 2010	PhD, Univ of Florida, 1994; MEd, Univ of Florida, 1990; BAEd, Univ of Florida, 1984
Urick	Angela		2013	ASSISTANT PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2013	EdD, Univ of Texas San Antonio, 2012; MS, Walden Univ, 2007; BA, St. Mary's Univ, 2003
Vaught	Sabina	E	2018	PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2018	PhD, Univ of Wisconsin-Madison, 2006; MEd, Vanderbilt Univ, 1996; BA, Univ of Washington, 1993
Velazquez	Mirelsie		2014	ASSISTANT PROFESSOR OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES, 2014	PhD, Univ of Illinois, 2010; MA, Univ of Illinois, 2007; BA, Univ of Illinois, 2004

Adult & Higher Education, Master of Education

- This program is Non-Thesis Only.

Required Courses

Code	Title	Credit Hours
Required Courses		
EDAH 5033	Critical Literature in Adult and Higher Education	3
EDAH 5043	Introduction to Research in Adult and Higher Education	3
EDAH 5013	The Adult Learner	3
EDAH 5023	Administration of Adult and Higher Education	3
Core Courses - Emphasis in Adult and Higher Education		
Choose 15 hours from any EDAH designated courses		15
Electives		
Choose 9 hours of any OU graduate-level chosen with advisor and committee approval		9
Total Credit Hours		36

Note: Practical experiences are designed to provide students with opportunities to explore possible areas of professional interest. Unpaid practica are strongly recommended for students who have not had at least one year's experience working in the field of adult and higher education.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Adult & Higher Education: Intercollegiate Athletic Administration, Master of Education

- This program is Non-Thesis Only.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Thesis Electives Course List

Electives may include the following courses; other electives may count if approved by the thesis adviser.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

College Teaching Certificate, Graduate Certificate

The certificate is designed to prepare graduate students for higher-education teaching. Through the coursework, participation in the Graduate Teaching Academy, and through teaching or practicum experiences, students will learn and apply the pedagogical and institutional knowledge necessary for successful teaching and student

learning. Each component of the certificate is designed with one of these goals in mind by offering direct instruction, group discussion, direct observation, and mentor relationships.

Total Credit Hours		12

¹EDAH 5910 Practicum is waived for students with prior college-level teaching experience. The Practicum hours must be replaced with a third course from the approved list.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Educational Leadership and Policy Studies Doctoral Programs

Doctoral Programs

Doctoral programs in Educational Leadership and Policy Studies are designed to prepare personnel for administrative, service and faculty positions in colleges and universities, public schools and other education and training agencies in government and the private sector. It is possible to study for the doctorate in adult and higher education, educational administration, curriculum and supervision, and educational foundations.

The doctoral degrees awarded in the Jeannine Rainbolt College of Education are the Doctor of Philosophy (Ph.D.) and the Doctor of Education (Ed.D.). Ph.D. programs in the Department of Educational Leadership and Policy Studies focus on scholarly inquiry in several

discrete areas and are intended to serve individuals who are research oriented and have promise of developing new knowledge in their fields of study. In addition to the Ph.D., EACS also offers a Doctor of Education, also known as the Executive Ed.D. The Executive Ed.D. program is directed at terminal degree preparation of practitioners in education who can be expected to serve with distinction in demanding professional positions.

Admission to doctoral study in education requires a minimum 3.25 grade point average on all graduate work attempted and additional requirements as determined by program areas within the department. The Graduate Record Examination is required of all applicants to a doctoral program. Upon acceptance by the area faculty and in consideration of recommendations made by the faculty, the department chairperson and/or the graduate studies committee and the doctoral student, the graduate dean will appoint an advisory committee. The advisory committee consists of a chairperson from the student's major field, at least one representative from outside the department, and other faculty totaling at least five members. An advisory conference will determine the program of study that must be completed to qualify for the degree.

Upon completion of the required course work (exclusive of the dissertation), students must complete the General Examination. Prior to attempting the General Examination, a student must demonstrate proficiency in research methods prescribed in both quantitative and qualitative research for Doctor of Philosophy candidates. These standards are set forth in the department's *Graduate Studies Handbook*. The student must also meet all relevant requirements of the Graduate College, as well as those of the student's individual program area. The candidate is expected to complete all degree requirements within four years after the General Examination. Failure to accomplish this may require another writing of the General Examination and/or the revalidation of coursework.

Prospective students are encouraged to contact the appropriate program area for information about program availability, and college and departmental requirements. In addition, the section of the Graduate Bulletin, which describes the procedures and requirements for graduate study at the University, should be reviewed and kept as a reference.

Adult and Higher Education Doctoral Program

The doctoral program in Adult and Higher Education is designed to prepare individuals for teaching and research positions in Adult and Higher Education, and for individuals interested in administrative and service positions in colleges and universities, professional organizations, and other educational and training agencies in government and the private sector. The degree awarded in adult and higher education is the Doctor of Philosophy (Ph.D.). This degree is directed toward the development of scholars and scholar/practitioners in Adult and Higher Education and is intended to serve individuals who have promise of making scholarly contributions to their area of expertise. Doctoral emphases within the Adult and Higher Education program include:

- Adult and Continuing Education
- Continuing Professional and Higher Education
- Higher Education Administration, Institutional Research, Student Personnel Services, Community College Administration, and Intercollegiate Athletics Administration
- Distance Learning and Education
- Workforce Learning and Development

Students selecting an Adult and Continuing Education emphasis will develop knowledge and research skills to meet the learning needs of adults in formal or informal settings. The Continuing Professional and Higher Education emphasis provides students with the knowledge, competencies, and research skills appropriate to the role of administrator, professor, and researcher within the continuing professional and higher education frameworks. The Higher Education emphasis provides students with an in-depth understanding of administrative and research issues related to higher education as a unique organization, institutional research, student personnel services, and intercollegiate athletics administration. The Distance Education emphasis prepares students for work in the field of distance education as administrators, planners, instructors, and telecommunications specialists in a variety of education-related organizations. In the Training and Development emphasis, students will develop an in-depth understanding of the human resource potential in governmental, business and industrial organizations.

Educational Administration, Curriculum and Supervision Doctoral Programs

The doctoral programs (Ph.D. and Ed.D.) in EACS are designed to prepare individuals for careers in the education profession, including those found in higher education institutions and public schools. The Ph.D. is intended for those who wish to pursue careers in the research-oriented professions such as a faculty member in a research institution or as a professional staff member in a research center. The degree requires a high level of commitment to research and an understanding of leadership functions. The Executive Ed.D. degree is intended for those aspiring to central office or other practitioner fields in education. It is offered in a cohort format and is intended especially for those who are committed to a career in school administration. The Ph.D. program is individually tailored to support the needs, interests, and career aspirations of each student. Basic coursework in administrative and organizational theory, community, educational renewal and human relations, curriculum, supervision, finance, law, policy, politics, leadership, and evaluation is available. Doctoral study may be interdisciplinary so coursework and experiences from other departments and colleges are encouraged.

Educational Studies (EDS)

The Ph.D. program in educational studies prepares experienced educators for teaching and research positions in higher education or leadership roles in community and higher education. The program engages students in interpretive, normative, and critical research on children's and adults' education in diverse historical and cultural contexts, via the arts, humanities, or social sciences. Such research requires a broad, complex, and transformative view of teaching, learning, curriculum, and their myriad contexts, including gender, age, race, ethnicity, sexual orientation, and socioeconomic status. This interdisciplinary field brings together historical, philosophical, sociological, economic, legal, anthropological, and human relations approaches to understanding and evaluating the means and ends of education, past and present, actual and potential, especially for social justice. The program requires students to work closely with faculty to design their programs of study and residency plans so that they are tailored to each individual's own professional purposes and social justice concerns.

General Information

The Educational Psychology department is committed to developing and disseminating new knowledge through research and scholarly activity, delivering quality instruction and professional training, and pursuing research and training opportunities at the junctures of the disciplines within the department through the program area coordinator.

Research

Faculty members in the Department of Educational Psychology are active researchers. Examples of the topics under investigation in each of the program areas are listed below.

Learning Sciences

The Learning Sciences program integrates the fields of educational psychology and instructional technology as the foundation for a comprehensive, multifaceted approach to the study of learning and instruction. Areas of research include factors that influence student motivation and engagement in learning; measurement of motivation; instructional design; scaffolding problem solving with technology; visual literacy; development of politico-moral attitudes and behaviors; the development of expertise; teacher professional development.

Professional Counseling

The goals of the Professional Counseling program are to facilitate student integration of counseling theory, research, and practice; to cultivate an understanding of the mutual influences of practice and science; and to foster the development and application of holistic counseling skills. A foundational value of the program is to foster understanding, critical thinking and ethical decision-making. Areas of research include counselor education, interpersonal and group processes, and treatment models and techniques based on traditional American Indian ideas and practices.

Special Education

The Special Education program seeks to improve educational and community living outcomes for people with disabilities and their families through the development and dissemination of new knowledge, the provision of high-quality educational experiences related to personnel preparation, and a commitment to provide service and leadership to the field of education. Areas of research include comprehensive transition services with a focus on self-determination and post-secondary outcomes for students with disabilities and academic achievement of students with exceptionalities.

Programs & Facilities

Zarrow Center for Learning Enrichment

The Zarrow Center for Learning Enrichment facilitates successful secondary and postsecondary educational, vocational and personal outcomes for students and adults with disabilities. Zarrow Center faculty, staff, and students do this through self-determination-oriented evaluation, research, development, transition education instruction, and dissemination of best educational and support practices. The Zarrow

Center also prepares undergraduate and graduate students to assume leadership roles in schools, universities, and support organizations.

Undergraduate Study

The Special Education, Bachelor of Science in Education (p. 661) program prepares students to become teachers certified to instruct students with mild and moderate disabilities.

Graduate Study

Master of Education

Admission Requirements

Admission to study for the master's degree in education requires a grade point average of 3.00 in the last 60 hours of undergraduate study. Additional requirements in some areas are determined by area faculty.

Admission to study beyond the master's degree in education requires a minimum of 3.00 grade point average on all graduate work attempted, and additional requirements as determined by appropriate faculty committees. Graduate Record Examination scores are required of all applicants to doctoral programs and are used as one criterion for acceptance.

Prospective students are encouraged to consult the Department of Educational Psychology *Graduate Student Handbook* for information about program availability, and college and departmental requirements. In addition, the section of the *Graduate Bulletin*, which describes the procedures and requirements for graduate study at the University, should be reviewed and kept as a reference.

Requirements for the Master's Degree

Applicants for programs leading to the degree of Master of Education must present a bachelor's degree in an appropriate field from an accredited college or university. A student must complete work within six calendar years after the student's first graduate enrollment at the University of Oklahoma.

Depending on program area, a written examination is required and thesis, non-thesis, or special project options may be applicable.

The program for the master's degree includes intensive preparation for a specialized type of educational or professional responsibility with study in associated fields. The exact pattern of the program will be determined after consultation with the advisor. The student should check with the program area for specific course requirements.

The specific requirements of each program are tailored to provide excellence of preparation in the field of practice.

Learning Sciences

- Learning Sciences, Master of Education (p. 664)

Professional Counseling

The Professional Counseling program consists of 45 semester hours leading to the Master of Education (M.Ed.) degree. The Clinical Professional Counseling program offers a 60-hour track that meets the state of Oklahoma LPC requirements.

- Professional Counseling, Master of Education (p. 665)
- Clinical Professional Counseling, Master of Education (p. 664)

Special Education

The Special Education, Master of Education (p. 665) program is designed to prepare master educators to meet the needs of individuals

with disabilities in schools and other natural environments. It is possible to complete special education teacher certification requirements while working towards the M.Ed. degree. Graduates of the program typically assume positions as teachers or administrators of programs serving individuals with disabilities. Students have the opportunity to work closely with nationally recognized faculty and develop a support network of professional colleagues as they become master educators.

Graduate Certificates

- Applications of Educational Research and Evaluation (p. 666)
- Applied Behavior Analysis (p. 666)
- Drug & Alcohol Counseling (p. 666)
- Fundamentals of Special Education (p. 667)
- Learning Design and Technology (p. 667)
- Secondary Transition Education Specialist (p. 667)
- School Counseling (p. 668)

Doctoral Programs

Educational Psychology Doctoral Programs (p. 668) are designed for present and prospective administrative, service and faculty positions in colleges and universities, public schools, and other education and training agencies in government and the private sector.

Williams- Kendra L 2008 ASSOCIATE PhD, Texas A&M Univ, 2006; MEd, Texas PROFESSOR OF EDUCATIONAL PSYCHOLOGY, 2013; BRIAN E. AND SANDRA O'BRIEN PRESIDENTIAL PROFESSOR, 2016; ZARROW FAMILY CHAIR IN LEARNNG ENRICHMENT, 2018

- Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
- Students must earn a C or better in COMM 1113 or COMM 2613.
- Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
- Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
- Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
- Course work more than 10 years old in the teaching specialization and professional education may not be credited to ward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
- A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6- year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
- Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Special Education, Bachelor of Science in Education

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education
Students are eligible for admission to the Jeannine Rainbolt College of Education with:

- a minimum of 24 semester hours earned from an accredited institution of higher learning;
- a minimum of **2.75** combined retention grade point average on all coursework attempted;
- a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

- a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
- a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
- successful completion of the OGET (Oklahoma General Education Test) or PPST (Pre Professional Skills Test) The OGET Exam requires a minimum score of 240. All three portions of the PPST must be passed with minimum cut scores of MATH 171, WRITING 172, and READING 173.

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

- When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
- Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Education and the Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators, apply for a license, and successfully complete the residency program.

ENGL 2000-level or higher	(Core IV-AF)	3
COMM 1113	Principles of Communication (Core I)	3
or COMM 2613	Public Speaking	

Mathematics (12 hours)		
Choose two MATH courses (Core I)		6
MATH 2213	Mathematical Systems	3
MATH 2223	Data Analysis and Geometric Systems	3
Science (12 hours) ¹		
Choose one course in biological sciences (Core II): BIOL, HES, MBIO, or P BIO		3-5
Choose any 2000-level or higher science course		3-4
Choose one course in physical sciences (Core II): AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS		3-5
Social Studies (12 hours)		
HIST 1483	United States, 1492 to 1865 (Core IV)	3
or HIST 1493	United States, 1865 to the Present	
P SC 1113	American Federal Government (Core III)	3
GEOG 1103	Human Geography (Core IV-WC)	3
or GEOG 2603	World Regional Geography	
Non-Western Culture: Choose one course from the University-Wide General Education Approved Course List (3000-level or above) and advisor approved (Core IV)		3
Behavioral Science (6 hours)		
PSY 1113	Elements of Psychology (Core III)	3
PSY 2403	Introduction to Personality	3
or PSY 2603	Lifespan Development	
Foreign Language (0-10 hours)		
<i>University-Wide General Education Requirement</i>		
Choose two college-level courses in a single foreign language; may be satisfied by successful completion of 2 years in a single foreign language in high school (Core I)		0-10
<i>Oklahoma State Regents for Higher Education Requirement</i>		
Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English ²		
Senior Capstone		
The following are satisfied under Professional Education requirements (Capstone, Core V):		
EDSP 4121	Applied Research in Special Education	
EDSP 4134	Internship in Special Education I - Elementary	
EDSP 4144	Internship in Special Education II - Secondary	
Electives (1 hour)		
Additional elective hours may be required to meet the 55 Liberal Arts hours required to graduate		1
Total Credit Hours		55-65

¹One course must include a laboratory component.

²The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching

Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean’s Office checks each student’s records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by September 15 for fall graduation, February 15 for spring graduation, and June 1 for summer graduation. **The student’s degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college’s overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Applications of Educational Research and Evaluation, Graduate Certificate

The Applications of Educational Research and Evaluation Graduate Certificate provides a strong foundation in the techniques for conducting program evaluations using educational research, and offers a series of high quality online courses.

Certificate Requirements

Code	Title	Credit Hours
EIPT 5033	Introduction to Research and Evaluation in Education	3

EIPT 5023	Analysis of Quantitative Data I	3
EIPT 5203	Assessment and Evaluation in Education and Counseling	3
EIPT 6073	Program Evaluation	3
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Applied Behavior Analysis, Graduate Certificate

The Applied Behavior Analysis Graduate Certificate provides students with a comprehensive set of skills that integrates theory and ethical practices of applied behavior analysis.

Certificate Requirements

Code	Title	Credit Hours
EDSP 5143	Applied Behavior Analysis in School Settings	3
EDSP 5243	Applied Behavior Analysis II	3
EDSP 5343	Applied Behavior Analysis III	3
EDSP 5443	Ethical & Professional Conduct of Behavior Analysts	3
EDSP 6023	Single-Case Research Design	3
Choose 3 hours from the following:		3
EDSP 5063	Issues and Strategies in a Functional Curriculum	
EDSP 5013	Special Education Instructional Methods and Programs	
Total Credit Hours		18

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Drug and Alcohol Counseling, Graduate Certificate

The embedded certificate in Drug & Alcohol Counseling requires 15 hours which are specific to drug and alcohol counseling that meet or exceed all requirements for licensure in the state of Oklahoma. This is not a standalone certificate- it provides a transcribed credential for students who wish to pursue licensure as drug and alcohol counselors in the state of Oklahoma.

Certificate Requirements

Code	Title	Credit Hours
EDPC 5513	Introduction to Abuse and Addictions Theory and Treatment	3
EDPC 5523	Addictions and Family Theory	3
EDPC 5533	Psychopharmacology/Neurobiology of Addiction	3
EDPC 5543	Addictions Counseling: Theoretical Approaches and Co-Occurring Disorders	3
EDPC 5553	Addictions in Family Counseling	3
Total Credit Hours		15

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Fundamentals of Special Education, Graduate Certificate

The curriculum for this embedded certificate consists of six (6) graduate courses that are the most necessary and fundamental courses for persons who are interested in teaching individuals with disabilities but have not received their undergraduate degree or master's degree in Special Education.

Certificate Requirements

Code	Title	Credit Hours
EDSP 5413	Theories in the Education of Exceptional Children	3
EDSP 5143	Applied Behavior Analysis in School Settings	3
EDSP 5183	Advanced Assessment	3
EDSP 5163	Collaboration, Accommodations, and Modifications	3
EDSP 5013	Special Education Instructional Methods and Programs	3
Choose 3 hours of graduate elective pertaining to the primary professional area of interest, as approved by adviser		3
Total Credit Hours		18

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Learning Design and Technology, Graduate Certificate

Certificate Requirements

This combination of courses and experiences provides learners with the expertise, and evidence of that expertise, to be highly competitive for jobs related to Instructional Design, Learning Design and Technology, Instructional Consulting, and Instructional Development.

Code	Title	Credit Hours
EIPT 5183	Motivation and Learning in the Classroom	3
EIPT 5533	Foundations of Learning Sciences	3
EIPT 5920	Internship in Education--Master's	1-6
EIPT 6343	Design of Learning Environments	3
EIPT 6523	Visual Literacy and Digital Development for Learning	3
EIPT 6533	Development for Learning with Digital Technologies	3
Total Credit Hours		16-21

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Secondary Transition Education Specialist, Graduate Certificate

The Secondary Transition Education Specialist Graduate Certificate provides students with a comprehensive set of skills that integrates the theory and practice of transition education.

Certificate Requirements

Code	Title	Credit Hours
EDSP 5093	Transition and Self-Determination	3
EDSP 5193	Post-Secondary Education and Employment	3
EDSP 5293	Transition-Based Assessment	3
S WK 5293	Direct Practice with Diverse Students, Disabilities, & Transition	3
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

School Counseling, Graduate Certificate

The curriculum for this embedded certificate includes a sequence of five (5) graduate courses that are part of the concentration in School Counseling within the Master's program in Professional Counseling. The certificate provides a transcribed credential for students who wish to pursue alternative certification as school counselors in the state of Oklahoma.

Certificate Requirements

Code	Title	Credit Hours
EACS 5233	The Organization of Education	3
EDPC 5513	Introduction to Abuse and Addictions Theory and Treatment	3
EDPC 5113	Human Development	3
EDPC 5253	Assessment in Counseling	3
EDSP 5413	Theories in the Education of Exceptional Children	3
Total Credit Hours		15

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Educational Psychology Doctoral Programs

Doctoral programs in the Department of Educational Psychology are designed for present and prospective administrative, service and faculty positions in colleges and universities, public schools, and other education and training agencies in government and the private sector. Doctoral programs exist in the areas of learning sciences and special education.

Ph.D. programs in the Department of Educational Psychology are directed at development of scholarly expertise in an area and are intended to serve individuals who have promise of making contributions to their area of expertise.

Admission to doctoral study in the department requires a minimum 3.25 grade point average on all graduate work attempted. All applicants must present Graduate Record Examination general test scores (Verbal, Quantitative, and Analytic), which are used along with other data as a basis for admission. Programs may impose admission requirements in addition to those set by the Graduate College and the department. The program area coordinator should be consulted for special program application requirements, and for annual admission application deadlines. A TOEFL of 550 or better is required for international students.

An advisory committee will be appointed by the graduate dean upon recommendation from the student's area and the department chair and/or graduate studies committee in consultation with the student. The advisory committee will consist of a chairperson from the student's major field, at least one faculty representative outside the Department of Educational Psychology and other members to total at least five. The "outside member" should be a regular graduate faculty member at the University of Oklahoma Norman campus. The advisory conference will determine the program of study that must be completed to qualify for the degree.

Upon completion of the majority of required coursework (exclusive of dissertation), the student must complete the General Examination. Prior to attempting the General Examination, a student must demonstrate proficiency in research methods. For more detailed descriptions of research proficiency procedures, contact the graduate liaison in the department. The student must also meet all relevant requirements of the Graduate College, as well as those of the student's individual program area.

The candidate is expected to complete all degree requirements within four years after the General Examinations. Failure to accomplish this may require the candidate to retake the General Examination.

Prospective students are encouraged to consult the Department of Educational Psychology *Graduate Student Handbook* for information about program availability, and college and departmental requirements. In addition, the section of the *Graduate Bulletin*, which describes the procedures and requirements for graduate study at the University, should be reviewed and kept as a reference.

General Information

Prepare teachers and other professionals for leadership roles and advocacy in education-related settings; to engage in critical inquiry; to support and promote diversity, social justice and service; and to promote leadership to the profession, our communities, and society in support of student learning and development.

Department Goals

- Interrelate teaching, research and service.
- Model reflective practice through our own teaching, research, service and advocacy.
- Facilitate OU students' learning and professional development at the initial and advanced program levels.
- Help OU students discern among multiple modes of educational practice, formulate their own philosophical orientations based on scholarly inquiry, and enact approaches consistent with these philosophical perspectives.
- Promote coherent, dynamic, robust programs with collaborative university and community partners.
- Foster programmatic, departmental, college, and university coherence.
- Develop, pursue, and sustain clear, dynamic, and programmatic lines of scholarly inquiry.
- Produce and disseminate scholarly artifacts through critical inquiry that meet rigorous standards of quality in relevant fields.
- Share knowledge and expertise at the international, national, regional, state and local levels of professional organizations and other constituencies.
- Support, develop, and retain faculty through a collaborative departmental environment..
- Advocate for diversity and social justice within our programs, profession, and society.

Programs & Facilities

THE EARLY CHILDHOOD EDUCATION INSTITUTE (ECEI)

The ECEI, which is located on the Tulsa campus, is an applied research group focused on young children, birth to age 8, their families, and early care and education providers and group settings, such as Early Head Start, etc. The ECEI's mission is to advance and support early childhood programming and policy through research, evaluation, and outreach. Since its inception in 2006, the ECEI has conducted a variety of program evaluation projects, worked with many state and national partners, and impacted policy and programming decisions. For example, the ECEI has served as evaluation partners with Tulsa Educare and CAP-Tulsa providing data to help inform their programming for young children birth through age 5. In addition, the ECEI has launched independent research aligned with the Institute's vision and mission. The recently launched a Supporting Effective Educator Development (SEED) study, in collaboration with colleagues from Georgetown and Harvard, seeks to document factors that make children successful or not as they progress from preschool to grade 3.

JOHN W. RENNER SCIENCE EDUCATION CENTER

The John W. Renner Science Education Center conducts research in the teaching and learning of science; provides instruction in the latest techniques and materials in the teaching of science in kindergarten, elementary, middle, and secondary schools; and assists state agencies in the introduction of science into the classrooms of the public schools. The center also has participated in national curriculum studies. For the undergraduate student in the College, the Science Education Center makes possible an approach to learning in which teacher and students participate in discovery. The center has been responsible for leadership in science education and for providing future teachers with a strong science background for the profession.

Institute of Child Development

The National Academy of Early Childhood Programs accredits the Institute of Child Development, which serves approximately 50 children from the Norman and University communities. The OU Institute of Child Development was the first group of licensed childcare facilities in the United States to be accredited. Working with children from 2-5 years old, the Institute meets a variety of strict standards, including providing activities appropriate for preschool children, having an adequate student-staff ratio, meeting stringent health and safety standards, and providing opportunities for parental involvement. Undergraduate teacher candidates in the Early Childhood program complete a practicum at the Institute, and teachers at the Institute also teach courses in the Early Childhood program.

Undergraduate Study

Bachelor of Science in Education

Early Childhood Education

Students who are passionate about working with young children and want to work in a preschool or early elementary classroom will find the University of Oklahoma College of Education's nationally recognized Early Childhood Education (p. 672) program to be a good mixture of hands-on experience and solid theoretical education.

Early Childhood Birth through Third Grade

The Early Childhood: Birth through Third Grade (p. 675) program prepares students to teach children through the third grade. In addition, students participating in the program on the OU-Tulsa Campus will have a particular focus on working with very young children (birth to age 8) and their families, in a variety of settings.

Elementary Education

The Elementary Education (p. 678) program is truly a hands-on experience for students. As soon as students are fully admitted to their major within the college, they begin spending time in classrooms. This real-world education is coupled with what students learn in the classroom. The curriculum focuses on first grade through sixth grade (and possibly up to eighth grade) in social studies, science, language arts and math. Students study areas such as educational psychology, child development, pedagogy and teaching methodology.

Language Arts Education

Students who are passionate about teaching literature, writing and speaking will find the nationally recognized Language Arts Education (p. 681) program a stimulating blend of English literature and writing courses and diverse hands-on classroom experiences.

Mathematics Education

The Mathematics Education (p. 684) program offers its students excellent preparation for this responsibility with in-class education and hands-on opportunities. Mathematics teachers help to educate

our doctors, engineers, scientists and business leaders in basic skills required to do their jobs every day.

Science Education

The Science Education program includes teaching certification options that give students who wish to teach secondary school science a solid foundation in the natural sciences and proven pedagogy. After students complete a rigorous study of science content related to their certification field of study, they thoroughly investigate sound, successful, theory-based pedagogical coursework in the John W. Renner Science Education Center. At the completion of their degree program, students are highly qualified for science teaching positions at the secondary level.

- Science Education, Biological Sciences (p. 687)
- Science Education, Chemistry (p. 690)
- Science Education, Earth Science (p. 693)
- Science Education, Physical Science (p. 696)
- Science Education, Physics (p. 699)

Social Studies Education

The Social Studies Education (p. 703) program prepares students to teach a variety of social sciences areas, including economics, history, geography and government, and help their students to become responsible citizens.

World Language Education

Students who love languages and have a desire to teach will find the World Language Education program to be strong mixture of in-class education and hands-on experiences. Students take courses in grammar, conversation, composition, reading, culture, civilization, literature, history of the language, second language acquisition theory and methodology. To become experts in the language and culture, students are strongly encouraged to participate in one of the many Study Abroad opportunities at the University of Oklahoma.

- World Language Education, French (p. 706)
- World Language Education, German (p. 708)
- World Language Education, Latin (p. 711)
- World Language Education, Spanish (p. 714)

Graduate Study

Admission

Admission to master's degree programs in Instructional Leadership and Academic Curriculum requires a minimum overall grade point average of 3.00 in undergraduate coursework. Applicants with grade point averages below 3.0 may apply for conditional admission. The master's degree includes intensive preparation in an area of specialization and the completion of six hours in research. Students who are not currently certified to teach may want to fulfill certification requirements as part of the program. Students seeking to combine certification with a master's degree should consult with the faculty advisor.

MASTER OF EDUCATION

Early Childhood Education

The Early Childhood Education (p. 717) program increases the depth and breadth of understanding of developmental theory, curriculum, and instructional methodology for educating and caring for children from birth to age eight. Students explore current research and issues in the field.

Elementary Education

The Elementary Education (p. 718) program provides advanced professional education and specialized academic work designed to enhance the professional competence of teachers in grades PK-8.

English/Language Arts Education

The English Education (p. 718) program advances student understanding of English through teaching, curriculum, and research in literacy, language, composition, and literature.

Instructional Leadership

The Instructional Leadership (p. 719) program increases understanding of the multi-disciplinary nature of the field, including inter- and cross-disciplinary studies within and outside the department.

Mathematics Education

The Mathematics Education (p. 720) program promotes professional and scholarly growth in students' understanding of mathematics learning and pedagogy from theoretical, research, and practical orientations, as well as provide leadership for the community of mathematics educators.

Reading Education

The Reading Education (p. 721) program fosters students' understanding of current theory and research in literacy learning, teaching, and curriculum, from birth through post-secondary education. Students may also wish to obtain a reading specialist certification in conjunction with the master's degree. Please see the Reading Specialist Certification description below.

Science Education

Central to the Science Education (p. 722) program is the development of professionalism, scholarship, and leadership in pedagogy and science content. Students explore teaching and learning at all school levels and in diverse environments.

Secondary Education

The Secondary Education (p. 723) program provides advanced professional education and specialized academic work designed to enhance the professional competence level of teachers in secondary schools.

Social Studies Education

The Social Studies Education (p. 724) program advances student understanding in social studies teaching and content in elementary and secondary education.

Teacher Education

The Teacher Education (p. 725) program is designed for students interested in the broad field of teach education, as well as in graduate-level pursuit of teaching certification.

World Languages Education

With its flexible structure, the World Languages Education (p. 726) program serves:

1. certified teachers of world languages who wish to enrich their knowledge of research, theory, and best practice;
2. students with a demonstrated competency (such as a bachelor's degree or native fluency) in a language who wish to pursue a master's degree and teaching certification;
3. students seeking to become teachers of English as a Foreign Language (EFL) in international settings; and

- 4. teachers seeking to build expertise in instructing English Language Learners (ELLs) in American classrooms

Reading Specialist

The Reading Specialist (p. 726) program prepares candidates to serve in the roles of reading specialists, literacy interventionists, or literacy coaches in K-12 schools, colleges, and universities. The program also welcomes in-service and pre-service teachers who want to remain in the classroom but who wish to gain greater knowledge and understanding in developing engaged, strategic readers and writers.

GRADUATE CERTIFICATES

Graduate Certificate in Communication, Culture and Pedagogy for ESL/ELL Populations in Educational Settings

The graduate certificate in Communication, Culture, and Pedagogy for (ESL/ELL) Populations in Educational Settings (p. 727) provides educators and administrators with the tools to better educate the growing non-native, English speaking populations in their schools. The focus of the program addresses the knowledge gap educators' face in communication and cultural issues which represent the two greatest barriers for ESL/ELL students and their families. The goal of the program is to incorporate knowledge of communication and culture with pedagogical practices which will both engage and acculturate students in the classroom, school and community.

Graduate Certificate in Literacy Specialist

The embedded graduate certificate for Literacy Specialist (p. 727) consists of 18 hours, and contains the core courses of the nationally recognized and accredited Reading Specialist program (Master's of Education, Instructional Leadership and Academic Curriculum, Reading Education concentration). Our specialized professional association, the International Literacy Association, requires that candidates meet the following standards: Foundational Knowledge, Curriculum and Instruction, Assessment and Evaluation, Diversity, Literate Environment, and Professional Learning and Leadership. The courses included in the certificate are all required courses in the master's degree that leads to a recommendation for state certification as a Reading Specialist and have assignments that are used to assess mastery of the standards.

DOCTORAL PROGRAMS

ILAC Doctoral Programs (p. 728) prepare students for faculty positions in colleges and universities; positions in curriculum, instruction, and assessment in schools; and for jobs in research and curriculum design in public or private institutions.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Baines	Lawrence	A	2009	PROFESSOR OF INSTRUCTIONAL LEADERSHIP AND ACADEMIC CURRICULUM; 2010	PhD, Univ of Texas, 1993; MS, Univ of North Teas, 1984; BS, Univ of Texas, 1978

Beach	Sara	A	1991	PROFESSOR OF INSTRUCTIONAL LEADERSHIP AND ACADEMIC CURRICULUM, 2006; ADJUNCT PROFESSOR OF INTERNATIONAL AND AREA STUDIES, 2018	PhD, Univ of California, 1991; M.Ed, Texas A&M Univ, 1981; BA, Univ of Dallas, 1975
Brugar	Kristy	A.	2014	ROBERT L. AND NAN A. HUDDLESTON PRESIDENTIAL PROFESSOR, 2018; ASSOCIATE PROFESSOR OF INSTRUCTIONAL LEADERSHIP AND ACADEMIC CURRICULUM, 2018	PhD, Michigan State Univ, 2012; M.Ed, George Washington Univ, 1996; BA, Univ of Michigan, 1994

Early Childhood, Bachelor of Science in Education

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. successful completion of the OGET (Oklahoma General Education Test) or PPST (Pre Professional Skills Test) The OGET Exam requires a minimum score of 240. All three portions of the PPST must be passed with minimum cut scores of MATH 171, WRITING 172, and READING 173.

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate**

professional and specialized education courses, with no grade less than a **B**.

4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6-year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of **2.75** grade point average with no grade less than a **C** in the Professional Education and Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators, apply for a license, and successfully complete the residency program.

¹These courses require field experience.

²These courses are taken together in the final semester.

General Education Requirements

These General Education courses meet minimum University, College and State General Education Requirements.

Code	Title	Credit Hours
English (12 hours)		
ENGL 1113	Principles of English Composition (Core I)	3
ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 Expository Writing	3
ENGL 2000-level or higher (Core IV-AF)		3
COMM 1113	Principles of Communication (Core I) or COMM 2613 Public Speaking	3
Mathematics (12 hours)		
Choose two MATH courses (Core I)		6
MATH 2213	Mathematical Systems	3
MATH 2223	Data Analysis and Geometric Systems	3
Science (12 hours, including one laboratory course)		
Choose one course in biological sciences: BIOL, HES, MBIO, or PBIO		4-5
Choose one course in physical sciences (Core II): AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS		4-5
Choose one 2000-level or higher advisor-approved Science course		3-4
Social Studies (12 hours)		
HIST 1483	United States, 1492 to 1865 (Core IV) or HIST 1493 United States, 1865 to the Present	3
P SC 1113	American Federal Government (Core III)	3

Choose one of the following (Core III):	3
ANTH 1113 General Anthropology	
PSY 1113 Elements of Psychology	
SOC 1113 Introduction to Sociology	
Non-Western Culture: Choose one course from the University-Wide General Education Approved Course List (3000-level or above) and advisor approved (Core IV)	3
Practical Arts (3 hours)	
EDEC 2203 Creative Expression in Early Childhood	3
Behavioral Sciences	
The following is satisfied under Professional Education requirements:	
EDEC 3413 Early Childhood Development	
Arts & Humanities (3 hours)	
Choose one PHIL course (Core IV-WC)	3
Foreign Language (0-10 hours)	
<i>University-Wide General Education Requirement</i>	
Choose two college-level courses in a single foreign language; may be satisfied by successful completion of 2 years in a single foreign language in high school (Core I)	0-10
<i>Oklahoma State Regents for Higher Education Requirement</i>	
Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English ¹	
Senior Capstone	
The following is satisfied under Specialized Education requirements (Capstone, Core V):	
EDEC 4123 Curriculum of Early Childhood Education	
Total Credit Hours	54-64

¹The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language.

Additional elective hours may be required to meet the 124 total hours, and 55 Liberal Arts hours, required to graduate.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by September 15 for fall graduation, February 15 for spring graduation, and June 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Early Childhood: Birth through Third Grade, Bachelor of Science in Education

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. successful completion of the OGET (Oklahoma General Education Test) or PPST (Pre Professional Skills Test) The OGET Exam requires a minimum score of 240. All three portions of the PPST must be passed with minimum cut scores of MATH 171, WRITING 172, and READING 173.

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to

dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.

6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6-year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

• *This program is offered only at the Tulsa campus.*

Major Requirements

Students must maintain a minimum of **2.75** grade point average with no grade less than a **C** in the Professional Education and Specialized Education courses for graduation.

Certification: *To be fully certified, students must pass Certification Examinations for Oklahoma Educators, apply for a license, and successfully complete the residency program.*

Choose one PHIL course (Core IV-WC)	3
Health & Sports Sciences (2 hours)	
HES 2212 First Aid	2
Foreign Language (0-10 hours)	
<i>University-Wide General Education Requirement</i>	
Choose two college-level courses in a single foreign language; may be satisfied by successful completion of 2 years in a single foreign language in high school (Core I)	0-10
<i>Oklahoma State Regents for Higher Education Requirement</i>	
Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English ¹	
Senior Capstone	
The following is satisfied under Specialized Education requirements (Capstone, Core V):	
EDEC 4543 Senior Seminar in Early Childhood Education (Capstone)	
Total Credit Hours	59-69

¹The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching

Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by September 15 for fall graduation, February 15 for spring graduation, and June 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU

General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Elementary, Bachelor of Science in Education

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. successful completion of the OGET (Oklahoma General Education Test) or PPST (Pre Professional Skills Test) The OGET Exam requires a minimum score of 240. All three portions of the PPST must be passed with minimum cut scores of MATH 171, WRITING 172, and READING 173.

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.

9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6-year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

¹These courses require field experience.

²These courses are taken together in the final semester.

³These courses **must** be taken concurrently.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Education and Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators, apply for a license, and successfully complete the residency program.

	Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English ²	
Non-Western Culture (3 hours)		
	Choose one course from from the University-Wide General Education Approved Course List (3000-level or above) and advisor approved (Core IV)	3
Senior Capstone		
	The following Senior Capstone is satisfied under Professional Education Requirements (Capstone, Core V):	

EDEN 4914	The Teaching of English
Total Credit Hours	41-51

¹One of the biological or physical science courses must include a laboratory component.

²The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language.

The 41 hours above, along with EDEN 4914, ENGL 4853, ENGL 2773 or ENGL 2883, ENGL 2543 or ENGL 2653, ENGL 4523 or ENGL 4533 (14 hours) in the Specialized Education requirements, comprise the 55 hours required for General Education.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching

Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by September 15 for fall graduation, February 15 for spring graduation, and June 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Mathematics, Bachelor of Science in Education

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;

3. successful completion of the OGET (Oklahoma General Education Test) or PPST (Pre Professional Skills Test) The OGET Exam requires a minimum score of 240. All three portions of the PPST must be passed with minimum cut scores of MATH 171, WRITING 172, and READING 173.

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6-year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Education and the Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators, apply for a license, and successfully complete the residency program.

Science Education: Chemistry, Bachelor of Science in Education

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.

2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. successful completion of the OGET (Oklahoma General Education Test) or PPST (Pre Professional Skills Test) The OGET Exam requires a minimum score of 240. All three portions of the PPST must be passed with minimum cut scores of MATH 171, WRITING 172, and READING 173.

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6-year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Education and Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators, apply for a license, and successfully complete the residency program.

Electives

Choose 3-8 hours from the following: 3-8

CHEM 3421	Physical Chemistry Laboratory	
CHEM 3423	Physical Chemistry I	
CHEM 3521	Physical Chemistry Laboratory	
CHEM 3523	Physical Chemistry II	
CHEM 3753	Introduction to Biochemical Methods	
CHEM 4033	Instrumental Methods of Chemical Analysis Laboratory	

Total Credit Hours 83

¹These courses require field experience.

²These courses are taken together in the final semester

³These 14 hours along with the 41 hours listed in General Education comprise the 55 hours required for Liberal Arts & Sciences.

General Education Requirements

These General Education courses meet minimum University, College and State General Education Requirements.

Code	Title	Credit Hours
Communication Skills (9 hours)		
ENGL 1113	Principles of English Composition (Core I)	3
ENGL 1213	Principles of English Composition (Core I)	3
or EXPO 1213	Expository Writing	
COMM 1113	Principles of Communication (Core I)	3
or COMM 2613	Public Speaking	
Mathematics (6 hours)		
MATH 1523	Precalculus and Trigonometry (or higher) (Core I)	3
MATH 1823	Calculus and Analytic Geometry I (or higher)	3
U.S. History & Government (6 hours)		
HIST 1483	United States, 1492 to 1865 (Core IV)	3
or HIST 1493	United States, 1865 to the Present	
P SC 1113	American Federal Government (Core III)	3
Natural Science (8 hours)		
BIOL 1114	Introductory Zoology (Core II-NL)	4
GEOL 2014	The Earth System (Core II-Lab)	4
Arts & Humanities (6 hours)		
Choose one course from Core IV-Artistic Forms		3
HSCI 3013	History of Science to the Age of Newton (Core IV-WC)	3
or HSCI 3023	History of Science Since the Seventeenth Century	
Social & Behavioral Sciences (3 hours)		
GEOG 3253	Environmental Conservation (Core III-SS)	3
Foreign Language (0-10 hours)		
<i>University-Wide General Education Requirement</i>		

Choose two college-level courses in a single foreign language; may be satisfied by successful completion of 2 years in a single foreign language in high school (Core I) 0-10

Oklahoma State Regents for Higher Education Requirement

Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English¹

Non-Western Culture (3 hours)

Choose one of the following (Core IV-NWC): 3

HSCI 3313	Science and Technology in Asian History
HSCI 3453	Science and Civilization in Islam
HSCI 3483	Technology, Politics, and International Development

Senior Capstone

The following Senior Capstone is satisfied under Professional Education requirements (Capstone, Core V):

EDSC 4533	Advanced Methods in Science Teaching (Capstone, Core V)
-----------	---

Total Credit Hours 41-51

¹The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language.

The 41 hours above, along with CHEM 1315, CHEM 1415, CHEM 1425, PHYS 2414 and PSY 2003 (14 hours) in the Specialized Education requirements, comprise the 55 hours required for Liberal Arts & Sciences.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching

Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by September 15 for fall graduation, February 15 for spring graduation, and June 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Science Education: Physical Science, Bachelor of Science in Education

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I-3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. successful completion of the OGET (Oklahoma General Education Test) or PPST (Pre Professional Skills Test) The OGET Exam requires a minimum score of 240. All three portions of the PPST must be passed with minimum cut scores of MATH 171, WRITING 172, and READING 173.

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in

specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.

4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6- year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Education and the Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators, apply for a license, and successfully complete the residency program.

HSCI 3453	Science and Civilization in Islam	
HSCI 3483	Technology, Politics, and International Development	
Senior Capstone		
The following Senior Capstone is satisfied under Professional Education requirements (Capstone, Core V):		
EDSC 4533	Advanced Methods in Science Teaching (Capstone, Core V)	
Total Credit Hours		41-51

¹The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language.

The 41 hours above, along with PHYS 2414, ASTR 1504 or ASTR 1514, GEOL 1003 and PSY 2003 (14 hours) in the Specialized Education requirements, comprise the 55 hours required for Liberal Arts & Sciences.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by September 15 for fall graduation, February 15 for spring graduation, and June 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. successful completion of the OGET (Oklahoma General Education Test) or PPST (Pre Professional Skills Test) The OGET Exam requires a minimum score of 240. All three portions of the PPST must be passed with minimum cut scores of MATH 171, WRITING 172, and READING 173.

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to

dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.

6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6- year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of **2.75** grade point average with no grade less than a **C** in the Professional Education and the Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators, apply for a license, and successfully complete the residency program.

or ECON 1123	Principles of Economics-Micro	
GEOG 1103	Human Geography (Core IV)	3
Choose a World Civilization Elective (must be advisor approved)		3
Foreign Language (0-10 hours)		
<i>University-Wide General Education Requirement</i>		
Choose two college-level courses in a single foreign language; may be satisfied by successful completion of 2 years in a single foreign language in high school (Core I)		0-10
<i>Oklahoma State Regents for Higher Education Requirement</i>		
Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English ³		
Non-Western Culture (3 hours)		
Choose one course from the University-Wide General Education Approved Course List (3000-level or above, and advisor approved (Core IV)		3
Senior Capstone		
The following is satisfied under Professional Education requirements (Capstone, Core V):		
EDSS 4563	Teaching Secondary School Social Studies	4
Total Credit Hours		45-55

¹One course must include a laboratory component.

²If the Western Civ. course requirement is satisfied under Specialized Ed, then two Artistic Forms courses from different prefixes can fulfill the requirement.

³The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language.

⁴This course requires field experience.

The 45 hours above, along with HIST 1623, GEOG 1114, GEOG 2603 (10 hours) in the Professional and Specialized Education requirements, comprise the 55 hours required for General Education.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching

Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by September 15 for fall graduation, February 15 for spring graduation, and June 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. successful completion of the OGET (Oklahoma General Education Test) or PPST (Pre Professional Skills Test) The OGET Exam requires a minimum score of 240. All three portions of the PPST must be passed with minimum cut scores of MATH 171, WRITING 172, and READING 173.

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will

have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.

8. Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6- year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Education and Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators, apply for a license, and successfully complete the residency program.

Total Credit Hours		51

The 51 General Education hours, along with GERM 1115 (4 hours) in the Specialized Education requirements, comprise the 55 hours required for Liberal Arts & Sciences.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by September 15 for fall graduation, February 15 for spring graduation, and June 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

World Language Education: Latin, Bachelor of Science in Education

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. successful completion of the OGET (Oklahoma General Education Test) or PPST (Pre Professional Skills Test) The OGET Exam requires a minimum score of 240. All three portions of the PPST must be passed with minimum cut scores of MATH 171, WRITING 172, and READING 173.

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

- When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
- Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
- Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
- Students must earn a C or better in COMM 1113 or COMM 2613.
- Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
- Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
- Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
- Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
- A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6-year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
- Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Requirements and the Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators, apply for a license, and successfully complete the residency program.

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. successful completion of the OGET (Oklahoma General Education Test) or PPST (Pre Professional Skills Test) The OGET Exam requires a minimum score of 240. All three portions of the PPST must be passed with minimum cut scores of MATH 171, WRITING 172, and READING 173.

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to

dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.

6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6- year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of **2.75** grade point average with no grade less than a **C** in the Profession Education and the Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators, apply for a license, and successfully complete the residency program.

Literature & Culture

SPAN 4083	Literature and Culture of Spain	3
SPAN 4113	Literature and Culture of Latin America	3

Electives

Choose 8 hours from the following, or an advisor-approved elective: 8

SPAN 4143	Transatlantic Literature and Culture	
SPAN 4173	Regional Literature and Cultures	
SPAN 4503	Hispanic Cinema Studies	
SPAN 4713	History of the Spanish Language	
SPAN 4773	Topics in Spanish Linguistics	
SPAN 4913	The Structure of the Spanish Language	
SPAN 4923	Teaching of Spanish in the United States	

If additional hours are needed to meet the 124 hour undergraduate minimum for graduation, they may be taken from MLLL, Classics, Language area, Linguistics, or Education courses

Total Credit Hours 73

¹These courses require field experience.

²These courses are taken together in the final semester.

³SPAN 1115 along with the 51 hours listed in General Education comprise the 55 hours required for Liberal Arts & Sciences.

General Education Requirements

These General Education courses meet minimum University, College and State General Education Requirements.

Code	Title	Credit Hours
Communication Skills (9 hours)		
ENGL 1113	Principles of English Composition (Core I)	3
ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 Expository Writing	3
COMM 1113	Principles of Communication (Core I) or COMM 2613 Public Speaking	3
Mathematics (3 hours)		
Choose one MATH course (Core I)		3
U.S. History & Government (6 hours)		
HIST 1483	United States, 1492 to 1865 (Core IV) or HIST 1493 United States, 1865 to the Present	3
P SC 1113	American Federal Government (Core III)	3
Science (8-9 hours, must include a laboratory course) ¹		
Choose one course in the biological sciences: BIOL, HES, MBIO, or P BIO		3-5

Choose one course in the physical sciences: (Core II) AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS	3-5
Behavioral Science (3 hours)	
Choose one ANTH, PSY, OR SOC course (Core III)	3
Arts & Humanities (6 hours)	
Choose one course from Core IV-Artistic Forms	3
Choose one of the following:	3
HIST 2613 Colonial Hispanic American History, 1492-1810	
HIST 2623 Modern Latin America 1810-Present	
An advisor-approved Core IV-WC	
Contemporary World Culture (10 hours)	
Choose two courses which provide an elementary knowledge of another classical, modern, Native, or American Sign Language	10
Foreign Language	
Major Requirement	0
Non-Western Culture (3 hours)	
Choose one course from the University-Wide General Education Approved Course List (3000- level or above) and advisor approved (Core IV)	3
Senior Capstone (3 hours)	
SPAN 4183 Senior Capstone (Capstone, Core V)	3
Total Credit Hours	51

The 51 hours above, along with SPAN 1115 (4 hours) from the Specialized Education requirements, comprise the 55 hours required for Liberal Arts & Sciences.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching

Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by September 15 for fall graduation, February 15 for spring graduation, and June 1 for summer graduation. **The student's degree will not be conferred, nor**

any completion statement entered on their transcript, until the required application is filed.

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Concentration Electives

Choose 15 to 20 hours from the following or as approved by Graduate Liaison and Advisor: 15-20

EDSE 5653 Problems of Teaching in Secondary Schools

EDSP 5413 Theories in the Education of Exceptional Children

EIPT 5183 Motivation and Learning in the Classroom

EIPT 5513 Teaching with Technology

ILAC 5940 Field Studies in ILAC (Historical Development of Science, Math & Epistemology)

A maximum of one of the following:

EDUC 5920 Internship in Education--Master's (Teaching Experience in Math)

EDUC 5920 Internship in Education--Master's (Teaching Experience in Science)

ENGR 4510 Selected Topics (G) (Teaching Experience in College or University)

Total Credit Hours 36

¹Chosen from from a list approved by the Graduate Liaison and Advisor, based on requirements of the specific area and student's professional interests and goals.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Communication, Culture and Pedagogy for ESL/ELL Populations in Educational Settings, Graduate Certificate

The graduate certificate in Communication, Culture, and Pedagogy for (ESL/ELL) Populations in Educational Settings provides educators and administrators with the tools to better educate the growing non-native, English speaking populations in their schools.

Certificate Requirements

Code	Title	Credit Hours
EDUC 5106	Culture and Communication Techniques for ESL/ELL	6
EDUC 5114	Immersion in Language, Culture and Pedagogy	4
EDUC 5126	Application and Pedagogy	6
Total Credit Hours		16

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Literacy Specialist, Graduate Certificate

The courses included in the certificate are all required courses in the master's degree that leads to a recommendation for state certification

as a Reading Specialist and have assignments that are used to assess mastery of the standards.

Faculty in ILAC are engaged in a variety of significant writing, research, and service projects, and often invite the participation of graduate students in these projects.

Certificate Requirements

Code	Title	Credit Hours
EDRG 5573	Culture, Language and Literacy	3
EDRG 5723	Emergent and Beginning Literacy	3
EDRG 5813		3
EDRG 5933		3
EDRG 5903	Literacy Leadership	3
EDRG 5733	Adolescent Literacy	3
Total Credit Hours		18

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

ILAC Doctoral Programs

Requirements for the Doctoral Degree

Doctoral programs in Instructional Leadership & Academic Curriculum prepare students for faculty positions in colleges and universities; positions in curriculum, instruction, and assessment in schools; and for jobs in research and curriculum design in public or private institutions. The program requires the completion of a professional core, a minimum of 12 hours of research, and concentrated study in an area of specialization.

Admission to doctoral study requires a minimum 3.25 grade point average on previous graduate work. To apply, students should provide the following:

- a brief overview of experience,
- a statement describing interest in a particular concentration and career objectives,
- a sample of writing (perhaps a piece of published writing, an old research paper, or an abstract of the thesis),
- recent GRE scores (five years old or less), and
- three letters of reference.

For international students, a 79/550 TOEFL or 6.5 IELTS are the minimum acceptable scores for admission.

No minimum requirement for Graduate Record Examination general test scores (verbal, quantitative and analytic) has been established. Program faculty consider all parts of an application when making an admissions decision. A student may be accepted into a doctoral program only after the application is complete and the student has been accepted by the program area.

GALLOGLY COLLEGE OF ENGINEERING

107 Carson Engineering Center
202 W. Boyd
Norman, OK 73019-1021
Phone: (405) 325-2621

Administrative Officers

John Antonio, Ph.D., Interim Dean of the College of Engineering
Randa Shehab, Ph.D., Associate Dean for Academic Affairs
Theresa M. Marks, Assistant Dean for Academic Student Services

General Information

Instruction in professional engineering was first given at the University of Oklahoma in 1899 when a course in surveying was offered. The following year, 1900–01, the first two years of engineering were presented. In 1902–03 a curriculum in civil engineering was established, and a School of Mines was organized. At the same time, courses in electrical and mechanical engineering were listed. In 1904 the courses in engineering were organized as a School of Applied Science. In 1909 the School of Mines and the School of Applied Science were joined and reorganized as the College of Engineering. The first professional degrees were conferred in 1909.

The college has grown substantially since that time. It now offers degrees in 11 undergraduate engineering fields, as well as computer science and environmental science. The student body includes approximately 3,600 undergraduate students and 600 graduate students. Its facilities fill eight major buildings with research facilities in portions of six other buildings.

In recent years, the college has been a major contributor to the philosophy of modern engineering education. It was one of the first to develop and adopt the “core” type engineering curricula now prevalent throughout the country. It was also one of the first to use the new approach to engineering laboratory work, wherein the student’s creativity is developed through the planning and carrying out of the experiment as an exercise in engineering analysis and design. Thus, the curricula in engineering are constantly being updated and modified to meet the needs of industry and future graduate work, increase the versatility of the student, and prolong the usefulness of the material taught.

The college is organized into schools and departments with the responsibility for administering the undergraduate and graduate programs of study, or curricula, as listed in the later pages of this catalog. The professional subjects in these curricula are supported by courses

from other colleges of the University. Upon satisfactory completion of one of the curricula, a student will be recommended for a degree, in most cases qualified by the name of the engineering field pursued.

Faculty

The University of Oklahoma celebrated its centennial of engineering education in the 2009-10 academic year. As the Gallogly College of Engineering completes its first hundred years and looks forward to the next, the faculty is dedicated to excellence in carrying out the University mission of teaching, research and service. The faculty are drawn from many of the nation’s leading universities, including University of California, Georgia Tech, MIT, Rice, and Yale, to name a few. Over one in four faculty members in the college hold an endowed chair or professorship, and one in five hold Presidential Professorships. Four hold University of Oklahoma David Ross Boyd Professorships and eight hold George Lynn Cross Research Professorships. Many of them are recognized as Fellows of national professional societies. In addition, several of the faculty members advise student organizations, including design teams that compete at the championship level in national and international competitions.

Computing

The OU Network consists of a high-speed backbone with connections to faculty, staff, laboratory, and classroom computers. Wireless technology extends the network to cover the engineering buildings, outside areas, laboratories, and classrooms. For more detailed information, visit the OU Information Technology Support page.

Accreditation of Programs

The following programs are accredited by the Engineering Accreditation Commission (EAC) of ABET: Aerospace Engineering, Architectural Engineering, Chemical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Engineering Physics, Environmental Engineering, Industrial & Systems Engineering, and Mechanical Engineering. The Computer Science program is accredited by the Computing Accreditation Commission (CAC) of ABET.

Programs Offered

- College of Engineering Administrated Programs (p. 736)
 - Engineering Leadership, Undergraduate Certificate (p. 736)
 - Course Lists (p. 736)
- School of Aerospace and Mechanical Engineering (p. 738)
 - Aerospace Engineering, Bachelor of Science in Aerospace Engineering (p. 743)
 - Mechanical Engineering (Standard), Bachelor of Science in Mechanical Engineering (p. 744)
 - Mechanical Engineering (Premedical Option), Bachelor of Science in Mechanical Engineering (p. 745)
 - Aerospace Engineering, Bachelor of Science in Aerospace Engineering/Master of Science (p. 746)
 - Mechanical Engineering (Standard), Bachelor of Science in Mechanical Engineering/Master of Science (p. 747)
 - Aerospace Engineering, Master of Science (p. 749)
 - Mechanical Engineering, Master of Science (p. 749)
 - Aerospace and Mechanical Engineering Doctoral Programs (p. 750)
- Stephenson School of Biomedical Engineering (p. 751)
 - Biomedical Engineering, Bachelor of Science in Biomedical Engineering (p. 753)

- Biomedical Engineering, Bachelor of Science in Biomedical Engineering/Master of Science (p. 755)
- Biomedical Engineering, Master of Science (p. 756)
- Biomedical Engineering Doctoral Programs (p. 757)
- School of Chemical, Biological and Materials Engineering (p. 757)
 - Chemical Engineering (Standard), Bachelor of Science in Chemical Engineering (p. 761)
 - Chemical Engineering (Biotechnology Option), Bachelor of Science in Chemical Engineering (p. 762)
 - Chemical Engineering (Pre-Medical/Biomedical Engineering), Bachelor of Science in Chemical Engineering (p. 763)
 - Chemical Engineering (Standard), Bachelor of Science in Chemical Engineering/Master of Science (p. 764)
 - Chemical Engineering (Biotechnology), Bachelor of Science in Chemical Engineering/Biomedical Engineering, Master of Science (p. 766)
 - Chemical Engineering (Pre-Medical/Biomedical Engineering), Bachelor of Science in Chemical Engineering/Biomedical Engineering, Master of Science (p. 767)
 - Chemical Engineering, Master of Science (p. 769)
 - Chemical, Biological, and Materials Engineering Doctoral Programs (p. 769)
- School of Civil Engineering and Environmental Science (p. 769)
 - Architectural Engineering, Bachelor of Science in Architectural Engineering (p. 773)
 - Civil Engineering, Bachelor of Science in Civil Engineering (p. 774)
 - Environmental Engineering, Bachelor of Science in Environmental Engineering (p. 775)
 - Environmental Science, Bachelor of Science in Environmental Science (p. 776)
 - Environmental Science, Minor (p. 777)
 - Water and Sanitation for Health and Sustainable Development, Minor (p. 778)
 - Architectural Engineering, Bachelor of Science in Architectural Engineering/Civil Engineering, Master of Science (p. 778)
 - Civil Engineering, Bachelor of Science in Civil Engineering/Master of Science (p. 780)
 - Environmental Engineering, Bachelor of Science in Environmental Engineering/Master of Science (p. 781)
 - Environmental Science, Bachelor of Science in Environmental Science/ Master of Environmental Science (p. 783)
 - Civil Engineering, Master of Science (p. 784)
 - Environmental Engineering, Master of Science in Environmental Engineering (p. 784)
 - Environmental Science, Master of Environmental Science (p. 785)
 - Environmental Science: Hydrology and Water Security Online, Master of Environmental Science (p. 786)
 - Departmental course lists (p. 786)
 - Civil Engineering and Environmental Science Doctoral Programs (p. 786)
- School of Computer Science (p. 786)
 - Computer Science, Bachelor of Science in Computer Science (p. 789)
 - Computer Science, Minor (p. 790)
 - Computational Technology, Minor (p. 790)
 - Computer Science, Bachelor of Science in Computer Science/ Master of Science (p. 791)
 - Computer Science, Master of Science (p. 792)
 - Computer Science Doctoral Programs (p. 793)
 - Program in Data Science and Analytics (p. 793)
 - Data Science and Analytics, Master of Science (p. 795)
 - Data Science and Analytics, Graduate Certificate (p. 795)
 - School of Electrical and Computer Engineering (p. 796)
 - Computer Engineering, Bachelor of Science in Computer Engineering (p. 799)
 - Electrical Engineering, Bachelor of Science in Electrical Engineering (p. 800)
 - Electrical and Computer Engineering, Minor (p. 801)
 - Computer Engineering, Bachelor of Science in Computer Engineering/Computer Science, Master of Science (p. 801)
 - Computer Engineering, Bachelor of Science in Computer Engineering/Electrical and Computer Engineering, Master of Science (p. 803)
 - Electrical Engineering, Bachelor of Science in Electrical Engineering/Electrical and Computer Engineering, Master of Science (p. 804)
 - Electrical and Computer Engineering, Master of Science (p. 805)
 - Electrical and Computer Engineering Doctoral Programs (p. 806)
 - Department of Engineering (p. 806)
 - Engineering, Master of Science (p. 807)
 - Engineering Doctoral Programs (p. 807)
 - Program in Engineering Physics (p. 808)
 - Engineering Physics, Bachelor of Science in Engineering Physics (p. 810)
 - Engineering Physics, Master of Science (p. 811)
 - Engineering Physics Doctoral Programs (p. 811)
 - School of Industrial and Systems Engineering (p. 811)
 - Industrial and Systems Engineering, Bachelor of Science in Industrial and Systems Engineering (p. 814)
 - Industrial and Systems Engineering: Analytics, Bachelor of Science in Industrial and Systems Engineering (p. 815)
 - Industrial and Systems Engineering: Pre-Medicine, Bachelor of Science in Industrial and Systems Engineering (p. 816)
 - Industrial and Systems Engineering, Bachelor of Science in Industrial and Systems Engineering/Master of Science, Data Science and Analytics (p. 817)
 - Industrial and Systems Engineering: Analytics, Bachelor of Science in Industrial and Systems Engineering/Master of Science, Data Science and Analytics (p. 818)
 - Industrial and Systems Engineering, Bachelor of Science in Industrial and Systems Engineering/Master of Science (p. 819)
 - Industrial and Systems Engineering: Analytics, Bachelor of Science in Industrial and Systems Engineering/Master of Science (p. 821)
 - Industrial and Systems Engineering, Bachelor of Science in Industrial and Systems Engineering/Master of Business Administration (p. 822)
 - Industrial and Systems Engineering, Master of Science (p. 823)
 - Industrial and Systems Engineering Doctoral Programs (p. 824)

- Program in Telecommunications (p. 824)
 - Telecommunications Engineering: Non-thesis, Master of Science (p. 825)
 - Telecommunications Engineering: Thesis, Master of Science (p. 825)

Programs & Facilities

The main Gallogly College of Engineering complex is located on the northeast corner of the University's Norman campus. The Carson Engineering Center includes classrooms and laboratories for civil, architectural, environmental engineering and environmental science, as well as industrial and systems engineering. Felgar Hall houses laboratories and facilities for aerospace and mechanical engineering and the Williams Student Services Center (WSSC). Sarkeys Energy Center houses chemical engineering. Devon Energy Hall has classrooms, team and forum rooms, and laboratories for computer science, computer engineering, and electrical engineering. Gallogly Hall houses the thirty-nine year award winning Diversity and Inclusion program as well as the Stephenson School of Biomedical Engineering. The college also offers two programs that include engineering physics and data science and analytics. The Exxon-Mobil Lawrence G. Rawl Engineering Practice Facility is the home for engineering outreach, and houses over twenty-eight competition teams. Also included in the REPF is the Holmes Leadership Program for Engineers and Scientists, Women in Engineering program, Sooner Engineering Education Center, as well as more than fifty student organizations and clubs. Every year, thousands of K-12 students visit the REPF to observe engineering students design, build and test their projects. The University's south and north campuses house additional offices and labs in support of the college's research enterprise and makes OU Engineering one of the finest engineering education complexes in the Southwest.

The other laboratories of the college are well-equipped to demonstrate the principles of courses offered and are described in other sections of this catalog. Through these laboratories and the actual use of apparatus, instruments, and equipment, a student is able to make practical applications of the theories and principles which the student has learned in the classroom. Students of the college are active in fieldwork. In addition, laboratories and other facilities of the college are used by students and faculty members in the classroom and for research and experiments which add value to the global economy.

Undergraduate Study

Undergraduate Advising at Williams Student Services Center

Whether you are a prospective, first-time, continuing or graduating student, the Williams Student Services Center serves as the "hub" for providing academic and curricular guidance. See our advising team for basic information about academic programs and advising, scholarships, student groups, organizations, diversity and inclusion, tutoring, mentoring, and graduation. Advisors are available to answer questions and provide guidance regarding courses, academic performance, scholastic requirements and transfer equivalencies.

The Gallogly College of Engineering provides students the support of a faculty and college academic advisor related to their discipline. Students risk delaying their graduation if they do not make a timely selection of a major. Students are advised each semester prior to enrollment.

All incoming engineering freshmen are advised during the University's Summer Enrollment and Orientation Program coordinated by University

College and the OU Scholars Program. Freshmen will continue to be advised by a UC academic advisor until the student has completed 24 credits hours in residence at OU and has maintained at least a minimum 2.0 GPA.

International & Global Opportunities (IGO)

Educational and co-curricular experiences are offered through the International & Global Opportunities (IGO) program. This program includes engineering specific coursework, opportunities for practice related service learning, internships and research. IGO programs are open to current OU students in collaboration with the University's Education Abroad Office and affiliate partner universities.

Engineering Laptop Policy

Visit the Gallogly College of Engineering's webpage to learn more about the college's laptop policy.

Admission to the Gallogly College of Engineering

The OU Gallogly College of Engineering uses the same admissions policies for accepting new students into its programs as that of the institution, with the exception of Aerospace Engineering and Mechanical Engineering applicants.

Freshman Admission

For more information regarding freshman admission, visit the OU Admissions webpage.

Transfer Admissions

For more information regarding transfer engineering admission, visit the OU Admissions webpage.

Resident transfer: 2.5 combined GPA for students with less than 60 hours -or- 2.0 for students with 60 or more hours earned.

Non-resident transfer: The admission of non-resident transfer students is more restrictive for GCoE programs, and is administered on the college's behalf by the Office of Admissions and is as follows: 3.0 combined retention GPA regardless of the number of hours earned.

The Office of Admissions conducts all initial assessment of transfer coursework. Transfer students who wish to apply un-equated transfer courses towards degree completion are urged to meet with one of the college's academic advisors.

Major specific transfer coursework will be reviewed by the faculty in the specific discipline for evaluation. For more information, visit the University's Transfer Equivalency Database.

AME Course Admissions:

For AME transfer students matriculating into the Oklahoma State System Fall 2015 or later: 3.0 combined GPA in 24 or more credit hours, C minimum in the following courses with 3.0 combined GPA:

Code	Title	Credit Hours
MATH 1914	Differential and Integral Calculus I	4
MATH 2924	Differential and Integral Calculus II	4

PHYS 2514	General Physics for Engineering and Science Majors	4
CHEM 1315	General Chemistry	5

Scholastic Requirements & Equivalencies

Academic Standards

Students in the Gallogly College of Engineering must meet the following academic standards:

- A minimum grade of C in each course required in the curriculum.
- Both an OU retention and a combined retention grade point average of 2.00 or higher.¹
- A 2.00 minimum combined retention average for all attempted courses presented to satisfy curriculum requirements. *Curriculum requirements include every course on the selected degree requirement sheet.*¹
- A 2.00 minimum OU retention average for all courses attempted at the University of Oklahoma used to satisfy curriculum requirements.¹
- A 2.00 minimum OU and combined retention average in all courses taken in the major field. Major field is defined by the degree field selected. The major field is defined by the degree program selected.¹
- No more than two unsuccessful attempts (D or less) in a course required in the curriculum.

¹Note: Specific accelerated degree programs within the Gallogly College of Engineering may require a higher minimum grade point average. Please contact Williams Student Services Center (WSSC) 112 Felgar Hall for specific requirements.

For purposes of graduation and retention, these grade point averages may be affected by academic forgiveness policies. Students should consult the "Admissions, Enrollment and Student Financial Services" section of this catalog for more information.

Students who do not meet these standards will be notified by the Director of Advising and guided to meet with their assigned college advisor for support.

The University of Oklahoma utilizes a 4.0 or A=4, B=3, C=2, D=1, F=0 system. The Gallogly College of Engineering requires:

- a minimum grade of C in any course applied toward degree completion
- P/NP coursework does not count toward degree completion
- S grades are accepted toward degree completion as obtained by Advanced Placement (AP), Departmental, higher level IBC, and CLEP exams

Time Limitations on Coursework

A student may elect to graduate under the requirements for an undergraduate degree plan in effect at the time of their first enrollment in the state system, *provided that they complete the work for a degree within a maximum of six years*, which is reflected in the degree check. If the work for a degree covers a period longer than that specified by the college, the college will determine the degree plan to be in effect for that student's graduation.

A student whose initial enrollment in the state system is during the summer session will be subject to the University of Oklahoma catalog in effect for the year following that summer.

Credit in the student's major field or area of concentration that is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the major department, or by the departments in the student's area of concentration. (The term "area of concentration" is included in addition to "major field" to allow for those cases in which the equivalent of a major may be earned by a combination of work in several departments.)

Honor Roll

To be eligible for the Dean's Honor Roll, a full-time undergraduate student must earn at least 12 or more hours and attain a grade point average of 3.00 or higher during a regular fall or spring semester. Part-time students may qualify for the honor roll by earning at least six but less than 12 hours and attaining a grade point average of 3.00 or higher, provided they have no W's for that semester. There is no college honor roll during the summer session or during intersessions, and hours and grades earned during these sessions are not included in any way in determining eligibility for inclusion on regular semester honor rolls.

State-Mandated Articulation Agreements that Impact Engineering Programs

To facilitate the transfer of students within Oklahoma's state system of higher education, the state Board of Regents created the Oklahoma State Regents for Higher Education Course Equivalency Matrix. The Regents established a policy that Freshman- and Sophomore-level general education requirements are deemed satisfied for students who complete a two-year Associates of Arts or Associates of Science degree from an Oklahoma public college, and who transfer to a four-year university.

For these reasons, general education coursework readily transfers from Oklahoma colleges into OU. Additionally, if the student has completed the Associates of Arts or Associates of Science, and they earned a D in one of the general education courses used to complete that degree, the GCoE will accept the course toward degree completion unless it is a direct pre-requisite for an engineering course.

NONCOLLEGIATE LEARNING EXPERIENCES

For more information, visit the Academic Records and Transcripts webpage.

Enrollment & Major Declaration

Enrollment Limitations

School of Aerospace and Mechanical Engineering

Admission to the AME course program is **required prior** to enrolling in any AME courses for the engineering major.

Enrollment into AME Courses

Students entering college in the Oklahoma State System of Higher Education prior to summer 2015 are required to earn a 2.80 overall GPA and complete the requisite courses listed in the first and second year on the degree sheet in order to advance into upper-division AME coursework.

Students entering college in the Oklahoma State System of Higher Education summer 2015 or after are required to accrue at least 24 credits with an overall retention GPA of 3.0 -and- successfully complete the following with a 3.0 overall retention GPA in these specific courses, with no grade less than C:

Code	Title	Credit Hours
MATH 1914 or MATH 1823	Differential and Integral Calculus I Calculus and Analytic Geometry I	4
MATH 2924 or MATH 2423	Differential and Integral Calculus II Calculus and Analytic Geometry II	4
PHYS 2514	General Physics for Engineering and Science Majors	4
CHEM 1315	General Chemistry	5

Pass/No Pass Course Enrollments

Pass/No Pass Course Enrollments may not be used to satisfy Gallogly College of Engineering course requirements. Engineering students may not proceed in their major courses until they have achieved a minimum grade of C in all prerequisites. All required courses listed on the official University of Oklahoma degree checksheet (p. 729) for any engineering major must be completed with a grade of C or better.

Minimum Grade Requirement/Course Repeats

Students may take a course in their curriculum only three times (this includes I, AU, W, AW, D, F). If the course is taken unsuccessfully three times and is a course required in all curricula in the College of Engineering, the student will receive an Enrollment Stop from the Gallogly College of Engineering (Note: The first W, I AU, or AW is not counted in the "three attempts" rule). If the course is taken unsuccessfully three times and is required only in the major, the possibility of a student continuing in the Gallogly College of Engineering in a different major will be determined on an individual basis. When courses are repeated, the grade of the last attempt is the grade of record.

Enrollment in Upper-division Courses

Enrollment in upper-division Gallogly College of Engineering courses, except any courses specifically exempted in the General Catalog or Class Schedule, is restricted to students who are admitted to the Gallogly College of Engineering and in some cases to those admitted to a specific degree program, have completed the necessary grade and course prerequisites, and are advised into the classes by their engineering faculty or staff advisor. Qualified students from outside the Gallogly College of Engineering are welcome in advanced courses if they have completed the necessary grade and course prerequisites, and are encouraged to explore specific interests with the schools and instructors involved. Approval must be obtained from the professor teaching the course and the Director of Advising in the Williams Student Services Center (WSSC), 112 Felgar Hall.

Conduct of Engineering Courses

A student is responsible for the prerequisite and the content of any course in which they are officially enrolled. The establishment of specific policy concerning class attendance requirements, as well as announced and unannounced examinations, is the responsibility of the individual instructor. When absences seriously affect a student's classwork, the instructor may report this fact to the Office of Academic Records and the information will be directed to the student's college dean.

The Gallogly College of Engineering requires final examinations to be given during the regularly scheduled examination periods in all undergraduate courses excluding directed readings, pure laboratory courses and project type design courses and seminars. No faculty member is authorized to depart from this regulation or from the published examination schedule for a class or an individual without prior approval. Special early examinations given to individual students or groups of

students as substitutes for final examinations are prohibited. A student will not be expected to take more than two examinations in one day.

Academic Appeals

The Gallogly College of Engineering has established an Academic Appeals Panel to hear grade appeals and academic misconduct cases. To obtain the procedures to be followed, a student should contact the Dean's office in 107 Carson Engineering Center, and refer to Title 14 of the Student Code.

Credit Hour Load

Limits on the number of credit hours a student may enroll in each semester without special permission can be obtained from the OU Enrollment Services Office, Buchanan Hall room 230.

Change of Major Requests

Students interested in pursuing a change of major within engineering, or who are pursuing a major in another college on campus but wish to switch to an engineering program must meet with an academic advisor in WSSC to change majors. The advisor will assess the student's GPA and completed courses. If the student lacks necessary preparation to begin coursework in the major, the student might be advised to remain in their current major until they are adequately prepared for the course curriculum. Approved changes of major requests are only processed within the first 10 weeks of the semester, or after final grades are posted. In accordance with State Regents' requirements, students are assigned to the degree program (p. 36) year that was current at the time they entered the Oklahoma State System of Higher Education.

Graduation Requirements

The student must satisfy the following requirements:

- **Curricular Courses:** complete all prescribed curricular courses or equivalent courses as approved by the faculty with a minimum grade of C in each course.
 - Students graduating from a program accredited by the Engineering Accreditation Commission of ABET must complete 37.5% or 48 hours of engineering and 25% or 32 hours of combined mathematics (at the calculus level or above), physics, chemistry, or other science coursework.
 - Students graduating from a program accredited by the Computing Accreditation Commission of ABET must complete a minimum of 40 hours in computing, 15 hours of mathematics and 30 hours of combined mathematics and science coursework with some exposure to laboratory work.
- **Two-year College Transfer Credits:** a minimum of 60 semester hours must be earned in a senior college or four-year school for a baccalaureate degree.
- **Degree Requirements:** fulfill all requirements listed on the official degree checksheet (p. 729). Gallogly College of Engineering academic advisors in the Williams Student Services Center (WSSC) clear undergraduate degrees and encourage consultation remaining degree requirements. However, responsibility for meeting graduation requirements lies with the student.
 - Be in good academic standing with the college and the University.
 - Make application for the degree by the deadline date for the semester in which the student plans to graduate.
 - To ensure that the above conditions will be met, students are encouraged to request a degree check by completing the Graduation Check form in the Williams Student Services Center (WSSC). This action should be taken at least two semesters

before the student expects to graduate. The student can access their degree audit at any time online through Degree Navigator.

- **Residence Requirements** – to be recommended for a degree, a candidate must have:
 - spent two semesters or the equivalent in residence, with at least one semester enrolled as a College of Engineering student;
 - completed at OU 36 of the hours listed in the junior and senior years on their curriculum checksheet, 24 of these 36 hours must be in the major field;
 - fulfilled the grade and grade point requirements of the college and school

NOTE: Academic credit from any division of the University of Oklahoma – Norman campus, OU Health Sciences Center, OU-Tulsa, or Continuing Education – is considered resident credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU retention and cumulative grade point averages for purposes of determining completion of degree requirements.
- Three categories of degrees are offered in the Gallogly College of Engineering as follows:
 - **Bachelor of Science:** the Gallogly College of Engineering is organized into departments and schools. The degree of Bachelor of Science is qualified by the name of the engineering field pursued and is conferred upon graduates of the college.
 - **Distinction:** the college may recommend that the degree *With Distinction* be conferred on students who have a combined cumulative grade point average of 3.40 and *With Special Distinction* on students who have a combined cumulative grade point average of 3.70.
 - **Honors:** the Honors College may recommend the degree *cum Laude*, *Magna cum Laude* or *Summa cum Laude*. Special requirements, in addition to the regular requirements for graduation, are approved by the Honors College.

Degrees are formally conferred at spring commencement and convocation, and fall convocation exercises. However, degrees are also awarded in absentia at the end of summer session. All diplomas are mailed to students following the official graduation date. The degree and date of the diploma are entered on the student's permanent academic record. The date of graduation is the last day of the semester or summer session in which all requirements for the degree are completed. When a student completes all requirements for a degree, other than at the close of a semester or summer session, the Office of Academic Records, upon request, will issue a certified statement that the student is eligible for the degree as of the date when the requirements for the degree were completed.

Graduate Study

Refer to the Graduate tabs within each of the Gallogly College of Engineering academic units' pages of this catalog for information concerning graduate work.

Opportunities

GALLOGLY STUDENT AFFAIRS TEAM (GSAT)

Engineering Student Life

Engineering Student Life promotes students' professional and leadership development by supporting a variety of co-curricular opportunities. These opportunities include technical and professional societies, affinity groups,

service organizations, social organizations, competitive student teams and more.

Diversity and Inclusion

The Diversity and Inclusion Program is open to all students in the Gallogly College of Engineering and the Mewbourne College of Earth and Energy. The D&I program facilitates the outreach, recruitment, retention and overall success of underrepresented minorities and populations.

Diversity, by its very nature, is conducive to providing a wide range of solutions and ideas that serve broader populations of society. Thus, it is equally important that we build a diverse student population with students from different backgrounds, experiences, knowledge and understanding. It is critical that our engineering students are well prepared to solve complex problems and develop new solutions working collaboratively in diverse teams. The D&I program provides academic and financial support, and professional development through a first-year engineering course, tutoring, mentoring, AT&T Summer Bridge, employment assistance, alumni support and more. The D&I program supports our diverse engineering and science students such that they are well prepared for successful professional careers.

Women in Engineering

The GCoE proudly supports the advancement and achievement of women in engineering and sciences. Our goal is to increase the participation of women within the engineering and sciences profession through outreach and programs that ensure the success of our students academically, socially and professionally. The Gallogly College of Engineering reports just over 25% undergraduate women enrollment. The college serves to recruit, retain and mentor women in engineering, as well as to foster viable connections with industry.

Jerry Holmes Leadership Program for Engineers and Scientists

The Jerry Holmes Leadership Program for Engineers and Scientists (JHLP) provides leadership education for students in the Gallogly College of Engineering and the Mewbourne College of Earth and Energy. Through JHLP's pillar-based approach, students enhance their capabilities across five domains: personal development, interpersonal relationship, management and teamwork, leadership, and intercultural competence. JHLP provides a variety of leadership development opportunities including Distinguished Speaker days, workshops, courses, and a biennial Leadership Symposium. Students have the option to further develop their leadership capabilities as Holmes Leadership Associates (HLAs). HLAs work with professional mentors to design a personal leadership development plan. They attend monthly topical meetings and other events where they hone their leadership skills, and they create real impact as leaders within the university and surrounding communities.

Engineering Student Competition Teams

The Gallogly College of Engineering supports a multitude of student organizations with the focus of competing in specific regional, national, and international engineering competitions. These teams give students a unique opportunity to work on interdisciplinary projects and apply their academic knowledge while learning hands-on skills that will help them in their future careers. Teams also work with faculty and staff on further developing their foundation of engineering and project management skills.

Competition team projects include building and designing planes, rockets, formula-one cars, off-road vehicles, steel bridges, concrete canoes, chemically-powered autonomous cars, and creating and programming robots.

International and Global Opportunities

The college's IGO program facilitates study abroad, service learning, and international research opportunities for our engineering students. Through the college's campus-wide collaborations, our students are able to take required curricular and engineering courses while engaging in transformational experiences abroad. The IGO staff guide students through the application process, as well as managing program costs by providing individualized budgets and information about multiple funding opportunities. Students are prepared for their international experience prior to departure through a series of information sessions. Currently the college has programs in Arezzo, Italy; Clermont-Ferrand, France; and Puebla, Mexico. Students may also participate in a variety of other study abroad programs offered by the University. IGO also assist students who wish to engage in research abroad. Some of our most recent engineering research internships have been in Portugal, Spain, Canada, Ireland, India, and Australia.

Deans Leadership Council

The Dean's Leadership Council fosters connections to the community within the Gallogly College of Engineering through student-to-student interaction. These interactions are based on service, dedication, respect, encouragement and professionalism. The Council members are current engineering students with excellent academic credentials, and a desire to provide strong mentorship and leadership. DLC members serve as mentors to freshman and transfer engineering students, and student recruiters for prospective students interested in engineering. DLC members are selected through an application process.

Honor Societies

In addition to university-wide honor societies and organizations, the Gallogly College of Engineering has a robust participation in engineering honor societies such as Tau Beta Pi, Pi Tau Sigma, Sigma Gamma Tau, Chi Epsilon, Eta Kappa Nu and Alpha Pi Mu.

Tau Beta Pi

The Tau Beta Pi honor society, which was founded at Lehigh University in June 1885, offers students of technical schools membership in an honorary association. Students who are qualified in any branch of engineering may become members. The annual election to the society, which is based upon scholarship, integrity, breadth of interest (both inside and outside of engineering), adaptability and unselfish activity, is limited to the upper one-fifth of the senior class and to the students who have grade averages within the upper one-eighth of the junior class. The government of the organization in each chapter is under the direction of the elected student officers and an advisory board consisting of four faculty members of Tau Beta Pi. Membership in Tau Beta Pi is one of the highest scholastic honors that an undergraduate engineering student can receive. The Oklahoma charter was granted in 1926.

K-12 OUTREACH

Engineering faculty and students are actively engaged in promoting Science, Technology, Engineering and Math in K-12 education. The

Gallogly College of Engineering offers a variety of programs to encourage kids to get excited about STEM education.

SCHOLARSHIPS AND FINANCIAL AID INFORMATION

Future Students

To be considered for first-year scholarships from the Gallogly College of Engineering, you must apply for admissions to the University of Oklahoma by December 15th of each year. Scholarships are competitive for students demonstrating strong academic merit, leadership, community service, co-curricular activities, financial need, etc. Incoming students can learn more about additional scholarship opportunities through the Office of Admissions & Recruitment.

Current Students

All undergraduate and graduate engineering students can apply for scholarships through the Centralized Academic Scholarship Hub (CASH). The deadline is February 1st of each year.

Financial Aid

The FAFSA (or Free Application for Federal Student Aid) is the government-provided application for need-based funds to help pay for college. OU highly recommends completing the FAFSA regardless of family's income.

CAREER GUIDANCE

Our mission is to provide engineering students with a strong foundation for success through responsive, supportive and meaningful academic and career guidance. Each semester, students are required to meet with both their College and Faculty Advisors in order to assist with their academic progression and address concerns related to career pathways, internships, graduate school, etc. Faculty with past and/or current corporate collaborations are excellent resources for our students, as are the college's alumni, many of whom welcome connecting with students regarding career questions. During the first-year Engineering Orientation and the second-year Professional Development courses, students are introduced to the career planning process and the assistance available via the OU Career Services. These courses also introduce students to undergraduate research experience programs and graduate school. The college also hosts a Graduate School Fair for the undergraduate students. The Gallogly College of Engineering collaborates with the OU Career Services Office to host two annual Career Fairs for engineering students; one in September and the other in February. The September career fair is the largest with an average of 140 companies seeking to recruit our students. Many companies also commit to a regular presence on campus as speakers at student organizations' regular meetings or "Tech Talks."

The OU Career Services offers specialized services to students and alumni, that includes:

- Job search and interviewing skills
- Resume and cover letter writing
- Major specific career advice
- Internship and Job postings
- Information regarding Career Fairs and on-campus interviews

CO-OP PROGRAM

The Co-op Program offers a work-study experience that combines a sequence of academic study and engineering employment in industry or government. Participating in the Co-op Program allows the engineering student to gain first-hand experience in the application of academic studies to engineering problems.

Participation in the Co-op Program is optional and open to students enrolled full-time in a degree program administered by the Gallogly College of Engineering. Students who wish to participate in the Co-op Program must have completed all of the requirements of the first year of their degree program with a minimum 2.50 GPA. Students also must have the approval of the director of the school of their major. Employment in a Co-op position requires the approval of the participating company. Interested students should apply as soon as possible during their first three semesters on campus.

The time required to complete an engineering degree program as a Co-op student will be longer than the usual eight-semester program. (Caution: Major courses in several GCoE degree programs are sequential and offered only one time per year.) For further information and application forms, contact the Gallogly College of Engineering Undergraduate Advising Office.

INTERNSHIPS

The Gallogly College of Engineering encourages all students to seek an internship either with college faculty assisting with research or with industry. Both the college's Undergraduate Advising office and the OU Career Services office work to facilitate this process.

WORK EXPERIENCE

Students may request to receive credit for internship or co-op experiences. Specific faculty oversee such enrollments and may require the student to provide a final project report and presentation. The faculty of the student's program determine if the credits may apply towards degree completion, and if so, if the credits will apply as a professional or technical elective in the student's program. For more information, contact the college's Undergraduate Advising Office.

College of Engineering Administrated Programs

Graduates of engineering and applied science degree programs are often elevated to leadership positions early in their careers. Gallogly College of Engineering offers an Undergraduate Certificate in Engineering Leadership (p. 736) which allows students wishing to further develop their leadership skills a tangible and intensive format for doing so. The certificate is available to undergraduate students enrolled in degree programs within the Gallogly College of Engineering or the Mewbourne College of Earth and Energy.

Engineering Leadership, Undergraduate Certificate

Students must be enrolled as undergraduates in the Gallogly College of Engineering or the Mewbourne College of Earth and Energy. All courses counted toward the certificate must be completed with a C or better.

General Information

AEROSPACE ENGINEERING

Aerospace engineering is one of the most rewarding and challenging careers available. There is a fulfilling excitement in designing and building flying craft ranging from general aviation to high-performance military aircraft and commercial airliners to drones. There are also opportunities in the design and flight of spacecraft and unmanned vehicles. Challenging space projects are awaiting the next generation of engineers. Aerospace technology has also expanded to include ground effect machines, helicopters, hydrofoil ships, high-power lasers, wind turbines, and high-speed rail vehicles, opening up even more career opportunities for aerospace engineers.

Careers

Aerospace engineers can expect to work in industries or government agencies whose mission is to design, test, manufacture, or operate aircraft or spacecraft. Opportunities are available in companies that build large commercial aircraft and companies that specialize in the smaller general aviation aircraft and drones. Careers are available in military aircraft, missiles or spacecraft either in private industry or as an engineer employed by one of the military services.

Engineers employed by the National Aeronautics and Space Administration are involved in research, design, development and operation of the U.S. space program and in many aspects of aeronautics. Also many graduates find satisfying careers in applying the broad engineering knowledge acquired in the study of aerospace engineering to many other areas of technological development.

MECHANICAL ENGINEERING

Mechanical engineering is one of the most versatile of all engineering programs. Virtually all branches of industry employ mechanical engineers. The profession encompasses breadth, flexibility and the opportunity for great individuality. Mechanical engineers apply knowledge of thermal sciences, fluid and solid mechanics, and mathematics to design, develop, and build mechanical and electromechanical devices and systems.

Since virtually all physical devices and systems have one or more mechanical aspects, mechanical engineering is almost always required in the design, manufacture and utilization of any technical product or system.

Careers

The career opportunities available to mechanical engineers are truly unlimited. Mechanical engineering plays a central role in all major industries including the aerospace, automotive, chemical, computer, construction, electrical, machinery, metals, petroleum and nuclear industries. Mechanical engineers are employed in virtually every technological field including industrial machinery, farm equipment, textiles, transportation, pharmaceutical, medical instrumentation, apparel manufacturing, electronics, soap and cosmetics, paper and wood products, education, utilities, and office machinery.

In these and other fields, mechanical engineers are involved in research, development, design, production and testing, construction, operations, sales, management, consulting, and teaching. Mechanical engineers are also employed in defense laboratories and in government where they hold positions of responsibility in state and federal government, in big and small corporations, and in private practice.

Programs & Facilities

RESEARCH FACILITIES

The School's laboratories are primarily located in Felgar Hall and the Engineering Research Center on North Campus. Specialized laboratories have been developed for combustion and propulsion, composite materials and structures, dynamics and control, stress analysis and mechanical behavior of materials, fatigue, fluid flow and heat transfer, aerodynamics, laser velocimetry and fluid measurements, nondestructive evaluation techniques, thermal imaging, and radiative heat transfer.

These laboratories are equipped with modern instrumentation and dedicated data acquisition systems.

Within AME, a departmental PC laboratory is available for use in courses and research. Several public computer laboratories are also available on campus.

The **L.A. Comp Subsonic Wind Tunnel** is located on the Norman campus at the foot of the OU water tower. It is a closed circuit, 4 ft. x 6 ft. test section tunnel, capable of producing wind speeds over 175 miles per hour. (additional specifications and history)

The AME Machine Shop, located in the basement of Felgar Hall, supports the academic and research programs of the school.

See About AME Research for more information concerning Instructional labs and research labs.

Undergraduate Study

ADMISSION REQUIREMENTS

Admission to the undergraduate Aerospace or Mechanical Engineering programs is REQUIRED *prior to* enrolling in any AME courses in the engineering major (p. 729).

Enrollment into AME courses requires a student to accrue at least 24 credits with an overall retention GPA of 3.0 -and- successfully complete MATH 1914 or 1823; MATH 2924 or 2423; PHYS 2514

and CHEM 1315 with a 3.0 overall retention GPA in these specific courses, with no grade less than C.

Visit OU Admissions & Recruitment to learn more about undergraduate admissions at the University of Oklahoma.

Aerospace and Mechanical Engineering Program Educational Objectives (PEOs)

Program Educational Objectives are broad statements that describe what graduates are expected to attain within a few years of graduation.

- a.** Our graduates will have successful professional careers in industry, government, academia or non-profit organizations.
- b.** Our graduates will be successful in solving the engineering problems associated with the lifecycle of complex systems.
- c.** Our graduates will continue to learn and advance their careers through activities such as participation in professional organizations, attainment of professional certification and post-graduate study.

Aerospace Engineering Student Outcomes

Student Outcomes are statements that describe what students are expected to know and be able to do by the time of graduation. These relate to the skills, knowledge and behaviors that students acquire as they progress through the program.

- a.** an ability to apply knowledge of mathematics, science, and engineering
- b.** an ability to design and conduct experiments, as well as to analyze and interpret data
- c.** an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- d.** an ability to function on multi-disciplinary teams
- e.** an ability to identify, formulate, and solve engineering problems
- f.** an understanding of professional and ethical responsibility
- g.** an ability to communicate effectively
- h.** the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
- i.** a recognition of the need for, and an ability to engage in life-long learning
- j.** a knowledge of contemporary issues
- k.** an ability to use the techniques, skills, and modern engineering tools necessary for aerospace engineering practice
- l.** in-depth knowledge of the major aeronautical topics and some knowledge of astronautical topics
- m.** competence in the integration of aerospace science and engineering topics in aerospace systems design

Mechanical Engineering Student Outcomes

Student Outcomes are statements that describe what students are expected to know and be able to do by the time of graduation. These

relate to the skills, knowledge and behaviors that students acquire as they progress through the program.

- a.** an ability to apply knowledge of mathematics, science, and engineering
- b.** an ability to design and conduct experiments, as well as to analyze and interpret data
- c.** an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- d.** an ability to function on multi-disciplinary teams
- e.** an ability to identify, formulate, and solve engineering problems
- f.** an understanding of professional and ethical responsibility
- g.** an ability to communicate effectively
- h.** the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
- i.** a recognition of the need for, and an ability to engage in life-long learning
- j.** a knowledge of contemporary issues
- k.** an ability to use the techniques, skills, and modern engineering tools necessary for mechanical engineering practice
- l.** a knowledge of both thermal and mechanical systems areas

CURRICULUM IN AEROSPACE ENGINEERING

For detailed semester by semester curriculum requirements, please see Aerospace Engineering, Bachelor of Science in Aerospace Engineering (p. 743).

(Accredited by the Engineering Accreditation Commission of ABET)

CURRICULUM IN MECHANICAL ENGINEERING

Standard Option

For detailed semester by semester curriculum requirements for the Standard Option, please see Mechanical Engineering (Standard), Bachelor of Science in Mechanical Engineering (p. 744).

(Accredited by the Engineering Accreditation Commission of ABET)

Premedical Option

The understanding of many physical phenomena associated with the human body is enhanced by the knowledge gained in the study of mechanical engineering. The fluid mechanics of the cardiovascular system, the kinetics and stress analysis of orthopedics, the dynamics of the auditory system are but a few examples of the interaction of mechanical engineering and medicine. Research and development of many diagnostic and treatment techniques are intimately interwoven with principles studied in mechanical engineering.

Students enrolled in the Mechanical Engineering B.S. curriculum and interested in studying medicine or dentistry may choose a premedical elective pattern. This elective pattern allows the student to earn a B.S. degree in Mechanical Engineering and satisfy the prerequisite course requirements for the University of Oklahoma's medical or dental schools.

For detailed semester by semester curriculum requirements or the Premedical Option, please Mechanical Engineering (Premedical Option), Bachelor of Science in Mechanical Engineering (p. 745).

Pre-med students should consult their Pre-Health and Pre-Medical Professions Advisor as well as their Mechanical Engineering adviser for necessary medical school information.

Accelerated Bachelor of Science/Master of Science

The School of Aerospace and Mechanical Engineering also offers an accelerated combined BS/MS program to qualified students. The Bachelor of Science portion of the program is accredited by the Engineering Accreditation Commission of ABET. This program provides the opportunity for students to complete both the undergraduate and master's degrees in five years.

- Aerospace Engineering, Bachelor of Science in Aerospace Engineering/Master of Science (p. 746)
- Mechanical Engineering (Standard), Bachelor of Science in Mechanical Engineering/Master of Science (p. 747)

More detailed information on the M.S. degree program and its requirements may be obtained from the Graduate Studies Coordinator of the School of Aerospace and Mechanical Engineering.

Graduate Study

The School of Aerospace and Mechanical Engineering offers a broad range of opportunities for advanced academic study and research in the fields of aerospace and mechanical engineering and in the underlying engineering sciences.

The following paragraphs present only the standard minimum requirements and are no more than guidelines, not intended to exclude consideration of any valid academic objectives. The admission evaluation, the academic plan, and the research studies of each student should represent a unique synthesis of program strengths and resources with that student's background and aspirations.

Questions about the programs or about any specific requirement or consideration may be addressed to the Student Services Coordinator in the School of Aerospace and Mechanical Engineering, 865 Asp Avenue, 212 Felgar Hall, University of Oklahoma, Norman, OK 73019-1052.

AREAS OF SPECIALIZATION

There is a planned overlap of the graduate programs in these closely allied fields of the School, and several areas of specialization have evolved within and across these primary disciplines.

Mechanical Engineering

These programs can be categorized into the focus areas of engineering information technology, materials, design and manufacturing; intelligent aerospace systems; bioengineering, and energy systems and propulsion. These include solid mechanics, fluid mechanics, thermal sciences and heat transfer, controls, robotics, engineering design, and bioengineering.

- Current studies in **solid mechanics** include: experimental mechanics; structural dynamics; mechanical behavior of materials; analysis and processing of composite materials and structures; structural optimization; fatigue and fracture mechanics of metals and composite materials; and smart structures.
- Current studies in **fluid mechanics** include: computational fluid dynamics; compressible flows; viscous flows; non-Newtonian fluids;

rheology; transport phenomena; turbulent jets and boundary layers; and multiphase flows.

- Current studies in **thermal sciences** include: theoretical and applied studies of radiative, conductive, and convective heat transfer; thermal properties of materials; combustion and flame dynamics; propulsion; gas turbine systems; mass transfer and handling of alternate fuels for automobile applications; biological heat transfer; heat transfer in porous media and EHD enhanced heat transfer.
- Current **control studies** include: design and analysis of control systems in MEMS; BioMEMS; micro systems and micro fluidics; structural control; and non-linear, robust, autonomous, optimal, and real-time control of systems and vehicles.
- Current **engineering design** studies include: energy system design; materials in design applications; product and product family design; development and applications of computer-aided design and engineering; internet based design; tool integration for concurrent engineering; computer-integrated manufacturing; and rapid prototyping.
- Current studies in **bioengineering** include: biomechanics, biomaterials, cardiopulmonary physiology; implantable devices; soft and hard tissue engineering; and neural engineering. Current studies in **robotics** include the design and control of autonomous systems.
- Additional studies include: educational technologies; multimedia and informational technologies; energy policy; decision making under uncertainty; and renewable energy.

Aerospace Engineering

These graduate programs offer opportunities for specialization in aeroservoelasticity; aerospace structures; structural and multidisciplinary design optimization (MDO); flight controls; aerodynamics; propulsion; combustion and flame dynamics; multiphase flows; non-equilibrium flows; computational methods; aeroelasticity; robotics; intelligent systems; astrodynamics; space vehicle/mission design; computational fluid dynamics; and flight vehicle design and synthesis.

Engineering Analysis

Coordinated graduate programs share techniques of advanced engineering analysis, with current emphasis on finite element methods, nonlinear analysis, variational calculus, perturbation methods, computational fluid mechanics, and optimization methodologies.

PREREQUISITES FOR FULL GRADUATE STANDING

In addition to meeting the general requirements of the Graduate College, prospective students are expected to have previously earned a B.S. degree or its equivalent in the respective fields of aerospace or mechanical engineering. Students with baccalaureate degrees in other engineering disciplines, physical sciences or mathematics who meet the Graduate College requirements may be conditionally admitted to the AME graduate programs with the stipulation that they must complete specified undergraduate courses to correct identified deficiencies in their background.

In considering applicants for the graduate programs, the faculty looks for evidence of superior academic potential. This is most commonly indicated by the achievement of a grade point average of 3.2 or better on a 4.0 scale (or an equivalent achievement as reflected in the grading system of the applicant's previous education program) for the most recent two years of academic work. GRE scores, letters of reference, and the statement of purpose are also considered in the admission process. Applicants who have a strong research commitment and an intention to pursue graduate studies through the doctoral level are particularly encouraged. Details concerning the admission criteria and the required

background courses may be obtained from the School of Aerospace and Mechanical Engineering.

MASTER OF SCIENCE

General Information

The degree of Master of Science in Aerospace or Mechanical Engineering usually requires the completion of an original research thesis in addition to coursework beyond the baccalaureate level.

Thesis Program (Standard)

The traditional research-oriented M.S. program with thesis emphasizes an advanced study and research experience that is particularly suited to prepare students for research and development careers in the industry or the government and for further graduate studies. To be eligible for the research option, a student must have identified an appropriate research area and be accepted as an M.S. thesis student by a member of the AME graduate faculty.

Non-Thesis Program

The coursework-emphasis plan is designed to meet the professional needs of part-time students and other students whose background and educational goals may be best served by additional instructed study in lieu of the research investigation involved in an M.S. thesis. To pursue this plan-of-study, students must indicate interest in the coursework-emphasis program on the application for admission. After admission, these students are encouraged to identify faculty members who will serve as their academic M.S. program advisers or they may complete the program under the overall guidance of the Graduate Liaison. The non-thesis M.S. program culminates in a comprehensive examination.

Specific Requirements for Aerospace Engineering Master of Science (p. 749)

Specific Requirements for Mechanical Engineering Master of Science (p. 749)

Only students pursuing the thesis option are eligible to be appointed for a graduate assistantship.

Students wishing to change from the thesis to non-thesis option must petition the AME graduate liaison, Dr. Mrinal Saha. If the petition is approved, no more than 24 hours of credit will be transferred towards the fulfillment of the course requirements in the non-thesis option. Such a transfer cannot take place during a semester.

ACCELERATED BS/MS PROGRAM

The School of Aerospace and Mechanical Engineering also offers an accelerated combined BS/MS program to qualified students. The Bachelor of Science portion of the program is accredited by the Engineering Accreditation Commission of ABET. This program provides an opportunity for students to complete both the undergraduate and master's degrees in five years.

More detailed information on the M.S. degree program and its requirements may be obtained from the Student Services Coordinator of the School of Aerospace and Mechanical Engineering.

DOCTOR OF PHILOSOPHY

The degree of Doctor of Philosophy (Ph.D.) in aerospace or mechanical engineering (p. 750) requires the completion of an original research dissertation in addition to coursework beyond the bachelor's/master's degree.

Our Ph.D. program emphasizes an advanced study and research experience that is particularly suited to prepare students for research careers in industry or government and for positions in academia. To be eligible for the program, a student must have been admitted into the Ph.D. program. The student must then identify an appropriate research area and must be accepted as a Ph.D. student by a member of the AME graduate faculty. A general exam and a dissertation defense at the end of the research program assures that the student meets the high standards of this terminal degree.

Specific Requirements for the Ph.D. Program

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Altan	Mustafa	C.	1989	PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 2004; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2006; BENJAMIN H. PERKINSON CHAIR IN AEROSPACE AND MECHANICAL ENGINEERING, 2015	PhD, Univ of Delaware, 1989; BS, Middle East Technical Univ, 1985
Attar	Peter		2006	ASSOCIATE PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 2012	PhD, Duke Univ, 2003; MSc, Duke Univ, 1999; BS, Tufts Univ, 1997
Baldwin	James		1993	ASSOCIATE PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 2001; DIRECTOR, DYNAMIC STRUCTURES SENSING AND CONTROL CENTER, 2006	PhD, Univ of Virginia, 1993; MS, Univ of Virginia, 1990; BS, Univ of Virginia, 1983
Cai	Jie		2017	ASSISTANT PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 2017	PhD, Purdue Univ, 2015; MS, Ball State Univ, 2011; BS, Dalian Univ of Tech, 2009
Chang	Kuang-Hua		1997	WILLIAMS COMPANIES FOUNDATION PRESIDENTIAL PROFESSOR, 2005; DAVID ROSS BOYD PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 2013	PhD, Univ of Iowa, 1990; MS, Univ of Iowa, 1987; BS, Taipei Inst of Tech, 1980
Dai	Chenkai		2018	ASSOCIATE PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 2018	PhD, Univ of Oklahoma, 2008

Dalton	Christopher R	2000	ASSISTANT PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 2015; ADJUNCT PROFESSOR OF ENGINEERING, 2011	PhD, Univ of Oklahoma, 2010; MS, Univ of Oklahoma, 2007; BS, Univ of Oklahoma, 2004	Mistree	Farrokh	2008	PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 2009; L.A. COMP CHAIR IN AEROSPACE AND MECHANICAL ENGINEERING, 2009; ADJUNCT PROFESSOR OF INDUSTRIAL AND SYSTEMS ENGINEERING, 2013	PhD, Univ of California, 1974; MS, Univ of California, 1970; B Tech, Indian Inst of Tech, 1967
Gan	Rong	1999	CHARLES E. FOSTER CHAIR IN MECHANICAL ENGINEERING, 2002; PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 2006; PRESIDENTIAL RESEARCH PROFESSOR, 2017	PhD, Univ of Memphis, 1992; MS, Univ of Alberta, 1988; MS, Huazhong Univ of Sci & Tech, 1981; BS, Huazhong Univ of Sci & Tech, 1968	Parthasarath Ramkumar	N	1994	ANADARKO PETROLEUM CORPORATION PRESIDENTIAL PROFESSOR, 2008; PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 2009	PhD, Univ of Michigan, 1989; MS, Pennsylvania State Univ, 1985; B Tech, Indian Inst of Tech, 1984
Garg	Jivtesh	2013	ASSISTANT PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 2013	PhD, Mass inst of Tech, 2011; MS, Univ of Minnesota, 2002; B Tech, Indian Inst of Tech, 1999	Saha	Mrinal	2006	PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 2018	PhD, Old Dominion Univ, 2001; MS, Tuskegee, 1996; MS, Bangladesh Univ, 1992; BS, Bangladesh Univ, 1988
Gramoll	Kurt C	1997	PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 1997; ROBERT W. HUGHES CENTENNIAL PROFESSOR OF ENGINEERING, 1997	PhD, Virginia Polytechnic Inst, 1988; MS, Univ of Utah, 1984; BS, Univ of Utah, 1982	Shabgard	Hamidreza	2016	ASSISTANT PROFESSOR OF AEROSPACE AND MECHANICAL ENGINEERING, 2016	PhD, Univ of Connecticut, 2014; MS, Amirkabir Univ of Technology, 2007; BS, Azad Univ of Mashhad, 2003

Aerospace Engineering, Bachelor of Science in Aerospace Engineering

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses. AME courses are sequential and usually offered only in the semester shown; note prerequisites.

In order to progress into 2nd year courses in AME, students must successfully complete (grade C or better) MATH 1914; MATH 2924; PHYS 2514 and CHEM 1315 with 3.0 Combined Retention GPA, and possess a minimum 3.0 Combined Retention GPA in 24 or more credit hours.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
CHEM 1315	General Chemistry (Core II) ¹	5
MATH 1914	Differential and Integral Calculus I (Core I) ²	4
HIST 1483 or HIST 1493	United States, 1492 to 1865 (Core IV) or United States, 1865 to the Present	3
ENGR 1411	Freshman Engineering Experience ³	1
	Credit Hours	16
Second Semester		
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
MATH 2924	Differential and Integral Calculus II ²	4
PHYS 2514	General Physics for Engineering and Science Majors (Core II)	4
P SC 1113	American Federal Government (Core III)	3
C S 1313	Programming for Non-Majors with C	3
	Credit Hours	17
Sophomore		
First Semester		
MATH 2934	Differential and Integral Calculus III ²	4
PHYS 2524	General Physics for Engineering and Science Majors	4

AME 2113	Statics	3
AME 2213	Thermodynamics	3
AME 2223	Introduction to Aerospace Engineering	3
	Credit Hours	17
Second Semester		
MATH 3413	Physical Mathematics I	3
MATH 3401	Numerical Methods With Matlab	1
AME 2303	Materials, Design and Manufacturing Processes	3
AME 2533	Dynamics	3
AME 2623	Circuits and Sensors	3
Approved Elective: Artistic Forms (Core IV) ⁴		3
	Credit Hours	16
Junior		
First Semester		
AME 3112	Solid Mechanics Lab	2
AME 3143	Solid Mechanics	3
AME 3253	Aerodynamics	3
AME 3272	Windtunnel Laboratory	2
AME 4383	Control Systems	3
ENGR 2002	Professional Development	2
	Credit Hours	15
Second Semester		
AME 3103	Interactive Engineering Design Simulation	3
AME 3333	Flight Mechanics	3
AME 3523	Aerospace Structural Analysis	3
AME 3623	Embedded Real-Time Systems	3
ENGL 3153	Technical Writing	3
Approved Experimental Elective ⁵		2
	Credit Hours	17
Senior		
First Semester		
AME 4243	Aerospace Propulsion Systems	3
AME 4273	Aerospace Systems Design I	3
AME 4493	Space Sciences and Astrodynamics	3
AME 4513	Flight Controls	3
AME Approved Technical Elective ⁶		3
	Credit Hours	15
Second Semester		
AME 4373	Aerospace Systems Design II (Capstone)	3
AME Approved Technical Elective ⁶		3
COMM 3513	Intercultural Communication (or an advisor-approved substitution) (Western Civ. & Culture - Core IV) ⁴	3
ANTH 4623	Approaches to Cross-Cultural Human Problems (or an advisor-approved substitution) (Non-Western Culture - Core IV) ⁴	3
Approved Elective: Social Science (Core III) ⁴		3
	Credit Hours	15
	Total Credit Hours	128

¹CHEM 1315 can be substituted with CHEM 1335 (Fall only).

²MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

³Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

⁴To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000).

⁵It is recommended that a student take AME 4802 for the experimental elective.

⁶A list of Technical Electives is available in the AME Office, Felgar Hall 212.

Mechanical Engineering (Standard), Bachelor of Science in Mechanical Engineering

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

- **DEPARTMENTAL PROGRESSION REQUIREMENTS: In order to progress into 2nd year courses in AME, students must successfully complete (grade C or better) MATH 1914; MATH 2924; PHYS 2514 and CHEM 1315 with 3.0 Combined Retention GPA, and possess a minimum 3.0 Combined Retention GPA in 24 or more credit hours. AP credit is acceptable for any of these required courses.**

COMM 3513	Intercultural Communication (or an advisor approved substitution) (Western Civ. & Culture - Core IV) ⁴	3
ANTH 4623	Approaches to Cross-Cultural Human Problems ((or an advisor-approved substitution) (Non-Western Culture - Core IV) ⁴	3
Approved Engineering Science Elective ⁵		3
Approved Elective: Artistic Forms (Core IV) ⁴		3
Credit Hours		15
Total Credit Hours		123

¹CHEM 1315 can be substituted with CHEM 1335 (Fall only).

²MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

³Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

⁴To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000).

⁵A list of Technical, Experimental, and Engineering Science electives is available in the AME Office, FH 212.

Mechanical Engineering (Premedical Option), Bachelor of Science in Mechanical Engineering

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses. AME courses are sequential and usually offered only in the semester shown; note prerequisites.

In order to progress into 2nd year courses in AME, students must successfully complete (grade C or better) MATH 1914; MATH 2924; PHYS 2514 and CHEM 1315 with 3.0 Combined Retention GPA, and possess a minimum 3.0 Combined Retention GPA in 24 or more credit hours.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

Students who wish to take the MCAT in their junior year are encouraged to take the required biology elective and the organic chemistry during their junior year. Some may also wish to take an additional biology elective (not required in the curriculum).

Course	Title	Credit Hours
Freshman

Total Credit Hours		133

¹CHEM 1315 and CHEM 1415 can be substituted with CHEM 1335 (Fall only) and CHEM 1435 (Spring only), respectively.

²MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

³Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

⁴Pre-med students are required to consult the OU Pre-Med Advisor, Cate 1, Room 416, or call (405) 325-2457, and their Mechanical Engineering advisor each semester prior to enrolling. NOTE: Most medical schools also require PHYS 1311 and PHYS 1321.

⁵Biology elective to be chosen from BIOL 3113, BIOL 3333, or BIOL 4843.

⁶To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000).

⁷A list of Engineering Science electives is available in the AME Office, FH 212.

Aerospace Engineering, Bachelor of Science in Aerospace Engineering/Master of Science

B.S. Portion of the Program Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses. AME courses are sequential and usually offered only in the semester shown; note prerequisites.

In order to progress into 2nd year courses in AME, students must successfully complete (grade C or better) MATH 1914; MATH 2924; PHYS

2514 and CHEM 1315 with 3.0 Combined Retention GPA, and possess a minimum 3.0 Combined Retention GPA in 24 or more credit hours. AP credit is acceptable for any of these required courses.

Approval for admission to the accelerated BS/MS program must be initiated at the beginning of the second semester of the junior year. Students may enter the accelerated program based on the undergraduate degree pattern offered in the year they first enrolled in the Oklahoma State System of Higher Education or later. Students are eligible for graduate status upon graduation with the Bachelor of Science in Aerospace Engineering.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

¹CHEM 1315 can be substituted with CHEM 1335 (Fall only).

²MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

³Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

⁴To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). See list online.

⁵It is recommended that a student take AME 4802 for the experimental elective.

⁶Fourth and fifth year graduate electives must satisfy MS in aerospace engineering requirements.

⁷Dependent upon whether a student chooses the thesis or non-thesis option. Non-thesis option additionally requires: AME 5990 (3 hrs.) to be taken in the Summer between the Senior and the Fifth Year, and **Comprehensive Exam** to be taken in the last semester of study.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

Mechanical Engineering (Standard), Bachelor of Science in Mechanical Engineering/Master of Science

B.S. Portion of the Program Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses. AME courses are sequential and usually offered only in the semester shown; note prerequisites.

⁴To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). See list in the Class Schedule.

⁵A list of Technical, Experimental, and Engineering Science electives is available in the AME Office, FH 212.

⁶Fourth and fifth year graduate electives must satisfy MS in mechanical engineering requirements.

⁷Dependent upon whether a student chooses the thesis or non-thesis option. Non-thesis option additionally requires: **AME Graduate-level Elective** (3 hrs.) and AME 5990 (3 hrs.) to be taken in the Summer between the Senior and the Fifth Year, and **Comprehensive Exam** to be taken in the last semester of study.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

Aerospace Engineering, Master of Science

The requirements listed apply to the following concentrations in Aerospace Engineering:

- Aerodynamics - M010 Q026
- Aerospace Engineering General - M010 Q028
- Composites - M010 Q136
- Fluid Mechanics - M010 Q256
- Structures - M010 Q631

Thesis Option

Code	Title	Credit Hours
Mathematics/Advanced Engineering Analysis		
Choose 3 hours of graduate-level coursework in mathematics or advanced engineering analysis		3
Aerospace and Mechanical Engineering		
Choose 12 hours of AME courses at the 5000 level or higher ¹		12
Electives		
Choose 9 hours ²		9
Thesis		
AME 5980	Research for Master's Thesis	6
Total Credit Hours		30

¹No more than 3 hours in Special Projects, Guided Individual Studies, or other non-competitively graded enrollments.

²Approved graduate-level courses chosen from other fields of engineering, the physical sciences, and mathematics; or AME courses, including G4000-level courses not required for the B.S. degree in the major field. Thesis students who elect a 2-hour laboratory course may include 1 additional hour of Special Projects of Guided Individual Studies in their program.

Non-Thesis Option

Code	Title	Credit Hours
Mathematics/Advanced Engineering Analysis		
Choose 3 hours of graduate-level coursework in mathematics or advanced engineering analysis		3
Aerospace and Mechanical Engineering		
Choose 18-21 hours of AME courses at the 5000 level or higher ¹		18-21
Electives		
Choose 12-15 hours ²		12-15
Total Credit Hours		36

¹AME hours may include up to 3 hours Special Projects and up to 3 hours Guided Independent Studies. (Students who elect a 2-hour laboratory course may include 1 additional hour of either of these individual instruction enrollments.)

²Approved graduate-level courses chosen from other fields of engineering, the physical sciences, and mathematics; or AME courses, including G4000-level courses not required for the B.S. degree in the major field. For non-thesis students, the 12 hours may include up to 3 hours of additional enrollment in non-competitively graded courses, and up to 6 hours of G4000-level AME courses not required for the B.S. degree in the major field.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Mechanical Engineering, Master of Science

The requirements listed on this degree check sheet apply to the following concentrations in Mechanical Engineering:

- Combustion - M675 Q126
- Controls - M675 Q151
- Fluid Mechanics - M675 Q256

- Heat Transfer - M675 Q321
- Mechanical Engineering General - M675 Q448
- Solid Mechanics - M675 Q618

Thesis Option

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Aerospace and Mechanical Engineering Doctoral Programs

The degree of Philosophical Doctor (Ph.D.) in aerospace or mechanical engineering emphasizes an advanced study and research experience that is particularly suited to prepare students for research careers in industry or government and for positions in academia. To be eligible for the program, a student must have been admitted into the Ph.D. program. The student must then identify an appropriate research area and must be accepted as a Ph.D. student by a member of the AME graduate faculty. A general exam and a dissertation defense at the end of the research program assures that the student meets the high standards of this terminal degree.

curriculum

The program requires satisfactory completion of at least 42 course credit hours beyond the baccalaureate degree for a total of 90 credit hours and the completion of an original research dissertation.

- 24+ hours Advanced engineering graduate courses at the 5000-level or higher as determined by the student's doctoral advisory conference
- 3+ hours graduate-level math-related coursework¹
- 3+ hours Graduate-level math-related or science coursework¹
- Additional coursework as needed to reach 42 hours.
 - Students enrolled in the thermal science program are required to take: AME 5333, AME 5803, AME 5973
- 42+ hours Dissertation Research AME 6980

Students may include up to 42 credit hours from previous graduate work as follows:

- All of an M.S. degree up to 30 hours but including no more than 6 thesis hours
- All of a M.S. non-thesis degree up to 36 hours
- Up to 12 hours of post-master's work

A maximum of 9 credit hours of Special Projects, Guided Individual Studies, or other non-competitively graded courses (including 6 credit hours of MS thesis) may be included.

The dissertation advisory committee should be formed and the advisory conference should be held no later than the student's second semester of enrollment. The Graduate Liaison should be alerted to this conference. In AME, the Qualifying Exam is combined with the General Exam. The Dissertation Defense takes place after the completion of the research work. Additional details on these procedures and required examinations is provided on the AME website.

Stephenson School of Biomedical Engineering

Michael Detamore, Ph.D., Founding Director and Professor
 Rachel Childers, Ph.D., Assistant Professor of Practice and Undergraduate Program Chair
 Lei Ding, Ph.D., Professor and Graduate Program Chair

Carson Engineering Center, Room 107
 202 West Boyd St.
 Norman, OK 73019-1021

 biomedical@ou.edu
 www.ou.edu/coe/sbme

General Information

The Peggy and Charles Stephenson School of Biomedical Engineering ties together OU's Gallogly College of Engineering, the OU Health Sciences Center, Oklahoma Medical Research Foundation, the OU College of Arts and Sciences, the Price College of Business and the regional bioscience industry, offering an unprecedented level of health care collaboration and discovery in Oklahoma.

The successful and highly multidisciplinary graduate program was established after a Whitaker Foundation grant in the late 1990s, and the undergraduate program was launched in Fall 2016. SBME will be housed in Gallogly Hall, a new building currently under construction in the engineering quad that will be completed in 2019. The excellent team of faculty are focused on translational discoveries in healthcare areas including cancer, brain injury and disease, and musculoskeletal medicine.

Biomedical engineers enhance the quality of life through transformative research that provides solutions to complex medical challenges. From developing imaging tools that reduce the amount of patient exposure to radiation, developing quantitative imaging biomarkers for evaluating treatment responses of ovarian cancer or delivering photo thermal therapy using single-walled carbon nanotubes combined to treat cancers more effectively, biomedical engineers are making an impact – one life at a time.

Core focus areas include

- Biomechanics
- Molecular, Cellular and Tissue Engineering
- Biomedical Micro-and Nanotechnology
- Bioimaging
- Biotransport
- Bioelectricity

Programs & Facilities

Institute for Biomedical Engineering, Science and Technology

The University of Oklahoma Institute for Biomedical Engineering, Science and Technology (IBEST) spans research and education activities in bioscience and biomedical engineering on the Norman and Oklahoma City campuses.

Faculty from the lead departments – School of Chemical, Biological and Materials Engineering, School of Aerospace and Mechanical Engineering, School of Electrical and Computer Engineering, and School of Computer Science” – work with bioscientists and biomedical engineers from the OU Health Sciences Center, Oklahoma Medical Research Foundation in Oklahoma City and OU College of Arts and Sciences in Norman.

Diversity & Inclusion

The Stephenson School of Biomedical Engineering nurtures a culture of diversity and inclusion, and offers resources for our faculty, staff, and students.

Gallogly Hall

Gallogly Hall, situated on the Engineering Quad between Felgar Hall and the ExxonMobil Lawrence G. Rawl Engineering Practice Facility, will provide Stephenson School of Biomedical Engineering students and faculty with world-class biomedical engineering facilities to learn, study and research. The 70,000 square-foot facility is scheduled to be completed Fall 2019.

Undergraduate

Bachelor of Science in Biomedical Engineering

The Bachelor of Science in Biomedical Engineering (p. 753) focuses on current and strategic future strengths of our faculty members: Bioimaging, Biotransport, Neural Engineering, Biomechanics, Molecular, Cellular and Tissue Engineering, and Biomedical Micro-/Nano-Technology. Courses are intended to build on previous engineering and life science courses to truly integrate engineering with biology and medicine. They are also pathways to advanced biomedical engineering courses and research, allowing students the flexibility to individualize their curriculum to meet their career objectives. Our bachelor's degree graduates will have a strong foundation in biomedical engineering with opportunities for focus within areas of the field. In addition to engineering principles, the program is built on a solid foundation of the basic sciences (chemistry, physics and biology) and mathematics.

Undergraduate students and prospective students interested in biomedical engineering or bioengineering can also follow the pre-med option available in the Schools of Aerospace and Mechanical Engineering (AME) or Industrial and Systems Engineering (ISE), or either the pre-medical/biomedical engineering option or biotechnology option available in the School of Chemical, Biological and Materials Engineering (CBME). These curricula provide a solid foundation in engineering and the biosciences that can be supplemented with elective courses and undergraduate research opportunities available from the University of Oklahoma Biomedical Engineering Center.

Bachelor of Science in Biomedical Engineering/Master of Science

The Accelerated B.S./M.S. degree program (p. 755) may be of interest to some students. Among the courses offered are introduction to biomedical engineering, biochemical engineering, bioinstrumentation,

neural engineering, biotransport, medical imaging, biomaterials, biomechanics, cellular and tissue engineering, and biosensors.

Program educational objectives for bme b.s. graduates to attain within a few years of graduation:

1. **Successful career advancement:** Graduates will be advancing in their careers in the healthcare industry or in related technical professions, or continuing their education in professional school (e.g., medicine, dentistry, law, business) or graduate school.
2. **Technical ability:** Graduates will be utilizing their skills as engineers to apply a creative approach to problem solving in their chosen career path.
3. **Positive contributors to society:** Graduates will be effective team members and communicators who infuse global perspective, economic evaluation, and safety into ethically responsible decision making.

bme B.S. students are assessed for the following outcomes:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. An ability to communicate effectively with a range of audiences
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Graduate Master of Science

The Biomedical Engineering, Master of Science (p. 756) degree program can be readily completed in two years. A thesis is required.

Areas of Specialization

The faculty of the OU Biomedical Engineering Center are involved in a diverse array of research projects that aim to increase our understanding of the human body and that develop new and improved methods of diagnosis and treatment for a wide variety of disorders. For example, finite element computer models and laser doppler interferometry help researchers understand the mechanics of the ossicles and cochlea in conditions like otitis media with effusion. Several faculty members and their students are designing devices that can be implanted into the body to improve hearing or biosensors that incorporate nanotubes to sense the level of sugar in the blood of diabetic patients. We have a very active program in tissue engineering including tissue engineered blood vessels for cardiac bypass surgery as well as bone tissue for reconstructive surgery. Additional projects examine how implanted devices can be

physically connected to the central nervous system. Some faculty are investigating the basic biochemical properties of various types of blood cells and how the functions of these cells are altered by the fluid mechanical environment found in the blood. Other faculty members are developing novel drug delivery strategies for targeting agents to kill cancer cells. Work is underway applying computational fluid dynamics to understand how renal artery aneurysms contribute to hypertension. Finally, some of the faculty are pioneering new methods to analyze images from x-ray and magnetic resonance imaging scans to detect cancer and other pathological conditions.

Application Information

In addition to meeting the general requirements of the Graduate College, any student with an undergraduate degree in engineering from an accredited school may be admitted as a student in full standing. It is recommended that students entering the program have taken at least one college biology course and one college organic chemistry course. A student with an undergraduate degree in the sciences may be admitted on the condition that specified undergraduate engineering and/or mathematics courses will have to be taken for completion of the degree program, which will depend on the background of each individual student. While here the masters and doctoral students will continue to follow the general procedures of the Graduate College for their level of degree as well as the procedures of the Biomedical engineering Program. More application information and application forms are available on the website.

Accelerated Dual B.S. Chemical Engineering Biotechnology / M.S.

Students completing these programs will receive two degrees: the B.S. in Chemical Engineering and the M.S. in Biomedical Engineering. Students must complete an M.S. research thesis in biomedical engineering. This M.S. degree opens opportunities for research and development jobs in the biotechnology, pharmaceutical, and biomedical fields.

BS in Biomedical Engineering / MS in Biomedical Engineering (A108/ F109 Q062)

Students completing these programs will receive two degrees: the B.S. in Biomedical Engineering and the M.S. in Biomedical Engineering. This program is accelerated because students may share 12 hours of credit that apply to both their undergraduate and graduate degrees. Students should apply for this program option no later than March 1 during their Junior year. Please contact Shayla Glover (shaylaglover@ou.edu) for the application materials to apply.

B.S. Chemical Engineering Biotechnology Option / M.S. Biomedical Engineering (A161/F109 Q063) (p. 766)

Students completing these programs will receive two degrees: the B.S. in Chemical Engineering and the M.S. in Biomedical Engineering. This program is accelerated because students may double-count (i.e., simultaneously count in both the B.S. and M.S. Programs) 12 hours. Students must complete an M.S. thesis in the field of biomedical engineering. This M.S. degree opens opportunities for research and development jobs in the biotechnology, pharmaceutical, and biomedical fields.

B.S. Chemical Engineering Pre-Medical/Biomedical Engineering Option / Biomedical Engineering Master of Science (A163/F109 Q520)

Students completing this program will receive two degrees: B.S. in Chemical Engineering and M.S. in Biomedical Engineering. This program

is accelerated because students may double-count (i.e., simultaneously count in both the B.S. and M.S. Programs) 12 hours. Students must complete an M.S. thesis in the field of biomedical engineering. This M.S. degree opens opportunities for research and development in the biotechnology, pharmaceutical, and biomedical fields.

Doctor of Philosophy

A student with a B.S. degree can enter the Biomedical Engineering doctoral program (p. 757) directly; the student does not have to complete the M.S. thesis as part of the Ph.D. degree. At the end of the program, the student will demonstrate excellence in scholarly research by authoring and successfully defending a Ph.D. Dissertation.

The Ph.D. degree in Biomedical Engineering requires ninety post-baccalaureate hours, which include the courses required for the M.S. degree in Biomedical Engineering and a minimum of nine additional hours of graduate level courses. Research credits make up the balance of the ninety hours. Three hours of this course work must be in the life sciences (graduate credit, chosen from the list below of approved life science courses), and the other six hours can be selected from engineering, science, or math courses (graduate credit) in consultation with the student's research supervisor. A student with a B.S. degree can enter the Ph.D. program directly; the student does not have to complete the M.S. thesis as part of the Ph.D. degree. At the end of the program, the student will demonstrate excellence in scholarly research by authoring and successfully defending a Ph.D. Dissertation.

During the Ph.D. program, the student is required to take a general examination in accordance with Graduate College requirements. For students entering with a B.S. degree, the general examination must be taken as soon as possible after the student has completed three semesters (not including the summer semester). For students entering with an M.S. degree, the general examination must be taken as soon as possible after the student has completed one semester (not including the summer semester).

Doctor of Medicine / Doctor of Philosophy in Biomedical Engineering

Outstanding students may also want to apply for the M.D. / Ph.D. program. Students completing this program will receive two degrees, the Doctor of Medicine degree through the OU Health Sciences Center and the Doctor of Philosophy in Biomedical Engineering degree through the Norman campus. This degree requires a doctoral research dissertation. Visit the Health Sciences Center webpages for additional information about M.D./Ph.D. degrees offered through the Health Sciences Center.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Acar	Handan		2017	ASSISTANT PROFESSOR OF BIOMEDICAL ENGINEERING, 2017; STEPHENSON PROFESSOR IN BIOMEDICAL ENGINEERING 2017	PhD, Bilkent Univ, 2013

Bodurka	Jerzy		2012	ASSOCIATE PROFESSOR, 2012	PhD, Nicolaus Copernicus University, 1995; MS, Nicolaus Copernicus University, 1988
Childers	Rachel	C	2017	ASSISTANT PROFESSOR OF BIOMEDICAL ENGINEERING, 2017; UNDERGRADUATE CHAIR BIOMEDICAL ENGINEERING, 2017	PhD, Ohio State Univ, 2016; MS, Ohio State Univ, 2013; BS, Univ of Georgia, 2010
Detamore	Michael	S	2016	STEPHENSON CHAIR, OF BIOMEDICAL ENGINEERING, 2016	PhD, Rice Univ, 2004; BS, Univ of Colorado, 2000
Ding	Lei		2007	PROFESSOR OF BIOMEDICAL ENGINEERING, 2018; DIRECTOR OF INSTITUTE FOR BIOMEDICAL ENGINEERING, SCIENCE, AND TECHNOLOGY (IBEST), 2016	PhD, University of Minnesota, 2007; BE, Zhejiang University, 2000
Harrison	Roger		1988	PROFESSOR OF BIOMEDICAL ENGINEERING, 2007	BS, University of Oklahoma, 1967; MS, University of Wisconsin-Madison, 1968; PhD, University of Wisconsin-Madison, 1975
Moore	Marc	C	2016	ASSISTANT PROFESSOR OF BIOMEDICAL ENGINEERING, 2016	PhD, Univ of Florida, 2013; B Engr, Vanderbilt Univ, 2008
Tang	Qinggong		2018	ASSISTANT PROFESSOR OF BIOMEDICAL ENGINEERING, 2018	PhD, Univ of Maryland
Wilhelm	Stefan		2017	STEPHENSON PROFESSOR IN BIOMEDICAL ENGINEERING, 2017; ASSISTANT PROFESSOR OF BIOMEDICAL ENGINEERING, 2017	PhD, Univ of Regensburg 2014; MS, Univ of Regensburg, 2010; BS, Univ of Regensburg, 2006
Yuan	Han		2015	ASSISTANT PROFESSOR OF BIOMEDICAL ENGINEERING, 2015	PhD, Univ of Minnesota, 2010; BS, Tsinghua Univ, 2005

Biomedical Engineering, Bachelor of Science in Biomedical Engineering

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3

Credit Hours		15
Total Credit Hours		132

¹CHEM 1315 and CHEM 1415 can be substituted with CHEM 1335 (Fall only) and CHEM 1435 (Spring only), respectively.

²Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

³The prerequisite courses for BME 2333 require a minimum grade of B.

⁴Pre-medical students should contact the OU Pre-Med Office, 415 Cate Center #1, (405) 325-2457. In addition to pre-med courses in above program, students will need: CHEM 3153, PHYS 1311 and PHYS 1321, PSY and SOC, Cell or Molecular Biology, and Genetics. Recommend BIOL 3103. Students should also plan to take the MCAT in April of their junior year.

⁵To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000).

BME Area Core Courses

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Biomedical Engineering Doctoral Programs

The Ph.D. degree in Biomedical Engineering requires 90 post-baccalaureate hours, which include the courses required for the M.S. degree in Biomedical Engineering. A student with a B.S. degree can enter the Ph.D. program directly; the student does not have to complete the M.S. thesis as part of the Ph.D. degree. At the end of the program, the student will demonstrate excellence in scholarly research by authoring and successfully defending a Ph.D. Dissertation.

curriculum

The program requires a total of 90 hours¹:

- 3 hours Bioengineering Principles AME 5203/BME 5203/CH E 5203
- 9 hours bioengineering chosen from an approved list
- 9 hours life sciences chosen from an approved list
- 12 hours engineering, science or math
- 2-57 hours Dissertation Research BME 6980
- additional coursework needed to total 90 hours.

During the Ph.D. program, the student is required to take a general examination in accordance with Graduate College requirements. For students entering with a B.S. degree, the general examination must be taken as soon as possible after the student has completed three semesters (not including the summer semester). For students entering with an M.S. degree, the general examination must be taken as soon as possible after the student has completed one semester (not including the summer semester).

¹For students who hold a Master of Science degree in Biomedical Engineering from the University of Oklahoma, the Ph.D. requires a minimum of nine (9) graduate credit hours beyond the M.S. The M.S. degree requires two courses in life sciences and two courses in engineering/science/math; the Ph.D. requires one additional life sciences course and two additional engineering/science/math courses beyond the M.S.

M.D./PH.D. COMBINED PROGRAM

Students completing this program will receive two degrees: M.D. and Ph.D. in Bioengineering. The M.D. program satisfies requirements for both degrees including completion of the clinical, advisory conference, general exam, written dissertation and oral defense components. Individuals pursuing the M.D./Ph.D. program would be prepared to practice and teach medicine in a research setting and/or conduct biomedical research that requires a combination of expertise in medicine and bioengineering.

Admission to the program requires a B.S. degree in engineering from an accredited program. In exceptional cases, students with degrees in other technical areas may be admitted upon addressing deficiencies identified by the M.D./Ph.D. Advisory Committee and the Graduate Program Coordinator of the Bioengineering Program. Admission means acceptance by the University of Oklahoma College of Medicine (includes sitting for the MCAT, the AMCAS report, etc.) the Graduate College of the University of Oklahoma-Norman, the Bioengineering Program of OUBC, and the M.D./Ph.D. Advisory Committee. The GRE is not required, but may be submitted with the application. The minimum GPA (4.0 scale) for the Bioengineering Program is 3.50 and the minimum GPA for the College of Medicine is 3.0.

Additional information about degree options and application forms are available from the OUBC web pages or the OUBC office. Information about the OU Medical School at the Health Sciences Center in Oklahoma City can be found at their web pages.

School of Chemical, Biological and Materials Engineering

General Information

Chemical engineering was first taught at OU in 1912 and the first graduate degree was granted in 1918. Over the years that followed, the program has developed curricula with traditional strength in fundamentals, while tailoring electives for specializations suited to contemporary and future industrial need. In 1963, the Schools of Chemical Engineering and Metallurgical Engineering were combined into the School of Chemical Engineering and Materials Science. The name was changed in 2008 to the School of Chemical, Biological and Materials Engineering (CBME). This was done to reflect the increasing activities in the bioengineering area.

Our dynamic faculty are dedicated to a program of the highest quality and to leadership at the forefront of the profession it serves. This dedication

and the cooperative spirit of CBME faculty has fueled a superior level of productivity. The school has developed a very broad base of external research support. A listing of recent research projects shows support from 22 different sources, including the National Science Foundation, the U. S. Environmental Protection Agency, the U.S. Department of Energy, The Department of Defense, The National Institutes of Health, the Oklahoma Center for the Advancement of Science and Technology, and 10 companies. Every faculty member has an active research program and is expected to receive external funding.

Mission Statement

The mission of the School of Chemical, Biological and Materials Engineering is to serve the changing needs of society through the training of outstanding engineers in the creation and utilization of chemical engineering knowledge.

CHEMICAL ENGINEERING

Perhaps the most striking facts about chemical engineering are youth and variety. At the turn of the century people were discontented with simply observing chemical phenomena in the laboratory. Chemical engineering was born out of the desire to use these chemical behaviors to serve people and make the world a better place in which to live.

The world has entered an extremely critical period because of shortages and/or environmental impacts of nonrenewable energy. The chemical engineer is an important factor in solving problems in production and use of fossil fuel resources, nuclear energy and alternate energy resources, including biofuels and bioenergy. Chemical engineers have made important contributions to the production and refining of petroleum products. They are now playing an important part in liquefaction of natural gas and gasification of coal. The use of alternate energy sources such as biomass, geothermal, ocean thermal differences, and solar are dependent on contributions made by chemical engineers.

In the space age, chemical engineers are developing nanoengineered materials that will have structural and electronic properties never before encountered. They must perfect processes for life-support systems in other environments. Chemical engineers are needed to provide the fuels for rockets and booster propulsion. They utilize computers to control and analyze complex chemical processes.

Biotechnology and medicine, which have taken tremendous strides in the past few decades, are quite dependent on the efforts of the chemical engineer. It is the chemical engineer who develops ways to produce new recombinant proteins such as insulin at large scale for mass distribution. The vaccines that have saved a whole generation of children from crippling are available because the chemical engineer worked out the ways to produce them safely and economically. The field of mental health has been revolutionized by drugs, astronomical in cost until the chemical engineer mass-produced them so that they are accessible to nearly everyone who needs them.

Briefly, the job of the chemical engineer is to make commercial application of the chemist's and biologist's discoveries. This is not as easy as it sounds, for enormous problems are encountered when the company tries to produce by the ton material that the chemist made by the milligram in the laboratory. The chemical engineer works in a variety of industries, not only the chemical industry, but also in fields of computer systems, electronic materials, environmental control, pharmaceuticals, leather, metals, space, fertilizers, textiles, glass, detergents, paper, food, pesticides, paint, and rubber. New fields are constantly being added.

It is the chemical engineer who develops an economical process for producing a marketable product. The development of penicillin is just such a case. The chemist Sir Alexander Fleming discovered the wonder antibiotic in a Petri dish in his laboratory. The batches produced in a laboratory can hardly supply the millions of people around the world that need the drug, and the cost of a prescription would be exorbitant. Chemical engineers had to develop a continuous process for producing penicillin. Through the efforts of these engineers, millions of lives have been saved.

There are many other kinds of jobs for chemical engineers. A chemical engineer in plant operations must supervise the production process to see that the plant produces a scheduled amount of high-quality material economically. To do this, the engineer is very much involved in managing people and machines.

The research chemical engineer has an analytical mind and likes to solve problems in the technical frontier. If the engineer plans to concentrate on research, exploring new areas and applying untried methods, an advanced chemical engineering degree is probably needed.

Still another type of job appeals to many chemical engineers. This is technical sales. The material that is produced in a plant must be sold. The salesman needs extensive technical training because technical people are the customers.

All chemical engineering jobs — plant operations, research and development, and technical sales — may lead into management or executive positions if the chemical engineer is interested in the broad aspects of a company's business.

There are, of course, major fields besides industry that need chemical engineers. College teaching, for instance, is offering more and more to the engineer, particularly if the person is research-minded. Many college teachers are, in addition, consultants to industry, and the government too is constantly improving the opportunities for chemical engineers in its service. Private research institutes call for chemical engineers. A chemical engineer may choose to work in practically any field.

The curriculum in chemical engineering at the University of Oklahoma is planned to prepare students for the design, construction, and operation of processes in which materials undergo chemical, biological, and physical change. Graduates are prepared to accept a job in chemical engineering practice or to continue studies in graduate school.

Since the chemical engineer must be acquainted with so many diversified subjects, the education at the University is necessarily broad. Students receive solid foundations in mathematics, physics, chemistry, and engineering courses which will prepare them to apply effectively these fundamental principles to the solution of engineering problems. In addition, students in the biotechnology engineering elective patterns receive training in our pre-medical/ biomedical life science and bioengineering courses. Because computers play a vital role in the solution of many chemical engineering problems, students are required to use modern computational tools in their coursework. In addition, there is increasing emphasis on electives in the life sciences and humanistic-social studies. Because of this broad educational background, the engineer is better prepared to accept leadership in the community, as well as in the company, in a management capacity.

Programs & Facilities

FACILITIES

Laboratories and offices for chemical engineering are located in Sarkeys Energy Center, Carson Engineering Center, and Stephenson Research and Technology Center. Facilities include a unit operations laboratory and laboratories dedicated to research in separations and purification, polymers, small angle x-ray scattering, catalysis, biomass conversion and biofuels, thin films, biomedical and biotechnology, and surfactants and other graduate research project laboratories. We occupy several fully equipped laboratories in Carson Engineering Center focusing on applied surfactant technology and enhanced oil recovery. The facilities in Stephenson includes laboratory areas specifically designed for bioengineering research, and we occupy over 3,000 square feet of the space shared with the Bioengineering Center. Areas of research emphasis include biofuels and bioenergy, nano technology, remediation of polluted soil and water, process systems engineering, bone and vascular tissue engineering, rheology of blood, polymer fibers processing and polymer characterization, biotechnology and biomedical engineering, advanced design, catalysis, electrochemistry, surface modification using ultrathin films, carbon nanotube production, and natural gas utilization.

Undergraduate Study

CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING PROGRAM EDUCATIONAL OBJECTIVES

Our chemical engineering undergraduate program is preparing our recent graduates to meet the following objectives:

1. Graduates will perform successfully as professionals in businesses, industries and government.
2. Graduates will perform successfully in their pursuit of advanced degrees in chemical engineering and other technical or professional fields.
3. Graduates will continually improve their professional competencies through further training or education.

Chemical Engineering Undergraduate Student Outcomes

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

CURRICULUM IN CHEMICAL ENGINEERING

The Bachelor of Science in Chemical Engineering is accredited by the Engineering Accreditation Commission of ABET).

The degree is offered with three options:

Standard Option

The Standard Option (p. 761) prepares students for a career in the wide variety of chemical process industries or for graduate engineering studies. Technical electives allow emphasis on energy, materials, process systems, environment, or other areas of interest.

Premedical/Biomedical Option

The Premedical/Biomedical Option (p. 763) is designed so that the student is prepared to enter schools of medicine, dentistry or osteopathic medicine as early as the end of the junior year (although most students who pursue a medical career complete the chemical engineering degree). If the student elects not to enter medical school, a normal chemical engineering degree is obtained, so there is no disadvantage to being in the program. Biology courses useful in preparation for the Medical College Admission Test are scheduled in the junior year. The biomedical engineering pattern is similar to the pre-med pattern, differing in suggested technical electives.

Pre-med students should consult their Pre-Health and Pre-Medical Professions advisor as well as their Chemical Engineering or Mechanical Engineering advisor for necessary medical school information.

Biotechnology Option

The Biotechnology Option (p. 762) is designed to prepare the student for work on the engineering of biological systems and systems in which cells and biochemicals are processed. It includes courses in microbiology, biochemistry, and biochemical engineering. The elective sequence requires two additional credit hours over the basic chemical engineering curriculum.

ACCELERATED DUAL DEGREE B.S./M.S.

(Bachelor of Science portion of the program accredited by the Engineering Accreditation Commission of ABET)

- Bachelor of Science in Chemical Engineering: Standard/Master of Science (Chemical Engineering) (p. 764)
- Bachelor of Science in Chemical Engineering: Biotechnology/Master of Science (Biomedical Engineering) (p. 766)
- Bachelor of Science in Chemical Engineering: Premedical/Biomedical Engineering/Master of Science (Biomedical Engineering) (p. 767)

The School of Chemical, Biological and Materials Engineering offers three accelerated dual degree (B.S./M.S.) programs to qualified undergraduate students. The programs allow students to pursue a graduate degree in conjunction with the undergraduate degree requirements. One program is for the B.S. and Chemical Engineering M.S., while the other two are for the B.S. in Chemical Engineering and Biomedical Engineering M.S. Students admitted into these programs can use up to four courses (12 credit hours) to simultaneously satisfy the requirements of both the B.S. and M.S. degrees.

Graduate Study

The School of Chemical, Biological & Materials Engineering offers master and doctor of philosophy degrees in chemical engineering. Research can be in a variety of areas including: advanced energy systems, biochemical and biomedical engineering, catalysis, process optimization,

nanotechnology, novel separation methods, polymers, reaction kinetics, surface science, thermodynamics and thin films.

Any student with an undergraduate degree in chemical engineering or its equivalent from an accredited school and a grade point average (GPA) of at least 3.00 (on a 4.00 scale) during the last 60 hours of undergraduate coursework may be admitted as a student in full standing.

MASTER OF SCIENCE

The Chemical Engineering, Master of Science (p. 769) curriculum is available for students with an undergraduate degree in chemistry, physics, biology, or a similar area and high qualifications. Students who have their degree in an area other than chemical engineering will likely have to take additional courses besides those listed in the special curriculum. Interested students can contact the School for more information.

DOCTOR OF PHILOSOPHY

The School of Chemical, Biological and Materials Engineering offers the Doctor of Philosophy degree program in Chemical Engineering (p. 769). Students can apply directly for the Ph.D. degree without obtaining an M.S. degree first.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Crossley	Steven		2011	ASSOCIATE PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2017; SAM A. WILSON PROFESSOR OF CHEMICAL ENGINEERING, 2017; ROGER AND SHERRY TEIGEN PRESIDENTIAL PROFESSOR, 2017	PhD, Univ of Oklahoma, 2009; BS, Univ of Oklahoma, 2004
Galizia	Michele		2017	ASSISTANT PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2017	PhD, Univ of Bologna 2010; MS, Univ of Bologna, 2006
Gao	Jie		2018	ASSISTANT PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2018	PhD, East China Univ of Science & Tech, 2010; BS, East China Univ of Science & Tech, 2005
Grady	Brian		1994	PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2005; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2006	PhD, Univ of Wisconsin, 1994; BS, Univ of Illinois, 1987

Harrison	Roger	G	1988	PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2007; PROFESSOR OF BIOMEDICAL ENGINEERING, 2016	PhD, Univ of Wisconsin, 1975; MS, Univ of Wisconsin, 1969; BS, Univ of Oklahoma, 1967
Harwell	Jeffrey	H	1982	GEORGE LYNN CROSS RESEARCH PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 1999; ASAHI GLASS CHAIR OF CHEMICAL ENGINEERING, 2010	PhD, Univ of Texas, 1983; MS, Texas A&M, 1979; M Div, Western Conservative Baptist Seminary, 1977; BA, Texas A&M, 1974
Huang	Liangliang (Paul)		2014	ASSISTANT PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2014	PhD, North Carolina State Univ 2012; BS, Nanjing Univ of Tech, 2003
Lobban	Lance	L	1987	FRANCIS W. WINN CHAIR IN CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2000; PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2000; LLOYD G. AND JOYCE AUSTIN PRESIDENTIAL PROFESSOR, 2000	PhD, Univ of Houston, 1987; BS, Univ of Kansas, 1981
Nollert	Matthias	U		ASSOCIATE PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 1997	PhD, Cornell Univ, 1987; BS, Univ of Virginia, 1981
O'Rear	Edgar A.		1981	PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 1991; DIRECTOR, OKLAHOMA BIOENGINEERING CENTER, 2001; FRANCIS W. WINN PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2001	PhD, Rice Univ, 1981; SM, Mass Inst of Tech, 1977; BS, Rice Univ, 1975

PapavassiliouDimitrios			1999	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2006; PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2009; C.M. SLIEPCEVICH PROFESSOR OF CHEMICAL ENGINEERING, 2014	PhD, Univ of Illinois, 1996; MS, Univ of Illinois, 1993; BS, Aristotle Univ, 1989
Razavi	Sepideh		2018	ASSISTANT PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2018	PhD, City College of New York, 2015; MS, City College of New York, 2012; MS, Sharif Univ of Tech, 2007; BS, Arak Univ, 2005
Resasco	Daniel	E	1993	GEORGE LYNN CROSS RESEARCH PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2003; GALLOGLY CHAIR IN ENGINEERING, 2016	PhD, Yale Univ, 1983; BS, Universidad Nacional del Sur, 1975
Shambaugh	Robert	L	1984	PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 1993	PhD, Case Western Reserve, 1976; BS, Case Western Reserve, 1970
Sikavitsas	Vassilios		2002	PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2018; UNDERGRADUATE STUDIES CHAIR, 2016	PhD, SUNY at Buffalo, 2000; MS, SUNY at Buffalo, 1995; Diploma, Aristotle Univ, 1991
Walters	Keisha	B	2016	PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2016; CONOCO/DUPONT PROFESSOR OF CHEMICAL ENGINEERING, 2016	PhD, Clemson Univ, 2005; MS, Clemson Univ, 2001; BS, Clemson Univ, 1996
Wang	Bin		2014	ASSISTANT PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2014	PhD, École Normale Supérieure de Lyon, 2010; BA, East China Univ of Science & Tech, 2004

Chemical Engineering (Standard), Bachelor of Science in Chemical Engineering

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all

prerequisite courses. Chemical engineering courses are sequential and usually offered only in the semester shown; note prerequisites.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
CHEM 1315	General Chemistry (Core II) ¹	5
MATH 1914	Differential and Integral Calculus I (Core I) ²	4
HIST 1483 or HIST 1493	United States, 1492 to 1865 (Core IV) or United States, 1865 to the Present	3

Total Credit Hours	124

¹CHEM 1315 can be substituted with CHEM 1335 or CHEM 1425 (H) (Fall only). CHEM 1435 can be substituted with CHEM 1415.

²MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

³Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

⁴To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). See list in the Class Schedule.

⁵It is recommended that ENGR 2431 and ENGR 3431 be taken in the same semester. The courses are offered in sequential five-week blocks during the semester.

⁶One of the Technical Elective I, Technical Elective II, or the Advanced Chemistry elective must be CH E. Prior faculty approval is needed.

Advanced Chemistry Elective

Advanced chemistry elective must be pre-approved as having significant chemistry content. This elective may be chosen from but is not limited to the following:

Code	Title	Credit Hours
CHEM 3523	Physical Chemistry II	3
CHEM 3653	Introduction to Biochemistry	3
CHEM 4333	Advanced Inorganic Chemistry-Periodic System	3

CH E 5163	Heterogeneous Catalysis	3
CH E 5243	Biochemical Engineering	3
CH E 5373	Tissue Engineering	3
CH E 5453	Polymer Science and Engineering	3
CH E 5673	Colloid and Surface Science	3

Chemical Engineering (Biotechnology Option), Bachelor of Science in Chemical Engineering

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses. Chemical engineering courses are sequential and usually offered only in the semester shown; note prerequisites. (Exception: CH E 5243 is taught alternate spring semesters).

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

¹CHEM 1315 can be substituted with CHEM 1335 or CHEM 1425 (H) (Fall only). CHEM 1435 can be substituted with CHEM 1415.

²MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

³Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

⁴To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). One of these courses should be an English course 2000-level or above. See list in the Class Schedule.

⁵Pre-med students are required to consult the Pre-Med advisor as well as their Chemical Engineering advisor for necessary medical school information. **Note:** Additional Electives for Pre-Medical are required.

⁶It is recommended that ENGR 2431 and ENGR 3431 be taken in the same semester. The courses are offered in sequential five-week blocks during the semester.

Chemical Engineering (Standard), Bachelor of Science in Chemical Engineering/Master of Science

B.S. Portion of the Program Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses. Chemical engineering courses are sequential and usually offered only in the semester shown; note prerequisites.

Students must be admitted to the accelerated program before the beginning of the senior year. Students are eligible for graduate status upon graduation with the Bachelor of Science in Chemical Engineering.

In an accelerated program, 12 hours are double-counted (fulfill requirements in both degrees). The courses that double-count in this program are: CH E 4273; a pre-approved advanced Chemistry elective; one pre-approved G-designated Chemical Engineering technical elective; and, one pre-approved G-designated technical elective in engineering, math or physical science.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Chemical, Biological, and Materials Engineering Doctoral Programs

The School of Chemical, Biological and Materials Engineering offers the Doctor of Philosophy degree program in Chemical Engineering. Students can apply directly for the Ph.D. degree without obtaining an M.S. degree first.

curriculum

The program requires a total of 90 hours:

- 12 hours required coursework: CH E 5183, CH E 6723, CH E 5843, and CH E 5523
- 18 hours of electives: 6 hours of graduate level chemical engineering electives and 12 hours of science, math, or engineering electives.
- 1-8 hours of Research Seminars CH E 5971
- 46-59 hours of Dissertation Research CH E 6980
- additional coursework as necessary to reach 90 hours beyond the baccalaureate degree, as approved by the student's advisory conference committee

General Information

MISSION

Through a community of scholars committed to excellence in research and teaching, the mission of CEES is to provide our students with the technical education and critical thinking skills needed to lead the country in addressing the complex infrastructure and environmental problems facing today's society.

Careers in Architectural Engineering

Architectural engineers design buildings and other structures and understand the design of a building involves more than its appearance. Buildings also must be functional, safe and economical and meet the needs of the people who use them. Architectural engineers design a variety of structures, including office and apartment buildings, schools, churches, factories, hospitals, houses and airport terminals. They also design such complexes as urban centers, college campuses, industrial parks and communities. In addition, they may advise on the selection of building sites, prepare cost analysis and land-use studies and do long-range planning for land development.

Careers in Civil Engineering

Civil engineering is the oldest of the modern engineering disciplines with historical roots dating back to the 1700s. Responsibilities of the first civil engineers increased during the industrial revolution and included the construction of canals, roads and railroads.

Civil engineers are responsible for the design and construction of society's infrastructure, such as buildings, highways, bridges, mass transit systems, dams and locks, and municipal water and sewage treatment systems. They often are responsible for planning, managing, operating and maintaining these facilities. Consequently, civil engineering is frequently referred to as the "the people-serving profession."

Spurred by general population growth and an expanding economy, more civil engineers will be needed to design and construct higher-capacity

transportation, water supply and pollution control systems as well as large buildings and building complexes. They also will be needed to repair or replace existing roads, bridges and other public structures.

Careers in Environmental Engineering

Using the principles of physics, biology and chemistry, environmental engineers develop methods to meet such environmental challenges as water and air pollution control, recycling, waste disposal, hydrology, river management and control, and public health issues. Environmental engineers conduct hazardous waste management studies in which they evaluate the significance of the hazard, offer analysis on treatment and containment and develop regulations to prevent mishaps. They also design municipal sewage and industrial wastewater systems, analyze scientific data, conduct research projects and perform quality control checks.

Past graduates have been employed by state and federal environmental agencies, including the Oklahoma Department of Environmental Quality, the U.S. Environmental Protection Agency and the U.S. Geological Survey as well as various private industries and consulting firms.

Careers in Environmental Science

Environmental scientists have a variety of job responsibilities, including collecting and analyzing air, water and soil samples, monitoring compliance with environmental laws and regulations, assisting industrial companies in complying with environmental regulations, and addressing public meetings on local environmental challenges.

Our environmental science graduates work for the U.S. Environmental Protection Agency, Oklahoma Department of Environmental Quality, Oklahoma Department of Health and numerous private industrial and consulting firms.

Programs & Facilities

CEES is currently housed in the Carson Engineering Center, the Engineering Laboratory Building and Sarkey's Energy Center on the main campus as well as in the Donald G. Fears Structural Engineering Laboratory and the National Weather Center on the south research campus.

STUDENT TEAM ROOM AND COMPUTING Laboratory

The student team room and computing laboratory is located in Carson Engineering Center and is available to all CEES students.

TEACHING AND Research Laboratories

CEES has laboratory facilities for teaching and research in environmental science and engineering, geotechnical engineering and structural engineering.

- The traditional wet laboratories in the Carson Engineering Center are associated with teaching and research efforts in environmental science and environmental engineering.
- The materials and soils laboratory is located in Carson Engineering Center and is used for teaching and research in soils and materials science.
- The Donald G. Fears Structural Engineering laboratory is devoted to teaching and research programs in geotechnical and structural engineering.
- The Ray Broce Materials laboratory is devoted to teaching and research in asphalt and other transportation materials.

Undergraduate

CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE PROGRAM EDUCATIONAL OBJECTIVES

Program educational objectives (PEOs) are broad statements that describe what graduates are expected to attain within a few years of graduation. The PEOs were developed to meet the needs of the constituencies of CEES. The primary constituents of CEES programs are our alumni and the industries and governmental agencies that employ our alumni. The PEO's are focused on providing well trained engineers for employers and to empower those engineers to advance during their careers. The PEOs for CEES engineering graduates are:

Program Educational Objective 1

CEES alumni will have embarked on successful careers in areas associated with the development, implementation and management of architectural, civil or environmental engineering systems.

Program Educational Objective 2

CEES alumni will advance in their careers and continue their professional development through continuing education and lifelong learning.

CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE UNDERGRADUATE STUDENT OUTCOMES

Student Outcomes describe what students are expected to know and be able to do by the time of graduation. The Student Outcomes for engineering students in CEES are:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Bachelor of Science

(Engineering programs are accredited by the Engineering Accreditation Commission of ABET)

Students enrolled in the Bachelor of Science in Architectural Engineering (p. 773) program take the same core engineering, mathematics, science and English courses taken by other engineering students. They also take a series of architectural planning and methods courses from the College of Architecture.

The Bachelor of Science in Civil Engineering (p. 774) curriculum is comprised of four areas of emphasis; environmental, geotechnical,

structural and transportation engineering. The undergraduate civil engineering student must complete a sequence of core engineering courses plus one or two courses in each of these areas. Students then choose three upper division Professional Electives in their preferred area of emphasis.

The core curriculum for the Bachelor of Science in Environmental Engineering (p. 775) is similar to civil engineering; however, the last two years of the program focus strictly on environmental courses. Students are required to take courses in air pollution control engineering; water and wastewater engineering, and solid and hazardous waste management.

Students pursuing the Bachelor of Science in Environmental Science (p. 776) complete fundamental courses in chemistry, math, physics, biology, microbiology, and environmental science. Students then choose three upper division track electives in one of four areas: chemistry, biology, math or physical sciences. Students also choose two upper division Professional Electives in the preferred area of emphasis within environmental science. This flexible program prepares students for careers in government, consulting and industry.

Minor

Students earning a bachelor's of science degree in specific areas are eligible to apply for the Environmental Science Engineering Minor (p. 777). Additional majors will be considered on a case-by-case basis.

The Water and Sanitation for Health and Sustainable Development Minor (p. 778) is designed for engineering and non-engineering majors who have an interest in development work in emerging regions, particularly the sectors of water, sanitation and health.

Accelerated Bachelor of Science/Master of Science

The combined BS/MS program is offered to qualified undergraduate students in the School of Civil Engineering and Environmental Science, University of Oklahoma, who wish to pursue their graduate education while completing their undergraduate degree requirements. The Bachelor of Science portion accredited by the Engineering Accreditation Commission of ABET.

- Bachelor of Science in Architectural Engineering/Civil Engineering, Master of Science (p. 778)
- Bachelor of Science in Civil Engineering/Master of Science (p. 780)
- Bachelor of Science in Environmental Engineering/Master of Science (p. 781)
- Bachelor of Science in Environmental Science/Master of Environmental Science (p. 783)

Graduate

Master of science Civil Engineering

The Civil Engineering Master of Science program is open to students with undergraduate degrees in environmental or civil engineering or related engineering or science disciplines who have completed certain minimum undergraduate coursework

- Civil Engineering, Master of Science (p. 784)
- Civil Engineering, Master of Science Online (p. 784)

Master of Science in Environmental Engineering

The Master of Science in Environmental Engineering program is open to students with undergraduate degrees in environmental or civil

engineering or related engineering or science disciplines who have completed certain minimum undergraduate coursework

- Environmental Engineering Master of Science (p. 784)

Master of Environmental Science

The Master of Environmental Science programs are open to students with undergraduate degrees in the physical, natural, or life sciences or related disciplines who have completed certain minimum undergraduate coursework

- Environmental Science (p. 785)
- Environmental Science: Hydrology and Water Security Online (p. 786)

Doctoral Programs

The School of Civil Engineering and Environmental Science offers Doctoral Programs (p. 786) in environmental science, environmental engineering, and civil engineering. A master's degree in a related discipline is typically required for admission to all CEES Ph.D. degree programs, although students who have outstanding academic credentials and a documented record of research experience at the undergraduate level may occasionally be admitted to the doctoral program without a master's degree.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Butler	Elizabeth		1999	PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2010	PhD, Univ of Michigan, 1998; MS, Univ of Maryland, 1991; BS, Univ of Maryland, 1985
Cerato	Amy		2005	ROBERT GLENN RAPP FOUNDATION PRESIDENTIAL PROFESSOR, 2009; PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2016	PhD, Univ of Massachusetts, 2005; MS, Univ of Massachusetts, 2004; MS, Univ of Massachusetts, 2001; BS, Lafayette College, 1999
Dresback	Kendra	M	1997	RESEARCH ASSISTANT PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2008; ADJUNCT ASSISTANT PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2017	PhD, Univ of Oklahoma, 2005; MS, Univ of Oklahoma, 1999; BS, Univ of Oklahoma, 1997
Floyd	Royce		2012	ASSOCIATE PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2018	PhD, Univ of Arkansas, 2012; BS, Univ of Arkansas, 2008
Harvey	Philip	S	2014	ASSISTANT PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2014	PhD, Duke Univ, 2013; MS, Duke Univ, 2012; BS, Duke Univ, 2009

Hatami	Kianoosh		2004	PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2017; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2018	PhD, McMaster Univ, 1997; MS, Univ of Iran, 1991; BS, Univ of Iran, 1987
Hong	Yang		2007	CIMMS FELLOW, 2007; ADJUNCT ASSOCIATE PROFESSOR OF METEOROLOGY, 2011; PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2012; VPR PRESIDENTIAL RESEARCH PROFESSOR, 2014; DIRECTOR, INSTITUTE FOR HYDROMETEOROLOGY AND WATER ENGINEERING, 2017	PhD, Univ of Arizona, 2003; MS, Peking Univ, 1999; BS, Peking Univ, 1996
Kibbey	Tohren	C	1999	PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2010; LLOYD G. AND JOYCE AUSTIN PRESIDENTIAL PROFESSOR, 2016	PhD, Univ of Michigan, 1997; MSE, Univ of Michigan, 1993; BSE, Univ of Michigan, 1991
Knox	Robert		1986	SAMUEL ROBERTS NOBLE PRESIDENTIAL PROFESSOR, 1998; PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2001; TED A. KRITIKOS PROFESSOR OF CIVIL ENGINEERING, 2006	PhD, Univ of Oklahoma, 1983; MS, Univ of Oklahoma, 1979; BS, Univ of Oklahoma, 1978
Kolar	Randall		1995	LLOYD G. AND JOYCE AUSTIN PRESIDENTIAL PROFESSOR, 2008; DAVID ROSS BOYD PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2014	PhD, Univ of Notre Dame, 1992; BS, Univ of Idaho, 1983
Miller	Gerald	A	1994	PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2007; ROBERT GLENN RAPP FOUNDATION PRESIDENTIAL PROFESSOR, 2013	PhD, Univ of Massachusetts, 1994; MS, Clarkson, 1989; BS, Clarkson, 1987
Muraleethara Kanthasamy			1994	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2005; DAVID ROSS BOYD PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2009; KIMMELL-BERNARD CHAIR IN ENGINEERING, 2010	PhD, Univ of California Davis, 1990; MS, Univ of California Davis, 1987; BS, Sri Lanka Univ, 1983
Nairn	Robert		1997	PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2012; SAM K. VIERSON FAMILY FOUNDATION PRESIDENTIAL PROFESSOR, 2014; DAVID L. BOREN PROFESSORSHIP, 2017	PhD, Ohio State Univ, 1996; BS, Juniata College, 1989
Nanny	Mark	A	1996	PROFESSOR OF EARTH AND ENERGY, 2010; PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2010	PhD, Univ of Illinois, 1994; MS, Univ of Illinois, 1989; BS, Wayne State, 1986
Pei	Jinsong		2002	ASSOCIATE PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2008	PhD, Columbia Univ, 2001; M Engr, Nanyang Tech Univ, 1997; B Engr, Xi'an Jiaotong Univ, 1989
Ramseyer	Christopher	C	2012	ASSOCIATE PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2012	PhD, Univ of Oklahoma, 2006; MS, Univ of Oklahoma, 1999; BS, Univ of Oklahoma, 1998
Sabatini	David	A	1989	SUN OIL COMPANY CHAIR IN CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2001; DAVID ROSS BOYD PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2005	PhD, Iowa State, 1988; MSCE, Memphis State, 1985; BSCE, Univ of Illinois, 1981
Strevett	Keith		1995	DAVID ROSS BOYD PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2018	PhD, Univ of Connecticut, 1995; BS, Michigan State Univ, 1992; BS, Michigan State Univ, 1992
Vogel	Jason	R	2017	ASSOCIATE PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2017; DIRECTOR, OKLAHOMA WATER SURVEY, 2017	PhD, Oklahoma State Univ, 2001; MS, Texas A&M Univ, 1997; BS, Univ of Nebraska, 1995
Volz	Jeffery		2013	ASSOCIATE PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2013	PhD, Pennsylvania State Univ, 2008; MS, Pennsylvania State Univ, 1987; BS, Pennsylvania State Univ, 1985

Wang	Naiyu	2013	ASSISTANT PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2013	PhD, Georgia Inst of Tech, 2010; MS, Univ of Tennessee, 2005; BS, Univ of Elec Sci & Tech of China, 2000
Yang	Tiantian	2018	ASSISTANT PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2018	PhD, Univ of California Irvine, 2015; MS, Univ of California, 2010; BS, Tsinghua Univ, 2009
Zaman	Musharraf	1982	KERR MCGEE PRESIDENTIAL PROFESSOR, 1997; AARON ALEXANDER PROFESSOR IN CIVIL ENGINEERING, 2002; DAVID ROSS BOYD PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2003; PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING, 2009; ALUMNI CHAIR IN PETROLEUM AND GEOLOGICAL ENGINEERING, 2014	PhD, Univ of Arizona, 1982; MS, Carleton Univ, 1979; BS, Bangladesh Univ of Engr & Tech, 1975

Architectural Engineering, Bachelor of Science in Architectural Engineering

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
Choose one of the following:		4
GEOL 1114	Physical Geology for Science and Engineering Majors	
MATH (calculus or above)		
Basic Science Elective		
MATH 1914	Differential and Integral Calculus I (Core I) ¹	4
ENGR 1410	Freshman Engineering Orientation ²	0
CEES 1112	Introduction to Civil Engineering and Environmental Science	2
ARCH 2363	Materials and Form	3
Credit Hours		16

Second Semester

ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
MATH 2924	Differential and Integral Calculus II ¹	4
PHYS 2514	General Physics for Engineering and Science Majors (Core II)	4
ARCH 1263	Methods II - Pattern of Architecture	3
P SC 1113	American Federal Government (Core III)	3
Credit Hours		17

Sophomore

First Semester

ARCH 2243	History of the Built Environment I (Core IV: Western Civilization & Culture)	3

Approved Elective: Social Science (Core III) ⁵		3
Credit Hours		15
Total Credit Hours		121

¹CHEM 1315 and CHEM 1415 can be substituted with CHEM 1335 (Fall only) and CHEM 1435 (Spring only), respectively.

²MATH 1914, MATH 2924, and MATH 2934 sequence can be substituted for MATH 1823, MATH 2423, MATH 2433, and MATH 2443.

³Engineering transfer students may take ENGR 3410 in place of ENGR 1410.

⁴Students must complete a minimum of four semesters of CEES 1000.

⁵To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). See list in the Class Schedule.

⁶Professional electives can be chosen from any 3000-level or higher course in CEES. One three-hour professional elective can be taken outside CEES with advisor approval.

⁷See Student Handbook for the list of Track electives.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

The Environmental Science electives will be selected from Civil Engineering and Environmental Science courses with the approval of the advisor.

Environmental Science, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

At least 9 credit hours will be in upper division courses (3000 or 4000 level).

Students must complete the following courses prior to application to the minor: MATH 1823/MATH 1914, MATH 2423/MATH 2924, CHEM 1315, CHEM 1415, BIOL 1114 or P BIO 1114, and PHYS 2514 or PHYS 2414.

A minimum grade of C is required in all courses which are applied to the minor and in all prerequisite courses for the minor.

Students must complete prerequisites for all courses.

- Minors are available to all undergraduate students at OU.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Code	Title	Credit Hours
CEES 2313	Water Quality Fundamentals (Fall only)	3
CEES 2323	Environmental Transport and Fate Process (Spring only)	3
CEES 4263	Hazardous and Solid Waste Management (G) (Fall only)	3
CEES 4114 or CEES 4324	Aquatic Chemistry (Fall only) Environmental Biology and Ecology	4
Choose one of the following:		3

CEES 4243	Water Technologies for Emerging Regions (Spring only)	
ENGR 4513	Introduction to Sustainable Engineering (odd Springs only)	
CEES 4000 or 5000-level course with permission of advisor		
Total Credit Hours		16

Water and Sanitation for Health and Sustainable Development, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must declare their intention to seek this minor by completing a short (one-page) application and meet with an Engineering advisor. As part of the application, the student must submit a one-page essay in response to the question: "Why I wish to pursue a minor in Water and Sanitation for Health and Sustainable Development."

At least 9 credit hours will be in upper division courses (3000 or 4000 level).

A minimum of six (6) hours of elective coursework must be taken from outside the student's major area of study.

Elective courses may require additional prerequisites for admission. Students are responsible for identifying and completing those prerequisites.

A minimum grade of C is required in all courses which are applied to the minor.

Students must complete prerequisites for all courses.

- Minors are available to all undergraduate students at OU.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Code	Title	Credit Hours
Core Courses ¹		
CEES 4243	Water Technologies for Emerging Regions (G) (Spring)	3
CEES 4273	WaTER Technical Field Methods (G) (May/Early Summer)	3
CEES 3422	Intercultural Immersion Experience in an Emerging Region	2
CEES 3251	WaTER Center Integrated Seminar	1
Tracks		
Choose 9 hours from at least 2 of the following tracks pre-approved by advisor:		9
Track 1: Engineering & Technology, Natural and Physical Sciences (p. 778)		
Track 2: Policy, Economics, and Business (p. 778)		

Track 3: Social/Cultural/Behavioral Sciences (p. 778)	
Total Credit Hours	18

¹It is preferred that the core courses are completed in the following order.

Track 1: Engineering & Technology, Natural and Physical Sciences

Code	Title	Credit Hours
CEES 5020	Special Topics in Civil Engineering ¹	1-6
BSE 5113	Principles of Epidemiology (OUHSC)	3
CEES 5363	Ecological Engineering Science (G)	3
ENGR 4513	Introduction to Sustainable Engineering	3
GEOG 3233	Principles of Sustainability	3
GEOG 4293	Hydrologic Science	3

Or similar course(s) with advisor approval

¹Course recommended to fulfill the elective requirements.

Track 2: Policy, Economics, and Business

Code	Title	Credit Hours
ENT 3193	Social Entrepreneurship ¹	3
IAS 3063	Politics of Developing Countries	3
IAS 3323	The Political Economy of Development	3
HSCI 3483	Technology, Politics, and International Development	3

Upper-level language course (beyond that required by OU)

Or similar course(s) with advisor approval

¹Course recommended to fulfill the elective requirements.

Track 3: Social/Cultural/Behavioral Sciences

Code	Title	Credit Hours
ANTH 4303	Women and Development in Africa ¹	3
ANTH 3423	Anthropology of Religion	3
IAS 2003	Understanding the Global Community	3
GEOG 3443	Environment and Society	3
GEOG 4433		3

Upper-level language course (beyond that required by OU)

Or similar course(s) with advisor approval

¹Course recommended to fulfill the elective requirements.

Architectural Engineering, Bachelor of Science in Architectural Engineering/Civil Engineering, Master of Science

¹MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

²Engineering transfer students may take ENGR 3410 in place of ENGR 1410.

³Students must complete a minimum of four semesters of CEES 1000.

⁴CHEM 1315 can be substituted with CHEM 1335 (Fall only).

⁵Professional Elective can be chosen from any 3000-level or higher course in CEES

⁶To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). See list in the Class Schedule.

⁷Fourth- and fifth-year graduate courses must satisfy approved Civil Engineering requirements for the Master of Science.

⁸Dependent upon whether a student chooses the thesis or non-thesis option. Non-thesis option additionally requires: **CEES Graduate-level Elective** (6 hrs.).

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses.

Admission to the accelerated program is by application and requires a minimum GPA of 3.20. Students may enter the accelerated program based on the undergraduate degree pattern offered in the year they first enrolled in the Oklahoma State System of Higher Education or later. Students are eligible for graduate status upon graduation with the Bachelor of Science in Architectural Engineering.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

CEES Graduate-level Elective	3
CEES Graduate-level Elective	3
CEES Graduate-level Elective	2-3
Credit Hours	11-12

Second Semester

Choose one of the following:	1-3
CEES 5021 Technical Communications Graduate-level Elective	
Choose one of the following: ⁸	5-6
CEES 5980 Research for Master's Thesis Graduate-level Elective	
CEES Graduate-level Elective	3
CEES Graduate-level Elective	3
Credit Hours	12-15
Total Credit Hours	145-147

¹CHEM 1315 and CHEM 1415 can be substituted with CHEM 1335 (Fall only) and CHEM 1435 (Spring only), respectively.

²MATH 1914, MATH 2924, and MATH 2934 sequence can be substituted for MATH 1823, MATH 2423, MATH 2433, and MATH 2443.

³Engineering transfer students may take ENGR 3410 in place of ENGR 1410.

⁴Students must complete a minimum of four semesters of CEES 1000.

⁵To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). See list in the Class Schedule.

⁶Professional electives can be chosen from any 3000-level or higher course in CEES. One three-hour professional elective can be taken outside CEES with advisor approval.

⁷See Student Handbook for the list of Track electives.

⁸Dependent upon whether a student chooses the thesis or non-thesis option. Non-thesis option additionally requires: **CEES Graduate-level Elective** (6 hrs.).

⁹The Environmental Science electives will be selected from CEES courses with the approval of the advisor.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

Students must choose a specialization in either **Environmental Science** or **Environmental Management**.

Civil Engineering, Master of Science

Thesis Option

Code	Title	Credit Hours
Required Courses		
Choose a minimum of 24 elective hours ¹		24
Thesis		
CEES 5980	Research for Master's Thesis	5-6
Total Credit Hours		30

¹Courses must be selected based on the guidelines outlined in the CEES Guide for Graduate Students, and the discipline-specific criteria maintained by the School. Accelerated students may dual count six hours of graduate-level electives as approved by their advisor.

Non-Thesis Option

The Non-Thesis degree is a coursework-only degree; a Non-Thesis examination is not required.

Code	Title	Credit Hours
Choose a minimum of 32 elective hours ¹		32
Total Credit Hours		32

¹Courses must be selected based on the guidelines outlined in the CEES Guide for Graduate Students, and the discipline-specific criteria maintained by the School. Accelerated students may dual count six hours of graduate-level electives as approved by their advisor.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Environmental Engineering, Master of Science in Environmental Engineering

All elective courses are subject to the following restrictions: no more than nine credit hours of 4000G courses from CEES including required core courses may count towards the master's degree; no 3000G courses from CEES may count toward the master's degree; no more than twelve credit

hours of 3000G and 4000G courses from all departments, including CEES, may count toward the master's degree; and no more than nine credit hours of courses from departments outside CEES may count towards the master's degree.

While enrolled in CEES 5980, thesis students will participate in a non-credit seminar series. At least once during their course of study, each student will make a seminar presentation related to his or her research.

Thesis Option

Code	Title	Credit Hours

Civil Engineering and Environmental Science Doctoral Programs

CEES offers doctoral degrees in environmental science, environmental engineering, and civil engineering. A master's degree in a related discipline is typically required for admission to all CEES Ph.D. degree programs, although students who have outstanding academic credentials and a documented record of research experience at the undergraduate level may occasionally be admitted to the doctoral program without a master's degree. Admission to the doctoral program in environmental engineering or civil engineering also requires at least one degree in engineering, or completion of the entrance requirements for the MS in Environmental Engineering or MSCE degree program. For applicants to the Ph.D. program in environmental engineering who do not have at least one degree in engineering, Open Channel Flow (CEES 4123G or equivalent) can be substituted for Water Resources Engineering (CEES 3213 or equivalent) as an entrance requirement.

Curriculum

The program requires a total of 90 hours¹:

- 1 hour Technical Communications course CEES 5021
- 30+ hours Civil Engineering and Environmental Science courses
- 12+ hours coursework outside the department
- 2-41 hours Dissertation Research CEES 6980

In addition to coursework, the doctoral degree program requires completion of research that expands knowledge in the fundamental concepts of environmental science, environmental engineering, or civil engineering. Each doctoral student is therefore expected to produce a research dissertation that describes significant new findings in their field, and that is sufficient in scope to form the basis of three or more papers published in refereed journals.

¹No more than 8 hours of eligible graduate coursework may be transferred from another institution for the master's degree. No more than 30 hours of eligible graduate coursework, including a maximum of 4 hours of master's thesis research, may be transferred from another institution for the doctoral degree.

General Information

School History

Graduate instruction and research in computer science began in 1969 at the University of Oklahoma with the creation of a unit called Information and Computing Sciences. This unit was under the direct supervision of the Provost until 1972, when it became part of the College of Engineering. An undergraduate program in computer science was added in 1976, and computer science became an integral part of the School of Electrical Engineering, which was later renamed as the School of Electrical Engineering and Computer Science. The first MS, degree in computer science was awarded in 1972, the first PhD, in 1973, and the first undergraduate degree in 1979-80. Computer Science remained in the School of Electrical Engineering and Computer Science until 1992, when the School of Computer Science was formed.

Beginning with the Spring 2010 semester, The School of Computer Science moved our operations to Devon Energy Hall. The five-story, 103,000-square-foot Devon Energy Hall has some of the latest in technological advancement in its classrooms, team rooms, teaching labs and research space, providing the best for our students of today and tomorrow.

Program Mission Statement

To generate and disseminate durable knowledge within and around the rapidly evolving discipline of computer science by:

- Educating bachelors, masters, and doctoral degree candidates within our discipline.
- Contributing to the education of degree candidates in related fields, including mathematics, meteorology, computer engineering, industrial and systems engineering, and electrical engineering.
- Generating knowledge in theoretical and applied topics within and around our discipline and disseminating the results.
- Contributing to professional societies within and around our discipline.
- Producing graduates who are highly sought by industry, government and universities.

Programs & Facilities

Computer Science Scholarships

The School of Computer Science is able to support many students through various scholarships. The requirements for these scholarships vary from merit-based to financial need. The department takes pride in the fact that many of the scholarships available to current and prospective students are set up by CS alumni.

Computer Science Software Studio

The Computer Science Software Studio provides student the opportunity to:

- Work on approved out-of-class projects with state-of-the-art software and hardware tools
- Be a part of collaborative teams
- Gain additional hands-on experience
- Participate in software competitions
- Connect with and learn from professionals in your field

- Contribute to both app and game development
- Enjoy tech talks and seminars

Undergraduate

COMPUTER SCIENCE PROGRAM EDUCATIONAL OBJECTIVES (PEO)

- Graduates succeed in problem solving professions using computer science expertise.
- Graduates succeed in software careers.
- Graduates may pursue and complete advanced degrees in computer science or other fields.

COMPUTER SCIENCE UNDERGRADUATE STUDENT OUTCOMES

- an ability to apply knowledge of computing and mathematics appropriate to the discipline
- an ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
- an ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
- an ability to use current techniques, skills, and tools necessary for computing practice
- an ability to apply mathematical foundations algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the tradeoffs involved in design choices
- an ability to apply design and development principles in the construction of software systems of varying complexity

BACHELOR OF SCIENCE

The Bachelor of Science in Computer Science (p. 789) provides a broad and flexible undergraduate curriculum. In addition to the general university requirements in the humanities and sciences, computer science students take courses covering the fundamentals of the discipline; courses in mathematics, natural science; and computer science. Accredited by the Computing Accreditation Commission of ABET.

MINORS

Students who wish to pursue a minor in computer science are strongly encouraged to check their proposed program with either the Williams Student Services Center for the College of Engineering (325-4096, Felgar Hall, rm. 112) or Dr. Deborah A. Trytten (325-4299, Devon Energy Hall, room 252).

- Computer Science Minor (p. 790)
- Computational Technology Minor (p. 790)

BACHELOR OF SCIENCE IN COMPUTER SCIENCE/ MASTER OF SCIENCE

The accelerated Bachelor of Science in Computer Science/Master of Science (p. 791) program allows students to pursue a graduate degree in conjunction with the undergraduate degree requirements. The Bachelor of Science portion of the program is accredited by the Computing Accreditation Commission of ABET.

Graduate Master of Science

The Computer Science, Master of Science (p. 792) degree is designed for those wishing to improve their professional competence or to prepare for work towards a doctoral degree.

Doctoral Program

The Computer Science doctoral degree program (p. 793) aims to prepare and develop professionals capable of conducting and directing research within the discipline of computer science.

Faculty

Computer Science, Bachelor of Science in Computer Science

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

¹MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934. **Note:** See an advisor in the Arts and Sciences Advising Center (EL 124) about a possible minor in mathematics.

²Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

³Students are required to make a B or better in C S 1323/C S 1324/C S 1321 or C S 2334 before they can enroll in any other CS courses.

⁴The credits from C S 1321, C S 1323, and C S 1324 plus the open electives must add up to 5.

⁵To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). See list in the Class Schedule.

⁶Courses taken to fulfill the Natural Science requirement must be chosen from the University-Wide General Education Approved Course List (Core II). At least one of the Natural Science courses must be a non-Physics course. The number of credits in Core II Natural Science and open electives must be 14 credit hours or more. All science courses must be for science or engineering majors. Open electives are not required to be General Education approved. Laboratory Core II requirement must be met.

⁷Another laboratory science Core II course may be substituted for PHYS 1311.

⁸Honors College students may substitute C S 3980 for an approved C S elective.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

Students should read the Gallogly College of Engineering Scholastic Regulations posted on the WSSC website.

Computer Science, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

At least 6 credit hours will be in upper division courses (3000 or 4000 level).

A minimum grade of C is required in all courses which are applied to the minor and in all prerequisite courses for the minor. Courses in the minor may be taken at most 3 times.

Students with significant experience in computer programming can get credit for C S 1323 from the Advanced Standing Examination.

Students must complete prerequisites for all courses.

- Minors are available to all undergraduate students at OU.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Code	Title	Credit Hours
MATH 1823	Calculus and Analytic Geometry I ¹	
MATH 2423	Calculus and Analytic Geometry II ¹	
C S 2813	Discrete Structures	3
	or MATH 2513 Discrete Mathematical Structures	
	Choose 6 hours of upper division CS coursework	6
	Choose 9 hours of CS coursework	9
Total Credit Hours		18

¹MATH 1823 as well as MATH 2423 are required for the minor, but they do not count as CS courses.

Computational Technology, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

9 credits from a single selected cognate discipline (JMC, LIS or MIS), at least 6 of which are at the upper division (3000 or 4000 level), and one mathematics course chosen to complement the cognate discipline.

A minimum grade of C is required in all courses which are applied to the minor and in all prerequisite courses for the minor.

Gallogly College of Engineering academic policies regarding repeating courses apply.

Students must complete prerequisites for all courses.

- Minors are available to all undergraduate students at OU.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Computer Science, Bachelor of Science in Computer Science/Master of Science

B.S. Portion of the Program Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign

language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Students may enter the accelerated program based on the undergraduate degree pattern offered in the year they first enrolled in the Oklahoma State System of Higher Education or later.

Students are eligible for graduate status upon graduation with the Bachelor of Science in Computer Science.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3

Credit Hours		9-12
Total Credit Hours		138-142

¹MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

²Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

³Students are required to make a B or better in C S 1323/C S 1324/C S 1321 or C S 2334 before they can enroll in any other CS courses.

⁴The credits from C S 1321, C S 1323, and C S 1324 plus the open electives must add up to 5.

⁵To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). See list in the Class Schedule.

⁶At least one of the Natural Science courses must be a non-Physics course. The number of credits in Core II natural science and open electives must be 14 credit hours or more. All science courses must be for science or engineering majors.

⁷Another laboratory science Core II course may be substituted for PHYS 1311.

⁸At least one of these three MATH courses must be completed.

⁹Students must choose the following for these four electives: one Theory elective; two Systems electives; and one Applications elective. No more than one of these courses may be at the 4000-level. Courses for the areas are from the approved list from the School of Computer Science.

¹⁰No more than two enrollments (six hours) in C S 5970 courses are allowed.

¹¹Honors College students may substitute C S 3980 for an approved C S elective.

¹²Thesis option requires a total of 9 hours of 5000-level electives, which must include six hours of C S 5980. Non-thesis option requires a total of 12 hours of 5000-level electives.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Computer Science Doctoral Programs

The doctoral degree program aims to prepare and develop professionals capable of conducting and directing research within the discipline of computer science. This degree program requires a minimum of three years of full-time study beyond the bachelor's degree that can be completed with a minimum of 45 hours of coursework and a minimum of 30 hours of dissertation research. The combined hours of coursework and dissertation research should be at least 90. Doctoral students are required to pass a general examination before they successfully defend their dissertation.

curriculum

The program requires a total of 90 hours:

- A minimum of 45 credit hours beyond the bachelor's degree. (45-60 hours)
 - Up to 30 hours of coursework from prior master's work can be used to satisfy the minimum 45 hours. The decision of which courses to use toward the course credit hours is for the student's advisory committee to decide.
 - No more than 6 hours of independent studies (including CS 5990 and/or CS 6990) can be counted toward the required minimum 45 hours of coursework.
 - Core Requirements for the Master's Degree in Computer Science:
 - CS 4413 Algorithm Analysis (3 hours) or equivalent, as approved by the graduate liaison.
 - CS 4513 Database Management Systems (3 hours) or equivalent, as approved by the graduate liaison.
 - Four courses (12 hours) selected from: C S 4613, 5013, 5033, 5113, 5133, 5213, 5173, 5473, or 5813.
 - 30-45 hours Dissertation Research C S 6980

Program in Data Science and Analytics

Sridhar Radhakrishnan, Co-Director
 Randa L. Shehab, Co-Director
 Carson Engineering Center Room 111

 Norman OK 73019
 Phone: (405) 325-6417
 datascience@ou.edu
 www.ou.edu/coe/dsa

General Information

Data Science and Analytics is the development of analytical models and methods to extract new knowledge from vast, complex data.

Organizations large and small employ data scientists to determine profitable lines of business, characterize customers, evaluate and predict risks, improve operational efficiencies, predict system performance and perform complex simulations. Graduates in Data Science and Analytics will have the skills to design and build tools to extract, assimilate and analyze data, and the systems understanding to predict and enhance future performance for enterprises across all domains of the private and public sectors.

Graduate

Master of Science

The Data Science and Analytics, Master of Science (p. 795) program merges expertise and knowledge from the Schools of Computer Science and Industrial and Systems Engineering. Students will develop a strong foundation in the theory and application of data science that will give them the skills to harness big data.

Graduate Certificate

Through the Graduate Certificate in Data Science and Analytics (p. 795) students will build their data science and analytics skill set to enhance their current position or to allow them to seek new positions in the field.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Data Science and Analytics, Graduate Certificate

The Graduate Certificate in Data Science and Analytics provides a mechanism for full-time working students to pursue expertise in this rapidly growing discipline. Through a certificate, they will build their data science and analytics skill set to enhance their current position or to allow them to seek new positions in the field. A total of 15 hours is required for the certificate.

Certificate Requirements

Code	Title	Credit Hours
At least 6 hours from the core courses listed below:		6
DSA/C S 5005	Computing Structures	
DSA/C S 4513	Database Management Systems ¹	
DSA/C S 4413	Algorithm Analysis ¹	
DSA/ISE 5013	Fundamentals of Engineering Statistical Analysis	
DSA/ISE 5103	Intelligent Data Analytics	
DSA/ISE 5113	Advanced Analytics and Metaheuristics	
7-9 hours chosen from a set of elective courses approved by the graduate liaison		7-9
Total Credit Hours		15

¹4000-level courses must be taken at the graduate/G level in order to apply to completion of the graduate certificate.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

School of Electrical and Computer Engineering

General Information

The School of Electrical and Computer Engineering has a tradition of technological leadership demonstrated since its inception in 1906 at the University of Oklahoma. Historical highlights of the school include:

- 1906: Moved from Applied Science to College of Engineering;
- 1972: Computer Science combined into the school;
- 1992: Electrical Engineering and Computer Science became separate schools within the College of Engineering; and
- 1996: Curriculum reorganized to support both Electrical and Computer Engineering degrees; the school was renamed the School of Electrical and Computer Engineering.

The faculty of the School of Electrical and Computer Engineering (ECE) is committed to excellence in teaching, quality research in selected areas of leading edge technology, and the professional development of students.

Having Electrical Engineering and Computer Engineering in a single school offers the student an exciting combination of technologies with which to meet the design problems of the twenty-first century and an opportunity to develop hands-on skills at the device and system levels. Each degree is based on class offerings from both specialties within ECE, augmented by classes from the School of Computer Science and the Department of Engineering. With this balance, the student is prepared to handle both hardware and software design and analysis topics. Engineering research and career applications include bioengineering, communications, computer architecture, solid state devices and materials, electric power and radio frequency systems, image and signal processing, instrumentation and control systems, and linear and digital electronics. The school participates with other colleges to develop advanced degrees specializing in electric energy management, bioengineering and telecommunications systems technologies.

Electrical and Computer Engineering Mission Statement

The mission of the School of Electrical and Computer Engineering is to provide a high-quality educational experience for undergraduate and graduate students.

Programs & Facilities

Labs & Facilities

Excellent facilities are available for advanced studies in digital systems, power systems, digital signal processing, intelligent transportation systems, alternate energy, GPS, weather radar and instrumentation, communication, opto-electronics and solid state electronics. The school operates and maintains a variety of computers, a microprocessor lab, a power systems simulator lab, a digital signal processing lab and other instructional and research laboratories. The facilities are used to provide "hands-on" experience for students.

Quantum Device Laboratory

Quantum Device Laboratory at OU is working on quantum engineered semiconductor structures in sub-nanometer scale for realizing functional devices and sub-systems with support from NSF, DoD, and DoE.

Scholarships

The school annually awards many scholarships to students with superior records to help defray the cost of their education. These scholarships are awarded on the basis of merit and need.

Undergraduate

Electrical Engineering

Program Educational Objectives (PEO)

The overarching *Educational Objectives* of the Electrical Engineering program are that our graduates will:

1. Be successfully engaged in their careers, leveraging specialized knowledge of Electrical Engineering
2. Pursue and apply new knowledge to solve constrained problems and develop new opportunities
3. Contribute to society through professional and ethical application of technology

We expect our BS Electrical Engineering graduates to successfully demonstrate abilities appropriate to these objectives within the first three-to-five years of receiving their Baccalaureate Degree in Electrical Engineering.

Computer Engineering

Program Educational Objectives (PEO)

The overarching *Educational Objectives* of the Computer Engineering program are that our graduates will:

1. Be successfully engaged in their careers, leveraging specialized knowledge of Computer Engineering
2. Pursue and apply new knowledge to solve constrained problems and develop new opportunities
3. Contribute to society through professional and ethical application of technology

We expect our BS Computer Engineering graduates to successfully demonstrate abilities appropriate to these objectives within the first

three-to-five years of receiving their Baccalaureate Degree in Computer Engineering.

electrical and computer engineering Undergraduate Student Outcomes

1. an ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Bachelor of Science

Students enrolled in the School of Electrical and Computer Engineering (ECE) are offered a choice of two Bachelor of Science degrees. Curricula are designed to give a thorough understanding of the physical principals, the design process and the current technology in the student's chosen discipline. Accredited by the Engineering Accreditation Commission of ABET.

- Bachelor of Science in Computer Engineering (p. 799)
- Bachelor of Science in Electrical Engineering (p. 800)

Minor

The Electrical and Computer Engineering Minor (p. 801) allows students with similar math/science backgrounds to progress deeply into ECE subject areas that have strong relevance to their Major Degree and Career Objectives.

Accelerated Bachelor of Science/Master of Science

The Accelerated Bachelor of Science/Master of Science programs allow students to pursue a graduate degree in conjunction with the undergraduate degree requirements. Bachelor of Science portion of the program is accredited by the Engineering Accreditation Commission of ABET.

- Bachelor of Science in Computer Engineering/Computer Science, Master of Science (p. 801)
- Bachelor of Science in Computer Engineering/Electrical and Computer Engineering, Master of Science (p. 803)
- Bachelor of Science in Electrical Engineering/Electrical and Computer Engineering, Master of Science (p. 804)

Graduate

Graduate students have an opportunity to select a research topic in one of the many exciting research programs being pursued by our faculty.

In many cases, these research programs have funding to support the student participants during the period of their thesis studies.

Master of Science

Electrical and Computer Engineering, Master of Science (p. 805)

Doctoral Program

Electrical and Computer Engineering Doctoral Program (p. 806)

Goodman	Nathan		2011	CIMMS FELLOW, 2012; DIRECTOR OF RESEARCH, ADVANCED RADAR RESEARCH CENTER, 2015; PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2016	PhD, Univ of Kansas, 2002; MS, Univ of Kansas, 1997; B, Univ of Kansas, 1995
Havlicek	Joseph		1997	PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2007; WILLIAMS COMPANIES FOUNDATION PRESIDENTIAL PROFESSOR, 2009; GERALD TUMA PRESIDENTIAL PROFESSOR, 2017	PhD, Univ of Texas, 1996; MS, Virginia Tech, 1988; BS, Virginia Tech, 1986
Imran	Ali		2014	ASSISTANT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2014	PhD, Univ of Surrey, 2011; MS, Univ of Surrey, 2007; BS, Univ of Engineering & Tech
Jiang	Ning		2007	ASSOCIATE PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2012; OKLAHOMA GAS AND ELECTRIC CO. PROFESSOR OF ELECTRICAL ENGINEERING, 2012	PhD, Univ of Texas, 2005; MS, Univ of Texas, 1998; M Engr, Chinese Acad of Science, 1994; BSc, Tsinghua Univ, 1991
Liu	Hong		2000	CHARLES B. JR. AND JEAN SMITH CHAIR IN ELECTRICAL AND COMPUTER ENGINEERING, 2000; GEORGE LYNN CROSS RESEARCH PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2007	PhD, Worcester Polytechnic Inst., 1992; MS, Beijing Inst. of Posts & Telecom, 1982; BS, Beijing Polytechnic Univ, 1977
McCann	Patrick		1990	GEORGE LYNN CROSS RESEARCH PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2006; HENRY J. FREEDE M.D. PROFESSOR OF ENGINEERING, 2010	PhD, Mass Inst of Tech, 1990; BS, Univ of California Berkeley, 1981
McDaniel	Jay	W	2018	ASSISTANT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2018	PhD, Univ of Oklahoma, 2018; MS, Univ of Kansas, 2015; BS, Kansas State Univ, 2013
Metcalfe	Justin	G	2018	ASSISTANT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2018	PhD, Univ of Kansas, 2015; MS, Univ of Kansas, 2011; BS, Kansas State Univ, 2006
Moses	Paul	S	2017	ASSISTANT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2017	PhD, Curtin Univ of Tech, 2012; BS, Curtin Univ of Tech, 2006
Qiu	Yuchen		2008	ASSISTANT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2016	PhD, Univ of Oklahoma, 2013; ME, Xi'an Jiaotong Univ, 2008; BE, Xi'an Jiaotong Univ, 2005
Refai	Hazem	H	2001	DIRECTOR, EMC TEST LAB, 2008; PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING AT TULSA, 2012; WILLIAMS CHAIR IN TELECOMMUNICATIONS NETWORKING, 2017; WILLIAMS PROFESSOR IN TELECOMMUNICATIONS NETWORKING	PhD, Univ of Oklahoma, 1999; MS, Univ of Oklahoma, 1993; BS, Aleppo, 1987
Runolfsson	Thordur		2003	PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2003; PROFESSOR TELECOMMUNICATIONS ENGINEERING	PhD, Univ of Michigan, 1988; BS, Univ of Wisconsin, 1983
Ruyle	Jessica		2011	ASSISTANT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2011; CIMMS FELLOW, 2012	PhD, Univ of Illinois, 2011; MS, Univ of Illinois, 2008; BS, Texas A&M Univ, 2006
Salazar-Cerreño	Jorge	L	2015	CIMMS FELLOW, 2015; ASSISTANT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2015	PhD, Univ of Massachusetts, 2012; MA, Univ of Puerto Rico, 2002; BS, Universidad Privada Antenor Orrego, 1994

Shi	Zhisheng	1997	PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2006; GERALD TUMA PRESIDENTIAL PROFESSOR, 2008	PhD, Inst Albert-Ludwig Univ Freiburg; MS, Jilin Univ, 1987; BS, Jilin Univ, 1984	
Sigmarsson	Hjalti	2011	ASSOCIATE PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2018; GERALD TUMA PRESIDENTIAL PROFESSOR, 2018; CIMMS FELLOW, 2012	PhD, Purdue Univ, 2010; MS, Purdue Univ, 2005; BS, Univ of Iceland, 2003	
Sluss	James Jr.	1997	REGENTS PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2017	PhD, Univ of Virginia, 1989; MS, Univ of Virginia, 1986; BS, Marshall Univ, 1984	
Tang	Choon Yik	2006	ASSOCIATE PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2013; GERALD TUMA PRESIDENTIAL PROFESSOR, 2016	PhD, Univ of Michigan, 2003; MS, Oklahoma State Univ, 1997; BS, Oklahoma State Univ, 1996	
Weng	Binbin	2015	CLEANROOM ENGINEER, 2015; ASSISTANT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2018	MS, Zhejiang Univ, 2008; BS, Zhejiang Univ, 2005	
Xiang	Liangzhong	2015	ASSISTANT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2015	PhD, South China Norman Univ, 2010	
Yang	Rui	Q	2007	PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2007	PhD, Nanjing Univ, 1987; MS, Nanjing Univ, 1984; BS, Zhejiang Univ, 1982
Yeary	Mark	2002	CIMMS FELLOW, 2007; C. B. HUDSON/TORCHMARK PRESIDENTIAL PROFESSOR, 2010; PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2012; DIRECTOR, DEFENSE, SECURITY AND INTELLIGENCE RESEARCH INITIATIVE, 2015	PhD, Texas A&M Univ, 1999; MS, Texas A&M Univ, 1994; BS, Texas A&M Univ, 1992	

Yu	Tian You	2002	CIMMS FELLOW, 2007; ADJUNCT ASSOCIATE PROFESSOR OF METEOROLOGY, 2008; GERALD TUMA PRESIDENTIAL PROFESSOR, 2012; PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2012	PHD, Univ of Nebraska, 2000; MS, National Central Univ, 1992; BS, National Central Univ, 1990
Zhang	Yan	2006	CIMMS FELLOW, 2007; PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2018; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2015	PhD, Univ of Nebraska, 2004; MSEE, Beijing Inst of Tech, 2001; BS, Beijing Inst of Tech, 1998
Zheng	Bin	2013	PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2013	PhD, Univ of Delaware, 1993; MS, Shanghai Univ of Science and Tech, 1984; BS, Shanghai Univ of Science and Tech, 1982

Computer Engineering, Bachelor of Science in Computer Engineering

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
CHEM 1315	General Chemistry ¹	5
MATH 1914	Differential and Integral Calculus I (Core I) ²	4
HIST 1483 or HIST 1493	United States, 1492 to 1865 (Core IV) or United States, 1865 to the Present	3
ENGR 1411	Freshman Engineering Experience ³	1
Credit Hours		16
Second Semester		
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
MATH 2924	Differential and Integral Calculus II ²	4
PHYS 2514	General Physics for Engineering and Science Majors (Core II)	4
P SC 1113	American Federal Government (Core III)	3

C S 1323	Introduction to Computer Programming for Programmers	3
Credit Hours		17

Sophomore**First Semester**

MATH 2934	Differential and Integral Calculus III ²	4
PHYS 2524	General Physics for Engineering and Science Majors	4
C S 2334	Programming Structures and Abstractions	4
ECE 2214	Digital Design	4
Credit Hours		16

Second Semester

MATH 3113	Introduction to Ordinary Differential Equations	3
C S 2413	Data Structures	3
C S 2813	Discrete Structures	3
ECE 2713	Digital Signals and Filtering	3
ECE 2723	Electrical Circuits I	3
ENGR 2002	Professional Development	2
Credit Hours		17

Junior**First Semester**

ECE 2523	Probability, Statistics and Random Processes	3
ECE 3723	Electrical Circuits II	3
ECE 3773	Electrical and Computer Engineering Circuits Laboratory	3
ECE 3813	Introductory Electronics	3
Approved Elective, Social Science (Core III) ⁴		3
Credit Hours		15

Second Semester

ECE 3223	Microprocessor System Design	3
ECE 3793	Signals and Systems	3
ECE 3873	Electrical and Computer Engineering Electronics Laboratory	3
MATH 3333	Linear Algebra I	3
Approved Elective, Artistic Forms (Core IV) ⁴		3
Credit Hours		15

Senior**First Semester**

ECE 4273	Digital Design Laboratory	3
ECE 4613	Computer Architecture	3
Professional Elective ⁵		3
ECE/CS 3000-4000-level Elective ⁵		3
Approved Elective, Western Civ. & Culture (Core IV) ⁴		3
Credit Hours		15

Second Semester

ECE 4773	Laboratory (Special Projects) (Capstone)	3
ECE/CS 4000- or higher level Elective ⁵		3
ECE/CS 4000- or higher level Elective ⁵		3
ECE/CS 3000-4000-level Elective ⁵		3

Approved Elective, Non-Western Culture (Core IV) ⁴		3
Credit Hours		15
Total Credit Hours		126

¹CHEM 1315 can be substituted with CHEM 1335 (Fall only).

²MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

³Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

⁴To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). See list in the Class Schedule.

⁵Electives to be selected from list available in the ECE Office, DEH-150. **Note:** One of the four electives must be an approved ECE course.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

⁴To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division(3000-4000). See list in the Class Schedule.

⁵Electives to be selected from list available in the ECE Office, DEH-150.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

Electrical and Computer Engineering, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

At least 9 credit hours will be in upper division courses (3000 or 4000 level).

Students must complete prerequisites for all courses.

- Minors are available to all undergraduate students at OU.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Code	Title	Credit Hours
ECE 2713	Digital Signals and Filtering ¹	3
ECE 2214	Digital Design	4
ECE 2723	Electrical Circuits I	3
Choose 9 hours of upper division ECE coursework		9
Total Credit Hours		19

¹Introductory prerequisites ENGR 1411/ENGR 3511 waived for non-Engineering candidates.

Computer Engineering, Bachelor of Science in Computer Engineering/ Computer Science, Master of Science

B.S. Portion of the Program Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C

or better is required in each course in the curriculum, including all prerequisite courses.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Students are eligible to enter accelerated program after application is granted for unconditional enrollment in upper-division ECE courses and meeting minimum requirements, including a 3.50 retention and 3.50 combined retention grade point average. Students may enter the accelerated program based on the undergraduate degree pattern offered in the year they first enrolled in the Oklahoma State System of Higher Education or later.

Students are eligible for graduate status upon graduation with the Bachelor of Science in Computer Engineering.

¹CHEM 1315 can be substituted with CHEM 1335 (Fall only).

²MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

³Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

⁴To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). See list in the Class Schedule.

⁵Electives to be selected from list available in the ECE Office, DEH-150.

⁶Fourth and fifth year electives (G4000 or higher, including technical electives for MS) must satisfy MSECE Approved Requirements.

⁷Thesis option requires nine hours; non-thesis requires 12 hours.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

Electrical and Computer Engineering, Master of Science

- All courses must be G4000 level or higher, or from a list of approved non-ECE G3000 courses (list is maintained in the ECE department).
- No more than 12 hours below the 5000 level may be applied to the degree, of which no more than 9 hours may be ECE coursework below the 5000 level.
- Any cross-listed course must be taken under the ECE prefix. Any slash-listed course must be taken at the graduate level.
- No more than 6 hours of ECE 5990 may be taken.
- No more than 12 hours of ECE 5973 may be taken.
- No more than 12 hours of ECE 5283 may be taken.
- No more than 12 hours of ECE 6973 may be taken.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Electrical and Computer Engineering Doctoral Programs

The total number of credits required to complete the Ph.D. is 90 semester hours beyond the B.S. degree. This normally includes 30 credit hours for a doctoral dissertation. Students are allowed to transfer up to 44 credits (in accordance with the Graduate Bulletin) from a master's degree toward the 90 hours required. Specific requirements for the Ph.D. are set by each student's doctoral committee in conformance with the current rules of the Graduate College. A qualifying examination is required of all students.

curriculum

The program requires a total of 90 hours:

- 12 hours Area coursework in Electrical and Computer Engineering (at least 4 courses in one ECE area). The list of areas and courses maintained in the ECE grad office.
- 6+ hours Dissertation Research ECE 6980

Notes:

- All courses must carry graduate credit and any G3000 level courses must be from an approved list.
- Maximum 16 hours below 5000 level. No more than 12 hours below 5000 level may be ECE coursework.
- Crosslisted courses must be taken with ECE prefix and Slashlisted courses must be taken at the graduate level.
- Maximum 9 hours independent/special studies (5990)
- Maximum 12 hours in each category: ECE 5973, ECE 6973, ECE 5283,

Prior to attempting the general examination, a student must complete at least 33 credit hours that includes 18 credit hours of ECE courses. These 33 credit hours may include transferred master's degree credit and/or post-baccalaureate graduate credit. Successful completion of a

General Examination, consisting of both written and oral parts, is required before preparation of the dissertation. The main intent of this exam is to evaluate the student's total preparation for conducting research and successfully completing the doctoral dissertation. Within the general requirements stipulated by the Graduate College, the specific format and requirements for the General Examination are determined by the student's doctoral committee in compliance with Graduate College's policy.

Students are required to pass the ECE Preliminary Exam. The School of Electrical and Computer Engineering will ensure this requirement is met before defense of the dissertation.

Also, there is a Dissertation Pre-Defense Seminar requirement as well as additional publication requirements. Click here for detailed requirement information regarding the Doctoral Program - 2017.

General Information

Engineering is a vibrant program that balances an outstanding academic curriculum with faculty working in state of the art research programs. It is founded upon multiple faculties and is geared to address individual student needs in preparation for careers in advanced engineering or related science areas.

Graduate

Engineering M.S. and Ph.D. programs are designed to provide students flexibility to pursue a multidisciplinary curriculum not available through a traditional departmental track.

Engineering Doctoral Programs

The **Engineering Education concentration** requires a total of 90 hours:

- 15 hours of 5000 level or above letter graded courses in engineering, science, or math (maximum of 9 hours in science and math)
- 1-3 hours Engineering Education Enquiry Seminar ENGR 5120
- 3 hours Qualitative Research Methods, choose from: EIPT 6043 or COMM 5313 or SOC 5313
- 3-6 hours Quantitative Research Methods ISE 5553 and/or ISE 5853
- 0-3 hours Instructional Theory ENGR 5113
- 3 hours Diversity topics, choose from: EDAH 5473, EDAH 5940 Gender, Society, and Education, EDS 5833, PHIL 5833, HSCI 5550, or EDS 5933
- 2-45 hours Dissertation Research ENGR 6980
- 12-63 hours additional coursework

Notes:

- At least 9 hours of 5000-level or above letter graded engineering courses beyond the MS are required. ENGR 5120, ISE 5553, ISE 5853, and ENGR 5113 may count toward this requirement.

Engineering, Master of Science

At least one year of industry experience is required for the non-thesis option.

No more than 12 credit hours of 4000 level engineering and science courses (approved for graduate credit) can be applied to the degree, and no more than 9 credit hours of these 4000 level courses can be from a single discipline.

A Bachelor of Science in Engineering or equivalent, GRE, and an above-average record in the undergraduate program are required for admission. Students with degrees from non-engineering disciplines are expected to do remedial work as determined by the Graduate Engineering Program Committee.

General Information

Engineering Physics History

The Engineering Physics Program at the University of Oklahoma is one of the oldest of its kind in the nation. Established in 1924, the Engineering Physics program has been accredited by the Accreditation Board for Engineering and Technology since 1953. The program makes use of the extensive teaching and research facilities of both the Gallogly College of Engineering and the Homer L. Dodge Department of Physics and Astronomy in the College of Arts and Sciences.

What is engineering physics?

The engineering physicist is interested not only in understanding physical phenomena and the underlying principles, but also in applying this knowledge to the solution of a broad range of challenges. As the miniaturization of transistors, lasers and memory elements continues, understanding of their operation increasingly requires knowledge of quantum mechanics, statistical mechanics and other aspects of nanoscience.

Mission

The mission of the Engineering Physics Program is to prepare students for careers in areas of technology where the disciplines of physics and engineering intersect. The Program provides an interdisciplinary environment where pure and applied science merge. The curriculum is designed to develop sufficient depth in both engineering skills

and physics knowledge to produce engineers who are able to relate fundamental physical principles to practical problems in engineering.

Programs & Facilities

Engineering Physics Scholarships

There are many scholarships available to current Engineering Physics students.

Student Organizations

There are many great student organizations at OU for Engineering Physics students.

Undergraduate

engineering physics Program Educational Objectives (peo)

Program Educational Objective 1:

Our graduates will pursue careers as engineers, as physicists, or in other fields where an education in Engineering Physics is advantageous.

Program Educational Objective 2:

Our graduates will be effective problem solvers in their chosen career paths.

Program Educational Objective 3:

Our graduates will engage in life-long learning and professional development activities.

engineering physics Undergraduate Student Outcomes

To prepare graduates of the Engineering Physics program to attain these educational objectives, the Engineering Physics curriculum is designed to include the following student outcomes:

1. an ability to apply knowledge of mathematics, science, and engineering;
2. an ability to design and conduct experiments, as well as to analyze and interpret data;
3. an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
4. an ability to function on multidisciplinary teams;
5. an ability to identify, formulate, and solve engineering problems;
6. an understanding of professional and ethical responsibility;
7. an ability to communicate effectively;
8. the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
9. a recognition of the need for, and an ability to engage in life-long learning;
10. a knowledge of contemporary issues;
11. an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

BACHELOR OF SCIENCE IN ENGINEERING PHYSICS

The Bachelor of Science in Engineering Physics (p. 810) curriculum is designed to develop sufficient depth in both engineering skills and physics knowledge to produce engineers capable of working at the cutting edge of developing technologies and contribute to new fields as

they emerge. Accredited by the Engineering Accreditation Commission of ABET.

Graduate

The Engineering Physics, Master of Science (p. 811) degree program provides coursework and practical experience that prepares students for immediate placement in industrial positions.

Each student in the Engineering Physics Doctoral Program (p. 811) is assigned an advisory committee who will determine the specific requirements within the guidelines set by the Graduate College and Gallogly College of Engineering.

Engineering Physics, Bachelor of Science in Engineering Physics

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

General Information

Industrial and Systems engineering is vital to providing solutions to complex problems in wide-ranging fields including manufacturing, transportation, technology, healthcare, aerospace, and supply chain management; and our talented faculty and students lead the way in research efforts in these areas and many others. Industrial and Systems engineers improve, integrate, inform and innovate. While most engineers work with products or processes, ISEs work on a broad range of problems involving both people and technology. Companies seek ISEs for their expertise in understanding, evaluating and improving the performance of entire technical and business systems. ISE graduates find employment in more industry sectors than any other type of engineer. Our graduates can be found working in a wide range of jobs and locations, from Wall

Street financial firms to Silicon Valley start-ups and fields that include aerospace, manufacturing, energy, healthcare, entertainment, risk management, logistics, defense, and retail/wholesale distribution.

Mission Statement

The mission of the School of Industrial and Systems Engineering is to produce graduates with the capability to make systems productive through optimization and integration of processes, resources, and information.

Programs & Facilities

Research Centers

There are a number of research opportunities for faculty and students at several research centers operated by the school, the college, and the University.

Laboratories

Many of the laboratory facilities used by ISE students are used in association with elective coursework selected by students. Most labs are available by permission 24-hours a day.

Student Organizations

ISE students have the opportunity to participate in a number of student organizations.

Undergraduate

Accreditation

The Bachelor of Science in Industrial & Systems Engineering is accredited by the Engineering Accreditation Commission of ABET. This means that our program meets the quality standards set for the programs in the engineering discipline.

Industrial and Systems Engineering Program Educational Objectives (PEO)

Our Industrial and Systems Engineering undergraduate program is preparing our recent graduates to meet the following objectives:

1. Our alumni will have successful careers strengthened by knowledge of industrial and systems engineering methods and principles.
2. Our alumni will be emerging or established leaders among their peers.
3. Our alumni will be engaged in activities of life-long learning and professional development through willingness to take on challenges and learning opportunities.

Industrial & Systems Engineering Student Learning Outcomes

Through our Industrial and Systems Engineering undergraduate curriculum students will attain the following learning outcomes:

1. An ability to apply knowledge of mathematics, science, and engineering
 - Statistical distributions, data analysis (math)
 - Material selection (physics, chemistry)
 - Behavior of human-machine systems (anatomy, physics, psychology)
2. An ability to design and conduct experiments, as well as to analyze and interpret data
 - formulate hypotheses, make statistical decisions/inferences

- design appropriate experiment/model/principles
3. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
 - system modeling (define system inputs/outputs, constraints, boundaries)
 - successful completion of project (Capstone)
 4. An ability to function on multidisciplinary teams
 - value other view points, take responsibility, make contribution to team
 - communication with other disciplines
 - broad knowledge of engineering disciplines; have foundation in broad disciplines of engineering
 5. An ability to identify, formulate, and solve engineering problems
 - collect and classify appropriate data
 - interpret data to formulate IE problems
 - develop and evaluate solutions given constraints
 6. An understanding of professional and ethical responsibility
 - understand the engineering code of ethics, understand academic integrity
 - evaluate problems from ethical perspective
 - understand protection of human research participants
 7. An ability to communicate effectively
 - use data to support ideas/solutions
 - prepare effective written and oral technical communication using modern technology
 - prepare for and participate in career fair
 8. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
 - evaluate the economic merit of project
 - understand industrial engineering practice in a modern global workplace
 9. A recognition of the need for, and an ability to engage in life-long learning
 - complete literature review
 - engage in research
 10. A knowledge of contemporary issues
 - demonstrate awareness of relevant current events
 - understand multiple topics for capstone projects (peer assessment)
 - participate in extra-curricular learning activities (IIE)
 11. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice
 - Successful completion of course project

Bachelor of Science in Industrial and Systems Engineering

The Industrial and Systems Engineering undergraduate curriculum is designed to provide students with an outstanding professional educational experience that is practical, modern, and progressive. The undergraduate program has been accredited by the Engineering Accreditation Commission ABET www.abet.org since 1966. A number of undergraduate options allow students to focus on a number of elective paths.

- Industrial and Systems Engineering (p. 814)
- Analytics (p. 815)
- Pre-Medicine (p. 816)

Accelerated Programs

Programs leading to Master of Science degrees in Industrial and Systems Engineering or Master of Business Administration degrees also are available to outstanding undergraduate students. The Bachelor of Science portion of the program is accredited by the Engineering Accreditation Commission of ABET.

- Bachelor of Science in Industrial and Systems Engineering/Master of Science (p. 819)
- Bachelor of Science in Industrial and Systems Engineering: Analytics/Master of Science (p. 821)
- Bachelor of Science in Industrial and Systems Engineering/Master of Business Administration (p. 822)

Graduate

Graduate programs offer students a number of paths to pursue in their graduate program, focusing on theory, methodology, and application in the classroom as well as in their research.

- Industrial and Systems Engineering, Master of Science (p. 823)
- Industrial and Systems Engineering Doctoral Programs (p. 824)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Allen	Janet		2009	PROFESSOR OF INDUSTRIAL AND SYSTEMS ENGINEERING, 2009; JOHN AND MARY MOORE CHAIR IN ENGINEERING, 2009	PhD, Univ of California, Berkeley, 1973; BS, Mass Inst of Technology, 1987
Barker	Kash		2011	ASSOCIATE PROFESSOR OF INDUSTRIAL AND SYSTEMS ENGINEERING, 2015; ANADARKO PETROLEUM CORPORATION PRESIDENTIAL PROFESSOR, 2016; ASSOCIATE PROFESSOR DATA SCIENCE AND ANALYTICS	PhD, Univ of Virginia, 2008; MS, Univ of Oklahoma, 2004; BS, Univ of Oklahoma, 2002
Dodd	Owen	T	2018	ASSISTANT PROFESSOR OF INDUSTRIAL AND SYSTEMS ENGINEERING, 2018	PhD, Univ of Oklahoma, 2013; BS, Univ of Oklahoma, 2004
Gonzalez Huertas	Andres	D	2017	ASSISTANT PROFESSOR OF INDUSTRIAL AND SYSTEMS ENGINEERING, 2017	PhD, Universidad de los Andes, 2017; PhD, Rice Univ, 2017; MS, Universidad de los Andes, 2017; BS, Universidad de los Andes, 2009

Huebner Dos Reis	Pedro		2018	ASSISTANT PROFESSOR OF INDUSTRIAL AND SYSTEMS ENGINEERING, 2018	PhD, North Carolina State Univ, 2018; MS, North Carolina State Univ, 2015; BS, Pontificia Universidade Catolica do Parana, 2013
Kang	Ziho		2014	ASSISTANT PROFESSOR OF INDUSTRIAL AND SYSTEMS ENGINEERING, 2014	PhD, Purdue Univ, 2012; MS, Purdue Univ, 2006; BS, Korea Univ, 2001
Landers	Thomas		1998	PROFESSOR OF INDUSTRIAL AND SYSTEMS ENGINEERING, 1998; DIRECTOR, INSTITUTE FOR OKLAHOMA TECHNOLOGY APPLICATIONS, 2004; AT&T CHAIR IN ENGINEERING, 2005	PhD, Texas Tech Univ, 1985; MS, Texas Tech Univ, 1973; BS, Texas Tech Univ, 1972
Mohebbi	Shima		2017	ASSISTANT PROFESSOR OF INDUSTRIAL AND SYSTEMS ENGINEERING, 2017	PhD, Univ of Tennessee, 2015; MS, Univ of Tennessee, 2015
Nicholson	Charles		2013	ASSISTANT PROFESSOR OF INDUSTRIAL AND SYSTEMS ENGINEERING, 2013; ASSISTANT PROFESSOR DATA SCIENCE AND ANALYTICS	PhD, Southern Methodist Univ; MS, Univ of North Texas; BS, Univ of North Texas
Pulat	Pakize Simin		1985	PROFESSOR-EMERITUS OF INDUSTRIAL AND SYSTEMS ENGINEERING, 1996	PhD, North Carolina St Univ, 1984; MS, North Carolina St Univ, 1977; BS, Middle East Tech Univ, 1975
Raman	Shivakumar		1988	SAMUEL ROBERTS NOBLE PRESIDENTIAL PROFESSOR, 1999; DAVID ROSS BOYD PROFESSOR OF INDUSTRIAL AND SYSTEMS ENGINEERING, 2004; MORRIS R. PITTMAN PROFESSOR, 2019	PhD, Pennsylvania State Univ, 1989; MS, Univ of Texas Arlington, 1985; B Engr, Shivaji Univ, 1983
Shehab	Randa		1997	PROFESSOR OF INDUSTRIAL AND SYSTEMS ENGINEERING, 2009; ADJUNCT PROFESSOR OF WOMEN'S AND GENDER STUDIES, 2013; NETTIE VINCENT BOGGS PROFESSOR OF ENGINEERING, 2014; CO-DIRECTOR DATA SCIENCE AND ANALYTICS	PhD, Univ of Oklahoma, 1995; MS, Univ of Oklahoma, 1993; BS, Univ of Oklahoma, 1989

Trafalis Theodore B	1991	PROFESSOR OF INDUSTRIAL AND SYSTEMS ENGINEERING, 2002; ADJUNCT PROFESSOR OF METEOROLOGY, 2008; PROFESSOR DATA SCIENCE AND ANALYTICS	PHD, Purdue Univ, 1989; MS, Purdue Univ, 1984; BS, Athens, 1982

Industrial and Systems Engineering, Bachelor of Science in Industrial and Systems Engineering

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
CHEM 1315	General Chemistry (Core II) ¹	5
MATH 1914	Differential and Integral Calculus I (Core I) ²	4
P SC 1113	American Federal Government (Core III)	3
ENGR 1411	Freshman Engineering Experience ³	1
Credit Hours		16
Second Semester		
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
MATH 2924	Differential and Integral Calculus II ²	4
HIST 1483 or HIST 1493	United States, 1492 to 1865 (Core IV) or United States, 1865 to the Present	3
PHYS 2514	General Physics for Engineering and Science Majors (Core II)	4
Credit Hours		14
Sophomore		
First Semester		
MATH 2934	Differential and Integral Calculus III ²	4
PHYS 2524	General Physics for Engineering and Science Majors	4
CEES 2113	Statics	3
ENGR 2002	Professional Development	2
ISE 2823	Enterprise Engineering	3
Credit Hours		16

Second Semester

C S 1323 or C S 1313	Introduction to Computer Programming for Programmers or Programming for Non-Majors with C	3
CEES 2153	Mechanics of Materials	3
ISE 3293	Applied Engineering Statistics	3
ISE 2303	Design and Manufacturing Process	3
ISE 2311	Computer Aided Design and Graphics Laboratory for Industrial Engineers	1
MATH Elective (p. 815)		3
Credit Hours		16

Junior

First Semester

ISE 3304	Design and Manufacturing II	4
ISE 4113	Spreadsheet Dec Support Sys	3
ISE 4553	Data-Driven Decision Making I	3
ISE 4623	Deterministic Systems Models	3
Approved Elective: Social Science (Core III) ⁴		3
Credit Hours		16

Second Semester

ISE 4223	Fundamentals of Engineering Economy	3
ISE 4563	Quality & Reliability Engineering	3
ISE 4633	Probabilistic Systems Models	3
ISE 4804	Ergonomics in Systems Design	4
ENGR 2461	Thermodynamics	1
ENGR 3441	Fluid Mechanics	1
Credit Hours		15

Senior

First Semester

ISE 4333	Production Systems/Operations	3
ISE 4383	Systems Evaluation	3
ISE 4663	Systems Analysis Using Simulation	3
ISE 4853	Data-Driven Decision Making II	3
ENGR 2431	Electrical Circuits	1
Approved Elective: Artistic Forms (Core IV) ⁴		3
Credit Hours		16

Second Semester

ISE 4393	Capstone Design Project (Capstone)	3
ISE Elective ⁵		3
ISE Technical Elective ⁶		3
Approved Elective: Non-Western Culture (Core IV) ⁴		3
Approved Elective: Western Civ. & Culture (Core IV) ⁴		3
Credit Hours		15
Total Credit Hours		124

¹CHEM 1315 can be substituted with CHEM 1335 (Fall only).

²MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

³Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

⁴To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). See list in the Class Schedule.

⁵To be chosen from an approved list of ISE electives available in the ISE office, CEC 116.

⁶To be chosen from an approved list of ISE technical electives available in the ISE office, CEC 116.

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

Approved Math Electives

Code	Title	Credit Hours
MATH 2513	Discrete Mathematical Structures	3
MATH 3113	Introduction to Ordinary Differential Equations	3
MATH 3333	Linear Algebra I	3
MATH 3413	Physical Mathematics I	3
MATH 3513	Foundations of Analysis	3
MATH 3613	Modern Geometry	3
MATH 4433	Introduction to Analysis I	3

¹CHEM 1315 and CHEM 1415 can be substituted with CHEM 1335 (Fall only) and CHEM 1435 (Spring only), respectively.

²MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

³Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

⁴To be chosen from the approved list of biology electives consisting of BIOL 3113, BIOL 3333, or BIOL 4843.

⁵To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). See list in the Class Schedule.

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

Admission requirements vary with medical schools. Students should consult with advisors in the Pre-Medical Professions Advising Office each semester (Cate 1, Room 416, or call 405-325-2457) as well as the Williams Student Services Center to ensure completion of the necessary prerequisite courses. This may include additional coursework not required for this specific undergraduate degree program in Industrial and Systems Engineering. Note: Most medical schools require PHYS 1311 and PHYS 1321.

Industrial and Systems Engineering, Bachelor of Science in Industrial and Systems Engineering/Master of Science, Data Science and Analytics

B.S. Portion of the Program Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses.

Admission to the accelerated program is by application and requires a minimum OU GPA and combined GPA of 3.0. Students may enter the accelerated program based on the undergraduate degree pattern offered in the year they first enrolled in the Oklahoma State System of Higher Education or later. Students are eligible for graduate status upon graduation with the Bachelor of Science in Industrial Engineering.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

Students may enter the accelerated program based on the undergraduate degree pattern offered in the year they first enrolled in the Oklahoma State System of Higher Education or later. Students are eligible for graduate status upon graduation with the Bachelor of Science in Industrial Engineering.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Courses designated as Core I, II, III, IV or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

- ¹CHEM 1315 can be substituted with CHEM 1335 (Fall only).
- ²MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.
- ³Engineering transfer students may take ENGR 3511 in place of ENGR 1411.
- ⁴To be chosen from the University-Wide General Education Approved Course List. Three of these 12 hours must be upper-division (3000-4000). See list in the Class Schedule.
- ⁵These courses are dual-counted, fulfilling requirements for both the undergraduate degree and the graduate business degree.
- ⁶To be approved by the DSA graduate liaison.

Industrial and Systems Engineering, Bachelor of Science in Industrial and Systems Engineering/Master of Science

B.S. Portion of the Program Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses.

Two college-level courses in a single foreign language are required; this may be satisfied by successful completion of 2 years in a single foreign language in high school. Students who must take foreign language at the University will have an additional 6-10 hours of coursework.

Admission to the accelerated program is by application and requires a minimum OU GPA and combined GPA of 3.25. Students may enter the accelerated program based on the undergraduate degree pattern offered in the year they first enrolled in the Oklahoma State System of Higher Education or later.

Students are eligible for graduate status upon graduation with the Bachelor of Science in Industrial Engineering.

Industrial and Systems Engineering, Bachelor of Science in Industrial and Systems Engineering/Master of Business Administration

B.S. Portion of the Program Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses.

Students must take the GMAT and apply for the MBA program during the third year; minimum OU GPA and combined GPA of 3.0 is required. Students should submit an application to the School of Industrial and Systems Engineering for the accelerated program during the fall semester of the junior year. Students may enter the accelerated program based on the undergraduate degree pattern offered in the year they first enrolled in the Oklahoma State System of Higher Education or later. Students must maintain a 3.0 GPA from the time of entering the accelerated program until graduation.

¹The non-thesis option requires 24 hours of electives, as approved by the graduate liaison and advisor. At least 15 hours must be in Industrial and Systems Engineering. Up to 9 hours may be non-ISE courses.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Industrial and Systems Engineering Doctoral Programs

The doctoral program prepares students for careers in academia and for advanced professional careers in research and development. Doctoral students are capable of advancing the frontiers of knowledge through independent research and scholarship.

curriculum

The program requires a total of 90 hours:

- 9 hours Core Courses: ISE 5013, ISE 5023, ISE 5033
- 39-51 hours Additional Coursework:
 - 9 hours of 6000-level ISE coursework (can include ISE 6990 taught by the major professor; must be approved by the advisory committee)
 - 3 hours of 5000/6000-level ISE coursework
 - 9 hours of Elective coursework, as approved by the graduate liaison and advisory committee
 - 18-30 hours of additional coursework
- 30-42 hours Dissertation Research ISE 6980

Students with an MS thesis from a recognized industrial engineering program may petition the Graduate Committee to apply up to 30 hours from the MS degree and waive the core course requirements. If a student is approved to waive core course requirements, these courses must be replaced by other courses not including independent study.

Program in Telecommunications

Schusterman Center
4502 E. 41st St., Bldg 4, Room 4403
Tulsa OK 74135
Phone: (918) 660-3235
Fax: (918) 660-3238
engineering@ou.edu
www.ou.edu/coe/tcom

General Information

The graduate program in Telecommunications Engineering at the University of Oklahoma Tulsa campus is part of the School of Electrical and Computer Engineering within OU's College of Engineering. Designed with students in mind, the goal is providing the professional and research skills necessary to successfully advance a student's engineering career. OU-TCOM has an excellent program especially for those looking out for research in the field of telecommunication. The program is structured such that it covers the core aspects of telecommunication from Wireless communications, Optical system and networks to Network Design and Management. Advanced course work like Computer and Communication Security includes recent technological advances in the field of quantum cryptography. In addition to the course work, there are four fully equipped Labs available for students for practical implementation of their knowledge.

Programs & Facilities**Telecommunications Labs**

The OU-Tulsa Telecom Program has world class research labs dedicated to the areas of photonics, quantum optics, wireless networking, electromagnetic compatibility and interoperability. TCOM researchers have had extremely productive collaborations with colleagues in Norman, in the OU-Tulsa College of Medicine and at the University of Tulsa in fiber optics, medical devices and network security. Students learn and use the technique in the interoperability verification in a hands-on training environment. The interoperability lab encompasses five domains of telecommunication: PSTN/Legacy, wireless, optical/photonics, IP and ATM.

Graduate**Master of Science**

The Telecommunications Engineering Master of Science offers an excellent experience in learning and conducting research in all aspects of telecommunications sciences. The current areas of research focus are: optical sciences including optical networking, wireless networking, information theory, and cryptography, including quantum cryptography.

- Telecommunications Engineering: Non-thesis (p. 825)
- Telecommunications Engineering: Thesis (p. 825)

Telecommunications Engineering: Non-thesis, Master of Science

Non-Thesis Option

Each student must satisfactorily complete a comprehensive professional project constituted by satisfactory completion of TCOM 5671 and TCOM 5682. A successful defense of the project is part of the oral comprehensive examination. TCOM 5671 and TCOM 5682 cannot be taken during the same semester.

Total Credit Hours	32

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Administrative Officers

Mary Margaret Holt, M.F.A., Dean, John W. and Mary D. Nichols Chair,
Regents and Presidential Professor of Dance
Roland Barrett, Ph.D., Director and Henry Zarrow Presidential Professor,
School of Music
Michael Bearden, Director, School of Dance
Brian Britt, M.M., Associate Dean and Associate Professor of Music
Ashton Byrum, M.F.A., Director, A. Max Weitzenhoffer School of Musical
Theatre
Pete Froslic, M.F.A., Interim Director, OU School of Visual Arts
Adrian Fung, M.B.A., Associate Dean and Associate Professor of Music
Seth Gordon, Director, Peggy Dow Helmerich School of Drama

General Information

The College of Fine Arts includes the Schools of Dance, Music, the Peggy Dow Helmerich School of Drama, the A. Max Weitzenhoffer School of Musical Theatre, and the OU School of Visual Arts. Each unit offers degree programs at the undergraduate level. In addition, the schools of Dance, Drama, Music and Visual Arts offer graduate degree programs.

History/Mission

The Weitzenhoffer Family College of Fine Arts, originally organized as the School of Fine Arts in 1903, was the fourth college to be founded at The University of Oklahoma. Today, the college includes the Schools of Dance, Music, the Peggy Dow Helmerich School of Drama, the A. Max Weitzenhoffer School of Musical Theatre, and the OU School of Visual Arts, and is the largest and most comprehensive fine arts program in the state of Oklahoma. The program has an annual enrollment in excess of 1,000 fine arts majors and a full-time faculty of more than 100 nationally and internationally recognized educators, artists, performers, scholars,

and technicians. More than 400 performances and exhibitions are presented within the college each year.

The Weitzenhoffer Family College of Fine Arts, an integral part of the University of Oklahoma, recognizes the universal language of the arts and its crucial role in creating and sustaining a vibrant, culturally diverse environment. The College is committed to a standard of excellence in the fine arts encompassing the University's mandate for teaching, research/creative activity, and service. The faculty, staff, and students are dedicated to the promotion of the arts within the state of Oklahoma, the nation, and the international community.

Programs Offered

Upon satisfactory completion of the prescribed studies, the candidate will be recommended for the degree of

- College of Fine Arts Administrated Programs (p. 833)
 - Arts Management and Entrepreneurship, Graduate Certificate (p. 834)
 - Arts Management and Entrepreneurship Elective Lists (p. 834)
- School of Dance (p. 834)
 - Ballet Pedagogy, Bachelor of Fine Arts in Dance (p. 836)
 - Ballet Performance, Bachelor of Fine Arts in Dance (p. 838)
 - Modern Dance Performance, Bachelor of Fine Arts in Dance (p. 840)
 - Dance History, Minor (p. 842)
 - Dance, Master of Fine Arts in Dance (p. 843)
- Peggy Dow Helmerich School of Drama (p. 843)
 - Theatre: Acting Emphasis, Bachelor of Fine Arts in Drama (p. 845)
 - Theatre: Design Emphasis, Bachelor of Fine Arts in Drama (p. 848)
 - Theatre: Dramaturgy Emphasis, Bachelor of Fine Arts in Drama (p. 850)
 - Theatre: Stage Management Emphasis, Bachelor of Fine Arts in Drama (p. 853)
 - Theatre, Minor (p. 855)
 - Drama, Master of Arts (p. 856)
- School of Music (p. 856)
 - Brass & Percussion, Bachelor of Music (p. 860)
 - Composition, Bachelor of Music (p. 862)
 - Harp, Bachelor of Music (p. 865)
 - Organ, Bachelor of Music (p. 867)
 - Piano, Bachelor of Music (p. 870)
 - Piano Pedagogy, Bachelor of Music (p. 872)
 - Strings & Guitar, Bachelor of Music (p. 874)
 - Voice, Bachelor of Music (p. 877)
 - Woodwinds, Bachelor of Music (p. 880)
 - Music – BA, Bachelor of Arts in Music (p. 882)
 - Music – BA: Instrumental Jazz, Bachelor of Arts in Music (p. 884)
 - Music – BMA, Bachelor of Musical Arts (p. 886)
 - Instrumental Music Education, Bachelor of Music Education (p. 888)
 - Vocal Music Education, Bachelor of Music Education (p. 892)
 - Music, Minor (p. 895)

- Choral Conducting, Master of Music (p. 895)
- Instrumental Conducting, Master of Music (p. 896)
- Music Composition, Master of Music (p. 897)
- Music Theory, Master of Music (p. 897)
- Musicology, Master of Music (p. 898)
- Organ: Standard, Master of Music (p. 898)
- Organ: Church Music, Master of Music (p. 899)
- Organ: Technology, Master of Music (p. 899)
- Piano: Performance, Master of Music (p. 900)
- Piano: Performance and Pedagogy, Master of Music (p. 900)
- Voice: Opera, Master of Music (p. 901)
- Voice: Performance, Master of Music (p. 901)
- Wind, Percussion, String, Master of Music (p. 902)
- Conducting, Master of Music Education (p. 903)
- General Music Education, Master of Music Education (p. 904)
- Instrumental, Master of Music Education (p. 905)
- Piano Pedagogy, Master of Music Education (p. 906)
- Artist's Certificate in Music Performance, Graduate Certificate (p. 906)
- Music Doctoral Programs (p. 907)
- A. Max Weitzenhoffer School of Musical Theatre (p. 907)
 - Musical Theatre Performance, Bachelor of Fine Arts in Musical Theatre (p. 909)
- OU School of Visual Arts (p. 911)
 - Art, Bachelor of Arts in Art (p. 914)
 - Art History, Bachelor of Arts in Art History (p. 916)
 - Art, Technology & Culture, Bachelor of Fine Arts in Art (p. 917)
 - Studio Arts, Bachelor of Fine Arts in Art (p. 919)
 - Visual Communication, Bachelor of Fine Arts in Visual Communication (p. 921)
 - Art, Minor (p. 923)
 - Art History, Minor (p. 923)
 - Art, Master of Fine Arts in Art (p. 924)
 - Art History, Master of Arts in Art History (p. 924)
 - Visual Arts Doctoral Programs (p. 925)

Minors

Any student wishing to declare a minor should do so in the Fine Arts Dean's Office, 122 Fred Jones Center. Requirements for a minor must be completed prior to graduation.

Students must audition and be accepted as a Music Minor before it may be declared. Acceptance in any given studio area is on a space available basis.

Degrees With Distinction

For a student to be recommended for a degree *with distinction*, the student must have completed a minimum of 60 hours in residence at OU, have a combined cumulative GPA of 3.50 and a 3.50 grade average in all OU coursework.

The degree *with special distinction*, will be conferred on students who have completed a minimum of 60 hours in residence, and have a combined cumulative GPA of 3.50 and a 3.90 grade average in all OU coursework. The final semester will be included in the GPA that determines the

distinction degree. No student will be granted a degree *with distinction* or *with special distinction* who has been subjected to disciplinary action.

Honors Degrees

All of the bachelor's degree programs offered by the Weitzenhoffer Family College of Fine Arts are available to qualified students as honors degree programs. Students may be graduated with honors (*cum Laude*, *Magna cum Laude*, *Summa cum Laude*) if they successfully complete all requirements of the Honors College in addition to their regular degree program requirements. Please refer to the Honors College section of this catalog for specific information concerning admission and completion of honors degrees.

Concurrent/Second Degrees

Students may work toward the completion of more than one degree.

If a student has graduated and is coming back for a second degree:

- A student who has a bachelor's degree from OU or another accredited institution satisfies all general education requirements, except possibly P SC 1113 and HIST 1483 or HIST 1493. The Oklahoma State Regents for Higher Education policy requires that all students graduating with a bachelor's degree from an Oklahoma state institution must complete U.S. Government (P SC 1113) and U.S. History (HIST 1483 or HIST 1493).
- The student must choose a degree different from that of the prior degree(s).
- The Student must have at least 30 credit hours in residence at OU and in the Weitzenhoffer Family College of Fine Arts.
- The student must meet all university and college residency requirements.
- The student must complete all of the published requirements for the second degree, including a capstone.
- They must complete a minimum of 30 hours for the second degree after graduating with the first degree. The 30 hours must be in addition to the total number of hours completed by the student for the first degree.
- At least 15 hours of the 30 must be completed at the 3000-4000 level.
- The student must complete an Application for Graduation.
- The student will receive a diploma for the second degree and have it noted on the transcript.

If a student is pursuing concurrent degrees:

- The student must complete a concurrent enrollment form to declare a dual degree.
- The student must choose a degree different from that of the prior degree(s).
- The student must complete all of the published requirements for both degrees.
- The student must complete a capstone course for each degree.
- They must have at least 30 credit hours in residence at OU and in the Weitzenhoffer Family College of Fine Arts.
- The student must complete at least 30 hours for the second degree that are not used for the first degree. Counselors in each college will verify what is counting toward each degree.
- At least 15 hours of the 30 must be completed at the 3000-4000 level.
- The student must complete a minimum of 150 hours – 55 hours (40+15) of upper-division course work between the two degrees

(64 hours [40+24] if one of the degrees is in the College of Arts and Sciences.

- The student must be cleared for graduation for both degrees in the same semester.
- The student must file an Application for Graduation for both degrees. The student will receive two diplomas.
- Once a student has been cleared with an undergraduate degree, the rules for a second degree go into effect, even though the student never actually left the university.

Double Major Policy

In the School of Music, students may work toward the completion of more than one major. All requirements for each major must be completed including a second capstone. If there are fewer than 30 additional hours, the student will be awarded one diploma for the first major listed, but the transcript will indicate both majors. Residency requirements must also be fulfilled.

Double majors will not be granted in the OU Schools of Visual Arts, Dance, Drama and Musical Theatre.

Special Facilities

Facilities at the OU School of Visual Arts include classrooms, large well-equipped instructional studios, darkrooms, a technology-based fabrication lab, installation spaces, video and film editing rooms, digital photography labs, and the Lightwell Gallery exhibition space. Separate from the Fred Jones Jr. Art Center, a 5,000 sq. ft. ceramics facility is located on the university's south campus near the Lloyd Noble Arena and features state-of-the-art equipment and kilns to handle all types of ceramic production. A 12,000 sq. ft. graduate studio facility is located northwest of campus. Media and library resources include a slide/media library containing over 150,000 slides; University of Oklahoma Bizzell Library, is the largest research library in the state of Oklahoma containing almost 4 million volumes; and the Fine Arts Library houses books and periodicals on art, art history and design as well as on music, dance, drama and musical theatre. The Charles M. Russell Center for the Study of Art of the American West provides an extensive library on western art and a unique opportunity to study with authorities in the field.

The Fred Jones Jr. Museum of Art, adjacent to the OU School of Visual Arts, is one of the finest university art museums in America. The museum sponsors speakers and numerous exhibitions, including the annual OU School of Visual Arts Students' Exhibition. The Mary and Howard Lester wing of the museum permanently houses the "Weitzenhoffer Collection of French Impressionism." The wing also includes galleries for other selections from the Museum's permanent collection, an auditorium, an orientation room, a classroom, and a museum store.

The Donald W. Reynolds Performing Arts Center, formerly known as Holmberg Hall, includes the renovated 700-seat performance hall featuring a domed ceiling, modern acoustical features and a stage tower. An 18,000-square-foot facility on the west side of Holmberg Hall for the School of Dance includes state-of-the-art studios, media center, offices, a gallery/reception area, and body conditioning studio.

The Fine Arts Center provides the perfect setting for collaborative efforts in production and theatrical training. In addition to the 600-seat Elsie C. Brackett Theatre and the 250-seat Weitzenhoffer Theatre, the center contains two fully equipped dance studios and one practice studio. Classrooms, make-up room, scene and costume shops, and dressing

rooms used by drama, dance, and musical theatre comprise a facility in which our students can work and learn to their fullest potential.

The School of Music is housed in three buildings: Stanley B. Catlett, Sr. Music Center, Holmberg Hall, and Carpenter Hall. The 25 million dollar Center contains administrative offices, faculty offices and studios, rehearsal suites, classrooms, MIDI labs, the Grant Fine Arts Library, a recording studio, and three performance halls, including the Paul F. Sharp Concert Hall, Morris R. Pitman Recital Hall, and Grayce B. Kerr Gothic Hall (for organ and other performances). Holmberg Hall houses faculty offices and the Auditorium, a theatrical stage used by the OU Opera Theater for its productions. Studios for the voice, piano, and musical theatre faculty members are currently located in Carpenter Hall.

Undergraduate Study Student Responsibilities

Academic Advising Staff

Elizabeth Nunley, M.S., Coordinator, Undergraduate Programs
Alyssa Lewis, M.B.A., Academic Counselor for the School of Music

College and faculty advisors are available to assist students in planning their programs of study; however, *it is the responsibility of the individual student to make informed decisions to ensure academic success and timely graduation.* Therefore, it is critical that students know and understand the following:

- Their academic standing based on the retention standards of the Weitzenhoffer Family College of Fine Arts;
- The degree requirements check sheets (p. 827) as published by the Office of Academic Publications;
- Keep apprised of their degree completion progress via Degree Navigator;
- Academic deadlines, as listed on the university academic calendar;
- All rules and regulations which govern enrollment and graduation;
- University policies and procedures;
- When and where to go for assistance and to make use of the many resources provided by the University;
- Accept their course invitation and access important information via *Artifacts* at canvas.ou.edu.
- Students who have questions regarding policies, procedures or resources should contact one of the advisors in Student Services of the Fine Arts Dean's office.

Admission and Retention

Freshman

The freshman year at the University of Oklahoma is spent in University College, which is not a degree-recommending college. Students must be formally accepted into a degree program before they may declare a fine arts major. Refer to audition and/or portfolio information below. Transfer to the Weitzenhoffer Family College of Fine Arts from University College is automatic once the following conditions have been met:

- a declared Fine Arts major;
- 24 combined retention hours earned (excluding any remedial credit hours), and
- a combined retention GPA of 2.50; 2.75 for Bachelor of Music Education majors.

Audition and Portfolio

All dance, drama, music and musical theatre majors *must* audition and be officially accepted into a degree program before being allowed to enroll for classes. Drama majors who have taken previous acting classes at another institution and who wish to be placed in an acting class beyond the freshman level, must audition for placement.

Readmission Policy

A fine arts major who has not been enrolled in the college for two consecutive semesters (excluding summer) or more, must reapply to the school of his/her major for readmission. This reapplication must include an audition or portfolio/scholarly materials review and submission of support materials as applicable. The student must check with the appropriate school for additional information and requirements pertinent to the readmission process. The student must also apply for readmission to the university through OU Admissions.

Retention

Students are admissible to the Weitzenhoffer Family College of Fine Arts *in good standing* once they have completed 24 hours (excluding any remedial credit hours), have a minimum 2.50 GPA, 2.75 for Bachelor of Music Education majors (includes both OU retention and combined retention), and have declared a fine arts major. Students must earn a grade of C or better in each course in the school of his/her major.

Academic Performance/Probation

In order to be in good academic standing in the Weitzenhoffer Family College of Fine Arts, students must maintain a minimum 2.50 GPA, 2.75 for Bachelor of Music Education majors (includes both OU retention and combined retention). Students who do not meet the minimum GPA criteria required by the college will be placed on probation. These students are required to complete an Academic Performance/Probation Contract with the Coordinator of Undergraduate Programs in the Weitzenhoffer Family College of Fine Arts Dean's Office. The Academic Performance Contract is designed to be student-specific, dependent upon each student's individual circumstances.

Students who do not fulfill the requirements of their Academic Performance Contract will be dismissed from the Weitzenhoffer Family College of Fine Arts.

Enrollment Restriction Policy for Probationary Students

Probationary students will be restricted to a maximum of 12 hours per semester. Exceptions will be made only at the discretion of the Dean or Coordinator of Undergraduate Programs.

Performance Restriction Policy for Probationary Students

Probationary students may not be cast in productions or enroll in/perform Junior or Senior recitals until they have returned to good academic standing.

Dismissal

Students who have been dismissed from the Weitzenhoffer Family College of Fine Arts will have an enrollment stop placed on their records by the college and are not allowed to enroll in fine arts courses designed and/or designated for majors only. Any advance enrollment will be cancelled. To continue at the University of Oklahoma, the student must make an appointment and meet with an advisor in the Academic Advising Resource Center. Students who have been dismissed from the college twice are unlikely to be readmitted to the college.

Review Process if Ineligible for Admission or Retention

The review process is: (a) written petition to the dean; (b) letters of support from the director/faculty of the school or department; and (c)

dean accepts or rejects petition. There is no further appeal except to the Provost.

Transfer Students

Transfer students admitted to the Weitzenhoffer Family College of Fine Arts may pick up a copy of their Transfer Credit Evaluation Document from the Dean's office. Faculty advisors will review transfer coursework in the student's major and determine how those transfer credits will apply toward a baccalaureate degree from the college. *A Course Substitution Form must be completed by the student's faculty advisor for all unequated fine arts major specific transfer courses.* The academic counselor in the Dean's office is responsible for informing students of transferability of unequated General Education core requirements. The University's General Education Transfer Course Evaluation Form will be completed by the academic counselor in the dean's office for unequated transfer courses as appropriate. Music majors will see the Academic Counselor for the School of Music for assistance with these items.

- In the event that a lower-division transfer course is used as a substitution for an upper-division requirement at the University, a student may be required to complete additional upper-division hours for graduation.
- A minimum of 60 semester hours must be earned at an accredited (4-year) institution for a baccalaureate degree.

For further regulations regarding transfer students, refer to the opening pages of this catalog as well as in subsequent sections for the Fine Arts College.

Enrollment and Grade Information

Academic Course Load

Students may enroll in a maximum of 19 credit hours of work in one semester. The minimum requirement for full-time status is 12 hours. To enroll in more than 19 hours, permission must be obtained from the Dean's office or School of Music Academic Counselor, depending on student's major. Students must have a minimum combined GPA of 3.0 in order to receive overload permission. The Overload Petition form is available on the college website under Resources/Student Resources/Forms.

Advisement

Art, Dance, Drama, and Musical Theatre students registered in the Weitzenhoffer Family College of Fine Arts must be advised by a faculty advisor in their school prior to each enrollment. An Academic Advisement Form is completed and signed by the faculty advisor during the conference. This completed form is turned in to the Dean's office that then lifts the students advising flag in the online enrollment system. The student's faculty advisor or the student's school is responsible for override/permissions into the online system to enable the student to enroll in courses requiring special permission. Once the advising flag has been lifted and all enrollment stops have been cleared, students may finalize their enrollment schedule in the online system or the Office of Enrollment Services in 230 Buchanan Hall. Students in the School of Music will schedule their advising appointment with Alyssa Lewis via iadvise.ou.edu.

Fine Arts Orientation

Undergraduate fine arts students are required to complete an online orientation session after they have earned 24 hours and are in their first semester in the College of Fine Arts. The session covers college policies and procedures, the advisement and enrollment process within

the college and graduation issues. Instructions for completing the college online orientation are sent to students via OU email.

Math Policy

The Weitzenhoffer Family College of Fine Arts requires all declared fine arts students complete their college level math course within the first four semesters of enrollment at OU. Transfer students or newly declared fine arts majors who have not completed their college level math requirement will have two semesters in which to complete the requirement. Students who fail to meet this requirement will be restricted from upper-division fine arts courses except by permission of their Director and the Dean.

Completion of this requirement is tracked by the Fine Arts Dean's office. Students will receive a notification via OU email one semester prior to their deadline for fulfilling this requirement. Some schools within the college include this policy as part of their scholarship stipulations.

Change of Major

Students wishing to change majors must do so in the Weitzenhoffer Family College of Fine Arts Dean's Office by completion of the Change of Major request form. Prior to completing a change of major request in the Dean's office, the student must meet the admissions criteria as outlined in the admission and retention section.

Students wishing to change to a major in another college must meet the admission requirements and be accepted by that college before the major can be changed. The new college will complete the change of major/college request and will also request the student's records from their previous college.

Grade Information

A student must have a grade of C or higher in each course in his/her major. Each hour of A, B, C and D carries a grade point value as follows: A = 4, B = 3, C = 2, and D = 1. Grades of I, F and U as well as grades P and S carry no grade point value. They are not figured in the computation of a student's grade point average except for grades of F.

Fine Arts students are required to make a C or better in all courses taken within their respective schools. When a course has been repeated and the second grade was lower than the first, the higher grade will be used toward fulfilling graduation requirements. For additional information on the impact of repeat coursework on the student's GPA, the student should consult with the one of the academic counselors in the Dean's office.

Dean's Honor Roll

The Weitzenhoffer Family College of Fine Arts Honor Roll is compiled at the close of each fall and spring semester. It includes students who have completed at least 12 grade point hours and have earned an average GPA of 3.50 or higher for the semester.

Pass/No Pass Option

Students in the Weitzenhoffer Family College of Fine Arts may present, for graduation, a maximum of 16 elective hours completed under the pass/no pass option. Courses completed under the pass/no pass option may not be used to fulfill the University-Wide General Education requirements, major requirements, or major support requirements.

Advanced Standing

Students who feel they have a sufficient knowledge of the subject matter of a course offered by the University may take an advanced standing examination for undergraduate credit in the course. Please reference

the Admissions section of this catalog for further information on the regulations governing advanced standing credit. Students who have received a grade other than a W in any course, may not subsequently take the same course by advanced standing.

Independent Study (Correspondence)

University of Oklahoma regulations pertaining to the acceptance of independent study (correspondence) from other institutions must be met before such work may be applied toward the degree. The candidate for a degree must meet the college residence requirement. Regulations and specific criteria pertaining to students in the Weitzenhoffer Family College of Fine Arts are as follows:

- Students may enroll in independent study (correspondence) courses any time by contacting the Center for Independent & Distance Learning.
- A student may enroll in a maximum of six hours of correspondence at one time.
- If students are concurrently enrolled in independent study and in residence credit, the total number of hours for one semester may not exceed the recommended maximum shown under Academic Course Load.
- A student must be in good academic standing in order to receive permission to enroll in independent study courses.
- A student must secure written permission from the academic counselor in the Dean's office on the independent study application form.
- Music Education majors may not enroll in EDSP 3053 by independent study.
- Undergraduate students within their last 30 hours are prohibited from enrolling in independent study courses to satisfy degree requirements.

Forgiveness Policy

The Forgiveness Policy instituted by the Oklahoma State Regents for Higher Education and the University of Oklahoma, consists of three components: the repeat policy, the reprieve policy and the academic renewal policy. Please reference the Admissions information in the front of this catalog for further information on these policies. Questions concerning this policy should be directed to one of the academic counselors in the Dean's office.

Music Education Teacher Certification

Students pursuing the Bachelor of Music Education degree in either vocal music education or instrumental music education must be admitted to the Teacher Preparation Program in the College of Education prior to enrollment in the required course sequence.

- Students should apply to the Teacher Preparation Program at the end of the sophomore year.
- Students complete and submit an Admission to the Teacher Preparation Program form to the Fine Arts Dean's office.
- To be eligible for admission, students must complete a minimum of 24 hours of general education coursework with a 2.75 GPA from the university approved list with C or better grades in the following areas: ENGL 1113 (required), ENGL 1213 or EXPO 1213 (required), Natural Science without lab; Natural Science with lab; Math; P SC 1113; ANTH 1113/PSY 1113/SOC 1113; HIST 1483 or HIST 1493; Humanities.

- Students must pass the Oklahoma General Education Test. OGET results must be turned in with their admission form.
- Students must complete Submission 1 of their portfolio and release the electronic portfolio to the faculty advisor.
- Submission 1 check list must be complete and portfolio must be cleared by the faculty advisor.
- Meet with faculty advisor to complete additional forms as required (subject to change by university and State Regents).

Students must have a minimum 2.75 OU retention and combined retention GPAs in order to be admitted to the Teacher Preparation Program coursework, to graduate and to be certified. Students with a GPA between 2.50 and 2.74 may petition the MUED faculty for an exemption to begin their Teacher Preparation coursework, but will be placed on Academic Probation by the College of Fine Arts until such time as their GPA is raised to the required 2.75 for graduation. Exemptions cannot be granted for students with less than a 2.50 GPA in their OU retention and combined retention GPAs. GPA exemptions approved by the MUED faculty does not guarantee admission to the Teacher Preparation Program in the College of Education.

Academic Appeals

For information and procedures on academic appeals, please refer to the section on Academic Appeals Boards in the Admissions section of this catalog. You may also refer to Title 14 of the Student Code. The College of Fine Arts Academic Appeals Petition form with guidelines and instructions is available on the college website under Resources/Student Resources/Forms.

Petitions

Any departure by a student from the curriculum requirements and scholastic rules must be approved by the School and College via a petition and must not conflict with existing University regulations. Petitions should be submitted in a timely manner since time restrictions can preclude their consideration.

Petition forms in the Weitzenhoffer Family College of Fine Arts are available in the dean's office and on the college website under Resources/Student Resources/Forms. The *general petition* form may be used for requesting:

- exceptions to graduation/degree requirements;
- extensions of Incomplete grades;
- waiver of the residency policy; and
- waiver of the ten-year limitation policy.

In addition, petitions are available to *Add a Course after the Deadline*, *Drop a Course after the Deadline*, and a *Petition for Enrollment Overload* (refer to information under Academic Course Load).

Graduation Requirements

The responsibility for meeting all graduation requirements lies with the student.

The following requirements must be met in order to graduate with a bachelor's degree from the Weitzenhoffer Family College of Fine Arts:

- Student must have an OU retention and combined retention grade point average of 2.50 or higher. Bachelor of Music Education majors

must have an OU retention and combined retention grade point average of 2.75 or higher.

- Student must successfully complete the minimum semester hours required for the degree inclusive of general education, major course work, and electives.
- Student must earn a C or better in each course in their major.
- Student must complete a minimum of 40 hours of upper-division coursework (3000-4000).
- Student must complete a minimum of 40 hours of general education requirements as outlined by the college and the University.
- Student must complete a minimum of 40 hours of liberal arts coursework (80 hours for Bachelor of Arts degrees) as outlined by the Oklahoma State Regents for Higher Education for undergraduate degrees.
- Student must complete a minimum of 60 hours at accredited senior (4-year) institutions.
- Student must complete one general education course at the upper-division level (3000-4000) outside the student's major.
- All college specific and university residency rules must be met.
- Student must be listed as a Weitzenhoffer Family College of Fine Arts student at the time of graduation.
- Student must complete a senior graduation check with one of the academic counselors in the Fine Arts Dean's Office in their next to last semester.

General Education Requirements

Students are required to satisfy the University-wide General Education course requirements as outlined in the General Information section of this catalog. *Courses used to satisfy these requirements should be chosen from the University-wide General Education Approved Courses.* Always use the Search feature on the enrollment program to find current general education course options when enrolling each semester.

- The University requires a minimum of 40 hours of General Education coursework.
- In addition to the Senior Capstone Experience, students must take at least one upper-division General Education approved course outside the student's major.

Some Weitzenhoffer Family College of Fine Arts degrees require specific general education courses be completed for certain core areas. Please refer to the appropriate degree sheet.

Residence Requirements

Residency is defined as coursework taken through any University of Oklahoma campus excluding correspondence courses.

- Candidates for an undergraduate degree must complete a minimum of 30 hours in residence at the University of Oklahoma and in the Weitzenhoffer Family College of Fine Arts.
- At least 24 hours of upper-division major credit applied toward the degree must be earned in residence as a declared Dance, Music, Musical Theatre, Drama or BA in Art or Art History major, with the exception of –
- A minimum of 15 hours of upper-division major credit must be earned in residence if a declared Bachelor of Arts in Music major.
- A minimum of 30 hours of upper-division major credit applied toward the degree must be earned in residence as a declared BFA in Art or BFA in Visual Communication major.

- A student must be listed as a Weitzenhoffer Family College of Fine Arts student at the time of graduation.
- Capstone courses must be taken in residence.

Ten-Year Limitation Rules

The following rules must be met.

- Please refer to the Weitzenhoffer Family College of Fine Arts Readmission Policy.
- A student in the Weitzenhoffer Family College of Fine Arts may elect to graduate under the degree plan in effect at the time of their first enrollment in the state system provided they complete the work for a degree within a maximum of 10 calendar years from the time of their first enrollment in the state system. If the work for a degree covers a period longer than 10 years, the college, in consultation with the student, will determine the degree plan to be in effect for that student's graduation.
- Students returning to college whose coursework is more than 10 years old, will follow the policy outlined below in addition to the Readmission policy.
 - Decisions will be made on a case by case basis at the discretion of the individual Schools.
 - Students will not be allowed to complete degree plans that have been deleted (refers to a deletion formally approved by the State Regents).
 - Students who wish to use coursework in the area of their specialization that is older than 10 years, must petition the School of their major for validation of those courses on a course by course basis after they have been readmitted to a degree plan.
 - Students must petition the School of their major to follow an expired degree plan (refers to a degree plan of a particular year that is more than 10 years old).
 - Students who have 20 hours or less remaining under an expired degree plan will receive consideration in being allowed to complete said plan (includes old GPA requirements).
 - Students who have more than 20 hours to complete under an expired degree plan, normally must follow the current years' degree plan and GPA requirements.

School of Dance

- Students wishing to be readmitted to the School of Dance after a 10-year period must audition and be reaccepted.
- If accepted, the audition committee will determine the degree plan the student is to follow (ballet performance or pedagogy, or modern dance performance), as well as the technical level of their courses.
- General college policy rules apply beyond this point.

Peggy Dow Helmerich School of Drama

- Students wishing to be readmitted to the School of Drama after a 10-year period must audition or present a portfolio/scholarly materials for review, as appropriate to their major area.
- At the audition or portfolio review a decision whether to accept the student will be made. Following acceptance, appropriate course placement within the curriculum will be determined as well as the emphasis/track the student is to follow.
- General college policy rules apply beyond this point.

School of Music

- Students wishing to be readmitted to the School of Music after a 10-year period must audition and be accepted.
- If accepted, the audition committee will determine the degree plan the student is to follow (BFA, BMA, BME, BM), and the level of their applied lessons.
- General college policy rules apply beyond this point.

A. Max Weitzenhoffer School of Musical Theatre

- Students wishing to be readmitted to the School of Musical Theatre after a 10-year period must audition and be accepted.
- If accepted, appropriate course placement within the curriculum will be determined.
- General college policy rules apply beyond this point.

OU School of Visual Arts

- Students wishing to be readmitted to the OU School of Visual Arts after a 10-year period must schedule a portfolio review.
- At the portfolio review a decision whether to accept the student will be made. Following acceptance, a decision will be made as to which area of specialization the student is admitted, as well as appropriate course placement within the curriculum.
- General college policy rules apply beyond this point.

Graduate Study

Refer to the Graduate tabs within the School of Dance (p. 834), the Peggy Dow Helmerich School of Drama (p. 843), School of Music (p. 856), and the School of Visual Arts (p. 911) pages of this catalog for information concerning graduate work.

Scholarship Information

Students who are majors in the Weitzenhoffer Family College of Fine Arts are encouraged to apply for scholarship support. A number of scholarships and awards are available to qualified students each academic year. Applications for scholarships and awards are available through one.ou.edu to students each spring semester and are awarded for the next academic year. The individual Schools within the Weitzenhoffer Family College of Fine Arts award scholarships based on specific criteria regarding a student's major, talent, merit or need. Initial scholarship considerations and offers are made following admission auditions in the spring. On occasion, the Dean's office grants minimal scholarships to students who have exhausted all other financial resources. Scholarships awarded by the dean are based on merit, special financial need, and unusual circumstances. Additional non-departmental scholarships and financial aid are available through the University of Oklahoma office of Financial Aid Services through one.ou.edu. The scholarship application deadline for incoming freshmen and transfer students begins in early December. The deadline for current students is early February. Visit scholarships.ou.edu for complete details.

College of Fine Arts Administrated Programs

The Arts Management and Entrepreneurship Graduate Certificate (p. 834) is available to students in Weitzenhoffer Family College of Fine Arts. The curriculum is designed to enable students with industry knowledge and navigational skills in a dynamic arts environment through the strength of synthesizing ideologies and integrative thinking

between both the fine arts and business. The strengths found in empathy, exploration, and interdisciplinary research are emphasized in the fine arts history courses detailing how artists and creatives drew inspiration from different ideologies, cultures, and thought. The general sequence of courses will teach students how to think critically, develop adaptive strategies, and negotiate positions in a creative environment.

Arts Management and Entrepreneurship, Graduate Certificate

The curriculum is designed to enable students with industry knowledge and navigational skills in a dynamic arts environment through the strength of synthesizing ideologies and integrative thinking between both the fine arts and business. The strengths found in empathy, exploration, and interdisciplinary research are emphasized in the fine arts history courses detailing how artists and creatives drew inspiration from different ideologies, cultures, and thought. The general sequence of courses will teach students how to think critically, develop adaptive strategies, and negotiate positions in a creative environment. Students will follow a track of interest; a total of 12 hours is required.

Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

General Information

Since its inception over 40 years ago, the School of Dance has established a national reputation for its excellence in training in ballet and modern dance techniques, for its production values and for the quality of its graduates. Firmly rooted in a performance-oriented

philosophy, the school is composed of 10 faculty members, two ballroom dance instructors, three Pilates body conditioning instructors, six accompanists, two full-time musicians, six graduate teaching assistants and approximately 80 majors. Students develop their technical and expressive gifts guided by a faculty representing an unusually fine blend of professional and academic excellence. Students work in a pre-professional environment dedicated to their development as performers, artists and educated individuals. During completion of the University's general education requirements, dance students learn about related arts from theoretical, historical and theatrical perspectives, while simultaneously perfecting their skills as emerging dance artists. Oklahoma Festival Ballet and Contemporary Dance Oklahoma provide performance opportunities on campus and throughout the state and region through fully produced performances, laboratory performances and lecture demonstrations. In addition, a production choreographed by students is presented on an annual basis. International tours are another important aspect of our students' experience.

The School of Dance is housed in the Donald W. Reynolds Performing Arts Center. This beautiful, state of the art facility includes two large dance studios, a Pilates body conditioning studio, media center, faculty and staff offices, archive room, a gallery/reception area and the exquisitely renovated performance hall (formerly historic Holmberg Hall). Additional studios are housed in the adjacent Fine Arts Center as are the production facilities for Elsie C. Brackett Theatre and the School of Drama. This combination of facilities ensures that our students have the best possible environment in which to develop their technical, expressive and intellectual gifts and move toward professional careers.

Programs for Excellence

Oklahoma Festival Ballet and Contemporary Dance Oklahoma, resident performing companies of the School of Dance, provide numerous, diverse performing opportunities for dance majors in both disciplines. Each company gives an annual series of performances on campus in our home theatres. Company members also present the annual Young Choreographers' Showcase each January. Additional performance opportunities exist through musicals and operas, in addition to lecture demonstrations in public schools, informal studio concerts and state, regional and international tours. Our companies have been honored with 14 invitational performance tours to Taiwan, Japan, France, Paraguay, Ecuador, Austria, China and Mexico.

Company members are selected by audition at the beginning of each semester. Majors in ballet performance emphasis are required to perform eight semesters; modern dance majors are required to perform seven semesters; and ballet pedagogy majors perform a minimum of four semesters. The MFA program also includes performance requirements.

Our companies have been chosen for the National American College Dance Festival Gala Performance at The Kennedy Center for the Performing Arts as well as receiving awards at the regional ACDF conferences (South Central). In addition, the companies have been featured in *Dance Magazine*, *Pointe Magazine*, the *New York Times* and the foreign press. The companies perform original works as well as others by Balanchine, Joffrey, Stevenson, de Mille, Petipa, Pilobolus, Sonia Dawkins, Gerald Arpino, Donald McKayle, Mark Dendy and Trey McIntyre. Guest performers, choreographers, scholars and teachers visit the School of Dance each semester enriching students' experience and aiding in their preparation for the profession. Participation by dancers of diverse cultural and ethnic backgrounds is encouraged.

Scholarship Information

A number of merit based scholarships are available through the School. These include Barnett Foundation Scholarships, tuition waivers, the Mark Allen Everett Scholarship, the Indian Ballerina Scholarships, Dance Partners Scholarships and others. For specific scholarships and deadlines, contact the School of Dance at (405) 325-4051 or visit scholarships.ou.edu.

Undergraduate Study

The School of Dance offers undergraduate degree programs in classical ballet (with performance or pedagogy as an emphasis) and modern dance.

- Ballet Pedagogy, Bachelor of Fine Arts in Dance (p. 836)
- Ballet Performance, Bachelor of Fine Arts in Dance (p. 838)
- Modern Dance Performance, Bachelor of Fine Arts in Dance (p. 840)

Admission

The School of Dance follows the admission requirements of the University of Oklahoma and the Weitzenhoffer Family College of Fine Arts. However, admission to a dance degree program also requires attendance at an audition on campus. The entrance audition also serves as a placement class. All class assignments are based on proficiency. For specific audition dates and information, please contact the School of Dance administrative office (405) 325-4051.

Degree Requirements

Dance majors are advised concerning course enrollment and advancement in the degree program by an assigned faculty member each semester. All regulations and degree requirements are available in the School of Dance Office, 1000 Reynolds Performing Arts Center and online.

Dance History Minor

The School of Dance offers a Minor in Dance History (p. 842) that is open to all undergraduates in the university. For additional information, please contact the School of Dance office or the Weitzenhoffer Family College of Fine Arts Dean's office.

Graduate Study

The Master of Fine Arts in Dance (p. 843) emphasizes either performance, choreography or pedagogy. Admission to the graduate program follows the requirements of the Graduate College and includes submission of a videotape prior to an invitation to an interview and audition by the graduate faculty of the School of Dance. Completion of college and school application forms is also required. Students are expected to have completed an undergraduate degree in dance.

Dance History, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

See form available in Fine Arts Dean's office:

- Complete 2 copies of this form, and have both copies approved by a School of Dance Faculty advisor.
- Take one copy to the School of Dance Office, Reynolds Performing Arts Center, Rm. 1000 (RPAC 1000).
- Take one copy to the Office of the Dean, Weitzenhoffer Family College of Fine Arts, Fred Jones Fine Arts Center, Rm. 122 (FJC 122) on or before the student's senior grade check.

No single course may be used by a student to satisfy a major requirement and a minor requirement.

Students must earn a minimum grade of C in each course.

A minimum of 9 hours must be upper division dance history courses.

Of the required coursework, at least 12 of the 19 credit hours must be completed in residency at the University of Oklahoma.

No courses counted toward the minor may be taken Pass/ No Pass.

The Minor in Dance History is available to all undergraduate students at OU except those majoring in dance.

- If the minor is officially declared and approved, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Students must successfully complete at least 19 hours of coursework in dance history and ballet or modern dance technique, including 9 hours of upper division Dance History courses, and at least 2 semesters of courses in Ballet and/or Modern Dance technique. The following specific requirements must be met:

Code	Title	Credit Hours
DANC 1713	Understanding Dance	3
DANC 1813	Introduction to Non-Western Dance Forms	3

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

General Information

The Peggy Dow Helmerich School of Drama strives to prepare students for professional careers in theatre and the greater entertainment industry. As a vital artistic training unit within a major university, the school believes the student's experience should include all aspects of theatre production along with a strong academic component of theatre history and general education. The school seeks to train and educate theatrical artists, craftsmen and educators of the future.

Our 11:1 student/faculty ratio in the School of Drama assures the student extensive individual attention and guidance during each step of the program. Visiting artists supplement our resident faculty and staff in providing a wide range of experience for students as part of their growth and training as artists.

Mission Statement

The mission of the University of Oklahoma Peggy Dow Helmerich School of Drama is to educate theatre artists, scholars and teachers, preparing them to enter their professions with a knowledge of evolving industry standards; to perpetuate theatrical art by encouraging and nurturing the development of new artistic endeavors; and to provide a variety of theatrical productions and programs of excellence to Oklahoma audiences.

Student Organizations

- Drama Student Senate
- Alphi Psi Omega
- Spacechangers
- Student Theatre Initiative

Programs for Excellence

OU's Helmerich School of Drama is the second oldest dramatic training institution in the nation, and has a long, distinctive history and a reputation for excellence. This performance-based degree is supported by diverse production options performed in our five spaces and the

Helmerich Camera Action Studio. On the main-stages, an average of three plays, two musicals, three dance productions and two operas comprise the University Theatre season (nine-month academic year). In the Lab Theatre in Beatrice Carr Wallace Old Science Hall and the Gilson Studio Theatre another four to five plays are mounted, including two senior directed productions. Throughout the year, students hone their skills in a professional and challenging production season.

The Helmerich School of Drama has been the birthplace of several world and regional premieres. The school's commitment to new works adds to the exciting atmosphere that permeates the student's academic career. The Faith Broome Playwright in Residence Program and the Faith Broome Young Playwrights' Festival are pivotal in our effort to expose our community to new works. Students are encouraged to attend a number of professional auditions each year and our local patrons group, the Theatre Guild, provides significant travel grants to assist in this endeavor. The School of Drama is active in the Kennedy Center American College Theatre Festival, having been invited to compete on the national platform for seven out of the last ten years.

Performance majors must audition each semester for upcoming productions. Auditions are held twice a year, in August for the fall semester, and November for the spring semester. Additional auditions are held as needed for added productions which may include children's theatre shows, directing scenes, student productions and film projects. Design and stage management assignments are made at the beginning of each semester. In addition, students have opportunities to work as dramaturgs, assistant stage managers, audience development assistants, and technicians in scenery, costume, lighting, properties, and sound.

Special Facilities and Programs

The Helmerich School of Drama administrative offices are located at 121 Wallace Old Science Hall, on the North Oval. The University Theatre building - the Fine Arts Center - is at 563 Elm on the northwest corner of the Norman campus. Completed in 1965, the Fine Arts Center contains faculty offices, classrooms, dance studios, construction shops and storage spaces for scenery, costumes, lights, and properties, a computer-aided design lab, the highly flexible 600-seat Elsie C. Brackett Theatre, and the more intimate, 250-seat Weitzenhoffer Theatre. The close proximity to the other schools in the OU Arts District gives students easy access to the Fred Jones Jr. Museum of Art, the Fine Arts Library and the Reynolds Performing Arts Center. In addition to the facilities in the Fine Arts Center, Wallace Old Science Hall houses the 75-seat Lab Theatre, the 65-seat Gilson Studio Theatre, faculty and administrative offices, a design lab, and the Drama Library.

The season auditions are open to all students in the University. Classes in many aspects of theatre are offered to non-majors for elective credit.

Scholarship Information

A number of scholarships and awards are available to qualified students. Students should go to scholarships.ou.edu to apply for scholarships. Financial Aid is also available through OU Financial Aid Services. The following drama scholarships are available to qualified students:

- Ben Barnett Scholarships
- Theatre Guild Scholarships
- A. Max Weitzenhoffer Scholarship in Scene Design
- Mary Clarke Miley Scholarships
- Tuition Waiver Scholarships

- Non-Resident Tuition Waiver Scholarships
- The E. Franklin Gilson Professional Development Grant
- The Nicole Poole Scholarship
- Lindsay Stewart Stage Management Scholarship
- Amy Elizabeth Boe Character Acting Scholarship
- Through a very generous endowment from Walter and Peggy Helmerich, the School of Drama is now able to offer an additional scholarship to our students. The Peggy Dow Helmerich Drama Scholarships are awarded based on financial need and demonstrated talent.

At the close of each academic year the School of Drama recognizes individual achievement in an awards ceremony. Many of the awards carry cash prizes. These awards are:

- The Van Heflin Award
- The Weitzenhoffer Award
- The Buffalo Mask Awards
- Rupel J. Jones Directing Award
- Ida Z. Kirk Acting Awards
- Charles C. Suggs Stage Management Award
- A. L. Mortensen Award for Technical Excellence
- Helen F. Lauterer Costuming Award
- Raymond D. Larson Scene Design Award
- Oscar G. Brockett Dramaturgy Award
- Amy Elizabeth Boe Character Acting Awards

Undergraduate Study

The Helmerich School of Drama offers the Bachelor of Fine Arts in Drama degree. The degree is designed to provide the student with a solid foundation in each basic area of the theatre, with an opportunity to begin specialization in the sophomore year. The concentrations are in the following areas:

- Acting (p. 845)—for undergraduate students interested in pursuing a career as a performer in professional theatre, television or film;
- Design (p. 848)—for undergraduate students interested in pursuing a career in scenic, costume, lighting or sound design;
- Dramaturgy (p. 850)—for undergraduate students interested in pursuing careers and/or graduate study in dramaturgy, theatre history, directing or playwriting;
- Stage Management (p. 853)—for undergraduate students interested in pursuing a career in stage management;

Coursework at the undergraduate level includes acting, directing, voice and speech, stage movement and combat, graphics, stagecraft, costume construction and design, basic lighting fundamentals and design, scene design, sound techniques and design, theatre history, costume history, play structure and analysis, and theatre and stage management. Students are also encouraged to take advantage of coursework offered by the School of Dance and the A. Max Weitzenhoffer School of Musical Theatre.

Admission

The Helmerich School of Drama follows the basic admission requirements of the University of Oklahoma and the Weitzenhoffer Family College of Fine Arts. Please refer to those sections in this catalog for specific details. In addition, admission to the OU School of Drama is by audition and/or interview only and requires an on-campus audition

(for acting emphasis) or portfolio review (for design emphasis), and/or interview (for dramaturgy or stage management emphasis). **Students must be officially accepted into the School of Drama by audition and/or interview before being allowed to enroll for classes.**

Degree Requirements

Students are advised each semester by the school faculty concerning enrollments, admission, advancement toward degree, and career options.

Students considering a major in drama should contact the School of Drama Office 121 Wallace Old Science Hall for curriculum plans outlining the above program and information covering auditions, admission policies and guidelines, awards and scholarships, and additional regulations, policies and practices.

Graduate Study

Prerequisites for Full Graduate Standing

In addition to meeting the general requirements of the Graduate College, the student should have completed the following undergraduate coursework or its professional equivalent: six hours in acting, six hours in directing, three hours in stagecraft, three hours in costume construction, three hours in costume history, three hours each in scene, costume and lighting design, three hours in dramatic structure and analysis, and six hours in theatre history.

Students with deficiencies in any of these areas may be required to take coursework judged necessary to correct the deficiencies, without receiving graduate credit for the coursework. Once full graduate standing is achieved, the student must maintain a 3.00 grade point average and make satisfactory progress toward the degree to maintain full graduate standing.

Master of Arts

The Master of Arts (p. 856) is a scholarly degree with emphasis on theatre history, dramatic literature and criticism, and dramaturgy. The program is structured with the student's particular needs and interests in mind. Contact the School of Drama Office for further details.

Theatre: Acting Emphasis, Bachelor of Fine Arts in Drama

Admission

The Helmerich School of Drama follows the basic admission requirements of the University of Oklahoma and the Weitzenhoffer Family College of Fine Arts. Please refer to those sections in this catalog for specific details. In addition, admission to the OU School of Drama is by audition and/or interview only and requires an on-campus audition (for acting emphasis) or portfolio review (for design or technology emphasis), and/or interview (for dramaturgy or stage management emphasis). **Students must be officially accepted into the School of Drama by audition and/or interview before being allowed to enroll for classes.**

The Bachelor of Fine Arts in Drama degree is designed to provide the student with a solid foundation in each basic area of the theatre, with an opportunity to begin specialization in the sophomore year.

Students must choose one of the following emphasis areas.

- **Acting Emphasis** - Students will audition during the second semester of the freshman year.
- **Design Emphasis** - Emphasis review is required for admission to the design/tech emphasis area at the end of the freshman year.

- **Dramaturgy Emphasis** - Students must apply during the second semester of the freshman year.
- **Stage Management Emphasis** - Admission must occur no later than the spring semester of the sophomore year.

Drama Core and Emphasis Requirements

A grade of C or better is required in all courses taken within the School of Drama. Audition/Interview is required for admission to degree program.

¹MATH 1473 is recommended
²The course taken to fulfill the upper-division General Education requirement outside the major may not be chosen from Drama courses.
³Students must choose one of the following pairs of courses: DRAM 2523 and DRAM 2643, or ENGL 4523 and ENGL 4533.

Theatre: Stage Management Emphasis, Bachelor of Fine Arts in Drama

Admission

The Helmerich School of Drama follows the basic admission requirements of the University of Oklahoma and the Weitzenhoffer Family College of Fine Arts. Please refer to those sections in this catalog for specific details. In addition, admission to the OU School of Drama is by audition and/or interview only and requires an on-campus audition

(for acting emphasis) or portfolio review (for design or technology emphasis), and/or interview (for dramaturgy or stage management emphasis). **Students must be officially accepted into the School of Drama by audition and/or interview before being allowed to enroll for classes.**

The Bachelor of Fine Arts in Drama degree is designed to provide the student with a solid foundation in each basic area of the theatre, with an opportunity to begin specialization in the sophomore year.

Students must choose one of the following emphasis areas.

- **Acting Emphasis** - Students will audition during the second semester of the freshman year.
- **Design Emphasis** - Emphasis review is required for admission to the design/tech emphasis area at the end of the freshman year.
- **Dramaturgy Emphasis** - Students must apply during the second semester of the freshman year.
- **Stage Management Emphasis** - Admission must occur no later than the spring semester of the sophomore year.

Drama Core and Emphasis Requirements

¹MATH 1473 is recommended.

²The course taken to fulfill the upper-division General Education requirement outside the major may not be chosen from Drama courses.

- At least **24 hours of upper-division Drama** credit must be earned in residence as a declared major; must include the Senior Capstone.
- **Bachelor's degrees require a minimum of 40 hours of upper-division (3000-4000) coursework.**
- This plan of study should not be used in lieu of academic advisement.
- *Unless otherwise stated on the degree sheet, the College of Fine Arts does not permit coursework to fulfill more than one degree requirement.*

Theatre, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

No single course may be used by a student to satisfy a major requirement and a minor requirement.

Students must earn a minimum grade of C in each course.

A minimum of 9 hours must be upper division courses.

The Minor in Theatre is available to all undergraduate students at OU.

- If the minor is officially declared and approved, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

 music.ou.edu

General Information

The School of Music offers curricula for those who choose to pursue professional careers in music, and courses for all University students who may wish to acquaint themselves with music as listeners or participants. The school stresses creativity and research and provides opportunities for the students to develop their powers of personal expression through performance, composition, historical, analytical and pedagogical disciplines.

The faculty includes artists and scholars who are nationally known in the fields of performance, composition, education, history and theory. Recitals, concerts, lectures, guest artists, operas, and seminars provide the students with a wide range of opportunities for musical and intellectual growth.

The School of Music is housed in three buildings: Stanley B. Catlett, Sr. Music Center, Donald W. Reynolds Performing Arts Center and Carpenter Hall. The Catlett Music Center contains the School of Music administrative offices, faculty offices and studios, rehearsal suites, classrooms, MIDI labs, the Grant Fine Arts Library, a recording studio, and three performance halls, including the Paul F. Sharp Concert Hall, Morris R. Pitman Recital Hall, and Grayce B. Kerr Gothic Hall. The Donald W. Reynolds Performing Arts Center houses faculty offices and the restored Holmberg auditorium used by the OU Opera Theater. Studios for the voice and piano faculty members are currently located in Carpenter Hall.

The School of Music is a fully accredited institutional member of the National Association of Schools of Music. The requirements for admission and graduation are in accordance with the published regulations of the N.A.S.M.

Programs for Academic Excellence

The School of Music offers many opportunities to all University students, regardless of major, for participation in performing ensembles. For students who demonstrate sufficient musical ability to qualify, the following ensembles are available: the University Symphony Orchestra, Opera, Musical Theatre, Collegium Musicum, University Singers, University Chamber Ensemble, Opera Chorus, Women's Chorus, Singing Sooners, Symphonic Band, Concert Band, Marching Band, Trombone Choir, Jazz Ensemble, Percussion Ensemble, Brass Choir, Flute Choir, Sooner Bassooners, New Century Ensemble and numerous other ensembles such as woodwind and brass quintets, string quartets, and trios. Students should consult the class schedule and director regarding membership in each ensemble.

All undergraduate students majoring in music are required to participate in one or more of the following ensembles: Marching Band, Symphonic Band, Wind Ensemble, University Symphony Orchestra, Opera Chorus, University Chorale or Women's Chorus. For satisfactory participation in performing ensembles, one credit hour per semester in each ensemble may be earned. Each degree program in music has special requirements for participation in ensembles.

Scholarships, Awards and Financial Aid

Tuition waivers and cash scholarships are awarded on the merits of the audition for admission to the School of Music, and renewal is based on the student's musical and academic performance each year. Students are eligible for other scholarships and awards once they have matriculated to the University of Oklahoma. Information about these awards is available at OU Scholarships. Additional financial aid is available to qualified students through the University of Oklahoma Office of Financial Aid Services.

Graduate assistantships are available in: voice, piano (class and private), choral music, band (marching/concert), music theory, composition, music appreciation, MIDI technology, music education, and applied music. International students offered graduate assistantships may be required to pass a series of English tests administered by the English Assessment office prior to being appointed. Applications may be secured from the Coordinator of Graduate Studies in Music.

In addition to the regular scholarships and music awards, several special awards are given annually to outstanding students.

Undergraduate Study

- Brass & Percussion, Bachelor of Music (p. 860)
- Composition, Bachelor of Music (p. 862)
- Harp, Bachelor of Music (p. 865)
- Organ, Bachelor of Music (p. 867)
- Piano, Bachelor of Music (p. 870)
- Piano Pedagogy, Bachelor of Music (p. 872)
- Strings & Guitar, Bachelor of Music (p. 874)
- Voice, Bachelor of Music (p. 877)
- Woodwinds, Bachelor of Music (p. 880)
- Music – BA, Bachelor of Arts in Music (p. 882)
- Music – BA: Instrumental Jazz, Bachelor of Arts in Music (p. 884)
- Music – BMA, Bachelor of Musical Arts (p. 886)
- Instrumental Music Education, Bachelor of Music Education (p. 888)
- Vocal Music Education, Bachelor of Music Education (p. 892)
- Music, Minor (p. 895)

Admission

The School of Music accepts the admission requirements of the University of Oklahoma for incoming freshman and transfer students. In addition to these general requirements for admission, all students must audition and be accepted into a studio in the major/ principal applied instrument/voice before enrolling as a music major. Additional supporting material, including a resume, two letters of recommendation, and a short essay, must be submitted to the School of Music in order to complete the admission process. Students with prior experience on the piano may take a piano skills examination to determine placement in an appropriate piano class or private study.

Degree Requirements

In addition to the regular curriculum requirements, all students who are candidates for the degrees Bachelor of Music, Bachelor of Musical Arts, Bachelor of Music Education, and Bachelor of Arts in Music must satisfactorily meet sophomore proficiency and piano proficiency requirements.

Degree Recitals

All candidates for baccalaureate degrees in music with the exception of the Bachelor of Arts, must present public degree recitals. All recitals presented in partial fulfillment of degree requirements must be previewed and approved by a faculty committee prior to scheduling the recital.

Validation of Transfer Credit for Applied Study

Transfer credit for applied music will be validated only by an examination when such credit is to be applied to a degree offered by the School of Music. Transfer students whose advancement is below the junior level and who expect to continue study, must enroll in Applied Music 2020 and will be examined at the end of the semester for placement in a course sequence and validation of transfer credit. All other students wishing to validate transfer credit in applied music should arrange appointments for examination during the week of registration.

Class Attendance

Students are expected to attend every class session and private lesson as scheduled. Instructors in applied music are required to make up lessons which they cancel for personal reasons. The instructors are not required to make up lessons missed by failure of the student to attend, nor those missed on occasions when the instructors are requested to leave the campus as official representatives of the University. Lessons falling on University holidays will not be made up.

Recital Attendance

Candidates for all Music degrees must earn Satisfactory (S) recital attendance for graduation. The S grade is predicated on a satisfactory attendance of a specified number of concerts each semester. A syllabus is available from the School of Music Office (138 Catlett Music Center).

Grade requirements

A grade of C or better is required in all courses taken within the School of Music. Any courses in which a D is earned must be repeated until a grade of C or better is achieved. Some music courses carry a limit to the number of times a course may be repeated; exceeding that limit may result in a student being withdrawn from the degree program. Courses graded P/NP (pass/fail) may not be used to fulfill requirements for this degree; all coursework must be letter graded.

Enrollment Limitation

The number of times that a music student can retake a required course, in an attempt to raise the grade, is limited to two. If a student has enrolled in a required course three times and does not receive a C or better, the student will not be allowed to pursue any music degree program for which that course is a requirement.

This regulation concerning the limited repetitions of a course **does not** apply to applied music study nor to ensemble study.

Graduate Study

The School of Music at the University of Oklahoma offers the following graduate programs.

- Choral Conducting, Master of Music (p. 895)
- Instrumental Conducting, Master of Music (p. 896)
- Music Composition, Master of Music (p. 897)
- Music Theory, Master of Music (p. 897)
- Musicology, Master of Music (p. 898)
- Organ: Standard, Master of Music (p. 898)

- Organ: Church Music, Master of Music (p. 899)
- Organ: Technology, Master of Music (p. 899)
- Piano: Performance, Master of Music (p. 900)
- Piano: Performance and Pedagogy, Master of Music (p. 900)
- Voice: Opera, Master of Music (p. 901)
- Voice: Performance, Master of Music (p. 901)
- Wind, Percussion, String, Master of Music (p. 902)
- Conducting, Master of Music Education (p. 903)
- General Music Education, Master of Music Education (p. 904)
- Instrumental, Master of Music Education (p. 905)
- Piano Pedagogy, Master of Music Education (p. 906)
- Artist's Certificate in Music Performance, Graduate Certificate (p. 906)
- Music Doctoral Programs (p. 907)

For further information, please access the School of Music website or call the Graduate Music Office at (405) 325-5393.

¹Students who have prior piano background may be eligible for the proficiency exam for one or more of the group piano courses. These hours then become free electives. Or, the student may elect to receive advanced standing credit for the group piano course(s). See the Coordinator for Group Piano for information.

²No more than a total of four (4) hours of applied lessons and major performance ensembles may be applied to Advised Music Electives.

General Education & Other Requirements

Courses used to fulfill General Education and/or major requirements may **not** fulfill electives. Some courses which fulfill the General Education requirements are listed in other areas on this sheet and are indicated by the appropriate Core numbers. Unless otherwise stated on the degree sheet, the College of Fine Arts does **not** permit coursework to fulfill more than one degree requirement.

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list, including at least one upper-division Gen. Ed. course outside of the student's major. Courses graded S/U or P/NP will not apply.

Total Credit Hours 37-48

¹MATH 1473 is recommended.

Suggested Semester Plan of Study

At least **24 hours of upper-division Music** credit must be earned in residence as a declared major; must include the Senior Capstone.

A grade of C or better is required in all courses taken within the School of Music. This plan includes 8 hours of MUTE 2271/2280/4271/4280, Chamber Music/Studio Ensemble, of which only 4 hours are required. Additional 4 hours apply towards Advised Music Electives.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, the responsibility for meeting degree requirements lies with the student and not with the advisor or the Dean. Each student should obtain a copy of the requirements for graduation and check it regularly as they complete their degree program.

¹Students who have prior piano background may be eligible for the proficiency exam for one or more of the group piano courses. These hours then become free electives. Or, the student may elect to receive advanced standing credit for the group piano course(s). See the Coordinator for Group Piano for information.

²No more than a total of four (4) hours of applied lessons and major performance ensembles may be applied to Advised Music Electives.

General Education & Other Requirements

Courses used to fulfill General Education and/or major requirements may **not** fulfill electives. Some courses which fulfill the General Education requirements are listed in other areas on this sheet and are indicated by the appropriate Core numbers. Unless otherwise stated on the degree sheet, the College of Fine Arts does **not** permit coursework to fulfill more than one degree requirement.

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list, including at least one upper-division Gen. Ed. course outside of the student's major. Courses graded S/U or P/NP will not apply.

¹MATH 1473 is recommended.

²MUTH 3783 is recommended.

Suggested Semester Plan of Study

At least **24 hours of upper-division Music** credit must be earned in residence as a declared major; must include the Senior Capstone.

A grade of C or better is required in all courses taken within the School of Music. Unless otherwise stated on the degree sheet, the College of

Fine Arts does **not** permit coursework to fulfill more than one degree requirement.

Degree Completion Responsibility: Although the Dean’s Office checks each student’s records, the responsibility for meeting degree requirements lies with the student and not with the advisor or the Dean. Each student should obtain a copy of the requirements for graduation and check it regularly as they complete their degree program.

MUS 4023	Senior Capstone - BA Degree	
Total Credit Hours		25-36

¹MATH 1473 is recommended.

Note: The Bachelor of Arts degree requires at least 80 hours of liberal arts coursework.

Suggested Semester Plan of Study

At least **15 hours of upper-division Music** credit must be earned in residence as a declared BA major; must include the Senior Capstone.

A grade of C or better is required in all courses taken within the School of Music. Unless otherwise stated on the degree sheet, the College of Fine Arts does **not** permit coursework to fulfill more than one degree requirement.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, the responsibility for meeting degree requirements lies with the student and not with the advisor or the Dean. Each student should obtain a copy of the requirements for graduation and check it regularly as they complete their degree program.

Music – BMA, Bachelor of Musical Arts

Major Requirements

A grade of C or better is required in all courses taken within the School of Music. Audition is required for admission to the degree program. All coursework must be letter graded; P/NP may not count toward degree.

Major Area

Code	Title	Credit Hours
XXXX 2020, Applied Lesson		8
XXXX 4020, Primary Instrument ¹		4
MUTE XXXX, Major Performance Ensembles ²		4
MUTE XXXX, Major Performance Ensembles (3000-4000) ^{3,4}		2
MUTE 1000 Freshman/Transfer Music Orientation (1 semester)		0
MUTE 1010 Recital Attendance (3 semesters)		0
SRRE 4021 Senior Capstone Recital (Core V)		1
Fulfilled in General Education curriculum:		
SRRE 4012 Capstone Experience (Core V)		
Total Credit Hours		19

¹Sophomore Barrier Performance Exam is required for admission to upper-division applied study.

²Major performance ensembles on the primary instrument/voice are as follows: Campus Band, University Marching Band, Wind Symphony, Symphony Band, University Orchestra, University Chorale, Men's Glee Club, and Women's Chorus.

³At least 4 of the 6 hours must be taken from major performing ensembles.

⁴BMA piano majors must take MUTE 3110 as a small ensemble experience for two semesters in the third and fourth year of piano major study.

MUTE 4512	Professional Preparation and Capstone Proposal Development	2
Choose one of the following groups: ¹		4
Group Piano:		

MUTE 1311	Group Piano I	
MUTE 1321	Group Piano II	
MUTE 2311	Group Piano III	
MUTE 2321	Group Piano IV	
Functional Piano Skills:		
MUTE 1332	Functional Piano Skills I (piano majors only)	
MUTE 1342	Functional Piano Skills II (piano majors only)	
Advised Music Electives		7
Total Credit Hours		42

¹Students who have prior piano background may be eligible for the proficiency exam for one or more of the group piano courses. These hours then become free electives. Or, the student may elect to receive advanced standing credit for the group piano course(s). See the Coordinator for Group Piano for information. BMA piano majors must take MUTE 1332 and MUTE 1342, Functional Piano Skills I and II, rather than Group Piano I - IV.

Secondary Area

Code	Title	Credit Hours
Choose one of the following tracks:		33
Track 1 Secondary Emphasis in Music:		
Choose 18 hours outside the School of Music		
Choose 15 hours in a focused area of concentration in music ¹		
Track 2 Secondary Emphasis outside Music:		
Choose 24 hours in a focused area of concentration outside the School of Music ¹		
Choose 9 hours in any college or department including the School of Music		
Total Credit Hours		33

¹The proposed area of concentration must be approved by the Undergraduate Studies Coordinator for Advising & Student Academic Performance in the School of Music. If it is an official minor offered by the university, it must be formally declared in the appropriate college advising office.

General Education Requirements

Courses used to fulfill General Education and/or major requirements may not fulfill electives. Some courses that fulfill General Education requirements are listed in other areas on this sheet and are indicated by the appropriate Core numbers.

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list, including at least one upper-division Gen. Ed. course outside of the student's major. Courses graded S/U or P/NP will not apply.

General Rules, Regulations and Requirements

More information on Grade Requirements and Enrollment Limitations can be found in the catalog under School of Music: Undergraduate Study (p. 857).

Admission to Music Teacher Education: Students must apply to the teacher education program at the end of the sophomore year by the following process:

- Complete & submit a "Request for Admission to Teacher Preparation Program Form" from the Fine Arts Dean's office.
- Students must pass the Oklahoma General Education Test. OGET results must be turned in with Admission to Teacher Preparation Program Form to the College of Education.
- Students must complete a minimum of 24 hours of general education coursework from the university approved list with C or better grades in the following areas: ENGL 1113 (required), ENGL 1213 or EXPO 1213 (required), math, natural science w/o lab, natural science w/lab, P SC 1113, social science, HIST 1483 or HIST 1493, humanities.
- Complete Submission 1 on electronic portfolio to faculty advisor. Submission 1 check list must be complete and portfolio must be cleared by faculty advisor.
- Meet with faculty advisor to complete: Memorandum of Understanding, Supplemental Disclaimer, and an Academic Completion Letter.
- Take the following to the College of Education Advising Office for entrance paperwork and permissions for courses: completed Admission to Teacher Preparation Program Form; *Memorandum of Understanding; Supplemental Disclaimer; Academic Completion Letter*; essay from MUED 1732; OGET scores; background check.
- Students must have a minimum 2.75 OU retention and combined retention GPAs in order to be admitted to the College of Education Teacher Preparation coursework, to graduate, and to be certified. Students with a GPA between 2.5 and 2.74 may petition the MUED faculty for an exemption to begin their Teacher Preparation coursework, but will be placed on Academic Probation by the College until such time as their GPA is raised to the required 2.75 for graduation. Exemptions cannot be granted for students with less than a 2.50.

Scheduling of MUED Sequence Courses: Courses are to be taken the semester as indicated in the semester grid below. MUTE 2221 and MUTE 2251 should be taken during the sophomore year in any order. No substitutions or exceptions will be allowed under normal circumstances. Private lessons on secondary instruments may not be substituted for these courses.

Student Teaching: MUED 4042, MUED 4050, and MUED 4060 are taken during the student teaching semester. All coursework and recitals must be completed prior to student teaching.

Suggested Semester Plan of Study

At least **24 hours of upper-division Music** credit must be earned in residence as a declared major; must include the Senior Capstone. This plan of study should not be used in lieu of academic advisement. Unless otherwise stated on the degree sheet, the College of Fine Arts does **not** permit coursework to fulfill more than one degree requirement.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, the responsibility for meeting degree requirements lies with the student and not with the advisor or the Dean. Each student should obtain a copy of the requirements for graduation and check it regularly as they complete their degree program.

Vocal Music Education, Bachelor of Music Education

Major Requirements

A grade of C or better is required in all courses taken within the School of Music. Audition is required for admission to the degree program. All coursework must be letter graded; P/NP may not count toward degree.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators, apply for a license, and successfully complete the residency program.

Major Area

Code	Title	Credit Hours
Choose 8 hours in the following:		8
VOIC 2020	Voice for Music Majors: Freshman/Sophomore ¹	
Choose 5 hours in the following:		5
VOIC 4020	Voice for Music Majors: Junior/Senior ^{1,2}

¹Course may only be taken once formally admitted to music education teacher education program. See admission requirements under degree requirements. Consult with your advisor.

²No more than 12 hours may be taken during the semester of student teaching. No courses may conflict with the student teaching experience.

³Component, Senior Capstone Experience.

General Education Requirements

Some courses that fulfill General Education requirements are listed in other areas on this sheet and are indicated by the appropriate Core numbers.

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list, including at least one upper-division Gen. Ed. course outside of the student's major. Courses graded S/U or P/NP will not apply.

Code	Title	Credit Hours
Core I: Symbolic and Oral Communication

MUSC 2313	Ancient Times to 1700	
MUSC 2323	Late Baroque Through Romantic Period	
MUSC 3333	Post-Romantic Period to the Present	

Non-Western Culture

Choose one upper-division (3000-4000-level) elective course from the University-Wide General Ed. Non-Western Culture List (Core IV)

Core V: Senior Capstone

The following are satisfied in Education and Music Education:

MUED 4042	Capstone Seminar	
MUED 4050	Teaching Experiences in the Elementary School	
MUED 4060	Teaching Experiences in the Secondary School	

Total Credit Hours 28-41

¹Grade of C or better required.

²MATH 1473 or COMM 2513 is recommended.

General Rules, Regulations and Requirements

More information on Grade Requirements and Enrollment Limitations can be found in the catalog under School of Music: Undergraduate Study (p. 857).

Admission to Music Teacher Education: Students must apply to the teacher education program at the end of the sophomore year by the following process:

- Complete & submit a "Request for Admission to Teacher Preparation Program Form" from the Fine Arts Dean's office.
- Students must pass the Oklahoma General Education Test. OGET results must be turned in with Admission to Teacher Preparation Program Form to the Rainbolt College of Education.
- Students must complete a minimum of 24 hours of general education coursework from the university approved list with C or better grades

in the following areas: ENGL 1113 (required), ENGL 1213 or EXPO 1213 (required), math, natural science w/o lab, natural science w/lab, P SC 1113, social science, HIST 1483 or HIST 1493, humanities.

- Complete Submission 1 on electronic portfolio to faculty advisor. Submission 1 check list must be complete and portfolio must be cleared by faculty advisor.
- Meet with faculty advisor to complete: *Memorandum of Understanding, Supplemental Disclaimer*, and an *Academic Completion Letter*.
- Take the following to the College of Education Advising Office for entrance paperwork and permissions for courses: completed Admission to Teacher Preparation Program Form; *Memorandum of Understanding; Supplemental Disclaimer; Academic Completion Letter*; essay from MUED 1732; OGET scores; background check.
- **Students must have a minimum 2.75 OU retention and combined retention GPAs** in order to be admitted to the College of Education Teacher Preparation coursework, to graduate, and to be certified. Students with a GPA between 2.5 and 2.74 may petition the MUED faculty for an exemption to begin their Teacher Preparation coursework, but will be placed on Academic Probation by the College until such time as their GPA is raised to the required 2.75 for graduation. **Exemptions cannot be granted for students with less than a 2.50.**

Student Teaching: MUED 4042, MUED 4050, and MUED 4060 are taken during the student teaching semester. All coursework and recitals must be completed prior to student teaching.

Suggested Semester Plan of Study

At least **24 hours of upper-division Music** credit must be earned in residence as a declared major; must include the Senior Capstone. This plan of study should not be used in lieu of academic advisement. Unless otherwise stated on the degree sheet, the College of Fine Arts does **not** permit coursework to fulfill more than one degree requirement.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, the responsibility for meeting degree requirements lies with the student and not with the advisor or the Dean. Each student should obtain a copy of the requirements for graduation and check it regularly as they complete their degree program.

Music, Minor

The requirements for a minor must be completed concurrently with the major degree requirements. No minor may be added by completing courses after receiving the bachelor's degree.

See form available in Fine Arts Dean's office:

- Students must audition and be accepted as a music minor before it may be declared. Students are encouraged to audition during the School's formal Audition Days held during the spring semester.
- Acceptance as a music minor in any given studio area is on a space available basis (GTAs will teach).
- The minor must be officially declared in the Fine Arts Dean's office/ Student Services. Complete the form and take it to the Office of the Dean, Weitzenhoffer Family College of Fine Arts, Fred Jones Fine

Arts Center, Rm. 122 (FJC 122) on or before the student's senior graduation check.

Students beginning the program in the freshman or sophomore year will not have difficulty completing the music minor. Students beginning the program in the junior year will need to plan accordingly to meet the requirements before graduation. Applied study at the 4000 level does not require Sophomore Proficiency and may be taken for 1-2 hrs of credit.

No single course may be used by a student to satisfy a major requirement and a minor requirement.

Students must earn a minimum grade of C in each course.

A minimum of 9 hours must be at the upper division level.

At least 15 hours must be completed at the University of Oklahoma.

No courses counted toward the minor may be taken Pass/ No Pass.

The minor in Music is available to all undergraduate students at OU except those majoring in music.

- If the minor is officially declared and approved, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Students must successfully complete at least 24 hours of coursework in music, including at least 9 hours at the upper division level. The following specific requirements must be met:

Code	Title	Credit Hours
MUNM 1113	The Understanding of Music	2-3
	or MUSC 1312 Music in Culture	
MUTH 1511	Musical Structures I	1
MUTH 1522	Musical Structures II	2
MUTH 1611	Aural Skills I	1
MUTH 1622	Aural Skills II	2
	Choose major performance ensembles (1 hr. each), three semesters at the 1000 level	3
	Choose applied lessons (1 hr. each) at the 2000 level for three (3) semesters ¹	3
	Choose 9-10 credit hours at the 3000 level or above from applied lessons, ensembles, and/or classes ²	9-10
Total Credit Hours		24

¹ 1 credit hour per semester will be a half-hour individual lesson per week.

² May be from music major courses or from MUNM courses. Students who take MUSC 1312 to fulfill minor requirements must complete 10 hours.

Choral Conducting, Master of Music

The requirements listed on this degree check sheet apply to the following concentrations in Choral Conducting.

- Standard - M717 Q113
- Church Music - M717 Q114

VOIC 5000	Master's-Level Secondary Voice (2-4 hours)	
ORGN 5000	Master's-Level Secondary Organ (2-4 hours)	
Total Credit Hours		32

¹No more than the required 4 hours may be applied to the degree.

²Except for MUTH 5812 or MUTH 5822.

³May be chosen from any area in music or, with the program advisor's approval, from related non-music fields.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Choose 3-7 hours as approved by the Graduate Liaison and Program Advisor		3-7
Total Credit Hours		32

¹Students may not take less than 8 hours of ORGN 5020 and are not allowed to apply more than 12 hours of ORGN 5020 to the degree. Organ majors must enroll in ORGN 5020 for at least two consecutive 16 week semesters.

²No coursework taken to remediate deficiencies determined by the student's score on the Prelim Exam may be used to fulfill this requirement. It may, however, be used as elective credit, providing it is at the 5000- or 6000-level.

³Except for MUTH 5812, MUTH 5822, or any Music Technology courses.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in

all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Piano Pedagogy, Master of Music Education

MUED 5642	Internship in Piano Teaching
MUED 5970	Seminar in Music Education (Applied Research in Piano Pedagogy)
MUED 5970	Seminar in Music Education (Ensemble Music in Piano Teaching)

Total Credit Hours	32
---------------------------	----

¹Except for MUTH 5812 and MUTH 5822.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Artist's Certificate in Music Performance, Graduate Certificate

The Graduate Artist's Certificate in Music Performance is a focused, post-bachelor's program of study for pre-professionals who wish to develop their performance skills in preparation for performing careers. The goal of the Graduate Artist's Certificate program is to assist students in making themselves more marketable as professional musicians. The program requires satisfactory completion of eighteen (18) hours of approved

graduate-level coursework and is designed to be completed over two consecutive semesters of full-time enrollment.

Certificate Requirements

Code	Title	Credit Hours
XXXX 5020, Applied Lessons (2 semesters at 4 credits each semester) ¹		8
GRRE 5043	Graduate Recital-Graduate Artist Certificate (2 full-length recitals at 3 credits per recital)	6
MUTE XXXX, Major Performance Ensemble (not required for voice) ²		2
MUTE 5271	Chamber Music (not required for voice)	2
Choose from an approved list of graduate level course work:		0-4
Performance elective(s)		
Total Credit Hours		18

¹Applied lessons at the 5020 level of the appropriate instrument/voice.

²Major Performance Ensembles include: MUTE 5130, MUTE 5140, MUTE 5160, or MUTE 5290.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Music Doctoral Programs

Doctor of Musical Arts Degree

- The DMA program requires satisfactory completion of ninety (90) credit hours of approved coursework beyond the Bachelor's degree. In most instances, the first thirty-two (32) of these hours come from the Master's degree.
- All DMA programs, except Composition, require three major public performances (recitals, lecture/recitals, workshops, etc. as required by the specific program) and defense of a written document.
- The DMA Composition requires 2 major public performances and a written document.
- Each student is required to be "in residence" (i.e.: enrolled as a full-time student) for at least two consecutive 16-week semesters (i.e.: Fall and Spring or Spring and Fall).
- Each student is expected to complete all required coursework and at least one major public performance (or more, depending upon the degree program) within four (4) years of taking any coursework beyond the thirty-two (32) hours of the Master's degree. At that time, the student must pass the General Examination.
- Assuming satisfactory completion of the General Examination within the allowed timeframe, the student will have five (5) years from that semester to complete the degree, including any remaining major public performances and successfully proposing, completing, defending, and depositing two (2) copies of the written document in

the library and submitting an electronic copy of the document to the Graduate College.

Doctor of Philosophy Degree

- The Ph.D. program requires satisfactory completion of ninety-three (93) credit hours of approved coursework beyond the Bachelor's degree. In most instances, the first thirty-two (32) of these hours come from the Master's degree.
- The Ph.D. in Music Education requires a dissertation.
- Each student is required to be "in residence" (i.e.: enrolled as a full-time student) for at least two consecutive 16-week semesters (i.e.: Fall and Spring or Spring and Fall).
- Each student is expected to complete all required coursework within four (4) years of taking any coursework beyond the thirty-two (32) hours of the Master's degree. At that time, the student must pass the General Examination.
- Assuming satisfactory completion of the General Examination within the allowed timeframe, the student will have five (5) years from that semester to complete the degree, including successfully proposing, completing, defending, and depositing two (2) copies of the written document in the library and submitting an electronic copy of the document to the Graduate College.

For further information, please access the School of Music website or call the Graduate Music Office at (405) 325-5393.

A. Max Weitzenhoffer School of Musical Theatre

General Information

The A. Max Weitzenhoffer School of Musical Theatre at the University of Oklahoma is the only independent school of musical theatre in the country. With an innovative and challenging curriculum, impressive faculty and a select student body, OU Musical Theatre provides its students with the best of two worlds — conservatory-style training within a dynamic liberal arts university environment. In the midst of an intensive, world-class program of study in the arts, OU Musical Theatre gives students unique opportunities to broaden their knowledge with a wide array of possibilities outside of the School. Apart from offering a high caliber faculty, curriculum and performance opportunities, the goal of OU Musical Theatre is to provide its students with the necessary training and tools to make them highly marketable, employable and successful both on stage and off.

Born out of a generous gift from acclaimed Broadway producer and OU School of Drama graduate A. Max Weitzenhoffer, in 1998, the School of Musical Theatre stands along with the Weitzenhoffer Family College of Fine Arts as a testament to the University of Oklahoma's continued commitment to the fostering of artistic talent. OU Musical Theatre bridges the gap between past and present, uniting a University steeped

in tradition and history with a fresh and contemporary outlook toward the future of Musical Theatre.

In its relatively short history, the Weitzenhoffer School of Musical Theatre has established itself as one of the premier musical theatre programs in the country, graduating students who perform on Broadway, in Europe, with national tours, at regional theaters, and in film and television.

Special Facilities and Programs

The School's administrative and faculty offices are located in Carpenter Hall. The Musical Theatre dance studios and performance classrooms are also located here, along with all voice studios and student lounge. The Fine Arts Center contains the 600-seat Elsie C. Brackett Theatre and the 250-seat Weitzenhoffer Theatre as well as classrooms and studios used by drama, dance, and musical theatre. The Catlett Music Center houses the Paul F. Sharp Concert Hall, the Morris R. Pittman Recital Hall, the Grayce B. Kerr Gothic Hall, as well as the FACTS Box Office for all Weitzenhoffer Family College of Fine Arts productions and concerts. In addition, Catlett houses many of the School of Music classrooms and rehearsal halls which include state of the art technology. The exquisitely renovated and restored Donald W. Reynolds Performing Arts Center (formerly historic Holmberg Hall) is used for performances, faculty studios and the School of Dance offices.

The A. Max Weitzenhoffer School of Musical Theatre presents two main stage productions each year. Many of our students also participate in other University Theatre productions. Additional opportunities include cabaret, revue, and workshop performances.

Programs for Excellence

The A. Max Weitzenhoffer School of Musical Theatre is one of the very few comprehensive and balanced musical theatre programs offered at a publicly supported university. Its conservatory type atmosphere is unique in a liberal arts university setting. The School is an interdisciplinary degree program working cooperatively with other units in the Weitzenhoffer Family College of Fine Arts. This performance-based degree is involved with and supported by a multitude of diverse theatrical and performance opportunities ranging from fully produced musicals, dramas, dance and cabarets. These opportunities provide the students with a wide variety of experiences in which they can put classroom skills into practice.

A special feature of the A. Max Weitzenhoffer School of Musical Theatre is its commitment to the development of new musical theatre works. This is accomplished through unique partnership arrangements with recognized producers, regional theatres, and creative artists who are leaders in the professional theatre world. The School has worked with up-and-coming writers, composers, and lyricists on such projects as "Something Wicked this Way Comes", "The First Gentleman", and "20,000 Leagues Under the Sea". Networking with Broadway casting directors and agents has led to numerous professional performance opportunities for our students upon graduation.

During the summer, faculty members work professionally in a variety of musical theatre venues. In addition, a majority of students in the School secure summer employment with professional theatres and entertainment venues throughout the country. Students are also given the chance to explore international performing opportunities in Europe and South Africa.

Scholarship Information

A number of scholarships and awards are available to qualified students each academic year. Initial scholarship considerations and offers are made following admission auditions in the spring. Returning students apply for scholarships and waivers through scholarships.ou.edu. Additional non-departmental scholarships and financial aid are available through the University of Oklahoma's office of Financial Aid Services. These applications must be made separately.

For specific information and deadlines, contact the A. Max Weitzenhoffer School of Musical Theatre's office at musicaltheatre@ou.edu or (405) 325-0538.

Undergraduate Study

- Musical Theatre Performance, Bachelor of Fine Arts in Musical Theatre (p. 909)

Admission

Admission to the School of Musical Theatre is a two-part process. It involves a pre-audition (either through an electronic video submission or by attending regional or national audition events such as Unifieds). These preliminary auditions may result in a possible on-campus callback audition. In order to reserve your spot at an On-Campus Audition, you must be called back from your pre-audition. For more specific audition information, please visit our website.

Proficiency Evaluation

Review of a student's progress for continuation in the School will occur during the spring semesters of their freshman, sophomore, and junior years. Academic and artistic progress will be evaluated during this period accompanied by career counseling.

Degree Requirements

Students are advised each semester by the School faculty concerning enrollments, advancement toward degree and career options.

Students considering a Bachelor of Fine Arts in Musical Theatre should call (405) 325-0538 or visit the website for curriculum requirements, admission guidelines, scheduled admission audition dates, scholarships and awards. The Musical Theatre office is located in Carpenter Hall, Rm 104.

General Education Requirements

Courses used to fulfill General Education and/or major requirements may not fulfill electives.

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list, including at least one upper-division Gen. Ed. course outside of the student's major. Courses graded S/U or P/NP will not apply.

Code	Title	Credit Hours
Core I: Symbolic and Oral Communication		
<i>English Composition</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language</i>		
Choose 2 courses. This requirement is not mandatory if the student successfully completed 2 years of the same foreign language in high school. (Core 1)		0-10
Core I: Mathematics		
Choose any General Education approved MATH course; one of the following two is recommended:		3
MATH 1473	Mathematics for Critical Thinking	
PHIL 1113	Introduction to Logic

Choose one course from Art, Dance, Drama, or Music; 3000-4000-level is recommended ¹		3
<i>Non-Western Culture</i>		
Choose one course from Art, Dance, Drama, or Music; 3000-4000-level is recommended ¹		3
Core V: Senior Capstone		
Satisfied in Musical Theatre Core requirements:		0
MTHR 4183	Capstone Experience	
Choose one General Education Elective: 3000-4000-level approved course is recommended		3
Total Credit Hours		34-44

¹These two courses must be from different fine arts disciplines.

Suggested Semester Advisement Plan

At least 24 hours of upper-division Musical Theatre credit must be earned in residence as a declared major; must include the Senior Capstone. A grade of C or better is required in all courses taken within the College of Fine Arts.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, the responsibility for meeting degree requirements lies with the student and not with the advisor or the Dean. Each student should obtain a copy of the requirements for graduation and check it regularly as they complete their degree program.

General Information

The OU School of Visual Arts includes four broad divisions; Studio Art, Art History, Art, Technology and Culture, and Visual Communication. Studio Art consists of programs in painting, printmaking, sculpture, and ceramics. Art History is a humanities field that studies the history of art, artifacts and architecture. Art, Technology and Culture includes photography, video, film, the use of technology in art, and other emergent media. Visual Communication majors become graphic designers, illustrators, production managers and other visual specialists working in design advertising and related fields.

The OU School of Visual Arts is the largest, most comprehensive art school in Oklahoma and is the only institution in the state to offer a master's and doctoral program in art history. The school serves approximately 400 undergraduate and graduate level students in art history, art, technology and culture, studio art, and visual communications with a faculty of 26 full-time artists, designers, scholars, a full-time Sculptor-in-Residence, the H. Russell Pitman Professor of Art History, the Charles Marion Russell Memorial Chair of Art in the American West, the Eugene B. Adkins Presidential Professor and Mary Lou Milner Carver Chair for Native American Art, and the Mary Lou Milner Carver Professor for Art of the American West. The school is dedicated to pursuing, promoting and supporting creative activity and scholarly research in the visual arts on both the undergraduate and graduate levels.
