

GENERAL CATALOG

2019-2020

TABLE OF CONTENTS

Home	15	Architecture via Architecture Bachelor's Degree, Master of Architecture	93
Welcome!	16	Architecture, Master of Science in Architecture	93
What OU is All About	17	Urban Design, Master of Urban Design	94
Organization	19	Data Systems and Digital Design (BIM/GIS/FAB), Graduate Certificate	94
Norman Campus	20	Departmental Elective List	95
Health Sciences Center	21	Design Entrepreneurship and Real Estate, Graduate Certificate	95
OU-Tulsa Schusterman Center	21	Departmental Elective List	95
Continuing Education	22	Resilient Planning, Design, and Construction, Graduate Certificate	95
The OU Difference	23	Departmental Elective List	96
Special Programs	23	Architecture Doctoral Programs	96
Facilities and Resources	25	Division of Construction Science	96
Museums and Collections	28	Construction Science, Bachelor of Science in Construction Science	97
Orientation and Advisement	31	Construction Science, Minor	98
Career Planning	34	Construction Management: Special Studies, Master of Science in Construction Management	98
Academic Majors – Undergraduate and Graduate	36	Construction Management: Thesis, Master of Science in Construction Management	99
Minors	44	Program in Environmental Design	100
Division of Enrollment Management	46	Environmental Design, Bachelor of Science in Environmental Design	101
Office of Admissions & Recruitment	46	Division of Interior Design	103
Office of the Registrar	53	Interior Design, Bachelor of Interior Design	105
Academic Records	54	Interior Design for Non-Architecture Majors, Minor	106
Registration & Student Services	61	Interior Design for Architecture Majors, Minor	106
Financial Aid Services	65	Interior Design, Master of Science in Interior Design	106
Student Financial Center	66	Interior Design, First Professional, Master of Science in Interior Design	107
Veteran Student Services	67	Interior Design, Post-Professional, Master of Science in Interior Design	107
Student Affairs	72	Professional Applications of Interior Design (PAID) a Theory Based Program, Graduate Certificate	108
University College	75	Division of Landscape Architecture	108
Academic Affairs	79	Landscape Architecture, Master of Landscape Architecture	109
Multidisciplinary Studies, Bachelor of Arts	79	Landscape Architecture via BLA, Master of Landscape Architecture	110
Multidisciplinary Studies, Bachelor of Science	80	Landscape Architectural Studies, Master of Landscape Architecture	110
Christopher C. Gibbs College of Architecture	82	Division of Regional and City Planning	111
Division of Architecture	85	Regional and City Planning, Master of Regional and City Planning	112
Architecture, Three+ Year Program, Bachelor of Science in Architectural Studies	89		
Architecture, Four+ Year Program, Bachelor of Architecture	89		
Architectural Studies, Minor	90		
Architecture, 3½ + 1½ Program, Bachelor of Science in Architectural Studies/Master of Architecture	91		
Architecture via Non-Architecture Bachelor's Degree, Master of Architecture	92		

College of Arts and Sciences	114	Chemistry, Minor	180
College of Arts and Sciences Administrated Programs	125	Chemistry & Biochemistry, Master of Science	180
Community Health, Bachelor of Arts	125	Chemistry: Bioinformatics, Master of Science	181
Community Health, Bachelor of Science	127	Chemistry and Biochemistry Doctoral Programs	182
Latinx Studies, Bachelor of Arts	129	Department of Classics and Letters	182
Planned Program, Bachelor of Arts	132	Classics: Classical Languages, Bachelor of Arts	184
Planned Program, Bachelor of Science	133	Classics: Classical Studies, Bachelor of Arts	186
Public Health, Bachelor of Public Health	135	Classical Studies Distribution Course Lists	188
Approved Public Health and Community Health Major		Classics: Latin, Bachelor of Arts	189
Electives	138	Letters (Standard), Bachelor of Arts in Letters	191
Editing and Publishing, Minor	138	Letters: Constitutional Studies, Bachelor of Arts in Letters	193
Enterprise Studies, Minor	139	Constitutional Studies Category Course Lists	195
International Enterprise Studies, Minor	139	Classical Culture, Minor	197
Latinx Studies, Minor	140	Classical Greek, Minor	197
Public and Community Health, Minor	141	Constitutional Studies, Minor	197
Clara Luper Department of African and African-American Studies		Latin, Minor	198
.....	141	Department of Communication	198
African and African-American Studies, Bachelor of Arts	142	Communication, Bachelor of Arts	200
African and African-American Studies, Minor	145	Communication, Minor	202
Department of Anthropology	145	Communication, Master of Arts	202
Anthropology, Bachelor of Arts	148	Organizational Communication, Master of Arts	203
Anthropology Elective List	150	Communication Doctoral Programs	203
Human Health & Biology, Bachelor of Science	152	Department of Economics	204
Anthropology, Minor	154	Economics, Bachelor of Arts	205
Anthropology, Bachelor of Arts/Sociocultural Anthropology,		Economics, Minor	207
Master of Arts	155	Economics, Bachelor of Arts/Master of Arts	208
Applied Linguistic Anthropology, Master of Arts in Applied		Economics: Applied Economics, Master of Arts	211
Linguistic Anthropology	158	Economics: Managerial Economics, Master of Arts	211
Anthropology (Standard), Master of Arts	158	Economics Doctoral Programs	211
Socio-Cultural Anthropology, Master of Arts	159	Department of English	212
Anthropology Doctoral Programs	159	English: Literary & Cultural Studies, Bachelor of Arts	214
Department of Biology	159	English Literary & Cultural Studies Distribution Lists	216
Biology, Bachelor of Science	163	English: Writing, Bachelor of Arts	217
Biology, Minor	165	English: Literary & Cultural Studies, Minor	219
Biology, Master of Science	166	English: Writing, Minor	220
Biology: Bioinformatics, Master of Science	166	Irish Studies, Minor	220
Biology Doctoral Programs	167	English: Literary & Cultural Studies, Bachelor of Arts/Master of	
Department of Chemistry and Biochemistry	167	Arts	221
Biochemistry, Bachelor of Science in Biochemistry	170	English: Writing, Bachelor of Arts/Master of Arts	224
Chemical Biosciences, Bachelor of Science	172	English: Literary Studies, Master of Arts	226
Chemistry and Biochemistry (Standard Option), Bachelor of		English: Rhetoric & Writing Studies, Master of Arts	227
Science	175	English Doctoral Programs	227
Chemistry (Professional), Bachelor of Science in Chemistry			
.....	177		

Environmental Studies	227	Human Relations (Standard), Master of Human Relations	270
Environmental Studies, Bachelor of Arts	228	Human Relations: Human Resources, Master of Human	
Environmental Studies Category Lists	230	Relations	271
Environmental Studies, Bachelor of Science	233	Helping Skills in Human Relations, Graduate Certificate	272
Biological Conservation, Minor	235	Human Resource Development and Workforce Diversity,	
Environmental Studies, Minor	236	Graduate Certificate	273
Water Sciences, Minor	236	Schusterman Program in Judaic and Israel Studies	273
Environmental Studies, Master of Science in Environmental		Judaic Studies, Bachelor of Arts	274
Studies	236	Judaic & Israel Studies, Minor	277
Department of Film and Media Studies	237	School of Library and Information Studies	278
Film & Media Studies, Bachelor of Arts	238	Information Science and Technology, Bachelor of Science ...	279
Film and Media Studies Guided Electives	240	Information Science and Technology Course Lists	282
Film & Media Studies, Minor	241	Information Studies, Bachelor of Arts in Information Studies	
Department of Health and Exercise Science	241	282
Health & Exercise Science, Bachelor of Science in Health &		Information Studies Major Category Lists	285
Exercise Science	243	Information Studies, Minor	286
Health & Exercise Science, Minor	246	Information Studies, Bachelor of Arts in Information Studies /	
Exercise Physiology, Master of Science	246	Master of Library and Information Studies	286
Health & Exercise Science, Master of Science	247	Library & Information Studies, Master of Library & Information	
Health Promotion, Master of Science	247	Studies	289
Sports Data Analytics, Master of Science	248	Library & Information Studies (Online), Master of Library &	
Health and Exercise Science Doctoral Programs	248	Information Studies	290
Department of History	249	Archival Studies, Graduate Certificate	290
History, Bachelor of Arts	251	Data Analytics for Information Professionals, Graduate	
History, Minor	254	Certificate	291
History, Master of Arts	254	Digital Humanities, Graduate Certificate	291
History Doctoral Programs	255	Approved Digital Humanities Elective Courses	291
Department of History of Science	255	Library and Information Studies Doctoral Programs	292
Health, Medicine, & Society, Bachelor of Arts	257	Department of Mathematics	292
Approved Health Medicine & Society Elective Courses ...	259	Mathematics (Standard Option), Bachelor of Arts	294
History of Science, Technology and Medicine, Bachelor of Arts in		Mathematics (Professional Option), Bachelor of Science in	
History of Science, Technology and Medicine	260	Mathematics	296
B.A. in History of Science, Technology, and Medicine Course		Mathematics, Minor	298
Lists	262	Mathematics & Biostatistics, Bachelor of Science in	
History of Medicine, Minor	263	Mathematics/Master of Science	298
History of Science, Minor	263	Mathematics. Master of Arts	301
History of Science, Technology & Medicine, Master of Arts in		Mathematics, Master of Science	301
History of Science, Technology & Medicine	264	Mathematics Doctoral Programs	302
History of Science Doctoral Programs	265	Medieval and Renaissance Studies	302
Department of Human Relations	265	Medieval & Renaissance Studies, Minor	303
Human Relations, Bachelor of Arts	266	Department of Microbiology and Plant Biology	304
Human Relations, Minor	269	Microbiology (Standard), Bachelor of Science	306
Clinical Mental Health Counseling, Master of Human Relations		Microbiology (Standard): Biotechnology, Bachelor of Science	
.....	270	309

Microbiology (Professional), Bachelor of Science in Microbiology	311	Modern Languages, Literatures, and Linguistics Doctoral Programs	352
Plant Biology, Bachelor of Science in Plant Biology	313	Native American Studies	352
Plant Biology: Biotechnology, Bachelor of Science in Plant Biology	315	Native American Studies, Bachelor of Arts	353
Microbiology, Minor	318	Native American Studies Areas of Emphasis	356
Plant Biology, Minor	318	Native American Studies, Minor	356
Microbiology, Master of Science	318	Native American Studies, Master of Arts	356
Microbiology: Bioinformatics, Master of Science	319	Department of Philosophy	357
Plant Biology, Master of Science	320	Philosophy, Bachelor of Arts	359
Plant Biology: Bioinformatics, Master of Science	320	Philosophy Major Distribution Lists	361
Microscopic Imaging and Technology, Graduate Certificate	321	Philosophy, Minor	362
Microbiology and Plant Biology Doctoral Programs	321	Philosophy, Master of Arts	362
Department of Modern Languages, Literatures, and Linguistics	321	Philosophy Doctoral Programs	363
Arabic, Bachelor of Arts	324	Homer L. Dodge Department of Physics and Astronomy	363
Arabic Major Support Course List	326	Astronomy, Bachelor of Science	365
Chinese, Bachelor of Arts	327	Astrophysics, Bachelor of Science in Astrophysics	367
Chinese Major Support List	329	Physics (Standard Option), Bachelor of Science	369
French, Bachelor of Arts	329	Physics (Professional Option), Bachelor of Science in Physics	372
German, Bachelor of Arts	331	Astronomy, Minor	374
Italian, Bachelor of Arts	333	Physics, Minor	374
Italian Major Support List	335	Physics, Master of Science	375
Japanese, Bachelor of Arts	336	Physics and Astronomy Doctoral Programs	375
Linguistics, Bachelor of Arts	338	Department of Political Science	376
Russian, Bachelor of Arts	340	Political Science, Bachelor of Arts	379
Spanish, Bachelor of Arts	343	Political Science Distribution Requirement Course Lists	381
Arabic, Minor	345	Political Science: Elections and Campaign Management, Bachelor of Arts	382
Chinese, Minor	345	Public and Nonprofit Administration, Bachelor of Arts	385
French, Minor	346	Elections & Campaign Management, Minor	387
German, Minor	346	Intelligence & National Security, Minor	388
Hebrew, Minor	347	Non-Governmental Organizations, Minor	389
Italian, Minor	347	Nonprofit Organizational Studies, Minor	389
Japanese, Minor	347	Political Science, Minor	390
Linguistics, Minor	348	Public Affairs & Administration, Minor	390
Portuguese, Minor	348	Political Science, Bachelor of Arts/Master of Arts	391
Russian, Minor	349	Political Science, Bachelor of Arts/Master of Public Administration	393
Spanish, Minor	349	Public and Nonprofit Administration, Bachelor of Arts/Political Science, Master of Arts	396
French, Master of Arts	350	Public & Nonprofit Administration, Bachelor of Arts/Master of Public Administration	398
German, Master of Arts	350	Political Science, Master of Arts	401
Spanish, Master of Arts	351		
TESOL, Master of Arts	352		

Public Administration, Master of Public Administration	402	LGBTQ Studies, Minor	446
Public Administration: Non-Profit Management, Master of Public Administration	402	Social Justice, Minor	446
Public Administration: Public Management, Master of Public Administration	403	Women's and Gender Studies, Minor	448
Public Management Concentration Courses	403	Women's and Gender Studies, Graduate Certificate	449
Public Administration: Public Policy, Master of Public Administration	403	College of Atmospheric and Geographic Sciences	450
Non-Profit Management, Graduate Certificate	404	Department of Geography and Environmental Sustainability	454
Political Science Doctoral Programs	404	Environmental Sustainability: Culture & Society, Bachelor of Arts in Environmental Sustainability	460
Department of Psychology	405	Environmental Sustainability: Culture & Society, Bachelor of Science in Environmental Sustainability	462
Psychology (Standard Option), Bachelor of Arts	407	Environmental Sustainability: Planning & Management, Bachelor of Arts in Environmental Sustainability	465
Psychology (Professional Option), Bachelor of Science in Psychology	410	Environmental Sustainability: Planning & Management, Bachelor of Science in Environmental Sustainability	467
Pre-Health Social Sciences, Minor	413	Environmental Sustainability: Science & Natural Resources, Bachelor of Arts in Environmental Sustainability	469
Psychology, Minor	413	Environmental Sustainability: Science & Natural Resources, Bachelor of Science in Environmental Sustainability	472
Organizational Dynamics - Human Resource Management, Master of Arts	414	Geographic Information Science, Bachelor of Arts in Geographic Information Science	474
Organizational Dynamics - Project Management, Master of Arts	415	Geographic Information Science, Bachelor of Science in Geographic Information Science	476
Psychology (Standard), Master of Science	416	Geography, Bachelor of Science in Geography	479
Psychology: Industrial Organizational Psychology, Master of Science	417	Geography: Geohumanities, Bachelor of Arts in Geography	481
Human Resource Management, Graduate Certificate	417	Geography: Physical & Social Sciences, Bachelor of Arts in Geography	483
Project Management, Graduate Certificate	418	Environmental Sustainability, Minor	485
Psychology Doctoral Programs	418	Geographic Information Systems, Minor	486
Department of Religious Studies	418	Geography, Minor	486
Religious Studies, Bachelor of Arts	419	Hydrologic Science, Minor	486
Religious Studies, Minor	422	Physical Geography, Minor	487
Anne and Henry Zarrow School of Social Work	423	Environmental Sustainability: Planning & Management, Bachelor of Arts in Environmental Sustainability/Master of Regional & City Planning	487
Social Work, Bachelor of Arts	426	Environmental Sustainability: Planning & Management, Bachelor of Science in Environmental Sustainability/Master of Regional & City Planning	490
Social Work, Master of Social Work	429	Geographic Information Science, Bachelor of Arts in Geographic Information Science/Master of Regional & City Planning	493
Social Work: Advanced Standing, Master of Social Work	430	Geographic Information Science, Bachelor of Science in Geographic Information Science/Master of Regional & City Planning	495
Social Work with American Indians, Graduate Certificate	430	Geography, Bachelor of Science in Geography/Master of Regional & City Planning	498
Department of Sociology	430	Geography: Physical & Social Sciences, Bachelor of Arts in Geography/Master of Regional & City Planning	501
Sociology - General Option, Bachelor of Arts	432		
Sociology - Criminology Option, Bachelor of Arts	435		
Sociology - General, Minor	437		
Sociology - Criminology, Minor	437		
Sociology, Bachelor of Arts/Master of Arts	438		
Sociology, Master of Arts	440		
Sociology Doctoral Programs	441		
Department of Women's and Gender Studies	441		
Women's & Gender Studies, Bachelor of Arts	443		

Environmental Sustainability, Master of Science in Environmental Sustainability	503	Entrepreneurship and Venture Management, Bachelor of Business Administration	553
Geography, Master of Arts	504	Entrepreneurship for Non-Business Majors, Minor	556
Geography: Geospatial Technologies, Master of Science in Geography	505	Entrepreneurship for Business Majors, Minor	556
Physical Geography, Master of Science in Geography	506	Entrepreneurship & Venture Management, BBA/Master of Science in Management of Information Technology	556
Geospatial Technologies, Graduate Certificate	507	Business Entrepreneurship, Graduate Certificate	559
Geography and Environmental Sustainability Doctoral Programs	507	Guided Electives	559
School of Meteorology	508	Division of Finance	560
Meteorology, Bachelor of Science in Meteorology	511	Finance, Bachelor of Business Administration	561
Upper-Division Major Elective Course List	514	Risk Management, Bachelor of Business Administration	564
Meteorology, Minor	515	Finance for Business Majors, Minor	566
Weather and Climate, Minor	515	Finance, BBA/Finance, Master of Science	567
Meteorology, Bachelor of Science in Meteorology/Master of Business Administration	515	Finance, BBA/Master of Science in Management of Information Technology	570
Meteorology, Bachelor of Science in Meteorology/Master of Science in Data Science and Analytics	518	Risk Management, BBA/Master of Science in Management of Information Technology	573
Meteorology, Master of Science in Meteorology	521	Finance, Master of Science	575
Meteorology Doctoral Programs	521	The Business of Energy, Graduate Certificate	576
Michael F. Price College of Business	523	Finance, Graduate Certificate	576
College of Business Administrated Programs	531	Departmental list of courses	576
Economics, Bachelor of Business Administration	532	Division of Management and International Business	577
General Business for Non-Business Majors, Minor	534	Energy Management, Bachelor of Business Administration	578
Economics, BBA/Master of Science in Management of Information Technology	534	International Business, Bachelor of Business Administration	581
Business Administration, Master of Business Administration	537	Management, Bachelor of Business Administration	584
Energy, Executive Master of Business Administration	537	Sports Management, Bachelor of Business Administration	586
Professional MBA, Master of Business Administration	538	Leadership for Business Majors, Minor	589
Executive Management in Aerospace and Defense, Graduate Certificate	539	Management, Minor	589
Departmental list of electives	539	Sports Management for Business Majors, Minor	590
Foundations of Business, Graduate Certificate	539	Sports Management for Non-Business Majors, Minor	590
Departmental list of courses	539	Management, BBA/Master of Science in Management of Information Technology	591
John T. Steed School of Accounting	540	Division of Management Information Systems	593
Accounting, Bachelor of Business Administration	541	Management Information Systems, Bachelor of Business Administration	595
Accounting, Minor	543	MIS for Non-Business Majors, Minor	597
Accounting, BBA/Master of Accountancy	544	MIS for Business Majors, Minor	598
Accounting, BBA/Finance, Master of Science	546	Management Information Systems, BBA/Master of Science in Management of Information Technology	598
Accounting, BBA/Master of Science in Management of Information Technology	549	Management of Information Technology, Master of Science in Management of Information Technology	601
Accounting, Online Accounting, Master of Accountancy	552	Digital Technologies, Graduate Certificate	601
Division of Entrepreneurship and Economic Development	552		

Graduate Electives	602	Intercollegiate Athletic Administration Course List	655
Division of Marketing and Supply Chain Management	602	Educational Administration - Curriculum & Supervision, Master of Education	655
Marketing, Bachelor of Business Administration	603	Educational Studies, Master of Education	656
Supply Chain Management, Bachelor of Business Administration	606	College Teaching Certificate, Graduate Certificate	657
Franchising, Minor	609	Educational Leadership and Policy Studies Doctoral Programs	657
Healthcare, Minor	609	Department of Educational Psychology	658
Marketing, Minor	609	Special Education, Bachelor of Science in Education	661
The Business of Healthcare, Undergraduate Certificate	610	Clinical Professional Counseling, Master of Education	664
Marketing, BBA/Master of Science in Management of Information Technology	610	Learning Sciences, Master of Education	664
Supply Chain Management, BBA/Master of Science in Management of Information Technology	613	Professional Counseling, Master of Education	665
Business Doctoral Programs	616	Special Education, Master of Education	665
College of Continuing Education	618	Applications of Educational Research and Evaluation, Graduate Certificate	666
Mewbourne College of Earth and Energy	621	Applied Behavior Analysis, Graduate Certificate	666
Mewbourne School of Petroleum and Geological Engineering	624	Drug and Alcohol Counseling, Graduate Certificate	666
Petroleum Engineering, Bachelor of Science in Petroleum Engineering	626	Fundamentals of Special Education, Graduate Certificate	667
Petroleum Engineering, Bachelor of Science in Petroleum Engineering/Master of Science	627	Learning Design and Technology, Graduate Certificate	667
Petroleum Engineering, Bachelor of Science in Petroleum Engineering/Master of Business Administration	629	Secondary Transition Education Specialist, Graduate Certificate	667
Geological Engineering, Master of Science	630	School Counseling, Graduate Certificate	668
Natural Gas Engineering & Management, Master of Science in Natural Gas Engineering & Management	631	Educational Psychology Doctoral Programs	668
Petroleum Engineering (Standard), Master of Science	631	Department of Instructional Leadership and Academic Curriculum	668
Natural Gas Technology, Graduate Certificate	632	Early Childhood, Bachelor of Science in Education	672
Petroleum and Geological Engineering Doctoral Programs	632	Early Childhood: Birth through Third Grade, Bachelor of Science in Education	675
School of Geosciences	633	Elementary, Bachelor of Science in Education	678
Environmental Geology, Bachelor of Science in Geology	638	Language Arts, Bachelor of Science in Education	681
Geology, Bachelor of Science in Geology	639	Mathematics, Bachelor of Science in Education	684
Geophysics, Bachelor of Science in Geophysics	640	Science Education: Biological Sciences, Bachelor of Science in Education	687
Paleontology, Bachelor of Science in Geology	641	Science Education: Chemistry, Bachelor of Science in Education	690
Petroleum Geology, Bachelor of Science in Geology	642	Science Education: Earth Science, Bachelor of Science in Education	693
Geology, Minor	643	Science Education: Physical Science, Bachelor of Science in Education	696
Geology, Master of Science	643	Science Education: Physics, Bachelor of Science in Education	699
Geophysics, Master of Science	644	Social Studies, Bachelor of Science in Education	703
Geology and Geophysics Doctoral Programs	644	World Language Education: French, Bachelor of Science in Education	706
Jeannine Rainbolt College of Education	645	World Language Education: German, Bachelor of Science in Education	708
Department of Educational Leadership and Policy Studies	651		
Adult & Higher Education, Master of Education	654		
Adult & Higher Education: Intercollegiate Athletic Administration, Master of Education	654		

World Language Education: Latin, Bachelor of Science in Education	711	Biomedical Engineering, Bachelor of Science in Biomedical Engineering/Master of Science	755
World Language Education: Spanish, Bachelor of Science in Education	714	Biomedical Engineering, Master of Science	756
ILAC: Early Childhood Education, Master of Education	717	Biomedical Engineering Doctoral Programs	757
ILAC: Elementary Education, Master of Education	718	School of Chemical, Biological and Materials Engineering	757
ILAC: English Education, Master of Education	718	Chemical Engineering (Standard), Bachelor of Science in Chemical Engineering	761
ILAC: Instructional Leadership, Master of Education	719	Chemical Engineering (Biotechnology Option), Bachelor of Science in Chemical Engineering	762
ILAC: Mathematics Education, Master of Education	720	Chemical Engineering (Pre-Medical/Biomedical Engineering), Bachelor of Science in Chemical Engineering	763
ILAC: Reading Education, Master of Education	721	Chemical Engineering (Standard), Bachelor of Science in Chemical Engineering/Master of Science	764
ILAC: Science Education, Master of Education	722	Chemical Engineering (Biotechnology), Bachelor of Science in Chemical Engineering/Biomedical Engineering, Master of Science	766
ILAC: Science, Technology, Engineering & Math (STEM) Education, Master of Education	722	Chemical Engineering (Pre-Medical/Biomedical Engineering), Bachelor of Science in Chemical Engineering/Biomedical Engineering, Master of Science	767
ILAC: Secondary Education, Master of Education	723	Chemical Engineering, Master of Science	769
ILAC: Social Studies Education, Master of Education	724	Chemical, Biological, and Materials Engineering Doctoral Programs	769
ILAC: Teacher Education, Master of Education	725	School of Civil Engineering and Environmental Science	769
ILAC: World Language Education, Master of Education	726	Architectural Engineering, Bachelor of Science in Architectural Engineering	773
Reading Specialist, Master of Education	726	Civil Engineering, Bachelor of Science in Civil Engineering	774
21st Century Teaching & Learning, Master of Education	727	Environmental Engineering, Bachelor of Science in Environmental Engineering	775
Communication, Culture and Pedagogy for ESL/ELL Populations in Educational Settings, Graduate Certificate	727	Environmental Science, Bachelor of Science in Environmental Science	776
Literacy Specialist, Graduate Certificate	727	Environmental Science, Minor	777
ILAC Doctoral Programs	728	Water and Sanitation for Health and Sustainable Development, Minor	778
Gallogly College of Engineering	729	Architectural Engineering, Bachelor of Science in Architectural Engineering/Civil Engineering, Master of Science	778
College of Engineering Administrated Programs	736	Civil Engineering, Bachelor of Science in Civil Engineering/Master of Science	780
Engineering Leadership, Undergraduate Certificate	736	Environmental Engineering, Bachelor of Science in Environmental Engineering/Master of Science	781
Course Lists	736	Environmental Science, Bachelor of Science in Environmental Science/ Master of Environmental Science	783
School of Aerospace and Mechanical Engineering	738	Civil Engineering, Master of Science	784
Aerospace Engineering, Bachelor of Science in Aerospace Engineering	743	Environmental Engineering, Master of Science in Environmental Engineering	784
Mechanical Engineering (Standard), Bachelor of Science in Mechanical Engineering	744	Environmental Science, Master of Environmental Science	785
Mechanical Engineering (Premedical Option), Bachelor of Science in Mechanical Engineering	745	Environmental Science: Hydrology and Water Security Online, Master of Environmental Science	786
Aerospace Engineering, Bachelor of Science in Aerospace Engineering/Master of Science	746	Departmental course lists	786
Mechanical Engineering (Standard), Bachelor of Science in Mechanical Engineering/Master of Science	747		
Aerospace Engineering, Master of Science	749		
Mechanical Engineering, Master of Science	749		
Aerospace and Mechanical Engineering Doctoral Programs	750		
Stephenson School of Biomedical Engineering	751		
Biomedical Engineering, Bachelor of Science in Biomedical Engineering	753		

Civil Engineering and Environmental Science Doctoral Programs	786	Industrial and Systems Engineering, Bachelor of Science in Industrial and Systems Engineering/Master of Science, Data Science and Analytics	817
School of Computer Science	786	Industrial and Systems Engineering: Analytics, Bachelor of Science in Industrial and Systems Engineering/Master of Science, Data Science and Analytics	818
Computer Science, Bachelor of Science in Computer Science	789	Industrial and Systems Engineering, Bachelor of Science in Industrial and Systems Engineering/Master of Science	819
Computer Science, Minor	790	Industrial and Systems Engineering: Analytics, Bachelor of Science in Industrial and Systems Engineering/Master of Science	821
Computational Technology, Minor	790	Industrial and Systems Engineering, Bachelor of Science in Industrial and Systems Engineering/Master of Business Administration	822
Computer Science, Bachelor of Science in Computer Science/Master of Science	791	Industrial and Systems Engineering, Master of Science	823
Computer Science, Master of Science	792	Industrial and Systems Engineering Doctoral Programs	824
Computer Science Doctoral Programs	793	Program in Telecommunications	824
Program in Data Science and Analytics	793	Telecommunications Engineering: Non-thesis, Master of Science	825
Data Science and Analytics, Master of Science	795	Telecommunications Engineering: Thesis, Master of Science	825
Data Science and Analytics, Graduate Certificate	795	Weitzenhoffer Family College of Fine Arts	827
School of Electrical and Computer Engineering	796	College of Fine Arts Administrated Programs	833
Computer Engineering, Bachelor of Science in Computer Engineering	799	Arts Management and Entrepreneurship, Graduate Certificate	834
Electrical Engineering, Bachelor of Science in Electrical Engineering	800	Arts Management and Entrepreneurship Elective Lists	834
Electrical and Computer Engineering, Minor	801	School of Dance	834
Computer Engineering, Bachelor of Science in Computer Engineering/Computer Science, Master of Science	801	Ballet Pedagogy, Bachelor of Fine Arts in Dance	836
Computer Engineering, Bachelor of Science in Computer Engineering/Electrical and Computer Engineering, Master of Science	803	Ballet Performance, Bachelor of Fine Arts in Dance	838
Electrical Engineering, Bachelor of Science in Electrical Engineering/Electrical and Computer Engineering, Master of Science	804	Modern Dance Performance, Bachelor of Fine Arts in Dance	840
Electrical and Computer Engineering, Master of Science	805	Dance History, Minor	842
Electrical and Computer Engineering Doctoral Programs	806	Dance, Master of Fine Arts in Dance	843
Department of Engineering	806	Peggy Dow Helmerich School of Drama	843
Engineering, Master of Science	807	Theatre: Acting Emphasis, Bachelor of Fine Arts in Drama	845
Engineering Doctoral Programs	807	Theatre: Design Emphasis, Bachelor of Fine Arts in Drama ...	848
Program in Engineering Physics	808	Theatre: Dramaturgy Emphasis, Bachelor of Fine Arts in Drama	850
Engineering Physics, Bachelor of Science in Engineering Physics	810	Theatre: Stage Management Emphasis, Bachelor of Fine Arts in Drama	853
Engineering Physics, Master of Science	811	Theatre, Minor	855
Engineering Physics Doctoral Programs	811	Drama, Master of Arts	856
School of Industrial and Systems Engineering	811	School of Music	856
Industrial and Systems Engineering, Bachelor of Science in Industrial and Systems Engineering	814	Brass & Percussion, Bachelor of Music	860
Industrial and Systems Engineering: Analytics, Bachelor of Science in Industrial and Systems Engineering	815	Composition, Bachelor of Music	862
Industrial and Systems Engineering: Pre-Medicine, Bachelor of Science in Industrial and Systems Engineering	816	Harp, Bachelor of Music	865

Organ, Bachelor of Music	867	Art, Minor	923
Piano, Bachelor of Music	870	Art History, Minor	923
Piano Pedagogy, Bachelor of Music	872	Art, Master of Fine Arts in Art	924
Strings & Guitar, Bachelor of Music	874	Art History, Master of Arts in Art History	924
Voice, Bachelor of Music	877	Visual Arts Doctoral Programs	925

Inquiries regarding non-discrimination policies may be directed to: Bobby J. Mason, University Equal Opportunity Officer and Title IX Coordinator, 405-325-3546, bjm@ou.edu, or visit the Institutional Equity Office website.

The General Catalog is produced by the University of Oklahoma Office of Academic Publications, a division of Enrollment Management, directed by Jeff Blahnik, Senior Associate Vice President for the Division of Enrollment Management, Norman Campus. This publication is issued by The University of Oklahoma and authorized by The University of Oklahoma Board of Regents.

Prospective undergraduate students should contact the Office of Admissions & Recruitment at (405) 325-2151 or 1-800-234-6868, or send an email to admissions@ou.edu. Prospective graduate students should request information on specific programs from the Graduate College, 731 Elm Avenue, Room 100, Norman, OK 73019, (405) 325-3811, gradinfo@ou.edu.

The General Catalog is published for informational purposes and should not be construed as the basis of a contract between a student and the University of Oklahoma. Every effort is made to provide information that is accurate at the time the Catalog is prepared.

However, information concerning regulations, policies, fees, curricula, courses and other matters contained in the Catalog is subject to change at any time during the period for which the Catalog is in effect.

The University of Oklahoma reserves the right at all times to discontinue, modify, or otherwise change its degree programs when it determines it is in the best interest of the University to do so.

Campus visits are available through the Office of Admissions & Recruitment. To arrange a campus tour, visit [Tour Our Campus](#) or call (405) 325-2151 or toll-free 1-800-234-6868.

The mission of the University of Oklahoma is to provide the best possible educational experience for our students through excellence in teaching, research and creative activity, and service to the state and society.

The University of Oklahoma, in compliance with all applicable federal and state laws and regulations does not discriminate on the basis of race, color, national origin, sex, sexual orientation, genetic information, gender identity, gender expression, age, religion, disability, political beliefs, or status as a veteran in any of its policies, practices, or procedures. This includes, but is not limited to: admissions, employment, financial aid, housing, services in educational programs or activities, or health care services that the University operates or provides.

WELCOME!

Located halfway between the Atlantic and Pacific coasts at the boundary between the eastern woodlands and the vast western prairie, the University of Oklahoma is a gathering place for students and scholars from across the nation and around the globe. Students are attracted primarily by the high quality of the faculty and academic programs, outstanding research facilities, and unique resources at OU. The relatively low cost of attendance adds to OU's international appeal. Scholars also appreciate the mild Oklahoma climate, the varied cultural environment and the friendly, informal atmosphere of the University community.

Created by the Oklahoma Territorial Legislature in 1890, the University of Oklahoma is a doctoral degree-granting research university serving the educational, cultural, economic and health-care needs of the state, region and nation. The Norman campus serves as home to all of the university's academic programs except health-related fields. The OU Health Sciences Center, which is located in Oklahoma City, is one of only four comprehensive academic health centers in the nation with seven professional colleges. Both the Norman and Health Sciences Center campuses offer programs at the Schusterman Center, the site of OU-Tulsa. OU enrolls almost 32,000 students, has more than 2,800 full-time faculty members, and has 21 colleges offering 174 majors at the baccalaureate level, 156 majors at the master's level, 83 doctoral-level majors and 54 graduate certificates. The university's annual operating budget is \$2.05 billion. The University of Oklahoma is an equal opportunity institution.

We invite you to visit the University or to contact us for further information about our wide variety of educational programs. For more information about the University of Oklahoma please see the University's website. To arrange a visit, please write or call one of the following offices or a specific college or program listed in this catalog.

WHAT OU IS ALL ABOUT

Mission

The mission of the University of Oklahoma is to provide the best possible educational experience for our students through excellence in teaching, research and creative activity, and service to the state and society.

The University of Oklahoma recognizes, appreciates and actively pursues its special responsibility to help make Oklahoma a great place in which to live and work. The university also is part of a world community of scholars, and its activities make national and international contributions. Graduates of the university hold important leadership positions in the state and throughout the world. As the university meets its broad scholarly responsibilities, it targets many activities to bring maximum benefits to the state.

To encourage excellence, the university attracts, develops and retains outstanding faculty and staff; attracts capable students who will provide future leadership for the state, region and nation; provides superior library, laboratory, classroom, performance and computer facilities; and engages in ongoing planning, analysis and management for the effective use of its resources.

Undergraduate Education

The university uses the liberal-professional model of education to provide undergraduates with the knowledge and skills needed to contribute and succeed in a rapidly changing global society. Capitalizing upon the strengths of an outstanding faculty unique to a research university, OU offers undergraduate education in a wide array of majors to meet the interests of students and the needs of the state. Admission to undergraduate programs is selective. Students are expected to be above the average for college applicants in ability and to have the maturity to work diligently and effectively in a demanding academic environment.

The university endeavors to instill in its undergraduates the tradition of lifelong learning, the capacity for critical thinking, the ability to work effectively in groups, the flexibility to adapt successfully to a rapidly changing world, and an enthusiasm for creativity. These qualities enrich an individual's life and enable one to contribute to the making of a better world.

University of Oklahoma graduates understand our rich human heritage; comprehend differing approaches used by the arts, humanities and sciences in creating that heritage; develop the ability to make ethical,

critical and analytical judgments; and use spoken, written and symbolic language to communicate effectively.

Graduate Programs

The University of Oklahoma and the Graduate College are committed to providing the best graduate education possible for its students, an education that prepares its graduates to assume leadership positions in the fields and professions in which they are educated. Admission to the graduate programs is highly selective. Students are expected to have superior academic ability, a high level of motivation, and commitment to their discipline or profession. Strong emphasis is placed on faculty strength in teaching, research and creative activity; a critical mass of faculty and students; student quality; compatibility with other established university programs; and contributions to the state and nation's health, cultural, scientific, social and economic needs.

Research, Scholarship and Creative Activity

National and international recognition in research, scholarship and creative activity in disciplinary and interdisciplinary areas is one of the primary goals of the University of Oklahoma. Consequently, faculty members at the University of Oklahoma are national leaders in their fields and, as such, are outstanding role models for students. They actively seek and obtain external support for research from the federal government, private foundations and corporations. Faculty at the University of Oklahoma also cooperate with faculty from other research universities and health sciences centers as well as individuals in the private sector and government agencies.

Research and creative activities enrich education and promote learning excellence for students by developing new knowledge for our society; allowing emerging issues, breakthroughs, and new information and perspectives to be shared swiftly in the classroom; and introducing students to the process of creativity and discovery. A major research university enlivens the community and, in our modern society based on information and technology, encourages and supports economic and social development in the state.

Continuing Education and Service to the Public

The University of Oklahoma meets the growing needs of the state and nation for lifelong learning by offering continuing education programs that are built on the strengths of its academic programs. As a major public university, the University of Oklahoma has a responsibility to offer a broad range of high quality educational programs tailored to meet the needs of individuals for retraining or upgrading their skills. These programs are offered at times, in locations, and in formats to best serve the needs and schedules of adult learners.

The University is committed to offering degree programs, especially at the graduate level, for place-bound students in the state's urban areas and to supporting the state's economic development through education and research programs.

In the area of arts and culture, the University of Oklahoma plays a unique role as a nationally recognized center in the state and Southwest for selected artistic and cultural activities. The University's artistic and cultural activities advance knowledge; enrich the campus and community; enhance Oklahoma's quality of life; and contribute to the state's development, attractiveness and prosperity.

Accreditations

Achievement and maintenance of high academic standards entitle the University of Oklahoma to accredited membership in the Higher Learning Commission of the North Central Association of Colleges and Schools. See the Accreditation website for more information.

 Jane Irungu, Interim Vice President, Office for Diversity and Inclusion

NORMAN CAMPUS DEANS

Hans E. Butzer, Christopher C. Gibbs College of Architecture
 David Wrobel, Ph.D., College of Arts and Sciences
 Berrien Moore III, Ph.D., College of Atmospheric and Geographic Sciences and Vice President for Weather and Climate Programs
 Wayne Thomas, Interim Dean, Michael F. Price College of Business
 Mike Stice, Ph.D., Mewbourne College of Earth and Energy
 Gregg A. Garn, Ph.D., Jeannine Rainbolt College of Education
 Thomas L. Landers, Ph.D., Gallogly College of Engineering
 Mary Margaret Holt, Weitzenhoffer Family College of Fine Arts
 Randall S. Hewes, Ph.D., Dean, Graduate College
 Douglas D. Gaffin, Ph.D., Interim Dean, Honors College
 Jill Irvine, Interim Dean, Ph.D., David L. Boren College of International Studies
 Ed Kelley, Gaylord College of Journalism and Mass Communication
 Katheleen Guzman, Interim Dean, College of Law
 Martha Banz, Ph.D., Interim Dean, College of Professional and Continuing Studies and Associate Provost for Continuing Education
 Nicole Judice Campbell, Ph.D., University College
 Carl Grant, Interim Dean, University Libraries

HEALTH SCIENCES CENTER DEANS

Allen W. Knehans, Ph.D., College of Allied Health
 Raymond A. Cohlmiya, D.D.S., College of Dentistry
 John P. Zubialde, M.D., Executive Dean, College of Medicine
 Gary Loving, Ph.D., RN, Interim Dean, Fran and Earl Ziegler College of Nursing
 JoLaine R. Draugalis, Ph.D., College of Pharmacy
 Gary E. Raskob, Ph.D., College of Public Health
 H. Anne Pereira, Ph.D., Graduate College

TULSA DEANS

James J. Sluss Jr., Ph.D., Tulsa Graduate College and Associate Vice President for Academic Affairs
 James Martin Herman, M.D., Department of Family and Community Medicine, Tulsa

University Governance

The University is a part of the Oklahoma State System of Higher Education, which is composed of all higher education institutions supported wholly or in part by state appropriations. The Oklahoma Regents for Higher Education is the coordinating board for the system.

The University — as part of the public educational system of the state, established by legislative action and supported by annual legislative appropriations — places emphasis on sound scholarship, good

citizenship, and the duties of the individual to the community and the commonwealth.

By constitutional enactment, the governance of the university is vested in the OU Board of Regents, a board consisting of seven members appointed by the governor with the advice and consent of the state Senate. Each member is appointed to serve for seven years, except when appointed to fill an unexpired term, and is subject to removal from office only as provided by law for the removal of officers not liable to impeachment.

The Oklahoma Regents and the university regents approve the requirements for admission and graduation, the degrees offered, and the fees and expenses. The boards reserve the right to change these requirements.

The president is charged with the educational and business management of the entire university. Upon recommendation of the faculties and by authority vested in them by the regents, the president confers all degrees.

The senior vice president and provost, Norman campus, and the senior vice president and provost, OU Health Sciences Center, are the chief administrative officers for the two campuses and provide academic and administrative leadership.

The registrar and senior associate vice president for the Division of Enrollment Management supervises admission and registration to the university and keeps the academic records of students enrolled on the Norman campus.

The vice president for student affairs and staff are the officials responsible for the nonacademic activities, programs and services of student life.

University College provides an advisory system for freshmen and assists students in choosing a field of study. The administrative functions are exercised by the dean of University College.

Each college, except University College, has its own faculty, consisting of the dean and the members of the faculty who teach courses in the college. The faculties set the requirements for graduation for the schools and colleges and make recommendations to the president to confer degrees upon those students who have completed these requirements. The dean of each college is its executive officer.

The general faculty of the University of Oklahoma Norman campus is composed of all faculty members with regular appointments. The Norman campus general faculty does not include faculty members with temporary appointments. The Norman campus Faculty Senate is the legislative group of the general faculty. It is composed of 50 members elected by the general faculty with senatorial seats apportioned according to the number of full-time faculty in the college. Faculty who are not members of a degree-recommending college are treated as a separate college for election. The Senate exercises the legislative powers of the faculty and has the power to initiate any legislation requiring approval by the OU Board of Regents. Subjects for review or legislation can be brought to the attention of the Senate by written communication from any member of the university community or any officially constituted agency.

- OU-Tulsa Schusterman Center (p. 21)
- Continuing Education (p. 22)

Norman Campus

The central campus and the offices of administration of the University of Oklahoma are located on some 3,500 acres in Norman, a city of more than 100,000 residents. Norman is located near the center of the state, 20 miles south of Oklahoma City, the state capital.

The colleges housed on the Norman campus are University College, the Christopher C. Gibbs College of Architecture, the College of Arts and Sciences, the College of Atmospheric and Geographic Sciences, the Michael F. Price College of Business, the Mewbourne College of Earth and Energy, the Jeannine Rainbolt College of Education, the Gallogly College of Engineering, the Weitzenhoffer Family College of Fine Arts, the Graduate College, the Joe C. and Carole Kerr McClendon Honors College, the David L. Boren College of International Studies, the Gaylord College of Journalism and Mass Communication, the College of Law, and the College of Professional and Continuing Studies - OU Extended Campus. The Norman campus is also headquarters for the College of Continuing Education, which directs outreach programs throughout the state.

The Norman campus consists of four sections — central campus, south campus, research campus and north campus. Most of the academic and administrative buildings are located on the central campus, noted for its Cherokee Gothic architecture and award-winning landscaping. Also situated on the central campus are the university residence halls; which includes residential colleges and other upperclassman housing, Sarkeys Energy Center; University Libraries; Fred Jones Jr. Museum of Art; Donald W. Reynolds Performing Arts Center, including historic Holmberg Hall; Rupel Jones Fine Arts Center, including Elsie C. Brackett Theatre; Catlett Music Center, including Sharp Concert Hall and Pitman Recital Hall; Oklahoma Memorial Union; recreational facilities, including the Sarkeys Fitness Center and the Murray Case Sells Swim Complex; Gaylord Family — Oklahoma Memorial Stadium; the Everest Indoor Training Center; and the Oklahoma Center for Continuing Education, a year-round educational center and conference site. Located one block east of the central campus is the OU Brandt Park and Duck Pond, a recreational area used throughout the year by OU students and Norman residents. David A. Burr Park is conveniently located near residence halls and other recreational facilities.

The first of its kind in the state, the OU Visitor Center serves all guests of the University of Oklahoma as a one-stop information and welcome center. This “front door” of the university is housed in historic Jacobson Faculty Hall and provides regular, guided tours for prospective students and advanced-scheduled group tours. Free parking passes for campus visitors are available at the Visitor Center. An extensive collection of photographs and art depicting the history and heritage of the university fills the Visitor Center. It also has been designated as a local Tourism Information Center by the Oklahoma Tourism & Recreation Department to provide state travel information. For complete visitor and tour information: Visitor Center (405) 325-2151 or 1-800-234-6868; or tour@ou.edu.

SOUTH CAMPUS

Immediately adjacent to central campus is the south campus, site of the College of Law, the OU Foundation; OU Traditions apartments; the world-class Sam Noble Oklahoma Museum of Natural History; Lloyd Noble Center and parking complex; the John Crain Field at the OU Soccer Complex; the Headington Family Tennis Center; the Gregg Wadley Tennis

Pavilion; the Jimmie Austin University of Oklahoma Golf Course; L. Dale Mitchell Baseball Park; the Marita Hynes Field – OU Women's Softball Complex; the Sam Viersen Gymnastics Center; the OU Rugby Field; the OU Rowing Training Center; and OU Learning Center.

RESEARCH CAMPUS

In less than a decade, the 277-acre OU Research Campus has been transformed from an empty field to a thriving economic engine shaped by a community of public and private sector collaborations located in nearly 1 million square feet of occupied space representing \$300 million in investment. Today, the Research Campus brings together 1,700 workers across academic, federal, state and industrial organizations in a mutually beneficial environment.

The National Weather Center, a 257,000 square-foot facility that opened in 2006, anchors the OU Research Campus on the south. The Center houses both academic and federal groups dedicated to forecasting, research and training. The Stephenson Research and the Stephenson Life Sciences Research Center house cutting-edge research in fields including robotics, genomics, bioengineering and the OU Department of Chemistry and Biochemistry, which includes a National Institutes of Health-funded structural biology program. A series of five "Partners Place" buildings, totaling 362,000 square-feet, enable the public and private sector collaboration on weather and radar research; innovation and entrepreneurship; and water, climate, and energy. The new OU Innovation Hub serves as a creative space for students and faculty in support of invention and entrepreneurship. Additionally, a 35,000 square-foot "one of a kind" Radar Innovations Laboratory is scheduled to open in 2014.

OU's Research Campus has been certified by the Oklahoma Department of Commerce as Site Ready, which enables allows the university to capitalize on fast-moving economic opportunities and enables site selectors to readily find quality land and facilities that meet nationally established criteria in a timely fashion. OU's Research Campus was named the nation's top research park for 2013 by the Association of University Research Parks, placing it among such past recipients as Research Triangle Park in North Carolina, Purdue Research Park in Indiana and University City Science Center in Pennsylvania.

NORTH CAMPUS

North campus, which is two miles north of the main campus, includes the Merrick Computer Center; Max Westheimer Airport, the University-operated airport that also serves the City of Norman; and Swearingen Research Park, where government agencies and industry have established facilities.

Other research and study units of the university include the Biological Station on Lake Texoma; the Sutton Avian Research Center in Bartlesville; the Oklahoma Geophysical Observatory at Leonard near Tulsa; the Aquatic Biology Fisheries Research Center in Noble near Norman; and the Oklahoma Biological Survey, Oklahoma Archaeological Survey and Charles M. Russell Center for the Study of Art of the American West in Norman. In addition, the Oklahoma Geological Survey is a state agency mandated in the Constitution of Oklahoma, and is part of the Mewbourne College of Earth and Energy at the University of Oklahoma.

Health Sciences Center

The University of Oklahoma Health Sciences Center is the state's major educational resource for training physicians, dentists, nurses, pharmacists, public health specialists and a wide range of allied health

personnel. It is one of only four comprehensive academic health centers in the nation with seven professional colleges. The center is composed of the College of Allied Health, College of Dentistry, College of Medicine, College of Nursing, College of Pharmacy, College of Public Health and Graduate College.

Faculty and students use the clinical, laboratory and teaching facilities at the OU Medical Center, The Children's Hospital, Stephenson Cancer Center, Harold Hamm Diabetes Center, Dean A. McGee Eye Institute and other affiliated hospitals in Oklahoma City, Tulsa, and communities across the state. The Oklahoma Health Sciences Center is located on the Oklahoma Health Center campus, which is also home to the University Research Park and 30 other biomedical entities.

Also housed at the University of Oklahoma is OU Physicians, the state's largest physician group. The practice encompasses nearly every adult and child specialty. Many OU physicians have expertise in the management of complex conditions. Such expertise is unavailable anywhere else in the state, region or sometimes even the nation. Some have pioneered surgical procedures or innovations in patient care that are world firsts. They also serve as faculty at the University of Oklahoma College of Medicine and train the region's future physicians.

The Peggy and Charles Stephenson Cancer Center represents the largest public-private biomedical initiative in Oklahoma history. The 210,000-square-foot facility provides patient-centered care by the largest and most experienced group of cancer specialists, offering the most advanced cancer detection and treatment technology. OU's Harold Hamm Diabetes Center is one of the top comprehensive diabetes centers in the world for adults and children with type 1 and type 2 diabetes, engaging in novel research aimed at progress toward a cure for diabetes and its complications.

For more information, see the OU Health Sciences Center (p. 929) section in this catalog.

OU-Tulsa Schusterman Center

The OU-Tulsa Schusterman Center is located in the heart of mid-town Tulsa at 41st and Yale. On this campus both the OU Health Sciences Center and the OU Norman campus offer programs. The vision of OU-Tulsa is to build a nationally-recognized center of higher education excellence in select areas that emphasize the strong campus-community partnerships and leverage the unique opportunities and needs in the Tulsa region.

OU has a long history in the Tulsa area. The earliest program of the University of Oklahoma in Tulsa started in 1957 as a partnership with the Tulsa-City County Library. This program averaged 50 students a year and was one of the first programs to be part of the Tulsa Graduate Center, which became University Center at Tulsa in 1982. Recognizing the potential community impact of an expansion of OU services in Tulsa, the Oklahoma Legislature enacted Senate Bill 453 in 1972 that created a clinical branch of the University of Oklahoma College of Medicine in Tulsa. Today, the OU College of Medicine in Tulsa enrolls medical students and trains 181 residents who conduct 200,000 patient visits annually at the college's ambulatory clinics.

Although OU's presence in Tulsa has been longstanding, it changed dramatically in 1999. As a result of the transformational \$10 million gift from the Charles and Lynn Schusterman Family Foundation and the leadership of President David L. Boren, OU was able to purchase 60 acres at the corner of 41st and Yale, previously the BP-Amoco Research Center.

The OU programs in Tulsa had been located in a wide variety of physical locations. By the fall of 2002, all OU academic programs in Tulsa were located at the Schusterman Center campus. This campus has allowed OU to better serve the community by providing a strong, centralized identity in Tulsa.

In February of 2008, the George Kaiser Family Foundation made a \$50 million gift to the OU College of Medicine in Tulsa allowing the College of Medicine to have the explicit focus to improve the health status of underserved communities. To reflect that change, the name of the College of Medicine in Tulsa was changed to the OU School of Community Medicine, the first in the nation. The School of Community Medicine remains an integral part of the OU College of Medicine. The University of Tulsa and the University of Oklahoma welcomed its first class of students to the School of Community Medicine four-year educational track in Tulsa in 2015. The Tandy Education Center also recently opened and is a space that provides students the opportunity to practice lifelike circumstances using models and virtual reality. It is a state-of-the-art facility that features the latest advances in medical simulation.

See Explore OU-Tulsa Colleges & Majors for a listing of degree programs offered at the Schusterman Center.

All bachelor degree programs at OU-Tulsa are degree completion programs.

Future students or others interested in programming at the OU-Tulsa Schusterman can visit the OU-Tulsa website or call (918) 660-3318.

Continuing Education

OU Extended Campus - College of Professional and Continuing Studies

The OU Extended Campus - College of Professional and Continuing Studies (PACS) exists to provide access to transformational, world-class University of Oklahoma degrees, certifications, and programs for a diverse group of learners. Primarily focusing on the higher education needs of place-bound working adults, military-connected personnel, and those seeking specialized study in selected professional areas, the college offers a variety of degrees at both graduate and undergraduate levels, including several programs offered collaboratively with other OU colleges, and utilizing a variety of delivery modes (fully online, hybrid, onsite, cohort-based, etc). To facilitate understanding of the complex world in which we live and building on its historical roots, the college emphasizes a holistic approach to learning, focuses on the immediate application of learning to one's life and work, promotes lifelong learning opportunities, and encourages the work of active citizenship.

While its programs were originally developed for adult and non-traditional students, many of the seminars, colloquia, and conferences offered by the college also serve students enrolled in conventional academic programs, as well as the general public. Therefore, in addition to the full-time degree program offerings noted above, PACS is also committed to meeting the educational needs of a wide variety of learners and organizations seeking smaller-scale academic options, including credit courses, workshops, academic conferences, certification programs, executive academic programs and academically-oriented professional training services.

For more information, see the College of Continuing Education (p. 618) and College of Professional and Continuing Studies (p. 1036) sections in this catalog.

THE OU DIFFERENCE

Introduction

You can get a college degree at any of hundreds of colleges, but you can only get an OU degree from the University of Oklahoma. Whatever your field of study, your life will be enriched by experiences both inside and outside the classroom.

Contributing to the OU difference are:

- An outstanding and internationally recognized faculty to serve as your teachers, mentors, role models, and guides through your college years;
- Over 160 majors at the baccalaureate level, more than 200 majors at the graduate level, and 45 graduate certificates.
- Professional programs in law, medicine, dentistry, the health professions, and various master's dual degree programs;
- An emphasis on sound academic advising and orientation for all students;
- A focused general education program;
- Funded research opportunities for students;
- A nationally recognized Honors College;
- The opportunity to study abroad at universities on five continents; and
- A culturally diverse campus community providing a supportive environment for students of all cultural backgrounds.

The wide variety of academic programs, the dedicated faculty, the multicultural and international student body, the unique resources, the friendly and supportive community, and the traditions developed during 129 years of striving for academic excellence all contribute to the OU difference — a difference you will benefit from and contribute to as an OU student and alumnus.

Also contributing to the OU difference is a wealth of special programs, facilities, and resources:

- Special Programs (p. 23)
- Facilities and Resources (p. 25)
- Museums and Collections (p. 28)

Special Programs

The University of Oklahoma is home to a variety of programs that contribute to the OU difference and enhance the opportunities available to OU students to achieve academic excellence.

Academic Common Market

The Academic Common Market (ACM) is an interstate agreement coordinated by the Southern Regional Education Board for sharing some unique academic programs through an exchange of students across state lines wherein non-resident tuition charges are waived. Visit Academic Common Market for more information regarding the university's participation in the Academic Common Market.

Center for the Creation of Economic Wealth

Three Partners Place
201 David L. Boren Blvd, Suite 200 Norman, OK 73072-7264
Phone: (405) 325-2603
iccew@ou.edu
ccew.ou.edu

Formed in 2006, the Center for the Creation of Economic Wealth provides an interdisciplinary environment for researchers, entrepreneurs and students to collaborate in growing, strengthening and diversifying Oklahoma's economy through the nurturing of technology-based enterprises. The Center is a collaborative space that contributes to the entrepreneurial ecosystem of Oklahoma with numerous college-supported programs that encourage innovation in the University and the broader Oklahoma business community, with locations in both Norman and Tulsa.

Administered by the University Vice President for Strategic Planning and Technology Development, the CCEW internship program offers student interns exposure to a variety of authentic business situations and distinguished executives. Additionally, CCEW interns engage in career development opportunities designed to propel their careers following graduation. The internship program has opportunities in technology commercialization, software development, social entrepreneurship, and product design and development.

Expository Writing Program

THE EDITH KINNEY GAYLORD EXPOSITORY WRITING PROGRAM

Catherine Mintler, Interim Director
Bizzell Memorial Library, Room 4
Norman, OK 73019-6030
Phone: (405) 325-3583
FAX: (405) 325-3678

expository.writing@ou.edu
www.ou.edu/expo/

The Expository Writing Program offers students the opportunity to sharpen their critical thinking, reading, and writing skills through the intensive examination of a particular topic. The defining feature of an Expo course is students' collaboration with their instructors.

All Expo courses feature

- a guided investigation of a special topic
- seminar-sized class of no more than 16 students
- an emphasis on individual instruction and student/teacher collaboration
- an open, interactive classroom atmosphere

OSLEP

OKLAHOMA SCHOLAR-LEADERSHIP ENRICHMENT PROGRAM

The Oklahoma Scholar-Leadership Enrichment Program - OSLEP - is an intercollegiate academic program sponsored by the Oklahoma State Regents for Higher Education open to students at all the public and private universities in Oklahoma. Small groups of students selected from Oklahoma's four-year colleges and universities study with distinguished visiting scholars. Students tell us over and over again that being in an OSLEP class is one of the most rewarding experiences in their academic careers because of the unique learning environment, the time devoted to one subject, and the opportunity to develop a personal relationship with a world-famous scholar and make lasting friendships with students from around the state. Many of the visiting scholars present a free public lecture, open to the community. These programs always include a question & answer session and an opportunity to meet and talk with the scholar. Interested students can contact the OSLEP office or visit www.oslep.org for the current schedule of seminars and additional information. The OSLEP office is located in Monnet Hall, Room 559, 630 Parrington Oval, 325-4309; email oslep@oslep.org.

ORAU

OAK RIDGE ASSOCIATED UNIVERSITIES (ORAU)

Since 1949, students and faculty of the University of Oklahoma have benefitted from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 91 colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates. Students can participate in programs covering a wide variety of disciplines, including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of under-represented minority students pursuing degrees in science- and engineering-related disciplines.

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research, and support programs as well as services to chief research officers.

For more information about ORAU and its programs, contact Richard D. Elmore, Robert and Doris Klabzuba Professor of Geology and ORAU Councilor for the University of Oklahoma at (405) 325-3253; contact Monnie E. Champion, ORAU corporate secretary, at (865)576-3306; or visit the ORAU Home Page.

University of Oklahoma Press

2800 Venture Dr., Norman, OK 73069-8216
Phone: (405) 325-2000
www.oupres.com

Since 1928 the University of Oklahoma Press has published award-winning books that challenge readers to discover the past, contemplate the present, and shape the future. Committed to excellence, the Press publishes high-quality scholarly, regional, and general-interest books that offer readers valuable information, ideas, analysis, and research. During its long and distinguished history, OU Press has published more than 3,000 discrete titles, has over 1400 active titles, and maintains an inventory of approximately 750,000 books.

The OU Press publishes books in the humanities and social sciences and is the preeminent publisher of books on the American West and American Indians. The Press publishes approximately 80 books per year.

More than 1,500 University of Oklahoma Press titles are now available to libraries as electronic books (ebooks) through EBSCO host and ebrary, a division of Proquest. Many OU Press books are also available through Kindle, Nook, and Kobo ereaders and can also be read on personal computers, smart phones, iPads, and android tablets through a host of applications. The Press is committed to making its books available globally in the reader's choice of format.

World Literature Today

630 Parrington Oval, Suite 110 Norman, OK 73019-4033
Phone: (405) 325-4531
www.ou.edu/worldlit/

World Literature Today, founded in 1927 as *Books Abroad*, is the University of Oklahoma's award-winning bimonthly magazine of international literature and culture, now in its ninth decade of continuous publication. The magazine has been recognized by the Nobel Prize committee as one of the "best edited and most informative literary publications" in the world, and was recently called "an excellent source of writings from around the globe by authors who write as if their lives depend on it" (*Utne Reader*, 2005). *WLT* has received a dozen national publishing awards in the past ten years, including the Phoenix Award for Editorial Achievement from the Council of Editors of Learned Journals in 2002.

NEUSTADT INTERNATIONAL PRIZE FOR LITERATURE

The Neustadt International Prize for Literature, sponsored by *World Literature Today*, is an award that honors outstanding achievement in fiction, poetry, or drama and is open to writers in any language. Often referred to as the "American Nobel" for the high quality of its laureates, candidates, and jurors, the Neustadt Prize is the first international literary

award of such scope to originate in the United States and is one of the very few international prizes for which poets, fiction writers and dramatists are equally eligible. Founded in 1969, the prize bears the name of the Neustadt family of Ardmore, OK, whose 1972 endowment has ensured funding of the award in perpetuity. Recipients include such noted authors as Gabriel García Márquez, Elizabeth Bishop, Czeslaw Milosz, Octavio Paz, Adam Zagajewski, Claribel Alegría, and Patricia Grace.

THE PUTERBAUGH FESTIVALS

The Puterbaugh Festivals of World Literature & Culture are sponsored by *World Literature Today* in collaboration with the University of Oklahoma's Departments of Modern Languages, Literatures and Linguistics and English. Originally named the Oklahoma Conferences on Writers of the Hispanic World, the series was endowed in perpetuity by the Puterbaugh Foundation of McAlester, Okla., in 1978. A rich tradition in support of literary and international studies at OU, the Puterbaugh Conferences bring the world's greatest authors to the OU campus for a course built around the writer's work, an international symposium, a public talk, and various meetings with students. Since 1968, the Puterbaugh Festival series has furthered the literary and international studies education of thousands of OU students. The most recent Puterbaugh fellows have included Bei Dao, Orhan Pamuk, Nérida Piñon, and J.M. Coetzee.

NSK NEUSTADT PRIZE FOR CHILDREN'S LITERATURE

The NSK Neustadt Prize for Children's Literature is awarded every other year to a living writer or author-illustrator with significant achievement in children's or young-adult literature. Made possible through the generosity of Nancy Barcelo, Susan Neustadt Schwartz, and Kathy Neustadt and sponsored by *WLT*, the NSK Prize celebrates literature that contributes to the quality of children's lives. Candidates for the award are nominated by a jury of children's literature experts, and the jury also selects the winner of each biennial prize. Laureates receive a check for \$25,000, a silver medallion, and a certificate at a public ceremony at the University of Oklahoma and are featured in a subsequent issue of *WLT*. To date, the winners have included Mildred D. Taylor (2003), Brian Doyle (2005), Katherine Paterson (2007), Vera B. Williams (2009), Virginia Euwer Wolff (2011), and Naomi Shihab Nye (2013).

Combined Curriculum

- Dentistry
- Medicine
- Osteopathic Medicine
- Veterinary Medicine
- Law

A student may qualify for the degree of Bachelor of Arts or Bachelor of Science at the end of his/her first year in an approved school of law, dentistry, medicine, osteopathic medicine, or veterinary medicine by fulfilling the requirements listed below. Items A-1 through A-4 **must be completed prior to entering** the professional school.

1. Combined Curriculum with the University of Oklahoma College of Medicine, College of Dentistry, or College of Law:
 - a. Complete at least 98 semester credit hours before entering the College of Medicine, College of Dentistry, or College of Law.
 - b. Earn at least 30 semester credit hours in residence at the University of Oklahoma.
 - c. Earn at least 15 semester credit hours of upper-division major credit courses at the University of Oklahoma.

- d. Earn at least 15 of the last 30 semester credit hours before entering the College of Medicine, College of Dentistry, or College of Law in residence at the University of Oklahoma.
 - e. Complete all other degree requirements of the College including the University's general education requirements, the College requirements, and all the major and major support requirements of a regular degree program.
 - f. Successfully complete the work of the first year in the College of Medicine, Dentistry, or Law.
2. Combined Curriculum with other Approved Schools of Medicine, Osteopathic Medicine, Dentistry, and Veterinary Medicine:

A student enrolled in a medical school approved by the Association of American Medical Colleges, in an Osteopathic Medical School approved by the American Osteopathic Association, in a dental school approved by the American Dental Association, or in a school of veterinary medicine approved by the American Veterinary Medical Association may receive the degree of Bachelor of Arts or Bachelor of Science upon the satisfactory completion of: Items A-2 through A-4 (above) and completion of at least 98 hours prior to entering the professional school and by satisfactory completion of the first year in the approved College of Dentistry, Medicine, Osteopathic Medicine or Veterinary Medicine.

Facilities and Resources

University of Oklahoma Libraries

Carl Grant, Interim Dean
401 W. Brooks St. Norman, OK 73019
Phone: (405) 325-3341
libraries.ou.edu

The University of Oklahoma Libraries in Norman, Oklahoma City, and Tulsa are the heart of the university and do so by being the intellectual crossroads for interdisciplinary innovation serving all the students, staff and faculty at the university. The research library facilities on the Norman campus include Bizzell Memorial Library and separate branch libraries for architecture, fine arts, and geology. The OU College of Law has a separate library in its facility, the Donald E. Pray Law Library. The Robert M. Bird Health Sciences Library at the OU Health Sciences Center supports teaching and research in medicine, nursing, dentistry, pharmacy, and health-related disciplines. The Schusterman Library at OU-Tulsa supports students enrolled in Tulsa-based programs.

BIZZELL MEMORIAL LIBRARY

Bizzell Memorial Library, the main library on the Norman campus, consists of an original building constructed in 1929 and a large addition completed in 1958. The 1929 building was recently declared a National Historic Landmark and contains the Peggy V. Helmerich Great Reading Room, an elegant room beloved by students and alumni. The Doris W. Neustadt Wing was built in 1982 and added 150,000 square feet to the library facility. The library includes technology-enabled learning spaces, quiet and collaborative study areas, as well as the popular Bookmark Café Coffee Shop, and the Oklahoma Canyon Garden, which offers an outdoor area for reflection and study. Recent renovations have updated existing spaces to create the Peggy V. Helmerich Collaborative Learning Center, the Learning Lab, the Innovation @ the Edge learning space, and the Zarrow Family Faculty and Graduate Student Center.

GENERAL COLLECTIONS

The collections in the libraries total more than 6 million volumes, including 1.3 million eBooks, 3.6 million microform materials and 116,000 serials subscriptions. The libraries also maintain over 17,000 linear feet of manuscripts and archives, 1.6 million photographs, and more than 1.5 million maps. It also holds more than 70 incunabula (books printed before 1501), the oldest one of which was published in 1467.

SPECIAL COLLECTIONS

In addition to the general collections, there are notable special collections.

Boorstin Collection

The Boorstin Collection is used for quiet study and reading books from the collection and is located on the main floor of the library. The facilities for the Daniel J. and Ruth F. Boorstin Collection were made possible by a generous gift from ConocoPhillips Inc.

Chinese Literature Translation Archive

The Chinese Literature Translation Archive provides students and scholars with a wide range of rare books, reference materials, translation drafts, correspondence, notes, ephemera, and other historical materials that provide context for Western readers to gain a deeper understanding of Chinese literature. The archive currently houses nearly 10,000 volumes and thousands of documents from some of the greatest translators of modern Chinese literature in the West including Howard Goldblatt, Wolfgang Kubin, Wai-lim Yip and the "William Bikales and Margaret Eliot Grady Collection" of Arthur Waley. The mission of the archive is to improve the material conditions for translation students and for comparative and world literature by providing the materials necessary for historically informed research supported by the richly textured intellectual environments within which translation takes place.

Bass Business History Collections

The Harry W. Bass Business History Collection began in 1955 with the purpose of collecting and preserving materials relating to the history of business and industry. The collection contains books, microforms, videos and journals on a number of topics including the histories of business leaders and firms and the economic, social and political forces that influence the role of business in society.

History of Science Collections

The History of Science Collections, located on the 5th floor of Bizzell Memorial Library, is a premier research collection in its field. Holdings of nearly 100,000 volumes from every field and subject area of science, technology and medicine range chronologically from Hrabanus Maurus, *Opus de universo* (1467) to current publications in the history of science.

The John and Mary Nichols Rare Books and Special Collections

The John and Mary Nichols Rare Books and Special Collections are comprised of rare books and special materials in English, European and American literature dating from the 15th century to the present. A collection of general rare books, including several incunables, and a Bible collection complement the focal literature collections. These collections offer opportunities for interdisciplinary research in such fields as literary studies, the history of printing, and religion.

Western History Collections

The purpose of the Western History Collections is to enhance the University Libraries general collection on the history of the American West; to support the research and teaching programs of the University of Oklahoma; and to provide opportunities for research through the

acquisition, preservation, and access of materials relating to the development of the Trans-Mississippi West and Native American cultures.

William Bennett Bizzell Bible Collections

In addition to more common European languages such as Greek, Latin, German, French and Spanish, President Bizzell collected many Bibles in numerous other languages such as Cherokee, Muskogee, Hindi, Swahili, Javanese, Mongolian, Tartan, Mooltan, and Turkish. Additional related works include commentaries, textual studies, illustrations, geographies and histories of the holy land, works on the life of Christ, prayer books and hymnals. The collection contains 665 Bibles, including several incunabula (books published in the infancy of printing, before 1500). The oldest book is a hand-painted manuscript prayer book written on vellum in the fifteenth century. The Bizzell Bible Collection is housed in the Gaylord Room on the 5th floor of the Bizzell Memorial Library.

BRANCH LIBRARIES

The University Libraries include three branch libraries:

- **Architecture Library** (105 Gould Hall), (405) 325-5521
- **Fine Arts Library** (20 Catlett Music Center), (405) 325-4243
- **Youngblood Energy (Geology) Library**, 220 Sarkeys Energy Center, (405) 325-6451

SERVICES

Library Website and Catalog

The University of Oklahoma Libraries provides a wealth of electronic, print and non-print resources. Students may access many library resources through the Libraries' website, available 24 hours a day, 7 days a week. The library catalog and website provide access to databases, books, e-journals, high-quality websites, government documents, and e-reference materials.

Circulation, Interlibrary Loan, and Sooner Xpress

Most library materials are available for loan to students and faculty. Circulation policies are available on the library website. Materials not held by the libraries may be obtained through interlibrary loan services on all three campuses. Delivery on-campus is available via Sooner Xpress.

Ask Us Reference Services

Reference and information service is available in all library facilities, in person, by telephone, by e-mail, and through instant message. Individuals may visit the reference desk at their convenience for assistance with questions, assignments or specific databases. They may also arrange an appointment with a librarian to discuss library resources and research questions. Questions may be sent via email a librarian at librarian@ou.edu.

Library Instruction

The libraries provide instructional services to teach students and faculty how to access, evaluate, and use a variety of information sources. These services range from general orientation activities to classroom instruction designed to meet specific research needs.

Online Tutorials

Online tutorials are available to help students learn how to evaluate and understand scholarly information, search electronic databases, search the catalog and request books and other materials through interlibrary loan.

Government Documents

State, federal and foreign government publications are collected and made available through the Government Documents unit. Reference services and instructional sessions specific to government documents are available upon request.

Digital Scholarship Laboratory

The Digital Scholarship Lab supports collaborative, cross-disciplinary research using emerging technologies. Through workshops, consultation, and training, our Digital Scholarship Specialists help faculty and graduate students identify innovative digital tools and resources that build on traditional research and teaching methods.

Helmerich Collaborative Learning Center

The Helmerich Collaborative Learning Center is a technology enabled, collaborative space where students can work together in groups. In this space, students can learn to create information, to explore it visually, and to synthesize it in new and different ways. Visit the Bookmark Café to grab a cup of coffee, and talk with a professor, colleague, or with friends.

Innovation @ the Edge

Innovation @ the Edge is a flexible experimentation and innovation space that provides access to the latest tools used in research, instruction and knowledge creation, including 3D printing tools, custom virtual reality workstations, software and data skill development and microelectronics kits. Any member of the OU community, from any field, is free to prototype concepts or fly-through 3D data sets in this centrally located makerspace in the Bizzell Memorial Library, room 126.

Learning Lab

The Learning Lab on Lower Level 1 provides research assistance from library student personnel as well as other services that support student success such as the Writing Center and UC Action Tutoring.

Loveridge Computer Lab

The Loveridge Computer Lab is located on the main floor of Bizzell Memorial Library, next to the West entrance and across from the main Circulation Desk. A number of computers are available for OU students, staff, and faculty; additionally, customers not affiliated with OU can request a guest log-in from the computer lab staff. A variety of software is available for all users. Multiple scanners and printers are also available in this lab.

Zarrow Family Faculty and Graduate Student Center

Located on Lower Level 2 of Bizzell Memorial Library, the Zarrow Family Faculty & Graduate Student Center is a space dedicated to supporting the research and teaching needs of OU faculty and graduate students in a central campus location. The center enables members of the academic community to access the wide variety of information resources available through OU Libraries creatively, analytically, and critically in pursuit of academic goals.

Data Analytics, Visualization & Informatics Syndicate

DAVIS, located in the Zarrow Family Faculty and Graduate Student Center, supports OU community members with their data needs. Specialists and graduate assistants who are familiar with working with data, including management, analysis, and visualization are available for consultation. With the ability to ask questions and receive guidance, DAVIS helps faculty, researchers, and students work with their data.

Other Services

OU Libraries offers a wide range of services for students, staff, faculty, visiting scholars, and the community. In addition to print and digital resources, services are available to help students plan, get research

assistance, share their research, access scholarly tools and publication resources.

OU Information Technology's (OU IT) vision is to create and sustain an environment where all students, faculty, and staff have easy, accurate, secure, and reliable access to the information services and resources they need to succeed.

OU IT provides world-class information technology services that support and advance the mission of the University of Oklahoma, as well as an information technology infrastructure that supports the University of Oklahoma's institutional goals, and serves in a leadership role in providing the best educational experience for our students. For more information, visit it.ou.edu.

CONNECTIVITY

The University of Oklahoma was named one of the 100 "Most Wired" campuses by Forbes. OU's "Most Wired" campus includes:

- **High Speed Connections** — OU IT provides data ports in all residence hall rooms and university-owned apartments at a transfer rate of 10/100/1000 Mbps. Network connections are also available in most public areas such as the Oklahoma Memorial Union, Bizzell Library, and in staff and faculty offices.
- **Convenient Wireless** — OU IT offers both indoor and outdoor wireless access in the majority of faculty and student areas. Connection speeds range from 6Mb/s to 108Mb/s, depending on signal strength and distance from the wireless unit.
- **VPN Access** — SoonerConnect VPN is the University of Oklahoma's way of bringing campus connectivity to your residential computer. Students, faculty, staff, and OU affiliates qualify for SoonerConnect VPN.
- **High Speed Internet** — OU IT provides commodity Internet connectivity of 10Gb/s to the campus. Later this year, the connection will be increased to 20Gb/s. In addition to commodity Internet connectivity, OU IT also partners with the State Regents for Higher Education to obtain multiple, dedicated Research and Education connectors. These vary in speed from Gigabit Ethernet to 10Gb/s.
- **Reliable Domain Name Services** — OU IT's DNS, a foundational component to the operation of network connectivity for the campus, allows reliable resolution of website and Internet service names to their respective Internet Protocol (IP) addresses. In addition to providing Internet name resolution, OU IT's DNS system also provides name resolution for campus resources, as well as Network Time Protocol (NTP) services.
- **Voice Services** — From dial-tone to voicemail, call recording to call center, OU IT provides a broad range of telephony services including voicemail over email, emergency communications, call forwarding, voice over IP and more.
- **Internet Security** — OU IT strives to ensure a reliable as well as secure Internet experience. Coupled with OU IT's high-speed connectivity to the desktop over both wired and wireless, OU IT offers firewall services, intrusion protection services, e-mail filtering services (exchange.ou.edu only), free antivirus software, encryption services, and physical security controls for sensitive locations.

SERVICES

OU students, faculty, and staff have access to the following standard services:

- Canvas course management system, canvas.ou.edu
- Enrollment and bursar payment as well as grades, schedules, and transcripts, one.ou.edu.
- State of the art classroom technology, user training, and on-call support
- An OUNetID which provides access to the university's e-mail account, personal web space, course management system, and computer lab workstations, account.ou.edu
- Computer labs equipped with PC and Apple workstations, printers, wired and wireless internet access, and work areas specifically designed to meet the guidelines for computing as specified in the Americans with Disabilities Act
- Complimentary \$10 printing allowance for computer labs
- Technology support by phone at (405) 325-HELP, online at needhelp.ou.edu, self-help at itanswers.ou.edu, or in person at any of our service centers. For service center locations and hours, visit techhelp.ou.edu.

Museums and Collections

For many years the university has received gifts of artistic and scientific value from alumni, collectors and friends of the university. As a result, the Fred Jones Jr. Museum of Art, the Sam Noble Oklahoma Museum of Natural History, and the Charles M. Russell Center for Study of Art of the American West possess many valuable collections.

The Fred Jones Jr. Museum of Art

555 Elm Ave., Norman, OK 73019
 Phone: (405) 325-4938
museuminfo@ou.edu
www.ou.edu/fjjma/

Located at the intersection of Boyd Street and Elm Avenue, the University of Oklahoma's Fred Jones Jr. Museum of Art is one of the finest university art museums in the United States.

In 1936, with the acquisition of a large collection of East Asian art (750 objects), the generous gift of Lew Wentz and Gordon Matzene, the University of Oklahoma Museum of Art was officially founded and Jacobson was named its director. By this time, Jacobson had already collected more than 2,500 works of art for the university. The new museum's first galleries were in what is now Jacobson Hall. In 1948, the permanent collection was further embellished with the purchase of the so-called State Department Collection, comprised of 36 paintings

from the exhibition *Advancing American Art* and including major works by artists such as Stuart Davis, Georgia O'Keeffe, and Edward Hopper.

Jacobson's vision of a permanent facility to house the art finally came to fruition in 1971, when Mr. and Mrs. Fred Jones of Oklahoma City donated a fine arts building to the university in memory of their son, Fred Jones, Jr., who had died in an airplane crash during his senior year at the University of Oklahoma. The resulting structure, the Fred Jones Jr. Memorial Art Center, housed the Museum of Art, which contains 15,000 square feet of exhibition space, the School of Art, and the administrative offices of the College of Fine Arts. In 1992, the Museum of Art was re-designated the Fred Jones Jr. Museum of Art.

Over the years, the museum's permanent collection has grown exponentially through the generosity of donors such as Max Weitzenhoffer and Jerome M. Westheimer Sr. In 1996, with an initial gift of \$1 million from Mrs. Fred Jones, OU President and Mrs. David L. Boren spearheaded a successful fundraising campaign to acquire the important collection of the late Richard H. and Adeline J. Fleischaker, which is composed primarily of Native American and Southwestern art.

2000 was a watershed year in the development of the FJJMA's collections, with the gift of the Weitzenhoffer Collection of French Impressionism, which consists of 33 works of art by Degas, Gauguin, Monet, Pissarro, Renoir, Toulouse-Lautrec, Van Gogh, Vuillard, and others. It is the most important collection of French Impressionism ever given to an American public university. The gift came to the university at the bequest of Clara Weitzenhoffer, an art collector and longtime University of Oklahoma supporter.

In 2005, the museum opened a new addition, designed by acclaimed architect Hugh Newell Jacobsen of Washington, D.C. Named in honor of Mary and Howard Lester of San Francisco, the wing added more than 34,000 square feet to the earlier 27,000-square-foot building. The Lester Wing features galleries for the Weitzenhoffer Collection, additional galleries, a 150-seat auditorium, an orientation room, a classroom, a museum store, and a new main entrance. Jacobsen designed the Lester Wing as a sequence of limestone pavilions having pyramidal slate roofs with glass skylights at their apexes. The building features an abundance of natural light, pure geometries, clarity of plan, and well-proportioned, top-lighted galleries that have an intimate, human scale. The resulting serene, contemplative spaces put the visitor in the proper frame of mind for viewing works of art.

The Adkins Foundation Board announced in July 2007 that the Fred Jones Jr. Museum of Art and the Philbrook Museum of Art in Tulsa had been jointly selected to steward the Eugene B. Adkins Collection. The joint partnership by OU and the Philbrook was among many proposals submitted by leading museums across the country. The Adkins Collection, which is valued at approximately \$50 million, features approximately 3,300 objects, including more than 400 paintings by such distinguished American artists as Maynard Dixon, Worthington Whittridge, Andrew Dasburg, Alfred Jacob Miller, Victor Higgins, Charles M. Russell, Nicolai Fechin, John Marin, William R. Leigh, Leon Gaspard, and Joseph H. Sharp. The collection also includes impressive examples of Native American paintings, pottery, and jewelry by such famed Native American artists as Jerome Tiger, Maria Martinez, and Charles Loloma.

In spring 2010, Arizona-based James T. Bialac decided to give his private collection to OU because of the university's commitment to excellence in education. The multimillion-dollar collection of more than 4,500 works represents indigenous cultures across North America, especially the Pueblos of the Southwest, the Navajo, the Hopi, many of the tribes of the

Northern and Southern Plains, and the Southeastern tribes. Included in the James T. Bialac Native American Art Collection are approximately 2,600 paintings and works on paper, more than 1,000 kachinas, and 400 works of varying media, including ceramics and jewelry, representing major Native artists such as Fred Kabotie, Awa Tsireh, Fritz Scholder, Joe Herrera, Allan Houser, Jerome Tiger, Tonita Peña, Helen Hardin, Pablita Velarde, George Morrison, Richard "Dick" West, Patrick DesJarlait and Pop Chalee.

The Stuart Wing, which opened in October 2011, provides a new 18,000-square-foot expansion of the Fred Jones Jr. Museum of Art to house the museum's many collections acquired within the past 15 years. Designed by noted architect Rand Elliott, the addition is named to honor a \$3 million lead gift from the Stuart Family Foundation made possible by the generosity of OU Regent Jon R. Stuart and his wife, Dee Dee, a member of the art museum's board of visitors. Construction on the new wing began in 2009 and includes renovations to the original 1971 building and the addition of the Eugene B. Adkins Gallery, a new photography/works on paper gallery, and new administrative offices. In all, the new Stuart Wing, with renovations, includes 27,480 square feet of exhibition space. Combining that with the 2005 Lester Wing's 12,106 square footage, the total museum exhibition space, is approximately 40,000 square feet.

In November 2012, the University of Oklahoma announced a new annual \$60,000 gift from the OU Athletics Department that now provides free admission for all visitors to the Fred Jones Jr. Museum of Art in perpetuity. This unique collaboration between athletics and art is one of the first in the United States creating free admission for a university art museum through a university athletics program.

The museum serves the educational needs of the university and the extended community through programs coordinated with the university faculty and the state's school districts. Museum information and art curriculum guides are provided to teachers and university faculty, and the museum sponsors the pARTner project, an arts education program that reaches 1,200 Norman Public School students annually.

Lectures, videos, and films complement the permanent collection and special exhibitions. Programs such as Art "à la Carte," Family Days, Art Adventures, Tuesday Noon Concerts, and Art After Noon utilize the museum's galleries, classroom, and auditorium and make the arts accessible to tens of thousands of visitors throughout the year. Tours are offered to all ages.

Sam Noble Oklahoma Museum of Natural History

2401 Chautauqua Ave., Norman, OK 73072-7029
Phone: (405) 325-4712
samnoblemuseum.ou.edu/

The Sam Noble Oklahoma Museum of Natural History, located just south of the intersection of Timberdell Road and Chautauqua Avenue, has extensive collections in earth, life and social sciences, including more

than seven million specimens and artifacts. These collections represent a vast and irreplaceable resource of the natural and cultural heritage of Oklahoma and many other parts of the world. The SNOMNH is the official museum of natural history for the state of Oklahoma as well as an independent research unit of the University of Oklahoma. The museum curators conduct original research and teach in their collection areas, while overseeing the research of graduate students and visiting scientists. The curators also maintain an active lending program that makes specimens available to scholars throughout the world. The collections provide the basis for a variety of exhibitions, public service programs and educational activities. Major collection areas include vertebrate and invertebrate paleontology, archaeology, classical art, entomology, ethnology, herpetology, ichthyology, invertebrate zoology, mammalogy, ornithology, paleobotany and Native American languages.

The 198,000-square-foot facility contains space for extensive permanent and traveling exhibits as well as a café, gift shop, education classrooms and a hands-on Discovery Room.

- The **Siegfried Family Hall of Ancient Life** leads visitors on an adventure through time. Visitors begin their journey in Oklahoma's Precambrian seas where they can view the wealth of Paleozoic marine life known from our state. Mesozoic exhibits showcase the Age of the Dinosaurs and feature the largest *Apatosaurus* and *Pentaceratops* in the world, as well as *Saurophaganax maximus*, Oklahoma's official state fossil and the largest of the Jurassic predators. Cenozoic exhibits tell the story of the many unusual mammals that lived in Oklahoma after the extinction of the dinosaurs until the end of the last Ice Age, including the Columbian mammoth and *Smilodon*, the sabre-toothed cat.
- The **Noble Drilling Corporation Hall of Natural Wonders** features the diverse plant and animal life of Oklahoma in a series of realistic "immersion" style walk-through dioramas. Visitors can view an oak and hickory forest, examine life in an Ozark stream, explore a walk-through limestone cave, and learn about life in the mixed grass prairie.
- The **McCasland Foundation Hall of the People of Oklahoma** tells the fascinating story of human history in Oklahoma, from the earliest archaeological evidence of humans in the state, around 30,000 years ago, to modern Native Americans living in Oklahoma today. Highlights include the "Cooper skull," the skull of an extinct bison painted with a lightning bolt design which, at 10,000 years old, is the oldest painted object in North America. Visitors to this gallery also can experience reproductions of the houses made by the Mississippian people, builders of Oklahoma's famous Spiro Mounds, and see examples of modern era objects from the museum's extensive Native American collections.
- The **Merkel Family Foundation Gallery of World Cultures** features objects from around the world, chosen from the museum's diverse ethnology collection. The objects represent cultures from Oceania, Tibet, Peru, India and West Africa. Highlights include a carved wooden ancestor figure from Papua New Guinea, ceremonial masks from Mexico and Africa, stone seals from China and a boomerang from Australia. This gallery also displays examples from the museum's collection of classical Greek and Roman antiquities, featuring coins, glasswork, black-figure pottery and a large section of a mosaic found in Antioch (modern Turkey), dating to around 100 CE.
- The **Fred and Enid Brown Native American Art and Special Exhibitions Gallery** and the **Dorothy C. Higginbotham Special Exhibitions Gallery** are spaces for special exhibitions both from the museum's own collections and from other museums around

the world. Check the museum's website for a listing of current and upcoming exhibitions.

With collections that document 500 million years of Oklahoma's natural history, the SNOMNH is one of the finest university-based natural history museums in the world. The museum is open 10 a.m. to 5 p.m. Monday through Saturday and 1 to 5 p.m. on Sunday. It is closed Thanksgiving, Christmas and New Year's Day.

The museum also is available for after-hours rental for banquets, receptions and other events. For more information, visit the museum's website or call (405) 325-4712.

Charles M. Russell Center for the Study of Art of the American West

520 Parrington Oval, Room 202, Norman, OK 73019-3011 (mailing)
409 West Boyd, Norman, OK 73069 (physical)
Phone: (405) 325-5939
russellcenter@ou.edu
http://www.ou.edu/finearts/visual-arts/charles_m_russell_center

Founded in 1998, the Charles M. Russell Center for the Study of Art of the American West is the first such university-based program in the nation. The center, which opened to the public in the fall of 1999, is dedicated to the pursuit and dissemination of knowledge in the field of American art history as it relates to the western United States. Through its resource center, national symposia, course offerings and related outreach programs, the Russell Center actively engages students and the public in developing a better understanding of, and appreciation for, 19th- and 20th-century Euro-American and Native American artistic traditions. Special emphasis is given to art of Charles M. Russell and his contemporaries.

The Russell Center was established concurrently with the Charles Marion Russell Chair, an endowed professorship in art history at the University of Oklahoma. Both the center and the endowed chair were made possible through a generous gift from the Nancy Russell Trust and matching funds from the state of Oklahoma. Administered through the School of Visual Arts and the Weitzenhoffer Family College of Fine Arts, the Russell Center operates in concert with several of the University of Oklahoma's other distinguished branches including the Western History Collections, Fred Jones Jr. Museum of Art, Sam Noble Oklahoma Museum of Natural History, and the departments of History, Literature, Native American Studies and Film and Video Studies. The Russell Center also actively interfaces with institutions across the country, including museums of Western art and universities that support related programs or collections of Western material culture or art.

The Russell Center is both a facility and a program designed to inspire and excite interest in the study of American Western art, an aesthetic history that enjoys both a regional and a national dimension. While a branch of American art, Western art also incorporates European artistic traditions that have, over time, been adapted to themes, experiences and environments unique to the western United States. Art of the American West also encompasses Native American cultures as both subjects of art and as creative forces.

During much of America's history, the West has been a defining national symbol. Although considered a region by Euro-Americans, the West was also a myth, a dream and inspiration, a collection of individual experiences, a process of westering and a destination. For Native Americans, however, process and destination played little part in their

thinking. For them, the West was something spiritual as well as physical, a sacred domain as well as a common home. The center's course of study in the art of the American West seeks to discover what the West symbolized and to whom and why.

ORIENTATION AND ADVISEMENT

Orientation for New Students

Advising and orientation of students at the University of Oklahoma is a continuous process designed to provide OU students with the knowledge they need to succeed academically and socially. For many students, the process begins while they are still in high school during Sooner Saturday, an on-campus introduction to the university for prospective students and their parents.

Initial academic advising for new students is provided through several activities that present information to new students and their parents about academic and non-academic programs of the university, along with individualized academic advising and the opportunity to pre-enroll in classes for the fall semester. These include:

- **New Sooner Orientation**

University College's orientation and advance enrollment program for new freshmen in every major, or undecided and pre-health transfer students who have been admitted to the university. Parents of students are encouraged to attend.

Pre-Semester Orientation

Additional orientation programs are provided for new students prior to the beginning of classes. These include:

- **Sooner Orientation Weekend**

Student Orientation Weekend is three fun days full of activities and information designed to welcome students to the University of Oklahoma. The schedule is packed with opportunities to meet great people, get acquainted with the campus and community and learn about the many services and programs that will help students succeed at OU. For more information, contact Student Life, Oklahoma Memorial Union, at (405) 325-3163.

- **Camp Crimson**

Camp Crimson is OU's official orientation camp. It is a three-day, two-night experience of what it means to be a Sooner. Students get the opportunity to meet other new students, student leaders and faculty and staff members, and hear about resources at OU.

- **Teaching Assistant Orientation**

The Center for Teaching Excellence offers training programs for all teaching assistants prior to the beginning of each fall semester. For more information, contact the Center for Teaching Excellence, Wallace Old Science Hall 224, (405) 325-2323.

Introductory Courses

New students also have the opportunity to participate in one of two types of introductory courses during their first year of enrollment. These include:

- **Gateway to College Learning**—Each section is limited to a maximum of 28 students and is taught either by experienced and specially-trained faculty or senior staff members. The course deals with a variety of topics designed to introduce students to the university community and to help them make a successful transition from high school to college.
- **University College Seminars**—Each seminar is limited to 25 students and is taught by an individual faculty member who leads the students through an in-depth exploration of a specific intellectual topic.

Advisement

Knowing that academic advising is a key component to helping students graduate, our goal is to help students succeed academically so that they can fulfill their dreams and meet their potential. University College (UC) provides general advising for most first-year students. UC is a non-degree college that focuses on helping students make the transition to the university, provides them with academic advising, and a variety of coaching activities to help them to succeed. During the freshman year, the OU Scholars Program provides specialized advising services to scholarship recipients of the Award of Excellence, Distinguished Scholar, Regents Award, National Award, and National Merit scholarships.

Once students earn 24 credit hours after two semesters at OU and move to a degree college, they will meet with an academic advisor before each term of enrollment. Students are advised either by academic counselors in the college office, professional advisors in the academic unit or by faculty advisers in their major. Academic advising is an integral part of the educational process and includes regular interaction and relationship-building during each transition as a student navigates their academic career.

The Academic Advising Resource Center (AARC) serves as a resource for students and academic advisors alike. The AARC advises students who are going into their third or later semester and would like extra time in deciding on their academic major while being declared Exploratory. The AARC also works with students who need support during a period of academic repair so that the student can meet degree college admission standards. The AARC was established in 2011 and houses the Pre-Law, Pre-Medical Professions, and Exploratory Academic Advisors. The AARC uses the services of a Triage Advisor to help students navigate the academic advising system and who maintains the advising@ou.edu account. The AARC is in Cate 1, Room 418, 308 Cate Center Drive Rm. 418, Norman, OK 73019-2180, (405) 325-1596.

In addition to formal academic advising, students may select from a wide variety of additional academic and support services. Examples include academic life coaching sessions with trained and certified academic life coaches, workshops offered by the Student Learning Center and the Center for Student Life; individual career advising by Career Services; and academic assistance through the Writing Center and several tutoring programs.

STUDENT SUPPORT SERVICES

Student Support Services, also known as Project Threshold, is an academic support program established in 1970 to serve students who are first-generation college, economically disadvantaged, disabled. The

primary goal of this program is to increase retention and graduation rates of program participants.

To accomplish this goal, Project Threshold provides personal, academic, and financial aid counseling as well as academic tutoring. Small sections of freshman-level courses are offered to Threshold students to help ease the adjustment to larger college classes. The ethnic diversity of the staff further serves to provide the student with a sense of belonging.

Inquiries should be directed to Project Threshold, 215 Wagner Hall, 1005 Asp Ave., Norman, OK 73019-0315, (405) 325-6261, scady@ou.edu.

Planning a Program

- If you have selected a major, learn all the requirements for your chosen degree program.
- If you are unsure of your major, make an appointment with a major exploration coach who can help you match your interests, skills and goals to possible majors
- Prepare a plan of study showing the courses you will take each semester that will complete requirements for graduation.
- The degree program should be designed according to the rules and regulations that govern enrollment and graduation. These rules and regulations can be found in the specific chapter of this catalog providing information about the college offering your major as well as the chapter, "Admission, Enrollment, and Graduation."
- Freshmen and sophomores who are unsure of a major should choose courses that will fulfill University-Wide General Education Requirements and provide exposure to disciplines that are of interest for selection of a major.
- Utilize the University General Catalog, the Degree Navigator system and degree checksheets to plan your program.
- Take basic required courses such as English composition and mathematics that provide a sound foundation for future successful enrollments early in the academic program.
- Include courses early in the program that are required for admission to the degree college offering the chosen major.
- Schedule upper-division courses for the junior and senior years with few exceptions in your schedule.
- Look into programs that will enhance your individual program such as study abroad, internships, and research opportunities.
- Balance enrollments to avoid including too many heavy reading courses, too many laboratory courses, or too many credit hours in one semester or term.
- Attempt to schedule all specifically required courses prior to the final enrollment.
- Plan the final semester with fewer hours to allow for such activities as job interviews.
- Plan an enrollment of 12-19 hours, according to academic ability and responsibilities outside of class, for the fall and spring semesters (6-9 hours are appropriate for the summer term). Students should anticipate that each credit hour taken will normally require a minimum of two hours each week for study time outside of class.

GRADUATION PLAN

The University of Oklahoma has instituted a graduation plan for many degree programs. This plan requires the student and the university to sign a contract that guarantees the student can graduate in a specified period of time based on certain conditions that can be detailed when the student talks with an academic adviser on campus.

University-Wide General Education

In today's global society, the most important contribution a university can make is to help prepare its students for a lifetime of change and a future as an educated and responsible citizen. OU's university-wide general education core curriculum, which was implemented in fall 1990, meets this challenge by providing a curriculum of required courses designed to help students think creatively, reason and communicate clearly, and adapt quickly to a rapidly changing world.

OU was the first college in the state – and among the pioneers nationally – to organize its general education requirements into a focused curriculum that emphasizes the key areas of knowledge essential in today's society and life in the 21st century.

In designing its general education curriculum, OU looked toward two new centuries—the 21st century, in which students will need to cope with global, societal and career changes – and OU's second century, in which it will continue to produce leaders for the state, nation and world. OU's general education curriculum is designed to help its students succeed after graduation, regardless of their field of endeavor. Because effective communication skills are essential, writing is emphasized across the general education curriculum. Courses also help students learn to express themselves orally, use mathematical analysis, examine and solve problems, explore the concepts and methodologies of the natural and social sciences, appreciate the creative arts, and better understand their own and others' cultural heritages. Courses are designed to foster enthusiasm, curiosity and a desire to continue learning.

GENERAL EDUCATION REQUIREMENTS

A minimum of 40 credit hours of general education courses is required for graduation. Some colleges or majors require students to complete additional hours of general education coursework or to take specific courses to fulfill general education requirements. The list of courses approved for general education credit is available in the Gen Ed Planner. Courses must be distributed among the following areas:

I. SYMBOLIC AND ORAL COMMUNICATION (3-6 courses, 9-22 hours)

- English Composition (2 courses, 6 hours).
- Foreign Language (2 courses, 6-10 hours). This requirement can be satisfied by successfully completing two semesters of the same foreign language at the college level equivalent to two semesters at OU. It also may be satisfied by successfully completing two years of the same foreign language in high school or by demonstrating an equivalent level of competence on an assessment test. (Note: the Gaylord College of Journalism and Mass Communication, College of Arts and Sciences, and the College of International Studies require students to complete three semesters of college-level foreign language or pass an assessment test. The College of Arts & Sciences and College of International Studies requirement cannot be met by high school coursework. Some majors require a fourth semester of foreign language.)
- Mathematics (1 course, 3 hours).
- Other. Courses in this category are not required, but may be used when additional credit hours are needed to bring the total hours completed to 40. Approved courses in this area include communication, logic and public speaking.

II. NATURAL SCIENCE (2 courses, 7-8 hours)

- At least two courses of three or more credit hours each and totaling a minimum of seven credit hours are required. The courses must be

from different disciplines, and at least one course must include a laboratory component, denoted by [L] in the list of general education courses. (Note: the College of Arts and Sciences requires its students to complete one course in the Biological Sciences and one course in the Physical Sciences.)

III. SOCIAL SCIENCE (2 courses, 6 hours)

- One course must be Political Science 1113, "American Federal Government" (three hours)

IV. HUMANITIES (4 courses, 12 hours)

- Understanding Artistic Forms (1 course, 3 hours)
- Western Civilization and Culture (2 courses, 6 hours). One course must be History 1483, "United States 1492-1865," or History 1493, "United States 1865 to Present." The other course may not be History 1483 or History 1493.
- Non-Western Culture (1 course, 3 hours). **Note:** The Gaylord College of Journalism and Mass Communication, College of Arts and Sciences, and College of International Studies require additional upper-division Humanities courses outside the major (2 courses, 6 hours).

V. SENIOR CAPSTONE EXPERIENCE (1 course, 3 hours)

- Designed to culminate a student's undergraduate field of study and place it in a larger social, intellectual and professional context, the capstone experience should be an intensive experience in the major or interdisciplinary field at the senior level of performance. The capstone must include an in-depth writing component.

VI. UPPER-DIVISION REQUIREMENT

- In addition to the Senior Capstone Experience, at least one of the courses (minimum of 3 hours) used to satisfy the general education requirements must be at the upper-division level and outside of the student's major.

Academic Major and Minor

Major

The major is the emphasis of study that provides depth of learning within the degree program. It is composed of specific requirements determined by the department through which the major is offered. Although many majors are highly structured, some offer flexibility, allowing choice of courses within preset guidelines. Each major is fully described in the section of this catalog where information is provided about the unit offering the major. Major exploration coaches are available to help you decide on a major.

Minor

The minor is a secondary and optional area of interest for depth of study. It can be closely related to the major to serve as a support area, or it can be unrelated. The department through which it is offered sets the requirements for the minor. Presently, the College of Architecture, College of Arts and Sciences, College of Atmospheric and Geographic Sciences, Price College of Business, College of Continuing Education (Aviation), Gallogly College of Engineering, Weitzenhoffer Family College of Fine Arts, College of International Studies, Joe C and Carole Kerr McClendon Honors College, and Gaylord College of Journalism and Mass Communication offer approved minor programs. The minors are made available by the colleges to all students within the university, except for those in the College of Business that are for business majors only.

The minor programs are described in the section of this catalog where information is provided about the unit through which they are offered. Upon graduation, the student's official transcript will reflect completion of a minor if recommended by the student's degree college.

See Academic Majors–Undergraduate and Graduate (p. 36) for an alphabetical listing of Majors and Minors at OU.

Preparing for Graduate and Professional Studies

When preparing for your future, we encourage you to consider graduate and professional studies. Advanced study can provide more in-depth research and creative experiences in your chosen field of study. You will work closely with faculty on particular subjects to develop the skills necessary for research and independent thought.

Graduate assistantships and internships provide additional opportunities to develop your skills and talents while working toward an advanced degree. Attendance at professional meetings can provide opportunities for valuable exchanges of information and ideas with colleagues in your discipline.

Career options are greatly enhanced by completion of an advanced degree, and we hope you will avail yourself of the opportunities that are available at the University of Oklahoma.

CAREER PLANNING

Career Services

Career decision-making is a continuing process requiring active involvement in the investigation of self, education, and career possibilities. There are two main approaches to choosing a major and relating it to a career goal:

1. Choose a major because it is intellectually stimulating and develop gradually a career goal while progressing through the program; **or**,
2. Decide on a career goal first and then choose a major that will provide the best preparation for that career.

Whichever method you use, it is important to identify your skills, interests, and values; to explore majors and their relationships to careers; and to pursue a goal.

Developing educational plans and career goals are closely related, and the university offers a broad range of assistance to its students. Academic advisors from the various colleges and/or departments can help you select your academic major and plan a course sequence to fulfill degree requirements. The University College course (UCOL 1002) "Gateway to College Learning" is an excellent introduction to the university and a basic foundation on which to build your educational and career goals. In addition to the University College and the individual college and departmental advisement units, the following offices can be helpful:

University College Assessment Center, Wagner Hall, ucac@ou.edu, 325-4336

Career Services, Oklahoma Memorial Union, Suite 323, oucs@ou.edu, 325-1974

Co-ops and Internships

Cooperative education, internships, and practicums, which are available in a wide variety of settings, can make students' academic study come alive by providing practical experience related to their academic goals. This experience can help students evaluate their career choices and enhance their employability upon graduation. More than 50 undergraduate fields of study offer positions, ranging from informal arrangements between a professor and a business colleague to formal, required internships. Some internships are paid positions; other field

experiences may provide the opportunity to earn credit toward a degree while gaining practical work experience. Co-ops always are paid experiences. Visit Career Services to identify openings and opportunities and contact the representative who coordinates specialized programs through your academic department. Career Services will help you learn the job-search skills and techniques necessary to be successful in the application process. For additional information, contact Career Services, 323 Oklahoma Memorial Union, (405) 325-1974.

If you participate in the available programs and services, you can enjoy the satisfaction of the rich experiences offered by the University of Oklahoma. It's your future; plan it wisely.

Career Planning Calendar

Freshman Year

- Identify your personal interests and needs; assess your career skills, values, and goals.
- Participate in campus organizations and activities that interest you.
- Check out careers by attending career fairs and discussing ideas with professors, academic counselors, and career advisors in Career Services.
- Use FOCUS2 to assess interests and learn about majors and careers.
- Take the Strong Interest Inventory at The Center for Major & Career Exploration.
- Enroll in UCOL 2021 to assist with choosing a major or schedule an appointment with The Center for Major & Career Exploration.
- Use Career Services to learn how to create a winning resume.
- Login and update your Handshake account with Career Services.
- Interview for a summer job related to your career interests.

Sophomore Year

- Continue your appraisal of your personal interests, needs, skills, values, and goals.
- Talk to individuals doing work of interest to you (informational interviewing).
- Login to your Handshake account to update your profile and upload your resume for employers to view.
- Take courses to assist you with career decisions (CAS 3091).
- Attend events featuring employers such as career fairs or meetings sponsored by campus organizations, your department, or your college.
- Join a campus organization related to your major or career interest.
- Review the Handshake Job Board and apply for on-campus interviews for internships or co-ops.
- If your career path requires graduate or professional school, research what education and credentials you will need in advance.

Junior Year

- Enhance your job search, business etiquette, resume writing, and interviewing skills by attending workshops watching webinars, and by using the resources available in Career Services.
- Actively develop leadership and communication skills in campus organizations.
- Update your resume and have it critiqued by Career Services.
- Login to your Handshake account to update your profile and upload your updated resume for employers to view.

- Review the Handshake Job Board and apply for on-campus interviews for internships or co-ops.
- Research employers in your field through the Handshake Employer Database or online by exploring their websites.
- Attend career fairs to expand your network and apply for internships or co-ops.
- Enroll in a course to learn the most effective job search techniques (CAS 3091).

Senior Year

- Login to your Handshake account to update your profile.
- Update your resume and have it critiqued by Career Services.
- Attend career fairs dressed professionally with resumes ready to distribute.
- Attend meetings of professional associations as a student member to network with professionals in your field.
- Look for opportunities to further develop your leadership skills through a campus organization related to your major or career interest.
- Become familiar with the various job search sites online that are related to your career interests.
- Review and apply for full-time postings on the Handshake Job Board.

Academic Planning Calendar

Freshman Year (0–30 hours)

- **Complete** required freshman English composition courses (ENGL 1113 and ENGL 1213).
- **Complete** General Education Math requirement.
- **Complete** all other course requirements and any necessary application procedures for admission to the Norman campus degree college of choice by the end of the freshman year.
- **Complete** any necessary testing for admission to major programs and degree colleges, such as the PPST (Pre-Profession Skills Test), as needed for admission to a teacher education program in the College of Education or the Language Skills Test for admission to a journalism and mass communication program in the Gaylord College of Journalism and Mass Communication.
- **Interested** students not previously admissible to the Honors Program should apply for admission as soon as the necessary hours and grade point average are acquired.

Sophomore Year (30–60 hours)

- **Complete** remaining requirements and the application procedures for admission to the degree college of choice at the University of Oklahoma Health Sciences Center.
- **Complete** required courses and application procedures for formal acceptance into such Norman campus programs as health and exercise science, journalism and social work.
- **Finalize** decision about choice of major or run the risk of delaying graduation (some of the highly structured programs such as engineering require firm decisions during the freshman year).
- **Consider** study abroad programs.

Junior Year (60–90 hours)

- **Consider** double major, minor, and area of concentration.
- **Complete** any necessary testing and application procedures for admission to professional schools (such as the MCAT and application to medical schools the second semester).
- **Request** initial graduation check from degree college office during the last semester of the junior year.
- **Consider** such post-baccalaureate options as Fulbright Grants and Rotary Scholarships.

Senior Year (90 hours and above)

- **All** requests for program adjustments should be made no later than the beginning of the senior year.
- **Request** final graduation check from degree college early in the last term of enrollment.
- **Apply** for graduation during the last term of enrollment (applications should be submitted by March 1 for spring, July 1 for summer and October 1 for fall).
- **Satisfy** all remaining requirements for the degree program, including courses, hours, grade point average, residence, and any additional requirements for anticipated distinguished degree.
- **Apply** for admission to post-baccalaureate programs and complete any required testing.
- **Degrees** are formally conferred at spring commencement. Degrees are awarded and diplomas mailed at the end of each semester and summer session.

It is the student's responsibility to meet deadlines and all other requirements from the beginning of the freshman year through graduation. Information about deadlines and requirements is available from advisors.

ACADEMIC MAJORS – UNDERGRADUATE AND GRADUATE

Archived Degree Checksheets

#

- 21st Century Teaching & Learning, Master of Education (p. 727)

A

- Accounting, Bachelor of Business Administration (p. 541)
- Accounting, BBA/Finance, Master of Science (p. 546)
- Accounting, BBA/Master of Accountancy (p. 544)
- Accounting, BBA/Master of Science in Management of Information Technology (p. 549)
- Accounting, Minor (p. 543)
- Accounting, Online Accounting, Master of Accountancy (p. 552)
- Adult & Higher Education, Master of Education (p. 654)
- Adult & Higher Education: Intercollegiate Athletic Administration, Master of Education (p. 654)
- Advertising, Bachelor of Arts in Journalism (p. 990)
- Advertising, Bachelor of Arts in Journalism/Journalism and Mass Communication, Master of Arts (p. 1004)
- Aerospace and Mechanical Engineering Doctoral Programs (p. 750)
- Aerospace Engineering, Bachelor of Science in Aerospace Engineering (p. 743)
- Aerospace Engineering, Bachelor of Science in Aerospace Engineering/Master of Science (p. 746)
- Aerospace Engineering, Master of Science (p. 749)
- Aerospace Studies, Minor (p. 1071)
- African and African-American Studies, Bachelor of Arts (p. 142)
- African and African-American Studies, Minor (p. 145)
- African Studies, Minor (p. 970)
- Air Traffic Control, Minor (p. 1069)
- American Indian Law, Graduate Certificate (p. 1030)
- Anthropology (Standard), Master of Arts (p. 158)
- Anthropology Doctoral Programs (p. 159)
- Anthropology, Bachelor of Arts (p. 148)
- Anthropology, Bachelor of Arts/Sociocultural Anthropology, Master of Arts (p. 155)
- Anthropology, Minor (p. 154)
- Applications of Educational Research and Evaluation, Graduate Certificate (p. 666)
- Applied Behavior Analysis, Graduate Certificate (p. 666)
- Applied Linguistic Anthropology, Master of Arts in Applied Linguistic Anthropology (p. 158)
- Arabic, Bachelor of Arts (p. 324)
- Arabic, Minor (p. 345)
- Archaeoastronomy and Astronomy in Culture (Online), Graduate Certificate (p. 1056)
- Architectural Engineering, Bachelor of Science in Architectural Engineering (p. 773)
- Architectural Engineering, Bachelor of Science in Architectural Engineering/Civil Engineering, Master of Science (p. 778)
- Architectural Studies, Minor (p. 90)
- Architecture Doctoral Programs (p. 96)
- Architecture via Architecture Bachelor's Degree, Master of Architecture (p. 93)
- Architecture via Non-Architecture Bachelor's Degree, Master of Architecture (p. 92)
- Architecture, 3½ + 1½ Program, Bachelor of Science in Architectural Studies/Master of Architecture (p. 91)
- Architecture, Four+ Year Program, Bachelor of Architecture (p. 89)
- Architecture, Master of Science in Architecture (p. 93)
- Architecture, Three+ Year Program, Bachelor of Science in Architectural Studies (p. 89)
- Archival Studies, Graduate Certificate (p. 290)
- Art History, Bachelor of Arts in Art History (p. 916)
- Art History, Master of Arts in Art History (p. 924)
- Art History, Minor (p. 923)
- Art, Bachelor of Arts in Art (p. 914)
- Art, Master of Fine Arts in Art (p. 924)
- Art, Minor (p. 923)
- Art, Technology & Culture, Bachelor of Fine Arts in Art (p. 917)
- Artist's Certificate in Music Performance, Graduate Certificate (p. 906)
- Arts Management and Entrepreneurship, Graduate Certificate (p. 834)
- Asian Studies, Bachelor of Arts in International & Area Studies (p. 943)
- Asian Studies, Minor (p. 970)
- Astronomy, Bachelor of Science (p. 365)
- Astronomy, Minor (p. 374)
- Astrophysics, Bachelor of Science in Astrophysics (p. 367)
- Aviation: Air Traffic Management Track, Bachelor of Science (p. 1061)
- Aviation: Aviation Management Track, Bachelor of Science (p. 1063)
- Aviation: Aviation Management – Non-Flying Track, Bachelor of Science (p. 1065)
- Aviation: Aviation Management, Minor (p. 1069)
- Aviation: Multi-Engine Commercial Pilot, Minor (p. 1070)
- Aviation: Professional Pilot Track, Bachelor of Science (p. 1067)
- Aviation: Single-Engine Commercial Pilot, Minor (p. 1070)

B

- Ballet Pedagogy, Bachelor of Fine Arts in Dance (p. 836)
- Ballet Performance, Bachelor of Fine Arts in Dance (p. 838)
- Biochemistry, Bachelor of Science in Biochemistry (p. 170)
- Biological Conservation, Minor (p. 235)
- Biology Doctoral Programs (p. 167)
- Biology, Bachelor of Science (p. 163)
- Biology, Master of Science (p. 166)
- Biology, Minor (p. 165)
- Biology: Bioinformatics, Master of Science (p. 166)
- Biomedical Engineering Doctoral Programs (p. 757)
- Biomedical Engineering, Bachelor of Science in Biomedical Engineering (p. 753)
- Biomedical Engineering, Bachelor of Science in Biomedical Engineering/Master of Science (p. 755)
- Biomedical Engineering, Master of Science (p. 756)
- Brass & Percussion, Bachelor of Music (p. 860)
- Broadcast Meteorology, Minor (p. 1003)
- Business Administration, Master of Business Administration (p. 537)
- Business and Transactional Law, Graduate Certificate (p. 1030)
- Business Doctoral Programs (p. 616)
- Business Entrepreneurship, Graduate Certificate (p. 559)

C

- Chemical Biosciences, Bachelor of Science (p. 172)
- Chemical Engineering (Biotechnology Option), Bachelor of Science in Chemical Engineering (p. 762)
- Chemical Engineering (Biotechnology), Bachelor of Science in Chemical Engineering/Biomedical Engineering, Master of Science (p. 766)
- Chemical Engineering (Pre-Medical/Biomedical Engineering), Bachelor of Science in Chemical Engineering (p. 763)
- Chemical Engineering (Pre-Medical/Biomedical Engineering), Bachelor of Science in Chemical Engineering/Biomedical Engineering, Master of Science (p. 767)
- Chemical Engineering (Standard), Bachelor of Science in Chemical Engineering (p. 761)
- Chemical Engineering (Standard), Bachelor of Science in Chemical Engineering/Master of Science (p. 764)
- Chemical Engineering, Master of Science (p. 769)
- Chemical, Biological, and Materials Engineering Doctoral Programs (p. 769)
- Chemistry & Biochemistry, Master of Science (p. 180)
- Chemistry (Professional), Bachelor of Science in Chemistry (p. 177)
- Chemistry and Biochemistry (Standard Option), Bachelor of Science (p. 175)
- Chemistry and Biochemistry Doctoral Programs (p. 182)
- Chemistry, Minor (p. 180)
- Chemistry: Bioinformatics, Master of Science (p. 181)
- Chinese, Bachelor of Arts (p. 327)
- Chinese, Minor (p. 345)
- Choral Conducting, Master of Music (p. 895)
- Civil Engineering and Environmental Science Doctoral Programs (p. 786)
- Civil Engineering, Bachelor of Science in Civil Engineering (p. 774)
- Civil Engineering, Bachelor of Science in Civil Engineering/Master of Science (p. 780)
- Civil Engineering, Master of Science (p. 784)
- Classical Culture, Minor (p. 197)
- Classical Greek, Minor (p. 197)
- Classics: Classical Languages, Bachelor of Arts (p. 184)
- Classics: Classical Studies, Bachelor of Arts (p. 186)
- Classics: Latin, Bachelor of Arts (p. 189)
- Clinical Mental Health Counseling, Master of Human Relations (p. 270)
- Clinical Professional Counseling, Master of Education (p. 664)
- College Teaching Certificate, Graduate Certificate (p. 657)
- Communication Doctoral Programs (p. 203)
- Communication, Bachelor of Arts (p. 200)
- Communication, Culture and Pedagogy for ESL/ELL Populations in Educational Settings, Graduate Certificate (p. 727)
- Communication, Master of Arts (p. 202)
- Communication, Minor (p. 202)
- Community Health, Bachelor of Arts (p. 125)
- Community Health, Bachelor of Science (p. 127)
- Composition, Bachelor of Music (p. 862)
- Computational Technology, Minor (p. 790)
- Computer Engineering, Bachelor of Science in Computer Engineering (p. 799)
- Computer Engineering, Bachelor of Science in Computer Engineering/Computer Science, Master of Science (p. 801)
- Computer Engineering, Bachelor of Science in Computer Engineering/Electrical and Computer Engineering, Master of Science (p. 803)
- Computer Science Doctoral Programs (p. 793)
- Computer Science, Bachelor of Science in Computer Science (p. 789)
- Computer Science, Bachelor of Science in Computer Science/Master of Science (p. 791)
- Computer Science, Master of Science (p. 792)
- Computer Science, Minor (p. 790)
- Conducting, Master of Music Education (p. 903)
- Constitutional Studies, Minor (p. 197)
- Construction Management: Special Studies, Master of Science in Construction Management (p. 98)
- Construction Management: Thesis, Master of Science in Construction Management (p. 99)
- Construction Science, Bachelor of Science in Construction Science (p. 97)
- Construction Science, Minor (p. 98)
- Corrections Management (Online), Graduate Certificate (p. 1057)
- Creative Media Production, Bachelor of Arts in Journalism (p. 992)
- Creative Media Production, Bachelor of Arts in Journalism/Journalism and Mass Communication, Master of Arts (p. 1007)
- Creative Media Production, Minor (p. 1003)
- Criminal Investigation and Intelligence Analysis, Minor (p. 1048)

- Criminal Investigation and Intelligence Analysis, Undergraduate Certificate (p. 1050)
- Criminal Justice (Online), Bachelor of Science in Criminal Justice (p. 1044)
- Criminal Justice (Online), Master of Science (p. 1050)
- Criminal Justice, Minor (p. 1049)

D

- Dance History, Minor (p. 842)
- Dance, Master of Fine Arts in Dance (p. 843)
- Data Analytics for Information Professionals, Graduate Certificate (p. 291)
- Data Science and Analytics, Graduate Certificate (p. 795)
- Data Science and Analytics, Master of Science (p. 795)
- Data Systems and Digital Design (BIM/GIS/FAB), Graduate Certificate (p. 94)
- Design Entrepreneurship and Real Estate, Graduate Certificate (p. 95)
- Digital Humanities, Graduate Certificate (p. 291)
- Digital Technologies, Graduate Certificate (p. 601)
- Diversity Studies, Minor (p. 1049)
- Drama, Master of Arts (p. 856)
- Drug and Alcohol Counseling, Graduate Certificate (p. 666)

E

- Early Childhood, Bachelor of Science in Education (p. 672)
- Early Childhood: Birth through Third Grade, Bachelor of Science in Education (p. 675)
- Earth Observation Science for Society and Sustainability, Graduate Certificate (p. 928)
- Economics Doctoral Programs (p. 211)
- Economics, Bachelor of Arts (p. 205)
- Economics, Bachelor of Arts/Master of Arts (p. 208)
- Economics, Bachelor of Business Administration (p. 532)
- Economics, BBA/Master of Science in Management of Information Technology (p. 534)
- Economics, Minor (p. 207)
- Economics: Applied Economics, Master of Arts (p. 211)
- Economics: Managerial Economics, Master of Arts (p. 211)
- Editing and Publishing, Minor (p. 138)
- Educational Administration - Curriculum & Supervision, Master of Education (p. 655)
- Educational Leadership and Policy Studies Doctoral Programs (p. 657)
- Educational Psychology Doctoral Programs (p. 668)
- Educational Studies, Master of Education (p. 656)
- Elections & Campaign Management, Minor (p. 387)
- Electrical and Computer Engineering Doctoral Programs (p. 806)
- Electrical and Computer Engineering, Master of Science (p. 805)
- Electrical and Computer Engineering, Minor (p. 801)
- Electrical Engineering, Bachelor of Science in Electrical Engineering (p. 800)
- Electrical Engineering, Bachelor of Science in Electrical Engineering/ Electrical and Computer Engineering, Master of Science (p. 804)
- Elementary, Bachelor of Science in Education (p. 678)
- Energy and Natural Resources Law, Graduate Certificate (p. 1031)
- Energy Management, Bachelor of Business Administration (p. 578)
- Energy, Executive Master of Business Administration (p. 537)
- Engineering Doctoral Programs (p. 807)
- Engineering Leadership, Undergraduate Certificate (p. 736)
- Engineering Physics Doctoral Programs (p. 811)
- Engineering Physics, Bachelor of Science in Engineering Physics (p. 810)
- Engineering Physics, Master of Science (p. 811)
- Engineering, Master of Science (p. 807)
- English Doctoral Programs (p. 227)
- English: Literary & Cultural Studies, Bachelor of Arts (p. 214)
- English: Literary & Cultural Studies, Bachelor of Arts/Master of Arts (p. 221)
- English: Literary & Cultural Studies, Minor (p. 219)
- English: Literary Studies, Master of Arts (p. 226)
- English: Rhetoric & Writing Studies, Master of Arts (p. 227)
- English: Writing, Bachelor of Arts (p. 217)
- English: Writing, Bachelor of Arts/Master of Arts (p. 224)
- English: Writing, Minor (p. 220)
- Enterprise Studies, Minor (p. 139)
- Entrepreneurship & Venture Management, BBA/Master of Science in Management of Information Technology (p. 556)
- Entrepreneurship and Venture Management, Bachelor of Business Administration (p. 553)
- Entrepreneurship for Business Majors, Minor (p. 556)
- Entrepreneurship for Non-Business Majors, Minor (p. 556)
- Environmental Design, Bachelor of Science in Environmental Design (p. 101)
- Environmental Engineering, Bachelor of Science in Environmental Engineering (p. 775)
- Environmental Engineering, Bachelor of Science in Environmental Engineering/Master of Science (p. 781)
- Environmental Engineering, Master of Science in Environmental Engineering (p. 784)
- Environmental Geology, Bachelor of Science in Geology (p. 638)
- Environmental Science, Bachelor of Science in Environmental Science (p. 776)
- Environmental Science, Bachelor of Science in Environmental Science/Master of Environmental Science (p. 783)
- Environmental Science, Master of Environmental Science (p. 785)
- Environmental Science, Minor (p. 777)
- Environmental Science: Hydrology and Water Security Online, Master of Environmental Science (p. 786)
- Environmental Studies, Bachelor of Arts (p. 228)
- Environmental Studies, Bachelor of Science (p. 233)
- Environmental Studies, Master of Science in Environmental Studies (p. 236)
- Environmental Studies, Minor (p. 236)
- Environmental Sustainability, Master of Science in Environmental Sustainability (p. 503)
- Environmental Sustainability, Minor (p. 485)

- Environmental Sustainability: Culture & Society, Bachelor of Arts in Environmental Sustainability (p. 460)
- Environmental Sustainability: Culture & Society, Bachelor of Science in Environmental Sustainability (p. 462)
- Environmental Sustainability: Planning & Management, Bachelor of Arts in Environmental Sustainability (p. 465)
- Environmental Sustainability: Planning & Management, Bachelor of Arts in Environmental Sustainability/Master of Regional & City Planning (p. 487)
- Environmental Sustainability: Planning & Management, Bachelor of Science in Environmental Sustainability (p. 467)
- Environmental Sustainability: Planning & Management, Bachelor of Science in Environmental Sustainability/Master of Regional & City Planning (p. 490)
- Environmental Sustainability: Science & Natural Resources, Bachelor of Arts in Environmental Sustainability (p. 469)
- Environmental Sustainability: Science & Natural Resources, Bachelor of Science in Environmental Sustainability (p. 472)
- European Studies, Bachelor of Arts in International & Area Studies (p. 946)
- European Studies, Minor (p. 971)
- European Studies: Russian & East European, Bachelor of Arts in International & Area Studies (p. 949)
- Executive Management in Aerospace & Defense, Graduate Certificate (p. 539)
- Exercise Physiology, Master of Science (p. 246)

F

- Film & Media Studies, Bachelor of Arts (p. 238)
- Film & Media Studies, Minor (p. 241)
- Finance for Business Majors, Minor (p. 566)
- Finance, Bachelor of Business Administration (p. 561)
- Finance, BBA/Finance, Master of Science (p. 567)
- Finance, BBA/Master of Science in Management of Information Technology (p. 570)
- Finance, Graduate Certificate (p. 576)
- Finance, Master of Science (p. 575)
- Foundations of Business, Graduate Certificate (p. 539)
- Franchising, Minor (p. 609)
- French, Bachelor of Arts (p. 329)
- French, Master of Arts (p. 350)
- French, Minor (p. 346)
- Fundamentals of Special Education, Graduate Certificate (p. 667)

G

- General Business for Non-Business Majors, Minor (p. 534)
- General Music Education, Master of Music Education (p. 904)
- Geographic Information Science, Bachelor of Arts in Geographic Information Science (p. 474)
- Geographic Information Science, Bachelor of Arts in Geographic Information Science/Master of Regional & City Planning (p. 493)
- Geographic Information Science, Bachelor of Science in Geographic Information Science (p. 476)
- Geographic Information Science, Bachelor of Science in Geographic Information Science/Master of Regional & City Planning (p. 495)

- Geographic Information Systems, Minor (p. 486)
- Geography and Environmental Sustainability Doctoral Programs (p. 507)
- Geography, Bachelor of Science in Geography (p. 479)
- Geography, Bachelor of Science in Geography/Master of Regional & City Planning (p. 498)
- Geography, Master of Arts (p. 504)

DIVISION OF ENROLLMENT MANAGEMENT

Administrative Staff

Jeff Blahnik, Senior Associate Vice President, Division of Enrollment Management;

and Executive Director, Admissions & Recruitment

Bradley T. Burnett, Associate Vice President, Division of Enrollment Management;

and Director, Financial Aid Services

Kellie Dyer, Interim Registrar

Courtney Henderson, Director, Student Financial Center

Chris Kennedy, Director, Strategic Technology

Megan McConnell, Director, Scholarship Office

Allison Stanford, Director, Training & Development

Located mainly in Buchanan Hall and Jacobson Hall, the Division of Enrollment Management is the gateway to the University of Oklahoma. Working together to serve students throughout the education experience at OU, the following administrative areas and offices combine to form the Division of Enrollment Management: Office of Admissions & Recruitment, Office of the Registrar, Financial Aid Services, Student Financial Center, Scholarship Office, Enrollment Management Communications, MidFirst Bank MoneyCoach Program, and Veteran Student Services.

- Office of Admissions & Recruitment (p. 46)
- Office of the Registrar (p. 53)
- Financial Aid Services (p. 65)
- Student Financial Center (p. 66)
- Veteran Student Services (p. 67)

Office of Admissions & Recruitment

Jeff Blahnik

Senior Associate Vice President for Enrollment Management

Executive Director of Admissions & Recruitment

Associate Provost for Strategic Enrollment Planning, Office of the Sr. Vice President and Provost

Undergraduate Admission

The admissions process at the University of Oklahoma seeks to identify applicants who will successfully complete a collegiate academic program and contribute to the diverse intellectual, cultural and social environment of the University. The University of Oklahoma welcomes inquiries regarding admission requirements and application procedures. The Office of Admissions & Recruitment assists prospective undergraduate students – both freshmen and transfer – with the admission process by providing information on admission requirements, financial aid, scholarship opportunities, housing and student life. This office also serves as a visitor information center and provides tours of the campus to prospective students, their families and other University guests.

Application Deadlines

Freshman Application Deadlines

Undergraduate, U.S. citizens and permanent residents applying for freshman admission should submit applications as early as possible, but applications must be received by the Office of Admissions & Recruitment no later than:

- March 1 - summer session
- February 1 - fall semester
- November 1 - spring semester

See Freshman Admissions for more information.

International Students applying for freshman admission must observe the following deadlines:

- Application deadlines
 - February 1 - summer session
 - February 1 - fall semester
 - November 1 - spring semester
- Credential deadlines
 - March 15 - summer session
 - May 31 - fall semester
 - November 15 - spring semester

See International Undergraduate Admission for more information.

Transfer Application Deadlines

Undergraduate, U.S. citizens and permanent residents applying for transfer admission:

- April 1 - summer session
- April 1 - fall semester
- November 1 - spring semester

See Transfer Admissions for more details.

International students applying for transfer admission:

- Application deadlines
 - February 1 - summer session
 - April 1 - fall semester
 - September 1 - spring semester
- Credential deadlines

- March 1 - summer session
- May 31 - fall semester
- November 1 - spring semester

See International Undergraduate Admission for more information.

Applications for international students are processed by the Office of Admissions. Assistance after admission is provided by International Student Services. International students are considered to be those applicants who require a temporary, non-immigrant United States visa or immigration status. Students who have established permanent resident status in the United States are not considered international students.

Credentials

To be considered for admission, applicants must submit official and complete academic credentials.

Applicants may not disregard any part of their educational history, and failure to report all institutions previously attended will be cause for cancellation of the admissions process or for dismissal. All credentials submitted for admission to the University of Oklahoma become the property of the University and will not be returned or released.

Application Fee

All applicants to the University of Oklahoma must pay a non-refundable application-processing fee.

Resident Status

All applicants are classified as resident or nonresident for purposes of admission and tuition based on information provided on the application for admission. Applicants may be required to submit evidence to substantiate their claim to resident classification.

A uniform policy concerning resident status exists for all state-supported institutions of higher education in Oklahoma. See the OU In-State/Out-of-State Tuition Policy for resident status information.

Questions concerning resident status should be directed to the Office of Admissions and Recruitment, (405) 325-2151.

English Proficiency

All new applicants to the University for whom English is a second language, including those holding permanent resident status, are required to present evidence of proficiency in the English language prior to admission. The intent of this policy is to insure that students for whom English is not a native language have a reasonable chance to succeed academically based on their ability to comprehend and use spoken and written English.

Undergraduate applicants may satisfy the English proficiency requirement in one of several ways which are stated in English Proficiency section on the International Undergraduate Admission web page.

Admission of Freshmen

How to Apply

Apply online through the Common Application, Coalition Application or the OU Application and submit the following credentials:

- Official high school transcript reflecting at least six semesters of work completed, a grade point average computed on an unweighted 4.0 scale, and a rank in class

- Official copies of your ACT and/or SAT scores
- Letter of Recommendation
- An official transcript from any collegiate institution you have attended as a concurrently enrolled student
- Official copies of any AP or CLEP test scores

When to Apply

Prospective students are encouraged to apply as soon as possible after the completion of the junior year in high school in order to maximize opportunities for housing, financial aid, scholarships and early enrollment.

Criteria for Admission of Freshmen

To be considered for admission to the University of Oklahoma, applicants:

- Must have completed fewer than seven semester hours of college-level work after graduating from high school.
- Must have graduated from an accredited or unaccredited high school.
- Applicants who have received a General Education Development (GED) or are home-schooled will also be considered. Your high school class must have graduated by the time you plan to enter OU.

Applicants will be considered for admission using a holistic review and selection process which considers several factors that predict academic success (i.e. high school grade point average, high school course rigor, academic engagement, writing ability, leadership, and ACT/SAT scores). See requirements and other factors for admission decisions for more information.

Admission requirements are subject to change annually by the University of Oklahoma with the approval of the Oklahoma State Regents for Higher Education, when it is determined to be in the best interest of the University and its students to do so. If it becomes necessary to limit enrollment, preference will be given to residents of Oklahoma. For the most current information on admission requirements, contact Admissions & Recruitment, (405) 325-2151 or 1-800-234-6868, or visit the Admissions website.

Minimum High School Performance

Because success in college is enhanced by solid academic preparation in high school, completion of the following courses in high school is required before entering the University.

- **English — four units:** Grammar, composition and literature only.
- **College Preparatory Mathematics — three units of prep math (4 recommended):** algebra I, algebra II, geometry, trigonometry, math analysis, calculus, or Advanced Placement statistics.
- **Laboratory Science — three units (4 recommended):** Does not include general science, with or without a lab. One year of principles of technology may substitute for one of the lab science courses, provided that the student also completes two traditional laboratory science courses.
- **History and Citizenship Skills — three units:** One unit must be American history and two additional units selected from the subjects of history, economics, geography, government or non-western culture.
- **Additional Subjects — two units:** from any of the subjects previously listed or computer science or foreign language. Two years of the same foreign language will satisfy the University's foreign language general education requirement. Any AP course not already used to satisfy the curricular units mentioned previously may be used to

satisfy the two additional units except AP courses in Studio Art or International English

Coursework in music, art, drama or speech is also recommended.

Adult Admission

Applicants who are 21 years of age or older or on active military duty may be considered under the Adult Admission category. Careful attention will be given to an applicant's written comments concerning background and educational goals, personal interviews, as well as letters of recommendation from school counselors, teachers, principals, employers or supervisors attesting to the applicant's motivation and potential for academic success. An applicant's academic record will also be reviewed for completion of the high school curricular requirements. Students admitted under the Adult Admission category must demonstrate proficiency to the satisfaction of the entering institution in the curricular area the student desires to pursue. Prospective students should contact the Office of Admissions & Recruitment at (405) 325-2151 for further information.

Concurrent Enrollment

Concurrent Enrollment at the University of Oklahoma is a program designed to allow high school juniors and seniors with exceptional abilities to enroll in college courses on a limited basis. High school students may thus accumulate college credits prior to completing high school.

To be eligible for the Concurrent Enrollment Program, students must be enrolled in an accredited high school and meet the following requirements:

1. You must have achieved junior or senior standing and be eligible to complete requirements for graduation from high school no later than the spring of your senior year, as attested by your high school principal.
2. You must meet the requirements found on the Concurrent Enrollment website.

Interested students should apply online, and submit a completed Concurrent Enrollment Recommendation form signed by the high school principal, a counselor, and parent, a high school transcript, and ACT or SAT scores.

Once admitted, a student's combined enrollment in high school and at the University of Oklahoma may not exceed 19 credit hours during a fall or spring term. For this purpose, the University will assume that any high school course enrollment is the equivalent of 3 credit hours. Students may enroll in a maximum of 9 credit hours during a summer term without being concurrently enrolled in high school classes during the summer. Students who wish to exceed this credit hour limit may petition the Dean of University College for permission to do so, up to a maximum of 24 semester hours in a regular semester.

The completion of high school curricular requirements is not mandatory for Concurrent Enrollment students for admission purposes. However, students may not enroll in college-level courses in a curricular area until the high school curricular requirement in that discipline has been satisfied through coursework or assessment. Concurrent Enrollment students may not enroll in zero-level courses designed to remove high school curricular deficiencies.

Following high school graduation, Concurrent Enrollment students must apply for regular freshman admission to the University of Oklahoma or

they may transfer to another institution in the state system, provided that they have maintained a grade point average of 2.00 on a 4.00 scale at the University and meet the entrance requirements of the receiving institution, including high school curricular requirements.

Opportunity Admission

Students who have not graduated from high school, regardless of age, whose composite score on the ACT (using Oklahoma norms) or combined verbal and mathematics score on the SAT (using national norms) places them in the 99th percentile of all students tested, may apply for admission to the University of Oklahoma. Admission will be determined based on test scores and an evaluation of the student's level of maturity and ability to function intellectually and socially in the adult college environment.

Admission of Transfer Students

Applicants are considered transfer students if they have attempted more than six semester hours of college-level work at another accredited college or university since graduation from high school. Students who complete college-level work while still in high school are not considered transfer students.

Transfer admission requirements are subject to change by the University of Oklahoma with the approval of the Oklahoma State Regents for Higher Education, when it is determined to be in the best interest of the University and its students to do so. If it becomes necessary to limit enrollment, preference will be given to residents of Oklahoma.

Transfer Admission Criteria

Admission of transfer students is based on the following performance requirements and preparatory coursework in high school.

Curricular Requirements for Admission of Transfer Students¹

- **English—four units:** Grammar, composition and literature only
- **College Preparatory Mathematics—three units:** Algebra I, algebra II, geometry, trigonometry, math analysis, calculus, or AP statistics.
- **Laboratory Science—three units:** Does not include general science with or without a lab. One year of Principles of Technology may substitute for one of the lab science courses, provided that the student also completes two traditional laboratory science courses.
- **History and Citizenship Skills—three units:** One unit must be American history and two additional units can be selected from the subjects of history, economics, geography, government or non-western culture.
- **Additional Subjects—two units:** from any of the subjects previously listed, computer science, or foreign language.

¹If you have not completed the courses listed above in high school, you should do so before transferring to the University. With the exception of U.S. history and U.S. government, completion of remedial or college-level coursework in any of the subject areas in which a deficiency exists will also satisfy this requirement. A remedial mathematics course must be the equivalent of high school Algebra II. Remedial or precollege-level courses cannot be used to fulfill degree requirements.

Performance Requirements for Admission of Transfer Students

Admission requirements for transfer students are subject to change annually by the University of Oklahoma with the approval of the Oklahoma State Regents for Higher Education. For the most current information on performance requirements for transfer admission,

contact the Office of Admissions & Recruitment at (405) 325-2151 or 1-800-234-6868, or visit the Transfer Admission Requirements web page.

Transfer students with fewer than 24 semester hours attempted must meet performance requirements for first-time entering freshmen, as well as specified performance requirements on all transfer work attempted.

Transfer students who do not meet performance and/or curricular requirements are encouraged to contact the Office of Admissions for advice and counseling on alternative admission opportunities.

Application Deadlines

Your application **must be received** by the Office of Admissions & Recruitment by the dates below. However, you are encouraged to apply as early as possible to maximize opportunities for housing and scholarships, financial aid and early enrollment.

- **June 1** for a fall semester
- **April 1** for a summer session
- **November 1** for a spring semester

How to Apply

- To apply online, visit our Transfer Admissions web page.
- Submit an official final high school transcript and official transcripts from **each** college or university attended. **Students are not at liberty to disregard any part of their previous educational history when applying for admission.**
- Submit ACT or SAT scores if you have fewer than 24 semester hours of college work.

When to Apply

Transfer students are encouraged to apply early in the semester prior to the term they wish to enter the University. Early admission allows students to maximize their opportunities for housing, financial aid, scholarships, and early enrollment. Admission decisions can often be made with the current term's grades outstanding.

Transcript Evaluation

Once an applicant has been admitted to the University, the Office of Admissions & Recruitment performs an evaluation of any transfer credit. Students who are admitted with coursework in progress should submit a schedule of courses in progress, and arrange to have a final, official transcript sent to the Office of Admissions & Recruitment after completion of their last term. Once a complete and official transcript is received, the initial evaluation will be updated. Students will consult with an academic advisor at the time of enrollment to determine how their transfer work will apply toward a degree at the University of Oklahoma.

Transfer Equivalencies

To help in a student's educational planning, the Office of Admissions & Recruitment has developed a searchable transfer course database. Courses that have an OU equivalent course number will transfer to the University and often can be applied toward a degree. In some cases, they may substitute for required courses; in others, they may transfer as elective credit. Please refer to the OU degree checksheet for major-specific requirements. How each course will apply toward an OU degree will be determined by the degree-recommending college within the University. Additionally, courses that carry fewer semester hours than their OU counterpart will generally substitute for the indicated OU courses, but students must make up the difference in credit hours before graduation.

Transfer Credit Regulation

The amount of credit granted to applicants for admission as transfer students depends upon the nature and quality of the applicant's previous work, evaluated according to the academic requirements of the University, and the following provisions:

- Transfer credit earned by students at institutions accredited by a regional accrediting agency (such as the North Central Association of Colleges and Schools) or the Oklahoma State Regents for Higher Education will be accepted for transfer at face value. Credits earned at institutions accredited by a national accrediting agency recognized by the U.S. Department of Education will be reviewed on a course-by-course basis and accepted for transfer if the course is determined to be substantially equivalent to a University of Oklahoma course or courses.
- Lower-division courses transferred to the University of Oklahoma will generally be used to meet lower-division degree requirements. In the event that a lower-division transfer course is used as a substitution for an upper-division requirement at the University, a student may be required to complete additional upper-division hours for graduation.
- A minimum of 60 semester hours must be earned in a senior college for a baccalaureate degree.
- Transfer students who enter the University with an Associate of Arts or an Associate of Science from an institution in the Oklahoma State System of Higher Education are considered to have met the lower-division (1000- and 2000-level) course requirements of the University's General Education core curriculum. However, these students are still required to complete any lower-division coursework that is required beyond the University's lower-division General Education course requirements, as well as the upper-division (including General Education) course requirements for a degree.
- The dean's office of each degree-recommending college has ultimate responsibility for determining how transfer credit will apply to a specific degree program. Since graduation requirements vary from college to college, a re-evaluation of transfer credit is required if a student changes degree colleges.
- A transfer applicant under disciplinary probation or suspension will not be considered for admission until the terms of the probation or suspension have been met. **Students must meet appropriate application and credential deadlines for the term for which they are applying for readmission.**
- Grades for courses taken at foreign institutions are used in determining admissibility to the University. However, once a student is admitted, transfer grades are changed to neutral (S or U) grades which do not affect the grade point average. The only exception to this policy is for foreign institutions that hold accreditation through a United States regional accrediting association.

Second Undergraduate Degree Applicants

Students may apply for a second undergraduate degree at the University of Oklahoma, but are encouraged to investigate other options available through the Graduate College and other non-degree classifications before doing so. In addition to specific degree programs, the Graduate College offers teacher certification programs and an unclassified (non-degree) option, which allows students to take graduate and undergraduate courses before selecting a major field of graduate study.

Applicants for a second undergraduate degree must apply to a specific major and are not eligible for a second undergraduate degree in the major of their first degree.

General University policy, as well as specific college and school policies may restrict an applicant from applying for a second undergraduate degree in certain majors. Applicants should contact the Office of Admissions or the appropriate University degree-recommending college for further information on the pursuit of a second undergraduate degree.

Applicants for Readmission

Students must file an application for readmission if it has been more than one semester and a summer term since their last attendance at the University, or if they have completed a degree or were suspended after their last enrollment at OU. **Application deadlines do apply to former students.** Students who only enroll for summer terms (summer to summer students) do not need to reapply unless they graduate or break their continuous enrollment for a summer term. Students who have attended another college or university since last attending the University must file official transcripts from each institution attended. A student's eligibility for readmission will be determined after an evaluation of all transferred and OU work has been made. Academic credit awarded by any division of the University of Oklahoma is considered resident credit, with the exception of credit completed by correspondence or advanced standing examination.

Suspended Students

A student who has been suspended once for academic reasons from the University or any other institution in the state system of higher education may apply for (re)admission to the University for any semester or summer term beyond the semester in which they were suspended. Such (re)admission is not automatic but is decided on an individual basis. The student must submit an application for readmission, a letter of appeal, and all required transcripts to the Admissions Office by **April 1 for a fall semester or summer session, and November 1 for a spring semester.** The letter of appeal should include an explanation of the student's previous academic record, information about the student's activities since suspension, and reasons why an exception to the requirements for admission to the University should be made.

A student who has been suspended twice from the University is not eligible for consideration for readmission until that student has attended another accredited college or university and raised their grade point average to the University's retention standards.

Other Applicants

Undergraduate Visitor/Special Students

Any person who is admissible to the University of Oklahoma and who wishes to take undergraduate courses without the intention of pursuing a degree may do so under the classification of Undergraduate Visitor/Special Student.

Undergraduate Visitor/Special Students must meet regular admission requirements to the University and are limited to nine semester hours of enrollment in this classification, unless an exception to this enrollment maximum is made by the President of the University or his or her designate. University retention standards also apply to this category of student. A person who is admitted as an Undergraduate Visitor/Special Student has no privileges beyond those which are available to all students. An Undergraduate Visitor/Special Student who wishes to enroll in a course with specific prerequisites must meet those prerequisites in the same manner as any other student.

Undergraduate Visitor/Special Students who later elect to enter a degree program will be expected to meet all of the regular requirements for that

particular degree program and are urged to apply for regular (degree-seeking) admission as soon as a decision to pursue a degree has been made.

If an Undergraduate Visitor/Special Student applies for admission to an undergraduate degree program, the work he/she has taken as a Special Student will be evaluated in the same manner as any other work submitted for evaluation. The particular degree-recommending college involved will determine how this work will apply toward the degree sought.

Post-Baccalaureate Non-Degree Students

Post-baccalaureate non-degree are students who hold at least a bachelor's degree and wish to take **undergraduate** courses without pursuing a degree, including students who wish to take undergraduate prerequisite courses for medical, dental, optometry, or veterinary school. Students who wish to take **graduate** level courses without pursuing a degree should apply as an Unclassified Graduate Student. Post-Baccalaureate Non-Degree students are not required to submit academic credentials to be admitted. Post-baccalaureate students may not enroll in any course that is limited to majors only, may not enroll in 5000 or 6000-level courses, and may not receive graduate credit for 3000 or 4000-level courses.

Policy on Non-Academic Criteria in the Admission of Students

In addition to the academic criteria used as the basis for the admission of students, the University shall consider the following non-academic criteria in deciding whether a student shall be granted admission: whether an applicant has been expelled, suspended, or denied admission or readmission by any other educational institution; whether an applicant has been convicted of a felony or lesser crime involving moral turpitude; whether an applicant's conduct would be grounds for expulsion, suspension, dismissal or denial of readmission, had the student been enrolled at the University of Oklahoma. An applicant may be denied admission to the University if the University determines that there is substantial evidence, based on any of the instances described above, to indicate the applicant's unfitness to be a student at the University of Oklahoma.

Graduate Admission

Admission to a graduate program at the University of Oklahoma is based on an evaluation of an applicant's overall record, experience, personal qualifications and proposed area of study. Applicants who apply to for graduate study at OU are applying for admission to the Graduate College and the graduate program in their proposed area of study. Inquiries related to graduate admission should be directed to the Office of Graduate Admissions, University of Oklahoma, 731 Elm Avenue, Room 318, Norman, OK 73019-4075, (405) 325-6765; FAX (405) 325-5345; e-mail: gradadm@ou.edu; website: ou.edu/gradcollege/admissions

Applications cannot be considered until all required materials have been submitted. Applications and supporting credentials are reviewed by the Office of Graduate Admissions, the graduate academic unit to which the applicant is seeking admission, and the Graduate College. The final decision on admission to the Graduate College is made by the graduate dean. To be eligible for enrollment, the student must have been admitted to the University and to the Graduate College before the registration period ends for any given semester.

The Office of Graduate Admissions has charge of all matters pertaining to general admission to the University. Admission and enrollment in the Graduate College is governed by the graduate dean. All admissions to the Graduate College require that the student hold a baccalaureate degree or equivalent from a regionally accredited college or university. Undergraduate applicants in their final semester at regionally accredited colleges and universities may apply for admission to the Graduate College. The Graduate College only accepts coursework and degree from regionally accredited institutions. Regionally accredited schools meet certain academic standards and are non-profit or state-owned. Schools with only a national accreditation are often technical, vocational, career or religious-focused and are usually for profit. International colleges and universities must be recognized by the government-approved authority of education (i.e., Ministry of Education) in the country where the degree was earned.

If admitted, a student must register for courses at the University of Oklahoma for the term of admission to retain active status. The student is subject to the regulations applicable during his/her first term of enrollment so long as continuous enrollment is maintained.

APPLICATION FOR GRADUATE ADMISSION

Prospective graduate students should apply online.

REQUIRED APPLICATION MATERIALS

1. Transcript from last degree-conferring college or university¹
2. It is recommended that you submit transcripts for any graduate coursework completed
3. An application-processing fee must accompany the application of all students who seek admission or readmission to the University

¹If you are admitted, you must submit official transcripts from all degree-granting institutions.

ACADEMIC UNIT REQUIREMENTS

Most graduate academic units or programs require that supplemental application materials, such as letters of recommendation, goal statements, etc., be submitted along with the application for admission. Students should consult with the graduate academic unit to which they are seeking admission to verify admission requirements and credentials needed. Although the Graduate College does not require the Graduate Record Examination (GRE) or any other standardized tests, many academic units do require the GRE or other standardized tests.

DEADLINES

For graduate applicants within the United States, there are no formal admissions application deadlines.

International graduate applicants outside the United States are subject to application deadlines:

- Fall Semester – April 1
- Spring Semester – September 1
- Summer Session – February 1

Most graduate academic units do have application deadlines, which are earlier than the dates listed. All applicants are strongly encouraged to contact the academic units to which they are seeking admission for the information regarding application deadlines.

Application deadlines can change between publications of this catalog. For the most current information on deadlines, go to Graduate Programs & Deadlines.

GRADUATE ASSISTANTSHIPS

Many graduate academic units offer graduate assistantship opportunities. A graduate assistant is a student who serves in a support role while pursuing graduate study. Graduate assistants typically assist faculty with instructional responsibilities as teaching assistants or academic research responsibilities as research assistants. Graduate assistantships are awarded and governed by individual academic units and appointing departments. Prospective students should contact the academic unit to which they are seeking admission to obtain information about, and applications for, graduate assistantships.

ADMISSION OF UNIVERSITY OF OKLAHOMA GRADUATING SENIORS

All seniors graduating from the University of Oklahoma who wish to apply for admission to a graduate program should apply online no later than the final semester of their senior year. Graduate Academic Unit application deadlines apply to graduating seniors. University of Oklahoma graduate seniors are not required to submit transcripts with their graduate applications since these applicants are current students at the University.

If admitted, the graduating senior must inform the Graduate College if they fail to complete any requirements for the baccalaureate degree. These degree requirements must be completed by the term of the student's admission to the Graduate College. If they are not completed in the proper time frame, the graduate admission will be cancelled and the student must reapply to the Graduate College and graduate academic program to which they were previously admitted.

ADMISSION AS A VISITOR

Graduate students who are currently admitted and in good standing in graduate degree programs at other regionally accredited institutions are welcome to take courses at the University of Oklahoma as a Graduate Visitor. In this status, a graduate student has all the rights and privileges of other graduate students except they are not pursuing a graduate degree at the University of Oklahoma. Should a Graduate Visitor decide to pursue a graduate degree here, they would be required to file another application and submit official copies of degree transcripts. To be admitted as a Graduate Visitor, a prospective graduate student must submit the following information to the Office of Admissions:

- A completed application form and application-processing fee (apply online).
- A letter of good standing from the dean of the Graduate College of the student's home institution.

READMISSION TO THE GRADUATE COLLEGE

Graduate students must file an application for readmission if it has been more than one year since their last attendance at the University. Students who only enroll for summer terms (summer to summer students) do not need to reapply unless they graduate or break their continuous enrollment for a summer term.

Students who have attended another college or university since last attending the University must submit official transcripts from each institution attended to the University of Oklahoma's Office of Admissions. A student's eligibility for readmission will be determined after an

evaluation of all transferred work is made. Readmitted students will be subject to the regulations in effect at the time of readmission.

ENGLISH PROFICIENCY

All new applicants to the Graduate College for whom English is a second language (including those holding permanent resident status) are required to present evidence of proficiency in the English language prior to admission. The intent of this policy is to insure that students for whom English is not a native language have a reasonable chance to succeed academically based on their ability to comprehend and use spoken and written English. Graduate applicants may satisfy the English proficiency requirement in one of several ways which are stated on the English Proficiency Requirements web page.

Consult the OU Graduate College for further information concerning graduate admission, policies and programs.

Credit for Prior Learning Assessment/Extra-Institutional Learning

The University of Oklahoma encourages capable students to seek college credit for knowledge they may have acquired in a variety of ways. Complete information on the ways students may establish credit for extra-institutional learning at the University of Oklahoma is found in Prior Learning Assessment Credits.

A student enrolled in and attending a course may earn credit in that course by prior learning assessment examination up to the end of the second week of class in a regular semester or the first week of a summer session. If a student earns credit in the course by examination, the student may drop the course enrollment with no fee assessment, provided the course is dropped within the specified free drop period for the term. Refunds will not be made for courses dropped after the defined free drop period.

The amount of prior learning assessment credit that may be applied toward a degree is subject to OU graduation requirements and the degree-recommending college in which a student will earn a degree. The dean of the degree-recommending college will determine how this credit applies toward a degree.

The neutral grade of satisfactory (S) will be assigned to all types of prior learning assessment credit authorized by the Oklahoma State Regents for Higher Education.

Should a student fail a prior learning assessment examination, no grade will be recorded. In addition, a student may not receive credit for a repeat of an exam previously failed. Students should consult the OU Admissions or the Center for Independent and Distance Learning to discuss other test options.

The regulations governing prior learning assessment credit mentioned above apply to all of the OU prior learning assessment options available.

Advanced standing examinations are under the general supervision of the University Registrar (and the chairperson of the department in the case of University departmental examinations).

The Academic Regulations Committee is responsible for hearing any appeals in hardship cases of students who do not meet the conditions and regulations governing advanced standing examinations.

Prior Learning Assessment credit may be earned through a variety of test options which include:

- **University of Oklahoma departmental prior learning assessment examinations.**

The University of Oklahoma offers a number of departmental prior learning assessment examinations. Interested students should consult with an academic advisor during enrollment or with the departmental office responsible for offering the course. Some of the more commonly taken examinations are administered by the Center for Independent and Distance Learning (CIDL). For those examinations, students should pick up the application forms at 1600 S. Jenkins, Room 101, Norman, OK 73072-6507, phone (405) 325-1921. Other examinations are administered by the various departments. For information about requirements and times at which examinations are offered, contact the department office. Students may pick up applications for the examinations **not** administered by the CIDL at the Office of Admissions & Recruitment, 1000 Asp Avenue, Room 127, Norman, OK 73019-4076, phone (405) 325-2151.

- **The Advanced Placement Program (APP) offered by the College Entrance Examination Board (CEEB).**

This program allows high school students to take examinations for credit at the college level. High school counselors will assist students with testing arrangements.

- **The College Level Examination Program (CLEP) offered by the College Entrance Examination Board (CEEB).**

The University of Oklahoma is a CLEP testing center. The University awards credit for certain CLEP subject examinations. The University does not award credit for what were formerly the CLEP general examinations. Inquiries about OU's testing center should be addressed to the Center for Independent and Distance Learning, 1600 S. Jenkins, Room 101, Norman, OK 73072-6507, phone (405) 325-1921.

- **Excelsior College Examinations**

The University of Oklahoma awards credit for a few Excelsior College Examinations.

- **International Baccalaureate**

Credit may be awarded to students who have taken higher level courses in the International Baccalaureate Program and who have scored at least a four (on a seven-point scale) on the higher-level course examinations. Such credit is awarded on a course-by-course basis as recommended by the appropriate University of Oklahoma department.

Score reports for any of the prior learning assessment examinations listed above should be submitted to the Office of Admissions & Recruitment, University of Oklahoma, 1000 Asp Avenue, Room 127, Norman, OK 73019-4076.

OTHER TYPES OF PRIOR LEARNING ASSESSMENT CREDIT

Students may establish prior learning assessment credit at the University of Oklahoma by a variety of avenues other than examination.

Military Service Credit

The University awards credit for educational experiences during military service according to the recommendations of the American Council on Education as published in the "Guide to the Evaluation of Military Experiences in the Armed Services." The policies governing the acceptance of credit awarded for military experience toward satisfying degree requirements vary among the degree-recommending colleges of the University. Students should contact their college academic

advisement office for specific information on the applicability of this type of credit toward degree requirements. General questions concerning the evaluation of educational experiences in the armed services should be directed to the Office of Admissions & Recruitment.

The grade of S (satisfactory) is assigned to all credit awarded for military training.

Students who wish to establish credit for educational experiences in the military should submit the following military records to the Office of Admissions for review.

- **Army, Navy, Coast Guard and Marine Corps:** Submit an official Joint Services Transcript. Students may request a Joint Services Transcript be sent electronically to the University.
- **Air Force personnel and veterans:** Request an official transcript from the Community College of the Air Force for work taken as an undergraduate, or from the Air University for work taken as a graduate student. Community College of the Air Force transcripts may be ordered by sending a request in writing to: CCAF/RRR, 130 West Maxwell Blvd, Maxwell AFB AL 36112-6613, (334) 953-2794 (DSN 493-2794). You may also visit au.af.mil/au/ccaf. Air University transcripts may be obtained by writing to the Registrar's Office, 50 South Turner Blvd., Maxwell AFB-Gunter Annex AL 36118-5643.
- **DANTES/USAFI:** Students may also request a transcript from DANTES (Defense Activity for Non-Traditional Education Support) or USAFI (United States Armed Forces Institute—tests taken prior to July 1, 1974). Many tests taken under the auspices of DANTES or USAFI carry American Council on Education credit recommendations recognized by the University. Official DANTES transcripts can be ordered from Thomson Prometric, P.O. Box 6604, Princeton, NJ 08541-6604, (877) 471-9860 (toll free). A transcript of USAFI courses or tests completed prior to July 1, 1974 may be obtained from Thomson Prometric, P.O. Box 6605, Princeton, NJ 08541-6605. Visit getcollegecredit.com to learn more.
- **DANTES tests (DSSTs)** can also be taken by people who are not in the military. These tests are offered through the Center for Independent and Distance Learning, 1600 S. Jenkins, Room 101, Norman, OK 73072. Call (405) 325-1921 for questions.

CREDIT FOR TRAINING PROGRAMS AND OTHER EXTRA-INSTITUTIONAL LEARNING

The University awards credit for educational experiences provided by certain business, industrial and governmental agencies. Credit is awarded on the basis of recommendations made by the American Council on Education in its publication "The National Guide to Educational Credit for Training Programs" and also by the publication "College Credit Recommendations: The Directory of the National Program on Non-collegiate Sponsored Instruction." Students may present certificates of completion or a transcript from the ACE Registry of Credit Recommendations to the Office of Admissions for evaluation. The dean of the college in which a student will earn a degree at the University will determine how this credit applies toward the degree. For further information, students should contact the Office of Admissions & Recruitment, 1000 Asp Avenue, Room 127, Norman, OK 73019-4076, (405) 325-2151.

TRANSFER OF ADVANCED STANDING CREDIT

Prior learning assessment credit posted on transcripts from institutions in the Oklahoma State System of Higher Education will transfer to the

University subject to the same conditions as resident credit from these campuses.

Prior learning assessment credit posted on transcripts from all other institutions will be accepted by the University as long as the credit was earned through one of the advanced standing mechanisms approved by the Oklahoma State Regents for Higher Education. The dean of the college in which a student will earn a degree will determine how this credit applies toward the degree.

ENROLLMENTS AT OTHER INSTITUTIONS

Students must report any college or university work taken at other institutions while they are current students at the University of Oklahoma. Whether this work is taken while registered in classes at the University, during a summer session, or during a semester and/or summer session while students have "stopped out" of the University temporarily, students must submit an official transcript to the Office of Academic Records of all work undertaken. Failure to do so may result in suspension or permanent dismissal from the University.

National Merit Scholars

The University of Oklahoma has made a long-standing commitment to the recruitment and retention of outstanding high school students who have been recognized as Semifinalists/Finalists in the National Merit Scholarship competition. All National Merit Finalists automatically qualify for the Oklahoma Academic Scholars Program administered by the Oklahoma State Regents for Higher Education along with a tuition waiver scholarship and cash stipend from the university. Upon entering the university, these students receive a technology allowance, a one-time travel-study stipend, specialized academic advising, early enrollment privileges and a great deal of personalized attention from the National Merit team. For further information, contact the OU Office of Admissions and Recruitment at (405) 325-2151, via email at natlscholars@ou.edu, or visit the Admissions and Recruitment website.

Office of the Registrar

Kelli Dyer, Interim Registrar
Laurie Tinsley, Assistant Registrar, Academic Records
Kasie Crall, Assistant Registrar, Certifications & Transcript Evaluations
Debbie Blevins, Coordinator of Registration & Student Services
Lisa Cannon, Coordinator of Academic Publications & Curriculum
Jennifer Trimmer, Director of Veteran Student Services

Mission

Collaborating with students, faculty and staff to provide comprehensive enrollment management and academic record services with the utmost integrity, accuracy, while keeping their records confidential and secure.

Values

In the Office of the Registrar, we aim to:

- Be ethical in all that we do
- Remove all unnecessary obstacles to students, faculty & staff
- Provide great customer service
- Be a purposeful teamwork-oriented workplace
- Collaborate with others for continued improvement/innovation

Grades

Students' grades in all courses are filed in the Office of Academic Records and become a part of the official records of the University.

The passing grades used are A, B, C, D, and under certain conditions, P and S. Nonpassing grades are F, U and NP. W, meaning withdrawal, is a neutral grade assigned when the student is passing at the time of withdrawal. A student who withdraws from a course with failing grades will receive the grade of F.

A, the highest grade, is given for work of exceptional quality. **D** is the lowest grade for which credit is given in any undergraduate college and means that, although in the judgment of the instructor credit should be allowed for the course, a degree will not be conferred upon a student whose work is all of that level. In the Graduate College, however, the grade of D is failing, insofar as credit toward a graduate degree is concerned, and cannot be used to satisfy prerequisite requirements and/or requirements for certificates. **F** means failure. No credit hours or grade points are awarded for an F, but the credit hours are calculated into the cumulative grade point average.

S and U, meaning Satisfactory and Unsatisfactory, may be used in grading certain courses identified at the discretion of the degree-recommending college. Courses selected for S-U grading must be of a noncompetitive nature and the entire class must be graded on this basis. The S-U grades are considered neutral in the computation of a student's grade point average. At the undergraduate level, a grade of **S** signifies work of D quality or better (except in the case of credit earned by advanced standing examination, when the grade of S represents work of C quality or better). In the Graduate College, the grade of **S** represents work of B quality or better. **S** must be used to indicate that a thesis or dissertation is satisfactorily completed, and is the only passing grade accepted for special problems, individual research and directed readings courses.

The **S** grade may not be used for lecture/recitation courses except with the expressed approval of the graduate dean. The **U** grade is used to indicate that no credit is to be given for the work undertaken.

P and NP, meaning Pass and No Pass, are used as grades in a course in which a student has enrolled under the pass/no pass option. **P** meaning Pass is used as a passing grade and indicates quality of C work or better.

NP, meaning No Pass, is a nonpassing mark used to indicate no credit for a pass/no-pass option enrollment. The grades of P and NP are considered neutral in the computation of the student's grade point average.

I is a neutral mark and means incomplete. It is not an alternative to a grade of F, and no student may be failing a course at the time an I grade is awarded. To receive an I grade, the student should have satisfactorily completed a substantial portion of the required course work for the semester. The instructor will indicate to the student and to the Office of Academic Records what must be done to complete the course and set a time limit appropriate to the circumstances. However, the time limit allowed may not exceed one calendar year. If by the end of the year no change in grade has been submitted, the grade of I will be changed to the pre-determined permanent grade. If the professor does not turn in an Incomplete Contract, the student's grade will be changed to an F after the allotted one-year time period. After a grade of I has been changed, a student may re-enroll in the course if appropriate or required. The foregoing time limitations concerning removal of an incomplete do not apply to graduate research and graduate problem courses.

Graduate College "I": With the approval of the instructor and Graduate College Dean, a graduate student may be granted up to a one-year extension for making up incomplete work. No petitions for extensions beyond one year will be considered. After the incomplete work is made up, the instructor shall promptly report the new grade to the Office of Academic Records so that it can be posted to the student's transcript. In any case, the new grade must be posted to the student's transcript within one year of the deadline for making up the incomplete work (including any extension, if granted). If the new grade has not been posted within this one-year time period, the student shall have one additional year in which to file an appeal with the Graduate Dean requesting that the proper grade be posted. If no such appeal is received by the Graduate Dean within this second year time period, the grade of "I" shall be changed to the pre-determined permanent grade.

All instructional faculty are required to use the university-wide Incomplete Contract Form (PDF) when assigning a grade of Incomplete. This document protects both faculty and students by documenting circumstances that led to the assignment of an Incomplete grade.

If an incomplete is received, the "I" grade remains on the student's record and the final grade is next to the "I" (example I/B).

X indicates that satisfactory progress is being made and is a neutral grade to be used only for thesis and dissertation research courses numbered 5980 and 6980 and for thesis and dissertation equivalent courses numbered 5880 and 6880.

AU (Audit) Auditing is attending a class without participating in classwork or receiving credit. Enrollment as an auditor is indicated on the student's permanent academic record and is subject to the same posting regulations governing credit enrollment.

AW, meaning Administrative Withdrawal, is a neutral grade used to indicate that a student has been involuntarily withdrawn by the institution. Students may receive an AW for disciplinary reasons, financial reasons or inadequate attendance.

N is a temporary grade used only to indicate that no final grade has been reported at the time of grade processing and is removed from the student's record when the final grade is received. It is neutral in the computation of the student's grade point average.

GRADE POINT SYSTEM

Each hour of A, B, C, D and F carries a grade point value as follows: A=4, B=3, C=2, D=1 and F=0. Grades of P and S, as well as grades of I, X, U, N, NP, AW, and W, carry no grade point value and are not included in the computation of a student's semester or cumulative grade point average.

GRADE REPORTS

All final grades must be submitted online no later than the date specified in the call for grades.

CORRECTING GRADES REPORTED IN ERROR

The instructor initiates the change by filing a Faculty Request for Grade Change form with the department under which the course was taught.

Academic Appeals Boards

In each college of the University, there shall be established an Academic Appeals Board consisting of an equal number of students and faculty. Faculty members of the board will be chosen by the faculty of the college for a term determined by the faculty. Student members of the board will be appointed for a term of one year by the dean of the college upon recommendations from the Student President.

Each Academic Appeals Board will hear cases in which the issue to be resolved is that of prejudiced or capricious evaluation, or alleged inability to speak the English language to the extent necessary to adequately instruct students.

Except for those cases that arise in the College of Law, the following procedures shall apply. (For procedure in the College of Law, contact the Office of the Dean.)

1. A Board will hear a case only after a student has notified an instructor of a dispute over an academic evaluation and after the student has made an unsuccessful attempt to resolve differences with the instructor, if necessary in consultation with the departmental chair. In cases of end-of-term evaluations, a student must notify an instructor of a dispute over an academic evaluation and must attempt to resolve differences no later than February 15 for the previous fall semester or winter intersession; and no later than September 15 in cases of end-of-term evaluations for the previous spring semester, spring intersession, or summer session. In cases of an evaluation made known to a student during the term, the student must notify an instructor of a dispute over academic evaluation and must attempt to resolve differences no later than 15 calendar days (excluding Saturdays, Sundays and University holidays from classes) after the results of the evaluation are made known to the student. If a student fails to notify an instructor or fails to attempt resolution within the appropriate time limit, the Board shall deny any request for a hearing on the claim unless, in the view of the Board, the student has been prevented from complying with the appropriate time limit (as for example, in the case of a student being called into military service).
2. The filing of a written request for a hearing on a claim before the appropriate Academic Appeals Board shall be within 10 calendar days (excluding Saturdays, Sundays, and University holidays from classes) following the day when the attempts at resolution in paragraph (1) above are completed. The Board shall deny any request for a hearing on a claim that does not meet this deadline unless, in the view of the Board, exceptional circumstances exist whereby the student is prevented from filing the claim. Furthermore, if in the judgment of the Board, the case is deemed to be without merit or has already been

satisfactorily resolved in the department, the Board may refuse the student a hearing.

3. To avoid a jurisdictional impasse, the appeal shall be heard by the Appeals Board in the undergraduate college in which both the course and the instructor are located. Any thesis and dissertation appeals shall be heard by the Graduate College Appeals Board.
4. It shall be the primary function of a board to mediate or adjudicate disputes that have not been satisfactorily resolved on the department level.
5. Each Board shall be given the responsibility of establishing its own rules of procedure. Such rules as it establishes must be consistent with the full protection of the rights of all parties involved.
6. Meetings of a board may be closed to the public.
7. Decisions of the Board shall be communicated in writing to the Board's dean, the student's dean, the student, and the instructor. The Board's decisions shall be final and shall be implemented unless either the student or the instructor makes written appeal to the Executive Committee (or comparable body) of the degree-recommending college within 10 calendar days (excluding Saturdays, Sundays, or University holidays from classes) after being notified of the Board's decision. The decision of the Executive Committee (or comparable body) shall be final and shall be implemented unless either the student or the instructor makes written appeal to the faculty of the degree-recommending college within 10 calendar days (excluding Saturdays, Sundays, and University holidays from classes) after being notified of the Committee's decision. In the case of an appeal to the faculty of the degree-recommending college, the faculty's decision shall be final and shall be implemented. The faculty of a degree-recommending college, however, may delegate their authority to consider appeals under this policy to the Executive Committee (or equivalent body) of the degree-recommending college, in which case the decision of the Executive Committee shall be final and shall be implemented without appeal to the faculty.
8. Revisions to this policy shall be reviewed by the Faculty Senate and the Student Code Revision Committee.

Student Academic Records

TRANSCRIPTS

Current OU students can access semester grades and unofficial transcripts through one.ou.edu.

Official Transcripts

Official transcripts are released by the Office of Academic Records upon the written request of the student, except that the University reserves the right to withhold an official transcript for any student with financial indebtedness to the University.

See Order Your OU Transcript for complete information about obtaining OU transcripts.

Release of Student Information and Access to Student Records

Most information concerning a student's academic record is considered confidential and is not released to anyone without the student's written authorization. The federal Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records, one of which is the right to provide written consent before the University discloses personally identifiable information *other than*

"directory information" from the student's education record. See **Release of Student Information** below for a full statement of the OU FERPA policy.

Students can grant access to their OU records in these ways:

- Students can authorize the release of their education record information to a third party on either a one-time or an on-going basis. Authorizations for release of information on an on-going basis will remain valid for one year following the student's last enrollment at the University of Oklahoma or until canceled in writing by the student at any time.
Student Permission to Release Education Record Information Form
Concurrent High School Student Permission to Release Education Record Information Form
- Students can authorize access to their Bursar account through one.ou.edu.
- Students can authorize the Financial Aid Services Office to release information regarding their student financial aid records through that office's OU Financial Aid Services Release Form (PDF).
- Students can consent to the release of documents associated with a record of an admonition or violation of the Academic Integrity Code filed with the Office of Academic Integrity Programs through that office's Request for Release of Information form (PDF).
- Students can provide consent to the disclosure of educational records maintained by the Student Affairs Student Conduct Office through that office's Authorization of Release of Information form (PDF).
- Students can authorize OU Health Services to release their health information records through that office's Release for Medical Records Authorization form (PDF).
- Students can authorize any OU faculty/staff member to include personally identifiable education record information in letters of recommendation through the Open Records Office's Letter of Recommendation Authorization form (PDF). Students provide the faculty/staff member with this form, and the faculty/staff member should keep it on file as documentation that the student authorized the release of their information.
- Student can authorize the Open Records Office to release transcript, student and academic conduct records, campus police, housing, student employment, financial aid, and bursar information through that office's FERPA Release form (PDF).
- Students in University College can provide consent to the disclosure of their academic standing through that College's FERPA Release form.
- Students in Price College of Business can authorize the release of confidential information through that College's Student Release of Student Records form.
- Students living in University Housing can provide consent for Housing to disclose protected student information by completing the release section of the Housing contract.

Parental Access to Student Education Records

Parents of a dependent student may have access to grades and other confidential academic information under guidelines provided in the Family Educational Rights and Privacy Act of 1974. Access to this information is limited to parents who claim the student as an exemption on their federal income tax return.

Parental Access to Student Education Records Form

RELEASE OF STUDENT INFORMATION

The Family Educational Rights and Privacy Act of 1974 (FERPA), also known as the Buckley Amendment, affords students certain rights with respect to their education records. These rights include:

1. **The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.**
A student should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. **The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.**
A student who wishes to ask the University to amend a record should write the University official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. **The right to provide written consent before the University discloses personally identifiable information other than "directory information" from the student's education records, except to the extent that FERPA authorizes disclosure without consent.**
Directory information, which may be disclosed without consent, includes: Student's name, local and permanent addresses, email address, telephone number, college, major, classification, current enrollment status, participation in recognized student activities and sports, dates of attendance, degrees and awards received and dates of receipt, posting of individual student grades and interim class evaluations provided the information is identified by code numbers and does not identify the student, and anticipated date of graduation based on completed hours.

WITHHOLDING DIRECTORY INFORMATION

A student may elect to withhold directory information by filling out the Directory Information Hold Form (PDF) and submitting it to the Office of Academic Records, 1000 Asp Avenue, Buchanan Hall room 230. The hold will: block the student's name, address and email address from the OU website directory; prevent the release of attendance, withdrawal or graduation information, even after the student leaves the university (unless the student submits a written authorization to release it); and prevent the university from releasing contact information. For students who withhold directory information, University officials are prohibited from releasing any form of information without a written release from the student. The University requires this release before it will verify employment, enrollment or the status of students who make applications for employment, auto loans, good student discounts, apartment leases, etc.

Without a directory hold, any member of the public, including individuals, organizations and vendors, may obtain student directory information for purposes such as advertising and solicitation.

A student cannot place a hold on a portion of the information. A student can place a directory hold at any time. However, in order for information to be withheld from the printed directory, if a printed directory is produced, the directory hold must be on file by the end of the second week of the fall semester.

The University discloses education records without a student's prior written consent under the FERPA exceptions: disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement personnel and health staff); officials of schools to which the student seeks to transfer; the Comptroller General of the United States, the HEW Secretary, the administrative head of an educational agency, or State educational authorities; in connection with the student's application for, or receipt of, financial aid; State and local officials or authorities to which such information is specifically required to be reported under the State statute and adopted prior to November 19, 1974; organizations or educational agencies conducting legitimate research, provided no personal identifiable information about the student is made public; accrediting organizations; parents of a dependent student upon proof of dependency (exclusive of international students); in connection with an emergency when such information is necessary to protect the health or safety of the student or other persons, and to comply with a judicial order or lawfully issued subpoena.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.

The name and address of the Office that administers FERPA is:
 Family Policy Compliance Office
 U.S. Department of Education
 400 Maryland Avenue, SW
 Washington, DC 20202-5901

Disciplinary Records	OU-Norman	Office of Student Affairs and/or College Dean	Vice President for Student Affairs and/or College Dean	Standards Of Scholarship			
	OU-Tulsa	Student Services Office, Schusterman Center, 4502 E. 41st St., Tulsa, OK 74135	Graduate Dean, University of Oklahoma Tulsa Office	The following standards relating to retention of undergraduate students at the University of Oklahoma have been established. For continued enrollment in good standing, a student must maintain a retention grade point average based on total hours attempted as indicated as follows:			
	OU-HSC	Registrar's Office, Robert M. Bird Library, 1105 N. Stonewall, Oklahoma City, OK 73104	Assistant Vice Provost for Academic Affairs, Registrar	<ul style="list-style-type: none"> • 0 through 30 semester credit hours attempted — 1.70 • Greater than 30 semester credit hours attempted — 2.00 			
	PACS	Office of Student Affairs and/or College Dean	Registrar-Extended Campus and Outreach	Students with 0 to 30 semester hours attempted and a retention grade point average of 1.70 to 1.99 will be placed on academic notice.			
The retention grade point average is based on all work attempted, both transfer and OU, minus those courses repeated or reprieved in accordance with the academic forgiveness policy, as well as remedial courses, and PE activity courses. These standards are minimal. Each degree-recommending college may establish higher standards for retention.							

ACADEMIC PROBATION AND SUSPENSION

Students not meeting retention standards will be placed on academic probation for one semester, at the end of which they must have met the minimum standard required to continue as a student in good standing. However, a student enrolled on probation may continue on probation provided the student makes a 2.00 grade point average on that semester's work. Students should check with their college dean's office or with the Office of Academic Records for specific enrollment requirements while on academic probation. A student enrolled on probation, who fails to raise their cumulative retention grade point average to minimum requirements or make a 2.00 grade point average on work taken while enrolled on probation, excluding activity courses, will be suspended for poor scholarship.

Credit completed after the end of the term, or credit earned at another institution, will be included in the student's retention/graduation grade point average at the time the work is recorded in Academic Records. The student's current academic status will be reviewed and/or updated at that time but previous postings of academic standing will remain unchanged. A student's academic status will not be changed retroactively.

A student suspended from the University for academic reasons is not eligible for readmission until one full semester has elapsed following the date of suspension. Any student who has been suspended should contact the Admissions Office for further instructions.

Regulations concerning admission, readmission, probation, and suspension of undergraduate students at the University are administered by the Committee on Academic Regulations, of which the Associate Vice President for Enrollment and Student Financial Services is chairperson.

The regulations of various colleges, established by the faculty, are administered by the deans concerned:

1. After the student has been readmitted to the University following suspension, they must meet any specific conditions established by the dean of their college for retention in that college.
2. A student who fails to meet college requirements may be placed on probation in that college or denied enrollment in that college.

Graduation

Although the formal Commencement ceremony is held only at the conclusion of the spring semester, degrees are posted and awarded at the end of each fall and spring semester and summer session. The degree and date of the diploma are entered on the student's permanent academic record. The date of graduation for each term is the last day of examinations in the fall, the date of commencement in the spring and the last day of classes in the summer. All diplomas are mailed to students approximately 10-12 weeks following the official graduation date.

For a student to graduate, all work required for the degree must be completed satisfactorily by the last day of finals of the semester or term. It is the student's responsibility to make sure all degree requirements have been met.

Students should check with the Office of Academic Records or their college office regarding the date all work must be submitted to the Office of Admissions and Records including incomplete grade (I) makeup reports, transfer work, correspondence grades, and any other information required to complete their requirements for graduation.

Should a student complete all academic requirements for graduation and apply for the degree at a time other than the end of a semester or

summer session, the Office of Academic Records, upon request, will issue a certified statement that the student is eligible for the degree as of the date when the requirements for the degree were completed.

A student may elect to be graduated under the requirements for an undergraduate degree in effect at the time of their first enrollment in the state system provided they complete the work for the degree within a maximum time limit, determined by the college, of not less than six nor more than ten years. If the work for a degree covers a period longer than that specified by the college, the college, in consultation with the student, will determine the catalog or bulletin to be in effect for that student's graduation.

A student whose initial enrollment in the state system is during the summer session will be subject to the degree requirements in effect for the academic year following that summer.

Credit in the student's major field or area of concentration which is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the major department, or by the departments in the student's area of concentration. (The term "area of concentration" is included in addition to "major field" to allow for those cases in which the equivalent of a major may be earned by a combination of work in several departments.)

The following general requirements must have been met in order to be eligible for an undergraduate or first professional degree from the University of Oklahoma:

1. Each student must satisfactorily complete the requirements for graduation prescribed by the faculty of the college recommending the degree.
2. All undergraduate students must satisfy the general education requirements that are part of the degree program under which they will graduate, unless they have completed an Associate of Arts or Associate of Science degree at an institution in the Oklahoma State System of Higher Education. Transfer students who enter the University with an Associate of Arts or an Associate of Science degree from an institution in the Oklahoma State System of Higher Education are considered to have met the lower-division (1000- and 2000-level) course requirements of the University's General Education core curriculum. However, these students are still required to complete any lower-division coursework that is required beyond the University's lower-division General Education course requirements, as well as the upper-division (including General Education) course requirements for a degree. Requests for exceptions to this policy must be submitted by the student's college and approved by the general education committee. The college advising coordinator must originate the request with a letter to the general education committee explaining and justifying the request, along with any supporting documentation.
3. A student must take a minimum of 30 semester credit hours at the University of Oklahoma, exclusive of correspondence and extension courses. At least 15 of the final 30 hours applied toward the bachelor's degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed in residence at the University. However, colleges may have higher standards and it is the student's responsibility to be informed concerning the specific requirements for graduation from the degree program in which the student is enrolled. Hours completed in residence means college-level courses taken for academic credit from any division of the University of Oklahoma, including the Norman Campus, the Health Sciences Center, OU-Tulsa, and the College of

Continuing Education, with the exception of correspondence courses. Grades and hours earned at any of these divisions are included in the OU retention/graduation grade point average for purposes of determining completion of degree requirements.

4. Students recommended for the bachelor's degree must achieve a combined retention/graduation grade point average of at least 2.00 in all coursework attempted, including both work undertaken at the University and transfer courses, excluding any courses repeated or reprieved as detailed in the State Regents' Grading Policy and excluding physical education activity courses. However, colleges may require a grade point average higher than 2.00 for graduation, and it is the student's responsibility to be informed concerning the specific requirements for graduation from the degree program in which the student is enrolled.
5. The Oklahoma State Regents for Higher Education require that all students graduating from institutions in the Oklahoma State System of Higher Education, before they are awarded a baccalaureate degree of any type, must have completed at least six semester hours of college credit in American history and government.
6. Responsibility for meeting graduation requirements lies with the student.
7. A student who is a candidate for a degree at the close of any semester or summer session must submit an official Application for Graduation and pay all tuition and fee charges before the degree will be conferred and a diploma issued. For students who have not paid all of the tuition and fees by the end of the term, the degree will not be posted to their academic record and a diploma will not be issued until their tuition and fees are paid. Once these are paid in full, the degree will be posted and the diploma issued and dated with the term in which the student completed degree requirements. Those finishing in the fall should submit a graduation application by September 15; those finishing in the spring, by February 15; and those in the summer, by June 1.
8. Students are encouraged to participate in Commencement and convocation ceremonies and should purchase their official University of Oklahoma caps and gowns from the campus bookstore. The Graduation Office also will coordinate Commencement Countdown in the fall and spring, a one-stop event where students can purchase caps and gowns, graduation announcements, the OU Ring and take senior photos. The University of Oklahoma prints a Commencement program each spring to be distributed at the May Commencement exercises. Student who do not wish to have their names published in the program must mark the appropriate box on the graduation application for their name to be withheld. Visit the Commencement website for more information.
9. A student may receive a second bachelor's degree either from the college from which they received a first degree or from another college in the University. In order to receive a second degree, however, a student must spend at least two semesters in residence and complete at least 30 additional hours in the college. These 30 hours must be in addition to the total number of hours completed by the student for the first degree. Two degrees may be conferred at the same Commencement, provided permission is granted by the faculty recommending each degree, and provided the student submits the additional Application for Graduation.
10. Degrees achieved with honors, pursuant to University and/or State legislation, shall be recognized by diplomas attesting the character of such honors and their relative degree. Students graduating cum laude must be admitted to and satisfy the requirements of the Honors College. Should a student qualify for graduation with both college

distinction and University honors, the student shall be graduated cum laude.

Academic Forgiveness Policy

The Academic Forgiveness Policy, instituted by the Oklahoma State Regents for Higher Education, allows undergraduate students, under certain circumstances, to have courses removed from the calculation of the retention grade point average. It consists of three components: the repeat policy, the reprieve policy, and the renewal policy.

REPEAT POLICY

Undergraduate Students

- University policy prohibits students from repeating a course in which they have earned a grade of A or B unless the course is one in which there is a change of subject matter **and** the course has been designated "repeatable for credit". Courses that are repeatable for credit are identified as such in the course description.
- Undergraduate students may repeat up to four courses or 18 hours (whichever comes first) in which the original grade was a 'D' or an 'F'. Only the second grade will be included in the calculation of the retention/graduation grade point average. The original grade will still appear on the student's permanent record, but will not be calculated into the student's retention/graduation grade point average or total hours earned.
- Students who repeat courses/hours beyond those under the Repeat Policy may do so with both the original grades and repeat grades included in the calculation of the retention/graduation grade point average. Academic credit from any division of the University of Oklahoma—Norman campus, OU Health Sciences Center, OU-Tulsa, or the College of Continuing Education—are included in the OU retention/graduation and cumulative grade point averages for purposes of retention and graduation.

Graduate Students (effective beginning Summer 2019)

- A student may repeat courses and have only the second grade earned, even if it is lower than the first grade, count in the calculation of the GPA, up to a maximum of four courses, but not to exceed 18 hours, in the courses in which the original grade earned was a C, D or F.
- Both attempts will be recorded on the transcript automatically with the earned grade for each listed in the semester earned. The *Explanation of Grades* section of the transcript will note that only the second grade earned is used in the calculation of the GPA.
- If a student repeats an individual course more than once, all grades earned, with the exception of the first, are automatically used in the calculation of the GPA.
- Students repeating courses above the first four courses or 18 credit hours of C, D or F may do so; however, the initial grades **and** repeat grades will be used in the calculation of the GPA.
- A student must be currently enrolled as a degree seeking graduate student at OU in order to receive grade forgiveness for a repeated course under this policy.
- Students enrolled under a **non-degree** classification such as unclassified status, teaching certification status, graduate visitor status, and students who are admitted solely to a graduate certificate program are **not** eligible for grade forgiveness under this policy.
- Courses with variable credit and/or content, even if letter graded, are **not** eligible for grade forgiveness under this policy. This includes,

but is not limited to, seminars, special topics, independent studies, directed readings, and thesis or dissertation research.

- Maximum allowable tuition waiver will **not** be increased to cover repeated courses.
- The repeat policy grade forgiveness does **not** negate the limit of *C, D*, and/or *F* grades permitted for doctoral students. Doctoral students who accumulate nine credit hours of *C, D*, and/or *F* grades in any combination will be disenrolled from the doctoral program (see Disenrollment for Low Grades).
- The repeat policy grade forgiveness does **not** apply to course substitutions approved for courses in which the student previously earned a grade of *C, D* and/or *F*. The substitute course may take the place of the original course on the program of study but the substitute course grade will **not** replace the grade earned in the original course. Both courses will be used in the calculation of the GPA.
- Coursework previously assigned a temporary course number might be eligible to be repeated under this policy; however, if there is any deviation in course number and/or course title, the student and academic unit will need to consult with the Graduate College *before* the course in question is repeated to verify eligibility under this policy.

A student may request only one reprieve or renewal from the University of Oklahoma.

ACADEMIC REPRIEVE POLICY

The Reprieve Policy allows undergraduate students to request that one or two semesters' grades be excluded from the calculation of the combined retention/graduation grade point average. Grades from courses taken during the reprieved term(s) will remain on the student's permanent record, but will only be calculated into the student's cumulative grade point average. A student may request an academic reprieve if the following criteria are met:

- The student must be currently enrolled as an undergraduate on the Norman campus;
- at least three years must have elapsed between the period in which the grades being requested to be reprieved were earned and the reprieve request; and
- prior to requesting the reprieve, the student must have earned at least a 2.00 grade point average with no grade lower than C in all regularly graded coursework (minimum of 12 semester credit hours), excluding activity and performance courses. This coursework may be completed at any accredited higher education institution.

The request may be for one semester/term or two consecutive semesters/terms. If the reprieve is awarded, all grades and hours during the enrollment period are excluded from the retention/graduation grade point average. Coursework with a passing grade included in a reprieved semester may be used to demonstrate competency in the subject matter. However, the coursework may not be used to fulfill credit hour requirements. If the student's request is for two consecutive semesters/terms, the institution may choose to reprieve only one semester.

The student may not receive more than one academic reprieve during his/her academic career. The student will not be eligible to receive a reprieve if a previous reprieve request was denied at the University of Oklahoma.

The request form is available in Academic Records. Students should contact their college concerning the process for requesting a reprieve.

ACADEMIC RENEWAL POLICY

The Academic Renewal Policy allows undergraduate students who have had academic trouble in the past and who have been out of higher education for a number of years to recover without penalty and have a fresh start. Under Academic Renewal, **all** course work taken prior to a date specified by the University of Oklahoma will be excluded from retention/graduation grade point average. **All** courses and grades will remain on the student's transcript and be calculated in the student's cumulative grade point average. *Neither the content nor credit hours of renewed course work may be used to fulfill any degree or graduation requirements.* If a student has received a renewal at another institution in Oklahoma, the student may request a renewal at the University of Oklahoma. Whether accepted or denied, this review will constitute the student's request for renewal at the University of Oklahoma.

If the student has not received a renewal at another institution in Oklahoma, they may request an academic renewal if the following is met:

- The student must be currently enrolled as an undergraduate student on the Norman campus.
- At least five years must have elapsed between the period of time in which the grades being requested to be renewed were earned and the renewal request.
- Prior to requesting the renewal, the student must have earned at least a 2.00 grade point average with no grade lower than a C in all regularly graded course work (minimum 12 semester credit hours), excluding activity and performance courses. This coursework may be completed at any accredited higher education institution.

The request form is available in Academic Records. Students should contact their college concerning the process for requesting an academic renewal.

Registration & Student Services

Kellie Dyer, Interim Registrar
Debbie Blevins, Coordinator of Registration & Student Services
Lisa Cannon, Coordinator of Academic Publications & Curriculum
230 Buchanan Hall
Norman, OK 73019-4076
Phone: (405) 325-3572
FAX: (405) 325-7492
enroll@ou.edu
www.ou.edu/enrollment

Classroom Management

Classroom Management (233 Buchanan Hall) is responsible for the scheduling of general purpose classrooms, event room scheduling, pertinent information for the class schedule (such as allocation guidelines, schedule changes, course grading and course cancellation), forms and class roll information.

Degree Audit Services

Degree Audit Services (233 Buchanan Hall) is responsible for maintaining and updating the Degree Navigator (DN) software. DN is a web-based degree audit system and is intended to be used as a supplement to degree check sheets, the general catalog and academic advising. DN has the ability to allow the students to see degree requirements, course requirements and degree audits in multiple report formats.

Degree Navigator allows students to shop their credits into any of the institution's other major/minor programs.

Registration: Online Enrollment

Registration (230 Buchanan Hall) includes the university's online enrollment process which is done through one.ou.edu. Students should refer to Enrollment website for specific dates, deadlines and procedures that apply to the registration process.

Generally, registration consists of advisement through the college office, enrollment in courses, and payment of tuition and fees. Advisement and enrollment should take place before classes begin; tuition can be paid following enrollment and must be paid by the date given in the University calendar included in the current Class Schedule.

In addition to the normal registration process, students enrolled at either the Norman Campus or the University of Oklahoma Health Sciences Center in Oklahoma City may cross-enroll in courses at the other campus. Students should check with the Registration Office of their home campus for more specific information on the cross-enrollment procedure.

Calendar

The University of Oklahoma offers courses in the fall semester (late August to early January), the spring semester (mid-January to early June), and the summer session (June to August).

Academic Workload

A student desiring to carry an academic overload (number of semester-credit-hours 25 percent or more than the number of weeks in the applicable academic semester or summer term), must have demonstrated readiness to perform on an overload basis, either through superior performance on a college aptitude test, or on the basis of superior academic achievement in high school or college.

An academic overload is defined as a number of semester-credit-hours 25 percent or more than the number of weeks in the applicable academic semester or summer term. A student wishing to enroll in an academic overload must obtain permission from his or her dean. The fall/spring semesters are periods of 16 weeks; consequently, 20 credit hours are considered an overload and the maximum enrollment permitted under any circumstances is 24 hours. Likewise, the summer session is a period of eight weeks; consequently, 10 credit hours are considered an overload and the maximum enrollment permitted under any circumstances is 12 hours.

The maximum student overload in any given semester or term is limited to a number of semester-credit-hours which is 50 percent greater than the total number of weeks in the applicable academic semester term. A student simultaneously enrolled in two or more institutions should not exceed the standards set forth in this policy.

Attendance Policy

Students are responsible for the content of courses in which they are enrolled. Specific policy concerning attendance requirements and announced and unannounced examinations is the responsibility of the individual instructor. Students have a responsibility to inform faculty prior to absences whenever possible. Faculty should make every effort to find a reasonable accommodation for students who miss class as a result of participation in Provost approved or Director of Athletics approved University-sponsored activities or legally required activities such as emergency military service. Students missing class on account of jury

duty must receive such an accommodation. The student is responsible for class attendance after completion of registration. The student must cancel before the first day of classes to avoid being charged fees and tuition. Students who do not attend classes beginning the first day **may** be canceled from a course if there is high demand for seats from students who are waiting to enroll in courses. **However, students should understand that non-attendance and/or non-payment of fees will not automatically result in cancellation of enrollment. The student is responsible for dropping courses by the appropriate deadlines in order to avoid tuition charges.**

Final Examinations

Oklahoma State Regents for Higher Education regulations require that those institutions that reserve the final week of the semester as a testing period shall ensure that all classes meet during the testing period. Final examinations are given at the discretion of the instructor, or, in the case of multiple sections, the department in which the course is offered.

(Exceptions: The College of Arts and Sciences requires that an examination, either a last or final examination, be given during the scheduled final examination period for each regularly scheduled undergraduate course. Independent study and pure laboratory courses are excluded; the College of Engineering and the College of Atmospheric and Geographic Sciences require comprehensive examinations to be given during the regularly scheduled examination periods in all undergraduate courses excluding directed readings, pure laboratory courses and project type design courses and seminars.)

When a final examination is given, the student must take the examination. If a final examination is given, no faculty member is authorized to depart from the published examination schedule for either a class or an individual without approval, as stated in the Faculty Handbook. Early final examinations are prohibited.

Final Examination has been defined as follows: an examination which is comprehensive in nature or which accounts for a greater proportion of the final grade than an examination given during the semester. (President, 2-10-86) A student will not be expected to take more than two final examinations in one day. In cases where a student has three or more exams scheduled for the same day, instructors must offer make-up exams. The student's number of exams will be brought down to two by the following procedure:

1. If a student has three or more exams on the same day, the instructor(s) giving the third and subsequent exams must provide make-up exams during the week designated for final exams for that semester;
2. The student must notify the instructor or department of the third and subsequent final exams scheduled within a single day. Such notification must be given to the specific instructor or department before the end of the twelfth week of classes (sixth week of the summer term).

In the event a conflict should arise from the scheduling of two or more final examinations at the same time, the student will attend the examination for the class that met first during the week, according to the student's class schedule. The instructor(s) giving the second and subsequent exams must provide make-up exams during the week designated for final exams that semester.

Change of Address

A student may change their billing, mailing, parent, and permanent addresses and phone numbers online through one.ou.edu, or by completing the change of address form available at Enrollment Services, 230 Buchanan Hall. In addition, international students must also report to the International Student Services office in Farzaneh Hall room 144.

Change of College and Major

A student wishing to transfer from one degree-recommending college to another within the University should contact the advising office of the college to which the transfer is occurring.

University College students should contact University College for information on transfer to a degree-recommending college.

A student who wishes to change major fields should consult his or her college advising office.

Classification of Students

Freshman — through 29 semester hours earned.

Sophomore — 30–59 semester hours earned.

Junior — 60–89 semester hours earned.

Senior — 90 semester hours earned.

FULL-TIME STUDENTS

To be considered full time, an undergraduate student must be enrolled in at least 6 hours in a summer session and at least 12 hours in a fall or spring semester. For limitations on graduate student enrollment, see the Graduate College website.

Payment

TUITION AND FEES

Tuition and fees may be paid following enrollment. To avoid penalties for late payment, fees should be paid completely prior to the date given in the University calendar. Fees may be paid online through one.ou.edu, in person at the Student Financial Center in Buchanan Hall or by mail. For the most up-to-date information concerning tuition and fees, visit the Bursar Services website.

Refunds

Refunds are calculated from the day classwork begins for each semester or session according to the following schedules established by the Oklahoma State Regents for Higher Education. Schedules for summer session may differ; please consult the Summer Session Schedule for applicable refund dates.

Change(s) of Enrollment

NOTE: The regulations listed below apply to courses that meet the full semester. For summer session, please refer to the Academic Calendar for specific dates for all summer blocks. Courses that do not meet the full term will have different deadlines. Contact Enrollment Services, room 230 Buchanan Hall, enroll@ou.edu for more information.

PERIOD I - FREE ADD AND DROP

Students may add during the first week of classes for Fall or Spring without approval of instructor. Students may add during the second week of classes for the Fall or Spring semester with approval of instructors.

Students may drop without additional charges or grading penalties any time up through the end of the second week of classes in Fall or Spring. No grades will be recorded for dropped courses.

Note on tuition charges for dropped courses: You will be required to pay tuition and fees for any course dropped after the second week of classes in Fall or Spring Semesters, even if you add another course at the same time.

Students can add and drop classes online through one.ou.edu during the first two weeks of fall and spring. Beginning with the third week, students must go to OU Enrollment Services in Buchanan Hall room 230 to add or drop classes. Online add/drop is not available.

PERIOD II - AUTOMATIC GRADE OF W

Undergraduate students: Third through twelfth week of Fall and Spring. Students may add classes only by permission of the instructor of the course and the Dean of the student's College. Courses dropped during this time will be recorded with a grade of W. (All undergraduate colleges require their students to obtain approval of their advisor to drop a course after the second week of classes.)

Graduate students: Third through sixth week of Fall and Spring. Students may add classes only by permission of the instructor of the course and the Graduate College Dean. Courses dropped during this time will be recorded with a grade of "W."

PERIOD III - GRADE OF W OR F

Graduate students: Seventh through tenth week of Fall and Spring. The same restrictions on added courses apply as for Period II, above. For dropped courses, instructors may assign a grade of "W" or "F"

PERIOD IV - PETITION COLLEGE DEAN

Undergraduate Students: Thirteenth week through end of classes in Fall and Spring. Permission of instructor and Dean is required for added classes. Students who wish to drop a course during this period must petition the Dean of the student's College. (Instructor's Signature and Grade of W or F is required.)

Graduate Students: Eleventh week through end of classes in Fall and Spring. Permission of instructor and Dean is required for added classes. Students who wish to drop a course during this period must petition the Dean of the student's College. (Instructor's Signature and Grade of W or F is required.)

UNDERGRADUATE 5-W LIMIT

A student is allowed only five grades of W throughout the course of his/her undergraduate career at The University of Oklahoma. Once a student reaches this maximum number of W grades, they will not be allowed to drop any courses after the free add and drop period. After the five-drop limit has been reached, students with extreme, extenuating circumstances may apply for an exception to the limit on W grades through the Academic Advising Resource Center. Complete withdrawals do not count in this limit.

Complete Withdrawal/Cancellation of Enrollment

Many students become confused by the difference between "canceling" and "withdrawing" and how these affect tuition charges and grades. **Cancellation** is the term OU uses if a student drops all classes before classes begin. Canceling enrollment removes all tuition

charges and all record of enrollment. No grades are recorded. **Complete Withdrawal** occurs if a student drops all classes after classes begin. If complete withdrawal occurs before the tuition obligation deadline, there are no tuition charges. If the student withdraws after the deadline, the student will be charged full tuition rates.¹

¹Federal regulations required the First Time Title IV Attendees (students receiving federally guaranteed financial aid for the first time at OU) will be charged on a different schedule if they withdraw from school after classes begin. Refund schedules for students in this category are available on request.

CANCELLATION OF ENROLLMENT

Undergraduate students may cancel enrollment by contacting Compass Network at compassnetwork@ou.edu or by calling (405) 325-8103, and graduate students may contact the Office of Enrollment Services by emailing enroll@ou.edu or by calling (405) 325-3572. After classes have begun, students must withdraw from enrollment according to the following instructions.

COMPLETE WITHDRAWAL FROM ENROLLMENT

A student who experiences an interruption due to unforeseen or extenuating circumstances and chooses to leave the institution, must officially withdraw from the University of Oklahoma through the Complete Withdrawal Process.

Undergraduate Students

During the first three weeks of classes (Fall/Spring), undergraduate students requesting a Complete Withdrawal from the University should contact the Compass Network at compassnetwork@ou.edu or (405) 325-8103 to be processed through the University's Retention Action Team.

Beginning the fourth week, undergraduate students requesting a Complete Withdrawal must complete an online Petition for Complete Withdrawal which will be sent to the Academic Advising lead of the college in which the student is enrolled for consideration. The College Academic Advising Lead will contact the student directly to discuss the implications and feasibility of withdrawing, as well as any alternative academic options that may exist. Documentation of extreme extenuating circumstances will be required. If possible, students are expected to continue attending classes until such time the Petition for Complete Withdrawal is approved. Once the petition has been approved for a complete withdrawal for the semester, students will receive the grade of "W" for all courses.

Graduate Students

Graduate students withdrawing from the University should contact the Office of Enrollment Services during the first two weeks of classes (Fall/Spring), and the Graduate College Office beginning the third week of classes. Graduate students withdrawing from all courses in the first six weeks of classes (first three weeks of a summer session) receive the grade of W in each course of enrollment. Beginning with the seventh week (fourth week of a summer session) through the last day of classes of the semester or summer term, these students must receive a grade of W or F from the instructor in each course upon withdrawal.

Withdrawn students are refunded fees and tuition according to State Regents' refund policy.

A student will be held responsible for the cost of room and board if either or both are furnished by the University.

Audit

Auditing is attending a class without participating in classwork or receiving credit. Enrollment as an auditor is permitted in all courses, subject to the approval of the instructor in the course. All tuition and fees are assessed for audit enrollments.

Initial enrollment in a course as an auditor may be completed only between the first day of classes and the last day permitted for late enrollment for credit in any semester or term. Students wishing to enroll in a course as an auditor need to get an Audit add/drop form from OU Enrollment Services in Buchanan Hall 230, get instructor's approval and then return the form to Enrollment Services.

A change of enrollment from audit to credit may be made, provided the change is made no later than the end of the second week of classes in a regular semester, and provided the instructor and appropriate dean grant approval. Students wishing to change enrollment from audit to credit need to get an add/drop form from OU Enrollment Services in Buchanan Hall 230, get the appropriate approvals and then return the form to Enrollment Services.

To change enrollment from credit to audit, students need to get an Enrolling for Audit form from the OU Enrollment Services office in Buchanan Hall 230, get appropriate approvals and then return the form to Enrollment Services.

- Undergraduate students: a change of enrollment from credit to audit may be made during the first two weeks of classes in a semester.
- Graduate students: a change of enrollment from credit to audit may be made during the first ten weeks of classes in a semester, provided the student is passing in the course at the time the change is processed and the student has received approval from the instructor. A change of enrollment processed during the first ten weeks of a semester requires a report of progress from the student's instructor.

For summer sessions, students should refer to the Academic Calendar for specific deadlines for all summer blocks.

A change of enrollment to audit supersedes the original enrollment for credit, and no withdrawal from the credit enrollment is posted on the student's academic record.

A grade of W may be assigned to a student who has not performed according to the instructor's requirements for an auditor in that class. Such W's will be applied to the total of five drops allowed in a student's academic career.

Enrollment as an auditor is indicated on the student's permanent academic record with the final mark AU (identified as Audit), subject to the same posting regulations governing credit enrollment.

FEE WAIVERS FOR AUDITING OF COURSES

Institutions of the state system are authorized to waive general enrollment and all other fees for residents of Oklahoma 65 years of age or older for auditing of academic courses, contingent upon space being available.

Pass/No Pass Option

Students may elect to enroll in courses on a pass/no pass basis, but should understand that colleges may not count pass/no pass enrollments when determining whether the student has fulfilled the

requirements for a degree. Specific college limits are listed in the Pass/No Pass section of the Enrollment Policies web page.

Both grades, P and NP, are considered neutral grades in the computation of grade point averages, i.e., credit hours for Pass, though earned, will not be included in grade point averaging, and no credit hours will be earned for No Pass. Preprofessional students who plan to apply for admission to professional schools, such as law or medicine after completion of an undergraduate degree, are advised that courses taken on the pass/no pass option may hinder admission when grade point average is a major consideration. For advice, the student should consult the admissions office of the professional school where they intend to apply.

Before enrolling in courses under the pass/no pass option, students should consult with their advisers or personnel in college offices to be certain of approved enrollment.

Students may change enrollment in a course to or from the pass/no pass option by the add/drop procedure in the first two weeks of a regular semester or the first week of a summer term with the approval of an adviser and the college office when required. This change in enrollment must be completed in person at Registration, 230 Buchanan Hall.

To prevent any discrimination in grading, the student's choice of P/NP grading will not be made known to the instructor in a course. The grade will be automatically assigned at the end of the course on the basis of the grade submitted by the instructor. The minimum performance level required to receive a P grade in a course is a grade of C.

Financial Assistance and Costs

Financial Aid

Financial aid is any financial resource that a student receives to assist in meeting the cost of attending college. These resources include awards such as federal and state grants, loans, student employment, scholarships, etc. Students must apply for financial aid annually and demonstrate eligibility as determined by regulations established by the U.S. Department of Education. Financial Aid Services is responsible for the administration of the federal financial aid programs. Additional sources of funding may include tribal grants, vocational rehabilitation assistance, Reserve Officer Training, and funding from other outside agencies.

Financial Aid Programs

Many financial aid programs are available at The University of Oklahoma. The Free Application for Federal Student Aid (FAFSA) opens annually on October 1. Apply annually for the following federal financial aid programs: Pell Grant, Supplemental Educational Opportunity Grant, Perkins Loan, Stafford Loans (subsidized and unsubsidized), and Federal Work-Study. The Federal PLUS Loan (Parent Loan) and Graduate PLUS loans require a separate loan application in addition to the FAFSA. Additional financial

aid programs (most requiring the FAFSA) include the Oklahoma Promise, Oklahoma Tuition Aid Grant, Sooner Promise, additional need-based scholarships, and several low interest OU Institutional Loan programs. Please visit our Financial Aid Services and OU Scholarships websites for complete information on the financial aid and scholarship programs available at OU. Financial Aid programs are subject to change.

Applying for Financial Aid

Those planning to attend OU and current students are encouraged to apply annually for financial aid. FAFSA and the OU Centralized Academic Scholarship Hub CASH online applications open every October 1. Be sure to visit OU Financial Aid Services website, a wealth of information about financial aid, scholarships, and other financial resources is available. Also listed are deadlines, eligibility requirements, applications, and links to other helpful websites.

Getting Started...

- Apply for financial aid by the OU Financial Aid Services recommended deadlines.
- Apply for a U.S. Department of Education FSA ID (Federal Student Aid ID) online. This FSA ID serves as your electronic signature for the FAFSA (Free Application for Federal Student Aid) and to access certain financial aid information online. Obtain an FSA ID for your parent if parental information is required on the FAFSA.
- Next, complete the FAFSA on the web at fafsa.gov to apply for federal, state, and institutional aid. **Applying for financial aid is FREE!**
- List OU's school code, **003184**, on your FAFSA application. Be sure to include your housing plans on your FAFSA.
- Once your FAFSA is processed, a Student Aid Report will be sent to you and your information will be sent to OU if you listed OU's code on your FAFSA.

Important Note: The FAFSA must be completed annually. Submit the FAFSA as soon as possible after the annual open date, October 1, but before March 1, to be considered for all available aid programs for the following fall/spring semesters. For priority processing, all requested documents must be received in Financial Aid Services by June 1 for the following fall/spring semesters and by November 1 for the spring only semester. Check the Financial Aid Services website for summer financial aid information.

Please contact 1-800-4FEDAID for a paper FAFSA if unable to file the FAFSA on the Web.

What Happens Next...

- the Student Financial Center will notify admitted students via their OU email account if any additional information is needed.
- Instructions about activating your OU email account are included with the admission letter to OU. Financial aid applicants not yet admitted are notified via postal mail.
- The application is reviewed after submitting all requested information (processing times vary).
- The Student Financial Center sends an OU-FAN (Financial Aid Notification) to the students' OU email listing the financial aid awards available.
- Awards may consist of a combination of aid, such as grants, loans, student employment, scholarships, and/or other resources.¹
- The student then decides which aid programs to accept, reduce or decline, and submits the OU-FAN acceptance online.

- Complete information regarding the financial aid programs offered and the disbursement process is included as links on the OU-FAN.

Important Note: *Students who receive academic, talent based, or other awards that also receive federal financial aid may expect their financial aid awards to be revised. This is required by federal regulations.*

Other Resources

Students are encouraged to apply for outside scholarships, grants, fellowships and other types of financial assistance that can help pay for their college or general living expenses. Many opportunities are available that require an application from the student. Be careful about possible scholarship scams. If in doubt about the legitimacy of an organization that offers financial aid, scholarships, or college funding check the Federal Trade Commission Scholarship Scams website at

Ask the Sooners

Finding answers to financial aid and other related questions is easy using the “Ask the Sooners” knowledge-base. Hundreds of answers to your most frequently asked questions regarding financial aid, payment, and billing can be found 24/7. Just type a keyword(s) in the search and view the answers listed! Use the “Ask a Question” tab to send a secure e-mail to the Student Financial Center (SFC). The SFC is located at 1000 Asp Ave. Room 105, Norman, OK 73019-4078. Phone: (405) 325-9000; FAX: (405) 325-7608

Cost of Attending OU

Using federal regulations, the Financial Aid Services office develops standard budgets to determine the estimated costs of attending OU. This “budget” is used to award financial aid. The cost of attending The University of Oklahoma includes tuition, fees, books, housing (including food), transportation, and miscellaneous living expenses. The actual costs will vary depending on a student’s resident status, academic level, course load, housing and food options, personal needs, and spending habits.

For current cost estimate information, see Cost to Attend the University of Oklahoma.

Award amounts are subject to change. Visit OU scholarships and OU Financial Aid for more information.

SCHOLARSHIPS

Students are encouraged to apply for scholarships to help meet the costs of attending The University of Oklahoma. Numerous scholarships are available to OU students based on academic merit, talent, athletics, financial need, etc. Students may conduct a personalized search of most OU scholarships or check out the most recent online version of the comprehensive *Guide to Financial Aid and Scholarships*.

High school seniors apply for all general freshmen scholarships at OU by completing our online scholarship process which is now a section of the admission application. February 1 of the senior year is the deadline to apply for these scholarships by completing the admission/scholarship application. See Future Sooners Scholarships for general freshman scholarships covered by the admission/scholarship application. Some OU academic areas may have further requirements for scholarship selection (e.g., auditions for the School of Music, etc.).

Undergraduate transfer students will also find the transfer scholarship application as part of their admission application process. Annually March 1 is the deadline to apply for transfer scholarships by completing

the admission/scholarship application. Transfer students may also be eligible for departmental scholarships. See Future Sooners Scholarships for general transfer scholarships covered by the admission/scholarship application.

Important note: *Students who receive academic, talent based, or other awards that also receive federal financial aid may expect their financial aid awards to be revised. This is required by federal regulations.*

Student Financial Center

Courtney Henderson, Director of Student Financial Center

One office for assistance with all your student financial questions

Student Financial Center’s focus is to eliminate unnecessary barriers to college access and completion. Our goal is to simplify the financial aid process as much as possible, and to make sure students are always engaged and aware of the next step. Our office allows us to reach students earlier and more efficiently, freeing up time for our Student Service Experts to have important conversations with students about their individual situations and what needs to be done to help them persist and succeed.

Cost of Attending OU

The cost of attending The University of Oklahoma includes tuition, fees, books, housing (including room and board), transportation and miscellaneous living expenses. The actual costs of attending the University will vary depending on a student's resident status, academic level, course load, housing option, personal needs, and spending habits.

For current cost estimate information, see Cost to Attend the University of Oklahoma.

Tuition and Fees (Subject to Change)

For the most up-to-date information concerning tuition and fees, visit the Bursar Services website.

Enrollment Fees and Tuition

All students pay resident tuition for each credit hour in which they are enrolled. The amount of the resident tuition varies with course level. In addition, all students who are not residents of Oklahoma must pay nonresident tuition, the amount of which varies with course level. See Tuition and Fees for details.

Payment of Fees

Tuition and fees may be paid online through One.ou.edu or through the secure drop box in the first floor lobby of Buchanan Hall anytime the building is open. To avoid service charges, tuition and fees should be paid completely prior to the date given in the fee and tuition information included in the current Class Schedule.

Monthly statements will be prepared and e-mailed prior to the payment deadline. Failure to receive a statement will not exempt a student from late penalties. It is the student's responsibility to determine his/her financial obligation and how it is to be met.

eCheck (Electronically through your bank/debit account)

Using your bank account information, set up a payment profile through One.ou.edu, which transfers funds directly from your checking or savings account. If you have a debit card, contact your bank for account and routing numbers. **There is no additional cost for this option.**

Check

Bring your personal check, cashier's check, money order, or scholarship check to the drop box on the first floor of Buchanan Hall during business hours. Or mail it to:
Student Financial Center
1000 Asp Ave, Rm 105
Norman, OK 73019

Credit Card

Credit cards can be processed online through One.ou.edu. **There is a 2.85% convenience fee for this option.** If you have a debit card, use the eCheck option to avoid this fee.

Flywire

Payments through international bank accounts (wire transfers) can be processed through Flywire.

Cash

No cash payments are accepted.

Refund Policy

(The Oklahoma State Regents refund policy with respect to fees and tuition is as follows):

Changes in schedules and complete withdrawals from the institution during the defined add/drop period (first 10 days of classes in fall and spring semesters) will result in full charges for courses added and full credit for courses dropped. No reduction of charges will be made after the add/drop period for the session except as stipulated for recipients of Title IV aid.

Charges for Loss, Damage, or Rentals

Students will be furnished the normal amount of consumable materials and supplies required in a laboratory course without charge other than the general fee. Additional charge will be made, on an individual basis, for breakage of laboratory equipment because of student negligence; for use of consumable materials and supplies in excess of the normal requirements of the course; for rental of band or orchestra instruments for individual use; and for use of laboratory equipment by students not enrolled in courses requiring use of such equipment.

Veteran Student Services

GI BILL® STUDENT RESPONSIBILITIES

Applications for Benefits

VA students can submit applications online. If students don't have access to apply online they can call 1-888-442-4551 and ask that an application be mailed to them.

All VA students must file an application when they first start school before they can receive benefits. Students who have never received VA benefits must file an original application (Veterans or Servicemembers applying for Chapters 30, 32, 33, 1606 and 1607 use VA Form 22-1990; dependents applying for Chapter 35 or Chapter 33 (Fry Scholarship) use VA Form 22-5490; students requesting Transferred Post-9/11 GI Bill (Chapter 33) use VA-Form 22-1990e). Students who have received VA benefits before must file a "Request for Change of Program or Place of Training" (Veterans, Servicemembers and dependents using Transferred Post-9/11 GI Bill (Chapter 33) use VA Form 22-1995 and dependents using Chapter 35 or Chapter 33 (Fry Scholarship) use VA Form 22-5495).

Change of Address and Direct Deposit

Address and direct deposit information must be kept current. Chapter 30, 1606 and 1607 students can use the WAVE system to update address and financial institution information. Links to do so are on the "Main Menu" available after you log onto WAVE.

If a student wants to start (Chapter 30, 33, 35, 1606, and 1607) or change a direct deposit, the student should have his or her account information handy. The following information is needed to set up direct deposit and can be found on checks and bank statements:

- Account number
- 9-digit bank routing number
- Type of account (checking or savings)

If a student has direct deposit the student still needs to keep his or her address current because all other correspondence including award letters are mailed to the student's address. All other students can call 1-877-838-2778 to begin and change direct deposit.

eBenefits

Students are strongly encouraged to register and utilize eBenefits to assist them in the following:

- Obtaining up to date information on their educational entitlement
- Updating their Direct Deposit and personal contact information
- Downloading VA letters and personal documents
- Viewing the current status of their payments (both education and disability)

Students can register for either a Basic or Premium account, but must be enrolled in the Defense Enrollment Eligibility Reporting System (DEERS) to obtain either account type.

Student Verification of Enrollment

Students receiving Chapter 30, 1606, and 1607 must verify their enrollment monthly by Web Automated Verification of Enrollment (WAVE) or by Interactive Voice Response (IVR). The monthly verification of enrollment has not been added for Chapter 33 and Chapter 35, with one exception. Chapter 35 NCD students are mailed a monthly verification form (VA Form 22- 8979).

The preferred verification method is WAVE, which includes features not in IVR. When students are awarded benefits, the award letter they receive describes WAVE and IVR. The earliest students can verify their enrollment is the last calendar day of each month.

WAVE allows students to verify their enrollment on the Internet. WAVE is on the Education Service website.

Students must be currently enrolled in an approved educational program and must have a current benefit award to use WAVE. The WAVE system permits students to perform a multitude of functions. For instance, students may:

- Verify that enrollment has not changed
- Report a change in enrollment
- Change mailing address
- Initiate or change direct deposit information
- View the enrollment period and monthly benefit amount
- View the remaining entitlement
- Sign up for a monthly e-mail reminder

IVR allows students to "phone in" (1-877-823-2378) their monthly verification if there are no changes to the enrollment during the previous month. If there were changes in the enrollment, the student must contact the VA Certifying Official to submit a change in status and the payment may be delayed until the reduction is processed.

SCHOOL RESPONSIBILITIES

School Certifying Official Responsibilities for Reporting

- School Certifying Officials complete annual training administered by Dept of VA and State Accrediting Agency.

- Keep VA informed of the enrollment status of Veterans and other eligible persons. Use basic forms to keep VA informed, such as:
- Enrollment Certification (VA Form 22-1999) to report required enrollment information
- Notice of Change in Student Status (VA Form 22-1999b) to report changes to enrollment information
- Report all enrollments and changes within 30 days
- Report one term at a time
- Monitor the subjects pursued by a student to certify to VA only those subjects that apply to the student's program
- Monitor student's grades to ensure satisfactory progress is being made.
- Report when a student was terminated due to unsatisfactory progress
- Monitor student's conduct and report when student is suspended or dismissed for unsatisfactory conduct

Responsibilities for maintaining records of VA students and making the records available for inspection:

- Retain file of VA papers submitted & records of academic progress, program pursuit, etc.
- Maintain records for at least three years following the student's last date of attendance
- Ensure that records are kept in a safe place and that the privacy of VA students is protected
- Make available all school records to representatives of the SAA and VA.

A school's file for a VA student should contain:

- Copies of all VA paperwork
- The school's transcript, grade reports, drop slips, registration slips (for those courses dropped during drop/add), transcripts from previous schools with evaluations of same, student's school application, records of disciplinary action, program outline (to track proper courses taken), etc.

Additional responsibilities required of a Yellow Ribbon school:

- Certify in accordance with the school's Yellow Ribbon agreement
- Maintain these additional records:
 - Track the number of students enrolled under Yellow Ribbon
 - Track the annual Amount of Tuition and Fees
 - Develop and document a process for the first come-first serve enrollment of students into the Yellow Ribbon Program.

Keep the State Approving Agency (SAA) informed of:

- New programs and changes in current programs
- Changes in academic policies and procedures
- Changes of address, phone numbers, certifying officials
- Any other information required by the SAA.

Keep up-to-date on current VA rules and benefits

- Provide email address to VA Education Liaison Representative
- Read and maintain VA bulletins
- Read and keep in a safe place a copy of the VA Benefits Handbook
- Maintain records of VA students and make all records available for inspection
- Retain a file of VA papers submitted and records of academic progress, program pursuit, etc.

- Maintain records for at least three years following the student's last date of attendance

NOTE: SCOs should submit initial enrollment information within 30 days of the beginning of the term. If possible, VA recommends pre-certifying a student's enrollment before the beginning of the term in order to prevent gaps in benefit payments. SCOs must also report changes in enrollment within 30 days of any change.

OU VETERANS CHOICE ACT RESIDENCY RECLASSIFICATION

OSRHE Policy

Each residency petition is judged on its own merit using the guidelines and regulations established by the Oklahoma State Regents for Higher Education (OSRHE) (PDF) (3.18 In-state/out-of-state Status of Enrolled Students). It is the student's responsibility to provide documentation to support a petition for in-state tuition classification. **Petitions that are not supported by sufficient documentation will be denied.**

Supporting Evidence or Documentation

Actions such as the following may help to support an application for resident tuition status insofar as they apply to the **Basic Definition of Resident Status**: maintaining a permanent home/domicile in Oklahoma for at least 12 months prior to the first day of class attendance at any Oklahoma institution of higher education; Oklahoma automobile registration and driver's license; evidencing in some convincing way intent to remain in Oklahoma indefinitely after graduation (in other than a graduate student capacity); owning property and paying state property taxes, voter registration. **All of these things will be taken into consideration as part of a petition for in-state tuition classification, but are not, in and of themselves, sufficient to establish residency.**

The issue of intent to remain in Oklahoma after completing one's education is important in reclassifying financially independent adult students. Each individual must present his or her own special set of circumstances, along with documentation, to support the contention that he or she intends to remain in Oklahoma after graduation or ceasing to enroll as a student. Verification of full-time employment after graduation is an example of documentable intent to remain; however, verification of future employment should be no more than one calendar year prior to the expected graduation date. This is not the only means to establish this intent. All materials and circumstances presented by the student will be considered, but the evidence must clearly and convincingly show a student's intent to stay in Oklahoma.

Uniformed Services and Other Military Service/Training Active Uniformed Service/Discharged or Released from Active Uniformed Service for whom Oklahoma is the Home of Record The following shall be eligible for in-state status:

- Members of the uniformed services, along with their dependent children and spouse, who provide evidence that they are full-time active duty status of more than thirty (30) days in the uniformed services **stationed in Oklahoma** or temporarily present through military orders. Further, when members of the armed services are transferred out-of-state, the member, their spouse and dependent children shall continue to be classified as in-state as long as they remain continuously enrolled.
- Regardless of the residency of the student, dependent children or spouse of a person who is currently serving as a member of the active uniformed services of the United States on full-time active duty

status of more than thirty (30) days for whom Oklahoma is the home of record.

- Person, or dependent children or spouse of a person, who was discharged or released from a period of not fewer than ninety (90) days of active uniformed service and less than five (5) years before the date of enrollment in the course(s) concerned and for whom Oklahoma is the home of record.
- Former full-time active uniformed services personnel who remain in Oklahoma after their service may retain their in-state status without the 12 month requirement if they establish domicile as defined in this policy.

Active Uniformed Service/Discharged or Released from Active Uniformed Service (Regardless of the Home of Record)

Pursuant to Title 70, O.S., Section 3247 (as amended), the following is compliant with the eligibility criteria prescribed in the **Veterans' Access, Choice, and Accountability Act of 2014**.

A student who files with the University of Oklahoma a **letter of intent (PDF)** to establish residence in the state and who **resides in the state** while enrolled at OU shall be eligible for in-state status if the student:

- Is a person who was discharged or released from a period of not fewer than ninety (90) days of active duty uniformed service, less than five (5) years before the date of enrollment in the course(s) concerned, and is pursuing a course of education with educational assistance under Chapters 30 or 33 of Title 38 of the United States Code while living in Oklahoma;
or
- Is a person who is entitled to assistance under Section 3311(b)(9) or 3319 of Title 38 of the United States Code by virtue of a relationship to a person who was discharged or released from a period of not fewer than ninety (90) days of active duty uniformed services, and enrolls in the course(s) concerned within five (5) years of the date the related person was discharged or released from a period of not fewer than ninety (90) days of active duty uniformed services
or
- Is a person who is the spouse/dependent of an individual currently serving as a member of the active, uniformed services (Army, Navy, Air Force, Marine Corps, Coast Guard, National Oceanic and Atmospheric Administration, and Public Health Service) of the United States on full-time, active duty status of more than thirty (30) days and is using Chapter 30 or 33 GI Bill benefits.
or
- is a recipient of the Marine Gunnery Sergeant John David Fry Scholarship and is using it as a GI Bill benefit.

Pursuant to Section 3676(C) of **Department of Veterans Affairs Expiring Authorities Act of 2018 (effective March 1, 2019)** a student who files with the University of Oklahoma a letter of intent (PDF) to establish residence in the state and who resides in Oklahoma while enrolled at OU shall be eligible for in-state status if the student is a recipient of Chapter 31, Vocational Rehabilitation.

Please contact OU Veteran Student Services for more information.

You may obtain a copy of your DD214 through eBenefits.

Chapter 33 & 31 – Veterans Benefits and Transition Act of 2018

Service charges and holds are placed on student accounts until accounts are brought current. Chapter 33 and Chapter 31 beneficiary students receive holds and service charges pending a payment from the VA. Students using these benefits must present their VA Certificate of Eligibility to Office of Veteran Student Services, complete the request to be certified using the electronic [Veteran Course Confirmation Form](#), provide any additional information needed for the School Certifying Official to properly certify, and self-identify to the Bursar Office when requesting charges and holds be removed prior to VA payments received by the Bursar.

OU MILITARY SERVICE CREDIT

The University awards credit for educational experiences during military service according to the recommendations of the American Council on Education as published in the "Guide to the Evaluation of Military Experiences in the Armed Services." The policies governing the acceptance of credit awarded for military experience toward satisfying degree requirements vary among the degree-recommending colleges of the University. Students should contact their college academic advisement office for specific information on the applicability of this type of credit toward degree requirements. General questions concerning the evaluation of educational experiences in the armed services should be directed to the Office of Admissions.

The grade of S (satisfactory) is assigned to all credit awarded for military training.

Students with educational experiences in the military must submit the following military records to the Office of Admissions & Recruitment for review.

- **Army, Navy, Coast Guard and Marine Corps:** Submit an official Joint Services Transcript. Students may request a Joint Services Transcript be sent electronically to the University.
- **Air Force personnel and veterans:** Request an official transcript from the Community College of the Air Force for work taken as an undergraduate, or from the Air University for work taken as a graduate student. Community College of the Air Force transcripts may be ordered by sending a request in writing to: CCAF/RRR, 130 West Maxwell Blvd, Maxwell AFB AL 36112-6613, (334) 953-2794 (DSN 493-2794). You may also visit au.af.mil/au/ccaf. Air University transcripts may be obtained by writing to the Registrar's Office, 50 South Turner Blvd., Maxwell AFB-Gunter Annex AL 36118-5643.
- **DANTES/USAFI:** Students may also request a transcript from DANTES (Defense Activity for Non-Traditional Education Support) or USAFI (United States Armed Forces Institute—tests taken prior to July 1, 1974). Many tests taken under the auspices of DANTES or USAFI carry American Council on Education credit recommendations recognized by the University. Official DANTES transcripts can be ordered from Thomson Prometric, P.O. Box 6604, Princeton, NJ 08541-6604, (877) 471-9860 (toll free). A transcript of USAFI courses or tests completed prior to July 1, 1974 may be obtained from Thomson Prometric, P.O. Box 6605, Princeton, NJ 08541-6605. Visit getcollegecredit.com to learn more.
- **DANTES tests (DSSTs)** can also be taken by people who are not in the military. These tests are offered through the Center for Independent and Distance Learning, 1600 S. Jenkins, Room 101, Norman, OK 73072. Call (405) 325-1921 for questions.

OU DESCRIPTION OF THE PROBATIONARY PERIOD

OU School Certifying Official will notify VA promptly when a student receiving VA education benefits is placed on academic probation. Certification date will be for the end of the semester. Notifications will be sent using VA's "Ask a Question" via the Internet Inquiry System following the VA's School Certifying Official Handbook instructions on Academic Probation.

OU SUSPENSION

Unsatisfactory Progress (Academic Suspension) must be reported to VA as a termination dated for the end of the semester by the OU School Certifying Officials.

OU COLLEGE OF PROFESSIONAL AND CONTINUING STUDIES

***Military and Homeland Security:** All non-resident students desiring a military or Homeland Security Law Enforcement (HSLE) tuition and fee waiver must submit evidence of military or HSLE affiliation before enrollment. All military and HSLE tuition and fee waivers may only be applied to College of Liberal Studies courses after the official Add/Drop period for each term for eligible students. Please refer to the information and list of students eligible for the Military and Homeland Security Law Enforcement.

The non-resident military and HSLE tuition and fee waiver does not apply to courses offered by any of the other Colleges at the University of Oklahoma.

Military/Homeland Security Tuition & Hourly Mandatory Fees*

Flat-Rate Tuition: Enrollment in Main Campus courses will fall under Flat-Rate Tuition.

All tuition and fees are subject to change without notice.

Military Tuition Rates

All students desiring military rates must submit evidence of military affiliation during the initial enrollment process.

The following students are eligible for military tuition rates:

- Active duty military spouses
- Retired military members and spouses
- Veterans and spouses
- Civilian employees and contractors on military installations

Military Non-Resident Tuition Waiver

The College of Liberal Studies (CLS) offers a military tuition and fee waiver for CLS courses to all **non-resident students** who are affiliated with the military or the Department of Defense (DOD).

Note: The non-resident military tuition and fee waiver can only be applied to CLS courses and does not apply to courses offered by any of the other Colleges at the University of Oklahoma.

Students Called to Active Duty

WHAT YOU NEED TO DO

Early in the Semester

If you are a main campus student, you need to contact either Jennifer Trimmer at 325-4308 or Debbie Blevins at 325-1084. They will need a copy of your orders as soon as possible. You can fax them to 325-7492. They will withdraw you from your classes and notify Bursar Services and Financial Aid Services.

If you are a student in OU Extended Campus, Independent Study or Academic Programs, you need to contact R. William Jacobs II, va@ou.edu. He will need a copy of your orders as soon as possible. You can fax them to 325-7273. They will withdraw you from your classes and notify the Bursar and Financial Aid.

Mid to Late Semester

If time allows, visit with each of your instructors to discuss your options.

The faculty and staff have been instructed by the Provost office to assist you in the disposition of your coursework. This may include early completion of courses, withdrawal or receipt of grades of Incomplete. Whatever your decision, you must then notify Veteran Student Services so that office can counsel you on how it will impact your educational benefits.

When you Know the Semester in which you will Return

We will do everything we can to get you back in classes as seamlessly as possible. You may go online to one.ou.edu at the appropriate time and enroll. If you have any stops, advising or otherwise, you may email Jennifer Trimmer at veterans@ou.edu and she will forward your email to the appropriate person.

OTHER CONSIDERATIONS

If you are living in University Housing, you need to submit a release application and a copy of your orders. You should be released from your contract with no penalty. For more information, contact Kari at 325-2511.

If you have a parking permit, send the permit to Parking and Transportation, 1332 Jenkins Avenue, Norman OK 73019. Parking and Transportation will credit your Bursar account. The Bursar will issue a refund if there are no other outstanding charges to your account. If you have any questions about this, contact Parking and Transportation at 325-3311 or parking@ou.edu.

If you purchased your textbooks at any of the Norman campus area bookstores, the stores will give you a refund as long as you can present a receipt.

If you have checked out materials from the University Libraries, be sure they get returned.

If you need to change your address, go to one.ou.edu.

STUDENT AFFAIRS

Oklahoma Memorial Union
900 Asp Avenue, Suite 265
Norman OK 73019
Voice (405) 325-3161
Fax (405) 325-5248
studentaffairs@ou.edu
studentaffairs.ou.edu

The mission of Student Affairs is to enhance students' academic success by developing student skills, cultivating diverse, campus life experiences and enriching the university community through programs and services.

Student Affairs is responsible for the portion of the collegiate experience that occurs outside the classroom. They provide customized services to meet the needs of students in the areas of career services, leader and volunteer activities, student life activities, student conduct, housing and food, and health services. They also provide student affairs services on our Tulsa, Health Science Center and Arezzo, Italy campuses.

Vice President's Office

David Surrat, Vice President for Student Affairs and Dean of Students / dsurratt@ou.edu
Kristen Partridge, Associate Vice President for Student Affairs and Associate Dean of Students / kpartridge@ou.edu
Brynn Daves, Assistant Vice President for Student Affairs and Assistant Dean of Students / brynn@ou.edu

Crimson Cruisers

Crimson Cruisers bike share program, an initiative of the OU Student Government Association, is a thriving collaboration between OU students, staff, administration and Gotcha Bike.

Parent & Family Programs

Parent and Family Programs partners with students' families to help them thrive at OU, on campus and in life. We strive to welcome, connect, and refer families to the resources they need to ensure their students succeed.

Saferide

SafeRide provides safe and free transportation to OU students within the Norman city limits, no questions asked. Each student receives two free, on-demand taxi SafeRides each weekend of operation.

What to Do

To find out all things happening in and around campus 24/7, check out the What To Do website and weekly emails. Events promoted through What To Do are open to all OU students.

Student Affairs Departments

Arezzo, Italy Student Affairs

Arezzo, a classic Tuscan town nestled conveniently between Rome and Florence, is filled with charm, warm welcomes and unforgettable views. As you walk from the ancient City Center down Corso Italia you begin to understand why Italian filmmaker Roberto Benigni chose Arezzo as his canvas, on which he painted the Oscar winning "La Vita è Bella." Life in Arezzo is beautiful. A magical place, where you can begin to build your Italian dreams, make lifelong friendships, and have experiences so unforgettable, that like a fine Italian wine, the stories get better with time. OU's Arezzo campus offers a range of academic programs for students interesting in studying abroad.

OU in Arezzo

Mailing Address: University of Oklahoma, Via Pietri, 43, 52100 Arezzo
Phone: (338) 941-4915
cduclaux@ou.edu

Career Services

Career Services provides career assistance to all OU students from freshman year through graduate school. An outstanding staff provide programs and resources that assist students in discovering interests and selecting a major field of study, finding an internship or full-time employment, or applying for graduate or professional school. Career Services is the OU student's best resource for job outlook, salary, and employment trend information. A wide range of programs facilitate contact between students and employers, and teach career decision-making and job search skills from one-on-one resume critiques to career fairs. (For on or off campus student jobs, contact OU's Human Resources office at 325-1826.)

Fitness and Recreation

Fitness and Recreation provides recreational sports programs, fitness services and facilities. The Sarkeys Fitness Center, the university's recreation and fitness center, offers a state-of-the-art weight room, climbing wall, cardio room, indoor track, basketball courts, volleyball, badminton, racquetball and squash. Additionally, personal training and a full schedule of non-credit fitness classes are available. Periodically, OU students have the opportunity to sign up for outdoor wilderness recreation events and may check-out backpacking and camping equipment. The department is home to OU's Intramural Sports program which provides competitive sports opportunities for individuals and groups. Registered Sport Clubs also receive advice and assistance from the department. OU's Murray Case Sells Pool offers swim lessons, water aerobics, lap and recreational swim.

Gender+Equality Center

The Gender+Equality Center (GEC) fosters social justice by advocating for the rights of women and LGBTQ students, empowering those without a voice, and challenging inequality. The GEC helps all students reach their full potential and explore new perspectives. It provides a number of programs to ensure student safety, well-being and success while at the university, including sexual assault prevention and response, breast health education, LGBTQ programs and services and wage equity workshops.

Health Sciences Center Student Affairs

Health Sciences Center (HSC) Student Affairs helps develop a community of health care professionals through recruitment, retention, recreational programs and services. The HSC Student Affairs office provides oversight for student organizations and student government, coordinates student development and community-based programs, provides counseling services, manages the David L. Boren Student Union and provides recreational services and programs. The HSC Writing Center assists students in all of the health disciplines with professional and research documents and publications.

Health Services

Health Services (OUHS) is a fully accredited ambulatory health care facility staffed by board-certified physicians, physician assistants and registered nurses. The center offers the convenience of an on-campus location and the commitment to high quality care for students, faculty, staff and their dependents. OUHS also offers a women's center, certified laboratory and radiology services, physical therapy and a pharmacy. The center hosts regular outreach focusing on various health issues and healthy lifestyle choices.

Henderson Scholars

Henderson Scholars Program focuses on the academics, community service and success of a cohort of 120 students. Henderson Scholars uphold the vision and mission set forth by Dr. George Henderson.

Housing and Food Services

Housing and Food Services provides high-quality housing, dining and catering services that enhance the educational experience of OU students.

Housing and Food Services provides a variety of on-campus living options for students, including both residence halls – for both freshmen and upper class students and apartments – for upper class students. The convenience, safety and programming options that are available through on-campus living contribute greatly to the success and quality of life for OU students.

The OU community enjoys the dining options that more than 30 restaurants in 14 locations provide. Convenient, healthy dining options are available throughout campus.

Housing and Food Services continually assesses their service to the University community. In addition to exceeding the expectations of students and faculty, they aim to provide staff with an enriching experience at a great place to work.

Leadership Development and Volunteerism

Leadership Development and Volunteerism prepares students for leadership responsibilities and roles through educational leadership programming and student volunteer opportunities. The office advises The Big Event, OU students' annual day of volunteerism, coordinates campus awards and recognition programs, advises the President's Community Scholars scholarship program and serves as a resource for student organizations. The department also serves as the headquarters for Sooner Parents, an organization for parents of OU students. Sooner Parents provides information and program opportunities and recognizes outstanding student parents through scholarships.

Oklahoma Memorial Union

The Oklahoma Memorial Union is the living room of the university, providing spaces to study and relax. The Union has several lounges, a

dance floor, a game room and a food court that houses seven restaurants, at least one of which provides campus dining 24 hours a day. A variety of shops are available, including a university bookstore, art gallery, Starbucks, post office, copy shop and credit union. The union has a computer lab, network connections in the Clarke-Anderson room and wireless internet throughout most of the building. Student organizations may host organization meetings, dinners, receptions and dances in The Union. The Union Programming Board (UPB) is a dynamic student-run organization dedicated to providing diverse programs in the Oklahoma Memorial Union for the University of Oklahoma community. Oklahoma Memorial Union is open 24 hours a day, seven days a week, 364 days a year.

Student Conduct Office

The Student Conduct Office is responsible for the Norman, Health Sciences Center and Tulsa campuses day-to-day administration of the Student Rights and Responsibilities Code, the university's discipline system and coordinates due process under the OU Academic Misconduct Code. It also coordinates alcohol compliance checks for the university's Greek community, and serves as a resource to the university community for dispute resolution and positive alternatives to hazing and alcohol/drug abuse. Groups interested in alcohol education and risk management programs may contact the director.

Student Life

Student Life is the "hub" of student life at OU. By providing motivation, guidance, encouragement and support to students throughout their collegiate experience, Student Life provides program opportunities and student activities that enhance students' academic pursuits. The department is also a central resource for more than 400 registered student organizations including OU's sororities and fraternities. Student Life is home to Camp Crimson, OU's summer orientation camp for new-to-OU students and Sooner Orientation Weekend, an information and activity-packed event just prior to the start of fall classes. Programs and services specific to African-American, American Indian, Asian and Latino Student Life are also offered through the Student Life office.

Student Media

Student Media is the steward of The Oklahoma Daily, one of the nation's most-honored multimedia student news organizations; *Sooner*, annually hailed as one of the best college yearbooks in the country; and other student-managed publications, websites and mobile apps. Under the counsel of Student Media's professional staff of media veterans, more than 100 students work each semester as reporters, editors, photographers, videographers, designers, marketers and salespeople.

OU-Tulsa Student Affairs

Student Affairs at the OU-Tulsa Schusterman Center is responsible for events, programs and services in a variety of areas impacting the student experience. Student services include campus activities, personal health and wellness, career services, volunteer programs, counseling, the Disability Resource Center, student conduct issues and the health clinic. Additionally, OU-Tulsa Student Affairs advises the student government (OUTSA) and is heavily involved with the registered student organizations.

University Counseling Center

University Counseling Center provides a wide range of counseling services including traditional counseling (individual, couple, group), psychological assessment, psychiatry, consultation and outreach. In addition, the center is home to an APA accredited pre-doctoral

psychology internship program. Hours of operation are 8:00 a.m. to 5:00 p.m. Monday through Friday.

General Information

The primary mission of University College is to assist new students in making a successful transition to the university and building a solid foundation for further academic success. University College includes Advising, the Assessment Center, the Center for Major and Career Exploration, the Center for Student Advancement, Freshman Programs, and the Student Learning Center to serve OU students. It is also the academic home of OU's ROTC. Founded in 1942, University College was one of the first academic units in the United States to focus on meeting the special needs of first year students. Since then, many colleges and universities have patterned their first year experience (FYE) programs on the University College model. University College is the entry point for new undergraduate students who come to the University of Oklahoma directly from high school, as well as many transfer students. It is also the academic home for pre-health majors.

Academic advising is one of the primary functions of University College. Professional academic counselors are available throughout the year to help students decide on majors, select appropriate courses, and become acquainted with university policies and resources. Our goal is to provide students with the support they need to succeed at the University of Oklahoma.

In addition to taking courses required for their major(s) of interest, University College, students will also take courses common to all degree programs at the university. These include two courses in English composition, three hours in American history, and three hours in United States government (political science). Students will also enroll in courses required for general education, courses required for the major, or courses designed to explore various fields of interest. Students may also take courses to supplement their high school background or to help them be successful in college.

Students whose American College Test (ACT) scores indicate high aptitude for college work have many opportunities to tailor their programs to their particular abilities. If they have taken high school courses that are equivalent to college work, they may be encouraged to omit certain freshman courses and move into more advanced courses. If they need college credit for the courses omitted, they may take advanced standing examinations to earn that credit. Students should take such action only after discussion of their individual needs and objectives with an academic counselor. Qualified students are also encouraged to apply to the Honors College.

Programs & Facilities

Support Courses and Programs

Making the Transition to College: Courses for First-Year Students

University College works hard to provide courses that meet our mission of "assisting new students in making a successful transition to the University and in building a solid foundation for further academic success."

- **Gateway to College Learning** helps first-year students thrive at OU by providing active learning environments, close communities, and tools for navigating OU.
- **University College Seminars** give students an opportunity to discover a unique support system while making a successful transition to college learning. Each seminar features exploration of a specific topic with an outstanding instructor and a small class environment.
- **Explore Sooner - Deciding on a Major** explores the majors and minors that OU has to offer, and it helps students find their own interests and strengths.
- **Faculty Mentoring** provides the opportunity for students to build relationships with faculty, increase their network base, and gain valuable life experience.
- **Strategies for Success** assists students who are on academic probation or notice.
- **Transitions for Transfer Students** introduces transfer students to the academic requirements, policies, and resources at the University of Oklahoma.

First-Year Student FACULTY MENTORING PROGRAM

The First-Year Student Faculty Mentoring Program matches entering students and experienced faculty mentors to help create nurturing and personal relationships, thus easing the transition from high school to college. This program provides students opportunities to build connections with faculty and gain valuable life experience. It is a chance

to become acquainted with someone who is personally interested in the student's success, and who can guide a student through the complexities of university life. The minimum expectation of the mentoring program is that the student will meet with the mentor twice during the fall semester, once in a group setting, then individually. To participate, a student will enroll in UNIV 1210. This is a zero-credit course, which costs nothing. A student who participates throughout the semester will receive an "S" (satisfactory).

Strategies for Success

CENTER FOR STUDENT ADVANCEMENT

The Center for Student Advancement (CSA) is committed to providing programs and services that promote the retention and success of students experiencing academic challenges. CSA offers courses entitled Strategies for Success and Transitions and oversees the First-Year Student Faculty Mentoring Program. The Center is open for student walk-ins or appointments. For more information on the Center for Student Advancement, call 405.325.2574 or go to Wagner Hall room 150.

NEW SOONER Orientation PROGRAM

Beginning in mid-May and continuing throughout summer, University College supports incoming students through the New Sooner Orientation Program. This program allows students and their parents to spend a day on campus in small groups, accompanied by student guides who are current OU students. Activities include meeting with academic advisors to discuss majors and select courses, visiting with other campus services and resources, and enrolling in fall classes. Students leave the campus feeling comfortable with OU, with an appropriate schedule, and with a sense of what they can look forward to in the fall.

Entry-Level Assessment

The Assessment Center provides assessment and course placement services for new and transfer students to give them the best possible chance of success in attaining their academic goals.

All new students at the University of Oklahoma will be assessed in three areas: reading, English and mathematics. The American College Test (ACT) or the Scholastic Aptitude Test (SAT) will be used as the preliminary screening instrument. Students scoring at certain levels will be placed in the appropriate course or, depending on their test scores and choice of major, further evaluated with a computerized placement examination and/or a writing sample. These tests are used to provide academic counselors with information on students' current skill levels. If the test results indicate a need for improvement in any of these areas, an academic counselor can help students select courses designed to develop or enhance skills.

Assessment Guidelines

The University of Oklahoma requires an ALEKS Mathematics Placement Assessment and Accuplacer Reading and English Placement Assessments to determine readiness for various courses.

MATH PLACEMENT ASSESSMENT

The University of Oklahoma requires all first-time OU students or transfer students who need to enroll in a math course to take an ALEKS Mathematics Placement Assessment to determine their proper math course placement. The ALEKS Placement Assessment covers material from basic math through pre-calculus and will provide an accurate description of a student's math skills and a recommended course placement. See Math Assessment for more information.

READING PLACEMENT ASSESSMENT

All incoming OU students with an ACT reading sub-score of an 18 or less are required to take a Reading Placement Assessment to determine whether they must take a developmental reading course before moving on to higher reading leveled courses. There are no enrollment restrictions for students with an ACT reading sub-score of 19 or higher. See Reading Assessment for more information.

ENGLISH PLACEMENT ASSESSMENT

All incoming OU students with an ACT English sub-score of an 18 or less are required to take a English Placement Assessment to determine whether they must take a remedial English course before moving on to ENGL 1113. There are no enrollment restrictions for students with an ACT English sub-score of 19 or higher. See English Placement for more information.

University College Action Tutoring

The Student Learning Center, a department of University College, offers free tutoring sessions through **UC Action**. This nationally, CRLA Certified service offers walk-in, small group appointments, online tutoring, and/or faculty directed sessions to help students take action towards their own academic success.

Undergraduate Students

ADMISSION TO A DEGREE-RECOMMENDING COLLEGE

A student may be admitted to one of the degree-recommending colleges on the Norman campus if they have declared a major, completed a year of coursework, and achieved an overall grade point average required for entrance into that college. Admission to the degree-recommending colleges at the OU Health Sciences Center requires a separate application process and is governed by requirements unique to each college or program.

MAJOR EXPLORATION AND ADVISING FOR UNDECIDED STUDENTS

Many students in University College have not yet chosen an academic major, and at least half of the students who have declared a major will change their minds during their first year. University College offers students the unique opportunity to take a semester or more to explore different career options and academic majors. Rather than being forced to make a premature decision, students are encouraged to evaluate options by enrolling in exploratory classes, participating in inventories designed to assess abilities and interests, and interacting with major exploration coaches who are experienced in working with undecided students.

The Strong Interest Inventory and FOCUS2 are web-based systems designed to aid students with the process of making a decision about selecting a major and/or a career and are available to all OU students through University College. These programs allow students to explore careers and the relationship between choosing a career and choosing an academic major. The college's major exploration coaches can meet with students and, using results from career assessments and their familiarity with all OU majors, help students narrow their focus about majors and careers.

PRE-HEALTH PROFESSIONS ADVISING

University College advises students seeking to enter professional health fields such as communication sciences and disorders, dental hygiene, nursing, nutritional sciences, occupational therapy, pharmacy, physical therapy, physician's associate, and the radiologic technologies. The

assistance of an academic counselor is especially important to the pre-health profession student who wants to complete his/her admission requirements while maintaining a competitive grade point average for admission to the University of Oklahoma Health Sciences Center.

University College Enrollment Policies

ALL-UNIVERSITY WRITING REQUIREMENT

All University of Oklahoma students must complete a university writing requirement, consisting of six hours of English Composition and/or Expository Writing (ENGL 1113 and ENGL 1213 or EXPO 1213). Any student who has not fulfilled the requirement is encouraged to enroll in English and/or Expository Writing.

PASS/NO PASS OPTION

Freshman students in University College may not enroll in courses on a P/NP basis. Students in University College who are above freshman standing may enroll in courses on a P/NP basis only if they have a declared major and the approval of that major department.

FORTY-FIVE HOUR RULE

Students who have attempted 45 or more semester hours, based on grades of A, B, C, D, F, I, P, NP, S and U, may enroll or continue to enroll in University College only with a 2.00 or higher grade point average in their last OU enrollment period or with a 2.00 or higher OU retention grade point average.

ACADEMIC PROBATION

University College students on academic probation must be advised by an academic counselor in University College before they may enroll for the next semester.

STUDENT RESPONSIBILITIES

All colleges and universities have requirements that must be met in order to earn a degree. These include coursework in both general education areas and courses in a specific major, as well as compliance with academic standards and policies. Although academic counselors and departmental advisors are available to help students plan their programs of study, the individual student has a three-fold responsibility in this regard:

1. to know his/her academic standing relative to published standards;
2. to understand the published degree requirements; and
3. to know and observe academic deadlines, as established in the University's Academic Calendar.

Opportunities

Awards/Honors/scholarships

PACE Awards

PACE awards represent outstanding accomplishments in four areas, limited to student performance during the fall semester only.

The PACE acronym is interpreted as:

- Participation in recognized campus clubs and activities
- Academic achievement with a minimum of 3.25 in 14 hours
- Community service either on campus or in the metro area
- Excellence in leadership positions on campus including residence life

Freshman students may be nominated by faculty, staff, academic advisors, organization sponsors, student organization presidents, and

housing resident advisors, or students may self-nominate. A committee composed of University College administrators and staff reviews all nominations and then selects up to one percent (1%) of the total number of entering freshmen in any given year as PACE recipients.

Applications are being accepted for this year's PACE Awards. All applications must be completed by February 1st of every year.

McLaughlin Balch Awards

These awards honor several of our top students in University College. Recipients are selected from PACE Award applicants.

Myrna Carney Award

The *Myrna Carney* award is a special *University College* Award, established to honor Dr. Myrna Carney for her 24 years of service as Assistant Dean in University College. Recipients are selected from PACE Award applicants.

Phi Kappa Phi Award

The Honor Society of Phi Kappa Phi is the oldest and largest interdisciplinary honor society in the United States. Since 2006, the OU Chapter of Phi Kappa Phi has recognized outstanding freshmen who have distinguished themselves in their academic achievements at OU. Recipients are selected from PACE Award applicants.

Paul Judice Environment Award

This award is given by Dean Nicole Campbell to honor her father's devotion to sustaining the environment. Recipients are selected from PACE Award applicants.

Sylvia Corwin Education Award

This award seeks to honor the most promising first-year student pursuing a career in Elementary Education. Recipients are selected from PACE Award applicants.

Dan Tankersley "Boot Strap" Award

This award, presented by the Center for Student Advancement, assists and rewards students who have overcome life obstacles and demonstrated academic perseverance to progress toward graduation. Recipients are selected from PACE Award applicants.

Alpha Lambda Delta National Freshman Honor Society

The national freshman honor society, Alpha Lambda Delta, is sponsored by University College Freshman Programs. Students must have completed a minimum of 12 letter-graded semester hours during their first fall term with no less than a 3.5 OU GPA and no grades of I, N, D, F, or U.

Commence Banner Carriers

Each year, the University College staff nominates University College students to be honored as the University College banner carrier at the May Commencement ceremony. University College administration selects one of these nominees as the official banner carriers based on their academic success.

Allison Smith Overby Scholarship

The Alison Smith Overby Scholarship Fund was set up by Eddie Carol Smith & Shirley Jean Smith as a way to honor their daughter. Dr. Eddie Carol Smith is the former Vice President for Research at OU. The scholarship is endowed at a level that will allow a scholarship in the amount of \$1500 for the fall semester.

Miller Family Scholarship

The Miller Family Scholarship was established in 2014 by Todd & Stephanie Miller. The scholarship is endowed at a level that will allow a scholarship in the amount of \$500 for the fall semester.

The scholarship seeks a student that is a military dependent, with a strong work ethic, who is earning his or her own way through college.

Specific Criteria for the award are:

- University College student at the time of nomination
- Proof of status as a military dependent
- 3.0 or higher GPA.
- Indication of financial need.
- Clear sense of purpose and direction and positive attitude.
- Strong work ethic

Milton Brown Scholarship

The Milton V. Brown Scholarship was established in 1986 by the Milton V. Brown Foundation. The scholarship seeks a student with a strong work ethic, who is earning his or her own way through college. Mr. Brown writes: I seek a student who despite obstacles and difficulties has managed to overcome them and qualify for a college education.

The scholarship is endowed at a level that will allow a scholarship in the amount of \$9000. The scholarship will begin the fall semester of the student's second year and continue for a total of 6 semesters at a rate of \$1500 per semester. One student will be selected each spring semester.

Riley L. Pitts Vietnam Memorial Scholarship

The Pitts Scholarship honors the memory of Captain Riley L. Pitts of Oklahoma City. Captain Pitts died on the Vietnam battlefield on October 31, 1967, while serving as Commander of Company C, 2/27th Infantry, 25 Infantry Division. He is the only Oklahoman to receive the Congressional Medal of Honor during the Vietnam War, and was the first black officer to ever receive this award. The Medal of Honor is our country's highest award for heroism in combat. President Lyndon B. Johnson presented the medal to Captain Pitt's widow, Mrs. Eula Pitts, on October 10, 1968. This scholarship was established and financially supported by the Coca-Cola Foundation and many friends and family members of Riley and Eula Pitts. The scholarship is for \$2500.

ACADEMIC AFFAIRS

Academic Advising:

Justin Wollenberg (justinwollenberg@ou.edu): Students with a last name of A-E and U-Z

Ryan Peters (ryanpeters@ou.edu): Students with a last name of F-M and S-T

Bart Hanna (barthanna@ou.edu): Students with a last name of N-R

Multidisciplinary Studies

Multidisciplinary Studies (MDS) is an individualized major program that allows students with a specific field of study interest that is not covered by any available OU major the opportunity to design their own degree program. This process is discussed and overseen by the student's assigned MDS academic advisor and all plans are reviewed through the Provost office. This is a highly selective and rigorous program and there is no guarantee that an application will be approved. A student's major design should include a minimum of synthesizing content from two disciplines (typically the minors from those fields) plus additional supporting courses to the selected field of study.

Graduation Requirements

The MDS major requires a minimum GPA of 2.00. Students within the MDS major program must complete a minimum of 120 total college credit hours with at least 48 hours at the upper division (3000-4000 level). Within these total hours students must also fulfill all stipulated General Education and designed major requirements.

Programs Offered

- Multidisciplinary Studies, Bachelor of Arts (p. 79)
- Multidisciplinary Studies, Bachelor of Science (p. 80)

Multidisciplinary Studies, Bachelor of Arts

Major Requirements

- Some courses required for the major may also fulfill University General Education Requirements.

Every candidate for this degree must select a major theme, which is a set of courses that meets the student's professional and personal goals. These courses must total a minimum of 30 credit hours, with a minimum of 18 hours completed at the upper-division level (3000-4000-level).

Courses should be selected in consultation with an MDS advisor to submit a Proposed Plan of Study and MDS Questionnaire to the Senior Vice Provost. MDS Plan of Study should include at minimum the courses required by two minors or concentrations.

General Education Requirements

Courses graded P/NP will not apply.

Courses for fulfillment of General Education requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/content/gened/courses.html>.

University-Wide General Education (minimum 40 hours)

Total Credit Hours		47

¹Excluding HIST 1483 and HIST 1493.

In addition to the Senior Capstone Experience, one of the courses (minimum 3 credit hours) used to satisfy General Education

Requirements must be at the upper-division level and outside of the student's major.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Bachelor of Arts and Bachelor of Science Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Major Work: A minimum of 30 credit hours, with a minimum of 18 hours completed at the upper-division level (3000-4000 level).

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required in the major field must be satisfactorily completed at OU.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- Credits earned via examination are neither resident nor nonresident credit.

Grade Point Averages: Students must earn a minimum overall 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. The degree with Distinction will be conferred on students who achieve at least a 3.50 retention grade point average in their OU and combined grade point averages. The degree with Special Distinction requires at least a 3.75 retention grade point average in the OU and combined grade point averages.

Multidisciplinary Studies, Bachelor of Science

Major Requirements

- Some courses required for the major may also fulfill University General Education Requirements.

Every candidate for this degree must select a major theme, which is a set of courses that meets the student's professional and personal goals. These courses must total a minimum of 30 credit hours, with a minimum of 18 hours completed at the upper-division level (3000-4000-level).

Courses should be selected in consultation with an MDS advisor to submit a Proposed Plan of Study and MDS Questionnaire to the Senior Vice Provost. MDS Plan of Study should include at minimum the courses required by two minors or concentrations.

General Education Requirements

Courses graded P/NP will not apply.

Courses for fulfillment of General Education requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/content/gened/courses.html>.

- Credits earned via examination are neither resident nor nonresident credit.

Grade Point Averages: Students must earn a minimum overall 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. The degree with Distinction will be conferred on students who achieve at least a 3.50 retention grade point average in their OU and combined grade point averages. The degree with Special Distinction requires at least a 3.75 retention grade point average in the OU and combined grade point averages.

Shane Hampton, Executive Director, Institute for Quality Communities
Angela Person, Director, Research Initiatives and Strategic Planning
Erin Tyler, Academic Counseling Professional II
David Kyncl, Academic Counseling Professional II

General Information

The College of Architecture is a comprehensive, multi-disciplinary unit concerned with the planning, design and construction of the built environment. The college is comprised of the Divisions of Architecture, Construction Science, Interior Design, Landscape Architecture, and Regional and City Planning. A graduate program in Architecture, focusing on Urban Design, is also offered by the OU College of Architecture at OU-Tulsa.

Students in the college develop the capacity for critical analysis of the context and constraints of physical design, formulate planning and design goals, and acquire specialized skills to attain these goals. Individual professional degree programs offered under the divisions within the college have complementary theory and practice components. The curricula are strengthened by deliberate sharing of courses and by the interaction of faculty and students across division boundaries. Students in the programs have the unique opportunity to work with

others preparing to enter related professional fields, as well as exposure to practicing professionals in these fields.

Programs Offered

- Division of Architecture (p. 85)
 - Architecture, Three+ Year Program, Bachelor of Science in Architectural Studies (p. 89)
 - Architecture, Four+ Year Program, Bachelor of Architecture (p. 89)
 - Architectural Studies, Minor (p. 90)
 - Architecture, 3½ + 1½ Program, Bachelor of Science in Architectural Studies/Master of Architecture (p. 91)
 - Architecture via Non-Architecture Bachelor's Degree, Master of Architecture (p. 92)
 - Architecture via Architecture Bachelor's Degree, Master of Architecture (p. 93)
 - Architecture, Master of Science in Architecture (p. 93)
 - Urban Design, Master of Urban Design (p. 94)
 - Data Systems and Digital Design (BIM/GIS/FAB), Graduate Certificate (p. 94)
 - Departmental Elective List (p. 95)
 - Design Entrepreneurship and Real Estate, Graduate Certificate (p. 95)
 - Departmental Elective List (p. 95)
 - Resilient Planning, Design, and Construction, Graduate Certificate (p. 95)
 - Departmental Elective List (p. 96)
 - Architecture Doctoral Programs (p. 96)
- Division of Construction Science (p. 96)
 - Construction Science, Bachelor of Science in Construction Science (p. 97)
 - Construction Science, Minor (p. 98)
 - Construction Management: Special Studies, Master of Science in Construction Management (p. 98)
 - Construction Management: Thesis, Master of Science in Construction Management (p. 99)
- Program in Environmental Design (p. 100)
 - Environmental Design, Bachelor of Science in Environmental Design (p. 101)
- Division of Interior Design (p. 103)
 - Interior Design, Bachelor of Interior Design (p. 105)
 - Interior Design for Non-Architecture Majors, Minor (p. 106)
 - Interior Design for Architecture Majors, Minor (p. 106)
 - Interior Design, Master of Science in Interior Design (p. 106)
 - Interior Design, First Professional, Master of Science in Interior Design (p. 107)
 - Interior Design, Post-Professional, Master of Science in Interior Design (p. 107)
 - Professional Applications of Interior Design (PAID) a Theory Based Program, Graduate Certificate (p. 108)
- Division of Landscape Architecture (p. 108)
 - Landscape Architecture, Master of Landscape Architecture (p. 109)
 - Landscape Architecture via BLA, Master of Landscape Architecture (p. 110)

- Landscape Architectural Studies, Master of Landscape Architecture (p. 110)
- Division of Regional and City Planning (p. 111)
 - Regional and City Planning, Master of Regional and City Planning (p. 112)

Programs & Facilities

Preceptorship Program

The college administers a preceptorship program which permits students of demonstrated ability to complete a limited number of degree requirements as a participant in a professional office.

Summer Program

Selected courses may be offered during the summer session in the College of Architecture. Special summer studies are also offered in international settings.

CREATING_MAKING LAB

Located just a few blocks from campus, the Christopher C. Gibbs College of Architecture's Creating_Making Lab (C_ML) is a 7,000+ sf lab for students, faculty and staff in the college. In addition to the three bays of woodworking area, the lab also has a metal shop, laser cutters, a plastics room, a paint booth, a lecture area and a photo documentation room. Users are required to go through two levels of safety training before they can use all of the lab's many resources.

Undergraduate Study

Admission

Admission to the University of Oklahoma (Norman Campus) and subsequently a degree granting college is based upon the admission requirements that are in effect for the semester that a student initiates enrollment at OU. For information on current admission requirements, contact the Office of Admissions & Recruitment, University of Oklahoma, 1000 Asp Avenue Room 127, Norman, OK 73019-4076 or visit their homepage.

Admission to an undergraduate program within the College of Architecture is based upon the program requirements in effect at the time of a student's initial enrollment in any institution (including OU) in the Oklahoma State System of Higher Education. All first-year students direct from high school are enrolled in University College. All students seeking admission to a program within the College of Architecture must fulfill the following minimum requirements:

1. Completed admission to the University of Oklahoma;
2. At least 24 semester hours of earned college credit;
3. Completion of any curricular deficiencies that may exist in English, Math and/or Science;
4. A declared major in the College of Architecture; and
5. Obtain at least the minimum combined retention grade point average required for graduation from the program the student has declared. All undergraduate programs in the College of Architecture may require additional admission requirements beyond those listed above. Refer to the respective division section in the following pages for additional information regarding additional program admission requirements.

Transfer Students

An undergraduate student transferring from an institution within the Oklahoma State System of Higher Education must fulfill the transfer

admission requirements of the University of Oklahoma Office of Admissions & Recruitment. For more information, visit their website.

A student requesting transfer into a program of the College of Architecture from another institution will be considered for admission on a space- available basis, regardless of prior grade point average. Such an applicant, in addition to satisfying all admission requirements of the University and the college, must be approved by the division director for that particular major.

A student requesting to transfer into a program of the College of Architecture from another institution outside of the Oklahoma State System of Higher Education will follow the most recent curriculum requirements for the major the student declares.

Transfer Credit

The following credit hour regulations are specific to transfer students:

- A maximum of 64 hours of transfer credit from a two-year college will apply to any undergraduate program in the College of Architecture. Two-year college work is accepted only as lower-division credit.
- At least 60 semester hours applied toward completion of a baccalaureate degree must be earned at accredited senior (four-year) institutions.
- Credits earned in physical education courses or in basic ROTC courses cannot be applied toward the graduation requirements of any degree program of the College of Architecture. Advanced ROTC courses may be applied toward degree requirements only with the special permission of the dean.
- All professional courses not taken at the University of Oklahoma are subject to evaluation for equivalency by the appropriate division of the college prior to the approval of these courses as transfer credit.
- Work accepted from other institutions is subject to validation by the satisfactory completion of at least 30 hours of credit in residence.
- Any student enrolling for the first time at the University of Oklahoma in a design or graphics course offered by the College of Architecture must enroll in the first course in the sequence, unless specifically approved for higher placement based on a review by the appropriate division director of previous work completed by the student.
- College credit for work experience is permitted only under the supervised conditions of the Preceptor Program of the college or approved internship/field experience courses.

Admission Limitations

Admission to the various degree programs within the college is considered on a space-available basis only. Enrollment restrictions are most common in professional programs and courses, and are subject to national standards of professional accreditation review.

College Regulations

LAPTOP REQUIREMENT

Students with a major in the College of Architecture will be required to have a laptop computer. Laptop technologies are used to enhance the learning experience, and using a computer will become second nature to all of our students. See Laptop Policy page (PDF) for Recommendations for the specifications needed, as well as other pertinent information.

Probation and Advancement

In accordance with the approved retention policy of the Oklahoma State Regents for Higher Education a student must maintain a combined

retention minimum grade point average of at least 2.00 (C) in order to be in good academic standing at the University of Oklahoma. The student must maintain at least a 2.50 OU retention and combined retention grade point averages required for graduation from any of the undergraduate programs within the College of Architecture in order to be in good academic standing within the College. A student who earns less than 2.50 grade point averages for their program will be notified and required to sign an "Enrollment Contract" each semester their retention grade point average is below the minimum required for graduation. A student on enrollment contract may be denied further enrollment in the college if they fail to fulfill the terms of the enrollment contract during any semester they are on academic notice.

A student who is denied enrollment in the College of Architecture may still be eligible for enrollment in another college within the University of Oklahoma. Students who have been dismissed from the College of Architecture for academic reasons should contact the Center for Student Advancement for advisement regarding continued enrollment at the University of Oklahoma. If a dismissed student from the College of Architecture decides to continue at the University of Oklahoma, further enrollment in College of Architecture courses will be denied.

A student denied enrollment in the College of Architecture may apply for readmission after a lapse of one regular semester (fall or spring). The student must submit a letter stating why they should be readmitted (what caused the poor academic performance and how the problems causing the poor academic performance have been remedied.) Such a request will be reviewed and decided upon by the appropriate division.

If it is the first academic stop, the student's record will be reviewed to determine if it is possible for the student to earn the required grade points in the courses that remain to complete the degree and graduate.

If it is the student's second academic stop, they will automatically be denied readmission.

Attendance

The establishment of a specific policy concerning attendance requirements, as well as announced and unannounced examinations, is the responsibility of the individual instructor. Regular attendance in required studio courses is considered essential to the overall development of the student within the professional and pre-professional curricula.

Studio Regulations

A student may enroll in only one design and one graphics course per semester. Any student who enrolls in a studio course with an incomplete in a prerequisite must remove the incomplete prior to the first day of class of the subsequent semester.

Ownership of Work

All work completed or submitted in fulfillment of any requirements of a course in the College of Architecture is the property of the college, which reserves the right to retain, copyright, use, exhibit, reproduce or publish any work so submitted.

Outside Employment

The demands of outside employment during the academic year, with the exception of an approved preceptorship program or internship, may be inconsistent with the requirements of the professional degree programs. Outside employment is not considered an extenuating circumstance in cases of poor performance, excessive absences or failure to submit

assigned work on schedule. Students who fail to adequately fulfill course and curriculum requirements while maintaining outside employment may be required to carry reduced course loads. A longer period in residence may result from this reduction in course loads.

Enrollment Limitations

Undergraduate students may enroll in a maximum of 19 credit hours per any regular semester (fall or spring), and nine credit hours in summer. Enrollment in more than the maximum credit hours is permitted only with the approval and signature of the student's academic counselor and the dean of the college. Enrollment in more than the maximum credit hours for any given enrollment period cannot exceed the Oklahoma State Regents' absolute maximum for any given enrollment period.

All students enrolled in courses offered by the college are subject to the applicable rules of the college, including those governing performance reviews and enrollment limitations. Students admitted to the professional program in architecture may enroll in any architecture course for which they are eligible. Students who have been accepted as majors in another division of the College of Architecture will be admitted to those architecture courses which are specifically required for their degree programs.

Student Advisement

Students in the College of Architecture are advised by one of the college's full-time academic counselors. Students schedule advising appointment through iAdvise.ou.edu or call the Academic Advising Services at 325-2444 for details.

Due to the complexity of the program sequences, it is necessary that all undergraduate students meet with an academic counselor during the pre-enrollment periods. Academic counselors are available to answer questions about the various undergraduate programs. The College of Architecture requires semester-by-semester advising. Students are not permitted to self-advise.

Graduation Requirements

Approval for graduation with a degree from the College of Architecture requires completion of all degree requirements listed on the curriculum requirements checklist for the program the student was admitted as well as the graduation requirements set forth by the Oklahoma State Regents for Higher Education, and the University of Oklahoma. Copies of current or past check sheets can be obtained from the College's Academic Advising Services Office.

In addition to the minimum graduation requirements set forth by the Oklahoma State Regents for Higher Education and the University of Oklahoma, the College of Architecture requires the following:

1. A student must obtain the minimum OU retention, combined retention and curriculum grade point averages specified on the requirements check sheet for his or her degree program. **Note:** Specific grade point averages required for graduation from programs within the college supersede the minimums set forth by the Oklahoma State Regents for Higher Education and the University of Oklahoma.
2. A student must complete at least the minimum upper division (3000 level or above) and total hours listed on his or her program requirements checklist. Total credit hours applied toward graduation must be verified by one of the professional academic counselors in the Academic Advising Services Office. Students are encouraged to meet with one of the college's academic counselors for a degree check at least one semester before the intended

semester of graduation. The following are additional College of Architecture regulations regarding total hours applied toward graduation:

- a. credit hours earned in physical education courses or in basic ROTC courses cannot be applied toward the graduation requirements of any degree program of the College of Architecture. Advanced ROTC courses may be applied toward degree requirements only with the special permission of the dean;
- b. a maximum of 64 hours will transfer for credit from a two-year college;
- c. at least 60 semester hours toward graduation must be earned at accredited senior (four-year) institutions;
- d. no hours for remedial or pre-college level course work may apply toward graduation;
- e. transfer coursework specifically denied by the division for application toward the curriculum will not count toward graduation;
- f. courses taken under the student elected Pass/No Pass grading option will not be allowed to count toward fulfillment of any university general education or college curriculum requirements.

Additional information about specific program requirements are described under the respective division sections in this chapter.

Responsibility for meeting graduation requirements lies with the student.

Graduate Study

Refer to the Graduate tabs within the Gibbs College of Architecture's division (p. 508) pages of this catalog for information concerning graduate programs.

- Division of Architecture (p. 85)
- Division of Construction Science (p. 96)
- Program in Environmental Design (p. 100)
- Division of Interior Design (p. 103)
- Division of Landscape Architecture (p. 108)
- Division of Regional and City Planning (p. 111)

Honors and Awards

Distinction and Special Distinction

Students who complete their undergraduate degree in the College of Architecture may be granted a degree of distinction if they have achieved the required grade point averages. The degree with Distinction will be conferred upon students who achieve at least a 3.50 retention grade point average in their OU and combined grade point averages. The degree with Special Distinction requires at least a 3.75 retention grade point average in the OU and combined grade point averages. The final semester's grades will be included in the grade point averages that determine the Distinction or Special Distinction degree.

Honors Degrees

All of the bachelor's degree programs offered by the College of Architecture are available to qualified students as honors degree programs. Student may graduate with honors (cum Laude, Magna cum Laude, Summa cum Laude) if they successfully complete all requirements of the Honors College in addition to their regular degree program requirements. Please refer to the Honors College section of this catalog for specific information concerning admission and completion of honors degrees.

Recognition of Academic Achievement

The Dean's Honor Roll is compiled at the close of each fall and spring semester. It includes students who have completed at least 12 grade point hours and have earned an average of 3.50 or higher for the semester.

Students enrolled part-time for both the fall and spring semesters of an academic year will be included on the spring semester honor roll, provided that a 3.50 or better is earned for each semester.

SCHOLARSHIPS AND AWARDS

Many scholarships and awards are provided by professional societies, the building industry, and patrons of architecture and the allied arts. The University of Oklahoma has many general financial aid programs which are listed on the Scholarships website

HONOR SOCIETIES AND PROFESSIONAL ORGANIZATIONS

- Construction Students Association – An umbrella organization of construction student chapters of AGC, NAHB, and ABC.
- Interior Design Student Association – An umbrella organization related to interior design professionals of ASID, NDA, IES, and DC.
- The American Institute of Architecture Students – A student chapter affiliated with the national professional organization, open to all majors in architecture.
- Student Association, Organization of Black Designers – A student chapter affiliated with the national professional organization, open to all majors.
- Student Chapter, International Facility Management Association – A student chapter affiliated with the national professional organization, open to all majors.
- Student Chapter, American Indian Council of Architects and Engineers – A student chapter affiliated with the national professional organization, open to all majors.
- Student Chapter, American Planning Association – A student chapter affiliated with the national professional organization.
- Student Chapter, Associated General Contractors of America – A construction science student chapter affiliated with the national professional organization.
- Student Chapter, National Association of Home Builders – A student chapter affiliated with the national professional organization.
- Student Chapter, American Society of Interior Designers – A student chapter affiliated with the national professional organization, open to all majors in interior design and architecture.
- Student Chapter, American Society of Landscape Architects – A student chapter affiliated with the national professional organization, open to all majors in landscape architecture.
- Alpha Rho Chi – A professional fraternity for students in architecture and allied arts.
- Sigma Lambda Chi – A professional honor society for students in construction management.

General Information

The Architecture program at the University of Oklahoma was founded in 1926 as part of the College of Engineering. In 1968 the program became a separate college and the first component of what is now a multi-disciplinary college including programs in Interior Design, Construction Science, Planning, and Landscape Architecture. The Architecture program benefits strongly from this multi-disciplinary context.

The Division of Architecture at the University of Oklahoma is committed to educating students of diverse backgrounds and interests through graduate level studies in architecture. Focused on advancing architecture and society through education, scholarship, and service, the graduate degree programs provide a creative and challenging forum through which students engage environmental and social issues, thereby actively shaping the profession of architecture. Our graduates are known for their exceptional design abilities as well as their critical problem-solving and leadership skills. Established on a core foundation of ethics and sustainability, our graduate programs enable and equip students to deal with complex real world issues that go beyond the realm of design.

Located in Norman, Oklahoma with a branch campus in Tulsa, Oklahoma, the Architecture program at the University of Oklahoma draws from the region's rich cultural legacy. Our graduate degree programs in Architecture offer students opportunities to learn and work in a collaborative and multi-disciplinary environment through coursework, faculty-led research projects, and student-led associations. As the Flagship Research Institution in the State, faculty and students are collectively engaged in the production of new knowledge through research and creative practices.

Degree Program and Architectural Registration

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in Architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

Programs & Facilities

Resources

- Scholarships (PDF)
- Mentoring Program (PDF)
- Studio Policy (PDF)

Undergraduate Study Bachelor of Architecture

The Bachelor of Architecture (p. 89) program is accredited by the National Architectural Accrediting Board (NAAB) and fulfills the educational prerequisites for professional registration required by most state boards. Admission to the program beyond the first year is competitive. At the heart of the Division of Architecture's educational approach is its Creating-Making curriculum, which emphasizes the importance of analytical thinking and visioning balanced with the ability to implement meaningful real-world architectural solutions.

Bachelor of Science in Architectural Studies

The Bachelor of Science in Architectural Studies (p. 89) offers students a strong basis in architectural studies and design principles. This degree path emphasizes the importance of analytical thinking and physical craft balanced with the ability to implement meaningful real-world architectural design solutions. Courses prepare students for various careers and graduate program options.

Bachelor of Science in Architectural Studies/Master of Architecture

The Bachelor of Science in Architectural Studies/Master of Architecture (p. 91) is an accelerated dual degree program.

MINOR

The Architectural Studies Minor (p. 90) is offered to non-majors.

Special Regulations

Degree Program Admission

Class size in studios and other architectural coursework is influenced by national guidelines. Limitations of university resources (e.g. facilities, faculty, operating funds, etc.) also impose restrictions on class sizes. Therefore, an Enrollment Management Program within the Division of Architecture governs admission to the professional undergraduate degree program. For further information, contact the director of the Division of Architecture.

Graduation Requirements

Approval for graduation with the Bachelor of Architecture degree requires completion of all degree requirements with a minimum program grade point average of 2.50 in all coursework used to fulfill degree requirements.

Collaborative Program

Housed within the College of Architecture, the accredited 5-year undergraduate curriculum is designed to encourage collaborative experiences for students. Courses, competitions and other planned experiences prepare students of Architecture, Planning, Landscape Architecture, Interior Design, Construction Science and Architectural Engineering to work together as they may later in professional practice

Placement in Studio Courses

Any student enrolling for the first time at the University of Oklahoma in a design support course offered by the Division of Architecture must enroll in the first course in the sequence, unless specifically approved for higher placement by the Director of Architecture.

Enrollment in Architecture Courses

A student may not enroll in more than one required studio course per semester. Students must have completed "Incompletes" in all prerequisite courses prior to the first day of class in any subsequent Architecture course unless otherwise granted permission by the Director of Architecture.

Portfolio Requirements

Each student enrolled in a professional program in Architecture is required to maintain an up-to-date record of design and graphics work for use in program advisement, the evaluation of overall progress toward the professional degree, and in maintaining an on-going dialogue with professionals in the workplace through employment and mentorship programs.

Advancement in Major Course Sequences

All professional degree programs of the Division of Architecture are organized around a sequence of courses in which the student develops and demonstrates a capability for analyzing problems and synthesizing solutions, using techniques and skills unique to the field of architecture. Advancement in a major course sequence may be denied if a student earns less than a C in the prerequisite course. Further progress in the studio sequence in such cases may be permitted if the course average is raised by retaking the course, or by special permission.

Graduate Study

MASTER OF ARCHITECTURE

The Architecture via Architecture Bachelor's Degree, Master of Architecture (p. 93) program is available to students holding bachelor's degrees in Architecture or Environmental Design. This degree is accredited by the NAAB. The Architecture via Non-Architecture Bachelor's degree, Master of Architecture (p. 92) program is designed for students with bachelor's degrees in fields other than Architecture. This degree is accredited by the National Architectural Accrediting Board (NAAB). The Master of Architecture (M. Arch) at the University of Oklahoma is offered on the Norman campus only. It follows an intensive and structured program of studio design and coursework intended to develop the specialized abilities and expertise demanded of the professional architect. The program is accredited by the National Architectural Accrediting Board (NAAB) and fulfills the educational prerequisite for professional registration required by most state boards.

MASTER OF SCIENCE IN ARCHITECTURE

The Master of Science in Architecture (p. 93) is available to students wishing to pursue a specialized research or creative agenda. Students in the Master of Science in Architecture degree program are offered a combination of courses within the College of Architecture including: graduate level elective seminars; professional practice; architectural history and theory; structures; and sustainable design and technology. Students have the opportunity to study with leading scholars in Architecture, as well as in University-wide fields as diverse as Engineering, Geography, History of Science, and more. Students gradually narrow and focus their research agendas, culminating in a written or designed final dissertation. Ultimately, graduates are well prepared to develop and undertake new research and creative endeavors.

MASTER of URBAN design (TULSA)

The Master of Urban Design (p. 94) program is designed for candidates from architectural or related disciplines seeking a career in the dynamics of the urban environment but not desiring to enter one of

the licensed professions. The curriculum prepares students for careers in urban research, management, civic administration, public works, and other related areas. The program is also a sound base for those in community service and community design advocacy. This program is available through the Schusterman Center in Tulsa.

This program can be spread out over two years in order to allow students to have full-time office practice opportunities in professional offices. This degree program is designed for candidates already holding a professionally accredited degree in Architecture and is primarily for those already holding an NAAB accredited professional degree. It is not a viable track for candidates wishing to establish NAAB accredited degree credentials as a prerequisite to architectural licensing as required in most of the U.S. (This track is not available to any candidate already holding a Master of Architecture degree from any institution).

Both thesis and professional project options are available. The curriculum is structured to fit into the College's Tulsa "Urban Laboratory" academic environment, with evening and weekend courses delivered in three credit segments.

Architecture Graduate Certificates

The Division of Architecture offers graduate certificates for design professionals to participate in an assortment of courses specifically centered on expertise in Data Systems and Digital Design (p. 94), Design Entrepreneurship and Real Estate (p. 95), and Resilient Planning, Design, and Construction (p. 95).

Doctoral Programs

The Ph.D in Planning, Design and Construction (p. 96) is available to students wishing to pursue a specialized research or creative agenda. This program consists of coursework tailored to the student's interests, providing practitioners and students with an opportunity to deepen their expertise in a particular realm of research.

Special Regulations

Enrollment Limitations

Graduate students may enroll in nine to 16 credit hours of work per semester. Enrollment in more than 16 or less than nine credit hours is permitted only with the approval and signature of the graduate liaison and the graduate dean.

Graduation Requirements

Approval for graduation with the degree of Master of Architecture requires satisfaction of all requirements of the Graduate College and certification by the graduate liaison of completion of all requirements of the graduate professional degree program in Architecture, with a minimum grade point average of B (3.00) in all work for which graduate credit is awarded.

Transfer of Graduate Credit

In addition to the policies of the Graduate College for the transfer of credit hours for master's degrees, the College of Architecture graduate liaison must approve any work transferred to a Master of Architecture degree program.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed

¹Open Elective (6 hours)—Any open elective hours are the student's choice but **may not** include architecture courses.

²Required upper-division Gen. Ed. course outside of the student's major.

Architecture, Three+ Year Program, Bachelor of Science in Architectural Studies

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list, including at least one upper-division Gen. Ed. course outside of the student's major. Courses graded S/U or P/NP will not apply.

A minimum grade of C is required in all major coursework. Completion of a university-approved minor or Division approved concentration is also required. All first year courses are to be completed before advancing to the second year unless otherwise approved by the Architecture Division Director.

Admission to the BARCH or the accelerated MARCH degree program requires an application and portfolio review during the spring semester of the third year.

¹Open Elective (6 hours)—Any open elective hours are the student's choice but **may not** include architecture courses.

²Required upper-division Gen. Ed. course outside of the student's major.

³Professional Elective (9 hours)—student choice of upper-division courses in architecture or related discipline.

Architectural Studies, Minor

The requirements for a minor must be completed concurrently with the major degree requirements. No minor may be added by completing courses after receiving the bachelor's degree.

- The minor is not intended to prepare a student for professional practice in the minor field.
- Required courses in the student's major cannot be used for the minor.

Minors are available to all undergraduate students at OU. If the minor is officially declared and approved, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Students who declare a minor in Architecture must complete fifteen (15) hours from the list of courses below. One course must be taken at the upper-division level to complete the minor.

Architecture, 3½ + 1½ Program, Bachelor of Science in Architectural Studies/Master of Architecture

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list, including at least one upper-division Gen. Ed. course outside of the student's major. Courses graded S/U or P/NP will not apply.

A minimum grade of C is required in all major coursework.

All first year courses are to be completed before advancing to the second year unless otherwise approved by the Architecture Division Director.

Admission to the BARCH or the accelerated MARCH degree program is determined through an application and portfolio review during the spring semester of the third year.

Architecture via Non-Architecture Bachelor's Degree, Master of Architecture

This NAAB accredited degree program is designed for candidates holding a previous bachelor's degree in a discipline other than Architecture. The program offers the opportunity for advanced and specialized study of architecture and related disciplines as well as establishing the NAAB accredited degree credentials which are prerequisite to architectural licensing in most of the U.S. The amount of required prerequisite coursework is based on a review of a candidate's undergraduate preparation.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Architecture via Architecture Bachelor's Degree, Master of Architecture

This NAAB accredited degree program is designed for candidates holding a pre architecture degree or a non NAAB accredited degree in architecture who wish to pursue an NAAB accredited professional degree. The program offers the opportunity for advanced and specialized study of architecture and related disciplines as well as establishing the NAAB accredited degree credentials which are prerequisite to architectural licensing in most of the U.S. The amount of required prerequisite coursework is based on a review of a candidate's preceding coursework.

¹ All MS Architecture degree students must pass this course with a grade of B or better.

Electives

The remaining electives will be selected by the student under the guidance of his or her advisory committee. Graduate Certificate Programs will be coordinated with this MS Architecture program in the following research areas:

1. Architectural History, Theory and Criticism
2. Creating and Making
3. Design Representation and Modeling
4. Middle Eastern Architecture and Culture
5. Social Equity and Design
6. Sustainable Design and Building Technologies
7. Real Estate and Urbanism

The Master of Science in Architecture degree track is designed to be completed over the span of three semesters. In consultation with the

Graduate Liaison, the student may elect to complete the degree within two semesters.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Data Systems and Digital Design (BIM/GIS/FAB), Graduate Certificate

The Graduate Certificate in Data Systems and Digital Design (BIM/GIS/FAB) is an option for design professionals to participate in an assortment of courses specifically centered on expertise in Data Systems and Digital Design education. A total of 12 hours is required. While this certificate is embedded within the Master of Science in Architecture degree, graduate students enrolled in the Master of Architecture degrees are also eligible based upon allowable electives.

Certificate Requirements

Code	Title	Credit Hours
Choose one course:

ARCH 5863	Methods VIII-Building Performance Analytics	

Select 9 hours from a list maintained by the department (p. 95)	9
Total Credit Hours	12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Architecture Doctoral Programs

Ph.D in Planning, Design and Construction

The Ph.D in Planning, Design and Construction is available to students wishing to pursue a specialized research or creative agenda. This program consists of coursework tailored to the student's interests, providing practitioners and students with an opportunity to deepen their expertise in a particular realm of research. Students typically work closely with a faculty committee to select courses from across the University to create an individualized educational plan.

Students in the Ph.D in Planning, Design and Construction degree program are offered a combination of courses from the five disciplines of the College of Architecture including: graduate level elective seminars; professional practice; history and theory; structures; and sustainable design and technology. Students have the opportunity to study with leading scholars of the College of Architecture, as well as University-wide fields as diverse as Engineering, Geography, History of Science, and more. Students gradually narrow and focus their research agendas, culminating in a written or designed final dissertation. Ultimately, graduates are well prepared to develop and undertake new research and creative endeavors.

See Ph.D. in Planning, Design and Construction for more information.

General Information

Accredited by the ACCE (American Council of Construction Education), the Construction Science program combines courses in Construction Science, Architecture, and Business to produce managers for the construction industry. Students obtaining a Construction Science degree pursue management careers in a wide variety of occupations throughout the construction industry. The curriculum prepares students to manage the skilled trades and craftsmen on the job site in addition to managing and interacting with architects, engineers, owners, and other professionals required by the complexities of construction projects.

Emphasis throughout the curriculum is placed on developing students' communication skills, understanding of the technical aspects of construction and the construction process, and the application of information technology to the construction industry. In addition to the academic curriculum, students are encouraged to participate in the nationally recognized Construction Student Association, the various student competitions available to Construction Science majors and various other departmental extracurricular activities. Since its inception, the Construction Science program has maintained a close partnership with the construction industry, an extremely important element in providing the quality graduates who are in great demand by employers.

Faculty

The faculty in the Construction Science program has extensive industry experience. Faculty members maintain close working relationships with industry through consulting work, participation in professional organizations, and maintaining active memberships in professional societies which represent their areas of expertise. Faculty members actively consult with construction companies, governmental agencies, architects and professional organizations both nationally and internationally. CNS faculty has received university, regional, and national teaching awards.

Programs & Facilities

INDUSTRY ENGAGEMENT

The Haskell and Irene Lemon Division of Construction Science (CNS) prides itself on maintaining active relationships with the construction industry. The division's many partnerships with local companies gives students hands-on experience through a Design-Build course.

Career Fair

Every spring and fall semester, Construction Science hosts a career fair. This fair enables students at all levels to develop relationships with industry professionals.

Competitions

Our students regularly place in student competitions sponsored by professional organizations, including National Association of Home Builders.

Internships

Students are encouraged to engage in professional internships.

Undergraduate Study

Bachelor of Science in Construction Science

The Bachelor of Science in Construction Science (p. 97) program requires a minimum of 120 credit hours, with a minimum grade point average of 2.50. Construction Science majors must earn a C or better in all CNS prefix courses.

Limitation Rules

Students pursuing the undergraduate degree in Construction Science must complete the degree program within a maximum of seven calendar years from the date of entry into the degree program.

Minor

Construction Science Minor (p. 98)

Graduate Study

Master of Science in Construction Management

The Master of Science in Construction Management (p. 99) is designed to provide Construction Science graduates, as well as graduates from affiliated degrees, a more in depth knowledge of the current trends in the construction industry. The program's flexibility allows students with limited construction experience to understand the current trends in the industry while providing the flexibility to students with construction experience to pursue a more in depth knowledge of their specific area of interest. Course content focuses on emerging construction trends, risk management, building information modeling, lean construction, and workforce issues in the construction industry. Courses are designed to develop technical and management skills using the following:

- In-class lectures and discussions
- Out-of-class meetings and discussions
- Construction case Studies
- Individual and Team projects
- Interaction with Industry members

Construction Science, Bachelor of Science in Construction Science

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list, including at least one upper-division Gen. Ed. course outside of the student's major. Courses graded S/U or P/NP will not apply.

A minimum grade of C is required in all CNS courses.

A minimum 2.50 OU and combined retention GPA is required for admission to Construction Science program. Admission is limited to the top 40 students with the required GPAs based on all courses listed in the first and second years. All of these courses must be completed before applying for admission to the junior year.

CNS students are strongly encouraged to obtain a minor in Architecture, Business, or Communication.

Course	Title	Credit Hours

Construction Science, Minor

The requirements for a minor must be completed concurrently with the major degree requirements. No minor may be added by completing courses after receiving the bachelor's degree.

- The minor is not intended to prepare a student for professional practice in the minor field.
- Required courses in the student's major cannot be used for the minor.
- Enrollment in the Construction Science minor must have the approval of the Director of Construction Science, the Division that offers the minor.

Minors are available to all undergraduate students at OU. If the minor is officially declared and approved, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Students who declare a minor in Construction Science must complete eighteen (18) hours from the list of courses below.

Code	Title	Credit Hours
CNS 2713		3
CNS 2813	Construction Documents and Quantity Surveying	3
CNS 2823		3
CNS 3512	Cost Estimating	2
CNS 3812	Project Planning and Scheduling	2
CNS 4613	Soils and Foundations	3
CNS 4152	Legal Issues in Construction	2

CNS 5940	Construction Industry Practicum	1-3
CNS 5960	Directed Readings	1-4
CNS 5970	Special Topics/Seminar	1-3

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

- A student who has done satisfactory graduate work and has earned a 3.0 grade point average may file for master's candidacy.

rfrantz@ou.edu
architecture.ou.edu/environmental/

General Information

The Environmental Design Program is all about getting your hands dirty, turning ideas into action, and turning dreams into doing. The students gain exposure and experience working in cities, small towns, and communities that are not defined by size or geographic location.

The program teaches students how to fix problems worth solving. The program gives students, who are looking to do something significant, the know-how and ability to contribute to places that matter. This kind of collaborative, community-minded design does not happen through lectures. The students learn through service in the field. They turn ideas into actions for real projects and for everyday people. The program gives students a glimpse into what it feels like to make the world better for others while creating a career with meaning. This education training allows students to step into a graduate program or step into a community. Students will be ready to engage, to get their hands dirty, and to make changes happen by design. This is what "placemaking" is about. It is where human interaction, ideas, and making a difference meet. It is how dreaming becomes doing.

Programs & Facilities

Academic Opportunities

Environmental Design students are strongly encouraged to participate in one of the many Study Abroad Programs offered in the College of Architecture. Other academic programs—Architecture, Construction Science, Interior Design, and Landscape Architecture—offer a variety of travel experiences both across the United States and throughout the world. Environmental Design students have contributed to these valuable educational and service learning activities.

Non-Academic Institutional Experiences

Environmental Design students have a unique opportunity to engage with service learning opportunities through the OU Institute for Quality Communities (IQC) which is part of the College of Architecture. Founded in 2008 by President and Mrs. Boren as an outreach organization for assisting citizens in Oklahoma communities, this program brings together College of Architecture staff, faculty, and students. The design assistance happens in a variety of ways—out in Oklahoma communities. Students may have the opportunity to work on projects in a number of ways, depending on the scope of the project. As the Associate Director of the IQC is an alumna of the Environmental Design Program, students have exposure to others who know about the Environmental Design studies. Whether these community-based projects focus on historic preservation, tactical urbanism, public space design, walkability and bikeability issues or some other community design issue, the students begin to gain experience and add to their resumes in a way that complements their academic studies. For more information, please visit this website: <http://iqc.ou.edu/>.

Non-Academic Community Exposures

Due to the nature of the studies in the Environmental Design program, students are "out there" doing projects and getting their hands dirty. This work lets them get to know community leaders in all sectors of society: private, governmental, and non-profit organizations. Exposure to representatives in these organizations includes, but is not limited to, the following:

- American Planning Association
- American Institute of Architects, Central Oklahoma Chapter
- City of Oklahoma City Planning Department and Historic Preservation Planning Department
- Downtown Oklahoma City, Inc.
- Fred Jones Jr. Museum of Art/OU Norman Campus
- Moore-Lindsay Historical House (Norman)
- Neighborhood Alliance of Central Oklahoma
- Norman Arts Council
- Norman Downtowners
- Oklahoma Arts Council
- Oklahoma Municipal League
- Oklahoma Brownfields Program, Oklahoma Department of Environmental Quality
- Oklahoma Recreation and Parks Society
- Oklahoma State Historic Preservation Office/Oklahoma Historical Society
- Oklahoma Main Street Center/Oklahoma Department of Commerce
- Preservation Oklahoma, Inc.

- Western History Collection/OU Norman Campus
- Urban Land Institute

Students are strongly encouraged to attend activities and conferences sponsored by the American Institute of Architects, the American Planning Association, and the Urban Land Institute as well as the IQC Placemaking Conference.

Bachelor of Science in Environmental Design

The Bachelor of Science in Environmental Design (p. 101) (En.D.) program is an undergraduate program in the Christopher C. Gibbs College of Architecture that gives students who want to make a difference the know-how and ability to work on critical community issues. From revitalizing historic downtowns to imagining new neighborhoods, En.D. students learn about problems that are worth solving to make places that matter for people.

The Environmental Design degree is a program with several elective options in addition to the general education requirements. While many Environmental Design students come to the program straight from high school, a number of our students transfer from other undergraduate degrees or enroll after junior college studies. These core courses remain flexible as students come to the program in various stages of study or from different backgrounds of study.

Environmental Design students have an incredible selection of electives to consider. The Environmental Design Program is part of the OU College of Architecture. Other academic programs within this college include the undergraduate divisions of Architecture, Construction Science, and Interior Design. Graduate programs include these three divisions as well as the divisions of Landscape Architecture and Regional and City Planning. Electives are available that allow the Environmental Design students to study with faculty from all of these academic programs as well as experience students from all of these majors.

For Environmental Design majors who are more focused on the “environmental” portion and not so much the “design” portion of the program, there are a number of ecology electives that complement the studies in the Bachelor of Science in Environmental Design.

 FAX: (405) 325-7558
 idcoa@ou.edu
 architecture.ou.edu/interior-design/

General Information

The Division of Interior Design provides professional undergraduate and graduate education in Interior Design within a collaborative, multidisciplinary learning environment. The undergraduate program is accredited by the Council for Interior Design Accreditation. There are two graduate programs including a Master of Science in Interior Design, Post Professional and a Master of Science in Interior Design, First Professional. The disciplinary perspectives share a common pedagogy within the College of Architecture divisions, engaging in creative and technical skills that prepare new graduates to solve problems related to global challenges facing the profession of Interior Design.

The Division of Interior Design recognizes the definition of a professional designer as the cornerstone of its philosophical underpinnings.

Interior design is a multi-faceted profession in which creative and technical solutions are applied within a structure to achieve a built interior environment. These solutions are functional, enhance the quality of life and culture of the occupants, and are aesthetically attractive. Designs are created in response to and coordinated with the building

shell, and acknowledge the physical location and social context of the project. Designs must adhere to code and regulatory requirements, and encourage the principles of environmental sustainability. The interior design process follows a systematic and coordinated methodology, including research, analysis and integration of knowledge into the creative process, whereby the needs and resources of the client are satisfied to produce an interior space that fulfills the project goals.

Interior design includes a scope of services performed by a professional design practitioner, qualified by means of education, experience, and examination, to protect and enhance the life, health, safety and welfare of the public. These services may include any or all of the following tasks:

- Research and analysis of the client's goals and requirements; and development of documents, drawings and diagrams that outline those needs
- Formulation of preliminary space plans and two and three dimensional design concept studies and sketches that integrate the client's program needs and are based on knowledge of the principles of interior design and theories of human behavior
- Confirmation that preliminary space plans and design concepts are safe, functional, aesthetically appropriate, and meet all public health, safety and welfare requirements, including code, accessibility, environmental, and sustainability guidelines
- Selection of colors, materials and finishes to appropriately convey the design concept, and to meet sociopsychological, functional, maintenance, life-cycle performance, environmental, and safety requirements;
- Selection and specification of furniture, fixtures, equipment and millwork, including layout drawings and detailed product description; and provision of contract documentation to facilitate pricing, procurement and installation of furniture
- Provision of project management services, including preparation of project budgets and schedules;
- Preparation of construction documents, consisting of plans, elevations, details and specifications, to illustrate non-structural and/or non-seismic partition layouts; power and communications locations; reflected ceiling plans and lighting designs; materials and finishes; and furniture layouts
- Preparation of construction documents to adhere to regional building and fire codes, municipal codes, and any other jurisdictional statutes, regulations and guidelines applicable to the interior space
- Coordination and collaboration with other allied design professionals who may be retained to provide consulting services, including but not limited to architects; structural, mechanical and electrical engineers, and various specialty consultants
- Confirmation that construction documents for non-structural and/or non-seismic construction are signed and sealed by the responsible Interior Designer, as applicable to jurisdictional requirements for filing with code enforcement officials
- Administration of contract documents, bids and negotiations as the client's agent
- Observation and reporting on the implementation of projects while in progress and upon completion, as a representative of and on behalf of the client; and conducting post-occupancy evaluation reports

Learn more from the National Council for Interior Design Qualification at: www.ncidq.org

The basic principles and concepts of interior design guide our thinking and decision-making with regard to program content, delivery and

evaluation. We direct our efforts toward the development of the entry level Interior Design professional, with capabilities in the enhancement of the function and quality of interior spaces. We promote an understanding of current practice within the broadest context of the interior architectural profession as well as within the southwestern culture specific to this region.

The program places value upon three distinct characteristics which embody the philosophy of the Interior Design program at OU:

- **Learning is centered around contemporary practice:** faculty bring significant practice experience which demonstrates advanced achievement in design management expertise beyond the project management levels of interior architectural design practice.
- **Learning is diverse and demonstrates a holistic approach to design problem-solving:** faculty and students are exposed to regional and international practices emphasizing resources, culture and tradition-based design. The program also addresses global considerations focusing on issues which reinforce the positioning of interior design for the future.
- **Learning is interdisciplinary:** the location of the Interior Design program within a college that shares teaching pedagogy across the disciplines of the built environment provides Interior Design faculty and students with an environment where team contributions are sought and disciplinary expertise is valued.

The mission of the Division of Interior Design is to provide a design education within a student-centric learning environment emphasizing excellence in education, research and service to the community.

The goals of the Interior Design program in the College of Architecture reflect the program's location and resources and embrace change as a constant variable in the learning environment. The program strives to:

- prepare entry level Interior Designers to work effectively with professionals from other disciplines engaged in the planning, design and management of the built environment;
- engage Interior Design students in the exploration of design within broad cultural contexts, addressing both regional and international contributions to the design of the built environment while utilizing resources across and beyond the campus;
- integrate the expressive qualities embodied in the practice of interior design within the context of a technological learning environment;
- capitalize upon the design practice and design management expertise of the faculty by engaging students in effective and appropriate problem-solving experiences involving student-centered research of the built environment;
- challenge students by addressing contemporary and critical issues facing the profession;
- ensure adequate curricular flexibility to accommodate future change affecting interior design education throughout the duration of a four year program of study;
- preserve and enhance the development of problem-solving skills within a sequential studio sequence, continually expanding to encompass increasingly more complex concepts, skills, knowledge and application strategies; and,
- actively seek and promote the involvement of external organizations in collaborative partnerships, providing opportunities for students and faculty to engage in real life design experiences.

Special Programs and Facilities

An active Interior Design Student Association (IDSA) student chapter umbrella provides students with valuable interaction with members of the Interior Design profession while pursuing their degree. The International Interior Design Association (IIDA) and the American Society of Interior Designers (ASID) are two of the industry professional organizations aligned with IDSA. The IDSA student chapter sponsors field trips to designers' offices, significant design projects and sites in the region, furnishings markets, and trade shows. Students also participate in competitions in studio as well as through formal independent study opportunities. In addition, students travel to national professional meetings, undertake structured internship experiences, and work with real clients.

College and divisional seminars bring visiting scholars and noted professionals to the college to provide students with a broad understanding of the multi-disciplinary nature of the college and both international and national exposure to significant work in the built environment.

Design studios provide students with permanent work stations. A resource room and lighting lab with current manufacturers' catalogs, architecture and interior design samples, and technical data that provides students with design resource materials. The College of Architecture maintains a shared computer lab with access 24 hours a day, seven days a week.

Undergraduate Study

Bachelor of Interior Design

The Bachelor of Interior Design (p. 105) program requires completion of a minimum of 120 semester hours distributed in general education, major, and elective courses.

Minor

- Interior Design Minor for Non-Architecture Majors (p. 106)
- Interior Design Minor for Architecture Majors (p. 106)

Curriculum Organization

The Interior Design curriculum combines the development of conceptual ideas — knowledge of art, architecture, craft, and manufacture that stimulates form-making and design with technical knowledge essential to the delivery of the interior built environment — while at the same time integrating the important tasks and rituals of individuals and groups.

A sequential core of professional courses and design studios are linked to University general education courses to prepare students for ever-changing conditions of practice and life. Sequential studio coursework is required in each semester from the environmental design foundation coursework through to the Interior Design capstone. The curriculum enables interdisciplinary experiences with Architecture, Landscape Architecture, and Construction Science disciplines.

Graduate Study

The Master of Science in Interior Design (p. 106) degree offers graduate education in Interior Design with opportunities to focus in the areas of Sustainable Living, Design Process Management, and Architectural Lighting. All areas emphasize Interior Design's unique location in the College of Architecture, which offers the opportunity to collaborate with the fields of Architecture, Construction Science, Landscape Architecture and Regional and City Planning. The program reinforces the notion

of collaboration and integrated practice in the built environment. The common mission is research into the design and process of creating better spaces for the community and environment through emphasis on sustainability, integrated design process management, and architectural lighting.

The Master of Science in Interior Design First Professional (p. 107) option offers graduate education in Interior Design to students who do not have a previous professional degree in Interior Design or Architecture. The program reinforces the notion of collaboration and integrated practices in the built environment.

The Master of Science in Interior Design Post Professional (p. 107) option offers an opportunity for students with an undergraduate degree accredited by the Council for Interior Design Accreditation (CIDA).

The Interior Design Graduate Certificate in Professional Applications of Interior Design (PAID) A Theory Based Program (p. 108) is embedded in the Master of Science in Interior Design Program. The program is designed to help practicing Interior Designer develop practical, real-world skills to enhance their career and improve the productivity at workplace.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Bhattacharjee	Suchismita		2013	ASSISTANT PROFESSOR OF INTERIOR DESIGN, LIAISON INTERIOR DESIGN, 2015	PhD, Virginia Polytechnic Inst, 2010; MS, Virginia Polytechnic Institute, 2010; MS, Michigan State Univ, 2007; BS, Jadavpur Univ, 2005

Interior Design, Bachelor of Interior Design

A minimum grade of C is required in all I D and ARCH courses.

A minimum 2.50 OU and combined retention GPA is required for admission to the third and fourth years of the Bachelor of Interior Design program. Admission is limited to students meeting the GPA and portfolio review requirement. All first and second year courses must be completed before applying for admission.

Courses designated as Core I, II, III, IV, or Capstone are part of the General Education curriculum. Students must complete a minimum of 40 hours

of General Education courses, chosen from the approved list, including at least one upper-division Gen. Ed. course outside of the student's major. Courses graded S/U or P/NP will not apply.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3

Interior Design for Non-Architecture Majors, Minor

The requirements for a minor must be completed concurrently with the major degree requirements. No minor may be added by completing courses after receiving the bachelor's degree.

Required courses in the student's major cannot be used for the minor.

- The minor is only available to undergraduate students with a declared major outside Architecture. If the minor is officially declared and approved, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

- A student who has done satisfactory graduate work and has earned a 3.0 grade point average may file for master's candidacy.

Interior Design, First Professional, Master of Science in Interior Design

General Information

The Master of Science in Interior Design First Professional option offers an opportunity for pursuing a post-baccalaureate degree in Interior Design for students who do not have an undergraduate degree in Interior Design or closely related fields.

Professional Applications of Interior Design (PAID) a Theory Based Program, Graduate Certificate

A total of 12 hours is required for the certificate. For more information on this certificate, contact the Division of Interior Design.

Certificate Requirements

Code	Title	Credit Hours
I D 5123	Environment and Human Behavior	3
I D 5143	Design Theory Analysis and Evaluation	3
I D 5223	Advanced Materials and Methods	3
I D 5153	Practice and Leadership in a Global Design Market	3
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Division of Landscape Architecture

Leehu Loon, ASLA, PLA, Director
 Gould Hall
 830 Van Vleet Oval
 Norman, OK 73019-6141
 Phone: (405) 325-2444
 FAX: (405) 325-7558
 mla@ou.edu
architecture.ou.edu/landscape-architecture/

General Information

The Division of Landscape Architecture offers graduate students an interdisciplinary setting in which to learn and think critically and creatively in addressing environmental issues. The program's primary mission is the professional education of future Landscape Architects who will be able to contribute to the profession at any level typifying practice in the field. A secondary mission of the program is to successfully offer a post-professional degree for those students who already have the first professional degree at the undergraduate level who are interested in advanced study in Landscape Architecture.

About Landscape Architecture

As described by the American Society of Landscape Architects (ASLA), "landscape architecture is the art and science of analysis, planning, design, management, preservation and rehabilitation of the land."

"Landscape architects design the built environment of neighborhoods, towns and cities while also protecting and managing the natural environment, from its forests and fields to rivers and coasts. Members of the profession have a special commitment to improving the quality of life through the best design of places for people and other living things."

"In fact, the work of landscape architects surrounds us. Members of the profession are involved in the planning of such sites as office plazas, public squares and thoroughfares. The attractiveness of parks, highways, housing developments, urban plazas, zoos and campuses reflects the skill of landscape architects in planning and designing the construction of useful and pleasing projects."

"Depending on the scope of the project for clients, ranging from a local developer to the federal government, landscape architects may plan the entire arrangement of a site, including the location of buildings, grading, stormwater management, construction and planting. They may also coordinate teams of design, construction and contracting professionals."

"Already, federal and state government agencies ranging from the National Park Service to local planning boards employ a large number of landscape architects. More and more private developers realize that the services of a landscape architect are an integral part of a successful, more profitable project."

Visit the ASLA website or the Landscape Architecture Foundation website for further information about the profession of Landscape Architecture.

Master of Landscape Architecture First Professional Degree

The First Professional Master of Landscape Architecture (p. 109) is an LAAB accredited degree, is for students who do not have a previous professional degree in Landscape Architecture and who may come from fields as diverse as English literature, drama, wildlife management or nursing.

Post-Professional Degree

The Post Professional Master of Landscape Architecture (p. 110) is only for students who have completed an accredited professional degree in Landscape Architecture and desire a design or research focus in a specialized area.

In both of these options, the graduate student is expected to focus the professional electives requirement on an area of specialization such as urban design, rural and small town design, sustainable and ecological design, environmental issues, or computer technologies. The student is encouraged to consider offerings in allied departments such as Anthropology, Architecture, Art, Botany, Construction Science, Civil Engineering, Environmental Science, Communications, Geography, Geology, Health and Sports Sciences, Human Relations, Political Science, Regional and City Planning, Sociology, and Zoology.

Landscape Architectural Studies

The Landscape Architectural Studies (p. 110) is a non-accredited degree. This degree is intended for students with undergraduate degrees in Landscape Architecture or a related area.

All graduate students are required to develop a graduate advisory committee that will guide the student through the selection of a graduate project topic and its sequence as reflected in the program curriculum. All master's programs are subject to approval by the program director and/or the graduate liaison.

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Division of Regional and City Planning

Charles G. Warnken, Ph.D., AICP, Director
Gould Hall

Norman, OK 73019
Phone: (405) 325-0997
FAX: (405) 325-7558
rcpl.ou.edu/

General Information

Faculty in the Division of Regional and City Planning (RCPL) prepare students to address the challenges that face the cities, towns and rural areas of Oklahoma and the nation. The OU RCPL program, founded in 1947, is one of the oldest programs west of the Mississippi River. RCPL students, like those in other divisions of the OU College of Architecture, have access to a multidisciplinary learning environment and a low student-faculty ratio that allows them to work closely with faculty and gain insight from faculty expertise. The Division of Regional and City Planning's focus on communication and experience better prepares graduates for the collaborative work of successful city planning professionals.

Graduate Study

Master of Regional and City Planning

The Master of Regional and City Planning (p. 112) degree is designed for persons who desire to work in urban and/or regional planning, neighborhood and area development, housing, community and economic development, urban design, transportation planning, and land development. The course of study integrates concepts from architecture, social sciences, environmental studies, engineering, business and law and prepares graduates for lifelong professional practice. Requirements for the degree include a bachelor's degree from a recognized college or university. In addition to the formal application, a statement of the student's personal objectives and three letters of recommendation should be sent directly to the division. Fall semester admission is suggested, but not required, to take advantage of the schedule sequence of course offerings.

Dual Degree Programs

Students may pursue another degree program with the Master of Regional and City Planning under the University's dual degree program. Graduates have developed dual degree programs with Architecture, Landscape Architecture, Public Administration, Environmental Engineering and Law.

Several accelerated dual-degree programs are offered through collaboration with the Department of Geography and Environmental Sustainability housed in the College of Atmospheric and Geographic Sciences and the Division of Regional and City Planning, an academic unit in the College of Architecture:

- Bachelor of Arts in Environmental Sustainability: Planning & Mgt/ Master of Regional and City Planning (p. 487)
- Bachelor of Arts in Geographic Information Science/Master of Regional & City Planning (p. 493)
- Bachelor of Arts in Geography: Physical & Social Sciences/Master of Regional & City Planning (p. 501)
- Bachelor of Science in Environmental Sustainability: Planning & Mgt/ Master of Regional & City Planning (p. 490)
- Bachelor of Science in Geographic Information Science/Master of Regional & City Planning (p. 495)
- Bachelor of Science in Geography/Master of Regional & City Planning (p. 498)

These accelerated programs are designed for exceptional students who wish to begin earning the Master of Regional and City Planning in the second semester of their junior year of their Bachelor programs.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Harris	John	C	2013	ASSISTANT PROFESSOR OF REGIONAL AND CITY PLANNING, 2013; INTERNATIONAL PROGRAMS COORDINATOR, COLLEGE OF ARCHITECTURE, 2016; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2018; ADJUNCT ASSISTANT PROFESSOR OF INTERNATIONAL AND AREA STUDIES, 2018	PhD, Florida State Univ, 2012; MS, Florida State Univ, 2003; BA, Wheaton College, 2001
Lee	Christina	A	2018	ASSISTANT PROFESSOR OF REGIONAL AND CITY PLANNING, 2018	PhD, Univ of California, 2018; MA, Univ of Illinois, 2014; BA, Univ of California, 2009

General Information

History and Purpose

The College of Arts and Sciences is the oldest and largest of the degree-recommending colleges at the University of Oklahoma. Established in 1892 as the College of Liberal Arts, the college granted its first degree in 1898. Today, as then, the liberal arts and sciences provide the foundation for the OU educational experience, through which we prepare our students to live productive and successful lives as citizens of a democracy.

The College of Arts and Sciences is responsible for providing all of OU's undergraduate students with a core curriculum that exposes them to both the natural and social environments in which they live and helps them view and analyze the world from different perspectives and to arrive at their own opinions. Students majoring in one of the College's degree programs receive additional education in foreign language and

the humanities. Our goal is to graduate students who can communicate clearly, both in writing and orally; think creatively; reason and act ethically; serve as leaders of their professions and their local and global communities; and continue to learn after they leave OU. By providing a broad-based education, the College of Arts and Sciences seeks to enrich the lives of our students, both as individuals and as active, productive members of society. To accomplish these goals, we bring together talented students and dedicated teacher-scholars in an environment that supports learning and personal development and is, in turn, supported by the donations of our alumni and friends to produce the best educational experience possible, anywhere.

The degrees offered by the college provide a strong foundation for further professional or graduate studies and for pursuing employment in a wide variety of endeavors.

Programs Offered

- College of Arts and Sciences Administrated Programs (p. 125)
 - Community Health, Bachelor of Arts (p. 125)
 - Community Health, Bachelor of Science (p. 127)
 - Latinx Studies, Bachelor of Arts (p. 129)
 - Planned Program, Bachelor of Arts (p. 132)
 - Planned Program, Bachelor of Science (p. 133)
 - Public Health, Bachelor of Public Health (p. 135)
 - Approved Public Health and Community Health Major Electives (p. 138)
 - Editing and Publishing, Minor (p. 138)
 - Enterprise Studies, Minor (p. 139)
 - International Enterprise Studies, Minor (p. 139)
 - Latinx Studies, Minor (p. 140)
 - Public and Community Health, Minor (p. 141)
- Clara Luper Department of African and African-American Studies (p. 141)
 - African and African-American Studies, Bachelor of Arts (p. 142)
 - African and African-American Studies, Minor (p. 145)
- Department of Anthropology (p. 145)
 - Anthropology, Bachelor of Arts (p. 148)
 - Anthropology Elective List (p. 150)
 - Human Health & Biology, Bachelor of Science (p. 152)
 - Anthropology, Minor (p. 154)
 - Anthropology, Bachelor of Arts/Sociocultural Anthropology, Master of Arts (p. 155)
 - Applied Linguistic Anthropology, Master of Arts in Applied Linguistic Anthropology (p. 158)
 - Anthropology (Standard), Master of Arts (p. 158)
 - Socio-Cultural Anthropology, Master of Arts (p. 159)
 - Anthropology Doctoral Programs (p. 159)
- Department of Biology (p. 159)
 - Biology, Bachelor of Science (p. 163)
 - Biology, Minor (p. 165)
 - Biology, Master of Science (p. 166)
 - Biology: Bioinformatics, Master of Science (p. 166)
 - Biology Doctoral Programs (p. 167)
- Department of Chemistry and Biochemistry (p. 167)
 - Biochemistry, Bachelor of Science in Biochemistry (p. 170)
 - Chemical Biosciences, Bachelor of Science (p. 172)

- Chemistry and Biochemistry (Standard Option), Bachelor of Science (p. 175)
- Chemistry (Professional), Bachelor of Science in Chemistry (p. 177)
- Chemistry, Minor (p. 180)
- Chemistry & Biochemistry, Master of Science (p. 180)
- Chemistry: Bioinformatics, Master of Science (p. 181)
- Chemistry and Biochemistry Doctoral Programs (p. 182)
- Department of Classics and Letters (p. 182)
 - Classics: Classical Languages, Bachelor of Arts (p. 184)
 - Classics: Classical Studies, Bachelor of Arts (p. 186)
 - Classical Studies Distribution Course Lists (p. 188)
 - Classics: Latin, Bachelor of Arts (p. 189)
 - Letters (Standard), Bachelor of Arts in Letters (p. 191)
 - Letters: Constitutional Studies, Bachelor of Arts in Letters (p. 193)
 - Constitutional Studies Category Course Lists (p. 195)
 - Classical Culture, Minor (p. 197)
 - Classical Greek, Minor (p. 197)
 - Constitutional Studies, Minor (p. 197)
 - Latin, Minor (p. 198)
- Department of Communication (p. 198)
 - Communication, Bachelor of Arts (p. 200)
 - Communication, Minor (p. 202)
 - Communication, Master of Arts (p. 202)
 - Organizational Communication, Master of Arts (p. 203)
 - Communication Doctoral Programs (p. 203)
- Department of Economics (p. 204)
 - Economics, Bachelor of Arts (p. 205)
 - Economics, Minor (p. 207)
 - Economics, Bachelor of Arts/Master of Arts (p. 208)
 - Economics: Applied Economics, Master of Arts (p. 211)
 - Economics: Managerial Economics, Master of Arts (p. 211)
 - Economics Doctoral Programs (p. 211)
- Department of English (p. 212)
 - English: Literary & Cultural Studies, Bachelor of Arts (p. 214)
 - English Literary & Cultural Studies Distribution Lists (p. 216)
 - English: Writing, Bachelor of Arts (p. 217)
 - English: Literary & Cultural Studies, Minor (p. 219)
 - English: Writing, Minor (p. 220)
 - Irish Studies, Minor (p. 220)
 - English: Literary & Cultural Studies, Bachelor of Arts/Master of Arts (p. 221)
 - English: Writing, Bachelor of Arts/Master of Arts (p. 224)
 - English: Literary Studies, Master of Arts (p. 226)
 - English: Rhetoric & Writing Studies, Master of Arts (p. 227)
 - English Doctoral Programs (p. 227)
- Environmental Studies (p. 227)
 - Environmental Studies, Bachelor of Arts (p. 228)
 - Environmental Studies Category Lists (p. 230)
 - Environmental Studies, Bachelor of Science (p. 233)
 - Biological Conservation, Minor (p. 235)
 - Environmental Studies, Minor (p. 236)
 - Water Sciences, Minor (p. 236)
- Environmental Studies, Master of Science in Environmental Studies (p. 236)
- Department of Film and Media Studies (p. 237)
 - Film & Media Studies, Bachelor of Arts (p. 238)
 - Film and Media Studies Guided Electives (p. 240)
 - Film & Media Studies, Minor (p. 241)
- Department of Health and Exercise Science (p. 241)
 - Health & Exercise Science, Bachelor of Science in Health & Exercise Science (p. 243)
 - Health & Exercise Science, Minor (p. 246)
 - Exercise Physiology, Master of Science (p. 246)
 - Health & Exercise Science, Master of Science (p. 247)
 - Health Promotion, Master of Science (p. 247)
 - Sports Data Analytics, Master of Science (p. 248)
 - Health and Exercise Science Doctoral Programs (p. 248)

Teacher Certification Programs

Students in the College of Arts and Sciences with approved majors may also work toward completion of an Oklahoma teaching certificate for secondary education through the Alternative Certification program. For more information concerning teaching certificate programs, consult an academic counselor in the College of Arts and Sciences..

Distinction and Special Distinction Degrees

Students who complete their undergraduate degree in the College of Arts and Sciences may be graduated with distinction if they have completed a minimum of 60 credit hours in residence at the University of Oklahoma and achieve the required grade point averages. The degree *with Distinction* will be conferred on students who achieve at least a 3.60 combined retention grade point average and a 3.60 grade point average in all OU coursework. The degree *with Special Distinction* requires at least a 3.90 retention grade point average in all combined and OU coursework. The final semester's grades will be included in the grade point average that determines the Distinction or Special Distinction degree.

Honors Degrees

All of the bachelor's degree programs offered by the College of Arts and Sciences are available to qualified students as honors degree programs. Students may be graduated with honors (*cum Laude*, *Magna cum Laude*, *Summa cum Laude*) if they successfully complete all requirements of the Honors College in addition to their regular degree program requirements. Please refer to the Honors College for specific information concerning completion of honors degrees.

Optional Opportunities

Additional Bachelor's Degrees

Additional bachelor's degrees may be earned from the College of Arts and Sciences by satisfying specific requirements beyond those required for a first degree from the College. Students may earn degrees from the College concurrently, or students holding a bachelor's degree from the College of Arts and Sciences or another college within the University or from another institution may qualify for an additional (consecutive) degree. To earn an additional bachelor's degree from the College of Arts and Sciences, a student must:

1. Choose a major different from that of the prior degree(s).
2. Satisfy all current requirements of the additional degree program.
3. Earn a minimum of 30 credit hours in Arts and Sciences courses not applied toward a previous degree, 24 of which must be upper-division.
4. Earn a minimum 2.00 average on all work attempted for the additional degree.
5. At least 15 of the last 30 hours applied toward the second degree must be completed in residence at the University of Oklahoma.

Credit-hour limitations set for the first bachelor's degree from the College of Arts and Sciences will not be extended for an additional degree (i.e., if the college's 12 independent study hours were applied to an earlier degree, no additional independent study may be taken).

Double Majors

Students may earn two majors as part of a single degree. Only one degree will be awarded but the transcript will indicate both majors. The degree will be awarded when requirements for both majors are completed.

Courses used to fulfill minor requirements may not be used toward either major.

OKLAHOMA ARCHEOLOGICAL SURVEY

111 E. Chesapeake St., Norman, OK 73019-5111

Phone: (405) 325-7211

archsurvey@ou.edu

www.ou.edu/archsurvey

Established in 1970, the Oklahoma Archeological Survey is a state agency with regulatory authority, as well as a unit of the College of Arts and Sciences.

The Survey's enabling legislation charges the Survey with three basic mandates:

1. to conduct research on Oklahoma's prehistoric and early historic archaeological record,
2. to work with the citizens of Oklahoma to preserve significant archaeological resources, and
3. to disseminate information on our activities through publications, public presentations and other means of outreach.

The Archeological Survey has two divisions: Organized Research and the Community Assistance Program. The Survey also serves as the centralized repository for records on archaeological sites in the state (currently holding information on some 23,000 locations). Personnel of the Archeological Survey consists of seven research faculty, along with graduate and undergraduate students, and volunteers who perform a wide range of research, managerial, and educational activities.

The Survey faculty also teach classes through the Department of Anthropology.

Biological Station

15389 Station Rd., Kingston, OK 73439-8744

Phone: (405) 325-7430, or (580) 564-2478

deptemail@ou.edu

www.ou.edu/uobs/

The University of Oklahoma Biological Station is a permanent field station located on the north shore of Lake Texoma, approximately 120 miles from Norman, and is subject to all rules and regulations that govern the University of Oklahoma. The station's primary mission is to promote research and education in ecology and field biology. Our facilities are open to students and scientists world-wide for research and study, and the Biological Station participates significantly in ecological and evolutionary research at national and international levels.

Primary academic goals include biological instruction, experimentation, and exploration as it relates to the University of Oklahoma student. However, the scientific and study programs have been enlarged to incorporate four main areas. They are:

1. the constant updating of curriculum necessary for quantitative and experimental courses for graduate and undergraduate students;
2. year-round ecological research by resident faculty and/or collaborating investigators from other institutions;
3. providing a base for sabbatical/short-term study by the national and international research community and;

4. providing an ideal meeting site for academic and/or other educational non-profit institutions.

The Biological Station does not offer a degree program, although credit obtained is directly applicable toward the requirements of the degree-recommending colleges of the University. Scholarships, graduate research fellowships and assistantships, work-study assistance, and independent study are also available. Inquiries should be sent to the director. The Biological Station's major instructional emphasis is on two-week courses offered in May and August at the Station. Field-research participation is also available for undergraduate and graduate students, as well as grade school, high school, and college teachers.

Oklahoma Biological Survey

111 E. Chesapeake St., Norman, OK 73019-5111

Phone: (405) 325-4034

biosurvey.ou.edu/

The Oklahoma Biological Survey, established in 1927, is both a research unit of the College of Arts and Sciences and a state agency recognized through 1987 legislation. The mission of the Survey is to scientifically investigate the diversity of plants and animals in Oklahoma and associated regions and to contribute to conservation and education concerning these important resources. The Survey includes:

1. the General Biological Survey program;
2. the Oklahoma Natural Heritage Inventory;
3. the Bebb Herbarium jointly operated with the Department of Microbiology and Plant Biology;
4. the Oklahoma Fishery Research Laboratory jointly operated with the Oklahoma Department of Wildlife Conservation; and,
5. the Sutton Avian Research Center, a bird conservation center located in Bartlesville, Oklahoma.

Personnel in the Survey include faculty, staff, graduate students and undergraduates who engage in a wide range of research, teaching and service activities.

Carl Albert Congressional Research and Studies Center

630 Parrington Oval, Room 101, Norman, OK 73019-4031

Phone: (405) 325-6372

carlalbertcenter@ou.edu

www.ou.edu/carlalbertcenter

The Carl Albert Congressional Research and Studies Center is a nonpartisan institution devoted to teaching and research related to the United States Congress and more broadly to strengthening representative democracy through engaged and informed citizens. The Center is concerned with the health of our modern representative democracy. Its mission embraces three principal functions – teaching, research, and public service. The Center offers academic programs in congressional studies at both the graduate and undergraduate levels. Believing that professional research is the foundation upon which its academic programs rest, the Center promotes original research by faculty members and students into various aspects of politics and the Congress. Further, the Center's congressional archive provides a national resource available to historians, political scientists, the media, and public interested in the health of our representative institutions. The Center actively strives to promote a wider understanding and appreciation of the Congress through its various public service programs. Traveling and online exhibits promote understanding of Oklahoma history and congressional policymaking. The Center also provides programs, archives talks, and lectures which offer

the local community the opportunity to engage in discussion of public affairs. Outreach to K-12 teachers extends the impact of the Center to younger students. Taken together, these diverse aspects of the Carl Albert Center constitute a unique resource for scholarship and research related to the United States Congress.

In cooperation with the Department of Political Science, the Center sponsors a unique four-year graduate fellowship program leading to a doctoral degree in political science with special emphasis on Congress and representative government. The Center also offers research fellowships to a select group of undergraduate students who participate with political science faculty members in collaborative research projects.

In seeking to foster a wider understanding and appreciation of Congress through civic education, the Carl Albert Center sponsors the biennial Julian J. Rothbaum Distinguished Lecture in Representative Government, which is among the most distinguished lecture series of its kind and has resulted in a book series published by The University of Oklahoma Press.

Twice each year the Carl Albert Center publishes the journal *Extensions* as a forum for discussion of representative government. *Extensions* is also available in electronic format on the Center's website.

As a participating partner in the National Education for Women's (N.E.W.) Leadership Development Network, the Carl Albert Center sponsors an annual institute to educate, empower, and inspire a select number of undergraduate women throughout the State of Oklahoma for active participation in politics and public service. The Center also sponsors for undergraduate students the Capitol Scholars and Community Scholars programs, which are intensive academic internship experiences at either the State Capitol or in the local government and non-profit community.

Students and others who are interested in learning more about these various opportunities should visit the Carl Albert Center website.

ADVANCED CENTER FOR GENOME TECHNOLOGY

The Advanced Center for Genome Technology (ACGT) has played an important role in revealing the essence of life processes, and is actively engaged in the sequence and functional annotation of several genomes of health and agricultural importance. The OU ACGT provides the powerful tools of genomics and functional genomics to researchers at the University of Oklahoma and information to users around the world. Under the direction of Drs. Bruce Roe and Tyrrell Conway, the facility has been designated a Genome Center by the National Human Genome Research Institute (NIH-NHGRI) since 1990 and provides a comprehensive microarray core facility and database that handles all aspects of this complex technology seamlessly.

Center for Applied Social Research

The Center for Applied Social Research (CASR) applies innovative concepts and methods in social sciences to advance complex, multi-faceted organizational, policy, and public health research. CASR approaches critical emerging issues that influence institutional policies and practices from an interdisciplinary perspective to enhance our understanding of human social behavior and develop practical solutions to real-world problems.

Center for Classical Archaeology and Civilizations

The Center for Classical Archaeology and Civilizations seeks to introduce Oklahoma students to the larger world of the Mediterranean in the context of its history and culture. Therefore, with a focus on undergraduate education, the Center strives to make the past 'come alive' for students who participate in its symposia, colloquia, summer

institutes, seminars, conferences, and archaeological projects. The Center also serves as a forum for national and international discussion of multiple issues that relate to the ancient Mediterranean world. Special attention is given to new archaeological evidence and how it applies to the interpretation of the ancient past.

CENTER FOR RISK & CRISIS MANAGEMENT

The Center for Risk & Crisis Management is an interdisciplinary research center at the University of Oklahoma that studies risk, risk perception and crisis management in several substantive domains. The areas of research interest and expertise include energy and the environment, weather and climate, national security and terrorism, and the social dynamics surrounding complex controversial technologies.

Cognitive Science Research Center

The Cognitive Science Research Center (CSRC) is an interdisciplinary research center at the University of Oklahoma focused on understanding individual differences in human performance and identification of risk factors that degrade, enhance, or extend cognitive performance capabilities. CSRC researchers emphasize the application of computer-based technology for assessing neurocognitive performance in these endeavors.

Center for Social Justice

The Center for Social Justice is an initiative of the Department of Women's and Gender Studies to promote gender justice, equality, and human rights through local and global engagement.

Knee Center for Strong Families

The Knee Center for Strong Families sponsors academic and community-oriented programs in the fields of social work, public health (including mental health), and fine arts in three core areas: Visiting lectureships, workshops, seminars, meetings of scholars, conferences, symposia, and forums; planning grants or "seed money" to develop programs that might have continuous funding from other sources; and underwriting research on the planning and development of educational programs to enhance family life in Oklahoma.

ENVIRONMENTAL STUDIES RESOURCE CENTER

The Environmental Studies Resource Center, located in Sutton Hall room 303, contains a collection of books, videos, and other materials related to environmental issues in general.

Film & Media Studies Library and Media Lab

The Film and Media Studies Library and Media Lab, located in Wallace Old Science Hall, holds a large collection of screenplays, DVDs, and VHS cassettes for reference. A student media lab is also housed in the library, enabling FMS majors to edit digital film projects.

Language Learning Center

The Department of Modern Languages, Literatures and Linguistics is home to the computerized Language Learning Center, located in Kaufman Hall. Here students can utilize audio, live international television programming, video, and interactive computer tutorials for Arabic, Mandarin Chinese, French, German, Hebrew, Italian, Japanese, Portuguese, Russian, and Spanish languages and literatures. Placement exams are administered in the lab for French, German, Japanese, Russian, and Spanish.

Library Resources

In addition to the extensive collections housed in the Bizzell Memorial Library, Arts and Sciences students have access to two notable special collections, the History of Science and Western History collections, as well as two branch libraries and two special collections housed within departments.

The History of Science Collection, located on the 5th floor of Bizzell Memorial Library, is a premier research collection in its field. Holdings of nearly 100,000 volumes from every field and subject area of science, technology and medicine range chronologically from Hrabanus Maurus, *Opus de universo* (1467) to current publications in the history of science. The Darwin collection consists of all of Darwin's works in their first editions and several autographed letters, as well as hundreds of subsequent editions and translations.

The Western History Collections is a special collection within the University of Oklahoma Libraries system. Its purpose is to enhance the University Libraries general collection on the history of the American West; to support the research and teaching programs of the University of Oklahoma; and to provide opportunities for research through the acquisition, preservation, and access of materials relating to the development of the Trans-Mississippi West and Native American cultures.

There are two branch libraries in addition to the larger collections that house materials of importance to Arts and Sciences students. The Chemistry-Math Library, located in the Physical Sciences Center, contains a collection of approximately 80,000 books (including reference materials, periodicals, and monographs) and subscribes to more than 500 journals and continuing serials. The Physics Library, housed in Nielsen Hall, contains 28,000 books and subscribes to 170 journals for physics and astronomy majors. They also have full text access to additional journals.

The Department of Communication's Julian P. Kanter Political Communication Archives, housed in Burton Hall, holds what is generally considered as the world's largest library of broadcast political advertisements, with approximately 80,000 archived political commercials.

The Women's and Gender Studies Library, housed in Robertson Hall, includes over 1,700 books and over 100 films that focus on women's subjects.

Native American Languages Program

The College of Arts and Sciences, through Native American Language Program, promotes the teaching, maintenance, and preservation of Native American languages. Classes are taught in several languages by native speakers with training in linguistics. These languages satisfy both the college's and the University's language requirements.

OU Observatory

The OU Observatory, operated by the Homer L. Dodge Department of Physics and Astronomy, offers free public viewing sessions using a 16-inch LX-200 telescope permanently mounted in a dome on campus.

Computing Resources

In order to meet the challenges of the 21st century, graduates of the College of Arts and Sciences must be able to research problems, gather, evaluate, and analyze information and present the results in a logical coherent manner. The College of Arts and Sciences provides a number of technology resources and computing facilities to help students develop

these skills. See Online and Academic Technology Services for more information.

Variorum Chaucer

401 W. Brooks St., Norman, OK 73019
Phone: (405) 325-6702
www.ou.edu/variorum/

As a unit of the College of Arts and Sciences, the Variorum Chaucer project has a two fold mission: 1) to provide an analysis of the textual history of Chaucer's individual works; 2) to offer a comprehensive overview of all facets of critical commentary on each work. Textual analysis begins with collation, a careful word-by-word comparison of important manuscripts and printed editions of the work in question; in most cases some thirty or so copies are examined. The process allows one to see how copyists and editors, from the 15th century to the late 20th century, understood, revised, presented, and explained the language of Chaucer's works. The survey of criticism seeks to provide a historical survey of all commentary on each aspect of a given work: sources and analogues, date, relationship with other Chaucerian works, all relevant thematic considerations, and individual passages, phrases, and words and words.

Undergraduate Study

Student Responsibilities

It is the student's responsibility to make decisions during undergraduate study that ensure academic success and timely graduation. To make such important decisions, it is crucial that students know and understand the following:

- All requirements for admission to and completion of the degree program.
- The rules and regulations that govern enrollment and graduation.
- University deadlines.
- University policies and procedures.
- Availability of required courses to complete the degree.
- Where and when to go for help.

The University provides a number of resources for students to help them meet their academic responsibilities successfully. These include:

- **Informational publications** such as this catalog, A Guide to Scholarships and Financial Aid, and degree requirement check sheets;
- College of Arts & Sciences website;
- **Academic counselors** in the Academic Services office;
- **Student Success Seminars**, which help develop or improve the skills needed for meeting academic potential;
- **Peer tutors** for assistance with many of the lower-division courses;
- **Writing Center**, which is available to students seeking assistance with writing assignments; and
- **Faculty**, who teach, advise, and later write letters of recommendation for students.

It is the student's responsibility to seek out and make use of the resources provided by the University.

Undergraduate students who experience academic difficulty are strongly encouraged to use the appropriate academic support services provided by the University. Students who have questions about these services should consult their academic advisor within their declared major.

Students who need help with coursework beyond the help available from peer tutors or the instructor may wish to consult with the department offering the course to inquire about the availability of other tutors. Most departments maintain a list of tutors, primarily graduate students within the department. These tutors provide services for a fee arranged between the student and the tutor.

Admission to the College of Arts and Sciences

The minimum requirements for admission to the college are:

1. A declared Arts and Sciences major;
2. At least a 2.00 (C) combined retention grade point average on all college-level work attempted (transfer students with fewer than 60 hours at least a 2.50 GPA); and
3. At least 24 semester credit hours of earned college-level credit.

Some major programs have admission requirements beyond the minimums set by the college.

The freshman year at the University of Oklahoma is spent in University College, which is not a degree-granting college. University College provides an advisory system for freshmen and assists students in choosing a major. University College students are invited to visit the academic advisor housed within the departments in which they have an interest. Transfer to the College of Arts and Sciences from University College is automatic upon completion of the minimum requirements for admission listed above.

Transfer Students

The College of Arts and Sciences welcomes students who wish to transfer from other colleges or universities. Transfer students who have completed at least 24 semester credit hours will be admitted directly into the College of Arts and Sciences if they meet the University's admission requirements. Transfer students who have earned fewer than 24 semester credit hours will be admitted to University College.

The Office of Admissions will determine acceptance of credits from the transferring institutions. The College of Arts and Sciences will determine how the credits apply toward the requirements for an Arts and Sciences degree. All new transfer students who are directly admitted to the College of Arts and Sciences must meet with an academic counselor prior to their first enrollment at the University of Oklahoma.

Transfer students should pay particular attention to the following requirements for graduation from the University of Oklahoma:

- At least 60 semester credit hours must be earned at accredited senior (4-year) institutions.
- At least 48 semester hours of upper-division credit (courses numbered 3000 or above) must be earned. Transfer work is counted as lower-division or upper-division depending on the level at which it was offered at the institution *where it was earned*. Two-year college work is accepted only as lower-division credit.
- Residency: this is defined as coursework taken at the University of Oklahoma, excluding correspondence courses.
 - A minimum of **30** semester credit hours applied toward the degree must be earned in residence at the University of Oklahoma.
 - At least **15 of the final 30** hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the University of Oklahoma.

- At least **15** semester hours of upper-division **major** credit applied to the degree must be earned in residence at the University of Oklahoma.
- Credit transferred from other institutions and credit earned through OU correspondence courses is non-resident credit. Credit earned by examination is considered neither resident nor non-resident for the purposes of these calculations.
- Capstone courses must be taken through the University of Oklahoma unless a substitution is approved by the academic department awarding the degree.

Change of Major/College

A student who wishes to change major fields within the College of Arts and Sciences must fill out a Change of Major Form. This digital form can be completed anytime during business hours within the Hobson Academic Services Center. The student should then schedule an advisement session with the professional staff advisor in the department of the new major. To select a major in another college, the student should contact that college.

Advising Services

The college provides advising services to all undergraduate majors through professional staff advisors in the major departments and through the Hobson Academic Services office.

The Cal Hobson Academic Services Center of the College of Arts and Sciences is located in 124 Ellison Hall. Academic counselors in this office are knowledgeable about programs offered by the college. They assist students with choice of major, transcript evaluation, enrollment, graduation requirements, graduation certification, minors, and any problems of an academic nature. Counselors are available throughout the year. Students may schedule appointments with their counselor at iAdvise.

Students who have earned at least 90 credit hours (earned hours plus current enrollment) should schedule an appointment with an academic counselor in the Academic Services office to determine the remaining requirements for graduation ("degree check").

Seniors must consult with their academic counselor prior to the beginning of their final semester or term to ensure that their final enrollment will complete all remaining graduation requirements. In order to graduate seniors must also complete a graduation application form and submit it during their final term of enrollment prior to published deadlines.

Pre-Law Advising

Undergraduates can pursue admission to law school with any bachelor's degree, although many pre-law students choose history, Letters, or political science. OU has a full-time pre-law advisor dedicated to students who wish to attend law school. The pre-law advisor can offer guidance in not only course selection, but can also assist students in choosing a major that fits their needs and interests. As students proceed through college, the pre-law advisor is available to counsel them through the various stages of law school preparation, application, and selection. See Pre-Professional Advising for more information.

Pre-Medical Professions Advising

OU is one of the few universities in the nation to provide two full-time advisors to guide Pre-Medical Professions students through the process of completing prerequisite requirements, the MCAT and the medical school application process. A variety of workshops are also provided for Pre-Medical students, including a "Personal Statement and Interview

Skills" workshop. These workshops prepare students to be stronger applicants to various medical schools across the country. Students may major in any academic area as OU undergraduates, as long as they take the pre-requisite pre-Med courses. Students interested in Pre-Medical Professions typically receive a bachelor's degree, often in a biological science, before applying to medical school. See Pre-Professional Advising for more information.

Academic Advisors

The College of Arts and Sciences requires all undergraduate majors to meet with their professional academic advisor in their major department each semester prior to enrollment.

The Arts and Sciences professional academic advisors have special expertise in degree program planning, due to their knowledge of the discipline, courses, methods of teaching, and special opportunities available through the major departments. In addition, they can provide information about potential careers and assist with plans for graduate study. Visit Arts & Sciences Academic Advising to find your assigned academic advisor.

Enrollment Information

Credit Hour Regulations

The maximum course load in a fall/spring semester is 19 total hours and 9 hours in the summer term. A student who has established a strong academic record may request to exceed the maximum enrollment hours by petition to their academic counselor.

Change of Enrollment

Deadlines for enrollment, adding a course, and dropping a course are published in the Academic Calendar. *It is the student's responsibility to meet deadlines set by the University for changing an enrollment.*

Pass/No Pass Enrollment

Students have the option of taking a course Pass/No Pass (P/NP). To prevent possible bias in grading, the student's choice of the P/NP option will not be made known to the instructor who will assign the letter grade. The final P/NP grade will be assigned automatically, by computer, on the basis of the letter grade reported by the professor. The grade of P is assigned to a course in which the student earned the equivalent of a C or better. The grade NP is assigned to a course in which the student earned a D or an F. **No credit is given for a course graded NP.** Courses graded P/NP are not calculated into the student's grade point average.

There are three very important restrictions to Pass/No Pass enrollment in the College of Arts and Sciences:

- A student may enroll in a maximum of 16 hours of courses under the P/NP option throughout their academic career.
- A student may **not** use the P/NP option for courses taken to satisfy University General Education requirements, Arts and Sciences college requirements, major credit courses, major support requirements, or minor requirements. Only courses used to fulfill free electives may be taken under the Pass/No Pass option.
- A student may change registration in any course from the P/NP option to a regular graded status (or vice versa) **only** during the first two weeks of a semester or the first week of a regular summer session.

Enrollment Contract

Students are on enrollment contract with the College of Arts and Sciences if their OU and/or Combined GPA is below a 2.00. Students will be notified of their contract status after grades have been posted at the end of each semester. A College Hold is placed on their record until the students raise their GPA back to the required 2.00 or above. Contract students will be required to sign a new contract each semester their GPA remains below the required 2.00. Call 405.325.4411 for more information.

Academic Forgiveness Policy

The Academic Forgiveness Policy, instituted by the Oklahoma State Regents for Higher Education, allows students, under certain circumstances, to have courses removed from the calculation of the retention grade point average. It consists of three components: the repeat policy and reprieve policy, and the renewal policy. These are described in the Academic Standards section of this catalog.

Students should contact the assistant dean in the Hobson Academic Services Center for instructions concerning the process of requesting academic forgiveness.

Graduation Requirements

Rules, Regulations, and Requirements for Undergraduate Programs

The responsibility for meeting graduation requirements lies with the student.

The requirements for graduation from the College of Arts and Sciences are listed on the next several pages. The requirements for a specific degree come from four separate sources:

1. the Oklahoma State Regents for Higher Education;
2. the faculty of the University of Oklahoma;
3. the faculty of the College of Arts and Sciences; and
4. the faculty of a school or department, or the faculty committee administering a special curriculum.

Degree programs normally have four components:

- University-Wide General Education requirements,
- Arts and Sciences college requirements,
- Major requirements, and
- Free electives.

The specific requirements for majors and minors are listed in the Academic Units section of this catalog and on the degree requirement check sheets (p. 36).

Certification of completion of graduation requirements is the responsibility of the Hobson Academic Services Center. If grades for the last term of enrollment prior to the planned date of graduation are not adequate for degree completion, students should immediately contact their academic counselor. The counselor will assist the student in establishing another graduation date.

Graduation Grade Point Average Requirements

The College of Arts and Sciences requires a minimum 'C' (2.00) average in each of the following areas:

- Students must earn a minimum of a 2.00 combined retention grade point average (University of Oklahoma and transfer work combined).

- Students must earn a minimum of a 2.00 retention grade point average on all University of Oklahoma coursework.
- Students must earn a minimum of a 2.00 retention grade point average in all major credit courses (University of Oklahoma and transfer work combined), and a 2.00 retention grade point average in major credit courses taken at the University of Oklahoma. **Some schools and departments in the College of Arts and Sciences have established additional higher grade point requirements for their students.** Please refer to the Academic Units for detailed information.

Ten-Year Limitation Rules

A student in the College of Arts and Sciences may elect to follow the degree requirements that were in place at the time of the student's first enrollment in the Oklahoma State System for Higher Education (excluding high school concurrent enrollment) or exercise the option to update to the most current degree requirements. Those who elect to follow requirements in place at the time of their first enrollment in the Oklahoma State System for Higher Education must complete the requirements within a maximum of 10 calendar years from the date of that enrollment. If the work for a degree covers a period longer than 10 years, the student must update to the most current degree program requirements.

Credit in a student's major that is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the major department, or each individual department if the major is interdisciplinary.

Credit Hour Regulations

Please read this section carefully. Each of the following credit hour regulations must be satisfied to earn a bachelor's degree from the College of Arts and Sciences. Refer to individual degree program check sheets for specific requirements.

Please read this section carefully. Each of the following credit hour regulations must be satisfied to earn a bachelor's degree from the College of Arts and Sciences. Refer to individual degree program check sheets for specific requirements.

- A minimum of **120** semester credit hours **applicable towards an Arts and Sciences degree** must be earned, excluding physical education activity courses.
- A minimum of **80** semester credit hours must be earned in liberal arts and sciences courses for a Bachelor of Arts degree. A minimum of **55** semester credit hours must be earned in liberal arts and sciences courses for a Bachelor of Science degree. "Liberal arts & sciences courses" are defined by the State Regents as courses in the humanities; social and behavioral sciences; communication; natural and life sciences; mathematics; and the history, literature and theory of the fine arts (music, art, drama, and dance). This excludes fine arts courses that focus primarily on performance techniques or involve mostly studio work.
- A minimum of **60** semester credit hours must be earned at accredited senior (4-year) institutions.
- A minimum of **48** semester hours of upper-division credit (courses numbered 3000 or above) must be earned at accredited senior institutions. **Transfer work is counted as lower-division or upper-division depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.**
- A minimum of **30** semester credit hours must be earned in the major, including a minimum of **15** semester credit hours at the upper-division level.

- **Residency:** this is defined as coursework taken at the University of Oklahoma, excluding correspondence courses.
 - A minimum of **30** semester credit hours applied toward the degree must be earned in residence at the University of Oklahoma.
 - At least **15 of the final 30** hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the University of Oklahoma.
 - At least **15** semester hours of upper-division **major** credit applied to the degree must be earned in residence at the University of Oklahoma.
 - A student must be listed as a College of Arts and Sciences student at the time of graduation.
 - Credit transferred from other institutions and credit earned through OU correspondence courses is non-resident. Credit earned by examination is considered neither resident nor non-resident for the purposes of these calculations.
 - Capstone courses must be taken through the University of Oklahoma unless a substitution is approved by the academic department awarding the degree.
- No more than **16** semester credit hours earned under the Pass/No Pass option will apply toward the degree. Refer to the College of Arts and Sciences section on P/NP Enrollment.
- No more than **12** semester credit hours earned in all individualized study courses, e.g., Independent Study and Directed Readings, but excluding Honors Reading and Honors Research, will be counted as part of the minimum 120 semester credit hours required for graduation.
- No courses may be repeated for credit unless specified "repeatable for credit" in the course description of this catalog or the University's course inventory. Refer to the course description for the number of times or hours a course can be repeated.
- Students recommended for the bachelor's degree must achieve a grade point average of 2.0 as a minimum on all course work attempted, excluding any courses repeated or reprieved as detailed in the State Regents' Grading Policy and excluding physical education activity courses.

University-Wide General Education Requirements

All bachelor's degrees offered by the College of Arts and Sciences include the following minimum general education requirements:

Courses for fulfillment of these requirements must be chosen from the University-Wide General Education Approved Course List, published by the University.

Core Area I: Symbolic and Oral Communication (9–19 hours, 3–5 courses):

1. English Composition (6 hours, 2 courses),
2. Foreign Language (met with the college requirement),
3. Mathematics (3 hours, 1 course),
4. Other (may be used when additional credit hours are needed to bring the total hours completed to 40. Approved courses in this area include communication, logic and public speaking).

Core Area II: Natural Science (met with the college requirement)

Core Area III: Social Science (6 hours, 2 courses): U.S. Government, plus one additional social sciences course chosen from the approved list.

Core Area IV: Humanities (12 hours, 4 courses):

1. Understanding Artistic Forms (3 hours, 1 course),
2. Western Civilization and Culture (6 hours, 2 courses), 3 of these 6 hours must be HIST 1483 or HIST 1493,
3. Non-Western Culture (3 hours, 1 course).

Core Area V: Senior Capstone Experience (3 hours, 1 course).

In addition to the Senior Capstone Experience, students must take at least one upper-division General Education approved course outside the student's major.

Arts and Sciences College Requirements

Courses for fulfillment of these requirements must be chosen from the University-Wide General Education Approved Course List published by the University.

All bachelor's degrees offered by the College of Arts and Sciences require the following minimum college requirements:

I. Science (7 hours, 2 courses, consisting of one biological science and one physical science course. One of the courses must include a laboratory.)

II. Foreign Language (0–13 hours. One course at the intermediate level or demonstrated competency at that level. Students may need to complete one or two courses at the introductory level prior to enrolling in an intermediate course. Language courses transferred from another institution must be equated to an OU intermediate-level course or evaluated by OU. Competency at the intermediate level will also fulfill the General Education Foreign Language requirement.)

III. Additional Core IV Humanities courses (6 upper-division hours, 2 courses at the 3000-level or above. Must be outside the major and selected from approved courses in Understanding Artistic Forms, Western Civilization and Culture, or Non-Western Culture.)

Application for Graduation

Students are responsible for filing an official graduation application during their final semester. Graduation applications are available online at one.ou.edu. Failure to file the graduation application will result in the student not being eligible for graduation during that semester or term. Those students who plan to graduate in the fall are strongly encouraged to apply for graduation before September 15; those finishing in the spring before February 15; and those finishing in the summer before June 1. In addition to completing all academic requirements for the undergraduate degree, students must also pay all tuition and fees before the degree can be conferred. Students who complete all academic requirements but fail to pay tuition and fees before the beginning of the following semester or session will have the original graduation date printed on their diploma, but only after all tuition and fees are paid.

Degree Check

Students who have earned 90 or more credit hours should schedule a degree check with their academic counselor in the Hobson Academic Services Center. At this appointment the counselor will review the student's transcript and how the completed courses will apply to the degree program. At the conclusion of the degree check, the student will know exactly how the earned credits apply to his/her degree as well as

what courses and how many hours are required to graduate. It is crucial for students to complete the degree check so they will know exactly where they are on the track to graduation. Students may schedule a degree check appointment at iAdvise.

Graduate Study

Refer to the Graduate tabs within each of the Arts and Sciences academic units' pages of this catalog for information concerning graduate work.

Academic Achievement

Recognition of Academic Achievement

Dean's Honor Roll

The College of Arts and Sciences Honor Roll is compiled at the close of each fall and spring semester. It includes students who have completed at least 12 grade point hours and have earned an average of 3.50 or higher for the semester.

Scholarships and Awards

Scholarships and awards are given annually to students who have achieved academic excellence. Among the many scholarships available only to Arts and Sciences majors are the College of Arts and Sciences Leadership Scholars scholarships, awarded to sophomores, juniors and seniors, and Phi Beta Kappa scholarships awarded to juniors and seniors.

The prestigious Carl Albert Award is given annually to the Arts and Sciences senior who best demonstrates superior academic achievement, moral force of character, and the promise of future service to the state and nation. Each year, the college also awards four outstanding students, each student representing one of the college's four divisions: natural sciences, humanities, social sciences, and professional programs.

The College of Arts and Sciences offers approximately 160 scholarships annually through the dean's office and many other scholarships through its various departments and schools. Students should consult the college's website or the University's publication *A Guide to Scholarships and Financial Aid* for further information. The *Guide* is available on the Financial Aid Services website.

Phi Beta Kappa

Phi Beta Kappa, the nation's oldest college honor society, was founded at the College of William and Mary in 1776. Alpha Chapter of the University of Oklahoma was chartered in 1920. Membership in Phi Beta Kappa is open by invitation only to juniors and seniors in the College of Arts and Sciences, the Gaylord College of Journalism, and a limited number of other programs.

Juniors and seniors with distinguished academic records are elected in March/April of each year. Students who graduate at the end of the summer session or fall semester are eligible for election the following spring. For additional information about the University's Phi Beta Kappa chapter, contact the College of Arts and Sciences Academic Services office, or visit the Phi Beta Kappa website.

College Honorary Organizations

Several of the departments and schools within the College of Arts and Sciences participate in national honorary societies, and others have established University of Oklahoma honorary organizations. Students should check with their major department for this information.

College of Arts and Sciences Administrated Programs

- Community Health, Bachelor of Arts (p. 125)
- Community Health, Bachelor of Science (p. 127)
- Latinx Studies, Bachelor of Arts (p. 129)
- Planned Program, Bachelor of Arts (p. 132)
- Planned Program, Bachelor of Science (p. 133)
- Public Health, Bachelor of Public Health (p. 135)
 - Approved Public Health and Community Health Major Electives (p. 138)
- Editing and Publishing, Minor (p. 138)
- Enterprise Studies, Minor (p. 139)
- International Enterprise Studies, Minor (p. 139)
- Latinx Studies, Minor (p. 140)
- Public and Community Health, Minor (p. 141)

Public and community Health

Public and community health programs focus on population health (e.g. the community, group, city level), instead of individual patient health. These programs build from the OU core curriculum and build knowledge and skills necessary for work public health, community health, and related fields. We want to understand what factors contribute to health, what factors contribute to injury or disease, prevent poor health outcomes, and promote healthy populations. Public health is a very broad field of study, incorporating many disciplines, to develop solutions to complex health issues (for example: access to healthcare, substance abuse, workplace injury, infectious disease outbreaks).

Latinx studies

Latinx Studies is an interdisciplinary course of studies in literature, politics, history, culture, and society. Students can pursue a primary course of study (a Planned Program) or take courses toward a minor to create a valuable supplement to any major whether in the humanities, sciences, or social sciences.

Planned Programs

The Planned Program options offer students the opportunity to design a degree program that meets their own unique needs and interests, particularly when their interests diverge from the pre-determined options offered by the University. The Planned Program major is available in the areas of Social Sciences & Organizational Studies, Interdisciplinary Perspectives on the Environment, general Bachelor of Arts studies, and general Bachelor of Science studies. Students in this major will work closely with an academic advisor in the development of their degree program and selection of appropriate courses for their concentration.

Community Health, Bachelor of Arts

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.**
- **33 hours of major work must be completed. A grade of C or better must be earned in each course presented for major and major support credit.**

Code	Title	Credit Hours
Public Health Core		
PHCH 2013	Introduction to Public and Community Health	3
PHCH 3113	Introduction to Epidemiology	3

Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO¹ 3-4

Physical Science

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS¹ 3-4

Core Area III: Social Science (6 hours)

P SC 1113 American Federal Government 3

Choose one course from the General Education Social Science list 3

Core Area IV: Humanities (18 hours)

Understanding Artistic Forms

Choose one course from the General Education Artistic Forms list 3

Western Civilization and Culture

HIST 1483 United States, 1492 to 1865 3
or HIST 1493 United States, 1865 to the Present

Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493) 3

Non-Western Culture

Choose one course from the General Education Non-Western Culture list 3

Additional Core IV Upper-Division Humanities courses

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture^{1,3} 3

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture^{1,3} 3

Core Area V: Senior Capstone Experience (3 hours)

Choose one General Education Capstone course 3

Total Credit Hours 56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Community Health academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Community Health major requirements.

A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Latinx Studies program academic advisors to verify that courses selected each semester fulfill the recommended

plan and satisfy university, College of Arts and Sciences, and Latinx Studies major requirements.

Course	Title	Credit Hours

Planned Program, Bachelor of Arts

- 48 Upper-Division Hours Required.
- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements

Major Requirements

Every candidate for this degree must select an area of concentration, which is a set of courses with a coherent theme that meets the student's professional and personal goals. These courses must total a minimum of 36 credit hours, with a minimum of 50 percent of those hours completed at the upper-division level (3000-4000-level). Courses selected as fulfilling the major requirements must be reviewed by an academic counselor in the College of Arts and Sciences and approved by the Dean.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5

Intermediate Course (2000 level) ^{1,2} 0-3

Mathematics (3 hours)

Choose one course from the General Education Mathematics list 3

Core Area II: Natural Science (7 hours, including one laboratory component)

Biological Science

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹ 3-4

Physical Science

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹ 3-4

Core Area III: Social Science (6 hours)

P SC 1113 American Federal Government 3

Choose one course from the General Education Social Science list 3

Core Area IV: Humanities (18 hours)

Understanding Artistic Forms

Choose one course from the General Education Artistic Forms list 3

Western Civilization and Culture

HIST 1483 United States, 1492 to 1865 3
or HIST 1493 United States, 1865 to the Present

Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493) 3

Non-Western Culture

Choose one course from the General Education Non-Western Culture list 3

Additional Core IV Upper-Division Humanities courses

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3} 3

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3} 3

Core Area V: Senior Capstone Experience (3 hours)

Choose one General Education Capstone course 3

Total Credit Hours 56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Planned Program major requirements.

Editing and Publishing, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the College of Arts and Sciences.

Required Courses

Students must successfully complete at least 15 hours of courses, including at least 9 hours at the upper-division level.

- A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
Language Skills		
Students must earn a passing grade on a test of English-language skills administered by the College of Journalism or the OU Writing Center.		
Interdisciplinary Methods		
Choose two courses (6 hours) from the following: ¹		6
ARTC 2813	Introduction to Visual Culture and Media Literacy

successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Clara Luper Department of African and African-American Studies

Karlos K. Hill, Ph.D., Director
Physical Science Bldg room 517
601 Elm Avenue
Norman, OK 73019-3120
(405) 325-2327
FAX: (405) 325-3355
rsgomez@ou.edu
www.ou.edu/cas/afam

General Information

The mission of the Clara Luper Department of African and African American Studies (AFAM) is first to exemplify excellence in research, teaching and service, in accordance with the mission of the University of Oklahoma (OU) and the College of Arts and Sciences (CAS). Specifically, AFAM has the mission to provide students with a broad, interdisciplinary education inclusive of a focus on Africa and the traditional areas of study of the African American Studies / Black Studies discipline.

The African & African American Studies (AFAM) program offers the B.A. degree in African & African American Studies. Students earning a B.A. degree in AFAM must also complete specified University and College of Arts & Sciences degree requirements. Students may also choose to enroll with a minor in AFAM.

AFAM courses are exciting, challenging and offer students (from all racial and ethnic backgrounds) the opportunity to hear and discuss important content, essential to Africa and the African American experience, in a constructive learning environment. Students are exposed to different theoretical approaches, typically taught in Black Studies. All students should emerge from the program with a clearer understanding of African-centered thought, as well as alternative paradigms articulated within the discipline.

In the 1960s, at the inception of the Black Studies discipline, Black Studies serviced both the campus and the community. Here at OU, we aim to facilitate dialogue between those on campus and in the community via education and civic engagement.

African & African American courses are stimulating, thought provoking, and interdisciplinary. Courses in this program offer students from all racial and ethnic backgrounds the opportunity to hear and discuss important content, essential to Africa and the African American experience in a constructive learning environment.

Career Opportunities

Majoring in African and African American Studies challenges students with a high level of critical thinking encouraging the growth of knowledge beyond the bounds of the traditional college program. Learning about and tackling important societal issues such as poverty and healthcare provides an understanding that will allow a graduate to stand out to potential employers.

Graduate of the program have entered graduate schools or the work force in the following areas:

- Community Service
- Education
- History
- Journalism
- Law
- Nonprofit organizations
- Social services
- The arts
- And many more...

All students should emerge from the program with a clearer understanding of African-centered thought, as well as alternative paradigms articulated within the discipline.

Programs & Facilities

AFAM Newsletter

AFAM has a mission to provide studies with a broad, interdisciplinary education inclusive of a focus on Africa and the traditional areas of study of the African American Studies/Black Studies Discipline. The AFAM newsletter highlights students, faculty, and staff on their accomplishments, as well as, other program news.

AFAM Scholarships

- Raymond Gary Memorial Scholarship
- The Wayne C. Thompson Memorial Scholarship
- The Ashlee T. Madison Freedom Scholarship

Undergraduate Study

The Department of African and African-American Studies (AFAM) provides students with the opportunity to engage in the scholarly and academic study of the African-American experience, using the study of Africa as a starting point. This interdisciplinary program is intended to help students develop understanding, perceptions, and attitudes for living more successfully in the increasingly multicultural world. The African and African-American Studies program helps prepare students for employment in many different settings.

Programs Offered

- African and African-American Studies, Bachelor of Arts (p. 142)
- African and African-American Studies, Minor (p. 145)

Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of African and African American Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and African and African American Studies major requirements.

African and African-American Studies, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the African and African-American Studies program.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in AFAM, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
Required Course		
AFAM 2003	Introduction to African and African-American Studies	3
Electives		
Choose 15 additional hours AFAM courses or courses from other departments as listed on the AFAM major degree sheet, as approved by AFAM Program Director (9 of these hours must be upper division)		15
Total Credit Hours		18

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Department of Anthropology

Dr. Asa Randall, Chair
 Dr. Kermyt Anderson, Graduate Liaison
 521 Dale Hall Tower
 455 W Lindsey
 Norman, OK 73019-2005
 Phone: (405) 325-3261
 FAX: (405) 325-7386
anthropology@ou.edu
www.ou.edu/cas/anthropology

General Information

Anthropology is the holistic study of human beings, including the biological and cultural aspects of people in all times and all places. The Department of Anthropology's faculty research and teaching interests encompass archaeology, sociocultural anthropology, linguistic anthropology, and health and human biology (which integrates biological, molecular, and medical anthropology). We are particularly focused on the anthropology of Native America. We also have strengths in Latin America, the Caribbean, Africa, and the Pacific Islands. Our mission is to advance knowledge of and respect for human diversity. We are the only anthropology department in the state system of higher education.

The Department of Anthropology has vibrant graduate and undergraduate degree programs. Undergraduate students may earn an anthropology degree through either a B.A. in Anthropology or B.S. in Human Health & Biology. Depending on the program, undergraduate degrees in anthropology require courses in one or more subfields, as well as course requirements in research methods, resulting in a well-rounded understanding of people in this country and around the world, both past and present. The department offers fieldwork opportunities and is active in the Undergraduate Research Opportunities Program and the Honors College, so that undergraduates who so desire can obtain actual experience in anthropology. We maintain close ties with the Oklahoma Archaeological Survey and the Sam Noble Oklahoma Museum of Natural History, and we encourage international study to augment these opportunities.

Programs & Facilities

The Department of Anthropology is located primarily in Dale Hall Tower. Some faculty have offices and/or labs in other buildings. Please check with individual faculty for their office locations.

Undergraduate Research and Travel Opportunities

Undergraduate Research Opportunities Program

UROP is a competitive program offering financial assistance to talented undergraduates for research, scholarly, and/or creative projects. Potential applicants must first coordinate their research with a faculty member willing to act as a sponsor.

Undergraduate Research Day

Each spring semester, the Honors Program sponsors this opportunity for undergraduates, whether in the Honors Program or not, to present their research in a professional and supportive environment. Application forms are available from the OU Honors Program.

Student Organizations

The Undergraduate Anthropology Society (UAS) is the undergraduate student organization that provides anthropology majors and minors an opportunity to meet, socialize, and learn more about anthropology.

The Anthropology Graduate Student Association (AGSA) brings together Anthropology graduate students for the purpose of aiding in their professional development within the discipline. AGSA's Speakers Bureau invites scholars to give public lectures related to the interests of the department and fundraises to be able to afford these events. AGSA also coordinates professional development workshops with graduate students and faculty on topics of interest to current graduate students.

Undergraduate Study

Anthropology is a social science that covers the breadth of human experience and encompasses four subfields: archaeology, biological, cultural, and linguistic anthropology. One of the characteristics that distinguishes anthropology from many other disciplines is its adherence to the concept of cultural relativism, which states that each culture is viewed on its own terms and not ethnocentrically against the standards of others.

A major in anthropology provides a broad understanding of human beings and is a central part of a liberal arts education. The B.A. in Anthropology is the basis for obtaining certain kinds of jobs in archaeology, museums, or the human resources sector, as well as for graduate study in anthropology or other social science fields. The B.S. in Human Health & Biology provides an awareness of biological and cultural diversity with an emphasis on biocultural and evolutionary perspectives on health and disease. It can enable students to obtain the foundation in chemistry, biology, and mathematics needed for medical school, for graduate study in health-related fields, and for a range of entry-level health professions.

Programs Offered

- Anthropology, Bachelor of Arts (p. 148)
- Human Health & Biology, Bachelor of Science (p. 152)
- Anthropology, Minor (p. 154)
- Anthropology, Bachelor of Arts/Sociocultural Anthropology, Master of Arts (p. 155)

Graduate Study

The Department of Anthropology offers both M.A. and Ph.D. degrees in anthropology. The department's geographical area of emphasis is the Americas. The department recognizes the historical relationship of anthropology to other areas of the world and to other peoples, and we also have faculty with such research interests.

Because of its location in a state with 38 federally recognized tribes, important archaeological sites and museum collections, and many nationally prominent anthropological research facilities, graduate study at the University of Oklahoma offers unique educational opportunities. The department has a concentration of specialists in Native America. Complementing our focus on Native America are those of faculty in the departments, colleges and programs including Art History, English, Geography, Health Sciences, History, Linguistics, and Native American Studies. Faculty in the department have helped Oklahoma tribes design and implement studies that include health care, language education, ethnomedicine, federal recognition, genealogy, historical anthropology, politics, sociolinguistics, oral history, tribal histories and archives, and tribal cultural studies programs. The department and the affiliated Oklahoma Archeological Survey support several on-going archaeological research projects in Oklahoma and Kansas, the North American Southwest and Southeast, and northern Mexico. The projects include the earliest settlers in the New World, Paleoindian, Archaic, formative village agriculturalists, hierarchical societies, and historic peoples.

Unique Research Opportunities

- Museum collections at the Sam Noble Oklahoma Museum of Natural History, the Fred Jones Museum of Art, and the Gilcrease Museum in Tulsa.
- The Oklahoma Archeological Survey, a state agency housed at the University of Oklahoma, conducts archaeological research in the state of Oklahoma and offers field and laboratory opportunities for research.
- Archival collections at OU's Western History Collection, the Oklahoma Historical Society, and the Regional Federal Archives.

Master of Arts Degree

The Master of Arts (p. 158) provides a broad, generalized knowledge of anthropology, along with a field of specialization. A master's student will take courses in each of the fields of specialization and will concentrate the elective coursework in any one of those fields.

Master of Arts in Applied Linguistic Anthropology Degree

The Masters of Arts in Applied Linguistic Anthropology (p. 158) is devoted to the preservation of the world's endangered languages, with the hope that careful documentation — coupled with community-based educational programs — will one day reverse the devastating effects of language loss throughout much of the world today. It is imperative that we train a new generation of scholars to continue the documentation of endangered languages throughout the world. Yet, because the future of a language ultimately rests with its speakers, it is equally important that we prepare our students to promote community-based educational programs aimed at revitalizing native languages at the community level.

Bachelor of Arts/Master of Arts

The (p. 158) accelerated Bachelor of Arts/Master of Arts (p. 155) provides students with the opportunity to simultaneously receive an Anthropology Bachelor of Arts and a Master of Arts degree with

a specialization in Sociocultural Anthropology. Admission to the program follows departmentally-determined guidelines for admission, including minimum GPA, excusing GRE scores, application materials, and application due date.

Anthropology Doctoral Programs

There are specific requirements for each track in the Anthropology doctoral programs (p. 159).

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Anderson	Kermyt	G	2002	ASSISTANT PROFESSOR OF ANTHROPOLOGY, 2015	PhD, Univ of New Mexico, 1999; MS, Univ of New Mexico, 1996; BA, Univ of North Carolina, 1993
Bessire	Lucas		2011	ASSOCIATE PROFESSOR OF ANTHROPOLOGY, 2017	PhD, New York Univ, 2010; MA, New York Univ, 2006; BA, Kansas State Univ, 2001

Fenn	Thomas		2018	ASSISTANT PROFESSOR OF ANTHROPOLOGY, 2018	PhD, Univ of Arizona, 2011
Harris	Betty	J	1985	PROFESSOR OF ANTHROPOLOGY, 2006	PhD, Brown Univ, 1982; AM, Brown Univ, 1978; AB, Brandeis Univ, 1975
Hirschfeld	Tassie	K	2002	ASSOCIATE PROFESSOR OF ANTHROPOLOGY, 2008; ADJUNCT ASSOCIATE PROFESSOR OF INTERNATIONAL AND AREA STUDIES, 2017	PhD, Emory Univ, 2001; MA, Emory Univ, 1996; BA, Mass Amherst, 1991
Hofman	Courtney	A	2016	ASSISTANT PROFESSOR OF ANTHROPOLOGY, 2016	PhD, Univ of Maryland, 2015; MS, Univ of Maryland, 2011; BA, BS, Univ of Notre Dame, 2009
Honap	Tanvi Prasad		2017	RESEARCH ASSISTANT PROFESSOR, 2017; ADJUNCT ASSISTANT PROFESSOR OF ANTHROPOLOGY, 2018	PhD, Arizona State Univ, 2017; MS, Univ of Pune, 2012; BS, Univ of Pune, 2010

Jervis	Lori	L	2008	ADJUNCT ASSOCIATE PROFESSOR OF NATIVE AMERICAN STUDIES, 2010; PROFESSOR OF ANTHROPOLOGY, 2017;	PhD, Univ of Minnesota, 1998; MA, Univ of Minnesota, 1990; BA, Univ of Minnesota, 1987
Kemp	Brian		2016	ASSOCIATE PROFESSOR OF ANTHROPOLOGY, 2016	PhD, University of California Davis, 2006
Klein	Misha		2005	ASSOCIATE PROFESSOR OF ANTHROPOLOGY, 2012; ADJUNCT ASSOCIATE PROFESSOR OF WOMEN'S AND GENDER STUDIES, 2012	PhD, Univ of California-Berkeley, 2002; MA, Univ of California-Berkeley, 1989; BA, Univ of California-Berkeley, 1988
Levine	Marc		2013	ASSISTANT PROFESSOR OF ANTHROPOLOGY, 2013; ASSISTANT PROFESSOR OF SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 2013; ASSISTANT CURATOR, SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 2013	PhD, Univ of Colorado, 2007; MA, Univ of Colorado, 2002; BA, Univ of Michigan, 1996
Lewis	Cecil	M	2007	PRESIDENTIAL RESEARCH PROFESSOR, 2014; PROFESSOR OF ANTHROPOLOGY, 2017	PhD, Univ of New Mexico, 2005; MA, Univ of New Mexico, 2000; BA, Univ of Washington, 1995
Livingood	Patrick	C	2006	ASSOCIATE PROFESSOR OF ANTHROPOLOGY, 2012	PhD, Univ of Michigan, 2006; MA, Univ of Michigan, 1999; BS, Univ of North Carolina, 1996
Marshall	Kimberly		2011	ASSOCIATE PROFESSOR OF ANTHROPOLOGY, 2018	PhD, Indiana Univ, 2011; MA, Indiana Univ, 2011; MA, Univ of Oregon, 2004; BA, Northwestern Univ, 2001
O'Neill	Sean	P	2001	ASSOCIATE PROFESSOR OF ANTHROPOLOGY, 2008	PhD, Univ of California Davis, 1997; MA, Univ of California Davis; BA, Humboldt State Univ, 1991
Pailes	Matthew	C	2016	ASSISTANT PROFESSOR OF ANTHROPOLOGY, 2016	PhD, Univ of Arizona, 2015; MA, Univ of Arizona, 2008; BA, Univ of Oklahoma, 2005

Pitblado	Bonnie	L	2012	PROFESSOR OF ANTHROPOLOGY, 2012; ROBERT E. AND VIRGINIA BELL CHAIR IN ANTHROPOLOGY, 2012	PhD, Univ of Arizona, 1999; MA, Univ of Arizona, 1993; BA, Carleton College, 1990
Rambo	Karl	F	1989	ASSOCIATE PROFESSOR OF ANTHROPOLOGY, 2009	PhD, SUNY at Stonybrook, 1993; MA, SUNY at Stonybrook, 1985; BA, Univ of Oklahoma, 1981
Randall	Asa	R	2011	ASSOCIATE PROFESSOR OF ANTHROPOLOGY, 2017	PhD, Univ of Florida, 2010; MA, Univ of Florida, 2002; BA, Boston Univ, 1999
Sapient	Racquel	M	2012	ASSISTANT PROFESSOR OF ANTHROPOLOGY, 2012	PhD, Univ of Oregon, 2010; MA, Chapman Univ, 2001; BA, CUNY-Queens College, 1994
Singer	Elyse		2018	ASSISTANT PROFESSOR OF ANTHROPOLOGY, 2018	PhD, Washington Univ, 2017
Spicer	Paul	G	2008	PROFESSOR OF ANTHROPOLOGY, 2008; ADJUNCT PROFESSOR OF NATIVE AMERICAN STUDIES, 2010; ADJUNCT PROFESSOR OF LIBERAL STUDIES, 2010; CIMMS FELLOW, 2012	PhD, Univ of Minnesota, 1995; MA, Univ of Minnesota, 1990; BA, Univ of Michigan, 1988
Swan	Daniel	C	2006	CURATOR, ETHNOLOGY, SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 2006; ADJUNCT PROFESSOR OF LIBERAL STUDIES, 2009; PROFESSOR OF ANTHROPOLOGY, 2013; PROFESSOR OF OKLAHOMA MUSEUM OF NATURAL HISTORY, 2013; ADJUNCT PROFESSOR OF NATIVE AMERICAN STUDIES, 2015; HEAD, PUBLIC OUTREACH, 2018	PhD, Univ of Oklahoma, 1990; MA, Univ of Oklahoma, 1982; BA, SUNY Binghamton, 1977
Trabert	Sarah		2015	ASSISTANT PROFESSOR OF ANTHROPOLOGY, 2015	PhD, Univ of Iowa, 2015; MA, Univ of Iowa, 2010; BA, Kansas State Univ, 2008
Warinner	Christina	G	2014	ASSISTANT PROFESSOR OF ANTHROPOLOGY, 2014	PhD, Harvard Univ, 2010; MA, Harvard Univ, 2008; BA, Univ of Kansas, 2003

Anthropology, Bachelor of Arts

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.

Code	Title	Credit Hours
Anthropology Core ¹		
ANTH 2203	Global Cultural Diversity	3
ANTH 2303	General Linguistics	3
ANTH 3113	Principles of Archaeology	3
ANTH 3203	Introduction to Biological Anthropology	3
ANTH 4113	Anthropology Capstone	3
Anthropology Electives		
Choose 21 hours of Anthropology electives (p. 148)		21
Total Credit Hours		36

¹A grade of C or higher must be earned for each Anthropology Core class to fulfill the requirements for the Anthropology major.

Anthropology MAJOR Electives

The 21 hours of Anthropology electives are subject to the following requirements and restrictions:

- Methods Class:** Must have at least 3 credit hours that are listed as Research Methods as defined by the Anthropology Elective List¹ which may be obtained from the departmental website.
- Three Subfields:** Must have upper division (3000- or 4000-level) electives that span at least 3 different subfields as defined by the Anthropology Elective List¹ which may be obtained from the departmental website. The four possible subfields are: *Archaeological*, *HNB* (Human Health & Biology), *Linguistic*, and *Socio-Cultural*.
- At least 15 hours of electives must be 3000- and 4000-level classes.
- Up to 3 credit hours of these electives can be filled by Independent Study, Internship, Thesis, Honors Research, or Mentored Research (ANTH 3810, 3910, 3920, 3940, 3950, 3980, 3990, 4980, or 4990).
- Up to 3 credit hours of electives can be filled by approved non-Anthropology courses. These allowable classes are listed on the Anthropology Elective List¹. This includes study abroad from any department.

¹The most current Anthropology Elective List (p. 150) can be found at: <http://www.ou.edu/cas/anthropology/undergraduate/electives>.

Some Anthropology electives may fulfill more than one subfield or can fulfill both subfield and research methods categories. In these cases, completing one course may satisfy two distribution requirements within the "Anthropology Electives" major requirement. For example, a student whose first class is designated Biological & Research Methods and whose second class is Socio-Cultural & Linguistic would fulfill requirements #1 and #2 above with those two classes alone.

Please consult with the Department advisor if you have any questions.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education

course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level)		0-3 ^{1,2}
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
<i>Understanding Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Civilization and Culture</i>		
HIST 1483	United States, 1492 to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
<i>Non-Western Culture</i>		
Choose one course from the General Education Non-Western Culture list		3
<i>Additional Core IV Upper-Division Humanities courses</i>		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}		3
Core Area V: Senior Capstone Experience (3 hours)		

Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and/or Department of Anthropology academic advisors to verify that courses selected each semester

fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Anthropology major requirements.

Course	Title	Credit Hours

Anthropology Department Electives List

- For the most current course list, please see the Department of Anthropology website.

For the Anthropology major, the choice of electives must satisfy these rules:

1. At least one of the major electives must be a Methods class. The list below indicates which classes are Methods classes.
2. At least three different subfields of Anthropology must be represented in the 3000 and 4000-level electives. The 4 subfields to choose from are Archaeological, Human Health & Biology (HHB), Linguistic, and Socio-Cultural. The list below indicates which subfield(s) the classes are associated with.
3. Students must have at least 15 hours of electives at the 3000- and 4000-levels.

Note that some Anthropology electives may fulfill more than one subfield, or can fulfill both subfield and research methods categories. In these cases, completing one course may satisfy two distribution requirements. For example, a student whose first class is designated Biological & Research Methods and whose second class is Socio-Cultural & Linguistic would fulfill requirements #1 and #2 above with those two classes alone.

The placement of rotating topics course numbers, independent study, unequated transfer courses, and study abroad will be decided by the adviser based on content.

Methods Courses

Code	Title	Credit Hours
ANTH 3930	Fieldwork in Archaeology (also Archaeology subfield)	1-8
ANTH 4023	Museum Anthropology II	3
ANTH 4253	The Anthropology of Communities (also Socio-Cultural subfield)	3
ANTH 4283	Curriculum & Teaching Materials Development for Endangered Languages (also Linguistic subfield)	3
ANTH 4373	Dictionaries and the Lexicon (also Linguistic subfield)	3
ANTH 4683	Quantitative Data Analysis in the Social Sciences and Anthropology	3
ANTH 4713	Statistical Concepts in Anthropology	3
ANTH 4763	Archaeological Analysis: Methods, Theory and Practice (also Archaeology subfield)	3
ANTH 4930	Advanced Fieldwork in Anthropology (also Archaeology subfield)	1-8
ANTH 4943	Human Osteology and Paleopathology (also HHB subfield)	3
ANTH 4973	Introduction to Faunal Analysis (also Archaeology subfield)	3

Archaeology Courses

Code	Title	Credit Hours
ANTH 3373	Archaeology of Death and Burial	3
ANTH 3783	The Anthropology of Slavery and Captivity (also Socio-Cultural subfield)	3
ANTH 3803	Asian Prehistory	3
ANTH 3883	Archaeology of South America	3
ANTH 3893	Maya, Aztec and Inca: High Civilizations of Ancient America	3
ANTH 3930	Fieldwork in Archaeology (also Methods)	1-8
ANTH 3940	Internship in Archaeology	1-6
ANTH 4103	People and Plants	3
ANTH 4133	Experimental Archaeology	3
ANTH 4163	The Study of Material Culture (also Socio-Cultural subfield)	3
ANTH 4343	The Archaeology of Belief: Religion and Cosmology in the Past	3
ANTH 4383	Archaeological Origins of Inequality	3
ANTH 4413	Public Archaeology	3
ANTH 4463	Peopling of the New World	3
ANTH 4743	Culture Contact in the New World	3
ANTH 4763	Archaeological Analysis: Methods, Theory and Practice (also Methods)	3
ANTH 4783	Landscape Archaeology	3
ANTH 4813	Archaeology of North America	3
ANTH 4833	Archaeology of the Great Plains	3
ANTH 4853	Archaeology of the Greater Southwest	3
ANTH 4863	Archaeology of the Southeast	3

ANTH 4930	Advanced Fieldwork in Anthropology (also Methods)	1-8
ANTH 4973	Introduction to Faunal Analysis (also Methods)	3

Human Health & Biology Courses

Code	Title	Credit Hours
ANTH 3873	Primate Evolution and Behavior	3
ANTH 3910	Internship in Biological Anthropology	6
ANTH 4083	Genetic Perspectives on Human Evolution	3
ANTH 4183	Anthropology of Diet & Nutrition	3

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.
- A grade of "C" or higher must be earned in each course presented for major credit.

Code	Title	Credit Hours
General Anthropology		
ANTH 1113	General Anthropology	3
ANTH 4113	Anthropology Capstone	3
Biological Anthropology		
ANTH 3203	Introduction to Biological Anthropology	3
Anthropology Electives (21 hours, total) ¹		
<i>Human Health & Biology</i>		
Choose at least 9 hours of upper division electives in HHB (p. 150) ²		9
<i>History, Culture, & Language</i>		
Choose 9 hours from the following:		9
ANTH 2203	Global Cultural Diversity	
ANTH 2303	General Linguistics	
ANTH 3113	Principles of Archaeology	
Upper division electives in Archaeology, Sociocultural, or Linguistic Anthropology (p. 150) ^{2,3}		
<i>Additional Anthropology Elective</i>		
Choose one course		3
Total Credit Hours		30

¹A total of 21 additional hours in Anthropology.

At least 15 hours must be from 3000 or 4000 level classes.

Up to 3 credit hours of electives can be filled by Independent Study, Internship, Thesis, Honors Research, or Mentored Research. (ANTH 3810, 3910, 3920, 3940, 3950, 3980, 3990, 4980, or 4990)

Up to 3 credit hours of electives can be filled by approved non-Anthropology courses. These allowable classes are listed on <http://www.ou.edu/cas/anthropology/undergraduate/electives>. This includes study abroad from any department.

²As listed on <http://www.ou.edu/cas/anthropology/undergraduate/electives>.

³Note, these classes cannot also be listed in HHB.

--	---

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
--	---

Core Area V: Senior Capstone Experience (3 hours)

Choose one General Education Capstone course	3
--	---

Total Credit Hours	56
--------------------	----

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Anthropology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Human Health & Biology major requirements.

Anthropology, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Anthropology Department.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Anthropology, including at least nine (9) hours at the upper-division level.

Choose one of the following Pathways:

Code	Title	Credit Hours
Pathway 1		
ANTH 1113	General Anthropology	3
Choose at least 12 additional hours of course credit acceptable for major credit in Anthropology. At least nine (9) of these hours must be upper division.		12
Total Credit Hours		15

Code	Title	Credit Hours
Pathway 2		
Choose 15 hours of coursework acceptable for major credit in Anthropology with the following conditions:		15
1. At least nine (9) of these hours must be upper division (3000-4000 level).		
2. Must have electives that span at least three different subfields as defined by the Anthropology Elective Category list, which may be obtained from the Department website. The four possible subfields are: Archaeology, Health & Human Biology, Linguistics, Socio-Cultural ¹		
Total Credit Hours		15

¹The most current Anthropology Elective Category (p. 150) list can be found at <http://www.ou.edu/cas/anthropology/undergraduate/electives>. Please consult with the Department advisor if there are any questions.

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Anthropology, Bachelor of Arts/ Sociocultural Anthropology, Master of Arts

- The 13 shared hours count as both Graduate and Upper-Division credit. ANTH 5001 is a free-elective for the Undergraduate degree.

Undergraduate Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.

Code	Title	Credit Hours
Anthropology Core Major Requirements¹		
ANTH 2203	Global Cultural Diversity	3
ANTH 2303	General Linguistics	3

ANTH 3113	Principles of Archaeology	3
ANTH 3203	Introduction to Biological Anthropology	3
ANTH 4113	Anthropology Capstone	3

Anthropology Electives

Choose 21 hours (see restrictions below) (p. 155)	21
Total Credit Hours	36

¹A grade of C or higher must be earned for each Anthropology Core class to fulfill the requirements for the Anthropology major.

Graduate Requirements

Code	Title	Credit Hours
Required Course		
ANTH 5001	Professionalization in Anthropology (shared)	1

Core Courses¹

ANTH 5123	Contemporary Culture Theory (shared)	3
ANTH 5223	Foundations of Social Thought (shared)	3
Choose one of the following:		3

ANTH 5363	Linguistic Anthropology	
ANTH 6633	Method and Theory in Biological Anthropology	
ANTH 6713	Archaeological Theory	

Research Methods (shared)

ANTH 5253	The Anthropology of Communities	3
or ANTH 5213	Ethnographic Methods	

Thesis

ANTH 5980	Research for Master's Thesis	4
-----------	------------------------------	---

Electives

Choose 12-15 hours ²	12-15
Total Credit Hours	29-32

¹Students must fulfill the two-course core course sequence, as well as a core course in one other subfield (linguistic anthropology would be the default and highly recommended course for most students) selected in consultation with the student's advisor and committee.

²12-15 hours of coursework selected in consultation with the student's advisor and committee. No more than 6 hours from outside Anthropology may be applied. (3 hours shared)

Undergraduate Anthropology Electives

The 21 hours of Anthropology electives for the undergraduate degree are subject to the following requirements and restrictions:

1. **Methods Class:** Must have at least 3 credit hours that are listed as Research Methods as defined by the Anthropology Elective List¹ which may be obtained from the departmental website. (shared course ANTH 5253 or ANTH 5213 will meet this requirement)
2. **Three Subfields²:** Must have upper division (3000- or 4000-level) electives that span at least 3 different subfields as defined by the Anthropology Elective List¹ which may be obtained from the departmental website. The four possible subfields are: *Archaeological*, HHB (Human Health & Biology), *Linguistic*, and *Socio-Cultural*.

3. At least 15 hours of electives must be 3000- and 4000-level classes. Graduate-level courses may fulfill this requirement (Shared courses ANTH 5123, ANTH 5223, the Graduate Research Methods class, and the 3 hours of shared Graduate elective may be used for this requirement.)
4. Up to 3 credit hours of these electives can be filled by Independent Study, Internship, Thesis, Honors Research, or Mentored Research (ANTH 3810, 3910, 3920, 3940, 3950, 3980, 3990, 4980, or 4990).
5. Up to 3 credit hours of electives can be filled by approved non-Anthropology courses. These allowable classes are listed on the Anthropology Elective List¹. This includes study abroad from any department.

¹The most current Anthropology Elective List (p. 150) can be found at: <http://www.ou.edu/cas/anthropology/undergraduate/electives>.

²A graduate-level course may fulfill this requirement.

Some Anthropology electives may fulfill more than one subfield or can fulfill both subfield and research methods categories. In these cases, completing one course may satisfy two distribution requirements with the "Anthropology Electives" major requirement. For example, a student whose first class is designated Biological & Research Methods and whose second class is Socio-Cultural & Linguistics would fulfill requirements #1 and #2 above with those two classes alone.

Please consult with the Department advisor if you have any questions.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

¹A grade of B or higher is required in the Anthropology Core courses.

²No more than 6 hours from outside Anthropology may be applied.

- Demonstrated proficiency in a language other than English is strongly recommended. Work with your advisor.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Anthropology (Standard), Master of Arts

- This program is Thesis Only.

Required Courses

Code	Title	Credit Hours
Required Course		
ANTH 5001	Professionalization in Anthropology	1
Core Courses ¹		
Choose three of the following:		9
ANTH 5223	Foundations of Social Thought	
ANTH 5363	Linguistic Anthropology	
ANTH 6633	Method and Theory in Biological Anthropology	
ANTH 6713	Archaeological Theory	
Thesis		
ANTH 5980	Research for Master's Thesis	2-5
Electives		
Choose 15-18 hours ²		15-18
Total Credit Hours		30

¹Students must fulfill the core course requirement in three out of four subfields, selected in consultation with the student's advisor and committee. *A grade of B or higher is required in the Core courses.*

²15-18 hours of coursework selected in consultation with the student's advisor and committee. No more than 6 hours from outside Anthropology may be applied.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Socio-Cultural Anthropology, Master of Arts

- This program is Thesis Only.

Required Courses

Code	Title	Credit Hours
Required Course		
ANTH 5001	Professionalization in Anthropology	1
Core Courses ¹		
ANTH 5123	Contemporary Culture Theory	3
ANTH 5223	Foundations of Social Thought	3
Choose one of the following (core course in one other subfield):		
ANTH 5363	Linguistic Anthropology	
ANTH 6633	Method and Theory in Biological Anthropology	
ANTH 6713	Archaeological Theory	
Research Methods		
ANTH 5253	The Anthropology of Communities	3
	or ANTH 5213 Ethnographic Methods	
Thesis		
ANTH 5980	Research for Master's Thesis	2-5
Electives		
Choose 12-15 hours of coursework selected in consultation with the student's advisor and committee (no more than 6 hours from outside Anthropology may be applied)		12-15
Total Credit Hours		30

¹Students must fulfill the two-course core course sequence, as well as a core course in **one** other subfield (linguistic anthropology would be the default and highly recommended course for most students) selected in consultation with the student's advisor and committee. *All three Core courses must be completed with a grade of B or higher.*

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Anthropology Doctoral Programs

Doctor of Philosophy Degree

There are three tracks in the Ph.D. Program in Anthropology: Archaeology, Human Health and Biology, and Sociocultural and Linguistic Anthropology. There are specific additional required courses within each track. The tracks generally require 60 hours of coursework and 30 hours of dissertation research for a total of 90 credit hours.

The Ph.D. student's advisory committee will determine which courses, including core courses, may be used toward the 90 hours and will define the plan of study. Each doctoral student will complete a General Examination and dissertation defense.

Detailed information is available from the Graduate Liaison.

Department of Biology

Richard E Broughton, Chair
 314 Richards Hall

 FAX: (405) 325-7560
 biology@ou.edu
 www.ou.edu/cas/biology

General Information

The program in Biology began soon after the University of Oklahoma was founded, and the first Ph.D. degree awarded by OU was through the department. Faculty research and the graduate program have internationally-recognized strengths in areas of animal behavior, aquatic biology, biodiversity and conservation biology, cell signaling, development and regeneration, ecology, evolutionary biology, genetics and genomics, life history and breeding systems, neural bases of behavior, organismal biology, and vertebrate paleontology. The Department of Biology features five core research areas: Aquatic Biology, Biology of Behavior, Ecology and Evolutionary Biology (EEB), Geographical Ecology and Molecular, Cellular, and Developmental Biology.

Research and training facilities at the OU Biological Station, the Sam Noble Museum, the Oklahoma Biological Survey, and the Stephenson Research and Technology Center enhance the research opportunities for faculty and graduate students.

The Department of Biology takes special pride in its teaching at both the graduate and undergraduate levels. Courses at the undergraduate level provide a broad foundation in biology and allow students to pursue selected areas of interest in depth through research participation and advanced courses.

Biology is a popular major for students interested in a health professions career, and the curriculum provides an excellent base of preparation for a wide variety of careers or for postgraduate study.

Programs for Excellence

Programs for Academic Excellence

The Biology Department is actively involved in the Honors Program, and many undergraduate students carry out independent research projects under the guidance of faculty members with national and international reputations in their fields. The Zoological Society, the Premed Club, the PreVet Club, the Minority Associate of Pre-Health Students, and Alpha Epsilon Delta are sponsored by Biology faculty members and allow students with common interests to take field trips and hear talks about career planning and other important topics. The Biology Aid Program is comprised of undergraduate students who volunteer to tutor other students in introductory biology courses. It is a rewarding experience for both the student volunteers and those with whom they work.

The Biology Association of Graduate Students works with the faculty to organize the weekly seminar program of visiting scholars and other educational enrichment opportunities for both graduate and undergraduate students. Additional weekly seminars in neurobiology, ecology and evolutionary biology, and molecular, cell and developmental biology provide venues for graduate students and faculty to discuss research ideas and findings.

Research Opportunities

Undergraduate students can participate in research with Biology faculty in a number of ways, such as Independent Study courses and Honors Research courses. Original research is central to our graduate programs, and graduate student research in the department spans the entire range of biological inquiry from molecules to organisms to ecosystems.

Special Facilities and Programs

The Department of Biology is housed in Richards and Sutton Halls, which contain faculty and graduate student offices, research and teaching laboratories, multi-user molecular biology core facilities, maintenance shops, the departmental stockroom, graphics and photography workrooms, and computer rooms. Support staff include a photographer/illustrator, academic advisors, an audiovisual technician, a computer specialist, and a shop supervisor. The department also maintains facilities and equipment, including several boats and vehicles, for research in the field. Teaching and research opportunities are provided for students at the following locations.

Biological Station and Other Research Units

The University of Oklahoma Biological Station, located on Lake Texoma, an impoundment of the Red River on the Oklahoma-Texas border, is a permanent year-round field station with a resident staff of research scientists that provides year-round facilities for faculty and students. A summer session with approximately ten courses is attended by undergraduate and graduate students from throughout the country.

Students also use the facilities of the Samuel Roberts Noble Microscopy Laboratory, the Sam Noble Oklahoma Museum of Natural History, and the Oklahoma Biological Survey.

Biology Animal Facility

This facility contains breeding colonies of rodents and provides housing for a variety of other small mammals, fish, amphibians, and reptiles.

Biology Core Molecular Laboratory

The department's core molecular laboratory provides all the tools necessary to go from tissues to sequence to analysis.

Tissue Culture Laboratory

This lab provides facilities for in vitro culture of vertebrate cells and tissues and for the production of monoclonal antibodies.

Biology Computer Facilities

Computer rooms located in both buildings contain several microcomputers with associated printing and graphics equipment. In addition, numerous microcomputers are located in individual research laboratories. Supercomputing and other special applications computer facilities are available through the OU Supercomputing Center for Education & Research (OSKER).

Aquatic Research Facility

The 8-acre Aquatic Research Facility (ARF) on the south research campus supports researchers and student activities with 32 ponds, 4 climate-controlled greenhouses, and a system of outdoor artificial streams.

Animal Behavior Laboratory

A laboratory devoted to animal behavior and ecological studies, this facility provides indoor space and outdoor enclosures for the study of a wide variety of animals.

Kessler Atmospheric and Ecological Field Station

Kessler Atmospheric and Ecological Field Station is a 350-acre tract of mixed grass prairie donated to the University of Oklahoma for research and teaching in environmental studies.

Oliver Wildlife Preserve

This wilderness area of 80 acres, situated just two miles south of the main campus, provides a natural laboratory for studies in ecology, natural history, and behavior.

Scholarships and Financial Aid

M. BLANCHE AND M. FRANCES ADAMS SCHOLARSHIP

Scholarships of \$1,000 to \$3,000 per year for up to three years will be awarded on a competitive basis to undergraduate students majoring in Biology.

GEORGE MIKSCH SUTTON SCHOLARSHIPS

Scholarships of \$500 to \$2,000 or more are awarded to undergraduate and graduate students in the field of Ornithology. Selection is based on merit and financial need.

Students are also encouraged to take advantage of the variety of scholarship and financial aid opportunities that are available. For additional information, please visit College of Arts and Sciences Scholarship Opportunities and Financial Aid Services Office.

Undergraduate Study

The biology major program is designed to meet the needs of students who plan to enter graduate school in the biological sciences, to enter medical, dental, or veterinary college, or to work in specialized paramedical fields, environmental programs, or other careers for which biology would serve as an academic background. The department strongly recommends that each student work closely with his or her advisor on a regular basis since not all courses are offered every semester. Each major or prospective major should work closely with the biology advisory office on a regular basis to plan a program which will meet their career goals. The advisory office can furnish information on courses, curricula and careers available to majors and will facilitate the assignment of a faculty advisor.

Programs Offered

- Biology, Bachelor of Science (p. 163)
- Biology, Minor (p. 165)

Biology majors may also work for the standard secondary teaching certificate in science. For information consult an academic advisor in the College of Arts and Sciences office.

Graduate Study

Programs Offered

- Biology, Master of Science (p. 166)
- Biology: Bioinformatics, Master of Science (p. 166)
- Biology Doctoral Programs (p. 167)

Areas of Specialization

The graduate program now has internationally-recognized strengths in ecology/systematics, animal behavior, neurosciences, physiology, and genetics/cell biology.

In addition to M.S. and Ph.D. Biology programs, many biology faculty participate in two other biology Ph.D. programs on campus: Ecology and Evolutionary Biology and Cellular and Behavioral Neurobiology.

Detailed information may be obtained from the Director of Graduate Studies or by contacting biologygrad@ou.edu.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Allen	Daniel	C	2016	ASSISTANT PROFESSOR OF BIOLOGY, 2016	PhD, Univ of Oklahoma, 2011; BA, Macalester College, 2003
Bell	Paul	B	1979	PROFESSOR OF BIOLOGY, 1997; REGENTS' PROFESSOR OF THE COLLEGE OF ARTS AND SCIENCES, 2013; DEAN EMERITUS, COLLEGE OF ARTS AND SCIENCES, 2013; PROFESSOR OF COLLEGE OF ARTS AND SCIENCES DEAN DIRECT, 2013	PhD, Yale Univ, 1975; AB, Washington Univ, 1968

Bergey	Elizabeth	A	2000	ASSOCIATE HERITAGE ZOOLOGIST OF OKLAHOMA BIOLOGICAL SURVEY, 2006; PROFESSOR OF BIOLOGY, 2017	PhD, Univ of California-Berkeley, 1992; MS, Colorado State Univ, 1981, BS, Univ of Oklahoma, 1977
Berkowitz	Robert	A	1997	PROFESSOR OF BIOLOGY, 2010; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2015	PhD, Washington Univ, 1993; AB, Univ of Chicago, 1984
Bridge	Eli	S	2012	ADJUNCT ASSISTANT PROFESSOR OF BIOLOGY, 2012; CHAIR, INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE, 2016; ASSOCIATE PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2017	PhD, Univ of Minnesota, 2004; BA, Westminster College, 1997
Broughton	Richard	E	2000	PROFESSOR OF BIOLOGY, 2014; PROFESSOR OF BIOLOGICAL SURVEY, 2014	PhD, Arizona State Univ, 1995; MS, Univ of California-Chico; BS, Univ of California-Chico, 1987
Cifelli	Richard	L	1986	SAMUEL ROBERTS NOBLE PRESIDENTIAL PROFESSOR, 1996; PROFESSOR OF BIOLOGY, 1998; CURATOR, VERTEBRATE PALEONTOLOGY, SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 1999	PhD, Columbia Univ, 1983; MA, Univ of Chicago, 1979; BA, Colby College, 1976
Gaffin	Douglas	D	1995	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2000; DAVID ROSS BOYD PROFESSOR OF BIOLOGY, 2010	PhD, Oregon State Univ, 1993; BS, Univ of California Berkeley, 1979
Gordon	Cynthia	L	2003	DIRECTOR, HUMAN ANATOMY PROGRAMS, 2010; ASSOCIATE PROFESSOR OF BIOLOGY, 2011	PhD, Univ of Oklahoma, 2003; MS, Murray State Univ, 1998; BS, Ohio State Univ, 1989
Hambright	Karl	D	2001	PROFESSOR OF BIOLOGY, 2013; DIRECTOR OF ENVIRONMENTAL STUDIES	PhD, Cornell Univ, 1991; MSc, Texas Christian Univ, 1985; BSc, Univ of North Carolina, 1982
Hewes	Randall	S	2001	PROFESSOR OF BIOLOGY, 2015; ADJUNCT PROFESSOR OF CELL BIOLOGY, COLLEGE OF MEDICINE, 2015	PhD, Univ of Washington, 1993; BS, Carleton College, 1988

Hobson	Kenneth	R	2000	ADJUNCT INSTRUCTOR OF BIOLOGICAL STATION, 2003; ASSOCIATE PROFESSOR OF BIOLOGY, 2012	PhD, Univ of California, 1992; MS, Univ of Washington, 1987; BS, Univ of North Carolina, 1976	Marske	Katharine		2017	ASSISTANT PROFESSOR OF BIOLOGY, 2017	PhD, Univ of Auckland, 2010; MS, Montana State Univ, 2004; BS, Luther College, 2001
Hoefnagels	Marielle	H	1997	PROFESSOR OF BIOLOGY, 2018; PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2018	PhD, Oregon State Univ, 1996; MS, North Carolina State Univ, 1991; BS, Univ of California Riverside, 1987	Masly	John	P	2010	ASSOCIATE PROFESSOR OF BIOLOGY, 2016	PhD, Univ of Rochester, 2007; MS, Univ of Rochester, 2001; BS, Pennsylvania State Univ, 1998
Kaspari	Michael	E	1995	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2008; GEORGE LYNN CROSS RESEARCH PROFESSOR OF BIOLOGY, 2013	PhD, Univ of Arizona, 1992; MS, Univ of Nebraska, 1985; BS, Univ of Nebraska, 1983	McCauley	David	W	2006	ASSOCIATE PROFESSOR OF BIOLOGY, 2012	PhD, Univ of Texas, 1997; BS, Univ of North Carolina, 1990
Kelly	Jeffrey	F	2002	PROFESSOR OF BIOLOGY, 2014; PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2014; CORIX ENDOWED CHAIR IN WATER AND SUSTAINABILITY, 2018; DIRECTOR, CORIX PLAINS INSTITUTE, 2018	PhD, Colorado State Univ, 1996; MS, Oklahoma State Univ, 1991; BS, Univ of Maine, 1987	Miller	Matthew	J	2016	ASSISTANT PROFESSOR OF BIOLOGY, 2016; ASSISTANT CURATOR, SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 2016	PhD, Univ of Alaska Fairbanks, 1998; MS, Univ of Arizona, 2001; BA, Swarthmore College, 1996
Ketchum	Heather	R	2005	ASSOCIATE PROFESSOR OF BIOLOGY, 2012; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2012; PRESIDENTIAL TEACHING FELLOW OF HONORS, 2018	PhD, Texas A&M Univ, 2002; MS, California Polytechnic, 1996; BS, Univ of California Riverside, 1993	Padash Barmchi	Mojgan		2018	ASSISTANT PROFESSOR OF BIOLOGY, 2018	PhD, Lund Univ, 2006
Lanier	Hayley		2017	ASSISTANT PROFESSOR OF BIOLOGY, 2017; ASSISTANT CURATOR OF SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 2017	PhD, Univ of Alaska, 2010; BS, Univ of Kansas, 2004	Patten	Michael	A	2010	PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2015; ADJUNCT PROFESSOR OF BIOLOGY, 2015; ADJUNCT PROFESSOR OF SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 2015	PhD, Univ of California Riverside, 2001; BS, Univ of California Riverside, 1987
Lemon	Christian	H	2013	ASSOCIATE PROFESSOR OF BIOLOGY, 2016	PhD, Binghamton Univ, 2001; MA, Binghamton Univ, 1998; BS, Univ of Oklahoma, 1994	Ray	Thomas	S	1998	PROFESSOR OF BIOLOGY, 1998	PhD, Hebrew College, 1981; MA, Harvard Univ, 1980; BS, Florida State Univ, 1976
Markham	Michael	R	2011	ROBERT G. AND BETTY GALE CASE-HOOPER PROFESSOR IN BIOLOGY, 2011; ASSOCIATE PROFESSOR OF BIOLOGY, 2015; SAM K. VIERSEN FAMILY FOUNDATION PRESIDENTIAL PROFESSOR, 2018	PhD, Univ of New Mexico, 1994; BA, Univ of New Mexico, 1990	Ross	Jeremy	D	2017	ASSISTANT PROFESSOR OF THE OKLAHOMA BIOLOGICAL SURVEY, 2017	PhD, Bowling Green St Univ, 2011; BS, Brandon Univ, 2002
						Rowe	Ashlee	A	2018	ASSISTANT PROFESSOR OF BIOLOGY, 2018	PhD, North Carolina State Univ, 2004
						Safiejko-Mroccka	Barbara		1989	ASSOCIATE PROFESSOR OF BIOLOGY, 2009	PhD, Tech Univ of Dgansk, 1987; MS, Warsaw, 1974; BS, Warsaw, 1974
						Schlupp	Ingo	B	2005	PROFESSOR OF BIOLOGY, 2011; BRIAN E. AND SANDRA O'BRIEN PRESIDENTIAL PROFESSOR, 2012	PhD, Hamburg Univ, 1995; Diploma Biology, Hamburg Univ, 1991

Siler	Cameron	D	2013	ASSOCIATE PROFESSOR OF BIOLOGY, 2018; ASSOCIATE CURATOR, HERPETOLOGY, SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 2018	PhD, Univ of Kansas, 2011; BS, Univ of Texas, 2004
Thompson	James	N	1975	SAMUEL ROBERTS NOBLE PRESIDENTIAL PROFESSOR, 1996; DAVID ROSS BOYD PROFESSOR OF BIOLOGY, 2001	PhD, Univ of Cambridge, 1973; BA, Univ of Oklahoma, 1968
Vaughn	Caryn	C	1994	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2005; PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2007; PROFESSOR OF BIOLOGY, 2007; GEORGE LYNN CROSS RESEARCH PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2016	PhD, Univ of Oklahoma, 1984; MS, Univ of Oklahoma, 1979; BS, Univ of Oklahoma, 1977
Weider	Lawrence	J	1999	PROFESSOR OF BIOLOGY, 2005	PhD, Univ of Illinois, 1984; BS, St. Bonaventure Univ, 1978
Wellborn	Gary	A	1996	PROFESSOR OF BIOLOGY, 2015	PhD, Univ of Michigan, 1993; MS, Univ of Texas, 1987; BS, Univ of Texas, 1984

Biology, Bachelor of Science

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements
- Thirty-six hours of major coursework must be completed, exclusive of BIOL 1003, BIOL 1005, BIOL 1013, BIOL 1114, BIOL 1121, BIOL 1203, BIOL 2103, BIOL 2124, BIOL 2234, and BIOL 2255.
- A grade of C or better must be earned in each course counted for major and major support credit.

Code	Title	Credit Hours
Biology		
BIOL 1124	Intro Biol: Molecule/Cell/Phys	4
BIOL 1134	Introductory Biology: Evolution, Ecology and Diversity	4
BIOL 2013	Evolution	3
BIOL 3333	Genetics	3
BIOL 4983	Senior Seminar (Capstone)	3
Electives		
Choose 16 hours ¹		16

Statistics

Choose one of the following:		3
PSY 2113	Research Methods I: Statistics	
BIOL 2913	Intro to Quantitative Biology	
BIOL 4913	Quantitative Biology	
Total Credit Hours		36

¹Electives - (16 hours) to be chosen in consultation with departmental advisor; must include two upper-division laboratory courses. (Independent study, honors reading or honors research cannot count toward laboratory course requirements.)

Major Support Requirements

Code	Title	Credit Hours
------	-------	--------------

Chemistry

CHEM 1315	General Chemistry	5
CHEM 1415	General Chemistry (Continued)	5
CHEM 3053	Organic Chemistry I: Biological Emphasis	3
CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis	2
CHEM 3153	Organic Chemistry II: Biological Emphasis	3
or CHEM 3653	Introduction to Biochemistry	

History of Science

Choose one of the following:		3
HSCI 3013	History of Science to the Age of Newton ¹	
HSCI 3023	History of Science Since the Seventeenth Century ¹	

An approved course in the ethics of biology or medicine chosen in consultation with departmental advisor

Physics

Choose one of the following:		8
PHYS 2414 & PHYS 2424	General Physics for Life Science Oriented Majors and General Physics for Life Science Oriented Majors	
PHYS 2514 & PHYS 2524	General Physics for Engineering and Science Majors and General Physics for Engineering and Science Majors	

Math

MATH 1743	Calculus I for Business, Life and Social Sciences	3
or MATH 1823	Calculus and Analytic Geometry I	

Total Credit Hours		32
--------------------	--	----

¹Fulfills 1 of the 2 upper-division Gen Ed Humanities required by the College of Arts & Sciences

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education

course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
<i>Understanding Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Civilization and Culture</i>		
HIST 1483	United States, 1492 to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
<i>Non-Western Culture</i>		
Choose one course from the General Education Non-Western Culture list		3
<i>Additional Core IV Upper-Division Humanities courses</i>		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}		3
Core Area V: Senior Capstone Experience (3 hours)		

Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and/or Department of Biology academic advisors to verify that courses selected each semester fulfill the recommended plan

and satisfy university, College of Arts and Sciences, and Biology major requirements.

Biology, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Biology.

Required Courses

Students must successfully complete at least 20 hours of courses, including at least 15 hours of courses acceptable for major credit in Biology¹ and including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
Required Courses		
BIOL 1114	Introductory Zoology	4
BIOL 1121	Introductory Zoology Lab	1
Electives		
Choose at least 15 hours of courses acceptable for major credit in Biology, including: ¹		15
At least nine (9) hours at the upper-division level		
At least two (2) laboratory courses (or courses with laboratory components)		
Total Credit Hours		20

¹BIOL 2124, BIOL 2234, and BIOL 2255 are acceptable for the minor although they do not meet the major credit requirement.

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Biology, Master of Science

- This program is Thesis Only.

Required Courses

Code	Title	Credit Hours
Program Core		
BIOL 4913	Quantitative Biology	3
Thesis		
BIOL 5980	Research for Master's Thesis ¹	2-6
Electives		
Choose 21-25 hours of coursework selected in consultation with the student's advisor and committee		21-25
Total Credit Hours		30

¹The Department of Biology requires the completion of a thesis.

- **The comprehensive final examination over all of the work offered for the degree, including the thesis, is oral.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Biology: Bioinformatics, Master of Science

- This program is Thesis Only.

Required Courses

Code	Title	Credit Hours
Required Courses		
BIOL 4913	Quantitative Biology	3
BIOL 5903		3
BIOL 5913		3
Thesis		
BIOL 5980	Research for Master's Thesis ¹	6
Core Courses		
Choose 20-22 hours of additional Biology coursework as determined by the student's advisory committee		20-22
Electives		
Choose 0-1 hours of coursework selected in consultation with the student's advisor and committee		0-1
Total Credit Hours		36

¹The Department of Biology requires the completion of a thesis.

- The comprehensive final examination over all of the work offered for the degree, including the thesis, is oral.
- **Bioinformatics students are required to take at least two courses from non-host departments. The two bioinformatics courses (BIOL 5903 & BIOL 5913) may not be used to satisfy this requirement.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Biology Doctoral Programs

Doctor of Philosophy Degree

The goal of our Doctor of Philosophy in Biology (Ph.D.) program is to prepare students for successful careers in academic, biomedical, environmental, or government institutions. Students must meet the general requirements for the Ph.D. degree as stated in the Graduate College Bulletin. Beyond this, doctoral programs are individually planned by the student's advisory conference. Minimal requirements that apply to all biology doctoral programs are the attainment of an advanced level of achievement in a special field of interest and at least two supporting fields, and two semesters' service as a teaching assistant. Students advance to Ph.D. candidacy upon successful completion of both written and oral portions of the General Examination. A portion of the oral examination must include defense of a dissertation proposal. The general examination must be taken by the student's fifth semester in the Ph.D. program. Detailed information can be obtained from the Director of Graduate Studies.

Department of Chemistry and Biochemistry

Ronald Halterman, Chair
1000 Stephenson Life Sciences Research Center
101 Stephenson Parkway
Norman, OK 73019-5251
Phone: (405) 325-4811
FAX: (405) 325-6111
chembiochemchair@ou.edu
www.ou.edu/cas/chemistry

General Information

The mission of the Department of Chemistry and Biochemistry is to serve the citizens of the State of Oklahoma and the nation through instructing our undergraduate majors, those in cognate disciplines and as part of the general education programs of the College of Arts and Sciences to understand the role of chemistry and biochemistry in the natural world, through professional training of graduate students and postdoctoral researchers, through creating and disseminating new research-based understanding of chemistry and biochemistry, through providing expert advice and consultation to educational, industrial and governmental units, and through participating in service to the university and professional communities.

Special Facilities and Programs

The Department of Chemistry and Biochemistry currently has an exchange program with the Department of Chemistry at the Technical University of Berlin. The program is open to chemistry majors in their junior or senior year. Students must have compiled a 3.25 grade point average and have had the equivalent of two years of college-level German. The department also has an exchange program with Blaise Pascal University in France for a collaborative M.S./Engineering degree.

PROGRAMS FOR ACADEMIC EXCELLENCE

As part of the University-wide Honors Program, the Department of Chemistry and Biochemistry offers special sections of General Chemistry

and Organic Chemistry specifically designed for participants in the Honors College. Smaller class sizes allow students to receive more individualized attention.

OPPORTUNITIES FOR UNDERGRADUATE RESEARCH

Students who show particular ability are strongly encouraged to undertake a research problem as early as possible. Research problems are available in all areas of chemistry (analytical, inorganic, organic, physical, biochemistry, and chemical education). The research is carried out under supervision of the faculty member who agrees to direct the student's research.

SCHOLARSHIPS AND FINANCIAL AID

Students majoring in chemistry are eligible to apply for any of the general scholarships awarded by the University Scholarship Committee. Further information and applications for the general scholarships and other financial aid, such as Educational Opportunity Grants, may be obtained from the University of Oklahoma Office of Financial Aid Services.

Undergraduate Study

Students majoring in chemistry receive instruction, including laboratory experience, in all areas of chemistry. This provides necessary background for postgraduate studies or employment in the chemical industry or research laboratories.

Programs Offered

- Bachelor of Science in Biochemistry (p. 170)
The Biochemistry major is appropriate for premedical and pre-dental students or students with a strong interest in biomedical research. It includes advanced biochemistry coursework as well as a molecular biology course.
- Bachelor of Science in Chemistry (p. 177)

The Chemistry (Professional) major is most suitable for majors who plan to pursue a graduate degree after obtaining their baccalaureate degree. It is the most rigorous in its chemistry course requirements. The professional degree program also is a very good choice for students who begin their chemical studies unsure of their ultimate degree goal. This is because it is much easier to switch from the Professional degree program to either the Chemistry Standard or Biochemistry degree programs, even as late as the senior year, than it is to switch to the professional option from the standard option or biochemistry degree program. This degree is certified by the American Chemical Society as appropriate for students wanting to pursue graduate studies.

- Bachelor of Science - Chemistry and Biochemistry Standard Option (p. 175)
The Chemistry and Biochemistry (Standard) major is the most flexible degree program offered by the department, as it allows for some choice among the advanced courses. It allows students with other interests to develop a curriculum that best suits them. The resulting degree is Bachelor of Science.
- Bachelor of Science - Chemical Biosciences (p. 172)
Aimed at students who are specifically focused on a career in a healthcare profession, the requirements overlap with the prerequisites for medical, pharmacy, dental and other health-related programs. As such, it does not adequately prepare students for a traditional graduate program in chemistry or biochemistry, but might prepare them for a graduate program in biomedical studies (depending on the entry requirements for the individual program, since these can vary). And it will not prepare students for a wide

variety of careers in the chemical industry. Students would be prepared for work in medical labs and related opportunities. So students entering this program should be very focused on these types of careers and not considering a traditional graduate program in chemistry or biochemistry.

- Chemistry Minor (p. 180)
The Chemistry Minor is available to students majoring in other subjects.

Graduate Study

Master of Science Degree

The general requirements for the master's degree in the Graduate College must be met. Within these limits the student works under the supervision of the research director, the graduate liaison, and the departmental Graduate Committee.

- Chemistry and Biochemistry (p. 180)
- Chemistry: Bioinformatics (p. 181)

Thesis Option - Students interested in developing research capability in a particular area of chemistry and biochemistry usually select this option. If desired, students may take an interdisciplinary approach in their thesis.

Non-Thesis Option - This degree is generally selected by those students interested in obtaining an advanced degree in chemistry and biochemistry without research specialization.

AREAS OF SPECIALIZATION

Students may specialize in one of the following major areas of chemistry (analytical, biological, inorganic, organic, physical and chemical education) or in any combination.

Chemistry Doctoral Programs

The Ph.D. degree in chemistry and biochemistry (p. 182) is awarded for excellence in research scholarship. It signifies the attainment of independently acquired and comprehensive learning attesting to general professional competence.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Ashby	Michael	T	1990	DAVID ROSS BOYD PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016	PhD, Univ of Arizona, 1988; BS, Univ of Arizona, 1982
Biggs	Robyn		2013	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2013	PhD, Univ of Ottawa, 2013; BS, Univ of Ottawa, 2009
Bourne	Christina		2014	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2014	PhD, Univ of Oklahoma, 2003; BS, Univ of Oklahoma, 1997
Burgett	Anthony	W	2012	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2012	PhD, Univ of Texas Southwest Med Ctr, 2006; BS, Univ of Oklahoma, 1999

Cai	Shengxin		2012	RESEARCH ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2018; POSTDOCTORAL RESEARCH ASSOCIATE, 2012	PhD, Ocean Univ of China, 2011; BS, Ocean Univ of China, 2006
Cao	Binrui		2016	RESEARCH ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016	PhD, Univ of Oklahoma, 2010; BS, Univ of Science & Tech, 2005
Cichewicz	Robert	H	2005	REGENTS' PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2012; PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2014	PhD, Michigan State Univ, 2002; MS, Univ of Louisiana at Monroe, 1999; BS, Grand Valley State Univ, 1994

Rice	Charles	V	2002	ASSOCIATE PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2008; ADJUNCT ASSOCIATE PROFESSOR OF FRESHMAN PROGRAMS, 2015	PhD, Purdue Univ, 2000; MS, Illinois State, 1995; BS, Illinois State, 1993
Richter-Addo	George	B	1993	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2000; PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2001; ADJUNCT PROFESSOR OF FRESHMAN PROGRAMS, 2015; GEORGE LYNN CROSS RESEARCH PROFESSOR, 2017	PhD, Univ of British Columbia, 1988; BS, Univ of Cape Coast, 1982
Rybenkov	Valentin	V	2000	PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016	PhD, Moscow Inst of Physics & Tech, 1992; MS, Moscow Inst of Physics & Tech, 1989
Saparov	Bayrammurat		2016	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016	PhD, Univ of Delaware, 2011; Diploma, Lomonosov Moscow State Univ, 2006
Schroeder	Susan	J	2006	ASSOCIATE PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2012; ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2012	PhD, Univ of Rochester, 2002; BS, Univ of Rochester, 1995
Shao	Yihan		2016	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016	PhD, Univ of California, 2002; BS, Nanjing Univ, 1993
Sharma	Indrajeet		2014	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2014	PhD, Wayne State Univ, 2011; MS, Indian Inst of Tech, 2006; BS, Univ of Delhi, 2004
Sims	Paul	A	2007	ASSOCIATE PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2013	PhD, Univ of Wisconsin, 2005; MS, Colorado State Univ, 1999; BA, Adams State College, 1994; BA, Adams State College, 1989
Singh	Shanteri		2015	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2015	PhD, Tata Inst of Fundamnt Research, 1996; BS, Mangalore Univ, 1990
West	Ann	H	1996	EDITH GAYLORD HARPER PRESIDENTIAL PROFESSOR, 2001; PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016; JOSEPH BRANDT PROFESSOR, 2008; GRAYCE B. KERR CENTENNIAL CHAIR, 2015	PhD, Yale Univ, 1991; BA, Wesleyan Univ, 1983
White	Robert	L	1985	PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 1998	PhD, Univ of Nebraska, 1982; BS, Purdue Univ, 1978

Wu	Si	2015	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2015	PhD, Washington State Univ, 2006; BS, Anhui Univ, 1997	
Yang	Zhibo	2012	ASSOCIATE PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2018	PhD, Wayne State Univ, 2005; MS, Univ of Sci & Tech, 2000; BS, Univ of Sci & Tech, 1997	
Yip	Wai Tak	2000	ASSOCIATE PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2006	PhD, Univ of Chicago, 1996; BS, Univ of Hong Kong, 1989	
You	JianLan	2011	RESEARCH ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016	PhD, Sun Yat-Sen Univ of Med Sci, 2005; BS, Sun Yat-Sen Univ of Med Sci, 2000	
Zgurskaya	Elena	I	2000	PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2010	PhD, Russian Acad of Science, 1992; BS, Dnipropetrovsk State, 1989

Biochemistry, Bachelor of Science in Biochemistry

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.
- A grade of C or better must be earned in each Chemistry course presented for major credit. No grade below a C made in Chemistry courses at the upper-division level may be made up elsewhere without prior written approval by the OU Chemistry Department.
- The introductory CHEM courses (CHEM 1315, CHEM 1335, CHEM 1415, CHEM 1425, & CHEM 1435) do not count towards the 36 required major hours.

Code	Title	Credit Hours
Major Requirements		
CHEM 1315	General Chemistry	
or CHEM 1335	General Chemistry I: Signature Course	
Choose one of the following:		
CHEM 1415	General Chemistry (Continued)	
CHEM 1425	Advanced General Chemistry (HONORS)	
CHEM 1435	General Chemistry II: Signature Course	
Choose one of the following groups:		8
Group A:		
CHEM 3064	Organic Chemistry I	
CHEM 3164	Organic Chemistry II	
Group B:		
CHEM 3053	Organic Chemistry I: Biological Emphasis	
CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis	
CHEM 3153	Organic Chemistry II: Biological Emphasis	
CHEM 3005	Quantitative Analysis	5
CHEM 3421	Physical Chemistry Laboratory	1
CHEM 3423	Physical Chemistry I	3

CHEM 3521	Physical Chemistry Laboratory	1
CHEM 3523	Physical Chemistry II	3
CHEM 3653	Introduction to Biochemistry	3
CHEM 3753	Introduction to Biochemical Methods	3
CHEM 4753	Principles of Biochemistry I	3
Choose one of the following:		3
CHEM 4913	Senior Thesis (Capstone)	
CHEM 4923	Senior Project (Capstone)	
CHEM 4933	Current Topics in Biochemistry (Capstone)	
BIOL/MBIO/PBIO 4843	Molecular Biology	3
Total Credit Hours		36

Major Support Requirements

Code	Title	Credit Hours
Math		
MATH 1823	Calculus and Analytic Geometry I	3-4
or MATH 1914	Differential and Integral Calculus I

or MATH 2924	Differential and Integral Calculus II	
Physics		
Choose one of the following:		8
PHYS 2414 & PHYS 2424	General Physics for Life Science Oriented Majors and General Physics for Life Science Oriented Majors	
PHYS 2514 & PHYS 2524	General Physics for Engineering and Science Majors and General Physics for Engineering and Science Majors	
Total Credit Hours		14-16

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gedned/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5

Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>	
Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)	
<i>Biological Science</i>	
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>	
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)	
P SC 1113 American Federal Government	3
Choose one course from the General Education Social Science list	3
Core Area IV: Humanities (18 hours)	
<i>Understanding Artistic Forms</i>	
Choose one course from the General Education Artistic Forms list	3
<i>Western Civilization and Culture</i>	
HIST 1483 United States, 1492 to 1865 or HIST 1493 United States, 1865 to the Present	3
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)	3
<i>Non-Western Culture</i>	
Choose one course from the General Education Non-Western Culture list	3
<i>Additional Core IV Upper-Division Humanities courses</i>	
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Chemistry and Biochemistry academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Biochemistry major requirements.

Free Elective	3
Free Elective	3
Credit Hours	15
Total Credit Hours	120

¹CHEM 4913 and CHEM 4933 are not offered every semester. Students should plan their capstone experience accordingly.

Chemical Biosciences, Bachelor of Science

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.
- A grade of C or better must be earned in each Chemistry course presented for major credit. No grade below a C made in Chemistry courses at the upper-division level may be made up elsewhere without prior written approval by the OU Chemistry Department.
- The introductory courses (CHEM 1315, CHEM 1335, CHEM 1415, CHEM 1425, & CHEM 1435) do not count towards the 40-42 required major hours.

Code	Title	Credit Hours
Chemistry		
CHEM 1315 or CHEM 1335	General Chemistry General Chemistry I: Signature Course	
Choose one of the following:		
CHEM 1415	General Chemistry (Continued)	
CHEM 1425	Advanced General Chemistry (HONORS)	
CHEM 1435	General Chemistry II: Signature Course	
CHEM 3053	Organic Chemistry I: Biological Emphasis	3
CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis	2
CHEM 3153	Organic Chemistry II: Biological Emphasis	3
CHEM 3451	Basic Physical Chemistry Laboratory	1
CHEM 3453	Basic Physical Chemistry	3
CHEM 3653	Introduction to Biochemistry	3
CHEM 3753	Introduction to Biochemical Methods	3
Select one of the following:		
CHEM 4913	Senior Thesis (Capstone)	
CHEM 4923	Senior Project (Capstone)	
CHEM 4933	Current Topics in Biochemistry (Capstone)	
Biological Sciences		
BIOL 1124	Intro Biol: Molecule/Cell/Phys	4
MBIO 3812	Fundamentals of Microbiology Laboratory	2
MBIO 3813	Fundamentals of Microbiology	3
BIOL/MBIO/PBIO 4843	Molecular Biology	3
Choose a minimum of 4 hours from the following lecture/lab combinations:		4-5
BIOL 3101 & BIOL 3103	Principles of Physiology Lab and Principles of Physiology	

BIOL 3201	Animal Development Lab	
& BIOL 3203	and Animal Development	
BIOL 3333	Genetics	
& BIOL 3342	and Genetics Laboratory	
BIOL 4244	Animal Histology	
Choose a minimum of 3 hours from the following:		3-4
BIOL 2124	Human Physiology	
BIOL 2234	Introduction to Human Anatomy	
BIOL/MBIO/ P BIO 3113	Cell Biology	
BIOL 3214	Comparative Vertebrate Anatomy	
MBIO 4823	Pathogenic Microbiology and Infectious Disease	
MBIO 4833	Basic Immunology

---	---

Non-Western Culture

Choose one course from the General Education Non-Western Culture list	3
---	---

Additional Core IV Upper-Division Humanities courses

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
--	---

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
--	---

Core Area V: Senior Capstone Experience (3 hours)

Choose one General Education Capstone course	3
--	---

Total Credit Hours	56
--------------------	----

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Chemistry and Biochemistry academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Chemical Biosciences major requirements.

Course	Title	Credit Hours

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Chemistry and Biochemistry academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Chemistry and Biochemistry major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
CHEM 1315 or CHEM 1335	General Chemistry or General Chemistry I: Signature Course	5
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1823 or MATH 1914	Calculus and Analytic Geometry I (Core I) or Differential and Integral Calculus I	3-4
Social Science (Core III)		3
Credit Hours		14-15
Second Semester		
Choose one of the following:		5
CHEM 1415	General Chemistry (Continued)	
CHEM 1425	Advanced General Chemistry (HONORS)	
CHEM 1435	General Chemistry II: Signature Course	
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3

MATH 2423 or MATH 2924	Calculus and Analytic Geometry II or Differential and Integral Calculus II	3-4
Understanding Artistic Forms (Core IV)		3
Credit Hours		14-15

Sophomore

First Semester

CHEM 3064	Organic Chemistry I	4
PHYS 2514 or PHYS 2414	General Physics for Engineering and Science Majors or General Physics for Life Science Oriented Majors	4
PHYS 1311	General Physics Lab I	1
Biological Science without lab (Core II)		3
HIST 1483 or HIST 1493	United States, 1492 to 1865 (Core IV) or United States, 1865 to the Present	3
Credit Hours		15

Second Semester

CHEM 3005	Quantitative Analysis	5
CHEM 3164	Organic Chemistry II	4
PHYS 2524 or PHYS 2424	General Physics for Engineering and Science Majors or General Physics for Life Science Oriented Majors	4
PHYS 1321	General Physics Lab II	1
Non-Western Culture (Core IV)		3
Credit Hours		17

Junior

First Semester

CHEM 3421	Physical Chemistry Laboratory	1
CHEM 3423	Physical Chemistry I	3
CHEM 4023	Instrumental Methods of Chemical Analysis	3
Western Civilization & Culture (Core IV)		3
Beginning Foreign Language (Core I)		5
Credit Hours		15

Second Semester

CHEM 3521	Physical Chemistry Laboratory	1
CHEM 3523	Physical Chemistry II	3
CHEM 4033	Instrumental Methods of Chemical Analysis Laboratory	3
P SC 1113	American Federal Government (Core III)	3
Beginning Foreign Language continued (Core I)		5
Credit Hours		15

Senior

First Semester

CHEM 3653	Introduction to Biochemistry	3
CHEM 4333	Advanced Inorganic Chemistry-Periodic System	3
CHEM 4444	Advanced Synthesis and Spectral Characterization	4
Humanities, upper-division, outside major (Gen. Ed.)		3
Intermediate Foreign Language		3
Credit Hours		16

Second Semester

Choose one of the following:	3
CHEM 4913 Senior Thesis (Capstone) ¹	
CHEM 4923 Senior Project (Capstone) ¹	
CHEM 4933 Current Topics in Biochemistry (Capstone) ¹	
Humanities, upper-division, outside major (Gen. Ed.)	3
Free Elective, upper-division (3000-4000-level)	2
Free Elective, lower- or upper-division	3
Free Elective, lower- or upper-division	3
Credit Hours	14
Total Credit Hours	120

¹CHEM 4913, CHEM 4923, and CHEM 4933 are not all offered every semester. Students should plan their capstone experience accordingly.

Chemistry, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement. Requests to substitute a minor requirement must be approved in writing by the Department of Chemistry and Biochemistry.

Required Courses

Students must successfully complete at least 15 hours of upper-division course work acceptable for major credit in Chemistry. No more than three (3) hours may be completed through Independent Study (CHEM 3990 or CHEM 4990). CHEM 4232, does **not** apply toward the Chemistry major or minor.

Code	Title	Credit Hours
Choose 15 hours of upper-division course work acceptable for major credit in Chemistry ¹		15
Total Credit Hours		15

¹No more than three (3) hours may be completed through Independent Study (CHEM 3990 or CHEM 4990). CHEM 4232 does **not** apply toward the Chemistry major or minor.

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Chemistry & Biochemistry, Master of Science

Thesis Option

Code	Title	Credit Hours
Choose at least 14 hours in letter graded CHEM courses at the 5XYZ level (X ≠ 0, Y = 0-8). These courses must be from at least two different disciplinary areas (different Xs)		14
CHEM 5980	Research for Master's Thesis	2-6
Choose the remainder of the 30 required hours from the following:		10-14
CHEM 5011	Fundamentals I	
CHEM 5021	Fundamentals II	
CHEM 5080	Laboratory Rotations	
CHEM 5960	Directed Readings in Chemistry	
CHEM 5990	Independent Studies ¹	
	Disciplinary Seminars (CHEM 5X91)	
	Any other courses carrying graduate credit	
Total Credit Hours		30

¹Up to 9 hours may be taken as CHEM 5990.

Non-Thesis Option

Code	Title	Credit Hours
Choose at least 16 hours in letter graded CHEM courses at the 5XYZ level (X ≠ 0, Y = 0-8). These courses must be from at least two different disciplinary areas (different Xs)		16
Choose the remainder of the 32 required hours from any combination of the following:		16
CHEM 5011	Fundamentals I	
CHEM 5021	Fundamentals II	
CHEM 5080	Laboratory Rotations	
CHEM 5960	Directed Readings in Chemistry	
CHEM 5990	Independent Studies ¹	
	Disciplinary Seminars (CHEM 5X91)	
	Any other courses carrying graduate credit	
Total Credit Hours		32

¹Up to 8 hours may be taken as CHEM 5990.

Notes

- A maximum of two core courses may be taken in department(s) outside of the Department of Chemistry as substitution(s); however, all outside courses must be approved in writing by the departmental graduate committee and must be written as such on the candidacy form.
- All graduate students must also enroll and participate in the Departmental Colloquium, CHEM 5090, for zero credit hours (these do not have to be on the candidacy form) throughout the entire period of their graduate studies (excluding summer semesters).

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Chemistry: Bioinformatics, Master of Science

Thesis Option

Code	Title	Credit Hours
Required Courses		
BIOL 5903		3
BIOL 5913		3
Core Courses		
	Select a minimum of fifteen hours in lecture courses at the 5/6000 level selected from at least two of the five divisions of Chemistry and Biochemistry (Analytical, Biochemistry, Inorganic, Organic and Physical)	15
Thesis		
CHEM 5980	Research for Master's Thesis	6
Electives		
	Choose any other graduate level courses, as approved by the graduate liason	9
Total Credit Hours		36

- *The comprehensive final examination over all of the work offered for the degree, including the thesis, is oral.*

Non-Thesis Option

Code	Title	Credit Hours
Required Courses		
BIOL 5903		3
BIOL 5913		3
Core Courses		

Choose a minimum of twenty-one hours in lecture courses at the 5/6000 level selected from at least three of the five divisions of Chemistry and Biochemistry (Analytical, Biochemistry, Inorganic, Organic and Physical):

No more than six of the hours may be taken at the 4000G level

At least one three hour lecture course from the three divisions must be taken at the 5/6000 level

Electives

Choose any other graduate level courses, as approved by the graduate liason 11

Total Credit Hours 38

Notes

- A maximum of two core courses may be taken in department(s) outside of the Department of Chemistry as substitution(s); however, all outside courses must be approved in writing by the departmental graduate committee and must be written as such on the candidacy form.
- A maximum of nine hours of Independent Study, CHEM 5990, may be applied to the master's degree.
- All graduate students must also enroll and participate in the Departmental Colloquium, CHEM 5090, for zero credit hours (these do not have to be on the candidacy form) throughout the entire period of their graduate studies (excluding summer semesters).
- Bioinformatics students are required to take at least two courses from non-host departments. The two bioinformatics courses (BIOL 5903 and BIOL 5913) may not be used to satisfy the non-host department requirement.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Chemistry and Biochemistry Doctoral Programs

Doctor of Philosophy

The Ph.D. degree in chemistry and biochemistry is awarded for excellence in research scholarship. It signifies the attainment of independently acquired and comprehensive learning attesting to general professional competence.

Minimum course requirements for graduate degree candidates include the completion of a minimum of 16 credit hours in letter-graded lecture courses at the 5000 or 6000 level. Up to 3 credits of student advisory committee-approved graduate coursework outside the department may count for focus area credit. Students must also complete the specific courses required by their particular division.

Emphasis may be in one area or a combination of the areas of analytical, biochemistry, inorganic, organic, physical or chemical education. The student works under the general direction of the student's major professor and advisory committee. General examinations in the department consist of the writing and oral defense of a research proposition. Individual divisions within the department also have various additional requirements. Details on the requirements and general instructions to graduate students may be obtained from the Department of Chemistry and Biochemistry office, 1000 Stephenson Life Sciences Research Center.

General Information

History

In keeping with the wisdom and tradition of placing the study of ancient Greece and Rome at the heart of a strong curriculum the liberal arts and sciences, President David Ross Boyd selected a classicist, William N. Rice, as the first member of the University of Oklahoma's faculty in 1890.

Rice's successor, Joseph Paxton, wrote the university's motto, *Civi et Reipublicae* ("for the benefit of the citizen and the state"), stating *in nuce* the university's institutional mission of providing the "best possible educational experience for our students through excellence in teaching, research and creative activity, and service to the state and society."

From the Athenian drachma and the Roman sestertius featured above the south doorway of Adams Hall, to the Ionic columns on the front of the Boyd House, the Classical tradition has always been an important part of the University of Oklahoma, and the Department of Classics and Letters has always supported the university's mission through research and teaching in the languages and cultures of ancient Greece and Rome and their enduring influence on the modern world.

In 1937, the School of Letters was organized to "provide systematic instruction in ancient and modern languages, history, philosophy and comparative literature," (*Oklahoma Daily*, August 4, 1937).

A few years later, the School of Letters became a planned program of the College of Arts and Sciences, under the guidance of a committee of faculty members from the core departments of Classics, English, History, Modern Languages, and Philosophy. In 1953, under the direction of Philip J. Nolan, the Classics Department became the administrative home of the Letters program. Since then, the Chair of the Department of Classics also serves as the Director of the Letters program.

To reflect the department's long-standing commitment to the Letters program and the outstanding job it has done administering it, the department's name was changed to the Department of Classics and Letters in 1996.

In 2009, President David L. Boren established the Institute for the American Constitutional Heritage (IACH) within the Department of Classics and Letters because he wanted the IACH to promote an interdisciplinary, humanistic approach to the study of the Constitution and constitutionalism.

From its earliest days, the Department of Classics and Letters has supported, and continues to support, OU's institutional mission by promoting free inquiry and the perpetuation of the humanistic tradition.

Mission

Through teaching, scholarly and creative activity, and service, the Department of Classics and Letters seeks to preserve and promote the study of the culture, history, languages, literature, and philosophy of Greco-Roman antiquity and the enduring influence of Classical ideals on the modern world.

Expanded Statement of Institutional Purpose

The principal mission of the Department of Classics and Letters' curricular program is to provide a traditional liberal arts education that will prepare students to adapt to a variety of settings after graduation. Our programs are based upon the assumption that cultivated intelligence, good judgment, and artistic expression in speech and writing are desirable in and for themselves.

Goals

To build on the strength and reputation for excellence that the department has enjoyed since the earliest history of the University of Oklahoma, our goals are:

- To advance scholarship in the humanities through research, presentations, publication, and creative activity.
- To support and promote the university's educational mission by creating and offering courses not only in the College of Arts & Sciences' general education program, but also in specialized areas of study in support of the department's major and minor programs.
- To promote wider interest in the humanities through public lectures, presentations, and other outreach events.

Research

Faculty members in the Department of Classics and Letters are actively engaged in the research mission of the university. Faculty members' scholarship reflects the department's diverse range of scholarly interests, which include digital humanities, history, language, literature, philosophy, politics, and religion.

Classics and Letters majors have many opportunities for participating in research initiatives with faculty in the department, including Honors Reading, Honors Research, and Mentored Undergraduate Research. Students interested in these opportunities should contact professors or speak with the department's academic advisor.

Scholarships and Financial Aid

The Department of Classics and Letters annually awards scholarships to our outstanding junior and senior majors. The scholarships are open to Letters or Classics majors who have accrued 60 hours (including hours tested out of) and a minimum 3.5 GPA. Some scholarships are for Letters majors only; some for Letters or Classics majors, some for study abroad; one is reserved for students pursuing a teaching career in Latin.

THE PEGGY CHAMBERS SCHOLARSHIP

Established by an OU alumnus in recognition of Peggy Chambers' outstanding contributions to the Classics and Letters programs. Awarded to outstanding junior or senior Letters major. Number and stipend varies.

THE CHARLES AND JULIE DANIELS STUDY ABROAD SCHOLARSHIP

Established by a Letters alumna and her husband, both graduates of the University of Oklahoma, for study abroad scholarships. Awarded to outstanding junior or senior Letters major. Number and stipend varies.

THE PHILIP J. NOLAN SCHOLARSHIP

Established by a former student of Philip Nolan. Awarded to outstanding junior or senior Letters major. Number and stipend varies.

THE PHILIP NOLAN MEMORIAL SCHOLARSHIP

Established by the former students, colleagues and friends of Dr. Philip Nolan. Awarded to outstanding senior Letters or major Classics. Number and stipend varies.

THE MARY ENOD WILLIAMS SCHOLARSHIP

Established by Charles Williams for his mother, Mary Enod Williams a long time public school teacher who graduated from OU with a degree in Latin. Awarded to outstanding Letters or Classics major. Stipend varies.

THE JEAN HERRICK SCHOLARSHIP

Jean Herrick was a long time member of the Classics Faculty. Awarded annually to a senior Classics major who intends to pursue a teaching career in Latin.

THE DANNEY GLENN GOBLE MEMORIAL SCHOLARSHIP

Established by family and friends in memory of Dr. Goble, distinguished teacher and scholar. Any eligible deserving undergraduate Letters major is qualified for either an initial award or a subsequent award if, in the opinion of the selection committee, the student is making satisfactory progress toward graduation and the student needs supplemental financial assistance. For purposes of this scholarship, satisfactory progress shall be deemed to be the achievement of and maintenance of at least a 3.0 overall grade point average on a 4.0 scale.

THE CHERYL WALKER-ESBAUGH SCHOLARSHIP

Established by an OU alumnus in recognition of Cheryl Walker-Esbaugh's outstanding contributions to the Classics and Letters programs. Awarded to a junior or senior Classics or Letters major with financial need.

THE J. RUFUS FEARS SCHOLARSHIP

J. Rufus Fears was an exceptionally gifted and respected teacher of Classics at the University of Oklahoma who influenced the lives and shaped the careers of many students. This award was established by donors to recognize Dr. Fears' many contributions to the University of Oklahoma, the immediate community and the state. The Fears Scholarship is for deserving Letters or Classics majors with financial need who have maintained a minimum 3.0 GPA.

THE JOHN H. HANSEN PRIZE FOR FUTURE TEACHERS OF LATIN

This scholarship was established by John Hansen, an instructor in the Department of Classics and Latin, in honor of his father. This prize is awarded to students who have demonstrated a commitment to the teaching of Latin at the high school level in Oklahoma.

THE JACK CATLIN SCHOLARSHIP

This scholarship was established by the many students, friends, and colleagues of John S. Catlin, who was chair of the Department of Classics and Letters for over two decades. During that time he taught and advised countless students, and this scholarship honors his devotion to them. This scholarship is awarded to a junior or senior Classics or Letters major with financial need.

The Walker Family Endowed Scholarship

This scholarship was established by Luke Walker (Letters 1994) and his family for deserving Classics or Letters majors who intend to go into a scientific or medical field, including public health and public health policy.

Undergraduate Study Programs offered

- Classical Studies (p. 186): The Classical Studies major is a traditional liberal arts major for undergraduates with an interest in ancient Greece and Rome. This option is ideal for students who have an interest in ancient Greece and Rome but do not wish to pursue the training in the Greek and Latin languages necessary for admission to graduate school in Classics. With the exception of the required courses in either Latin or Greek, the course materials are in English.
- Classical Languages (p. 184): Classical Languages students pursue a more traditional curriculum that emphasizes the study of the Greek and Latin languages. This option is ideal for preparing students to enter upon advanced study in graduate school or seminary, but it will also benefit those desiring solid training in the liberal arts for a variety of careers, such as law, medicine, business, education and government. Students who select this option study both Greek and Latin literature in the original languages and in translation, and they also take courses on all aspects of the ancient world.
- Latin (p. 189): The Latin degree option is intended for those who wish to teach Latin at the high school level.
- Letters (p. 191): The Letters degree is interdisciplinary, and the curriculum is flexible enough to accommodate most students' interests. The program is based upon the assumption that cultivated intelligence, good judgment, and artistic expression in speech and writing are desirable in and for themselves. The Letters major provides an excellent preparation for advanced study in a variety of academic disciplines.

- Constitutional Studies (p. 193): Letters students may pursue a concentration in Constitutional Studies under the supervision of the Institute for the American Constitutional Heritage.
- Classical Culture Minor (p. 197)
- Classical Greek Minor (p. 197)
- Constitutional Studies Minor (p. 197)
- Latin Minor (p. 198)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed

Classics: Classical Languages, Bachelor of Arts

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.
- The major requires 36 hours *beyond* LAT 1115, LAT 1215 (or LAT 1315), GRK 1115 and GRK 1215.
- CL C 2413 will not be accepted for major credit.
- At least 18 hours must be in courses numbered 3000 or above.
- Courses in related subjects must have prior approval of the Classics Department.

Code	Title	Credit Hours
LAT 1115 & LAT 1215	Beginning Latin and Beginning Latin	
	or LAT 1315 Intensive Introductory Latin	
GRK 1115 & GRK 1215	Beginning Greek and Beginning Greek	

LAT 2113	Intermediate Latin Prose: Cicero, Livy, Pliny, Gellius, Vulgate	3
LAT 2213	Ovid	3
GRK 2113	Biblical Greek	3
GRK 2213	Homer	3
Choose 6 hours from LAT or GRK courses numbered 3000 or above		6
Choose 6 hours from CL C, LAT, or GRK courses numbered 2000 or above		6
Choose 9 hours from CL C, LAT, or GRK courses numbered 3000 or above		9
CL C 4503	Classics Capstone	3
or LAT 4503		
Total Credit Hours		36

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication

Choose one General Education Capstone course 3

Total Credit Hours 56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU

Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Classics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Classical Languages major requirements.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Classics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Letters major requirements.

¹This course may also fulfill the major support requirement for a course in the appreciation or history of one of the fine arts.

²Students must complete one modern and one ancient foreign language.

Letters: Constitutional Studies, Bachelor of Arts in Letters

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements
- The major requires 36 hours in **history** (including history of science), **literature** (including classical culture and MLLL), and **philosophy**, at

least 27 of which must be upper-division, and including at least 9 hours in each division.

- Courses taken to fulfill the History, Literature & Philosophy requirements may also be used to fulfill Constitutional Studies requirements and vice versa.
- **Graduation in Letters: Constitutional Studies requires a 3.00 GPA in the last 90 credit hours.**

Code	Title	Credit Hours
History		
	Choose 9 hours	9
Literature		
	Choose 9 hours	9
Philosophy		
	Choose 9 hours	9
Additional History, Literature & Philosophy		
	Choose 9 hours from History, Literature and/or Philosophy to bring total major hours to 36	9
Constitutional Studies Requirements ¹		
The 36 hours of major work listed above must include one course in each of the 4 categories below, and a 5th course chosen from I-IV:		
	I. Ancient Foundations of Law, Liberty, & Justice	
	II. The Philosophical Background of American Constitutionalism	
	III. The American Founding	
	IV. The Constitutional Legacy in Modern America	
	Total Credit Hours	36

¹Students must successfully complete at least 15 hours (five courses) chosen from a list of approved courses; 12 hours must be at the upper-division level. These courses must include one course from each area I through IV. A list of approved courses is available in the Department of Classics and Letters.

Major Support Requirements

Code	Title	Credit Hours
	Supporting courses, secondary or collegiate, in one ancient and one modern language (3 courses in one and 4 in the other)	
	Choose one course in the appreciation or history of one of the fine arts	

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or P BIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
<i>Understanding Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Civilization and Culture</i>		
HIST 1483	United States, 1492 to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
<i>Non-Western Culture</i>

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Greek program in the Department of Classics.

Classical Culture, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Classics.

- CL C 2413 may **not** be counted toward the Classical Culture minor.
- With prior approval of the Classics Department Chair, the following substitutions may be made:
 - a. Three (3) hours of upper-division work in Latin or Greek courses.
 - b. Three (3) hours of upper-division credit in Ancient History, Ancient Philosophy, or in other related courses.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Classical Culture. At least 12 hours must be earned in upper-division Classical Culture (CL C) courses.

Code	Title	Credit Hours
Select at least 15 hours of courses acceptable for major credit in Classical Culture. At least twelve (12) of these hours must be upper division Classical Culture (CL C) courses		15
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Classical Greek, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Required Courses

Students must successfully complete at least 15 hours of coursework in Greek at the 2000-level or above, including at least nine (9) hours at the upper-division level. Note that introductory courses (GRK 1115 and GRK 1215) are not counted toward this total.

Code	Title	Credit Hours
Choose 15 hours from the following: ¹		15
GRK 2113	Biblical Greek (max 6 hours)	
GRK 3113	Advanced Prose (max 6 hours)	
GRK 3213	Ancient Greek Drama (max 6 hours)	
GRK 3990	Independent Study (max 6 hours)	
GRK 4990	Independent Study (max 6 hours)	
Total Credit Hours		15

¹Students may also use up to 3 hours of upper-division Classical Culture (CL C) or related area.

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Constitutional Studies, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Classics and Letters.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for credit in Constitutional Studies including at least 12 hours at the upper-division level.

Qualifying courses in each category (p. 195) *will be approved by the Department of Classics and Letters. The most up to date list of qualifying courses is available in the Department.*

General Information

The OU Department of Communication provides a broad-based liberal arts education and promotes communication research and development. The ability to communicate clearly, eloquently, and effectively has been the hallmark of an educated person since the beginning of recorded history. At the University of Oklahoma, the study of communication has been a part of the curriculum since 1896. Offering B.A. degrees starting in 1935, M.A. degrees in 1937, and Ph.D. degrees in 1952, OU's Department of Communication views communicative behavior as basic to human activity – to individual development, to interpersonal and social relationships, and to the functioning of political, economic, cultural, and social institutions. Through research and theory-building, we seek to interpret how individuals use symbols to understand and act within their environment.

The department's role as one of the communication discipline's most prestigious departments in a domain of great pragmatic importance commits us to a multi-level teaching program. Our Ph.D. and M.A. programs seek to place graduates in both academic settings with research and educational responsibilities and in non-academic settings in business and industry. Our undergraduate program seeks to prepare majors for diverse career opportunities, prepare gifted students for

advanced work, and develop the communication skills that contribute to the long-term advancement and happiness of all students.

Special Facilities and Programs

Students acquire meaningful job experience while earning college credit through the Department of Communication's internship program. The program allows students to apply their communication knowledge in the working world and enhance their college and career opportunities. Students have the option of choosing positions offered through the department's internship director or arranging for their own internships with the assistance of the internship advisor. The University also provides internship and career counseling through its office of Career Services.

Participation in communication organizations gives students an opportunity to meet others in their major as well as gain increased access to faculty, alumni and other professionals in the field. The Undergraduate Communication Association is open to all communication majors and minors, and Lambda Pi Eta, the department's honor society, recognizes outstanding students in communication.

The Department of Communication also includes the Political Communication Center which houses the world's largest collection of political commercials with more than 100,000 films, videos, and audio recordings representing campaigns ranging from presidential races to city council elections. The commercials, dating back to 1952, make an important contribution to the study of communication and politics. The Center also coordinates research projects on political communication and sponsors conferences that bring together students, scholars, political figures, and media professionals to discuss important topics.

Undergraduate Study Programs Offered

- Communication, Bachelor of Arts (p. 200)
- Communication, Minor (p. 202)

Theory and Practice

The goal of our undergraduate program is sharing the best available theories of communication and facilitating the application of these theories for:

- the improvement of the student's communication skills,
- increased understanding of the communication process, and
- development of the student's ability to analyze and interpret the elements of the communication process as they occur in society.

The department strives to achieve these objectives through varied coursework designed to prepare students for the variety of careers available to communication graduates. Our undergraduate program seeks to prepare majors for diverse career opportunities, prepare gifted students for advanced work, and develop the communication skills that contribute to the long-term advancement and happiness of all students.

Graduate Study MASTER OF ARTS

- Communication, Master of Arts (p. 202)
- Organizational Communication, Master of Arts (p. 203)

Doctoral Programs

- Communication Doctoral Programs (p. 203)

Most of our doctoral graduates apply their degrees toward careers in academic teaching and research, or communication-related fields making use of their research skills and expertise.

AREAS OF SPECIALIZATION

Our students, both at the masters and doctoral levels, generally enter the program with interests focusing on one of our six areas of specialization or a combination of them:

- Intercultural/International Communication
- Interpersonal Communication/Social Influence
- Political/Mass Communication
- Health Communication
- Organizational Communication
- Communication Technology/CMC

Within our department, students tend to concentrate in one area while exploring and incorporating key empirical and theoretical concerns in other areas, often combining research objectives at the intersection of several sub-disciplines; for example, intercultural and health comm; social influence and mass media; or organizational comm and international health, to name but a few possibilities.

Communication, Bachelor of Arts

Major Requirements

- The Department of Communication *does not* permit major coursework to also fulfill General Education or College of Arts and Sciences Requirements.
- COMM 2513 may be used to satisfy General Education Mathematics requirement if not used for major credit.
- **COMM 2713, COMM 3023, and COMM 4713 must be completed with a grade of C or better, with a maximum of two attempts per course.** These courses are not available through correspondence or transfer credit.

Code	Title	Credit Hours
Required Courses		
COMM 1113	Principles of Communication	3
COMM 2613	Public Speaking	3
Choose one of the following:		
COMM 2513	Introduction to Statistics	
ECON 2843	Elements of Statistics	
PSY 2003	Understanding Statistics	
SOC 3123	Social Statistics	
COMM 2713	Communication Theory	3
COMM 3023	Communication Research Methods	3
COMM 4713	Issues in Communication Study (Capstone)	3
Communication Electives		
Choose 18-21 hours, including 12-15 at the upper-division level		18-21
Total Credit Hours		36

¹Students must complete a minimum of nine hours of upper-division COMM electives before taking COMM 4713.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gedned/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
	or EXPO 1213 Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3

<i>Mathematics (3 hours)</i>	
Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)	
<i>Biological Science</i>	
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or P BIO ¹	3-4
<i>Physical Science</i>	
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)	
P SC 1113 American Federal Government	3
Choose one course from the General Education Social Science list	3

<i>Understanding Artistic Forms</i>	
Choose one course from the General Education Artistic Forms list	3
<i>Western Civilization and Culture</i>	
HIST 1483 United States, 1492 to 1865 or HIST 1493 United States, 1865 to the Present	3
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)	3
<i>Non-Western Culture</i>	
Choose one course from the General Education Non-Western Culture list	3
<i>Additional Core IV Upper-Division Humanities courses</i>	
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Communication academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Communication major requirements.

Credit Hours		14
Total Credit Hours		120

¹COMM 2513 is included as fulfilling the General Education Math requirement. This course may not be double-counted as both General Education and major course hours.

²COMM 2713, COMM 3023, and COMM 4713 comprise the three core Communication courses; a grade of C or better is required with a maximum of two attempts per course. These courses may not be completed through transfer credit or correspondence.

Communication, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Communication.

Required Courses

Students must successfully complete at least 21 hours of courses acceptable for major credit in Communication, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
COMM 1113	Principles of Communication ¹	3
COMM 2713	Communication Theory ²	3
Choose 15 additional hours of COMM courses acceptable for major credit, including at least nine (9) at the upper-division level: ^{3,4}		15
Total Credit Hours		21

¹This course must be taken before the other courses for the minor.

²A grade of C or better must be earned, with a maximum of two (2) attempts allowed for this course.

³If COMM 3023 and COMM 4713 are taken, a grade of C or better must be earned in each course; a maximum of two (2) attempts is allowed for these courses.

⁴No more than six (6) credit hours of COMM 3810 and no more than three (3) credit hours of COMM 4990 may count toward the total required for the minor.

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in

all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Organizational Communication, Master of Arts

- This program is Non-Thesis Only.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Communication Doctoral Programs

Doctor of Philosophy

Ph.D. students must complete a minimum of 96 hours of coursework beyond the baccalaureate degree. Ph.D. students must complete the following required hours: COMM 5003, COMM 5013, COMM 5313, COMM 6023 (6-9 hours), COMM 6314, COMM 5033 or COMM 5323, COMM 6980 (2-15 hours), and up to 30 hours of coursework transferred from a

Masters degree. The Ph.D. student will have an advisory committee of no fewer than five, one of whom must be from outside the Communication Department. This committee may require courses other than the core courses for the student. The Report of the Advisory Conference should be approved and filed by the end of the student's third semester of work. A General Examination preliminary to advancement to candidacy must be successfully completed. During candidacy, the student must complete an acceptable dissertation and the Final Oral Examination. Detailed policies can be found in the Department's graduate document.

General Information

An Economics major is one of the most useful in preparing students for careers in the business world as well as graduate study. The exposure to economic analysis (theoretical and empirical) makes Economics majors attractive to many job recruiters and graduate schools because of the exposure to rigorous analytical thinking.

The skills taught to Economics majors provide a solid foundation and preparation for many business occupations. Economic majors are also attractive to various branches of the Federal, State, and Local governments. These agencies offer extensive employment opportunities for undergraduate Economics majors. Economics majors are very well-suited and prepared for advanced degrees in Economics, Business and Law. Many law school representatives believe that Economics is one of the best and most desired pre-law majors because of the analytical training and logical thinking involved in the discipline. The wide range of theoretical, analytical, and empirical courses offered ensure that our undergraduate program equips students with the skills to successfully pursue advanced degrees in Economics.

Programs & Facilities

STUDENT JOURNAL OF ECONOMICS

The Journal of Economics is an on-going student-led publication at the University of Oklahoma dedicated to developing scholarship in Economics and related fields at the undergraduate and graduate levels.

STUDENT ORGANIZATIONS

Omicron Delta Epsilon

Both undergraduate and graduate students who have demonstrated their scholastic excellence are eligible for membership in this international economics honor society.

OU Economics Club

The Economics Club seeks to enhance economic knowledge within the OU community through fun and relevant events. Econ Club promotes economics as a field of study to potential majors/minors, hosts events for students of all majors to see different applications of the economic perspective, and provides opportunities for those with a shared interest in economics to meet and network.

We host a weekly speaker series as well as social outings, company information sessions, an annual trip to the Dallas Federal Reserve, and more. Econ Club also gives OU students the chance to learn more about OU Economics professor's research, locate informal peer advising and tutoring, and sometimes discuss various current events as they pertain to economics.

Email economics.club@ou.edu for more information.

SCHOLARSHIPS

Alexander B. Holmes Scholarships

The Holmes scholarships are merit scholarships with the following criteria: Full-time, regularly enrolled students in the Department of Economics; any eligible deserving undergraduate student is qualified for either an initial award or a subsequent award if the student is making satisfactory progress toward graduation and has achieved a high level of academic excellence; must maintain at least a 3.0 GPA.

Robert Dean Bass Memorial Scholarships

The Bass scholarships are merit scholarships for which undergraduate students in Economics and Political Science are eligible. Students must have a minimum 3.65 GPA, at least 40 hours completed at OU, and no more than 90 completed hours. Students must be planning on a career in government.

INTERNSHIPS

The Department of Economics has an active internship program with some state agencies and other local businesses (consulting firms and utility companies). The internship program exposes students to the practical aspects of Economics. Also, some of these internships have turned into permanent positions. Students who participate in an internship may enroll in 3 hours of directed readings and receive credit, under the supervision of a professor. A research paper is required to receive credit for the internship.

Undergraduate Study

Programs Offered

- Economics, Bachelor of Arts (p. 205)
- Economics, Bachelor of Arts/Master of Arts (p. 208) accelerated program
- Economics, Minor (p. 207)

Students may major in economics either through the College of Arts and Sciences or the Price College of Business. Students interested in majoring in economics through the Price College of Business follow the degree plan leading to the Economics Bachelor of Business Administration (p. 532)

Graduate Study

Master of Arts Degree

Each candidate for the Master of Arts degree in economics can choose the applied economics track (p. 211) or the managerial economics track (p. 211). The applied economics track is designed for students seeking jobs in either the private or public sectors. The first year coursework of this program coincides with the first year coursework of the Ph.D. program, so this track is also appropriate for students who might wish to pursue a Ph.D. degree. The managerial economics track is designed for those students who expect to pursue a managerial career in business or government and prefer a course of study that emphasizes the applications of economics to the problems of these areas. It is a terminal

degree. Those students who have the objective of further graduate study to the doctoral level should choose the applied track of the master's program.

Economics Doctoral Program

The doctoral program (p. 211) is designed with the goal of providing students with maximum support in the pursuit of their career objectives. This process culminates in a significant work of original research in the form of a dissertation. Having completed all requirements, students are fully qualified to pursue academic, professional, or governmental careers.

Core Area IV: Humanities (18 hours)

Understanding Artistic Forms

Choose one course from the General Education Artistic Forms list 3

Western Civilization and Culture

HIST 1483 United States, 1492 to 1865 3
or HIST 1493 United States, 1865 to the Present

Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493) 3

Non-Western Culture

Choose one course from the General Education Non-Western Culture list 3

Additional Core IV Upper-Division Humanities courses

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture^{1,3} 3

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture^{1,3} 3

Core Area V: Senior Capstone Experience (3 hours)

Choose one General Education Capstone course 3

Total Credit Hours 56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Economics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Economics major requirements.

Total Credit Hours 120

Economics, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Economics.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Economics, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
ECON 1113	Principles of Economics-Macro	3
ECON 1123	Principles of Economics-Micro	3
ECON 3113	Intermediate Microeconomic Theory	3
	or ECON 3133 Intermediate Macroeconomic Theory	
	Choose 6 additional hours of courses acceptable for major credit in Economics	6
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Economics, Bachelor of Arts/Master of Arts

- Grades of C or better must be earned in each course in the major requirements and major support requirements.

Undergraduate Requirements

- Some courses required for the major may also fulfill University general Education and/or College of Arts & Sciences Requirements.

Major Requirements

Code	Title	Credit Hours
ECON 1113	Principles of Economics-Macro	3
ECON 1123	Principles of Economics-Micro	3
ECON 2843	Elements of Statistics	3

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Economics: Managerial Economics, Master of Arts

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Economics Doctoral Programs

Doctor of Philosophy Degree

The Ph.D. program is designed with the goal of providing students with maximum support in the pursuit of their career objectives. There are three structural elements in the Ph.D. program: a rigorous and well-integrated core curriculum of economic theory and statistical analysis; concentrated study in selected fields of development economics, industrial organization, international economics, and public economics; and training designed to prepare the student to undertake independent research. This process culminates in a significant work of original research in the form of a dissertation. Having completed all three

elements, students are fully qualified to pursue academic, professional, or governmental careers.

The Ph.D. degree requires at least 90 hours beyond the Bachelor's degree. A minimum of 54 of these hours must consist of formal coursework, with the remainder being comprised of dissertation research. In addition, students must demonstrate research proficiency, which is required for all doctoral degree candidates at the University of Oklahoma. The research proficiency for the Department of Economics is demonstrated by the ability to utilize statistical and econometric software packages, by foreign language expertise, or by demonstrated math proficiencies.

Department of English

Roxanne Mountford, Ph.D., Chair
316 Cate Center Dr
Cate Center 2, Room 414

Bachelor of Arts

- **Literary & Cultural Studies (p. 214)**
Students study literary works, movements, genres, themes, and writers in their cultural contexts. Courses emphasize reading, story, communication, language, and historical and cultural events.
- **Writing (p. 217)**
Students study theories of written communication, practice them extensively in various writing contexts, and explore issues concerning literacy, language, and the relation of writing to different cultures.

Accelerated B.A./M.A. Degree

The Department of English offers an accelerated degree program (BA/MA) to qualified undergraduate students. The program allows students to pursue a graduate degree in conjunction with the undergraduate degree requirements.

- Literary & Cultural Studies, Bachelor of Arts/Master of Arts (p. 221)
- Writing, Bachelor of Arts/Master of Arts (p. 224)

Minors

Students majoring in other subjects may elect to complete a minor in English either in literary and cultural studies, and/or writing.

- Literary & Cultural Studies Minor (p. 219)
- Writing Minor (p. 220)
- Irish Studies Minor (p. 220)

LANGUAGE ARTS CERTIFICATE

Students majoring in English may also work for the standard teaching certificate in language arts. Students in the language arts program must meet all of the requirements of the English major, and a few additional specifications. Information concerning the teaching certificate programs is available from the College of Education. Detailed checksheets of degree requirements and advisors with whom students can discuss programs of study are available in the college office.

Courses for Nonmajors

Since its subject matter has wide appeal to non-majors as well as majors, the Department of English devotes a substantial portion of its staff and budget to the instruction of those who are majors in other fields. In addition to the first-year English courses, the department offers courses in literary and cultural studies as well as writing.

Graduate Study

Master of Arts Degree

As the M.A. in English is a research degree as well as a teaching apprenticeship, all students are expected to choose fields of specialization, in close consultation with the chair of their committee. The choice ranges from well-established areas defined by nation and/or historical period through theoretical approaches, media studies, more recent areas of scholarly interest, to unique areas defined by the student in consultation with his or her chair.

- Literary & Cultural Studies (p. 226)
- Rhetoric & Writing Studies (p. 227)

English Doctoral Programs

As the Ph.D. in English (p. 227) is a research degree as well as a teaching apprenticeship, all students are expected to choose fields of specialization, in close consultation with the chair of their committee. The choice ranges from well-established areas defined by nation and/or historical period through theoretical approaches, media studies, more recent areas of scholarly interest, to unique areas defined by the student in consultation with his or her chair.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed

Choose one General Education Capstone course		3
Total Credit Hours		56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and/or Department of English academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and English major requirements.

¹A grade of C or better is required in the intermediate-level foreign language course.

English: Literary & Cultural Studies, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of English.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in English, including nine (9) hours at the upper-division level.

Students may not apply hours from first-year English (ENGL 1113, ENGL 1213) or from English courses designated as writing courses to a minor in literary and cultural studies.

Code	Title	Credit Hours
Choose 15 hours of courses acceptable for major credit in English (9 of these hours must be upper division)		15
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

English: Writing, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of English.

Required Courses

Students must successfully complete at least 15 hours in writing courses beyond the first-year level, at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
Choose fifteen (15) hours in writing courses beyond the first-year level, including at least nine (9) hours at the upper-division level.		15
Total Credit Hours		15

Writing courses that fulfill the requirements for the minor in writing include:

Code	Title	Credit Hours
ENGL 2113	Intermediate Writing	3
ENGL 2123	Creative Writing	3
ENGL 2133	Autobiographical Writing	3
ENGL 3103	Topics in Advanced Composition	3
ENGL 3123	Fiction Writing	3
ENGL 3133	Poetry Writing	3
ENGL 3143	Studies in Literacy and Rhetoric	3
ENGL 3153	Technical Writing	3
ENGL 3163	Rhetoric and the Digital Humanities	3
ENGL 3173	Histories of Writing, Rhetoric and Technology	3
ENGL 3223	Oklahoma Writers/Writing Oklahoma	3
ENGL 4943	Advanced Creative Nonfiction Writing	3

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Irish Studies, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of English.

Required Courses

Students must successfully complete at least 15 hours of coursework, including at least nine (9) hours at the upper-division level.

Students must earn a grade of C or better in all courses taken to fulfill requirements for the minor.

Code	Title	Credit Hours
Disciplinary Methods Course		
Choose one of the following:		3
ANTH 1113	General Anthropology	
EXPO 1223	Expository Writing	
GEOG 2603	World Regional Geography	
HIST 2573	The History Sleuth	
IAS 2003	Understanding the Global Community	

P SC 2013	Introduction to Political Analysis	
SOC 1113	Introduction to Sociology	
Upper-Division Courses		
Choose four additional 3000-4000-level courses:		12
Up to 3 hours of coursework taken in Ireland, regardless of the course focus, may count for the minor; other courses must focus primarily on some aspect of Irish culture		
Up to 3 hours of upper-division independent study coursework may count for the minor		
Variable topics courses in any discipline, provided they have an Irish focus, may count towards the minor		
Total Credit Hours		15

The courses listed below have been offered with an Irish focus and may be used for the minor; however, *they must be pre-approved*:

Code	Title	Credit Hours
ANTH 3953	Proseminar in Anthropology	3
CAS 3900	Study Abroad	1-6
ENGL 4023	Literary Movements	3
EXPO 3103	Advanced Expository Writing	3
HIST 3283	History of Ireland, Part II (Does not require pre-approval)	3
P SC 3600	Topics in Comparative Politics	1-3
SOC 3900	Special Topics in Sociology	1-3

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

English: Literary & Cultural Studies, Bachelor of Arts/Master of Arts

Undergraduate Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.
- A grade of C or better must be earned in each English course presented for major credit.

Major Requirements

Code	Title	Credit Hours
Core Courses		
ENGL 2273	Literary and Cultural Analysis	3
ENGL 2283	Critical Methods: Texts/Contexts/Theories /Critics	3
or ENGL 3843	Theory Now	
Choose one of the following pairs of survey courses:		6
ENGL 2433 & ENGL 2443	World Literature to 1700 and World Literature, 1700 to Present	
ENGL 2543 & ENGL 2653	English Literature from 1375 to 1700 and English Literature from 1700 to the Present	

ENGL 2773	American Literature & ENGL 2883 and American Literature	
Capstone Course		
ENGL 4853	The English Capstone Course	3
Literary & Cultural Studies Courses		
Choose nine courses, from at least 4 of the 6 LCS groups. At least two courses must be 4000-level. (p. 221) ¹		27
Total Credit Hours		42

¹Multicultural Requirement: At least one of the courses taken from Group I-VI must be a multicultural course from the following: ENGL 2713, ENGL 2733, ENGL 2743, ENGL 3253, ENGL 3283, ENGL 3343, ENGL 3353, ENGL 3453, ENGL 3483, ENGL 3643, ENGL 4033, ENGL 4283, ENGL 4323, ENGL 4333, ENGL 4343, ENGL 4373, or ENGL 4383.

Major Support Requirements

Proficiency in 1 foreign language is required as demonstrated by proficiency examination or successful completion of 2 semesters of intermediate coursework in a foreign language taught in Classics or Modern Languages departments. Successful completion = grade of C or better in the second semester of the intermediate year.

M.A. Component

Total Credit Hours	56
--------------------	----

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses

taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

English: Writing, Bachelor of Arts/Master of Arts

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.
- A grade of C or better must be earned in each English course presented for major credit.

Code	Title	Credit Hours

Total Credit Hours	56
--------------------	----

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

English: Literary Studies, Master of Arts**Required Courses**

Reading proficiency in one foreign language as determined by the department is required.

Thesis Option Only

Code	Title	Credit Hours
Core Courses ¹		
ENGL 5313	Literary Criticism	3
ENGL 5113	Teaching College Composition	3
Electives		
Choose seven courses in the Literary Studies Concentration, as approved by the Graduate Liaison and the student's advisor ²		21
Required Courses		
ENGL 5980	Research for Master's Thesis	3
Total Credit Hours		30

¹Courses must be taken at the 5000 or 6000 level.

²Students must take most courses at the 5000- or 6000-level, but may take one graduate 4000-level class, and one course outside the department, and one Directed Readings (ENGL 5963), with permission from the student’s chair and the departmental graduate committee.

General Requirements for all Master's Degrees

The master’s degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master’s degree must carry graduate credit.

Master’s degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master’s degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master’s degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master’s degree students may be found in the Graduate College Bulletin.

English: Rhetoric & Writing Studies, Master of Arts

Required Courses

Reading proficiency in one foreign language as determined by the department is required.

Thesis Option Only

Code	Title	Credit Hours

Required Course		
ENGL 5980	Research for Master’s Thesis	3
Electives		
Choose six courses in consultation with advisor ²		18
Total Credit Hours		30

¹Courses must be taken at the 5000 or 6000 level.

²Students must take most courses at the 5000- or 6000-level, but may take one graduate 4000-level class, and one course outside the department, and one directed reading (ENGL 5963), with permission from the student’s chair and the departmental graduate committee.

General Requirements for all Master's Degrees

The master’s degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master’s degree must carry graduate credit.

Master’s degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master’s degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master’s degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master’s degree students may be found in the Graduate College Bulletin.

English Doctoral Programs

Doctor of Philosophy

The Ph.D. program requires 90 hours beyond the B.A. The **Rhetoric and Writing Studies** area of concentration requires one course in Teaching College Composition, one course in Intro to Rhetoric and Writing Studies, one course in Research Methods in Rhetoric and Writing Studies, six elective courses (most courses must be at the 5000-6000 level, but may take one at the 4000 level, two outside R&W studies, one outside the department and one directed reading ENGL 5963), a minimum of three hours of ENGL 6880, and a minimum of two hours of ENGL 6980. The **Literary Studies** area of concentration requires one course in Literary Criticism and Theory, one course in Teaching College Composition, seven courses in Literary and Cultural Studies (may include one directed reading ENGL 5963), a minimum of three hours of ENGL 6880, and a minimum of two hours of ENGL 6980.

The Ph.D. program requires a general examination which includes both a written and oral component, and a dissertation. In addition, each Ph.D. student must have reading proficiency in one foreign language.

Environmental Studies

K. David (Dave) Hambright, Director and Professor
 625 Elm Ave
 Norman, OK 73019-3126
 Phone: (405) 325-0595
 environmentalstudies@ou.edu
 www.ou.edu/cas/environmentalstudies

General Information

Formerly the Interdisciplinary Perspectives on the Environment program, Environmental Studies is a collaborative teaching and research program with a student-guided curriculum designed to create the leadership and workforce with the skills needed to help meet global challenges relating

to water security and other pressing environmental issues, such as pollution, climate change, and deforestation.

The Environmental Studies program provides an undergraduate curriculum that leverages water and other environmentally-related strengths and expertise across the University of Oklahoma, and provides for scholarly specialization in water-related and other environmental disciplines, in order to prepare students to participate effectively in socially-responsible solutions to some of the greatest environmental problems facing humanity.

Environmental Studies prepares students for environmentally-related jobs, including those in federal, state, and tribal government agencies, environmental consulting firms, corporate, professional, and industrial enterprises, environmentally-related NGOs, journalism, public service, law, advocacy, and legislative lobbying efforts.

Programs & Facilities

ENVIRONMENTAL RESEARCH EXPERIENCE FOR STUDENTS (ERES)

ERES is designed to provide undergraduate students with meaningful experience in scholarly research and creative activity focused on important environmental issues of the day.

ENVIRONMENTAL STUDIES RELATED CAREERS AND INTERNSHIPS

Internship experience with course credit is possibly for any student interested in getting a headstart on their career. See Careers and Internships for more information

Undergraduate Study

PROGRAMS OFFERED

- Environmental Studies, Bachelor of Arts (p. 228)
- Environmental Studies, Bachelor of Science (p. 233)
- Biological Conservation Minor (p. 235)
- Environmental Studies Minor (p. 236)
- Water Sciences Minor (p. 236)

Graduate Study

Programs Offered

- Master of Science in Environmental Studies (p. 236)

Admission to the Environmental Studies graduate programs is based on the standards for admission established by the Graduate College. See How to Apply information for more details concerning the admission process.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Planned Program major requirements.

or HIST 1493	United States, 1865 to the Present	

Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)

Non-Western Culture

Choose one course from the General Education Non-Western Culture list

Additional Core IV Upper-Division Humanities courses

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture^{1,3}

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture^{1,3}

Core Area V: Senior Capstone Experience (3 hours)

Choose one General Education Capstone course

Total Credit Hours 56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific

requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Planned Program major requirements.

¹ Courses must be chosen from the Biology, Chemistry, and Physics Major Support lists maintained by the department, and one of these courses must include a laboratory.

Biological Conservation, Minor

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

At the discretion of the program director and departmental advisor, ad hoc electives (such as new courses, special offerings, and one-time courses) may be approved in writing to fulfill minor requirements.

Required Courses

Students must successfully complete at least 18 hours of courses approved by an Environmental Studies faculty advisor, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
18 hours chosen from an approved course list available from the department or as approved by faculty advisor (a minimum of 12 hours must be from courses within the College of Arts and Sciences).		18
Total Credit Hours		18

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Environmental Studies, Minor

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

At the discretion of the program director and departmental advisor, ad hoc electives (such as new courses, special offerings, and one-time courses) may be approved in writing to fulfill minor requirements.

Required Courses

18 hours, including at least 9 upper-division level, chosen from an approved course list available from the department. The 18 hours must include ENST 1013, and at least 3 hrs each from the four primary areas or as approved by a faculty advisor (a minimum of 12 hours must be from courses within the College of Arts and Sciences):

Code	Title	Credit Hours
ENST 1013	Consumption and the Environment	3

Environmental Studies, Master of Science in Environmental Studies

- This program is Thesis Only.

Required Courses

Code	Title	Credit Hours
Core Courses		
ENST 5053	Advanced Environmental Studies	3
Choose one Environmentally Related Natural Science Course ¹		3
Choose one Environmentally Related Humanities Course ¹		3
Choose one Environmentally Related Social Science Course ¹		3
Choose one Environmentally Related Skills Course ¹		3
Research		
ENST 5980	Research for Master's Thesis	6
Electives		
Choose one environmentally related elective course ¹		3
Choose one independent study and directed readings		6
Total Credit Hours		30

¹Courses must be chosen in consultation with the student's Graduate Advisor and approved by the Environmental Studies Graduate Liaison.

Notes:

- **The comprehensive final examination over all of the work offered for the degree, including the thesis, is oral.**
- Students who seek an M.S. degree in Environmental Studies will designate a faculty member from the natural sciences as committee chair (subject to approval by the Environmental Studies Graduate Studies Committee), and a majority of the committee will consist of faculty in the natural sciences.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

General Information

Film and Media Studies (FMS) is an interdisciplinary program in the College of Arts and Sciences designed to give students a broad understanding of film and media history, theory, and criticism. An interdisciplinary program, the FMS curriculum is built around a core of Film and Media Studies courses and a rich variety of electives, including offerings in the Departments of Anthropology, African and African American Studies, English, Communication, History, and Modern Languages, as well as in the College of Journalism and Mass Communication and the College of Fine Arts. The comprehensive undergraduate degree provides students with the knowledge and skills required for careers in media-related fields, film production, academics, or other jobs in the liberal arts and humanities.

Programs & Facilities

Digital Media Lab & Library

Media Lab

The FMS Media Lab is part of the FMS Library and houses four 27" Retina screen iMac editing stations equipped with the newest Adobe CC software suite. In addition to the Macs, the media lab also has HD camcorders, tripods, lighting, and audio equipment available for check-out to FMS majors and those enrolled in FMS production courses.

Film Library

The FMS Film Library holds a large collection of screenplays, DVDs, and VHS cassettes for reference. Students can schedule appointments to watch films on one of the library's HD televisions by calling (405) 325-6639, or emailing the library/media lab assistant. You can view and search our film catalog at Collectorz.

Student Organizations

Student Film Production Club

The Student Film Production Club works to promote student productions, educate its members, and develop their skills in the field of video production. Although sponsored by the Film and Media Studies program, the club is open to all OU students and provides its members a place to develop production projects and meet other like-minded people. In addition to holding regularly scheduled meetings and special events, the club also maintains information on this page and a Facebook page to facilitate student contact.

CineClub

CineClub is devoted to the screening of foreign-language, art and independent, as well as experimental films. Interested students should contact Dr. Man-Fung Yip for more information.

Undergraduate Study

PROGRAMS OFFERED

- **Film and Media Studies, Bachelor of Arts (p. 238)**
The undergraduate degree in Film and Media Studies is an interdisciplinary course of study that provides a comprehensive background to both the scholarly and practical study of the moving image. The curriculum covers the history, theory, criticism, art, and

practice of film and other screen media through its core course requirements. Students will learn the skills needed to interpret film and other screen media critically, and “to read” and write about them creatively and analytically. Courses will also focus on social, political, cultural, and economic contexts. Interdisciplinary electives in the major allow students the flexibility to pursue their specific interests, be they film and media studies, writing about film, screenwriting, or production.

- **Film and Media Studies Minor (p. 241)**

Students can also minor in Film and Media Studies.

Graduate Study

Graduate programs in Film and Media Studies may be constructed according to the standard interdisciplinary degree procedures of the Graduate College. Participating members of the Film and Media Studies faculty are available to assist with degree planning at the master’s or doctoral levels.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Boyd	Katrina	G	2011	ASSISTANT PROFESSOR OF FILM AND MEDIA STUDIES, 2011	PhD, Indiana Univ, 2001; MA, Indiana Univ, 1990; BA, Univ of Texas, 1986
Nedeljkovich	Mihajlo		1992	PROFESSOR OF FILM AND MEDIA STUDIES, 2011; ADJUNCT PROFESSOR OF INTERNATIONAL AND AREA STUDIES, 2014	PhD, Ohio Univ, 1992; MFA, Univ of California Los Angeles, 1985; BA, Belgrade Univ, 1980
Rueda	M. Carolina		2011	ASSISTANT PROFESSOR OF FILM AND MEDIA STUDIES, 2014	PhD, Univ of Pittsburgh, 2012; MA, Univ of Cincinnati, 2007; BA, Univ of Oklahoma, 1990
Sturtevant	Victoria	M	2002	ASSOCIATE PROFESSOR OF FILM AND MEDIA STUDIES, 2008; ADJUNCT ASSOCIATE PROFESSOR OF WOMEN'S AND GENDER STUDIES, 2008	PhD, Emory Univ, 2002; MA, Emory Univ, 1999; BA, Toledo Univ, 1995
Yip	Man-fung		2011	ASSOCIATE PROFESSOR OF FILM AND MEDIA STUDIES, 2017	PhD, Univ of Chicago, 2011; MPhil, Hong Kong Univ Sci & Tech, 2001; BS, Chinese Univ of Hong Kong, 1995

Film & Media Studies, Bachelor of Arts

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements
- A grade of “C” or higher must be earned in each course presented for major credit.

- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and/or Department of Film and Media Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Film and Media Studies major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
FMS 1013	Introduction to Film and Media Studies	3
Math (Core I)		3
P SC 1113	American Federal Government (Core III)	3
Beginning Foreign Language (Core I)		5
Credit Hours		17

Second Semester

ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
FMS 2023	Film and Media History: 1960 to Present	3
HIST 1483 or HIST 1493	United States, 1492 to 1865 (Core IV) or United States, 1865 to the Present	3
Beginning Foreign Language continued (Core I)		5
Credit Hours		14

Sophomore**First Semester**

FMS 2013	Film and Media History to 1960	3
Intermediate Foreign Language		3
Natural Science with lab (Core II)		4
Non-Western Culture (Core IV)		3
Free Elective, lower-division		1
Credit Hours		14

Second Semester

FMS 2033	Writing About Film	3
Natural Science without lab (Core II)		3
Western Civilization & Culture (Core IV)		3
Social Science (Core III)		3
Free Elective, lower-division		3
Credit Hours		15

Junior**First Semester**

Film & Media Studies Major Requirement: Creative Skills ¹		3
Film & Media Studies Major Requirement: Guided Elective ¹		3
Humanities, upper-division, outside major (Gen. Ed.)		3
Free Elective, lower-division		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		15

Second Semester

FMS 3213	Media Theories & Methodologies	3
Film & Media Studies Major Requirement: Guided Elective ¹		3
Humanities, upper-division, outside major (Gen. Ed.)		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		15

Senior**First Semester**

Film & Media Studies Major Requirement: Guided Elective, upper-division ¹		3
Film & Media Studies Major Requirement: Guided Elective, upper-division ¹		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		15

Second Semester

FMS 4013	Capstone in Film and Media (Capstone)	3
Film & Media Studies Major Requirement: Guided Elective, upper-division ¹		3

Film & Media Studies Major Requirement: Guided Elective, upper-division ¹	3
Free Elective, upper-division (3000-4000-level)	3
Free Elective, upper-division (3000-4000-level)	3
Credit Hours	15
Total Credit Hours	120

¹**Film & Media Studies Major Requirement: Guided Electives** – 18 hours chosen from the list of Guided Electives maintained by the department. At least 12 hours of the Creative Skills and Guided Electives courses must be Upper Division. No more than 15 credit hours of JMC coursework may be used in the FMS major.

Film and Media Studies Guided Electives

- **For the most current course list, please contact the Department of Film and Media Studies.**

Any course with the FMS prefix, or from the list below, not used to satisfy Core or Creative skills requirements in the major may be used as a Major Elective.

No more than 15 hours of JMC courses may be used towards the FMS major work and no JMC courses may be used towards the FMS minor.

Approved Film & Media Studies Guided Electives

Code	Title	Credit Hours

MLLL 3223	Japan Through Film and Literature	3
MLLL 3373	Italian Cinema	3
MLLL 3763	Chinese Cinema	3
MUNM 2413	Music in Film	3
MUSC 4970	Undergraduate Seminar (Topic: Hollywood Movie Musical)	1-3
WGS 3703	Female Heroism in Hollywood	3
WGS 3713	Gender and James Bond	3
WGS 3813	WGS Special Topics (Topic: Sociology of Gender & Sexuality in Media)	3

*These courses are adviser-approved Creative Skills. If used to meet the Creative Skills requirement, they cannot also be used as a major elective.

Film & Media Studies, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Film & Media Studies.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in Film and Media Studies. All courses with the FMS prefix are acceptable for minor credit. Consult the FMS department for the list of optional interdisciplinary Guided Electives (p. 240). At least nine (9) hours must be taken at the upper-division level. **Note: JMC courses may NOT be used to satisfy requirements for the minor.**

A minimum grade of C or better is required in all courses presented for FMS minor credit.

Code	Title	Credit Hours
Required Courses		
FMS 1013	Introduction to Film and Media Studies	3

General Information

The interdisciplinary program of the Department of Health and Exercise Science is one of the largest in the College of Arts and Sciences. The program integrates the biological, physiological, medical, and behavioral sciences as they relate to physiological responses to exercise and other aspects of human health.

The mission of the Department of Health and Exercise Science is to lead the state and nation in exercise science and health promotion education

and research by providing a rich and diverse undergraduate and graduate curriculum which draws from the life sciences, social sciences, health and exercise sciences, and the humanities; and to contribute to the enhancement of quality of life for the general public.

Faculty

Health and Exercise Science faculty are some of the foremost scholars and researchers in their fields. Their cutting edge research is published in trade journals and many are invited to speak at national and international conferences. In addition to their PhD's many hold certifications such as Certified Strength and Conditioning Specialists (CSCS), Certified Health Education Specialist (CHES), National Strength and Conditioning Association Certified Personal Trainer (NSCA-CPT) and are members of organizations such as Fellow of the American College of Sports Medicine (FACSM), Fellow of the Research Consortium, Fellow of the Gerontological Society of America and Fellow of the National Academy of Kinesiology. Most importantly, they truly enjoy teaching and are accessible to undergraduate and graduate students alike.

Research

At any given time HES faculty, graduate students and undergraduate students have multiple research projects ongoing focusing on the areas of bone density, nutrition, resistance training, stretching, aging and school/community interventions to increase physical activity. Our state of the art laboratory facilities are conveniently located in the HES and Collums buildings. As an HES student, research opportunities will be an integral part of your educational experience.

Curriculum

Whether you are an undergraduate or graduate student, studying Health Promotion or Exercise Physiology, you will have a broad educational experience that includes biological, physical, medical and behavioral sciences as they relate to human health and physiological response. These multidisciplinary experiences will prepare you for many exercise physiology and health promotion related careers.

Programs for Academic Excellence

The Department of Health and Exercise Science supports the position that students should receive both broad educational preparation and disciplinary specialization in order to prepare effectively for future professional demands. This includes: strong general education preparation with an emphasis in biological and behavioral sciences; a core of requisite coursework in HES; and an individualized block of elective coursework.

The department is equally proud of preparation and academic standards at the graduate level. The graduate program is demanding and comparable to programs at peer institutions which have much larger student populations.

Facilities

The Department of Health and Exercise Science is located in the west wing of the S. J. Sarkeys Complex and includes modern classrooms, a student computer lab, conference room, and offices for all of our faculty and graduate students, providing easy access to all members of our department. Additionally, most of the Exercise Physiology laboratories which include the Integrated Cardiorespiratory Physiology, Body Composition and Human Performance, Exercise Biochemistry, Sensory and Muscle Function, Bone Research, and Neuromuscular laboratories are housed in the lower floor of the department. There is one additional Exercise Physiology Lab, the Biophysics Lab, located in the Collums

Building, as well as a separate teaching lab and four Health Promotion labs that include the Functional Assessment and Behavioral Science Lab, the Community Nutrition and Physical Activity Lab, and the Social and Behavioral Health Lab, all within close proximity to the Sarkeys Fitness Center. For more detailed information about faculty members, their laboratories, research experiences, and current students, please visit the 'Research' section and 'People' sections of this website.

Scholarships and Financial Aid

The department offers the Mary Anne Price and Virginia Morris undergraduate merit scholarships, the Glen Michael Sims graduate merit scholarship, the Helen Riddle doctoral research scholarship and the Doctoral Scholarship award. Application is restricted to HES majors. Students should contact the department for further information and applications.

Graduate assistantships are annually available for MS and PhD students in the Department of Health and Exercise Science contingent upon available faculty and departmental funding. Students who have been admitted to the graduate program in the HES Department are eligible for consideration.

Health and Exercise Science Student Association

The purpose of the Health and Exercise Sciences Student Association (HESSA) is to provide an environment whereby undergraduate and graduate students can interact with HES faculty members and other departmental staff on both social and professional levels in such a way as to enhance the cohesiveness and effectiveness of the Health and Exercise Science Department. Each year HESSA plans activities that help support students and foster relationships across the department and university.

Undergraduate Study

The undergraduate program integrates the biological, physiological, medical, and behavioral sciences as they relate to physiological responses to exercise and other aspects of human health.

- Bachelor of Science in Health and Exercise Science (p. 243)
The Bachelor of Science in Health and Exercise Science is designed to train students who plan to work in the health, fitness and sport fields or to prepare students for graduate studies in Health and Exercise Science or related fields. The undergraduate program consists of a single core curriculum emphasizing applied science and professional preparation in combination with an elective block sufficiently broad to allow students to develop strong preparation in an area of personal interest related to health and exercise.
- Health and Exercise Science Minor (p. 246)
A minor in Health and Exercise Science is available to students completing their major requirements in other departments.

Service Courses

HES courses numbered below 2000 (except HES 1823) are basic skills courses which include the teaching of specific skills, rules and regulations when appropriate, and nomenclature of a sport or recreational activity. The basic skills courses represent lifetime health, fitness and leisure activities to enhance the lifestyle of all participants. All basic skills courses are graded S/U and have attendance requirements.

Graduate Study Master of Science Degree

Program Options

- Health and Exercise Science (p. 247): an interdisciplinary, hybrid program integrating health education/health promotion, applied exercise physiology, and nutrition, which is designed to prepare students for health/fitness professions, working in a variety of settings.
- Exercise Physiology (p. 246): A disciplinary program integrating course work from a range of research areas in applied exercise physiology, which is designed to prepare students for doctoral training and research in these areas.
- Health Promotion (p. 247): a disciplinary program integrating course work from a range of research areas in health education/health promotion, which is designed to prepare students for doctoral training and research in these areas.
- Sports Data Analytics: (p. 248) a program for students seeking additional professional development and training in the use of data science and data analytics within sports organizations.

Health and Exercise Science Doctoral Programs

The doctoral degree (p. 248) in Health and Exercise Science is awarded for excellence in research scholarship in combination with successful completion of an approved program of study consisting of coursework within and external to the Department of Health and Exercise Science. It signifies the attainment of independently acquired and comprehensive learning which evidences general professional competence.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Bemben	Debra	A	1992	PROFESSOR OF HEALTH AND EXERCISE SCIENCE, 2009; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2014	PhD, Univ of Illinois, 1988; MS, Univ of Saskatchewan, 1982; HBPHE, Lakehead Univ, 1980

Black	Christopher	D	2013	ASSISTANT PROFESSOR OF HEALTH AND EXERCISE SCIENCE, 2013	PhD, Univ of Georgia, 2007; MA, Univ of Georgia, 2003; BA, Hendrix College, 2000
Campbell	Jason	A	2014	ASSISTANT PROFESSOR OF HEALTH AND EXERCISE SCIENCE, 2015	PhD, Univ of Alabama, 2010; MS, Univ of Alabama, 2000; BS, Univ of Alabama, 1998
Cheney	Marshall	K	2012	ASSOCIATE PROFESSOR OF HEALTH AND EXERCISE SCIENCE, 2012	PhD, Univ of Oklahoma, 2010; MA, Washington Univ, 1990; BA, Rhodes College, 1987

Dobbs			2018	ASSISTANT PROFESSOR OF HEALTH AND EXERCISE SCIENCE, 2018	PhD, Univ of Arkansas, 2016; MS, Univ of Arkansas, 2013; BS, Univ of Arkansas, 2009
Kellawan	Jeremy	M	2017	ASSISTANT PROFESSOR OF HEALTH AND EXERCISE SCIENCE, 2017	PhD, Queen's Univ, 2012; MS, Univ of Victoria, 2005; BS, Univ of Guelph, 2005
Larson	Daniel	J	2012	ASSISTANT PROFESSOR OF HEALTH AND EXERCISE SCIENCE, 2015; ADJUNCT ASSISTANT PROFESSOR OF MANAGEMENT AND INTERNATIONAL BUSINESS, 2017	PhD, Univ of Georgia, 2011; MS, Univ of Florida, 2006; BS, Univ of Florida, 1998
Larson	Rebecca	D	2012	ASSOCIATE PROFESSOR OF HEALTH AND EXERCISE SCIENCE, 2018	PhD, Univ of Georgia, 2011; MS, Univ of Florida, 2007; BS, Univ of Florida, 2004
Maness	Sarah		2015	ASSISTANT PROFESSOR OF HEALTH AND EXERCISE SCIENCE, 2015	PhD, Univ of South Florida, 2015; MS, Emory Univ, 2011; BA, BS, North Carolina State Univ, 2009
Maxwell Pereira	Hugo		2018	ASSISTANT PROFESSOR OF HEALTH AND EXERCISE SCIENCE, 2018	PhD, Marquette Univ; MS, Universidade Estadual de Londrina; BS, Universidade Estadual de Londrina
Pincu	Yair		2018	RENEWABLE TERM INSTRUCTOR OF HEALTH AND EXERCISE SCIENCE, 2018	Ph.D., Exercise Physiology, University of Illinois; M.A., Gerontology, Ben-Gurion University; B.Ed., Physical Education, Kaye College for Education
Tall Bear	Donna		2007	RENEWABLE TERM INSTRUCTOR OF HEALTH AND EXERCISE SCIENCE, 2007	M.S, Health Promotion and Disease Prevention, Springfield College; B.S., Exercise and Movement Sciences, City University of New York
Wilkerson	Amanda		2017	ASSISTANT PROFESSOR OF HEALTH AND EXERCISE SCIENCE, 2017	PhD, Univ of Alabama; MS, Univ of Mississippi; BS, Univ of Mississippi

Health & Exercise Science, Bachelor of Science in Health & Exercise Science

Admission Requirements for the Bachelor of Science in Health and Exercise Science

Students interested in entering the HES undergraduate degree program must apply for matriculation into the upper division HES core curriculum. Final admission to HES is a competitive process that is based on the following criteria: prerequisite course GPA and combined retention GPA.

Students will be selected for admission from a pool of applicants who have completed all prerequisite coursework, have both prerequisite and combined retention GPA of 2.75 or higher, and have submitted all required HES application materials. Please note that due to limited resources for this program not all students with the minimum 2.75 GPA are admitted. Depending on the number of applicants and their GPA distributions, the minimum GPA required for consideration may not be competitive and does not guarantee admission.

Admission to this major is a selective process. Not all students with the minimum 2.75 are admitted due to limited resources for this program. Contact the Department of Health & Exercise Science for information about the HES admission process.

A grade of C or better is required in all HES courses and in all major support requirements.

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.

Code	Title	Credit Hours
Health & Exercise Science		
HES 2131	Introduction to Health and Exercise Science	1
HES 2823	Introductory Nutrition	3
HES 2913	Personal Health	3
HES 3513	Health Promotion Program Planning	3
HES 3563	Lifestyle Intervention	3
HES 3813	Principles of Health and Fitness	3
HES 3823	Physiology of Exercise	3
HES 3853	Exercise Testing and Prescription	3
or HES 4833	Physiology of Exercise Laboratory

or HES 4573	Chronic Disease Intervention	
HES 4953	Senior Capstone (Core V)	3
Choose 2 hours of lifetime skill activities courses from different content areas		2
HES Electives		
Choose 15 upper-division hours		15
Total Credit Hours		45

Major Support Requirements

Code	Title	Credit Hours
CHEM 1315	General Chemistry (Core II)	5
or CHEM 1335	General Chemistry I: Signature Course	
MATH 1503	College Algebra (Core I, Math) (or higher)	3
PSY 1113	Elements of Psychology (Core III)	3
SOC 1113	Introduction to Sociology (Core III)	3
BIOL 1114	Introductory Zoology	5
& BIOL 1121	and Introductory Zoology Lab (Core II)	
or BIOL 1005	Concepts in Biology	
BIOL 2124	Human Physiology	4
BIOL 2234	Introduction to Human Anatomy	4-5

or BIOL 2255	Human Anatomy	
COMM 1113	Principles of Communication	3
or COMM 2613	Public Speaking	
Total Credit Hours		30-31

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBI, or PBI ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
<i>Understanding Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Civilization and Culture</i>		
HIST 1483	United States, 1492 to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
<i>Non-Western Culture</i>		

Choose one course from the General Education Non-Western Culture list	3
<i>Additional Core IV Upper-Division Humanities courses</i>	
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and/or Department of Health & Exercise Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Health & Exercise Science major requirements.

Students who have completed prerequisites and meet the minimum grade point average requirement must file an application to be admitted to the program. Because admission is competitive, not every applicant will be admitted.

Health & Exercise Science, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Health & Exercise Science.

Required Courses

Students must successfully complete, with the grade of C or better, at least 18 hours of courses acceptable for major credit in Health and Exercise Science, including at least 12 hours at the upper-division level. In addition to HES 1823 and HES 2913, students must complete twelve (12) additional upper division hours, which can consist of four 3-hour

upper-division electives, or any combination of appropriate upper-division electives that will total twelve (12) hours.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
HES 1823	Scientific Principles of Health and Disease	3
HES 2913	Personal Health	3
Choose 12 hours of courses acceptable for major credit in HES ^{1,2}		12
Total Credit Hours		18

¹HES 3893 may be used for HES minor credit.

²Students obtaining a minor in HES are *not* eligible for Internship or Independent Study hours.

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Health and Exercise Science Doctoral Programs

Doctor of Philosophy Degree

The doctoral degree in Health and Exercise Science is awarded for excellence in research scholarship in combination with successful completion of an approved program of study consisting of coursework within and external to the Department of Health and Exercise Science. It signifies the attainment of independently acquired and comprehensive learning which evidences general professional competence. A doctoral student should, under normal conditions, spend at least the equivalent of five full academic years beyond the bachelor's degree, or four academic years beyond the master's degree. During this period the student shall

take appropriate graduate coursework, successfully complete the General Oral and Written Examination, and submit and successfully defend the results of original research as a dissertation. The total number of hours, combining both formal courses and hours of research, for the doctoral degree will be at least 90 post-baccalaureate hours.

Departmental requirements will conform to University policies in the following areas:

- residency requirements,
- limitations to the number of 3000/4000 level courses that may be applied to the degree,
- transfer credit,
- time limitations,
- general examination,
- use of human subjects/animals in research, and
- completion and defense of the doctoral dissertation.

The Doctor of Philosophy degree (Ph.D.) can be awarded in either Exercise Physiology or Health Promotion.

General Information

The study of History has always claimed a place at the center of a liberal arts education, and for good reason. By understanding the experiences of women and men who lived in the near and distant past, students gain a far sharper perspective on their own place in the world. Knowing the past enhances our capacity to imagine the future. History also sharpens our research and writing skills and hones our ability to think both critically and imaginatively.

Studying the past – whether it's near or distant, foreign or familiar – is fascinating. And understanding the past enhances our ability to understand the present. History Majors at the University of Oklahoma work closely with faculty distinguished for both teaching and research. The research, analytical, and writing skills that History majors develop help them advance in a wide range of careers. In fact, most majors do not become professional historians. Instead, they pursue careers in fields such as law, public service, business, journalism, information management, military service, or even medicine. Others use their historical expertise and knowledge of other cultures more directly as teachers, museum curators, public historians, workers in non-profit agencies, or Peace Corps volunteers. Some even go on to graduate school to become professional historians. Numerous government agencies such as the Foreign Service, CIA, FBI, national and state parks, the Peace Corps, and social services have positions for history graduates. Other hiring institutions include business corporations, educational institutions, the travel and tourism industry, the media (newspapers, journals, TV and film), museums, foundations, and public relations

firms. Graduates with liberal arts degrees (including history) are prime candidates for executive training programs in private business. They may become archivists, curators, consultants, analysts, criminologists, genealogists, librarians, lawyers, teachers, researchers, writers, or publishers. In addition to the many career benefits, history majors will discover that their studies give them the perspective to participate more fully in the world around them.

Programs & Facilities

University of Oklahoma Historical Journal

The University of Oklahoma Historical Journal features the very best work produced by our undergraduate students. The Historical Journal testifies to the intellectual values our department espouses: hard work, rigorous thinking, distinctive style, and academic integrity. Published annually, this peer-reviewed journal is governed by five undergraduate editors who are nominated and elected by the History faculty. Their election to the editorial board recognizes their excellence in a broad variety of history courses at OU and marks their transition from students to intellectual leaders.

Scholarships and Financial Aid

- Annual Awards - recognizing students' best work with annual awards
- Fellowships - awarded to select graduate students:
- Other Funds - for conference travel and research are available on a competitive basis from the Department of History, the Graduate College, the College of Arts and Sciences, and the Graduate Student Senate. Students should consult those offices or the Director of Graduate Studies for application information.

Undergraduate Study

- History, Bachelor of Arts (p. 251)
 History majors choose from two tracks: the Traditional Major offers a variety of geographic, chronological, and thematic perspectives; and the Field of Concentration major focuses on a particular region or theme.
- History Minor (p. 254)
 Students majoring in other subjects may elect to minor in history.

Graduate Study

Master of Arts

The department offers a thesis and a non-thesis option for the Master of Arts (p. 254) degree in History.

Areas of Specialization

The department's greatest strengths are in the areas of the American West, Native American history, environmental history, and Latin American history. The department can also offer advanced degrees in American history, European history, Far Eastern history, African history, ancient history and Jewish history.

Doctoral Programs

The Doctor of Philosophy Degree (p. 255) is offered primarily in one of the department's four core areas. Detailed information may be obtained from the graduate liaison of the department.

	Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
	Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)		

Choose one General Education Capstone course	3
Total Credit Hours	56

- ¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
- ²One course at the intermediate level or demonstrated competency at that level
- ³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and/or Department of History academic advisors to verify that courses selected each semester fulfill the recommended plan

and satisfy university, College of Arts and Sciences, and History major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3

Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		15
Total Credit Hours		120

¹At least one of these courses must be an approved Non-Western Culture General Education course and selected from the survey requirement course lists.

²Twenty-one major elective hours of HIST courses at the 2000-level or above. At least 15 of these hours must be taken at OU at the 3000-level or above. **These hours must include at least one Colloquium (HIST 3573) and a Senior Capstone Seminar (HIST 4973).** Fifteen (15) of these hours must fall within a departmentally approved geographic or thematic field. Lists of fields and of the courses approved for each field may be obtained in the History Department or on the departmental website

History, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of History.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in History, including at least nine (9) hours at the upper-division level. The US History survey course (HIST 1483 or HIST 1493) taken for Gen Ed credit can be counted toward this total.

Code	Title	Credit Hours
Choose at least 15 hours of courses acceptable for major credit in History, including at least 9 hours at the upper-division level		15
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

History, Master of Arts

Required Courses

Thesis Option

Code	Title	Credit Hours
Required Course		
HIST 5001	Navigating The History Profession	1
Core Courses		
Choose four courses in the student's major field, one course of which must be a research seminar		12
Choose three courses in a minor or comparative field		9
HIST 5980	Research for Master's Thesis	5
Electives		
Choose one elective course		3
Total Credit Hours		30

Notes: For thesis students coursework should include at least five graduate seminars (HIST 6200, HIST 6300, HIST 6400, HIST 6700, or HIST 6800; 3 hours each, total of 15); remaining 9 hours may be other graduate courses or directed readings. 9-12 hours of graduate coursework can be substituted for the seminar requirement with the approval of the Graduate Studies Committee.

Non-Thesis Option

Code	Title	Credit Hours
Required Course		
HIST 5001	Navigating The History Profession	1
Core Courses		
Choose six or seven graduate courses (3 hours each), including one that must be a research seminar in the student's major field		18-21
Choose three or four courses in a minor or comparative field		9-12
Electives		
Choose at least one elective course which may be in a cognate field like Education ¹		3-6
Total Credit Hours		34

¹There could be more than one course required if the student elects to take fewer courses in the major or minor history fields.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

History Doctoral Programs

Doctor of Philosophy Degree

Work leading to the Ph.D. degree is offered primarily in one of the department's four core areas. Detailed information may be obtained from the graduate liaison of the department.

In addition to fulfilling the special requirements for the master's degree, the doctoral candidate must complete at least nine seminars (three in a specialized field, three in a comparative field, and three in a general area field), HIST 5001, HIST 6050 and prepare for examinations over three fields of history. Reading proficiency in one foreign language is required of all doctoral candidates.

General Information

The History of Science Department was established in 1971 by the University President's Committee on the History of Science. Since its inception, the program has been closely tied to the History of Science Collections in the University Libraries, which dates from a gift of rare books by University of Oklahoma alumnus Everette L. DeGolyer. In 1954 Duane H. D. Roller became the first Curator of the Collections (then called the DeGolyer Collection), and Professor Roller presided over the growth of an undergraduate and graduate teaching program in history of science. Since this beginning, the history of science program at the University

of Oklahoma has grown to ten faculty members appointed in the department, along with one faculty in the History of Science Collections, two faculty in the Honors College, and two in the History Department, teaching a program of undergraduate courses and conferring master's and doctoral degrees. The department's mission is three-fold: to offer instruction to undergraduates; to offer instruction and guidance for graduate students; and to contribute to research in the history of science.

Our graduate program, established in 1954, is specifically designed for students who are interested in research and teaching careers in higher education, or professional positions in specialized libraries, museums, and other institutions. Students work closely with faculty in a graduate training program designed to produce historians who are scholarly, productive in research, effective in the classroom, and who have high standards of professional conduct and responsibility. Students are encouraged to adapt program materials to the wider discipline of the history of science.

Since 1983 students have had the opportunity to complete requirements for a Minor in the History of Science. In 2011, the BA in the History of Science, Technology and Medicine was approved, thereby offering OU students an undergraduate program in which to inquire into the development of scientific thought from its origins in the cultural and intellectual efforts of the ancient civilizations of Egypt, Mesopotamia, Greece and Rome, through the Islamic and Christian civilizations of the Middle Ages, to the modern period. History of science courses place strong emphasis upon both the internal growth of scientific ideas and their development within the wider political, social, economic, religious, and cultural context of Western history.

Programs & Facilities

History of Science Collections

The History of Science Collections, located on the 5th floor of Bizzell Memorial Library, is a premier research collection in its field. Holdings of nearly 100,000 volumes from every field and subject area of science, technology and medicine range chronologically from Hrabanus Maurus, *Opus de universo* (1467) to current publications in the history of science. The Darwin collection consists of all of Darwin's works in their first editions and several autographed letters, as well as hundreds of subsequent editions and translations.

OU Lynx

The educational arm of the History of Science Collections of OU Libraries is the OU Academy of the Lynx. We seek to collaborate with educators in exhibit-based learning by creating, field-testing and sharing Open Educational Resources (OER's). We invite researchers, graduate students, and others to join us as a participating educator, museum worker, amateur astronomer, student, scholar, sponsor or docent.

Programs for Academic Excellence

The history of science has been designated an area of future emphasis within the College of Arts and Sciences, in the University's Strategy for Excellence. The foundations of the University's commitment to emphasis in this field are the superb History of Science Collections and a department of twelve historians of science dedicated to a comprehensive program of teaching and research.

Through a generous endowment made by the Andrew W. Mellon Foundation, the History of Science program provides travel fellowships for visitors to make use of its resources for research in the history of science. In addition to working in the Collections, visiting fellows interact

with students and faculty in the program and frequently present the results of their research to the university community.

Scholarships and Financial Aid

The Department of History of Science offers the undergraduate **Corliss E. and Esther C. Livesey Endowed Scholarship** carrying a cash stipend to outstanding history of science, technology and medicine full-time major students who have earned 15 hours of major coursework and who have a minimum overall grade point average of 3.25. Eligible students submit applications for the award.

To honor Everette L. DeGolyer, and to recognize his affiliation with the History of Science Program at the University of Oklahoma, the University awards the **Everette Lee DeGolyer History of Science Fellowship** to a graduate student in the Department of the History of Science. The Department of the History of Science nominates eligible applicants during the annual recruitment and application cycle.

The History of Science Department offers graduate assistantships as available each year. For information on scholarships and graduate assistantships, students should contact the chair of the department.

History of Science Association

The History of Science Association (HSA) is an organization comprised of the current students in the History of Science Department at the University of Oklahoma. Every graduate student in the department is a member of HSA, and undergraduate majors and minors are welcome to participate as well. Membership is also open to interested students in other graduate programs across campus. The HSA promotes history of science courses at OU through a variety of efforts, including sponsoring speakers, coordinating a tutoring service, assisting with department participation in University undergraduate recruitment events, and arranging informal social get-togethers for students enrolled in the major or in the minor program.

Undergraduate Study

BACHELOR OF ARTS

- Health, Medicine & Society, Bachelor of Arts (p. 257)
- Bachelor of Arts in History of Science, Technology & Medicine (p. 260)

MINOR

- History of Medicine Minor (p. 263)
- History of Science Minor (p. 263)

Graduate Study

AREAS OF SPECIALIZATION

The History of Science Program is especially strong in the following areas of specialization, because of the concentration of faculty working in the area, the availability of material resources in support of the field, and by institutional linkages with other departments and programs in allied specializations: pre-modern science; biological and social sciences in the modern world; science and religion; American science; history of technology; science, the public and popular culture; medicine, public health and biomedical science; and new media in history of science, technology and medicine.

The programs of study leading to the M.A. and Ph.D. degrees will entail the student's enrollment in history of science courses, history courses,

other approved courses outside the department, and extensive use of the materials contained in the History of Science Collections.

Master of Arts

The Master of Arts in History of Science, Technology & Medicine (p. 264) program has a thesis option and a non-thesis option.

Dual Ma-MLIS Degree Program

The Graduate College approves proposals for dual degree programs. A dual degree allows a student to receive master's degrees in two departments. The programs may be designed for a specific student or established by agreement between departments. The Master of Library and Information Studies/Master of Arts in History of Science, Technology and Medicine program is an example of a dual degree program established by a department and the School of Library and Information Studies. Students must be admitted to both degrees before twelve hours are completed in one or the other. The purpose of the dual Master of Library and Information Studies and Master of Arts in the History of Science, Technology and Medicine program is to provide a course of study for those individuals planning for a career in librarianship as a science librarian, as a curator of a rare book and manuscript collection in the history of science/health sciences, or as a public historian or archivist in the history of science.

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and/or Health, Medicine & Society academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and HMS major requirements.

SOC 3853	Sociology of the Body	3
S WK 3233	Human Behavior: Individuals and Families	3
S WK 3323	Human Diversity and Social Justice	3

In-Major Elective

Students can meet this requirement by taking any of the courses in the lists above

Major Support

The department intends that the science courses required for any of the pre-med/health-related programs can be counted toward the 9 hours of coursework in the "life or natural sciences" category under Major Support Requirements for the HMS BA degree. Besides the general education courses required for pre-degree programs, the following courses are acceptable as science major support electives:

Code	Title	Credit Hours
BIOL 2124	Human Physiology	4
BIOL 2234	Introduction to Human Anatomy	4
BIOL 2255	Human Anatomy	5
BIOL 3083	Animal Behavior	3
BIOL 3103	Principles of Physiology	3
BIOL 3113	Cell Biology	3
BIOL 3201	Animal Development Lab	1
BIOL 3203	Animal Development	3
BIOL 3214	Comparative Vertebrate Anatomy	4
BIOL 3333	Genetics	3
BIOL 3342	Genetics Laboratory	2
BIOL 3833	Introduction to Neurobiology	3
BIOL 4034	Mammalogy	4
BIOL 4233	Neurobiology of Disease	3
BIOL 4244	Animal Histology	4
BIOL 4843	Molecular Biology	3
BIOL 4893	Behavioral Neurobiology	3
BIOL 4970	Special Topics in Biology (Topic: Epigenetic)	3
MBO 3812	Fundamentals of Microbiology Laboratory	2
MBO 3813	Fundamentals of Microbiology	3
MBO 4823	Pathogenic Microbiology and Infectious Disease	3
MBO 4833	Basic Immunology	3
MBO 4903	Topics in Virology	3
CHEM 3053	Organic Chemistry I: Biological Emphasis	3
CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis	2
CHEM 3153	Organic Chemistry II: Biological Emphasis	3
CHEM 3064	Organic Chemistry I	4
CHEM 3164	Organic Chemistry II	4
CHEM 3653	Introduction to Biochemistry	3
PHYS 2424	General Physics for Life Science Oriented Majors	4

PHYS 2524	General Physics for Engineering and Science Majors	4
-----------	--	---

History of Science, Technology & Medicine, Bachelor of Arts in History of Science, Technology & Medicine

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.
- A grade of "C" or higher must be earned in each course presented for major credit.

A minimum of 36 hours of HSCI courses, 21 of which must be upper-division, are required. The 21 upper-division hours includes the capstone course. Up to six hours (2 courses) taught in other departments (i.e., Honors College) may be counted towards the major, subject to written prior approval of the HSCI *departmental undergraduate advisor*.

Students may choose a specific emphasis within the major: **technology & society; biology, medicine & society**; or, a **traditional history of science** emphasis.

Code	Title	Credit Hours
	Choose one HSCI Global course ¹	3
	Choose one HSCI Pre-1750 Period course ¹	3
	Choose one HSCI Post-1750 Period course ¹	3
	Choose one HSCI survey/introductory course from two of the three areas listed below: ¹	6
	History of Medicine	
	History of Technology	
	History of Science	
HSCI 3993	Junior Seminar	3
HSCI 4993	Capstone in History of Science, Technology, and Medicine	3
	Choose five additional HSCI courses from any of the categories listed above, or from any HSCI course listed in the OU catalog	15
Total Credit Hours		36

¹A list of the courses approved for each category may be obtained from the History of Science Department, or in the OU General Catalog here: <https://nextcatalog.ou.edu/arts-sciences/history-science/history-science-technology-medicine-bachelor-arts-history-science-technology-medicine/course-lists/> (p. 262)

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/ged/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>		
	Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or P BIO ¹	3-4
<i>Physical Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
	Choose one course from the General Education Social Science list	3
Core Area IV: Humanities (18 hours)		
<i>Understanding Artistic Forms</i>		
	Choose one course from the General Education Artistic Forms list	3
<i>Western Civilization and Culture</i>		
HIST 1483	United States, 1492 to 1865	3
or HIST 1493	United States, 1865 to the Present	
	Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)	3
<i>Non-Western Culture</i>		
	Choose one course from the General Education Non-Western Culture list	3
<i>Additional Core IV Upper-Division Humanities courses</i>		
	Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
	Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)		
	Choose one General Education Capstone course	3
Total Credit Hours		56

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and/or Department of History of Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and History of Science, Technology and Medicine major requirements.

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

History of Medicine, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of The History of Science.

Required Course

Students must successfully complete at least 15 hours of coursework, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned for each course presented for minor credit.

Code	Title	Credit Hours
Choose 15 hours from the following:		15
HMS 1113	Introduction to Health, Medicine and Society	
HSCI 1113	Science, Nature and Society: Historical Perspectives

HSCI 3423	Modern Medicine - A Historical Introduction	
HMS 4993	Health, Medicine and Society Capstone	
Total Credit Hours		15

Notes

- A list of HSCI/HMS courses with variable content is available in the department that may also count with the prior approval of the HSCI undergraduate studies committee.
- Up to six hours of non-HSCI or HMS courses from a list of approved courses maintained in the department may be applied to the minor.
- Courses not previously listed, which are deemed to have appropriate content, may be applied towards the minor with the prior approval of the HSCI undergraduate committee.

Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

History of Science, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

<i>Electives</i>		
Choose 5 hours of coursework in consultation with the student's advisor and committee ³		5
Total Credit Hours		32

¹As part of HSCI 5990, students must audit a concurrent section of the relevant undergraduate survey, HSCI 3013 or HSCI 3023. Auditors are expected to do all of the reading assignments and attend all of the lectures. Examination requirements are generally excused, but this will be determined by the instructor of the course. A teaching assistantship in HSCI 3013/HSCI 3023 during the semester in which HSCI 5990 is taken will substitute for auditing. This course is strongly recommended, but not required, for students with advanced degrees in the History of Science.

²Each of the HSCI 5500-series courses may be repeated with a change of content. Maximum credit for any one of these courses is 12 hours. In certain cases when the specific content of the topics course warrants it, completion of the course may be counted as fulfilling the requirement of one of the Advanced Studies courses.

³Elective courses: students may choose among approved courses outside the department (e.g. History) and department offerings, such as HSCI 5550 and HSCI 5960.

Notes

- All requirements are to be satisfied by the student's fourth semester in the program. If special circumstances warrant an exception, the department may extend this deadline.
- For thesis students, the thesis should be a single, sustained piece of writing modeled on a scholarly journal article. With regard to length and quality, it is expected that the thesis will be presented to the department as a pre-circulated paper and discussed as a part of the colloquium series. At the discretion of the thesis committee, this presentation may take the place of the oral defense of the thesis.
- For non-thesis students, a portfolio of three research papers prepared as part of your regular graduate course work should be submitted to your committee.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

History of Science Doctoral Programs

Doctor of Philosophy

The Ph.D. program in the History of Science, Technology and Medicine calls for a total of 90 approved credit hours beyond the baccalaureate degree, or 60 hours beyond the Masters degree, including dissertation hours. Students matriculating for the doctoral degree must demonstrate reading proficiency in at least two appropriate foreign languages (usually chosen from French, German, and Latin) before being admitted to candidacy.

Department of Human Relations

Wesley Long, Chair
601 Elm Avenue room 730
Norman, OK 73019-0315
Phone: (405) 325-1756
FAX: (405) 325-4402
stacy@ou.edu
www.ou.edu/cas/humanrelations

General Information

The Department of Human Relations was founded in 1970 with a mission to train graduate students to be agents of social change. The department has grown to include a Bachelor of Arts (BA) in Human Relations in Norman and a Master's degree in Human Relations (MHR) on the University of Oklahoma campuses in Norman and Tulsa, as well as through OU's Extended Campus.

Human Relations is a multi-disciplinary field of study and professional practice combining theoretical perspectives from the social sciences and humanities, organizational studies, the world of work and service, and from multicultural studies. The BA and the MHR degrees prepare students to meet the challenge of working in an increasingly diverse and global workplace.

Programs & Facilities

Student Society for Human Relations

The mission of the Student Society for Human Relations is to promote social justice, principles of tolerance, inclusion, dignity, and equal respect for all groups of people; to serve as social agents of change for the betterment of society; to develop leadership skills as future human relations professionals, and to actively seek ways to build relationships through service with the entire university and with the community at large.

Undergraduate Study

Human Relations degrees prepares graduates for careers focusing on social change and resolution of human relations problems. Students focus on areas of study such as counseling, non-profits, volunteerism, women's issues, race relations, and organizational studies. Many HR undergraduates pursue a Master in Human Relations as a professional degree.

- Human Relations, Bachelor of Arts (p. 266)
- Human Relations Minor (p. 269)

Graduate Study

The Master of Human Relations degree prepares graduates for careers focusing on research and/or resolution of human relations problems.

Particular attention is given to students who work part-time and full-time. To accommodate both traditional and nontraditional students, courses are offered on the Norman campus, at the Schusterman Center in Tulsa, and through Extended Campus in day, evening and week-end formats. Since its inception, the department has graduated a large number of ethnic minorities, women, older persons returning to college, and international students.

Each student pursuing a Master of Human Relations degree is expected to initiate curriculum planning with a major advisor within the first semester. This planning will identify course sequences which seem most likely to lead to mastery in one or more areas of concentration. Some students may not need to design a unique program but may select from concentration options in which the course sequences have been designed by the faculty.

Areas of Specialization

Human relations, human resources, and clinical mental health counseling.

Master of Human Relations Degree

The Human Relations (Standard (p. 270)) and Human Resources (p. 271) options offer a concentration in a particular area of human relations.

The Clinical Mental Health Counseling (p. 270) option includes the coursework necessary for students to obtain licensure as Licensed Professional Counselors in Oklahoma.

Human Relations Graduate Certificates

- Graduate Certificate in Helping Skills in Human Relations (p. 272)
- Graduate Certificate in Human Resource Development and Workforce Diversity (p. 273)

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
<i>Understanding Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Civilization and Culture</i>		

HIST 1483	United States, 1492 to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
<i>Non-Western Culture</i>		
Choose one course from the General Education Non-Western Culture list		3
<i>Additional Core IV Upper-Division Humanities courses</i>		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with

Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Human Relations academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Human Relations major requirements.

¹Any one of these courses will satisfy both the General Education Mathematics requirements as well as the major support requirement for a statistics course.

²The following courses will satisfy both the General Education Non-Western Culture (Core IV) requirement and the cultural diversity major support requirement: AFAM 2003, ANTH 1613, ANTH 1823, ANTH 2203, or ANTH 2613.

Human Relations, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Human Relations.

Required Courses

Students must successfully complete at least 15 hours of coursework in Human Relations, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
H R 3013	Introduction to Human Relations	3
Choose four courses from any undergraduate Human Relations coursework		12
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Clinical Mental Health Counseling, Master of Human Relations

- This program is Non-Thesis Only.

Requirements

Code	Title	Credit Hours
Core Courses (9 hours, shared with standard MHR program)		
H R 5003	Theoretical Foundations Of Human Relations	3

H R 5200	Internship In Human Relations ¹	6
Electives		
Choose 27 additional hours of counseling electives ²		27
Total Credit Hours		60

¹Students must complete 9 hours of core requirements, 18 hours of required counseling courses, and 18 hours of electives prior to enrolling in internship.

²These electives must come from the LPC course list and will be approved by the graduate liaison.

Notes

- No more than ½ of course work can be S/U graded.
- For Non-Thesis students, at least 75% of your course work (27 hours), including the two core courses, must be completed before you take your comprehensive exam.

MHR Transfer Credit Guidelines

- MHR students may transfer no more than 9 hours of graduate credit from other universities. These credits must be evaluated by the university. They may not be applied toward individual course requirements without prior graduate liaison approval.
- Other OU Graduate Classes: No more than 9 hours of graduate credit taken in other OU programs may be used toward the MHR degree. These hours must be approved by the MHR graduate liaison.
- MHR students may not apply more than 9 combined hours of transfer credit and OU credit outside the HR program.
- A letter must accompany all transfer hours from the school-of-origin stating which LPC course requirement the course(s) fulfill. These transfer hours will then get departmental approval.
- At least 39 hours of a student's coursework must be in classroom-based HR classes. Internship is not classroom-based and therefore cannot be counted as part of the 39 hours of classroom-based work. Other University of Oklahoma courses and transfer hours do not count as part of these 39 hours.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Human Relations (Standard), Master of Human Relations

Requirements

All MHR students (M515) must take the same 6 hours of core coursework and choose from one of two concentrations, Standard (Q325) or Human Resources (Q326).

Thesis Option

Code	Title	Credit Hours
Core Courses		
H R 5023	Research in Human Relations	3

	Choose 18 hours ¹	18
Total Credit Hours		36

¹No more than six hours of H R 5100, six hours of H R 5110, six hours of H R 5990, and nine hours of H R 5113 may count towards degree; No more than a combined total of six hours of H R 5960 and H R 5970 may count towards the degree.

Notes

- At least 15 hours of a student's coursework must be classroom-based HR courses. Internship, Independent Study, Directed Reading, and Practicum are not classroom-based and therefore cannot be counted as part of these 15 hours of classroom-based work. Also, other University of Oklahoma courses and transfer hours do not count as part of these 15 hours.
- MHR students may transfer no more than 9 hours of graduate credit from other universities. These credits must be evaluated by the university. They may not be applied toward individual course requirements without prior graduate liaison approval. MHR students may not apply more than 9 combined hours of transfer credit and OU credit outside the HR program.

- Other OU Graduate Classes: No more than 9 hours of graduate credit taken in other OU programs may be used toward the MHR degree. These hours must be approved by the graduate liaison.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Helping Skills in Human Relations, Graduate Certificate

The certificate provides professionals in a wide variety of helping professions with the knowledge and skills to improve relationships, and to be effective and ethical helpers.

Certificate Requirements

Code	Title	Credit Hours
H R 5003	Theoretical Foundations Of Human Relations	3
H R 5463 or H R 5633	Counseling Skills in Human Relations Advanced Counseling Skills	3

H R 5453	Ethical Issues in H R Counseling	3
Choose one 3-credit elective as approved by the chairperson or graduate liaison for the Department of Human Relations		3
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Human Resource Development and Workforce Diversity, Graduate Certificate

The certificate helps students develop the skills and knowledge needed to be successful in the contemporary workplace. Students will learn how to develop human resources and address social justice and diversity issues in work settings.

Certificate Requirements

Code	Title	Credit Hours
H R 5143	Human Resources for the Human Relations Professional	3
H R 5323	Organizational Behavior in Human Relations	3
H R 5053	Diversity and Justice in Organizations	3
H R 5833	Human Resource Development	3
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Schusterman Program in Judaic and Israel Studies

Alan T. Levenson, Director
 455 W. Lindsey, Room 403A
 Norman, Oklahoma 73019
 Phone: (405) 325-6508
 FAX: (405) 325-6521
 tryce.hyman-1@ou.edu

www.ou.edu/cas/judaicstudies

General Information

The Schusterman Center for Judaic and Israel Studies at OU offers an exceptionally wide variety of courses, including Jewish history in all periods and places, Hebrew Language and Literature at all levels, the Bible and Its Interpretation, Israel Studies, the Holocaust/Genocide, Jewish Literature in translation, as well as anthropological, sociological, and political perspectives on the Jewish experience.

Judaic Studies explores the history and culture of the Jewish people over a period of four millennia in the Land of Israel and in the Diaspora (Dispersion) through the tools of the humanities and the social sciences. The field began as an academic discipline in Europe during the nineteenth century and developed within universities and research centers the world over during the twentieth and twenty-first. Israel Studies is a much more recent field dedicated to interpreting the culture, politics and society of the modern State of Israel.

Programs & Facilities Scholarships and Financial Aid

Study in Israel Scholarship

Scholarships are offered for semester-long study abroad programs in Israel; and for those wishing to study in Israel during the summer. The scholarships are open to full-time University of Oklahoma undergraduate and graduate students during the period for which application is made. Students must have completed a minimum of 15 hours of college coursework. Priority will be given to graduate students concentrating in Jewish History and undergraduate students who have officially declared a major or a minor in Judaic Studies or a minor in Hebrew. Applicants must have maintained a 3.0 GPA in Jewish History, Judaic Studies or Hebrew courses and a 2.5 GPA overall.

Presidential International Travel Fellowship

The Presidential International Travel Fellowship or "PITF" is a scholarship created by OU President David L. Boren to support international travel for study abroad. Student awards will be given on a competitive basis to qualified students whose financial needs are not being met by other channels.

Esther Rose Shnier Scholarship

The Schusterman Center annually offers two Shnier Scholarships. The scholarships are open to any individual who, having completed at least 30 credit hours of college coursework, is a full-time, regularly enrolled student of the University of Oklahoma during the period in which application is made, and who has officially declared a major or minor in Judaic Studies and/or a minor in Hebrew. Applicants must have maintained a 3.0 grade average on a scale of 4.0 in Judaic Studies/Hebrew courses. The number of completed hours in the major or minors will also be taken into consideration by the selection committee. Any eligible, deserving undergraduate student is qualified for either an initial award or a subsequent award if, in the opinion of the selection committee, the student is making satisfactory progress toward graduation and the student needs supplemental financial assistance. Applicants will be chosen chiefly on college performance with financial need assuming a secondary role.

Rosalyn Price Scholarship

The Price Memorial Scholarship is open to any individual who is a full-time, regularly enrolled student of the University of Oklahoma majoring in Judaic Studies. Applicants must have maintained a 2.8 grade point

average on a scale of 4.0. The overall grade point average may also be taken into consideration by the selection committee as well as the number of completed hours in the major. Any eligible, deserving undergraduate or graduate student is qualified for either an initial award or a subsequent award if, in the opinion of the selection committee, the student is making satisfactory progress toward graduation.

Zarrow Family Scholarship

The Zarrow Scholarship is open to any individual who, having completed at least three Judaic Studies and/or Hebrew courses, is a full-time, regularly enrolled undergraduate or graduate student of the University of Oklahoma during the period in which application is made. Preference will be given to declared majors or minors in Judaic Studies or minors in Hebrew. Applicants must have maintained a 3.0 grade point average in the minor on a scale of 4.0. The overall grade point average may also be taken into consideration by the selection committee as well as the number of completed hours in the major and/or minors. Any eligible, deserving undergraduate or graduate student is qualified for either an initial award or a subsequent award if, in the opinion of the selection committee, the student is making satisfactory progress toward graduation.

Film Library, videos and recordings

The Schusterman Center has a large collection of DVD's including recorded lectures. Please contact the departmental office for individual availability. The Schusterman Center for Judaic and Israel Studies also offers a variety of recorded lectures, available on their YouTube channel.

Undergraduate Study

Bachelor of Arts

The Judaic Studies, Bachelor of Arts (p. 274) provides students with: a solid grounding in the history and culture of one of the seminal components of modern civilization; in-depth familiarity with one of the most significant countries of the Middle East; and proficiency in the language of present-day Israel and of Jewish historical creativity.

Minor

The Judaic & Israel Studies Minor (p. 277) allows for each student to select what interests them. Students can mix and match from three focus areas: Israel: Ancient and Modern, European Jewry: Medieval to the Holocaust Bible, Jewish Culture & Literature.

The Department of Modern Languages, Literatures, and Linguistics also offers a Hebrew Minor (p. 347).

Graduate Study

Students who wish to pursue a master's or doctoral degree with an emphasis in Judaic history may do so through the graduate programs offered in the Department of History.

Choose one General Education Capstone course		3
--	--	---

Total Credit Hours		56
--------------------	--	----

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.

- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of History, Center for Judaic and Israel Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Judaic Studies major requirements.

Judaic & Israel Studies, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Judaic & Israel Studies program.

Required Courses

Students must successfully complete 15-19 hours from courses designated for the Judaic & Israel Studies minor, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours

General Information

The department was founded in 1929 within the College of Arts and Science by Jesse Lee Rader. The first degree programs offered were the Bachelor of Arts in Library Science, Master of Library Science, and the Master of Arts in Library Science. Both Master's programs were conferred accreditation by the American Library Association in 1956. The name was changed to the School of Library and Information Studies in 1990 to reflect the expanding role of the School in the information age. The School continues to offer the only ALA-accredited Library and Information Studies program in Oklahoma.

The University of Oklahoma School of Library and Information Studies (OU SLIS) educates professionals qualified to meet the challenges of the information society. The ability to generate, access, and use information has become the key factor in personal, social, and economic growth. The expanding global information society requires the free flow of information; and the impact of rapidly changing information and communications technologies is reshaping our personal, educational, and social activities, our organizational and political practices, and our local, national, and international institutions.

Roles, responsibilities, and career opportunities for professionals who can function as creative, information resource managers; act as culturally sensitive guides, navigators and interpreters for local and global users; and produce customized, culturally relevant, value-added services and products for diverse clienteles are expanding.

These professionals will play an increasingly vital role in empowering individuals, organizations, and communities to maximize the benefits of the information age.

Through a forward-looking curriculum and diverse learning environments, the School prepares graduates who have the knowledge, skills, and attitudes necessary to be ethical, culturally aware, and transformative leaders.

Programs & Facilities scholarships

Scholarships are awarded competitively on the basis of demonstrated academic merit and potential for leadership. The SLIS Admissions and Scholarships Committee considers all applications for scholarships in the spring of each school year. Applications for student scholarships are due annually on February 1st. Current students are notified of the deadline for scholarships via the School's student email distribution list. Most of the SLIS scholarships are for master's students, but there is one undergraduate scholarship and one doctoral scholarship.

Graduate student Organization

OLISSA is an American Library Association Student Chapter at the School of Library and Information Studies and a recognized student organization at the University of Oklahoma. OLISSA's mission is to bring library students together with other students, faculty, and library and information professionals. We strive to provide information on the various career paths possible with a library and information studies degree. We provide students with an opportunity to be active participants in the SLIS program and University of Oklahoma Student Association. The organization's primary purpose is to represent and serve the SLIS student body. Officers are either elected or volunteer to serve each spring. They serve as liaisons between the SLIS students and faculty.

Undergraduate Study

Bachelor of Arts in Information Studies

The Bachelor of Arts in Information Studies (p. 282) is an interdisciplinary degree designed to prepare students to explore and analyze information needs, and deploy appropriate and effective approaches to satisfying those needs. The central theme of the degree is facilitating the link between people and the information they need to succeed. The Information Studies degree focuses on how information impacts and is influenced by societal issues, governmental regulation, policy, and economics, as well as I.T. systems' design, implementation, and management.

BACHELOR OF SCIENCE, INFORMATION SCIENCE AND TECHNOLOGY

Information Science as a discipline revolves around the interactions of people, technology, and information. The Information Science and Technology, Bachelor of Science (p. 279) prepares graduates to be innovative information and technology leaders who can solve current and evolving information science problems.

Bachelor's/Master's Accelerated Program

The Bachelor of Arts in Information Studies/Master of Library and Information Studies (p. 286) accelerated program is designed for exceptional students who wish to begin earning the MLIS in their senior year of the BAIS program. The program is open to all OU students who qualify.

Information Studies Minor

The Information Studies Minor (p. 286) focuses on how information impacts and is influenced by societal issues, governmental regulation, policy, and economics, as well as I.T. systems design, implementation, and management.

Graduate Study

Master of Library and Information Studies (MLIS)

The Master of Library and Information Studies (p. 289) program is designed to educate students at the graduate, professional, and postgraduate levels to provide information services and products in an information-based, pluralistic, global society; prepare graduates to effectively participate in and promote evidence-based practice; and provide leadership, consultation, and guidance to the professional/information communities. The program offers specialized tracks within traditional library settings and supports the development of skills, knowledge, and attitudes required in information agencies and in positions of information management, storage, organization, access, and use within profit and not-for-profit institutions.

Dual Master's Degree Programs

The OU Graduate College allows dual master's degrees to be pursued with any two master's programs that agree to it. In its quest to provide alternative educational opportunities for students wishing to specialize in a variety of areas, the School of Library and Information Studies has developed a number of specialized programs. In addition, the Generic Dual Master's degree program is available for students who wish to earn dual master's degrees not specified by the School.

Graduate Certificates

Graduate certificates can add additional job credentials to those seeking particular types of positions. They signal to employers that the holders of the certificates have concentrated coursework in that specialty.

- Graduate Certificate in Archival Studies (p. 290)
- Graduate Certificate in Digital Humanities (p. 291)
- Graduate Certificate in Data Analytics for Information Professionals (p. 291)

Doctoral Programs

The Information Studies Ph.D. (p. 292) expands SLIS' mission and vision by educating students to thoroughly understand the discipline of information studies; develop expertise in using the various research methods necessary for investigation in the field; conduct effective, sustained research; and understand the ways in which information in all its forms is produced, recorded, organized, preserved, retrieved, communicated, managed, and used. Additionally SLIS seeks to educate researchers that are able to understand the ways in which people's information-related activity shapes - and is shaped by - information technologies, information structures, and information institutions such as libraries, archives, and museums. The answers to the research questions posed in information studies help to improve information systems and services, to guide information policy, and to enrich life in today's information society.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed

Understanding Artistic Forms

Choose one course from the General Education Artistic Forms list 3

Western Civilization and Culture

HIST 1483 United States, 1492 to 1865 3
 or HIST 1493 United States, 1865 to the Present

Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493) 3

Non-Western Culture

Choose one course from the General Education Non-Western Culture list 3

Additional Core IV Upper-Division Humanities courses

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3} 3

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3} 3

Core Area V: Senior Capstone Experience (3 hours)

Choose one General Education Capstone course 3

Total Credit Hours 56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses

taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or School of Library and Information Studies academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Information Science & Technology major requirements.

Information Studies, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the School of Library and Information Studies.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course presented for minor credit.

Code	Title	Credit Hours
Required Courses		
LIS 2003	Introduction to Information Studies	3
LIS 4063	Information and Communication Technology	3
LIS 4643	Introduction to Data Analytics	3

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
	or EXPO 1213 Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>	
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)	
P SC 1113 American Federal Government	3
Choose one course from the General Education Social Science list	3
Core Area IV: Humanities (18 hours)	
<i>Understanding Artistic Forms</i>	
Choose one course from the General Education Artistic Forms list	3
<i>Western Civilization and Culture</i>	
HIST 1483 United States, 1492 to 1865 or HIST 1493 United States, 1865 to the Present	3
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)	3
<i>Non-Western Culture</i>	
Choose one course from the General Education Non-Western Culture list	3
<i>Additional Core IV Upper-Division Humanities courses</i>	
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in five years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or School of Library and Information Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Information Studies major requirements.

Course	Title	Credit Hours

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Library & Information Studies (Online), Master of Library & Information Studies

Required Courses

- Students must earn a grade of "B" or better in each required course or repeat the course.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Archival Studies, Graduate Certificate

The graduate certificate is a 12-credit hour (four course) program embedded within the Master of Library and Information Studies. It provides a focused specialization and an indication of expertise in archival theory and practice. It provides a formal indication of training which endorses the abilities and knowledge of the certificate holders.

Certificate Requirements

Code	Title	Credit Hours
LIS 5343	Archival Concepts and Traditions	3
LIS 5563	Archival Appraisal	3
Select 6 hours from the following:		6
LIS 5463	Archival Representation and Use	
LIS 5473	Document and Records Management	
LIS 5653	Preservation of Information Materials	
LIS 5970	Special Topics/Seminar (Topic: Digital Curation)	
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Data Analytics for Information Professionals, Graduate Certificate

The graduate certificate is a 12-credit hour (four course) program embedded within the Master of Library and Information Studies. The certificate provides a formal indicator of skills and affirms the holder's capabilities to manage big data, analyze data, and interpret the findings.

Certificate Requirements

Code	Title	Credit Hours
LIS 5643	Introduction to Data Analytics	3
LIS 5623	Introduction to Data Mining for Information Professionals	3
Select 6 hours from the following:		6
LIS 5063	Information and Communication Technology	
LIS 5673	Introduction to Information Visualization	
LIS 5683	Database Design for Information Organizations	
LIS 5970	Special Topics/Seminar (Topic: Information Retrieval & Text Mining)	
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.

- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Digital Humanities, Graduate Certificate

The Graduate Certificate in Digital Humanities provides a pathway for individuals working in the humanities, social sciences, and the sciences to advance their understanding of how potentially transformative methods, tools, models, applications, and theoretical frameworks are being put to use in expanding the scope and scale of inquiry in the humanities disciplines. The certificate consists of 12 credit hours (four courses).

Certificate Requirements

Code	Title	Credit Hours
HSCI 5613	Issues and Methods in the Digital Humanities	3
HSCI 5623	Practicum/Internship in the Digital Humanities	3
or LIS 5823	Internship in Library/Information Centers	
Select 6 hours from courses approved by the Graduate Certificate Curriculum Committee (p. 291)		6
Total Credit Hours		12

Library and Information Studies Doctoral Programs

Ph.D. Program

The Information Studies Ph.D. program requires a total of 90 hours beyond the bachelor degree. It consists of 35 hours in the degree program core, 12 hours of guided electives, 30-33 hours of general electives, and 10-13 hours of dissertation research.

Department of Mathematics

Noel Brady, Chair
Ralf Schmidt, Graduate Liaison
423 Physical Sciences Center
Norman, OK 73019-3103
Phone: (405) 325-6711
FAX: (405) 325-7484
nbrady@ou.edu
www.math.ou.edu/full.php

General Information

Mathematics students are well trained for a number of career fields, including architecture, economics, computer programming, education, meteorology and financial planning. The variety of coursework in the Mathematics program prepares students to work for companies such as Microsoft, IBM Global, NASA and Proctor and Gamble as well as the U.S. government. The OU Department of Mathematics offers students a flexible liberal arts education with multiple degree options. The Mathematics degree is perfect for students who have a general interest in math, because it gives them the opportunity to study an array of math-related topics.

Programs & Facilities

Math Club

The Math Club meets throughout each semester to host a variety of talks, campus visits, and field trips.

Scholarships

The Mathematics Department has a number of endowed scholarship funds to support its undergraduate majors. All math majors are encouraged to apply. Application forms will be accepted in March each year.

Graduate Student Support

Extensive support is available for students enrolled in a graduate program in Mathematics. The department has a limited number of fellowships available; all students are automatically considered for these fellowships. Although both teaching and research assistantships are available, incoming students are generally considered only for graduate teaching assistant appointments.

Undergraduate Study

Major Programs

The student whose major interest is in mathematics may work either for the standard degree of Bachelor of Arts (p. 294) or the professional degree of Bachelor of Science in Mathematics (p. 296). The Bachelor of Arts degree provides a well-rounded liberal arts degree preparing students for a wide variety of career paths. The Bachelor of Science in Mathematics Professional Degree is a rigorous undergraduate mathematics degree. This challenging program will prepare student to pursue graduate studies in mathematics or mathematically intensive subjects.

Accelerated Programs

The Mathematics & Biostatistics, Master of Science/Master of Science (p. 298) is a five-year dual-degree program in conjunction with the Department of Biostatistics and Epidemiology at the OU Health Sciences Center. The program leads to a Bachelor of Science in Mathematics and a Master of Science in Biostatistics.

Minor in Mathematics

Students may also pursue a Minor in Mathematics (p. 298).

Teacher Certification

Students who wish to pursue a career teaching mathematics may be interested in the Bachelor of Science in Education (p. 684) degree from the College of Education specializing in Mathematics. This program can also be combined with your teaching certification for middle and high school.

Graduate Study

Master's Programs

The department has two different master's degree programs. The Master of Arts (p. 301) degree is particularly suitable for students who may want to pursue a doctorate or who are interested in teaching at the college level. The Master of Science (p. 301) degree emphasizes applications of mathematics. The dual degree program addresses the increasing need of mathematics in business and management.

Doctoral Programs

- PhD Program (traditional option) (p. 302).
- PhD Program (RUME option) (p. 302).

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed

Mathematics (Standard Option), Bachelor of Arts

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements
- Students must earn a grade of C or better in all MATH courses at the 3000-level or higher.

Code	Title	Credit Hours
Choose one of the following sequences:		12
Sequence A:		
MATH 1823	Calculus and Analytic Geometry I	
MATH 2423	Calculus and Analytic Geometry II	
MATH 2433	Calculus and Analytic Geometry III	
MATH 2443	Calculus and Analytic Geometry IV	
Sequence B:		
MATH 1914	Differential and Integral Calculus I	
MATH 2924	Differential and Integral Calculus II	
MATH 2934	Differential and Integral Calculus III	
MATH 2513	Discrete Mathematical Structures	3
MATH 3333	Linear Algebra I	3
MATH 3113	Introduction to Ordinary Differential Equations ¹	3
or MATH 3413 Physical Mathematics I		
Choose four additional math courses at the 3000-level or higher, including nine hours at the 4000-level or higher ²		12
MATH 4513	Senior Mathematics Seminar (Capstone)	3
Total Credit Hours		36

¹MATH 3113 and MATH 3413 overlap by 2 hours. Students who take both will earn only 4 hours of credit.

²No more than 6 hours may be from MATH 4733, MATH 4743, MATH 4753, MATH 4773, and MATH 4793.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}		3

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and/or Department of Mathematics

academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Mathematics major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1823	Calculus and Analytic Geometry I (Core I)	3
P SC 1113	American Federal Government (Core III)	3
Beginning Foreign Language (Core I)		5
Free Elective, lower-division		1
Credit Hours		15

Total Credit Hours	120

¹MATH electives are subject to the restrictions listed in the Program Requirements.

Mathematics (Professional Option), Bachelor of Science in Mathematics

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.
- Students must earn a grade of C or better in all MATH courses at the 3000-level or higher.

Code	Title	Credit Hours
Choose one of the following calculus sequences:		12
Sequence A:		
MATH 1823	Calculus and Analytic Geometry I	
MATH 2423	Calculus and Analytic Geometry II	
MATH 2433	Calculus and Analytic Geometry III	
MATH 2443	Calculus and Analytic Geometry IV	
Sequence B:		
MATH 1914	Differential and Integral Calculus I	
MATH 2924	Differential and Integral Calculus II	
MATH 2934	Differential and Integral Calculus III	
MATH 2513	Discrete Mathematical Structures	3
MATH 3333	Linear Algebra I	3
MATH 4323	Introduction to Abstract Algebra I	3
MATH 4373	Abstract Linear Algebra	3
MATH 4433	Introduction to Analysis I	3
MATH 4853	Introduction to Topology	3
MATH 3113	Introduction to Ordinary Differential Equations ¹	3
or MATH 3413	Physical Mathematics I	
MATH 4333	Introduction to Abstract Algebra II	3
or MATH 4443	Introduction to Analysis II	

MATH 4513	Senior Mathematics Seminar (Capstone)	3
Total Credit Hours		39

¹MATH 3113 and MATH 3413 overlap by 2 hours. Students who take both will earn only 4 hours of credit.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

Mathematics, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Mathematics.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Mathematics, including MATH 2443 or MATH 2934 and nine (9) hours of upper-division level Math, six (6) of which must be at the 4000-level or higher. Three (3) hours of either MATH 3960 or MATH 3970 (not both) may be substituted for three (3) hours at the 4000-level or higher.

A grade of C or better must be earned in each upper division course counted for minor credit.

Code	Title	Credit Hours
	Choose one math course acceptable for major credit	3
MATH 2443	Calculus and Analytic Geometry IV	3
or MATH 2934	Differential and Integral Calculus III	
	Select 9 hours of upper-division Math courses, including at least 6 hours in courses at the 4000-level or higher	9
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Mathematics & Biostatistics, Bachelor of Science in Mathematics/Master of Science

- No more than 8 hours applied to this program may carry a grade lower than B. No course at the 4000-level or higher with a grade lower than C may be applied to the program.

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.

Code	Title	Credit Hours
MATH 1823	Calculus and Analytic Geometry I ¹	3
MATH 2423	Calculus and Analytic Geometry II ¹	3
MATH 2433	Calculus and Analytic Geometry III ¹	3
MATH 2443	Calculus and Analytic Geometry IV ¹	3
MATH 2513	Discrete Mathematical Structures	3

MATH 4073	Numerical Analysis I	3
MATH 3113	Introduction to Ordinary Differential Equations ²	3
or MATH 3413	Physical Mathematics I	
Choose one of the following:		3
MATH 4323	Introduction to Abstract Algebra I	
MATH 4383	Applied Modern Algebra	
MATH 4433	Introduction to Analysis I	
MATH 4733	Mathematical Theory of Probability ³	3
or BSE 5703	Theory of Probability	
MATH 4743	Introduction to Mathematical Statistics ³	3
or BSE 5733	Principles of Math. Statistics I	

Major Electives

Choose two courses from the Undergraduate Major Electives course list (p. 299)	6
Total Credit Hours	39

¹Students may substitute MATH 1914, MATH 2924, and MATH 2934 for MATH 1823, MATH 2423, MATH 2433, and MATH 2443.

²MATH 3113 and MATH 3413 overlap by 2 hours. Students who take both will earn only 4 hours of credit.

³No student may earn credit for both MATH 4733 and BSE 5703 Theory of Probability, or MATH 4743 and BSE 5733 Principles of Mathematical Statistics I.

Major Support Requirements

Code	Title	Credit Hours
MBIO 2815 or BIOL 2124	Introduction to Microbiology (lab) Human Physiology	5
Total Credit Hours		5

BS and MS Requirements

Code	Title	Credit Hours
BSE 5001	Problems in Biostatistics & Epidemiology	1
BSE 5113	Principles of Epidemiology	3
BSE 5163	Biostatistical Methods I	3
BSE 5173	Biostatistical Methods II	3
BSE 5193	Intermediate Epidemiologic Methods	3
BSE 5980	Research for Master's Thesis	3
Choose one of the following:		3
HAP 5113	Health Organization & Administration	
HPS 5213	Social & Behavioral Sciences in Public Health	
OEH 5013	Environmental Health	

Graduate Electives

Choose two courses from the Graduate Electives course list (p. 299) ²	6
--	---

Additional Graduate Requirements

<i>Epidemiology Elective</i>	
Choose one of the following:	3
BSE 5303	Epidemiology of Infectious Disease
BSE 5363	Epidemiology & Prevention of Chronic Disease
BSE 6363	Cancer Epidemiology & Prevention

Math/Biostatistics Courses

Choose two courses from the following in consultation with advisor:	6
MATH 5783 or BSE 5653 Nonparametric Methods	
MATH 5793 or BSE 6663 Analysis of Multivariate Data	Advanced Applied Statistics
BSE 5663	Analysis of Frequency Data

BSE 6643	Survival Data Analysis	
<i>BSE Elective</i>		
Choose any BSE course that has not been taken to fulfill other requirements ³		3
Total Credit Hours		37

¹**Note:** The master's thesis also satisfies the senior capstone requirement for the bachelor's degree. No more than three hours earned of BSE 5980 Research for Master's Thesis may be applied toward the dual degree program.

²These courses may not duplicate the six hours of math electives for the undergraduate major requirements and when offered on a slashlisted basis must be the graduate-level course.

³Excluding BSE 5103, BSE 5950 Field Work in Biostatistics and Epidemiology, and BSE 6950 Research in Biostatistics and Epidemiology.

Undergraduate Major Electives

Six additional hours of math chosen in consultation with adviser from the following:

Code	Title	Credit Hours
MATH 4093	Applied Numerical Methods	3
MATH 4193	Introductory Mathematical Modeling	3
MATH 4323	Introduction to Abstract Algebra I	3

Total Credit Hours		56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific

requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Total Credit Hours		32

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Mathematics, Master of Science

Required Courses

Degree coursework must include at least two courses taken at the 4000 level or higher, from outside the mathematics department, which use mathematics beyond elementary calculus.

Thesis Option

Code	Title	Credit Hours
Required Course		
MATH 5103	Mathematical Models	3
Core Courses		
Choose one Statistics course		3
Choose one Numerical Analysis or Computer Science course		3
Choose two Abstract Mathematics courses		6
Choose two Applied Mathematics courses		2-6
MATH 5980	Research for Master's Thesis	2
Electives		
Choose additional hours, selected in consultation with the student's advisor and committee, to bring total applicable hours to 32		9-13
Total Credit Hours		32

Non-Thesis Option

Code	Title	Credit Hours
Required Course		
MATH 5103	Mathematical Models	3
Core Courses		
Choose one Statistics course		3
Choose one Numerical Analysis or Computer Science course		3
Choose two Abstract Mathematics courses		6

Choose two Applied Mathematics courses	2-6
Electives	
Choose additional hours, selected in consultation with the student's advisor and committee, to bring total applicable hours to 32	11-15
Total Credit Hours	32

Notes

- A maximum of 9 hours of coursework outside the Mathematics department can be applied to the degree.
- No course below the 4000 level can be applied to the degree.
- No more than 9 hours of coursework in Mathematics can be below the 5000 level, and at most 12 hours of G4000 level coursework total.
- Twelve hours must be in the Mathematics department at the 5000 level or higher.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Mathematics Doctoral Programs

In order to be admitted to the Ph.D. program in mathematics, a student should first have completed a master's degree or equivalent. A total of at least 90 hours beyond the baccalaureate degree is required for this degree.

- **PhD Program (traditional option).** The student's ultimate goal in this program is to write and defend a dissertation representing an original contribution to research in mathematics. This research is conducted under the guidance of a faculty member (PhD advisor). A wide variety of research interests is represented in the Mathematics Department.
- **PhD Program (RUME option).** The student's ultimate goal in this program is to write and defend a dissertation representing an original contribution to research in undergraduate mathematics education. The student's PhD degree will however still be in mathematics, not mathematics education. RUME students take many of the same classes taken by students in the traditional option of the PhD program.

Medieval and Renaissance Studies

Joyce Coleman, Director

Center for Medieval & Renaissance Studies

The Center for Medieval & Renaissance Studies, a division of the College of Arts & Sciences at the University of Oklahoma, promotes the study of the period in Western history that saw the development of such major components of modern life as parliamentary democracy, the nation-state, English and other modern languages, printing, Islam, global exploration, heliocentric astronomy, romantic love—and the universities in which we research and teach all these subjects.

By supporting our faculty and students, sponsoring brown-bag talks, and cosponsoring a free public lecture series with the Medieval Fair of Norman, OU's Center for Medieval & Renaissance Studies seeks to enrich the intellectual environment for medievalists and early modernists on campus and across the region.

Programs & Facilities

OU Special Collections

The fifth floor of OU's Bizzell Memorial Library houses a world-class History of Science collection along with the Nichols Collection, the Bizzell Bible Collection, and the Bass Business Collection.

Minor

The Medieval & Renaissance Studies Minor (p. 303) allows students to pursue an interdisciplinary study of literature, language, history, history of science, art, architecture, and religion. It is an attractive opportunity for students who wish to gain further understanding of medieval and Renaissance culture beyond the traditional disciplinary parameters. Fascinating in their diversity, medieval and Renaissance arts, literature, history, science, and philosophy offer rich material for study in their own right and also reveal the foundations upon which the achievements of subsequent periods were built.

No major in Medieval and Renaissance Studies is offered; students wishing to concentrate on these areas of study are best served by majoring in another humanities discipline while pursuing a Medieval and Renaissance Studies minor.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Coleman	Joyce	K	2005	ASSOCIATE PROFESSOR OF ENGLISH, 2005; RUDOLPH BAMBAS PROFESSOR OF ENGLISH, 2005; DIRECTOR OF MEDIEVAL AND RENAISSANCE STUDIES	PhD, Univ of Edinburgh, 1993; MA, Univ of Texas, 1979; BA, Barnard College, 1971

Medieval & Renaissance Studies, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Courses on Medieval and Renaissance topics not listed here may count towards the MRS minor if approved, in writing, by the MRS advisor.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level, and six (6) hours from each of the three core areas, from the approved courses listed. No more than three (3) of the 18 hours may be earned in Independent Study courses (MRS 3990 or MRS 4990).

See <http://www.ou.edu/cas/cmrs/minor> for a full listing of course numbers and names. See <http://www.ou.edu/cas/cmrs/courses> for listing of courses currently being taught, recently taught, or scheduled for the next semester.

The following MRS courses may count in any appropriate area, as approved by the advisor. MRS 3023, MRS 3990, MRS 4990.

Code	Title	Credit Hours
History, Philosophy, or Religious Studies		
	Choose two courses from the History, Philosophy, or Religious Studies course list (p. 303)	6
History of the Arts		
	Choose two courses from the History of the Arts course list (p. 303)	6
Literature		
	Choose two courses from the Literature course list (p. 303)	6
Total Credit Hours		18

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

General Information

The Department of Microbiology and Plant Biology is a dynamic, cutting edge educational and research unit with internationally recognized programs in organismal systems ecology, anaerobic microbiology and ecology, molecular biology, ecosystem-scale processes and environmental genomics. We provide hands-on, authentic educational and research experiences that prepare our students for successful careers in science, technology, and medical professions.

Programs & Facilities

PROGRAMS FOR ACADEMIC EXCELLENCE

Research Opportunities

In the Department of Microbiology and Plant Biology, it is common for both undergraduate and graduate students to conduct research projects under the guidance of our faculty. Experiences are available throughout the year. Graduate students are supported by stipends, and undergraduate research can be performed on a volunteer basis, for degree credit, or, in certain cases, as a paid employee. The department also partners with companies and foundations to provide internship opportunities for our students.

Student Organizations

There are currently two department-associated clubs for undergraduate students, the O.U. Botanical Society and the American Society for Microbiology Student Chapter. Both clubs meet regularly and provide opportunities for socializing, networking, and professional development.

Scholarships and Financial Aid

The department has undergraduate scholarships and graduate scholarships available for academically outstanding students.

Undergraduate Study

Microbiology

Microbiologists work in hospitals, universities, medical schools, government laboratories, and almost every industry, specializing in a wide variety of areas, from agriculture to the space industry. Our microbiology degrees are designed to promote development of the scientific, analytical, and problem-solving skills needed for our students to excel in these careers, as well as providing great preparation for and placement in medical, professional, and graduate schools.

- Microbiology (Standard) Bachelor of Science (p. 306)
- Microbiology: Biotechnology, Bachelor of Science (p. 309)
- Microbiology (Professional) Bachelor of Science in Microbiology (p. 311)

Plant Biology

Plant biologists work in universities, medical facilities, government laboratories, and a variety of industries (e.g., agricultural, chemical, and pharmaceutical). Plant science is a growing area and studying plant biology provides a solid scientific foundation to make you employable in a wide range of fields. Our plant biology degrees are great preparation for careers to address complex societal issues involving population growth, food supply, and environmental problems.

- Plant Biology, Bachelor of Science in Plant Biology (p. 313)
- Plant Biology: Biotechnology, Bachelor of Science in Plant Biology (p. 315)

MINORS

- Microbiology Minor (p. 318)
- Plant Biology Minor (p. 318)

Graduate Study

Master of Science Degree

- Microbiology, Master of Science (p. 318)
- Plant Biology, Master of Science (p. 320)

Graduate Certificates

- Microscopic Imaging and Technology (p. 321)

Doctoral Programs

Microbiology and Plant Biology PhD programs (p. 321)

Non-Western Culture

Choose one course from the General Education Non-Western Culture list	3
---	---

Additional Core IV Upper-Division Humanities courses

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
--	---

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
--	---

Core Area V: Senior Capstone Experience (3 hours)

Choose one General Education Capstone course	3
--	---

Total Credit Hours 56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Microbiology and Plant Biology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Microbiology major requirements.

Microbiology (Standard): Biotechnology, Bachelor of Science

- A grade of C or better must be earned in each Microbiology course presented for major credit and in the required major support.

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.
- MBIO 2815 will not be accepted for major credit.

Code	Title	Credit Hours
Major Courses		
MBIO 3113	Cell Biology	3
MBIO 3673	Practical Bioinformatics	3

or HSCI 3333	Technology and Society in World History	

Recommended Courses

The following are recommended:

A second course in Biochemistry is strongly recommended		
ECON 1113	Principles of Economics-Macro	
ECON 1123	Principles of Economics-Micro	
B AD 2113	Introduction to Business I	

Total Credit Hours 41

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
<i>Understanding Artistic Forms</i>		

Choose one course from the General Education Artistic Forms list	3
<i>Western Civilization and Culture</i>	
HIST 1483 United States, 1492 to 1865 or HIST 1493 United States, 1865 to the Present	3
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)	3
<i>Non-Western Culture</i>	
Choose one course from the General Education Non-Western Culture list	3
<i>Additional Core IV Upper-Division Humanities courses</i>	
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Microbiology and Plant Biology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Microbiology major requirements.

HIST 1483 or HIST 1493	United States, 1492 to 1865 (Core IV) or United States, 1865 to the Present	3

Intermediate Foreign Language	3
Non-Western Culture (Core IV)	3
Credit Hours	14

Second Semester

PBIO 3534	Flowering Plants	4
BIOL 2913 or BIOL 4913	Intro to Quantitative Biology or Quantitative Biology	3
CHEM 1415	General Chemistry (Continued) (Major Support)	5
Free Elective, lower- or upper-division		3
Credit Hours		15

Junior

First Semester

PBIO 3451	Methods in Plant Ecology	1
PBIO 3453	Principles of Plant Ecology	3
PBIO Major Elective, upper-division (3000-4000-level)		3
Understanding Artistic Forms (Core IV)		3
Western Civilization & Culture (Core IV)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		16

Second Semester

PBIO Major Elective, upper-division (3000-4000-level)		3
CHEM 3053	Organic Chemistry I: Biological Emphasis (Major Support)	3
Social Science (Core III)		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		15

Senior

First Semester

PBIO 4114	Principles of Plant Physiology	4
CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis (Major Support)	2
PHYS 2414	General Physics for Life Science Oriented Majors (Major Support)	4
Humanities, upper-division, outside major (Gen. Ed.)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		16

Second Semester

PBIO 4983	Senior Capstone: Plant Biol	3
PBIO Major Elective, upper-division (3000-4000-level)		3
PHYS 2424	General Physics for Life Science Oriented Majors	4
Humanities, upper-division, outside major (Gen. Ed.)		3
Free Elective, upper-division (3000-4000-level)		1
Credit Hours		14
Total Credit Hours		120

Plant Biology: Biotechnology, Bachelor of Science in Plant Biology

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.

- A grade of C or better must be earned in each course presented for major credit and in the required major support courses.

Major Requirements

- Minimum of 34 hours of major work including twenty-six (26) upper-division hours.
- BIOL 1005, PBIO 2404, and MBIO 2815 will not be accepted for major credit.

Code	Title	Credit Hours
Required Major Courses		
BIOL 1134	Introductory Biology: Evolution, Ecology and Diversity	4
PBIO 1114	General Botany	4
PBIO 3453	Principles of Plant Ecology	3
PBIO 3534	Flowering Plants	4
PBIO 3673	Practical Bioinformatics	3
PBIO 4114	Principles of Plant Physiology	4
PBIO 4313	Biotechnology Applications	3
PBIO 4983	Senior Capstone: Plant Biol (Senior Capstone)	3
Choose 3 hours from the following:		3
PBIO 3113	Cell Biology	
PBIO 3333	Genetics	
PBIO 4843	Molecular Biology	
Choose 3 hours of additional Upper-Division laboratory coursework in PBIO or MBIO, or research with approval of advisor		3
Total Credit Hours		34

Major Support Requirements

Code	Title	Credit Hours
PHYS 2414	General Physics for Life Science Oriented Majors	4

Total Credit Hours 42

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition or EXPO 1213 Expository Writing	3
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
<i>Understanding Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Civilization and Culture</i>		
HIST 1483	United States, 1492 to 1865 or HIST 1493 United States, 1865 to the Present	3
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
<i>Non-Western Culture</i>		
Choose one course from the General Education Non-Western Culture list		3

Additional Core IV Upper-Division Humanities courses

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3} 3

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3} 3

Core Area V: Senior Capstone Experience (3 hours)

Choose one General Education Capstone course 3

Total Credit Hours 56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Microbiology and Plant Biology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Plant Biology major requirements.

Microbiology, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Microbiology and Plant Biology.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Microbiology, including at least nine (9) hours at the upper-division level. Note that introductory courses are not counted toward this total.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
MBIO 3812	Fundamentals of Microbiology Laboratory	2
MBIO 3813	Fundamentals of Microbiology	3
MBIO 4833	Basic Immunology	3
	or MBIO 4843 Molecular Biology	
Choose additional upper division hours to meet the specified requirements		7
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Plant Biology, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Microbiology and Plant Biology.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Plant Biology, including at least nine (9) hours at the upper-division level. No more than one 1000-level course and one 2000-level course will apply toward the required 15 hours.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
Choose 15 hours of courses acceptable for major credit in Plant Biology, to include no more than one 1000-level and one 2000- level course		15
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Microbiology, Master of Science

Thesis Track

Code	Title	Credit Hours
Required Courses		
MBIO 5971	Seminar in Microbiology (1 hour course, two credits required)	2
MBIO 5980	Research for Master's Thesis	2-6
Outside Courses		
	Choose a minimum of 3 hours selected from 5000- or 6000-level courses outside the Microbiology program (Microbiology may use Plant Biology as long as they are not cross-listed)	3
Electives		
	Choose other 5000- and/or 6000-level courses, as approved by advisory committee	19-23
Total Credit Hours		30

Non-Thesis Track

Code	Title	Credit Hours
Required Courses		
MBIO 5971	Seminar in Microbiology (maximum of one credit required)	1
	Choose MBIO 5000-and/or 6000-level courses (Must be regularly-scheduled classes as approved by the Graduate Advisor)	15
Outside Courses		
	Choose a minimum of 3 hours selected from 5000- or 6000-level courses outside the Microbiology program (Microbiology may use Plant Biology as long as they are not cross-listed.)	3
Electives		
	Choose other 5000- and/or 6000-level courses, as approved by advisory committee	13
Total Credit Hours		32

Non-Thesis students must pass a Comprehensive Written Examination administered by a committee of three faculty (two of whom must be Microbiology faculty) in the last year of study.

Notes

- **No more than 6 hours of Independent Research may be completed with the same instructor. No more than 12 total hours of Independent Research may be applied to the degree.**
- **With department approval, up to 8 hours of transfer credit may be applied to the degree. Courses must have grades of A, B, or S; be less than 5 years old at the time of admission to the program; and *not* previously applied to a completed degree.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Microscopic Imaging and Technology, Graduate Certificate

The Certificate Program in Microscopic Imaging and Technology is designed for graduate students with a strong interest in the investigation of using advanced imaging technology to characterize biological, materials and physical science specimens at a range of resolutions that can reach to a near atomic level. Students who may be interested in this certificate come from a wide range of interests (e.g., Biology, Microbiology, Plant Biology, Biomedical Engineering, Biotechnology, Chemistry, Biochemistry, Materials Sciences, Nanotechnology, Physics).

Certificate Requirements

Code	Title	Credit Hours
MBIO 5364	Transmission Electron Microscopy (crosslisted with PBIO and BIOL)	4
MBIO 5374	Scanning Electron Microscopy (crosslisted with PBIO and BIOL)	4
MBIO 5394	Advanced Light Microscopy (crosslisted with PBIO and BIOL)	4
Choose 3 hours of Independent Research selected from a list maintained by the Department of Microbiology and Plant Biology		3
Total Credit Hours		15

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of

coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Microbiology and Plant Biology Doctoral Programs

Doctor of Philosophy Degree

Work leading to the Microbiology or Plant Biology Ph.D. degree is offered in most areas. The program requires a satisfactory demonstration of knowledge in their research area. This proficiency will be determined by the dissertation advisory committee. The satisfactory completion and successful defense of original research as described in a dissertation is also required. Each student will, in consultation with the chairperson, select a dissertation advisory committee. A student must complete the general requirements of the Graduate College, appropriate research skills, and a minor in a related field with a minimum of six hours. Each student must attend and participate in a graduate seminar.

Each student will be assigned a specific dissertation committee whose functions are to aid in designing the degree program, provide advice on the dissertation research and conduct the oral dissertation defense examination.

Detailed information on graduate work may be obtained from the Chair and Graduate Liaison, Department of Microbiology and Plant Biology, George Lynn Cross Hall room 516 and Stephenson Research & Technology Center room 2021, (405) 325-5133, email lizkarr@ou.edu.

General Information

The Department of Modern Languages, Literatures, and Linguistics (MLLL) plays a key role in bringing the world to OU and OU to the world. Thus, MLLL is dedicated to upholding OU's mission of excellence through research and teaching in the humanities.

The MLLL faculty teaches fundamental linguistic skills and provides the intellectual training to contextualize cross-cultural experiences. We also emphasize the significance of literary and cultural traditions, as developed through history, for human self-understanding. At the graduate level, master's and doctoral students combine advanced courses in literature, culture, theory, and methodology with supervised

pre-professional training. Consequently, our programs are designed to prepare the next generation of researchers, teachers, and professionals, whose expertise builds upon modern languages, literatures, and cultures.

MLLL is home to scholars in literature, cultural studies, film, second language acquisition, and linguistics. Our faculty produces and disseminates knowledge in the humanities and advances critical humanistic research in international fields through the publication of numerous books and articles, active engagement in national and international professional organizations, and participation in conferences across the continents. The faculty commitment to research is intimately connected with our teaching, and subsequently, we incorporate the latest innovations in our courses. Hence, MLLL is resolutely committed to OU's mission to lead in research.

Through our engagement with critical inquiry, teaching, and service to the community, the Department of Modern Languages, Literatures, and Linguistics strives to fulfill OU's primary missions to achieve excellence and to value world cultures.

Programs & Facilities

Programs for Academic Excellence

Students are encouraged to study abroad as an enhancement to their degree programs. Summer or semester and year-long exchange programs in South America, Europe, Asia, and Africa are available to all students.

Special Facilities

The Language Learning Center is a state-of-the-art computer facility that provides technology, resources, and an engaging environment in which students, faculty, instructors, and visitors are supported in their language acquisition pursuits. The Learning Center boasts a large library of digitized listening files, web activities, language-learning software, and video/DVD materials. Listening materials and web activities are available to students in the Learning Center and via the remote connection.

SCHOLARSHIPS AND FINANCIAL AID

The Department of Modern Languages, Literatures, and Linguistics offers a variety of funding opportunities to students who choose to major or minor in one or more modern languages. MLLL students apply for all department scholarships online through the CASH website at scholarships.ou.edu.

Graduate assistantships are available through the department. All graduate assistants are required to enroll in MLLL 4813 during their first semester. In addition, graduate assistants are required to enroll in a minimum of six credit hours of graduate-level courses per semester.

Undergraduate Study

Bachelor of Arts Degree

The department offers the Bachelor of Arts degree with majors in Arabic, Chinese, French, German, Italian, Japanese, Russian, Spanish and Linguistics. Beginning language courses do not count toward the major. In the second year, students focus on improving the basic skills of speaking, understanding, reading, and writing while gaining some exposure to the culture and the literature of the language. The third year generally focuses on improving conversation skills and pronunciation, acquiring a stronger understanding of the grammatical rules of the language, and reading a limited number of complete literary works. In the senior year, majors study civilization and literature from its origins to the modern era.

The department also offers Minors in Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Linguistics, Portuguese, Russian and Spanish.

- Arabic, Bachelor of Arts (p. 324)
- Chinese, Bachelor of Arts (p. 327)
- French, Bachelor of Arts (p. 329)
- German, Bachelor of Arts (p. 331)
- Italian, Bachelor of Arts (p. 333)
- Japanese, Bachelor of Arts (p. 336)
- Linguistics, Bachelor of Arts (p. 338)

- Italian, Minor (p. 347)
- Japanese, Minor (p. 347)
- Linguistics, Minor (p. 348)
- Portuguese, Minor (p. 348)
- Russian, Minor (p. 349)
- Spanish, Minor (p. 349)

Course Placement

Students who have completed two or more years of high school foreign language and who wish to continue their foreign language study at the University will be placed in appropriate courses based on their scores in the proficiency exam. Placement exams are administered during pre-enrollment periods as well as during regular enrollment periods.

Native Speaker Policy

For departmental purposes, the Department of Modern Languages, Literatures, and Linguistics defines a native speaker of a language as any individual who has been raised in a family and a society where this language is habitually used for everyday communication and is the language of instruction in the student's school system. A native speaker may not enroll in any undergraduate skills course in his or her native language, with the single exception of the course in Advanced Composition 3423, but may earn credit by advanced standing exams.

Graduate Study

Master of Arts Degree

Master of Arts degrees in French, German, and Spanish are offered in both a thesis and a non-thesis program.

- French, Master of Arts (p. 350)
- German, Master of Arts (p. 350)
- Spanish, Master of Arts (p. 351)
- TESOL, Master of Arts (p. 352)

Doctoral Programs

Modern Languages, Literatures & Linguistics PhD (p. 352)

Modern Languages, Literatures and Linguistics		
	Choose 6 hours from a list available from the Department of Modern Languages, Literatures and Linguistics (p. 326) ¹	6
International Experience		
	Arabic majors are strongly encouraged to pursue study abroad opportunities in an Arabic speaking country	
Total Credit Hours		6

¹These courses may include courses in anthropology, architecture, geography, history, history of science, international and area studies, political science, and religious studies.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
	or EXPO 1213 Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>		
	Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
	Choose one course from the General Education Social Science list	3

Core Area IV: Humanities (18 hours)		
<i>Understanding Artistic Forms</i>		
	Choose one course from the General Education Artistic Forms list	3
<i>Western Civilization and Culture</i>		
HIST 1483	United States, 1492 to 1865	3
	or HIST 1493 United States, 1865 to the Present	
	Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)	3
<i>Non-Western Culture</i>		
	Choose one course from the General Education Non-Western Culture list	3
<i>Additional Core IV Upper-Division Humanities courses</i>		
	Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
	Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)		
	Choose one General Education Capstone course	3
Total Credit Hours		56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU

Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Arabic major requirements.

Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and French major requirements.

Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific

requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Japanese major requirements.

Major Support Requirements

Foreign Language Study Experience

The student will demonstrate significant experience in foreign language study, according to the following criteria:

- For students who are native English speakers, the foreign language support requirement may be met by either:
 - A major or minor in a foreign language; **or**
 - Two years of college instruction in one foreign language, plus one year of college instruction in a second foreign language. **or**
 - Two years of college instruction in one foreign language plus C S 1303 and C S 1323
- II. For students who are native speakers of a language other than English and for whom English is a foreign language, the requirement will be met by:
 - Proficiency in the native language as demonstrated by testing out at the third year level (equivalent to the minor), with guidance by the departmental advisor, **or**
 - Satisfaction of the College of Arts and Sciences foreign language requirement in a language other than the native language.

NOTE

- One year of foreign language study includes two semesters of introductory courses.
- Two years includes two semesters of introductory courses plus two semesters of intermediate study.

¹Russian history major support elective chosen from HIST 2803, HIST 3770, HIST 3793, HIST 3803, HIST 3013, or an equivalent approved by the Russian adviser.

²Russian literature and culture major elective chosen from MLLL 3123, MLLL 3133, MLLL 3143, or another appropriate upper-division course approved by the Russian adviser.

Spanish, Bachelor of Arts

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.
- The major requires 36 hours beyond SPAN 1115 and SPAN 1225.
- A grade of C or better must be earned in all Major Requirements.

Code	Title	Credit Hours
Core Requirements		
SPAN 1115	Beginning Spanish (5 hours)	
SPAN 1225	Beginning Spanish (Continued) (5 hours)	
SPAN 2113	Intermediate Spanish	3
SPAN 2223	Intermediate Spanish Continued	3
SPAN 3073	Grammar in Conversational Communication	3
SPAN 3423	Grammar in Written Communication	3
SPAN 3853	Introduction to Hispanic Literature and Culture	3
SPAN 4183	Senior Capstone	3
Literature & Culture Requirement		
Choose two of the following:		6
SPAN 4083	Literature and Culture of Spain	
SPAN 4113	Literature and Culture of Latin America	
SPAN 4143	Transatlantic Literature and Culture	
SPAN 4173	Regional Literature and Cultures	
Linguistics Requirement		
Choose one of the following:		3
SPAN 4713	History of the Spanish Language	
SPAN 4773	Topics in Spanish Linguistics	
SPAN 4913	The Structure of the Spanish Language	
SPAN 4923	Teaching of Spanish in the United States	
Electives		
Choose three courses from the Spanish Major Electives course list (maximum 6 hours at the 3000-level) (p. 343)		9
Total Credit Hours		36

Major Support Requirements

Code	Title	Credit Hours
History		
Choose a course in the history of Spanish America or Spain		3
Foreign Language		
An elementary knowledge of another modern or classical foreign language is required		0-10
Study Abroad		

International Experience: Spanish majors are strongly encouraged to pursue study abroad opportunities in a Spanish-speaking country or in a Spanish immersion environment. Plans should be approved by the major advisor in advance

Exceptions: Exceptions will be made by the major advisor

International Credit: The Spanish program will make every effort to equate towards the Spanish major any relevant academic credit earned in a study abroad program at an institution recognized by OU

Total Credit Hours 3-13

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition or EXPO 1213 Expository Writing	3
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		

Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)	
<i>Biological Science</i>	
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>	
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)	
P SC 1113 American Federal Government	3
Choose one course from the General Education Social Science list	3
Core Area IV: Humanities (18 hours)	
<i>Understanding Artistic Forms</i>	
Choose one course from the General Education Artistic Forms list	3
<i>Western Civilization and Culture</i>	
HIST 1483 United States, 1492 to 1865 or HIST 1493 United States, 1865 to the Present	3
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)	3
<i>Non-Western Culture</i>	
Choose one course from the General Education Non-Western Culture list	3
<i>Additional Core IV Upper-Division Humanities courses</i>	
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Spanish major requirements.

¹Contact the department for a list of approved courses.

Arabic, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.

- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Arabic program in the Modern Languages Department.

Required Courses

Students must successfully complete at least 18 hours of coursework in Arabic, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
ARAB 2013	Colloquial Arabic	3
ARAB 2113	Intermediate Arabic	3
ARAB 2223	Intermediate Arabic Continued	3
ARAB 3113	Advanced Arabic	3
ARAB 3223	Advanced Arabic (Continued)	3
Select one of the following:		3
MLLL 3413	Arabic Literature and Culture	
MLLL 3463	Arab Culture & Society through Modern Fiction	
Total Credit Hours		18

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Chinese, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Chinese program in the Modern Languages Department.

Required Courses

Students must successfully complete at least 18 hours of coursework in Chinese or MLLL related to China/Chinese, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
CHIN 2113	Intermediate Chinese	3
CHIN 2223	Intermediate Chinese (Continued)	3
CHIN 2323	Intermediate Listening and Speaking	3
CHIN 3113	Advanced Chinese I	3
Choose one of the following:		3
CHIN 3223	Advanced Chinese II	
CHIN 3323	Advanced Listening and Speaking	
CHIN 3623	Business Chinese	
CHIN 4113	Advanced Reading and Writing	
CHIN 4533	Learning Chinese through Media	
CHIN 4543	Study of Classical Chinese and Calligraphy	
Or other course approved by the Chinese advisor		
Choose one of the following:		3
MLLL 3753	Modern Chinese Literature and Culture	
MLLL 3763	Chinese Cinema	
MLLL 4453	Introduction to Chinese Language and Linguistics	
MLLL 4753	Language, Culture and Cognition	
Or other course approved by the Chinese advisor		
Total Credit Hours		18

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

French, Minor

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the French program in the Modern Languages Department.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in French, including at least nine (9) hours at

the upper-division level. Note that introductory courses (FR 1115 and FR 1225) are not counted toward this total.

Code	Title	Credit Hours
FR 2113	Intermediate French	3
FR 2223	Intermediate French (Continued)	3
Choose one of the following:		3
FR 2133	French Conversation and Culture	
FR 2243	French Conversation and Literature	
FR 2263	French Culture Through Songs	
FR 3423	Advanced French Composition	3
Choose 6 hours of French courses at the 3000- or 4000-level		6
Total Credit Hours		18

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

German, Minor

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the German program in the Department of Modern Languages, Literature, & Linguistics.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in German, including at least nine (9) hours at the upper-division level. Note that introductory courses (GERM 1115 and GERM 1225) are **not** counted toward this total.

Code	Title	Credit Hours
GERM 2113	Intermediate German	3
GERM 2223	Intermediate German (Continued)	3
GERM 3423	Advanced German Composition	3
Select 9 hours of upper-division course work from the following:		9
German courses at the 3000- or 4000-level		
MLLL 3823	German Culture and Thought	
Total Credit Hours		18

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Hebrew, Minor

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

A grade of C or better must be earned for each course presented for minor credit.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Hebrew program in the Modern Languages, Literatures & Linguistics Department.

Required Courses

Students must successfully complete at least 18 hours of coursework in Hebrew, including at least nine (9) hours at the upper-division level. Note that introductory courses (HEBR 1115 and HEBR 1225) are *not* counted toward this total.

Code	Title	Credit Hours
HEBR 2113	Intermediate Hebrew	3
HEBR 2213	Intermediate Hebrew II	3
HEBR 3113	Advanced Hebrew	3
HEBR 3223	Advanced Hebrew II	3
HEBR 3513	Biblical Hebrew	3
or HEBR 3973	Hebrew Conversation	
MLLL 1073	The Hebrew Bible as Literature	3
or MLLL 3063	Survey of Jewish Literature from Antiquity to the Present	
Total Credit Hours		18

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Italian, Minor

- **The requirements for a minor must be completed concurrently with the major degree requirements.**

- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Italian program in the Department of Modern Languages, Literature, & Linguistics.

Required Courses

Students must successfully complete at least 18 hours of coursework in Italian, including at least 12 hours at the upper-division level.

- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Spanish program in the Modern Languages Department.

Required Courses

Students must successfully complete at least 18 hours of courses in Spanish, including at least 12 hours at the upper-division level. Note that introductory courses (SPAN 1115 and SPAN 1225) are *not* counted toward this total.

Code	Title	Credit Hours
Required Courses

Notes

- A comprehensive exam is required for both the thesis and non-thesis options.
- A total not to exceed six graduate hours at the 4000 level is permitted as part of the major.
- Students must demonstrate reading competency in a second language. In order to do so, they may take the departmental graduate reading exam or complete two semesters or ten hours in another language.
- No more than one-half of the credits for the degree (OU, or OU and transfer combined), excluding research for the thesis (FR 5980), may be S/U graded coursework.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Modern Languages, Literatures, and Linguistics Doctoral Programs

Doctor of Philosophy

Doctoral degrees are offered in French and Spanish.

The total number of hours required for the Ph.D. is 90 hours beyond the Bachelor's degree, including credit earned for the MA, if applicable to the Ph.D. program. The Ph.D. degree requires 61 hours of coursework in the

major and 9 hours of concentration in another field as approved by the student's committee.

Only graduate-level courses (5000-/6000-level) are applicable toward the Ph.D. major and concentration

Before completion of the degree, students must demonstrate reading competency in a second language. In order to do so, they may take the departmental Graduate Reading Exam (PDF) or complete two semesters or ten hours in another language.

A general examination based on coursework and a reading list established in consultation with the student's committee members is required for the Ph.D.

See Spanish Ph.D. Exam and Dissertation and French Ph.D. Exam and Dissertation for details on the Ph.D. examination and dissertation guidelines.

Native American Studies

General Information

The Department of Native American Studies—one of the leading such programs in the nation—attracts and serves students of diverse backgrounds and academic interests who are committed to using distinctly Native American perspectives to place the sovereignty of Native nations and the cultures of Native peoples at the center of academic study.

The University of Oklahoma Department of Native American Studies recognizes the complexity and diversity of Indian Country. And significantly, we are representative of that diversity. Our faculty, staff, students, and alumni are both Native and non-Native. We represent federally recognized tribes, state-recognized tribes, and unrecognized tribes. We are citizens of dozens of tribal political entities and are related through kinship and cultural practice to many, many more indigenous communities. Some among us are tribally enrolled citizens; others are not. Some are fluent speakers of our Native languages; others are not. Some engage in traditional religious practices; others do not. Some powwow, some stomp. We are urban, reservation, and rural. We are local and global. Our complexions vary; our gender expressions and identities vary. We hold many divergent philosophies and perspectives, and we welcome the vigorous and collegial debate of those perspectives.

Together, we are committed to using distinctly Indigenous perspectives to place the sovereignty of Native nations and the cultures of Native peoples at the center of academic study and community-engaged research.

Together, we are committed to providing a deeper understanding of the unique political status of tribes and to examining contemporary tribal issues, as well as tribal cultures and histories.

Together, we represent and embrace the complexity, vibrancy, and diversity that is Indian Country.

Programs & Facilities

Native American Language Program

The University of Oklahoma is honored to serve as a place where Indigenous languages are preserved and revitalized. Our language instructors are Native speakers who have training in linguistics. The language courses combine lessons in the grammar of the language with vocabulary lessons and supplementary material and activities designed to situate language learning in cultural and historical context. Considerable class time is spent on conversation, but students also learn to read and write in the language.

Sam Noble Museum - Native American Languages Collection

The Native American Languages Collection at the Sam Noble Museum has professional audio and video recording equipment that is freely available to NAS students, faculty, staff, affiliates, and community members for any projects that involve language and culture documentation.

Internship and Practicum Program

NAS students at the undergraduate and graduate levels are able to participate in a planned work experience related to personal career and academic goals. The internship and practicum help students learn about a possible career, apply knowledge gained in the classroom, develop skills, and better understand how individuals relate to the workplace. Service to Native peoples in their communities and nations is a primary focus of the NAS internship and practicum experiences.

Undergraduate Study

The undergraduate major and minor in Native American Studies uses distinctly Native American perspectives to place the sovereignty of Native nations and the cultures of Native peoples at the center of academic study. In addition to core classes in Indigenous theory and research methods, the Native American Studies curriculum currently supports intensive study in three interrelated areas of emphasis that are synthetic and interdisciplinary in nature: Tribal Governance and Policy; Indigenous Media and Arts; and Language, History, and Cultural Knowledge. The curriculum is, at the same time, focused and flexible. Students are encouraged to combine areas of emphasis according to their own scholarly and professional goals.

- Native American Studies, Bachelor of Arts (p. 353)
- Native American Studies Minor (p. 356)

Graduate Study

Master of Arts

The Master of Arts (p. 356) in Native American Studies uses distinctly Native American perspectives to place the sovereignty of Native nations and the cultures of Native peoples at the center of academic study. In addition to core classes in Indigenous theory and research methods, the Native American Studies curriculum currently supports intensive study in three interrelated areas of emphasis that are synthetic and interdisciplinary in nature: Tribal Governance and Policy; Indigenous Media and Arts; and Language, History, and Cultural Knowledge. The curriculum is, at the same time, focused and flexible. Students are encouraged to combine areas of emphasis according to their own scholarly and professional goals.

In addition, to the Master of Arts degree, students may pursue a joint Juris Doctor/M.A. Native American Studies as well as a Social Work with American Indians Graduate Certificate.

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Native American Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Native American Studies major requirements.

Native American Studies, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Native American Studies program.

Required Courses

Students must successfully complete at least 15 hours of courses, including at least 9 hours at the upper-division level

¹Students may declare one or more areas of emphasis. A list of appropriate courses may be obtained from the NAS program. Appropriate courses should be selected with the guidance of the NAS advisor.

²Minimum of three (3) thesis hours. Student will complete thesis under the direction of the committee chair.

³May *not* be used to satisfy core or emphasis credit.

Non-Thesis Option

Code	Title	Credit Hours
NAS Core Requirements		
NAS 5063	Critical Indigenous Theory	3
Choose one of the following:		3
NAS 5033	Research Methods in Native American Studies	
LAW 6311 & LAW 6320	American Indian Law Review and Directed Legal Research (2 hours)	
NAS 5043 or LAW 5610	Sovereignty, Law, and Policy Federal Indian Law	3
Thematic Area of Emphasis		
Choose eight courses in one or more of the following: ¹		24
Cultural Knowledge, Language, & History		
Tribal Governance & Policy		
Indigenous Media & Arts		
Comprehensive Exam		
Student will complete comprehensive exam under the direction of the committee chair		

Native Language Proficiency

Demonstrate proficiency in a Native American language or complete one introductory course (1000-level) in a Native language or the equivalent²

Total Credit Hours 33

¹Students may declare one or more areas of emphasis. A list of appropriate courses may be obtained from the NAS program. Appropriate courses should be selected with the guidance of the NAS advisor.

²May *not* be used to satisfy core or emphasis credit.

Notes

- To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework.
- The dual Master of Arts in Native American Studies and Juris Doctorate program will require a total of 126 hours of coursework. Thirty-six hours are required for the M.A. and 90 hours are required for the JD. Twenty-four hours can be shared. The shared hours must come from the M.A. requirements.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Department of Philosophy

 Phone: (405) 325-6324
 FAX: (405) 325-2660
 philosophy@ou.edu
 www.ou.edu/cas/philosophy

General Information

The Department of Philosophy offers broad training in the major fields of philosophy, with particular strengths in the history of ancient and modern philosophy, Chinese philosophy, logic, metaphysics, epistemology, aesthetics and the philosophy of art, philosophy of science, philosophy of language, philosophy of mind and philosophy of religion. The department offers a rich and lively environment with an emphasis on informal interaction between faculty and students.

Programs & Facilities

PROGRAMS FOR ACADEMIC EXCELLENCE

Kingfisher College, Kingfisher, Oklahoma, discontinued giving instruction in 1927. An agreement with the trustees of the college provided for transferring a part of the library of the college to the University, for administering the Kingfisher College records for each graduate of Kingfisher College, recognizing the merits of the degree held by each, and inviting the holder to become associated with the alumni of the University. In 1951 the trustees of the college and the regents of the University jointly established a chair in the Department of Philosophy named Kingfisher College Professor of Philosophy of Religion and Ethics. Since its origin this chair has been expanded into an operative section of the Department of Philosophy, including both graduate and undergraduate level courses.

Society of Undergraduate Philosophers

The Society of Undergraduate Philosophers (SOUP) is an organization of undergraduates and graduate students interested in philosophy. The SOUP meets regularly for discussions, talks by faculty members, to view philosophically themed movies, and to engage in other philosophy related activities.

Undergraduate Study

Bachelor of Arts Degree

Undergraduate studies in philosophy offer broad training in the major fields of philosophy, with particular strengths in the history of ancient and modern philosophy, Chinese philosophy, logic, metaphysics, epistemology, aesthetics and the philosophy of art, philosophy of science, philosophy of language, philosophy of mind and philosophy of religion. In addition to classes and seminars, the department offers a rich and lively environment with an emphasis on informal interaction between faculty and students.

Philosophy

The Bachelor of Arts (p. 359) in Philosophy is an excellent preparation for professional graduate programs in business, medicine, and law, and for graduate programs in philosophy. It is also ideal as a second major in conjunction with physics, psychology, economics, political science, or literature. But perhaps most importantly, the philosophy major fosters a sense of wonder, and provides a rigorous intellectual method for gaining understanding of oneself and the world. By learning about the heritage of philosophical examination, students acquire an informed basis for arriving at their own conclusions about their most basic beliefs and values. Philosophy encourages students to become critical thinkers – to reason clearly and correctly concerning important and fundamental issues.

The ability to write clear, coherent papers is essential to philosophy. Philosophy majors receive specialized training in writing for the field in a

Writing Workshop, and they must take at least two majors-only courses, in which they have intensive writing requirements.

Minor

The department also offers an undergraduate Philosophy Minor (p. 362).

Courses for Non-Majors

Most students who take philosophy courses are not philosophy majors. The topics covered by philosophy – e.g., moral, legal, aesthetic and religious values, logic, the theory of knowledge and the history of human thought on these subjects – are of interest to most college students, and many philosophy courses satisfy general education requirements. Non-majors are welcome in any course for which they have the appropriate prerequisites. Consult the course catalog (p. 1081) for information on prerequisites for courses above 3000.

Graduate Study

The Department of Philosophy at the University of Oklahoma offers programs of study leading to two advanced degrees: a terminal MA, either with thesis or without, and a Ph.D. The department offers broad training in the major fields of philosophy.

- Philosophy, Master of Arts (p. 362)
- Philosophy, Ph.D (p. 363).

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3

Philosophy, Bachelor of Arts

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.
- A maximum of six hours of lower- division coursework may be used toward the 31 hours required by the major. A grade of C or better is required in PHIL 4893.

Core Area II: Natural Science (7 hours, including one laboratory component)*Biological Science*

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO¹ 3-4

Physical Science

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS¹ 3-4

Core Area III: Social Science (6 hours)

P SC 1113 American Federal Government 3

Choose one course from the General Education Social Science list 3

Core Area IV: Humanities (18 hours)*Understanding Artistic Forms*

Choose one course from the General Education Artistic Forms list 3

Western Civilization and Culture

HIST 1483 United States, 1492 to 1865 3

or HIST 1493 United States, 1865 to the Present 3

Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493) 3

Non-Western Culture

Choose one course from the General Education Non-Western Culture list 3

Additional Core IV Upper-Division Humanities courses

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture^{1,3} 3

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture^{1,3} 3

Core Area V: Senior Capstone Experience (3 hours)

Choose one General Education Capstone course 3

Total Credit Hours 56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and/or Department of Philosophy academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Philosophy major requirements.

Philosophy, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Philosophy.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in Philosophy, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
PHIL 1103 or PHIL 1113	Critical Reasoning Introduction to Logic	3
PHIL 3313 or PHIL 3333	History of Ancient Philosophy History of Modern Philosophy	3
	Choose one course from one of the following areas: Aesthetics, Ethics, Philosophy of Religion, Social Philosophy, Political Philosophy (p. 361)	3
	Choose additional Philosophy (PHIL) courses to complete the 18 total hour and 9 upper-division hour requirements	9
Total Credit Hours		18

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

²Must be passed with a B grade or better.

Notes

- Up to 8 hours may be taken outside the department with approval from the Director of Graduate Studies.
- A maximum of 3 hours of PHIL 5990 will be allowed in this program.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Philosophy Doctoral Programs

Doctor of Philosophy Degree

The Ph.D. program requires a minimum of 90 hours of graduate work, of which a maximum of 39 hours may be dissertation research. "Symbolic Logic II," nine hours of history of philosophy (at least three in ancient and three in modern), nine hours of metaphysics and/or epistemology (at least three in metaphysics and three in epistemology), and nine hours of ethics (at least six in non-applied ethics) are required. All required courses must be passed with a grade of B or better. With approval of the advisory committee, up to 12 hours may be taken outside the department. Students in the Ph.D. program must pass a qualifying exam in their first or second year as described in the graduate syllabus. Doctoral candidates should be thoroughly familiar with the general requirements of the Graduate College. Where it is deemed necessary, the advisory committee may require proficiency in one or more foreign languages. After successfully completing a general examination in the student's special field, followed by an oral examination, the student will prepare and submit a dissertation, which is supervised by the student's dissertation committee.

General Information

The Homer L. Dodge Department of Physics and Astronomy has a long tradition of educating scientists, engineers and teachers who have achieved distinguished careers as researchers and leaders in industry and education. Our graduates include a former Science Advisor to the President of the United States, a former director of NSF, university president, U.S. ambassador, founders of corporations, Arctic explorer, founder and first editor of the American Journal of Physics, journal editors, inventors, research laboratory managers, university department chairs, Rhodes Scholar and Guggenheim Fellows, university professors, and hundreds of people devoted to advancing knowledge and improving the quality of life.

Programs & Facilities

Programs for Academic Excellence

Innovative education programs have been an integral part of the department since its inception and are still our tradition. In addition to our own faculty, post-doctoral fellows and weekly colloquium speakers promote academic excellence within the department. With additional support from state monies and private endowment, the department hosts a large number of visiting scientists each year who bring the latest

developments in their areas of interest and who present opportunities to exchange scientific ideas.

The department offers all undergraduate majors the opportunity to perform research with faculty mentors, and runs a federally funded summer research experience for undergraduates from all across the country.

The OU Soonertarium is an educational outreach program whose goal is to share the joy of exploring the cosmos with fellow Oklahomans, one classroom at a time. They provide traveling planetarium shows and lectures, free of charge, to interested science classrooms in Oklahoma.

Special Facilities and Programs

Library Resources

The Homer L. Dodge Department of Physics and Astronomy library possesses an excellent scientific library of over 20,000 volumes and more than 150 journal subscriptions. Ancillary library holdings include the world-famous History of Science Collection and the Engineering Library.

Instrument Shop

The instrument shop at the Homer L. Dodge Department of Physics and Astronomy has supported the experimental research needs of the department for a century. This facility has designed, built and collaborated on a wide variety of apparatus including, but not limited to: High Energy Physics work on DØ, Higgs Boson, and Monopole detector systems; Atomic Molecular scattering systems — Electron-Photon Coincidence, Electric Dipole Moment, Cold Atom systems; UHV chambers and associated hardware; Thin film sputtering systems; High Pressure (100,000 PSI) systems, Electro-mechanical drive and control; Furnace construction and PID control; Telescope repair.

Laboratory Resources

The department has well-equipped laboratories for research in laser cooling and trapping of atoms and molecules, atomic and molecular collisions, nanostructured materials and devices, materials characterization, and high-energy physics instrumentation. We are also home to a multi-million dollar NSF funded Materials Research Science and Engineering Center. This center greatly expands our research effort in nanostructures. Additionally, many programs make use of facilities at national laboratories, such as Fermilab, and Los Alamos. The high-energy group is part of the DØ and ATLAS collaborations. Our astronomical researchers use national observatory facilities at Arecibo, VLA, Kitt Peak, Cerro Tololo and the Hubble Space Telescope. We also have a small on-campus observatory for class use and public viewing.

Scholarships and Financial Aid

The department offers a number of scholarships each year to students majoring in physics, astronomy, or engineering physics. Undergraduate majors and students who are considering becoming physics, astrophysics, or engineering physics majors are encouraged to apply for scholarships through the University of Oklahoma Centralized Academic Scholarship Hub (CASH).

Teaching and research assistantships are offered on a competitive basis to graduate students.

Undergraduate Study

Physics Degrees

The student whose major is physics may work for the professional degree of Bachelor of Science in Physics (p. 372) or for the standard degree of Bachelor of Science (p. 369), both of which are awarded by the

College of Arts and Sciences. The Bachelor of Science in Engineering Physics (p. 810) program is an interdisciplinary degree program which combines the course offerings and research activities of the Homer L. Dodge Department of Physics and Astronomy and the College of Engineering. This degree program is offered by the College of Engineering and detailed information concerning the program can be found in the College of Engineering section of this catalog.

Astrophysics Degree

Students whose major interest is the application of physics to modern astrophysics may work for the professional degree of Bachelor of Science in Astrophysics (p. 367).

Astronomy Degree

The student whose major is astronomy may work for the standard degree of Bachelor of Science (p. 365).

Minors

Minors are offered in physics (p. 374) and astronomy (p. 374).

Graduate Study

Areas of Specialization

Research areas available for both M.S. and Ph.D. degrees include:

- Astrophysics
- Atomic, Molecular and Optical Physics
- High Energy Physics
- Condensed Matter Physics

Master Of Science Degree

The department offers a Master of Science (p. 375) in Physics program with or without the thesis.

Master Of Science (Engineering Physics)

The Engineering Physics, Master of Science (p. 811) degree is offered as either a thesis or non-thesis program.

Doctoral Programs

Physics and Astronomy Ph.D. (p. 375)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Abbott	Braden	K	2000	PROFESSOR OF PHYSICS AND ASTRONOMY, 2013	PhD, Purdue, 1994; MS, Purdue, 1992; BA, Univ of Minnesota Morris, 1989
Abraham	Eric	R	1998	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2004; L.J. SEMROD PRESIDENTIAL PROFESSOR, 2005; ASSOCIATE PROFESSOR ENGINEERING PHYSICS	PhD, Rice Univ, 1996; BA, St. Olaf College, 1991

Baer	Howard	A	2008	HOMER L. DODGE CHAIR IN HIGH ENERGY PHYSICS, 2008; GEORGE LYNN CROSS RESEARCH PROFESSOR OF PHYSICS AND ASTRONOMY, 2014	PhD, Univ of Wisconsin, 1984; MS, Univ of Wisconsin, 1981; BS, Univ of Wisconsin, 1979
Barboza	Bruno	U	2011	TED AND CUBA WEBB PRESIDENTIAL PROFESSOR, 2017; ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Univ Estadual De Campinas, 2004; BS, Univer Estadual De Campinas, 1997
Baron	Edward	A	1990	GEORGE LYNN CROSS RESEARCH PROFESSOR OF PHYSICS AND ASTRONOMY, 2011	PhD, Stony Brook Univ; 1985; MA, Stony Brook Univ, 1982; BA, Univ of Pennsylvania, 1980
Blume	Doerte		2017	PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Georg-August Univ, 1998; BS, Georg-August Univ, 1995
Bumm	Lloyd	A	2001	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2007; ASSOCIATE PROFESSOR ENGINEERING PHYSICS	PhD, Northwestern Univ, 1991; BS, Clarkson Univ, 1982
Dai	Xinyu		2011	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Penn State Univ, 2004; BS, Peking Univ, 1998
Gutierrez	Phillip		1989	PROFESSOR OF PHYSICS AND ASTRONOMY, 2001; PROFESSOR ENGINEERING PHYSICS	PhD, Univ of California Riverside, 1983; MS, Univ of California Riverside, 1980; BS, Univ of California Riverside, 1976
Kaib	Nathan		2015	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2015	PhD, Univ of Washington, 2010; BS, Case Western Reserve Univ, 2002
Kao	Chung		2000	PROFESSOR OF PHYSICS AND ASTRONOMY, 2013	PhD, Univ of Texas, 1990; MS, Univ of Oregon, 1985; BS, National Taiwan Norman Univ, 1980
Kilic	Mukremin		2011	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Univ of Texas, 2006; BS, Bogazici Univ, 1999
Leighly	Karen	M	2000	PROFESSOR OF PHYSICS AND ASTRONOMY, 2013	PhD, Montana State Univ, 1991; MS, Montana State Univ, 1987; BS, New Mexico Inst Mining & Tech, 1983
Marino Valle	Alberto		2012	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2012; ASSISTANT PROFESSOR ENGINEERING PHYSICS	PhD, Univ of Rochester, 2006; MS, Univ of Rochester, 2002; BS, Universidad de Monterrey, 1998

Mason	Bruce	A	1989	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 1995	PhD, Univ of Maryland, 1985; MS, Univ of Maryland, BA, Oberlin College, 1980
Mullen	Kieran	J	1994	PROFESSOR OF PHYSICS AND ASTRONOMY, 2007; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2009	PhD, Univ of Michigan, 1989; BS, Georgetown Univ, 1982
Munshi	Ferah	A	2017	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Univ of Washington, 2013; MS, Univ of Washington, 2010; BA, Univ of California Berkeley, 2007
Santos	Michael	B	1993	SAMUEL ROBERTS NOBLE PRESIDENTIAL PROFESSOR, 1997; TED AND CUBA WEBB PRESIDENTIAL PROFESSOR, 2003; PROFESSOR OF PHYSICS AND ASTRONOMY, 2004; CHARLES L. BLACKBURN CHAIR IN ENGINEERING PHYSICS, 2006	PhD, Princeton Univ, 1992; MA, Princeton Univ, 1989; BS, Cornell Univ, 1986
SchwettmannArne			2014	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2014; ASSISTANT PROFESSOR ENGINEERING PHYSICS	PhD, Univ of Oklahoma, 2012; MS, Univ of North Texas, 2003; BS, Universität Hannover, 2001
Sellers	Ian	R	2011	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Univ of Sheffield, 2004; MS, Imperial College London, 2000; B Eng, Univ of Liverpool, 1999
Shaffer	James	P	2001	TED AND CUBA WEBB PRESIDENTIAL PROFESSOR, 2013; ADJUNCT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2013; PROFESSOR OF PHYSICS AND ASTRONOMY, 2013; HOMER L. DODGE CHAIR IN ATOMIC, MOLECULAR AND CHEMICAL PHYSICS, 2014; PROFESSOR ENGINEERING PHYSICS	PhD, Univ of Rochester, 1999; BS, Univ of Illinois, 1991
Sinha	Kuver		2017	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2017; CARL T. BUSH PROFESSOR OF THEORETICAL PHYSICS, 2017	PhD, Rutgers Univ, 2008
Strauss	Michael	G	1995	CARLISLE AND LURLINE MABREY PRESIDENTIAL PROFESSOR, 2006; DAVID ROSS BOYD PROFESSOR OF PHYSICS AND ASTRONOMY, 2012; PROFESSOR ENGINEERING PHYSICS	PhD, Univ of California Los Angeles, 1988; MS, Univ of California Los Angeles, 1983; BS, Biola Univ, 1981
Stupak	John		2016	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2016; ASSISTANT PROFESSOR ENGINEERING PHYSICS	PhD, SUNY at Stonybrook, 2012; BS, Fairfield Univ, 2007
Wang	Yun		2000	PROFESSOR OF PHYSICS AND ASTRONOMY, 2013	PhD, Carnegie Mellon, 1991; MS, Carnegie Mellon, 1987; BS, Tsinghua Univ, 1985
White	Daniel	R	2018	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2018	PhD, Ohio State Univ, 2016; BS, Univ of Oklahoma, 2008
Wisniewski	John	P	2012	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2012; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2016	PhD, Univ of Toledo, 2005; MS, Univ of Toledo, 2002; BS, Univ of Wisconsin, 1999

Astronomy, Bachelor of Science

- A grade of C or better must be earned in each required Astronomy and Physics course and in the required Mathematics courses.

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.

Code	Title	Credit Hours
Astronomy		
ASTR 2513	Introductory Astrophysics	3
ASTR 3103	Stars	3
ASTR 3113	Galaxies and Cosmology	3
Physics		
PHYS 1205	Introductory Physics I for Physics Majors	5
PHYS 1215	Introductory Physics II for Physics Majors	5
PHYS 2203	Introductory Physics III: Modern Physics	3
PHYS 3043	Physical Mechanics I	3
PHYS 3053	Physical Mechanics II	3
PHYS 4300	Senior Research Project (Senior Capstone Course)	2
PHYS 4300	Senior Research Project (2 enrollments required)	2
Choose one of the following:		3
HSCI 3013	History of Science to the Age of Newton	

HSCI 3023	History of Science Since the Seventeenth Century	
PHYSICS course at the 3000-level or higher		
Total Credit Hours		35

Major Support Requirements

Code	Title	Credit Hours
CHEM 1315	General Chemistry	5
MATH 2443	Calculus and Analytic Geometry IV ¹	3
MATH 3413	Physical Mathematics I	3
Total Credit Hours		11

¹MATH 2934 may also be used to meet this requirement.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
------	-------	--------------

Core Area I: Symbolic and Oral Communication

English Composition (6 hours)

ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	

Foreign Language (0-13 hours in the same language)

The college requirement cannot be met by high school coursework.

Beginning Course	0-5
Beginning Course, continued	0-5
Intermediate Course (2000 level) ^{1,2}	0-3

Mathematics (3 hours)

Choose one course from the General Education Mathematics list	3
---	---

Core Area II: Natural Science (7 hours, including one laboratory component)

Biological Science

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
---	-----

Physical Science

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
--	-----

Core Area III: Social Science (6 hours)

P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3

Core Area IV: Humanities (18 hours)

Understanding Artistic Forms

Choose one course from the General Education Artistic Forms list	3
--	---

Western Civilization and Culture

HIST 1483	United States, 1492 to 1865	3
or HIST 1493	United States, 1865 to the Present	

Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)	3
---	---

Non-Western Culture

Choose one course from the General Education Non-Western Culture list	3
---	---

Additional Core IV Upper-Division Humanities courses

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
--	---

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
--	---

Core Area V: Senior Capstone Experience (3 hours)

Choose one General Education Capstone course	3
--	---

Total Credit Hours	56
--------------------	----

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU

Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Physics and Astronomy academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Astronomy major requirements.

Total Credit Hours		56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Physics and Astronomy academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Physics major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1823	Calculus and Analytic Geometry I (Core I) ¹	3
PHYS 1205	Introductory Physics I for Physics Majors	5

¹Students may substitute MATH 1914, MATH 2924, and MATH 2934 calculus sequence instead of MATH 1823, MATH 2423, MATH 2433, and MATH 2443.

Astronomy, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

Students must successfully complete at least 26 hours of courses acceptable for major credit in Astronomy, including at least nine (9) hours at the upper-division level.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Physics & Astronomy.

Required Courses

Students must successfully complete at least 26 hours of courses acceptable for major credit in Astronomy, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
PHYS 1205	Introductory Physics I for Physics Majors	4-5
or PHYS 2514	General Physics for Engineering and Science Majors	
PHYS 1215	Introductory Physics II for Physics Majors	4-5
or PHYS 2524	General Physics for Engineering and Science Majors	
PHYS 2203	Introductory Physics III: Modern Physics	3
PHYS 3043	Physical Mechanics I	3
ASTR 2513	Introductory Astrophysics	3
ASTR 3103	Stars	3
ASTR 3113	Galaxies and Cosmology	3
MATH 2443	Calculus and Analytic Geometry IV	3
Total Credit Hours		26

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Physics, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Physics & Astronomy.

Required Courses

Students must successfully complete at least 22 hours of courses acceptable for major credit in Physics, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
PHYS 1205	Introductory Physics I for Physics Majors ¹	5
PHYS 1215	Introductory Physics II for Physics Majors ¹	5
PHYS 2203	Introductory Physics III: Modern Physics	3
or PHYS 3223	Modern Physics for Engineers	
PHYS 3043	Physical Mechanics I	3
Choose one of the following:		3
PHYS 3053	Physical Mechanics II	
PHYS 3183	Electricity and Magnetism I	
PHYS 3803	Introduction to Quantum Mechanics I	
Choose one of the following:		3-6

MATH 3113 & MATH 3333	Introduction to Ordinary Differential Equations and Linear Algebra I (both courses, 6 hours) ²	
MATH 3413	Physical Mathematics I (one course, 3 hours) ²	
Total Credit Hours		22

¹PHYS 1205 and PHYS 1215 may be replaced by PHYS 2514 and PHYS 2524. If completing PHYS 2514 and PHYS 2524, students must also complete either PHYS 1311 and PHYS 1321 or PHYS 2303 or PHYS 3302.

²These MATH courses are acceptable for the minor although they do not meet the major credit requirement.

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Physics, Master of Science

Required Courses

Thesis Option (standard)

Code	Title	Credit Hours
Choose 14-16 hours of PHYS and/or ASTR courses at the 4000-level or above (note that 4000 level courses must carry graduate credit)		14-16
PHYS 5980	Research for Master's Thesis	2-4
Choose 12 hours of other graduate coursework as approved by the advisory committee		12
Total Credit Hours		30

Thesis Option (Astrophysics)

Code	Title	Credit Hours
ASTR 4303	Stellar Astrophysics ¹	0 or 3
Choose 6 hours of ASTR courses numbered 5000 or above		6
Choose 12 credit hours of PHYS and/or ASTR courses at the 4000-level or above. (note that 4000 level courses must carry graduate credit)		12
PHYS 5980	Research for Master's Thesis	2-4
Choose 5-10 hours of other graduate coursework as approved by the advisory committee, to bring total graduate credit hours to 30		5-10
Total Credit Hours		30

¹If presented as undergraduate credit, this course does not count towards the 30 hours required for the degree.

Non-Thesis Option

Code	Title	Credit Hours
Choose 20 hours of PHYS and/or ASTR courses at the 4000-level or above (note that 4000 level courses must carry graduate credit) ¹		20
Choose 12 hours of other graduate coursework as approved by the advisory committee		12
Total Credit Hours		32

¹May not include PHYS 5980.

Notes

- **Non-thesis students must pass the internal departmental qualifying exams on Quantum Mechanics, Electrodynamics, and Classical & Statistical Mechanics.**
- **The Comprehensive Exam can be either the General Exam for admission to doctoral candidacy (for students pursuing a doctorate) or a separate written paper and oral exam (for students exiting with a Masters).**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Physics and Astronomy Doctoral Programs

Doctor of Philosophy Degree (Physics)

The Ph.D. program requires the student to complete at least 90 hours of coursework, take and pass the written Qualifying and General (Specialist) examinations, and complete and successfully defend the results of original research as a dissertation.

The student must complete at least 90 hours of graduate coursework as follows: 36 hours or more of required physics and astronomy courses, which must include PHYS 5013, PHYS 5153, PHYS 5163, PHYS 5393, PHYS 5403, PHYS 5573, and PHYS 5583.

In addition to the above 21 hours, students must complete at least 15 hours of other physics and astronomy courses numbered 5000 or above (excluding PHYS 6980, which may be included below). To complete the remaining 54 hours of required coursework the student may use any combination of coursework at or above the 4000 level in physics or astronomy, courses in other departments listed as acceptable for graduate credit, and dissertation credit hours (PHYS 6980).

Additional course requirements that are appropriate to the student's area of research specialization may be required by the Advisory Committee. In addition to an overall GPA of 3.00, candidates for the Ph.D. degree must receive a grade of B or better in the required core courses: PHYS 5013, PHYS 5153, PHYS 5163, PHYS 5393, PHYS 5403, PHYS 5573, PHYS 5583.

All Ph.D. students are required to take an appointment as a teaching assistant with a minimum of two semester contact hours for two semesters. This teaching practicum is independent of financial support by the department.

The Qualifying examination deals with four subjects (mechanics/statistical mechanics, electromagnetic theory, quantum mechanics, and modern physics or astrophysics). The modern physics exam is satisfied by passing three graduate courses, PHYS 5213, PHYS 5243, and PHYS 5813 with a grade of B or better. The examination is constructed by a committee of faculty members. The student must have attempted all four parts of the Qualifying exam by the end of his/her fourth semester. Every student will be given two opportunities to pass the examination.

After passing the Qualifying examination and choosing a research advisor and an Advisory Committee, an advisory conference will be convened by the student. The Report of the Advisory Conference, to be approved and held by the Graduate College, sets the specific course requirements for each student's degree program. In most cases the Advisory Committee becomes the doctoral committee.

The General exam, which we call the Specialist examination, is an oral and written presentation of a topic related to but not the same as the student's dissertation subject. It also consists of an oral examination over the material in the presentation and related basic physics. This General examination is normally not taken until the student has completed all required coursework, passed the Qualifying exam and has chosen a research area.

The final requirement for the Ph.D. degree will be the doctoral dissertation, an original piece of research conducted personally by the student which constitutes a contribution to knowledge. The dissertation must be defended in a final oral examination.

Doctor of Philosophy (Engineering Physics)

Students who are interested in the engineering physics doctoral program should refer to the general requirements of the Graduate College and the College of Engineering. Every student will be assigned an advisory committee who will determine the specific requirements within the guidelines set by these colleges and the career study goals of the student.

The required physics core courses and the Qualifying and Specialist exams are the same as for physics.

General Information

The Department of Political Science is the academic home for faculty, staff members, undergraduate students, and graduate students who share a love of politics and a devotion to learning. The department offers two undergraduate degrees, one in political science and the other in public and nonprofit administration. Master's degrees in both political science and public administration are offered, and also a doctorate in political science.

The Department of Political Science is among the most intellectually eclectic at the University of Oklahoma. Faculty and students pursue research and study in topics as varied as American politics, comparative politics, international relations, public policy, public administration, and political theory. There are no intellectual or methodological orthodoxies. A diverse faculty and group of students pursue a multiplicity of paths to knowledge.

Affiliated with the department are the Carl Albert Congressional Research and Studies Center, the OU POLL (Public Opinion Learning Laboratory), the Institute for Public Affairs, International and Area Studies, the Institute for American Constitutional Heritage, and the Center for Applied Social Research.

Programs & Facilities

Special Facilities and Programs

The Carl Albert Congressional Research and Studies Center is a unique and nonpartisan institution that strengthens representative democracy through scholarship, learning, and service. Established in 1979 by the Oklahoma State Regents for Higher Education and the Board of Regents of the University of Oklahoma, the center is a living tribute to the ideals, leadership, and accomplishments of the Honorable Carl Albert, native Oklahoman, University of Oklahoma alumnus, Rhodes Scholar, 46th Speaker of the U.S. House of Representatives.

The University of Oklahoma's Public Opinion Learning Laboratory is a state-of-the-art survey research facility on the OU campus in Norman, Oklahoma. Established by President Boren, the purpose of the OU POLL is to conduct research on public opinion, in order to foster knowledge about public affairs and to assist in the conduct of research on public policy important to University departments, state and local governments, media organizations, other public and private entities, and the general public. The OU POLL is located in Alley A9, Cross Center, on OU's Norman campus. Contact the OU POLL's Director, Amy Sue Goodin for more information.

The Institute for Public Affairs, established in 1995, conducts applied research on public policy issues affecting Oklahoma. The Institute provides policy research and technical assistance, training and leadership development, and civic education for public sector and non-profit audiences. The Institute draws on the diverse backgrounds, interests, and expertise represented among the faculty throughout the University. Faculty associated with the Institute work in the areas of policy analysis

and policy formulation, program design, program evaluation, and design and assessment of operating systems such as budgeting and personnel. For more information, contact Dr. Scott Robinson, Director, 455 West Lindsey, Room 205, Norman, OK 73019-2002.

STUDENT ORGANIZATIONS

Undergraduate and graduate students who qualify are invited to join Pi Sigma Alpha, the national political science honorary society. Other student organizations of interest to department majors are: Political Science Club, Student Association for Public Administration, OU Pre-Law Club, Model UN.

SCHOLARSHIPS

The Department of Political Science awards a variety of scholarships to undergraduates every spring. In addition to administering the prestigious Robert Dean Bass Memorial Scholarship, our department faculty nominate undergraduates for paper awards based on exceptional papers written in political science courses.

Undergraduate Study

Bachelor of Arts

The department offers these majors:

- Political Science (p. 379)
Students that choose political science can take courses in American politics, public policy, public administration, comparative politics, international relations or political theory.
- Political Science: Elections and Campaign Management (p. 382)
The Elections and Campaign Management concentration provides a concentrated education in campaigns and voter behavior.
- Public & Nonprofit Administration (p. 385)
Students that choose public and nonprofit administration will focus their coursework in public policy and public administration.

Accelerated Dual Degree Programs

- Political Science, Bachelor of Arts/Master of Public Administration (p. 393)
Students to simultaneously receive a Political Science Bachelor of Arts degree and the Master of Public Administration degree.
- Political Science, Bachelor of Arts/Master of Arts (p. 391)
Students to simultaneously receive a Political Science Bachelor of Arts degree and the Political Science Master of Arts degree.
- Public and Nonprofit Administration, Bachelor of Arts/Master of Arts (p. 396)
Students to simultaneously receive a Public and Nonprofit Administration Bachelor of Arts degree and the Political Science Master of Arts degree.
- Public and Nonprofit Administration, Bachelor of Arts/Master of Public Administration (p. 398)
Students to simultaneously receive a Public and Nonprofit Administration Bachelor of Arts degree and the Master of Public Administration degree.

Minors

The department offers these minors:

- Political Science (p. 390)
- Public Affairs & Administration (p. 390),
- Elections & Campaign Management (p. 387)

- Intelligence & National Security (p. 388)
- Nonprofit Organizational Studies (p. 389)
- Non-Governmental Organizations (p. 389).

Careers

The study of political science and public administration is an excellent foundation for careers in law and law enforcement; government service at the national, state, and local levels, from federal agencies to city managers; politics, such as campaign management or lobbying or elective office; professional research for a "think tank;" labor relations; political journalism; teaching at the secondary and university levels; the diplomatic corps; management in the public and nonprofit sectors, in such areas as health care management and human resource management; consulting; international business; urban planning and development; business management; and policy analysis.

Graduate Study

Areas of Specialization

American politics, comparative politics, international relations, political theory, public administration, public policy, and research methods.

Master of Arts

The Master of Arts (p. 401) in Political Science degree provides excellent preparation for doctoral work for those in public non-profit, or private careers who find further professional development necessary. The degree program provides a basic minimum of structure to ensure that participants will obtain the necessary groundwork in political science. Beyond the basic requirements, there is an opportunity for significant specialization in the fields of most interest to the student.

Master of Public Administration

The degree is designed to provide the student with an understanding and knowledge of government and its environment. As a professional program, emphasis is placed upon learning those administrative concepts, processes, and techniques that are associated with managing the public's business. The academic base for the M.P.A. consists of required courses which include research methods, evaluation, and budgeting and area requirements in management, public policy, organizations, and American political process. The program integrates the theoretical with the practical dimensions of administration and encourages a broad academic and professional perspective. M.P.A. graduates typically enter the public or not-for-profit sectors, although many graduates have used the expertise gained in the program to enter and/or enhance careers in business and corporate enterprises. Public Administration offers classes in multiple formats and at multiple locations. Courses are scheduled in the evening, weekends, online and during the day. The program can be completed on the Norman or Tulsa campuses, and our faculty routinely teach MPA courses at the OU Health Sciences Center in Oklahoma City.

- Master of Public Administration (p. 402)
- Public Management, Master of Public Administration (p. 403)
- Non-Profit Management, Master of Public Administration (p. 402)
- Public Policy, Master of Public Administration (p. 403)

Graduate Certificates

- Non-Profit Management (p. 404)

Doctoral Programs

Political Science PhD (p. 404)

Lamothe	Scott	J	2006	ASSOCIATE PROFESSOR OF POLITICAL SCIENCE, 2013	PhD, Florida State Univ, 2000; MS, Florida State Univ, 1997; BA, California Polytechnic, 1992
Morgan	Meg		2008	ASSISTANT PROFESSOR OF POLITICAL SCIENCE AT TULSA, 2014; ADJUNCT ASSISTANT PROFESSOR OF SOCIAL WORK AT TULSA, 2014	PhD, Univ of Oklahoma, 2013; MA, Univ of Oklahoma, 2009; BA, Drury Univ, 2005
Ripberger	Joseph	T	2016	ASSISTANT PROFESSOR OF POLITICAL SCIENCE, 2016	PhD, Univ of Oklahoma, 2012; MA, Univ of Oklahoma, 2011; BA, Miami Univ, 2007
Robinson	Scott	E	2013	HENRY BELLMON CHAIR IN PUBLIC SERVICE, 2013; PROFESSOR OF POLITICAL SCIENCE, 2016	PhD, Texas A&M Univ, 2001; MA, Texas A&M Univ, 1999; BA, Univ of Texas Dallas, 1997
Russell	Gregory	T	1991	PROFESSOR OF POLITICAL SCIENCE, 2011	PhD, Louisiana State Univ, 1987; MA, East Texas State, 1979; BA, East Texas State, 1977
Shortle	Allyson		2012	ASSISTANT PROFESSOR OF POLITICAL SCIENCE, 2012	PhD, Ohio State Univ, 2012; MA, Ohio State Univ, 2007; BA, Union College, 2005
Silva	Carol	L	2007	CIMMS FELLOW, 2012; PROFESSOR OF POLITICAL SCIENCE, 2015; CO-DIRECTOR, NATIONAL INSTITUTE FOR RISK AND RESILIENCE, 2016; EDITH KINNEY GAYLORD PRESIDENTIAL PROFESSOR, 2017	PhD, Univ of Rochester, 1998; MA, Univ of Rochester, 1996; BA, Univ of New Mexico, 1989

Szymanski	Ann-Marie	E	1996	ASSOCIATE PROFESSOR OF POLITICAL SCIENCE, 2005	PhD, Cornell Univ, 1997; MA, Cornell Univ, 1992; BA, Rutgers Univ, 1989
Tipler	Kathleen		2015	ASSISTANT PROFESSOR OF POLITICAL SCIENCE, 2015	PhD, Univ of Michigan, 2012; BA, Pomona College, 2002
Wert	Justin	J	2005	ASSOCIATE PROFESSOR OF POLITICAL SCIENCE, 2012; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2012; ASSOCIATES SECOND CENTURY PRESIDENTIAL PROFESSOR, 2013; PRESIDENTIAL TEACHING FELLOW, HONORS, 2017	PhD, Univ of Pennsylvania, 2005; MA, Univ of Pennsylvania, 2001; BA, Colorado State, 1996
Workman	Samuel	G	2014	ASSISTANT PROFESSOR OF POLITICAL SCIENCE, 2014	PhD, Univ of Washington, 2009; MA, Univ of Washington, 2005; MA, West Virginia Univ, 2003; BS, West Virginia Univ Inst of Tech, 2001

Political Science, Bachelor of Arts

Major Requirements

- The Department of Political Science does *not* permit major coursework to also fulfill General Education or College of Arts and Sciences requirements.
- P SC 1113 does not count for major credit.

Code	Title	Credit Hours
Research Methods		
P SC 2013	Introduction to Political Analysis	3
Distribution Requirements		
Choose four courses, one course each from 4 of the following 6 groups: (p. 381) ¹		12
Group I: American Politics		
Group II: Comparative Politics		
Group III: International Relations		
Group IV: Public Administration		
Group V: Public Policy		
Group VI: Political Theory		
Electives		
Choose 18 hours of P SC electives, which must include at least 12 hours of upper-division courses		18
Capstone		
P SC 4093	Capstone Seminar in Political Science ²	3
Total Credit Hours		36

¹A list of the courses approved for each group may be obtained in the Political Science Department or on the departmental website.

²This course should be taken during the senior year. (The capstone course must be completed with a grade of C or better.)

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
<i>Understanding Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Civilization and Culture</i>		
HIST 1483	United States, 1492 to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
<i>Non-Western Culture</i>		
Choose one course from the General Education Non-Western Culture list		3

Additional Core IV Upper-Division Humanities courses

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3} 3

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3} 3

Core Area V: Senior Capstone Experience (3 hours)

Choose one General Education Capstone course 3

Total Credit Hours 56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Political Science major requirements.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Political Science major requirements.

Course	Title	Credit Hours
Freshman

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Public Affairs and Administration major requirements.

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

¹The American Political Institutions Major Elective must be chosen from: P SC 3113, P SC 3143, P SC 3163, P SC 4273, or P SC 4283.

Elections & Campaign Management, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Political Science.

Required Courses

Students must successfully complete at least 15 hours of coursework, including at least nine (9) hours at the upper-division level.

This program requires a minimum 2.00 GPA (both OU and Combined) in the minor coursework.

¹At least six (6) credit hours at the upper-division level. Note: Students must meet prerequisite requirements for enrollment in upper-division classes.

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Political Science, Minor

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Political Science.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Political Science, including at least nine (9) hours at the upper-division level. Note that the introductory survey course (P SC 1113) does not count toward this total.

Code	Title	Credit Hours
Choose at least 15 hours of course credit acceptable for major credit in Political Science (at least 9 of these hours must be upper division)		15
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Public Affairs & Administration, Minor

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

Students must successfully complete at least 15 hours of courses acceptable for major credit in Public Affairs and Administration, including at least nine (9) hours at the upper-division level. Note that introductory courses are not counted toward this total. Up to three (3) hours of other Political Science courses may be substituted with the permission of the Department of Political Science.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Political Science.

Required Courses

Each of the courses to be offered to students minoring in Public Affairs and Administration is part of the curriculum of the bachelor's degree in Public Affairs and Administration. As courses are added to the bachelor's curriculum, they will also be available to students taking the minor. Only three (3) courses from outside of the department are included. One of these courses is NPNG 2033; the other two (2) courses are offered by Economics. They have been included in the curriculum of the minor in Public Affairs and Administration because they emphasize public sector activities which are not covered in any political science courses.

	Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
	Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)		
	Choose one General Education Capstone course	3
Total Credit Hours		56

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Political Science major requirements.

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Political Science major requirements.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Public Administration, Master of Public Administration

NPNG 5701	Nonprofit Fundraising and Grantmaking	1
NPNG 5711	Nonprofit Financial Management	1
NPNG 5721	Nonprofit Human Resources	1
Total Credit Hours		15

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Political Science Doctoral Programs

Doctor of Philosophy

The Graduate Programs in Political Science doctoral program at the University of Oklahoma is one of the most diverse, well-established doctoral programs in the region. The program offers seven fields of study, which include American politics, comparative government, international relations, public administration, public policy, political theory and research methods. Doctoral students work closely with nationally recognized faculty who publish widely, are active in leadership positions in national and international professional associations, and are involved in editing leading journals in their fields. Students play a significant part in the intellectual life of the Department, participating in informal research-in-progress sessions, attending talks hosted by job candidates, and preparing papers for presentation at professional conferences.

A minimum of 90 semester hours of coursework beyond the bachelor's degree is required, including 12 hours of required coursework, 27 hours of fields coursework, and 2-44 hours dissertation research. Doctoral students must complete a General Examination (written and oral) in two of the three fields (with the exception of Methods, which is a non-examining field). A doctoral candidate is expected to complete the degree requirements within four years after passing the General Examination. Students in the Ph.D. program must meet certain requirements in developing research tools and in familiarizing themselves with the broad spectrum of the discipline. Beyond this minimum of required courses, however, a detailed program will be developed by the student and the doctoral advisory committee in order to pursue the student's major interests, and to lay the groundwork for a doctoral dissertation.

Opportunities for research and funding are provided by programs affiliated with the department, including the Carl Albert Congressional Research and Studies Center, the Institute for Public Affairs, the International Programs Center, the OU POLL, the Center for Risk, Crisis

and Resilience, the Center for Applied Social Research, and International and Area Studies.

Department of Psychology

Eric Day, Chair

vwillis@ou.edu
www.ou.edu/cas/psychology

General Information

The Department of Psychology was founded in 1928. The primary emphasis of the department is on psychology as an experimental and applied science. At the present time, the department is focused on the areas of cognitive psychology, social psychology, quantitative psychology, industrial/organizational psychology, developmental psychology, neuroscience, personality/individual differences.

At the undergraduate level, our department offers students an exceptional education that is flexible enough to support a wide range of career paths. Our undergraduate degree programs provide students with the opportunity to develop the type of broad and rich introduction to scientific psychology that will support a wide variety of post-graduate interests, whether they are to further graduate training in such areas as clinical or experimental psychology, pursue graduate training in other professional areas, such as medicine, law, or business, or to immediately seek meaningful employment in the contemporary workplace.

The programs of graduate training in the department are designed to produce experimental psychologists who are capable of assuming positions in academia, as well as industry and government. In a rigorous but cooperative and congenial atmosphere, high-quality research psychologists are trained to contribute to the body of knowledge of scientific psychology, as well as to disseminate and apply psychological knowledge.

The department provides research training by means of a curriculum that requires students to be involved in research beginning with their first enrollment and continuing every semester thereafter.

Programs & Facilities

Laboratory and Teaching Facilities

The laboratory and teaching facilities of the Department of Psychology include the Brain and Cognitive Development lab, Snyder Lab, Center for the Study of Human Operator Performance (C-SHOP), Mumford Lab, Day Lab, and Connelly Lab. SONA is a website that the Department uses to manage all experiments. See Undergraduate Research Opportunities for more details.

SCHOLARSHIPS AND FINANCIAL AID

At the undergraduate level, the department offers The Outstanding Psychology Students (TOPS) scholarships to outstanding psychology students with at least junior standing and a superior record in coursework.

At the graduate level, the department has been able to provide financial support to most of those students wishing to be supported. Summer

support is available on a competitive basis. The Charles Gettys Award and a Graduate Student Teaching Award are presented annually for outstanding research and teaching by a graduate student in the department.

Student Organizations

The University of Oklahoma Psychology Club's purpose is to encourage, stimulate, and maintain excellence in psychology and to facilitate and further knowledge in psychology among students.

Psi Chi is the National Honor Society in Psychology, founded in 1929 for the purposes of encouraging, stimulating, and maintaining excellence in scholarship, and advancing the science of psychology. Membership is open to graduate and undergraduate men and women who are making the study of psychology one of their major interests.

Undergraduate Study

Students considering a major in psychology should contact an academic advisor in the Department of Psychology.

Bachelor of Arts

The Bachelor of Arts (p. 407) in Psychology provides the student with experience and training necessary to pursue post-baccalaureate education in psychology and other professional areas or to secure employment immediately following completion of the undergraduate degree, and with the broad education essential to the formation of a well-rounded, informed individual.

Bachelor of Science in Psychology

The Bachelor of Science in Psychology (p. 410) is designed to provide additional training and experience in research to those students who want greater mastery in basic sciences and methodology. The B.S. degree program is most appropriate for those students who want to significantly enhance their competitive standing for admission to doctoral training in psychology - although it should be noted that the majority of our B.A. degree students have been highly successful in achieving graduate school acceptance as well.

Minors

- Pre-Health Social Sciences Minor (p. 413)
- Psychology Minor (p. 413)

Careers in Psychology

For an excellent introduction to careers in psychology, with a description of many subfields and job domains, please see the brochure (PDF) published by the American Psychological Association (APA).

Psychologists assume many different roles. For example, they work as teachers, researchers, service providers, administrators, and consultants. Because psychologists perform such diverse tasks, they work in many different settings: colleges and universities, elementary and secondary schools, private practices, hospitals, human service agencies, business and industry, and government.

The following are just some of the fields that graduates with bachelor's degrees in psychology have entered: administration and management, business and industry, casework, child care, employment interviewing, health services, marketing and public relations, personnel, probation and parole, psychiatric assisting, research or laboratory assisting, sales, teaching, and technical writing. Students pursuing the bachelor's degree as a terminal degree are encouraged to seek academic counseling on

an intensive level with a faculty advisor, and to consult closely with the University's job placement service.

Graduate Study

Areas of Specialization

Areas of specialization in graduate training include cognitive psychology, social psychology, industrial-organizational, quantitative psychology, and developmental psychology, cognitive neuroscience, and personality psychology.

The programs of graduate training in the department are designed to produce experimental psychologists who are capable of assuming positions in academia, as well as industry and government. In a rigorous but cooperative and congenial atmosphere, high-quality research psychologists are trained to contribute to the body of knowledge of scientific psychology, as well as to disseminate and apply psychological knowledge.

Graduate Certificates

- Human Resource Management (p. 417)
- Project Management (p. 418)

Degree Programs

Master of Arts

The Department of Psychology offers an innovative Master of Arts in Organizational Dynamics program at the Schusterman Center at OU-Tulsa. The program emphasizes research combined with practical application. After completing core courses, students specialize in one of two general tracks: Human Resource Management (p. 414) or Project Management. (p. 415) Students interested in this program should consult with faculty members at OU-Tulsa.

Master of Science

The Master of Science (p. 416) in Psychology degree is conferred as a mark of progress toward the Ph.D. or as a terminal degree.

The Master of Science in Industrial Organizational Psychology (p. 417) provides students with the knowledge and research skills needed to study human motivation, performance, and well-being in the workplace. Students are also provided with opportunities to work on real-world projects, in both academic and industrial settings, that examine the application of psychological principles and findings to workforce management. The primary objective of the I/O Psychology program is to train individuals seeking the Ph.D. degree to conduct research and to practice in the areas of industrial psychology and organizational behavior.

Doctor of Philosophy

PhD Doctoral Programs (p. 418)

General Requirements for MS and Ph.D.

A continuing involvement in directed or independent research is expected to be a part of the student's program of doctoral study. The department has no foreign language requirements, but a student's Advisory Committee may recommend the development of competence in other areas of study (e.g., computer science, industrial engineering, mathematics, philosophy of science, history of science, physiology) of potential benefit to the student's particular professional development and interests.

As a vital part of the graduate training program in psychology, all graduate students are required to be engaged in a training assignment

each term. These assignments vary according to the needs and professional aspirations of the student. They are designed to supplement the more formal coursework by a variety of pre-professional activities such as assisting in research, teaching, etc., under faculty supervision. The training assignment increases in responsibility as the student progresses. The amount of time required of the student varies from 10–20 hours per week, depending upon level of progress, the type of assignment, etc. The purpose of these assignments is to train the student in some of the types of activities that the student will ultimately be engaged in after the degree is received.

A student's progress toward the Ph.D. degree is evaluated annually. Additionally, first-year students are evaluated after the first semester. The purpose of these evaluations is to provide feedback to the student and to assess the student's proficiency based on academic coursework, progress in research, and potential for significant contributions to the profession.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Burgett	Jennifer	L	2012	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2018; ASSOCIATE PROFESSOR OF JOURNALISM AND MASS COMMUNICATION, 2018	PhD, Yale Univ, 2012; M. Phil, Cambridge Univ, 2007; BA, Yale Univ, 2006
Campbell	Nicole	J	2000	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2008	PhD, Arizona State Univ, 1997; MA, Arizona State Univ, 1993; BS, Texas A&M Univ, 1990
Carvalho	Mauricio	R	2007	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2013	PhD, SUNY at Buffalo, 2007; MA, SUNY at Buffalo, 2003; BA, Univ of California-Los Angeles, 1998
Cavazos	Jenel	N	2003	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2015; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2015	PhD, Univ of Oklahoma, 2009; MS, Univ of Oklahoma, 2006; BA, Univ of Oklahoma, 2003
Cokely	Edward	T	2015	PROFESSOR OF PSYCHOLOGY, 2018; PRESIDENTIAL RESEARCH PROFESSOR, 2015	PhD, Florida State Univ, 2007; MS, Florida State Univ, 2003; BA, Cal State Univ-Fresno, 2001
Connelly Mumford	Mary	S	1999	ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2011; PROFESSOR OF PSYCHOLOGY, 2014	PhD, George Mason Univ, 1995; MA, George Mason Univ, 1992; BA, Loyola College, 1989
Day	Eric	A	2001	PROFESSOR OF PSYCHOLOGY, 2014	PhD, Texas A&M Univ, 1998; MS, Central Florida Univ, 1993; BS, James Madison Univ, 1991

Feltz	Adam		2018	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2018	PhD, Florida State Univ
Freeman	Erin	K	2017	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2017	PhD, Univ of Oklahoma
Fuenzalida	Luz-Eugenia		2007	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2007	PhD, Univ of Oklahoma, 2000; MS, Univ of Oklahoma 1997; BA, Univ of Oklahoma, 1994
Gronlund	Scott	D	1989	PROFESSOR OF PSYCHOLOGY, 2002; ROGER AND SHERRY TEIGEN PRESIDENTIAL PROFESSOR, 2008; ASSOCIATE CHAIR OF PSYCHOLOGY, 2017	PhD, Indiana Univ, 1986; BA, Univ of California Irvine, 1981
Kimball	Daniel	R	2008	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2008; J.R. MORRIS PROFESSOR OF PSYCHOLOGY, 2008	PhD, Univ of California Los Angeles, 2000; JD, Univ of Virginia, 1983; BA, Univ of Virginia, 1979
Kisamore	Jennifer	L	2003	ASSOCIATE PROFESSOR OF PSYCHOLOGY AT TULSA, 2009; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2013	PhD, Univ of South Florida, 2003; MA, Univ of South Florida, 1999; BA, Univ of South Florida, 1994
Liu	David	T	2014	ASSISTANT PROFESSOR OF PSYCHOLOGY, 2014	PhD, Univ of Michigan, BS, Carnegie Mellon Univ, 1997
Mayeux	Lara		2004	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2010; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2011; CHAIR, INSTITUTIONAL REVIEW BOARD, 2013	PhD, Univ of Connecticut, 2003; MA, Univ of Connecticut, 2000; BS, Texas Christian Univ, 1998
Mendoza	Jorge	L	1991	PROFESSOR OF PSYCHOLOGY, 1991	PhD, Univ of Oklahoma, 1974; MS, Univ of Oklahoma, 1972; BA, Univ of Illinois, 1970
Mumford	Michael		1999	PROFESSOR OF PSYCHOLOGY, 1999; DIRECTOR, CENTER FOR APPLIED BEHAVIORAL SCIENCES, 2004; GEORGE LYNN CROSS RESEARCH PROFESSOR OF PSYCHOLOGY, 2005	PhD, Univ of Georgia, 1983; MS, Univ of Georgia, 1981; BA, Bucknell, 1979
Showers	Carolyn	J	1999	PROFESSOR OF PSYCHOLOGY, 2008	PhD, Univ of Michigan, 1986; MS, Univ of California Berkeley; BSE, Princeton, 1978

Snyder	Lori	A	2004	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2010; DISTINGUISHED FACULTY FELLOW, OFFICE OF THE VICE PRESIDENT FOR RESEARCH, 2016	PhD, Colorado State Univ, 2004; MS, Colorado State Univ, 2001; BA, Earlham College, 1997
Song	Hairong		2009	ASSISTANT PROFESSOR OF PSYCHOLOGY, 2009	PhD, Univ of California Davis, 2009
Steinheider	Brigitte		2002	ASSOCIATE PROFESSOR OF PSYCHOLOGY AT TULSA, 2008	PhD, Univ Dusseldorf, 1996; MBA, Univ Dusseldorf, 1992; MS, Univ Dusseldorf, 1990
Wenger	Michael	J	2010	PROFESSOR OF PSYCHOLOGY, 2010	PhD, SUNY Binghamton, 1994; MS, Univ of Washington, 1989; BS, Univ of Washington, 1982

Psychology (Standard Option), Bachelor of Arts

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.

HSCI 1113	Science, Nature and Society: Historical Perspectives	
HSCI 2213	The Darwinian Revolution	
HSCI 2423	Social and Ethical Issues in Science, Technology, Environment and Medicine	
PHIL 1113	Introduction to Logic	3
A maximum of one of the following:		3
SOC 1113	Introduction to Sociology	
SOC 3523	Criminology	
SOC 3723	Sociology of Family	

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gedned/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
<i>Understanding Artistic Forms</i>		

Choose one course from the General Education Artistic Forms list	3
<i>Western Civilization and Culture</i>	
HIST 1483 United States, 1492 to 1865 or HIST 1493 United States, 1865 to the Present	3
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)	3
<i>Non-Western Culture</i>	
Choose one course from the General Education Non-Western Culture list	3
<i>Additional Core IV Upper-Division Humanities courses</i>	
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Psychology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Psychology major requirements.

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Psychology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Psychology major requirements.

Course	Title	Credit Hours
Freshman		
First Semester

Credit Hours	15
Total Credit Hours	120

¹Group 1 Major Support Requirements must total at least 8 credit hours.

Pre-Health Social Sciences, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Psychology.

Required Courses

Students must successfully complete at least 21 hours of courses, including least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
Required Courses		
PSY 1113	Elements of Psychology	3
Choose one of the following:		3
PSY 2003	Understanding Statistics	
PSY 2113	Research Methods I: Statistics

SOC 3723	Sociology of Family	
SOC 3813	Individual and Society	
SOC 3843	Sociology of Aging	
SOC 3873	World Religions and Society	
Total Credit Hours		21

¹These courses require PSY 3114 as a pre-requisite. Only the topics listed are pre-approved.

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Psychology, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Psychology.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in Psychology, including at least 9 hours at the upper-division level.

Neither Independent Study courses (e.g., PSY 3990, PSY 4990) nor variable credit courses (e.g., PSY 2910, PSY 4910) may be used to satisfy requirements for the minor.

Code	Title	Credit Hours

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Psychology Doctoral Programs

Doctor of Philosophy

To complete the Ph.D. in Psychology a student must complete 90 hours of coursework beyond the bachelor's degree. The individual student, in consultation with a faculty advisory committee, will design a unique course of study that reflects the student's interests and career goals. Successful completion of all coursework, the Ph.D. general exams, and the dissertation is required for the Ph.D.

Students interested in our Quantitative program also take two courses from the mathematics department: Calculus-based mathematical statistics and linear algebra. The pre-requisite calculus courses for these may be taken at OU if the student does not have them at the time of admission.

General Requirements for MS and Ph.D.

A continuing involvement in directed or independent research is expected to be a part of the student's program of doctoral study. The department has no foreign language requirements, but a student's

Advisory Committee may recommend the development of competence in other areas of study (e.g., computer science, industrial engineering, mathematics, philosophy of science, history of science, physiology) of potential benefit to the student's particular professional development and interests.

As a vital part of the graduate training program in psychology, all graduate students are required to be engaged in a training assignment each term. These assignments vary according to the needs and professional aspirations of the student. They are designed to supplement the more formal coursework by a variety of pre-professional activities such as assisting in research, teaching, etc., under faculty supervision. The training assignment increases in responsibility as the student progresses. The amount of time required of the student varies from 10–20 hours per week, depending upon level of progress, the type of assignment, etc. The purpose of these assignments is to train the student in some of the types of activities that the student will ultimately be engaged in after the degree is received.

A student's progress toward the Ph.D. degree is evaluated annually. Additionally, first-year students are evaluated after the first semester. The purpose of these evaluations is to provide feedback to the student and to assess the student's proficiency based on academic coursework, progress in research, and potential for significant contributions to the profession.

Department of Religious Studies

Charles Kimball, Presidential Professor of Religious Studies, Chair
 140 Robertson Hall
 731 Elm Avenue
 Norman, OK 73019
 Phone: (405) 325-3349
 FAX: (405) 325-1502
 rels@ou.edu
 www.ou.edu/cas/rels

General Information

Religion is a major force around the world and one of the few universals of human culture. The importance of understanding its historical, social, political, intellectual, and artistic influence is self-evident. The Religious Studies Department at OU provides undergraduate students with a broad curriculum of study on the diverse expressions of religion. Students learn both about major religious traditions and the different approaches to understanding religion.

The study of religion at OU is not intended to promote or critique any particular religious faith. Nor does it seek to encourage or discourage religious practice or expression. More broadly, by providing a greater understanding of religion in its pluralistic expressions the Religious Studies Department will promote a more informed citizenry. The relationship of religion to other societal, cultural, and political activity means that the study of religion informs the understanding of all human activity. The Religious Studies Department works closely with the University's International Programs office, the College of International and Area Studies, and the College of Arts & Sciences to identify and/or coordinate study abroad experiences for our students.

Religious Studies is an interdisciplinary field devoted to the academic study of religion. The mission of OU's Religious Studies program is educational, to equip students with the knowledge to function in the diverse and complex global environment of the 21st Century. The

department observes and examines religion in its many expressions. The centerpiece of the program is a curriculum that enables undergraduate students to major or minor in Religious Studies but also to combine the RELS curriculum with other OU programs for the best possible preparation for a career, professional, or graduate school in a range of fields.

Programs & Facilities

The Department of Religious Studies sponsors or co-sponsors numerous programs featuring a variety of prominent speakers and authors each year. In addition to speaking in classes and meeting with students, most of these visitors present public lectures on religious dimensions of important contemporary issues. The public lectures are open to the wider OU campus and local community.

The department also actively encourages and supports foreign study opportunities. In addition to annual summer foreign study trips, faculty members are working with the College of Arts and Sciences to develop a wide range of new semester and year-long programs at universities in Morocco, Egypt, Israel, Turkey and the UAE. Some scholarships are available to facilitate foreign study programs.

The Religious Studies Department currently provides several partial scholarships each year in a competitive process for RELS majors and minors.

Undergraduate Study

The study of religion at OU is not intended to promote or critique any particular religious faith, nor does it seek to encourage or discourage religious practice or expression. More broadly, by providing a greater understanding of religion in its pluralistic expressions the program promotes a more informed citizenry. The relationship of religion to other societal, cultural, and political activity means that the study of religion informs the understanding of all human activity. The Department of Religious Studies works closely with the University's International Programs office and the College of Arts & Sciences to identify and/or coordinate study abroad experiences for our students.

The Bachelor of Arts (p. 419) in Religious Studies curriculum involves a two-pronged academic exploration of different religious traditions (e.g., Native American, African, and other indigenous traditions, Christianity, Islam, Judaism, Buddhism, Hinduism, Baha'i, etc.); and different approaches to the study of religion (historical, social, political, intellectual, philosophical, scientific, literary). This prepares future journalists, teacher, lawyers, doctors, and business leaders to operate in the complex religious milieu of the coming decades.

Minor

A Religious Studies Minor (p. 422) may be earned. The minor may be declared through the College of Arts & Sciences Academic Services office, 124 Ellison Hall.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4

Core Area III: Social Science (6 hours)

P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3

Core Area IV: Humanities (18 hours)

<i>Understanding Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Civilization and Culture</i>		
HIST 1483	United States, 1492 to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
<i>Non-Western Culture</i>		
Choose one course from the General Education Non-Western Culture list		3
<i>Additional Core IV Upper-Division Humanities courses</i>		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.

- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Religious Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Religious Studies major requirements.

¹If the Western Civilization & Culture Gen. Ed. requirement is satisfied by the Religious Studies Introductory course, a lower-division elective is to be selected.

²If the Non-Western Culture Gen. Ed. requirement is satisfied by ANTH 1823 as the Religious Studies Introductory course, a lower-division elective is to be selected.

³The Religious Studies major requires 21 upper-division hours within the major; therefore, some of the major requirement courses listed in the semester grid must be selected at the upper-division level to ensure this requirement is met.

Religious Studies, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Religious Studies.

Required Courses

Students must successfully complete at least 18 hours of coursework in Religious Studies, including at least nine (9) hours at the upper-division level. Students must take one of the introductory courses listed in Section I of the Religious Studies major requirements, then choose the remaining 15 hours from among the list of approved courses for the major.

General Information

Social work education has been a part of the curriculum at the University of Oklahoma since 1917. A separate School of Social Work was established in 1935. The graduate program was fully accredited in 1957 and has maintained continuous accreditation. The school became the Anne and Henry Zarrow School of Social Work in 2009 and moved into its state of the art facility Anne and Henry Zarrow Hall in the fall of 2011.

Social work is a profession devoted to the enhancement of human well-being and to the alleviation of poverty and oppression. Social workers strive to promote the empowerment and well-being of individuals, families, communities, and organizations in an increasingly global society. The expansion of human service programs and areas of practice utilizing social work knowledge and skills has created a demand for professional social workers. Social work offers a challenging and exciting career for the individual who is motivated to help others and has a personal commitment to the advancement of social justice.

The school prepares practitioners who will use an integrated combination of theories, conceptual knowledge, values, and skills to serve diverse client and community systems. The undergraduate program and the foundation requirements of the graduate program are based on a generalist model that emphasizes skills, knowledge, and values basic to all social work practice.

The curriculum recognizes the importance of moving students forward through approaches to mastery and competence that instills within students the necessary attitudes, motivation, knowledge, and skills required for sound practice. The curriculum prepares students for life-long learning within specific domains of their own choosing. Each degree program anticipates student movement into particular domains formed by human need and social issues, social policies, systems of care, and particular organizations.

Programs & Facilities

Field Education Program

The Field Education program welcomes students to the practicum experience, prospective social work students, current students at the University of Oklahoma Anne & Henry Zarrow School of Social Work, or prospective Field Instructors. With a Field Education office on both the Norman and Tulsa campuses, placements are coordinated across Oklahoma in over 300 affiliated agencies offering students direct learning experiences with individuals, families, groups, and communities. Sites provide the supervision and resources needed to develop competent social workers.

Child Welfare Professional Enhancement Program

The Child Welfare Professional Enhancement Program (CWPEP) is a title IV-E partnership between the University of Oklahoma, The Oklahoma Department of Human Services, and the US Department of Health and Human Services Administration for Children and Families. The purpose of this partnership is to enhance and support Oklahoma's public child welfare workforce.

Knee Center for Strong Families

The Knee Center for Strong Families sponsors academic and community-oriented programs in the fields of social work, public health (including mental health), and fine arts in three core areas: Visiting lectureships, workshops, seminars, meetings of scholars, conferences, symposia, and forums; planning grants or "seed money" to develop programs that might have continuous funding from other sources; and underwriting research on the planning and development of educational programs to enhance family life in Oklahoma.

Center for Social Work in Healthcare

The Center for Social Work in Healthcare is dedicated to promoting and supporting the optimal use of the social work profession in health care settings, with an emphasis on primary health care settings. This is accomplished through the provision of educational opportunities and supports to social work students who have demonstrated an interest in interdisciplinary practice in health care. The center supports and participates in Oklahoma projects and programs focused on improving primary and community health, and supporting the increased use of evidence based social work practice in health care. In addition, the Center provides technical assistance and resources to primary care practices that are interested in developing social work positions within their practices, or improving the use of social work in their interdisciplinary teams.

Continuing Education

The Anne and Henry Zarrow School of Social Work Program for Continuing Education seeks to provide high quality continuing education events to Oklahoma social workers. Events are held on both the Norman and Tulsa campuses as well as Northwest Oklahoma.

Haruv USA at OU-Tulsa

Haruv USA at the University of Oklahoma-Tulsa is a new venture bringing together the best of two worlds – the unique expertise and international leadership of the Haruv Institute paired with the research-based educational knowledge and expertise of OU-Tulsa and the Anne and Henry Zarrow School of Social Work. An initiative of the Charles and Lynn Schusterman Family Foundation, Haruv USA will focus on comprehensive, inter-professional education and training for students and professionals who touch the lives of children from a wide variety of settings, along with research for the identification, prevention, and treatment of child abuse and neglect, with an emphasis on underserved children and families.

Center for Child Welfare Training & Simulation

Operating within the University of Oklahoma Anne & Henry Zarrow School of Social Work, the Center for Child Welfare Training & Simulation is committed to supporting the highest quality training and professional development for the child welfare system of Oklahoma. The center utilizes the extensive resources at OU, faculty resources and professional partnerships to develop curricula, tools for evaluation, and consultation for workforce development. The center's mission is to prepare and support a highly skilled and stable workforce to ultimately advance the safety, permanency, and well-being of children in Oklahoma.

Scholarship and Financial Aid

The Anne and Henry Zarrow School of Social Work is dedicated to helping students fund their education by providing opportunities for internal

(within the University) as well as external (outside of the University) scholarships.

OU also offers a wide variety of scholarships as does the College of Arts and Sciences. All financial need based scholarships for both undergraduate and graduate students are available through the Centralized Academic Scholarship Hub (CASH).

The School of Social Work provides a limited number of departmental scholarships to qualified students in the Social Work program. For graduate students, information about how to complete the online application is disseminated in the spring semester to both current students and new admits via email. Undergraduate students should apply through OU's Centralized Academic Scholarship Hub (CASH) for all departmental, college, and need based scholarships

The school has a limited number of Graduate Research Assistant positions available that offer both a tuition waiver, a stipend, and health insurance. Information about how to apply for a GRA position is disseminated in the spring semester to both current students (via email) and new students (via acceptance packets) or as information becomes available.

OU Financial Aid Services administers federal, state, institutional and private aid programs.

The Child Welfare Professional Enhancement Program (CWPEP) is a stipend and tuition assistance program specifically designed to encourage future MSWs and BSWs to work in the child welfare field.

The Zarrow Mental Health Stipends support students in Masters level foundation and concentration year practica in Tulsa.

The Center for Social Work in Healthcare provides stipends for students interested in a health-related practicum.

Leadership Education in Neuro-developmental and Related Disabilities (LEND) is a nationwide training program sponsored by the Maternal Child Health Bureau of the United States Department of Health and Human Services. In Oklahoma, LEND prepares graduate students for leadership roles as professionals with interdisciplinary skills to support community-based partnerships with professional colleagues, clients, and families.

Undergraduate Study

The Bachelor of Arts (p. 426) in Social Work program is designed to prepare social workers to assume entry-level professional roles in human and social service systems. In addition to the academic expectations, social work students are expected to demonstrate professional behavior which reflects a commitment to the ethics of the social work profession.

The role of the social worker involves helping people from a variety of backgrounds and with a range of problems, so it is important that the social work student not permit personal issues to interfere with this role and that the student have the emotional and psychological resources to render effective assistance to those in need.

Graduates of the baccalaureate program are eligible for membership in the National Association of Social Workers. They are also eligible to apply for advanced standing in the M.S.W. program at the University of Oklahoma or other graduate programs in social work. Following two years of supervised practice, they are eligible to apply for a license in the State of Oklahoma.

The School of Social Work fully subscribes to and is guided by the NASW Code of Ethics. Social work program applicants and students are expected to demonstrate professional behavior which reflects a commitment to the ethics of the social work profession as exemplified in the Code of Ethics. Behavior and statements contrary to these ethical principles may result in denial admission or review of continuance in the School's programs. Examples of behavior which warrant such denial or a review include, but are not limited to, derogatory oral and written statements towards other students, faculty, and/or persons from populations reflecting racial, ethnic, handicapped status, religious, socioeconomic, gender, and sexual orientation differences. Students are responsible for knowing and adhering to the NASW Code of Ethics. The most recent version can be read and downloaded from the internet through the national NASW website.

Additionally, the school publishes its own standards compatible with NASW in its Student Performance Policy (PDF).

Graduate Study

Master of Social Work

The Master of Social Work degree (MSW) is designed to prepare students for advanced professional practice within an organizational context. Two major professional roles predominate. The first of these is direct social work practice with individuals, families and groups. The second is focused on administration, planning, and community organization. In recognition of these two distinct areas of practice, the school offers two areas of advanced concentration: direct practice and administration and community practice. The MSW is offered in both Norman and OU-Tulsa in both full-time and part-time format. Advanced Standing status is available to students who have completed a bachelor's degree in social work from an accredited program with the past five years and who meet additional criteria. Students select a concentration upon entering the program; both concentrations contain a Thesis and a Non-Thesis track.

- Social Work, Master of Social Work (p. 429)
- Social Work: Advanced Standing, Master of Social Work (p. 430)

See MSW Admission Information for admission details, or contact ouswk-norman@ou.edu or ouswk-tulsa@ou.edu for more information.

Graduate Certificates

The Anne and Henry Zarrow School of Social Work offers a Graduate Certificate in Social Work with American Indians (p. 430). This is independent from the degree even though courses overlap. Certificates cannot be added post graduation. Typically obtaining a certificate does not add courses to your degree but rather specifies the electives taken.

Dual Degrees

Master of Social Work and Master of Public Health - The joint MSW-MPH program strengthens public health social work through coursework graduate social work students undertake in both programs.

Master of Social Work and Master of Arts in International Studies - The joint MSW-MAIS program prepares students for a globally integrated practice environment that addresses global social, political and economic justice issues, whether in the realm of international diplomacy, the international economy, humanitarian aid and economic development assistance, or international advocacy.

Gandy-Guedes	Megan		2015	ASSISTANT PROFESSOR OF SOCIAL WORK, 2015; ADJUNCT ASSISTANT PROFESSOR OF PROFESSIONAL AND CONTINUING STUDIES, 2017	PhD, Virginia Commonwealth Univ, 2015; MSW, Univ of North Carolina, 2009; BA, Lenoir-Rhyne Univ, 2004
Gray	Karen	A	2008	ASSOCIATE PROFESSOR OF SOCIAL WORK, 2012	PhD, Univ of Texas, 2001; MSW, Univ of Kansas, 1984; BSW, Univ of Missouri, 1978

Grinnell Davis	Claudette	L	2017	ASSISTANT PROFESSOR OF SOCIAL WORK AT TULSA, 2017	PhD, Univ of Michigan, 2014; MS, Univ of Michigan, 2012; MSW, Western Michigan Univ, 2003; MTS, Calvin Theological Seminary, 1995; BS, Univ of Michigan, 1992
Hellman	Chan	M	2002	DIRECTOR, CENTER FOR APPLIED RESEARCH FOR NON-PROFIT ORGANIZATIONS, 2007; PROFESSOR OF SOCIAL WORK AT TULSA, 2017	PhD, Oklahoma State Univ, 2002; MA, Univ of Central Oklahoma, 1994; BS, Northwestern Oklahoma State Univ, 1988
Jankowski	Carol	M	2017	FIELD EDUCATION COORDINATOR, SCHOOL OF SOCIAL WORK, 2017; CLINICAL ASSISTANT PROFESSOR OF SOCIAL WORK, 2018	MSW, Univ of Texas, 2001; BS, Univ Southwestern Louisiana, 1999
Kratz	Jonathan	R	2014	CLINICAL ASSISTANT PROFESSOR OF SOCIAL WORK AT TULSA, 2016	MSW, Univ of Oklahoma, 2010; BA, Southern Nazarene Univ, 2002
McLeod	David	A	2013	ASSISTANT PROFESSOR OF SOCIAL WORK, 2013; ADJUNCT ASSISTANT PROFESSOR OF WOMEN'S AND GENDER STUDIES, 2013; KNEE CENTER FOR STRONG FAMILIES COORDINATOR, SOCIAL WORK, 2017	PhD, Virginia Commonwealth Univ, 2013; MSW, Univ of Arkansas, 2009; BA, Univ of Arkansas, 2005
Miller	Christina	R	2009	UNDERGRADUATE COORDINATOR, SCHOOL OF SOCIAL WORK, 2014; ASSOCIATE PROFESSOR OF SOCIAL WORK, 2015; ASSISTANT DIRECTOR, ANNE AND HENRY ZARROW SCHOOL OF SOCIAL WORK, 2018	PhD, Florida State Univ, 2009; MSW, Missouri State Univ, 2002; BS, Southwest Baptist Univ, 2000
Miller-Cribbs	Julie	E	2006	PROFESSOR OF SOCIAL WORK AT TULSA, 2013; OKLAHOMA MEDICAID PROFESSOR IN MENTAL HEALTH, 2015	PhD, Washington Univ, 1999; MA, Univ of Chicago, 1992; BA, Colorado College, 1990
Munoz	Ricky	T	2009	ASSISTANT PROFESSOR OF SOCIAL WORK AT TULSA, 2015	JD, Washington Univ, 2001; BA, Univ of Tulsa, 1996
Natale	Anthony	P	2005	ASSOCIATE PROFESSOR OF SOCIAL WORK, 2011; FACULTY FELLOW FOR INCLUSIVE EXCELLENCE, 2017	PhD, Univ of Denver, 2005; MSW, Portland State Univ, 1999; BA, Washington State Univ
Noyori-Corbett	Chie		2013	ASSISTANT PROFESSOR OF SOCIAL WORK, 2013	PhD, Univ of Texas Arlington, 2012; MSW, Univ of Texas Arlington, 2006, BSBA, Suffolk Univ, 1994
Pettigrew	Dallas	W	2014	CLINICAL ASSISTANT PROFESSOR OF SOCIAL WORK AT TULSA, 2017	MSW, Univ of Oklahoma, 2012; BSW, Northeastern State Univ, 2011; BS, Northeastern State Univ, 2002
Pharris	Angela	D	2017	ASSISTANT PROFESSOR OF SOCIAL WORK, 2017	PhD, Tennessee State Univ, 2016; MSW, Spalding Univ, 2002; BSW, Middle Tennessee State Univ, 1998
Riley	Ann	T	2012	CLINICAL ASSISTANT PROFESSOR OF SOCIAL WORK, 2012; GRADUATE COORDINATOR, SOCIAL WORK, 2017; ADJUNCT ASSISTANT PROFESSOR OF INTERNATIONAL AND AREA STUDIES, 2015	PhD, Univ of Oklahoma, 2010; MSW, Univ of Oklahoma, 1987; BSED, Univ of Oklahoma, 1981
Wells	Steven	P	1988	CLINICAL ASSOCIATE PROFESSOR OF SOCIAL WORK, 2013; SIMULATION CENTER COORDINATOR, SCHOOL OF SOCIAL WORK, 2015	PhD, Univ of Oklahoma, 2006; MSW, Univ of Oklahoma, 1985; BA, Central State Univ, 1972

Social Work, Bachelor of Arts

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.**
- Social Work majors must earn at least a 2.50 overall grade average; at least a 2.50 grade average in required social work courses; an S in S WK 4315 and S WK 4325; and at least a C in all required social work courses and the major support requirements.
- Students must earn a minimum GPA of 2.25 to be eligible for admission.

Prior to Junior Year: Students who have completed prerequisites and meet the minimum grade requirement must file an application to be admitted to the program. *Because admission is competitive, not every applicant will be admitted.*

Code	Title	Credit Hours
S WK 2113	Introduction to Social Work	3
S WK 2223	Statistics for Social Work	3

S WK 3003	Interviewing Skills for Generalist Practice	3
S WK 3103	Generalist Practice with Individuals and Families	3
S WK 3113	Generalist Practice with Families and Groups	3
S WK 3233	Human Behavior: Individuals and Families	3

S WK 4315	Practicum I	5
S WK 4323	Practicum Seminar II ²	3
S WK 4325	Practicum II ²	5
Total Credit Hours		49

¹All majors must complete a statistics course before enrolling in S WK 4083.

²S WK 4323 and S WK 4325 satisfy the University-Wide General Education Capstone requirement for the Social Work major.

Major Support Requirements

Code	Title	Credit Hours
Choose one of the following (with or without a laboratory):		3-5
BIOL 1005	Concepts in Biology	
BIOL 1013	Introduction to Biology	
BIOL 1114	Introductory Zoology	
BIOL 1124	Intro Biol: Molecule/Cell/Phys	
BIOL 1134	Introductory Biology: Evolution, Ecology and Diversity	
BIOL 2124	Human Physiology	
BIOL 2234	Introduction to Human Anatomy	
BIOL 2255	Human Anatomy	
HES 1823	Scientific Principles of Health and Disease	
PSY 1113	Elements of Psychology	3
SOC 1113	Introduction to Sociology	3
Total Credit Hours		9-11

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
	or EXPO 1213 Expository Writing	
<i>Foreign Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>		
	Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
	Choose one course from the General Education Social Science list	3
Core Area IV: Humanities (18 hours)		
<i>Understanding Artistic Forms</i>		
	Choose one course from the General Education Artistic Forms list	3
<i>Western Civilization and Culture</i>		
HIST 1483	United States, 1492 to 1865	3
	or HIST 1493 United States, 1865 to the Present	
	Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)	3
<i>Non-Western Culture</i>		
	Choose one course from the General Education Non-Western Culture list	3
<i>Additional Core IV Upper-Division Humanities courses</i>		
	Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
	Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
Core Area V: Senior Capstone Experience (3 hours)		
	Choose one General Education Capstone course	3
Total Credit Hours		56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and School of Social Work academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Social Work major requirements.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in

all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Social Work with American Indians, Graduate Certificate

The Anne and Henry Zarrow School of Social Work offers an embedded Graduate certificate in Social Work with American Indians. Typically obtaining a certificate does not add courses to your MSW degree but rather specifies the electives taken.

Courses cannot be double counted towards more than one graduate certificate, and certificates cannot be added post-graduation.

Certificate Requirements

Code	Title	Credit Hours
S WK 5343	Social Work with American Indians	3
S WK 5303	American Indian Behavioral Health	3
S WK 5283	Tribal-U.S.Child/Family Welfare Policy and Practice	3
Choose 6 hours from S WK and/or NAS as approved by the Graduate Liaison and Social Work with American Indians Certificate Coordinator		6
Total Credit Hours		15

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

 www.ou.edu/cas/soc

General Information

The Department of Sociology has two interrelated missions: to provide the highest quality education at the baccalaureate, master's, and doctoral levels, and to foster state-of-the-art research among faculty and graduate students. Teaching and research in the department help meet the needs of the state and nation by addressing important social issues. The undergraduate program contains two degree options, one in general sociology and one in criminology. Graduate level areas of concentration are class stratification, criminology and deviance, family, gender, cross-national Sociology, race and ethnicity, religion, and social psychology. Contemporary issues within these areas are emphasized, and their historical, comparative, and global dimensions are explored. Through research, we seek to update and refine knowledge in each area to assist in formulating and evaluating social policy.

At both the undergraduate and graduate levels, coursework in Sociology provides an analytic research emphasis for studying, understanding, and explaining major issues. Research in these areas updates and refines knowledge and, further, helps formulate and evaluate social policy.

The undergraduate curriculum in sociology prepares students for jobs in a wide-variety of occupations and for admission to advanced degree programs, especially in sociology, law, and criminal justice. The graduate program provides more intensive instruction and stimulates further intellectual growth and maturity. Graduate students completing a degree in sociology typically find employment in academic settings as professors and researchers, and in the public or private sectors as statistical analysts and research coordinators. The quality of the programs in sociology can be measured by the successful placement of our graduates in agencies, corporations, graduate and professional programs, research settings, and colleges and universities.

A major strength of the department's graduate program is its training in research methods and statistics. The department maintains its own computer lab equipped with advanced statistical package software. Core seminars in statistics and methods encourage participation in all phases of research, from research design to data collection and analysis to the presentation of findings. Strength in this area complements coursework in the department's three substantive areas of interest, and encourages students to be independent researchers and informed teachers. The department's graduate students regularly present research papers at professional meetings, and have been very successful in winning competitions with these papers.

Programs & Facilities

Inside-Out Prison Exchange Program

The Inside-Out Prison Exchange Program is an educational program tailored to effectively facilitate dialogue across difference. It originated as a means of bringing together campus-based college students with incarcerated students for a semester-long course held in a prison, jail or other correctional setting.

ADQUANT - Advanced Quantitative Methods Working Group

The Advanced Quantitative Methods Working Group (ADQUANT) is a collaborative forum for the discussion and dissemination of quantitative approaches to data analyses across the social sciences. We are interested in developing an understanding of advanced statistical methods and facilitating interdisciplinary approaches to data analyses throughout the OU campuses and beyond.

Sociology and Criminology Club

The purpose of the Sociology/Criminology Club (SCC) is to provide a forum for undergraduate students who are interested in criminology and sociology. The mission of the SCC is to inform its members about careers, internships, graduate study, and other opportunities available in criminology and sociology and to provide a setting in which they can meet and socialize with other students who share similar interests.

Undergraduate Study

Bachelor of Arts

The Department of Sociology at OU offers two options within the Bachelor of Arts in Sociology program: the General Sociology (p. 432) option and the Criminology (p. 435) option. The general sociology option gives students a broad education in the field of sociology, and students can select any type of upper-division sociology electives to complete the major. The criminology option focuses on criminology, a specialized area within sociology, so students on this track take upper-division electives that focus on the nature, extent, causes, and control of criminal behavior.

Students considering a major in Sociology should contact the department for assistance in selecting courses which contribute to the student's educational and career plans. Students who intend to pursue careers in social agencies, corporations, or research settings will be advised regarding courses most appropriate to those interests. Students wishing to enroll in graduate or professional school will be advised regarding courses normally prerequisite to such work.

Minors

- General Sociology Minor (p. 437)
- Criminology Minor (p. 437)

Graduate Study

The Master of Arts (p. 440) in Sociology and Doctor of Philosophy (p. 441) programs in sociology emphasize the learning of research methods and statistics in conjunction with chosen substantive area(s) of interest. The department offers six different courses in which graduate students develop research skills. At the doctoral level, students may choose to specialize in any two areas from the three areas of emphasis in the department.

Admission Requirements

See Department of Sociology graduate programs page for admission information.

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Bass	Loretta	E	1999	ADJUNCT ASSOCIATE PROFESSOR OF WOMEN'S AND GENDER STUDIES, 2008; ADJUNCT ASSOCIATE PROFESSOR OF INTERNATIONAL AND AREA STUDIES, 2013; PROFESSOR OF SOCIOLOGY, 2014	PhD, Univ of Connecticut, 1998; MA, Univ of Connecticut, 1993; BA, Univ of Kansas, 1990

Sociology - General Option, Bachelor of Arts

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.

Code	Title	Credit Hours
Sociology Core		
SOC 1113	Introduction to Sociology	3
SOC 3123	Social Statistics	3

SOC 3133	Methods of Social Research	3
SOC 3363	Sociological Theory	3
SOC 4943	Capstone in General Sociology	3

Substantive Area Courses

Choose five courses from the Substantive Area course list (p. 433)	15
--	----

Major Elective Courses

Choose one additional Sociology course which may be chosen from courses listed in Substantive Area	3
--	---

Total Credit Hours	33
--------------------	----

NOTES

- PHIL 1113 Intro. to Logic will not satisfy the prerequisite to enroll in SOC 3123 Social Statistics or SOC 3133 Methods of Social Research.
- Both SOC 3123 and SOC 3133 must be completed with a grade of C or higher BEFORE the capstone.
- The capstone course should be taken the FINAL SEMESTER in residence at the university. It is only offered in Spring and Fall semesters.
- We suggest using free elective hours to help students utilize their academic skills after graduation by completing a minor or any service-learning designated class. Service-learning designated classes can be found by searching for SERV when enrolling. These classes are also very beneficial: CAS 3091 Career Planning for Arts & Sciences and CAS 4113 Life After OU-Survival Course

Substantive Area Courses

Code	Title	Credit Hours
SOC 2523	Global Social Problems	3

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education

course list published in the Class Schedule or at <http://www.ou.edu/ged/courses>.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
------	-------	--------------

Core Area I: Symbolic and Oral Communication

English Composition (6 hours)

ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition or EXPO 1213 Expository Writing	3

Foreign Language (0-13 hours in the same language)
The college requirement cannot be met by high school coursework.

Beginning Course	0-5
Beginning Course, continued	0-5
Intermediate Course (2000 level) ^{1,2}	0-3

Mathematics (3 hours)

Choose one course from the General Education Mathematics list	3
---	---

Core Area II: Natural Science (7 hours, including one laboratory component)

Biological Science

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or P BIO ¹	3-4
--	-----

Physical Science

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
--	-----

Core Area III: Social Science (6 hours)

P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list	3	

Core Area IV: Humanities (18 hours)

Understanding Artistic Forms

Choose one course from the General Education Artistic Forms list	3
--	---

Western Civilization and Culture

HIST 1483	United States, 1492 to 1865	3
or HIST 1493	United States, 1865 to the Present	

Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)

Non-Western Culture

Choose one course from the General Education Non-Western Culture list	3
---	---

Additional Core IV Upper-Division Humanities courses

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
--	---

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture ^{1,3}	3
--	---

Core Area V: Senior Capstone Experience (3 hours)

Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Arts and Sciences and Department of Sociology academic advisors to verify that courses selected each semester fulfill the recommended plan

and satisfy university, College of Arts and Sciences, and Sociology major requirements.

¹A grade of C or better must be earned in SOC 3123 and SOC 3133.

Sociology - General, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Sociology.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in Sociology, including at least nine (9) hours at the upper-division level. SOC 3890 will *not* count toward this total.

Code	Title	Credit Hours
Required Course

Choose one General Education Capstone course	3
Total Credit Hours	56

¹College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

²One course at the intermediate level or demonstrated competency at that level

³6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes

at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Sociology academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Sociology major requirements.

¹12 or more hours must be housed in the Department of Sociology at the 5000-level or above. The remaining 3 hours of electives may be Directed Readings (SOC 5960), a cross-listed course housed outside the department or another course outside the department.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Sociology Doctoral Programs

Doctor of Philosophy

To earn the Ph.D. degree, the student must complete at least 90 hours of graduate hours inclusive of electives, required classes, and dissertation hours, pass the general examination, and write a doctoral dissertation. All students admitted to the Ph.D. program must complete the following required courses: SOC 5293, SOC 5283, SOC 5933, SOC 6233, SOC 5313 or SOC 6243 or another research course, SOC 6903, and 18 hours of coursework in the social sciences. A maximum of 24 dissertation preparation hours (SOC 6980) may be applied to the dissertation. A maximum of 44 credit hours may be transferred from other universities with the permission of a student's advisory committee and the Dean of the Graduate College. The purpose of the coursework is to prepare the student for the general examination and the dissertation. The accumulation of coursework, in and of itself, does not constitute progress toward the degree.

With few exceptions, the student seeking this degree anticipates a career in teaching and/or research. Departmental requirements emphasize

professional competence in sociology as a whole, especially research methodology, and expertise in two fields within sociology. At the PhD level, the student should acquire a broad knowledge of the fundamentals of sociology and a focused specialization in two substantive areas of expertise.

A plan of study, filed formally with the Dean of the Graduate College, should develop the student's knowledge of and expertise in sociology broadly defined, as well as two substantive areas of sociological expertise. The plan of study must include the core requirements for the MA plus one additional theory course. This is especially important to highlight for students who are transferring credits from other universities or entering the doctoral program with a Master's degree in a related field. The plan of study must contain sufficient coursework to prepare a student for the general examination. The program of coursework and the committee can be amended as needed.

The general examination in sociology consists of a written component and an oral component. It usually is taken in the fall semester of the third year of the program. Once the relevant elements of the written component of the exam are considered satisfactory, then the student may proceed to the oral component of the general exam. In cases where the student's written answers were considered satisfactory but the performance on the oral component of the exam was not, he/she will retake the oral component of the general exam in the following semester (timing to be determined in consultation with the student's committee). A second unsatisfactory performance on the oral component of the general exam will result in dismissal from the program.

The doctoral dissertation is written and defended under the guidance of the student's doctoral committee consisting of five members of the graduate faculty, at least one of whom is from outside the Department of Sociology.

Ph.D. students having sole responsibility for teaching a course in the Department also are required to take Professionalization Seminar and the Teaching Seminar (SOC 5831).

Department of Women's and Gender Studies

Elyssa Faison, Interim Chair

General Information

The Women's and Gender Studies Program is an interdisciplinary program that seeks to enhance the student's knowledge of gender roles and relations across cultures and history. Women's and Gender Studies courses investigate the intersection of gender and such diverse phenomena as music, art, war, political activism, religion, communication, family life, and popular culture.

Careers

Women's and Gender Studies students learn a variety of marketable skills: critical thinking, writing, public speaking, organization, conflict resolution, diversity training and project design. The interdisciplinary

and global perspective gained will enable the student to bring insight, sensitivity and appreciation to any professional situation they pursue. Majors will be well-prepared for work in for-profit or not-for-profit organizations, social help agencies, human rights advocacy, victim's advocacy, or graduate study in law, medicine, human relations, education, nonprofit management, information science, communications, fine arts, public health, or academic research.

Programs & Facilities

The Center for Social Justice

The Center for Social Justice is an initiative of the Women's and Gender Studies Program to promote gender justice, equality, and human rights through local and global engagement.

Social Justice Internship

A social justice internship provides students with the opportunity to give back to the community and become directly involved in working with social justice issues. WGS believes that a social justice internship can help students become more active, open, and engaged citizens.

WGS Library

The Women's and Gender Studies Library was created thanks to a generous gift from the Cousin's Family. On October 16, 1998, Charles was honored at a reception dedicating the Women's and Gender Studies Library.

Scholarships and Financial Aid

Alice Mary Robertson Award

The Alice Mary Robertson award was established to honor the memory of Alice Mary Robertson, Oklahoma's first female representative in the United States Congress. The purpose of the award is to stimulate an interest among graduate students in the study and interpretation of the contributions made by women to the culture and progress of Oklahoma as well as to awaken the public to a greater appreciation of these contributions. The award is a one-time award to a graduate student whose creative activity and/or scholarly or archival research enhances the appreciation of these contributions. Any graduate student currently enrolled at the University of Oklahoma or Tulsa campuses may submit an application for this award. A committee selects the recipients during the spring semester, based on an evaluation of the creative or research activity.

Young Feminist Leadership Conference Travel Award

Each year the Department of Women's and Gender Studies makes available scholarships to cover the cost of attending the annual Young Feminist Leadership Conference held in Washington, D.C. The award is open to students who have declared a Women's and Gender Studies major or minor.

Civil Liberties and Public Policy Conference Travel Award

Each year the Department of Women's and Gender Studies makes available scholarships to cover the cost of attending the annual Civil Liberties and Public Policy Conference held at Hampshire College in Amherst, MA. The award is open to students who have declared a Women's and Gender Studies major or minor.

Undergraduate Study

Bachelor of Arts

The Bachelor of Arts (p. 443) in Women's and Gender Studies is an interdisciplinary program that seeks to enhance the student's knowledge

of gender roles and relations across cultures and history. Women's and Gender Studies courses investigate the intersection of gender and such diverse phenomena as music, art, war, political activism, religion, communication, family life, and popular culture.

Minors

The LGBTQ Studies Minor (p. 446) provides students with the opportunity to develop a dimension of diversity that may assist them in careers related to advocacy, working with youth, policy and law, and health; develops an intersectional analysis of how LGBTQ identities and community have been (and continue to be) shaped historically, socially, philosophically, culturally, medically, scientifically, etc.; and creates a space for critical inquiry around how sexual and gender minorities are affected by society's nonnative perceptions and practices, while also exploring ways that various LGBTQ communities and individuals have responded.

The Social Justice Minor (p. 446) offers undergraduate students the opportunity to develop an additional field of knowledge and capabilities that blend the theory and practice of social justice. Courses offered through the social justice minor will introduce students to the complexities and critical analysis of structural inequalities and injustices. Students will learn to utilize multidisciplinary and feminist approaches that recognize the struggles for liberation and the importance of social movements, advocacy, and activism locally and globally.

The Women's and Gender Studies Minor (p. 448) can easily be combined with many majors including Education, English, History, Human Relations, Journalism and Mass Communication, Music, Modern Languages, Political Science, Psychology, Sociology and Social Work.

Graduate Study

Graduate Certificate

The Women's and Gender Studies Graduate Certificate (p. 449) provides an interdisciplinary graduate education which broadens and/or gives specialty focus to students' Women's and Gender studies.

LGBTQ Studies, Minor

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Women's and Gender Studies Program.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours

Or courses not listed here which qualify for the Women's and Gender Studies major

Courses can be double counted between a graduate degree and a graduate certificate. However, courses cannot be double counted towards more than one graduate certificate.

Program Requirements

Code	Title	Credit Hours
WGS 5001	Women & Gender Studies Colloq	1
WGS 5123	Contemporary Feminist Thought	3
<i>Elective Specialty</i>		
Choose 9 hours as approved by the Women's and Gender Studies graduate committee and director ¹		9
Total Credit Hours		13

¹No more than 3 hours may be taken as Directed Readings, Independent Study, or Internship.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Women's and Gender Studies, Graduate Certificate

The purpose of the graduate certificate program is to provide an interdisciplinary graduate education which will broaden and/or give specialty focus to students' Women's and Gender studies. The program may particularly signify a student's focus on one or more of the following: feminist scholarship, research, or creative activity in a particular field of study; teaching interdisciplinary Women's and Gender Studies; or professional public service for/to women/girls/sexual minorities. The graduate certificate will augment and provide formal recognition to students' work in this area, thereby enhancing their success in the academic and professional job markets.

General Information

The mission of the College of Atmospheric and Geographic Sciences is to provide a world-class academic experience that promotes inclusion, innovation and research, resulting in advanced education and successful career in the private sector, academia, government agencies, and non-governmental organizations.

The college is composed of academic and research units:

Academic Units

- Department of Geography and Environmental Sustainability
- School of Meteorology

Research Units

- Advanced Radar Research Center (ARRC)
- Center for the Analysis and Prediction of Storms (CAPS)
- Center for Spatial Analysis (CSA)
- Cooperative Institute for Mesoscale Meteorological Studies (CIMMS)
- Environmental Verification and Analysis Center (EVAC)
- Oklahoma Alliance for Geographical Education (OKAGE)
- Oklahoma Climatological Survey (OCS)
- Oklahoma Mesonet, the Oklahoma NASA Space Grant Consortium (SCGC)
- South Central Climate Adaptation Science Center (SC-CASC)

Programs Offered

- Department of Geography and Environmental Sustainability (p. 454)
 - Environmental Sustainability: Culture & Society, Bachelor of Arts in Environmental Sustainability (p. 460)

- Environmental Sustainability: Culture & Society, Bachelor of Science in Environmental Sustainability (p. 462)
- Environmental Sustainability: Planning & Management, Bachelor of Arts in Environmental Sustainability (p. 465)
- Environmental Sustainability: Planning & Management, Bachelor of Science in Environmental Sustainability (p. 467)
- Environmental Sustainability: Science & Natural Resources, Bachelor of Arts in Environmental Sustainability (p. 469)
- Environmental Sustainability: Science & Natural Resources, Bachelor of Science in Environmental Sustainability (p. 472)
- Geographic Information Science, Bachelor of Arts in Geographic Information Science (p. 474)
- Geographic Information Science, Bachelor of Science in Geographic Information Science (p. 476)
- Geography, Bachelor of Science in Geography (p. 479)
- Geography: Geohumanities, Bachelor of Arts in Geography (p. 481)
- Geography: Physical & Social Sciences, Bachelor of Arts in Geography (p. 483)
- Environmental Sustainability, Minor (p. 485)
- Geographic Information Systems, Minor (p. 486)
- Geography, Minor (p. 486)
- Hydrologic Science, Minor (p. 486)
- Physical Geography, Minor (p. 487)
- Environmental Sustainability: Planning & Management, Bachelor of Arts in Environmental Sustainability/Master of Regional & City Planning (p. 487)
- Environmental Sustainability: Planning & Management, Bachelor of Science in Environmental Sustainability/Master of Regional & City Planning (p. 490)
- Geographic Information Science, Bachelor of Arts in Geographic Information Science/Master of Regional & City Planning (p. 493)
- Geographic Information Science, Bachelor of Science in Geographic Information Science/Master of Regional & City Planning (p. 495)
- Geography, Bachelor of Science in Geography/Master of Regional & City Planning (p. 498)
- Geography: Physical & Social Sciences, Bachelor of Arts in Geography/Master of Regional & City Planning (p. 501)
- Environmental Sustainability, Master of Science in Environmental Sustainability (p. 503)
- Geography, Master of Arts (p. 504)
- Geography: Geospatial Technologies, Master of Science in Geography (p. 505)
- Physical Geography, Master of Science in Geography (p. 506)
- Geospatial Technologies, Graduate Certificate (p. 507)
- Geography and Environmental Sustainability Doctoral Programs (p. 507)
- School of Meteorology (p. 508)
 - Meteorology, Bachelor of Science in Meteorology (p. 511)
 - Upper-Division Major Elective Course List (p. 514)
 - Meteorology, Minor (p. 515)
 - Weather and Climate, Minor (p. 515)
 - Meteorology, Bachelor of Science in Meteorology/Master of Business Administration (p. 515)

- Meteorology, Bachelor of Science in Meteorology/Master of Science in Data Science and Analytics (p. 518)
- Meteorology, Master of Science in Meteorology (p. 521)
- Meteorology Doctoral Programs (p. 521)

Programs & Facilities

The College of Atmospheric and Geographic Sciences occupies state of the art classroom, laboratory, and research space in multiple locations on the OU campus. The Department of Geography and Environmental Sustainability is headquartered in the Sarkeys Energy Center (SEC) on the OU Main Campus, while the School of Meteorology calls the National Weather Center (NWC) its home on the OU Research Campus. The college's research units are strategically located across the SEC, NWC, as well as in Partner's facilities on the OU Research Campus. Each unit is situated to take full advantage of collaborations that will advance the international leadership role of OU in the atmospheric and geographic sciences.

The Sarkeys Energy Center

The Department of Geography and Environmental Sustainability, the Environmental Verification and Analysis Center (EVAC), and the Oklahoma Alliance for Geographic Education (OKAGE) are housed on floors four, five, and six in the Sarkeys Energy Center (SEC). Classrooms, computer labs, and laboratory facilities are also located in the building.

The National Weather Center

The National Weather Center (NWC) houses University of Oklahoma components and a confederation of state and federal organizations that work together on educational, pure and applied research, and operational activities. The Atmospheric and Geographic Sciences Dean's Office, the School of Meteorology, the Cooperative Institute for Mesoscale Meteorological Studies, the Center for Analysis and Prediction of Storms, the Center for Spatial Analysis, the Natural Hazards and Disaster Prevention Center, and the Oklahoma Climatological Survey are the University of Oklahoma components of the Weather Center. The federal agencies that are part of the Weather Center include: the National Severe Storms Forecast Laboratory, the Storm Prediction Center, the National Weather Service Office (Oklahoma City), the WSR-88D (NEXRAD) Radar Operations Center, and the Warning Decision Training Branch. The National Weather Center programs offer a rich educational and research environment for students pursuing undergraduate and graduate study in meteorology, climate, hydrology, remote sensing, and computer applications. The NWC also houses the NWC Library, which contains almost 4,000 meteorology books and hundreds of government documents in its collection and access to over 50 atmospheric science journals. The NWC Library supports the research, education, outreach and operations missions of all of the entities in the NWC and also supports the wider meteorology community in Norman. For more information, visit the NWC Library's website.

Advanced Radar Research Center (ARRC)

The Advanced Radar Research Center is involved in many aspects of radar research applied to studies of the atmosphere. Topics range from sophisticated radar signal processing to precipitation microphysical studies.

Center for the Analysis and Prediction of Storms (CAPS)

Center for the Analysis and Prediction of Storms develops and demonstrates techniques for the numerical analysis and prediction of high-impact local weather and environmental conditions, with emphasis

on the assimilation of observations from Doppler radars and other advanced in-situ and remote sensing systems.

Center for Spatial Analysis (CSA)
