General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of History, Center for Judaic and

Israel Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Judaic Studies major requirements.

Course	Title	Credit Hours
Freshman

	Credit Hours	15
	Total Credit Hours	120

[1] At least one of these courses must also be an approved **Western Civilization and Culture** General Education course.

Judaic & Israel Studies, Minor

Minimum Total Credit Hours: 15-19
Minimum Upper-Division Hours: 9

Program Code: N608

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Judaic & Israel Studies program.

Required Courses

Students must successfully complete 15-19 hours from courses designated for the Judaic & Israel Studies minor, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
Required Course		
HIST 3973	Judaism - A Religious History	3
Electives		

Choose four courses from the Judaic & Israel Studies Minor Electives list (p. 396)	12-16
Total Credit Hours	15-19

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

General Information

The department was founded in 1929 within the College of Arts and Science by Jesse Lee Rader. The first degree programs offered were the Bachelor of Arts in Library Science, Master of Library Science, and the Master of Arts in Library Science. Both Master's programs were conferred accreditation by the American Library Association in 1956. The name was changed to the School of Library and Information Studies in 1990 to reflect the expanding role of the School in the information age. The School continues to offer the only ALA-accredited Library and Information Studies program in Oklahoma.

The University of Oklahoma School of Library and Information Studies (OU SLIS) educates professionals qualified to meet the challenges of the information society. The ability to generate, access, and use information has become the key factor in personal, social, and economic growth. The expanding global information society requires the free flow of information; and the impact of rapidly changing information and communications technologies is reshaping our personal, educational, and social activities, our organizational and political practices, and our local, national, and international institutions.

Roles, responsibilities, and career opportunities for professionals who can function as creative, information resource managers; act as culturally sensitive guides, navigators and interpreters for local and global users; and produce customized, culturally relevant, value-added services and products for diverse clienteles are expanding.

These professionals will play an increasingly vital role in empowering individuals, organizations, and communities to maximize the benefits of the information age.

Through a forward-looking curriculum and diverse learning environments, the School prepares graduates who have the knowledge, skills, and attitudes necessary to be ethical, culturally aware, and transformative leaders.

Programs & Facilities

Scholarships

Scholarships are awarded competitively on the basis of demonstrated academic merit and potential for leadership. The SLIS Admissions and Scholarships Committee considers all applications for scholarships in the spring of each school year. Applications for student scholarships are due annually on February 1st. Current students are notified of the deadline for scholarships via the School's student email distribution list. Most of the SLIS scholarships are for master's students, but there is one undergraduate scholarship and one doctoral scholarship.

Graduate Student Organization

OLISSA is an American Library Association Student Chapter at the School of Library and Information Studies and a recognized student organization at the University of Oklahoma. OLISSA's mission is to bring library students together with other students, faculty, and library and information professionals. We strive to provide information on the various career paths possible with a library and information studies degree. We

provide students with an opportunity to be active participants in the SLIS program and University of Oklahoma Student Association. The organization's primary purpose is to represent and serve the SLIS student body. Officers are either elected or volunteer to serve each spring. They serve as liaisons between the SLIS students and faculty.

Undergraduate Study

Bachelor of Arts, Information Studies

The Information Studies, Bachelor of Arts is an interdisciplinary degree designed to prepare students to explore and analyze information needs, and deploy appropriate and effective approaches to satisfying those needs. The central theme of the degree is facilitating the link between people and the information they need to succeed. The Information Studies degree focuses on how information impacts and is influenced by societal issues, governmental regulation, policy, and economics, as well as I.T. systems' design, implementation, and management.

BACHELOR OF SCIENCE, INFORMATION SCIENCE AND TECHNOLOGY

Information Science as a discipline revolves around the interactions of people, technology, and information. The Information Science and Technology, Bachelor of Science (p. 403) prepares graduates to be innovative information and technology leaders who can solve current and evolving information science problems.

Bachelor's/Master's Accelerated Program

The Bachelor of Arts/Master of Library and Information Studies (p. 410) accelerated program is designed for exceptional students who wish to begin earning the MLIS in their senior year of the BAIS program. The program is open to all OU students who qualify.

Information Studies Minor

The Information Studies Minor (p. 409) focuses on how information impacts and is influenced by societal issues, governmental regulation, policy, and economics, as well as I.T. systems design, implementation, and management.

Graduate Study

Master of Library and Information Studies (MLIS)

The Master of Library and Information Studies (p. 413) program is designed to educate students at the graduate, professional, and postgraduate levels to provide information services and products in an information-based, pluralistic, global society; prepare graduates to effectively participate in and promote evidence-based practice; and provide leadership, consultation, and guidance to the professional/information communities. The program offers specialized tracks within traditional library settings and supports the development of skills, knowledge, and attitudes required in information agencies and in positions of information management, storage, organization, access, and use within profit and not-for-profit institutions.

Dual Master's Degree Programs

The OU Graduate College allows dual master's degrees to be pursued with any two master's programs that agree to it. In its quest to provide alternative educational opportunities for students wishing to specialize in a variety of areas, the School of Library and Information Studies has developed a number of specialized programs. In addition, the Generic Dual Master's degree program is available for students who wish to earn dual master's degrees not specified by the School.

Graduate Certificates

Graduate certificates can add additional job credentials to those seeking particular types of positions. They signal to employers that the holders of the certificates have concentrated coursework in that specialty.

- Graduate Certificate in Archival Studies (p. 414)
- Graduate Certificate in Digital Humanities (p. 415)
- Graduate Certificate in Data Analytics for Information Professionals (p. 414)

Doctoral Programs

The Information Studies Ph.D. (p. 415) expands SLIS' mission and vision by educating students to thoroughly understand the discipline of information studies; develop expertise in using the various research methods necessary for investigation in the field; conduct effective, sustained research; and understand the ways in which information in all its forms is produced, recorded, organized, preserved, retrieved, communicated, managed, and used. Additionally SLIS seeks to educate researchers that are able to understand the ways in which people's information-related activity shapes - and is shaped by - information technologies, information structures, and information institutions such as libraries, archives, and museums. The answers to the research questions posed in information studies help to improve information systems and services, to guide information policy, and to enrich life in today's information society.

Courses

LIS 1013 Information and Digital Literacy 3 Credit Hours
In this era of "alternative facts" and "fake news" information literacy can help students learn to identify information from disinformation. This course is intended to make students more knowledgeable consumers of information, particularly when using internet resources and social media. Exercises in the use and evaluation of information resources, online searching, information ethics, visual literacy, and copyright/fair use are emphasized. (F, Sp) [I-O].

LIS 2003 Introduction to Information Science 3 Credit Hours
Explores the definition, impact, and history of information and information transmission. Introduces technology used to create, read, store, retrieve and transmit information. Analyzes societal institutions, techniques, and processes for the creation, distribution and management of information. Assesses the role of the information professions and information systems in culture and society. (F, Sp) [III-SS].

LIS 2033 Introduction to Digital Humanities 3 Credit Hours
(Crosslisted with LTRS and HSCI 2033) This course introduces students to digital and/or computational methods in the humanities and addresses critical questions about the role of digital technology in society. This is a collaborative, hands-on, project-based course. (Sp) [IV-WC].

LIS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

LIS 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major or program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

LIS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

LIS 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to the Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field of study. (F, Sp, Su)

LIS 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

LIS 4063 Fundamentals of Information Technology 3 Credit Hours
(Slashlisted with LIS 5063) Prerequisite: junior standing. Students will learn the fundamentals of information technology concepts and applications, understand and utilize emerging technologies to meet society's rapidly changing information needs, and apply these in solving various information problems. No student may earn credit for both 4063 and 5063. (F, Sp)

LIS 4143 Government Information 3 Credit Hours
(Slashlisted with LIS 5143) Prerequisite: junior standing. Introduces students to current policy, technology, and social factors that drive government resource and information production, distribution, and access. Topics include transformation of government information; information discovery skill sets, models, and techniques; evaluation of information use and value; and government information issues (e.g. access, authentication, privatization, preservation). No student may earn credit for both 4143 and 5143. (F)

LIS 4213 Social Informatics 3 Credit Hours
(Slashlisted with LIS 5213) Prerequisite: LIS 2003. Social Informatics analyzes interactions among people and information/communication technologies (ICTs). Issues covered include basic concepts of social systems, ICTs, and their interactions; uses of mobile information technology devices; online interaction and virtual community; information technology and work; and laws and policies related to information technologies. No student may earn credit for both 4213 and 5213. (Sp)

LIS 4223 Project Planning and Management 3 Credit Hours
(Slashlisted with LIS 5223) Prerequisite: LIS 4063 or permission of instructor. Fundamentals of planning, designing, and managing information technology solutions; market and trend analysis; planning and assessment techniques and tolls; human factors in technology management. No student may earn credit for both 4223 and 5223. (Su)

LIS 4303 Children's Literature 3 Credit Hours
Prerequisite: junior standing. Survey, evaluation and selection of materials for children; interests and needs of various age groups; methods of stimulating reading and listening. Reading of books for children is emphasized. (Correspondence)

LIS 4453 Digital Collections 3 Credit Hours
(Slashlisted with LIS 5453) Prerequisite: junior standing. Introduction to the creation and development of digital collections and to the technical requirements for storage and dissemination of digital materials. Topics will include creation, development, organization, maintenance, and use of digital collections. Students will explore a variety of techniques and technologies for digitizing materials; evaluate the strengths and limitations of current efforts in creating, collecting and organizing digital materials; and explore the different opportunities and challenges of digital libraries, repositories, and archives. No student may earn credit for both 4453 and 5453. (Sp)

LIS 4523 Online Information Retrieval 3 Credit Hours
(Slashlisted with LIS 5523) Prerequisite: junior standing. Structure, content, and application of online databases for education, research, business, and public use. Principles and techniques for the evaluation of online databases and services. Document representation, information need specification and query formulation for online information retrieval. No student may earn credit for both 4523 and 5523. (F)

LIS 4613 Dynamic Web Development 3 Credit Hours
(Slashlisted with LIS 5613) Prerequisite: junior or senior standing and LIS 4063. The interactive web design server interaction with special emphasis on database connectivity and application development on the internet. No student may earn credit for both 4613 and 5613.(F)

LIS 4623 Advanced Data Analytics 3 Credit Hours
(Slashlisted with LIS 5623) Prerequisite: Junior or Senior standing, LIS 4643. Application of data analytic theories and models to solve real world problems using various unsupervised and supervised models. Topics include cluster analysis, association rule mining, random forest classifier, neural networks, and naive Bayesian classifiers. No student may earn credit for both 4623 and 5623. (F)

LIS 4633 Design and Implementation of Web-based Information Services 3 Credit Hours
(Slashlisted with LIS 5633) Prerequisite: junior standing. Design fundamentals for web-based information services; information services; implementation of storage, access, and distribution systems; knowledge representation methods; metadata and information structures; connectivity infrastructure; characteristics and behavior of networked audiences; systems use and usability. No student may earn credit for both 4633 and 5633. (F)

LIS 4643 Introduction to Data Analytics 3 Credit Hours
(Slashlisted with LIS 5643) Prerequisite: LIS 2003. Introduces foundational concepts for data analytics. Topics include basic computer programming, statistical understanding and application, data structure, data types, data retrieval from various sources and forms, data cleaning/processing, data visualization, and group manipulations. No student may earn credit for both 4643 and 5643. (F)

LIS 4663 Information Studies Capstone 3 Credit Hours
Prerequisite: 2003, 3003, 4003, 4103, and senior standing. Capstone course for the Bachelor of Arts in Information Studies; design and development of an operational prototype information system in a selected organizational setting. Introduces project management terms, techniques, and effect on the success of information technology projects. (F, Sp, Su) [V] .

LIS 4673 Introduction to Information Visualization 3 Credit Hours
(Slashlisted with LIS 5673) Prerequisite: junior or senior standing. Information visualization is becoming key to LIS, due to the growing need for visual literacy and to the growing demand for data resources in almost all disciplines. Covers basics of developing and evaluating information visualizations and the importance of data accuracy. No student may earn credit for both 4673 and 5673. (F)

LIS 4683 Database Design for Information Organizations 3 Credit Hours
(Slashlisted with LIS 5683) Prerequisite: junior standing. Introduction to the theory and application of database design including information storage and retrieval, data modeling, record structure, data normalization, data security, relational database models, query language, client-server systems, data warehousing and data mining. The social, technological and organizational needs in database design will be examined. No student may earn credit for both 4683 and 5683. (Sp)

LIS 4693 Information Retrieval and Text Mining 3 Credit Hours
(Slashlisted with LIS 5693) Prerequisite: LIS 4063 and LIS 4643, or instructor permission. Identify various sources of textual information in the society and learn different textual data collection methods, understand text analytic processes, understand textual information retrieval models and different text analytic methods to analyze textual information and interpret text analysis results for users' information needs. No student may earn credit for both 4693 and 5693. (Sp)

LIS 4823 Internship in Information Studies 3 Credit Hours
Prerequisite: LIS 4063 and LIS 4633, or permission of instructor and adviser. Provides an opportunity for student synthesis of principles and theories acquired in coursework and application of these principles and theories in a working environment. Under professional supervision, the student will complete 135 hours emphasizing general understanding of the specific assignment and completion of a focused project. (F, Sp)

LIS 4920 Directed Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: LIS 4063 and LIS 4633, or permission of instructor and adviser. May be repeated; maximum credit three hours. Faculty supervised research; requires written report. (Irreg.)

LIS 4940 Directed Project 1-3 Credit Hours
1 to 3 hours. Prerequisite: LIS 4063 and LIS 4633 and senior standing, or permission of instructor and adviser. May be repeated; maximum credit three hours. Faculty supervised design and implementation of an information project that applies principles and theories acquired in coursework to solution of information problems in practical settings. Requires a project prospectus and written report. (Irreg.)

LIS 4960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: Junior standing and permission of instructor. May be repeated; maximum credit three hours. Faculty supervised exploration of an area of information studies not covered in regularly offered courses. (Irreg.)

LIS 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

LIS 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: junior standing and permission of instructor. May be repeated; maximum credit nine hours. Examination and discussion of current problems in information studies. (F, Sp, Su)

LIS 5023 Management in Information Organizations 3 Credit Hours
Prerequisite: Graduate standing, and LIS 5033 or concurrent enrollment. Introduction to managerial principles and practices for information organizations such as libraries and archives, emphasizing financial administration, legal and ethical practices, organizational communication, operational efficiencies, personnel development, and planning processes. (F, Sp)

LIS 5033 Information and Society 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Introduction to conceptual foundations of the information society, including the nature of data, information, and knowledge; the evolution of national and global organizational information infrastructures; and ethical, legal, and social considerations for LIS professionals. (F, Sp)

LIS 5043 Organization of Information 3 Credit Hours
Prerequisite: Graduate standing, and LIS 5033 or concurrent enrollment. Introduction to the organization of internal and external sources of information, information services and tools, basic concepts of information storage and retrieval systems, and design and structure of information systems. Students will become familiar with organization methods such as classification, cataloging, taxonomies and metadata, and how the organization of information is connected to information retrieval. (F, Sp)

LIS 5053 Information Seeking and Use 3 Credit Hours
Prerequisite: Graduate standing, and LIS 5033 or concurrent enrollment. The course teaches information seeking and use by people in various roles, situations, and contexts, individually and in groups. The course examines information behavior through psychological, sociological, and political perspectives, examining theory and applying it to practical, real-life information environments. (F, Sp)

LIS 5063 Fundamentals of Information Technology 3 Credit Hours
(Slashlisted with LIS 4063) Prerequisite: Graduate standing, and LIS 5033 or concurrent enrollment. Students will learn the fundamentals of information technology concepts and applications, understand and utilize emerging technologies to meet society's rapidly changing information needs, and apply these in solving various information problems. No student may earn credit for both 4063 and 5063. (F, Sp)

LIS 5123 Literature and Methods For Readers' Advisory Services 3 Credit Hours
Prerequisites: 5033 and 5053. Examination of value and role of leisure reading in U.S. public libraries; interview techniques, support processes, and bibliographic resources for providing services to adults and older adolescent readers. (Irreg.)

LIS 5133 Biomedical Bibliography and Reference Materials 3 Credit Hours
Prerequisite: LIS 5033 or permission of instructor. Provides an in-depth study of the organization of medical reference departments; reference sources in the health sciences; and the major textbooks in the basic sciences, clinical sciences, and related specialties. Medical audiovisuals, periodicals, indexes and abstracts are included as is automated searching of medical literature. Basic medical terminology is an integral part of the course and given special consideration. (F)

LIS 5143 Government Information 3 Credit Hours
(Slashlisted with LIS 4143) Prerequisite: LIS 5033 or permission of instructor. Introduces students to current policy, technology, and social factors that drive government resource and information production, distribution, and access. Topics include transformation of government information; information discovery skill sets, models, and techniques; evaluation of information use and value; and government information issues (e.g. access, authentication, privatization, preservation). No student may earn credit for both 4143 and 5143. (F)

LIS 5163 Biomedical Databases 3 Credit Hours
Prerequisite: LIS 5133 or permission of instructor. An in-depth approach to the on-line databases supplied by the National Library of Medicine and to the biomedical databases supplied by commercial companies. Deals with all aspects of searching, including the development of effective policies and procedures. Differences and similarities among the databases are emphasized. (F)

LIS 5173 Diversity Fundamentals in LIS 3 Credit Hours
Prerequisite: LIS 5033. Awareness of, and sensitivity to, diverse groups and multicultural heritages; information needs of multiethnic and diverse populations; information needs assessment and analysis; program and service planning. (Su)

LIS 5183 Information Resources and Services for Children 3 Credit Hours
Prerequisite: LIS 5033. Course covers childhood development and information needs of children; children's information behavior, learning, and reading; contemporary children's literature; digital media and technology; early literacy, information literacy, and 21st-century skills; selection/evaluation of information resources; information services for children; and 21st-century trends in children's services. (F)

LIS 5193 Information Resources and Services for Young Adults 3 Credit Hours
Prerequisite: LIS 5033. Covers developmental characteristics and information needs of young adults; young adults' information behavior, learning, and reading; contemporary young adult literature; digital media and technology; information literacy and 21st-century skills; selection/evaluation of information resources; information services for young adults; and 21st-century trends in youth services. (Sp)

LIS 5203 Leadership in Information Organizations 3 Credit Hours
Prerequisite: Graduate standing, and LIS 5023, LIS 5033 or concurrent enrollment; or permission of instructor. Advanced leadership skills for information organizations such as libraries and archives, emphasizing organizational analysis, planning, and assessment, as well as the development of appropriate organizational leadership styles. (F, Sp)

LIS 5213 Social Informatics 3 Credit Hours
(Slashlisted with LIS 4213) Prerequisite: graduate standing. Social Informatics analyzes interactions among people and information/communication technologies (ICTs). Issues covered include basic concepts of social systems, ICTs, and their interactions; uses of mobile information technology devices; online interaction and virtual community; information technology and work; and laws and policies related to information technologies. No student may earn credit for both 4213 and 5213. (Sp)

LIS 5223 Project Planning and Management 3 Credit Hours
(Slashlisted with LIS 4223) Prerequisite: Graduate standing, LIS 5033, and LIS 5063; or permission of instructor. Fundamentals of planning, designing, implementing, and managing information technology solutions; market and trend analysis; planning and assessment techniques and tools; human factors in technology management. No student may earn credit for both 4223 and 5223. (Su)

LIS 5233 Oklahoma Information Environment 3 Credit Hours
Prerequisite: LIS 5033 or permission of school. Interaction between information and culture in the state of Oklahoma with emphasis on information needs, resources, and challenges; research collections; public libraries; tribal libraries and tribal colleges; digital technologies; in-depth exploration of library, museum, archival, and other information services and resources for Oklahomans. (Su)

LIS 5253 Community Relations and Advocacy 3 Credit Hours
Prerequisite: LIS 5023, LIS 5033. Examination of the communication process by which the library/information center personnel satisfy user needs and provide/transmit information about the program objectives and functions to develop public awareness and support. Involves as audiences: the users, the library/information center staff, general public, governance entities, political representatives, educational and service agencies, and professional organizations. (F)

LIS 5283 School Library Administration 3 Credit Hours
Prerequisite: LIS 5023 and LIS 5033. History and role of school libraries in the educational program; planning, organizing and administering library programs in the elementary and secondary schools. (Sp)

LIS 5343 Archival Concepts and Traditions 3 Credit Hours
Prerequisite: LIS 5033. Introduction to the principles and practice of collecting, servicing, and arranging archival holdings. Includes appraisal, acquisition, arrangement and description, preservation, and administration of institutional archives. Attention to issues of preservation, intellectual property, and service in both physical and digital environments. (Sp alternating semesters)

LIS 5403 Cataloging and Classification 3 Credit Hours
Prerequisite: 5033, 5043. Detailed study of principles and practices of cataloging and classification according to current standards. Instruction covers original descriptive cataloging, subject analysis and classification. (alt. F, irreg. Su)

LIS 5413 Indexing and Abstracting 3 Credit Hours
Prerequisite: graduate standing, LIS 5033 and LIS 5043. History, principles, techniques and applications of indexing, abstracting, and vocabulary control. Includes file organization and maintenance, information representation and coding, natural language processing, and thesaurus construction. (Irreg.)

LIS 5443 Collection Development and Management 3 Credit Hours
Prerequisite: LIS 5033 and LIS 5043. Examination of the acquisition and evaluation processes used for building and maintaining collections in all formats. Formulation and implementation of collection development policies, identification of user needs, selection methods and tools, storage alternatives, publishing and intellectual freedom, administrative and legal issues including licensing and contract negotiation. (F)

LIS 5453 Digital Collections 3 Credit Hours
(Slashlisted with LIS 4453) Prerequisite: LIS 5033, LIS 5043, LIS 5063. Introduction to the creation and development of digital collections and to the technical requirements for storage and dissemination of digital materials. Topics will include creation, development, organization, maintenance, and use of digital collections. Students will explore a variety of techniques and technologies for digitizing materials; evaluate the strengths and limitations of current efforts in creating, collecting and organizing digital materials; and explore the different opportunities and challenges of digital libraries, repositories, and archives. No student may earn credit for both 4453 and 5453. (Sp)

LIS 5463 Archival Representation and Use 3 Credit Hours
Prerequisite: LIS 5033 or permission of instructor. Introduction to the principles and practices of collecting, servicing, and arranging archival holdings. Includes elements of appraisal, acquisition, and preservation with significant focus on archival arrangement, description, and administration of institutional archives. (Sp)

LIS 5473 Document and Records Management 3 Credit Hours
Prerequisite: graduate standing, LIS 5033 and LIS 5043. The systematic capture, acquisition, and processing, storage, and control of documents in all formats, including their management as records throughout the life cycle from creation to final disposition. Introduction to principles, methodologies, administration, tools, and techniques in various settings. (Irreg.)

LIS 5503 Information Literacy and Instruction 3 Credit Hours
Prerequisites: 5033 and 5053. Instructional methods and materials for the acquisition and development of information literacy skills; theories of instruction and current trends in information literacy instruction. (Irreg.)

LIS 5513 Information Sources and Services 3 Credit Hours
Prerequisite: 5033, 5053. Characteristics and use of information sources and systems; policies and procedures for the provision of user-centered service in libraries and other information agencies. Introduction to basic reference tools in both print and electronic formats. (F, Sp, irreg. Su)

LIS 5523 Online Information Retrieval 3 Credit Hours
(Slashlisted with LIS 4523) Prerequisite: LIS 5033 and LIS 5053. Structure, content, and application of online databases for education, research, business, and public use. Principles and techniques for the evaluation of online databases and services. Document representation, information need specification and query formulation for online information retrieval. No student may earn credit for both 4523 and 5523. (F)

LIS 5533 Foundations of Learning Sciences 3 Credit Hours
(Crosslisted with EIPT 5533) Prerequisite: Graduate standing or permission of instructor. Learning Sciences is an interdisciplinary approach to investigating, understanding, and supporting learning. It draws on diverse fields and methodologies. The goal of this class is to develop a critical orientation with regard to how we use them in integrated, meaningful, contextual, and ethical ways, in service to learners and society. (F)

LIS 5563 Archival Appraisal 3 Credit Hours
Prerequisite: LIS 5033. Evaluation and examination of contributions of key figures in development of archival appraisal theory; identification and evaluation of distinct movements in archival appraisal; identification of cultural, political, sociological, and technological movements that can have impact on appraisal methodologies; and development of effective appraisal strategies for a variety of communities. (F even-numbered years)

LIS 5613 Dynamic Web Development 3 Credit Hours
(Slashlisted with LIS 4613) Prerequisite: graduate standing and LIS 4603 or LIS 5603. The interactive web design server interaction with special emphasis on database connectivity and application development on the internet. No student may earn credit for both 4613 and 5613. (F)

LIS 5623 Advanced Data Analytics 3 Credit Hours
(Slashlisted with LIS 4623) Prerequisite: Graduate standing and LIS 5643. Application of data analytic theories and models to solve real world problems using various unsupervised and supervised models. Topics include cluster analysis, association rule mining, random forest classifier, neural networks, and naive Bayesian classifiers. No student may earn credit for both 4623 and 5623. (F)

LIS 5633 Design and Implementation of Web-based Information Services 3 Credit Hours
(Slashlisted with LIS 4633) Prerequisite: LIS 5033. Design fundamentals for web-based information services; information services; implementation of storage, access, and distribution systems; knowledge representation methods; metadata and information structures; connectivity infrastructure; characteristics and behavior of networked audiences; systems use and usability. No student may earn credit for both LIS 4633 and LIS 5633. (F)

LIS 5643 Introduction to Data Analytics 3 Credit Hours
(Slashlisted with LIS 4643) Prerequisite: LIS 5033. Introduces foundational concepts for data analytics. Topics include basic computer programming, statistical understanding and application, data structure, data types, data retrieval from various sources and forms, data cleaning/processing, data visualization, and group manipulations. No student may earn credit for both 4643 and 5643. (F)

LIS 5653 Preservation of Information Materials 3 Credit Hours
Prerequisite: graduate standing and LIS 5033. Theory and practice of the preservation and conservation of intellectual content and physical artifacts, including paper, microform, and digital records. Emphasis on planning and administering disaster prevention and recovery, preservation, and digitization programs. (Alt. Sp, Irreg. Su)

LIS 5673 Introduction to Information Visualization 3 Credit Hours
(Slashlisted with LIS 4673) Prerequisite: graduate standing and LIS 5033. Information visualization is becoming key to LIS, due to the growing need for visual literacy and to the growing demand for data resources in almost all disciplines. Covers the basics of developing and evaluating information visualizations and the importance of data accuracy. (F)

LIS 5683 Database Design for Information Organizations 3 Credit Hours
(Slashlisted with LIS 4683) Prerequisite: graduate standing and LIS 5033. Introduction to the theory and application of database design including information storage and retrieval, data modeling, record structure, data normalization, data security, relational database models, query language, client-server systems, data warehousing and data mining. The social, technological and organizational needs in database design will be examined. No student may earn credit for both 4683 and 5683. (Sp)

LIS 5693 Information Retrieval and Text Mining 3 Credit Hours
(Slashlisted with LIS 4693) Prerequisite: Graduate standing; LIS 5063 and LIS 5643, or permission of instructor. Identify various sources of textual information in the society and learn different textual data collection methods. Understand text analytic processes, textual information retrieval models, and different text analytic methods to analyze textual information and interpret text analysis results for users' information needs. No student may earn credit for both 4693 and 5693. (Sp)

LIS 5713 Research and Evaluation Methods 3 Credit Hours
Prerequisites: LIS 5033. Methods of investigating library and information (LIS) problems; use of evaluation in planning for continuous quality assessment and improvement of LIS policies, processes, and procedures; development of original research designs; evaluation of research studies in LIS. (F, Sp)

LIS 5823 Internship in Library/Information Centers 3 Credit Hours
Prerequisite: 18 hours of LIS coursework, including one-half of the required courses, permission of the supervising instructor. Provides an opportunity for student synthesis of principles and theories acquired in coursework and application of these principles and theories in an outstanding library/information center. Under professional supervision, the student will complete 135 hours. (F, Sp, Su)

LIS 5920 Directed Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and LIS 5713, permission of instructor and adviser. May be repeated; maximum credit six hours. Research under faculty supervision; requires a written report. (F, Sp, Su)

LIS 5940 Directed Project 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and 24 hours of LIS coursework and permission of instructor and adviser. May be repeated; maximum credit three hours. Design and implementation of a professional project that applies principles and theories acquired in coursework to the solution of professional problems in practical settings. Requires a project prospectus and a written report at conclusion of the project. Conducted under faculty supervision. May not be taken for credit toward the MLIS degree by students electing thesis option. (Irreg.)

LIS 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and 15 hours of LIS coursework and permission of instructor and adviser. May be repeated; maximum credit six hours. Exploration of an area of library and information studies not covered in regularly offered course. (F, Sp, Su)

LIS 5970 Special Topics/Seminar 1-3 Credit Hours
Prerequisite: 1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg).

LIS 5980 Research for Master's Thesis 2-9 Credit Hours
Prerequisite: graduate standing and permission of instructor. Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

LIS 5990 Special Problems 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Examination and discussion of current problems in librarianship. (Irreg.)

LIS 6033 Intellectual Traditions in Information Studies 3 Credit Hours
Prerequisite: graduate standing and permission of school. Introduces students to the main philosophical traditions of research and scholarship that currently inform inquiry in Information Studies. (F)

LIS 6503 Information Behavior 3 Credit Hours
Prerequisite: graduate standing and permission of school. Information use by individuals and groups in various roles, situations, and contexts. Influences of learning and cognitive processes; value systems; and situational, psychological, sociological, and political perspectives on information behavior. Application of user studies to textual, graphical, and visual representation of information. Study of theoretical models and practical methodologies in information systems. (Sp)

LIS 6543 Social and Community Informatics 3 Credit Hours
Prerequisite: graduate standing and permission of school. Analysis of interactions among people, information/communication technologies (ICTs), and local social settings. Effects of social and technical contexts on the design, implementation, and evaluation of ICTs. Social systems and community contexts, ICTs, and their interactions; uses of mobile information technologies; online interaction and virtual community; information technology and work; and, organizational/institutional information technologies laws and policies. (F)

LIS 6553 Critical Information Studies 3 Credit Hours
Prerequisite: graduate standing and permission of school. Introduces students to Critical Theory. It examines the idea of immanent critique developed within the Frankfurt School and how critical theory informs inquiry in Information Studies. (Sp)

LIS 6713 Research Methods and Design in Information Studies 3 Credit Hours
Prerequisite: graduate standing and permission of school. A survey of quantitative, qualitative, and historical research designs. Topics covered include ethical issues; conceptualization and measurement; sampling; surveys; and data analysis. (Sp)

LIS 6920 Directed Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of school. May be repeated; maximum credit 12 hours. Students will prepare a proposal and have it approved by the SLIS faculty member who will direct the study and their SLIS faculty adviser prior to registration. (F, Sp)

LIS 6962 Doctoral Seminar 2 Credit Hours
Prerequisite: Graduate standing, majors only, and departmental permission. May be repeated with change of content; maximum credit 8 hours. Serves as a venue for the development of a variety of skills and capacities to succeed as a scholar. Offers a mix of sessions on progression through the Ph.D. degree program, the research process, guidance on the academic profession, and written and oral presentation of scholarly research. (F, Sp)

LIS 6970 Special Topics in the Theory of Information Studies 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of school. May be repeated with change of subject matter; maximum credit six hours. Topics in information studies for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (F)

LIS 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. (F, Sp, Su)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Abbas	June	M	2008	PROFESSOR OF LIBRARY AND INFORMATION STUDIES, 2013	PhD, Univ of North Texas, 2001; MLS, Emporia State, 1998; BA, Saint Mary College, 1996
Burke	Susan	K	2004	ASSOCIATE PROFESSOR OF LIBRARY AND INFORMATION STUDIES, 2010; DIRECTOR, SCHOOL OF LIBRARY AND INFORMATION STUDIES, 2017	PhD, Texas Woman's Univ, 2001; MS, Univ of Illinois, 1988; AB, Univ of Illinois, 1984
Kim	Yong-Mi		2006	ASSOCIATE PROFESSOR OF LIBRARY AND INFORMATION STUDIES AT TULSA, 2012	PhD, Univ of Oklahoma, 2005; PhD, Florida Atlantic Univ, 1998; MPA, Univ of Southern California, 1994; MPA, Ewha Womans Univ, 1989; BS, Han Nam Univ, 1986
Lu	Kun		2013	ASSISTANT PROFESSOR OF LIBRARY AND INFORMATION STUDIES, 2013	PhD, Univ of Wisconsin, 2012; MS, Wuhan Univ, 2008; BS, Wuhan Univ, 2006

Martens	Betsy	V	2006	ASSOCIATE PROFESSOR OF LIBRARY AND INFORMATION STUDIES AT TULSA, 2011	PhD, Syracuse Univ, 2004; MBA, Florida Atlantic, 1986; MLS, Syracuse Univ, 1978; BA, Regis Univ, 1975
Rubenstein	Ellen	L	2011	ASSOCIATE PROFESSOR OF LIBRARY AND INFORMATION STUDIES, 2018	PhD, Univ of Illinois, 2011; MA, Indiana Univ, 2006; BA, SUNY at Fredonia, 1978
White	Kelvin	L	2014	ADJUNCT ASSISTANT PROFESSOR OF NATIVE AMERICAN STUDIES, 2010; ASSOCIATE PROFESSOR OF LIBRARY AND INFORMATION STUDIES, 2014	PhD, Univ of California Los Angeles, 2008; MA, Univ of California Los Angeles; BA, Texas Southern Univ

Information Science and Technology, B.S.

Minimum Total Credit Hours: 120
Major Hours: 45
Minimum Upper-Division Hours: 48
Upper-Division Hours Within Major: 27
Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B557

Major Requirements

Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.

A grade of C or better is required in each major course. LIS prefix courses must be completed within a maximum of two attempts per course.

Code	Title	Credit Hours
Information Science and Technology Core		
LIS 2003	Introduction to Information Science	3
LIS 4063	Fundamentals of Information Technology	3
LIS 4643	Introduction to Data Analytics	3
LIS 4683	Database Design for Information Organizations	3
LIS 4823	Internship in Information Studies	3
LIS 4663	Information Studies Capstone	3
Data Science & Analytics		
Choose 6 hours (p. 405) [1]		6
Design & Development		
Choose 6 hours (p. 405) [1]		6
Information & People

Major Support Requirements

Code	Title	Credit Hours
Economics		
ECON 1113	Principles of Economics-Macro	3
ECON 1123	Principles of Economics-Micro	3
Math Prerequisite (3 hours) [1]		
MATH 1643	Functions and Modeling for Business, Life and Social Sciences	3
Calculus		
MATH 1743	Calculus I for Business, Life and Social Sciences	3
Public Speaking		
COMM 2613	Public Speaking	3
Programming Concepts		
C S 1313	Programming for Non-Majors with C	3
Statistics		
Choose one course (3 hours) from the Statistics Major Support course list. (p. 403)		3
Additional Math or Statistics		
Choose one course (3 hours) from the following:		3
ECON 4223	Econometric Analysis	
MATH 2123	Calculus II for Business, Life and Social Sciences	
MATH 4793	Advanced Applied Statistics	
Total Credit Hours		24

[1] Students may test out of the prerequisite course and take only MATH 1743.

Statistics Major Support Course List

Code	Title	Credit Hours
ANTH 4713	Statistical Concepts in Anthropology	3
BIOL 2913	Intro to Quantitative Biology	3
COMM 2513	Introduction to Statistics	3
ECON 2843	Elements of Statistics	3
MATH 4753	Applied Statistical Methods	3
SOC 3123	Social Statistics	3
PSY 2003	Understanding Statistics	3

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or School of Library and Information Studies academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Information Science & Technology major requirements.

Course	Title	Credit Hours
Freshman		
First Semester

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3

Core Area IV: Humanities (18 hours)	
Understanding Artistic Forms	
Choose one course from the General Education Artistic Forms list	3
Western Civilization and Culture	
HIST 1483 United States to 1865 or HIST 1493 United States, 1865 to the Present	3
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)	3
Non-Western Culture	
Choose one course from the General Education Non-Western Culture list	3
Additional Core IV Upper-Division Humanities courses	
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]	3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]	3
Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or School of Library and Information Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Information Studies major requirements.

Information Studies, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N560

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the School of Library and Information Studies.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course presented for minor credit.

Code	Title	Credit Hours
Required Courses		
LIS 2003	Introduction to Information Science	3
LIS 4063	Fundamentals of Information Technology	3
LIS 4643	Introduction to Data Analytics	3
LIS 4683	Database Design for Information Organizations	3

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Archival Studies, Graduate Certificate

Minimum Total Hours: 12

Program Code: G021

The graduate certificate is a 12-credit hour (four course) program embedded within the Master of Library and Information Studies. It provides a focused specialization and an indication of expertise in archival theory and practice. It provides a formal indication of training which endorses the abilities and knowledge of the certificate holders.

Certificate Requirements

Code	Title	Credit Hours
LIS 5343	Archival Concepts and Traditions	3
LIS 5563	Archival Appraisal	3
Select 6 hours from the following:		6
LIS 5463	Archival Representation and Use	
LIS 5473	Document and Records Management	
LIS 5653	Preservation of Information Materials	
LIS 5970	Special Topics/Seminar (Topic: Digital Curation)	
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Data Analytics for Information Professionals, Graduate Certificate

Minimum Total Hours: 12

Program Code: G300

The graduate certificate is a 12-credit hour (four course) program embedded within the Master of Library and Information Studies. The certificate provides a formal indicator of skills and affirms the holder's capabilities to manage big data, analyze data, and interpret the findings.

Certificate Requirements

Code	Title	Credit Hours
LIS 5643	Introduction to Data Analytics	3
LIS 5623	Advanced Data Analytics	3
Select 6 hours from a list of approved electives maintained by the School of Library & Information Studies (p. 414)		6
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Data Analytics for Information Professionals Elective List

For the most current list of approved electives for this Graduate Certificate, please consult with the School of Library and Information Studies.

Code	Title	Credit Hours
LIS 5063	Fundamentals of Information Technology	3
LIS 5673	Introduction to Information Visualization	3
LIS 5683	Database Design for Information Organizations	3
LIS 5970	Special Topics/Seminar (Topic: Information Retrieval and Text Mining)	3
LIS 5970	Special Topics/Seminar (Topic: Data Stewardship)	3

Digital Humanities, Graduate Certificate

Minimum Total Hours: 12

Program Code: G315

The Graduate Certificate in Digital Humanities provides a pathway for individuals working in the humanities, social sciences, and the sciences to advance their understanding of how potentially transformative methods, tools, models, applications, and theoretical frameworks are being put to use in expanding the scope and scale of inquiry in the humanities disciplines. The certificate consists of 12 credit hours (four courses).

Certificate Requirements

Code	Title	Credit Hours
Required Introductory Course		
HSCI 5613	Issues and Methods in the Digital Humanities	3
Guided Electives [1]		
Choose two electives from a list of approved courses maintained by the SLIS (p. 415)		6
Required Independent Course		
Choose one of the following:		3
HSCI 5623	Practicum/Internship in the Digital Humanities	
LIS 5823	Internship in Library/Information Centers	
LIS 5940	Directed Project	
Total Credit Hours		12

[1] One course other than the independent course will be outside of the student's home academic unit.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Approved Digital Humanities Elective Courses

Code	Title	Credit Hours
A HI 6423	Topics in American Art History (Topic: Visual Culture in Theory & Practice)	3
C S 5093	Visual Analytics	3
ENGL 5463	Rhetoric & Technology	3
LIS 5343	Archival Concepts and Traditions	3
LIS 5453	Digital Collections	3
LIS 5613	Dynamic Web Development	3
LIS 5643	Introduction to Data Analytics	3
LIS 5673	Introduction to Information Visualization	3
LIS 5970	Special Topics/Seminar (Topic: Digital Curation)	3

Information Studies, Ph.D.

Minimum Total Hours: 90

Program Code: D535

Program Requirements

Code	Title	Credit Hours
Major Core (9 hours)		
LIS 6033	Intellectual Traditions in Information Studies	3
LIS 6713	Research Methods and Design in Information Studies	3
LIS 6970	Special Topics in the Theory of Information Studies	3
Additional Methodology Courses Outside SLIS (6 hours)		
Two additional methodology courses selected from a list maintained by the School of Library & Information Studies		6
Major Specialization (12 hours)		
Four courses focused on creating a major area of specialization, as approved by committee chair and graduate liaison. [1]		12
Doctoral Seminar (8 hours)		
LIS 6962	Doctoral Seminar (2 hours per semester for four semesters)	8
Guided Electives (12 hours) [2]		
6 hours from 6000-level LIS courses		6
6 hours of graduate coursework offered outside of SLIS		6
General Electives (30-33 hours)		**30-33**
Must be approved by committee and graduate liaison. Up to 30 hours may be credited from a prior master's degree in a related field (with permission of committee chair and graduate liaison).		
Dissertation Research (10-13 hours)		
LIS 6980	Research for Doctoral Dissertation	10-13
Total Credit Hours		90

[1]This can be 4 semesters of LIS 6920, Directed Research, to create a specialization in research.

[2]It is recommended that these courses are chosen carefully with a view to (a) acquiring the knowledge and skills necessary for designing and implementing a research study in the student's area of interest, and/or (b) exploring a particular cognate area relating to the student's research interests and becoming acquainted with faculty who may serve as external dissertation committee members.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

General Information

Mathematics students are well trained for a number of career fields, including architecture, economics, computer programming, education, meteorology and financial planning. The variety of coursework in the Mathematics program prepares students to work for companies such as Microsoft, IBM Global, NASA and Proctor and Gamble as well as the U.S. government. The OU Department of Mathematics offers students a flexible liberal arts education with multiple degree options. The Mathematics degree is perfect for students who have a general interest in math, because it gives them the opportunity to study an array of math-related topics.

Programs & Facilities

Math Club

The Math Club meets throughout each semester to host a variety of talks, campus visits, and field trips.

Scholarships

The Mathematics Department has a number of endowed scholarship funds to support its undergraduate majors. All math majors are encouraged to apply. Application forms will be accepted in March each year.

Graduate Student Support

Extensive support is available for students enrolled in a graduate program in Mathematics. The department has a limited number of fellowships available; all students are automatically considered for these fellowships. Although both teaching and research assistantships are available, incoming students are generally considered only for graduate teaching assistant appointments.

Undergraduate Study

Major Programs

The student whose major interest is in mathematics may work either for the standard degree of Bachelor of Arts (p. 424) or the professional degree of Bachelor of Science (p. 426). The Bachelor of Arts degree provides a well-rounded liberal arts degree preparing students for a wide variety of career paths. The Bachelor of Science in Mathematics Professional Degree is a rigorous undergraduate mathematics degree. This challenging program will prepare student to pursue graduate studies in mathematics or mathematically intensive subjects.

Accelerated Programs

The Mathematics & Biostatistics, Bachelor of Science/Master of Science is a five-year dual-degree program in conjunction with the Department of Biostatistics and Epidemiology at the OU Health Sciences Center. The program leads to a Mathematics Bachelor of Science and a Biostatistics Master of Science.

Minor in Mathematics

Students may also pursue a Minor in Mathematics (p. 428).

Teacher Certification

Students who wish to pursue a career teaching mathematics may be interested in the Bachelor of Science in Education (p. 1016) degree from the College of Education specializing in Mathematics. This program can also be combined with your teaching certification for middle and high school.

Graduate Study

Master's Programs

The department has two different master's degree programs. The Master of Arts (p. 431) degree is particularly suitable for students who may want to pursue a doctorate or who are interested in teaching at the college level. The Master of Science (p. 431) degree emphasizes applications of mathematics. The dual degree program addresses the increasing need of mathematics in business and management.

Doctoral Programs

In order to be admitted to the Ph.D. program (p. 432) in mathematics, a student should first have completed a master's degree or equivalent. A total of at least 90 hours beyond the baccalaureate degree is required for this degree.

- **PhD Program (traditional option)**. The student's ultimate goal in this program is to write and defend a dissertation representing an original contribution to research in mathematics. This research is conducted under the guidance of a faculty member (PhD advisor). A wide variety of research interests is represented in the Mathematics Department.
- **PhD Program (RUME option)**. The student's ultimate goal in this program is to write and defend a dissertation representing an original contribution to research in undergraduate mathematics education. The student's PhD degree will however still be in mathematics, not mathematics education. RUME students take many of the same classes taken by students in the traditional option of the PhD program.

Courses

MATH 0999 Remedial Transfer Credit 10 Credit Hours
This is not a course offered at the University of Oklahoma. It is used to denote remedial transfer credit for which there is no OU equivalent course.

MATH 1473 Mathematics for Critical Thinking 3 Credit Hours
Prerequisite: "C" or better in DMAT 0123 at OU, or satisfactory score on the math assessment. A study of the mathematics needed for the critical evaluation of quantitative information and arguments including logic, critical appraisal of graphs and tables; use of simple mathematical models and an introduction to elementary statistics. (F, Sp, Su) [I-M].

MATH 1503 College Algebra 3 Credit Hours
Prerequisite: "C" or better in DMAT 0123 at OU, or satisfactory score on the math assessment. Review of basic algebraic skills such as multiplying and factoring polynomials, rational expressions, linear equations and inequalities, exponents and radicals, absolute values. Other topics include the concept, notation, and algebra of functions, functions of linear, polynomial, rational, exponential, and logarithmic type, systems of equations. A student may not receive credit for this course and 1643. (F, Sp, Su) [I-M].

MATH 1523 Precalculus and Trigonometry 3 Credit Hours
Prerequisite: 1503 at OU, or satisfactory score on the math assessment. Review of function concepts. Topics covered include properties of functions, exponential and logarithmic functions, trigonometric functions and their inverses by unit circle and triangle approaches, trigonometric equations and identities, simple conic sections, polar coordinates, Demoivre's theorem, discrete algebra, induction, limits and continuity. (F, Sp, Su) [I-M].

MATH 1643 Functions and Modeling for Business, Life and Social Sciences 3 Credit Hours
Prerequisite: "C" or better in DMAT 0123 at OU, or satisfactory score on the math assessment. Study of equations and functions (linear, polynomial, rational, exponential, logarithmic) from various perspectives (symbolic, verbal, numerical, graphical); digital techniques for graphing functions, solving equations, and modeling data using regressions. This course is designed for students in agricultural, business, life/health sciences, or social science majors. A student may not receive credit for this course and 1503. (F, Sp, Su) [I-M] (F, Sp, Su) [I-M].

MATH 1743 Calculus I for Business, Life and Social Sciences 3 Credit Hours
Prerequisite: 1523 or 1643 at OU, or satisfactory score on the math assessment. Topics in differentiation and integration of polynomial, exponential and logarithmic functions. Applications to the business, life and social sciences. A student may not receive credit for this course and 1823. (F, Sp, Su) [I-M].

MATH 1823 Calculus and Analytic Geometry I 3 Credit Hours
Prerequisite: 1523 at OU, or satisfactory score on the math assessment. Topics covered include equations of straight lines; conic sections; functions, limits and continuity; differentiation; maximum-minimum theory and curve sketching. A student may not receive credit for this course and 1743. (F, Sp, Su) [I-M].

MATH 1914 Differential and Integral Calculus I 4 Credit Hours
Prerequisite: Grade of C or better in MATH 1823 or satisfactory score on the math assessment. Duplicates three hours of MATH 1823 and one hour of MATH 2423. Limits and continuity, differentiation, applications of differentiation to optimization and curve sketching, integration, the fundamental theorem of calculus, the substitution rule, applications of integration to computation of areas and volumes. (F, Sp, Su) [I-M].

MATH 2123 Calculus II for Business, Life and Social Sciences 3 Credit Hours
Prerequisite: 1743. Differentiation and integration of exponential and logarithmic functions; simple differential equations; partial derivatives; double integrals, probability. Applications to the business, life and social sciences. A student may not receive credit for this course and 2423. (Sp) [I-M].

MATH 2213 Mathematical Systems 3 Credit Hours
Prerequisite: plane geometry, intermediate algebra, enrollment in an appropriate elementary teachers' program. A systematic analysis of arithmetic and a presentation of intuitive algebra and geometry. Not open to students in the University College. (F, Sp, Su)

MATH 2223 Data Analysis and Geometric Systems 3 Credit Hours
Prerequisite: 0123 at OU or satisfactory score on math placement test and admission to 0802A, 0808A, or 0823A degree programs. Algebra and the structure of number systems, functional relationships, informal geometry. Course is not open to students in University College. (F, Sp)

MATH 2423 Calculus and Analytic Geometry II 3 Credit Hours
Prerequisite: MATH 1823 or MATH 1914. Integration and its applications; the calculus of transcendental functions; techniques of integration; and the introduction to differential equations. A student may not receive credit for this course and 2123. (F, Sp, Su) [I-M].

MATH 2433 Calculus and Analytic Geometry III 3 Credit Hours
Prerequisite: MATH 2423 or MATH 2924. Polar coordinates, parametric equations, sequences, infinite series, vector analysis. (F, Sp, Su)

MATH 2443 Calculus and Analytic Geometry IV 3 Credit Hours
Prerequisite: 2433. Vector calculus; functions of several variables; partial derivatives; gradients, extreme values and differentials of multivariate functions; multiple integrals; line and surface integrals. (F, Sp, Su)

MATH 2513 Discrete Mathematical Structures 3 Credit Hours
Prerequisite: MATH 2423 or MATH 2924 or concurrent enrollment.
A course for math majors or prospective math majors. Provides an introduction to discrete concepts such as finite sets and structures, and their properties and applications. Also exposes students to the basic procedures and styles of mathematical proof. Topics include basic set theory, functions, integers, symbolic logic, predicate calculus, induction, counting techniques, graphs and trees. Other topics from combinatorics, probability, relations, Boolean algebras or automata theory may be covered as time permits. (F, Sp, Su)

MATH 2924 Differential and Integral Calculus II 4 Credit Hours
Prerequisite: 1914 with a grade of C or better. Duplicates two hours of 2423 and two hours of 2433. The natural logarithmic and exponential functions, indeterminate forms, techniques of integration, improper integrals, parametric curves and polar coordinates, infinite sequences and series, vectors in two and three dimensions. (F, Sp, Su)

MATH 2934 Differential and Integral Calculus III 4 Credit Hours
Prerequisite: 2924 with grade of C or better. Duplicates one hour of 2433 and three hours of 2443. Vectors and vector functions, functions of several variables, partial differentiation and gradients, multiple integration, line and surface integrals, Green-Stokes-Gauss theorems. (F,Sp,Su)

MATH 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MATH 3113 Introduction to Ordinary Differential Equations 3 Credit Hours
Prerequisite: MATH 2423 or MATH 2924. Duplicates two hours of 3413. First order ordinary differential equations, linear differential equations with constant coefficients, two-by-two linear systems, Laplace transformations, phase planes and stability. (F, Sp, Su)

MATH 3333 Linear Algebra I 3 Credit Hours
Prerequisite: MATH 2123 or MATH 1823 or MATH 1914 or permission of instructor. Systems of linear equations, determinants, finite dimensional vector spaces, linear transformations and matrices, characteristic values and vectors. (F, Sp, Su)

MATH 3401 Numerical Methods With Matlab 1 Credit Hour
Prerequisite: 3413 or concurrent enrollment. Programming with MATLAB. Numerical solution of nonlinear equations. Matrices and linear algebraic equations, regression, interpolation, splines. Numerical integration. Numerical solution of systems of ordinary differential equations. Numerical solution of partial differential equation. Laboratory (F, Sp)

MATH 3413 Physical Mathematics I 3 Credit Hours
Prerequisite: MATH 2443 or MATH 2934 or concurrent enrollment. Complex numbers and functions. Fourier series, solution methods for ordinary differential equations and partial differential equations, Laplace transforms, series solutions, Legendre's equation. Duplicates two hours of 3113. (F, Sp)

MATH 3423 Physical Mathematics II 3 Credit Hours
Prerequisite: MATH 2443 or MATH 2934, MATH 3413. The Fourier transform and applications, a survey of complex variable theory, linear and nonlinear coordinate transformations, tensors, elements of the calculus of variations. (F)

MATH 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

MATH 3613 Modern Geometry 3 Credit Hours
Prerequisite: MATH 1743 or MATH 1823 or MATH 1914. An introduction to geometry including axiomatics, finite geometry, convexity, and classical Euclidean and non-Euclidean geometry. (F, Sp)

MATH 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)

MATH 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (F, Sp)

MATH 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

MATH 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. Overall grade point average of 2.50 or better. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

MATH G4073 Numerical Analysis I 3 Credit Hours
Prerequisite: 3113 or 3413. Solution of linear and nonlinear equations, approximation of functions, numerical integration and differentiation, introduction to analysis of convergence and errors, pitfalls in automatic computation, one-step methods in the solutions of ordinary differential equations. (F)

MATH 4093 Applied Numerical Methods 3 Credit Hours
(Slashlisted with MATH 5093) Prerequisite: MATH 2443 or MATH 2934, MATH 3113 or MATH 3413, MATH 3333 or MATH 4373, or permission of instructor. Numerical treatment of ordinary differential equations, numerical linear algebra and applications, basic numerical methods for partial differential equations. No student may earn credit for both 4093 and 5093. (Alt. Sp.)

MATH G4103 Introduction to Functions of a Complex Variable 3 Credit Hours
Prerequisite: 3113. Complex analytic functions, conformal mappings, complex integrals. Taylor and Laurent series, integration by the method of residues, complex analytic functions and potential theory. (Sp)

MATH 4123 Fourier Transforms 3 Credit Hours
(Slashlisted with MATH 5123) Prerequisite: MATH 2443 or MATH 2934, MATH 3113 or MATH 3413, MATH 3333, or permission of instructor. Fourier series, classical Fourier transform, discrete Fourier transform, distributions and Fourier transforms. Sampling and Shannon's Theorem. No student may earn credit for both 4123 and 5123. (F)

MATH G4163 Introduction to Partial Differential Equations 3 Credit Hours
Prerequisite: MATH 2443 or MATH 2934, MATH 3113 or MATH 3413. Physical models, classification of equations, Fourier series and boundary value problems, integral transforms, the method of characteristics. (F, Sp, Su)

MATH 4193 Introductory Mathematical Modeling 3 Credit Hours
Prerequisite: MATH 3113 or MATH 3413, MATH 3333, MATH 4733 or MATH 4753, or permission of instructor. Mathematics models are formulated for problems arising in various areas where mathematics is applied. Techniques are developed for analyzing the problem and testing validity of proposed model. (Sp)

MATH G4313 Introduction to Number Theory 3 Credit Hours
Prerequisite: 2513 and 3333 or permission of instructor. Topics include factorization and prime numbers, congruence, quadratic residues and reciprocity, continued fractions and approximations, Diophantine equations, arithmetic functions, and selected applications. (Irreg.)

MATH G4323 Introduction to Abstract Algebra I 3 Credit Hours
Prerequisite: MATH 3333 and MATH 2513, or permission of instructor. Concepts from set theory; the system of natural numbers, extension from the natural numbers to the integers; semigroups and groups; rings, integral domain and fields. (F, Sp)

MATH G4333 Introduction to Abstract Algebra II 3 Credit Hours
Prerequisite: 4323. Extensions of rings and fields, elementary factorization theory; groups with operators; modules and ideals; lattices. (Sp)

MATH 4373 Abstract Linear Algebra 3 Credit Hours
(Slashlisted with 5373) Prerequisite: 3333. Vector spaces over arbitrary fields, bases, dimension, linear transformations and matrices, similarity and its canonical forms (rational, Jordan), spectral theorem and diagonalization of quadratic forms. No student may earn credit for both 4373 or 5373. (F, Sp)

MATH 4383 Applied Modern Algebra 3 Credit Hours
(Slashlisted with 5383) Prerequisite: 3333. Topics from the theory of error correcting codes, including Shannon's theorem, finite fields, families of linear codes such as Hamming, Golay, BCH, and Reed-Solomon codes. Other topics such as Goppa codes, group codes, and cryptography as time permits. No student may earn credit for both 4383 and 5383. (Sp)

MATH G4433 Introduction to Analysis I 3 Credit Hours
Prerequisite: MATH 2433 or MATH 2924, and MATH 2513 or permission of instructor. Review of real number system. Sequences of real numbers. Topology of the real line. Continuity and differentiation of functions of a single variable. (F, Sp, Su)

MATH 4443 Introduction to Analysis II 3 Credit Hours
(Slashlisted with 5443) Prerequisite: 4433. Integration of functions of a single variable. Series of real numbers. Series of functions. Differentiation of functions of more than one variable. No student may earn credit for both 4443 and 5443. (Sp)

MATH 4513 Senior Mathematics Seminar 3 Credit Hours
Prerequisite: MATH 2443 or MATH 2934; MATH 2513; MATH 3113 or MATH 3413; MATH 3333; and senior standing. Capstone course which synthesizes ideas from different areas of mathematics with emphasis on current topics of interest. The course will involve student presentations, written projects and problem solving. (F, Sp) [V].

MATH G4643 Topics in Geometry and Combinatorics 3 Credit Hours
Prerequisite: 3333. May be repeated with permission of instructor; maximum credit six hours. Topics may include convexity (convex sets, combinatorial theorems in finite dimensional Euclidean space), graph theory, finite geometries, foundations of geometry. (F, Sp)

MATH 4653 Introduction To Differential Geometry I 3 Credit Hours
(Slashlisted with MATH 5653) Prerequisite: MATH 2443 or MATH 2934, and MATH 3333, or permission of instructor. Elementary theory of curves and surfaces in three-dimensional Euclidean space, differentiable manifolds, Riemannian geometry of two dimensions, Gauss Theorem Egregium. No student may earn credit for both 4653 and 5653. (F)

MATH 4673 Graph Theory I 3 Credit Hours
(Slashlisted with 5673) Prerequisite: 2513 or permission of instructor. An introduction to the theory of graphs. Topics include basic definitions, cutpoints, blocks, trees, connectivity and Menger's theorem. No student may earn credit for both 4673 and 5673. (F)

MATH G4733 Mathematical Theory of Probability 3 Credit Hours
Prerequisite: MATH 2443 or MATH 2934 or concurrent enrollment. Probability spaces, counting techniques, random variables, moments, special distributions, limit theorems. (F)

MATH 4743 Introduction to Mathematical Statistics 3 Credit Hours
(Slashlisted with 5743) Prerequisite: 4733. Mathematical development of basic concepts in statistics: estimation, hypothesis testing, sampling from normal and other populations, regression, goodness-of-fit. No student may earn credit for both 4743 and 5743. (Sp)

MATH G4753 Applied Statistical Methods 3 Credit Hours
Prerequisite: MATH 2123 or MATH 2423 or MATH 2924 or permission of instructor. Estimation, hypothesis testing, analysis of variance, regression and correlation, goodness-of-fit, other topics as time permits. Emphasis on applications of statistical methods. (F, Sp, Su)

MATH 4773 Applied Regression Analysis 3 Credit Hours
(Slashlisted with 5773) Prerequisite: 3333, 4733 or 4753 or any statistical probability course at an equivalent level. The general regression problem of fitting an equation involving a single dependent variable and several independent variables, estimation and tests of regression parameters, residual analysis, selecting the "best" regression equation. No student may earn credit for both 4773 and 5773. (Alt. F)

MATH 4793 Advanced Applied Statistics 3 Credit Hours
(Slashlisted with 5793) Prerequisite: 4743 or 4753 or equivalent. Survey of advanced applied statistical methods other than applied regression, including exploratory data analysis, analysis of multivariate data (principal components: analysis, multiple analysis of variance, cluster analysis, etc.), and introduction to non-parametric methods. No student may earn credit for both 4793 and 5793. (Alt. F)

MATH 4803 Topics in Mathematics 3 Credit Hours
Prerequisite: permission of instructor. May be repeated with change of content; maximum credit nine hours. Topics may include any area of mathematics; these will be substantial and fundamental subjects not offered in regular courses. (F, Sp, Su)

MATH G4853 Introduction to Topology 3 Credit Hours
Prerequisite: MATH 2433 or MATH 2924; and MATH 2513; or permission of instructor. Metric spaces and topological spaces, continuity, connectedness, compactness and related topics. (Sp)

MATH 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

MATH 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MATH 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied, permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Sp)

MATH 5093 Applied Numerical Methods 3 Credit Hours
(Slashlisted with MATH 4093) Prerequisite: graduate standing and MATH 2443 or MATH 2934, MATH 3113 or MATH 3413, MATH 3333 or MATH 4373, or permission of instructor. Numerical treatment of ordinary differential equations, numerical linear algebra and applications, basic numerical methods for partial differential equations. No student may earn credit for both MATH 4093 and MATH 5093. (Alt. Sp.)

MATH 5103 Mathematical Models 3 Credit Hours
Prerequisite: permission of instructor or admission to the M.S. program. May be repeated with change of content; maximum credit six hours. Mathematical models are formulated for problems arising in various areas in which mathematics has been applied. In each case, techniques are developed for analyzing the resulting mathematical problem, and this analysis is used to test the validity of the model. (Sp)

MATH 5123 Fourier Transforms 3 Credit Hours
(Slashlisted with MATH 4123) Prerequisite: graduate standing and MATH 2443 or 2934, MATH 3113 or MATH 3413, MATH 3333, or permission of the instructor. Fourier series, classical Fourier transform, discrete Fourier transform, distributions and Fourier transforms. Sampling and Shannon's Theorem. No student may earn credit for both 4123 and 5123. (F)

MATH 5163 Partial Differential Equations 3 Credit Hours
Prerequisite: 4163 or permission of instructor. First order equations, Cauchy problem for higher order equations, second order equations with constant coefficients, linear hyperbolic equations. (Sp)

MATH 5173 Advanced Numerical Analysis I 3 Credit Hours
Prerequisite: 4433, 4443 or permission of instructor. Topics may include: error analysis of numerical methods for optimization and initial value problems, numerical approximation of aspects of control problems. (Alt. F)

MATH 5183 Advanced Numerical Analysis II 3 Credit Hours
Prerequisite: 4433, 4443 or permission of instructor. Topics may include: analysis of spline approximations as a basis of the finite element method, error analysis for finite element approximation of elliptic and parabolic boundary value problems. (Alt. Sp)

MATH 5253 Introduction to Mathematics Pedagogy Research 3 Credit Hours
Prerequisite: Graduate standing in mathematics or permission of the instructor. This course is intended for students who will be consumers of mathematics education research as well as those who will be producers of this research. The course offers an overview of the mathematics pedagogy research process and a detailed survey of selected aspects of this process. Particular topics including reviewing existing mathematics teaching research literature, designing research studies, gathering research data, analyzing research data, and reporting pedagogical research. (F)

MATH 5263 Issues and Problems in Mathematics Pedagogy 3 Credit Hours
Prerequisite: graduate standing in mathematics or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Considers current issues and perennial problems in undergraduate mathematics teaching. Potential topics include, but are not limited to, use of technology in mathematics instruction, use of group work and other instructional strategies actively engaging students in Mathematics learning, the nature of mathematics learning, research-based practices in teaching undergraduate mathematics, issues of gender and diversity in undergraduate mathematics, the nature of the undergraduate mathematics curriculum. (Sp)

MATH 5303 Topics in Group Theory 3 Credit Hours
Prerequisite: 4323 or permission of instructor. May be repeated with change of content; Maximum credit 15 hours. Topics may include permutation groups, invariant subgroups, prime power groups, abelian groups, generators and relations, free groups, solvable and nilpotent groups, semi-direct products and extensions, automorphism groups, reflection groups, coxeter groups, crystallographic groups, matrix groups and representation group actions. (Irreg.)

MATH 5333 Topics in Number Theory 3 Credit Hours
Prerequisite: at least one mathematics course numbered above 3000, other than 4232. May be repeated with change of content; maximum credit nine hours. Topics may include congruencies, arithmetic functions, quadratic reciprocity, continued fractions, diophantine equations, primality testing, factorization methods, cryptography, quadratic forms and quadratic fields, computational number theory, additive number theory, coding theory, p-adic numbers. (Irreg.)

MATH 5353 Abstract Algebra I 3 Credit Hours
Prerequisite: 4323, permission of instructor. Groups, Sylow theorems, group actions, group presentations. Rings, ideals, polynomial rings, unique factorization. Fields, algebraic and transcendental extensions. (F)

MATH 5363 Abstract Algebra II 3 Credit Hours
Prerequisite: 5353. Galois theory, solvability. Modules over a principal ideal domain. Noetherian ideal theory. Group representations, semisimple rings. Classical groups. (Sp)

MATH 5373 Abstract Linear Algebra 3 Credit Hours
(Slashlisted with 4373) Prerequisite: 3333. Vector spaces over arbitrary fields, bases, dimension, linear transformations and matrices, similarity and its canonical forms (rational, Jordan), spectral theorem and diagonalization of quadratic forms. No student may earn credit for both 4373 and 5373. (F, Sp)

MATH 5383 Applied Modern Algebra 3 Credit Hours
(Slashlisted with 4383) Prerequisite: 3333. Topics from the theory of error correcting codes, including Shannon's theorem, finite fields, families of linear codes such as Hamming, Golay, BCH, and Reed-Solomon codes. Other topics such as Goppa codes, group codes, and cryptography as time permits. No student may earn credit for both 4383 and 5383. Duplicates one hour of 4323. (Sp)

MATH 5403 Calculus of Variations 3 Credit Hours
Prerequisite: 4433 or 3423 or 4163. Linear spaces, global and local theories of optimization, necessary conditions for relative extrema of integrals. (Irreg.)

MATH 5423 Complex Analysis I 3 Credit Hours
Prerequisite: 4433. The complex numbers, topologies of the extended plane and related sphere, elementary functions, power series, properties of general holomorphic functions. The integral of a complex-valued function over an oriented rectifiable curve, the classical theorems on integrals, Taylor and Laurent expansions, analytic continuation, introduction to Riemann surfaces. (Alt. F)

MATH 5443 Introduction To Analysis II 3 Credit Hours
(Slashlisted with 4443) Prerequisite: 4433. Integration of functions of a single variable. Series of real numbers. Series of functions. Differentiation of functions of more than one variable. No student may earn credit for both 4443 and 5443. (Sp)

MATH 5453 Real Analysis I 3 Credit Hours
Prerequisite: 4433 or permission of instructor. Lebesgue measure and integration theory, absolutely continuous functions, metric spaces. (F)

MATH 5463 Real Analysis II 3 Credit Hours
Prerequisite: 5453. General measure and integration theory, Banach spaces, topics from related areas. (Sp)

MATH 5653 Introduction To Differential Geometry I 3 Credit Hours
(Slashlisted with MATH 4653) Prerequisite: graduate standing and MATH 2443 or MATH 2934, and MATH 3333, or permission of instructor. Elementary theory of curves and surfaces in three-dimensional Euclidean space, differentiable manifolds, Riemannian geometry of two dimensions, Gauss Theorem Egregium. No student may earn credit for both 4653 and 5653. (F)

MATH 5673 Graph Theory I 3 Credit Hours
(Slashlisted with 4673) Prerequisite: 2513 or permission of instructor. An introduction to the theory of graphs. Topics include basic definitions, cutpoints, blocks, trees, connectivity and Menger's theorem. No student may earn credit for both 4673 and 5673. (F)

MATH 5693 Topics in Geometry and Combinatorics I 3 Credit Hours
Prerequisite: permission of instructor. May be repeated with permission of instructor; maximum credit 12 hours. Topics may include convexity, combinatorial geometry, graph theory, or Riemannian geometry. (F, Sp, Su)

MATH 5743 Introduction to Mathematical Statistics 3 Credit Hours
(Slashlisted with 4743) Prerequisite: 4733. Mathematical development of basic concepts in statistics: estimation, hypothesis testing, sampling from normal and other populations; regression, goodness of fit. No student may earn credit for both 4743 and 5743. (Sp)

MATH 5763 Introduction to Stochastic Processes 3 Credit Hours
Prerequisite: 4733 or permission of instructor. Stochastic processes in discrete time including random walks, recurrent events, Markov chains and branching processes. Processes in continuous time including linear and nonlinear birth-death processes and diffusions. Applications taken from economics, engineering, operations research. (Irreg.)

MATH 5773 Applied Regression Analysis 3 Credit Hours
(Slashlisted with 4773) Prerequisite: 3333, 4733 or 4753 or any statistical probability course at an equivalent level. The general regression problem of fitting an equation involving a single dependent variable and several independent variables, estimation and tests of regression parameters, residual analysis, selecting the "best" regression equation. No student may earn credit for both 4773 and 5773. (Alt. F)

MATH 5793 Advanced Applied Statistics 3 Credit Hours
(Slashlisted with 4793) Prerequisite: 4743 or 4753 or equivalent. Survey of advanced applied statistical methods other than applied regression, including exploratory data analysis, analysis of multivariate data (principal components: analysis, multiple analysis of variance, cluster analysis, etc.), and introduction to non-parametric methods. No student may earn credit for both 4793 and 5793. (Alt. F)

MATH 5803 Topics in Mathematics 3 Credit Hours
Prerequisite: permission of instructor. May be repeated with change of content; maximum credit fifteen hours. Topics may include any area of mathematics; these will be substantial and fundamental subjects not offered in regular courses. (F, Sp, Su)

MATH 5853 Topology I 3 Credit Hours
Prerequisite: 2433 and 2513. Set theory, separation axioms, connectedness, compactness, continuity, metric spaces, nets and sequences. (F)

MATH 5863 Topology II 3 Credit Hours
Prerequisite: 5853. Metrization, product and quotient spaces, function spaces, dimension theory, Hilbert spaces, homotopy, simplicial complexes, continua. (Sp)

MATH 5900 Graduate Mathematics Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: six-hour mathematics sequence at the 5000+ level. May be repeated with change of content; maximum credit fifteen hours. Special background readings in advanced mathematical topics as preparation for later dissertation work. (F, Sp, Su)

MATH 5910 Seminar--Analysis 1-2 Credit Hours
1 to 2 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 12 hours. (F, Sp)

MATH 5920 Seminar--Algebra and Theory of Numbers 1-2 Credit Hours
1 to 2 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 12 hours. (F, Sp)

MATH 5930 Seminar--Geometry and Topology 1-2 Credit Hours
1 to 2 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 12 hours. (F, Sp)

MATH 5950 Seminar-Undergraduate Mathematics Curriculum & Pedagogy 1-2 Credit Hours
1 to 2 hours. May be repeated with change of content; maximum credit 12 hours. This seminar will explore the current research literature on undergraduate mathematics curriculum and pedagogy. (F, Sp)

MATH 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

MATH 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MATH 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp)

MATH 5990 Special Problems in Mathematics 1-2 Credit Hours
1 to 2 hours. An option for all candidates for the master's degree who do not present theses. (F, Sp, Su)

MATH 6333 Lie Theory I 3 Credit Hours
Prerequisites: 5363 and 5863 or permission of the instructor. Basic properties of Lie algebras, nilpotent and solvable Lie algebras, semi-simple Lie algebras, root systems and classification theorems. (Irreg.)

MATH 6343 Lie Theory II 3 Credit Hours
Prerequisite: 6333 or permission of the instructor. Representation theory of semi-simple Lie algebras, Lie groups, connections between Lie groups and Lie algebras, structure theory and representation theory of compact Lie groups. (Irreg.)

MATH 6373 Commutative Algebra 3 Credit Hours
Prerequisite: 4323, 4333, 5333 or permission of instructor. Commutative rings and their modelus, ideals, prime ideals, Noetherian modules and rings, localization, principal and factorial rings, discrete valuation domains, Dedekind domains, integral ring extensions, dimension theory, tensor products, flat modules, the homofunctor, injective and projective modules, regular rings, Cohen-Macauley rings. (Irreg.)

MATH 6383 Algebraic Geometry 3 Credit Hours
Prerequisite: 6373. Hilbert's Nullstellensatz, the correspondence between ideals and algebraic sets, Zariski topology, irreducible algebraic sets, ringed spaces, morphisms, affine varieties, algebraic varieties, regular maps, sub-varieties and products, bi-rational equivalence, local rings and tangent spaces, differentials, non-singular points. (Irreg.)

MATH 6393 Topics in Algebra 3 Credit Hours
Prerequisite: 5353 or permission of instructor. May be repeated with change of content; maximum credit 15 hours. Topics of modern research interest in algebra. (Irreg.)

MATH 6473 Functional Analysis I 3 Credit Hours
Prerequisite: 5463 or permission of instructor. Vector spaces with topology or norm, dual space, theorems on linear operators, spectral theory in Hilbert space, spectral decomposition of operators, convex sets and weak topologies, fixed point theorems. (Alt. F)

MATH 6483 Functional Analysis II 3 Credit Hours
Prerequisite: 6473. Banach algebras and harmonic analysis, representations of symmetric rings, unitary representations of a group, rings of operators in Hilbert space, decomposition of ring operators. Introduction to the theory of distributions. (Alt. Sp)

MATH 6493 Topics in Analysis 3 Credit Hours
Prerequisite: 5453 or permission of instructor. May be repeated with change of course content; maximum credit 15 hours. Topics of modern research interest in analysis. (F, Sp)

MATH 6673 Differential Geometry I 3 Credit Hours
Prerequisite: 5853 or permission of instructor. Multilinear algebra, differential manifolds, exterior differential forms, affine connections, Riemannian manifolds. (F)

MATH 6683 Differential Geometry II 3 Credit Hours
Prerequisite: 6673. Riemannian manifolds, theory of connections, bundles with classical groups as structure groups, curvature and Betti numbers, complex manifolds. (Sp)

MATH 6813 Algebraic Topology I 3 Credit Hours
Prerequisite: 5863. Introduction to homology theory of spaces, fundamental group and covering spaces, higher homotopy groups, CW-complexes and cellular homology, Whitehead and Hurewicz theorems, Eilenberg-Steenrod axioms. (F)

MATH 6823 Algebraic Topology II 3 Credit Hours
Prerequisite: 6813. Topics in cohomology and homology theory, universal coefficient theorems, orientation and duality on manifolds. Further topics may include: obstruction theory, cohomology operations, fibre bundles and characteristic classes, theory of sheaves, Eilenberg-MacLane spaces and Postnikov systems, spectral sequences. (Sp)

MATH 6833 Topics in Topology I 3 Credit Hours
Prerequisite: 5863. May be repeated with permission of instructor; maximum credit 15 hours. Topics may include algebraic topology, combinatorial topology, linear topological spaces, dimension theory, metrization, continua, decomposition spaces, topology of flat spaces. (F, Sp)

MATH 6910 Seminar--Analysis 1-2 Credit Hours
1 to 2 hours. Prerequisite: permission of the instructor. May be repeated with change of content; maximum credit 15 hours. Seminar on analysis and applied mathematics topics. (F, Sp)

MATH 6930 Seminar--Geometry and Topology 1-2 Credit Hours
1 to 2 hours. Prerequisite: permission of the instructor. May be repeated with change of content; maximum credit 12 hours. (F, Sp)

MATH 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

MATH 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

MATH 6980 Research for Doctoral Dissertation 2-16 Credit Hours
(F, Sp, Su)

MATH 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Akin	Kaan		1984	ASSOCIATE PROFESSOR OF MATHEMATICS, 1988	PhD, Brandeis Univ, 1980; MA, Brandeis Univ, 1977; BA, Univ of Pennsylvania, 1975
Albert	John	P	1984	PROFESSOR OF MATHEMATICS, 2000	PhD, Univ of Chicago, 1989; MS, Univ of Chicago, 1984; BS, Univ of Santa Clara, 1978

Apanasov	Boris	N	1991	PROFESSOR OF MATHEMATICS, 1994	PhD, Acad of Pedagogical Science, 1976; MS, Novosibirsk State Univ, 1973; BA, Novosibirsk State Univ, 1971
Brady	Noel		1998	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2004; PROFESSOR OF MATHEMATICS, 2006	PhD, Univ of California-Berkeley, 1993; BA, Univ of Dublin-Trinity College, 1988
Chavez-Dominguez	Javier	A	2015	ASSISTANT PROFESSOR OF MATHEMATICS, 2015	PhD, Texas A&M Univ, 2012; MS, Univ Nacl Autonoma De Mexico, 2006; BS, Universidad de Guanajuato, 2006
Docampo Alvarez	Roi		2016	ASSISTANT PROFESSOR OF MATHEMATICS, 2016	PhD, Univ of Illinois, 2009; MS, Universidade de Santiago de Compostela, 2003; Licenciatura, Universidade de Santiago de Compostela, 2001
Forester	Max	B	2003	PROFESSOR OF MATHEMATICS, 2014	PhD, Univ of Michigan, 1999; MS, Univ of Michigan, 1996; AB, Cornell Univ, 1992
Grigo	Alexander		2012	ASSISTANT PROFESSOR OF MATHEMATICS, 2012	PhD, Georgia Institute of Tech, 2009
Jablonski	Michael	R	2008	ASSOCIATE PROFESSOR OF MATHEMATICS, 2016	PhD, Univ of North Carolina, 2008; BS, Univ of Tennessee, 2002
Kornelson	Keri	A	2008	PROFESSOR OF MATHEMATICS, 2016	PhD, Univ of Colorado, 2001; MA, Univ of Colorado, 1997; BA, Univ of Maryland, 1995; BA, Univ of Colorado, 1989
Kramar	Miroslav		2019	ASSISTANT PROFESSOR OF MATHEMATICS	PhD, Vrije Universiteit Amsterdam, The Netherlands, 2009
Kujawa	Jonathan		2007	PROFESSOR OF MATHEMATICS, 2017	PhD, Univ of Oregon, 2003; MS, Univ of Oregon, 1999; BA, Gustavus Adolphus Coll, 1997
Lifschitz	Lucy		2001	ASSOCIATE PROFESSOR OF MATHEMATICS, 2005	PhD, Yale Univ, 1998; MS, Yale Univ, 1993; BS, Univ of California Los Angeles, 1991
Malestein	Justin		2015	ASSISTANT PROFESSOR OF MATHEMATICS, 2015	PhD, Univ of Chicago, 2009; BS, Univ of Michigan, 2004
Martin	Kimball	L	2007	PROFESSOR OF MATHEMATICS, 2016	PhD, California Inst of Tech, 2004; MS, Univ of Maryland, 1999; BS, Univ of Maryland, 1999
Mendes	Ricardo	A.E.		ASSISTANT PROFESSOR OF MATHEMATICS	PhD, Univ of Pennsylvania, 2011
Miller	Andrew	G	1981	DAVID ROSS BOYD PROFESSOR OF MATHEMATICS, 2012	PhD, Univ of Connecticut, 1981; MS, Univ of Connecticut, 1976; BS, Alfred, 1974
Moore-Russo	Deborah		2017	PROFESSOR OF MATHEMATICS, 2017	PhD, Univ of Oklahoma, 1995
Muller	Gregory		2017	ASSISTANT PROFESSOR OF MATHEMATICS, 2017	PhD, Cornell Univ, 2010; BA, Rutgers Univ, 2004
Ozaydin	Murad		1988	PROFESSOR OF MATHEMATICS, 2001	PhD, Purdue Univ, 1984; BS, Middle East Tech Univ Ankara, 1976
Petrov	Nikola	P	2005	NANCY SCOFIELD HESTER PRESIDENTIAL PROFESSOR, 2014; PROFESSOR OF MATHEMATICS, 2014; ADJUNCT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2014	PhD, Univ of Texas, 2002; MA, Univ of Texas, 2002; BS, Univ of Sofia, 1990
Pitale	Ameya		2010	ASSOCIATE PROFESSOR OF MATHEMATICS, 2014	PhD, Ohio State Univ, 2006; MS, Indian Inst of Tech, 2000
Przebinda	Tomasz		1990	PROFESSOR OF MATHEMATICS, 1999	PhD, Yale Univ, 2987; MS, Wroclaw Tech, 1980
Remling	Christian		2005	PROFESSOR OF MATHEMATICS, 2012	PhD, Universitat Osnabruck, 1996; MA, Universitat Frankfurt, 1992
Roche	Alan	J	2001	ASSOCIATE PROFESSOR OF MATHEMATICS, 2005	PhD, Univ of Chicago, 1996; MSc, Univ College of Dublin, 1998; BSc, Univ College of Dublin, 1987
Savic	Milos		2013	ASSOCIATE PROFESSOR OF MATHEMATICS, 2018	PhD, New Mexico State Univ, 2012; BS, Ball State, 2004
Schmidt	Ralf		2004	NANCY SCOFIELD HESTER PRESIDENTIAL PROFESSOR, 2010; PROFESSOR OF MATHEMATICS, 2012	PhD, Universität Hamburg, 1998; Universität Münster, 1994
Shankar	Krishnan		2002	PROFESSOR OF MATHEMATICS, 2011; NANCY SCOFIELD HESTER PRESIDENTIAL PROFESSOR, 2018	PhD, Univ of Maryland, 1999; BA, Reed College, 1993
Stewart	Sepideh		2012	ASSOCIATE PROFESSOR OF MATHEMATICS, 2018	PhD, Univ of Auckland, 2008; MS, Univ of Auckland, 2000; BS, Univ of Auckland, 1998
Tao	Jing		2012	ASSOCIATE PROFESSOR OF MATHEMATICS, 2018	PhD, Univ of Illinois, 2009; BS, Univ of Illinois, 2001

Wang	Ying		2013	ASSISTANT PROFESSOR OF MATHEMATICS, 2013	PhD, Ohio State Univ, 2010; MS, Georgia Inst of Tech, 2005; BS, National Univ of Singapore, 2001
Wei	Shihshu	W	1985	PROFESSOR OF MATHEMATICS, 1997	PhD, Univ of California Berkeley; MS, Washington, 1974; BS, Tamking, 1972
Wu	Yilun		2018	ASSISTANT PROFESSOR OF MATHEMATICS, 2018	PhD, Univ of Michigan, 2014; BS, Fudan Univ, 2008
Zhang	Pengfei		2017	ASSISTANT PROFESSOR OF MATHEMATICS, 2017	PhD, Univ of Science & Tech, 2011; BS, Univ of Science & Tech; 2006
Zhu	Meijun		1999	PROFESSOR OF MATHEMATICS, 2008	PhD, Rutgers, 1996; MS, Univ of Science and Tech, 1992; BS, Peking Univ, 1988

Mathematics (Standard Option), B.A.

Minimum Total Credit Hours: 120
Major Hours: 36
Minimum Upper-Division Hours: 48
Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B670

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements**
- **Students must earn a grade of C or better in all MATH courses at the 3000-level or higher.**

Code	Title	Credit Hours
Choose one of the following sequences:		12
Sequence A:		
MATH 1823	Calculus and Analytic Geometry I	
MATH 2423	Calculus and Analytic Geometry II	
MATH 2433	Calculus and Analytic Geometry III	
MATH 2443	Calculus and Analytic Geometry IV	
Sequence B:		
MATH 1914	Differential and Integral Calculus I	
MATH 2924	Differential and Integral Calculus II	
MATH 2934	Differential and Integral Calculus III	
MATH 2513	Discrete Mathematical Structures	3
MATH 3333	Linear Algebra I	3
MATH 3113	Introduction to Ordinary Differential Equations [1]	3
or MATH 3413	Physical Mathematics I	
Choose four additional math courses at the 3000-level or higher, including nine hours at the 4000-level or higher [2]		12
MATH 4513	Senior Mathematics Seminar (Capstone)	3
Total Credit Hours		36

[1] MATH 3113 and MATH 3413 overlap by 2 hours. Students who take both will earn only 4 hours of credit.

[2] No more than 6 hours may be from MATH 4733, MATH 4743, MATH 4753, MATH 4773, and MATH 4793.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		

Choose one course from the General Education Non-Western Culture list	3
Additional Core IV Upper-Division Humanities courses	
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]	3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]	3
Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Mathematics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Mathematics major requirements.

Course	Title	Credit Hours
Freshman		
First Semester

Mathematics, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N670

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Mathematics.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Mathematics, including MATH 2443 or MATH 2934 and nine (9) hours of upper-division level Math, six (6) of which must be at the 4000-level or higher. Three (3) hours of either MATH 3960 or MATH 3970 (not both) may be substituted for three (3) hours at the 4000-level or higher.

A grade of C or better must be earned in each upper division course counted for minor credit.

Code	Title	Credit Hours
Choose one math course acceptable for major credit		3
MATH 2443 or MATH 2934	Calculus and Analytic Geometry IV Differential and Integral Calculus III	3
Select 9 hours of upper-division Math courses, including at least 6 hours in courses at the 4000-level or higher		9
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Mathematics, B.S./Biostatistics, M.S.

Minimum Total Credit Hours: 136
Major Hours: 39
Minimum Upper-Division Hours: 57
Overall GPA - Combined and OU: 3.00
Major GPA - Combined and OU: 3.00

Program Code: A671

- **No more than 8 hours applied to this program may carry a grade lower than B. No course at the 4000-level or higher with a grade lower than C may be applied to the program.**

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.**

Code	Title	Credit Hours
MATH 1823	Calculus and Analytic Geometry I [1]	3
MATH 2423	Calculus and Analytic Geometry II [1]	3
MATH 2433	Calculus and Analytic Geometry III [1]	3
MATH 2443	Calculus and Analytic Geometry IV [1]	3
MATH 2513	Discrete Mathematical Structures	3
MATH 3333	Linear Algebra I	3
MATH 4073	Numerical Analysis I	3

MATH 3113	Introduction to Ordinary Differential Equations [2]	3
or MATH 3413	Physical Mathematics I	
Choose one of the following:		3
MATH 4323	Introduction to Abstract Algebra I	
MATH 4383	Applied Modern Algebra	
MATH 4433	Introduction to Analysis I	
MATH 4733	Mathematical Theory of Probability [3]	3
or BSE 5703 THEORY OF PROBABILITY		
MATH 4743	Introduction to Mathematical Statistics [3]	3
or BSE 5733 PRINCIPLES OF MATH. STATISTICS I		
Major Electives		
Choose two courses from the Undergraduate Major Electives course list (p. 429)		6
Total Credit Hours		39

[1] Students may substitute MATH 1914, MATH 2924, and MATH 2934 for MATH 1823, MATH 2423, MATH 2433, and MATH 2443.

[2] MATH 3113 and MATH 3413 overlap by 2 hours. Students who take both will earn only 4 hours of credit.

[3] No student may earn credit for both MATH 4733 and BSE 5703 Theory of Probability, or MATH 4743 and BSE 5733 Principles of Mathematical Statistics I.

Major Support Requirements

Code	Title	Credit Hours
MBIO 2815	Introduction to Microbiology (lab)	5
or BIOL 2124	Human Physiology	
Total Credit Hours		5

BS and MS Requirements

Code	Title	Credit Hours
BSE 5001	Problems in Biostatistics & Epidemiology	1
BSE 5113	Principles of Epidemiology	3
BSE 5163	Biostatistical Methods I	3
BSE 5173	Biostatistical Methods II	3
BSE 5193	Intermediate Epidemiologic Methods	3
BSE 5980	Research for Master's Thesis	3
Choose one of the following:		3
HAP 5113	Health Organization & Administration	
HPS 5213	Social & Behavioral Sciences in Public Health	
OEH 5013	Environmental Health	
Graduate Electives		
Choose two courses from the Graduate Electives course list (p. 429) [2]		6
Additional Graduate Requirements		
Epidemiology Elective		
Choose one of the following:		3
BSE 5303	Epidemiology of Infectious Disease	
BSE 5363	Epidemiology & Prevention of Chronic Disease	
BSE 6363	Cancer Epidemiology & Prevention	
Math/Biostatistics Courses		
Choose two courses from the following in consultation with advisor:		6
MATH 5783		
or BSE 5653 NONPARAMETRIC METHODS		
MATH 5793	Advanced Applied Statistics	
or BSE 6663 ANALYSIS OF MULTIVARIA DATA		
BSE 5663	Analysis of Frequency Data	
BSE 6643	Survival Data Analysis	
BSE Elective		
Choose any BSE course that has not been taken to fulfill other requirements [3]		3
Total Credit Hours		37

[1] **Note:** The master's thesis also satisfies the senior capstone requirement for the bachelor's degree. No more than three hours earned of BSE 5980 Research for Master's Thesis may be applied toward the dual degree program.

[2] These courses may not duplicate the six hours of math electives for the undergraduate major requirements and when offered on a slashlisted basis must be the graduate-level course.

[3] Excluding BSE 5103, BSE 5950 Field Work in Biostatistics and Epidemiology, and BSE 6950 Research in Biostatistics and Epidemiology.

Undergraduate Major Electives

Six additional hours of math chosen in consultation with adviser from the following:

Code	Title	Credit Hours
MATH 4093	Applied Numerical Methods	3
MATH 4193	Introductory Mathematical Modeling	3
MATH 4323	Introduction to Abstract Algebra I	3
MATH 4333	Introduction to Abstract Algebra II	3

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Mathematics, M.A.

Total Credit Hours		32

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Mathematics, M.S.

Minimum Total Hours (Thesis): 32
Minimum Total Hours (Non-Thesis): 32

Program Code: M671

Required Courses

Degree coursework must include at least two courses taken at the 4000 level or higher, from outside the mathematics department, which use mathematics beyond elementary calculus.

Thesis Option

Code	Title	Credit Hours

Notes

- **Each student *not writing a thesis* will pass a comprehensive examination over material to be determined by the Applied Math Committee.**
- **A maximum of 9 hours of coursework outside the Mathematics department can be applied to the degree.**
- **No course below the 4000 level can be applied to the degree.**
- **No more than 9 hours of coursework in Mathematics can be below the 5000 level, and at most 12 hours of G4000 level coursework total.**
- **Twelve hours must be in the Mathematics department at the 5000 level or higher.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Mathematics, Ph.D.

Minimum Total Hours: 90

Program Code: D670

Program Requirements

- The Mathematics Ph.D. requires 90 hours of graduate credit beyond the baccalaureate degree, of which 2 hours may by MATH 5980 or MATH 5990.
- Seminars and colloquia are expected in addition to regular coursework.

Code	Title	Credit Hours
A sequence of 12 hours numbered above 5000 level (including seminars) in one of the major areas of mathematics, or in the area of RUME (Research in Undergraduate Mathematics Education)		12
At least 18 hours of additional coursework in mathematics above 5000 level		18
Tools of research as determined and monitored by student's PhD Advisory Committee, including but not limited to: reading proficiency in a foreign language, proficiency in a programming language, or IRB training.		
Electives and dissertation hours (MATH 6980) as determined by the student's advisory committee to reach 90 hours beyond the baccalaureate		60
A dissertation representing an original contribution to mathematical knowledge or to RUME		
Total Credit Hours		90

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

Medieval and Renaissance Studies

Joyce Coleman, Director

Center for Medieval & Renaissance Studies

The Center for Medieval & Renaissance Studies, a division of the College of Arts & Sciences at the University of Oklahoma, promotes the study of the period in Western history that saw the development of such major components of modern life as parliamentary democracy, the nation-state, English and other modern languages, printing, Islam, global exploration, heliocentric astronomy, romantic love–and the universities in which we research and teach all these subjects.

By supporting our faculty and students, sponsoring brown-bag talks, and cosponsoring a free public lecture series with the Medieval Fair of Norman, OU's Center for Medieval & Renaissance Studies seeks to enrich the intellectual environment for medievalists and early modernists on campus and across the region.

Programs & Facilities

OU Special Collections

The fifth floor of OU's Bizzell Memorial Library houses a world-class History of Science collection along with the Nichols Collection, the Bizzell Bible Collection, and the Bass Business Collection.

Minor

The Medieval & Renaissance Studies Minor (p. 434) allows students to pursue an interdisciplinary study of literature, language, history, history of science, art, architecture, and religion. It is an attractive opportunity for students who wish to gain further understanding of medieval and Renaissance culture beyond the traditional disciplinary parameters. Fascinating in their diversity, medieval and Renaissance arts, literature, history, science, and philosophy offer rich material for study in their own right and also reveal the foundations upon which the achievements of subsequent periods were built.

No major in Medieval and Renaissance Studies is offered; students wishing to concentrate on these areas of study are best served by majoring in another humanities discipline while pursuing a Medieval and Renaissance Studies minor.

Courses

MRS 3023 Exploring Medieval and Renaissance Studies 3 Credit Hours
Prerequisite: junior standing or above, or permission of instructor. Provides an overview of the history, literature, art, and music of the Middle Ages and Renaissance, including hands-on work with medieval manuscripts and early printed books. This course will be taught by a series of faculty lecturing in their area of expertise, coordinated by a faculty member who will be present at every class and will serve as instructor of record. (Irreg.)[IV-WC] .

MRS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

MRS 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

MRS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

MRS 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

MRS 3990 Independent Study 1-3 Credit Hours
Prerequisite: junior standing or above and permission of instructor. May be repeated; maximum credit six hours. Independent study on a topic in medieval and/or Renaissance studies. (F, Sp)

MRS 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

MRS 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MRS 4990 Independent Study 1-3 Credit Hours
Prerequisite: junior standing or above and permission of instructor. May be repeated; maximum credit six hours. Independent study on a topic in medieval and/or Renaissance studies. (F, Sp)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Coleman	Joyce	K	2005	ASSOCIATE PROFESSOR OF ENGLISH, 2005; RUDOLPH BAMBAS PROFESSOR OF ENGLISH, 2005; DIRECTOR OF MEDIEVAL AND RENAISSANCE STUDIES	PhD, Univ of Edinburgh, 1993; MA, Univ of Texas, 1979; BA, Barnard College, 1971

Medieval & Renaissance Studies, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N679

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Courses on Medieval and Renaissance topics not listed here may count towards the MRS minor if approved, in writing, by the MRS advisor.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level, and six (6) hours from each of the three core areas, from the approved courses listed. No more than three (3) of the 18 hours may be earned in Independent Study courses (MRS 3990 or MRS 4990).

See http://www.ou.edu/cas/cmrs/minor for a full listing of course numbers and names. See http://www.ou.edu/cas/cmrs/courses for listing of courses currently being taught, recently taught, or scheduled for the next semester.

The following MRS courses may count in any appropriate area, as approved by the advisor: MRS 3023, MRS 3990, MRS 4990.

Code	Title	Credit Hours
History, Philosophy, or Religious Studies		
Choose two courses from the History, Philosophy, or Religious Studies course list (p. 434)		6
History of the Arts		
Choose two courses from the History of the Arts course list (p. 434)		6
Literature		
Choose two courses from the Literature course list (p. 434)		6
Total Credit Hours		18

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

General Information

The Department of Microbiology and Plant Biology is a dynamic, cutting edge educational and research unit with internationally recognized programs in organismal systems ecology, anaerobic microbiology and ecology, molecular biology, ecosystem-scale processes and environmental genomics. We provide hands-on, authentic educational and research experiences that prepare our students for successful careers in science, technology, and medical professions.

Programs & Facilities

PROGRAMS FOR ACADEMIC EXCELLENCE

Research Opportunities

In the Departmant of Microbiology and Plant Biology, it is common for both undergraduate and graduate students to conduct research projects under the guidance of our faculty. Experiences are available throughout the year. Graduate students are supported by stipends, and undergraduate research can be performed on a volunteer basis, for degree credit, or, in certain cases, as a paid employee. The department also partners with companies and foundations to provide internship opportunities for our students.

Student Organizations

There are currently two department-associated clubs for undergraduate students, the O.U. Botanical Society and the American Society for Microbiology Student Chapter. Both clubs meet regularly and provide opportunities for socializing, networking, and professional development.

Scholarships and Financial Aid

The department has undergraduate scholarships and graduate scholarships available for academically outstanding students.

Undergraduate Study

Microbiology

Microbiologists work in hospitals, universities, medical schools, government laboratories, and almost every industry, specializing in a wide variety of areas, from agriculture to the space industry. Our microbiology degrees are designed to promote development of the scientific, analytical, and problem-solving skills needed for our students to excel in these careers, as well as providing great preparation for and placement in medical, professional, and graduate schools.

- Microbiology (Standard) Bachelor of Science (p. 446)
- Microbiology: Biotechnology, Bachelor of Science (p. 448)
- Microbiology (Professional), Bachelor of Microbiology (p. 450)

Plant Biology

Plant biologists work in universities, medical facilities, government laboratories, and a variety of industries (e.g., agricultural, chemical, and pharmaceutical). Plant science is a growing area and studying plant biology provides a solid scientific foundation to make you employable in a wide range of fields. Our plant biology degrees are great preparation for careers to address complex societal issues involving population growth, food supply, and environmental problems.

- Plant Biology, Bachelor of Science (p. 453)
- Plant Biology: Biotechnology, Bachelor of Science (p. 455)

MINORS

- Microbiology Minor (p. 457)
- Plant Biology Minor (p. 458)

Graduate Study

Master of Science Degree

- Microbiology, Master of Science (p. 458)
- Plant Biology, Master of Science (p. 459)

Graduate Certificates

- Microscopic Imaging and Technology (p. 461)

Doctoral Programs

Doctor of Philosophy Degree

Work leading to the Microbiology (p. 462) or Plant Biology (p. 462) Ph.D. degree is offered in most areas. The program requires a satisfactory demonstration of knowledge in their research area. This proficiency will be determined by the dissertation advisory committee. The satisfactory completion and successful defense of original research as described in a dissertation is also required. Each student will, in consultation with the chairperson, select a dissertation advisory committee. A student must complete the general requirements of the Graduate College, appropriate research skills, and a minor in a related field with a minimum of six hours. Each student must attend and participate in a graduate seminar.

Each student will be assigned a specific dissertation committee whose functions are to aid in designing the degree program, provide advice on the dissertation research and conduct the oral dissertation defense examination.

Detailed information on graduate work may be obtained from the Graduate Program Director, Department of Microbiology and Plant Biology, George Lynn Cross Hall room 516 and Stephenson Research & Technology Center room 2021, (405) 325-5133, email lizkarr@ou.edu.

Courses

MBIO 2124 Cornerstone Research Experience 4 Credit Hours
Prerequisite: permission of instructor. Hands-on course targeted toward freshmen and sophomores; therefore there are no prerequisite courses required. The goal is to provide students with an authentic laboratory research experience building and experimentally testing hypotheses, collection and processing of data, and oral and written presentation of research results. The skills learned in this course will be beneficial during and beyond an undergraduate career. (F, Sp) [II-NL].

MBIO 2815 Introduction to Microbiology 5 Credit Hours
Prerequisite: one course in college chemistry. Introduction to microorganisms as biological entities. Survey of the roles of microorganisms in the ecosystem. Application of microorganisms to industrial and environmental problems. Discussion of microorganisms as causes of human disease and response of hosts to microbial invasion. This course does not count for major credit in Microbiology or Botany. Laboratory (F, Sp, Su) [II-LAB] .

MBIO 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MBIO 3001 Microbiology: the Discipline and Degree 1 Credit Hour
Prerequisite: Biology 1114, Biology 1124 or Biology 1134. Introduce students to their discipline, degree and faculty. Allows students microbiology credit prior to MBIO 3813, which has a prerequisite of Chemistry 3053. By the end of the course students will have an introduction to use of the literature of microbiology and writing in scientific English, as well as familiarity with the discipline, progress towards degree completion and their faculty. (Sp)

MBIO 3113 Cell Biology 3 Credit Hours
(Crosslisted with BOT and BIOL 3113) Prerequisite: Botany 1114, or Biology 1134, or Biology 1114 and 1121, or Biology 1124; and Chemistry 3053. Introduction to the cell as a unit of life. A chemical and physical comparison of procaryotic and eucaryotic cells to include a discussion of cell metabolism, types of metabolic regulation and an analysis of ultrastructure. Emphasis will be placed on the dynamic changes in metabolism and ultrastructure which occur during the life of a cell. (F, Sp)

MBIO 3283 Introduction to Genomics 3 Credit Hours
(Crosslisted with PBIO 3283) Prerequisite: PBIO 1114, or BIOL 1114, or BIOL 1134, or one course in Organic Chemistry (CHEM 3053 or CHEM 3153 or CHEM 3064 or CHEM 3164). Provides the most updated knowledge on prokaryotic and eukaryotic genomics including the biochemical, molecular and cellular structure of the genome as well as the current molecular and bioinformatics technologies existing when analyzing complex genomes and gene function. Through lectures and presentation of scientific literature, specific examples will be presented to highlight each aspect of the course. (F)

MBIO 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

MBIO 3673 Practical Bioinformatics 3 Credit Hours
(Crosslisted with PBIO 3673) Prerequisite: MBIO 2815, or MBIO 3813, or PBIO 1114, or BIOL 1005, or BIOL 1114, or equivalent introductory biology course, and junior standing, or instructor permission. Study of the use of computers to analyze and interpret various types of biological data. Topics covered will include accessing genomics databases, aligning DNA and protein sequences, searching genomic databases for similar sequences, analyzing protein structure, and building molecular phylogenies. Classes will emphasize group work and in-class computer exercises in a highly interactive environment. (Sp)

MBIO 3812 Fundamentals of Microbiology Laboratory 2 Credit Hours
Prerequisite: credit or concurrent enrollment in 3813. Fundamental microbiological methods: aseptic technique, culture methods, microscopy, metabolic and physiological tests, bacterial isolation and identification, environmental microbiology. Laboratory (F, Sp, Su)

MBIO 3813 Fundamentals of Microbiology 3 Credit Hours
Prerequisite: BIOL 1005 or BIOL 1114 or BIOL 1124 or BIOL 1134 or PBIO 1114; and CHEM 1315 and CHEM 1415, or CHEM 1335 and CHEM 1435. Cell structure and phylogeny of bacteria, archaea, and eukaryotic microorganisms; growth, metabolism and ecological roles; symbiotic relationships; gene expression, genetic exchange, genomics. (F, Sp, Su)

MBIO 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

MBIO 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Projects covered will vary. Deals with concepts not usually presented in regular coursework. (By request)

MBIO 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. (F, Sp, Su)

MBIO 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

MBIO 4263 Cell Biology Laboratory 3 Credit Hours
(Crosslisted with PBIO 4263) Prerequisite: MBIO 3812 and 3813, or two courses in Plant Biology, and completion of or concurrent enrollment in MBIO/Plant Biology/Biology 3113. Gives students experience with modern techniques used in the study of cells. The techniques covered will allow exploration of cell biology at the level of tissues, single cells, subcellular components, and molecules. (F)

MBIO 4313 Biotechnology Applications 3 Credit Hours
(Crosslisted with PBIO 4313) Prerequisite: PBIO/BIOL 3113, or PBIO/BIOL 3333, or PBIO/BIOL/MBIO 4843, or PBIO/MBIO 4873, or CHEM 3653, or permission of instructor. Intended for students who possess a working knowledge of molecular biology, this course will focus on developing familiarity with methods used in biotechnology to address pressing societal challenges. Students will put into practice central methods of biotechnology, gaining practical skills for use in future careers in laboratory science, particularly methods relevant to pharmaceutical production, agricultural improvement, bio-fuel production, and medical and forensic diagnostics, among others. (Sp)

MBIO 4394 Advanced Light Microscopy 4 Credit Hours
(Slashlisted with MBIO 5394; Crosslisted with BIOL and PBIO 4394) Prerequisite: permission of instructor and junior standing. Corequisite: Lab section. Focuses on theory and techniques in light microscopy, covering principles including confocal laser scanning microscopy, multiple photon imaging, FLIM/FCS, FRET, fluorescence microscopy, phase contrast, DIC, 3D rendering, and other advanced optical technologies. Also includes a lab section where students will learn to use advanced epifluorescence and confocal microscopes. No student may earn credit for both 4394 and 5394. (F)

MBIO 4630 MBIO Internship 1-6 Credit Hours
1 to 6 hours. (Crosslisted with PBIO 4630) Prerequisite: MBIO major; must have completed at least 30 hours; permission of instructor. This course is a planned hands-on work experience that will provide students with the opportunity to earn college credit while engaging in a valuable learning opportunity within the field of microbiology. Through an internship, students can explore microbiology-related career paths prior to graduation and apply the knowledge obtained from their MBIO coursework. (F, Sp, Su)

MBIO 4673 Microbiomes and Microbial Systematics 3 Credit Hours
(Slashlisted with MBIO 5673) Prerequisite: MBIO 3812 and 3813, and CHEM 3013 or 3053, or permission of instructor. Introduces students to the modern day characterization of microbiomes, from initial sequence information to the living organisms that make up these complex communities. No student may earn credit for both 4673 and 5673. (Sp)

MBIO 4693 Environmental Sampling Methods 3 Credit Hours
(Slashlisted with MBIO 5693; Crosslisted with METR and PBIO 4693) Prerequisite: diverse STEM background; permission of instructor; senior standing. The course gives students from diverse STEM backgrounds experience and knowledge of environmental sampling techniques, analysis of data generated, and interpretation of results in a scientific field outside their primary area of study. The multi-disciplinary structure helps students develop an understanding of different sampling techniques based on assumptions and perspectives on the environment at different spatial scales. No student may earn credit for both 4693 and 5693. (Sp)

MBIO 4703 Basic Virology 3 Credit Hours
Prerequisite: MBIO 3813, and either CHEM 3653 or MBIO/PBIO/BIOL 4843, or permission of instructor. Introduction to the principles of viruses that infect animals, plants and bacteria. Topics will include viral structural and taxonomy, virus replication and disease pathogenesis, methods of viral detection and diagnosis, host resistance to viral infections, viruses and cancer and the used of viruses in gene therapy and vaccine applications. (Sp)

MBIO 4723 Biocatalysis and Bioremediation 3 Credit Hours
(Slashlisted with MBIO 5723) Prerequisites: MBIO 3813 and one semester of Organic Chemistry (CHEM 3053) or Biochemistry (CHEM 3653), or permission of instructor. Introduces the role of microorganisms in the biocatalysis and bioremediation of relevant pollutants. Focuses on bioremediation strategies, the physiology of aerobes vs. anaerobes, biocatalysis and genetics of biodegradation pathways, and methods for monitoring in situ biodegradation. No student may earn credit for both 4723 and 5723. (Sp)

MBIO 4733 Microbial Genetics 3 Credit Hours
(Slashlisted with MBIO 5733) Prerequisite: MBIO/PBIO/BIOL 4843, or permission of instructor. Microbial genetics underlies important topics such as antibiotic resistance, genetic engineering, drug development, and many biotechnological advances. Explores the interesting world of microbial genetics by discussing molecular genetic methods and related aspects of bacterial and archaeal biology. Examples will include both traditional and recently developed microbial model systems. No student may earn credit for both 4733 and 5733. (Sp)

MBIO 4743 Case Studies in Medical Microbiology 3 Credit Hours
Prerequisite: MBIO 3813; MBIO 4823 or concurrent enrollment; or instructor permission. Provides in-depth knowledge of infectious diseases utilizing an inquiry-based format. Case studies will be discussed in the context of patient symptoms as well as molecular- and culture-based test results. Case studies from standard textbooks and clinical microbiology journals will be utilized. Students will gain experience in identifying causative agents of numerous infections. Ideal course for pre-dental, pre-medical and pre-pharmacy students. (Irreg.)

MBIO 4810 Special Topics 3 Credit Hours
1 to 3 hours. (Slashlisted with MBIO 5810) Prerequisite: two courses in Microbiology and permission of instructor. May be repeated with change of content; maximum credit three hours per semester, nine hours total. Topics will include newly developing areas of the discipline. Taught at an upper-division level based on previous course background. No student may earn credit for both 4810 and 5810. (Irreg.)

MBIO G4813 Pathogenic Microbiology Laboratory 3 Credit Hours
Prerequisite: MBIO 3812 and MBIO 3813, or equivalent. This course will focus primarily on bacterial species that cause disease in humans. Emphasis will be placed on the use of selective/differential media for pathogen isolation; the key diagnostic features of pathogenic bacteria and the application of rapid technologies for pathogen identification. Scientific papers will also be used to highlight the virulence properties of various pathogens. (Sp)

MBIO G4823 Pathogenic Microbiology and Infectious Disease 3 Credit Hours
Prerequisite: MBIO 3812 and MBIO 3813. Introduces the basic methods for pathogenic microbiology and infectious disease epidemiology. Topics covered include definitions and nomenclature, outbreak investigations, disease surveillance, case-studies, laboratory diagnosis, immunology, molecular epidemiology, dynamics of transmission, and vaccine effectiveness. Emerging pathogens, their effects on society and the health care services will also be addressed. (F)

MBIO 4833 Basic Immunology 3 Credit Hours
Prerequisite: one semester of organic chemistry, and an introductory biology course, plus one of the following: 3813 and 3812, Zoology 2124, 3113, 3204, 3333 or biochemistry or graduate standing and permission. Fundamentals of immunochemistry, cellular immunology, immunogenetics and clinical immunology. (Sp)

MBIO 4843 Molecular Biology 3 Credit Hours
(Crosslisted with PBIO and BIOL 4843; Slashlisted with MBIO 5843) Prerequisite: MBIO 3812 and MBIO 3813, or Plant Biology 1114, or Biology 1114, or Biology 1124, or Biology 1134, and one course in organic chemistry. Introduction to the characteristics and biological functions of nucleic acids and proteins in living cells with emphasis on nucleic acid replication, transcription, translation and regulation; also emphasis on the molecular aspects of microbial genetics transformation, transduction and conjugation; and emphasis on molecular immunology and genetic engineering/recombinant DNA technology. No student may earn credit for both 4843 and 5843. (F, Sp)

MBIO G4853 Physiology of Microorganisms 3 Credit Hours
Prerequisite: MBIO 3813, MBIO 3812 and a course in organic chemistry, or graduate standing. Diversity, metabolism, energetics and physiology of microorganisms. (Sp)

MBIO 4864 Geomicrobiology 4 Credit Hours
(Slashlisted with 5864) Prerequisite: 3813 or permission of instructor. Life below the earth's surface. Bacterial degradation of pollutants. Petroleum microbiology. Role of microorganisms in geochemical cycling of carbon, sulfur, and metals. No student may earn credit for both 4864 and 5864. (F) [II-NL] .

MBIO 4873 Microbial Physiology and Molecular Biology Laboratory 3 Credit Hours
(Crosslisted with PBIO 4873) Prerequisite: junior standing or permission of instructor. Current techniques to explore molecular aspects of gene expression and regulation. Experiments include: plasmid and phage propagation, nucleic acid purification, DNA and protein manipulation, and gene analysis. (F, Sp) [II-LAB] .

MBIO G4883 Water Microbiology Laboratory 3 Credit Hours
Prerequisite: MBIO 3812 and MBIO 3813. Focuses on the causes and prevention of waterborne microbial diseases and the use of microorganisms to improve water quality. Topics include: waterborne diseases, detection of waterborne pathogens, epidemiology, indicator organisms, water quality standards, treatment of drinking water and sewage, and groundwater contamination. The laboratory provides training in the standard methods used to detect microbial contamination. (F)

MBIO 4893 Capstone in Microbiology 3 Credit Hours
Prerequisite: three hours of calculus; 3813, 3812 and corequisite or prerequisite 4843. Combines laboratory research experiences, primarily in the areas of microbial diversity, physiology, and genetics, with an introduction to how research in microbiology is carried out. Laboratory (F, Sp) [V] .

MBIO 4903 Topics in Virology 3 Credit Hours
(Slashlisted with MBIO 5903) Prerequisite: Chemistry 3653 or MBIO 4843 or permission of instructor. Aspects related to selected RNA viruses, such as HIV/AIDS and polio virus, will be studied and discussed. Topics will include the molecular structure of RNA viruses, the mechanisms of viral assembly and replication, viral disease pathogenosis, host responses to viral infections, vaccine development, anti-viral and RNA interference (RNAi) therapeutics. No student may earn credit for both 4903 and 5903 on the same topic. (F)

MBIO 4950 Senior Thesis - Capstone 1-6 Credit Hours
1 to 6 hours. Prerequisite: 3813 and permission of instructor. May be repeated for credit; maximum credit six hours. A minimum total of six hours is required. This is a capstone course allowing students to carry out individual research projects under a faculty mentor. Students will present research results orally in a poster session, and by writing a senior thesis. Honors research credit may substitute for some or all of the senior thesis credit hours. (F, Sp, Su) [V] .

MBIO 4953 BioWriting 3 Credit Hours
(Slashlisted with MBIO 5953; Crosslisted with BIOL/PBIO 4953) Prerequisite: permission of instructor. This course provides students engaged in research with the information and skills needed to effectively communicate as professional biologists. Students will learn to report the results of their own research in the format of a journal article, conference-style presentation, and poster. No student may earn credit for both 4953 and 5953. (Irreg.)

MBIO 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

MBIO 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MBIO 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

MBIO 5364 Transmission Electron Microscopy 4 Credit Hours
(Crosslisted with PBIO and BIOL 5364) Prerequisite: permission. Introduction to the theory of transmission electron microscopy and practical instruction in specimen preparation, ultramicrotomy, instrument operation, photography and quantitative methods. Laboratory (F)

MBIO 5374 Scanning Electron Microscopy 4 Credit Hours
(Crosslisted with PBIO and BIOL 5374) Prerequisite: basic chemistry; basic physics; demonstrated need; permission of instructor. Principles of scanning electron microscopy combined with training in the operation of the SEM and ancillary equipment. Students will be certified in the operation of all equipment. Sample preparation on a variety of samples and darkroom procedures will be performed. Independent project with oral report and poster required. Laboratory .

MBIO 5394 Advanced Light Microscopy 4 Credit Hours
(Crosslisted with BIOL 5394 and PBIO 5394; slashlisted with 4394) Prerequisite: permission of instructor and graduate standing. Corequisite: Lab section. Focuses on theory and techniques in light microscopy covering principles including confocal laser scanning microscopy, multiple photon imaging, FLIM/FCS, FRET, fluorescence microscopy, phase contrast, DIC, 3D rendering, and other advanced optical technologies. Also includes a lab section where students will learn to use advanced epifluorescence and confocal microscopes. No student may earn credit for both 4394 and 5394. (F)

MBIO 5471 Seminar in Ecology and Evolutionary Biology 1 Credit Hour
(Crosslisted with BOT and ZOO 5471) Prerequisite: graduate standing. Two semesters of enrollment are required for students in the ecology and evolutionary biology doctoral program. An intensive, student-based seminar in which students present both proposals and ongoing progress reports on doctoral level research projects in ecology and evolutionary biology. (F, Sp)

MBIO 5620 Investigations in Microbiology 1-6 Credit Hours
1 to 6 hours. Prerequisite: 15 hours of microbiology or permission of instructor. May be repeated with change of subject matter; nine hours for a Masters student and twelve hours for a Ph.D. student. Maximum of six hours allowed with one professor, unless approved by Department Chair by petition. Fields of study: environmental microbiology, immunology, industrial microbiology, medical microbiology, medical mycology, microbial ecology, microbial genetics, microbial physiology, ultra-structural morphology, virology and molecular biology. (F, Sp, Su)

MBIO 5673 Microbiomes and Microbial Systematics 3 Credit Hours
(Slashlisted with MBIO 4673) Prerequisite: graduate standing and MBIO 3812 and 3813, and CHEM 3013 or 3053, or permission of instructor. Introduces students to the modern day characterization of microbiomes, from initial sequence information to the living organisms that make up these complex communities. No student may earn credit for both 4673 and 5673. (Sp)

MBIO 5693 Environmental Sampling Methods 3 Credit Hours
(Slashlisted with MBIO 4693; Crosslisted with METR and PBIO 5693) Prerequisite: Graduate standing and permission of instructor. The course gives students from diverse STEM backgrounds experience and knowledge of environmental sampling techniques, analysis of data generated, and interpretation of results in a scientific field outside their primary area of study. The multi-disciplinary structure helps students develop an understanding of different sampling techniques based on assumptions and perspectives on the environment at different spatial scales. No student may earn credit for both 4693 and 5693. (Sp)

MBIO 5723 Biocatalysis and Bioremediation 3 Credit Hours
(Slashlisted with MBIO 4723) Prerequisite: graduate standing and MBIO 3813 and one semester of Organic Chemistry (CHEM 3053) or Biochemistry (CHEM 3653), or permission of instructor. Introduces the role of microorganisms in the biocatalysis and bioremediation of relevant pollutants. Focuses on bioremediation strategies, the physiology of aerobes vs. anaerobes, biocatalysis and genetics of biodegradation pathways, and methods for monitoring in situ biodegradation. No student may earn credit for both 4723 and 5723. (Sp)

MBIO 5733 Microbial Genetics 3 Credit Hours
(Slashlisted with MBIO 4733) Prerequisite: graduate standing and MBIO/PBIO/BIOL 4843 or 5843, or permission of instructor. Microbial genetics underlies important topics such as antibiotic resistance, genetic engineering, drug development, and many biotechnological advances. Explores the interesting world of microbial genetics by discussing molecular genetic methods and related aspects of bacterial and archaeal biology. Examples will include both traditional and recently developed microbial model systems. No student may earn credit for both 4733 and 5733. (Sp)

MBIO 5810 Special Topics 3 Credit Hours
1 to 3 hours. (Slashlisted with MBIO 4810) Prerequisite: two courses in microbiology, graduate standing and permission. May be repeated with change of content; maximum credit three hours per semester, nine hours total. Topics will include newly developing areas of the discipline. Taught at an upper-division level based on previous course background. No student may earn credit for both 4810 and 5810. (Irreg.)

MBIO 5821 Graduate Professional Development Seminar 1 Credit Hour
(Crosslisted with PBIO 5821) Prerequisite: Graduate standing and permission of instructor. This course will cover various topics and involve activities that are targeted at helping graduate students succeed in their first year of study, while also providing an opportunity to build a sense of community with other incoming students. (F)

MBIO 5843 Molecular Biology 3 Credit Hours
(Crosslisted with PBIO and Biology 5843; Slashlisted with MBIO 4843) Prerequisite: graduate standing or permission of instructor. Introduction to the characteristics and biological functions of nucleic acids and proteins in living cells with emphasis on nucleic acid replication, transcription, translation and regulation; also emphasis on the molecular aspects of microbial genetics transformation, transduction and conjugation; and emphasis on molecular immunology and genetic engineering/recombinant DNA technology. No student may earn credit for both 4843 and 5843. (F, Sp)

MBIO 5864 Geomicrobiology 4 Credit Hours
(Slashlisted with 4864) Prerequisite: 3813 or permission of instructor. Life below the earth's surface. Bacterial degradation of pollutants. Petroleum microbiology. Role of microorganisms in geochemical cycling of carbon, sulfur, and metals. No student may earn credit for both 4864 and 5864. (F)

MBIO 5883 Advanced Molecular Biology 3 Credit Hours
(Crosslisted with PBIO 5883) Prerequisite: graduate standing and MBIO/Plant Biology/Biology 4843 or 5843; or Chemistry 3653; or permission of instructor. The study of molecular biology in real-life research laboratories, focusing on the thought and practice behind molecular biology. Scientific literature will be used as a source of information to highlight the practical concerns for students working in molecular biology laboratories. (Sp)

MBIO 5903 Topics in Virology 3 Credit Hours
(Slashlisted with MBIO 4903) Prerequisite: graduate standing and CHEM 3653 or MBIO 4843 or permission of instructor. Aspects related to selected RNA viruses, such HIV/AIDS and polio virus, will be studied and discussed. Topics will include the molecular structure of RNA viruses, the mechanisms of viral assembly and replication, viral disease pathogenosis, host responses to viral infections, vaccine development, anti-viral and RNA interference (RNAi) therapeutics.No student may earn credit for both 4903 and 5903 on the same topic. (F)

MBIO 5953 BioWriting 3 Credit Hours
(Slashlisted with MBIO 4953; Crosslisted with BIOL/PBIO 5953) Prerequisite: permission of instructor. This course provides students engaged in research with the information and skills needed to effectively communicate as professional biologists. Students will learn to report the results of their own research in the format of a journal article, conference-style presentation, and poster. Graduate students have additional assignments beyond those completed by undergraduates. No student may earn credit for both 4953 and 5953. (Irreg.)

MBIO 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

MBIO 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MBIO 5971 Seminar in Microbiology 1 Credit Hour
Prerequisite: graduate standing, permission of instructor. Required of all graduate students in microbiology. May be repeated; maximum credit two hours for the master's degree, three hours for the doctor's degree. Topics are selected from various areas of microbiology, and each student is called upon for discussion or formal presentations. No laboratory. (F, Sp)

MBIO 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

MBIO 5990 Special Studies in Microbiology 1-3 Credit Hours
1 to 3 hours. Prerequisite: 15 hours of microbiology, permission of instructor. May be repeated; Maximum credit of six hours with one professor, unless approved by Department Chair by petition. The student selects an area in which the student desires to read intensively, selects a staff member who is an authority in that field, and together they plan a program for investigation of the literature. (F, Sp, Su)

MBIO 6003 Ecological Modeling 3 Credit Hours
(Crosslisted with BOT and ZOO 6003) Prerequisite: one computer course, one course in ecology, or permission of instructor. Trains students to use modeling tools in their research and to gain greater ability to understand, appreciate, and criticize modeling work. Students will learn general procedure and principles with case studies of successful models in ecology and participate in course projects to gain hands-on experience in model development. (Irreg.)

MBIO 6873 Microbial Ecology 3 Credit Hours
Prerequisite: 3813 and 3812 plus two courses in microbiology, or 3813 and 3812 plus one microbiology course and one ecology course; biochemistry; calculus; or permission. Advanced treatment of the development and interactions of microbial communities with their living and abiotic environment. Emphasis placed on experimental approaches and on the quantitative concepts of the subject matter. Topics include a kinetic evaluation of microbial activities, global carbon cycling, biodegradation of environmentally significant materials and techniques used in the study of microbial ecology. (F even-numbered years)

MBIO 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

MBIO 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

MBIO 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 Hours. (F, Sp, Su)

MBIO 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

PBIO 1114 General Botany 4 Credit Hours
Previous course in chemistry (high school or college) recommended. Fulfills Arts and Sciences' biological science requirement. Basic processes and structures in plants; their relation to factors in the environment; reproduction; heredity, heritable and nonheritable variations in plants and their causes and consequences are studied. Scientific procedures are acquired through application and discussion. Laboratory (F, Sp, Su) [II-LAB].

PBIO 2404 Ecology & Environmntl Quality 4 Credit Hours
(Crosslisted with BIOL 2404) Prerequisite: sophomore standing. Study of ecological principles and their applications to human systems, study of population, air pollution, water pollution, energy issues, etc. Laboratory exercises focus on learning scientific methods of measurement of environmental quality factors. This course does not count for major credit in Plant Biology. Laboratory. (Sp) [II-LAB].

PBIO 2503 Plant Care and Cultivation 3 Credit Hours
Prerequisite: PBIO 1114, or Biology 1005, or Biology 1114, or Biology 1134, or any introductory college Biology course. Application of the principles of botany to the cultivation, propagation, and maintenance of plants grown in home environments. Particular attention is given to the effects of light, water, minerals, and soil factors on plant growth; seed and vegetative propagation; pest control; and proper conditions for cultivated plants. (F) [II-NL].

PBIO 3113 Cell Biology 3 Credit Hours
(Crosslisted with MBIO and BIOL 3113) Prerequisite: 1114, or Biology 1134, or Biology 1114 and 1121, or Biology 1124; and Chemistry 3053. Introduction to the cell as a unit of life. A chemical and physical comparison of procaryotic and eucaryotic cells to include a discussion of cell metabolism, types of metabolic regulation and an analysis of ultrastructure. Emphasis will be placed on the dynamic changes in metabolism and ultrastructure which occur during the life of a cell. (F, Sp)

PBIO 3163 Economic Botany 3 Credit Hours
Prerequisite:1114, or Biology 1134, or Biology 1005, or any introductory biology course. A survey of plants and plant products used in industry, drug plants and drugs, and especially food plants and food adjuncts. Origin of agriculture, domestication and evolution of crop plants, and uses of plants in different cultures are emphasized. (F) [IV-WC].

PBIO 3283 Introduction to Genomics 3 Credit Hours
(Crosslisted with MBIO 3283) Prerequisite: PBIO 1114, or BIOL 1114, or BIOL 1134, or one course in Organic Chemistry (CHEM 3053 or CHEM 3153 or CHEM 3064 or CHEM 3164). Provides the most updated knowledge on prokaryotic and eukaryotic genomics including the biochemical, molecular and cellular structure of the genome as well as the current molecular and bioinformatics technologies existing when analyzing complex genomes and gene function. Through lectures and presentation of scientific literature, specific examples will be presented to highlight each aspect of the course. (F)

PBIO 3333 Genetics 3 Credit Hours
(Crosslisted with ZOO 3333) Prerequisite: eight hours of zoology and/or PBIO and/or microbiology, or five hours of zoology or PBIO or microbiology and permission of instructor. Principles of inheritance at gene, chromosome and population levels; nature of the genetic material and its involvement in the determination of structure and function. No laboratory. (F, Sp)

PBIO 3342 Genetics Laboratory 2 Credit Hours
(Crosslisted with ZOO 3342) Prerequisite: 3333 or concurrent enrollment or equivalent. The demonstrations, crosses and experiments are designed to illustrate various genetic phenomena, including Mendelian laws, recombination, mutation, natural and artificial selection and interaction of genotype with environment. The primary organism studied is Drosophila, with some use of corn, Neurospora and others. Laboratory (F)

PBIO 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

PBIO 3451 Methods in Plant Ecology 1 Credit Hour
Corequisite: PBIO 3453. Methodology in plant physiological, population, community and ecosystem ecology will be covered. Emphasis will be on actual field or laboratory experience and the applicability of these methods to other areas of ecology. Laboratory. (F)

PBIO 3453 Principles of Plant Ecology 3 Credit Hours
Prerequisite: PBIO 1114 or Biology 1134 or permission of instructor. Introduction to physiological, population and community ecology. Emphasis is placed on environmental factors, disturbance and succession and how these factors affect species diversity and landscape patterns. One field trip. (F)

PBIO 3534 Flowering Plants 4 Credit Hours
Prerequisite: 1114 or six hours of biology or permission of instructor. Introduction to the classification of vascular plants with emphasis on the origin, evolutionary relationships and reproductive biology of the flowering plants. Laboratory activities stress identification skills, terminology, field techniques and family recognition for the flora of Oklahoma. Field trips. Laboratory (Sp)

PBIO 3673 Practical Bioinformatics 3 Credit Hours
(Crosslisted with MBIO 3673) Prerequisite: PBIO 1114, or MBIO 2815, or MBIO 3813, or BIOL 1005, or BIOL 1114, or equivalent introductory biology course, and junior standing, or instructor permission. Study of the use of computers to analyze and interpret various types of biological data. Topics covered will include accessing genomics databases, aligning DNA and protein sequences, searching genomic databases for similar sequences, analyzing protein structure, and building molecular phylogenies. Classes will emphasize group work and in-class computer exercises in a highly interactive environment. (Sp)

PBIO 3953 Global Change Biology 3 Credit Hours
Prerequisite: PBIO 1114. Students will read, discuss and synthesize key literature in global change biology using a combination of lectures, in-class activities, and in-class discussions of primary literature. Explores the impacts of two main global change factors, climatic change and invasive species, influencing biodiversity, ecosystem structure and function with a final focus on the potential of adaptation and conservation approaches and utilization of models to help predict future impacts. (F, even-numbered years)

PBIO 3960 Honors Reading (HONORS) 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. (F, Sp, Su)

PBIO 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. (By request)

PBIO 3980 Honors Research (HONORS) 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. (F, Sp, Su)

PBIO 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PBIO G4114 Principles of Plant Physiology 4 Credit Hours
Prerequisite: PBIO 1114 and CHEM 3053 or permission of instructor. Plant Physiology is the study of how plants grow and develop, respond to biotic and abiotic factors in their environments, convert solar energy to chemical energy, and generally how plants go about their business. Modern plant physiology is a fairly all-inclusive discipline and incorporates plant anatomy and morphology, biochemistry, genetics, molecular biology, etc. Laboratory. (F)

PBIO G4224 Plant Development 4 Credit Hours
Prerequisite: PBIO 1114; PBIO 3333 and PBIO 4843 (recommended). Focuses on genetic networks that control various developmental processes during plant development. In the labs, we will examine and analyze the effects of mutations in developmental genes on plant development. By the end of the semester, students should understand how the plant life cycle is controlled at a molecular genetic level. Laboratory. (Sp)

PBIO 4263 Cell Biology Laboratory 3 Credit Hours
(Crosslisted with MBIO 4263) Prerequisites: MBIO 3812 and 3813, or two courses in Plant Biology, and completion of or concurrent enrollment in MBIO/PBIO/BIOL 3113 Cell Biology. This lab course will give students experience with modern techniques used in the study of cells. The techniques covered will allow exploration of cell biology at the level of tissues, single cells, subcellular components, and molecules. (F)

PBIO G4283 Plant Anatomy 3 Credit Hours
Prerequisite: seven hours in biology or permission of instructor. The structure and development of the organs of vascular plants as revealed by observations of representative living and prepared specimens. Theories concerning the evolution of organs and internal structure. (Sp odd-numbered years)

PBIO 4313 Biotechnology Applications 3 Credit Hours
(Crosslisted with MBIO 4313) Prerequisite: PBIO/BIOL 3113 or PBIO/BIOL 3333 or PBIO/MBIO/BIOL 4843 or PBIO/MBIO 4873 or Chemistry 3653 or permission of instructor. Intended for students who possess a working knowledge of molecular biology, this course will focus on developing familiarity with methods used in biotechnology to address pressing societal challenges. Students will put into practice central methods of biotechnology, gaining practical skills for use in future careers in laboratory science, particularly methods relevant to pharmaceutical production, agricultural improvement, bio-fuel production, and medical and forensic diagnostics, among others. (Sp)

PBIO 4394 Advanced Light Microscopy 4 Credit Hours
(Crosslisted with BIOL 4394 and MBIO 4394; Slashlisted with PBIO 5394) Prerequisite: permission of instructor and junior standing. Corequisite: Lab section. Focuses on theory and techniques in light microscopy covering principles including confocal laser scanning microscopy, multiple photon imaging, FLIM/FCS, FRET, fluorescence microscopy, phase contrast, DIC, 3D rendering, and other advanced optical technologies. Also includes a lab section where students will learn to use advanced epifluorescence and confocal microscopes. No student may earn credit for both 4394 and 5394. (F)

PBIO 4483 Physiological Plant Ecology 3 Credit Hours
(Slashlisted with PBIO 5483) Prerequisite: PBIO 3453 or PBIO 4115 or permission of instructor. Study of energy budgets, plant water relations, carbon uptake and release, nutrient uptake and availability, and other factors as they affect plant growth, competition and ecosystem-level factors. In-depth analysis of current literature. No student may earn credit for both 4483 and 5483. (F, even-numbered years)

PBIO 4553 Plant Geography 3 Credit Hours
(Slashlisted with 5553) Prerequisite: 3453, 3534, or permission of instructor. Analysis of the evolutionary, ecological, genetic and historical factors that affect present-day distributional patterns of plants on continents and islands. Particular emphasis is directed to range disjunctions and endemism as well as the effects of continental drift, geoclimatic changes, dispersal, polyploidy and phylogeny on the flora of North America. No student may earn credit for both 4553 and 5553. (F odd-numbered years)

PBIO 4630 PBIO Internship 1-6 Credit Hours
1 to 6 hours. (Crosslisted with MBIO 4630) Prerequisite: PBIO major; must have completed at least 30 hours; permission of instructor. This course is a planned hands-on work experience that will provide students with the opportunity to earn college credit while engaging in a valuable learning opportunity within the field of plant biology. Through an internship, students can explore plant biology career paths prior to graduation and apply the knowledge obtained from their PBIO coursework. (F, Sp, Su)

PBIO 4693 Environmental Sampling Methods 3 Credit Hours
(Slashlisted with 5693; Crosslisted with METR and MBIO 4693) Prerequisite: diverse STEM background; permission of instructor; senior standing. The course gives students from diverse STEM backgrounds experience and knowledge of environmental sampling techniques, analysis of data generated, and interpretation of results in a scientific field outside their primary area of study. The multi-disciplinary structure helps students develop an understanding of different sampling techniques based on assumptions and perspectives on the environment at different spatial scales. No student may earn credit for both 4693 and 5693. (Sp)

PBIO 4733 Environmental Remote Sensing 3 Credit Hours
(Slashlisted with PBIO 5733; Crosslisted with GIS 4733) Prerequisite: either a course or hands-on experience in remote sensing, GIS, statistical analysis, computer programming, or permission of the instructor and adviser. Course develops comprehensive knowledge and advanced skills of remote sensing, to apply to the study of the structure, composition, and functions of vegetation, landscapes, and the biosphere. Students will learn hyperspectral data acquisition and analysis; field survey methods; land cover classification from multiple sensors, time series data; and estimation of biophysical and biochemical parameters. Includes image processing software and algorithms. No student may earn credit for both 4733 and 5733. (Sp)

PBIO 4810 Special Topics 1-3 Credit Hours
(Slashlisted with PBIO 5810) 1 to 3 hours. Prerequisite: two courses in botany and permission. May be repeated with change of content; maximum credit three hours per semester, nine hours total. Topics will include newly developing areas of the discipline. Taught at an upper-division level based on previous course background. No student may earn credit for both 4810 and 5810 for the same course content. (Irreg.)

PBIO 4843 Molecular Biology 3 Credit Hours
(Crosslisted with MBIO and BIOL 4843; Slashlisted with PBIO 5843) Prerequisite: MBIO 3812 and MBIO 3813, or Plant Biology 1114, or Biology 1114, or Biology 1124, or Biology 1134, and one course in organic chemistry. Introduction to the characteristics and biological functions of nucleic acids and proteins in living cells with emphasis on nucleic acid replication, transcription, translation and regulation; also emphasis on the molecular aspects of microbial genetics transformation, transduction and conjugation; and emphasis on molecular immunology and genetic engineering/recombinant DNA technology. No student may earn credit for both 4843 and 5843. (F, Sp)

PBIO 4873 Microbial Phys & Molec Bio Lab 3 Credit Hours
(Crosslisted with MBIO 4873) Prerequisite: junior standing or permission of instructor. Current techniques to explore molecular aspects of gene expression and regulation. Experiments include: plasmid and phage propagation, nucleic acid purification, DNA and protein manipulation, and gene analysis. (F, Sp) [II-LAB].

PBIO 4953 BioWriting 3 Credit Hours
(Slashlisted with PBIO 5953; Crosslisted with BIOL/MBIO 4953) Prerequisite: permission of instructor. This course provides students engaged in research with the information and skills needed to effectively communicate as professional biologists. Students will learn to report the results of their own research in the format of a journal article, conference-style presentation, and poster. No student may earn credit for both 4953 and 5953. (Irreg.)

PBIO 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

PBIO 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

PBIO 4983 Senior Capstone: Plant Biol 3 Credit Hours
Prerequisite: 12 hours of botany and senior standing. Interdisciplinary approach to synthesize ideas from the major areas of botany. Readings, research and discussions on the important issues in botany at the present and into the next century. A major written assignment required. [V].

PBIO 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PBIO 5364 Transmis Electron Microscopy 4 Credit Hours
(Crosslisted with MBIO and ZOO 5364) Prerequisite: permission. Introduction to the theory of transmission electron microscopy and practical instruction in specimen preparation, ultramicrotomy, instrument operation, photography and quantitative methods. Laboratory (F)

PBIO 5374 Scanning Electron Microscopy 4 Credit Hours
(Crosslisted with MBIO and ZOO 5374) Prerequisite: basic chemistry; basic physics; demonstrated need; permission of instructor. Principles of scanning electron microscopy combined with training in the operation of the SEM and ancillary equipment. Students will be certified in the operation of all equipment. Sample preparation on a variety of samples and darkroom procedures will be performed. Independent project with oral report and poster required. Laboratory.

PBIO 5394 Advanced Light Microscopy 4 Credit Hours
(Crosslisted with BIOL 5394 and MBIO 5394; Slashlisted with PBIO 4394) Prerequisite: permission of instructor and graduate standing. Corequisite: Lab section. Focuses on theory and techniques in light microscopy covering principles including confocal laser scanning microscopy, multiple photon imaging, FLIM/FCS, FRET, fluorescence microscopy, phase contrast, DIC, 3D rendering, and other advanced optical technologies. Also includes a lab section where students will learn to use advanced epifluorescence and confocal microscopes. No student may earn credit for both 4394 and 5394. (F)

PBIO 5453 Advanced Ecology/Evolut Biol 3 Credit Hours
(Crosslisted with BIOL 5453) Prerequisite: general ecology. Required for students in the ecology and evolutionary biology doctoral program. An introduction to current research opportunities and research programs in ecology and evolutionary biology at the University of Oklahoma. Specific topics and lecturers will vary from week to week to give students a broad overview of ongoing research projects. (F)

PBIO 5471 Seminar-Ecology/Evolut Biology 1 Credit Hour
(Crosslisted with MBIO and ZOO 5471) Prerequisite: graduate standing. Two semesters of enrollment are required for students in the ecology and evolutionary biology doctoral program. An intensive, student-based seminar in which students present both proposals and ongoing progress reports on doctoral level research projects in ecology and evolutionary biology. (F, Sp)

PBIO 5483 Physiological Plant Ecology 3 Credit Hours
(Slashlisted with PBIO 4483) Prerequisite: graduate standing and PBIO 3453 or PBIO 4115 or permission of instructor. Study of energy budgets, plant water relations, carbon uptake and release, nutrient uptake and availability, and other factors as they affect plant growth, competition and other ecosystem-level factors. In-depth analysis of current literature. No student may earn credit for both 4483 and 5483. (F, even-numbered years)

PBIO 5553 Plant Geography 3 Credit Hours
(Slashlisted with 4553) Prerequisite: 3453 or equivalent, 3534. Analysis of the evolutionary, ecological, genetic and historical factors that affect present-day distributional patterns of plants on continents and islands. Particular emphasis is directed to range disjunctions and endemism as well as the effects of continental drift, geoclimatic changes, dispersal, polyploidy and phylogeny on the flora of North America. No student may earn credit for both 4553 and 5553.

PBIO 5620 Investigations in Botany 1-6 Credit Hours
1 to 6 hours. Prerequisite: 15 hours of BOT/PBIO, permission of instructor. May be repeated; maximum of nine hours for a masters student and twelve hours for Ph.D. student. Only six hours allowed with one professor, unless approved by Department Chair by petition. Fields: Ecology, morphology, physiology, systematics, mycology, anatomy, electron microscopy, plant molecular biology. (F, Sp, Su)

PBIO 5623 Ecosystem Ecology 3 Credit Hours
Prerequisite: 3453 Or Equivalent. Studies Interactions Between Organisms And Their Environment Within An Earth-System Context. Students Will Learn General Concepts Of Ecosystems; Examine Major Factors That Control Ecosystems Properties; Explore Ecosystem Functions And Structure And Their Spatial And Temporal Variation; And Evaluate Implications Of Ecosystem Processes For Functioning Of The Global System And Sustainable Use By Human Beings. (F)

PBIO 5693 Environmental Sampling Methods 3 Credit Hours
(Slashlisted with PBIO 4693; Crosslisted with MBIO and METR 5693) Prerequisite: Graduate standing and permission of instructor. The course gives students from diverse STEM backgrounds experience and knowledge of environmental sampling techniques, analysis of data generated, and interpretation of results in a scientific field outside their primary area of study. The multi-disciplinary structure helps students develop an understanding of different sampling techniques based on assumptions and perspectives on the environment at different spatial scales. No student may earn credit for both 4693 and 5693. (Sp)

PBIO 5733 Environmental Remote Sensing 3 Credit Hours
(Slashlisted with PBIO 4733; Crosslisted with GIS 5733) Prerequisite: either a course or hands-on experience in remote sensing, GIS, statistical analysis, computer programming, or permission of the instructor and adviser. Course develops comprehensive knowledge and advanced skills of remote sensing, to apply to the study of the structure, composition, and functions of vegetation, landscapes, and the biosphere. Students will learn hyperspectral data acquisition and analysis; field survey methods; land cover classification from multiple sensors, time series data; and estimation of biophysical and biochemical parameters. Includes image processing software and algorithms. No student may earn credit for both 4733 and 5733. (Sp)

PBIO 5810 Special Topics 1-3 Credit Hours
(Slashlisted with PBIO 4810) 1 to 3 hours. Prerequisite: two courses in plant biology, graduate standing, and permission of instructor. May be repeated with change of content; maximum credit three hours per semester, nine hours total. Topics will include newly developing areas of the discipline. Taught at the graduate level based on previous course background. No student may earn credit for both 4810 and 5810 for the same content. (Irreg.)

PBIO 5821 Graduate Professional Development Seminar 1 Credit Hour
(Crosslisted with MBIO 5821) Prerequisite: Graduate standing and permission of instructor. This course will cover various topics and involve activities that are targeted at helping graduate students succeed in their first year of study, while also providing an opportunity to build a sense of community with other incoming students. (F)

PBIO 5843 Molecular Biology 3 Credit Hours
(Crosslisted with MBIO and BIOL 5843; Slashlisted with PBIO 4843) Prerequisite: graduate standing or permission of instructor. Introduction to the characteristics and biological functions of nucleic acids and proteins in living cells with emphasis on nucleic acid replication, transcription, translation and regulation; also emphasis on the molecular aspects of microbial genetics -- transformation, transduction and conjugation; and emphasis on molecular immunology and genetic engineering/recombinant DNA technology. No student may earn credit for both 4843 and 5843. (F, Sp)

PBIO 5883 Advanced Molecular Biology 3 Credit Hours
(Crosslisted with MBIO 5883) Prerequisite: graduate standing and MBIO/Plant Biology/Biology 4843 or 5843; or Chemistry 3653; or permission of instructor. This course will expose students to the study of molecular biology in real-life research laboratories, focusing on the thought and practice behind molecular biology. Scientific literature will be used as a source of information to highlight the practical concerns for students working in molecular biology laboratories. (Sp)

PBIO 5953 BioWriting 3 Credit Hours
(Slashlisted with PBIO 4953; Crosslisted with BIOL/MBIO 5953) Prerequisite: permission of instructor. This course provides students engaged in research with the information and skills needed to effectively communicate as professional biologists. Students will learn to report the results of their own research in the format of a journal article, conference-style presentation, and poster. Graduate students have additional assignments beyond those completed by undergraduates. No student may earn credit for both 4953 and 5953. (Irreg.)

PBIO 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

PBIO 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

PBIO 5971 Seminar in Botany 1 Credit Hour
Prerequisite: graduate standing, majors only, and permission of instructor. Required of all graduate students in botany. May be repeated; maximum credit two hours for the master's degree, three hours for the doctor's degree. Selected topics in botany. Each student is called upon for discussion or formal presentations. No laboratory. (F, Sp)

PBIO 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. Preparation of an original research paper in one of the fields of botany. (F, Sp, Su)

PBIO 5990 Special Studies in Botany 1-3 Credit Hours
1 to 3 hours. Prerequisite: 15 hours of BOT/PBIO, permission of instructor. May be repeated; maximum credit 12 hours, with a limit of six hours with one professor unless approved by Department Chair by petition. The student selects an area in which the student desires to read intensively, then selects a staff member who is an authority in that field and together they plan a program for investigation of the literature. (F, Sp, Su)

PBIO 6003 Ecological Modeling 3 Credit Hours
(Crosslisted with MBIO and ZOO 6003) Prerequisite: one computer course, one course in ecology, or permission of instructor. Trains students to use modeling tools in their research and to gain greater ability to understand, appreciate, and criticize modeling work. Students will learn general procedure and principles with case studies of successful models in ecology and participate in course projects to gain hands-on experience in model development. (Irreg.)

PBIO 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

PBIO 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

PBIO 6980 Research Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Preparation of a research paper consisting of a notable contribution to knowledge in one of the fields of botany. (F, Sp, Su)

PBIO 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Bartley	Laura			ASSOCIATE PROFESSOR OF PLANT BIOLOGY	PhD, Stanford Univ, 2002; BA, Swarthmore Coll, 1995
Davidova	Irene	A	2009	RESEARCH ASSISTANT PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2009	PhD, Moscow State Univ, 1985
De Leon	Kara	B.	2019	ASSISTANT PROFESSOR OF MICROBIOLOGY, 2019	PhD, Montana State University, 2013; BS, Northwest Nazarene University, 2006
Dunn	Anne	K	2007	ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2013	PhD, Univ of Wisconsin, 2002; BS, Iowa State Univ, 1996

Gibson	John	P	2006	PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2018; PROFESSOR OF BIOLOGY, 2018; ASSOCIATE DIRECTOR FOR EDUCATION, KESSLER ATMOSPHERIC AND ECOLOGICAL STATION, 2015	PhD, Univ of Colorado, 1995; MS, Univ of Georgia, 1990; BS, Oklahoma State Univ, 1988
Hoefnagels	Marielle			Professor of Microbiology and Plant Biology, 2018; Professor of Biology, 2018	Ph.D., Oregon State University, 1997; M.Sc., North Carolina State University, 1991; B.Sc., University of California at Riverside, 1987
Karr	Elizabeth	A	2007	ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2014	PhD, Southern Illinois Univ, 2003; BSc, Murray State Univ, 1999
Krumholz	Lee	R	1998	DIRECTOR, CENTER FOR STUDY OF MICROBIAL INTERACTIONS WITH THE ENVIRONMENT, 2003; PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2009; PROFESSOR OF EARTH AND ENERGY, 2009	PhD, Univ of Illinois, 1988; MS, Univ of Illinois, 1985; BSc, Guelph Univ, 1982
Lawson	Paul	A	2005	PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2013	PhD, Univ of London, 1993; BSc, Univ of London, 1984
McCarthy	Heather	R	2011	ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2017	PhD, Duke Univ, 2007; BS, Oregon State Univ, 2000
Meysick	Karen		2009	ASSISTANT PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2017	PhD, Univ of Ottawa, 1996; MSc, Univ of Ottawa, 1990; BSc, Univ of Windsor, 1987
Moore	Abigail	J	2016	CURATOR, BEBB HERBARIUM, 2016; ASSISTANT PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2016; ASSISTANT PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2016	PhD, Univ of California Berkeley, 2010; BS, Univ of Utah, 2004
Pan	Chongle			ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY AND COMPUTER SCIENCE	PhD, Univ of Tennessee, Knoxville, 2006; BS East China Normal Univ, Shanghai, China, 2001
Russell	Scott	D	1981	GEORGE LYNN CROSS RESEARCH PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2000	PhD, Univ of Alberta, 1981; MS, Northern Arizona Univ, 1977; BA, Univ of Wisconsin, 1975
Sankaranara	Krithivasan		2013	ASSISTANT PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2016	PhD, Binghamton Univ, 2013; BS, Anna Univ, 2005
Savage-Ashlock	Kristen	N	2014	Lecturer, 2014	Ph.D. Microbiology, University of Oklahoma (2009); Education: B.S. Microbiology, University of Oklahoma (2003)
Schroeder	Susan	J		ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY; ASSOCIATE PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY	PhD, Univ of Rochester, 2002; BS, Univ of Rochester, 1995
Souza	Lara	A	2012	ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2018; ASSOCIATE PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2018; DISTINGUISHED FACULTY FELLOW, OFFICE OF THE VICE PRESIDENT FOR RESEARCH, 2016	PhD, Univ of Tennessee, 2008; MS, Appalachian State Univ, 2003; BS, Appalachian State Univ, 1999
Stevenson	Bradley	S		ASSOCIATE PROFESSOR OF MICROBIOLOGY	PhD, Michigan State Univ, 2000; BA, Miami Univ, Oxford, OH, 1992
Tanner	Ralph	S		PROFESSOR OF MICROBIOLOGY	PhD, Univ of Illinois, 1982; MS, Univ of Illinois, 1977; BS, Univ of Massachusetts, 1975
Uno	Gordon	E	1979	DAVID ROSS BOYD PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2001	PhD, Univ of California Berkeley, 1979; BA, Univ of Colorado, 1983
Xiao	Xiangming		2008	PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2008; ASSOCIATE DIRECTOR, CENTER FOR SPATIAL ANALYSIS, 2009; ADJUNCT PROFESSOR OF BIOLOGY, 2011; GEORGE LYNN CROSS RESEARCH PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2018	PhD, Colorado State Univ, 1994; MSc, Univ of Science & Tech, 1987; BSc, Xiamen Univ, 1982

Zhou	Jizhong	2005	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2005; DIRECTOR, INSTITUTE OF ENVIRONMENTAL GENOMICS, 2005; GEORGE LYNN CROSS RESEARCH PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2014	PhD, Washington State Univ, 1993; MS, Hunan Agricultural Univ, 1984; BS, Hunan Agricultural Univ, 1981

Microbiology (Standard), B.S.

Minimum Total Credit Hours: 120
Major Hours: 30
Minimum Upper-Division Hours: 48
Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B690 P459

- **A grade of C or better must be earned in each Microbiology course presented for major credit and in the required major support courses.**

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.**
- MBIO 2815 **will not be accepted for major credit.**

Code	Title	Credit Hours
Major Courses		
MBIO 3812	Fundamentals of Microbiology Laboratory	2
MBIO 3813	Fundamentals of Microbiology	3
MBIO 4823	Pathogenic Microbiology and Infectious Disease	3
MBIO 4843	Molecular Biology	3
MBIO 4853	Physiology of Microorganisms	3
Choose one of the following:		3-6
MBIO 4893	Capstone in Microbiology (3 hours)	
MBIO 4950	Senior Thesis - Capstone (2 semesters)	
Choose two of the following:		6
MBIO 4263	Cell Biology Laboratory	
MBIO 4313	Biotechnology Applications	
MBIO 4813	Pathogenic Microbiology Laboratory	
MBIO 4873	Microbial Physiology and Molecular Biology Laboratory	
MBIO 4883	Water Microbiology Laboratory	
CHEM 3753	Introduction to Biochemical Methods	
Major Electives		
Choose MBIO electives to complete 30 hours required in the major (Cornerstone Research Experience is recommended)		4-7
Total Credit Hours		30

Major Support Requirements

Code	Title	Credit Hours
CHEM 1315	General Chemistry	5
CHEM 1415	General Chemistry (Continued)	5
CHEM 3053	Organic Chemistry I: Biological Emphasis	3
CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis	2
CHEM 3153	Organic Chemistry II: Biological Emphasis	3
CHEM 3653	Introduction to Biochemistry	3
PHYS 1311	General Physics Lab I	1
PHYS 1321	General Physics Lab II	1

PHYS 2424	General Physics for Life Science Oriented Majors	4
MATH 1743	Calculus I for Business, Life and Social Sciences	3
PBIO 1114	General Botany	4
or BIOL 1134	Introductory Biology: Evolution, Ecology and Diversity	
Total Credit Hours		38

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Microbiology and Plant Biology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Microbiology major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
CHEM 1315	General Chemistry	5

Recommended Courses		
The following are recommended:		
A second course in Biochemistry is strongly recommended		
ECON 1113	Principles of Economics-Macro	
ECON 1123	Principles of Economics-Micro	
B AD 2113	Introduction to Business I	
Total Credit Hours		41

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Microbiology and Plant Biology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Microbiology major requirements.

Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Microbiology and Plant Biology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Plant Biology major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
PBIO 1114	General Botany (Core II)	4
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I)	3

Beginning Foreign Language (Core I)		5
	Credit Hours	15
Second Semester		
BIOL 1134	Introductory Biology: Evolution, Ecology and Diversity	4
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
P SC 1113	American Federal Government (Core III)	3
Beginning Foreign Language continued (Core I)		5
	Credit Hours	15
Sophomore		
First Semester		
CHEM 1315	General Chemistry (Major Support & Core II)	5
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
Intermediate Foreign Language		3
Non-Western Culture (Core IV)		3
	Credit Hours	14
Second Semester		
PBIO 3534	Flowering Plants	4
BIOL 2913 or BIOL 4913	Intro to Quantitative Biology or Quantitative Biology	3
CHEM 1415	General Chemistry (Continued) (Major Support)	5
Free Elective, lower- or upper-division		3
	Credit Hours	15
Junior		
First Semester		
PBIO 3451	Methods in Plant Ecology	1
PBIO 3453	Principles of Plant Ecology	3
PBIO Major Elective, upper-division (3000-4000-level)		3
Understanding Artistic Forms (Core IV)		3
Western Civilization & Culture (Core IV)		3
Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	16
Second Semester		
PBIO Major Elective, upper-division (3000-4000-level)		3
CHEM 3053	Organic Chemistry I: Biological Emphasis (Major Support)	3
Social Science (Core III)		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	15
Senior		
First Semester		
PBIO 4114	Principles of Plant Physiology	4
CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis (Major Support)	2
PHYS 2414	General Physics for Life Science Oriented Majors (Major Support)	4
Humanities, upper-division, outside major (Gen. Ed.)		3
Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	16
Second Semester		
PBIO 4983	Senior Capstone: Plant Biol	3
PBIO Major Elective, upper-division (3000-4000-level)		3
PHYS 2424	General Physics for Life Science Oriented Majors	4
Humanities, upper-division, outside major (Gen. Ed.)		3
Free Elective, upper-division (3000-4000-level)		1
	Credit Hours	14
	Total Credit Hours	120

Plant Biology: Biotechnology, B.S.

Minimum Total Credit Hours: 120
Major Hours: 34
Minimum Upper-Division Hours: 48
Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B787 P061

- **Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.**
- **A grade of C or better must be earned in each course presented for major credit and in the required major support courses.**

Major Requirements

- Minimum of 34 hours of major work including twenty-six (26) upper-division hours.
- BIOL 1005, PBIO 2404, and MBIO 2815 will not be accepted for major credit.

Code	Title	Credit Hours
Required Major Courses		
BIOL 1134	Introductory Biology: Evolution, Ecology and Diversity	4
PBIO 1114	General Botany	4
PBIO 3453	Principles of Plant Ecology	3
PBIO 3534	Flowering Plants	4
PBIO 3673	Practical Bioinformatics	3
PBIO 4114	Principles of Plant Physiology	4
PBIO 4313	Biotechnology Applications	3
PBIO 4983	Senior Capstone: Plant Biol (Senior Capstone)	3
Choose 3 hours from the following:		3
PBIO 3113	Cell Biology	
PBIO 3333	Genetics	
PBIO 4843	Molecular Biology	
Choose 3 hours of additional Upper-Division laboratory coursework in PBIO or MBIO, or research with approval of advisor		3
Total Credit Hours		34

Major Support Requirements

Code	Title	Credit Hours
PHYS 2414	General Physics for Life Science Oriented Majors	4
PHYS 2424	General Physics for Life Science Oriented Majors	4
PHYS 1311	General Physics Lab I	1
PHYS 1321	General Physics Lab II	1
MATH 1743	Calculus I for Business, Life and Social Sciences (or equiv.)	3
CHEM 1315	General Chemistry (or equiv.)	5
CHEM 1415	General Chemistry (Continued) (or equiv.)	5

CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis	2
CHEM 3153	Organic Chemistry II: Biological Emphasis	3
CHEM 3653	Introduction to Biochemistry	3
MBIO 3812	Fundamentals of Microbiology Laboratory	2
MBIO 3813	Fundamentals of Microbiology	3
Choose 3 hours from:		3
HSCI 3333	Technology and Society in World History (also fulfills Upper-Division Core IV Humanities - Western Civ.)	
Advisor-approved alternative		
Total Credit Hours		42

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

Microbiology, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N690

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Microbiology and Plant Biology.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Microbiology, including at least nine (9) hours at the upper-division level. Note that introductory courses are not counted toward this total.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
MBIO 3812	Fundamentals of Microbiology Laboratory	2
MBIO 3813	Fundamentals of Microbiology	3
MBIO 4833	Basic Immunology	3
or MBIO 4843	Molecular Biology	
Choose additional upper division hours to meet the specified requirements		7
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Plant Biology, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N787

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Microbiology and Plant Biology.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Plant Biology, including at least nine (9) hours at the upper-division level. No more than one 1000-level course and one 2000-level course will apply toward the required 15 hours.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
Choose 15 hours of courses acceptable for major credit in Plant Biology, to include no more than one 1000-level and one 2000- level course		15
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Microbiology, M.S.

Minimum Total Hours (Thesis): 30
Minimum Total Hours (Non-Thesis): 32

Program Code: M690 Q451

Thesis Track

Code	Title	Credit Hours
Required Courses		
MBIO 5971	Seminar in Microbiology (1 hour course, two credits required)	2
MBIO 5980	Research for Master's Thesis	2-6
Outside Courses		
Choose a minimum of 3 hours selected from 5000- or 6000-level courses outside the Microbiology program (Microbiology may use Plant Biology as long as they are not cross-listed)		3
Electives		
Choose other 5000- and/or 6000-level courses, as approved by advisory committee		19-23
Total Credit Hours		30

Non-Thesis Track

Code	Title	Credit Hours
Required Courses		
MBIO 5971	Seminar in Microbiology (maximum of one credit required)	1

Choose MBIO 5000-and/or 6000-level courses (Must be regularly-scheduled classes as approved by the Graduate Advisor)	15
Outside Courses	
Choose a minimum of 3 hours selected from 5000- or 6000-level courses outside the Microbiology program (Microbiology may use Plant Biology as long as they are not cross-listed.)	3
Electives	
Choose other 5000- and/or 6000-level courses, as approved by advisory committee	13
Total Credit Hours	32

Non-Thesis students must pass a Comprehensive Written Examination administered by a committee of three faculty (two of whom must be Microbiology faculty) in the last year of study.

Notes

- **No more than 6 hours of Independent Research may be completed with the same instructor. No more than 12 total hours of Independent Research may be applied to the degree.**
- **With department approval, up to 8 hours of transfer credit may be applied to the degree. Courses must have grades of A, B, or S; be less than 5 years old at the time of admission to the program; and *not* previously applied to a completed degree.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Microbiology: Bioinformatics, M.S.

Microscopic Imaging and Technology, Graduate Certificate

Minimum Total Hours: 15

Program Code: G619

The Certificate Program in Microscopic Imaging and Technology is designed for graduate students with a strong interest in the investigation of using advanced imaging technology to characterize biological, materials and physical science specimens at a range of resolutions that can reach to a near atomic level. Students who may be interested in this certificate come from a wide range of interests (e.g., Biology, Microbiology, Plant Biology, Biomedical Engineering, Biotechnology, Chemistry, Biochemistry, Materials Sciences, Nanotechnology, Physics).

Certificate Requirements

Code	Title	Credit Hours
MBIO 5364	Transmission Electron Microscopy (crosslisted with PBIO and BIOL)	4
MBIO 5374	Scanning Electron Microscopy (crosslisted with PBIO and BIOL)	4
MBIO 5394	Advanced Light Microscopy (crosslisted with PBIO and BIOL)	4
Choose 3 hours of Independent Research selected from a list maintained by the Department of Microbiology and Plant Biology		3
Total Credit Hours		15

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Ecology and Evolutionary Biology: Botany and Microbiology, Ph.D.

Minimum Total Hours: 90

Program Code: D290

Program Requirements

Code	Title	Credit Hours
Required Courses		
MBIO/PBIO 5453		3
MBIO/PBIO 5471	Seminar in Ecology and Evolutionary Biology (including 2 presentations)	2
MBIO/PBIO 5971	Seminar in Microbiology (2 hours of 5971 taken for the master's degree may be applied)	3
Outside Courses: 3 credit hours of non-major coursework as approved by the dissertation advisory committee		3
Additional 5000 and/or 6000 level coursework		
Up to 49 hours of coursework as approved by the dissertation advisory committee. These may include transfer credits from an accredited college or university.		49
Dissertation Research		
MBIO/PBIO 6980	Research for Doctoral Dissertation (minimum 30 hours)	30
Total Credit Hours		90

NOTES:

- Students must present 2 undergraduate courses that enhance written and oral communication skills, and/or quantitative skills. Does not count towards degree program.
- Independent Research course limitations: Maximum of 6 hours with one instructor, and not more than 12 hours combined under one course number.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled

and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

Microbiology, Ph.D.

Minimum Total Hours: 90

Program Code: D690 R451

Program Requirements

Code	Title	Credit Hours
Required Courses		
Outside Courses: 3 credit hours of non-microbiology coursework as approved by the dissertation advisory committee. Plant Biology courses may be used as long as they are not cross-listed with MBIO.		3
MBIO 5971	Seminar in Microbiology (up to 2 hours taken for the master's degree may be applied)	3
Additional 5000 and/or 6000 level coursework		
Up to 54 hours of coursework as approved by the dissertation advisory committee. These may include transfer credits from an accredited college or university.		54
Dissertation Research		
MBIO 6980	Research for Doctoral Dissertation (30 hours minimum)	30
Total Credit Hours		90

NOTES:

- Students must present 2 undergraduate courses that enhance written and oral communication skills, and/or quantitative skills. Does not count towards degree program.
- Independent Research course limitations: Maximum of 6 hours with one instructor, and not more than 12 hours combined under one course number.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

General Information

The Department of Modern Languages, Literatures, and Linguistics (MLLL) plays a key role in bringing the world to OU and OU to the world. Thus, MLLL is dedicated to upholding OU's mission of excellence through research and teaching in the humanities.

The MLLL faculty teaches fundamental linguistic skills and provides the intellectual training to contextualize cross-cultural experiences. We also emphasize the significance of literary and cultural traditions, as developed through history, for human self-understanding. At the graduate level, master's and doctoral students combine advanced courses in literature, culture, theory, and methodology with supervised pre-professional training. Consequently, our programs are designed to prepare the next generation of researchers, teachers, and professionals, whose expertise builds upon modern languages, literatures, and cultures.

MLLL is home to scholars in literature, cultural studies, film, second language acquisition, and linguistics. Our faculty produces and disseminates knowledge in the humanities and advances critical humanistic research in international fields through the publication of numerous books and articles, active engagement in national and international professional organizations, and participation in conferences across the continents.The faculty commitment to research is intimately connected with our teaching, and subsequently, we incorporate the latest innovations in our courses. Hence, MLLL is resolutely committed to OU's mission to lead in research.

Through our engagement with critical inquiry, teaching, and service to the community, the Department of Modern Languages, Literatures, and Linguistics strives to fulfill OU's primary missions to achieve excellence and to value world cultures.

Programs & Facilities

Programs for Academic Excellence

Students are encouraged to study abroad as an enhancement to their degree programs. Summer or semester and year-long exchange programs in South America, Europe, Asia, and Africa are available to all students.

Special Facilities

The Language Learning Center is a state-of-the-art computer facility that provides technology, resources, and an engaging environment in which students, faculty, instructors, and visitors are supported in their language acquisition pursuits. The Learning Center boasts a large library of digitized listening files, web activities, language-learning software, and video/DVD materials. Listening materials and web activities are available to students in the Learning Center and via the remote connection.

SCHOLARSHIPS AND FINANCIAL AID

The Department of Modern Languages, Literatures, and Linguistics offers a variety of funding opportunities to students who choose to major or minor in one or more modern languages. MLLL students apply for all department scholarships online through the CASH website at scholarships.ou.edu.

Graduate assistantships are available through the department. All graduate assistants are required to enroll in MLLL 4813 during their first semester. In addition, graduate assistants are required to enroll in a minimum of six credit hours of graduate-level courses per semester.

Undergraduate Study

Bachelor of Arts Degree

The department offers the Bachelor of Arts degree with majors in Arabic, Chinese, French, German, Italian, Japanese, Russian, Spanish and Linguistics. Beginning language courses do not count toward the major. In the second year, students focus on improving the basic skills of speaking, understanding, reading, and writing while gaining some exposure to the culture and the literature of the language. The third year generally focuses on improving conversation skills and pronunciation, acquiring a stronger understanding of the grammatical rules of the language, and reading a limited number of complete literary works. In the senior year, majors study civilization and literature from its origins to the modern era.

The department also offers Minors in Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Linguistics, Portuguese, Russian and Spanish.

- Arabic, B.A. (p. 487)
- Chinese, B.A. (p. 489)
- French, B.A. (p. 492)
- German, B.A. (p. 494)
- Italian, B.A. (p. 496)
- Japanese, B.A. (p. 498)
- Linguistics, B.A. (p. 500)
- Russian, B.A. (p. 503)
- Spanish, B.A. (p. 505)
- Arabic, Minor (p. 508)
- Chinese, Minor (p. 508)
- French, Minor (p. 509)
- German, Minor (p. 509)
- Hebrew, Minor (p. 509)

- Italian, Minor (p. 510)
- Japanese, Minor (p. 510)
- Linguistics, Minor (p. 511)
- Portuguese, Minor (p. 511)
- Russian, Minor (p. 512)
- Spanish, Minor (p. 512)

Course Placement

Students who have completed two or more years of high school foreign language and who wish to continue their foreign language study at the University will be placed in appropriate courses based on their scores in the proficiency exam. Placement exams are administered during pre-enrollment periods as well as during regular enrollment periods.

Native Speaker Policy

For departmental purposes, the Department of Modern Languages, Literatures, and Linguistics defines a native speaker of a language as any individual who has been raised in a family and a society where this language is habitually used for everyday communication and is the language of instruction in the student's school system. A native speaker may not enroll in any undergraduate skills course in his or her native language, with the single exception of the course in Advanced Composition 3423, but may earn credit by advanced standing exams.

Graduate Study

Master of Arts Degree

Master of Arts degrees in French, German, and Spanish are offered in both a thesis and a non-thesis program.

- French, Master of Arts (p. 513)
- German, Master of Arts (p. 513)
- Spanish, Master of Arts (p. 514)
- TESOL, Master of Arts (p. 515)

Doctoral Programs

Doctoral degrees are offered in French (p. 515) and Spanish (p. 516).

Before completion of the degree, students must demonstrate reading competency in a second language. In order to do so, they may take the departmental Graduate Reading Exam or complete two semesters or ten hours in another language.

A general examination based on coursework and a reading list established in consultation with the student's committee members is required for the Ph.D.

See Spanish Ph.D. Exam and Dissertation and French Ph.D. Exam and Dissertation for details on the Ph.D. examination and dissertation guidelines.

Courses

ARAB 1115 Beginning Arabic 5 Credit Hours
Aims at developing mastery of Arabic phonology and script, control of basic vocabulary, grammar, basic communicative situations, and cultural concepts explicitly expressed in the language. Listening and speaking are emphasized from the very beginning. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F) [I-FL].

ARAB 1225 Beginning Arabic Continued 5 Credit Hours
Prerequisite: 1115. Focuses on all language skills (listening, speaking, reading, and writing), including developing the ability to interact successfully in basic communicative situations. Short texts and topics of general import as well as cultural concepts embedded in the language will be covered. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (Sp) [I-FL] .

ARAB 2013 Colloquial Arabic 3 Credit Hours
Prerequisite: ARAB 1225. May be repeated once with a change of topic (dialect); maximum credit 6 hours. Develops communicative functional abilities, in particular speaking and listening, in one of the regional spoken dialects of the Arab world. The direct connection between the colloquial dialect taught and Modern Standard Arabic will be explored. Relevant aspects of local culture will be covered, as well as the cultural appropriateness of communicative functions introduced. (F, Sp)

ARAB 2113 Intermediate Arabic 3 Credit Hours
Prerequisite: ARAB 1225. Aims at developing language skills (listening, speaking, reading and writing) at the intermediate level, with more emphasis on reading and writing. Expands into more complex structures, wider communicative situations and vocabulary relating to practical, social, cultural and media topics. (F)

ARAB 2223 Intermediate Arabic Continued 3 Credit Hours
Prerequisite: ARAB 2113; ARAB 2013 or concurrent enrollment. Continues developing language skills (listening, speaking, reading and writing) at the intermediate level, with more emphasis on reading and writing. Continues to expand into more complex structures, wider communicative situations and vocabulary relating to practical, social, cultural and media topics. (Sp)

ARAB 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ARAB 3113 Advanced Arabic 3 Credit Hours
Prerequisite: 2223. Students are expected to read, listen to, and understand the content and intent of a variety of authentic texts; write at the paragraph level; and participate in formal and informal discussion on social and professional topics. (F)

ARAB 3223 Advanced Arabic (Continued) 3 Credit Hours
Prerequisite: 3113. Students are expected to read, listen to, and understand the content and intent of a variety of authentic texts; write at the paragraph level; and participate in formal and informal discussion on social and professional topics. (Sp)

ARAB 3423 Advanced Arabic Composition 3 Credit Hours
Prerequisite: ARAB 2223. Instruction in proper writing habits at an advanced level, toward the achievement of idiomatic formal Arabic. Focuses on writing in Arabic for personal, professional and academic needs. Develops the ability to narrate and describe in the different Arabic tenses (past, present and future), narrate and describe with a sufficient control of aspect (indicating whether an action is completed), write summaries of familiar topics, combine sentences into texts of paragraph length, and use cohesive devices properly. (F)

ARAB 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ARAB 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers topics not usually presented in the regular courses.

ARAB 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses.

ARAB 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

ARAB 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

ARAB 4413 Arabic Structure 3 Credit Hours
Prerequisite: 3223. Detailed explanations of the structure of the Arabic language at both the theoretical and pedagogical levels. The different phonological, morphological, and syntactic rules are presented and discussed holistically, combining both form and function, to achieve adequate knowledge of Arabic structure. The course is conducted mostly in Arabic. (F)

ARAB 4433 Arabic Media and Politics 3 Credit Hours
Prerequisite: 3223. Exposes students to various types of mass media covering contemporary political, economic, historical, and social issues in the Arab world. Sociolinguistic features of news reports are examined to understand the content, political underpinnings, and the framing or packaging techniques used in media discourse. The course is conducted entirely in Arabic. (F)

ARAB 4443 Readings in Islamic Religious Texts 3 Credit Hours
Prerequisite: 3223. Representative texts in Arabic from the Qur'an, Qur'anic Exegesis, Prophetic Hadith, Prophet Muhammad's biographies, and legal, mystical, and theological treatises. The objectives are to understand major Islamic doctrines, and themes, and to develop working knowledge of genre specific vocabulary and style. Class is conducted in Arabic. (Sp)

ARAB 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

ARAB 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ARAB 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: four courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

ARAB 4993 Readings in Contemporary Arab Culture 3 Credit Hours
Prerequisite: ARAB 4413 and ARAB 4433. Deeper understanding of major cultural issues by examining critical texts of intellectual figures throughout the contemporary Arab world. Prepares students to write their final project in Arabic, and provides opportunities for developing their language skills further for adequate mastery of the language. Course is conducted entirely in Arabic. (Sp) [V] .

CHIN 1115 Beginning Chinese 5 Credit Hours
An elementary course in understanding, speaking, reading and writing Mandarin Chinese. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F) [I-FL].

CHIN 1225 Beginning Chinese (Continued) 5 Credit Hours
Prerequisite: 1115. Continued training in understanding, speaking, reading and writing elementary Mandarin Chinese. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (Sp) [I-FL].

CHIN 2113 Intermediate Chinese 3 Credit Hours
Prerequisite: 1225. Combination of basic Chinese grammar and vocabulary and their application to spoken and written Mandarin Chinese. (F)

CHIN 2223 Intermediate Chinese (Continued) 3 Credit Hours
Prerequisite: 2113. Continued training in the use of grammar and vocabulary in both spoken and written Mandarin Chinese. (Sp)

CHIN 2323 Intermediate Listening and Speaking 3 Credit Hours
Prerequisite: permission of department. Serves as the prerequisite for Chinese 3113 (Advanced Chinese I.) Assignments and class activities include immersion in daily family-type communication, conversations and functioning in daily business activities, travel and functioning at the intermediate proficiency level. Upon completion, students will have developed the languages skills that will allow them to function with most daily situations in a Chinese-speaking country. (F, Sp)

CHIN 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

CHIN 3113 Advanced Chinese I 3 Credit Hours
Prerequisite: CHIN 2223 and CHIN 2323 or equivalent. An integrated advanced course designed to improve skills in the four aspects of learning Mandarin Chinese as a foreign language: listening, speaking, reading, and writing. Emphasis is on the phonetics of standard Mandarin Chinese and conversation on topics in daily life. (F)

CHIN 3223 Advanced Chinese II 3 Credit Hours
Prerequisite: 3113 or equivalent. Continue to improve skills in the four aspects of learning Mandarin Chinese as a foreign language: listening, speaking, reading, and writing. Emphasis on composition and advanced-level reading comprehension. (Sp.

CHIN 3323 Advanced Listening and Speaking 3 Credit Hours
Prerequisite: 2223. Develops listening and speaking skills of students who have taken intermediate Chinese. Conversations are presented in authentic and naturally-paced language. Lessons are constructed to support existing knowledge and develop mastery of new vocabulary, grammatical patterns, and sociocultural formalities in ways that are compatible with genuine communication. (F)

CHIN 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CHIN 3623 Business Chinese 3 Credit Hours
Prerequisite: permission of department. Designed for students who have completed at least two years basic Chinese language learning and have an interest in business-related communications with Chinese- speaking people. Aims to prepare students with the language skills and cultural knowledge for a globalized economy through learning the vocabulary, usages, customs and conventions required for business activities with China. (F)

CHIN 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

CHIN 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

CHIN 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

CHIN 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: two courses in Chinese; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

CHIN 4113 Advanced Reading and Writing 3 Credit Hours
Prerequisite: 3223. Advanced reading and comprehension of authentic Chinese texts. Development of good writing skills with correct usage of grammar. (Sp)

CHIN 4333 Translating Chinese 3 Credit Hours
Prerequisite: CHIN 3113. Assists advanced Chinese major or minor students attain better Chinese-to-English translation skills through practical training and hands-on instruction. The emphasis is on comprehension of original Chinese texts, with particular attention to idioms and expressions. (Irreg.)

CHIN 4533 Learning Chinese through Media 3 Credit Hours
Prerequisite: CHIN 3113 or equivalent. Intended for advanced students to enhance their reading/listening proficiency in modern Chinese language and further develop their self-learning skills. Students will be immersed in a simulacrum of Chinese media by reading Chinese news reports; watching Chinese news videos, short films, and TV programs; and using the Chinese encyclopedia. (F)

CHIN 4543 Study of Classical Chinese and Calligraphy 3 Credit Hours
Prerequisite: CHIN 3223. Major aspects covered include 1) grammatical structures of classical Chinese compared to modern Chinese; 2) lexical and semantic features of most commonly used words and phrases; 3) reading and understanding of simple texts from the classics; 4) cultural perspectives to appreciate Chinese heritage texts, paintings and calligraphy. (F)

CHIN 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

CHIN 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CHIN 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: four courses in Chinese and general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

CHIN 4993 Senior Capstone for Chinese 3 Credit Hours
Prerequisite: Senior standing or permission of instructor. Designed to serve as the senior capstone experience for the Chinese major. Students will study linguistic theory, technique, and methodology. Includes reading in critical analysis as preparation for writing assignments and final project to be written in Chinese. (F) [V].

FR 1013 Beginning French for Reading 3 Credit Hours
Prerequisite: graduate standing. Carries elective credit only. Designed as initial preparation for the advanced-degree reading examination. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F)

FR 1115 Beginning French 5 Credit Hours
An elementary course in understanding, speaking, reading and writing French. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].

FR 1225 Beginning French (Continued) 5 Credit Hours
Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing French. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].

FR 2113 Intermediate French 3 Credit Hours
Prerequisite: 1225. The systematic cultivation of increased depth and control in the basic skills of listening, speaking, reading and writing French. Laboratory (F, Sp, Su)

FR 2133 French Conversation and Culture 3 Credit Hours
Prerequisite: 1225. Conversation practice based on elementary readings in selected topics from traditional and contemporary French culture, with the objective of developing additional active vocabulary and increased oral fluency while obtaining basic concepts about the French culture. (F, Sp, Su)

FR 2223 Intermediate French (Continued) 3 Credit Hours
Prerequisite: 2113. The systematic cultivation of increased depth and control in the basic skills of listening, speaking, reading and writing French. Laboratory (F, Sp, Su)

FR 2243 French Conversation and Literature 3 Credit Hours
Prerequisite: 2113 or 2133. Conversation practice based on modern literary texts, with the objective of improving reading speed, vocabulary and comprehension, and increased oral fluency, while obtaining an expanded appreciation of French literary texts. (F, Sp, Su)

FR 2253 Health, Medicine, and the Environment in French Culture 3 Credit Hours
Prerequisite: FR 2223 or concurrent enrollment, or FR 2243. This second-year French class teaches about key issues in health, medicine, and the environment, so that students develop functional cultural and linguistic fluency about French-speaking populations in relation to the topics under study. Issues of global and personal health, medicine, and the human relationship with nature, ecology and the environment are essential topics for our era. (F, Sp)

FR 2970 Special Topics 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

FR 3083 Advanced French Conversation and Phonetics 3 Credit Hours
Prerequisite: 2243 or concurrent enrollment. Intensive practice in speaking French on topics of everyday life; development of specialized vocabularies; fundamentals of French phonetics. (F, Sp)

FR 3423 Advanced French Composition 3 Credit Hours
Prerequisite: FR 2133 or FR 2243 or FR 2263. The inculcation of proper writing habits, at an advanced level, toward the achievement of idiomatic French. (Sp, Su)

FR 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

FR 3623 Business French 3 Credit Hours
Prerequisite: two years of college French or equivalent. Focuses on terms and expressions used in business settings. Designed to impart an awareness of the differences between French and American business cultures. (F)

FR 3723 French for the Professions 3 Credit Hours
Prerequisite: two years of college French or equivalent. Introduces students to vocabulary in sectors such as advertising, marketing, transportation, medicine, and law. French professional and business cultures are studied. Communication skills for professional and business settings will be practiced in this course. (Sp)

FR 3753 French Culture Through Film 3 Credit Hours
Prerequisite: 2243 or concurrent enrollment. This course deals with contemporary French culture through the medium of cinema. Topics examined include family, education, religion and societal issues, and ethnicity. As a course taught in French, it will also focus on regional accents and generational and ethnic speech. (F)

FR 3853 Introduction to Literary Analysis 3 Credit Hours
Prerequisite: 2223. Designed to introduce students to the language and technique of literary analysis. Also serves to improve reading skills generally, as well as oral/aural and written skills. Representative works from the various literary genres will be studied. (Sp, Su)

FR 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp)

FR 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. Will deal with concepts not usually presented in regular coursework. (F, Sp, Su)

FR 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F)

FR 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

FR G4153 Survey of French Literature to 1800 3 Credit Hours
Reading and discussion of major French works and their background from the Middle Ages to the French Revolution. (F, Su)

FR G4163 Survey of French Literature (Continued) 3 Credit Hours
Prerequisite: 4153 or permission. Reading and discussion of major French works and their background from 1800 to the present day. (Sp, Su)

FR 4313 From Lascaux to la Terreur 3 Credit Hours
Prerequisite: FR 3423; HIST 1223 or 1233. The political and social background of French literature from its beginning to the French revolution. (F, Su)

FR 4323 The Making of Modern French Culture 3 Credit Hours
Prerequisite: FR 3423; HIST 1223 or HIST 1233. The political and social background of French literature from the French revolution to the present day. (Sp)

FR 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

FR 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

FR 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

FR 4993 Senior Capstone in French 3 Credit Hours
Prerequisite: graduating majors in French. Requires undergraduate French majors to synthesize their knowledge of French contributions to world civilization. They will be required, as part of this enterprise, to demonstrate their mastery of the four basic skills involved in learning a foreign language: reading, writing, speaking, and understanding. (Sp) [V].

FR 5223 Seventeenth-Century Theatre 3 Credit Hours
A study of dramatic works of Moliere, Corneille, Racine and other contemporaries. (Irreg.)

FR 5283 Twentieth-Century French Novel 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Course presents a survey of the major forms of French novel throughout the twentieth century. (Irreg.)

FR 5293 Twentieth-Century French Poetry and Theatre 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Course examines major developments in French poetry and theatre throughout the twentieth century. (Irreg.)

FR 5313 Introduction to Old French 3 Credit Hours
Prerequisite: 10 hours of college Latin or equivalent; some knowledge of articulatory phonetics useful, but not required. History of the French vernacular from Latin to Modern French: external history, phonology, morphology, lexicon, syntax, with emphasis on phonological evolution; and introduction to the reading of Old French via short excerpts from monuments of literature, from the Strasbourg Oaths to Cent Nouvelles Nouvelles. (Alt. F)

FR 5323 Old French Readings 3 Credit Hours
Prerequisite: 5313. Introduction to a literary understanding and appreciation of the Old French Canon as represented by such texts as the Alexis, the Roland, Chretien's romances, Beroul's Tristan, the Rose, theatre, chronicles and lyric poetry, including Rutebeuf and Villon. (Alt. Sp)

FR 5623 Seventeenth-Century Prose and Poetry 3 Credit Hours
Prerequisite: 4153. A survey of baroque, precieux and classical style, form and content as exemplified in the prose and poetry of the period. (Irreg.)

FR 5633 Eighteenth-Century French Philosophes 3 Credit Hours
Prerequisite: graduate standing or permission. Presents the "philosophes" of the eighteenth century in France such as Montesquieu, Voltaire and Diderot. (Irreg.)

FR 5643 Eighteenth-Century French Narrative and Theatre 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. The course will present an overview of eighteenth-century French narrative and theatre. (Irreg.)

FR 5653 The French Atlantic 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Examines the aesthetic, social, and political issues foregrounded in 20th- and 21st-century Caribbean and Sub-Saharan francophone literature as well as the various historical forces influencing the development of Francophone cultures on both sides of the Atlantic. (Irreg.)

FR 5910 Problems in Research 2-4 Credit Hours
2 to 4 hours. May be repeated with change of content; maximum credit nine hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (F, Sp, Su)

FR 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

FR 5963 Nineteenth-Century French Novel 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Course covers the major developments of the French novel throughout the nineteenth century. (Irreg.)

FR 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

FR 5973 Nineteenth-Century French Poetry and Theatre 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Course surveys the major literary developments in French poetry and theatre throughout the nineteenth century. (Irreg.)

FR 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp)

FR 5990 Independent Studies 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit 12 hours. Independent reading on one or more topics under the general direction of a faculty member. (F, Sp, Su)

FR 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

FR 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

FR 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 To 16 Hours. (F, Sp)

FR 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

GERM 1115 Beginning German 5 Credit Hours
An elementary course in understanding, speaking, reading and writing German. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].

GERM 1225 Beginning German (Continued) 5 Credit Hours
(Continued) Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing German. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].

GERM 2113 Intermediate German 3 Credit Hours
Prerequisite: 1225. Develops reading skills and control of grammar. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. Reading and discussion of texts of literary and cultural interest. Oral and written assignments. (F, Sp)

GERM 2223 Intermediate German (Continued) 3 Credit Hours
(Continued) Prerequisite: 2113. (F, Sp)

GERM 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

GERM 3333 Internship in a German-Speaking Country 3 Credit Hours
Prerequisite: junior or senior standing or permission of instructor. May be repeated; maximum credit six hours. Supplements as well as enhances a work experience of at least four weeks in a German-speaking country (e.g., Federal Republic of Germany, Federal Republic of Austria, Switzerland, Liechtenstein, German-speaking northern Italy, German-speaking eastern Belgium) that is typically undertaken during the summer. The course involves research, reflection, and oral and written communication about the internship experience. (Su)

GERM 3423 Advanced German Composition 3 Credit Hours
Prerequisite: GERM 2223. The inculcation of proper writing habits, at an advanced level, toward the achievement of idiomatic German. (Sp)

GERM 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

GERM 3523 Advanced Conversation 3 Credit Hours
Prerequisite: GERM 2223. Practice in conversational skills at an advanced level. (Sp)

GERM 3623 Business German 3 Credit Hours
Prerequisite: 2223. Introduces German business language as used in retail/wholesale, export/import, transport, and media. Will also familiarize the student with the European Union and cultural aspects of the German speaking business world. (F)

GERM 3723 German for the European Market 3 Credit Hours
Prerequisite: 2223. German business language as used in banking transactions, marketing, business letters, and business firms such as corporations, general and limited partnerships, and trade unions. How to respond to claims by firms in European countries and how to establish subsidiaries in another European country. Prepares students to take the "Prufung Wirtschaftsdeutsch" (International Certificate in Business German). (Sp)

GERM 3853 Literature and Film 3 Credit Hours
Prerequisite: GERM 2223. Introduction to representative works of contemporary German literature and film. Within the context of reading and writing assignments and the viewing and discussion of films, the course is designed to improve language skills and knowledge of German culture. (F)

GERM 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp)

GERM 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered vary. The content deals with concepts not usually presented in regular coursework. (Irreg.)

GERM 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp)

GERM 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

GERM 4003 History of the German Language 3 Credit Hours
(Slashlisted with 5003) Prerequisite: 3423, 3853. Linguistic, cultural, and social evolution of the German language from Indo-European times to the present. Additional emphasis is given to the place of German within the Germanic family of languages and to significant socio-linguistic issues in German-speaking countries as they enter the new millennium. No student may earn credit for both 4003 and 5003. (F)

GERM 4113 The Middle Ages 3 Credit Hours
(Slashlisted with 5113) Prerequisite: 3423, 3853. Secular and religious literature of medieval Germany, Austria, Switzerland, and the Netherlands discussed within the international cultural context of the European Middle Ages. No student may earn credit for both 4113 and 5113. (Alt. F)

GERM 4253 Goethe's Faust and the Problem of Evil 3 Credit Hours
(Slashlisted with 5253) Prerequisite: 3423 and 3853. Intensive study of Faust I, Faust II, and the Urfaust. The social and cultural history of the Faust figure, up to Goethe's Faust, will also be explored. No student may earn credit for both 4253 and 5253. (Irreg.)

GERM G4313 Literature and Culture Pre-1700 3 Credit Hours
Prerequisite: 3423 or 3853. From the beginnings until the end of the seventeenth century. A survey of literature, art, religion, social relations, music and history. (Alt. F)

GERM G4323 Literature and Culture 1700-1890 3 Credit Hours
Prerequisite: 3423 or 3853. Literature from 1700 to 1900. A survey of literature, art, philosophy, social relations, music and history. (Alt. F)

GERM G4333 Topics in the Twentieth Century German Literature and Culture 3 Credit Hours
Prerequisite: 3423 or 3853. From 1900 to the present. A survey of literature, art, film, social relations, music and history. (Sp) [V].

GERM 4353 German Poetry in its Cultural Context 3 Credit Hours
(Slashlisted with GERM 5353) Prerequisite: GERM 3423 or GERM 3853. Focuses on the role that poetry has played in the formation of cultural identity in German-speaking countries from the twelfth to the twentieth century. Makes students aware of the way in which poetry reflects the major cultural developments of this period and gives them the critical skills needed to read, understand, appreciate, and write on German poems. No student may earn credit for both 4353 and 5353. (Irreg.)

GERM 4433 German Classicism and Romanticism 3 Credit Hours
(Slashlisted with 5433) Prerequisite: 3423, 3853. A comprehensive study of the characteristics of Classicism and Romanticism with emphasis on contrasts in literary theory and techniques. No student may earn credit for both 4433 and 5433. (Alt. F)

GERM 4663 Early Twentieth Century Literature 3 Credit Hours
(Slashlisted with 5663) Prerequisite: 3423, 3853. A study of the literature and theory of the first half of the twentieth century. Special attention will be given to naturalism, impressionism, and expressionism. No student may earn credit for both 4663 and 5663. (Alt. F)

GERM 4773 Post-1945 German Literature and Culture in Modern Europe 3 Credit Hours
(Slashlisted with 5773) Prerequisite: 3423, 3853. Study of selected prose, poetry, and drama written after World War II in Austria, East Germany, Switzerland and West Germany, within the context of cultural and economic changes. Also includes contemporary German films. No student may earn credit for both 4773 and 5773. (F) [IV-WC] .

GERM 4953 Literature, Art and Culture in Turn-of-the-Century Austria 3 Credit Hours
Prerequisite: 3423, 3853. Examines two antithetical impulses in the Habsburg fin de siecle: to revel in ornamental display and to reveal essences beneath the exterior. Examines the tension and interplay between the two tendencies in the fields of literature, art, architecture, and theory, and consider some representative figures of the period, such as Klimt, Freud, Rilke, and Kafka. No student may earn credit for both 4953 and 5953. (Irreg.)

GERM 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

GERM 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

GERM 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

GERM 5003 History of the German Language 3 Credit Hours
(Slashlisted with 4003) Prerequisite: graduate standing. Linguistic, cultural, and social evolution of the German language from Indo-European times to the present. Additional emphasis is given to the place of German within the Germanic family of languages and to significant socio-linguistic issues in German-speaking countries as they enter the new millennium. No student may earn credit for both 4003 and 5003. (F)

GERM 5113 The Middle Ages 3 Credit Hours
(Slashlisted with 4113) Prerequisite: graduate standing. Secular and religious literature of medieval Germany, Austria, Switzerland, and the Netherlands discussed within the international cultural context of the European Middle Ages. No student may earn credit for both 4113 and 5113. (Alt. F)

GERM 5253 Goethe'S Faust and the Problem of Evil 3 Credit Hours
(Slashlisted with 4253) Prerequisite: graduate standing. Intensive study of Faust I, Faust II, and the Urfaust. The social and cultural history of the Faust figure, up to Goethe's Faust, will also be explored. No student may earn credit for both 4253 and 5253. (Irreg.)

GERM 5353 German Poetry in its Cultural Context 3 Credit Hours
(Slashlisted with GERM 4353) Prerequisite: graduate standing and GERM 3423 or GERM 3853. Focuses on the role that poetry has played in the formation of cultural identity in German-speaking countries from the twelfth to the twentieth century. Makes students aware of the way in which poetry reflects the major cultural developments of this period and gives them the critical skills needed to read, understand, appreciate, and write on German poems. No student may earn credit for both 4353 and 5353. (Irreg.)

GERM 5663 Early Twentieth Century Literature 3 Credit Hours
(Slashlisted with 4663) Prerequisite: graduate standing. A study of the literature and theory of the first half of the twentieth century. Special attention will be given to naturalism, impressionism, and expressionism. No student may earn credit for both 4663 and 5663. (Alt. F)

GERM 5773 Post-1945 German Literature and Culture in Modern Europe 3 Credit Hours
(Slashlisted with 4773) Prerequisite: graduate standing. Study of selected prose, poetry, and drama written after World War II in Austria, East Germany, Switzerland and West Germany, within the context of cultural and economic changes. Also includes contemporary German films. No student may earn credit for both 4773 and 5773. (F)

GERM 5953 Literature, Art and Culture in Turn-of-the-Century Austria 3 Credit Hours
Prerequisite: graduate standing. Examines two antithetical impulses in the Habsburg fin de siecle: to revel in ornamental display and to reveal essences beneath the exterior. Examines the tension and interplay between the two tendencies in the fields of literature, art, architecture, and theory, and consider some representative figures of the period, such as Klimt, Freud, Rilke, and Kafka. No student may earn credit for both 4953 and 5953. (Irreg.)

GERM 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

GERM 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

GERM 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp)

GERM 5990 Independent Studies 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit 12 hours. Independent reading on one or more topics under the general direction of a faculty member. (F, Sp, Su)

HEBR 1115 Beginning Hebrew 5 Credit Hours
An elementary course in modern and Biblical Hebrew. The course provides basic understanding, speaking, writing, and reading Hebrew, both modern and Biblical. Similarities and differences between modern and Biblical Hebrew are explored. (F, Sp) [I-FL].

HEBR 1225 Beginning Hebrew (continued) 5 Credit Hours
Prerequisite: 1115. Focuses on all language skills: understanding, speaking, writing, reading of both modern and Biblical texts; including further exploration of similarities and differences between modern and Biblical Hebrew. By the end of this course, students are expected to write short dialogs. (F, Sp) [I-FL].

HEBR 2113 Intermediate Hebrew 3 Credit Hours
Prerequisite: 1225. Further training in understanding, speaking, writing, and reading Hebrew, both modern and Biblical. Emphasis is given to grammar as well as to exploring differences in style between various Biblical texts, such as Torah versus prophets. (F)

HEBR 2213 Intermediate Hebrew II 3 Credit Hours
Prerequisite: HEBR 2113. At the end of this course students will have acquired the ability to read longer texts, both modern and Biblical. They will be able to express themselves more sophisticatedly, and on more topics. (Sp)

HEBR 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

HEBR 3113 Advanced Hebrew 3 Credit Hours
Prerequisite: 2113 and 2213. Continued training in understanding, speaking, writing, reading literary texts and newspaper articles, as well as Biblical texts, such as poetry. Emphasis is given to discussions on and writing about these texts. (F)

HEBR 3223 Advanced Hebrew II 3 Credit Hours
Prerequisite: HEBR 3113. A continuation of Advanced Hebrew I. The aim is to continue promoting the four language skills; students should be able to sophisticatedly and intelligently express themselves both orally and in writing. (Sp)

HEBR 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

HEBR 3513 Biblical Hebrew 3 Credit Hours
Prerequisite: HEBR 2113 or permission of instructor. Learn Biblical Hebrew and read from the Hebrew Bible (Old Testament) in the original language. (Irreg.)

HEBR 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

HEBR 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

HEBR 3973 Hebrew Conversation 3 Credit Hours
Prerequisite: HEBR 2213 or permission of the instructor. Intensive practice in speaking Hebrew on topics of everyday life, current events, and culture, with emphasis on the particular vocabulary and terminology of each of these fields. Although the focus of this course is oral communication, students will also read and write as well. (Irreg.)

HEBR 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

HEBR 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

HEBR 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

HEBR 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: 3223 or permission of instructor. May be repeated with change of content; maximum credit 9 hours. This course is designed to give intensive training in listening and speaking in Hebrew for students who have taken 3223. The course develops students' understanding of functional ability of listening and speaking Hebrew. Students will learn unique features of Hebrew language and culture. (Irreg.)

HEBR 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

ITAL 1115 Beginning Italian I 5 Credit Hours
An elementary course in understanding, speaking, reading and writing Italian. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

ITAL 1225 Beginning Italian II 5 Credit Hours
Prerequisite: 1115. Fundamentals of Italian continued. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

ITAL 2113 Intermediate Italian 3 Credit Hours
Prerequisite: 1115. Fundamentals of Italian continued. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

ITAL 2223 Intermediate Italian Continued 3 Credit Hours
Prerequisite: 2113. Emphasizes advanced reading skills and mastery of grammar. Emphasis on sophisticated vocabulary and understanding of grammatical structures. Literary and cultural texts discussed in oral and essay form. (Sp)

ITAL 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ITAL 3073 Italian Conversation & Culture 3 Credit Hours
Prerequisite: ITAL 2223. Intensive practice in speaking Italian on topics of everyday life. (Sp)

ITAL 3423 In Altre Parole: Writing in Italian 3 Credit Hours
Prerequisite: ITAL 2223. The inculcation of proper writing habits, at an advanced level, toward the achievement of idiomatic Italian. (F)

ITAL 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

Prerequisite: ITAL 2223 or permission. Survey of Italian literature from the Middle Ages to the present day through major works of literature and the visual arts–invoking names such as Dante, Machiavelli, Michelangelo, Galileo and Calvino. (F)

ITAL 3663 Italian Cinema, Theater and Media 3 Credit Hours
Prerequisite: ITAL 2223 or permission. This course will focus on theater, cinema and television, often reading literary works alongside their cinematic or TV adaptations. It offers an interdisciplinary look at Italian cultural history from the beginning of the twentieth century to the present day. (Sp)

ITAL 3853 Readings in Italian Literature & Culture 3 Credit Hours
Prerequisite: ITAL 2223. Designed to improve reading comprehension and to introduce the techniques of literary analysis. Representative works from the various literary genres will be studied. (Sp)

ITAL 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp)

ITAL 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

ITAL 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors program. May be repeated; maximum credit six hours. Provides an opportunity for the Honors candidate to work on a special project in the student's field. (F, Sp)

ITAL 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

ITAL 4513 Topics in Medieval and Renaissance Italian Literature and Culture 3 Credit Hours
Prerequisite: 3073 or 3423. May be repeated with change of content; Maximum credit nine hours. This course will focus on a particular author, genre, or theme from the origins of Italian literature (1225) through 1550. Students will read primary texts in ;the original language with an emphasis on understanding the texts through close textual analysis. (Sp)

ITAL 4563 Topics in Modern Italian Literature and Culture 3 Credit Hours
Prerequisite: 3073 or 3423. May be repeated with change of content; maximum credit nine hours. This course will focus on an author, genre, or theme present in contemporary Italian literature (1700-Present). Students will read primary sources in the original language with an emphasis on understanding the text through close textual analysis. (F)

ITAL 4630 Internship 1-3 Credit Hours
Prerequisite:permission of instructor and junior standing.1 to 3 hours. May be repeated; maximum credit three hours. For advanced language students studying in Italy as part of the OU in Arezzo program. Students enrolling in this variable credit course will enter into internships with area businesses, local, regional, and national government offices, non-profit organizations, and other local entities. Although the nature of the internships will vary depending on the partners, all internships will have the following requirements: the activities will be performed entirely in Italian; translation from English to Italian will not be the primary role of the intern; the sponsoring partner will provide at least weekly feedback; an OU faculty member will oversee the internship; at minimum students will complete an entrance, mid-term, final interview with the instructor; and a written final report. (F, Sp, Su)

ITAL 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

ITAL 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ITAL 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

ITAL 4993 Capstone: Special Topics in Italian 3 Credit Hours
Prerequisite: ITAL 3073, ITAL 3423, and one of the following: ITAL 3553 or ITAL 3663 or ITAL 4513 or ITAL 4563. Capstone course. Requires undergraduate Italian majors to synthesize their knowledge of Italian contributions to world civilization. They will be required, as part of this enterprise, to demonstrate their mastery of the four basic skills involved in learning a foreign language: reading, writing, speaking, and understanding. (Sp) [V].

JAPN 1115 Beginning Japanese 5 Credit Hours
An elementary course in understanding, speaking, reading and writing Japanese. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F) [I-FL].

JAPN 1225 Beginning Japanese (Continued) 5 Credit Hours
(Continued) Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing Japanese. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (Sp) [I-FL] .

JAPN 2013 Intermediate Japanese Listening and Speaking 3 Credit Hours
Prerequisite: JAPN 2113 or concurrent enrollment with JAPN 2113. Provides intensive training in listening and speaking in Japanese for students who have taken first year Japanese. Through a systematic review of grammar and vocabulary taught in 1000-level Japanese coursework, develops students' understanding of functional ability to understand and speak Japanese and introduces unique features of Japanese language and culture, including formal and casual speech levels in Japanese. (F, Sp)

JAPN 2113 Intermediate Japanese 3 Credit Hours
Prerequisite: 1225. Combination of basic Japanese grammar and vocabulary and their application to spoken and written Japanese. Laboratory (F)

JAPN 2223 Intermediate Japanese (Continued) 3 Credit Hours
(Continued) Prerequisite: 2113. Develops control of the grammar, vocabulary and idioms of spoken Japanese and provides a thorough introduction to the Japanese writing system as well as some grammatical structures peculiar to written Japanese. Laboratory (Sp)

JAPN 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

JAPN 3013 Advanced Japanese Listening and Speaking 3 Credit Hours
Prerequisite: JAPN 2223 or concurrent enrollment in JAPN 2223. Designed to give intensive training in listening and speaking in Japanese for students who have successfully completed Japanese 2113. Develops students' understanding of functional ability of listening and speaking Japanese. Unique features of Japanese language and culture will be learned, including casual/polite speech, honorifics, giving-receiving verbs, a variety of new forms, such as transitive/intransitive, causative, passive, causative-passive forms. (F, Sp)

JAPN 3113 Advanced Japanese I 3 Credit Hours
Prerequisite: JAPN 2223. Trains students in advanced Japanese language skills of speaking, listening, reading, and writing and introduces new grammatical forms, vocabularies and expressions. Prepares students to understand Japanese society. (F, Sp)

JAPN 3223 Advanced Japanese II 3 Credit Hours
Prerequisite: JAPN 3113 or equivalent. An advanced course in conversation and composition covering cultural topics. Develops listening and speaking skills to communicate orally in authentic Japanese and expands spoken and written vocabulary knowledge. Presenting ideas in speech and composition effectively will be practiced. (Sp)

JAPN 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

JAPN 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

JAPN 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

JAPN 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

JAPN 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: 2223. May be repeated; maximum credit 12 hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

JAPN 4113 Japanese Language and Society I 3 Credit Hours
Prerequisite: JAPN 3223 or JAPN 4543. May be repeated with change of content; maximum credit six hours. Designed to develop the advanced-level proficiency in reading and writing. Authentic reading materials on various topics will be used in combination with discussions, and oral and written reports. Emphasis is placed on strengthening correct usage of grammar and increasing knowledge of Kanji and compound terms using expressions and idioms in Japanese. (F)

JAPN 4543 Introduction to Classical Japanese 3 Credit Hours
Prerequisite: JAPN 3223. Students will learn classical Japanese grammar, major Japanese literary texts, as well as Japanese customs in ancient Japan. (Sp)

JAPN 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

JAPN 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

JAPN 4990 Independent Study 1-3 Credit Hours
Prerequisite: junior standing and permission of instructor. May be repeated with change of content; maximum credit six hours. Contracted independent study on one or more topics not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

JAPN 4993 Senior Capstone in Japanese 3 Credit Hours
Prerequisite: JAPN 4113. Examines Japanese modern literature with a focus on the questions of Japanese modernity, post-modernity, nationalism, and cultural identity. (Sp)[V].

JAPN 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

JAPN 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

JAPN 5990 Independent Study 1-3 Credit Hours
Prerequisite: Graduate standing and permission of instructor. May be repeated with change of content; maximum credit 12 hours. Contracted independent study on one or more topics not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory and field projects. (F, Sp, Su)

LING 1203 Language Across Cultures 3 Credit Hours
(Crosslisted with ANTH 1203) Theories of language family origins and their relationship to human migration; types of human languages; linguistic concept of genetic relatedness; writing systems development; non-Western sociolinguistic and usage phenomena; cultural and scientific importance of endangered languages; how languages become endangered; factors involved in preservation. This course may not count for major credit. (Sp) [IV-NW] .

LING 2303 General Linguistics 3 Credit Hours
(Crosslisted with ANTH 2303) Humanistic and formal study of natural languages: how they are similar to, and different from, one anther in their use of speech sounds, logical structures and mechanisms that integrate events, objects and speakers in spatio-temporal contexts. The relationship between language and culture; language acquisition and language change. (F, Sp) [I-O] .

LING 2970 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

LING 3033 Phonetic Description 3 Credit Hours
Prerequisite: LING 2303. Study of the basic principles in forming the phonetic description of human speech. (Sp)

LING 3043 Linguistic Semantics 3 Credit Hours
Prerequisite: 2303. An introduction to basic ideas and concepts in the field of linguistic semantics. Includes discussion of current issues and representative theoretical approaches. (F)

LING 3053 Phonology 3 Credit Hours
Prerequisite: LING 3033. Phonology is the study of sound patterns found in human language. Provides a grounding in phonological theory by examining data from several of the world's languages. Covers the phoneme-allophone distinction, distinctive features, feature re-write rules, and a broad sampling of phonological phenomena. (F)

LING 3133 Phonetic Field Methods 3 Credit Hours
Prerequisite: 3033 or Anthropology 3033. This course covers techniques used to collect phonetic data, methodological concerns, the acoustic basis of speech sounds, how to record speech for linguistic analysis, and both acoustic and articulatory techniques for documenting the phonetic properties of speech. (Irreg.)

LING 3173 Lesser Studied Languages 3 Credit Hours
Prerequisite LING/Anthropology 2303. Learning and discussing some of the core properties of a few languages that are not often taught in the language classroom. Develops the students' ability to discuss the properties of languages in a precise and careful way. (F, Sp)

LING 3353 Syntax 3 Credit Hours
Prerequisite: LING 2303. An introduction to the fundamental concepts of Chomskyan syntax. Includes theory of categories and constituents, basic syntactic relations, case theory, and binding theory. (F)

LING 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

LING 3813 Sociolinguistics 3 Credit Hours
Prerequisite: LING/ANTH 2303. The study of the many ways human beings speak as a function of their being members of communities and societies. Included are multilingualism, creole languages, social and regional dialects, registers, gender, class, ethnic varieties, and language valuation. Includes an introduction to statistical methods. (F, Sp)

LING 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program and will cover materials not usually presented in regular coursework. (F, Sp)

LING 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

LING 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work on a special project in his/her field. (F, Sp)

LING 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

LING 4023 Second Language Acquisition Theory 3 Credit Hours
(Slashlisted with 5023) Prerequisite: 2303 or four semesters foreign language. Multidisciplinary approach to second language acquisition. Treats child language, interlanguage, universal grammar, input, interaction, output, non-language influences and formal instruction. No student may earn credit for both 4023 and 5023. (F)

LING 4053 Morphology 3 Credit Hours
(Crosslisted with ANTH 4053) Prerequisite: 3053 and 3353. Introduces and develops theories and concepts of morphology including word formation, derivation, inflection, non-concatenative morphs, covert categories, prosodic phenomena, morphosyntactic categories and clitics. Data from non-Western languages will be prominent. (Irreg.)

LING 4173 Typology 3 Credit Hours
Prerequisite: LING 3053 and LING 3353. An introduction to the major results of morphosyntactic typology. Focuses on morphological typology (case marking/agreement) and on syntactic typology (the relation between case marking and grammatical relations, word order, and of three major constructions: passives, causatives, and relative clauses). (F, Sp)

LING 4313 Techniques of Historical Linguistics 3 Credit Hours
Prerequisite: 3053 or Anthropology 3053, or permission. Brief survey of the development of historical linguistics, the comparative method, internal reconstruction, types of linguistic change, relationships between linguistic and cultural change, new developments in the field of historical linguistics. No student may earn credit for both 4313 and 5313. (Irreg.)

LING 4330 Topics in Linguistics 1-4 Credit Hours
(Slashlisted with 5330) 1 to 4 hours. Prerequisite: nine hours of linguistics. May be repeated with change of content; maximum credit nine hours. Topic areas will vary across theoretical and applied areas of linguistics. Some topics that are appropriate include socio-linguistics, psycho-linguistics, language acquisition, advanced syntax, advanced phonology, field phonetics, pragmatics, and comparative readings of twentieth-century theorists. No student may earn credit for both 4330 and 5330 on the same topic. (Irreg.)

LING 4363 Linguistic Field Methods 3 Credit Hours
(Slashlisted with 5363) Prerequisite: 2303, 3053, and 3353. An introduction to all phases of linguistic field techniques, including training in the selection of informants, the use of recording devices, and most important, the actual collection and analysis of linguistic materials. Students may not earn credit for both 4363 and 5363. (Irreg.)

LING 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

LING 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

LING 4983 Senior Essay 3 Credit Hours
Prerequisite: LING 3053 and 3353 and senior standing. Development of a research paper which relates the linguistics major coursework to general knowledge. (F, Sp) [V] .

LING 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or research and field projects. (F, Sp)

LING 5023 Second Language Acquisition Theory 3 Credit Hours
(Slashlisted with 4023) Prerequisite: 2303 or four semesters foreign language. Multidisciplinary approach to second language acquisition. Treats child language, interlanguage, universal grammar, input, interaction, output, non-language influences and formal instruction. No student may earn credit for both 4023 and 5023. (F)

LING 5313 Techniques of Historical Linguistics 3 Credit Hours
Prerequisite: 3053 or Anthropology 3053 or permission. Brief survey of the development of historical linguistics, the comparative method, internal reconstruction, types of linguistic change, relationships between linguistic and cultural change, new developments in the field of historical linguistics. No student may earn credit for both 4313 and 5313. (Irreg.)

LING 5330 Topics in Linguistics 1-4 Credit Hours
(Slashlisted with 4330) 1 to 4 hours. Prerequisite: graduate standing. May be repeated with change of content; maximum credit twelve hours. Topic areas will vary across theoretical and applied areas of linguistics. Some topics that are appropriate include socio-linguistics, psycho-linguistics, language acquisition, advanced syntax, advanced phonology, field phonetics, pragmatics, and comparative readings of twentieth-century theorists. No student may earn credit for both 4330 and 5330 on the same topic. (Irreg.)

LING 5363 Linguistic Field Methods 3 Credit Hours
(Slashlisted with 4363) Prerequisite: graduate standing or permission of instructor. An introduction to all phases of linguistic field techniques, including training in the selection of informants, the use of recording devices, and most important, the actual collection and analysis of linguistic materials. No student may earn credit for both 4363 and 5363. (Irreg.)

LING 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

LING 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

LING 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, nine hours. (F, Sp, Su)

LING 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit twelve hours. Independent reading on one or more topics under the general direction of a faculty member. (F, Sp)

LING 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

LING 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

LING 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

MLLL 1003 Introduction to Chinese Myths & Folklore 3 Credit Hours
Through studying an eclectic selection of time-honored Chinese myth and folklore, along with their adaptations, transculturation, transmediation, and transformation in modern and contemporary periods, students in this class will not only gain a deeper understanding and appreciation of Chinese culture, but also develop abilities in nuanced reading and critical thinking. (F) [IV-NW] .

MLLL 1013 Introduction to the French and Francophone World 3 Credit Hours
Introduces a number of influential motifs in French and Francophone cultural history. Intended to help students formulate fundamental questions useful in further study of French, European, and world cultures. Includes analysis of historical, social, philosophical, artistic, and practical modes of expression, not only in the history of France itself, but also in Francophone Africa, North America, and the Caribbean. From the French Revolution to the dynamics of contemporary immigration, from French regional identities to fashion, gastronomy, and film, the course leads students to the discovery of a variety of significant forms of French and Francophone cultural expression. (F) IV-WC.

MLLL 1053 Body & Soul: Metamorphosis in World Literature 3 Credit Hours
The course introduces students to the concept of metamorphosis as it appears in fiction, poetry, film, and art. We will consider many different types of metamorphoses: human-animal hybrids, religious conversions, gender transformations, as well as the transformative power of art and love. (Sp) [IV-WC].

MLLL 2970 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

MLLL 3043 Mythology and Folklore 3 Credit Hours
Prerequisite: junior standing or permission. Readings in folktales and myths from cultures around the world, with a focus on narrative structures and the role of the storyteller. Involves weekly reading and weekly writing assignments and a semester-long research project published on the internet. (No previous web publishing experience is required). (F, Sp) [IV-WC] .

MLLL 3063 Survey of Jewish Literature from Antiquity to the Present 3 Credit Hours
Prerequisite: junior standing. Provides a survey of Jewish literature from the Hebrew Bible to contemporary American literature, presented as a journey in which stops will be made at important places, covering all significant periods, genres and prominent writers. (F) [IV-WC] .

MLLL 3073 The Hebrew Bible as Literature 3 Credit Hours
Prerequisite: ENGL 1213/Expo 1213. The Hebrew Bible is the best selling book in America every single year. We will explore its greatness by reading various Biblical texts such as a great novella, the Joseph story; the greatest religious conversion narrative, Ruth; the poetry of Psalms, and the rise of David from shepherd to king, as well as other favorites to be determined by class. (Sp) [IV-WC].

MLLL 3123 Russian Culture and Civilization 3 Credit Hours
Considers the historical and cultural heritage of Russia through a study of its geography, history, religion, language, literature and the fine arts. Allows students to appreciate the global perspectives and cultural diversity. [IV-WC] .

MLLL 3133 Soviet and Post-Soviet Cinema 3 Credit Hours
Prerequisite: junior standing. Familiarizes students with the history of film in the Soviet Union , from the silent movies of its beginnings to its manifestation at the present time. No previous knowledge of the Russian language is required. Russian social and political issues explored through film. (F, Su) [IV-WC] .

MLLL 3143 Dostoevsky and His Age 3 Credit Hours
Prerequisite: junior standing. Examination of the life and literary works of Fyodor Dostoevsky, with special attention to the role the writer played in Russian and Western intellectual history. Reading assignments will include Crime and Punishment, The Brothers Karamazov, and several shorter works, all in English translation. (Irreg.) [IV-WC] .

MLLL 3153 Russian Literature Through Film 3 Credit Hours
Prerequisite: junior standing. Students analyze classic Russian literary texts and the films that they have inspired. This course focuses on the problem of cinematic adaptation. No previous knowledge of the Russian Language is required. (F, Su) [IV-WC] .

MLLL 3163 Chekhov 3 Credit Hours
Prerequisite: junior standing or permission. An introduction to Anton Chekhov's work in translation. Both short stories and plays will be read, studying their narrative structure, plot devices, character development, themes, and other elements, while placing Chekhov's work in its historical, cultural, and political context. Excerpts of various screen adaptations of his plays will also be viewed. (F) [IV-WC] .

MLLL 3173 Nabokov 3 Credit Hours
Prerequisite: junior standing or permission. An introduction to Vladimir Nabokov's work in English, including works translated from Russian as well as texts originally written in English. Focus will be on Nabokov's Novels; although, some short stories and poems will be included. The main methodology will center on applying the techniques of close textual analysis, while placing Nabokov's work in its historical, cultural, and political context. (F) [IV-WC] .

MLLL 3183 Tolstoy: Writer, Thinker, Social Critic 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Introduction to Leo Tolstoy's work in translation. Traces Tolstoy's development as a writer of short stories, novels, and works of non-fiction. The writer's biography and significant aspects of nineteenth-century Russian society will inform discussions of Tolstoy's works, placing them in a broader context. In addition, students will explore Tolstoy's evolving religious, philosophical, and social ideas, as well as his legacy in Russia and throughout the world. (Irreg.) [IV-WC].

MLLL 3193 Trauma, Memory, and Narrative 3 Credit Hours
Prerequisite: junior standing. Ways in which traumatic historical events have been depicted in works of literature, art, and historical texts, and their commemoration in museum displays and in public ritual. While the focus is on the history of the Soviet Union and Eastern Europe, students will be encouraged to consider equivalent examples from other areas of the globe. (Irreg.) [IV-WC].

MLLL 3223 Japan Through Film and Literature 3 Credit Hours
Prerequisite: junior standing. Introduces Japanese post-war society and culture with emphasis on 1945 to the present, as reflected in film and literature. Students will examine essential issues, including class, family, gender, work, education, and minorities, paying attention to the struggles between traditional cultural values and modern society. (Irreg.) [IV-NW] .

MLLL 3233 Japanese Literature since 1945 3 Credit Hours
Prerequisite: junior standing. A survey of post-war Japanese literature from 1945 to present. Using the historical events as background, students will examine social, political and cultural issues reflected in literary work, as well as literary theory. Topics will include experiences and memories of war and the atomic bombing, Japanese literature in the 1960's, women writers and postmodern writers in the 1980's. Visual materials (films) are also introduced in relation to the topics of the course. All readings are in English. (Sp) [IV-NW].

MLLL 3303 The World of Dante 3 Credit Hours
Prerequisite: Junior standing and English 1213. In this course students will engage in a close reading of a fundamental text in the western literary tradition: Dante Alighieri's Divine Comedy. The course will also consider one of Dante's minor works, the Vita Nuova, as well as the modern critical readings of Dante's writing and thought. In lectures, special attention will be paid to the historical, political, literary and intellectual context of Dante's poetry and thought. Students will also be asked to contribute to the classroom atmosphere by responding to questions and participating in discussions. (Irreg.) [IV-WC].

MLLL 3313 Introduction to Italian Literature and Culture 3 Credit Hours
Prerequisite: English 1213 or EXPO 1213. Interdisciplinary approach to literature, culture, and history of the Italian peninsula, from the Middle Ages to the present day. Through major works of literature, political science, the visual arts, music, and cinema, students will set Italy's variegated literary and cultural expressions in their social and historical contexts. (F) [IV-WC].

MLLL 3373 Italian Cinema 3 Credit Hours
Prerequisite: junior standing and English 1213. The aim of this course is to develop interpretive skills relevant to the study of Italian cinema by examining some of its most significant films. More specifically, we will analyze the ways in which Italian society is portrayed and typified in Italian cinema. We will cover the major film movements and periods, from "cinema muto" to Neorealism, from "commedia all`Italiana" to the Italian horror genre and to the most recent works made by contemporary directors. (Irreg.) [IV-AF] .

MLLL 3393 Italian Cultural Literacy 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Introduces students studying abroad in the OU in Arezzo semester program to important aspects of Italian culture and history. Students will gain an ability to engage with Italian cultural phenomena and interact with native Italian speakers. No previous knowledge of Italian is required. The cultural part of the course will be taught in English. (F, Sp, Su)

MLLL 3413 Arabic Literature and Culture 3 Credit Hours
Prerequisite: junior standing. A survey of Arabic literature tradition and cultural history from the 4th century to the present. Covers themes and genres of the cultural heritage of Arabic-Islamic civilization, continuities and discontinuities between the classical and modern period, and background political and social changes. (F) [IV-NW] .

MLLL 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

MLLL 3523 Survey of Russian Literature to 1917 in Translation 3 Credit Hours
Prerequisite: junior standing. Reading, analysis and discussion of key works of Russian 19th century literature, including the major novels, plays, and poetry selections in English translation. This course does not satisfy the third semester Arts and Sciences language requirement. (F) [IV-WC] .

MLLL 3533 Survey of Russian Literature from 1917 in Translation 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Representative works of Soviet and post-Soviet literature are read and discussed. Selections of prose and poetry chosen from among symbolists, acmeists, futurists, populists, modernists, and post-modernists. This course does not satisfy the third semester Arts and Sciences language requirement. (Irreg.) [IV-WC] .

MLLL 3543 The Petersburg Myth and Text/The City in Russian Culture 3 Credit Hours
Prerequisite: junior standing. The role and significance of the city of St. Petersburg in Russian culture by examining its literary image and myth. All readings and discussions in English. (Irreg.) [IV-WC] .

MLLL 3553 Contemporary Russian Literature 3 Credit Hours
Prerequisite: junior standing. Explores major works of post-Soviet Russian literature. Students will become familiar with major figures and trends in contemporary Russian poetry and prose, and they will acquire critical vocabulary for analyzing works in any genre or national literary tradition. (Irreg.) [IV-WC].

MLLL 3573 Arthurian Legend and Literature 3 Credit Hours
(Crosslisted with ENGL 3573) Examination of the legend of King Arthur in European literature. Concentrate first on the historical Arthur, followed by major portion of semester on the medieval and modern literary texts concerning Arthur and the Round Table. All texts will be read in English translation. [IV-WC] .

MLLL 3623 Pre-Modern Japanese Literature and Culture 3 Credit Hours
Prerequisite: junior standing. A survey of Japanese literature from ancient time to the Meiji restoration. Covers prominent works of poetry and prose in English translation. Students are introduced to traditional genres, themes, rhetorical device and aesthetics, as well as socio-historical context of literary production. (Irreg.) [IV-NW] .

MLLL 3633 Modern Japanese Literature and Culture 3 Credit Hours
Prerequisite: junior standing. A survey of Japanese literature from the Meiji restoration (1868) onward, with attention to social, political, and cultural issues as well as literary theory. Topics will include Japan's "westernization," "naturalism," proletarian literature movements, early post-war literature, and the "third new generation writers." (Sp) [IV-NW] .

MLLL 3683 Traditional Japanese Poetry and Poetics in Translation 3 Credit Hours
Prerequisite: Junior standing and ENGL/EXPO 1213. This course examines the long history and tradition of poetry in premodern Japan, and the philosophies and culture surrounding it. We explore poetry in both vernacular Japanese and Classical Chinese from Japan before the eighteenth century, and how poets and critics understood it. We will also try our own hands at making poems before compiling them into an anthology. (Sp)

MLLL 3753 Modern Chinese Literature and Culture 3 Credit Hours
Prerequisite: junior standing. Students will read Chinese literary texts in English translation and learn about the historical, political, social, and cultural contexts in which they were produced. (Sp) [IV-NW] .

MLLL 3763 Chinese Cinema 3 Credit Hours
Prerequisite: junior standing. Chinese films covering a wide range of historical periods and subjects will be viewed. The films screened in this class will be studied as reflections of their respective social, as well as the filmmakers' comments on and interventions of such realities. Cinematic concepts, techniques, and film theories, will be studied. (Sp) [IV-NWC].

MLLL 3823 German Culture and Thought 3 Credit Hours
Prerequisite: junior standing. Introduces major themes in German cultural history and analytical tools students can bring to the further study of German and/or other European literatures and cultures in translation. Specific topics may vary. (F) [IV-WC] .

MLLL 3843 20th-Century European Culture and Identity 3 Credit Hours
Prerequisite: junior standing. Offers and overview of twentieth-century European culture and identity. Students are made aware of a culture and people different from the United States. In an attempt to understand what makes Europe a unique entity, we will examine how political, social, and economic forces and events in Europe relate to cultural ideas and artistic productions. (F) [IV-WC] .

MLLL 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp)

MLLL 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

MLLL 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the Honors candidate to work on a special project in the student's field. (F, Sp)

MLLL 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

MLLL 4003 Movements in World Literature 3 Credit Hours
(Crosslisted with ENGL 4003) Prerequisite: junior standing. May be repeated with change of subject matter; maximum credit nine hours. Focuses on texts within a literary movement (literature other than canonical American or British). Also attention to critical and theoretical questions about concepts such as genre, nation, national building, national identity, etc. (Irreg.) [IV-WC] .

MLLL 4063 Early Literary Criticism 3 Credit Hours
(Slashlisted with 5063) Prerequisite: junior standing and English 1213. Establishes a solid critical foundation of aesthetics that will enable graduate and advanced undergraduate students to deal with fundamental ideas; aesthetic and social. Emphasis on rhetoric and discourse during the second part of the semester will also enable all students to write strategically and develop effective communication skills. No student may earn credit for both 4063 and 5063. (F)

MLLL 4173 Introduction to Francophone Literatures in Translation 3 Credit Hours
Prerequisite: senior standing. Examines the literary, social, and political issues forefronted by the Francophone literatures of West Africa, the Caribbean, and Polynesian Islands, Maghreb (chiefly Algeria, Tunisia, Morocco), and Quebec. (Sp) [IV-NW] .

MLLL 4453 Introduction to Chinese Language and Linguistics 3 Credit Hours
Prerequisite: Chinese 1115 and Chinese 1225, or Linguistics/Anthropology 2303 and Linguistics/Anthropology 3033. Introduces the fundamentals of Chinese phonology, morphology, syntax, the writing system, and the language's interaction with culture and society. Provides acquisition of a basic understanding of the structure of Chinese language and its social-cultural meanings and the ability to discuss various issues related to Chinese language. Lectures will be delivered in English. (F)

MLLL 4553 Lat America in its Lit: The Search for a Latin-American Identity 3 Credit Hours
Prerequisite: junior Standing. The course fosters an understanding of the political nature, impetus and implications of Latin-American literature. It examines stereotypes and the basis upon which they are constructed and develops an awareness of the varied identities reflected in Latin-American literature. (F)

MLLL 4753 The Chinese Way of Thinking: Language, Culture, & Cognition 3 Credit Hours
Prerequisite: Junior standing. How do languages/cultures shape the ways we think? Does learning new languages change the way you think? This course introduces the cognitive view of language use in Chinese and how it plays a critical role in mind-shaping in its cultural context. It also pursues a cross-linguistic/cross-cultural perspective on the study of Chinese languages as a window into cognition and culture. (Irreg.) [IV-NW].

MLLL 4813 Principles and Techniques of Teaching a Foreign Language 3 Credit Hours
(Slashlisted with MLLL 5813) Prerequisite: four semesters of a foreign language or admission to the foreign language education major. Provides participants with practical experience in the teaching of foreign languages and introduces key issues in the teaching of foreign languages. Also introduces issues in teaching methodology and key issues in classroom language acquisition research. No student may earn credit for both 4813 and 5813. (F, Sp)

MLLL 4950 Special Topics in World Literature Today 1-3 Credit Hours
1 to 3 hours. Prerequisite: English 1213 and permission of instructor. May be repeated with change of content; maximum credit six hours. In-depth study of selected contemporary international writers/jurors who visit campus as part of the Neustadt and/or Puterbaugh symposiums for world literature today. (Irreg.)

MLLL 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

MLLL 4970 Seminar 1-4 Credit Hours
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit six hours. Varied topics in literature in English translation. (Irreg.)

MLLL 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

MLLL 4993 Epics of India: Ramayana and Mahabarata 3 Credit Hours
Prerequisite: junior standing. Reading of the two great epics of India. Special attention will be paid to narrative structure and the role of the storyteller. The course involves extensive weekly reading along with weekly writing assignments and a semester-long research project which students will publish on the internet (no previous web publishing experience is required. (Sp) [IV-NW] .

MLLL 5063 Early Literary Criticism 3 Credit Hours
(Slashlisted with 4063) Prerequisite: graduate standing. Establishes a solid critical foundation of aesthetics that will enable graduate and advanced undergraduate students to deal with fundamental ideas; aesthetic and social. Emphasis on rhetoric and discourse during the second part of the semester will also enable all students to write strategically and develop effective communication skills. No student may earn credit for both 4063 and 5063. (F)

MLLL 5073 Contemporary Literary Criticism 3 Credit Hours
An introduction to contemporary linguistic, psychoanalytic and sociological literary theory and criticism. Readings and discussions will include questions of methodology and will demonstrate how these methods can be applied to particular texts. (Sp)

MLLL 5173 Introduction to Francophone Literatures in Translation 3 Credit Hours
Prerequisite: graduate standing. Examines the literary, social, and political issues fore-fronted by the Francophone literatures of West Africa, the Caribbean, and Polynesian Islands, Maghreb (chiefly Algeria, Tunisia, Morocco), and Quebec. (Sp)

MLLL 5813 Principles and Techniques of Teaching a Foreign Language 3 Credit Hours
(Slashlisted with MLLL 4813) Prerequisite: graduate standing. Provides participants with practical experience in the teaching of foreign languages and introduces key issues in the teaching of foreign languages. Also introduces issues in teaching methodology and key issues in classroom language acquisition research. No student may earn credit for both 4813 and 5813. (F, Sp)

MLLL 5910 Problems in Research 2-4 Credit Hours
2 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit fours hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (Irreg.)

MLLL 5920 Field Research in Foreign Language Education 1-3 Credit Hours
1 to 3 hours. Prerequisite: 5833. Classroom oriented field research on the use of various methods of teaching foreign language in the classroom. Possible topics include aspects of language acquisition, evaluation, proficiency, communicative methods in foreign language education. (F, Sp, Su)

MLLL 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

MLLL 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MLLL 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

PORT 1115 Beginning Portuguese 5 Credit Hours
Develop the skills necessary to grasp fundamental principles of Portuguese and Luso-Brazilian culture, and to acquire basic proficiency in the four skills of language learning: listening, speaking, reading and writing. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

PORT 1225 Beginning Portuguese Continued 5 Credit Hours
Prerequisite: 1115. Give continuity to the skills acquired during the first semester of Portuguese in order to become more fluent in the spoken language as well as more proficient in writing. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

PORT 2113 Intermediate Portuguese 3 Credit Hours
Prerequisite: 1225. Develops reading skills and control of grammar while cultivating depth of oral and writing ability. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. Reading and discussion of texts of literary and cultural interest. Oral and written assignments. (F, Sp)

PORT 2223 Intermediate Portuguese (Continued) 3 Credit Hours
Prerequisite: 2113. Refines reading skills and mastery of grammar. Emphasis on sophisticated vocabulary and understanding of grammatical structures. Literary and cultural texts discussed in oral and essay form. (F, Sp)

PORT 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

PORT 3113 Advanced Portuguese 3 Credit Hours
Prerequisite: 2223. Develops further reading skills and control of grammar, cultivates speaking and writing ability, and exposes students to a wide range of topics covered daily by Brazilian newspapers and magazines. (F)

PORT 3223 Advanced Portuguese Continued 3 Credit Hours
Prerequisite: 3113. Continuation of 3113. Develops further reading skills and control of grammar while cultivating depth of oral and writing ability. Exposes the student to a wide range of topics covered daily by Brazilian newspapers and magazines. (Sp)

PORT 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

PORT 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

PORT 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

PORT 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

PORT 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

PORT 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

PORT 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

PORT 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

RUSS 1115 Beginning Russian 5 Credit Hours
An elementary course in understanding, speaking, reading and writing Russian. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].

RUSS 1225 Beginning Russian (Continued) 5 Credit Hours
Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing Russian. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

RUSS 2113 Intermediate Russian 3 Credit Hours
Prerequisite: 1225. Training in reading, writing, speaking, and understanding contemporary Russian. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. (F, Sp)

RUSS 2223 Intermediate Russian (Continued) 3 Credit Hours
Prerequisite: 2113. Continued training in reading, writing, speaking, and understanding contemporary Russian. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. (F, Sp)

RUSS 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

RUSS 3023 Beginning Business Russian 3 Credit Hours
Prerequisite: twenty hours of Russian. Intended to enable Russian students to read, write, and translate business Russian. Readings in this course will consist of translating contracts, agreements, and other areas of commercial correspondence. (Irreg.)

RUSS 3073 Russian Conversation 3 Credit Hours
Prerequisite: RUSS 2113. Training in reading, writing, and understanding contemporary Russian. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. (F, Sp)

RUSS 3313 Russian Phonetics 3 Credit Hours
Prerequisite: 2113. A detailed study of the sounds of Russian and the inculcation of proper speech habits. (Irreg.)

RUSS 3323 Advanced Russian Reading and Composition 3 Credit Hours
Prerequisite: 2223. A systematic grammar review with a view toward improving the student's control of written Russian. (F)

RUSS 3423 Advanced Russian Reading and Composition (Continued) 3 Credit Hours
Prerequisite: 3323. A systematic grammar review with a view toward improving the student's control of written Russian. (Sp)

RUSS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

RUSS 3523 Interpreting the Russian Media 3 Credit Hours
Prerequisite: 2223. Focus on developing higher-level receptive and productive language skills through an exposure to authentic texts from Russian print media and television news reports. Students will focus on vocabulary-building, recognizing and employing journalistic conventions, reading between the lines, understanding nuance and enhancing their awareness of cultural references. (Irreg.)

RUSS 3533 Russian Pop Culture 3 Credit Hours
Prerequisite: RUSS 2223. A communicative language class in which students explore contemporary Russian-language popular music, television programming, and internet culture. (Irreg.)

RUSS 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

RUSS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually covered in regular coursework. (Irreg.)

RUSS 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp)

RUSS 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

RUSS 4173 Topics in Nineteenth-Century Russian Literature and Culture 3 Credit Hours
Prerequisite: 3423. May be repeated once with change of content; maximum credit six hours. A course for advanced students of the Russian language. All reading assignments and lectures will be in Russian. (F)

RUSS 4183 Topics in 20th and Post-20th Century Russian Literature and Culture 3 Credit Hours
Prerequisite: 3423. May be repeated once with change of content; maximum credit six hours. A course for advanced students of the Russian language. All reading assignments and lectures will be in Russian. (Sp) [V].

RUSS G4613 Advanced Russian Conversation 3 Credit Hours
Prerequisite: 3073, 3323. Conversation on topics in Soviet history, government, literature and sociology with emphasis on the particular terminology of each of these fields. (Sp)

RUSS 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

RUSS 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special Topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

RUSS 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

RUSS 5910 Problems in Research 2-4 Credit Hours
2 to 4 hours. May be repeated with change of content; maximum credit nine hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (F, Sp)

RUSS 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

RUSS 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

RUSS 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

SPAN 1115 Beginning Spanish 5 Credit Hours
An elementary course in understanding, speaking, reading and writing Spanish. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL] .

SPAN 1225 Beginning Spanish (Continued) 5 Credit Hours
Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing Spanish. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL] .

SPAN 2113 Intermediate Spanish 3 Credit Hours
Prerequisite: 1225 or equivalent. Develops reading skills and control of grammar while cultivating depth of oral and writing ability. Emphasis on expansion of vocabulary and strong re-enforcement of grammatical structures. Reading and discussion of texts of literary and cultural interest. Oral and written assignments. (F, Sp, Su).

SPAN 2223 Intermediate Spanish Continued 3 Credit Hours
Prerequisite: 2113. Refines reading skill and mastery of grammar. Emphasis on sophisticated vocabulary and understanding of grammatical structures. Literary and cultural texts discussed in oral and essay form. (F, Sp, Su)

SPAN 2603 Spanish for Social Work Majors 3 Credit Hours
Prerequisite: social work major and SPAN 1225 or equivalent. Designed to prepare students for an intermediate proficiency in Spanish. An expansion of vocabulary and grammatical structure used in practice settings commonly experienced by social workers is emphasized. This course may not count for credit for any major other than social work. (F, Sp)

SPAN 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

SPAN 3073 Grammar in Conversational Communication 3 Credit Hours
Prerequisite: SPAN 2223. Aim is to improve students' conversational skills through an active use of the Spanish language. By using a contextualized content-based approach, focuses on seven core communicative functions and engages in meaningful communicative practices through listening and speaking activities related to cinema and other forms of cultural production. (F, Sp)

SPAN 3423 Grammar in Written Communication 3 Credit Hours
Prerequisite: SPAN 2223. Further develops communicative abilities as well as increasing students' knowledge and ability to produce a variety of forms of cultural production in the Spanish language. Writing as a process that includes brainstorming, organization, outline, drafts and revisions will be learned. Familiarity with authentic texts written in different styles will be developed. (F, Sp)

SPAN 4773 Topics in Spanish Linguistics 3 Credit Hours
Prerequisites: SPAN 3073 and SPAN 3423. May be repeated with change of content; maximum credit nine hours. Introduces the role of meaning in the structure, function, and use of the language and focuses on the core aspects of the representation of meaning in Spanish. Examines how Spanish speakers combine basic linguistic units into larger linguistic expressions that allow them to represent the complex aspects of reality and thought in this language. (F, Sp)

SPAN 4913 The Structure of the Spanish Language 3 Credit Hours
Prerequisite: SPAN 3073 and SPAN 3423. Aims to improve students' formal knowledge of the Spanish language. Principal articulatory properties of the Spanish sounds, Spanish morphology such as word formation and word categories, and Spanish syntax and semantics will be examined. Topics related to social issues and Spanish variation, and in particular, to its situation in the United States will be explored. (F, Sp)

SPAN 4923 Teaching of Spanish in the United States 3 Credit Hours
(Slashlisted with SPAN 5923) Prerequisite: SPAN 3073 and SPAN 3423. A theoretical and practical introduction to teaching of Spanish in the United States. The theoretical component of the course incorporates major contemporary notions about Second Language Acquisition (SLA) and Second Language Teaching (SLT). The practical component of the course focuses on professional development as an instructor, roles of instructor and student, and day-to-day classroom activities. No student may earn credit for both 4923 and 5923. (F, Sp)

SPAN 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

SPAN 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

SPAN 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

SPAN 5113 Traditional Novel in Spanish America: Romanticism to Vanguard 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Beginning with the earliest forms of long prose, the course treats the Romantic novel, the Naturalistic novel, the Novel of the Land, and the Indianist novel. Representative texts of each mode will provide a thorough grounding in the characteristics of the different forms of prose. (Irreg.)

SPAN 5203 Prose Fiction of Cervantes-The Quijote 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Style, structure, content, and fundamental criticism of Cervantes' masterpiece. (Irreg.)

SPAN 5333 Studies in Medieval Literature 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. A study of the representative works and genres of the Middle Ages. (Irreg.)

SPAN 5353 Studies in Renaissance and Baroque Drama 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. The theatre of the Spanish siglo de oro. Works by Lope de Vega, Ruiz de Alarcón, Tirson de Molina, Calderón de la Barca, and others. Comedia theory and special topics such as kingship, honor, God. (Irreg.)

SPAN 5413 The Spanish-American Novel of the Post-Boom 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Beginning with novels that are reactions to the new novel, often by the same novelists, the course treats the different forms that have characterized the novel in Spanish America since the seventies. The novelists portray ordinary characters whose quiet desperation and existential suffering is portrayed different from the new novel. (Irreg.)

SPAN 5423 The Spanish-American Essay 3 Credit Hours
The main currents of Spanish-American thought as they appear in the essay, from Simon Bolivar to the present. (Irreg.)

SPAN 5433 Spanish-American Drama 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. The study of the canonical works tracing the development of Spanish-American drama from colonial times to the present. (Irreg.)

SPAN 5443 Post-Modernista Poetry in Spanish America 3 Credit Hours
Prerequisite: Graduate standing. A survey of Spanish-American poetry after World War I. (Irreg.)

SPAN 5453 The Spanish-American Short Story 3 Credit Hours
The development of the genre from colonial times to the present. (Irreg.)

SPAN 5513 Colonial Literature: The Encounter 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. The objective of this course is to familiarize students with early colonial Latin American discourse and its cultural/literary/historic context. Beginning with the letters of Christopher Columbus, the course includes early chronicles and histories. (Irreg.)

SPAN 5523 Colonial Literature: The Criollos 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. This course familiarizes students with colonial Latin American discourse and its cultural/literary/historic context. The course primarily focuses on writers raised in colonial Spanish America approximately 100 years after the encounter. (Irreg.)

SPAN 5603 Studies in Renaissance and Baroque Prose 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of topic; maximum credit six hours. The study of representative narrative from the Spanish Golden Age, including the Picaresque, Pastoral, Sentimental, Chivalric, Mystical and Byzantine traditions. Works by Quevedo, Fray Luis de León, Cervantes, Jorge de Montemayor, Gracián, and others. (Irreg.)

SPAN 5623 Studies in Renaissance and Baroque Poetry 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. Poetry of Garcilaso, Boscan, Fray Luis de Leon, Fernando de Herrera, Luis de Gongora, Francisco Quevedo, Lope de Vega, and others. Concepts of imitatio, cultismo, conceptismo, and the petrarchan and satirical traditions. (Irreg.)

SPAN 5683 Studies in Modern Peninsular Prose 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. Representative writings in the development of the nineteenth- and twentieth-century Spanish narrative. The essay, short story, and novel of the Romantic, Realist, Naturalist, Modernist, Vanguard, and post Civil War periods are some of the themes to be covered. (Irreg.)

SPAN 5693 Studies in Modern Peninsular Poetry 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. Representative poetry of modern Spain. Topics include the works of Romantic, Realist, and Modernist poetry: the Generation of '98; the Generation of '27; and post Civil War poets. Representative poets include Espronceda, Bécquer, Machado, Jiménez, Lorca, Salinas, Guillén, Diego, Alberti, Aleixandre, Cernuda, and others. (Irreg.)

SPAN 5713 History of the Spanish Language 3 Credit Hours
(Slashlisted with SPAN 4713) Prerequisite: SPAN 3853 and graduate standing. As an introduction to Historical Spanish Linguistics, the basic patterns of the evolution of Modern Spanish from Vulgar Latin, as shown in several major literary texts will be learned. Provides an understanding of how the Modern Spanish sound system evolved from the Vulgar Latin of the Iberian Peninsula. Emphasizes as well all four language skills (hearing, speaking, reading, and writing) and culture. No student may earn credit for both 4713 and 5713. (F, Sp)

SPAN 5723 Studies in Modern Peninsular Drama 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. Representative writers and works of the modern Spanish theater. Topics include Romanticism, Realism, Expressionism, theater of the absurd., and the Esperpento. Dramatic works of Valle Inclán, Garcia Lorca, Buero Vallejo, Alfonso Sastre, and others will be included. (Irreg.)

SPAN 5910 Problems in Research 2-4 Credit Hours
2 to 4 hours. May be repeated with change of content; maximum credit nine hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (F, Sp, Su)

SPAN 5923 Teaching Of Spanish In The United States 3 Credit Hours
(Slashlisted with SPAN 4923) Prerequisite: graduate standing and Spanish proficiency. A theoretical and practical introduction to teaching of Spanish in the United States. The theoretical component of the course incorporates major contemporary notions about Second Language Acquisition (SLA) and Second Language Teaching (SLT). The practical component of the course focuses on professional development as an instructor, roles of instructor and student, and day-to-day classroom activities. No student may earn credit for both 4923 and 5923. (F, Sp)

SPAN 5930 Seminar in Spanish Literature 1-3 Credit Hours
1 to 3 hours. May be repeated with change of subject matter; maximum credit nine hours. (F, Sp)

SPAN 5940 Seminar in Spanish-American Literature 1-3 Credit Hours
1 to 3 hours. May be repeated with change of subject matter; maximum credit nine hours. (F, Sp)

SPAN 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

SPAN 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

SPAN 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp)

SPAN 5990 Independent Studies 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit twelve hours. Independent reading on one or more topics under the general direction of a faculty member. (F, Sp, Su)

SPAN 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

SPAN 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

SPAN 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. (F, Sp)

SPAN 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

TESL 5113 Phonetics for ESL 3 Credit Hours
Prerequisite: graduate standing, MA TESOL majors only. Introduces the study of human speech sounds and relates this to teaching ESL; physiology of the vocal tract and how the parts shape sounds; the International Phonetic Alphabet and its interpretation. Students practice transcribing sounds and complete a phonetic description of how a language differs from English in its sound system. (Irreg.)

TESL 5123 Second Language Acquisition Theory for ESL 3 Credit Hours
Prerequisite: graduate standing, MA TESOL majors only. Covers the essential topics that underlie English language acquisition, with special emphasis on those that will be most pertinent to students who will be teaching English as a Second Language. Topics include age, individual differences, aptitude, cognition, affect, motivation, the learner environment, and social dimensions of learning. (Irreg.)

TESL 5133 General Linguistics for ESL 3 Credit Hours
Prerequisite: graduate standing, MA TESOL majors only. Covers the essential topics that underlie linguistics, with special emphasis on those that will be most pertinent to students who will be teaching English as a Second Language. Topics include morphology, phonology, semantics, pragmatics, language and the brain, and sociolinguistics, with review of phonetics and grammatical structure. (Irreg.)

TESL 5143 Structure of the English Language 3 Credit Hours
Prerequisite: graduate standing, MA TESOL majors only. Provides in-depth understanding of the grammatical, syntactical and other features of English as they are taught by teachers of ESL to non-native speakers. Topics will include recent theories of grammar and acquisition; taxonomy and rules of English; strategies for teaching simple and complex constructions; and strategies for recognizing and addressing language interference and learner needs. (F)

TESL 5233 ESL Methods and Techniques 3 Credit Hours
Prerequisite: graduate standing and MA TESOL majors only. Explores the intersection of second language acquisition theory and history, applied linguistics, and ESL methods and techniques related to teaching ESL. Examines new research grounded in sociolinguistics, behavioral linguistics and related fields. Explores how digital and social media innovations are transforming the field and can benefit student outcomes. (F)

TESL 5333 Understanding Cultures for ESL 3 Credit Hours
Prerequisite: graduate standing and MA TESOL majors only. Examines the interaction between language and culture, with application to teaching ESL. Explores how culture is defined and manifested, its influence on identity and self-concept, how cultural differences affect perceptions and interactions, and culture in the ESL classroom. Grounded in constructivist theories of formal schooling, the course trains culturally responsive teachers. (Irreg.)

TESL 5433 ESL Curriculum 3 Credit Hours
Prerequisite: graduate standing; MA TESOL majors only. Introduces students to learner-centered pedagogy and needs-based ESL curriculum. Students use the procedures to design ELL courses and materials. Through needs-assessment, students explore an outcomes-based curriculum planning process and identify curricular goals and objectives. Introduces the range of technologies and software for ELL's; students evaluate their usefulness to teach using CALL. (Sp)

TESL 5443 ESL Testing and Assessment 3 Credit Hours
Prerequisite: graduate standing, MA TESOL majors only. Provides fundamental principles for evaluating and designing assessment processes in ESL classes. Focuses on the most common pedagogical challenge: classroom based assessment for ELLs. Presents treatment of assessing all four macro skills. Considers the validity and utility of standardized tests, the ethics of testing and alternatives in assessment in ESL. (Sp)

TESL 5553 Teaching ESL Reading/ Writing/ Listening/ Speaking 3 Credit Hours
Prerequisite: graduate standing, MA TESOL majors only, GRAD 5113, GRAD 5123, GRAD 5143. Enables students to identify cultural learning strategies in the ESL/ELL paradigm and use that understanding to overcome barriers to learning in regards to the four macro skills. Analyzes learning and scaffolding techniques to build skills by evaluating metacognitive strategies. Emphasizes classroom management and professionalism. (Su)

TESL 5945 Internship in TESOL 5 Credit Hours
Prerequisite: Graduate standing and MA TESOL majors only. A 150-hour field component in which students observe, assist, and teach in an approved ESL setting. Students analyze and reflect upon their own professional knowledge in the field of TESOL with the aid of an instructor and fellow participants. Enables the students to plan future professional development. (Sp)

Major Support Requirements

Code	Title	Credit Hours
Modern Languages, Literatures and Linguistics		
Choose 6 hours from a list available from the Department of Modern Languages, Literatures and Linguistics (p. 489) [1]		6
International Experience		
Arabic majors are strongly encouraged to pursue study abroad opportunities in an Arabic speaking country		
Total Credit Hours		6

[1] These courses may include courses in anthropology, architecture, geography, history, history of science, international and area studies, political science, and religious studies.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213 or EXPO 1213	Principles of English Composition Expository Writing	3
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Arabic major requirements.

Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Chinese major requirements.

Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Italian major requirements.

Major Support Requirements

Foreign Language Study Experience

The student will demonstrate significant experience in foreign language study, according to the following criteria:

1. For students who are native English speakers, the foreign language support requirement may be met by either:
   - A major or minor in a foreign language;
     or
   - Two years of college instruction in one foreign language, plus one year of college instruction in a second foreign language.
     or
   - Two years of college instruction in one foreign language plus C S 1303 *and* C S 1323
2. II. For students who are native speakers of a language other than English and for whom English is a foreign language, the requirement will be met by:
   - Proficiency in the native language as demonstrated by testing out at the third year level (equivalent to the minor), with guidance by the departmental advisor,
     or
   - Satisfaction of the College of Arts and Sciences foreign language requirement in a language other than the native language.

NOTE

- One year of foreign language study includes two semesters of introductory courses.
- Two years includes two semesters of introductory courses plus two semesters of intermediate study.

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Linguistics major requirements.

[1]Contact the department for a list of approved courses.

Arabic, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N032

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Arabic program in the Modern Languages Department.

Required Courses

Students must successfully complete at least 18 hours of coursework in Arabic, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
ARAB 2013	Colloquial Arabic	3
ARAB 2113	Intermediate Arabic	3
ARAB 2223	Intermediate Arabic Continued	3
ARAB 3113	Advanced Arabic	3
ARAB 3223	Advanced Arabic (Continued)	3
Select one of the following:		3
MLLL 3413	Arabic Literature and Culture	
MLLL 3463		
Total Credit Hours		18

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Chinese, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N180

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Chinese program in the Modern Languages Department.

Required Courses

Students must successfully complete at least 18 hours of coursework in Chinese or MLLL related to China/Chinese, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

French, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N445

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the French program in the Modern Languages Department.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in French, including at least nine (9) hours at the upper-division level. Note that introductory courses (FR 1115 and FR 1225) are not counted toward this total.

Code	Title	Credit Hours
FR 2113	Intermediate French	3

- **Students must demonstrate reading competency in a second language. In order to do so, they may take the departmental graduate reading exam or complete two semesters or ten hours in another language.**
- **No more than one-half of the credits for the degree (OU, or OU and transfer combined), excluding research for the thesis (**FR 5980**), may be S/U graded coursework.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Additional graduate-level hours needed to reach 90 post-baccalaureate hours as approved by the student's committee		18
Total Credit Hours		90

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

General Information

The Department of Native American Studies—one of the leading such programs in the nation—attracts and serves students of diverse backgrounds and academic interests who are committed to using distinctly Native American perspectives to place the sovereignty of Native nations and the cultures of Native peoples at the center of academic study.

The University of Oklahoma Department of Native American Studies recognizes the complexity and diversity of Indian Country. And significantly, we are representative of that diversity. Our faculty, staff, students, and alumni are both Native and non-Native. We represent federally recognized tribes, state-recognized tribes, and unrecognized tribes. We are citizens of dozens of tribal political entities and are related through kinship and cultural practice to many, many more indigenous communities. Some among us are tribally enrolled citizens; others are not. Some are fluent speakers of our Native languages; others are not. Some engage in traditional religious practices; others do not. Some powwow, some stomp. We are urban, reservation, and rural. We are local and global. Our complexions vary; our gender expressions and identities vary. We hold many divergent philosophies and perspectives, and we welcome the vigorous and collegial debate of those perspectives.

Together, we are committed to using distinctly Indigenous perspectives to place the sovereignty of Native nations and the cultures of Native peoples at the center of academic study and community-engaged research.

Together, we are committed to providing a deeper understanding of the unique political status of tribes and to examining contemporary tribal issues, as well as tribal cultures and histories.

Together, we represent and embrace the complexity, vibrancy, and diversity that is Indian Country.

Programs & Facilities

Native American Language Program

The University of Oklahoma is honored to serve as a place where Indigenous languages are preserved and revitalized. The Native American Language Program faculty is comprised of both first language and second language speakers who have training in linguistics. Our language courses combine lessons in the grammar of the language with vocabulary lessons and supplementary material and activities designed to situate language learning in cultural and historical context. Considerable class time is spent on conversation, but students also learn to read and write in the language.

Sam Noble Museum - Native American Languages Collection

The Native American Languages collection (NAL) at the Sam Noble Oklahoma Museum of Natural History is an archival repository for materials in and pertaining to the Indigenous languages of the Americas, with a specialization in the Indigenous languages of the central United States. The collection currently contains over 8,500 items representing 315 languages, with another ~800 languages represented in the reference collection. The collection itself consists of a climate-controlled archival space, a digitization lab, a recording studio, a reading room, and a reference library with supplementary materials on Native American languages, linguistics, archaeology, and ethnology. NAL is also a backup repository for a number of tribal archives in Oklahoma, and the department actively participates in a wide variety of collaborative projects with Native communities.

NAL supports to the local community by providing audio/video recording services and free digitization of cassettes, reel-to-reels, miniDV tapes, Hi-8 tapes, vinyl records, and VHSs for media that contains Native languages.
NAL partners with the Sam Noble Museum, the Department of Native American Studies and the OU Native Nations Center to host the annual Oklahoma Native American Youth Language Fair. This unique event attracts over 1,000 students from pre-K to 12th grades who are learning their Native languages. In 2017, the Fair was awarded the University Museums and Collections Award from the International Council of Museums, which is a reflection of the impact the program has had on our Native community over the past 17 years.
NAL offers an internship and an independent study that provide course credit for archival training and work in the archive.
Students and members of the public can also volunteer in the collection at any time by contacting the Sam Noble Museum volunteer office.

Internship and Practicum Program

NAS students at the undergraduate and graduate levels are able to participate in a planned work experience related to personal career and academic goals. The Internship and Practicum Program helps students learn about possible careers, apply knowledge gained in the classroom, develop skills, and better understand how individuals relate to the workplace. Service to Native peoples in their communities and nations is a primary focus of the NAS internship and practicum experiences.

Undergraduate Study

The undergraduate major and minor in Native American Studies uses distinctly Native American perspectives to place the sovereignty of Native nations and the cultures of Native peoples at the center of academic study. In addition to core classes in Indigenous theory and research methods, the Native American Studies curriculum currently supports intensive study in three interrelated areas of emphasis that are synthetic and interdisciplinary in nature: Tribal Governance and Policy; Indigenous Media and Arts; and Language, History, and Cultural Knowledge. The curriculum is, at the same time, focused and flexible. Students are encouraged to combine areas of emphasis according to their own scholarly and professional goals.

- Native American Studies, Bachelor of Arts (p. 522)
- Native American Studies Minor (p. 525)

Graduate Study

Master of Arts

The Master of Arts (p. 525) in Native American Studies uses distinctly Native American perspectives to place the sovereignty of Native nations and the cultures of Native peoples at the center of academic study. In addition to core classes in Indigenous theory and research methods, the Native American Studies curriculum currently supports intensive study in three interrelated areas of emphasis that are synthetic and interdisciplinary in nature: Tribal Governance and Policy; Indigenous Media and Arts; and Language, History, and Cultural Knowledge. The curriculum is, at the same time, focused and flexible. Students are encouraged to combine areas of emphasis according to their own scholarly and professional goals.

In addition, to the Master of Arts degree, students may pursue a joint Juris Doctor/M.A. Native American Studies as well as a Social Work with American Indians Graduate Certificate.

Courses

CHER 1715 Beginning Cherokee 5 Credit Hours
Introduction to the structure of the Cherokee language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp) [I-FL].

CHER 1725 Beginning Cherokee-Continued 5 Credit Hours
Prerequisite: 1715. A continuation of the study of the structure of the Cherokee language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community are emphasized. (Sp) [I-FL].

CHER 2733 Intermediate Cherokee 3 Credit Hours
Prerequisite: 1723. A systematic review of the structure of the Cherokee language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

CHER 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CHOC 1715 Beginning Choctaw 5 Credit Hours
Introduction to the structure of the Choctaw language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp) [I-FL].

CHOC 1725 Beginning Choctaw-Continued 5 Credit Hours
Prerequisite: 1715. A continuation of the study of the structure of the Choctaw language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community are emphasized. (Sp) [I-FL].

CHOC 2733 Intermediate Choctaw 3 Credit Hours
Prerequisite: 1723. A systematic review of the structure of the Choctaw language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

CHOC 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CREK 1715 Beginning Creek/Seminole 5 Credit Hours
Introduction to the structure of the Creek/Seminole language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp) [I-FL] .

CREK 1725 Beginning Creek/Seminole-continued 5 Credit Hours
Prerequisite: 1715. A continuation of the study of the structure of the Creek/Seminole language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community are emphasized. (F, Sp) [I-FL] .

CREK 2733 Intermediate Creek/Seminole 3 Credit Hours
Prerequisite: 1725. A systematic review of the structure of the Creek/Seminole language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

CREK 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

KIOW 1715 Beginning Kiowa 5 Credit Hours
Introduction to the structure of the Kiowa language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp)[I-FL].

KIOW 1725 Beginning Kiowa Continued 5 Credit Hours
Prerequisite: KIOW 1715 or permission of the department or instructor. A continuation of KIOW 1715. The students will build upon their prior knowledge of symbols, diacritic marks, sounds and tones necessary to read, write, speak and comprehend Beginning Kiowa with a predetermined set of vocabulary, sentences, and basic conversation. (F, Sp)[I-FL].

KIOW 2733 Intermediate Kiowa 3 Credit Hours
Prerequisite: 1723. A systematic review of the structure of the Kiowa language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

KIOW 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

NAS 1013 Introduction to Native American Studies 3 Credit Hours
This course will introduce students to key concepts and methods in the study of American Indian history, culture, and contemporary governance and socio-economic status. (F, Sp) [IV-NW] .

NAS 2013 Foundations in Native American Sovereignty 3 Credit Hours
Prerequisite: Sophomore standing. Introduces the key concepts and methods in the discipline of Native American Studies. Examines the scope and nature of tribal sovereignty and self-government. Students will gain understanding of the historical origins of the current laws and policies that constitute the political foundations of sovereignty for Native peoples. (Irreg.)

NAS 3013 Native American Studies Internship 3 Credit Hours
Prerequisite: permission of instructor. Participation in a supervised work experience. Grade is based on work performance, regular reports and journals, and on-site supervisor's evaluation. (F, Sp, Su)

NAS 3113 Native American Philosophy 3 Credit Hours
Prerequisite: junior standing or permission of instructor. A survey of systems of understanding and explaining the relationships between human beings and the natural world in Native American cultures including; concepts of power, spirituality, and ceremonialism; ethical systems; and culturally based ways of knowing. (F) [IV-NW].

NAS 3123 Gender and Sexuality in Native North America 3 Credit Hours
Prerequisite: junior standing. Study of gender and sexuality that is indigenous to North American tribal groups, focusing on the status of pre-colonial gender-non-normative peoples. Emergent analyses within Native studies will point to the gendered nature of colonialism by interrogating Western ontological models from Victorian-era and early anthropological ideas about sexuality. (Sp) [IV-NWC].

NAS 3313 Introduction to Native Peoples and Sustainability 3 Credit Hours
Prerequisite: junior standing. Explores the concept of sustainability from a Native perspective, and as it applies to Native peoples. Emphasis is placed on cultural resilience and identity, human-environment relationships, policy and politics of tribal sovereignty in Native North America. (F)

NAS 3323 Tribal Service Learning 3 Credit Hours
Prerequisite: junior standing. Exploration of contemporary issues relevant to Native American tribes and communities, utilizing critical thinking and problem-solving skills relevant to contemporary issues within the Indian Country to develop and implement a service project for a tribe or Native American community. (F, Sp)

NAS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

NAS 3513 Native American Film 3 Credit Hours
Prerequisite: junior standing or permission of instructor. A critical investigation of the role that film, as an art genre, has played in creating the general public's idea of the American Indian, and its construction of images representing that idea. (Su)

NAS 3693 Special Topics 3 Credit Hours
Prerequisite: six hours of NAS courses. May be repeated twice with a change in topic. Covers topics of special interest to NAS such as politics and tribal government, contemporary health issues, educational policies and trends, and tribal culture in the U.S. and Oklahoma. (F, Sp, Su)

NAS 3960 Honors Reading 1-3 Credit Hours
Prerequisite: admission to Honors Program and permission of instructor. May be repeated with change of content; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. This course will allow the honors candidate the opportunity to study materials not offered in other courses. (F, Sp, Su)

NAS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

NAS 3980 Honors Research 1-3 Credit Hours
Prerequisite: admission to Honors Program. May be repeated with change of content; maximum credit six hours. The study of issues related to Native American Studies for the gifted Honors candidate allowing him/her to work on a special project. (F, Sp, Su)

NAS 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: six hours of NAS major courses and permission of instructor. May be repeated; maximum credit six hours. Work on a topic of the student's choosing taken under the direct supervision of a faculty member. May involve directed reading and research or participation in a community-based activity. Students will be required to give a written report or research papers. (F, Sp)

NAS 4033 Indigenous Research Methods 3 Credit Hours
(Slashlisted with NAS 5033) Prerequisite: Junior standing and permission of instructor. Introduction to research methods in Native American Studies with an emphasis on interdisciplinarity. Students will be introduced to the range of methods available for analysis, and to the presentation of research results. Students will formulate a research proposal that includes problem identification, recommendation and justification of methods for analysis, and preparation of a critical literature review. Emphasis on Indigenous methodologies. No student may earn credit for both 4033 and 5033. (Irreg.)

NAS 4043 Sovereignty, Law, and Policy 3 Credit Hours
(Slashlisted with NAS 5043) Prerequisite: junior standing or permission of instructor. Explores what constitutes the basic nature of political sovereignty and how it is exercised in Native American communities and what the possibilities and limitations are for tribal governments. No student may earn credit for both NAS 4043 and NAS 5043. (Irreg.)

NAS 4053 Senior Capstone 3 Credit Hours
Prerequisite: senior standing. Provides a culminating experience giving students the opportunity to incorporate knowledge gained through previous coursework. Students will integrate this knowledge into a final project. (Sp) [V].

NAS 4063 Critical Indigenous Theory 3 Credit Hours
(Slashlisted with NAS 5063) Prerequisite: senior standing. Seeks to transcend disciplinary boundaries and ground scholarly inquiry in Indigenous frameworks that reflect Native-centered concerns and objectives. Provides an alternative philosophical and theoretical toolkit for applying Indigenous methodologies, understanding strategies of decolonization, envisioning collective and individual agency and models of sovereignty, and examining the intersection of Indigenous intellectual production and lived experiences. No student may earn credit for both 4063 and 5063. (F)

NAS 4113 Oklahoma Tribal History 3 Credit Hours
(Slashlisted with NAS 5113) Prerequisite: junior standing. A survey of Native American history for the area known today as Oklahoma and the surrounding region. Explores the general concepts and histories of the region from a Native perspective. Discussion of Oklahoma tribal experiences in the context of regional and national experiences. Examines the Oklahoma Native experience through the world-views and words of Native Americans. No student may earn credit for both 4113 and 5113. (Irreg.)

NAS 4133 Tribal Historic Preservation 3 Credit Hours
(Slashlisted with NAS 5133) Prerequisite: junior standing or permission of instructor. Provides basic grounding in processes necessary to understand and participate in the federal tribal historic preservation program. Students will receive material and insights to help them gain skills in understanding laws and regulations relating to the federal historic preservation system. No student may earn credit for both 4133 and 5133. (Irreg.)

NAS 4213 Language Acquisition for Revitalization 3 Credit Hours
(Slashlisted with NAS 5213) Prerequisite: Sophomore standing. This class deals with the intimate relationship between language revitalization and the science of creating new speakers. It discusses the differences between first and second language acquisition, the characteristics of each of these processes, and how each relates to language revitalization activities. No student may earn credit for both 4213 and 5213. (Irreg.)

NAS 4333 American Indian Health Issues and Concerns 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Historical information about American Indians with emphasis on health, including behavioral health, and tribal/Indian health service policy issues. Discusses traditional medicine and healing, research needs related to American Indian health, and career opportunities in health professions. (Irreg.)

NAS 4343 American Indian Education Policy and Development 3 Credit Hours
(Slashlisted with NAS 5343) Prerequisite: junior standing or permission of instructor. Enables students to come to an understanding of American Indian education history and policy as related to western European educational thought, philosophies, theories, and practices. No student may earn credit for both 4343 and 5343. (Sp) [III-SS].

NAS 4353 Introduction to Tribal Economic Development 3 Credit Hours
(Slashlisted with NAS 5353) Prerequisite: junior standing. Introduces students to the concept of tribal economic development and the relevant issues facing tribal, local, state, and federal agencies. Examines theories and roles of tribal economic development as they relate to the survival and continuation of tribal governments. No student may earn credit for both 4353 and 5353. (Irreg.)

NAS 4363 Tribal Governance and Leadership 3 Credit Hours
(Slashlisted with NAS 5363) Prerequisite: junior standing. Examines traditional and contemporary forms of tribal government and leadership. Students will be exposed to the historical development of modern tribal governments through examination of government policies and legislation. Explores contemporary issues in tribal government and styles of tribal leadership. No student may receive credit for both 4363 and NAS 5363. (Irreg.)

NAS 4373 International Indigenous Issues 3 Credit Hours
(Slashlisted with NAS 5373) Prerequisite: Sophomore standing. This seminar explores the contemporary politics of Indigenous Peoples and settler societies. It takes a sociological, legal, political and anthropological approach to how politics operate within and around Indigenous Peoples. By using a comparative perspective, it examines the dynamics of critical relationships in terms of national, regional and global political order. No student may earn credit for both 4373 and 5373. (Irreg.)

NAS 4433 Native American Women 3 Credit Hours
(Slashlisted with NAS 5433) Prerequisite: Junior standing. The objective of this course is to provide students with a range of learning experiences that familiarizes them with Indigenous women in traditional and contemporary societies. Students will explore historical and contemporary issues relevant to Indigenous women, examine the multifaceted roles of Indigenous women, and analyze the complexities of Indigenous women within a settler colonial society. No student may earn credit for both 4433 and 5433. (Irreg.)

NAS 4513 Native Cultural Aesthetics & the Heritage Industry 3 Credit Hours
(Slashlisted with NAS 5513) Prerequisite: junior standing. Focus on aspects of heritage tourism pertaining to Native American experience in the United States from early 19th century to present, examining ways of life of tribes in the form of buildings, art, artifacts, and customs. No student may earn credit for both 4513 and 5513. (Irreg.) [IV-NW].

NAS 4523 Contemporary Native American Artist 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Discussion of the broad and modern sensibilities that make up the contemporary diversity of the indigenous arts and people of the North American hemisphere. May include but not limited to artwork dealing with race, class, tribal sovereignty, as well as formalist modes. Introduction to a survey of common methods of contemporary artistic practice. (Irreg.) [IV-NW].

NAS 4533 Contemporary Native American Artist II 3 Credit Hours
(Slashlisted with NAS 5533) Prerequisite: junior standing, NAS 4523 or permission of instructor. A continuation of NAS 4523. Explores the modern sensibilities that make up the contemporary diversity of indigenous arts and people of this hemisphere. Focuses on native art from North America, Canada, and Latin America. No student may earn credit for both 4533 and 5533. (Sp) [IV-NW].

NAS 4543 Understanding Native American Art of Today 3 Credit Hours
(Slashlisted with NAS 5543) Prerequisite: junior standing. Contemporary indigenous artistic forms made by non-western Native cultures and First Peoples of this hemisphere. Presents ideas from artists which speak to issues in contemporary society today. Themes include issues of race, class, gender, tribal sovereignty and formal artistic forms of expression. Introduces students to a diverse variety of contemporary types of art practice, encourages students to become comfortable with engaging artistic forms as well as assessing artistic and cultural value, and fosters a life-long affinity with the creative arts and patronage. No student may earn credit for both 4543 and 5543. (Irreg.) [IV-NW].

NAS 4923 Contemporary Issues in Native American Studies 3 Credit Hours
(Slashlisted with NAS 5923) Prerequisite: junior standing. Familiarizes and sensitizes students to dynamics of change relevant to prevailing issues and concerns among American Indian entities with a special focus on tribal development/progress. No student may earn credit for both 4923 and 5923. (Irreg.) [IV-NW].

NAS 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

NAS 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of topic; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library research or special projects. (Irreg.)

NAS 4990 Independent Study 1-3 Credit Hours
Prerequisite: nine hours of NAS courses and permission of Program Director or instructor. May be repeated; maximum credit six hours. The study of issues related to Native American Studies to include research and special projects. (F, Sp, Su)

NAS 5033 Indigenous Research Methods 3 Credit Hours
(Slashlisted with NAS 4033) Prerequisite: Graduate standing. Introduction to research methods in Native American Studies with an emphasis on interdisciplinarity. Students will be introduced to the range of methods available for analysis, and to the presentation of research results. Students will formulate a research proposal that includes problem identification, recommendation and justification of methods for analysis, and preparation of a critical literature review. Emphasis on Indigenous methodologies. No student may earn credit for both 4033 and 5033. (Irreg.)

NAS 5043 Sovereignty, Law, and Policy 3 Credit Hours
(Slashlisted with NAS 4043) Prerequisite: graduate standing. Explores what constitutes the basic nature of political sovereignty and how it is exercised in Native American communities and what the possibilities and limitations are for tribal governments. No student may earn credit for both NAS 4043 and NAS 5043. (Irreg.)

NAS 5063 Critical Indigenous Theory 3 Credit Hours
(Slashlisted with NAS 4063) Prerequiste: graduate standing or student in the College of Law. Seeks to transcend disciplinary boundaries and ground scholarly inquiry in Indigenous frameworks that reflect Native-centered concerns and objectives. Provides an alternative philosophical and theoretical toolkit for applying Indigenous methodologies, understanding strategies of decolonization, envisioning collective and individual agency and models of sovereignty, and examining the intersection of Indigenous intellectual production and lived experiences. No student may earn credit for both NAS 4063 and NAS 5063. (F)

NAS 5113 Oklahoma Tribal History 3 Credit Hours
(Slashlisted with NAS 4113) Prerequisite: graduate standing. A survey of Native American history for the area known today as Oklahoma and the surrounding region. Explores the general concepts and histories of the region from a Native perspective. Discussion of Oklahoma tribal experiences in the context of regional and national experiences. Examines the Oklahoma Native experience through the world-views and words of Native Americans. No student may earn credit for both 4113 and 5113. (Irreg.)

NAS 5133 Tribal Historic Preservation 3 Credit Hours
(Slashlisted with NAS 4133) Prerequisite: Graduate standing. Provides basic grounding in processes necessary to understand and participate in the federal tribal historic preservation program. Students will receive material and insights to help them gain skills in understanding laws and regulations relating to the federal historic preservation system. No student may earn credit for both 4133 and 5133. (Irreg,)

NAS 5213 Language Acquisition for Revitalization 3 Credit Hours
(Slashlisted with NAS 4213) Prerequisite: Graduate standing. This class deals with the intimate relationship between language revitalization and the science of creating new speakers. It discusses the differences between first and second language acquisition, the characteristics of each of these processes, and how each relates to language revitalization activities. No student may earn credit for both 4213 and 5213. (Irreg.)

NAS 5343 American Indian Education Policy and Development 3 Credit Hours
(Slashlisted with NAS 4343) Prerequisite: graduate standing. Enables students to come to an understanding of American Indian education history and policy as related to western European educational thought, philosophies, theories, and practices. No student may earn credit for both 4343 and 5343. (Sp)

NAS 5353 Introduction to Tribal Economic Development 3 Credit Hours
(Slashlisted with NAS 4353) Prerequisite: graduate standing. Introduces students to the concept of tribal economic development and the relevant issues facing tribal, local, state, and federal agencies. Examines theories and roles of tribal economic development as they relate to the survival and continuation of tribal governments. No student may earn credit for both 4353 and 5353. (Irreg.)

NAS 5363 Tribal Governance and Leadership 3 Credit Hours
(Slashlisted with NAS 4363) Prerequisite: graduate standing. Examines traditional and contemporary forms of tribal government and leadership. Students will be exposed to the historical development of modern tribal governments through examination of government policies and legislation. Explores contemporary issues in tribal government and styles of tribal leadership. No student may receive credit for both 4363 and 5363. (Irreg.)

NAS 5373 International Indigenous Issues 3 Credit Hours
(Slashlisted with NAS 4373) Prerequisite: Graduate standing. This seminar explores the contemporary politics of Indigenous Peoples and settler societies. It takes a sociological, legal, political and anthropological approach to how politics operate within and around Indigenous Peoples. By using a comparative perspective, it examines the dynamics of critical relationships in terms of national, regional and global political order. No student may earn credit for both 4373 and 5373. (Irreg.)

NAS 5433 Native American Women 3 Credit Hours
(Slashlisted with NAS 4433) Prerequisite: Graduate standing. The objective of this course is to provide students with a range of learning experiences that familiarizes them with Indigenous women in traditional and contemporary societies. Students will explore historical and contemporary issues relevant to Indigenous women, examine the multifaceted roles of Indigenous women, and analyze the complexities of Indigenous women within a settler colonial society. No student may earn credit for both 4433 and 5433. (Irreg.)

NAS 5513 Native Cultural Aesthetics & the Heritage Industry 3 Credit Hours
(Slashlisted with NAS 4513) Prerequisite: graduate standing. Focus on aspects of heritage tourism pertaining to Native American experience in the United States from early 19th century to present, examining ways of life of tribes in the form of buildings, art, artifacts, and customs. No student may earn credit for both 4513 and 5513. (Irreg.)

NAS 5533 Contemporary Native American Artist II 3 Credit Hours
(Slashlisted with NAS 4533) Prerequisite: graduate standing. Explores the modern sensibilities that make up the contemporary diversity of indigenous arts and people of this hemisphere. Focuses on native art from North America, Canada, and Latin America. No student may earn credit for both 4533 and 5533. (Sp)

NAS 5543 Understanding Native American Art of Today 3 Credit Hours
(Slashlisted with NAS 4543) Prerequisite: graduate standing. Contemporary indigenous artistic forms made by non-western Native cultures and First Peoples of this hemisphere. Presents ideas from artists which speak to issues in contemporary society today. Themes include issues of race, class, gender, tribal sovereignty, and formal artistic forms of expression. Introduces students to a diverse variety of contemporary types of art practice, encourages students to become comfortable with engaging artistic forms as well as assessing artistic and cultural value, and fosters a life-long affinity with the creative arts and patronage. No student may earn credit for 4543 and 5543. (Irreg.)

NAS 5920 Native American Studies Practicum 3 Credit Hours
Prerequisite: graduate standing. A component of the core curriculum for the master's credential within the NAS discipline. Provides learning experiences and the application of understanding and skills in American Indian related professional settings. (F, Sp, Su)

NAS 5923 Contemporary Issues in Native American Studies 3 Credit Hours
(Slashlisted with NAS 4923) Prerequisite: graduate standing. Familiarizes and sensitizes students to dynamics of change relevant to prevailing issues and concerns among American Indian entities with special focus on tribal development/progress. No student may earn credit for both 4923 and 5923. (Irreg.)

NAS 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

NAS 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of topic; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library research or special projects. (Irreg.)

NAS 5980 Research for Master's Thesis 2-6 Credit Hours
Prerequisite: graduate standing. Variable enrollment, two to six hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

NAS 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Armer	Christine		2005	Instructor, 2005	BA, Northeastern State University, 2005
Clough	Josh		2013	Lecturer, 2013	PhD, University of Oklahoma, 2012; MA, University of Oklahoma, 2003
Cobb-Greetham	Amanda		2014	Coca-Cola Professor of Native American Studies, 2017; Professor, 2014	PhD, University of Oklahoma, 1997; MS, University of North Texas, 1993; BA, Southeastern Oklahoma State Univeristy, 1992
Del Percio	Patrick		2019	Instructor, 2019	BA, DePaul University, 2015
Frye	Melanie	Amber	2007	Instructor, 2019; Instructor, 2007	BA, University of Oklahoma, 2007
Harjo	Laura	L.	2020	Associate Professor, 2020	PhD, University of Southern California, 2012; BS, University of Kansas, 1994; AA, Haskell Indian Nations University, 1991
Heaton	Raina		2017	Assistant Professor, 2017; Assistant Curator of the SNOMNH Native Language Collection, 2017	PhD, University of Hawaii Manoa, 2017; MA, Tulane University, 2012; BS, Tulane University, 2010
Lewis	Freddie		2013	Instructor, 2013	
Orr	Raymond	I.	2018	Interim Chair, 2020; Associate Professor, 2018	PhD, Univ of California Berkeley, 2010; MA, Univ of California, 2004; BA, Cornell Univ, 2001
Poolaw	Martha		2012	Instructor, 2012	
Poolaw	Dane		2007	Instructor, 2007	BA, University of Oklahoma, 2010
Queton	Warren			Instructor	MA, Univ of Oklahoma, 2014; BA, Univ of Oklahoma, 2006
Stuart-Richard	Gina		2017	Assistant Professor, 2017	PhD, University of Arizona, 2015; MA, University of Arizona, 2012; Graduate Certificate, University of Arizona, 2012; BA, University of Colorado, 2010
Tsatoke-Mule	Toni		2013	Lecturer, 2013	Ph.D., Education Administration, Curriculum and Supervision, University of Oklahoma, 2012; M.Ed., Education Administration, Curriculum and Supervision, University of Oklahoma, 2003; B.S., Teacher Education, Haskell Indian Nations University, 2002
Vaughn	Dillon		2015	Instructor, 2015	BFA, University of Oklahoma, 2010

Native American Studies, B.A.

Minimum Total Credit Hours: 120
Major Hours: 36
Minimum Upper-Division Hours: 48
Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B740

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.**
- **Programs of study must be approved by the program Director and coordinating committee.**

Code	Title	Credit Hours
NAS Core Requirements		
NAS 2013	Foundations in Native American Sovereignty	3
NAS 3013	Native American Studies Internship	3
NAS 4033	Indigenous Research Methods	3
NAS 4053	Senior Capstone (should be taken in the senior year)	3
NAS 4063	Critical Indigenous Theory	3
Thematic Areas of Emphasis		
Choose seven courses in one or more of the following areas: [1]		21
Cultural Knowledge, Language, & History (p. 525)		
Tribal Governance & Policy (p. 525)		

Indigenous Media & Arts (p. 525)	
Total Credit Hours	36

[1]Students may declare one or more areas of emphasis. A list of appropriate courses may be obtained from the NAS program. Appropriate courses should be selected with the guidance of the NAS advisor.

Major Support Requirements

Code	Title	Credit Hours
Native Language Requirement		
Choose two introductory courses (1000-level) or the equivalent in a Native language [1]		6-10
Total Credit Hours		6-10

[1]May be used to fulfill General Education and College requirements. May *not* be used to satisfy NAS Core or Area of Emphasis coursework.

Recommended Free Electives [1]

Code	Title	Credit Hours
NAS 1013	Introduction to Native American Studies	3
CHER 2733	Intermediate Cherokee	3
CREK 2733	Intermediate Creek/Seminole	3
CHOC 2733	Intermediate Choctaw	3
KIOW 2733	Intermediate Kiowa	3

[1]These courses are not major or major support work, nor are they required.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1]College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2]One course at the intermediate level or demonstrated competency at that level

[3]6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Native American Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Native American Studies major requirements.

NAS 5543	Understanding Native American Art of Today	3

Native American Studies, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N725

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Native American Studies program.

Required Courses

Students must successfully complete at least 15 hours of courses, including at least 9 hours at the upper-division level

Code	Title	Credit Hours
NAS Core Requirements		
NAS 2013	Foundations in Native American Sovereignty	3
NAS 4063	Critical Indigenous Theory	3
Thematic Area of Emphasis		
Choose three courses from one or more of the following areas: [1]		9
Cultural Knowledge, Language, & History (p. 525)		
Tribal Governance & Policy (p. 525)		
Indigenous Media & Arts (p. 525)		
Total Credit Hours		15

[1] Students may declare one or more areas of emphasis. A list of appropriate courses in each area may be obtained from the NAS Program. Appropriate courses should be selected with the guidance of the NAS advisor.

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Native American Studies, M.A.

Minimum Total Hours (Thesis): 33

Minimum Total Hours (Non-Thesis): 33

Program Code: M740

Required Courses

Thesis Option

Code	Title	Credit Hours
NAS Core Requirements		
NAS 5063	Critical Indigenous Theory	3
Choose one of the following:		3
NAS 5033	Indigenous Research Methods	
LAW 6311 & LAW 6320	American Indian Law Review and Directed Legal Research (2 hours)	
NAS 5043	Sovereignty, Law, and Policy	3
or LAW 5610	Federal Indian Law	
Thematic Area of Emphasis		
Choose seven courses in one or more of the following: [1]		21
Cultural Knowledge, Language, & History		
Tribal Governance & Policy		
Indigenous Media & Arts		
Thesis		
NAS 5980	Research for Master's Thesis [2]	3
Native Language Proficiency		
Demonstrate proficiency in a Native American language or complete one introductory course (1000-level) in a Native language or the equivalent [3]		
Total Credit Hours		33

[1] Students may declare one or more areas of emphasis. A list of appropriate courses may be obtained from the NAS program. Appropriate courses should be selected with the guidance of the NAS advisor.

[2] Minimum of three (3) thesis hours. Student will complete thesis under the direction of the committee chair.

[3] May *not* be used to satisfy core or emphasis credit.

Non-Thesis Option

Code	Title	Credit Hours
NAS Core Requirements		
NAS 5063	Critical Indigenous Theory	3
Choose one of the following:		3
NAS 5033	Indigenous Research Methods	
LAW 6311 & LAW 6320	American Indian Law Review and Directed Legal Research (2 hours)	
NAS 5043	Sovereignty, Law, and Policy	3
or LAW 5610	Federal Indian Law	
Thematic Area of Emphasis		
Choose eight courses in one or more of the following: [1]		24
Cultural Knowledge, Language, & History		
Tribal Governance & Policy		
Indigenous Media & Arts		
Comprehensive Exam		
Student will complete comprehensive exam under the direction of the committee chair		
Native Language Proficiency		
Demonstrate proficiency in a Native American language or complete one introductory course (1000-level) in a Native language or the equivalent [2]		
Total Credit Hours		33

[1] Students may declare one or more areas of emphasis. A list of appropriate courses may be obtained from the NAS program. Appropriate courses should be selected with the guidance of the NAS advisor.

[2] May *not* be used to satisfy core or emphasis credit.

Notes

- **To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework.**
- **The dual Master of Arts in Native American Studies and Juris Doctorate program will require a total of 126 hours of coursework. Thirty-six hours are required for the M.A. and 90 hours are required for the JD. Twenty-four hours can be shared. The shared hours must come from the M.A. requirements.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

General Information

The Department of Philosophy offers broad training in the major fields of philosophy, with particular strengths in the history of ancient and modern philosophy, Chinese philosophy, logic, metaphysics, epistemology, aesthetics and the philosophy of art, philosophy of science, philosophy of language, philosophy of mind and philosophy of religion. The department offers a rich and lively environment with an emphasis on informal interaction between faculty and students.

Programs & Facilities

PROGRAMS FOR ACADEMIC EXCELLENCE

Kingfisher College, Kingfisher, Oklahoma, discontinued giving instruction in 1927. An agreement with the trustees of the college provided for transferring a part of the library of the college to the University, for administering the Kingfisher College records for each graduate of Kingfisher College, recognizing the merits of the degree held by each, and inviting the holder to become associated with the alumni of the University. In 1951 the trustees of the college and the regents of the University jointly established a chair in the Department of Philosophy named Kingfisher College Professor of Philosophy of Religion and Ethics. Since its origin this chair has been expanded into an operative section of the Department of Philosophy, including both graduate and undergraduate level courses.

Society of Undergraduate Philosophers

The Society of Undergraduate Philosophers (SOUP) is an organization of undergraduates and graduate students interested in philosophy. The SOUP meets regularly for discussions, talks by faculty members, to view philosophically themed movies, and to engage in other philosophy related activities.

Undergraduate Study

Bachelor of Arts Degree

Undergraduate studies in philosophy offer broad training in the major fields of philosophy, with particular strengths in the history of ancient and modern philosophy, Chinese philosophy, logic, metaphysics, epistemology,aesthetics and the philosophy of art, philosophy of science, philosophy of language, philosophy of mind and philosophy of religion. In addition to classes and seminars, the department offers a rich and lively environment with an emphasis on informal interaction between faculty and students.

Philosophy

The Bachelor of Arts (p. 533) in Philosophy is an excellent preparation for professional graduate programs in business, medicine, and law, and for graduate programs in philosophy. It is also ideal as a second major in conjunction with physics, psychology, economics, political science, or literature. But perhaps most importantly, the philosophy major fosters a sense of wonder, and provides a rigorous intellectual method for gaining understanding of oneself and the world. By learning about the heritage of philosophical examination, students acquire an informed basis for arriving at their own conclusions about their most basic beliefs and values. Philosophy encourages students to become critical thinkers — to reason clearly and correctly concerning important and fundamental issues.

The ability to write clear, coherent papers is essential to philosophy. Philosophy majors receive specialized training in writing for the field in a Writing Workshop, and they must take at least two majors-only courses, in which they have intensive writing requirements.

Minor

The department also offers an undergraduate Philosophy Minor (p. 536).

Courses for Non-Majors

Most students who take philosophy courses are not philosophy majors. The topics covered by philosophy — e.g., moral, legal, aesthetic and religious values, logic, the theory of knowledge and the history of human thought on these subjects — are of interest to most college students, and many philosophy courses satisfy general education requirements. Non-majors are welcome in any course for which they have the appropriate prerequisites. Consult the course catalog (p. 1597) for information on prerequisites for courses above 3000.

Graduate Study

The Department of Philosophy at the University of Oklahoma offers programs of study leading to two advanced degrees: a terminal MA, either with thesis or without, and a Ph.D. The department offers broad training in the major fields of philosophy.

- Philosophy, Master of Arts (p. 536)
- Philosophy, Ph.D (p. 537).

Courses

PHIL 1013 Introduction to Philosophy 3 Credit Hours
Basic problems of philosophy explored through a consideration of selected philosophers. (F, Sp, Su) [IV-WC] .

PHIL 1103 Critical Reasoning 3 Credit Hours
An informal survey of evaluative principles of reasoning. The application of these principles is emphasized, and common errors and fallacies in everyday, ethical, legal, and scientific reasoning are discussed. This course is not a course in formal symbolic logic or mathematical logic. (F, Sp) [III-SS] .

PHIL 1113 Introduction to Logic 3 Credit Hours
Prerequisite: MATH 0123 or satisfactory score on Math placement test. An introduction to modern logic and its applications. Emphasis is placed on deductive logic, but may also include some treatment of inductive logic. Various common fallacies and errors in reasoning will also be discussed. (F, Sp, Su) [I-M] .

PHIL 1203 Philosophy and Human Destiny, East and West 3 Credit Hours
(Crosslisted with IAS 1203) An inquiry into values bearing upon human destiny or fulfillment with special attention to values inspired by religion in both western and eastern traditions. (Irreg.) [IV-WC].

PHIL 1213 Introduction to Ethics 3 Credit Hours
Basic issues in moral philosophy examined through a consideration of selected philosophers, including a sampling of normative theories as well as an introduction to issues of metaethics. (F, Sp, some Su) [IV-WC] .

PHIL 1223 Introduction to Asian Philosophy 3 Credit Hours
(Crosslisted with IAS 1223) Survey of the major figures and schools of philosophy in Asia. Includes study of Hinduism, Buddhism, Confucianism, and Daoism. (F) [IV-NW].

PHIL 1233 Contemporary Moral Issues 3 Credit Hours
Philosophical exploration of major contemporary moral issues such as euthanasia, abortion, death penalty, war and terrorism, poverty and world hunger, animal rights, pornography, marriage, affirmative action, drug legalization, and organ sales. Students will read contrasting views from prominent philosophers, and learn about how moral theories may be invoked in support of positions on those issues. (F, Sp)[IV-WC].

PHIL 1263 Introduction to Ethics in Health Care 3 Credit Hours
An overview of important issues in health care ethics, including dilemmas facing providers, patients, researchers, and society at large. The course will introduce facts and concepts drawn from health care practice, and a variety of philosophical approaches used to analyze ethical dilemmas. (F, Sp) [IV-WC].

PHIL 1273 Introduction to Business Ethics 3 Credit Hours
An overview of important issues in business ethics, including the morality of market systems, business-customer relations, employer-employee relations, and firm-shareholder relations. The course will introduce facts and concepts drawn from economic analysis and business practice, as well as a variety of philosophical approaches used to analyze ethical considerations. (F, Sp) [IV-WC].

PHIL 1713 Justice in Society 3 Credit Hours
Introduces students to justice, both as a regulative ideal and as a conscious process of social transformation. Consideration of how to reflect on the society we could have without ignoring past and present transgressions of sexism, racism, ethnic hatred, economic discrimination, religious discrimination, etc. (Irreg.)

PHIL 2023 Existentialism, its Sources and Influences 3 Credit Hours
The historical background and cultural impact of existentialism in its literary, religious, psychiatric and philosophical expressions. Stresses Kierkegaard, Heidegger and Sartre. Briefly treats Nietzsche, Jaspers, Berdyaev, Maslow, Beckett, etc. (Irreg.)

PHIL 2900 Special Topics 4 Credit Hours
1 to 4 hours. May be repeated with change of topic; maximum credit nine hours. Topics in philosophy not accommodated by the existing curriculum will be taught from time to time (examples: Islamic philosophy, Navajo thought, feminism). (Irreg.)

PHIL 3023 Aesthetics and the Philosophy of Art 3 Credit Hours
Prerequisite: six hours of Philosophy or junior standing. Examines historical and contemporary views about the nature, value, social role and interpretation of artworks in a variety of artistic media. The appreciation of nature and of everyday experience is also discussed. (Irreg.) [IV-WC] .

PHIL 3033 Philosophy and Literature 3 Credit Hours
Literature expresses in concrete form what philosophy discusses in abstract terms: views of the world that human beings inhabit; views of the nature of human freedom and rationality; and views of the good human life. Use of literature to illustrate philosophical issues, and philosophy to reveal the unstated assumptions and implications of selected literary works. (Irreg.) [IV-WC] .

PHIL 3243 Civility 3 Credit Hours
Prerequisite: 6 hours of Philosophy or junior standing. Addresses the moral, social, and political aspects of the virtue of civility. Course readings will range from theoretical works linking civility to broad moral and political concerns to more applied approaches that seek to address how civility practices have altered alongside historical, sociological, and technological changes in society. (Irreg.) [IV-WC].

PHIL 3253 History of Ethics 3 Credit Hours
Prerequisite: six hours of philosophy. A survey of the major figures in the history of moral philosophy with emphasis on their interrelations, influences on each other and effect on contemporary moral philosophy. (Sp) [IV-WC] .

PHIL 3263 Virtue Ethics 3 Credit Hours
Prerequisite: junior standing or six hours of Philosophy. An overview of the history of virtue ethics from the ancient Greeks to the present day, covering the historical zenith of virtue ethics through the Middle Ages, the fall of virtue concepts in the early modern period, and the rebirth of virtue ethics in the later 20th century. Discusses a number of executive, moral, intellectual, and civic virtues and their related vices, and addresses some of the fundamental philosophical questions that arise in the study of virtue ethics. (F, Sp) [IV-WC].

PHIL 3273 Ethics and Business 3 Credit Hours
Prerequisite: Six hours of philosophy or junior standing. A study of how ethics illuminates business activities. Topics include: the philosophical bases of capitalism; the legitimacy of the profit motive; virtue and the marketplace; corporate responsibility; government regulation; the marketplace and the environment; the ethics of advertising; employee privacy; and the challenges posed by the developing information age. (Irreg.) [IV-WC] .

PHIL 3293 Environmental Ethics 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Surveys the field of environmental ethics. Various principles philosophers use to assign value to the natural world and assign obligations toward nature to human beings are examined by students in order to articulate and defend their own reasoned points of view on environmental questions. (Irreg.) [IV-WC] .

PHIL 3313 History of Ancient Philosophy 3 Credit Hours
Prerequisite: six hours of philosophy. A survey of Greek and Roman philosophy with concentration on selected readings in classical philosophy from Thales to St. Augustine. (F) [IV-WC] .

PHIL 3333 History of Modern Philosophy 3 Credit Hours
Prerequisite: six hours of philosophy. A survey of modern European philosophy with concentration on selected readings from the Renaissance through Kant. (Sp) [IV-WC] .

PHIL 3343 Chinese Philosophy 3 Credit Hours
(Crosslisted with IAS 3343) Prerequisite: Six hours of philosophy or junior standing. Survey and analysis of the major texts and schools of philosophy in China, from the ancient world to the contemporary era. (Irreg.) [IV-NW].

PHIL 3353 American Philosophy 3 Credit Hours
A study of important American philosophers and philosophical movements, from Jonathan Edwards through pragmatism. (Irreg.) [IV-WC] .

PHIL 3393 History of Analytic Philosophy 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing; open to non-majors. Explores some of the main methods and topics of interest in the analytic philosophical tradition. Examines the views of influential philosophers, starting around the beginning of the twentieth century, on questions such as: What is the world made up of? What is the nature of time? What is knowledge, and do we have any? (Irreg.) [IV-WC].

PHIL 3423 Ancient and Medieval Religious Philosophy 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. Covers the history of religious philosophy in the West from ancient Greece until the 16th century. Major figures studied include Plato, Aristotle, the Stoics, Plotinus, Augustine, Boethius, Anselm, Maimonides, Aquinas, Averroes, Scotus, Ockham, and the Reformers. (Irreg.) [IV-WC] .

PHIL 3433 Modern Philosophy of Religion 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. Covers the history of modern religious philosophy in the West from the 17th to the mid-20th centuries. Major figures studied include Descartes, Pascal, Leibniz, Locke, Hume, Kant, Kierkkegaard, Nietzsche, Clifford, James, Freud, and Wittgenstein. (Irreg.) [IV-WC] .

PHIL 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

PHIL 3443 Contemporary Issues in Philosophy of Religion 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. Issues currently debated in philosophy of religion. Topics include the rationality of religious belief, the problem of evil, the dilemma of divine foreknowledge and human free will, life after death, the relation between science and religion, and religion and public policy. (Irreg.) [IV-WC] .

PHIL 3503 Self and Identity 3 Credit Hours
Prerequisite: 1013 or permission of instructor. Introduction to a number of philosophical topics about the self including personal identity, immortality, unity of self-consciousness, self-knowledge, and nature of self. (Irreg.) [IV-WC] .

PHIL 3533 Language, Communication, and Knowledge 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. The nature of language and communication as studied by linguists and philosophers. Topics will include the nature of meanings; the relationship between syntax, semantics, and pragmatics; and the transmission of knowledge through testimony. Combines philosophical readings with readings from the empirical sciences. (Irreg.) [IV-WC] .

PHIL 3613 Philosophy of Biology 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. Philosophical issues raised by evolutionary theory. Topics include creationism versus evolutionary theory; what makes a hypothesis scientific; can evolutionary theory explain psychological or cultural phenomena? (Irreg.) [IV-WC] .

PHIL 3623 Philosophical Issues in Physics and Cosmology 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. Focus on philosophical issues raised by relativity theory (e.g. the nature of space and time), quantum theory (e.g. non-local action, the measurement problem), and cosmology (e.g. how did the universe begin, will it end and how, and what sense can be made of the universe beginning and ending?). (Irreg.) [IV-WC] .

PHIL 3713 History of Social and Political Philosophy 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. A survey of the views of major philosophers from Plato to the nineteenth century on the nature of man's relation to society and to the state in the context of their wider philosophical (logical, epistemological, metaphysical and ethical) doctrines. Plato, Aristotle, Aquinas, Hobbes, Locke, Rousseau, Hegel and Marx are the chief figures covered, though others will be considered as time permits. (Irreg.) [IV-WC] .

PHIL 3723 Contemporary Social and Political Philosophy 3 Credit Hours
Prerequisite: Six hours of philosophy or junior standing. A study of contemporary discussions of political legitimacy, political obligation, democracy, theories of justice and desert, and accounts of individual and group rights. Topics include issues such as political liberalism and its contemporary critiques, discourse-based political theory, theories of procedural and deliberative democracy, and cultural pluralism. (Irreg.) [IV-WC].

PHIL 3733 Religion in Political Theory 3 Credit Hours
Prerequisite: six hours of Philosophy or junior standing. Survey of views on religion in political life held by important political theorists in the modern western tradition and consider how theoretical positions on the role of religion in political life are reflected in political institutions, such as the first amendment establishment clause. (Irreg.) [IV-WC] .

PHIL 3743 Feminist Philosophy 3 Credit Hours
Prerequisite: Six hours of philosophy or junior standing. A study of the major schools of feminist philosophy, as well as issues of perennial and contemporary interest in feminist philosophy. (Irreg.) [IV-WC] .

PHIL 3753 Philosophy of Race 3 Credit Hours
Prerequisite: junior standing or six hours of philosophy. Addresses philosophical questions about race. Social justice will be an important focus of the course. Additional specific issues related to race and racism will also be addressed; hopefully, a better understanding of the philosophical issues and a commitment to the eradication of racism and racial injustice will be reached. (Irreg.) [IV-WC].

PHIL 3763 Law and Society 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. An introduction to the history and structure of the main controversies in modern law, with special attention to the United States legal system. Covered topics include natural law, legal realism, the law and economics movement, theories of responsibility and liability, feminist legal theory, and theories of text interpretation. (Irreg.) [IV-WC].

PHIL 3803 Topics in Philosophy for Majors 3 Credit Hours
Prerequisite: 6 hours of Philosophy and declared Philosophy major. May be repeated with change of content; maximum credit 6 hours. This is the majors-only version of a 3000-level course designated by the Philosophy Department to serve as a "target class" for PHIL 3811, the Writing Workshop in Philosophy. It meets concurrently with that designated course. Content will vary depending on the designated course, but will include intensified writing requirements. (F, Sp)

PHIL 3811 Philosophy Writing Workshop 1 Credit Hour
Prerequisite: co-requisite with 3813, 3833 or 3853. Intensive instruction on how to write papers in philosophy. Students will use the workshop to help them write the term paper for a designated target class, in which they must be concurrently enrolled. (F, Sp)

PHIL 3813 History of Ancient Philosophy for Majors 3 Credit Hours
Prerequisite: six hours of philosophy and Philosophy or Ethics and Religion major. A survey of Greek and Roman philosophy with concentration on selected readings in classical philosophy from Thales to St. Augustine. For majors in Philosophy or Ethics and Religion. No student may earn credit for both 3313 and 3813. (F, Sp)

PHIL 3833 History of Modern Philosophy for Majors 3 Credit Hours
Prerequisite: six hours of philosophy and Philosophy or Ethics and Religion major. A survey of modern European philosophy with concentration on selected readings from the Renaissance through Kant. For majors in Philosophy or Ethics and Religion. No student may earn credit for both 3333 and 3833. (F, Sp)

PHIL 3843 Chinese Philosophy for Majors 3 Credit Hours
Prerequisite: six hours of Philosophy and declared Philosophy major. Survey and analysis of the major texts and schools of philosophy in China, from the ancient world to the contemporary era. This is the majors-only version of PHIL 3343, Chinese Philosophy; it meets concurrently with that course, but has intensified writing requirements. It can serve as a "target class" for PHIL 3811, the Writing Workshop in Philosophy. (Irreg.)

PHIL 3853 History of Ethics for Majors 3 Credit Hours
Prerequisite: six hours of philosophy and Philosophy or Ethics and Religion major. A survey of the major figures in the history of moral philosophy with emphasis on their interrelations, influences on each other and effect on contemporary moral philosophy. For majors in Philosophy or Ethics and Religion. No student may earn credit for both 3253 and 3853. (Sp)

PHIL 3900 Special Topics 1-4 Credit Hours
1 to 4 hours. May be repeated with change of topic, maximum credit nine hours. Topics in philosophy not accommodated by the existing curriculum will be taught from time to time. (Irreg.)

PHIL 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. Topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

PHIL 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)

PHIL 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

PHIL 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PHIL 4023 Survey of Analytic Aesthetics and Philosophy of Art 3 Credit Hours
(Slashlisted with PHIL 5023) Prerequisite: eight hours of philosophy or permission of department. Survey of major philosophical topics in aesthetics and the philosophy of art. Topics include the ontology of art, interpretation, the value of artworks, the relationship between aesthetic and moral value, and aesthetic experience in everyday life. No student may earn credit for both 4023 and 5023. (Irreg.)

PHIL G4133 Symbolic Logic I 3 Credit Hours
An introduction to the symbolism and methods of modern deductive logic. (F)

PHIL 4293 Ethical Theory 3 Credit Hours
(Slashlisted with 5293) Prerequisite: eight hours of philosophy including an ethics course or permission. A survey of theories of the nature and foundations of morality. Topics may include the analysis of moral language, the justification of moral beliefs, and the status of ethical theories. No student may earn credit for both 4293 and 5293. (Sp)

PHIL 4343 Early Chinese Philosophy 3 Credit Hours
(Slashlisted with 5343, Crosslisted with IAS 4343) Prerequisite: eight hours of Philosophy or permission. Survey of pre-Qin Chinese philosophy, including the major texts and figures of Confucianism, Daoism, and other notable schools. No student may earn credit for both 4343 and 5343. (Irreg.)

PHIL 4473 Philosophy of Religion 3 Credit Hours
(Slashlisted with 5473) Prerequisite: eight hours of philosophy or permission. Survey of topics in the philosophy of religion. Topics covered include the concept of God, the problem of religious knowledge, the nature of religious language, the problem of evil, and particular thinkers. No student may earn credit for both 4473 and 5473. (Irreg.)

PHIL 4513 Metaphysics 3 Credit Hours
(Slashlisted with 5513) Prerequisite: eight hours of philosophy or permission. Survey of major philosophical views about the nature of reality. Topics covered may included the mind-body problem, causation, personal identity, free will and determinism, universals, and the existence of God. No student may earn credit for both 4513 and 5513. (Sp)

PHIL 4523 Epistemology 3 Credit Hours
(Slashlisted with 5523) Prerequisite: eight hours of philosophy or permission. Survey on the evaluation of human reasoning and the nature and scope of human knowledge. Topics include skepticism, the nature of justification, the ethics of belief, and the problem of induction. No student may earn credit for both 4523 and 5523. (F)

PHIL 4533 Philosophy of Language 3 Credit Hours
(Slashlisted with PHIL 5533) Prerequisite: eight hours of philosophy or permission. Survey of major philosophical views on the nature and workings of language. Topics covered include: meaning and truth, sense and reference, speech acts, and communication. No student may earn credit for both 4533 and 5533. (Irreg.)

PHIL 4543 Philosophy of Mind 3 Credit Hours
(Slashlisted with PHIL 5543) Prerequisite: eight hours of philosophy or permission. Survey of major philosophical views on the nature of the mind. Topics covered may include: the nature and unity of consciousness, the mind-body problem, personal identity, the emotions, actions and intentions, self-knowledge, and other minds. No student may earn credit for both 4543 and 5543. (Irreg.)

PHIL 4613 Philosophy of Science 3 Credit Hours
(Slashlisted with 5613) Prerequisite: eight hours of philosophy or permission. Survey of main issues in the philosophy of science. Topics will include the structure of scientific theories, theory testing, and the rationale of scientific methodologies. The rationality of scientific belief and the moral constraints on scientific research may also be discussed. No student may earn credit for both 4613 and 5613. (Irreg.)

PHIL 4623 Philosophy of The Social Sciences 3 Credit Hours
(Slashlisted with 5623) Prerequisite: nine hours of upper-division social sciences or permission. Survey of issues in the philosophy of the social sciences. Topics covered will include explanation in the social sciences, theory construction, theories and observation, evidence and theory of confirmation, theoretical constructs and operationism, verstehen and objectivity. No student may earn credit for both 4623 and 5623. (Irreg.)

PHIL 4713 Survey of Social and Political Philosophy 3 Credit Hours
(Slashlisted with 5713) Prerequisite: Eight hours of philosophy or permission. Survey of important theories in social and political philosophy. Beginning with ancient theories (Plato and Aristotle), to modern social contract theories and the foundations of liberalism (Hobbes, Locke, Rousseau, and Mill), and concludes with the debate between liberals and communitarians (Rawls and his critics). No student may earn credit for both 4713 and 5713. (Irreg.)

PHIL 4893 Senior Capstone in Philosophy 3 Credit Hours
Prerequisite: graduating majors. Covering the major areas of philosophy taught in the undergraduate major, coordinated with the departmental objectives for undergraduate majors and for the purpose of assessing the level of learning among graduating seniors. (Sp) [V] .

PHIL 4900 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: eight hours of philosophy. May be repeated with change of topic; maximum credit nine hours. Topics in philosophy not accommodated by the existing curriculum. (Irreg.)

PHIL 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

PHIL 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

PHIL 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PHIL 5023 Survey of Analytic Aesthetics and Philosophy of Art 3 Credit Hours
(Slashlisted with PHIL 4023) Prerequisite: graduate standing. Survey of major philosophical topics in aesthetics and the philosophy of art. Topics include the ontology of art, interpretation, the value of artworks, the relationship between aesthetic and moral value, and aesthetic experience in everyday life. No student may earn credit for both 4023 and 5023. (Irreg.)

PHIL 5143 Symbolic Logic II 3 Credit Hours
Prerequisite: graduate standing. Further study of first order predicate logic: identity, axiomatic development. Various metatheorems; soundness, consistency and completeness. (Alt. Sp)

PHIL 5293 Ethical Theory 3 Credit Hours
(Slashlisted with 4293) Prerequisite: graduate standing. A survey of theories of the nature and foundations of morality. Topics may include the analysis of moral language, the justification of moral beliefs, and the status of ethical theories. No student may earn credit for both 4293 and 5293. (Sp)

PHIL 5313 Studies in Ancient Philosophy 3 Credit Hours
Prerequisite: 3313. May be repeated with change of content; maximum credit 18 hours. Survey of philosophical writings of a major ancient Greek philosopher, typically Plato and Aristotle. Works covering different philosophical topics and written at different stages in the philosopher's development will be studied. Selection of figure will alternate each year the course is offered. (Sp)

PHIL 5333 Studies in Modern Philosophy 3 Credit Hours
May be repeated with change of content; maximum credit 18 hours. Survey of philosophical writings of major philosophers. Figures covered will alternate each year between the Rationalists (Descartes, Leibniz, and Spinoza) and the Empiricists (Locke, Berkeley, and Hume), though other combinations (e.g., Locke and Leibniz) may be offered. (F)

PHIL 5343 Early Chinese Philosophy 3 Credit Hours
(Slashlisted with 4343) Prerequisite: eight hours of Philosophy or permission. Survey of pre-Qin Chinese philosophy, including the major texts and figures of Confucianism, Daoism, and other notable schools. No student may earn credit for both 4343 and 5343. (Irreg.)

PHIL 5473 Philosophy of Religion 3 Credit Hours
(Slashlisted with 4473) Prerequisite: graduate standing. Survey of topics in the philosophy of religion. Topics covered include the concept of God, the problem of religious knowledge, the nature of religious language, the problem of evil, and particular thinkers. No student may earn credit for both 4473 and 5473. (Irreg.)

PHIL 5513 Metaphysics 3 Credit Hours
(Slashlisted with 4513) Prerequisite: graduate standing. Survey of major philosophical views about the nature of reality. Topics covered may included the mind-body problem, causation, personal identity, free will and determinism, universals, and the existence of God. No student may earn credit for both 4513 and 5513. (Sp)

PHIL 5523 Epistemology 3 Credit Hours
(Slashlisted with 4523) Prerequisite: graduate standing. Survey on the evaluation of human reasoning and the nature and scope of human knowledge. Topics include skepticism, the nature of justification, the ethics of belief, and the problem of induction. No student may earn credit for both 4523 and 5523. (F)

PHIL 5533 Philosophy of Language 3 Credit Hours
(Slashlisted with PHIL 4533) Prerequisite: graduate standing. Survey of major philosophical views on the nature and workings of language. Topics covered include: meaning and truth, sense and reference, speech acts, and communication. No student may earn credit for both 4533 and 5533. (Irreg.)

PHIL 5543 Philosophy of Mind 3 Credit Hours
(Slashlisted with PHIL 4543) Prerequisite: graduate standing. Survey of major philosophical views on the nature of the mind. Topics covered may include the nature and unity of consciousness, the mind-body problem, personal identity, the emotions, actions and intentions, self-knowledge, and other minds. No student may earn credit for both 4543 and 5543. (Irreg.)

PHIL 5613 Philosophy of Science 3 Credit Hours
(Slashlisted with 4613) Prerequisite: graduate standing. Survey of main issues in the philosophy of science. Topics will include the structure of scientific theories, theory testing, and the rationale of scientific methodologies. The rationality of scientific belief and the moral constraints of scientific research may also be discussed. No student may earn credit for both 4613 and 5613. (Irreg.)

PHIL 5623 Philosophy of The Social Sciences 3 Credit Hours
(Slashlisted with 4623) Prerequisite: graduate standing. Survey of issues in the philosophy of the social sciences. Topics covered will include explanation in the social sciences, theory construction, theories and observation, evidence and theory of confirmation, theoretical constructs and operationism, verstehen and objectivity. No student may earn credit for both 4623 and 5623. (Irreg.)

PHIL 5713 Survey of Social and Political Philosophy 3 Credit Hours
(Slashlisted with 4713) Prerequisite: Eight hours of philosophy or permission. Survey of important theories in social and political philosophy. Beginning with ancient theories (Plato and Aristotle), to modern social contract theories and the foundations of liberalism (Hobbes, Locke, Rousseau, and Mill), and concludes with the debate between liberals and communitarians (Rawls and his critics). No student may earn credit for both 4713 and 5713. (Irreg.)

PHIL 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

PHIL 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing. May be repeated with change of topic; maximum credit nine hours. Topics in philosophy not accommodated by the existing curriculum. (Irreg.)

PHIL 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

PHIL 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and adviser. May be repeated with change of subject matter; maximum undergraduate credit eight hours; maximum graduate credit 12 hours. (F, Sp, Su)

PHIL 6023 Seminar in Aesthetics and Philosophy of Art 3 Credit Hours
Prerequisite: graduate standing. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in aesthetics and the philosophy of art. (Irreg.)

PHIL 6203 Seminar in Ethics 3 Credit Hours
May be repeated with change of subject matter; maximum credit 12 hours. (F, Sp)

PHIL 6383 Seminar in Chinese Philosophy 3 Credit Hours
Prerequisite; graduate standing. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in Chinese philosophy. (Irreg.)

PHIL 6393 Seminar in the History of Philosophy 3 Credit Hours
May be repeated with change of subject matter; maximum credit 12 hours. (Irreg.)

PHIL 6473 Seminar In Philosophy Of Religion 3 Credit Hours
Seminar In Philosophy Of Religion. Prerequisite: 5473 Or Permission. May Be Repeated With Change Of Content; Maximum Credit 12 Hours. Intensive Seminar On A Topic In The Philosophy Of Religion. (Irreg.)

PHIL 6513 Seminar in Metaphysics 3 Credit Hours
Prerequisite: 5513 or permission. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in metaphysics. (Irreg.)

PHIL 6523 Seminar in Epistemology 3 Credit Hours
Prerequisite: 5523 or permission. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in epistemology. (Irreg.)

PHIL 6533 Seminar in Philosophy of Language 3 Credit Hours
Prerequisite: 5533 or permission. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in the philosophy of language. (Irreg.)

PHIL 6593 Seminar in Contemporary Philosophy 3 Credit Hours
May be repeated with change of subject matter; maximum credit 12 hours. (Irreg.)

PHIL 6613 Seminar in Philosophy of Science 3 Credit Hours
Prerequisite: 5613 or permission. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in the philosophy of science. (Irreg.)

PHIL 6793 Seminar in Social and Political Philosophy 3 Credit Hours
Prerequisite: 5763 or permission. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in the philosophy of law. (Irreg.)

PHIL 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

PHIL 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

PHIL 6980 Research for Doctoral Dissertation 2-16 Credit Hours
Research for doctoral dissertation. (F, Sp, Su)

PHIL 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Philosophy, B.A.

Minimum Total Credit Hours: 120
Major Hours: 31
Minimum Upper-Division Hours: 48
Upper-Division Hours Within Major: 25
Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B775

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.**
- **A maximum of six hours of lower- division coursework may be used toward the 31 hours required by the major. A grade of C or better is required in PHIL 4893.**
- Philosophy majors must take at least two 38XX ("for Majors") classes, chosen from Core or Distribution Requirements; and must take at least one 4000-level class beyond PHIL 4133 and PHIL 4893.

Code	Title	Credit Hours
Philosophy Core Courses		
PHIL 3313	History of Ancient Philosophy	3
or PHIL 3813	History of Ancient Philosophy for Majors	
PHIL 3333	History of Modern Philosophy	3
or PHIL 3833	History of Modern Philosophy for Majors	
PHIL 3343	Chinese Philosophy	3
or PHIL 3843	Chinese Philosophy for Majors	
PHIL 3811	Philosophy Writing Workshop (taken concurrently with a 38XX 'for majors' class)	1
PHIL 4133	Symbolic Logic I	3
PHIL 4893	Senior Capstone in Philosophy (A grade of C or better is required)	3
Distribution Requirements		
Choose one course in each category (classes in each category are listed on the Philosophy Department website):		9
Ethics and Values (p. 535)		
Knowledge and Reality (p. 535)		
Philosophy in Society (p. 535)		
Philosophy Electives		
Choose 2 courses [1]		6
Total Credit Hours		31

[1] May not include PHIL 1113.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Philosophy academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Philosophy major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
P SC 1113	American Federal Government (Core III)	3
Beginning Foreign Language (Core I)		5
	Credit Hours	14
Second Semester		
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
Math (Core I)		3
Choose one of the following:		3
PHIL 1013	Introduction to Philosophy	
PHIL 1103	Critical Reasoning	
PHIL 1213	Introduction to Ethics	
Understanding Artistic Forms (Core IV)		3
Beginning Foreign Language continued (Core I)		5

PHIL 3273	Ethics and Business	3
PHIL 3293	Environmental Ethics	3
PHIL 3713	History of Social and Political Philosophy	3
PHIL 3723	Contemporary Social and Political Philosophy	3
PHIL 3733	Religion in Political Theory	3
PHIL 3743	Feminist Philosophy	3
PHIL 3753	Philosophy of Race	3
PHIL 3763	Law and Society	3

Philosophy, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N765

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Philosophy.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in Philosophy, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
Choose one course from each of the following areas: [1]		
Ethics & Values (p. 535)		3
Knowledge & Reality (p. 535)		3
Philosophy in Society (p. 535)		3
Choose additional Philosophy (PHIL) courses to complete the 18 total hour and 9 upper-division hour requirements		9
Total Credit Hours		18

[1] The most current lists of courses fulfilling each of the area requirements are available on the Department of Philosophy website: http://www.ou.edu/cas/philosophy/academics/undergraduate/requirements/bachelor-arts

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Philosophy, M.A.

Minimum Total Hours (Thesis): 30
Minimum Total Hours (Non-Thesis): 36

Program Code: M775

Required Courses

Total Credit Hours		36

[1] Must be taken for graduate credit. Hours cannot be applied to both undergraduate and graduate degrees.
[2] Must be passed with a B grade or better.

Notes

- **Up to 8 hours may be taken outside the department with approval from the Director of Graduate Studies.**
- **A maximum of 3 hours of** PHIL 5990 **will be allowed in this program.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Philosophy, Ph.D.

Minimum Total Hours: 90

Program Code: D775

Program Requirements

Code	Title	Credit Hours
Core		
PHIL 5143	Symbolic Logic II	3
9 hours of history (at least 3 hours in ancient and 3 hours in modern)		9
9 hours in metaphysics and/or epistemology (at least 3 hours in metaphysics, and 3 hours in epistemology)		9
9 hours in ethics (at least 6 hours in non-applied ethics)		9
Dissertation Research		
PHYS 6980	Research for Doctoral Dissertation (2 hour minimum, 39 hour maximum)	2-39
Additional Coursework		
Additional coursework as needed to complete 90 post-baccalaureate credit hours, with approval of student's committee		21-58
Total Credit Hours		90

Notes:

- With approval of the committee, up to 12 hours of all coursework may be taken outside the department.
- The student's committee may require proficiency in one or more foreign languages.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

General Information

The Homer L. Dodge Department of Physics and Astronomy has a long tradition of educating scientists, engineers and teachers who have achieved distinguished careers as researchers and leaders in industry and education. Our graduates include a former Science Advisor to the President of the United States, a former director of NSF, university president, U.S. ambassador, founders of corporations, Arctic explorer, founder and first editor of the American Journal of Physics, journal editors, inventors, research laboratory managers, university department chairs, Rhodes Scholar and Guggenheim Fellows, university professors, and hundreds of people devoted to advancing knowledge and improving the quality of life.

Programs & Facilities

Programs for Academic Excellence

Innovative education programs have been an integral part of the department since its inception and are still our tradition. In addition to

our own faculty, post-doctoral fellows and weekly colloquium speakers promote academic excellence within the department. With additional support from state monies and private endowment, the department hosts a large number of visiting scientists each year who bring the latest developments in their areas of interest and who present opportunities to exchange scientific ideas.

The department offers all undergraduate majors the opportunity to perform research with faculty mentors, and runs a federally funded summer research experience for undergraduates from all across the country.

The OU Soonertarium is an educational outreach program whose goal is to share the joy of exploring the cosmos with fellow Oklahomans, one classroom at a time. They provide traveling planetarium shows and lectures, free of charge, to interested science classrooms in Oklahoma.

Special Facilities and Programs

Library Resources

The Homer L. Dodge Department of Physics and Astronomy library possesses an excellent scientific library of over 20,000 volumes and more than 150 journal subscriptions. Ancillary library holdings include the world-famous History of Science Collection and the Engineering Library.

Instrument Shop

The instrument shop at the Homer L. Dodge Department of Physics and Astronomy has supported the experimental research needs of the department for a century. This facility has designed, built and collaborated on a wide variety of apparatus including, but not limited to: High Energy Physics work on DØ, Higgs Boson, and Monopole detector systems; Atomic Molecular scattering systems — Electron-Photon Coincidence, Electric Dipole Moment, Cold Atom systems; UHV chambers and associated hardware; Thin film sputtering systems; High Pressure (100,000 PSI) systems, Electro-mechanical drive and control; Furnace construction and PID control; Telescope repair.

Laboratory Resources

The department has well-equipped laboratories for research in laser cooling and trapping of atoms and molecules, atomic and molecular collisions, nanostructured materials and devices, materials characterization, and high-energy physics instrumentation. We are also home to a multi-million dollar NSF funded Materials Research Science and Engineering Center. This center greatly expands our research effort in nanostructures. Additionally, many programs make use of facilities at national laboratories, such as Fermilab, and Los Alamos. The high-energy group is part of the DØ and ATLAS collaborations. Our astronomical researchers use national observatory facilities at Arecibo, VLA, Kitt Peak, Cerro Tololo and the Hubble Space Telescope. We also have a small on-campus observatory for class use and public viewing.

Scholarships and Financial Aid

The department offers a number of scholarships each year to students majoring in physics, astronomy, or engineering physics. Undergraduate majors and students who are considering becoming physics, astrophysics, or engineering physics majors are encouraged to apply for scholarships through the University of Oklahoma Centralized Academic Scholarship Hub (CASH).

Teaching and research assistantships are offered on a competitive basis to graduate students.

Undergraduate Study

Physics Degrees

The student whose major is physics may work for the professional degree of Bachelor of Physics (p. 551) or for the standard degree of Bachelor of Science (p. 549), both of which are awarded by the College of Arts and Sciences. The Engineering Physics Bachelor of Science (p. 1185)program is an interdisciplinary degree program which combines the course offerings and research activities of the Homer L. Dodge Department of Physics and Astronomy and the College of Engineering. This degree program is offered by the College of Engineering and detailed information concerning the program can be found in the College of Engineering section of this catalog.

Astrophysics Degree

Students whose major interest is the application of physics to modern astrophysics may work for the Astrophysics Bachelor of Science (p. 547).

Astronomy Degree

The student whose major is astronomy may work for the standard degree of Bachelor of Science (p. 544).

Minors

Minors are offered in physics (p. 554) and astronomy (p. 553).

Graduate Study

Areas of Specialization

Research areas available for both M.S. and Ph.D. degrees include:

- Astrophysics
- Atomic, Molecular and Optical Physics
- High Energy Physics
- Condensed Matter Physics

Master Of Science Degree

The department offers a Master of Science (p. 554) in Physics program with or without the thesis.

Master Of Science (Engineering Physics)

The Engineering Physics, Master of Science (p. 1186) degree is offered as either a thesis or non-thesis program.

Doctoral Programs

The **Physics Ph.D**. program requires the student to complete at least 90 hours of coursework, take and pass the written Qualifying and General (Specialist) examinations, and complete and successfully defend the results of original research as a dissertation.

All Ph.D. students are required to take an appointment as a teaching assistant with a minimum of two semester contact hours for two semesters. This teaching practicum is independent of financial support by the department.

Students who are interested in the **Engineering Physics Ph.D**. should refer to the general requirements of the Graduate College and the College of Engineering. Every student will be assigned an advisory committee who will determine the specific requirements within the guidelines set by these colleges and the career study goals of the student.

The required physics core courses and the Qualifying and Specialist exams are the same as for physics.

Courses

ASTR 1504 Astronomy: Exploring the Universe 4 Credit Hours
An introduction to the concepts of modern astronomy. The solar system, the sun and stars, the Milky Way and other galaxies, current theories of the origin, evolution and fate of the universe. Not for major credit. Students cannot receive credit in both 1504 and 1514. (F, Sp, Su) [II-NL].

ASTR 1514 Astronomy: Exploring the Universe with Laboratory 4 Credit Hours
An introduction to the concepts of modern astronomy. The solar system, the sun and stars, the Milky Way and other galaxies, current theories of the origin, evolution, and fate of the universe. Not for major credit. Students cannot receive credit in both 1504 and 1514. Laboratory (F, Sp, Su) [II-LAB].

ASTR 1523 Life in the Universe 3 Credit Hours
Introductory astronomy course focusing on general physical conditions under which life is thought to arise and evolve in the universe. Topics include historical astronomy, gravitation and planetary orbits, the solar system. The earth's geology and atmosphere, stellar evolution, theories for the origin of life on earth, the discoveries of extrasolar planets, and the search for extraterrestrial life. Course is not for major credit in physics and astronomy, however it is appropriate for Journalism and Mass Communications, Zoology, Education and Chemistry majors as well as others who want an introduction to our current understanding of life in the universe. (Sp) [II-NL].

ASTR 2513 Introductory Astrophysics 3 Credit Hours
Prerequisite: PHYS 1215 or 2524, or permission of instructor. An introduction to solar system astronomy and basic astrophysical concepts for majors and students with a knowledge of introductory physics and calculus. Includes planetary system formation, asteroids, comets, terrestrial planets and giant planets. Astrophysical concepts including Keplers laws, blackbody radiation, hydrostatic equilibrium and heat transfer. Elements of astronomy, including time, celestial coordinates, telescopes and detectors, magnitudes and color indices. (F)

ASTR 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ASTR 3103 Stars 3 Credit Hours
Prerequisite: 2513 or permission of instructor. Stellar properties and stellar evolution. Includes fundamental properties of stars (temperature, luminosity, mass) and how to determine them, star formation, main sequence, post main sequence, supernovae, black holes, neutron stars, white dwarfs, binary stars. (F)

ASTR 3113 Galaxies and Cosmology 3 Credit Hours
Prerequisite: 2513 or permission of instructor; 3103 strongly recommended. Galactic and extragalactic astronomy. Includes the Milky Way galaxy, the interstellar medium, normal and active galaxies, clusters of galaxies, cosmology. (Sp)

ASTR 3190 Topics in Astronomy 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. (F, Su)

ASTR 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ASTR 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

ASTR 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

ASTR 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

ASTR 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Sp, Su)

ASTR G4303 Stellar Astrophysics 3 Credit Hours
Prerequisite: 3113 or permission of instructor. Physics of stars: gas and radiation laws, stellar atmospheres and spectra, stellar interiors and evolution. (F)

ASTR 4523 Advanced Observatory Methods 3 Credit Hours
Prerequisite: 2513 and 3103. Techniques of multiwavelength observational astronomy. Includes time and coordinates, physics of astronomical ccds, telescopes, photometry, extinction correction, technical feasibility calculations, optical spectroscopy, and x-ray astronomy. Introductions to gamma-ray, infrared, UV radio astronomy. No student may earn credit for both 4523 and 5523. (Irreg.)

ASTR 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

ASTR 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ASTR 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

ASTR 5403 High-Energy Astrophysics 3 Credit Hours
Prerequisite: 4303 or permission of instructor. High-energy radiation processes in astronomy: synchrotron radiation, bremsstrahlung, inverse Compton-effect. New wavebands of observation, UV, X-ray and gamma-ray astronomy. Radioastronomy: supernova remnants, pulsars, neutron stars. Radiogalaxies, active galactic nuclei, quasars. Theories of the origin of cosmic rays. (Irreg.)

ASTR 5453 Extragalactic Astronomy and Cosmology 3 Credit Hours
Prerequisite: 3113 or 4303 or permission of instructor. Basic properties of stars. Review of observational tools for extragalactic work. Stellar content and interstellar medium in normal galaxies. Introduction to the theory of Big Bang cosmology. Comparison of observational data to cosmological predictions. The extragalactic distance scale and the age of the universe. Large scale structure: galaxy clusters and superclusters. Active galaxies -- radio galaxies and quasars. (Irreg.)

ASTR 5463 Stellar Atmospheres 3 Credit Hours
Prerequisite: 4303 or permission of instructor. Local thermodynamic equilibrium. Radiative transfer, continuous absorption coefficient and model stellar atmospheres. Atomic and molecular spectroscopy and the quantitative analysis of stellar spectra. Atomic processes and departures from local thermodynamic equilibrium. Extended and expanding atmospheres, novae, supernovae. (Irreg.)

ASTR 5473 Stellar Interiors 3 Credit Hours
Prerequisite: 4303 or permission of instructor. Evolution and energy balance of stars including gravitational attraction, nucleosynthesis, radiative and convective energy, transport and equilibrium, construction of stellar models for pre-main sequence and main sequence stars, and the theory of giants and white dwarfs. (Irreg.)

ASTR 5513 Interstellar Medium 3 Credit Hours
4303 or permission. Processes in low-density media are explored, including the physics relevant to emission line objects such as HII and HI regions, molecular clouds, and active galaxies. Techniques for deriving chemical abundances are explored, as are interstellar absorption by gas and dust and radiation transfer. (Irreg.)

ASTR 5523 Advanced Observatory Methods 3 Credit Hours
Prerequisite: 2513 and 3103. Techniques of multiwavelength observational astronomy. Includes time and coordinates, physics of astronomical ccds, telescopes, photometry, extinction correction, technical feasibility calculations, optical spectroscopy, and x-ray astronomy. Introductions to gamma-ray, infrared, UV radio astronomy. No student may earn credit for both 4523 and 5523. (Irreg.)

ASTR 5900 Seminar in Astrophysics 3 Credit Hours
Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. A research seminar devoted to the study of specialized topics in astronomy and astrophysics. Topics selected will reflect the interest of the instructor and students. (Irreg.)

ASTR 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

ASTR 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ASTR 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

PHYS 1114 General Physics for Non-Science Majors 4 Credit Hours
Prerequisite: high school algebra II. Not open to students who intend to do major work in mathematics or physical science. Not open to students with credit in 1205, 2414 or 2514. Concepts of force, energy, matter, atomic physics, electricity, light, presented as a part of a liberal education. (F, Sp, Su) [II-NL] .

PHYS 1205 Introductory Physics I for Physics Majors 5 Credit Hours
Prerequisite: enrollment in Mathematics 1823 or 1914 or permission of instructor. To be taken by physics, astronomy and engineering physics majors during the first semester of their freshman year. Kinematics, dynamics, work and energy, many-particle systems, rigid body rotation, simple harmonic motion. Laboratory is an integral part of the course. Laboratory (F) [II-LAB].

PHYS 1215 Introductory Physics II for Physics Majors 5 Credit Hours
Prerequisite: 1205 or permission of instructor. Electricity and magnetism: static fields and forces, circuits, electromagnetic induction. Thermodynamics: the First and Second Laws, temperature, heat, work and entropy. Laboratory is an integral part of the course. Laboratory (Sp)

PHYS 1311 General Physics Lab I 1 Credit Hour
Corequisite: 2414 or 2514. Experiments in basic law of mechanics and thermodynamics. (F, Sp, Su) [II-LAB] .

PHYS 1321 General Physics Lab II 1 Credit Hour
Corequisite: 2424 or 2524. Experiments in basic laws of electricity, magnetism, and optics. (F, Sp, Su) [II-LAB] .

PHYS 1453 Musical Acoustics 3 Credit Hours
An introduction to the science of sound and its propagation with special emphasis on the production of sound by musical instruments and the voice, psychological aspects of sound perception, and room acoustics. Topics are explored through lectures, demonstrations, and discussions. No previous musical experience or proficiency is required. Not for major credit. (F) [II-NL] .

PHYS 2203 Introductory Physics III: Modern Physics 3 Credit Hours
Prerequisite: 1215 or 2524 (or concurrent enrollment), or permission of instructor. An introduction to and overview of key concepts in contemporary physics, with emphasis on the contrast between classical and modern ways of thinking about the physical universe. Includes an introduction to selected major subject areas, which might include light and optics, relativity, atoms and molecules, the solid state, nuclei, elementary particles, fundamental interactions, cosmology and/or chaos. Students will also explore selected topics in current physics research. (F)

PHYS 2303 Electronics 3 Credit Hours
Prerequisite: 1215 or 2524 (or concurrent enrollment), or permission of instructor. An introduction to the characteristics of semiconductor electronic components and their use in the design and operation of practical analog and digital electronic circuits. The emphasis will be on gaining a working knowledge of basic circuits and preparation for understanding and building electronic circuits encountered by experimental research physicists. (F)

PHYS 2414 General Physics for Life Science Oriented Majors 4 Credit Hours
Prerequisite: Mathematics 1523 or 1743. Not open to students with credit in 1205 or 2514. Kinematics and dynamics of particles and rigid bodies, gravitation, equilibrium, momentum, energy, static and flowing fluids, kinetic theory, heat and thermodynamics, vibrations, waves and sound. (F, Sp, Su) [II-NL].

PHYS 2424 General Physics for Life Science Oriented Majors 4 Credit Hours
Prerequisite: 2414. Not open to students with credit in 1215 or 2524. Electric charge, electric field, electric potential, energy, DC and AC currents, magnetic fields, electromagnetic induction, geometrical optics, wave nature of light, optical instruments, early quantum theory, models of the atom, the nucleus, radioactivity, nuclear reactions and nuclear energy. (F, Sp, Su)

PHYS 2514 General Physics for Engineering and Science Majors 4 Credit Hours
Prerequisite: Mathematics 1823 or Mathematics 1914 with grade of C or better. Not open to students with credit in 1205. Vectors, kinematics and dynamics of particles, work and energy systems of particles, rotational kinematics and dynamics, oscillations, gravitation, fluid mechanics, waves. (F, Sp, Su) [II-NL] .

PHYS 2524 General Physics for Engineering and Science Majors 4 Credit Hours
Prerequisite: PHYS 2514 and MATH 2423 or MATH 2924 with grade of C or better. Not open to students with credit in PHYS 1215. Temperature, heat, thermodynamics, electricity, magnetism, optics. (F, Sp, Su)

PHYS 2970 Selected Topics in Physics 1-3 Credit Hours
1 to 3 hours. Prerequisite: sophomore standing or permission of instructor. May be repeated; maximum credit six hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

PHYS 3043 Physical Mechanics I 3 Credit Hours
Prerequisite: 1205 or 2514, and Mathematics 3113 or 3413 (or concurrent enrollment); or permission of instructor. Differential equations based continuum mechanics: Newtonian particle mechanics, driven and damped oscillations, vibrations and waves, and their application to other linear systems, non-linear oscillations, introduction to Lagrange's equations. (Sp)

PHYS 3053 Physical Mechanics II 3 Credit Hours
Prerequisite: 3043 or permission of instructor. Lagrangian and Hamiltonian dynamics. Non-inertial reference frames. Rigid body motion. Central forces and collisions. Special relativity. (F)

PHYS 3183 Electricity and Magnetism I 3 Credit Hours
Prerequisite: 2203, Mathematics 3413 or concurrent enrollment; or permission of instructor. Electrostatics, dielectrics, continuity conditions, magnetic forces and fields, magnetic induction, magnetization, Maxwell's equations. (F)

PHYS 3223 Modern Physics for Engineers 3 Credit Hours
Prerequisite: Mathematics 3113 or equivalent. Relativity, atomic structure, nuclear theory, wave mechanics, statistical physics, solid state physics. (F)

PHYS 3302 Advanced Lab I 2 Credit Hours
Prerequisite: 2303 or permission of instructor. Junior-level experiments in physics. (F, Sp)

PHYS 3312 Advanced Lab II 2 Credit Hours
Prerequisite: 3302 or permission of instructor. Junior-level experiments in physics. (F, Sp)

PHYS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

PHYS 3803 Introduction to Quantum Mechanics I 3 Credit Hours
Prerequisite: PHYS 3043 and MATH 3413 or permission of instructor. Fundamental ideas of quantum physics. Postulates of quantum theory, wave functions, operators, the Schrodinger equation, one-dimensional systems. Mathematical tools of quantum mechanics. Theory of measurement. Stationary and nonstationary states. (Sp)

PHYS 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)

PHYS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. Deals with concepts not usually presented in regular coursework. (Su)

PHYS 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

PHYS 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PHYS G4153 Statistical Physics and Thermodynamics 3 Credit Hours
Prerequisite: 3803. Statistical properties of physical systems. Entropy and temperature, the Boltzmann distribution, Fermi-Dirac and Bose-Einstein gases. Thermodynamic functions. Statistical interpretation of thermodynamics. (F)

PHYS G4183 Electricity and Magnetism II 3 Credit Hours
Prerequisite: 3183. Maxwell's equations, electromagnetic wave equations, propagation of electromagnetic waves, reflection and refraction, radiation. (Sp)

PHYS 4213 Nuclear and Particle Physics 3 Credit Hours
(Slashlisted with 5213) Prerequisite: 3803. Basic nuclear structure, nuclear models, radioactivity, nuclear reactions. Particle interactions and families, quark model, weak decays of quarks and leptons. No student may earn credit for both 4213 and 5213. (F)

PHYS 4223 Modern Optics 3 Credit Hours
(Slashlisted with 5223) Prerequisite: junior standing. Geometric optics, physical optics, nonlinear optics, optical devices, interference, coherence theory, absorption and emission of light by matter and quantum optics. No student may earn credit for both 4223 and 5223. (Irreg.)

PHYS 4243 Solid State Physics 3 Credit Hours
(Slashlisted with 5243) Prerequisite: 3803. Crystal structure, electrons in simple metals, electron band theory, semiconductors, superconductivity, phonons. No student may earn credit for both 4243 and 5243. (Sp)

PHYS 4300 Senior Research Project 1-3 Credit Hours
1 to 3 hours. Prerequisite: senior standing in major and permission of instructor. May be repeated once. Research project, experimental or theoretical, to be arranged with individual faculty, leading to a senior thesis. Group seminars to discuss projects and other topics of current interest in physics and astronomy. Total of four hours required for general education capstone. (F, Sp) [V] .

PHYS G4803 Introduction to Quantum Mechanics II 3 Credit Hours
Prerequisite: 3803 or permission of instructor. Quantum mechanics of three-dimensional systems. Angular momentum. Approximation methods: perturbation theory, variational methods. Time-dependent perturbations: transition rates, selection rules. Interaction of radiation with matter. Applications. Quantum mechanics of atoms and molecules. (F)

PHYS 4813 Atomic and Molecular Physics 3 Credit Hours
(Slashlisted with 5813) Prerequisite: 4803. Hydrogen atom: fine structure and external field effects. Many-electron atoms. Interaction with radiation. Molecular bonding. Spectroscopy of diatomic molecules. No student may earn credit for both 4813 and 5813. (Sp)

PHYS 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

PHYS 4970 Seminar-Selected Topics in Physics 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject; maximum credit six hours. (Irreg.)

PHYS 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied,permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PHYS 5000 Introduction to Graduate Studies in Physics 0 Credit Hours
Prerequisite: Graduate standing. The course is an introduction to research in general as well as specific research done within the department. It will familiarize students with departmental procedures, improve their teaching of Physics, and convey the expectations and demands of a career in Physics or Astronomy. (F)

PHYS 5013 Mathematical Methods in Physics 3 Credit Hours
Prerequisite: graduate standing. Orthogonal transformations and tensor analysis; partial differential equations and special functions: spherical harmonics, Bessel functions, SHO and hydrogen atom wave functions; theory of complex variables; integral definition of special functions. (F)

PHYS 5153 Classical Mechanics 3 Credit Hours
Prerequisite: 3053 or equivalent. Hamilton's principle, Lagrange's equations, mechanics of particles and rigid bodies, Hamilton's equations, canonical transformations, Poisson brackets. (F)

PHYS 5163 Statistical Mechanics 3 Credit Hours
Prerequisite: 4153 or equivalent. Ensembles and thermodynamics, fluctuations, monatomic crystals, ideal gases, phase equilibrium, chemical equilibrium in ideal gas mixtures, ideal gas in an electric field, Bose-Einstein and Fermi-Dirac statistics, blackbody radiation, electrons in metals. (Sp)

PHYS 5213 Nuclear and Particle Physics 3 Credit Hours
(Slashlisted with 4213) Prerequisite: 4803; graduate standing. Basic nuclear structure, nuclear models, radioactivity, nuclear reactions. Particle interactions and families, quark model, weak decays of quarks and leptons. No student may earn credit for both 4213 and 5213. (F)

PHYS 5223 Modern Optics 3 Credit Hours
(Slashlisted with 4223) Prerequisite: junior standing. Geometric optics, physical optics, nonlinear optics, optical devices, interference, coherence theory, absorption and emission of light by matter and quantum optics. No student may earn credit for both 4223 and 5223. (Irreg.)

PHYS 5243 Solid State Physics 3 Credit Hours
(Slashlisted with 4243) Prerequisite: 4803; graduate standing. Crystal structure, electrons in simple metals, electron band theory, semiconductors, superconductivity, phonons. No student may earn credit for both 4243 and 5243. (Sp)

PHYS 5393 Quantum Mechanics I 3 Credit Hours
Prerequisite: 4803 or equivalent. Topics in nonrelativistic quantum mechanics including the Heisenberg and Schroedinger pictures, Dirac formalism, angular momentum, bound states of spherically symmetric potentials, time independent perturbation theory; potential scattering. (Sp)

PHYS 5403 Quantum Mechanics II 3 Credit Hours
Prerequisite: 5393. Time-dependent perturbation theory, electromagnetic interactions, spin and angular momentum coupling, symmetry and statistics, density matrix, multiparticle systems. (F)

PHYS 5573 Electrodynamics I 3 Credit Hours
Prerequisite: 4183 or equivalent. Topics covered include special relativity; 3+1 and 4-dimensional Maxwell theory; charged particle and electromagnetic field Langrangians; conservation of energy, momentum and angular momentum; delta function sources and Green's function for Maxwell's theory. (F)

PHYS 5583 Electrodynamics II 3 Credit Hours
Prerequisite: 5573. Topics include: applications of advanced and retarded Green's functions to time-dependent electric and magnetic dipoles, and acceleration point charges; synchotron radiation; Bremsstrahlung; radiation damping and classical renormalization. (Sp)

PHYS 5813 Quantum Mechanics of Atoms 3 Credit Hours
(Slashlisted with 4813) Prerequisite: 4803; graduate standing. Hydrogen atom: fine structure and external field effects. Many-electron atoms. Interaction with radiation. Molecular bonding. Spectroscopy of diatomic molecules. No student may earn credit for both 4813 and 5813. (Sp)

PHYS 5910 Problems in Natural Science 1-2 Credit Hours
1 to 2 hours. Prerequisite: admission to candidacy for degree of Master of Natural Science. (F, Sp, Su)

PHYS 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

PHYS 5970 Seminar--Selected Topics in Modern Physics 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission. May be repeated with change of subject matter; maximum credit for master's degree six hours, for doctor's degree 12 hours. (F, Sp, Su)

PHYS 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

PHYS 5990 Special Studies 1-4 Credit Hours
Prerequisite: 12 hours of physics, permission. May be repeated with change of subject matter; maximum credit for a master's degree four hours, for a doctor's degree ten hours. (F, Sp, Su)

PHYS 6213 Advanced Particle Physics 3 Credit Hours
Prerequisite: 5213, 5403 or equivalents. The theory and phenomenology of the "standard model" of particle physics which encompasses the electro-weak and strong interactions. Topics will include: symmetries, groups and conservation laws; bound states, quarkonium; Feynman diagrams, QED; QCD; weak interactions; gauge theories. (Irreg.)

PHYS 6243 Advanced Solid State Physics 3 Credit Hours
Prerequisite: 4243, 5403, or equivalents. The physics of metals, semiconductors and insulators. Free electron theory, crystal structure and phonons, electron band theory, semiclassical model, applications to electronic and optical properties of solids, effects of magnetic fields. (Irreg.)

PHYS 6283 Advanced Atomic/Molecular Physics 3 Credit Hours
Prerequisite: 5403, 5813, or equivalents. Calculation and evaluation of electronic wave functions for atoms and molecules via Hartree-Fock and configuration interaction methods; the Born-Oppenheimer approximation and ro-vibrational wave functions; molecular quantum states and group theory; fine and hyperfine structure. (Irreg.)

PHYS 6333 General Relativity 3 Credit Hours
Prerequisite: 5013, 5583. The mathematical and physical basis for the relativistic theory of gravitation; the principle of equivalence; tensor analysis; Einstein's field equations; tests of general relativity; gravitational collapse; cosmology; toward a quantum theory of gravity. (Irreg.)

PHYS 6433 Quantum Field Theory 3 Credit Hours
Prerequisite: 5403. Canonical quantization of scalar and spinor fields; perturbation theory and Feynman diagrams; renormalization; path integral formulation; renormalization group; gauge fields with selected applications to QED, electro-weak theory and QCD. (Irreg.)

PHYS 6443 Advanced Quantum Field Theory 3 Credit Hours
Prerequisite: graduate standing and 6433. Path integral quantization; renormalization; renormalization group equations; gauge theories of strong and electroweak interactions. (F)

PHYS 6851 Seminar on Solid State Physics 1 Credit Hour
Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. A research seminar devoted to the study of specialized topics in solid state physics. Topics selected will reflect the interests of instructor and students. (Irreg.)

PHYS 6860 Advanced Topics in Mathematical Methods in Physics 1-3 Credit Hours
1 to 3 hours. Prerequisite: 5013 or permission. May be repeated with change of content; maximum credit nine hours. Topics covered will be selected by instructor and announced prior to the term in which it will be offered. The course is intended to offer material currently used in theoretical physics. (Irreg.)

PHYS 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

PHYS 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

PHYS 6980 Research for Doctoral Dissertation 2-16 Credit Hours
Research For Doctoral Dissertation. (F, Sp, Su)

PHYS 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Abbott	Braden	K	2000	PROFESSOR OF PHYSICS AND ASTRONOMY, 2013	PhD, Purdue, 1994; MS, Purdue, 1992; BA, Univ of Minnesota Morris, 1989
Abraham	Eric	R	1998	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2004; L.J. SEMROD PRESIDENTIAL PROFESSOR, 2005; ASSOCIATE PROFESSOR ENGINEERING PHYSICS	PhD, Rice Univ, 1996; BA, St. Olaf College, 1991
Baer	Howard	A	2008	HOMER L. DODGE CHAIR IN HIGH ENERGY PHYSICS, 2008; GEORGE LYNN CROSS RESEARCH PROFESSOR OF PHYSICS AND ASTRONOMY, 2014	PhD, Univ of Wisconsin, 1984; MS, Univ of Wisconsin, 1981; BS, Univ of Wisconsin, 1979
Baron	Edward	A	1990	GEORGE LYNN CROSS RESEARCH PROFESSOR OF PHYSICS AND ASTRONOMY, 2011	PhD, Stony Brook Univ; 1985; MA, Stony Brook Univ, 1982; BA, Univ of Pennsylvania, 1980
Biederman	Grant			ASSOCIATE PROFESSOR OF PHYSICS	PhD, Stanford Univ, 2007; MS, Yale Univ, 2002; BS, Univ of Oklahoma, 2001
Blume	Doerte		2017	PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Georg-August Univ, 1998; BS, Georg-August Univ, 1995
Bumm	Lloyd	A	2001	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2007; ASSOCIATE PROFESSOR ENGINEERING PHYSICS	PhD, Northwestern Univ, 1991; BS, Clarkson Univ, 1982

Dai	Xinyu		2011	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Penn State Univ, 2004; BS, Peking Univ, 1998
Gutierrez	Phillip		1989	PROFESSOR OF PHYSICS AND ASTRONOMY, 2001; PROFESSOR ENGINEERING PHYSICS	PhD, Univ of California Riverside, 1983; MS, Univ of California Riverside, 1980; BS, Univ of California Riverside, 1976
Kaib	Nathan		2015	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2015	PhD, Univ of Washington, 2010; BS, Case Western Reserve Univ, 2002
Kao	Chung		2000	PROFESSOR OF PHYSICS AND ASTRONOMY, 2013	PhD, Univ of Texas, 1990; MS, Univ of Oregon, 1985; BS, National Taiwan Norman Univ, 1980
Kilic	Mukremin		2011	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Univ of Texas, 2006; BS, Bogazici Univ, 1999
Leighly	Karen	M	2000	PROFESSOR OF PHYSICS AND ASTRONOMY, 2013	PhD, Montana State Univ, 1991; MS, Montana State Univ, 1987; BS, New Mexico Inst Mining & Tech, 1983
Marino Valle	Alberto		2012	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2012; ASSISTANT PROFESSOR ENGINEERING PHYSICS	PhD, Univ of Rochester, 2006; MS, Univ of Rochester, 2002; BS, Universidad de Monterrey, 1998
Mason	Bruce	A	1989	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 1995	PhD, Univ of Maryland, 1985; MS, Univ of Maryland, BA, Oberlin College, 1980
Mullen	Kieran	J	1994	PROFESSOR OF PHYSICS AND ASTRONOMY, 2007; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2009	PhD, Univ of Michigan, 1989; BS, Georgetown Univ, 1982
Munshi	Ferah	A	2017	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Univ of Washington, 2013; MS, Univ of Washington, 2010; BA, Univ of California Berkeley, 2007
Santos	Michael	B	1993	SAMUEL ROBERTS NOBLE PRESIDENTIAL PROFESSOR, 1997; TED AND CUBA WEBB PRESIDENTIAL PROFESSOR, 2003; PROFESSOR OF PHYSICS AND ASTRONOMY, 2004; CHARLES L. BLACKBURN CHAIR IN ENGINEERING PHYSICS, 2006	PhD, Princeton Univ, 1992; MA, Princeton Univ, 1989; BS, Cornell Univ, 1986
Schwettmann	Arne		2014	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2014; ASSISTANT PROFESSOR ENGINEERING PHYSICS	PhD, Univ of Oklahoma, 2012; MS, Univ of North Texas, 2003; BS, Universität Hannover, 2001
Sellers	Ian	R	2011	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Univ of Sheffield, 2004; MS, Imperial College London, 2000; B Eng, Univ of Liverpool, 1999
Sinha	Kuver		2017	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2017; CARL T. BUSH PROFESSOR OF THEORETICAL PHYSICS, 2017	PhD, Rutgers Univ, 2008
Strauss	Michael	G	1995	CARLISLE AND LURLINE MABREY PRESIDENTIAL PROFESSOR, 2006; DAVID ROSS BOYD PROFESSOR OF PHYSICS AND ASTRONOMY, 2012; PROFESSOR ENGINEERING PHYSICS	PhD, Univ of California Los Angeles, 1988; MS, Univ of California Los Angeles, 1983; BS, Biola Univ, 1981
Stupak	John		2016	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2016; ASSISTANT PROFESSOR ENGINEERING PHYSICS	PhD, SUNY at Stonybrook, 2012; BS, Fairfield Univ, 2007
Uchoa	Bruno			ASSOCIATE PROFESSOR OF PHYSICS; TED AND CUBA WEBB PRESIDENTIAL PROFESSOR	PhD, State Univ of Campinas, 2004; BS, State Univ of Campinas, 1997
White	Daniel	R	2018	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2018	PhD, Ohio State Univ, 2016; BS, Univ of Oklahoma, 2008
Wisniewski	John	P	2012	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2012; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2016	PhD, Univ of Toledo, 2005; MS, Univ of Toledo, 2002; BS, Univ of Wisconsin, 1999

Astronomy, B.S.

Minimum Total Credit Hours: 120
Major Hours: 35
Minimum Upper-Division Hours: 48
Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B080

- **A grade of C or better must be earned in each required Astronomy and Physics course and in the required Mathematics courses.**

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.**

Code	Title	Credit Hours
Astronomy		
ASTR 2513	Introductory Astrophysics	3
ASTR 3103	Stars	3
ASTR 3113	Galaxies and Cosmology	3
Physics		
PHYS 1205	Introductory Physics I for Physics Majors	5
PHYS 1215	Introductory Physics II for Physics Majors	5
PHYS 2203	Introductory Physics III: Modern Physics	3
PHYS 3043	Physical Mechanics I	3
PHYS 3053	Physical Mechanics II	3
PHYS 4300	Senior Research Project (Senior Capstone Course)	2
PHYS 4300	Senior Research Project (2 enrollments required)	2
Choose one of the following:		3
HSCI 3013	History of Science to the Age of Newton	
HSCI 3023	History of Science Since the Seventeenth Century	
PHYSICS course at the 3000-level or higher		
Total Credit Hours		35

Major Support Requirements

Code	Title	Credit Hours
CHEM 1315	General Chemistry	5
MATH 2443	Calculus and Analytic Geometry IV [1]	3
MATH 3413	Physical Mathematics I	3
Total Credit Hours		11

[1] MATH 2934 may also be used to meet this requirement.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Physics and Astronomy academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Astronomy major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1823	Calculus and Analytic Geometry I (Core I)	3
PHYS 1205	Introductory Physics I for Physics Majors	5
Beginning Foreign Language (Core I)		5
	Credit Hours	16
Second Semester		
CHEM 1315	General Chemistry	5
MATH 2423	Calculus and Analytic Geometry II	3
PHYS 1215	Introductory Physics II for Physics Majors	5
Beginning Foreign Language continued (Core I)		5
	Credit Hours	18
Sophomore		
First Semester		
ASTR 2513	Introductory Astrophysics	3
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
MATH 2433	Calculus and Analytic Geometry III	3
PHYS 2203	Introductory Physics III: Modern Physics	3
Foreign Language		3
	Credit Hours	15
Second Semester		
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
MATH 2443	Calculus and Analytic Geometry IV	3
MATH 3413	Physical Mathematics I	3
PHYS 3043	Physical Mechanics I	3
Social Science (Core III)		3
	Credit Hours	15
Junior		
First Semester		
ASTR 3103	Stars	3
P SC 1113	American Federal Government (Core III)	3
PHYS 3053	Physical Mechanics II	3
Understanding Artistic Forms (Core IV)		3
Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	15
Second Semester		
ASTR 3113	Galaxies and Cosmology	3
Choose one of the following:		3
PHYS Major Elective, upper-division (3000-4000-level)		
HSCI 3013	History of Science to the Age of Newton	
HSCI 3023	History of Science Since the Seventeenth Century	
Western Civilization & Culture (Core IV)		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	15
Senior		
First Semester		
PHYS 4300	Senior Research Project (Capstone)	2
Biological Science without lab (Core II)		3
Humanities, upper-division, outside major (Gen. Ed.)		3
Non-Western Culture (Core IV)		3
Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	14

Second Semester		
PHYS 4300	Senior Research Project (Capstone)	2
Humanities, upper-division, outside major (Gen. Ed.)		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	14
	Total Credit Hours	122

Astrophysics, B.S.

Minimum Total Credit Hours: 120
Major Hours: 50
Minimum Upper-Division Hours: 48
Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B082

- **Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.**
- **A grade of C or better must be earned in each required Astronomy and Physics course and in the required Mathematics courses.**

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		

Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and/or Department of Physics and Astronomy academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Astrophysics major requirements.

MATH 1823	Calculus and Analytic Geometry I (Core I) [1]	3
PHYS 1205	Introductory Physics I for Physics Majors	5
Beginning Foreign Language (Core I)		5
	Credit Hours	16
Second Semester		
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
MATH 2423	Calculus and Analytic Geometry II [1]	3
PHYS 1215	Introductory Physics II for Physics Majors	5
Beginning Foreign Language continued (Core I)		5
	Credit Hours	16
Sophomore		
First Semester		
MATH 2433	Calculus and Analytic Geometry III [1]	3
PHYS 2203	Introductory Physics III: Modern Physics	3
PHYS 2303	Electronics	3
Intermediate Foreign Language		3
Biological Science without lab (Core II)		3
	Credit Hours	15
Second Semester		
CHEM 1315	General Chemistry	5
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
MATH 2443	Calculus and Analytic Geometry IV [1]	3
MATH 3413	Physical Mathematics I	3
PHYS 3043	Physical Mechanics I	3
	Credit Hours	17
Junior		
First Semester		
MATH 3423	Physical Mathematics II	3
PHYS 3053	Physical Mechanics II	3
PHYS 3183	Electricity and Magnetism I	3
PHYS 3302	Advanced Lab I	2
Understanding Artistic Forms (Core IV)		3
	Credit Hours	14
Second Semester		
MATH Support Elective, upper-division (3000-4000-level)		3
PHYS 3312	Advanced Lab II	2
PHYS 3803	Introduction to Quantum Mechanics I	3
PHYS Major Elective, 4000-level		3
Western Civilization & Culture (Core IV)		3
	Credit Hours	14
Senior		
First Semester		
PHYS 4153	Statistical Physics and Thermodynamics	3
PHYS 4300	Senior Research Project (Capstone)	2
PHYS Major Elective, 4000-level		3
Humanities, upper-division, outside major (Gen. Ed.)		3
Non-Western Culture (Core IV)		3
Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	17
Second Semester		
PHYS 4300	Senior Research Project (Capstone)	2
P SC 1113	American Federal Government (Core III)	3
Humanities, upper-division, outside major (Gen. Ed.)		3
Social Science (Core III)		3
Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	14
	Total Credit Hours	123

[1] Students may substitute MATH 1914, MATH 2924, and MATH 2934 calculus sequence instead of MATH 1823, MATH 2423, MATH 2433, and MATH 2443.

Astronomy, Minor

Minimum Total Credit Hours: 26
Minimum Upper-Division Hours: 9

Program Code: N080

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

Students must successfully complete at least 26 hours of courses acceptable for major credit in Astronomy, including at least nine (9) hours at the upper-division level.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Physics & Astronomy.

Required Courses

Students must successfully complete at least 26 hours of courses acceptable for major credit in Astronomy, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
PHYS 1205 or PHYS 2514	Introductory Physics I for Physics Majors General Physics for Engineering and Science Majors	4-5
PHYS 1215 or PHYS 2524	Introductory Physics II for Physics Majors General Physics for Engineering and Science Majors	4-5
PHYS 2203	Introductory Physics III: Modern Physics	3
PHYS 3043	Physical Mechanics I	3

ASTR 2513	Introductory Astrophysics	3
ASTR 3103	Stars	3
ASTR 3113	Galaxies and Cosmology	3
MATH 2443	Calculus and Analytic Geometry IV	3
Total Credit Hours		26

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Physics, Minor

Minimum Total Credit Hours: 22
Minimum Upper-Division Hours: 9

Program Code: N780

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Physics & Astronomy.

Required Courses

Students must successfully complete at least 22 hours of courses acceptable for major credit in Physics, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
PHYS 1205	Introductory Physics I for Physics Majors [1]	5
PHYS 1215	Introductory Physics II for Physics Majors [1]	5
PHYS 2203	Introductory Physics III: Modern Physics	3
or PHYS 3223	Modern Physics for Engineers	
PHYS 3043	Physical Mechanics I	3
Choose one of the following:		3
PHYS 3053	Physical Mechanics II	
PHYS 3183	Electricity and Magnetism I	
PHYS 3803	Introduction to Quantum Mechanics I	
Choose one of the following:		3-6
MATH 3113 & MATH 3333	Introduction to Ordinary Differential Equations and Linear Algebra I (both courses, 6 hours) [2]	
MATH 3413	Physical Mathematics I (one course, 3 hours) [2]	
Total Credit Hours		22

[1] PHYS 1205 and PHYS 1215 may be replaced by PHYS 2514 and PHYS 2524. If completing PHYS 2514 and PHYS 2524, students must also complete either PHYS 1311 and PHYS 1321 or PHYS 2303 or PHYS 3302.
[2] These MATH courses are acceptable for the minor although they do not meet the major credit requirement.

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Physics, M.S.

Minimum Total Hours (Thesis): 30
Minimum Total Hours (Non-Thesis): 32

Program Code: M780

Required Courses

Thesis Option (standard)

Code	Title	Credit Hours
Choose 14-16 hours of PHYS and/or ASTR courses at the 4000-level or above (note that 4000 level courses must carry graduate credit)		14-16
PHYS 5980	Research for Master's Thesis	2-4
Choose 12 hours of other graduate coursework as approved by the advisory committee		12
Total Credit Hours		30

Thesis Option (Astrophysics)

Code	Title	Credit Hours
ASTR 4303	Stellar Astrophysics [1]	0 or 3
Choose 6 hours of ASTR courses numbered 5000 or above		6
Choose 12 credit hours of PHYS and/or ASTR courses at the 4000-level or above. (note that 4000 level courses must carry graduate credit)		12
PHYS 5980	Research for Master's Thesis	2-4
Choose 5-10 hours of other graduate coursework as approved by the advisory committee, to bring total graduate credit hours to 30		5-10
Total Credit Hours		30

[1] If presented as undergraduate credit, this course does not count towards the 30 hours required for the degree.

Non-Thesis Option

Code	Title	Credit Hours
Choose 20 hours of PHYS and/or ASTR courses at the 4000-level or above (note that 4000 level courses must carry graduate credit) [1]		20
Choose 12 hours of other graduate coursework as approved by the advisory committee		12
Total Credit Hours		32

[1] May not include PHYS 5980.

Notes

- **Non-thesis students must pass the internal departmental qualifying exams on Quantum Mechanics, Electrodynamics, and Classical & Statistical Mechanics.**
- **The Comprehensive Exam can be either the General Exam for admission to doctoral candidacy (for students pursuing a doctorate) or a separate written paper and oral exam (for students exiting with a Masters).**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Physics, Ph.D.

Minimum Total Hours: 90

Program Code: D780

Program Requirements

Code	Title	Credit Hours
Required Physics and/or Astronomy Coursework (36 hours)		
PHYS 5000	Introduction to Graduate Studies in Physics	0
PHYS 5013	Mathematical Methods in Physics	3
PHYS 5153	Classical Mechanics	3
PHYS 5163	Statistical Mechanics	3
PHYS 5393	Quantum Mechanics I	3
PHYS 5403	Quantum Mechanics II	3
PHYS 5573	Electrodynamics I	3
PHYS 5583	Electrodynamics II	3
15 hours in PHYS and ASTR coursework at the 5000-level and above (excluding 5980 and 6980), or in related fields at the graduate-4000-level and above as approved by the advisory committee and graduate liaison [1]		15
PHYS 6980	Research for Doctoral Dissertation (minimum 2 hours)	2
Additional Coursework (52 hours)		
Additional graduate-level coursework as needed to reach 90 post-baccalaureate hours, as approved by the advisory committee		52
Total Credit Hours		90

[1] If the dissertation topic is in Astronomy, the curriculum must include at least 12 hours of Astronomy courses, including ASTR 4303 and any ASTR courses at the 5000-level or above, excluding 5980 and 6980.

Note:

The General Exam consists of a written paper and oral presentation on an area related to proposed thesis. The General Exam can only be taken after passing the internal departmental qualifiying exams on Quantum Mechanics, Electrodynamics, Classical & Statistical Mechanics and (if appropriate) Astrophysics.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

General Information

The Department of Political Science is the academic home for faculty, staff members, undergraduate students, and graduate students who share a love of politics and a devotion to learning. The department offers two undergraduate degrees, one in political science and the other in public and nonprofit administration. Master's degrees in both political science and public administration are offered, and also a doctorate in political science.

The Department of Political Science is among the most intellectually eclectic at the University of Oklahoma. Faculty and students pursue research and study in topics as varied as American politics, comparative politics, international relations, public policy, public administration, and political theory. There are no intellectual or methodological orthodoxies. A diverse faculty and group of students pursue a multiplicity of paths to knowledge.

Affiliated with the department are the Carl Albert Congressional Research and Studies Center, the OU POLL (Public Opinion Learning Laboratory), the Institute for Public Affairs, International and Area Studies, the Institute for American Constitutional Heritage, and the Center for Applied Social Research.

Programs & Facilities

Special Facilities and Programs

The Carl Albert Congressional Research and Studies Center is a unique and nonpartisan institution that strengthens representative democracy through scholarship, learning, and service. Established in 1979 by the Oklahoma State Regents for Higher Education and the Board of Regents of the University of Oklahoma, the center is a living tribute to the ideals, leadership, and accomplishments of the Honorable Carl Albert, native Oklahoman, University of Oklahoma alumnus, Rhodes Scholar, 46th Speaker of the U.S. House of Representatives.

The University of Oklahoma's Public Opinion Learning Laboratory is a state-of-the-art survey research facility on the OU campus in Norman, Oklahoma. Established by President Boren, the purpose of the OU POLL is to conduct research on public opinion, in order to foster knowledge about public affairs and to assist in the conduct of research on public policy important to University departments, state and local governments, media organizations, other public and private entities, and the general public. The OU POLL is located in Alley A9, Cross Center, on OU's Norman campus. Contact the OU POLL's Director, Amy Sue Goodin for more information.

The Institute for Public Affairs, established in 1995, conducts applied research on public policy issues affecting Oklahoma. The Institute provides policy research and technical assistance, training and leadership development, and civic education for public sector and non-profit audiences. The Institute draws on the diverse backgrounds, interests, and expertise represented among the faculty throughout the University. Faculty associated with the Institute work in the areas of policy analysis and policy formulation, program design, program evaluation, and design and assessment of operating systems such as budgeting and personnel.

For more information, contact Dr. Scott Robinson, Director, 455 West Lindsey, Room 205, Norman, OK 73019-2002.

STUDENT ORGANIZATIONS

Undergraduate and graduate students who qualify are invited to join Pi Sigma Alpha, the national political science honorary society. Other student organizations of interest to department majors are: Political Science Club, Student Association for Public Administration, OU Pre-Law Club, Model UN.

SCHOLARSHIPS

The Department of Political Science awards a variety of scholarships to undergraduates every spring. In addition to administering the prestigious Robert Dean Bass Memorial Scholarship, our department faculty nominate undergraduates for paper awards based on exceptional papers written in political science courses.

Undergraduate Study

Bachelor of Arts

The department offers these majors:

- Political Science (p. 571)
  Students that choose political science can take courses in American politics, public policy, public administration, comparative politics, international relations or political theory.
- Political Science: Elections and Campaign Management (p. 574)
  The Elections and Campaign Management concentration provides a concentrated education in campaigns and voter behavior.
- Public & Nonprofit Administration (p. 576)
  Students that choose public and nonprofit administration will focus their coursework in public policy and public administration.

Accelerated Dual Degree Programs

- Political Science, Bachelor of Arts/Master of Public Administration (p. 585)
  Students to simultaneously receive a Political Science Bachelor of Arts degree and the Master of Public Administration degree.
- Political Science, Bachelor of Arts/Master of Arts (p. 583)
  Students to simultaneously receive a Political Science Bachelor of Arts degree and the Political Science Master of Arts degree.
- Public and Nonprofit Administration, Bachelor of Arts/Master of Arts (p. 588)
  Students to simultaneously receive a Public and Nonprofit Administration Bachelor of Arts degree and the Political Science Master of Arts degree.
- Public and Nonprofit Administration, Bachelor of Arts/Master of Public Administration (p. 590)
  Students to simultaneously receive a Public and Nonprofit Administration Bachelor of Arts degree and the Master of Public Administration degree.

Minors

The department offers these minors:

- Political Science (p. 582)
- Public Affairs & Administration (p. 582),
- Elections & Campaign Management (p. 579)
- Intelligence & National Security (p. 580)

- Nonprofit Organizational Studies (p. 581)
- Non-Governmental Organizations (p. 580).

Careers

The study of political science and public administration is an excellent foundation for careers in law and law enforcement; government service at the national, state, and local levels, from federal agencies to city managers; politics, such as campaign management or lobbying or elective office; professional research for a "think tank;" labor relations; political journalism; teaching at the secondary and university levels; the diplomatic corps; management in the public and nonprofit sectors, in such areas as health care management and human resource management; consulting; international business; urban planning and development; business management; and policy analysis.

Graduate Study

Areas of Specialization

American politics, comparative politics, international relations, political theory, public administration, public policy, and research methods.

Master of Arts

The Master of Arts (p. 593) in Political Science degree provides excellent preparation for doctoral work for those in public non-profit, or private careers who find further professional development necessary. The degree program provides a basic minimum of structure to ensure that participants will obtain the necessary groundwork in political science. Beyond the basic requirements, there is an opportunity for significant specialization in the fields of most interest to the student.

Master of Public Administration

The degree is designed to provide the student with an understanding and knowledge of government and its environment. As a professional program, emphasis is placed upon learning those administrative concepts, processes, and techniques that are associated with managing the public's business. The academic base for the M.P.A. consists of required courses which include research methods, evaluation, and budgeting and area requirements in management, public policy, organizations, and American political process. The program integrates the theoretical with the practical dimensions of administration and encourages a broad academic and professional perspective. M.P.A. graduates typically enter the public or not-for-profit sectors, although many graduates have used the expertise gained in the program to enter and/or enhance careers in business and corporate enterprises. Public Administration offers classes in multiple formats and at multiple locations. Courses are scheduled in the evening, weekends, online and during the day. The program can be completed on the Norman or Tulsa campuses, and our faculty routinely teach MPA courses at the OU Health Sciences Center in Oklahoma City.

- Master of Public Administration (p. 594)
- Public Management, Master of Public Administration (p. 595)
- Non-Profit Management, Master of Public Administration (p. 594)
- Public Policy, Master of Public Administration (p. 595)

Graduate Certificates

- Non-Profit Management (p. 596)

Doctoral Programs

The Political Science PhD (p. 596) program at the University of Oklahoma is one of the most diverse, well-established doctoral programs in the region. The program offers seven fields of study, which include American politics, comparative government, international relations, public administration, public policy, political theory and research methods. Doctoral students work closely with nationally recognized faculty who publish widely, are active in leadership positions in national and international professional associations, and are involved in editing leading journals in their fields. Students play a significant part in the intellectual life of the Department, participating in informal research-in-progress sessions, attending talks hosted by job candidates, and preparing papers for presentation at professional conferences.

Opportunities for research and funding are provided by programs affiliated with the department, including the Carl Albert Congressional Research and Studies Center, the Institute for Public Affairs, the International Programs Center, the OU POLL, the Center for Risk, Crisis and Resilience, the Center for Applied Social Research, and International and Area Studies.

Courses

NPNG 2033 Fundamentals of Nonprofit Management I 3 Credit Hours
A comprehensive overview of the nonprofit sector, its characteristics, and how to manage a nonprofit organization. Examines a wide range of management issues today's nonprofits face in pursuing their missions and daily operations. (F, Sp)

NPNG 3033 Fundamentals of Nonprofit Management II 3 Credit Hours
Prerequisite: NPNG 2033 or permission of department. A more detailed look at how to manage or govern a well-run nonprofit organization efficiently. Combines academic theory with real-life experience, equipping students with the tools required to effectively lead a nonprofit organization. (F, Sp)

NPNG 3193 Nonprofits and Public Policy 3 Credit Hours
(Crosslisted with P SC 3193) Prerequisite: P SC 1113. Examines how nonprofit organizations advocate for their causes through the public policy process as well as how public policy influences nonprofit missions and funding. It also explores more broadly the role of nonprofit organizations in democracy and the various ways they interact with government, including collaborative and conflictual relationships with government. (Irreg.)

NPNG 3593 Nongovernmental Organizations 3 Credit Hours
(Crosslisted with P SC 3593) Prerequisite: P SC 1113 and sophomore standing, or department permission. Provides an understanding of the political role of nongovernmental organizations (NGOs) in global as well as local politics. Introduces practical knowledge about the activities of NGOs in various policy fields. Provides information about transnational advocacy, nongovernmental networks, agenda setting, civil society mobilization, and contentious politics. (Irreg.)

NPNG 3761 Event Planning 1 Credit Hour
(Crosslisted with P SC 3761) Prerequisite: P SC 1113 or junior standing. Covers the basic techniques and processes behind event planning and management. A hands-on course giving students the opportunity to pitch event ideas to the class. Event management and planning will delve deeper into the process that surround events: budgeting, venue choices, fundraising, etc. (Irreg.)

NPNG 3771 Issue Advocacy 1 Credit Hour
(Crosslisted with P SC 3771) Prerequisite: P SC 1113 or junior standing. Designed to provide a practical application of the theories and concepts acquired in the study of political science and public administration. How to be effective advocates at all levels of government for the issues and ideas they seek to see implemented in public policy will be learned. (Irreg.)

NPNG 3781 Tracking Legislation 1 Credit Hour
(Crosslisted with P SC 3781) Prerequisite: P SC 1113 or junior standing. Designed to provide a practical application of the theories and concepts acquired in the study of political science and public administration. How to read and track legislation in the State of Oklahoma will be learned. Additionally, students will learn the inner workings of state government from a legislative perspective. (Irreg.)

NPNG 3791 Social Media Strategies for Public and Nonprofit Organizations 1 Credit Hour
(Crosslisted with P SC 3791) Prerequisite: P SC 1113 or junior standing. Designed to offer an overview of the social media field as it pertains to nonprofits and public organizations.

NPNG 3910 Nonprofit Internship 1-3 Credit Hours
1 to 3 hours. Prerequisite: junior standing and permission of instructor. May be repeated; maximum credit six hours. Interns observe and participate in functions, processes and actions of nonprofit organizations. This experience can enhance a student's knowledge of the requirements, benefits and lessons of working in the public or non-profit sector. (F, Sp, Su)

NPNG 4033 Leadership & Planning 3 Credit Hours
Prerequisite: NPNG 3033 or permission of instructor. A continuation of nonprofit organization management, with emphasis on board members, volunteers, paid staff, accountability, interactions, risk management, finances, and trending. (Sp)

NPNG 4203 Fundraising and Philanthropy 3 Credit Hours
Prerequisite: NPNG 2033 and senior standing or permission of instructor. Provides a comprehensive overview for those interested in entering the fundraising field or learning more about methods, technology and concepts in the development area of the nonprofit sector. The sources of funding and how to apply fundraising strategies will be studied. (Irreg.)

NPNG 4243 Grants and Contracts 3 Credit Hours
(Crosslisted with P SC 4342) Prerequisite: P Sc 1113 and junior standing or permission of instructor. Provides the necessary background to apply project management and development skills to the process of writing grant and contract proposals for public affairs organizations. Topics will include: needs assessment, searching for funding, budget development, and project evaluation. (Irreg.)

NPNG 4303 Communications and Public Relations in Nonprofit Organizations 3 Credit Hours
Prerequisite: NPNG 2033 and senior standing or permission of instructor. Provides students with the concepts and tools to conduct research and analyses, identify and evaluate target markets, explore opportunities to effectively communicate with new clients, donors and volunteers, and design effective web-based and social media tactic as part of an integrated marketing and communication strategy will be learned. (F)

NPNG 4503 Program Evaluation for Nonprofits 3 Credit Hours
Prerequisite: NPNG 2033 and senior standing or permission of instructor. Intended to provide an appreciation of the contributions and limitations of program evaluation and the basic skills needed to conduct evaluations. Emphasis will be given to coping with the conceptual, methodological, organizational, political, and ethical problems that face evaluators. The various tasks facing evaluators, from developing questions to presenting data, will be discussed. (Irreg.)

NPNG 4533 Donor Stewardship and Grant Writing 3 Credit Hours
Prerequisite: NPNG 2033 and NPNG 3033. This course will cover three aspects of nonprofit development work, including database management, grant writing, and special events (Sp)

NPNG 5033 Nonprofits: The Sector and The System 3 Credit Hours
Prerequisites: graduate standing or permission of instructor. Understanding the relationship between government and nonprofits is fundamental for the survival of the sector. Nonprofits implement public policy, receive government funding, respond to natural disasters, and help form legislation. The course includes an examination of broad theoretical, empirical and practical spectrum of nonprofit-public collaborations, conflicts, and resultant policy implications. (Irreg.)

NPNG 5413 Nonprofit Law and Policy 3 Credit Hours
Prerequisites: graduate standing or permission of instructor. Examines how policy influences nonprofits and how nonprofits impact policy. It will address the role of nonprofits in public policy and how laws shape nonprofit involvement by reviewing state and federal policy including legal forms, fundraising regulations, and employee compensation. Students will gain an understanding of nonprofit activities within a basic legal framework. (Irreg.)

NPNG 5701 Nonprofit Fundraising and Grantmaking 1 Credit Hour
Prerequisites: graduate standing or permission of instructor. Assists students in securing resources for nonprofits by understanding techniques for fundraising, conducting prospect research, practicing appropriate stewardship, leading campaigns for various types of giving, writing grants, utilizing technology to facilitate resource development, and implementing creative approaches to fundraising. (Irreg.)

NPNG 5711 Nonprofit Financial Management 1 Credit Hour
Prerequisites: graduate standing or permission of instructor. Introduces financial concepts required for effective management of nonprofit organizations. Offers an opportunity to learn about nonprofit accounting, budget management, financial planning, tax issues, grant compliance, audits, cash flow management, and capital financing. (Irreg.)

NPNG 5721 Nonprofit Human Resources 1 Credit Hour
Prerequisites: graduate standing or permission of instructor. Focuses on the knowledge and skills required by those who manage personnel. The course provides a solid base to understanding human resource management and applying that to work-life situations for those considering a career in management. Also investigates the essential concepts and federal laws that shaped human resource management. (Irreg.)

P SC 1113 American Federal Government 3 Credit Hours
Not accepted for major credit. A study of the structure, organization and powers of the executive, legislative and judicial branches including relationships between state and national governments. Emphasis upon political processes and popular government; elections, political parties, pressure groups, voting behavior. (F, Sp, Su) [III-PSC] .

P SC 2013 Introduction to Political Analysis 3 Credit Hours
Prerequisite: P SC 1113 or department permission; for majors only. Scientific method and the variety of approaches to a science of politics; problems of research design; methods and techniques of systematic political inquiry. (F, Sp)

P SC 2103 Politics in America 3 Credit Hours
Prerequisite: P SC 1113. Focuses on the practice of politics in the United States and the forces and ideas that shape political conflict and determines who wins. The three major national institutions of American government are considered: Congress, the presidency, and the judiciary. Examines their constitutional bases of power, their evolving relationships, and their roles in contemporary policymaking. Also considers how ideas and power relationships influence the shape of political conflict. Contemporary political issues will be integrated into course content. (F)

P SC 2503 Global Politics 3 Credit Hours
Prerequisite: P SC 1113. Introduces sources of continuity and change in world politics. Emphasis is given to the struggle for power and search for peace among state and non-state actors. Additional topics include the relevance of international law, foreign policy decision-making, balance of power, collective security, and moral choices in international politics. (F)

P SC 2603 Governments Around the World 3 Credit Hours
(Crosslisted with IAS 2603) Prerequisite: P SC 1113. Gateway course in political science and international and area studies. Provides an introduction to the varieties of politics and governmental systems around the world. Students will develop skills in comparative analysis to understand why countries have distinct types of government. (F, Sp, Su) [IV-WC] .

P SC 2703 Justice, Liberty and the Good Society 3 Credit Hours
Prerequisite: P SC 1113. An introduction to the literature about the best form of government, how a just and free society should be designed, and what difficulties stand in the way of our pursuit of the good society. Topics may include: the classic idea of a republic, theories shaping American democracy, the theory of equality and liberty, and contemporary ideas for the critical analysis and improvement of democracy. (F, Sp)

P SC 2970 Special Topics 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

P SC 3020 Problems in American Government and Politics 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Will not assume prior knowledge on the part of the students in reference to the topics under examination. The focus is on the national government, including the political processes and policies that relate to it. (F, Sp)

P SC 3023 Law and Courts 3 Credit Hours
Prerequisite: 1113 or permission of the instructor. This is an introduction to the judicial process, origin and sources of law, and the relationship between courts and other sectors of the American political system. It will focus on the criminal justice system, civil justice system, constitutional law, judicial selection, judicial policymaking, and how interest groups use the courts. (F)

P SC 3033 Religion and Politics in America 3 Credit Hours
Prerequisite: 1113. Examines the diverse religious traditions in America and explores their political manifestations. Assesses the religious impact on voting, lobbying, political mobilization and political culture. Particular attention will be paid to the strategic environment in which religious political actors must operate. [IV-WC] .

P SC 3043 Gender, Power and Leadership in Politics and Public Administration 3 Credit Hours
(Crosslisted with WGS 3043) Prerequisite: 1113. Focuses on the relationship between gender, power, leadership, and government in politics and public administration. Causes of under-representation of women in elected office and the bureaucracy are explored. Historical, social, psychological, and organizational barriers are considered. (Irreg.)

P SC 3053 Global Religion and American Foreign Policy 3 Credit Hours
Prerequisite: 1113 or permission of instructor. This course examines the intersection of American faith-based movements, global religious developments, and U.S. foreign policy. It explores how global religious conflicts impinge on American foreign policy, and how domestic religious groups attempt to shape U.S. policy on such concerns as human rights, humanitarian aid, and conflict mediation. (F, Sp)

P SC 3063 Religion and the American Constitution 3 Credit Hours
Prerequisite: P SC 1113. This course examines the vital role of religion in the American Constitution, its antecedents and contemporary interpretations. (F)

P SC 3073 Immigration Politics 3 Credit Hours
Prerequisite: P SC 1113 or permission of instructor. An examination of the politics of immigration in America. Includes lively debate, in addition to daily discussions of current events involving immigration. Emphasis will be placed upon the development of a unique research project that examines an important question, puzzle, or aspect of immigration in American politics. (Irreg.)

P SC 3083 The Politics of Criminal Justice 3 Credit Hours
Prerequisite: P SC 1113. How does a political community best provide security to its members while also respecting the rights of all of its citizens? This course is an examination of the relationship between political variables and crime rates, police behavior, court dynamics and sentences, and prison practices and functions. (Irreg.)

P SC 3090 Special Topics 1-3 Credit Hours
Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit nine hours. Topics considered will deal with issues whose subject matter spans two or more subfields of the undergraduate curriculum in political science and/or public affairs and public administration. (Irreg.)

P SC 3093 Minority Political Behavior 3 Credit Hours
Prerequisite: P SC 1113. Examination of racial minority status in American politics. Addresses such broad topics as: racial and ethnic identity; political mobilization; statutory and legal intervention in the electoral process; the politics of immigration, acculturation, and identification; theories of minority representation; and what shapes political behavior among African-Americans, Latinos, Asian Americans, and Native Americans. (Irreg.)

P SC 3113 Bureaucracy and Citizenship 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Focuses upon various aspects of political life in bureaucratic society, including the scope of contemporary public programs and their impact on society, and extent and character of citizens' bureaucratic encounters, administrative pathology, bureaucratic helping, appeals of administrative decisions, bureaucratic accountability and democratic theory, and the future of citizen-bureaucratic relations. (Sp)

P SC 3123 Social Statistics 3 Credit Hours
(Crosslisted with SOC 3123) Prerequisite: SOC 1113 and any General Education Math EXCEPT Philosophy 1113 or Philosophy 3113. Descriptive and inferential statistics as they are used in sociology to analyze survey and macro-level data. Problems of research design and interpretation of analysis in sociological theory are major topics. A grade of C or better in this course is a prerequisite for Sociology capstone courses. (F, Sp, Su)

P SC 3133 Politics and Public Administration 3 Credit Hours
Prerequisite: 1113 and sophomore standing. Examines the concept of the political role of the bureaucracy and the impact of other government institutions on bureaucratic structure, functions and behavior. The role of the bureaucracy in public policy making and the influence of politics on policy implementation is analyzed. (F) [III-SS] .

P SC 3143 U.S. Congress 3 Credit Hours
An introduction to the legislative process, with emphasis upon the United States Congress: the legislative process, committee systems; legislative leadership; the legislator and constituents; lobbyist and interest groups; legislative-executive relations. (Sp)

P SC 3163 The American Presidency 3 Credit Hours
Prerequisite: 1113. Examination of the constitutional, electoral, administrative and political aspects of the contemporary American presidency; ending with an assessment of its capabilities in the context of its demands. (F)

P SC 3170 Problems in Public Administration 1-3 Credit Hours
1 to 3 hours. Prerequisite: five hours of political science or three hours of another social science, or junior standing and permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Special topics and/or problems in the field of public administration not covered in the regular curriculum or by supervised individual study. The course will involve readings appropriate to the subject matter and requires completion of a substantial paper. Additional requirements will be covered by the instructor in the syllabus. (Irreg.)

P SC 3173 Administration & Society 3 Credit Hours
Prerequisite: P SC 1113; Majors only. This course introduces you to public administration. We focus on understanding the purpose, structures, functions, and challenges related to operating publicly funded programs and how these dynamics relate to organizations in the public, non-profit and private sectors. (F, Sp)

P SC 3183 Politics of Government Budgeting 3 Credit Hours
Prerequisite: P SC 1113. Provides an introduction to budgeting and the budgetary process in American government. Budgeting decision-making about government revenues and expenditures will be presented. (Sp)

P SC 3193 Nonprofits and Public Policy 3 Credit Hours
(Crosslisted with NPNG 3193) Prerequisite: P SC 1113. Examines how nonprofit organizations advocate for their causes through the public policy process as well as how public policy influences nonprofit missions and funding. It also explores more broadly the role of nonprofit organizations in democracy and the various ways they interact with government, including collaborative and conflictual relationships with government. (Irreg.)

P SC 3203 Sexuality, Gender, and the Law 3 Credit Hours
Prerequisite: P SC 1113 or permission of the instructor. The course will examine a number of the most politically significant legal debates regarding gender and sexuality. Though the issues covered will vary by semester, they will include many of the following: discrimination on the basis of gender and sexual orientation, reproductive rights, the regulation of pornography, same-sex marriage, sexual harassment in the workplace, and the right to sexual privacy. (Irreg.)

P SC 3213 Law, Politics, and Society 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Examines how courts and other political actors use law to solve problems and how judicial decisions incorporate legal and political considerations. It explores how law shapes or alters the political community, the extent that law changes to fit needs of society, and the role of politics in interpretation of law. (Sp)

P SC 3220 Topics in Public Policy 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113. May be repeated with change of content; maximum credit six hours. Research and investigation on selected topics in public policy. (Irreg.)

P SC 3223 Making Public Policy 3 Credit Hours
Prerequisite: P SC 1113; Majors and Minors only. Provides a rigorous introduction to the important components, concepts, and dominant theories of public policy in the context of federal, state, local, and foreign policymaking processes in the United States. (Irreg.)

P SC 3233 Environmental Policy and Administration 3 Credit Hours
Prerequisite: 1113. Characterizes the evolution of public sector involvement in protection of the environment; addresses current issues associated in environmental protection including administrative efficiency and effectiveness and intergovernmental relations, and assesses potential solutions to emerging environmental problems. (F)

P SC 3263 Social Welfare 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Introduction to the basics of welfare policy in the United States. To do so, we will review the history of this policy area from early efforts in Western Europe up to the changes made by, and the impacts of, the Personal Responsibility and Work Opportunity Act of 1996 which did away with the Aid to Families with Dependent Children (AFDC) program and ushered in TANF (Temporary Assistance to Needy Families). There will be a specific focus on the logic behind policy components (to include examining competing theories of human behavior and how they relate to relief efforts), their evolution, and the role of the political environment in fostering change. (Sp)

P SC 3273 Privatization 3 Credit Hours
Prerequisite: P SC 1113 or permission of instructor. Exposes students to competing theories regarding the privatization of publicly provided services (such as fire and police protection, road construction and maintenance, refuse collection, child protective services, and maintenance of public parks) with a particular focus on the supposed benefits and problems. (F)

P SC 3313 Urban Government and Politics 3 Credit Hours
Structure and function of urban governments and analysis of politics in urban areas. (F)

P SC 3323 State Government 3 Credit Hours
The organization, structure, functions, and administration of American state and local governments; federal-state relations; constitutions and legal systems; legislative, executive, and judicial departments; a study in the political process; problems of metropolitan areas; fiscal and administrative systems. (F)

P SC 3403 Interest Groups and Social Movements 3 Credit Hours
Role of interest groups and collective action in the political process; theory of collective action and development of American pressure groups; group organization and internal behavior; patterns of external behavior; collective action and foreign political systems; and organized interests and democratic government. (F)

P SC 3413 American Political Parties 3 Credit Hours
A descriptive and critical examination of the political processes in the United States, with special reference to the role and organization of political parties and their relationship to voter behavior and the popular control of government. (Irreg.)

P SC 3423 Public Opinion 3 Credit Hours
Relies on three basic themes as a framework for the study of public opinion: coalitions, elites and masses. More specific subjects studied include political socialization, the parties and the media. Students may not take both P SC 3423 and P SC 4013 for credit. (Irreg.)

P SC 3433 Voters and Campaigns 3 Credit Hours
Prerequisite: 1113. Covers some of the literature on voting behavior and political campaigns: political socialization; political participation; election studies; influence on voting such as party, candidate, issues, and group affiliations; the legal framework and impact of reform; election outcomes and their policy import. Coverage of the campaign process includes party and interest group activity, campaign financing, strategy, the media, and campaign reform. (Irreg.)

P SC 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

P SC 3443 Mass Media and American Politics 3 Credit Hours
Prerequisite: 1113. Role of mass media in American politics including origin and development of relationship between press and politics, how the press covers politics, effects of mass media on public opinion, political elites, and institutions. (Irreg.)

P SC 3463 American Political Development 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Analyzes the institutional development of American politics. The premise is that institutions are created to solve conflicts at specific historical junctures. Once in place, these institutions create opportunities and constraints for future generations. Focus on explaining large-scale political change in the United States from the founding to the present. (Irreg.) [IV-WC].

P SC 3473 Political Psychology 3 Credit Hours
Prerequisite: P SC 1113 or permission of instructor. An overview of political psychology, where students will engage in debates about the relative power of the situation vs. the individual, whether human beings are truly rational actors, the extent to which human beings exercise free will, and whether morality is achievable. Specifically, delves into the following questions:1) Why do people engage in hostile, aggressive, and "evil" behavior; 2) Why is there intergroup conflict; 3) Why does the media have such a powerful impact on political attitudes; 4) What drives political ideology, partisan affiliation, and voting behavior; and 5) What explains the behavior of political elites? (Irreg.)

P SC 3483 Campaign Management 3 Credit Hours
Prerequisite: departmental permission and P SC 1113. Addresses practical aspects of campaign management including information about the decisions campaign managers make in gathering information, raising money, harnessing technology, honing and disseminating messages, and targeting volunteers/voters in the context of aiding a candidate in running for/winning office. Explores practical lessons on campaign management and provides hands-on training through the use of existing electoral databases and on-campus resources. (Irreg.)

P SC 3493 Congress: Politics, Policy and the Constitution 3 Credit Hours
Prerequisite: P Sc 1113. Introduces students to theory and research on the role of the Congress under the U.S. Constitution and the relationship of the Congress to the coordinate branches of the federal government, as well as to the state governments in interpreting and applying the Constitution. Experience in original archival research on the politics, policies and constitutional struggles of the Congress through the Carl Albert Congressional Research & Studies Center will be gained. (Irreg.)

P SC 3513 Causes of War 3 Credit Hours
Prerequisite: 1113 or permission of instructor. This course will examine causes and consequences of war, looking at the changing nature of war, international relations theories about causes of war, and case studies, primarily from the 20th century. (Irreg.)

P SC 3523 The History of Terrorism 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. Surveys terrorism from its first use during the Roman Empire through the French Revolution and up to its modern form. Includes a focus on several important groups such as the Irish Republican Army and the Ku Klux Klan, as well as how terrorist goals move in historical cycles. (Irreg.)

P SC 3533 Contemporary Terrorism 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Designed to help students develop a better understanding of the nature of terrorism, the variety of terrorist motivations, the means by which governments attempt to deal with the problem, and the variety of research questions that remain unanswered. (Irreg.)

P SC 3543 United States-Latin American Relations 3 Credit Hours
Prerequisite: Sophomore standing or departmental permission. This course studies both the historical development and current problems of conflict and cooperation between the United States and the countries of Latin America, and the ways their interactions affect each country's security, politics, economy, society, and culture. (Irreg.) [IV-WC].

P SC 3550 Topics in International Relations 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit nine hours. Systematically explores contemporary problem areas in international relations. Will not assume prior knowledge on the part of the students in reference to the topics under examination. Meets in a seminar format where emphasis will be placed on classroom presentations and extensive research papers. (Irreg.)

P SC 3553 International Political Economy 3 Credit Hours
Prerequisite: 1113. Focus on patterns, processes, and problems of international trade, monetary, technological, and investment relations. Deals with the roles played by key international organizations in managing conflict and cooperation among states. Students learn to apply theoretical approaches in analyzing issues in the global economy. (F) [IV-WC] .

P SC 3563 United States Diplomatic History 3 Credit Hours
Prerequisite: none. A survey of American diplomatic history from the War for Independence to the present, emphasizing relations with major European, Latin American and Far Eastern countries. [IV-WC] .

P SC 3573 Great Power Politics 3 Credit Hours
Prerequisite: P SC 1113. Explores the meaning of power in politics and diplomacy, relations among great powers in different historical settings, arguments for and against realism as a theory of international politics, different strategies for projecting power, whether moral choices are relevant in the realm of power politics, and the importance of geopolitics in the 21st century map of world affairs. (Irreg.)

P SC 3583 Masters & Commanders: Wartime Strategy and Statecraft 3 Credit Hours
Prerequisite: P SC 1113. Based on Andrew Roberts' Masters And Commanders: How Roosevelt, Churchill, Marshall and Alanbrooke Won the War in the West. Focuses on debates between the four principals and senior Allied officials in shaping the grand strategy of the West during the Second World War. Attention is devoted to disagreements about military necessities and about the structure of the postwar world. (Sp)

P SC 3593 Nongovernmental Organizations 3 Credit Hours
(Crosslisted with NPNG 3593) Prerequisite: P SC 1113 and sophomore standing, or department permission. Provides an understanding of the political role of nongovernmental organizations (NGOs) in global as well as local politics. Introduces practical knowledge about the activities of NGOs in various policy fields. Provides information about transnational advocacy, nongovernmental networks, agenda setting, civil society mobilization, and contentious politics. (Irreg.)

P SC 3600 Topics in Comparative Politics 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit nine hours. Will examine contemporary issues in politics and government around the world. Meets in a seminar format where emphasis will be placed on classroom presentations and research. (Irreg.)

P SC 3603 Politics of Ireland and the United Kingdom 3 Credit Hours
Prerequisite: P SC 1113. Introduction to the politics of the Republic of Ireland and the United Kingdom of Great Britain and Northern Ireland. Political, social, and institutional development of England, Ireland, Scotland, and Wales; the Irish struggle for independence and civil war; and the creation of national identities. Studies contemporary political institutions and party systems. (Irreg.)

P SC 3633 Politics in East Asia 3 Credit Hours
Prerequisite: 1113 or permission of instructor. This course provides a survey of politics and political systems in select countries in east Asia and aims at developing comprehensive understanding of contemporary Asian politics. We will identify similarities and differences in the politics of these countries in specific dimensions and explore the basis of each of them. (F) [IV-NW] .

P SC 3643 Democracies and Democratization: A Comparative Inquiry 3 Credit Hours
Prerequisite: 1113. Studies the theory, history, causes, and prospects for democracy in the world, beginning with ancient Greece and ending with the challenges of democracy and democratization in countries around the world today. Although primarily a social science course, questions about the philosophical underpinnings of democracy are also raised. (Sp) [IV-WC].

P SC 3653 Government and Politics of Latin America 3 Credit Hours
Prerequisite: 1113 or permission of instructor. General survey of structure, organization and operation of Latin American governments. Problems of dictatorship, underdevelopment, social reform and relations with the United States are covered. (F) [IV-WC] .

P SC 3663 Politics of the Middle East 3 Credit Hours
Prerequisite: 1113 or permission of instructor. This course surveys the developments in current domestic politics in Middle Eastern countries. It will focus on the process of state building, great power politics, Islam and political ideologies, economic crises, and regime stability and change. (Irreg.)

P SC 3703 From Plato to Machiavelli, the Classic Art of Politics 3 Credit Hours
Prerequisite: 1113 and sophomore standing. Study of the origins of political science or political philosophy in the thought of classical antiquity and of the continuing influence of the classic works. Topics may include: Plato and Aristotle's attempt at a systematic political science; Thucydides on democracy and war; the interaction of religion and politics; and the early modern rebirth of the classical republican era. (F) [IV-WC] .

P SC 3713 The Idea of a Liberal Society 3 Credit Hours
Prerequisite: 1113 and sophomore standing. Study of the major works of modern political thought that inspired the idea of a rights-oriented liberal society. Readings vary, but may include Thomas Hobbes and John Locke, their followers and critics in later centuries (such as Montesquieu, Rousseau, Kant, Hegel, and Mill), and those who later subjected the liberal idea to fundamental criticism (Marx, Nietzsche, and others). (Sp) [IV-WC] .

P SC 3723 Foundations of American Politics 3 Credit Hours
An examination of the principal issues and ideas of the American colonial, revolutionary and founding periods and their influence on, and relevance to contemporary American politics.

P SC 3753 Human Rights and Contentious Politics 3 Credit Hours
Prerequisite: P SC 1113. Students gain an understanding of the major players influencing human rights, their interests, the arenas in which they interact, and the rules that govern their interactions. The focus of the class is not on philosophical underpinnings of rights, but rather on how repression and efforts to combat it play out in the domestic and international arena. (Irreg.)

P SC 3761 Event Planning 1 Credit Hour
(Crosslisted with NPNG 3761) Prerequisite: P SC 1113 or junior standing. Covers the basic techniques and processes behind event planning and management. Provides students with the opportunity to pitch event ideas to the class. Event management and planning will delve deeper into the process that surround events: budgeting, venue choices, fundraising, etc. (Irreg.)

P SC 3763 Field Research Methods and Community Engagement: The Oklahoma City Exit Poll 3 Credit Hours
Prerequisite: P SC 1113. Trains students as field researchers for an election exit poll. In addition to learning how to design relevant and valid questionnaire items, students will participate as survey enumerators on the day of the election. As part of the course students will receive CITI certification demonstrating their expertise as researchers. (Irreg.)

P SC 3771 Issue Advocacy 1 Credit Hour
(Crosslisted with NPNG 3771) Prerequisite: P SC 1113 or junior standing. Designed to provide a practical application of the theories and concepts students acquire in the study of political science and public administration. Students will learn to be effective advocates at all levels of government for the issues and ideas they seek to see implemented in public policy. (Irreg.)

P SC 3781 Tracking Legislation 1 Credit Hour
(Crosslisted with NPNG 3781) Prerequisite: P SC 1113 or junior standing. Designed to provide a practical application of the theories and concepts acquired in the study of political science and public administration. How to read and track legislation in the State of Oklahoma will be learned. Additionally, students will learn the inner workings of state government from a legislative perspective. (Irreg.)

P SC 3791 Social Media Strategies for Public and Nonprofit Organizations 1 Credit Hour
(Crosslisted with NPNG 3791) Prerequisite: P SC 1113 or junior standing. This course is designed to offer an overview of the social media field as it pertains to nonprofits and public organizations.

P SC 3823 The Management and Politics of Disasters 3 Credit Hours
Prerequisite: P SC 1113. This course introduces the politics of extreme events such as natural disasters, technological crises, and terrorism. The discussion will address issues ranging from the emergency management cycle, social behavior in catastrophic circumstances, and the policy systems related to disasters. Films will complement the traditional academic reading and lecture material to provide vivid illustrations of the politics (and myths) of disasters. (Irreg.)

P SC 3843 Education Policy 3 Credit Hours
Prerequisite: P SC 1113. This course will provide a thorough overview of the actors, institutions, and issues relevant to contemporary K-12 education policy in the United States. In providing such an overview, the course will address both longstanding areas of debate, such as the primary purpose of education and the financing of schools, as well as hot-button issues of the day. (Irreg.)

P SC 3873 Transnational Politics 3 Credit Hours
Prerequisite: P SC 1113. Transnational Politics is about political phenomena that not only cross national borders, but transcend them. This includes the transnationalization of production by multinational companies; the transnationalization of culture by international advocacy organizations; and the transnationalization of insurgency by "terrorist" groups. We will evaluate the processes driving these trends, and consider their implications for both domestic and international politics. (Irreg.)

P SC 3910 Government Internship 2-3 Credit Hours
2 to 3 hours. Prerequisite: good academic standing with 45 semester hours completed, including nine hours of political science; permission of instructor. May be repeated; maximum credit six hours. Interns observe and participate in the functions, processes and actions of governmental institutions at the federal, state and local level. Grade of S/U based on completion of directed readings, an academic research paper, performance reports. (F, Sp, Su)

P SC 3923 World Happiness 3 Credit Hours
(Crosslisted with IAS 3923) Prerequisite: Junior standing or permission of instructor. This course explores the global philosophical, historical, and policy trends leading to modern well--being measures and currently enacted well-being policies around the world. (Irreg.)

P SC 3943 Campaigns Through Film 3 Credit Hours
Prerequisite: P SC 1113. Through the lens of documentary films, this course will examine various facets of campaigning for political office in the United States. (Irreg.)

P SC 3953 Bhutan Democracy and Happiness 3 Credit Hours
Prerequisite: P SC 1113. This is a comparative politics course that examines comparative theories of democratization and happiness with Gross National Happiness (GNH) policy and democratization in Bhutan. Incorporated in the examination of GNH is an examination of other non-Gross Domestic Product global measures of societal progress such as the Happy Planet Index, Human Development Index, and United Nations Millennial Development Goals. (Irreg.) [IV-NW].

P SC 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

P SC 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated: maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (F, Sp)

P SC 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

P SC 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; junior standing; permission of instructor and department. May be repeated; maximum credit six hours. Through a written contract, independent study may be arranged for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

P SC 4020 Problems in American Government 1-3 Credit Hours
1 to 3 hours. May be repeated with change of content; maximum credit nine hours. Focus on the national government, including the political processes and policies that relate to it. (Irreg.)

P SC 4023 Community Scholars 3 Credit Hours
Prerequisite: P SC 1113. Service-learning course allows students to become participants in community activities and organizations designed to address community needs. At the same time, students develop skills and abilities for critical thinking, group problem-solving, and effective civic engagement. Combines community service and academic learning to examine how local government agencies work along side community organizations, mainly nonprofit organizations, to meet the needs of their community. (F)

P SC 4033 Capitol Scholars: A Service Learning Course 3 Credit Hours
Prerequisite: P SC 1113 and permission of instructor. The course uses service-learning and weekly seminars to focus on institutions, policy-making and politics in legislative settings. (Sp)

P SC 4043 Public Policy Implementation 3 Credit Hours
(Slashlisted with P SC 5043) Prerequisite: P SC 1113. This course examines how public laws are implemented. It investigates actors, institutions and processes influential in decisions and actions regarding public program delivery. No student may earn credit for both 4043 and 5043. (Irreg.)

P SC 4083 Strategies in Politics and Public Policy 3 Credit Hours
(Slashlisted with P SC 5083) Prerequisite: P SC 1113. Politics involves the interaction of people who seek to use mechanisms of collective choice to further their goals. This undergraduate course focuses on how political institutions translate the preferences of individuals into social choices. What strategies can individuals employ to influence social choices? This class addresses these questions through theories of individual decision making, social choice, and collective action. No student may earn credit for both 4083 and 5083. (Irreg.)

P SC 4093 Capstone Seminar in Political Science 3 Credit Hours
Prerequisite: P SC 1113, senior standing and permission of department. Capstone seminar for majors in political science. Explores topics in political science for students with substantial background in the discipline and includes a significant writing component. Specific subtitles will vary. (F, Sp) [V].

P SC 4143 Policy/Program Evaluation 3 Credit Hours
Prerequisite: P SC 1113. Introduces the planning and implementation of a variety of evaluation types and methods. Considers the utilization of findings in a political environment. (Irreg.)

P SC 4153 Strategic Planning and Performance Assessment 3 Credit Hours
Prerequisite: P SC 1113 and junior standing or permission of instructor. Introduces strategic planning, performance assessment and benchmarking. Familiarizes students with these three strategic management processes and illustrates development, implementation, and reformulation of public policy and operational strategy. Emphasis is placed on the need for awareness of, and accommodation to, changes in an organization's environment. (Irreg.)

P SC 4193 The Profession of Public Management 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Open to undergraduate students only. Focuses on the internal administrative processes of public agencies, concentrating on the generic management functions of planning, directing and controlling as they relate to the development and implementation of public policy programs. (Irreg.)

P SC 4203 Capstone Seminar in Public Affairs and Administration 3 Credit Hours
Prerequisite: senior standing and permission of instructor. May be repeated once with change of content. The focus and subtitle will vary. Develops the ability to analyze and interpret the subject matter; contains a substantial writing component. (F, Sp) [V] .

P SC 4213 Regulatory Policy 3 Credit Hours
Prerequisite: P SC 1113. Examines the topic of administration and the agencies that are responsible for these government activities. Emphasizes the constitutional, legal, administrative, and political issues raised by the growth and nature of regulatory activities. (F)

P SC 4220 Problems in Public Policy 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit nine hours. Research and investigation on selected problems in the field of public policy. (Irreg.)

P SC 4243 Grants and Contracts 3 Credit Hours
(Crosslisted with NPNG 4243) Prerequisite: P SC 1113 and junior standing or permission of instructor. Provides the necessary background to apply project management and development skills to the process of writing grant and contract proposals for public affairs organizations. Topics will include: needs assessment, searching for funding, budget development, and project evaluation. (Irreg.)

P SC 4263 American Constitutional Law I: Governance 3 Credit Hours
Prerequisite: P SC 1113. Chronological exploration of the role of constitutional principles and the United States Supreme Court in the historical and contemporary political struggles concerning the structure, distribution, and uses of national governmental power in the American polity. Examines the Constitution's allocation of powers vertically between the national government and the states, and horizontally among the legislative, executive, and judicial branches; the changing understandings of the relationship between the economic powers of private individuals and the national government; the powers of the national government over non-citizens; and the Constitution's allocation of war-making powers. (F)

P SC G4283 American Constitutional Law II: Civil Rights and Civil Liberties 3 Credit Hours
Prerequisite: P SC 1113 or permission of instructor. Investigates the character, function, and enforcement of civil rights and civil liberties in the American constitutional system. (Sp) [IV-WC] .

P SC 4323 Political Communication 3 Credit Hours
(Crosslisted with COMM 4323) Prerequisite: COMM 1113 or P SC 1113 and junior standing or permission of instructor. This course considers the role of communication in democracy. Topics include the kinds of information necessary to sustain democratic systems, the ways in which citizens are informed about public affairs, the function of news media in democratic systems, and how citizens, media and political leaders interact. (F, Sp)

P SC 4493 Architecture of Democracy 3 Credit Hours
(Slashlisted with P SC 5493; Crosslisted with ARCH 4493) Prerequisite: P SC 1113 or permission of instructor. This course explores how space, place and values come together in public spaces, by reviewing the evolution of architecture as it relates to human governance; introducing methods for assessing and designing physical space as an expression of human values; examines the social meaning and behavioral impact of spaces; studies the expression of democratic values in public spaces. No student may earn credit for both 4493 and 5493. (Irreg.)

P SC 4523 International Organizations 3 Credit Hours
Prerequisite: P SC 1113 or permission of instructor. Focuses on the organization of international politics via formal multilateral arrangements (international organizations) and informal multilateral agreements (international regimes). (F)

P SC 4713 Princes, Tyrants, Statesmen: On Political Leaders 3 Credit Hours
Prerequisite: P SC 1113. Examines important works that aim either to instruct major political leaders or to evaluate them for the purpose of political understanding. The studies range over a number of cases, classical, modern, and contemporary, of very different kinds and quality. Cases discussed may represent a high degree of excellence in leadership, or the worst examples of tyranny. (Irreg.) [IV-WC].

P SC 4863 Strategic Intelligence Challenges 3 Credit Hours
Prerequisite: P SC 1113. Studies problem identification in international politics and how 'politics problems' become 'intelligence problems'. Identifies historic and emerging theories of intelligence collection and use; adapting intelligence collection to changing problems; the evolution of intelligence tools and personnel training. Topical content such as WMD proliferation, terrorism, illicit trafficking, and electronic surveillance are used as subject matter vehicles. (Irreg.)

P SC 4873 Tools of Statecraft 3 Credit Hours
Prerequisite: P SC 1113. Provides an introduction to the range of tools of statecraft, other than war, and examines the role of intelligence as a foreign policy tool. Offers a broad overview of the functional areas of intelligence (collection, analysis, counterintelligence, overt political action and covert activities); the organizational makeup of the US Intelligence Community; laws, guidelines and ethics pertaining to intelligence collection; and explores real world examples of how tools of statecraft are employed in the conduct of foreign policy in the modern world. (Irreg.)

P SC 4883 Intelligence Analytics I 3 Credit Hours
Prerequisite: P SC 1113. Provides an introduction to the fundamentals of effective intelligence writing and presentation. Emphasis is placed on critical thinking, writing and oral communication skills for intelligence analysis. Topics include structuring analytical problems; sources of intelligence information; and using analytical software for writing exercises with oral presentations. (Irreg.)

P SC 4893 Intelligence Analytics II 3 Credit Hours
Prerequisite: P SC 1113 and P SC 4883. Develops advanced critical thinking, writing and oral communication skills by enhancing ability to apply methods for intelligence analysis. Emphasis is placed on assessing bias in information sources, critiquing analytical products, and applying analytical software to major writing exercises with oral presentations. (Irreg.)

P SC 4903 Social Movement Theory 3 Credit Hours
(Slashlisted with P SC 5903) Prerequisite: P SC 1113. This course will focus on major political theories that assess social movements and public policymaking. It will also examine when and why social movements occur, who joins or supports social movements, how social movements are organized, what are the impacts of social movements, the role of the state and social movements, and why social movements decline. No student may earn credit for both 4903 and 5903. (Irreg.)

P SC 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

P SC 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

P SC 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; senior standing; permission of instructor and department. May be repeated; maximum credit six hours. Through a written contract, independent study may be arranged for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

P SC 5003 Introduction to Public Administration 3 Credit Hours
Prerequisite: graduate standing. An introductory graduate seminar surveying the field of public administration and its role and position in contemporary government, providing a basis from which to undertake advanced studies of theoretical and substantive nature. Attention will be given to key themes in past and present of mainstream public administration, such as the foundation, personnel, organization, and policies of government. (F, Sp, Su)

P SC 5013 History and Theory of Urban Planning 3 Credit Hours
(Crosslisted with RCPL 5013) Prerequisite: open to seniors in social science departments, civil engineering and architecture, and to graduate students in regional and city planning. An introductory course on the history and theory of contemporary planning, focusing on the physical, social, institutional and economic structure and dynamics of human settlements, and on the role and responsibilities of the professional planner. (F)

P SC 5023 Problems in American Government 3 Credit Hours
Prerequisite: 12 hours in political science or senior standing and permission of instructor. May be repeated with change of content; maximum credit nine hours. Content varies with instructor. The focus is on the national government, including the political process and policies that relate to it. (Irreg.)

P SC 5033 Foundations of Nonprofit Management 3 Credit Hours
Prerequisite: graduate standing. Introduces broad theories and managerial practices in the field of nonprofit management. The main foci of the course are to provide theoretical foundations of the nonprofit sector by examining its nature, scope, legal frameworks, functions, and policy implications and to examine various managerial challenges nonprofit organizations face due to their unique sector positions and how they respond to those challenges. Challenges are multifaceted (leadership, financial, personnel, performance evaluation and accountability, governmental relations) and the course will provide several case studies for students to review and seek potential solutions in individual as well as group settings. (Irreg.)

P SC 5043 Public Policy Implementation 3 Credit Hours
(Slashlisted with 4043) Prerequisite: graduate standing. This course examines how public laws are implemented. It investigates actors, institutions and processes influential in decisions and actions regarding public program delivery. No student may earn credit for both 4043 and 5043. (Irreg.)

P SC 5053 Agenda-Setting in Public Policy 3 Credit Hours
Prerequisite: graduate standing. This class will focus on agenda-setting and policy change - that is, how policy agendas are determined and their impact on policy change. In so doing, we will examine the role that various actors play (including public administrators), the impact of focusing events, political institutions, and the media. (Irreg.)

P SC 5063 Nonprofits and the Public Sector Relations 3 Credit Hours
Prerequisite: graduate standing. Explores various issues that arise from collaborative efforts between the nonprofit and government sectors in delivering public services. Includes an examination of a nonprofit-public sector collaboration and partnership, especially the nature of nonprofit-public sector strategic alliances, the dynamics of service delivery networks, and the effectiveness of collaborations. The role of nonprofits and the policy implications in social service contracting are examined. (Irreg.)

P SC 5073 Municipal Management and Leadership 3 Credit Hours
Prerequisite: graduate standing. Streets, water, sewer, trash, public safety, and business all center on Main Street U.S.A., and cities are literally where politics and policy directly meet citizens in their everyday lives. The management of urban areas involves a wide array of public administration skills and topics. Topics include: infrastructure, municipal finance, economic development, human resource management, and basic service delivery. Students will hone the skills of political analysis, project planning and strategic management. (Irreg.)

P SC 5083 Strategies in Politics and Public Policy 3 Credit Hours
(Slashlisted with P SC 4083) Prerequisite: graduate standing. Politics involves the interaction of people who seek to use mechanisms of collective choice to further their goals. This course focuses on how political institutions translate the preferences of individuals into social choices. What strategies can individuals employ to influence social choices? The class addresses these strategies through theories of individual decision making, social choice, and collective action. No student may earn credit for both 4083 and 5083. (Irreg.)

P SC 5093 Grants and Contracts 3 Credit Hours
Prerequisite: graduate standing. This course discusses how to write a strong grant or contract proposal along with strategies for successful implementation of the resulting project. The focus will be on project development and project management for public and nonprofit sectors. (Irreg.)

P SC 5103 Organizations: Design, Structure and Process 3 Credit Hours
Prerequisite: full graduate standing or permission of instructor. Analyzes large, complex organizations, particularly governmental units and other public sector agencies. Attention will be given to the principal theoretical models for their design and structure. Also seeks to understand system-subsystem relationships in the processes of decision making, communication, influence, leadership and technology. (F)

P SC 5113 Federalism and Intergovernmental Relations 3 Credit Hours
Covers the origins, development, and operational aspects of federalism in the U.S. Intergovernmental relations as the dynamics of federalism are studied as they impact on decision-making, administrative and fiscal patterns. Decentralization and reorganization are analyzed as they affect the administration of national programs. (Sp)

P SC 5123 The Making of American Foreign Policy 3 Credit Hours
A study of American policy formulation with its problems and limitations. Current American foreign policies and alternate courses of action are examined critically. (Irreg.)

P SC 5133 Strategic Planning and Performance Measurement 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Introduces students to strategic planning, performance measurement, and benchmarking in the public sector. Provides an overview of strategic management and illustrates the development, implementation and reformulation of public policy and operational strategy. Emphasis on the changes in an organization's environment. (Irreg.)

P SC 5143 Program Evaluation and Applied Policy Analysis 3 Credit Hours
Prerequisite: graduate standing. Methodology of planning and evaluating government policies and programs. Emphasizes research design, economic analysis of public policies and programs, and methods for handling threats to validity of research results. (F)

P SC 5170 Problems in Public Administration 2-3 Credit Hours
2 to 3 hours. May be repeated; maximum credit six hours. Research and investigation on selected problems of public administration. Some alternative subjects; administrative theory and organizational theory; bureaucracy; organization and management; government corporations; administrative policy making; responsibility and accountability. (Irreg.)

P SC 5173 Bureaucracy and Politics 3 Credit Hours
Prerequisite: graduate standing. Examines the concept of the political role of the bureaucracy and the impact of other government institutions on bureaucratic structure, functions and behavior. The role of the bureaucracy in public policy making and the influence of politics on policy implementation are analyzed. (Sp)

P SC 5183 Public Budgeting and Finance 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Examines the techniques and politics of raising and spending public funds. Discusses topics such as deficit politics, legislative and executive powers, and the budgetary role of the courts. Assesses the impacts of taxing and spending policies. Explores issues relevant to national, state, and local governments. (Sp)

P SC 5193 Comparative Administration 3 Credit Hours
Will compare analytically the political, legal, economic and cultural influences. Similarities and contrasts in the bureaucratic functions and structures will be examined and attention given to organization around the chief executive, both centrally and in departments and ministries. (Irreg.)

P SC 5213 Risk, Public Policy, and Law 3 Credit Hours
Prerequisite: graduate standing. This seminar will focus on how concepts of risk serve to justify and shape public policies, legal rules, and risk management practices. It will introduce some of the primary methods for analyzing potentially risky policies and managing risk. We will begin with a focus on the definition of risk as it applies to public policy, and as it has been used to analyze and inform policies and laws designed to address risks. We will then turn to the differences between formal assessments of risk and the "perceived risks" and social, political and institutional responses that typically drive public policy. These concepts will then be applied to a set of specific cases in current public policies that involve the intersection of environmental, energy, natural disaster, and security concerns. (Irreg.)

P SC 5233 Health Policy 3 Credit Hours
Prerequisite: graduate standing. This course is designed to provide students with a clear understanding of the nature and dynamics of health policy making and administration in the United States. (Irreg.)

P SC 5243 Managing Public Programs 3 Credit Hours
Introduces MPA students to the general principles of management as they are applied in the public sector. Topics include: systems theory, systems design (PERT), organization design, techniques of supervision, public sector labor relations, public sector personnel practices, agency interface with political actors in the environment. (Irreg.)

P SC 5253 Human Resource Administration 3 Credit Hours
An analysis of the structure and role of manpower in all levels of U.S. government, focusing on the development of the public service, manpower planning, unionization of public employees and recent trends in public personnel relations. (Sp)

P SC 5263 Congress in the Political System 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Empirically based course considering United States Congress and its role in American political system; examination of relationships between Congress and other institutions and actors. Possible topics include: Congress and the Presidency, interest groups, and lobbyists; Congress and Supreme Court; Congress and foreign policy; Congress and executive bureaus. (F)

P SC 5283 Problems in Law and the Constitution 3 Credit Hours
Content varies. Intensive analysis of specific problems in legal or constitutional theory. Topics could include: Slavery and the constitution, capitalism and constitutional order, constitutional crisis and failure, law and morality, jurisprudence. (Irreg.)

P SC 5293 Administration, Ethics and American Government 3 Credit Hours
Prerequisite: graduate standing. An exploration of the role of ethics in American government, especially in public administration. Topics to be studied include codes of professional ethics for administrators, ethics and constitutionalism, law and ethics, and the ethical implications of differing approaches to administrative work and to democracy. (Irreg.)

P SC 5313 Urban Politics 3 Credit Hours
Prerequisite: graduate standing. Examine differing theories as to how urban governance, administration,and politics actually operate. Included in this examination are a variety of major issues related to urban governance and administration including intergovernmental relations, urban service delivery, fragmentation of urban areas between cities and suburbs, the rise of sunbelt cities, urban sprawl, racism, poverty, crime, and national urban policy. We will also examine broader visions and proposals to revitalize and enhance urban living. Finally, we will consider the current state of urban politics and where it might go in the future. (Irreg.)

P SC 5323 Problems in Public Policy 3 Credit Hours
May be repeated with change of content; maximum credit six hours. Content varies with professor. Focus on topics related to public policy issues at all levels of government, including the design, implementation, and evaluation of specific policy initiatives. (Irreg.)

P SC 5343 Public Policy and Inequality 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Explores alternative definitions of equality and their implications in terms of public policy. Specific topics include the role of issue definition and agenda-setting in policy formation, the causes and politics of inequality, the difficulties in measuring inequality, and institutional dynamics that exacerbate or ameliorate inequality. (F)

P SC 5353 State and Local Public Finance and Budgeting Systems 3 Credit Hours
(Crosslisted with RCPL 5353) Prerequisite: graduate standing or permission. An overview of the process and methods for local capital improvement programs and capital budget preparation, and an examination of the relationships between local development policies and fiscal decision making, including revenue potential. (CE)

P SC 5363 Public Financial Management 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Introduces students to important concepts, procedures, and skills associated with managing public monies. Major topics include government accounting, debt management, forecasting, cash management, and capital budgeting. (Irreg.)

P SC 5373 Education Policy 3 Credit Hours
Prerequisite: graduate standing. This course is designed to give students an overview of the major policy issues in primary, secondary, and higher education. Special attention will be given to how these issues relate to prominent theories of the policy process. (Irreg.)

P SC 5383 Survey of Political Communication 3 Credit Hours
(Crosslisted with COMM 5383) Prerequisite: graduate standing. Embraces the premise that meaningful democracy requires an effective political communication system. Examines some of the tensions between the requirements of democracy and the forms of communication that have emerged to meet them, exploring the roles of political leaders, citizens, and the mass media in the evolution of a democratic political information system. (Irreg.)

P SC 5400 Problems in Political Behavior 2-3 Credit Hours
2 to 3 hours. Prerequisite: graduate standing, qualified senior by permission of instructor. May be repeated; maximum credit six hours. Content varies, representative topics would include interdisciplinary contributions to the study of political behavior, political socialization, decision making, voting behavior, belief systems, political violence, personality and politics and political culture. (Irreg.)

P SC 5423 Mass Politics: Public Opinion, Voting, Realignment 3 Credit Hours
A survey of the literature on public opinion, voting behavior and realignment (or electoral change). Additional topics may include political socialization, participation and elite-mass interactions. (Irreg.)

P SC 5453 The Presidency 3 Credit Hours
Will survey recent literature on the institution of the American presidency and examine behavior of recent presidents. A research paper is required. (Irreg.)

P SC 5493 Architecture of Democracy 3 Credit Hours
(Slashlisted with P SC 4493; Crosslisted with ARCH 5493) Prerequisite: Graduate standing or permission of instructor. This course explores how space, place and values come together in public spaces, by reviewing the evolution of architecture as it relates to human governance; introducing methods for assessing and designing physical space as an expression of human values; examining the social meaning and behavioral impact of spaces; and studying the expression of democratic values in public spaces. No student may earn credit for both 4493 and 5493. (Irreg.)

P SC 5513 International Relations Theory 3 Credit Hours
Overview and appraisal of the state of the field of international relations. Primary emphasis will be placed on scope and method issues and on a review of theoretical attempts to explain general and specific aspects of international relations. (Irreg.)

P SC 5523 Morality and Foreign Policy 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Addresses the moral and ethical foundations of foreign policy. Emphasis will be on American foreign policy, but may also include broader issues of foreign policy and international relations. Sample issues may include national interest versus conceptions of justice as foundations for foreign policy, idealism and realism in the American foreign policy tradition, ethical issues in international relations, globalization, genocide, just war theory, etc. Readings may be taken from political theory, American foreign policy, and international relations. (Irreg.)

P SC 5550 Problems in International Relations 2-3 Credit Hours
2 to 3 hours. May be repeated; maximum credit six hours. Analysis of current international conflicts and problems with study of possible solutions. May include study of the role and current problems of the United Nations. (Irreg.)

P SC 5563 International Political Economy 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. The organization of the international economic system and the opportunities and constraints faced by national governments in managing economic relations with other countries. Also examines the role of international agencies in managing economic crises and the globalization of the world economy. (Irreg.)

P SC 5600 Problems in Comparative Government 2-3 Credit Hours
2 to 3 hours. May be repeated; maximum credit six hours. Content varies, but involves systematic comparative treatment of such central themes as the transitional society, change and revolution, modernization, political groups, constitutionalism, and bureaucracy. (Sp)

P SC 5653 Democracies and Democratization 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Examines the historical sources of modern democracy, the causal factors underlying the genesis and survival of democracy, the dynamics of democratic breakdowns and transitions from authoritarian rule, and the problems of democratic regime consolidation and quality. (Irreg.)

P SC 5683 Politics in Latin America 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Covers recent approaches to understanding politics in Latin America, with an emphasis on questions of transitions to democracy and regime stability, the nature of democratic rule, and the role of political institutions, the economy, and the military. (F)

P SC 5803 Emergency Management 3 Credit Hours
Prerequisite: graduate standing. Large scale emergency events (including natural disaster, technological risks, and terrorist attacks) create novel challenges for our political system. This course will review the basic logic of our emergency management policy system along with the basic skills needed to succeed as an emergency manager. (Irreg.)

P SC 5903 Social Movement Theory 3 Credit Hours
(Slashlisted with P SC 4903) Prerequisite: Graduate standing. This course will focus on major political theories that assess social movements and public policymaking. It will also examine when and why social movements occur, who joins or supports social movements, how social movements are organized, what are the impacts of social movements, the role of the state and social movements, and why social movements decline. No student may earn credit for both 4903 and 5903. (Irreg.)

P SC 5910 Government Internship 2-8 Credit Hours
2 to 8 hours. Prerequisite: 15 hours of political science or 24 hours of social science. May be repeated; maximum credit eight hours. (F, Sp, Su)

P SC 5913 Introduction to Analysis of Political and Administrative Data 3 Credit Hours
Presents an introduction to the foundations and use of quantitative methods in political science/public administration. Topics covered include: conducting systematic research in political science/public administration, measurement theory, bivariate analysis, hypothesis testing and statistical inference. (F)

P SC 5923 Introduction to Analysis of Political Data 3 Credit Hours
Prerequisite: graduate standing. Introduces elements of research methods and statistical analysis for political science. Students are expected to put these elements into practice by developing and initiating a basic research project. Basic statistics will be introduced as well. Oriented toward development and utilization of quantitative procedures and interpretation of results, rather than to theoretical issues and the mathematical derivation of formulas. Students may not receive credit for both P SC 5913 and P SC 5923. (F)

P SC 5933 Intermediate Analysis of Political Data 3 Credit Hours
Prerequisite: 5913; 5000-level prerequisite. Continues the study of the foundations and use of quantitative methods in political science. Topics covered include: probability theory, distribution theory, control table analysis, analysis of variance and correlation and regression analysis. (Sp)

P SC 5940 Advanced Research Methods: Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: 5913 or permission of instructor. May be repeated with change of subject matter; maximum credit six hours. Provides introduction into advanced qualitative or quantitative analytical methods for students who will pursue a career in research. Topics will vary but may include such methodologies as ethnographic, cultural, discriminant, or factor analysis. (Irreg.)

P SC 5950 Research Problems 2-5 Credit Hours
2 to 5 hours. May be repeated with change of subject matter; maximum credit ten hours. Students must indicate field of research and hours credit at the time of enrollment. To be subdivided topically as follows: American national government, public administration, American state and local government, public law, popular government, international relations, comparative government, political theory, elections and political behavior, behavioral laboratory. (F, Sp, Su)

P SC 5953 Qualitative Research Methods 3 Credit Hours
Prerequisite: P SC 5913 or permission of instructor. This course provides graduate-level training in qualitative research methods as preparation for dissertation research. The course begins by orienting students towards research traditions and epistemological issues. It then considers a range of options for designing research and achieving causal inference. The last third of the course covers concrete tools that researchers may deploy while conducting fieldwork. (Irreg.)

P SC 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. (F, Sp, Su)

P SC 5963 Capstone in Public Administration 3 Credit Hours
Prerequisite: graduate standing. The primary role of government is to address the collective problems, needs, and challenges faced by its citizenry. Government addresses these issues through the development, enactment, and implementation of public policy. This class takes an analytical approach, broadly defined, to studying collective problems and government responses to these problems. The end product of this study will be a research paper. (Sp)

P SC 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

P SC 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

P SC 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

P SC 6003 Political Science: Survey of a Discipline 3 Credit Hours
Prerequisite: admission to doctoral program in political science. Traces the development of the discipline of political science as well as the epistemological and theoretical foundations of the field. Emphasis is given to the role of research design for political analysis. Attention also is devoted to the professional norms and expectations of an academic career in political science. (Every third semester)

P SC 6023 Field Seminar in American Politics 3 Credit Hours
Prerequisite: graduate standing. Seminar designed to introduce as much of the field of American politics as possible. Includes epistemology and paradigms, institutionalism, the various political institutions that structure our politics, and the role of the individual in American politics. (Irreg.)

P SC 6103 Field Seminar in Public Administration 3 Credit Hours
Prerequisite: graduate standing. Review of the field of public administration. Investigates epistemology and paradigms of the field and considers the role of bureaucratic organizations in the American system of governance. (Irreg.)

P SC 6113 Foundations in Public Administration 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Broad overview of the public administration literature. Historical underpinnings of the subfield and its evolution. Focuses on the frameworks and theories scholars have developed to understand public administration generally. Both theoretical and empirical research are reviewed to examine the "big picture." (Irreg.)

P SC 6133 Foundations in Public Policy 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Gives students a broad overview of the public policy literature. We examine the historical underpinnings of the subfield and familiarize ourselves with its evolution. The course is not substantive in the sense of studying particular policy areas (e.g., environmental, education), but rather focuses on the frameworks and theories scholars have developed to understand the policy process generally. Both theoretical and empirical research are reviewed in an effort to examine the "big picture." (Irreg.)

P SC 6143 Seminar in Public Organization Behavior 3 Credit Hours
Covers the literature of organization theory which led to the organization behavior movement. Deals with the models or organization behavior in a cultural as well as organizational/governmental framework. (Irreg.)

P SC 6173 Seminar--Public Administration 3 Credit Hours
Directed research in selected areas of public administration. Commentary and discussion by instructor over general area or areas selected for research. Paper prepared by students and based upon individual research presented to the seminar for analysis and discussion. Example of topic: Decision making in governmental bureaucracy. (Irreg.)

P SC 6223 Field Seminar in Public Policy 3 Credit Hours
Prerequisite: permission of the instructor. A capstone seminar for doctoral students who have substantially completed public policy coursework in preparation of information on completing theories, frameworks, approaches, analytical tools, and guiding principles central to the study of the formulation, implementation, and evaluation of public policy. Attention also will be given to crosscutting topics such as values in the policy process, the role(s) of the policy analyst; ethics; and the utilization and misutilization of the results of social science research. (Irreg.)

P SC 6603 Field Seminar in Comparative Politics 3 Credit Hours
Prerequisite: graduate standing. This course is an exploration of the central theoretical concepts and problems of comparative politics. (Irreg.)

P SC 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

P SC 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

P SC 6980 Research for Doctoral Dissertation 2-16 Credit Hours
(F, Sp, Su)

P SC 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Barry	Colin		2013	ASSISTANT PROFESSOR OF POLITICAL SCIENCE, 2013	PhD, Binghamton Univ, 2013; MA, Binghamton Univ, 2011; BA, Univ of Southern Maine, 2008
Bracic	Ana		2014	ASSISTANT PROFESSOR OF POLITICAL SCIENCE, 2014	PhD, New York Univ, 2013; MA, New York Univ, 2007; BA, Harvard Univ, 2005
Carlson	Deven	E	2012	ASSOCIATE DIRECTOR, NATIONAL INSTITUTE FOR RISK AND RESILIENCE, 2016; VICE PRESIDENT FOR RESEARCH PRESIDENTIAL RESEARCH PROFESSOR, 2016; ASSOCIATE PROFESSOR OF POLITICAL SCIENCE, 2017	PhD, Univ of Wisconsin, 2012; MA, Univ of Wisconsin, 2008; M.P.A, Univ of Wisconsin, 2007; BA, St. John's Univ, 2003

Crespin	Michael	H	2014	PROFESSOR OF CARL ALBERT CONGRESSIONAL RESEARCH AND STUDIES CENTER, 2017	PhD, Michigan State Univ, 2005; MA, Michigan State Univ, 2002; MA, Univ of Georgia, 2001; BA, Univ of Rochester, 1998
Finocchiaro	Charles		2017	ASSOCIATE PROFESSOR OF CARL ALBERT CONGRESSIONAL RESEARCH AND STUDIES CENTER, 2017; ASSOCIATE PROFESSOR OF POLITICAL SCIENCE, 2017	PhD, Michigan State Univ, 2003; MA, Michigan State Univ, 1999; BA, Grove City College, 1997
Franklin	Aimee	L	1995	SAM K. VIERSEN FAMILY FOUNDATION PRESIDENTIAL PROFESSOR, 2008; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2009; CHAIR, INSTITUTIONAL REVIEW BOARD, 2011; PROFESSOR OF POLITICAL SCIENCE, 2016	PhD, SUNY at Albany, 1996; MPA, Arizona State Univ, 1991; BS, Moorhead State Univ, 1983
Fryar	Alisa	H	2006	ASSOCIATE PROFESSOR OF POLITICAL SCIENCE, 2012; DIRECTOR, MASTERS OF PUBLIC ADMINISTRATION PROGRAM, 2014; DIRECTOR, NON-PROFIT ORGANIZATION STUDIES PROGRAM, 2015	PhD, Texas A&M Univ, 2006; BS, Lamar Univ, 2002
Gaddie	Ronald	K	1996	PROFESSOR OF POLITICAL SCIENCE, 2003; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2015; EXECUTIVE FACULTY FELLOW, HEADINGTON RESIDENTIAL COLLEGE, 2017; SENIOR FELLOW, HEADINGTON RESIDENTIAL COLLEGE, 2017	PhD, Univ of Georgia, 1993; MA, Univ of Georgia, 1989; BS, Florida State Univ, 1987
Ghosh Moulick	Abhisekh		2016	ASSISTANT PROFESSOR OF POLITICAL SCIENCE, 2016	PhD, Texas A&M Univ, 2015; BSc, Univ of London, 2004
Givel	Michael	S	2002	PROFESSOR OF POLITICAL SCIENCE, 2013; ADJUNCT PROFESSOR OF INTERNATIONAL AND AREA STUDIES, 2018	PhD, Univ of California Riverside, 1988; MA, Univ of California Riverside, 1985; MA, Univ of Florida, 1980; BA, Univ of Florida, 1976
Hertzke	Allen	D	1986	SAMUEL ROBERTS NOBLE PRESIDENTIAL PROFESSOR, 1996; FACULTY FELLOW, RELIGIOUS FREEDOM, INSTITUTE FOR THE AMERICAN CONSTITUTIONAL HERITAGE, 2011; DAVID ROSS BOYD PROFESSOR OF POLITICAL SCIENCE, 2013	PhD, Univ of Wisconsin, 1986; MS, Cornell Univ, 1977; BA, Colorado State Univ, 1972
Israel-Trummel	Mackenzie		2015	ASSISTANT PROFESSOR OF POLITICAL SCIENCE, 2015	PhD, Stanford Univ, 2015; BA, Occidental College, 2009

Political Science, B.A.

Minimum Total Credit Hours: 120
Major Hours: 36
Minimum Upper-Division Hours: 48
Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B790 P617

Major Requirements

- **The Department of Political Science does *not* permit major coursework to also fulfill General Education or College of Arts and Sciences requirements.**
- **P SC 1113 does not count for major credit.**

Code	Title	Credit Hours
Research Methods		
P SC 2013	Introduction to Political Analysis	3
Distribution Requirements		
Choose four courses, one course each from 4 of the following 6 groups: (p. 573) [1]		12
Group I: American Politics		
Group II: Comparative Politics		
Group III: International Relations		
Group IV: Public Administration		
Group V: Public Policy		
Group VI: Political Theory		
Electives		
Choose 18 hours of P SC electives, which must include at least 12 hours of upper-division courses		18
Capstone		
P SC 4093	Capstone Seminar in Political Science [2]	3
Total Credit Hours		36

[1] A list of the courses approved for each group may be obtained in the Political Science Department or on the departmental website.
[2] This course should be taken during the senior year. (The capstone course must be completed with a grade of C or better.)

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		

Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Political Science major requirements.

[1]Maximum of six hours credit may apply. Each course may be taken only once. **Course content must be PAA related**.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4

Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Public Affairs and Administration major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3

P SC 4203	Capstone Seminar in Public Affairs and Administration	3
Free Elective, lower- or upper-division		3
Free Elective, lower- or upper-division		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	15
	Total Credit Hours	120

[1]The American Political Institutions Major Elective must be chosen from: P SC 3113, P SC 3143, P SC 3163, P SC 4273, or P SC 4283.

Elections & Campaign Management, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N339

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Political Science.

Required Courses

Students must successfully complete at least 15 hours of coursework, including at least nine (9) hours at the upper-division level.

This program requires a minimum 2.00 GPA (both OU and Combined) in the minor coursework.

Code	Title	Credit Hours
P SC 3433	Voters and Campaigns	3
P SC 3483	Campaign Management	3
Choose one of the following:		3
P SC 3093	Minority Political Behavior	
P SC 3413	American Political Parties	
P SC 3423	Public Opinion	
P SC 3443	Mass Media and American Politics	
P SC 3473	Political Psychology	
P SC 3763	Field Research Methods and Community Engagement: The Oklahoma City Exit Poll	
Choose two of the following:		6
Any of the courses listed above that are not taken to satisfy requirements		
P SC 3910	Government Internship	
P SC/COMM 4323	Political Communication	
COMM 3003	Political Campaign Processes	
COMM 4253	Strategic Communication Campaigns	
COMM 4423	Communication and Public Opinion	
COMM 4643	Mass Media Effects	
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Intelligence & National Security, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N577

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Political Science.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level.

Students must maintain a GPA ≥ 3.2 for Intelligence and National Security courses to satisfy the requirements for completing the minor.

Code	Title	Credit Hours
Required Courses		
P SC 4873	Tools of Statecraft	3
P SC 4883	Intelligence Analytics I	3
P SC 4893	Intelligence Analytics II	3
Tracks		
Choose 9 hours from one of the following tracks:		9
Technical Track (p. 580)		
Substantive Knowledge Track (p. 580)		
Total Credit Hours		18

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Other courses as approved by the Chair of the Dept. of Political Science		
Total Credit Hours		18

[1]At least six (6) credit hours at the upper-division level. Note: Students must meet prerequisite requirements for enrollment in upper-division classes.

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Political Science, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N790

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Political Science.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Political Science, including at least nine (9) hours at the upper-division level. Note that the introductory survey course (P SC 1113) does not count toward this total.

Code	Title	Credit Hours
Choose at least 15 hours of course credit acceptable for major credit in Political Science (at least 9 of these hours must be upper division)		15
Total Credit Hours		15

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Public Affairs & Administration, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N805

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

Students must successfully complete at least 15 hours of courses acceptable for major credit in Public Affairs and Administration, including at least nine (9) hours at the upper-division level. Note that introductory courses are not counted toward this total. Up to three (3) hours of other Political Science courses may be substituted with the permission of the Department of Political Science.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Political Science.

Required Courses

Each of the courses to be offered to students minoring in Public Affairs and Administration is part of the curriculum of the bachelor's degree in Public Affairs and Administration. As courses are added to the bachelor's curriculum, they will also be available to students taking the minor. Only three (3) courses from outside of the department are included. One of these courses is NPNG 2033; the other two (2) courses are offered by Economics. They have been included in the curriculum of the minor in Public Affairs and Administration because they emphasize public sector activities which are not covered in any political science courses.

Code	Title	Credit Hours
Choose 15 hours acceptable for major credit in Public Affairs and Administration, including at least nine (9) hours at the upper-division level, from the following:		15
NPNG 2033	Fundamentals of Nonprofit Management I	
ECON 3713	Governmental Relations to Business	
ECON 4353	Public Finance: Issues and Taxation	
P SC 3043	Gender, Power and Leadership in Politics and Public Administration	
P SC 3113	Bureaucracy and Citizenship	
P SC 3123	Social Statistics	
or SOC 3123	Social Statistics

[3] Secondary Emphasis Areas: American Government and Politics, Political Theory, Comparative Government and Politics, International Relations, Political Methodology, Public Administration, Public Policy.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		

The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Political Science major requirements.

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Political Science major requirements.

[2]Secondary Emphasis Areas: American Government and Politics, Political Theory, Comparative Government and Politics, International Relations, Public Administration, Political Methodology, Public Policy.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Public Administration, M.P.A.

Non-Profit Management, Graduate Certificate

Minimum Total Hours: 15

Program Code: G091

This program is currently offered only through OU's Tulsa campus.

The Graduate Certificate in Nonprofit Management requires 15 hours and focuses on skill development. The curriculum in this embedded certificate meets many of the core and area requirements of the MPA.

Certificate Requirements

Code	Title	Credit Hours
P SC 5033	Foundations of Nonprofit Management	3
P SC 5143	Program Evaluation and Applied Policy Analysis	3
NPNG 5033	Nonprofits: The Sector and The System	3

NPNG 5701	Nonprofit Fundraising and Grantmaking	1
NPNG 5711	Nonprofit Financial Management	1
NPNG 5721	Nonprofit Human Resources	1
Total Credit Hours		15

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Political Science, Ph.D.

Minimum Total Hours: 90

Program Code: D790

Program Requirements

- The Ph.D. program requires a minimum of 90 post-baccalaureate hours. A master's degree is not required.
- At least 2 semesters in residence as a full-time student are required.

Code	Title	Credit Hours
Required Courses		
P SC 5923	Introduction to Analysis of Political Data	3
P SC 5933	Intermediate Analysis of Political Data	3
P SC 5950	Research Problems	3
P SC 6003	Political Science: Survey of a Discipline	3
Fields		
9 hours of coursework concentration are required in each of 3 of the following fields: [1]		27
American Government & Politics		
Comparative Government & Politics		
International Relations		
Political Methodology		
Political Theory		
Public Administration		
Public Policy		
Dissertation in an Examined Field		
P SC 6980	Research for Doctoral Dissertation	2-44
Additional Hours		

Additional field coursework, electives or master's credit as needed to meet the degree total, as approved by the committee chair and graduate liaison.	7-49
Total Credit Hours	90

[1] Students must complete a General Examination (written and oral) in two of the three fields.
Up to 12 hours may be taken from outside the Political Science department, with not more than 6 hours from any one outside department and not more than 6 hours applied to any one Field of Study.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

Department of Psychology

Eric Day, Chair
705 Dale Hall Tower
455 W. Lindsey St.
Norman, OK 73019-2007
Phone: (405) 325-4511
FAX: (405) 325-4737
vwillis@ou.edu
www.ou.edu/cas/psychology

General Information

The Department of Psychology was founded in 1928. The primary emphasis of the department is on psychology as an experimental and applied science. At the present time, the department is focused on the areas of cognitive psychology, social psychology, quantitative psychology, industrial/organizational psychology, developmental psychology, neuroscience, personality/individual differences.

At the undergraduate level, our department offers students an exceptional education that is flexible enough to support a wide range of career paths. Our undergraduate degree programs provide students with the opportunity to develop the type of broad and rich introduction to scientific psychology that will support a wide variety of post-graduate interests, whether they are to further graduate training in such areas as clinical or experimental psychology, pursue graduate training in other professional areas, such as medicine, law, or business, or to immediately seek meaningful employment in the contemporary workplace.

The programs of graduate training in the department are designed to produce experimental psychologists who are capable of assuming positions in academia, as well as industry and government. In a rigorous but cooperative and congenial atmosphere, high-quality research psychologists are trained to contribute to the body of knowledge of scientific psychology, as well as to disseminate and apply psychological knowledge.

The department provides research training by means of a curriculum that requires students to be involved in research beginning with their first enrollment and continuing every semester thereafter.

Programs & Facilities

Laboratory and Teaching Facilities

The laboratory and teaching facilities of the Department of Psychology include the Brain and Cognitive Development lab, Snyder Lab, Center for the Study of Human Operator Performance (C-SHOP), Mumford Lab, Day Lab, and Connelly Lab. SONA is a website that the Department uses to manage all experiments.See Undergraduate Research Opportunities for more details.

SCHOLARSHIPS AND FINANCIAL AID

At the undergraduate level, the department offers The Outstanding Psychology Students (TOPS) scholarships to outstanding psychology students with at least junior standing and a superior record in coursework.

At the graduate level, the department has been able to provide financial support to most of those students wishing to be supported. Summer support is available on a competitive basis. The Charles Gettys Award and a Graduate Student Teaching Award are presented annually for outstanding research and teaching by a graduate student in the department.

Student Organizations

The University of Oklahoma Psychology Club's purpose is to encourage, stimulate, and maintain excellence in psychology and to facilitate and further knowledge in psychology among students.

Psi Chi is the National Honor Society in Psychology, founded in 1929 for the purposes of encouraging, stimulating, and maintaining excellence in scholarship, and advancing the science of psychology. Membership is open to graduate and undergraduate men and women who are making the study of psychology one of their major interests.

Undergraduate Study

Students considering a major in psychology should contact an academic advisor in the Department of Psychology.

Bachelor of Arts

The Bachelor of Arts (p. 606) in Psychology provides the student with experience and training necessary to pursue post-baccalaureate education in psychology and other professional areas or to secure employment immediately following completion of the undergraduate

degree, and with the broad education essential to the formation of a well-rounded, informed individual.

Bachelor of Science

The Bachelor of Science (p. 609) in Psychology is designed to provide additional training and experience in research to those students who want greater mastery in basic sciences and methodology. The B.S. degree program is most appropriate for those students who want to significantly enhance their competitive standing for admission to doctoral training in psychology - although it should be noted that the majority of our B.A. degree students have been highly successful in achieving graduate school acceptance as well.

Minors

- Pre-Health Social Sciences Minor (p. 612)
- Psychology Minor (p. 612)

Careers in Psychology

For an excellent introduction to careers in psychology, with a description of many subfields and job domains, please see the brochure (PDF) published by the American Psychological Association (APA).

Psychologists assume many different roles. For example, they work as teachers, researchers, service providers, administrators, and consultants. Because psychologists perform such diverse tasks, they work in many different settings: colleges and universities, elementary and secondary schools, private practices, hospitals, human service agencies, business and industry, and government.

The following are just some of the fields that graduates with bachelor's degrees in psychology have entered: administration and management, business and industry, casework, child care, employment interviewing, health services, marketing and public relations, personnel, probation and parole, psychiatric assisting, research or laboratory assisting, sales, teaching, and technical writing. Students pursuing the bachelor's degree as a terminal degree are encouraged to seek academic counseling on an intensive level with a faculty advisor, and to consult closely with the University's job placement service.

Graduate Study

Areas of Specialization

Areas of specialization in graduate training include cognitive psychology, social psychology, industrial-organizational, quantitative psychology, and developmental psychology, cognitive neuroscience, and personality psychology.

The programs of graduate training in the department are designed to produce experimental psychologists who are capable of assuming positions in academia, as well as industry and government. In a rigorous but cooperative and congenial atmosphere, high-quality research psychologists are trained to contribute to the body of knowledge of scientific psychology, as well as to disseminate and apply psychological knowledge.

Graduate Certificates

- Human Resource Management (p. 617)
- Project Management (p. 617)

Degree Programs

Master of Arts

The Department of Psychology offers an innovative Master of Arts in Organizational Dynamics program at the Schusterman Center at OU-Tulsa. The program emphasizes research combined with practical application. After completing core courses, students specialize in one of three general tracks: Organizational Dynamics (p. 613), Human Resource Management (p. 613) or Project Management. (p. 615) Students interested in this program should consult with faculty members at OU-Tulsa.

Master of Science

The Master of Science (p. 616) in Psychology degree is conferred as a mark of progress toward the Ph.D. or as a terminal degree.

The Master of Science in Industrial Organizational Psychology (p. 616) provides students with the knowledge and research skills needed to study human motivation, performance, and well-being in the workplace. Students are also provided with opportunities to work on real-world projects, in both academic and industrial settings, that examine the application of psychological principles and findings to workforce management. The primary objective of the I/O Psychology program is to train individuals seeking the Ph.D. degree to conduct research and to practice in the areas of industrial psychology and organizational behavior.

Doctor of Philosophy

To complete the Ph.D. program in either standard Psychology (p. 618) or Industrial and Organizational Psychology (p. 619), a student must complete 90 hours of coursework beyond the bachelor's degree. The individual student, in consultation with a faculty advisory committee, will design a unique course of study that reflects the student's interests and career goals. Successful completion of all coursework, the Ph.D. general exams, and the dissertation is required for the Ph.D.

Students interested in our Quantitative program also take two courses from the mathematics department: Calculus-based mathematical statistics and linear algebra. The pre-requisite calculus courses for these may be taken at OU if the student does not have them at the time of admission.

General Requirements for MS and Ph.D.

A continuing involvement in directed or independent research is expected to be a part of the student's program of doctoral study. The department has no foreign language requirements, but a student's Advisory Committee may recommend the development of competence in other areas of study (e.g., computer science, industrial engineering, mathematics, philosophy of science, history of science, physiology) of potential benefit to the student's particular professional development and interests.

As a vital part of the graduate training program in psychology, all graduate students are required to be engaged in a training assignment each term. These assignments vary according to the needs and professional aspirations of the student. They are designed to supplement the more formal coursework by a variety of pre-professional activities such as assisting in research, teaching, etc., under faculty supervision. The training assignment increases in responsibility as the student progresses. The amount of time required of the student varies from 10–20 hours per week, depending upon level of progress, the type of assignment, etc. The purpose of these assignments is to train the

student in some of the types of activities that the student will ultimately be engaged in after the degree is received.

A student's progress toward the Ph.D. degree is evaluated annually. Additionally, first-year students are evaluated after the first semester. The purpose of these evaluations is to provide feedback to the student and to assess the student's proficiency based on academic coursework, progress in research, and potential for significant contributions to the profession.

Courses

ODYN 5113 The Psychology of Leadership 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Focuses on the theories, principles, and practice of leadership in organizational settings; particular focus on technologically based organizations, leading change in organizations, and leading teams. (Irreg.)

ODYN 5123 Survey of Organizational Dynamics 3 Credit Hours
Prerequisite: admission to the Organizational Dynamics program or instructor's consent. Overview of theories and practices used in human resource management; project management; and knowledge management. Emphasis is on research methodologies and key theories relevant to each of the three substantive area, as well as application of general principles of each of the three areas in the workforce, considering individual, group and organizational levels. (Irreg.)

ODYN 5133 Teams and Motivation 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Team formation, socialization and identity, team problem solving, individual and collective motivation, conflict and power, learning and team development, and group liabilities. (Irreg.)

ODYN 5153 Design, Evaluation, and Statistics 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Covers applied research designs such as quasi-experimental and correlation designs; covers basic statistics, hypothesis testing, correlation/multiple regression, and quality control models. Focus will be on application of statistics in organizational problem solving. (Irreg.)

ODYN 5163 Applied Measurement and Analysis 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Focuses on teaching principles and practices of individual and organizational assessment, covering concepts such as validity, reliability, survey and instrument development, and characteristics of organizational data. Techniques for analyzing organizational data and conducting program evaluation will also be discussed. (Irreg.)

ODYN 5183 Capstone Project 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. This capstone project will involve "real-world" application of the material covered in the program. (Irreg.)

ODYN 5223 Performance Management 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Covers basic approaches to motivating and developing individuals to perform well within organizational settings; includes discussion of alternative methods for measuring and assessing individual, team, and organizational performance. (Irreg.)

ODYN 5233 Training and Career Development 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Overview of principles, theories, and practices of learning and development in organizations. Application of various training techniques and designs will be covered as well as roles of different organizational constituencies in employee training and development. (Irreg.)

ODYN 5243 Staffing, Selection, and Compensation 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Focuses on recent, state-of-the-art processes and technologies for organizational staffing, personnel selection, and employee benefits and pay. Relevant theories in these areas will be reviewed. (Irreg.)

ODYN 5253 Organizational Behavior, Change, and Development 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Explores theories and practices related to the planned process of changing an organization or group's culture to increase organizational productivity and effectiveness. Topics such as organizational assessment and diagnosis, continuous learning, problem solving sessions, reward systems, visioning, and empowerment will be covered. (Irreg.)

ODYN 5263 Human Resource Management Systems and Techniques 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Survey of theory and practice in primary areas of human resource management such as workforce planning, recruiting, selection and staffing, performance management, compensation, and training and development. Focuses on a systems approach to human resource management, including how aspects of HRM are interrelated, as well as strategies and technologies being used to perform various HRM functions. (Irreg.)

ODYN 5283 Employee Health, Safety and Wellness 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Focuses on health, safety and wellness issues relevant to the workplace. Individual, social, situational and environmental factors that affect workplace health, safety and wellness will be covered, including topics such as: stress and burnout; work-life conflict; workplace safety and injury prevention; legal and regulatory compliance; and workplace conflict, aggression, and violence. (Irreg.)

ODYN 5293 Work and Life Integration 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course is designed to teach students about the interactive relationship between the family system and the work system. With the changing demographics of the workforce comes a stronger need to assess the relationship between these two major areas of life on one another. Such topics as work/family conflict, childcare issues, role conflict, marital satisfaction, and work satisfaction are covered. (Irreg.)

ODYN 5313 Planning Processes and Strategy Development 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Overview of principles and practices of planning and strategy development. Planning processes will be examined at micro as well as macro organizational levels; organizational strategies such as succession planning and workforce planning will be discussed. (Irreg.)

ODYN 5323 The Psychology and Practice of Project Management 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Focuses on strategies and steps involved in developing project proposals and work plans. Includes topics such as needs assessment, budgeting, resource utilization, managing diverse project teams, troubleshooting, and others. (Irreg.)

ODYN 5333 Customer Service and Market Analysis 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Principles, theories and applications of market analysis and customer service will be reviewed; techniques for gathering, assessing, and analyzing market and customer data will be covered; and techniques for improving customer service will be discussed. (Irreg.)

ODYN 5343 Organizational Communication 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Overview of theories and systems of communication in organizational settings. Various forms and effectiveness of communication as well as purposes and strategies at different organizational levels will be covered. (Irreg.)

ODYN 5353 Global Business Practices and Ethics 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Covers the relationship between organizations and global markets. Explores how organizational systems work together to meet global demands, system breakdowns, and assessment of organizational performance. (Irreg.)

ODYN 5383 Emerging Topics in Project Management 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. In-depth examination of existing and emerging issues and problems facing project management professionals who work as internal or external consultants. May include issues such as risk management, project selection, conflict resolution, and strategic management decision processes. (Irreg.)

ODYN 5393 Creativity and Innovation in Organizations 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course focuses on theories of creativity and its assessment at the individual, group/team, and organizational level. Assumptions and predictions of the theories will be presented and discussed. A special focus will be on the stages of creative processes and their facilitation. (Irreg.)

ODYN 5413 Positive People Practices 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Positive people practices are those practices undertaken by organizations that seek to treat five stakeholder groups (society, partners, investors, customers, and employees) as equally important to achieving the organization's vision and mission. This class will discuss a variety of positive people practices and examine diverse organizations that implement such policies effectively. (Irreg.)

ODYN 5513 Knowledge Management in Project-Driven Organizations 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This class will focus on the 3rd generation of knowledge management and do so with a project-centric strategy. It is a project-centric environment that makes knowledge management most feasible for active, growing organizations. Students will learn methods and tools they can use to bring a sense of order to organizational knowledge. (Irreg.)

ODYN 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

ODYN 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ODYN 5973 Proposing and Presenting Research 3 Credit Hours
Prerequisite: admission to Organizational Dynamics master's program. Students in the course will learn to (a) read, synthesize and summarize existing research in organizational dynamics; (b) develop a research proposal that is founded in real world problems, that is based on sound research principles, and that meets accepted standards for professional and scholarly publication. The proposal, on approval of the faculty, may serve as the prospectus for either the professional project or the master's thesis. (F, Sp)

ODYN 5980 Research for Master's Thesis 2-4 Credit Hours
Prerequisite: permission of instructor. Supervised research in area agreed upon by the student and the instructor. (F, Sp, Su)

ODYN 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

PSY 1113 Elements of Psychology 3 Credit Hours
A survey of the scientific study of human behavior. Emphasis is placed upon scientific method, basic life processes, mechanisms of adaption, individual differences and group behavior. Students have the opportunity to be exposed to the research process either by serving as participants in research experiments or by conducting reviews of research topics. (F, Sp, Su) [III-SS].

PSY 2001 Career Exploration for Psychology 1 Credit Hour
Prerequisite: PSY 1113 or concurrent enrollment. This course will explore the range of career options in psychology and other fields available to those with bachelor's and graduate psychology degrees, and provide academic planning assistance. Sub-disciplines within the field of psychology will be examined as well as graduate school application processes. (F, Sp, Su)

PSY 2003 Understanding Statistics 3 Credit Hours
Prerequisite: Math 0123 or satisfactory score on math placement test. An introductory applied statistics course which will focus on descriptive and inferential statistical methods. Emphasis will be placed on in-class activities and homework which help the student learn by experience. Topics include measures of central tendency and variability, z-scores, normal distribution, correlation, regression, sampling distributions, hypotheses testing, t-tests and chi-square tests. Laboratory (F, Sp, Su) [I-M].

PSY 2403 Introduction to Personality 3 Credit Hours
Prerequisite: PSY 1113 or permission of instructor. Introduces the classic theoretical perspectives in personality psychology and establishes a solid foundation for understanding personality dynamics. The emphasis is on personality theories representing (but not limited to) the psychodynamic, trait, cognitive, behavioral, and humanistic perspectives. (F, Sp, Su)

PSY 2503 Computing for Behavioral Sciences 3 Credit Hours
Students will learn to identify the parts and functions of personal computers. Building on that basic knowledge, such topics as developing and publishing a web page, collecting data from participants through the web, and using the advanced features of Excel for statistical analysis will be covered. Programming languages will include HTML and JavaScript. (F, Sp, Su)

PSY 2603 Lifespan Development 3 Credit Hours
Prerequisite: PSY 1113. Survey of the psychological changes across the life span; the changes in cognitive, social, emotional, and physiological development from conception to death will be included. (F, Sp, Su)

PSY 2970 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

PSY 3003 Advanced Undergraduate Statistics 3 Credit Hours
Prerequisite: PSY 2003 or PSY 2113. Review of previous material, SAS, multiple comparisons, two-way ANOVA, power calculations, repeated measures designs, multiple linear regression, general linear model, nonparametric methods. Designed to help students prepare for graduate statistics courses. (Irreg.)

PSY 3083 Animal Behavior 3 Credit Hours
(Crosslisted with ZOO 3083) Prerequisite: Zoology 2013 or permission of instructor. Animal behavior from an evolutionary perspective. The effects of natural selections on mechanisms underlying behavior and on diversity of behavior among and within species. (F, Sp)

PSY 3114 Research Methods: Applications and Experimental Design 4 Credit Hours
Prerequisite: PSY 1113; PSY 2003 or PSY 2113. Examines how new discoveries are made in psychology through the scientific method. Primary goal is to prepare students to conduct an independent research project to address a theoretical question, analyze and interpret the data, and present the data to others in both written and oral form. Laboratory. (F, Sp, Su)

PSY 3203 Cognitive Psychology 3 Credit Hours
Prerequisite: PSY 1113. Surveys how people extract relevant information from their environment and store, retrieve and utilize such information at a later time. Topics will include memory storage and retrieval, attention, imagery, mnemonic devices and other cognitive processes. (F, Sp, Su)

PSY 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

PSY 3613 Developmental Psychology: Infancy through Adolescence 3 Credit Hours
Prerequisite: PSY 1113; PSY 2003 or PSY 2113, or permission of instructor. Introduces themes, theories, and scientific research on cognitive, social, and emotional development from infancy through adolescence. Explores fundamental psychological questions of how we become who we are, what factors cause children's development of behavior and mind, and what leads to the diversity of developmental outcomes. No student may earn credit for both PSY 2603 and PSY 3613. (Irreg.)

PSY 3703 Social Psychology 3 Credit Hours
Prerequisite: PSY 1113; PSY 2003 or PSY 2113. The science of how people think and feel about, relate to, and influence one another. Topics include classic and contemporary research on stereotypes, persuasion, attitude change, emotions, the self-concept, aggression, impression formation, and altruism, among others. (F, Sp, Su)

PSY 3753 Introduction to Industrial Organizational Psychology 3 Credit Hours
Prerequisite: PSY 1113 and PSY 2003 or PSY 2113 or permission of instructor. Industrial Organizational psychology covers psychological theories and their practical applications to the workplace. The course covers issues of critical relevance to the well-being of individuals and organizational performance. Topics include, but are not limited to, motivation, selection, training, assessment, performance management, satisfaction, teams, and leadership. (F, Sp, Su)

PSY 3803 Physiological Psychology 3 Credit Hours
Prerequisite: PSY 1113 or equivalent and BIOL 1114 or equivalent. Provides an introduction to physiological and neurological foundations of behavior. Some emphasis will be placed on contemporary issues and theoretical models. (F, Sp)

PSY 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program, PSY 2003 or PSY 2113, and permission of department. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

PSY 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program; PSY 2003 or PSY 2113. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)

PSY 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program, PSY 2003 or PSY 2113, and permission of department. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

PSY 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied, PSY 2003 or PSY 2113, and permission of department. May be repeated; maximum credit, six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PSY 4023 Psychological Test and Measurements 3 Credit Hours
Prerequisite: PSY 1113, and PSY 2003 or PSY 2113; and junior standing. An introduction to the measurement of human behavior. Special emphasis is given to tests of intelligence, achievement, personality, and interest. (Irreg.)

PSY 4113 Capstone Survey of Major Fields in Psychology 3 Credit Hours
Prerequisite: PSY 3114 or permission of instructor, senior standing. Lecture-based course focusing on major areas of psychology. Attempts to instill in the student an understanding of the integration and diversity of the field of psychology. Content and title vary with instructor. (F, Sp) [V].

PSY 4143 Capstone Service Learning 3 Credit Hours
Prerequisite: PSY 2403, PSY 3114, PSY 4453, senior standing and permission of instructor. Students apply learning from other courses to a project of significant community need. Classes are held both on campus and on-site. Students will develop a written description of the experience and the psychological principles applied. (F, Sp) [V].

PSY 4243 Decision Making and Problem Solving 3 Credit Hours
Prerequisite: PSY 2003 or PSY 2113, and PSY 3203. Review of issues in inductive thinking, deductive reasoning, inference generation, problem solving, insight, expertise, algorithms, and heuristics. The emphasis will be on current research investigations. (Irreg.)

PSY G4253 Selected Topics in Cognitive Science 3 Credit Hours
Prerequisite: PSY 1113 and PSY 3114 and PSY 3203, and PSY 2003 or PSY 2113; or permission of instructor. May be repeated with change of content; maximum credit 6 hours. Seminar focusing on specific issues in cognitive science. Topics include memory representation and retrieval, symbol and referent processing, knowledge structure, expert and novice differences, imagery, and others. (Irreg.)

PSY 4263 Psychology and Law 3 Credit Hours
Prerequisite: 3114. Examines some of the most important points of contact between the fields of psychology and the law, including eyewitness identification, the prison system, juries, and confessions and interrogations. (Irreg.)

PSY G4313 Motivation 3 Credit Hours
Prerequisite: PSY 2003 or PSY 2113. Primary motivational states and learned motivational states (e.g., fear, frustration, anxiety, etc.) will be considered as well as emotion and curiosity. Topics of current interest in both human and animal motivation will also be covered. (Irreg.)

PSY 4343 Health Psychology 3 Credit Hours
Prerequisite: PSY 1113 or an introductory Biology course. Health psychology examines the bi-directional relationship between psychology and health. Topics include, but are not limited to, physiological and psychological factors that influence perceptions of stress, the links between stress and illness, the psychosocial influences on health enhancing and health compromising behaviors, adjustment to illness and coping, pain, sociocultural factors and health, and personality and health. (F, Sp, Su)

PSY G4403 Advanced Personality 3 Credit Hours
Prerequisite: PSY 1113, PSY 2403, and junior standing or permission of instructor. Advanced personality course focusing on modern and current theoretical and empirical research. Introduces the research methods personality psychologists use to make substantive contributions to the scientific understanding of human thoughts, feelings, and behaviors. Topics include (but are not limited to) field dependence, autonomy, sex/gender, subjective well-being, dominance, leadership, sensation-seeking, risk-taking, pain tolerance, sensation reducing/augmenting, and locus of control. (Irreg.)

PSY 4433 Clinical Psychology 3 Credit Hours
Prerequisite: PSY 1113, PSY 2003 or 2113, and PSY 4453. A survey of the field of Clinical Psychology. Topics include but are not limited to the following: Current Issues in the field, such as training and ethics; Psychological assessment; and Psychotherapy. Evidence-Based Practice in Psychology (EBPP) is emphasized. (F, Sp)

PSY G4453 Abnormal Psychology 3 Credit Hours
Prerequisite: PSY 1113 and PSY 2403, and PSY 2003 or PSY 2113; or permission of instructor. An examination of the major clinical and research findings in the field of abnormal psychology. Topics include studies of conflict, anxiety, neurosis, character disorders, schizophrenia, and psychotherapy. (F, Sp)

PSY 4510 Applications of Psychology Practicum 1-3 Credit Hours
1 to 3 hours. Prerequisite: PSY 2003 or PSY 2113, 12 hours of psychology, permission of instructor. May be repeated; maximum credit six hours; undergraduates limited to two enrollments. Individualized field experiences in an area of interest in psychology. (F, Sp)

PSY G4613 Current Topics in Developmental Psychology 3 Credit Hours
Prerequisite: PSY 2003 or PSY 2113, and PSY 2603 or PSY 3613; or permission of instructor. May be repeated with change of content; maximum credit 6 hours. An advanced seminar dealing with contemporary issues in developmental psychology. Content will vary with the instructor. (Irreg.)

PSY G4633 Social and Personality Development 3 Credit Hours
Prerequisite: PSY 1113, and PSY 2603 or PSY 3613. Explores theory and research in social and personality development from infancy through adolescence. Topics covered include attachment, temperament, emotional development, moral development, peer relationships, gender development, prosocial and antisocial behavior, and the influence of parenting, child care, and other important developmental contexts on the behavior and adjustment of children and adolescents. (Irreg.)

PSY G4703 Psychology of Leadership 3 Credit Hours
Prerequisite: senior standing or permission of instructor. Provide students with an understanding of the psychological principles underlying leadership in government, industry, and society. Review psychological research on leadership and management, examining topics such as leadership skills, leading changes in organization, leader-follower relationships, and leadership tactics. Students will participate in various exercises to analyze leadership strategies and assess their potential strengths and weaknesses as leaders. (Sp)

PSY 4733 Selected Topics in Social Psychology 3 Credit Hours
Prerequisite: junior standing or permission of instructor. May be repeated once with change of topic; maximum credit six hours. Content varies with the instructor. Deals with central topical areas of study in social psychology (i.e., attitudes and social cognition; person perception; groups and group dynamics; or theory construction). (Irreg.)

PSY 4793 Psychology of Groups 3 Credit Hours
Prerequisite: 1113. Provides students with an understanding of the psychological principles underlying group behavior. Topics covered will include group formation and development, cohesion and norms, social influence, power, inter-group relations, stereotyping and prejudice, group decision making, diversity within groups, stigma in the workplace, social identity, leadership in groups, group performance, and staffing organizational groups. (Irreg.)

PSY 4910 Instructional Aides 1-3 Credit Hours
1 to 3 hours. Prerequisite: PSY 1113 and PSY 2003 or PSY 2113; junior standing (or honors students); majors with grade point averages of at least 3.00 and acceptance of an application, or by invitation by faculty member. May be repeated once, maximum credit six hours. Designed for students contemplating graduate school to offer experience in all aspects of instruction. Individual assignments of special instructional tasks in psychology. Supervised instructional experience will be part of each enrollment. (F, Sp, Su)

PSY 4913 Bachelor Of Science Thesis 3 Credit Hours
Prerequisite: 2113, 3114, admission to B.S. program in psychology and permission of B.S. adviser. B.S. candidates are required to generate an independent research project, under the direct supervision of their specific faculty sponsor and overseen by the B.S. adviser. This course will be used for this function and only this function. (F, Sp, Su)

PSY G4920 Current Topics in Basic and Applied Psychology 1-3 Credit Hours
1 to 3 hours. Prerequisite: PSY 1113, and PSY 2003 or PSY 2113; May be repeated with change of content; maximum credit 9 hours. Content and number of credit hours varies with instructor and section. Focus on current topics in psychology not covered in existing course offerings. Intended for purpose of offering high interest course topics during regular semester, summer, and intersession. (F, Sp, Su)

PSY G4940 Seminar in Psychology 1-3 Credit Hours
1 to 3 hours. Prerequisite: PSY 1113, and PSY 2003 or PSY 2113; and junior standing; or departmental permission. May be repeated with change of content; maximum credit 6 hours. Advanced seminar dealing with contemporary issues and problems in psychology. Content varies with instructor. (F, Sp, Su)

PSY 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

PSY 4970 Special Topics 1-3 Credit Hours
Special Topics. 1 to 3 hours. Prerequisite: Junior standing or permission of instructor. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

PSY 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: PSY 2003 or PSY 2113, PSY 3114, three courses in general area to be studied, and permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PSY 5003 Psychological Statistics I 3 Credit Hours
Prerequisite: graduate standing and undergraduate statistics course, or permission of instructor. Applied statistics with emphasis upon statistical problems in behavioral sciences research. Includes probability, descriptive statistics, estimations and test of hypotheses. Techniques covered in depth include t-test, one and two factor ANOVA methods, multiple comparison methods (e.g., Scheff, Tukey, Ryan, etc.), and the robustness of these techniques to violation of their assumptions.

PSY 5013 Psychological Statistics II 3 Credit Hours
Prerequisite: 5003 or equivalent, or permission of instructor. The general linear model is covered as it applies to the analysis of variance including fixed, mixed, and random models, individual comparisons, analysis of covariance, and multiple regression. Also, some nonparametric techniques are discussed including chi-square and distribution free procedures.

PSY 5203 Survey in Cognitive Psychology 3 Credit Hours
Prerequisite: graduate standing or permission. Survey of the field of cognitive psychology designed to provide a foundation for the study of human higher mental processes. Topics include: pattern recognition, attention, episodic memory, semantic memory, psycholinguistics, comprehension, reasoning, decision making and problem solving.

PSY 5280 Seminar in Cognitive Processes 1-4 Credit Hours
1 to 4 hours. Prerequisite: 5203 or permission of instructor. May be repeated with change of subject matter; maximum credit six hours. Considers special topics in cognitive psychology emphasizing recent research literature.

PSY 5403 Survey in Developmental Psychology 3 Credit Hours
Prerequisite: graduate standing in the department or permission of instructor. Survey of classic and contemporary research in developmental psychology. (Irreg.)

PSY 5423 Current Theories in Social Psychology 3 Credit Hours
Prerequisite: graduate standing and permission of instructor. An overview of current theory and research in social psychology, including such topics as motivated cognition, automatic and controlled processing, stereotyping, impression formation, attributions, the self-concept and self-regulation, relationships, emotions, attitudes, altruism, and aggression. (Irreg.)

PSY 5433 Classic Issues in Social Psychology 3 Credit Hours
Prerequisite: Graduate standing and permission of instructor. An overview of classic theories and studies from the first 100 years of social psychology. Topics include attitudes and persuasion, group processes, attraction, social influence, conformity, helping, aggression, dissonance, emotions, and attribution. (Irreg.)

PSY 5703 Survey of Industrial Psychology 3 Credit Hours
Prerequisite: Graduate standing. This course is intended to provide an overview of the key principles and practices of Industrial/Organizational psychology with an emphasis on work analysis and the selection, assessment, and development of human resources. This course will also examine legal and ethical issues faced by I/O psychologists as well as strategic workforce planning. (Irreg.)

PSY 5713 Training and Development 3 Credit Hours
Prerequisite: 5703. Design and development of training courses as well as practical considerations in the delivery of training in organizational settings. (Sp)

PSY 5723 Selection and Assessment in Organizations 3 Credit Hours
Prerequisite: 5703. Covers a variety of substantive topics including; the choice and design of personnel selection tools, validation of employment tests, legal issues regarding personnel assessment and selection, assessment of intelligence, experience, personality and integrity, the use of common assessment methods such as situational judgment tests, interviews, biodata, and assessment centers, frame-of-reference training, theoretical and empirical literature regarding assessment center technology, and development and administration of an assessment center. (Irreg.)

PSY 5733 Techniques in Industrial and Organizational Psychology 3 Credit Hours
Prerequisite: 5703. Provides an overview of how to develop and apply several methodologies and techniques that I/O psychologists commonly use to address organizational needs. During this course we will explore topics such as basic consulting skills, job analysis, individual assessment and selection, biodata, performance appraisal, ad organizational surveys. Some basic familiarity with these areas is assumed. This class focuses on how to develop and implement these types of applications in organizational settings. (Irreg.)

PSY 5743 Survey of Organizational Psychology 3 Credit Hours
Prerequisite: Graduate standing. The purpose of this course is to provide a broad overview of important topics defining organizational psychology and organizational behavior from a psychological perspective, covering topics such as organizational socialization, commitment, networks and culture, conflict and negotiation, organizational change, and counterproductive work behavior. (Irreg.)

PSY 5901 Foundations of Psychological Science I 1 Credit Hour
Prerequisite: admission to graduate psychology program. Overview of current research in psychological science. Discussion of ethics, professional development, the pedagogical arts, methodology and grantsmanship. Participants complete a first year research project including a grant proposal, presentation at a professional meeting and presentation at departmental speaker series.

PSY 5911 Foundations of Psychological Science II 1 Credit Hour
Prerequisite: 5901. Continuation of 5901. Advanced topics in professional development, research planning, funding and communication.

PSY 5960 Directed Readings in Psychology 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing, permission of instructor, adviser and dean. Maximum credit nine hours. Supervised reading of selected topics in psychology by agreement of instructor and student. (F, Sp, Su)

PSY 5970 Pre-Master's Research in Psychology 1-4 Credit Hours
Prerequisite: graduate standing; pre-master's status; permission of instructor. May be repeated; maximum credit nine hours. Supervised research in area agreed upon by student and instructor. Students conducting research for the master's thesis should enroll in 5980. (F, Sp, Su)

PSY 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

PSY 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

PSY 6013 Factor Analysis and Structural Equation Models 3 Credit Hours
Prerequisite: 5003, 5013 or equivalent. Several exploratory factor analysis models are discussed including principle factors, maximum likelihood, and alpha-factors analysis. Factor-analytic-like models such as components analysis and image analysis are also covered. Offers an overview of the application of structural equations in the social sciences. (Irreg.)

PSY 6023 Statistical Models of Tests Scores 3 Credit Hours
Prerequisite: 5003, 5013 or equivalent. Topics include classical test theory, item-sampling theories, latent ability test theory, item analysis and test validation. (Irreg.)

PSY 6063 Seminar in Quantitative Psychology 3 Credit Hours
Prerequisite: 5013 or permission of instructor. May be repeated with change of topic; maximum credit 15 hours. The topic or topics to be covered depend upon the faculty member or members in charge of the seminar at the time it is offered.

PSY 6073 Experimental Design for Psychology 3 Credit Hours
Prerequisite: 5003, 5013, or permission of instructor. Classical experimental design applied to research problems in the behavioral sciences; completely randomized, randomized blocks, factorial, Latin square, fractional factorial and repeated measures designs, confounding, and related topics are discussed. (F)

PSY 6223 Quantitative Models in Cognition 3 Credit Hours
Prerequisite: 5203 or permission. Survey of quantitative models in cognition, with an emphasis on memory and reaction time. Techniques for model testing and development will be taught and supported by exercises.

PSY 6280 Advanced Seminar in Cognitive Processes 1-4 Credit Hours
1 to 4 hours. Prerequisite: 5203 or permission. May be repeated with change of subject matter; maximum credit 12 hours. Special topics in human learning and memory or in memory and cognitive processes will be considered in detail, emphasizing recent research literature and development of research proposals. (Irreg.)

PSY 6423 Seminar in Social Psychology 3 Credit Hours
Prerequisite: graduate standing and permission of instructor. May be repeated with change of topic; maximum credit nine hours. Intensive study of major problem areas in social psychology, including intrapersonal processes, group dynamics, the self, and research methods. Course topic will vary. (Irreg.)

PSY 6433 Seminar in Theories of Personality 3 Credit Hours
Prerequisite: graduate standing in Psychology or permission of instructor. May be repeated with change of topic; maximum credit 12 hours. Intensive exploration of both traditional and modern theories of personality. Examples from several major categories of personality theory are examined through intensive primary readings, writing, and discussion. (Irreg.)

PSY 6453 Seminar in Interpersonal Relationships 3-3 Credit Hours
Prerequisite: Graduate standing and permission of instructor. Covers classic and contemporary theories and findings in the social psychological literature on interpersonal relationships, with a focus on the biological, motivations, social and personality factors that contribute to attraction, closeness, satisfaction, and stability in dyadic relationships. (Irreg.)

PSY 6643 Seminar in Developmental Psychology 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated with change of topic; maximum credit 12 hours. Involves in-depth study of theory and research in major areas of developmental psychology, e.g., social cognition, peer relations, emotions, temperament and personality, morality, aggression, theory of mind. (Irreg.)

PSY 6703 Advanced Seminar in Industrial and Organizational Psychology 3 Credit Hours
Prerequisite: 5703. May be repeated with change of content; maximum credit nine hours. Focus in-depth on one or more topics examining the area with respect to new theoretical developments and major research findings. Topics may include active, emergent research areas likely to lead to changes in theoretical and professional practice including motivation, team effectiveness, work and family issues, changes in job design, etc. (Sp)

PSY 6713 Leadership Theories, Research, and Practice 3 Credit Hours
Prerequisite: 5703. This graduate seminar examines the theoretical and empirical research as well as case studies on a variety of topics in the field of leadership, leadership dyads, outstanding forms of leadership (transformational, charismatic, pragmatic), politics, leading innovation and change, assessing leadership effectiveness, gender and leadership, and cross-cultural leadership. (Irreg.)

PSY 6910 Readings in Psychology 1-4 Credit Hours
1 to 4 hours. Prerequisite: advanced graduate standing (post-master's). May be repeated; maximum graduate credit nine hours. Supervised reading for advanced students. Topics chosen by agreement of instructor and student.

PSY 6923 History of Psychology 3 Credit Hours
Prerequisite: graduate standing. Introduction to origin of modern psychology within science. Origins are examined from the ancient Greeks through philosophy, physiology, and astronomy. Special emphasis placed on the historical trends and the people involved.

PSY 6930 Res-Cognitive Process, Sensation-Perception, Physiological Psy 1-6 Credit Hours
1 to 6 hours. Prerequisite: by permission of instructor only. May be repeated; maximum graduate credit eighteen hours. Supervised laboratory research on major projects in an area of mutual interest with a faculty member. Upon advice of the instructor involved, enrollment for work on minor research projects in the above areas may alternatively be in 4990. (F, Sp, Su)

PSY 6940 Research in Personality: Social and Developmental Psychology 1-6 Credit Hours
1 to 6 hours. Prerequisite: by permission of instructor only. May be repeated; maximum graduate credit 18 hours. Supervised individual laboratory research on major projects in an area of mutual interest with a faculty member. Upon advice of the instructor involved, enrollment for work on minor research projects in the above areas may alternatively be in 4990. (F, Sp, Su)

PSY 6960 Research in Industrial and Organizational Psychology 1-6 Credit Hours
1 to 6 hours. Prerequisite: 5703 and permission of instructor. May be repeated; maximum credit twelve hours. Provide guided research experiences preparatory for master's and doctoral degrees. Topics selected in consultation with faculty member may include leadership, management ethics, and motivation. Exposure to key aspects of the research process including literature reviews, study design, data analysis, report preparation, proposal writing, paper presentation, and article writing. (F, Sp, Su)

PSY 6970 Post-Master's Research in Psychology 1-4 Credit Hours
Prerequisite: master's degree and permission of instructor. May be repeated; maximum credit 12 hours. Supervised research for advanced graduate students on major projects of mutual interest with a faculty member. (F, Sp, Su)

PSY 6980 Research for Doctoral Dissertation 2-16 Credit Hours
(F, Sp, Su)

PSY 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Barnes	Jennifer		2012	ASSOCIATE PROFESSOR OF PSYCHOLOGY	PhD, Yale Univ
Burgett	Jennifer	L	2012	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2018; ASSOCIATE PROFESSOR OF JOURNALISM AND MASS COMMUNICATION, 2018	PhD, Yale Univ, 2012; M. Phil, Cambridge Univ, 2007; BA, Yale Univ, 2006
Campbell	Nicole	J	2000	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2008	PhD, Arizona State Univ, 1997; MA, Arizona State Univ, 1993; BS, Texas A&M Univ, 1990
Carvallo	Mauricio	R	2007	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2013	PhD, SUNY at Buffalo, 2007; MA, SUNY at Buffalo, 2003; BA, Univ of California-Los Angeles, 1998
Cavazos	Jenel	N	2003	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2015; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2015	PhD, Univ of Oklahoma, 2009; MS, Univ of Oklahoma, 2006; BA, Univ of Oklahoma, 2003
Cokely	Edward	T	2015	PROFESSOR OF PSYCHOLOGY, 2018; PRESIDENTIAL RESEARCH PROFESSOR, 2015	PhD, Florida State Univ, 2007; MS, Florida State Univ, 2003; BA, Cal State Univ-Fresno, 2001
Connelly	Shane			PROFESSOR OF PSYCHOLOGY	PhD, George Mason Univ
Connelly Mumford	Mary	S	1999	ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2011; PROFESSOR OF PSYCHOLOGY, 2014	PhD, George Mason Univ, 1995; MA, George Mason Univ, 1992; BA, Loyola College, 1989
Day	Eric	A	2001	PROFESSOR OF PSYCHOLOGY, 2014	PhD, Texas A&M Univ, 1998; MS, Central Florida Univ, 1993; BS, James Madison Univ, 1991
Ethridge	Lauren			ASSISTANT PROFESSOR OF PSYCHOLOGY	PhD, Univ of Georgia
Feltz	Adam		2018	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2018	PhD, Florida State Univ
Freeman	Erin	K	2017	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2017	PhD, Univ of Oklahoma
Fuenzalida	Luz-Eugenia		2007	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2007	PhD, Univ of Oklahoma, 2000; MS, Univ of Oklahoma 1997; BA, Univ of Oklahoma, 1994
Gronlund	Scott	D	1989	PROFESSOR OF PSYCHOLOGY, 2002; ROGER AND SHERRY TEIGEN PRESIDENTIAL PROFESSOR, 2008; ASSOCIATE CHAIR OF PSYCHOLOGY, 2017	PhD, Indiana Univ, 1986; BA, Univ of California Irvine, 1981
Kimball	Daniel	R	2008	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2008; J.R. MORRIS PROFESSOR OF PSYCHOLOGY, 2008	PhD, Univ of California Los Angeles, 2000; JD, Univ of Virginia, 1983; BA, Univ of Virginia, 1979

Kisamore	Jennifer	L	2003	ASSOCIATE PROFESSOR OF PSYCHOLOGY AT TULSA, 2009; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2013	PhD, Univ of South Florida, 2003; MA, Univ of South Florida, 1999; BA, Univ of South Florida, 1994
Mayeux	Lara		2004	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2010; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2011; CHAIR, INSTITUTIONAL REVIEW BOARD, 2013	PhD, Univ of Connecticut, 2003; MA, Univ of Connecticut, 2000; BS, Texas Christian Univ, 1998
Mendoza	Jorge	L	1991	PROFESSOR OF PSYCHOLOGY, 1991	PhD, Univ of Oklahoma, 1974; MS, Univ of Oklahoma, 1972; BA, Univ of Illinois, 1970
Mumford	Michael		1999	PROFESSOR OF PSYCHOLOGY, 1999; DIRECTOR, CENTER FOR APPLIED BEHAVIORAL SCIENCES, 2004; GEORGE LYNN CROSS RESEARCH PROFESSOR OF PSYCHOLOGY, 2005	PhD, Univ of Georgia, 1983; MS, Univ of Georgia, 1981; BA, Bucknell, 1979
Snyder	Lori	A	2004	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2010; DISTINGUISHED FACULTY FELLOW, OFFICE OF THE VICE PRESIDENT FOR RESEARCH, 2016	PhD, Colorado State Univ, 2004; MS, Colorado State Univ, 2001; BA, Earlham College, 1997
Song	Hairong		2009	ASSISTANT PROFESSOR OF PSYCHOLOGY, 2009	PhD, Univ of California Davis, 2009
Steinheider	Brigitte		2002	ASSOCIATE PROFESSOR OF PSYCHOLOGY AT TULSA, 2008	PhD, Univ Dusseldorf, 1996; MBA, Univ Dusseldorf, 1992; MS, Univ Dusseldorf, 1990
Terry	Robert	A	1995	ASSOCIATE PROFESSOR OF PSYCHOLOGY AND MANAGEMENT AND ENTREPRENEURSHIP, 2003	Ph.D., 1989, North Carolina at Chapel Hill; M.A., 1989, North Carolina at Chapel Hill; B.A., 1982, Oklahoma
Wenger	Michael	J	2010	PROFESSOR OF PSYCHOLOGY, 2010	PhD, SUNY Binghamton, 1994; MS, Univ of Washington, 1989; BS, Univ of Washington, 1982

Psychology (Standard)

Minimum Total Credit Hours: 120
Major Hours: 34
Minimum Upper-Division Hours: 48
Upper-Division Hours Within Major: 22
Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B800

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.**

Code	Title	Credit Hours
Foundation Courses		
PSY 1113	Elements of Psychology	3
PSY 2003	Understanding Statistics	3
PSY 3114	Research Methods: Applications and Experimental Design	4
Core Courses		
Choose three of the following:		9
PSY 2403	Introduction to Personality	
PSY 2603	Lifespan Development	
or PSY 3613	Developmental Psychology: Infancy through Adolescence	
PSY 3203	Cognitive Psychology	
PSY 3703	Social Psychology	
PSY 3753	Introduction to Industrial Organizational Psychology	
Depth Courses		
Choose 12 hours from 3000- or 4000-level PSY courses [1]		12
Capstone Course		
Choose one PSY Capstone Course		3
Total Credit Hours		34

[1] 3000- or 4000-level PSY courses, no more than 6 hours may be from PSY 3440/PSY 3990/PSY 4990, and none of which may be from PSY 4910 or the Core Courses listed above.

Major Support Requirements

Code	Title	Credit Hours
Mathematics		
MATH 1503	College Algebra [1]	3
or MATH 1643	Functions and Modeling for Business, Life and Social Sciences	
Biology		
Choose one of the following:		4-5
BIOL 1005	Concepts in Biology	
BIOL 1124	Intro Biol: Molecule/Cell/Phys	
BIOL 1134	Introductory Biology: Evolution, Ecology and Diversity	
Group I		
Choose 6-10 hours from the Group I course list (p. 607)		6-10
Group II		
Choose 6 hours from the Group II course list (p. 607)		6
Total Credit Hours		19-24

[1]More advanced MATH courses may also be used to satisfy this requirement.

Major Support Group Course Lists

GROUP I

Code	Title	Credit Hours
BIOL 2013	Evolution	3
CHEM 1315	General Chemistry	5
CHEM 1415	General Chemistry (Continued)	5
C S 2334	Programming Structures and Abstractions	4
PHYS 2414	General Physics for Life Science Oriented Majors	4
METR 2603	Severe and Unusual Weather	3
A maximum of one of the following:		3
C S 1213	Programming for Non-Majors with Python	
C S 1313	Programming for Non-Majors with C	
C S 1321	Java for Programmers	
C S 1323	Introduction to Computer Programming for Programmers	
C S 1324	Introduction to Computer Programming for Non-Programmers	
MIS 2113	Computer-Based Information Systems	
PSY 2503	Computing for Behavioral Sciences	

GROUP II

Code	Title	Credit Hours
ANTH 2303	General Linguistics	3
or ANTH 3203	Introduction to Biological Anthropology	
A maximum of one of the following:		3
COMM 1113	Principles of Communication	
COMM 2003	Communication in Non-Western Culture	
COMM 2113	Business and Professional Communication	
ECON 1113	Principles of Economics-Macro	3
or ECON 1123	Principles of Economics-Micro	
A maximum of one of the following:		3
HSCI 1113	Science, Nature and Society: Historical Perspectives	
HSCI 2213	The Darwinian Revolution	
HSCI 2423	Social and Ethical Issues in Science, Technology, Environment and Medicine	
HSCI 3013	History of Science to the Age of Newton	
HSCI 3023	History of Science Since the Seventeenth Century	
PHIL 1113	Introduction to Logic	3
A maximum of one of the following:		3
SOC 1113	Introduction to Sociology	
SOC 3523	Criminology	
SOC 3723	Sociology of Family	

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		

Choose one General Education Capstone course	3
Total Credit Hours	56

[1]College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2]One course at the intermediate level or demonstrated competency at that level

[3]6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Psychology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Psychology major requirements.

A maximum of one of the following:		3
HSCI 1113	Science, Nature and Society: Historical Perspectives	
HSCI 2213	The Darwinian Revolution	
HSCI 2423	Social and Ethical Issues in Science, Technology, Environment and Medicine	
HSCI 3013	History of Science to the Age of Newton	
HSCI 3023	History of Science Since the Seventeenth Century	
PHIL 1113	Introduction to Logic	3
A maximum of one of the following:		3
SOC 1113	Introduction to Sociology	
SOC 3523	Criminology	
SOC 3723	Sociology of Family	

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Psychology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Psychology major requirements.

Pre-Health Social Sciences, Minor

Minimum Total Credit Hours: 21
Minimum Upper-Division Hours: 9

Program Code: N795

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Psychology.

Required Courses

Students must successfully complete at least 21 hours of courses, including least nine (9) hours at the upper-division level.

Code	Title	Credit Hours

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

ODYN 5283	Employee Health, Safety and Wellness	
Choose 3 hours from an elective list maintained by the department or as approved by the ODYN Graduate Liaison		3
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Project Management, Graduate Certificate

Minimum Total Hours: 12

Program Code: G093

This program is currently offered only at the University of Oklahoma's Tulsa campus.

Certificate Requirements

Cellular & Behavioral Neurobiology: Psychology, Ph.D.

Minimum Total Hours: 90

Program Code: D149

Program Requirements

Code	Title	Credit Hours
Core		
BIOL 5833	Neurobiology	3
BIOL 5871	Current Topics in Neurobiology	1
Lab Rotations		
PSY 5990	Independent Study (2-3 in CBN-affiliated labs)	6-9
Psychology Coursework		
PSY 5003	Psychological Statistics I	3
PSY 5013	Psychological Statistics II	3
PSY 6073	Experimental Design for Psychology	3
Statistics		
PSY 6013	Factor Analysis and Structural Equation Models	3
or PSY 6063	Seminar in Quantitative Psychology	
Measurement		
PSY 6023	Statistical Models of Tests Scores	3
Dissertation		
PSY 6980	Research for Doctoral Dissertation (minimum 30 hours)	30
Electives		
Additional coursework to reach 90 post-baccalaureate hours, as required by doctoral advisory committee		32-35
Must include 2 general Psychology courses selected in consultation with advisor		
Must include 2 current topic seminars		
Total Credit Hours		90

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

Psychology, Ph.D.

Minimum Total Hours: 90

Program Code: D800 R456

Program Requirements

Code	Title	Credit Hours
Field of Specialization		
PSY 6043		3
PSY 6053		3
PSY 6950		3
Approximately 18 credit hours within one of the following areas specialization: Learning-Cognitive Processes; Personality-social;developmental; or quanitative		18
Electives		
Approximately 21 elective hours in psychology courses outside one of areas of specialization, including related courses outside of the department		21
Research Requirements		
21 hours of research selected from the following:		21
PSY 6910	Readings in Psychology	
PSY 6920		
PSY 6930	Res-Cognitive Process, Sensation-Perception, Physiological Psy	
PSY 6940	Research in Personality: Social and Developmental Psychology	
PSY 5980	Research for Master's Thesis (4 hours)	
Dissertation Research		
PSY 6980	Research for Doctoral Dissertation (minimum 2 hours)	2
Additional Coursework		
The remainder of the 90 post-baccalaureate hours will be approved by the advisory committee		19
Total Credit Hours		90

Department of Religious Studies

Deonnie G. Moodie, Professor of Religious Studies, Chair
140 Robertson Hall
731 Elm Avenue
Norman, OK 73019
Phone: (405) 325-3349
rels@ou.edu
www.ou.edu/cas/rels

General Information

Religion is a major force around the world and one of the few universals of human culture. The importance of understanding its historical, social, political, intellectual, and artistic influence is self-evident. The Religious Studies Department at OU provides undergraduate students with a broad curriculum of study on the diverse expressions of religion. Students learn both about major religious traditions and the different approaches to understanding religion.

The study of religion at OU is not intended to promote or critique any particular religious faith. Nor does it seek to encourage or discourage religious practice or expression. More broadly, by providing a greater understanding of religion in its pluralistic expressions the Religious Studies Department will promote a more informed citizenry. The relationship of religion to other societal, cultural, and political activity means that the study of religion informs the understanding of all human activity. The Religious Studies Department works closely with the University's International Programs office, the College of International and Area Studies, and the College of Arts & Sciences to identify and/or coordinate study abroad experiences for our students.

Religious Studies is an interdisciplinary field devoted to the academic study of religion. The mission of OU's Religious Studies program is educational, to equip students with the knowledge to function in the diverse and complex global environment of the 21st Century. The department observes and examines religion in its many expressions. The centerpiece of the program is a curriculum, designed by faculty from a variety of graduate programs in Religious Studies, that enables undergraduate students to major or minor in Religious Studies but also to combine the RELS curriculum with other OU programs for the best possible preparation for a career, professional, or graduate school in a range of fields. Students may craft if desired (but it is not required) in Asian Studies, Judaic Studies, Christian Studies, Biblical Literature, or Islamic Studies, or they may pursue a broader concentration across any number of religious traditions.

Programs & Facilities

The Department of Religious Studies sponsors or co-sponsors numerous programs featuring a variety of prominent speakers and authors each year. In addition to speaking in classes and meeting with students, most of these visitors present public lectures on religious dimensions of important contemporary issues. The public lectures are open to the wider OU campus and local community.

The department also actively encourages and supports study abroad opportunities. In addition to annual summer archaeological field study trips, faculty members work with other entities across campus to develop study abroad opportunities. Some scholarships are available to facilitate summer field study programs.

The Religious Studies Department currently provides several partial scholarships each year in a competitive process for RELS majors and minors.

Undergraduate Study

The study of religion at OU is not intended to promote or critique any particular religious faith, nor does it seek to encourage or discourage religious practice or expression. More broadly, by providing a greater understanding of religion in its pluralistic expressions the program promotes a more informed citizenry. The relationship of religion to other societal, cultural, and political activity means that the study of religion informs the understanding of all human activity. The Department of Religious Studies works closely with the University's International Programs office and the College of Arts & Sciences to identify and/or coordinate study abroad experiences for our students.

The Bachelor of Arts (p. 624) in Religious Studies curriculum involves a two-pronged academic exploration of different religious traditions (e.g., Native American, African, and other indigenous traditions, Christianity, Islam, Judaism, Buddhism, Hinduism, Baha'i, etc.); and different approaches to the study of religion (historical, social, political, intellectual, philosophical, scientific, literary). This prepares future journalists, teacher, lawyers, doctors, and business leaders to operate in the complex religious milieu of the coming decades.

Students are able to, although not required to, pursue areas of concentration, either in the major or minor. Available themes or areas of concentration include Islamic Studies, Asian Studies, Christian Studies, Judaic Studies, and Biblical Literature.

Minor

A Religious Studies Minor (p. 627) may be earned. The minor may be declared through the College of Arts & Sciences Academic Services office, 124 Ellison Hall. Available themes or areas of concentration in the minor include the same themes as the major - Islamic Studies, Asian Studies, Christian Studies, Judaic Studies, and Biblical Literature. Crafting the concentration or theme is best done in consultation with the departmental advisor.

Courses

RELS 1113 Introduction to Religious Studies 3 Credit Hours
Examines inner workings and external practices of religion, including various definitions of religion, and how religion functions in the world through ritual, myth, and symbol. Analysis of varieties of religious experience, human destiny and the use of sacred texts among the world's religions. (F, Sp, Su) [IV-WC].

RELS 1213 Judaism and Christianity in Conversation and Conflict 3 Credit Hours
This course introduces students to academic study of Judaism and Christianity, including their relationship to one another in antiquity and today. Our approach is comparative, historical, and analytical as we examine the development of these major religious traditions over time and the diversity both between and within them. (Irreg.) [IV-WC].

RELS 2133 History of Christian Traditions 3 Credit Hours
Explores Christian beliefs and practices from ancient origins to the present day. Examines key texts and observes how and why certain thinkers and events were crucial to the development of the Christian religious tradition, and how ideas and practices were contested (internally and externally) and adapted according to cultural context. (Sp) [IV-WC].

RELS 2303 Islamic Religious Tradition 3 Credit Hours
An exploration of the historical development of the world's second largest religious tradition. Investigation of the major tenets of Islam, the Qur'an, the life of Muhammad, ritual and worship, development of Islamic law and the spread of Islamic civilization and ideas. (Irreg.) [IV-NW].

RELS 2403 Introduction to Comparative Religion 3 Credit Hours
A general study of the world's most representative religious traditions, including Hinduism, Buddhism, Taoism, Confucianism, Judaism, Christianity, and Islam. A comparative consideration of the differences and similarities among the religions. (Irreg.) [IV-NW].

RELS 2413 Religion, Culture, and the Meaning of Life 3 Credit Hours
Develops the terms and concepts to engage critically powerful sources of meaning-making. Key images, stories, religious and philosophical texts, primarily from Christianity and Judaism, will inform the study of the way traditions interpret and configure important assumptions to meet the needs of their own times, as personal and social crisis demand new ways of understanding suffering and human purpose. (F, Sp) [IV-WC].

RELS 2703 History of Buddhist Traditions 3 Credit Hours
An introductory study of Buddhist traditions focusing on sacred texts and core concepts. Examines the historical development of Buddhism in India, the formation of Theravada, Mahayana, and Vajrayana Buddhism, and local variations in Southeast Asia, East Asia, and the modern West. (Irreg.) [IV-NW].

RELS 2713 History of Hindu Traditions 3 Credit Hours
Introduces students to the historical development of the many traditions that come under the umbrella of what we now call "Hinduism." Particular attention paid to the ways in which Hindu ways of being have been influenced by many factors in South Asian history, and have constantly been debated and in flux. (Irreg.) [IV-NW].

RELS 2960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major. Topics will cover materials not usually presented in the regular course offerings. (F, Sp, Su)

RELS 2970 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

RELS 3013 Special Topics in Religious Texts 3 Credit Hours
Prerequisite: junior standing or permission of instructor. May be repeated with change of text; maximum credit nine hours. An examination of religious texts, and may include the Koran, Jewish scriptures, Christian scriptures, Bhagavad Gita, Vedas, etc. (Irreg.)

RELS 3043 Special Topics in Religion, Social Organization & Politics 3 Credit Hours
Prerequisite: junior standing or permission of instructor. May be repeated with a change of content; maximum credit nine hours. An examination of issues and topics in religion, social organization and politics. (Irreg.

RELS 3053 Special Topics in Religion and History 3 Credit Hours
Prerequisite: junior standing or permission of instructor. May be repeated with a change of content; maximum credit nine hours. An examination of religious phenomena throughout history, appearance and development of religious traditions, or special issues or topics in religion and history. (Irreg.)

RELS 3153 Jesus of Nazareth 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Examines varied portrayals of Jesus of Nazareth in literature, scholarship, and film, ranging from ancient gospels to contemporary scholarly and cinematic portrayals. Primary texts include canonical and non-canonical gospels from antiquity, modern scholarly reconstructions of the historical Jesus, and contemporary Jesus films. (Irreg.)

RELS 3173 Women and the Bible 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. A study of biblical literature through narratives from the Bible featuring women. Using a variety of perspectives, including historical, literary, and ideological approaches, we consider what these texts tell us about sex, gender, masculinity, and femininity in the ancient world and also how these texts have been interpreted through time to shape attitudes about women, gender, and sexuality. (Irreg.)

RELS 3183 Lost Scriptures and the Formation of the Bible 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. How did the Bible become the Bible? Survey of Jewish and Christian literary activity c. 300 BCE-c. 200 CE, especially texts whose inclusion in the Bible was contested or denied, such as Tobit; the books of the Maccabees; apocalypses; Dead Sea Scroll biblical interpretations, and non-canonical gospels. Historical questions surrounding how and when particular texts in antiquity were ascribed authority. (Irreg.)[IV-WC].

RELS 3193 Biblical Literature 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Examines Biblical texts to observe the Bible as the scriptural background of both Judaism and Christianity; modern scholarship and current debates surrounding the composition, themes, content, and dating of Biblical texts; historical and geographic circumstances surrounding the composition of biblical texts; the Bible as cultural inscription, the various ways the Bible is read today, and its impact on modern culture. (Irreg.)

RELS 3223 Religion and Nationalism in India 3 Credit Hours
Prerequisite: junior standing or permission of instructor. A study of how the major religions of India (Hinduism, Buddhism, Islam, Zoroastrianism, and Sikhism) change under various political regimes; a case study of how these religions transformed under British colonial rule and in nationalist and post-independence India, hardened religious boundaries, and the partition of India into two nation-states, and one (Pakistan) divided again (into Pakistan and Bangladesh). (Irreg.)[IV-NW].

RELS 3233 Money, Power, and God(s): Religion and Economy East and West 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. An exploration of the intertwining of religious and economic modes of human life, particularly in Euro-American and South Asian contexts. The course disrupts the received categories of "religion" and "economy" to uncover the ways that humans think about what is valuable, good, and precious and how they seek to create a world in which each emerges. (Sp)

RELS 3303 Conceptions of the Afterlife 3 Credit Hours
Prerequisite: junior standing or permission of instructor. An examination of the variety of answers given to the question, "what happens after death?" Particular attention is given to the views of Jews, Christians, Muslims, Hindus, and Buddhists and the ways these views related to life in this world. Conducted in a seminar format. Students will also explore ways the afterlife is presented in popular movies. (Irreg.) [IV-NW].

RELS 3313 World Religions in America 3 Credit Hours
Prerequisite: junior standing or permission of instructor. The United States of America is arguably the world's most religiously diverse nation at the beginning of the 21st century. The framers of the Constitution could not have imagined the scope of religious diversity in the United States today when they wrote the famous sixteen words of the First Amendment: "Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof...." This course explores the history of and contemporary challenges and opportunities presented by the presence of and freedom for adherents of the world's religions in America. Through readings, class lectures and discussion, guest lectures, and access to superb electronic resources, students will become conversant with multiple factors that have shaped the American experience and are as current as the headlines in today's news. (Irreg.)

RELS 3413 Approaches to the Study of Religion 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Examines ways religion may be studied in order to better understand it. The course will include theory and the methodologies of the social sciences and humanities. (Irreg.)

RELS 3423 Gender, Sex, and the Body in the Christian Tradition 3 Credit Hours
Prerequisite: junior standing or permission of instructor. An overview of some topics where issues of gender and sexuality intersect with a particular religious tradition. Topics have to do with gender, sexuality, and religion, including purity and power, celibacy and virginity, marriage, reproductive rights, gender fluidity, and religious leadership and ordination. (F)

RELS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

RELS 3533 The Qur'an 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. Intensive study of the Qur'an, its major themes, and literary forms, with attention to a range of classical and contemporary discourses about the Qur'an, emphasizing the great variety of ways in which Muslims and non-Muslims have analyzed and interpreted the Qur'an. (Irreg.) [IV-NW].

RELS 3543 Islamic Law 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. A close reading and discussion of primary texts (scriptural, classical, and modern) and accounts of court cases, focused on one aspect of Islamic law such as equity, violence, authority, or gender. (Irreg.) [IV-NW].

RELS 3563 Islamic Theology 3 Credit Hours
Prerequisite: junior standing or permission of instructor. A close reading and discussion of primary texts (the Qur'an creeds, classical theological arguments, and modern writings) on major theological problems such as salvation, God, revelation, and religious pluralism. (Irreg.) [IV-NW].

RELS 3573 Jesus in the World's Religions 3 Credit Hours
Prerequisite: junior standing or permission of instructor. This seminar examines some of the great diversity of ways in which Jesus has been understood and imagined by adherents of five religious traditions (Christianity, Judaism, Islam, Hinduism, and Buddhism). Rather than asking who Jesus actually was, we will focus on how he has been represented, and why. (Irreg.)

RELS 3613 Roman Religion 3 Credit Hours
(Crosslisted with HIST 3613) Prerequisite: junior standing or permission of instructor. The course examines religious practices and beliefs in the Roman world from the founding of the Roman Republic to Late Antiquity, including conceptions of the divine, ways of worshiping the gods, civic and private religion, conceptions of the afterlife, magic, the mystery religions and salvation, and philosophical religions, through a survey of literary and archaeological evidence. (Irreg.)

RELS 3623 Discovering the Apostle Paul: His Life and Thoughts 3 Credit Hours
Prerequisite: junior standing or permission of the instructor. Explores who Paul claimed to be within his own Jewish and then Greco-Roman first-century context. Explores the letter-writing medium, his view of law, the role of women, resurrection and afterlife, and his goals for the church. (Irreg.)

RELS 3633 Religious Leaders for Social Justice 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Examines social and political leaders taking a stand against injustice by both speaking and acting against it. They are called religious in that they derive part of their inspiration and motivation from their faith tradition. Surveys the writing of activists from among various faith traditions for life experiences and personal attributes that give rise to their ability to speak out and lead. (Irreg.)

RELS 3733 Tibetan Buddhism 3 Credit Hours
Prerequisite: junior standing or permission of instructor. A survey of Tibetan Buddhism, sometimes referred to as "Vajrayana" or "Tantric Buddhism," considered in relation to the socio-cultural history of late Medieval India. Themes include monastic institutions, reincarnate lama traditions, death and dying, and contemporary political issues. A major theme will be the "image of Tibet"--the mythologization of Tibet, the Tibetan people, and their culture in foreign imagination. (Irreg.)

RELS 3743 History of Daoist Traditions 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Examines history, practices, and worldviews of the greater Daoist tradition as it developed and took shape over Chinese history focusing on the social and cultural forces that shaped its development, and the views, practices, and goals of specific Daoist schools. A study of the formation of Daoist identity and community, material culture, construction of sacred space, and self-cultivation techniques. (Irreg.) [IV-NW].

RELS 3753 Zen Buddhism 3 Credit Hours
Prerequisite: junior standing or permission of instructor. The development and growth of Chan Buddhism (China), Zen Buddhism (Japan); and the introduction and representation of Zen in the United States, through critical, post-modern historiography. This approach highlights the way Chan/Zen Buddhists have defined and redefined themselves through the construction and reconstruction of their history, and the representation of the Zen tradition by scholars, apologists, and adherents. (Irreg.)[IV-NW].

RELS 3763 Chinese Religions 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. This course introduces students to major religious traditions of China: Confucianism, Daoism, Buddhism, and popular religion. These religious traditions are considered in reference to the historical development of their respective worldviews, practices, and institutions as well as the manner in which they have mutually influenced each other over the course of that historical development. (Sp) [IV-NW].

RELS 3833 Archaeology of the Lands of the Bible 3 Credit Hours
(Crosslisted with HIST 3833) Prerequisite: junior standing. Examines the lands, cultures, and people associated with the Hebrew Bible and the New Testament through a chronological survey of archaeological evidence and investigates the relationship between archaeology and biblical texts. The course also investigates archaeological evidence for Jewish and Christian practices in late Roman Palestine as well as archaeological and architectural evidence for early Islamic Jerusalem. (Sp) [IV-WC].

RELS 3893 Greek Religion 3 Credit Hours
(Crosslisted with HIST 3893) Prerequisite: junior standing or permission of instructor. Examines the religious rituals, beliefs, and sacred sites of the ancient Greeks. Considers such topics as the relationship between myths and ritual, sacred time and space, concepts of the afterlife, and the role of religion in the family and city-state. (Irreg.)

RELS 3900 Special Topics 1-4 Credit Hours
1 to 4 hours. Prerequisite: junior standing or permission of instructor. May be repeated with change of topic; maximum credit nine hours. Topics in Religious Studies not accommodated by the existing curriculum. (Irreg.)

RELS 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Topics will cover materials not usually presented in the regular course offerings. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

RELS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

RELS 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Topics will cover materials not usually presented in the regular offerings. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

RELS 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113, Anthropology 1823, Philosophy 1203 or 2403; junior standing, and permission of instructor. May be repeated; maximum credit six hours. Through a written contract, independent study may be arranged for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or field projects. (F, Sp, Su)

RELS 4323 Capstone 3 Credit Hours
Prerequisite: Major in Religious Studies and permission of instructor. Capstone provides the opportunity to integrate knowledge about the major and apply it to a project culminating in a presentation and senior paper. The project will develop a selected problem, issue, or controversy in religious studies. (F, Sp) [V].

RELS 4640 Field Study in Religious Studies 1-6 Credit Hours
(Slashlisted with RELS 5640) 1 to 6 hours. Prerequisite: junior standing and permission of instructor or RELS program. May be repeated with change of content/location; maximum credit 12 hours. Students participate in excavation and field study of material culture. Course combines lectures, lab, discussion, and/or research. The subject matter depends upon the specific summer session. No student may earn credit for both 4640 and 5640 for the same content/location. (Su)

RELS 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

RELS 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

RELS 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113, Anthropology 1823, Philosophy 1203 or 2403; senior standing, and permission of instructor. May be repeated; maximum credit six hours. Through a written contract, independent study may be arranged for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or field projects. (F, Sp, Su)

RELS 5640 Field Study in Religious Studies 1-6 Credit Hours
(Slashlisted with RELS 4640) 1 to 6 hours. Prerequisite: graduate standing, permission of instructor or RELS program. May be repeated with a change of content/location; maximum credit twelve hours. Students will participate in excavation and field study of material, social, and visual culture. Combines lectures, lab, discussion, and/or research. The subject matter depends upon the specific summer session. No student may earn credit for both 4640 and 5640. (Su)

RELS 5960 Independent Study In Religious Studies 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and/or permission of instructor. May be repeated with change of content; maximum credit nine hours, maximum of six hours with one professor/instructor. Independent study/directed reading arranged between the professor and student on a special topic in religious studies, to give students the opportunity to complete intensive readings in field of study under direct guidance of the student's advisory committee. F, Sp, Su)

RELS 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

RELS 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

RELS 6960 Advanced Readings in Religious Studies 1-3 Credit Hours
1 To 3 Hours. Prerequisite: permission of instructor; student must be at PhD level. May be repeated with change of content; maximum credit nine hours. Advanced independent study/directed reading, arranged between the professor and student on a special topics in religious studies. Designed to give students the opportunity to complete intensive readings in field of study under direct guidance of his/her advisory committee. (F, Sp, Su)

RELS 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

RELS 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Religious Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Religious Studies major requirements.

Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	15
	Total Credit Hours	120

[1] If the Western Civilization & Culture Gen. Ed. requirement is satisfied by the Religious Studies Introductory course, a lower-division elective is to be selected.

[2] If the Non-Western Culture Gen. Ed. requirement is satisfied by ANTH 1823 as the Religious Studies Introductory course, a lower-division elective is to be selected.

[3] The Religious Studies major requires 21 upper-division hours within the major; therefore, some of the major requirement courses listed in the semester grid must be selected at the upper-division level to ensure this requirement is met.

Religious Studies, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N820

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Religious Studies.

Required Courses

Students must successfully complete at least 18 hours of coursework in Religious Studies, including at least nine (9) hours at the upper-division level. Students must take one of the introductory courses listed in Section I of the Religious Studies major requirements, then choose the remaining 15 hours from among the list of approved courses for the major.

Code	Title	Credit Hours

General Information

Social work education has been a part of the curriculum at the University of Oklahoma since 1917. A separate School of Social Work was established in 1935. The graduate program was fully accredited in 1957 and has maintained continuous accreditation. The school became the Anne and Henry Zarrow School of Social Work in 2009 and moved into its state of the art facility Anne and Henry Zarrow Hall in the fall of 2011.

Social work is a profession devoted to the enhancement of human well-being and to the alleviation of poverty and oppression. Social workers strive to promote the empowerment and well-being of individuals, families, communities, and organizations in an increasingly global society. The expansion of human service programs and areas of practice utilizing social work knowledge and skills has created a demand for professional social workers. Social work offers a challenging and exciting career for the individual who is motivated to help others and has a personal commitment to the advancement of social justice.

The school prepares practitioners who will use an integrated combination of theories, conceptual knowledge, values, and skills to serve diverse client and community systems. The undergraduate program and the foundation requirements of the graduate program are based on a generalist model that emphasizes skills, knowledge, and values basic to all social work practice.

The curriculum recognizes the importance of moving students forward through approaches to mastery and competence that instills within students the necessary attitudes, motivation, knowledge, and skills required for sound practice. The curriculum prepares students for life-long learning within specific domains of their own choosing. Each degree program anticipates student movement into particular domains formed by human need and social issues, social policies, systems of care, and particular organizations.

Programs & Facilities

Field Education Program

The Field Education program welcomes students to the practicum experience, prospective social work students, current students at the University of Oklahoma Anne & Henry Zarrow School of Social Work, or prospective Field Instructors. With a Field Education office on both the Norman and Tulsa campuses, placements are coordinated across Oklahoma in over 300 affiliated agencies offering students direct learning experiences with individuals, families, groups, and communities. Sites provide the supervision and resources needed to develop competent social workers.

Child Welfare Professional Enhancement Program

The Child Welfare Professional Enhancement Program (CWPEP) is a title IV-E partnership between the University of Oklahoma, The Oklahoma Department of Human Services, and the US Department of Health and Human Services Administration for Children and Families. The purpose of this partnership is to enhance and support Oklahoma's public child welfare workforce.

Knee Center for Strong Families

The Knee Center for Strong Families sponsors academic and community-oriented programs in the fields of social work, public health (including mental health), and fine arts in three core areas: Visiting lectureships, workshops, seminars, meetings of scholars, conferences, symposia, and forums; planning grants or "seed money" to develop programs that might have continuous funding from other sources; and underwriting research on the planning and development of educational programs to enhance family life in Oklahoma.

Center for Social Work in Healthcare

The Center for Social Work in Healthcare is dedicated to promoting and supporting the optimal use of the social work profession in health care settings, with an emphasis on primary health care settings. This is accomplished through the provision of educational opportunities and supports to social work students who have demonstrated an interest in interdisciplinary practice in health care. The center supports and participates in Oklahoma projects and programs focused on improving primary and community health, and supporting the increased use of evidence based social work practice in health care. In addition, the Center provides technical assistance and resources to primary care practices that are interested in developing social work positions within their practices, or improving the use of social work in their interdisciplinary teams.

Continuing Education

The Anne and Henry Zarrow School of Social Work Program for Continuing Education seeks to provide high quality continuing education events to Oklahoma social workers. Events are held on both the Norman and Tulsa campuses as well as Northwest Oklahoma.

Haruv USA at OU-Tulsa

Haruv USA at the University of Oklahoma-Tulsa is a new venture bringing together the best of two worlds — the unique expertise and international leadership of the Haruv Institute paired with the research-

based educational knowledge and expertise of OU-Tulsa and the Anne and Henry Zarrow School of Social Work. An initiative of the Charles and Lynn Schusterman Family Foundation, Haruv USA will focus on comprehensive, inter-professional education and training for students and professionals who touch the lives of children from a wide variety of settings, along with research for the identification, prevention, and treatment of child abuse and neglect, with an emphasis on underserved children and families.

Center for Child Welfare Training & Simulation

Operating within the University of Oklahoma Anne & Henry Zarrow School of Social Work, the Center for Child Welfare Training & Simulation is committed to supporting the highest quality training and professional development for the child welfare system of Oklahoma. The center utilizes the extensive resources at OU, faculty resources and professional partnerships to develop curricula, tools for evaluation, and consultation for workforce development. The center's mission is to prepare and support a highly skilled and stable workforce to ultimately advance the safety, permanency, and well-being of children in Oklahoma.

Scholarship and Financial Aid

The Anne and Henry Zarrow School of Social Work is dedicated to helping students fund their education by providing opportunities for internal (within the University) as well as external (outside of the University) scholarships.

OU also offers a wide variety of scholarships as does the College of Arts and Sciences. All financial need based scholarships for both undergraduate and graduate students are available through the Centralized Academic Scholarship Hub (CASH).

The School of Social Work provides a limited number of departmental scholarships to qualified students in the Social Work program. For graduate students, information about how to complete the online application is disseminated in the spring semester to both current students and new admits via email. Undergraduate students should apply through OU's Centralized Academic Scholarship Hub (CASH) for all departmental, college, and need based scholarships

The school has a limited number of Graduate Research Assistant positions available that offer both a tuition waiver, a stipend, and health insurance. Information about how to apply for a GRA position is disseminated in the spring semester to both current students (via email) and new students (via acceptance packets) or as information becomes available.

OU Financial Aid Services administers federal, state, institutional and private aid programs.

The Child Welfare Professional Enhancement Program (CWPEP) is a stipend and tuition assistance program specifically designed to encourage future MSWs and BSWs to work in the child welfare field.

The Zarrow Mental Health Stipends support students in Masters level foundation and concentration year practica in Tulsa.

The Center for Social Work in Healthcare provides stipends for students interested in a health-related practicum.

Leadership Education in Neuro-developmental and Related Disabilities (LEND) is a nationwide training program sponsored by the Maternal Child Health Bureau of the United States Department of Health and Human Services. In Oklahoma, LEND prepares graduate students for leadership roles as professionals with interdisciplinary skills to support community-based partnerships with professional colleagues, clients, and families.

Undergraduate Study

The Bachelor of Arts (p. 635) in Social Work program is designed to prepare social workers to assume entry-level professional roles in human and social service systems. In addition to the academic expectations, social work students are expected to demonstrate professional behavior which reflects a commitment to the ethics of the social work profession.

The role of the social worker involves helping people from a variety of backgrounds and with a range of problems, so it is important that the social work student not permit personal issues to interfere with this role and that the student have the emotional and psychological resources to render effective assistance to those in need.

Graduates of the baccalaureate program are eligible for membership in the National Association of Social Workers. They are also eligible to apply for advanced standing in the M.S.W. program at the University of Oklahoma or other graduate programs in social work. Following two years of supervised practice, they are eligible to apply for a license in the State of Oklahoma.

The School of Social Work fully subscribes to and is guided by the NASW Code of Ethics. Social work program applicants and students are expected to demonstrate professional behavior which reflects a commitment to the ethics of the social work profession as exemplified in the Code of Ethics. Behavior and statements contrary to these ethical principles may result in denial admission or review of continuance in the School's programs. Examples of behavior which warrant such denial or a review include, but are not limited to, derogatory oral and written statements towards other students, faculty, and/or persons from populations reflecting racial, ethnic, handicapped status, religious, socioeconomic, gender, and sexual orientation differences. Students are responsible for knowing and adhering to the NASW Code of Ethics. The most recent version can be read and downloaded from the internet through the national NASW website.

Additionally, the school publishes its own standards compatible with NASW in its Student Performance Policy (PDF).

Graduate Study

Master of Social Work

The Master of Social Work degree (MSW) is designed to prepare students for advanced professional practice within an organizational context. The curriculum is an advanced integrative design that balances a broad skill base with the opportunity to specialize in the selectives that are offered. The MSW is offered in both Norman and Tulsa in both full-time and part-time format and an online format. Advanced Standing status at both campuses and online is available to students who have completed a bachelor's degree in social work from an accredited program within the past five years and who meet additional criteria. The MSW offers a Thesis and a Non-Thesis track.

- Social Work, Master of Social Work (p. 638)
- Social Work: Advanced Standing, Master of Social Work (p. 639)

See MSW Admission Information for admission details, or contact ouswk-norman@ou.edu or ouswk-tulsa@ou.edu for more information.

Graduate Certificates

The Anne and Henry Zarrow School of Social Work offers a Graduate Certificate in Social Work with American Indians (p. 639). This is independent from the degree even though courses overlap. Certificates cannot be added post graduation. Typically obtaining a certificate does not add courses to your degree but rather specifies the electives taken.

Dual Degrees

Master of Social Work and Master of Public Health - The joint MSW-MPH program strengthens public health social work through coursework graduate social work students undertake in both programs.

Master of Social Work and Master of Arts in International Studies - The joint MSW-MAIS program prepares students for a globally integrated practice environment that addresses global social, political and economic justice issues, whether in the realm of international diplomacy, the international economy, humanitarian aid and economic development assistance, or international advocacy.

Courses

S WK 2113 Introduction to Social Work 3 Credit Hours
Prerequisite: sophomore or junior standing. Defines the profession of social work and describes its historical development. Provides foundation knowledge in social work values, professional ethics, and the history of social welfare and social services policy in the United States. (F, Sp)

S WK 2223 Statistics for Social Work 3 Credit Hours
Prerequisite: DMAT 0123, MATH 0123, or satisfactory score on math placement exam. Introduction to statistics and data analysis in social work and the helping professions. Covers descriptive statistics (univariate and bivariate), inferential statistics (estimation and significance tests) and data interpretation (causality and generalizability). (F, Sp, Su) [I-M] .

S WK 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

S WK 3003 Interviewing Skills for Generalist Practice 3 Credit Hours
Prerequisite: majors only. Introduction to basic interviewing and communication skills utilized in culturally sensitive, generalist social work practice. Emphasis on the development of self-awareness and skill development and on providing both didactic and experiential learning. (F)

S WK 3013 Professions in Social Work 3 Credit Hours
Prerequisite: Junior standing. This course provides an overview of social work as a profession, including central concepts and theories, values and ethics and career pathways. The profession's historical development is included along with a focus on poverty and economic disparity, human rights and social justice, and human diversity. It provides an introduction to the generalist practice model across system levels. (Su)

S WK 3103 Generalist Practice with Individuals and Families 3 Credit Hours
Prerequisite: majors only. First of three generalist social work practice courses explicates a generalist perspective that focuses on the knowledge, values, skills, and techniques appropriate for engagement, assessment, intervention and evaluation with individuals and families. (F)

S WK 3113 Generalist Practice with Families and Groups 3 Credit Hours
Prerequisite: Junior standing and S WK 3103 or concurrent enrollment. The second of three generalist social work practice courses; explicates a generalist perspective that focuses on the knowledge, values, skills and techniques appropriate for engagement, assessment, intervention, and evaluation with families and small groups. (F, Sp)

S WK 3233 Human Behavior: Individuals and Families 3 Credit Hours
Prerequisite: majors only. Within a social systems framework and bio-psychosocial perspective, students learn empirically based theories which deal with life-span development and family dynamics. This course provides a theoretical foundation for micro-level generalist practice. (F)

S WK 3313 Social Welfare Policy: Analysis and Practice 3 Credit Hours
Prerequisite: majors only. An undergraduate level historical and descriptive review of federal and state social welfare programming, introduction to social welfare policy analysis, and the role of the social work profession in affecting change in social welfare policy. (Sp)

S WK 3323 Human Diversity and Social Justice 3 Credit Hours
Prerequisite: majors only. Provides undergraduate students with social work knowledge of human diversity from a social justice perspective. Knowledge of diverse groups' norms/values, differential power, societal oppression, and transactions between and within social groups are emphasized. (F)

S WK 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

S WK 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in regular coursework. (F, Sp, Su)

S WK 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite; admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)

S WK 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

S WK 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

S WK 4083 Undergraduate Social Work Research Methods I 3 Credit Hours
Prerequisite: senior standing and S WK 2223 or equivalent. Introduction to the design and implementation of quantitative and qualitative research methods appropriate to social work practice evaluation and program evaluation. (F)

S WK 4093 Undergraduate Social Work Research Methods II 3 Credit Hours
Prerequisite: S WK 4083. Introduction to applied data analysis methods appropriate to research in social work practice evaluation and human services program evaluation. (Sp)

S WK 4103 Generalist Practice with Organizations and Communities 3 Credit Hours
Prerequisite: S WK 3113; Majors only. Third of three methods courses in the social work practice sequence using a generalist model focuses on knowledge, values and skills requisite for social work practice with various client systems. Course emphasizes development of knowledge and skills specific for assessment and intervention with organizations and communities. (Sp)

S WK 4163 Child Abuse and Neglect 3 Credit Hours
(Slashlisted with S WK 5163) Prerequisite: upper-division standing or permission of instructor. Introduction to the field of child abuse and neglect. Examines the history of the field, different forms of abuse and neglect, causative factors, abuse and neglect dynamics, treatment approaches, the social services system, and prevention strategies. No student may earn credit for both 4163 and 5163. (Irreg)

S WK 4170 Special Topics in Social Work and Social Welfare 2-3 Credit Hours
(Slashlisted with S WK 5170) 2 to 3 hours. Prerequisite: upper-division standing or permission of director. May be repeated with change of content; maximum credit nine hours. Focus is on issues significant to social work or social welfare. No student may earn credit for both 4170 and 5170 on the same topic. (Irreg.)

S WK 4313 Practicum Seminar I 3 Credit Hours
Prerequisite: senior standing, majors only; corequisite: 4315. The integration of classroom course content with the learning of practice skills in the field setting. (F, Sp, Su)

S WK 4315 Practicum I 5 Credit Hours
Prerequisite: majors only, senior standing; corequisite: S WK 4313. A structured, educationally directed experience in social work practice, provided under the supervision of a qualified social worker as practicum instructor. (F, Sp, Su)

S WK 4323 Practicum Seminar II 3 Credit Hours
Prerequisite: Social Work BASW majors only; S WK 4313; senior standing; corequisite: S WK 4325. This is the Capstone course for the BASW. The purpose of this course is for students to demonstrate application of major social work content including social work research, social welfare policy, human behavior in the social environment, human diversity, and social work practice in the context of a field practicum setting. (F, Sp, Su)

S WK 4325 Practicum II 5 Credit Hours
Prerequisite: S WK 4315 and S WK 4313; majors only; senior standing; permission of instructor; corequisite: S WK 4323. A continuation of the educational experience in S WK 4315. In combination with Practicum Seminar II (S WK 4323), this course comprises the General Education capstone experience in social work. (F, Sp, Su) [V].

S WK 4573 Disaster Response in Japan: A Human Rights Approach 3 Credit Hours
(Slashlisted with S WK 5573) Prerequisite: Junior standing or instructor permission. This course provides experiences and knowledge of how human advocacy services are provided to victims of disasters in Japan, man-made or natural. This is the study abroad program which was cultivated within the frameworks of Experiential and Transformative Learning theories, specifically for students to gain knowledge of and experience in global human rights aspects in social work. No student may earn credit for both 4573 and 5573. (Sp) [IV-NW].

S WK 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

S WK 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

S WK 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be covered; permission of instructor and undergraduate program coordinator. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field practicum projects. (F, Sp, Su)

S WK 5013 Advanced Standing Seminar I 3 Credit Hours
Prerequisite: Graduate standing and admission to the MSW Advanced Standing program. The first of two courses designed to enhance the preparation of advanced standing students. Foundation content in human behavior in the macro social environment, practice with groups, organizations and communities, policy practice and advocacy, research, implementation and evaluation of evidence-based practices on macro level, human diversity and societal oppression, and ethics are studied. (Su)

S WK 5023 Advanced Standing Seminar II 3 Credit Hours
Prerequisite: Graduate standing, admission to the MSW Advanced Standing program, and S WK 5013. The second of two seminar courses designed to enhance the preparation of advanced standing students in social work. Foundation content in theories of human behavior in the micro social environment, practice with individuals and families, implementation and evaluation of evidence-based interventions, research, and ethics are overviewed. Individualized student professional development is emphasized. (Su)

S WK 5083 Social Work Research Methods 3 Credit Hours
Prerequisite: Graduate standing in Social Work. Introduction to the design and implementation of quantitative and qualitative research methods used to evaluate the effectiveness of social work practice and policies. (F)

S WK 5093 Social Work Research Methods II 3 Credit Hours
Prerequisite: graduate standing in Social Work and S WK 5083. Introduction to applied data analysis methods appropriate to research in social work practice evaluation and human services program evaluation. (Sp)

S WK 5153 Seminar on Community Health 3 Credit Hours
Prerequisite: graduate standing in social work or permission of instructor. This is an intensive course that immerses students within the OU-Tulsa School of Community Medicine Summer Institute. A variety of experiential learning methods are combined into an interdisciplinary setting. Full participation in the Summer Institute is required in addition to specific assignments relevant to social work. (Irreg.)

S WK 5163 Child Abuse and Neglect 3 Credit Hours
(Slashlisted with S WK 4163) Prerequisite: graduate standing or permission of instructor. Introduction to the field of child abuse and neglect. Examines the history of the field, different forms of abuse and neglect, causative factors, abuse and neglect dynamics, treatment approaches, the social services system, and prevention strategies. No student may earn credit for both 4163 and 5163. (Irreg.)

S WK 5170 Special Topics in Social Work and Social Welfare 2-3 Credit Hours
(Slashlisted with S WK 4170) 2 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Focus is on issues significant to social work or social welfare. No student may earn credit for both 4170 and 5170 on the same topic. (Irreg.)

S WK 5213 Infant Mental Health 3 Credit Hours
Prerequisite: graduate standing in social work or permission of instructor. This course provides an overview of clinical and policy information necessary to effectively assess, and provide treatment for children ages 1 - 5 years and their families. (Irreg.)

S WK 5233 Human Behavior: Individuals, Families, and Treatment Groups 3 Credit Hours
Prerequisite: graduate standing in Social Work. Within a social systems framework and biopsychosocial perspective, students learn empirically based theories which deal with life-span development and family behavior. This course provides a theoretical foundation for micro- and mezzo- level generalist practice. (F)

S WK 5243 Human Behavior II: Groups, Organizations and Communities 3 Credit Hours
Prerequisite: graduate standing in Social Work and S WK 5233. Building on the theoretical content in S WK 5233, students learn theories related to group, organization, and community dynamics and behavior. Special attention is given to establishing theoretical foundations for the assessment of mezzo and macro level systems. (Sp)

S WK 5253 Alcohol and Other Drugs 3 Credit Hours
Prerequisite: graduate standing in Social Work or permission of instructor. Integrated focus on the action of drugs and the consequences of AOD use, abuse, and addiction. Historical and current policies as well as issues are also examined. Attention is given to diverse populations, research findings and theoretical perspectives. (Irreg.)

S WK 5263 Biopsychosocial Aspects of Health and Behavior 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. The primary focus of this course is on enhancing knowledge and understanding of biological determinants of health and behavior as they interact with the environmental dimensions of health and behavior. These issues will be discussed in relation to the individual, and family, as well as ethical and policy and program implications. (Irreg.)

S WK 5273 School Social Work 3 Credit Hours
Prerequisite: graduate standing in social work or permission of instructor. Designed to help prepare students for social work practice in school settings. It covers a range of practice and policy issues along with the multiplicity of school social worker roles and responsibilities. Currently offered as an internet course. (Irreg.)

S WK 5283 Tribal-U.S.Child/Family Welfare Policy and Practice 3 Credit Hours
Prerequisite: graduate standing. Examines and critically analyzes the policies, regulations, and organizational change issues that aim to improve the lives of children, youth, and families from tribal and United States backgrounds. The contexts, forces, and ideologies that produce the often-changing goals and methods of agencies serving children and their families at a tribal, state, and national levels will be examined. Emphasis will be placed on current opportunities and dilemmas facing Indian child welfare programs and public and private child welfare agencies. Using social and behavioral science research and information related to diversity and social justice, critical frameworks for assessing and analyzing child welfare policies, service systems, and organizational structures will be developed. It is highly recommended that S WK 5293: Social Work with American Indians be taken prior to this course. (Irreg.)

S WK 5293 Direct Practice with Diverse Students, Disabilities, & Transition 3 Credit Hours
Prerequisite: S WK 5103 or EDSP 5093 or permission of instructor; Social Work or Educational Psychology graduate students only. An overview of the theory and skills needed to work with diverse students including students with disabilities as they prepare to transition from school to adult life. Focuses on the knowledge, values, skills, and techniques appropriate for engagement, assessment, intervention and evaluation with diverse students preparing for transition. (Su)

S WK 5303 American Indian Behavioral Health 3 Credit Hours
Prerequisite: graduate standing. Provides the knowledge, skills, and self-awareness necessary for culturally relevant behavioral health services to tribal populations located in the United States. Knowledge will encompass traditional tribal conceptualizations of mental health and the impact of colonization. Indigenous and Western theories will frame the development of skills for mental health and substance abuse assessment, interventions, and prevention with individuals, families, and communities with a particular focus on tribal youth. It is highly recommended that S WK 5293: Social Work with American Indians be taken prior to this course. (Irreg.)

S WK 5313 Policy Practice in Social Work: Analysis and Advocacy 3 Credit Hours
Prerequisite: graduate standing in Social Work. A historical and descriptive review of federal and state social welfare programming, an introduction to practice skills of policy analysis, and advocacy in affecting development, change, or implementation of social welfare policy. (F, Sp)

S WK 5333 Human Diversity and Societal Oppression 3 Credit Hours
Prerequisite: graduate standing in Social Work. Provides graduate students with social work knowledge of human diversity from a social justice perspective. Knowledge of diverse groups' norms/values, differential power, societal oppression, and transactions between and within social groups is emphasized. (F)

S WK 5343 Social Work with American Indians 3 Credit Hours
Prerequisite: graduate standing in Social Work, Native American Studies or junior/senior undergraduate standing in Social Work or Native American Studies. An introduction to issues influencing social work among American Indians. Knowledge of tribal culture, historical and contemporary oppression, sovereign status, and current service contexts will be framed against the strengths and empowerment perspectives. The skills and values unique to social work with American Indians will be developed to form the essential foundation for effective practice across the individual, family, clan, community, and tribal nation. (Irreg.)

S WK 5353 International Child Welfare 3 Credit Hours
Prerequisite: graduate standing. Comparative study of child welfare policies and practices in Israel and the United States through study abroad. Content areas include international and comparative frameworks in policy and practice analyses, child welfare practices in the United States and Israel, governmental and not-for-profit sectors for the protection of children and their families, cross-cultural learning exchanges with social work students and social workers in Israel and the United States. (Su)

S WK 5363 Health & Social Work 3 Credit Hours
Prerequisite: graduate standing or special permission for undergrads. Designed to develop practice-based knowledge of social work in health care settings, medical terminology, health care provisions, interdisciplinary teams, and insurance issues; the effects of illness and disease on the patient and families, the importance of patient rights and the intersection of culture, gender, age, class, and sexual orientation, on the interactions between the patient, healthcare system and professionals. (Irreg.)

S WK 5373 Theory, Practice, and Evaluation with Individuals 3 Credit Hours
Prerequisite: Graduate standing in Social Work. This course provides the theoretical background, practice skills, and research experience necessary for generalist social work practice and evaluation at the individual level. The generalist intervention model is the foundation for teaching the knowledge, values, skills, cognitive, and affective processes necessary for engagement, assessment, intervention, and evaluation with individuals. (F, Sp)

S WK 5383 Theory, Practice, and Evaluation with Families and Groups 3 Credit Hours
Prerequisite: Graduate standing in Social Work. This course addresses foundation-level components of theory, practice, and evaluation related to generalist social work practice with families and groups. Students learn key explanatory theories about how families and groups operate, and are introduced to generalist practice models for practice with these client types. Students also learn about how to effectively evaluate practice with families and groups. (F, Sp)

S WK 5393 Theory, Practice, and Evaluation with Communities and Organizations 3 Credit Hours
Prerequisite: Graduate standing in Social Work. Exploration of the generalist perspective focusing on the knowledge, values, skills, and techniques appropriate to assessment and interventions with organizations and communities. (F, Sp)

S WK 5403 Professional Social Work 3 Credit Hours
Prerequisite: Graduate standing in Social Work. This course is an overview of social work as a profession, including central concepts and theories, values, ethics, and career pathways. The profession's historical development is included along with a focus on poverty and economic disparity, human rights and social justice, and human diversity. It provides an introduction to the generalist practice model across system levels.

S WK 5413 Social Work Practicum I 3 Credit Hours
Prerequisite: Graduate standing in Social Work, and permission of practicum coordinator. Professionally supervised foundation year practicum placement in an area social service agency. (F, Sp, Su)

S WK 5423 Social Work Practicum II 3 Credit Hours
Prerequisite: Graduate standing in Social Work, and S WK 5413 or concurrent enrollment. A professionally supervised practicum placement in an area social service agency; a continuation of S WK 5413. (F, Sp, Su)

S WK 5433 Human Lifespan Development 3 Credit Hours
Prerequisite: Graduate standing in Social Work. Within a social systems framework and biopsychosocial perspective, students learn empirically-based theories that deal with lifespan development and family theory. This course provides an introduction to small group dynamics and development as well as a theoretical foundation for micro and mezzo level generalist practice. (F, Sp)

S WK 5513 Client-Centered Direct Practice 3 Credit Hours
Prerequisite: Graduate standing in Social Work. This course addresses clinical practice across the lifespan with application to individuals, families, and groups. Evidenced informed practice provides a framework within which empirically supported treatment modalities are explored as they relate to the intersecting domains of trauma, substance abuse, and mental health. (F)

S WK 5523 Macro Systems in Practice 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. This course utilizes an advanced generalist perspective focused on advancing the knowledge, values, skills, and techniques appropriate to engagement, assessment, and intervention with organizations and communities. (F)

S WK 5573 Disaster Response in Japan: A Human Rights Approach 3 Credit Hours
(Slashlisted with S WK 4573) Prerequisite: Graduate standing or permission of instructor. This course provides experiences and knowledge of how human advocacy services are provided to victims of disasters in Japan, man-made or natural. This is the study abroad program which was cultivated within the frameworks of Experiential and Transformative Learning theories, specifically for students to gain knowledge of and experience in global human rights aspects in social work. No student may earn credit for both 4573 and 5573. (Sp)

S WK 5733 Mental Health Assessment and Diagnosis 3 Credit Hours
Prerequisite: graduate standing in social work or permission of instructor. Designed to assist the student in understanding and using the prevailing psychiatric taxonomic system, the diagnostic and statistical manual of mental disorders (DSM-IV-TR). Prepares students to function in clinical settings where familiarity with the DSM-IV-TR criteria and the multi-axial diagnostic framework is fundamental knowledge. Additionally, students will examine the benefits and risks of this psychiatric taxonomy in relationship to diversity, culture, prevention, treatment, and recovery from a mental illness. Therapeutic interventions including psychopharmacological strategies will be critically examined. Currently offered as an internet course. (Irreg.)

S WK 5753 Child and Adolescent Psychopathology: Assessment and Treatment 3 Credit Hours
Prerequisite: graduate standing in social work or permission of instructor. Provides an overview of clinical information necessary to effectively assess, diagnose and provide social work treatment for children and adolescents in need of mental health services. Currently offered as an internet course. (Irreg.)

S WK 5816 Social Work Practicum III 6 Credit Hours
Prerequisite: Graduate standing in Social Work, S WK 5513, S WK 5523, and permission of instructor. This course offers an educationally focused and professionally supervised practicum placement in a social service agency and requires a minimum of 550 clock hours at an assigned practicum site. (Sp, Su)

S WK 5826 Social Work Practicum IV 6 Credit Hours
Prerequisite: Graduate graduate standing in Social Work, S WK 5513, S WK 5523, and permission of instructor. This course offers an educationally focused & professionally supervised practicum placement in a social service agency & requires a minimum of 550 clock hours at an assigned practicum site. (Sp, Su)

S WK 5960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing in Social Work and permission of the department. Directed readings and/or literature reviews under the direction of a faculty member. May be repeated; maximum credit six hours. (F, Sp, Su)

S WK 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

S WK 5973 Advanced Integrative Seminar 3 Credit Hours
Prerequisite: Graduate standing in Social Work. This is an advanced integrative seminar for concentration year students taken in the final semester. The course builds on foundation and concentration course work throughout the MSW curriculum using critical thinking that incorporates micro and macro systems case analysis and decision-making. (Sp)

S WK 5980 Research for Master's Thesis 2-6 Credit Hours
Prerequisite: permission of instructor. Research for Master's thesis. Variable enrollment, two to six hours; maximum credit applicable toward degree: six hours. (F, Sp, Su)

S WK 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Wells	Steven	P	1988	CLINICAL ASSOCIATE PROFESSOR OF SOCIAL WORK, 2013; SIMULATION CENTER COORDINATOR, SCHOOL OF SOCIAL WORK, 2015	PhD, Univ of Oklahoma, 2006; MSW, Univ of Oklahoma, 1985; BA, Central State Univ, 1972

Social Work, B.A.

Minimum Total Credit Hours: 120
Major Hours: 49
Minimum Upper-Division Hours: 48
Overall GPA - Combined and OU: 2.50
Major GPA - Combined and OU: 2.50

Program Code: B840

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or College of Arts & Sciences Requirements.**
- Social Work majors must earn at least a 2.50 overall grade average; at least a 2.50 grade average in required social work courses; an S in S WK 4315 and S WK 4325; and at least a C in all required social work courses and the major support requirements.

- Students must earn a minimum GPA of 2.25 to be eligible for admission.

Prior to Junior Year: Students who have completed prerequisites and meet the minimum grade requirement must file an application to be admitted to the program. ***Because admission is competitive, not every applicant will be admitted.***

Code	Title	Credit Hours
S WK 2113	Introduction to Social Work	3
S WK 2223	Statistics for Social Work	3

Total Credit Hours		49

[1] All majors must complete a statistics course before enrolling in S WK 4083.

[2] S WK 4323 and S WK 4325 satisfy the University-Wide General Education Capstone requirement for the Social Work major.

Major Support Requirements

Code	Title	Credit Hours
Choose one of the following (with or without a laboratory):		3-5
BIOL 1005	Concepts in Biology	
BIOL 1013	Introduction to Biology	
BIOL 1114	Introductory Zoology	
BIOL 1124	Intro Biol: Molecule/Cell/Phys	
BIOL 1134	Introductory Biology: Evolution, Ecology and Diversity	
BIOL 2124	Human Physiology	
BIOL 2234	Introduction to Human Anatomy	
BIOL 2255	Human Anatomy	
HES 1823	Scientific Principles of Health and Disease	
PSY 1113	Elements of Psychology	3
SOC 1113	Introduction to Sociology	3
Total Credit Hours		9-11

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3

Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]	3
Core Area V: Senior Capstone Experience (3 hours)	
Choose one General Education Capstone course	3
Total Credit Hours	56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and School of Social Work academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Social Work major requirements.

Course	Title	Credit Hours

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Social Work: Advanced Standing, M.S.W.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Social Work with American Indians, Graduate Certificate

Minimum Total Hours: 15

Program Code: G104

The Anne and Henry Zarrow School of Social Work offers an embedded Graduate certificate in Social Work with American Indians. Typically obtaining a certificate does not add courses to your MSW degree but rather specifies the electives taken.

Courses cannot be double counted towards more than one graduate certificate, and certificates cannot be added post-graduation.

Certificate Requirements

Code	Title	Credit Hours
S WK 5343	Social Work with American Indians	3
S WK 5303	American Indian Behavioral Health	3
S WK 5283	Tribal-U.S.Child/Family Welfare Policy and Practice	3
Choose 6 hours from S WK and/or NAS as approved by the Graduate Liaison and Social Work with American Indians Certificate Coordinator		6
Total Credit Hours		15

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.

- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Department of Sociology

Loretta Bass, Chair
B. Mitchell Peck, Graduate Liaison
331 Kaufman Hall
780 Van Vleet Oval
Norman, OK 73019-2033

FAX: (405) 325-7825
soc@ou.edu
www.ou.edu/cas/soc

General Information

The Department of Sociology has two interrelated missions: to provide the highest quality education at the baccalaureate, master's, and doctoral levels, and to foster state-of-the-art research among faculty and graduate students. Teaching and research in the department help meet the needs of the state and nation by addressing important social issues. The undergraduate program contains two degree options, one in general sociology and one in criminology. Graduate level areas of concentration are class stratification, criminology and deviance, family, gender, cross-national Sociology, race and ethnicity, religion, and social psychology. Contemporary issues within these areas are emphasized, and their historical, comparative, and global dimensions are explored. Through research, we seek to update and refine knowledge in each area to assist in formulating and evaluating social policy.

At both the undergraduate and graduate levels, coursework in Sociology provides an analytic research emphasis for studying, understanding, and explaining major issues. Research in these areas updates and refines knowledge and, further, helps formulate and evaluate social policy.

The undergraduate curriculum in sociology prepares students for jobs in a wide-variety of occupations and for admission to advanced degree programs, especially in sociology, law, and criminal justice. The graduate program provides more intensive instruction and stimulates further intellectual growth and maturity. Graduate students completing a degree in sociology typically find employment in academic settings as professors and researchers, and in the public or private sectors as statistical analysts and research coordinators. The quality of the programs in sociology can be measured by the successful placement of our graduates in agencies, corporations, graduate and professional programs, research settings, and colleges and universities.

A major strength of the department's graduate program is its training in research methods and statistics. The department maintains its own computer lab equipped with advanced statistical package software. Core seminars in statistics and methods encourage participation in all phases of research, from research design to data collection and analysis to the presentation of findings. Strength in this area complements coursework in the department's three substantive areas of interest, and encourages students to be independent researchers and informed teachers. The department's graduate students regularly present research papers at professional meetings, and have been very successful in winning competitions with these papers.

Programs & Facilities

Inside-Out Prison Exchange Program

The Inside-Out Prison Exchange Program is an educational program tailored to effectively facilitate dialogue across difference. It originated as a means of bringing together campus-based college students with incarcerated students for a semester-long course held in a prison, jail or other correctional setting.

ADQUANT - Advanced Quantitative Methods Working Group

The Advanced Quantitative Methods Working Group (ADQUANT) is a collaborative forum for the discussion and dissemination of quantitative approaches to data analyses across the social sciences. We are interested in developing an understanding of advanced statistical methods and facilitating interdisciplinary approaches to data analyses throughout the OU campuses and beyond.

Sociology and Criminology Club

The purpose of the Sociology/Criminology Club (SCC) is to provide a forum for undergraduate students who are interested in criminology and sociology. The mission of the SCC is to inform its members about careers, internships, graduate study, and other opportunities available in criminology and sociology and to provide a setting in which they can meet and socialize with other students who share similar interests.

Undergraduate Study

Bachelor of Arts

The Department of Sociology at OU offers two options within the Bachelor of Arts in Sociology program: the General Sociology (p. 647) option and the Criminology (p. 649) option. The general sociology option gives students a broad education in the field of sociology, and students can select any type of upper-division sociology electives to complete the major. The criminology option focuses on criminology, a specialized area within sociology, so students on this track take upper-division electives that focus on the nature, extent, causes, and control of criminal behavior.

Students considering a major in Sociology should contact the department for assistance in selecting courses which contribute to the student's educational and career plans. Students who intend to pursue careers in social agencies, corporations, or research settings will be advised regarding courses most appropriate to those interests. Students wishing to enroll in graduate or professional school will be advised regarding courses normally prerequisite to such work.

Minors

- General Sociology Minor (p. 652)
- Criminology Minor (p. 652)

Graduate Study

The Master of Arts (p. 655) in Sociology and Doctor of Philosophy (p. 656) programs in sociology emphasize the learning of research methods and statistics in conjunction with chosen substantive area(s) of interest. The department offers six different courses in which graduate students develop research skills. At the doctoral level, students may choose to specialize in any two areas from the three areas of emphasis in the department.

Admission Requirements

See Department of Sociology graduate programs page for admission information.

Additional Doctoral Program Information

With few exceptions, the student seeking the Sociology Ph.D. (p. 656) anticipates a career in teaching and/or research. Departmental requirements emphasize professional competence in sociology as a whole, especially research methodology, and expertise in two fields within sociology. At the PhD level, the student should acquire a broad knowledge of the fundamentals of sociology and a focused specialization in two substantive areas of expertise.

A plan of study, filed formally with the Dean of the Graduate College, should develop the student's knowledge of and expertise in sociology broadly defined, as well as two substantive areas of sociological expertise. The plan of study must include the core requirements for the MA plus one additional theory course. This is especially important to highlight for students who are transferring credits from other universities or entering the doctoral program with a Master's degree in a related field. The plan of study must contain sufficient coursework to prepare a student for the general examination. The program of coursework and the committee can be amended as needed. A maximum of 44 credit hours may be transferred from other universities with the permission of a student's advisory committee and the Dean of the Graduate College.

The purpose of the graduate coursework is to prepare the student for the general examination and the dissertation. The accumulation of coursework, in and of itself, does not constitute progress toward the degree.

The general examination in sociology consists of a written component and an oral component. It usually is taken in the fall semester of the third year of the program. Once the relevant elements of the written component of the exam are considered satisfactory, then the student may proceed to the oral component of the general exam. In cases where the student's written answers were considered satisfactory but the performance on the oral component of the exam was not, he/she will retake the oral component of the general exam in the following semester (timing to be determined in consultation with the student's committee). A second unsatisfactory performance on the oral component of the general exam will result in dismissal from the program.

The doctoral dissertation is written and defended under the guidance of the student's doctoral committee consisting of five members of the graduate faculty, at least one of whom is from outside the Department of Sociology.

Ph.D. students, having sole responsibility for teaching a course in the Department, are also required to take Professionalization Seminar and the Teaching Seminar (SOC 5831).

Courses

SOC 1113 Introduction to Sociology 3 Credit Hours
The fundamental concepts of sociology; foundations of group life; social change, processes, and problems. (F, Sp, Su) [III-SS] .

SOC 1523 Social Problems 3 Credit Hours
Analysis of major social problems of contemporary U.S. and policy debates concerning them. Examination of social science theory and research that are relevant to understanding these problems. Development of social institutions in which social problems occur. (F, Sp, Su) [IV-WC] .

SOC 2523 Global Social Problems 3 Credit Hours
Provides an overview of pressing global social problems with attention to developing insights into the conceptual analyses of meaningful solutions from a sociological perspective. Readings discuss the relationships among various levels of the social system, so that social roots of pressing issues are recognized and used as a tool to suggest alternative approaches to address them. (Irreg.) [III-SS].

SOC 2970 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

SOC 3123 Social Statistics 3 Credit Hours
(Crosslisted with P SC 3123) Prerequisite: SOC 1113 and any General Education Math EXCEPT Philosophy 1113 or Philosophy 3113. Descriptive and inferential statistics as they are used in sociology to analyze survey and macro-level data. Problems of research design and interpretation of analysis in sociological theory are major topics. A grade of C or better in this course is a prerequisite for Sociology capstone courses. (F, Sp, Su)

SOC 3133 Methods of Social Research 3 Credit Hours
Prerequisite: SOC 1113 and any General Education Math EXCEPT Philosophy 1113 or Philosophy 3113 or permission of instructor. Basic elements of the scientific method as applied to the study of human group life. Examines the problem of conceptualization, the formulation of hypotheses, designs of proof, the interdependence of theory and fact and the techniques and procedures for assembling and ordering of data. A grade of C or better in this course is a prerequisite for Sociology capstone courses. (F, Sp, Su)

SOC 3353 Race, Class and Gender 3 Credit Hours
(Crosslisted with WGS 3353) Prerequisite: junior standing or permission of instructor. Explores the intersections of race, ethnicity, class, gender and sexuality. Focus is on how systems of power and oppression reinforce each other,how they intersect in shaping social structure and individual experiences, and how the systems of oppression are mutually reinforcing. Theories and practice of intersectionality, how gender, race, class and other categories of identity are constructed and reproduced in social, political and economic structures, and experienced in every day life. (F, Sp)

SOC 3363 Sociological Theory 3 Credit Hours
Prerequisite: SOC 1113 and ENGL 1213 or EXPO 1213; majors only; not open to freshmen. Consideration of classical sociologists including Durkheim, Weber, and Marx. Attention is devoted to the application of classical theories to current research issues. (F, Sp)

SOC 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

SOC 3523 Criminology 3 Credit Hours
Prerequisite: 1113 or sophomore standing. A study of the nature and causes of various forms of deviant and illegal behavior, especially serious personal injury and property crimes (e.g., homicide, burglary). While some consideration is given to biological and psychological explanations, the primary focus is on sociological theories that attempt to explain crime, criminality, and victimization in modern societies. (F, Sp)

SOC 3533 The System of Criminal Justice 3 Credit Hours
Prerequisite: 1113 or permission of instructor. An analysis of the sociological literature on the American system of criminal justice, viewed as a system of social control. Emphasis is on the functional significance of the system in relation to the various interests represented in the law. Attention given to special problems in each of the major components of the system: law enforcement, the administration of justice and corrections. (F, Sp)

SOC 3543 Sociology of Deviance 3 Credit Hours
Prerequisite: SOC 1113 or permission of instructor. The sociological study of deviant behaviors. Focus is on sociological theories and processes by which behaviors are defined as deviant, and how these definitions affect the individual. (F, Sp)

SOC 3553 Sociology of Law 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Provides a sociological understanding of the interrelationship between law and society. Covers the origins of law, types of legal systems, theories of punishment, and examines law as an independent variable (i.e., as a mechanism for social change) and as a dependent variable (i.e., how laws are created or changed by social pressure). (F, Sp)

SOC 3603 Sociology of Education 3 Credit Hours
Prerequisite: 1113. Examines a variety of historical and contemporary educational issues. Major themes include the function of education in society, racial/ethnic segregation in public schools, the relationship between education and social mobility, and school reform (Irreg.)

SOC 3623 Racial and Ethnic Minority Groups 3 Credit Hours
Prerequisite: SOC 1113 or permission of instructor. Intergroup conflict resulting from the efforts of subordinate groups. Consideration of theories of prejudice and discrimination as devices of control over racial, religious, ethnic and other minority groups. (Irreg.)

SOC 3643 Population and Society 3 Credit Hours
Prerequisite: SOC 1113 or permission of instructor. Introduction to population study. Analysis of human mortality, fertility and migration. Evaluation of demographic theories with emphasis on social and cultural factors. (Irreg.)

SOC 3653 Race and Religion 3 Credit Hours
Prerequisite: SOC 1113 or permission of instructor. Focuses on how race and ethnic issues influence, and are influenced by, religion within the United States. Looks at historical and theoretical examinations of religion and race/ethnic relations and empirical evidence of the ways religion can influence racial issues such as racism, discrimination and stratification. (Irreg.)

SOC 3663 Sociology of Music 3 Credit Hours
Prerequisite: Junior standing. The course is an historical, theoretical, and sociological exploration of music. The course addresses diverse topics such as how the current system of music developed, the distinction between high culture and popular culture, and the ways race, gender, class and other social distinctions influence the production and consumption of music. (F, Sp)

SOC 3683 Wealth, Power, and Prestige 3 Credit Hours
Prerequisite: 1113 or sophomore standing or above. Examines the systems in which the central elements of class stratification--wealth, power, and prestige--are created and distributed and addresses the issue of "who gets how much and why?". Topics include a review of the theories and evidence in current stratification studies and an assessment of the racial, ethnic, and religious correlates of inequality. (F, Sp)

SOC 3713 Medical Sociology 3 Credit Hours
Prerequisite: 1113 or permission of instructor. A study of cultural and class factors in health and morbidity. Focus is on the social organization of medical services, including discussion of the hospital as a social institution. The role of medical and paramedical personnel and the interaction of the medical system with other social institutions such as government, church, education, and family. (Irreg)

SOC 3723 Sociology of Family 3 Credit Hours
Prerequisite: 1113 or sophomore standing or above. The sociological study of the family as an institution; the origin and development of the family; the interrelationships of the family and the larger society; the environmental conditions which seem to favor the development and continuance of the major family forms; the rise of the modern democratic family; characteristic patterns of change in the contemporary family. (F, Sp)

SOC 3733 Sociology of Gender 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Sociological analysis of the reinforcement of gender roles by the major institutions of society. Examine the effects on gender roles of education, mass media, economics, public policy, law, religion, and society. (Irreg)

SOC 3763 Sociology of Ireland 3 Credit Hours
Prerequisite: SOC 1113 and ENGL 1213 or EXPO 1213. May be repeated once with change of location; maximum credit 6 hours. Focuses on Irish identities. Focus will be on national identity including ethnicity, religion, and politics. Covers identity issues related to social class, gender, sports and local identity (such as Corkonians identification as "The Rebels"). This course may count as Sociology elective credit. The course will be held either in Ireland as a four-week Summer course, primarily in Cork, or as a regular semester course in Norman. (Irreg.)

SOC 3773 Sociology of Religion 3 Credit Hours
Prerequisites: SOC 1113 or sophomore standing. Using the perspectives and methods of social science, and particularly sociology, the common social dimensions of all religions including moral definitions; micro-level processes of membership, conversion and socialization; the life-cycle of religious institutions; and religion's relationship to health, science, and important institutions like the American family, economy, and politics will be examined. (F, Sp, Su)

SOC 3783 Sports, Competition, & Society 3 Credit Hours
Prerequisite: SOC 1113 or sophomore standing. This course adopts a sociological approach to understanding sports, athletic performance, and competition. Specific components include an examination of individual athletes, competitive groups, and how sports mirrors society in allocating roles, offering rewards and punishments, transmitting values, and confronting deviance. The course also draws attention to how sports evolve over time from technological advances. (Irreg.)

SOC 3803 Inequality in A Global Perspective 3 Credit Hours
Prerequisite: SOC 1113 or sophomore standing or above. Examines the causes and consequences of socioeconomic inequality in contemporary societies (including the United States) by using theories and research evidence from the vantage point of international political economy. Topics include the nature, structure, and hierarchy of the global economy; the link between international and national distributions of wealth and power; and the racial, ethnic, and religious correlates of social inequality. (Irreg.)

SOC 3813 Individual and Society 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Introduction to social psychological theories and findings. Covers socialization, identity development, emotions, social interaction, deviant behavior, and small group behavior. (Irreg.)

SOC 3843 Sociology of Aging 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Comprehensive description of the dimensions of aging. The point of departure is the notion that to talk meaningfully about one aspect of aging requires consideration of its other dimensions. (Irreg)

SOC 3853 Sociology of the Body 3 Credit Hours
Prerequisite: SOC 1113. Examines various forms of body modification from a sociological perspective. We will begin by learning the more popular sociological theories on the body, particularly the docile/disciplined and the carnivalesque/grotesque body. The next section of the course will focus on body modification conceptualized as "body art" with a particular focus on tattooing and piercing, but also covering scarification and other (permanent) forms of body art. The third section will focus on normalization surgeries or surgeries of the "disabled". The final section of the course will focus on cosmetic (as opposed to plastic) surgery as a method of modification. As we move from one section to the next, students should consider the legitimacy or limitations of the above categorization scheme. (Sp)

SOC 3873 World Religions and Society 3 Credit Hours
Prerequisite: sophomore standing. The course examines the major world religions, how they develop historically and in the context of other social institutions. Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, Islam, and Native Traditions will be considered. Students will study how religious institutions are influenced by, and have an influence on, societies and the people in them. (F, Sp) [IV-NW] .

SOC 3890 Special Topics For Non-Majors 1-3 Credit Hours
Special Topics For Non-Majors. 1 To 3 Hours. Prerequisite: 1113 Or Permission Of Instructor. May Be Repeated With Change Of Content; Maximum Credit Six Hours. This Course Cannot Be Used To Satisfy The Major Requirements In Sociology. (F, Sp, Su)

SOC 3893 Environment, Ecology and Society 3 Credit Hours
Prerequisite: SOC 1113 or permission of instructor. Examines relationships between environmental factors and human social arrangements. The class will be organized around these and a number of related topics, which will help to shape the readings, lectures, and discussions. (Irreg.)

SOC 3900 Special Topics in Sociology 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit six hours. Cover topics not currently offered in regularly scheduled courses. (Irreg)

SOC 3913 The Death Penalty in the United States 3 Credit Hours
Prerequisite: 1113 and 3523. Provides an overview of capital punishment in the United States, and Oklahoma in particular, from a sociological perspective. History of capital punishment in the United States specific cases related to the death penalty, and arguments for and against the use of capital punishment. (Irreg.)

SOC 3923 Alcohol, Drugs and Society 3 Credit Hours
Prerequisite: 1113 and 3523. Explores sociological explanations of alcohol and drug use with a special emphasis on current issues in the United States. (Irreg.)

SOC 3953 Juvenile Justice 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Course examines criminal measurement of juvenile crime, theories of delinquency, legal rights of juveniles and the juvenile justice system. (Irreg.)

SOC 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 and permission of instructor and admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (Irreg)

SOC 3963 Sexual Deviance and Society 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. A critical examination of the sociology of deviant sexual behaviors. Investigations of deviance, criminology and gender through the study of sexual behavior, sex crimes, and victimology. (Irreg.)

SOC 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor and admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg)

SOC 3973 Sociology of Violence 3 Credit Hours
Prerequisite: SOC 1113 and SOC 3523. An examination of the causes, correlates and consequences of various forms of violent crime. An emphasis on the social nature of violence, social institutions related to violence and the social costs of violence. (F, Sp)

SOC 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor and admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (Irreg)

SOC 3983 Women, Girls and Crime 3 Credit Hours
(Crosslisted with WGS 3983) Prerequisite: SOC 1113 and SOC 3523, or permission of instructor. In-depth examination of crime and the justice system as it relates to girls and women. The focus will be on girls and women as victims, girls and women as offenders, and criminal justice responses to girls and women. (F, Sp)

SOC 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

SOC 3993 Sociology of Gender and Sexuality in the Media 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. The sociological constructions of gender and sexuality will be examined through the context of several forms of American media including advertising, television, and film. Explores how manifestations of "normative" behaviors are reproduced and maintained through media representations of gender and sexuality. Examines advertising, television, and film as they relate to societal shifts in attitudes toward gender and sexuality. (Irreg.)

SOC 4603 Internship in Sociology 3 Credit Hours
Prerequisite: SOC 1113, SOC 3123, SOC 3133, and at least two of the following: SOC 3523, SOC 3533, SOC 3543, SOC 3553, SOC 3623, SOC 3683, SOC 3723, SOC 3733. Work experience in the field of sociology under the supervision of a faculty member. While the instructor will assist in finding internship opportunities, the ultimate responsibility is with the student. Internships may be served in any setting related to the field of sociology. Student will be required to develop a paper linking the work experience to scholarly research in sociology. (F, Sp, Su)

SOC 4843 Capstone in Criminology 3 Credit Hours
Prerequisite: SOC 1113, SOC 3123 (C or better), SOC 3133 (C or better), and at least two of the following: SOC 3523, SOC 3533, SOC 3543, SOC 3553, and permission of instructor. Students will actively participate in an in-depth analysis and discussion of current research topics in the sociological study of criminology (crime and delinquency, deviance, sociology of law, criminal justice). Students will use material learned in Sociology 3123, 3133 and 3000-level substantive courses and will be required to demonstrate in written assignments their ability to understand and critique current quantitative research. (F, Sp) [V] .

SOC 4943 Capstone in General Sociology 3 Credit Hours
Prerequisite: SOC 1113, SOC 3123 (C or better), SOC 3133 (C or better), and at least two of the following: SOC 3363, SOC 3523, SOC 3623, SOC 3643, SOC 3683, SOC 3713, SOC 3723, SOC 3733, SOC 3753, and permission of instructor. As a component of this course, students will actively participate in an in-depth analysis and discussion of a current research topic or topics in sociology. Students will be expected to use material they have learned in Sociology 3123 and 3133, as well as material in substantive courses, and will be required to demonstrate their ability to understand and critique research. (F, Sp) [V] .

SOC 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

SOC 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

SOC 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Fifteen hours of Sociology (including 1113, 3123, 3133) and permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

SOC 5033 Sociology of Housing 3 Credit Hours
(Crosslisted with RCPL 5033) A study of major developments in housing in the U.S. since 1860, including housing reform agitation, sociological problems, ecological patterns of housing areas, minimum standards for healthful housing, government intervention and its current role, and problems of providing adequate housing for different social groups. (F)

SOC 5283 Fundamentals of Sociological Statistics 3 Credit Hours
Prerequisite: SOC 3123 and SOC 3133, or graduate standing in Sociology, or permission of instructor. Advanced statistical concepts and analysis; analysis of variance and covariance; multiple regression analysis; use of computers for statistical analysis. (Irreg.)

SOC 5293 Advanced Methods of Social Research 3 Credit Hours
Prerequisite: SOC 3123 and SOC 3133, or graduate standing in Sociology, or permission of instructor. Advanced research methodology; heavy focus of attention will be on concept measurement, index formation and survey research. (Irreg.)

SOC 5313 Qualitative Research Methods 3 Credit Hours
Prerequisite: graduate standing. Survey of different qualitative methodological strategies used in the social sciences to collect, code, and analyze information. (Sp)

SOC 5323 Advanced Qualitative Research 3 Credit Hours
(Crosslisted with COMM 5323) Prerequisite: 5313. Designed to immerse students in the actual experience of conducting qualitative research in the field, emphasis on participatory observation, ethnographic research, and textual analysis. (F)

SOC 5333 Seminar in the Criminal Justice System 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. A critical examination of the American system of criminal justice. Attention will be given to the unique problems of the system and to each of its component parts. Special emphasis will be placed on the role of extralegal factors in discretionary decision-making by the principal actors within the system. (Irreg.)

SOC 5383 Social Stratification 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. In-depth treatment of sociological theories, methods and research in the area of stratification and inequality. (Irreg.)

SOC 5483 Advanced Regression Analysis 3 Credit Hours
Prerequisite: SOC 5283 and graduate standing in Sociology or permission of instructor. A graduate-level introduction to linear regression analysis. Focuses on theory and empirical applications including topics such as model specification, estimation, interpretation, inferences, and assumptions diagnostics. (Irreg.)

SOC 5523 Criminology 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. Examines the patterns and correlates of crime at the individual, situational, and aggregate levels. Also includes examination of the history of criminological thought as well as contemporary explanations of crime, with an emphasis on critical evaluation of these explanations. (Irreg.)

SOC 5543 Deviance and Social Control 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. A critical examination of the literature on deviance and social control with special emphasis on the scope of the field. The frame of reference for the examination will consist of one or more of the major theoretical perspectives in sociology: the functional, the conflict and the symbolic interactionist. (Irreg.)

SOC 5623 Race and Ethnicity 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. Review of concepts and terminology of social differentiation, and in-depth study of the theories of prejudice and discrimination, power and dominance, and patterns of inter-group relations. Includes a history and analysis of race and ethnicity in the United States and other selected countries. (Irreg.)

SOC 5683 Categorical, Panel, and Advanced Statistical Analyses 3 Credit Hours
Prerequisite: SOC 5483 or permission of instructor. The primary focus of this course will be on the application of categorical outcome regression models for social scientific research questions. The course will also provide a broad-based overview of some advanced statistical models commonly used in the social sciences including basic longitudinal/panel statistical models, hierarchical linear models, and a number of approaches to handling missing data in regression analysis. (Irreg.)

SOC 5703 Sociology of Education 3 Credit Hours
(Crosslisted with EDS 5703) Prerequisite: eight hours of education or permission. Social structure in the community wherein the schools must operate, and the nature of human relations within the school; social processes and patterns involved in our educational system relative to other aspects of our society; effect of the school on the behavior and personality of its participants. Lectures, class discussions, audiovisual materials and outside readings, both scientific and literary, portraying the American social scene. (F)

SOC 5713 Service Learning Practicum in Applied Evaluation 3 Credit Hours
Prerequisite: Graduate standing and departmental permission.
Field experience. Student will observe and document how working professionals perform their job responsibilities. Students will also participate in performing tasks under supervision by program professors and on-site staff. (Irreg.)

SOC 5723 Sociology of the Family 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of the instructor. Analysis of the family as a social institution, focusing on the problems created by changes in the family. The family is examined in historical, cross cultural and demographic perspectives. Applications include consideration of alternative arrangements, including discussion of the probable future of family arrangements in Western society. (Irreg.)

SOC 5733 Sociology of Gender 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. Theoretical and empirical approaches to the study of gender within several substantive areas of sociology such as family, work, race and ethnicity, and social class. (Irreg.)

SOC 5790 Special Sociological Issues 2-3 Credit Hours
2 to 3 hours. Prerequisite: graduate standing in Sociology and permission of instructor. May be repeated with change of content; maximum credit 12 hours. Intensive survey of the literature in a selected area of sociology under the direction of a member of the staff. Instructors rotate each semester. (Irreg.)

SOC 5821 Professionalization Seminar 1 Credit Hour
Prerequisite: Graduate standing and majors only. Prepares students for careers in academia. Comprised of units covering research and service. (Irreg.)

SOC 5823 Social Demography 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. Introduction to the four variables that comprise the subject matter of demography: fertility, mortality, migration, and age structure. Sources of demographic data for the study of these variables are examined and basic demographic statistics are covered. (Irreg.)

SOC 5831 Teaching Seminar 1 Credit Hour
Prerequisite: graduate standing in Sociology. Preparation for teaching sociology. Taken prior to assignment of sole responsibility for teaching a course in sociology. (Irreg.)

SOC 5833 Social Psychology 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. Examines issues regarding research in social psychology and personality psychology. Addresses the history of social psychology research issues, some class controversies, and new research directions in the field. Specific topics include social cognition attitudes, attribution, the self, groups, expectation states, collective behavior, the life course. (Irreg.)

SOC 5873 Advanced Perspectives in World Religions and Society 3 Credit Hours
Prerequisite: graduate standing. The course considers theoretical perspectives on religion. In connection with that, it examines the major world religions, including how they developed historically and in the context of other social institutions. The course examines how religious institutions are influenced by, and have an influence on, societies and the people in them, considering the contemporary world in its comparative and historical context. (Irreg.)

SOC 5893 Seminar in Environment and Society 3 Credit Hours
Prerequisite: graduate standing. Explores the human interface with the natural environment through the sociological perspective, particularly in the late industrial era. How social development, population and technology impact the environment will be studied. Considering ways to think about the complex array of environmental issues as society moves into the Third Millennium will conclude the course. (Irreg.)

SOC 5933 Sociological Theory 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. Intensive analysis of the original writings of classical sociologists including Durkheim, Weber and Marx. Attention is devoted to the application of classical theories to current research issues. (Irreg.)

SOC 5943 Inequality in a Global Perspective 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. Provides an in-depth review and analysis of the sociological concepts and theories used to study how wealth (and its correlates, power and prestige) are created and distributed. Special emphasis is placed upon how these processes occur within a global system. (Irreg.)

SOC 5960 Directed Readings in Sociology 1-4 Credit Hours
Prerequisite: Graduate standing, twelve hours of upper-division sociology. No more than six hours may be counted toward the M.A. degree. No more than twelve hours may be counted toward the Ph.D. degree. Intensive survey of literature in a selected area of sociology under the direction of a sociology faculty member. (F, Sp, Su)

SOC 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing in Sociology or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

SOC 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

SOC 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

SOC 6343 Special Topics in Criminology 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. May be repeated; maximum credit 12 hours. Covers in depth one significant topic in the area of criminology such as, but not limited to, deterrence, longitudinal research, ecology of crime, drugs and alcohol, societal reaction theory, macro-normative theory, micro-normative theory, penology, mental illness, victimology, and violence. (Irreg.)

SOC 6353 Special Topics in Demography 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. May be repeated; maximum credit 12 hours. Covers in depth a topic in the area of demography such as, but not limited to, migration, mortality, fertility, population composition, and segregation. (Irreg.)

SOC 6363 Special Topics in Social Differentiation 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Covers in depth one significant area of social differentiation such as, but not limited to, racial prejudice/discrimination, status attainment, poverty and welfare, work and occupations, community power and social elites. (Irreg.)

SOC 6373 Sociology of Sexualities 3 Credit Hours
Prerequisite: Graduate standing in Sociology or permission of instructor. Considers sociological understandings of sex and sexualities, LGBTQ identities/experiences, and heteronormativity with an emphasis on gender, power, and intersectionalities. (Irreg.)

SOC 6503 Women and Crime 3 Credit Hours
Prerequisite: graduate standing in Sociology or instructor permission. Provides an in-depth examination of women and crime, primarily in the United States, from a sociological perspective, focusing on theoretical explanations, women as offenders, women as victims of crime, and societal responses to female crime. (Irreg.)

SOC 6753 Historical and Comparative Sociology 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. Examines how religious, educational, economic, and political institutions influence peoples lives from a historical and comparative perspective. Examines general principles and conditions for how societies evolve over time. (Irreg.)

SOC 6903 Issues in Sociological Theory 3 Credit Hours
Prerequisite: SOC 5933 and graduate standing in Sociology or permission of instructor. M.A. students may enroll only once; Ph.D. students may repeat the course once with a change of topic; maximum credit six hours. Examines a particular sociological theory in detail at a level appropriate for students who have completed SOC 5933. Topics will vary and may include conflict theory, functionalism, symbolic interactionism, exchange theory, etc. (Irreg.)

SOC 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

SOC 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing in Sociology or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

SOC 6980 Research for Doctoral Dissertation 2-16 Credit Hours
Research For Doctoral Dissertation. (F, Sp, Su)

SOC 6990 Special Studies in Sociology 1-4 Credit Hours
1 to 4 hours. Prerequisite: eighteen hours of sociology and permission of instructor. Individual research in a selected field; a problem is analyzed under the direction of a member of the staff. (F, Sp)

SOC 1113	Introduction to Sociology	3
SOC 3123	Social Statistics	3
SOC 3133	Methods of Social Research	3
SOC 3363	Sociological Theory	3
SOC 4943	Capstone in General Sociology	3
Substantive Area Courses		
Choose five courses from the Substantive Area course list (p. 648)		15
Major Elective Courses		
Choose one additional Sociology course which may be chosen from courses listed in Substantive Area		3
Total Credit Hours		33

NOTES

- PHIL 1113 Intro. to Logic will not satisfy the prerequisite to enroll in SOC 3123 Social Statistics or SOC 3133 Methods of Social Research.
- Both SOC 3123 and SOC 3133 must be completed with a grade of C or higher BEFORE the capstone.
- The capstone course should be taken the FINAL SEMESTER in residence at the university. It is only offered in Spring and Fall semesters.
- We suggest using free elective hours to help students utilize their academic skills after graduation by completing a minor or any service-learning designated class. Service-learning designated classes can be found by searching for SERV when enrolling. These classes are also very beneficial: CAS 3091 Career Planning for Arts & Sciences and CAS 4113 Life After OU-Survival Course

General Education and College Requirements

Courses graded P/NP will not apply

Courses for fulfillment of General Education and College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses.

University-Wide General Education (minimum 40 hours) and College Requirements

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities (18 hours)		
Understanding Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483/1493)		3
Non-Western Culture		
Choose one course from the General Education Non-Western Culture list		3
Additional Core IV Upper-Division Humanities courses		
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Choose one course from Understanding Artistic Forms, Western Civilization & Culture, or Non-Western Culture [1,3]		3
Core Area V: Senior Capstone Experience (3 hours)		
Choose one General Education Capstone course		3
Total Credit Hours		56

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Sociology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Sociology major requirements.

[1] A grade of C or better must be earned in SOC 3123 and SOC 3133.

Sociology - General, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N845

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Sociology.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in Sociology, including at least nine (9) hours at the upper-division level. SOC 3890 will *not* count toward this total.

Code	Title	Credit Hours
Required Course		
SOC 1113	Introduction to Sociology	3
Electives		
Choose four courses from the Sociology Minor Electives list (p. 652)		12
Choose one additional course in Sociology at the 3000-level or above [1]		3
Total Credit Hours		18

[1] *Excluding* Directed Readings, Independent Study, Internship courses, and courses taken through the Independent Study department.

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Sociology Minor Electives

Code	Title	Credit Hours

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Sociology academic advisers to verify that courses selected each semester fulfill the recommended plan

and satisfy university, College of Arts and Sciences, and Sociology major requirements.

Course	Title	Credit Hours

[1] 12 or more hours must be housed in the Department of Sociology at the 5000-level or above. The remaining 3 hours of electives may be Directed Readings (SOC 5960), a cross-listed course housed outside the department or another course outside the department.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Sociology, Ph.D.

Minimum Total Hours: 90

Additional graduate credit hours as needed to reach 90 post-baccalaureate hours, with approval by doctoral advisory committee		30-52
Total Credit Hours		90

[1] Another research course may be substituted with approval of the student's doctoral advisory committee.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

General Information

The OU Women's and Gender Studies Department was the first in the state of Oklahoma to offer an undergraduate major in the discipline. Our students explore the operations of power through the workings of gender and sexuality as understood across cultures and history. Women's and Gender Studies courses employ intersectional perspectives in the study of such diverse phenomena as music, art, war, political activism, religion, communication, family life, and popular culture.

WGS has over 100 affiliated faculty members who come from numerous departments across the university. Women's and Gender Studies students learn a variety of skills including critical thinking, writing, public speaking, organization, conflict resolution, diversity training and project design. The interdisciplinary and global perspective students gain in the

Department of Women's and Gender Studies enables them to achieve their highest potential in their chosen field of study and as citizens of the global community. Women's and Gender Studies majors and minors are well-prepared and sought after for work in for-profit and not-for-profit organizations, social help agencies, human rights advocacy, and victim's advocacy, as well as graduate study in law, medicine, human relations, education, business, information science, communications, fine arts, public health, and many other fields.

Programs & Facilities

The WGS Center for Social Justice

The WGS Center for Social Justice is committed to the pursuit of justice, equality, and rights through local and global community engagement. Toward that end, we embrace interdisciplinary approaches to teaching, research, and creative praxis. The CSJ offers a platform for social and ecological justice advocacy and awareness, while creating opportunities for students to create positive change.

WGS Library

The Women's and Gender Studies Library was created thanks to a generous gift from the Cousin's Family. On October 16, 1998, Charles Cousins was honored at a reception dedicating the Women's and Gender Studies Library.

Scholarships and Financial Aid

Student Travel Awards

The Women's and Gender Studies Department makes available travel awards to students with a declared WGS major/minor/certificate to support the cost of attending a conference, research trip, or special event. Awards are available on a rolling basis.

Alice Mary Robertson Award

The Alice Mary Robertson award was established to honor the memory of Alice Mary Robertson, Oklahoma's first female representative in the United States Congress. The purpose of the award is to stimulate an interest among graduate students in the study and interpretation of the contributions made by women to the culture and progress of Oklahoma as well as to awaken the public to a greater appreciation of these contributions. The award is a one-time award to a graduate student whose creative activity and/or scholarly or archival research enhances the appreciation of these contributions. Any graduate student currently enrolled at the University of Oklahoma or Tulsa campuses may submit an application for this award. A committee selects the recipients during the spring semester, based on an evaluation of the creative or research activity.

Undergraduate Study

Bachelor of Arts

Students undertaking a Bachelor of Arts (p. 662) in Women's and Gender Studies explore the operations of power through the workings of gender and sexuality as understood across cultures and history. Women's and Gender Studies courses employ intersectional perspectives in the study of such diverse phenomena as music, art, war, political activism, religion, communication, family life, and popular culture.

Women's and Gender Studies students learn a variety of skills including critical thinking, writing, public speaking, organization, conflict resolution, diversity training and project design. The interdisciplinary and global perspectives students gain in the Department of Women's and Gender Studies enables them to achieve their highest potential in their chosen field of study and as citizens of the global community.

Minors

The LGBTQ Studies Minor (p. 665) provides students with an intersectional analysis of how LGBTQ identities and community have been (and continue to be) shaped historically, socially, philosophically, culturally, medically, and scientifically. It creates a space for critical inquiry around how sexual and gender minorities are affected by society's normative perceptions and practices, while also exploring ways various LGBTQ communities and individuals have responded.

The Social Justice Minor (p. 665) engages students with the complexities and critical analysis of structural inequalities and injustices. Students will learn to utilize multidisciplinary and feminist approaches that recognize the struggles for liberation and the importance of social movements, advocacy, and activism locally and globally.

The Women's and Gender Studies Minor (p. 667) can easily be combined with many majors including Education, English, History, Human Relations, Journalism and Mass Communication, Music, Modern Languages, Political Science, Psychology, Sociology and Social Work.

Graduate Study

Graduate Certificate

The Women's and Gender Studies (p. 668) Graduate Certificate provides an interdisciplinary and intersectional graduate education focusing on feminist thought and methodologies.

The certificate can be taken to complement an existing degree program for OU graduate students. Non-degree students may enroll directly in the certificate program, which can help them with career goals in areas such as education and non-profit work.

Courses

LGBT 1003 Introduction to LGBTQ Studies 3 Credit Hours
Covers expansive fields of Lesbian, Gay, Bisexual, Trans*, and Queer studies. Includes issues related to lesbian, gay, bisexual, transgender, and queer communities, organizing, and theorizing. Emphasizes different aspects of LGBTQ studies including history, queer theory, popular culture, media, and literature. Examines its relationship with historical and contemporary movements as well as its productive, yet sometimes tenuous, relationship with feminist studies. (F, Sp) [IV-WC].

LGBT 3263 LGBTQ Movements 3 Credit Hours
(Crosslisted with WGS 3263) Prerequisite: WGS 1003 or junior standing. This course will focus on the mainstream gay and lesbian movement in US history, and how that movement shifted from radical to mainstream and the important debates therein. The course will also consider the impact of systems of oppression from colonialism to the US justice system on LGBTQ identity. (Irreg.)

LGBT 3273 Queer Theory 3 Credit Hours
(Crosslisted with WGS 3273) Prerequisite: WGS 1003 or junior standing. This interdisciplinary course is an introduction to the academic fields and debates within queer theory, specifically, normalization, resistance, and the practice of queering. The central focus is to examine, challenge, critique, and destabilize normative conceptions and representations of not just gender and sexuality but of other categories of being as well. (Irreg.)

WGS 1003 Introduction to Women's and Gender Studies 3 Credit Hours
Examines women's issues and movements in the U.S. and globally, focusing on the role of gender in people's lives and on the ways it is used to create privilege for some and oppress others. This course challenges traditional, normative notions about gender and sexuality, which are inextricably entwined. Explores how disability, race, and religion intersect with gender and sexual identity. (F, Sp, Su) [IV-WC].

WGS 2713 Women in Pop Culture 3 Credit Hours
Explores the representation of women in various facets of popular culture. First, the gendered codes that inform the representation of women in mainstream film and television will be considered. The politics of representation in three key genres--chick flicks, action films,and reality TV--will be examined, and the structural barriers that limit women creatively behind the scenes will be explored. Second, the ways in which women are represented in American popular music will be explored, examining in particular, five distinct archetypes that frequently appear including pop princesses, divas, female rappers, girl groups and girl bands. Third, the depiction of girls and women in animated films, video games, comic books and social media will be considered. The goal of this course is to foster a critical consideration of gender representations in American popular culture and, through them, the messages being conveyed about the value of women in society. (F, Su)

WGS 2970 Special Topics in WGS 1-4 Credit Hours
Special Topics. 1 to 4 hours. May be repeated; Maximum credit eight hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

WGS 3043 Gender/Power/Ldrshp-Politics 3 Credit Hours
(Crosslisted with P SC 3043) Prerequisite: Political Science 1113. Focuses on the relationship between gender, power, leadership, and government in politics and public administration. Causes of under-representation of women in elected office and the bureaucracy are explored. Historical, social, psychological, and organizational barriers are considered. (Irreg.)

WGS 3063 Topics in United States Women's Movements 3 Credit Hours
Prerequisite: WGS 1003 or junior standing. May be repeated with change of content; maximum credit 9 hours. Content will vary but will cover a particular aspect of women's studies, be it history, art, communication, literature, contemporary social problems, theory, or other appropriate area of study. (Irreg.)

WGS 3123 Social Justice and Social Change 3 Credit Hours
Prerequisite: W S 1003 or junior standing. Introduces students to the major theories and principles of social justice, including fairness, equality and justice; applies these concepts to contemporary social issues such as poverty, gender equality, racial and ethnic identity and politics, environmentalism, the social role of media, war, and globalization; and suggests strategies for creating social change and social justice. Includes both an analysis of the major cultural and structural causes of inequality and injustice, and an examination of the most effective responses. (Irreg.) [IV-WC].

WGS 3133 Medieval Women 3 Credit Hours
(Crosslisted with HIST 3133) Prerequisite: History 1113 or History 1613 or junior standing. Covers social history of women in western Europe from late antiquity to the late Middle Ages. Topics include stages of life, marriage, families, occupation, law, power, health, religion, love and education. (F) [IV-WC].

WGS 3203 Rhetoric and Sexuality 3 Credit Hours
(Crosslisted with ENGL 3203) Prerequisite: ENGL 1213 or EXPO 1213 or the equivalent. Investigates the intersections of rhetoric and sexuality as they function socially, politically, and personally. Development and application of research methods from the field of rhetoric and writing studies with a focus on writing, inquiry and revision. (Irreg.) [I-O].

WGS 3213 Race, Gender and Greek Life 3 Credit Hours
Prerequisite: WGS 1003 or junior standing. Explores Greek-letter organizations past and present. The course examines organizations in context with their founding principles and goals to explore them as functions of twenty-first century higher education. Second, lenses of race, class, and gender will be used to explore current Greek-letter organization membership and identity development. Finally, strategies for inclusive Greek-letter organizational cultures will be conceptualized. (Irreg.)

WGS 3220 WGS Special Topics 1-3 Credit Hours
Prerequisite: WGS 1003 or junior standing. 1 to 3 hours. 3220 preceded by the department name will be a junior level interdisciplinary course in women's studies. May be repeated with change of title and content; maximum credit nine hours. Content will be agreed upon by the departments in cooperation with women's studies. (F, Sp, Su)

WGS 3223 WGS Special Topics 3 Credit Hours
Prerequisite: WGS 1003 or junior standing. 3223 preceded by the department name will be a junior level interdisciplinary course in women's and gender studies. May be repeated with change of title and content; maximum credit twelve hours. (F, Sp, Su)

WGS 3233 Women Creating Social Change 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Overview of how women's organizations developed as part of the women's movement in the 1960's. Examines how women have organized at the local, regional and national levels, both within and across race, class, ethnicity, religion and sexuality. Provides students with a basic understanding of how to create, run and manage a nonprofit organization. (F) [IV-WC].

WGS 3253 Men and Masculinity 3 Credit Hours
Prerequisite: junior standing or W S 1003. Designed as an introduction to the literature and theory that focuses on men and masculinity. Masculinity will be opened for critique and critical inquiry in cross-cultural and cross-historical comparison. The performance of masculinity and attendant judgments of this performance change based upon class, race, ethnicity, sexuality, politics, geography, culture, and language. Our readings are designed to analyze this performance from a number of contextual and sociological angles. Particular emphasis will focus on the way that masculinity and concepts of masculinity have been received and engaged in women's and gender studies, feminism and queer theory. (Irreg.)

WGS 3263 LGBTQ Movements 3 Credit Hours
(Crosslisted with LGBT 3263) Prerequisite: WGS 1003 or junior standing. This course will focus on the mainstream gay and lesbian movement in US history, and how that movement shifted from radical to mainstream and the important debates therein. The course will also consider the impact of systems of oppression from colonialism to the US justice system on LGBTQ identity. (Irreg.)

WGS 3273 Queer Theory 3 Credit Hours
(Crosslisted with LGBT 3273) Prerequisite: WGS 1003 or junior standing. This interdisciplinary course is an introduction to the academic fields and debates within queer theory, specifically, normalization, resistance, and the practice of queering. The central focus is to examine, challenge, critique, and destabilize normative conceptions and representations of not just gender and sexuality but of other categories of being as well. (Irreg.)

WGS 3283 Human Trafficking 3 Credit Hours
Prerequisite: junior standing. Introduces the trafficking of persons in different areas, included, but not limited to, bonded labor, forced migration, and sex trafficking. Human trafficking from a historical and also modern perspective, both in the United States and in the global context, will be studied. Human trafficking is modern day slavery. There are more slaves in the world today than before the time of abolition. Estimates show there are about 27-30 million people are enslaved in the world today. Human trafficking is a 32 billion dollar industry worldwide and is second only to drug trafficking with 36 billion dollar revenue. Explores the different kinds of trafficking, effects of globalization, the demand, and what the governments can do in order to combat human trafficking. (F)

WGS 3353 Race, Class & Gender 3 Credit Hours
(Crosslisted with SOC 3353) Prerequisite: junior standing or permission of instructor. Explores the intersections of race, ethnicity, class, gender and sexuality. Focus is on how systems of power and oppression reinforce each other, how they intersect in shaping social structure and individual experiences, and how the systems of oppression are mutually reinforcing. Theories and practice of intersectionality, how gender, race, class and other categories of identity are constructed and reproduced in social, political, and economic structures, and experienced in every day life. (F, Sp)

WGS 3363 Gender, Personality and Communication: Rough Girls, Sweet Boys 3 Credit Hours
Prerequisite: WGS 1003 or junior standing. Designed to introduce students to the intersection between gender, personality and gender performance. Surveys important theories of gender and provides an overview of modern personality theories that will help the student to foster an understanding of the ways in which gender, personality and communicative acts create hetero-normative standards that deserve critical analysis. Introduces theories of gender performance. Presents students with an overview of relevant personality theories. Additionally, the course provides an opportunity for self-assessment through various personality inventories and scales and critical analysis of those metrics. (F, Sp, Su).

WGS 3373 Feminism and Art: A Feminist Perspective on Women and Creativity 3 Credit Hours
Prerequisite: WGS 1003 or junior standing. Provides an overview of feminist theory in relation to the process of creative expression by selected female artists of the 20th and 21st centuries. Utilizes the framework of radical 2nd wave feminism and particularly 3rd wave feminism to help shape conceptions of the philosophy of art. The course surveys the emergence of the confessional art of artists like Frida Kahlo and Anne Sexton and modern 3rd wave artists like Beyonce and Lady Gaga and efficacy of popular media feminist expressions like Girls and Sex and the City. Students will gain insight into the cultural purpose of feminist expression and explore their own conceptions of feminist creative philosophy. (F)

WGS 3393 Gender and Identity in STEM 3 Credit Hours
Prerequisite: Sophomore standing or permission of the instructor. This course examines the effects of gender and other forms of identity, including race, ethnicity, and sexual orientation, on contemporary STEM students and professionals, including the impact on skill, self-efficacy, and academic/professional outcomes in STEM disciplines. It also explores the intersection and effects of cultural expectations associated with gender, race, ethnicity, and sexual orientation on professional identity and student engagement. (Irreg.) [IV-WC].

WGS 3403 Race and Reproduction 3 Credit Hours
Prerequisite: WGS 1003 or junior standing. Discusses the intersection of race and gender. Focuses on the 19th century to present. Topics include reproductive technologies and societal understanding of the link between race and reproduction (who is encouraged/ discouraged from reproducing). Examines the current Reproductive Justice framework, which was developed by black women. (Irreg.)

WGS 3413 Body Image Vs. Reality 3 Credit Hours
Prerequisite: 1003 or junior standing. Looks at the topic of body image, which is of great importance to men and women. We explore women's identity in popular culture, examining how different authors have responded to the pressures on women to be beautiful, to inhabit a particular place in society and to create a space for themselves as subjects rather than objects. (F, Sp, Su)

WGS 3423 Women and Sports 3 Credit Hours
Prerequisite: 1003 or junior standing. Examines six generations of American women athletes and their struggle to achieve equality. Explores how women have historically participated in sports and how sports have changed with the passage to Title IX, as well as contemporary female athletics. (F, Sp)

WGS 3433 Race and Sexuality in Women's Sports 3 Credit Hours
Prerequisite: Junior Standing. This course is an in-depth look at how gender and sexuality have impacted sports for women. The class will address the issues facing women of color and LGBTQ women and how they survived in a world that had no experience in accepting them. Also included is the role of Title IX and how contemporary female athletes have changed society. (Sp)

WGS 3440 Mentored Research Experience 3 Credit Hours

WGS 3443 Gender & Interpersonal Comm 3 Credit Hours
Prerequisite: 1003 or junior standing. Explores the impact of gender on interpersonal communication. Topics include the impact of gender on speech, language, nonverbal behavior and social interactions. Gender-linked differences in communication will be considered in a variety of interpersonal relationships and social settings including romantic relationships, friendships, family, work, peer and nonpeer groups. Course also considers gender communication patterns across cultures as well as ways in which patterns of inequality are embedded in various forms of communication. (Sp)

WGS 3453 Women's Psychosocial Dev 3 Credit Hours
Prerequisite: 1003 or junior standing. Focuses on women's psychosocial and social development through infancy, adolescence and young adulthood, middle adulthood, later adulthood and elder years. (Sp)

WGS 3473 Red Dirt Women and Power 3 Credit Hours
Prerequisite: 1003 or junior standing. The stories of "red dirt women" are central to an examination of their power and vulnerability in Oklahoma past and present. Individual women come alive as students do oral/video histories. Novels, videos, history and structural social analysis place them in their social context. (F) [IV-WC].

WGS 3483 Domestic Violence and the Law 3 Credit Hours
Prerequisite: 1003 or junior standing. Introduction to the legal aspects of domestic violence by examining case law, statutes and scholarly research and commentary. Studies how domestic violence is addressed by the legal system, and analyzes the different legal treatment of married couples, non-married couples and same-sex couples. Law enforcement, court systems, legal representation, and advocacy groups are evaluated for the role they play in domestic violence law. (F)

WGS 3513 Gender, Law and Human Rights 3 Credit Hours
Prerequisite: junior standing or 1003. This course follows the development of women's human rights and the subsequent evolution of legal remedies for gender-specific issues. Studies will include the relevant treaties and conventions of the United Nations as well as international case law affecting women. Various women's human rights issues we will study include religion, employment discrimination, gender violence, cultural relativism, polygyny and reproductive rights. (Irreg.) [III-SS].

WGS 3523 Reproductive Law and Justice 3 Credit Hours
Prerequisite: Junior standing. In the United States, reproductive rights incorporate legal principles including family law, health law, criminal law, immigration, human rights, and constitutional law. Explores social, legal, and economic barriers to accessing reproductive health through tools including critical race theory, critical legal theory, human rights, feminist theory, and public health systems. Includes contemporary issues: breast-feeding regulations, gender identity discrimination, poverty, and racism. (F)

WGS 3563 Gender and Global Politics 3 Credit Hours
Prerequisite: junior standing or permission of instructor. How gender shapes global processes such as war and peace, globalization and labor migration, the rise of ideologies of community such as ethno-nationalism and religious fundamentalism, and the emergence of global norms and activism. A particular focus is on local and global social movements and activism that address gender inequality, as well as the rise of global norms of gender equality. (F) [III-SS].

WGS 3703 Female Heroism in Hollywood 3 Credit Hours
Prerequisite: WGS 1003 or junior standing. Examines conceptual and performative shifts in female heroism in Hollywood genre. Students will engage with various theoretical (feminist theory, feminist film theory, critical race theory) and critical texts discussing the social construction of the female body in American society and cinema, and examine the changing generic parameters through which the female body is considered and constituted heroic. (F) [IV-WC].

WGS 3713 Gender and James Bond 3 Credit Hours
Prerequisite: WGS 1003 or junior standing. Explores the unprecedented longevity and popular cultural viability of the James Bond film franchise by considering the representations of heroism and villainy in the series, focusing on the performance and intersectionality of gender, race, class, nationality and sexual orientation. Examines representations of women and the way those representations have changed throughout the life of the franchise. (Irreg.) [IV-WC].

WGS 3810 WGS Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: WGS 1003 or junior standing. May be repeated with change of content; maximum credit nine hours. Content will vary but will cover a particular aspect of women's studies, be it history, art, communication, literature, contemporary social problems, theory, or other appropriate area of study. Texts and supplementary readings will be assigned according to the topics chosen. (F, Sp)

WGS 3813 WGS Special Topics 3 Credit Hours
Prerequisite: WGS 1003 or junior standing. May be repeated with change of content; maximum credit nine hours. Content will vary but will cover a particular aspect of women's and gender studies, be it history, art, communication, literature, contemporary social problems, theory, or other appropriate area of study. (Irreg.)

WGS 3933 U.S. Queer History 3 Credit Hours
(Crosslisted with HIST 3933) Prerequisite: Junior standing. The last 130 years have been a time of incredible change for LBGTQ people and the meanings of sexuality in the United States. We will trace LGBTQ experience and community formation, the policing of queer communities, and the constructions of queerness in pop culture, medicine, the law, and politics, as well as how these histories inform our own time. (Irreg.)

WGS 3943 Women's Health 3 Credit Hours
Prerequisite: 2003 or permission of instructor. Students will gain basic understanding of subjects necessary to develop physical, mental, and social well-being. Covers female anatomy, physiology, and normal processes, including reproduction, childbearing, and menopause. Healthy life choices and decision-making, stress management, and self-care, including nutrition, exercise, and mental wellness, will also be considered. (F, Sp)

WGS 3953 Women and the Law 3 Credit Hours
Prerequisite: junior standing. This course will examine the history of women's rights and gender discrimination in the United States. It will focus on topics such as the family, education, reproduction, sexual harassment, violence against women, pornography and discrimination in the workplace. Although the subject matter involves legal cases and discourse, it is not intended to be a law school course. (F) [IV-WC].

WGS 3960 Honors Reading (HONORS) 1-3 Credit Hours
Prerequisite: 2003 and admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the Women's and Gender Studies faculty member. Topics will cover materials not usually presented in regular courses. (Irreg.)

WGS 3963 Gender, Employment Discrimination and Law 3 Credit Hours
Prerequisite: WGS 1003 or junior standing. Taught through a feminist lens, students will learn about employment law by focusing primarily on Title VII of the Civil Rights Act of 1964 and federal case law examining adverse employment actions on the basis of sex. Sexual harassment, gender discrimination, family leave, sexual orientation and equal pay will all be examined in detail. (Irreg.)

WGS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

WGS 3973 Divorce Law and Social Implications 3 Credit Hours
Prerequisite: WGS 1003 or junior standing. This course provides an understanding of divorce law and the social impact divorce can have on women in particular. This information is crucial to understanding gendered poverty, single parenting issues, and societal norms associated with divorced women and will be looked at through a feminist lens. (Irreg.)

WGS 3980 Honors Research (HONORS) 1-3 Credit Hours
Prerequisite: 2003 and admission to Honors Program. Individualized research with a Women's and Gender Studies faculty member on a topic leading toward work for the Honors thesis. In-depth research of specialized topic in women's studies. (Irreg.)

WGS 3983 Women, Girls & Crime (Crosslisted with Sociology 3983) 3 Credit Hours
Prerequisite: SOC 1113 and SOC 3523, or permission of instructor. An in-depth examination of crime and the justice system as it relates to girls and women. The focus will be on girls and women as victims, girls and women as offenders, and criminal justice responses to girls and women. (F, Sp)

WGS 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

WGS 4003 Women's and Gender Studies Senior Capstone 3 Credit Hours
Prerequisite: WGS 1003 or junior standing and WGS major or minor. Designed to acquaint majors and/or minors with the inter-relationship between theory and methodology in Women's and Gender Studies. The course will interweave the sciences, social sciences, humanities, and arts. Students are expected to write weekly critiques, develop a research proposal, and do an oral presentation. (Sp)

WGS 4013 WGS Internship 3 Credit Hours
Prerequisite: junior standing, permission of adviser and instructor, and an approved women's and gender studies course. May be repeated; maximum credit six hours. Students must relate their academic experience to women's or gender issues by working with a non-profit organization or project. Academic credit is based on the site supervisor's report and a substantial paper relating to the internship experience. (F, Sp, Su)

WGS 4023 Social Justice Internship 3 Credit Hours
Prerequisite: 2223 and junior standing and 2.5 GPA. Designed to provide students an opportunity to relate their academic experience to social justice issues in the community by working in a social justice agency or non-profit organization or on a social justice service-learning project for a semester. (F, Sp)

WGS G4120 WGS Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: junior standing. May be repeated in a given department, maximum credit nine hours, provided that the course title and content is different in each instance. (F, Sp, Su)

WGS 4123 Contemporary Feminist Thought 3 Credit Hours
(Slashlisted with WGS 5123) Prerequisite: senior standing or permission of instructor. Survey of the core concepts and texts of feminist theory exposes students to the major works in feminist theory as well as critiques and scholarly analysis of them. Includes discussion of the roots of feminist theory, analysis of alternatives to liberal feminist thought, and examination of the impact of postmodernism on feminist thought and the rise of global feminism. (Sp) [V].

WGS 4473 Women and Mental Health 3 Credit Hours
Prerequisite: junior standing. Examines psychological theory and practice as it pertains to women. Will look at traditional theories and practice, new approaches to working with women, and such topical issues as leadership, work issues, depression, trauma, and health. Will be useful to all students who seek to have a better understanding of social and psychological issues that impact women, and how to help resolve those issues. (Irreg.)

WGS 4643 Black Feminism and Womanism 3 Credit Hours
(Crosslisted with AFAM 4643) Prerequisite: Junior standing and any 2000-level African and African-American Studies class. This course analyses the way race, gender, sexuality, and socioeconomic status have historically dominated, intersected, and/or competed with the lives and experiences of Black women. This course examines the way Black women have drawn upon these internal struggles to serve as voices of power and agents of social change. Readings in this course will highlight activism, literature, and social justice. (Irreg.)

WGS 4913 Senior Thesis 3 Credit Hours
Prerequisite: senior standing and permission of instructor. Research and presentation of written thesis on suitable topics in women's or gender studies. Specific topic must be approved in advance by instructor. (F, Sp, Su)

WGS 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

WGS 4970 Special Topics in WGS 1-4 Credit Hours
Prerequisite: twelve hours in women's studies courses or permission of instructor. 1 to 4 hours. Variable content; impact of women's studies on the several academic disciplines; interdisciplinary scholarship on women; integration of women's studies in the curriculum. (Sp)

WGS 4990 Independent Study 1-6 Credit Hours
1 to 6 hours. Prerequisite: junior standing, permission of instructor, and an approved Women's and Gender Studies course. May be repeated once with change of content; maximum credit six hours. Designed to accommodate students' interest in reading and research in a specialized area of women's studies. (F, Sp, Su)

WGS 5001 Women & Gender Studies Colloq 1 Credit Hour
Prerequisite: 3 hours at or above the 5000-level. Offers a discussion and review of major debates and current literature in the women's and gender studies field with an emphasis on feminist research methods and approaches. Students will expose one another to approaches to women's and gender studies in such major disciplines as anthropology, sociology, political science, education, English, history, communications, and human relations. (F)

WGS 5013 Graduate Internship 3 Credit Hours
Prerequisite: graduate standing, permission of instructor, and an approved graduate women's and gender studies course. May be repeated; maximum credit six hours. Students must relate their academic experience to women's or gender issues by working with a non-profit organization or project. Academic credit is based on the site supervisor's report and a substantial paper relating to the internship experience. (F, Sp, Su)

WGS 5120 Graduate Interdisciplinary 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing. May be repeated in a given department, maximum credit nine hours, with a change of content. (Irreg.)

WGS 5123 Contemporary Feminist Thought 3 Credit Hours
(Slashlisted with 4123) Prerequisite: graduate standing or permission of instructor. Survey of the core concepts and texts of feminist theory exposes students to the major works in feminist theory as well as critiques and scholarly analysis of them. Includes discussion of the roots of feminist thought, analysis of alternatives to liberal feminist thought, and examination of the impact of postmodernism on feminist thought and the rise of global feminism. (Sp)

WGS 5960 Directed Readings 1-6 Credit Hours
1 to 6 hours. Prerequisite: six hours of Women's and Gender Studies courses at the graduate level. Graduate directed readings is designed for specialized research on a women's studies topic. (F, Sp, Su)

WGS 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

WGS 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Choose one General Education Capstone course	3
Total Credit Hours	56

[1]College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2]One course at the intermediate level or demonstrated competency at that level

[3]6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.
Special Degrees: Students may qualify for an Honors degree (cum Laude, Magna cum Laude, or Summa cum Laude) by completing specific requirements of the Honors College. A degree will be earned with Distinction if the student completes at least 60 semester hours at OU with at least a 3.60 combined retention GPA and OU retention GPA. A degree will be earned with Special Distinction if the student completes at least 60 semester hours at OU with at least a 3.90 combined retention GPA and OU retention GPA.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Arts and Sciences and Department of Women's and Gender Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Arts and Sciences, and Women's and Gender Studies major requirements.

LGBTQ Studies, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N642

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Women's and Gender Studies Program.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours

Women's and Gender Studies, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N875

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

Students must successfully complete at least 18 hours of courses acceptable for major credit in Women's and Gender Studies, including at least nine (9) hours at the upper-division level. Topics courses must be approved in advance by the Women's and Gender Studies academic advisor.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Women's and Gender Studies Program.

Required Courses

Code	Title	Credit Hours
Required Course		
WGS 1003	Introduction to Women's and Gender Studies	3
Electives		
Choose 12 hours from Women's & Gender Studies Minor Electives list (p. 667)		12
Choose one of the following:		3
WGS 3980	Honors Research (HONORS)	
WGS 4013	WGS Internship	
WGS 4123	Contemporary Feminist Thought	
WGS 4913	Senior Thesis	
WGS 4990	Independent Study	
Total Credit Hours		18

- Minors in the College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.
- Approved February 2015

Or courses not listed here which qualify for the Women's and Gender Studies major

Women's and Gender Studies, Graduate Certificate

Minimum Total Hours: 13

Program Code: G110

The purpose of the graduate certificate program is to provide an interdisciplinary graduate education which will broaden and/or give specialty focus to students' Women's and Gender studies. The program may particularly signify a student's focus on one or more of the following: feminist scholarship, research, or creative activity in a particular field of study; teaching interdisciplinary Women's and Gender Studies; or professional public service for/to women/girls/sexual minorities. The graduate certificate will augment and provide formal recognition to students' work in this area, thereby enhancing their success in the academic and professional job markets.

Courses can be double counted between a graduate degree and a graduate certificate. However, courses cannot be double counted towards more than one graduate certificate.

Program Requirements

Code	Title	Credit Hours
WGS 5001	Women & Gender Studies Colloq	1
WGS 5123	Contemporary Feminist Thought	3
Elective Specialty		
Choose 9 hours as approved by the Women's and Gender Studies graduate committee and director [1]		9
Total Credit Hours		13

[1] No more than 3 hours may be taken as Directed Readings, Independent Study, or Internship.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

COLLEGE OF ATMOSPHERIC AND GEOGRAPHIC SCIENCES

Administrative and Academic Office
120 David L. Boren Blvd., Suite 3630
Norman, OK 73072
Phone: (405) 325-3095
FAX: (405) 325-1180
ags@ou.edu
www.ou.edu/ags

Administrative Officers

Berrien Moore, III, Ph.D., Dean and Director National Weather Center
Petra Klein, Ph.D., Executive Associate Dean
Mary Anne Hempe, M.F.A., Assistant Dean for Student Services

General Information

The mission of the College of Atmospheric and Geographic Sciences is to provide a world-class academic experience that promotes inclusion, innovation and research, resulting in advanced education and successful career in the private sector, academia, government agencies, and non-governmental organizations.

The college is composed of academic and research units:

Academic Units

- Department of Geography and Environmental Sustainability
- School of Meteorology

Research Units

- Advanced Radar Research Center (ARRC)
- Center for Autonomous Sensing and Sampling(CASS)
- Center for the Analysis and Prediction of Storms (CAPS)
- Center for Spatial Analysis (CSA)
- Cooperative Institute for Mesoscale Meteorological Studies (CIMMS)
- Oklahoma Alliance for Geographical Education (OKAGE)
- Oklahoma Climatological Survey (OCS)
- South Central Climate Adaptation Science Center (SC-CASC)

Programs Offered

- Department of Geography and Environmental Sustainability (p. 674)
  - Environmental Sustainability: Culture & Society, B.A. (p. 689)
  - Environmental Sustainability: Culture & Society, B.S. (p. 691)
  - Environmental Sustainability: Planning & Management, B.A. (p. 693)
  - Environmental Sustainability: Planning & Management, B.S. (p. 696)
  - Environmental Sustainability: Science & Natural Resources, B.A. (p. 698)
  - Environmental Sustainability: Science & Natural Resources, B.S. (p. 701)
  - Geographic Information Science, B.A. (p. 703)
  - Geographic Information Science, B.S. (p. 706)
  - Geography: Geohumanities, B.A. (p. 708)
  - Geography: Physical & Social Sciences, B.A. (p. 710)
  - Geography, B.S. (p. 712)
  - Climate Adaptation, Minor (p. 715)
  - Environmental Sustainability, Minor (p. 715)
  - Geographic Information Systems, Minor (p. 716)
  - Geography, Minor (p. 716)
  - Hydrologic Science, Minor (p. 716)
  - Physical Geography, Minor (p. 717)
  - Environmental Sustainability: Planning & Management, B.A./M.R.C.P. (p. 717)
  - Environmental Sustainability: Planning & Management, B.S./M.R.C.P. (p. 720)
  - Geographic Information Science, B.A./M.R.C.P. (p. 723)
  - Geographic Information Science, B.S./M.R.C.P (p. 726)
  - Geography: Physical & Social Sciences, B.A./M.R.C.P. (p. 729)
  - Geography, B.S./M.R.C.P. (p. 731)
  - Geography & Environmental Sustainability, M.A. (p. 734)
  - Geography & Environmental Sustainability: Environmental Systems, M.S. (p. 735)
  - Geography & Environmental Sustainability: Geospatial Technologies, M.S. (p. 736)
  - Geospatial Technologies, Graduate Certificate (p. 737)
  - Geography & Environmental Sustainability, Ph.D. (p. 738)
- School of Meteorology (p. 738)
  - Meteorology, B.S. (p. 750)
    - Meteorology Upper Division Major Elective Course List (p. 752)
  - Meteorology, Minor (p. 753)
  - Weather and Climate, Minor (p. 753)
  - Meteorology, B.S./M.B.A. (p. 754)
  - Meteorology, B.S./Data Science and Analytics, M.S. (p. 757)
  - Meteorology, M.S. (p. 759)
  - Meteorology, Ph.D. (p. 760)

Programs & Facilities

The College of Atmospheric and Geographic Sciences occupies state of the art classroom, laboratory, and research space in multiple locations on the OU campus. The Department of Geography and Environmental Sustainability is headquartered in the Sarkeys Energy Center (SEC) on the OU Main Campus, while the School of Meteorology calls the National Weather Center (NWC) its home on the OU Research Campus. The college's research units are strategically located across the SEC, NWC, as well as in Partner's facilities on the OU Research Campus. Each unit is situated to take full advantage of collaborations that will advance the international leadership role of OU in the atmospheric and geographic sciences.

The Sarkeys Energy Center

The Department of Geography and Environmental Sustainability and the Oklahoma Alliance for Geographic Education (OKAGE) are housed on floors four, five, and six in the Sarkeys Energy Center (SEC). Classrooms, computer labs, and laboratory facilities are also located in the building.

The National Weather Center

The National Weather Center (NWC) houses University of Oklahoma components and a confederation of state and federal organizations that work together on educational, pure and applied research, and operational activities. The Atmospheric and Geographic Sciences Dean's Office, the School of Meteorology, the Cooperative Institute for Mesoscale Meteorological Studies, the Center for Analysis and Prediction of Storms, the Center for Spatial Analysis, the Natural Hazards and Disaster Prevention Center, and the Oklahoma Climatological Survey are the University of Oklahoma components of the Weather Center. The federal agencies that are part of the Weather Center include: the National Severe Storms Forecast Laboratory, the Storm Prediction Center, the National Weather Service Office (Oklahoma City), the WSR-88D (NEXRAD) Radar Operations Center, and the Warning Decision Training Branch. The National Weather Center programs offer a rich educational and research environment for students pursuing undergraduate and graduate study in meteorology, climate, hydrology, remote sensing, and computer applications. The NWC also houses the NWC Library, which contains almost 4,000 meteorology books and hundreds of government documents in its collection and access to over 50 atmospheric science journals. The NWC Library supports the research, education, outreach and operations missions of all of the entities in the NWC and also supports the wider meteorology community in Norman. For more information, visit the NWC Library's website.

Advanced Radar Research Center (ARRC)

The Advanced Radar Research Center is involved in many aspects of radar research applied to studies of the atmosphere. Topics range from sophisticated radar signal processing to precipitation microphysical studies.

Center for the Analysis and Prediction of Storms (CAPS)

Center for the Analysis and Prediction of Storms develops and demonstrates techniques for the numerical analysis and prediction of high-impact local weather and environmental conditions, with emphasis on the assimilation of observations from Doppler radars and other advanced in-situ and remote sensing systems.

Center for Spatial Analysis (CSA)

The Center for Spatial Analysis at the University of Oklahoma is a multidisciplinary university research center specializing in the study and application of geospatial science and technology. CSA is composed of three working units that focus on research and development, outreach and training, and applications and services. Through efforts in each of these units CSA seeks to advance the geospatial vision of the university and contribute to education, research, and economic development in the State of Oklahoma. Housed in Two Partners Place, CSA is a member of the National Weather Center program and the OU Research Campus, an affiliate member in the Oklahoma NASA Space Grant Consortium, and a partner to the Center for Applied Social Research. Visit their website for further information.

Cooperative Institute for Mesoscale Meteorological Studies (CIMMS)

Cooperative Institute for Mesoscale Meteorological Studies provides a mechanism to link the scientific and technical resources of the University of Oklahoma and the National Oceanic and Atmospheric Administration (NOAA) to create a center of research excellence in mesoscale meteorology, regional climate studies, and related subject areas.

Oklahoma Alliance for Geographical Education (OKAGE)

Oklahoma Alliance for Geographical Education is an organization for geography educators in Oklahoma, and is affiliated with the National Geographic Society and its national network of state geographic alliances and national geography organizations.

Oklahoma Climatological Survey (OCS)

120 David L. Boren Blvd., Suite 2900 Norman, OK 73072-7305
Phone: (405) 325-2541
ocs@ou.edu
www.ocs.ou.edu/

Oklahoma Climatological Survey was established in 1980 to provide climatological services to the people of Oklahoma, conduct research on the impacts of climate on human activities, and serve as a support facility for the State Climatologist. OCS has a legislative mandate to acquire, process, and disseminate climate and weather data and information for use by the state's citizens. In addition, the Survey maintains an extensive array of climatological information, conducts research on both land-air interactions and applied climatology, educates hundreds of Oklahoma decision-makers annually, and operates the Oklahoma Mesonet, Oklahoma's weather network. OCS is located in the National Weather Center, part of the Norman Research Campus.

Oklahoma Mesonet

The Oklahoma Mesonet consists of over 100 automated observing stations that continuously monitor numerous important weather and soil variables. The Oklahoma Mesonet Program is administered jointly by the University of Oklahoma and Oklahoma State University.

South Central Climate Adaptation Science Center

The South Central Climate Adaptation Science Center is a partnership between the US Geological Survey and a consortium of seven member institutions consisting of the University of Oklahoma (OU), Texas Tech University (TTU), Louisiana State University (LSU), the Chickasaw Nation (CN), the Choctaw Nation of Oklahoma (CNO), Oklahoma State University (OSU), and NOAA's Geophysical Fluid Dynamics Lab (GFDL). The consortium has broad expertise in the physical, biological, natural, and social sciences to address impacts of climate change on land, water, fish and wildlife, ocean, coastal, and cultural resources.

PARTICIPATION IN THE HONORS PROGRAM

Eligible undergraduate students are encouraged to participate in the University-wide Honors Program described elsewhere in this catalog. Specially designed Honors courses and seminars provide the Honors student with small classes and opportunities for interaction with the University's best and brightest faculty members, both within the student's major field of study and in other courses used to satisfy curricular requirements.

RESEARCH OPPORTUNITIES

Undergraduate students are encouraged to work with faculty on research projects. These student research projects can be an important component of the Honors Program and/or a source of part-time income and scholarship support. Such research participation provides the student with important experience in his or her discipline in addition to meeting normal academic requirements. For more information on undergraduate research, visit the University's Undergraduate Research website.

Faculty-supervised research is an important component of the College of Atmospheric and Geographic Sciences graduate program. Many graduate students are supported financially through research assistantships funded by federal and private industry grants and contracts. Other graduate students are supported financially through teaching assistantships awarded by their academic units. Faculty-supervised student research leading to master's theses and doctoral dissertations is an integral component of the overall graduate degree requirements.

Computing Services

The College of Atmospheric and Geographic Sciences has made a major commitment to integrate and expand computer and network technology in its courses and programs. The college provides a specialized Media lab for exclusive use by its majors in the National Weather Center, Room 3650. This lab contains equipment geared toward the special needs of students majoring in the College of Atmospheric and Geographic Sciences and includes an HP DesignJet 800ps 42" Poster Printer. The college also maintains three state-of-the-art computer labs in Sarkeys Energy Center. The college is a partner in the University of Oklahoma SuperComputing (OSCER-OU SuperComputing Center for Education and Research Center).

Storm Chasing Policy

The University of Oklahoma's College of Atmospheric and Geographic Sciences does not condone or encourage storm chasing by students. Anyone who chooses to chase storms does so at their own risk and should not imply that their activities are connected with the University. The only possible exception is when students are officially included in storm intercept activities conducted as part of well-planned and safety-trained scientific projects lead by faculty or scientists in the National Weather Center research units. Storm chasing is not part of the School of Meteorology course curriculum nor should such activities take precedence over the academic activities of the School such as coursework and attending classes and seminars.

Undergraduate Study

BACHELOR OF ARTS

The **Bachelor of Arts** degrees emphasize the social applications of the discipline. Students pursuing a bachelor of arts will acquire knowledge and skills in foreign language, statistics and social understanding, including policy making.

BACHELOR OF SCIENCE DEGREES

The **Bachelor of Science** degrees emphasize the science and engineering sides of the discipline. Students pursuing a Bachelor of Science degree will acquire knowledge and skills in math, physics and computation.

Accelerated Bachelor/Master Degrees

Several accelerated dual-degree programs are offered through collaboration with the Department of Geography and Environmental Sustainability housed in the College of Atmospheric and Geographic Sciences and the Division of Regional and City Planning, an academic unit in the College of Architecture. These accelerated programs are designed for exceptional students who wish to begin earning the Master of Regional and City Planning in the second semester of their junior year of their Bachelor programs.

The School of Meteorology offers accelerated dual-degree programs in collaboration with the Price College of Business, offering exceptional students pursuing an undergraduate degree in meteorology to also pursue a Master of Business Administration. Meteorology majors may also choose to pursue a Master of Science in Data Science and Analytics through the Gallogly College of Engineering.

MINORS

The College of Atmospheric and Geographic Sciences offers students the option of declaring a minor subject. Minors in the college are available in environmental sustainability, climate adaptation, geography, geographic information systems, hydrologic science, physical geography, weather and climate, and meteorology.

SECOND BACHELOR'S DEGREES

A student who has completed the requirements for a bachelor's degree may receive a second bachelor's degree upon the completion of the curriculum prescribed for the second degree, provided that the work completed includes at least 30 additional credit hours of upper-division geography, environmental sustainability, geographic information science, or meteorology, applied science and elective courses appropriate to the field of the second degree. These courses must be over and above the credit hours required for the first degree.

Admission to the College

Students are admitted to the College of Atmospheric and Geographic Sciences from University College once they declare a major in geography, environmental sustainability, geographic information science, or meteorology, and complete the following requirements:

- a minimum of 24 semester hours of college credit.
- a minimum combined retention grade point average of 2.25.

Students transferring into the University of Oklahoma from another institution must have a minimum of 24 semester hours of college credit and a minimum 2.50 retention grade point average to be directly admitted to the College of Atmospheric and Geographic Sciences.

Academic credit from any division of the University of Oklahoma — Norman campus, Health Sciences Center, OU-Tulsa, and Claremore, or Professional and Continuing Studies — is considered resident credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU retention and cumulative grade point averages for purposes of admission or readmission to the University, and to the individual colleges within the University.

Student Advisement

The Atmospheric & Geographic Sciences Dean's Office and your academic advisor will:

- Work with you to establish realistic goals and objectives.
- Encourage you to be responsible for your own academic progress and to realize your full potential as a student at the University of Oklahoma.
- Understand and communicate the Atmospheric and Geographic Sciences curriculum, graduation requirements, and University of Oklahoma policies and procedures.
- Be accessible for meetings by appointment.
- Respond promptly to your e-mails and telephone calls.
- Make referrals to resources outside the college when needed.
- Help you monitor your progress toward graduation.
- Assist you with any problems of an academic nature.

As a student in the College of Atmospheric and Geographic Sciences, you are expected to:

- Learn the requirements for your degree program, which are posted on the college website and in the OU General Catalog.
- Become familiar with Degree Navigator, the University's online system that monitors progress toward the completion of your degree.
- Become knowledgeable about University policies and procedures, e.g., drop/add deadlines, enrollment, how to apply for financial aid.
- Set a projected graduation date and develop a semester-to-semester plan to complete your degree.
- Stay up to date with college events and opportunities by reading Monday Memo, the college's weekly online newsletter which is emailed to your OU email account every Monday during the spring and fall semesters.
- Meet with your academic advisor at least once every semester.
- Schedule a degree check in the A&GS Dean's Office (NWC, Room 3630) by the first semester of your junior year.
- Save a copy of every paper or major assignment, along with all official University documents (e.g., receipts) until you are cleared for graduation.
- Be responsible for your actions and decisions.

Students in the Department of Geography & Environmental Sustainability are advised by a professional academic counselor, who also works with majors to establish faculty mentoring.

Students in the School of Meteorology are advised by a faculty advisor, and also have access to a professional academic counselor in the School's main office.

In addition to the advisor in your academic unit, the Dean's Office (NWC, Room 3630) is available to assist students with degree checks, transfer equivalencies, and any problems of an academic nature. Students may call (405) 325-3095 to schedule an appointment.

Please note that the responsibility for meeting graduation requirements lies with the student and not with the advisor, the school/department, or the Dean.

College Grade Point Average Requirements

To remain in good standing in the College of Atmospheric and Geographic Sciences, students must maintain a 2.25 combined retention grade point average in all coursework attempted, a 2.25 grade point average in all coursework attempted in the major area, and a 2.25 retention grade point average in all coursework attempted at OU.

Academic Contract

Students whose major, combined retention or OU retention grade point averages fall below 2.25 are placed on academic contract. Students on academic contract are denied enrollment privileges through the College of Atmospheric and Geographic Sciences following any semester in which satisfactory scholastic progress toward a 2.25 has not been made.

Grade point deficiencies must be made up through reenrollment in major courses in which the student had a last-recorded grade of D or F. Should all D or F grades in curriculum courses be raised to a C or above, and the student still has grade point scholastic deficiencies, the student may then enroll in non-major courses. For the freshman and sophomore years any course may be used, but for the junior and senior years, the courses must be numbered 2000 or above, unless the course so elected is approved as an elective in the last two years of the student's major curriculum.

After a student has been reinstated in the University following an unsatisfactory scholastic record, the student must apply to the Dean of the College of Atmospheric and Geographic Sciences for reinstatement in the college. The Dean will determine whether to readmit the student and may prescribe the conditions for reinstatement in the college in accordance with the policies established by the faculty and the Dean.

Additional Academic Regulations

- Any departure by a student from the curriculum requirements and scholastic rules must be approved by a petition and must not conflict with existing University regulations.
- Full-time students may enroll in 12-19 hours of coursework. Enrollment in more than 19 credit hours is permitted only with the approval of the student's advisor and the Dean of the College of Atmospheric and Geographic Sciences. Permission to carry more than 19 hours will depend primarily on the student's scholarship record and his/her ability to carry increased loads.
- Academically superior students are encouraged to contact the Honors College office to investigate their participation in the University's Honors College.
- Pass/no pass enrollments may not be used to satisfy College of Atmospheric and Geographic Sciences requirements.

Ten-Year Limitation Rule

Credit in a student's major that is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the major department or by each department if the student's major is interdisciplinary.

COLLEGE HONOR ROLL

The College of Atmospheric and Geographic Sciences Honor Roll is compiled at the close of each fall and spring semester. It includes students who have completed at least 12 grade point hours (excluding courses graded S/U or P/NP) and have earned an average of 3.50 or higher during the semester. Part-time students enrolled for both the fall and spring semesters of an academic year will be included on the spring semester honor roll provided that, as a result of combining the work completed during the fall and spring semesters, they earn at least 12 grade point hours (excluding courses grade S/U or P/NP) with no withdrawals and an average of 3.50 or better.

College Requirements for Graduation

Graduation Grade Point Average

A minimum 2.25 must be maintained in the major, on all OU work attempted, and on the student's combined retention grade point average

to earn a bachelor's degree through the College of Atmospheric and Geographic Sciences.

Distinction and Special Distinction Degrees

The faculty may recommend that the degree "With Distinction" be conferred on graduates who have a retention grade point average at OU of 3.50 or higher and "With Special Distinction" on students who have an OU retention grade point average of 3.75 or higher.

Graduate Study

Refer to the Graduate tabs within the Department of Geography and Environmental Sustainability (p. 674) and the School of Meteorology (p. 738)pages of this catalog for information concerning graduate programs.

Scholarships and Financial Aid

The College of Atmospheric & Geographic Sciences and its academic units offer a number of scholarships. The college also offers research grant opportunities to A&GS upperclassmen. Students are encouraged to file the Free Application for Federal Student Aid, apply for scholarships, and other resources on the University's Financial Aid Services website.

Career Opportunities

Environmental Sustainability

Climate change, habitat destruction, pollution and the overuse of natural resources have contributed to a human environment that may no longer be sustainable. Only by using modern scientific methods and by integrating scientific research with an understanding of the global economy and governmental institutions can we expect to understand and manage a natural environment that will be sustainable, supporting and enhancing the quality of life for generations to come. Skilled professionals educated in the principles of environmental sustainability are essential to the effective management of the natural environment. These professionals will be qualified for numerous sustainability-related positions in government, the private sector, the non-profit sector, and education. Because many managers in these sectors have only a vague understanding of sustainability, persons with degrees in environmental sustainability are positioned very well to achieve important leadership positions, setting agendas for long-run sustainability at the local, regional, national, and global levels.

Geographic Information Science

Location-based data are central to 80 to 90 percent of all governmental information and to a wide range of business endeavors. Students who major in geographic information science study the science and technology of gathering, analyzing, interpreting, distributing and using geographic information. The U.S. Department of Labor declared geospatial technology as one of the twelve targeted industries that are high growth, high demand, and economically vital for the nation. Lending itself to both physical and social sciences, geospatial technology is applied across a broad range of sectors. Career opportunities span academia, government, industry and non-governmental organizations and include careers in agriculture, forestry, urban planning, land use, soil mapping, energy & utilities, redistricting, identifying and monitoring surface and ground water, flood damage assessment and relief measures, and consumer industries like in-car navigation systems.

Geography

More geographers than ever before are being hired in dozens of different fields. All levels of government hire geographers, who work for local and state economic development or planning offices, conduct research in recreation and park use, or map land use from satellite images. Many geographers at the federal level work for the Environmental Protection Agency, the Central Intelligence Agency, the U.S. Geological Survey, and the Department of State. Geographers also conduct marketing studies, plan transportation routes, understand international markets, advise businesses on the best location for new stores, work in real estate and urban planning, and determine environmental risks associated with site locations. From electric companies to wind-power farms, from forestry to telecommunications, real-time mobile interactive geographic technologies and databases are emerging as the backbone of large-scale management systems for industries with distributed assets and mobile workforces.

Meteorology

Meteorologists are highly trained atmospheric professionals who not only report on the weather, but also forecast it, prepare warnings, study the ozone and pollution levels, brief pilots on hazardous conditions, monitor rainfall and flood levels, and conduct research into specific weather phenomena like severe storms and tornadoes. Although a large number of meteorologists are employed by the media and the National Weather Service, the demand for meteorologists from engineering and environmental firms, private weather forecasters and consultants, and over a dozen federal agencies indicates that the need for professional meteorologists will continue to increase. Employers include all branches of the military, airlines and cargo haulers, the National Aeronautics & Space Administration (NASA), utility and insurance companies, ocean shipping firms, commodity trading firms, federal and state research laboratories, and meteorological software companies.

Courses

AGSC 2014 The Earth System 4 Credit Hours

(Crosslisted with GEOL 2014) An integrated overview of earth sciences emphasizing earth materials, the oceans and atmosphere, the solar system, and earth's evolution. The interrelationship among the different earth systems will be emphasized. Topics will be explored through a learning-cycle approach. The lab component includes both in-class experiments and one field-based research project. Laboratory (Sp) [II-LAB].

AGSC 2970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

AGSC 3011 Career Planning & Development for A&GS Majors 1 Credit Hour

Prerequisite: Junior standing or permission of instructor. Provides students with instruction in the career planning process directly related to their major and, ultimately, the world of work. Research shows that the majority of people lose their jobs because of poor work ethic, not because of aptitude. Course teaches appropriate skills desired by employers across AGS disciplines. Through lecture, discussion, individual projects and guest speakers, the interactive curriculum will cover topics such as behavioral interviewing techniques, self-directed job search strategies and career opportunities in multiple job sectors. As the course progresses, students will develop a career portfolio which includes a career assessment, class notes, handouts, cover letters and resumes (including electronic versions).

AGSC 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

AGSC 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers topics not usually presented in the regular courses.

AGSC 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

AGSC 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

AGSC 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

AGSC 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

AGSC G4970 Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Subjects covered vary. Deals with interdisciplinary concepts in atmospheric and geographic sciences not usually covered in regular courses. (Irreg.)

AGSC 4990 Special Studies 1-4 Credit Hours
1 to 4 hours. Prerequisite: Permission of instructor, upper-division standing. Contracted special problems study for topics not currently offered in regularly scheduled courses; may include library and/or laboratory research and field projects.

AGSC 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

AGSC 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Subjects covered vary. Deals with interdisciplinary concepts in atmospheric and geographic sciences not usually treated in regular courses. (Irreg.)

AGSC 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

General Information

The department has three majors: Geography, Environmental Sustainability, and Geographic Information Science (GIS) which all offer a Bachelor of Arts or Bachelor of Science. Geography, environmental sustainability, and geographic information science are all strongly interlinked. Together, they provide new ways of thinking and tools for understanding and managing the planet. Yet each is sufficiently distinct and provides different career paths and opportunities for students and practitioners.

Geography is made up of the study of two interrelated phenomena: spatial patterns (the why of where) and human-environment relationships (how people interact with where they live, work and play). Geography has a long and sometimes controversial history; geographers created maps of the world, and those maps were used to tell stories about how the world is, and what it ought to be. Contemporary geography includes the making of maps as well as critical examinations of their purposes and uses, but it is not limited to the study of maps. The discipline is often divided into three areas: physical geography (the study of the Earth's physical environments, features, and processes); human geography (the study patterns and dynamics of cultures, societies, economies and regions); and GIS (the study of geospatial information systems, spatial algorithms, and geovisualization). Many geographers find that the discipline is unusually supportive of work at the intersection between physical and social sciences, *making geography an important cognate to environmental and sustainability studies.*

Environmental Sustainability is a growing field that addresses how societies can meet the needs of the present without compromising the ability of future generations to meet their needs. Environmental sustainability has emerged as a field of study following recognition that the resources that support human life and make it comfortable are decreasing in quantity and quality while the demand and consumption for these resources continues to rise. Simultaneously, there is recognition that the issues involved, such as renewable energy resources, climate change, biodiversity loss, water resources, environmental justice, air and environmental quality etc., are cross-cutting issues that are not, and cannot adequately be, addressed by existing disciplines. Thus, there is need for new educational and research paradigms that weave environmental, economic and social issues together to provide students with an interdisciplinary education designed for dealing with

such complex issues. Environmental sustainability degree holders are well-prepared for careers in state and municipal government, non-governmental organizations, and business. Graduates of this program will lead efforts in research, decision-making, and policies that underpin the drive for sustainable futures.

Geographic Information Science (GIS) is the science and technology of acquiring, analyzing, visualizing, and interpreting spatial data to enhance understanding, reveal relationships, patterns, and trends, and to support decision-making processes. Geographic Information Science includes the study, development and application of geographic information systems, remote sensing and global positioning systems (GPS). It is by nature multidisciplinary and has considerable applications in many disciplines including anthropology, biology, business management, ecology, energy management, engineering, geography, geology, meteorology, sociology, and urban and regional planning. GIS integrates methods from these different fields in order to solve problems and understand human, natural and physical systems from local to global scales. Any data that has geographic attributes can by analyzed and visualized in GIS to reveal information that is essentially not available using any other means. For these reasons, many businesses and organizations find GIS an indispensable part of routine operations and long term strategic planning. Several faculty members have strong research interests in applying GIS and remote sensing technologies to understand land use land cover change, ecosystem dynamics, and urban environments.

The department's educational mission and scholarship covers the entire spectrum of geography, environmental sustainability, and geographic information science. Faculty research interests in conservation biology, hydrology, global and tropical climatology, land-use land cover, and biogeography. In human geography, faculty research interests include urban and environmental politics, humanities and visual arts, economic and natural resource development, indigenous cultures, specific regions, such as Latin America, Africa, Russia and East Asia, and indigenous use of media. Research in environmental sustainability focuses on renewable energy resources principally, energy and wind power development, ecosystem valuation, and sustainability perception. Many faculty members make extensive use of geographical information systems (GIS) in both geography and environmental sustainability research, in addition to investigating cutting edge methodological issues in geographic information sciences.

Faculty members also use a wide range of quantitative and analytic methods, including statistics remote sensing, archival methods and qualitative methodologies. The faculty is involved in wide ranging research associated with areas including natural hazards, land-use and land cover change, water resources, applied climatology and sustainability. The faculty is currently working in many geographical areas, including the United States, Canada, Latin America, Africa, the Middle East, and South and East Asia.

Thus, unique among all disciplines, geographic inquiry sits at the intersection of the social sciences, the humanities, and the natural sciences. Within the department, the research interests and expertise of faculty members cover the entire spectrum of geography including biogeography and human impacts on species distribution, applied climatology, renewable energy resources, hydrology and water resources, land cover and land use change, cultures, indigenous identities, political ecology, geohumanities, regional specialties, environmental policy and natural hazards.

Below are the current jobs our alumni have, the employment opportunities, and helpful links for each major.

Recent OU Geography Alumni - Employment

- Analyst at Inegra Realty Resources
- Assistant Planner at Association of Central Oklahoma Governments
- Associate GIS Analyst at Gulfport Energy Corp.
- Associate GIS Tech at OGE Energy Corp
- Bicycle & Pedestrian Coordinator at OK Dept. of Transportation
- Broadcast Meteorologist at TEGNA
- Community Development Specialist at City of Bethany
- EHS Data Analyst I at Chesapeake Energy
- Emergency Management Specialist, Kinston, North Carolina
- Engineering Tech at OGE Energy Corp
- GIS Tech at Aerotek
- Environment Project Specialist at Professionals Service Industries
- Environmental Services at Frito Lay
- Geospatial Analyst at Jeppesen
- GIS & Mapping Specialist at Reagan Smith Energy Solutions
- GIS Analyst at ConocoPhillips
- GIS Analyst at Enercon Services
- GIS Business Analyst III at Kalibrate
- GIS Mapping Specialist at Reagan Smith Energy Solutions
- GIS Specialist at Meshek & Associates
- GIS Specialist at ONEOK
- GIS Specialist at Zayo Group
- GIS Technician at Adecco Group
- Environmental Health Fellow with the U.S. EPA .
- Land Mapping Technologist at Encana Corporation
- Forensic Meteorologist at Weather Decision Technologies
- Mapping Support Specialist at Innovative Systems
- Marketing & Sales Coordinator at Weather Decision Technology
- Mesonet Calibration Lab Technician at Oklahoma Mesonet
- Officer in the U.S. Navy
- Project manager at Tulsa Regional Chamber of Commerce Regional Chamber of Commerce
- Sustainable Development & Transportation Planning at North Central Texas Council of Governments System
- Technician, General Dynamics Information Technology
- Technical Specialist at Baker Hughes
- Transportation planner with the North Central Texas Council of Governments

Recent OU Geography Alumni - Graduate School

- Ph.D. in Geography at the University of Maryland
- Ph.D. in Professional Counseling at Oklahoma State University
- Law Student at Penn State University
- Master of Arch at OU in landscape Arch and Urban Planning
- Master of Arts in Geography at The Univeristy of Oklahoma
- Master of Science in Geography at The University of Oklahoma
- Master of Public Health at The University of Oklahoma Health Sciences Center

- Master of City and Regional Planning at the University of North Carolina
- Master of Public Admin at George Mason
- Master in Geography and Spatial Planning at the University of Luxembourg

Career Options in Geography

- Climatologist
- Community Developer
- Community Resources Specialist
- Emergency Management
- Environmental Impact Analyst
- Environmental Scientist
- Facilities Planner
- Geointelligence Specialist
- Historic Preservationist
- Hydrologist
- Land Economist
- Land Use Analyst
- Location and Siting Analyst
- Logistics Analyst
- Map Analyst
- Map Curator / Librarian
- Natural Hazards Analys
- Natural Resources Manager
- Site Researcher
- Urban and Regional Planner
- Water Resources Specialist

Recent OU Environmental Sustainability Alumni - Employment

- Environmental Programs Specialist II at OK. Dept. of Environmental Quality
- Air Quality Program Coordinator at Choctaw Nation of OK
- Brand & Content Strategist at Opower in San Francisco
- Business Development at CleanTX in Austin
- City Planner for the City of Amarillo
- District Executive for Boys Scouts of America in OKC
- Field Scientist at Terracon in Katy, TX
- Freshest Cargo Route Manager at Fresh Approach in San Francisco
- GIS Specialist at LandWorks, Inc. in Houston, TX
- Director of Marketing and Communications at CleanTX in Austin
- Retail Strategy Architect of Digital Innovation in Norman
- GIS Specialist for Brownsfields Program for Oil and Gas Conservation Division of OK. Corp. Commission
- Health and Safety Executive (HES) Officer. Innospec Oilfield Services in OKC
- Insurance Agent at Kemper in Georgia
- Associate Planner and Program Coordinator at the Office of Sustainability in OKC
- Quality Control Analyst at Cyanotech in Hawaii
- Brown Field Coordinator at Absentee Shawnee Tribe, Office of Environmental Health and Engineering
- Natural Resources and Sustainable Development (NRSD) Graduate porgram in WDC, American University School of International Service (SIS)
- Masters of City and Regional Planning Program, UNC; Graduate Asst. UNC Highway Safety Research Center on safe routes to school

Career Options in Environmental Sustainability

Government

- Sustainable community planner
- Green economic developer
- National Park ranger
- Municipal water conservation program manager
- Green team leader for city government
- Oklahoma Department of Environmental Quality
- Oklahoma Water Resources Board
- United States Environmental Protection Agency
- United States Office of Renewable Energy and Energy Efficiency
- United Nations Sustainable Development Officer

Business

- Green energy entrepreneur
- Corporate social responsibility manager
- Environmental consultant
- Energy auditor
- Environmental journalist
- ISO certification specialist

Nonprofit

- Executive director of a local environmental nonprofit
- State-level engagement coordinator for Greenpeace
- Fundraising and grant writer for Sierra Club
- Communications manager for World Wildlife Fund

Recent OU GIS Alumni - Employment

- OU GIS Alumni hold a variety of jobs in many differing career fields. Below is just a small example of these jobs:
- GIS Technician at the 9-1-1 Dept. of the Association for Central OK Government
- Geospatial Imagery Analyst at US Navy Reserve
- Cartography Technician in Kansas City at Garmin
- Design Technician, Charlotte County, Florida
- GIS Analyst, Williams
- GIS Analyst, KAMO POWER
- GIS Analyst I, Chesapeake Energy
- GIS Technician, Chickasaw Nation, Ada, OK
- GIS Analyst II, Williams, San Antonio, TX
- GIS Analyst at Muscogee Creek Nation
- GIS Analyst, Absentee Shawnee Tribe; Office of Env. Health and Eng.
- GIS Contractor, OGE Energy
- GIS Specialist, Oklahoma Dept. of Transportation
- GIS Technician, Apply, Austin TX
- GIS Tech, Chesapeake
- GIS Tech III, Chesapeake
- GIS Technician, Meshek & AssociatesGIS Technician at American Energy Partners
- GIS Technician, Apex Systems
- GIS Analyst, Chesapeake Energy
- GIS Analyst, Tapstone Energy
- Routing Technician, Oklahoma Environmental Management Authority
- SAP Specialist and Warehouse Lead Supervisor over the F119 Program, URS Corporation, An AECOM Company
- Software Engineer, Centuria
- IT Analyst II, The University of Oklahoma
- GIS Research Analyst, Templeton Demographics

Career Options in GIS

- Cartographic Design
- Computer Programming
- Data Analysis, Integration, Mining and Visualization
- Database Design and Management
- Disaster Response
- Environmental Analysis and Management
- Intelligence Analyst
- Imagery Analyst
- Logistics Planning and Support
- Planning (Urban, Transportation, Resources)
- Project Management
- System Administration
- Web Mapping

Programs & Facilities

Department offices are housed primarily on the fourth, fifth and sixth floors of Sarkeys Energy Center, while laboratories are located on the first floor of the same building. Available software includes ERDAS, ENVI, ARCMap, Microsoft Office products and SPSS for statistical analysis.

The department has laboratories for physical geography, cartography, and remote sensing, and a maker space and studio for geohumanities research.

University resources include the Bizzell Memorial Library, which has an extensive collection of journals and books on geography and environmental sustainability, a large collection of maps and aerial photographs, and special collections in Western History, the History of Science, and the Geosciences.

The department also houses the Oklahoma Alliance for Geographic Education (OKAGE), an organization for geography educators in Oklahoma. OKAGE is affiliated with the National Geographic Society and its national network of state geographic alliances and national geography organizations. Also associated with the department are the experimental Geography studio, the Center for Spatial Analysis, the South Central Climate Science Center, and the Water-Energy-Food Institute (WEFI).

Study Abroad

Students majoring in geography, environmental sustainability, and geographic information science are strongly encouraged to participate in the University's Study Abroad Program during the junior or senior year. Department advisors work closely with students to ensure that courses taken abroad will apply to their degrees. Students may study abroad in any of more than 100 cities across 50 countries around the world. Graduates of the program have studied abroad in Austria, Costa Rica, Ecuador, Ireland, Germany, Netherlands, Peru, the Galapagos Islands, and the United Kingdom (English and Scottish universities). The College of Atmospheric and Geographic Sciences offers the John T. Snow Study Abroad Scholarship; this $1,500 award is presented each year to a junior A&GS student who plans to study abroad, in addition to funding opportunities offered by OU through the Study Abroad Program.

Scholarships

The department offers 12 awards and scholarships (6 of which are endowed) which are used annually to recognize deserving students. The Ralph and Margaret Olson Scholarship Fund provides awards to students on the basis of high academic achievement; undergraduate majors are eligible after completion of the junior year. The Clyde Bollinger Award provides awards to graduating seniors who demonstrate outstanding scholarship and enthusiasm for geography. Additional awards and scholarships are provided annually to outstanding graduate and undergraduate students. The James Davis Geography Early Scholar Award and the Gress Family Scholarship are awarded to freshmen or sophomores who declare a major in geography or environmental sustainability in the freshmen or sophomore year. The Chair's award for Outstanding Senior Capstone is awarded each year to the student or

team of undergraduate students that produce an original body of work judged to be the best by the faculty members.

Undergraduate Study

Bachelor of Arts and Bachelor of Science

All undergraduate students majoring in geography, environmental sustainability, or geographic information science are required to complete a core curriculum in the respective degrees, which provides students with an introduction to the major areas of geography and sustainability. Both the Bachelor of Arts and Bachelor of Science degrees contain electives that allow the student (in consultation with an advisor) to craft a degree program that meets their interests in the various facets of the fields. Students are encouraged to meet with the departmental faculty advisors early in the student's academic career to begin discussing the courses best suited to the student's interests.

- Environmental Sustainability: Culture & Society, Bachelor of Arts (p. 689)
- Environmental Sustainability: Culture & Society, Bachelor of Science (p. 691)
- Environmental Sustainability: Planning & Management, Bachelor of Arts (p. 693)
- Environmental Sustainability: Planning & Management, Bachelor of Science (p. 696)
- Environmental Sustainability: Science & Natural Resources, Bachelor of Arts (p. 698)
- Environmental Sustainability: Science & Natural Resources, Bachelor of Science (p. 701)
- Geographic Information Science, Bachelor of Arts (p. 703)
- Geographic Information Science, Bachelor of Science (p. 706)
- Geography: Geohumanities, Bachelor of Arts (p. 708)
- Geography: Physical & Social Sciences, Bachelor of Arts (p. 710)
- Geography, Bachelor of Science (p. 712)

Accelerated Degree Programs

The department now offers accelerated Master's programs with any of our undergraduate degrees and a Masters in Regional and City Planning.

- Environmental Sustainability: Planning & Management, Bachelor of Arts/Master of Regional & City Planning (p. 717)
- Environmental Sustainability: Planning & Management, Bachelor of Science/Master of Regional & City Planning (p. 720)
- Geographic Information Science, Bachelor of Arts/Master of Regional & City Planning (p. 723)
- Geographic Information Science, Bachelor of Science/Master of Regional & City Planning (p. 726)
- Geography: Physical & Social Sciences, Bachelor of Arts/Master of Regional & City Planning (p. 729)
- Geography, Bachelor of Science/Master of Regional & City Planning (p. 731)

Minors

Minors offered by the OU Department of Geography and Environmental Sustainability (DGES) provide complimentary knowledge for a variety of careers and degrees. By combining the study of environmental issues and research methods, social, economic, energy and policy considerations, and digital technologies and their applications, our minors prepare graduates to better comprehend and contribute to addressing real-world social and environmental issues.

- Climate Adaptation, Minor (p. 715)
- Environmental Sustainability, Minor (p. 715)
- Geographic Information Systems, Minor (p. 716)
- Geography, Minor
- Hydrologic Science, Minor (p. 716)
- Physical Geography, Minor (p. 717)

Graduate Study

Master of Arts/Master of Science

The Master of Arts and Master of Science degrees certify that a student has a professional grasp of the concepts and techniques of geography/environmental sustainability and has demonstrated competence and originality in their use. The degrees can be acquired by one of two methods-a thesis option or a non-thesis option.

- Master of Arts, Geography and Environmental Sustainability (p. 734)
- Master of Science, Geography and Environmental Sustainability: Environmental Systems (p. 735)
- Master of Science, Geography and Environmental Sustainability: Geospatial Technologies (p. 736)

Graduate Certificates

Students interested in pursuing Geospatial Technologies Graduate Certificate must be currently enrolled in a graduate program at the University of Oklahoma.

Doctoral Programs

The Geography and Environmental Sustainability Ph.D. (p. 738) certifies that a student has mastered a significant body of geographical knowledge and has demonstrated a high degree of professional competence as a geographer by making an important, original contribution to knowledge.

All Ph.D. students must identify an advisory committee which will consist of the advisor and four other faculty members, one of whom must be from a discipline other than geography.

Students are expected to declare provisional specialties, in consultation with the advisory committee, by the end of the second semester of residence in the Ph.D. program. Coursework requirements in connection with this specialty, as well as with the cognate field, are determined by the student and the advisory committee in a formal conference held before the end of the first year of residence.

Each student must select a cognate field or discipline related to their area of specialization. The advisory committee must approve both the cognate field and the courses which fulfill this requirement.

The readiness of a student to proceed with dissertation research will be evaluated by a proposal as well as written and oral examinations. The proposal presentation will be open to the general public and must be announced in advance, giving the entire department and public a chance to participate. participate. A written statement of the proposal shall be given to each member of the dissertation committee and to the remaining members of the faculty. The comprehensive examinations will be administered by an examining committee of five faculty members, three from geography and at least one external committee member. The

written portion of the examination will cover the degree specializations and cognate field. The examination will be prepared by the advisor from questions suggested by members of the examining committee. The oral examination will consist of follow-up questions related to the written portion and to the student's knowledge of geographic thought and methodology. Satisfactory completion of the written and oral portions of the general examination is followed by formal certification of candidacy for the Ph.D. degree.

The final requirement is the preparation and oral defense of a Ph.D. dissertation, which must be a major piece of research recognized by the dissertation committee as a significant contribution to knowledge. The dissertation committee must consist of at least five faculty members; three or more of them must be faculty members in the department and also on the geography graduate faculty of the University. Members of the advisory committee will normally remain as members of the examination and dissertation committees. All changes in committee membership must be forwarded to the Graduate College for approval at least 30 days prior to defense of the dissertation.

After advancement to candidacy for the Ph.D. degree, a student is expected to submit a dissertation manuscript within four years. After this time, at the discretion of the Department of Geography faculty, the student may be required to repeat the general examinations and/or to resubmit a dissertation proposal as a condition for remaining a degree candidate. As long as there is clear evidence that a student is making progress and is keeping up-to-date professionally, the four-year time period may be extended on recommendation of the dissertation committee. Experience shows, however, that long delays tend to increase the likelihood of problems in completing a dissertation.

The final defense of the dissertation will be scheduled only after the committee has agreed to approve the draft as nearly complete. Procedures for this defense shall follow those outlined by the Graduate College. Major points of conflict regarding substance or style should be resolved before the final defense. However, minor additions and revisions may be expected after the defense.

Courses

GEOG 1103 Human Geography 3 Credit Hours
An introduction to the humanized Earth; specifically, to the geography of population, the global pattern of cultures and such affiliated elements as language, religion, technology, and political organization, and to the physical expression of those cultures in rural and urban settings. (F, Sp, Su) [IV-WC] .

GEOG 1113 The Language of Maps 3 Credit Hours
Introduction to reading, analyzing and interpreting graphic information symbolized on a wide variety of maps. Topics include: scale, projection, generalization, symbolization, statistical map techniques, coordinate systems, interpreting human and physical landscapes on topographic maps and web-based mapping services, controversies about place names, political gerrymandering, and cartographic innovations. (Sp) [I-O].

GEOG 1114 Physical Geography 4 Credit Hours
A systematic introduction to the physical Earth; including Earth materials, landform processes and resultant landforms, Earth-sun relations, weather, climate, the water cycle, natural vegetation, and soil types. Emphasis is placed on the inter-relationships among these phenomena. (F, Sp, Su) [II-LAB] .

GEOG 1123 Introduction to Geohumanities 3 Credit Hours
Introduces students to the link between geography and the humanities, specifically the way we imagine, design, understand and represent the lands and lives of everyday places. Students learn how others have used words (e.g., literature, stories, blogs), pictures (e.g., art, photography, television, video, cinema), music, and maps to assign meaning to places. (F, Sp)

GEOG 1203 Global Environmental Issues 3 Credit Hours
This course is an "interactive" lecture/discussion course, and integrates environmental content with selected readings, hosts guest experts and connects students with real world applications. The myriad of environmental issues and concepts expressed by various media that impact us directly and indirectly will be academically explored. (F, Sp) [III-SS].

GEOG 1213 Economic Geography 3 Credit Hours
A survey of the contemporary global economy and of the analytical approaches developed by geographers studying it. Economic systems are examined at the household, urban, regional, national, and international levels. Special attention is given to changes in resource use, regional specialization, trade, industrial and retail location, and modernization. (F, Sp) [III-SS] .

GEOG 2603 World Regional Geography 3 Credit Hours
A broad survey of the world's major culture regions emphasizing basic physical, cultural, economic, and political patterns, as well as the processes that have created those patterns. Emphasis on economic development, ethnic conflict, and environmental degradation, as well as on the changing role of the United States. (F, Sp, Su) [IV-WC] .

GEOG 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

GEOG 3003 Interpreting Planet Earth 3 Credit Hours
Prerequisite: junior standing or permission of instructor. This one semester, dynamic course integrates human and physical geography. Understanding our planet, its people, issues and global activities will involve "hot topic" discussions, case studies, a team project, plus two outside class field-based activities. (Sp) [III-SS].

GEOG 3023 Principles of Physical Geography 3 Credit Hours
Prerequisite: junior standing or permission of instructor. This course is designed to explain important physical geographical processes and phenomena, the interactions among these phenomena, and their relationship with various human activities. The course provides a solid foundation for upper level physical geography courses including biogeography, climatology, geomorphology, and hydrology. (Sp)

GEOG 3113 Media Geographies 3 Credit Hours
Prerequisites: junior status or permission of the instructor. This course explores an emerging paradox: with increasing personal mobility, people's experiences of places are increasingly mediated. Media Geographies addresses how media technologies shape our senses of space and place. Students engage digital humanities methods to develop greater understanding of the spatial impacts of various media. (F)

GEOG 3133 Geography of Wine 3 Credit Hours
Prerequisite: junior standing; students must be 21 years of age or older as of the first day of the semester; permission of department. Analysis of physical and cultural forces which shape the production, consumption and variety of wine. Wine will be examined through its economic, social, political and ideological impacts throughout history, and up to the present. Emphasis will be on PLACE as an agent in defining the product, along with tangible skills of interpreting wine labels, etiquette, and incorporating wine with food. (F, Sp)

GEOG 3213 Principles of Human Geography 3 Credit Hours
Prerequisite: upper-division standing or permission of instructor. Introduction to the distribution of humans and their activities on the surface of the earth and the processes that generate these distributions. Special attention given to the influence of economy, culture, and politics in shaping the land and the spatial character and organization of human life. A key theme is the relationship of human diversity and places to the environment. (F)

GEOG 3223 The British Empire and its Successor States 3 Credit Hours
Prerequisite: junior standing or consent of instructor. An examination of the relationship between ruler and ruled in the parts of Africa and Asia ruled by the British in the 19th and 20th centuries. Particular attention to the writings of the colonized peoples and to the lasting influence of colonialism upon them. (Irreg.) [IV-NW] .

GEOG 3233 Principles of Sustainability 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Provides a broad introduction to the basic principles of sustainable development with an examination of its social, economic, and environmental dimensions. Students will learn about sustainability strategies and practices from a national and international perspective with attention paid to the ethical and cultural aspects integral to a transition to sustainability. (Sp)

GEOG 3243 Principles of Economic Geography 3 Credit Hours
Prerequisite: junior standing or permission of instructor. An examination of the distribution of economic activities and the processes that generate them. Special attention is given to principles of economic location and their application to patterns of production, consumption, and exchange. Contemporary approaches to economic geography are critiqued, including relational economic geography, the creative economy, and environmental economic geography. (Sp)

GEOG 3253 Environmental Conservation 3 Credit Hours
Contemporary environmental issues and policies. Problems of population growth, food production, energy shortages, resource depletion and pollution impacts will be stressed. The social aspects of conservation management policies will be viewed at both global and national scales. (F) [III-SS] .

GEOG 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

GEOG 3443 Environment and Society 3 Credit Hours
Prerequisite: junior standing or permission of instructor. An introduction to the political, economic, and cultural factors that shape human-environmental relations around the world. Special attention is placed on how societies come to value the environment differently, how people struggle over access to and control of natural resources, and the social causes and consequences of environmental change. (F) [III-SS].

GEOG 3513 Political Geography 3 Credit Hours
Prerequisite: junior standing. A survey, stressing current geopolitical conflicts. Special topics include the nation-state, territoriality, the legacies of colonialism, spheres of political influence, regional conflicts, and geopolitics in such areas as Europe and the Pacific Rim, demographic and resource considerations in world politics, and emerging culturally based conflicts. (F, Sp, Su) [IV-WC] .

GEOG 3523 Managing for a Changing Climate 3 Credit Hours
(Crosslisted with METR 3523) Prerequisite: Junior or Senior standing. Provides an integrative understanding of the components of the climate system including the range of natural climate variability and external drivers of climate change, in addition to impacts of a changing climate on multiple sectors such as the economy, policy, ecosystems, and indigenous populations. (F) [II-NL].

GEOG 3773 Geography of the United States 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. An introduction to the regional character of the United States, including its physical, social, and economic elements. (Irreg.)

GEOG 3843 Gender and Environment 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Critically examines the concepts of environment and gender. Particular emphasis is placed on how and why environmental inquiry and academic advocacy intersect. Students will study the organizational practices, institutional policies, and cultural politics with which the concepts of gender and environment are composed, conveyed, and contested. (Sp) [III-SS].

GEOG 3890 Selected Studies in Geography 3 Credit Hours
1 to 3 hours. Prerequisite: junior standing. May be repeated with change of subject matter; maximum credit nine hours. To be used for special intersession courses and occasional (irregularly scheduled) courses of special concern and use for the undergraduate. (F, Sp)

GEOG 3924 Quantitative Methods 4 Credit Hours
Prerequisite: junior standing, completion of a lower division general education math requirement. Introduces students to methods of collecting, organizing, and describing data, focusing specifically on environmental and geographical applications. Students also learn basic concepts of probability and statistical inference. The overall objective is to develop an understanding of statistical literacy as it is applied to geographical and sustainability related issues. Laboratory (F, Sp) [I-M].

GEOG 3930 Field Techniques for Geographers 1-4 Credit Hours
1 to 4 hours. Prerequisite: twelve hours of geography or permission of instructor. May be repeated with change of subject matter; maximum credit six hours. Basic methods of data acquisition: surveying, measuring, sampling, sketching, and mapping. Individual and group projects may be required. (Irreg.)

GEOG 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Su)

GEOG 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. Deals with concepts not usually presented in regular coursework. (Irreg.)

GEOG 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

GEOG 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

GEOG 4003 The Global City and Planning Issues 3 Credit Hours
(Crosslisted with RCPL 4003; Slashlisted with 5003) Prerequisite: English 1213 and junior standing. An introduction to the concept of globalization and its effects on cities, and the city planning issues related to those effects. Characteristics, theories, and strategies of city development are reviewed. Cities are observed from several perspectives: natural and built environment, governance, society, economics, and history. No student may earn credit for both 4003 and 5003. (Sp)

GEOG 4123 Urban Geography 3 Credit Hours
(Slashlisted with 5123) Prerequisite: Junior standing or permission of instructor. Key concepts including spaces of capital investment and resistance thereto, urban ecologies, mobile digital geographies, infrastructure, settlement patterns, transportation, and the history of the built environment. Focus on local and distant case studies. Field component for reading the urban landscape. Learn how the material shape of cities says a lot about the cultural and economic values held by that society. No student may earn credit for both 4123 and 5123. (Sp, Su)

GEOG 4143 History of Geography and Sustainability 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. Introduces students to the history of Western thought addressing human-environmental relationships, including ideas about the causes of and appropriate responses to environmental change, and about the impact of nature on people from antiquity through the twentieth century. (Sp)

GEOG 4200 Internship in Geography 1-6 Credit Hours
1 to 6 hours. Prerequisite: Permission of instructor and junior standing. May be repeated; maximum credit 6 hours. A student must secure their own internship that provides career training experience whereby students may apply geographical or environmental skills and develop further professional capabilities in a realistic setting. Students must complete internship hours and reflective coursework provided by faculty member to obtain credit. (F, Sp, Su)

GEOG 4203 Geomorphology 3 Credit Hours
(Slashlisted with GEOG 5203) Prerequisite: 1114, or comparable work in earth sciences, junior standing. Development and modification of land-surface form by atmospheric, fluvial, glacial, mass-wasting, volcanic and tectonic agents. Emphasis is placed on spatial aspects of the interactions at the interfaces of land, air and water. No student may earn credit for both 4203 and 5203. (Irreg.)

GEOG 4243 Geography of Asia 3 Credit Hours
Prerequisite: junior standing or permission of instructor. A survey of the Middle East and central, south, southeast and east Asia. The course includes overviews of the continent's physical, social, and economic characteristics, but it treats primarily of the evolution of Asia's contemporary cultural landscapes as an expression of Asian cultures. (Sp) [IV-NW] .

GEOG 4263 Geography of Latin America Through Film 3 Credit Hours
Prerequisite: junior standing or permission of instructor. An advanced undergraduate course designed to introduce students to the various themes shaping the historical and cultural geography of Latin America. Weekly films illustrate exploration and conquest, indigenous encounters, slavery and Africans, colonial society, liberalism, environmental change, urbanization, revolution and issues in contemporary social geography. (F) [IV-WC] .

GEOG 4273 Regional Climatology 3 Credit Hours
(Slashlisted with GEOG 5273) Prerequisite: junior standing or permission of instructor. Investigates the nature of the Earth's climate and provides an examination of ideas about atmospheric circulation. Topics include radiation, the hydrologic cycle, general circulation, local and regional climates, and global climate change. Specific attention is focused on the climatic water budget, its utility in evaluating local and regional climates, the role of climate models, and issues in applied climatology. No student may earn credit for both 4273 and 5273. (Irreg.) [II-NL].

GEOG 4283 Biogeography 3 Credit Hours
(Slashlisted with GEOG 5283) Prerequisite: junior or senior standing. Biogeography is the study of the spatial distribution, past and present, of plant and animal species and biodiversity. Course topics include factors affecting the distribution of species, the role of biogeography in biological conservation and understanding a changing world. No student may earn credit for both 4283 and 5283. (F)

GEOG 4293 Hydrologic Science 3 Credit Hours
(Slashlisted with GEOG 5293) Prerequisite: Math 1823 or 1914 and either Physics 2414, 2514 or Chemistry 1315. Study of the processes which control the storage and movement of water at global, regional, and local scales. The emphasis is on the land portion of the hydrologic cycle, and includes the study of processes such as infiltration, soil water flow in the saturated and unsaturated zone, rainfall/runoff and evaporation. Lab sections include exercises on a computer in the field and in a soils lab. No student may earn credit for both 4293 and 5293. (Sp)

GEOG 4313 Interpreting Society and Environment: Qualitative Research Methods 3 Credit Hours
(Slashlisted with GEOG 5313) Prerequisites: junior standing. This class approaches qualitative research methods from the perspective of human geography. That makes it especially useful for students who want to investigate the intersections of social and environmental relationships: be they historical, contemporary, or future (as in planning). No student may earn credit for both 4313 and 5313. (F)

GEOG 4333 Corporate Environmental Strategy 3 Credit Hours
(Slashlisted with GEOG 5333) Prerequisite: junior standing or permission of instructor. Examination of the importance of environmental science and technology for corporations seeking sustainability. Students attain an understanding of the private sector as a force for positive environmental change and the dimensions of the natural environment in the competitive market. Corporate case students are discussed to improve understanding of strategic decision making. No student may earn credit for both 4333 and 5333. (Sp)

GEOG 4343 Climate, History, and Society 3 Credit Hours
(Slashlisted with 5343) Prerequisite: junior standing or permission of instructor. This course is an overview of the mutual interactions of climate and human activities, and examines historical examples of significant climatic impacts. The course includes investigation of the nature of earth's climate and a synthesis of contemporary scientific ideas about the climate and its environmental and societal impacts. No student may earn credit for both 4343 and 5343. (Irreg.) [II-NL] .

GEOG 4493 Systems Thinking and Knowledge Integration 3 Credit Hours
(Slashlisted with GEOG 5493) Prerequisites: Junior standing or permission of instructor. This course provides students with explicit understanding of contemporary techniques of integrating different fields of knowledge to advance systematic understanding and problem solving in environmental sustainability. Different techniques and approaches are examined first within a systems framework and then followed with detailed study of two complex ecosystems to illustrate application. No student may earn credit for both 4493 and 5493. (Sp)

GEOG 4513 Applied Climatology 3 Credit Hours
(Slashlisted with GEOG 5513) Prerequisite: MATH 1823 and PHYS 2514 with a grade of C or better. The purpose of this class is to broaden the perspective of students to the use of climate information in agriculture, energy, water resources, public health, and other areas of society. Field trip. No student may earn credit for both 4513 and 5513. (Sp)

GEOG 4523 Life Cycle Analysis 3 Credit Hours
(Slashlisted with GEOG 5523) Prerequisite: junior standing or permission of instructor. This course provides students with an understanding of Life Cycle Analysis both with respect to its conceptual foundations as well as its applications across a variety of socially important sectors. No student may earn credit for both 4523 and 5523. (Sp)

GEOG 4563 American Indian Geographies 3 Credit Hours
Prerequisite: upper-division standing. A survey of the geographical knowledge among Indians in North America. Historical and contemporary topics are covered in a cross-cultural perspective including land use, environmental perception, concepts of space and place, symbolic landscapes, sacred land, and the idea of resources. (Sp) [IV-NW] .

GEOG 4573 Indigenous Peoples and Resources 3 Credit Hours
Prerequisite: junior or senior standing or permission of instructor. A global survey of the role natural resources play in contemporary conflicts among indigenous peoples, neocolonial states and corporations, and non-governmental organizations (NGOs). The integrative-humanistic approach emphasizes understanding the ethical, cultural, economic, and ecological issues at stake in individual case studies set in a global context. Possible solutions to these conflicts are examined. (F) [IV-WC] .

GEOG 4583 Energy Systems and Sustainability 3 Credit Hours
(Slashlisted with GEOG 5583) Prerequisite: Junior standing or permission of instructor. An understanding of interdisciplinary elements and perspectives associated with energy systems in the context of sustainability. It examines current and future energy supply, transmission, and demand management options. A critical focus on the economic, social, and environmental implications of energy system transitions will help identify energy technology and infrastructure solutions while understanding the institutional and organizational changes necessary for implementation. No student may earn credit for both 4583 and 5583. (F)

GEOG 4613 Place and The Geographical Imagination 3 Credit Hours
(Slashlisted with GEOG 5613) Prerequisites: junior standing or permission of instructor. Focuses on the meaning people invest in places and how, in turn, places both enable and constrain our perceptions, attitudes, beliefs, and behavior. Emphasis is on understanding how reason, imagination, faith, and emotion infuse the meaning of particular places to serve different purposes. No student may earn credit for both 4613 and 5613. (Sp)

GEOG 4713 Dynamic Modeling of Socio-Environmental Systems 3 Credit Hours
(Slashlisted with GEOG 5713) Prerequisite: Senior standing or permission of instructor. This course is an overview of the use of modeling and simulation to document, analyze, and project the dynamic behavior of socio-environmental systems. The course covers an introduction of basic modeling and simulation terminology and three different approaches to modeling temporal and/or spatial dynamics: system dynamics modeling, agent-based modeling, and cellular automata. No student may earn credit for both 4713 and 5713. (Sp)

GEOG 4853 The Geography of Africa 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Analysis of diversified natural resources and endowment; cultural/historical background; economic, political and environmental implications of colonialism; modern development aid; post-colonial ideologies, policies and regional change; migration and rural-urban interactions; religion, the arts, and civilization; Sahel crises and coping strategies; national master plans and objectives for economic development; project evaluation. (Irreg.)

GEOG 4863 Regional Geographies of Indigenous Media 3 Credit Hours
(Slashlisted with GEOG 5863) Prerequisite: junior standing. Learn about the making, moving, and meanings of Indigenous media. Regional case studies feature scholarly readings that examine the geographically- and culturally-specific contexts from which particular forms of Indigenous media emerge. Ample video viewings allow us to explore the contents of media made by Indigenous artists/activists/intellectuals and their allies who live and/or work in a particular region. No student may earn credit for both 4863 and 5863. (Irreg.) [IV-NW].

GEOG 4893 Research Methods and Professional Development 3 Credit Hours
Prerequisite: GIS 2023; GEOG 3924, or concurrent enrollment; senior standing; departmental permission. Research methods used in contemporary geography, GIS, and environmental sustainability and use of these methods in designing research projects, and preparation for post-graduate employment and/or graduate education. Required prior to enrollment in Capstone. Students complete proposals for research to be undertaken in the subsequent capstone course. The course will include professional development e.g resume writing, presentation, and interviewing skills. (F)

GEOG 4943 Natural Hazards 3 Credit Hours
(Slashlisted with GEOG 5943) Prerequisite: junior or senior standing. Examines changes in patterns of a range of natural hazards and the impact they have on society. Examines general concepts of hazard mitigation and design and our perceptions of risk and how that affects preparedness and mitigation decisions. No student may earn credit for both 4943 and 5943. (F) [III-SS].

GEOG 4953 Capstone 3 Credit Hours
Prerequisite: Department permission and GEOG 3924, GIS 2023, and C or better in GEOG 4893. Completion of research as proposed in GEOG 4893, including a formal presentation of results to faculty and students in the department and submission of a final research report reflecting a culminating experience in the student's degree program. (Sp) [V].

GEOG 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

GEOG 4963 Natural Resource Economics 3 Credit Hours
(Slashlisted with GEOG 5963) Prerequisite: junior standing. The course will teach students to understand, critically analyze, and apply knowledge of economics to environmental problems. Theoretical concepts of natural resource economics will be taught and followed with examples from practice. Further, students will participate in practical exercises to apply natural resource economics to real-world problems. No student may earn credit for both 4963 and 5963. (F)

GEOG 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

GEOG 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topics not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

GEOG 5003 The Global City And Planning Issues 3 Credit Hours
(Crosslisted with RCPL 5003; Slashlisted with 4003) Prerequisite: graduate standing. An introduction to the concept of globalization and its effects on cities, and the city planning issues related to those effects. Characteristics, theories, and strategies of city development are reviewed. Cities are observed from several perspectives: natural and built environment, governance, society, economics, and history. No student may earn credit for both 4003 and 5003. (Sp)

GEOG 5113 Quantitative Methods in Geographic and Environmental Research 3 Credit Hours
Prerequisite: Graduate standing. An introduction to quantitative research design and problem-solving research techniques useful for geographical and other environmental and social research. (F, Sp)

GEOG 5123 Urban Geography 3 Credit Hours
(Slashlisted with GEOG 4123) Prerequisite: Graduate standing or permission of instructor. Key concepts including spaces of capital investment and resistance thereto, urban ecologies, mobile digital geographies, infrastructure, settlement patterns, transportation, and the history of the built environment. Focuses on local and distant case studies. Field component for reading the urban landscape. Learn how the material shape of cities defines the cultural and economic values held by that society. No student may earn credit for both 4123 and 5123. (Sp, Su)

GEOG 5143 Ecosystem Services 3 Credit Hours
Prerequisites: graduate or senior standing. Explores the availability and value of ecosystem services using scientific, economic, and sociopolitical perspectives. At the end of the course, students should be able to: (i) Define and map ecosystem services; (ii) Gain an interdisciplinary understanding of the processes involved in the creation and distribution of ecosystem services; and (iii) Describe the linkages between natural and human systems and how these impact the availability of ecosystem services. (Sp)

GEOG 5200 Internship in Geography 1-3 Credit Hours
Prerequisite: graduate standing. May be repeated; maximum credit six hours. Provides career training experience for students, allowing them to apply their skills and theoretical constructs in a real world setting in industry, business, government agencies or educational institutions. (F, Sp)

GEOG 5203 Geomorphology 3 Credit Hours
(Slashlisted with GEOG 4203) Prerequisite: graduate standing. Development and modification of land-surface form by atmospheric, fluvial, glacial, mass-wasting, volcanic and tectonic agents. Emphasis is placed on spatial aspects of the interactions at the interfaces of land, air and water. No student may earn credit for both 4203 and 5203. (Irreg.)

GEOG 5213 Principles and Practice of Urban Planning 3 Credit Hours
(Crosslisted with RCPL 5213) Prerequisite: open to seniors in social science departments, architecture and civil engineering and to graduate students in regional and city planning. A lecture course which examines the physical, social, economic and public interest determinants of land use; the economic population and land use studies required to provide the basis for planning; space and location requirements and design characteristics for residential, commercial, industrial and public uses of land; and the study of urban traffic as a function of land use in terms of structure and systems of movement. (F, Su)

GEOG 5253 The Economics of Sustainability 3 Credit Hours
Prerequisites: graduate standing or permission of instructor. This course critiques various approaches to understanding the economics of sustainability, including neoclassical economic perspectives, environmental economics, and ecological economics. Students will examine the links between the natural environment and the human economy. (Sp)

GEOG 5273 Regional Climatology 3 Credit Hours
(Slashlisted with GEOG 4273) Prerequisite: Graduate standing. Investigates the nature of the Earth's climate and provides an examination of ideas about atmospheric circulation. Topics include radiation, the hydrologic cycle, general circulation, local and regional climates, and global climate change. Specific attention is focused on the climatic water budget, its utility in evaluating local and regional climates, the role of climate models, and issues in applied climatology. No student may earn credit for both 4273 and 5273. (Irreg.)

GEOG 5283 Biogeography 3 Credit Hours
(Slashlisted with GEOG 4283) Prerequisite: Graduate Standing. Biogeography is the study of the spatial distribution, past and present, of plant and animal species and biodiversity. Course topics include factors affecting the distribution of species, the role of biogeography in biological conservation and understanding a changing world. No student may earn credit for both 4283 and 5283. (F)

GEOG 5293 Hydrologic Science 3 Credit Hours
(Slashlisted with GEOG 4293) Prerequisite: Math 1823 or 1914 and either Physics 2414, 2514 or Chemistry 1315, or the equivalents and graduate standing. Study of the processes which control the storage and movement of water at global, regional, and local scales. The emphasis is on the land portion of the hydrologic cycle, and includes the study of processes such as infiltration, soil water flow in the saturated and unsaturated zone, rainfall/runoff and evaporation. Lab sections include exercises on a computer in the field and in a soils lab. No student may earn credit for both 4293 and 5293. (Sp)

GEOG 5313 Interpreting Society and Environment: Qualitative Research Methods 3 Credit Hours
(Slashlisted with GEOG 4313) Prerequisites: graduate standing. This class approaches qualitative research methods from the perspective of human geography. That makes it especially useful for students who want to investigate the intersections of social and environmental relationships: be they historical, contemporary, or future (as in planning). No student may earn credit for both 4313 and 5313. (F)

GEOG 5333 Corporate Environmental Strategy 3 Credit Hours
(Slashlisted with GEOG 4333) Prerequisite: graduate standing or permission of instructor. Examination of the importance of environmental science and technology for corporations seeking sustainability. Students attain an understanding of the private sector as a force for positive environmental change and the dimensions of the natural environment in the competitive market. Corporate case students are discussed to improve understanding of strategic decision making. No student may earn credit for both 4333 and 5333. (Sp)

GEOG 5343 Climate, History, and Society 3 Credit Hours
(Slashlisted with 4343) Prerequisite: graduate standing or permission of instructor. This course is an overview of the mutual interactions of climate and human activities, and examines historical examples of significant climatic impacts. The course includes investigation of the nature of earth's climate and a synthesis of contemporary scientific ideas about the climate and its environmental and societal impacts. No student may earn credit for both 4343 and 5343. (Irreg.)

GEOG 5433 Sustainability: Theory and Practice 3 Credit Hours
Prerequisites: graduate standing or permission of instructor. This course examines the concept of sustainability from a human development perspective. A set of sustainability principles are critiqued to provide an understanding of the difficulty facing human systems to solve environmental, social and economic challenges. (Sp)

GEOG 5493 Systems Thinking and Knowledge Integration 3 Credit Hours
(Slashlisted with GEOG 4493) Prerequisites: Graduate standing or permission of instructor. This course provides students with explicit understanding of contemporary techniques of integrating different fields of knowledge to advance systematic understanding and problem solving in environmental sustainability. Different techniques and approaches are examined first within a systems framework and then followed with detailed study of two complex ecosystems to illustrate application. No student may earn credit for both 4493 and 5493. (Sp)

GEOG 5513 Applied Climatology 3 Credit Hours
(Slashlisted with GEOG 4513) Prerequisites: graduate standing and grade of C or better in MATH 1833 and PHYS 2514. The purpose of this class is to broaden the perspective of students to the use of climate information in agriculture, energy, water resources, public health, and other areas of society. Field trip. No student may earn credit for both 4513 and 5513. (Sp)

GEOG 5523 Life Cycle Analysis 3 Credit Hours
(Slashlisted with GEOG 4523) Prerequisite: Graduate Standing. This course provides graduate students with an understanding of Life Cycle Analysis both with respect to its conceptual foundations as well as its applications across a variety of socially important sectors. No student may earn credit for both 4523 and 5523. (Sp.)

GEOG 5583 Energy Systems and Sustainability 3 Credit Hours
(Slashlisted with GEOG 4583) Prerequisite: Graduate standing or permission of instructor. An understanding of interdisciplinary elements and perspectives associated with energy systems in the context of sustainability. It examines current and future energy supply, transmission, and demand management options. A critical focus on the economic, social, and environmental implications of energy system transitions will help identify energy technology and infrastructure solutions while understanding the institutional and organizational changes necessary for implementation. No student may earn credit for both 4583 and 5583. (F)

GEOG 5610 Field Studies in Regional Geography 1-4 Credit Hours
1 to 4 hours. Prerequisite: eight hours of geography (or three hours of geography and eight hours in one, or twelve hours in two, of anthropology, economics, political science, history, sociology, geology and permission). May be repeated; maximum credit twelve hours. Written reports based on lectures, observations, field notes, interviews and library research are required of each student. (Irreg.)

GEOG 5613 Place and The Geographical Imagination 3 Credit Hours
(Slashlisted with GEOG 4613) Prerequisites: graduate standing. Focuses on the meaning people invest in places and how, in turn, places both enable and constrain our perceptions, attitudes, beliefs, and behavior. Emphasis is on understanding how reason, imagination, faith, and emotion infuse the meaning of particular places to serve different purposes. No student may earn credit for both 4613 and 5613. (Sp)

GEOG 5650 Advanced Field Studies 1-6 Credit Hours
1 to 6 hours. Prerequisite: 3930 or permission. May be repeated; maximum credit twelve hours. Advanced work in techniques of data acquisition: surveying, measuring, sampling, collection, analysis, sketching, and mapping. Individual and group projects may be required. (Irreg.)

GEOG 5713 Dynamic Modeling of Socio-Environmental Systems 3 Credit Hours
(Slashlisted with GEOG 4713) Prerequisite: Graduate standing. This course is an overview of the use of modeling and simulation to document, analyze, and project the dynamic behavior of socio-environmental systems. The course covers an introduction of basic modeling and simulation terminology and three different approaches to modeling temporal and/or spatial dynamics: system dynamics modeling, agent-based modeling, and cellular automata. No student may earn credit for both 4713 and 5713. (Sp)

GEOG 5863 Regional Geographies of Indigenous Media 3 Credit Hours
(Slashlisted with GEOG 4863) Prerequisite: Graduate standing. Learn about the making, moving, and meanings of Indigenous media. Regional case studies feature scholarly readings that examine the geographically- and culturally-specific contexts from which particular forms of Indigenous media emerge. Ample video viewings allow us to explore the contents of media made by Indigenous artists/activists/intellectuals and their allies who live and/or work in a particular region. No student may earn credit for both 4863 and 5863. (Irreg.)

GEOG 5943 Natural Hazards 3 Credit Hours
(Slashlisted with GEOG 4943) Prerequisite: graduate standing. Examines changes in patterns of a range of natural hazards and the impact they have on society. The course will examine general concepts of hazard mitigation and design and our perceptions of risk and how that affects preparedness and mitigation decisions. No student may earn credit for both 4943 and 5943. (F)

GEOG 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

GEOG 5963 Natural Resource Economics 3 Credit Hours
(Slashlisted with GEOG 4963) Prerequisite: graduate standing. The course will teach students to understand, critically analyze, and apply knowledge of economics to environmental problems. Theoretical concepts of natural resource economics will be taught and followed with examples from practice. No student may earn credit for both 4963 and 5963. (F)

GEOG 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

GEOG 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. Laboratory (F, Sp, Su)

GEOG 5990 Selected Studies in Geography 1-4 Credit Hours
1 to 4 hours. Prerequisite: teacher's certificate or bachelor's degree and permission. May be repeated with change of subject matter; maximum credit eight hours. Designed to afford either an intensive study of a systematic field or an extensive coverage of broad problem topics in geography. (F, Sp, Su)

GEOG 6210 Seminar in Physical Geography 1-3 Credit Hours
1 to 3 hours. Prerequisite: twelve hours of geography or permission. May be repeated with change of subject matter; maximum credit 15 hours. Directed individual research studies in one of the major divisions of physical geography, such as landform analysis, climatology, the geography of soils, water resources or biogeography. Provides training in oral, written and cartographic presentation. (Irreg.) Sec. 1 - Geomorphology Sec. 2 - Climatology Sec. 3 - Soils Sec. 4 - Hydrology Sec. 5 - Biogeography Sec. 6 - Human Impacts on Physical Environment .

GEOG 6220 Seminar in Human Geography 1-3 Credit Hours
1 to 3 hours. Prerequisite: twelve hours of geography or permission. May be repeated with change of subject matter; maximum credit fifteen hours. Directed studies in one of the major divisions of human geography. (Irreg.) Sec. 1 - Urban Geography Sec. 2 - Settlement Patterns Sec. 3 - Historical Geography Sec. 4 - Cultural Ecology Sec. 5 - Cultural Geography Sec. 6 - Economic Development Sec. 7 - Political Geography Sec. 8 - Social Geography Sec. 9 - Regional Geography Sec. 10 - Political Ecology .

GEOG 6230 Seminar in Economic Geography 1-3 Credit Hours
1 to 3 hours. Prerequisite: twelve hours of geography or permission. May be repeated with change of subject matter; maximum credit 15 hours. Directed studies in one of the major divisions of economic geography. (Irreg.)

GEOG 6240 Seminar in Geography and Environmental Sustainability 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing. May be repeated with change of subject matter; maximum credits 15 hours. Directed studies in one of the major aspects of geography and environmental sustainability. Possible topics include: coupled human-natural systems, energy resources, land use, sustainable development, water systems, geospatial technologies, and climate change. (Irreg.)

GEOG 6950 Research Problems in Geography 1-6 Credit Hours
1 to 6 hours. Prerequisite: graduate standing in geography, permission. May be repeated with change of subject matter; maximum credit 15 hours. Advanced independent research on any systematic or regional topic within the scope of geography appropriate to the library facilities or field study opportunities available to the student. (F, Sp, Su)

GEOG 6953 Research and Professional Development 3 Credit Hours
Prerequisite: Graduate standing and majors in the Department of Geography and Environmental Sustainability, or permission of instructor. This course provides a comprehensive background on the practice of geographic and environmental research. Students learn about current issues while exploring employment opportunities in environmental and geographical fields and practicing formal research presentations. They also formulate a research proposal, including literature review, methodology, and consideration of ethics. (Sp)

GEOG 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

GEOG 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

GEOG 6973 Thinking about Geography and Environmental Sustainability 3 Credit Hours
Prerequisite: Graduate standing. This course addresses the foundational concepts of geography and environmental sustainability, emphasizing the intersection of human and natural systems. Students explore the relevance of, and possibilities for, real world impacts of geographic and environmental research. (F)

GEOG 6980 Research for Doctoral Dissertation 2-16 Credit Hours
(F, Sp, Su)

GEOG 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

GIS 2013 Geospatial Technologies and Society 3 Credit Hours
Prerequisite: ENGL 1213. Examines the impacts of geospatial technologies on 21st-century society and considers how these rapidly evolving technologies can be used most effectively to promote global environmental sustainability and social justice. (Irreg.)

GIS 2023 Introduction to Spatial Thinking and Computer Mapping 3 Credit Hours
Facilitates the effective communication of geographic information through sound cartographic principles and techniques. Introduces students to geographic information literacy, spatial perspectives on information management, and the use of maps as a communication tool. (Sp)

GIS 2970 Special Topics 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

GIS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

GIS 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

GIS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

GIS 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

GIS 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

GIS 4013 Fundamentals of Geographic Information Systems 3 Credit Hours
(Slashlisted with GIS 5013) Prerequisite: GIS 2023. Designed to help students learn introductory to intermediate concepts of geographic information science (GIScience) and become proficient users of geographic information systems (GIS). The course covers a variety of topics but focuses on GIS data models, data structures, and spatial analysis. Teaching formats include lectures, in-class exercises and lab exercises. No student may earn credit for both 4013 and 5013. (F, Sp)

GIS 4133 Fundamentals of Remote Sensing 3 Credit Hours
(Slashlisted with GIS 5133) Prerequisite: junior standing or permission of instructor. An introduction to the theory and interpretation of remote sensing imagery, with emphasis on photographic, multi-spectral, thermal, and microwave remote sensing systems. Imagery from aircraft, satellite and low-altitude platforms will be used to illustrate geographic and environmental applications of remote sensing. Introduction to preprocessing (DIP). No student may earn credit for both 4133 and 5133. (F)

GIS 4200 Internship in Geoinformatics 1-6 Credit Hours
1 to 6 hours. Prerequisite: junior standing and permission of instructor. May be repeated; maximum credit six hours. Provides career training experience whereby students may apply geoinformatics skills and further develop professional capabilities in a realistic setting. Students will be assigned to private industry, government agencies or educational institutions on an individual basis and report on their experience to the instructor. (F, Sp, Su)

GIS 4233 Digital Image Processing 3 Credit Hours
(Slashlisted with 5233) Prerequisite: Grade of C or better in 4133 or permission of instructor. Theory and techniques for computer processing (digital image processing or DIP) of digital earth resources satellite imagery and incorporation into geographic information systems. No student may earn credit for both 4233 and 5233. (Sp)

GIS 4253 GIS Applications 3 Credit Hours
(Slashlisted with GIS 5253) Prerequisite: GIS 4013. Designed to help students learn intermediate and advanced concepts of geographic information science related to a variety of socio-economic and environmental fields. Course topics may include: landscape ecology and metrics; suitability modeling; binary and ranking index models; routing and network analysis; and other topics applicable to social or environmental fields. Teaching formats include both lectures and lab exercises. No student may earn credit for both 4253 and 5253. (Sp)

GIS 4453 Advanced GIS and Spatial Analysis 3 Credit Hours
(Slashlisted with GIS 5453) Prerequisite: GIS 2023 and GIS 4013 and GIS 4253, CS 1313 or CS 1323 or METR 1313 or MIS 3013, and upper-division standing; or permission of instructor. Expands and solidifies the GIS knowledge acquired in introductory and applied GIS classes. Focuses on highly complex geographic questions which cannot be solved in simple steps but instead require advanced GIS analysis and sometimes automation. The course is intended to prepare the student for a professional GIS position in the government or business world, or a higher-level graduate position. No student may earn credit for both 4453 and 5453. (Sp)

GIS 4653 Spatial Programming and GIS 3 Credit Hours
(Slashlisted with GIS 5653) Prerequisite: GIS 4013, upper-division standing or permission of instructor. Introduces students to geocomputation concepts, spatial programming skills and computational approaches to spatial data services and spatial problem solving. No student can earn credit for both 4653 and 5653. (F)

GIS 4733 Environmental Remote Sensing 3 Credit Hours
(Slashlisted with GIS 5733; Crosslisted with PBIO 4733) Prerequisite: either a course or hands-on experience in remote sensing, GIS, statistical analysis, computer programming, or permission of the instructor and adviser. Course develops comprehensive knowledge and advanced skills of remote sensing, to apply to the study of the structure, composition, and functions of vegetation, landscapes, and the biosphere. Students will learn hyperspectral data acquisition and analysis; field survey methods; land cover classification from multiple sensors, time series data; and estimation of biophysical and biochemical parameters. Includes image processing software and algorithms. No student may earn credit for both 4733 and 5733. (Sp)

GIS 4923 Spatial Statistics 3 Credit Hours
(Slashlisted with GIS 5923) Prerequisite: GEOG 3924, CS 1313 or CS 1323 or METR 1313 or MIS 3013, and upper-division standing; or permission of instructor. Explains and demonstrates methods and techniques in spatial sampling; spatial auto-correlation and spatial composition. It also delves into spatially adjusted regression, local statistics, and geo-statistics and related techniques. Theoretical explanations and derivations as well as practical applications making use of both ArcGIS and R. No student may earn credit for both 4923 and 5923. (Irreg.)

GIS 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

GIS 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

GIS 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

GIS 5013 Fundamentals of Geographic Information Systems 3 Credit Hours
(Slashlisted with GIS 4013) Prerequisite: graduate standing. Designed to help students learn introductory to intermediate concepts of geographic information science (GIScience) and become proficient users of geographic information systems (GIS). The course covers a variety of topics but focuses on GIS data models, data structures, and spatial analysis. Teaching formats include lectures, in-class exercises and lab exercises. No student may earn credit for both 4013 and 5013. (F, Sp)

GIS 5133 Fundamentals of Remote Sensing 3 Credit Hours
(Slashlisted with GIS 4133) Prerequisite: graduate standing or permission of instructor. An introduction to the theory and interpretation of remote sensing imagery, with emphasis on photographic, multi-spectral, thermal, and microwave remote sensing systems. Imagery from aircraft, satellite and low-altitude platforms will be used to illustrate geographic and environmental applications of remote sensing. Introduction to preprocessing (DIP). No student may earn credit for both 4133 and 5133. (F)

GIS 5233 Digital Image Processing 3 Credit Hours
(Slashlisted with 4233) Prerequisite: Graduate standing and a grade of C or better in GIS 4133 or GIS 5133 or permission of instructor. Theory and techniques for computer processing (digital image processing or DIP) of digital earth resources satellite imagery and incorporation into geographic information systems. No student may earn credit for both 4233 and 5233. (Sp)

GIS 5253 GIS Applications 3 Credit Hours
(Slashlisted with GIS 4253) Prerequisite: graduate standing, GIS 5013. Designed to help students learn intermediate and advanced concepts of geographic information science related to a variety of socio-economic and environmental fields. Course topics may include: landscape ecology and metrics; suitability modeling; binary and ranking index models; routing and network analysis; and other topics applicable to social or environmental fields. Teaching formats include both lectures and lab exercises. No student may earn credit for both 4253 and 5253. (Sp)

GIS 5453 Advanced GIS and Spatial Analysis 3 Credit Hours
(Slashlisted with GIS 4453). Prerequisite: GIS 5013 and GIS 5253, graduate standing. Expands and solidifies the GIS knowledge acquired in introductory and applied GIS classes. Focuses on highly complex geographic questions which cannot be solved in simple steps but instead require advanced GIS analysis and sometimes automation. The course is intended to prepare the student for a professional GIS position in the government or business world, or a higher-level graduate position. No student may earn credit for both 4453 and 5453. (Sp)

GIS 5653 Spatial Programming and GIS 3 Credit Hours
(Slashlisted with GIS 4653) Prerequisite: graduate standing and GIS 4013/GIS 5013. Introduces students to geocomputation concepts, spatial programming skills, and computational approaches to spatial data services and spatial problem solving. No student may earn credit for both 4653 and 5653. (F)

GIS 5733 Environmental Remote Sensing 3 Credit Hours
(Slashlisted with GIS 4733; Crosslisted with PBIO 5733) Prerequisite: graduate standing, and either a course or hands-on experience in remote sensing, GIS, statistical analysis, computer programming, or permission of the instructor and adviser. Course develops comprehensive knowledge and advanced skills of remote sensing, to apply to the study of the structure, composition, and functions of vegetation, landscapes, and the biosphere. Students will learn hyperspectral data acquisition and analysis; field survey methods; land cover classification from multiple sensors, time series data; and estimation of biophysical and biochemical parameters. Includes image processing software and algorithms. No student may earn credit for both 4733 and 5733. (Sp)

GIS 5923 Spatial Statistics 3 Credit Hours
(Slashlisted with GIS 4923) Prerequisite: graduate standing; it is recommended that students have taken an introductory statistics course. Explains and demonstrates methods and techniques in spatial sampling, spatial auto-correlation, and spatial composition. It also delves into spatially-adjusted regression, local statistics, geo-statistics, and related techniques. Theoretical explanations and derivations as well as practical applications, making use of both ArcGIS and R. No student may earn credit for both 4923 and 5923. (Irreg.)

GIS 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

GIS 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

GIS 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

GIS 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

GIS 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

GIS 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

GIS 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. (F, Sp, Su)

GIS 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
de Beurs	Kirsten	M	2010	CHAIR OF DEPARTMENT OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2015; CIMMS FELLOW, 2012; PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2018; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2018	PhD, Univ of Nebraska, 2005; MS, Wageningen Univ, 2000
Gliedt	Travis	J	2012	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2018	PhD, Univ of Waterloo, 2012; MS, Univ of Waterloo, 2006; BS, Univ of Waterloo, 2005
Greene	John	S	1995	PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2008; DIRECTOR, OKLAHOMA WIND POWER INITIATIVE, 2015	PhD, Univ of Delaware, 1994; MA, Univ of Hawaii, 1990; BA, Univ of California Berkeley, 1987
Hoagland	Bruce	W	1996	HERITAGE COORDINATOR OF OKLAHOMA BIOLOGICAL SURVEY, 1999; ASSOCIATE HERITAGE ECOLOGIST OF OKLAHOMA BIOLOGICAL SURVEY, 2002; PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2011; PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2011	PhD, Univ of Oklahoma, 1995; MS, Eastern Kentucky Univ, 1990; BA, Univ of Louisville, 1986
Koch	Jennifer	A M	2014	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2014	Dr.-Ing, Univ of Kassell, 2010; Diplom, Univ of Bayreuth, 2005
Lawhon	Mary		2017	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2017	PhD, Clark Univ, 2011; M Env & Dev, Univ of KwaZulu-Natal, 2004; BA, Univ of Kansas, 2003
Loraamm	Rebecca	W	2015	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2015	PhD, Univ of South Florida, 2015; MS, Univ of South Florida, 2011; BS, Florida Southern Univ, 2009
Moreno Ramirez	Hernan	A	2015	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2015	PhD, Arizona State Univ, 2012; MS, Univ Nacl De Colombia-Medellin, 2005; BS, Univ Nacl De Colombia-Medellin, 2002
Neeson	Thomas	M	2015	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2015	PhD, Univ of Michigan, 2010; MA, Univ of Michigan, 2009; MS, Case Western Reserve Univ, 2005; BS, Case Western Reserve Univ, 2003
Pierce	Joseph		2017	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2017; ADJUNCT ASSISTANT PROFESSOR OF REGIONAL AND CITY PLANNING, 2017	PhD, Clark Univ, 2011; MA, Clark Univ, 2010; MA, New York Univ, 2007; BA, Hampshire College, 2000
Purcell	Darren	E	2009	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2013	PhD, Florida State Univ, 2003; MA, Univ of Kentucky, 1996; BA, Univ of Kentucky, 1991
Rundstrom	Robert	A	1991	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 1997; ADJUNCT ASSOCIATE PROFESSOR OF NATIVE AMERICAN STUDIES, 1998	PhD, Univ of Kansas, 1987; MA, California State Univ, 1980; BA, Univ of California Berkeley, 1975
Shafer	Mark	A	1990	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2012; RESEARCH SCIENTIST OF OKLAHOMA CLIMATOLOGICAL SURVEY, 2012; CIMMS FELLOW, 2012	PhD, Univ of Oklahoma, 2005; MS, Univ of Oklahoma, 1990; BS, Univ of Illinois, 1987
Smith	Laurel	C	2007	ADJUNCT ASSISTANT PROFESSOR OF WOMEN'S AND GENDER STUDIES, 2008; ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2014; ADJUNCT ASSOCIATE PROFESSOR OF INTERNATIONAL AND AREA STUDIES, 2016	PhD, Univ of Kentucky, 2005; MA, Univ of Oklahoma, 1994; BA, Univ of Wisconsin, 1989

Widener	Jeffrey	M	2013	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2018; DIRECTOR FOR CENTER FOR SPATIAL ANALYSIS (CSA), 2018	PhD, Univ of Oklahoma, 2015; MA, Univ of Central Oklahoma, 2010; BA, Univ of Central Oklahoma, 2008
Wimberly	Michael		2018	PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2018	Phd, Oregon State Univ; MS, Univ of Washington; BA, Univ of Virginia
Ziolkowska	Jadwiga		2014	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2018	Habilitation, Humboldt Univ of Berlin, 2013; PhD, Humboldt Univ of Berlin, 2007; MS, Univ of Rzeszow, 2004

Environmental Sustainability: Culture & Society, B.A.

Minimum Total Credit Hours: 120
Minimum Upper-Division Hours: 40
Overall GPA - Combined and OU: 2.25
Major GPA - Combined and OU: 2.25

Program Code: B408 P161

Major Requirements

- **Courses required for the major may also fulfill University-Wide General Education Requirements.**

Code	Title	Credit Hours
Core		
GEOG 1203	Global Environmental Issues	3
GEOG 3233	Principles of Sustainability	3
GEOG 3443	Environment and Society	3
GEOG 3924	Quantitative Methods	4
GEOG 3773	Geography of the United States	3
GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3
GEOG 4523	Life Cycle Analysis	3
GEOG 4893	Research Methods and Professional Development	3
GEOG 4953	Capstone (Capstone)	3
Culture & Society		
Choose a minimum of 12 hours (p. 689)		12
Total Credit Hours		40

Major Support Requirements

- **Courses required for major support may *not* also fulfill University-Wide General Education Requirements.**

ADDITIONAL COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Advisor-Approved Electives		
Choose 24 hours of advisor-approved coursework relevant to the student's field(s) of study. These 24 hours are to be outside the student's major School or Department, and must include six hours at the upper-division level (3000-4000-level)		24
Total Credit Hours		24

Culture & Society Course List

A minimum of 12 hours of Culture & Society coursework is required in the major, to be chosen from the following courses or other advisor-approved courses, **with no more than two courses from one department.**

Code	Title	Credit Hours
ANTH 4303	Women and Development in Africa	3
GEOG 3253	Environmental Conservation	3
GEOG 3843	Gender and Environment	3
GEOG 4200	Internship in Geography	1-6
GEOG 4573	Indigenous Peoples and Resources	3
GEOG 4583	Energy Systems and Sustainability	3
HSCI 3483	Technology, Politics, and International Development	3
IAS 3323	The Political Economy of Development	3
NPNG 3033	Fundamentals of Nonprofit Management II	3
SOC 3643	Population and Society	3

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course lists at http://www.ou.edu/content/gened/courses.html.

University-Wide General Education (Minimum 40 hours) and College Requirements

Courses graded P/NP will not apply.

At least three hours of Upper-Division General Education coursework must be completed outside the major.

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-10 hours)		
(0-10 hours) Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language		
Beginning Course		0-5
Beginning Course, continued		0-5
Mathematics (3 hours)		

Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, 2 courses)		
Choose two courses including one laboratory component		7
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities		
Understanding Artistic Forms (3 hours)		
Choose one course from the General Education Understanding Artistic Forms list		3
Western Civilization and Culture (3 hours)		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483 & 1493)		3
Non-Western Culture (3 hours)		
Choose one course from the General Education Non-Western Culture list		3
Core Area V: Senior Capstone Experience		
3 hours, fulfilled in Major Requirements		3
Total Credit Hours		37-47

Additional College B.A. Requirements

Code	Title	Credit Hours
Humanities and Social Science Electives (3 hours must be Upper-Division)		
Choose one course from Humanities Gen Ed lists		3
Choose one course from the Social Science Gen Ed list		3
Natural Science Elective		
Choose one Gen Ed-approved course with or without a laboratory component		3-4
Foreign Language		
Choose one course at the intermediate level [2]		3
Total Credit Hours		12-13

[1] If the student successfully places beyond the second intermediate course, the 13 hours of required foreign language will become free electives.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 40 upper- division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper- division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.
Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
Beginning Foreign Language (Core I)		5
GEOG 1203	Global Environmental Issues (Core III)	3
General Education Math (Core I) [1]		3

Choose one course from the General Education Artistic Forms list.		3
Western Civilization and Culture (6 hours)		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (Excluding HIST 1483 and HIST 1493)		3
Non-Western Culture (3 hours)		
Choose one course from the General Education Non-Western Culture list		3
Core Area V: Senior Capstone Experience		
3 hours required, fulfilled in Major Requirements		3
Total Credit Hours		39-49

[1] College of Atmospheric and Geographic Sciences requirements.
[2] MATH 1914 will also fulfill the College's calculus requirement.

At least three hours of Upper-Division General Education coursework must be completed outside the major.

Additional College Bachelor of Science Requirements

Code	Title	Credit Hours
PHYS 2424	General Physics for Life Science Oriented Majors	4
or PHYS 2524	General Physics for Engineering and Science Majors	
Total Credit Hours		4

Free Electives

Electives to bring total applicable hours to 120 including 40 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 40 upper- division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper- division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

[1] To be chosen from the University-Wide General Education Approved Course List. Three hours of general education must be upper-division outside the major.

[2] A minimum of 12 hours, to be chose from the following **concentration**, with no more than two courses from one department:
Planning and Management: NPNG 3033, NPNG 4033; CEES 4603; ECON 3213; GEOG 4200, GEOG 4333, GEOG 4343, GEOG 4583; GEOG 4003/RCPL 4003; METR 4553; MKT 3013; MKT 3223/SCM 3223; P SC 3213, P SC 4193; RCPL 4863; SOC 3643.

[3] A minimum of 15 hours of 3000-4000 -level courses to be chosen from chemistry, computer science, engineering, geology, geophysics, mathematics, management information systems, meteorology, or physics; or statistics courses from plant biology, microbiology, political science, psychology, or sociology.

Environmental Sustainability: Science & Natural Resources, B.A.

Minimum Total Credit Hours: 120
Minimum Upper-Division Hours: 40
Overall GPA - Combined and OU: 2.25
Major GPA - Combined and OU: 2.25

Program Code: B408 P591

Major Requirements

- **Courses required for the major may also fulfill University-Wide General Education Requirements.**

Code	Title	Credit Hours
Core		
GEOG 1203	Global Environmental Issues	3

GEOG 3233	Principles of Sustainability	3
GEOG 3443	Environment and Society	3
GEOG 3773	Geography of the United States	3
GEOG 3924	Quantitative Methods	4
GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3
GEOG 4523	Life Cycle Analysis	3
GEOG 4893	Research Methods and Professional Development	3
GEOG 4953	Capstone	3
Science & Natural Resources		
Choose a minimum of 12 hours (p. 699)		12
Total Credit Hours		40

Major Support Requirements

- **Courses required for major support may *not* also fulfill University-Wide General Education Requirements.**

ADDITIONAL COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Advisor-Approved Electives		
Choose twenty-four hours of advisor-approved coursework relevant to the student's field(s) of study. These 24 hours are to be outside the student's major School or Department, and must include six hours at the upper-division level (3000-4000-level)		24
Total Credit Hours		24

Science & Natural Resources Course List

A minimum of 12 hours of Science & Natural Resources coursework is required in the major, to be chosen from the following courses or other advisor-approved courses, **with no more than two courses from one department.**

Code	Title	Credit Hours
BIOL 3563	Biological Conservation	3
BIOL 4423	Stream Ecology	3
CEES 4243	Water Technologies for Emerging Regions	3
GEOG 3023	Principles of Physical Geography	3
GEOG 3253	Environmental Conservation	3
GEOG 3890	Selected Studies in Geography	3
GEOG 4200	Internship in Geography	1-6
GEOG 4283	Biogeography	3
GEOG 4293	Hydrologic Science	3
GEOG 4343	Climate, History, and Society	3
GEOG 4583	Energy Systems and Sustainability	3
GEOL 3154	Environmental Geology	4
METR 4553	Climate and Renewable Energy	3
PBIO 3453	Principles of Plant Ecology	3
SOC 3643	Population and Society	3

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course lists at http://www.ou.edu/content/gened/courses.html.

University-Wide General Education (Minimum 40 hours) and College Requirements

Courses graded P/NP will not apply.

At least three hours of Upper-Division General Education coursework must be completed outside the major.

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-10 hours)		
(0-10 hours) Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language		
Beginning Course		0-5
Beginning Course, continued		0-5
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, 2 courses)		
Choose two courses including one laboratory component		7
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities		
Understanding Artistic Forms (3 hours)		
Choose one course from the General Education Understanding Artistic Forms list		3
Western Civilization and Culture (3 hours)		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483 & 1493)		3
Non-Western Culture (3 hours)		
Choose one course from the General Education Non-Western Culture list		3
Core Area V: Senior Capstone Experience		
3 hours, fulfilled in Major Requirements		3
Total Credit Hours		37-47

Additional College B.A. Requirements

Code	Title	Credit Hours
Humanities and Social Science Electives (3 hours must be Upper-Division)		

Choose one course from Humanities Gen Ed lists	3
Choose one course from the Social Science Gen Ed list	3
Natural Science Elective	
Choose one Gen Ed-approved course with or without a laboratory component	3-4
Foreign Language	
Choose one course at the intermediate level [2]	3
Total Credit Hours	12-13

[1] If the student successfully places beyond the second intermediate course, the 13 hours of required foreign language will become free electives.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 40 upper- division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper- division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.
Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.
Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Geoinformatics Program academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Geographic Information Science major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
Beginning Foreign Language (Core I)		5
Mathematics General Education (Core I) [1]		3
Social Science (Core III) [1]		3
	Credit Hours	14
Second Semester		
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3

Cognate Course [2]		3

Advisor-Approved Elective		3
	Credit Hours	15
	Total Credit Hours	120

[1] To be chosen from the University-Wide General Education Approved Course List. Three hours of general education must be upper-division outside the major.

[2] Choose 12 hours (to include 6 upper-division hours, 4 courses) in the same area, to be chosen from the following: economics, film & media studies, geography, history, journalism, political science, psychology, regional & city planning, sociology, women's & gender studies, or another advisor-approved area.

Geographic Information Science, B.S.

Minimum Total Credit Hours: 121
Minimum Upper-Division Hours: 40
Overall GPA - Combined and OU: 2.25
Major GPA - Combined and OU: 2.25

Program Code: B452

Major Requirements

- **Courses required for the major may also fulfill University-Wide General Education Requirements.**

Code	Title	Credit Hours
Core		
GEOG 1113	The Language of Maps	3
GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3
GEOG 3773	Geography of the United States	3
GIS 4013	Fundamentals of Geographic Information Systems	3
GIS 4253	GIS Applications	3
GIS 4453	Advanced GIS and Spatial Analysis	3
GIS 4653	Spatial Programming and GIS	3
GEOG 4893	Research Methods and Professional Development	3
GEOG 4953	Capstone	3
Remote Sensing		
Choose 6 hours (2 courses) from the following:		6
GIS 4133	Fundamentals of Remote Sensing	
GIS 4233	Digital Image Processing	
GIS 4970	Special Topics/Seminar (Remote Sensing)	
Statistics		
GEOG 3924	Quantitative Methods	4
GIS 4923	Spatial Statistics	3
Computer Related		
Choose 3 hours from the following:		3
C S 1213	Programming for Non-Majors with Python	
C S 1313	Programming for Non-Majors with C	
METR 1313	Introduction to Programming for Meteorology	
MIS 2113	Computer-Based Information Systems	
MIS 3013	Introduction to Programming	
Total Credit Hours		43

Major Support Requirements

- **Courses required for major support may *not* also fulfill University-Wide General Education Requirements.**

Code	Title	Credit Hours
Cognate		
Choose four courses in the same area, to be chosen from the following: economics, geography, geology, journalism, meteorology, political science, psychology, regional & city planning, sociology, or another advisor-approved area		12
Upper-Division Science Electives		
Choose a minimum of 15 hours of 3000-4000- level courses in botany, chemistry, computer science, engineering, geology, geophysics, mathematics, management information systems, meteorology, microbiology or physics		15
Total Credit Hours		27

General Education and College Requirements

Courses for fulfillment of General Education and College requirements must be from the approved General Education course list at http://www.ou.edu/content/gened/courses.html.

UNIVERSITY-WIDE GENERAL EDUCATION AND COLLEGE OF ATMOSPHERIC AND GEOGRAPHIC SCIENCES REQUIREMENTS

A minimum of 40 hours of General Education-approved coursework is required.

Courses graded P/NP will not apply

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-10 hours)		
(0-10 hours in the same language) Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language		
Beginning Course		0-5
Beginning Course, continued		0-5
Mathematics (minimum 3 hours)		
MATH 1743	Calculus I for Business, Life and Social Sciences [1, 2]	3
or MATH 1823	Calculus and Analytic Geometry I	
Core Area II: Natural Science (minimum 7 hours)		
CHEM 1315	General Chemistry (Science with Lab) [1]	5
PHYS 2414	General Physics for Life Science Oriented Majors [1]	4

or PHYS 2514	General Physics for Engineering and Science Majors	
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities		
Understanding Artistic Forms (3 hours)		
Choose one course from the General Education Artistic Forms list		3
Western Civilization and Culture (6 hours)		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (excluding HIST 1483 & HIST 1493)		3
Non-Western Culture (3 hours)		
Choose one course from the General Education Non-Western Culture list		3
Core Area V: Senior Capstone Experience (3 hours)		
GEOG 4953	Capstone	3
Total Credit Hours		39-49

[1]College of Atmospheric and Geographic Sciences requirements.
[2]MATH 1914 will also fulfill the College's calculus requirement.

At least three hours of Upper-Division General Education coursework must be completed outside the major.

ADDITIONAL COLLEGE OF ATMOSPHERIC & GEOGRAPHIC SCIENCES BACHELOR OF SCIENCE REQUIREMENTS

Code	Title	Credit Hours
PHYS 2424	General Physics for Life Science Oriented Majors	4
or PHYS 2524	General Physics for Engineering and Science Majors	
Total Credit Hours		4

Free Electives

Electives to bring total applicable hours to 121 including 40 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 40 upper- division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper- division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.
Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Electives to bring total applicable hours to the minimum total required for the degree.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 40 upper- division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper- division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.
Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography and Environmental Sustainability academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Geography major requirements.

[1] To be chosen from the University-Wide General Education Approved Course List. Three hours of general education must be upper-division outside the major. At least one General Education approved math course must be completed.

[2] Twenty-seven hours of advisor-approved coursework relevant to the student's field(s) of study. These 27 hours are to be outside the student's major School or Department, and must include an intermediate-level foreign language course, or the student must demonstrate competency at the intermediate level.

Note: No more than 52 hours of Geography coursework may be taken to fulfill the 120 minimum total credit hours required.

Geography, B.S.

Minimum Total Credit Hours: 120
Minimum Upper-Division Hours: 40
Overall GPA - Combined and OU: 2.25

Major GPA - Combined and OU: 2.25

Program Code: B465

Major Requirements

- **Courses required for the major may also fulfill University-Wide General Education Requirements.**

Code	Title	Credit Hours
Required Courses		
GEOG 1113	The Language of Maps	3
or GIS 2023	Introduction to Spatial Thinking and Computer Mapping	
GEOG 3023	Principles of Physical Geography	3
GEOG 3213	Principles of Human Geography	3
GEOG 3243	Principles of Economic Geography	3
GEOG 3924	Quantitative Methods	4
GEOG 4893	Research Methods and Professional Development	3
GEOG 4953	Capstone	3
Regional Geography		
GEOG 3773	Geography of the United States	3
Choose 3 hours from the following:		3
GEOG 3223	The British Empire and its Successor States	
GEOG 4243	Geography of Asia	
GEOG 4253		
GEOG 4853	The Geography of Africa	
Geographic Information Science		
GIS 4133	Fundamentals of Remote Sensing	3
or GIS 4013	Fundamentals of Geographic Information Systems	
Electives		
Choose 6 hours of Geography electives		6
Computer-Related		
Choose 3 hours from the following:		3
C S 1213	Programming for Non-Majors with Python	
C S 1313	Programming for Non-Majors with C	
METR 1313	Introduction to Programming for Meteorology	
MIS 2113	Computer-Based Information Systems	
Total Credit Hours		40

Major Support Requirements

- **Courses required for major support may *not* also fulfill University-Wide General Education Requirements.**

SCIENCE ELECTIVES

Code	Title	Credit Hours
Choose a minimum of 9 hours of faculty advisor approved electives chosen from: biological science, chemistry, computer science, mathematics, physics, engineering, or geosciences courses outside the major. At least six hours must be completed at the upper-division level (3000-4000 level)		9
CHEM 1415	General Chemistry (Continued)	5
Total Credit Hours		14

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course list at http://www.ou.edu/content/gened/courses.html.

University-Wide General Education (minimum 40 hours) and College Requirements

Courses graded P/NP will not apply

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-10 hours)		
(0-10 hours in the same language) Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language		
Beginning Course		0-5
Beginning Course, continued		0-5
Mathematics (minimum 3 hours)		
MATH 1743	Calculus I for Business, Life and Social Sciences [1,2]	3
or MATH 1823	Calculus and Analytic Geometry I	
Core Area II: Natural Science (minimum 7 hours, 2 courses)		
CHEM 1315	General Chemistry (Science with Lab) [1]	5
PHYS 2414	General Physics for Life Science Oriented Majors [1]	4
or PHYS 2514	General Physics for Engineering and Science Majors	
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities		
Understanding Artistic Forms (3 hours)		
Choose one course from the General Education Artistic Forms list.		3
Western Civilization and Culture (6 hours)		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	

Choose one course from the General Education Western Civilization & Culture list (Excluding HIST 1483 and HIST 1493)	3
Non-Western Culture (3 hours)	
Choose one course from the General Education Non-Western Culture list	3
Core Area V: Senior Capstone Experience	
3 hours required, fulfilled in Major Requirements	3
Total Credit Hours	39-49

[1]College of Atmospheric and Geographic Sciences requirements.
[2]MATH 1914 will also fulfill the College's calculus requirement.

At least three hours of Upper-Division General Education coursework must be completed outside the major.

Additional College Bachelor of Science Requirements

Code	Title	Credit Hours
PHYS 2424	General Physics for Life Science Oriented Majors	4
or PHYS 2524	General Physics for Engineering and Science Majors	
Total Credit Hours		4

Free Electives

Electives to bring total applicable hours to 120 including 40 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 40 upper- division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper- division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.
Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography and Environmental Sustainability academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Geography major requirements.

[1] To be chosen from the University-Wide General Education Approved Course List. Three hours of general education must be upper-division outside the major.

[2] Choose a minimum of 9 hours of faculty advisor approved electives chosen from: biological science, chemistry, computer science, mathematics, physics, engineering, or geosciences courses outside the major. At least six hours must be completed at the upper-division level (3000-4000 level).

Note: No more than 52 hours of Geography coursework may be taken to fulfill the 120 minimum total credit hours required.

Climate Adaptation, Minor

Minimum Total Credit Hours: 18
Major Hours: 9

Program Code: N208

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

Required Courses

A minimum 2.00 GPA is required in all work presented for minor credit.

No more than 9 credit hours from any one department may be applied to the minor requirements

Code	Title	Credit Hours
METR 1014	Introduction to Weather and Climate	3-4
or METR 1003	Introduction to the Atmospheric Sciences	
METR/GEOL 4533	Earth's Past Climate	3
GEOG/METR 3523	Managing for a Changing Climate	3
or GEOG 4343	Climate, History, and Society	
Choose three courses from the following, or other courses as approved by advisor:		9
ENST 2203	Ecosystem Impacts of Climate Change	
GEOG 1114	Physical Geography	
GEOG 1203	Global Environmental Issues	
GEOG 3233	Principles of Sustainability	
GEOG 4273	Regional Climatology	
GEOG 4283	Biogeography	
GEOG 4293	Hydrologic Science	
GEOG 4513	Applied Climatology	
GEOG 4943	Natural Hazards	
GEOL 1003	Volcanoes and Earthquakes	
GEOL 3033	Earth Resources and the Environment	
GEOL 3013	The Geology of Oklahoma	
GEOL 3023	The Geology of Natural Resources in Sub-Saharan Africa	
GEOL 4633	Hydrogeology	
IAS 3653	Energy, Climate, and Security	
METR 4543/5543	Global Climate Change	
METR 4553/5553	Climate and Renewable Energy	
RCPL 4213	Principles and Practice of Urban Planning	
Total Credit Hours		18

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Environmental Sustainability, Minor

Minimum Total Credit Hours: 18

Program Code: N410

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

A minimum 2.00 GPA is required in all work presented for minor credit.

Required Courses

Code	Title	Credit Hours
Fundamentals		
GEOG 1203	Global Environmental Issues	3
Environmental Sustainability Core		
GEOG 3233	Principles of Sustainability	3
GEOG 3443	Environment and Society	3
GEOG 4523	Life Cycle Analysis	3
Sustainability Electives		
Choose at least 6 additional hours of upper division (numbered 3000+), graded courses [1]		6
Total Credit Hours		18

[1] To be selected from the Area of Concentration lists for the Environmental Sustainability degrees (Culture & Society, Planning & Management, and Science & Natural Resources). It is preferred that these courses *not* be from the Geography and Environmental Sustainability department.

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Geographic Information Systems, Minor

Minimum Total Credit Hours: 15

Program Code: N462

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree**

A minimum 2.00 GPA is required in all work presented for minor credit.

Required Courses

Code	Title	Credit Hours
Required Course		
GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3
Electives		
Choose 12 hours, with at least 9 hours at the upper division (3000+) level, from the following:		12
GEOG 3924	Quantitative Methods	
GIS 4013	Fundamentals of Geographic Information Systems	
GIS 4133	Fundamentals of Remote Sensing	
GIS 4233	Digital Image Processing	
GIS 4253	GIS Applications	
GIS 4453	Advanced GIS and Spatial Analysis	
GIS 4653	Spatial Programming and GIS	
GIS 4923	Spatial Statistics	
GIS 4970	Special Topics/Seminar	
Total Credit Hours		15

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Geography, Minor

Minimum Total Credit Hours: 18

Program Code: N466

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

A minimum 2.00 GPA is required in all work presented for minor credit.

Required Courses

Code	Title	Credit Hours
Fundamentals		
Choose a minimum of 6 hours from the following:		6
GEOG 1103	Human Geography [1]	
GEOG 1114	Physical Geography [2]	
GEOG 1123	Introduction to Geohumanities	
GEOG 1213	Economic Geography [3]	
Techniques		
Choose one of the following:		3-4
GEOG 3924	Quantitative Methods	
GIS 4013	Fundamentals of Geographic Information Systems	
GIS 4133	Fundamentals of Remote Sensing	
GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3
Upper Division Electives		
Choose at least 6 additional hours of upper division (courses numbered 3000+) graded Geography courses selected in consultation with an academic advisor from the Department of Geography		6
Total Credit Hours		18

[1] Also fulfills a General Education Western Civilization requirement.
[2] Also fulfills a General Education Natural Science with Lab requirement.
[3] Also fulfills a General Education Social Science requirement.

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Hydrologic Science, Minor

Minimum Total Credit Hours: 15

Program Code: N477

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

The Hydrologic Science minor is designed for students who are interested in expanding their understanding of the role of water in our environment.

The minor requires a minimum of 15 semester credit hours, to include at least one course each from Meteorology, Geography, and Civil or Environmental Engineering. No more than (9) hours may come from any one discipline.

For Meteorology majors, successful completion of the Hydrologic Science minor will satisfy the required elective in meteorology, hydrology, or climatology.

A minimum 2.00 GPA is required in all work presented for minor credit.

Required Courses

Code	Title	Credit Hours
Choose a minimum of 15 hours from the following:		15
CEES 4123	Open Channel Flow	
ENGR 4510	Selected Topics	
GEOG 4273	Regional Climatology	
GEOG 4293	Hydrologic Science	
GIS 4013	Fundamentals of Geographic Information Systems	
METR 4624		
METR 4633	Hydrometeorology	
Total Credit Hours		15

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Physical Geography, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 15

Program Code: N468

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

This minor is not available to Geography Majors.

Required Courses

A minimum 2.00 GPA is required in all work presented for minor credit.

- Topics in GEOG 3890 and GEOG 4990 that are related to Physical Geography will also apply.
- In addition to GIS 4133, one upper division course from the Minor in Geospatial Information Science (N467) may be substituted for a course in this minor.

Code	Title	Credit Hours
Choose a minimum of 15 hours from the following:		15
GEOG 3023	Principles of Physical Geography	
GEOG 4203	Geomorphology	
GEOG 4273	Regional Climatology	
GEOG 4283	Biogeography	
GEOG 4293	Hydrologic Science	
GEOG 4343	Climate, History, and Society	
GIS 4133	Fundamentals of Remote Sensing	
Total Credit Hours		15

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Environmental Sustainability: Planning & Management, B.A./M.R.C.P.

Minimum Total Credit Hours: 149
Minimum Upper-Division Hours: 40
Overall GPA - Combined and OU: 2.25
Major GPA - Combined and OU: 2.25

Program Code: A408 P516/F817 Q228

Undergraduate Requirements

MAJOR REQUIREMENTS

Code	Title	Credit Hours

Non-Western Culture (3 hours)		
Choose one course from the General Education Non-Western Culture list		3
Core Area V: Senior Capstone Experience		
3 hours, fulfilled in Major Requirements		3
Total Credit Hours		37-47

Additional College B.A. Requirements

Code	Title	Credit Hours
Humanities and Social Science Electives (3 hours must be Upper-Division)		

Choose one course from Humanities Gen Ed lists	3
Choose one course from the Social Science Gen Ed list	3
Natural Science Elective	
Choose one Gen Ed-approved course with or without a laboratory component	3-4
Foreign Language	
Choose one course at the intermediate level [2]	3
Total Credit Hours	12-13

[1] If the student successfully places beyond the second intermediate course, the 13 hours of required foreign language will become free electives.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 40 upper- division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper- division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.
Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

	Total Credit Hours	149

[1] To be chosen from the University-Wide General Education Approved Course List. Three hours of general education must be upper-division outside the major.

[2] A minimum of 12 hours, to be chosen from the following **concentration**, with no more than two courses from one department:
Planning and Management: NPNG 3033, NPNG 4033; CEES 4603; ECON 3213; GEOG 4200, GEOG 4343; GEOG 4003/RCPL 4003; METR 4553; P SC 3213, P SC 4193; RCPL 4863; SOC 3643.

[3] These courses are shared between the undergraduate and graduate degrees.

[4] Nine hours of advisor-approved coursework relevant to the student's field(s) of study. These 9 hours are to be outside the student's major School or Department, and must include six hours at the upper-division level (3000-4000 level).

[5] In addition to taking RCPL 5522 in the Spring.

Environmental Sustainability: Planning & Management, B.S./M.R.C.P.

Minimum Total Credit Hours: 149
Minimum Upper-Division Hours: 40
Overall GPA - Combined and OU: 2.25
Major GPA - Combined and OU: 2.25

Program Code: A410 P516/F817 Q229

Undergraduate Requirements

MAJOR REQUIREMENTS

Code	Title	Credit Hours
Core		
GEOG 1203	Global Environmental Issues	3
GEOG 3233	Principles of Sustainability	3
GEOG 3443	Environment and Society	3
GEOG 3773	Geography of the United States	3
GEOG 3924	Quantitative Methods	4

GEOG 4523	Life Cycle Analysis	3
GEOG 4893	Research Methods and Professional Development	3
GEOG 4953	Capstone	3
Planning & Management		
Choose a minimum of 12 hours (p. 721)		12
Computer-Related		
Choose 3 hours from the following:		3
C S 1213	Programming for Non-Majors with Python	
C S 1313	Programming for Non-Majors with C	
METR 1313	Introduction to Programming for Meteorology	
MIS 2113	Computer-Based Information Systems	
Total Credit Hours		43

MAJOR SUPPORT REQUIREMENTS

- **Courses required for major support may *not* also fulfill University-Wide General Education Requirements.**

Additional College Requirements

Code	Title	Credit Hours
Upper-Division Science Electives		
Choose a minimum of 15 hours of 3000-4000-level courses to be chosen from chemistry, computer science, engineering, geology, geophysics, mathematics, management information systems, meteorology, or physics; or statistics courses from plant biology, microbiology, political science, psychology, or sociology		15
Total Credit Hours		15

Shared Hours

These 15 hours of Graduate Credit count towards both the undergraduate and graduate degrees:

Code	Title	Credit Hours
GIS 5013	Fundamentals of Geographic Information Systems	3
RCPL 5013	History and Theory of Urban Planning	3
RCPL 5053	Planning Management	3
RCPL 5203	Urban Land Use Controls	3
RCPL 5173	Urban and Regional Analysis	3
Total Credit Hours		15

MRCP Component

Code	Title	Credit Hours
RCPL 5113	Urban Planning Research Methods	3
Choose one of the following:		5
RCPL 5525	Comprehensive Regional And City Planning Project	
RCPL 5522 & RCPL 5523	Comprehensive RCPL Project: Reporting and Implementation and Comprehensive RCPL Project: Research and Plan Making	
Choose three Specialization courses in either Physical Planning or Community & Economic Development		9
Choose one course from the opposite track's breadth courses		3
Choose three Graduate-level RCPL Electives, chosen in consultation with Graduate advisor		9
Total Credit Hours		29

Planning & Management Course List

A minimum of 12 hours of Planning & Management coursework is required in the undergraduate major, to be chosen from the following courses or other advisor-approved courses, **with no more than two courses from one department.**

Code	Title	Credit Hours
ECON 3213	Environmental Economics	3
GEOG 4200	Internship in Geography	1-6
GEOG 4333	Corporate Environmental Strategy	3
GEOG 4343	Climate, History, and Society	3
GEOG 4583	Energy Systems and Sustainability	3
GEOG/RCPL 4003	The Global City and Planning Issues	3
METR 4553	Climate and Renewable Energy	3
MKT 3013	Principles of Marketing	3
MKT/SCM 3223	Logistics Management	3
NPNG 3033	Fundamentals of Nonprofit Management II	3
NPNG 4033	Leadership & Planning	3
P SC 3213	Law, Politics, and Society	3
P SC 4193	The Profession of Public Management	3
SOC 3643	Population and Society	3

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course list at http://www.ou.edu/content/gened/courses.html.

University-Wide General Education (minimum 40 hours) and College Requirements

Courses graded P/NP will not apply

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-10 hours)		
(0-10 hours in the same language) Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language		
Beginning Course		0-5
Beginning Course, continued		0-5
Mathematics (minimum 3 hours)		
MATH 1743	Calculus I for Business, Life and Social Sciences [1,2]	3
or MATH 1823	Calculus and Analytic Geometry I	
Core Area II: Natural Science (minimum 7 hours, 2 courses)		
CHEM 1315	General Chemistry (Science with Lab) [1]	5
PHYS 2414	General Physics for Life Science Oriented Majors [1]	4
or PHYS 2514	General Physics for Engineering and Science Majors	
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities		
Understanding Artistic Forms (3 hours)		
Choose one course from the General Education Artistic Forms list.		3
Western Civilization and Culture (6 hours)		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (Excluding HIST 1483 and HIST 1493)		3
Non-Western Culture (3 hours)		
Choose one course from the General Education Non-Western Culture list		3
Core Area V: Senior Capstone Experience		
3 hours required, fulfilled in Major Requirements		3
Total Credit Hours		39-49

[1]College of Atmospheric and Geographic Sciences requirements.
[2]MATH 1914 will also fulfill the College's calculus requirement.

At least three hours of Upper-Division General Education coursework must be completed outside the major.

Additional College Bachelor of Science Requirements

Code	Title	Credit Hours
PHYS 2424	General Physics for Life Science Oriented Majors	4
or PHYS 2524	General Physics for Engineering and Science Majors	
Total Credit Hours		4

Free Electives

Electives to bring total applicable hours to 149.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 40 upper- division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper- division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.
Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

Course	Title	Credit Hours
Freshman		
First Semester

Electives to bring total applicable hours to 150.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 40 upper- division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper- division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.
Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography & Environmental Sustainability academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and GIS major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Geography and Environmental Sustainability: Environmental Systems, M.S.

Minimum Total Hours (Thesis): 30
Minimum Total Hours (Non-Thesis): 33

Program Code: M463 Q230

GUIDED ELECTIVES

Guided electives will be selected by the student under guidance of her/his advisory committee and as approved by the graduate liaison.

Examples of possible guided electives include:

Code	Title	Credit Hours
GEOG 5143	Ecosystem Services	3
GEOG 5203	Geomorphology	3
GEOG 5253	The Economics of Sustainability	3
GEOG 5283	Biogeography	3
GEOG 5293	Hydrologic Science	3
GEOG 5343	Climate, History, and Society	3
GEOG 5433	Sustainability: Theory and Practice	3
GEOG 5513	Applied Climatology	3
GEOG 5583	Energy Systems and Sustainability	3
GEOG 5713	Dynamic Modeling of Socio-Environmental Systems	3
GEOG 5963	Natural Resource Economics	3
GEOG 6210	Seminar in Physical Geography	1-3
GEOG 6240	Seminar in Geography and Environmental Sustainability	1-3
GIS 5013	Fundamentals of Geographic Information Systems	3
GIS 5133	Fundamentals of Remote Sensing	3
GIS 5233	Digital Image Processing	3
GIS 5253	GIS Applications	3
GIS 5453	Advanced GIS and Spatial Analysis	3
GIS 5653	Spatial Programming and GIS	3

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Geography and Environmental Sustainability: Geospatial Technologies, M.S.

Minimum Total Hours (Thesis): 30
Minimum Total Hours (Non-Thesis): 33

Program Code: M463 Q269 (M464 Q269 Online)

GEOG 6210	Seminar in Physical Geography	1-3
GEOG 6240	Seminar in Geography and Environmental Sustainability	1-3

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Geospatial Technologies, Graduate Certificate

Minimum Total Hours: 12

Program Code: G042

Masters students in the existing degree program may be focused in physical geography, human geography, or applications of geotechnologies to geographic questions. For this certificate, however, we recommend a subset of existing courses to focus on one or more of the following: geographical information systems (GIS), remote sensing (RD), or management of geodatabases associated with GIS, RS, or other geospatial technologies.

The embedded certificate consists of a minimum of 12 hours consisting of at least four courses, at least two of which are required to have the GIS prefix.

Certificate Requirements

Code	Title	Credit Hours
Fundamentals [1]		
GIS 5013	Fundamentals of Geographic Information Systems	3
or GIS 5133	Fundamentals of Remote Sensing	
Techniques		
Choose at least one course from the following:		3
GIS 5923	Spatial Statistics	
GIS 5653	Spatial Programming and GIS	
GEOG 5313	Interpreting Society and Environment: Qualitative Research Methods	
ISE 5103	Intelligent Data Analytics	
Advanced/Applied Courses [2]		
Choose at least two courses from the following:		6
Geographic Information Science Track		
GIS 5253	GIS Applications	
GIS 5453	Advanced GIS and Spatial Analysis	
RCPL 5463	Geographic Information Systems for Land Use Planning	
RCPL 5970	Special Topics/Seminar (Topic: Advanced GIS)	
Remote Sensing Track		
GIS 5233	Digital Image Processing	
GRAD 5203	EOS3 Data Analytics	
CEES 5903	Remote Sensing Hydrology	
PBIO 5733	Environmental Remote Sensing	
METR 5673	Weather Radar Theory and Practice	
Total Credit Hours		12

[1] If the student previously finished a fundamentals course as an undergraduate, they should take an additional course from the Advanced/Applied list instead.

[2] If students started in the Geographic Information Science track, they should continue in this track when choosing Advanced/Applied courses. If students started in the Remote Sensing track, they should continue in this track when choosing Advanced/Applied courses.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.

- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Geography & Environmental Sustainability, Ph.D.

Minimum Total Hours: 90

Program Code: D461

Program Requirements

Code	Title	Credit Hours
GEOG 6973	Thinking about Geography and Environmental Sustainability	3
GEOG 6953	Research and Professional Development	3
Two seminars or graduate-level courses (6 hours) in Geography & Environmental Sustainability [1]		6
GEOG 6980	Research for Doctoral Dissertation [2]	2-78
Total Credit Hours		90

[1] Slashlisted courses, independent study and research courses will not satisfy this requirement.

[2] Enough to bring total post-baccalaureate credit hours to 90 (after required courses, electives, and any transfer credit hours accepted from the Master's degree)

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

School of Meteorology

Jens Redemann, Director

National Weather Center
120 David L. Boren Blvd., Suite 5900
Norman, OK 73072-7307

General Information

Meteorology, or atmospheric science, is the study of the atmosphere and its interaction with Earth's surface, oceans, and biological systems. Meteorologists seek to describe, understand, and predict weather phenomena that occur on spatial scales ranging from millimeters to thousands of kilometers, and on time scales from microseconds to thousands of years or longer. These phenomena range from localized thunderstorms and tornadoes, to regional frontal systems and hurricanes, to global climate change.

Major scientific areas of research in meteorology today include weather, climate, and the interactions between them. This includes the study and prediction of severe and hazardous weather events that strongly affect life and property. These events include, but are not limited to, lightning, tornadoes, floods, hail, blizzards, dense fog and hurricanes. Research activities regarding climate and weather-climate interactions include the study of past climates, regional climate, surface and boundary layer processes, climate change and seasonal forecasting. The School of Meteorology is actively engaged in research on all the above-mentioned topics.

The School of Meteorology at the University of Oklahoma is the largest such program in the nation. The undergraduate and graduate programs are unique due to our co-location with NOAA, Department of Interior and Department of Energy programs as well as several university strategic organizations, which broaden the education, training and research portfolio of the school. The school is routinely ranked near the top of the nation in terms of undergraduate awards, such as the annual number of undergraduate scholarships awarded from the NOAA Hollings and American Meteorological Society (AMS) programs. Our students have received numerous best poster and best oral presentation awards at recent conferences and symposium.

Programs & Facilities

National Weather Center

A unique feature of the School of Meteorology is that it has close ties with several university-based state and federal research and operational organizations in Norman. Collectively known as the National Weather Center, these organizations include the School of Meteorology, the Department of Geography and Environmental Sustainability, the Oklahoma Climatological Survey, Center for Spatial Analysis, the Cooperative Institute for Mesoscale Meteorological Studies, the Center for Analysis and Prediction of Storms, the Atmospheric Radar Research Center, the Environmental Verification and Analysis Center, the National Severe Storms Laboratory, the National Weather Service Forecast Office, the Storm Prediction Center, the WSR-88D Doppler Radar Operations Center, and the Warning Decision Training Branch. These organizations provide part- and full-time employment opportunities for undergraduate and graduate students as well as opportunities to participate in state-of-the-art research projects and observational field programs. The high concentration of research and operational institutions also attracts a large number of distinguished visiting scientists for stays varying in length from a day to a year. Nearly all of these organizations have been

housed together in the new National Weather Center building since fall 2007.

Facilities available to students and faculty include a PC LINUX-based lab/ classroom (25 machines), a general-purpose Apple Macintosh computer lab as well as departmental servers for email, World Wide Web, and weather data. Departmental computing resources are augmented by the College of Atmospheric and Geographic Sciences Amoco PC lab and the resources of the OU Supercomputing Center, OSCER. All these resources are interconnected through the campus network of wired and wireless connections and to the Internet for access to national super-computer centers, the World Wide Web, and other stops on the information superhighway. The school provides a full suite of current weather data, radar data and forecast products from the National Weather Service. Data are also available from the Oklahoma Mesonet, a unique network of remotely operated ground-based sensors providing current weather at the county level for the entire state. The school also helps support two large mobile Doppler radar vehicles (SMART-R) for the detailed study of tornadoes, thunderstorms, hurricanes, fronts and other small-scale phenomena. Observational and experimental work and instrumentation development are pursued in laboratories located in the school, OCS, and on the roof of the NWC. Hands-on experience is an important part of the degree programs of the School of Meteorology. Facilities at the National Weather Center and its partners taken together provide unique opportunities and challenges for students of all levels.

Atmospheric Radar Research Center (ARRC)

Under the auspices of the University of Oklahoma's Strategic *Radar Initiative*, faculty members from the Schools of Meteorology and Electrical and Computer Engineering have united to form an interdisciplinary team of scientists and engineers to solve challenging Doppler radar research problems and prepare the next generation of students. Through the collaborative nature instilled in its members, the ARRC has proven effective at developing synergy in the field of weather radar between science and engineering. In the National Weather Center and its laboratory facilities in One Partner's Place, meteorology and engineering faculty and students work side-by-side to learn from each other in a true team environment. This interdisciplinary *esprit de corps* has already had a profound effect on both the undergraduate and graduate educational experiences in radar provided to OU students. Since being established in 2004, the ARRC has grown to include 10 faculty members, over 30 graduate students, and several postdoctoral fellows. Areas of research concentration are in radar configuration/ design/ optimization, signal processing, phased array/imaging, retrieval algorithm development, quantifications of radar performance and measurement uncertainty, cloud/precipitation microphysics, severe convective storms, boundary layer dynamics, wind-field retrieval, radar-based model parameterization and initialization, electro-magnetic signatures of targets, birds, insects, and hydrometeors, waves in random media, and polarimetry/interferometry techniques. The ARRC offers graduate research assistantships, post-doctoral fellowships, visiting scientist appointments, and undergraduate fellowships. For additional information, visit the ARRC's website.

Center for Analysis and Prediction of Storms (CAPS)

CAPS originated in 1989 as a National Science Foundation Science and Technology Center and graduated from this program in 2000. It continues to be supported by a number of agency grants as well as private industry, and its primary mission remains the development of techniques for the prediction of high-impact local weather with an emphasis on thunderstorms and mesoscale phenomena. Its research programs include numerical modeling and computational fluid dynamics, data assimilation, small-scale predictability, physical process studies, Doppler radar analysis and forecast evaluation. CAPS recently helped initiate a new NSF Engineering Research Center for Collaborative Adaptive Sensing of the Atmosphere (CASA) that is focused on developing new Doppler radar technology and also leads an NSF Information Technology Research grant known as Linked Environments for Atmospheric Discovery (LEAD). CAPS offers graduate research assistantships, post-doctoral fellowships, visiting scientist appointments, and undergraduate fellowships. For additional information, visit the Center's website.

South Central Climate Adaptation And Science Center (CASC)

The South Central Climate Adaptation Science Center began in 2012, and in 2014 South Central CASC published its *Tribal Engagement Strategy*. As part of the strategy, they began to build tribal capacity in climate-related areas, invest in the next generation of tribal staff, and train climate researchers to invest in these relationships, among many other new goals. From 2013-2015 the team has had 28 total trainings, 554 tribal attendees, engaged 91 different tribes and nations, and has had 5100 contact hours with first nations.The youth of the tribes have not gone unnoticed in the *Tribal Engagement Strategy.* From 2013-2016, 24 tribal youth events were held by the South Central CASC, and South Central CASC staff members mentored 16 Native American undergraduate and graduate students. In only five years of existence, the South Central CASC has had tremendous success with inclusion and partnership with first nations. The South Central CASC has had the privilege of being able to engage with 61 of the 68 regional tribes or nations. Led by School of Meteorology alumna and adjunct associate professor (and DGES associate professor) Dr. Renee McPherson, the South Central CASC works "with natural and cultural resource managers to gather the scientific information and build the tools needed to help fish, wildlife and ecosystems adapt to the impacts of climate change", according to their website. This important work is accomplished through "a collaborative partnership among USGS scientists, resource management agencies, and a consortium of academic institutions from across the region, including Texas Tech University, Louisiana State University, the Chickasaw Nation, the Choctaw Nation of Oklahoma, Oklahoma State University, and the University of New Mexico."

Center for Autonomous Sensing and Sampling (CASS)

Oklahoma is a recognized world leader in weather and radar research and has a rich aviation and aerospace history, making it a prime location to fuse the two disciplines while leveraging the State's and University's strengths in aviation, atmospheric science, robotics, and remote sensing development with the aim to create innovative solutions to pressing societal needs. CASS's mission is to explore, advance, and develop complete adaptive and autonomous sensing and sampling systems for use in the atmosphere, on the ground, and in the water and to help facilitate the integration of this technology across various disciplines and institutions.

Since being established in April 2016, CASS has grown to include 7 faculty affiliates, a staff engineer, a research scientist, postdoctoral fellow, six graduate students, and nearly a dozen undergraduate research assistants across a wide range of fields such as electrical engineering, computer science, data science and analytics, chemistry, geography, civil engineering, aerospace and mechanical engineering, physics, and meteorology. Areas of research focus currently include atmospheric chemistry, boundary layer structure and dynamics, data processing and visualization, earth science, and solution-based engineering. CASS offers graduate and undergraduate research assistantships, postdoctoral opportunities, affiliate and visiting appointments. For

additional information or to explore collaborative opportunities, we invite you to visit our website or to contact Dr. Chilson or Dr. Pillar-Little.

Cooperative Institute for Mesoscale Meteorological Studies (CIMMS)

CIMMS is a joint University of Oklahoma/NOAA cooperative institute designed to improve the effectiveness of research and instruction by providing a stimulating environment where scientists can meet and work on problems of mutual interest. Current research themes include convective and mesoscale processes, forecast improvements, climatic effects of/controls on mesoscale processes, socioeconomic impacts of mesoscale weather systems and regional-scale climate variations, Doppler weather radar research and development, and climate change monitoring and detection. CIMMS is also the home of the Site Scientist for the DOE Atmospheric Radiation Measurement (ARM) Program for the Southern Great Plains, and the Data Quality Office for all three ARM Sites (Southern Great Plains, Tropical Western Pacific, North Slope of Alaska). CIMMS is housed on the second and third floors in the National Weather Center. For additional information, visit the Institute's website.

National Severe Storms Laboratory (NSSL)

The NOAA National Severe Storms Laboratory (NSSL) is dedicated to improvement of our understanding of severe convective and mesoscale events. Areas of emphasis include forecasting and analysis techniques, radar development and applications, and applications of multi-scale numerical forecast models. Research assistantships are available through CIMMS and adjunct faculty at the NSSL supervise graduate student research in the School of Meteorology.

National Weather Service Forecast Office (NWSFO)

The NWSFO, a technologically advanced forecast facility prepares and disseminates life-saving warnings, watches and advisories for all types of hazardous weather conditions affecting 48 counties in central, western and southern Oklahoma, and eight counties in western north Texas. Intern and temporary position opportunities are available for OU students.

National Weather Service Storm Prediction Center (SPC)

The NOAA Storm Prediction Center (SPC) is the NWS national center of expertise for mesoscale hazardous weather forecasting. It has responsibility for issuing tornado and severe thunderstorm warnings for the contiguous United States. In addition, SPC prepares outlooks of areas with expected tornado and severe thunderstorm activity during the next eight days. The SPC also produces eight-day forecasts for areas of the country where conditions are compatible with the ignition and spread of wild fires, and short-term forecasts of mesoscale features associated with hazardous winter weather and excessive precipitation. The SPC is one of the organizing partners of the NOAA Hazardous Weather Testbed which explores ways to improve the timeliness and accuracy of hazardous weather forecasts. The SPC collaborates with meteorologists from around the world, and has conducted many joint projects with programs in the College of Atmospheric and Geographic Sciences.

The **Warning Decision Training Branch** develops and delivers training on the integrated elements of the warning process within a National Weather Center forecast office.

Oklahoma Climatological Survey (OCS)

The OCS is a state agency housed at the University of Oklahoma and serves as one component of the School of Meteorology's current research cluster. The OCS is a dual-purpose organization functioning as a service provider and conducting cutting-edge research. OCS contributes data resources and expertise in a broad field of interests such as climate and climate change, real-life application of weather data, and the operation of the Oklahoma Mesonet, Oklahoma's weather network. Research interests include K-20 education, first-responder instruction and support, surface transportation monitoring systems, and weather instrumentation research. The main office of OCS is located in the National Weather Center, part of the new Norman Research Campus. For additional information, visit the agency's website.

Radar Operations Center (ROC)

The ROC, a NOAA organization partially located in the National Weather Center provides life-cycle hardware and software engineering and maintenance support for a world-class network of 167 Doppler weather radars (also known as NEXRAD) installed nationwide and at several overseas locations. The ROC uses a co-located WSR-88D radar for development and testing, operates a helpdesk to support operations and maintenance activities, and deploys teams of engineers and technicians to perform major maintenance. Working in collaboration with NSSL and OU researchers, the ROC transitions new radar techniques and products to operations to continually improve the nation's weather radar capabilities.

Exchange Program

The School of Meteorology has developed exchange programs with the University of Reading in England, Hamburg University in Germany. Meteorology majors at the University of Oklahoma can apply to study abroad at one of these institutions during the spring semester of their junior year. Students complete the equivalent of OU meteorology requirements at one of these schools, so there is no delay in graduation. The College of Atmospheric and Geographic Sciences also offers the John T. Snow Study Abroad Scholarship; this $1,000 award is presented each year to a junior A&GS student who plans to study abroad. Visit School of Meteorology Study Abroad for more information about these programs.

Scholarships and Financial Aid

Depending on availability of funds, the school offers a number of scholarships per year for each of its freshman, sophomore, junior and senior classes. These awards are primarily based on merit and qualified students will receive application forms from the school in advance of the next academic year. The School of Meteorology encourages all applicants to seek University-wide scholarships and financial aid for which they may be eligible. The department offers graduate teaching and research assistantships to highly qualified applicants with undergraduate degrees in meteorology or atmospheric science, physics, mathematics, computer science, engineering, or other related fields. For information, please write to:

Director, School of Meteorology
University of Oklahoma
120 David L. Boren Blvd., Suite 5900
Norman, OK 73072

Undergraduate Study

Bachelor of Science

The Bachelor of Science (p. 750) in Meteorology is a rigorous degree program designed to prepare students to enter the workforce as strong competitors or to move on to graduate school at a top institution.

Accelerated Bachelor/Master Degrees

The School of Meteorology offers accelerated dual-degree programs in collaboration with the Price College of Business, offering exceptional students pursuing an undergraduate degree in meteorology to also pursue a Master of Business Administration. Meteorology majors may also choose to pursue a Master of Science in Data Science and Analytics through the Gallogly College of Engineering. Students apply for these programs in their junior year.

- Meteorology, B.S./M.B.A. (p. 754)
- Meteorology, B.S./Data Science and Analytics, M.S. (p. 757)

Minors

The College of Atmospheric and Geographic Sciences offers students in the physical sciences and engineering majors a Meteorology Minor (p. 753) and a Weather and Climate Minor (p. 753). Meteorology majors are also encouraged to consider minors offered through other OU academic programs. Possible minors include math, physics, computer science, physical geography, geographic information science, interdisciplinary perspectives on the environment, hydrologic science, general business, entrepreneurship, astronomy, chemistry and geology.

Graduate Study

The School of Meteorology is generally considered at or near the top spot for graduate research on convective storms, radar, and mesoscale meteorology. The school, however, has developed a broad research portfolio in recent years through the addition of new faculty giving us excellent researchers in climate, polar processes and atmospheric chemistry including tropospheric-stratospheric exchanges.

- Meteorology, Master of Science (p. 759)
- Meteorology, Ph.D. (p. 760)

Courses

METR 1003 Introduction to the Atmospheric Sciences 3 Credit Hours
Prerequisite: Math 1523 or higher or concurrent enrollment in Math 1823 or concurrent enrollment in Math 1914. An introduction to the field of atmospheric science, with a focus on concepts that can be understood using algebra. Periodic presentations from different professional atmospheric scientists introduce career options, challenges, and opportunities in the atmospheric sciences. Required of all meteorology majors during their first year of residence. (F)

METR 1014 Introduction to Weather and Climate 4 Credit Hours
For non-science majors. A descriptive study of both short-term and long-term atmospheric phenomena, evenly divided between: (1) the structure and processes in the atmosphere that affect our every-day weather; and (2) climate and causes of climate change. This course does not count for major credit in the School of Meteorology. Laboratory (F, Sp) [II-LAB].

METR 1034 Native Science and Earth Systems of North America 4 Credit Hours
(Crosslisted with GEOL 1034) Examines Earth systems of North America using both indigenous and Western perspectives, and an Earth science approach. This team-taught course will utilize a combination of geology, geography, meteorology, and Native American sciences, as expressed through the use of art. (Sp) [II-LAB].

METR 1111 Orientation to Professional Meteorology 1 Credit Hour
Prerequisite: Mathematics 1503 or higher. Required of all Meteorology majors during their first year of residence. Introduction to the School of Meteorology and its curriculum, faculty and staff. Presentations from different professional meteorologists introduce career options, challenges and opportunities in meteorology. (F)

METR 1313 Introduction to Programming for Meteorology 3 Credit Hours
Prerequisite: Math 1523 or equivalent, or concurrent enrollment. Introduction to the design and implementation of computer programs using the Python programming language. Emphasis on working with simple data sets. (F, Sp, Su)

METR 2004 Atmospheric Circulations 4 Credit Hours
Prerequisite: Grade of C or better in MATH 1914 (or MATH 2423), PHYS 2514, METR 1003, CHEM 1315, and METR 1313 (or CS 1321, 1323, or 1324). Co-requisites: MATH 2924 (or MATH 2433), PHYS 2524. Introduction to the application of mathematical techniques and physical principals to key atmospheric processes and phenomena, with a focus on stability, moisture, synoptic-scale flows, convection, boundary layer meteorology, and climate change. The course seeks to create a foundation of critical thinking and problem solving for subsequent classes in meteorology. Required of all meteorology majors during their second year of residence. (F)

METR 2011 Introduction to Meteorology I Laboratory 1 Credit Hour
Prerequisite: Grade of C or better in Math 1823 or 1914; corequisite: METR 2013, Math 2423 or 2924 and Physics 2514 or 1205. Reinforces the theoretical concepts provided in the counterpart lecture course Meteorology 2013, which introduces students to important phenomena and physical processes that occur in the earth's atmosphere. Through a series of laboratory exercises, students will learn the basic concepts and tools that are used to study atmospheric problems. Special emphasis will be placed on developing information technology and computational skills. The laboratory exercises target the topics covered in the lecture component. (F, Sp) [II-LAB].

METR 2013 Introduction to Meteorology I 3 Credit Hours
Prerequisite: Grade of C or better in Math 1823 or 1914; corequisite: METR 2011, Math 2423 or 2924, Physics 2514 or 1205. Introduces students to important phenomena and physical processes that occur in earth's atmosphere, as well as to the basic concepts and instruments used to study atmospheric problems. Focuses on atmospheric radiation, thermodynamics, moisture, stability, clouds, and precipitation. (F, Sp) [II-NL].

METR 2021 Introduction to Meteorology II Laboratory 1 Credit Hour
Prerequisite: Grade of C or better in METR 2011 or 2014, 2013, MATH 2423 or 2924, and PHYS 2514 or 1205; corequisite: METR 2023, MATH 2433 or 2934, and PHYS 2524 or 1215. Reinforces the theoretical concepts provided in the counterpart lecture course Meteorology 2023, which introduces students to important phenomena and physical processes that occur in the earth's atmosphere. Through a series of laboratory exercises, students will learn the basic concepts and tools that are used to study atmospheric problems. Special emphasis will be placed on developing information technology and computational skills. The laboratory exercises target the topics covered in the lecture component. (Sp, Su)

METR 2023 Introduction to Meteorology II 3 Credit Hours
Prerequisite: Grade of C or better in METR 2013, 2011 or 2014, MATH 2423 or 2924, and PHYS 2514 or 1205; corequisite: METR 2021, MATH 2433 or 2934, and PHYS 2524 or 1215. Introduces students to important phenomena and physical processes that occur in earth's atmosphere. Students will learn the basic concepts and instruments used to study atmospoheric problems. Part II of the introduction to meteorology sequence focuses on atmospheric dynamics, wind systems of different origin and scale, and thunderstorms. It also addresses boundary layer meteorology, air pollution, forecasting and climate change. (Sp, Su)

METR 2213 Physical Meteorology I:Thermodynamics 3 Credit Hours
Prerequisite: C or better in PHYS 2524, MATH 2924 or MATH 2433, and METR 2004; Corequisite: MATH 2443 or MATH 2934; majors only. This course introduces the physical processes associated with atmospheric composition, basic radiation and energy concepts, the equation of state, the zeroth, first, and second law of thermodynamics, the thermodynamics of dry and moist atmospheres, thermodynamic diagrams, statics, and atmospheric stability. (F, Sp)

METR 2603 Severe and Unusual Weather 3 Credit Hours
Provide non-majors and majors a detailed descriptive account of the physical processes important in the formation of various severe and unusual weather phenomena including: thunderstorms, tornadoes, hail storms, lightning, hurricanes, midlatitude snowstorms, lake effect snows, atmospheric optical effects, and global climate change. This course does not count for major credit in the School of Meteorology. (Irreg.) [II-NL].

METR 2613 Atmospheric In-Situ & Surface-Based Measurements 3 Credit Hours
Prerequisite: Grade of C or better in METR 1313 or CS 1321 or CS 1323 or CS 1324, METR 2004, MATH 2924 or MATH 2433, PHYS 2524 and PHYS 1311; Co-requisite: MATH 2443 or 2934; majors only. Regardless of which area of atmospheric science you are interested in, measurements of atmospheric variables will undoubtedly influence your work. In any area of science, it is observations of nature that lead to new theories and new understanding. In meteorology, we cannot hope to predict weather accurately unless we have sufficient knowledge of the current state of the atmosphere. (F, Sp)

METR 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

METR 3011 Practicum on Broadcast Software 1 Credit Hour
Prerequisite: sophomore standing. May be repeated; maximum credit three hours. In this course students will learn how to use and manage the VIPIR and OMNI systems made by Baron Services. This will be accomplished via forecasting exercises and other various assignments. (F, Sp)

METR 3113 Atmospheric Dynamics I: Intro to Atmospheric Kinematics/ Dynamics 3 Credit Hours
Prerequisite: Grade of C or better in METR 2023 and 2021, MATH 2433, 2443 or 2934, PHYS 1215 or 2524, and METR 1313 or CS 1313 or CS 1323. Characterization of the atmosphere mathematically, the study of forces acting upon it, and approximations used. Topics include Newton's laws of motion; energy, equilibrium and stability; coordinate systems and forces; the equations of motion and simple force balances; and mass and energy conservation. (F)

METR 3123 Atmospheric Dynamics II: Theory of Atmospheric Flows 3 Credit Hours
Prerequisite: Grade of C or better in METR 3113, METR 3213, and MATH 3413. Continuation of the study of atmospheric dynamics and kinematics begun in Dynamics I. Topics include: natural coordinates, geostrophic wind, inertial flow, cyclostrophic flow, gradient wind, thermal wind, kinematics and dynamics of circulation and vorticity, viscosity, and stress; turbulence, structure, and dynamics of the atmospheric boundary line. (Sp)

METR 3213 Physical Meteorology I: Thermodynamics 3 Credit Hours
Prerequisite: grade of C or better in METR 2023 and 2021, MATH 2433, 2443 or 2934, PHYS 1215 or 2524, and METR 1313 or CS 1313 or CS 1323. This course introduces the physical processes associated with atmospheric composition, basic radiation and energy concepts, the equation of state, the zeroth, first and second law of thermodynamics for dry and moist atmospheres, thermodynamic diagrams, statics, and atmospheric stability. (F)

METR 3223 Physical Meteorology II: Cloud Physics, Atmos Electricity/ Optics 3 Credit Hours
Prerequisite: Grade of C or better in METR 3113, METR 3213, MATH 3413. Cloud and precipitation processes including the role of aerosols in cloud droplet and ice nucleation, growth of cloud particles into rain, snow, and hail by diffusion, coalescence, and cloud aggregation; the Clausius-Clapeyron equation; application of cloud physics in cloud electrification and optical phenomena in the atmosphere; concepts of weather radar. (Sp)

METR 3323 Statistical Meteorology 3 Credit Hours
Prerequisite: METR 1313 or CS 1313 or CS 1321 or CS 1323 or CS 1324; and MATH 2423 or MATH 2924; with grade of C or better; or permission of instructor. Offers specialized topics in statistical meteorology such as the role of probability and statistics in decision making, interplay between experimental design and the physics of an underlying problem, sampling techniques, graphical presentation of data and model building. Emphasis will be placed on computational aspects for meteorological data. (F)

METR 3334 Principles of Research & Communication in Meteorology 4 Credit Hours
Prerequisite: Grade of C or better in METR 1313, METR 2213, METR 2613, and MATH 2934 (or MATH 2443). An introduction to and/or development of topical skills in computing, writing, and speaking. The course will be composed of short thematic projects on topics relevant to meteorology and the atmospheric sciences. The professional skills gained reflect those needed by meteorologists in government, academia and the private sector. Required of all meteorology majors during their third year of residence. (Sp)

METR 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

METR 3513 Atmospheric Chemistry in Weather and Climate 3 Credit Hours
Prerequisite: Grade of C or better in METR 2213. Advanced survey of atmospheric structure and composition, and introduction to chemical processes in the atmosphere. Groups of relevant trace species and their role in the atmosphere are identified. Additional topics include importance of and chemical processes associated with aerosols, and direct and indirect linkages between chemistry, weather, and climate. Required of all meteorology majors during their third year of residence. (F)

METR 3523 Managing for a Changing Climate 3 Credit Hours
(Crosslisted with GEOG 3523) Prerequisite: Junior or Senior standing. Provides an integrative understanding of the components of the climate system including the range of natural climate variability and external drivers of climate change, in addition to impacts of a changing climate on multiple sectors such as the economy, policy, ecosystems, and indigenous populations. (F) [II-NL].

METR 3613 Meteorological Measurement Systems 3 Credit Hours
Prerequisite: Grade of C or better in METR 2023 and 2021, MATH 2433, 2443 or 2934, PHYS 1215 or 2524, and METR 1313 or CS 1313 or CS 1323. Introduces the physical principles of meteorological instruments, discusses static and dynamic sensor performance, and explores the concepts of meteorological instruments, and to identify sensor limitations and major error sources. Furthermore, basic procedures of data analysis will be discussed. Laboratory (F)

METR 3890 Meteorology Internship 1-3 Credit Hours
1 to 3 hours. Prerequisite: METR 1111 and permission of instructor. 1-3 hours. May be repeated; maximum credit 12 hours. This course provides a mechanism for students to receive credit for their internship experiences with the National Weather Service, TV stations, the private sector or any other kind of agency or institution which provides internship opportunities for Meteorology Majors. (F, Sp, Su)

METR 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)

METR 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Projects covered vary. Deals with concepts not usually presented in regular coursework. (Irreg.)

METR 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

METR 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

METR 4013 Science at the Tropopause: Physics, Dynamics, & Chemistry of the Upper Troposphere/Lower Stratospher 3 Credit Hours
(Slashlisted with METR 5013) Prerequisite: Grade of C or better in both METR 2213 and METR 3113, or permission of instructor; Not open to Freshmen. A survey of the dynamics, physics, and chemistry of the UTLS. Topics will include basic characteristics of the UTLS, definition of the tropopause, dynamic principals of and theory used for the UTLS, stratosphere-troposphere exchange, and common analysis techniques for UTLS studies. Will gradually increase focus on process-level understanding and review key dynamic and physical features/phenomena that impact the UTLS. No student may earn credit for both 4013 and 5013. (Sp)

METR G4133 Atmospheric Dynamics III: Mid-Latitude Synoptic-Scale Dynamics 3 Credit Hours
Prerequisite: Grade of C or better in 3123 and 3223. Concepts from kinematics, dynamics and thermodynamics used to characterize synoptic-scale atmosphere, emphasis on quasi-geo strophic and baroclinic instability theory as basis for understanding extra-tropical weather systems including cyclones, fronts and jets. Linear theory is used to describe a variety of atmospheric waves and their role in synoptic-scale meteorology. (F)

METR G4233 Physical Meteorology III: Radiation and Remote Sensing 3 Credit Hours
Prerequisite: Graduate standing, or grade of C or better in METR 3123 and METR 3223. Fundamental principles of radiation; absorption and emission of radiation; solar and terrestrial radiation; radiative transfer and heating rates; surface and global energy balances; atmospheric general circulation; natural climate variations; greenhouse climate change; stratospheric ozone depletion. (F)

METR 4323 Weather Simulation With Computers 3 Credit Hours
Prerequisite: METR 1313. The basics principles of computer programming for simulating and predicting fluid motion with computers. Applications range from idealized baroclinic instability to idealized tornado vortices. The FORTRAN and Python programming languages will be used. Prior programming experience is required, but not necessarily with these languages. (Irreg.)

METR 4330 Information Technology Skills for Meteorology 1-3 Credit Hours
(Slashlisted with 5330) Prerequisite: grade of C or better in CS 1313 or permission of instructor. May be repeated; maximum credit three hours. The use of computers and networks to process the information of meteorology. Workstation skills, computer operating systems, programming languages, the internet, computer graphics, analysis and display of meteorological data. No student may credit for both 4330 and 5330. (Irreg.)

METR 4403 Application of Meteorological Theory to Severe-Thunderstorm Forecasting 3 Credit Hours
(Slashlisted with METR 5403) Prerequisite: majors only; METR 4424 with a grade of B or better or permission of instructor. This course provides an opportunity to bridge the academia and operational forecasting realms and provide an opportunity for students to learn from experienced meteorologist-forecasters who have performed research on a variety of topics. No student may earn credit for both 4403 and 5403. (Sp)

METR G4424 Synoptic Meteorology Laboratory 4 Credit Hours
Prerequisite: Grade of C or better in 3123 and 3223. This course is a lecture/laboratory course designed to provide students a physical understanding of atmospheric principles. Students are challenged to explain theoretical concepts and to demonstrate a mastery in understanding various physical processes including the theory and practice of weather analysis and forecasting, surface and upper air analysis, fronts and wave cyclones, satellite meteorology, sounding analysis, thermodynamic diagram, cross sections, forecasting, NMC models, MOS, radar meteorology, and severe weather. Communications skills are emphasized. (F)

METR G4433 Mesoscale Meteorology 3 Credit Hours
Prerequisite: Grade of C or better in 4133, 4424. Structure and dynamics of convective and mesoscale phenomena including: mesoscale convective systems, severe thunderstorms, tornadoes, low-level jets, mountain waves and hurricanes. Discussion of the general behavior, characteristics, and dynamics of the formation and development of these phenomena, and the types of weather and hazards they produce. (Sp)

METR 4443 Introduction to Tropical Meteorology 3 Credit Hours
(Slashlisted with 5443) Prerequisite: senior standing in Meteorology or permission of instructor. Introduces students to the weather and climate of the tropics. Material presented will include an overview of tropical weather, basic physics of air-sea interaction and the attendant effects on tropical weather. No student may earn credit for both 4443 and 5443. (Irreg.)

METR 4491 Weather Briefing 1 Credit Hour
(Slashlisted with 5491) Prerequisite: Grade of C or better in 3113, 3213. Students prepare and present daily weather briefing. The briefing should demonstrate ability to synthesize current weather information on all scales, prepare a forecast and communicate this clearly and succinctly to an audience. Can be repeated for credit up to four hours. No student may earn credit for both 4491 and 5491. (F, Sp)

METR 4523 Climate and the General Circulation 3 Credit Hours
Prerequisite: Grade of C or better in MATH 2443, MATH 3413, PHYS 2524, and METR 4233. Characterizes the climate of the Earth's atmosphere qualitatively and quantitatively, with a focus on large-scale dynamics and the general circulation. Applies the gained knowledge of the climate system and climate modeling to understand global climate change and climate variability in the past, present, and future. Required of all meteorology majors during their fourth year of residence. (Sp)

METR 4533 Earth's Past Climate 3 Credit Hours
(Slashlisted with METR 5533; Crosslisted with GEOL 4533) Prerequisite: senior or graduate standing, or permission of instructor. Explores earth's climate system, controls on climate change, and evolution of climate history through geologic time as deciphered from climate proxies. No student may earn credit for both 4533 and 5533. (F)

METR 4543 Global Climate Change 3 Credit Hours
(Slashlisted with METR 5543) Prerequisite: One of the following: METR 1014, METR 2013, METR 2603, METR 2903, CEES 1112, GEOG 1114, GEOG 1203, GEOG 3023, GEOL 1034, GEOL 1104, GEOL 1114, GEOL 2014, or permission or instructor. The Intergovernmental Panel on Climate Change assesses the scientific and socio-economic information relevant for understanding the risk of human-induced climate change. This interdisciplinary class will use readings, student-led presentations and roundtable discussions of the in-situ observations, as well as modeling of the atmosphere, oceans, ice, carbon, clouds and radiative forcing to understand the next 100-years of climate change. No student may earn credit for both 4543 and 5543. (Sp)

METR 4553 Climate and Renewable Energy 3 Credit Hours
(Slashlisted with METR 5553) Prerequisite: junior standing. Examines the science and technical aspects of solar, wind, hydro, and biomass power systems. Targets students interested in environmental science. Emphasis is on the key role of climate in determining where each of these systems is most likely to provide feasible alternatives to energy generated by fossil fuels. No student may earn credit for both 4553 and 5553. (Sp)

METR 4603 Micrometeorological Measurements 3 Credit Hours
(Slashlisted with 5603) Prerequisites: grade of C or better in 3613, 3213, 3113, and Math 3113 or 3413. Introduction into micrometeorological research topics with strong emphasis on instrumentation. Provides hands-on experience in micrometeorological instrumentation, data acquisition and analysis. The structure of the atmospheric boundary layer and the influence of vegetation and buildings on small-scale meteorological conditions are studied. Theoretical concepts are verified against observations from a micrometeorological tower. No student may earn credit for both 4603 and 5603. (Irreg.)

METR 4623 Radar Meteorology 3 Credit Hours
Prerequisite: grade of C or better in METR 2613 or METR 3613, Math 2433 or Math 2934. Principles of weather radar and storm observations including: radar system design, em wave propagation, radar equation for point and distributed targets, Rayleigh/Mie/Gan scattering, power spectrum, I&Q, moments of the power spectrum, ground clutter, attenuation, rainfall measurements using radar reflectivity and using polarization diversity radars, Doppler interpretation and analysis, polarimetric theory and applications, kinematics of of convective storms. (Sp)

METR G4633 Hydrometeorology 3 Credit Hours
(Slashlisted with METR 5633) Prerequisite: Grade of C or better in METR 3123, METR 3223 or permission of instructor. Interdisciplinary emphasis on mesoscale precipitation processes, applications of new hydrometeorological observing systems, and on the interactions between meteorology and hydrology during flood events. No student may earn credit for both 4633 and 5633. (Irreg.)

METR 4653 Air Pollution Meteorology and Modeling 3 Credit Hours
(Slashlisted with 5653) Prerequisite: grade of C or better in 3113, 3213. Presents an overview of atmospheric dispersion problems and relevant weather systems with an emphasis on processes in the atmospheric boundary layer. Basic concepts and theories of turbulent transport and mixing are introduced and different dispersion theories and modeling approaches are discussed. No student may earn credit for both 4653 and 5653. (Irreg.)

METR 4663 Radar Engineering 3 Credit Hours
(Crosslisted with ECE 4663; Slashlisted with 5663) Prerequisite: grade of C or better in Electrical and Computer Engineering 3613, or permission. Introduction to radar system designs and applications with emphasis on weather radar. Radar system architecture and their functionalities and limitations of subsystems are discussed. Theories of radar detection and estimation in a noisy and cluttered environment; existing technologies and advanced techniques to improve radar performance. No student may earn credit in both 4663 and 5663. (F)

METR 4693 Environmental Sampling Methods 3 Credit Hours
(Slashlisted with METR 5693; Crosslisted with PBIO and MBIO 4693) Prerequisite: diverse STEM background; permission of instructor; senior standing. The course gives students from diverse STEM backgrounds experience and knowledge of environmental sampling techniques, analysis of data generated, and interpretation of results in a scientific field outside their primary area of study. The multi-disciplinary structure helps students develop an understanding of different sampling techniques based on assumptions and perspectives on the environment at different spatial scales. No student may earn credit for both 4693 and 5693. (Sp)

METR 4713 Private Sector Meteorology 3 Credit Hours
Prerequisite: senior standing in Meteorology. An overview of private sector meteorology in the United States. Designed to build background knowledge, foster the use of higher-order analytical skills, and further develop communication and presentation skills. The course includes lectures, directed readings, visiting local private sector companies, interviews with practicing meteorologists, and the development of a portfolio about a private sector meteorological company. Students gain experience in applying their meteorological knowledge to a practical problem as might be encountered in professional practice. No student may earn credit for both 4713 and 5713. (Irreg.)

METR 4743 Applications of Weather Forecasting 3 Credit Hours
Prerequisite: METR 2013 or instructor permission. The course will focus on introducing students to various types of weather forecasts, and how those weather forecasts are created. (F, Sp)

METR G4803 Selected Topics in Meteorology 3 Credit Hours
Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit 12 hours. Topics may include aspects of atmospheric dynamics and severe-storm forecasting, experimental design, economic meteorology, weather modification, climate, radiation, aviation weather, etc. (Irreg.)

METR 4911 Senior Seminar (Capstone) 1 Credit Hour
Prerequisite: Grade of C or better in 3123, 3223. With 4922, satisfies Capstone course requirement. The instructor will guide senior meteorology majors through planning of a research project. Interdisciplinary topics are encouraged and library work will be required. Students will be paired with regular or adjunct faculty mentors. Senior doctoral students may serve as mentors with permission from the instructor. The result of 4911 will be a mini-proposal which will serve as a guide for the senior research project. In addition, the instructor may present professional skills useful during job search, early employment, and graduate school application and attendance. Note that METR 4922 should be taken following this course. (F, Sp) [V].

METR 4913 Senior Seminar 3 Credit Hours
Prerequisite: grade of C or better in 3113 and 3223. Satisfies the capstone course requirement. The instructor will guide senior meteorology majors on a research project. Interdisciplinary topics will be encouraged and library work is required. Students will complete written and oral presentations of a senior thesis. (F, Sp) [V].

METR 4922 Senior Seminar II (Capstone) 2 Credit Hours
Prerequisite: Grade of C or better in 3123, 3223, 4911. with 4911, satisfies the Capstone course requirement. The instructor will guide students as they follow the research plan established in the mini-proposal completed in METR 4911. Library work will continue to be required with development of research methodology and analysis of results. Students will continue to work with faculty (senior doctoral student) mentors. The culmination of the two-course Capstone sequence will be a written and oral presentation of the senior thesis. The skills learned in Capstone I and II will be useful whether the student is employed in academia, government, or the private sector. (F, Sp) [V].

METR 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

METR 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

METR 4990 Special Problems in Meteorology 1-4 Credit Hours
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of subject matter. (F, Sp, Su)

METR 5004 Fundamentals of Atmospheric Science 4 Credit Hours
Prerequisite: graduate standing in a meteorology, physical science, or engineering program, MATH 3113 or MATH 3413 or permission of instructor. Provides a rigorous survey of the fundamental concepts in the atmospheric sciences relevant to weather, climate and atmospheric chemistry. The course is designed to provide sufficient background knowledge so that the students will be prepared to successfully undertake more specialized graduate coursework in meteorology. Graduate students in fields closely related to meteorology, such as radar engineering and hydrology, will also benefit from knowledge of these concepts. (F)

METR 5013 Science at the Tropopause: Physics, Dynamics, & Chemistry of the Upper Troposphere/Lower Stratospher 3 Credit Hours
(Slashlisted with METR 4013) Prerequisite: Graduate standing. A survey of the dynamics, physics, and chemistry of the UTLS. Topics will include basic characteristics of the UTLS definition of the tropopause, dynamical principals of and theory used for the UTLS, stratosphere-troposphere exchange, and common analysis techniques for UTLS studies. Will gradually increase focus on process-level understanding and review key dynamical and physical features/phenomena that impact the UTLS. No student may earn credit for both 4013 and 5013. (Sp)

METR 5103 Boundary Layer Meteorology 3 Credit Hours
Prerequisite: 3113, Mathematics 3113. Transfer processes near the earth's surface, turbulence, the planetary boundary layer, air mass modification, fog formation, pollutant transport.

METR 5113 Advanced Atmospheric Dynamics I 3 Credit Hours
Prerequisite: Mathematics 4163 or permission of instructor. Basic fluid dynamics, equations of motion, vorticity dynamics, scale analysis, shallow water equations, linear wave dynamics, gravity waves, Rossby waves, quasi-geostrophic motions. (F)

METR 5123 Advanced Atmospheric Dynamics II 3 Credit Hours
Prerequisite: 5113 or permission of instructor. Shallow water theory in a rotating reference frame, waves and instabilities, thermal convection and chaos, internal waves, anelastic approximation, baroclinic instability, symmetric instability and frontogenesis, general circulation of the atmosphere.

METR 5223 Atmospheric Radiation 3 Credit Hours
Prerequisite: 3213, Mathematics 3113, or permission of instructor. Theory of radiative transfer, spectra of gaseous molecules, use of band models for radiative calculations, interaction of solar radiation with atmospheres, infrared radiative transfer in atmospheres, radiative cooling and heating, scattering, climate and radiation, remote sensing. (Sp)

METR 5233 Cloud and Precipitation Physics 3 Credit Hours
Prerequisite: 3223, Mathematics 3113. Development of thermodynamical relationships and generalized Clausius-Clapeyron equation, phase diagrams, atmospheric aerosols, review of hydrodynamics of flow past particles, collision and coalescence efficiency, theory of nucleation, precipitation growth, observations with radar, electrical state of the atmosphere. (F)

METR 5243 Atmospheric Electrodynamics 3 Credit Hours
Prerequisite: permission of instructor. Global electrical circuit, fair-weather electricity, storm electrification, charging mechanisms, electrical discharges, lightning, thunder, instrumentation and observing systems, meteorological applications.

METR 5303 Objective Analysis 3 Credit Hours
Prerequisite: METR 4133, MATH 3113 or MATH 3413, or equivalent. Introduction to techniques used in objective analysis of meteorological data; polynomial fitting; method of successive corrections; weighting functions; statistical methods; optimum interpolation; filter design; four-dimensional data assimilation. (F)

METR 5313 Statistical Meteorology I 3 Credit Hours
Prerequisite: Graduate standing. The role of probability and statistics in meteorology and climate: decision making, sampling, graphical presentation of data, resampling techniques, autocorrelation, confidence intervals, statistical power, and various regression models. Computational aspects using meteorology and climate data will be emphasized. (F)

METR 5330 Information Technology Skills for Meteorology 1-3 Credit Hours
(Slashlisted with 4330) Prerequisite: Grade of C or better in Computer Science 1313 or permission of instructor. May be repeated; maximum credit three hours. The use of computers and networks to process the information of meteorology. Workstation skills, computer operating systems, programming languages, the Internet, computer graphics, analysis and display of meteorological data. No student may earn credit for both 4330 and 5330. (Irreg.)

METR 5344 Computational Fluid Dynamics I 4 Credit Hours
Prerequisite: 3113 or Engineering 3223; Engineering 3723; Mathematics 3123; permission of instructor. Application of fine difference, spectral, and semi-Lagrangian methods to multidimensional Newtonian fluid flow problems, including well-posedness, consistency, stability, convergence, accuracy, boundary conditions, conservation, grid systems, and filtering. In addition, code development practices and the use of high-performance vector and parallel supercomputers will be addressed.

METR 5403 Applications of Meteorological Theory to Severe-Thunderstorm Forecasting 3 Credit Hours
(Slashlisted with METR 4403) Prerequisite: graduate standing and department permission. This course provides an opportunity to bridge the academia and operational forecasting realms and provide an opportunity for students to learn from experienced meteorologist-forecasters who have performed research on a variety of topics. No student may earn credit for both 4403 and 5403. (Sp)

METR 5413 Advanced Synoptic Meteorology 3 Credit Hours
Prerequisite: 4133, 4424, 5113 or permission of instructor. Theory and application of quasi-geostrophic dynamics, Q-vectors and isentropic potential vorticity, diagnostic studies of mid-latitude synoptic-scale systems, mesoscale structure of precipitation, structure and dynamics of fronts and jets. (Sp)

METR 5433 Advanced Statistical Meteorology 3 Credit Hours
Prerequisite: senior standing or graduate standing and permission of instructor. Data analysis is a routine part of many types of research in the atmospheric sciences. As such, having the right set of tools and prowess on how to use those tools is an important part to understanding the statistical and dynamical behavior of the climate system. (F, Sp)

METR 5443 Introduction to Tropical Meteorology 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Introduces students to the weather and climate of the tropics. Material presented will include an overview of tropical weather, basic physics of air-sea interaction and the attendant effects on tropical weather. No student may earn credit for both 4443 and 5443. (Irreg.)

METR 5453 Advanced Tropical Meteorology 3 Credit Hours
Prerequisite: 5443 or permission of instructor. Designed to provide comprehensive observational, dynamical and modeling material on the global tropical atmosphere, but with special emphasis on the Atlantic and east Pacific hurricane basin. (F)

METR 5503 Climate Dynamics 3 Credit Hours
Prerequisite: 5113. Survey of past climates; climate variability; heat and water budgets of the atmosphere, oceans and land surfaces; the general circulation; climate modeling.

METR 5533 Earth's Past Climate 3 Credit Hours
(Slashlisted with METR 4533; Crosslisted with GEOL 5533) Prerequisite: senior or graduate standing, or permission of instructor. Explores earth's climate system, controls on climate change, and evolution of climate history through geologic time as deciphered from climate proxies. No student may earn credit for both 4533 and 5533. (F)

METR 5543 Global Climate Change 3 Credit Hours
(Slashlisted with METR 4543) Prerequisite: permission of instructor. The Intergovernmental Panel on Climate Change assesses the scientific and socio-economic information relevant for understanding the risk of human-induced climate change. This interdisciplinary class will use readings, student-led presentations and roundtable discussions of the in-situ observations, as well as modeling of the atmosphere, oceans, ice, carbon, clouds and radiative forcing to understand the next 100-years of climate change. No student may earn credit for both 4543 and 5543. (Sp)

METR 5553 Climate and Renewable Energy 3 Credit Hours
(Slashlisted with METR 4553) Prerequisite: Mathematics 1503. Examines the science and technical aspects of solar, wind, hydro, and biomass power systems. Targets students interested in environmental science. Emphasis is on the key role of climate in determining where each of these systems is most likely to provide feasible alternatives to energy generated by fossil fuels. No student may earn credit for both 4553 and 5553. (Sp)

METR 5603 Micrometeorological Measurements 3 Credit Hours
(Slashlisted with 4603) Prerequisite: Mathematics 3113 or permission of instructor. Performance of measurement systems used to obtain meteorological observations. Includes systems for synoptic observations and special purpose systems for micro-meteorology, air pollution, etc. Effect of static, dynamic, sampling, round-off, and truncation error on data quality; comparison of analog and digital recording techniques. Laboratory (Irreg.)

METR 5633 Hydrometeorology 3 Credit Hours
(Slashlisted with METR 4633) Prerequisite: graduate standing. Hydrometeorology is part of meteorology directly concerned with hydrologic problems, such as forecasting and observing heavy precipitation and floods and how such features impact flood control, hydroelectric power, irrigation and similar fields of engineering and water resource management. No student may earn credit for both 4633 and 5633. (Irreg.)

METR 5643 Quantitative Hydrometeorology 3 Credit Hours
(Crosslisted with CEES 5643) Prerequisite: Graduate standing or permission of instructor. Theory and concept of hydrometeorology and remote sensing, across atmospheric science and hydrology and across water science and engineering. An in-depth study of precipitation estimation from in-situ, radar, satellite, uncertainty modeling and decision making. Data analysis and computational methods for hydrometeorology. Special emphasis on probabilities/statistics and decision making. Basic level of scientific programming is helpful but not mandatory. (Irreg.)

METR 5653 Air Pollution Meteorology and Modeling 3 Credit Hours
(Slashlisted with 4653) Prerequisite: Grade of C or better in 3113 and 3213. Presents an overview of atmospheric dispersion problems and relevant weather systems with an emphasis on processes in the atmospheric boundary layer. Basic concepts and theories of turbulent transport and mixing are introduced and different dispersion theories and modeling approaches are discussed. No student may earn credit for both 4653 and 5653. (Irreg.)

METR 5663 Radar Engineering 3 Credit Hours
(Crosslisted with ECE 5663; Slashlisted with 4663) Prerequisite: grade of C or better in Electrical and Computer Engineering 3613, or permission. Introduction to radar system designs and applications with emphasis on weather radar. Radar system architecture and their functionalities and limitations of subsystems are discussed. Theories of radar detection and estimation in a noisy and cluttered environment; existing technologies and advanced techniques to improve radar performance. No student may earn credit in both 4663 and 5663. (F)

METR 5673 Weather Radar Theory and Practice 3 Credit Hours
(Crosslisted with ECE 5673) Prerequisite: grade of C or better in Mathematics 3113 and Physics 2524 or permission. This course provides an introduction to electromagnetic waves and propagation through the atmosphere, radar design trade-offs, antennas, transmitters, and coherent receivers. Analysis of radar signals as noise-corrupted stochastic processes, with emphasis on digital signal processing for Doppler spectrum and moment estimation. Implementation of processing algorithms using actual Doppler radar data. (F)

METR 5683 Weather Radar Applications 3 Credit Hours
(Crosslisted with ECE 5683) Prerequisite: Graduate standing in Meteorology or Engineering, or permission of instructor. Interpretation of meteorological structures using weather radar. Introduces scatter from hydrometeors and refractive index variations. Presentation of quantitative precipitation estimation methods based on the radar reflectivity factor, attenuation, and dual-polarization observations. Also includes the fundamental concepts of clear-air echoes and the estimation of winds under non-precipitation conditions. (Sp)

METR 5693 Environmental Sampling Methods 3 Credit Hours
(Slashlisted with METR 4693; Crosslisted with METR and PBIO 5693) Prerequisite: Graduate standing and permission of instructor. The course gives students from diverse STEM backgrounds experience and knowledge of environmental sampling techniques, analysis of data generated, and interpretation of results in a scientific field outside their primary area of study. The multi-disciplinary structure helps students develop an understanding of different sampling techniques based on assumptions and perspectives on the environment at different spatial scales. No student may earn credit for both 4693 and 5693.

METR 5713 Private Sector Meteorology 3 Credit Hours
Prerequisite: graduate standing in Meteorology. An overview of private sector meteorology in the United States. Designed to build background knowledge, foster the use of higher-order analytical skills, and further develop communication and presentation skills. The course includes lectures, directed readings, visiting local private sector companies, interviews with practicing meteorologists, and the development of a portfolio about a private sector meteorological company. Students gain experience in applying their meteorological knowledge to a practical problem as might be encountered in professional practice. No student may earn credit for both 4713 and 5713. (Irreg.)

METR 5733 Hydroclimatology 3 Credit Hours
(Crosslisted with CEES 5733) Prerequisite: Graduate standing or permission of instructor. Theory and concept of hydroclimatology across atmospheric science and hydrology. An in-depth study of the local to global climate of precipitation with specific foci on drought, pluvials, and how they vary in a changing climate system. Data analysis and computational methods for hydroclimatology. Basic level of scientific programming is helpful but not mandatory. (Su)

METR 5803 Topics in Applied Meteorology 3 Credit Hours
Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit 12 hours. Application of meteorological concepts and information to current environmental and meteorological problems on any scale.

METR 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

METR 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

METR 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

METR 5990 Independent Study 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing, permission of instructor. May be repeated with change of subject matter; maximum credit eight hours for master's degree students. Individual research problems in meteorology, climatology, hydrometeorology, and other areas of the atmospheric and earth sciences. (Irreg.)

METR 6103 Turbulence 3 Credit Hours
Prerequisite: Graduate standing and METR 5103 or METR 5113, or permission of instructor. Introduction to the evolution, structure, and effects of turbulent flow. Students will learn to use a variety of theoretical and practical tools of discovery and analysis. (Sp)

METR 6223 Convective Clouds and Storms 3 Credit Hours
Prerequisite: 5113 or equivalent. Anelastic and Boussinesq equations; Benard convection; plume models; parameterization of cloud microphysics; three-dimensional models; Doppler radar analysis; observations of severe thunderstorms and tornadoes. (Irreg.)

METR 6313 Advanced Data Assimilation Methods: Ensemble Kalman Filter Techniques and Applications 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Introduction to ensemble Kalman data assimilation techniques (EnKF). Students learn the most popular EnKF techniques through lectures and hands-on project assignments, and also develop skill in scientific thinking and synthesis, written and oral communication and programming throughout the course. (Irreg.)

METR 6413 Topics in Advanced Mesoscale Meteorology 3 Credit Hours
Prerequisite: 5113. Research topics in the areas of cyclogenesis, frontogenesis and mesoscale systems. Topics include "IPV thinking" and its application to cyclogenesis; trapped gravity currents and Kelvin waves; the dryline; rainbands in extratropical cyclones; air-sea instability; topographically induced eddies; generalization of the frontogenetical function.

METR 6613 Weather Radar Polarimetry 3 Credit Hours
(Crosslisted with ECE 6613) Prerequisite: graduate standing. Provides fundamentals and principles of weather radar polarimetry through understanding wave scattering and propagation in geophysical media subject to turbulent mixing and filled with hydrometeors and other objects. The relations between polarimetric radar observables and physical parameters will be established. The methods and algorithms for retrieving cloud and precipitation microphysics for weather quantification and forecast will be introduced. (F)

METR 6950 Research for Doctoral Dissertation prior to the General Exam 2-16 Credit Hours
2 to 16 hours. Prerequisite: graduate standing in Meteorology. May be repeated up to 14 times (2 credit hours per semester); 30 credit hours maximum. Applicable for research hours for pre general exam PhD students. (F, Sp, Su)

METR 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

METR 6970 Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission. May be repeated with change of subject matter; maximum credit four hours for master's degree, or 10 hours for doctor's degree. (F, Sp)

METR 6980 Research for Doctoral Dissertation 2-16 Credit Hours
(F, Sp, Su)

METR 6990 Special Problems 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing, permission of instructor. May be repeated with change of subject matter; maximum credit 12 hours for doctoral students. Individual research problems in meteorology and related areas conducted under faculty supervision. (F, Sp, Su)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Basara	Jeffrey	B	2001	CIMMS FELLOW, 2007; ASSOCIATE PROFESSOR OF METEOROLOGY, 2012; 2018; ASSOCIATE PROFESSOR OF CIVIL ENGINEERNG AND ENVIRONMENTAL SCIENCE, EXECUTIVE ASSOCIATE DIRECTOR, HYDROLOGY AND WATER SECURITY PROGRAM, 2019, DIRECTOR, KESSLER ATMOSPHERIC AND ECOLOGICAL FIELD STATION, 2019	PhD, Univ of Oklahoma, 2001; MS, Univ of Oklahoma, 1998; BA, Purdue Univ, 1994
Biggerstaff	Michael	I	2002	CIMMS FELLOW, 2002; PROFESSOR OF METEOROLOGY, 2015	PhD, Univ of Washington, 1991; BS, Univ of Texas, 1984
Bluestein	Howard	B	1976	CIMMS FELLOW, 1983; SAMUEL ROBERTS NOBLE PRESIDENTIAL PROFESSOR, 2001; GEORGE LYNN CROSS RESEARCH PROFESSOR OF METEOROLOGY, 2004	PhD, Mass Inst of Tech, 1976; MS, Mass Inst of Tech, 1972; BS, Mass Inst of Tech, 1971
Cavallo	Steven		2011	CIMMS FELLOW, 2012; ASSOCIATE PROFESSOR OF METEOROLOGY, 2017	PhD, Univ of Washington, 2009; MS, Univ of Washington, 2006; BS, Florida State Univ, 2003
Chilson	Phillip	B	2004	CIMMS FELLOW, 2007; PROFESSOR OF METEOROLOGY, 2011; DIRECTOR, CENTER FOR AUTONOMOUS SENSING AND SAMPLING; 2017	PhD, Clemson Univ, 1993; MS, Univ of Florida, 1990; BS, Clemson Univ, 1985
Fedorovich	Evgeni		1999	PROFESSOR OF METEOROLOGY, 2004; EDITH KINNEY GAYLORD PRESIDENTIAL PROFESSOR, 2012;	PhD, Leningrad State Univ, 1986; MS, Leningrad State Univ, 1979
Furtado	Jason	C	2015	ASSISTANT PROFESSOR OF METEOROLOGY, 2015	PhD, Georgia Inst of Tech, 2010; MS, Colorado State Univ, 2005; BS, Lyndon State College, 2002

Homeyer	Cameron	R	2014	ASSISTANT PROFESSOR OF METEOROLOGY, 2014, CHESAPEAKE ENERGY PROFESSOR OF CLIMATE SYSTEMS SCIENCE, 2019, ASSOCIATE DIRECTOR, GRADUATE PROGRAMS , 2019	PhD, Texas A&M Univ, 2012; MS, Texas A&M Univ, 2010; BS, Texas A&M Univ, 2008
Kirstetter	Pierre		2018	ASSOCIATE PROFESSOR, SCHOOL OF METEOROLOGY 2018, ASSOCIATE PROFESSOR CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2018	PhD. GRENOBLE ALPS UNIVERSITY, 2009; MS-ENVIRONMENTAL SCIENCES, GRENOBLE ALPS UNIVERSITY, 2005; M. ENGR-CIVIL AND ENVIRONMENTAL SCIENCE, GRENOBLE INSTITUTE OF TECHNOLOGY, 2004
Klein	Petra	M	2001	CIMMS FELLOW, 2002; EDITH KINNEY GAYLORD PRESIDENTIAL PROFESSOR, 2009; PROFESSOR OF METEOROLOGY, 2016	PhD, Univ of Karlsruhe, 1999; Diploma, Univ of Karlsruhe, 1993
Martin	Elinor	R	2014	ASSISTANT PROFESSOR OF METEOROLOGY, 2014; CIMMS FELLOW, 2015, ASSOCIATE DIRECTOR, UNDERGRADUATE PROGRAMS, 2019	PhD, Texas A&M Univ, 2011; MS, Colorado State Univ, 2007; BSc, Univ of Reading, 2005
McFarquhar	Gregory		2017	PROFESSOR OF METEOROLOGY, 2017	PhD, Univ of Toronto, 1993; MS, Univ of Toronto, 1989; BS, Univ of Toronto, 1987
Moore	Berrien		2010	PROFESSOR OF METEOROLOGY, 2010; CHESAPEAKE ENERGY CORPORATION CHAIR IN CLIMATE STUDIES, 2010; CIMMS FELLOW, 2010	PhD, Univ of Virginia, 1969; BS, Univ of North Carolina, 1963
Palmer	Robert	D	2003	PROFESSOR OF METEOROLOGY, 2004; TOMMY C. CRAIGHEAD CHAIR OF METEOROLOGY, 2007; CIMMS FELLOW, 2007	PhD, Univ of Oklahoma, 1989; MS, Univ of Oklahoma, 1986; BS, Univ of Oklahoma, 1984
Parsons	David	B	2010	MARK AND KANDI MCCASLAND CHAIR EMERITUS, 2018; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2018; PROFESSOR OF METEOROLOGY, 2010; CIMMS FELLOW, 2010	PhD, Washington Univ, 1982; BS, Rutgers Univ, 1976
Redemann	Jensen		2018	PROFESSOR OF METEOROLOGY, 2018; KANDI AND MARK MCCASLAND CHAIR IN METEOROLOGY, 2018	PhD, Univ of California Los Angeles, 1999; MS, Univ of California Los Angeles, 1997; MS, Freie Universitat, 1995
Richman	Michael	B	1991	CIMMS FELLOW, 1996; EDITH KINNEY GAYLORD PRESIDENTIAL PROFESSOR, 2005; PROFESSOR OF METEOROLOGY, 2006; ADJUNCT PROFESSOR OF LIBERAL STUDIES, 2009	PhD, Univ of Illinois, 1994; MS, Univ of Illinois, 1980; BA, SUNY at Plattsburgh
Sakaeda	Naoko		2017	Assistant Professor of Meteorology, 2017	B.S. Atmospheric Sciences, University of Washington 2009, Ph.D Atmos Sciences, Univ of Albany, 2015
Salesky	Scott	T	2017	ASSISTANT PROFESSOR OF METEOROLOGY, 2017	PhD, Pennsylvania State Univ, 2014; MS, Pennsylvania State Univ, 2010; BS, Martin Luther College, 2008
Wang	Xuguang		2008	CIMMS FELLOW, 2009; PRESIDENTIAL RESEARCH PROFESSOR, 2014; ASSOCIATE PROFESSOR OF METEOROLOGY, 2014, PROFESSOR 2019, ROBERT LOWRY CHAIR PROFESSOR, AND PRESIDENTIAL RESEARCH PROFESSOR 2019	PhD, Penn State Univ, 2004; BS, Peking Univ, 1998
Xu	Feng		2019	ASSOCIATE PROFESSOR, 2019	PhD.-PHYSICS, UNIVERSITY OF ROWEN, 2008; M. ENGR, UNIVERSITY OF SHANGHAI FOR SCIENCE AND TECHNOLOGY, 2004; B. ENGR, UNIVERSITY OF SHANGHAI FOR SCIENCE AND TECHNOLOGY, 2002
Xue	Ming		1989	CIMMS FELLOW, 2007; GEORGE LYNN RESEARCH PROFESSOR OF METEOROLOGY, 2018; WEATHERNEWS CHAIR IN APPLIED METEOROLOGY, 2010	PhD, Univ of Reading, 1989; BS, Nanjing Univ, 1984

Zhang	Guifu	2005	CIMMS FELLOW, 2007; PROFESSOR OF METEOROLOGY, 2012; ADJUNCT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2014	PhD, Univ of Washington, 1998; MS, Wuhan Univ, 1985; BS, Anhui Univ, 1982

Meteorology, B.S.

Minimum Total Credit Hours: 120-123
Minimum Upper-Division Hours: 52
Overall GPA - Combined and OU: 2.25
Major GPA - Combined and OU: 2.25

Program Code: B685

Major Requirements

Code	Title	Credit Hours
Core (48 hours, 15 courses)		
METR 1003	Introduction to the Atmospheric Sciences	3
METR 2004	Atmospheric Circulations	4
METR 2213	Physical Meteorology I:Thermodynamics	3
METR 2613	Atmospheric In-Situ & Surface-Based Measurements	3
METR 3113	Atmospheric Dynamics I: Intro to Atmospheric Kinematics/Dynamics	3
METR 3123	Atmospheric Dynamics II: Theory of Atmospheric Flows	3
METR 3223	Physical Meteorology II: Cloud Physics, Atmos Electricity/Optics	3
METR 3334	Principles of Research & Communication in Meteorology	4
METR 3513	Atmospheric Chemistry in Weather and Climate	3
METR 4133	Atmospheric Dynamics III: Mid-Latitude Synoptic-Scale Dynamics	3
METR 4233	Physical Meteorology III: Radiation and Remote Sensing	3
METR 4424	Synoptic Meteorology Laboratory	4
METR 4433	Mesoscale Meteorology	3
METR 4523	Climate and the General Circulation	3
METR 4913	Senior Seminar (Capstone)	3
Major Elective (3 hours)		
Choose one Meteorology, Hydrology or Climatology upper-division elective (p. 752)		3
Total Credit Hours		51

Major Support Requirements

- **Courses required for major support may *not* also fulfill University-Wide General Education Requirements.**

Code	Title	Credit Hours
Math and Physics		
MATH 2934	Differential and Integral Calculus III	3-4
or MATH 2443	Calculus and Analytic Geometry IV	
PHYS 1311	General Physics Lab I	1
MATH 3413	Physical Mathematics I	3
METR 3323	Statistical Meteorology	3
or MATH 4753	Applied Statistical Methods	
Programming Elective		
Choose one course from the following:		1-4
METR 1313	Introduction to Programming for Meteorology	
C S 1321	Java for Programmers	
C S 1323	Introduction to Computer Programming for Programmers	
C S 1324	Introduction to Computer Programming for Non-Programmers	
Total Credit Hours		11-15

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course list at http://www.ou.edu/content/gened/courses.html.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Courses graded P/NP will not apply

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-10 hours)		
(0-10 hours in the same language) Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language		
Beginning Course		0-5
Beginning Course, continued		0-5
Mathematics (minimum 3 hours)		
MATH 1914	Differential and Integral Calculus I [1]	4
Core Area II: Natural Science (minimum 7 hours, 2 courses)		
CHEM 1315	General Chemistry (Science with Lab) [1]	5
PHYS 2514	General Physics for Engineering and Science Majors (Science without Lab) [1]	4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities		
Understanding Artistic Forms (3 hours)		
Choose one course from the General Education Artistic Forms list.		3
Western Civilization and Culture (6 hours)		
HIST 1483	United States to 1865	3

or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (Excluding HIST 1483 and HIST 1493)		3
Non-Western Culture (3 hours)		
Choose one course from the General Education Non-Western Culture list		3
Core Area V: Senior Capstone Experience		
3 hours required, fulfilled in Major Requirements		3
Total Credit Hours		40-50

[1]College of Atmospheric and Geographic Sciences requirements.

At least three hours of Upper-Division General Education coursework must be completed outside the major.

ADDITIONAL COLLEGE BACHELOR OF SCIENCE REQUIREMENTS

Code	Title	Credit Hours
MATH 2924	Differential and Integral Calculus II [1]	4
PHYS 2524	General Physics for Engineering and Science Majors	4
Total Credit Hours		8

[1]MATH 1823, MATH 2423, and MATH 2433 will also fulfill the college's calculus requirement.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 52 upper-division hours.

These electives may be used to fulfill the requirements for a minor, if desired, but must include at least nine hours of upper- division coursework.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 40 upper- division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper- division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or School of Meteorology academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Meteorology major requirements.

Course	Title	Credit Hours
Freshman		
First Semester		
METR 1003	Introduction to the Atmospheric Sciences [1]	3
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1914	Differential and Integral Calculus I (Core I) [1]	4
CHEM 1315	General Chemistry (Core II)	5
	Credit Hours	15
Second Semester		
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
MATH 2924	Differential and Integral Calculus II (Core I) [1]	4
PHYS 1311	General Physics Lab I [1]	1
PHYS 2514	General Physics for Engineering and Science Majors (Core II) [1]	4
METR 1313	Introduction to Programming for Meteorology (or other programming elective from list in major support) [1]	3
	Credit Hours	15
Sophomore		
First Semester		
METR 2004	Atmospheric Circulations [1]	4
MATH 2934	Differential and Integral Calculus III [1]	4
PHYS 2524	General Physics for Engineering and Science Majors [1]	4
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
	Credit Hours	15
Second Semester		
METR 2213	Physical Meteorology I:Thermodynamics [1]	3
METR 2613	Atmospheric In-Situ & Surface-Based Measurements [1]	3
P SC 1113	American Federal Government (Core III)	3
General Education	Western Civilization & Culture (Core IV) [2]	3
Free Elective		3
	Credit Hours	15

Junior		
First Semester		
METR 3113	Atmospheric Dynamics I: Intro to Atmospheric Kinematics/Dynamics [1]	3
METR 3513	Atmospheric Chemistry in Weather and Climate [1]	3
METR 3323 or MATH 4753	Statistical Meteorology [1] or Applied Statistical Methods	3
MATH 3413	Physical Mathematics I [1]	3
General Education	Understanding Artistic Forms (Core IV) [2]	3
	Credit Hours	15
Second Semester		
METR 3123	Atmospheric Dynamics II: Theory of Atmospheric Flows [1]	3
METR 3223	Physical Meteorology II: Cloud Physics, Atmos Electricity/Optics [1]	3
METR 3334	Principles of Research & Communication in Meteorology [1]	4
General Education	Non-Western Culture (Core IV) [2]	3
General Education	Social Sciences (Core III) [2]	3
	Credit Hours	16
Senior		
First Semester		
METR 4913	Senior Seminar (Capstone)	3
METR 4133	Atmospheric Dynamics III: Mid-Latitude Synoptic-Scale Dynamics [1]	3
METR 4233	Physical Meteorology III: Radiation and Remote Sensing [1]	3
METR 4424	Synoptic Meteorology Laboratory [1]	4
Upper Division Free Elective		3
	Credit Hours	16
Second Semester		
METR 4433	Mesoscale Meteorology	3
METR 4523	Climate and the General Circulation [1]	3
Meteorology, Hydrology or Climatology Upper-Division Elective		3
Upper Division Free Elective		3
Upper Division Free Elective		3
	Credit Hours	15
	Total Credit Hours	122

[1] **Students must attain a grade of C or better in all MATH, PHYS, and C S, and in METR courses that are direct prerequisites for other METR courses.**

[2] To be chosen from the University-Wide General Education Approved Course List for Core III (Social Science) and Core IV (Humanities). At least three hours must be upper-division outside the major.

- Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language. This additional coursework may add 6-10 hours to the minimum hours required for graduation.

Computer Science Area of Concentration

The School of Meteorology has joined with the School of Computer Science in the College of Engineering to provide an Area of Concentration within the meteorology curriculum for students interested in further developing their skills in the use of computers in science, engineering, and business. Additional information is available from your faculty advisor.

Minor in Broadcast Meteorology

The College of Journalism and Mass Communication offers a minor in Broadcast Meteorology for meteorology majors interested in careers in broadcast media. **Seventeen hours in communication and journalism courses are required.** Additional information is available from your faculty advisor.

Additional Minors

Minors in Mathematics, Business, Chemistry, Computer Science, Environmental Science, Geography, Geology, Hydrologic Science, Interdisciplinary Perspectives on the Environment, and Physics

Minors in mathematics, business, chemistry, computer science, environmental science, geography, geology, hydrologic science, interdisciplinary perspectives on the environment, and physics are available and students are encouraged to consider one or more of these minors. Students may obtain a minor in mathematics by taking one additional 4000+ MATH course in addition to those required in the curriculum.

Additional information is available from your faculty advisor or from the Atmospheric and Geographic Sciences Dean's Office, National Weather Center, Room 3630.

Meteorology Upper Division Major Elective Course List

The following courses are approved for use as the Meteorology/Hydrology/Climatology Upper Division Major Elective. Please consult the School of Meteorology for the most current list.

Code	Title	Credit Hours
METR 3440	Mentored Research Experience	3
METR 3523	Managing for a Changing Climate	3
METR 3890	Meteorology Internship (with approval from the School)	1-3
METR 4323	Weather Simulation With Computers	3
METR 4330	Information Technology Skills for Meteorology	1-3
METR 4403	Application of Meteorological Theory to Severe-Thunderstorm Forecasting	3
METR 4443	Introduction to Tropical Meteorology	3
METR 4533	Earth's Past Climate	3
METR 4543	Global Climate Change	3
METR 4553	Climate and Renewable Energy	3
METR 4603	Micrometeorological Measurements	3
METR 4633	Hydrometeorology	3
METR 4653	Air Pollution Meteorology and Modeling	3

METR 4663	Radar Engineering	3
METR 4693	Environmental Sampling Methods	3
METR 4713	Private Sector Meteorology	3
METR 4743	Applications of Weather Forecasting	3
METR 4970	Special Topics/Seminar	1-3
GEOG 3443	Environment and Society	3
GEOG 3523	Managing for a Changing Climate	3

Meteorology, Minor

Minimum Total Credit Hours: 17
Minimum Upper-Division Hours: 9

Program Code: N685

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

This minor is not available to Meteorology majors.

A minor in Meteorology requires a minimum of 17 hours of courses acceptable for major credit in Meteorology, to include at least 9 hours at the upper division level.

Students must adhere to the course prerequisite policy as set by the School of Meteorology.

Students majoring in Engineering or one of the Physical Sciences who have demonstrated academic excellence may be exempt from the lower division requirements for the Minor in Meteorology. The School of Meteorology will determine which students are eligible for this exemption.

Students who are not required to complete lower division requirements must complete a minimum of 15 hours of upper division coursework in Meteorology, to be chosen by the student and a faculty advisor from The School of Meteorology.

Specific sequences of Meteorology courses may be designed to provide science and engineering majors with expertise in fluid dynamics, radar meteorology and engineering, instrumentation, air quality and physical meteorology. Please contact The School of Meteorology at 325-6561 for additional information.

Required Courses

A minimum 2.00 GPA is required in all work presented for minor credit.

Code	Title	Credit Hours
METR 2013	Introduction to Meteorology I	3
METR 2011	Introduction to Meteorology I Laboratory [1]	1
METR 2023	Introduction to Meteorology II	3
METR 2021	Introduction to Meteorology II Laboratory	1
Choose 9 hours of upper division Meteorology courses		9
Total Credit Hours		17

[1] Also fulfills a General Education Science with Lab requirement.

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Weather and Climate, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 15

Program Code: N869

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

This minor is not available to Geography or Meteorology Majors.

A minor in Weather and Climate requires a minimum of 15 hours of courses acceptable for major credit in Geography and Meteorology, to include at least 9 hours at the upper division level.

Required Courses

A minimum 2.00 GPA is required in all work presented for minor credit.

Code	Title	Credit Hours
Choose a minimum of 6 hours from the following:		6
METR 1014	Introduction to Weather and Climate [1]	
METR 2013 & METR 2011	Introduction to Meteorology I and Introduction to Meteorology I Laboratory [1]	
METR 2023 & METR 2021	Introduction to Meteorology II and Introduction to Meteorology II Laboratory	
METR 2603	Severe and Unusual Weather [2]	
Choose 9 hours from the following:		9
GEOG 3023	Principles of Physical Geography	
GEOG 3253	Environmental Conservation [3]	
GEOG 4203	Geomorphology	
GEOG 4273	Regional Climatology [2]	
GEOG 4293	Hydrologic Science	
GEOG 4343	Climate, History, and Society	
Total Credit Hours		15

[1]Also fulfills a General Education Natural Science with Lab requirement.

[2]Also fulfills a General Education Natural Science without Lab requirement.

[3]Also fulfills a General Education Social Science requirement.

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Meteorology, B.S./M.B.A.

Minimum Total Credit Hours: 156-159
Minimum Upper-Division Hours: 52
Overall GPA - Combined and OU: 3.00
Major GPA - Combined and OU: 3.00

Program Code: A685/F140-Q449

Undergraduate Major Requirements

Total Credit Hours		48

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course list at http://www.ou.edu/content/gened/courses.html.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Courses graded P/NP will not apply

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Foreign Language (0-10 hours)		
(0-10 hours in the same language) Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language		
Beginning Course		0-5
Beginning Course, continued		0-5
Mathematics (minimum 3 hours)		
MATH 1914	Differential and Integral Calculus I [1]	4
Core Area II: Natural Science (minimum 7 hours, 2 courses)		
CHEM 1315	General Chemistry (Science with Lab) [1]	5
PHYS 2514	General Physics for Engineering and Science Majors (Science without Lab) [1]	4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Humanities		
Understanding Artistic Forms (3 hours)		
Choose one course from the General Education Artistic Forms list.		3
Western Civilization and Culture (6 hours)		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Civilization & Culture list (Excluding HIST 1483 and HIST 1493)		3
Non-Western Culture (3 hours)		
Choose one course from the General Education Non-Western Culture list		3
Core Area V: Senior Capstone Experience		
3 hours required, fulfilled in Major Requirements		3
Total Credit Hours		40-50

[1] College of Atmospheric and Geographic Sciences requirements.

At least three hours of Upper-Division General Education coursework must be completed outside the major.

ADDITIONAL COLLEGE BACHELOR OF SCIENCE REQUIREMENTS

Code	Title	Credit Hours
MATH 2924	Differential and Integral Calculus II [1]	4
PHYS 2524	General Physics for Engineering and Science Majors	4
Total Credit Hours		8

[1] MATH 1823, MATH 2423, and MATH 2433 will also fulfill the college's calculus requirement.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 52 at the upper-division level, and at least 30 at the Graduate level (5000-6000-level).

Shared hours with the M.B.A. will replace 12 elective hours in the undergraduate degree,

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 40 upper- division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper- division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.
Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or School of Meteorology academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Meteorology major requirements.

- Students who have not completed two years of the same foreign language in high school are required to take two college courses in the same foreign language. This additional coursework may add 6-10 hours to the minimum hours required for graduation.

Meteorology, M.S.

Minimum Total Hours (Thesis): 30
Minimum Total Hours (Non-Thesis): 32

Program Code: M685

Required Courses

THESIS OPTION

Code	Title	Credit Hours
Required Courses (must be completed with a B grade or better)		
METR 5004	Fundamentals of Atmospheric Science	4
METR 5113	Advanced Atmospheric Dynamics I	3
METR 5413	Advanced Synoptic Meteorology	3
METR 6970	Seminar (minimum 1 hour; may be repeated for up to 4 hours)	1-4
Thesis		
METR 5980	Research for Master's Thesis	4
Meteorology Electives (must be completed with a B grade or better)		
Choose 6 hours of coursework in consultation with advisor and committee [1]		6
Electives		
Choose 9 hours from the following:		9
Additional METR courses		
Graduate-level courses from other departments		
METR 5990	Independent Study (6 hours maximum)	
Total Credit Hours		30

[1] Excluding METR 5990.

NON-THESIS OPTION

Code	Title	Credit Hours
Required Courses (must be completed with a B grade or better)		
METR 5004	Fundamentals of Atmospheric Science	4
METR 5113	Advanced Atmospheric Dynamics I	3
METR 5413	Advanced Synoptic Meteorology	3
METR 6970	Seminar (minimum 1 hour; may be repeated for up to 4 hours)	1-4
Meteorology Electives (must be completed with a B grade or better)		
Choose 9 hours of coursework in consultation with advisor and committee [1]		9
Electives		
Choose 12 hours from the following:		12
Additional METR courses		
Graduate-level courses from other departments		
METR 5990	Independent Study (6 hours maximum)	
Total Credit Hours		32

[1] Excluding METR 5990.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Meteorology, Ph.D.

Minimum Total Hours: 90

Program Code: D685

Program Requirements

Code	Title	Credit Hours
Coursework		
A minimum of 34 hours of letter-graded METR courses, 5000 or above (excluding METR 5990).		*34*
The following courses must be included and must be passed with a grade of B or better.		
METR 5004	Fundamentals of Atmospheric Science [1, 2]	
METR 5113	Advanced Atmospheric Dynamics I [1]	
METR 5413	Advanced Synoptic Meteorology [1]	
METR 5223	Atmospheric Radiation [1]	
METR 5233	Cloud and Precipitation Physics [1]	
Seminar		
METR 6970	Seminar [3]	1-10
Dissertation Research		
METR 6980	Research for Doctoral Dissertation (minimum 2 hours) [4]	2
Additional coursework as needed to complete 90 post-baccalaureate hours, as approved by advisor and doctoral advisory committee		44-53
Satisfactory completion of the written and oral portion of the School of Meteorology's General Exam		
Satisfactory dissertation defense		
Total Credit Hours		90

[1]Any of these five courses may be replaced by transfer courses with equivalent course content as indicated on the Advisory Conference Report.

[2]METR 5004 may be waived at the discretion of the advisory committee and graduate liaison. In this case, 4 credit hours of any graduate-level meteorology courses numbered 5000 or above may be taken in lieu of METR 5004.

[3]Enrollment in at least 1 credit hour of METR 6970 is required every academic year after admission into the PhD program.

[4]After the first semester of enrolling in METR 6980, continuous enrollment of at least 2 hours of METR 6980 each semester (excluding summer sessions) must be maintained until the doctoral degree is completed. Enrollment in the summer session is required only if (1) the degree is conferred in the summer session, or (2) work is being done on the dissertation.

NOTES:

- Transfer credits from M.S. degree: A total of up to 44 credit hours from a completed master's degree and additional graduate course work may be approved for transfer credit. Only 4 thesis research (METR 5980) credits can be transferred from a M.S. meteorology degree (the number required for the degree)
- S/U graded coursework restrictions: No more than one-half of the credits for OU coursework for a doctoral degree, excluding research for the dissertation (METR 6980), may be S/U-graded coursework; and no more than one-half of the overall coursework (OU credit and transfer credit, combined), excluding credits for METR 6980, may be S/U-graded coursework.
- A plan for the completion of the required and elective PhD course work must be indicated in the student's Advisory Conference Report or its amendments.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

Cordney McClain, Director, Diversity and Inclusion

General Information

History

A curriculum in business subjects was first offered in 1913 through a subordinate school in the College of Arts and Sciences called the School of Commerce and Industry. The first certificates in commerce and industry were granted in 1915. The name was changed to the School of Public and Private Business in 1917. In June 1923, the Board of Regents established a school of business as a separate two-year school of the University and authorized it to confer the degree of Bachelor of Science in Business. The first Bachelor of Science in Business degrees were conferred in 1924. The following year the School of Business was admitted to membership in the Association to Advance Collegiate Schools of Business (AACSB International), the international accrediting agency for bachelor's and master's degrees in business. To earn and retain accreditation, these degree programs must undergo a rigorous initial evaluation and be reevaluated periodically. These programs of the college have been fully accredited since 1926. In addition, programs leading to bachelor's and master's degrees in accounting have met separate AACSB International accreditation standards specifically for accounting programs.

In 1929, the Board of Regents changed the School of Business to the College of Business Administration.

In 1997, alumnus Michael F. Price announced a contribution of $18 million to the College of Business. The OU Regents officially renamed the College of Business Administration the Michael F. Price College of Business. The Price funds are applied strategically to areas of excellence. This endowment has established endowed faculty positions, a library endowment, scholarships and graduate assistantships, a student support center, and provides support for a number of other initiatives.

Mission: The Purpose of Price

"The Michael F. Price College of Business ensures the enduring global competitiveness of Oklahoma and the nation." Our graduates will grasp opportunities to see how separate pieces of a business puzzle are brought together to create a new business or industry. Conceptual thinking and real-world training allows them to solve complex problems within a business or industry.

The college's strategic plan integrated with that of the University helps the college attain its goals of enhanced excellence and contributions to the economy of the state, nation and the world.

Objectives

To further its mission, the college provides degree programs at the baccalaureate, master's and doctoral levels, with the objective of providing career opportunities in a wide variety of professional and entrepreneurial roles. While most graduates will find employment in the private sector, a Michael F. Price College of Business education will provide a general understanding of, and appreciation for, managerial processes that apply in public sector and not-for-profit institutions as well.

In addition to technical competence in areas of specialty, the college expects graduates to attain a level of understanding, and appreciation for, the liberal arts and the social sciences. The aim is to provide an educational base upon which the graduate can build not only technical but also social capability through a lifetime of continuing growth and development. The emphasis is as much on the formation of attitudes and understanding of complex issues as on the attainment of knowledge and skills.

Since formal education may tend to become abstracted from the realities of practice, the college seeks to maintain close ties with the professional communities it serves. Internship opportunities for students, participation by practicing professional managers in the classroom,

consulting and research by faculty, boards of advisers to the college, conferences and the like involving people from outside the University provide opportunities for continuing interaction with the world of organizations.

While maintaining a practical, relevant perspective, the faculty seeks to advance the frontiers of knowledge through research, both applied and theoretical. This research is fundamental to the overall excellence of the teaching function. Students at all levels may expect to be exposed not only to well-established knowledge, but also to ideas and issues that are at the forefront of research and experimentation. As a complement to degree programs, the college includes continuing education and managerial development programs for practicing professionals.

Throughout the wide variety of educational programs and in its research and public service objectives, the college strives to maintain standards of excellence consistent with the University's role as one of the leading institutions of higher education in the nation.

Programs Offered

- College of Business Administrated Programs (p. 770)
  - Economics, B.B.A. (p. 779)
  - General Business for Non-Business Majors, Minor (p. 781)
  - Economics, B.B.A./Management of Information Technology, M.S. (p. 781)
  - Business Administration, M.B.A. (p. 784)
  - Professional MBA, M.B.A. (p. 784)
  - Aerospace and Defense, E.M.B.A. (p. 785)
  - Energy, E.M.B.A. (p. 786)
  - Executive Management in Aerospace and Defense, Graduate Certificate (p. 786)
    - Departmental list of electives (p. 787)
  - Foundations of Business, Graduate Certificate (p. 787)
    - Departmental list of courses (p. 787)
  - Business Administration, Ph.D. (p. 787)
- John T. Steed School of Accounting (p. 789)
  - Accounting, B.B.A. (p. 794)
  - Accounting, Minor (p. 796)
  - Accounting, B.B.A./M.Acc. (p. 797)
  - Accounting, B.B.A./Finance, M.S. (p. 800)
  - Accounting, B.B.A./Management of Information Technology, M.S. (p. 802)
  - Accounting, Online Accounting, M.Acc. (p. 805)
- Tom Love Division of Entrepreneurship and Economic Development (p. 805)
  - Entrepreneurship and Venture Management, B.B.A. (p. 810)
  - Entrepreneurship for Business Majors, Minor (p. 812)
  - Entrepreneurship for Non-Business Majors, Minor (p. 812)
  - Entrepreneurship & Venture Management, B.B.A./Management of Information Technology, M.S. (p. 813)
  - Business Entrepreneurship, Graduate Certificate (p. 816)
    - Guided Electives (p. 816)
- Division of Finance (p. 816)
  - Finance, B.B.A. (p. 823)
  - Finance for Business Majors, Minor (p. 825)
  - Finance, B.B.A./Finance, M.S. (p. 825)
  - Finance, B.B.A./Management of Information Technology, M.S. (p. 828)
  - Finance, M.S. (p. 831)
  - Business of Energy, Graduate Certificate (p. 832)
  - Finance, Graduate Certificate (p. 832)
    - Departmental list of courses (p. 832)
- Division of Management and International Business (p. 832)
  - Energy Management, B.B.A. (p. 840)
  - International Business, B.B.A. (p. 842)
  - Management, B.B.A. (p. 845)
  - Sports Business, B.B.A. (p. 847)
  - Leadership for Business Majors, Minor (p. 850)
  - Management, Minor (p. 850)
  - Sports Business for Business Majors, Minor (p. 851)
  - Sports Business for Non-Business Majors, Minor (p. 851)
  - Management, B.B.A./Management of Information Technology, M.S. (p. 852)
- Division of Management Information Systems (p. 855)
  - Management Information Systems, B.B.A. (p. 861)
  - MIS for Business Majors, Minor (p. 863)
  - MIS for Non-Business Majors, Minor (p. 863)
  - Business Intelligence and Analytics, Undergraduate Certificate (p. 864)
  - Management Information Systems, B.B.A./Management of Information Technology, M.S. (p. 864)
  - Management of Information Technology, M.S. (p. 867)
  - Digital Technologies, Graduate Certificate (p. 867)
    - Graduate Electives (p. 868)
- Division of Marketing and Supply Chain Management (p. 868)
  - Healthcare Business, B.B.A. (p. 874)
  - Marketing, B.B.A. (p. 876)
  - Supply Chain Management, B.B.A. (p. 879)
  - Franchising, Minor (p. 881)
  - Healthcare, Minor (p. 882)
  - Marketing, Minor (p. 882)
  - Business of Healthcare, Undergraduate Certificate (p. 883)
  - Marketing, B.B.A./Management of Information Technology, M.S. (p. 883)
  - Supply Chain Management, B.B.A./Management of Information Technology, M.S. (p. 887)

Programs & Facilities

Business Communication Center

The Business Communication Center prepares students for the technology-delivered world. With one-on-one instruction from the center's friendly staff, Price College students learn valuable hands-on skills such as multimedia presentations, Web page design, video conferencing, public speaking, and digital imaging.

Tom Love Center for Entrepreneurship

The *Princeton Review* and *Entrepreneur* magazine ranked the center eighth in the nation at the undergraduate level. This speaks to the opportunities available to major or minor in Entrepreneurship and Venture Management for business or engineering students at the University of Oklahoma. The goals of the Tom Love Center for Entrepreneurship are:

- Create entrepreneurial-thinking students.
- Connect faculty, researchers and students to the entrepreneurial world through research, teaching and working labs.
- Provide OU alumni knowledge and resources for Oklahoma's business and entrepreneurial community to assist their growth.
- Start and grow businesses in the state of Oklahoma.
- Commercialize University of Oklahoma intellectual property.

The Center is located in Suite 1036, Price Hall (405) 325-3611.

Fixed Income Fund

The Fixed Income Fund experience exposes senior-level undergraduate students and MBA students to the intricacies associated with the management of portfolios that contain only bond-like financial instruments. The class is divided into teams of students. Students must make real-time decisions using the latest information on financial markets to select fixed income securities to include in the portfolio. The class is sponsored by BOK Financial Corporation, the parent company of the Bank of Oklahoma.

Honors Program

The Honors College offers special classes and sections of regular classes for academically superior students. Students in the Honors Program may graduate *cum Laude*, *Magna cum Laude*, or *Summa cum Laude*, depending upon their grade point average. For information on either of these programs, contact the director of the Honors College, or call (405) 325-5291.

First Fidelity Bank Integrated Business Core

Undergraduate students have the opportunity to enroll in a one-semester (12 hours) project-based program called the First Fidelity Bank Integrated Business Core (IBC), which provides both real-world experience and an integrated introduction to concepts in at least three business disciplines. IBC students gain experience by creating and managing an actual start-up company funded by a loan up to $5,000 and a hands-on community service project on behalf of a non-profit campus or community organization. Students have donated more than $1,000,000 dollars and more than 34,000 volunteer hours to charity, and the program has received local, regional and national acclaim.

Students who are participants in IBC:

- are responsible for mastering the concepts and terminology of each of the content courses: Marketing, Management and Legal Studies;
- work as "employees" of an assigned 20-member company which becomes the Entrepreneurship/Community Service Practicum. Here the students have the opportunity to apply the concepts from each of the core business disciplines while at the same time devoting time to their selected community service project;
- Students spend the first seven weeks developing a business plan;
- the plan is submitted to a loan committee which grants, denies or defers the loan application;
- Upon receipt of the loan students have six weeks to implement their business plan.

JCPenney Leadership Center

The Leadership Program of Price College is directed at those students who will become a significant force in the economic, political, social and moral development of our state and nation.

These students have leadership potential because they are academic achievers and have those personal characteristics that thrust them into various activities in which they assume leadership roles.

The college views these student leaders as a valuable resource whose potential should be developed fully for the benefit of themselves and society. These students will help the college fulfill its mission of transmitting knowledge about the continuing adaptation of organizations in a changing global business environment.

The primary objective of the program is to provide these students with opportunities for intellectual and scholastic enrichment, stimulating contact with business and the economic leaders in the nation, and the mutual challenge and benefits of association with a peer group of equally talented students. These opportunities will lead to an enhancement of the students' experiences at the University that will shape the course of their lives.

The three main components of the program include corporate views, fellowships and the Distinguished Speaker Series.

Corporate Views

Participants in this special program accompany executives in their normal work environment and experience firsthand the administrative responsibilities and management styles of successful business leaders. This daylong program significantly expands Associates' classroom educational experience by enhancing their awareness of proven leadership skills and broadening their understanding of actual corporate operations.

Fellowships

The JCPenney Fellowship Program is one of the Center's most exciting and productive avenues and adds greater value to the undergraduate educational experience of Leadership Associates. Each recipient receives a stipend to serve as either a research or training fellow to a Price College faculty mentor for one semester. Eligibility is limited to junior and senior associates. Applications and detailed information is available in the JCPenney Leadership Center.

Distinguished Speaker Series

The Price College of Business and the Kanaly Lecture Series hosts approximately four nationally respected leaders each academic year who have an Oklahoma connection — either through birth, residence, higher education, or business interest. The purpose of the series is to provide the opportunity to learn and grow from the accumulated experience and wisdom of this premier group of opinion leaders.

Student Support Center

The Student Support Center serves graduate students in the Michael F. Price College of Business. The value of the learning experience is expanded for graduate students by providing personal mentoring and career development resources.
Core resources provided to graduate students include:

- mentoring;
- executive visitation;
- career preparation; and
- internships — domestic and international.

AMOCO Business Information Resource Center

Discovery and transmission of knowledge requires information, whether that information is contained in the income statements and financial records of a large U.S. corporation, in profiles of corporate returns on

investments, in business trends among the states and regions of the country, or in international trade and investment patterns. Distributive technology — the desktop computers, the interlinked local area networks, the CD-ROM readers — is altering the costs and availability of information acquisition and dissemination, enhancing the potential for greater effectiveness and efficiency in dealing with information.

Price College has developed various "pockets" of expertise in the acquisition of information for instruction and research. The School of Accounting subscribes to the FASB Financial Accounting Research Service, the Center for Financial Studies and the College cooperate in the purchase of CRSP files that contain monthly and daily returns on NUSE, AMEX, and NASDAQ corporations; and the Center for Economic and Management Research subscribes to quarterly updates to the Citibase data system.

While we must rely on various "pockets" to acquire this information, we are limiting our potential for effective utilization of information in our present "distributive" organizational setting. By establishing one central place for the location and dissemination of these information sets, we can greatly enhance our effective use of information.

The AMOCO Business Resources Information Center (BRIC) supports the academic and research goals of Price College by serving as a centralized data repository and technical assistance resource for faculty and students. Individual and group instruction is provided to students and faculty in the use of database software applications and offers technical assistance and support in their use.

Data holdings include industry standard financial, economic and demographic databases obtained from state, federal, and commercial information services. The AMOCO BRIC also maintains a computer lab designed for instruction as well as routine use by students and faculty.

Center for Financial Studies

Price College, through its Division of Finance, has established the Center for Financial Studies. The mission of the Center is to support scholarly research and sponsor educational programs that will improve and share knowledge among finance students, executives and academicians.

The rapid changes occurring in the financial world make it imperative for those involved to be knowledgeable of the innovations, problems and opportunities prevailing in all sectors of the financial markets. The Center for Financial Studies will assume an important leadership role in this endeavor by directing its programs toward mid-and top-level finance executives and toward academicians with research and teaching interests in finance.

Center for MIS Studies

The Center for MIS Studies, an interdisciplinary center located in Price College, is a partnership between the University and business firms designed to share ideas on MIS topics of direct relevance and major concern to the business partners. Effective industry MIS programs require that businesses understand and utilize rapidly changing technologies and complex organizational policies, strategies and structures. Rapid changes of the Internet era, combined with the move toward outsourcing, makes keeping up exceptionally difficult for IS professionals. Costs of research, development, and training in this complex and dynamic field are high, and results are often disappointing.

The fundamental idea of the Center for MIS Studies is resource sharing — to share the knowledge, skills, and efforts of the University and the member firms in a framework that encourages innovation, quality and productivity. For questions, comments, or additional information, contact:

Center for Management Information System Studies
University of Oklahoma, Price College
307 West Brooks
Norman, OK 73019
Phone: (405) 325-0768
FAX: (405) 325-7482

Library

The Bizzell Memorial Library provides excellent facilities for research and instruction in business and economics. Students, teachers, researchers and the University community at large can research and gain access to materials in a variety of media and in numerous ways. State-of-the-art computer searches through national databases are possible through the University's participation in national library associations. The University is a member of the Research Libraries Group which provides on-line access to the premier libraries in the United States through the Research Libraries Information Network (RLIN). The University is also connected to another, much broader database through the Online Computer Library Center, Inc. (OCLC). In addition, the University has an extensive collection of books, periodicals, microform material, newspapers, trade journals and corporation annual reports. Subscriptions are maintained to various investment, insurance, tax, labor relations and other services which keep patrons in touch with current developments. The University is a designated repository for federal documents which are kept on the fourth floor of the library.

The Bass Collection in Business History

Although ours is a business civilization, relatively little has been done to assemble library materials in the area of business and management history in most American universities. One exception is the University of Oklahoma, which has a distinguished collection in this field, capable of serving not only undergraduate and graduate students, but research scholars throughout the nation.

Through the generosity of the late Harry W. Bass of Dallas, Texas, and the continuing support of the Bass Foundation, a comprehensive collection of books and periodicals in the areas of business and management history are available at the University of Oklahoma. Mr. Bass was a former student in the College of Business.

This distinguished collection of rare and current research materials is housed in a special suite of rooms on the fifth floor of the Bizzell Memorial Library. Dr. Daniel A. Wren is curator of the Bass Collection.

The Ronald B. Shuman Research Fellowship in Business History is designated for graduate and some undergraduate students to work under the direction of the curator of the Bass Collection. This fellowship is in the amount of $1,000 to be divided between two semesters.

Center for Economic and Management Research

The Center for Economic and Management Research conducts research in business and economics as well as in such diverse areas as energy, delivery of health services, quality of life in Oklahoma and human resources utilization and development. It also provides research support and data to the business community and to federal, state, and local agencies for use in planning, as well as providing a vehicle for directly relating classroom offerings and the research thrust of Price College to the problems faced by business and government.

CEMR also houses the Survey Research Center, which provides the capability for obtaining current information on the economy of the state and on the attitudes of Oklahomans toward various issues in Oklahoma. These data are presented in special reports for use by planners and decision makers in both business and government.

The Center maintains an extensive database and makes this information available to the public through its publications program that includes press releases, reports, a quarterly economic journal (the Oklahoma Business Bulletin) and the annual Statistical Abstract of Oklahoma. Current and historical economic and demographic information are also available via the Oklahoma Resources Integrated General Information Networks Systems (ORIGINS), an Internet accessible data access and retrieval system containing databases of economic time series.

Adams Hall

Adams Hall is currently the primary office and classroom building for Price College. It contains numerous classrooms, many of which are designed with tiered seating to increase eye contact and facilitate discussion. These case study rooms contribute to and stimulate the learning process.

Instruction and research are facilitated by the computer tools made available in our computer technology enhanced classrooms. Adams Hall currently supports multiple microcomputer labs.

Price Hall

Michael F. Price Hall, a $19 million, 55,000-square-foot addition to the east side of Adams Hall added nine new classrooms, a business communications center with a behavioral lab, four study rooms, three conference rooms, three Student Services offices, two large commons areas and a courtyard with outdoor seating.

Undergraduate Study

The undergraduate degree in business is designed to offer:

- Preparation for intellectual, political and cultural citizenship and leadership.
- A basic familiarity with facts, skills, techniques and attitudes that are relevant to business and management.
- An opportunity to develop a sense of historical perspective and understanding of the impact of the past upon the present and future.
- An intellectual discipline, "a way of thinking," about problems and problem solving or the decision-making process, including the ability to weigh values and form independent judgments.
- An in-depth exposure to a specific function or discipline.

General Information

Admission

To be admitted to the Michael F. Price College of Business, a student must first be admitted to the University of Oklahoma. Inquiries concerning admission to the University should be addressed to the Office of Admissions and Recruitment, 1000 Asp Avenue, Room 127, Norman, OK, 73019-4076.

Freshmen and transfer students who have not completed 24 semester hours with at least a 2.75 combined retention grade point average are automatically enrolled in University College upon their admission to the University of Oklahoma. **University College students may not enroll in upper-division (3000-level or higher) Business Administration courses.**

All students taking 3000-level or higher business courses meet the grade point average, course, and permission requirements.

Admission to an undergraduate program within a degree-recommending college at the University of Oklahoma (Norman campus) shall be based upon the requirements of the University of Oklahoma that are in effect at the time of a student's initial enrollment in any institution (including OU) in the Oklahoma State System of Higher Education.

Academic credit from any division of the University of Oklahoma — Norman campus, Health Sciences Center, OU-Tulsa or Professional and Continuing Studies — is considered resident credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU retention and cumulative grade point averages for purposes of admission or readmission to the University, and to the individual colleges within the University.

Non-Business Majors

Students not admitted to Price College may elect business courses subject to the prerequisites and minimum GPA requirements; however, business students will receive priority. Students from outside the College who seek academic advising on business course selections should inquire in the Price Academic Advising Services, Suite 1010 Price Hall.

Programs of Study

Students must complete the requirements outlined on the following pages for the degree and major chosen.

Bachelor of Business Administration Degree

Emphasis in this program has been placed on an educational rather than a training or vocational approach, although in certain areas, provisions for a limited amount of specialization have been made. The curriculum is designed to provide:

1. an extension and intensification of the cultural foundation begun in the secondary schools,
2. a comprehensive view of the general principles and procedures practiced in the business world, and
3. in the junior and senior years, a limited amount of professional education in certain specialized subjects.

With this degree program, a student must choose one of the following majors: accounting, economics, energy management, entrepreneurship and venture management, finance, general management, human resources management, international business, management information systems, marketing, or supply chain management.

Double Majors

Price College offers students the option of double majors. A double major consists of hours in the selected major and completion of specific requirements of the additional major. A double major will add to the required number of hours to complete a single major business degree. Only one degree will be awarded, however both majors will be listed on the student's transcript. Students who are not majoring in business may not double major in Price College. No single course may be used by a student to satisfy a major requirement in two majors.

Minors

Minors are offered to both students majoring in business and those majoring in subjects offered in other colleges. No single course may be used by a student to satisfy a major requirement and a minor requirement.

Undergraduate Certificate

The Undergraduate Certificate in The Business of Healthcare supports, among others, students who intend to pursue careers in healthcare such as physical therapy, pharmacy, nursing or medicine. These students only spend the first two or three years on the Norman campus.

The Price Academic Advising Services office offers academic counseling for all students in any area of business. Appointments may be made online at iAdvise.

Accelerated Program for Graduate Study in Business

This program is designed to provide foundational study in the functional areas of business while a student is pursuing his or her undergraduate degree. The designated coursework may be applied toward degree requirements in the master's-level professional degree programs offered through the Price College, as well as be used as electives to complete one's undergraduate degree. Students in any field of study in their junior or senior years may apply for admission to the accelerated program. Because accelerated program students will be enrolled with graduate students in graduate-level classes (5000 or above), admission to the accelerated program will be highly selective and performance closely monitored.

The professional degree programs of Price College assume no prior training in either business administration or related disciplines. Accelerated Program students must designate one of the professional degree programs in business administration at the time of application. The options include the Master of Business Administration and Master of Accountancy.

Students admitted to the Accelerated Program will be provided a plan of study that considers the student's academic background and the number of elective hours remaining in the student's undergraduate program. The plan of study must be approved for both the student's undergraduate degree and the Accelerated Program. Upon receipt of an undergraduate degree, accelerated program students in good standing are admitted to graduate study in a master's-level professional degree program offered through the College of Business.

Undergraduate students who have completed 90 credit hours or more may be admitted to the Accelerated Program. After 75 hours of undergraduate study, students interested in the Accelerated Program should take the Graduate Management Admission Test (GMAT). The GMAT is offered by the Educational Testing Service of Princeton, NJ "on demand" at various sites in Oklahoma and throughout the world. Only students with a cumulative grade point average at the University of Oklahoma of at least 3.00 and who receive a satisfactory score on the GMAT will be **considered** for admission to the Accelerated Program. The grade point average must be based on at least 60 credit hours taken at the University of Oklahoma. Admission is determined by the grade point average, the GMAT scores, and evidence of maturity, motivation and leadership potential as indicated by personal interviews and letters of recommendation. Though the admission decision may be made prior to the completion of 90 undergraduate credit hours, acceptance is contingent upon continued performance at a high level.

Choice of Degree Program

(The rules and regulations of this catalog become effective beginning summer term, 2010.)

- Transfer students are required to meet the degree requirements and regulations of the degree program that is in effect at the time of their first enrollment in the state system provided they complete the work for a degree within a maximum of seven years. If the work for a degree covers a period longer than seven years, students must adopt a degree program within seven years of the current requirements. (Example: The 2009–2010 requirements may be in effect only until the end of the 2016 school year [Spring, 2016].)
- Resident students shall be governed by the degree requirements and regulations in effect at the time of their initial enrollment at the University of Oklahoma provided they complete the work for a degree within a maximum of seven years. If work for a degree covers a period longer than seven years, students must adopt a degree program within seven years of the current program. (See example in preceding paragraph.)
- Students may adopt any later degree program which becomes effective while enrolled at the University of Oklahoma if they report this change to the Price Academic Advising Services Office, Suite 1010 Price Hall.
- Credit in the major which is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the major division.

Academic Advisement

Price Academic Advising Services Office

Students in Price College or business majors in University College may receive information and assistance in Suite 1010 Price Hall. Full-time academic counselors maintain records on all undergraduate business majors and provide them with information concerning admission, degree audits, degree requirements, contract and stop-out.

Academic Advisement

Career and academic advisement about specific course information is available from the faculty in the major divisions.

The responsibility for meeting all graduation requirements lies with the student.

Credit Hour Load

To be considered full time, an undergraduate student must be enrolled in at least 12 hours in a fall or spring semester and six hours in a summer session. The recommended maximum credit hour enrollment for a regular semester according to the student's cumulative grade point average is as follows:

Less than 2.50 — 16 hours maximum;
2.50–3.00 — 17 hours maximum;
3.00–3.50 — 18 hours maximum;
3.50–4.00 — 19 hours maximum.

Enrollments of 20 hours or more in a fall or spring semester and 10 hours or more in a summer session, must be approved by the Director in the Price Academic Advising Services Office, Suite 1010 Price Hall. Students requesting overload enrollments must have earned a 3.50 GPA in both OU and combined areas.

Course Levels

Undergraduate students are not eligible to enroll in business courses numbered 5000 and above. The only exceptions to the above are graduating seniors who have petitioned the Graduate College to receive graduate credit for the course and whose petitions have been approved.

Graduate-level business courses may not count toward the undergraduate degree; however a student may petition to count non-business courses.

Scholastic Regulations

Attendance

When absences seriously affect a student's classwork, the instructor will report this fact to the Office of Admissions and Records. The information will also be forwarded to the Price Academic Advising Services Office.

Computation of Grade Point Averages

The resident grade point average includes all courses taken at the University of Oklahoma (including correspondence and extension work) that apply toward a degree in Price College. Academic credit from any division of the University of Oklahoma — Norman campus, Health Sciences Center, OU courses taught in Tulsa or Continuing Education — is considered credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU retention and cumulative grade point averages for purposes of retention.

The transfer grade point average includes all courses transferred from other institutions that are accepted by the University of Oklahoma.

The combined retention grade point average is computed with both transfer and OU credits. Both the resident and overall GPA's consist of three areas: the major, upper-division business, and overall degree. Minimum retention grade point averages of 2.50 are required in all of these areas to be eligible to graduate.

Contract and Enrollment Stops

A minimum grade point average of 2.50 OU retention and combined retention is required for good standing in the Michael F. Price College of Business.

A student who has an enrollment stop for poor scholarship is not eligible to be considered for re-enrollment until after at least one semester has elapsed following the stop. At this time, a student who is stopped from Price College is eligible to apply for readmission. An appeal for readmission, however, does not guarantee automatic readmission. Each request is considered on its individual merit. These students will have one semester to either rectify all deficiencies or meet the conditions for continued enrollment. Those failing to do so will be stopped again from the College for a period of three calendar years after which they may apply for readmission to the College.

All applications for readmission must present clearly documented evidence indicating a high probability the student will successfully complete the B.B.A. degree program. The application will be considered based upon standards of the Petition Committee of the College or such other committee as the dean might designate. If readmission is granted, it will be subject to such terms and conditions as the committee may prescribe. Some students who are stopped out from Price College may still be eligible for continued enrollment under the University retention policy. These students may continue without interruption only if they are accepted by a college other than the Michael F. Price College of Business.

Degree Information

General Degree Information

Residency Requirement

Candidates for the BBA degree must complete their last 30 hours as resident students at the University of Oklahoma. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, nine of the last 60 hours may be taken at another university or by correspondence from OU. Students must take a minimum of 24 hours of upper-division business courses in residence for the Bachelor of Business Administration degree. Students must earn 60 hours from a four-year institution.

- Any study abroad program will count toward Price College residency (51 of the last 60 hours or the last 30 hours at OU).
- Students who study abroad will still be required to meet OU and State Regents residency (15 of the last 30 hours at OU).

Transfer Credit

- A maximum of 62 hours will transfer for credit from a two-year college.
- Credit from a two-year college will be accepted to meet lower-division requirements and free electives only.
- A maximum of six hours of transfer work will apply toward the major.

Repeated Courses

Students may not repeat a course in which they earned a grade of A or B, unless the course is one in which there is a change of subject matter (e.g., OSLEP, Independent Study).

If a student repeats a course at the University of Oklahoma for any purpose, the grade received the last time the course was taken becomes the grade for that course. All previous attempts are included in computing grade point averages, but credit for the course is counted only once toward the hours required for the degree. The exception is if it falls in the University repeat policy which affects the retention and graduation grade point averages.

Pass/No Pass Option

A maximum of 12 semester hours, not to exceed one course per semester, may be taken on a pass/no pass basis. This option may be applied to only social science electives and non-business free electives.

Second Bachelor's Degree

A student may earn only one undergraduate business degree from an AACSB accredited institution. Students with business degrees from non-AACSB accredited institutions may petition the College for permission to pursue a BBA. The following conditions must be met:

- At least two semesters must be taken in residence at OU.
- At least 30 additional hours must be completed in the college of the second degree. The 30 hours must be in addition to the total number of hours completed by the student for the first degree.
- At least 24 hours of the 30 must be 3000-4000 level business courses.

If a student is pursuing concurrent degrees in two colleges:

- Both degrees must be completed and certified in the same semester.
- A graduation application must be filed for each degree. Two diplomas will be awarded.
- At least two semesters must be taken in residence at OU.
- At least 30 additional hours must be completed beyond the degree that requires the least number of hours.
- At least 24 hours of the 30 must be 3000-4000 level business courses.

Correspondence Courses

Limitations on Accepted Courses

- A **combined** maximum of 60 hours credit by correspondence courses, extension courses, and advanced standing examinations may be applied to the Bachelor of Business Administration degree with the following constraints:

- A combined maximum of 32 hours of correspondence and extension work.
- Credit is given for all correspondence work except for courses presented for the major. Correspondence study may be taken in the major to be used only in the computation of the major grade point average.
- A maximum of six hours from the 15 hours of upper-division business core courses may be taken by correspondence.
- Correspondence work transferred to the College is subject to the same restrictions for all transfer work. Upper-division business courses completed through correspondence and transferred to the College are subject to departmental approval.

Enrollment Regulations

- Students may enroll in correspondence courses by obtaining authorization from Price Academic Advising Services and by contacting the Center for Independent and Distance Learning, 1600 S. Jenkins, Room 101, Norman, OK 73072-6507. Phone: (405) 325-1921.
- A student may enroll in a maximum of six hours of correspondence at one time.
- If students are concurrently enrolled in correspondence and in-residence credit, the total number of hours for one semester may not exceed the recommended maximum shown under Credit Hour Load based on their overall grade point average.
- A student must secure written permission from a counselor in the Price Academic Advising Services (1010 Price Hall) on the correspondence application form.

Advanced Standing Examinations

Students who feel they have a sufficient knowledge of the subject matter of a course offered by the University may take an advanced standing examination for undergraduate credit in the course.

A maximum of 60 hours of credit by advanced standing examinations may apply to the Bachelor of Business Administration degree. Students who have received a grade in any course, other than a W, may not subsequently take the same course by advanced standing.

The Center for Independent and Distance Learning administers advanced standing examinations by individual appointment for credit in courses offered by Price College.

Graduation

Application

Students must apply for the graduation during their last semester.

Distinction and Special Distinction

Students may graduate with Distinction if they have an overall and OU cumulative grade point average (including the last semester's grades) of at least 3.50. Graduation with Special Distinction requires at least a 3.75 overall and OU cumulative grade point average. To be eligible for Distinction or Special Distinction, 51 of the last 60 hours must be taken at the University of Oklahoma. Students who have been found responsible for academic misconduct under the Academic Integrity Code are not eligible to graduate with Distinction or Special Distinction.

Graduate Study

Admission to each of the graduate programs is available to students with demonstrated aptitude for, and interest in, graduate business education. Previous study in business is not required. Admission decisions are based on a number of factors, including: undergraduate/graduate grade point average, GMAT score, TOEFL (and TSE, if necessary) score, employment history, letters of recommendation and the applicant's personal statement.

Admission recommendations are made on a rolling basis once all application materials are received. It is the student's responsibility to ensure application materials are received on a timely basis.

Refer to the Graduate tabs within each of the Price College of Business academic units' pages of this catalog for information concerning graduate work.

- John T. Steed School of Accounting (p. 789)
- Tom Love Division of Entrepreneurship and Economic Development (p. 805)
- Division of Finance (p. 816)
- Division of Management Information Systems (p. 855)

Master of Business Administration

The Master of Business Administration (p. 784) program at the University of Oklahoma has continued to meet accreditation standards since it was originally established by the American Assembly of Collegiate Schools of Business in 1963.

The MBA program is designed to give the broad perspective needed to manage an overall enterprise, while allowing sufficient flexibility to gain in-depth preparation in an elected area of concentration. The program provides familiarity with the functional areas of business, the necessary tools for management decision making, and the environment in which organizations operate. The MBA program is offered in both a full-time and part-time format.

Full-Time MBA (p. 784)

The full-time MBA is a 49-credit hour, degree. All courses are graduate level. The full-time program is 16 months in length and offers its required courses during the day on the Norman campus. Students in the full-time program will also complete two zero-credit hour courses in Professional Development as part of their curriculum.

Professional MBA (p. 784)

The Professional MBA program is a 37-hour degree program designed for students who work full time. Courses in this program are held in the evenings in Oklahoma City at the OU Health Sciences Center. This program is flexible to allow students to progress toward the MBA degree at an individual pace. While students typically complete the program in approximately 24 months, they have up to five years to earn their MBA. Students are admitted to the Professional MBA program each fall.

Prerequisites for the MBA Programs

While applicants are not required to have previous study in the field of business, they are expected to possess a basic understanding of analytical techniques (including matrix algebra, calculus, and computer usage), and a facility for expressing ideas precisely and coherently. All MBA courses are graduate-level and do not require undergraduate preparation.

Executive Master of Business Administration

The Executive Master of Business Administration in Aerospace & Defense (p. 785)(EMAD) delivers business management education to the growing Aerospace and Defense industry. This executive master's degree seeks to enhance and expand the career educational opportunities for working professionals in the Aerospace & Defense industry (A&D) with the State of Oklahoma, the U.S., and the broader global community by providing a unique and high-level educational

experience focused on fundamental and advanced topics in the field of business specifically tailored for A&D.

The Executive Master of Business Administration in Energy (p. 786) is designed to create current and future leaders in the energy industry. The program offers business fundamentals specifically customized for energy professionals, a global perspective on energy, and executive career coaching to enhance leadership skills.

Graduate Certificates Administrated by the Price College of Business

- Executive Management in Aerospace and Defense Graduate Certificate (p. 786)
- Foundations of Business Graduate Certificate (p. 787)

Dual Degree Programs

In recognition of the strong demand for interdisciplinary expertise in many settings, Price College, in cooperation with other academic units within the University, offers several dual-degree programs. While the dual-degree programs require less total hours than pursuing the degrees separately, applicants must be admitted to each program independently. Admission, retention, and degree requirements are maintained by the separate colleges.

Honors and Awards

The Delta Sigma Pi Key

Each year, Delta Sigma Pi awards the Delta Sigma Pi Scholarship Key to the graduating senior with the highest academic average for the four years of study in business administration.

The Oklahoma Society of Certified Public Accountants Award

Medals are awarded annually to the three outstanding graduating seniors majoring in accounting. The award is based on academic performance in accounting courses.

John F. Y. Stambaugh Awards

Plaques and cash awards are bestowed annually on the outstanding accounting senior and junior, based on overall academic and extracurricular performance.

The Floyd Lamar Vaughan Memorial Award

The student chapter of the American Marketing Association bestows this annual award for excellence in marketing studies to an outstanding Price College of Business student.

The Julian J. Rothbaum Award

Given annually to a senior student majoring in energy management.

The Kenneth Baker Horning Memorial Award

An annual award given for excellence in business writing.

The Oklahoma City Sales Marketing Executives Awards

Keys and awards are bestowed annually for excellence in marketing and sales studies.

The Oklahoma Chapter Of The Financial Executive Institute Of America Award

A key is awarded annually to an outstanding student majoring in accounting.

The Horace B. Brown Case Study Award

Awarded annually by the Division of Marketing to the undergraduate student (or team) who has made the most significant contribution in classes taught by the case method. The award consists of a certificate and cash award.

The Entrepreneurship Institute Awards

Separate awards are made to graduate and undergraduate students for the best plan involving entrepreneurial activities. The award includes a certificate and cash award.

Scholarships, Fellowships and Loans

The University of Oklahoma has many general financial aid programs, including the following: Perkins Loans, Supplemental Educational Opportunity Grants, PELL, Work-Study, Stafford Student Loans, institutional short-term loans and Lew Wentz Foundation Loans. Students interested in applying for any of these programs should contact the Student Financial Center, 1000 Asp Avenue, room 105, Norman, OK 73019-4078.

In addition, Price College offers a wide variety of scholarships, fellowships, grants, loans, and research and teaching assistantships. Contact the Graduate Programs Office, Michael F. Price College of Business for more information.

College of Business Administrated Programs

The Economics, Bachelor of Business Administration (p. 779) shares with the discipline of economics some of the same conceptual concerns, but its focus is on the business firm and its well-being. Economics is a social science focusing on the economic well-being of society.

The Economics, Bachelor of Business Administration/Master of Science in Management Information Technology (p. 781) program is a great opportunity for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics.

Price College offers a Minor in General Business for Non-Business Majors (p. 781).

The Master of Business Administration (p. 784) cohort-based program enhances teamwork and collaboration through designed case studies and interactive learning. The program offers an array of industry specializations, certificates, summer internships, and dual-degree opportunities so that students' educational experiences are uniquely tailored to their career goals.

The Professional Master of Business Administration (p. 784) program is designed for both rising and seasoned professionals in the Oklahoma City area looking to advance their careers.

The Executive Master of Business Administration in Aerospace & Defense (p. 785) (EMAD) delivers business management education to the growing Aerospace and Defense industry. This executive master's degree seeks to enhance and expand the career educational opportunities for working professionals in the Aerospace & Defense industry (A&D) with the State of Oklahoma, the U.S., and the broader global community by providing a unique and high-level educational experience focused on fundamental and advanced topics in the field of business specifically tailored for A&D.

The Executive Master of Business Administration in Energy (p. 786) program is designed to create current and future leaders in the energy industry. The program offers students with the business fundamentals specifically customized for energy professionals, a global perspective on energy, and executive career coaching to enhance their leadership skills.

The Executive Management in Aerospace and Defense Graduate Certificate (p. 786) delivers business management education to the growing Aerospace/Defense industry. The graduate certificate is available to managers, executives, and employees in a wide variety of fields who work in the Aerospace/Defense industry. The certificate provides additional management education for these professionals who need specific skills using a flexible format, enabling students to tailor the certificate to their own needs, as well as those of their employer. The program prepares them for careers at the interface of managerial and leadership positions in aerospace and defense organizations, consulting companies, government agencies, and defense contractors.

The Foundations of Business Graduate Certificate (p. 787) is offered for any OU graduate or professional student.

The Business Administration, Ph.D. (p. 787) is a high-quality program stressing solid preparation, collaborative relationships with faculty, support for research and professional travel, and strong placements. This program provide students with the necessary knowledge, training, and resources to pursue successful careers in research and teaching that expand the frontiers of knowledge in business disciplines.

Courses

B AD 1000 Passport to Success I 0 Credit Hours
Prerequisite: Declared Business Majors Only. Collection of curricular, co-curricular and extracurricular activities that enable students to succeed in the workplace regardless of major within Price College of Business. Students are required to earn a total of 40 "milestones" to successfully graduate from Price College. At least five and no more than seven milestones should be earned each semester. Milestones are chosen from an approved list. (F, Sp)

B AD 1001 Personal Computing Productivity Tools 1 Credit Hour
Computer-assisted introduction to personal computing technology for spreadsheets, word processing, and presentation software. Coursework is presented online but exams must be taken on Norman Campus. (F, Sp, Su)

B AD 1010 Passport to Success II 0 Credit Hours
Prerequisite: Degree Candidacy. Collection of curricular, co-curricular and extracurricular activities that enable students to succeed in the workplace regardless of major within Price College of Business. Students are required to earn a total of 40 "milestones" to successfully graduate from Price College. At least five and no more than seven milestones should be earned each semester. Milestones are chosen from an approved list. (F, Sp)

B AD 2091 Business and Professional Basics I 1 Credit Hour
Prerequisite: Declared Business major. Introduces students to the professional world of business. Emphasizes important aspects such as business culture, communications, ethics, social responsibility and business skills development. Prepares students for a professional future and to identify and address strengths and weaknesses for earning that first job. Includes Career Services registration, creation of a usable resume, and exploration of people skills necessary for success. (F, Sp)

B AD 2110 Topics in Business for Non-Majors 1-3 Credit Hours
1 to 3 hours. May be repeated with change of content; maximum credit six hours. Course is designed to familiarize and present business related topics to majors in other disciplines of study. Topics will vary and may encompass all divisions within the Price College of Business. (Irreg.)

B AD 2113 Introduction to Business I 3 Credit Hours
Designed for non-Business majors. Gives each student a comprehensive introduction to the study of business. Focuses on creation and maintenance of a long-term strategic vision for the firm. Introduces and builds an understanding of the functional business areas such as management, marketing, accounting, finance, and information systems. The concepts learned are essential in managing business activities in an increasingly competitive business world. (F, Sp)

B AD 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

B AD 3013 Integrated Business Core Practicum 3 Credit Hours
Prerequisite: junior standing; Corequisite: enrollment in Integrated Business Core (L S 3323, MGT 3013, MKT 3013). Students will apply concepts from the corequisite courses to their own start-up business ventures and to community service projects. (F, Sp)

B AD 3091 Business & Professional Basics II 1 Credit Hour
Prerequisite: B AD 2091; Student must be approved for degree candidacy by Price College; junior standing. An immersive course designed to explore areas of professional development that will help lead students on a path to a successful career. As an accompaniment to BAD 2091-Business and Professional Basics, this course is designed to further explore areas that will help you, the student, become a more successful, well-rounded business professional as you seek internships and full-time job placement. (F, Sp)

B AD 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

B AD 3513 International Business 3 Credit Hours
Prerequisite: student must be approved for degree candidacy in the Price College of Business. The nature and economic role of the multinational corporation including the impact of legal, political, educational, sociological, and cultural variables upon firm performance and managerial activity; case studies illustrate managerial, marketing, financial and accounting activities projected across national boundaries. (F, Sp)

B AD 3700 Internship in Business Administration 1-3 Credit Hours
1 to 3 hours. Prerequisite: student must be approved for degree candidacy by Price College; permission showing approval from the designated faculty or advisor overseeing internships for credit. . (F, Sp, Su)

B AD 3710 Topics in Business Administration 1-3 Credit Hours
1 to 3 hours. Prerequisite: student must be approved for degree candidacy in Price College of Business. May be repeated; maximum credit nine hours. Permits students to study topics in business administration not included in standard course offerings. Subject of course will vary. (F, Sp, Su)

B AD 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted honors candidate to study materials not usually presented in regular courses.(F, Sp, Su)

B AD 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

B AD 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program; junior standing. May be repeated; maximum credit six hours. Independent research on special projects. (F, Sp)

B AD 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

B AD 4013 Business Strategy and Policy 3 Credit Hours
Prerequisite: senior standing and completion of all other College of Business core courses. Administrative decision making with emphasis on analyzing business problems, formulating policies and implementing plans for action; comprehensive cases provide the opportunity to study the proper interrelationships among production, finance, marketing and the many other functions involved in managing a business enterprise. Should be taken in student's final semester. (F, Sp, Su) [V].

B AD 4710 Special Problems in Business Administration 1-3 Credit Hours
1 to 3 hours. Prerequisite: junior standing and permission. May be repeated; maximum credit six hours. Permits students to study topics in business administration not included in standard course offerings. Subject of course will vary. (F, Sp, Su)

B AD 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

B AD 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

B AD 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

B AD 5001 Quantitative Methods and Modeling I 1 Credit Hour
Prerequisites: graduate standing; departmental permission. Review of important mathematical concepts used in business decision making (emphasis on problem solving). Spreadsheets are used as the principal device for building models. The course covers concepts in the effective spreadsheet design and use. Through development and usage of specific spreadsheets, students will become well-versed in verbalizing, visualizing, forming equations, and calculating answers to key types of business problems. (Irreg.)

B AD 5010 Foundations of MBA Success 0 Credit Hours
Prerequisites: departmental permission; graduate standing; majors only. This course provides an orientation to the Price MBA program, and is an essential ingredient for succeeding in the program and beyond. (F)

B AD 5101 MBA - Professional Development 1 Credit Hour
Prerequisite: admission to MBA program. Stresses professional development skills. Designed to prepare students for their professional careers and the job search process in particular. Topics include: resume writing, job search and interview, negotiation skills, business etiquette, career decisions, and project and career management. (F)

B AD 5102 Managerial Economics 2 Credit Hours
Prerequisites: graduate standing; departmental permission. Microeconomic concepts and analysis as used in managerial decision-making with emphasis on marginal analysis, comparative advantage, resource allocation, opportunity cost, demand and supply, elasticity, economic efficiency, price discrimination, welfare analysis, production and cost functions, productivity, market structures, externalities and public goods, game theory, information asymmetry, market signaling, and government regulation of anti-competitive behavior. (Irreg.)

B AD 5112 Global Economics 2 Credit Hours
Prerequisite: graduate standing and Economics 5102. Macroeconomic analysis of the global environment of business and its impact on management decision making. The course analyzes the extent, character, and consequences of globalization with emphasis on how any economy operates in the aggregate to affect real output, unemployment, the price level, interest rates, business cycles, economic growth, foreign exchange rates, trade patterns, international financial flows and foreign investment through its fiscal, monetary, and exchange stabilization and trade policies. (Irreg.)

B AD 5122 Quantitative Analysis I 2 Credit Hours
Prerequisite: Graduate standing and departmental permission. This course examines key probability and applied statistical concepts. General course objectives are: 1) enhanced Excel modeling skills; 2) understanding and use of descriptive statistics; 3) basics of probability theory; 4) use and interpretation of various probability models; 5) ANOVA; and 6) regression analysis. Microsoft Excel will be used to illustrate many of these topics. (Irreg.)

B AD 5162 Mapping your Career: Professional Development for Professional MBAs 2 Credit Hours
Prerequisite: admission to the Professional MBA program. Stresses professional development skills and leadership development. Designed to prepare students for their professional careers and leadership roles within the industry. Topics include: resume writing, job search and interview, negotiation skills, business etiquette, career decisions, and project and career management. (Irreg.)

B AD 5172 Business, Government and Society 2 Credit Hours
Prerequisite: graduate standing, admission into Business graduate program and department permission. Within the study of business, emphasis is placed upon market competition while little attention is paid to "non-market" conditions. Examples of non-market issues include: legislation, lawsuits, etc. Non-market conditions are often reviewed as external events having limited effect upon the strategies of the firm. This course seeks to integrate these concepts/ demonstrate the importance of strategically managing these issues. (Su)

B AD 5182 Quantitative Analysis II 2 Credit Hours
Prerequisite: Graduate standing, departmental permission, and B AD 5122. This course expands treatment of multiple regression analysis and pursues other models and analytical techniques for actionable managerial decision making. Data analysis techniques in the context of Business Intelligence are covered. Specific techniques include multiple regression models and implications of violation of classical assumptions, basic forecasting techniques, linear programming, and optimization and simulation techniques for decision support. (Irreg.)

B AD 5201 MBA - Professional Development II 1 Credit Hour
Prerequisite: B AD 5101. This course will enable students to develop critical skills needed to identify, prepare for, and pursue a post MBA career. The course will focus on real-world and practical aspects of the business arena. Students will interact with key business leaders representing a variety of industries and functional areas. (Sp)

B AD 5490 Readings in Business Communication and Business Administration 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission. May be repeated; maximum credit 12 hours. Preparation and submission of a research report on an assigned comprehensive topic relating to the business enterprise or to its ethical environment. (F, Sp, Su)

B AD 5812 Global Business Experience 2 Credit Hours
Prerequisite: graduate standing and department permission. The course will focus on a study-abroad experience in a specific country. Students will have in-class instruction prior to and during their trip. Students will visit local and U.S. businesses; interact with and governmental leaders; participate in cultural events and experience local customs and culture; analyze cases involving the country; and, complete a written report. (Irreg.)

B AD 5822 Business Consulting Practicum 2 Credit Hours
Prerequisite: graduate standing and department permission. This course applies the "Design Thinking" approach, which relies on rapid action followed by interaction and then reflection, to business consulting projects. It offers an immersive experience to students by using a hands-on, iterative approach to collaboratively solving real world business problems, and may include developing innovative products, processes and services. (Sp)

B AD 5832 Applied Field Project 2 Credit Hours
Prerequisite: Graduate standing or department permission. This semester-long course will provide experiential learning in a student's area of specialization and thereby enable them to apply their academic knowledge to real world contexts. Students specializing in different academic areas will be matched with internships in those areas. (F)

B AD 5902 Strategic Management 2 Credit Hours
Prerequisite: graduate standing and permission of the department. The study of management decisions and actions to improve an organization's competitiveness in global business environments. Uses a variety of pedagogies to integrate strategies. Students develop skills to formulate, implement, and evaluate organizational strategies in rapidly changing environments. This course is an integrative/cross-functional course. (F, Su)

B AD 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

B AD 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

B AD 5973 Seminar 3 Credit Hours
Prerequisite: graduate standing, permission (Director-CBA Graduate Programs). May be repeated with change of topic; maximum credit nine hours. A seminar for graduate students with topics to be announced each time the course is offered. (F, Sp, Su)

B AD 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

B AD 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

B AD 6243 Applied Univariate Statistics 3 Credit Hours
Prerequisite: Ph.D. standing or permission of instructor, permission (director-CBA graduate programs). Probability, algebra of expectations, random sampling, sampling distributions, point and interval estimation, tests of hypotheses, parametric and nonparametric, sampling methods, survey design, general linear model, computer applications, statistical analysis system. (F)

B AD 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

B AD 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

B AD 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. (F, Sp, Su)

B AD 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

B C 2813 Business Communications 3 Credit Hours
Prerequisite: Business majors and students enrolled in approved degree programs or by permission of Price College advising; ENGL 1213 or EXPO 1213 or equivalent. Introduces the strategies, processes, and resources necessary for writers in business and professional contexts. Students practice informative and analytical business genres while gaining expertise in research, writing, and revision. (F, Sp, Su)

B C 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

B C 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

B C 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

B C 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

B C 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

EMAD 5302 Accounting in Aerospace and Defense 2 Credit Hours
Prerequisite: Graduate standing, departmental permission, and admission to the Executive Management in Aerospace/Defense graduate certificate program. This course will create a foundation for understanding accounting and financial management in the Aerospace and Defense (A&D) industry, including performance measurement and budgeting. This course is intended to provide students with a working knowledge of A&D financial statements, including preparation and analysis. (Irreg.)

EMAD 5312 Information Technology and Cyber Security in Aerospace and Defense 2 Credit Hours
Prerequisite: Graduate standing, departmental permission, and admission to the Executive Management in Aerospace/Defense graduate certificate program. Information technology and cyber security are crucial in managing a business in the aerospace and defense (A&D) industry. This course will provide a basic understanding of the technical and management aspects of data communications, networking infrastructure, and cyber security concepts for A&D. (Irreg.)

EMAD 5322 Managing Supply Chain and Logistics in Aerospace and Defense 2 Credit Hours
Prerequisite: Graduate standing, departmental permission, and admission to the Executive Management in Aerospace/Defense graduate certificate program. Supply chain and logistics are crucial in the aerospace and defense industry. A&D firms are attempting to improve their competitive positions by managing the flow of raw materials, work-in-process inventories, and finished goods. This course covers managing the supply chain that plans, sources, makes, and delivers an A&D organization's goods and/or services, from suppliers of raw materials to customer. (Irreg.)

EMAD 5332 Legal Environment for Aerospace and Defense 2 Credit Hours
Prerequisite: Graduate standing, departmental permission, and admission to the Executive Management in Aerospace/Defense graduate certificate program. This course examines aerospace and defense (A&D) industry contract vehicles and contract performance management, as well as regulation management and federal statutory law. Students are introduced to the legal and ethical environment of A&D business. The course provides necessary background on traditional A&D business law topics, then examines A&D federal contracting. (Irreg.)

EMAD 5342 Project Management for Aerospace and Defense 2 Credit Hours
Prerequisite: Graduate standing, departmental permission, and admission to the Executive Management in Aerospace/Defense graduate certificate program. This course develops the knowledge, skills, tools, and techniques to initiate, plan, execute, monitor, and control activities related to meeting A&D project requirements. It focuses on the theoretical foundations and practical applications of project management along with the IT tools to support project planning, budgeting, scheduling, cost analysis, resource leveling/control, and human resource management in A&D organizations. (Irreg.)

EMAD 5352 Global Aerospace and Defense Strategy 2 Credit Hours
Prerequisite: Graduate standing, departmental permission, and admission to the Executive Management in Aerospace/Defense graduate certificate program. This course develops an innovative mindset to deal with global complexity, barriers to international trade, and human resource challenges. Students are provided with the evidence, concepts, and models for understanding company performance in a global world and the issues facing executives in the early 21st century. (Irreg.)

EMAD 5362 Field Project in Aerospace & Defense (Analysis) 2 Credit Hours
Prerequisite: Graduate standing, departmental permission, and admission to the Executive Management in Aerospace/Defense graduate certificate program. This course provides experiential learning in the aerospace and defense industry by having students apply knowledge from the classroom and work experience to analyzing problems facing A&D organizations. Field projects will deal with scoping the problem under study, structured analysis of the problem including data collection from internal and external sources, and development of recommendations, solutions, and timeline for implementation. (Irreg.)

EMAD 5372 Field Project in Aerospace & Defense (Implementation) 2 Credit Hours
Prerequisite: Graduate standing, departmental permission, admission to the Executive Management in Aerospace/Defense graduate certificate program, and B AD 5362. This course provides experiential learning in the aerospace and defense industry by having students apply their knowledge from the classroom and their work experience to implement solutions and recommendations developed in B AD 5362 or those provided by the client organization. They will also include the development of a prototype, a pilot implementation of the solutions, and outcome testing. (Irreg.)

EMAD 5382 Quantitative Methods & Models for Aerospace & Defense 2 Credit Hours
Prerequisite: Graduate standing and departmental permission, or admission into the Executive Master of Business Administration in Aerospace & Defense program. This course focuses on understanding and applying quantitative methods and models in the context of Aerospace & Defense (A&D). The course content is organized around three modules: summarizing quantitative data, relating and comparing data, and predicting outcomes based on sample data. The topics covered in these modules include descriptive statistics, associative statistics, regression, multiple regression, and inferential statistics. (Irreg.)

EMAD 5392 Organizational Behavior in Aerospace & Defense Organizations 2 Credit Hours
Prerequisite: Graduate standing and departmental permission, or admission to the Executive Master of Business Administration in Aerospace & Defense program. This course deals with the need for managers to understand behavior in organizations and the challenges they face. It discusses individual differences, employee motivation, and effective job design, and how organizations should select, retain, and evaluate employees. The course discusses group dynamics, team management, effective communication, managing conflict, employee stress, and career management issues. (Irreg.)

EMAD 5402 Aerospace and Defense Marketing Fundamentals 2 Credit Hours
Prerequisite: Graduate standing and departmental permission, or admission into the Executive Master of Business Administration in Aerospace & Defense program. The traditional role of marketing management is enlarged to include the development, implementation, and control of marketing strategies in the aerospace/defense organization. Emphasis is on the strategic marketing process in the dynamic aerospace/defense business environment. Strategic marketing decisions, analysis, and issues are integrated with the goal of achieving customer satisfaction to gain a sustainable competitive advantage within the aviation industry. (Irreg.)

EMAD 5412 Innovation and Entrepreneurship in Aerospace & Defense 2 Credit Hours
Prerequisite: Graduate standing and departmental permission, or admission into the Executive Master of Business Administration in Aerospace & Defense program. This course introduces skills and techniques that enable the development of innovative and entrepreneurial strategies in aerospace and defense. We also evaluate approaches to developing an innovative, entrepreneurial culture in environments where science- and technology-related activities are critical for effective operations. The course will analyze the challenges posed by complex organizations and highlight methods to deal with them. (Irreg.)

EMAD 5422 Lean Six Sigma Tools for Aerospace & Defense 2 Credit Hours
Prerequisite: Graduate standing and departmental permission, or admission to the Executive Master of Business Administration in Aerospace & Defense program. The course introduces the fundamental Lean Six Sigma concepts within a business organization. It covers the basic concepts within Six Sigma and Lean techniques, and introduces tools for measurement and process improvement metrics in organizations through the DMAIC process. The course has a strategic foundation in which we review the strategic use of techniques, ensuring a positive result upon implementation. (Irreg.)

EMAD 5432 Advanced Financial Management in Aerospace & Defense 2 Credit Hours
Prerequisite: Graduate standing, EMAD 5302 and departmental permission, or admission into the Executive Master of Business Administration in Aerospace & Defense program. This is a comprehensive course in corporate financial management and analysis. The course builds on the main concepts of the core Accounting course (EMAD 5302). The primary objective is to develop the skills necessary to value firms and optimize a corporation's capital structure in the Aerospace and Defense Industry using varying finance methods. (Irreg.)

EMAD 5442 Mergers and Acquisitions in Aerospace and Defense 2 Credit Hours
Prerequisite: Graduate standing and departmental permission, or admission into the Executive Master of Business Administration in Aerospace & Defense program. This course studies the design and valuation of deals to acquire or divest corporate assets. We study M&A transactions, applying them to the aerospace and defense industry through case-based methods. We explore how the legal system, accounting rules, and tax incentives affect outcomes of M&A transactions. We analyze types of M&A transactions, their motivations, and their effects on corporate value. (Irreg.)

EMAD 5452 Managing Aerospace & Defense Government Contracts 2 Credit Hours
Prerequisite: Graduate standing and departmental permission, or admission into the Executive Master of Business Administration in Aerospace & Defense program. This course introduces the procurement and contracting processes used in the aerospace and defense (A&D) industry. Students will gain an understanding of best practices from both government and industry perspectives, including subcontracting. The course will navigate the highly complex federal acquisition process including governance and operational roles. The course emphasizes government contracting but also discusses private sector contracting in A&D. (Irreg.)

EMAD 5472 Data Management and Security in Aerospace & Defense 2 Credit Hours
Prerequisite: Graduate standing and departmental permission, or admission to the Executive Master of Business Administration in Aerospace & Defense program. Every organization is concerned with data management. Data must be stored effectively and securely so it can be retrieved to support decision making. These issues are particularly relevant for the A&D industry, an environment where extra measures must be taken in all aspects of security. The objective is to provide a basic understanding of data management and security. (Irreg.)

EMAD 5482 Data Analytics for Aerospace & Defense 2 Credit Hours
Prerequisite: Graduate standing and departmental permission, or admission to the Executive Master of Business Administration in Aerospace & Defense program. Data analytics is becoming increasingly important for every industry, and it is especially important in the aerospace and defense (A&D) industry. The objective of this course is to provide a basic understanding of data analytics in A&D. (Irreg.)

EMBA 5012 Energy Policy and Regulations 2 Credit Hours
Prerequisites: graduate standing, EMBA students only. Examines global energy policy and regulatory development emphasizing: resource access, business-government relations, environmental protection, social responsibility, and sustainability. Topics explored from the perspectives of government, business, citizens and civil society stakeholder groups, emphasizing unique positions of various major energy-producing regions worldwide. (Irreg.)

EMBA 5021 Economics of the Energy Value Chain and Technology & Innovation Influences 1 Credit Hour
Prerequisite: Graduate standing and EMBA majors only. An introduction to critical aspects of the oil and gas infrastructure value chain with an emphasis on identifying value creation opportunities and strategies, commercial trading activities, policy and regulatory issues, key industry players, and the impacts of technology, innovation, trends, and cycles. Principal focus on crude oil with comparisons and contrasts to natural gas and natural gas liquids value chains. (Irreg.)

EMBA 5022 Accounting I 2 Credit Hours
Prerequisites: graduate standing, EMBA students only. This course use concepts from financial accounting and managerial accounting and apply them to specific reporting issues in the energy industry as well as presentation of the information on the financial statements of an oil and gas company. Reviews the accounting cycle with an emphasis on the proper accounting treatment of energy related activities actions (e.g., acquisition of mineral interests, geological and geophysical costs). (Irreg.)

EMBA 5031 Organizational Behavior 1 Credit Hour
Prerequisites: graduate standing, EMBA students only. For students responsible for leading and managing HR in the energy industry and seeks to increase students' understanding of individual behavior in organizations. Explores theories and concepts of organizational behavior to address managerial problems. Topics include: management challenges; the use of evidence-based management; managing diversity; motivating, evaluating, and rewarding employees; and creating a positive work environment and achieving personal well-being. (Irreg.)

EMBA 5042 Energy Economics 2 Credit Hours
Prerequisite: graduate standing, EMBA students only. Economic concepts and analysis as used in managerial decision-making in energy companies with emphasis on demand, supply, market equilibrium, elasticity, perfect competition, external effects and public goods, market power and monopoly, natural monopolies, dominance and economic regulation, mergers, cartels, collusion and antitrust, oligopolistic models, GDP, unemployment rates, and price indices, and the interrelations among the different sectors of the economy. (Irreg.)

EMBA 5052 Financial Markets and Securities 2 Credit Hours
Prerequisites: graduate standing, EMBA students only. Provides a strong foundation for an understanding of financial markets and the main types of securities traded in these markets. The topics covered in the course include trading structure, risk and return, portfolio theory, asset pricing models, market efficiency and an introduction to the nature and valuation of equities, bonds, and options. (Irreg.)

EMBA 5062 Quantitative Methods and Models 2 Credit Hours
Prerequisites: graduate standing, EMBA students only. Understanding and applying quantitative methods and models in the context of energy management. The content of this course is organized around three modules: summarizing quantitative data; relating and comparing data; and, predicting outcomes based on sample data. The topics covered in these modules include descriptive statistics, associative statistics, regression, multiple regression, and inferential statistics. (Irreg.)

EMBA 5072 Corporate Finance 2 Credit Hours
Prerequisites: graduate standing, EMBA students only. Provides students with the analytical and conceptual skills required in the modern practice of corporate financial management in energy organizations. The course will focus on three key areas of financial management: (1) the optimal allocation of capital; (2) the optimal choices for raising capital; (3) the optimal management of risk in conjunction with (1) and (2). Includes application of finance theory to solving real business problems in energy companies, and emphasizes the importance of technology and globalization to the modern practice of finance. (Irreg.)

EMBA 5082 Strategic Management 2 Credit Hours
Prerequisites: graduate standing, EMBA students only. Examines management decisions and actions to improve an organization's competitiveness in global business environments. Uses a variety of pedagogies to integrate strategies, and students will develop skills to formulate, implement, and evaluate organizational strategies that play across the energy industry in rapidly changing environments. (Irreg.)

EMBA 5091 Accounting II 1 Credit Hour
Prerequisite: Graduate standing, EMBA 5022, and EMBA majors only. This course will cover Financial Accounting Standards Board (FASB), Generally Accepted Accounting Principles (GAAP), and Securities and Exchange Commission (SEC) financial statement disclosures specific to entities engaged in oil and gas producing activities (referred to as Upstream Entities), accounting for derivatives, and tax issues affecting the energy industry. (Irreg.)

EMBA 5111 Management Information Systems 1 Credit Hour
Prerequisites: graduate standing, EMBA students only. Managers in energy organization need to understand the pathways for improving performance through IT-enablement and to be active participants in decisions regarding investing in and implementing IT-enabled business solutions and supporting infrastructures. This course provides student with an awareness and understanding of the technologies and issues they are likely to confront in their roles as managers in an energy organization. (Irreg.)

EMBA 5112 Data, Analytics and Decision-Making 2 Credit Hours
Prerequisite: Graduate standing and EMBA majors only. Develops skills in data analytics including managing data resources, techniques for analysis, visualization, security and privacy, and data-driven decision-making. Particular attention is paid to disruptive technologies, governance, and organizational issues in deepening analytics capabilities in the energy industry. (Irreg.)

EMBA 5131 Alternative Energy: Power & Fuels 1 Credit Hour
Prerequisites: graduate standing, EMBA students only. Considers interest in renewable energy from the view that meeting global energy demand is "all of the above." Examines traditional energy firms possibly adding alternative energy to its offerings. Provides student with a broad overview of how renewable energy affects markets today, renewable energy technology, and its cost effectiveness compared to other energy sources and its future penetration rate projections. (Irreg.)

EMBA 5141 Supply Chain 1 Credit Hour
Prerequisites: Graduate standing, EMBA students only. An overview of supply chain management principles and management considerations vis-a-vis the energy industry. Students are exposed to frameworks to evaluate the efficiency and effectiveness of a supply chain function, methodologies for managing organizational expenditures, and techniques for maximizing value from supply chain operations. Additional topics are: strategic sourcing, inventory management, global sourcing, contract management, and ethics. (Irreg.)

EMBA 5142 Derivatives and Energy Trading 2 Credit Hours
Prerequisite: Graduate standing and EMBA majors only. Provides a comprehensive review of the organization and structure of the market for energy assets and commodities. Topics include trading platforms, pricing issues, forecasting, role and linkage with associated futures, forwards and options contracts, "basis" and spreads, hedging strategies, the principles governing the valuation of these "derivative" securities, and the ways in which these securities can be used effectively. (Irreg.)

EMBA 5152 Derivative Securities and Markets 2 Credit Hours
Prerequisites: graduate standing, EMBA students only. Develop an understanding, both intellectual and practical, of the organization and micro-structure of the markets for forward, futures, and options contracts, the principles governing the valuation of these "derivative" securities, and the ways in which these securities can be used effectively in investment banking, portfolio management, hedging, and risk management. Particular attention is paid to energy derivatives and the perspective of the energy sector. (Irreg.)

EMBA 5162 Energy Assets and Commodities Trading 2 Credit Hours
Prerequisites: graduate standing, EMBA students only. Provides a comprehensive and in-depth review of the market for energy assets and commodities: including trading platforms, pricing issues, forecasting, role and linkage with associated futures, forwards and options contracts, study of "basis" and spreads, and hedging strategies. The course will be anchored solidly within a theoretical conceptual framework and be supported with relevant case studies. (Irreg.)

EMBA 5182 Enterprise Valuation, Mergers and Acquisitions, and Corporate Restructuring 2 Credit Hours
Prerequisite: graduate standing, EMBA students only. The course covers major aspects of M&A and other corporate restructuring transactions; reasons that deals are done, the mechanics of the transactions, the valuation of the firms involved, various aspects of deal structure, the roles and incentives of the parties involved, and related issues. Brings together materials from previous finance courses and links financial decision-making with firm's overall business strategy. (Irreg.)

EMBA 5191 Marketing Strategy 1 Credit Hour
Prerequisites: graduate students, EMBA students only. Covers the challenges faced by the energy industry in developing new markets for its products, and how to manage customer and client relations. Students will learn practical marketing tools and how they can be used to affect corporate strategy. Topics include the strategic marketing process, oil, gas and NGL valuation, market segmentation, supply chain and logistics, pricing mechanisms and hedging. (Irreg.)

EMBA 5201 Leadership and Managing Change 1 Credit Hour
Prerequisites: graduate standing, EMBA students only. Provides a theoretical understanding and skill development necessary for being an effective leader and manage organizational change. Identify ways to become a more effective leader by applying theories of human behavior to solve day-to-day problems of organizational administration. Examines core decision-making challenges, complex change scenarios, and leadership approaches and strategies to manage change in the context of the energy industry. (Irreg.)

EMBA 5212 Economic Project Evaluation- Capstone 2 Credit Hours
Prerequisites: graduate standing, EMBA students only. This course brings together concepts to make better economic decisions in the energy industry. Examines ways to evaluate an energy project's economic viability from an investment opportunity and develop the skills needed to make economic evaluations to assess such projects. The participants perform economic evaluations of field development projects and practice creating value during negotiation skills for an oilfield acquisition. (Irreg.)

EMBA 5222 Corporate Finance and Risk Management 2 Credit Hours
Prerequisites: graduate standing, EMBA students only. Provides students with the analytical and conceptual skills required in the modern practice of corporate financial management in energy organizations. Will focus on three key areas: (1) optimal allocation of capital; (2) optimal choices for raising capital; (3) optimal management of risk in conjunction with (1) and (2) including measuring and managing risk in energy companies. (Irreg.)

EMBA 5232 Energy Law 2 Credit Hours
Prerequisites: graduate standing, EMBA students only. From "wellhead to burner-tip" or "shale to sail" - This course will cover the law and regulation related to the full value chain of energy: upstream, midstream (transport, gathering, processing, fractionation); downstream (oil, gas, liquids - petrochem, refining, industrial, commercial, residential). This class will primarily focus on oil and gas but will also cover electric, coal, renewable and international energy topics. (Irreg.)

EMBA 5242 Reserve Valuation and Reporting 2 Credit Hours
Prerequisites: graduate standing, EMBA students only. Key objectives are learning compliant methods of preparing reserves/resources estimates, learning to estimate and understand the composition of and variables to the estimates, understanding the impact of economics on those estimates, properly classifying those estimates using current industry accepted definitions, and understanding the use of reports. Will discuss utilizing a reserves report as the basis for company modeling projections. (Irreg.)

EMBA 5251 Electric Utility Fundamentals 1 Credit Hour
Prerequisite: Graduate standing and EMBA majors only. This course covers material on basic concepts, terms, and the integration of primary functions in electric utility systems, including an overview of the utility regulatory environment and markets, general business model of regulated and unregulated utilities, and electric generation options and economic dispatch. (Irreg.)

EMBA 5261 Energy and Environment I 1 Credit Hour
Prerequisite: Graduate standing and EMBA majors only. An introduction to the global energy industry's past, present, and future, along with the history and current issues/challenges that different regions face. The course provides a broad look at the fundamentals (resources, politics, culture, regulatory and legal framework plus environmental issues) that impact world energy supply and demand. (Irreg.)

EMBA 5271 Energy and Environment II 1 Credit Hour
Prerequisite: Graduate standing, EMBA 5261, and EMBA majors only. Introduces energy system from an environmental and human health perspective, and the industry's social license to operate. Examines energy supply and use, its environmental and human health impact and mitigating factors. Discusses energy system organization: how we got here, how it operates, feasible paths going forward, and how to leverage forces of change for a more sustainable energy future. (Irreg.)

EMBA 5281 Introduction to Energy Systems I 1 Credit Hour
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course is designed to help understand the earth's energy system and the potential impact of human activity by providing a broad understanding of the current energy system, its challenges, particularly with respect to the environment, and possible paths to a sustainable energy future. (Irreg.)

EMBA 5291 Electric Power Systems and Grid Management 1 Credit Hour
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course discusses power systems and environmental consequence, electric circuit theory, principles and practices of the electrical power industry. The course provides an understanding of how in an electricity grid, power generation and power consumption are closely matched; integrating renewable energy resources into the grid; and the business model of regulated and unregulated utilities, generation options, and economic dispatch. (Irreg.)

EMBA 5301 Transportation and Residential, Commercial & Industrial Energy Systems 1 Credit Hour
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course covers the technical and economic structure of energy consumption, and the drivers of energy demand in the transportation, residential, commercial and industrial sectors, which define the set of services that can be supplied by renewable sources in each sector. (Irreg.)

EMBA 5312 Introduction to Accounting for Renewable Energy 2 Credit Hours
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course provides an understanding of the accounting cycle with emphasis on the proper accounting treatment of renewable energy activities; uses accounting concepts and applies them to specific reporting and decision-making issues in renewables; and discusses the analysis and presentation of financial statement information for renewable energy companies and cost systems analysis for product costing, decision making, and cost management. (Irreg.)

EMBA 5322 Managing Change in Renewables - Strategy and Leadership 2 Credit Hours
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course provides an understanding of the implementation of major strategic organizational changes and the fundamental leadership theories and management practices associated with managing change within the energy industry, providing participants with the necessary framework and tools to effectively lead organizational changes, with attention placed on the human side of change and how to plan for and manage change accordingly. (Irreg.)

EMBA 5331 Advanced Accounting for Renewable Energy 1 Credit Hour
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course will cover advanced financial topics for renewable energy companies, such as financial statement disclosures specific to entities engaged in renewable energy, depreciation and depreciation reserves, accounting for derivatives, and tax equity and tax benefits for renewable energy industry. (Irreg.)

EMBA 5341 Cyber-Physical Security and Resilience for Smart Grid 1 Credit Hour
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course covers introductory topics in cyber-physical systems security, provides a layered perspective of the smart grid security, and provides an overview of the interactions among system components and the interaction between external forces and the system, breaches and enforcement, standardization, best practices, policies, privacy, and legal issues. (Irreg.)

EMBA 5351 Energy Law for Renewables and Ethics 1 Credit Hour
Prerequisite: Graduate standing and EMBA in Renewables majors only. The course will be an introduction to the ethical and regulatory issues as well as the legal framework governing renewable energy production and consumption. (Irreg.)

EMBA 5361 Introduction to Energy Systems II 1 Credit Hour
Prerequisite: Graduate standing, EMBA 5281, and EMBA in Renewables majors only. This course provides a framework for thinking about why energy-related events are happening in the world, what they may mean for future energy use and by extension societal and environmental well-being, and how we might improve our current energy system moving forward. (Irreg.)

EMBA 5371 Data Analytics and Digitization 1 Credit Hour
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course provides a broad-based introduction to the use of data science for understanding sustainability problems and energy systems. Course materials will address developing a foundational understanding of terminology, methods, applications, and tools that are employed across all energy sectors, with emphasis on renewable energy. (Irreg.)

EMBA 5381 Renewable Energy Systems Analysis and Forecasting 1 Credit Hour
Prerequisite: Graduate standing and EMBA in Renewables majors only. To reduce the uncertainty inherent in demand and generation, system operators rely upon load and generation forecasts to balance electricity supply and demand. Generating forecasts are critical to reducing the uncertainty associated with variable renewable energy (RE) generation. This course will provide an overview on forecasting to inform estimates of the level and location of generation in the near future. (Irreg.)

EMBA 5391 Renewable Energy Project Finance and Development 1 Credit Hour
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course provides an overview of preparing a business plan for a renewable energy project and how to evaluate renewable energy project financing and investment opportunities, with particular emphasis on intermittent technologies like solar and wind. (Irreg.)

EMBA 5403 Renewable Energy Project (Capstone) 3 Credit Hours
Prerequisite: Graduate standing and EMBA in Renewables majors only. The course will follow the progression of the development of an energy project, from early stage site and offtake development issues through construction and project financing through operation. Teams determine which renewable energy they want to focus on and develop business propositions accordingly. (Irreg.)

Economics, B.B.A.

Minimum Total Credit Hours: 122
Overall GPA - Combined and OU: 2.50
Major GPA - Combined and OU: 2.50
Upper-Division Businesses Courses GPA - Combined and OU: 2.50

Program Code: B295

To enroll in upper-division business courses, students must be certified for degree candidacy **and meet all prerequisites.**

Major Requirements

No Independent Study or Online courses. *A maximum of 6 hours of transfer work is allowed.*

Core Requirements		**12**
L S 3323	Legal Environment of Business	
MGT 3013	Principles of Organization and Management	
MKT 3013	Principles of Marketing	
B AD 4013	Business Strategy and Policy (Capstone - to be taken last semester of senior year) [1]	
Upper-Division Business Electives		**3**
Choose 3 hours from the following fields: ACCT, B AD, B C, EMGT, ENT, FIN, L S, MGT, MIS, MKT, and SCM		
Additional Requirements		**8**
B AD 2091	Business and Professional Basics I	
B AD 3091	Business & Professional Basics II	
ENT 2113	Innovation & Entrepreneurship	
FIN 2303	Business Finance	
Upper-Division Electives		**14**
Choose 14 hours (no more than eight hours may be taken in business; may be met with general education requirements)		
Total Credit Hours		37

[1] Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.

General Education and College Requirements

Code	Title	Credit Hours
Communications		**6-16**
ENGL 1113	Principles of English Composition (Core I)	
ENGL 1213	Principles of English Composition (Core I)	
or EXPO 1213	Expository Writing	
Foreign Language (Core I) - Students who have completed two years of high school foreign language are exempt from this general education requirement		
Behavioral & Social Science		**6**
P SC 1113	American Federal Government (Core III)	
Choose 3 elective hours from the following fields: Anthropology, Psychology, Sociology, Political Science, Geography (economic, human or political) [1]		
Humanities		**12**
HIST 1483	United States to 1865 (Core IV)	
or HIST 1493	United States, 1865 to the Present	
PHIL 1273	Introduction to Business Ethics (Core IV: W. Civ.)	
Choose one course in each of the following fields (Core IV):		
Understanding Artistic Forms [2,3]		
Non-Western Culture [2,3]		
Science & Mathematics		**16**
Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II) [2]		
MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) [4]	
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) [4]	
MATH 2123	Calculus II for Business, Life and Social Sciences [4]	
Basic Business		**22**
ACCT 2113	Fundamental Financial Accounting [5]	
ACCT 2123	Fundamental Managerial Accounting	
B AD 1001	Personal Computing Productivity Tools	
B C 2813	Business Communications [5]	
ECON 1113	Principles of Economics-Macro (Core III) [5]	
ECON 1123	Principles of Economics-Micro [5]	
ECON 2843	Elements of Statistics [5]	
MIS 2113	Computer-Based Information Systems [5]	
Total Credit Hours		62-72

[1] Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

[2] **Courses taken to fulfill the General Education Requirements must be chosen from the** University-Wide General Education Approved Course List.

[3] It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

[4] Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

[5] Minimum grade of C required.

Free Electives

5 hours if exempt from foreign language; may be taken in any lower/upper-division area. B AD 2110, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

1. Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU.
2. Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
3. One upper-division course in each of the following areas is required: L S, MGT, and MKT.
4. Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
5. A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses[1].

This major normally requires three semesters of study beyond the business core requirements.

[1]Prebusiness course.

[2]University-Wide General Education course, refer to online listing.

[3]May be free elective if artistic form, Non-Western culture or science is 3000- or 4000-level.

[4]Behavioral and Social Science courses must be chosen from the following: anthropology, psychology, sociology, political science, or geography (economic, human or political). Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

General Business for Non-Business Majors, Minor

Minimum Total Credit Hours: 21

Program Code: N450

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students accepted in the minor will be given permission to enroll in the upper-division credit hours of the minor.

Students must earn a 2.50 overall OU and combined retention GPA to declare the Minor.

Students must complete at least fifteen (15) minor hours in residence at the University of Oklahoma.

No correspondence work may be taken to fulfill requirements.

Courses for the minor may not be taken Pass/No Pass.

Minimum OU and Combined GPA of 2.50 in all specifically required courses. Lower division courses must be taken before upper-division courses.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major outside Price College of Business.
- **Students must achieve a minimum 2.50 GPA (OU and overall) in the minor coursework.**

Required Courses

Code	Title	Credit Hours
ECON 1113	Principles of Economics-Macro	3
ACCT 2113	Fundamental Financial Accounting	3
ECON 2843	Elements of Statistics [1]	3
FIN 3303		3
MGT 3013	Principles of Organization and Management	3
or MGT 2013	Introduction to Management	
MIS 2113	Computer-Based Information Systems	3
MKT 3013	Principles of Marketing	3
or MKT 2013	Introduction to Marketing	
Total Credit Hours		21

[1]Arts & Sciences economics majors will substitute ACCT 2123.

- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Economics, B.B.A./Management of Information Technology, M.S.

Minimum Total Credit Hours: 148
Overall GPA - Combined and OU: 3.00
Major GPA - Combined and OU: 3.00
Upper-Division Businesses Courses GPA - Combined and OU: 3.00

Program Code: A295/F659 Q193

To enroll in upper-division business courses, students must be certified for degree candidacy **and meet all prerequisites.**

Undergraduate Requirements

Major Requirements

No Independent Study or Online courses. *A maximum of 6 hours of transfer work is allowed.*

Code	Title	Credit Hours

Total Credit Hours		66-76

[1]Additional course options are available to fulfill the PCB behavioral and social science requirement. Please consult with your advisor.

[2]**Courses taken to fulfill the University General Education Requirements must be chosen from the** University-Wide General Education Approved Course List**.**

[3]It is recommended students take either Non-Western Culture or Understanding Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course from the approved University-Wide General Education. The course must be outside the major and in addition to the capstone course. This may also be satisfied in the upper-division or free elective categories.

[4]Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743; MATH 2423 or MATH 2924 for MATH 2123.

[5]Minimum grade of C required.

Free Electives

6 hours if exempt from foreign language; may be taken in any lower/upper-division area. B AD 2110, B AD 2113, MKT 2013 and MGT 2013 will not count for credit toward a BBA.

Additional Requirements

1. One upper-division course in each of the following areas is required: FIN, LS, MGT, and MKT.
2. Pass/No Pass **will not** be accepted for any Business or General Education courses or any specifically required courses.
3. Students must complete the GMAT exam with a score of 500 or greater.
4. Comprehensive written exam required at end of program.

5. Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
6. A combined maximum of 8 hours of general military experience, flight instruction, and physical education activity courses will count toward the required hours, with a maximum of 2 hours of physical education activity courses.
7. A total of 40 milestone points is required. 5 points per semester are earned through successful completion of B AD 1000 or B AD 1010. For more information, see PCB Center for Student Success.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses[1].

During the 2nd semester, third year:

- **Take GMAT**
- **Interview for internship**
- **Apply for admission to Master's program**

Business Administration, M.B.A.

Minimum Total Hours (Non-Thesis): 48

Program Code: M140 Q446 Full Time

A student who actively and satisfactorily participates in all Prelude activities will receive a grade of 'S' for B AD 5010. A student who does not satisfactorily participate in 75% of Prelude Week will be required to participate in a make-up session within the first two weeks of the semester. Failure to complete a make-up session will result in a grade of 'U' for B AD 5010, resulting in cancellation of the student's enrollment in the MBA program.

Required Courses

Electives		
Choose 18 hours of elective coursework, only 16 of which can be from the same division within the Price College of Business.		18
Capstone		
B AD 5902	Strategic Management [2]	2
Total Credit Hours		48

[1] Courses may be satisfied on the basis of previous study with approval of the Graduate Liaison, which must be indicated on the Admission to Candidacy Form. The satisfied hours will be made up via additional elective hours to meet the required total of 49 degree applicable hours.

[2] Must make a grade of 'B' or better in B AD 5902 or it must be repeated. This is the capstone course and serves in lieu of the comprehensive examination. This requirement is non-waiveable.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Professional MBA, Master of Business Administration

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 32 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Executive Management in Aerospace & Defense, Graduate Certificate

Minimum Total Hours: 12

Program Code: G010

The Executive Management in Aerospace and Defense Graduate Certificate delivers business management education to the growing Aerospace/Defense industry. The graduate certificate is available to managers, executives, and employees in a wide variety of fields who work in the Aerospace/Defense industry. The certificate provides additional management education for these professionals who need specific skills using a flexible format, enabling students to tailor the certificate to their own needs, as well as those of their employer. The program prepares them for careers at the interface of managerial and leadership positions in aerospace and defense organizations, consulting companies, government agencies, and defense contractors.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Foundations of Business, Graduate Certificate

Minimum Total Hours: 12

Program Code: G040

The Graduate Certificate in the Foundations of Business will help graduate students in areas outside of business, such as healthcare, to: (1) understand the core principles and theories underlying the functional areas of business; (2) develop frameworks for analyzing, applying and evaluating business processes and practices related to their primary area of interest; and (3) develop a broader perspective that incorporates their primary area of interest in a business context through meaningful interaction with business practitioners and academic professionals. A non-business student admitted to the program will take these courses with other graduate business students, including those in the MBA program, the Master of Accountancy program, and the Master of Information Technology program. By taking these courses with graduate students in the business school, OUHSC graduate students will have the opportunity to learn from each other in addition to gaining insights from current Price College of Business faculty members.

Business Administration, Ph.D.

Minimum Total Hours: 90

Program Code: D140

Doctor of Philosophy Degree

The Michael F. Price College of Business offers a program leading to the degree of Doctor of Philosophy. The applicant need not hold a degree in business administration, and applications from students in disciplines other than business are encouraged. The degree requires 90 hours beyond the undergraduate degree and dissertation hours cannot exceed 30 of the 90 hours.

TIME LIMITS

The student has four years from the point of admission to candidacy and six years from the point of entering the doctoral program to prepare and successfully defend the dissertation. If the student fails to do so, he/she will be required to retake the general examination. These time limits preclude the admission of part-time students to the doctoral program.

MAJORS

The major must be selected in Accounting, Entrepreneurship and Economic Development, Finance, Management and International Business, Management Information Systems, or Marketing/Supply Chain Management. The course content of a major and the administration of the general examination are determined by the division in which the major is taken.

REQUIRED COURSEWORK

Required background in Business Fields: ACCT 5202; FIN 5302; MKT 5402; and MGT 5702, B AD 5902 or B AD 5102. A student may receive credit for equivalent core courses taken at other institutions at the discretion of the Doctoral Advisory Committee.

STATISTICS/QUANTITATIVE METHODS

Nine hours in statistics/quantitative methods are chosen to support the student's plan of study. They may be selected from among the many approved courses offered throughout the University, especially those in the Divisions of Economics and Marketing and the Departments of Mathematics and Psychology.

RESEARCH METHODS

Six hours in research methods are selected to support the student's plan of study, and may be taken from any department within the University.

SPECIALIZATION AREA

A specialization area is a set of courses taken to gain a mastery of a sub-discipline within or external to business administration. These courses may be wholly within a division of the college, across divisions, or divisions of the college and a University department outside the college. A specialization area must involve at least 21 hours.

ADDITIONAL COURSEWORK

The student's Doctoral Advisory Committee determines the free graduate electives the student will take to fulfill the remainder of the 90 required hours.

COMPOSITION OF THE DOCTORAL COMMITTEES

The Doctoral Advisory Committee will consist of at least five members, with the majority of the members coming from within the student's major division and no less than one member from outside of the major division. An accepted plan of study will be viewed as a contract between the student and the University. The Doctoral Advisory Committee is automatically disbanded upon successful completion of the written and oral segments of the student's general examination.

The Doctoral Dissertation Committee will oversee the writing of the student's dissertation proposal, the writing of the dissertation, and the oral defense of the dissertation. The Doctoral Dissertation Committee is constituted upon a student's admission to Ph.D. candidacy, i.e., upon successful completion of the general examination, and will consist of at least five members, with at least two members from the major area and at least one member from each of the two fields. Furthermore, the committee must include at least one member whose appointment is in a department outside of the College of Business. The committee may also include members within or without the student's field who possess professional expertise germane to the student's research.

EVALUATION

In lieu of qualifying examinations (i.e., examinations over the required coursework only) the graduate programs director will convene for each student each year those faculty who are instructing the student, and said faculty will assess the performance of that student. A report will be forwarded to the student's advisory committee and entered into the student's permanent file. Students will not be allowed to continue in the program if they earn more than two grades of C or lower in courses taken as part of the program.

GENERAL EXAMINATION

As the student nears completion of prescribed coursework, the student should prepare for the general examination. Such examinations are not scheduled either during final examination periods or indeed at any time when a suitable committee cannot be assembled. The general examination will be taken only when the student has completed all curriculum coursework.

The student must apply for the examination at least two weeks before it is to be held. The application is completed by the student on a form provided by the Office of Graduate Programs, and is signed by the student and the members of the Doctoral Advisory Committee. The application is then examined by the graduate programs director and the dean of the Graduate College and if it is in order, is approved. Subsequently, the dean of the Graduate College will authorize the examination. The examination will not be authorized unless the student has completed all prescribed courses, and maintained an overall grade point average of B or higher.

The general examination is intended to test the student's mastery of a number of related fields, as well as capacity for synthesis, sound generalization, and reasoning ability. It will consist in part of written examinations covering the three fields, and will be prepared by the committee. This will be followed by an oral examination in the presence of the whole committee. A student's performance on the general examination will be rated Pass with Distinction, Pass, or Failure. If the student fails the examination, they may repeat the examination either the following semester or later at the discretion of the committee; it may not be given a third time. After each attempt at the general examination, the chairperson will submit a report to the graduate dean that indicates whether the student has passed or failed and what further work must be done. If the individual has passed, the graduate dean will admit the student to candidacy for the doctoral degree.

DOCTORAL DISSERTATION

After the general examination, the candidate will devote most of their time to research and composition, and may also enroll in enough hours of 6980 to meet the minimum requirements of the major division.

After admission to candidacy students must maintain continuous enrollment in 6980 until the requirements for the degree are completed or degree candidacy is discontinued.

DISSERTATION DEFENSE

The candidate may apply for this examination upon presentation of a corrected draft of the dissertation and receipts showing that all fees have been paid. At least four members, including the outside member, of the doctoral committee must be present to conduct the examination. The examination is open to the public.

After the examination, the committee will report its decision to the graduate dean.

Correspondence

For further information on the graduate programs in business administration, contact: Brandy Gunter-Cox (brandy.n.gunter@ou.edu),

Advisor for MS-MIT and PhD programs, Price Hall, Price College of Business, 1003 Asp Ave. Room 1010, University of Oklahoma, Norman, OK 73019-4302, (405) 325-5612.

Program Requirements

Required Background in Business Fields

All students are required to demonstrate knowledge in four of the five following business fields: Accounting, Finance, Marketing, Management, and/or Economics. Sufficient background knowledge will be determined by the graduate liaison and advisor, and noted on the Advisory Conference Report. Verification of completion of the requirement will be endorsed by the graduate liaison and submitted to the Graduate College with the Request for Authority for Dissertation Defense.

Coursework Requirements

Code	Title	Credit Hours
Statistics/Quantitative Methods

FIN 6980	Research for Doctoral Dissertation	
MGT 6980	Research for Doctoral Dissertation	
MIT 6980	Research for Doctoral Dissertation	
MKT 6980	Research for Doctoral Dissertation	
Additional Coursework		**30-61**
The student's advisory committee sets the remainder of the elective requirements to meet the 90 hours required for the degree.		
Total Credit Hours		90

Additional Requirements

- Doctoral students in Business Administration shall not be allowed to continue in the program if they earn more than 2 grades of C or below in courses taken as part of the doctoral program.
- Students must have admission to candidacy within four years of admission and complete all degree requirements within four years of admission to candidacy.
- All required courses must be completed prior to taking the general examination.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

John T. Steed School of Accounting

General Information

The John T. Steed School of Accounting is among a limited number of schools nationwide and the first one in Oklahoma to qualify for accounting accreditation from the Association to Advance Collegiate Schools of Business. The evaluation focused on student quality, faculty professional experience and research productivity, academic curriculum and program-support facilities.

The faculty of the school possess impressive credentials. Their academic backgrounds come from leading universities in the country. The faculty members have established strong records of research and professional publication. Some are consultants to major corporations, authors of textbooks and leaders in professional accounting associations.

The School of Accounting curriculum includes courses in financial accounting, cost accounting, taxation, auditing, and accounting information systems. Graduates are recruited by national and regional firms for challenging and rewarding careers in public accounting and business firms; others secure accounting positions in government.

Undergraduate Study

Bachelor of Business Administration

The mission for the Accounting, Bachelor of Business Administration (p. 794) degree is to educate students in the broad concepts and principles governing accounting, auditing and taxation.The program provides students with sufficient depth in internal and external accounting as well as strong analytical skills to prepare them for entry-level accounting positions in industry and government. It also provides a background that will serve as the basis for continued graduate study in professions where an accounting background is useful or necessary.

Accelerated Programs

The Accounting, Bachelor of Business Administration/Master of Accountancy (p. 797) accelerated program allows motivated current OU business undergraduates interested in professional accountancy to begin working on their Masters degree while still completing their undergraduate coursework.

The Accounting, Bachelor of Business Administration/Finance, Master of Science (p. 800) accelerated program provides an excellent education and academic experience. By combining the BBA with the master's in Finance, Accounting students will have a broader range of career options when they enter the job market or they may choose to pursue a PH.D. in Finance.

The Accounting, Bachelor of Business Administration/Management of Information Technology, Master of Science (p. 802) accelerated program is a great opportunity for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics.

Minors

An Accounting Minor (p. 796) is also offered.

Master of Accountancy

The Master of Accountancy (p. 805) program at the University of Oklahoma became the first graduate program in the State of Oklahoma to be accredited under the AACSB International's accounting accreditation program.

The MAcc program is designed to prepare students for positions of responsibility in the accounting profession. Students may specialize in tax or auditing.

Part-Time Enrollment

To assist with career or other obligations that conflict with full-time enrollment, the MAcc program permits part-time study. The part-time student is given five years from the time of entrance to complete all degree requirements.

Prerequisites for the MACC Program

Applicants are not required to have previous study in the field of accounting and can enroll in preparatory coursework as part of their MAcc degree plan.

Comprehensive Examination

Successful completion of a written comprehensive examination over financial accounting theory and reporting is required of all candidates for the Master of Accountancy degree. In addition, the examining committee may conduct an oral examination to clarify and discuss a student's responses on the written examination.

Courses

ACCT 2113 Fundamental Financial Accounting 3 Credit Hours
Prerequisite: Business majors and students enrolled in approved degree programs or by permission of Price College advising; B AD 1001 or concurrent enrollment. Basic principles of financial accounting. Emphasis on the preparation and use of the income statement, balance sheet and statement of funds flow for corporations. Coverage includes the analysis and recording of transactions involving cash, inventories, fixed assets, bonds and capital stock as well as closing, adjusting and reversing entries for revenue and expense items. (F, Sp, Su)

ACCT 2123 Fundamental Managerial Accounting 3 Credit Hours
Prerequisite: Business majors and students enrolled in approved degree programs or by permission of Price College advising; ACCT 2113. Introduction to managerial accounting. Analysis of cost behavior and the use of this knowledge for both short- and long-term decision. An introduction to budgeting and the accumulation of product costs for planning and performance evaluation. Specific coverage includes cost-volume-profit analysis, capital budgeting, allocations, variances from standard costs and the measurement of divisional performance. (F, Sp, Su)

ACCT 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ACCT 3023 International Financial Statement Analysis 3 Credit Hours
Prerequisite: Must be approved for degree candidacy by Price College, ACCT 2113 and ACCT 2123; Majors only. A review of international financial reporting development, procedures and standards with an emphasis on financial statement interpretation and analysis. Not open to accounting majors. (Irreg.)

ACCT 3033 Financial Reporting Issues in Energy 3 Credit Hours
Prerequisite: EMGT 3001 or concurrent enrollment, student must be a declared Energy Management major and have been approved for degree candidacy by Price College. Study of financial reporting issues directed toward energy companies. Review of the accounting cycle with an emphasis on the accounting treatment for acquisition of mineral interests, geological and geophysical costs, intangible drilling costs, delay, rental, dry hole costs, lease and well equipment, joint interest billing and royalties payable. (Sp)

ACCT 3043 International Financial Reporting 3 Credit Hours
Prerequisite: ACCT 2113 and departmental permission. A review of international financial reporting procedures and standards with an emphasis on financial statement interpretation and analysis. (Irreg.)

ACCT 3113 Intermediate Accounting I 3 Credit Hours
Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2113 and ACCT 2123 with a grade of C or better in each course. Measurement and reporting of assets including receivables, inventory, investments, fixed assets, and intangible assets; special issues related to revenue recognition. (F, Sp)

ACCT 3123 Intermediate Accounting II 3 Credit Hours
Prerequisite: ACCT 2113, ACCT 2123 and ACCT 3113 with a minimum grade of C or better in each course; junior standing; student must be approved for degree candidacy by Price College. Measurement and reporting of bonds, leases, pensions, derivatives, stockholders' equity, earnings per share, and share-based compensation; special issues related to accounting for income taxes and the statement of cash flows. (F, Sp)

ACCT 3313 Cost Accounting 3 Credit Hours
Prerequisite: ACCT 2123 with a minimum grade of C or better in the course, junior standing; student must be approved for degree candidacy by Price College. Basic cost principles. Job order costing, process and joint costing, and estimated costs. (F, Sp)

ACCT 3353 Accounting Information Systems/Databases 3 Credit Hours
Prerequisite: Student must be approved for degree candidacy by Price College, ACCT 2113 and ACCT 2123 with a minimum grade of C or better in each course, or permission. A study of the role of technology in accounting, focusing on the documentation, flow, and processing of accounting information in business. Gives an introduction to the various components of an information system and the necessary internal controls in complex business computing environments. Course includes data analytics and enterprise systems projects. (F, Sp)

ACCT 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ACCT 3603 Income Tax Accounting I 3 Credit Hours
Prerequisite: ACCT 2113, ACCT 2123 and ACCT 3113 with a minimum grade of C or better in each course, or permission; junior standing; student must be approved for degree candidacy by Price College. Introduction to the taxation of income including issues related to the measurement and recognition of income, deductions and losses; the taxation of property transactions; basis and cost recovery concepts; and alternative forms of business organization. (F, Sp)

ACCT 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: junior or senior standing, admission to the Honors Program. May be repeated; maximum credit six hours. Independent study in field of accounting and related disciplines to broaden student's perspective in general field of business. (F, Sp)

ACCT 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

ACCT 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: junior or senior standing, admission to the Honors Program. May be repeated; maximum credit six hours. Independent research in field of accounting and related disciplines to apply research techniques learned in research tool courses to actual business situations. (F, Sp)

ACCT 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (Irreg.)

ACCT 4543 Auditing 3 Credit Hours
Prerequisite: ACCT 3113 and ACCT 3123 with a minimum grade of C or better in each course; ACCT 3603; ACCT 3353 or concurrent enrollment; junior standing. Auditing concepts, standards, principles, and procedures; coverage includes professional ethics, auditors' legal responsibilities, EDP control systems, audit sampling, and audit reports. (F, Sp)

ACCT 4563 Oil and Gas Accounting I 3 Credit Hours
(Slashlisted with ACCT 5563) Prerequisite: ACCT 3123; majors only. May be taken concurrent with ACCT 3123. A study of financial accounting issues specifically directed toward oil and gas companies. Includes basic oil and gas transactions: leases, subleases, free wells, farmouts, carried interests. This course covers accounting for acquisition costs, exploration and development costs, operating costs, joint interest costs, and revenue accounting for oil and gas companies. Field trip required. No student may earn credit for both 4563 and 5563. (F)

ACCT 4583 Internal Auditing 3 Credit Hours
(Slashlisted with ACCT 5583) Prerequisite: ACCT 3353; ACCT 4543; senior standing; Majors only. Internal audit from a broad perspective including evaluating business processes, information technology, accounting systems, internal auditing standards, risk assessment, governance, ethics, audit techniques, and emerging issues. The course covers the design of business processes, implementation of key control concepts and will use a case study approach addressing tactical, strategic, systems and operational areas. No student may earn credit for both 4583 and 5583. (F)

ACCT 4703 Income Tax Accounting II 3 Credit Hours
(Slashlisted with ACCT 5703) Prerequisite: ACCT 3603 or permission; junior standing. Advanced issues related to the taxation of multi-jurisdictional operations and transactions involving corporations, partnerships, estates, and trusts, and their owners throughout the life of the entity. No student may earn credit for both 4703 and 5703. (F, Sp)

ACCT 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

ACCT 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ACCT G4990 Special Problems in Accounting 1-2 Credit Hours
1 to 2 hours. Prerequisite: Junior standing; ACCT 3123, ACCT 3313, ACCT 3353, and ACCT 3603; and ACCT 4113 or ACCT 4323 or ACCT 4543 or ACCT 4703; or departmental permission. May be repeated with change of content; maximum credit 2 hours. This directed readings and problems course for advanced students will be supervised by faculty and staff. A comprehensive report and/or examination is required. (F, Sp, Su)

ACCT 5023 International Financial Reporting and Analysis 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. Overview of the international financial reporting environment and exploration of international financial standards and procedures, with emphasis on financial statement interpretation and analysis. (Irreg.)

ACCT 5100 Accounting Professional Development 0 Credit Hours
