General Information
The goal of the Division of Management and International Business is to educate students so that they can make strategic, administrative and/or supervisory contributions to organizations through critical thinking plus mastery of fundamental skills and concepts. Faculty are active in research plus have publications in leading academic and practitioner-oriented journals in the areas of Human Resources Management, International Business, Organizational Behavior, Social/Environmental Issues in Business, and Strategic Management. The course portfolio ranges from survey courses in cross-cultural management, human resource management, the legal environment of business, organizational behavior and the management of professional sports to skills based courses in consulting, contract law, negotiation and supervision as well as specialty courses including international human resources, natural gas markets, sports logistics and real property law. The award-winning faculty consists of both academics and practitioners which provides students with both an intellectual framework within which to understand world of management and real-world insights to help insure students’ success. This combined approach is a dynamic strength of our unit, leading to an application oriented, integrative core approach to the classroom.

Programs & Facilities
Sooner Sports Management Club (SSMC)
The Sooner Sports Management Club enhances leadership skills while providing opportunities to gain experience and strengthen one’s personal network with exposure in the sports industry.

Energy Management Student Association
The EMSA provides an abundance of activities including energy industry programs, internship opportunities, scholarship interviews, community service, and more.

Undergraduate Study
Bachelor of Business Administration
The Energy Management, Bachelor of Business Administration is the first (and largest) of its kind in the nation - created in 1958. The energy-focused curriculum is comprised of classes in business, law, petroleum engineering, geology, and meteorology.

The Management, Bachelor of Business Administration prepares students to lead and communicate with people in a professional role. Jobs are available in almost every industry worldwide for managers with strong leadership qualities.

The International Business, Bachelor of Business Administration prepares students for the global business world of the 21st century. A unique feature of the program is that it is a Dual-Major program. Students are required to major in International Business, which provides an across-disciplinary appreciation of the challenges and strategies for coping in the global business world in which we live today and will continue to live during your lifetime. Additionally, students are required to double major in Accounting, Economics, Entrepreneurship, Finance, Human Resource Management, Management Information Systems, Marketing, or Supply Chain Management.

The Sports Management, Bachelor of Business Administration program combines courses from faculty with extensive experience, exposure to hands-on projects, plus internship opportunities with all types of sports organizations.

Accelerated Program
The Management, Bachelor of Business Administration/Master of Science in Management of Information Technology program is a great opportunity for undergraduate students who are pursuing a BBA degree to earn a master’s degree with a specialization in data analytics.
