

ACADEMIC ADVISING

Academic Advising

At the University of Oklahoma, academic advising is a personalized experience that takes into consideration the individual needs of each student as they set and achieve academic and professional goals. Advising is a collaborative relationship between the student and the advisor in which academic goals are identified, degree pathways are outlined, and relevant resources are considered to support informed decision making.

All undergraduate students begin their academic journey by attending New Sooner Orientation (NSO), where they are welcomed into their academic program, learn about the many resources available to support their success, meet with a professional academic advisor, and register for their first semester at OU.

Once the academic semester begins, students are assigned to a professional academic advisor within their college who will guide them through their academic program. Students meet regularly with their academic advisor to discuss course enrollment recommendations, support services, and student engagement opportunities. Students are required to complete academic advising before registering for each upcoming semester.

In addition to a college-specific advisor, students may also be assigned a specialized advisor. Specialized advisors work in centralized offices and support specific populations or academic areas, such as Exploratory advising, Pre-Professional advising, and Honors advising.

Center for Major and Career Exploration

The Center for Major and Career Exploration (CMCE) serves as a central resource for students seeking clarity about their academic major(s) and initial career options. Because each student's journey is unique, major and career exploration is shaped by individual values, interests, and skills. Exploration Coaches empower students to discover purpose through self-knowledge, provide resources to support confident decision-making, and help build a foundation for academic and professional success.

Students in their first year at OU with a declared Exploratory major are advised in the Center for Major and Career Exploration and assigned an Exploration Coach. Upon declaring a major, students are transferred to their degree granting college.

CMCE also offers free online and in-office career assessments, one-on-one coaching appointments, Exploring Majors Seminars, biannual Majors and Minors Fairs held each October and February, and two eight-week courses: UNIV 2021 Choosing a Major and UNIV 1031 Exploring Careers.

For more information, please email exploremajors@ou.edu or call (405) 325-1684.

Academic Advising Resource Center

The Academic Advising Resource Center (AARC) serves as a resource for students and academic advisors alike. AARC Exploratory Academic Advisors advise students who are going into their third or later semester and would like extra time in deciding on their academic major while being declared Exploratory. AARC Advisors also support students when they need academic repair to meet degree college eligibility requirements. In addition to Exploratory Academic Advising, AARC also offers Pre-Law and Pre-Medical Professions Advising to all students interested in pursuing advanced degrees in law and certain medical fields, including medical (MD, DO, and DPM), dental, optometry, physician assistant/associate, and veterinary medicine. The AARC uses the services of an Advising Associate to monitor the general advising email address (advising@ou.edu) and to help students navigate the academic advising system at the university. The AARC is located in Cate 1, Room 418, 308 Cate Center Drive Rm. 418, Norman, OK 73019-2180, (405) 325-1596.

Academic Life Coaching

The Academic Life Coaching program at The University of Oklahoma is an innovative mentoring approach designed to provide individualized student support. The program pairs students with specially trained coaching mentors who meet regularly with them throughout the semester. During these sessions, the student and the Academic Life Coach work together to identify stressors and establish goals that lead to academic success and degree completion. By utilizing a coaching approach, a foundation is built where the students are the experts in their own lives and the coach serves as a catalyst for progress and goal achievement.

Academic Life Coaching is open to all students at the University of Oklahoma.

Project Threshold

Project Threshold provides the following services designed to help program participants accomplish their goals and complete their degrees: individualized academic advising and coaching, assistance with accessing tutoring and applying for scholarships, and student success programming. These services are focused on aiding eligible students in experiencing a successful transition and matriculation through college life. Inquiries should be directed to Project Threshold, 215 Wagner Hall, 1005 Asp Ave., Norman, OK 73019-0315, (405) 325-6261.

Facilities and Resources

- University of Oklahoma Libraries
- Information Technology

Planning a Program

- If you have selected a major, learn all the requirements for your chosen degree program.
- If you are unsure of your major, make an appointment with a Major Exploration Coach who can help you match your interests, skills and goals to possible majors
- Prepare a plan of study showing the courses you will take each semester that will complete requirements for graduation.
- The degree program should be designed according to the rules and regulations that govern enrollment and graduation. These rules and regulations can be found in the specific chapter of this catalog

providing information about the college offering your major as well as the chapter, "Admission, Enrollment, and Graduation."

- Freshmen and sophomores who are unsure of a major should choose courses that will fulfill University-Wide General Education Requirements and provide exposure to disciplines that are of interest for selection of a major.
- Utilize the University General Catalog, the Stellic degree audit system and degree checksheets to plan your program.
- Take basic required courses such as English composition and mathematics that provide a sound foundation for future successful enrollments early in the academic program.
- Include courses early in the program that are required for admission to the degree college offering the chosen major.
- Schedule upper-division courses for the junior and senior years with few exceptions in your schedule.
- Look into programs that will enhance your individual program such as study abroad, internships, and research opportunities.
- Balance enrollments to avoid including too many heavy reading courses, too many laboratory courses, or too many credit hours in one semester or term.
- Attempt to schedule all specifically required courses prior to the final enrollment.
- Plan the final semester with fewer hours to allow for such activities as job interviews.
- Plan an enrollment of 12-19 hours, according to academic ability and responsibilities outside of class, for the fall and spring semesters (6-9 hours are appropriate for the summer term). Most degree programs require 120 hours or more which averages out to 15 credit hours per semester to graduate in four years. Students should anticipate that each credit hour taken will normally require a minimum of two hours each week for study time outside of class.

Graduation Plan

The University of Oklahoma has instituted a graduation plan for many degree programs. This plan requires the student and the University to sign a contract that guarantees the student can graduate in a specified period of time based on certain conditions that can be detailed when the student talks with an academic adviser on campus.

University-Wide General Education

In today's global society, the most important contribution a university can make is to help prepare its students for a lifetime of change and a future as an educated and responsible citizen. OU's university-wide general education core curriculum, which was implemented in fall 1990 and updated in fall 2021, meets this challenge by providing a curriculum of required courses designed to help students think creatively, reason and communicate clearly, and adapt quickly to a rapidly changing world.

OU was the first college in the state – and among the pioneers nationally – to organize its general education requirements into a focused curriculum that emphasizes the key areas of knowledge essential in today's society and life in the 21st century.

In designing its general education curriculum, OU looked toward two new centuries—the 21st century, in which students will need to cope with global, societal and career changes – and OU's second century, in which it will continue to produce leaders for the state, nation and world. OU's general education curriculum is designed to help its students succeed after graduation, regardless of their field of endeavor. Because effective communication skills are essential, writing is emphasized across the

general education curriculum. Courses also help students learn to express themselves orally, use mathematical analysis, examine and solve problems, explore the concepts and methodologies of the natural and social sciences, appreciate the creative arts, and better understand their own and others' cultural heritages. Courses are designed to foster enthusiasm, curiosity and a desire to continue learning.

General Education Requirements

A minimum of 40 credit hours of general education courses is required for graduation. Some colleges or majors require students to complete additional hours of general education coursework or to take specific courses to fulfill general education requirements. The list of courses approved for general education credit is available in the Gen Ed Planner. Courses must be distributed among the following areas:

I. SYMBOLIC AND ORAL COMMUNICATION (3-6 courses, 9-22 hours)

- English Composition (2 courses, 6 hours).
- Language (2 courses, 6-10 hours). This requirement can be satisfied by successfully completing two semesters of the same language at the college level equivalent to two semesters at OU. It also may be satisfied by successfully completing two years of the same language in high school or by demonstrating an equivalent level of competence on an assessment test. (Note: the Gaylord College of Journalism and Mass Communication, College of Arts and Sciences, and the College of International Studies require students to complete three semesters of college-level language or pass an assessment test. The College of Arts & Sciences and College of International Studies requirement cannot be met by high school coursework. Some majors require a fourth semester of language.)
- Mathematics (1 course, 3 hours).
- Other. Courses in this category are not required, but may be used when additional credit hours are needed to bring the total hours completed to 40. Approved courses in this area include communication, logic and public speaking.

II. NATURAL SCIENCE (2 courses, 7-8 hours)

- At least two courses of three or more credit hours each and totaling a minimum of seven credit hours are required. The courses must be from different disciplines, and at least one course must include a laboratory component, denoted by [L] in the list of general education courses. (Note: the College of Arts and Sciences requires its students to complete one course in the Biological Sciences and one course in the Physical Sciences.)

III. SOCIAL SCIENCE (2 courses, 6 hours)

- One course must be P SC 1113 American Federal Government, (three hours)

IV. ARTS & HUMANITIES (4 courses, 12 hours)

- Artistic Forms (1 course, 3 hours)
- Western Culture (2 courses, 6 hours). One course must be HIST 1483 United States to 1865 or HIST 1493 United States, 1865 to the Present. The other course may not be History 1483 or History 1493.
- World Culture (1 course, 3 hours). **Note:** The Gaylord College of Journalism and Mass Communication, College of Arts and Sciences, and College of International Studies require additional upper-division Arts & Humanities courses outside the major (2 courses, 6 hours).

V. FIRST-YEAR EXPERIENCE (1 course, 3 hours)

VI. UPPER-DIVISION REQUIREMENT

- At least one of the courses (minimum of 3 hours) used to satisfy the general education requirements must be at the upper-division level and outside of the student's major.

Academic Major, Minor, and Certificates

Major

The major is the emphasis of study that provides depth of learning within the degree program. It is composed of specific requirements determined by the department through which the major is offered. Although many majors are highly structured, some offer flexibility, allowing choice of courses within preset guidelines. Each major is fully described in the section of this catalog where information is provided about the unit offering the major. Major exploration coaches are available to help you decide on a major.

See the Academic Majors page for an alphabetical list of majors offered at OU.

Minor

The minor is a secondary and optional area of interest for depth of study. It can be closely related to the major to serve as a support area, or it can be unrelated. The department through which it is offered sets the requirements for the minor. Presently, the College of Architecture, College of Arts and Sciences, College of Atmospheric and Geographic Sciences, Price College of Business, College of Continuing Education (Aviation), Gallogly College of Engineering, Weitzenhoffer Family College of Fine Arts, College of International Studies, Joe C and Carole Kerr McClendon Honors College, and Gaylord College of Journalism and Mass Communication offer approved minor programs. The minors are made available by the colleges to all students within the University, except for those in the College of Business that are for business majors only. The minor programs are described in the section of this catalog where information is provided about the unit through which they are offered. Upon graduation, the student's official transcript will reflect completion of a minor if recommended by the student's degree college.

See the Minors page for the list of minors offered at OU.

Certificates

Certificates are a separate credential and can be earned independently or in conjunction with a student's degree. The University of Oklahoma offers both undergraduate and graduate certificates. An undergraduate certificate represents a focused program of study on a specific topic that may be related or unrelated to the student's major. A graduate certificate represents completion of a set of courses that provides mastery of a specific area of knowledge and indicates an advanced, focused inquiry into an area of study.

See the Certificates page for an alphabetical list of both undergraduate and graduate certificates offered at OU.

Preparing for Graduate and Professional Studies

When preparing for your future, we encourage you to consider graduate and professional studies. Advanced study can provide more in-depth research and creative experiences in your chosen field of study. You

will work closely with faculty on particular subjects to develop the skills necessary for research and independent thought.

Graduate assistantships and internships provide additional opportunities to develop your skills and talents while working toward an advanced degree. Attendance at professional meetings can provide opportunities for valuable exchanges of information and ideas with colleagues in your discipline.

Career options are greatly enhanced by completion of an advanced degree, and we hope you will avail yourself of the opportunities that are available at the University of Oklahoma.

Special Programs

Academic Common Market

The Academic Common Market (ACM) is an interstate agreement coordinated by the Southern Regional Education Board for sharing some unique academic programs through an exchange of students across state lines wherein non-resident tuition charges are waived. Visit Academic Common Market for more information regarding the University's participation in the Academic Common Market.

Center for the Creation of Economic Wealth

Three Partners Place
201 David L. Boren Blvd, Suite 200 Norman, OK 73072-7264
Phone: (405) 325-2603
iccew@ou.edu
ccew.ou.edu

Formed in 2006, the Center for the Creation of Economic Wealth provides an interdisciplinary environment for researchers, entrepreneurs and students to collaborate in growing, strengthening and diversifying Oklahoma's economy through the nurturing of technology-based enterprises. The Center is a collaborative space that contributes to the entrepreneurial ecosystem of Oklahoma with numerous college-supported programs that encourage innovation in the University and the broader Oklahoma business community, with locations in both Norman and Tulsa.

Administered by the University Vice President for Strategic Planning and Technology Development, the CCEW internship program offers student interns exposure to a variety of authentic business situations and distinguished executives. Additionally, CCEW interns engage in career development opportunities designed to propel their careers following graduation. The internship program has opportunities in technology commercialization, software development, social entrepreneurship, and product design and development.

Education Abroad

Shanna Vincent, Director
Farzaneh Hall, Room 144
Norman, OK 73019-3061
Phone: (405) 325-1693
FAX: (405) 325-7387
ea@ou.edu
www.ou.edu/cis/education_abroad

The mission of Education Abroad is to further intercultural competency through safe, academically focused, professionally relevant, and personally transformative global opportunities for all OU students. Education Abroad develops programs aimed at increasing cross-cultural awareness and emphasizing international education. The office

maintains linkages with professional organizations at the state, national and international levels. This unit works in close liaison with colleges across campus to develop innovative and meaningful study abroad programs.

International Study Centers

International Study Centers are the signature study abroad programs at the University of Oklahoma! Located in two attractive locations, students can take classes taught by OU professors, explore the language and culture of their host country, engage in meaningful dialog with locals, and get active with community service or through internships, while earning credit towards their degrees.

- **OU in Arezzo**

OU in Arezzo is the University of Oklahoma's Italian Study Center. You will take classes taught by OU professors in the middle of Tuscany.

- **OU in Puebla**

OU in Puebla is the University of Oklahoma's Mexican Study Center. It offers a unique blend of courses taught by OU professors and the immersive experience of being at a Mexican University.

Faculty Led Programs

Faculty-led programs are designed so that you can take OU courses with OU professors while traveling around the world with other OU students. These programs have OU tuition and fees, so you can apply tuition waiver scholarships and any applicable financial aid. We offer a variety of long-term and short-term program options.

Partner University Programs

Partner university programs allow you to take classes at a university abroad, but continue paying OU tuition and fees at your normal rate. These programs are highly independent and ideal for students who would like to be immersed in a new cultural and academic setting. Choose from long-term and short-term options.

Partner Provider Programs

Partner provider programs are facilitated by approved affiliate providers with which the University of Oklahoma has an active agreement. Affiliate programs offer a variety of academic courses and internship opportunities, which will show up as transfer credit on your transcript. Tuition and fees are paid directly to your affiliate provider, not to the University of Oklahoma. Some financial aid may still apply.

Selection Criteria

Students are selected for study abroad programs based on the following criteria: grade point average, personal essay, academic standing, and letters of recommendation. For certain study abroad destinations with limited availability, the selection process is quite competitive. All students who qualify for study abroad are offered a location for study, but because of the competitive process, some may not be admitted to the school or destination that they most prefer. Contact the Education Abroad Office for application information.

Center for English as a Second Language

Mary Martin, Director
Farzaneh Hall, Room 114
729 Elm Avenue
Norman, OK 73019
Phone: (405) 325-2351
FAX: (405) 325-7387
esl@ou.edu.
<https://www.ou.edu/cis/cesl>

The mission of the Center for English as a Second Language at the University of Oklahoma is to provide exemplary English language instruction, as well as cultural education to empower students to communicate successfully in social, academic, and professional settings. Established in 1988, the Center for English as a Second Language offers intensive English language courses on the Norman campus of the University of Oklahoma. CESL prepares students for the University by focusing on English for academic purposes, teaching American culture classes, and practicing American classroom culture. Students who go to CESL are better prepared for all aspects of attending universities in the United States.

International Student Services (ISS)

Jalal Daneshfar, Director
Farzaneh Hall, Room 144
729 Elm Avenue
Norman, OK 73019
Phone: (405) 325-3337
FAX: (405) 325-0197
iss@ou.edu
www.ou.edu/cis/iss

International Student Services (ISS) assists around 1800 international students and their dependents from over 100 countries. We provide immigration advising services to students on F-1 and J-1 visas, and fulfill the University's federal reporting requirement of international student information to the Student and Exchange Visitor Information System (SEVIS). We also provide international student programming services that include the New International Student Orientation experience, various workshops for international students on acclimating to life in the US, and social and cultural events for students to engage with their international student community and to facilitate cross cultural exchange on campus. International students also have the opportunity to engage with the community beyond campus through excursions to sites across Oklahoma and through cultural exchange programs designed to introduce international students and their cultures to the greater Oklahoma community and to connect international students with local families.

F-1 and J-1 visas are issued by US consulates to qualifying students studying in the United States. F-1 visas are issued to students whose primary source of funding for college comes from personal or family funds. Most often these are long-term, degree-seeking students. J-1 visas may be issued to students whose primary funding for school comes from a third party, such as a university, corporation, non-profit or the government. Most of OU's J-1 students are short-term exchange students, although we do have some degree seeking J-1 students. International students must maintain their lawful visa status in order to pursue and complete their academic programs in the US. While it is the student's responsibility to maintain lawful visa status, we are here to offer guidance on immigration regulations and benefits.

F-1 and J-1 students studying on the Norman campus or on the Tulsa campus in Norman-based programs can get assistance from the ISS office in Norman, while F-1 and J-1 students studying at the OU Health Sciences Center (OUHSC) or on the Tulsa campus in OUHSC based programs are serviced by the HSC Admissions and Records Office.

International Advisory Committee (IAC)

The International Advisory Committee (IAC) serves as the umbrella organization for the international student organizations at OU. IAC

organizes and facilitates various intercultural, social, political, and intramural events among member international student organizations.

OSLEP

Oklahoma Scholar-Leadership Enrichment Program

The Oklahoma Scholar-Leadership Enrichment Program - OSLEP - is an intercollegiate academic program sponsored by the Oklahoma State Regents for Higher Education open to students at all the public and private universities in Oklahoma. Small groups of students selected from Oklahoma's four-year colleges and universities study with distinguished visiting scholars. Students tell us over and over again that being in an OSLEP class is one of the most rewarding experiences in their academic careers because of the unique learning environment, the time devoted to one subject, and the opportunity to develop a personal relationship with a world-famous scholar and make lasting friendships with students from around the state. Many of the visiting scholars present a free public lecture, open to the community. These programs always include a question & answer session and an opportunity to meet and talk with the scholar. Interested students can contact the OSLEP office or visit www.oslep.org for the current schedule of seminars and additional information. The OSLEP office is located in Monnet Hall, Room 559, 630 Parrington Oval, 325-4309; email oslep@oslep.org.

ORAU

Oak Ridge Associated Universities (ORAU)

Since 1949, students and faculty of the University of Oklahoma have benefitted from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 91 colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates. Students can participate in programs covering a wide variety of disciplines, including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of under-represented minority students pursuing degrees in science- and engineering-related disciplines.

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research, and support programs as well as services to chief research officers.

For more information about ORAU and its programs, contact Richard D. Elmore, Robert and Doris Klabzuba Professor of Geology and ORAU Councilor for the University of Oklahoma at (405) 325-3253; contact Monnie E. Champion, ORAU corporate secretary, at (865)576-3306; or visit the ORAU Home Page.

University of Oklahoma Press

2800 Venture Dr., Norman, OK 73069-8216
Phone: (405) 325-2000
www.oupres.com

Since 1928 the University of Oklahoma Press has published award-winning books that challenge readers to discover the past, contemplate the present, and shape the future. Committed to excellence, the Press publishes high-quality scholarly, regional, and general-interest books that offer readers valuable information, ideas, analysis, and research. During its long and distinguished history, OU Press has published more than 3,000 discrete titles, has over 1,400 active titles, and maintains an inventory of approximately 750,000 books.

The OU Press publishes books in the humanities and social sciences and is the preeminent publisher of books on the American West and American Indians. The Press publishes approximately 80 books per year.

More than 1,500 University of Oklahoma Press titles are now available to libraries as electronic books (ebooks) through EBSCO host and ebrary, a division of Proquest. Many OU Press books are also available through Kindle, Nook, and Kobo ereaders and can also be read on personal computers, smart phones, iPads, and android tablets through a host of applications. The Press is committed to making its books available globally in the reader's choice of format.

World Literature Today

630 Parrington Oval, Suite 110 Norman, OK 73019-4033
Phone: (405) 325-4531
www.ou.edu/worldlit/

World Literature Today, founded in 1927 as *Books Abroad*, is the University of Oklahoma's award-winning bimonthly magazine of international literature and culture, now in its ninth decade of continuous publication. The magazine has been recognized by the Nobel Prize committee as one of the "best edited and most informative literary publications" in the world, and was recently called "an excellent source of writings from around the globe by authors who write as if their lives depend on it" (*Utne Reader*, 2005). *WLT* has received a dozen national publishing awards in the past ten years, including the Phoenix Award for Editorial Achievement from the Council of Editors of Learned Journals in 2002.

Neustadt International Prize for Literature

The Neustadt International Prize for Literature, sponsored by *World Literature Today*, is an award that honors outstanding achievement in fiction, poetry, or drama and is open to writers in any language. Often referred to as the "American Nobel" for the high quality of its laureates, candidates, and jurors, the Neustadt Prize is the first international literary award of such scope to originate in the United States and is one of the very few international prizes for which poets, fiction writers and dramatists are equally eligible. Founded in 1969, the prize bears the name of the Neustadt family of Ardmore, OK, whose 1972 endowment has ensured funding of the award in perpetuity. Recipients include such noted authors as Gabriel García Márquez, Elizabeth Bishop, Czeslaw Milosz, Octavio Paz, Adam Zagajewski, Claribel Alegria, and Patricia Grace.

The Puterbaugh Festivals

The Puterbaugh Festivals of World Literature & Culture are sponsored by *World Literature Today* in collaboration with the University of Oklahoma's Departments of Modern Languages, Literatures and Linguistics and English. Originally named the Oklahoma Conferences on Writers of the Hispanic World, the series was endowed in perpetuity by

the Puterbaugh Foundation of McAlester, Okla., in 1978. A rich tradition in support of literary and international studies at OU, the Puterbaugh Conferences bring the world's greatest authors to the OU campus for a course built around the writer's work, an international symposium, a public talk, and various meetings with students. Since 1968, the Puterbaugh Festival series has furthered the literary and international studies education of thousands of OU students. The most recent Puterbaugh fellows have included Bei Dao, Orhan Pamuk, Nérida Piñon, and J.M. Coetzee.

NSK Neustadt Prize for Children's Literature

The NSK Neustadt Prize for Children's Literature is awarded every other year to a living writer or author-illustrator with significant achievement in children's or young-adult literature. Made possible through the generosity of Nancy Barcelo, Susan Neustadt Schwartz, and Kathy Neustadt and sponsored by *WLT*, the NSK Prize celebrates literature that contributes to the quality of children's lives. Candidates for the award are nominated by a jury of children's literature experts, and the jury also selects the winner of each biennial prize. Laureates receive a check for \$25,000, a silver medallion, and a certificate at a public ceremony at the University of Oklahoma and are featured in a subsequent issue of *WLT*. To date, the winners have included Mildred D. Taylor (2003), Brian Doyle (2005), Katherine Paterson (2007), Vera B. Williams (2009), Virginia Euwer Wolff (2011), and Naomi Shihab Nye (2013).

Combined Curriculum

- Dentistry
- Medicine
- Osteopathic Medicine
- Veterinary Medicine
- Law

A student may qualify for the degree of Bachelor of Arts or Bachelor of Science at the end of their first year in an approved school of law, dentistry, medicine, osteopathic medicine, or veterinary medicine by fulfilling the requirements listed below. Items A-1 through A-4 **must be completed prior to entering** the professional school.

1. Combined Curriculum with the University of Oklahoma College of Medicine, College of Dentistry, or College of Law:
 - a. Complete at least 98 semester credit hours before entering the College of Medicine, College of Dentistry, or College of Law.
 - b. Earn at least 30 semester credit hours in residence at the University of Oklahoma.
 - c. Earn at least 15 semester credit hours of upper-division major credit courses at the University of Oklahoma.
 - d. Earn at least 15 of the last 30 semester credit hours before entering the College of Medicine, College of Dentistry, or College of Law in residence at the University of Oklahoma.
 - e. Complete all other degree requirements of the College including the University's general education requirements, the College requirements, and all the major and major support requirements of a regular degree program.
 - f. Successfully complete the work of the first year in the College of Medicine, Dentistry, or Law.
2. Combined Curriculum with other Approved Schools of Medicine, Osteopathic Medicine, Dentistry, and Veterinary Medicine:

approved by the American Osteopathic Association, in a dental school approved by the American Dental Association, or in a school of veterinary medicine approved by the American Veterinary Medical Association may receive the degree of Bachelor of Arts or Bachelor of Science upon the satisfactory completion of: Items A-2 through A-4 (above) and completion of at least 98 hours prior to entering the professional school and by satisfactory completion of the first year in the approved College of Dentistry, Medicine, Osteopathic Medicine or Veterinary Medicine.

A student enrolled in a medical school approved by the Association of American Medical Colleges, in an Osteopathic Medical School
