# REQUIREMENTS FOR THE BACHELOR OF SCIENCE/MASTER OF SCIENCE

## GALLOGLY COLLEGE OF ENGINEERING

## THE UNIVERSITY OF OKLAHOMA

#### Academic Year

For Students Entering the Oklahoma State System for Higher Education Summer 2024 through Spring 2025

| General Requirements                               |      |
|--|------|
| Minimum Total Credit Hours                         | 150  |
| Minimum Retention/Graduation Grade Point Averages: |      |
| Overall - Combined and OU                          | 3.0  |
| Major - Combined and OU                            | 3.0  |
| Curriculum - Combined and OU                       | 3.00 |
|  |      |

Program

Industrial and Systems Engineering Analytics/Data Science and Analytics

A532/F267 Q343

Bachelor of Science/Master of Science

OU encourages students to complete at least 30 hours of applicable coursework each year to have the opportunity to graduate in 5 years.

#### GENERAL EDUCATION AND COLLEGE REQUIREMENTS

Courses designated as Core I, II, III, IV, or V are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list, including at least one upper-division Gen. Ed. course outside of the student's major. Courses graded P/NP will not apply.

A grade of C or better is required in each course in the curriculum, including all prerequisite courses.

# UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

| Code                           | Title  | Credit Hours |
|--------------------------------|--|--------------|
| Core Area I: Symbolic          | c and Oral Communication                                 |              |
| English Composition            |  |              |
| ENGL 1113                      | Principles of English Composition                        | 3            |
| ENGL 1213                      | Principles of English Composition                        | 3            |
| or EXPO 1213                   | Expository Writing                                       |              |
| Language (0-10 hours           | in the same language)                                    |              |
| This requirement can           | be met by two years of the same language in high school: | 0-10         |
| Beginning Course               | (0-5 hours)  |              |
| Beginning Course,              | continued (0-5 hours)                                    |              |
| Mathematics                    |  |              |
| MATH 1914                      | Differential and Integral Calculus I (Core I) 1, 2       | 4            |
| Core Area II: Natural          | Science (including one laboratory)                       |              |
| PHYS 2514                      | General Physics for Engineering and Science Majors       | 4            |
|                                | (Natural Science Elective with Lab) <sup>2</sup>         |              |
| Natural Science Electiv        | ve with Lab <sup>4</sup>                                 | 4            |
| Core Area III: Social          |  |              |
| P SC 1113                      | American Federal Government                              | 3            |
| Choose one course <sup>3</sup> |  | 3            |
| Core Area IV: Arts &           | Humanities   |              |
| Artistic Forms                 |  |              |
| Choose one course <sup>3</sup> |  | 3            |
| Western Culture                |  |              |
| HIST 1483                      | United States to 1865                                    | 3            |
| or HIST 1493                   | United States, 1865 to the Present                       |              |
| Choose one course (ex          | ccluding HIST 1483 and HIST 1493) <sup>3</sup>           | 3            |
| World Culture                  |  |              |
| Choose one course <sup>3</sup> |  | 3            |
| Core Area V: First Ye          | ar Experience  |              |
| ENGR 1413                      | Pathways to Engineering Thinking (Core V-FYE) $^{5}$     | 3            |
| <b>Total Credit Hours</b>      |  | 39-49        |

- MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.
- 2 Major support requirements that also satisfy University General Education requirements.
- 3 To be chosen from the University-Wide General Education Approved Course List. Three of these hours must be upper-division (3000-4000). See list in the Class Schedule.
- 4 Courses taken to fulfill the Natural Science Courses must be chosen from a University-Wide General Education Approved Course List (Core II). At least one of the Natural Science Courses must be a non-Physics course. All science courses must be for science or engineering majors and come from the natural science elective list maintained by the department.
- 5 Transfer students will need to meet the requirements of the first-year experience course as well as the engineering transfer course. Please see your advisor for your specific enrollment.

#### **FREE ELECTIVES**

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours.

Bachelor of Science in Industrial and Systems Engineering accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Industrial Engineering and Similarly Named Engineering Programs Program Criteria.

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a **grade of C** or better is required in each course in the curriculum, including all prerequisite courses.

#### **MAJOR REQUIREMENTS**

| Code                      | Title   | Credit Hours |
|---------------------------|---|--------------|
| Required Courses          |   |              |
| ISE 2823                  | Enterprise Engineering  | 3            |
| ISE 2311                  | Computer Aided Design and Graphics Laboratory for<br>Industrial Engineers | 1            |
| ISE 2303                  | Design and Manufacturing Process  | 3            |
| ISE 3293                  | Applied Engineering Statistics  | 3            |
| ISE 3304                  | Design and Manufacturing II   | 4            |
| ISE 4113                  | Spreadsheet Dec Support Sys   | 3            |
| ISE 4553                  | Data-Driven Decision Making I   | 3            |
| ISE 4623                  | Deterministic Systems Models  | 3            |
| ISE 4223                  | Fundamentals of Engineering Economy                                       | 3            |
| ISE 4563                  | Quality & Reliability Engineering   | 3            |

| ISE 4804                  | Ergonomics in Systems Design  | 4            |
| ISE 4333                  | Production Systems/Operations   | 3            |
| ISE 5663                  | Systems Analysis Using Simulation <sup>1</sup>                            | 3            |
| ISE 4383                  | Systems Evaluation  | 3            |
| ISE 5853                  | Data-Driven Decision Making II <sup>1</sup>                               | 3            |
| DSA 4513                  | Database Management Systems <sup>1</sup>                                  | 3            |
| ISE 4393                  | Capstone Design Project   | 3            |
| DSA 5113                  | Advanced Analytics and Metaheuristics <sup>1</sup>                        | 3            |
| <b>Total Credit Hours</b> |   | 57           |

1 These courses are dual-counted, fulfilling requirements for both the undergraduate and graduate degrees.

#### MAJOR SUPPORT REQUIREMENTS

| Code                 | Title  | Credit Hours |
|----------------------|--|--------------|
| Math and Science     |  |              |
| MATH 2924            | Differential and Integral Calculus II                                | 4            |
| MATH 2934            | Differential and Integral Calculus III                               | 4            |
| MATH 2513            | Discrete Mathematical Structures                                     | 3            |
| Additional College I | Requirements   |              |
| C S 1323             | Introduction to Computer Programming for Programmers                 | 3            |
| ENGR 2002            | Professional Responsibilities and Skills of Engineers and Scientists | 2            |
| CEES 2113            | Statics  | 3            |
| CEES 2153            | Mechanics of Materials   | 3            |
| C S 2334             | Programming Structures and Abstractions                              | 4            |
| C S 2414             | Data Structures  | 4            |
| C S 3203             | Software Engineering   | 3            |
| Total Credit Hours   |  | 33           |

#### **GRADUATE REQUIREMENTS**

12 hours of graduate level courses that satisfy MS in data science and analytics requirements can be shared between BS and MS degrees.

#### NON-THESIS OPTION

| Code               | Title                                    | Credit Hours |
|--------------------|--|--------------|
| Core DSA Courses 1 |  |              |
| DSA/C S 5005       | Computing Structures                     | 5            |
| DSA/C S 4513       | Database Management Systems <sup>2</sup> | 3            |

# 2 Requirements for the Bachelor of Science/Master of Science

| DSA/C S 4413              | Algorithm Analysis <sup>2</sup>                          | 3  |
|---------------------------|--|----|
| DSA/ISE 5013              | Fundamentals of Engineering Statistical Analysis         | 3  |
| DSA/ISE 5103              | Intelligent Data Analytics                               | 3  |
| DSA/ISE 5113              | Advanced Analytics and Metaheuristics                    | 3  |
| Internship/Practicum      |  |    |
| DSA/ENGR 5900             | Professional Practice                                    | 4  |
| Electives                 |  |    |
| Choose 3 hours of CS,     | ISE, or DSA electives                                    | 3  |
| Choose 6 additional ho    | ours of electives (which may be outside CS, ISE, or DSA) | 6  |
| <b>Total Credit Hours</b> |  | 33 |

- 1 Core courses may be replaced with additional graduate electives at the discretion of the Graduate Liaison.
- 2 Approved for graduate credit.

#### SUGGESTED SEMESTER PLAN OF STUDY

Bachelor of Science in Industrial and Systems Engineering accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the  $OK\ Industrial\ Engineering\ and\ Similarly\ Named\ Engineering\ Program\ Criteria.$ 

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses.

Admission to the accelerated program is by application and requires a minimum OU GPA and combined GPA of 3.0. Students may enter the accelerated program based on the undergraduate degree pattern offered in the year they first enrolled in the Oklahoma State System of Higher Education or later. Students are eligible for graduate status upon graduation with the Bachelor of Science in Industrial Engineering.

Two college-level courses in a single world language are required; this may be satisfied by successful completion of 2 years in a single world language in high school. Students who must take language at the University will have an additional 6-10 hours of coursework.

Courses designated as Core I, II, III, IV or V are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

|               | ENGL 1113 |  |    |                           | SECOND SEMESTER  | Hours |

- Courses taken to fulfill the Natural Science requirement must be chosen from the University-Wide General Education Approved Course List (Core II). At least one of the Natural Science Courses must be a non-Physics course. All science courses must be for science and or engineering majors and come from the natural science elective list maintained by the department. MATH 1823, MATH 2423, MATH 2423, and MATH 243 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.
- Transfer students will need to meet the requirements of the first-year experience course as well as the engineering transfer course. Please see your advisor for your specific enrollment requirements.
- To be chosen from the University-Wide General Education Approved Course List. Three of these hours must be upper-division (3000-4000). See list in the Class Schedule.
- These courses are dual-counted, fulfilling requirements for both the undergraduate degree and the graduate degree.
- To be approved by the DSA graduate liaison.
