The UNIVERSITY of OKLAHOMA

TABLE OF CONTENTS

The University of Oklahoma General Catalog	17	Planning, Design and Construction, Ph.D.	91
About OU	18	Division of Architecture	91
Organization	19	Architecture, Three+ Year Program, B. in Arch. St.	102
Norman Campus	21	Architecture, Four+ Year Program, B. Arch.	104
Health Sciences Center	22	Architectural Studies, Minor	106
OU-Tulsa Schusterman Center and Polytechnic Institute	22	Architecture, 3½ + 1½ Program, B. Arch.St./M. Arch.	107
Continuing Education	23	Architecture via Non-Architecture Bachelor's Degree, M. Arch.	109
Facilities and Resources	23	Architecture via Architecture Bachelor's Degree, M. Arch.	110
Museums and Collections	26	Sustainable Architecture, M.S.	111
Division of Enrollment Management	29	Haskell and Irene Lemon Construction Science Division	111
Office of Admissions & Recruitment	29	Construction Science, B.S.	117
Student Financial Center	36	Construction Science, Minor	119
Office of the Registrar	39	Entrepreneurship & Real Estate Development, Undergraduate Certificate	120
Academic Records	40	Certificate Elective Courses	120
Registration & Student Services	48	Construction Management: Special Studies, M.S.	120
Veteran Student Services	51	Construction Management: Thesis, M.S.	120
Academic Majors – Undergraduate and Graduate	55	Construction Management, M.C.B.	121
Certificates	61	M.C.B. Business Electives	121
Minors	62	Construction Management, Graduate Certificate	121
OU Online	65	Division of Interior Design	122
Orientation and Advisement	67	Interior Design, B.I.D.	129
Academic Success Center	73	Interior Design for Architecture Majors, Minor	130
Career Planning	77	Minor Electives for Interior Design for Architecture Majors	131
Student Affairs	79	Interior Design for Visual Communication Majors, Minor	131
Academic Affairs	80	Interior Design for Non-Architecture/Non-Visual Communication Majors, Minor	131
Multidisciplinary Studies, B.A.	82	Minor Electives for Interior Design for Non-Architectural/Non-Visual Communication Majors	132
Multidisciplinary Studies, B.S.	83	Interior Design (First Professional), M.S.	132
Community Engagement, Graduate Certificate	84	Interior Design (Post-Professional), M.S.	132
Christopher C. Gibbs College of Architecture	85	Division of Planning, Landscape Architecture, and Design	133
College of Architecture Administrated Programs	88	Environmental Design, B.S.	143
Planning, Design and Construction, M.S.	89	Environmental Design, B.S./M.L.A.	145
Data Systems and Digital Design (BIM/GIS/FAB), Graduate Certificate	89	Environmental Design, B.S./M.R.C.PL.	148
Data Systems and Digital Design Elective List	90	Environmental Design, B.S./Urban Design, M.U.D.	150
Design Entrepreneurship and Real Estate, Graduate Certificate	90	Landscape Architecture, M.L.A.	152
Design Entrepreneurship and Real Estate Elective List	90	Landscape Architecture via BLA, M.L.A.	153
Resilient Planning, Design, and Construction, Graduate Certificate	90	Landscape Architectural Studies, M.L.A.	153
Resilient Planning, Design, and Construction Elective List	91	Regional and City Planning, M.R.C.PL.	154
		Urban Design (Tulsa), M.U.D.	155

Dodge Family College of Arts and Sciences	156	Corrections Management Graduate Certificate Approved	
College of Arts and Sciences Administrated Programs	168	Electives List	216
Community Health, B.A.	177	Criminal Justice Administration (Online), Graduate Certificate	
Community Health, B.S.	179	217
Latinx Studies, B.A.	181	Data Analytics, Graduate Certificate	217
Planned Program, B.A.	183	Data Analytics Graduate Certificate Course Lists	218
Planned Program, B.S.	185	Drug Policy Management (Online), Graduate Certificate	219
Public Health, B.P.H.	187	Organizational Leadership (Online), Graduate Certificate	220
Approved Public Health & Community Health Major Electives		Restorative Justice Administration (Online), Graduate Certificate	
.....	189	220
Applied Statistics, Minor	190	Restorative Justice Administration Graduate Certificate	
Applied Statistics Minor Course Lists	190	Approved Electives	220
Data Analytics, Minor	191	Clara Luper Department of African and African-American Studies	
Data Analytics Minor Course Lists	192	221
Enterprise Studies, Minor	193	African and African-American Studies, B.A.	225
International Enterprise Studies, Minor	193	African and African-American Studies, Minor	227
Latinx Studies, Minor	194	Department of Anthropology	228
Public and Community Health, Minor	195	Anthropology, B.A.	239
Applied Statistics, Undergraduate Certificate	195	Anthropology Department Electives List	242
Applied Statistics Undergraduate Certificate Course Lists		Human Health & Biology, B.S.	243
.....	196	Anthropology, Minor	245
Data Analytics, Undergraduate Certificate	196	Anthropology, B.A./Sociocultural Anthropology, M.A.	246
Data Analytics Undergraduate Certificate Course Lists	197	Anthropology (Standard), M.A.	249
Community Health B.A./Epidemiology, M.P.H.	198	Anthropology: Applied Medical Anthropology, M.A.	249
Community Health, B.A./Health Promotion Sciences, M.P.H.		Anthropology: Linguistic Anthropology, M.A.	250
.....	201	Anthropology: Socio-Cultural Anthropology, M.A.	251
Community Health, B.S./Epidemiology, M.P.H.	203	Anthropology: Archaeology, Ph.D.	251
Community Health, B.S./Health Promotion Sciences, M.P.H.		Anthropology: Human Health & Biology, Ph.D.	252
.....	206	Anthropology: Sociocultural & Linguistics, Ph.D.	252
Applied Statistics, M.S.	209	School of Biological Sciences	253
Applied Statistics M.S. Approved Elective Courses	209	Biology, B.S.	274
Criminal Justice (Online), M.S.	209	Microbiology (Standard), B.S.	276
Criminal Justice, Master of Science Elective Course List		Microbiology (Standard): Biotechnology, B.S.	278
.....	210	Microbiology (Professional), B. Mbio.	281
Human & Health Services Administration (Online), M.A.	210	Plant Biology, B.S.	283
Integrative Studies (Online), M.A.	211	Plant Biology: Biotechnology, B.S.	285
Integrative Studies Master of Arts Elective Course List ...	212	Biology, Minor	288
Organizational Leadership (Online), M.A.	213	Microbiology, Minor	288
Organizational Leadership Approved Graduate Electives		Plant Biology, Minor	289
.....	214	Biology, M.S.	289
Applied Statistics, Graduate Certificate	214	Microbiology, M.S.	289
Applied Statistics Graduate Certificate Course Lists	215	Microbiology: Bioinformatics, M.S.	290
Corrections Management (Online), Graduate Certificate	216	Plant Biology, M.S.	291

Plant Biology: Bioinformatics, M.S.	291	Communication, Minor	352
Microscopic Imaging and Technology, Graduate Certificate ...	292	Communication, M.A.	353
Biology, Ph.D.	292	Communication Approved Graduate Electives	353
Cellular and Behavioral Neurobiology: Biology, Ph.D.	293	Communication: Organizational Communication, M.A.	354
Ecology and Evolutionary Biology - Biology, Ph.D.	293	Communication, Ph.D.	354
Ecology and Evolutionary Biology - Botany and Microbiology, Ph.D.	294	Department of Economics	355
Microbiology, Ph.D.	294	Economics, B.A.	360
Plant Biology, Ph.D.	295	Economics, Minor	362
Department of Chemistry and Biochemistry	295	Economics, B.A./M.A.	363
Biochemistry, B.S.	303	Econometrics, M.A.	365
Chemical Biosciences, B.S.	306	Econometrics, M.A. Approved Electives	366
Chemistry and Biochemistry (Standard Option), B.S.	308	Economics: Applied Economics, M.A.	366
Chemistry (Professional), B.S.	311	Economics: Managerial Economics, M.A.	366
Chemistry, Minor	313	Economics, Ph.D.	367
Chemistry & Biochemistry, M.S.	313	Department of English	367
Chemistry: Bioinformatics, M.S.	314	English: Literary & Cultural Studies, B.A.	377
Chemistry and Biochemistry: Analytical Chemistry, Ph.D.	315	English Literary & Cultural Studies Distribution Lists	380
Chemistry and Biochemistry: Biochemistry, Ph.D.	315	English: Writing, B.A.	380
Chemistry and Biochemistry: Inorganic Chemistry, Ph.D.	316	English Writing Distribution Lists	383
Chemistry and Biochemistry: Materials Chemistry, Ph.D.	316	English: Literary & Cultural Studies, Minor	383
Chemistry and Biochemistry: Organic Chemistry, Ph.D.	317	Editing and Publishing, Minor	383
Chemistry and Biochemistry: Physical Chemistry, Ph.D.	317	English: Writing, Minor	384
Chemistry and Biochemistry: Structural Biology, Ph.D.	317	Irish Studies, Minor	385
Cellular and Behavioral Neurobiology: Chemistry & Biochemistry, Ph.D.	318	English: Literary & Cultural Studies, B.A./M.A.	385
Department of Classics and Letters	318	English: Writing, B.A./M.A.	388
Classics: Classical Languages, B.A.	328	English: Literary Studies, M.A.	391
Classics: Classical Studies, B.A.	330	English: Rhetoric & Writing Studies, M.A.	391
Classical Studies Distribution Course Lists	332	English: Literary Studies, Ph.D.	392
Classics: Latin, B.A.	333	English: Rhetoric & Writing Studies, Ph.D.	392
Letters (Standard), B.A.	335	Environmental Studies	393
Letters: Constitutional Studies, B.A.	337	Environmental Studies, B.A.	396
Constitutional Studies Category Course Lists	339	Environmental Studies Category Lists	398
Classical Archaeology, Minor	340	Environmental Studies, Minor	400
Approved Classical Archaeology Electives	341	Environmental Studies, M.S.	400
Classical Culture, Minor	342	Department of Film and Media Studies	401
Classical Greek, Minor	342	Film & Media Studies, B.A.	405
Constitutional Studies, Minor	342	Film and Media Studies Guided Electives	407
Latin, Minor	343	Film & Media Studies, Minor	408
Department of Communication	343	Department of Health and Exercise Science	408
Communication, B.A.	350	Health & Exercise Science, B.S.	416
		Health & Exercise Science, Minor	418
		Health & Exercise Science, M.S.	419

Health and Exercise Science: Exercise Physiology, M.S.	419	Information Studies Major Category Lists	494
Health and Exercise Science: Health Promotion, M.S.	420	Information Studies, Minor	496
Health and Exercise Science: Sports Data Analytics, M.S.	420	Information Studies Minor Category Course Lists	496
Cellular & Behavioral Neurobiology: Exercise Physiology, Ph.D.	421	Information Studies, B.A./M.L.I.S.	496
Health and Exercise Science: Exercise Physiology, Ph.D.	422	Library & Information Studies, M.L.I.S.	499
Health and Exercise Science: Health Promotion, Ph.D.	422	Museum Studies (Online), M.A.	500
Department of History	423	Museum Studies Graduate Elective List	500
History, B.A.	436	Archival Studies, Graduate Certificate	500
History, Minor	438	Archival Studies Elective Course List	501
History, M.A.	439	Data Analytics for Information Professionals (Online), Graduate Certificate	501
History, Ph.D.	439	Data Analytics for Information Professionals Elective List	501
Department of History of Science, Technology, and Medicine	440	Digital Humanities, Graduate Certificate	501
Health, Medicine, and Society, B.A.	446	Approved Digital Humanities Elective Courses	502
Approved Health Medicine & Society Elective Courses	448	Information Studies, Ph.D.	502
History of Science, Technology, and Medicine, B.A.	449	David and Judi Proctor Department of Mathematics	503
History of Science, Technology, and Medicine Course Lists	451	Mathematics (Standard Option), B.A.	511
History of Medicine, Minor	452	Mathematics (Professional Option), B.S.	513
History of Science, Minor	453	Mathematics, Minor	515
History of Science, Technology, and Medicine, M.A.	453	Mathematics, B.A./M.B.A.	515
History of Science, Technology, and Medicine, Ph.D.	454	Mathematics/MBA Accelerated Course Lists	518
Department of Human Relations	455	Mathematics, B.A./Finance, M.S.	519
Human Relations, B.A.	466	Mathematics BA/Finance MS Accelerated Course Lists	521
Human Relations, Minor	469	Mathematics, B.S./Biostatistics, M.S.	521
Clinical Mental Health Counseling (Online), M.C.M.H.C.	469	Mathematics, M.A.	524
Clinical Mental Health Counseling, M.H.R.	470	Mathematics, M.S.	524
Clinical Mental Health Counseling, M.S.	471	Mathematics, Ph.D.	525
Diversity, Equity, and Strategic Impact (Online), M.H.R.	471	Medieval and Renaissance Studies	526
Human Relations (Standard), M.H.R.	472	Medieval & Renaissance Studies, Minor	526
Human Relations: Human Resources, M.H.R.	473	Department of Modern Languages, Literatures, and Linguistics ...	528
Inclusive Leadership, M.H.R.	474	Arabic, B.A.	552
Human Resource Studies, M.A.	475	Arabic Major Support Course List	554
Helping Skills in Human Relations, Graduate Certificate	476	Chinese, B.A.	554
Human Resource Development and Workforce Diversity, Graduate Certificate	476	Chinese Major Support List	556
Schusterman Program in Judaic and Israel Studies	476	French, B.A.	556
Judaic Studies, B.A.	478	German, B.A.	558
Judaic & Israel Studies, Minor	480	Italian, B.A.	560
School of Library and Information Studies	481	Italian Major Support List	563
Information Science and Technology, B.S.	489	Japanese, B.A.	563
Information Science and Technology Course Lists	491	Linguistics, B.A.	565
Information Studies, B.A.	492	Russian, B.A.	567

THE UNIVERSITY OF OKLAHOMA GENERAL CATALOG

The General Catalog is produced by the University of Oklahoma Office of Academic Publications, a division of Enrollment Management, directed by Jeff Blahnik, Vice President for the Division of Enrollment Management and Executive Director of the Office of Admissions & Recruitment, Norman Campus. This publication is issued by The University of Oklahoma and authorized by The University of Oklahoma Board of Regents.

Prospective undergraduate students should contact the Office of Admissions & Recruitment at (405) 325-2151 or 1-800-234-6868, or send an email to admissions@ou.edu. Prospective graduate students should request information on specific programs from the Graduate College, 731 Elm Avenue, Room 213, Norman, OK 73019, (405) 325-3811, gradinfo@ou.edu.

The General Catalog is published for informational purposes and should not be construed as the basis of a contract between a student and the University of Oklahoma. Every effort is made to provide information that is accurate at the time the Catalog is prepared.

However, information concerning regulations, policies, fees, curricula, courses and other matters contained in the Catalog is subject to change at any time during the period for which the Catalog is in effect.

The University of Oklahoma reserves the right at all times to discontinue, modify, or otherwise change its degree programs when it determines it is in the best interest of the University to do so.

Campus visits are available through the Office of Admissions & Recruitment. To arrange a campus tour, visit [Tour Our Campus](#) or call (405) 325-2151 or toll-free 1-800-234-6868.

The mission of the University of Oklahoma is to provide the best possible educational experience for our students through excellence in teaching, research and creative activity, and service to the state and society.

The University of Oklahoma, in compliance with all applicable federal and state laws and regulations does not discriminate on the basis of race, color, national origin, sex, sexual orientation, genetic information, gender

identity, gender expression, age, religion, disability, political beliefs, or status as a veteran in any of its policies, practices, or procedures. This includes, but is not limited to: admissions, employment, financial aid, housing, services in educational programs or activities, or health care services that the University operates or provides.

Inquiries regarding non-discrimination policies may be directed to: Marci Gracey, Interim Institutional Equal Officer, 405-325-3546, mgracey@ou.edu or visit the Institutional Equity Office website.

ABOUT OU

Located halfway between the Atlantic and Pacific coasts at the boundary between the eastern woodlands and the vast western prairie, the University of Oklahoma is a gathering place for students and scholars from across the nation and around the globe. Students are attracted primarily by the high quality of the faculty and academic programs, outstanding research facilities, and unique resources at OU. The relatively low cost of attendance adds to OU's international appeal. Scholars also appreciate the mild Oklahoma climate, the varied cultural environment and the friendly, informal atmosphere of the University community.

Created by the Oklahoma Territorial Legislature in 1890, the University of Oklahoma is a doctoral degree-granting research university serving the educational, cultural, economic and health-care needs of the state, region and nation. The Norman campus serves as home to all of the university's academic programs except health-related fields. The OU Health Sciences Center, which is located in Oklahoma City, is one of only three comprehensive academic health centers in the nation with seven professional colleges or programs, NCI Cancer Center designation and both an Adult and Pediatric Level One Trauma Center. Both the Norman and Health Sciences Center campuses offer programs at the Schusterman Center, the site of OU-Tulsa. OU enrolls more than 30,000 students, has more than 2,600 full-time faculty members, and has 20 colleges offering 174 majors at the baccalaureate level, 191 majors at the master's level, 86 majors at the doctoral level, 8 majors at the doctoral professional level, 9 undergraduate certificates, and 72 graduate certificates. The university's total annual operating budget is \$2.4 billion. The University of Oklahoma is an equal opportunity institution.

The OU Difference

You can get a college degree at any of hundreds of colleges, but you can only get an OU degree from the University of Oklahoma. Whatever your field of study, your life will be enriched by experiences both inside and outside the classroom.

Contributing to the OU difference are:

- An outstanding and internationally recognized faculty to serve as your teachers, mentors, role models, and guides through your college years;
- Over 170 majors at the baccalaureate level, more than 200 majors at the graduate level, and more than 70 graduate certificates.
- Professional programs in law, medicine, dentistry, the health professions, and various master's dual degree programs;
- An emphasis on sound academic advising and orientation for all students;

- A focused general education program;
- Funded research opportunities for students;
- A nationally recognized Honors College;
- The opportunity to study abroad at universities on five continents; and
- A culturally diverse campus community providing a supportive environment for students of all cultural backgrounds.

The wide variety of academic programs, the dedicated faculty, the multicultural and international student body, the unique resources, the friendly and supportive community, and the traditions developed during 130 years of striving for academic excellence all contribute to the OU difference — a difference you will benefit from and contribute to as an OU student and alumnus.

We invite you to visit the University or to contact us for further information about our wide variety of educational programs. For more information about the University of Oklahoma please see the University's website. To arrange a visit, please write or call one of the following offices or a specific college or program listed in this catalog.

email: admissions@ou.edu

The mission of the University of Oklahoma is to provide the best possible educational experience for our students through excellence in teaching, research and creative activity, and service to the state and society.

The University of Oklahoma recognizes, appreciates and actively pursues its special responsibility to help make Oklahoma a great place in which to live and work. The University also is part of a world community of scholars, and its activities make national and international contributions. Graduates of the University hold important leadership positions in the state and throughout the world. As the University meets its broad scholarly responsibilities, it targets many activities to bring maximum benefits to the state.

To encourage excellence, the University attracts, develops and retains outstanding faculty and staff; attracts capable students who will provide future leadership for the state, region and nation; provides superior library, laboratory, classroom, performance and computer facilities; and engages in ongoing planning, analysis and management for the effective use of its resources.

Undergraduate Education

The University uses the liberal-professional model of education to provide undergraduates with the knowledge and skills needed to contribute and succeed in a rapidly changing global society. Capitalizing upon the strengths of an outstanding faculty unique to a research university, OU offers undergraduate education in a wide array of majors to meet the interests of students and the needs of the state. Admission to undergraduate programs is selective. Students are expected to be above the average for college applicants in ability and to have the maturity to work diligently and effectively in a demanding academic environment.

The University endeavors to instill in its undergraduates the tradition of lifelong learning, the capacity for critical thinking, the ability to work effectively in groups, the flexibility to adapt successfully to a rapidly changing world, and an enthusiasm for creativity. These qualities enrich

an individual's life and enable one to contribute to the making of a better world.

University of Oklahoma graduates understand our rich human heritage; comprehend differing approaches used by the arts, humanities and sciences in creating that heritage; develop the ability to make ethical, critical and analytical judgments; and use spoken, written and symbolic language to communicate effectively.

Graduate Programs

The University of Oklahoma and the Graduate College are committed to providing the best graduate education possible for its students, an education that prepares its graduates to assume leadership positions in the fields and professions in which they are educated. Admission to the graduate programs is highly selective. Students are expected to have superior academic ability, a high level of motivation, and commitment to their discipline or profession. Strong emphasis is placed on faculty strength in teaching, research and creative activity; a critical mass of faculty and students; student quality; compatibility with other established University programs; and contributions to the state and nation's health, cultural, scientific, social and economic needs.

Research, Scholarship and Creative Activity

National and international recognition in research, scholarship and creative activity in disciplinary and interdisciplinary areas is one of the primary goals of the University of Oklahoma. Consequently, faculty members at the University of Oklahoma are national leaders in their fields and, as such, are outstanding role models for students. They actively seek and obtain external support for research from the federal government, private foundations and corporations. Faculty at the University of Oklahoma also cooperate with faculty from other research universities and health sciences centers as well as individuals in the private sector and government agencies.

Research and creative activities enrich education and promote learning excellence for students by developing new knowledge for our society; allowing emerging issues, breakthroughs, and new information and perspectives to be shared swiftly in the classroom; and introducing students to the process of creativity and discovery. A major research university enlivens the community and, in our modern society based on information and technology, encourages and supports economic and social development in the state.

Continuing Education and Service to the Public

The University of Oklahoma meets the growing needs of the state and nation for lifelong learning by offering continuing education programs that are built on the strengths of its academic programs. As a major public university, the University of Oklahoma has a responsibility to offer a broad range of high quality educational programs tailored to meet the needs of individuals for retraining or upgrading their skills. These programs are offered at times, in locations, and in formats to best serve the needs and schedules of adult learners.

The University is committed to offering degree programs, especially at the graduate level, for place-bound students in the state's urban areas and to supporting the state's economic development through education and research programs.

In the area of arts and culture, the University of Oklahoma plays a unique role as a nationally recognized center in the state and Southwest for selected artistic and cultural activities. The University's artistic

and cultural activities advance knowledge; enrich the campus and community; enhance Oklahoma's quality of life; and contribute to the state's development, attractiveness and prosperity.

Accreditations

Achievement and maintenance of high academic standards entitle the University of Oklahoma to accredited membership in the Higher Learning Commission. See the Accreditation website for more information.

University Governance

The University is a part of the Oklahoma State System of Higher Education, which is composed of all higher education institutions supported wholly or in part by state appropriations. The Oklahoma Regents for Higher Education is the coordinating board for the system.

The University — as part of the public educational system of the state, established by legislative action and supported by annual legislative appropriations — places emphasis on sound scholarship, good citizenship, and the duties of the individual to the community and the commonwealth.

By constitutional enactment, the governance of the University is vested in the OU Board of Regents, a board consisting of seven members appointed by the governor with the advice and consent of the state Senate. Each member is appointed to serve for seven years, except when appointed to fill an unexpired term, and is subject to removal from office only as provided by law for the removal of officers not liable to impeachment.

The Oklahoma Regents and the University regents approve the requirements for admission and graduation, the degrees offered, and the fees and expenses. The boards reserve the right to change these requirements.

The president is charged with the educational and business management of the entire University. Upon recommendation of the faculties and by authority vested in them by the regents, the president confers all degrees.

The senior vice president and provost, Norman campus, and the senior vice president and provost, OU Health Sciences Center, are the chief administrative officers for the two campuses and provide academic and administrative leadership.

The registrar and senior associate vice president for the Division of Enrollment Management supervises admission and registration to the University and keeps the academic records of students enrolled on the Norman campus.

The vice president for student affairs and staff are the officials responsible for the nonacademic activities, programs and services of student life.

University College provides an advisory system for freshmen and assists students in choosing a field of study. The administrative functions are exercised by the dean of University College.

Each college, except University College, has its own faculty, consisting of the dean and the members of the faculty who teach courses in the college. The faculties set the requirements for graduation for the schools and colleges and make recommendations to the president to confer degrees upon those students who have completed these requirements. The dean of each college is its executive officer.

The general faculty of the University of Oklahoma Norman campus is composed of all faculty members with regular appointments. The Norman campus general faculty does not include faculty members with temporary appointments. The Norman campus Faculty Senate is the legislative group of the general faculty. It is composed of 50

members elected by the general faculty with senatorial seats apportioned according to the number of full-time faculty in the college. Faculty who are not members of a degree-recommending college are treated as a separate college for election. The Senate exercises the legislative powers of the faculty and has the power to initiate any legislation requiring approval by the OU Board of Regents. Subjects for review or legislation can be brought to the attention of the Senate by written communication from any member of the University community or any officially constituted agency.

- Norman Campus (p. 21)
- Health Sciences Center (p. 22)
- OU-Tulsa Schusterman Center and Polytechnic Institute (p. 22)
- Continuing Education (p. 23)

Norman Campus

The central campus and the offices of administration of the University of Oklahoma are located on some 3,500 acres in Norman, a city of more than 100,000 residents. Norman is located near the center of the state, 20 miles south of Oklahoma City, the state capital.

The colleges housed on the Norman campus are the Christopher C. Gibbs College of Architecture, the Dodge Family College of Arts and Sciences, the College of Atmospheric and Geographic Sciences, the Michael F. Price College of Business, the Mewbourne College of Earth and Energy, the Jeannine Rainbolt College of Education, the Gallogly College of Engineering, the Weitzenhoffer Family College of Fine Arts, the Graduate College, the Joe C. and Carole Kerr McClendon Honors College, the David L. Boren College of International Studies, the Gaylord College of Journalism and Mass Communication, the College of Law, and the College of Professional and Continuing Studies. The Norman campus is also headquarters for the College of Continuing Education, which directs outreach programs throughout the state.

The Norman campus consists of four sections – central campus, south campus, research campus and north campus. Most of the academic and administrative buildings are located on the central campus, noted for its Cherokee Gothic architecture and award-winning landscaping. Also situated on the central campus are the University residence halls, which include residential colleges and other upperclassman housing; Sarkeys Energy Center; University Libraries; Fred Jones Jr. Museum of Art; Donald W. Reynolds Performing Arts Center, including historic Holmberg Hall; Rupel Jones Fine Arts Center, including Elsie C. Brackett Theatre; Catlett Music Center, including Sharp Concert Hall and Pitman Recital Hall; Oklahoma Memorial Union; recreational facilities, including the Sarkeys Fitness Center and the Murray Case Sells Swim Complex; Gaylord Family – Oklahoma Memorial Stadium; the Everest Indoor Training Center; and the Oklahoma Center for Continuing Education, a year-round educational center and conference site. Located one block east of the central campus is the OU Brandt Park and Duck Pond, a recreational area used throughout the year by OU students and Norman residents. David A. Burr Park is conveniently located near residence halls and other recreational facilities.

The first of its kind in the state, the OU Visitor Center serves all guests of the University of Oklahoma as a one-stop information and welcome center. This “front door” of the University is housed in historic Jacobson Faculty Hall and provides regular, guided tours for prospective students and advanced-scheduled group tours. Free parking passes for campus visitors are available at the Visitor Center. An extensive collection of photographs and art depicting the history and heritage of the

University fills the Visitor Center. It also has been designated as a local Tourism Information Center by the Oklahoma Tourism & Recreation Department to provide state travel information. For complete visitor and tour information: Visitor Center (405) 325-2151 or 1-800-234-6868; or tour@ou.edu.

South Campus

Immediately adjacent to central campus is the south campus, site of the College of Law; the OU Foundation; OU Traditions apartments; the world-class Sam Noble Oklahoma Museum of Natural History; Lloyd Noble Center and parking complex; the John Crain Field at the OU Soccer Complex; the Headington Family Tennis Center; the Gregg Wadley Tennis Pavilion; the Jimmie Austin University of Oklahoma Golf Course; L. Dale Mitchell Baseball Park; the Marita Hynes Field – OU Women's Softball Complex; the Sam Viersen Gymnastics Center; the OU Rugby Field; the OU Rowing Training Center; and the OU Learning Center.

Research Campus

In less than a decade, the 277-acre OU Research Campus has been transformed from an empty field to a thriving economic engine shaped by a community of public and private sector collaborations located in nearly 1 million square feet of occupied space representing \$300 million in investment. Today, the Research Campus brings together 1,700 workers across academic, federal, state and industrial organizations in a mutually beneficial environment.

The National Weather Center, a 257,000 square-foot facility that opened in 2006, anchors the OU Research Campus on the south. The Center houses both academic and federal groups dedicated to forecasting, research and training. The Stephenson Research and Technology Center and the Stephenson Life Sciences Research Center house cutting-edge research in fields including robotics, genomics, bioengineering and the OU Department of Chemistry and Biochemistry, which includes a National Institutes of Health-funded structural biology program. A series of five “Partners Place” buildings, totaling 362,000 square-feet, enable the public and private sector collaboration on weather and radar research; innovation and entrepreneurship; and water, climate, and energy. The OU Innovation Hub serves as a creative space for students and faculty in support of invention and entrepreneurship. Additionally, a 35,000 square-foot “one of a kind” Radar Innovations Laboratory opened in 2015.

OU's Research Campus has been certified by the Oklahoma Department of Commerce as Site Ready, which allows the University to capitalize on fast-moving economic opportunities and enables site selectors to readily find quality land and facilities that meet nationally established criteria. OU's Research Campus was named the nation's top research park for 2013 by the Association of University Research Parks, placing it among such past recipients as Research Triangle Park in North Carolina, Purdue Research Park in Indiana and University City Science Center in Pennsylvania.

North Campus

North campus, which is two miles north of the main campus, includes the Merrick Computer Center; Max Westheimer Airport, the University-operated airport that also serves the City of Norman; and Swearingen Research Park, where government agencies and industry have established facilities.

Other research and study units of the University include the Biological Station on Lake Texoma; the Sutton Avian Research Center in Bartlesville; the Oklahoma Geophysical Observatory at Leonard near Tulsa; the Aquatic Biology Fisheries Research Center in Noble near Norman; and

the Oklahoma Biological Survey, the Oklahoma Archeological Survey and Charles M. Russell Center for the Study of Art of the American West in Norman. In addition, the Oklahoma Geological Survey is a state agency mandated in the Constitution of Oklahoma, and is part of the Mewbourne College of Earth and Energy at the University of Oklahoma.

Health Sciences Center

The University of Oklahoma Health Sciences Center (OUHSC) is one of the most comprehensive academic health centers in the nation, with programs in Oklahoma City, Tulsa, and Lawton; six professional Colleges and the Graduate College; research centers of excellence such as the Stephenson Cancer Center, Harold Hamm Diabetes Center, and Dean McGee Eye Institute; and the state's largest clinical group practice OU Physicians with over 1,200 credentialed providers. Students enroll in programs at the College of Allied Health, College of Dentistry, College of Medicine and School of Community Medicine, Fran and Earl Ziegler College of Nursing, College of Pharmacy, Hudson College of Public Health, and Graduate College.

The OUHSC prepares healthcare professionals and scientists to meet tomorrow's most complex healthcare needs, through research, discovery, and interdisciplinary education experiences. The OUHSC is a premier healthcare training institution for over 3,300 students, 80 post-doctoral researchers, and 800 residents and fellows, graduating physicians, biomedical and clinician scientists, nurses, dentists, pharmacists, allied health professionals, and public health leaders. Prominent OUHSC researchers receive the largest portfolio of National Institutes of Health (NIH) funding in the state, and commercialize new treatments and diagnostic tests, utilizing state-of-the-art research facilities such as the University Research Park, Stanton L. Young Biomedical Research Center, and Oklahoma Medical Research Foundation (OMRF). The Stephenson Cancer Center is the only National Cancer Institute (NCI) designated Center in Oklahoma and in the top 2 percent nationwide.

The OUHSC is a founding partner with the University Hospitals Authority and Trust of the academic health system OU Medicine, which includes OU Medical Center, The Children's Hospital, and OU Medical Center Edmond. The OUHSC and OU Medicine combine efforts as the only research-driven healthcare system in Oklahoma, with treatment options and expertise found nowhere else. The Tulsa campus is part of the OU Medicine statewide system partnership, and also has academic and clinical affiliations with the Hillcrest, St. Francis, and St. John health systems. OUHSC has additional affiliations with the Veterans Administration Medical Center in Oklahoma City, and other hospitals, clinics, health departments, and healthcare facilities across Oklahoma.

Scientists, scholars and clinicians at the OUHSC deliver healthcare solutions through bench-to-bedside-to community research and through training the state's most comprehensive and skilled health workforce. The OUHSC is an essential partner for the state to improve health outcomes and drive economic growth and diversification.

For more information, see the OU Health Sciences Center (p. 1616) section in this catalog.

OU-Tulsa Schusterman Center and Polytechnic Institute

The OU-Tulsa Schusterman Center is located in the heart of mid-town Tulsa at 41st and Yale. On this campus both the OU Health Sciences Center and the OU Norman Campus offer programs. The vision of OU-

Tulsa is to build a nationally-recognized center of higher education excellence in select areas that emphasize strong campus community partnerships and leverage unique opportunities and needs in the Tulsa region.

OU has a long history in the Tulsa area. The earliest program of the University of Oklahoma in Tulsa started in 1957 as a partnership with the Tulsa City-County Library. This program averaged 50 students a year and was one of the first programs to be part of the Tulsa Graduate Center, which became University Center at Tulsa in 1982. Recognizing the potential community impact of an expansion of OU services in Tulsa, the Oklahoma Legislature enacted Senate Bill 453 in 1972 that created a clinical branch of the University of Oklahoma College of Medicine in Tulsa. Today, the OU College of Medicine in Tulsa enrolls medical students and trains 181 residents who conduct 200,000 patient visits annually at the college's ambulatory clinics.

Although OU's presence in Tulsa has been longstanding, it changed dramatically in 1999. As a result of the transformational \$10 million gift from the Charles and Lynn Schusterman Family Foundation and the leadership of President David L. Boren, OU was able to purchase 60 acres at the corner of 41st and Yale, previously the BPAmoco Research Center. The OU programs in Tulsa had been located in a wide variety of physical locations. By the fall of 2002, all OU academic programs in Tulsa were located at the Schusterman Center campus. This campus has allowed OU to better serve the community by providing a strong, centralized identity in Tulsa.

In February of 2008, the George Kaiser Family Foundation made a \$50 million gift to the OU College of Medicine in Tulsa allowing the College of Medicine to have the explicit focus to improve the health status of underserved communities. To reflect that change, the name of the College of Medicine in Tulsa was changed to the OU School of Community Medicine, the first in the nation. The School of Community Medicine remains an integral part of the OU College of Medicine. The University of Tulsa and the University of Oklahoma welcomed its first class of students to the School of Community Medicine four-year educational track in Tulsa in 2015. The Tandy Education Center also opened in 2015 and is a space that provides students the opportunity to practice lifelike circumstances using models and virtual reality. It is a state-of-the-art facility that features the latest advances in medical simulation.

See Explore OU-Tulsa Colleges & Majors for a listing of degree programs offered at the Schusterman Center. All bachelor degree programs at OU-Tulsa are degree completion programs.

Future students or others interested in programming at the OU-Tulsa Schusterman can visit the OU-Tulsa website or call (918) 660-3318.

Polytechnic Institute

First announced in 2022, the OU Polytechnic Institute (OUPi) represents a significant advancement for the Tulsa community and region, aiming to address the growing demand in northeast Oklahoma for highly skilled workers in essential STEM fields. This initiative underscores the region's commitment to becoming a leading center for technological growth and employment opportunities. Developed in collaboration with industry leaders, the school's curriculum is specifically designed to rapidly establish northeast Oklahoma as a technological hub, fostering economic growth and job creation. By offering cutting-edge programs, OUPi equips graduates with the skills to revolutionize Oklahoma's industries.

The Polytechnic Institute embodies learning by doing, providing a practical education in today's digital landscape. The program incorporates a strategic breadth of study coupled with integrated content designed to provide mastery in essential work ready skills including terminal proficiency, collaboration (comprehensive project portfolio), and demonstrable project management and delivery. Additionally, the curriculum is designed to build a student's professional network with other students, faculty as well as local and national employers. It's about fueling innovation through technology and preparing students in Tulsa to propel Oklahoma forward. This approach not only enriches the educational experience but also prepares students to meet the challenges of the future, driving innovation and leadership in the tech sector.

OUPI focuses on high-demand, advanced and applied technology-based education and prepares graduates to transform industries in Oklahoma. From curriculum to on-site training, programs at OUPI will help meet the changing academic and workforce needs of the Tulsa region largely thanks to our close working relationship with industry partners.

Future students or others interested in OUPI programs, visit the OU Polytechnic Institute website or call (918) 660-3456.

Continuing Education

OU Extended Campus - College of Professional and Continuing Studies

OU Extended Campus - College of Professional and Continuing Studies (EC-PACS) exists to provide access to transformational, world-class University of Oklahoma degrees, certifications, and programs for a diverse group of learners. OU Extended Campus is best characterized by the populations it serves, as well as the specialized academic programming it offers. Primarily focusing on the higher education needs of place-bound working adults, military-connected personnel, and those seeking specialized study in selected professional areas (such as Aviation), the College offers a variety of degrees at both graduate and undergraduate levels, including several programs offered collaboratively with other OU Colleges, and utilizing a variety of delivery modes (fully online, hybrid, onsite, cohort-based, etc.). To facilitate understanding of the complex world in which we live and building on its historical roots, the College emphasizes a holistic approach to learning, focuses on the immediate application of learning to one's life and work, promotes lifelong learning opportunities, and encourages the work of active citizenship.

While its programs were originally developed for adult and non-traditional students, many of the activities offered by the College also serve students enrolled in conventional academic programs, as well as the general public. Therefore, in addition to the full-time degree program offerings noted above, EC-PACS is also committed to meeting the educational needs of a wide variety of learners and organizations seeking smaller scale academic options, including credit courses, workshops, academic conferences, certification programs, executive academic programs and academically-oriented professional training services.

For more information, see the College of Continuing Education (p. 1002) and College of Professional and Continuing Studies (p. 1775) sections in this catalog.

Facilities and Resources

University of Oklahoma Libraries

Denise Stephens, Dean of University Libraries
401 W. Brooks St. Norman, OK 73019
Phone: (405) 325-3341
libraries.ou.edu

The University of Oklahoma Libraries in Norman, Oklahoma City, and Tulsa are at the core of the University and serve as an intellectual center for interdisciplinary innovation to all OU students, staff and faculty. The research library facilities on the Norman campus include Bizzell Memorial Library and separate branch libraries for architecture, fine arts, and geology/engineering. The OU College of Law has a separate library in its facility, the Donald E. Pray Law Library. The Robert M. Bird Health Sciences Library at the OU Health Sciences Center supports teaching and research in medicine, nursing, dentistry, pharmacy, and health-related disciplines. The Schusterman Library at OU-Tulsa supports students enrolled in Tulsa-based programs.

Bizzell Memorial Library

Bizzell Memorial Library, the main library on the Norman campus, consists of an original building constructed in 1929 and a large addition completed in 1958. The 1929 building was recently declared a National Historic Landmark and contains the Peggy V. Helmerich Great Reading Room, an elegant room beloved by students and alumni. The Doris W. Neustadt Wing was built in 1982 and added 150,000 square feet to the library facility. The library includes technology-enabled learning spaces, quiet and collaborative study areas, as well as the popular Bookmark Café Coffee Shop, and the Oklahoma Canyon Garden, which offers an outdoor area for reflection and study. Recent renovations have updated existing spaces to create the Peggy V. Helmerich Collaborative Learning Center, the Learning Lab, the Innovation @ the Edge learning space, and the Zarrow Family Faculty and Graduate Student Center.

General Collections

The collections in the libraries total more than 6 million volumes, including 1.3 million eBooks, 3.6 million microform materials and 116,000 serials subscriptions. The libraries also maintain over 17,000 linear feet of manuscripts and archives, 1.6 million photographs, and more than 1.5 million maps. It also holds more than 70 incunabula (books printed before 1501), the oldest one of which was published in 1467.

Special Collections

In addition to the general collections, there are notable special collections.

Boorstin Collection

The Boorstin Collection is used for quiet study and reading books from the collection and is located on the main floor of the library. The facilities for the Daniel J. and Ruth F. Boorstin Collection were made possible by a generous gift from ConocoPhillips Inc.

Chinese Literature Translation Archive

The Chinese Literature Translation Archive provides students and scholars with a wide range of rare books, reference materials, translation drafts, correspondence, notes, ephemera, and other historical materials that provide context for Western readers to gain a deeper understanding of Chinese literature. The archive currently houses nearly 10,000 volumes and thousands of documents from some of the greatest translators of modern Chinese literature in the West including Howard Goldblatt, Wolfgang Kubin, Wai-lim Yip and the "William Bikales and Margaret Eliot Grady Collection" of Arthur Waley. The mission of the archive is to improve the material conditions for translation students and for comparative and world literature by providing the materials necessary for historically informed research supported by the richly textured intellectual environments within which translation takes place.

Bass Business History Collections

The Harry W. Bass Business History Collection began in 1955 with the purpose of collecting and preserving materials relating to the history of business and industry. The collection contains books, microforms, videos and journals on a number of topics including the histories of business leaders and firms and the economic, social and political forces that influence the role of business in society.

History of Science Collections

The History of Science Collections, located on the 5th floor of Bizzell Memorial Library, is a premier research collection in its field. Holdings of nearly 100,000 volumes from every field and subject area of science, technology and medicine range chronologically from Hrabanus Maurus, *Opus de universo* (1467) to current publications in the history of science.

The John and Mary Nichols Rare Books and Special Collections

The John and Mary Nichols Rare Books and Special Collections are comprised of rare books and special materials in English, European and American literature dating from the 15th century to the present. A collection of general rare books, including several incunables, and a Bible collection complement the focal literature collections. These collections offer opportunities for interdisciplinary research in such fields as literary studies, the history of printing, and religion.

Western History Collections

The purpose of the Western History Collections is to enhance the University Libraries general collection on the history of the American West; to support the research and teaching programs of the University of Oklahoma; and to provide opportunities for research through the

acquisition, preservation, and access of materials relating to the development of the Trans-Mississippi West and Native American cultures.

William Bennett Bizzell Bible Collections

In addition to more common European languages such as Greek, Latin, German, French and Spanish, President Bizzell collected many Bibles in numerous other languages such as Cherokee, Muskogee, Hindi, Swahili, Javanese, Mongolian, Tartan, Mooltan, and Turkish. Additional related works include commentaries, textual studies, illustrations, geographies and histories of the holy land, works on the life of Christ, prayer books and hymnals. The collection contains 665 Bibles, including several incunabula (books published in the infancy of printing, before 1500). The oldest book is a hand-painted manuscript prayer book written on vellum in the fifteenth century. The Bizzell Bible Collection is housed in the Gaylord Room on the 5th floor of the Bizzell Memorial Library.

Branch Libraries

The University Libraries include three branch libraries:

- **Fine Arts Library** (20 Catlett Music Center), (405) 325-4243
- **National Weather Center Library** (120 David L. Boren Blvd., Suite 4300), (405) 325-1171
- **Youngblood Energy (Geology & Engineering) Library**, 220 Sarkeys Energy Center, (405) 325-6451

Services

Library Website and Catalog

The University of Oklahoma Libraries provides a wealth of electronic, print and non-print resources. Students may access many library resources through the Libraries' website, available 24 hours a day, 7 days a week. The library catalog and website provide access to databases, books, e-journals, high-quality websites, government documents, and e-reference materials.

Circulation, Interlibrary Loan, and Sooner Xpress

Most library materials are available for loan to students and faculty. Circulation policies are available on the library website. Materials not held by the libraries may be obtained through interlibrary loan services on all three campuses. Delivery on-campus is available via Sooner Xpress.

Ask Us Reference Services

Reference and information service is available in all library facilities, in person, by telephone, by e-mail, and through instant message. Individuals may visit the reference desk at their convenience for assistance with questions, assignments or specific databases. They may also arrange an appointment with a librarian to discuss library resources and research questions. Questions may be sent via email a librarian at librarian@ou.edu.

Library Instruction

The libraries provide instructional services to teach students and faculty how to access, evaluate, and use a variety of information sources. These services range from general orientation activities to classroom instruction designed to meet specific research needs.

Online Tutorials

Online tutorials are available to help students learn how to evaluate and understand scholarly information, search electronic databases, search the catalog and request books and other materials through interlibrary loan.

Government Documents

State, federal and foreign government publications are collected and made available through the Government Documents unit. Reference services and instructional sessions specific to government documents are available upon request.

Digital Scholarship

Through workshops, consultation, and training, our Digital Scholarship Specialists help faculty and graduate students identify innovative digital tools and resources that build on traditional research and teaching methods.

Helmerich Collaborative Learning Center

The Helmerich Collaborative Learning Center is a technology enabled, collaborative space where students can work together in groups. In this space, students can learn to create information, to explore it visually, and to synthesize it in new and different ways. Visit the Bookmark Café to grab a cup of coffee, and talk with a professor, colleague, or with friends.

Innovation @ the Edge

Innovation @ the Edge is a flexible experimentation and innovation space that provides access to the latest tools used in research, instruction and knowledge creation, including 3D printing tools, custom virtual reality workstations, software and data skill development and microelectronics kits. Any member of the OU community, from any field, is free to prototype concepts or fly-through 3D data sets in this centrally located makerspace in the Bizzell Memorial Library, room 126.

Learning Lab

The Learning Lab on Lower Level 1 provides presentation consultations from library personnel as well as other services that support student success such as the Writing Center and UC Action Tutoring.

Loveridge Computer Lab

The Loveridge Computer Lab is located on the main floor of Bizzell Memorial Library, next to the West entrance and across from the main Circulation Desk. A number of computers are available for OU students, staff, and faculty; additionally, customers not affiliated with OU can request a guest log-in from the computer lab staff. A variety of software is available for all users. Multiple scanners and printers are also available in this lab.

Zarrow Family Faculty and Graduate Student Center

Located on Lower Level 2 of Bizzell Memorial Library, the Zarrow Family Faculty & Graduate Student Center is a space dedicated to supporting the research and teaching needs of OU faculty and graduate students in a central campus location. The center enables members of the academic community to access the wide variety of information resources available through OU Libraries creatively, analytically, and critically in pursuit of academic goals.

Data Analytics, Visualization & Informatics Syndicate

DAVIS, located in the Zarrow Family Faculty and Graduate Student Center, supports OU community members with their data needs. Specialists and graduate assistants who are familiar with working with data, including management, analysis, and visualization are available for consultation. With the ability to ask questions and receive guidance, DAVIS helps faculty, researchers, and students work with their data.

Other Services

OU Libraries offers a wide range of services for students, staff, faculty, visiting scholars, and the community. In addition to print and digital resources, services are available to help students plan, get research

assistance, share their research, access scholarly tools and publication resources.

OU Information Technology

OU Information Technology (OU IT) offers the following world class technology services to help you succeed at the University of Oklahoma.

- **OUNetID** – Set up your account at one.ou.edu/account to access the services outlined below. Additionally, you can set up your email alias, sign up for emergency communications, and update your emergency contacts.
- **WiFi@OU** – Connect to WiFi@OU across campus for dependable, secure, and speedy access to network and Internet resources.
- **OU.edu Email** – Check your OU email for official communications from departments and colleges at outlook.office.com.
- **ONE Student Portal** – View your schedule or grades, accept financial aid, prepare for enrollment, pay your bursar account and more – all in one place – at one.ou.edu.
- **OU App** – Download OU's mobile app on iOS or Android at the **Apple App Store** or the **Google Play Store** to access important student services, including a campus map, directory, bus routes, etc.
- **Canvas Course Management** – Access course information and assignments, view grades, and stay in touch with your professors at canvas.ou.edu.
- **Office 365** – Use Microsoft's full suite of online services for FREE or download and install Word, Excel, PowerPoint, and more on your own devices at portal.office.com.
- **Academic Technology** – Enhance your learning experience with classroom technology, remote learning using Zoom, computer labs equipped with PC and Apple workstations, printers, and work areas specifically designed to meet the guidelines for computing as specified in the Americans with Disabilities Act.
- **LinkedIn Learning** – Visit linkedin.com/learning for FREE, unlimited access to instructional videos covering the latest software, creative, and business skills.
- **WEPA Cloud Campus Printing** – Print from your laptop, USB, or mobile device to one of our cloud printing kiosks on campus. For more information, visit print.ou.edu.

Need Help?

Call us at (405) 325-HELP (4357) or visit needhelp.ou.edu for a full list of support options, including live chat, 24x7x365 self-help, ticket requests, or in-person support at one of our Service Center locations.

Museums and Collections

For many years the University has received gifts of artistic and scientific value from alumni, collectors and friends of the University. As a result, the Fred Jones Jr. Museum of Art, the Sam Noble Oklahoma Museum of Natural History, and the Charles M. Russell Center for Study of Art of the American West possess many valuable collections.

The Fred Jones Jr. Museum of Art

555 Elm Ave., Norman, OK 73019
 Phone: (405) 325-4938
museuminfo@ou.edu
www.ou.edu/fjjma/

Located at the intersection of Boyd Street and Elm Avenue, the University of Oklahoma's Fred Jones Jr. Museum of Art is one of the finest university art museums in the United States.

In 1936, with the acquisition of a large collection of East Asian art (750 objects), the generous gift of Lew Wentz and Gordon Matzene, the University of Oklahoma Museum of Art was officially founded and Jacobson was named its director. By this time, Jacobson had already collected more than 2,500 works of art for the University. The new museum's first galleries were in what is now Jacobson Hall. In 1948, the permanent collection was further embellished with the purchase of the so-called State Department Collection, comprised of 36 paintings from the exhibition *Advancing American Art* and including major works by artists such as Stuart Davis, Georgia O'Keeffe, and Edward Hopper.

Jacobson's vision of a permanent facility to house the art finally came to fruition in 1971, when Mr. and Mrs. Fred Jones of Oklahoma City donated a fine arts building to the University in memory of their son, Fred Jones, Jr., who had died in an airplane crash during his senior year at the University of Oklahoma. The resulting structure, the Fred Jones Jr. Memorial Art Center, housed the Museum of Art, which contains 15,000 square feet of exhibition space, the School of Art, and the administrative offices of the College of Fine Arts. In 1992, the Museum of Art was re-designated the Fred Jones Jr. Museum of Art.

Over the years, the museum's permanent collection has grown exponentially through the generosity of donors such as Max Weitzenhoffer and Jerome M. Westheimer Sr. In 1996, with an initial gift of \$1 million from Mrs. Fred Jones, OU President and Mrs. David L. Boren spearheaded a successful fundraising campaign to acquire the important collection of the late Richard H. and Adeline J. Fleischaker, which is composed primarily of Native American and Southwestern art.

2000 was a watershed year in the development of the FJJMA's collections, with the gift of the Weitzenhoffer Collection of French Impressionism, which consists of 33 works of art by Degas, Gauguin, Monet, Pissarro, Renoir, Toulouse-Lautrec, Van Gogh, Vuillard, and others. It is the most important collection of French Impressionism ever given to an American public university. The gift came to the University at the bequest of Clara Weitzenhoffer, an art collector and longtime University of Oklahoma supporter.

In 2005, the museum opened a new addition, designed by acclaimed architect Hugh Newell Jacobsen of Washington, D.C. Named in honor of Mary and Howard Lester of San Francisco, the wing added more than 34,000 square feet to the earlier 27,000-square-foot building. The Lester Wing features galleries for the Weitzenhoffer Collection, additional galleries, a 150-seat auditorium, an orientation room, a classroom, a museum store, and a new main entrance. Jacobsen designed the Lester Wing as a sequence of limestone pavilions having pyramidal slate roofs with glass skylights at their apexes. The building features an abundance of natural light, pure geometries, clarity of plan, and well-proportioned, top-lighted galleries that have an intimate, human scale. The resulting serene, contemplative spaces put the visitor in the proper frame of mind for viewing works of art.

The Adkins Foundation Board announced in July 2007 that the Fred Jones Jr. Museum of Art and the Philbrook Museum of Art in Tulsa had been jointly selected to steward the Eugene B. Adkins Collection. The joint partnership by OU and the Philbrook was among many proposals submitted by leading museums across the country. The Adkins Collection, which is valued at approximately \$50 million, features approximately 3,300 objects, including more than 400 paintings by such distinguished American artists as Maynard Dixon, Worthington Whittridge, Andrew Dasburg, Alfred Jacob Miller, Victor Higgins, Charles M. Russell, Nicolai Fechin, John Marin, William R. Leigh, Leon Gaspard, and Joseph H. Sharp. The collection also includes impressive examples of Native American paintings, pottery, and jewelry by such famed Native American artists as Jerome Tiger, Maria Martinez, and Charles Loloma.

In spring 2010, Arizona-based James T. Bialac decided to give his private collection to OU because of the University's commitment to excellence in education. The multimillion-dollar collection of more than 4,500 works represents indigenous cultures across North America, especially the Pueblos of the Southwest, the Navajo, the Hopi, many of the tribes of the Northern and Southern Plains, and the Southeastern tribes. Included in the James T. Bialac Native American Art Collection are approximately 2,600 paintings and works on paper, more than 1,000 kachinas, and 400 works of varying media, including ceramics and jewelry, representing major Native artists such as Fred Kabotie, Awa Tsireh, Fritz Scholder, Joe Herrera, Allan Houser, Jerome Tiger, Tonita Peña, Helen Hardin, Pablita Velarde, George Morrison, Richard "Dick" West, Patrick DesJarlait and Pop Chalee.

The Stuart Wing, which opened in October 2011, provides a new 18,000-square-foot expansion of the Fred Jones Jr. Museum of Art to house the museum's many collections acquired within the past 15 years. Designed by noted architect Rand Elliott, the addition is named to honor a \$3 million lead gift from the Stuart Family Foundation made possible by the generosity of OU Regent Jon R. Stuart and his wife, Dee Dee, a member of the art museum's board of visitors. Construction on the new wing began in 2009 and includes renovations to the original 1971 building and the addition of the Eugene B. Adkins Gallery, a new photography/works on paper gallery, and new administrative offices. In all, the new Stuart Wing, with renovations, includes 27,480 square feet of exhibition space.

Combining that with the 2005 Lester Wing's 12,106 square footage, the total museum exhibition space, is approximately 40,000 square feet.

In November 2012, the University of Oklahoma announced a new annual \$60,000 gift from the OU Athletics Department that now provides free admission for all visitors to the Fred Jones Jr. Museum of Art in perpetuity. This unique collaboration between athletics and art is one of the first in the United States creating free admission for a university art museum through a university athletics program.

The museum serves the educational needs of the University and the extended community through programs coordinated with the University faculty and the state's school districts. Museum information and art curriculum guides are provided to teachers and University faculty, and the museum sponsors the pARTner project, an arts education program that reaches 1,200 Norman Public School students annually.

Lectures, videos, and films complement the permanent collection and special exhibitions. Programs such as Art "à la Carte," Family Days, Art Adventures, Tuesday Noon Concerts, and Art After Noon utilize the museum's galleries, classroom, and auditorium and make the arts accessible to tens of thousands of visitors throughout the year. Tours are offered to all ages.

Sam Noble Oklahoma Museum of Natural History

2401 Chautauqua Ave., Norman, OK 73072-7029
Phone: (405) 325-4712
samnoblemuseum.ou.edu/

The Sam Noble Oklahoma Museum of Natural History, located just south of the intersection of Timberdell Road and Chautauqua Avenue, has extensive collections in earth, life and social sciences, including more than seven million specimens and artifacts. These collections represent a vast and irreplaceable resource of the natural and cultural heritage of Oklahoma and many other parts of the world. The SNOMNH is the official museum of natural history for the state of Oklahoma as well as an independent research unit of the University of Oklahoma. The museum curators conduct original research and teach in their collection areas, while overseeing the research of graduate students and visiting scientists. The curators also maintain an active lending program that makes specimens available to scholars throughout the world. The collections provide the basis for a variety of exhibitions, public service programs and educational activities. Major collection areas include vertebrate and invertebrate paleontology, archaeology, classical art, entomology, ethnology, herpetology, ichthyology, invertebrate zoology, mammalogy, ornithology, paleobotany and Native American languages.

The 198,000-square-foot facility contains space for extensive permanent and traveling exhibits as well as a café, gift shop, education classrooms and a hands-on Discovery Room.

- The **Siegfried Family Hall of Ancient Life** leads visitors on an adventure through time. Visitors begin their journey in

Oklahoma's Precambrian seas where they can view the wealth of Paleozoic marine life known from our state. Mesozoic exhibits showcase the Age of the Dinosaurs and feature the largest *Apatosaurus* and *Pentaceratops* in the world, as well as *Saurophaganax maximus*, Oklahoma's official state fossil and the largest of the Jurassic predators. Cenozoic exhibits tell the story of the many unusual mammals that lived in Oklahoma after the extinction of the dinosaurs until the end of the last Ice Age, including the Columbian mammoth and *Smilodon*, the sabre-toothed cat.

- The **Noble Drilling Corporation Hall of Natural Wonders** features the diverse plant and animal life of Oklahoma in a series of realistic "immersion" style walk-through dioramas. Visitors can view an oak and hickory forest, examine life in an Ozark stream, explore a walk-through limestone cave, and learn about life in the mixed grass prairie.
- The **McCasland Foundation Hall of the People of Oklahoma** tells the fascinating story of human history in Oklahoma, from the earliest archaeological evidence of humans in the state, around 30,000 years ago, to modern Native Americans living in Oklahoma today. Highlights include the "Cooper skull," the skull of an extinct bison painted with a lightning bolt design which, at 10,000 years old, is the oldest painted object in North America. Visitors to this gallery also can experience reproductions of the houses made by the Mississippian people, builders of Oklahoma's famous Spiro Mounds, and see examples of modern era objects from the museum's extensive Native American collections.
- The **Merkel Family Foundation Gallery of World Cultures** features objects from around the world, chosen from the museum's diverse ethnology collection. The objects represent cultures from Oceania, Tibet, Peru, India and West Africa. Highlights include a carved wooden ancestor figure from Papua New Guinea, ceremonial masks from Mexico and Africa, stone seals from China and a boomerang from Australia. This gallery also displays examples from the museum's collection of classical Greek and Roman antiquities, featuring coins, glasswork, black-figure pottery and a large section of a mosaic found in Antioch (modern Turkey), dating to around 100 CE.
- The **Fred and Enid Brown Native American Art and Special Exhibitions Gallery** and the **Dorothy C. Higginbotham Special Exhibitions Gallery** are spaces for special exhibitions both from the museum's own collections and from other museums around the world. Check the museum's website for a listing of current and upcoming exhibitions.

With collections that document 500 million years of Oklahoma's natural history, the SNOMNH is one of the finest university-based natural history museums in the world. The museum is open 10 a.m. to 5 p.m. Monday through Saturday and 1 to 5 p.m. on Sunday. It is closed Thanksgiving, Christmas and New Year's Day.

The museum also is available for after-hours rental for banquets, receptions and other events. For more information, visit the museum's website or call (405) 325-4712.

Charles M. Russell Center for the Study of Art of the American West

520 Parrington Oval, Room 202, Norman, OK 73019-3011 (mailing)
 409 West Boyd, Norman, OK 73069 (physical)
 Phone: (405) 325-5939
russellcenter@ou.edu
www.ou.edu/finearts/visual-arts/explore/charles_m_russell_center

Founded in 1998, the Charles M. Russell Center for the Study of Art of the American West is the first such university-based program in the nation. The center, which opened to the public in the fall of 1999, is dedicated to the pursuit and dissemination of knowledge in the field of American art history as it relates to the western United States. Through its resource center, national symposia, course offerings and related outreach programs, the Russell Center actively engages students and the public in developing a better understanding of, and appreciation for, 19th- and 20th-century Euro-American and Native American artistic traditions. Special emphasis is given to art of Charles M. Russell and his contemporaries.

The Russell Center was established concurrently with the Charles Marion Russell Chair, an endowed professorship in art history at the University of Oklahoma. Both the center and the endowed chair were made possible through a generous gift from the Nancy Russell Trust and matching funds from the state of Oklahoma. Administered through the School of Visual Arts and the Weitzenhoffer Family College of Fine Arts, the Russell Center operates in concert with several of the University of Oklahoma's other distinguished branches including the Western History Collections, Fred Jones Jr. Museum of Art, Sam Noble Oklahoma Museum of Natural History, and the departments of History, Literature, Native American Studies and Film and Video Studies. The Russell Center also actively interfaces with institutions across the country, including museums of Western art and universities that support related programs or collections of Western material culture or art.

The Russell Center is both a facility and a program designed to inspire and excite interest in the study of American Western art, an aesthetic history that enjoys both a regional and a national dimension. While a branch of American art, Western art also incorporates European artistic traditions that have, over time, been adapted to themes, experiences and environments unique to the western United States. Art of the American West also encompasses Native American cultures as both subjects of art and as creative forces.

During much of America's history, the West has been a defining national symbol. Although considered a region by Euro-Americans, the West was also a myth, a dream and inspiration, a collection of individual experiences, a process of westering and a destination. For Native Americans, however, process and destination played little part in their thinking. For them, the West was something spiritual as well as physical, a sacred domain as well as a common home. The center's course of study in the art of the American West seeks to discover what the West symbolized and to whom and why.

DIVISION OF ENROLLMENT MANAGEMENT

Administrative Staff

Jeff Blahnik, Vice President for Division of Enrollment Management;
Chief Enrollment Officer

Dorion Billups, Director of Connection & Student Engagement

Morgan Brammer, Assistant Vice President Division of Enrollment
Management; Executive Director Office of Admissions & Recruitment

Danielle Dunn, Director of Marketing & Communications

Kellie Dyer, Registrar

Craig Hayes, Director of Admissions & International Recruitment

Courtney Henderson, Executive Director of the Financial Aid Services;
Chief Student Financial Aid Officer

Mike Hinderman, Director of the Scholarship Office

Chris Kennedy, Director of Strategic Technology

Trish Koonce, Director of Administration & Compliance

Allison Stanford, Director of Training & Development

Kimberly West, Director of National Recruitment

Located mainly in Buchanan Hall and Jacobson Hall, the Division of Enrollment Management is the gateway to the University of Oklahoma. The following administrative areas and offices combine to form the Division of Enrollment Management: Office of Admissions and Recruitment, Office of the Registrar, Student Financial Center, Financial Aid Services, Scholarship Office, Enrollment Management Communications and Marketing, Administration and Compliance, Strategic Technology and Training and Development.

- Office of Admissions & Recruitment (p. 29)
- Student Financial Center (p. 36)
- Financial Aid Services (p. 38)
 - MoneyCoaches (p. 39)
- Scholarship Office (p. 39)
- Office of the Registrar (p. 39)
 - Academic Records (p. 40)
 - Registration and Student Services (p. 48)
 - Veteran Student Services (p. 51)

Undergraduate Admission

The admissions process at the University of Oklahoma seeks to identify applicants who will successfully complete a college preparatory academic program and contribute to the diverse intellectual, cultural and social environment of the University. The University of Oklahoma welcomes inquiries regarding admission requirements and application procedures. The Office of Admissions & Recruitment assists prospective undergraduate students – both freshman and transfer – with the admissions process by providing information on admission requirements, financial aid, scholarship opportunities, housing, and student life. This office also serves as a visitor information center and provides tours of the campus to prospective students, their families, and other university guests.

Application Deadlines

Freshman Application Deadlines

Undergraduate, U.S. citizens, and permanent residents applying for freshman admission should submit applications as early as possible (please refer to When To Apply), but applications must be received by the Office of Admissions & Recruitment by the following dates:

- February 1 - summer session
- February 1 - fall semester
- November 1 - spring semester

See Freshman Admissions for more information.

International Students applying for freshman admission must also observe the following deadlines to submit application support materials:

- Credential deadlines
 - March 15 - summer session
 - April 15 - fall semester
 - November 15 - spring semester

See International Undergraduate Admission for more information.

Transfer Application Deadlines

Undergraduate, U.S. citizens and permanent residents applying for transfer admission:

- April 1 - summer session
- June 1 - fall semester
- November 1 - spring semester

See Transfer Admissions for more details.

International students applying for transfer admission:

- Application deadlines
 - February 1 - summer session
 - April 1 - fall semester
 - September 1 - spring semester
- Credential deadlines
 - March 1 - summer session
 - May 31 - fall semester
 - November 1 - spring semester

See International Undergraduate Admission for more information. International students are considered to be those applicants who require a temporary, non-immigrant United States visa or immigration status. Students who have established permanent resident status in the United States are not considered international students.

Credentials

To be considered for admission, applicants must submit official and complete academic credentials.

Applicants may not disregard any part of their educational history, and failure to report all institutions previously attended will be cause for cancellation of the admissions process or for dismissal. All credentials submitted for admission to the University of Oklahoma become the property of the University and will not be returned or released.

Application Fee

Applicants to the University of Oklahoma must pay a non-refundable application-processing fee.

Resident Status

All applicants are classified as resident or non-resident for purposes of admission and tuition based on information provided on the application for admission. Applicants may be required to submit evidence to substantiate their claim to resident classification.

A uniform policy concerning resident status exists for all state-supported institutions of higher education in Oklahoma. See the OU In-State/Out-of-State Tuition Policy for resident status information.

Questions concerning resident status should be directed to the Office of Admissions and Recruitment, (405) 325-2151.

English Proficiency

All new applicants to the University for whom English is a second language, including those holding permanent resident status, are required to present evidence of proficiency in the English language prior to admission. The intent of this policy is to ensure that students for whom English is not a native language have a reasonable chance to succeed academically based on their ability to comprehend and use spoken and written English.

Undergraduate applicants may satisfy the English proficiency requirement in one of several ways which are stated in English Proficiency section on the International Undergraduate Admission web page.

Admission of Freshmen

How to Apply

Apply online through the Common Application, Apply Coalition with Scoir, or the OU Application and submit the following credentials:

- Official high school transcript reflecting at least six semesters of work completed
- Self-reported ACT and/or SAT scores; official copies of ACT and/or SAT scores will be required at a later date for all who enroll (optional)
- Letter of Recommendation (optional)
- An official transcript from any collegiate institution you have attended as a concurrently enrolled/dual credit student
- Official copies of any AP or CLEP test scores

When to Apply

Prospective students are encouraged to apply as soon as possible after August 1 at the start of their senior year of high school in order to maximize opportunities for housing, financial aid, scholarships, and early enrollment. The OU application for incoming freshmen opens on **August 1**. The University of Oklahoma has an early action application date of **November 1**; students applying by November 1 are given priority consideration for admission, housing, financial aid, scholarships, and enrollment.

Criteria for Admission of Freshmen

To be considered for admission to the University of Oklahoma, applicants:

- Must not have completed seven or more semester hours of college-level work after graduating high school (six hours or fewer is allowed).
- Must have graduated from an accredited or unaccredited high school*.

*Applicants who have received a General Education Development (GED) or are home-schooled will also be considered. Your high school class must have graduated by the time you plan to enter OU.

Applicants will be considered for admission using a holistic review and selection process which considers several factors that predict academic success (i.e. high school grade point average, high school course rigor, academic engagement, writing ability, leadership, and ACT/SAT scores if reported). The University of Oklahoma is test optional for admissions purposes. See requirements and other factors for admission decisions for more information.

Admission requirements are subject to change annually by the University of Oklahoma with the approval of the Oklahoma State Regents for Higher Education, when it is determined to be in the best interest of the University and its students to do so. If it becomes necessary to limit enrollment, preference will be given to residents of Oklahoma. For the most current information on admission requirements, contact Admissions & Recruitment, (405) 325-2151 or visit the Admissions website.

Minimum High School Performance

Because success in college is enhanced by solid academic preparation in high school, completion of the following courses in high school is required before entering the University.

- **English — four units:** Grammar, composition, and literature only.
- **College Preparatory Mathematics — three units of prep math (four recommended):** algebra I, algebra II, geometry, trigonometry, math analysis, calculus, or Advanced Placement statistics.
- **Laboratory Science — three units (four recommended):** Does not include general science, with or without a lab. One year of principles of technology may substitute for one of the lab science courses,

provided that the student also completes two traditional laboratory science courses.

- **History and Citizenship Skills – three units:** One unit must be American history and two additional units selected from the subjects of history, economics, geography, government, or non-western culture.
- **Additional Subjects – two units:** from any of the subjects previously listed or computer science or world language. Two years of the same world language will satisfy the University's language general education requirement. Any AP course not already used to satisfy the curricular units mentioned previously may be used to satisfy the two additional units except AP courses in Studio Art or International English.

Coursework in music, art, drama, or speech is also recommended.

Adult Admission

Applicants who are 21 years of age or older or on active military duty may be considered under the Adult Admission category. Careful attention will be given to an applicant's written comments concerning background and educational goals, personal interviews, as well as letters of recommendation from school counselors, teachers, principals, employers, or supervisors attesting to the applicant's motivation and potential for academic success. An applicant's academic record will also be reviewed for completion of the high school curricular requirements. Students admitted under the Adult Admission category must demonstrate proficiency to the satisfaction of the entering institution in the curricular area the student desires to pursue. Prospective students should contact the Office of Admissions & Recruitment at (405) 325-2151 for further information.

Concurrent Enrollment

Concurrent Enrollment at the University of Oklahoma is a program designed to allow high school juniors and seniors with exceptional abilities to enroll in college courses on a limited basis. High school students may thus accumulate college credits prior to completing high school.

To be eligible for the Concurrent Enrollment Program, students must be enrolled in an accredited high school and meet the following requirements:

1. You must have achieved junior or senior standing and be eligible to complete requirements for graduation from high school no later than the spring of your senior year, as attested by your high school principal.
2. You must meet the requirements found on the Concurrent Enrollment website.

Interested students should apply online, and submit a completed Concurrent Enrollment Recommendation form signed by the high school principal, or counselor, and parent, an official high school transcript, and other application support documents as required.

Once admitted, a student's combined enrollment in high school and at the University of Oklahoma may not exceed 19 credit hours during a fall or spring term. For this purpose, the University will assume that any high school course enrollment is the equivalent of three (3) credit hours. Students may enroll in a maximum of nine (9) credit hours during a summer term without being concurrently enrolled in high school classes during the summer. Students who wish to exceed this credit hour limit

may petition the Academic Success Center for permission to do so, up to a maximum of 24 semester hours in a regular semester.

The completion of high school curricular requirements is not mandatory for Concurrent Enrollment students for admission purposes. However, students may not enroll in college-level courses in a curricular area until the high school curricular requirement in that discipline has been satisfied through coursework or assessment. Concurrent Enrollment students may not enroll in zero-level courses designed to remove high school curricular deficiencies.

Following high school graduation, Concurrent Enrollment students must apply for **regular freshman admission** to the University of Oklahoma, or they may transfer to another institution in the state system, provided that they have maintained a grade point average of 2.00 on a 4.00 scale at the University and meet the entrance requirements of the receiving institution, including high school curricular requirements.

Opportunity Admission

Students who have not graduated from high school, regardless of age, whose composite score on the ACT (using Oklahoma norms) or combined verbal and mathematics score on the SAT (using national norms) places them in the 99th percentile of all students tested, may apply for admission to the University of Oklahoma. Admission will be determined based on test scores and an evaluation of the student's level of maturity and ability to function intellectually and socially in the adult college environment.

Applicants for Readmission

Students must file an application for readmission if it has been more than one semester and a summer term since their last attendance at the University, or if they have completed a degree or were suspended after their last enrollment at OU. **Application deadlines do apply to former students.** Students who only enroll for summer terms (summer to summer students) do not need to reapply unless they graduate or break their continuous enrollment for a summer term. Students who have attended another college or university since last attending the University must file official transcripts from each institution attended. A student's eligibility for readmission will be determined after an evaluation of all transferred and OU work has been made. Academic credit awarded by any division of the University of Oklahoma is considered resident credit, with the exception of credit completed by correspondence or advanced standing examination.

Suspended Students

A student who has been suspended once for academic reasons from the University or any other institution in the state system of higher education may apply for readmission to the University for any semester or summer term beyond the semester in which they were suspended. Such readmission is not automatic but is decided on an individual basis. The student must submit an application for readmission, a letter of appeal, and all required transcripts to the Office of Admissions & Recruitment by **April 1 for a fall semester or summer session, and November 1 for a spring semester.** The letter of appeal should include an explanation of the student's previous academic record, information about the student's activities since suspension, and reasons why an exception to the requirements for admission to the University should be made.

A student who has been suspended twice from the University is not eligible for consideration for readmission until that student has attended

another accredited college or university and raised their grade point average to the University's retention standards.

Other Applicants

Undergraduate Visitor/Special Students

Any person who is admissible to the University of Oklahoma and who wishes to take undergraduate courses without the intention of pursuing a degree may do so under the classification of Undergraduate Visitor/Special Student.

Undergraduate Visitor/Special Students must meet regular admission requirements to the University and are limited to twelve semester hours of enrollment in this classification, unless an exception to this enrollment maximum is made by the president of the University or his or her designate. University retention standards also apply to this category of student. A person who is admitted as an Undergraduate Visitor/Special Student has no privileges beyond those which are available to all students. An Undergraduate Visitor/Special Student who wishes to enroll in a course with specific prerequisites must meet those prerequisites in the same manner as any other student.

Undergraduate Visitor/Special Students who later elect to enter a degree program will be expected to meet all of the regular requirements for that particular degree program and are urged to apply for regular (degree-seeking) admission as soon as a decision to pursue a degree has been made.

If an Undergraduate Visitor/Special Student applies for admission to an undergraduate degree program, the work they have taken as a Special Student will be evaluated in the same manner as any other work submitted for evaluation. The particular degree-recommending college involved will determine how this work will apply toward the degree sought.

Second Undergraduate Degree Applicants

Students may apply for a second undergraduate degree at the University of Oklahoma, but are encouraged to investigate other options available through the Graduate College and other non-degree classifications before doing so. In addition to specific degree programs, the Graduate College offers teacher certification programs and an unclassified (non-degree) option, which allows students to take graduate and undergraduate courses before selecting a major field of graduate study.

Applicants for a second undergraduate degree must apply to a specific major and are not eligible for a second undergraduate degree in the major of their first degree.

General University policy, as well as specific college and school policies, may restrict an applicant from applying for a second undergraduate degree in certain majors. Applicants should contact the Office of Admissions & Recruitment or the appropriate University degree-recommending college for further information on the pursuit of a second undergraduate degree.

Post-Baccalaureate Non-Degree Students

Post-baccalaureate non-degree are students who hold at least a bachelor's degree and wish to take **undergraduate** courses without pursuing a degree, including students who wish to take undergraduate prerequisite courses for medical, dental, optometry, or veterinary school. Students who wish to take **graduate-level** courses without pursuing a degree should apply as an Unclassified Graduate Student. Post-Baccalaureate Non-Degree students are not required to submit academic

credentials to be admitted. Post-baccalaureate students may not enroll in any course that is limited to majors only, may not enroll in 5000 or 6000-level courses, and may not receive graduate credit for 3000 or 4000-level courses.

Policy on Non-Academic Criteria in the Admission of Students

In addition to the academic criteria used as the basis for the admission of students, the University shall consider the following non-academic criteria in deciding whether a student shall be granted admission: whether an applicant has been expelled, suspended, or denied admission or readmission by any other educational institution; whether an applicant has been convicted of a felony or lesser crime involving moral turpitude; whether an applicant's conduct would be grounds for expulsion, suspension, dismissal, or denial of readmission, had the student been enrolled at the University of Oklahoma. An applicant may be denied admission to the University if the University determines that there is substantial evidence, based on any of the instances described above, to indicate the applicant's unfitness to be a student at the University of Oklahoma.

Admission of Transfer Students

Applicants are considered transfer students if they have attempted more than six semester hours of college-level work at another accredited college or university since graduating from high school. Students who complete college-level work while still in high school are not considered transfer students.

Transfer admission requirements are subject to change by the University of Oklahoma with the approval of the Oklahoma State Regents for Higher Education, when it is determined to be in the best interest of the University and its students to do so. If it becomes necessary to limit enrollment, preference will be given to residents of Oklahoma.

Transfer Admission Criteria

Admission of transfer students is based on the following performance requirements and preparatory coursework in high school.

Curricular Requirements for Admission of Transfer Students¹

- **English—four units:** grammar, composition, and literature only
- **College Preparatory Mathematics—three units:** algebra I, algebra II, geometry, trigonometry, math analysis, calculus, or AP statistics.
- **Laboratory Science—three units:** does not include general science with or without a lab. One year of Principles of Technology may substitute for one of the lab science courses, provided that the student also completes two traditional laboratory science courses.
- **History and Citizenship Skills—three units:** one unit must be American history and two additional units can be selected from the subjects of history, economics, geography, government, or non-western culture.
- **Additional Subjects—two units:** from any of the subjects previously listed, computer science, or world language.

¹ If you have not completed the courses listed above in high school, you should do so before transferring to the University. With the exception of U.S. history and U.S. government, completion of remedial or college-level coursework in any of the subject areas in which a deficiency exists will also satisfy this requirement. A remedial mathematics

course must be the equivalent of high school Algebra II. Remedial or precollege-level courses cannot be used to fulfill degree requirements.

Performance Requirements for Admission of Transfer Students

Admission requirements for transfer students are subject to change annually by the University of Oklahoma with the approval of the Oklahoma State Regents for Higher Education. For the most current information on performance requirements for transfer admission, contact the Office of Admissions & Recruitment at (405) 325-2151 or 1 (800) 234-6868, or visit the Transfer Admission Requirements web page.

Transfer students with fewer than 24 semester hours attempted must meet performance requirements for first-time entering freshmen, as well as specified performance requirements on all transfer work attempted.

Transfer students who do not meet performance and/or curricular requirements are encouraged to contact the Office of Admissions & Recruitment for advice and counseling on alternative admission opportunities.

Application Deadlines

Your application **must be received** by the Office of Admissions & Recruitment by the dates below.

- **April 1** for a summer session
- **June 1** for a fall semester
- **November 1** for a spring semester

How to Apply

- To apply online, visit our Transfer Admissions web page.
- Submit an official final high school transcript and official transcripts from **each** college or university attended. **Students are not at liberty to disregard any part of their previous educational history when applying for admission.**
- Submit ACT or SAT scores if you have fewer than 24 semester hours of college work (optional).

When to Apply

Transfer students are encouraged to apply early in the semester prior to the term they wish to enter the University. Early admission allows students to maximize their opportunities for housing, financial aid, scholarships, and early enrollment. Admission decisions can often be made with the current term's grades outstanding.

Transcript Evaluation

Once an applicant has been admitted to the University, the Office of the Registrar performs an evaluation of any transfer credit. Students who are admitted with coursework in progress should submit a schedule of courses in progress, and arrange to have a final, official transcript sent to the Office of Admissions & Recruitment after completion of their last term. Once a complete and official transcript is received, the initial evaluation will be updated. Students will consult with an academic advisor at the time of enrollment to determine how their transfer work will apply toward a degree at the University of Oklahoma.

Transfer Equivalencies

To help in a student's educational planning, the Office of Admissions & Recruitment has developed a searchable transfer course database. Courses that have an OU equivalent course numbers will transfer to the University and often can be applied toward a degree. In some cases, they may substitute for required courses; in others, they may transfer as

elective credit. Please refer to OU's General Catalog for major-specific requirements by each college. How each course will apply toward an OU degree will be determined by the degree-recommending college within the University. Additionally, courses that carry fewer semester hours than their OU counterpart will generally substitute for the indicated OU courses, but students must make up the difference in credit hours before graduation.

Transfer Credit Regulation

The amount of credit granted to applicants for admission as transfer students depends upon the nature and quality of the applicant's previous work, evaluated according to the academic requirements of the University, and the following provisions:

- Transfer credit earned by students at institutions accredited by the HLC or the Oklahoma State Regents for Higher Education will be accepted for transfer at face value. Credits earned at institutions accredited by organizations other than the HLC and recognized by the U.S. Department of Education will be reviewed on a course-by-course basis and may be accepted for transfer if the course is determined to be substantially equivalent to a University of Oklahoma course or courses.
- Lower-division courses transferred to the University of Oklahoma will generally be used to meet lower-division degree requirements. In the event that a lower-division transfer course is used as a substitution for an upper-division requirement at the University, a student may be required to complete additional upper-division hours for graduation.
- A minimum of 60 semester hours must be earned in a senior college for a baccalaureate degree.
- Transfer students who enter the University with an Associate of Arts or an Associate of Science from an institution in the Oklahoma State System of Higher Education are considered to have met the lower-division (1000- and 2000-level) course requirements of the University's General Education core curriculum. However, these students are still required to complete any lower-division coursework that is required beyond the University's lower-division General Education course requirements, as well as the upper-division (including General Education) course requirements for a degree.
- The dean's office of each degree-recommending college has ultimate responsibility for determining how transfer credit will apply to a specific degree program. Since graduation requirements vary from college to college, a reevaluation of transfer credit is required if a student changes degree colleges.
- A transfer applicant under disciplinary probation or suspension will not be considered for admission until the terms of the probation or suspension have been met. **Students must meet appropriate application and credential deadlines for the term for which they are applying for readmission.**
- Grades for courses taken at foreign institutions are used in determining admissibility to the University. However, once a student is admitted, transfer grades are changed to neutral (S or U) grades which do not affect the grade point average. The only exception to this policy is for foreign institutions that hold accreditation through a United States regional accrediting association.

Graduate Admission

Admission to a graduate program at the University of Oklahoma is based on an evaluation of an applicant's overall record, experience, personal qualifications, and proposed area of study. Applicants who apply for graduate study at OU are applying for admission to the Graduate

College and the graduate program in their proposed area of study. Inquiries related to graduate admission should be directed to the Office of Graduate Admissions, University of Oklahoma, 731 Elm Avenue, Room 318, Norman, OK 73019; phone: (405) 325-6765; FAX (405) 325-5345; email: gradadm@ou.edu; and website: www.ou.edu/gradcollege/apply

Applications cannot be considered until all required materials have been submitted. Applications and supporting credentials are reviewed by the Office of Graduate Admissions, the graduate academic unit to which the applicant is seeking admission, and the Graduate College. The final decision on admission to the Graduate College is made by the graduate dean. To be eligible for enrollment, the student must have been admitted to the University and to the Graduate College before the registration period ends for any given semester.

The Office of Graduate Admissions has charge of all matters pertaining to general admission to the University. Admission and enrollment in the Graduate College are governed by the graduate dean. All admissions to the Graduate College require that the student hold a baccalaureate degree or equivalent from a regionally accredited college or university. Undergraduate applicants in their final semester at regionally accredited colleges and universities may apply for admission to the Graduate College. The Graduate College only accepts coursework and degree from regionally accredited institutions. Regionally accredited schools meet certain academic standards and are non-profit or state-owned. Schools with only a national accreditation are often technical, vocational, career, or religious-focused and are usually for profit. International colleges and universities must be recognized by the government-approved authority of education (i.e., Ministry of Education) in the country where the degree was earned.

If admitted, a student must register for courses at the University of Oklahoma for the term of admission to retain active status. The student is subject to the regulations applicable during their first term of enrollment so long as continuous enrollment is maintained.

Application for Graduate Admission

Prospective graduate students should apply online.

Required Application Materials

1. Transcript from last degree-conferring college or university¹
2. It is recommended that you submit transcripts for any graduate coursework completed
3. An application-processing fee must accompany the application of all students who seek admission or readmission to the University

¹ If you are admitted, you must submit official transcripts from all degree-granting institutions.

Academic Unit Requirements

Most graduate academic units or programs require that supplemental application materials, such as letters of recommendation, goal statements, etc., be submitted along with the application for admission. Students should consult with the graduate academic unit to which they are seeking admission to verify admission requirements and credentials needed. Although the Graduate College does not require the Graduate Record Examination (GRE) or any other standardized tests, many academic units do require the GRE or other standardized tests.

Deadlines

For graduate applicants within the United States, there are no formal admissions application deadlines.

International graduate applicants outside the United States are subject to application deadlines:

- Fall semester – April 1
- Spring semester – September 1
- Summer session – February 1

Most graduate academic units do have application deadlines, which are earlier than the dates listed. All applicants are strongly encouraged to contact the academic units to which they are seeking admission for the information regarding application deadlines.

Application deadlines can change between publications of this catalog. For the most current information on deadlines, go to Graduate Programs & Deadlines.

Graduate Assistantships

Many graduate academic units offer graduate assistantship opportunities. A graduate assistant is a student who serves in a support role while pursuing graduate study. Graduate assistants typically assist faculty with instructional responsibilities as teaching assistants or academic research responsibilities as research assistants. Graduate assistantships are awarded and governed by individual academic units and appointing departments. Prospective students should contact the academic unit to which they are seeking admission to obtain information about, and applications for, graduate assistantships.

Admission of University of Oklahoma Graduating Seniors

All seniors graduating from the University of Oklahoma who wish to apply for admission to a graduate program should apply online no later than the final semester of their senior year. Graduate Academic Unit application deadlines apply to graduating seniors. University of Oklahoma graduate seniors are not required to submit transcripts with their graduate applications since these applicants are current students at the University.

If admitted, the graduating senior must inform the Graduate College if they fail to complete any requirements for the baccalaureate degree. These degree requirements must be completed by the term of the student's admission to the Graduate College. If they are not completed in the proper time frame, the graduate admission will be canceled and the student must reapply to the Graduate College and graduate academic program to which they were previously admitted.

Admission as a Visitor

Graduate students who are currently admitted and in good standing in graduate degree programs at other regionally accredited institutions are welcome to take courses at the University of Oklahoma as a Graduate Visitor. In this status, a graduate student has all the rights and privileges of other graduate students except they are not pursuing a graduate degree at the University of Oklahoma. Should a Graduate Visitor decide to pursue a graduate degree here, they would be required to file another application and submit official copies of degree transcripts. To be admitted as a Graduate Visitor, a prospective graduate student must submit the following information to the Office of Admissions:

- A completed application form and application-processing fee (apply online).
- A letter of good standing from the dean of the Graduate College of the student's home institution.

Readmission to the Graduate College

Graduate students must file an application for readmission if it has been more than one year since their last attendance at the University. Students who only enroll for summer terms (summer to summer students) do not need to reapply unless they graduate or break their continuous enrollment for a summer term.

Students who have attended another college or university since last attending the University must submit official transcripts from each institution attended to the University of Oklahoma's Office of Admissions & Recruitment. A student's eligibility for readmission will be determined after an evaluation of all transferred work is made. Readmitted students will be subject to the regulations in effect at the time of readmission.

English Proficiency

All new applicants to the Graduate College for whom English is a second language (including those holding permanent resident status) are required to present evidence of proficiency in the English language prior to admission. The intent of this policy is to ensure that students for whom English is not a native language have a reasonable chance to succeed academically based on their ability to comprehend and use spoken and written English. Graduate applicants may satisfy the English proficiency requirement in one of several ways which are stated on the English Proficiency Requirements web page.

Consult the OU Graduate College for further information concerning graduate admission, policies, and programs.

Credit for Prior Learning Assessment/Extra-Institutional Learning

The University of Oklahoma encourages capable students to seek college credit for knowledge they may have acquired in a variety of ways. Complete information on the ways students may establish credit for extra-institutional learning at the University of Oklahoma is found in Prior Learning Assessment Credits.

A student enrolled in and attending a course may earn credit in that course by prior learning assessment examination up to the end of the second week of class in a regular semester or the first week of a summer session. If a student earns credit in the course by examination, the student may drop the course enrollment with no fee assessment, provided the course is dropped within the specified free drop period for the term. Refunds will not be made for courses dropped after the defined free drop period.

The amount of prior learning assessment credit that may be applied toward a degree is subject to OU graduation requirements and the degree-recommending college in which a student will earn a degree. The dean of the degree-recommending college will determine how this credit applies toward a degree.

The neutral grade of satisfactory (S) will be assigned to all types of prior learning assessment credit authorized by the Oklahoma State Regents for Higher Education.

Should a student fail a prior learning assessment examination, no grade will be recorded. In addition, a student may not receive credit for a repeat

of an exam previously failed. Students should consult the OU Admissions or the Center for Independent and Distance Learning to discuss other test options.

The regulations governing prior learning assessment credit mentioned above apply to all of the OU prior learning assessment options available.

Advanced standing examinations are under the general supervision of the University Registrar (and the chairperson of the department in the case of University departmental examinations).

The Academic Regulations Committee is responsible for hearing any appeals in hardship cases of students who do not meet the conditions and regulations governing advanced standing examinations.

Prior Learning Assessment credit may be earned through a variety of test options which include:

- **University of Oklahoma departmental prior learning assessment examinations**
The University of Oklahoma offers a number of departmental prior learning assessment examinations. Interested students should consult with an academic advisor during enrollment. All of the examinations are administered by the Center for Independent and Distance Learning (CIDL). For information about requirements and times at which examinations are offered, contact the Center of Independent and Distance Learning (CIDL) at 300 Kellogg Drive Room 140, Norman, OK 73072-6507, phone: (405) 325-1921 or (405) 325-1208, or visit their website: <https://pacs.ou.edu/testing-center/prior-learning-assessment/>.
- **The Advanced Placement Program (APP) offered by the College Entrance Examination Board (CEEB)**
This program allows high school students to take examinations for credit at the college level. High school counselors will assist students with testing arrangements.
- **The College Level Examination Program (CLEP) offered by the College Entrance Examination Board (CEEB)**
The University of Oklahoma is a CLEP testing center. The University awards credit for certain CLEP subject examinations. The University does not award credit for what were formerly the CLEP general examinations. Inquiries about OU's testing center should be addressed to the Center for Independent and Distance Learning, 300 Kellogg Drive Room 140, Norman, OK 73072-6507, phone: (405) 325-1921, or visit their website: pacs.ou.edu/Academics/OU-Testing-Center.
- **Excelsior College Examinations**
The University of Oklahoma awards credit for a few Excelsior College Examinations.
- **International Baccalaureate**
Credit may be awarded to students who have taken higher-level courses in the International Baccalaureate Program and who have scored at least a four (on a seven-point scale) on the higher-level course examinations. Such credit is awarded on a course-by-course basis as recommended by the appropriate University of Oklahoma department.

Score reports for any of the prior learning assessment examinations listed above should be submitted to the Office of Admissions & Recruitment, University of Oklahoma, 1000 Asp Avenue, Room 127, Norman, OK 73019-4076.

Other Types of Prior Learning Assessment Credit

Students may establish prior learning assessment credit at the University of Oklahoma by a variety of avenues other than examination.

OU Military Service Credit

The University awards credit for educational experiences during military service according to the recommendations of the American Council on Education as published in the "Guide to the Evaluation of Military Experiences in the Armed Services." The policies governing the acceptance of credit awarded for military experience toward satisfying degree requirements vary among the degree-recommending colleges of the University. Students should contact their college academic advisement office for specific information on the applicability of this type of credit toward degree requirements. General questions concerning the evaluation of educational experiences in the armed services should be directed to the Office of Admissions.

The grade of S (satisfactory) is assigned to all credit awarded for military training.

Students with educational experiences in the military must submit the following military records to the Office of Admissions & Recruitment for review.

- **Army, Navy, Coast Guard, and Marine Corps:** Submit an official Joint Services Transcript. Students may request a Joint Services Transcript be sent electronically to the University.
- **Air Force personnel and veterans:** Request an official transcript from the Community College of the Air Force for work taken as an undergraduate, or from the Air University for work taken as a graduate student. Community College of the Air Force transcripts may be ordered by sending a request in writing to: CCAF/RRR, 130 West Maxwell Blvd, Maxwell AFB AL 36112-6613, (334) 953-2794 (DSN 493-2794). You may also visit www.airuniversity.af.edu/Barnes/CCAF/. Air University transcripts may be obtained by writing to the Registrar's Office, 50 South Turner Blvd., Maxwell AFB-Gunter Annex AL 36118-5643.
- **DANTES/USAFI:** Students may also request a transcript from DANTES (Defense Activity for Non-Traditional Education Support) or USAFI (United States Armed Forces Institute—tests taken prior to July 1, 1974). Many tests taken under the auspices of DANTES or USAFI carry American Council on Education credit recommendations recognized by the University. Official DANTES transcripts can be ordered from Thomson Prometric, P.O. Box 6604, Princeton, NJ 08541-6604, (877) 471-9860 (toll free). A transcript of USAFI courses or tests completed prior to July 1, 1974, may be obtained from Thomson Prometric, P.O. Box 6605, Princeton, NJ 08541-6605. Visit getcollegecredit.com to learn more.
- **DANTES tests (DSSTs)** can also be taken by people who are not in the military. Visit getcollegecredit.com to learn more.

Credit for Training Programs and Other Extra-Institutional Learning

The University awards credit for educational experiences provided by certain business, industrial, and governmental agencies. Credit is awarded on the basis of recommendations made by the American Council on Education in its publication "The National Guide to Educational Credit for Training Programs" and also by the publication "College Credit Recommendations: The Directory of the National Program on Non-Collegiate Sponsored Instruction." Students may present certificates of completion or a transcript from the ACE Registry of

Credit Recommendations to the Office of Admissions for evaluation. The dean of the college in which a student will earn a degree at the University will determine how this credit applies toward the degree. For further information, students should contact the Office of Admissions & Recruitment, 1000 Asp Avenue, Room 127, Norman, OK 73019-4076, phone: (405) 325-2151.

Transfer of Advanced Standing Credit

Prior learning assessment credit posted on transcripts from institutions in the Oklahoma State System of Higher Education will transfer to the University subject to the same conditions as resident credit from these campuses.

Prior learning assessment credit posted on transcripts from all other institutions will be accepted by the University as long as the credit was earned through one of the advanced standing mechanisms approved by the Oklahoma State Regents for Higher Education. The dean of the college in which a student will earn a degree will determine how this credit applies toward the degree.

Enrollments at Other Institutions

Students must report any college or university work taken at other institutions while they are current students at the University of Oklahoma. Whether this work is taken while registered in classes at the University, during a summer session, or during a semester and/or summer session while students have "stopped out" of the University temporarily, students must submit an official transcript to the Office of Academic Records of all work undertaken. Failure to do so may result in suspension or permanent dismissal from the University.

Student Financial Center

Student Financial Center

Jessica Perez, Acting Director of Student Financial Center

Buchanan Hall, Room 105
1000 Asp Avenue
Norman OK 73019

One Office for Assistance with All Your Student Financial Questions

Student Financial Center's focus is to eliminate unnecessary barriers to college access and completion. Our goal is to simplify the financial aid process as much as possible, and to make sure students are always engaged and aware of the next step. Our office allows us to reach students earlier and more efficiently, freeing up time for our Student Service Experts to have important conversations with students about their individual situations and what needs to be done to help them persist and succeed.

Bursar Services

Sam Painter, Director of Bursar Services

Buchanan Hall, Room 208
1000 Asp Avenue
Norman, OK 73019

Cost of Attending OU

The cost of attending the University of Oklahoma includes tuition, fees, books, housing (including room and board), transportation, and miscellaneous living expenses. The actual costs of attending the University will vary depending on a student's resident status, academic level, course load, housing option, personal needs, and spending habits.

For current cost estimate information, see Cost to Attend the University of Oklahoma.

Tuition and Fees

Students pay resident tuition for each credit hour enrolled. In addition, students who are not residents of the state of Oklahoma must also pay non-resident tuition. See Tuition and Fees for details.

Information on tuition and fees for programs not found in the Tuition and Fees link above can be found on each program's website. (OU Online, College of Professional and Continuing Studies, Advanced Programs and other special programs.)

When, Where, and How to Pay

The quickest way to make your payment is to pay electronically at One.ou.edu. Payments made online with an eCheck from your checking or savings account, or a credit card, are easy and convenient and are posted to your account the same day.

You can also easily set up authorized users to make payments on your behalf at One.ou.edu.

Pay your bill in full by the 25th of each month to avoid monthly service charges. Remaining balances at the end of a term will be charged a late penalty and are subject to holds, which will prohibit you from registering for classes and accessing copies of transcripts and diplomas.

Monthly statements are prepared and emailed prior to the payment deadline. Failure to receive a statement does not exempt a student from late penalties. It is the student's responsibility to determine their financial obligation and how it is to be met.

eCheck (Electronically through your bank/debit account)

Using your bank account information, set up a payment profile through One.ou.edu to transfer funds directly from your checking or savings account. If you have a debit card, contact your bank for the account and routing numbers. There is no additional cost for this option.

Check

Bring your personal check, cashier's check, money order, or scholarship check to the drop box on the first floor of Buchanan Hall during business hours. Please be sure to include your full student ID number for proper identification and posting.

Or mail it to:
 Student Financial Center
 1000 Asp Ave., Room 105
 Norman, OK 73019

Credit Card

Credit cards can be processed online through One.ou.edu. **There is a 2.95% convenience fee for this option.** If you have a debit card, use the eCheck option above to avoid this fee.

Flywire

Payments through international bank accounts (wire transfers) can be processed through Flywire.

Cash

No cash payments are accepted.

Payment Plan Options

There is no enrollment required to participate in the payment plan. The payment plan is only available to currently enrolled students. Students participating in the payment plan can pay their bill in four installments each semester. The first Fall eBill is available on August 1st and the first Spring eBill is available January 2nd at One.ou.edu. The monthly due date is the 25th. Students following the payment plan will be assessed a monthly service charge of 1.5% (18% APR) on the unpaid balance, beginning September 26th for Fall and February 26th for Spring. Service charges and late penalties will not be removed due to late or nonpayment.

Fall Term	Pay this percentage of the balance
• August 25	25%
• September 25	33%
• October 25	50%
• November 25	100%

Spring Term	Pay this percentage of the balance
• January 25	25%
• February 25	33%
• March 25	50%
• April 25	100%

Summer Term	Pay this percentage of the balance
• June 25	50%
• July 25	100%

For more information on OU pay login, adding an authorized user(s), viewing your statement summary and/or account history, changing your billing address, and more, please go to One.ou.edu or call Student Financial Center at (405) 325-9000.

For more information and payment plan FAQs, please visit the Bursar Services website.

Refund Policy

The Oklahoma State Regents refund policy with respect to fees and tuition is as follows:

Changes in schedules and complete withdrawals from the institution during the defined add/drop period (first 10 days off classes in fall and spring semesters) will result in full charges for courses added and full credit for courses dropped. No reduction of charges may be made after the add/drop period for the session, except as stipulated for students who must withdraw from courses due to unforeseen hardship or extenuating circumstances.

Electronic Refunds

The fastest way to receive your refund is electronically. You can easily set up your eRefund at One.ou.edu. For easy step-by-step instructions, please visit the Bursar Services website.

Financial Aid Services

Courtney Henderson, Executive Director of Financial Aid

Buchanan Hall, Room 312
1000 Asp Avenue

Financial Assistance and Costs

Financial Aid

Financial aid is any financial resource that a student receives to assist in meeting the cost of attending college. These resources include awards such as federal and state grants, loans, student employment, scholarships, etc. Students must apply for financial aid annually and demonstrate eligibility as determined by regulations established by the U.S. Department of Education. Financial Aid Services is responsible for the administration of the federal financial aid programs. Additional sources of funding may include tribal grants, vocational rehabilitation assistance, Reserve Officer Training, and funding from other outside agencies.

Financial Aid Programs

Many financial aid programs are available at the University of Oklahoma. The Free Application for Federal Student Aid (FAFSA) opens annually on October 1. Apply annually for the following federal financial aid programs: Pell Grant, Supplemental Educational Opportunity Grant, Perkins Loan, Stafford Loans (subsidized and unsubsidized), and Federal Work-Study. The Federal PLUS Loan (Parent Loan) and Graduate PLUS loans require a separate loan application in addition to the FAFSA. Additional financial aid programs (most requiring the FAFSA) include Oklahoma's Promise, Oklahoma Tuition Aid Grant, Crimson Commitment, additional need-based scholarships, and several low-interest OU Institutional Loan programs. Please visit our Student Financial Center website for complete information on the financial aid and scholarship programs available at OU. Financial Aid programs are subject to change.

Applying for Financial Aid

Those planning to attend OU and current students are encouraged to apply annually for financial aid. FAFSA and the OU Centralized Academic Scholarship Hub CASH online applications open every October 1. Be sure to visit the Student Financial Center website, where a wealth of information about financial aid, scholarships, and other financial resources is available. Also listed are deadlines, eligibility requirements, applications, and links to other helpful websites.

Getting Started

- Apply for financial aid by the OU Financial Aid Services recommended deadlines.
- Apply for a U.S. Department of Education Federal Student Aid ID (FSA ID) online. This FSA ID serves as your electronic signature for the Free Application for Student Aid (FAFSA) and to access certain financial aid information online. Obtain an FSA ID for your parent if parental information is required on the FAFSA.

- Next, complete the FAFSA at fafsa.gov to apply for federal, state, and institutional aid. **Applying for financial aid is FREE!**
- List OU's school code, **003184**, on your FAFSA application. Be sure to include your housing plans on your FAFSA.
- Once your FAFSA is processed, a Student Aid Report will be sent to you and your information will be sent to OU if you listed OU's code on your FAFSA.

Important Note: The FAFSA must be completed annually. Submit the **FAFSA** as soon as possible after the annual open date, October 1, but before March 1, to be considered for all available aid programs for the following fall/spring semesters. For priority processing, all requested documents must be received in Financial Aid Services by June 1 for the following fall/spring semesters and by November 1 for the spring only semester. Check the Financial Aid Services website for summer financial aid information.

Please contact 1 (800) 4FEDAID for a paper FAFSA if unable to file the FAFSA online.

What Happens Next

- The Student Financial Center will notify admitted students via One.ou.edu if any additional information is needed.
- Instructions for activating your One.ou.edu account and OU email are included with the admission letter to OU.
- The application is reviewed after submitting all requested information (processing times vary).
- The Student Financial Center sends an OU-Financial Aid Notification (OU-FAN) to the student's OU email listing the financial aid awards available.
- Awards may consist of a combination of aid, such as grants, loans, student employment, scholarships, and/or other resources.¹
- The student then decides which aid programs to accept, reduce, or decline, and submits the OU-FAN acceptance within One.ou.edu.
- Complete information regarding the financial aid programs offered and the disbursement process is included as links on the OU-FAN.

¹ **Important Note:** Students who receive academic, talent-based, or other awards that also receive federal financial aid may expect their financial aid awards to be revised. This is required by federal regulations.

Other Resources

Students are encouraged to apply for outside scholarships, grants, fellowships, and other types of financial assistance that can help pay for their college or general living expenses. Many opportunities are available that require an application from the student. Be careful about possible scholarship scams. If in doubt about the legitimacy of an organization that offers financial aid, scholarships, or college funding check the Federal Trade Commission Scholarship Scams website.

Cost of Attending OU

Using federal regulations, the Financial Aid Services office develops standard budgets to determine the estimated costs of attending OU. This budget is used to award financial aid. The cost of attending the University of Oklahoma includes tuition, fees, books, housing (including food), transportation, and miscellaneous living expenses. The actual costs will vary depending on a student's resident status, academic level, course load, housing and food options, personal needs, and spending habits.

For current cost estimate information, see Cost to Attend the University of Oklahoma.

Award amounts are subject to change. Visit Student Financial Center for more information.

The MidFirst Bank MoneyCoach Program

Mellissa Stiles, MoneyCoach Manager
Cami Sheaffer, MoneyCoach Manager, MidFirst Bank

Buchanan Hall
1000 Asp Avenue
Norman, OK 73019
Phone: (405) 325-4692
MoneyCoach@ou.edu
www.ou.edu/moneycoach

The MidFirst Bank MoneyCoach Program

A MoneyCoach is a financial professional available to all students at the University of Oklahoma. MoneyCoaches help students build lifelong money management skills and navigate the process of paying for college. The MoneyCoach program also offers financial education workshops. Once a student has met with a MoneyCoach, they are then assigned to that MoneyCoach. This allows the student to meet with the same person about finances throughout their time at OU.

MoneyCoaches are knowledgeable on the following:

- Paying for OU
- Creating a financial plan for the year
- Understanding scholarship, grant, and loan options
- Minimizing student loan debt
- Personal finance
- Building wealth and becoming financially independent
- Budgeting, saving, investing, etc.
- Student loan repayment

Disclaimer

The MoneyCoach team and University of Oklahoma staff who work with students on financial issues such as federal student aid, private student aid, and serving loans do not provide investment, legal, or tax advice. The information provided is for general educational purposes only, and is not intended to substitute for the advice of your investment, legal, and/or tax advisors or to be the basis of specific financial planning activities. If you need investment, legal, and/or tax advice, please consult with one of these professionals.

Scholarships Office

Mike Hinderman, Director of the Scholarship Office

Buchanan Hall
1000 Asp Avenue
Norman, OK 73019-4078
Phone: (405) 325-9000
FAX: (405) 325-7608
www.ou.edu/sfc/scholarships

Scholarships

Students are encouraged to apply for scholarships to help meet the costs of attending the University of Oklahoma. Numerous scholarships are available to OU students based on academic merit,

talent, athletics, financial need, etc. Students may see an overview of available scholarship and tuition waiver opportunities by visiting our website. Degree-seeking students from the Norman campus may pursue scholarship opportunities via the Centralized Academic Scholarship Hub.

High school seniors apply for all general freshmen scholarships at OU by completing our online scholarship process which is now a section of the admission application. December 15 of the senior year is the deadline to apply for these scholarships by completing the admission/scholarship application. See Future Sooners Scholarships for general freshman scholarships covered by the admission/scholarship application. Some OU academic areas may have further requirements for scholarship selection (e.g., auditions for the School of Music, etc.).

Undergraduate transfer students will also find the transfer scholarship application as part of their admission application process. Annually March 1 is the deadline to apply for transfer scholarships by completing the admission/scholarship application. Transfer students may also be eligible for departmental scholarships. See Future Sooners Scholarships for general transfer scholarships covered by the admission/scholarship application.

Important note: *Students who receive academic, talent-based, or other awards that also receive federal financial aid may expect their financial aid awards to be revised. This is required by federal regulations.*

Mission

Collaborating with students, faculty, and staff to provide comprehensive enrollment management and academic record services with the utmost integrity, accuracy, while keeping records confidential and secure.

Values

In the Office of the Registrar, we aim to:

- Be ethical in all that we do
- Remove all unnecessary obstacles to students, faculty, and staff
- Provide great customer service
- Be a purposeful teamwork-oriented workplace
- Collaborate with others for continued improvement and innovation

Grades

Students' grades in all courses are filed in the Office of the Registrar-Academic Records and become a part of the official records of the University. Current students can view grades by clicking: <https://one.ou.edu>.

- Passing grades are identified with A, B, C, D, P, S, and X
- Failing grades are identified with F, U and NP
- Neutral grades are identified with AW, I, N, and W

A, the highest grade, is given for work of exceptional quality. **D** is the lowest grade for which credit is given in any undergraduate college and means that, although in the judgment of the instructor credit should be allowed for the course, a degree will not be conferred upon a student whose work is all of that level. In the Graduate College, however, the grade of D is failing, insofar as credit toward a graduate degree is concerned, and cannot be used to satisfy prerequisite requirements and/or requirements for certificates. **F** means failure. No credit hours or grade points are awarded for an F, but the credit hours are calculated into the cumulative grade point average.

S and U, meaning Satisfactory and Unsatisfactory, may be used in grading certain courses identified at the discretion of the degree-recommending college. Courses selected for S-U grading must be of a noncompetitive nature and the entire class must be graded on this basis. The S-U grades are considered neutral in the computation of a student's grade point average. At the undergraduate level, a grade of **S** signifies work of D quality or better (except in the case of credit earned by advanced standing examination, when the grade of S represents work of C quality or better). In the Graduate College, the grade of **S** represents work of B quality or better. **S** must be used to indicate that a thesis or dissertation is satisfactorily completed, and is the only passing grade accepted for special problems, individual research, and directed readings courses. The **S** grade may not be used for lecture/recitation courses except with the expressed approval of the graduate dean. The **U** grade is used to indicate that no credit is to be given for the work undertaken.

P and NP, meaning Pass and No Pass, are used as grades in a course in which a student has enrolled under the pass/no pass option. **P** meaning Pass is used as a passing grade and indicates quality of C work or better. **NP**, meaning No Pass, is a non-passing mark used to indicate no credit for a pass/no-pass option enrollment. The grades of P and NP are considered neutral in the computation of the student's grade point average.

I is a neutral mark and means incomplete. It is not an alternative to a grade of F, and no student may be failing a course at the time an I grade

is awarded. To receive an I grade, the student should have satisfactorily completed a substantial portion of the required coursework for the semester. The instructor will indicate to the student and to Academic Records what must be done to complete the course and set a time limit appropriate to the circumstances. However, the time limit allowed may not exceed one calendar year. If by the end of the year no change in grade has been submitted, the grade of I will be changed to the pre-determined permanent grade. After a grade of I has been changed, a student may re-enroll in the course if appropriate or required. The foregoing time limitations concerning removal of an incomplete do not apply to graduate research and graduate problem courses.

I (Graduate College) With the approval of the instructor and Graduate College Dean, a graduate student may be granted up to a one-year extension for making up incomplete work. No petitions for extensions beyond one year will be considered. After the incomplete work is made up, the instructor shall promptly report the new grade to the Office of the Registrar-Academic Records so that it can be posted to the student's transcript. In any case, the new grade must be posted to the student's transcript within one year of the deadline for making up the incomplete work (including any extension, if granted). If the new grade has not been posted within this one-year time period, the student shall have one additional year in which to file an appeal with the Graduate Dean requesting that the proper grade be posted. If no such appeal is received by the Graduate Dean within this second year time period, the grade of "I" shall be changed to the pre-determined permanent grade.

All instructional faculty are required to use the University-wide Incomplete Contract Form (PDF) or electronic Incomplete Contract Form (<https://icontracts.outreach.ou.edu/>) when assigning a grade of Incomplete. This document protects both faculty and students by documenting circumstances that led to the assignment of an Incomplete grade.

If an incomplete is received, the **I** grade remains on the student's record and the final grade is next to the "I" (example I/B).

X indicates that satisfactory progress is being made and is a neutral grade to be used only for thesis and dissertation research courses numbered 5980 and 6980 and for thesis and dissertation equivalent courses numbered 5880 and 6880.

AU (Audit) Auditing is attending a class without participating in classwork or receiving credit. Enrollment as an auditor is indicated on the student's permanent academic record and is subject to the same posting regulations governing credit enrollment.

AW, meaning Administrative Withdrawal, is a neutral grade used to indicate that a student has been involuntarily withdrawn after the add/drop period by the institution. Students may receive an AW for disciplinary reasons, financial reasons or inadequate attendance.

N is a temporary grade used only to indicate that no final grade has been reported at the time of grade processing and is removed from the student's record when the final grade is received. It is neutral in the computation of the student's grade point average.

Grade Point System

Each hour of A, B, C, D, and F carries a grade point value as follows: A=4, B=3, C=2, D=1, and F=0. Grades of P and S, as well as grades of I, X, U, N, NP, AW, and W, carry no grade point value and are not included in the computation of a student's semester or cumulative grade point average.

Grade Point Average

The cumulative retention/graduation grade point average is based on all work attempted, both transfer and OU, minus those courses repeated in accordance with the policy on repeated courses. The minimum cumulative retention/graduation grade point average required for graduation is 2.0. Each degree-recommending college may establish higher standards for retention and graduation.

Grade Suffixes

= Repeat Policy Applied
 @ = Academic Renewal
 ^ = Academic Reprieve
 ~ = PE/Activity Course
 * = Remedial/Developmental Course
 SA = Transfer Advanced Standing Credit

Grade Reports

All final grades must be submitted online no later than the date specified in the call for grades.

Correcting Grades Reported in Error

The instructor initiates the change by filing a Faculty Request for Grade Change form with the department under which the course was taught.

Academic Appeals Boards

In each college of the University, there shall be established an Academic Appeals Board consisting of an equal number of students and faculty. Faculty members of the board will be chosen by the faculty of the college for a term determined by the faculty. Student members of the board will be appointed for a term of one year by the dean of the college upon recommendations from the student president.

Each Academic Appeals Board will hear cases in which the issue to be resolved is that of prejudiced or capricious evaluation, or alleged inability to speak the English language to the extent necessary to adequately instruct students.

Except for those cases that arise in the College of Law, the following procedures shall apply. (For procedure in the College of Law, contact the Office of the Dean.)

1. A Board will hear a case only after a student has notified an instructor of a dispute over an academic evaluation and after the student has made an unsuccessful attempt to resolve differences with the instructor, if necessary in consultation with the departmental chair. In cases of end-of-term evaluations, a student must notify an instructor of a dispute over an academic evaluation and must attempt to resolve differences no later than February 15 for the previous fall semester or winter intersession; and no later than September 15 in cases of end-of-term evaluations for the previous spring semester, spring intersession, or summer session. In cases of an evaluation made known to a student during the term, the student must notify an instructor of a dispute over academic evaluation and must attempt to resolve differences no later than 15 calendar days (excluding Saturdays, Sundays, and University holidays from classes) after the results of the evaluation are made known to the student. If a student fails to notify an instructor or fails to attempt resolution within the appropriate time limit, the Board shall deny any request for a hearing on the claim unless, in the view of the Board, the student has been prevented from complying with the appropriate time limit (as for example, in the case of a student being called into military service).
2. The filing of a written request for a hearing on a claim before the appropriate Academic Appeals Board shall be within 10 calendar days (excluding Saturdays, Sundays, and University holidays from classes) following the day when the attempts at resolution in paragraph (1) above are completed. The Board shall deny any request for a hearing on a claim that does not meet this deadline unless, in the view of the Board, exceptional circumstances exist whereby the student is prevented from filing the claim. Furthermore, if in the judgment of the Board, the case is deemed to be without merit or has already been satisfactorily resolved in the department, the Board may refuse the student a hearing.
3. To avoid a jurisdictional impasse, the appeal shall be heard by the Appeals Board in the undergraduate college in which both the course and the instructor are located. Any thesis and dissertation appeals shall be heard by the Graduate College Appeals Board.
4. It shall be the primary function of a Board to mediate or adjudicate disputes that have not been satisfactorily resolved on the department level.
5. Each Board shall be given the responsibility of establishing its own rules of procedure. Such rules as it establishes must be consistent with the full protection of the rights of all parties involved.
6. Meetings of a Board may be closed to the public.
7. Decisions of the Board shall be communicated in writing to the Board's dean, the student's dean, the student, and the instructor. The Board's decisions shall be final and shall be implemented unless either the student or the instructor makes written appeal to the Executive Committee (or comparable body) of the degree-recommending college within 10 calendar days (excluding Saturdays, Sundays, or University holidays from classes) after being notified of the Board's decision. The decision of the Executive Committee (or comparable body) shall be final and shall be implemented unless either the student or the instructor makes a written appeal to the faculty of the degree-recommending college within 10 calendar days (excluding Saturdays, Sundays, and University holidays from classes) after being notified of the Committee's decision. In the case of an appeal to the faculty of the degree-recommending college, the faculty's decision shall be final and shall be implemented. The faculty of a degree-recommending college, however, may delegate their authority to consider appeals under this policy to the Executive Committee (or equivalent body) of the degree-recommending college, in which case the decision of the Executive Committee shall be final and shall be implemented without appeal to the faculty.
8. Revisions to this policy shall be reviewed by the Faculty Senate and the Student Code Revision Committee.

Student Academic Records

Transcripts

Current OU students can access semester grades and unofficial transcripts through one.ou.edu.

Official Transcripts

Official transcripts are released by the Office of Academic Records upon the written request of the student, except that the University reserves the right to withhold an official transcript for any student with financial indebtedness to the University.

See Order Your OU Transcript for complete information about obtaining OU transcripts.

Release of Student Information and Access to Student Records

Most information concerning a student's academic record is considered confidential and is not released to anyone without the student's written authorization. The Federal Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records, one of which is the right to provide written consent before the University discloses personally identifiable information *other than "directory information"* from the student's education record. See **Release of Student Information** below for a full statement of the OU FERPA policy.

Students can grant access to their OU records in these ways:

- Students can authorize the release of their education record information to a third party on either a one-time or an ongoing basis. Authorizations for the release of information on an ongoing basis will remain valid for one year following the student's last enrollment at the University of Oklahoma or until canceled in writing by the student at any time.
Student Permission to Release Education Record Information Form
- Students can authorize access to their Bursar account through one.ou.edu.
- Students can authorize the Financial Aid Services Office to release information regarding their student financial aid records through that office's OU Financial Aid Services Release Form (PDF).
- Students can consent to the release of documents associated with a record of an admonition or violation of the Academic Integrity Code filed with the Office of Academic Integrity Programs through that office's Request for Release of Information form.
- Students can provide consent to the disclosure of educational records maintained by the Student Affairs Student Conduct Office through that office's FERPA Release form.
- Students can authorize OU Health Services to release their health information records through that office's Release for Medical Records Authorization form (PDF).
- Students can authorize any OU faculty/staff member to include personally identifiable education record information in letters of recommendation through the Open Records Office's Letter of Recommendation Authorization form (PDF). Students provide the faculty/staff member with this form, and the faculty/staff member should keep it on file as documentation that the student authorized the release of their information.
- Student can authorize the Open Records Office to release transcripts, student and academic conduct records, campus police, housing, student employment, financial aid, and bursar information through that office's FERPA Release form (PDF).
- Students in the Academic Success Center can provide consent to the disclosure of their academic standing through the FERPA Release form.
- Students in Price College of Business can authorize the release of confidential information through that College's Student Release of Student Records form.
- Students living in University Housing can provide consent for Housing to disclose protected student information by completing the release section of the Housing Contract.

Parental Access to Student Education Records

Parents of a dependent student may have access to grades and other confidential academic information under guidelines provided in the Family Educational Rights and Privacy Act of 1974. Access to this information is limited to parents who claim the student as an exemption on their federal income tax return.

Parental Access to Student Education Records Form

Release of Student Information

The Family Educational Rights and Privacy Act of 1974 (FERPA), also known as the Buckley Amendment, affords students certain rights with respect to their education records. These rights include:

1. **The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.**
A student should submit to the registrar, dean, head of the academic department, or other appropriate officials a written request that identifies the record(s) the student wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. **The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.**
A student who wishes to ask the University to amend a record should write the University official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. **The right to provide written consent before the University discloses personally identifiable information other than "directory information" from the student's education records, except to the extent that FERPA authorizes disclosure without consent.**
Directory information, which may be disclosed without consent, includes: Student's name, local and permanent addresses, email address, telephone number, college, major, dates of attendance, classification, current enrollment status, anticipated degree date, participation in recognized student activities and sports, degrees and awards received and dates of receipt, and most recent previous educational institution attended.

Withholding Directory Information

A student may elect to withhold directory information by filling out the Directory Hold Form. The hold will: block the student's name, address, and email address from the OU website directory; prevent the release of attendance, withdrawal, or graduation information, even after the student leaves the University (unless the student submits a Directory Hold Release Form); and prevent the University from releasing contact information. For students who withhold directory information, University officials are prohibited from releasing any form of information without a written release from the student. The University requires this release before it will verify employment, enrollment or the status of students who make applications for employment, auto loans, good student discounts, apartment leases, etc.

Without a directory hold, any member of the public, including individuals, organizations, and vendors, may obtain student directory information for purposes such as advertising and solicitation.

A student cannot place a hold on a portion of the information. A student can place a directory hold at any time. However, in order for information to be withheld from the printed directory, if a printed directory is produced, the directory hold must be on file by the end of the second week of the fall semester.

The University may disclose education records without a student's prior written consent under the FERPA exceptions: disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement personnel and health staff); officials of schools to which the student seeks to transfer; the Comptroller General of the United States, the HEW Secretary, the administrative head of an educational agency, or State educational authorities; in connection with the student's application for, or receipt of, financial aid; State and local officials or authorities to which such information is specifically required to be reported under the State statute and adopted prior to November 19, 1974; organizations or educational agencies conducting legitimate research, provided no personal identifiable information about the student is made public; accrediting organizations; parents of a dependent student upon proof of dependency (exclusive of international students); in connection with an emergency when such information is necessary to protect the health or safety of the student or other persons, and to comply with a judicial order or lawfully issued subpoena.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.

The name and address of the Office that administers FERPA is:
 Family Policy Compliance Office
 U.S. Department of Education
 400 Maryland Avenue, SW
 Washington, DC 20202

Standards of Scholarship

The following standards relating to retention of undergraduate students at the University of Oklahoma have been established. For continued enrollment in good standing, a student must maintain a retention grade point average based on total hours attempted as indicated as follows:

- 0 through 29 semester credit hours attempted – 1.70
- Greater than 30 semester credit hours attempted – 2.00

Students with 0 to 29 semester hours attempted and a retention grade point average of 1.70 to 1.99 will be placed on **academic notice**.

The retention grade point average is based on all work attempted, both transfer and OU, minus those courses repeated or reprieved in accordance with the academic forgiveness policy, as well as remedial courses, and PE activity courses. These standards are minimal. Each degree-recommending college may establish higher standards for retention.

Academic Probation and Suspension

Students not meeting retention standards will be placed on academic probation for one semester, at the end of which they must have met the minimum standard required to continue as a student in good standing. However, a student enrolled on probation may continue on probation provided the student makes a 2.00 grade point average on that semester's work. Students should check with their college dean's office or with the Office of the Registrar-Academic Records for specific enrollment requirements while on academic probation. A student enrolled on probation, who fails to raise their cumulative retention grade point average to minimum requirements or make a 2.00 grade point average on work taken while enrolled on probation, excluding activity courses, will be suspended for poor scholarship.

Credit completed after the end of the term, or credit earned at another institution, will be included in the student's retention/graduation grade point average at the time the work is recorded in Academic Records. The student's current academic status will be reviewed and/or updated at that time but previous postings of academic standing will remain unchanged. A student's academic status will not be changed retroactively.

A student suspended from the University for academic reasons is not eligible for readmission until one full semester has elapsed following the date of suspension. Any student who has been suspended should contact the Office of Admissions & Recruitment for further instructions.

Regulations concerning admission, readmission, probation, and suspension of undergraduate students at the University are administered by the Committee on Academic Regulations.

The regulations of various colleges, established by the faculty, are administered by the deans concerned:

1. After the student has been readmitted to the University following suspension, they must meet any specific conditions established by the dean of their college for retention in that college.
2. A student who fails to meet college requirements may be placed on probation in that college or denied enrollment in that college.

Graduation

Although the formal Commencement ceremony is held only at the conclusion of the spring semester, degrees are posted and awarded at the end of each fall and spring semester and summer session. The degree and date of the diploma are entered on the student's permanent academic record. The date of graduation for each term is the last day of examinations in the fall, the date of commencement in the spring, and the last day of classes in the summer. All diplomas are mailed to students approximately 10-12 weeks following the official graduation date.

For a student to graduate, all work required for the degree must be completed satisfactorily by the last day of finals of the semester or term. It is the student's responsibility to make sure all degree requirements have been met.

Students should check with the Office of the Registrar or their college office regarding the date all work must be submitted to the Office of the Registrar-Academic Records including incomplete grade (I) makeup reports, transfer work, correspondence grades, and any other information required to complete their requirements for graduation.

Should a student complete all academic requirements for graduation and apply for the degree at a time other than the end of a semester or summer session, the Office of the Registrar-Academic Records, upon request, will issue a certified statement that the student is eligible for the degree as of the date when the requirements for the degree were completed.

A student may elect to be graduated under the requirements for an undergraduate degree in effect at the time of their first enrollment in the state system provided they complete the work for the degree within a maximum time limit, determined by the college, of not less than six nor more than 10 years. If the work for a degree covers a period longer than that specified by the college, the college, in consultation with the student, will determine the catalog or bulletin to be in effect for that student's graduation.

A student whose initial enrollment in the state system is during the summer session will be subject to the degree requirements in effect for the academic year following that summer.

Credit in the student's major field or area of concentration which is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the major department, or by the departments in the student's area of concentration. (The term "area of concentration" is included in addition to "major field" to allow for those cases in which the equivalent of a major may be earned by a combination of work in several departments.)

The following general requirements must have been met in order to be eligible for an undergraduate or first professional degree from the University of Oklahoma:

1. Each student must satisfactorily complete the requirements for graduation prescribed by the faculty of the college recommending the degree.
2. All undergraduate students must satisfy the general education requirements that are part of the degree program under which they will graduate, unless they have completed an Associate of Arts or Associate of Science degree at an institution in the Oklahoma State System of Higher Education. Transfer students who enter the University with an Associate of Arts or an Associate of Science degree from an institution in the Oklahoma State System of Higher Education are considered to have met the lower-division (1000- and 2000-level) course requirements of the University's General Education core curriculum. However, these students are still required to complete any lower-division coursework that is required beyond the University's lower-division General Education course requirements, as well as the upper-division (including General Education) course requirements for a degree. Requests for exceptions to this policy must be submitted by the student's college and approved by the general education committee. The college advising coordinator must originate the request with a letter to the general education committee

explaining and justifying the request, along with any supporting documentation.

3. A student must take a minimum of 30 semester credit hours at the University of Oklahoma, exclusive of correspondence and extension courses. At least 15 of the final 30 hours applied toward the bachelor's degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed in residence at the University. However, colleges may have higher standards and it is the student's responsibility to be informed concerning the specific requirements for graduation from the degree program in which the student is enrolled. Hours completed in residence means college-level courses taken for academic credit from any division of the University of Oklahoma, including the Norman Campus, the Health Sciences Center, OU-Tulsa, and the College of Professional and Continuing Studies, with the exception of correspondence courses. Grades and hours earned at any of these divisions are included in the OU retention/graduation grade point average for purposes of determining completion of degree requirements.
4. Students recommended for the bachelor's degree must achieve a combined retention/graduation grade point average of at least 2.00 in all coursework attempted, including both work undertaken at the University and transfer courses, excluding any courses repeated or reprieved as detailed in the State Regents' Grading Policy and excluding physical education activity courses. However, colleges may require a grade point average higher than 2.00 for graduation, and it is the student's responsibility to be informed concerning the specific requirements for graduation from the degree program in which the student is enrolled.
5. The Oklahoma State Regents for Higher Education require that all students graduating from institutions in the Oklahoma State System of Higher Education, before they are awarded a baccalaureate degree of any type, must have completed at least six semester hours of college credit in American history and government.
6. Responsibility for meeting graduation requirements lies with the student.
7. A student who is a candidate for a degree at the close of any semester or summer session must submit an official Application for Graduation and pay all tuition and fee charges before the degree will be conferred and a diploma issued. For students who have not paid all of the tuition and fees by the end of the term, the degree will not be posted to their academic record and a diploma will not be issued until their tuition and fees are paid. Once these are paid in full, the degree will be posted and the diploma issued and dated with the term in which the student completed degree requirements. Those finishing in the fall should submit a graduation application by May 1; those finishing in the spring, by December 1; and those in the summer, by March 1.
8. Students are encouraged to participate in Commencement and convocation ceremonies and should purchase their official University of Oklahoma caps and gowns from the campus bookstore. The Graduation Office also will coordinate Commencement Countdown in the fall and spring, a one-stop event where students can purchase caps and gowns, graduation announcements, the OU Ring, and take senior photos. The University of Oklahoma prints a Commencement program each spring to be distributed at the May Commencement exercises. Student who do not wish to have their names published in the program must mark the appropriate box on the graduation application for their name to be withheld. Visit the Commencement website for more information.

9. A student may receive a second bachelor's degree either from the college from which they received a first degree or from another college in the University. In order to receive a second degree, however, a student must spend at least two semesters in residence and complete at least 30 additional hours in the college. These 30 hours must be in addition to the total number of hours completed by the student for the first degree. Two degrees may be conferred at the same Commencement, provided permission is granted by the faculty recommending each degree, and provided the student submits the additional Application for Graduation.
10. Degrees achieved through the Honors College, pursuant to University and/or State legislation, shall be recognized by diplomas & transcripts attesting the character of such honors and their relative degree. Students must be admitted to and satisfy the requirements of the Honors College (p. 1618) to receive the transcript notation "Honors College Completion."

4.0 Medallion

Students may graduate with a 4.0 Medallion if they have completed the requirements of their undergraduate degree with:

- 4.0 OU and Combined Retention GPA¹
- Minimum of 60 hours taken at OU
- No disciplinary Academic Integrity action

Latin Honorifics, Effective Spring 2024 (Norman Campus-Based Undergraduate Academic Programs):

- cum Laude (3.60 to 3.74)
- Magna cum Laude (3.75 to 3.89)
- Summa cum Laude (3.90 to 4.00)
- Minimum of 60 hours taken at OU
- No disciplinary Academic Integrity action

¹ Combined Retention GPA: includes all courses taken with repeat, reprieve and renewal policies applied – Overall Transcript Total.

Academic Forgiveness Policy

The Academic Forgiveness Policy, instituted by the Oklahoma State Regents for Higher Education, allows undergraduate students, under certain circumstances, to have courses removed from the calculation of the retention grade point average. It consists of three components: the repeat policy, the reprieve policy, and the renewal policy.

Repeat Policy Undergraduate Students

- University policy prohibits students from repeating a course in which they have earned a grade of A or B unless the course is one in which there is a change of subject matter **and** the course has been designated "repeatable for credit." Courses that are repeatable for credit are identified as such in the course description.
- Undergraduate students may repeat up to four courses or 18 hours (whichever comes first) in which the original grade was a D or F. Only the second grade will be included in the calculation of the retention/graduation grade point average. The original grade will still appear on the student's permanent record, but will not be calculated into the student's retention/graduation grade point average or total hours earned.

- Students who repeat courses/hours beyond those under the Repeat Policy may do so with both the original grades and repeat grades included in the calculation of the retention/graduation grade point average. Academic credit from any division of the University of Oklahoma—Norman campus, OU Health Sciences Center, OU-Tulsa, or the College of Continuing Education—are included in the OU retention/graduation and cumulative grade point averages for purposes of retention and graduation.

Graduate Students (effective beginning Summer 2019)

- A student may repeat courses and have only the second grade earned, even if it is lower than the first grade, count in the calculation of the GPA, up to a maximum of four courses, but not to exceed 18 hours, in the courses in which the original grade earned was a C, D, or F.
- Both attempts will be recorded on the transcript automatically with the earned grade for each listed in the semester earned. The *Explanation of Grades* section of the transcript will note that only the second grade earned is used in the calculation of the GPA.
- If a student repeats an individual course more than once, all grades earned, with the exception of the first, are automatically used in the calculation of the GPA.
- Students repeating courses above the first four courses or 18 credit hours of C, D, or F may do so; however, the initial grades **and** repeat grades will be used in the calculation of the GPA.
- A student must be currently enrolled as a degree-seeking graduate student at OU in order to receive grade forgiveness for a repeated course under this policy.
- Students enrolled under a **non-degree** classification such as unclassified status, teaching certification status, graduate visitor status, and students who are admitted solely to a graduate certificate program are **not** eligible for grade forgiveness under this policy.
- Courses with variable credit and/or content, even if letter-graded, are **not** eligible for grade forgiveness under this policy. This includes, but is not limited to, seminars, special topics, independent studies, directed readings, and thesis or dissertation research.
- Maximum allowable tuition waiver will **not** be increased to cover repeated courses.
- The repeat policy grade forgiveness does **not** negate the limit of C, D, and/or F grades permitted for doctoral students. Doctoral students who accumulate nine credit hours of C, D, and/or F grades in any combination will be disenrolled from the doctoral program.
- The repeat policy grade forgiveness does **not** apply to course substitutions approved for courses in which the student previously earned a grade of C, D, and/or F. The substitute course may take the place of the original course on the program of study but the substitute course grade will **not** replace the grade earned in the original course. Both courses will be used in the calculation of the GPA.
- Coursework previously assigned a temporary course number might be eligible to be repeated under this policy; however, if there is any deviation in the course number and/or course title, the student and academic unit will need to consult with the Graduate College **before** the course in question is repeated to verify eligibility under this policy.

A student may request only one reprieve or renewal from the University of Oklahoma.

Academic Reprieve Policy

The Reprieve Policy allows undergraduate students to request that one or two semesters' grades be excluded from the calculation of the combined retention/graduation grade point average. Grades from courses taken during the reprieved term(s) will remain on the student's permanent record, but will only be calculated into the student's cumulative grade point average. A student may request an academic reprieve if the following criteria are met:

- The student must be currently enrolled as an undergraduate on the Norman campus;
- at least three years must have elapsed between the period in which the grades being requested to be reprieved were earned and the reprieve request; and
- prior to requesting the reprieve, the student must have earned at least a 2.00 grade point average with no grade lower than C in all regularly graded coursework (minimum of 12 semester credit hours), excluding activity and performance courses. This coursework may be completed at any accredited higher education institution.

The request may be for one semester/term or two consecutive semesters/terms. If the reprieve is awarded, all grades and hours during the enrollment period are excluded from the retention/graduation grade point average. Coursework with a passing grade included in a reprieved semester may be used to demonstrate competency in the subject matter. However, the coursework may not be used to fulfill credit hour requirements. If the student's request is for two consecutive semesters/terms, the institution may choose to reprieve only one semester.

The student may not receive more than one academic reprieve during their academic career. The student will not be eligible to receive a reprieve if a previous reprieve request was denied at the University of Oklahoma.

The request form is available in Academic Records. Students should contact their college concerning the process for requesting a reprieve.

Academic Renewal Policy

The Academic Renewal Policy allows undergraduate students who have had academic trouble in the past and who have been out of higher education for a number of years to recover without penalty and have a fresh start. Under Academic Renewal, **all** course work taken prior to a date specified by the University of Oklahoma will be excluded from retention/graduation grade point average. All courses and grades will remain on the student's transcript and be calculated in the student's cumulative grade point average. *Neither the content nor credit hours of renewed course work may be used to fulfill any degree or graduation requirements.* If a student has received a renewal at another institution in Oklahoma, the student may request a renewal at the University of Oklahoma. Whether accepted or denied, this review will constitute the student's request for renewal at the University of Oklahoma.

If the student has not received a renewal at another institution in Oklahoma, they may request an Academic Renewal if the following is met:

- The student must be currently enrolled as an undergraduate student on the Norman campus.
- At least five years must have elapsed between the period of time in which the grades being requested to be renewed were earned and the renewal request.
- Prior to requesting the renewal, the student must have earned at least a 2.00 grade point average with no grade lower than a C in all

regularly graded course work (minimum 12 semester credit hours), excluding activity and performance courses. This coursework may be completed at any accredited higher education institution.

The request form is available in Academic Records. Students should contact their college concerning the process for requesting an Academic Renewal.

Registration & Student Services

Kellie Dyer, Registrar
Debbie Blevins, Coordinator of Registration & Student Services
Lisa Cannon, Coordinator of Academic Publications & Curriculum

Buchanan Hall
1000 Asp Ave., Room 230
Norman, OK 73019-4076
Phone: (405) 325-4147
FAX: (405) 325-7047
enroll@ou.edu
www.ou.edu/registrar

Classroom Management

Classroom Management (233 Buchanan Hall) is responsible for the scheduling of general-purpose classrooms, event room scheduling, pertinent information for the class schedule (such as allocation guidelines, schedule changes, course grading, and course cancellation), forms, and class roll information.

Academic Publications and Curriculum

The office of Academic Publications and Curriculum (233 Buchanan Hall) is responsible for producing the general catalog, degree checksheets, and the degree inventory. The Academic Curriculum Specialists are responsible for maintaining and updating the degree audit software, Degree Navigator (DN). DN is a web-based degree audit system and is intended to be used as a supplement to degree check sheets, the general catalog, and academic advising. DN has the ability to allow the students to see degree requirements, course requirements, and degree audits in multiple report formats. DN allows students to shop their credits into any of the institution's other major/minor programs.

Registration: Online Enrollment

Registration (230 Buchanan Hall) includes the University's online enrollment process which is done through one.ou.edu. Students should refer to the Enrollment Services website for specific dates, deadlines, and procedures that apply to the registration process.

Generally, registration consists of advisement through the college office, enrollment in courses, and payment of tuition and fees. Advisement and enrollment should take place before classes begin; tuition can be paid following enrollment and must be paid by the date published on the Bursar Office website.

In addition to the normal registration process, students enrolled at either the Norman Campus or the University of Oklahoma Health Sciences Center in Oklahoma City may cross-enroll in courses at the other campus. Students should check with the Registration Office of their home campus for more specific information on the cross-enrollment procedure.

Calendar

The University of Oklahoma offers courses in the fall semester (late August to early January), the spring semester (mid-January to mid-May), and the summer session (mid-May to mid-August). For current academic calendars, see the Office of the Registrar website.

Academic Workload

A student desiring to carry an academic overload (number of semester-credit-hours 25 percent or more than the number of weeks in the applicable academic semester or summer term), must have demonstrated readiness to perform on an overload basis, either through superior performance on a college aptitude test or on the basis of superior academic achievement in high school or college.

An academic overload is defined as a number of semester-credit-hours 25 percent or more than the number of weeks in the applicable academic semester or summer term. A student wishing to enroll in an academic overload must obtain permission from his or her dean. The fall/spring semesters are periods of 16 weeks; consequently, 20 credit hours are considered an overload, and the maximum enrollment permitted under any circumstances is 24 hours. Likewise, the summer session is a period of eight weeks; consequently, 10 credit hours are considered an overload, and the maximum enrollment permitted under any circumstances is 12 hours.

The maximum student overload in any given semester or term is limited to a number of semester-credit-hours which is 50 percent greater than the total number of weeks in the applicable academic semester term. A student simultaneously enrolled in two or more institutions should not exceed the standards set forth in this policy.

Attendance Policy

Students are responsible for the content of the courses in which they are enrolled. Specific policy concerning attendance requirements and announced and unannounced examinations is the responsibility of the individual instructor. Students have a responsibility to inform faculty prior to absences whenever possible. Faculty should make every effort to find a reasonable accommodation for students who miss class as a result of participation in Provost approved or Director of Athletics approved University-sponsored activities or legally required activities such as emergency military service. Students missing class on account of jury duty must receive such accommodation. The student is responsible for class attendance after completion of registration. The student must cancel before the first day of classes to avoid being charged fees and tuition. Students who do not attend classes beginning the first day **may** be canceled from a course if there is high demand for seats from students who are waiting to enroll in courses. **However, students should understand that non-attendance and/or non-payment of fees will not automatically result in the cancellation of enrollment. The student is responsible for dropping courses by the appropriate deadlines in order to avoid tuition charges.**

Final Examinations

Oklahoma State Regents for Higher Education regulations require that those institutions that reserve the final week of the semester as a testing period shall ensure that all classes meet during the testing period. Final examinations are given at the discretion of the instructor, or, in the case of multiple sections, the department in which the course is offered. The

current schedule for final exams is listed on the Office of the Registrar's website.

(Exceptions: The Gallogly College of Engineering and the Mewbourne College of Earth and Energy require comprehensive examinations to be given during the regularly scheduled examination periods in all undergraduate courses excluding directed readings, pure laboratory courses, and project-type design courses and seminars.)

When a final examination is given, the student must take the examination. If a final examination is given, no faculty member is authorized to depart from the published examination schedule for either a class or an individual without approval, as stated in the Faculty Handbook. Early final examinations are prohibited.

Final Examination has been defined as follows: an examination that is comprehensive in nature or which accounts for a greater proportion of the final grade than an examination given during the semester. (President, 2-10-86) A student will not be expected to take more than two final examinations in one day. In cases where a student has three or more exams scheduled for the same day, instructors must offer make-up exams. The student's number of exams will be brought down to two by the following procedure:

1. If a student has three or more exams on the same day, the instructor(s) giving the third and subsequent exams must provide make-up exams during the week designated for final exams for that semester;
2. The student must notify the instructor or department of the third and subsequent final exams scheduled within a single day. Such notification must be given to the specific instructor or department before the end of the twelfth week of classes (sixth week of the summer term).

In the event a conflict should arise from the scheduling of two or more final examinations at the same time, the student will attend the examination for the class that met first during the week, according to the student's class schedule. The instructor(s) giving the second and subsequent exams must provide make-up exams during the week designated for final exams that semester.

Change of Address

A student may change their billing, mailing, parent, and permanent addresses and phone numbers online through one.ou.edu, through the Personal Information channel on the home tab. In addition, international students must also report to the International Student Services office in 144 Farzaneh Hall.

Change of College and Major

A student wishing to transfer from one degree-recommending college to another within the University should contact the advising office of the college to which the transfer is occurring.

A student who wishes to change major fields should consult his or her college advising office.

Classification of Students

Freshman — through 29 semester hours earned.

Sophomore — 30–59 semester hours earned.

Junior — 60–89 semester hours earned.

Senior — 90 semester hours earned.

Full-Time Students

To be considered full-time, an undergraduate student must be enrolled in at least six (6) hours in a summer session and at least 12 hours in a fall or spring semester. For limitations on graduate student enrollment, see the Graduate College website.

Payment

Tuition and Fees

Tuition and fees may be paid following enrollment. To avoid penalties for late payment, fees should be paid completely prior to the date given in the University calendar. Fees may be paid online through one.ou.edu, in person at the Student Financial Center in Buchanan Hall, or by mail. For the most up-to-date information concerning tuition and fees, visit the Bursar Services website.

For more information on tuition and fees for other programs (OU Online, College of Professional and Continuing Studies, and other special programs), please visit their program's website.

Refunds

Refunds are calculated from the day classwork begins for each semester or session according to the following schedules established by the Oklahoma State Regents for Higher Education. Schedules for the summer session may differ; please consult the Summer Session Schedule for applicable refund dates.

Change(s) of Enrollment

NOTE: The regulations listed below apply to courses that meet the full semester. For summer session, please refer to the Academic Calendar for specific dates for all summer blocks. Courses that do not meet the full term will have different deadlines. Contact Enrollment Services, 230 Buchanan Hall, enroll@ou.edu for more information.

Period I - Free Add and Drop

Students may add during the first week of classes for fall or spring without approval of instructor. Students may add during the second week of classes for the fall or spring semester with approval of instructors. Students may drop without additional charges or grading penalties any time up through the end of the second week of classes in fall or spring. No grades will be recorded for dropped courses.

Note on tuition charges for dropped courses: You will be required to pay tuition and fees for any course dropped after the second week of classes in fall or spring semesters, even if you add another course at the same time.

Students can add and drop classes online through one.ou.edu during the first two weeks of fall and spring.

Period II - Automatic Grade of W

Undergraduate students: Third through the twelfth week of fall and spring. Students may add classes only by permission of the instructor of the course and the Dean of the student's College. Courses dropped during this time will be recorded with a grade of W. (All undergraduate colleges require their students to obtain approval from their advisor to drop a course after the second week of classes.)

Graduate students: Third through the sixth week of fall and spring. Students may add classes only by permission of the instructor of the

course and the Graduate College Dean. Courses dropped during this time will be recorded with a grade of W.

Period III - Grade of W or F

Graduate students: Seventh through the tenth week of fall and spring. The same restrictions on added courses apply as for Period II, above. For dropped courses, instructors may assign a grade of W or F.

Period IV - Petition College Dean

Undergraduate Students: Thirteenth week through the end of classes in fall and spring. Permission of instructor and Dean is required for added classes. Students who wish to drop a course during this period must petition the Dean of the student's College. (Instructor's Signature and Grade of W or F are required.)

Graduate Students: Eleventh week through the end of classes in fall and spring. Permission of instructor and Dean is required for added classes. Students who wish to drop a course during this period must petition the Dean of the student's College. (Instructor's Signature and Grade of W or F are required.)

Undergraduate 5-W Limit

A student is allowed only five grades of W throughout the course of their undergraduate career at The University of Oklahoma. Once a student reaches this maximum number of W grades, they will not be allowed to drop any courses after the free add and drop period. After the five-drop limit has been reached, students with extreme, extenuating circumstances may apply for an exception to the limit on W grades through the Academic Advising Resource Center. Complete withdrawals do not count in this limit.

Cancel or Withdraw Enrollment (Current Students Only)

Many students become confused by the difference between "canceling" and "withdrawing" and how these affect tuition charges and grades. **Cancellation** is the term OU uses if a student drops all classes before classes begin. Canceling enrollment removes all tuition charges and all record of enrollment. No grades are recorded. Complete Withdrawal occurs when a student drops all classes after classes begin. When complete withdrawal occurs before the tuition obligation deadline, there are no tuition charges. When the student withdraws after the deadline, the student will be charged full tuition rates.*

*Federal regulations required the First Time Title IV Attendees (students receiving federally guaranteed financial aid for the first time at OU) will be charged on a different schedule if they withdraw from school after classes begin. Refund schedules for students in this category are available on request.

Cancel Your Enrollment

Current undergraduate students may cancel enrollment by completing an online petition at link.ou.edu/withdraw which will be sent to Graduation and Persistence Support (GPS). The student will be contacted directly to discuss the situation or gather additional information.

Graduate students may contact the Office of Enrollment Services by emailing enroll@ou.edu or by calling (405) 325-4147. After classes have begun, students must withdraw from enrollment according to the following instructions.

For summer enrollments, petitioning is not required. Students may cancel their enrollment through ONE.

If you are a prospective student admitted for an upcoming term and wish to decline admission or withdraw your application, please email admissions@ou.edu or contact your OU admissions counselor.

Complete Withdrawal from Enrollment

A student who experiences an interruption due to unforeseen or extenuating circumstances and chooses to leave the institution must officially withdraw from the University of Oklahoma through the Complete Withdrawal Process.

Undergraduate Students - Fall and Spring

During the first three weeks of classes, undergraduate students requesting a Complete Withdrawal from the University must complete an online petition at link.ou.edu/withdraw to be processed through Graduation and Persistence Support (GPS). The student will be contacted directly to discuss the situation or gather additional information.

Beginning the fourth week, undergraduate students requesting a Complete Withdrawal must complete an **Online Petition for Complete Withdrawal** which will be sent to the Academic Advising Lead of the college in which the student is enrolled for consideration. The College Academic Advising Lead will contact the student directly to discuss the implications and feasibility of withdrawing, as well as any alternative academic options that may exist. Documentation of extreme extenuating circumstances will be required. When possible, students are expected to continue attending classes until such time the Petition for Complete Withdrawal is approved. Once the petition has been approved for a complete withdrawal for the semester, students will receive grades of W for all courses.

Undergraduate Students - Summer

- The final day to completely withdraw from a four-week course is the third day.
- The final day to completely withdraw from an eight-week course is the fifth day.

Prior to these deadlines, undergraduate students requesting a Complete Withdrawal should contact Office of the Registrar- Enrollment Services at enroll@ou.edu or (405) 325-4147 to request a complete withdrawal. After the deadline, undergraduate students requesting a Complete Withdrawal must complete an **Online Petition for Complete Withdrawal** which will be sent to the Academic Advising Lead of the college in which the student is enrolled for consideration. The College Academic Advising Lead will contact the student directly to discuss the implications and feasibility of withdrawing, as well as any alternative academic options that may exist. Documentation of extreme extenuating circumstances will be required. When possible, students are expected to continue attending classes until such time the Petition for Complete Withdrawal is approved. Once the petition has been approved for a complete withdrawal for the semester, students will receive grades of W for all courses.

Graduate Students

Graduate students withdrawing from the University should contact Enrollment Services at enroll@ou.edu or (405) 325-4147 during the first two weeks of classes (fall/spring), and the **Graduate College** Office beginning the third week of classes. Graduate students withdrawing from all courses in the first six weeks of classes (first three weeks of a summer session) receive a grade of W in each course of enrollment. Beginning with the seventh week (fourth week of a summer session) through the

last day of classes of the semester or summer term, these students must receive a grade of W or F from the instructor in each course upon withdrawal.

Withdrawn students are refunded fees and tuition according to State Regents' **refund policy**.

A student will be held responsible for the cost of room and board when either or both are furnished by the University.

Undergraduate 5-W Limit

A student is allowed only five grades of W throughout the course of their undergraduate career at The University of Oklahoma.

Fall 2020 and Fall 2021 ONLY: Any W earned during the fall 2020 semester will NOT count toward the student's total limit of 5. Once a student reaches this maximum number of W grades, they will not be allowed to drop any courses after the free add and drop period. After the five-drop limit has been reached, students with extreme, extenuating circumstances may apply for an exception to the limit on W grades through the **Academic Advising Resource Center**. Complete withdrawals do not count in this limit.

Audit

Auditing is attending a class without participating in classwork or receiving credit. Enrollment as an auditor is permitted in all courses, subject to the approval of the instructor in the course. All tuition and fees are assessed for audit enrollments.

Initial enrollment in a course as an auditor may be completed only between the first day of classes and the last day permitted for late enrollment for credit in any semester or term. Students wishing to enroll in a course as an auditor need to get an Audit add/drop form from OU Enrollment Services in 230 Buchanan Hall, get the instructor's approval, and then return the form to Enrollment Services.

A change of enrollment from audit to credit may be made, provided the change is made no later than the end of the second week of classes in a regular semester and provided the instructor and appropriate dean grant approval. Students wishing to change enrollment from audit to credit need to get an add/drop form from OU Enrollment Services in 230 Buchanan Hall, get the appropriate approvals, and then return the form to Enrollment Services.

To change enrollment from credit to audit, students need to get an Enrolling for Audit form from the OU Enrollment Services office in 230 Buchanan Hall, get appropriate approvals, and then return the form to Enrollment Services.

- **Undergraduate students:** a change of enrollment from credit to audit may be made during the first two weeks of classes in a semester.
- **Graduate students:** a change of enrollment from credit to audit may be made during the first ten weeks of classes in a semester, provided the student is passing in the course at the time the change is processed and the student has received approval from the instructor. A change of enrollment processed during the first ten weeks of a semester requires a report of progress from the student's instructor.

For summer sessions, students should refer to the Academic Calendar for specific deadlines for all summer blocks.

A change of enrollment to audit supersedes the original enrollment for credit, and no withdrawal from the credit enrollment is posted on the student's academic record.

A grade of W may be assigned to a student who has not performed according to the instructor's requirements for an auditor in that class. Such W's will be applied to the total of five drops allowed in a student's academic career.

Enrollment as an auditor is indicated on the student's permanent academic record with the final mark AU (identified as Audit), subject to the same posting regulations governing credit enrollment.

Fee Waivers for Auditing of Courses

Institutions of the state system are authorized to waive general enrollment and all other fees for residents of Oklahoma 65 years of age or older for auditing of academic courses, contingent upon space being available.

Pass/No Pass Option

Students may elect to enroll in courses on a Pass/No Pass basis but should understand that colleges may not count Pass/No Pass enrollments when determining whether the student has fulfilled the requirements for a degree. Specific college limits are listed in the Pass/No Pass Policy section of the Academic Records web page.

Both grades, P and NP, are considered neutral grades in the computation of grade point averages, i.e., credit hours for Pass, though earned, will not be included in grade point averaging, and no credit hours will be earned for No Pass. Pre-professional students who plan to apply for admission to professional schools, such as law or medicine after completion of an undergraduate degree, are advised that courses taken on the Pass/No Pass option may hinder admission when grade point average is a major consideration. For advice, the student should consult the admissions office of the professional school where they intend to apply.

Before enrolling in courses under the Pass/No Pass option, students should consult with their advisers or personnel in college offices to be certain of approved enrollment.

Students may change enrollment in a course to or from the Pass/No Pass option by the add/drop procedure in the first two weeks of a regular semester or the first week of a summer term with the approval of an adviser and the college office when required. This change in enrollment must be completed in person at Enrollment Services, 230 Buchanan Hall.

To prevent any discrimination in grading, the student's choice of P/NP grading will not be made known to the instructor in a course. The grade will be automatically assigned at the end of the course on the basis of the grade submitted by the instructor. The minimum performance level required to receive a P grade in a course is a grade of C.

Veteran Student Services

GI BILL® Student Responsibilities

Additional information in the U.S Department of Veterans Affairs, School Certifying Official Handbook

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>.

Applications for Benefits

VA students can submit applications online. If students don't have access to apply online they can call 1-888-442-4551 and ask that an application be mailed to them.

All VA students must file an application when they first start school before they can receive benefits. Students who have never received VA benefits must file an original application. There are multiple applications from which to choose.

Initial application to VA for Education benefits:

- Veterans or Service members applying for chapters 30, 33, and 1606 use VA Form 22-1990;
- Dependents applying for chapter 35 or chapter 33 (Fry Scholarship) use VA Form 22-5490;
- Dependents requesting Transferred Post-9/11 GI Bill (chapter 33) use VA-Form 22-1990e;

Change of Address and Direct Deposit

Address and direct deposit information must be kept current. Chapter 30 and 1606 students can use the WAVE system to update address and financial institution information. Links are on the "Main Menu" available after they log onto WAVE.

In order for a student to either start or change direct deposit information, the student should have their account information handy. The following information is needed to set up direct deposit and can be found on checks and bank statements:

- Account number
- 9-digit bank routing number
- Type of account (checking or savings)

If a student has chosen direct deposit, the student still needs to keep their address current because all other correspondence including award letters are mailed to the student's address.

Students who cannot add their account information through WAVE should contact 1-877-838-2778 to begin and change direct deposit.

MY VA

Students are strongly encouraged to register and utilize My VA to assist them in the following:

- Obtaining up to date information on their educational entitlement
- Updating their Direct Deposit and personal contact information
- Downloading VA letters and personal documents
- Viewing the current status of their payments (both education and disability)

Students can register for either a Basic or Premium account but must be enrolled in the Defense Enrollment Eligibility Reporting System (DEERS) to obtain either account type.

Student Verification of Enrollment

Chapter 33 students must verify their enrollment status each month for enrollment periods which begin on or after August 1, 2021, to continue to receive their monthly housing allowance (MHA) and/or kicker payments. If a beneficiary fails to verify for two consecutive months, VA will withhold any additional MHA payments until verified by the student. The requirement for the student to verify their enrollment status means **VA cannot accept statements from the school to verify the enrollment**, as the current process for monthly certification for other education benefits allows.

This law will be implemented in phases. The first phase is for students enrolled at Non-College Degree (NCD) facilities who are in terms or programs beginning August 1, 2021 or later. Additional phases will include those enrolled in training at an Institutions of Higher Learning (IHL).

Non-Chapter 33 Verification of Enrollment

The preferred verification method is WAVE, which includes features not in IVR (Interactive Voice Response). When students are awarded benefits, the award letter they receive describes WAVE and IVR. The earliest date students can verify their enrollment is the last calendar day of each month.

WAVE allows students to verify their enrollment on the Internet. WAVE is on the Education Service website at W.A.V.E. Web Automated Verification of Enrollment

Students must be currently enrolled in an approved educational program and must have a current benefit award to use WAVE. The WAVE system permits students to perform a multitude of functions. For instance, students may:

- Verify that enrollment has not changed
- Report a change in enrollment
- Change mailing address
- Initiate or change direct deposit information
- View the enrollment period and monthly benefit amount
- View the remaining entitlement
- Sign up for a monthly e-mail reminder

IVR allows students to "phone in" (1-877-823-2378) their monthly verification if there are no changes to the enrollment during the previous month. If there were changes in the enrollment the student must contact the VA Certifying Official to submit a change in status and the payment may be delayed until the reduction is processed.

School Responsibilities

The following information provides the basic responsibilities of an educational institution and VA School Certifying Official (SCO). Each school will designate at least one VA Certifying Official to carry out reporting requirements.

Additional information in the U.S Department of Veterans Affairs, School Certifying Official Handbook

- School Certifying Officials complete annual training administered by Dept of VA and State Accrediting Agency.

- Keep VA informed of the enrollment status of veterans and other eligible persons.
- Keep up-to-date on current VA rules and benefits
- Maintain records of VA students and make all records available for inspection.
- Certify in accordance with the school's Yellow Ribbon Program agreement
- Apprise supervisors of any internal problems that may affect service to VA students
- Keep the State Approving Agency (SAA) informed of any new programs or changes in current programs, academic policies, procedures, addresses, phone numbers, and certifying officials.

OU In-State/Out-of-State Tuition Policy

Additional Information on In-State & Out-of-State Tuition Policy

Please contact OU Veteran Student Services **for more information.**

Chapter 33 & 31 – Veterans Benefits and Transition Act of 2018

Additional information found in Bursar Services Bill Pay

Students using these benefits must present their VA Certificate of Eligibility to the Office of Veteran Student Services, complete the request to be certified using the electronic Veteran Course Confirmation Form, and provide any additional information needed for the School Certifying Official to properly certify. Students that have completed these steps will not have service charges or registration holds placed on their accounts due to unpaid charges that are awaiting payment from the VA.

85/15 Percent Ratio Requirement

The 85 percent rule, or 85/15 rule, prohibits Department of Veterans Affairs (VA) from paying benefits to students who are enrolling in a program when more than 85 percent of the students that are already enrolled in that program have any part of their tuition, fees, or other mandatory charges paid for them ("supported") by the school or by VA under Title 38 or Title 10. The 35 percent exemption grants relief from 85/15 routine reporting requirements to any school when fewer than 35 percent of its total enrollment of students are receiving VA benefits under Title 10 or Title 38. In addition to the exemption to routinely report, programs at accredited educational institutions and vocational flight schools approved under 38 CFR 3672 with the 35 percent exemption are exempt from the 85/15 rule for enrollment periods beginning on or after August 26, 2022, or the date of their 35 percent exemption, whichever date is later.

Listing of all approved programs at all GI Bill® approved institutions found on VA website.

OU Military Service Credit

The University awards credit for educational experiences during military service according to the recommendations of the American Council on Education as published in the "Guide to the Evaluation of Military Experiences in the Armed Services." The policies governing the acceptance of credit awarded for military experience toward satisfying degree requirements vary among the degree-recommending colleges of the University. Students should contact their college academic advisement office for specific information on the applicability of this type of credit toward degree requirements. General questions concerning the evaluation of educational experiences in the armed services should be directed to the Office of Admissions.

The grade of S (satisfactory) is assigned to all credit awarded for military training.

Students with educational experiences in the military must submit the following military records to the Office of Admissions & Recruitment for review.

- **Army, Navy, Coast Guard, and Marine Corps:** Submit an official Joint Services Transcript. Students may request a Joint Services Transcript be sent electronically to the University.
- **Air Force personnel and veterans:** Request an official transcript from the Community College of the Air Force for work taken as an undergraduate, or from the Air University for work taken as a graduate student. Community College of the Air Force transcripts may be ordered by sending a request in writing to: CCAF/RRR, 130 West Maxwell Blvd, Maxwell AFB AL 36112-6613, (334) 953-2794 (DSN 493-2794). You may also visit www.airuniversity.af.edu/Barnes/CCAF/. Air University transcripts may be obtained by writing to the Registrar's Office, 50 South Turner Blvd., Maxwell AFB-Gunter Annex AL 36118-5643.
- **DANTES/USAFI:** Students may also request a transcript from DANTES (Defense Activity for Non-Traditional Education Support) or USAFI (United States Armed Forces Institute—tests taken prior to July 1, 1974). Many tests taken under the auspices of DANTES or USAFI carry American Council on Education credit recommendations recognized by the University. Official DANTES transcripts can be ordered from Thomson Prometric, P.O. Box 6604, Princeton, NJ 08541-6604, (877) 471-9860 (toll free). A transcript of USAFI courses or tests completed prior to July 1, 1974, may be obtained from Thomson Prometric, P.O. Box 6605, Princeton, NJ 08541-6605. Visit getcollegecredit.com to learn more.
- **DANTES tests (DSSTs)** can also be taken by people who are not in the military. Visit getcollegecredit.com to learn more.

Students Called to Active Duty

What You Need To Do

It is the policy of the University of Oklahoma that any student who is deployed to active service in the armed forces of the United States will be allowed to terminate their enrollment in a manner that minimizes the educational and financial impact on the student. This policy also applies to civilian employees of the military whose work hours are changed in a manner that affects their ability to attend classes. Because the specific steps will vary with the situation and the needs of the individual student, each student will be counseled and allowed to choose among the options available. Students who are called up, or who anticipate being called up, should immediately get in touch with Kellie Dyer, Registrar (phone: 405-325-4147, email: kdyer@ou.edu), who has been designated the initial contact person for all students wishing to terminate their enrollment because of military service. After counseling the student, Ms. Dyer will consult with the Office of Financial Aid and others, as necessary, to effect a smooth termination of the student's enrollment, and facilitate the subsequent return of the student to the University when they wish to do so.

Early in the Semester

If you are a main campus student, you need to contact Kellie Dyer at 325-4147 or by email kdyer@ou.edu. The Office of the Registrar will need a copy of your orders as soon as possible. You can fax them to 325-3639. The Office of the Registrar will withdraw you from your classes and notify Bursar Services and Financial Aid.

Mid to Late Semester

If time allows, visit with each of your instructors to discuss your options.

The faculty and staff have been instructed by the Provost office to assist you in the disposition of your coursework. This may include early completion of courses, withdrawal or receipt of grades of Incomplete. Whatever your decision, you must then notify Veteran Student Services so they can counsel you on how it will impact your Montgomery or Post 9/11 GI Bill®¹.

When You Know the Semester in Which You Will Return

We will do everything we can to get you back in classes as seamlessly as possible. You may go online to one.ou.edu at the appropriate time and enroll. If you have any stops/holds, advising or otherwise, you may email Veteran Student Services at veterans@ou.edu and they will forward your email to the appropriate person(s).

Other Considerations

If you are living in University Housing, you need to submit a release application and a copy of your orders. You should be released from your contract with no penalty. Contact Housing and Food Services to begin your release application. Email: housinginfo@ou.edu or phone 325-3511 and H&F will guide you through the process.

If you have a parking permit, send the permit to OU Parking and Transportation, 1332 Jenkins Avenue, Norman OK 73019. Parking and Transportation will credit your Bursar account. The Bursar will issue a refund if there are no other outstanding charges to your account. If you have any questions about this, contact Parking and Transportation at 325-3311 or parking@ou.edu.

If you purchased your textbooks at any of the Norman campus area bookstores, the stores will give you a refund as long as you can present a receipt.

If you have checked out materials from the University Libraries, be sure they get returned.

If you need to change your address, go to one.ou.edu.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>

General Information

Our Programs

Every OU Online program is built on the foundation of world-class faculty mixed with professors of practice providing valuable instruction. By linking industry experts with our online programs, we are offering the most advanced curriculum available and preparing students for future career success.

Our Degrees

When you graduate from an OU Online program, you'll earn a degree from the University of Oklahoma. Graduates join the network of 250,000 OU alumni and are forever part of the OU family. Become part of the tradition of excellence that OU has established in its 130-year history.

Undergraduate

Integrative Studies, B.A.

Interdisciplinary Studies: Business Administration, B.A.

Interdisciplinary Studies: Criminal Justice Leadership, B.A.

Interdisciplinary Studies: Healthcare Management, B.A.

Interdisciplinary Studies: Organizational Leadership, B.A.

Graduate

Master of Accountancy

Aerospace and Defense, Executive M.B.A.

Applied Computing, M.S.

Applied Statistics, M.S.

Arts Management, M.A.

Art and Technology, M.A.

Master of Business Administration

Business Analytics, M.S.

Civil Engineering, M.S.

Master of Clinical and Mental Health Counseling

Computer Science, M.S.

Master of Construction Business

Criminal Justice, M.S.

Data Science and Analytics, M.S.

Educational Administration Curriculum and Supervision, Master of Education

Education Administration, Doctor of Education

Energy, Executive M.B.A.

Energy and Natural Resources Law, MLS

Energy and Natural Resources Law, LLM

Engineering Leadership and Management, M.S.

Finance, M.S.

Geospatial Technologies, M.S.

Global Affairs, M.A.

Healthcare Law, MLS

Healthcare Law, LLM

Master of Human Relations

- Diversity, Equity, and Strategic Impact

- Inclusive Leadership

Hydrology and Water Security, Master of Environmental Science

Indigenous Peoples Law, MLS

Indigenous Peoples Law, LLM

Industrial Systems Engineering, M.S.

International Business Law, MLS

International Business Law, LL.M.

Master of Library and Information Studies

Museum Studies, M.A.

Natural Gas Engineering and Management, M.S.

Organizational Leadership, M.A.

Population Health Certificate in Public Health (OUHSC)

Master of Public Health in Population & Community Health (OUHSC)

Master of Social Work

- 60-credit hour program
- Advanced Standing program

Special Education, Master of Education

Strategic Communication and Digital Strategy, M.A.

Supply Chain Management, M.S.

Sustainable Architecture, M.S.

Sustainability - Energy & Materials Management, M.S.

ORIENTATION AND ADVISEMENT

Orientation for New Students

Orientation for new students at the University of Oklahoma is a multi-step process designed to provide OU students with the knowledge, tools, and connections they need to succeed academically, personally, and socially.

The first step in the process is **New Sooner Orientation (NSO)**. New Sooner Orientation is a key part of every new student's successful transition to OU. Parents and families are invited to attend New Sooner Orientation with their students to learn more about resources we have at OU! Students will also have the opportunity to meet with an academic advisor and enroll in their first semester of courses at OU.

The second step in the process is Camp Crimson. Camp Crimson is OU's premier orientation experience for all incoming students. Hosted during the eight days before fall classes begin, Camp Crimson helps students connect to other students and members of the OU community, engage in educational programs and events, complete mandatory first-year training, learn more about campus resources and traditions, and learn what it means to be a part of the OU family.

For incoming students who want to begin their journey with OU earlier, there is the Start Sooner program. Start Sooner allows incoming freshmen to get a head start on their college experience with a smaller cohort. Students will be able to move into the residence halls in July, take 6 hours of class, and explore Oklahoma.

Introductory Courses

New students also have the opportunity to participate in one of two types of introductory courses during their first year of enrollment. These include:

- **First-Year Foundations** - OU's introduction to college course, assists students in the transition from high school to college. First-year students learn campus systems and policies, build essential academic skills (critical reading, time management, test-taking, etc.), explore major and career planning, and are introduced to campus resources. This course is an elective credit and doesn't count for major credit in any department.
- **University Seminars**—Each seminar is limited to 25 students and is taught by an individual faculty member who leads the students through an in-depth exploration of a specific intellectual topic.

Facilities and Resources

- University of Oklahoma Libraries (p. 23)
- Information Technology (p. 25)

Advisement

Knowing that academic advising is a key component to helping students graduate, our goal is to help students succeed academically so that they can fulfill their dreams and meet their potential. The Academic Success Center provides general advising for first-year students. The Academic Success Center focuses on helping students make the transition to the University, provides them with academic advising, and a variety of coaching activities to help them to succeed. During the freshman year, the OU Scholars Program provides specialized advising services to scholarship recipients of the Award of Excellence, Distinguished Scholar, Regents Award, National Award, and National Merit scholarships.

Once students earn 24 credit hours after two semesters at OU and move to a degree college, they will meet with an academic advisor before each term of enrollment. Students are advised either by academic counselors in the college office, professional advisors in the academic unit or by faculty advisers in their major. Academic advising is an integral part of the educational process and includes regular interaction and relationship-building during each transition as a student navigates their academic career.

The Academic Advising Resource Center (AARC) serves as a resource for students and academic advisors alike. The AARC advises students who are going into their third or later semester and would like extra time in deciding on their academic major while being declared Exploratory. The AARC also works with students who need support during a period of academic repair so that the student can meet degree college admission standards. The AARC was established in 2011 and houses the Pre-Law, Pre-Medical Professions, and Exploratory Academic Advisors. The AARC uses the services of a Triage Advisor to help students navigate the academic advising system and who maintains the advising@ou.edu account. The AARC is in Cate 1, Room 418, 308 Cate Center Drive Rm. 418, Norman, OK 73019-2180, (405) 325-1596.

In addition to formal academic advising, students may select from a wide variety of additional academic and support services. Examples include academic life coaching sessions with trained and certified academic life coaches, workshops offered by the Student Learning Center and the Center for Student Life; individual career advising by Career Services; and academic assistance through the Writing Center and several tutoring programs.

Student Support Services

Student Support Services, also known as Project Threshold, is an academic support program established in 1970 to serve students who are first-generation college, economically disadvantaged, disabled. The primary goal of this program is to increase retention and graduation rates of program participants.

To accomplish this goal, Project Threshold provides personal, academic, and financial aid counseling as well as academic tutoring. Small sections of freshman-level courses are offered to Threshold students to help ease the adjustment to larger college classes. The ethnic diversity of the staff further serves to provide the student with a sense of belonging.

Inquiries should be directed to Project Threshold, 215 Wagner Hall, 1005 Asp Ave., Norman, OK 73019-0315, (405) 325-6261, cpstell@ou.edu.

Planning a Program

- If you have selected a major, learn all the requirements for your chosen degree program.

- If you are unsure of your major, make an appointment with a major exploration coach who can help you match your interests, skills and goals to possible majors
- Prepare a plan of study showing the courses you will take each semester that will complete requirements for graduation.
- The degree program should be designed according to the rules and regulations that govern enrollment and graduation. These rules and regulations can be found in the specific chapter of this catalog providing information about the college offering your major as well as the chapter, "Admission, Enrollment, and Graduation."
- Freshmen and sophomores who are unsure of a major should choose courses that will fulfill University-Wide General Education Requirements and provide exposure to disciplines that are of interest for selection of a major.
- Utilize the University General Catalog, the Degree Navigator system and degree check sheets to plan your program.
- Take basic required courses such as English composition and mathematics that provide a sound foundation for future successful enrollments early in the academic program.
- Include courses early in the program that are required for admission to the degree college offering the chosen major.
- Schedule upper-division courses for the junior and senior years with few exceptions in your schedule.
- Look into programs that will enhance your individual program such as study abroad, internships, and research opportunities.
- Balance enrollments to avoid including too many heavy reading courses, too many laboratory courses, or too many credit hours in one semester or term.
- Attempt to schedule all specifically required courses prior to the final enrollment.
- Plan the final semester with fewer hours to allow for such activities as job interviews.
- Plan an enrollment of 12-19 hours, according to academic ability and responsibilities outside of class, for the fall and spring semesters (6-9 hours are appropriate for the summer term). Most degree programs require 120 hours or more which averages out to 15 credit hours per semester to graduate in four years. Students should anticipate that each credit hour taken will normally require a minimum of two hours each week for study time outside of class.

Graduation Plan

The University of Oklahoma has instituted a graduation plan for many degree programs. This plan requires the student and the University to sign a contract that guarantees the student can graduate in a specified period of time based on certain conditions that can be detailed when the student talks with an academic adviser on campus.

University-Wide General Education

In today's global society, the most important contribution a university can make is to help prepare its students for a lifetime of change and a future as an educated and responsible citizen. OU's university-wide general education core curriculum, which was implemented in fall 1990 and updated in fall 2021, meets this challenge by providing a curriculum of required courses designed to help students think creatively, reason and communicate clearly, and adapt quickly to a rapidly changing world.

OU was the first college in the state – and among the pioneers nationally – to organize its general education requirements into a focused

curriculum that emphasizes the key areas of knowledge essential in today's society and life in the 21st century.

In designing its general education curriculum, OU looked toward two new centuries—the 21st century, in which students will need to cope with global, societal and career changes – and OU's second century, in which it will continue to produce leaders for the state, nation and world. OU's general education curriculum is designed to help its students succeed after graduation, regardless of their field of endeavor. Because effective communication skills are essential, writing is emphasized across the general education curriculum. Courses also help students learn to express themselves orally, use mathematical analysis, examine and solve problems, explore the concepts and methodologies of the natural and social sciences, appreciate the creative arts, and better understand their own and others' cultural heritages. Courses are designed to foster enthusiasm, curiosity and a desire to continue learning.

General Education Requirements

A minimum of 40 credit hours of general education courses is required for graduation. Some colleges or majors require students to complete additional hours of general education coursework or to take specific courses to fulfill general education requirements. The list of courses approved for general education credit is available in the Gen Ed Planner. Courses must be distributed among the following areas:

I. SYMBOLIC AND ORAL COMMUNICATION (3-6 courses, 9-22 hours)

- English Composition (2 courses, 6 hours).
- Language (2 courses, 6-10 hours). This requirement can be satisfied by successfully completing two semesters of the same language at the college level equivalent to two semesters at OU. It also may be satisfied by successfully completing two years of the same language in high school or by demonstrating an equivalent level of competence on an assessment test. (Note: the Gaylord College of Journalism and Mass Communication, College of Arts and Sciences, and the College of International Studies require students to complete three semesters of college-level language or pass an assessment test. The College of Arts & Sciences and College of International Studies requirement cannot be met by high school coursework. Some majors require a fourth semester of language.)
- Mathematics (1 course, 3 hours).
- Other. Courses in this category are not required, but may be used when additional credit hours are needed to bring the total hours completed to 40. Approved courses in this area include communication, logic and public speaking.

II. NATURAL SCIENCE (2 courses, 7-8 hours)

- At least two courses of three or more credit hours each and totaling a minimum of seven credit hours are required. The courses must be from different disciplines, and at least one course must include a laboratory component, denoted by [L] in the list of general education courses. (Note: the College of Arts and Sciences requires its students to complete one course in the Biological Sciences and one course in the Physical Sciences.)

III. SOCIAL SCIENCE (2 courses, 6 hours)

- One course must be P SC 1113 American Federal Government, (three hours)

IV. ARTS & HUMANITIES (4 courses, 12 hours)

- Artistic Forms (1 course, 3 hours)
- Western Culture (2 courses, 6 hours). One course must be HIST 1483 United States to 1865 or HIST 1493 United States, 1865 to the Present. The other course may not be History 1483 or History 1493.
- World Culture (1 course, 3 hours). **Note:** The Gaylord College of Journalism and Mass Communication, College of Arts and Sciences, and College of International Studies require additional upper-division Arts & Humanities courses outside the major (2 courses, 6 hours).

V. FIRST-YEAR EXPERIENCE (1 course, 3 hours)

VI. UPPER-DIVISION REQUIREMENT

- At least one of the courses (minimum of 3 hours) used to satisfy the general education requirements must be at the upper-division level and outside of the student's major.

Academic Major, Minor, and Certificates

Major (p. 55)

The major is the emphasis of study that provides depth of learning within the degree program. It is composed of specific requirements determined by the department through which the major is offered. Although many majors are highly structured, some offer flexibility, allowing choice of courses within preset guidelines. Each major is fully described in the section of this catalog where information is provided about the unit offering the major. Major exploration coaches are available to help you decide on a major.

See the Academic Majors (p. 55) page for an alphabetical list of majors offered at OU.

Minor (p. 62)

The minor is a secondary and optional area of interest for depth of study. It can be closely related to the major to serve as a support area, or it can be unrelated. The department through which it is offered sets the requirements for the minor. Presently, the College of Architecture, College of Arts and Sciences, College of Atmospheric and Geographic Sciences, Price College of Business, College of Continuing Education (Aviation), Gallogly College of Engineering, Weitzenhoffer Family College of Fine Arts, College of International Studies, Joe C and Carole Kerr McClendon Honors College, and Gaylord College of Journalism and Mass Communication offer approved minor programs. The minors are made available by the colleges to all students within the University, except for those in the College of Business that are for business majors only. The minor programs are described in the section of this catalog where information is provided about the unit through which they are offered. Upon graduation, the student's official transcript will reflect completion of a minor if recommended by the student's degree college.

See the Minors (p. 62) page for the list of minors offered at OU.

Certificates (p. 61)

Certificates are a separate credential and can be earned independently or in conjunction with a student's degree. The University of Oklahoma offers both undergraduate and graduate certificates. An undergraduate certificate represents a focused program of study on a specific topic that may be related or unrelated to the student's major. A graduate certificate represents completion of a set of courses that provides mastery of a specific area of knowledge and indicates an advanced, focused inquiry into an area of study.

See the Certificates (p. 61) page for an alphabetical list of both undergraduate and graduate certificates offered at OU.

Preparing for Graduate and Professional Studies

When preparing for your future, we encourage you to consider graduate and professional studies. Advanced study can provide more in-depth research and creative experiences in your chosen field of study. You will work closely with faculty on particular subjects to develop the skills necessary for research and independent thought.

Graduate assistantships and internships provide additional opportunities to develop your skills and talents while working toward an advanced degree. Attendance at professional meetings can provide opportunities for valuable exchanges of information and ideas with colleagues in your discipline.

Career options are greatly enhanced by completion of an advanced degree, and we hope you will avail yourself of the opportunities that are available at the University of Oklahoma.

Special Programs

Academic Common Market

The Academic Common Market (ACM) is an interstate agreement coordinated by the Southern Regional Education Board for sharing some unique academic programs through an exchange of students across state lines wherein non-resident tuition charges are waived. Visit Academic Common Market for more information regarding the University's participation in the Academic Common Market.

Center for the Creation of Economic Wealth

Three Partners Place
201 David L. Boren Blvd, Suite 200 Norman, OK 73072-7264
Phone: (405) 325-2603
iccew@ou.edu
ccew.ou.edu

Formed in 2006, the Center for the Creation of Economic Wealth provides an interdisciplinary environment for researchers, entrepreneurs and students to collaborate in growing, strengthening and diversifying Oklahoma's economy through the nurturing of technology-based enterprises. The Center is a collaborative space that contributes to the entrepreneurial ecosystem of Oklahoma with numerous college-supported programs that encourage innovation in the University and the broader Oklahoma business community, with locations in both Norman and Tulsa.

Administered by the University Vice President for Strategic Planning and Technology Development, the CCEW internship program offers student interns exposure to a variety of authentic business situations and distinguished executives. Additionally, CCEW interns engage in career development opportunities designed to propel their careers following graduation. The internship program has opportunities in technology commercialization, software development, social entrepreneurship, and product design and development.

Education Abroad

Shanna Vincent, Director
Farzaneh Hall, Room 144
Norman, OK 73019-3061
Phone: (405) 325-1693

FAX: (405) 325-7387
 ea@ou.edu
 www.ou.edu/cis/education_abroad

The mission of Education Abroad is to further intercultural competency through safe, academically focused, professionally relevant, and personally transformative global opportunities for all OU students. Education Abroad develops programs aimed at increasing cross-cultural awareness and emphasizing international education. The office maintains linkages with professional organizations at the state, national and international levels. This unit works in close liaison with colleges across campus to develop innovative and meaningful study abroad programs.

International Study Centers

International Study Centers are the signature study abroad programs at the University of Oklahoma! Located in two attractive locations, students can take classes taught by OU professors, explore the language and culture of their host country, engage in meaningful dialog with locals, and get active with community service or through internships, while earning credit towards their degrees.

- **OU in Arezzo**

OU in Arezzo is the University of Oklahoma's Italian Study Center. You will take classes taught by OU professors in the middle of Tuscany.

- **OU in Puebla**

OU in Puebla is the University of Oklahoma's Mexican Study Center. It offers a unique blend of courses taught by OU professors and the immersive experience of being at a Mexican University.

Faculty Led Programs

Faculty-led programs are designed so that you can take OU courses with OU professors while traveling around the world with other OU students. These programs have OU tuition and fees, so you can apply tuition waiver scholarships and any applicable financial aid. We offer a variety of long-term and short-term program options.

Exchange Programs

Exchange programs allow you to take classes at a university abroad, but continue paying OU tuition and fees at your normal rate. These programs are highly independent and ideal for students who would like to be immersed in a new cultural and academic setting. Choose from long-term and short-term options.

Affiliate Programs

Affiliate programs are facilitated by approved affiliate providers with which the University of Oklahoma has an active agreement. Affiliate programs offer a variety of academic courses and internship opportunities, which will show up as transfer credit on your transcript. Tuition and fees are paid directly to your affiliate provider, not to the University of Oklahoma. Some financial aid may still apply.

Selection Criteria

Students are selected for study abroad programs based on the following criteria: grade point average, personal essay, academic standing, and letters of recommendation. For certain study abroad destinations with limited availability, the selection process is quite competitive. All students who qualify for study abroad are offered a location for study, but because of the competitive process, some may not be admitted to the school or destination that they most prefer. Contact the Education Abroad Office for application information.

Center for English as a Second Language

Mary Martin, Director
 Farzaneh Hall, Room 114
 729 Elm Avenue
 Norman, OK 73019
 Phone: (405) 325-2351
 FAX: (405) 325-7387
 esl@ou.edu
 https://www.ou.edu/cis/cesl

The mission of the Center for English as a Second Language at the University of Oklahoma is to provide exemplary English language instruction, as well as cultural education to empower students to communicate successfully in social, academic, and professional settings. Established in 1988, the Center for English as a Second Language offers intensive English language courses on the Norman campus of the University of Oklahoma. CESL prepares students for the University by focusing on English for academic purposes, teaching American culture classes, and practicing American classroom culture. Students who go to CESL are better prepared for all aspects of attending universities in the United States.

Expository Writing Program

The Edith Kinney Gaylord Expository Writing Program

Catherine Mintler, Interim Director
 Bizzell Memorial Library, Room 4
 Norman, OK 73019-6030
 Phone: (405) 325-3583
 FAX: (405) 325-3678
 expository.writing@ou.edu
 www.ou.edu/expo/

The Expository Writing Program offers students the opportunity to sharpen their critical thinking, reading, and writing skills through the intensive examination of a particular topic. The defining feature of an Expo course is students' collaboration with their instructors.

All Expo courses feature

- a *guided investigation of a special topic*
- *seminar-sized class of no more than 16 students*
- *an emphasis on individual instruction and student/teacher collaboration*
- *an open, interactive classroom atmosphere*

International Student Services (ISS)

Jalal Daneshfar, Director
 Farzaneh Hall, Room 144
 729 Elm Avenue
 Norman, OK 73019
 Phone: (405) 325-3337
 FAX: (405) 325-0197
 iss@ou.edu
 www.ou.edu/cis/iss

International Student Services (ISS) assists around 1800 international students and their dependents from over 100 countries. We provide immigration advising services to students on F-1 and J-1 visas, and fulfill the University's federal reporting requirement of international student information to the Student and Exchange Visitor Information System (SEVIS). We also provide international student programming services that include the New International Student Orientation experience, various workshops for international students on acclimating to life

in the US, and social and cultural events for students to engage with their international student community and to facilitate cross cultural exchange on campus. International students also have the opportunity to engage with the community beyond campus through excursions to sites across Oklahoma and through cultural exchange programs designed to introduce international students and their cultures to the greater Oklahoma community and to connect international students with local families.

F-1 and J-1 visas are issued by US consulates to qualifying students studying in the United States. F-1 visas are issued to students whose primary source of funding for college comes from personal or family funds. Most often these are long-term, degree-seeking students. J-1 visas may be issued to students whose primary funding for school comes from a third party, such as a university, corporation, non-profit or the government. Most of OU's J-1 students are short-term exchange students, although we do have some degree seeking J-1 students. International students must maintain their lawful visa status in order to pursue and complete their academic programs in the US. While it is the student's responsibility to maintain lawful visa status, we are here to offer guidance on immigration regulations and benefits.

F-1 and J-1 students studying on the Norman campus or on the Tulsa campus in Norman-based programs can get assistance from the ISS office in Norman, while F-1 and J-1 students studying at the OU Health Sciences Center (OUHSC) or on the Tulsa campus in OUHSC based programs are serviced by the HSC Admissions and Records Office.

International Advisory Committee (IAC)

The International Advisory Committee (IAC) serves as the umbrella organization for the international student organizations at OU. IAC organizes and facilitates various intercultural, social, political, and intramural events among member international student organizations.

OSLEP

Oklahoma Scholar-Leadership Enrichment Program

The Oklahoma Scholar-Leadership Enrichment Program - OSLEP - is an intercollegiate academic program sponsored by the Oklahoma State Regents for Higher Education open to students at all the public and private universities in Oklahoma. Small groups of students selected from Oklahoma's four-year colleges and universities study with distinguished visiting scholars. Students tell us over and over again that being in an OSLEP class is one of the most rewarding experiences in their academic careers because of the unique learning environment, the time devoted to one subject, and the opportunity to develop a personal relationship with a world-famous scholar and make lasting friendships with students from around the state. Many of the visiting scholars present a free public lecture, open to the community. These programs always include a question & answer session and an opportunity to meet and talk with the scholar. Interested students can contact the OSLEP office or visit www.oslep.org for the current schedule of seminars and additional information. The OSLEP office is located in Monnet Hall, Room 559, 630 Parrington Oval, 325-4309; email oslep@oslep.org.

ORAU

Oak Ridge Associated Universities (ORAU)

Since 1949, students and faculty of the University of Oklahoma have benefitted from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 91 colleges and universities and a contractor for the U.S. Department of Energy(DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout

the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates. Students can participate in programs covering a wide variety of disciplines, including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of under-represented minority students pursuing degrees in science- and engineering-related disciplines.

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research, and support programs as well as services to chief research officers.

For more information about ORAU and its programs, contact Richard D. Elmore, Robert and Doris Klabzuba Professor of Geology and ORAU Councilor for the University of Oklahoma at (405) 325-3253; contact Monnie E. Champion, ORAU corporate secretary, at (865)576-3306; or visit the ORAU Home Page.

University of Oklahoma Press

2800 Venture Dr., Norman, OK 73069-8216

Phone: (405) 325-2000

www.oupres.com

Since 1928 the University of Oklahoma Press has published award-winning books that challenge readers to discover the past, contemplate the present, and shape the future. Committed to excellence, the Press publishes high-quality scholarly, regional, and general-interest books that offer readers valuable information, ideas, analysis, and research. During its long and distinguished history, OU Press has published more than 3,000 discrete titles, has over 1400 active titles, and maintains an inventory of approximately 750,000 books.

The OU Press publishes books in the humanities and social sciences and is the preeminent publisher of books on the American West and American Indians. the Press publishes approximately 80 books per year.

More than 1,500 University of Oklahoma Press titles are now available to libraries as electronic books (ebooks) through EBSCO host and ebrary, a division of Proquest. Many OU Press books are also available through Kindle, Nook, and Kobo ereaders and can also be read on personal computers, smart phones, iPads, and android tablets through a host of applications. The Press is committed to making its books available globally in the reader's choice of format.

World Literature Today

630 Parrington Oval, Suite 110 Norman, OK 73019-4033

Phone: (405) 325-4531

www.ou.edu/worldlit/

World Literature Today, founded in 1927 as *Books Abroad*, is the University of Oklahoma's award-winning bimonthly magazine of international

literature and culture, now in its ninth decade of continuous publication. The magazine has been recognized by the Nobel Prize committee as one of the “best edited and most informative literary publications” in the world, and was recently called “an excellent source of writings from around the globe by authors who write as if their lives depend on it” (*Utne Reader*, 2005). *WLT* has received a dozen national publishing awards in the past ten years, including the Phoenix Award for Editorial Achievement from the Council of Editors of Learned Journals in 2002.

Neustadt International Prize for Literature

The Neustadt International Prize for Literature, sponsored by *World Literature Today*, is an award that honors outstanding achievement in fiction, poetry, or drama and is open to writers in any language. Often referred to as the “American Nobel” for the high quality of its laureates, candidates, and jurors, the Neustadt Prize is the first international literary award of such scope to originate in the United States and is one of the very few international prizes for which poets, fiction writers and dramatists are equally eligible. Founded in 1969, the prize bears the name of the Neustadt family of Ardmore, OK, whose 1972 endowment has ensured funding of the award in perpetuity. Recipients include such noted authors as Gabriel García Márquez, Elizabeth Bishop, Czesław Miłosz, Octavio Paz, Adam Zagajewski, Claribel Alegría, and Patricia Grace.

The Puterbaugh Festivals

The Puterbaugh Festivals of World Literature & Culture are sponsored by *World Literature Today* in collaboration with the University of Oklahoma’s Departments of Modern Languages, Literatures and Linguistics and English. Originally named the Oklahoma Conferences on Writers of the Hispanic World, the series was endowed in perpetuity by the Puterbaugh Foundation of McAlester, Okla., in 1978. A rich tradition in support of literary and international studies at OU, the Puterbaugh Conferences bring the world’s greatest authors to the OU campus for a course built around the writer’s work, an international symposium, a public talk, and various meetings with students. Since 1968, the Puterbaugh Festival series has furthered the literary and international studies education of thousands of OU students. The most recent Puterbaugh fellows have included Bei Dao, Orhan Pamuk, Néida Piñon, and J.M. Coetzee.

NSK Neustadt Prize for Children's Literature

The NSK Neustadt Prize for Children’s Literature is awarded every other year to a living writer or author-illustrator with significant achievement in children’s or young-adult literature. Made possible through the generosity of Nancy Barcelo, Susan Neustadt Schwartz, and Kathy Neustadt and sponsored by *WLT*, the NSK Prize celebrates literature that contributes to the quality of children’s lives. Candidates for the award are nominated by a jury of children’s literature experts, and the jury also selects the winner of each biennial prize. Laureates receive a check for \$25,000, a silver medallion, and a certificate at a public ceremony at the University of Oklahoma and are featured in a subsequent issue of *WLT*. To date, the winners have included Mildred D. Taylor (2003), Brian Doyle (2005), Katherine Paterson (2007), Vera B. Williams (2009), Virginia Euwer Wolff (2011), and Naomi Shihab Nye (2013).

Combined Curriculum

- **Dentistry**
- **Medicine**
- **Osteopathic Medicine**

- **Veterinary Medicine**
- **Law**

A student may qualify for the degree of Bachelor of Arts or Bachelor of Science at the end of their first year in an approved school of law, dentistry, medicine, osteopathic medicine, or veterinary medicine by fulfilling the requirements listed below. Items A-1 through A-4 **must be completed prior to entering** the professional school.

1. Combined Curriculum with the University of Oklahoma College of Medicine, College of Dentistry, or College of Law:
 - a. Complete at least 98 semester credit hours before entering the College of Medicine, College of Dentistry, or College of Law.
 - b. Earn at least 30 semester credit hours in residence at the University of Oklahoma.
 - c. Earn at least 15 semester credit hours of upper-division major credit courses at the University of Oklahoma.
 - d. Earn at least 15 of the last 30 semester credit hours before entering the College of Medicine, College of Dentistry, or College of Law in residence at the University of Oklahoma.
 - e. Complete all other degree requirements of the College including the University’s general education requirements, the College requirements, and all the major and major support requirements of a regular degree program.
 - f. Successfully complete the work of the first year in the College of Medicine, Dentistry, or Law.
2. Combined Curriculum with other Approved Schools of Medicine, Osteopathic Medicine, Dentistry, and Veterinary Medicine:

A student enrolled in a medical school approved by the Association of American Medical Colleges, in an Osteopathic Medical School approved by the American Osteopathic Association, in a dental school approved by the American Dental Association, or in a school of veterinary medicine approved by the American Veterinary Medical Association may receive the degree of Bachelor of Arts or Bachelor of Science upon the satisfactory completion of: Items A-2 through A-4 (above) and completion of at least 98 hours prior to entering the professional school and by satisfactory completion of the first year in the approved College of Dentistry, Medicine, Osteopathic Medicine or Veterinary Medicine.

General Information

The Academic Success Center serves as a university-wide student success center that provides outstanding academic support and further promote college retention and persistence efforts. The ASC empowers students to realize their academic goals at OU through comprehensive tutoring services, mentoring opportunities, transition courses, and leadership development opportunities. We strive to cultivate a culture of academic excellence and success for all students at the University of Oklahoma.

Professional academic advisors are available throughout the year to help students decide on majors, select appropriate courses, and become acquainted with University policies and resources. Our goal is to provide students with the support they need to succeed at the University of Oklahoma. In addition to taking courses required for their major(s) of interest, incoming students will also take courses common to all degree programs at the University. These include two courses in English composition, one course in American history, and one course in United States government (political science). Students will also enroll in courses required for general education, courses required for the major, or courses designed to explore various fields of interest. Students may also take courses to supplement their high school background or to help them be successful in college.

- Information Technology (p. 25)

Support Courses and Programs

Making the Transition to College: Courses for First-Year Students

The Academic Success Center works diligently to provide courses that meet our mission of helping students successfully transition to the University of Oklahoma by establishing a space of belonging, a place for flourishing, and a foundation for further academic success.

- **Foundations for College Learning, UNIV 1002:** OU's introduction to college course; assists students in the transition from high school to college. First-year students build skills critical to their success, explore major and career planning, learn about campus policies, procedures and resources, and build a community with other first-year students.
- **University Seminar, UNIV 1022:** developed and taught by an individual faculty member who leads students through an in-depth exploration of a specific intellectual topic.
- **Introduction to the College Experience, UNIV 1013:** assists students in the transition from high school to college. Focus is placed on both the characteristics and behavior of the successful college student.
- **Exploring Careers, UNIV 1031:** gives students the opportunity to engage in self-assessment, research careers, investigate additional academic opportunities, and create action plans to prepare for post-college careers.
- **Strategies for Success, UNIV 2001:** designed for Academic Success Center students whose OU GPA has dropped below a 2.0; helps students recognize and overcome obstacles that prevent them from reaching their full potential.
- **Choosing a Major, UNIV 2021:** leads students through the majors and minors that OU has to offer, and helps students find their own interests and strengths.

- **Transitions for Transfer Students, UNIV 3001:** introduces transfer students to the academic requirements, policies, and resources at the University of Oklahoma.
- **First-Year Student Mentoring, UNIV 1210:** provides students the opportunity to build relationships with faculty, increase their network base, and gain valuable life experience.

First-Year Student Mentoring Program

The First-Year Student Mentoring Program matches entering students and experienced faculty mentors to help create nurturing and personal relationships, thus easing the transition from high school to college. This program provides students opportunities to build connections with faculty and gain valuable life experience. It is a chance to become acquainted with someone who is personally interested in the student's success, and who can guide a student through the complexities of university life. The minimum expectation of the mentoring program is that the student will meet with the mentor twice during the fall semester. To participate, a student will enroll in UNIV 1210. This is a zero-credit course, which costs nothing. A student who participates throughout the semester will receive a grade of "S" (satisfactory).

Center for Student Advancement

The Center for Student Advancement (CSA) is committed to providing programs and services that promote the retention and success of students experiencing academic challenges. CSA offers courses entitled Strategies for Success and Transitions and oversees the First-Year Student Mentoring Program. CSA is open for student walk-ins or appointments. For more information on the Center for Student Advancement, call 405.325.2574 or go to Wagner Hall 150.

New Sooner Orientation Program

Beginning in mid-May and continuing throughout summer, the Academic Success Center supports incoming students through the New Sooner Orientation Program. This program allows students and their parents to spend a day on campus in small groups, accompanied by student guides who are current OU students. Activities include attending information sessions, meeting with academic advisors to discuss majors and select courses, visiting with other campus services and resources, and enrolling in fall classes. Students leave the campus with an appropriate schedule and a sense of what they can look forward to in the fall.

Entry-Level Assessment

The Assessment Center provides assessment and course placement services for new and transfer students to give them the best possible chance of success in attaining their academic goals. All new students at the University of Oklahoma will be assessed in three areas: reading, English, and mathematics. The American College Test (ACT) or the Scholastic Aptitude Test (SAT) will be used as the preliminary screening instruments for English and reading. The Math Offers Model (a placement generated by OU's Assessment Center) will be the preliminary screening for mathematics. Students will be placed in the appropriate course based upon their assessment scores and choice of major. Those not placing into the needed class will use a secondary assessment for placement—Accuplacer for English and Reading, and ALEKS for mathematics. These assessments are used to provide academic advisors with information on students' current skill levels. If the test results indicate a need for improvement in any of these areas, an academic advisor can help students select courses designed to develop or enhance skills.

Math Placement Assessment

The University of Oklahoma requires all first-time OU students or transfer students who need to enroll in a math course to first use the Math Offers Model to see if they can place in the desired class without taking a test.

Those that are not placed in a class via the Math Offers Model will take the ALEKS Mathematics Placement Assessment to determine their proper math course placement. The ALEKS Placement Assessment covers material from basic math through pre-calculus and will provide an accurate indication of a student's math skills and a recommended course placement. See Math Assessment for more information.

Reading Placement Assessment

All incoming OU students with an ACT reading sub-score of an 18 or less are required to take a Reading Placement Assessment to determine whether they must take a developmental reading course before moving on to higher reading leveled courses. There are no enrollment restrictions for students with an ACT reading sub-score of 19 or higher. If a student is admitted Test Optional, our predictive models will determine if a person needs to take the Accuplacer assessment. See Reading Assessment for more information.

English Placement Assessment

All incoming OU students with an ACT English sub-score of an 18 or less are required to take an English Placement Assessment to determine whether they must take a developmental English course before moving on to ENGL 1113. There are no enrollment restrictions for students with an ACT English sub-score of 19 or higher. If a student is admitted Test Optional, our predictive models will determine if a person needs to take the Accuplacer assessment. See English Placement for more information.

Academic Success Center Action Tutoring

The Student Learning Center offers free tutoring sessions through the **ASC Action** program. This nationally certified program offers walk-in sessions, small group appointments, online tutoring, and/or faculty directed sessions to help students take action towards their own academic success. The SLC also offers one-on-one study skills consultations on topics such as time management, effective note taking, and study strategies.

Undergraduate Students

Admission to a Degree-Recommending College

A student may be admitted to one of the degree-recommending colleges on the Norman campus if they have declared a major, completed a year of coursework, and achieved an overall grade point average required for entrance into that college. Admission to the degree-recommending colleges at the OU Health Sciences Center requires a separate application process and is governed by requirements unique to each college or program.

Major Exploration and Advising for Undecided Students

Many students in the Academic Success Center have not yet chosen an academic major, and many of the students who have declared a major will change their majors during their first year. The Academic Success Center offers students the unique opportunity to take a semester or more to explore different career options and academic majors. Rather than making an uninformed decision, students are encouraged to evaluate options by enrolling in exploratory classes, completing inventories designed to assess abilities and interests, and interacting with major exploration coaches who are experienced in working with undecided students.

MyMajors and SuperStrong are interest inventories designed to aid students with the process of selecting a major and/or a career and are available to all OU students through the Academic Success Center. These programs allow students to explore careers and the relationship between choosing a career and choosing an academic major. Major exploration coaches in the Academic Success Center can meet with students and, using results from career assessments and their familiarity with all OU majors, help students narrow their focus on select majors and careers.

Pre-Health Professions Advising

The Academic Success Center advises students seeking to enter professional health fields such as communication sciences and disorders, dental hygiene, nursing, nutritional sciences, occupational therapy, physical therapy, and the radiologic technologies. The assistance of an academic advisor is especially important to pre-health profession students who want to complete their admission requirements while maintaining a competitive grade point average for admission to the University of Oklahoma Health Sciences Center.

Academic Success Center Enrollment Policies

All-University Writing Requirement

All University of Oklahoma students must complete a university writing requirement consisting of six hours of English Composition and/or Expository Writing (ENGL 1113 and ENGL 1213 or EXPO 1213). Any student who has not fulfilled the requirement is encouraged to enroll in English and/or Expository Writing.

Pass/No Pass Option

First-year students in the Academic Success Center may not enroll in courses on a P/NP basis. Students in the Academic Success Center who are above freshman standing may enroll in courses on a P/NP basis only if they have a declared major and the approval of that major department.

Forty-Five Hour Rule

Students who have attempted 45 or more semester hours, based on grades of A, B, C, D, F, I, P, NP, S and U, may enroll or continue to enroll in the Academic Success Center only with a 2.00 or higher grade point average in their last OU enrollment period or with a 2.00 or higher OU retention grade point average

Academic Probation

Students on academic probation must be advised by an academic advisor in the Academic Success Center before they may enroll for the next semester.

Student Responsibilities

All colleges and universities have requirements that must be met in order to earn a degree. These include coursework in both general education areas and courses in a specific major, as well as compliance with academic standards and policies. Although academic counselors and departmental advisors are available to help students plan their programs of study, students have an individual, three-fold responsibility in this regard:

1. to know their academic standing relative to published standards;
2. to understand the published degree requirements; and
3. to know and observe academic deadlines, as established in the University's Academic Calendar.

Opportunities

Awards/Honors/Scholarships

PACE Awards

PACE awards represent outstanding accomplishments in four areas of student performance during the fall semester only.

The PACE acronym is interpreted as:

- Participation in recognized campus clubs and activities
- Academic achievement with a minimum of 3.25 in 14 hours
- Community service either on campus or in the metro area
- Excellence in leadership positions on campus including residence life

First-year students may be nominated by faculty, staff, academic advisors, organization sponsors, student organization presidents, and housing resident advisors, or students may self-nominate. A committee composed of the Academic Success Center administrators and staff reviews all nominations and then selects up to one percent (1%) of the total number of entering freshmen in any given year as PACE recipients. All applications must be completed by February 1st each year.

McLaughlin Balch Awards

These awards honor Mr. Dennis McLaughlin, a long-time benefactor of the Academic Success Center, and his grandmother, Ann Balch, who greatly valued education. The awards are given to several of our top students in the Academic Success Center. Recipients are selected from PACE Award applicants.

Myrna Carney Award

The Myrna Carney award is a special Academic Success Center Award, established to honor Dr. Myrna Carney for her 24 years of service as Assistant Dean in the Academic Success Center. Recipients are selected from PACE Award applicants.

Sylvia Corwin Education Award

This award seeks to honor the most promising first-year student pursuing a career in Elementary Education. Recipients are selected from PACE Award applicants.

Dan Tankersley "Boot Strap" Award

This award, presented by the Center for Student Advancement, assists and rewards students who have overcome life obstacles and demonstrated academic perseverance to progress toward graduation. Recipients are selected from PACE Award applicants.

Milton V. Brown Scholarship

The Milton V. Brown Scholarship was established in 1986 by the Milton V. Brown Foundation. The scholarship honors a student with a strong work ethic, who is earning their way through college. Mr. Brown writes: "I seek a student who, despite obstacles and difficulties, has managed to overcome them and qualify for a college education." The scholarship continues for a total of six semesters.

Alpha Lambda Delta National First-Year Honor Society

The national first-year honor society, Alpha Lambda Delta, is sponsored by the Academic Success Center First-Year Learning and Engagement Office. Students must have completed a minimum of 12 letter-graded semester hours during their first fall term with at least a 3.5 fall OU GPA and no grades of I, N, D, F, or U for fall semester. They must also accept the invitation sent by email in early January and pay the required dues online by the posted deadline date.

Courses

UNIV 1002 Foundations for College Learning 2 Credit Hours

Prerequisite: Freshman standing and departmental permission. This course aids students in making a successful transition from high school to college and creating a foundation for future success. Students develop critical skills for college-level learning, managing time, exploring career pathways, financial planning, healthy living, connecting to campus resources, etc. Class sizes of 20-24 foster active learning and connection with the instructor, peer mentor, and classmates. (F, Sp)

UNIV 1013 Introductory Seminars 3 Credit Hours

Prerequisite: departmental permission. This course is intended to assist students in the transition from high school to college. Focus is placed on both the characteristics and behavior of the successful college student. Topics to be covered include, but are not limited to, study skills, time management, goal setting, major and career exploration, financial planning, physical and mental health, and personal and civic responsibility. (F, Su)

UNIV 1022 University Seminar 2 Credit Hours

Prerequisite: departmental permission. This course is intended to assist students in the transition from high school to college. Focus is placed on both the characteristics and behavior of the successful college student. Topics to be covered include, but are not limited to, study skills, time management, goal setting, major and career exploration, financial planning, physical and mental health, and personal and civic responsibility. (F, Su)

UNIV 1023 Majors and Money 3 Credit Hours

Prerequisite: Concurrent students only and departmental permission. This hybrid course merges major exploration and financial management. It dives into how values, interests and skills connect to major and career options as well as the decision-making process. It looks at how to manage your money during your college years and beyond, focusing on personal finance topics & issues that are practical and relevant now and for the future. (Irreg.)

UNIV 1031 Exploring Careers 1 Credit Hour

Designed for students who have decided on a major and are beginning the process of exploring their career options. Students will have the opportunity to engage in self-assessment, perform career research, investigate additional academic opportunities, and create action plans to prepare for post-college careers. (F, Sp)

UNIV 1210 First-Year Student Mentoring 0 Credit Hours

Introduction to the academic community; individual and group meetings to encourage student-faculty interaction and foster awareness of academic and cultural resources available to freshmen. (F, Sp)

UNIV 2001 Strategies for Success 1 Credit Hour

Prerequisite: Departmental permission; may be repeated; maximum credit two hours. Strategies for Success assists students in reaching their academic potential. It is required for first-year students with an OU GPA below 2.0 and available, by permission, to other students who are in need of academic recovery and assistance. This course will emphasize holistic support which includes academic skills, time management, motivation, goal setting, wellness, majors and career, and finances. (F, Sp)

UNIV 2021 Choosing a Major 1 Credit Hour

Designed to help students decide on a major that fits their personality, interests, skills, and goals. Working through the decision-making process, this activity-based class uses self-assessments, group discussions, and in-class research to explore majors and careers. Students will decide on a major or narrow their options, and have the skills and resources needed to make decisions about future career choices. (F, Sp)

UNIV 2970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

UNIV 3001 Transitions for Transfer Students 1 Credit Hour

Prerequisite: must be a transfer student. Introduces transfer students to the academic requirements, policies, and resources at the University of Oklahoma. Students will learn about academic advising, transfer credit, degree programs, resources, student life, and methods for achieving academic success at a four-year research institution. (F)

UNIV 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

UNIV 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CAREER PLANNING

Career Center

Career planning and decision-making is a continuous process requiring active involvement in the investigation of self, education, and career possibilities. There are two main approaches to choosing a major and relating it to a career goal:

1. Choose a major because it is intellectually stimulating and develop a career goal gradually while progressing through the program; **or**,
2. Decide on a career goal first and then choose a major that will provide the best preparation for that career.

Whichever method you use, it is important to identify your skills, interests, and values; to explore majors and their relationships to careers.

Developing educational plans and career goals are closely related, and the University offers a broad range of assistance to its students. Academic advisors from the various colleges and/or departments can help you select your academic major and plan a course sequence to fulfill degree requirements. In addition to the Academic Success Center and the individual college and departmental advisement units, the following offices can be helpful:

Assessment Center, Wagner Hall, ucac@ou.edu, (405) 325-4336

Career Center, Oklahoma Memorial Union, Suite 323, careercenter@ou.edu, (405) 325-1974

Co-ops and Internships

Cooperative education, internships, and practicums, which are available in a wide variety of settings, can make students' academic study come alive by providing practical experience related to their academic goals. This experience can help students evaluate their career choices and enhance their employability upon graduation. More than 50 undergraduate fields of study offer positions, ranging from informal arrangements between a professor and a business colleague to formal, required internships. Some internships are paid positions; other field experiences may provide the opportunity to earn credit toward a degree while gaining practical work experience. Co-ops are always paid experiences. Visit the Career Center to identify openings and opportunities and contact the representative who coordinates specialized programs through your academic department. The Career Center will help

you learn the job-search skills and techniques necessary to be successful in the application process. For additional information, contact the Career Center, 3rd floor Oklahoma Memorial Union, (405) 325-1974.

If you participate in the available programs and services, you can enjoy the satisfaction of the rich experiences offered by the University of Oklahoma. It's your future; plan it wisely.

Career Planning Calendar

Freshman Year

- Sign in and explore your Handshake account - including the mobile app. Start filling out your profile with experience, coursework, and involvement.
- Make an appointment with a Career Advisor to explore and join a Career Community and receive career advice.
- Identify your personal interests and determine your career goals
- Get involved with campus organizations and activities.
- Take one of the free career assessments through the Center for Major & Career Exploration.
- Apply for summer jobs and/or study abroad programs.
- Maintain good grades. A great GPA will help you stand out.
- Sign up to volunteer at one of the OU Career Center job & internship fairs.

Sophomore Year

- Update your profile on Handshake, review the job board, and explore the resources to apply for internships or co-ops.
- Make an appointment with a Career Advisor to create a winning resume.
- Attend on-campus and virtual events featuring employers of interest
- Sign up to volunteer at one of the OU Career Center job & internship fairs.
- Join a campus organization or apply for an on-campus job that relates to your major or career interest(s).
- Get a professional headshot taken during headshot drop-ins at the OU Career Center.
- Apply for summer jobs and/or study abroad programs.
- Update or join a Career Community through Handshake

Junior Year

- Update your Handshake profile and create your LinkedIn account to research employers in your field by viewing the company's page or website.
- Enhance your job search, business etiquette, and interviewing skills by using the resources available through the Career Center
- Actively develop leadership through campus organizations by taking on an officer or committee member position.
- Attend job & internship fairs to expand your network and apply for internships or co-ops.
- If your career path requires graduate or professional school, research what you need to advance.
- Update or join a Career Community through Handshake.

Senior Year

- Make sure your Handshake and LinkedIn profiles are updated, and your resume is ready to go.

- Attend job & internship fairs dressed professionally, prepared with questions to ask employers, and ready to distribute resumes.
- Attend meetings of professional associations as a student member to network with professionals in your field.
- Update or join a Career Community through Handshake.
- Visit Career Community pages to find specific industry job sites.
- Review and apply for full-time positions through Handshake and LinkedIn, and other job search sites related to your career interests
- Complete the Post-graduation survey on Canvas, updating your future plans for full-time employment or continued education.

Academic Planning Calendar

Freshman Year (0–30 hours)

- **Complete** required freshman English composition courses (ENGL 1113 and ENGL 1213).
- **Complete** General Education Math requirement.
- **Complete** General Education First-Year Experience requirement.
- **Complete** all other course requirements and any necessary application procedures for admission to the Norman campus degree college of choice by the end of the freshman year.
- **Complete** any necessary testing for admission to major programs and degree colleges, such as the PPST (Pre-Profession Skills Test), as needed for admission to a teacher education program in the College of Education or the Language Skills Test for admission to a journalism and mass communication program in the Gaylord College of Journalism and Mass Communication.
- **Interested** students not previously admissible to the Honors Program should apply for admission as soon as the necessary hours and grade point average are acquired.

Sophomore Year (30–60 hours)

- **Complete** remaining requirements and the application procedures for admission to the degree college of choice at the University of Oklahoma Health Sciences Center.
- **Complete** required courses and application procedures for formal acceptance into such Norman campus programs as health and exercise science, journalism and social work.
- **Finalize** decision about choice of major or run the risk of delaying graduation (some of the highly structured programs such as engineering require firm decisions during the freshman year).
- **Consider** study abroad programs.

Junior Year (60–90 hours)

- **Consider** double major, minor, and area of concentration.
- **Complete** any necessary testing and application procedures for admission to professional schools (such as the MCAT and application to medical schools the second semester).
- **Request** initial graduation check from degree college office during the last semester of the junior year.
- **Consider** such post-baccalaureate options as Fulbright Grants and Rotary Scholarships.

Senior Year (90 hours and above)

- **All** requests for program adjustments should be made no later than the beginning of the senior year.

- **Request** final graduation check from degree college early in the last term of enrollment.
- **Apply** for graduation during the last term of enrollment (applications should be submitted by December 1 for spring, March 1 for summer and May 1 for fall).
- **Satisfy** all remaining requirements for the degree program, including courses, hours, grade point average, residence, and any additional requirements for anticipated distinguished degree.
- **Apply** for admission to post-baccalaureate programs and complete any required testing.
- **Degrees** are formally conferred at spring commencement. Degrees are awarded and diplomas mailed at the end of each semester and summer session.

It is the student's responsibility to meet deadlines and all other requirements from the beginning of the freshman year through graduation. Information about deadlines and requirements is available from advisors.

Phoenix Miranda (nixmiranda@ou.edu): Students with a last name of N-Z

Multidisciplinary Studies

Multidisciplinary Studies (MDS) is an individualized major program that allows students with a specific field of study interest that is not covered by any available OU major the opportunity to design their own degree program. This process is discussed and overseen by the student's assigned MDS academic advisor and all plans are reviewed through the Provost office. This is a highly selective and rigorous program and there is no guarantee that an application will be approved. A student's major design should include a minimum of synthesizing content from two disciplines (typically the minors from those fields) plus additional supporting courses to the selected field of study.

Graduation Requirements

The MDS major requires a minimum GPA of 2.00. Students within the MDS major program must complete a minimum of 120 total college credit hours with at least 48 hours at the upper division (3000-4000 level). Within these total hours students must also fulfill all stipulated General Education and designed major requirements.

Graduate Certificate in Community Engagement

The Graduate Certificate in Community Engagement is offered through Academic Affairs in Norman and through the Graduate College in Tulsa. The curriculum builds on the learner's existing knowledge and skills in their respective degree programs and provides additional knowledge, tools, and skills needed to be a highly effective agent of change to positively influence and promote a thriving community and help its members to optimize their potential.

Programs Offered

- Multidisciplinary Studies, B.A. (p. 82)
- Multidisciplinary Studies, B.S. (p. 83)
- Community Engagement, Graduate Certificate (p. 84)

Courses

EXPO 1113 Principles of Expository Writing 3 Credit Hours

Prerequisite: ACT English 19 or ACT English (CICS) 19 or Undergraduate level ENGL 0113 Minimum Grade of D or Compass English 085 or Compass Writing Placement C or SAT Verbal 450 or SAT Verbal (CICS) 450. An introduction to the basic genres and methodologies of academic writing, with an emphasis on argumentation and audience analysis. For descriptions of section topics go to <http://www.ou.edu/expo.html>. (F, Sp) [I-ENGL].

EXPO 1213 Expository Writing 3 Credit Hours

Prerequisite: ENGL 1113, EXPO 1113 or faculty permission. Students will study and practice the craft of writing through four series of sequenced writing assignments that are attuned to selected readings in the particular topic of the course (<http://www.ou.edu/expo.html>). Freshmen exempted from the requirement of a 1200-level writing course may sign up for EXPO 1223, which signifies that the student will receive lower division western civilization and culture credit. (F, Sp) [I-ENGL].

EXPO 1223 Expository Writing 3 Credit Hours

Prerequisite: ENGL 1113 or equivalent or faculty permission. Students will study and practice the craft of writing through four series of sequenced writing assignments that are attuned to selected readings in the topic around which the course is organized (<http://www.ou.edu/expo.html>). Freshmen exempted from the requirement of a 1200-level writing course may sign up for EXPO 1223 which signifies that the student will receive lower-division western civilization credit. (F, Sp) [IV-WC].

EXPO 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

EXPO 4980 Independent Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: ENGL 1213, sophomore standing, and permission of department. May be repeated with change of content; maximum credit six hours. An upper-division course used by students to complete independent research projects of their own design under the guidance of Expository Writing faculty. (F, Sp)

OCL 5603 The Science of Community Engagement 3 Credit Hours

Prerequisite: Graduate standing. This course provides an evidence-based foundation of knowledge to prepare participants for the collaborative world of community engagement. Lectures/discussions will cover a range of subjects including organizational dynamics, anatomy of a community, and aspects of community observation and interaction. Levels of helping and psychology of helping and being helped will also be covered. (Irreg.)

OCL 5613 The Tools of Community Engagement 3 Credit Hours

Prerequisite: Graduate standing and OCL 5603. The course focuses on methods of conducting community assessments, theories of developing and implementing programs and systems of change, public policy and administration as modes of transformation, and measuring successes and program evaluation. (Irreg.)

- OCL 5623 Community Engagement Apprenticeship 3 Credit Hours**
Prerequisite: Graduate standing, OCL 5603, and OCL 5613. Learners will work with a mentor associated with a community partner. The apprenticeship entails shadowing, observing, and actively learning from a community partner mentor that provides a "deep dive" into community engagement. During the course of the apprenticeship, the learner will identify a key problem or issue within the community partner organization and formulate a "Capstone Prospectus." (Irreg.)
- OCL 5633 Community Engagement Capstone 3 Credit Hours**
Prerequisite: Graduate standing, OCL 5603, OCL 5613, and OCL 5623. Learners will apply all they have learned in the preceding courses to address a real-world problem or issue affecting a community partner. In this course, learners will implement the program they developed in the Community Engagement Apprenticeship course. Learners will collect measures and other forms of data at baseline and at points following implementation of their program. (Irreg.)
- OCL 6813 Prospectus Development for Doctoral Dissertation 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. May be repeated; maximum credit six hours. The course is designed for advanced doctoral students/candidates. Students will develop a research topic and write a topic proposal as a starting point to work from and further develop with the dissertation chair and committee. (F, Sp, Su)
- OCL 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- OCL 6990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated with change of content; maximum credit twelve hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Individual research in areas of organizational and community leadership. Independent study may include library and/or laboratory research and field projects. Specific objectives and work requirements should be established by prior agreement between the instructor and student. (F, Sp, Su)
- UNIV 1000 University Course 16 Credit Hours**
Prerequisite: variable, generally at freshman level. May be repeated without restriction with change of subject matter. An interdisciplinary course, with subject matter, credit and format variable, and usually of an ad hoc and/or experimental nature. (F, Sp, Su)
- UNIV 1002 Foundations for College Learning 2 Credit Hours**
Prerequisite: Freshman standing and departmental permission. This course aids students in making a successful transition from high school to college and creating a foundation for future success. Students develop critical skills for college-level learning, managing time, exploring career pathways, financial planning, healthy living, connecting to campus resources, etc. Class sizes of 20-24 foster active learning and connection with the instructor, peer mentor, and classmates. (F, Sp)
- UNIV 1013 Introductory Seminars 3 Credit Hours**
Prerequisite: departmental permission. This course is intended to assist students in the transition from high school to college. Focus is placed on both the characteristics and behavior of the successful college student. Topics to be covered include, but are not limited to, study skills, time management, goal setting, major and career exploration, financial planning, physical and mental health, and personal and civic responsibility. (F, Su)
- UNIV 1022 University Seminar 2 Credit Hours**
Prerequisite: departmental permission. This course is intended to assist students in the transition from high school to college. Focus is placed on both the characteristics and behavior of the successful college student. Topics to be covered include, but are not limited to, study skills, time management, goal setting, major and career exploration, financial planning, physical and mental health, and personal and civic responsibility. (F, Su)
- UNIV 1023 Majors and Money 3 Credit Hours**
Prerequisite: Concurrent students only and departmental permission. This hybrid course merges major exploration and financial management. It dives into how values, interests and skills connect to major and career options as well as the decision-making process. It looks at how to manage your money during your college years and beyond, focusing on personal finance topics & issues that are practical and relevant now and for the future. (Irreg.)
- UNIV 1031 Exploring Careers 1 Credit Hour**
Designed for students who have decided on a major and are beginning the process of exploring their career options. Students will have the opportunity to engage in self-assessment, perform career research, investigate additional academic opportunities, and create action plans to prepare for post-college careers. (F, Sp)
- UNIV 1210 First-Year Student Mentoring 0 Credit Hours**
Introduction to the academic community; individual and group meetings to encourage student-faculty interaction and foster awareness of academic and cultural resources available to freshmen. (F, Sp)
- UNIV 2000 University Course 1-16 Credit Hours**
Prerequisite: variable, generally at sophomore level. May be repeated without restriction with change of subject matter. An interdisciplinary course, with subject matter, credit and format variable, and usually of an ad hoc and/or experimental nature. (F, Sp, Su)
- UNIV 2001 Strategies for Success 1 Credit Hour**
Prerequisite: Departmental permission; may be repeated; maximum credit two hours. Strategies for Success assists students in reaching their academic potential. It is required for first-year students with an OU GPA below 2.0 and available, by permission, to other students who are in need of academic recovery and assistance. This course will emphasize holistic support which includes academic skills, time management, motivation, goal setting, wellness, majors and career, and finances. (F, Sp)
- UNIV 2021 Choosing a Major 1 Credit Hour**
Designed to help students decide on a major that fits their personality, interests, skills, and goals. Working through the decision-making process, this activity-based class uses self-assessments, group discussions, and in-class research to explore majors and careers. Students will decide on a major or narrow their options, and have the skills and resources needed to make decisions about future career choices. (F, Sp)
- UNIV 2970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- UNIV 3000 University Course 16 Credit Hours**
Prerequisite: variable, generally at junior level. May be repeated without restriction with change of subject matter. An interdisciplinary course, with subject matter, credit and format variable, and usually of an ad hoc and/or experimental nature. (F, Sp, Su)

UNIV 3001 Transitions for Transfer Students 1 Credit Hour

Prerequisite: must be a transfer student. Introduces transfer students to the academic requirements, policies, and resources at the University of Oklahoma. Students will learn about academic advising, transfer credit, degree programs, resources, student life, and methods for achieving academic success at a four-year research institution. (F)

UNIV 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

UNIV 4000 University Course 16 Credit Hours

Prerequisite: variable, generally at senior level. May be repeated without restriction with change of subject matter. An interdisciplinary course, with subject matter, credit and format variable, and usually of an ad hoc and/or experimental nature. (F, Sp, Su)

UNIV 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

UNIV 5000 University Course 16 Credit Hours

Prerequisite: variable, Graduate level. May be repeated without restriction with change of subject matter. An interdisciplinary course, with subject matter, credit and format variable, and usually of an ad hoc and/or experimental nature. (F, Sp, Su)

Multidisciplinary Studies, B.A.

Minimum Total Credit Hours: 120

Major Hours: 30

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B700

Major Requirements

- Some courses required for the major may also fulfill University General Education Requirements.

Every candidate for this degree must select a major theme, which is a set of courses that meets the student's professional and personal goals. These courses must total a minimum of 30 credit hours, with a minimum of 18 hours completed at the upper-division level (3000-4000-level).

Courses should be selected in consultation with an MDS advisor to submit a Proposed Plan of Study and MDS Questionnaire to the Senior Vice Provost. MDS Plan of Study should include at minimum the courses required by two minors or concentrations.

General Education Requirements

Courses for fulfillment of General Education requirements must be from the approved General Education course list published in the Class

Schedule or at <http://www.ou.edu/content/gened/courses.html>. **Courses graded P/NP will not apply.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-

division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Bachelor of Arts and Bachelor of Science Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Major Work: A minimum of 30 credit hours, with a minimum of 18 hours completed at the upper-division level (3000-4000 level).

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required in the major field must be satisfactorily completed at OU.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- Credits earned via examination are neither resident nor nonresident credit.

Grade Point Averages: Students must earn a minimum overall 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Multidisciplinary Studies, B.S.

Minimum Total Credit Hours: 120

Community Engagement, Graduate Certificate

Minimum Total Hours: 12

Program Code: G031

Admission Requirements

The Graduate Certificate in Community Engagement is offered through Academic Affairs in Norman and through the Graduate College in Tulsa.

In addition to meeting the general requirements for admission to the Graduate College, applicants must also meet the admissions requirements for the Certificate Program in Community Engagement. Applications will be evaluated based on previous course work, evidence of leadership potential, and commitment to community health and well-being. Applicants must meet the minimum 3.0 GPA requirement (based upon a 4.0 scale) in previous course work. Compliance with admission requirements is demonstrated by submission of the following documents:

- Application to the Certificate program
- Personal Goal Statement
- Community Engagement Interest Statement
- Professional resume or CV
- Three letters of recommendation from persons familiar with the applicant's scholastic or leadership potential

For admission into the certificate program, applicants must meet the requirements for full graduate admission standing. To do so, the candidate must have supplied all the items listed above and must be eligible for admission to graduate certificate degree program for the Graduate College.

Certificate Requirements

The curriculum builds on the learner's existing knowledge and skills in their respective degree programs and provides additional knowledge, tools, and skills needed to be a highly effective agent of change to positively influence and promote a thriving community and help its members to optimize their potential.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Administrative Officers

Hans E. Butzer, F.A.I.A. LEED AP, Dean
Suchismita Bhattacharjee, Ph.D., Associate Dean of Academic and College Administration
Stephanie Pilat, Ph.D., Director, Division of Architecture
Ben Bigelow, Ph.D., Director, Haskell & Irene Lemon Construction Science Division
Elizabeth Pober, M.S., Director, Division of Interior Design
Division of Planning, Landscape Architecture, and Design:
Ron Frantz, M.S., Environmental Design
Sarah Little, Ph.D., Landscape Architecture
John C. Harris, Ph.D., APA/AICP, Regional and City Planning
Shawn Schaefer, LEED AP, Urban Design Program (OU-Tulsa)
Vanessa Morrison, Interim Director, Institute for Quality Communities
Angela Person, Ph.D., Director, Research Initiatives and Strategic Planning
Erin Nance, Director of Advising

General Information

The Christopher C. Gibbs College of Architecture is a comprehensive, multi-disciplinary unit concerned with the planning, design and construction of the built environment. The college is comprised of the Divisions of Architecture, Construction Science, Interior Design, and Planning, Landscape Architecture, and Design. A graduate program, focusing on Urban Design, is also offered by the OU College of Architecture at OU-Tulsa.

Students in the college develop the capacity for critical analysis of the context and constraints of physical design, formulate planning and design goals, and acquire specialized skills to attain these goals. Individual professional degree programs offered under the divisions within the college have complementary theory and practice components. The curricula are strengthened by deliberate sharing of courses and by the interaction of faculty and students across division boundaries.

Students in the programs have the unique opportunity to work with others preparing to enter related professional fields, as well as exposure to practicing professionals in these fields.

Programs Offered

- College of Architecture Administrated Programs (p. 88)
 - Planning, Design and Construction, M.S. (p. 89)
 - Data Systems and Digital Design (BIM/GIS/FAB), Graduate Certificate (p. 89)
 - Data Systems and Digital Design Elective List (p. 90)
 - Design Entrepreneurship and Real Estate, Graduate Certificate (p. 90)
 - Design Entrepreneurship and Real Estate Elective List (p. 90)
 - Resilient Planning, Design, and Construction, Graduate Certificate (p. 90)
 - Resilient Planning, Design, and Construction Elective List (p. 91)
 - Planning, Design and Construction, Ph.D. (p. 91)
- Division of Architecture (p. 91)
 - Architecture, Three+ Year Program, B. Arch.St. (p. 102)
 - Architecture, Four+ Year Program, B. Arch. (p. 104)
 - Architectural Studies, Minor (p. 106)
 - Architecture, 3½ + 1½ Program, B. Arch.St./M. Arch. (p. 107)
 - Architecture via Non-Architecture Bachelor's Degree, M. Arch. (p. 109)
 - Architecture via Architecture Bachelor's Degree, M. Arch. (p. 110)
 - Sustainable Architecture, M.S. (p. 111)
- Haskell and Irene Lemon Construction Science Division (p. 111)
 - Construction Science, B.S. (p. 117)
 - Construction Science, Minor (p. 119)
 - Entrepreneurship & Real Estate Development, Undergraduate Certificate (p. 120)
 - Certificate Elective Courses (p. 120)
 - Construction Management: Special Studies, M.S. (p. 120)
 - Construction Management: Thesis, M.S. (p. 120)
 - Construction Management, M.C.B. (p. 121)
 - M.C.B. Business Electives (p. 121)
 - Construction Management, Graduate Certificate (p. 121)
- Division of Interior Design (p. 122)
 - Interior Design, B.I.D. (p. 129)
 - Interior Design for Architecture Majors, Minor (p. 130)
 - Minor Electives for Interior Design for Architecture Majors (p. 131)
 - Interior Design for Visual Communication Majors, Minor (p. 131)
 - Interior Design for Non-Architecture/Non-Visual Communication Majors, Minor (p. 131)
 - Minor Electives for Interior Design for Non-Architectural/Non-Visual Communication Majors (p. 132)
 - Interior Design (First Professional), M.S. (p. 132)
 - Interior Design (Post-Professional), M.S. (p. 132)
- Division of Planning, Landscape Architecture, and Design (p. 133)
 - Environmental Design, B.S. (p. 143)
 - Environmental Design, B.S./M.L.A. (p. 145)
 - Environmental Design, B.S./M.R.C.P.L. (p. 148)

- Environmental Design, B.S./Urban Design, M.U.D. (p. 150)
- Landscape Architecture, M.L.A. (p. 152)
- Landscape Architecture via BLA, M.L.A. (p. 153)
- Landscape Architectural Studies, M.L.A. (p. 153)
- Regional and City Planning, M.R.C.P.L. (p. 154)
- Urban Design (Tulsa), M.U.D. (p. 155)

Programs & Facilities

Preceptorship Program

The college administers a preceptorship program which permits students of demonstrated ability to complete a limited number of degree requirements as a participant in a professional office.

Summer Program

Selected courses may be offered during the summer session in the College of Architecture. Special summer studies are also offered in international settings.

Creating_Making Lab

Located just a few blocks from campus, the Christopher C. Gibbs College of Architecture's Creating_Making Lab (C_ML) is a 7,000+ sf lab for students, faculty and staff in the college. In addition to the three bays of woodworking area, the lab also has a metal shop, laser cutters, plasma cutter, a paint booth, a lecture area and a photo documentation room. Users are required to go through safety training before they can use all of the lab's many resources.

Undergraduate Study

Admission

Admission to the University of Oklahoma (Norman Campus) and subsequently a degree granting college is based upon the admission requirements that are in effect for the semester that a student initiates enrollment at OU. For information on current admission requirements, contact the Office of Admissions & Recruitment, University of Oklahoma, Jacobson Hall, 550 Parrington Oval, Room L-1, Norman, OK 73019-4076 or visit their homepage.

Admission to an undergraduate program within the Christopher C. Gibbs College of Architecture is based upon the program requirements in effect at the time of a student's initial enrollment in any institution (including OU) in the Oklahoma State System of Higher Education. All first-year students direct from high school are enrolled in University College. All students seeking admission to a program within the Christopher C. Gibbs College of Architecture must fulfill the following minimum requirements:

1. Completed admission to the University of Oklahoma;
2. At least 24 semester hours of earned college credit;
3. Completion of any curricular deficiencies that may exist in English, Math and/or Science;
4. A declared major in the College of Architecture; and
5. Obtain at least the minimum combined and OU retention grade point average required for graduation from the program the student has declared. All undergraduate programs in the College of Architecture may require additional admission requirements beyond those listed above. Refer to the respective division section in the following pages for information regarding additional program admission requirements.

Transfer Students

An undergraduate student transferring from an institution within the Oklahoma State System of Higher Education must fulfill the transfer admission requirements of the University of Oklahoma Office of Admissions & Recruitment. For more information, visit their website.

A student requesting transfer into a program of the Christopher C. Gibbs College of Architecture from another institution will be considered for admission based on various factors such as GPA, portfolio review, and/or space availability which varies between programs. Such an applicant, in addition to satisfying all admission requirements of the University and the college, must be approved by the division director for that particular major.

A student requesting to transfer into a program of the Christopher C. Gibbs College of Architecture from another institution outside of the Oklahoma State System of Higher Education will follow the most recent curriculum requirements for the major the student declares.

Transfer Credit

The following credit hour regulations are specific to transfer students:

- Two-year college work is accepted only as lower-division credit.
- At least 60 semester hours applied toward completion of a baccalaureate degree must be earned at accredited senior (four-year) institutions.
- Credits earned in physical education courses or in basic ROTC courses cannot be applied toward the graduation requirements of any degree program of the College of Architecture. Advanced ROTC courses may be applied toward degree requirements only with the special permission of the dean.
- All professional courses not taken at the University of Oklahoma are subject to evaluation for equivalency by the appropriate division of the college prior to the approval of these courses as transfer credit.
- Work accepted from other institutions is subject to validation by the satisfactory completion of at least 30 hours of credit in residence.
- Any student enrolling for the first time at the University of Oklahoma in a design or graphics course offered by the College of Architecture must enroll in the first course in the sequence, unless specifically approved for higher placement based on a review by the appropriate division director of previous work completed by the student.
- College credit for professional work experience is permitted only under the supervised conditions of the Preceptor Program of the college or approved internship/field experience courses.

Admission Limitations

Admission to the various degree programs within the college is considered based on various factors like GPA, completed coursework, portfolio review, and/or space availability which varies between programs. Enrollment restrictions are most common in professional programs and courses and are subject to national standards of professional accreditation review.

College Regulations

Laptop Requirement

Students with a major in the Christopher C. Gibbs College of Architecture will be required to have a laptop computer. Laptop technologies are used to enhance the learning experience, and using a computer will become second nature to all of our students. See Technology Policy Requirement

page (PDF) for recommendations for the specifications needed, as well as other pertinent information.

Probation and Advancement

In accordance with the approved retention policy of the Oklahoma State Regents for Higher Education a student must maintain a combined retention minimum grade point average of at least 2.00 (C) in order to be in good academic standing at the University of Oklahoma. The student must maintain at least a 2.50 OU retention and combined retention grade point averages required for graduation from any of the following undergraduate programs within the Christopher C. Gibbs College of Architecture: Architecture, Construction Science, and Interior Design. The standalone Environmental Design degree requires an OU retention and combined retention grade point average of 2.0 in order to be in good academic standing within the college. A student who fails to maintain the required grade point averages for their program will be notified and required to sign an "Enrollment Contract" each semester their retention grade point average is below the minimum required for graduation. A student on enrollment contract may be denied further enrollment in the college if they fail to fulfill the terms of the enrollment contract during any semester they are on academic notice.

A student who is denied enrollment in the Christopher C. Gibbs College of Architecture may still be eligible for enrollment in another college within the University of Oklahoma. Students who have been dismissed from the College of Architecture for academic reasons should contact the Academic Advising Resource Center for advisement regarding continued enrollment at the University of Oklahoma. If a dismissed student from the College of Architecture decides to continue at the University of Oklahoma, further enrollment in College of Architecture courses will be denied.

A student denied enrollment in the Christopher C. Gibbs College of Architecture may apply for readmission after a lapse of one regular semester (fall or spring). The student must submit a letter stating why they should be readmitted (what caused the poor academic performance and how the problems causing the poor academic performance have been remedied.) Such a request will be reviewed and decided upon by the appropriate division.

If it is the first academic stop, the student's record will be reviewed to determine if it is possible for the student to earn the required grade points in the courses that remain to complete the degree and graduate.

If it is the student's second academic stop, they will automatically be denied readmission.

Attendance

The establishment of a specific policy concerning attendance requirements, as well as announced and unannounced examinations, is the responsibility of the individual instructor. Regular attendance in required studio courses is considered essential to the overall development of the student within the professional and pre-professional curricula.

Studio Regulations

A student may enroll in only one design and one graphics course per semester. Any student who enrolls in a studio course with an incomplete in a prerequisite must remove the incomplete prior to the first day of class of the subsequent semester.

Ownership of Work

All work completed or submitted in fulfillment of any requirements of a course in the Christopher C. Gibbs College of Architecture is the property of the college, which reserves the right to retain, copyright, use, exhibit, reproduce or publish any work so submitted.

Outside Employment

The demands of outside employment during the academic year, with the exception of an approved preceptorship program or internship, may be inconsistent with the requirements of the professional degree programs. Outside employment is not considered an extenuating circumstance in cases of poor performance, excessive absences or failure to submit assigned work on schedule. Students who fail to adequately fulfill course and curriculum requirements while maintaining outside employment may be required to carry reduced course loads. A longer period in residence may result from this reduction in course loads.

Enrollment Limitations

Undergraduate students may enroll in a maximum of 19 credit hours per any regular semester (fall or spring), and nine credit hours in summer. Enrollment in more than the maximum credit hours is permitted only with the approval and signature of the student's academic counselor and the dean of the college. Enrollment in more than the maximum credit hours for any given enrollment period cannot exceed the Oklahoma State Regents' absolute maximum for any given enrollment period.

All students enrolled in courses offered by the college are subject to the applicable rules of the college, including those governing performance reviews and enrollment limitations. Students admitted to the professional program in architecture may enroll in any architecture course for which they are eligible. Students who have been accepted as majors in another division of the Christopher C. Gibbs College of Architecture will be admitted to those architecture courses which are specifically required for their degree programs.

Student Advisement

Students in the Christopher C. Gibbs College of Architecture are advised by one of the college's full-time academic advisors. Students schedule advising appointments through iAdvise.ou.edu or call the Academic Advising Services at 325-2444 for details.

Due to the complexity of the program sequences, it is necessary that all undergraduate students meet with an academic advisor during the pre-enrollment periods. Academic advisors are available to answer questions about the various undergraduate programs. The College of Architecture requires semester-by-semester advising. Students are not permitted to self-advise.

Graduation Requirements

Approval for graduation with a degree from the Christopher C. Gibbs College of Architecture requires completion of all degree requirements listed on the curriculum requirements checklist for the program the student was admitted as well as the graduation requirements set forth by the Oklahoma State Regents for Higher Education, and the University of Oklahoma. Copies of current or past checklists can be obtained from the College's Academic Advising Services Office.

In addition to the minimum graduation requirements set forth by the Oklahoma State Regents for Higher Education and the University of Oklahoma, the Christopher C. Gibbs College of Architecture requires the following:

1. A student must obtain the minimum OU retention, combined retention and curriculum grade point averages specified on the requirements checklist for their degree program. **Note:** Specific grade point averages required for graduation from programs within the college supersede the minimums set forth by the Oklahoma State Regents for Higher Education and the University of Oklahoma.
2. A student must complete at least the minimum upper division (3000 level or above) and total hours listed on their program requirements checklist. Total credit hours applied toward graduation must be verified by one of the professional academic counselors in the Academic Advising Services Office. Students are encouraged to meet with one of the college's academic counselors for a degree check at least one semester before the intended semester of graduation. The following are additional College of Architecture regulations regarding total hours applied toward graduation:
 - a. credit hours earned in physical education courses or in basic ROTC courses cannot be applied toward the graduation requirements of any degree program of the College of Architecture. Advanced ROTC courses may be applied toward degree requirements only with the special permission of the dean;
 - b. a maximum of 64 hours will transfer for credit from a two-year college;
 - c. at least 60 semester hours toward graduation must be earned at accredited senior (four-year) institutions;
 - d. no hours for remedial or pre-college level course work may apply toward graduation;
 - e. transfer coursework specifically denied by the division for application toward the curriculum will not count toward graduation;
 - f. courses taken under the student elected Pass/No Pass grading option will not be allowed to count toward fulfillment of any university general education or college curriculum requirements.

Additional information about specific program requirements are described under the respective division sections in this chapter.

Responsibility for meeting graduation requirements lies with the student.

Graduate Study

Refer to the Graduate tabs within the Christopher C. Gibbs College of Architecture's division (p. 829) pages of this catalog for information concerning graduate programs.

- Division of Architecture (p. 91)
- Division of Construction Science (p. 111)
- Division of Interior Design (p. 122)
- Division of Planning, Landscape Architecture, and Design (p. 133)

Honors and Awards

Honors Degrees

All of the bachelor's degree programs offered by the Christopher C. Gibbs College of Architecture are available to qualified students as honors degree programs. Students may graduate with Latin Honorifics (cum Laude, Magna cum Laude, Summa cum Laude) if they successfully meet the GPA requirements in addition to their regular degree program requirements. Please refer to the Honors College (p. 1617) section of this catalog for specific information regarding research opportunities and admission into the Honors College for a special notation on your final transcript.

Recognition of Academic Achievement

The Dean's Honor Roll is compiled at the close of each fall and spring semester. It includes students who have completed at least 12 grade point hours and have earned an average of 3.50 or higher for the semester.

Students enrolled part-time for both the fall and spring semesters of an academic year will be included on the spring semester honor roll, provided that a 3.50 or better is earned for each semester.

Scholarships and Awards

Many scholarships and awards are provided by professional societies, the building industry, and patrons of architecture and the allied arts. The University of Oklahoma has many general financial aid programs which are listed on the Scholarships website

Honor Societies and Professional Organizations

Divisions and programs within the Gibbs College of Architecture have established student organizations related to professional licensure and national associations. Students should check with their division directors and program coordinators for this information.

College of Architecture Administrated Programs

Graduate Programs

Master of Science

The Master of Science (p. 89) in Planning, Design, and Construction is available to students wishing to pursue a specialized research or creative agenda. Students in the Master of Science in Planning, Design, and Construction degree program are offered a combination of courses within the Christopher C. Gibbs College of Architecture including: graduate level elective seminars; professional practice; architectural history and theory; structures; and sustainable design and technology. Students have the opportunity to study with leading scholars in Architecture, as well as in University-wide fields as diverse as Engineering, Geography, History of Science, and more. Students gradually narrow and focus their research agendas, culminating in a written or designed final dissertation. Ultimately, graduates are well prepared to develop and undertake new research and creative endeavors.

ARCHITECTURE GRADUATE CERTIFICATES

The Division of Architecture offers graduate certificates for design professionals to participate in an assortment of courses specifically centered on expertise in:

- Data Systems and Digital Design (p. 89)
- Design Entrepreneurship and Real Estate (p. 90)
- Resilient Planning, Design, and Construction (p. 90)

DOCTORAL PROGRAMS

The Ph.D in Planning, Design and Construction (p. 91) is available to students wishing to pursue a specialized research or creative agenda. This program consists of coursework tailored to the student's interests, providing practitioners and students with an opportunity to deepen their expertise in a particular realm of research.

PDC 1003 Gateway to Building Communities 3 Credit Hours

This first-year experience course introduces students to aspects of creating communities through the lens of planning, design, and construction disciplines. Lectures explore tools of listening and successful collaboration that can help lead to personal and professional success. Concepts of cultural fluency, critical thinking, civil discourse, citizenship, and community engagement will be investigated through in-class discussions, writing assignments, and group projects. (F) [V-FYE].

PDC 6003 History and Philosophy of Planning, Design and Construction 3 Credit Hours

Prerequisite: graduate standing with permission of instructor. Explore the events, phases and evolution of planning, design and construction; review historical developers, city planners and contractors and the contributions/impacts they had on the professions and marketplace; explore the future based on the past. (Sp)

PDC 6023 Advanced Research Methods 3 Credit Hours

Prerequisite: graduate standing with permission of instructor. Explore discipline-based qualitative and quantitative research methods; develop dissertation research design and support documentation; apply for funding for the dissertation project. (F)

PDC 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

Planning, Design and Construction, M.S.

Minimum Total Hours (Thesis): 30

Program Code: M784

Required Courses

Code	Title	Credit Hours
Required Courses		
ARCH 5980	Research for Master's Thesis ¹	12
ARCH 5543	Architectural Theory and Criticism ¹	3
RCPL 5113	Urban Planning Research Methods ¹	3
Electives		
Choose 12 credits (p. 89)		12
Total Credit Hours		30

¹ All MS Architecture degree students must pass this course with a grade of B or better.

ELECTIVES

The remaining electives will be selected by the student under the guidance of his or her advisory committee. Graduate Certificate Programs will be coordinated with this MS Architecture program in the following research areas:

1. Architectural History, Theory and Criticism
2. Creating and Making
3. Design Representation and Modeling
4. Middle Eastern Architecture and Culture
5. Social Equity and Design

6. Sustainable Design and Building Technologies
7. Real Estate and Urbanism

The Master of Science in Architecture degree track is designed to be completed over the span of three semesters. In consultation with the Graduate Liaison, the student may elect to complete the degree within two semesters.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Data Systems and Digital Design (BIM/GIS/FAB), Graduate Certificate

Minimum Total Hours: 12

Program Code: G304

The Graduate Certificate in Data Systems and Digital Design (BIM/GIS/FAB) is an option for design professionals to participate in an assortment of courses specifically centered on expertise in Data Systems and Digital Design education. A total of 12 hours is required. While this certificate is embedded within the Master of Science in Planning, Design, and Construction degree, graduate students enrolled in the Master of Architecture degrees are also eligible based upon allowable electives.

Certificate Requirements

Core Courses (40-54 hours)		
	Choose a minimum of 9 hours of guided research methods or research analysis courses (beyond PDC 6023)	9
Concentration Courses ¹		
	Choose a minimum of 9 hours from one or more of the following concentrations. Courses are selected based on the requirements of a specific area of concentration and student's interests and goals, as approved by the doctoral committee chair.	9

Architecture		
Construction Science		
Interior Design		
Landscape Architecture		
Regional and City Planning		
<i>Dissertation Research</i>		
PDC 6980	Research for Doctoral Dissertation (6+ hours)	6
Total Credit Hours		90

¹ Any core concentration courses taken during the first two semesters may be approved by the graduate liaison. During the remaining semesters, core concentration courses should be approved by the student's doctoral committee chair.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

General Information

The Architecture program at the University of Oklahoma was founded in 1926 as part of the College of Engineering. In 1968 the program became a separate college and the first component of what is now a multi-disciplinary college including programs in Interior Design, Construction

Science, Planning, and Landscape Architecture. The Architecture program benefits strongly from this multi-disciplinary context.

The Division of Architecture at the University of Oklahoma is committed to educating students of diverse backgrounds and interests through graduate level studies in architecture. Focused on advancing architecture and society through education, scholarship, and service, the graduate degree programs provide a creative and challenging forum through which students engage environmental and social issues, thereby actively shaping the profession of architecture. Our graduates are known for their exceptional design abilities as well as their critical problem-solving and leadership skills. Established on a core foundation of ethics and sustainability, our graduate programs enable and equip students to deal with complex real world issues that go beyond the realm of design.

Located in Norman, Oklahoma with a branch campus in Tulsa, Oklahoma, the Architecture program at the University of Oklahoma draws from the region's rich cultural legacy. Our graduate degree programs in Architecture offer students opportunities to learn and work in a collaborative and multi-disciplinary environment through coursework, faculty-led research projects, and student-led associations. As the Flagship Research Institution in the State, faculty and students are collectively engaged in the production of new knowledge through research and creative practices.

Our curriculum grows out of our American School history, which emerged in the middle of the twentieth century, under the leadership of architect Bruce Goff and a talented roster of faculty. They developed a curriculum that emphasized individual creativity and experimentation. They modelled a radical empathy, which taught students to trust their own creative instincts. The work of American School architects is grounded in a respect for context, a material resourcefulness, and a commitment to experimentation and innovative problem solving. Today, we continue to embrace the spirit of the American School. We aim to educate students to be resourceful—always considering how to make the most with the least impact on the natural environment. Experimentation is advanced today through a research orientation in our curriculum, which instills in students an aspiration to innovate and produce new knowledge.

Degree Program and Architectural Registration

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in Architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

Programs & Facilities

Programs

The Institute for Quality Communities

Housed within the GCA, is the service-learning arm of the college. The IQC undertakes urban design and planning projects in partnership with communities across the state of Oklahoma each year. Architecture

students and faculty regularly partner with the IQC faculty and staff on these endeavors.

Integrated Studio Field Trips

Recognizing the importance of learning about the built environment from first-hand experiences outside the classroom, we have developed a robust sequence of field trips, a lecture series, as well as individual and collective opportunities to learn outside the classroom. Field trips are an integral and intentional part of the architecture curriculum. In addition to typical site visits, students travel around the region and beyond to see great works of architecture firsthand.

Study Abroad

Study Abroad programs are highly valued, encouraged, and supported at the University of Oklahoma. In the Division of Architecture, we have hosted a spring semester Rome program since 2013. Architecture and Interior Design students in their third-year spring semester study all their required courses in Rome. The program is led by Academic Initiatives Abroad Director and architect Scott Schlimgen. It includes a rich roster of site visits and travel within Italy. In the past decade, the GCA has also hosted study abroad summer programs to Zambia, Uganda, Arezzo, and within the US to Taliesin West. OU's College of International Studies Education Abroad Office also supports a wide variety of summer study abroad programs across the world. OU has two International Study Centers: one in Arezzo, Italy, and another in Puebla, Mexico.

Lecture Series

Our Bruce Goff Creative Chair Lecture series brings designers and scholars to OU each year to give lectures and lead workshops. Goff Chairs have included renowned architects such as Odile Decq, Patrick Tighe, Marlon Blackwell, Sheila Kennedy, Jesus Vassallo, Leslie Bernstein, Miguel Olivares, and Deborah Berke. Scholars such as Barry Bergdoll, Christopher Mead, Kathryn Anthony, Tito Alegria, Billy Fleming, Irene Hwang, Saskia Sassen, Beatriz Colomina, and Itohan Osayimwese have shared their research through the Goff series.

Physical Resources

Gould Hall

The program is housed in Gould Hall along with Interior Design, Landscape Design, Construction Science, City and Regional Planning, and Environmental Design. Gould Hall is a four-story, 108,000-square-foot facility located in the heart of the campus. About one-third of the space in Gould Hall is dedicated to studio space. The studio spaces are spread out among the garden, second and third floors. A number of these spaces are shared among year levels as well as with the interior and landscape design programs. This sharing of studio space corresponds with our dedication to interdisciplinary study. Every student has a dedicated desk in each studio. Gould Hall is open from 7:00 a.m. to 7:00 p.m. and with secured card access 24/7 to all students, faculty, and staff. The layout of Gould Hall can be viewed [here](#). The studios in Gould Hall are considered our "maker spaces." These maker spaces are more than typical studios; each space provides an opportunity for collaboration, growth, and discovery.

Creating_Making Lab (C_ML)

The C_ML is a 7,000-square-foot lab a few blocks away from Gould Hall. The lab is open 9:00 a.m. to 6:00 p.m. Monday through Friday for students, faculty, and staff. The lab contains three bays of woodworking area, a metal shop, laser cutters, a plastics room, a paint booth, a lecture area, and a photo documentation room. Users are required to go through two levels of safety training before they can use all of the lab's many resources.

Digital Making Lab

The Digital Making Lab provides students with a Gould Hall facility for Creating Making. Located in Room 206, the lab contains lasers and woodworking tools.

Computer Lab Gould Hall B15.

The computer lab has 43 high-powered workstations with dual monitors. Some classes are taught in the computer lab, but they are otherwise available to students 24/7. There are also 27 additional lab computers distributed throughout Gould Hall, often located in division studios.

Undergraduate Study

Bachelor of Architecture

The Bachelor of Architecture (p. 104) program is accredited by the National Architectural Accrediting Board (NAAB) and fulfills the educational prerequisites for professional registration required by most state boards. Admission to the program beyond the first year is competitive. At the heart of the Division of Architecture's educational approach is its Creating-Making curriculum, which emphasizes the importance of analytical thinking and visioning balanced with the ability to implement meaningful real-world architectural solutions.

Bachelor of Architectural Studies

The Bachelor of Architectural Studies (p. 102) offers students a strong basis in architectural studies and design principles. This degree path emphasizes the importance of analytical thinking and physical craft balanced with the ability to implement meaningful real-world architectural design solutions. Courses prepare students for various careers and graduate program options.

Bachelor of Architectural Studies/Master of Architecture

The Bachelor of Architectural Studies/Master of Architecture (p. 107) is an accelerated dual degree program.

Minor

The Architectural Studies Minor (p. 106) is offered to non-majors.

Special Regulations

Degree Program Admission

Class size in studios and other architectural coursework is influenced by national guidelines. Limitations of university resources (e.g. facilities, faculty, operating funds, etc.) also impose restrictions on class sizes. Therefore, an Enrollment Management Program within the Division of Architecture governs admission to the professional undergraduate degree program. For further information, contact the director of the Division of Architecture.

Graduation Requirements

Approval for graduation with the Bachelor of Architecture degree requires completion of all degree requirements with a minimum program grade point average of 2.50 in all coursework used to fulfill degree requirements.

Collaborative Program

Housed within the Christopher C. Gibbs College of Architecture, the accredited 5-year undergraduate curriculum is designed to encourage collaborative experiences for students. Courses, competitions and other planned experiences prepare students of Architecture, Planning, Landscape Architecture, Interior Design, Construction Science and

Architectural Engineering to work together as they may later in professional practice

Placement in Studio Courses

Any student enrolling for the first time at the University of Oklahoma in a design support course offered by the Division of Architecture must enroll in the first course in the sequence, unless specifically approved for higher placement by the Director of Architecture.

Enrollment in Architecture Courses

A student may not enroll in more than one required studio course per semester. Students must have completed "Incompletes" in all prerequisite courses prior to the first day of class in any subsequent Architecture course unless otherwise granted permission by the Director of Architecture.

Portfolio Requirements

Each student enrolled in a professional program in Architecture is required to maintain an up-to-date record of design and graphics work for use in program advisement, the evaluation of overall progress toward the professional degree, and in maintaining an on-going dialogue with professionals in the workplace through employment and mentorship programs.

Advancement in Major Course Sequences

All professional degree programs of the Division of Architecture are organized around a sequence of courses in which the student develops and demonstrates a capability for analyzing problems and synthesizing solutions, using techniques and skills unique to the field of architecture. Advancement in a major course sequence may be denied if a student earns less than a C in the prerequisite course. Further progress in the studio sequence in such cases may be permitted if the course average is raised by retaking the course, or by special permission.

Graduate Study

Master of Architecture

The Architecture via Architecture Bachelor's Degree, Master of Architecture (p. 110) program is available to students holding bachelor's degrees in Architecture or Environmental Design. This degree is accredited by the NAAB. The Architecture via Non-Architecture Bachelor's degree, Master of Architecture (p. 109) program is designed for students with bachelor's degrees in fields other than Architecture. This degree is accredited by the National Architectural Accrediting Board (NAAB). The Master of Architecture (M. Arch) at the University of Oklahoma is offered on the Norman campus only. It follows an intensive and structured program of studio design and coursework intended to develop the specialized abilities and expertise demanded of the professional architect. The program is accredited by the National Architectural Accrediting Board (NAAB) and fulfills the educational prerequisite for professional registration required by most state boards.

Master of Science

The Master of Science in Sustainable Architecture (p. 111) is designed to meet the growing demand for up-to-date expertise in design and construction.

Special Regulations

Enrollment Limitations

Graduate students may enroll in nine to 16 credit hours of work per semester. Enrollment in more than 16 or less than nine credit hours is

permitted only with the approval and signature of the graduate liaison and the graduate dean.

Graduation Requirements

Approval for graduation with the degree of Master of Architecture requires satisfaction of all requirements of the Graduate College and certification by the graduate liaison of completion of all requirements of the graduate professional degree program in Architecture, with a minimum grade point average of B (3.00) in all work for which graduate credit is awarded.

Transfer of Graduate Credit

In addition to the policies of the Graduate College for the transfer of credit hours for master's degrees, the College of Architecture graduate liaison must approve any work transferred to a Master of Architecture degree program.

Courses

ARCH 1155 Design I - Design Fundamentals 5 Credit Hours

Prerequisite: Co-requisites: ARCH 1163 or permission of director.

Development of foundational design and representational skills, and graphic conventions including sketching and digital methods. The course introduces processes of Creating-Making through methods engaged in critical thinking and experiential knowing. Methods of composition are introduced and explored: design elements and principles, proportion and scale, ordering systems, and organizational strategies. Introduction to issues of craft and material engagement. (F)

ARCH 1163 Methods I - Materiality of Place 3 Credit Hours

Prerequisite: Co-requisites: ARCH 1155 or permission of director.

Introduction to principles of representation in freehand, hand-constructed, and computer-generated form through a variety of media, formats, and techniques, including projective geometry, orthographic and axonometric drawings, perspectives, sketches, and more. A wide breadth of architectural vocabulary will be explored and related to the design studio activities. (F)

ARCH 1255 Design II - Craft and Making 5 Credit Hours

Prerequisite: ARCH 1163 and ARCH 1155, Corequisite: ARCH 1263; or permission of director. A continuation in the development of fundamental design skills through introductions to the material, formal, and spatial properties of architecture. Fabrication safety, craft, and techniques will be introduced and developed through the making of full-scale constructions. Continued ideas involving Creating-Making are explored through exercises in the formal, spatial, and material qualities of human environments. (Sp)

ARCH 1263 Methods II - Pattern of Architecture 3 Credit Hours

Prerequisite: ARCH 1163 and ARCH 1155, Corequisite: ARCH 1255; or permission of director. An introduction to organizational strategies across a range of architectural scales. Ordering principles are investigated from micro through macro, from the materiality and tectonics of details, to urban patterns. Architectural assemblies and building technology will introduce structural systems and material characteristics. Massing and typology studies will introduce relationships of building to site and environment. (Sp)

ARCH 1713 Architectural Journeys in Europe and the Americas 3 Credit Hours

Introduction to the built environment using residence, public buildings, and communities as vehicles. Overview of architectural history is interwoven with an introduction to architectural form, space, order, and the elements of architecture. Stories of European and American cities serve as a vehicle to explore both architectural styles and to apply ways of thinking about space and how humans live together. (Sp) [IV-AF].

ARCH 1723 Architectural Explorations in Asia, Africa, and Australia 3 Credit Hours

Introduction to the built environment using residence, public buildings, and communities as vehicles. Overview of architectural history is interwoven with an introduction to architectural form, space, order, and the elements of architecture. Stories of East Asian, South Asian, and Southeast Asian cities serve as a vehicle to explore architectural styles, space, and how humans live together. (F) [IV-WDC].

ARCH 2243 History of the Built Environment I 3 Credit Hours

Prerequisite: majors only or permission of director. Co-requisite: ARCH 2363, ARCH 2356; for Interior Design majors: completion of A HI 2213 and A HI 2223. A theoretical investigation of the cultural, political, and aesthetic values of diverse Western and non-Western cultures and how these affect the built environment from pre-history through the Renaissance. This course continues the development of critical writing skills and further develops analytic skills that act to inform design decisions related to studio projects. (F) [IV-WC].

ARCH 2343 History of the Built Environment II 3 Credit Hours

Prerequisites: ARCH 2363, ARCH 2356, ARCH 2243. Co-requisites: ARCH 2463, ARCH 2456, ARCH 4193; or permission of director. An investigation of the cultural, political, and aesthetic values of diverse Western and non-Western cultures and how these have affected the built environment from the Renaissance through the 19th century. This course continues the development of critical writing skills and further develops analytic skills that act to inform design decisions related to studio projects. (Sp) [IV-WC].

ARCH 2356 Design III - Crafting Place 6 Credit Hours

Prerequisites: ARCH 1263, ARCH 1255 with a grade of C or better. Corequisites: ARCH 2363, ARCH 2243; or permission of director. Development of formal and spatial architectural components that demonstrate engagement with design principles, precedent analysis, human factors, and environmental and cultural influences on design. Expression of ideas through the application of virtual techniques of representation and visual communication are required. (F)

ARCH 2363 Materials and Form 3 Credit Hours

(Crosslisted with CNS 2363) Prerequisite: Majors only. An introduction to the nature of building materials with regard to form, strength, durability, workability, structure, connections, surfaces, and edges. Analysis of architectural expression through the use of building materials including the effects of: light, air movement, humidity, and their relationships to both one another and formal and spatial expressions. (F)

ARCH 2456 Design IV - Materials and Making 6 Credit Hours

Prerequisite: ARCH 2363, ARCH 2356, ARCH 2243 with a grade of C or better. Corequisites: ARCH 2463, ARCH 2343, and ARCH 4193; Majors only; or permission of director. Introduces projects of moderate complexities demonstrating intermediate design principles within the context of the urban environment demonstrating an understanding of material. Students begin to engage the effects of site and environmental conditions upon material, formal, and spatial design decisions. (Sp)

- ARCH 2463 Methods IV- Sustainable and Resilient Systems I** **3 Credit Hours**
Prerequisite: ARCH 2363, ARCH 2356, and ARCH 2243 with a grade of C or better. Co-requisites: ARCH 2456, ARCH 2343, ARCH 4193; or permission of director. Introduction to psychrometrics, heat transmission, mechanical heating and cooling, natural ventilation, passive solar conditioning, plumbing, and fire protection in buildings. (Sp)
- ARCH 2970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- ARCH 3013 Architecture for Non-Majors** **3 Credit Hours**
Prerequisite: junior standing. An introduction of basic principles of architecture for the non-architect. Understanding of the qualities and characteristics of a well-designed architectural environment. Not open to architecture majors. (F, Sp) [IV-AF].
- ARCH 3440 Mentored Research Experience** **3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- ARCH 3556 Design V - Architectural Making I** **6 Credit Hours**
Prerequisite: ARCH 2463, ARCH 2456, ARCH 2343, and ARCH 4193 with a grade of C or better. Co-requisites: ARCH 4563, ARCH 4233, ARCH 4453; or permission of director. Introduces principles and techniques of site design within a building context of place, order, form, and structure. It also introduces climatic data analysis software as a means for teaching evidence based design and sustainable design principles. Studio-based lectures and assignments will challenge students to analyze, adapt to, and transform the site within a building design context. (F)
- ARCH 3656 Design VI - Architectural Making II** **6 Credit Hours**
Prerequisites: ARCH 4563, ARCH 3556, ARCH 4233, ARCH 4453 with a grade of C or better. Co-requisites: ARCH 4663, ARCH 4543; or permission of director. Students develop the ability to design in the context of existing urban environments. Students are challenged to take into account the layered histories of cities as well as the complexities of dealing with site and street design for urban contexts. Course features guest lectures from experts on urban design and planning; and special topics pertaining to individual studio programs. (Sp)
- ARCH 3960 Honors Reading** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- ARCH 3970 Honors Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework.
- ARCH 3980 Honors Research** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp)
- ARCH 3990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- ARCH 4000 Foreign Study** **0 Credit Hours**
Prerequisite: permission of instructor. The student will experience an alternative culture or setting that enhances awareness and sensitivity. While this course normally involves foreign studies, it may include design/build, community service, volunteer activities, or other experiences relevant to Creating-Making. The duration of this experience shall be no less than eight weeks, and must be approved by a faculty coordinator. (F, Sp, Su)
- ARCH 4053 Methods X- Tool of Practice** **3 Credit Hours**
(Slashlisted with ARCH 5053) Prerequisites: ARCH 4923, ARCH 4956 with a grade of C or better. Co-requisites: ARCH 4056 or permission of director. Explores issues in contemporary architectural practice including the role of the client, contracts, practice and project management, leadership skills, legal responsibilities, and ethics. Emphasis is placed upon issues of cultural and environmental sustainability, political activism, and the changing role of the architecture profession. The course contains program specific research and support related to studio projects. No student may earn credit for both 4053 and 5053. (Sp)
- ARCH 4056 Design X- Options Studio II** **6 Credit Hours**
Prerequisite: ARCH 4723, ARCH 4756, and ARCH 4333 with a grade of C or better. This course examines analytical and methodological aspects of the design process through individual architectural projects. Students develop design proposals through means of intensive modeling and representation, both in analog and digital media. Fundamental issues of form, order, site, program along with schematic structure and constructability concepts are developed as part of the final project. (Sp)
- ARCH 4160 Internship** **0 Credit Hours**
(Slashlisted with ARCH 5160) Prerequisite: ARCH 4723, ARCH 4756; or permission of director. This internship requirement corresponds with the National Council of Architectural Registration Boards Internship Development Program (IDP) and provides students with experience in an architecture office or in a related field. Students must follow the Division's Internship Program Guidelines in order to verify the appropriate experience is gained and documented. No student may earn credit for both 4160 and 5160. (F, Sp, Su)
- ARCH 4161 Co-Op: Cooperative Education Experience** **1 Credit Hour**
(Slashlisted with ARCH 5161) Prerequisite: ARCH 4723 and ARCH 4756; or permission of director. The purpose of the Cooperative Education Program is to provide students with an actual office practice experience prior to graduation. The student is ideally exposed to a broad range of areas, such as construction documents, marketing, office practice, business management, client reviews, construction administration and a host of other daily activities that may be possible while working in Host Firms. No student may earn credit for both 4161 and 5161. (F, Sp, Su)
- ARCH 4183 Survey of Middle Eastern Architecture** **3 Credit Hours**
(Slashlisted with ARCH 5183) Prerequisite: Junior standing or permission of instructor. Survey of Middle Eastern architecture and the impact architects and architecture from this time and region had upon the advancement of environmental/urban design throughout the rest of history. No student may earn credit for both 4183 and 5183. (Irreg.) [IV-WDC].

- ARCH 4193 Architectural Structures I 3 Credit Hours**
(Slashlisted with ARCH 5193; Crosslisted with CNS 4193) Prerequisite: Architecture major and completion of MATH 1523 and PHYS 1114; or Construction Science major and completion of PHYS 2414 and MATH 1523; or permission of division director. An introduction to basic physics, forces within structural systems, material strength, and associated structural engineering principles. Develops both intuitive and empirical knowledge of forces within structural systems that serve as a foundation for future courses within the Structures sequence. No student may earn credit for both 4193 and 5193. (Sp)
- ARCH 4233 Architectural Structures II 3 Credit Hours**
(Slashlisted with ARCH 5233; Crosslisted with CNS 4233) Prerequisite: ARCH 4193 or CNS 4193; majors only. Focus is on wood, concrete, and steel as structural materials. Material properties, common manufactured systems, common material sections, and common connection types will be explored with students demonstrating the ability to develop technical details related to various structural systems. No student may earn credit for both 4233 and 5233. (F)
- ARCH 4283 Persian Architecture 3 Credit Hours**
(Slashlisted with ARCH 5283) Prerequisite: junior standing. The goal of the course is to guide students into an understanding of the important contributions that Persian Architecture has made to the built environment. This course provides a comprehensive history of ancient Iranian architecture and urbanism, from the first societies to the present. No student may earn credit for both 4283 and 5283. (Sp)
- ARCH 4333 Advanced Structures 3 Credit Hours**
(Slashlisted with ARCH 5333) Prerequisite: ARCH 4193 and ARCH 4233; or permission of director. Introduces design of structural members using reinforced concrete. It covers the structural concrete, loads, analyses of tension and compression members, bending design for beams, axial load design for columns, structural systems, and design of reinforced concrete buildings. Concrete structures as taught for architects emphasizes principles of design rather than formulaic calculations. It emphasizes learning through project based collaborations. No student may earn credit for both 4333 and 5333. (F)
- ARCH 4353 LEED Seminar 3 Credit Hours**
Prerequisite: senior standing. Gives a comprehensive understanding of leadership in energy and environmental design (LEED) and the certification process. Students acquire first-hand experience in the process of "greening up" a campus. Prepares students with the knowledge necessary to sit for and pass the LEED certification exam. (F, Sp)
- ARCH 4433 Rendering 3 Credit Hours**
Prerequisite: senior standing. Helps students develop a more advanced understanding of graphic presentation principles and the use of pen and pencil, marker, and water color in developing presentation floor plans, sections, elevations and 3-D renderings. (Sp) [IV-AF].
- ARCH 4453 Modern and Contemporary Architecture 3 Credit Hours**
(Slashlisted with ARCH 5453) Prerequisite: Junior level standing; or permission of director. The course focus is on the relationship between architectural theories and projects during culture and the modern era. It considers how particular historical contexts shaped theories of design as well as how architects responded to the change. The course examines the relationship between the constructed environment and notions of modernity, developments in technology, building traditions, and politics. No student may earn credit for both 4453 and 5453. (F)
- ARCH 4493 Architecture of Democracy 3 Credit Hours**
(Slashlisted with ARCH 5493; Crosslisted with P SC 4493) Prerequisite: P SC 1113 or permission of instructor. This course explores how space, place and values come together in public spaces, by reviewing the evolution of architecture as it relates to human governance; introducing methods for assessing and designing physical space as an expression of human values; examines the social meaning and behavioral impact of spaces; studies the expression of democratic values in public spaces. No student may earn credit for both 4493 and 5493. (Irreg.)
- ARCH 4513 Creativity Through Sketching 3 Credit Hours**
(Slashlisted with ARCH 5513) Prerequisite: ENGL 1213 or EXPO 1213. This course teaches students how to express themselves creatively through sketching. Students receive instruction and assignments tailored to help them learn basic sketching techniques with the aim of developing their own expressive means of communicating through sketching. No student may earn credit for both 4513 and 5513. (F) [IV-AF].
- ARCH 4543 Architectural Theory and Criticism 3 Credit Hours**
(Slashlisted with ARCH 5543) Prerequisite: Junior level standing; or permission of director. The development of research and academic writing in an urban and architectural context. Development of critical and analytical writing skills through the use of original research and/or analysis term papers. Topics may range from periods, politics, technology, economics, religion, gender, and culture. Open to non-architecture majors to encourage interdisciplinary research/writing. No student may earn credit for both 4543 and 5543. (Sp)
- ARCH 4563 Methods V- Sustainable and Resilient Systems II 3 Credit Hours**
Prerequisite: ARCH 2463, ARCH 2456, ARCH 2343, ARCH 4193 with a grade of C or better. Co-requisite: ARCH 3556, ARCH 4453, ARCH 4233; or permission of director. Introduction to plumbing, lighting, acoustics, and other auxiliary systems that impact the Creating-Making of the built environment. These systems are discussed in relation to issues of sustainability and human comfort. Codes and standards that effect building design will be introduced and discussed. (F)
- ARCH 4663 Methods VI- Urban Design Methodologies 3 Credit Hours**
(Slashlisted with ARCH 5663). Prerequisites: ARCH 4563, ARCH 3556, ARCH 4233, ARCH 4453 with a grade of C or better. Co-requisites: ARCH 3656, ARCH 4543 or permission of program director. Provides an introduction to urban design, an overview of its history, and a cross section of contemporary strategies to effect desired urban design conditions. The course content may support design work developed in studios of the architecture curriculum. Students may not earn credit for both 4663 and 5663. (Sp)
- ARCH 4713 Real Estate Fundamentals 3 Credit Hours**
(Slashlisted with ARCH 5713) Prerequisite: Junior Standing. This course is the first part of a two-course series providing an introductory survey of real estate development in terms of terminology, data, and the players, parties, and processes involved from both theoretical and practical perspectives. This course, Real Estate I, is intended to provide students with a fundamental understanding of real property's role in the creation of cities. No student may earn credit for both 4713 and 5713. (F)
- ARCH 4723 Methods VII - Advanced Systems 3 Credit Hours**
(Slashlisted with ARCH 5723) Prerequisites: ARCH 4543, ARCH 4663, ARCH 3656 with a grade of C or better. Co-requisites: ARCH 4756; or permission of director. Introduction to advanced issues of structure, building systems, sustainability, and integrated building management systems. Course material will develop advanced understanding of the theories and practices of these complex systems and their effects on the built environment. No student may earn credit for both 4723 and 5723. (F)

- ARCH 4743 Legal Framework for Design 3 Credit Hours**
(Slashlisted with ARCH 5743) Prerequisite: Junior standing or permission of instructor. The course covers the study of legal principles relevant to real estate and real-estate projects, and the business entities through which to conduct that business. No student may earn credit for both 4743 and 5743. (F)
- ARCH 4756 Design VII - Systems and Context 6 Credit Hours**
Prerequisites: ARCH 4543, ARCH 4663, ARCH 3656 with a grade of C or better. Co-requisites: ARCH 4723; or permission of director. This capstone course emphasizes the relationship of schematic design to contract documents through a broad exploration of structural, mechanical, electrical, plumbing, and other buildings systems. It builds on the fundamental issues of place, order, form, structure, site and programming. It is also dedicated to developing interdisciplinary and collaborative skills through team-based projects and other small group exercises. (F) [V].
- ARCH 4783 Architectural Acoustics 3 Credit Hours**
(Slashlisted with ARCH 5783) Prerequisite: 3rd, 4th or 5th year student in the College of Architecture. Focuses primarily on the nature of architectural acoustics based on material choices, surface arrangement, and the overall shaping of space to promote natural acoustics. There will also be some discussion concerning natural lighting and how design decisions for lighting and acoustics can work in unison. Students may not earn credit for both 4783 and 5783. (Irreg.)
- ARCH 4813 Real Estate Development 3 Credit Hours**
(Slashlisted with ARCH 5813) Prerequisite: Junior Standing. The course is the second part of a two-course series providing an introductory survey of real estate development in terms of terminology, data, and the players, parties, and processes involved from both theoretical and practical perspectives. This course, Real Estate II, is intended to provide students with an understanding of the development process from beginning to end. No student may earn credit for both 4813 and 5813. (Sp)
- ARCH 4923 Methods IX- Entrepreneurial Architect and Leadership 3 Credit Hours**
(Slashlisted with ARCH 5923) Prerequisites: ARCH 4723, ARCH 4756, ARCH 4333 with a grade of C or better. Co-requisites: ARCH 4956; or permission of director. Explores finance and leadership issues that currently confront the development, design, and construction industries. Expertise and decision-making capabilities will be explored. No student may earn credit for both 4923 and 5923. (F)
- ARCH G4940 Field Work 1-4 Credit Hours**
1 to 4 hours. Prerequisite: senior standing and permission of instructor. Field study related to the student's area of interest in a position approved by the instructor. One hour credit per 120 hours of field work or equivalent. Documentation and evaluation is required. (F, Sp, Su)
- ARCH 4956 Design IX- Options Studio I 6 Credit Hours**
Prerequisite: ARCH 4723, ARCH 4756, ARCH 4333 with a grade of C or better. This course addresses advanced aspects of architectural design. It focuses on the development of analytical and methodological aspects of the design process, including but not limited to problem formulation, design representation and decision-making. Projects investigate a number of issues ranging from socio-economic, demographic, spatial justice, equity and environmental challenges, among others. (F)
- ARCH 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: senior standing and permission of instructor. May be repeated with change of subject; maximum credit 12 hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (F, Sp, Su)
- ARCH G4970 General Departmental Seminar 1-6 Credit Hours**
1 to 6 hours. Prerequisite: senior or graduate standing, or permission of instructor. May be repeated with change of content. Special topics in architecture. (F, Sp, Su)
- ARCH 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: four courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- ARCH 5053 Methods X - Tools of Practice 3 Credit Hours**
(Slashlisted with ARCH 4053) Prerequisites: Program admission or permission of graduate liaison. Explores issues in contemporary architectural practice including the role of the client, contracts, practice and project management, leadership skills, legal responsibilities, and ethics. Emphasis is placed upon issues of cultural and environmental sustainability, political activism, and the changing role of the architecture profession. The course contains program specific research and support related to studio projects. No student may earn credit for both 4053 and 5053. (Sp)
- ARCH 5055 Design X - Comprehensive Architecture II 5 Credit Hours**
Prerequisite: ARCH 5922, ARCH 5955, or permission of graduate liaison. Corequisite: 5022. A continuation of ARCH 5955. Students are expected to further develop their project to a level of Design Development and limited Construction Detailing. The course encourages the continued exploration, speculation, and experimental innovation begun in Design IX extended into materials detailing, construction methods, mechanical systems, and creative spatial and aesthetic development. Component and assembly prototyping and performance modeling are included. (Sp)
- ARCH 5143 Architectural History 3 Credit Hours**
Prerequisite: Program admission or permission of graduate liaison. A theoretical investigation of the cultural, political, and aesthetic values of diverse Western and non-Western cultures and how these affect the built environment. This course continues the development of critical writing skills and further develops analytic skills that act to inform design decisions related to studio projects. (F)
- ARCH 5160 Internship 0 Credit Hours**
(Slashlisted with ARCH 4160) Prerequisite: Program admission or permission of graduate liaison. This internship requirement corresponds with the National Council of Architectural Registration Boards Internship Development Program (IDP) and provides students with experience in an architecture office or in a related field. Students must follow the Division's Internship Program Guidelines in order to verify the appropriate experience is gained and documented. No student may earn credit for both 4160 and 5160. (F, Sp, Su)
- ARCH 5161 Co-Op: Cooperative Education Experience 1 Credit Hour**
(Slashlisted with ARCH 4161) Prerequisite: Graduate standing. The purpose of this Cooperative Education Program is to provide students with an actual office practice experience prior to graduation. The student is ideally exposed to a broad range of areas, such as construction documents, marketing, office practice, business management, client reviews, construction administration, and a host of other daily activities that may be possible while working in host firms. No student may earn credit for both 4161 and 5161.
- ARCH 5183 Survey of Middle Eastern Architecture 3 Credit Hours**
(Slashlisted with 4183) Prerequisite: Graduate standing or permission of instructor. Survey of Middle Eastern architecture and the impact architects and architecture from this time and region had upon the advancement of environmental/urban design throughout the rest of history. No student may earn credit for both 4183 and 5183. (Irreg.)

- ARCH 5193 Architectural Structures I 3 Credit Hours**
(Slashlisted with ARCH 4193) Prerequisite: graduate standing and majors only; or permission of graduate liaison. An introduction to basic physics, forces within structural systems, material strength, and associated structural engineering principles. Develops both intuitive and empirical knowledge of forces within structural systems that serve as a foundation for future courses within the Structures sequence. No student may earn credit for both 4193 and 5193. (Sp)
- ARCH 5233 Architectural Structures II 3 Credit Hours**
(Slashlisted with ARCH 4233) Prerequisite: Program admission or permission of graduate liaison. Focus is on wood, concrete, and steel as structural materials. Material properties, common manufactured systems, common material sections, and common connection types will be explored with students demonstrating the ability to develop technical details related to various structural systems. No student may earn credit for both 4233 and 5233. (F)
- ARCH 5283 Persian Architecture 3 Credit Hours**
(Slashlisted with ARCH 4283) Prerequisite: graduate standing. The goal of the course is to guide students into an understanding of the important contributions that Persian Architecture has made to the built environment. This course provides a comprehensive history of ancient Iranian architecture and urbanism, from the first societies to the present. No student may earn credit for both 4283 and 5283. (Sp)
- ARCH 5333 Advanced Structures 3 Credit Hours**
(Slashlisted with ARCH 4333) Prerequisite: Program admission or permission of graduate liaison. Introduces design of structural members using reinforced concrete. It covers the structural concrete, loads, analyses of tension and compression members, bending design for beams, axial load design for columns, structural systems, and design of reinforced concrete buildings. Concrete structures as taught for architects emphasizes principles of design rather than formulaic calculations. It emphasizes learning through project based collaborations. No student may earn credit for both 4333 and 5333. (F)
- ARCH 5363 Methods III- Materials and Form 3 Credit Hours**
Prerequisite: Program admission or permission of graduate liaison. Introduction to the nature of building materials with regard to form, strength, durability, workability, structure, connections, surfaces, and edges. Analysis of architectural expression through the use of building materials including the effects of: light, air movement, humidity, and their relationships to both one another and formal and spatial expressions. (F)
- ARCH 5453 Modern and Contemporary Architecture 3 Credit Hours**
(Slashlisted with ARCH 4453) Prerequisite: Program admission or permission of graduate liaison. The course focus is on the relationship between architectural theories and projects during culture and the modern era. It considers how particular historical contexts shaped theories of design as well as how architects responded to the change. The course examines the relationship between the constructed environment and notions of modernity, developments in technology, building traditions, and politics. No student may earn credit for both 4453 and 5453. (F)
- ARCH 5463 Advanced Sustainable and Resilient Systems 3 Credit Hours**
Prerequisite: Graduate standing, ARCH 5363 and ARCH 5516 with a grade of C or better. Introduction to plumbing, lighting, acoustics, and other auxiliary systems that impact the Creating-Making of the built environment. These systems are discussed in relation to issues of sustainability and human comfort. Codes and standards that effect building design will be introduced and discussed. (Sp)
- ARCH 5493 Architecture of Democracy 3 Credit Hours**
(Slashlisted with ARCH 4493; Crosslisted with P SC 5493) Prerequisite: Graduate standing or permission of instructor. This course explores how space, place and values come together in public spaces by reviewing the evolution of architecture as it relates to human governance; introducing methods for assessing and designing physical space as an expression of human values; examining the social meaning and behavioral impact of spaces; and studying the expression of democratic values in public spaces. No student may earn credit for both 4493 and 5493. (Irreg.)
- ARCH 5513 Creativity Through Sketching 3 Credit Hours**
(Slashlisted with ARCH 4513) Prerequisite: Graduate standing or instructor permission. This course teaches students how to express themselves creatively through sketching. Students receive instruction and assignments tailored to help them learn basic sketching techniques with the aim of developing their own expressive means of communicating through sketching. No student may earn credit for both 4513 and 5513. (F)
- ARCH 5516 Graduate Architectural Design I 6 Credit Hours**
Prerequisite: Program admission or permission of the graduate liaison. Introduces projects of moderate complexities demonstrating intermediate design principles within the context of the built environment. Application of both physical and virtual communication skills as professional techniques of representation and communication are required. (F)
- ARCH 5526 Graduate Architectural Design II 6 Credit Hours**
Prerequisite: Program admission or permission of graduate liaison. Continuation of ARCH 5126 with an introduction to passive and active forms of lighting, acoustics, conveyance systems, and electrical systems. An emphasis will be placed on the relation between these auxiliary building systems and Creating-Making. Issues of sustainability including environmental impacts, resource utilization, ethical resource efficiencies and performance-based design will be related to concepts of Creating-Making. Codes and standards that effect the built environment will be explored. (Sp)
- ARCH 5536 Graduate Architectural Design III 6 Credit Hours**
Prerequisite: Program admission or permission of graduate liaison. Emphasis is on the relationship of schematic design to contract documents in order to understand structural, mechanical, electrical, plumbing, and other systems within buildings. Students demonstrate an understanding of drafting conventions, the production of traditional contract documents, Building Information Modeling, and the communication of additional solutions necessary for construction. The course develops interdisciplinary and collaborative skills through team projects. (F) [V].
- ARCH 5543 Architectural Theory and Criticism 3 Credit Hours**
(Slashlisted with ARCH 4543) Prerequisite: Program admission or permission of graduate liaison. The development of research and academic writing in an urban and architectural context. Development of critical and analytical writing skills through the use of original research and/or analysis term papers. Topics may range from periods, politics, technology, economics, religion, gender, and culture. Open to non-architecture majors to encourage interdisciplinary research/writing. No student may earn credit for both 4543 and 5543. (Sp)

ARCH 5546 Graduate Architectural Design IV 6 Credit Hours

Prerequisite: Program admission or permission of graduate liaison. Emphasis is on the development of a complete project from schematic design through design development and construction detailing. Students will develop a building of limited programmatic complexity through more complete technical development. The application of Building Information Modeling software will be required. This course addresses and builds upon the collaborative and analytic knowledge developed in ARCH 5423. (Sp)

ARCH 5663 Methods VI- Urban Design Methodologies 3 Credit Hours

(Slashlisted with ARCH 4663) Pre-requisites: Program admission or permission of graduate liaison. Provides an introduction to urban design, an overview of its history and a cross section of contemporary strategies to effect desired urban design conditions. The course content may support design work developed in studios of the architecture curriculum. No student may earn credit for both 4663 and 5663. (Sp)

ARCH 5713 Real Estate Fundamentals 3 Credit Hours

(Slashlisted with ARCH 4713) Prerequisite: Graduate standing or permission of instructor. This course is the first of a two-course series providing an introductory survey of real estate development in terms of terminology, data, and the players, parties, and processes involved from both theoretical and practical perspectives. The course is intended to provide students with a fundamental understanding of real property's role in the creation of cities. No student may earn credit for both 4713 and 5713. (F)

ARCH 5723 Methods VII-Advanced Systems 3 Credit Hours

(Slashlisted with ARCH 4723) Prerequisite: Program admission or permission of graduate liaison. This course introduces students to advanced issues of structure, building systems, sustainability, and integrated building management systems. Course material will develop advanced understanding of the theories and practices of these complex systems and their effects on the built environment. No student may earn credit for both 4723 and 5723. (F)

ARCH 5743 Legal Framework for Design 3 Credit Hours

(Slashlisted with ARCH 4743) Prerequisite: Graduate standing or permission of instructor. The course covers the study of legal principles relevant to real estate, real estate projects, and the business entities through which to conduct that business. No student may earn credit for both 4743 and 5743. (F)

ARCH 5763 Landscape Architecture for Architects 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. Analysis and organization of the site together with the use of plant materials in landscape design. (Sp)

ARCH 5783 Architectural Acoustics 3 Credit Hours

(Slashlisted with ARCH 4783) Prerequisite: Graduate standing and permission of instructor. Focuses primarily on the nature of architectural acoustics based on material choices, surface arrangement, and the overall shaping of space to promote natural acoustics. There will also be some discussion concerning natural lighting and how design decisions for lighting and acoustics can work in unison. Students may not earn credit for both 4783 and 5783. (Irreg.)

ARCH 5812 Human Centric Design: Equity and Comfort 2 Credit Hours

Prerequisite: Graduate standing and majors only. An introduction to environmental justice, including stakeholders and community engagement. A survey of how human comfort metrics intersect with site and climate. Introduces systemic issues associated with equity in the built environment and indigenous approaches. (F, Sp, Su)

ARCH 5813 Real Estate Development 3 Credit Hours

(Slashlisted with ARCH 4813) Prerequisite: Graduate standing or permission of the instructor. The course provides an introductory survey of real estate development in terms of terminology, data, and the players, parties, and processes involved from both theoretical and practical perspectives. This course is intended to provide students with an understanding of the development process from beginning to end. No student may earn credit for both 4813 and 5813. (Sp)

ARCH 5822 Foundations of Building Physics and Analysis 2 Credit Hours

Prerequisite: Graduate standing and majors only. An introduction to topics in building physics including indoor and outdoor climate, passive technologies, daylighting, water issues, psychrometrics, and heat transfer. Explores the scientific method and application with building performance analysis, simple software-based calculations used to evaluate designs and construction against codes and standards. Explores connections between site and sustainable building metrics, Zero Tool, and AIA Framework for Design Excellence. (F, Sp, Su)

ARCH 5832 Introduction to Building Performance Analysis 2 Credit Hours

Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. An introduction to metrics for evaluating building performance and tools for evaluation. Explores performance targets such as the Architecture 2030 Challenge. Examines pre- and post-occupancy performance analysis tools, equipment, and methods. Introduces software such as Cove Tools, Autodesk Insight, and Sefaira. (F, Sp)

ARCH 5842 Introduction to Research Methods for Analysis 2 Credit Hours

Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. An introduction to design research methods. Examines the application of quantitative and qualitative research methods to research questions in architecture and urban design from pre-design to post-occupancy evaluation. Explores the practice of evidence-based design. (F, Sp)

ARCH 5852 Sustainable Design and BIM Workflows 2 Credit Hours

Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. An introduction to Building Information Modeling (BIM) sustainable design workflows. Explores how designers, engineers, and contractors collaborate through BIM to reach sustainable design goals. Examines how BIM can be used to drive sustainable design and decision-making in theory and practice. (F, Sp)

ARCH 5862 Sustainable Urban Design 2 Credit Hours

Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. An introduction to sustainable urban design principles and practices. Explores Geographic Information System (GIS) tools and EPA databases such as the TRI Explorer as they relate to sustainable urbanism, real estate, and equity. Introduces the Ecodistrict Accredited Professional program. (F, Sp)

ARCH 5863 Methods VIII-Building Performance Analytics 3 Credit Hours

Prerequisite: Graduate standing in Architecture, ARCH 5723, and ARCH 5536; corequisite, ARCH 5546; or permission of graduate liaison. Advanced level course investigating contemporary theories and practices of sustainable and resilient design. Case studies are used to examine the connections between theories and practices particularly with regard to circular economies, and life cycle costs. (Sp)

- ARCH 5872 LEED GA Exam 2 Credit Hours**
Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. An introduction to the US Green Building Council Leadership in Energy and Environmental Design (LEED) program. Examines how buildings can be designed and operated to reduce energy consumption, protect resources and promote health through the LEED program. Prepares students for taking the LEED Green Associate Exam. (F, Sp)
- ARCH 5882 WELL AP Exam 2 Credit Hours**
Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. An introduction to the theory and practices associated with WELL Building Standard. Explores the research on human health and the design of the built environment that forms the foundation for the WELL building program. Prepares students for taking the WELL Accredited Professional exam. (F, Sp)
- ARCH 5892 LCCA and the Circular Economy 2 Credit Hours**
Prerequisite: Graduate standing; ARCH 5842; majors only. Introduction to Life Cycle Cost Accounting (LCCA) and the Circular Economy. Explores the economic history, basic theory, and practices associated with LCCA. Examines connections between performative building design evaluations and sustainability's three "E's": Environment, Equity, and Economic factors. Considers the role of the architect in a global context and their interdisciplinary impact on sustainability. (F, Sp)
- ARCH 5902 Building Operations Management 2 Credit Hours**
Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. This course will explore the Rocky Mountain Institute (RMI) "NZE Leasing Best Practice Guide" and ULI's "Blueprint for Green Real Estate" including the steps of how to write and negotiate an NZE lease with elements that include energy budgets, building dashboards, recommissioning, green building financing models, and BIM-enabled digital twins. (F, Sp)
- ARCH 5912 Sustainable Design Case Studies 2 Credit Hours**
Prerequisite: Graduate standing; ARCH 5842; majors only. Explores the realities of building impacts on the environment through sustainable design case studies. Introduces the case study method of analysis using the AIA Framework for Design Excellence. Introduces tools and methods for undertaking case study analysis of built works. (F, Sp)
- ARCH 5923 Methods IX - Entrepreneurial Architect and Leadership 3 Credit Hours**
(Slashlisted with ARCH 4923) Prerequisites: Program admission or permission of graduate liaison. Explores finance and leadership issues that currently confront the development, design, and construction industries. Expertise and decision-making capabilities will be explored. No student may earn credit for both 4923 and 5923. (F)
- ARCH 5932 Sustainable Design Literature Reviews 2 Credit Hours**
Prerequisite: Graduate standing; ARCH 5912; majors only. Introduces literature reviews in the context of architectural research questions. Explores design research methods and process through a review of existing literature on a topic. Develops an understanding of how to identify gaps in existing knowledge. (F, Sp)
- ARCH 5942 Case Study Research 2 Credit Hours**
Prerequisite: Graduate standing; ARCH 5932; majors only. Explores examples of sustainable building design and construction through case study analysis following the American Institute of Architects case study format. Provides an opportunity for individual research project development. Includes consideration of sustainable design standards such as LEED and/or WELL. (F, Sp)
- ARCH 5952 Comprehensive Exam 2 Credit Hours**
Prerequisite: Graduate standing; ARCH 5882 and ARCH 5892; majors only. This course prepares students to take the Comprehensive Examination, given at the end of the course, demonstrating: 1) their experience in secondary research in their area of program concentration; 2) their knowledge of the areas and subareas of the discipline and their position relative to these areas; and (3) their pedagogical knowledge, techniques and literature. (F, Sp, Su)
- ARCH 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: fifth year or graduate standing in architecture and permission of instructor. May be repeated with change of subject; maximum credit nine hours. Studies in major field as approved by instructor. (F, Sp, Su)
- ARCH 5962 Case Study Development and Presentation 2 Credit Hours**
Prerequisite: Graduate standing; ARCH 5942; majors only. Building on ARCH 5942, case studies are developed through peer reviews and presentations. Publication venues are investigated. (F, Sp)
- ARCH 5970 General Departmental Seminar 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Advanced professional topics in architecture, construction science, urban design or environmental design. Lectures, team and individual assignments. (F)
- ARCH 5980 Research for Master's Thesis 2-9 Credit Hours**
Prerequisite: Graduate standing. Variable enrollment, two to nine hours; Laboratory (F, Sp, Su)
- ARCH 5990 Special Studies in Architecture 1-6 Credit Hours**
1 to 6 hours. Prerequisite: fifth year or graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Subject as assigned by instructor will be explored in depth. Documentation and presentation varies with nature of problem. Laboratory (Sp, Su)
- ARCH 6056 Design X- Comprehensive Architecture II 6 Credit Hours**
Prerequisite: Graduate standing and ARCH 6956, or permission of graduate liaison. This course is a continuation of ARCH 6956. Analytical and methodological aspects of the design process introduced in the Fall are reinforced in the context of individual architectural projects. Schematic design alternatives developed at the end of ARCH 6956 will be developed. Fundamental issues of form, order, site, program, and building systems integration are developed for the final project. (Sp)
- ARCH 6156 Graduate Studio I 6 Credit Hours**
Prerequisite: Permission of graduate liaison. The class introduces fundamental design and visual communication skills through the use of material, formal, and spatial properties of architecture. Fabrication safety, craft, and techniques will be introduced and developed through the making. Ideas involving creating-making are explored through exercises in the formal, spatial and material qualities of human environments. (Su)
- ARCH 6590 Professional Project Research 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. Research and development on subjects related to the professional project in architectural studies, architectural technology, historic preservation, urban design or other approved topics. (F, Sp, Su)
- ARCH 6643 Urban Design Theory 3 Credit Hours**
(Crosslisted with L A 6643 and RCPL 6643) Prerequisite: graduate standing. A survey of theory relevant to the urban design process, including social and behavioral concepts, visual and aesthetic theory, spatial and geographic factors of urban form. (Sp)

ARCH 6680 Urban Design Studio 1-6 Credit Hours

1 to 6 hours. Prerequisite: graduate standing. May be repeated with different content; maximum credit six hours. The course involves advanced architectural design projects with an emphasis in architectural studies, architectural technology, historic preservation, urban design, or other approved topics. Laboratory. (F, Sp)

ARCH 6690 Professional Project 1-6 Credit Hours

1 to 6 hours. Prerequisite: 5595 or 6680. May be repeated; maximum credit six hours. A terminal professional project demonstrating comprehensive understanding and integrative capabilities in architectural studies, architectural technology, historic preservation, urban design or other approved topics. Laboratory (F, Sp, Su)

ARCH 6956 Design IX- Comprehensive Architecture I 6 Credit Hours

Prerequisite: Program admission or permission of graduate liaison. This is the first of a two-semester sequence that concludes with ARCH 6056. The course encourages innovative exploration, analysis, speculation, and experimentation in developing schematic proposals. Building design concepts will consider attitudes towards ethical, environmental, site, sustainable, social, financial, material, and historical issues within the built environment and the program's Creating-Making curriculum. (F)

ARCH 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

ARCH 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

ARCH 6990 Special Studies in Architecture 1-6 Credit Hours

1 to 6 hours. Prerequisite: graduate standing. May be repeated; maximum credit 12 hours. The candidate will thoroughly explore the particular phase of architecture selected for advanced study by the student and the graduate committee; presentation of the work will be determined by the nature of the contribution. Laboratory (F, Sp, Su)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Boeck	David	L	2006	ASSOCIATE PROFESSOR OF ARCHITECTURE, 2006	B Arch, Univ of Oklahoma, 1979; M Arch, Univ of Oklahoma, 1979; B Env Design, Univ of Oklahoma, 1978
Bozorgi	Khosrow		2000	PROFESSOR OF ARCHITECTURE, 2006; FARZANEH FAMILY PRESIDENTIAL PROFESSOR IN IRANIAN ARCHITECTURE AND CULTURE, 2015	PhD, Univ of Pennsylvania, 1987; M Arch, Natl Univ of Iran, 1977; B Arch, Natl Univ of Iran, 1973

Butko	Daniel	J	2010	ASSOCIATE PROFESSOR OF ARCHITECTURE, 2016; ACADEMIC ASSOCIATE DIRECTOR, ARCHITECTURE, 2018	MS, Univ of Florida, 2005; BS, Univ of Florida, 1998
Butzer	Hans	E	2000	CARLISLE AND LURLINE MABREY PRESIDENTIAL PROFESSOR, 2010; PROFESSOR OF ARCHITECTURE, 2013; A. BLAINE IMEL, JR. PROFESSOR OF ARCHITECTURE, 2013	M Arch, Harvard Univ, 1999; B Arch, Univ of Texas, 1990
Callahan	Marjorie	P	2000	ASSOCIATE PROFESSOR OF ARCHITECTURE, 2007; GRADUATE LIAISON, DIVISION OF ARCHITECTURE, 2014	MS, Univ of Massachusetts, 1990; B Arch Univ of Oklahoma, 1995; BA, Mills College, 1977
Callahan	Sam	E	2008	LECTURER, 2015	B Arch, Univ of Oklahoma, MS Architecture, Univ of Oklahoma
Cavieres Pinilla	Andres	F	2015	ASSOCIATE PROFESSOR OF ARCHITECTURE, 2022	PhD, Arch Georgia Institute of Technology, MS. Arch, Georgia Institute of Technology, Prof. Degree, Univ of Chile, 2002; BA, Univ of Chile, 2000
Cianfarani	Francesco		2017	ASSISTANT PROFESSOR, 2020	School of Architecture Valle Giulia, Sapienza Univ of Rome, Italy Doctor in Architecture, Degree Course in EU Architecture
Cricchio	Anthony	J	2008	ASSOCIATE PROFESSOR OF ARCHITECTURE, 2014	M Arch, Univ of Texas Arlington, 1995; BS Arch, Univ of Texas At Arlington, 1993
Fithian	Lee	A	2005	ASSOCIATE PROFESSOR OF ARCHITECTURE, 2011; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2011	PhD, Univ of Oklahoma 2018; M Arch, Univ of Oklahoma, 1998; BS, Univ of Oklahoma, 1986; BS Engr, Univ of Oklahoma, 1984

Frantz	Ronald	H	2011	ASSOCIATE PROFESSOR OF ARCHITECTURE, 2011; WICK CARY PROFESSOR OF THE INSTITUTE FOR QUALITY COMMUNITIES, 2011; DIRECTOR, SMALL TOWN STUDIOS, INSTITUTE FOR QUALITY COMMUNITIES, 2011; COORDINATOR, BACHELOR OF SCIENCE IN ENVIRONMENTAL DESIGN PROGRAM, 2013	MS, Tulane Univ, 2004; BS, Tulane Univ, 1981
Hampton	Shane	R	2013	WICK CARY PROFESSOR OF THE INSTITUTE FOR QUALITY COMMUNITIES, 2016; DIRECTOR, INSTITUTE FOR QUALITY COMMUNITIES, 2016; ADJUNCT INSTRUCTOR OF ARCHITECTURE, 2014; RESEARCH ASSOCIATE OF THE INSTITUTE FOR QUALITY COMMUNITIES, 2013; INSTRUCTOR, ENVIRONMENTAL DESIGN	MA, Univ of Oklahoma, 2013; BA, Univ of Oklahoma, 2011
Hwang	Youngjin		2022	ASSISTANT PROFESSOR, 2022	PhD. Architectural Science, Rensselaer Polytechnic Institute, M. EBD Univ of Pennsylvania, MA, Hanyang Univ, BA, Hanyang Univ
Leveno	Amy		2021	ASSISTANT PROFESSOR, 2021	MArch, Univ of Texas at Austin, BS, Civil Engineering, Lehigh Univ, BA, Architecture Lehigh Univ
Liebermann	Wanda	K	2021	ASSISTANT PROFESSOR, 2021	Doctor of Design, Harvard Univ, MArch Univ of California Berkeley, BA, Architecture, Univ of California at Berkeley
Marold	Ken		2017	ASSISTANT PROFESSOR OF ARCHITECTURE, 2017	MA, Univ of New Mexico, 2008; BA, Roger Williams Univ, 1999
Morrey	Chris		2021	LECTURER, 2021	MFL, Sculpture, Univ of Missouri, BFA, Sculpture, Kansas City Art Institute
Peralta	Rene'		2022	LECTURER 2022	MS Arch, University of Oklahoma, BArch, New School of Architecture and Design

Person	Angela	M	2016	ASSOCIATE PROFESSOR, 2023	Ph.D., Geography MA, Museum Studies BS, Environmental Design, Minor in Geology; Univ of Oklahoma
Pilat	Stephanie	Z	2010	ASSOCIATE PROFESSOR OF ARCHITECTURE, 2016; EDITH KINNEY GAYLORD PRESIDENTIAL PROFESSOR, 2017; W. EDWIN BRYAN, JR. PROFESSORSHIP OF ARCHITECTURE, 2017	PhD, Univ of Michigan, 2009; MS, Univ of Michigan, 2002; B Arch, Univ of Cincinnati, 1999
Proietti	Tiziana		2021	ASSISTANT PROFESSOR, 2021	Ph.D., Department of Architecture of the Sapienza,
Richards	Deborah	A	2014	ASSISTANT PROFESSOR OF ARCHITECTURE, 2017	M Arch, Columbia Univ, 2009; BS Arch, Univ of Michigan, 2006
Schaefer	Shawn	M	2000	DIRECTOR, MASTERS OF ARCHITECTURE URBAN STUDIES PROGRAM AT TULSA, 2002; ASSOCIATE PROFESSOR OF ARCHITECTURE AT TULSA, 2012	M.Arch, Univ of Oklahoma, 1993; B.Arch, Univ of Oklahoma, 1990

A minimum grade of C is required in all major coursework. Completion of a university-approved minor or Division approved concentration is also required. All first year courses are to be completed before advancing to the second year unless otherwise approved by the Architecture Division Director.

Admission to the BARCH degree program is limited to students who are certified for degree candidacy and meet all prerequisites.

In the United States, most registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit professional degree programs in architecture offered by institutions with U.S. regional accreditation, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted an eight-year term, an eight-year term with conditions, or a two-year term of continuing accreditation, or a three-year term of initial accreditation, depending on the extent of its conformance with established education standards. Doctor of Architecture and Master of Architecture degree programs may require a non-accredited undergraduate degree in architecture for admission. However, the non-accredited degree is not, by itself, recognized as an accredited degree.

The University of Oklahoma, Division of Architecture offers the following NAAB-accredited degree programs: Bachelor of Architecture, 150 credits; Master of Architecture, 60 credits; Master of Architecture, 96 credits; and Accelerated Master of Architecture/Bachelor of Sciences in Architectural Studies, 168 credits. The next accreditation visit date for the University of Oklahoma is 2023.

Architectural Studies, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 3

Program Code: N045

The requirements for a minor must be completed concurrently with the major degree requirements. No minor may be added by completing courses after receiving the bachelor's degree.

- The minor is not intended to prepare a student for professional practice in the minor field.
- Required courses in the student's major cannot be used for the minor.

Required Courses

Students who declare a minor in Architecture must complete fifteen (15) hours from the list of courses below. One course must be taken at the upper-division level to complete the minor.

Code	Title	Credit Hours
ARCH 1112		
ARCH 1163	Methods I - Materiality of Place	3
ARCH 1153		
ARCH 1263	Methods II - Pattern of Architecture	3

¹ Open Elective (6 hours)—Any open elective hours are the student's choice but **may not** include architecture courses.

² Required upper-division Gen. Ed. course outside of the student's major.

³ Research Elective (15 hours)—student choice of graduate courses in architecture or related discipline.

⁴ ARCH 4723 can be substituted for ARCH 5723. Students must take ARCH 5723 in order to share hours with the graduate degree.

⁵ ARCH 4756 can be substituted for ARCH 5536. Students must take ARCH 5536 in order to share hours with the graduate degree.

⁶ Shared courses (12 hours): ARCH 5723, ARCH 5536, and ARCH 5543.

Architecture via Non-Architecture Bachelor's Degree, M. Arch.

Minimum Total Hours (Non-Thesis): 96

Program Code: M047

In the United States, most registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit professional degree programs in architecture offered by institutions with U.S. regional accreditation, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted an eight-year term, an eight-year term with conditions, or a two-year term of continuing accreditation, or a three-year term of initial accreditation, depending on the extent of its conformance with established education standards. Doctor of Architecture and Master of Architecture degree programs may require a non-accredited undergraduate degree in architecture for admission. However, the non-accredited degree is not, by itself, recognized as an accredited degree.

The University of Oklahoma, Division of Architecture offers the following NAAB-accredited degree programs: Bachelor of Architecture, 150 credits; Master of Architecture, 60 credits; Master of Architecture, 96 credits; and Accelerated Master of Architecture/Bachelor of Sciences in Architectural Studies, 168 credits. The next accreditation visit date for the University of Oklahoma is 2023.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Architecture via Architecture Bachelor's Degree, M. Arch.

Minimum Total Hours (Non-Thesis): 60

Program Code: M046

In the United States, most registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit professional degree programs in architecture offered by institutions with U.S. regional accreditation, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted an eight-year term, an eight-year term with conditions, or a two-year term of continuing accreditation, or a three-year term of initial accreditation, depending on the extent of its conformance with established education standards. General Information

Accredited by the ACCE (American Council of Construction Education), the Construction Science program leverages courses in Construction Science, Architecture, and Business to educate the future managers of the construction industry. Students obtaining a Construction Science degree pursue management careers in a wide variety of occupations across the construction industry. The curriculum prepares students to manage the skilled trades and craftsmen on the job site, and to collaborate with architects, engineers, owners, and other professionals required by the complexities of construction projects.

Emphasis throughout the curriculum is placed on developing students' communication skills, understanding of the technical aspects of construction and the construction process, and the application of information technology to the construction industry. In addition to the academic curriculum, students are strongly encouraged to participate in the Construction Student Association (CSA) and the various student competitions available to Construction Science students. Since its inception, the Construction Science program has maintained a close partnership with the construction industry, and utilizes a Professional Advisory Board (PAB) made up of construction professionals representing the different segments of the construction industry. The PAB is an extremely important element in producing quality graduates who are in demand by employers.

Faculty

The faculty in the Construction Science program all have construction industry experience. Faculty members maintain close working relationships with industry through consulting work, participation in professional organizations, and maintaining active memberships in professional societies which represent their areas of expertise. Faculty members actively consult with construction companies, governmental agencies, architects and professional organizations both nationally and internationally. CNS faculty have received university, regional, and national teaching awards.

Programs & Facilities

Industry Engagement

The Haskell and Irene Lemon Division of Construction Science (CNS) prides itself on maintaining active relationships with the construction industry. The division's many partnerships with local and national construction firms facilitates students gaining first hand experience through internships as well as informal networking opportunities.

Career Fair

Every spring and fall semester, Construction Science hosts a career fair. This fair enables students at all levels to develop relationships with industry professionals while also seeking internships and full-time employment.

Competitions

We participate in various student competitions each year and have earned 34 top 3 finishes since 2011. These competitions are sponsored by professional organizations, including TEXO, The Associated Schools of Construction, the Design Build Institute of America, and the National Association of Home Builders.

Internships

Students are required to complete one internship the summer before their senior year, and are encouraged to complete additional internships.

Undergraduate Study

Bachelor of Science

The Bachelor of Science (p. 117) in Construction Science program requires a minimum of 120 credit hours, with a minimum grade point average of 2.50. Construction Science majors must earn a C or better in all CNS prefix courses.

Limitation Rules

Students pursuing the undergraduate degree in Construction Science must complete the degree program within a maximum of seven calendar years from the date of entry into the degree program.

Minor

Construction Science Minor (p. 119)

Undergraduate Certificate

Entrepreneurship & Real Estate Development (p. 120)

Graduate Study

Master of Science

The Master of Science in Construction Management, Special Studies (p. 120) or Thesis (p. 120) option, is designed to provide Construction Science graduates, as well as graduates from affiliated degrees, a more

in depth knowledge of the current trends in the construction industry. The program's flexibility allows students with limited construction experience to understand the current trends in the industry while providing the flexibility to students with construction experience to pursue a more in depth knowledge of their specific area of interest. Course content focuses on emerging construction trends, risk management, building information modeling, lean construction, and workforce issues in the construction industry. Courses are designed to develop technical and management skills using the following:

- In-class lectures and discussions
- Out-of-class meetings and discussions
- Construction case studies
- Individual and team projects
- Interaction with Industry members

Master of Construction Business (MCB)

The Master of Business Construction in Construction Management (p. 121) (MCB) is designed to provide students with knowledge and skills in executive business processes in the context of construction management. It is targeted at working professionals in the AEC industries, as an alternative to a generic MBA. This program equips students for leadership positions in the planning, design, and construction industry. The collaboration with Price College of Business adds to the diverse and meaningful educational experience for students.

Graduate Certificate

The Graduate Certificate in Construction Management (p. 121) adheres to the division's mission of providing students with a relevant and applied educational experience that prepares them to be successful in their professional careers. This certificate program is targeted towards students enrolled in graduate programs at OU to develop basic expertise in construction management. This certificate will impart the necessary information to any graduate to embark on a successful journey in construction related endeavors.

Courses

CNS 1111 Introduction to Construction Management 1 Credit Hour

An introduction to the concepts and issues related to construction management, as well as a description of the roles and careers available in the construction industry. (F)

CNS 1312 Computers in Construction Lab 2 Credit Hours

Prerequisite: Majors only and CNS 2833. Introductory course providing students with basic computer application knowledge relevant to the construction industry. (Sp)

CNS 2133 Introduction to Housing in America 3 Credit Hours

This course covers housing in America. It provides a background of the evolution of the American home, including regional and cultural influences, governmental housing policies, urban and suburban residential development, and construction materials and methods. (Sp) [IV-WC].

CNS 2303 Construction Industry Fundamentals 3 Credit Hours

Students will gain an understanding of the construction industry. A brief history of the industry, its different segments, stakeholders, roles, and characteristics are covered. Attention is paid to the general construction process and the documents used in construction (blueprints, specifications, and contracts). These concepts are foundational to subsequent construction management courses. (F, Sp, Su)

- CNS 2313 Construction Materials and Methods 3 Credit Hours**
Students will gain an understanding of the materials and methods commonly used in the construction of buildings and other projects. Topics include: sitework, concrete, masonry, metals, woods and plastics, thermal and moisture protection, openings, finishes, specialties, Equipment, Mechanical, Electrical, & Plumbing. (F, Sp, Su)
- CNS 2363 Materials and Form 3 Credit Hours**
(Crosslisted with ARCH 2363) Prerequisite: ARCH or CNS majors only. An introduction to the nature of building materials with regard to form, strength, durability, workability, structure connections, surfaces and edges. Analysis of architectural expression through the use of building materials including the effects of light, air movement, humidity, and their relationships to both one another and formal and spatial expressions. (F)
- CNS 2433 MEP Systems 1 3 Credit Hours**
Prerequisite: CNS 2833; majors only. The Mechanical Electrical & Plumbing (MEP) Systems course introduces theories, concepts, and their materials and methods. The course prepares construction science students to work closely with mechanical engineers and subcontractors. Design aspects of MEP systems are introduced, while the course is mainly focused on understanding MEP systems, their procurement and installation. (Sp)
- CNS 2811 Construction Fundamentals Lab 1 Credit Hour**
Prerequisite: CNS 1111 and CNS 2363; Corequisite: CNS 2813. Practical exercises reinforce material seen in CNS 2813 to improve students' understanding and ability to interpret construction drawings and specifications, use hands on techniques to understand actual installation of common materials and systems used in building construction. (F)
- CNS 2813 Construction Documents 3 Credit Hours**
Prerequisite: Majors only; CNS 1111 and CNS 2363; Corequisite (major only, not required for CNS minor): CNS 2811. Students will learn to read, find information, and interpret the drawings and specifications of typical construction projects. (F)
- CNS 2833 Materials and Methods for Construction 3 Credit Hours**
Prerequisite: CNS 1111 and CNS 2363; CNS majors only. Focuses on materials and methods used to construct a building from the roofed frame to flooring installation. Content includes exterior cladding, finishes, and waterproofing, exterior glazing systems, electrical, plumbing, and mechanical system installation basics, above the ceiling installation, interior walls and finishes, interior doors and hardware, dropped ceilings and flooring. (Sp)
- CNS 3103 Construction Surveying 3 Credit Hours**
Prerequisite: Majors only; junior standing; CNS 2813 and CNS 1312; Corequisite: CNS 3533. The purpose of this course is to acquaint the student with basic concepts of surveying and to provide practical training necessary for construction applications. (F)
- CNS 3303 Preconstruction Management 3 Credit Hours**
Prerequisite: CNS 2303 and CNS 2313 or permission of instructor. Students will gain a deeper understanding of the preconstruction management aspect of construction. Special attention will be paid to business development, delivery methods, contract types, negotiation, bidding documents, and preconstruction. Students will explore these concepts through the lens of real world case studies. (F, Sp, Su)
- CNS 3313 Applied Construction Project Management 3 Credit Hours**
Prerequisite: CNS 3303. Students will gain a deeper understanding of project management processes and procedures. The course will focus on documentation, project cost controls, trade coordination, permitting, risk management, safety management, different meeting requirements, and the differences between project management for a general contractor vs a specialty contractor. (F, Sp, Su)
- CNS 3323 Applied Construction Estimating & Scheduling 3 Credit Hours**
Prerequisite: CNS 3313. Students will gain a deeper understanding of cost estimating and scheduling processes. Through the study of contract documents and estimating practices, students will learn basic estimating skills, schedule concepts and strategies, and basic scheduling software. (F, Sp, Su)
- CNS 3333 Construction Efficiency 3 Credit Hours**
Prerequisite: CNS 3313. Students will gain a deeper understanding of construction efficiency as facilitated through the application of specialized software, technology, sustainability concepts, and management strategies. Students will use these various lenses during the course to explore opportunities for efficiency during the various phases of a construction project. (F, Sp, Su)
- CNS 3343 Communication and Personnel Management in Construction 3 Credit Hours**
Prerequisite: CNS 3313. Students will gain a deeper understanding of communication and personnel management in construction. Students will learn about technical communication, the difference between leadership and management, relationships between trades people and general contractor staff, ethics and personal behavior, resumes, LinkedIn, proposal presentations, and personal growth. (F, Sp, Su)
- CNS 3413 Construction Communication 3 Credit Hours**
Prerequisite: Majors only; Junior Standing; CNS 3533 and COMM 1113; Corequisite: CNS 3823. A communication course designed to focus on written, visual, and oral communication appropriate to the construction industry. The course will expand on the fundamentals of communication with specific instruction about the techniques and tools used to communicate with both internal and external team members. (Sp)
- CNS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- CNS 3443 MEP Systems 2 3 Credit Hours**
Prerequisite: Majors only; Junior Standing; CNS 2433; Corequisite: CNS 3533. This course builds on the theories, concepts, materials, and methods of mechanical, electrical, & Plumbing (MEP) systems students were introduced to in CNS 2433. The accumulated knowledge will be used to explore building science and coordination of MEP subcontractors. (F)
- CNS 3533 Construction Cost Estimating 3 Credit Hours**
Prerequisite: Majors only; Junior Standing; CNS 2813 and CNS 1312. In this course we will learn the basic foundations of the estimating process and about the different components of a construction project estimate. These include: quantity surveying, estimate organization, direct and indirect costs, cost database use, and bid preparation. Students will create cost estimates using manual and electronic take-off estimating software. (F)

- CNS 3543 Project Planning and Scheduling 3 Credit Hours**
Prerequisite: Majors only; Junior Standing; CNS 2813 and CNS 3533; Corequisite: CNS 3413. Students will learn about scheduling concepts in an integrated construction planning and control system. Students will gain knowledge about different scheduling techniques and computer applications employed to facilitate the scheduling process. Students will learn to create schedules using manual network computations and scheduling software. (Sp)
- CNS 3823 Project Management & Cost Controls 3 Credit Hours**
Prerequisite: Majors only; Junior Standing; CNS 3533; Corequisite: CNS 3543. Focuses on the management of a commercial building project after the contract is awarded. Content includes required project communication and documentation and setup and use of a cost accounting system to track and manage the project - including field productivity, work sequence, cost and profitability, payment and cash flow, schedule compression and updating change process and closeout. (Sp)
- CNS 3881 Construction Safety 1 Credit Hour**
Prerequisite: Majors only; Junior Standing; CNS 4941. Students will learn strategies and understand how construction managers proactively plan to ensure safety on an active job site, including the creation of a safety plan for a construction project. (F)
- CNS 3943 Field Work 3 Credit Hours**
Prerequisite: CNS major and permission. Utilize a construction work experience to prepare for construction management functions. Student is responsible for finding the construction-related activity and proposing a work-related project. Written and oral presentation is required. (F, Sp, Su)
- CNS 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- CNS 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- CNS 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- CNS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- CNS 4133 BIM for Constructors 3 Credit Hours**
(Slashlisted with CNS 5133) Prerequisite: Majors only; Senior Standing; CNS 3823; Corequisite: CNS 4523. This Building Information Modeling (BIM) course is designed for the construction professional. Students will gain knowledge about the concepts, core business processes, and software involved in a building information model. BIM is presented as a methodology and tool that provides for shared information across the facility's lifecycle. No student may earn credit for both 4133 and 5133. (F)
- CNS 4143 Legal Issues in Construction 3 Credit Hours**
(Slashlisted with CNS 5143) Prerequisite: Majors only, Senior Standing, and CNS 4523. An examination of current construction law as it pertains to the day-to-day management of the construction contract. Includes legal ramifications of construction bidding, contracts, changes, delays, and dispute resolution. Course emphasizes reduction of disputes through knowledge. No student may earn credit for both 4143 and 5143. (Sp)
- CNS 4193 Architectural Structures I 3 Credit Hours**
(Crosslisted with ARCH 4193) Prerequisite: Architecture major and completion of MATH 1523 and PHYS 1114 or Construction Science major and completion of PHYS 2414 and MATH 1523 or permission of the division director. An introduction to basic physics, forces within structural systems, material strength, and associated structural engineering principles. Develops both intuitive and empirical knowledge of forces with structural systems that serve as a foundation for future courses within the structures sequence. (Sp)
- CNS 4213 Design-Build Principles and Practices 3 Credit Hours**
(Slashlisted with CNS 5213) Prerequisites: 3rd, 4th or 5th year College of Architecture student or instructor permission. Introduces design and construction students to the principles and practices of design-build. Course is approved by the Design-Build Institute of America. Students who successfully complete core course requirements will earn credit for the professional designation as Associate DBIA Professional. Students may not earn credit for both 4213 and 5213. (Sp)
- CNS 4303 Lean Construction Management 3 Credit Hours**
(Slashlisted with 5303) Prerequisite: Junior standing; Majors only; Permission of instructor. (Slashlisted with CNS 5303.) Explores the lean concepts specifically tailored to the Architecture Engineering Construction (AEC) industry. Students will learn how lean concepts along with creative transformational thinking and technological advancement can improve and sustain performance in the construction industry. Students may not earn credit for both CNS 4303 and CNS 5303. (Sp) No student may earn credit for both 4303 and 5303. (Sp)
- CNS 4403 Leadership in the Construction Industry 3 Credit Hours**
(Slashlisted with 5403) Prerequisite: Permission of instructor. A study of leadership styles and best practices found in the Architecture, Engineering and Construction industries. The course is designed to educate students about individual, organizational and process/structural leadership. No student may earn credit for both 4403 and 5403. (Sp)
- CNS 4503 Residential Construction 3 Credit Hours**
(Slashlisted with CNS 5503) Prerequisite: Junior standing; CNS majors only or instructor approval. Examines the processes and stakeholders specific to residential property development, including predevelopment activities, feasibility analyses, project financing, and relevant regulatory frameworks. The course also covers material selection and installation practices specific to residential projects, as well as emerging trends in homebuilding and multifamily construction. No student may earn credit for both 4503 and 5503. (F)
- CNS 4512 Soils and Foundations 2 Credit Hours**
Prerequisite: Majors only, Senior Standing, and CNS 4193. Content includes identification and classification of soil properties as they pertain to a construction project, the role of the geotechnical engineer, soils reports, soil preparation, foundation design, soil testing, and the causes of building settlement. Practical exercises are emphasized. (F)

- CNS 4523 Pre-Construction Services 3 Credit Hours**
(Slashlisted with CNS 5523) Prerequisite: Majors only; Senior Standing; CNS 3533 and CNS 3543; Corequisite: CNS 4133. Pre-construction services provide owners with greater project clarity and expectations before their project begins while also aligning owners, designers, and contractors. This course covers the practices performed during pre-construction to increase project success from the owner's, designer's, and contractor's perspectives. Topics include: feasibility reports, budget development, value engineering, economics, risk management, QC, site management, and subcontractor procurement. No student may earn credit for both 4523 and 5523. (F)
- CNS 4603 Design + Build: Construction Lab 3 Credit Hours**
Prerequisite: Junior standing and permission of instructor. Design + Build: Construction Lab is a comprehensive, interdisciplinary, and hands-on learning experience. Serving a community partner, students analyze a conceptual design for cost effectiveness and constructability, then assist in developing construction drawings. Upon completing material investigation and systems analyses, students spend the majority of the semester constructing the project and undertake all activities leading to a completed facility. (Sp)
- CNS 4853 Heavy Civil Construction Project Management 3 Credit Hours**
(Slashlisted with CNS 5853) Prerequisite: Junior standing and majors only. This course is designed to familiarize students with the peculiarities of the heavy-civil construction industry, and to provide students with the analytical skills to compete for projects in that arena. Students will study projects which may include the construction of airports, highways, bridges, dams, tunnels, and similar heavy civil projects. No student may earn credit for both 4853 and 5853. (Sp)
- CNS 4941 Field Work (Internship) - Required 1 Credit Hour**
Prerequisite: Majors only; Junior Standing; CNS 3533; CNS 3413; CNS 3813; CNS 3823. Utilize a construction work experience to prepare for construction management functions and understand entry level roles in the construction industry. Students are responsible for securing a construction-related internship. Written and oral presentation are required. Students must work for 12 weeks and 480 hours. (Su)
- CNS 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: senior standing, permission. May be repeated with change of subject matter; maximum credit eight hours. Subjects proposed by students or instructors may be used to expand knowledge beyond the normal core construction curriculum. Verbal or written presentation may be required to demonstrate successful completion of a subject unit. (F, Sp, Su)
- CNS 4970 Undergraduate General Departmental Seminar 1-4 Credit Hours**
1 to 4 hours. Prerequisite: senior standing, permission. May be repeated with change of subject matter; maximum credit 12 hours. Special topics in construction science. (Irreg.)
- CNS 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- CNS 4993 Construction Science Capstone 3 Credit Hours**
Prerequisite: Majors only; Senior Standing; CNS 4133 and CNS 4523. The capstone course is the culmination of the Construction Science undergraduate experience. Students apply all aspects of the construction project management process in an integrated manner to a construction project. Class interaction requires participants to utilize and extend knowledge of all areas of expertise used by construction managers. Teamwork, interdisciplinary collaboration, and cooperation are required. (Sp) [V].
- CNS 5003 Construction Fundamentals I 3 Credit Hours**
Prerequisite: Graduate standing and majors only. Course will familiarize students with the basic foundations of construction management, including reading and understanding construction plans and specifications, implementing cost estimating techniques, and developing and manipulating project schedules as applied to design and construction project management. (F)
- CNS 5013 Construction Fundamentals II 3 Credit Hours**
Prerequisite: Graduate standing; CNS 5003 and CNS 5033. The course is designed to continue to familiarize students with the basic foundations of the project management and control mechanisms from the owner's, the designer's and the construction contractor's perspective. These concepts include terms, vocabulary, and paperwork used in the construction industry, as well as construction site safety and construction methods. (Sp)
- CNS 5023 Research Methods in Planning, Design and Construction 3 Credit Hours**
Prerequisite: graduate standing and majors only. Framework for understanding the processes, components, and methods of empirical research used in the design and evaluation of planning, design, and construction problems. Emphasis is on understanding the primary types of research methods, evaluating the pros and cons of each, and developing the skills necessary to identify research questions and ways to answer research questions. (Sp)
- CNS 5033 Applied Project Management 3 Credit Hours**
Prerequisite: Graduate standing and majors only. Course is designed to familiarize students with the fundamental processes to apply principles of financial management to managing a construction project. These concepts include document management strategies, cost accounting and control, and project closeout. (F)
- CNS 5133 BIM for Constructors 3 Credit Hours**
(Slashlisted with CNS 4133) Prerequisite: Graduate standing; majors only; CNS 5013. This Building Information Modeling (BIM) course is designed for the construction professional. Students will gain knowledge about the concepts, core business processes, and software involved in a building information model. BIM is presented as a methodology and a tool that provides for shared information across the facility's lifecycle. No student may earn credit for both 4133 and 5133. (F)
- CNS 5143 Legal Issues in Construction 3 Credit Hours**
(Slashlisted with CNS 4143) Prerequisite: Graduate standing and majors only. An examination of current construction law as it pertains to the day-to-day management of the construction contract. Includes legal ramifications of construction bidding, contracts, changes, delays, and dispute resolution. Course emphasizes reduction of disputes through knowledge. No student may earn credit for both 4143 and 5143. (Sp)

- CNS 5213 Design-Build Principles and Practices 3 Credit Hours**
(Slashlisted with CNS 4213) Prerequisite: Graduate standing and majors only, or departmental permission for non-majors. Introduces design and construction students to the principles and practices of design-build. Course is approved by the Design-Build Institute of America. Students who successfully complete core course requirements will earn credit for the professional designation as Associate DBIA Professional. No student may earn credit for both 4213 and 5213. (Sp)
- CNS 5303 Lean Construction Management 3 Credit Hours**
(Slashlisted with CNS 4303) Prerequisite: Graduate standing; majors only; and CNS 5013 or concurrent enrollment. Explores the lean concepts specifically tailored to the Architecture Engineering Construction (AEC) industry. Students will learn how lean concepts along with creative transformational thinking and technological advancement can improve and sustain performance in the construction industry. No student may earn credit for both 4303 and 5303. (Sp)
- CNS 5403 Leadership in the Construction Industry 3 Credit Hours**
(Slashlisted with CNS 4403) Prerequisite: Graduate standing; majors only. A study of leadership styles and best practices found in the architecture, engineering, and construction industries. The course is designed to educate students about individual, organizational, and process/structural leadership. No student may earn credit for both 4403 and 5403. (Sp)
- CNS 5503 Residential Construction 3 Credit Hours**
(Slashlisted with CNS 4503) Prerequisite: Graduate standing. Examines the processes and stakeholders specific to residential property development, including predevelopment activities, feasibility analyses, project financing, and relevant regulatory frameworks. The course also covers material selection and installation practices specific to residential projects, as well as emerging trends in homebuilding and multifamily construction. No student may earn credit for both 4503 and 5503. (F)
- CNS 5523 Pre-Construction Services 3 Credit Hours**
(Slashlisted with CNS 4523) Prerequisite: Graduate standing; majors only; and CNS 5013. Pre-construction services provide owners with greater project clarity and expectations before their project begins while also aligning owners, designers, and contractors. This course covers the practices performed during pre-construction to increase project success from the owner's, designer's, and contractor's perspectives. Topics include: feasibility reports, budget development, value engineering, economics, risk management, QC, site management, and subcontractor procurement. No student may earn credit for both 4523 and 5523. (F)
- CNS 5611 Introduction to Construction Management 1 Credit Hour**
Prerequisite: Graduate standing and majors only. The purpose of this course is to learn about the various facets of the design and construction industry and the role of the construction manager. Students will engage in workshops with faculty and industry professionals from diverse backgrounds to explore the variety of specialties within the industry. (F, Sp)
- CNS 5612 Construction Business Development 2 Credit Hours**
Prerequisite: Graduate standing and majors only. The purpose of this course is to explore strategies for connecting with potential clients, nurturing relationships with industry partners, developing proposals, and setting goals that will lead to company success. (Sp)
- CNS 5621 Construction Management Capstone 1 Credit Hour**
Prerequisite: Graduate standing and majors only. This course gives students the opportunity to apply all of the concepts and topics from the program and create a project plan and proposal. Students will work with industry professionals and with fellow classmates in the development of the final project. (F, Sp)
- CNS 5622 Lean Construction: Principles and Methodologies 2 Credit Hours**
Prerequisite: Graduate standing and majors only. The purpose of this course is to explore lean concepts as they are applied in the design and construction industry. Students will learn how to use creative thinking and available technologies to apply lean concepts to processes in the design and construction industry to foster sustained, improved performance. (F)
- CNS 5632 Leadership Principles in the Construction Industry 2 Credit Hours**
Prerequisite: Graduate standing and majors only. The purpose of this course is to explore leadership styles, techniques, and best practices and how they are applied in the design and construction industry. (Sp)
- CNS 5642 Advanced Construction Law 2 Credit Hours**
Prerequisite: Graduate standing and majors only. The purpose of this course is to examine construction law as it pertains to the management of the design and construction process. Students will examine the legal ramifications of construction bidding, contracts, performance, changes, delays, and dispute resolution. Students will learn how legal requirements impact the design and construction process beginning in the feasibility and financing phase through completion. (Su)
- CNS 5652 Experiential Learning in Design and Construction 2 Credit Hours**
Prerequisite: Graduate standing and majors only. In this course, students will connect with industry professionals in a variety of roles within the industry to learn how the different roles contribute to the design and construction process. Students will shadow the professionals in the workplace and work with classmates to develop a framework of how various key team members influence a project. (F)
- CNS 5853 Heavy Civil Construction Project Management 3 Credit Hours**
(Slashlisted with CNS 4853) Prerequisite: Graduate standing; majors only. This course will familiarize students with the challenges of the heavy-civil construction industry and give them the analytical tools to compete for projects in that area. Skills include unit price estimating, construction equipment, linear scheduling, and major components of the construction of highways, bridges, and engineered facilities. No student may earn credit for both 4853 and 5853. (Sp)
- CNS 5940 Construction Industry Practicum 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing, majors only, and permission of instructor. May be repeated with change of content; maximum credit 3 hours. Students will utilize construction work experience to prepare for construction management functions. Students will find an activity and propose a work-related project. (F, Sp, Su)
- CNS 5952 Special Studies Presentation 2 Credit Hours**
Prerequisite: permission of committee chair. May be repeated; maximum credit six hours. Completion of research for the required special studies project selected by the student and advisory committee. (Irreg.)
- CNS 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: Graduate standing, majors only, and permission of instructor. May be repeated with change of content; maximum credit 6 hours. Studies in major field as approved by the individual instructor. (F, Sp, Su)
- CNS 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and majors only. May be repeated with change of content; maximum credit 9 hours. Special topics or seminar course for content not currently offered in regularly-scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CNS 5980 Research for Master's Thesis 2-9 Credit Hours

2 to 9 hours. Prerequisite: Graduate standing and majors only. May be repeated; Maximum credit applicable toward degree, 5 hours. Production of Master's Thesis. (F, Sp, Su)

CNS 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

CNS 5993 Special Studies Research 3 Credit Hours

Prerequisite: Graduate standing and majors only. May be repeated with change of content; maximum credit 6 hours. Credit for applied research for the special studies project selected by the student and advisory committee. (Irreg.)

Construction Science, B.S.

Minimum Total Credit Hours: 120

Major Hours: 59

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.50

All Required Professional Courses GPA: 2.50

Program Code: B250

Major Requirements

- A minimum grade of C is required in all CNS courses.
- A minimum 2.50 OU and combined retention GPA is required for admission to Construction Science program. Admission is limited to the top 60 students with the required GPAs based on all courses listed in the first and second years. All of these courses must be completed before applying for admission to the junior year.
- CNS students are strongly encouraged to obtain a minor in Architecture, Business, or Communication.

Construction Science, Minor

Minimum Total Credit Hours: 19

Overall GPA - Combined and OU: 2.50

Program Code: N250

Enrollment in the minor in construction science program requires approval of the Director of the Construction Science Division. Students are admitted on a competitive basis, based on GPA and experience. **A minimum GPA of 2.5 is required to enter the minor and must be maintained to remain in the program and receive the minor.** For consideration to enter the program, this form must be completed and returned to the CNS academic adviser by April 1. Students will be notified of admission decisions by June 1.

The requirements for a minor must be completed concurrently with the major degree requirements. No minor may be added by completing courses after receiving the bachelor's degree.

- The minor is not intended to prepare a student for professional practice in construction.
- Required courses in the student's major cannot be used for the minor.

Required Courses

Code	Title	Credit Hours
CNS 1111	Introduction to Construction Management	1
CNS 2363	Materials and Form ¹	3
CNS 2813	Construction Documents	3
CNS 2833	Materials and Methods for Construction	3
Choose 9 hours from the following:		9
CNS 3103	Construction Surveying	
CNS 3943	Field Work	
CNS 4143	Legal Issues in Construction	
CNS 4213	Design-Build Principles and Practices	
CNS 4403	Leadership in the Construction Industry	
CNS 4503	Residential Construction	
CNS 4853	Heavy Civil Construction Project Management	
CNS 4193	Architectural Structures I (non-Architecture majors only)	
Total Credit Hours		19

¹ Architecture majors cannot use CNS 2363 for the minor because it is required major work. CNS 1312 and CNS 2811 are required as a substitution.

Minors are available to all undergraduate students at OU. If the minor is officially declared and approved, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Entrepreneurship & Real Estate Development, Undergraduate Certificate

Minimum Total Credit Hours: 15

Program Code: T155

The 15 credit-hour curriculum of the certificate program has been designed to be interdisciplinary and to provide students a broad perspective of the real estate development industry, with an emphasis on residential real estate.

Certificate Requirements

A minimum 2.5 overall GPA is required to complete the certificate.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

- A student who has done satisfactory graduate work and has earned a 3.0 grade point average may file for master's candidacy.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

General Information

The University of Oklahoma Division of Interior Design provides a student-centric learning environment with diverse faculty who emphasize excellence in design education, innovative research, and service to the community while preparing students to join the professional practice of interior design. The undergraduate program is accredited by the Council for Interior Design Accreditation. There are two graduate programs, including a Master of Science in Interior Design, Post Professional, and a Master of Science in Interior Design, First Professional. The disciplinary perspectives share a common pedagogy within the Christopher C. Gibbs College of Architecture divisions, engaging in creative and technical skills that prepare new graduates to solve problems related to global challenges facing the profession of Interior Design.

The Division of Interior Design recognizes the definition of a professional designer as the cornerstone of its philosophical underpinnings.

Interior design is a multi-faceted profession in which creative and technical solutions are applied within a structure to achieve a built interior environment. These solutions are functional, enhance the quality of life and culture of the occupants, and are aesthetically attractive. Designs are created in response to and coordinated with the building shell, and acknowledge the physical location and social context of the project. Designs must adhere to code and regulatory requirements, and encourage the principles of environmental sustainability. The interior design process follows a systematic and coordinated methodology, including research, analysis and integration of knowledge into the creative process, whereby the needs and resources of the client are satisfied to produce an interior space that fulfills the project goals.

Interior design includes a scope of services performed by a professional design practitioner, qualified by means of education, experience, and examination, to protect and enhance the life, health, safety and welfare of the public. These services may include any or all of the following tasks:

- Research and analysis of the client's goals and requirements; and development of documents, drawings and diagrams that outline those needs
- Formulation of preliminary space plans and two and three dimensional design concept studies and sketches that integrate the client's program needs and are based on knowledge of the principles of interior design and theories of human behavior
- Confirmation that preliminary space plans and design concepts are safe, functional, aesthetically appropriate, and meet all public health, safety and welfare requirements, including code, accessibility, environmental, and sustainability guidelines
- Selection of colors, materials and finishes to appropriately convey the design concept, and to meet sociopsychological, functional, maintenance, life-cycle performance, environmental, and safety requirements;
- Selection and specification of furniture, fixtures, equipment and millwork, including layout drawings and detailed product description; and provision of contract documentation to facilitate pricing, procurement and installation of furniture
- Provision of project management services, including preparation of project budgets and schedules;
- Preparation of construction documents, consisting of plans, elevations, details and specifications, to illustrate non-structural and/or non-seismic partition layouts; power and communications locations; reflected ceiling plans and lighting designs; materials and finishes; and furniture layouts
- Preparation of construction documents to adhere to regional building and fire codes, municipal codes, and any other jurisdictional statutes, regulations and guidelines applicable to the interior space
- Coordination and collaboration with other allied design professionals who may be retained to provide consulting services, including but not limited to architects; structural, mechanical and electrical engineers, and various specialty consultants
- Confirmation that construction documents for non-structural and/or non-seismic construction are signed and sealed by the responsible Interior Designer, as applicable to jurisdictional requirements for filing with code enforcement officials
- Administration of contract documents, bids and negotiations as the client's agent

- Observation and reporting on the implementation of projects while in progress and upon completion, as a representative of and on behalf of the client; and conducting post-occupancy evaluation reports

Learn more from the National Council for Interior Design Qualification at: www.ncidq.org

The basic principles and concepts of interior design guide our thinking and decision-making with regard to program content, delivery and evaluation. We direct our efforts toward the development of the entry level Interior Design professional, with capabilities in the enhancement of the function and quality of interior spaces. We promote an understanding of current practice within the broadest context of the interior architectural profession as well as within the southwestern culture specific to this region.

The program places value upon three distinct characteristics which embody the philosophy of the Interior Design program at OU:

- **Learning is centered around contemporary practice:** faculty bring significant practice experience which demonstrates advanced achievement in design management expertise beyond the project management levels of interior architectural design practice.
- **Learning is diverse and demonstrates a holistic approach to design problem-solving:** faculty and students are exposed to regional and international practices emphasizing resources, culture and tradition-based design. The program also addresses global considerations focusing on issues which reinforce the positioning of interior design for the future.
- **Learning is interdisciplinary:** the location of the Interior Design program within a college that shares teaching pedagogy across the disciplines of the built environment provides Interior Design faculty and students with an environment where team contributions are sought and disciplinary expertise is valued.

The mission of the Division of Interior Design is to provide a design education within a student-centric learning environment emphasizing excellence in education, research and service to the community.

The goals of the Interior Design program in the Christopher C. Gibbs College of Architecture reflect the program's location and resources and embrace change as a constant variable in the learning environment. The program strives to:

- prepare entry level Interior Designers to work effectively with professionals from other disciplines engaged in the planning, design and management of the built environment;
- engage Interior Design students in the exploration of design within broad cultural contexts, addressing both regional and international contributions to the design of the built environment while utilizing resources across and beyond the campus;
- integrate the expressive qualities embodied in the practice of interior design within the context of a technological learning environment;
- capitalize upon the design practice and design management expertise of the faculty by engaging students in effective and appropriate problem-solving experiences involving student-centered research of the built environment;
- challenge students by addressing contemporary and critical issues facing the profession;
- ensure adequate curricular flexibility to accommodate future change affecting interior design education throughout the duration of a four year program of study;

- preserve and enhance the development of problem-solving skills within a sequential studio sequence, continually expanding to encompass increasingly more complex concepts, skills, knowledge and application strategies; and,
- actively seek and promote the involvement of external organizations in collaborative partnerships, providing opportunities for students and faculty to engage in real life design experiences.

Special Programs and Facilities

An active Interior Design Student Association (IDSA) student chapter umbrella provides students with valuable interaction with members of the Interior Design profession while pursuing their degree. The International Interior Design Association (IIDA) and the American Society of Interior Designers (ASID) are two of the industry professional organizations aligned with IDSA. The IDSA student chapter sponsors field trips to designers' offices, significant design projects and sites in the region, furnishings markets, and trade shows. Students also participate in competitions in studio as well as through formal independent study opportunities. In addition, students travel to national professional meetings, undertake structured internship experiences, and work with real clients.

College and divisional seminars bring visiting scholars and noted professionals to the college to provide students with a broad understanding of the multi-disciplinary nature of the college and both international and national exposure to significant work in the built environment.

Design studios provide students with permanent work stations. A resource room and lighting lab with current manufacturers' catalogs, architecture and interior design samples, and technical data that provides students with design resource materials. The Christopher C. Gibbs College of Architecture maintains a shared computer lab with access 24 hours a day, seven days a week.

Undergraduate Study

Bachelor of Interior Design

The Bachelor of Interior Design (p. 129) program requires completion of a minimum of 120 semester hours distributed in general education, major, and elective courses.

Minors

- Interior Design Minor for Non-Architecture/Non-Visual Communication Majors (p. 131)
- Interior Design Minor for Architecture Majors (p. 130)
- Interior Design Minor for Visual Communication Majors (p. 131)

Curriculum Organization

The Interior Design curriculum combines the development of conceptual ideas – knowledge of art, architecture, craft, and manufacture that stimulates form-making and design with technical knowledge essential to the delivery of the interior built environment – while at the same time integrating the important tasks and rituals of individuals and groups.

A sequential core of professional courses and design studios are linked to University general education courses to prepare students for ever-changing conditions of practice and life. Sequential studio coursework is required in each semester from the environmental design foundation coursework through to the Interior Design capstone. The curriculum

enables interdisciplinary experiences with Architecture, Landscape Architecture, and Construction Science disciplines.

Graduate Study

The Master of Science in Interior Design First Professional (p. 132) option offers graduate education in Interior Design to students who do not have a previous professional degree in Interior Design or Architecture. The program reinforces the notion of collaboration and integrated practices in the built environment.

The Master of Science in Interior Design Post Professional (p. 132) option offers an opportunity for a graduate degree to students with an undergraduate degree in interior design or a related field.

Courses

I D 1134 Interior Design Communication Studio I 4 Credit Hours

Prerequisite: Majors only; Corequisite: I D 1164. The course is an introduction to the fundamentals of sketching, technical drawing, and rendering techniques, and their relationships to one another. Communication of design ideas is explored through the application of drafting and sketching techniques, including traditional media and digital tools such as the iPad. (F)

I D 1164 Interior Design Studio I 4 Credit Hours

Prerequisite: Majors only; corequisite: I D 1134. This studio course challenges students with the exploration of 2D and 3D design elements and principles. (F)

I D 1173 Foundations of Interior Design 3 Credit Hours

Contemporary exploration of the interior design profession as both a creative and problem-solving process. Emphasis on the elements and principles that define interior spaces, the design process and technical aspects of the interior design profession. Types of practices, professional registration, certifications, professional organizations and the integration of interior design with allied disciplines will be provide through project exploration. (F)

I D 1234 Interior Design Communication Studio II 4 Credit Hours

Prerequisite: ID 1134 and ID 1164; Corequisite: ID 1264; majors only. Introduction of computer applications in the professional practice of interior design. Software use for graphic communication of design and problem-solving solutions in two and three-dimensional representations. (Sp)

I D 1264 Interior Design Studio II 4 Credit Hours

Prerequisite: I D 1134 and I D 1164; corequisite: I D 1234; majors only. This studio course challenges students through the design of small-scale single and multi-family residential projects. (Sp)

I D 2223 Human-Centered Design 3 Credit Hours

The Human-centered design (HCD) course introduces an interdisciplinary approach that places human experience at the forefront of design processes. Human-centered design thinking and its empathetic mindset promote innovative, creative problem-solving. These are foundational skills that are highly valued in diverse disciplines, including but not limited to design, business, engineering, healthcare, education, computer science, etc. (F) [III-SS].

I D 2334 Interior Design Communication Studio III 4 Credit Hours

Prerequisite: ID 1234 and ID 1264; co-requisite: ID 2364; majors only. Advanced computer applications used in the professional practice of interior design for construction drawings and presentation drawings. The use of software applications in project delivery methods and integrated design practice. (F)

I D 2364 Interior Design Studio III 4 Credit Hours

Prerequisite: I D 1234 and ID 1264; co-requisite: I D 2334; majors only; sophomore standing. This studio course challenges students to design small commercial project types including but not restricted to retail or restaurant/cafe. Project size varies up to approximately 4,000 square feet. (F)

I D 2464 Interior Design Studio IV 4 Credit Hours

Prerequisite: I D 2334 and I D 2364 I; majors only; sophomore standing. This studio course focuses on institutional building design and may include, but is not limited to, educational facilities (early childhood - higher education), libraries, and museums. Project size varies up to approximately 8000 square feet. (Sp)

I D 2773 Interior Construction 3 Credit Hours

Prerequisite: ID 1234 and ID 1264; majors only. Introduction to the building and finish materials used in the design of non-loadbearing interior construction. Development of accurate selection and detailing of materials and assemblies in construction drawings. Additional topics include mechanical and electrical systems, building codes, and planning standards. (F)

I D 3433 Interior Design Portfolio I 3 Credit Hours

Prerequisite: I D 2364; majors only; sophomore standing. The course serves as an introduction to methods and formats of preparing a professional portfolio, with an emphasis on portfolio design, personal branding, and delivery methods. Each student will exhibit their design skills and achievements as part of the Interior Design Sophomore Portfolio Review. (Sp)

I D 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

I D 3473 History of Interior Design 3 Credit Hours

Prerequisite: ARCH 2343; majors only; junior standing; or permission of the instructor. Historical survey of interior design, decorative arts, and product design from ancient to contemporary times. Emphasis is given to the history of interior design from the late 19th century to the contemporary. (Sp)

I D 3564 Interior Design Studio V 4 Credit Hours

Prerequisite: I D 2464; corequisite: I D 4573; acceptance into the Interior Design program; junior standing; Majors only. This studio course focuses on health and wellness projects which may include medical specialties, clinics, ambulatory care facilities, fitness/ rehabilitation centers, or community engagement spaces. Project size varies up to approximately 12,000 square feet. (F)

I D 3573 Interior Materials and Specifications 3 Credit Hours

Prerequisite: I D 2364 and I D 2773; majors only; sophomore standing. The course involves a study of the basic characteristics and installation of materials and finishes used in the design of the built environment, with an emphasis on building codes, fire safety, sustainability, and regulations for accessibility. The course also provides an introduction to writing specifications for materials, equipment, and non-load bearing construction. (Sp)

- I D 3664 Interior Design Studio VI 4 Credit Hours**
Prerequisite: I D 3564 and I D 4573; majors only; junior standing. The studio course challenges students with the design of corporate office projects that include workplace environments with secondary hospitality components. Project size varies up to approximately 18,000 square feet. (Sp)
- I D 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics in keeping with student's major program. Topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- I D 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Content deals with concepts not usually presented in regular coursework. (Irreg.)
- I D 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for work on special projects under the guidance of a faculty member. (F, Sp, Su)
- I D 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- I D 4123 Environment and Human Behavior 3 Credit Hours**
(Slashlisted with I D 5123) Prerequisite: Majors only; junior standing, or permission of instructor. The course introduces students to a range of fundamental readings on theories and practices relevant to Environment-Behavior (E-B) relationships (people and their environment). The course also introduces students to environmental psychology for design and illustrates situations they will likely encounter. No student may earn credit for both 4123 and 5123. (F)
- I D 4253 Taliesin Studio in Residence 3 Credit Hours**
(Slashlisted with I D 5253) Prerequisite: Majors in the Gibbs College of Architecture with sophomore standing or by approval of the professor leading the program. This intensive six-day immersive program provides students with an in-depth, studio-based experience at Taliesin East in Wisconsin. It includes tours and individual exploration of the house, and campus. This course will also provide educational lectures and discussions, and studio exercises crafted to deepen students' understanding of Frank Lloyd Wright's design and its influence on Bruce Goff. No student may earn credit for both 4253 and 5253. (Su)
- I D 4263 Fallingwater Studio in Residence 3 Credit Hours**
(Slashlisted with I D 5263) Prerequisite: Majors in the Gibbs College of Architecture with sophomore standing or by approval of the professor leading the program. This intensive seven-day immersive program provides students with an in-depth, studio-based experience at Fallingwater in Pennsylvania. It includes tours and individual exploration of the house, educational lectures and discussions, and studio exercises crafted to deepen students' understanding of Frank Lloyd Wright's design and its influence on Bruce Goff. No student may earn credit for both 4263 and 5263. (Su)
- I D 4273 Taliesin West Studio in Residence 3 Credit Hours**
(Slashlisted with I D 5273) Prerequisite: Majors in the Gibbs College of Architecture with sophomore standing or by approval of the professor leading the program. This intensive six-day immersive program provides students with an in-depth, studio-based experience at Taliesin West in Arizona. It includes tours and individual exploration of the house, and campus. This course will also provide educational lectures and discussions, and studio exercises crafted to deepen students' understanding of Frank Lloyd Wright's design and its influence on Bruce Goff. No student may earn credit for both 4273 and 5273. (Su)
- I D 4343 Indoor Environmental Quality 3 Credit Hours**
(Slashlisted with I D 5343) Prerequisite: Majors only, junior standing, or permission of instructor. The course focuses on the examination of factors that contribute to indoor environmental quality and the design practices and techniques for improving indoor environmental quality. Specific topics include daylight, views, acoustic control, lighting, thermal comfort and air quality. No student may earn credit for both 4343 and 5343. (F)
- I D 4413 Indoor Controls and Technology 3 Credit Hours**
(Slashlisted with I D 5413) Prerequisite: I D 4573, majors only, junior standing, or permission of instructor. The course introduces and analyzes the technology of luminaries and control systems, including solid systems, dimming control, and other building management systems. It then invites students to apply their understanding through the design of a prescribed space. Students will be taught how to design and coordinate lighting control for energy effectiveness, flexibility of space, and increased occupant satisfaction. No student may earn credit for both 4413 and 5413. (Sp)
- I D 4463 Interior Design Office Professional Practice 3 Credit Hours**
(Slashlisted with I D 5463) Prerequisite: ID 3573; majors only; junior standing. Review of business and professional issues relating to interior design practice including organizational structures, marketing, contracts, professional registration, trade professions, fee structures, and project management. Overview of legal, financial, management, and administrative issues, establishing a practice, managing a project progress, business development, business ethics, project compensation and agreements, issues and procedures for both commercial and residential design firms. No student may earn credit for both 4463 and 5463. (Sp)
- I D 4573 Interior Lighting 3 Credit Hours**
(Slashlisted with I D 5573) Prerequisite: I D 2464; co-requisite I D 3564; majors only; junior standing. This course introduces the use of lighting to define and enhance interior environments through the interaction between light, vision, and psychology. Lectures cover topics such as the relationship between light and materials, color rendering and appearance, lighting control systems, building codes and standards, and sustainability and energy conservation. No student may earn credit for both 4573 and 5573. (F)
- I D 4633 Interior Design Portfolio II 3 Credit Hours**
(Slashlisted with ID 5633) Prerequisite: ID 3433; junior standing; majors only. The course offers preparation and presentation of an advanced portfolio to be assessed by industry professionals and educators. Emphasis is on the design of the portfolio, resume and marketing collateral and their organization and delivery methods including software applications necessary for creating printed and web-based portfolios. Will assist students in the transition to professional practice or graduate school. No student may earn credit for both 4633 and 5633. (Sp)

- ID 4764 Furniture Design Build Studio 4 Credit Hours**
Prerequisite: I D 3664; Corequisite: I D 4784; senior standing; majors only or permission of instructor. This course explores the design of furniture through the complete creative process from concept to finished product. Emphasizing an iterative design process, the course progresses through sketching, models, material selection, joinery methods, and construction techniques, enabling students to develop skills in both design ideation and fabrication craftsmanship. The course culminates in the fabrication of full-scale furniture projects. (F)
- ID 4784 Interior Design Capstone: Pre-Design Phase 4 Credit Hours**
Prerequisite: I D 3664 and I D 4573; co-requisite: I D 4764; senior standing; majors only. This is the first of a two-part studio course where students complete a professional interior design project utilizing the comprehensive knowledge and skills of the major. Students will complete research and program development, site analysis, building codes and regulations analysis, and concept development for an interior design project of significant scale and complexity. (F)
- ID 4823 Design for Independent Living 3 Credit Hours**
(Slashlisted with I D 5823) Prerequisite: Senior standing. Students will be introduced to aging in place design and universal design that supports safe, comfortable and independent living for users as they age in their residential setting. The course will focus on design determinants, design implications of spatial relationships, scale and function, residential building codes, and design programming as they relate to aging in place homes. No student may earn credit for both 4823 and 5823. (Sp)
- ID 4865 Interior Design Capstone: Design Phase 5 Credit Hours**
Prerequisite: I D 4784 and I D 4764; senior standing; majors only. This is the second of a two-part studio course where students complete a professional interior design project utilizing the comprehensive knowledge and skills of the major. Students will complete schematic design, design development, presentation documents, and contract documents, including construction drawings and specifications, for an interior design project of significant scale and complexity. (Sp) [V].
- ID 4940 Field Work 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor. Field study related to the student's major in a position approved by the instructor. One hour credit per 120 hours of field work or equivalent. Documentation and evaluation is required. (F, Sp, Su)
- ID 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- ID 4970 General Departmental Seminar 1-6 Credit Hours**
1 to 6 hours. Prerequisite: junior standing or permission of instructor. May be repeated with change in content; maximum credit twelve hours. Special topics in interior design. (F, Sp, Su)
- ID 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and director. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in scheduled courses. Study may include research and/or field projects. (F, Sp, Su)
- ID 5123 Environment and Human Behavior 3 Credit Hours**
(Slashlisted with I D 4123) Prerequisite: Graduate standing in the College of Architecture, and I D 5133 or RCPL 5113; or permission of instructor. The course introduces students to a range of fundamental readings on theories and practices relevant to Environment-Behavior (E-B) relationships (people and their environment). The course also introduces students to environmental psychology for design and illustrates situations that they will likely encounter. No student may earn credit for both 4123 and 5123. (F)
- ID 5133 Research Methods 3 Credit Hours**
Prerequisite: Graduate standing in College of Architecture or permission of instructor. Introduction to research methods with emphasis on the built environment. Topics will include interpretive-historical research, qualitative research, co-relational research, logical argumentation and case study/mixed methods. (Sp)
- ID 5143 Design Theory Analysis and Evaluation 3 Credit Hours**
Prerequisite: Graduate standing in the College of Architecture, and I D 5133 or RCPL 5113; or permission of instructor. The course examines the ways in which designers and theorists express and conceptualize interiors. Readings from significant works detailing the history of interior design and its role in the future are included. Through discussion, research papers, and independent analysis, students are expected to develop skills in analyzing and conceptualizing interior design principles. (F)
- ID 5163 Design Computation Visualization and Analysis 3 Credit Hours**
Prerequisite: Graduate standing in College of Architecture or permission of instructor. Focus is on the software used to introduce basic functions of (Building Information Modeling) BIM. Topics concentrate on techniques and methods for creating building parts, the production of construction documents, and renderings. Tools are also introduced for material and construction analysis as well as costing and scheduling data. (F)
- ID 5223 Advanced Materials and Methods 3 Credit Hours**
Prerequisite: Graduate standing in College of Architecture or permission of instructor. The study and use of building materials specified during the design and construction process. Coursework will emphasize the analysis of current practices and applications involving material types and construction methods. (F)
- ID 5253 Taliesin Studio in Residence 3 Credit Hours**
(Slashlisted with I D 4253) Prerequisite: Graduate standing in the Gibbs College of Architecture or by approval of the professor leading the program. This intensive six-day immersive program provides students with an in-depth, studio-based experience at Taliesin East in Wisconsin. It includes tours and individual exploration of the house and campus. The course will also provide educational lectures and discussions, and studio exercises crafted to deepen students' understanding of Frank Lloyd Wright's design and its influence on Bruce Goff. No student may earn credit for both 4253 and 5253. (Su)
- ID 5263 Fallingwater Studio in Residence 3 Credit Hours**
(Slashlisted with I D 4263) Prerequisite: Graduate standing in the Gibbs College of Architecture or by approval of the professor leading the program. This intensive seven-day immersive program provides students with an in-depth, studio-based experience at Fallingwater in Pennsylvania. It includes tours and individual exploration of the house, educational lectures and discussions, and studio exercises crafted to deepen students' understanding of Frank Lloyd Wright's design and its influence on Bruce Goff. No student may earn credit for both 4263 and 5263. (Su)

- I D 5273 Taliesin West Studio in Residence 3 Credit Hours**
 (Slashlisted with I D 4273) Prerequisite: Graduate standing in the Gibbs College of Architecture or by approval of the professor leading the program. This intensive six-day immersive program provides students with an in-depth, studio-based experience at Taliesin West In Arizona. It includes tours and individual exploration of the house and campus. This course will also provide educational lectures and discussions, and studio exercises crafted to deepen students' understanding of Frank Lloyd Wright's design and its influence on Bruce Goff. No student may earn credit for both 4273 and 5273. (Su)
- I D 5343 Indoor Environmental Quality 3 Credit Hours**
 (Slashlisted with I D 4343) Prerequisite: Graduate standing in the College of Architecture, and I D 5133 or RCPL 5113; or permission of instructor. This course focuses on the examination of factors that contribute to indoor environmental quality and the design practices and techniques for improving indoor environmental quality. Specific topics include daylight, views, acoustic control, lighting, thermal comfort, and air quality. No student may earn credit for both 4343 and 5343. (F)
- I D 5413 Indoor Controls and Technology 3 Credit Hours**
 (Slashlisted with ID 4413) Prerequisite: Graduate standing in the College of Architecture, I D 5343, and I D 5133 or RCPL 5113; or permission of instructor. The course introduces and analyzes the technology of luminaries and control systems, including solid systems, dimming control, and other building management systems. It then invites students to apply their understanding through the design of a prescribed space. Students will be taught how to design and coordinate lighting control for energy effectiveness, flexibility of space, and increased occupant satisfaction. No student may earn credit for both 4413 and 5413. (Sp)
- I D 5463 Interior Design Office Professional Practice 3 Credit Hours**
 (Slashlisted with ID 4463) Prerequisite: Graduate standing in the College of Architecture or permission of instructor. Review of business and professional issues relating to interior design practice, including organizational structures, marketing, contracts, professional registration, trade professions, fee structures, and project management. Overview of legal, financial, management, and administrative issues, establishing a practice, managing project progress, business development, business ethics, project compensation and agreements, and issues and procedures for both commercial and residential design firms. No student may earn credit for both 4463 and 5463. (Sp)
- I D 5523 Graduate Studio I 3 Credit Hours**
 Prerequisite: Graduate standing and permission of Graduate Liaison. Introduction to fundamental design and visual communication skills through material, formal, and spatial properties of design. Graphic techniques will be employed through a range of phases, from communicating initial design proposals to detailed drawings that can fully convey information necessary for construction. Students will construct architectural study models to use as spatial analysis during the design process. (F)
- I D 5533 Graduate Studio II 3 Credit Hours**
 Prerequisite: Graduate standing and I D 5523, with I D 5763 a co-requisite, or permission of Graduate Liaison. An introduction to space planning strategies, interior architectural components, accessibility guidelines, design programming, residential codes, and the design process as they relate to small scale residential projects, with an emphasis on issues of form, function, space, light, materials, color, texture, and ergonomics. (Sp)
- I D 5534 Graduate Studio III 4 Credit Hours**
 Prerequisite: Graduate standing, I D 5533, and I D 5763, with I D 5163 as a co-requisite; or permission of Graduate Liaison. Introduction to advanced space planning, human factors, universal design, building codes as they relate to multi-family and small commercial projects, including but not restricted to retail, businesses, restaurants, cafes, coffee shops, and galleries up to 3,000 square feet; emphasis on the influence of space planning strategies and human factors on interior architectural components, design programming, and design development. (F)
- I D 5544 Graduate Studio IV 4 Credit Hours**
 Prerequisite: Graduate standing, I D 5534, and I D 5163; or permission of Graduate Liaison. Introduction to human needs and activities as design determinants, design implications of spatial relationships, scale and function, building codes, and design programming as they relate to institutional building design, including but not limited to educational facilities, libraries, higher ed, K-12, or museums up to 5000 sq ft; emphasis on influence of human factor on furniture, fixture, and equipment specifications. (Sp)
- I D 5564 Graduate Studio V 4 Credit Hours**
 Prerequisite: Graduate standing and I D 5544, with I D 5573 as a co-requisite; or permission of Graduate Liaison. Introduction to the space planning processes and application of design principles as they pertain to mid-size commercial projects up to 8,000 square feet, with an emphasis on health and wellness. Projects may include clinics, medical office buildings, fitness/rehabilitation centers, and community engagement spaces; emphasis on the importance of evidence-based design research. (F)
- I D 5573 Interior Lighting 3 Credit Hours**
 (Slashlisted with I D 4573) Prerequisite: Graduate standing in the College of Architecture or permission of instructor. This course introduces the use of lighting to define and enhance interior environments through the interaction of light, vision, and psychology. Lectures cover topics such as the relationship between light and materials, color rendering and appearance, lighting control systems, building codes and standards, sustainability, and energy conservation. No student may earn credit for both 4573 and 5573. (F)
- I D 5633 Interior Design Portfolio II 3 Credit Hours**
 (Slashlisted with ID 4633) Prerequisite: Graduate standing and departmental permission. The course offers preparation and presentation of an advanced portfolio to be assessed by industry professionals and educators. Emphasis is on the design of the portfolio, resume and marketing collateral, and their organization and delivery methods, including software applications necessary for creating printed and web-based portfolios. This course will assist students in the transition to professional practice or graduate school. No student may earn credit for both 4633 and 5633. (Sp)
- I D 5713 Commercial Design 3 Credit Hours**
 Prerequisite: Graduate standing and permission of Graduate Liaison. Introduction to planning processes and the application of design principles to commercial design projects. Space planning process, design philosophy, specifications and oral presentations will be expected on each project. (Sp)
- I D 5723 Lighting Design 3 Credit Hours**
 Prerequisite: Graduate standing or permission of Graduate Liaison. Introduction to lighting design of interiors. Studio/lecture presentations; focus on design principles in lighting, lighting quality, lighting quantification codes, and energy conservation. Emphasis is on integration of lighting with interior spaces, techniques in lighting design, fixture design, and exploration of computer visualization. (F)

ID 5753 History of Interior Design 3 Credit Hours

(Slashlisted with ID 4753) Prerequisite: Graduate standing and permission of Graduate Liaison. Historical survey of architectural interiors and of the decorative arts. Cultural and socioeconomic factors which influenced interior spaces and furnishings will be an emphasis in addition to readings, lectures and discussion about the art, composition and aesthetic theories that give value to historical interiors. Students may not earn credit for both 4753 and 5753. (Sp)

ID 5763 Graduate Interior Design Computer Application 3 Credit Hours

Prerequisite: Graduate standing and permission of Graduate Liaison. Use of computer-aided design (AutoCAD Architecture, SketchUp, Photoshop and InDesign) and its role in interior design professional practice. Applications to demonstrate design process and problem-solving solutions in two- and three-dimensional representation and modeling. Analysis of the applications of computer-aided design in the interior design industry. (F)

ID 5773 Graduate Interior Construction 3 Credit Hours

Prerequisite: Graduate standing and permission of Graduate Liaison. Introduction to the construction materials and methods, building and finish materials used in the design of non-loadbearing interior construction. Intended to develop an accurate and efficient expression of selection and detailing of materials and assemblies in construction drawings. Additional topics include mechanical and electrical systems, building codes, and planning standards. (Sp)

ID 5793 Interior Materials and Specifications 3 Credit Hours

Prerequisite: Graduate standing and permission of Graduate Liaison. Study of the basic characteristics and installation of materials and finishes used in the design of interiors, building codes, fire safety, and regulations for accessibility. Emphasis on writing specifications for FF&E and non-loadbearing construction. (F)

ID 5823 Design for Independent Living 3 Credit Hours

(Slashlisted with ID 4823) Prerequisite: Graduate standing. Students will be introduced to aging in place design and universal design that supports safe, comfortable and independent living for users as they age in their residential setting. The course will focus on design determinants, design implications of spatial relationships, scale and function, residential building codes, and design programming as they relate to aging in place homes. No student may earn credit for both 4823 and 5823. (Sp)

ID 5940 Field Work 3 Credit Hours

Prerequisite: Graduate standing in College of Architecture or permission of instructor. Field study related to the student's interest in architectural lighting approved by graduate liaison. One credit hour per 120 hours of fieldwork or equivalent. Documentation and evaluation required. (F, Sp, Su)

ID 5950 Masters of Science in Interior Design Project 2-6 Credit Hours

2 to 6 hours. Prerequisite: Permission of director/graduate coordinator. May be repeated with change of content; maximum credit six hours. Professional project of significant scale and complexity in the student's area of concentration. (F, Sp)

ID 5960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: graduate standing; permission of instructor, adviser and dean. May be repeated; maximum credit six hours. (F, Sp)

ID 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ID 5980 Research for Master's Thesis 2-6 Credit Hours

2 to 6 hours. Prerequisite: Permission of director/graduate coordinator. Variable enrollment, two to six hours; maximum credit applicable toward degree, 6 hours. (F, Sp)

ID 5990 Special Studies 1-6 Credit Hours

1 to 6 hours. Prerequisite: permission of instructor, adviser and dean. The opportunity is provided for students with above-average grades to do individual library or laboratory work on special problems not included in present courses. (F, Sp)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed

Interior Design for Architecture Majors, Minor

Minimum Total Credit Hours: 15-16

Program Code: N586

Minor applications will be reviewed at the end of each semester and are due during dead week with decisions made prior to the start of each semester. The top students will be selected, based on applicant's GPA, and admitted based on enrollment availability in the ID program.

- The requirements for a minor must be completed concurrently with the major degree requirements. No minor may be added by completing courses after receiving the bachelor's degree.
- Required courses in the student's major cannot be used for the minor.
- The minor is only available to undergraduate students with a declared Architecture major.
- **Students must achieve a minimum 2.50 GPA (OU and overall) in the minor coursework.**

Required Courses

Code	Title	Credit Hours
Choose 15-16 credit hours from the following: 15-16		
I D 1173	Foundations of Interior Design (F)	
I D 1234	Interior Design Communication Studio II (SP)	
I D 2334	Interior Design Communication Studio III (F)	
I D 2773	Interior Construction (F)

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

- A student who has done satisfactory graduate work and has earned a 3.0 grade point average may file for master's candidacy.

Interior Design (Post-Professional), M.S.

Minimum Total Hours (Thesis): 30

Minimum Total Hours (Non-Thesis): 33

Program Code: M588

General Information

The Master of Science in Interior Design Post Professional option offers an opportunity for the students graduating from a CIDA accredited program to earn a Master of Science in Interior Design degree in one year (Summer+Fall+Spring semester).

This program has changes pending Regents approval for 2024-25. These pending changes are not reflected here.

- **Note:** I D 5793 (Interior Materials and Specifications) may be required as a prerequisite course requirement for students with undergraduate degrees from non-CIDA accredited Interior Design programs or a related field. If I D 5793 is identified as a prerequisite at admission, it cannot be applied toward the MSID degree.

General Information

Environmental Design

The Environmental Design program at the Christopher C. Gibbs College of Architecture offers an interdisciplinary perspective on all aspects of how the built environment impacts people and communities. The program emphasizes service learning and community engagement.

Students study topics in architecture, city planning, equity planning, heritage conservation, historic preservation, landscape architecture, real estate, and urban design, and gain experience through project-based coursework. Some coursework includes collaborations with faculty and students who are in other College of Architecture programs including Architecture, Construction Science, Interior Design, Landscape Architecture, and Regional and City Planning. Environmental Design offers accelerated pathways to master's degrees that save time. The Environmental Design program focuses on the intersection of theory and practice.

Students in Environmental Design courses work alongside the OU Institute for Quality Communities to partner with Oklahoma towns and cities to solve challenges they are facing. Through recent work, Environmental Design students contributed to:

- Public space concepts in Altus, Alva, and Durant.
- Preservation of cultural resources in Moore, Okemah, Oklahoma City, Wagoner, and Waurika.
- Design recommendations for safer downtown streets in Blanchard and Norman.
- Heritage conservation and speculative design solutions for rural, Black towns like Boley, McAlester, and Tullahassee.
- Strategic planning for commercial district development in downtown Norman and Oklahoma City's Bricktown, Plaza District, Uptown, and Deep Deuce areas.
- Parking strategies and bicycle route planning in downtown Chickasha.
- Pedestrian traffic and safety assessments in Bricktown (Oklahoma City).

Vision

The Environmental Design program is all about working with real communities, turning ideas into action, and turning dreams into doing. The students gain exposure and experience working in cities, small towns, and communities that are not necessarily defined by size or geographic location.

The program teaches students how to investigate the social and physical challenges that harm communities. The program gives students, who are looking to do something significant, the know-how and ability to contribute to all places. This kind of collaborative, community-minded, inclusive design occurs through community service that is outside the classroom. They turn ideas into actions for real projects and for everyday people. The program gives students a glimpse into what it feels like to make the world better for others while creating a meaningful career that shapes the future of our communities. This program prepares students to follow various paths: graduate school (within the College of Architecture or at another university), private sector employment, governmental agency or non-profit organization employment. Students will be ready to engage and to make changes happen by design and through spirited collaboration. This is what "placemaking" is about. It is where community engagement, ideas, and making a difference meet. It is how dreaming becomes doing.

Landscape Architecture

Landscape Architecture offers graduate students an interdisciplinary setting in which to learn and think critically and creatively in addressing environmental issues. The program's primary mission is the professional education of future Landscape Architects who will be able to contribute to the profession at any level typifying practice in the field. A secondary mission of the program is to successfully offer a post-professional degree

for those students who already have the first professional degree at the undergraduate level who are interested in advanced study in Landscape Architecture.

About Landscape Architecture

- As described by the American Society of Landscape Architects (ASLA), "landscape architecture is the art and science of analysis, planning, design, management, preservation and rehabilitation of the land."
- "Landscape architects design the built environment of neighborhoods, towns and cities while also protecting and managing the natural environment, from its forests and fields to rivers and coasts. Members of the profession have a special commitment to improving the quality of life through the best design of places for people and other living things."
- "In fact, the work of landscape architects surrounds us. Members of the profession are involved in the planning of such sites as office plazas, public squares and thoroughfares. The attractiveness of parks, highways, housing developments, urban plazas, zoos and campuses reflects the skill of landscape architects in planning and designing the construction of useful and pleasing projects."
- "Depending on the scope of the project for clients, ranging from a local developer to the federal government, landscape architects may plan the entire arrangement of a site, including the location of buildings, grading, stormwater management, construction and planting. They may also coordinate teams of design, construction and contracting professionals."
- "Already, federal and state government agencies ranging from the National Park Service to local planning boards employ a large number of landscape architects. More and more private developers realize that the services of a landscape architect are an integral part of a successful, more profitable project."

Visit the ASLA website or the Landscape Architecture Foundation website for further information about the profession of Landscape Architecture.

Regional and City Planning

Faculty in Regional and City Planning (RCPL) prepare students to address the challenges that face the cities, towns and rural areas of Oklahoma and the nation. The OU RCPL program, founded in 1947, is one of the oldest programs west of the Mississippi River. RCPL students, like those in other divisions of the Christopher C. Gibbs College of Architecture, have access to a multidisciplinary learning environment and a low student-faculty ratio that allows them to work closely with faculty and gain insight from faculty expertise. Regional and City Planning's focus on communication and experience better prepares graduates for the collaborative work of successful city planning professionals.

Programs & Facilities

Academic Opportunities

Environmental Design students are strongly encouraged to participate in one of the many Study Abroad Programs offered in the Christopher C. Gibbs College of Architecture (GCA). Other academic programs—Architecture, Construction Science, Interior Design, and Landscape Architecture—offer a variety of travel experiences both across the United States and throughout the world. Environmental Design students have contributed to these valuable educational and service learning activities.

Non-Academic Institutional Experiences

Environmental Design students have a unique opportunity to engage with service learning opportunities through the OU Institute for Quality Communities (IQC). IQC is an outreach center that brings together GCA students, faculty, and staff to assist Oklahoma communities. The design assistance happens in a variety of ways—out in Oklahoma communities. Students in Environmental Design classrooms are part of interdisciplinary project teams that work alongside professionals and with government and non-profit clients. These community-based projects focus on:

- historic preservation Waurika, Oklahoma
- tactical urbanism StART Norman Project
- inclusion, equity, justice (Langston, Northeast Oklahoma City, Tulsa Riverwood)
- public space design Vinita, Oklahoma
- walkability Wynnewood, Oklahoma
- bikeability issues Downtown Chickasha, Oklahoma
- some other community design issues Blanchard, Oklahoma Altus Reservoir Deep Deuce Retail Study

The students begin to gain experience and add to their resumes in a way that complements their academic studies. For more information, please visit OU Institute for Quality Communities

Non-Academic Community Exposures

Due to the nature of the studies in the Environmental Design program, students are “out there” doing projects and getting their hands dirty. This work lets them get to know community leaders in all sectors of society: private, governmental, and non-profit organizations. Exposure to representatives in these organizations includes, but is not limited to, the following:

- American Institute of Architects, Central Oklahoma Chapter
- AIA Oklahoma
- American Planning Association
- BlackSpace Oklahoma
- City of Oklahoma City Planning and Historic Preservation Planning Departments
- The Coltrane Group, Historic Black Town Tours
- Downtown Oklahoma City, Inc.
- The Moore-Lindsay Historical House Museum (Norman)
- Neighborhood Alliance of Central Oklahoma
- Norman Arts Council
- Norman Downtowners
- Oklahoma Arts Council
- Oklahoma Brownfields Program/Oklahoma Department of Environmental Quality
- Oklahoma Main Street Center/Oklahoma Department of Commerce (and local Main Street programs throughout the state)
- Oklahoma Municipal League
- Oklahoma State Historic Preservation Office/Oklahoma Historical Society
- Oklahoma Tobacco Settlement Endowment Trust/Local County Healthy Living Programs
- Preservation Oklahoma, Inc.
- Western History Collection/OU Norman Campus
- Urban Land Institute

Students are strongly encouraged to attend activities and conferences sponsored by the American Institute of Architects, the American Planning Association, and the Urban Land Institute as well as the IQC Placemaking Conference.

Bachelor of Science

The Bachelor of Science in Environmental Design (En.D.) (p. 143) program is an undergraduate program in the Christopher C. Gibbs College of Architecture (GCA) that gives students who want to make a difference the know-how and ability to work on critical community issues. From revitalizing historic downtowns to imagining new neighborhoods, En.D. students learn about problems that are worth solving to make places that matter for people.

Flexible Plan of Study

The Environmental Design program is notable for its flexible degree plan with many electives. Environmental Design students can build a custom plan of study based on their interests, selecting elective courses from GCA programs in Architecture, Construction Science, Interior Design, Landscape Architecture, and Regional & City Planning.

Environmental Design students also take ecology electives that provide a sustainability emphasis to the studies in the Bachelor of Science in Environmental Design.

Well-Suited for Transfer Students

While many Environmental Design students come to the program straight from high school, a number of our students transfer from other undergraduate degrees or enroll after junior college studies. The degree plan remains flexible as students come to the program in various stages of study or from different backgrounds of study.

Pathway to Specialized Master's Degrees

The Environmental Design degree is an excellent pathway to further studies in graduate programs including Architecture, Interior Design, Landscape Architecture, Regional & City Planning, and Urban Design.

All of these programs are part of the Christopher C. Gibbs College of Architecture. Other students have gone onto other graduate programs around the world including architecture, landscape architecture, golf turf management, law, and public policy.

For those who go directly into the professional work world, students joined architectural firms, city and county planning departments, Americorps, non-profit public space design organizations, construction firms, and state governmental agencies.

Accelerated Programs

- Environmental Design, B.S./Master of Landscape Architecture (p. 145)
- Environmental Design, B.S./Master of Regional and City Planning (p. 148)
- Environmental Design, B.S./Master of Urban Design (p. 150)

Graduate Study

Master of Landscape Architecture

First Professional Degree

The First Professional Master of Landscape Architecture (p. 152) is an LAAB accredited degree, is for students who do not have a previous professional degree in Landscape Architecture and who may come from

fields as diverse as English literature, drama, wildlife management or nursing.

Post-Professional Degree

The Post Professional Master of Landscape Architecture (p. 153) is only for students who have completed an accredited professional degree in Landscape Architecture and desire a design or research focus in a specialized area.

In both of these options, the graduate student is expected to focus the professional electives requirement on an area of specialization such as urban design, rural and small town design, sustainable and ecological design, environmental issues, or computer technologies. The student is encouraged to consider offerings in allied departments such as Anthropology, Architecture, Art, Botany, Construction Science, Civil Engineering, Environmental Science, Communications, Geography, Geology, Health and Sports Sciences, Human Relations, Political Science, Regional and City Planning, Sociology, and Zoology.

Landscape Architectural Studies

The Landscape Architectural Studies (p. 153) is a non-accredited degree. This degree is intended for students with undergraduate degrees in Landscape Architecture or a related area.

All graduate students are required to develop a graduate advisory committee that will guide the student through the selection of a graduate project topic and its sequence as reflected in the program curriculum. All master's programs are subject to approval by the program director and/or the graduate liaison.

Master of Regional and City Planning

The Master of Regional and City Planning (p. 154) degree is designed for persons who desire to work in urban and/or regional planning, neighborhood and area development, housing, community and economic development, urban design, transportation planning, and land development. The course of study integrates concepts from architecture, social sciences, environmental studies, engineering, business and law and prepares graduates for lifelong professional practice. Requirements for the degree include a bachelor's degree from a recognized college or university. In addition to the formal application, a statement of the student's personal objectives and three letters of recommendation should be sent directly to the division. Fall semester admission is suggested, but not required, to take advantage of the schedule sequence of course offerings.

Master of Urban Design (Tulsa)

The Master of Urban Design (p. 155) program is designed for candidates from architectural or related disciplines seeking a career in the dynamics of the urban environment but not desiring to enter one of the licensed professions. The curriculum prepares students for careers in urban research, management, civic administration, public works, and other related areas. The program is also a sound base for those in community service and community design advocacy. This program is available through the Schusterman Center in Tulsa.

This program can be spread out over two years in order to allow students to have full-time office practice opportunities in professional offices. This degree program is designed for candidates already holding a professionally accredited degree in Architecture and is primarily for those already holding an NAAB accredited professional degree. It is not a viable track for candidates wishing to establish NAAB accredited degree credentials as a prerequisite to architectural licensing as required in most

of the U.S. (This track is not available to any candidate already holding a Master of Architecture degree from any institution).

Both thesis and professional project options are available. The curriculum is structured to fit into the College's Tulsa "Urban Laboratory" academic environment, with evening and weekend courses delivered in three credit segments.

Dual Degree Programs

Students may pursue another degree program with the Master of Regional and City Planning under the University's dual degree program. Graduates have developed dual degree programs with Architecture, Landscape Architecture, Public Administration, Environmental Engineering and Law.

Several accelerated dual-degree programs are offered through collaboration with the Department of Geography and Environmental Sustainability housed in the College of Atmospheric and Geographic Sciences and the Division of Regional and City Planning, an academic unit in the Christopher C. Gibbs College of Architecture:

- Bachelor of Arts in Environmental Sustainability: Planning & Mgt/ Master of Regional and City Planning (p. 787)
- Bachelor of Science in Environmental Sustainability: Planning & Mgt/ Master of Regional & City Planning (p. 790)
- Bachelor of Arts in Geographic Information Science/Master of Regional & City Planning (p. 794)
- Bachelor of Science in Geographic Information Science/Master of Regional & City Planning (p. 797)
- Bachelor of Arts in Geography: Physical & Social Sciences/Master of Regional & City Planning (p. 799)
- Bachelor of Science in Geography/Master of Regional & City Planning (p. 802)

These accelerated programs are designed for exceptional students who wish to begin earning the Master of Regional and City Planning in the second semester of their junior year of their Bachelor programs.

Courses

EN D 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

EN D 3893 Intro to Urban Real Estate Development 3 Credit Hours
Prerequisite: Junior standing. This course will explore the formation of places through the study of real estate topics and guest lectures from related professions. Real estate development is a process by which the built environment is produced and modified over time. It results from the actions of many individuals and groups working within a context of natural environment, politics, culture, economics, and more. (F)

- EN D 3993 Environmental Design Practicum 3 Credit Hours**
Prerequisite: Junior standing. In-depth and on-site problem solving workshop focused on helping community stakeholders address real world challenges found in their local built environments. Emphasis is given to phasing proposed investments in the public and private realms. Subject matter varies and is reflective of a host of issues common to urban development. (Sp)
- EN D 4893 Historic Preservation Planning 3 Credit Hours**
Prerequisite: Junior standing. In this course, students will: understand and articulate the social and economic values associated with preservation; Gain exposure to and understanding of local, state and federal guidelines for delineation and regulation of historic districts and buildings; Develop case studies in economic feasibility and adaptive reuse, reconstruction and rehabilitation; Understand the role of the State Historic Preservation Office; etc. (F)
- EN D 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: senior standing and permission of instructor. May be repeated with change of subject; maximum credit 12 hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (F, Sp, Su)
- EN D 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: four courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EN D 4993 Environmental Design Capstone 3 Credit Hours**
Prerequisite: senior standing. Provides students a hands-on service/learning opportunity, presenting real world challenges that require collaboration and the application of acquired expertise within the dynamic context of a community's social and built environment. (Sp)[V].
- L A 2970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- L A 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisite: ENGL 1113 or equivalent, and permission of instructor; May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- L A 4103 Introduction to Landscape Architecture 3 Credit Hours**
(Slashlisted with L A 5103) Prerequisite: junior standing and permission of instructor. Introduction to the multidisciplinary design profession of landscape architecture. This course will highlight the profession of landscape architecture as a leader in today's sustainable construction and design industry. No student may earn credit for both 4103 and 5103. (F) [IV-AF].
- L A 4423 Human Experience of the Environment 3 Credit Hours**
(Slashlisted with L A 5423) Prerequisites: Junior standing. An introduction to the understanding of how people interact with the world around them. We will explore the many ways in which environments have shaped us, how we perceive and interact with the world, what tools researchers use, how places are designed to accommodate particular human behaviors, and how designers can create healthy environments. No student may earn credit for both 4423 and 5423. (F, Sp, Su)[III-SS].
- L A 4613 Landscape Architecture Computer Applications 3 Credit Hours**
(Slashlisted with L A 5613) Prerequisite: Junior standing or permission of instructor. A survey of computer applications common to the profession of landscape architecture including word processing, desktop publishing, computer image manipulation, computer-aided drafting, spreadsheets and databases with particular emphasis on computer image manipulation and computer-aided drafting. No student may earn credit for both 4613 and 5613. (F)
- L A 4743 Garden History from Ancient to Contemporary 3 Credit Hours**
Prerequisite: junior standing. This course examines the history of human design and use of land through an examination of the gardens different civilizations built. Gardens from pre-history to twenty-first history in Asia, Latin/South America, Europe and the United States will be studied as products of conscious design. Understand the social, cultural and economic contexts within which historic garden styles emerged. (F, Sp)
- L A 4943 History and Theory of Landscape Architecture 3 Credit Hours**
(Slashlisted with L A 5943) Prerequisite: Junior standing or permission of instructor. A survey of American landscape architecture trends and personalities. Includes an overview of European and Asian landscape and garden design precedents. The framework of modern architecture, modern art, and public art which provide a context for and influence upon landscape architecture will be discussed in historical and theoretical terms. No student may earn credit for both 4943 and 5943. (Sp)
- L A 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing or permission of instructor; May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- L A 5052 Professional Practice 2 Credit Hours**
Prerequisite: 5043 or permission of instructor. Survey of career options, internship, registration, firm organization, office management, professional conduct and ethics within the practice of architecture. (F, Sp)
- L A 5103 Introduction to Landscape Architecture 3 Credit Hours**
(Slashlisted with L A 4103) Prerequisites: graduate standing, permission of instructor. Introduction to the multidisciplinary design profession of landscape architecture. This course will highlight the profession of landscape architecture as a leader in today's sustainable construction and design industry. No student may earn credit for both 4103 and 5103. (F)
- L A 5243 Landscape Architecture Technology: Materials and Construction 3 Credit Hours**
Prerequisite: Graduate Standing. Technical requirements and design characteristics of landscape construction materials. Brick, concrete, asphalt, stone, wood, paving curbs, walls, steps, small structures, site furnishings, lighting, and basic construction documentation. (F)

L A 5343 Landscape Architecture Technology: Site Issues 3 Credit Hours

Prerequisite: Graduate Standing. Technical aspects of land and water interactions in site planning and landscape engineering. Introduction to contours, grading and earthwork; watershed and site drainage; horizontal and vertical curves; erosion control, and sedimentation. (Sp)

L A 5402 Res Methods Landscape Arch 2 Credit Hours

Prerequisite: graduate standing or permission of instructor. Introduces basic research methods applicable to landscape architecture. (F)

L A 5423 Human Experience of the Environment 3 Credit Hours

(Slashlisted with L A 4423) Prerequisite: Graduate standing. An introduction to the understanding of how people interact with the world around them. We will explore the many ways in which environments have shaped us, how we perceive and interact with the world, what tools researchers use, how places are designed to accommodate particular human behaviors, and how designers can create healthy environments. No student may earn credit for both 4423 and 5423. (F, Sp, Su)

L A 5513 Landscape Architecture Drawing and Graphics 3 Credit Hours

Prerequisite: Graduate Standing. Basic techniques for visual thinking/seeing and basic graphic techniques for two- and three-dimensional representation. Different methods of communication such as sketching, diagramming, plan, section and elevation drawing, rendering, one and two point perspective, and axonometric drawing for layout and composition. (F)

L A 5515 Landscape Architecture Introductory Graduate Studio I 5 Credit Hours

Prerequisite: Graduate standing and departmental permission. Small-scale problems in landscape architecture with particular emphasis on principles and elements of design, design of individual sites, design as a process including communication of site analysis, design, development and final design proposals. (F)

L A 5525 Landscape Architecture Introductory Graduate Studio II 5 Credit Hours

Prerequisite: Graduate standing and LA 5515. Introduction to site planning at small to medium scales with particular emphasis on design process where consideration of natural and human factors influence design solutions. Subject matter varies and is reflective of a host of problems and issues common to landscape architecture. (Sp)

L A 5535 Landscape Architecture Intermediate Graduate Studio III 5 Credit Hours

Prerequisite: Graduate standing and L A 5525. Studio work concerned with park, recreation, and open space issues pertinent to contemporary needs. Subject matter may include park typologies and their design, recreation typologies, public education, greenways, scenic byways, eco-tourism, schools, art in the landscape, and community gardens. (F)

L A 5545 Landscape Architecture Intermediate Graduate Studio IV 5 Credit Hours

Prerequisite: Graduate standing and L A 5535. Focus on housing and community planning as related to site planning and site design with particular emphasis on urban environments, housing typologies, community participation, community facilities, and the landscape architect's approach to integration of proposed developments within natural and human contexts. (Sp)

L A 5613 Landscape Architecture Computer Applications 3 Credit Hours

(Slashlisted with L A 4613) Prerequisite: Graduate Standing. A survey of computer applications common to the profession of landscape architecture including word processing, desktop publishing, computer image manipulation, computer-aided drafting, spreadsheets and databases with particular emphasis on computer image manipulation and computer-aided drafting. No student may earn credit for both 4613 and 5613. (F)

L A 5713 Plant Material and Technology 3 Credit Hours

Prerequisite: Graduate standing. Identification and classification of native and ornamental woody evergreen and deciduous trees, shrubs, vines, and ground covers. Study of their morphology, cultural characteristics, landscape uses, pruning maintenance, planting and establishment. Includes basic horticultural principles, plant processes, and factors affecting plant growth. (F, Sp)

L A 5923 Planting Design 3 Credit Hours

Prerequisite: LA 5713, graduate standing. An intensive lecture course emphasizing the use of plants in landscape architecture design. (F)

L A 5940 Field Work 1-4 Credit Hours

1 to 4 hours. Prerequisite: 4515 and permission of instructor. Studies in landscape architecture not suited to the conventional classroom setting. (F, Sp)

L A 5943 History and Theory of Landscape Architecture 3 Credit Hours

(Slashlisted with L A 4943) Prerequisite: Graduate Standing. A survey of American landscape architecture trends and personalities. Includes an overview of European and Asian landscape and garden design precedents. The framework of modern architecture, modern art, and public art which provide a context for and influence upon landscape architecture will be discussed in historical and theoretical terms. Students may not earn credit for 4943 and 5943. No student may earn credit for both 4943 and 5943. (Sp)

L A 5950 Graduate Project Proposal 2-4 Credit Hours

2 to 4 hours. Prerequisite: graduate standing and permission of instructor. Proposal development for terminal graduate project in landscape architecture. (F, Sp)

L A 5960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor; May be repeated with change of content; maximum credit nine hours. Selected readings in landscape architecture. (F, Sp, Su)

L A 5970 General Department Seminar 1-4 Credit Hours

1 to 4 hours. Prerequisite: graduate standing and permission of instructor; May be repeated with change of topic; maximum credit nine hours. Advanced professional topics in landscape architecture and experimental course offerings. (Sp)

L A 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

L A 6595 Graduate Project 5 Credit Hours

Prerequisite: 6950 or permission of instructor. An approved individual project or thesis exploiting or integrating the student's specialization with landscape architecture. Laboratory (Sp)

- L A 6643 Urban Design Theory 3 Credit Hours**
(Crosslisted with ARCH 6643 and RCPL 6643) Prerequisite: graduate standing. A survey of theory relevant to the urban design process, including social and behavioral concepts, visual and aesthetic theory, spatial and geographic factors of urban form. (Sp)
- L A 6950 Applied Research in Landscape Architecture 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 6013 and permission of instructor. Approved individual research in landscape architecture coordinated with electives in preparation for the graduate project. (F)
- L A 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor; May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- L A 6970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor; May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- L A 6990 Graduate Special Studies 1-6 Credit Hours**
1 to 6 hours. Prerequisite: graduate standing and permission of instructor; May be repeated with change of content; maximum credit 12 hours. Selected topics in landscape architecture. (F, Sp, Su)
- RCPL 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisite: ENGL 1113 or equivalent, and permission of instructor; May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- RCPL 4003 The Global City and Planning Issues 3 Credit Hours**
(Crosslisted with GEOG 4003; Slashlisted with 5003) Prerequisite: English 1213 and junior standing. An introduction to the concept of globalization and its effects on cities, and the city planning issues related to those effects. Characteristics, theories, and strategies of city development are reviewed. Cities are observed from several perspectives: natural and built environment, governance, society, economics, and history. No student may earn credit for both 4003 and 5003. (Sp)
- RCPL 4033 Sociology of Housing 3 Credit Hours**
(Slashlisted with RCPL 5033; Crosslisted with SOC 4033) Prerequisite: ENGL 1213 or EXPO 1213, Junior standing, and Departmental Permission. This course introduces students to socioeconomic, political, and equity issues in housing. Students will engage with planning and policy issues to understand the history of housing and interventions for diverse populations. Topics will cover primarily U.S. Housing policy and practices with some comparative international examples. No student may earn credit for both 4033 and 5033. (Irreg.)
- RCPL 4063 Planning with Diverse Communities 3 Credit Hours**
(Slashlisted with RCPL 5063) Prerequisite: Completion of ENG 1213 or EXPO 1213, Junior Standing, and Department or Instructor Permission. As cities become more diverse, planning with various communities becomes increasingly complex and challenging. This upper-division undergraduate and graduate course is intended to introduce students to issues related to diversity and inequality. Aspects of diversity (e.g., race/ethnicity, gender, class, sexuality, national origin, abilities, etc) and their intersections with planning and urban policy and development issues are discussed. No student may earn credit for both 4063 and 5063. (Irreg., Sp)
- RCPL 4213 Principles and Practice of Urban Planning 3 Credit Hours**
(Slashlisted with RCPL 5213) Prerequisite: Junior standing. The field of urban and regional planning is a multi-dimensional discipline that seeks, by its actions, to promote the public purpose. What falls within the embrace of the public purpose varies by and within each jurisdiction. This survey course is about how the planning process, and specifically urban planners, help identify and cultivate that purpose across special interests. No student may earn credit for both 4213 and 5213. (F)
- RCPL 4263 Infrastructure Planning 3 Credit Hours**
(Slashlisted with RCPL 5263) Prerequisite: Permission of the instructor. Course focuses on several major topics related to planning of community infrastructure: an overview of major infrastructure systems; the relationship between larger planning goals such as growth management, economic development, and sustainability and infrastructure; as well as municipal budgeting and financing techniques for infrastructure projects. No student may earn credit for both 4263 and 5263. (F)
- RCPL 4273 International Development Planning 3 Credit Hours**
(Slashlisted with RCPL 5273) Prerequisite: Permission of Instructor. This course is open to both graduate and undergraduate students interested in improving the quality of life for people living in the developing world. It will explore what has been tried, what has been learned, and what are the current challenges in expanding human opportunity through international development efforts in middle and low income countries. No student may earn credit for both 4273 and 5273. (Irreg.)
- RCPL 4283 Public Health and the Built Environment 3 Credit Hours**
(Slashlisted with RCPL 5283) Prerequisite: Permission of the instructor. The intersection of public health and planning is a critical new area for both theory and professional practice. Planning the built environment is an essential part of improving physical activity levels, decreasing air quality pollutants, and increasing transportation options. Class covers how addressing public health and planning issues together will address our environment, infrastructure costs, health, and quality of life. No student may earn credit for both 4283 and 5283. (Irreg., Sp)
- RCPL 4293 Food Systems Planning 3 Credit Hours**
(Slashlisted with RCPL 5293) Prerequisite: Permission of the instructor. Course provides students with foundational understanding of social, spatial, economic, and environmental processes that influence food availability, access, consumption, and governance in U.S. Specifically, it explores both historical and contemporary trends in food systems to encourage students to think more critically about the role of public health and planning professionals in remedying patterns of food insecurity and concomitant health consequences. No student may earn credit for both 4293 and 5293. (Irreg., Sp)
- RCPL 4463 Geographic Information Systems for Land Use Planning 3 Credit Hours**
(Slashlisted with RCPL 5463) Prerequisite: junior standing. This introductory course is concerned with theories, models, and techniques for geographical information systems (GIS) and its associated spatial data management, spatial analysis, and quantitative modeling within a GIS environment for effective socio-economic decision-making for problems in the field of regional and city planning. Introduces the regional and city planning applications of microcomputer-based mapping and geographic information systems. No student may earn credit for both 4463 and 5463. (F)

RCPL 4513 Subdivision and Planned Unit Development Planning 3 Credit Hours

(Slashlisted with RCPL 5513) Prerequisite: ENGL 1213 or EXPO 1213, Junior Standing, and Departmental Permission. The course provides students from a range of disciplines with a foundational understanding of social, ecological, and physical conditions that influence the design of the built environment. Specifically, the course explores historical and contemporary trends in site planning and urban design as a means of encouraging students to think more critically about designing a more sustainable built environment. No student may earn credit for both 4513 and 5513. (Sp)

RCPL 4753 Transportation Geography and Planning 3 Credit Hours

(Slashlisted with RCPL 5753; Crosslisted with GEOG 4753) Prerequisite: Junior Standing. This course is intended to introduce students to the world of transportation planning and geography by explaining the importance of transportation from local to global and by engaging them in everyday transportation activities. Topics include, but not limited to, the history of transportation, the relationships between transportation and geography, transportation managements and policies, and urban transportation systems. No student may earn credit for both 4753 and 5753. (Sp)

RCPL 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean; May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

RCPL 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor; May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

RCPL 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing and permission of instructor; May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

RCPL 5003 The Global City and Planning Issues 3 Credit Hours

(Slashlisted with RCPL 4003; Crosslisted with GEOG 5003) Prerequisite: graduate standing. An introduction to the concept of globalization and its effects on cities, and the city planning issues related to those effects. Characteristics, theories, and strategies of city development are reviewed. Cities are observed from several perspectives: natural and built environment, governance, society, economics, and history. No student may earn credit for both 4003 and 5003. (Sp)

RCPL 5013 History and Theory of Urban Planning 3 Credit Hours

(Crosslisted with P SC 5013) Prerequisite: open to seniors in social science departments, civil engineering and architecture, and to graduate students in regional and city planning. An introductory course on the history and theory of contemporary planning, focusing on the physical, social, institutional and economic structure and dynamics of human settlements, and on the role and responsibilities of the professional planner. (F)

RCPL 5033 Sociology of Housing 3 Credit Hours

(Slashlisted with RCPL 4033; Crosslisted with SOC 5033) Prerequisite: Graduate standing, departmental permission, and instructor permission. This course introduces students to socioeconomic, political, and equity issues in housing. Students will engage with planning and policy issues to understand the history of housing and interventions for diverse populations. Topics will cover primarily U.S. Housing policy and practices with some comparative international examples. No student may earn credit for both 4033 and 5033. (Irreg.)

RCPL 5053 Planning Management 3 Credit Hours

Prerequisite: 5525. Planning management draws on the skills and experiences in previous courses, internships, and/or planning studio to prepare students for the day-to-day life of a professional planner. Topics covered include planners' roles in a democratic society, citizen participation, planning ethics, communication and presentation skills, project management, proposal and grant writing, and systems management. (Sp)

RCPL 5063 Planning with Diverse Communities 3 Credit Hours

(Slashlisted with RCPL 4063) Prerequisite: Graduate standing, and departmental or instructor permission. As cities become more diverse, planning with various communities becomes increasingly complex and challenging. This course is intended to introduce students to issues related to diversity and inequality. Aspects of diversity (e.g., race/ethnicity, gender, class, sexuality, national origin, abilities, etc.) and their intersections with planning and urban policy and development issues are discussed. No student may earn credit for both 4063 and 5063. (Irreg.)

RCPL 5113 Urban Planning Research Methods 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. Introduces the basic research and statistical methods used by urban planners and related professions. The course emphasizes application of statistical methods to urban planning problems. (F)

RCPL 5173 Urban and Regional Analysis 3 Credit Hours

(Crosslisted with ECON 5173) Prerequisite: Graduate standing and RCPL 5113 or equivalent. A lecture-seminar-problems-oriented course designed to acquaint the student with the scientific techniques used to analyze urban and regional social, economic, political and environmental problems. Oriented to reflect requirements for studies leading to the preparation of goals, policies and plans for urban and regional scale development. (Sp)

RCPL 5203 Urban Land Use Controls 3 Credit Hours

(Crosslisted with SOC 5203) Prerequisite: open to seniors in social sciences, architecture and civil engineering, and to graduate students in regional and city planning. A study of the historical development of property systems; of zoning law, ordinance preparation, and administrative procedures; of subdivision regulations and other codes used in the regulation and control of land use. (Sp)

RCPL 5213 Principles and Practice of Urban Planning 3 Credit Hours

(Slashlisted with RCPL 4213; Crosslisted with GEOG 5213) Prerequisite: open to seniors in social science departments, architecture and civil engineering, and to graduate students in regional and city planning. Examines the physical, social, economic, and public interest determinants of land use; the economic, population, and land use studies required to provide the basis for planning; space and location requirements and design characteristics for residential, commercial, industrial, and public uses of land; and the study of urban traffic as a function of land use in terms of structure and systems. No student may earn credit for both 4213 and 5213. (F)

- RCPL 5263 Infrastructure Planning 3 Credit Hours**
(Slashlisted with RCPL 4263) Prerequisite: Graduate standing and permission of instructor. This course focuses on an overview of major infrastructure systems; the relationship between larger planning goals such as growth management, economic development, and sustainability and infrastructure; and municipal budgeting and financing techniques for infrastructure projects. No student may earn credit for both 4263 and 5263. (F)
- RCPL 5273 International Development Planning 3 Credit Hours**
(Slashlisted with RCPL 4273) Prerequisite: Graduate standing and permission of instructor. This course is for students interested in improving the quality of life for people living in the developing world. It will explore what has been tried, what has been learned, and what are the current challenges in expanding human opportunity through international development efforts in middle- and low-income countries. No student may earn credit for both 4273 and 5273. (Sp)
- RCPL 5283 Public Health and the Built Environment 3 Credit Hours**
(Slashlisted with RCPL 4283) Prerequisite: Graduate standing and permission of instructor. This class will cover how addressing public health and planning issues together will address our environment, infrastructure costs, health, and quality of life. How we plan the built environment is an essential part of the equation for improving physical activity levels, decreasing air quality pollutants, and increasing transportation options. No student may earn credit for both 4283 and 5283. (Irreg., Sp)
- RCPL 5293 Food Systems Planning 3 Credit Hours**
(Slashlisted with RCPL 4293) Prerequisite: Graduate standing and permission of instructor. The course will provide a foundational understanding of the social, spatial, economic, and environmental processes that influence food availability, access, consumption, and governance in the United States. Students will acquire an ability to interpret, analyze, and discuss food systems as one component of planning more sustainable forms of urban, suburban, and rural development. No student may earn credit for both 4293 and 5293. (Irreg., Sp)
- RCPL 5353 State and Local Public Finance and Budgeting Systems 3 Credit Hours**
(Crosslisted with P SC 5353) Prerequisite: graduate standing or permission. An overview of the process and methods for local capital improvement programs and capital budget preparation, and an examination of the relationships between local development policies and fiscal decision making, including revenue potential. (Irreg.)
- RCPL 5453 Public Mass Transportation Systems 3 Credit Hours**
Prerequisite: Graduate standing; CEES 3884 or permission of instructor. Service characteristics of the principal modes of public mass transportation with emphasis on urban transit (fixed-route bus, light rail, subways, commuter rail, paratransit, taxi); legislation and regulations; institutional structures; financing; need and demand studies; planning strategies; management; operations and record keeping; case studies of leading systems. (Irreg.)
- RCPL 5463 Geographic Information Systems for Land Use Planning 3 Credit Hours**
(Slashlisted with RCPL 4463) Prerequisite: Graduate standing or permission of instructor. This introductory course is concerned with theories, models, and techniques for geographical information systems (GIS) and its associated spatial data management, spatial analysis, and quantitative modeling within a GIS environment for effective socio-economic decision-making for problems in the field of regional and city planning. Introduces the regional and city planning applications of microcomputer-based mapping and geographic information systems. No student may earn credit for both 4463 and 5463. (F)
- RCPL 5483 Urban and Regional Transportation Planning 3 Credit Hours**
Prerequisite: graduate standing or permission. Characteristics of urban and regional passenger and freight demand; travel demand forecasting methodologies; long- and short-range planning strategies; role of governments; characteristics of major modes of transport; decision-making strategies; case studies. (Sp)
- RCPL 5493 Transportation and Land Development 3 Credit Hours**
(Crosslisted with CEES 5493) Prerequisite: graduate standing or permission. Study of interactions between land development activity and the transportation network. Application of planning and design techniques to manage the impacts of development upon the transportation system.
- RCPL 5513 Subdivision and Planned Unit Development Planning 3 Credit Hours**
(Slashlisted with RCPL 4513) Prerequisite: Graduate standing and departmental permission. The course provides students from a range of disciplines with a foundational understanding of social, ecological, and physical conditions that influence the design of the built environment. Specifically, the course explores historical and contemporary trends in site planning and urban design as a means of encouraging students to think more critically about designing a more sustainable built environment. No student may earn credit for both 4513 and 5513. (Sp, Irreg.)
- RCPL 5522 Comprehensive RCPL Project: Reporting and Implementation 2 Credit Hours**
Prerequisite: Graduate standing. The second course in a two-course sequence intended to fulfill the 5-credit studio requirement in Masters of Planning curriculum and Studio V in the MLA curriculum. Focusing on data analysis and presentation of recommendations to a community. Involving quantitative or qualitative analysis of gathered data, the development of recommendations and the preparation of professional deliverables to a client. Laboratory. (F, Sp, Su)
- RCPL 5523 Comprehensive RCPL Project: Research and Plan Making 3 Credit Hours**
Prerequisite: Graduate standing. First course in a two-course sequence intended to fulfill the 5-credit studio requirement in Masters of Planning curriculum and Studio V in the MLA curriculum. Focusing on data collection for community projects and community engagement aspects of professional planning practice. These elements are often the most time consuming elements of professional practice and usually precede actually "plan making". Laboratory. (F, Sp, Su)

RCPL 5525 Comprehensive Regional And City Planning Project 5 Credit Hours

Prerequisite: RCPL 5513 or RCPL 5515. Theories, Concepts, And Methods Used To Develop And Implement A Comprehensive Regional Or City Plan. Topics Include The Methods To Assess, Analyze, Plan, And Implement The Elements Of A Comprehensive Plan Such As Citizen Participation, Human Settlement Issues, Demographics And Economics, Environmental Factors, Infrastructure Systems, Transportation Systems, Land Use, Community Facilities, And Typical Legally Mandated City Planning Processes. Laboratory. (F)

RCPL 5713 Urban Economic Development Planning 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. An introductory course on planning for economic development in the United States at the local, substate and state level. Topics include organizing the economic development planning process, identifying appropriate development strategies, the role of different community components, business attraction and retention, infrastructure issues, industrial parks, financing, training, and programmatic assistance currently available. (Sp)

RCPL 5723 Community Development and Revitalization 3 Credit Hours

Prerequisite: graduate standing or permission. An overview of community development, revitalization and preservation programs, their historical context, principles and procedures, current approaches and function in the planning process. Topics also include housing, public/private cooperation, financing methods, historic issues, legal context and case studies. Laboratory (F, Sp)

RCPL 5753 Transportation Geography and Planning 3 Credit Hours

(Slashlisted with RCPL 4753; Crosslisted with GEOG 5753) Prerequisite: Graduate standing. This course is intended to introduce students to the world of transportation planning and geography by explaining the importance of transportation from local to global and by engaging them in everyday transportation activities. Topics include, but not limited to, the history of transportation, the relationships between transportation and geography, transportation managements and policies, and urban transportation systems. No student may earn credit for both 4753 and 5753. (Sp)

RCPL 5813 Environmental Planning Methods 3 Credit Hours

Prerequisite: graduate standing or permission. An introduction to the use of environment factors in the urban planning process. Current methodologies for minimizing detrimental environmental impacts are introduced and applied to case study examples. Alternative approaches are compared and contrasted.

RCPL 5893 Historic Preservation Planning 3 Credit Hours

Prerequisite: Graduate standing. Through this course, students will: understand and be able to articulate the social and economic values associated with preservation; Gain exposure to and understanding of local, state and federal guidelines for delineation and regulation of historic districts and buildings; Develop case studies in economic feasibility and adaptive reuse, reconstruction and rehabilitation; Understand the role of the State Historic Preservation Office. (F)

RCPL 5960 Directed Readings 1-6 Credit Hours

1 to 6 hours. Prerequisite: Graduate standing; enrollment in regional and city planning; May be repeated; maximum credit six hours. Designed to permit the individual student to read extensively in one or more phases of urban or regional planning. (F, Sp)

RCPL 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor; May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

RCPL 5980 Research for Master's Thesis 2-9 Credit Hours

2 to 9 hours. Prerequisite: Graduate standing and majors only. Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

RCPL 5990 Special Studies in Urban and Regional Planning 2-6 Credit Hours

2 to 6 hours. Prerequisite: Graduate standing; enrollment in regional and city planning; May be repeated with change of subject matter; maximum credit 15 hours. A research problems course designed for the specific needs of students desiring intensive study in a specialized phase of urban or regional planning. Studies are provided in urban and regional analysis, community organization and action programs, and similar areas of concern. Laboratory (F, Sp, Su)

RCPL 6520 Field Studies 1-6 Credit Hours

1 to 6 hours. Prerequisite: Graduate standing; RCPL 5213, RCPL 5613, enrollment in regional and city planning or permission of staff. Provides the individual student with practical experience in working on a professional staff on a specific planning project. The design of the project and the staff situation under which the student will work is carefully controlled to provide opportunity for significant and meaningful experience. (F, Sp, Su)

RCPL 6643 Urban Design Theory 3 Credit Hours

(Crosslisted with L A 6643 and ARCH 6643) Prerequisite: graduate standing. A survey of theory relevant to the urban design process, including social and behavioral concepts, visual and aesthetic theory, spatial and geographic factors of urban form. (Sp)

RCPL 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor; May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

RCPL 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor; May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

RCPL 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Cheng	Wenwen		2020	ASSISTANT PROFESSOR, LANDSCAPE ARCHITECTURE DIVISION	PhD, Texas A&M, 2020; MLA, Peking University, 2014; BLA, Beijing Forestry University, 2012

¹ Any graduate level course at the 5000 or 6000 level, or 'G' designated undergraduate course at the 3000 or 4000 level may be taken that is appropriate to the student's interests and area of specialization. Students are encouraged to work with an advisor, either the Division Director or the Graduate Liaison, to develop a package of appropriate electives. Allied departments at OU that may have useful

offerings include Anthropology, Architecture, Art, Biology, Business Administration, Construction Science, Civil Engineering, Environmental Science, Communications, Geography, Geology, Health and Exercise Sciences, Human Relations, Political Science, Regional and City Planning, and Sociology.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

RCPL 5893	Historic Preservation Planning	3

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

DODGE FAMILY COLLEGE OF ARTS AND SCIENCES

Ellison Hall
633 Elm Avenue
Norman, OK 73019-3109
Phone: (405) 325-2077
FAX: (405) 325-7709

Inquiries should be directed to:
Dodge Family Student Success & Advising Center
240 Physical Sciences Center
Student Success Center (ou.edu)
Phone: (405) 325-4411

Administrative Officers

David Wrobel, Dean
Rhonda Dean-Kyncl, Associate Dean for Students
Georgia Kosmopoulou, Associate Dean for Research
Michael Markham, Associate Dean for Academic Programs
Kelvin White, Associate Dean for Faculty Development and Community

General Information

History and Purpose

The Dodge Family College of Arts and Sciences is the oldest and largest of the degree-recommending colleges at the University of Oklahoma. Established in 1892 as the College of Liberal Arts, the college granted its first degree in 1898. Today, as then, the liberal arts and sciences provide the foundation for the OU educational experience, through which we prepare our students to live productive and successful lives as citizens of a democracy.

The Dodge Family College of Arts and Sciences is responsible for providing all of OU's undergraduate students with a core curriculum that exposes them to both the natural and social environments in which they live and helps them view and analyze the world from different perspectives and to arrive at their own opinions. Students majoring in one of the college's degree programs receive additional education in world language and the humanities. Our goal is to graduate students who can communicate clearly, both in writing and orally; think creatively; reason

and act ethically; serve as leaders of their professions and their local and global communities; and continue to learn after they leave OU. By providing a broad-based education, the college seeks to enrich the lives of our students, both as individuals and as active, productive members of society. To accomplish these goals, we bring together talented students and dedicated teacher-scholars in an environment that supports learning and personal development and is, in turn, supported by the donations of our alumni and friends to produce the best educational experience possible, anywhere.

The degrees offered by the college provide a strong foundation for further professional or graduate studies and for pursuing employment in a wide variety of endeavors.

Teacher Certification Programs

Arts and Sciences students with approved majors may also work toward completion of an Oklahoma teaching certificate for secondary education through the Alternative Certification program. For more information concerning teaching certificate programs, consult an academic counselor in the Dodge Family College of Arts and Sciences.

Honors Degrees

All of the bachelor's degree programs offered by the Dodge Family College of Arts and Sciences are available to qualified students as honors degree programs. Students may graduate with Latin Honorifics (*cum Laude*, *Magna cum Laude*, *Summa cum Laude*) if they successfully meet the GPA requirements in addition to their regular degree program requirements. Please refer to the Honors College (p. 1617) section of this catalog for specific information regarding research opportunities and admission into the Honors College for a special notation on your final transcript.

Optional Opportunities

Additional Bachelor's Degrees

Additional bachelor's degrees may be earned from the Dodge Family College of Arts and Sciences by satisfying specific requirements beyond those required for a first degree from the college. Students may earn degrees from the college concurrently, or students holding a bachelor's degree from the Dodge Family College of Arts and Sciences or another college within the University or from another institution may qualify for an additional (consecutive) degree. To earn an additional bachelor's degree from the Dodge Family College of Arts and Sciences, a student must:

1. Choose a major different from that of the prior degree(s).
2. Satisfy all current requirements of the additional degree program.
3. Earn a minimum of 30 credit hours in Arts and Sciences courses not applied toward a previous degree, 24 of which must be upper-division.
4. Earn a minimum 2.00 average on all work attempted for the additional degree.
5. At least 15 of the last 30 hours applied toward the second degree must be completed in residence at the University of Oklahoma.

Credit-hour limitations set for the first bachelor's degree from the Dodge Family College of Arts and Sciences will not be extended for an additional degree (i.e., if the college's 12 independent study hours were applied to an earlier degree, no additional independent study may be taken).

Double Majors

Students may earn two majors as part of a single degree. Only one degree will be awarded but the transcript will indicate both majors. The degree will be awarded when requirements for both majors are completed.

Courses used to fulfill minor requirements may not be used toward either major.

Programs Offered

- College of Arts and Sciences Administrated Programs (p. 168)
 - Community Health, B.A. (p. 177)
 - Community Health, B.S. (p. 179)
 - Latinx Studies, B.A. (p. 181)
 - Planned Program, B.A. (p. 183)
 - Planned Program, B.S. (p. 185)
 - Public Health, B.P.H. (p. 187)
 - Approved Public Health and Community Health Major Electives (p. 189)
 - Applied Statistics, Minor (p. 190)
 - Applied Statistics Minor Course Lists (p. 190)
 - Data Analytics, Minor (p. 191)
 - Data Analytics Minor Course Lists (p. 192)
 - Enterprise Studies, Minor (p. 193)
 - International Enterprise Studies, Minor (p. 193)
 - Latinx Studies, Minor (p. 194)
 - Public and Community Health, Minor (p. 195)
 - Applied Statistics, Undergraduate Certificate (p. 195)
 - Applied Statistics Undergraduate Certificate Course Lists (p. 196)
 - Data Analytics, Undergraduate Certificate (p. 196)
 - Data Analytics Undergraduate Certificate Course Lists (p. 197)
 - Community Health, B.A./Epidemiology, M.P.H. (p. 198)
 - Community Health, B.A./Health Promotion Sciences, M.P.H. (p. 201)
 - Community Health, B.S./Epidemiology, M.P.H. (p. 203)
 - Community Health, B.S./Health Promotion Sciences, M.P.H. (p. 206)
 - Applied Statistics, M.S. (p. 209)
 - Applied Statistics M.S. Approved Elective Courses (p. 209)
 - Criminal Justice (Online), M.S. (p. 209)
 - Criminal Justice, Master of Science Elective Course List (p. 210)
 - Human & Health Services Administration (Online), M.A. (p. 210)
 - Integrative Studies (Online), M.A. (p. 211)
 - Integrative Studies Master of Arts Elective Course List (p. 212)
 - Organizational Leadership (Online), M.A. (p. 213)
 - Organizational Leadership Approved Graduate Electives (p. 214)
 - Applied Statistics, Graduate Certificate (p. 214)
 - Applied Statistics Graduate Certificate Course Lists (p. 215)
 - Corrections Management (Online), Graduate Certificate (p. 216)
 - Corrections Management Graduate Certificate Approved Electives List (p. 216)
 - Criminal Justice Administration (Online), Graduate Certificate (p. 217)
 - Data Analytics, Graduate Certificate (p. 217)
 - Data Analytics Graduate Certificate Course Lists (p. 218)
 - Drug Policy Management (Online), Graduate Certificate (p. 219)
 - Organizational Leadership (Online), Graduate Certificate (p. 220)
 - Restorative Justice Administration (Online), Graduate Certificate (p. 220)
 - Restorative Justice Administration Graduate Certificate Approved Electives (p. 220)
- Clara Luper Department of African and African-American Studies (p. 221)

Programs & Facilities

Oklahoma Archeological Survey

111 E. Chesapeake St., Norman, OK 73019-5111

Phone: (405) 325-7211

archsurvey@ou.edu

www.ou.edu/archsurvey

Established in 1970, the Oklahoma Archeological Survey is a state agency with regulatory authority, as well as a unit of the Dodge Family College of Arts and Sciences.

The Survey's enabling legislation charges the Survey with three basic mandates:

1. to conduct research on Oklahoma's prehistoric and early historic archaeological record,
2. to work with the citizens of Oklahoma to preserve significant archaeological resources, and
3. to disseminate information on our activities through publications, public presentations and other means of outreach.

The Archeological Survey has two divisions: Organized Research and the Community Assistance Program. The Survey also serves as the centralized repository for records on archaeological sites in the state (currently holding information on some 23,000 locations). Personnel of the Archeological Survey consists of seven research faculty, along with graduate and undergraduate students, and volunteers who perform a wide range of research, managerial, and educational activities. The Survey faculty also teach classes through the Department of Anthropology.

Biological Station

15389 Station Rd., Kingston, OK 73439-8744

Phone: (405) 325-7430, or (580) 564-2478

deptemail@ou.edu

www.ou.edu/uobs/

The University of Oklahoma Biological Station is a permanent field station located on the north shore of Lake Texoma, approximately 120 miles from Norman, and is subject to all rules and regulations that govern the University of Oklahoma. The station's primary mission is to promote research and education in ecology and field biology. Our facilities are open to students and scientists world-wide for research and study, and the Biological Station participates significantly in ecological and evolutionary research at national and international levels.

Primary academic goals include biological instruction, experimentation, and exploration as it relates to the University of Oklahoma student. However, the scientific and study programs have been enlarged to incorporate four main areas. They are:

1. the constant updating of curriculum necessary for quantitative and experimental courses for graduate and undergraduate students;
2. year-round ecological research by resident faculty and/or collaborating investigators from other institutions;
3. providing a base for sabbatical/short-term study by the national and international research community and;
4. providing an ideal meeting site for academic and/or other educational non-profit institutions.

The Biological Station does not offer a degree program, although credit obtained is directly applicable toward the requirements of the degree-recommending colleges of the University. Scholarships, graduate research fellowships and assistantships, work-study assistance, and independent study are also available. Inquiries should be sent to the director. The Biological Station's major instructional emphasis is on two-week courses offered in May and August at the Station. Field-research participation is also available for undergraduate and graduate students, as well as grade school, high school, and college teachers.

Oklahoma Biological Survey

111 E. Chesapeake St., Norman, OK 73019-5111
Phone: (405) 325-4034
biosurvey.ou.edu/

The Oklahoma Biological Survey, established in 1927, is both a research unit of the Dodge Family College of Arts and Sciences and a state agency recognized through 1987 legislation. The mission of the Survey is to scientifically investigate the diversity of plants and animals in Oklahoma and associated regions and to contribute to conservation and education concerning these important resources. The Survey includes:

1. the General Biological Survey program;
2. the Oklahoma Natural Heritage Inventory;
3. the Bebb Herbarium jointly operated with the Department of Microbiology and Plant Biology;
4. the Oklahoma Fishery Research Laboratory jointly operated with the Oklahoma Department of Wildlife Conservation; and,
5. the Sutton Avian Research Center, a bird conservation center located in Bartlesville, Oklahoma.

Personnel in the Survey include faculty, staff, graduate students and undergraduates who engage in a wide range of research, teaching and service activities.

Carl Albert Congressional Research and Studies Center

630 Parrington Oval, Room 101, Norman, OK 73019-4031
Phone: (405) 325-6372
carlalbertcenter@ou.edu
www.ou.edu/carlalbertcenter

The Carl Albert Congressional Research and Studies Center is a nonpartisan institution devoted to teaching and research related to the United States Congress and more broadly to strengthening representative democracy through engaged and informed citizens. The Center is concerned with the health of our modern representative democracy. Its mission embraces three principal functions – teaching, research, and public service. The Center offers academic programs in congressional

studies at both the graduate and undergraduate levels. Believing that professional research is the foundation upon which its academic programs rest, the Center promotes original research by faculty members and students into various aspects of politics and the Congress. Further, the Center's congressional archive provides a national resource available to historians, political scientists, the media, and public interested in the health of our representative institutions. The Center actively strives to promote a wider understanding and appreciation of the Congress through its various public service programs. Traveling and online exhibits promote understanding of Oklahoma history and congressional policymaking. The Center also provides programs, archives talks, and lectures which offer the local community the opportunity to engage in discussion of public affairs. Outreach to K-12 teachers extends the impact of the Center to younger students. Taken together, these diverse aspects of the Carl Albert Center constitute a unique resource for scholarship and research related to the United States Congress.

In cooperation with the Department of Political Science, the Center sponsors a unique four-year graduate fellowship program leading to a doctoral degree in political science with special emphasis on Congress and representative government. The Center also offers research fellowships to a select group of undergraduate students who participate with political science faculty members in collaborative research projects.

In seeking to foster a wider understanding and appreciation of Congress through civic education, the Carl Albert Center sponsors the biennial Julian J. Rothbaum Distinguished Lecture in Representative Government, which is among the most distinguished lecture series of its kind and has resulted in a book series published by The University of Oklahoma Press.

Twice each year the Carl Albert Center publishes the journal *Extensions* as a forum for discussion of representative government. *Extensions* is also available in electronic format on the Center's website.

As a participating partner in the National Education for Women's (N.E.W.) Leadership Development Network, the Carl Albert Center sponsors an annual institute to educate, empower, and inspire a select number of undergraduate women throughout the State of Oklahoma for active participation in politics and public service. The Center also sponsors for undergraduate students the Capitol Scholars and Community Scholars programs, which are intensive academic internship experiences at either the State Capitol or in the local government and non-profit community.

Students and others who are interested in learning more about these various opportunities should visit the Carl Albert Center website.

Advanced Center for Genome Technology

The Advanced Center for Genome Technology (ACGT) has played an important role in revealing the essence of life processes, and is actively engaged in the sequence and functional annotation of several genomes of health and agricultural importance. The OU ACGT provides the powerful tools of genomics and functional genomics to researchers at the University of Oklahoma and information to users around the world. Under the direction of Drs. Bruce Roe and Tyrrell Conway, the facility has been designated a Genome Center by the National Human Genome Research Institute (NIH-NHGRI) since 1990 and provides a comprehensive microarray core facility and database that handles all aspects of this complex technology seamlessly.

Center for Applied Social Research

The Center for Applied Social Research (CASR) applies innovative concepts and methods in social sciences to advance complex, multi-faceted organizational, policy, and public health research. CASR

approaches critical emerging issues that influence institutional policies and practices from an interdisciplinary perspective to enhance our understanding of human social behavior and develop practical solutions to real-world problems.

Center for Classical Archaeology and Civilizations

The Center for Classical Archaeology and Civilizations seeks to introduce Oklahoma students to the larger world of the Mediterranean in the context of its history and culture. Therefore, with a focus on undergraduate education, the Center strives to make the past 'come alive' for students who participate in its symposia, colloquia, summer institutes, seminars, conferences, and archaeological projects. The Center also serves as a forum for national and international discussion of multiple issues that relate to the ancient Mediterranean world. Special attention is given to new archaeological evidence and how it applies to the interpretation of the ancient past.

Center for Risk & Crisis Management

The Center for Risk & Crisis Management is an interdisciplinary research center at the University of Oklahoma that studies risk, risk perception and crisis management in several substantive domains. The areas of research interest and expertise include energy and the environment, weather and climate, national security and terrorism, and the social dynamics surrounding complex controversial technologies.

Cognitive Science Research Center

The Cognitive Science Research Center (CSRC) is an interdisciplinary research center at the University of Oklahoma focused on understanding individual differences in human performance and identification of risk factors that degrade, enhance, or extend cognitive performance capabilities. CSRC researchers emphasize the application of computer-based technology for assessing neurocognitive performance in these endeavors.

Center for Social Justice

The Center for Social Justice is an initiative of the Department of Women's and Gender Studies to promote gender justice, equality, and human rights through local and global engagement.

Knee Center for Strong Families

The Knee Center for Strong Families sponsors academic and community-oriented programs in the fields of social work, public health (including mental health), and fine arts in three core areas: Visiting lectureships, workshops, seminars, meetings of scholars, conferences, symposia, and forums; planning grants or "seed money" to develop programs that might have continuous funding from other sources; and underwriting research on the planning and development of educational programs to enhance family life in Oklahoma.

Environmental Studies Resource Center

The Environmental Studies Resource Center, located in Sutton Hall room 303, contains a collection of books, videos, and other materials related to environmental issues in general.

Film & Media Studies Library and Media Lab

The Film and Media Studies Library and Media Lab, located in Wallace Old Science Hall, holds a large collection of screenplays, DVDs, and VHS cassettes for reference. A student media lab is also housed in the library, enabling FMS majors to check out digital filmmaking equipment and to edit digital film projects.

Language Learning Center

The Department of Modern Languages, Literatures and Linguistics is home to the computerized Language Learning Center, located in Kaufman Hall. Here students can utilize audio, live international television programming, video, and interactive computer tutorials for Arabic, Mandarin Chinese, French, German, Hebrew, Italian, Japanese, Portuguese, Russian, and Spanish languages and literatures. Placement exams are administered in the lab for French, German, Japanese, Russian, and Spanish.

Library Resources

In addition to the extensive collections housed in the Bizzell Memorial Library, Arts and Sciences students have access to two notable special collections, the History of Science and Western History collections, as well as two branch libraries and two special collections housed within departments.

The History of Science Collection, located on the 5th floor of Bizzell Memorial Library, is a premier research collection in its field. Holdings of nearly 100,000 volumes from every field and subject area of science, technology and medicine range chronologically from Hrabanus Maurus, *Opus de universo* (1467) to current publications in the history of science. The Darwin collection consists of all of Darwin's works in their first editions and several autographed letters, as well as hundreds of subsequent editions and translations.

The Western History Collections is a special collection within the University of Oklahoma Libraries system. Its purpose is to enhance the University Libraries general collection on the history of the American West; to support the research and teaching programs of the University of Oklahoma; and to provide opportunities for research through the acquisition, preservation, and access of materials relating to the development of the Trans-Mississippi West and Native American cultures.

There are two branch libraries in addition to the larger collections that house materials of importance to Arts and Sciences students. The Chemistry-Math Library, located in the Physical Sciences Center, contains a collection of approximately 80,000 books (including reference materials, periodicals, and monographs) and subscribes to more than 500 journals and continuing serials. The Physics Library, housed in Nielsen Hall, contains 28,000 books and subscribes to 170 journals for physics and astronomy majors. They also have full text access to additional journals.

The Department of Communication's Julian P. Kanter Political Communication Archives, housed in Burton Hall, holds what is generally considered as the world's largest library of broadcast political advertisements, with approximately 80,000 archived political commercials.

The Women's and Gender Studies Library, housed in Robertson Hall, includes over 1,700 books and over 100 films that focus on women's subjects.

Native American Languages Program

The Dodge Family College of Arts and Sciences, through Native American Language Program, promotes the teaching, maintenance, and preservation of Native American languages. Classes are taught in several languages by native speakers with training in linguistics. These languages satisfy both the college's and the University's language requirements.

OU Observatory

The OU Observatory, operated by the Homer L. Dodge Department of Physics and Astronomy, offers free public viewing sessions using a 16-inch LX-200 telescope permanently mounted in a dome on campus.

Computing Resources

In order to meet the challenges of the 21st century, graduates of the Dodge Family College of Arts and Sciences must be able to research problems, gather, evaluate, and analyze information and present the results in a logical coherent manner. The college provides a number of technology resources and computing facilities to help students develop these skills. See Online and Academic Technology Services for more information.

Variorum Chaucer

401 W. Brooks St., Norman, OK 73019
Phone: (405) 325-6702
www.ou.edu/variorum/

As a unit of the Dodge Family College of Arts and Sciences, the Variorum Chaucer project has a two fold mission: 1) to provide an analysis of the textual history of Chaucer's individual works; 2) to offer a comprehensive overview of all facets of critical commentary on each work. Textual analysis begins with collation, a careful word-by-word comparison of important manuscripts and printed editions of the work in question; in most cases some thirty or so copies are examined. The process allows one to see how copyists and editors, from the 15th century to the late 20th century, understood, revised, presented, and explained the language of Chaucer's works. The survey of criticism seeks to provide a historical survey of all commentary on each aspect of a given work: sources and analogues, date, relationship with other Chaucerian works, all relevant thematic considerations, and individual passages, phrases, and words.

Undergraduate Study Student Responsibilities

It is the student's responsibility to make decisions during undergraduate study that ensure academic success and timely graduation. To make such important decisions, it is crucial that students know and understand the following:

- All requirements for admission to and completion of the degree program.
- The rules and regulations that govern enrollment and graduation.
- University deadlines.
- University policies and procedures.
- Availability of required courses to complete the degree.
- Where and when to go for help.

The University provides a number of resources for students to help them meet their academic responsibilities successfully. These include:

- **Informational publications** such as this catalog, A Guide to Scholarships and Financial Aid, and degree requirement check sheets;
- Dodge Family College of Arts & Sciences website;
- **Academic Advisors** in the Academic Services office and departmental offices
- **Peer tutors** for assistance with many of the lower-division courses;
- Writing Center, which is available to students seeking assistance with writing assignments; and

- **Faculty**, who teach, advise, and later write letters of recommendation for students.

It is the student's responsibility to seek out and make use of the resources provided by the University.

Undergraduate students who experience academic difficulty are strongly encouraged to use the appropriate academic support services provided by the University. Students who have questions about these services should consult their academic advisor within their declared major.

Students who need help with coursework beyond the help available from peer tutors or the instructor may wish to consult with the department offering the course to inquire about the availability of other tutors. Most departments maintain a list of tutors, primarily graduate students within the department. These tutors provide services for a fee arranged between the student and the tutor.

Admission to the Dodge Family College of Arts and Sciences

The minimum requirements for admission to the college are:

1. A declared Arts and Sciences major;
2. At least a 2.00 (C) combined retention grade point average on all college-level work attempted (transfer students with fewer than 60 hours at least a 2.50 GPA); and
3. At least 24 semester credit hours of earned college-level credit.

Some major programs have admission requirements beyond the minimums set by the college.

The freshman year at the University of Oklahoma is spent in University College, which is not a degree-granting college. University College provides an advisory system for freshmen and assists students in choosing a major. University College students are invited to visit the academic advisor housed within the departments in which they have an interest. Transfer to the Dodge Family College of Arts and Sciences from University College is automatic upon completion of the minimum requirements for admission listed above.

Transfer Students

The Dodge Family College of Arts and Sciences welcomes students who wish to transfer from other colleges or universities. Transfer students who have completed at least 24 semester credit hours will be admitted directly into the Dodge Family College of Arts and Sciences if they meet the University's admission requirements. Transfer students who have earned fewer than 24 semester credit hours will be admitted to University College.

The Office of Admissions will determine acceptance of credits from the transferring institutions. The Dodge Family College of Arts and Sciences will determine how the credits apply toward the requirements for an Arts and Sciences degree. All new transfer students who are directly admitted to the Dodge Family College of Arts and Sciences must meet with an academic counselor prior to their first enrollment at the University of Oklahoma.

Transfer students should pay particular attention to the following requirements for graduation from the University of Oklahoma:

- At least 60 semester credit hours must be earned at accredited senior (4-year) institutions.

- At least 48 semester hours of upper-division credit (courses numbered 3000 or above) must be earned. Transfer work is counted as lower-division or upper-division depending on the level at which it was offered at the institution *where it was earned*. Two-year college work is accepted only as lower-division credit.
- Residency: this is defined as coursework taken at the University of Oklahoma, excluding correspondence courses.
 - A minimum of **30** semester credit hours applied toward the degree must be earned in residence at the University of Oklahoma.
 - At least **15 of the final 30** hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the University of Oklahoma.
 - At least **15** semester hours of upper-division **major** credit applied to the degree must be earned in residence at the University of Oklahoma.
 - Credit transferred from other institutions and credit earned through OU correspondence courses is non-resident credit. Credit earned by examination is considered neither resident nor non-resident for the purposes of these calculations.
 - Capstone courses must be taken through the University of Oklahoma unless a substitution is approved by the academic department awarding the degree.

Change of Major/College

A student who wishes to change major fields within the Dodge Family College of Arts and Sciences must fill out a Change of Major Form. This digital form can be completed anytime during business hours within the Hobson Academic Services Center. The student should then schedule an advisement session with the professional staff advisor in the department of the new major. To select a major in another college, the student should contact that college.

Advising Services

The college provides advising services to all undergraduate majors through professional staff advisors in the major departments and through the Hobson Academic Services office.

The Cal Hobson Academic Services Center of the Dodge Family College of Arts and Sciences is located in 124 Ellison Hall. Academic counselors in this office are knowledgeable about programs offered by the college. They assist students with choice of major, transcript evaluation, enrollment, graduation requirements, graduation certification, minors, and any problems of an academic nature. Counselors are available throughout the year. Students may schedule appointments with their counselor at iAdvise.

Students who have earned at least 90 credit hours (earned hours plus current enrollment) should schedule an appointment with an academic counselor in the Academic Services office to determine the remaining requirements for graduation ("degree check").

Seniors must consult with their academic counselor prior to the beginning of their final semester or term to ensure that their final enrollment will complete all remaining graduation requirements. In order to graduate seniors must also complete a graduation application form and submit it during their final term of enrollment prior to published deadlines.

Pre-Law Advising

Undergraduates can pursue admission to law school with any bachelor's degree, although many pre-law students choose history, Letters, or political science. OU has a full-time pre-law advisor dedicated to students who wish to attend law school. The pre-law advisor can offer guidance in not only course selection, but can also assist students in choosing a major that fits their needs and interests. As students proceed through college, the pre-law advisor is available to counsel them through the various stages of law school preparation, application, and selection. See Pre-Professional Advising for more information.

Pre-Medical Professions Advising

OU is one of the few universities in the nation to provide two full-time advisors to guide Pre-Medical Professions students through the process of completing prerequisite requirements, the MCAT and the medical school application process. A variety of workshops are also provided for Pre-Medical students, including a "Personal Statement and Interview Skills" workshop. These workshops prepare students to be stronger applicants to various medical schools across the country. Students may major in any academic area as OU undergraduates, as long as they take the pre-requisite pre-Med courses. Students interested in Pre-Medical Professions typically receive a bachelor's degree, often in a biological science, before applying to medical school. See Pre-Professional Advising for more information.

Academic Advisors

The Dodge Family College of Arts and Sciences requires all undergraduate majors to meet with their professional academic advisor in their major department each semester prior to enrollment.

The Arts and Sciences professional academic advisors have special expertise in degree program planning, due to their knowledge of the discipline, courses, methods of teaching, and special opportunities available through the major departments. In addition, they can provide information about potential careers and assist with plans for graduate study. Visit Arts & Sciences Academic Advising to find your assigned academic advisor.

Enrollment Information

Credit Hour Regulations

The maximum course load in a fall/spring semester is 19 total hours and 9 hours in the summer term. A student who has established a strong academic record may request to exceed the maximum enrollment hours by petition to their academic counselor.

Change of Enrollment

Deadlines for enrollment, adding a course, and dropping a course are published in the Academic Calendar. *It is the student's responsibility to meet deadlines set by the University for changing an enrollment.*

Pass/No Pass Enrollment

Students have the option of taking a course Pass/No Pass (P/NP). To prevent possible bias in grading, the student's choice of the P/NP option will not be made known to the instructor who will assign the letter grade. The final P/NP grade will be assigned automatically, by computer, on the basis of the letter grade reported by the professor. The grade of P is assigned to a course in which the student earned the equivalent of a C or better. The grade NP is assigned to a course in which the student earned a D or an F. **No credit is given for a course graded NP.** Courses graded P/NP are not calculated into the student's grade point average.

There are three very important restrictions to Pass/No Pass enrollment in the Dodge Family College of Arts and Sciences:

- A student may enroll in a maximum of 16 hours of courses under the P/NP option throughout their academic career.
- A student may **not** use the P/NP option for courses taken to satisfy University General Education requirements, Arts and Sciences college requirements, major credit courses, major support requirements, or minor requirements. Only courses used to fulfill free electives may be taken under the Pass/No Pass option.
- A student may change registration in any course from the P/NP option to a regular graded status (or vice versa) **only** during the first two weeks of a semester or the first week of a regular summer session.

Enrollment Contract

Students are on enrollment contract with the Dodge Family College of Arts and Sciences if their OU and/or Combined GPA is below a 2.00. Students will be notified of their contract status after grades have been posted at the end of each semester. A college Hold is placed on their record until the students raise their GPA back to the required 2.00 or above. Contract students will be required to sign a new contract each semester their GPA remains below the required 2.00. Call 405.325.4411 for more information.

Academic Forgiveness Policy

The Academic Forgiveness Policy (p. 46), instituted by the Oklahoma State Regents for Higher Education, allows students, under certain circumstances, to have courses removed from the calculation of the retention grade point average. It consists of three components: the repeat policy and reprieve policy, and the renewal policy. These are described in the Academic Standards section of this catalog.

Students should contact the assistant dean in the Hobson Academic Services Center for instructions concerning the process of requesting academic forgiveness.

Graduation Requirements

Rules, Regulations, and Requirements for Undergraduate Programs

The responsibility for meeting graduation requirements lies with the student.

The requirements for graduation from the Dodge Family College of Arts and Sciences are listed on the next several pages. The requirements for a specific degree come from four separate sources:

1. the Oklahoma State Regents for Higher Education;
2. the faculty of the University of Oklahoma;
3. the faculty of the Dodge Family College of Arts and Sciences; and
4. the faculty of a school or department, or the faculty committee administering a special curriculum.

Degree programs normally have four components:

- University-Wide General Education requirements,
- Arts and Sciences college requirements,
- Major requirements, and
- Free electives.

The specific requirements for majors and minors are listed in the Academic Units section of this catalog and on the degree requirement check sheets (p. 55).

Certification of completion of graduation requirements is the responsibility of the Hobson Academic Services Center. If grades for the last term of enrollment prior to the planned date of graduation are not adequate for degree completion, students should immediately contact their academic counselor. The counselor will assist the student in establishing another graduation date.

Graduation Grade Point Average Requirements

The Dodge Family College of Arts and Sciences requires a minimum 'C' (2.00) average in each of the following areas:

- Students must earn a minimum of a 2.00 combined retention grade point average (University of Oklahoma and transfer work combined).
- Students must earn a minimum of a 2.00 retention grade point average on all University of Oklahoma coursework.
- Students must earn a minimum of a 2.00 retention grade point average in all major credit courses (University of Oklahoma and transfer work combined), and a 2.00 retention grade point average in major credit courses taken at the University of Oklahoma. **Some schools and departments in the Dodge Family College of Arts and Sciences have established additional higher grade point requirements for their students.** Please refer to the Academic Units for detailed information.

Ten-Year Limitation Rules

A student in the Dodge Family College of Arts and Sciences may elect to graduate under the degree plan in effect at the time of their first enrollment in the state system provided they complete the work for a degree within a maximum of 10 calendar years from the time of their first enrollment in the state system. If the work for a degree covers a period longer than 10 years, the college, in consultation with the student, will determine the degree plan to be in effect for that student's graduation.

Credit in a student's major that is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the major department, or each individual department if the major is interdisciplinary.

Credit Hour Regulations

Please read this section carefully. Each of the following credit hour regulations must be satisfied to earn a bachelor's degree from the Dodge Family College of Arts and Sciences. Refer to individual degree program check sheets for specific requirements.

- A minimum of **120** semester credit hours **applicable towards an Arts and Sciences degree** must be earned, excluding physical education activity courses.
- A minimum of **80** semester credit hours must be earned in liberal arts and sciences courses for a Bachelor of Arts degree. A minimum of **55** semester credit hours must be earned in liberal arts and sciences courses for a Bachelor of Science degree. "Liberal arts & sciences courses" are defined by the State Regents as courses in the humanities; social and behavioral sciences; communication; natural and life sciences; mathematics; and the history, literature and theory of the fine arts (music, art, drama, and dance). This excludes fine arts courses that focus primarily on performance techniques or involve mostly studio work.
- A minimum of **60** semester credit hours must be earned at accredited senior (4-year) institutions.

- A minimum of **48** semester hours of upper-division credit (courses numbered 3000 or above) must be earned at accredited senior institutions. **Transfer work is counted as lower-division or upper-division depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.**
- A minimum of **30** semester credit hours must be earned in the major, including a minimum of **15** semester credit hours at the upper-division level.
- **Residency:** this is defined as coursework taken at the University of Oklahoma, excluding correspondence courses.
 - A minimum of **30** semester credit hours applied toward the degree must be earned in residence at the University of Oklahoma.
 - At least **15 of the final 30** hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the University of Oklahoma.
 - At least **15** semester hours of upper-division **major** credit applied to the degree must be earned in residence at the University of Oklahoma.
 - A student must be listed as a Dodge Family College of Arts and Sciences student at the time of graduation.
 - Credit transferred from other institutions and credit earned through OU correspondence courses is non-resident. Credit earned by examination is considered neither resident nor non-resident for the purposes of these calculations.
 - Capstone courses must be taken through the University of Oklahoma unless a substitution is approved by the academic department awarding the degree.
- No more than **16** semester credit hours earned under the Pass/No Pass option will apply toward the degree. Refer to the Dodge Family College of Arts and Sciences section on P/NP Enrollment.
- No more than **12** semester credit hours earned in all individualized study courses, e.g., Independent Study and Directed Readings, but excluding Honors Reading and Honors Research, will be counted as part of the minimum 120 semester credit hours required for graduation.
- No courses may be repeated for credit unless specified “repeatable for credit” in the course description of this catalog or the University’s course inventory. Refer to the course description for the number of times or hours a course can be repeated.
- Students recommended for the bachelor’s degree must achieve a grade point average of 2.0 as a minimum on all course work attempted, excluding any courses repeated or reprieved as detailed in the State Regents’ Grading Policy and excluding physical education activity courses.

University-Wide General Education Requirements

All bachelor’s degrees offered by the Dodge Family College of Arts and Sciences include the following minimum general education requirements:

Courses for fulfillment of these requirements must be chosen from the University-Wide General Education Approved Course List, published by the University.

Core Area I: Symbolic and Oral Communication (9–19 hours, 3–5 courses):

1. English Composition (6 hours, 2 courses),
2. Language (met with the college requirement),
3. Mathematics (3 hours, 1 course),
4. Other (may be used when additional credit hours are needed to bring the total hours completed to 40. Approved courses in this area include communication, logic and public speaking).

Core Area II: Natural Science (met with the college requirement)

Core Area III: Social Science (6 hours, 2 courses): P SC 1113 U.S. Government, plus one additional social sciences course chosen from the approved list.

Core Area IV: Arts and Humanities (12 hours, 4 courses):

1. Artistic Forms (3 hours, 1 course),
2. Western Culture (6 hours, 2 courses), 3 of these 6 hours must be HIST 1483 or HIST 1493,
3. World Culture (3 hours, 1 course).

Core Area V: First-Year Experience (3 hours, 1 course)

Students must also take at least one upper-division General Education approved course outside the student’s major.

Arts and Sciences College Requirements

Courses for fulfillment of these requirements must be chosen from the University-Wide General Education Approved Course List published by the University.

All bachelor’s degrees offered by the Dodge Family College of Arts and Sciences require the following minimum college requirements:

I. Science (7 hours, 2 courses, consisting of one biological science and one physical science course. One of the courses must include a laboratory.)

II. Language (0–13 hours. One course at the intermediate level or demonstrated competency at that level. Students may need to complete one or two courses at the introductory level prior to enrolling in an intermediate course. Language courses transferred from another institution must be equated to an OU intermediate-level course or evaluated by OU. Competency at the intermediate level will also fulfill the General Education Language requirement.)

III. Additional Core IV Arts and Humanities courses (6 upper-division hours, 2 courses at the 3000-level or above. Must be outside the major and selected from approved courses in Artistic Forms, Western Culture, or World Culture.)

Application for Graduation

Students are responsible for filing an official graduation application during their final semester. Graduation applications are available online at one.ou.edu. Failure to file the graduation application will result in the student not being eligible for graduation during that semester or term. Those students who plan to graduate in the fall are strongly encouraged to apply for graduation before September 15; those finishing in the spring before February 15; and those finishing in the summer before June 1. In addition to completing all academic requirements for the undergraduate degree, students must also pay all tuition and fees before the degree can be conferred. Students who complete all academic requirements but fail to pay tuition and fees before the beginning of the following semester or

session will have the original graduation date printed on their diploma, but only after all tuition and fees are paid.

Degree Check

Students who have earned 90 or more credit hours should schedule a degree check with their academic counselor in the Hobson Academic Services Center. At this appointment the counselor will review the student's transcript and how the completed courses will apply to the degree program. At the conclusion of the degree check, the student will know exactly how the earned credits apply to their degree as well as what courses and how many hours are required to graduate. It is crucial for students to complete the degree check so they will know exactly where they are on the track to graduation. Students may schedule a degree check appointment at iAdvise.

Graduate Study

Refer to the Graduate tabs within each of the Arts and Sciences academic units' pages of this catalog for information concerning graduate work.

- Department of Anthropology (p. 228)
- School of Biological Sciences (p. 253)
- Department of Chemistry and Biochemistry (p. 295)
- Department of Communication (p. 343)
- Department of Economics (p. 355)
- Department of English (p. 367)
- Environmental Studies (p. 393)
- Department of Film and Media Studies (p. 401)
- Department of Health and Exercise Science (p. 408)
- Department of History (p. 423)
- Department of History of Science, Technology, and Medicine (p. 440)
- Department of Human Relations (p. 455)
- Schusterman Program in Judaic and Israel Studies (p. 476)
- School of Library and Information Studies (p. 481)
- David and Judi Proctor Department of Mathematics (p. 503)
- Department of Modern Languages, Literatures, and Linguistics (p. 528)
- Department of Native American Studies (p. 580)
- Shyam Dev Patwardhan Department of Philosophy (p. 592)
- Homer L. Dodge Department of Physics and Astronomy (p. 603)
- Department of Political Science (p. 623)
- Department of Psychology (p. 661)

- Department of Sociology (p. 715)
- Department of Women's and Gender Studies (p. 733)

Student Success Center

Mission

The Student Success Center shares the Dodge Family College of Arts and Sciences' mission to prepare students for lives of professional accomplishment, civic engagement, personal fulfillment, and lifelong learning. The center supports the development and implementation of high-impact curricula, in the form of undergraduate research, internships, study abroad or study away, service and community-based learning, and other forms of ethically engaged experiential learning. High-Impact teaching practices allow students to deepen their learning by applying

the skills and knowledge they gain from Arts and Sciences coursework in a range of real-world contexts. Participation in these has been shown to increase student engagement, persistence, and degree completion. The Student Success Center is committed to increasing equity of access to these opportunities, ensuring that financial and logistical barriers never stand between a student and their goals.

Academic Achievement

Recognition of Academic Achievement

Dean's Honor Roll

The Dodge Family College of Arts and Sciences Honor Roll is compiled at the close of each fall and spring semester. It includes students who have completed at least 12 grade point hours and have earned an average of 3.50 or higher for the semester.

Scholarships and Awards

Scholarships and awards are given annually to students who have achieved academic excellence. Among the many scholarships available only to Arts and Sciences majors are the College of Arts and Sciences Leadership Scholars scholarships, awarded to sophomores, juniors and seniors, and Phi Beta Kappa scholarships awarded to juniors and seniors.

The prestigious Carl Albert Award is given annually to the Arts and Sciences senior who best demonstrates superior academic achievement, moral force of character, and the promise of future service to the state and nation. Each year, the college also awards four outstanding students, each student representing one of the college's four divisions: natural sciences, humanities, social sciences, and professional programs.

The Dodge Family College of Arts and Sciences offers approximately 160 scholarships annually through the dean's office and many other scholarships through its various departments and schools. Students should consult the college's website or the University's publication *A Guide to Scholarships and Financial Aid* for further information. The *Guide* is available on the Financial Aid Services website.

Phi Beta Kappa

Phi Beta Kappa, the nation's oldest college honor society, was founded at the College of William and Mary in 1776. Alpha Chapter of the University of Oklahoma was chartered in 1920. Membership in Phi Beta Kappa is open by invitation only to juniors and seniors in the Dodge Family College of Arts and Sciences, the Gaylord College of Journalism, and a limited number of other programs.

Juniors and seniors with distinguished academic records are elected in March/April of each year. Students who graduate at the end of the summer session or fall semester are eligible for election the following spring. For additional information about the University's Phi Beta Kappa chapter, contact the Dodge Family College of Arts and Sciences Academic Services office, or visit the Phi Beta Kappa website.

College Honorary Organizations

Several of the departments and schools within the Dodge Family College of Arts and Sciences participate in national honorary societies, and others have established University of Oklahoma honorary organizations. Students should check with their major department for this information.

College of Arts and Sciences Administrated Programs

- Community Health, B.A. (p. 177)
- Community Health, B.S. (p. 179)
- Latinx Studies, B.A. (p. 181)
- Planned Program, B.A. (p. 183)
- Planned Program, B.S. (p. 185)
- Public Health, B.P.H. (p. 187)
- Applied Statistics, Minor (p. 190)
- Data Analytics, Minor (p. 191)
- Enterprise Studies, Minor (p. 193)
- International Enterprise Studies, Minor (p. 193)
- Latinx Studies, Minor (p. 194)
- Public and Community Health, Minor (p. 195)
- Applied Statistics, Undergraduate Certificate (p. 195)
- Data Analytics, Undergraduate Certificate (p. 196)
- Community Health, B.A./Epidemiology, M.P.H. (p. 198)
- Community Health, B.A./Health Promotion Sciences, M.P.H. (p. 201)
- Community Health, B.S./Epidemiology, M.P.H. (p. 203)
- Community Health, B.S./Health Promotion Sciences, M.P.H. (p. 206)
- Applied Statistics, M.S. (p. 209)
- Criminal Justice (Online), M.S. (p. 209)
- Human & Health Services Administration (Online), M.A. (p. 210)
- Integrative Studies (Online), M.A. (p. 211)
- Organizational Leadership (Online), M.A. (p. 213)
- Applied Statistics, Graduate Certificate (p. 214)
- Corrections Management (Online), Graduate Certificate (p. 216)
- Criminal Justice Administration (Online), Graduate Certificate (p. 217)
- Data Analytics, Graduate Certificate (p. 217)
- Drug Policy Management (Online), Graduate Certificate (p. 219)
- Organizational Leadership (Online), Graduate Certificate (p. 220)
- Restorative Justice Administration (Online), Graduate Certificate (p. 220)

Bachelor's Degrees

Latinx Studies, B.A.

Latinx Studies is an interdisciplinary course of studies in literature, politics, history, culture, and society. Students can pursue a primary course of study (a Planned Program) or take courses toward a minor to create a valuable supplement to any major whether in the humanities, sciences, or social sciences.

- Latinx Studies, B.A. (p. 181)
- Latinx Studies, Minor (p. 194)

Public and Community Health

Public and community health programs focus on population health (e.g. the community, group, city level), instead of individual patient health. These programs build from the OU core curriculum and build knowledge and skills necessary for work public health, community health, and related fields. We want to understand what factors contribute to health, what factors contribute to injury or disease, prevent poor health

outcomes, and promote healthy populations. Public health is a very broad field of study, incorporating many disciplines, to develop solutions to complex health issues (for example: access to healthcare, substance abuse, workplace injury, infectious disease outbreaks).

- Community Health, B.A. (p. 177)
- Community Health, B.S. (p. 179)
- Public Health, B.P.H. (p. 187)

Planned Programs

The Planned Program options offer students the opportunity to design a degree program that meets their own unique needs and interests, particularly when their interests diverge from the pre-determined options offered by the University. Students in this major will work closely with an academic advisor in the development of their degree program and selection of appropriate courses for their concentration.

- Planned Program, B.A. (p. 183)
- Planned Program, B.S. (p. 185)

Minors

- Applied Statistics, Minor (p. 190)
- Data Analytics, Minor (p. 191)
- Enterprise Studies, Minor (p. 193)
- International Enterprise Studies, Minor (p. 193)
- Latinx Studies, Minor (p. 194)
- Public and Community Health, Minor (p. 195)

Undergraduate Certificates

- Applied Statistics, Undergraduate Certificate (p. 195)
- Data Analytics, Undergraduate Certificate (p. 196)

Master of Arts

Human & Health Services Administration, M.A.

The Human & Health Services Administration Master of Arts (p. 210) program addresses current issues and ethics in health care and provides students the opportunity to select a specific area for intensive study. This option is designed to accommodate students who are interested in furthering their preparation for advancement in the Human and Health Service Administration areas. The program provides a broad-based perspective of the health care and human service delivery systems, and is not designed to provide primary professional preparation. Students selecting this program must have a prior training and/or work history in an applicable area for job entry. This program is intended to serve as a mechanism for professional advancement by enhancing the student's competency level and expanding their administrative knowledge base.

Integrative Studies, M.A.

The Integrative Studies Master of Arts (p. 211) provides graduates with the necessary knowledge and skills to make positive, well-informed, and immediate contributions in their careers and communities. Curricular tracks are available in in Archaeoastronomy and Astronomy in Culture, Diversity, and a Self-Design track for direct student research in clearly delineated areas of study.

Organizational Leadership, M.A.

The Organizational Leadership Master of Arts (p. 213) (MAOL) degree provides an applied approach to the study and practice of leadership. The MAOL program enables students to increase their ability to lead others and develop the skills needed to enhance the overall leadership capacity of the organizations where they work, consult, or serve. Students will expand their self-awareness, learn how to improve the performance of individuals, teams, and organizations, and gain knowledge about how to develop these vital leadership skills in others. The program is designed to meet the needs of working adults while maintaining a commitment to providing affordable, high-quality education and an enjoyable learning experience.

Master of Science

Applied Statistics, M.S.

The objective of the graduate degree in Applied Statistics (p. 209) is to provide a pathway for students with diverse disciplinary interests to develop authoritative and practical expertise in applying statistical methods to analyzing data across disciplinary boundaries. Further, the program is designed for adult learners who may already be practicing professionals to increase their skills in applied statistics within various business and nonprofit contexts.

Criminal Justice, M.S.

The Criminal Justice Master of Science (p. 209) program focuses on the practices and knowledge bases needed to be a successful in the criminal justice workforce. Students explore both the theoretical aspects of criminal justice and applied practices. Combining the knowledge of specific, work-related principles with the mind-set of a liberal education, allows students to approach new ideas, projects, and challenges by drawing upon multiple perspectives. Electives in the Criminal Justice program can be utilized to pursue specific areas of interest and to develop greater depth of expertise in particular areas of criminal justice study, such as leadership/administration, restorative justice, drug abuse policy & management, or corrections.

Graduate Certificates

- Applied Statistics, Graduate Certificate (p. 214)
- Corrections Management (Online), Graduate Certificate (p. 216)
- Criminal Justice Administration (Online), Graduate Certificate (p. 217)
- Data Analytics, Graduate Certificate (p. 217)
- Drug Policy Management (Online), Graduate Certificate (p. 219)
- Organizational Leadership (Online), Graduate Certificate (p. 220)
- Restorative Justice Administration (Online), Graduate Certificate (p. 220)

Accelerated Programs

- Community Health, B.A./Epidemiology, M.P.H. (p. 198)
- Community Health, B.A./Health Promotion Sciences, M.P.H. (p. 201)
- Community Health, B.S./Epidemiology, M.P.H. (p. 203)
- Community Health, B.S./Health Promotion Sciences, M.P.H. (p. 206)

Courses

CAS 1523 Gateway to Belonging at OU 3 Credit Hours

This course teaches critical thinking skills and supports students in developing a true understanding of others, as well as a sense of belonging at OU and beyond. It offers students an opportunity to consider how they have formed their own beliefs and opinions and how they can interact with one another to gain the most from their college experience. (F, Sp, Su) [V-FYE].

CAS 1543 Ethical and Intercultural Leadership 3 Credit Hours

This course offers students an exploration of ethical and intercultural leadership through an interdisciplinary lens. Students will have an opportunity to practice ethical and moral decision-making and other competencies, skills, and attitudes that are beneficial for leading and facilitating intercultural groups in the campus and community environments. (F, Sp, Su) [V-FYE].

CAS 1553 Gateway to the Sciences 3 Credit Hours

This course enriches the first-year experience. Students explore and discuss how various fields of science impact society and learn about their research methods. Students develop an awareness of the rich diversity of scientists and scientific disciplines. Students get to know faculty and advisors from various departments. Students are empowered through the development of foundational knowledge and skills. (F, Sp, Su) [V-FYE].

CAS 1563 Gateway to the Social Sciences 3 Credit Hours

This course enhances the first-year experience by cultivating a supportive student community that thrives on interactive learning. Participants will actively examine how diverse fields within the realm of social sciences influence society, and gain insights into their research methodologies. Students will also gain an understanding of the rich diversity of scientific disciplines within the social sciences. (F, Sp, Su) [V-FYE].

CAS 1573 Gateway to the Humanities 3 Credit Hours

This course enhances the first-year experience by cultivating a supportive student community that thrives on interactive learning. Participants will actively examine how diverse fields within the realm of the Humanities influence society, and gain insights into their research methodologies. Students will also gain an understanding of the rich diversity of disciplines within the Humanities. (F, Sp, Su) [V-FYE].

CAS 2091 Career Planning for Arts and Sciences Students 1 Credit Hour

Assist students to determine personal career goals, explore career opportunities beyond graduation, develop a strategy for the job search process, and improve job search techniques as life-long resource tools. (F, Sp)

CAS 2970 Special Topics 1-3 Credit Hours

1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

CAS 3002 Digital Scholarship Internship 2 Credit Hours

Prerequisite: junior standing or permission of instructor. Provides the opportunity to learn technological means of communicating academic information to the public. Such digital skills are increasingly necessary in a global job market. Students will reflect upon and integrate their practical experiences learning technological communication formats into their major, minor, or study abroad coursework, incorporating how the internship illuminates and augments a particular aspect of academic research. (F, Sp, Su)

- CAS 3091 Career Planning for Arts and Sciences Students** **1 Credit Hour**
Prerequisite: CAS major; must have completed 30 hours. Assist students to determine personal career goals, explore career opportunities beyond graduation, develop a strategy for the job search process, and improve job search techniques as life-long resource tools. (F, Sp)
- CAS 3440 Mentored Research Experience** **3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- CAS 3900 Study Abroad** **1-6 Credit Hours**
1-6 hours. Prerequisite: sophomore standing and completion of ENGL 1213, or permission of instructor. May be repeated; maximum credit 12 hours. Content/location varies. Enrollment in this course indicates that the student is participating in an OU study abroad program run by the College of Arts and Sciences, taught by OU faculty. They will study various cultural, historical, political, social, economic or linguistics issues relevant to understanding their study abroad environment in the specific country chosen and reflected in the course title. (Su)
- CAS 3901 Arts and Sciences Co-Op Program** **1 Credit Hour**
Prerequisite: concurrent participation in A&S Co-Op Program. Program allows students to work outside the university in a job related to the major. Enrollment in this course will be during a term in which a student is working full-time, with the cooperation of the employer, with the intent of returning to OU to continue with the degree requirements. Upon completion of the term's work, the student will write a paper describing their work experience and the relevance to their major. (F, Sp, Su)
- CAS 3960 Honors Reading** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- CAS 3970 Honors Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- CAS 3980 Honors Research** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- CAS 3990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- CAS 4113 Life After OU: A Survival Course** **3 Credit Hours**
Prerequisite: senior standing. Introduces students to practical aspects of life after college. Includes interviewing; legal aspects of employment; money, banking and finances; insurance; mortgages; estate planning; and civic involvement. (Irreg.)
- CAS 4630 CAS Internship** **1-6 Credit Hours**
1 to 6 hours. Prerequisite: CAS major; must have completed at least 30 hours; permission of instructor. May be repeated; maximum credit six hours. Provides hands-on experience for students in chosen field of study. (F, Sp, Su)
- CAS 4703 Multidisciplinary Capstone** **3 Credit Hours**
Prerequisite: senior standing and permission. Explores interdisciplinary topics through research, analysis, and writing. It will incorporate instruction in appropriate research methods, focus on contemporary issues from a global perspective, and prepare students to function as informed citizens in a democracy. Required readings will provide a common basis for discussion. (F, Sp) [V]
- CAS 4710 Entrepreneurship Internship** **1-3 Credit Hours**
Prerequisite: Student must have declared minor in enterprise studies. May be repeated for up to six hours credit. (F, Sp, Su)
- CAS 4960 Directed Readings** **1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- CAS 4970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- CAS 4990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- CAS 5003 Introduction to Grad Studies** **3 Credit Hours**
Prerequisite: graduate standing. Intensive seminar providing orientation to advanced interdisciplinary study, appreciation for standards of performance and scholarship appropriate to graduate study, development of skills necessary for success in academic research and writing in a graduate interdisciplinary program. (F, Sp, Su)
- CAS 5013 Interdisciplinary Foundations** **3 Credit Hours**
Prerequisite: graduate standing. Selected readings designed to reinforce the interdisciplinary approach to graduate studies and to introduce the concept of paradigms as an organizing principle for understanding and interpreting information. (F, Sp, Su)
- CAS 5043 Research Methods** **3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and CAS 5013; or permission of dean. Theories and techniques of research designed to prepare MLS students to carry out individual research on a topic within an interdisciplinary program of study. (F, Sp, Su)
- CAS 5073 Quantitative Research Methods for Interdisciplinary Studies** **3 Credit Hours**
Prerequisite: Graduate standing, CAS 5003 and CAS 5013 or permission from graduate advisor. Introduction to descriptive and inferential statistics for quantitative research in interdisciplinary studies. Includes use of graphs, frequency distributions, probability, central tendency, dispersion, hypothesis testing, tests of mean differences, and correlation. (F, Sp, Su)

CAS 5083 Qualitative Research Methods in Interdisciplinary Studies 3 Credit Hours

Prerequisite: graduate standing, CAS 5003 and CAS 5013; or permission of dean. An inquiry designed to acquaint students with qualitative research methods in interdisciplinary study. By the end of the course, the student will be familiar with the most common methods and issues qualitative research. Students will learn how to design a study; how to recognize and address ethical issues; and how to analyze qualitative data. (F, Sp, Su)

CAS 5700 Advanced Topics in Interdisciplinary Studies 2-9 Credit Hours

2 to 9 hours. Prerequisite: graduate standing. Intensive research on a topic related to the student's program of study; variable topics. (F, Sp, Su)

CAS 5920 Internship 2-6 Credit Hours

2 to 6 hours. Prerequisite: Graduate standing, CAS 5003, and permission of dean; May be repeated, maximum credit six hours. 450 hours of field experience directly related to study focus in the MA in Integrative Studies program (75 hours per credit hour of enrollment). Requirements include journal, reports, written summary, and comprehensive examination over these materials. (F, Sp, Su)

CAS 5940 Research Project 2-6 Credit Hours

2 to 6 hours. Prerequisite: Graduate standing, CAS 5003, CAS 5013, and completion of first concentration core class; May be repeated, maximum credit six hours. Development of creative or applied research project related to MA in Integrative Studies study focus. The final form will vary according to topic and purpose of the project but must include a written component. Comprehensive examination over the research project is required. (F, Sp, Su)

CAS 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

CAS 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CAS 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

CRJU 5013 Introduction to Criminal Justice 3 Credit Hours

Prerequisite: Graduate standing. This course provides a comprehensive overview of the American criminal justice system. Students will examine the historical foundations and evolution of key institutions, policies, and practices. A critical lens will be applied to analyze how structural inequality has contributed to disparate outcomes for marginalized groups. (F, Sp, Su)

CRJU 5063 Research Methods for Criminal Justice 3 Credit Hours

Prerequisite: graduate standing, CAS 5003 and CAS 5013; or permission of dean. Introduces students to conducting and evaluating scientific research of the criminal justice system. Research methods overview the basics of research methodologies, with a focus on measurement and data collection. Statistical analysis overviews basic statistical techniques for analysis of criminal justice data, with a focus on both descriptive and inferential statistics. (F, Sp, Su)

CRJU 5073 Quantitative Research and Analysis 3 Credit Hours

Prerequisite: Graduate standing and CRJU 5063; or permission of academic advisor. This course is designed as an introduction to quantitative statistical methods and their application in criminology and criminal justice research. The course features an overview of the use and interpretation of descriptive, inferential, and predictive statistics. Basic regression and data analysis techniques are discussed, along with bivariate and multivariate techniques. (F, Sp, Su)

CRJU 5083 Qualitative Research Methods in Criminal Justice 3 Credit Hours

Prerequisite: Graduate standing and CRJU 5063; or permission of academic advisor. This course is an introduction to the use of qualitative research methods and analysis in criminal justice research, including practical application of methods addressed in the course. (F, Sp, Su)

CRJU 5113 Theoretical Foundations of Criminal Justice 3 Credit Hours

Prerequisite: graduate standing. Enhances students' understanding of criminal theory focusing on critical analysis of major theoretical perspectives in a social, historical and political context. (F, Sp, Su)

CRJU 5133 Criminal Justice Policy Development 3 Credit Hours

Prerequisite: graduate standing. Students will learn how to measure policies against established standards of practice and case law, writing model policies to gain experience in the process, and evaluating policies to see if they actually work. (F, Sp, Su)

CRJU 5153 Ethical Decision Making in Criminal Justice 3 Credit Hours

Prerequisite: graduate standing. Principles from the major ethical positions charted by Plato, Aristotle, Hume, Mill, Kant, and Rawls. Students will combine these principles with codes of practice and current case law, examine case vignettes and discuss the ethical components of each case. (F, Sp, Su)

CRJU 5203 Victimology and Restorative Justice 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. A survey of the evolving field of victimology from its preoccupation with the study of the victim as a co-active participant in crime to the reemergence of the victim as the focus of the criminal justice system and public policy. This course will also examine the corollary reemergence of the concept of restorative justice, which seeks to address the needs of victims, offenders, and the community. (F, Sp, Su)

CRJU 5213 Mediation & Conflict Resolution for Criminal Justice Professionals 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of practical strategies for managing and resolving conflicts in criminal justice professions. (F, Sp, Su)

CRJU 5223 Community Corrections in the 21st Century 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. Introduction to the topics of probation, parole, and other alternatives to incarceration, collectively referred to as Community Corrections. Emphasis will be placed on the role of research and program evaluation in determining policy/program effectiveness. (F, Sp, Su)

CRJU 5263 Restorative Justice Programs for Drug Offenders 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An exploration of the restorative justice model focusing on how drug courts have implemented key principles of restorative justice programs to deter crime and improve public health. (F, Sp, Su)

- CRJU 5283 Human Trafficking and Prostitution 3 Credit Hours**
Prerequisite: Graduate standing, CAS 5003 and CRJU 5113. This course will unpack the international debate on trafficking and prostitution by examining the intersections of contemporary social issues, gender bias, poverty, social hierarchies, and culture that perpetuate human trafficking. We will critique mainstream trafficking frameworks that often result in re-victimization of vulnerable people and explore feminist debates on sex work and competing policy approaches to regulating sex work. (F, Sp, Su)
- CRJU 5303 Correctional Leadership 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. A review of leadership styles, core competencies demonstrated by effective correctional leaders, skills sets needed for each managerial level within corrections, and elements of leadership that effect the development of a collaborate and dynamic workforce. (F, Sp, Su)
- CRJU 5343 Mental Illness and the Criminal Justice System 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of mental illness in the criminal justice system. (F, Sp, Su)
- CRJU 5353 Women and Crime 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and CRJU 5113; or permission of dean. Provides an in-depth examination of women and crime, particularly in the United States, from a sociological perspective, focusing on theoretical explanations, women as offenders, women as victims of crime, and societal responses to female crime. (F, Sp, Su)
- CRJU 5363 Penology 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and CRJU 5113; or permission of dean. An exploration of key issues and emerging themes in scholarship on penology and corrections. Specific attention will be devoted to the United States and the significant correctional issues that it faces including theories of punishment, the history of incarceration, the current state of corrections in the United States, international comparisons in prisons, as well as an investigation of the future of incarceration. (F, Sp, Su)
- CRJU 5403 Drug Enforcement Operations and Management 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. This course will examine how criminal justice professionals administer and manage drug investigations. Administrative topics will include personnel issues, policy development, and budgeting. Operational management topics will include informant management, undercover operations, tactical operations, wire-intercepts, and money laundering investigations. (F, Sp, Su)
- CRJU 5413 Substance Abuse and Crime in the United States 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of substance abuse trends in the United States. Topics include the interrelationship between substance abuse and dependency, substance abuse treatment and the criminal justice system, and the effectiveness of drug policies and programs. (F, Sp, Su)
- CRJU 5423 Global Drug Trafficking, Narco-Terrorism, and United States Drug Policy 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of the global nature of drug supply and demand, organizations involved in drug trafficking and narco-terrorism, and the implementation of US drug policies at the local, state, and federal levels. (F, Sp, Su)
- CRJU 5463 Gangs in the United States 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and CRJU 5113; or permission of dean. Gang formation, risk factors for joining gangs, and the efficacy of different types of prevention, intervention and interdiction policies. The historical backgrounds of gangs, drugs, and violence in America, as well as current issues related to these subjects, will be explored. (F, Sp, Su)
- CRJU 5513 Studies in Police Leadership 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An exploration of the dynamics of leadership within the law enforcement context, including the history and evolution of police administration, general leadership theories, management best practices, as well as contemporary issues confronting the profession. (F, Sp, Su)
- CRJU 5533 Crime Analysis for Intelligence-Led Policing 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. Introduction to crime analysis and the use of data to intelligently prevent and/or interdict crime. (F, Sp, Su)
- CRJU 5583 Cyber-Forensics 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of the legal, ethical and technical aspects of cyber-forensics. (F, Sp, Su)
- CRJU 5700 Advanced Topics in Criminal Justice 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing. May be repeated with change of content; maximum credit 12 hours. Advanced studies in various criminal justice topics, offered under stated titles determined each semester by the instructor involved (F, Sp, Su)
- CRJU 5920 Internship in Criminal Justice 2-6 Credit Hours**
2 to 6 hours. Prerequisite: graduate standing, CAS 5003, and permission of dean. May be repeated; maximum credit six hours. 2-6 hours. Field experience directly related to study focus in the Criminal Justice program. Requirements include some combination of journal, progress reports, written summary of experiences, or academic paper, and a possible comprehensive examination over these materials. (F, Sp, Su)
- CRJU 5953 Demonstration Project 3 Credit Hours**
Prerequisite: Criminal Justice Majors only and graduate standing. The Demonstration Project is meant to be the culmination of the MS program in Criminal Justice. It gives students an opportunity to demonstrate the skills they have developed in the program, providing a "final experience" that fits with their specific interests. (F, Sp, Su)
- CRJU 5960 Directed Readings in Criminal Justice 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated with change of content; maximum credit 9 hours. In-depth study of literature on a topic related to the student's program of study; variable content. (F, Sp, Su)
- CRJU 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- CRJU 5980 Research for Master's Thesis 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing, CAS 5003, CAS 5013, and completion of first concentration course; or permission of dean. May be repeated; maximum credit six hours. Research and writing of a thesis for completion of PACS graduate degrees. (F, Sp, Su)

- CRJU 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- MST 5073 Technology for Museum Professionals 3 Credit Hours**
Prerequisite: Graduate Standing. Introduction to the theory and application of information technologies within museums including hardware, software, and the application of technology to the work of museum professionals. (F, Sp)
- MST 5083 Qualitative Research Methods 3 Credit Hours**
Prerequisite: Graduate Standing. This course is designed to acquaint students with qualitative research methods in library, archives, and museum settings. By the end of the course, students will be familiar with the most common methods and issues in qualitative research. Students will learn how to design a study; how to recognize and address ethical issues; and how to analyze qualitative data. (Sp)
- MST 5113 The World of a Museum 3 Credit Hours**
Prerequisite: graduate standing. Baseline course introducing all aspects of museums and museum careers including history, structure, operations, and theoretical underpinnings. (F, Sp, Su)
- MST 5133 The History and Architecture of Museums 3 Credit Hours**
Prerequisite: graduate standing. The course explores the history of museums with special emphasis on the architectural development and the special facilities requirements of museums; it will look at the physical requirements in terms of museum missions, functions, collections, and operations. (F, Sp, Su)
- MST 5143 Museum Studies Research Methods 3 Credit Hours**
Prerequisite: Graduate Standing. Methods of investigating museum studies problems; use of evaluation in planning for continuous quality assessment and improvement of museum policies, processes, and procedures; developing original research designs; evaluating research studies in museum topics. (F, Su)
- MST 5163 Museum Management and Leadership 3 Credit Hours**
Prerequisite: graduate standing. In-depth study of the philosophy, policies, and practices of museum governance, including such topics as ethics, board development, institutional mission and organization. (F, Sp, Su)
- MST 5173 Museums, Cultures, and Communities 3 Credit Hours**
Prerequisite: graduate standing. The course will focus on the complex issues among museums, diverse populations, and other public factors such as public and education programs, fundraising, public relations, marketing, etc. (F, Sp, Su)
- MST 5183 Collections Management 3 Credit Hours**
Prerequisite: graduate standing. This course will consider the place of collections in the life of a museum; how collections mesh with the museum mission; collections policies and stewardship. It will relate theoretical ideas on collection development and maintenance to the actualities of museum situations. (F, Sp, Su)
- MST 5190 Museum Project 2-4 Credit Hours**
2 to 4 hours. Prerequisite: graduate standing and permission of dean. May be repeated with change of subject; maximum credit four hours. Students will develop a project in their home museum or organization under the direction of an OU faculty member with an on-site supervisor or can come to OU for a project at one of the OU museums or special collections. (F, Sp, Su)
- MST 5203 Historic Preservation 3 Credit Hours**
Prerequisite: graduate standing. Introduction to the field of historic preservation, including identification, documentation, and presentation of historic buildings, sites, and structures. (F, Sp, Su)
- MST 5223 The House Museum 3 Credit Hours**
Prerequisite: graduate standing. Examination of the house as a museum. Topics include identifying historical significance and architecture, conservation and interpretation, and developing community involvement. (F, Sp, Su)
- MST 5243 The Small Museum 3 Credit Hours**
Prerequisite: graduate standing. Introduction to the history and nature of small museums in the United States. Topics include cultural significance, administration, finance, funding, staffing, program/exhibition development, community involvement, and partnership building. (F, Sp, Su)
- MST 5313 Museum Education 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and MST 5113; or permission of dean. Introduction to museum education, including object-based learning environments, and theory, an understanding of which fosters the development of effective motivating educational programs in museums. (F, Sp, Su)
- MST 5333 Introduction to Museum Interpretation 3 Credit Hours**
Prerequisite: Graduate standing; and CAS 5003 and MST 5113; or departmental permission. Introduces museum interpretation as a mode of communication to solicit informational experiences and inspire curiosity about a topic via media such as physical exhibits, educational programs, interactive designs, and virtual access. Given current demands for broader demographic inclusivity, the course also revisits conventional museum domains on who interprets what, with which sociocultural and ethnic background representing which segments of society. (F, Sp, Su)
- MST 5403 Museums and Native Cultures 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and MST 5113; or permission of dean. Designed for students to understand the representational history of native cultures in museums and the dynamic collaboration between a museum and a culture to accomplish an authentic and respectful presentation today. (F, Sp, Su)
- MST 5423 Controversy and the World of the Museum 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and MST 5113; or permission of dean. It is crucial that the museum professionals are acquainted with some of the most controversial exhibitions historically, as well as the ones from the 1990s along with an important discussion of the external legal, political, financial, and social forces that are crucial in influencing the course and the outcome of the examined cases. (F, Sp, Su)
- MST 5443 Federal Laws and Museums 3 Credit Hours**
Prerequisite: graduate standing. An examination of federal laws that impact decision-making for museum professionals. Course activities include the critique of museum collections and policies relating to federal laws such as the Archaeological Resources Protection Act, National Historic Preservation Act, Convention on Cultural Property Implementation Act, Native American Graves Protection and Repatriation Act (NAGPRA), and The Bald and Golden Eagle Protection Act. (F, Sp)
- MST 5700 Advanced Topics in Museum Studies 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing, CAS 5003 and MST 5113; or permission of dean. May be repeated with a change of content; maximum credit 12 hours. Topics offered under this course number will include but not be limited to: education and public programs; legislation and museum policies; exhibitions; museum stores, volunteers, and associations. (F, Sp, Su)

- MST 5763 Capstone 3 Credit Hours**
Prerequisite: Graduate standing; Museum Studies majors. The capstone is the comprehensive, end of program course where students engage in a project that applies the knowledge and skills learned in the program to professional topics. Under the supervision of the course instructor, the student will select a topic and project design. Projects may include, for example, in-depth literature reviews, research studies, or exhibit designs. The course should (F, Sp)
- MST 5920 Internship in Museum Studies 2-6 Credit Hours**
2 to 6 hours. Prerequisite: graduate standing, CAS 5003, and permission of dean. May be repeated; maximum credit six hours. 2-6 hours. Field experience directly related to study focus in the Museum Studies program. Requirements include some combination of journal, progress reports, written summary of experiences, or academic paper, and a possible comprehensive examination over these materials. (F, Sp, Su)
- MST 5930 Research Project in Museum Studies 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing, Museum Studies majors only, MST 5143 or MST 5083 or equivalent; may be repeated, maximum credit 3 hours. Research under faculty supervision. Development a research project related to Museum Studies. The final project requires a written report. (F, Sp, Su)
- MST 5960 Directed Readings in Museum Studies 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated with change of content; maximum credit 9 hours. In-depth study of literature on a topic related to the student's program of study; variable content. (F, Sp, Su)
- MST 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- MST 5980 Research for Master's Thesis 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing, CAS 5003, CAS 5013, and completion of first concentration core course; or permission of dean. May be repeated; maximum credit six hours. Research and writing of a thesis for completion of PACS graduate degrees. (F, Sp, Su)
- MST 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- OL 5013 Interdisciplinary Foundations for Leadership 3 Credit Hours**
Prerequisite: Graduate standing. An introduction to the concept of interdisciplinarity as an organizing principle for understanding and interpreting models, theories, and applications of leadership in a variety of organizational settings. Provides selected readings designed to reinforce the interdisciplinary approach to graduate studies in leadership. (F, Sp, Su)
- OL 5053 Research Methods in Organizations 3 Credit Hours**
Prerequisite: Graduate standing. Theories, techniques, and application of research designed to prepare leadership students to understand and respond to applied research involving organizational leadership and organizational settings. (F, Sp, Su)
- OL 5113 Theories of Management and Leadership 3 Credit Hours**
Prerequisite: graduate standing. This course explores and analyzes the concept of leadership including such topics as leadership theory, changing leadership roles, power, decision-making, empowerment, vision, communication, diversity, and ethics. (F, Sp, Su)
- OL 5133 Cultures of Organizations 3 Credit Hours**
Prerequisite: graduate standing. The course looks at the meaning of organizational culture and its significance for leadership behavior, ways of thinking about organizations and the structure of organizations, the implications for leaders, and other relationships between organizations and aspects of leadership. (F, Sp, Su)
- OL 5153 Ethics in Leadership 3 Credit Hours**
Prerequisite: Graduate standing. Students develop their leadership capacity by analyzing ethical considerations in global organizations. Students examine contemporary ethics cases, learning that many decisions fall into gray areas where the right answers may not be clear. By balancing the concepts of ethical reasoning with the organizational factors that influence ethical decision-making, students learn to make informed strategic decisions that affect global operations. (F, Sp, Su)
- OL 5173 The Individual and Leadership 3 Credit Hours**
Prerequisite: graduate standing. This course explores the social, psychological, and behavioral characteristics of leadership, personal skills that enhance leadership ability, and strategies for dealing with interpersonal problems in organizations. (F, Sp, Su)
- OL 5193 Creating, Leading, and Managing Change 3 Credit Hours**
Prerequisite: Graduate standing. An examination of effective leadership skills necessary to create and manage change in a variety of organizational settings. Topics include leadership styles in change management, organizational change strategies, models, and frameworks, and the potential barriers to change in organizations. (F, Sp, Su)
- OL 5203 Leadership Issues in Decision Making 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003, and OL 5113; or permission of dean. An interdisciplinary inquiry into the nature and attributes of rational and irrational decision making. Content will include research on how decisions must often be made with incomplete evidence, the use of cognitive psychology in decision making from a human intelligence perspective, and how decisions are made from a social and cultural process. Students will learn leadership decision making from individual, small group, and social environment contexts, as well as values of good decisions and the unintended consequences of poor decisions. (F, Sp, Su)
- OL 5223 Financial Leadership 3 Credit Hours**
Prerequisite: Graduate standing. Introduces foundational accounting principles and financial concepts for non-financial managers. Topics include analysis of financial reports, communication of financial data to organizational leaders and stakeholders, and financial planning. (F, Sp, Su)
- OL 5243 Project Management 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and OL 5113; or permission of dean. An interdisciplinary inquiry to simulate as closely as possible the real-world experience of managing a project for a client; the client participates in the grading for the course. Topics include: project planning, project execution, project control, project communication, client relations, performance oriented design, collecting information in the field, current operations analysis, specifications for a proposed solution, devising and evaluating alternatives, and implementation. (F, Sp, Su)

- OL 5283 Building High Performance Teams 3 Credit Hours**
Prerequisite: Graduate standing. Provides students with the knowledge needed to identify a group's current functioning and build the necessary conditions to create a high-performance team. Explores components of teams and examines the qualities of one who is capable of leading groups of people effectively. (F, Sp, Su)
- OL 5313 Organizational Communications 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and OL 5113; or permission of dean. An interdisciplinary inquiry in the role information and knowledge management play in making decisions in organizations, fundamental issues in the management of information, how people in organizations exchange information, and ultimately how effective sharing of information leads to effective problem solving. (F, Sp, Su)
- OL 5323 Fundraising and Budgeting 3 Credit Hours**
Prerequisite: Graduate standing. Provides students with an overview of the history, philosophy, and ethics of fundraising and development. Students will learn about building relationships, goal setting, communication, and how to build strategic fundraising plans to support a non-profit organization's vision. (F, Sp, Su)
- OL 5333 Motivation in Work and Leadership 3 Credit Hours**
Prerequisite: graduate standing. Exploration of personal and work motivation, including discussion of relevant theories and their application in leadership and the workplace. (F, Sp, Su)
- OL 5353 Non-Profit Governance 3 Credit Hours**
Prerequisite: Graduate standing. Provides students with an overview of key issues involved in the governance of nonprofit organizations and the role of nonprofit boards. Major governance models are examined and implications of using the different models are discussed. (F, Sp, Su)
- OL 5393 Followership 3 Credit Hours**
Prerequisite: graduate standing. Introduction to the follower and the dynamics that result from followership in various organizational settings. Topics include theories and definitions of followership, categorization of follower types, and discussion of how followers can be a positive influence against ineffective or bad leadership. (F, Sp, Su)
- OL 5403 Leadership in History 3 Credit Hours**
Prerequisite: graduate standing. Analysis of leadership principles using prominent examples drawn from history to discern patterns and test categories and theoretical generalizations of leadership. Discussions aim to facilitate the understanding of leadership in different historical contexts. Consideration is given to success and failure, the relative importance of personality vs. circumstances, leadership characteristics and styles. (F, Sp, Su)
- OL 5423 Women in Leadership 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and OL 5113; or permission of dean. Exploration of women leaders and their influence on their respective societies, as well as contributions on a broader spectrum. Special attention is focused on how women leaders from different eras became change agents and what particular issues made them transformational leaders. (F, Sp, Su)
- OL 5443 Religious Leaders for Social Justice 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and OL 5113; or permission of dean. Focuses on the characteristics of leaders as individuals, and in particular as individuals of faith for causes pertaining to social justice. Explores individuals from the major faith traditions including Christianity, Judaism, Islam, Buddhism, and Native American religion and investigates the ways in which faith and the particular constellation of life experiences and social situations have inspired leadership for the cause of social justice. (F, Sp, Su)
- OL 5463 US Military Leadership: Insights and Applications 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and OL 5113; or permission of dean. Studies leadership, both uniformed and civilian, in the United States military from 1775 to present within the context of the evolution of American military from a small 18th-century army and wooden ship-and-sail navy to the globe-dominating colossus of the late 20th-century. Includes the impact of technology, maturing military theory, and the changing position of the United States in the world that produced diverse leadership styles which are illustrated in the careers of military leaders such as George Washington, U.S. Grant, Robert E. Lee, David Farragut, John Pershing, Hap Arnold, George C. Marshall, and many others. (F, Sp, Su)
- OL 5483 National Security Leadership 3 Credit Hours**
Prerequisite: graduate standing. Discussion of leadership within the environment of the U.S. national security system. Course addresses the legislation that created the current national security system and examines the structure of the national security community, how it has evolved, and how it operates in practice. (F, Sp, Su)
- OL 5553 Assessment-Based Coaching 3 Credit Hours**
Prerequisite: Graduate standing. An examination of best practices for using assessment results to conduct data-driven leadership and executive coaching and to maximize coaching effectiveness. (F, Sp, Su)
- OL 5593 Development and Grant Writing 3 Credit Hours**
Prerequisite: Graduate standing. An in-depth exploration of the grant attainment process, including practical exercises in proposal writing and the grant review process. (F, Sp, Su)
- OL 5700 Advanced Topics in Administrative Leadership 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing. May be repeated with change of content; maximum credit 12 hours. Advanced studies in various administrative leadership topics, offered under stated titles determined each semester by the instructor involved. Intensive research on a topic related to the student's program of study; variable topics. (F, Sp, Su)
- OL 5903 Experiential Leadership I 3 Credit Hours**
Prerequisite: Graduate standing, CAS 5003 and OL 5113; departmental permission and permission from graduate advisor. The course equips students with skills critical to developing strategy and maximizing their impact in leadership roles, and develops advanced leadership tools including those designed to increase an organization's leadership capacity. (F, Sp, Su)
- OL 5913 Experiential Leadership II 3 Credit Hours**
Prerequisite: Graduate standing, CAS 5003 and OL 5113; permission from graduate advisor. Corequisite: OL 5903. Students critique personal leadership skills, abilities, and strategies to build a productive team through effective planning, coaching, and decision making. (F, Sp, Su)
- OL 5920 Internship in Administrative Leadership 2-6 Credit Hours**
2 to 6 hours. Prerequisite: graduate standing, CAS 5003, and permission of dean. May be repeated; maximum credit six hours. 2-6 hours. Field experience directly related to study focus in the Administrative Leadership program. Requirements include some combination of journal, progress reports, written summary of experiences, or academic paper, and a possible comprehensive examination over these materials. (F, Sp, Su)

OL 5953 Graduate Capstone in Organizational Leadership 3 Credit Hours

Prerequisite: Graduate standing, CAS 5003, OL 5903, OL 5113 and departmental permission. Experiential application of leadership development skills, abilities, and strategies to enhance individual leadership performance, build productive teams and organizations through effective strategic planning, employee selection, succession planning, talent management, and training and development. (F, Sp, Su)

OL 5960 Directed Readings in Administrative Leadership 2-9 Credit Hours

2 to 9 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated with change of content; maximum credit 9 hours. In-depth study of literature on a topic related to the student's program of study; variable content. (F, Sp, Su)

OL 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

OL 5980 Research for Master's Thesis 2-9 Credit Hours

2 to 9 hours. Prerequisite: graduate standing, CAS 5003, CAS 5013, and completion of first concentration course; or permission of dean. May be repeated; maximum credit six hours. Research and writing of a thesis for completion of PACS graduate degrees. (F, Sp, Su)

OL 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

PHCH 2013 Introduction to Public and Community Health 3 Credit Hours

Introduction to fields of public and community health, including principles of population health, determinants of health, prevention of disease and disability, public health institutions and systems, essential health services, the US healthcare system, health policy, and the role of advocacy and politics in public health. (F, Sp)

PHCH 3113 Introduction to Epidemiology 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213; PHCH 2013 or concurrent enrollment. Principles of epidemiology, the systematic approach to collecting and evaluating information on distributions of health outcomes in populations; history of epidemiology, descriptive epidemiology, epidemiologic methods, association and causation, evidence-based public health and applications. (F)

PHCH 3213 Health Policy, Law, and Ethics 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213; PHCH 2013 or concurrent enrollment. Examines the legal and ethical dimensions of public health, preparing students to make informed, ethical decisions in arenas such as policy development, clinical care, research, environmental health, occupational health, resource allocation, and genetics. (Sp)

PHCH 3313 Health Data and Statistics 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213; PHCH 2013 or concurrent enrollment. Introduction to the basic concepts, methods, and tools of public health data collection, use, and analysis. Specific topics may include biostatistical and epidemiological methods, informatics, and the use, management, and dissemination of big data. (Sp)

PHCH 3413 Health Communication 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213; PHCH 2013 or concurrent enrollment. Explores key concepts and strategies of communication specific to public health, including risk communication, the use of mass media for health communication, and evaluation of public health communication effectiveness. (F)

PHCH 3513 Public Health & Healthcare Systems 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213; PHCH 2013 or concurrent enrollment. Designed to introduce students from multiple disciplines to the fundamental characteristics of health care systems; the organization, financing, and delivery of services in the US health care system; the role of prevention and other non-medical factors in population health outcomes; key management and policy issues in contemporary health systems; and the process of public policy development. (F, Sp)

PHCH 3613 Determinants of Health 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213; PHCH 2013 or concurrent enrollment. Explores key social determinants of health, including: socioeconomic status, race/ethnicity, neighborhood environments, social relationships, and political economy. Mechanisms through which these factors are hypothesized to influence health, such as stress and access to health resources and constraints, will be discussed, as well as the ways in which these mechanisms can operate across the lifecourse. (F, Sp)

PHCH 3960 Honors Reading (HONORS) 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program; May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

PHCH 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

PHCH 4013 Community Health Capstone 3 Credit Hours

Prerequisite: PHCH 2013, senior standing, and 9 additional hours of PHCH coursework. Integrates knowledge and skills developed in previous coursework to prepare students to become impactful community health practitioners. Students will work in groups to develop, implement, and evaluate a community health project. (Sp) [V].

PHCH 4103 Environmental Health 3 Credit Hours

Prerequisite: Admission to BPH degree program or permission of instructor. The effects of environment on health. Consideration is given to urban water supply and wastewater disposal, air quality control, solid and hazardous wastes, and sanitation. No students may earn credit for both PHCH 4103 and OEH 5013. (Sp)

PHCH 4106 Cumulative and Experiential Public Health Activities 6 Credit Hours

Prerequisite: Admission to BPH program. Provides students with opportunities to integrate, synthesize, and apply knowledge through cumulative and experiential activities. Students will complete a cumulative applied or scholarly experience that may include either (a) an internship with a local-level public health professional and/or agency or (b) a faculty- mentored research project. (F, Sp)

PHCH 4113 Public Health Capstone 3 Credit Hours

Prerequisite: Admission to Bachelors of Public Health Program; senior standing. A specialized project-based culminating course for students accepted to the Bachelor's of Public Health program. Students will use knowledge and skills they have developed in their major to complete a project to address a specific public health issue. (Sp) [V].

PHCH 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

PHCH 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

PHCH 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: three courses in general area to be studied, permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

Community Health, B.A.

Minimum Total Credit Hours: 120

Major Hours: 33

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B217

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- 33 hours of major work must be completed. A grade of C or better must be earned in each course presented for major and major support credit.

Code	Title	Credit Hours

Total Credit Hours		56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Community Health academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Community Health major requirements.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Planned Program major requirements.

Planned Program, B.S.

Minimum Total Credit Hours: 120

Major Hours: 36

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B786 P511

- **48 Upper-Division Hours Required.**
- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**

Major Requirements

Every candidate for this degree must select an area of concentration, which is a set of courses with a coherent theme that meets the student's professional and personal goals. These courses must total a minimum of 36 credit hours, with a minimum of 50 percent of those hours completed at the upper-division level (3000-4000-level). Courses selected as fulfilling the major requirements must be reviewed by an academic counselor in the College of Arts and Sciences and approved by the Dean.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gedned/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition or EXPO 1213 Expository Writing	3
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>		
	Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)		

Biological Science

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO¹ 3-4

Physical Science

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS¹ 3-4

Core Area III: Social Science (6 hours)

P SC 1113 American Federal Government 3

Choose one course from the General Education Social Science list 3

Core Area IV: Arts and Humanities (18 hours)*Artistic Forms*

Choose one course from the General Education Artistic Forms list 3

Western Culture

HIST 1483 United States to 1865 3
or HIST 1493 United States, 1865 to the Present

Choose one course from the General Education Western Culture list (excluding HIST 1483/1493) 3

World Culture

Choose one course from the General Education World Culture list 3

Additional Core IV Upper-Division Arts & Humanities courses

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3} 3

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3} 3

Core Area V: First Year Experience (3 hours)

Choose one course 3

Total Credit Hours 56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Planned Program major requirements.

Applied Statistics, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 9

Program Code: N031

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Dodge College of Arts and Sciences.

Required Courses

- No more than 6 credits hours may be taken from courses offered by the Gallogly College of Engineering (i.e., CS and/or DSA courses).

Code	Title	Credit Hours
MATH 1743	Calculus I for Business, Life and Social Sciences	3
or MATH 1823	Calculus and Analytic Geometry I

Choose 3 hours in Statistical Computing (p. 190) ¹	3
Choose 3 hours in Applied Statistics Experience or Advanced Elective (p. 190) ¹	3
Total Credit Hours	18

¹ Lists of courses approved for each of these categories are maintained by the Data Scholarship Program.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Applied Statistics Minor Course Lists

For the most current lists of approved courses in these categories, please consult the Data Scholarship Program.

PSY 2503	Computing for Behavioral Sciences	3

Applied Statistics Experience or Advanced Elective

Most of the advanced electives require instructor permission and many disciplinary-specific prerequisites that should be met or specifically discussed with the instructor prior to enrollment. Upon or before enrollment, students will need to identify a faculty member affiliated with the Data Scholarship Program who can supervise their internship, independent study, or research experience.

To fulfill this requirement, the course must include a data-related project with a written report. Students will submit a DSP Project Experience Course Approval Form for approval before the end of the free add/drop period. Alternatively, an additional course can be taken from among listed courses in the previous categories AND that includes a substantial project that includes data analysis, visualization, and interpretation and a discussion of any ethical considerations with respect to the topic and data. In this case, students will submit a DSP Project Experience Course Approval Form to describe the project in the course.

Data Analytics, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 9

Program Code: N284

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Dodge College of Arts and Sciences.

Required Courses

- No more than 6 credits hours may be taken from courses offered by the Gallogly College of Engineering (i.e., CS and/or DSA courses).

Code	Title	Credit Hours
Choose 3 hours in Introductory Statistics (p. 192) ¹		3
Choose 3 hours in Programming for Data Analytics (p. 192) ¹		3
Choose 9 hours in Data-Oriented Electives (p. 192) ^{1,2}		9
Choose 3 hours in Project-Oriented Data Analytics Experience (p. 192) ^{1,3}		3
Total Credit Hours		18

¹ Lists of courses approved for each of these categories are maintained by the Data Scholarship Program.

² For students following the Data Science and Analytics Preparatory Track, the electives will include MATH 3333, and one of the following programming courses: C S 1213, C S 1323, C S 1324, or C S 2334.

³ Completion or concurrent enrollment of all other minor requirements is required prior to enrollment in this course.

For students following the Data Science and Analytics Preparatory Track, the Project-Oriented Data Analytics Experience will be a coding-intensive data analytics project.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Project/Applied Data Analytics Experience

Most of the advanced electives require instructor permission and many disciplinary-specific prerequisites that should be met or specifically discussed with the instructor prior to enrollment. Upon or before enrollment, students will need to identify a faculty member affiliated with the Data Scholarship Program who can supervise their internship, independent study, or research experience.

To fulfill this requirement, the course must include a data-related project with a written report. Students will submit a DSP Project Experience Course Approval Form for approval before the end of the free add/drop period. Alternatively, an additional course can be taken from among listed courses in the previous categories AND that includes a substantial project that includes data analysis, visualization, and interpretation and a discussion of any ethical considerations with respect to the topic and data. In this case, students will submit a DSP Project Experience Course Approval Form to describe the project in the course.

Code	Title	Credit Hours
CAS 4630	CAS Internship	3
DSP 4983	Data Analytics and Applied Statistics Research Experience	3
CAS 4990	Independent Study (with a DSP faculty affiliate or with an approved, applied data analytics component)	3

An additional course can be taken from among listed courses in the previous categories AND that includes a substantial project that includes data analysis, visualization, and interpretation and a discussion of any ethical considerations with respect to the topic and data. In this case, the project report must be submitted to the Data Scholarship Program for final approval.

Enterprise Studies, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N390

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Dodge College of Arts and Sciences.

Required Courses

Students must successfully complete at least 18 credit hours, including at least nine (9) credit hours at the upper-division level.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
B AD 2113	Introduction to Business I	3
MGT 2013 or MKT 2013	Introduction to Management Introduction to Marketing and Supply Chain Management	3
COMM 2613	Public Speaking	3
Choose 9 upper-division credit hours from the following: ¹		9
CAS 4710	Entrepreneurship Internship	
COMM 3253	Persuasion Principles	
COMM 3263	Organizational Communication	
ECON 3113	Intermediate Microeconomic Theory	
ECON 3713	Governmental Relations to Business	
H R 3013	Introduction to Human Relations	
P SC 4213		
PSY 4793	Psychology of Groups	
Other courses as approved by the Dean of the College of Arts and Sciences		
Total Credit Hours		18

¹ Note: students must meet pre-requisites for enrollment in upper-division classes.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

International Enterprise Studies, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N604

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP,

Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Dodge College of Arts and Sciences.

Required Courses

Students must successfully complete at least 18 credit hours, including at least nine (9) credit hours at the upper-division level.

A grade of C or better must be earned in each course counted for minor credit.

or MKT 2013	Introduction to Marketing and Supply Chain Management	
COMM 2613	Public Speaking	3
Choose 9 credit hours of pre-approved upper-division coursework in enterprise studies completed at an institution abroad		9
Total Credit Hours		18

Pre-Approved International Business Courses

The program in International Business with French at Blaise-Pascal University in Clermont Ferrand, France, offers the following courses that fulfill the international component requirement for the International Enterprise Studies minor.

- Doing Business in France
- International Marketing in Europe
- Negotiating in International Markets
- Web Globalization
- International Business Management
- International Trade

Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Latinx Studies, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 9

Program Code: N631

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Latina/o/x Studies program.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course submitted for minor credit.

The Dodge College of Arts and Sciences language requirement must be met with Spanish.

¹ With varying content-approval of program director.

Public and Community Health, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 9

Program Code: N808

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Public and Community Health program.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course submitted for minor credit.

Code	Title	Credit Hours
PHCH 2013	Introduction to Public and Community Health	3
PHCH 3113	Introduction to Epidemiology	3
PHCH 3513	Public Health & Healthcare Systems	3
	Choose 9 credit hours, with at least 6 hours at the upper-division level, from the approved PHCH electives course list (p. 189) ¹	9
Total Credit Hours		18

¹ Students must meet prerequisite requirements for enrollment in upper-division classes.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Applied Statistics, Undergraduate Certificate

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 8

Program Code: T028

Certificate Requirements

- Students must maintain at least a 2.50 GPA for courses applied to the certificate.
- Courses for which a grade of less than C is earned will not apply toward the certificate.
- No more than 6 credits hours may be taken from courses offered by the Gallogly College of Engineering (i.e., C S and/or DSA courses).

The recommended order of course completion is the following: introductory statistics (I), experimental design/research methods/linear algebra (III) and statistical computing (IV), intermediate statistics (II), and applied statistics experience or advanced elective (V).

Code	Title	Credit Hours
	Choose one course in Introductory (or more advanced) Statistics (p. 196) ¹	3
	Choose one upper-division course in Intermediate Statistics (p. 196) ¹	3
	Choose one upper-division course in Research Methods, Experimental Design, or Linear Algebra (p. 196) ¹	3
	Choose one course in Statistical Computing (p. 196) ¹	3
	Choose one upper-division Applied Statistics Experience or Advanced Elective (p. 196) ¹	3
Total Credit Hours		15

¹ Lists of courses approved for each of these categories are maintained by the Data Scholarship Program.

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours. BSE 5013 Applications of Microcomputers to Data Analysis, substituting for 3 hours of upper-division free elective.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in five years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Community Health academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Community Health major requirements.

Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Core Area V: First Year Experience (3 hours)	
Choose one course	3
Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours. (HPS 5563 applies to the undergraduate degree as an upper-division free elective)

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in five years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Community Health academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Community Health major requirements.

Statistics and Computing: 3 hours from a list maintained by the Data Scholarship Program and approved by the Graduate College. (p. 209)		3

Data Analytics Techniques and Data Management: 6 hours from a list maintained by the Data Scholarship Program and approved by the Graduate College (p. 209)

Total Credit Hours **30**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Other courses as approved by the program's lead faculty and the graduate liaison

Organizational Leadership (Online), M.A.

Minimum Total Hours (Non-Thesis): 33

Program Code: M762

Program Requirements

- This program is Non-Thesis only.

Code	Title	Credit Hours
Core Required Courses		
CAS 5003	Introduction to Grad Studies	3
OL 5013	Interdisciplinary Foundations for Leadership	3
OL 5053	Research Methods in Organizations	3

¹ Examples of electives approved by the Organizational Leadership program may be found here (p. 214).

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Organizational Leadership Approved Graduate Electives

Examples of track and completion elective courses available for the Organizational Leadership Master of Arts are as follows:

Organizational Leadership Track (Q491)

Code	Title	Credit Hours
OL 5173	The Individual and Leadership	3
OL 5203	Leadership Issues in Decision Making	3
OL 5243	Project Management	3
OL 5313	Organizational Communications	3
OL 5323	Fundraising and Budgeting	3
OL 5333	Motivation in Work and Leadership	3
OL 5353	Non-Profit Governance	3
OL 5393	Followership	3
OL 5403	Leadership in History	3
OL 5423	Women in Leadership	3
OL 5443	Religious Leaders for Social Justice	3
OL 5463	US Military Leadership: Insights and Applications	3
OL 5483	National Security Leadership	3
OL 5553	Assessment-Based Coaching	3
OL 5593	Development and Grant Writing	3
OL 5700	Advanced Topics in Administrative Leadership	2-9
OL 5920	Internship in Administrative Leadership	2-6

Volunteer & Non-Profit Leadership Track (Q693)

Code	Title	Credit Hours
OL 5153	Ethics in Leadership	3
OL 5173	The Individual and Leadership	3
OL 5203	Leadership Issues in Decision Making	3
OL 5223	Financial Leadership	3
OL 5243	Project Management	3
OL 5283	Building High Performance Teams	3
OL 5313	Organizational Communications	3
OL 5333	Motivation in Work and Leadership	3
OL 5393	Followership	3
OL 5403	Leadership in History	3
OL 5423	Women in Leadership	3

OL 5700	Advanced Topics in Administrative Leadership	2-9
OL 5920	Internship in Administrative Leadership	2-6

Applied Statistics, Graduate Certificate

Minimum Total Hours: 15

Program Code: G215 (G216 Online)

Certificate Requirements

- Students must have a ≥ 3.0 GPA for courses applied to the graduate certificate to earn the graduate certificate.
- Courses for which a grade of less than C is earned will not apply toward the certificate.
- at least half of all credit hours must be at or above the 5000-level.
- No more than 6 credits hours may be taken from courses offered by the Gallogly College of Engineering (i.e., C S and/or DSA courses).

The certificate courses require pre-requisites in Linear Algebra and Calculus, Coding, and basic Statistics.

Code	Title	Credit Hours
Choose one course in Mathematical Statistics (p. 215) ¹		3
Choose one course in Intermediate Statistics (p. 215) ¹		3
Choose 2 courses in Statistics and Computing (p. 215) ¹		6
Choose one course in Interdisciplinary Applied Statistics (p. 215) ¹		3
Total Credit Hours		15

¹ Lists of courses approved for each of these categories are maintained by the Data Scholarship Program.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Applied Statistics Graduate Certificate Course Lists

METR 5330	Information Technology Skills for Meteorology	3

Interdisciplinary Applied Statistics

Statistical Consulting, Internship, Mentored research experience with someone outside of your research area, or class outside of research area that includes a project. E.g., Applying an atypical method to your own research or applying a method from your discipline to a different problem/data set. Interdisciplinary experiences are highly encouraged. Must produce a report that includes the results and a discussion of decision-making, ethics, biases, and limitations that are part of the data set/study.

Code	Title	Credit Hours
DSP 5633	Data Analytics and Applied Statistics Internship	3
CAS 5970	Special Topics/Seminar	1-3
CAS 5990	Independent Study (with faculty outside of your discipline, with an approved, applied statistical component)	1-3

Interdisciplinary Advanced Statistics Elective Course outside of student's research area that includes a written project ¹

¹ Courses listed in the Advanced Statistics Electives list may be used. Selected course must include a DSP-preapproved written project.

Corrections Management (Online), Graduate Certificate

Minimum Total Hours: 12

Program Code: G033

This program is in the process of deletion pending approval of the OU and State Regents.

The Corrections Management Certificate provides opportunity for individuals working in corrections, probation and parole, and rehabilitative services fields.

Certificate Requirements

Code	Title	Credit Hours
Core Courses		
CRJU 5153	Ethical Decision Making in Criminal Justice	3
CRJU 5363	Penology	3
Elective Courses ¹		
Choose six hours of graduate electives from a list maintained by the academic unit and approved by the Graduate College.		6
Total Credit Hours		12

¹ Elective hours include courses such as Community Justice in the 21st Century, Restorative Justice Programs for Drug Offenders, Mental Illness and the Criminal Justice System, and Gangs in the United States.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Corrections Management Graduate Certificate Approved Electives List

coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Restorative Justice Administration (Online), Graduate Certificate

Minimum Total Hours: 12

Program Code: G095

This program is in the process of deletion pending approval of the OU and State Regents.

The Restorative Justice Certificate emphasizes leadership, program and project development, victim and offender services and community-oriented approaches to crime prevention and restoration.

Certificate Requirements

Code	Title	Credit Hours
Core Courses		
CRJU 5153	Ethical Decision Making in Criminal Justice	3
CRJU 5203	Victimology and Restorative Justice	3
Elective Courses		
Complete six hours of graduate elective hours from a list maintained by the academic unit and approved by the Graduate College		6
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Restorative Justice Administration Graduate Certificate Approved Electives

- For the most current list of approved electives, please consult the Dodge College of Arts & Sciences Online Programs office.

General Information

The mission of the Clara Luper Department of African and African American Studies (AFAM) is first to exemplify excellence in research, teaching and service, in accordance with the mission of the University of Oklahoma (OU) and the Dodge College of Arts and Sciences (CAS). Specifically, AFAM has the mission to provide students with a broad, interdisciplinary education inclusive of a focus on Africa and the traditional areas of study of the African American Studies / Black Studies discipline.

The African & African American Studies (AFAM) program offers the B.A. degree in African & African American Studies. Students earning a B.A. degree in AFAM must also complete specified University and College of Arts & Sciences degree requirements. Students may also choose to enroll with a minor in AFAM.

AFAM courses are exciting, challenging and offer students (from all racial and ethnic backgrounds) the opportunity to hear and discuss important content, essential to Africa and the African American experience, in a constructive learning environment. Students are exposed to different theoretical approaches, typically taught in Black Studies. All students should emerge from the program with a clearer understanding of African-centered thought, as well as alternative paradigms articulated within the discipline.

In the 1960s, at the inception of the Black Studies discipline, Black Studies serviced both the campus and the community. Here at OU, we aim to facilitate dialogue between those on campus and in the community via education and civic engagement.

African & African American courses are stimulating, thought provoking, and interdisciplinary. Courses in this program offer students from all racial and ethnic backgrounds the opportunity to hear and discuss important content, essential to Africa and the African American experience in a constructive learning environment.

Career Opportunities

Majoring in African and African American Studies challenges students with a high level of critical thinking encouraging the growth of knowledge beyond the bounds of the traditional college program. Learning about and tackling important societal issues such as poverty and healthcare provides an understanding that will allow a graduate to stand out to potential employers.

Graduate of the program have entered graduate schools or the work force in the following areas:

- Community Service
- Education
- History
- Journalism
- Law
- Nonprofit organizations
- Social services
- The arts
- And many more...

All students should emerge from the program with a clearer understanding of African-centered thought, as well as alternative paradigms articulated within the discipline.

Programs & Facilities

AFAM Newsletter

AFAM has a mission to provide studies with a broad, interdisciplinary education inclusive of a focus on Africa and the traditional areas of study of the African American Studies/Black Studies Discipline. The AFAM newsletter highlights students, faculty, and staff on their accomplishments, as well as, other program news.

AFAM Scholarships

- Raymond Gary Memorial Scholarship
- The Wayne C. Thompson Memorial Scholarship
- The Ashlee T. Madison Freedom Scholarship

Undergraduate Study

The Department of African and African-American Studies (AFAM) provides students with the opportunity to engage in the scholarly and academic study of the African-American experience, using the study of Africa as a starting point. This interdisciplinary program is intended to help students develop understanding, perceptions, and attitudes for living more successfully in the increasingly multicultural world. The African and African-American Studies program helps prepare students for employment in many different settings.

Programs Offered

- African and African-American Studies, B.A. (p. 225)
- African and African-American Studies, Minor (p. 227)

Courses

AFAM 2003 Introduction to African and African-American Studies 3 Credit Hours

Introduces students to African and African-American Studies at the University of Oklahoma, and at other institutions of higher education in the United States. Students will study the major ideas, concepts, problems, issues, research and scholars in the field. Provides career focus and information for students who will major or minor in African and African-American Studies. (F, Sp) [IV-WDC].

AFAM 2113 Africa and the Diaspora 3 Credit Hours

The course introduces students to the study of Africa and the dispersion of African people throughout the New World. Focus is placed upon the geographical and historical understanding of the continent of Africa and the identification of central causes of underdevelopment within the continent. (Irreg.) [IV-WDC].

AFAM 2970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

AFAM 3123 West African and African-American Experiences 3 Credit Hours

Prerequisite: any course that focuses on African or African American content, or English 1213. Provides a basis for understanding discourse concerning the future of West Africa and Africans in the American Diaspora. Examines significant issues concerning West African people, their past, their priorities, and prognoses. (Irreg.)

AFAM 3133 Introduction to African Aesthetics 3 Credit Hours

Prerequisite: any course that focuses on African or African American content, or English 1213. Explores the philosophy, culture, and aesthetic expressions of African Americans before, during, and after enslavement through a comparison of African and African American culture. Emphasis is placed upon developing a body of knowledge and analytic skills that will enable students to deepen their understanding of traditional and contemporary culture practiced by the African American community. (Irreg.) [IV-WDC].

AFAM 3143 Gospel Music Past and Present 3 Credit Hours

Prerequisite: junior standing. African and African-American history as it relates to gospel music. The class correlates the climate and cultural history with various genres of music that led to gospel music. Individual artists are studied not in isolation but as part of the larger cultural context. (F, Sp) [IV-AF].

AFAM 3333 The Black West 3 Credit Hours

(Crosslisted with HIST 3333) Prerequisite: Junior standing, or any 2000-level African and African American Studies class, or permission of instructor. Survey of Black history and experience in the American West. Students will learn about life in the region through primary documents, scholarly texts, literature, film, and popular culture. Emphasis on how identity, regionalism, and nationalism converge in North America. Particular attention will be paid to Oklahoma and the larger Great Plains. (Irreg.)

AFAM 3343 Black Greek Letter Organizations 3 Credit Hours

Prerequisite: junior standing or departmental permission and successful completion of at least one AFAM course. Examines the history and culture of black greek-letter organizations (BGLOs), the contributions of the BGLOs (also referred to as historically black fraternities and sororities) to the black community through leadership and service, and issues relevant to the future of BGLOs in the 21st century. (Irreg.)

AFAM 3413 African American Education in the United States 3 Credit Hours

Prerequisite: any course that focuses on African or African-American content, or English 1213. Examines two major historical features of African American education: the ways in which the African American community has sought to educate itself and the ways in which white Americans have sought to educate African Americans. Emphasis is placed on the purpose of education, and alternative visions of educational possibility. (Irreg.)

AFAM 3423 African-American Men 3 Credit Hours

Prerequisite: any course that focuses on African and African-American content, or English 1213. Examines the status and role of the African-American male, from the perspective of contemporary research and literature which should frame the extant disclosure and discussions, policy-making, and future research. (Irreg.)

AFAM 3433 African American Women 3 Credit Hours

Prerequisite: any course that focuses on African or African American content, or English 1213. Examines the history and experience of African American women, focusing on race, gender, and socio-economic status and the corresponding effects of these forces in their lives. (Irreg.)

AFAM 3440 Mentored Research Experiences 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

- AFAM 3453 The Black Athlete in America 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213 or sophomore standing. Provides students with a historical and contemporary overview of the Black athlete in American society. This course will underscore and examine the Black athlete from a social, political, and cultural perspective. Many of the misconceptions and deep-seated stereotypes of Black athletes both in intercollegiate athletics and professional sports will be uncovered. Additionally, perspectives will be gained on the changing status of Black athletes and how those changes have engendered the changing of sport, American society, and critical triumphs within Black culture. (Irreg.)
- AFAM 3513 AFAM Research Methods 3 Credit Hours**
Prerequisite: AFAM major or minor, junior standing. This course is designed to introduce students to research methods in African and African American studies. Qualitative and quantitative research methods are studied, discussed, and undertaken. Course design stresses the importance of using both methods to cross-validate findings. (Irreg.)
- AFAM 3613 Visual Culture and African American Identity: 1895-1939 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Examines the visual commodities of black and white cultural producers to analyze issues of caste and class status, gender, and sexuality that historically and currently inform competing notions of blackness within the public sphere. (Irreg.) [IV-WDC].
- AFAM 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers topics not usually presented in the regular courses.
- AFAM 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses.
- AFAM 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- AFAM 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- AFAM 4003 Senior Seminar in African and African-American Studies 3 Credit Hours**
Prerequisite: completion of 12 hours of required AFAM or AFAM-related courses. Provides students the opportunity to review and integrate their study in African and African-American courses. Students will be involved in academic experiences that facilitate the translation from theory to practice. Experiences will vary depending on the instructor. (Sp) [V].
- AFAM 4010 Special Topics In African And African-American Studies 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing and any course covering African and African-American issues. May be repeated with change of content; maximum credit nine hours. Designed to permit the study of specific and changing issues and problems in AFAM Studies. Course will also be used for special workshops, conferences, seminars, etc. and individually planned and supervised activities focused on specific areas of concern. (Irreg.)
- AFAM 4133 Contemporary Visual Art of Africa 3 Credit Hours**
Prerequisite: junior standing and any 2000-level African and African-American Studies (AFAM) class. This course explores current visual arts developments in Africa. The course traces the historical evolution, influences and status of contemporary African art, with special reference to established visual artists who either work within or outside of Africa. (Sp)
- AFAM 4213 African Dance 3 Credit Hours**
Prerequisite: any course that focuses on African or African American content, or English 1213. Examines various essential dance movements from the African Diaspora. Theory and praxis meet in an effort to better understand the culture and language of dance amongst African people. (Irreg.) [IV-AF].
- AFAM 4233 Blacks and the Movies: Hollywood and Black Independent Film 3 Credit Hours**
Prerequisite: any course that focuses on African or African American content, or English 1213. Historical overview of the development of African American cinema. Examines how film has been used to culturally define the parameters of black cultural identity and how black cultural producers promoted alternate constructions of black identity. (Irreg.)
- AFAM 4243 The Black Arts Movement 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213, or permission of instructor, or junior standing. Examines the literature, art, music, film, and cultural commentary of the Black Arts Movement. Focuses on the notion of 'blackness' and the black experience as developed in the cultural expressions of key figures of the Black Arts Movement, and the subsequent connection of that movement to further changes in literature, drama, film, music and art. Also explores the emergence of a critical discourse specific to a "new" black aesthetic. (Irreg.)
- AFAM 4413 Issues in the African American Family 3 Credit Hours**
Prerequisite: any course that focuses on African or African American content, or English 1213. The purpose of the class is to explore the inter- and intra-structural components of the African American family using an applied social systems and ecological approach. Great emphasis will be placed on historical and concurrent social, religious, political and economic factors that influence the psyche of both the family and in a broader sense a culture rooted in the Afrocentric paradigm. (Irreg.)
- AFAM 4423 African American Health Issues 3 Credit Hours**
Prerequisite: any course that focuses upon African or African American content, or English 1213. Examines health problems, health status, and health behavior of African American men and women. A life course perspective is emphasized from birth to later life. It is assumed that being African American predisposes persons to health problems that increase the risk of disease or that influence health based on the diversity of cultural beliefs, values, and practices. Access to health services will be addressed. (Irreg.)
- AFAM 4443 African American Mental Health 3 Credit Hours**
Prerequisite: English 1213 or Expository Writing 1213. Introduces issues related to African American mental health in this country. Topics discussed and explored in this course will cover the past, present, and future states of mental health in the African American community. Students will investigate their personal history of mental health and uncover ways that those histories relate to and connect with the issues addressed throughout the course. (F)

AFAM 4493 Africa and the Atlantic Slave Trade 3 Credit Hours
(Crosslisted with HIST 4493) Prerequisite: ENGL 1213 or EXPO 1213.
About the changing nature of slavery in and the impact of slave trading on Africans in their homelands and in the diaspora. Origins in Africa; rise of the Atlantic trade; impact of the trade; middle passage, etc. (Irreg.) [IV-WDC].

AFAM 4623 Hip Hop Culture and Contemporary America 3 Credit Hours
Prerequisite: any course that focuses on African or African American content, or English 1213. Historical inquiry into behavioral and sociopolitical trends of hip hop culture. Attempts to codify and recognize dominant cultural attitudes, concepts and paradigms as global phenomenon shaping understanding of contemporary African American character, identity, and culture. (Irreg.)

AFAM 4633 African American Religious Traditions 3 Credit Hours
Prerequisite: any course that focuses on African or African American content, or English 1213. An anthropological and historical inquiry into the nature of the religious experience of Africans enslaved and involuntarily brought to the United States. Emphasis is placed upon the identification and understanding of the central cultural and religious practices and products form black peoples' experiences of the holy. (Irreg.)

AFAM 4643 Black Feminism and Womanism 3 Credit Hours
(Crosslisted with WGS 4643) Prerequisite: Junior standing and any 2000-level African and African-American Studies class. This course analyzes the way race, gender, sexuality, and socioeconomic status have historically dominated, intersected, and/or competed with the lives and experiences of Black women. This course examines the way Black women have drawn upon these internal struggles to serve as voices of power and agents of social change. Readings in this course will highlight activism, literature, and social justice. (Irreg.)

AFAM 4713 Afrocentric Thinking and the Civil Rights Movement 3 Credit Hours
Prerequisite: any course that focuses on African or African American content, or English 1213. Examines afrocentric thinking and identifies key afrocentric patterns and strategies within the civil rights movement. Students will analyze African American leadership and how leaders brought afrocentric thinking to the forefront. (Irreg.)

AFAM 4733 Civil Rights Law: Employment and Education 3 Credit Hours
Prerequisite: any course that focuses on African or African American content, or English 1213. Analyzes civil rights law in employment and education. Focuses on laws that address discrimination, equal employment opportunity, equal educational opportunity and affirmative action, as well as the legal foundation for diversity initiatives. Examines regulations of enforcement agencies, and agency grievance procedures, including selected court cases. (Irreg.)

AFAM 4743 Black Women and Leadership 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213 and junior standing. Explores issues and strategies related to the roles and responsibilities of women in leadership positions and public service. The focus will be on African-American female leaders in diverse contexts. Do women have an identifiably different ways of leading? How does leadership manifest itself in the public arena? Why does women's public leadership matter? (Irreg.)

AFAM 4763 The History of Lynching and Racial Violence in America 3 Credit Hours
Prerequisite: English 1213 or Expository Writing 1213 with a grade of C or better. Explores the historical development of lynching, survey of lynching and its impact on American society; investigates the ways race, class, gender, and sexuality shaped particular lynching episodes, justifications for the practice and the historical legacy. (Irreg.)

AFAM 4813 Prison Industrial Complex 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213, or permission of instructor, or junior standing. The American prison industrial complex is a phenomenon with roots in American prison history, convict leasing, and the proliferation of prison industries. Designed to familiarize students with the phenomenon, how it came to exist, and the impact it has had and is having on American society in general, and on the African American community in particular. (Irreg.) [III-SS].

AFAM 4823 African American Politics and Public Policy 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213, or permission of instructor, or junior standing. Focuses on the African American experience and politics, examining the history and experience from the civil rights era to the election of President Barack Obama. Materials will discuss grassroots and national political agendas, and explore the politics of topics such as environmental justice, healthcare, literature, music, sexuality and voting. (Irreg.) [III-SS].

AFAM 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

AFAM 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

AFAM 4990 Independent Study 1-3 Credit Hours
Prerequisite: permission of instructor. Permits the student to study in depth, under the guidance of the instructor, particular and special African and African-American topics of interest to the student and within the expertise of the instructor. Generally, students and the instructor meet to determine the nature of independent study, schedule progress reports and meetings, timelines for the submission of assignments, nature of the evaluation process and culminating effort or activity. (F, Sp, Su)

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of African and African American Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College

of Arts and Sciences, and African and African American Studies major requirements.

Freshman		
First Semester		Credit Hours
AFAM 2003	Introduction to African and African-American Studies (Core IV, World Culture)	3
ENGL 1113	Principles of English Composition (Core I)	3
P SC 1113	American Federal Government (Core III)	3
First Year Experience (Core V)		3
Math (Core I)		3
Credit Hours		15

Second Semester		
AFAM 2113	Africa and the Diaspora	3
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
Social Science (Core III)		3
Natural Science without lab (Core II)		3
Credit Hours		15

Sophomore		
First Semester		Credit Hours
HIST 3743 or HIST 3753	African-American History to 1877 (Core IV, Western Culture) or African-American History Since 1877	3
Beginning Language (Core I)		5
Natural Science with lab (Core II)		4
Artistic Forms (Core IV)		3
Credit Hours		15

Second Semester		
AFAM Additional Requirement		3
Beginning Language continued (Core I)		5
Free Elective, lower-division		3
Free Elective, lower-division		3
Free Elective, lower-division		1
Credit Hours		15

Junior		
First Semester		Credit Hours
AFAM 3513	AFAM Research Methods	3
AFAM Historical Issues course, upper-division (3000-4000-level)		3
AFAM Contemporary Social Issues course, upper-division (3000-4000-level)		3
Intermediate Language		3
Arts & Humanities, upper-division, outside major (Gen. Ed.)		3
Credit Hours		15

Second Semester		
AFAM Aesthetics course, upper-division (3000-4000-level)		3
AFAM Additional Requirement		3
Arts & Humanities, upper-division, outside major (Gen. Ed.)		3
AFAM Additional Requirement, upper-division (3000-4000-level)		3

AFAM Additional Requirement, upper-division (3000-4000-level)	3
---	---

Credit Hours **15**

Senior		
First Semester		Credit Hours
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		15

Second Semester		
AFAM 4003	Senior Seminar in African and African-American Studies	3
Free Elective, lower- or upper-division		3
Free Elective, lower- or upper-division		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		15

Total Credit Hours **120**

African and African-American Studies, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 9

Program Code: N015

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the African and African-American Studies program.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in AFAM, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
Required Course		
AFAM 2003	Introduction to African and African-American Studies	3

Electives

Choose 15 additional hours AFAM courses or courses from other departments as listed on the AFAM major degree sheet, as approved by AFAM Program Director (9 of these hours must be upper division)	15
--	----

Total Credit Hours	18
---------------------------	-----------

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Department of Anthropology

Dr. Patrick Livingood, Chair
 Dr. Kermyt Anderson, Graduate Liaison
 521 Dale Hall Tower
 455 W Lindsey
 Norman, OK 73019-2005
 Phone: (405) 325-3261
 FAX: (405) 325-7386
 anthropology@ou.edu
 www.ou.edu/cas/anthropology

General Information

Anthropology is the holistic study of human beings, including the biological and cultural aspects of people in all times and all places. The Department of Anthropology's faculty research and teaching interests encompass archaeology, sociocultural anthropology, linguistic anthropology, and health and human biology (which integrates biological, molecular, and medical anthropology). We are particularly focused on the anthropology of Native America. We also have strengths in Latin America, the Caribbean, Africa, and the Pacific Islands. Our mission is to advance knowledge of and respect for human diversity. We are the only anthropology department in the state system of higher education.

The Department of Anthropology has vibrant graduate and undergraduate degree programs. Undergraduate students may earn an anthropology degree through either a B.A. in Anthropology or B.S. in Human Health & Biology. Depending on the program, undergraduate degrees in anthropology require courses in one or more subfields, as well as course requirements in research methods, resulting in a well-rounded understanding of people in this country and around the world, both past and present. The department offers fieldwork opportunities and is active in the Undergraduate Research Opportunities Program and the Honors College, so that undergraduates who so desire can obtain actual experience in anthropology. We maintain close ties with the Oklahoma Archaeological Survey and the Sam Noble Oklahoma Museum of Natural History, and we encourage international study to augment these opportunities.

Programs & Facilities

The Department of Anthropology is located primarily in Dale Hall Tower. Some faculty have offices and/or labs in other buildings. Please check with individual faculty for their office locations.

Undergraduate Research and Travel Opportunities

The Department of Anthropology encourages students to get involved in out-of-classroom research, which is discussed in the Cornerstone

class experience. The department hosts an annual archaeological field school, students are encouraged to partake in internship opportunities, and the department works with partners across campus to encourage and facilitate study abroad.

Undergraduate Research Opportunities Program

UROP is a competitive program offering financial assistance to talented undergraduates for research, scholarly, and/or creative projects. Potential applicants must first coordinate their research with a faculty member willing to act as a sponsor.

Undergraduate Research Day

Each spring semester, the Honors Program sponsors this opportunity for undergraduates, whether in the Honors Program or not, to present their research in a professional and supportive environment. Application forms are available from the OU Honors Program.

Student Organizations

The Undergraduate Anthropology Society (UAS) is the undergraduate student organization that provides anthropology majors and minors an opportunity to meet, socialize, and learn more about anthropology.

The Anthropology Graduate Student Association (AGSA) brings together Anthropology graduate students for the purpose of aiding in their professional development within the discipline. AGSA's Speakers Bureau invites scholars to give public lectures related to the interests of the department and fundraises to be able to afford these events. AGSA also coordinates professional development workshops with graduate students and faculty on topics of interest to current graduate students.

Undergraduate Study

Anthropology is a social science that covers the breadth of human experience and encompasses four subfields: archaeology, biological, cultural, and linguistic anthropology. One of the characteristics that distinguishes anthropology from many other disciplines is its adherence to the concept of cultural relativism, which states that each culture is viewed on its own terms and not ethnocentrically against the standards of others.

A major in anthropology provides a broad understanding of human beings and is a central part of a liberal arts education. The B.A. in Anthropology is the basis for obtaining certain kinds of jobs in archaeology, museums, or the human resources sector, as well as for graduate study in anthropology or other social science fields. The B.S. in Human Health & Biology provides an awareness of biological and cultural diversity with an emphasis on biocultural and evolutionary perspectives on health and disease. It can enable students to obtain the foundation in chemistry, biology, and mathematics needed for medical school, for graduate study in health-related fields, and for a range of entry-level health professions.

Programs Offered

- Anthropology, B.A. (p. 239)
- Human Health & Biology, B.S. (p. 243)
- Anthropology, Minor (p. 245)
- Anthropology: Applied Medical Anthropology, M.A. (p. 249)

Graduate Study

The Department of Anthropology offers both M.A. and Ph.D. degrees in anthropology. The department's geographical area of emphasis is the Americas. The department recognizes the historical relationship of

anthropology to other areas of the world and to other peoples, and we also have faculty with such research interests.

Because of its location in a state with 38 federally recognized tribes, important archaeological sites and museum collections, and many nationally prominent anthropological research facilities, graduate study at the University of Oklahoma offers unique educational opportunities. The department has a concentration of specialists in Native America. Complementing our focus on Native America are those of faculty in the departments, colleges and programs including Art History, English, Geography, Health Sciences, History, Linguistics, and Native American Studies. Faculty in the department have helped Oklahoma tribes design and implement studies that include health care, language education, ethnomedicine, federal recognition, genealogy, historical anthropology, politics, sociolinguistics, oral history, tribal histories and archives, and tribal cultural studies programs. The department and the affiliated Oklahoma Archeological Survey support several on-going archaeological research projects in Oklahoma and Kansas, the North American Southwest and Southeast, and northern Mexico. The projects include the earliest settlers in the New World, Paleoindian, Archaic, formative village agriculturalists, hierarchical societies, and historic peoples.

Unique Research Opportunities

- Museum collections at the Sam Noble Oklahoma Museum of Natural History, the Fred Jones Museum of Art, and the Gilcrease Museum in Tulsa.
- The Oklahoma Archeological Survey, a state agency housed at the University of Oklahoma, conducts archaeological research in the state of Oklahoma and offers field and laboratory opportunities for research.
- Archival collections at OU's Western History Collection, the Oklahoma Historical Society, and the Regional Federal Archives.

Master of Arts Degree

The Master of Arts (p. 249) provides a broad, generalized knowledge of anthropology, along with a field of specialization. A master's student will take courses in each of the fields of specialization and will concentrate the elective coursework in any one of those fields. Students may also choose from three additional areas of concentration within the M.A. in Anthropology, Socio-cultural Anthropology (p. 251), Applied Medical Anthropology (p. 249), or Linguistic Anthropology (p. 250).

Bachelor of Arts/Master of Arts

The accelerated Bachelor of Arts/Master of Arts (p. 246) provides students with the opportunity to sequentially receive an Anthropology Bachelor of Arts and a Master of Arts degree with a specialization in Sociocultural Anthropology in 5 years. Admission to the program follows departmentally-determined guidelines for admission, including minimum GPA, excusing GRE scores, application materials, and application due date.

Anthropology Doctoral Programs

There are three tracks in the Ph.D. Program in Anthropology: Archaeology (p. 251), Human Health and Biology (p. 252), and Sociocultural and Linguistic Anthropology (p. 252). There are specific additional required courses within each track. The tracks generally require 60 hours of coursework and 30 hours of dissertation research for a total of 90 credit hours.

The Ph.D. student's advisory committee will determine which courses, including core courses, may be used toward the 90 hours and will

define the plan of study. Each doctoral student will complete a General Examination and dissertation defense.

Detailed information is available from the Graduate Liaison.

Courses

ANTH 1104 YES Oklahoma - A Primer for Cancer Research 4 Credit Hours

Prerequisite: Enrollment in OU's YES Oklahoma summer STEM program (instructor permission and concurrent high school student). Understanding cancer research and its societal and cultural contexts is vital for all. The course has a nature, life and social science perspective, yet the assignments are heavily social science methods. (Su) [III-SS].

ANTH 1113 What Makes Us Human? Exploring Cultural and Biological Diversity 3 Credit Hours

An introduction to the anthropological way of thinking about culture, language, social organization, religion, gender, prehistory, the rise of civilization, evolution and fossil hominins. Anthropological perspectives on the roles culture and biology play in influencing modern and ancient diversity of human behavior will be explored. (F, Sp, Su) [III-SS].

ANTH 1124 YES Oklahoma: Cancer Research Training 4 Credit Hours

Prerequisite: Enrollment in OU's YES Oklahoma summer STEM program (instructor permission and concurrent high school student). This is the natural science course for the concurrently enrolled students of YES Oklahoma; the focus is scientific methodology and an introduction to a body of foundational and factual knowledge about cancer. Included is an introduction to genomics, human variation and cancer biology, laboratory research experiences and professionalization. (Su) [II-NSL].

ANTH 1203 Language Across Cultures 3 Credit Hours

(Crosslisted with LING 1203) Theories of language family origins and their relationship to human migration; types of human languages; linguistic concept of genetic relatedness; writing systems development; non-Western sociolinguistic and usage phenomena; cultural and scientific importance of endangered languages; how languages become endangered; factors involved in preservation. This course may not count for major credit. (Sp) [IV-WDC].

ANTH 1253 Folklore and Folklife 3 Credit Hours

Introduces the academic study of folklore and folklife by introducing four key concepts: Tradition, community, art and performance. Verbal folklore, material culture, performance genres and customary knowledge will be examined. Issues of cultural diversity and historical change will be addressed. Special emphasis will be placed on exploring traditional cultures in the United States and Europe. (F) [IV-AF].

ANTH 1413 Great Discoveries in Archaeology 3 Credit Hours

Introduces students to the accomplishments of ancient civilizations around the world. A brief overview of archaeological methods and research and of the precursors of civilizations. Concentrates on major civilizations of the world including Mesopotamia, Europe, Egypt, sub-Saharan Africa, India, China, Southeast Asia, Mesoamerica, South America, and the North American Midwest. (F) [IV-WDC].

ANTH 1823 Religion in Everyday Life 3 Credit Hours

This course focuses on the variety of religious phenomena found throughout the world and the theoretical approaches anthropologists use to account for them. Using ethnographic studies of belief in practice, we will seek to understand the role that religions play in the human experience. (F, Sp) [IV-WDC].

ANTH 1913 Plagues and People: Health and Disease in Human Society 3 Credit Hours

The study of the impact of diseases such as malaria, bubonic plague, and AIDS on human society, from their effects on populations to how they have influenced the course of history. Identification of social and cultural factors, conditions that influence and impede the spread of contagious diseases, ethical issues concerning the treatment of the sick, and policies designed to halt epidemics will be examined. The contemporary threat of biological weapons and the impact on local and national public health efforts in the U.S. will be discussed. (Irreg.) [III-SS].

ANTH 2203 Global Cultural Diversity 3 Credit Hours

A survey of global cultures, introducing students to the diversity of human organization, behavior, and worldviews, including modes of livelihood, political organization, religious practices, gender systems, kinship structures, social inequality, and the effects of globalization. (F, Sp, Su) [IV-WDC].

ANTH 2253 Human and Animal Interaction Across Cultures 3 Credit Hours

Students will examine the varied ways we think, feel, and interact with animals across cultures, and moral quandaries/contradictions around animal treatment. Emphases include animals' roles; humans' ideas, attitudes, and emotions toward animals; and how these impact our behavior toward them. Our ultimate goal is to broaden notions of human-animal interaction and awaken curiosity about these frequently take-for-granted cross-species relationships. (Irreg.) [IV-WDC].

ANTH 2303 General Linguistics 3 Credit Hours

(Crosslisted with LING 2303) Humanistic and formal study of natural languages: how they are similar to and different from one another in their use of speech sounds, logical structures and mechanisms that integrate events, objects and speakers in spatio-temporal contexts. The relationship between language and culture; language acquisition and language change. (F, Su) [I-O].

ANTH 2613 Native Peoples of North America 3 Credit Hours

An introduction to the native societies and cultures north of Mexico from pre-Columbian times to the present. (Sp, Su) [IV-WDC].

ANTH 2970 Special Topics/Seminar 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ANTH 3011 Anthropology Cornerstone I: Introduction to the Major 1 Credit Hour

Prerequisite: Anthropology major or minor. Recommended for students in their first year of the major. This provides an introduction to the Anthropology Major. Topics include: Introduction to the subfields of anthropology, introduction to the department, information on enhancement and hands-on research opportunities (field schools, internships, labwork, study abroad), and ethics. Emphasis on the opportunities within the department and on guiding students to relevant resources. (Sp)

ANTH 3021 Anthropology Cornerstone II: Research and Writing 1 Credit Hour

Prerequisite: Sophomore standing, enrollment in at least one ANTH upper-division elective, and the student is an Anthropology major or minor. Recommended when students start taking upper division Anthropology electives. This course provides a foundation in anthropological research and writing in order to develop student abilities as persuasive academic writers. Topics include: research literacy, crafting a written argument, citation and peer review, and critical analysis of published research. Emphasis is placed on developing students as advanced-level undergraduate researchers and persuasive writers. (Sp)

ANTH 3031 Anthropology Cornerstone III: Professionalization 1 Credit Hour

Prerequisite: Anthropology major or minor, and Senior standing, or Department Permission. Recommended for graduating seniors, OR juniors who are applying to postgraduate school in the next year (get Departmental permission to enroll). This course provides students with information about professionalizing their anthropology degree. Topics include: long-term goal setting, cultivating professional networks and faculty references, information about graduate school and non-academic employment, and generalized professional skills such as interviewing and public speaking. (F)

ANTH 3063 Language and Culture 3 Credit Hours

Prerequisite: sophomore standing. The relationships between language and the rest of culture, with emphasis on diachronic as well as synchronic problems. Such crucial issues as the limitation of language on thought and perception and language and conceptualization are also considered. (F, Sp) [IV-WDC].

ANTH 3113 Principles of Archaeology 3 Credit Hours

Prerequisite: sophomore standing or 3 credit hours in ANTH or concurrent enrollment in 3 credit hours of ANTH or permission of the instructor. To acquaint the beginning student with the discipline of archaeology as it is now practiced within the science of anthropology. No student may earn credit for both ANTH 2113 and ANTH 3113. (F, Sp) [III-SS].

ANTH 3203 Introduction to Biological Anthropology 3 Credit Hours

Prerequisite: Sophomore standing or 3 credit hours in ANTH or concurrent enrollment in 3 credit hours of ANTH or permission of the instructor. Examines human biology within an evolutionary context. Course content includes a history of evolutionary thought from before Darwin to present; basic genetics; primate biology and behavior; human evolution and the fossil record; human biological variation; and human adaptation. No student may earn credit for both ANTH 2503 and ANTH 3203. (F, Sp)

ANTH 3243 Anthropological Approaches to Health, Illness and Healing 3 Credit Hours

Prerequisite: Sophomore standing. An examination of illness, health, and healing processes in cross-cultural perspective within the framework of medical anthropology. Drawing on global examples, the course considers topics such as the body, biotechnologies, illness experience, health disparities, and the intersection of gender and health. (Irreg.) [IV-WDC].

ANTH 3423 Anthropology of Religion 3 Credit Hours

Prerequisite: Junior standing or 3 hours of ANTH. A consideration of the nature and role of religion in small-scale societies. Emphasis will be given to the relationship of the various anthropological approaches to religion with the intellectual history of anthropology as a discipline. (Irreg.) [IV-WDC].

- ANTH 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- ANTH 3453 Contemporary Native American Issues 3 Credit Hours**
Prerequisite: English 1213/Expo 1213 or junior standing. A survey of the social, political and economic issues of modern Native American groups. The relationship between native tribal cultures and American economic and government interests will be examined. (Irreg.) [IV-WDC].
- ANTH 3613 Community Archaeology 3 Credit Hours**
Prerequisite: Junior standing or permission of the instructor. Community Archaeology is an approach that partners archaeologists with members of communities impacted by their work, including but not limited to members of descendant and local communities. Students will learn to conduct "community-based participatory research" (CBPR) and will partner with a community of their choice to conduct original CBPR that benefits their partner. Service-learning credit is available. (Irreg.)
- ANTH 3783 The Anthropology of Slavery and Captivity 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. Examines slavery from the anthropological and historical perspectives and specifically seeks to expand students' understanding of the experiences of slaves in Africa, North America, and in South Asia. The origins of slavery, how slavery in Africa and the Americas existed before and after colonization by Europeans, and issues of race, power, and resistance will be explored. (F, Sp) [IV-WDC].
- ANTH 3810 Internship in Linguistic Anthropology 1-6 Credit Hours**
Prerequisite: 1113, 2303 and six additional credit hours in Anthropology. May be repeated. Maximum credit six hours. Designed to provide training in linguistic anthropology. Internships are arranged on an individual basis with professional linguistic anthropologists or with professionals working in a setting in which cultural linguistic research can be performed. Students must meet criteria for acceptable performance and submit a final paper. (F, Sp, Su)
- ANTH 3833 Language and Power 3 Credit Hours**
Prerequisite: Junior Standing. Students examine the intersection of language and power from a broadly sociolinguistic perspective. There are many false beliefs about the nature of language. This course uses the tools of linguistic science to interrogate those beliefs in order to better understand language in society, uncover the origins of popular (mis)conceptions about language variation, and nurture an appreciation for global linguistic diversity. (Irreg.) [III-SS].
- ANTH 3853 Music, Language and Culture 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Explores the recent wave of literature on the common roots of language and music, covering everything from their foundations in social interaction to their biological expression and development in evolutionary terms. (Irreg.) [IV-WDC].
- ANTH 3873 Primate Evolution and Behavior 3 Credit Hours**
Prerequisite: ANTH 3203 or junior standing or permission of instructor. Course looks at primates, our closest living relatives, with particular emphasis on the evolution and ecology of primate behavior, and uses evolutionary theory as the underlying theoretical perspective. (Irreg.) [II-NS].
- ANTH 3893 Maya, Aztec and Inca: High Civilizations of Ancient America 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. An archaeological and ethnological study of the pre-Spanish cultures of Mesoamerica and the Central Andes giving primary emphasis to the Maya of Yucatan, the Aztec of Mexico and the Inca of Peru. (F, Sp) [IV-WDC].
- ANTH 3910 Internship in Biological Anthropology 6 Credit Hours**
Prerequisite: ANTH 3203 and six additional credit hours in anthropology. May be repeated; maximum credit six hours. Designed to provide field and/or laboratory training in biological anthropology. Internships are arranged on an individual basis with professional biological anthropologists. Students must meet criteria for acceptable performance and submit a final paper. (Sp, Su)
- ANTH 3920 Internship in Museum Anthropology 1-6 Credit Hours**
Prerequisite: junior standing or 6 hours of ANTH. May be repeated; maximum credit six hours. Designed to provide hands-on training in anthropological museum work. Internships are arranged on an individual basis with professional museum anthropologists or with professionals working in a museum in which anthropology-oriented museum work is undertaken. Students must meet criteria for acceptable performance and submit a final report. (F, Sp, Su)
- ANTH 3930 Fieldwork in Archaeology 1-8 Credit Hours**
1 to 8 hours. Prerequisite: ANTH 3113 or sophomore standing or permission of instructor. May be repeated; maximum credit eight hours. Designed to teach the student field methods in archaeology through actual participation in a field program using a combination of lectures, lab, discussion, and/or research. The subject matter depends upon the specific summer session and varies from year to year. The course is given during the summer session and the length of the class will vary with the project. (Su)
- ANTH 3933 Archaeology Lab Practicum 3 Credit Hours**
Prerequisite: ANTH 3113 or sophomore standing or permission of instructor. This course offers students hands-on experience working with real archaeological collections in a lab setting and is typically paired with a field school. Students will learn to accession, analyze, and interpret artifacts and records from an archaeological field project. (Su)
- ANTH 3940 Internship in Archaeology 1-6 Credit Hours**
Prerequisite: ANTH 3113. May be repeated; maximum credit six hours. Designed to provide advanced archaeological field and/or laboratory training for students who already have some archaeological field and/or laboratory experience. Internships are arranged on an individual basis with professional archaeologists. Students must meet criteria for acceptable performance and submit a final report. (F, Sp, Su)
- ANTH 3950 Internship in Cultural Anthropology 1-6 Credit Hours**
Prerequisite: Six credit hours in cultural anthropology. May be repeated; maximum credit six hours. Designed to provide field training in cultural anthropology. Internships are arranged on an individual basis with professional cultural anthropologists or with professionals working in a setting in which cultural anthropology research can be performed. Students must meet criteria for acceptable performance and submit a final report. (F, Sp, Su)
- ANTH 3953 Proseminar in Anthropology 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. May be repeated; maximum credit six hours. Topics will vary and are intended to acquaint undergraduate majors with subdisciplines through specialized study involving anthropological theory, methodology, the preparation, development and writing of reports. (F, Sp)

- ANTH 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Honors Reading will provide students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given in this course only after an intensive oral examination. (F, Sp)
- ANTH 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The topics addressed in this course will cover highly circumscribed areas of anthropological inquiry which are intensively investigated during the course of the semester. Originality of research and approach will be required and each student will be expected to contribute to the proceedings as a relatively mature scholar. (Irreg.)
- ANTH 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project under the guidance of a professor in the student's major department. (F, Sp)
- ANTH 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- ANTH 4023 Museum Anthropology 3 Credit Hours**
Prerequisite: Junior standing or 3 hours of ANTH. This course takes a critical approach to examining the intertwined history of museums and anthropological practice. We pay special attention to the ethical and moral considerations endemic to museum work. The course also covers basic principles of collections management, acquisitions, and exhibition. The course seeks to familiarize students with professional career paths for anthropological work in museums. (Sp)
- ANTH 4053 Morphology 3 Credit Hours**
(Slashlisted with ANTH 5053; Crosslisted with LING 4053) Prerequisite: 3053 and 3353. Introduces and develops theories and concepts of morphology including word formation, derivation, inflection, non-concatenative morphs, covert categories, prosodic phenomena, morphosyntactic categories and clitics. Data from non-Western languages will be prominent. No student may earn credit for both 4053 and 5053. (Irreg.)
- ANTH 4063 Language Contact, Loss, and Revitalization 3 Credit Hours**
Prerequisite: 2303 and junior standing. Covers the linguistic, social and cultural factors involved in contact-induced language change and language shift, and on the main trends and literature in revitalization and maintenance of endangered languages. Students gain experience in practical applications of language revitalization, focusing on languages of the Americas. No student may earn credit for both 4063 and 5063. (Irreg.)
- ANTH 4073 Anthropology of Jews and Jewishness 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. Explores major anthropological issues through the lens of ethnography conducted in Jewish communities around the world. The particular combinations of race, religion, ethnicity, identity, and gender as they are understood and expressed by Jews cross-culturally challenge our understanding of continuity and change in human societies. (Irreg.) [IV-WDC].
- ANTH 4093 Bodies and Materialities 3 Credit Hours**
(Slashlisted with ANTH 5093) Prerequisite: Junior standing or 3 hours of ANTH. This course will examine the body and material culture as a focus for an anthropological investigation into past populations. To acquaint ourselves with: a) the historical background to contemporary theories on materiality and embodiment, and b) critical evaluation of application of these theories to the archaeological record, and their potential and limitations. No student may earn credit for both 4093 and 5093. (Irreg.)
- ANTH 4113 Anthropology Capstone 3 Credit Hours**
Prerequisite: ANTH 2203 or ANTH 2303 or ANTH 3113 or ANTH 3203, and Junior standing. Extensive research in anthropological sources relating to a special problem or topic selected by the instructor. Emphasis will be on synthesis of material presented in the course with previous material learned in Anthropology courses for the individual preparation of research papers. Content varies by section. (Irreg.) [V].
- ANTH 4163 The Study of Material Culture 3 Credit Hours**
(Slashlisted with ANTH 5163) Prerequisite: junior standing or 3 hours of ANTH. Focuses on the study of the things people make and the broader social contexts in which objects are used, circulated, made meaningful, and consumed. Methods and theories developed in geography, folklore, cultural anthropology, archeology, and related social sciences will be examined. No student may earn credit for both 4163 and 5163. (F)
- ANTH 4223 The Anthropology of Childhood 3 Credit Hours**
Prerequisite: English 1213/Expository Writing 1213. Explores global and deep historical perspectives on childhood, using methods from cultural anthropology. Specific attention is paid to beliefs and practices regarding reproduction and childbirth, infancy and toddlerhood, learning and school, adolescence and sexuality, and early adulthood and parenting. Course materials will emphasize understanding the role of social and cultural context in shaping the experiences of children and families. (Irreg.) [IV-WDC].
- ANTH 4253 The Anthropology of Communities 3 Credit Hours**
(Slashlisted with ANTH 5253) Prerequisite: junior standing or 3 hours of ANTH. Designed to introduce students to the community in applying anthropological field techniques and theory. While gaining training in method and theory in class, students will be given assignments to execute in community settings. Particular emphasis will be placed on ethnicity, gender and seniority as ethnological parameters. No student may earn credit for both 4253 and 5253. (Irreg.)
- ANTH 4283 Curriculum & Teaching Materials Development for Endangered Languages 3 Credit Hours**
Prerequisite: ANTH/LING 2303 and junior standing. Provides tools to create maximally useful teaching and learning materials for under-studied languages. Focuses on teaching methods that emphasize language for actual day-to-day communication and language curricula that is culturally situated. (Irreg.)
- ANTH 4303 Women and Development in Africa 3 Credit Hours**
(Slashlisted with ANTH 5303) Prerequisite: junior standing or 3 hours of ANTH. Examines women's involvement in economic development in Africa. Some consideration will be given to family structure and social stratification, as well as women's participation in the social, political and economic spheres. Avenues for viable social change will also be considered. No student may earn credit for both 4303 and 5303. (Irreg.) [IV-WDC].

- ANTH 4323 The Anthropology of Aging 3 Credit Hours**
(Slashlisted with ANTH 5323) Prerequisite: English 1213/Expository Writing 1213. Examines the process and experience of aging as it relates to culture, and what it means to get older in a variety of cultural contexts, including the United States. Special attention will be devoted to cultural ideas about aging, the roles of older people, illness, caregiving, dying, and what it means to age well in a variety of cultures. No student may earn credit for both 4323 and 5323. (Irreg.) [IV-WDC].
- ANTH 4333 Archaeologies of Movement and Migration in North America 3 Credit Hours**
Prerequisite: Junior standing or 3 hours of ANTH. This course will draw from the work of archaeologists to explore the long-term histories of human migration and movement in North America. We will investigate why movement has been so critical for our ancestors, the different types of movement, why people migrate, and consider the history of voluntary and forced migrations in our continent's history. (Irreg.) [IV-WDC].
- ANTH 4423 Introduction to Population Genetics 3 Credit Hours**
(Slashlisted with ANTH 5423) Prerequisite: ANTH 3203 or 3 hours of BIOL. Population genetics is a classic course in biological anthropology sciences, and studies the fundamental forces that cause genetic change within and between populations. No student may earn credit for both 4423 and 5423. (Irreg.)
- ANTH 4433 Ethnographic Writing 3 Credit Hours**
(Slashlisted with ANTH 5433) Prerequisite: Junior standing or 3 hours of ANTH. This course is an immersion in creative ethnographic writing. It teaches students how to gather original ethnographic data and to translate their findings into an insightful, artfully written study. No student may earn credit for both 4433 and 5433. (Irreg.)
- ANTH 4443 Visual Anthropology 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. Explores the historical and contemporary use of media to represent culture, and examines the changes in styles of ethnographic film from direct cinema and observational cinema to reflexivity, personal cinema, indigenous media, and collaboration between ethnographic filmmaker and film subject. (Irreg.) [IV-WDC].
- ANTH 4463 Peopling of the New World 3 Credit Hours**
(Slashlisted with 5463) Prerequisite: ANTH 1413 or ANTH 3113 or permission of instructor. Introduces the dynamic domain of the earliest human colonization of the Americas. Focuses on such key "peopling" debates as the geographic origins of First Americans; when people first arrived in the New World; and if and how ancient human skeletal remains should be studied. No student may earn credit for both 4463 and 5463. (Irreg.)
- ANTH 4513 Applying Anthropology to Contemporary Social Problems 3 Credit Hours**
(Slashlisted with ANTH 5513) Prerequisite: ANTH 2203 or approval of instructor. Explores the application of anthropological knowledge and practice to contemporary societal challenges. How anthropological concepts, methods, and insights can be used to understand and solve problems. (Irreg.) No student may earn credit for both 4513 and 5513. (Irreg.)
- ANTH 4593 Anthropology of Human Reproduction 3 Credit Hours**
Prerequisite: ANTH 3203 or junior standing. Examines the major features of human fertility and reproduction, exploring the interactions between physiology, ecology, and behavior. The course applies an anthropological perspective to such issues as cross-cultural patterns of fertility, the timing and probability of conception, age at first and last reproduction, and male reproductive physiology. (Irreg.) [II-NS].
- ANTH 4623 Approaches to Cross-Cultural Human Problems 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. Introduces students to the complex problems of contemporary global-scale cultures and helps them better understand their place on this global arena. This course will look at specific international issues or problems, and relate them to processes occurring in many parts of the world. (Irreg.) [IV-WDC].
- ANTH 4643 Psychiatric Anthropology 3 Credit Hours**
(Slashlisted with 5643) Prerequisite: junior standing or 3 hours of ANTH. Explores historical and contemporary thinking about culture and mental illness, and examines classic formulations of the relationship between anthropology and psychiatry. No student may earn credit for both 4643 and 5643. (Irreg.)
- ANTH G4713 Statistical Concepts in Anthropology 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. An introduction to anthropological statistics. Emphasis will be placed on anthropological research design and analysis of anthropological data. (Irreg.)
- ANTH 4723 Gender and Health 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. Provides an overview of the complex scientific and cultural interface between sex, gender, and health. Topics covered include gender identity and biological sex, various life cycles issues such as birth, sexual maturity, reproduction, and post-reproductive years. No student may earn credit for both 4723 and 5723. (Irreg.)
- ANTH 4733 Bioarchaeology of Death & Burials 3 Credit Hours**
(Slashlisted with 5733) Prerequisite: Junior standing or 3 hours of ANTH. The dead can tell us many secrets if we know how to "listen" to their stories. We will explore the social significance of death, burial and commemoration among diverse groups around the world. Using cutting edge archaeological methods and theories, we will work to understand how death is materialized in the archaeological record. No student may earn credit for both 4733 and 5733. (F, Sp)
- ANTH 4753 Body, Culture, Power: Anthropologies of Flesh 3 Credit Hours**
(Slashlisted with ANTH 5753) Prerequisite: Junior standing or 3 hours of ANTH. The body has come to occupy a central place in anthropological inquiry. This course looks at the body from different theoretical perspectives, offering a survey of recent scholarship on embodiment and biopower. We explore how the body is a medium for experience, and consider regulation of the "body politic" through immigration policy, reproductive governance, fertility control, and technological advancement. No student may earn credit for both 4753 and 5753. (Irreg.)
- ANTH 4783 Landscape Archaeology 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. Introduces the method and theory of landscape archaeology, which is the study of how humans experience, modify, and respond to their natural and social environments. Archaeological and contemporary case studies will be examined using methods like environmental reconstruction, geoarchaeology, remote sensing, and GIS, to examine human-natural systems, resilience and vulnerability, sacred landscapes, monumentality, and mobility. (Irreg.) [IV-WDC].
- ANTH 4813 Archaeology of North America 3 Credit Hours**
(Slashlisted with ANTH 5813) Prerequisite: junior standing or 3 hours of ANTH. A course in the prehistory of the American Indian. Study of the prehistory of North America north of Mexico. Consideration of the various archeological areas of the continent in terms of the prehistoric sequence of events from the earliest times up to European contact. No student may earn credit for both 4813 and 5813. (Irreg.) [IV-WDC].

- ANTH 4823 Medical Anthropology 3 Credit Hours**
(Slashlisted with ANTH 5823) Prerequisite: junior standing or permission of instructor. An introduction to the field of medical anthropology, the subfield of anthropology that focuses on the interaction of culture and biology in the areas of health, medicine and disease. Medical anthropology offers a unique perspective on how people cope with disease and how medical systems are constructed. Includes theoretical and topical overviews of the field. No student may earn credit for both 4823 and 5823. (F)
- ANTH G4833 Archaeology of the Great Plains 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. A detailed survey of the archaeological remains from the Great Plains from the earliest occupation of the area until the reservation period. (Irreg.)
- ANTH 4843 Cross-Cultural Study of Sex, Gender and Sexuality 3 Credit Hours**
(Slashlisted with ANTH 5843) Prerequisite: junior standing or 3 hours of ANTH. A consideration of ethnographic material that challenges understandings of the relationships among sex, gender, and sexuality. Topics include language, socialization, segregation and inequality, gender variance and "third gender" categories, sexual practices and identities, and transsexual and transgender phenomena. No student may earn credit for both 4843 and 5843. (Irreg.) [IV-WDC].
- ANTH G4853 Archaeology of the Greater Southwest 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. A detailed survey of the prehistoric sequence in the American Southwest and northwestern Mexico from earliest times up to the time of European contact. (Irreg.)
- ANTH 4863 Archaeology of the Southeast 3 Credit Hours**
(Slashlisted with ANTH 5863) Prerequisite: junior standing or 3 hours of ANTH. A study of the prehistoric and early historic Native American culture histories. Some attention will be given to historic African and European cultures in the Southeast. Emphasis will be placed on long-term social change, pan-regional trends and colonial transformations. No student may earn credit for both 4863 and 5863. (Irreg.)
- ANTH 4883 Dates, Compositions, and Ancestors: Scientific Applications in Archaeology 3 Credit Hours**
(Slashlisted with ANTH 5883) Prerequisite: Junior standing or 3 hours of ANTH. Provides an overview of physical science applications in archaeological research. Topics include: dating objects, determining where an object was made, inferring the use of artifacts, and reconstructing genetic relationships between groups. Emphasis is placed on both how these techniques work and how they can be appropriately utilized to understand prehistoric social organization. No student may earn credit for both 4883 and 5883. (Irreg.)
- ANTH 4903 Race and Ethnicity 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. Introduces a broad spectrum of issues, concepts and methods in the anthropology of race and ethnicity. The goal is to teach students to think, read and write critically about race and ethnicity from a cross-cultural perspective, a strategy that encourages better understanding of the various forms of structural oppression that structure everyday lives. (Irreg.) [IV-WC].
- ANTH G4943 Human Osteology and Paleopathology 3 Credit Hours**
Prerequisite: ANTH 3203 or permission of instructor. Allows the student to develop a basic familiarity with human skeletal remains, standard anatomical terminology, and methods and techniques of data collection. In turn, these osteological skills will provide a means to explore questions of human adaptability, variation, evolution, patterns of health and disease in prehistory, and the applicability of these findings to contemporary problems. (Irreg.)
- ANTH 4953 Special Topics in Anthropology 3 Credit Hours**
Prerequisite: Junior standing or 3 hours of ANTH or permission of the instructor. May be repeated with change of content; maximum credit twelve hours. Topics will vary and are intended to acquaint the advanced anthropology major with subdisciplines through specialized study involving anthropological theory, methodology, the preparation, development and writing of reports. (Irreg.)
- ANTH 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- ANTH 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ANTH 4973 Introduction to Faunal Analysis 3 Credit Hours**
(Slashlisted with ANTH 5973) Prerequisite: ANTH 3113. An introductory-level look at animal bone analysis as performed by archaeologists and zooarchaeologists. The bones of birds, fish, reptiles, amphibians, and mammals, as well as mollusk shell, are discussed under the topics of taxonomy, taphonomy, age and sex determination, morphometrics, seasonality, and specialized techniques. No student may earn credit for both 4973 and 5973. (Irreg.)
- ANTH 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- ANTH 4993 Reconstruction of Life from the Skeleton 3 Credit Hours**
(Slashlisted with ANTH 5993) Prerequisite: Junior standing or 3 hours of ANTH. Bioarchaeology is the study of human skeletal remains. This includes a myriad of interconnected phenomena including mortuary contexts, paleopathology, and assessing human variation and adaptation. It also encompasses scientific approaches and applications of social theory, and ethical issues. Students will develop a historical perspective on bioarchaeology. Emphases also are placed on recent discoveries, new interpretations and theoretical approaches. No student may earn credit for both 4993 and 5993. (Irreg.)
- ANTH 5001 Professionalization in Anthropology 1 Credit Hour**
Prerequisite: graduate standing. Prepares students for graduate school and careers in Anthropology. Topics covered include publishing, grant writing, professional conduct, expectations in graduate school, and more. (F)
- ANTH 5053 Morphology 3 Credit Hours**
(Slashlisted with ANTH 4053) Prerequisite: Graduate standing. Introduces and develops theories and concepts of morphology including word formation, derivation, inflection, non-concatenative morphs, covert categories, prosodic phenomena, morphosyntactic categories, and clitics. Data from non-Western languages will be prominent. No student may earn credit for both 4053 and 5053. (Irreg.)

- ANTH 5063 Language Contact, Loss, and Revitalization 3 Credit Hours**
Prerequisite: 2303 and graduate standing. Covers the linguistic, social and cultural factors involved in contact-induced language change and language shift, and on the main trends and literature in revitalization and maintenance of endangered languages. Students gain experience in practical applications of language revitalization, focusing on languages of the Americas. No student may earn credit for both 4063 and 5063. (Irreg.)
- ANTH 5083 Quantitative Methods in Anthropology 3 Credit Hours**
Prerequisite; graduate standing. Introduces students to the basics of quantitative analysis in the field of anthropology. Topics include parametric and non-parametric measurements of significance and association, multivariate techniques, and concepts useful to anthropologists such as spatial analysis and sampling. (Irreg.)
- ANTH 5093 Bodies and Materialities 3 Credit Hours**
(Slashlisted with 4093) Prerequisite: Graduate standing. This course will examine the body and material culture as a focus for an anthropological investigation into past populations. The course goals are to acquaint ourselves with the historical background to contemporary theories on materiality and embodiment, and critically evaluate the application of these theories to the archaeological record and their potentials and limitations. No student may earn credit for both 4093 and 5093. (Irreg.)
- ANTH 5123 Contemporary Culture Theory 3 Credit Hours**
Prerequisite: ANTH 5223. Introduces students to different unit and levels of sociocultural analysis. Students will be required to address a series of research problems as a means of understanding sociocultural analysis. (Sp)
- ANTH 5153 Ethnography of Communication 3 Credit Hours**
Prerequisite: graduate standing. This course focuses on language use in larger discourse and cultural contexts and how language is used to conduct the social life and the dynamics of culture. Topics include topic and focus, deixis, reported speech, speaking styles, strategies, and genres, and language and ethnicity. (F)
- ANTH 5163 The Study of Material Culture 3 Credit Hours**
(Slashlisted with ANTH 4163) Prerequisite: graduate standing. Focuses on the study of the things people make and the broader social contexts in which objects are used, circulated, made meaningful, and consumed. Methods and theories developed in the fields of geography, folklore, cultural anthropology, archaeology, and related social sciences will be examined. No student may earn credit for both 4163 and 5163. (F)
- ANTH 5183 Contemporary Native American Ethnography 3 Credit Hours**
Prerequisite: graduate standing. Examines the impact of changes in the relationship between anthropologists and Native communities and the possibilities for an improved collaborative relationship between anthropologists and First Nations communities in the U.S. and Canada. Through readings, class discussion, and media we examine the ways in which Native people maintain cultural identity and sovereignty in response to ever-changing social conditions of life in the 21st century. (Irreg.)
- ANTH 5203 Hunter-Gatherers 3 Credit Hours**
Prerequisite: graduate standing. Considers the social, economic, ecological, and historical variation in hunter-gatherer societies. The history and theory of hunter-gatherer studies will be explored. Ethnographic and archaeological case studies will be used to examine settlement and mobility practices, architecture, subsistence, social organization, interaction, technology, and cosmology. (Irreg.)
- ANTH 5213 Ethnographic Methods 3 Credit Hours**
Prerequisite: graduate standing. Survey of ethnographic methods in anthropological research, with weekly fieldwork assignments and writing exercises. First half of class devoted to current theoretical debates, including the post-modern controversy and literary issues in classic ethnography. Second half of class devoted to hands-on research, including participant-observation, interviews, field notes, databases, and linguistic elicitation. (Irreg)
- ANTH 5223 Foundations of Social Thought 3 Credit Hours**
Prerequisite: Graduate standing; majors only or permission of instructor. Survey of anthropological theorists and theories of culture (evolutionary, functional, cognitive, ecological, structural, symbolic, etc.) and their impact on research methods in each of the four fields of anthropology and related disciplines. Emphasis will be given to a discussion of primary texts written by the major theorists. (F)
- ANTH 5253 The Anthropology of Communities 3 Credit Hours**
(Slashlisted with ANTH 4253) Prerequisite: graduate standing. Designed to introduce students to the community in applying anthropological field techniques and theory. While gaining training in method and theory in class, students will be given assignments to execute in community settings. Particular emphasis will be placed on ethnicity, gender and seniority as ethnological parameters. No student may earn credit for both 4253 and 5253. (Irreg.)
- ANTH 5273 Topics in Social Anthropology 3 Credit Hours**
May be repeated; maximum credit twelve hours. Topics vary. (F, Sp)
- ANTH 5293 Origins of Complex Society 3 Credit Hours**
Prerequisite: graduate standing. Examines the origins and development of complex society and the institutionalization of social inequalities. Complexity is examined along a changing scale of sociopolitical organization, from small "egalitarian" societies to middle-range "chiefdoms" to large archaic states, using both archaeological and ethnographic examples. (Sp)
- ANTH 5303 Women and Development in Africa 3 Credit Hours**
(Slashlisted with ANTH 4303) Prerequisite: graduate-level social science course. Examines women's involvement in economic development in Africa. Some consideration will be given to family structure and social stratification, as well as women's participation in the social, political and economic spheres. Avenues for viable social change will also be considered. No student may earn credit for both 4303 and 5303. (Irreg.)
- ANTH 5323 The Anthropology of Aging 3 Credit Hours**
(Slashlisted with ANTH 4323) Prerequisite: ANTH 5223 and graduate standing. Examines the process and experience of aging as it relates to culture, and what it means to get older in a variety of cultural contexts, including the United States. Special attention will be devoted to cultural ideas about aging, the roles of older people, illness, caregiving, dying, and what it means to age well in a variety of cultures. No student may earn credit for both 4323 and 5323. (Irreg.)
- ANTH 5363 Linguistic Anthropology 3 Credit Hours**
Prerequisite: graduate standing in Anthropology or permission of instructor. Course covers the history of theory in linguistic anthropology, starting with the early work of Boas, Sapir, and Whorf, and continuing with the writings of Levi-Strauss, Hymes, Basso, Silverstein, Bakhtin, and Hill. Surveys contemporary trends in discourse analysis, sociolinguistics and cognitive linguistics. Course is a required core course for anthropology graduate students. (F, Sp)

ANTH 5393 Anthropology and the Health of Indigenous People 3 Credit Hours

Prerequisite: graduate standing. Introduces graduate students to research in medical, biological, linguistic, and sociocultural anthropology and archaeology that relates to the health and well-being of global indigenous populations, with an emphasis on the native peoples of the Americas. (F)

ANTH 5413 Public Archaeology 3 Credit Hours

Prerequisite: graduate standing, permission of instructor. Focus is on the articulation of graduate academic training in archaeology with current federal rules and regulations, and educational outreach concerning archaeological research and goals. Emphasis is on advanced training in the preservation and management of archaeological resources. (Irreg.)

ANTH 5423 Introduction to Population Genetics 3 Credit Hours

(Slashlisted with ANTH 4423) Prerequisite: graduate standing. Population genetics is a classic course in biological anthropology sciences, and studies the fundamental forces that cause genetic change within and between populations. No student may earn credit for both 4423 and 5423. (Irreg.)

ANTH 5433 Ethnographic Writing 3 Credit Hours

(Slashlisted with ANTH 4433) Prerequisite: Graduate standing. This course is an immersion in creative ethnographic writing. It teaches students how to gather original ethnographic data and to translate their findings into an insightful, artfully written study. No student may earn credit for both 4433 and 5433. (Irreg.)

ANTH 5463 Peopling of the New World 3 Credit Hours

(Slashlisted with ANTH 4463) Prerequisite: graduate standing. Introduces the dynamic domain of the earliest human colonization of the Americas. Focuses on such key "peopling" debates as the geographic origins of First Americans; when people first arrived in the New World; and if and how ancient human skeletal remains should be studied. No student may earn credit for both 4463 and 5463. (Irreg.)

ANTH 5513 Applying Anthropology to Contemporary Social Problems 3 Credit Hours

(Slashlisted with ANTH 4513) Prerequisite: Graduate standing in Anthropology or instructor approval. Explores the application of anthropological knowledge and practice to contemporary societal challenges. How anthropological concepts, methods, and insights can be used to understand and solve problems. (Irreg.) No student may earn credit for both 4513 and 5513. (Irreg.)

ANTH 5543 Research Design 3 Credit Hours

Prerequisite: graduate standing and 5223. Studies ethnographic research methods and design. An overview of current practices and theoretical disputes, followed by group discussion of individual class members' unique research design problem. (Irreg.)

ANTH 5593 Spatial Methods and Technologies in Anthropology 3 Credit Hours

Prerequisite: graduate standing. Introduces the theory and techniques of GIS, remote sensing, mapping, and GPS as it relates to anthropological fieldwork. The emphasis will be on topics related to and management of spatial data that is aimed specifically at the archaeologist or cultural anthropologist expecting to use GIS in the course of their research or applied work. (Irreg.)

ANTH 5643 Psychiatric Anthropology 3 Credit Hours

(Slashlisted with ANTH 4643) Prerequisite: ANTH 5223 and graduate standing. Explores historical and contemporary thinking about culture and mental illness, and examines classic formulations of the relationship between anthropology and psychiatry. No student may earn credit for both 4643 and 5643. (Irreg.)

ANTH 5733 Bioarchaeology of Death & Burials 3 Credit Hours

(Slashlisted with 4733) Prerequisite: Graduate standing. The dead can tell us many secrets if we know how to "listen" to their stories. We will explore the social significance of death, burial, and commemoration among diverse groups around the world. Using cutting edge archaeological methods and theories, we will work to understand how death is materialized in the archaeological record. No student may earn credit for both 4733 and 5733. (F, Sp)

ANTH 5753 Body, Culture, Power: Anthropologies of Flesh 3 Credit Hours

(Slashlisted with ANTH 4753) Prerequisite: Graduate standing. The body has come to occupy a central place in anthropological inquiry. This course looks at the body from different theoretical perspectives, offering a survey of recent scholarship on embodiment and biopower. We explore how the body is a medium for experience and consider regulation of the "body politic" through immigration policy, reproductive governance, fertility control, and technological advancement. No student may earn credit for both 4753 and 5753. (Irreg.)

ANTH 5783 Ceramics in Archaeology 3 Credit Hours

Prerequisite: graduate standing. The theoretical frameworks surrounding the analysis of ceramics in archaeology are discussed. Topics considered may include analytic methods, origins, mobility and sedentism, function, production, gender, specialization, distribution, style, ethnicity, household size, ideology, and social identity. (Irreg.)

ANTH 5803 Theories of Identity 3 Credit Hours

Prerequisite: 5223 and graduate standing. Considers the relationship between ethnicity and other social categories on processes such as race, peoplehood, culture, tradition, heritage, nationality, religion, gender, and class. (Sp)

ANTH 5813 Archaeology of North America 3 Credit Hours

(Slashlisted with ANTH 4813) Prerequisite: graduate standing. A course in the prehistory of the American Indian. Study of the prehistory of North America north of Mexico. Consideration of the various archeological areas of the continent in terms of the prehistoric sequence of events from the earliest times up to European contact. No student may earn credit for both 4813 and 5813. (Irreg.)

ANTH 5823 Medical Anthropology 3 Credit Hours

(Slashlisted with ANTH 4823) Prerequisite: graduate standing and permission of instructor. An introduction to the field of medical anthropology, the subfield of anthropology that focuses on the interaction of culture and biology in the areas of health, medicine and disease. Medical anthropology offers a unique perspective on how people cope with disease and how medical systems are constructed. Includes theoretical and topical overviews of the field. No student may earn credit for both 4823 and 5823. (F)

- ANTH 5843 Cross-Cultural Study of Sex, Gender and Sexuality** **3 Credit Hours**
(Slashlisted with ANTH 4843) Prerequisite: graduate standing. A consideration of ethnographic material that challenges understandings of the relationships among sex, gender, and sexuality. Topics include language, socialization, segregation and inequality, gender variance and "third gender" categories, sexual practices and identities, and transsexual and transgender phenomena. No student may earn credit for both 4843 and 5843. (Irreg.)
- ANTH 5863 Archaeology of the Southeast** **3 Credit Hours**
(Slashlisted with ANTH 4863) Prerequisite: graduate standing. A study of the pre-contact and early post-contact Native American culture histories. Some attention will be given to historic African and European cultures in the Southeast. Emphasis will be placed on long-term social change, pan-regional trends and colonial transformations. No student may earn credit for both 4863 and 5863. (Sp)
- ANTH 5883 Dates, Compositions, and Ancestors: Scientific Applications in Archaeology** **3 Credit Hours**
(Slashlisted with ANTH 4883) Prerequisite: graduate standing. Provides an overview of physical science applications in archaeological research. Topics include: dating objects, determining where an object was made, inferring the use of artifacts, and reconstructing genetic relationships between groups. Emphasis is placed on both how these techniques work and how they can be appropriately utilized to understand prehistoric social organization. No student may earn credit for both 4883 and 5883. (Irreg.)
- ANTH 5893 Topics in Archaeology** **3 Credit Hours**
May be repeated; maximum credit 12 hours. Topics will vary. Laboratory (F, Sp)
- ANTH 5913 Topics in Biological Anthropology** **3 Credit Hours**
Prerequisite: graduate standing. May be repeated with change of topic; maximum credit 12 hours. An opportunity for a seminar of interest in biological anthropology. (F, Sp)
- ANTH 5923 Lithic Technology and Analysis** **3 Credit Hours**
Prerequisite: graduate standing in Anthropology or permission of instructor. Instructs students in flint knapping, raw material properties, chipped stone analysis, and the application of analytical approaches to archaeological research problems. (Irreg.)
- ANTH 5960 Directed Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- ANTH 5963 Writing for Anthropologists** **3 Credit Hours**
Prerequisite: graduate standing in Anthropology. Teaches students to be better and more efficient anthropological writers. Topics range from pragmatic approaches to increasing productivity; to understanding the peer-reviewed process; to the nuts and bolts of writing an effective research paper, literature review, and grant proposal. (Irreg.)
- ANTH 5970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ANTH 5973 Introduction to Faunal Analysis** **3 Credit Hours**
(Slashlisted with ANTH 4973) Prerequisite: graduate standing. An introductory-level at animal bone analysis as performed by archaeologists and zoo archaeologists. The bones of birds, fish, reptiles, amphibians, and mammals, as well as mollusk shell are discussed under the topics of taxonomy, age and sex determination, morphometrics, seasonality, and specialized techniques. No student may earn credit for both 4973 and 5973. (Irreg.)
- ANTH 5980 Research for Master's Thesis** **2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. Laboratory (F, Sp, Su)
- ANTH 5990 Special Anthropological Problems** **1-3 Credit Hours**
1 to 3 hours. May be repeated; maximum credit 12 hours. Permits the student to investigate a specific problem in terms of currently available data. It may be within any field of anthropology recommended by the instructor or adviser. (F, Sp, Su)
- ANTH 5993 Reconstruction of Life from the Skeleton** **3 Credit Hours**
(Slashlisted with ANTH 4993) Prerequisite: Graduate standing. Bioarchaeology is the study of human skeletal remains. This includes a myriad of interconnected phenomena including mortuary contexts, paleopathology, and assessing human variation and adaptation. It also encompasses scientific approaches, applications of social theory, and ethical issues. Students will develop a historical perspective on bioarchaeology. Emphases also are placed on recent discoveries, new interpretations and theoretical approaches. No student may earn credit for both 4993 and 5993. (Irreg.)
- ANTH 6203 Political Economy** **3 Credit Hours**
Prerequisite: graduate standing. Examines the political-economic perspective in anthropology and explores its approach to the construction of knowledge, culture, the nature of social systems, social history, archaeology, ethnography (the remote and recent past), ethnicity, class, and gender. (F)
- ANTH 6223 Community Engaged Anthropology** **3 Credit Hours**
Prerequisite: Graduate standing. This course examines community-engaged research from historical, methodological, and practical perspectives, and examines the many roles a community-engaged researcher assumes, the responsibilities of researchers to members of the communities in which they work, as well as the nature and limits of those responsibilities. Emphasis is placed on developing partnerships that blur the line between "research" and "researched." (Irreg.)
- ANTH 6310 Internship in Applied Medical Anthropology** **1-6 Credit Hours**
1 to 6 hours. Prerequisite: Graduate standing in Anthropology or instructor approval. The internship in Applied Medical Anthropology provides an opportunity for students to apply anthropological theory and method to real-world health problems. Students work collaboratively with an organization/community on an agreed upon issue related to human health, contributing to its efforts, while learning how to put anthropological skills into practice. (F, Sp, Su)
- ANTH 6590 Fieldwork in American Indian Languages** **3-6 Credit Hours**
3 to 6 hours. Prerequisite: Graduate standing. Advanced field experience in the recording and analysis of Native American languages, including a discussion of problems in selecting and effectively utilizing informants. (Irreg.)

ANTH 6633 Method and Theory in Biological Anthropology 3 Credit Hours

Prerequisite: graduate standing in Anthropology or permission of instructor. The core course in biological anthropology. Historical development of biological (physical) anthropology; the development and application of method and theory in the major subfields of biological anthropology. (Sp)

ANTH 6650 Advanced Fieldwork in Anthropology 3-8 Credit Hours

3 to 8 hours. Prerequisite: permission of chairperson and dean of the Graduate College. Students interested in this summer program should request a Special Announcement from the Department of Anthropology. Laboratory (Su)

ANTH 6713 Archaeological Theory 3 Credit Hours

Prerequisite: graduate standing in Anthropology or permission of instructor. This course explores archaeological theory, its evolution and context. As an anthropological core class, it stresses the articulation of archaeological theory within its wider parent discipline, anthropology. (F)

ANTH 6750 Research in Archaeology 1-4 Credit Hours

1 to 4 hours. Permits the student to undertake independent research. Such research is normally limited to original or unpublished work. (Problems to be solved by library research are properly within the scope of 5990.) Laboratory (F, Sp)

ANTH 6803 Advanced Archaeological Theory 3 Credit Hours

Prerequisite: 6713. An advanced course in archaeological theory focusing especially on those theories prominent in the last decade. The course concentrates on theoretical frameworks that might form the students' dissertation research. (Irreg.)

ANTH 6810 Research in Ethnology 1-4 Credit Hours

1 to 4 hours. Permits the student to undertake independent fieldwork to study some problems in ethnology. (F, Sp, Su)

ANTH 6843 Foundations of Biological and Medical Anthropology 3 Credit Hours

Prerequisite: graduate standing in Anthropology. Introduces students to the theoretical foundations of biological and medical anthropology. (F)

ANTH 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

ANTH 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

ANTH 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

ANTH 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Anderson	Kermyt	G	2002	ASSOCIATE PROFESSOR OF ANTHROPOLOGY, 2017	PhD, Univ of New Mexico, 1999; MS, Univ of New Mexico, 1996; BA, Univ of North Carolina, 1993
Bessire	Lucas		2011	ASSOCIATE PROFESSOR OF ANTHROPOLOGY, 2017	PhD, New York Univ, 2010; MA, New York Univ, 2006; BA, Kansas State Univ, 2001
Cerezo-Roman	Jessica		2018	ASSISTANT PROFESSOR OF ANTHROPOLOGY	PhD, Univ of Arizona, 2014; MPA, Escuela Nacional de Antrophologia e Historia, 2004; BA, Universidad de Puerto Rico, 2000
DeAngelo	Darcie		2021	ASSISTANT PROFESSOR OF ANTHROPOLOGY, 2021	PhD, McGill Univ, 2018; MPhil, Univ of Tromsø, 2011; BA, Harvard Univ, 2005.
Duwe	Samuel	G	2014	ASSOCIATE PROFESSOR OF ANTHROPOLOGY, 2021	PhD, Univ of Arizona, 2011; MA, Univ of Arizona, 2005; BA, Univ of Michigan, 2003
Fenn	Thomas		2018	ASSISTANT PROFESSOR OF ANTHROPOLOGY, 2018	PhD, Univ of Arizona, 2011

Pitblado	Bonnie	L	2012	PROFESSOR OF ANTHROPOLOGY, 2012; ROBERT E. AND VIRGINIA BELL CHAIR IN ANTHROPOLOGY, 2012	PhD, Univ of Arizona, 1999; MA, Univ of Arizona, 1993; BA, Carleton College, 1990						

Anthropology, B.A.

Minimum Total Credit Hours: 120

Major Hours: 36

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B025

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.

Code	Title	Credit Hours
Anthropology Core ¹		
ANTH 2203	Global Cultural Diversity	3
ANTH 2303	General Linguistics	3
ANTH 3113	Principles of Archaeology	3
ANTH 3203	Introduction to Biological Anthropology	3
ANTH 4113	Anthropology Capstone	3
Anthropology Cornerstone Suite		
ANTH 3011	Anthropology Cornerstone I: Introduction to the Major	1
ANTH 3021	Anthropology Cornerstone II: Research and Writing	1
ANTH 3031	Anthropology Cornerstone III: Professionalization	1

Anthropology Electives

Choose 18 hours of Anthropology electives (p. 240)	18
Total Credit Hours	36

¹ A grade of C or higher must be earned for each Anthropology Core class to fulfill the requirements for the Anthropology major.

Anthropology MAJOR Electives

The 18 hours of Anthropology electives are subject to the following requirements and restrictions:

- 1. Methods Class:** Must have at least 3 credit hours that are listed as Research Methods as defined by the Anthropology Elective List¹ which may be obtained from the departmental website.
- 2. Three Subfields:** Must have upper division (3000- or 4000-level) electives that span at least 3 different subfields as defined by the Anthropology Elective List¹ which may be obtained from the departmental website. The four possible subfields are: *Archaeological*, *HHB* (Human Health & Biology), *Linguistic*, and *Socio-Cultural*.
3. At least 12 hours of electives must be 3000- and 4000-level classes.
4. Up to 3 credit hours of these electives can be filled by Independent Study, Internship, Honors Research, or Mentored Research (ANTH 3810, 3910, 3920, 3940, 3950, 3980, 3990, or 4990).
5. Up to 3 credit hours of electives can be filled by approved non-Anthropology courses. These allowable classes are listed on the Anthropology Elective List¹. Any Study Abroad class on Anthropology or Anthropology-related topics may be approved with permission of the departmental adviser.

¹ The most current Anthropology Elective List (p. 242) can be found at: <http://www.ou.edu/cas/anthropology/undergraduate/electives>.

Some Anthropology electives may fulfill more than one subfield or can fulfill both subfield and research methods categories. In these cases, completing one course may satisfy two distribution requirements within the "Anthropology Electives" major requirement. For example, a student whose first class is designated Biological & Research Methods and whose second class is Socio-Cultural & Linguistic would fulfill requirements #1 and #2 above with those two classes alone.

Please consult with the Department advisor if you have any questions.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/genes/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-13 hours in the same language)</i>		

The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level)	^{1,2}	0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or P BIO	¹	3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS	¹	3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
<i>Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Culture</i>		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
<i>World Culture</i>		
Choose one course from the General Education World Culture list		3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>		
Choose one course from Artistic Forms, Western Culture, or World Culture	^{1,3}	3
Choose one course from Artistic Forms, Western Culture, or World Culture	^{1,3}	3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Anthropology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Anthropology major requirements.

Freshman

First Semester		Credit Hours
ANTH 2203	Global Cultural Diversity (World Culture, Core IV)	3
ENGL 1113	Principles of English Composition (Core I)	3
MATH (Core I)		3
Beginning Language (Core I)		5
Credit Hours		14

Second Semester

ANTH 3011	Anthropology Cornerstone I: Introduction to the Major	1
Choose one of the following:		3
ANTH 3113	Principles of Archaeology	
ANTH 2303	General Linguistics	
ANTH 3203	Introduction to Biological Anthropology	
ENGL 1213	Principles of English Composition (Core I)	3
or EXPO 1213	or Expository Writing	
First Year Experience (Core V)		3

Beginning Language continued (Core I)	5
Credit Hours	15

Sophomore

First Semester		Credit Hours
Choose two of the following:		6
ANTH 3113	Principles of Archaeology	
ANTH 2303	General Linguistics	
ANTH 3203	Introduction to Biological Anthropology	
HIST 1483	United States to 1865 (Core IV)	3
or HIST 1493	or United States, 1865 to the Present	
Intermediate Language		3
Natural Science with lab (Core II)		4
Credit Hours		16

Free Elective, upper-division (3000-4000-level)	3
Free Elective, upper-division (3000-4000-level)	3
Credit Hours	15
Total Credit Hours	120

Anthropology Department Electives List

- For the most current course list, please see the Department of Anthropology website.

For the Anthropology major, the choice of electives must satisfy these rules:

1. At least one of the major electives must be a Methods class. The list below indicates which classes are Methods classes.
2. At least three different subfields of Anthropology must be represented in the 3000 and 4000-level electives. The 4 subfields to choose from are Archaeological, Human Health & Biology (HHB), Linguistic, and Socio-Cultural. The list below indicates which subfield(s) the classes are associated with.
3. Students must have at least 15 hours of electives at the 3000- and 4000-levels.

Note that some Anthropology electives may fulfill more than one subfield, or can fulfill both subfield and research methods categories. In these cases, completing one course may satisfy two distribution requirements. For example, a student whose first class is designated Biological & Research Methods and whose second class is Socio-Cultural & Linguistic would fulfill requirements #1 and #2 above with those two classes alone.

The placement of rotating topics course numbers, independent study, unequated transfer courses, and study abroad will be decided by the adviser based on content.

Methods Courses

Code	Title	Credit Hours
ANTH 3930	Fieldwork in Archaeology (also Archaeology subfield)	1-8
ANTH 4023	Museum Anthropology	3
ANTH 4253	The Anthropology of Communities (also Socio-Cultural subfield)	3
ANTH 4283	Curriculum & Teaching Materials Development for Endangered Languages (also Linguistic subfield)	3
ANTH 4713	Statistical Concepts in Anthropology	3
ANTH 4943	Human Osteology and Paleopathology (also HHB subfield)	3
ANTH 4973	Introduction to Faunal Analysis (also Archaeology subfield)	3

Archaeology Courses

Code	Title	Credit Hours
ANTH 3783	The Anthropology of Slavery and Captivity (also Socio-Cultural subfield)	3

ANTH 3893	Maya, Aztec and Inca: High Civilizations of Ancient America	3
ANTH 3930	Fieldwork in Archaeology (also Methods)	1-8
ANTH 3940	Internship in Archaeology	1-6
ANTH 4163	The Study of Material Culture (also Socio-Cultural subfield)	3
ANTH 4463	Peopling of the New World	3
ANTH 4783	Landscape Archaeology	3
ANTH 4813	Archaeology of North America	3
ANTH 4833	Archaeology of the Great Plains	3
ANTH 4853	Archaeology of the Greater Southwest	3
ANTH 4863	Archaeology of the Southeast	3
ANTH 4973	Introduction to Faunal Analysis (also Methods)	3

Human Health & Biology Courses

Code	Title	Credit Hours
ANTH 3873	Primate Evolution and Behavior	3
ANTH 3910	Internship in Biological Anthropology	6
ANTH 4223	The Anthropology of Childhood (also Socio-Cultural subfield)	3
ANTH 4323	The Anthropology of Aging (also Socio-Cultural subfield)	3
ANTH 4423	Introduction to Population Genetics	3
ANTH 4593	Anthropology of Human Reproduction	3
ANTH 4643	Psychiatric Anthropology (also Socio-Cultural subfield)	3
ANTH 4723	Gender and Health (also Socio-Cultural subfield)	3
ANTH 4823	Medical Anthropology (also Socio-Cultural subfield)	3
ANTH 4943	Human Osteology and Paleopathology (also Methods)	3

Linguistic Anthropology Courses

Code	Title	Credit Hours
ANTH 3063	Language and Culture (also Socio-Cultural subfield)	3
ANTH 3810	Internship in Linguistic Anthropology	1-6
ANTH 3853	Music, Language and Culture (also Socio-Cultural subfield)	3
ANTH 4053	Morphology	3
ANTH 4063	Language Contact, Loss, and Revitalization	3
ANTH 4283	Curriculum & Teaching Materials Development for Endangered Languages (also Methods)	3

Socio-Cultural Anthropology Courses

Code	Title	Credit Hours
ANTH 3063	Language and Culture (also Linguistic subfield)	3
ANTH 3423	Anthropology of Religion	3

ANTH 3453	Contemporary Native American Issues	3
ANTH 3783	The Anthropology of Slavery and Captivity (also Archaeology subfield)	3
ANTH 3853	Music, Language and Culture (also Linguistic subfield)	3
ANTH 3950	Internship in Cultural Anthropology	1-6
ANTH 4073	Anthropology of Jews and Jewishness	3
ANTH 4163	The Study of Material Culture (also Archaeology subfield)	3
ANTH 4223	The Anthropology of Childhood (also HHB subfield)	3
ANTH 4253	The Anthropology of Communities (also Methods)	3
ANTH 4303	Women and Development in Africa	3
ANTH 4323	The Anthropology of Aging (also HHB subfield)	3
ANTH 4443	Visual Anthropology	3
ANTH 4623	Approaches to Cross-Cultural Human Problems	3
ANTH 4643	Psychiatric Anthropology (also HHB subfield)	3
ANTH 4723	Gender and Health (also HHB subfield)	3
ANTH 4823	Medical Anthropology (also HHB subfield)	3
ANTH 4843	Cross-Cultural Study of Sex, Gender and Sexuality	3
ANTH 4903	Race and Ethnicity	3

Lower-Division Electives

Code	Title	Credit Hours
ANTH 1113	What Makes Us Human? Exploring Cultural and Biological Diversity	3
ANTH 1203	Language Across Cultures	3
ANTH 1253	Folklore and Folklife	3
ANTH 1413	Great Discoveries in Archaeology	3
ANTH 1823	Religion in Everyday Life	3
ANTH 1913	Plagues and People: Health and Disease in Human Society	3
ANTH 2253	Human and Animal Interaction Across Cultures	3

Human Health & Biology, B.S.

Minimum Total Credit Hours: 120

Major Hours: 30

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B513

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.

- A grade of "C" or higher must be earned in each course presented for major credit.

Code	Title	Credit Hours
General Anthropology		
ANTH 3011	Anthropology Cornerstone I: Introduction to the Major	1
ANTH 3021	Anthropology Cornerstone II: Research and Writing	1
ANTH 3031	Anthropology Cornerstone III: Professionalization	1
ANTH 4113	Anthropology Capstone	3
Biological Anthropology		
ANTH 3203	Introduction to Biological Anthropology	3
Anthropology Electives (21 hours, total) ¹		
<i>Human Health & Biology</i>		
Choose at least 9 hours of upper division electives in HHB (p. 242) ²		9
<i>History, Culture, & Language</i>		
Choose 9 hours from the following:		9
ANTH 2203	Global Cultural Diversity	
ANTH 2303	General Linguistics	
ANTH 3113	Principles of Archaeology	
Upper division electives in Archaeology, Sociocultural, or Linguistic Anthropology (p. 242) ^{2,3}		
<i>Additional Anthropology Elective</i>		
Choose one course		3
Total Credit Hours		30

¹ A total of 21 additional hours in Anthropology. At least 15 hours must be from 3000 or 4000 level classes. Up to 3 credit hours of electives can be filled by Independent Study, Internship, Thesis, Honors Research, or Mentored Research. (ANTH 3810, 3910, 3920, 3940, 3950, 3980, 3990, 4980, or 4990) Up to 3 credit hours of electives can be filled by approved non-Anthropology courses. These allowable classes are listed on <http://www.ou.edu/cas/anthropology/undergraduate/electives>. Any study abroad class on Anthropology or Anthropology-related topics may be approved with permission of departmental advisor.

² As listed on <http://www.ou.edu/cas/anthropology/undergraduate/electives>.

³ Note, these classes cannot also be listed in HHB.

Major Support Requirements

Code	Title	Credit Hours
Biology		
Choose 8 hours of coursework in BIOL. Suggested courses include BIOL 1124 and 1134.		8
Chemistry		
Choose 18 hours of coursework in CHEM. Suggested courses include CHEM 1315, 1415, 3053, 3152 and 3153.		18
Math or Statistics		
Choose one of the following:		3
ANTH 4713	Statistical Concepts in Anthropology	

BIOL 2913	Intro to Quantitative Biology	
ECON 2843	Elements of Statistics	
MATH 1743	Calculus I for Business, Life and Social Sciences	
MATH 4753	Applied Statistical Methods

Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Anthropology academic advisors to verify that courses selected each semester fulfill

the recommended plan and satisfy University, College of Arts and Sciences, and Human Health & Biology major requirements.

Anthropology, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N025

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Anthropology Department.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Anthropology, including at least nine (9) hours at the upper-division level.

Choose one of the following Pathways:

Code	Title	Credit Hours
Pathway 1		
ANTH 1113	What Makes Us Human? Exploring Cultural and Biological Diversity	3
Choose at least 12 additional hours of course credit acceptable for major credit in Anthropology. At least nine (9) of these hours must be upper division.		12
Total Credit Hours		15

Code	Title	Credit Hours
Pathway 2		
Choose 15 hours of coursework acceptable for major credit in Anthropology with the following conditions:		15
1. At least nine (9) of these hours must be upper division (3000-4000 level).		
2. Must have electives that span at least three different subfields as defined by the Anthropology Elective Category list, which may be obtained from the Department website. The four possible subfields are: Archaeology, Health & Human Biology, Linguistics, Socio-Cultural ¹		
Total Credit Hours		15

¹ The most current Anthropology Elective Category (p. 242) list can be found at <http://www.ou.edu/cas/anthropology/undergraduate/electives>. Please consult with the Department advisor if there are any questions.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Anthropology, B.A./Sociocultural Anthropology, M.A.

Minimum Total Credit Hours: 137

Major Hours: 36

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 3.50

Major GPA - Combined and OU: 3.50

Program Code: A025/F025 Q615

- The 13 shared hours count as both Graduate and Upper-Division credit. ANTH 5001 is a free-elective for the Undergraduate degree.

Undergraduate Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.

Code	Title	Credit Hours
Anthropology Core Major Requirements¹		
ANTH 2203	Global Cultural Diversity	3
ANTH 2303	General Linguistics	3
ANTH 3113	Principles of Archaeology	3
ANTH 3203	Introduction to Biological Anthropology	3
ANTH 3011	Anthropology Cornerstone I: Introduction to the Major	1
ANTH 3021	Anthropology Cornerstone II: Research and Writing	1
ANTH 3031	Anthropology Cornerstone III: Professionalization	1
ANTH 4113	Anthropology Capstone	3
Anthropology Electives		
Choose 18 hours (see restrictions below) (p. 247)		18
Total Credit Hours		36

¹ A grade of C or higher must be earned for each Anthropology Core class to fulfill the requirements for the Anthropology major.

Graduate Requirements

Code	Title	Credit Hours

ANTH 6633	Method and Theory in Biological Anthropology	
ANTH 6713	Archaeological Theory	
Research Methods (shared)		
Choose from:		3
ANTH 5153	Ethnography of Communication	
ANTH 5213	Ethnographic Methods	
ANTH 5253	The Anthropology of Communities	
ANTH 5433	Ethnographic Writing	
ANTH 5513	Applying Anthropology to Contemporary Social Problems	
Thesis		
ANTH 5980	Research for Master's Thesis	2-5
Electives		
Choose 12-15 hours ²		12-15
Total Credit Hours		30

¹ Students must fulfill the two-course core course sequence, as well as a core course in one other subfield (linguistic anthropology would be the default and highly recommended course for most students) selected in consultation with the student's advisor and committee.

² 12-15 hours of coursework selected in consultation with the student's advisor and committee. No more than 6 hours from outside Anthropology may be applied. (3 hours shared)

Undergraduate Anthropology Electives

The 18 hours of Anthropology electives for the undergraduate degree are subject to the following requirements and restrictions:

- 1. Methods Class:** Must have at least 3 credit hours that are listed as Research Methods as defined by the Anthropology Elective List¹ which may be obtained from the departmental website. (shared Graduate Research Methods course will meet this requirement)
- 2. Three Subfields²:** Must have upper division (3000- or 4000-level) electives that span at least 3 different subfields as defined by the Anthropology Elective List¹ which may be obtained from the departmental website. The four possible subfields are: *Archaeological*, HHB (Human Health & Biology), *Linguistic*, and *Socio-Cultural*.
- 3.** At least 15 hours of electives must be 3000- and 4000-level classes. Graduate-level courses may fulfill this requirement (Shared courses ANTH 5123, ANTH 5223, the Graduate Research Methods class, and the 3 hours of shared Graduate elective may be used for this requirement.)
- 4.** Up to 3 credit hours of these electives can be filled by Independent Study, Internship, Honors Research, or Mentored Research (ANTH 3810, 3910, 3920, 3940, 3950, 3980, 3990, or 4990).
- 5.** Up to 3 credit hours of electives can be filled by approved non-Anthropology courses. These allowable classes are listed on the Anthropology Elective List¹. Any study abroad course on Anthropology or Anthropology-related topics may be used with permission of the Department adviser.

¹ The most current Anthropology Elective List (p. 242) can be found at: <http://www.ou.edu/cas/anthropology/undergraduate/electives>.

² A graduate-level course may fulfill this requirement.

Some Anthropology electives may fulfill more than one subfield or can fulfill both subfield and research methods categories. In these cases, completing one course may satisfy two distribution requirements with the "Anthropology Electives" major requirement. For example, a student whose first class is designated Biological & Research Methods and whose second class is Socio-Cultural & Linguistics would fulfill requirements #1 and #2 above with those two classes alone.

Please consult with the Department advisor if you have any questions.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>. **Courses graded P/NP will not apply.**

² 15-18 hours of coursework selected in consultation with the student's advisor and committee. No more than 6 hours from outside Anthropology may be applied.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Anthropology: Archaeology, Ph.D.

Minimum Total Hours: 90

Program Code: D025 R044

Program Requirements

Code	Title	Credit Hours
ANTH 5001	Professionalization in Anthropology	1
ANTH 5223	Foundations of Social Thought (core)	3
ANTH 5363	Linguistic Anthropology (core)	3
ANTH 6713	Archaeological Theory (core)	3
ANTH 6633	Method and Theory in Biological Anthropology (core)	3
ANTH 6803	Advanced Archaeological Theory	3
ANTH 5543	Research Design	3
Electives as approved by advisor and graduate liaison ¹		42
ANTH 6980	Research for Doctoral Dissertation	29
Total Credit Hours		90

¹ ANTH 5413, Public Archaeology is strongly encouraged.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

Anthropology: Human Health & Biology, Ph.D.

Minimum Total Hours: 90

Program Code: D025 R306

Program Requirements

Code	Title	Credit Hours
ANTH 5001	Professionalization in Anthropology	1
ANTH 5223	Foundations of Social Thought (core)	3
ANTH 5363	Linguistic Anthropology (core)	3
ANTH 6633	Method and Theory in Biological Anthropology (core)	3
ANTH 6713	Archaeological Theory (core)	3
ANTH 6843	Foundations of Biological and Medical Anthropology	3
	Choose two Methods courses from the following list or at advisor's discretion:	6
ANTH 5083	Quantitative Methods in Anthropology	
ANTH 5153	Ethnography of Communication	
ANTH 5213	Ethnographic Methods	
ANTH 5253	The Anthropology of Communities	
ANTH 5423	Introduction to Population Genetics	
ANTH 5543	Research Design	
ANTH 5593	Spatial Methods and Technologies in Anthropology	
BSE 5013	(OUHSC-Application of Microcomputers to Data Analysis)	
BSE 5163	(OUHSC-Biostatistical Methods I)	
BSE 5173	(OUHSC-Biostatistics Methods II)	
BSE 5663	(OUHSC-Analysis of Frequency Data)	
BSE 6643	(OUHSC-Survival Data Analysis)	
COMM 5313	Qualitative Research Methods	
	Electives as approved by the graduate liaison and advisor	25-39
ANTH 6980	Research for Doctoral Dissertation	29-43
Total Credit Hours		90

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral

degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

General Information

The School of Biological Sciences (SBS) was established in 2022 and brought together the formerly separate academic units of Biology and Microbiology and Plant Biology. The programs that are currently housed within the SBS began soon after the University of Oklahoma was founded, and the first Ph.D. degree awarded by OU was through the program in Biology. Faculty research and the graduate programs in the SBS have internationally-recognized strengths in areas of animal behavior, aquatic biology, biodiversity and conservation biology, cell signaling, development and regeneration, community ecology, evolutionary biology, genetics and genomics, life history and breeding systems, neural bases of behavior, organismal biology, organismal systems biology, plant ecology, anaerobic microbiology and ecology, molecular biology, ecosystem-scale processes, and environmental genomics. The SBS features several core research areas including Aquatic Biology, Biology of Behavior, Ecology and Evolutionary Biology (EEB), Geographical Ecology, Molecular, Cellular, and Developmental Biology, and Anaerobic Microbiology.

Research and training facilities at the OU Biological Station, the Sam Noble Museum, the Oklahoma Biological Survey, and the Stephenson Research and Technology Center enhance the research opportunities for faculty and graduate students.

The SBS takes special pride in its teaching at both the graduate and undergraduate levels. Courses at the undergraduate level provide a broad foundation in the biological sciences and allow students to pursue selected areas of interest in depth through research participation and advanced courses.

Undergraduate degree programs offered in the SBS are also popular options for students interested in a health professions career, and the curricula provide an excellent base of preparation for a wide variety of careers or for postgraduate study.

Programs for Excellence

Programs for Academic Excellence

We provide hands-on, authentic educational and research experiences that prepare our students for successful careers in science, technology, and medical professions. The SBS is actively involved in the Honors Program, and many undergraduate students carry out independent research projects under the guidance of faculty members with national and international reputations in their fields.

Student Organizations

The Zoological Society, the Premed Club, the PreVet Club, the Minority Association of Pre-Health Students, Alpha Epsilon Delta, the OU Botanical Society, and the American Society for Microbiology Student Chapter are sponsored by SBS faculty members and allow students with common interests to take field trips and hear talks about career planning and other important topics. The Biology Aid Program is comprised of undergraduate students who volunteer to tutor other students in introductory biology courses. It is a rewarding experience for both the student volunteers and those with whom they work.

The Biology Graduate Student Organization works with the faculty to organize the weekly seminar program of visiting scholars and other educational enrichment opportunities for both graduate and undergraduate students. Additional weekly seminars in neurobiology, ecology and evolutionary biology, molecular, cell and developmental biology, and microbiology provide venues for graduate students and faculty to discuss research ideas and findings.

All of these clubs meet regularly and provide undergraduate and graduate students with opportunities for socializing, networking, and professional development.

Research Opportunities

Undergraduate students can participate in research with SBS faculty in a number of ways, such as Independent Study courses and Honors Research courses. Original research is central to our graduate programs, and graduate student research in the department spans the entire range of biological inquiry from molecules to organisms to ecosystems. Graduate students are supported by stipends, and undergraduate research can be performed on a volunteer basis, for degree credit, or, in certain cases, as a paid employee. The School also partners with companies and foundations to provide internship opportunities for our students.

Special Facilities and Programs

The SBS is housed in five buildings on the OU Norman campus (Richards, Sutton, and George Lynn Cross Halls, the Stephenson Research and Technology Center, and the Physical Sciences Center), which contain faculty and graduate student offices, research and teaching laboratories, multi-user molecular biology core facilities, maintenance shops, stockrooms, graphics and photography workrooms, and computer rooms. Support staff include academic advisors, a media preparation technician, a computer specialist, and a shop supervisor. The SBS also maintains facilities and equipment, including several boats and vehicles, for research in the field. Teaching and research opportunities are provided for students at the following locations.

Biological Station and Other Research Units

The University of Oklahoma Biological Station, located on Lake Texoma, an impoundment of the Red River on the Oklahoma-Texas border, is a permanent year-round field station with a resident staff of research scientists that provides year-round facilities for faculty and students.

A summer session with approximately ten courses is attended by undergraduate and graduate students from throughout the country.

Students also use the facilities of the Samuel Roberts Noble Microscopy Laboratory, the Sam Noble Oklahoma Museum of Natural History, and the Oklahoma Biological Survey.

Laboratory Animal Facility

This facility contains breeding colonies of rodents and provides housing for a variety of other small mammals, fish, amphibians, and reptiles.

Core Molecular Laboratory

The department's core molecular laboratory provides all the tools necessary to go from tissues to sequence to analysis.

Tissue Culture Laboratory

This lab provides facilities for in vitro culture of vertebrate cells and tissues and for the production of monoclonal antibodies.

Computer Facilities

Computer rooms located in all buildings contain several microcomputers with associated printing and graphics equipment. In addition, numerous computers are located in individual research laboratories. Supercomputing and other special applications computer facilities are available through the OU Supercomputing Center for Education & Research (OSKER).

Aquatic Research Facility

The 8-acre Aquatic Research Facility (ARF) on the south research campus supports researchers and student activities with 32 ponds, 4 climate-controlled greenhouses, and a system of outdoor artificial streams.

Animal Behavior Laboratory

A laboratory devoted to animal behavior and ecological studies, this facility provides indoor space and outdoor enclosures for the study of a wide variety of animals.

Kessler Atmospheric and Ecological Field Station

Kessler Atmospheric and Ecological Field Station is a 350-acre tract of mixed grass prairie donated to the University of Oklahoma for research and teaching in environmental studies.

Oliver Wildlife Preserve

This wilderness area of 80 acres, situated just two miles south of the main campus, provides a natural laboratory for studies in ecology, natural history, and behavior.

Scholarships and Financial Aid

The department has undergraduate scholarships and graduate scholarships available for academically outstanding students.

M. Blanche and M. Frances Adams Scholarship

Scholarships of \$1,000 to \$3,000 per year for up to three years will be awarded on a competitive basis to undergraduate students majoring in SBS degree programs.

George Miksch Sutton Scholarships

Scholarships of \$500 to \$2,000 or more are awarded to undergraduate and graduate students in the field of Ornithology. Selection is based on merit and financial need.

GEORGE L. AND CLEO CROSS ENDOWED SCHOLARSHIPS

Scholarships of \$1,500 are awarded to full-time undergraduate students majoring in Plant Biology or Microbiology. Recipients must have completed the equivalent of 30 undergraduate hours of credit and have a GPA of at least 3.0 on a 4.0 scale.

PAUL G. RISSER SCHOLARSHIP

Scholarships of \$1,700 are awarded to full-time undergraduate students who are majoring in Plant Biology or Microbiology. Recipients must be residents of Oklahoma and preference is given to applicants who attended any Kay County High School. Selection is also based on financial need and a GPA of at least 3.0 on a 4.0 scale.

MARGARET ROOT MCKINLEY SCHOLARSHIP

Scholarships of \$650 are awarded to full-time undergraduate students majoring in Microbiology. Recipients must be U.S. citizens and must have a GPA of at least 3.0 on a 4.0 scale.

HARRISON L. CHANCE SCHOLARSHIP

Scholarships of \$1,500 are awarded to undergraduate or graduate students majoring in Microbiology. Undergraduate recipients must be in their penultimate year of their degree as this scholarship is intended for use during their final year in the program. Selection for both undergraduates and graduates is also based on financial need and academic excellence.

DR. LARRY AND TERRI CARTMELL SCHOLARSHIP FOR MEDICAL TECHNOLOGY

Scholarships of \$2,500 are awarded to undergraduate students majoring in Microbiology who plan to pursue a career in medical technology. Recipients must be in their penultimate year of their degree as this scholarship is intended for use during their final year in the program. Selection is also based on financial need, students who have been engaged in research in a research laboratory, and a GPA of at least 3.0 on a 4.0 scale.

MICHAEL J. MCINERNEY SCHOLARSHIP

Scholarships of \$1,450 are awarded to full-time undergraduate students majoring in Microbiology or Plant Biology. Recipients must demonstrate financial need and be in good academic standing.

Students are also encouraged to take advantage of the variety of scholarship and financial aid opportunities that are available. For

additional information, please visit Dodge Family College of Arts and Sciences Scholarship Opportunities and Financial Aid Services Office.

Undergraduate Study

Biology

The biology major program is designed to meet the needs of students who plan to enter graduate school in the biological sciences, to enter medical, dental, or veterinary college, or to work in specialized paramedical fields, environmental programs, or other careers for which biology would serve as an academic background. The department strongly recommends that each student work closely with his or her advisor on a regular basis since not all courses are offered every semester. Each major or prospective major should work closely with the biology advisory office on a regular basis to plan a program which will meet their career goals. The advisory office can furnish information on courses, curricula and careers available to majors and will facilitate the assignment of a faculty advisor.

- Biology, Bachelor of Science (p. 274)

Biology majors may also work for the standard secondary teaching certificate in science. For information consult an academic advisor in the College of Arts and Sciences office.

Microbiology

Microbiologists work in hospitals, universities, medical schools, government laboratories, and almost every industry, specializing in a wide variety of areas, from agriculture to the space industry. Our microbiology degrees are designed to promote development of the scientific, analytical, and problem-solving skills needed for our students to excel in these careers, as well as providing great preparation for and placement in medical, professional, and graduate schools.

- Microbiology (Standard) Bachelor of Science (p. 276)
- Microbiology: Biotechnology, Bachelor of Science (p. 278)
- Microbiology (Professional), Bachelor of Microbiology (p. 281)

Plant Biology

Plant biologists work in universities, medical facilities, government laboratories, and a variety of industries (e.g., agricultural, chemical, and pharmaceutical). Plant science is a growing area and studying plant biology provides a solid scientific foundation to make you employable in a wide range of fields. Our plant biology degrees are great preparation for careers to address complex societal issues involving population growth, food supply, and environmental problems.

- Plant Biology, Bachelor of Science (p. 283)
- Plant Biology: Biotechnology, Bachelor of Science (p. 285)

Minors

- Biology Minor (p. 288)
- Microbiology Minor (p. 288)
- Plant Biology Minor (p. 289)

Graduate Study

Biology Programs Offered

- Biology, M.S. (p. 289)
- Biology, Ph.D. (p. 292)
- Microbiology, M. S (p. 289).

- Microbiology: Bioinformatics, M.S. (p. 290)
- Microbiology, Ph.D. (p. 294)
- Plant Biology, M.S. (p. 291)
- Plant Biology: Bioinformatics, M.S. (p. 291)
- Plant Biology, Ph.D. (p. 295)
- Cellular & Behavioral Neurobiology - Biology, Ph.D. (p. 293)
- Ecology & Evolutionary Biology - Biology, Ph.D. (p. 293)
- Ecology & Evolutionary Biology - Botany and Microbiology, Ph.D. (p. 294)

Graduate Certificate

- Microscopic Imaging and Technology, Graduate Certificate (p. 292)

Areas of Specialization

The graduate programs have internationally-recognized strengths in ecology/systematics, animal behavior, neurosciences, physiology, genetics/cell biology, and anaerobic microbiology. In addition to the core area M.S. and Ph.D. programs, many SBS faculty participate in two other Ph.D. programs on campus: Ecology and Evolutionary Biology and Cellular and Behavioral Neurobiology. Detailed information on all SBS graduate programs may be obtained from the Director of Graduate Studies or by contacting sbs@ou.edu.

Work leading to the Ph.D. degree is offered in most areas of research specialization. The Ph.D. programs require a satisfactory demonstration of knowledge in their research area. This proficiency will be determined by the dissertation advisory committee. The satisfactory completion and successful defense of original research as described in a dissertation is also required. Each student will, in consultation with the chairperson, select a dissertation advisory committee. A student must complete the general requirements of the Graduate College, appropriate research skills.

Each student will be assigned a specific dissertation committee whose functions are to aid in designing the degree program, provide advice on the dissertation research and conduct the oral dissertation defense examination.

Courses

BIOL 1003 Contemporary Issues in Biology 3 Credit Hours

An introduction to biology, focusing on the scientific background needed to understand selected issues related to cells, genetics and inheritance, evolution and ecology. Not open to students with credit for BIOL 1005, BIOL 1013, BIOL 1114, BIOL 1124, BIOL 1134, or PBIO 1114. Cannot be used for major credit in Biology, Microbiology, or Plant Biology. (F, Sp) [II-NS].

BIOL 1005 Concepts in Biology 5 Credit Hours

Prerequisite: None, but high school or college chemistry is recommended. An introduction to the life sciences, focusing on the structure and function of organisms and their relationship to the environment. Fulfills general education laboratory science requirement. Not open to students with credit for BIOL 1003 or BIOL 1134, or PBIO 1114, BIOL 1114 or BIOL 1124. Cannot be used for major credit in Biology, Plant Biology, or Microbiology. Field trips. (F, Sp) [II-NSL].

BIOL 1013 Introduction to Biology 3 Credit Hours

Introductory survey of the fundamental concepts that underlie biological phenomena from the cellular to the ecosystem level. Not open to students with credit for BIOL 1003, BIOL 1005, BIOL 1114, BIOL 1124, or BIOL 1134. Cannot be used for major credit in Biology, Plant Biology or Microbiology. (F, Sp) [II-NS].

- BIOL 1114 Introductory Zoology** **4 Credit Hours**
Major biological principles and concepts as illustrated in the structure, function and evolution of animals. Emphasis is on self-regulatory mechanisms, especially in the vertebrates, and their adaptive significance. (F, Sp, Su) [II-NSL].
- BIOL 1121 Introductory Zoology Lab** **1 Credit Hour**
Prerequisite: previous completion or concurrent enrollment in 1114. Laboratory study of structure and development of organ systems. Experiments on physiological process of selected vertebrates and invertebrates. (F, Sp, Su) [II-NSL].
- BIOL 1124 Intro Biol: Molecule/Cell/Phys** **4 Credit Hours**
Major principles and concepts are presented in the function and physiology of animals, plants, fungi and microbes. Emphasis is on biological chemistry, cell structure and function, cellular energetics, molecular genetics, homeostasis and physiology. Includes biological laboratory experience with emphasis on critical thinking and problem solving. (F, Sp, Su) [II-NSL].
- BIOL 1134 Introductory Biology: Evolution, Ecology and Diversity** **4 Credit Hours**
Prerequisite: Life science majors only. Major biological principles and concepts as illustrated in a survey of the diversity, behavior, and ecological functions of animals, plants, fungi, and microbes. Emphasis is on evolution, ecology, and diversity. Will include biological laboratory experience with emphasis on problem solving. Will include training in scientific procedures, including laboratory technical skills, writing skills, and introduction to statistical analysis. (Sp) [II-NSL].
- BIOL 1203 The Age of Dinosaurs** **3 Credit Hours**
(Crosslisted with GEOL 1203) Introduction to basic principles and theories in biology (evolution, systematics, vertebrate morphology and relationships) and geology (geologic time, earth history, plate tectonics, sedimentation and stratigraphy), focusing on the evolutionary history of Dinosauria. May not be counted for major coursework in Biology or Geology. (F) [II-NS].
- BIOL 2124 Human Physiology** **4 Credit Hours**
Prerequisite: BIOL 1114 and BIOL 1121 with a grade of C or better, or BIOL 1124 with a grade of C or better; a course in chemistry with a grade of C or better. May not be applied for biology major credit. Open only to majors in nursing, physical therapy, health and exercise science, and selected fields. Function of vertebrate organ systems in homeostasis. Circulation, digestion, endocrine and nervous control, metabolism, muscle action and respiration, with emphasis on humans. Laboratory. (F, Sp, Su)
- BIOL 2234 Introduction to Human Anatomy** **4 Credit Hours**
Prerequisite: BIOL 1114 and BIOL 1121 with a grade of C or better, or BIOL 1124 with a grade of C or better, sophomore standing. (Cannot be enrolled concurrently with BIOL 2255). Open only to majors in health and exercise science, physical therapy, nursing and selected fields. An introduction to the gross morphology of the human body. The course will use a lab/lecture format with extensive use of models, videos, and computer-assisted instruction as well as prosected cadavers. Not for Biology major credit. (F)
- BIOL 2255 Human Anatomy** **5 Credit Hours**
Prerequisite: BIOL 1114 and BIOL 1121 with a grade of C or better, or BIOL 1124 with a grade of C or better, sophomore standing. (Cannot be enrolled concurrently with BIOL 2234). Open only to majors in health and exercise science, physical therapy, nursing and selected fields. See http://biology.ou.edu/human_anatomy-physiology.htm for complete list. The development and gross morphology of the human body and its systems. Laboratory dissection of human cadavers. Not for biology major credit. Laboratory (F, Sp)
- BIOL 2404 Ecology/Environmental Quality** **4 Credit Hours**
(Crosslisted with P BIO 2404) Prerequisite: sophomore standing. Study of ecological principles and their applications to human systems, study of population, air pollution, water pollution, energy issues, etc. Laboratory exercises focus on learning scientific methods of measurement of environmental quality factors. Laboratory (Sp) [II-NSL].
- BIOL 2815 Introduction to Microbiology** **5 Credit Hours**
Prerequisite: one course in college chemistry. Introduction to microorganisms as biological entities. Survey of the roles of microorganisms in the ecosystem. Application of microorganisms to industrial and environmental problems. Discussion of microorganisms as causes of human disease and response of hosts to microbial invasion. This course does not count for major credit in Biology, Microbiology or Plant Biology. Laboratory (F, Sp, Su) [II-NSL].
- BIOL 2913 Intro to Quantitative Biology** **3 Credit Hours**
Prerequisite: 1114 and 1121, or 1124, or Biology 1134, Mathematics 1523 or 1643 or higher, or permission of instructor. The connections between basic mathematics and how biological data are organized, tested, and interpreted. Includes review of probability theory, introduction to parametric and non-parametric biostatistics, fundamentals of experimental design, and sketches of how optimality theory can be used to generate biological questions. (Sp even-numbered years)
- BIOL 2970 Special Topics** **3 Credit Hours**
0 to 3 hours. Prerequisite: BIOL 1134 and BIOL 1124; or BIOL 1134 and BIOL 1114 and BIOL 1121; or BIOL 1124, BIOL 1134, or BIOL 1114 and BIOL 1121, and either Plant Biology 1114 or Chemistry 1315; or permission of instructor; May be repeated with change of content, maximum credit nine hours. Seminar or special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- BIOL 3001 Microbiology: the Discipline and Degree** **1 Credit Hour**
Prerequisite: BIOL 1114 or BIOL 1124 or BIOL 1134. Introduce students to their discipline, degree and faculty. Allows students microbiology credit prior to MBIO 3813, which has a prerequisite of Chemistry 3053. By the end of the course students will have an introduction to use of the literature of microbiology and writing in scientific English, as well as familiarity with the discipline, progress towards degree completion and their faculty. (Sp)
- BIOL 3013 Evolution** **3 Credit Hours**
Prerequisite: BIOL 1124 and BIOL 1134. Processes of evolution including natural selection and non-selective forces. Phylogenetics and the history of life. The nature and origin of species. Factors contributing to divergence of genes, populations, species, and higher taxa such as genetics, ecology, geography, and behavior. (F, Sp)
- BIOL 3063 Veterinary Entomology** **3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 1134. The study of insects and their near relatives, such as ticks, as they relate to the causation of economic loss and transmission of disease organisms in livestock and companion animals. Insect biology, disease transmission, and methods of control will be stressed in lecture. Laboratory emphasizes 1) collection, preservation, and pathogens, and 2) methods used to control/evaluate insecticides and acaricides. Laboratory.
- BIOL 3073 Medical Entomology** **3 Credit Hours**
Prerequisite: 1114 and 1121, or Biology 1134. Medical entomology investigates the relationship of insects and other arthropods to the health of humans, domestic animals, and wildlife. Laboratory. (Sp)

- BIOL 3083 Animal Behavior** **3 Credit Hours**
(Crosslisted with PSY 3083) Prerequisite: 2013 or permission of instructor. Animal behavior from an evolutionary perspective. The effects of natural selections on mechanisms underlying behavior and on diversity of behavior among and within species. (F, Sp)
- BIOL 3101 Principles of Physiology Lab** **1 Credit Hour**
Prerequisite: BIOL 3103 or concurrent enrollment. Provides students with an introduction to methods and procedures used in physiological research. Topics include data acquisition, analysis and basic statistics, effects of temperature on living systems, nervous system functions, muscle mechanics and physiology, and studies of metabolic rates. In addition to hands-on lab experience, library projects and research papers are used to introduce students to methods of scientific communication. (Sp)
- BIOL 3103 Principles of Physiology** **3 Credit Hours**
Prerequisite: ZOO/BIOL 1124, or ZOO/BIOL 1114 and ZOO/BIOL 1121; and Biology 1134, or permission of instructor. One semester of physics and organic chemistry strongly recommended. Introduction to basic concepts of physiology; relation of functions of organisms to physical and chemical principles, and to the environment; discussion of experimental design, constituents of tissues, energy, growth, homeostasis, cellular and organ functions. (F, Sp)
- BIOL 3111 Undergraduate Professional Development** **1 Credit Hour**
Prerequisite: permission of instructor. The Professional Development course is designed to assist our microbiology students in achieving their career goals by enhancing their ability to communicate their accomplishments effectively. Students will learn about the career opportunities in microbiology, how to prepare resumes and/or graduate and professional school applications, how to communicate effectively in an interview, and how to build a professional network. (Sp)
- BIOL 3113 Cell Biology** **3 Credit Hours**
(Crosslisted with P BIO and MBIO 3113) Prerequisite: 1114, or 1124, or BIOL 1134, or P BIO 1114, and CHEM 3053. Introduction to the cell as a unit of life. A chemical and physical comparison of procaryotic and eucaryotic cells to include a discussion of cell metabolism, types of metabolic regulation, and an analysis of ultrastructure. Emphasis will be placed on the dynamic changes in metabolism and ultrastructure which occur during the life of a cell. (F, Sp)
- BIOL 3122 Cell Biology Laboratory** **2 Credit Hours**
Prerequisite: BIOL 1124; Prerequisite or Concurrent Enrollment: BIOL 3113. This laboratory course introduces fundamental concepts of cellular biology through hands-on experience. The emphasis is to promote development of skills in formulating hypotheses, experimental design, data analysis and interpretation, and the ability to engage in ethical research, scientific writing, and communication. (F)
- BIOL 3163 Economic Botany** **3 Credit Hours**
Prerequisite: BOT 1114 or BIOL 1114 or BIOL 1134 or BIOL 1005 or any introductory biology course. A survey of plants and plant products used in industry, drug plants and drugs, and especially food plants and food adjuncts. Origin of agriculture, domestication and evolution of crop plants, and uses of plants in different cultures are emphasized. (F) [IV-WC].
- BIOL 3201 Animal Development Lab** **1 Credit Hour**
Prerequisite: 3203 or concurrent enrollment. Laboratory study of the development and embryology of a variety of animals. Developmental concepts and mechanisms will be illustrated through the use of prepared materials and hands-on experiments. Laboratory (F, Sp)
- BIOL 3203 Animal Development** **3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 3333; and BIOL 1134. Study of animal development from gamete formation through organogenesis and postembryonic phases in different animal models. Concepts and mechanisms at the tissue, cellular and molecular levels will supplement descriptive analyses of development. (Sp)
- BIOL 3214 Comparative Vertebrate Anatomy** **4 Credit Hours**
Prerequisite: BIOL 1114 and BIOL 1121; or BIOL 1124; or BIOL 1134; or equivalent. A study of the anatomy and evolutionary development of vertebrate organ systems. Representative vertebrates are studied in laboratory. Laboratory (F)
- BIOL 3333 Genetics** **3 Credit Hours**
(Crosslisted with P BIO 3333) Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; BIOL 1134 recommended. Principles of inheritance at gene, chromosome, and population levels; nature of the genetic material and its involvement in the determination of structure and function. (F, Sp)
- BIOL 3342 Genetics Laboratory** **2 Credit Hours**
Prerequisite: BIOL 3333 or concurrent enrollment, or equivalent. The demonstrations, crosses and experiments are designed to illustrate various genetic phenomena, including Mendelian laws, recombination, mutation, natural and artificial selection, and interaction of genotype with environment. The primary organism studied is *Drosophila*, with some use of corn, *Neurospora*, and others. Laboratory (F)
- BIOL 3403 Principles of Ecology** **3 Credit Hours**
Prerequisite: BIOL 1114 and BIOL 1121, or BIOL 1134, or P BIO 1114. Patterns of environments and biological communities; the processes maintaining these patterns. Field trips. Some overnight trips. Laboratory (F, Sp)
- BIOL 3440 Mentored Research Experience** **3 Credit Hours**
0 to 3 hours. Prerequisite: ENGL 1113 or equivalent, and permission of instructor; May be repeated, maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- BIOL 3451 Methods in Plant Ecology** **1 Credit Hour**
Prerequisite: corequisite BIOL 3453. Methodology in plant physiological, population, community and ecosystem ecology will be covered. Emphasis will be on actual field or laboratory experience and the applicability of these methods to other areas of ecology. Laboratory. (F)
- BIOL 3453 Principles of Plant Ecology** **3 Credit Hours**
Prerequisite: BIOL 1114 or BIOL 1134. Introduction to physiological, population and community ecology. Emphasis is placed on environmental factors, disturbance and succession and how these factors affect species diversity and landscape patterns. One field trip. (F)
- BIOL 3463 Water and Ecological Sustainability** **3 Credit Hours**
(Crosslisted with ENST 3463) Prerequisite: junior standing and English 1213 or Expository Writing 1213, BIOL 1114 or BIOL 1124 or BIOL 1134, or permission of instructor. Objective of the course is to allow students to examine and discuss important historical and current issues relating to the interactions between socio-economic use of water resources and ecosystem biodiversity, function, and sustainability. (F) [II-NS].
- BIOL 3563 Biological Conservation** **3 Credit Hours**
Prerequisite: BIOL 1114 and BIOL 1121, or BIOL 1134, or P BIO 1114. Active learning format course for exploring ecological, legal, and societal issues affecting biodiversity at local, regional, and global scales. Offered Fall of even-numbered years. (Irreg.)

- BIOL 3673 Practical Bioinformatics 3 Credit Hours**
Prerequisite: junior standing; BIOL 2815 or BIOL 3813 or BIOL 1114 or BIOL 1005 or equivalent introductory biology course or instructor permission. Study of the use of computers to analyze and interpret various types of biological data. Topics covered will include accessing genomics databases, aligning DNA and protein sequences, searching genomic databases for similar sequences, analyzing protein structure, and building molecular phylogenies. Classes will emphasize group work and in-class computer exercises in a highly interactive environment. (Sp)
- BIOL 3812 Fundamentals of Microbiology Laboratory 2 Credit Hours**
Prerequisite: credit or concurrent enrollment in 3813. Fundamental microbiological methods: aseptic technique, culture methods, microscopy, metabolic and physiological tests, bacterial isolation and identification, environmental microbiology. Laboratory. (F, Sp, Su)
- BIOL 3813 Fundamentals of Microbiology 3 Credit Hours**
Prerequisite: BIOL 1005 or BIOL 1114 or BIOL 1124 or BIOL 1134; and CHEM 1315; and CHEM 1415 or CHEM 1335; and CHEM 1435. Cell structure and phylogeny of bacteria, archaea, and eukaryotic microorganisms; growth, metabolism and ecological roles; symbiotic relationships; gene expression, genetic exchange, genomics. (F, Sp, Su)
- BIOL 3833 Introduction to Neurobiology 3 Credit Hours**
Prerequisite: BIOL 1124. Introduction to cellular and behavioral neurobiology. Topics covered will include cellular neurobiology, neurophysiology, neuroanatomy, sensory processing, movement, and neurobiology of behavior. (Sp)
- BIOL 3960 Honors Reading (HONORS) 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program and departmental permission; May be repeated, maximum credit six hours. Will consist of topics designated by the instructor. The content will emphasize work not presented in other courses. (F, Sp, Su)
- BIOL 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated, maximum credit six hours. Discussion of recent and current research trends and significant developments in zoology. (Irreg.)
- BIOL 3980 Honors Research (HONORS) 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Departmental permission and admission to Honors Program; May be repeated, maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project under the guidance of a professor in the student's field. Laboratory (F, Sp, Su)
- BIOL 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied and permission of instructor and department; May be repeated, maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- BIOL 4003 Arthropod Vector Surveillance and Management 3 Credit Hours**
Prerequisite: BIOL 1124 or BIOL 1134. Immerse yourself in a medical-veterinary field experience. Collect, preserve, and identify arthropod pests and vectors of pathogens that cause disease in humans and animals. Determine the risk associated with arthropod pests and vector borne diseases and develop an integrated pest (vector) management program to reduce that risk. Laboratory. (Sp)
- BIOL 4023 Field Mammalogy 3 Credit Hours**
(Slashlisted with BIOL 5023) Prerequisite: two college science courses that include a laboratory, one of which should be in biological sciences or permission of UOBS Director; Course taught at Biological Station, students must apply for enrollment into course. Study of mammals with emphasis on principle of mammalian ecology, conservation, biodiversity, techniques of field study, and methods of collection and preservation. Topics include characteristics of mammals, classification, natural history, ecology, biodiversity, conservation, and techniques in field study. Emphasis is given to mammals of southern Oklahoma and northern Texas. Laboratory. No student may earn credit for both 4023 and 5023. (Su)
- BIOL G4034 Mammalogy 4 Credit Hours**
Prerequisite: BIOL 1124 and BIOL 1134. Classification, distribution, and natural history of mammals with emphasis on Oklahoma species. Mammals are collected and prepared for scientific collections. Field trips. Some overnight camping. Laboratory. Offered Fall even-numbered years. (Irreg.)
- BIOL 4043 Research in Ecology 3 Credit Hours**
Prerequisite: Two college sciences courses that include a laboratory; one of these courses must be focused within the field of biology. Field study of population and community dynamics in which students work collaboratively to design, conduct, and present the results of original experiments in an interactive and supportive setting. (Su)
- BIOL G4044 Ornithology 4 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and 1121; and BIOL 1134. Biology of birds. Identification of birds in North America with emphasis on Oklahoma; relationships, natural history and behavior of birds. Field trips. Laboratory. Offered Sp odd-numbered years. (Irreg.)
- BIOL 4053 Forensic Entomology 3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 1134. Lecture will explore the use of insects in forensic entomology and its impact on death scene investigation, neglect or abuse; contamination of food products and other marketable goods and subsequent litigation. Lab will be centered on a "death scene investigation". Students will collect data from a pig carcass to determine factors that affect the rate of decomposition. Laboratory.
- BIOL 4063 Field Herpetology 3 Credit Hours**
(Slashlisted with BIOL 5063) Prerequisite: two college science courses that include a laboratory, one of which should be in biological sciences or permission of UOBS Director. Overview of methods, techniques, and standards for the collection, management, and analysis of herpetological field data for various applications. Includes collection of amphibians and reptiles, and diagnostic (morphological, ecological, and behavioral) characteristics of species. Students design and complete individual projects that address current issues in biology and conservation in herpetology. Laboratory. No student may earn credit for both 4063 and 5063. (Su)
- BIOL G4073 General Entomology 3 Credit Hours**
Prerequisite: Sophomore standing, and BIOL 1114 and BIOL 1121, or BIOL 1134, or PBIO 1114, or BIOL 1005, or permission of instructor. Introduction to the world of insects. Morphological and physiological adaptations; taxonomy, life histories, and methods of collection. Field trips. Laboratory (F)

- BIOL G4083 Herpetology 3 Credit Hours**
Prerequisite: 2013 and Biology 1134 or permission of instructor. An introduction to the study of amphibians and reptiles. Taxonomy, ecology, behavior and life histories of amphibians and reptiles, with emphasis on local forms. Field trips. Laboratory. Offered Fall of odd-numbered years. (Irreg.)
- BIOL 4113 Cellular Pathology 3 Credit Hours**
(Slashlisted with BIOL 5113) Prerequisite: 3113 or permission of instructor. The course focus is on the molecular and cellular bases of disease and alterations in cellular processes that lead to the development of various pathological conditions. Topics include symptoms of cellular disease, pathology of organelles, cell injury, cell death, immunopathology, neoplasia and genetic disorders. No student may earn credit for both 4113 and 5113. (F)
- BIOL G4114 Principles of Plant Physiology 4 Credit Hours**
Prerequisite: BIOL 1114 and CHEM 3053, or permission of instructor. Plant Physiology is the study of how plants grow and develop, respond to biotic and abiotic factors in their environments, convert solar energy to chemical energy, and generally how plants go about their business. Modern plant physiology is a fairly all-inclusive discipline and incorporates plant anatomy and morphology, biochemistry, genetics, molecular biology, etc. Laboratory. (F)
- BIOL 4153 Endocrinology 3 Credit Hours**
(Slashlisted with BIOL 5153) Prerequisite: BIOL 3103; BIOL 3113 also strongly recommended. Endocrinology covers the structure and function of endocrine glands and the mechanisms of hormone action. Coverage of the endocrine glands includes biosynthesis of hormones, control and secretion of hormones, physiological, morphological, and behavioral actions of hormones, as well as a review of common endocrine disorders and clinical conditions. No student may earn credit for both 4153 and 5153. (Sp)
- BIOL 4204 Vertebrate Paleobiology 4 Credit Hours**
(Crosslisted with GEOL 4204) Prerequisite: BIOL 1114 and 1121, or 1124 or 1134; BIOL 3214; or permission of instructor. Systematics, relationships, zoogeography and evolutionary morphology of the major groups of vertebrates. Field trips. Laboratory. (Sp)
- BIOL 4233 Neurobiology of Disease 3 Credit Hours**
(Slashlisted with BIOL 5233) Prerequisite: BIOL 4833 (preferred), or BIOL 3113 and BIOL 3333, or BIOL 2124 or BIOL 3103; or permission of the instructor. Cellular and molecular mechanisms underlying both normal neuronal function and neuronal disorders. Includes a review of basic concepts in neuroscience through traditional lectures, and reading and discussion of original research articles. Students are required to give oral presentations, write critiques and term papers, and present research posters. No student may earn credit for both 4233 and 5233. (F)
- BIOL G4244 Animal Histology 4 Credit Hours**
0 to 4 hours. Prerequisite: BIOL 3103 and BIOL 3113, or permission of instructor. Structure and function of animal tissues with emphasis on the cellular basis of tissue and organ function. Laboratory emphasizes the identification of cells and tissues with the use of the light microscope. Laboratory (Sp)
- BIOL 4264 Morphology of Vascular Plants 4 Credit Hours**
Prerequisite: permission of instructor. Structural organization and phylogenetic relationships of vascular land plants are explored using living and extinct plants. Emphasis is given to understanding the origins, unique and common features of plant life histories, organography and morphogenesis. (Irreg.)
- BIOL 4353 Molecular Tech-Field Biology 3 Credit Hours**
(Slashlisted with BIOL 5353) Prerequisite: 1114 and 1121, or 1124 and permission of instructor; 3333 or 3403 recommended. Selected protocols and data interpretation using molecular techniques to study protein and DNA variation in natural populations and the application of molecular techniques to research problems in ecology, systematics, animal behavior, conservation biology, and related areas. Graduate students enrolled in 5353 will have additional project expectations and written work. Taught at the OU Biological Station. Field trips. Laboratory No student may earn credit for both 4353 and 5353. (Su)
- BIOL 4361 Experimental Genetics and Cell Biology Lab 1 Credit Hour**
Prerequisite: BIOL 3333 or BIOL 3113. Students will be introduced to experimental design and techniques including types of microscopy such as SEM and TEM, cell and tissue culture, DNA isolation, protein and DNA electrophoresis, PCR, and introductory bioinformatics. Offered Sp of odd numbered years. (Irreg.)
- BIOL 4423 Stream Ecology 3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 1134; junior or senior standing, or permission of instructor. A combined lecture/laboratory course that focuses on the physical, chemical, and biological features of stream ecosystems, including current theories explaining species interactions and stream function. Course requirements/evaluation including a midterm and final examination, individual research papers and presentations, participation in group laboratory and field experiments, and reading and discussing the primary literature. Field trips. Laboratory. Offered Fa of odd-numbered years. (Irreg.)
- BIOL G4463 Lake Ecology 3 Credit Hours**
Prerequisite: BIOL 3403, or permission of instructor. An introduction to the biology, chemistry, physics, and geology of freshwater environments, with emphasis on ecology. (Sp)
- BIOL 4483 Physiological Plant Ecology 3 Credit Hours**
(Slashlisted with BIOL 5483) Prerequisite: BIOL 3453 or BIOL 4115, or permission of instructor. Study of energy budgets, plant water relations, carbon uptake and release, nutrient uptake and availability, and other factors as they affect plant growth, competition and ecosystem-level factors. In-depth analysis of current literature. (F, even-numbered years) No student may earn credit for both 4483 and 5483.
- BIOL G4493 Ichthyology 3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 1134. Taxonomy, morphology, ecology and distribution of fishes, with emphasis on those of the region. Field trips. Some overnight trips. Laboratory. (Sp)
- BIOL 4523 Biogeography and Macroecology 3 Credit Hours**
(Slashlisted with BIOL 5523) Prerequisite: BIOL 3013: Evolution, or permission of instructor. This course will explore the causes and consequences of the geographic distribution of life on Earth. We will discuss the processes which shape individual species distributions, why some regions host more species than others, and how the evolution of biodiversity is tied to the history and geography of Earth itself. No student may earn credit for both 4523 and 5523. (F)
- BIOL 4534 Plant Systematics 4 Credit Hours**
(Slashlisted with BIOL 5534) Prerequisite: BIOL 1114 and BIOL 1134, or permission of instructor. Introduction to the evolution and identification of vascular plants with emphasis on the origin and evolution of the Oklahoma flora. Laboratory activities stress identification skills, terminology, field techniques, and family recognition for the flora of Oklahoma. Field trips. Laboratory. No student may earn credit for both 4534 and 5534. (Irreg.)

- BIOL 4553 Wetlands Ecology 3 Credit Hours**
(Slashlisted with BIOL 5553) Prerequisite: Two college science courses that include a laboratory, one of which should be in biological sciences or permission of UOBS Director. Comprehensive field-based examination of wetland science and management. Biological, physical, chemical, and hydrological aspects of wetland ecosystem structure and function are explored through visits to several field sites. Major wetland types and resources are examined and the biogeochemical and ecological diversity of wetland waters, soils, vegetation, and fauna is investigated. Laboratory. No student may earn credit for both 4553 and 5553. (Su)
- BIOL 4573 Conservation Genetics 3 Credit Hours**
Prerequisite: 3333 or permission of the instructor. This lecture/discussion course will examine the use of population genetic/ecological genetic principles in the study and management of populations of threatened and/or endangered species. No student may earn credit for both 4573 and 5573. (Sp)
- BIOL 4633 Ecology and Evolution of Infectious Diseases 3 Credit Hours**
(Slashlisted with BIOL 5633) Prerequisite: Junior standing, and a course on foundations of ecology and evolution is strongly recommended. Basic biological principles in how parasites are transmitted in natural populations, coevolution of hosts and parasites, and how novel parasites emerge and impact their host populations, including zoonotic parasites. No student may earn credit for both 4633 and 5633. (Sp)
- BIOL G4653 Parasitology 3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 1134. Parasitology is an introduction to the biological relationships known as parasitism. Although there are many different types of parasites, this course will focus on primarily protozoan and helminthes parasites that cause disease in humans and domestic animals. Field trips. Laboratory. (Sp)
- BIOL 4663 Advanced Limnology 3 Credit Hours**
(Slashlisted with BIOL 5663) Prerequisite: BIOL 4423 or BIOL 5423, or BIOL 4463, or permission of instructor; May be repeated with change of content, maximum credit 6 hours. Detailed study of fundamental or contemporary topics within limnology, such as biogeochemistry, nutrient cycling, ecological stoichiometry, biodiversity, and predatory-prey and food-web dynamics in aquatic communities. No student may earn credit for both 4663 and 5663. (Sp)
- BIOL 4673 Microbiomes: Health & Disease 3 Credit Hours**
(Slashlisted with BIOL 5673) Prerequisite: Senior standing; BIOL 3812 and BIOL 3813 and CHEM 3013 or CHEM 3053, or permission of instructor. Introduces students to the modern-day characterization of microbiomes, from initial sequence information to the living organisms that make up these complex communities. Students will become familiar with the role microbiomes play in health and disease processes in addition to their role in personalized medicine. No student may earn credit for both 4673 and 5673. (Irreg.)
- BIOL 4703 Basic Virology 3 Credit Hours**
Prerequisite: BIOL 3813 and CHEM 3653 or BIOL 4843, or permission of instructor. Introduction to the principles of viruses that infect animals, plants and bacteria. Topics will include viral structural and taxonomy, virus replication and disease pathogenesis, methods of viral detection and diagnosis, host resistance to viral infections, viruses and cancer and the used of viruses in gene therapy and vaccine applications. (Sp)
- BIOL 4733 Microbial Genetics 3 Credit Hours**
(Slashlisted with BIOL 5733) Prerequisite: BIOL 4843 or permission of instructor. Microbial genetics underlies important topics such as antibiotic resistance, genetic engineering, drug development, and many biotechnological advances. Explores the interesting world of microbial genetics by discussing molecular genetic methods and related aspects of bacterial and archaeal biology. Examples will include both traditional and recently developed microbial model systems. No student may earn credit for both 4733 and 5733. (Sp)
- BIOL 4743 Case Studies in Medical Microbiology 3 Credit Hours**
Prerequisite: BIOL 3813; BIOL 4823 or concurrent enrollment; or instructor permission. Provides in-depth knowledge of infectious diseases utilizing an inquiry-based format. Case studies will be discussed in the context of patient symptoms as well as molecular- and culture-based test results. Case studies from standard textbooks and clinical microbiology journals will be utilized. Students will gain experience in identifying causative agents of numerous infections. Ideal course for pre-dental, pre-medical and pre-pharmacy students. (Irreg.)
- BIOL 4753 Molecular Evolution and Phylogenetics 3 Credit Hours**
(Slashlisted with BIOL 5753) Prerequisite: BIOL 2013 or BIOL 3333 or permission of instructor. Theory and practice of inferring evolutionary history from molecular and morphological data. Applications of the phylogenetic approach in systematics, comparative biology, molecular evolution, and genomics will be covered. (F even-numbered years) No student may earn credit for both 4753 and 5753.
- BIOL 4783 Introduction to Python Programming for Data Analytics 3 Credit Hours**
(Slashlisted with BIOL 5783) Prerequisite: senior standing. This course will introduce students, who have no prior programming experience, to Python programming. It will cover data analysis and visualization methods in Python. Real-world examples will be used to teach general concepts in data analytics and practical coding skills in Python. No student may earn credit for both 4783 and 5783.
- BIOL 4793 Microbial Genetics 3 Credit Hours**
(Slashlisted with BIOL 5793) Prerequisite: BIOL 4843 or permission of instructor. Microbial genetics underlies important topics such as antibiotic resistance, genetic engineering, drug development, and many biotechnological advances. Explores the interesting world of microbial genetics by discussing molecular genetic methods and related aspects of bacterial and archaeal biology. Examples will include both traditional and recently developed microbial model systems. No student may earn credit for both 4793 and 5793. (Sp)
- BIOL 4810 Special Topics 3 Credit Hours**
0 to 3 hours. (Slashlisted with BIOL 5810) Prerequisite: BIOL 3812 and BIOL 3813, and permission of instructor. Topics will include newly developing areas of the discipline. Taught at an upper-division level based on previous course background. May be repeated with change of content, maximum credit 3 hours per semester, 9 hours total. No student may earn credit for both 4810 and 5810. (Irreg.)
- BIOL G4813 Pathogenic Microbiology Laboratory 3 Credit Hours**
Prerequisite: BIOL 3812 and BIOL 3813. This course will focus primarily on bacterial species that cause disease in humans. Emphasis will be placed on the use of selective/differential media for pathogen isolation; the key diagnostic features of pathogenic bacteria and the application of rapid technologies for pathogen identification. Scientific papers will also be used to highlight the virulence properties of various pathogens. (F)

- BIOL G4823 Pathogenic Microbiology and Infectious Disease 3 Credit Hours**
Prerequisite: BIOL 3812 and BIOL 3813. Introduces the basic methods for pathogenic microbiology and infectious disease epidemiology. Topics covered include definitions and nomenclature, outbreak investigations, disease surveillance, case-studies, laboratory diagnosis, immunology, molecular epidemiology, dynamics of transmission, and vaccine effectiveness. Emerging pathogens, their effects on society and the health care services will also be addressed. (F)
- BIOL 4833 Neurobiology 3 Credit Hours**
(Slashlisted with BIOL 5833) Prerequisite: permission of instructor. Advanced examination of cellular and behavioral neurobiology. Topics covered will include membrane biophysics, cellular neurobiology, neurophysiology, neuroanatomy, sensory processing, movement, and neurobiology of behavior. No student may earn credit for both 4833 and 5833. (F)
- BIOL 4843 Molecular Biology 3 Credit Hours**
(Slashlisted with BIOL 5843) Prerequisite: BIOL 1114 or BIOL 1124 or BIOL 1134, BIOL 3812 and BIOL 3813, and one course in Organic Chemistry (CHEM 3053 or CHEM 3064). Introduction to the characteristics and biological functions of nucleic acids and proteins in living cells with emphasis on nucleic acid replication, transcription, translation and regulation; also emphasis on the molecular aspects of microbial genetics transformation, transduction and conjugation; and emphasis on molecular immunology and genetic engineering/recombinant DNA technology. No student may earn credit for both 4843 and 5843. (F, Sp)
- BIOL G4853 Physiology of Microorganisms 3 Credit Hours**
Prerequisite: BIOL 3812 and BIOL 3813 and one course in Organic Chemistry. Diversity, metabolism, energetics and physiology of microorganisms. (Sp)
- BIOL 4863 Neural Control of Movement 3 Credit Hours**
(Slashlisted with BIOL 5863) Prerequisite: BIOL 3103, or BIOL 3113, or BIOL 3833, or BIOL 4833, or BIOL 5833, or permission of instructor. Introduction to neural control of movement through reading and discussion of key original research articles from the 19th century to the present. Students lead discussions and write essays addressing a general question, utilizing data from the articles. Topics include localization of function, sensory vs. central contributions, roles of single neurons, effects of neuromodulators, and motor learning. No student may earn credit for both 4863 and 5863. (Sp)
- BIOL 4871 Current Topics in Neurobiology 1 Credit Hour**
(Slashlisted with BIOL 5871) Prerequisite: BIOL 3833 or permission of instructor; May be repeated with change of content, maximum credit three hours. A seminar course designed to develop a student's abilities to interpret and critically evaluate research in cellular and behavioral neurobiology. Involves both public seminars and journal club style discussions of contemporary literature. No student may earn credit for both 4871 and 5871. (F, Sp)
- BIOL 4873 Diversity of Biological Sex Characteristics 3 Credit Hours**
(Slashlisted with BIOL 5873) Prerequisite: BIOL 1124 and BIOL 1134. This course explores the diverse biological sex characteristics of nonhuman animals and people. We examine the evolution of sexual reproduction, sex-determining mechanisms, and hermaphroditic, parthenogenetic, intersex, and multiple-gender animal species, followed by the biology of intersex and transgender people. Finally, we discuss human infant genital surgeries and participation in athletic competitions. No student may earn credit for both 4873 and 5873. (F)
- BIOL G4883 Water Microbiology Laboratory 3 Credit Hours**
Prerequisite: BIOL 3812 and BIOL 3813. Focuses on the causes and prevention of waterborne microbial diseases and the use of microorganisms to improve water quality. Topics include: waterborne diseases, detection of waterborne pathogens, epidemiology, indicator organisms, water quality standards, treatment of drinking water and sewage, and groundwater contamination. The laboratory provides training in the standard methods used to detect microbial contamination. (F)
- BIOL 4893 Behavioral Neurobiology 3 Credit Hours**
(Slashlisted with BIOL 5893) Prerequisite: BIOL 3103, or BIOL 3113, or BIOL 3833, or BIOL 4833, or BIOL 5833, or permission of instructor. Examines neurobiological mechanisms of natural animal behaviors (i.e. neuroethology), utilizing textbook and lectures as well as in-depth reading, discussion, and student presentation of original research articles. No student may earn credit for both 4893 and 5893. (F)
- BIOL 4903 Topics in Virology 3 Credit Hours**
(Slashlisted with BIOL 5903) Prerequisite: CHEM 3653 or BIOL 4843 or permission of instructor. Aspects related to selected RNA viruses, such as HIV/AIDS and polio virus, will be studied and discussed. Topics will include the molecular structure of RNA viruses, the mechanisms of viral assembly and replication, viral disease pathogenesis, host responses to viral infections, vaccine development, anti-viral and RNA interference (RNAi) therapeutics. No student may earn credit for both 4903 and 5903. (F)
- BIOL G4913 Quantitative Biology 3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 1134; Permission of instructor required. Techniques for complex data analysis and experimental design. (F)
- BIOL 4943 Multivariate Analysis 3 Credit Hours**
(Slashlisted with BIOL 5943) Prerequisite: BIOL 4913 or permission of instructor. An introduction to the concepts and underpinnings of multivariate statistics used commonly in the life sciences. It includes sections on regression, central tendency, data reduction, cluster analyses, and ordination and treats both parametric and non-parametric approaches. No student may earn credit for both 4943 and 5943. (Sp)
- BIOL 4953 BioWriting 3 Credit Hours**
(Slashlisted with BIOL 5953; Crosslisted with MBIOL and PBIOL 4953) Prerequisite: permission of instructor. This course provides students engaged in research with the information and skills needed to effectively communicate as professional biologists. Students will learn to report the results of their own research in the format of a journal article, conference-style presentation, and poster. No student may earn credit for both 4953 and 5953. (Irreg.)
- BIOL 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean; May be repeated, maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- BIOL 4961 Undergraduate Seminar 1 Credit Hour**
Prerequisite: Senior standing in Zoology/Biology or permission of department; May be repeated, maximum credit two hours. Survey of current research programs in environmental biology, cell biology, physiology, animal behavior and other fields presented in weekly public seminars by visiting and local experts in biology. (F, Sp)

- BIOL 4970 Special Topics in Biology 3 Credit Hours**
0 to 3 hours. Prerequisite: permission of instructor and department; May be repeated with change of content, maximum credit nine hours. Seminar or special topic course; may include laboratory or field work. No student may earn credit for 4970 and 5970 on the same topic. (F, Sp, Su)
- BIOL 4981 Current Topics in Disease Ecology 1 Credit Hour**
(Slashlisted with BIOL 5981) Prerequisite: Junior standing. This seminar course will involve discussion of recent empirical and theoretical literature in the field of disease ecology and evolution. No student may earn credit for both 4981 and 5981. (F, Sp)
- BIOL 4983 Senior Seminar 3 Credit Hours**
Prerequisite: BIOL major with senior standing, or permission. An interdisciplinary approach will be used to synthesize ideas from the major fields of zoology. Readings and discussion will focus on contemporary social, ethical and economic issues. (F, Sp) [V].
- BIOL 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied and permission of instructor and department; May be repeated, maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- BIOL 5023 Field Mammalogy 3 Credit Hours**
(Slashlisted with BIOL 4023) Prerequisite: graduate standing and two college science courses that include a laboratory, one of which should be in biological sciences or permission of UOBS Director. Study of mammals with emphasis on principle of mammalian ecology, conservation, biodiversity, techniques of field study, and methods of collection and preservation. Topics include characteristics of mammals, classification, natural history, ecology, biodiversity, conservation, and techniques in field study. Emphasis is given to mammals of southern Oklahoma and northern Texas. No student may earn credit for both 4023 and 5023. Laboratory. (Su)
- BIOL 5063 Field Herpetology 3 Credit Hours**
(Slashlisted with BIOL 4063) Prerequisite: graduate standing and two college science courses that include a laboratory, one of which should be in biological sciences or permission of UOBS Director. Overview of methods, techniques, and standards for the collection, management, and analysis of herpetological field data for various applications. Includes collection of amphibians and reptiles, and diagnostic (morphological, ecological, and behavioral) characteristics of species. Students design and complete individual projects that address current issues in biology and conservation in herpetology. No student may earn credit for both 4063 and 5063. Laboratory. (Su)
- BIOL 5113 Cellular Pathology 3 Credit Hours**
(Slashlisted with BIOL 4113) Prerequisite: Graduate standing and BIOL 3113 or permission of instructor. The course focus is on the molecular and cellular bases of disease and alterations in cellular process that lead to the development of various pathological conditions. Topics include symptoms of cellular disease, pathology of organelles, cell injury, cell death, immunopathology, neoplasia and genetic disorders. No student may earn credit for both 4113 and 5113. (F)
- BIOL 5153 Endocrinology 3 Credit Hours**
(Slashlisted with BIOL 4153) Prerequisite: Graduate standing and BIOL 3103; BIOL 3113 also strongly recommended. Endocrinology covers the structure and function of endocrine glands and the mechanisms of hormone action. Coverage of the endocrine glands includes biosynthesis of hormones, control and secretion of hormones, physiological, morphological, and behavioral actions of hormones, as well as a review of common endocrine disorders and clinical conditions. No student may earn credit for both 4153 and 5153. (Sp)
- BIOL 5233 Neurobiology of Disease 3 Credit Hours**
(Slashlisted with BIOL 4233) Prerequisite: BIOL 4833 (preferred), or BIOL 3113 and BIOL 3333, or BIOL 2124 or BIOL 3103; or permission of the instructor. Cellular and molecular mechanisms underlying both normal neuronal function and neuronal disorders. Includes a review of basic concepts in neuroscience through traditional lectures, and reading and discussion of original research articles. Students are required to give oral presentations, write critiques and term papers, and present research posters. No student may earn credit for both 4233 and 5233. (F)
- BIOL 5353 Molecular Tech-Field Biology 3 Credit Hours**
(Slashlisted with BIOL 4353) Prerequisite: Graduate standing and permission of instructor. Selected protocols and data interpretation using molecular techniques to study protein and DNA variation in natural populations and the application of molecular techniques to research problems in ecology, systematics, animal behavior, conservation biology, and related areas. Graduate students enrolled in 5353 will have additional project expectations and written work. Taught at the OU Biological Station. Field trips. Laboratory No student may earn credit for both 4353 and 5353. (Su)
- BIOL 5364 Transmissn Electron Microscopy 4 Credit Hours**
(Crosslisted with PBIO and MBIO 5364) Prerequisite: Graduate standing and permission of instructor. Introduction to the theory of transmission electron microscopy and practical instruction in specimen preparation, ultramicrotomy, instrument operation, photography and quantitative methods. Laboratory. (F)
- BIOL 5374 Scanning Electron Microscopy 4 Credit Hours**
(Crosslisted with PBIO and MBIO 5374) Prerequisite: basic chemistry; basic physics; demonstrated need; graduate standing and permission of instructor. Principles of scanning electron microscopy are combined with training in the operation of the SEM and ancillary equipment. Students will be certified in the operation of all equipment. Sample preparation on a variety of samples and darkroom procedures will be performed. Independent project with oral report and poster required. Laboratory (Irreg.)
- BIOL 5394 Advanced Light Microscopy 4 Credit Hours**
(Crosslisted with MBIO and PBIO 5394) Prerequisite: permission of instructor and graduate standing. Focuses on theory and techniques in light microscopy covering principles including confocal laser scanning microscopy, multiple photon imaging, FLIM/FCS, FRET, fluorescence microscopy, phase contrast, DIC, 3D rendering, and other advanced optical technologies. Also includes a lab section where students will learn to use advanced epifluorescence and confocal microscopes. (F)
- BIOL 5403 Population Ecology 3 Credit Hours**
Prerequisite: graduate standing. History, demography, environmental factors, density-dependent factors, genetics and population ecology, theories of population and community organization (ideas of Elton, Williams, Preston, MacArthur, Smith, Hairston, and Slododkin). No laboratory. Offered Sp of even-numbered years. (Irreg.)

- BIOL 5413 Community Ecology 3 Credit Hours**
Prerequisite: Graduate standing, BIOL 3403 and MATH 1743 or 1823, or permission. Theoretical and empirical study of the structure and organization of natural communities. Topics include competition, predation, disturbance, abiotic gradients, species equilibria.
- BIOL 5423 Stream Ecology 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. A combined lecture/laboratory course that focuses on the physical, chemical, and biological features of stream ecosystems, including current theories explaining species interactions and stream function. Course requirements/evaluation including a midterm and final examination, individual research papers and presentations, participation in group laboratory and field experiments, and reading and discussing the primary literature. Field trips. Laboratory. Offered Fa of odd-numbered years. (Irreg.)
- BIOL 5453 Advanced Ecology/Evol Biology 3 Credit Hours**
(Crosslisted with P BIO 5453) Prerequisite: Graduate standing and BIOL 3403. Required for students in the ecology and evolutionary biology doctoral program. An introduction to current research opportunities and research programs in ecology and evolutionary biology at the University of Oklahoma. Specific topics and lecturers will vary from week to week to give students a broad overview of ongoing research projects. (F)
- BIOL 5471 Seminar in Ecology & Evolutionary Biology 1 Credit Hour**
(Crosslisted with P BIO and M BIO 5471) Prerequisite: graduate standing; May be repeated, maximum credit 2 hours. Two semesters of enrollment are required for students in the ecology and evolutionary biology doctoral program. An intensive, student-based seminar in which students present both proposals and ongoing progress reports on doctoral level research projects in ecology and evolutionary biology. (F, Sp)
- BIOL 5483 Physiological Plant Ecology 3 Credit Hours**
(Slashlisted with BIOL 4483) Prerequisite: graduate standing; BIOL 3453 or BIOL 4115, or permission of instructor. Study of energy budgets, plant water relations, carbon uptake and release, nutrient uptake and availability, and other factors as they affect plant growth, competition and other ecosystem-level factors. In-depth analysis of current literature. (F, even-numbered years). No student may earn credit for both 4483 and 5483.
- BIOL 5523 Biogeography and Macroecology 3 Credit Hours**
(Slashlisted with BIOL 4523) Prerequisite: Graduate standing and BIOL 3013, or Permission of Instructor. This course will explore the causes and consequences of the geographic distribution of life on Earth. We will discuss the processes which shape individual species distributions, why some regions host more species than others, and how the evolution of biodiversity is tied to the history and geography of Earth itself. No student may earn credit for both 4523 and 5523. (F)
- BIOL 5534 Plant Systematics 4 Credit Hours**
(Slashlisted with BIOL 4534) Prerequisite: graduate standing. Introduction to the evolution and identification of vascular plants with emphasis on the origin and evolution of the Oklahoma flora. Laboratory activities stress identification skills, terminology, field techniques, and family recognition for the flora of Oklahoma. Field trips. Laboratory. No student may earn credit for both 4534 and 5534. (Irreg.)
- BIOL 5553 Wetlands Ecology 3 Credit Hours**
(Slashlisted with BIOL 4553) Prerequisite: graduate standing and two college science courses that include a laboratory, one of which should be in biological sciences or permission of UOBS Director. Comprehensive field-based examination of wetland science and management. Biological, physical, chemical, and hydrological aspects of wetland ecosystem structure and function are explored through visits to several field sites. Major wetland types and resources are examined and the biogeochemical and ecological diversity of wetland waters, soils, vegetation, and fauna is investigated. No student may earn credit for both 4553 and 5553. Laboratory. (Su)
- BIOL 5573 Conservation Genetics 3 Credit Hours**
Prerequisite: Graduate standing and BIOL 3333 or permission of the instructor. This lecture/discussion course will examine the use of population genetic/ecological genetic principles in the study and management of populations of threatened and/or endangered species. (Sp)
- BIOL 5633 Ecology and Evolution of Infectious Diseases 3 Credit Hours**
(Slashlisted with BIOL 4633) Prerequisite: Graduate standing; a course on foundations of ecology and evolution is strongly recommended. Basic biological principles in how parasites are transmitted in natural populations, coevolution of hosts and parasites, and how novel parasites emerge and impact their host populations, including zoonotic parasites. No student may earn credit for both 4633 and 5633. (Sp)
- BIOL 5663 Advanced Limnology 3 Credit Hours**
(Slashlisted with BIOL 5663) Prerequisite: 4423 or 5423, or 4463 and 4471, or permission of instructor; May be repeated with change of content, maximum credit 6 hours. Detailed study of fundamental or contemporary topics within limnology, such as biogeochemistry, nutrient cycling, ecological stoichiometry, biodiversity, and predator-prey and food-web dynamics in aquatic communities. No student may earn credit for both 4663 and 5663. (Sp)
- BIOL 5673 Microbiomes: Health & Disease 3 Credit Hours**
(Slashlisted with BIOL 4673) Prerequisite: graduate standing; and BIOL 3812 and BIOL 3813 and CHEM 3013 or CHEM 3053; or permission of instructor. Introduces students to the modern-day characterization of microbiomes, from initial sequence information to the living organisms that make up these complex communities. Students will become familiar with the role microbiomes play in health and disease processes in addition to their role in personalized medicine. No student may earn credit for both 4673 and 5673. (Irreg.)
- BIOL 5733 Microbial Genetics 3 Credit Hours**
(Slashlisted with BIOL 4733) Prerequisite: graduate standing; BIOL 4843 or 5843, or permission of instructor. Microbial genetics underlies important topics such as antibiotic resistance, genetic engineering, drug development, and many biotechnological advances. Explores the interesting world of microbial genetics by discussing molecular genetic methods and related aspects of bacterial and archaeal biology. Examples will include both traditional and recently developed microbial model systems. No student may earn credit for both 4733 and 5733. (Sp)
- BIOL 5753 Molecular Evolution and Phylogenetics 3 Credit Hours**
(Slashlisted with BIOL 4753) Prerequisite: BIOL 2013 or BIOL 3333 or permission of instructor and graduate standing. Theory and practice of inferring evolutionary history from molecular and morphological data. Applications of the phylogenetic approach in systematics, comparative biology, molecular evolution, and genomics will be covered. Offered Fa of even-numbered years. No student may earn credit for both 4753 and 5753. (Irreg.)

BIOL 5783 Introduction to Python Programming for Data**Analytics** **3 Credit Hours**

(Slashlisted with BIOL 4783) Prerequisite: graduate standing. This course will introduce students, who have no prior programming experience, to Python programming. It will cover data analysis and visualization methods in Python. Real-world examples will be used to teach general concepts in data analytics and practical coding skills in Python. No student may earn credit for both 4783 and 5783. (F)

BIOL 5793 Microbial Genetics **3 Credit Hours**

(Slashlisted with BIOL 4793) Prerequisite: graduate standing; BIOL 4843 or 5843, or permission of instructor. Microbial genetics underlies important topics such as antibiotic resistance, genetic engineering, drug development, and many biotechnological advances. Explores the interesting world of microbial genetics by discussing molecular genetic methods and related aspects of bacterial and archaeal biology. Examples will include both traditional and recently developed microbial model systems. No student may earn credit for both 4793 and 5793. (Sp)

BIOL 5810 Special Topics **3 Credit Hours**

0 to 3 hours. (Slashlisted with BIOL 4810) Prerequisite: graduate standing and permission of instructor; BIOL 3812 and BIOL 3813. Topics will include newly developing areas of the discipline. Taught at graduate level based on previous course background. May be repeated with change of content, maximum credit 3 hours per semester, 9 hours total. No student may earn credit for both 4810 and 5810. (Irreg.)

BIOL 5833 Neurobiology **3 Credit Hours**

(Slashlisted with BIOL 4833) Prerequisite: graduate standing or permission of instructor. Advanced examination of cellular and behavioral neurobiology. Topics covered will include membrane biophysics, cellular neurobiology, neurophysiology, neuroanatomy, sensory processing, movement, and neurobiology of behavior. No student may earn credit for both 4833 and 5833. (F)

BIOL 5843 Molecular Biology **3 Credit Hours**

(Slashlisted with BIOL 4843) Prerequisite: graduate standing or permission of instructor. Introduction to the characteristics and biological functions of nucleic acids and proteins in living cells with emphasis on nucleic acid replication, transcription, translation and regulation; also emphasis on the molecular aspects of microbial genetics transformation, transduction and conjugation; and emphasis on molecular immunology and genetic engineering/recombinant DNA technology. No student may earn credit for both 4843 and 5843. (F, Sp)

BIOL 5863 Neural Control of Movement **3 Credit Hours**

(Slashlisted with BIOL 4863) Prerequisite: Graduate standing and BIOL 3103 or BIOL 3113 or BIOL 4833/5833, or permission of instructor. Introduction to neural control of movement through reading and discussion of key original research articles from the 19th century to the present. Students lead discussions and write essays addressing a general question, utilizing data from the articles. Topics include localization of function, sensory vs. central contributions, roles of single neurons, effects of neuromodulators, and motor learning. No student may earn credit for both 4863 and 5863. (Sp)

BIOL 5871 Current Topics in Neurobiology **1 Credit Hour**

(Slashlisted with BIOL 4871) Prerequisite: Graduate standing and permission of the instructor; May be repeated, maximum credit three hours. A seminar course designed to develop a student's abilities to interpret and critically evaluate research in cellular and behavioral neurobiology. Involves both public seminars and journal club style discussions of contemporary literature. No student may earn credit for both 4871 and 5871 concurrently. No student may earn credit for both 4871 and 5871. (F, Sp)

BIOL 5873 Diversity of Biological Sex Characteristics **3 Credit Hours**

(Slashlisted with BIOL 4873) Prerequisite: Graduate standing. This course explores the diverse biological sex characteristics of nonhuman animals and people. We examine the evolution of sexual reproduction, sex-determining mechanisms, and hermaphroditic, parthenogenetic, intersex, and multiple-gender animal species, followed by the biology of intersex and transgender people. Finally, we discuss human infant genital surgeries and participation in athletic competitions. No student may earn credit for both 4873 and 5873. (F)

BIOL 5893 Behavioral Neurobiology **3 Credit Hours**

(Slashlisted with BIOL 4893) Prerequisite: Graduate standing and BIOL 3103 or BIOL 3113, or BIOL 4833/5833 or permission of instructor. Examines neurobiological mechanisms of natural animal behaviors (i.e., neuroethology), utilizing textbook and lectures as well as in-depth reading, discussion, and student presentation of original research articles. No student may earn credit for both 4893 and 5893. (F)

BIOL 5903 Topics in Virology **3 Credit Hours**

(Slashlisted with BIOL 4903) Prerequisite: graduate standing; and CHEM 3653 or BIOL 4843 or permission of instructor. Aspects related to selected RNA viruses, such as HIV/AIDS and polio virus, will be studied and discussed. Topics will include the molecular structure of RNA viruses, the mechanisms of viral assembly and replication, viral disease pathogenesis, host responses to viral infections, vaccine development, anti-viral and RNA interference (RNAi) therapeutics. No student may earn credit for both 4903 and 5903. No student may earn credit for both 4903 and 5903. (F)

BIOL 5923 Programming in R for Biology **3 Credit Hours**

Prerequisite: graduate standing or permission of instructor. R is a data analysis and graphics platform that has become increasingly popular in the sciences because of its power and versatility. This course provides an introduction to programming using R for applications in the biological sciences, with an emphasis on implementation. (F)

BIOL 5943 Multivariate Analysis **3 Credit Hours**

(Slashlisted with BIOL 4943) Prerequisite: Graduate standing and BIOL 4913 or permission of instructor. Introduces the concepts and underpinnings of multivariate statistics used commonly in the life sciences. The following topics will be included: regression, central tendency, data reduction, cluster analyses, and ordination and treats both parametric and non-parametric approaches. No student may earn credit for both 4943 and 5943. (Sp)

BIOL 5953 BioWriting **3 Credit Hours**

(Slashlisted with BIOL 4953; Crosslisted with MBIO and PBIO 5953) Prerequisite: Graduate standing and permission of instructor. This course provides students engaged in research with the information and skills needed to effectively communicate as professional biologists. Students will learn to report the results of their own research in the format of a journal article, conference-style presentation, and poster. Graduate students have additional assignments beyond those completed by undergraduates. No student may earn credit for both 4953 and 5953. (Irreg.)

BIOL 5960 Directed Readings **1-3 Credit Hours**

1 to 3 hours. Prerequisite: graduate standing and permission of department; May be repeated, maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

- BIOL 5970 Special Topics in Biology 3 Credit Hours**
0 to 3 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated with change of topic, maximum credit 12 hours. Special topics course; may include laboratory or field work. No student may earn credit for 4970 and 5970 on the same topic. (F, Sp, Su)
- BIOL 5980 Research for Master's Thesis 2-9 Credit Hours**
2 to 9 hours. Prerequisite: Graduate standing. Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. Laboratory (F, Sp, Su)
- BIOL 5981 Current Topics in Disease Ecology 1 Credit Hour**
(Slashlisted with BIOL 4981) Prerequisite: Graduate standing; May be repeated, maximum credit 9 hours. This seminar course will involve discussion of recent empirical and theoretical literature in the field of disease ecology and evolution. No student may earn credit for both 4981 and 5981. (F, Sp)
- BIOL 5990 Independent Study 1-6 Credit Hours**
1 to 6 hours. Prerequisite: Graduate standing and permission. May be repeated in different fields; maximum credit 12 hours. Directed readings. Written report required. No laboratory. (F, Sp, Su)
- BIOL 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor; May be repeated, maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- BIOL 6970 Seminar 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing and permission of instructor; May be repeated, maximum credit 12 hours; no more than six hours may be in any one field. No laboratory. (F, Sp, Su)
- BIOL 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisites: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- BIOL 6990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated, maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- MBIO 2124 Cornerstone Research Experience 4 Credit Hours**
Prerequisite: permission of instructor. Hands-on course targeted toward freshmen and sophomores; therefore there are no prerequisite courses required. The goal is to provide students with an authentic laboratory research experience building and experimentally testing hypotheses, collection and processing of data, and oral and written presentation of research results. The skills learned in this course will be beneficial during and beyond an undergraduate career. (F, Sp) [II-NS].
- MBIO 2815 Introduction to Microbiology 5 Credit Hours**
Prerequisite: one course in college chemistry. Introduction to microorganisms as biological entities. Survey of the roles of microorganisms in the ecosystem. Application of microorganisms to industrial and environmental problems. Discussion of microorganisms as causes of human disease and response of hosts to microbial invasion. This course does not count for major credit in Microbiology or Botany. Laboratory (F, Sp, Su) [II-NSL].
- MBIO 2970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Permission of instructor; May be repeated, maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- MBIO 3113 Cell Biology 3 Credit Hours**
(Crosslisted with BOT and BIOL 3113) Prerequisite: Botany 1114, or Biology 1134, or Biology 1114 and 1121, or Biology 1124; and Chemistry 3053. Introduction to the cell as a unit of life. A chemical and physical comparison of procaryotic and eucaryotic cells to include a discussion of cell metabolism, types of metabolic regulation and an analysis of ultrastructure. Emphasis will be placed on the dynamic changes in metabolism and ultrastructure which occur during the life of a cell. (F, Sp)
- MBIO 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisite: ENGL 1113 or equivalent, and permission of instructor; May be repeated, maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- MBIO 3673 Practical Bioinformatics 3 Credit Hours**
(Crosslisted with PBIO 3673) Prerequisite: MBIO 2815, or MBIO 3813, or PBIO 1114, or BIOL 1005, or BIOL 1114, or equivalent introductory biology course, and junior standing, or instructor permission. Study of the use of computers to analyze and interpret various types of biological data. Topics covered will include accessing genomics databases, aligning DNA and protein sequences, searching genomic databases for similar sequences, analyzing protein structure, and building molecular phylogenies. Classes will emphasize group work and in-class computer exercises in a highly interactive environment. (Sp)
- MBIO 3812 Fundamentals of Microbiology Laboratory 2 Credit Hours**
Prerequisite: credit or concurrent enrollment in 3813. Fundamental microbiological methods: aseptic technique, culture methods, microscopy, metabolic and physiological tests, bacterial isolation and identification, environmental microbiology. Laboratory (F, Sp, Su)
- MBIO 3813 Fundamentals of Microbiology 3 Credit Hours**
Prerequisite: BIOL 1005 or BIOL 1114 or BIOL 1124 or BIOL 1134 or PBIO 1114; and CHEM 1315 and CHEM 1415, or CHEM 1335 and CHEM 1435. Cell structure and phylogeny of bacteria, archaea, and eukaryotic microorganisms; growth, metabolism and ecological roles; symbiotic relationships; gene expression, genetic exchange, genomics. (F, Sp, Su)
- MBIO 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated, maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- MBIO 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated, maximum credit six hours. Projects covered will vary. Deals with concepts not usually presented in regular coursework. (F, Sp, Su)
- MBIO 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program and departmental permission; May be repeated, maximum credit six hours. (F, Sp, Su)
- MBIO 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied and permission of instructor and department; May be repeated, maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

- MBIO 4313 Biotechnology Applications 3 Credit Hours**
(Crosslisted with P BIO 4313) Prerequisite: P BIO/BIOL 3113, or P BIO/BIOL 3333, or P BIO/BIOL/MBIO 4843, or P BIO/MBIO 4873, or CHEM 3653, or permission of instructor. For students who possess a working knowledge of molecular biology. Focus on developing familiarity with methods used in biotechnology to address societal challenges. Students will put into practice central methods of biotechnology, gaining practical skills for use in future careers in laboratory science, particularly methods relevant to pharmaceutical production, agricultural improvement, bio-fuel production, and medical and forensic diagnostics, among others. (Sp)
- MBIO 4630 MBIO Internship 1-6 Credit Hours**
1 to 6 hours. (Crosslisted with P BIO 4630) Prerequisite: MBIO major; must have completed at least 30 hours; permission of instructor. This course is a planned hands-on work experience that will provide students with the opportunity to earn college credit while engaging in a valuable learning opportunity within the field of microbiology. Through an internship, students can explore microbiology-related career paths prior to graduation and apply the knowledge obtained from their MBIO coursework. (F, Sp, Su)
- MBIO 4693 Environmental Sampling Methods 3 Credit Hours**
(Slashlisted with MBIO 5693; Crosslisted with METR and P BIO 4693) Prerequisite: diverse STEM background; permission of instructor; senior standing. The course gives students from diverse STEM backgrounds experience and knowledge of environmental sampling techniques, analysis of data generated, and interpretation of results in a scientific field outside their primary area of study. The multi-disciplinary structure helps students develop an understanding of different sampling techniques based on assumptions and perspectives on the environment at different spatial scales. No student may earn credit for both 4693 and 5693. (Sp)
- MBIO 4783 Introduction to Python Programming for Data Analytics 3 Credit Hours**
(Slashlisted with MBIO 5783; Crosslisted with P BIO 4783) Prerequisite: Senior standing. This course will introduce students, who have no prior programming experience, to Python programming. It will cover data analysis and visualization methods in Python. Real-world examples will be used to teach general concepts in data analytics and practical coding skills in Python. No student may earn credit for both 4783 and 5783. (F)
- MBIO 4810 Special Topics 3 Credit Hours**
0 to 3 hours. (Slashlisted with MBIO 5810) Prerequisite: two courses in Microbiology and permission of instructor; May be repeated with change of content, maximum credit three hours per semester, nine hours total. Topics will include newly developing areas of the discipline. Taught at an upper-division level based on previous course background. No student may earn credit for both 4810 and 5810. (Irreg.)
- MBIO G4813 Pathogenic Microbiology Laboratory 3 Credit Hours**
- MBIO G4823 Pathogenic Microbiology and Infectious Disease 3 Credit Hours**
Prerequisite: MBIO 3812 and MBIO 3813. Introduces the basic methods for pathogenic microbiology and infectious disease epidemiology. Topics covered include definitions and nomenclature, outbreak investigations, disease surveillance, case-studies, laboratory diagnosis, immunology, molecular epidemiology, dynamics of transmission, and vaccine effectiveness. Emerging pathogens, their effects on society and the health care services will also be addressed. (F)
- MBIO 4833 Basic Immunology 3 Credit Hours**
Prerequisite: one semester of organic chemistry, and an introductory biology course, plus one of the following: 3813 and 3812, Zoology 2124, 3113, 3204, 3333 or biochemistry or graduate standing and permission. Fundamentals of immunochemistry, cellular immunology, immunogenetics and clinical immunology. (Sp)
- MBIO 4843 Molecular Biology 3 Credit Hours**
(Slashlisted with MBIO 5843; Crosslisted with P BIO and BIOL 4843) Prerequisite: MBIO 3812 and MBIO 3813, or Plant Biology 1114, or Biology 1114, or Biology 1124, or Biology 1134, and one course in organic chemistry. Introduction to the characteristics and biological functions of nucleic acids and proteins in living cells with emphasis on nucleic acid replication, transcription, translation and regulation; also emphasis on the molecular aspects of microbial genetics transformation, transduction and conjugation; and emphasis on molecular immunology and genetic engineering/recombinant DNA technology. No student may earn credit for both 4843 and 5843. (F, Sp)
- MBIO G4853 Physiology of Microorganisms 3 Credit Hours**
Prerequisite: MBIO 3813, MBIO 3812 and a course in organic chemistry, or graduate standing. Diversity, metabolism, energetics and physiology of microorganisms. (Sp)
- MBIO 4864 Geomicrobiology 4 Credit Hours**
(Slashlisted with MBIO 5864) Prerequisite: 3813 or permission of instructor. Life below the earth's surface. Bacterial degradation of pollutants. Petroleum microbiology. Role of microorganisms in geochemical cycling of carbon, sulfur, and metals. No student may earn credit for both 4864 and 5864. (F) [II-NS].
- MBIO 4873 Microbial Physiology and Molecular Biology Laboratory 3 Credit Hours**
Prerequisite: MBIO 3812 and MBIO 3813. Current techniques to explore molecular aspects of gene expression and regulation. Experiments include: plasmid and phage propagation, nucleic acid purification, DNA and protein manipulation, and gene analysis. (F, Sp) [II-NSL].
- MBIO G4883 Water Microbiology Laboratory 3 Credit Hours**
Prerequisite: MBIO 3812 and MBIO 3813. Focuses on the causes and prevention of waterborne microbial diseases and the use of microorganisms to improve water quality. Topics include: waterborne diseases, detection of waterborne pathogens, epidemiology, indicator organisms, water quality standards, treatment of drinking water and sewage, and groundwater contamination. The laboratory provides training in the standard methods used to detect microbial contamination. (F)
- MBIO 4893 Capstone in Microbiology 3 Credit Hours**
Prerequisite: three hours of calculus; 3813, 3812 and corequisite or prerequisite 4843. Combines laboratory research experiences, primarily in the areas of microbial diversity, physiology, and genetics, with an introduction to how research in microbiology is carried out. Laboratory (F, Sp) [V].
- MBIO 4950 Senior Thesis - Capstone 1-6 Credit Hours**
1 to 6 hours. Prerequisite: MBIO 3813 and permission of instructor; May be repeated for credit; maximum credit six hours. A minimum of six hours is required. This is a capstone course allowing students to carry out individual research projects under a faculty mentor. Students will present research results orally in a poster session, and by writing a senior thesis. Honors research credit may substitute for some or all of the senior thesis credit hours. (F, Sp, Su) [V].

- MBIO 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean; May be repeated, maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- MBIO 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor; May be repeated, maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- MBIO 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied and permission of instructor and department; May be repeated, maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- MBIO 5364 Transmission Electron Microscopy 4 Credit Hours**
(Crosslisted with PBIO and BIOL 5364) Prerequisite: permission. Introduction to the theory of transmission electron microscopy and practical instruction in specimen preparation, ultramicrotomy, instrument operation, photography and quantitative methods. Laboratory (F)
- MBIO 5374 Scanning Electron Microscopy 4 Credit Hours**
(Crosslisted with PBIO and BIOL 5374) Prerequisite: basic chemistry; basic physics; demonstrated need; graduate standing and permission of instructor. Principles of scanning electron microscopy combined with training in the operation of the SEM and ancillary equipment. Students will be certified in the operation of all equipment. Sample preparation on a variety of samples and darkroom procedures will be performed. Independent project with oral report and poster required. Laboratory .
- MBIO 5394 Advanced Light Microscopy 4 Credit Hours**
(Crosslisted with BIOL and PBIO 5394) Prerequisite: permission of instructor and graduate standing; Corequisite: Lab section. Focuses on theory and techniques in light microscopy covering principles including confocal laser scanning microscopy, multiple photon imaging, FLIM/FCS, FRET, fluorescence microscopy, phase contrast, DIC, 3D rendering, and other advanced optical technologies. Also includes a lab section where students will learn to use advanced epifluorescence and confocal microscopes. (F)
- MBIO 5471 Seminar in Ecology & Evolutionary Biology 1 Credit Hour**
(Crosslisted with PBIO and BIOL 5471) Prerequisite: graduate standing; May be repeated, maximum credit 2 hours. Two semesters of enrollment are required for students in the ecology and evolutionary biology doctoral program. An intensive, student-based seminar in which students present both proposals and ongoing progress reports on doctoral level research projects in ecology and evolutionary biology. (F, Sp)
- MBIO 5620 Investigations in Microbiology 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 15 hours of microbiology or permission of instructor; May be repeated with change of subject matter, maximum nine hours for a Masters student and twelve hours for a Ph.D. student. Maximum of six hours allowed with one professor, unless approved by Department Chair by petition. Fields of study: environmental microbiology, immunology, industrial microbiology, medical microbiology, medical mycology, microbial ecology, microbial genetics, microbial physiology, ultra-structural morphology, virology and molecular biology. (F, Sp, Su)
- MBIO 5693 Environmental Sampling Methods 3 Credit Hours**
(Slashlisted with MBIO 4693; Crosslisted with METR and PBIO 5693) Prerequisite: Graduate standing and permission of instructor. The course gives students from diverse STEM backgrounds experience and knowledge of environmental sampling techniques, analysis of data generated, and interpretation of results in a scientific field outside their primary area of study. The multi-disciplinary structure helps students develop an understanding of different sampling techniques based on assumptions and perspectives on the environment at different spatial scales. No student may earn credit for both 4693 and 5693. (Sp)
- MBIO 5821 Graduate Professional Development Seminar 1 Credit Hour**
(Crosslisted with PBIO 5821) Prerequisite: Graduate standing and permission of instructor. This course will cover various topics and involve activities that are targeted at helping graduate students succeed in their first year of study, while also providing an opportunity to build a sense of community with other incoming students. (F)
- MBIO 5864 Geomicrobiology 4 Credit Hours**
(Slashlisted with MBIO 4864) Prerequisite: 3813 or permission of instructor. Life below the earth's surface. Bacterial degradation of pollutants. Petroleum microbiology. Role of microorganisms in geochemical cycling of carbon, sulfur, and metals. No student may earn credit for both 4864 and 5864. (F)
- MBIO 5953 BioWriting 3 Credit Hours**
(Slashlisted with MBIO 4953; Crosslisted with BIOL and PBIO 5953) Prerequisite: permission of instructor. This course provides students engaged in research with the information and skills needed to effectively communicate as professional biologists. Students will learn to report the results of their own research in the format of a journal article, conference-style presentation, and poster. Graduate students have additional assignments beyond those completed by undergraduates. No student may earn credit for both 4953 and 5953. (Irreg.)
- MBIO 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- MBIO 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor; May be repeated, maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- MBIO 5971 Seminar in Microbiology 1 Credit Hour**
(Crosslisted with PBIO 5971) Prerequisite: graduate standing, permission of instructor. Required of all graduate students in microbiology. May be repeated; maximum credit two hours for the master's degree, three hours for the doctor's degree. Topics are selected from various areas of microbiology, and each student is called upon for discussion or formal presentations. No laboratory. (F, Sp)
- MBIO 5980 Research for Master's Thesis 2-9 Credit Hours**
2 to 9 hours. Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)
- MBIO 5990 Special Studies in Microbiology 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing, 15 hours of microbiology, permission of instructor; May be repeated, Maximum credit of six hours with one professor, unless approved by Department Chair by petition. The student selects an area in which the student desires to read intensively, selects a staff member who is an authority in that field, and together they plan a program for investigation of the literature. (F, Sp, Su)

- MBIO 6960 Directed Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor; May be repeated, maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- MBIO 6970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor; May be repeated, maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- MBIO 6980 Research for Doctoral Dissertation** **2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- MBIO 6990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated, maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- PBIO 1114 General Botany** **4 Credit Hours**
Previous course in chemistry (high school or college) recommended. Fulfills Arts and Sciences' biological science requirement. Basic processes and structures in plants; their relation to factors in the environment; reproduction; heredity, heritable and nonheritable variations in plants and their causes and consequences are studied. Scientific procedures are acquired through application and discussion. Laboratory (F, Sp, Su) [II-NSL].
- PBIO 2404 Ecology & Environmntl Quality** **4 Credit Hours**
(Crosslisted with BIOL 2404) Prerequisite: sophomore standing. Study of ecological principles and their applications to human systems, study of population, air pollution, water pollution, energy issues, etc. Laboratory exercises focus on learning scientific methods of measurement of environmental quality factors. This course does not count for major credit in Plant Biology. Laboratory. (Sp) [II-NSL].
- PBIO 2503 Plant Care and Cultivation** **3 Credit Hours**
Prerequisite: PBIO 1114, or Biology 1005, or Biology 1114, or Biology 1134, or any introductory college Biology course. Application of the principles of botany to the cultivation, propagation, and maintenance of plants grown in home environments. Particular attention is given to the effects of light, water, minerals, and soil factors on plant growth; seed and vegetative propagation; pest control; and proper conditions for cultivated plants. (F) [II-NS].
- PBIO 3113 Cell Biology** **3 Credit Hours**
(Crosslisted with MBIO and BIOL 3113) Prerequisite: 1114, or Biology 1134, or Biology 1114 and 1121, or Biology 1124; and Chemistry 3053. Introduction to the cell as a unit of life. A chemical and physical comparison of procaryotic and eucaryotic cells to include a discussion of cell metabolism, types of metabolic regulation and an analysis of ultrastructure. Emphasis will be placed on the dynamic changes in metabolism and ultrastructure which occur during the life of a cell. (F, Sp)
- PBIO 3163 Economic Botany** **3 Credit Hours**
Prerequisite: 1114, or Biology 1134, or Biology 1005, or any introductory biology course. A survey of plants and plant products used in industry, drug plants and drugs, and especially food plants and food adjuncts. Origin of agriculture, domestication and evolution of crop plants, and uses of plants in different cultures are emphasized. (F) [IV-WC].
- PBIO 3333 Genetics** **3 Credit Hours**
(Crosslisted with BIOL 3333) Prerequisite: eight hours of ZOO/BIOL and/or PBIO and/or MBIO, or five hours of ZOO/BIOL or PBIO or MBIO and permission of instructor. Principles of inheritance at gene, chromosome and population levels; nature of the genetic material and its involvement in the determination of structure and function. No laboratory. (F, Sp)
- PBIO 3440 Mentored Research Experience** **3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- PBIO 3451 Methods in Plant Ecology** **1 Credit Hour**
Prerequisite: Corequisite: PBIO 3453. Methodology in plant physiological, population, community and ecosystem ecology will be covered. Emphasis will be on actual field or laboratory experience and the applicability of these methods to other areas of ecology. Laboratory. (F)
- PBIO 3453 Principles of Plant Ecology** **3 Credit Hours**
Prerequisite: PBIO 1114 or BIOL 1134. Introduction to physiological, population and community ecology. Emphasis is placed on environmental factors, disturbance and succession and how these factors affect species diversity and landscape patterns. One field trip. (F)
- PBIO 3673 Practical Bioinformatics** **3 Credit Hours**
(Crosslisted with MBIO 3673) Prerequisite: PBIO 1114, or MBIO 2815, or MBIO 3813, or BIOL 1005, or BIOL 1114, or equivalent introductory biology course, and junior standing, or instructor permission. Study of the use of computers to analyze and interpret various types of biological data. Topics covered will include accessing genomics databases, aligning DNA and protein sequences, searching genomic databases for similar sequences, analyzing protein structure, and building molecular phylogenies. Classes will emphasize group work and in-class computer exercises in a highly interactive environment. (Sp)
- PBIO 3960 Honors Reading (HONORS)** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. (F, Sp, Su)
- PBIO 3970 Honors Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses.
- PBIO 3980 Honors Research (HONORS)** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work on a special project in the student's field. (F, Sp, Su)
- PBIO 3990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department; May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

- PBIO G4114 Principles of Plant Physiology 4 Credit Hours**
Prerequisite: PBIO 1114 and CHEM 3053 or permission of instructor. Plant Physiology is the study of how plants grow and develop, respond to biotic and abiotic factors in their environments, convert solar energy to chemical energy, and generally how plants go about their business. Modern plant physiology is a fairly all-inclusive discipline and incorporates plant anatomy and morphology, biochemistry, genetics, molecular biology, etc. Laboratory. (F)
- PBIO G4283 Plant Anatomy 3 Credit Hours**
Prerequisite: seven hours in biology or permission of instructor. The structure and development of the organs of vascular plants as revealed by observations of representative living and prepared specimens. Theories concerning the evolution of organs and internal structure. (Sp odd-numbered years)
- PBIO 4313 Biotechnology Applications 3 Credit Hours**
(Crosslisted with MBIO 4313) Prerequisite: PBIO/BIOL 3113 or PBIO/BIOL 3333 or PBIO/MBIO/BIOL 4843 or PBIO/MBIO 4873 or Chemistry 3653 or permission of instructor. For students who possess a working knowledge of molecular biology. Focus on developing familiarity with methods used in biotechnology to address societal challenges. Students will put into practice central methods of biotechnology, gaining practical skills for use in future careers in laboratory science, particularly methods relevant to pharmaceutical production, agricultural improvement, bio-fuel production, and medical and forensic diagnostics, among others. (Sp)
- PBIO 4334 Horticulture 4 Credit Hours**
Prerequisite: PBIO 1114 and BIOL 1134, or permission of the instructor. Application of botanical principles to the cultivation, propagation, and maintenance of plants. Attention is given to the evolutionary history of the plants and their needs in cultivation. Lab activities cover growth and propagation of plants in a greenhouse environment, constructing and testing hypotheses for how plant growth is affected by different conditions, and using R to examine resulting data. Laboratory. (Irreg.)
- PBIO 4534 Plant Systematics 4 Credit Hours**
(Slashlisted with PBIO 5534) Prerequisite: PBIO 1114 and BIOL 1134 or permission of the instructor. Introduction to the evolution and identification of vascular plants with emphasis on the origin and evolution of the Oklahoma flora. Laboratory activities stress identification skills, terminology, field techniques, and family recognition for the flora of Oklahoma. Field trips. Laboratory. No student may earn credit for both 4534 and 5534. (Irreg.)
- PBIO 4630 PBIO Internship 1-6 Credit Hours**
1 to 6 hours. (Crosslisted with MBIO 4630) Prerequisite: PBIO major; must have completed at least 30 hours; permission of instructor. This course is a planned hands-on work experience that will provide students with the opportunity to earn college credit while engaging in a valuable learning opportunity within the field of plant biology. Through an internship, students can explore plant biology career paths prior to graduation and apply the knowledge obtained from their PBIO coursework. (F, Sp, Su)
- PBIO 4693 Environmental Sampling Methods 3 Credit Hours**
(Slashlisted with PBIO 5693; Crosslisted with METR and MBIO 4693) Prerequisite: diverse STEM background; permission of instructor; senior standing. The course gives students from diverse STEM backgrounds experience and knowledge of environmental sampling techniques, analysis of data generated, and interpretation of results in a scientific field outside their primary area of study. The multi-disciplinary structure helps students develop an understanding of different sampling techniques based on assumptions and perspectives on the environment at different spatial scales. No student may earn credit for both 4693 and 5693. (Sp)
- PBIO 4733 Environmental Remote Sensing 3 Credit Hours**
(Slashlisted with PBIO 5733; Crosslisted with GIS 4733) Prerequisite: either a course or hands-on experience in remote sensing, GIS, statistical analysis, computer programming, or permission of the instructor and adviser. Course develops comprehensive knowledge and advanced skills of remote sensing, to apply to the study of the structure, composition, and functions of vegetation, landscapes, and the biosphere. Students will learn hyperspectral data acquisition and analysis; field survey methods; land cover classification from multiple sensors, time series data; and estimation of biophysical and biochemical parameters. Includes image processing software and algorithms. No student may earn credit for both 4733 and 5733. (Sp)
- PBIO 4783 Introduction to Python Programming for Data Analytics 3 Credit Hours**
(Slashlisted with PBIO 5783; Crosslisted with MBIO 4783) Prerequisite: Senior standing. This course will introduce students, who have no prior programming experience, to Python programming. It will cover data analysis and visualization methods in Python. Real-world examples will be used to teach general concepts in data analytics and practical coding skills in Python. No student may earn credit for both 4783 and 5783. (F)
- PBIO 4843 Molecular Biology 3 Credit Hours**
(Slashlisted with PBIO 5843; Crosslisted with MBIO and BIOL 4843) Prerequisite: MBIO 3812 and MBIO 3813, or Plant Biology 1114, or Biology 1114, or Biology 1124, or Biology 1134, and one course in organic chemistry. Introduction to the characteristics and biological functions of nucleic acids and proteins in living cells with emphasis on nucleic acid replication, transcription, translation and regulation; also emphasis on the molecular aspects of microbial genetics transformation, transduction and conjugation; and emphasis on molecular immunology and genetic engineering/recombinant DNA technology. No student may earn credit for both 4843 and 5843. (F, Sp)
- PBIO 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean; May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- PBIO 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor; May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- PBIO 4983 Senior Capstone: Plant Biol 3 Credit Hours**
Prerequisite: Majors only, 12 hours of botany and senior standing. Interdisciplinary approach to synthesize ideas from the major areas of botany. Readings, research and discussions on the important issues in botany at the present and into the next century. A major written assignment required. [V].
- PBIO 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied, permission of instructor and department; May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- PBIO 5364 Transmis Electron Microscopy 4 Credit Hours**
(Crosslisted with MBIO and ZOO 5364) Prerequisite: permission. Introduction to the theory of transmission electron microscopy and practical instruction in specimen preparation, ultramicrotomy, instrument operation, photography and quantitative methods. Laboratory (F)

- PBIO 5374 Scanning Electron Microscopy 4 Credit Hours**
(Crosslisted with MBIO and ZOO 5374) Prerequisite: basic chemistry; basic physics; demonstrated need; graduate standing and permission of instructor. Principles of scanning electron microscopy combined with training in the operation of the SEM and ancillary equipment. Students will be certified in the operation of all equipment. Sample preparation on a variety of samples and darkroom procedures will be performed. Independent project with oral report and poster required. Laboratory.
- PBIO 5394 Advanced Light Microscopy 4 Credit Hours**
(Slashlisted with PBIO 4394; Crosslisted with BIOL and MBIO 5394) Prerequisite: permission of instructor and graduate standing; Corequisite: Lab section. Focuses on theory and techniques in light microscopy covering principles including confocal laser scanning microscopy, multiple photon imaging, FLIM/FCS, FRET, fluorescence microscopy, phase contrast, DIC, 3D rendering, and other advanced optical technologies. Also includes a lab section where students will learn to use advanced epifluorescence and confocal microscopes. No student may earn credit for both 4394 and 5394. (F)
- PBIO 5453 Advanced Ecology/Evolut Biol 3 Credit Hours**
(Crosslisted with BIOL 5453) Prerequisite: Graduate standing, general ecology. Required for students in the ecology and evolutionary biology doctoral program. An introduction to current research opportunities and research programs in ecology and evolutionary biology at the University of Oklahoma. Specific topics and lecturers will vary from week to week to give students a broad overview of ongoing research projects. (F)
- PBIO 5471 Seminar in Ecology & Evolutionary Biology 1 Credit Hour**
(Crosslisted with MBIO and BIOL 5471) Prerequisite: graduate standing; May be repeated, maximum credit 2 hours. Two semesters of enrollment are required for students in the ecology and evolutionary biology doctoral program. An intensive, student-based seminar in which students present both proposals and ongoing progress reports on doctoral level research projects in ecology and evolutionary biology. (F, Sp)
- PBIO 5620 Investigations in Botany 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 15 hours of BOT/PBIO and permission of instructor; May be repeated, maximum of nine hours for a masters student and twelve hours for Ph.D. student. Only six hours allowed with one professor, unless approved by Department Chair by petition. Fields: Ecology, morphology, physiology, systematics, mycology, anatomy, electron microscopy, plant molecular biology. (F, Sp, Su)
- PBIO 5693 Environmental Sampling Methods 3 Credit Hours**
(Slashlisted with PBIO 4693; Crosslisted with MBIO and METR 5693) Prerequisite: Graduate standing and permission of instructor. The course gives students from diverse STEM backgrounds experience and knowledge of environmental sampling techniques, analysis of data generated, and interpretation of results in a scientific field outside their primary area of study. The multi-disciplinary structure helps students develop an understanding of different sampling techniques based on assumptions and perspectives on the environment at different spatial scales. No student may earn credit for both 4693 and 5693. (Sp)
- PBIO 5733 Environmental Remote Sensing 3 Credit Hours**
(Slashlisted with PBIO 4733; Crosslisted with GIS 5733) Prerequisite: Graduate standing, and either a course or hands-on experience in remote sensing, GIS, statistical analysis, computer programming, or permission of the instructor and adviser. Course develops comprehensive knowledge and advanced skills of remote sensing, to apply to the study of the structure, composition, and functions of vegetation, landscapes, and the biosphere. Students will learn hyperspectral data acquisition and analysis; field survey methods; land cover classification from multiple sensors, time series data; and estimation of biophysical and biochemical parameters. Includes image processing software and algorithms. No student may earn credit for both 4733 and 5733. (Sp)
- PBIO 5810 Special Topics 1-3 Credit Hours**
1 to 3 hours. (Slashlisted with PBIO 4810) Prerequisite: two courses in plant biology, graduate standing, and permission of instructor; May be repeated with change of content, maximum credit three hours per semester, nine hours total. 1 to 3 hours. Topics will include newly developing areas of the discipline. Taught at the graduate level based on previous course background. No student may earn credit for both 4810 and 5810 for the same content. No student may earn credit for both 4810 and 5810. (Irreg.)
- PBIO 5821 Graduate Professional Development Seminar 1 Credit Hour**
(Crosslisted with MBIO 5821) Prerequisite: Graduate standing and permission of instructor. This course will cover various topics and involve activities that are targeted at helping graduate students succeed in their first year of study, while also providing an opportunity to build a sense of community with other incoming students. (F)
- PBIO 5953 BioWriting 3 Credit Hours**
(Slashlisted with PBIO 4953; Crosslisted with BIOL and MBIO 5953) Prerequisite: permission of instructor. This course provides students engaged in research with the information and skills needed to effectively communicate as professional biologists. Students will learn to report the results of their own research in the format of a journal article, conference-style presentation, and poster. Graduate students have additional assignments beyond those completed by undergraduates. No student may earn credit for both 4953 and 5953. (Irreg.)
- PBIO 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department; May be repeated, maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- PBIO 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor; May be repeated, maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- PBIO 5971 Seminar in Botany 1 Credit Hour**
(Crosslisted with MBIO 5971) Prerequisite: graduate standing, majors only, and permission of instructor. Required of all graduate students in botany. May be repeated; maximum credit two hours for the master's degree, three hours for the doctor's degree. Selected topics in botany. Each student is called upon for discussion or formal presentations. No laboratory. (F, Sp)
- PBIO 5980 Research for Master's Thesis 2-9 Credit Hours**
2 to 9 hours. Prerequisite: Graduate standing. Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. Preparation of an original research paper in one of the fields of botany. (F, Sp, Su)

PBIO 5990 Special Studies in Botany 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing, 15 hours of BOT/PBIO and permission of instructor; May be repeated, maximum credit 12 hours, with a limit of six hours with one professor unless approved by Department Chair by petition. The student selects an area in which the student desires to read intensively, then selects a staff member who is an authority in that field and together they plan a program for investigation of the literature. (F, Sp, Su)

PBIO 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor; May be repeated, maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

PBIO 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor; May be repeated, maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

PBIO 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Preparation of a research paper consisting of a notable contribution to knowledge in one of the fields of botany. (F, Sp, Su)

PBIO 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated, maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Becker	Daniel	J	2021	ASSISTANT PROFESSOR OF BIOLOGY, 2021	Ph.D., University of Georgia, 2017; Bard College, 2010
Bentz	Alexandra		2021	ASSISTANT PROFESSOR OF BIOLOGY, 2021	Ph.D., University of Georgia, 2017; M.S., Appalachian State University, 2012; B.A., Appalachian State University, 2010
Bergey	Elizabeth	A	2000	ASSOCIATE HERITAGE ZOOLOGIST OF OKLAHOMA BIOLOGICAL SURVEY, 1981, B.S., University of BIOLOGY, 2017	Ph.D., University of California-Berkeley, 1992; M.S., Colorado State University, 1981, B.S., University of Oklahoma 1977
Berkowitz	Robert	A	1997	PROFESSOR OF BIOLOGY, 2010; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2015	Ph.D., Washington University, 1993; A.B., University of Chicago, 1984

Bridge	Eli	S	2012	ADJUNCT ASSISTANT PROFESSOR OF BIOLOGY, 2012; CHAIR, INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE, 2016; ASSOCIATE PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2017	Ph.D., University of Minnesota, 2004; B.A., Westminster College, 1997
Bright	Eric	G		INSTRUCTOR OF BIOLOGY	Ph.D., University of Oklahoma, 2015
Broughton	Richard	E	2000	PROFESSOR OF BIOLOGY, 2014; PROFESSOR OF BIOLOGICAL SURVEY, 2014	Ph.D., Arizona State University, 1995; M.S., University of California-Chico; B.S., University of California-Chico, 1987
De Leon	Kara	B	2019	ASSISTANT PROFESSOR OF MICROBIOLOGY, 2019	Ph.D., Montana State University, 2013; B.S., Northwest Nazarene University, 2006
Dunn	Anne	K	2007	ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2013	Ph.D., University of Wisconsin, 2002; B.S., Iowa State University, 1996
Eberle	Jess	R		INSTRUCTOR IN BIOLOGY	M.S., University of Oklahoma, 2015
Everman	Elizabeth		2017	ASSISTANT PROFESSOR OF BIOLOGY, 2017	Ph.D., Kansas State University, 2017
Fornelli	Luca		2019	ASSISTANT PROFESSOR OF BIOLOGY, 2019	Ph.D., Ecole Polytechnique Federale de Lausanne, Switzerland, 2014
Gibson	J.	Phil		PROFESSOR OF BIOLOGY; PROFESSOR OF BOTANY AND MICROBIOLOGY	Ph.D., University of Colorado, 1995; M.S., University of Georgia, 1990; B.S., Oklahoma State University, 1988
Gordon	Cynthia	L	2003	DIRECTOR, HUMAN ANATOMY PROGRAMS, 2010; ASSOCIATE PROFESSOR OF BIOLOGY, 2011	Ph.D., University of Oklahoma, 2003; M.S., Murray State University, 1998; B.S., Ohio State University, 1989
Hewes	Randall	S	2001	PROFESSOR OF BIOLOGY, 2015; ADJUNCT PROFESSOR OF CELL BIOLOGY, COLLEGE OF MEDICINE, 2015	Ph.D., University of Washington, 1993; B.S., Carleton College, 1988
Hung	Keng-Lou James		2021	ASSISTANT PROFESSOR OF BIOLOGY, 2021	Ph.D., University of California-San Diego, 2017; B.A., Dartmouth College, 2010
Ibberson	Carolyn		2021	ASSISTANT PROFESSOR OF MICROBIOLOGY, 2021	Ph.D., University of Iowa, 2015; B.S., University of Wisconsin-Madison, 2010

Karr	Elizabeth	A	2007	ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2014	Ph.D., Southern Illinois University, 2003; B.S., Murray State University, 1999	FAMILY FOUNDATION PRESIDENTIAL PROFESSOR, 2018
Kaspari	Michael	E	1995	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2008; GEORGE LYNN CROSS RESEARCH PROFESSOR OF BIOLOGY, 2013	Ph.D., University of Arizona, 1992; M.S., University of Nebraska, 1985; B.S., University of Nebraska, 1983	
Kelly	Jeffrey	F	2002	PROFESSOR OF BIOLOGY, 2014; PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2014; CORIX ENDOWED CHAIR IN WATER AND SUSTAINABILITY, 2018; DIRECTOR, CORIX PLAINS INSTITUTE, 2018	Ph.D., Colorado State University, 1996; M.S., Oklahoma State University, 1991; B.S., University of Maine, 1987	
Ketchum	Heather	R	2005	ASSOCIATE PROFESSOR OF BIOLOGY, 2012; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2012; PRESIDENTIAL TEACHING FELLOW OF HONORS, 2018	Ph.D., Texas A&M University, 2002; M.S., California Polytechnic, 1996; B.S., University of California-Riverside, 1993	
Klawinski	Paul		2022	DISTINGUISHED LECTURER, DEPARTMENT OF BIOLOGY, 2022		
Lanier	Hayley		2017	ASSISTANT PROFESSOR OF BIOLOGY, 2017; ASSISTANT CURATOR OF SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 2017	Ph.D., University of Alaska, 2010; B.S., University of Kansas, 2004	
Lawson	Paul	A	2005	PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2013	Ph.D., University of London, 1993; B.S., University of London, 1984	
Lee	Eric	M		ASSISTANT PROFESSOR OF BIOLOGY, 2014	Ph.D., University of Oklahoma, 2014	
Lemon	Christian	H	2013	ASSOCIATE PROFESSOR OF BIOLOGY, 2016	Ph.D., Binghamton University, 2001; M.A., Binghamton University, 1998; B.S., University of Oklahoma, 1994	
Markham	Michael	R	2011	ROBERT G. AND BETTY GALE CASE-HOOPER PROFESSOR IN BIOLOGY, 2011; ASSOCIATE PROFESSOR OF BIOLOGY, 2015; SAM K. VIERSEN	Ph.D., University of New Mexico, 1994; B.A., University of New Mexico, 1990	
Marske	Katharine		2017	ASSISTANT PROFESSOR OF BIOLOGY, 2017		Ph.D., University of Auckland, 2010; M.S., Montana State University, 2004; B.S., Luther College, 2001
Martin	Wendy	M		LECTURER, 2016		Ph.D., University of Oklahoma, 2016; M.A., University of Oklahoma, 2011; M.S. Univ of Oklahoma, 1997, B.S. Southwestern Oklahoma State University, 1991
Masly	John	P	2010	ASSOCIATE PROFESSOR OF BIOLOGY, 2016		Ph.D., University of Rochester, 2007; M.S., University of Rochester, 2001; B.S., Pennsylvania State University, 1998
McCarthy	Heather	R	2011	ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2017		Ph.D., Duke University, 2007; B.S., Oregon State University, 2000
McCaughey	David	W	2006	ASSOCIATE PROFESSOR OF BIOLOGY, 2012		Ph.D., University of Texas, 1997; B.S., University of North Carolina, 1990
Meysick	Karen		2009	ASSISTANT PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2017		Ph.D., University of Ottawa, 1996; M.S., University of Ottawa, 1990; B.S., University of Windsor, 1987
Moore	Abigail	J	2016	CURATOR, BEBB HERBARIUM, 2016; ASSISTANT PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2016; ASSISTANT PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2016		Ph.D., University of California-Berkeley, 2010; B.S., University of Utah, 2004
Padash Barmchi	Mojgan		2018	ASSISTANT PROFESSOR OF BIOLOGY, 2018		Ph.D., Lund University, 2006
Pan	Chongle		2018	ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY AND COMPUTER SCIENCE, 2018		Ph.D., University of Tennessee, 2006; B.S., East China Normal University, 2001
Qin	Wei		2021	ASSISTANT PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2021		Ph.D., University of Washington; B.S., Beijing Normal University
Ross	Jeremy	D	2017	ASSISTANT PROFESSOR OF THE OKLAHOMA BIOLOGICAL SURVEY, 2017		Ph.D., Bowling Green State University, 2011; B.S., Brandon University, 2002

Rowe	Ashlee	A	2018	ASSISTANT PROFESSOR OF BIOLOGY, 2018	Ph.D., North Carolina State University, 2004	Thompson	James	N	1975	SAMUEL ROBERTS NOBLE PRESIDENTIAL PROFESSOR, 1996; DAVID ROSS BOYD PROFESSOR OF BIOLOGY, 2001	Ph.D., University of Cambridge, 1973; B.A., University of Oklahoma, 1968
Rowe	Matt			PROFESSOR OF BIOLOGY	Ph.D., University of California-Davis, 1984; M.S., University of California-Davis, 1979; BS in Psychology, University of California at Davis, 1976	Uno	Gordon	E	1979	DAVID ROSS BOYD PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2001	Ph.D., University of California-Berkeley, 1979; B.A., University of Colorado, 1983
Safiejko-Mroczka	Barbara		1989	ASSOCIATE PROFESSOR OF BIOLOGY, 2009	Ph.D., Technical University of Dgansk, 1987; M.S., Warsaw University, 1974; B.S., Warsaw University, 1974	Vaughn	Caryn	C	1994	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2005; PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2007; PROFESSOR OF BIOLOGY, 2007; GEORGE LYNN CROSS RESEARCH PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2016	Ph.D., University of Oklahoma, 1984; M.S., University of Oklahoma, 1979; B.S., University of Oklahoma, 1977
Savage-Ashlock	Kristen	N	2014	LECTURER, 2014	Ph.D., University of Oklahoma, 2009; B.S., University of Oklahoma, 2003	Vitiello	Seasson Phillips		2021	LECTURER, 2021	Ph.D., University of Rochester, 2008, B.S., Nazareth College, 1999
Schlupp	Ingo	B	2005	PROFESSOR OF BIOLOGY, 2011; BRIAN E. AND SANDRA O'BRIEN PRESIDENTIAL PROFESSOR, 2012	Ph.D., Hamburg University, 1995; Diploma Biology, Hamburg University, 1991	Weider	Lawrence	J	1999	PROFESSOR OF BIOLOGY, 2005	Ph.D., University of Illinois, 1984; B.S., St. Bonaventure University, 1978
Schroeder	Susan	J	2010	ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY; ASSOCIATE PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY	Ph.D., University of Rochester, 2002; B.S., University of Rochester, 1995	Wellborn	Gary	A	1996	PROFESSOR OF BIOLOGY, 2015	Ph.D., University of Michigan, 1993; M.S., University of Texas, 1987; B.S., University of Texas, 1984
Shaw	Tarren	J		LECTURER, 2013	Ph.D., Oklahoma State University, 2009	Willis	Katie	L	2017	LECTURER, 2017	Ph.D., University of Maryland, 2014; B.S., University of Oklahoma, 2008
Siler	Cameron	D	2013	ASSOCIATE PROFESSOR OF BIOLOGY, 2018; ASSOCIATE CURATOR, HERPETOLOGY, SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 2018	Ph.D., University of Kansas, 2011; B.S., University of Texas, 2004	Woodruff	Gavin		2020	ASSISTANT PROFESSOR OF BIOLOGY, 2020	Ph.D., University of Maryland, 2013; B.S., Georgia State University, 2007
Souza	Lara	A	2012	ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2018; ASSOCIATE PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2018; DISTINGUISHED FACULTY FELLOW, OFFICE OF THE VICE PRESIDENT FOR RESEARCH, 2016	Ph.D., University of Tennessee, 2008; M.S., Appalachian State University, 2003; B.S., Appalachian State University, 1999	Xiao	Xiangming		2008	PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2008; DIRECTOR, CENTER FOR EARTH OBSERVATION AND MODELING, 2020; ADJUNCT PROFESSOR OF BIOLOGY, 2011; GEORGE LYNN CROSS RESEARCH PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2018	Ph.D., Colorado State University, 1994; M.S., University of Science & Technology, 1987; B.S., Xiamen University, 1982
Stein	Laura			ASSISTANT PROFESSOR OF BIOLOGY	Ph.D. University of Illinois: Urbana-Champaign, 2015; B.S., University of Arizona, 2009						

Zhou	Jizhong	2005	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2005; DIRECTOR, INSTITUTE OF ENVIRONMENTAL GENOMICS, 2005; GEORGE LYNN CROSS RESEARCH PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2014	Ph.D., Washington State University, 1993; M.S., Hunan Agricultural University, 1984; B.S., Hunan Agricultural University, 1981
------	---------	------	--	--

Biology, B.S.

Minimum Total Credit Hours: 120

Major Hours: 33

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B105

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements
- Thirty-six hours of major coursework must be completed, exclusive of BIOL 1003, BIOL 1005, BIOL 1013, BIOL 1114, BIOL 1121, BIOL 1203, BIOL 2103, BIOL 2124, BIOL 2234, and BIOL 2255.
- A grade of C or better must be earned in each course counted for major and major support credit.

Code	Title	Credit Hours
Biology		
BIOL 1124	Intro Biol: Molecule/Cell/Phys	4
BIOL 1134	Introductory Biology: Evolution, Ecology and Diversity	4
BIOL 3013	Evolution	3
BIOL 3333	Genetics	3
Electives		
Choose 16 hours ¹		16
Statistics		
Choose one of the following:		3
PSY 2003	Understanding Statistics	
BIOL 2913	Intro to Quantitative Biology	
BIOL 4913	Quantitative Biology	
ECON 2843	Elements of Statistics	
Total Credit Hours		33

¹ Electives - (16 hours) to be chosen in consultation with departmental advisor; must include two upper-division laboratory courses. (Independent study, honors reading or honors research cannot count toward laboratory course requirements.)

Major Support Requirements

Code	Title	Credit Hours
Chemistry		
CHEM 1315	General Chemistry	5
CHEM 1415	General Chemistry (Continued)	5
CHEM 3053	Organic Chemistry I: Biological Emphasis	3
CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis	2
CHEM 3153	Organic Chemistry II: Biological Emphasis	3
or CHEM 3653	Introduction to Biochemistry	
History of Science, Technology & Medicine		
Choose one of the following:		3
HSTM 3013	History of Science to the Age of Newton	
HSTM 3023	History of Science Since the Seventeenth Century	
An approved HSTM course chosen from the list maintained by the Department of Biology		
Physics		
Choose one of the following:		8
PHYS 2414	General Physics for Life Science Oriented	
& PHYS 2424	Majors and General Physics for Life Science Oriented Majors	
PHYS 2514	General Physics for Engineering and	
& PHYS 2524	Science Majors and General Physics for Engineering and Science Majors	
Math		
MATH 1743	Calculus I for Business, Life and Social Sciences	3
or MATH 1823	Calculus and Analytic Geometry I	
Total Credit Hours		32

¹ Fulfills 1 of the 2 upper-division Gen Ed Humanities required by the College of Arts & Sciences

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		

Beginning Course	0-5
Beginning Course, continued	0-5
Intermediate Course (2000 level) ^{1,2}	0-3
Mathematics (3 hours)	
Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)	
<i>Biological Science</i>	
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>	
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)	
P SC 1113 American Federal Government	3
Choose one course from the General Education Social Science list	3
Core Area IV: Arts and Humanities (18 hours)	
<i>Artistic Forms</i>	
Choose one course from the General Education Artistic Forms list	3
<i>Western Culture</i>	
HIST 1483 United States to 1865 or HIST 1493 United States, 1865 to the Present	3
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)	3
<i>World Culture</i>	
Choose one course from the General Education World Culture list	3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>	
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Core Area V: First Year Experience (3 hours)	
Choose one course	3
Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Biology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Biology major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
MATH 1523	Precalculus and Trigonometry (Core I)	3
BIOL 1124	Intro Biol: Molecule/Cell/Phys	4
First Year Experience (Core V)		3
Credit Hours		16

Second Semester

CHEM 1315	General Chemistry	5
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
MATH 1743 or MATH 1823	Calculus I for Business, Life and Social Sciences or Calculus and Analytic Geometry I	3
BIOL 1134	Introductory Biology: Evolution, Ecology and Diversity	4
Credit Hours		15

Sophomore**First Semester**

CHEM 1415	General Chemistry (Continued)	5
PHYS 2414 or PHYS 2514	General Physics for Life Science Oriented Majors or General Physics for Engineering and Science Majors	4
BIOL 3013	Evolution	3
P SC 1113	American Federal Government (Core III)	3
Credit Hours		15

Second Semester

CHEM 3053	Organic Chemistry I: Biological Emphasis	3
PHYS 2424 or PHYS 2524	General Physics for Life Science Oriented Majors or General Physics for Engineering and Science Majors	4
Statistics Requirement		3
Beginning Language (Core I)		5
Credit Hours		15

Junior**First Semester**

CHEM 3153 or CHEM 3653	Organic Chemistry II: Biological Emphasis or Introduction to Biochemistry	3
CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis	2
BIOL 3333	Genetics	3
Beginning Language continued (Core I)		5
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		16

Second Semester

HSTM 3013 or HSTM 3023	History of Science to the Age of Newton or History of Science Since the Seventeenth Century	3
Intermediate Language		3
World Culture (Core IV)		3
BIOL Major Group Requirement, upper-division (3000-4000-level)		3
BIOL Major Group Requirement with Lab, upper-division (3000-4000-level)		4
Credit Hours		16

Senior**First Semester**

BIOL Major Group Requirement, upper-division (3000-4000-level)		3
BIOL Major Group Requirement with Lab, upper-division (3000-4000-level)		3
Arts & Humanities, upper-division (3000-4000-level) outside major (Gen.Ed.)		3
Western Culture (Core IV)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		15

Second Semester

Major Group Requirement, upper-division (3000-4000-level)		3
Artistic Forms (Core IV)		3

Social Science (Core III)	3
Free Electives, upper-division (3000-4000-level)	3
Credit Hours	12
Total Credit Hours	120

Microbiology (Standard), B.S.

Minimum Total Credit Hours: 120

Major Hours: 30

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B690 P459

- A grade of C or better must be earned in each Microbiology course presented for major credit and in the required major support courses.

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- MBIO 2815 will not be accepted for major credit.

Code	Title	Credit Hours
Major Courses		
MBIO 3812	Fundamentals of Microbiology Laboratory	2
MBIO 3813	Fundamentals of Microbiology	3
MBIO 4823	Pathogenic Microbiology and Infectious Disease	3
MBIO 4843	Molecular Biology	3
MBIO 4853	Physiology of Microorganisms	3
Choose one of the following:		3-6
MBIO 4893	Capstone in Microbiology (3 hours)	
MBIO 4950	Senior Thesis - Capstone (2 semesters)	
Choose two of the following:		6
MBIO 4313	Biotechnology Applications	
MBIO 4813	Pathogenic Microbiology Laboratory	
MBIO 4873	Microbial Physiology and Molecular Biology Laboratory	
MBIO 4883	Water Microbiology Laboratory	
CHEM 3753	Introduction to Biochemical Methods	
Major Electives		
Choose MBIO electives to complete 30 hours required in the major (Cornerstone Research Experience is recommended)		4-7
Total Credit Hours		30

Major Support Requirements

Code	Title	Credit Hours

taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Microbiology and Plant Biology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Microbiology major requirements.

Freshman

First Semester		Credit Hours
CHEM 1315	General Chemistry	5
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I)	3
Beginning Language (Core I)		5
Credit Hours		16

Second Semester		Credit Hours
CHEM 1415	General Chemistry (Continued)	5
ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 or Expository Writing	3
Beginning Language continued (Core I)		5
First Year Experience (Core V)		3
Credit Hours		16

Sophomore

First Semester		Credit Hours
CHEM 3053	Organic Chemistry I: Biological Emphasis	3
PHYS 1311	General Physics Lab I	1
PHYS 2414	General Physics for Life Science Oriented Majors	4
P SC 1113	American Federal Government	3
Intermediate Language		3
Credit Hours		14

Second Semester		Credit Hours
BIOL 1134	Introductory Biology: Evolution, Ecology and Diversity or PBIO 1114 and General Botany	4
CHEM 3153	Organic Chemistry II: Biological Emphasis	3
CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis	2
PHYS 1321	General Physics Lab II	1
PHYS 2424	General Physics for Life Science Oriented Majors	4
Social Science (Core III)		3
Credit Hours		17

Junior

	or HSTM 3333 Technology and Society in World History	
Recommended Courses		
The following are recommended:		
A second course in Biochemistry is strongly recommended		
ECON 1113	Principles of Economics-Macro	
ECON 1123	Principles of Economics-Micro	
B AD 2113	Introduction to Business I	
Total Credit Hours		41

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education

course list published in the Class Schedule or at <http://www.ou.edu/genesed/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
	or EXPO 1213 Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>		
	Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
	Choose one course from the General Education Social Science list	3
Core Area IV: Arts and Humanities (18 hours)		
<i>Artistic Forms</i>		
	Choose one course from the General Education Artistic Forms list	3
<i>Western Culture</i>		
HIST 1483	United States to 1865	3
	or HIST 1493 United States, 1865 to the Present	
	Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)	3
<i>World Culture</i>		
	Choose one course from the General Education World Culture list	3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>		
	Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
	Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Core Area V: First Year Experience (3 hours)		
	Choose one course	3
Total Credit Hours		56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Microbiology and Plant Biology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Microbiology major requirements.

- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Microbiology and Plant Biology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Plant Biology major requirements.

Freshman

First Semester		Credit Hours
PBIO 1114	General Botany (Core II)	4

Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

Biology, Minor

Minimum Total Credit Hours: 20

Minimum Upper-Division Hours: 9

Program Code: N105

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Biology.

Required Courses

Students must successfully complete at least 20 hours of courses, including at least 15 hours of courses acceptable for major credit in Biology¹ and including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
Required Courses		
BIOL 1114	Introductory Zoology	4
BIOL 1121	Introductory Zoology Lab	1
Electives		

Choose at least 15 hours of courses acceptable for major credit in Biology, including:¹

At least nine (9) hours at the upper-division level

At least two (2) laboratory courses (or courses with laboratory components)

Total Credit Hours **20**

¹ BIOL 2124, BIOL 2234, and BIOL 2255 are acceptable for the minor although they do not meet the major credit requirement.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Microbiology, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N690

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Microbiology and Plant Biology.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Microbiology, including at least nine (9) hours at the upper-division level. Note that introductory courses are not counted toward this total.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours

Choose 21-25 hours of coursework selected in consultation with the student's advisor and committee		21-25
Total Credit Hours		30

¹ The Department of Biology requires the completion of a thesis.

- The comprehensive final examination over all of the work offered for the degree, including the thesis, is oral.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Microscopic Imaging and Technology, Graduate Certificate

Minimum Total Hours: 15

Program Code: G619

The Certificate Program in Microscopic Imaging and Technology is designed for graduate students with a strong interest in the investigation of using advanced imaging technology to characterize biological, materials and physical science specimens at a range of resolutions that can reach to a near atomic level. Students who may be interested in this certificate come from a wide range of interests (e.g., Biology, Microbiology, Plant Biology, Biomedical Engineering, Biotechnology, Chemistry, Biochemistry, Materials Sciences, Nanotechnology, Physics).

Certificate Requirements

Code	Title	Credit Hours
MBO 5364	Transmission Electron Microscopy (crosslisted with PBIO and BIOL)	4
MBO 5374	Scanning Electron Microscopy (crosslisted with PBIO and BIOL)	4

MBO 5394	Advanced Light Microscopy (crosslisted with PBIO and BIOL)	4
Choose 3 hours of Independent Research selected from a list maintained by the Department of Microbiology and Plant Biology		3
Total Credit Hours		15

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Biology, Ph.D.

Minimum Total Hours: 90

Program Code: D105 R064

Program Requirements

Code	Title	Credit Hours
Statistics		
Choose from one of the following:		3
BIOL 4913	Quantitative Biology (taken for graduate credit)	
An equivalent graduate-level statistics course as approved by advisory committee		
Biology Electives		
30+ hours of graduate-level coursework as specified by the advisory committee		30
Dissertation Research		
BIOL 6980	Research for Doctoral Dissertation (30 hours minimum)	30
Additional Coursework		
Additional courses as needed to complete 90 post-baccalaureate hours, with approval from advisory committee		27
Total Credit Hours		90

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

Cellular and Behavioral Neurobiology: Biology, Ph.D.

Minimum Total Hours: 90

Program Code: D146

Program Requirements

Code	Title	Credit Hours
BIOL 4913	Quantitative Biology (taken for graduate credit)	3
BIOL 5833	Neurobiology	3
BIOL 5871	Current Topics in Neurobiology (including two student presentations)	1
Minimum 30 hours of coursework at the 5000-6000-level		30
<i>Lab Rotations</i>		
BIOL 5990	Independent Study (2-3 lab rotations)	6-9
<i>Dissertation Research</i>		
BIOL 6980	Research for Doctoral Dissertation (minimum 30 hours)	30
<i>Additional hours</i>		
Additional coursework as needed to reach 90 post-baccalaureate credit hours, with approval of doctoral advisory committee		14-17
Total Credit Hours		90

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

Ecology and Evolutionary Biology - Botany and Microbiology, Ph.D.

Minimum Total Hours: 90

Program Code: D290

Program Requirements

Code	Title	Credit Hours
Required Courses		
MBIO/PBIO 5453		3
MBIO/PBIO 5471	Seminar in Ecology & Evolutionary Biology (including 2 presentations)	2
MBIO/PBIO 5971	Seminar in Microbiology (2 hours of 5971 taken for the master's degree may be applied)	3
Outside Courses: 3 credit hours of non-major coursework as approved by the dissertation advisory committee		3
Additional 5000 and/or 6000 level coursework		
Up to 49 hours of coursework as approved by the dissertation advisory committee. These may include transfer credits from an accredited college or university.		49
Dissertation Research		
MBIO/PBIO 6980	Research for Doctoral Dissertation (minimum 30 hours)	30
Total Credit Hours		90

NOTES:

- Students must present 2 undergraduate courses that enhance written and oral communication skills, and/or quantitative skills. Does not count towards degree program.
- Independent Research course limitations: Maximum of 6 hours with one instructor, and not more than 12 hours combined under one course number.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

Department of Chemistry and Biochemistry

John Peters, Chair
 1000 Stephenson Life Sciences Research Center
 101 Stephenson Parkway
 Norman, OK 73019-5251
 Phone: (405) 325-4811
 FAX: (405) 325-6111
chembiochemchair@ou.edu
www.ou.edu/cas/chemistry

General Information

The mission of the Department of Chemistry and Biochemistry is to serve the citizens of the State of Oklahoma and the nation through instructing our undergraduate majors, those in cognate disciplines and as part of the general education programs of the Dodge College of Arts and Sciences to understand the role of chemistry and biochemistry in the natural world, through professional training of graduate students and postdoctoral researchers, through creating and disseminating new research-based understanding of chemistry and biochemistry, through providing expert advice and consultation to educational, industrial and governmental units, and through participating in service to the university and professional communities.

Special Facilities and Programs

The Department of Chemistry and Biochemistry currently has an exchange program with the Department of Chemistry at the Technical University of Berlin. The program is open to chemistry majors in their junior or senior year. Students must have compiled a 3.25 grade point average and have had the equivalent of two years of college-level German. The department also has an exchange program with Blaise Pascal University in France for a collaborative M.S./Engineering degree.

Programs for Academic Excellence

As part of the University-wide Honors Program, the Department of Chemistry and Biochemistry offers special sections of General Chemistry and Organic Chemistry specifically designed for participants in the Honors College. Smaller class sizes allow students to receive more individualized attention.

Opportunities for Undergraduate Research

Students who show particular ability are strongly encouraged to undertake a research problem as early as possible. Research problems are available in all areas of chemistry (analytical, inorganic, organic,

physical, biochemistry, and chemical education). The research is carried out under supervision of the faculty member who agrees to direct the student's research.

Scholarships and Financial Aid

Students majoring in chemistry are eligible to apply for any of the general scholarships awarded by the University Scholarship Committee. Further information and applications for the general scholarships and other financial aid, such as Educational Opportunity Grants, may be obtained from the University of Oklahoma Office of Financial Aid Services.

Undergraduate Study

Students majoring in chemistry receive instruction, including laboratory experience, in all areas of chemistry. This provides necessary background for postgraduate studies or employment in the chemical industry or research laboratories.

Programs Offered

- Bachelor of Science - Biochemistry (p. 303)
The Biochemistry major is appropriate for premedical and pre-dental students or students with a strong interest in biomedical research. It includes advanced biochemistry coursework as well as a molecular biology course.
- Bachelor of Science - Chemistry (p. 311)
The Chemistry (Professional) major is most suitable for majors who plan to pursue a graduate degree after obtaining their baccalaureate degree. It is the most rigorous in its chemistry course requirements. The professional degree program also is a very good choice for students who begin their chemical studies unsure of their ultimate degree goal. This is because it is much easier to switch from the Professional degree program to either the Chemistry Standard or Biochemistry degree programs, even as late as the senior year, than it is to switch to the professional option from the standard option or biochemistry degree program. This degree is certified by the American Chemical Society as appropriate for students wanting to pursue graduate studies.
- Bachelor of Science - Chemistry and Biochemistry (p. 308)
The Chemistry and Biochemistry (Standard) major is the most flexible degree program offered by the department, as it allows for some choice among the advanced courses. It allows students with other interests to develop a curriculum that best suits them. The resulting degree is Bachelor of Science.
- Bachelor of Science - Chemical Biosciences (p. 306)
Aimed at students who are specifically focused on a career in a healthcare profession, the requirements overlap with the prerequisites for medical, pharmacy, dental and other health-related programs. As such, it does not adequately prepare students for a traditional graduate program in chemistry or biochemistry, but might prepare them for a graduate program in biomedical studies (depending on the entry requirements for the individual program, since these can vary). And it will not prepare students for a wide variety of careers in the chemical industry. Students would be prepared for work in medical labs and related opportunities. So students entering this program should be very focused on these types of careers and not considering a traditional graduate program in chemistry or biochemistry.
- Chemistry Minor (p. 313)
The Chemistry Minor is available to students majoring in other subjects.

Graduate Study

Master of Science Degree

The general requirements for the master's degree in the Graduate College must be met. Within these limits the student works under the supervision of the research director, the graduate liaison, and the departmental Graduate Committee.

- Chemistry and Biochemistry (p. 313)
- Chemistry: Bioinformatics (p. 314)

Thesis Option - Students interested in developing research capability in a particular area of chemistry and biochemistry usually select this option. If desired, students may take an interdisciplinary approach in their thesis.

Non-Thesis Option - This degree is generally selected by those students interested in obtaining an advanced degree in chemistry and biochemistry without research specialization.

Areas of Specialization

Students may specialize in one of the following major areas of chemistry (analytical, biological, inorganic, organic, physical and chemical education) or in any combination.

Chemistry Doctoral Programs

The Ph.D. degree in chemistry and biochemistry is awarded for excellence in research scholarship. It signifies the attainment of independently acquired and comprehensive learning attesting to general professional competence.

The Chemistry and Biochemistry Ph.D. is offered under the following concentrations:

- Analytical Chemistry (p. 315)
- Biochemistry (p. 315)
- Inorganic Chemistry (p. 316)
- Materials Chemistry (p. 316)
- Organic Chemistry (p. 317)
- Physical Chemistry (p. 317)
- Structural Biology (p. 317)

The Cellular and Behavioral Neurobiology Graduate Program is a campus-wide interdisciplinary program whose faculty members are from Biology, Aerospace & Mechanical Engineering (AME), Chemistry & Biochemistry (Chem/Biochem), Health and Exercise Science (HES), and Psychology.

- Cellular and Behavioral Neurobiology: Chemistry and Biochemistry, Ph.D. (p. 318)

Courses

CHEM 1305 Fundamentals of General Chemistry 5 Credit Hours

Prerequisite: MATH 1503 or MATH 1643 or a Math ACT score of 23 or higher. This course covers topics from both semesters of the traditional general chemistry series and is geared towards students who need only one semester of general chemistry. Topics to be covered may range from biochemistry, inorganic, organic, and environmental chemistry. Not open to students with credit for CHEM 1315, CHEM 1335, CHEM 1415, or CHEM 1435. (F) [II-NSL].

- CHEM 1315 General Chemistry 5 Credit Hours**
Prerequisite: MATH 1503 or MATH 1643, or Math ACT equal to or greater than 25. General Chemistry is an overview of the chemical basis of natural phenomena. First of a two-semester sequence in general chemistry. Topics covered: basic measurement, atomic theory, electron configuration, periodicity, chemical reactivity and energetics, stoichiometry, gas laws and changes in state, bonding and molecular structure. A student may not receive credit for this course and CHEM 1335. Laboratory. (F, Sp, Su) [II-NSL].
- CHEM 1335 General Chemistry I: Signature Course 5 Credit Hours**
Prerequisite: MATH 1503 or MATH 1643, or Math ACT equal to or greater than 25 AND 2 years high school chemistry OR AP Chemistry. General Chemistry is an overview of the chemical basis of natural phenomena. First of a two-semester sequence which prepares students for higher-level courses and research. Topics include atomic and molecular structure, chemical reactions, basic thermodynamics, properties of gases, liquids, solids and solutions, including select stoichiometric and quantitative analysis. A student may not receive credit for this course and CHEM 1315. (F, Sp) [II-NSL].
- CHEM 1415 General Chemistry (Continued) 5 Credit Hours**
Prerequisite: CHEM 1305 with a minimum grade of B or CHEM 1315 with a minimum grade of C or CHEM 1335 with a minimum grade of C or a satisfactory score on the chemistry placement examination. Topics covered include thermochemistry, equilibrium, thermodynamics, acid and base properties, kinetics and electrochemistry. A student may not receive credit for this course and CHEM 1435. Laboratory. (F, Sp, Su) [II-NSL].
- CHEM 1425 Advanced General Chemistry (HONORS) 5 Credit Hours**
Prerequisite: Admission to Honors Program; STEM major and four years of high school math and 1 year high school chemistry, or permission of instructor. Designed for STEM majors well prepared in high school chemistry and math. Topics covered at an advanced level of understanding. The topics include: nature of solutions, equilibrium, thermodynamics, acid and base properties, kinetics and electrochemistry, gas laws and changes in state, molecular structure. Laboratory. (F) [II-NSL].
- CHEM 1435 General Chemistry II: Signature Course 5 Credit Hours**
Prerequisite: grade of C or better in CHEM 1315 or CHEM 1335 or satisfactory score on the chemistry placement examination. General Chemistry is an overview of the chemical basis of natural phenomena. Second of a two-semester sequence which prepares students for higher-level courses and research. Topics include chemical kinetics and thermodynamics including calorimetry, equilibria, electrochemistry, nuclear chemistry, ionic salts, properties of acids and bases, and acid-base reactions including buffers. Students may not receive credit for 1435 and 1415. Laboratory. (F, Sp) [II-NSL].
- CHEM 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- CHEM 3005 Quantitative Analysis 5 Credit Hours**
Prerequisite: CHEM 1415 or CHEM 1425 or CHEM 1435 or equivalent. Analysis by quantitative procedures. Laboratory. (F, Sp)
- CHEM 3053 Organic Chemistry I: Biological Emphasis 3 Credit Hours**
Prerequisite: CHEM 1415 or CHEM 1425 or CHEM 1435. Intended for life science majors. First course in a two-semester sequence (3053 and 3153). This course will cover the concepts of organic structure, nomenclature, and reactivity with an emphasis on biological applications. (F, Sp, Su)
- CHEM 3064 Organic Chemistry I 4 Credit Hours**
Prerequisite: CHEM 1415 or CHEM 1425 or CHEM 1435. Intended for chemistry and biochemistry majors. First course in a two-semester sequence (3064 and 3164). This course will cover the concepts of organic structure, nomenclature, reactivity, and synthesis. The laboratory will use selected experiments to develop the fundamental techniques used in organic research including utilization of spectroscopy and to demonstrate the application of the scientific approach to laboratory work. Laboratory. (F)
- CHEM 3152 Organic Chemistry Laboratory: Biological Emphasis 2 Credit Hours**
Prerequisite: CHEM 3053 or concurrent enrollment. Intended for life science majors. Laboratory course designed to accompany CHEM 3053 and CHEM 3153. Selected experiments designed to illustrate the fundamental techniques used in organic chemistry, to develop familiarity with the properties of organic compounds and to introduce analytical techniques including spectroscopy. (F, Sp, Su)
- CHEM 3153 Organic Chemistry II: Biological Emphasis 3 Credit Hours**
Prerequisite: CHEM 3053 with a grade of C or better. Intended for life science majors. Second course in a two-semester sequence (3053 and 3153). This course will cover the concepts of organic chemical reactivity with an emphasis on carbohydrates, lipids, and proteins. (F, Sp, Su)
- CHEM 3164 Organic Chemistry II 4 Credit Hours**
Prerequisite: CHEM 3064, or both CHEM 3053 and CHEM 3152; with a grade of C or better. Intended for chemistry and biochemistry majors. Second course in a two-semester sequence (3064 and 3164). This course will continue the development of organic chemical reactivity, with an emphasis on synthesis, polymers, and biomolecules. The laboratory will use selected experiments to continue the development of techniques used in organic research with an emphasis on synthesis. Laboratory (Sp)
- CHEM 3421 Physical Chemistry Laboratory 1 Credit Hour**
Prerequisite: 3423 or concurrent enrollment. Physicochemical measurements and calculations. (F, Sp, Su)
- CHEM 3423 Physical Chemistry I 3 Credit Hours**
Prerequisite: CHEM 1415 or CHEM 1425 or CHEM 1435; MATH 2423 or MATH 2924 or concurrent enrollment. Kinetic theory of ideal gases and properties of real gases; first, second, and third laws of thermodynamics; chemical and phase equilibria; and chemical kinetics and reaction mechanisms. (F, Sp, Su)
- CHEM 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- CHEM 3451 Basic Physical Chemistry Laboratory 1 Credit Hour**
Prerequisite: 3453 or concurrent enrollment. Laboratory application of physical chemical principles and techniques. (F, Sp)
- CHEM 3453 Basic Physical Chemistry 3 Credit Hours**
Prerequisite: CHEM 1415 or CHEM 1425 or CHEM 1435; MATH 1823 or MATH 1914; PHYS 2424 or PHYS 2524. The application of physical chemical principles and methods. (F, Sp)
- CHEM 3521 Physical Chemistry Laboratory 1 Credit Hour**
Prerequisite: CHEM 3523 or concurrent enrollment and CHEM 3421 with a grade of C or better. To perform experiments which illustrate important principles in physical chemistry. (F, Sp, Su)

- CHEM 3523 Physical Chemistry II** **3 Credit Hours**
Prerequisite: 3423 with a grade of "C" or above. Continuation of 3423. Kinetics, electrochemistry, atomic and molecular states of matter, etc. (F, Sp)
- CHEM 3653 Introduction to Biochemistry** **3 Credit Hours**
Prerequisite: CHEM 3013, CHEM 3053, or CHEM 3064, with a grade of C or better. Chemistry of proteins, carbohydrates, lipids, and nucleic acids; enzyme kinetics; biochemical energetics; intermediary metabolism; regulatory processes. A Student may not receive credit for this course and CHEM 3853. (F)
- CHEM 3753 Introduction to Biochemical Methods** **3 Credit Hours**
Prerequisite: CHEM 3653 or CHEM 3853 or concurrent enrollment. A survey of current and routinely used methods in biochemistry. Students attend lecture twice weekly and a three-hour lab per week. Laboratory (Sp)
- CHEM 3853 Biochemistry I** **3 Credit Hours**
Prerequisite: CHEM 3153 or CHEM 3164 with a grade of C or better. Course 1 of a 2 course progression with focus on Biochemistry. Provides an overview of the cell as an elaborate chemical reactor. Serves as a foundation for further in-depth studies of cellular metabolism. Topics include: structure and function of major biomolecules, catalysis, energy generation, biosynthesis, and information processing. A student may not receive credit for this course and CHEM 3653. (F)
- CHEM 3953 Biochemistry II** **3 Credit Hours**
Prerequisite: CHEM 3853 with a grade of C or better, or CHEM 3653 with a grade of B or better. Course 2 of a 2 course progression with focus on Biochemistry. Topics include information metabolism, biochemical aspects of cell organization, and primary molecular biology reactions. Special emphasis on inhibition of various pathways and drug design and discovery. (Sp)
- CHEM 3960 Honors Reading** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and permission of Honors College. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- CHEM 3970 Honors Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered in this course will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)
- CHEM 3980 Honors Research** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and permission of Honors College. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- CHEM 3990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- CHEM 4023 Instrumental Methods of Chemical Analysis** **3 Credit Hours**
Prerequisite: CHEM 3005. Introduction to instrumental methods of analysis, with emphasis upon electrometric and spectroscopic techniques and instruments. Includes sampling procedures, requirements of reagents and standards, and evaluation of errors. (F)
- CHEM 4033 Instrumental Methods of Chemical Analysis Laboratory** **3 Credit Hours**
Prerequisite: 4023. Selected experiments illustrating the principles developed in 4023. Two four and a half hour laboratories per week. Laboratory (Sp)
- CHEM 4053 Culinary Chemistry and Culture in Italy** **3 Credit Hours**
Prerequisite: CHEM 1415 or CHEM 1435 with a grade of C or better. The overall objectives are to understand the chemicals in major chemical processes that occur in the production of wine, cheese, pasta, and gelato and the importance of the traditional meal in Italian culture and knowledge of the varieties of wine and cheese in Italy, making direct and integrated connections between the Organic Chemistry covered in and outside of the classroom. (Su)
- CHEM 4232 Laboratory Glassblowing** **2 Credit Hours**
Prerequisite: Departmental permission. Discussion of materials and techniques with demonstrations of procedures. Exercises will be performed in the laboratory with a special emphasis upon the different types of seals required in the construction of glass apparatus. One hour of lecture and three hours of laboratory will be scheduled each week. (F, Sp)
- CHEM 4333 Advanced Inorganic Chemistry-Periodic System** **3 Credit Hours**
Prerequisite: CHEM 3053 or CHEM 3064. A survey of all elements and important compounds based on atomic structure and position in the Periodic System; effect of atomic size, ionic size and charge on the properties of elements. Inorganic nomenclature. (F)
- CHEM 4444 Advanced Synthesis and Spectral Characterization** **4 Credit Hours**
Prerequisite: CHEM 3164, or both CHEM 3152 and CHEM 3153. Lectures cover spectroscopic analysis, thermodynamics of synthesis and fundamentals of advanced techniques, and hands-on spectroscopic identification of reaction products. Two lecture and six laboratory hours per week. Laboratory (Sp)
- CHEM 4753 Principles of Biochemistry I** **3 Credit Hours**
Prerequisite: CHEM 3153 or CHEM 3164, CHEM 3423 or CHEM 3453, CHEM 3653 or CHEM 3853 or equivalent. The first semester of a two-semester sequence covering the fundamental principles of protein structure and function, enzymology, carbohydrate and lipid metabolism, biochemical energetics, membranes, nucleic acid and protein metabolism, information transfer and the genetic code, and the interdependence of biochemical pathways. (F)
- CHEM 4913 Senior Thesis** **3 Credit Hours**
Prerequisite: permission of instructor and permission of department. Capstone Course. Research project, theoretical or experimental, to be arranged with individual faculty member, leading to a senior thesis. Each student will present an oral report in a lecture presentation or poster format to an audience of students and faculty. Laboratory (F, Sp) [V].
- CHEM 4923 Senior Project** **3 Credit Hours**
Prerequisite: Permission of instructor and permission of department. Capstone Course. Topics of current interest and importance in chemistry or biochemistry, requiring in-depth reading, extensive literature search, group work, and report writing. (F, Sp) [V].
- CHEM 4933 Current Topics in Biochemistry** **3 Credit Hours**
Prerequisite: Either CHEM 3653 or CHEM 3853; CHEM 3753; and one semester of physical chemistry with lab. Capstone course for biochemistry majors. Topics of current interest in biochemistry. Students will attend lectures and will be involved in literature search, group discussion, oral presentation, and report writing. (Sp) [V].

- CHEM 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- CHEM 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- CHEM 4980 Undergraduate Research 1-4 Credit Hours**
Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Provides an opportunity for student to work on a special project under the supervision of faculty in the student's field. (F, Sp, Su)
- CHEM 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- CHEM 5001 Practicum in General Chemistry Education 1 Credit Hour**
Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. Explores the pedagogical issues associated with teaching general chemistry at the undergraduate level. Includes administration of instruction, student and teacher behavior, goals of instruction, instructional strategies, student thinking processes, problem solving, and grading. (F)
- CHEM 5011 Fundamentals I 1 Credit Hour**
Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. Designed to provide all students entering the graduate program with the skills required to succeed in the Ph.D. program. (F)
- CHEM 5021 Fundamentals II 1 Credit Hour**
Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. Designed to provide all first-year graduate students with the skills required to succeed in the Ph.D. program. (Sp)
- CHEM 5080 Laboratory Rotations 1-2 Credit Hours**
1 to 2 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry. May be repeated; maximum credit 3 hours. Seven-week rotations per credit hour in research laboratories, normally during the first semester of graduate school. (F, Sp)
- CHEM 5090 Departmental Colloquium 0 Credit Hours**
Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. Enrollment is expected during each semester of graduate study. Oral presentations on recent developments in chemistry and biochemistry by invited speakers, faculty, advanced graduate students, and postdoctoral fellows. (F, Sp)
- CHEM 5100 Instrumental Methods of Analysis 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for the Analytical Program. Topics will provide an overview of various instrumental methods employed for qualitative and quantitative chemical analysis. (F, Sp)
- CHEM 5110 Spectroscopic Chemical Analysis 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for the Analytical Program. Theory and operation of instruments employed for optical spectroscopy. (F, Sp)
- CHEM 5120 Separation Methods 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for the Analytical Program. Basic principles underlying methods employed for chemical separations with emphasis on chromatographic methods. (F, Sp)
- CHEM 5160 Special Topics in Analytical Chemistry: Instrumentation 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5100, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Selected topics will focus on instrumentation and applications of selected chemical analysis techniques. (Irreg.)
- CHEM 5170 Special Topics in Analytical Chemistry: Methodology 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5100, or permission of the instructor. May be repeated with change in subject matter for a maximum of 12 credit hours. Selected topics will focus on details of specific methodologies employed for chemical analysis. (Irreg)
- CHEM 5180 Practicum in Analytical Chemistry 1-2 Credit Hours**
1 to 2 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5100, or permission of the instructor. May be repeated with change of content; maximum credit four hours. Study and training in practical methods relevant to analytical chemistry. (F, Sp)
- CHEM 5191 Seminar in Analytical Chemistry 1 Credit Hour**
Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated; maximum credit 12 hours. Oral presentations and discussions of topics relevant to the current state-of-the-art in analytical chemistry research. (F, Sp)
- CHEM 5200 Principles of Biochemistry 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for graduate Biochemistry Program. Fundamental principles of biomolecules, protein structure and function, enzymology, carbohydrate and lipid metabolism, nucleic acid and protein metabolism, membranes and signal transduction, expression and transmission of genetic information, and the interdependence of biochemical pathways. (F, Sp)
- CHEM 5210 Molecular Biology 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for graduate Biochemistry Program. Characteristics and biological functions of nucleic acids and proteins in living cells with emphasis on nucleic acid replication, transcription, translation and regulation; also emphasis on the molecular aspects of genetic engineering/recombinant DNA technology. (F, Sp)

- CHEM 5240 Biochemical and Biophysical Methods 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5200, or permission of the instructor. Basic principles and practical applications of the analytical and preparative techniques used in current biochemical and biophysical research. (F, Sp)
- CHEM 5260 Special Topics in Biochemistry I 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5240, or permission of the instructor. May be repeated with change of content; maximum credit 12 hours. Selected contemporary topics that investigate the frontiers of knowledge in biochemistry. (Irreg.)
- CHEM 5270 Special Topics in Biochemistry II 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5240, or permission of the instructor. May be repeated with change of content; maximum credit 12 hours. Selected contemporary topics that focus on applications of biochemical knowledge. (Irreg.)
- CHEM 5280 Practicum in Biochemistry 1-2 Credit Hours**
1 to 2 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5240, or permission of the instructor. May be repeated with change of content; maximum credit four hours. Study and training in practical methods relevant to biochemistry. (F, Sp)
- CHEM 5291 Seminar in Biochemistry 1 Credit Hour**
Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated; maximum credit 12 hours. Research seminar in which graduate students and invited speakers present and discuss current advances in biochemical research. (F, Sp)
- CHEM 5300 Intermediate Inorganic Chemistry 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Fundamental concepts and an introduction to modern inorganic chemistry. Topics may include: atomic structure and relation to properties of the elements, bonding theory, coordination and bioinorganic compounds, organometallic compounds and catalysis, symmetry and applications to spectroscopy, magnetic materials. (F, Sp)
- CHEM 5330 Advanced Inorganic Chemistry 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5300, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. For students majoring in inorganic chemistry. Selected topics for this course may include: physical and experimental methods in inorganic chemistry, modern spectroscopic methods in inorganic chemistry, bioinorganic and organometallic reactions, advanced kinetics and inorganic reaction mechanisms, catalysis, and advanced experimental design for mechanistic evaluation. (F, Sp)
- CHEM 5360 Frontiers in Inorganic Chemistry 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5300, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Selected topics concerning the theory, synthesis, reactivity and applications of inorganic and coordination compounds. Topics may include: computational chemistry, electrochemistry, metals in biology and medicine, industrial and biological main group chemistry, environmental chemistry, applications of inorganic compounds in alternative energy (nuclear cycle, hydrogen cycle, photovoltaics), and inorganic materials science (metal-organic frameworks, metallopolymers, inorganic polymers). (F, Sp)
- CHEM 5380 Practicum in Inorganic Chemistry 1-2 Credit Hours**
1 to 2 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5300, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Study and training in practical methods relevant to inorganic chemistry. (F, Sp)
- CHEM 5391 Seminar in Inorganic Chemistry 1 Credit Hour**
Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5300, or permission of instructor. May be repeated; maximum credit 12 hours. Graduate student research seminar and related activities, with a selection of topics related to research preparation and research outcomes. (F, Sp)
- CHEM 5400 Organic Chemistry I: Mechanisms and Reactivity 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for graduate Program of Study in Organic Chemistry. Introduction to the study of organic reaction mechanisms and reactivity. (F, Sp)
- CHEM 5430 Organic Chemistry II: Reactions and Synthesis 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5400, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for graduate Program of Study in Organic Chemistry. Detailed treatment of reactions used in organic synthesis and the design of synthetic strategy. (F, Sp)
- CHEM 5450 Structural Characterization of Organic Compounds 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5400, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Application of current methods to problems of structure determination in organic chemistry. (F, Sp)
- CHEM 5460 Special Topics in Chemical Reactivity and Physical Organic Chemistry 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5400, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Selected topics in the study and application of specialized chemical reaction methods. Topics may include: theoretical or computational aspects of organic chemistry; advanced study of reaction mechanisms; study and application of novel chemical methods such as photochemical methods, organometallic chemistry, chemical catalysis, reagent design and application. (Irreg.)

CHEM 5470 Special Topics in Bioorganic and Specialized Organic Compounds 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5400, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Selected topics in the study and preparation of specialized classes of organic compounds including biologically related aspects of organic chemistry. Topics may include: specialized synthesis and design strategies; medicinal chemistry; study and application of biosynthetic methods; advanced synthetic design for targeted organic compounds; study of specialized classes of compounds including natural products, medicinal compounds, bioactive compounds, polymers, functional materials and devices. (Irreg.)

CHEM 5480 Practicum in Organic Chemistry 1-2 Credit Hours

1 to 2 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5400, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Study and training in practical methods relevant to organic chemistry. Topics may include: use of modern instrumental methods for organic structural determination; acquisition and interpretation of spectral data for structural determination; optimization of measurement techniques; specialized preparative laboratory methods; specialized methods for separation and analysis of organic compounds. (F, Sp)

CHEM 5491 Seminar in Organic Chemistry 1 Credit Hour

Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5400, or permission of instructor. May be repeated; maximum credit 12 hours. Research and literature seminar for presenting and discussing a selection of topics from current literature or research in organic chemistry. (F, Sp)

CHEM 5500 Topics in Quantum Chemistry 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 6 hours. Review of classical mechanics; introduction to wave mechanics and applications to atoms and molecules. This is a core course for graduate majors. (F, Sp)

CHEM 5530 Topics in Statistical Thermodynamics 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5500 or concurrent enrollment, or permission of the instructor. May be repeated with change of content; maximum credit 6 hours. Chemical thermodynamics, statistical thermodynamics, chemical kinetics, applications of quantum chemistry, structure of matter. This is a core course for graduate majors. (F, Sp)

CHEM 5570 Selected Topics in Physical Chemistry 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5500 or CHEM 5520, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Studies in special areas of physical chemistry not covered in the regular course curriculum. (F, Sp)

CHEM 5580 Practicum in Physical Chemistry 1-2 Credit Hours

1 to 2 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5500 or CHEM 5520, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Study and training in practical methods relevant to physical chemistry. (F, Sp)

CHEM 5591 Seminar in Physical Chemistry 1 Credit Hour

Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5500 or CHEM 5520, or permission of instructor. May be repeated; maximum credit 12 hours. Participation is required of all graduate students majoring in physical chemistry. Research seminar, with a selection of topics from current or projected research at the University of Oklahoma. Discussion of contemporary topics in physical chemistry and related disciplines. (F, Sp)

CHEM 5730 Macromolecular Crystallography 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5210, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Principles of diffraction, symmetry, reciprocal space, data collection, data reduction and absorption corrections; methods for structure solution and refinement; and interpretation of data and limitations thereof. (F, Sp)

CHEM 5750 Macromolecular Structure and Function 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5200, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Principles of protein architecture and levels of organization, nucleic acid structure, functional roles of intermolecular interactions, structure-function in protein and nucleic acid complexes. (F, Sp)

CHEM 5760 Special Topics in Structural Biology 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5200, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Content may include the structural basis of signal transduction, structural dynamics, computational methods for biological macromolecules, microscopy, structural basis for gene regulation, and structure-guided drug discovery and design. (Irreg.)

CHEM 5780 Practicum in Structural Biology 1-2 Credit Hours

1 to 2 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5730 or CHEM 5740, or permission of instructor. May be repeated; maximum credit four hours. The X-ray practicum (prerequisite: 5730) includes crystallization, advanced checkout and operation of X-ray diffractometers, data collection using research samples, structure solution and refinement, and evaluation of crystal structure quality. The NMR practicum (prerequisite: 5740) includes sample preparation of biological macromolecule on a research sample, advanced checkout and operation of NMR spectrometers, structure determination and dynamics, and evaluation of structure quality. (F, Sp)

CHEM 5960 Directed Readings in Chemistry 1-2 Credit Hours

1 to 2 hours. Prerequisite: permission. May be repeated with change of content; maximum credit six hours. Selected from topics of current interest in any of the areas of chemistry. (F, Sp, Su)

CHEM 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CHEM 5980 Research for Master's Thesis 2-9 Credit Hours

Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

CHEM 5990 Independent Studies 1-3 Credit Hours

1 to 3 hours. May be repeated with change of subject matter; maximum credit nine hours. Staff members in the student's field of interest supervise research and/or library studies which closes gaps in student's training or builds on this training in specialized areas. (F, Sp, Su)

CHEM 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

CHEM 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

CHEM 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Ashby	Michael	T	1990	DAVID ROSS BOYD PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016	PhD, Univ of Arizona, 1988; BS, Univ of Arizona, 1982
Biggs	Robyn		2013	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2013	PhD, Univ of Ottawa, 2013; BS, Univ of Ottawa, 2009
Bourne	Christina		2014	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2014	PhD, Univ of Oklahoma, 2003; BS, Univ of Oklahoma, 1997
Burgett	Anthony	W	2012	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2012	PhD, Univ of Texas Southwest Med Ctr, 2006; BS, Univ of Oklahoma, 1999
Cao	Binrui		2016	RESEARCH ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016	PhD, Univ of Oklahoma, 2010; BS, Univ of Science & Tech, 2005
Cichewicz	Robert	H	2005	REGENTS' PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2012; PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2014	PhD, Michigan State Univ, 2002; MS, Univ of Louisiana at Monroe, 1999; BS, Grand Valley State Univ, 1994
Clifford	Laura	J	2005	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2005	PhD, Michigan State Univ, 2002; MS, Iowa State Univ, 1998; BS, Iowa State Univ, 1994
Du	Lin		2015	RESEARCH ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2015	PhD, Ocean Univ of China, 2009; BS, Ocean Univ of China, 2004

Duerfeldt	Adam	S	2014	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2014	PhD, Univ of Kansas, 2011; BA, Central College, 2006
Glatzhofer	Daniel	T	1988	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2004; PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2005; DAVID ROSS BOYD PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2015	PhD Univ of Michigan, 1984; MS, Univ of Michigan, 1982; BS, Denison, 1979
Halterman	Ronald	L	1991	PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 1995	PhD, Univ of California Berkeley, 1985; BS, University of California Riverside, 1980
Hansmann	Ulrich	H E	2011	PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2011	PhD, Freie Universitat Berlin, 1990; MS, Freie Universitat Berlin, 1985; MA, Freie Universitat Berlin, 1983
Kothapalli	Naga Rama		2013	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2017	PhD Univ of Nebraska, 2006; MS, Univ of Mumbai, 2000; BS, Univ of Mumbai, 1998
Liu	Shaorong		2008	PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2008	PhD, Texas Tech Univ 1995; M Eng, Peking Univ, 1985; BS, Huazhong Normal Univ, 1982
Mao	Chuanbin		2005	EDITH KINNEY GAYLORD PRESIDENTIAL PROFESSOR, 2010; GEORGE LYNN CROSS RESEARCH PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2015	PhD, Northeastern Univ, 1997; BS, Northeastern Univ, 1992
McCall	Laura-Isobel		2017	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2017; ADJUNCT ASSISTANT PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY, 2018	PhD, McGill Univ, 2013
Menon	Smita	K	2014	RESEARCH ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2014	PhD, Montana State Univ, 2009; MS, Univ of Mumbai, 2000
Morvant	Mark	C	2006	PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2012; ASSOCIATE PROVOST, TEACHING AND TECHNOLOGY, 2014; SENIOR FELLOW, DUNHAM COLLEGE, 2017	PhD, Univ of Oklahoma, 1996; BS, Tarleton State Univ, 1990

Nelson	Donna	J	1983	PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2010	PhD, Univ of Texas, 1979; BS, Univ of Oklahoma, 1974
Odeleye	Oluwatobi		2017	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2017	PhD, South Dakota State Univ, 2017; MS, Eastern Michigan Univ, 2013; BS, Eastern Michigan Univ, 2011
Petrushenko	Zoya	M	2001	RESEARCH ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2010	PhD, Kiev State Univ, 1989
Qiu	Penghe		2005	RESEARCH ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016	PhD, Univ of Oklahoma, 2010; BS, Univ of Science & Tech, 2004
Rajan	Rakhi		2014	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2014	PhD, Ohio State Univ, 2007; MS, Tamil Nadu Agricultural Univ, 2000; BS, Kerala Agricultural Univ, 1998
Rice	Charles	V	2002	ASSOCIATE PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2008; ADJUNCT ASSOCIATE PROFESSOR OF FRESHMAN PROGRAMS, 2015	PhD, Purdue Univ, 2000; MS, Illinois State, 1995; BS, Illinois State, 1993
Richter-Addo	George	B	1993	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2000; PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2001; ADJUNCT PROFESSOR OF FRESHMAN PROGRAMS, 2015; GEORGE LYNN CROSS RESEARCH PROFESSOR, 2017	PhD, Univ of British Columbia, 1988; BS, Univ of Cape Coast, 1982
Rybenkov	Valentin	V	2000	PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016	PhD, Moscow Inst of Physics & Tech, 1992; MS, Moscow Inst of Physics & Tech, 1989
Saparov	Bayrammurad		2016	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016	PhD, Univ of Delaware, 2011; Diploma, Lomonosov Moscow State Univ, 2006
Schroeder	Susan	J	2010	ASSOCIATE PROFESSOR OF MICROBIOLOGY AND PLANT BIOLOGY; ASSOCIATE PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY	Ph.D., University of Rochester, 2002; B.S., University of Rochester, 1995
Shao	Yihan		2016	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016	PhD, Univ of California, 2002; BS, Nanjing Univ, 1993
Sharma	Indrajeet		2014	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2014	PhD, Wayne State Univ, 2011; MS, Indian Inst of Tech, 2006; BS, Univ of Delhi, 2004
Sims	Paul	A	2007	ASSOCIATE PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2013	PhD, Univ of Wisconsin, 2005; MS, Colorado State Univ, 1999; BA, Adams State College, 1994; BA, Adams State College, 1989
Singh	Shanteri		2015	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2015	PhD, Tata Inst of Fundamnt Research, 1996; BS, Mangalore Univ, 1990
West	Ann	H	1996	EDITH GAYLORD HARPER PRESIDENTIAL PROFESSOR, 2001; PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016; JOSEPH BRANDT PROFESSOR, 2008; GRAYCE B. KERR CENTENNIAL CHAIR, 2015	PhD, Yale Univ, 1991; BA, Wesleyan Univ, 1983
White	Robert	L	1985	PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 1998	PhD, Univ of Nebraska, 1982; BS, Purdue Univ, 1978
Wu	Si		2015	ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2015	PhD, Washington State Univ, 2006; BS, Anhui Univ, 1997
Yang	Zhibo		2012	ASSOCIATE PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2018	PhD, Wayne State Univ, 2005; MS, Univ of Sci & Tech, 2000; BS, Univ of Sci & Tech, 1997
Yip	Wai Tak		2000	ASSOCIATE PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2006	PhD, Univ of Chicago, 1996; BS, Univ of Hong Kong, 1989
You	JianLan		2011	RESEARCH ASSISTANT PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2016	PhD, Sun Yat-Sen Univ of Med Sci, 2005; BS, Sun Yat-Sen Univ of Med Sci, 2000
Zgurskaya	Elena	I	2000	PROFESSOR OF CHEMISTRY AND BIOCHEMISTRY, 2010	PhD, Russian Acad of Science, 1992; BS, Dnipropetrovsk State, 1989

Biochemistry, B.S.

Minimum Total Credit Hours: 120

Major Hours: 33

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B100

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- A grade of C or better must be earned in each Chemistry course presented for major credit. No grade below a C made in Chemistry courses at the upper-division level may be made up elsewhere without prior written approval by the OU Chemistry Department.
- The introductory CHEM courses (CHEM 1315, CHEM 1335, CHEM 1415, CHEM 1425, & CHEM 1435) do not count towards the 33 required major hours.

Code	Title	Credit Hours
Major Requirements		
CHEM 1315	General Chemistry	
	or CHEM 1335 General Chemistry I: Signature Course	
Choose one of the following:		
CHEM 1415	General Chemistry (Continued)	
CHEM 1425	Advanced General Chemistry (HONORS)	
CHEM 1435	General Chemistry II: Signature Course	
Choose one of the following groups:		8
Group A:		
CHEM 3064	Organic Chemistry I	
CHEM 3164	Organic Chemistry II	
Group B:		
CHEM 3053	Organic Chemistry I: Biological Emphasis	
CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis	
CHEM 3153	Organic Chemistry II: Biological Emphasis	
CHEM 3005	Quantitative Analysis	5
CHEM 3421	Physical Chemistry Laboratory	1
CHEM 3423	Physical Chemistry I	3
CHEM 3521	Physical Chemistry Laboratory	1
CHEM 3523	Physical Chemistry II	3
CHEM 3753	Introduction to Biochemical Methods	3
CHEM 3853	Biochemistry I	3
CHEM 3953	Biochemistry II	3
BIOL/MBIO/PBIO 4843	Molecular Biology	3
Total Credit Hours		33

Major Support Requirements

Code	Title	Credit Hours
Math		
MATH 1823	Calculus and Analytic Geometry I	3-4
	or MATH 1914 Differential and Integral Calculus I	
MATH 2423	Calculus and Analytic Geometry II	3-4
	or MATH 2924 Differential and Integral Calculus II	
Physics		
Choose one of the following:		8

PHYS 2414 & PHYS 2424	General Physics for Life Science Oriented Majors and General Physics for Life Science Oriented Majors
PHYS 2514 & PHYS 2524	General Physics for Engineering and Science Majors and General Physics for Engineering and Science Majors

Total Credit Hours 14-16

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/ged/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3

Choose one course	3
Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge

College of Arts and Sciences and/or Department of Chemistry and Biochemistry academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Biochemistry major requirements.

Freshman

& PHYS 1311 Science Majors
and General Physics Lab I

PHYS 2524 General Physics for Engineering and
& PHYS 1321 Science Majors
and General Physics Lab II

Total Credit Hours 16-18

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/geded/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
------	-------	--------------

Core Area I: Symbolic and Oral Communication

English Composition (6 hours)

ENGL 1113 Principles of English Composition 3

ENGL 1213 Principles of English Composition 3
or EXPO 1213 Expository Writing

Language (0-13 hours in the same language)

The college requirement cannot be met by high school coursework.

Beginning Course 0-5

Beginning Course, continued 0-5

Intermediate Course (2000 level) ^{1,2} 0-3

<i>Mathematics (3 hours)</i>	
Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)	
<i>Biological Science</i>	
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>	
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)	
P SC 1113 American Federal Government	3
Choose one course from the General Education Social Science list	3
Core Area IV: Arts and Humanities (18 hours)	
<i>Artistic Forms</i>	
Choose one course from the General Education Artistic Forms list	3
<i>Western Culture</i>	
HIST 1483 United States to 1865 or HIST 1493 United States, 1865 to the Present	3
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)	3
<i>World Culture</i>	
Choose one course from the General Education World Culture list	3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>	
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Core Area V: First Year Experience (3 hours)	
Choose one course	3
Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Chemistry and Biochemistry academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Chemistry and Biochemistry major requirements.

Freshman

First Semester	Credit Hours
CHEM 1315 General Chemistry or CHEM 1335 or General Chemistry I: Signature Course	5
ENGL 1113 Principles of English Composition (Core I)	3
MATH 1823 Calculus and Analytic Geometry I (Core I) or MATH 1914 or Differential and Integral Calculus I	3-4
First Year Experience (Core V)	3
Credit Hours	14

Second Semester

Choose one of the following:	5
CHEM 1415 General Chemistry (Continued)	
CHEM 1425 Advanced General Chemistry (HONORS)	
CHEM 1435 General Chemistry II: Signature Course	
ENGL 1213 Principles of English Composition (Core I) or EXPO 1213 or Expository Writing	3
MATH 2423 Calculus and Analytic Geometry II or MATH 2924 or Differential and Integral Calculus II	3-4
Artistic Forms (Core IV)	3
Credit Hours	14

Sophomore

First Semester	
CHEM 3064 Organic Chemistry I	4

PHYS 2514 or PHYS 2414	General Physics for Engineering and Science Majors or General Physics for Life Science Oriented Majors	4
PHYS 1311	General Physics Lab I	1
Biological Science without lab (Core II)		3
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
Credit Hours		15

Second Semester

CHEM 3005	Quantitative Analysis	5
CHEM 3164	Organic Chemistry II	4
PHYS 2524 or PHYS 2424	General Physics for Engineering and Science Majors or General Physics for Life Science Oriented Majors	4
PHYS 1321	General Physics Lab II	1
World Culture (Core IV)		3
Credit Hours		17

Junior**First Semester**

CHEM 3421	Physical Chemistry Laboratory	1
CHEM 3423	Physical Chemistry I	3
CHEM 4023	Instrumental Methods of Chemical Analysis	3
Western Culture (Core IV)		3
Beginning Language (Core I)		5
Credit Hours		15

Second Semester

CHEM 3521	Physical Chemistry Laboratory	1
CHEM 3523	Physical Chemistry II	3
CHEM 4033	Instrumental Methods of Chemical Analysis Laboratory	3
P SC 1113	American Federal Government (Core III)	3
Beginning Language continued (Core I)		5
Credit Hours		15

Senior**First Semester**

CHEM 3653	Introduction to Biochemistry	3
CHEM 4333	Advanced Inorganic Chemistry-Periodic System	3
CHEM 4444	Advanced Synthesis and Spectral Characterization	4
Arts & Humanities, upper-division, outside major (Gen. Ed.)		3
Intermediate Language		3
Credit Hours		16

Second Semester

Social Science (Core III)		3
Arts & Humanities, upper-division, outside major (Gen. Ed.)		3
Free Elective, upper-division (3000-4000-level)		2
Free Elective, lower- or upper-division		3

Free Elective, lower- or upper-division	3
Credit Hours	14
Total Credit Hours	120

¹ CHEM 4913, CHEM 4923, and CHEM 4933 are not all offered every semester. Students should plan accordingly.

Chemistry, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 15

Program Code: N175

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Chemistry and Biochemistry.

Required Courses

Students must successfully complete at least 15 hours of upper-division course work acceptable for major credit in Chemistry. No more than three (3) hours may be completed through Independent Study (CHEM 3990 or CHEM 4990). CHEM 4232, does **not** apply toward the Chemistry major or minor.

Code	Title	Credit Hours
Choose 15 hours of upper-division course work acceptable for major credit in Chemistry ¹		15
Total Credit Hours		15

¹ No more than three (3) hours may be completed through Independent Study (CHEM 3990 or CHEM 4990). CHEM 4232 does **not** apply toward the Chemistry major or minor.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Chemistry & Biochemistry, M.S.

Minimum Total Hours (Thesis): 30

Minimum Total Hours (Non-Thesis): 32

Program Code: M170 Q101

Thesis Option

Code	Title	Credit Hours
Choose at least 14 hours in letter graded CHEM courses at the 5XYZ level (X ≠ 0, Y = 0-8). These courses must be from at least two different disciplinary areas (different Xs)		14
CHEM 5980	Research for Master's Thesis	2-6
Choose the remainder of the 30 required hours from the following:		10-14
CHEM 5011	Fundamentals I	
CHEM 5021	Fundamentals II	
CHEM 5080	Laboratory Rotations	
CHEM 5960	Directed Readings in Chemistry	
CHEM 5990	Independent Studies ¹	
Disciplinary Seminars (CHEM 5X91)		
Any other courses carrying graduate credit		
Total Credit Hours		30

¹ Up to 9 hours may be taken as CHEM 5990.

Non-Thesis Option

Code	Title	Credit Hours
Choose at least 16 hours in letter graded CHEM courses at the 5XYZ level (X ≠ 0, Y = 0-8). These courses must be from at least two different disciplinary areas (different Xs)		16
Choose the remainder of the 32 required hours from any combination of the following:		16
CHEM 5011	Fundamentals I	
CHEM 5021	Fundamentals II	
CHEM 5080	Laboratory Rotations	
CHEM 5960	Directed Readings in Chemistry	
CHEM 5990	Independent Studies ¹	
Disciplinary Seminars (CHEM 5X91)		
Any other courses carrying graduate credit		
Total Credit Hours		32

¹ Up to 8 hours may be taken as CHEM 5990.

Notes

- A maximum of two core courses may be taken in department(s) outside of the Department of Chemistry as substitution(s); however, all outside courses must be approved in writing by the departmental graduate committee and must be written as such on the candidacy form.
- All graduate students must also enroll and participate in the Departmental Colloquium, CHEM 5090, for zero credit hours (these do not have to be on the candidacy form) throughout the entire period of their graduate studies (excluding summer semesters).

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Chemistry: Bioinformatics, M.S.

Minimum Total Hours (Thesis): 36

Minimum Total Hours (Non-Thesis): 38

Program Code: M170 Q061

Thesis Option

Code	Title	Credit Hours
Required Courses		
BIOL 5903	Topics in Virology	3
BIOL 5913		3
Core Courses		
Select a minimum of fifteen hours in lecture courses at the 5/6000 level selected from at least two of the five divisions of Chemistry and Biochemistry (Analytical, Biochemistry, Inorganic, Organic and Physical)		15
Thesis		
CHEM 5980	Research for Master's Thesis	6
Electives		
Choose any other graduate level courses, as approved by the graduate liason		9
Total Credit Hours		36

- The comprehensive final examination over all of the work offered for the degree, including the thesis, is oral.*

Non-Thesis Option

Code	Title	Credit Hours
Required Courses		
BIOL 5903	Topics in Virology	3
BIOL 5913		3

Core Courses

Choose a minimum of twenty-one hours in lecture courses at the 5/6000 level selected from at least three of the five divisions of Chemistry and Biochemistry (Analytical, Biochemistry, Inorganic, Organic and Physical): 21

No more than six of the hours may be taken at the 4000G level

At least one three hour lecture course from the three divisions must be taken at the 5/6000 level

Electives

Choose any other graduate level courses, as approved by the graduate liason 11

Total Credit Hours 38

Notes

- A maximum of two core courses may be taken in department(s) outside of the Department of Chemistry as substitution(s); however, all outside courses must be approved in writing by the departmental graduate committee and must be written as such on the candidacy form.
- A maximum of nine hours of Independent Study, CHEM 5990, may be applied to the master's degree.
- All graduate students must also enroll and participate in the Departmental Colloquium, CHEM 5090, for zero credit hours (these do not have to be on the candidacy form) throughout the entire period of their graduate studies (excluding summer semesters).
- Bioinformatics students are required to take at least two courses from non-host departments. The two bioinformatics courses (BIOL 5903 and BIOL 5913) may not be used to satisfy the non-host department requirement.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Chemistry and Biochemistry: Analytical Chemistry, Ph.D.

Minimum Total Credit Hours: 90

Program Code: D170 R034

Program Requirements

- Continuous enrollment in CHEM 5090 Departmental Colloquium is required for all Doctoral students.

Code	Title	Credit Hours
------	-------	--------------

Required Coursework

CHEM 5011	Fundamentals I	1
CHEM 5021	Fundamentals II	1
CHEM 5080	Laboratory Rotations	2
CHEM 5191	Seminar in Analytical Chemistry (Continuous enrollment, up to 12 credit hours, is required after the first semester)	1-12

Core Courses

CHEM 5100	Instrumental Methods of Analysis	2
CHEM 5110	Spectroscopic Chemical Analysis	3
CHEM 5120	Separation Methods	3

Dissertation Research

CHEM 6980	Research for Doctoral Dissertation (minimum 2 credits)	2
-----------	--	---

Elective Coursework

Electives as approved by doctoral advisory committee to bring student to 90 post-baccalaureate hours. This may include up to 9 credits of CHEM 5990, Independent Study or up to 6 credits CHEM 5960, Directed Readings in Chemistry. ¹

Total Credit Hours 90

¹ The total number of letter-graded hours of Core and Electives combined must total at least 16 hours.

The additional coursework may include other concentrations in CHEM; out-of-department coursework; or transfer credits from an accredited college or university.

At least 1 course (2 credit hours) must come from within the department (CHEM), but from a concentration outside the student's core courses.

Chemistry and Biochemistry: Biochemistry, Ph.D.

Minimum Total Hours: 90

Program Code: D170 R058

Program Requirements

- Continuous enrollment in CHEM 5090 Departmental Colloquium is required for all Doctoral students.

Code	Title	Credit Hours
Required Coursework		
CHEM 5011	Fundamentals I	1
CHEM 5021	Fundamentals II	1
CHEM 5080	Laboratory Rotations	2
CHEM 5291	Seminar in Biochemistry (Continuous enrollment, up to 12 credit hours, is required after the first semester)	1-12
Core Courses		
CHEM 5200	Principles of Biochemistry	2
CHEM 5210	Molecular Biology	2
CHEM 5240	Biochemical and Biophysical Methods	2
Dissertation Research		
CHEM 6980	Research for Doctoral Dissertation (minimum 2 credits)	2
Elective Coursework		
Electives as approved by doctoral advisory committee to bring student to 90 post-baccalaureate hours. This may include up to 9 credits of CHEM 5990, Independent Study or up to 6 credits CHEM 5960, Directed Readings in Chemistry. ¹		66-77
Total Credit Hours		90

¹ The total number of letter-graded hours of Core and Electives combined must total at least 16 hours.

The additional coursework may include other concentrations in CHEM; out-of-department coursework; or transfer credits from an accredited college or university.

At least 1 course (2 credit hours) must come from within the department (CHEM), but from a concentration outside the student's core courses. The Structural Biology concentration (57YZ, except CHEM 5730 - Macromolecular Crystallography) cannot fulfill this 1 course requirement, but can fill other elective hours.

Chemistry and Biochemistry: Inorganic Chemistry, Ph.D.

Minimum Total Hours: 90

Program Code: D170 R354

Program Requirements

- Continuous enrollment in CHEM 5090 Departmental Colloquium is required for all Doctoral students.

Code	Title	Credit Hours
Required Coursework		
CHEM 5011	Fundamentals I	1
CHEM 5021	Fundamentals II	1

Additional Coursework

Additional coursework as needed to reach 90 post-baccalaureate hours, with approval of advisory committee		17-20
---	--	-------

Total Credit Hours 90

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

General Information

History

In keeping with the wisdom and tradition of placing the study of ancient Greece and Rome at the heart of a strong curriculum the liberal arts and

sciences, President David Ross Boyd selected a classicist, William N. Rice, as the first member of the University of Oklahoma's faculty in 1890.

Rice's successor, Joseph Paxton, wrote the university's motto, *Civi et Reipublicae* ("for the benefit of the citizen and the state"), stating *in nuce* the university's institutional mission of providing the "best possible educational experience for our students through excellence in teaching, research and creative activity, and service to the state and society."

From the Athenian drachma and the Roman sestertius featured above the south doorway of Adams Hall, to the Ionic columns on the front of the Boyd House, the Classical tradition has always been an important part of the University of Oklahoma, and the Department of Classics and Letters has always supported the University's mission through research and teaching in the languages and cultures of ancient Greece and Rome and their enduring influence on the modern world.

In 1937, the School of Letters was organized to "provide systematic instruction in ancient and modern languages, history, philosophy and comparative literature," (*Oklahoma Daily*, August 4, 1937).

A few years later, the School of Letters became a planned program of the College of Arts and Sciences, under the guidance of a committee of faculty members from the core departments of Classics, English, History, Modern Languages, and Philosophy. In 1953, under the direction of Philip J. Nolan, the Classics Department became the administrative home of the Letters program. Since then, the Chair of the Department of Classics also serves as the Director of the Letters program.

To reflect the department's long-standing commitment to the Letters program and the outstanding job it has done administering it, the department's name was changed to the Department of Classics and Letters in 1996.

In 2009, President David L. Boren established the Institute for the American Constitutional Heritage (IACH) within the Department of Classics and Letters because he wanted the IACH to promote an interdisciplinary, humanistic approach to the study of the Constitution and constitutionalism.

From its earliest days, the Department of Classics and Letters has supported, and continues to support, OU's institutional mission by promoting free inquiry and the perpetuation of the humanistic tradition.

Mission

Through teaching, scholarly and creative activity, and service, the Department of Classics and Letters seeks to preserve and promote the study of the culture, history, languages, literature, and philosophy of Greco-Roman antiquity and the enduring influence of Classical ideals on the modern world.

Expanded Statement of Institutional Purpose

The principal mission of the Department of Classics and Letters' curricular program is to provide a traditional liberal arts education that will prepare students to adapt to a variety of settings after graduation. Our programs are based upon the assumption that cultivated intelligence, good judgment, and artistic expression in speech and writing are desirable in and for themselves.

Goals

To build on the strength and reputation for excellence that the department has enjoyed since the earliest history of the University of Oklahoma, our goals are:

- To advance scholarship in the humanities through research, presentations, publication, and creative activity.
- To support and promote the University's educational mission by creating and offering courses not only in the College of Arts & Sciences' general education program, but also in specialized areas of study in support of the department's major and minor programs.
- To promote wider interest in the humanities through public lectures, presentations, and other outreach events.

Research

Faculty members in the Department of Classics and Letters are actively engaged in the research mission of the University. Faculty members' scholarship reflects the department's diverse range of scholarly interests, which include digital humanities, history, language, literature, philosophy, politics, and religion.

Classics and Letters majors have many opportunities for participating in research initiatives with faculty in the department, including Honors Reading, Honors Research, and Mentored Undergraduate Research. Students interested in these opportunities should contact professors or speak with the department's academic advisor.

Scholarships and Financial Aid

The Department of Classics and Letters annually awards scholarships to our outstanding junior and senior majors. The scholarships are open to Letters or Classics majors who have accrued 60 hours (including hours tested out of) and a minimum 3.5 GPA. Some scholarships are for Letters majors only; some for Letters or Classics majors, some for study abroad; one is reserved for students pursuing a teaching career in Latin.

The Peggy Chambers Scholarship

Established by an OU alumnus in recognition of Peggy Chambers' outstanding contributions to the Classics and Letters programs. Awarded to outstanding junior or senior Letters major. Number and stipend varies.

The Charles and Julie Daniels Study Abroad Scholarship

Established by a Letters alumna and her husband, both graduates of the University of Oklahoma, for study abroad scholarships. Awarded to outstanding junior or senior Letters major. Number and stipend varies.

The Philip J. Nolan Scholarship

Established by a former student of Philip Nolan. Awarded to outstanding junior or senior Letters major. Number and stipend varies.

The Philip Nolan Memorial Scholarship

Established by the former students, colleagues and friends of Dr. Philip Nolan. Awarded to outstanding senior Letters or major Classics. Number and stipend varies.

The Mary Enod Williams Scholarship

Established by Charles Williams for his mother, Mary Enod Williams a long time public school teacher who graduated from OU with a degree in Latin. Awarded to outstanding Letters or Classics major. Stipend varies.

The Jean Herrick Scholarship

Jean Herrick was a long time member of the Classics Faculty. Awarded annually to a senior Classics major who intends to pursue a teaching career in Latin.

The Danney Glenn Goble Memorial Scholarship

Established by family and friends in memory of Dr. Goble, distinguished teacher and scholar. Any eligible deserving undergraduate Letters major is qualified for either an initial award or a subsequent award if, in the opinion of the selection committee, the student is making satisfactory progress toward graduation and the student needs supplemental financial assistance. For purposes of this scholarship, satisfactory progress shall be deemed to be the achievement of and maintenance of at least a 3.0 overall grade point average on a 4.0 scale.

The Cheryl Walker-Esbaugh Scholarship

Established by an OU alumnus in recognition of Cheryl Walker-Esbaugh's outstanding contributions to the Classics and Letters programs. Awarded to a junior or senior Classics or Letters major with financial need.

The J. Rufus Fears Scholarship

J. Rufus Fears was an exceptionally gifted and respected teacher of Classics at the University of Oklahoma who influenced the lives and shaped the careers of many students. This award was established by donors to recognize Dr. Fears' many contributions to the University of Oklahoma, the immediate community and the state. The Fears Scholarship is for deserving Letters or Classics majors with financial need who have maintained a minimum 3.0 GPA.

The John H. Hanzen Prize for Future Teachers of Latin

This scholarship was established by John Hansen, an instructor in the Department of Classics and Latin, in honor of his father. This prize is awarded to students who have demonstrated a commitment to the teaching of Latin at the high school level in Oklahoma.

The Jack Catlin Scholarship

This scholarship was established by the many students, friends, and colleagues of John S. Catlin, who was chair of the Department of Classics and Letters for over two decades. During that time he taught and advised countless students, and this scholarship honors his devotion to them. This scholarship is awarded to a junior or senior Classics or Letters major with financial need.

The Walker Family Endowed Scholarship

This scholarship was established by Luke Walker (Letters 1994) and his family for deserving Classics or Letters majors who intend to go into a scientific or medical field, including public health and public health policy.

Undergraduate Study

Bachelor of Arts

- **Classical Studies (p. 330):** The Classical Studies major is a traditional liberal arts major for undergraduates with an interest in ancient Greece and Rome. This option is ideal for students who have an interest in ancient Greece and Rome but do not wish to pursue the training in the Greek and Latin languages necessary for admission to graduate school in Classics. With the exception of the required courses in either Latin or Greek, the course materials are in English.
- **Classical Languages (p. 328):** Classical Languages students pursue a more traditional curriculum that emphasizes the study of the Greek and Latin languages. This option is ideal for preparing students to enter upon advanced study in graduate school or seminary, but it will also benefit those desiring solid training in the liberal arts for a variety of careers, such as law, medicine, business, education and government. Students who select this option study both Greek and

Latin literature in the original languages and in translation, and they also take courses on all aspects of the ancient world.

- **Latin (p. 333):** The Latin degree option is intended for those who wish to teach Latin at the high school level.
- **Letters (p. 335):** The Letters degree is interdisciplinary, and the curriculum is flexible enough to accommodate most students' interests. The program is based upon the assumption that cultivated intelligence, good judgment, and artistic expression in speech and writing are desirable in and for themselves. The Letters major provides an excellent preparation for advanced study in a variety of academic disciplines.
- **Constitutional Studies (p. 337):** Letters students may pursue a concentration in Constitutional Studies under the supervision of the Institute for the American Constitutional Heritage.

Minors

- **Classical Culture Minor (p. 342)**
- **Classical Greek Minor (p. 342)**
- **Constitutional Studies Minor (p. 342)**
- **Latin Minor (p. 343)**

Courses

CL C 1123 Gods and Heroes in Art 3 Credit Hours

Students will be introduced to stories of ancient gods, goddesses, heroes, and lovers as they have been depicted by various art forms through the ages. Examples of these art forms will include sculptures, mosaics, frescoes, paintings, theater, and motion pictures. Through exposure to a variety of art, students will craft educated opinions about artistic works, both ancient and modern. (F, Sp) [IV-AF].

CL C 1133 The Roman War Machine 3 Credit Hours

This course examines the history and archaeology of the Roman army in times of war and peace, and in doing so provides an introduction to ancient history, classical studies, and Mediterranean archaeology. Drawing on a diverse range of materials, including art, artifacts, and primary source documents, this course explores warfare from Pre-Roman times to Late Antiquity. (F, Sp)

CL C 2143 Women in Antiquity 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Survey of the roles of women in Ancient Greece from the Bronze Age through the Hellenistic Period. Primary and secondary sources are utilized to provide students with both a literary and historical perspective of women in this time frame. (Ireg.)

CL C 2213 Introduction to Classical Archaeology 3 Credit Hours

Introductory survey of the archaeological discovery of the ancient civilizations of the Near and Middle East and the Mediterranean World, including the Mesopotamian, Egyptian, Hebrew, Roman, Minoan, Mycenaean, and Greek civilizations. Attention is given to principal sites for each civilization, their discovery, and the techniques and methodology of classical archaeology. (F, Sp) [IV-WC].

CL C 2383 Classical Mythology 3 Credit Hours

Lectures, with assigned readings. The origin and development of Greek and Roman myths indispensable for the understanding of ancient and modern literature; with allusion to their influence on art and religion. (F, Sp, Su) [IV-WC].

- CL C 2413 Medical Vocabulary 3 Credit Hours**
Prerequisite: sophomore standing. Designed to be of special use to students of the biological sciences. Study of basic Greek and Latin elements of medical terminology through the analysis of select vocabularies and word lists. (F, Sp, Su)
- CL C 2603 The Rise and Fall of Greece 3 Credit Hours**
Prerequisite: English 1213/Expository Writing 1213. Traces the development of the democratic ideal in Greece through the classical period. Aspects of culture such as literature, religion, art and architecture, education, science and technology, intellectual life and the role of women are emphasized. (F) [IV-WC].
- CL C 2613 The Rise and Fall of Rome 3 Credit Hours**
Prerequisite: English 1213/Expository Writing 1213. Examines the development and dissemination of Roman civilization in ancient times and its influence on the modern world. Aspects of Roman culture such as literature, law, religion, art and architecture, education, intellectual life, popular entertainment, and the role of women are emphasized. (Sp) [IV-WC].
- CL C 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- CL C 3033 Latin Literature in English Translation 3 Credit Hours**
Prerequisite: sophomore standing. May be repeated; maximum credit six hours. readings in a selected genre (e.g. epic, drama, satire, lyric) with lectures on the history and development of latin literature. The Greek background to Latin literature and the Romans' influence on later works. [IV-WC].
- CL C 3053 Origins of Christianity: Jesus to Augustine 3 Credit Hours**
Prerequisite: English 1213. A survey of early Christian history that aims to set the Christian scriptures in their cultural and political context. Canonical, non-canonical, Jewish, and pagan sources are read alongside one another in order to consider the interrelationships among various religious ideas in the Roman world. (F) [IV-WC].
- CL C 3103 States in Crisis in Greek and Roman Literature 3 Credit Hours**
Prerequisite: ENGL 1213/EXPO 1213; Course is not open to freshmen. The framers of the Constitution looked to ancient Athens, with its democracy, and Rome, with its republic, as models for a form of government that could withstand the vagaries of time. This course examines how those ancient governments fared during critical moments in their history. (Irreg.) [IV-WC].
- CL C 3113 Gods and Heroes of Ancient Epic 3 Credit Hours**
Prerequisite: English 1213/Expository Writing 1213. The epic poetry of Homer, Hesiod, Vergil and other Greek and Roman writers in its literary and historical context. The epic tradition in later European literature. (F) [IV-WC].
- CL C 3123 Ancient Drama in English Translation 3 Credit Hours**
Prerequisite: junior standing or permission of the instructor. Lectures on the development of the ancient Greek and Roman drama. Lectures with readings and discussion from the works of Aeschulus, Sophocles, Euripides, Aristophanes, Plautus, Terence, and Seneca and from Aristotle's poetics. The influence of ancient drama on European literature. (F) [IV-WC].
- CL C 3133 Plato and the Platonic Tradition 3 Credit Hours**
A study of the major ideas in the central works of Plato and of their influence on the Neoplatonists. (Sp) [IV-WC].
- CL C 3163 Visions of Heaven and Hell: Virgil, Dante, and Milton 3 Credit Hours**
Prerequisite: sophomore standing. Focuses on Virgil's influence on Dante. Virgil celebrates, in both *The Georgics* and *The Aeneid*, the outcome of the struggle against external furor and passion and those elements within the individual. Dante, with Virgil as his spiritual guide in *The Inferno*, presents a series of spiritual exercises. (F, Sp) [IV-WC].
- CL C 3183 Hellas, the Civilization of Ancient Greece 3 Credit Hours**
Prerequisite: junior standing and permission of instructor. Hellas examines the human factor dominating western history, philosophy, literature and political science as Greek civilization chronologically evolves. Responsible behavior, balance and control are the lessons of all Greek literature, art, philosophy and social institutions. (Sp) [IV-WC].
- CL C 3213 Classical Art & Archaeology: Greek Art to the Death of Alexander 3 Credit Hours**
Prerequisite: sophomore standing. Lectures, occasionally illustrated and assigned readings. Survey of the architecture, sculpture, painting and minor arts in the Greek regions of the Eastern Mediterranean in the successive stages of their development; with analyses of dominant styles and detailed study of select masterpieces and monuments. (F) [IV-AF].
- CL C 3223 Classical Art & Archaeology: Hellenistic Greek Art; Roman Art 3 Credit Hours**
(Crosslisted with A HI 3223) Prerequisite: sophomore standing. Continuation of 3213. Survey of Hellenistic art with particular attention to the individuality of style and diversity of matter. Early Etruscan and Roman art. The development of Roman art in native and assimilated forms; studies in domestic and national monuments. (Sp) [IV-AF].
- CL C 3233 The Roman Forum and its Monuments 3 Credit Hours**
Focus on the excavation of the Roman Forum, the central part of ancient Rome. concentrate study on archaeological methodology, specific excavations, topography of Rome, and the cultural significance of Roman urban development on the ancient world.
- CL C 3243 Food and Drink in the Ancient Mediterranean 3 Credit Hours**
Prerequisite: English 1213/Expo 1213. You are what you eat. You are how you eat. You are when and where and with whom you eat. This was as true in the ancient Mediterranean world of Greece and Rome as it remains in our own. To explore the foodways in the past, we will draw on a wide menu of ancient texts, images, and material culture. (F, Sp)
- CL C 3253 Ancient Athletics: Fun and Games in the Mediterranean World 3 Credit Hours**
Prerequisite: English 1213/Expository Writing 1213. Athletic activities, and games of all kinds, were just as popular and significant in the ancient Greek and Roman worlds as they are today. We will use primary texts, artistic representations, archaeological discoveries, and modern analogies to explore topics ranging from the rise of the Olympic Games and gladiatorial combats, to just what people considered 'fun' in the ancient world. (F, Sp)
- CL C 3283 Roma: The Civilization of Ancient Rome 3 Credit Hours**
Prerequisite: junior standing and permission of instructor. This course surveys the Roman nation from its legendary origins in 753 BCE to the collapse of the Western Empire in 476 CE. Through readings from standard texts and historical fiction, students will learn about Roman history, literature and philosophy and its influence on the modern world. (Sp) [IV-WC].
- CL C 3403 Law and Justice 3 Credit Hours**
Prerequisite: junior standing or permission of the instructor. With Aristotle's politics as the principal guide, course follows development of justice throughout the Greco-Roman experience. (F) [IV-WC].

- CL C 3413 Archaeologies of Ancient Espionage 3 Credit Hours**
Prerequisite: English 1213/Expository Writing 1213. Spies, surveillance, security - these concepts loom large today, but have their origins in the distant past. This course examines archaeological remains, material and visual culture, and ancient texts to understand espionage, border security, signals intelligence, and surveillance systems in ancient Greece and Rome. We examine intelligence activities from the perspective of ancient empires and resistance to them. (F)
- CL C 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- CL C 3510 Selected Topics in Classical Culture 2-3 Credit Hours**
2 to 3 Hours. May be repeated; maximum credit nine Hours. A study of selected topics in the civilizations and cultures of the Romans, Greeks and Hebrews. (F, Sp, Su)
- CL C 3613 Classical Influence on Modern Literature 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. May be repeated with change of content; maximum credit 6 hours. Identifies the continuing importance of the classical tradition in modern literature. (F, Sp, Su) [IV-WC].
- CL C 3803 The World of Late Antiquity: From Rome to Baghdad 3 Credit Hours**
Prerequisite: English/Expository Writing 1213. This course introduces students to the historical period of Late Antiquity (circa 300 to 800 CE). The Mediterranean will be the center of attention, but Mesopotamia, Arabia, the Caucasus, the Balkans, and Western Europe will also be considered in turn, along with the rise and development of Christianity and the emergence of Islam as a permanent presence in the East. (F, Sp) [IV-WC].
- CL C 3960 Honors Reading 1-3 Credit Hours**
1 to 3 Hours. Prerequisite: admission to honors program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- CL C 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 Hours. Prerequisite: admission to honors program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (F, Sp)
- CL C 3980 Honors Research 1-3 Credit Hours**
1 to 3 Hours. Prerequisite: admission to honors program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- CL C 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- CL C 4503 Classics Capstone 3 Credit Hours**
Prerequisite: senior standing in major. Students review major facts, figures, and events of Greco-Roman antiquity and write a senior paper on a topic to be chosen in consultation with the instructor, using primary and secondary sources to demonstrate a comprehensive understanding of one of the major areas of Greco-Roman civilization. (Sp) [V].
- CL C 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- CL C 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- CL C 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- CL C 5990 Special Studies 1-3 Credit Hours**
1 to 3 Hours. Prerequisite: graduate standing. May be repeated; maximum credit six hours. Reading and research, arranged and directed in consultation with the instructor, in specified areas of classical civilization and culture. (F, Sp, Su)
- GRK 1115 Beginning Greek 5 Credit Hours**
Introductory study of the vocabulary and grammar of the Greek language. Some practice in the reading of simple Attic prose; usually excerpts from Xenophon's Anabasis. (F, Sp, Su) [I-FL].
- GRK 1215 Beginning Greek 5 Credit Hours**
Prerequisite: 1115, or first year Greek in high school. Introductory study of the vocabulary and grammar of the Greek language. Some practice in the reading of simple Attic prose; usually excerpts from Xenophon's Anabasis. (Sp) [I-FL].
- GRK 2103 Intermediate Ancient Greek 3 Credit Hours**
Prerequisite: GRK 1215 or equivalent, with a grade of C or better; May be repeated with a change of content; maximum credit six hours. This course moves from basic grammatical principles to translating authentic, unaltered texts. Students will fine-tune their knowledge of Attic Greek prose and begin reading poetry and Ionic texts. Authors will include, among others, Plato, Euripides, Thucydides, and Homer. (F, Sp)
- GRK 2113 Biblical Greek 3 Credit Hours**
Prerequisite: 1215 or equivalent, with a grade of C or better. May be repeated with a change of content; maximum credit six hours. Reading designed mainly to increase the student's proficiency in rapid translation, in excerpts from the New Testament. (F)
- GRK 2213 Homer 3 Credit Hours**
1215 or equivalent, with a grade of C or better. May be repeated with change of content; maximum credit six hours. Reading selections from Homer; designed to improve the student's proficiency in translation and the understanding of Greek poetic techniques. (Sp)

- GRK 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- GRK 3113 Advanced Prose 3 Credit Hours**
May be repeated with change of subject matter; maximum credit six hours. Readings in Plato: Crito and Apology; Lysias: Select Orations; Demosthenes: De Corona. (Sp)
- GRK 3213 Ancient Greek Drama 3 Credit Hours**
Prerequisite: GRK 2103, or equivalent, with a grade of C or better; May be repeated with change of subject matter; maximum credit six hours. Not only serving as the primary form of entertainment, the theater in ancient Greece was a diverse forum for exploring social morality, politics, and religion. By reading works from dramatists such as Aristophanes, Euripides, Menander, and Sophocles, students will observe the lasting influence of comedy and tragedy throughout history. (F, Sp)
- GRK 3313 Ancient Greek Prose Composition 3 Credit Hours**
Prerequisite: GRK 2103 or 2203 or the equivalent. In this course, students will fully revise all of Attic Greek grammar and syntax and translate sentences and connected prose passages into Greek. By the end of the course, students should have a better grasp of the Greek language, be able to use and identify proper Greek idiom, and appreciate the style and linguistic nuances of prose authors. (F, Sp)
- GRK 3413 Greek New Testament 3 Credit Hours**
Prerequisite: GRK 2103, or equivalent, with a grade of C or better; May be repeated with change of subject matter; maximum credit six hours. This course will introduce students to Koine Greek through translating texts from the New Testament and works of Apostolic or Patristic Fathers. By translating a variety of impactful and controversial texts, students will observe the importance of reading these works in their original language and note that English translations often obscure or dilute meaning. (F, Sp)
- GRK 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- GRK 3513 Ancient Greek Philosophers 3 Credit Hours**
Prerequisite: GRK 2103, or equivalent, with a grade of C or better; May be repeated with change of subject matter; maximum credit six hours. The works of Greek philosophers, primarily Plato and Socrates, are foundational to the intellectual tradition that applies rational thought to the discovery of knowledge in the natural world, ethical matters, and happiness. By reading a variety of works from Greek philosophers, students will develop a better understanding of the intricacies of Greek philosophical tenets and how they evolved throughout history. (F, Sp)
- GRK 3613 Greek Epic Poetry 3 Credit Hours**
Prerequisite: GRK 2103 or equivalent, with a grade of C or better; May be repeated with change of subject matter; maximum credit six hours. The tales of Greek gods and heroes come to life in the poetry of authors such as Homer, Hesiod, and Apollonius. By reading some of the most cherished texts from antiquity, students will marvel at the ability of these authors to entertain ancient and modern audiences while exploring concepts of heroism, love, morality, theology, and the afterlife. (F, Sp)
- GRK 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program and one intermediate Greek course. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- GRK 3970 Honors Special Topics 1-3 Credit Hours**
Prerequisite: 2113 or 2213 or the equivalent. May be repeated with change of content; Maximum credit six hours. A study of selected topics in Greek literature on subjects not offered in regularly scheduled courses. (Irreg.)
- GRK 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to the Honors Program and one intermediate Greek course. May be repeated; maximum credit six hours. Will provide an opportunity for the Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- GRK 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- GRK 4113 Greek Historiography 3 Credit Hours**
Prerequisite: GRK 2103 or equivalent, with a grade of C or better; May be repeated with change of subject matter; maximum credit six hours. Inspired by epic poems from the past, Greek historians were at the forefront of exploring and defining the genre now simply known as "history". By reading various works from authors of Greek history, such as Herodotus, Thucydides, and Xenophon, and even Greek historians of the Roman empire, students will observe how the genre evolved throughout antiquity. (Irreg.)
- GRK 4213 Greek Lyric & Bucolic Poetry 3 Credit Hours**
Prerequisite: GRK 2103 or equivalent, with a grade of C or better; May be repeated with change of subject matter; maximum credit six hours. Ancient Greeks passionately consumed lyric and bucolic poetry as forms of entertainment and personal expression. Exploring themes of love, death, beauty, and the good life, these poets give modern audiences insight into ancient desires and dilemmas through beautifully constructed verse. By translating works from authors, such as Pindar, Sappho, and Theocritus, students will improve their understanding of the ancient Greeks. (F)
- GRK 4313 Attic Oratory 3 Credit Hours**
Prerequisite: GRK 2103, or equivalent, with a grade of C or better; May be repeated with change of subject matter; maximum credit six hours. Extensive reading from the masterpieces of classical oratory, chosen both to illustrate the types and styles of public discourse and to provide some familiarity with the social and political milieu of the age. Authors include among others, Demosthenes, Lysias, Andocides, Aeschines, Antiphon, and Isocrates. Supplementary studies in Greek legal procedure, and the theory of rhetoric and its importance in antiquity. (F, Sp)
- GRK 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

- GRK 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- GRK 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- GRK 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- GRK 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- GRK 5980 Research for Master's Thesis 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing. Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours.(F)
- GRK 5990 Special Studies 1-4 Credit Hours**
1 to 4 hours. May be repeated; maximum credit eight hours. Reading and research, arranged and directed in consultation with the instructor, in specified areas of Greek language and literature. (F, Sp)
- LAT 1115 Beginning Latin 5 Credit Hours**
Introductory study of the vocabulary and grammar of the Latin language, with practice in the reading of sentences and connected prose from selected Latin authors. (F, Sp) [I-FL] .
- LAT 1215 Beginning Latin 5 Credit Hours**
Prerequisite: 1115, or the equivalent, with a grade of C or better. Introductory study of the vocabulary and grammar of the Latin language, with practice in the reading of sentences and connected prose from selected Latin authors. (F, Sp) [I-FL] .
- LAT 1315 Intensive Introductory Latin 5 Credit Hours**
Prerequisite: permission of Honors Program. Alternative to the Latin 1115 and 1215 introductory sequence. Covers in one semester the essentials of the material in Latin 1115 and 1215. Students who have completed 1115 and 1215 may not enroll in 1315. (F) [I-FL] .
- LAT 2113 Intermediate Latin Prose 3 Credit Hours**
Prerequisite: LAT 1215 or equivalent, with a grade of C or better; May be repeated with change of content; maximum credit six hours. This course moves from basic grammatical principles to translating authentic, unaltered texts. Students will hone their knowledge of Latin prose and compare stylistic differences between authors. With the assistance of supplementary commentaries, students will translate works from authors such as Caesar, Livy, Cicero, and Cornelius Nepos. (F, Sp, Su)
- LAT 2213 Intermediate Latin Poetry 3 Credit Hours**
Prerequisite: LAT 1215 or LAT 1315, or equivalent, with a grade of C or better; May be repeated with change of content; maximum credit six hours. Reading selections from the works of Latin poets, including Catullus, Horace, and Ovid; designed to improve the student's proficiency in translation and understanding of the Latin poetic technique. (F, Sp)
- LAT 3113 Advanced Prose: Cicero, Pliny the Elder, Pliny the Younger 3 Credit Hours**
Prerequisite: 2113 and 2213. May be repeated with change of subject matter; maximum credit six hours. Readings from the works of Cicero or Pliny, representing the height of prose style in the Republican and Imperial periods, respectively. (Irreg.)
- LAT 3313 Latin Prose Composition 3 Credit Hours**
Prerequisite: LAT 2113 or LAT 2213 or equivalent. In the tradition of classical education, one of the culminating emphases was the ability to compose elegant, stylistic prose in the ancient language of study. In this course, students will set off toward this pinnacle and learn to compose sentences and continuous passages in Latin. This will be accompanied by a thorough review of Latin grammar and syntax. (F, Sp)
- LAT 3413 Early Christian Authors 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213; LAT 2113 or LAT 2213 with a grade of C or better; May be repeated with change of subject matter; maximum credit six hours. Leaders of the early Christian church were tasked with chronicling Jesus' life, defining the biblical canon, providing exegetical explanations for theological tenets, battling heresies, and defending their beliefs against persecution. By reading selections from the Vulgate and authors such as Tertullian, Jerome, Ambrose, and Augustine, students will improve their Latin fluency and understanding of how these works shaped Christian doctrine. (F, Sp)
- LAT 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- LAT 3513 Roman Philosophers 3 Credit Hours**
Prerequisite: LAT 2113 or LAT 2213 with a grade of C or better; May be repeated with change of subject matter; maximum credit six hours. Roman philosophers, driven to respond to the ideas of their Greek predecessors, molded prevailing philosophical concepts to fit the ethical, moral, and cultural identity of Rome. By reading a variety of works from Cicero, Lucretius, and Seneca, students will develop a better understanding of Roman philosophy and its the reception throughout history. (F, Sp)
- LAT 3613 Latin Epic Poetry 3 Credit Hours**
Prerequisite: LAT 2113 or LAT 2213 with a grade of C or better; May be repeated with change of subject matter; maximum credit six hours. In this course, students will focus on selected readings from Latin epic poetry. Texts may include, among others, Vergil's Aeneid, Ovid's Metamorphoses, Lucan's Pharsalia, and Statius' Thebaid. At the end of the course, students will also appreciate the generic conventions of epic and its place in Roman society. (Irreg.)
- LAT 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)
- LAT 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp)

- LAT 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- LAT 4113 Roman Historiography 3 Credit Hours**
Prerequisite: LAT 2113 or LAT 2213 with a grade of C or better; May be repeated with change of subject matter; maximum credit six hours. Indebted to the great historians of ancient Greece, the Romans built their historiographical tradition on more than just reporting the facts. By reading various works from Sallust, Livy, Suetonius, Pliny, and Tacitus in their original language, students will develop an understanding of how history was often used as propaganda to curb morality, educate children, and increase national pride. (Irreg.)
- LAT 4213 Latin Lyric & Bucolic Poetry 3 Credit Hours**
Prerequisite: LAT 2113 or LAT 2213 with a grade of C or better; sophomore standing; May be repeated with change of subject matter; maximum credit six hours. In contrast to the dense social and moral themes explored in epic poetry, lyric and bucolic poetry traditionally served as a medium for Roman poets to express intimate and personal notions. By translating works from authors such as Horace, Catullus, and Vergil, students will discover a diversity of themes and constructions expressed in these genres. (Irreg.)
- LAT 4313 Roman Oratory 3 Credit Hours**
Prerequisite: LAT 2113 or LAT 2213 with a grade of C or better; May be repeated with change of subject matter; maximum credit six hours. In Rome, matters of war and peace, praise and blame, and life and death all depended upon the persuasive power of the Roman orator. In this course, students will not only read the greatest examples of Roman oratory but also understand the rhetorical secrets they conceal. Authors include Cicero, fragmentary Roman orators, Quintilian and the anonymous *Rhetorica ad Herennium*. (F, Sp)
- LAT 4413 Roman Comedy and Satire 3 Credit Hours**
Prerequisite: LAT 2113 or LAT 2213 with a grade of C or better; May be repeated with change of subject matter; maximum credit six hours. Romans valued humor as a method of expressing social criticism. From the Greeks, they inherited the ribald and implausible conventions of comedy, but satire, the Romans claimed, was a genre of their own invention. By translating authors such as Horace, Juvenal, Plautus, and Terence, students will gain insight into the social concerns and preoccupations of ancient Romans. (Irreg.)
- LAT 4613 Foundations of the Latin Language 3 Credit Hours**
Prerequisite: Course is not open to freshman, ENGL 1213 or EXPO 1213, and LAT 2113 or LAT 2213 with a grade of C or better. Once widely spoken, Latin has long been considered a "dead" language. By first considering why Latin is still taught, students will investigate the evolution of Latin pedagogy, including objectives and methodology. Through this inquiry into how Latin is taught, students will reinforce and bolster their knowledge of the most complex aspects of Latin syntax. (F, Sp)
- LAT 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- LAT 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- LAT 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- LAT 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- LAT 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- LAT 5980 Research for Master's Thesis 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing. Variable enrollment two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- LAT 5990 Special Studies 1-4 Credit Hours**
1 to 4 hours. May be repeated; maximum credit eight hours. Reading and research, arranged and directed in consultation with the instructor, in specified areas of Classical philology. (F, Sp)
- LTRS 1113 Introduction to Letters 3 Credit Hours**
Introduction to Letters major, OU's interdisciplinary humanities degree which provides a traditional liberal arts education. Modeled around a "Great-Books" approach that there is a canon of texts that has transcendent value because certain works are able to speak to the human condition across time and space. The curriculum is distinct through its insistence on combining history, philosophy, and literature as ways of asking the same fundamental questions through the record of actual human experience. A sequence of topics address perennial human concerns: reason and passion, love, death, work, God, freedom, time, and so on. (F, Sp) [IV-WC].
- LTRS 1123 Word Power 3 Credit Hours**
We use words every day, but what can we discover about the origins of our language and how it can empower us? This course presents an introductory survey of the history and usage of English, including the significant influence other languages have had. The course also entails analysis of developments in repositories of knowledge, including libraries, encyclopedias, and dictionaries. (Sp) [IV-WC].
- LTRS 1203 Horror Literature 3 Credit Hours**
Vampires, ghosts, monstrous women, haunted houses and murderous video tapes--Gothic horror has terrified us for two centuries. This course studies horror literature from across the world from the nineteenth-century to the present. (Sp) [IV-AF].
- LTRS 2003 Fantasy Literature 3 Credit Hours**
This class focuses on a movement or writer within the literary subgenre of fantasy fiction. Subjects could include prominent authors such as Tolkien, Lewis, Rowling or Martin, but also hybrid or experimental writers, nineteenth-century figures such as Lewis Carroll or William Morris, or authors working outside the English-speaking world. (Irreg.)

- LTRS 2103 Introduction to Constitutional Studies 3 Credit Hours**
Provides a broad introduction to the theory and history of constitutional governance. Includes the classical roots of constitutional thought, the contribution of the English common law tradition, the origins and structure of the U.S. Constitution, along with a sense of the constitutional basis of contemporary political controversies. (F, Sp) [IV-WC].
- LTRS 2203 World Epic 3 Credit Hours**
This course studies world epics from many time periods and places. We will study the religious, mythical, political and social themes in these texts and the formal aspects of epic. (Irreg.)
- LTRS 2213 Crime and Detective Fiction 3 Credit Hours**
This course studies the forms, contexts, and themes of the Crime and Detective Fiction genre. (Irreg.)
- LTRS 2223 Jane Austen in the World 3 Credit Hours**
In this course we will read three of Jane Austen's most beloved novels together with several adaptations of her work from across the world. Austen's novels have inspired countless adaptations. Her novels have been reimagined with Muslim characters living in Canada today or with Haitian characters in Brooklyn or with marriage plots set in India and Pakistan. (Irreg.) [IV-WC].
- LTRS 2970 Special Topics 1-3 Credit Hours**
Prerequisite: none. May be repeated with change of content; maximum credit six hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- LTRS 3013 Sacred Texts as Literature 3 Credit Hours**
Prerequisite: English 1213 or Expository Writing 1213. This course will take a literary approach one or more of the sacred texts from major world religions, examining such issues as narrative and poetic structure, character or the use of imagery or figurative language. It may also incorporate poets, novelists or dramatists whose work draws upon or investigates the sacred texts in question. (F, Sp)
- LTRS 3043 Poetry, Society, Politics 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. A study of movements in poetry, with a special emphasis on political and socio-cultural issues. May be focused on a historical period or organized thematically, and may include authors outside of the European tradition. (Irreg.)
- LTRS 3113 The Examined Life I: Antiquity 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Survey of the great books of Greece and Rome, with emphasis on understanding the impact of classical texts on modern day thought. Can be applied to the Letters major's requirement in history, literature, or philosophy. (F) [IV-WC].
- LTRS 3123 The Examined Life II: Middle Ages and Renaissance 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Survey of the great books of the Middle Ages and Renaissance, with emphasis on the impact of these texts on modern thought. Can be applied toward the Letters major's requirement in history, literature, or philosophy. (Sp) [IV-WC].
- LTRS 3133 Examined Life III: Enlightenment 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Survey of the great books of The Enlightenment, with emphasis on understanding the impact of these texts on modern thought. Can be applied toward the Letters Major's requirement in history, literature, or philosophy. (F) [IV-WC].
- LTRS 3153 Challenging Leadership 3 Credit Hours**
Prerequisite: Prerequisite: ENGL 1213 or EXPO 1213. This course examines historical figures who had a marked impact on the western world. Each unit introduces students to some of the problems faced by the society in which these influential individuals lived. Students explore how these seminal figures proposed solutions. (Sp) [IV-WC].
- LTRS 3163 The History and Philosophy of Philanthropy 3 Credit Hours**
Prerequisite: ENGL/EXPO 1213 and Junior standing, or permission of instructor; Repeatable with change of content, maximum credit 6 hours. This course examines ideologies, historical events, and literary descriptions related to philanthropic and charitable endeavors. Students will gain a broader understanding of how modern organizations have evolved and consider what counts as "best practices" in philanthropy. The class can be applied toward the Letters major's requirement in history, literature, or philosophy. (Sp) [IV-WC].
- LTRS 3213 Monsters & Modernity: The Gothic Genre 3 Credit Hours**
Prerequisite: English 1213 or Expository Writing 1213. It is a strange fact of literary history that the "Age of Reason" becomes obsessed with monsters. The Gothic becomes a genre in its own right and the supernatural, the monstrous, and the magical permeate the modern imagination. The course considers works from various national literary traditions and periods. (F, Sp) [IV-WC].
- LTRS 3223 Revolutions 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course studies the "Age of Revolutions" and focuses on different revolutionary traditions which may include, for example, the French, Haitian, American and English Revolutions from C 17 to C 19. Readings will cover the work of historians, philosophers, and literary writers as well as speeches and writings of important historical figures. (F, Sp) [IV-WC].
- LTRS 3233 The Novel: Comedy, Romance and Realism 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course studies prose fictions and theories of the novel. It will cover a variety of genres such as realism, romance and science fiction; a variety of forms such as narrative structure and characterization; as well as a variety of periods and literary traditions such as American, African American, and European. (F, Sp) [IV-AF].
- LTRS 3243 Women and Literature 3 Credit Hours**
Prerequisite: ENGL 1213/EXPO 1213. In this course we will encounter extraordinary female characters from queens to chivalric ladies, to Gothic heroines and young women coming out into society. We will follow their adventures in a variety of literary traditions from antiquity to the present. (F, Sp) [IV-WC].
- LTRS 3263 Drama, Society, Politics 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This is a genre course focused on the forms of drama as well as on how drama represents major social and political questions about the state, the nation, the family, colonialism, empire, and capitalism. (Irreg.) [IV-AF].
- LTRS 3273 The Sublime: Literature and Philosophy 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. The course studies the concept of the sublime in literature and philosophy from antiquity to the present. (Irreg.)
- LTRS 3303 Origins of Rights in Early America 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Explores the historical, rather than the philosophical, origins of ideas of individual and group rights in the European settlement of the New World. (F) [IV-WC].

- LTRS 3323 Violence: Political Theory, Film, Literature 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course studies political and social theories of violence together with filmic and literary representations of various forms of violence in a variety of historical periods and artistic traditions. The course examines the work of theorists who consider the causes and forms of violence in relation to several major topics such as empire and revolution. (Irreg.) [IV-WC].
- LTRS 3353 Interpreting the American Founding 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Examines the various ways that scholars have interpreted the Founding over the past two hundred years. It is a study, then, of the historiographic interpretations of the events of the American Founding era rather than a study of the events and historical figures themselves. (F) [IV-WC].
- LTRS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- LTRS 3510 Topics in Letters 2-3 Credit Hours**
Prerequisite: Junior standing. May be repeated with change of content; maximum credit nine hours. Discussion of selected interdisciplinary topics in letters. (Irreg.)
- LTRS 3603 Debating Constitutional Controversies 3 Credit Hours**
Prerequisite: English 1213 or Expository Writing 1213. This course transforms the classroom into a courtroom. Students become lawyers and judges, arguing and deciding cases that hinge on our most important Constitutional controversies. Working in teams, students grapple with these contentious issues in the context of the Constitution, the common law, and legal theory. (F, Sp)
- LTRS 3613 Constitutional Narratives 3 Credit Hours**
Prerequisite: ENGL 1213/EXPO 1213. This course will explore the many ways that the art of narrative intersects with constitutional history. Students will fashion their own narratives about major constitutional episodes or figures of their choosing. (F)
- LTRS 3623 First Freedoms 3 Credit Hours**
Prerequisite: English 1213/Expo 1213. The First Amendment enshrines freedoms of the highest order—of religion, of speech, of the press, among others. This course delves into the history and current state of First Amendment law in America. (F, Sp)
- LTRS 3633 Famous Trials 3 Credit Hours**
Prerequisite: English 1213/Expo 1213. From the Salem Witch Trials to our modern moment, the spectacle of a public tribunal determining questions of life and liberty has long captured the imagination of the country. Students will revisit the evidentiary records from iconic trials in American history and relitigate closing arguments. (F, Sp)
- LTRS 3703 Law and Social Movements 3 Credit Hours**
Prerequisite: English/Expository Writing 1213. Examines the history of the interaction between the law and social movements in the United States from the Civil War to the present day. Topics include the struggles for racial and gender equality and the histories of immigrant and gay rights movements. (F, Sp)
- LTRS 3713 Gender and the Constitution 3 Credit Hours**
Prerequisite: English/Expository Writing 1213. Examines how ideas about gender, sexuality, and the family have shaped the privileges and obligations of American citizenship. Topics covered in this class include feminism, masculinity, women's suffrage, interracial marriage, affirmative action, and sexual orientation. In addition, it will examine how women have shaped the law as plaintiffs, lawyers, and judges. (F, Sp)
- LTRS 3803 Fate & The Individual in European Literature I 3 Credit Hours**
Prerequisite: English 1213 or Expository Writing 1213. Based on a course designed by W.H. Auden, this is part one of an intensive examination of classic texts of western literature, exploring questions of freedom, fate, and human responsibility. Texts introduce students to an ongoing conversation about what it means to be human. Begins in ancient Greece and ends in the seventeenth century. (F) [IV-WC].
- LTRS 3813 Fate & The Individual in European Literature II 3 Credit Hours**
Prerequisite: English 1213 or Expository Writing 1213. Based on a course designed by W.H. Auden, this is part two of an intensive examination of classic texts of western literature, exploring questions of freedom, fate, and human responsibility. Texts introduce students to an ongoing conversation about what it means to be human. Texts cover the early modern period to the twentieth century. (Sp) [IV-WC].
- LTRS 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- LTRS 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- LTRS 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- LTRS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- LTRS 4503 Letters Capstone Course 3 Credit Hours**
Prerequisite: senior standing in major. May be repeated with change of content; maximum credit six hours. Students will write a senior paper on a topic chosen in consultation with the instructor. Papers will demonstrate students' abilities to synthesize material drawn from among two or more of the areas included in the Letters program. (F, Sp) [V].
- LTRS 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- LTRS 4970 Special Topics/Seminar 2-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

LTRS 4990 Independent Study 1-3 Credit Hours

Prerequisite: junior standing or permission of instructor or department. May be repeated; Maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

LTRS 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

LTRS 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

LTRS 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit six hours. Reading and research arranged and directed in consultation with the instructor, in specified areas of classical civilization and culture. (F, Sp, Su)

Classics: Classical Languages, B.A.

Minimum Total Credit Hours: 120

Major Hours: 33

Minimum Upper-Division Hours: 48

Upper-Division Hours Within Major: 15

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B205 P122

This program has changes for 2024 pending approval of the OU Board of Regents which are not reflected here.

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- The major requires 33 hours *beyond* LAT 1115, LAT 1215 (or LAT 1315), GRK 1115 and GRK 1215.
- CL C 2413 will not be accepted for major credit.
- At least 15 hours must be in courses numbered 3000 or above.

- Courses in related subjects must have prior approval of the Classics Department.

Code	Title	Credit Hours
LAT 1115 & LAT 1215 or LAT 1315	Beginning Latin and Beginning Latin Intensive Introductory Latin

- ¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
- ² One course at the intermediate level or demonstrated competency at that level
- ³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.

- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Classics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Classical Languages major requirements.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Classics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Letters major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
P SC 1113	American Federal Government (Core III)	3
Natural Science without lab (Core II)		3
Artistic Forms (Core IV) ¹		3
Credit Hours		15

Second Semester

Intermediate Language ²	3
History, Literature, or Philosophy Major Elective, upper-division	3
History, Literature, or Philosophy Major Elective, upper-division	3
Free Elective, upper-division (3000-4000-level)	3
Credit Hours	12

Total Credit Hours 120

¹ This course may also fulfill the major support requirement for a course in the appreciation or history of one of the fine arts.

² Students must complete one modern and one ancient language

This plan assumes that one of the major courses, or one of the Upper-Division Free Electives, is an approved Western Culture Core IV general education course.

Letters: Constitutional Studies, B.A.

Minimum Total Credit Hours: 120

Major Hours: 36

Minimum Upper-Division Hours: 48

Upper-Division Hours Within Major: 27

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Last 90 Hours GPA: 3.00

Program Code: B635 P136

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements
- The major requires 36 hours in **history** (including history of science), **literature** (including classical culture and MLLL), and **philosophy**, at least 27 of which must be upper-division, and including at least 9 hours in each division.
- Courses taken to fulfill the History, Literature & Philosophy requirements may also be used to fulfill Constitutional Studies requirements and vice versa.
- **Graduation in Letters: Constitutional Studies requires a 3.00 GPA in the last 90 credit hours.**

Code	Title	Credit Hours
History		
	Choose 9 hours	9
Literature		
	Choose 9 hours	9
Philosophy		
	Choose 9 hours	9
Additional History, Literature & Philosophy		
	Choose 9 hours from History, Literature and/or Philosophy to bring total major hours to 36	9
Constitutional Studies Requirements ¹		
The 36 hours of major work listed above must include one course in each of the 4 categories below, and a 5th course chosen from I-IV:		
	I. Ancient Foundations of Law, Liberty, & Justice	
	II. The Philosophical Background of American Constitutionalism	
	III. The American Founding	
	IV. The Constitutional Legacy in Modern America	
Total Credit Hours		36

¹ Students must successfully complete at least 15 hours (five courses) chosen from a list of approved courses (p. 339); 12 hours must be at the upper-division level. These courses must include one course from each area I through IV. A list of approved courses is available in the Department of Classics and Letters.

Major Support Requirements

Code	Title	Credit Hours
	Supporting courses, secondary or collegiate, in one ancient and one modern language (3 courses in one and 4 in the other)	
	Choose one course in the appreciation or history of one of the fine arts	

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education

course list published in the Class Schedule or at <http://www.ou.edu/genes/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213 or EXPO 1213	Principles of English Composition Expository Writing	3
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
<i>Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Culture</i>		
HIST 1483 or HIST 1493	United States to 1865 United States, 1865 to the Present	3

<i>World Culture</i>		
Choose one course from the General Education World Culture list		3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>		
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

4. THE CONSTITUTIONAL LEGACY IN MODERN AMERICA

Code	Title	Credit Hours
AFAM 4733	Civil Rights Law: Employment and Education	3

Classical Archaeology, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N200

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Classics.

• CL C 2413 may **not** be counted toward the Classical Archaeology minor.

Required Courses

Students must successfully complete at least at least fifteen (15) hours of classical archaeology courses approved for minor credit from a list maintained by the Department. Up to six (6) hours of coursework from outside Classics and Letters (Anthropology, History, Religious Studies, or Art History) may be substituted for work in classical archaeology. A list of approved outside courses is maintained by the Department of Classics and Letters.

Code	Title	Credit Hours
Core Course		
CL C 2213	Introduction to Classical Archaeology	3
Minor Electives		
	Choose at least at least twelve (12) hours of classical archaeology courses approved for minor credit from a list maintained by the Department. At least nine (9) of these twelve (12) hours must be upper-division courses. (p. 341)	12
Total Credit Hours		15

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Approved Classical Archaeology Electives

- **For the most current list of approved electives, please consult the Department of Classics and Letters.**

List of courses approved for this minor from within the Department of Classics and Letters:

Code	Title	Credit Hours
CL C 2603	The Rise and Fall of Greece	3
CL C 2613	The Rise and Fall of Rome	3
CL C 3183	Hellas, the Civilization of Ancient Greece	3

Classical Culture, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N205

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Classics.

- CL C 2413 may **not** be counted toward the Classical Culture minor.
- With prior approval of the Classics Department Chair, the following substitutions may be made:
 - a. Three (3) hours of upper-division work in Latin or Greek courses.
 - b. Three (3) hours of upper-division credit in Ancient History, Ancient Philosophy, or in other related courses.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Classical Culture. At least 9 hours must be earned in upper-division Classical Culture (CL C) courses.

Code	Title	Credit Hours
Select at least 15 hours of courses acceptable for major credit in Classical Culture. At least nine (9) of these hours must be upper division Classical Culture (CL C) courses		15
Total Credit Hours		15

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Classical Greek, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N491

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Greek program in the Department of Classics.

Required Courses

Students must successfully complete at least 15 hours of coursework in Greek at the 2000-level or above, including at least nine (9) hours at the upper-division level. Note that introductory courses (GRK 1115 and GRK 1215) are not counted toward this total.

Code	Title	Credit Hours
Choose 15 hours from the following: ¹		15
GRK 2113	Biblical Greek (max 6 hours)	
GRK 3113	Advanced Prose (max 6 hours)	
GRK 3213	Ancient Greek Drama (max 6 hours)	
GRK 3990	Independent Study (max 6 hours)	
GRK 4990	Independent Study (max 6 hours)	
Total Credit Hours		15

¹ Students may also use up to 3 hours of upper-division Classical Culture (CL C) or related area.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Constitutional Studies, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 12

Program Code: N240

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Classics and Letters.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for credit in Constitutional Studies including at least 12 hours at the upper-division level.

Qualifying courses in each category (p. 339) *will be approved by the Department of Classics and Letters. The most up to date list of qualifying courses is available in the Department.*

Choose one additional course from the categories listed above		3
Total Credit Hours		15

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Latin, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N629

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Latin program in the Department of Classics.

Required Courses

Students must successfully complete at least 15 hours of coursework in Latin at the 2000-level or above, including at least nine (9) hours at the upper-division level. Note that introductory courses (LAT 1115, LAT 1215, and LAT 1315) are **not** counted toward this total.

Code	Title	Credit Hours
	15 hours of coursework in Latin at the 2000-level or above, including at least nine (9) hours at the upper-division level.	15
Total Credit Hours		15

Students may choose from the following list of courses¹:

Code	Title	Credit Hours
LAT 2113	Intermediate Latin Prose (max 6 hours)	3
LAT 2213	Intermediate Latin Poetry (max 6 hours)	3
LAT 3113	Advanced Prose: Cicero, Pliny the Elder, Pliny the Younger (max 6 hours)	3
LAT 3213	(max 6 hours)	3
LAT 3990	Independent Study (max 6 hours)	1-3
LAT 4133	(max 6 hours)	3
LAT 4213	Latin Lyric & Bucolic Poetry (max 6 hours)	3
LAT 4990	Independent Study (max 6 hours)	1-3

¹ Students may also use up to 3 hours of upper-division Classical Culture (CL C) or related area.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

General Information

The OU Department of Communication provides a broad-based liberal arts education and promotes communication research and development. The ability to communicate clearly, eloquently, and effectively has been the hallmark of an educated person since the beginning of recorded history. At the University of Oklahoma, the study of communication has been a part of the curriculum since 1896. Offering B.A. degrees starting in 1935, M.A. degrees in 1937, and Ph.D. degrees in 1952, OU's Department of Communication views communicative behavior as basic to human activity – to individual development, to interpersonal and social relationships, and to the functioning of political, economic, cultural, and social institutions. Through research and theory-building, we seek to interpret how individuals use symbols to understand and act within their environment.

The department's role as one of the communication discipline's most prestigious departments in a domain of great pragmatic importance commits us to a multi-level teaching program. Our Ph.D. and M.A. programs seek to place graduates in both academic settings with research and educational responsibilities and in non-academic settings

in business and industry. Our undergraduate program seeks to prepare majors for diverse career opportunities, prepare gifted students for advanced work, and develop the communication skills that contribute to the long-term advancement and happiness of all students.

Special Facilities and Programs

Students acquire meaningful job experience while earning college credit through the Department of Communication's internship program. The program allows students to apply their communication knowledge in the working world and enhance their college and career opportunities. Students have the option of choosing positions offered through the department's internship director or arranging for their own internships with the assistance of the internship advisor. The University also provides internship and career counseling through its office of Career Services.

Participation in communication organizations gives students an opportunity to meet others in their major as well as gain increased access to faculty, alumni and other professionals in the field. The Undergraduate Communication Association is open to all communication majors and minors, and Lambda Pi Eta, the department's honor society, recognizes outstanding students in communication.

Undergraduate Study Programs Offered

- Communication, Bachelor of Arts (p. 350)
- Communication, Minor (p. 352)

Theory and Practice

The goal of our undergraduate program is sharing the best available theories of communication and facilitating the application of these theories for:

- the improvement of the student's communication skills,
- increased understanding of the communication process, and
- development of the student's ability to analyze and interpret the elements of the communication process as they occur in society.

The department strives to achieve these objectives through varied coursework designed to prepare students for diverse career opportunities, prepare gifted students for advanced work, and develop the communication skills that contribute to the long-term advancement and happiness of all students.

Graduate Study

Master of Arts

- Communication, Master of Arts (p. 353)
- Organizational Communication, Master of Arts (p. 354)

Doctoral Programs

- Communication, Doctor of Philosophy (p. 354)

Most of our doctoral graduates apply their degrees toward careers in academic teaching and research, or communication-related fields making use of their research skills and expertise.

Areas of Specialization

Our students, both at the masters and doctoral levels, generally enter the program with interests focusing on one of our six areas of specialization or a combination of them:

- Intercultural/International Communication
- Interpersonal Communication/Social Influence
- Political/Mass Communication
- Health Communication
- Organizational Communication
- Communication Technology/CMC

Within our department, students tend to concentrate in one area while exploring and incorporating key empirical and theoretical concerns in other areas, often combining research objectives at the intersection of several sub-disciplines; for example, intercultural and health communication; social influence and mass media; or organizational communication and international health, to name but a few possibilities.

Courses

COMM 1113 Principles of Communication 3 Credit Hours

Introductory study of human communication emphasizing both theoretic understanding of the process as well as skillful application of communication principles and techniques within a variety of settings. (F, Sp, Su) [I-O].

COMM 2003 Communication in Non-Western Culture 3 Credit Hours

Designed to broaden students' perspectives on human communication beyond the boundaries of Western cultural traditions. Patterns of perception, language, verbal behavior, nonverbal behavior, and interpersonal orientation in Asian, Middle Eastern, African and Latin American traditions are studied. (F, Sp) [IV-WDC].

COMM 2111 Practicum in Forensics 1 Credit Hour

May be repeated; maximum credit four hours. Develop performance materials (speeches, interpretive cuttings, debate briefs) for use in speech/debate contests. Practice sessions with critiques of performances are given. (F, Sp)

COMM 2113 Business and Professional Communication 3 Credit Hours

Seeks to enhance the student's awareness and appreciation of communication processes in business and professional settings. An emphasis is placed on improving skills in interpersonal relations, professional oral presentations, interviews, and group processes. Career opportunities in business and professional contexts are discussed. (F, Sp) [I-O].

COMM 2213 Interpersonal Communication 3 Credit Hours

This course surveys theory and research related to interpersonal communication. The course focuses on effectively managing personal (e.g., romantic, family, roommates, and friends) and professional relationships (e.g., work and classroom). The course's format consists of lectures, group discussions, experiential activities, and written assignments. (F, Sp)

COMM 2323 Survey of Health Communication 3 Credit Hours

An introduction to one of the fastest-growing areas of the communication discipline: health communication. Surveys current issues, theory, and research surrounding health communication and it will focus on a variety of issues, such as perceptions of health, provider-patient relationships, health organizations, health campaigns, intercultural issues, and the use of new communication technologies in health care. (Irreg.) [III-SS].

COMM 2413 Media Literacy 3 Credit Hours

Students will develop the ability to question media content and to think critically about how media generate meaning and affect our lives. Topics include: social impact of popular culture, influence of advertising on media content, mass media as a global industry, how to read the news, and media as a source of information and entertainment. (Irreg.) [III-SS].

- COMM 2513 Introduction to Statistics 3 Credit Hours**
Prerequisite: Mathematics 0123 or a satisfactory score on the math placement test. This course introduces statistics with the purpose of providing tools for interpreting and conducting social science research. Topics include; central tendency, variability, normal distributions, sampling distributions, correlation, regression, T-tests, anovas, and nonparametric statistics. (F, Sp) [I-M].
- COMM 2613 Public Speaking 3 Credit Hours**
Develops skill in the composition and delivery of speeches suitable to various common speech situations and criteria for judging speeches heard or read. Topics include: nature of public speaking; choosing and presenting a topic; analyzing an audience; organizing and outlining. (F, Sp, Su) [I-O].
- COMM 2713 Communication Theory 3 Credit Hours**
Prerequisite: 1113. Examines the formats, roles, strategies and constraints of human communication in varied social contexts. (F, Sp)
- COMM 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- COMM 3003 Political Campaign Processes 3 Credit Hours**
Prerequisite: COMM 1113 or P SC 1113 and junior standing or permission of instructor. Teaches students to apply communication skills including public speaking, debating, mass media news and advertising to political campaigns. (F, Sp)
- COMM 3023 Communication Research Methods 3 Credit Hours**
Prerequisite: COMM 1113 and COMM 2513. Studies the goals, objects and methods of communication research. Emphasis is on the student's role as a critical consumer of research; exploration of vocational/professional applications of communication study. (F, Sp)
- COMM 3223 Small Group Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Examination of communication principles in the small group setting. Includes consideration of task and interpersonal dimensions, cohesiveness, conformity and approaches to leadership. (F, Sp)
- COMM 3243 Communication and Social Change 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Critical analysis and evaluation of persuasive strategies employed in historical and contemporary social movements, especially situations involving agitation and counter-agitation. (F, Sp)
- COMM 3253 Persuasion Principles 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. This course investigates various communication and social science theories dealing with cognitive, affective, emotional, and motivational processes associated with persuasion and social influence. The primary focus is on the psychological means and methods different sources use to manipulate communication to influence people within various contexts, as well as the means receivers have for accepting or resisting that influence. (Irreg.)
- COMM 3263 Organizational Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Focus on the communication patterns and strategies of private and governmental organizations, including most recent research on problems in management, motivation and communication systems. (F, Sp)
- COMM 3283 Communication and Emotion 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Communication and emotion is an advanced course designed to examine the interrelationships between human communication and affective, emotional, and cognitive processes. Emphasis is on theory and research regarding the function of affect and emotion as they impact thinking, feeling, mood, memory, and expression in communication and social interaction. (Irreg.)
- COMM 3313 Communication and Public Health 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Introduction to concepts fundamental to understanding human health behavior and health promotion. Describes prevalent health behavior, psychosocial, and psychological theories of behavior change used by health educators and researchers in a variety of contexts. Examines several individual-based, social-based, organization-based, and eco-social theories, including the health belief model, the theory of planned behavior, the transtheoretical model, decision-making, and social support. (F, Sp)
- COMM 3413 Interethnic Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Examines the nature of communication between individuals of differing ethnic/racial backgrounds. Identifies behaviors that impede or facilitate the development of positive interethnic relationships. Explores various societal, situational, and psychological forces that influence the communication process. (F, Sp)
- COMM 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: COMM 1113 and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Project (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- COMM 3443 Deception 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. This course explores the varieties of deceptive communication, their causes and consequences in a wide range of contexts, as well as strategies that can be used to detect their occurrence. (F, Sp)
- COMM 3483 Communication and Argumentation 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Seeks to acquaint the student with ways of constructing valid arguments, with application to such communication contexts as policy making, legal decision-making, organizational decision-making and personal inquiry. Fundamentals of argumentation are explored, along with methods of argument construction and numerous contextual applications. (F, Sp)
- COMM 3513 Intercultural Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Introduction to intercultural communication theory, research, and application addressing the challenges and the promise of communicating with people with differing cultural/subcultural backgrounds. Topics include cross-cultural variations in communication behavior, intercultural communication effectiveness, intercultural relationship development, cross-cultural adaptation, and intercultural community building. (F, Sp) [IV-WC].

- COMM 3523 Communication in Relationships 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Introduces and discusses various theoretical approaches (social exchange, pragmatism, social cognition, etc.) toward understanding human interaction. In addition, the following topics are covered: relationship development and termination, life-span communication, the family, friendship relationships, therapeutic relationships, and interpersonal relationships in various organizational settings. (F, Sp)
- COMM 3543 Conflict Management and Negotiation 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Expands understanding and practical experience with negotiation and conflict management. Provides an understanding of negotiation and conflict management processes in a wide range of contexts and from a communication perspective. Also examines factors that influence communication in negotiation and conflict, types of strategies used, and their outcomes for the management of such situations. (Sp)
- COMM 3563 Risk and Crisis Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Provides an understanding of the theory, research, and practice related to risk and crisis communication. The course's format consists of lectures, group discussions, experiential activities, and written assignments that require your active involvement. (Irreg.)
- COMM 3573 Communication and Humor 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Provides an understanding of the role of humor in communication. Students will learn about theories and ideas related to humor and its effects on a variety of issues, including: relationships, persuasion, identity, media, and politics. Insight will be gained into humor and communication in a way that illuminates important issues in life. (Irreg.)
- COMM 3643 Media and Society 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Examines the role of the mass media in social life. Topics include the impact of technology, economics, law, work routines, and culture on media content, and the relationship between the messages created and the audiences that receive them. Competing theories about information dissemination and reception are considered. Emphasis on providing students a framework for thinking critically about mass media content. (Irreg.)
- COMM 3653 Computer Mediated Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. An introduction to the area of computer-mediated communication (CMC). Will look at a number of contexts for CMC, including CMC and interpersonal communication, on-line communities, CMC within organizations, and CMC as mass communication. Will introduce students to the history of computer-mediated communication, theories of computer-mediated communication, and will explore communication within a variety of internet-based populations. (Irreg.)
- COMM 3810 Variable Topics in Communication 1-6 Credit Hours**
1 to 6 hours. Prerequisite: COMM 1113 and junior standing or permission of instructor. May be repeated with change of content; maximum credit six hours. Content will vary, but will cover a specific aspect or issue in Communication. Designed to present content not currently offered in regularly scheduled courses. (Irreg.)
- COMM 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1113, 2713 or junior standing with permission of instructor, and admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (Irreg.)
- COMM 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1113, 2713 or junior standing with permission of instructor, and admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted honors candidate to work at a special project in the student's field. (Irreg.)
- COMM 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- COMM G4010 Communication Internship 1-3 Credit Hours**
1 to 6 hours. Prerequisite: junior or senior who has completed two-thirds of the communication courses required for graduation, plus permission of instructor. Applicants must have minimum overall GPA of 2.50 or higher and a minimum GPA of 2.75 in communication courses. May be repeated; maximum credit six hours. A planned work experience related to personal career and academic goals, integrated into the student's academic schedule. It includes working in an assigned workplace several hours a week in addition to completing academic assignments and meeting regularly with organizational and academic supervisors. (F, Sp, Su)
- COMM 4153 Nonverbal Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Seeks to expose students to recent research on nonverbal behavior, emphasizing those properties of communication which characterize social and cultural group memberships. (Irreg.)
- COMM G4233 Free Speech: Responsible Communication Under Law 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. A study of the interaction between communication and the law. A consideration of the role of law as both deterrent and protector of the communicator's efforts. Attempts to provide a better understanding of the pervasiveness of regulation of communication. (Irreg.)
- COMM 4243 Family Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Examines social science research related to communication processes in family relationships. Focuses on the impact of communication in the development, maintenance, and dissolution of family relationships. Topics include: research methods and theory, stage models of family development, diversity issues related to families, and communication patterns related to different family forms including single-parent families, nuclear families, stepfamilies, and extended families. (Irreg.)
- COMM 4253 Strategic Communication Campaigns 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Course focus is on the use of influence in modern campaigns. The course attempts to apply theories and strategies of persuasion to applied campaign settings. The broad objectives of the course includes fostering a student's ability to understand and to use the theories, strategies, and methods involved in persuasive campaigns in a generic sense and in terms of specific contexts. (Irreg.)
- COMM 4323 Political Communication 3 Credit Hours**
(Crosslisted with P SC 4323) Prerequisite: COMM 1113 or P SC 1113 and junior standing or permission of instructor. This course considers the role of communication in democracy. Topics include the kinds of information necessary to sustain democratic systems, the ways in which citizens are informed about public affairs, the function of news media in democratic systems, and how citizens, media and political leaders interact. (F, Sp)

- COMM 4413 Issues in Health Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Communication theories and principles in various contexts. Will be a thematic course, which focuses on in-depth, context-specific, health-related research and theories. Introduces various themes that are important in health communication, with particular focuses on interpersonal (e.g., social support, uncertainty management, provider-patient communication), cross-cultural (e.g., cross-cultural health care and illness ideology), and organizational (e.g., HMOs and risk communication) contexts. (Irreg.)
- COMM 4423 Communication and Public Opinion 3 Credit Hours**
Prerequisite: COMM 1113 or P SC 1113 and junior standing or permission of instructor. Examines the concept and measurement of public opinion. Students learn critical and analytical tools for evaluating the current role of public opinion in democratic societies. Topics include how to measure public opinion, interpreting polling data, social and psychological aspects of public opinion, impacts of media and interpersonal communication on public opinion, and public opinion as group behavior. (Irreg.)
- COMM 4513 International Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Presentation and discussion of academic analyses of culture, politics, and ethics in various non-USA media systems. Issues covered include media ownership and concentration, ethnicity and gender in the media, media and international conflict, non-western media industries, global media audiences, and new information and communication technologies. (F, Sp)
- COMM 4643 Mass Media Effects 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Examines theories and research that informs conclusions about mass communication effects. Focuses on media use patterns, social effects (violence, pornography, and stereotyping) and effects on children, public opinion, political effects (election campaigns), economic effects (advertising), cultural effects, new communication technologies, and long-term effects. The course also seeks to enhance the skills of critical reading, logical thinking, and use of media. (F)
- COMM 4713 Issues in Communication Study 3 Credit Hours**
Prerequisite: Departmental permission, COMM 1113, COMM 2613, COMM 2713 (with a grade of C or better), COMM 3023 (with a grade of C or better), COMM 2513 and nine hours of Communication electives at the upper-division level; Must have earned senior standing (90 hours or more) prior to the semester of enrollment. Provides the opportunity to integrate knowledge about communication and apply it to a project culminating in a speech and senior paper. The project will develop a selected problem, issue, or controversy in communication. (F, Sp, Su) [V].
- COMM 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- COMM 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- COMM 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: COMM 1113 and COMM 2713 or junior standing with permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- COMM 5003 Quantitative Research Methods 3 Credit Hours**
Prerequisite: Graduate standing. This course introduces students to social-behavioral science processes of inquiry about human communication phenomena. It Examines the relationship of theory and method, looks at various research paradigms and designs, and provides an introduction to descriptive and inferential statistics. (Sp)
- COMM 5013 Introduction to Graduate Study 3 Credit Hours**
Prerequisite: graduate standing or permission. Traces the development of research and professions in communication, providing an integrative conception of the discipline and an introduction to research and theory formulation. Students are exposed to those skills critical to success in graduate training in communication. (F)
- COMM 5023 Introduction to Quantitative Research Methods 3 Credit Hours**
Prerequisite: graduate standing. Introduction to social-behavioral science processes of inquiry about human communication phenomena for graduate students not pursuing a Ph.D. Examines the relationship of theory and method, between research paradigms and designs, and provides an introduction to descriptive and inferential statistics. (F, Sp, Su)
- COMM 5033 Advanced Statistics 3 Credit Hours**
Prerequisite: graduate standing and COMM 5003, or permission of instructor. Advanced statistics covering topics which include: ANOVA, ANCOVA, MANOVA, multiple regression, path analysis, and confirmatory and exploratory factor analysis. (F)
- COMM 5043 Organizational Research Practicum 3 Credit Hours**
Prerequisite: graduate student major who has completed two-thirds of the communication courses required for graduation, plus permission. Applicants must have an overall grade point average of 3.25 or higher. Provides practical research experience in an organization. Student adviser and organization's sponsor must agree through a written contract about the goals, plan, and activities associated with the research project. (Irreg.)
- COMM 5053 Introduction to Qualitative Research Methods 3 Credit Hours**
Prerequisite: graduate standing. Introduction to various qualitative methodological strategies used in the social sciences for students not pursuing a Ph.D. Examines the relationship of method and theory and the process of collecting, coding, and analyzing data. (F, Sp, Su)
- COMM 5213 Interpersonal Communication 3 Credit Hours**
Prerequisite: graduate standing or permission. Studies the research and theories in interpersonal communication with emphasis on dyads and small groups, public address, message analysis and nonverbal communication. (Irreg.)
- COMM 5233 Communication and Social Change 3 Credit Hours**
Prerequisite: graduate standing or permission. Studies alternative theories of social change, both historical and modern, with emphasis on the role played by communication at the interpersonal, group and social levels. (F)

COMM 5253 Cross-Cultural Communication: Theory and Research 3 Credit Hours

Prerequisite: graduate standing or permission. Study of theory of cross-cultural communication with special attention to language, stereotyping, perception, role, power and nonverbal communication as such variables operate in cross-cultural situations. (Irreg.)

COMM 5263 Health Communication in Interpersonal Contexts 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. Provides a broad overview of theoretical and applied approaches to health communication. A variety of health communication topics including doctor-patient communication, health information campaigns, mass media influences on health, role of culture in health and disease, health care organizations, and group influences on well-being will be presented. (F)

COMM 5313 Qualitative Research Methods 3 Credit Hours

Prerequisite: graduate standing. Survey of different qualitative methodological strategies used in the social sciences to collect, code, and analyze information. (Sp)

COMM 5323 Advanced Qualitative Research 3 Credit Hours

Prerequisite: 5313. Designed to immerse students in the actual experience of conducting qualitative research in the field. Emphasis on participatory observation, ethnographic research, and textual analysis. (F)

COMM 5333 Organizational Communication 3 Credit Hours

Prerequisite: graduate standing. Focuses on the communication environment of organizations, both internal and external, emphasizing implications of organizational designs for communication, communication principles to motivate employees, and the role of communication for productivity and the quality of life. (Irreg.)

COMM 5353 Conflict Management 3 Credit Hours

Prerequisite: graduate standing. Examines theory and research about conflict management in various communication contexts. Takes a social scientific approach to conflict management with emphasis on cognitive processes, affective systems, interaction sequences and strategies and tactics related to how people negotiate the meaning and management/resolution of conflict. (Irreg.)

COMM 5363 Communication and Technology 3 Credit Hours

Prerequisite: graduate standing or permission. Provides a comprehensive overview of emerging technologies (e.g., teleconferencing, electronic mail, videotext, electronic bulletin boards, telecommuting, distance education, media richness, voice messaging, invisible technologies, etc.) and analyzes some of the social and behavioral effects of these technologies on human interaction in interpersonal, organizational, small group, and international contexts. (F)

COMM 5373 Communication and Leadership 3 Credit Hours

Prerequisite: graduate standing. Examines theory and research related to the philosophy and behaviors associated with leadership communication in various contexts. Emphasis placed on unique aspects of messages as individuals enact leadership roles. Scholarship from several areas of the social sciences will be considered, but communication theory will be given primary emphasis. (F)

COMM 5383 Survey of Political Communication 3 Credit Hours

(Crosslisted with P SC 5383) Prerequisite: graduate standing. Embraces the premise that meaningful democracy requires an effective political communication system. Examines some of the tensions between the requirements of democracy and the forms of communication that have emerged to meet them, exploring the roles of political leaders, citizens, and the media in the evolution of a democratic political information system. (Irreg.)

COMM 5393 Risk and Crisis Communication 3 Credit Hours

Prerequisite: graduate standing. The term "risk communication" refers to a body of knowledge and a set of practical skills that can be used in characterizing and managing issues, disseminating information, and communicating effectively in crises or emergency situations. Examines key concepts of risk communication, investigates risk communication theories and approaches as well as implements practical application in learning about communicating in risk situations. (Irreg.)

COMM 5453 Social Influence 3 Credit Hours

Prerequisite: graduate standing. A social scientific approach to the study of influence (persuasion), emphasizing scholarship drawn from speech communication, mass communication and social psychology. (F)

COMM 5553 Survey of Communication Campaigns 3 Credit Hours

Prerequisite: graduate standing. Theory and research about persuasive communication campaigns which involve conscious sustained communication efforts designed to influence the thinking, feelings and/or behaviors of targeted receiver groups. (Sp)

COMM 5810 Special Topics in Communication 1-4 Credit Hours

1 to 4 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Topics will vary and are intended to acquaint the graduate communication major with specialized study involving communication theory, methodology and research. (F, Sp, Su)

COMM 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate Standing and permission of instructor; May be repeated; maximum credit three hours for the master's degree and nine hours for the Ph.D. Intensive survey of the literature in a selected area of communication under the direction of a graduate faculty member. (F, Sp, Su)

COMM 5970 Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing; others vary by topic. May be repeated with change of content; maximum credit nine hours. Varied special topics in communication. (Irreg.)

COMM 5980 Research for Master's Thesis 2-9 Credit Hours

2 to 9 hours. Prerequisite: Graduate standing, majors only, and permission of instructor. Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

COMM 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated; maximum credit eight hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

COMM 6023 Communication Research Task Groups 3 Credit Hours

Prerequisite: Graduate standing and permission of instructor; May be repeated; maximum credit 15 hours. Designed to explore numerous topics in communication study, including the development and execution of research in communication. (F, Sp, Su)

COMM 6233 Small Group Processes 3 Credit Hours

Prerequisite: graduate standing. Considers current status of small group theory and research, emphasizing leadership. Includes both the development of a tentative theory of leadership and the application of small group theory to the process of decision making. (F, Sp)

COMM 6314 History and Theory of Communication 4 Credit Hours

Prerequisite: 5003, 5013, and 5313 or permission of instructor.

Presents the evolution of communication theory from ancient rhetorical traditions to the present. Topics covered include: classical origins of communication; enlightenment contributions to theory; interdisciplinary roots of communication study; and contemporary theories of communication. (Sp)

COMM 6323 International Communication 3 Credit Hours

Prerequisite: graduate standing or permission. An interdisciplinary survey of theory and research pertaining to issues of mass media and information and communication technologies and their interaction with culture, identity, politics, and ethics. (Irreg.)

COMM 6413 Interethnic Communication Seminar 3 Credit Hours

Prerequisite: graduate standing or permission. An interdisciplinary survey of theory and research pertaining to issues of interethnic/interracial communication. Specific verbal and nonverbal communication behaviors are examined in conjunction with salient contextual factors of the macro-societal, situational, and psychological milieu surrounding the communication process. (Irreg.)

COMM 6423 Communication in Health Organizations 3 Credit Hours

Prerequisite: graduate standing. Examines delivery and exchange of messages within health organizations with emphasis on conflict, bargaining, and negotiating, communication networks and environments, virtual systems of communication, etc. (Sp)

COMM 6433 Seminar in Intercultural Communication 3 Credit Hours

Prerequisite: graduate standing. Studies communication across cultural boundaries with emphasis on comparative analysis of communication systems of various cultures, factors involved in predicting intercultural communication patterns and effects, and the role of communication in cultural and technological development. Special attention is given to communication problems between subcultures in American society. (Irreg.)

COMM 6453 Seminar in Social Influence 3 Credit Hours

Prerequisite: graduate standing. May be repeated with change of content; maximum credit six hours. Seminar on specialized topic in social influence. Content focus varies with instructor. (Sp)

COMM 6463 Media and Political Behavior 3 Credit Hours

Prerequisite: graduate standing. Examines the interplay of mediated communication and political behavior. Focuses on individual-level psychological processes that shed light on how news, political campaigns, new media, and entertainment programming may influence socialization, attitude formation, political decision-making and participation. (Irreg.)

COMM 6473 Communication and Public Opinion 3 Credit Hours

Prerequisite: graduate standing. Focuses on how collective and individual opinions are formed, communicated, and deployed to make decisions. Examines different conceptions of public opinion, such as the aggregation of individual citizens' opinions, the development of shared values and beliefs, and the active negotiation of opinion in the public sphere. (Irreg.)

COMM 6483 Media and Civic Life 3 Credit Hours

Prerequisite: graduate standing. Focuses on the relationship between media and civic life, including campaigns and engagement in the electoral arena, as well as broader perspectives of life as part of the general body politic. Examines the changing news and media landscape, including the affordances and limitations of contemporary and emerging communication platforms in democratic politics. (Irreg.)

COMM 6523 Health, Culture, and Communication 3 Credit Hours

Prerequisite: graduate standing and permission of department. Examines the complex definitions and dimensions of culture and the various pathways in which culture can shape patients' illness experiences and providers' behaviors. This course focuses on three general areas: culture and health behaviors; healthcare delivery in cross-cultural contexts, and minority health. (Irreg.)

COMM 6563 Structural Equation Modeling 3 Credit Hours

Prerequisites: graduate standing and COMM 5033. Introduction to the analysis of covariance structures. Topics covered include confirmatory factor analysis, structural equation modeling, multi-group analyses, and latent means models. (Irreg.)

COMM 6573 Social Network Analysis 3 Credit Hours

Prerequisites: graduate standing and COMM 5033. Reviews theoretical, conceptual, and analytic issues associated with network perspectives on communicating and organizing. The course will review scholarship on the science of networks in communication, economics, organizational science, public health, political science, psychology, and sociology, in order to take an in-depth look at theories, methods, and tools to examine the structure and dynamics of networks. (Irreg.)

COMM 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated; maximum credit three hours for the master's degree and nine hours for the Ph.D. degree. Directed readings and/or literature review under the direction of a faculty member. (F, Sp, Su)

COMM 6970 Seminar in Communication 1-4 Credit Hours

1 to 4 hours. Prerequisite: graduate standing. May be repeated with change of content; maximum credit 15 hours. (F, Sp, Su)

COMM 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Maximum credit applicable toward degree, 15 hours. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

COMM 6990 Independent Study 1-4 Credit Hours

1 to 4 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated; maximum credit eight hours. An individual course of intensive study with the area and problem to be determined by the student and the instructor responsible for supervising the study. (F, Sp, Su)

Communication, B.A.

Minimum Total Credit Hours: 120

Major Hours: 36

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B210

Major Requirements

- The Department of Communication *does not* permit major coursework to also fulfill General Education or Dodge College of Arts and Sciences Requirements.
- COMM 2513 may be used to satisfy General Education Mathematics requirement if not used for major credit.
- **COMM 2713, COMM 3023, and COMM 4713 must be completed with a grade of C or better, with a maximum of two attempts per course.** These courses are not available through correspondence or transfer credit.

Code	Title	Credit Hours
Required Courses		
COMM 1113	Principles of Communication	3
COMM 2613	Public Speaking	3
Choose one of the following:		
COMM 2513	Introduction to Statistics	3
ECON 2843	Elements of Statistics	
PSY 2003	Understanding Statistics	
SOC 3123	Social Statistics	
COMM 2713	Communication Theory	3
COMM 3023	Communication Research Methods	3
COMM 4713	Issues in Communication Study ¹	3
Communication Electives		
Choose 18-21 hours, including 12-15 at the upper-division level		18-21
Total Credit Hours		36

¹ Students must complete a minimum of nine hours of upper-division COMM electives before taking COMM 4713.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
<i>Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Culture</i>		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
<i>World Culture</i>		
Choose one course from the General Education World Culture list		3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>		
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Communication academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Communication major requirements.

Freshman

Free Elective, upper-division (3000-4000-level)	3
Credit Hours	14
Total Credit Hours	120

¹ COMM 2513 is included as fulfilling the General Education Math requirement. This course may not be double-counted as both General Education and major course hours.

² COMM 2713, COMM 3023, and COMM 4713 comprise the three core Communication courses; a grade of C or better is required with a maximum of two attempts per course. These courses may not be completed through transfer credit or correspondence.

Communication, Minor

Minimum Total Credit Hours: 21

Minimum Upper-Division Hours: 9

Program Code: N210

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Communication.

Required Courses

Students must successfully complete at least 21 hours of courses acceptable for major credit in Communication, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
COMM 1113	Principles of Communication ¹	3
COMM 2713	Communication Theory ²	3
Choose 15 additional hours of COMM courses acceptable for major credit, including at least nine (9) at the upper-division level: ^{3,4}		15
Total Credit Hours		21

¹ This course must be taken before the other courses for the minor.

² A grade of C or better must be earned, with a maximum of two (2) attempts allowed for this course.

³ If COMM 3023 and COMM 4713 are taken, a grade of C or better must be earned in each course; a maximum of two (2) attempts is allowed for these courses.

⁴ No more than six (6) credit hours of COMM 3810 and no more than three (3) credit hours of COMM 4990 may count toward the total required for the minor.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Up to 30 credit hours from a previous master's degree, as approved by advisor and doctoral advisory committee		0-30
Electives as required to reach 96 post-baccalaureate hours		26-72
Total Credit Hours		96

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

General Information

An Economics major is one of the most useful in preparing students for careers in the business world as well as graduate study. The exposure to economic analysis (theoretical and empirical) makes Economics majors attractive to many job recruiters and graduate schools because of the exposure to rigorous analytical thinking.

The skills taught to Economics majors provide a solid foundation and preparation for many business occupations. Economic majors are also attractive to various branches of the Federal, State, and Local governments. These agencies offer extensive employment opportunities for undergraduate Economics majors. Economics majors are very well-suited and prepared for advanced degrees in Economics, Business and Law. Many law school representatives believe that Economics is one of the best and most desired pre-law majors because of the analytical training and logical thinking involved in the discipline. The wide range of theoretical, analytical, and empirical courses offered ensure that our undergraduate program equips students with the skills to successfully pursue advanced degrees in Economics.

Programs & Facilities

Student Journal of Economics

The Journal of Economics is an on-going student-led publication at the University of Oklahoma dedicated to developing scholarship in Economics and related fields at the undergraduate and graduate levels.

Student Organizations

Omicron Delta Epsilon

Both undergraduate and graduate students who have demonstrated their scholastic excellence are eligible for membership in this international economics honor society.

OU Economics Club

The Economics Club seeks to enhance economic knowledge within the OU community through fun and relevant events. Econ Club promotes economics as a field of study to potential majors/minors, hosts events for students of all majors to see different applications of the economic perspective, and provides opportunities for those with a shared interest in economics to meet and network.

We host a weekly speaker series as well as social outings, company information sessions, an annual trip to the Dallas Federal Reserve, and more. Econ Club also gives OU students the chance to learn more about OU Economics professor's research, locate informal peer advising and tutoring, and sometimes discuss various current events as they pertain to economics.

Email economics.club@ou.edu for more information.

Scholarships

Alexander B. Holmes Scholarships

The Holmes scholarships are merit scholarships with the following criteria: Full-time, regularly enrolled students in the Department of Economics; any eligible deserving undergraduate student is qualified for either an initial award or a subsequent award if the student is making satisfactory progress toward graduation and has achieved a high level of academic excellence; must maintain at least a 3.0 GPA.

Robert Dean Bass Memorial Scholarships

The Bass scholarships are merit scholarships for which undergraduate students in Economics and Political Science are eligible. Students must have a minimum 3.65 GPA, at least 40 hours completed at OU, and no more than 90 completed hours. Students must be planning on a career in government.

Internships

The Department of Economics has an active internship program with some state agencies and other local businesses (consulting firms and utility companies). The internship program exposes students to the practical aspects of Economics. Also, some of these internships have turned into permanent positions. Students who participate in an internship may enroll in 3 hours of directed readings and receive credit, under the supervision of a professor. A research paper is required to receive credit for the internship.

Undergraduate Study

Programs Offered

- Economics, Bachelor of Arts (p. 360)
- Economics, Bachelor of Arts/Master of Arts (p. 363) accelerated program
- Economics, Minor (p. 362)

Students may major in economics either through the College of Arts and Sciences or the Price College of Business. Students interested in majoring in economics through the Price College of Business follow the degree plan leading to the Economics Bachelor of Business Administration (p. 871)

Graduate Study

Master of Arts Degree

Each candidate for the Master of Arts degree in economics can choose the econometrics track (p. 365), the applied economics track (p. 366) or the managerial economics track (p. 366). The applied economics track is designed for students seeking jobs in either the private or public sectors. The first year coursework of this program coincides with the first year coursework of the Ph.D. program, so this track is also appropriate for students who might wish to pursue a Ph.D. degree. The managerial economics track is designed for those students who expect to pursue a managerial career in business or government and prefer a course of study that emphasizes the applications of economics to the problems of these

areas. It is a terminal degree. Those students who have the objective of further graduate study to the doctoral level should choose the applied track of the master's program.

Economics Doctoral Program

The doctoral program (p. 367) is designed with the goal of providing students with maximum support in the pursuit of their career objectives. This process culminates in a significant work of original research in the form of a dissertation. Having completed all requirements, students are fully qualified to pursue academic, professional, or governmental careers.

Courses

ECON 1113 Principles of Economics-Macro 3 Credit Hours

Prerequisite: Satisfactory score on the Math placement test, or, for incoming freshmen direct from high school, satisfactory score on the ACT/SAT. The functioning and current problems of the aggregate economy: determination and analysis of national income, employment, inflation and stabilization; money and banking, monetary and fiscal policy; and aspects of international interdependence. Laboratory (F, Sp, Su) [III-SS].

ECON 1123 Principles of Economics-Micro 3 Credit Hours

Prerequisite: Satisfactory score on the Math placement test, or, for incoming freshmen direct from high school, satisfactory score on the ACT/SAT. Goals, incentives and allocation of resources resulting from economic behavior with applications and illustrations from current issues: operation of markets for goods, services and factors of production; the behavior of firms and industries in different types of competition and income distribution. Laboratory (F, Sp, Su) [III-SS].

ECON 2033 Your Guide to a Crazy World 3 Credit Hours

Have you ever wondered "What job is right for me?" or "Why do I do weird things?" Together, we'll explore the exciting world of economics in ways you've never imagined. From how we behave, to laws, health, cities, making a difference, politics, and much more. So, buckle up, and let's uncover the mysteries of life in our wild, wacky world! (F, Sp) [III-SS].

ECON 2843 Elements of Statistics 3 Credit Hours

Prerequisite: ALEKS math assessment score of 040 or higher, or Math Offer of MATH 1523 or higher, or completion of MATH 1503 or higher. Basic statistical techniques emphasizing business and economic applications. Topics covered include data summary techniques, elementary probability theory, estimation, hypothesis testing, simple regression, time-series and index numbers. Laboratory (F, Sp, Su) [I-M].

ECON 2970 Special Topics 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ECON 3113 Intermediate Microeconomic Theory 3 Credit Hours

Prerequisite: ECON 1113 and ECON 1123 with a grade of C or better and Mathematics 1743 or 1823 or 1914. Fundamental economic concepts and principles; value and distribution theories under conditions of competition, monopoly and monopolistic competition. Appraisal of modern problems in terms of these theories. (F, Sp, Su) [III-SS].

ECON 3133 Intermediate Macroeconomic Theory 3 Credit Hours

Prerequisite: a grade of C or better in ECON 1113, ECON 1123, and MATH 1743 or 1823 or 1914. National income concepts; aggregate demand by household, business, government, and foreign sectors; determination of national income, interest rate, price, output, and employment levels. (F, Sp, Su)

ECON 3213 Environmental Economics 3 Credit Hours

Prerequisite: a grade of C or better in ECON 1123. Economic approach to environmental protection; analysis focuses on property rights and externalities. Examines strategies for addressing externalities including command-and-control regulation, emissions taxes, and tradable discharge permits. Topics include air pollution, water pollution, waste disposal and recycling, and endangered species protection. (Irreg.)

ECON 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ECON 3513 Labor Problems 3 Credit Hours

Prerequisite: a grade of C or better in 1113 and 1123. Problems of labor in an industrial society; wages, hours, working conditions, child labor. Conflicts between management and labor. (F)

ECON 3523 Health Economics 3 Credit Hours

Prerequisite: ECON 1113 and ECON 1123 with a grade of C or higher. Overall view of health economics. Covers health insurance markets, externalities in health and medical care, health and labor markets, government intervention in health care provision, current health programs in the United States and models of health production. (Irreg.)

ECON 3613 International Trade Theory and Problems 3 Credit Hours

Prerequisite: a grade of C or better in 1113 and 1123. Benefits of trade, determination of the direction and level of trade, commercial policy and trade barriers, international trade problems and issues. (F, Sp)

ECON 3633 International Finance Theory and Problems 3 Credit Hours

Prerequisite: a grade of C or better in 1113 and 1123. Effects of international trade on employment, inflation, the exchange rate, effects of devaluation, types of international monetary arrangements, effects of foreign transfers, open economy macroeconomic policy. (F, Sp)

ECON 3713 Governmental Relations to Business 3 Credit Hours

Prerequisite: a grade of C or better in ECON 1113 and ECON 1123. Analysis of economic aspects of government regulation and direction of business enterprise; controls affecting managerial discretion in the determination of prices and other basic business policies. (F, Sp, Su) [III-SS].

ECON 3880 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Readings will consist of topics designated by the instructor in keeping with student's specialization within major program. Topics will cover materials not usually presented in regular courses. (F, Sp, Su)

ECON 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to the Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

ECON 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content deals with concepts not usually presented in regular coursework. (Sp)

- ECON 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- ECON 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- ECON G4223 Econometric Analysis 3 Credit Hours**
Prerequisite: a grade of C or better in 1113, 1123, and 2843. Classical statistical inference; means, proportions, variances, analysis of variance and covariance; regression and correlation analysis; normal, binomial, chi-square, t, F, Poisson, exponential distributions. (F, Sp) [I-M]
- ECON G4313 Industrial Organization 3 Credit Hours**
Prerequisite: ECON 1113 and ECON 1123 with a grade of C or better. Industrial organization studies the way firms interact and compete with each other. Covers pricing strategies (price discrimination, bundling and tie-in sales); product strategies (product variety, quality, advertising); and mergers and acquisitions. Can be taken for graduate credit. (Irreg.)
- ECON G4353 Public Finance: Issues and Taxation 3 Credit Hours**
Prerequisite: a grade of C or better in 1113 and 1123. Public expenditures, their nature, cause of the increase, and classification; sources of public revenue; methods of distributing the tax burdens; public debts and debt management; introduction to fiscal theory and policy. (F, Sp)
- ECON G4363 Sports Economics 3 Credit Hours**
Prerequisite: ECON 1113 and ECON 1123 with a grade of C or higher, or permission of instructor. Application of economics principles and techniques to sports-related topics and problems. (Irreg.)
- ECON 4413 International Trade, Laws and Institutions 3 Credit Hours**
Prerequisite: a grade of C or better in ECON 3613. Explores the interface of the economics and legal professions' analysis of international trade. The class will explore some of the issues and topics of common interest from the perspective of each profession. (F)
- ECON G4453 Urban Economics 3 Credit Hours**
Prerequisite: ECON 3113 with a grade of C or better. Study of economic models of urban location, including firm location and residential location models. Public policy topics of urban taxation, residential housing discrimination, urban renewal, etc., will also be discussed from an economic perspective. Can be taken for graduate credit. (Irreg.)
- ECON G4513 The Economics of Discrimination 3 Credit Hours**
Prerequisite: a grade of C or better in 1113 and 1123. This course will focus on discrimination in the labor market. Topics to be covered include wage discrimination, employment discrimination, and occupational segregation. Examples will be drawn frequently from current events and public policies. (F, Sp)
- ECON G4523 Economics of Education 3 Credit Hours**
Prerequisite: Sophomore standing; ECON 1123 and ECON 2843. This course will focus on policy analysis of the market for education in the United States, including production and consumption of education services. Students will discuss and critically evaluate scientific studies related to key questions in the policy debate, and will learn tools for understanding how to distinguish between correlation and causation in the world of education policy. (F, Sp)
- ECON G4673 Economics-Money & Banking 3 Credit Hours**
Prerequisite: ECON 3133 with a grade of C or better. Introduces the role of money, banks and financial institutions in the economy. Topics include banking and financial intermediation, financial market regulation, monetary economics and economic fluctuations, and monetary policy. Can be taken for graduate credit. (F)
- ECON G4733 Economic Development in the Middle East 3 Credit Hours**
Prerequisites: ECON 1113 and ECON 1123 with a grade of C or higher; ECON 3133 and/or ECON 3633 recommended. An introduction to the existing debates on comparative economic development in the Middle East and North Africa region during the post-independence period. (Irreg.)
- ECON G4773 Economic Game Theory 3 Credit Hours**
Prerequisite: ECON 3113 with a grade of C or better, and Mathematics 2123 or Mathematics 2423. Develops the fundamental concept of the Nash equilibrium, advancing to refinements such as subgame perfection and Bayesian perfection. Applications include oligopoly, adverse selection in insurance markets, and moral hazard in agency. May be taken for graduate credit (Sp)
- ECON G4783 Behavioral and Experimental Economics 3 Credit Hours**
Prerequisite: ECON 1113, ECON 1123 and ECON 2843 with a grade of C or better. Analysis of behavioral economics models and factors using experimental approaches; investigation of where human behavior does not always fit standard economic models; experiments and theory covering game theory, market equilibrium, public choices, auctions, and bargaining. Can be taken for graduate credit. (Irreg.)
- ECON 4853 World Economic Development 3 Credit Hours**
(Slashlisted with 5853) Prerequisite: a grade of C or better in 1113 and 1123. The economics of the developing nations; a review and analysis of common problems and issues. (Irreg.)
- ECON 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- ECON 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ECON 4983 Economics as Social Science 3 Credit Hours**
Prerequisite: a grade of C or better in 2843, 3113 and 3133, or permission of instructor. Examination of selected topics in various subdisciplines within economics e.g., international trade and finance, econometrics, energy economics, public finance, labor economics, economic history and development, etc. [V]
- ECON 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- ECON 5023 Statistics for Decision Making 3 Credit Hours**
Prerequisite: admission to Master of Business Administration program or permission of instructor. Covers basic probability density functions, the parametric estimating techniques of linear multivariate regression analysis and the elements of statistical decision making under uncertainty. (F, Sp, Su)

- ECON 5033 Managerial Economics I 3 Credit Hours**
Prerequisite: graduate standing. Practical applications of economic theory and techniques to business problems. Topics include: demand theory and estimation; production and cost theory; empirical cost analysis; pricing practices, market structure and antitrust policy; corporate strategies for dealing with risk; long-term investment decisions with emphasis on plant size, technological change and investment requirements. (F, Sp)
- ECON 5043 Managerial Economics II 3 Credit Hours**
Prerequisite: 5033, 5073. Emphasizes current topics in several areas including: regulation, business and government, antitrust economics, the economics of intellectual capital markets, and the economics of technological change. Strategies for management will also be discussed. (Irreg.)
- ECON 5073 Contemporary Economic Methods and Analysis 3 Credit Hours**
A review of contemporary economic methodology and theory and their application to the analysis of macroeconomic questions and problems in the American economy. Techniques of economic forecasting will also be covered. (F, Sp, Su)
- ECON 5123 Advanced Price and Welfare Theory 3 Credit Hours**
Prerequisite: 3113 or equivalent, senior standing or permission. An intensive study of the static and dynamic welfare and efficiency properties of the price and market system method of social organization. Topics include: theory of markets, game theory, capital theory and intertemporal equilibrium, general equilibrium and employment, welfare theory. (Sp)
- ECON 5153 Mathematical Economics I 3 Credit Hours**
Prerequisite: 2843, 3113, 3133. Investigation of several important models of economic activity. Emphasis on methods of analysis and interpretation involving construction of mathematical models reflecting the economic substance of these models. Implications for economic policy considered.
- ECON 5163 Advanced Macroeconomic and Growth Theory 3 Credit Hours**
Prerequisite: 3113, 3133. Comparison of static macroeconomic systems; introduction to dynamic macroeconomic systems; post-Keynesian and modern theories of economic growth. (F)
- ECON 5173 Urban and Regional Analysis 3 Credit Hours**
(Crosslisted with RCPL 5173) Prerequisite: Regional and City Planning 5113 or equivalent. A lecture-seminar-problems-oriented course designed to acquaint the student with the scientific techniques used to analyze urban and regional social, economic, political and environmental problems. Oriented to reflect requirements for studies leading to the preparation of goals, policies, and plans for urban and regional scale development. (Sp)
- ECON 5213 Advanced Econometrics 3 Credit Hours**
Prerequisite: graduate standing. Measurement of micro- and macro-economic relations, both static and dynamic. Comparative statics and dynamics; practical use of inference from non-experimental data. Identification and estimation problems. (Irreg.)
- ECON 5223 Bayesian Econometrics 3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor. Bayesian inference is the process of fitting probability models to datasets, resulting in probability distributions of model parameters and other unobserved quantities. The course will emphasize estimation of regression and parametric models, model checking, evaluation and extension, and fundamentals of Markov Chain simulation. Recurring comparisons to frequentist methods will permit assessments of the strengths and weaknesses of the Bayesian approach. (Irreg.)
- ECON 5243 Econometrics II 3 Credit Hours**
Prerequisite: 5213. Examines topics and techniques in applied econometric analysis. Course topics include limited dependent variables, sample selection bias, systems of equations and the use of econometric software. (Sp)
- ECON 5253 Data Science for Economists 3 Credit Hours**
Prerequisite: Graduate standing and ECON 4223, ECON 5213 or ECON 5023; or permission of instructor. This class will provide an overview of the data science workflow, from collecting raw data to drawing a set of insights from which a decision maker can make informed decisions. The course will broadly cover a variety of advances in data collection, data storage, visualization, machine learning, and econometrics topics, as well as teaching and reinforcing good programming practices. (F, Sp)
- ECON 5263 Econometrics Seminar 3 Credit Hours**
Prerequisite: Graduate standing; ECON 5213 and ECON 5243. This course introduces how to write a research paper that meets the standards of peer-reviewed economics journals. It emphasizes the importance of basic concepts required when a researcher submits a journal article. The main goal is to learn a set of research concepts and tools which an economics graduate student should be able to use for applied research in economics. (F, Sp)
- ECON 5283 Data Visualization and Analysis with Python 3 Credit Hours**
Prerequisite: Graduate Standing. Students will acquire essential skills for transforming data into meaningful visualizations and performing data analysis using Python. Emphasizing the creation of clear and elegant graphs from data, students will delve into the art of exploratory data visualization. Additionally, the course covers regression analysis and fundamental classification methods, demonstrating their real-world applications through hands-on experience with real data sets. (F, Sp, Su)
- ECON 5293 Machine Learning with Causal Inference 3 Credit Hours**
Prerequisite: Graduate Standing. This course explores the convergence of machine learning and causal inference, equipping students with the necessary skills to leverage the power of machine learning while investigating causal relationships in their analyses. It encompasses core machine learning techniques such as model selection, prediction, tree-based classification, and neural networks. (F, Sp, Su)
- ECON 5313 Advanced Industrial Organization 3 Credit Hours**
Prerequisite: graduate standing. Examines the market structure, conduct and performance of various industries. Topics include: theory and empirical results regarding structure, conduct and performance; the structure of U.S. industry versus other countries; recent developments; and antitrust policy. (Irreg.)
- ECON 5353 Public Finance II 3 Credit Hours**
Prerequisite: 4353 or permission of instructor. Teach advanced principles of public finance. The chief topics are market failure and public goods, public choice and principles of expenditure analysis.

- ECON 5453 Advanced Urban Economics 3 Credit Hours**
Prerequisite: graduate standing. Study of economic models of urban location, including firm location and residential location models. Public policy topics of urban taxation, residential housing discrimination, urban renewal, etc. will also be discussed from an economic perspective. (Irreg.)
- ECON 5613 International Economics--Trade 3 Credit Hours**
Prerequisite: 3613 and Mathematics 1743 or permission of instructor. Causes and effects of international trade; gain from trade; theory of tariff and effective protection; economic growth and trade; intermediate products; optimal trade policies; factor market imperfections; theory of integration. (Sp)
- ECON 5633 International Economics--Finance 3 Credit Hours**
Prerequisite: 3613 and Mathematics 1743 or permission of instructor. Foreign exchange rates; balance of payments; alternative international monetary systems; international reserves. (F)
- ECON 5853 World Economic Development 3 Credit Hours**
(Slashlisted with ECON 4853) Prerequisite: graduate standing. The economics of the developing nations; a review and analysis of common problems and issues. No student may earn credit for both 4853 and 5853. (Irreg.)
- ECON 5940 Research in Economic Problems 1-3 Credit Hours**
1 to 3 hours. May be repeated; maximum credit six hours. (F, Sp, Su)
- ECON 5960 Readings in Selected Fields of Economics 1-4 Credit Hours**
1 to 4 hours. May be repeated; maximum graduate credit eight hours. The only passing grade given in this course is the neutral grade of S. Directed readings under staff supervision for advanced students. A comprehensive report or examination is required. (F, Sp, Su)
- ECON 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ECON 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- ECON 5990 Special Studies 1-3 Credit Hours**
1 to 3 hours. May be repeated with change of topic; maximum credit twelve hours. Advanced studies in various areas of economics. Given under stated titles determined each semester by the instructor involved. (F, Sp)
- ECON 6213 Seminar in Price and Welfare Theory 3 Credit Hours**
Prerequisite: 5123 or equivalent, graduate standing. Current theoretical issues and research developments are explored. Attention is given to externalities, social welfare functions, market and nonmarket choice mechanisms, capital theory and analysis of intertemporal adjustments, general equilibrium under dynamic growth conditions. (F)
- ECON 6313 Seminar in Macro and Growth Theory 3 Credit Hours**
Prerequisite: 5163. Detailed analysis of static and dynamic macroeconomic systems; macrostatic and macrodynamic policy issue. (Irreg.)
- ECON 6333 Seminar in Industrial Organization 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Survey of recent industrial organization, public utility and regulation literature.
- ECON 6343 Econometrics III 3 Credit Hours**
Prerequisite: 5243. Topics and techniques in advanced econometric methods including time-series analysis and/or panel data analysis. May include applications in time-series econometrics such as ARMA models and VAR techniques; and applications in panel data econometrics including fixed effects, random effects and dynamic models. (F)
- ECON 6433 Labor Economics I 3 Credit Hours**
Prerequisite: Graduate standing. This course is the first of a two-course sequence. Students will learn current research and theory at the frontier of labor economics. The basics of labor supply, demand, and equilibrium to build a basic theoretical foundation for research in labor economics will be covered. Field topics including immigration, education, discrimination, and marijuana legalization will be introduced. (Irreg.)
- ECON 6533 Labor Economics II 3 Credit Hours**
Prerequisite: Graduate standing and ECON 6433. This course is the second of the two-course sequence. Students will learn about traditional and contemporary topics in labor economics and will be encouraged to develop independent research interests. The course will emphasize the importance of research design for the identification of casual effects, as well as writing an academic research paper suitable for economics journal publication. (Irreg.)
- ECON 6653 Seminar in Growth 3 Credit Hours**
Prerequisite: graduate standing and permission of instructor. Endogenous growth theory, recent work on growth success and failures, regime switching models of growth, the effects of crises on long run performance, and the role of the IMF and World bank in development. Other topics may include financial crises, corruption, etc. (Irreg.)
- ECON 6693 Seminar in Economic Development 3 Credit Hours**
Problems of economic development with special emphasis on the developing nations. Theoretical as well as policy issues concerning the process of economic development are examined. (Irreg.)
- ECON 6773 Seminar in Public Economics 3 Credit Hours**
Prerequisite: 5313 or permission of instructor. Survey of recent literature in the economics of public finance. Recent theoretical and empirical research will be examined. (Irreg.)
- ECON 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- ECON 6970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- ECON 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- ECON 6990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Burge	Gregory	S	2006	Department Chair, Professor of Economics	PhD, Florida State Univ, 2005; BA, Florida State Univ, 2000
Demir	Firat		2006	Professor of Economics, Director of Graduate Studies	PhD, Univ of Notre Dame, 2006; MA, Univ of Notre Dame, 2002; BA, Bogazici Univ, 1999
Ghosh	Pallab	K	2014	Associate Professor of Economics	PhD, Syracuse Univ, 2007; MS, Indian Stat Inst, 2005; BS, Univ of Calcutta, 2004
Hamory	Joan	R	2018	Associate Professor of Economics	PhD, Univ of California Berkeley, 2009; BA, Tufts Univ, 2002
Holmes	Alexander	B	1974	Regents Professor of Economics	PhD, SUNY at Binghamton, 1974; MA, Univ of Kansas, 1972; BA, Univ of Kansas, 1970
Johnson	Samantha		2021	Lecturer of Economics	Ph.D., Washington State University, 2021
Keen	Benjamin	D	2005	Associate Professor of Economics	PhD, Univ of Virginia, 2002; MA, Miami Univ, 1994; BS, Miami Univ, 1993
Kekec	Ibrahim		2023	Lecturer of Economics	Ph.D., Michigan State University, 2021
Kim	Myongjin		2013	Associate Professor of Economics	PhD, Boston Univ, 2013; BA, Hankuk Univ of Foreign Studies, 2003
Kosmopoulou	Georgia		1997	Professor of Economics, Associate Dean for Research, College of Arts and Sciences Edith Kinney Gaylord Presidential Professor of Economics	PhD, Univ of Illinois, 1996; MS, Univ of Illinois, 1992; BA, Univ of Piraeus, 1989
Liu	Qihong		2005	Professor of Economics	PhD, SUNY at Stony Brook, 2003; MS, China Univ of Mining & Tech, 1997; BS, Anhui Polytechnic Univ, 1994
Liu	Judith		2022	Assistant Professor of Economics	Ph.D., Syracuse University, 2019
Malloy	Chris		2023	Assistant Professor of Economics	Ph.D., University of California Santa Barbara, 2023
Nedelescu	Daniel		2018	Assistant Professor of Economics	PhD, Purdue Univ, 2013
Norwood	Brent		2021	Lecturer of Economics	Ph.D., University of Oklahoma, 2020
Paudel	Jayash		2022	Assistant Professor of Economics	Ph.D., University of Massachusetts Amherst, 2019

Ransom	Tyler		2017	Associate Professor of Economics	PhD, Duke Univ, 2015; MA, Duke Univ, 2010; BA, Brigham Young Univ, 2009
Rogers	Cynthia		1997	Professor of Economics	PhD, Univ of Pittsburgh, 1994; BA, Kent State Univ, 1986
Shen	Hewei		2018	Assistant Professor of Economics	PhD, Ohio State, 1998; MS, Tsinghua Univ, 1988; BE, Beijing Univ of Science & Tech, 1985
Yang	Mu-Jeung		2021	Assistant Professor of Economics	Ph.D., University of California, Berkeley, 2012

Economics, B.A.

Minimum Total Credit Hours: 120

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B300

- **Grades of C or better must be earned in each course in the major requirements and major support requirements.**

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**

Code	Title	Credit Hours
Economics		
ECON 1113	Principles of Economics-Macro	3
ECON 1123	Principles of Economics-Micro	3
ECON 2843	Elements of Statistics	3
ECON 3113	Intermediate Microeconomic Theory	3
ECON 3133	Intermediate Macroeconomic Theory	3
Choose 15 hours of Economics courses at the 3000-level or above ¹		15
Total Credit Hours		30

¹ FIN 3403 may be used as a major elective and counted as major credit in Economics.

Major Support Requirements

Code	Title	Credit Hours
MATH 1743	Calculus I for Business, Life and Social Sciences ¹	3
or MATH 1823 Calculus and Analytic Geometry I		
MATH 2123	Calculus II for Business, Life and Social Sciences ¹	3

or MATH 2423 Calculus and Analytic Geometry II

Total Credit Hours 6

¹ May also substitute MATH 1914 and MATH 2924 to fulfill calculus requirements.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/genesed/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Choose one course		3
-------------------	--	---

Total Credit Hours 56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Economics academic advisors to verify that courses selected each semester fulfill

the recommended plan and satisfy University, College of Arts and Sciences, and Economics major requirements.

Freshman

First Semester		Credit Hours

Credit Hours 14

Total Credit Hours 120

Economics, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N300

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Economics.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Economics, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
ECON 1113	Principles of Economics-Macro	3
ECON 1123	Principles of Economics-Micro	3
ECON 3113	Intermediate Microeconomic Theory	3

or ECON 3133 Intermediate Macroeconomic Theory

Choose 6 additional hours of courses acceptable for major credit in Economics 6

Total Credit Hours 15

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Economics, B.A./M.A.

Minimum Total Credit Hours: 140

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 3.00

Major GPA - Combined and OU: 3.00

Program Code: A300/F300 Q431

- Grades of C or better must be earned in each course in the major requirements and major support requirements.

UNDERGRADUATE REQUIREMENTS

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.

Major Requirements

Code	Title	Credit Hours
ECON 1113	Principles of Economics-Macro	3
ECON 1123	Principles of Economics-Micro	3
ECON 2843	Elements of Statistics	3
ECON 3113	Intermediate Microeconomic Theory	3
ECON 3133	Intermediate Macroeconomic Theory	3

Economics Electives

Choose four courses (12 hours) from the Accelerated Economics Electives course list (9 hours shared with Graduate Component) (p. 363) 12

Research Component ¹

Choose one of the following (hours shared with Graduate component): 2-3

ECON 5940 Research in Economic Problems
A course including a research paper to be submitted to Graduate Advisor

Total Credit Hours 30

¹ The combined BA/MA requires 11-12 hours of work shared between the Undergraduate and Graduate degrees so that students have a total of at least 30 hours in their undergraduate major work, and at least 32 hours of graduate work to apply towards the MA. If only 2 hours of ECON 5940 are taken, or if not all 9 hours of Economics electives are shared, additional graduate-level ECON electives not listed on this check sheet may be required to reach the minimum degree totals.

Shared courses will count in both the Undergraduate and Graduate GPAs.

Major Support Requirements

Code	Title	Credit Hours
Choose one of the following:		3-4

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Dissertation (36 Hours)

ECON 6980	Research for Doctoral Dissertation	36
-----------	------------------------------------	----

Total Credit Hours	90
---------------------------	-----------

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

Department of English

Roxanne Mountford, Ph.D., Chair
 316 Cate Center Dr
 Cate Center 2, Room 414
 Norman, OK 73019
 Phone: (405) 325-4661
 FAX: (405) 325-0831
mountford@ou.edu
www.ou.edu/cas/english

General Information

The English Department houses undergraduate and graduate programs in two broad subject areas: Literature and Cultural Studies and Rhetoric and Writing Studies.

Programs & Facilities

Awards and Funding: Students and Faculty

- English Department Undergraduate Student Awards
- English Department Graduate Student Awards
- University Awards and Scholarships (Undergraduate or Graduate)
- English Department Graduate Student Funding
 - Graduate Student Support
 - Fellowships
- Graduate College and University Fellowships

- Graduate Student Travel Grants
- Faculty Grant Opportunities

Resources

For students, the English Department has extensive resources in the form of its own media library as well as through our relationship with the University of Oklahoma's Bizzell Library.

Undergraduate Study

Bachelor of Arts

- **Literary & Cultural Studies (p. 377)**
Students study literary works, movements, genres, themes, and writers in their cultural contexts. Courses emphasize reading, story, communication, language, and historical and cultural events.
- **Writing (p. 380)**
Students study theories of written communication, practice them extensively in various writing contexts, and explore issues concerning literacy, language, and the relation of writing to different cultures.

Accelerated B.A./M.A. Degree

The Department of English offers an accelerated degree program (BA/MA) to qualified undergraduate students. The program allows students to pursue a graduate degree in conjunction with the undergraduate degree requirements.

- English: Literary & Cultural Studies. B.A./M.A. (p. 385)
- English: Writing, B.A./M.A. (p. 388)

Minors

Students majoring in other subjects may elect to complete a minor in English either in literary and cultural studies, and/or writing.

- Editing and Publishing Minor (p. 383)
- Literary & Cultural Studies Minor (p. 383)
- Writing Minor (p. 384)
- Irish Studies Minor (p. 385)

Language Arts Education Teaching Certificate

Students majoring in English may also work for the standard teaching certificate in language arts. Students in the language arts program must meet all of the requirements of the English major, and a few additional specifications. Information concerning the teaching certificate programs is available from the College of Education. Detailed checksheets of degree requirements and advisors with whom students can discuss programs of study are available in the college office.

Courses for Non-majors

Since its subject matter has wide appeal to non-majors as well as majors, the Department of English devotes a substantial portion of its staff and budget to the instruction of those who are majors in other fields. In addition to the first-year English courses, the department offers courses in literary and cultural studies as well as writing.

Graduate Study

Master of Arts Degree

As the M.A. in English is a research degree as well as a teaching apprenticeship, all students are expected to choose fields of specialization, in close consultation with the chair of their committee.

The choice ranges from well-established areas defined by nation and/or historical period through theoretical approaches, media studies, more recent areas of scholarly interest, to unique areas defined by the student in consultation with his or her chair.

- Literary Studies (p. 391)
- Rhetoric & Writing Studies (p. 391)

English Doctoral Programs

As the Ph.D. in English is a research degree as well as a teaching apprenticeship, all students are expected to choose fields of specialization, in close consultation with the chair of their committee. The choice ranges from well-established areas defined by nation and/or historical period through theoretical approaches, media studies, more recent areas of scholarly interest, to unique areas defined by the student in consultation with his or her chair.

- Literary Studies (p. 392)
- Rhetoric & Writing Studies (p. 392)

Courses

ENGL 0999	Remedial English	10 Credit Hours
ENGL 1013	English for Exchange Students	3 Credit Hours
Designed to meet the needs of international students who are studying at OU for a semester or a year. Review all English skills including pronunciation, vocabulary, listening, writing, and grammar as well as expand students' knowledge of American cultures. (F, Sp)		
ENGL 1023	English for Exchange Students II	3 Credit Hours
Prerequisite: ENGL 1013. Designed to build on students' experience in English 1013. Includes units that will 1) introduce new vocabulary, 2) provide opportunities for collaborating with fellow students, 3) explore relationships among American and other cultures, and 4) invite students to practice reading, writing, speaking, and listening in English. As in English 1013, focus will be on exploring writing processes as students compose and revise essays for each unit. Devotes increased attention to comprehension and analysis as well as more rigorous attention to each draft of student papers. Students will complete two essay exams and present them to the class for discussion. (F, Sp)		
ENGL 1111	Principles of Composition I Stretch Corequisite	1 Credit Hour
Prerequisite: Placement according to University College placement testing guidelines: Accuplacer of <255 as prerequisite; Corequisite: ENGL 1113 with a 50x section number. ENGL 1111 is designed as a corequisite supplement to ENGL 1113, Principles of Composition I. The course gives students time to work on assignments while also expanding on and providing opportunities to practice concepts from ENGL 1113, including inquiry, rhetoric, research, writing and revision. (F, Sp)		
ENGL 1113	Principles of English Composition	3 Credit Hours
Systematic analysis of the components of effective writing, with regular practice and close individual assistance. Study of expository prose models. (F, Sp, Su) [I-ENGL].		
ENGL 1213	Principles of English Composition	3 Credit Hours
Prerequisite: 1113. Systematic analysis of effective argumentative discourse with regular practice and close individual assistance. Study of argumentative prose models. Library research paper required. (F, Sp) [I-ENGL].		
ENGL 1913	Writing for the Health Professions	3 Credit Hours
Prerequisite: 1213. Prepares pre-professionals in the health professions for writing they will do in later coursework and in practice. (F, Sp)		

- ENGL 2113 Intermediate Writing 3 Credit Hours**
Prerequisite: 1213, application and departmental permission. Writing of non-fiction prose in a workshop setting. Reading and analysis of prose models for analysis. (Irreg.)
- ENGL 2123 Creative Writing 3 Credit Hours**
Prerequisite: ENGL/EXPO 1213 or EXPO 1223. Introduction to imaginative writing, especially short stories and poems; some analysis of literary models, but major emphasis is on student writing. (F, Sp)
- ENGL 2133 Autobiographical Writing 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Writing essays from personal experience. Reading and analysis of journals, diaries, letters and autobiographies as models for writing. (Irreg.)
- ENGL 2143 Analyzing Digital Culture 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Introduces students to the cultural analysis of digital technology, including social media, virality, gaming, digital celebrity, and more. Students will build skills in rhetorical analysis and writing through experimentation with new forms of technology. (Irreg.)
- ENGL 2213 Fiction 3 Credit Hours**
Introduces fiction as a historical genre in literature. Covered will be sub-genres such as the novel, short story, memoir, travel sketch, etc. Discussion will cover such topics as character, plot and myth in narrative. The emphasis will be on close reading in light of the possibilities of fiction as a genre. (Irreg.) [IV-AF].
- ENGL 2223 Poetry 3 Credit Hours**
Gives an introduction to the elements and rhetoric of verse. The focus will be on the canon of American and British verse. (Irreg.) [IV-AF].
- ENGL 2233 Drama 3 Credit Hours**
A study of major Western plays (from Aeschylus to contemporary playwrights) with emphasis on literary dimensions: design, language, characterization, individual forms (such as tragedy, comedy and pastoral). May include consideration of social and literary contexts as well as acting and theatrical conventions. (Irreg.) [IV-AF].
- ENGL 2243 Film Narrative 3 Credit Hours**
Introduction to basic visual terminology, filmmaking concerns, film theory and aesthetics. Survey of different approaches to narrative filmmaking (for example, genre or auteur). Also discussion of film and society in regards to how one influences the other. (Irreg.) [IV-AF].
- ENGL 2273 Literary and Cultural Analysis 3 Credit Hours**
Prerequisite: ENGL 1213; majors only. This course offers an introduction to literary and cultural analysis focusing on textual explication, interpretation, and critique. Subjects may include poetic forms (including prosody and scansion, narrative techniques, introduction to genre, and a grounding in basic literary terms. The course emphasizes writing analytically about literature and culture. (F, Sp) [IV-AF].
- ENGL 2283 Critical Methods: Texts/Contexts/Theories /Critics 3 Credit Hours**
Prerequisite: ENGL 1213 and ENGL 2273; majors only. This course examines literary and cultural texts in conjunction with texts of theory, criticism or history. The course explores how to read literary texts within relevant frameworks, whether they be historical or other contexts such as gender, race, or colonialism. (F, Sp)
- ENGL 2413 Introduction to Literature 3 Credit Hours**
Concentrates on close readings of masterpieces in fiction, drama and poetry. The readings are drawn from periods ancient to modern and may be American, British or Continental. (Irreg.) [IV-AF].
- ENGL 2433 World Literature to 1700 3 Credit Hours**
A reading of literary works, by types, from classical antiquity to 1700. (F) [IV-WC].
- ENGL 2443 World Literature, 1700 to Present 3 Credit Hours**
Prerequisite: ENGL 1213/EXPO 1213. Masterpieces of world literature from 1700 to the modern period. Courses can either be a broad survey of world literature covering classics by authors such as Goethe, Dostoyevsky, Ghalib, Duras, Kawabata, Kafka, Djebbar and Conde or focused around a specific theme, such as rewrites of colonial texts. (Sp)
- ENGL 2543 English Literature from 1375 to 1700 3 Credit Hours**
A survey of major writers and literary movements from Chaucer through Dryden. (F) [IV-WC].
- ENGL 2653 English Literature from 1700 to the Present 3 Credit Hours**
A survey of major writers and literary movements from Pope to the present. (Sp) [IV-WC].
- ENGL 2713 Introduction to Black Literature in the United States 3 Credit Hours**
Prerequisite: 1213 or equivalent. An introduction to Black writing produced in the United States. Introduces students to important texts and their major concerns. Attention is given to the struggle between literature that criticizes racial injustice and literature that celebrates Black cultural identity. (Irreg.)
- ENGL 2733 American Indian Literature: Early and Traditional 3 Credit Hours**
Prerequisite: 1113,1213 and one course in American literature, history or anthropology. A study of earliest forms of American Indian expression in the oral tradition and beginnings of its literature as written in English up to 1945. Special emphasis on understanding particular tribal world-views in order to appreciate the literature and problems inherent in translating from native languages. (Irreg.)
- ENGL 2743 American Indian Literature: Modern and Contemporary 3 Credit Hours**
Prerequisite: 1113,1213 and one course in American literature or history. Features the literature of American Indians written since 1945. Attention is directed to early writers such as Will Rogers and D'Arcy McNickle and to the recent renaissance of contemporary Indian writings by N. Scott Momaday, Leslie Marmon Silko, James Welch and others. (Irreg.)
- ENGL 2773 American Literature I 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. A survey of major American writers and literary movements from the colonial period to the Civil War. (F) [IV-WC].
- ENGL 2883 American Literature II 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. A survey of major American writers and literary movements from the Civil War to present. (Sp) [IV-WC].
- ENGL 2970 Special Topics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. 1 to 3 hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- ENGL 3013 Interdisciplinary Approaches to Literature 3 Credit Hours**
May be repeated with change of subject matter; maximum credit six hours. The study of two or more disciplines, focusing on a narrow historical period, a single major author and other discipline, or a circumscribed topic. (Irreg.)

- ENGL 3023 Thematic Approaches to Literature II 3 Credit Hours**
May be repeated with change of subject matter; maximum credit six hours. Close study of a major theme or preoccupation of a literary period in important works of the period. Attention to the relationship of the theme to relevant philosophical, sociological, political, religious and/or scientific thought. (Irreg.)
- ENGL 3053 Irish Literary Revival 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. The Irish Literary Revival is a course designed to explore the cultural phenomena of modern Ireland and its effects on "modernist" literature and culture in the early the twentieth century. It will examine the historical context of literature and culture at the beginning of the century and follow both chronological and thematic developments throughout the century. (Irreg.)
- ENGL 3063 Autobiographical Writing 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Introduction to autobiographical writing in a range of forms; analysis of literary models, but major emphasis is on student writing with attention to writing process, style, technique, revision, and contemporary developments in genre. (Irreg.)
- ENGL 3073 Writing about Place 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Intensive study and practice of place-based writing. Coursework includes reading published writing about place and examining such elements as history, geography, language, and culture. Students will consider and practice various literary and rhetorical techniques to convey a sense of place in their writing. (Irreg.)
- ENGL 3103 Topics in Advanced Composition 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. May be repeated with change of content; maximum credit nine hours. Advanced practice in writing; focus varies. (Irreg.)
- ENGL 3113 Nature/Environment/Science Writing 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Interdisciplinary advanced composition course offers students a chance to read and write about the natural world and the environment from a variety of angles. This is a designated writing course. (Irreg.) [IV-WC].
- ENGL 3123 Fiction Writing 3 Credit Hours**
Prerequisite: 2123, application and departmental permission. Intensive writing of short stories, with class attention to writing process, style, technique, revision and contemporary developments in the genre. (Irreg.)
- ENGL 3133 Poetry Writing 3 Credit Hours**
Prerequisite: 2123, application and departmental permission. Conducted in workshop format; emphasizes the preparation of a coherent, chapbook-length manuscript of poems. Students are also required to formulate a personal poetics and to complete selected exercises in translation or adaptation. (Irreg.)
- ENGL 3143 Studies in Literacy and Rhetoric 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Introduces students to current and historical knowledge about literacy and its place in modern society. Students explore the forces (political, economic, racial, cultural) that shape the way literacy functions. (Irreg.) [IV-WC].
- ENGL 3153 Technical Writing 3 Credit Hours**
Prerequisite: 1213 and Engineering or hard science majors only. For students of the pure and applied sciences. Focuses on the forms of report writing most frequently encountered in research and industry. (F, Sp, Su)
- ENGL 3163 Rhetoric and the Digital Humanities 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Advanced study and practice of digital humanities in the context of rhetoric studies. The course explores techniques that can be used to explore texts (in the broadest sense) using techniques developed in the digital humanities. (Irreg.)
- ENGL 3173 Histories of Writing, Rhetoric and Technology 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Investigates how computers and other digital technologies have changed the ways we write and think. How video and television have changes the ways we write and think; and how aspects of the history of written communication, visual rhetoric, and other forces change the ways we write and think. (Irreg.)
- ENGL 3183 Digital Composing 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. A composition course in which students analyze and compose digital media texts (short films, websites, podcasts, infographics, etc.) while studying complex forms and practices of textual production. (Irreg.)
- ENGL 3193 Working with Writers 3 Credit Hours**
Prerequisite: 1213 or EXPO 1213. Students will investigate how texts are produced, revised, and edited, with a focus on response and feedback strategies that help writers improve. Course will allow students to practice strategies to improve writing and learn how to work with other writers. (Irreg.)
- ENGL 3203 Rhetoric and Sexuality 3 Credit Hours**
(Crosslisted with WGS 3203) Prerequisite: ENGL 1213/EXPO 1213 or the equivalent. Investigates the intersections of rhetoric and sexuality as they function socially, politically, and personally. Development and application of research methods from the field of rhetoric and writing studies with a focus on writing, inquiry and revision. (Irreg.) [I-O].
- ENGL 3213 Special Topics in Fiction 3 Credit Hours**
May be repeated with change of subject matter; maximum credit six hours. Presents a fictional type or problem in fiction for extensive study within a specified historical period: works by a single author in a special genre (e.g., Henry James' fantastic stories), works by several authors in a genre (e.g., violence in post-World War II novels), topics such as myth in a period of fiction and the consideration of recent developments in novel writing. (Irreg.)
- ENGL 3223 Oklahoma Writers/Writing Oklahoma 3 Credit Hours**
Prerequisite: 1213 or EXPO 1213, application and departmental permission. An introduction to regional writing about Oklahoma. Focus on Oklahoma culture as a source of literature, and the creative work of course participants. (Irreg.) [IV-WC].
- ENGL 3243 Special Topics in Film 3 Credit Hours**
May be repeated with change of subject matter; maximum credit six hours. Sophisticated concerns involving film: the works of specific directors (Bergmann, Fel- Lini, Kubrick, etc.); the relationship of film to literature; the writings of notable film theorists (Bazin, Eisenstein, etc.) or critics (Mast, Kael, Sarris). (Irreg.)
- ENGL 3253 Special Topics in American Indian Literature 3 Credit Hours**
May be repeated twice with change in subject matter. Explores a major literary or cultural aspect of American Indian literature such as the Five Civilized Tribes, Eastern Tribes, the Literature of Massacre, autobiographical writing, fiction and poetry. (Irreg.)

- ENGL 3343 The Literature of Empire 3 Credit Hours**
Survey of literary and nonliterary discourse about and relating to European colonies since the Renaissance. Study of colonial and postcolonial fiction, poetry, drama and criticism from Asia, Africa, the Americas, Australasia and Europe, concentrating on English-language sources. (Irreg.)
- ENGL 3353 American Indian Nonfiction Writing 3 Credit Hours**
Examines the various forms of recorded oratory, nonfiction writing by American Indians. Includes autobiography, political and social writing, newspaper reportage, philosophy, anthropological and historical writings, humor and other kinds of writings by early and present-day American Indians. (Irreg.)
- ENGL 3363 Films and Context 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Explores film within a particular period or milieu. Attention is given to production styles, prominent actors and studio influence within a definable setting such as American films in the 1930s. (Irreg.) [IV-WDC].
- ENGL 3403 The Graphic Novel 3 Credit Hours**
The graphic novel. study of the works of Spiegelman, Pekar, Moore/Gibbons, Gaiman/McKean, Crumb and other graphic novel authors. Comparison with prose fictions having a strong visual element and possibly with films. (Irreg.) [IV-AF].
- ENGL 3423 Film and Other Expressive Forms 3 Credit Hours**
Examines from practical and theoretical perspectives the relationship between film and another area of creative expression such as the novel, theatre, painting and photography. (Irreg.)
- ENGL 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- ENGL 3453 Afro-Caribbean Lit/Cult Consciousness: from Alienation to Voice 3 Credit Hours**
Prerequisite: 1213. Explores select Afro-Caribbean writings by male and female writers through the historical and cultural influences that have shaped the production of this literature. Attention will be given to the literary style of the writers who represent various aspects of Caribbean experience. (Irreg.)
- ENGL 3463 American Fiction 3 Credit Hours**
Prerequisite: 1213. Historical survey of major American fiction, both novels and shorter fictional forms, from the Federal period to the present. Special attention is given to the uniqueness and diversity of themes and forms during the nineteenth and twentieth centuries when fiction came to dominate American literary production and consumption. (Irreg.) [IV-WC].
- ENGL 3483 Native American Writers 3 Credit Hours**
Prerequisite: 1213. May be repeated once with change of content; maximum credit six hours. Investigates the ways native American writers reflect their cultural histories and thought systems through their writing. By focusing on the emergence of native literature over the past three decades or on native writers of Oklahoma, students will learn how native traditions have been translated into literature. (Irreg.) [IV-WDC].
- ENGL 3513 Medieval English Literature 3 Credit Hours**
Intensive study of some of the major literary works of medieval England with attention to the relation between the literature and its social, intellectual and cultural contexts. Readings in various genres will include such works as Gawain and the Green Knight, Everyman, Piers Plowman, Morte d'Arthur, and The Canterbury Tales. (Irreg.) [IV-WC].
- ENGL 3523 Sixteenth-Century English Literature 3 Credit Hours**
Intensive study of some of the major literary works of sixteenth-century England with attention to the relation between the literature and its social, intellectual and cultural contexts. Readings will include works in various genres by such writers as Spenser, Sidney, Shakespeare, Marlowe, More. (Irreg.)
- ENGL 3533 Seventeenth-Century English Literature 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Intensive study of some of the major literary works of seventeenth-century England with attention to the relation between the literature and its social, intellectual and cultural contexts. Readings will include works in various genres by such writers as Donne, Herbert, Milton, Marvell, Bacon, Jonson and Webster. (Irreg.) [IV-WC].
- ENGL 3573 Arthurian Legend and Literature 3 Credit Hours**
(Crosslisted with MLLL 3573) Examination of the legend of King Arthur in European literature. Concentrate on the historical Arthur, followed by major portion of semester on medieval and modern literary texts concerning Arthur and the Round Table. All texts read in English. (Irreg.) [IV-WC].
- ENGL 3613 Nineteenth-Century British Literature and Culture 3 Credit Hours**
Prerequisite: ENGL 1213/EXPO 1213. An introduction to notable works of Romantic and Victorian literature, with attention to issues such as imperialism, gender, race, sexuality, nation and capitalism. Readings will include writings in various genres by authors such as William Wordsworth, Jane Austen, Charles Dickens, Robert Browning, George Eliot, and Thomas Carlyle. (Irreg.)
- ENGL 3623 Twentieth-Century British Literature and Culture 3 Credit Hours**
Prerequisite: ENGL 1213/EXPO 1213. Intensive study of some of the major literary works of twentieth-century Britain with attention to the relation between the literature and its social, intellectual and cultural contexts. Individual courses can cover (among others) the Modernist period (writers like Conrad, Yeats, Woolf, Eliot), Post-War Literature (Osborne, Delaney, Sillitoe), Contemporary British Literature (Carter, Ishiguro, Rushdie) and/or Black British Literature (James, Selvon, Smith). (Irreg.)
- ENGL 3643 Special Topics in Non-Western Literature and Culture 3 Credit Hours**
Prerequisite: 1213. Examines a broad range of potential topics, including particular practices in the context of global cultures and/or minority groups in the West. Course readings draw on a variety of critical or theoretical work regarding culture, discourse, history, or institutions. (Irreg.)
- ENGL 3653 The Bible as Literature 3 Credit Hours**
Interpreting the Bible as literature. Although much class time will be spent developing readings of individual books, a number of critical issues that affect the ways to approach the project of understanding the Bible will also be considered. (Irreg.)

- ENGL 3693 Literature and Medicine 3 Credit Hours**
Prerequisite: English 1213 or Expo 1213. This course focuses on the ways that training in literary narrative can make healthcare workers more effective and satisfied in their work. The aim of the course is to instill definite skills in interacting with patient storytelling - skills in listening, in rapport, in balancing empathy and professionalism, etc. - in a clinical situation to widen the study of literature. (Irreg.)
- ENGL 3823 Women's Rhetorics & Writing Practices 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Analysis of selected historical and current work by women according to histories and theories of written composition theory, rhetorical theory, and literacy practices. These issues are studied by analyzing how women interact with different forms of communication (e.g., speaking, print, film, video, computer graphics). (Irreg.)
- ENGL 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular classes. (Irreg.)
- ENGL 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)
- ENGL 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (Irreg.)
- ENGL 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- ENGL 4003 Movements in World Literature 3 Credit Hours**
(Crosslisted with MLLL 4003) Prerequisite: junior standing. May be repeated with change of subject matter; maximum credit nine hours. Focuses on texts within a literary movement (literature other than canonical American or British). Also attention to critical and theoretical questions about concepts such as genre, nation, national building, national identity, etc. (Irreg.) [IV-WC].
- ENGL 4013 Major Figure (With Subtitle) 3 Credit Hours**
(Slashlisted with ENGL 5013) Prerequisite: ENGL 1213 or EXPO 1213. May be repeated with change of content; maximum credit 9 hours. This course will focus on a major figure in literature, criticism, rhetoric, or theory. No student may earn credit for both 4013 and 5013. (Irreg.)
- ENGL G4023 Literary Movements 3 Credit Hours**
May be repeated with change of subject matter; maximum credit six hours. A course on literary movements or groups of authors who are related through their particular interests in certain distinct or philosophical ideas: the Metaphysical Poets, the Fugitive Writers, etc. (Irreg.)
- ENGL G4033 Indigenous Political Writing 3 Credit Hours**
Prerequisite: 2733 or 2743 or permission of the instructor. Examines key issues of American Indian politics and literature, exploring how they continue to shape the American Indian world in the present. Also considers how North American Indian politics relate to broader discussions of indigenous peoples and literatures around the world. (Irreg.)
- ENGL 4053 Topics in Technical Writing 3 Credit Hours**
Prerequisite: English 1213 or EXPO 1213; Repeatable for credit, maximum credit 6 hours. Advanced study of contemporary principles and practices in technical communication, technical editing, social media marketing, visual rhetoric, writing for the web, and design research. Topics vary. (Irreg.)
- ENGL 4113 Magazine Editing and Publishing in the Humanities 3 Credit Hours**
Prerequisite: 1213 or EXPO 1213. Introduction to magazine writing, editing, and publishing - scholarly and otherwise - in the humanities. (F)
- ENGL G4133 History Of the English Language 3 Credit Hours**
Traces the development of the English language from its Indo-European origins through its present state. Special attention will be paid to changes in grammar and vocabulary. (Irreg.)
- ENGL 4203 Special Topics in Literary and Rhetorical Forms 3 Credit Hours**
(Slashlisted with ENGL 5203) Prerequisite: ENGL 1213 or EXPO 1213. May be repeated with change of content; maximum credit 9 hours. Genre-based approach to literary and rhetorical forms. No student may earn credit for both 4203 and 5203. (Irreg.)
- ENGL G4233 Major Figures in Theory 3 Credit Hours**
Intensive exploration of the work and influence of one or a small number of literary or cultural theorists. Texts typically will encompass primary reading in a theorist or group of theorists and ancillary readings in the work of writers or other theorists who show the theorist(s). (Irreg.)
- ENGL 4273 Women Writers 3 Credit Hours**
Prerequisite: ENGL/EXPO 1213. May be repeated twice with change of content; maximum credit 9 hours. A study of women's art and culture in British, American, Native American and/or African American contexts. Typically incorporating a feminist approach and raising questions about gender, race, and sexuality, the course engages the often forgotten or marginalized experiences of women as represented in literature, film and/or other texts. (Irreg.)
- ENGL G4283 Hip Hop as Poetry, Literature and Cultural Expression 3 Credit Hours**
Prerequisite: 1213. Hip Hop will be examined from three different angles: the message, the history, and the performance. There are required film viewings. Students will analyze the lyrics of literary texts and music albums, and will be required to write, memorize and perform their own poetry. (Irreg.) [IV-AF].
- ENGL 4303 Special Topics 3 Credit Hours**
(Slashlisted with 5303) Prerequisite: ENGL 1213 or EXPO 1213. May be repeated with change of content; maximum credit 9 hours. Selected topics in literature, film, and rhetoric. No student may earn credit for both 4303 and 5303. (Irreg.)
- ENGL G4323 The Harlem Renaissance 3 Credit Hours**
Prerequisite: 1213. Examines the literature, culture, and politics of the Harlem renaissance. In addition to texts of the 1920s, the course considers the contexts out of which the movement emerged, as well as its effects in the U.S. and abroad. (Irreg.)

- ENGL G4333 Black Arts/Black Power 3 Credit Hours**
Prerequisite: 1213 or EXPO 1213. Examines the formation of the black arts and black power movements of the 1960s and 1970s in the united states. Focus on cultural exchanges and ideological engagements between local struggles for civil rights and larger global movements. Studies include a variety of literary and critical texts and genres, film and music. (Irreg.)
- ENGL G4343 The Indian in American Popular Culture 3 Credit Hours**
Prerequisite: 1213 or equivalent. Explores the various appearances and roles, stereotyped or otherwise, American Indians have traditionally been pigeon-holed into throughout America's five centuries of recorded history. Covers Captain John Smith, Colonial era, Romantic period of Cooper and Longfellow, and modern writers Waters and Berger. (Irreg.) [IV-WDC].
- ENGL G4373 Black Literary Form and Cultural Expression 3 Credit Hours**
Prerequisite: 1213. Compare and contrast the relationship between literary form and cultural expression by analyzing Black literature produced in two different contexts: the United States and the Caribbean. Examine writing from the literary movements known as the "Harlem Renaissance," "Negritude," and the "Black Arts." (Irreg.)
- ENGL G4513 Chaucer 3 Credit Hours**
Prerequisite: English 1213 or Expo 1213. Examines the poetry of The Canterbury Tales and one or two of Chaucer's earlier narrative poems. Special emphasis will be given to the social, literary and cultural backgrounds to Chaucer's work. (Irreg.)
- ENGL G4523 Shakespeare Comedies 3 Credit Hours**
Prerequisite: junior or senior standing. Close reading and analysis of Shakespeare's comedies and histories. Selected criticism, 1600 to the present. Historical background and Shakespeare's theatre. Dramatic traditions, movie interpretations, performance theory and acting. Emphases and reading lists vary from year to year. (Irreg.) [IV-WC].
- ENGL G4533 Shakespeare Tragedies 3 Credit Hours**
Prerequisite: junior or senior standing. Close reading and analysis of Shakespeare's tragedies and lyric poetry. Selected criticism, 1600 to the present. Historical background and Shakespeare's theatre. Dramatic traditions, movie interpretations, performance theory and acting. Emphases and reading lists vary from year to year. (Irreg.) [IV-WC].
- ENGL G4553 Milton 3 Credit Hours**
Close reading and analysis of selected poetry and prose, with emphasis on Paradise Lost. Study of literary forms, cultural myths, theology, ethics. Themes of loss, guilt, free will, male-female relationships. (Irreg.)
- ENGL G4593 Topics in Medieval Literature and Culture 3 Credit Hours**
Prerequisite: ENGL 1213; May be repeated with change of content; maximum credit six hours. Specialized study in selected topics in medieval literary culture. Students will be expected to be able to read middle English. (Irreg.)
- ENGL G4603 Topics in Early Modern Literature and Culture 3 Credit Hours**
Prerequisite: 1213. May be repeated with change of content; maximum credit six hours. Specialized study in selected topics in early modern literary culture. (Irreg.)
- ENGL 4613 Nineteenth-Century British Novel 3 Credit Hours**
Prerequisite: ENGL 1213/EXPO 1213. An exploration of novels by authors such as Jane Austen, Charles Dickens, Charlotte Bronte, and Thomas Hardy, in relation to their social, intellectual, and cultural contexts, focusing on selected topics (such as industrialism), themes (such as the conflict between passion and convention), or types (such as "the novel of education"). (Irreg.)
- ENGL 4623 British Romantic Literature and Culture 3 Credit Hours**
Prerequisite: ENGL 1213/EXPO 1213. The Romantic literary movement from the late eighteenth to the early nineteenth century, a time of revolution in politics, human rights, literature, sexuality, and more. The course may focus on major poets, such as Keats, on Gothic literature, and novelists such as Jane Austen. (Irreg.)
- ENGL G4653 Twentieth-Century English Poetry 3 Credit Hours**
A survey with emphasis on Yeats, Pound, Eliot, Lawrence, Graves, Auden and Dylan Thomas. (Irreg.)
- ENGL G4713 Major Authors in Nineteenth-Century American Literature 3 Credit Hours**
Prerequisite: 1213. May be repeated with change of subject; maximum credit six hours. Intensive study of one or more major 19th century American authors such as James Fenimore Cooper, Catharine Maria Sedgwick, Frederick Douglass, Walt Whitman, Nathaniel Hawthorne, Ralph Waldo Emerson, Harriet Beecher Stowe, Emily Dickinson, or Mark Twain. (Irreg.)
- ENGL G4733 American Naturalism and Realism 3 Credit Hours**
Major American novelists from the Civil War to the end of World War I, including Howells, James, Twain, Crane, Dreiser, Norris and Wharton. (Irreg.)
- ENGL G4823 American Novel Since 1920 3 Credit Hours**
Major authors and schools in American fiction including Fitzgerald, Hemingway, Faulkner, Steinbeck and others selected by the instructor. (Irreg.)
- ENGL G4833 Twentieth-Century American Poetry 3 Credit Hours**
A survey from Frost to the present with emphasis on major figures in each of three generations. (Irreg.)
- ENGL 4853 The English Capstone Course 3 Credit Hours**
Prerequisite: 1113, 1213, and 2433 and 2443 or 2543 and 2653 or 2773 and 2883, plus twelve hours. Combine English majors from diverse tracks to work on a topic involving major cultural issues, artifacts and texts. Projects include a significant amount of writing demonstrating the students' accomplishments in analyzing literature. (F, Sp) [V].
- ENGL 4883 Puterbaugh/Neustadt International Literature 3 Credit Hours**
(Slashlisted with ENGL 5883; Crosslisted with MLLL 4883) Prerequisite: ENGL 1213 and permission of department; May be repeated with a change of content, maximum credit nine hours. In-depth study of selected contemporary international writers/jurors who visit OU campus as part of the Neustadt and/or Puterbaugh symposia for World Literature Today. No student may earn credit for both 4883 and 5883. (Irreg.)
- ENGL 4923 Advanced Fiction Writing 3 Credit Hours**
(Slashlisted with 5923) Prerequisite: six hours of creative writing, application and departmental permission. May be repeated; maximum credit six hours. Work at an advanced level for qualified students. Intensive writing, peer criticism, revision, and reading in current markets with the goal of producing publishable work. No student may earn credit for both 4923 and 5923. (Irreg.)
- ENGL G4933 Advanced Poetry Writing 3 Credit Hours**
Prerequisite: ENGL 2123 and ENGL 3123, or departmental permission; May be repeated, maximum credit six hours. Intensive writing, peer criticism, revision, and reading in current markets with the goal of producing publishable work. (Irreg.)

- ENGL 4943 Advanced Creative Nonfiction Writing 3 Credit Hours**
(Slashlisted with 5943) Prerequisite: six hours of 2000-3000-level writing courses, application and departmental permission. May be repeated; maximum credit six hours. Intensive writing, peer criticism, revision, and reading in current markets with the goal of producing publishable creative nonfiction. No student may earn credit for both 4943 and 5943. (Irreg.)
- ENGL 4950 Special Topics in World Literature Today 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1213 and permission of instructor. May be repeated with a change of topic, maximum credit six hours. In-depth study of selected contemporary international writers/jurors who visit campus as part of the Neustadt and/or Puterbaugh symposiums for World Literature Today. (Irreg.)
- ENGL 4953 Special Topics in Advanced Creative Writing 3 Credit Hours**
(Slashlisted with 5953) Prerequisite: ENGL 2123; ENGL 3123 or ENGL 3133 or ENGL 3223. May be repeated with change of subject matter; maximum credit nine hours. In-depth writing in a variety of literary genres. Focus varies: practice in advanced creative writing with emphasis on style and strategies for creating work in specific genres such as historical fiction, indigenous-centered fiction and poetry, regional fiction, graphic novels, screenplays, literary translation, poetic forms. No student may earn credit for both 4953 and 5953. (Irreg.)
- ENGL 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- ENGL 4970 Special Topics in World Literature Today 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1213 and permission of instructor. May be repeated with a change of topic; maximum credit six hours. In-depth study of selected contemporary international writers/jurors who visit campus as part of the Neustadt and/or Puterbaugh symposiums of World Literature Today. (Irreg.)
- ENGL 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topics not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- ENGL 5003 Seminar--Special Topics in English, American or Comparative Lit 3 Credit Hours**
Prerequisite: graduate standing and permission of department. May be repeated three times with change of subject matter; maximum credit 12 hours. Topics in theoretical and historical problems of English, American or comparative literature in different periods. (Irreg.)
- ENGL 5013 Major Figure (With Subtitle) 3 Credit Hours**
(Slashlisted with ENGL 4013) Prerequisite: Graduate standing. May be repeated with change of content; maximum credit 9 hours. This course will focus on a major figure in literature, criticism, rhetoric, or theory. No student may earn credit for both 4013 and 5013. (Irreg.)
- ENGL 5113 Teaching College Composition 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. In this proseminar, students will apply readings in the field of rhetoric and writing to the teaching of first-year composition. (F)
- ENGL 5133 Teaching Technical Writing 3 Credit Hours**
Prerequisite: graduate standing and permission of department. Introduction to the types of writing professional engineers and scientists are expected to do and methods of teaching these forms of writing. In addition, students will attend classes being taught by the professor and have the opportunity to design and teach some workshops as well as evaluate the undergraduates' work. (Irreg.)
- ENGL 5203 Special Topics in Literary and Rhetorical Forms 3 Credit Hours**
(Slashlisted with ENGL 4203) Prerequisite: Graduate standing. May be repeated with change of content; maximum credit 9 hours. Generic approach to literary and rhetorical forms. No student may earn credit for both 4203 and 5203. (Irreg.)
- ENGL 5223 Seminar--Film 3 Credit Hours**
Prerequisite: graduate standing and permission of department. Will involve reading and analyzing the works of the more sophisticated film theorists and critics as well as studying approaches to the teaching of film (the auteur theory; film history; film genres; visual literacy; film and society; film as narrative; non-narrative forms). (Irreg.)
- ENGL 5303 Special Topics 3 Credit Hours**
(Slashlisted with ENGL 4303) Prerequisite: Graduate standing. May be repeated with change of content; maximum credit 9 hours. Selected topics in literature, film, and rhetoric. No student may earn credit for both 4303 and 5303. (Irreg.)
- ENGL 5313 Literary Criticism 3 Credit Hours**
Prerequisite: graduate standing and department permission. May be repeated with change of content; maximum credit nine hours. A comprehensive history of literary criticism, the study of a particular movement or related movements in literary criticism; or a study of a particular issue or related issues in literary criticism. (Sp)
- ENGL 5343 Native American Fiction 3 Credit Hours**
Prerequisite: graduate standing and permission of department. May be repeated twice with change of subject matter; maximum credit nine hours. Study of fiction written by Native American authors in the nineteenth and twentieth century. The course may include native authors from throughout the Americas and study the cultural contexts of Native American fiction. This course may also focus on particular themes and authors. (Irreg.)
- ENGL 5353 Native American Poetry 3 Credit Hours**
Prerequisite: graduate standing and permission of department. May be repeated twice with change of content; maximum credit nine hours. Study of poetry written by Native American authors in twentieth century. Course may include native authors from throughout the Americas (including poetry in indigenous languages) and study the cultural contexts of Native American poetry. This course may also focus on particular themes and authors. (Irreg.)
- ENGL 5373 Graduate Topics in Native American Literature 3 Credit Hours**
Prerequisite: graduate standing and permission of department. May be repeated up to three times with change of subject matter; maximum credit twelve hours. Special topics focusing on Native American cultures, including literature, drama, philosophy, and thematic approaches to the subject. Course may also focus on particular themes, movements, and authors. (Irreg.)
- ENGL 5403 Introduction to Rhetoric and Writing Studies 3 Credit Hours**
Prerequisite: Graduate standing and permission of department. This proseminar introduces students to contemporary research and theory in rhetoric and writing studies. (Irreg.)

- ENGL 5423 Classical Rhetorical Theory 3 Credit Hours**
Prerequisite: graduate standing and permission of department. Historicizing of rhetoric from ancient Egyptians to Greek sophists, Plato, Aristotle to Rome and Augustine. Includes examination of the ways "history" and cultural studies comprise the area. (Irreg.)
- ENGL 5433 18th and 19th Century Rhetorical Theory 3 Credit Hours**
Prerequisite: graduate standing and permission of department. An introduction to the rhetorical thought of eighteenth and nineteenth-century Britain and America, focusing on the development of rhetorical theories within the contexts of (1) eighteenth-century Scottish moral philosophy, (2) English romanticism, and (3) the emergence and development of higher education in nineteenth-century America. (Irreg.)
- ENGL 5443 Twentieth-Century Rhetoric and Composition Theory 3 Credit Hours**
Prerequisite: graduate standing and permission of department. A survey of twentieth-century scholarship on rhetoric and composition theory, beginning with the rhetorical theories of Kenneth Burke, with emphasis on the mid-century revival of rhetoric and composition through current changes brought about by technology and feminism. (Irreg.)
- ENGL 5453 Special Topics in Rhetoric, Composition, and Literacy 3 Credit Hours**
Prerequisite: graduate standing and permission of department. May be repeated two times with change of content; maximum credit nine hours. Addresses topical issues being debated within the profession. (Irreg.)
- ENGL 5463 Rhetoric & Technology 3 Credit Hours**
Prerequisite: graduate standing and permission of department. May be repeated once with change of content; maximum credit six hours. A graduate seminar designed to explore the impact of computer technology on rhetorical theory. Examines electronic literacy in terms of the following themes: history and writing technologies; the politics of writing instruction in computer-mediated classrooms; rhetoric and issues of difference; and intellectual property in a computer age. (Irreg.)
- ENGL 5473 Women's Rhetorics and Writing Practices 3 Credit Hours**
Prerequisite: graduate standing and permission of department. Analysis of selected historical and current work by women according to histories and theories of written composition theory, rhetorical theory, and literacy practices. These issues are studied by analyzing how women interact with different forms of communication (e.g., speaking, print, film, video, computer graphics). (Irreg.)
- ENGL 5513 Major Medieval Authors 3 Credit Hours**
Prerequisite: graduate standing and permission of department. May be repeated twice with a change of content; maximum credit nine hours. Topics vary. Focus on an outstanding medieval author such as Geoffrey Chaucer, Margery Kempe, or Thomas Malory, read in his or her literary, historical, and social context. (Irreg.)
- ENGL 5543 Topics in Early Modern Literature and Culture 3 Credit Hours**
Prerequisite: graduate standing and permission of department. May be repeated twice with change of content; maximum credit nine hours. Topics vary. Special studies in major figures, genres, themes and movements of the early modern period. (Irreg.)
- ENGL 5553 Post-Colonial Theory and Writing 3 Credit Hours**
Prerequisite: graduate standing and permission of department. Theories of postcolonialism as they have emerged from poststructuralist theory in the west, and from various political-literary movements in the non-Western world. Also focuses on the literatures of postcolonial cultures in Asia, Africa, Latin American, the Caribbean, Australia, and North America. (Irreg.)
- ENGL 5613 Seminar--Nineteenth Century English Literature 3 Credit Hours**
Prerequisite: graduate standing and permission of department. May be repeated twice with change of subject matter; maximum credit nine hours. Special studies in the Romantic and Victorian periods designed to promote original research and criticism. (Irreg.)
- ENGL 5703 Special Topics in American Literature 3 Credit Hours**
Prerequisite: graduate standing and permission of department. May be repeated two times with change of subject matter; maximum credit 9 hours. Intensive study of a major theme, issue, genre or figure in American literature and culture that is not limited to any single historical period. (Irreg.)
- ENGL 5803 Seminar--Twentieth-Century American Literature 3 Credit Hours**
Prerequisite: graduate standing and permission of department. May be repeated twice with change of subject matter; maximum credit 9 hours. Topics vary. Special studies in American authors, ideas and literary types. (Irreg.)
- ENGL 5813 Blackness, Coloniality, Gender 3 Credit Hours**
Prerequisite: graduate standing and permission of department. Taking an historical and cultural approach to Black U.S. and Caribbean female writing, explore the struggle between the "official" cultural contexts and the spaces of counter-cultural resistance. Analyze the terminology "colonial" and "postcolonial" and the current theoretical landscape in which these terms are used. (Irreg.)
- ENGL 5883 Puterbaugh/Neustadt International Literature 3 Credit Hours**
(Slashlisted with ENGL 4883; Crosslisted with MLLL 5883) Prerequisite: Graduate standing and permission of department; May be repeated with a change of content; maximum credit nine hours. In-depth study of selected contemporary international writers/jurors who visit OU campus as part of the Neustadt and/or Puterbaugh symposia for World Literature Today. No student may earn credit for both 4883 and 5883. (Irreg.)
- ENGL 5923 Advanced Fiction Writing 3 Credit Hours**
(Slashlisted with 4923) Prerequisite: graduate standing, six hours of creative writing, application and departmental permission. May be repeated; maximum credit six hours. Work at an advanced level for qualified students. Intensive writing, peer criticism, revision, and reading in current markets with the goal of producing publishable work. No student may earn credit for both 4923 and 5923. (Irreg.)
- ENGL 5943 Advanced Creative Nonfiction Writing 3 Credit Hours**
(Slashlisted with 4943) Prerequisite: graduate standing, six hours of 2000-3000-level writing courses, application and departmental permissions. May be repeated; maximum credit six hours. Intensive writing, peer criticism, revision, and reading in current markets with the goal of producing publishable creative nonfiction. No student may earn credit for both 4943 and 5943. (Irreg.)
- ENGL 5953 Special Topics in Advanced Creative Writing 3 Credit Hours**
(Slashlisted with ENGL 4953) Prerequisite: Graduate standing and permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. In-depth writing in a variety of literary genres. Focus varies: practice in advanced creative writing with emphasis on style and strategies for creating work in specific genres such as historical fiction, indigenous-centered fiction and poetry, regional fiction, graphic novels, screenplays, literary translation, poetic forms. No student may earn credit for both 4953 and 5953. (Irreg.)

ENGL 5963 Directed Readings in Research 3 Credit Hours

Prerequisite: Graduate standing and departmental permission. May be repeated with change of content; maximum credit 9 hours. An individual intensive research course which may not duplicate regular course offerings. Area and problem to be determined by student and directing professor. (Irreg.)

ENGL 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of department. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ENGL 5980 Research for Master's Thesis 2-9 Credit Hours

Prerequisite: Graduate standing and permission of department. 2 to 9 hours. Variable enrollment; maximum credit applicable toward degree, six hours. (F, Sp, Su)

ENGL 6013 Research Seminars in Composition, Rhetoric or Literacy 3 Credit Hours

Prerequisite: graduate standing and permission of department. Topics vary. Issues of the historical/philosophical in composition and rhetorical studies; issues of empirical research in composition/rhetorical studies; issues of literacy in composition/rhetorical studies. (Irreg.)

ENGL 6103 Research Methods in Rhetoric and Writing 3 Credit Hours

Prerequisite: Graduate standing and departmental permission. A survey of research methods in rhetoric and writing studies. (Irreg.)

ENGL 6880 Research for PhD Exam 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and departmental permission. The doctoral candidate will take up to three credits in preparation for their qualifying exam. (Irreg.)

ENGL 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

ENGL 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

ENGL 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

ENGL 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

English: Literary & Cultural Studies, B.A.

Minimum Total Credit Hours: 120

Major Hours: 36

Minimum Upper-Division Hours: 48

Upper-Division Hours Within Major: 15

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B375 P421

This program has changes for 2024 pending approval of the OU Board of Regents which are not displayed here.

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- A grade of C or better must be earned in each English course presented for major credit.

Code	Title	Credit Hours
Core Courses		
ENGL 2273	Literary and Cultural Analysis	3
ENGL 2283	Critical Methods: Texts/Contexts/Theories /Critics	3
Choose one of the following early survey courses:		
ENGL 2433	World Literature to 1700	3

ENGL 2543	English Literature from 1375 to 1700	
ENGL 2733	American Indian Literature: Early and Traditional	
ENGL 2773	American Literature I	
Choose one of the following late survey courses:		3
ENGL 2443	World Literature, 1700 to Present	
ENGL 2653	English Literature from 1700 to the Present	
ENGL 2713	Introduction to Black Literature in the United States	
ENGL 2743	American Indian Literature: Modern and Contemporary	
ENGL 2883	American Literature II	
Capstone Course		
ENGL 4853	The English Capstone Course	3
Literary & Cultural Studies Distribution Requirements		
Choose one course in ENGL Pre-1700 ¹		3
Choose one course in ENGL Post-1700 ¹		3
Multicultural Course		
All English majors must complete one Multicultural course. This course may be used to satisfy either one of the LCS Distribution requirements or one of the additional Major Electives. Consult the Department of English website and the Undergraduate Advisor for current courses that meet the Multicultural requirement.		
Major Electives		
Choose 5 additional ENGL courses		15
Total Credit Hours		36

¹ Consult the Department of English website and the Undergraduate Advisor for current offerings in these areas.

Major Support Requirements

Code	Title	Credit Hours
	Proficiency in one language is required as demonstrated by proficiency examination or successful completion of 1 semester of intermediate coursework in a language taught in Classics, Native American Studies, or Modern Languages departments (Successful completion = grade of C or better in the intermediate-level course.)	0-3
Total Credit Hours		0-3

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/genesd/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3

ENGL 1213	Principles of English Composition or EXPO 1213 Expository Writing	3
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or P BIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GP HY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
<i>Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Culture</i>		
HIST 1483	United States to 1865 or HIST 1493 United States, 1865 to the Present	3
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
<i>World Culture</i>		
Choose one course from the General Education World Culture list		3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>		
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of English academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and English major requirements.

Freshman

First Semester		Credit Hours

English: Literary & Cultural Studies, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N376

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of English.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in English, including nine (9) hours at the upper-division level.

Students may not apply hours from first-year English (ENGL 1113, ENGL 1213) or from English courses designated as writing courses to a minor in literary and cultural studies.

Code	Title	Credit Hours
	Choose 15 hours of courses acceptable for major credit in English (9 of these hours must be upper division)	15
Total Credit Hours		15

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Editing and Publishing, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N310

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Dodge College of Arts and Sciences.

Required Courses

Students must successfully complete at least 15 hours of courses, including at least 9 hours at the upper-division level.

- **A grade of C or better must be earned in each course counted for minor credit.**

Code	Title	Credit Hours
Language Skills		
Students must earn a passing grade on a test of English-language skills administered by the College of Journalism or the OU Writing Center.		
Interdisciplinary Methods		
Choose two courses (6 hours) from the following: ¹		6
ARTC 2813	Introduction to Visual Culture and Media Literacy	
COMM 2113	Business and Professional Communication

Choose one course	3
Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in five years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of English academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, Graduate College, and English requirements.

Freshman

First Semester	Credit Hours
ENGL 1113 Principles of English Composition (Core I)	3
HIST 1483 United States to 1865 (Core IV) or HIST 1493 United States, 1865 to the Present	3
MATH (Core I)	3
Beginning Language (Core I)	5

² Students must take most courses at the 5000- or 6000-level, but may take one graduate 4000-level class, and one course outside the

department, and one Directed Readings (ENGL 5963), with permission from the student's chair and the departmental graduate committee.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Foreign Language Requirement		
Candidate must have reading proficiency in one foreign language		
Total Credit Hours		90

¹ If these courses have already been taken at the MA level, then students will take additional electives.

² Electives may include one directed reading (ENGL 5963) with approval of the departmental graduate committee.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

General Information

Formerly the Interdisciplinary Perspectives on the Environment program, Environmental Studies is a collaborative teaching and research program with a student-guided curriculum designed to create the leadership and workforce with the skills needed to help meet global challenges relating to water security and other pressing environmental issues, such as pollution, climate change, and deforestation.

The Environmental Studies program provides an undergraduate curriculum that leverages water and other environmentally-related strengths and expertise across the University of Oklahoma, and provides for scholarly specialization in water-related and other environmental disciplines, in order to prepare students to participate effectively in socially-responsible solutions to some of the greatest environmental problems facing humanity.

Environmental Studies prepares students for environmentally-related jobs, including those in federal, state, and tribal government agencies, environmental consulting firms, corporate, professional, and industrial

enterprises, environmentally-related NGOs, journalism, public service, law, advocacy, and legislative lobbying efforts.

Programs & Facilities

Environmental Research Experience for Students (ERES)

ERES is designed to provide undergraduate students with meaningful experience in scholarly research and creative activity focused on important environmental issues of the day.

Environmental Studies Related Internships

Internship experience with course credit is possibly for any student interested in getting a headstart on their career. See Internships for more information

Undergraduate Study

Programs Offered

- Environmental Studies, Bachelor of Arts (p. 396)
- Environmental Studies Minor (p. 400)

Graduate Study

Programs Offered

- Environmental Studies, Master of Science (p. 400)

Admission to the Environmental Studies graduate programs is based on the standards for admission established by the Graduate College. See How to Apply information for more details concerning the admission process.

Courses

ENST 1013 Consumption and the Environment 3 Credit Hours

An introduction to the interdisciplinary aspects of human consumption and the environment. Aspect of the production and consumption of food, energy, transportation, and housing are considered for their contributions to global climate change, air and water pollution, and habitat alteration, as well as other relevant topics regarding the environment. Students will learn how complex interactions between natural processes and human activities shape aspects of the global, regional and local environment. (F, Sp) [III-SS].

ENST 2003 Water Resources Advocacy 3 Credit Hours

Water is commonly considered the world's "new oil." Experts vow that water scarcity may ultimately lead to the next world war. This course will provide insight and understanding of challenges, decisions, and advocacy in ecologically and economically sustainable management of water resources, as well as the seriousness of what water scarcity means using national and global case studies. (F)

ENST 2023 American Environmental Perspectives 3 Credit Hours

Prerequisite: sophomore standing or permission of instructor. Based on the relationships between people and the natural world, with a focus on natural, social, and institutional systems in the US, and our shared goals for sustainability, this course explores the role of nature in fulfilling human needs, as well as how American society influences and impacts nature at local, regional, national, and global scales. (F)

- ENST 2203 Ecosystem Impacts of Climate Change 3 Credit Hours**
Rising temperatures, changing rainfall patterns, rising sea levels and increasing atmospheric carbon dioxide have direct effects on living creatures and the Earth's climate system, which also spawn many indirect changes in ecological systems. This non-majors course will cover the basic of why climate is changing, its effects on plant and animal physiology and behavior, and its impact on the ecosystem. (Su) [II-NS].
- ENST 2623 Human-Wildlife Interactions 3 Credit Hours**
Prerequisite: sophomore standing or permission of instructor. Examines various aspects of human-wildlife interactions, including issues pertaining to habitat destruction, poaching, and forced sharing of space between humans and wildlife. Species will be studied through examination of case studies, evaluation of their efficacy, and development of additional solutions to these and similar problems arising in wildlife conservation, with particular emphasis on large African mammals. (Sp)
- ENST 2813 Environmental Studies Cornerstone 3 Credit Hours**
Prerequisite: ENST majors and minors only; departmental permission required; Corequisite: ENST 3891. This course introduces students to the Environmental Studies program. It offers students an overview of environmental teaching and research at OU, and emphasizes the importance of integrating disciplinary perspectives on environmental topics. (F, Sp)
- ENST 2970 Special Topics 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- ENST 3023 Environmental Psychology 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Examines the interplay between human behavior and the environment, both natural and built. Topics include place identity and place attachment, the cognitive hierarchy and human behavior, the influence of design on behavior, biophilia and behavioral inheritance, the psychology of crowding, environment and health, and research applications. (Sp)
- ENST 3203 Sprawl and the Environment 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. The built environment, in particular our pattern of cities surrounded by suburbs, has impacts on the environment. These impacts are both direct and indirect. Direct effects include impact on water quality, habitat fragmentation, endangered species and the covering of natural habitat with impervious surfaces. Indirect impacts include increased reliance on automobiles and subsequent increases in air pollution and greenhouse gasses. Students will examine patterns in land use and their impacts and how different development patterns and practices can minimize environmental impacts. (Irreg.)
- ENST 3213 Law and the Environment 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Examines the general underlying foundations of the United States constitutional principles. Study of the constitutional and structural conflicts when environmental law is at issue. The focus of the class will shift to practical information and exercises regarding environmental law. Finally, the class will study the three sections of specialized law and their interrelationship with the environment. (Irreg.)
- ENST 3223 Environmental Justice 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Examines the impact of industrial societies on human beings, especially minority and low income populations. Students are introduced to evidence of disproportionate impact in certain populations, potential causes of the problems, theoretical concepts of environmental justice and how some of these concepts may be implemented to solve problems affecting the various communities. Additionally, students will review the legal and social implications, as well as potential methodology that is defining, refining, and shaping the environmental justice landscape. (Irreg.)
- ENST 3243 Introduction to Water Law 3 Credit Hours**
Prerequisite: English 1213/Expository Writing 1213, junior standing or permission of instructor. Provides an understanding of the fundamental tenets of water allocation in the United States. Topics include the Clean Water Act and its effect on resolving complex pollution issues, competing uses of water, riparian doctrine, prior appropriation, the public trust doctrine, nonpoint source pollution, and oil spills and hydraulic fracturing. (Sp)
- ENST 3263 Ecotourism: Sustainable Wildlife and Nature Tourism 3 Credit Hours**
Prerequisite: ENST 1013 or ENST 2623, junior standing, or permission of instructor. Using case studies and small student group projects, this course explores ecotourism or sustainable wildlife and nature tourism across the broad array of beneficial features, such as protection for a species and income generation for local people, as well as some of ecotourism's less-sustainable and potentially harmful aspects. (F)
- ENST 3303 Food, Agriculture, and the Environment 3 Credit Hours**
Prerequisite: junior standing or permission of the instructor. Food production, both large scale and small scale, has impacts on the environment. From erosion to water pollution to intensive use of fossil fuels, these impacts affect a variety of environmental elements. Since most of us buy our food pre-packaged at the supermarket, we do not see these impacts, nor typically are these impacts reflected in the price we pay. Most of our food arrives from far away, transported over long distances, in many cases from the southern hemisphere. This class will examine the impact of our food production systems on all aspects of the environment including air, soil, and water, as well as its demands and impacts on energy production. (Irreg.)
- ENST 3313 Gardening, Community, and the Environment 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Explores fundamental concepts and styles of gardening with an emphasis on edibles and organic methods. Class assignments help students connect gardening to environmental and community issues at the personal, local, regional, and global levels. A service learning component promotes hand-on experiences and responsibility to the community. (Irreg.)
- ENST 3423 Anthropogenic Contaminants and Environmental Health 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Human progress has allowed us to live comfortable, well-fed lives, free from many diseases and environmental fluctuations. This progress has degraded many of the ecosystem goods and services on which we depend. This course will examine human environmental impacts, with a focus on water pollution, and the consequences of human activities on ecosystem goods and services. (Su)

- ENST 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- ENST 3463 Water and Ecological Sustainability 3 Credit Hours**
(Crosslisted with BIOL 3463) Prerequisite: junior standing and English 1213 or Expository Writing 1213, Biology 1114 or Biology 1124 or Biology 1134, or permission of instructor. Objective of the course is to allow students to examine and discuss important historical and current issues relating to the interactions between socio-economic use of water resources and ecosystem biodiversity, function, and sustainability. (F) [I-NS].
- ENST 3503 Energy Use, Climate Change, and the Environment 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. The way we live in the modern industrialized world is extremely energy intensive. We will examine our energy use across all sectors, from the fuels used to generate the electricity to run our computers to the energy we are most familiar with, that which we use to fill our cars. (Irreg.)
- ENST 3603 Global Perspectives of Wildlife Conservation 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. A conservation biology course with primary attention aimed at wildlife. Explores the complex relationships that exist between humans and wildlife throughout the world. Group activities and detailed assessment of case studies will introduce students to finding solutions to threats that can provide wildlife conservation in a way that is also beneficial (or at least not harmful) to humans. (F)
- ENST 3613 The Politics of Wildlife Conservation 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Exploration of the politics of wildlife conservation from a variety of perspectives. Review the history of our own species' impact on the lives of free-ranging animals and examine the many ways that human-wildlife symbiotic relationships have influenced biodiversity loss and growth. Students will learn about the process of implementing national laws and international treaties aimed at conserving wildlife, while also practicing methods of working with local people and key decision makers. Through a series of problem-solving activities and assessment of several relevant case studies, we will focus on the more general "politics" of wildlife conservation. (Irreg.)
- ENST 3633 Wilderness Philosophy 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Explores the concept of wilderness as a human construct. Provides an overview of the various Western perspectives of wilderness; from the early prehistoric and colonial American views of wilderness, through the inception and designation of federally recognized Wilderness, to the current debate regarding the role of wilderness in contemporary society. (Su)
- ENST 3653 Community Conservation 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Community conservation involves local people, often working with conservation scientists, protecting and conserving their natural resources. The principles of community conservation are similar globally, but each community conservation project will differ depending on location, habitat type, and the status of wildlife species involved. Select case studies of successful programs will be examined as bases for hypothetical student community conservation projects. (Sp)
- ENST 3663 Hot Topics in Wildlife Conservation 3 Credit Hours**
Prerequisite: ENST 2623 or ENST 3613 or permission of adviser or instructor. Examines the latest technologies used in the field of conservation, new advances in human-wildlife conflict mitigation, updates on political approaches to conservation, and other current conservation news, with emphasis on large African mammals. Provides an opportunity to learn more about how interested stakeholders come together to develop national wildlife policies and conservation action plans. (Su)
- ENST 3713 Nature in the City 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Given that the vast majority of the Earth's land area has had some kind of human impact, this class will examine how we can maximize the potential of human-altered habitats to support native species, facilitate population exchange, and support wildlife conservation. Additionally, we'll examine how urban plant and animal populations affect people.
- ENST 3723 Issues in Ecological Restoration 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213, junior standing or permission of instructor. This introduction to the field of restoration ecology will cover philosophical, societal, and scientific aspects of restoring habitats and ecosystems. (Sp)
- ENST 3743 Biological Invasions and Society 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. New species arrive on our shores daily; some of these species become so problematic that we label them "invasive." Explores some of our views of invasive species, what makes a species invasive, how they spread, what their impacts are on human and natural systems, whether or not all invasive species are bad, and what can be done to control them. (Sp)
- ENST 3800 Environmental Internship 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing and permission of IPE coordinator. Supervised work experience at a business, government or non-profit agency, dealing with an environmental issue. May require specific preparation, as appropriate. S/U grade based on completion of advance preparation, if any; evaluation by workplace supervisors; and coordinator's evaluation of a report on the issue dealt with during the internship. (F, Sp, Su)
- ENST 3891 Environmental Studies Learning Community 1 Credit Hour**
Prerequisite: ENST 2813 (or concurrent enrollment); ENST majors and minors only; departmental permission required; may be repeated; maximum credit 3 hours. The Learning Community course gives Environmental Studies majors the opportunity to enrich their classroom experience, through a variety of activities including structured interactions with other students; presentations on academic and policy topics; workshops on career planning; and environmentally related service projects. (F, Sp)
- ENST 3893 Environmental Studies Research Project 3 Credit Hours**
Prerequisite: ENST 2813; ENST majors and minors only; departmental permission required; Corequisite for majors: ENST 3891, if offered. An independent study into an environmental issue with one or more faculty researchers. This class provides experience with academic inquiry, and the integration of multiple disciplinary perspectives. ENST 2813 (Environmental Studies Cornerstone) is a prerequisite because in that class students will choose and plan research projects matching their own interests. (F, Sp, Su)
- ENST 3913 Special Topics in Environmental Studies 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Designed to permit the study of specific and changing issues and problems in environmental studies. (Irreg.)

ENST 3950 Environmental Research Experiences for Students (ERES): Practical Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: ENST 3940 or concurrent enrollment. A semester-long course in which a student works independently with a faculty researcher to gain experience and understanding in active research within a specific discipline. (F, Sp, Su)

ENST 3960 Honors Reading 1-3 Credit Hours

Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in regular course work. (Irreg.)

ENST 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

ENST 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors program. May be repeated; maximum credit six hours. Provides an opportunity for the Honors candidate to work at a special project under the guidance of a professor on a specific environmental related issue. (Irreg.)

ENST 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

ENST 4883 Environmental Studies Seminar 3 Credit Hours

Prerequisite: ENST 2813, ENST 3893, ENGL 1213 or EXPO 1213, and permission of department; Majors only; Repeatable with change of content; maximum credit 6 hours. Intensive study of interdisciplinary approaches to environmental issues, typically through close reading of major academic works that integrate multiple disciplines. Content will vary by instructor. (F)

ENST 4893 Environmental Studies Capstone 3 Credit Hours

Prerequisite: Majors only; ENST 4883. Students will work in interdisciplinary teams to propose a scientifically informed and ethically justified policy response to a local or regional environmental concern. Content will vary by semester. (Sp) [V].

ENST 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

ENST 4970 Seminar 1-3 Credit Hours

Prerequisite: junior standing or permission of instructor. May be repeated with a change of content; maximum credit six hours. Interdisciplinary topics with regard to the environment; May include field work, special presentations, or other activities not covered in regularly scheduled courses. (Irreg.)

ENST 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: junior standing or permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled coursework. May include library and/or research and field projects. (Irreg.)

ENST 5053 Advanced Environmental Studies 3 Credit Hours

Prerequisite: graduate standing. An interactive seminar featuring discussions of assigned readings, student presentations, and guest lectures. Topics covered will cross the environmental studies spectrum, from basic ecological principles and approaches to public and agency communication, and will include treatment of historical, policy, and legal perspectives of environmental issues. (Sp)

ENST 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisites: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member affiliated with the Environmental Studies program. (F, Sp, Su)

ENST 5980 Research for Master's Thesis 2-9 Credit Hours

Prerequisite: graduate standing. Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

ENST 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Trachtenberg	Zev			DIRECTOR OF ENVIRONMENTAL STUDIES; PROFESSOR OF PHILOSOPHY	PhD, Columbia

Environmental Studies, B.A.

Minimum Total Credit Hours: 120

Major Hours: 30

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B406

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- A Grade of C or better must be earned in each course counted for major credit.

Code	Title	Credit Hours
Core		
ENST 2813	Environmental Studies Cornerstone	3
ENST 3891	Environmental Studies Learning Community (three semesters) ¹	3
ENST 3893	Environmental Studies Research Project	3
ENST 4883	Environmental Studies Seminar	3
ENST 4893	Environmental Studies Capstone	3

Major Electives

Group I - Interdisciplinary (p. 398)	
Choose two courses that span two or more disciplines ²	6
Group II - Single Discipline (p. 398)	
Choose three courses, one each from three of these four categories: ²	9
Natural Sciences	
Social Sciences	
Humanities	
Applied Disciplines	
Total Credit Hours	30

¹ ENST 3891 is taken as a corequisite with ENST 2813 and ENST 3893, and one additional semester, for a total of three semesters.

² Chosen from an approved course list (p. 398) posted by the department or as approved by faculty advisor.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/genes/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>		
	Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
	Choose one course from the General Education Social Science list	3

Core Area IV: Arts and Humanities (18 hours)

<i>Artistic Forms</i>		
	Choose one course from the General Education Artistic Forms list	3
<i>Western Culture</i>		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
	Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)	3
<i>World Culture</i>		
	Choose one course from the General Education World Culture list	3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>		
	Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
	Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Core Area V: First Year Experience (3 hours)		
	Choose one course	3
Total Credit Hours		56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU

Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Environmental Studies major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
	Gen Ed Biological Science (Core II)	4
	First Year Experience (Core V)	3
	Beginning Language (Core I)	5
Credit Hours		15

Second Semester

ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 or Expository Writing	3
	Gen Ed Physical Science (Core II)	4
	Beginning Language continued (Core I)	5
	Gen Ed Math (Core I)	3
Credit Hours		15

Sophomore

Environmental Studies, Minor

Minimum Total Credit Hours: 16

Minimum Upper-Division Hours: 9

Program Code: N408

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

At the discretion of the program director and departmental advisor, ad hoc electives (such as new courses, special offerings, and one-time courses) may be approved in writing to fulfill minor requirements.

Required Courses

16 hours, including at least 9 upper-division level (a minimum of 13 hours must be from courses within the Dodge College of Arts and Sciences):

Code	Title	Credit Hours
ENST 2813	Environmental Studies Cornerstone	3
ENST 3891	Environmental Studies Learning Community ¹	1

ENST 3893	Environmental Studies Research Project	3
Choose two courses from Major Electives Group I - Interdisciplinary (courses that span 2 or more disciplines) ²		6
Choose one course from Major Electives Group II - Single Discipline ²		3
Total Credit Hours		16

¹ ENST 3891 is taken as a corequisite with ENST 2813.

² Chosen from an approved course list (p. 398) posted by the program or as approved by faculty adviser. Must be from a category (Natural Sciences, Social Sciences, Humanities, Applied Disciplines) other than that of the student's major.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Environmental Studies, M.S.

Minimum Total Hours (Thesis): 30

Program Code: M409

- This program is Thesis Only.

Required Courses

Code	Title	Credit Hours
Core Courses		
ENST 5053	Advanced Environmental Studies	3
Choose one Environmentally Related Natural Science Course ¹		3
Choose one Environmentally Related Humanities Course ¹		3
Choose one Environmentally Related Social Science Course ¹		3
Choose one Environmentally Related Skills Course ¹		3
Research		
ENST 5980	Research for Master's Thesis	6
Electives		
Choose one environmentally related elective course ¹		3
Choose one independent study and directed readings		6
Total Credit Hours		30

¹ Courses must be chosen in consultation with the student's Graduate Advisor and approved by the Environmental Studies Graduate Liaison.

Notes:

- The comprehensive final examination over all of the work offered for the degree, including the thesis, is oral.
- Students who seek an M.S. degree in Environmental Studies will designate a faculty member from the natural sciences as committee chair (subject to approval by the Environmental Studies Graduate Studies Committee), and a majority of the committee will consist of faculty in the natural sciences.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

General Information

Film and Media Studies (FMS) is an interdisciplinary program in the Dodge College of Arts and Sciences designed to give students a broad understanding of film and media history, theory, and criticism along with developing creative skills in film and media production. The curriculum consists of a core of FMS courses plus a rich variety of FMS electives, as well as offerings from the Departments of Anthropology, African and African American Studies, English, Communication, History, Modern Languages, and courses in the Gaylord College of Journalism and Mass Communication and the Weitzenhoffer College of Fine Arts. The comprehensive undergraduate degree provides students with the knowledge and skills required for careers in media-related fields, film production, academics, or other jobs in the liberal arts and humanities.

Programs & Facilities

Digital Media Lab & Library

Media Lab

The FMS Ned Hockman Memorial Media Lab is housed within the FMS Library. The Media Lab has several pro Apple video editing stations available for student and faculty use, which are loaded with Adobe Creative Cloud and screenwriting software. The Media Lab has a wide variety of production equipment including Canon cinema cameras, cine lenses, HD camcorders, tripods, lighting, and audio recording equipment available for check-out to OU faculty, FMS majors and minors and those enrolled in FMS production courses. The Media Lab is the heart of

production activities within FMS and students are encouraged to visit during open lab hours. The lab manager is available for workshops and tutorials on gear use and techniques.

Film Library

The FMS Film Library holds a large collection of screenplays, DVDs, and Blu-ray Discs for reference. Students can schedule appointments to watch films on the library's HD television by calling (405) 325-6639, or emailing the library/media lab manager. Many of the library's holdings can be checked out by FMS majors and minors as well as students enrolled in FMS courses.

Student Organizations

Student Film Production Club

The Student Film Production Club works to promote student productions, educate its members, and develop their skills in the field of film and video production. Although sponsored by the Film and Media Studies program, the club is open to all OU students and provides its members a place to develop production projects and meet other like-minded people. In addition to holding regularly scheduled meetings and special events, the club also maintains information on this Facebook page to facilitate student contact.

Festivals & Symposia

Native Crossroads Film Festival

Native Crossroads is a unique film festival and symposium that focuses on international Indigenous media. The annual event puts academics, media creators, and community and tribal organization representatives into dialogue to advance our discussions in all these fields. At once entertaining, scholarly, and educational, each year's event explores a particular theme of pressing importance to Native people, globally and locally. Through the generous support of our many sponsors, all events are free and open to the public. More information can be found here.

Undergraduate Study

Programs Offered

- **Film and Media Studies, Bachelor of Arts (p. 405)**
The undergraduate degree in Film and Media Studies is an interdisciplinary course of study that provides a comprehensive background to both the scholarly and practical study of the moving image. The curriculum covers the history, theory, criticism, art, and practice of film and other screen media through its core course requirements. Students will learn the skills needed to interpret film and other screen media critically, and "to read" and write about them creatively and analytically. Courses will also focus on social, political, cultural, and economic contexts. Interdisciplinary electives in the major allow students the flexibility to pursue their specific interests, be they film and media studies, writing about film, screenwriting, or production.
- **Film and Media Studies Minor (p. 408)**
Students can also minor in Film and Media Studies.

Graduate Study

Graduate programs in Film and Media Studies may be constructed according to the standard interdisciplinary degree procedures of the Graduate College. Participating members of the Film and Media Studies faculty are available to assist with degree planning at the master's or doctoral levels.

Courses

FMS 1013 Introduction to Film and Media Studies 3 Credit Hours

An examination of the history, role, impact, nature and delivery systems of film and media in the United States and the international community. (F, Sp, Su) [IV-AF].

FMS 1113 Introduction to New Media 3 Credit Hours

Provides students with an overview of new media studies, focusing on digital culture and computerized technology. Focuses on issues including convergence, the blurring of producer and consumer, and social aspects of media. (F, Sp) [III-SS].

FMS 1123 History of Video Games 3 Credit Hours

Presents the history of video games as an expressive and artistic medium. Focuses on the technological, cultural, and economic factors that influence game production and reception. (F, Sp) [IV-AF].

FMS 1313 Narrative Production Basics 3 Credit Hours

Prerequisite: FMS 1013 or concurrent enrollment. Students will be introduced to common American strategies for fictional narrative digital cinema production from development and preproduction through distribution. Emphasis is placed on application of practical knowledge of production techniques, technologies, protocols and aesthetic conventions for narrative storytelling. (F)

FMS 2013 Film and Media History to 1960 3 Credit Hours

Prerequisite: FMS 1013. Survey of world film and media history from the origins of cinema through 1960, including silent cinema, the transition to sound, classical Hollywood and important international film movements. Emphasizes an understanding of cinema in aesthetic, technological, economic and social terms. (F)

FMS 2023 Film and Media History: 1960 to Present 3 Credit Hours

Prerequisite: FMS 1013. Survey of Hollywood, independent and world film and media since 1960, including various new cinema movements, New Hollywood, media conglomeration and globalization. Emphasizes an understanding of the aesthetic, economic and social dimensions of film and media at the end of the twentieth and the beginning of the twenty-first centuries. (Sp)

FMS 2033 Writing About Film 3 Credit Hours

Prerequisite: 1013, English 1213 or Expository Writing 1213. This course teaches specialized writing skills for writing about film. Topics covered will include the vocabulary of film writing, basic cinema research skills and techniques to write for academic and general audiences. (F, Sp)

FMS 2970 Special Topics/Seminar 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

FMS 3023 Chinese Martial Arts Cinema 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. This course examines the historical development of Chinese martial arts cinema and its influence on today's transnational film culture through attention to the aesthetics of the genre and recurrent themes/issues, including the chivalric code of xia, cultural nationalism, social uses and meanings of screen violence, changing representations of masculinity and femininity, and the interplay of the body with technology. (Irreg.) [IV-WDC].

FMS 3033 The Hollywood Musical 3 Credit Hours

Prerequisite: FMS 1013, ENGL 1213, or EXPO 1213. This course will examine the Hollywood musical as a genre that, while positioned as "escapist entertainment," remains a product of distinct cultural and institutional forces. We will study the film musical's distinct conventions (drawing on minstrel shows, vaudeville, and Broadway), its social and ideological meanings, as well as how it functions as entertainment. (Irreg.)

FMS 3043 Science Fiction and Cultural Modernity 3 Credit Hours

Prerequisite: FMS 1013 or ENGL/EXPO 1213. Science Fiction addresses many issues central to the concept of "cultural modernity": utopian/dystopian visions, technological developments/disasters, mass media/mass culture, and encounters with the alien "other." In this course we will think and write critically about these and other key themes from a range of science-fiction films and television series. (Irreg.)

FMS 3123 Scorsese and the Coen Brothers 3 Credit Hours

Prerequisite: FMS 1013, ENGL 1213, or EXPO 1213. In this course we will study selected works, first from Martin Scorsese and then from the Coen Brothers, in relation to a range of topics, including American filmmaking since the 1960s; independent vs. mainstream American filmmaking; the concept of auteur filmmakers; and recurrent themes such as the problem of violence, masculinity in crisis, alienation and isolation, and genre revisionism. (Irreg.)

FMS 3213 Media Theories & Methodologies 3 Credit Hours

Prerequisite: 2013 or 2023. Familiarize students with classical film theory that evolved during the early days of cinema up through contemporary film and media theory, as a foundation for understanding and analyzing the way media shape and reflect culture. (F)

FMS 3223 Topics in Film Genre 3 Credit Hours

Prerequisite: 1013. May be repeated once with different genres; maximum credit six hours. Offers students a systematic in-depth study of one or two specific genres such as westerns, romantic comedy, horror, film noir, and melodrama. (Irreg.)

FMS 3233 Filmmakers up Close 3 Credit Hours

Prerequisite: 1013. May be repeated once with change of filmmakers; maximum credit six hours. An in-depth study of one or two filmmakers through the study of their films. Filmmakers include directors, screenwriters, actors, and others who have a significant role in making movies. (Irreg.)

FMS 3243 Hispanic Cinema 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Analytical study of exemplary motion pictures from the Hispanic world: Spain, Mexico, Cuba, Brazil, and Argentina. (Irreg.) [IV-AF].

FMS 3313 Digital Cinema Production 3 Credit Hours

Prerequisite: FMS 1013. Film and media production with narrative structure. Students will learn to handle equipment and edit in-camera. (F, Sp)

FMS 3323 Editing: History, Theory, Practice 3 Credit Hours

Prerequisite: FMS 1013. Combines the history, theory, and practice of digital editing in a narrative context. Explores early experimentation in film editing, the evolution of equipment and techniques, major montage/editing theories, and famous editors, while also providing hands-on shooting and editing experience. (Irreg.)

- FMS 3333 Advanced Narrative Production 3 Credit Hours**
Prerequisite: FMS 1013 or FMS 1313. This course offers a workshop environment for the development and refinement of fictional narrative approaches and techniques for a single camera production. Assignments will refine and explore narrative strategy skills that relate to development, preproduction, production, and postproduction with audience, genre, and format in mind. (Irreg.)
- FMS 3343 Film Directing 3 Credit Hours**
Prerequisite: FMS 1013 or FMS 1313. This course will explore practices of fictional narrative direction for a single camera approach. Students will be introduced to concepts that prepare students to discuss and apply practical strategies for directing actors, fiction narrative and a technical crew. Assignments will include script analysis, rehearsals, director's preparation, and on-set direction of fictional material. (Irreg.)
- FMS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- FMS 3443 East Asian Cinema 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. An introduction to East Asian cinema, 1980 to present (Japan, South Korea, China, Taiwan, Hong Kong). Focuses on individual films and larger social, political, and cultural contexts of production and reception. Considers films' unique formal and stylistic characteristics and as cultural reflections of the historical experiences and perspectives of peoples within East Asian. (Irreg.) [IV-WDC].
- FMS 3453 Global Indigenous Media 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Traces historical and contemporary issues of Indigenous self-representation in film and media using theoretical frameworks to examine historical, regional, and digital productions including, but not limited to, Indigenous peoples of the Americas, Canada, Australia, Aotearoa, and Circumpolar Communities. Topics include Indigenous methodologies, political sovereignty, feminisms, futurisms, activism, as well as Indigenous experimentalism, animation, genre play, digital storytelling, and documentary forms. (Irreg.) [IV-WDC].
- FMS 3463 Classical Hollywood Cinema 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course will examine Classical Hollywood, a style and method associated with the studio-era of filmmaking in the U.S., roughly the 1920's through the 1950's. Specific topics will include the industrial conditions and stylistic specifics of this era, Classical Hollywood genres and cycles, censorship and the Production Code, technological innovations, and the social impact of popular films. (Irreg.) [IV-AF].
- FMS 3513 Cinemas of Childhood 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course examines the figure of the child in world cinema. Specific topics will include the function of fairy tales and fantasy, representations of gender socialization and childhood sexuality, and how films represent children as political actors in stories of social change and environmental crises. (Irreg.)
- FMS 3663 The History and Theory of Animation 3 Credit Hours**
Prerequisite: ENGL 1213/EXPO 1213. This course will survey the history of animation, with attention to theoretical and critical discussions of authorship, style, technological developments, industrial and independent production, issues in representation, and reception. The focus will be on the development of animation within the Hollywood studio system, and on global trends including Indigenous animation, Japanese anime, and animation traditions in Africa, Europe, and elsewhere. (Irreg.)
- FMS 3673 Anime: the World of Japanese Animation 3 Credit Hours**
(Crosslisted with MLLL 3673) Prerequisite: Junior standing. This course explores the history and development of Japanese animation, or "anime". It examines how animation was brought to Japan, and how it developed prior to the Second World War, and then further in the postwar decades. We will highlight how despite being influenced by foreign sources, Japanese animators create a uniquely Japanese mode of image-making. (Irreg.) [IV-WDC].
- FMS 3683 Social Issues and Film 3 Credit Hours**
Prerequisite: 1013. Analytical study of films that engage one or more social issues such as race relations, gender roles, class conflict, nationalism and imperialism. Focus will be on their various aesthetic approaches such as social realism, anti-realist techniques, and satire. (Irreg.) [IV-AF].
- FMS 3693 Gender and Media 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Course Description: This course will use the tools and methodologies of the humanities to examine how film, television, and other contemporary entertainment media reflect and inform popular attitudes about sex and gender, primarily in a US context. Special attention will be given to how gender intersects with other key identity axes, including race, sexuality, class, and ethnicity. (Irreg.) [IV-WC].
- FMS 3703 Topics in Film and Media Production 3 Credit Hours**
Prerequisite: FMS 1013. May be repeated once with change of content; maximum credit six hours. An in-depth critical and applied study of a particular type of production, with topics such as Advanced Single-Camera Production, Aesthetics and Practice of the Short Film, and Making the Feature Film. (Irreg.)
- FMS 3713 Topics in Writing for the Screen 3 Credit Hours**
Prerequisite: FMS 1013. May be repeated once with change of content; maximum credit six hours. An in-depth critical and applied study of a particular screenwriting topic such as "Writing for Television," "Writing the Short Film," and "Advanced Screenwriting." (Irreg.)
- FMS 3800 Internship 1-4 Credit Hours**
1 to 4 hours. Prerequisite: FMS 1013, junior standing, and permission of instructor. May be repeated with change of internship; maximum credit four hours. Participation in supervised internship with submission of journals describing work performed, regular reports, on-site supervisor evaluation, assigned readings, and final assessment of experience. (F, Sp, Su)
- FMS 3801 Career Planning in Film and Media Studies 1 Credit Hour**
