General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Art, M.F.A. in Art

Minimum Total Hours (Thesis): 60

Minimum Total Hours (Non-Thesis): 60

Program Code: M060

Required Courses

6000 level courses cannot be taken prior to passing the midway defense

The requirements listed on this degree check sheet apply to the following concentrations in Art:

- Art and Technology - M060 Q051
- Ceramics - M060 Q091
- Film - M060 Q251
- Painting - M060 Q496
- Photography - M060 Q516
- Printmaking - M060 Q531
- Sculpture - M060 Q596
- Video - M060 Q661
- Visual Communication - M060 Q681

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Art History: Art of the American West, Ph.D.

Minimum Total Hours: 90

Program Code: D070

Program Requirements

Reading proficiency in French, German or Spanish will be required as well as proficiency in native languages appropriate to specific dissertation topics. This proficiency may be met as part of the MA degree.

Students must take a minimum of 28 hours of Art History courses beyond the master's, 15 of which must be at the 6000 level. Students may supplement those courses with approved electives in History, Anthropology, Literature, Music, Native American Studies, or other areas appropriate to their studies and integrated dissertation topic.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

 Amy Shaw – Director of Graduate Admissions
 Gail Shelton – Director of Operations

General Information

Mission and History

The Graduate College supports and advocates for graduate students and postdoctoral researchers throughout their innovative educational journey. The college collaborates with a student's chosen graduate program to assist them in achieving their goals. As the center of advanced study at the University, the college provides a foundation of creative activity to enhance graduate student and postdoc success.

Graduate instruction has been offered at the University of Oklahoma since 1899, seven years after the University opened its doors. The first master's degree was conferred in 1900 to C. Ross Hume. The Graduate School was formally organized in 1909, and in 1929, the first doctoral

degree was awarded to Dr. Mary Jane Brown. In 1942, the name was changed from Graduate School to Graduate College.

Authority and Responsibility of Faculty, Staff, & Students

The Graduate College guides, supports, and enhances the educational experience of every OU graduate student. The Graduate Council and the Dean of the Graduate College supervise and evaluate the academic units of the University that offer master's and doctoral degrees to ensure quality, observance of policy, and academic excellence in all areas of advanced study. Faculty and staff carefully monitor the performance of all graduate students. Final determination of a student's graduate status, from admission through graduation, rests with the Dean of the Graduate College.

The Graduate College strives to develop in each student a firm grasp of a chosen field, the skills and methods of research, and the capacity for independent thought. Faculty and students share an obligation to master the knowledge of their chosen fields and to add to that knowledge or apply it through professional contributions that benefit society. The Graduate Faculty has responsibility for instruction, for the guidance of graduate students in the development of their programs, and for pursuing investigations associated with a particular field or discipline. Graduate students are expected to demonstrate initiative and assume responsibility for the progress of their studies. Students must master a body of knowledge, and class work merely provides the foundation for wider personal inquiry. A graduate degree is conferred for mastery of a field and thorough understanding of its related branches.

For complete information about the Graduate College, graduate degree and certificate programs, and policies governing graduate study at the University of Oklahoma, review the Graduate College Bulletin.

Programs Offered

- Community Engagement (Tulsa), Graduate Certificate (p. 1613)
- Interdisciplinary Studies, Ph.D. (p. 1614)
- Organizational and Community Leadership (Tulsa), Ph.D. (p. 1614)

Programs & Facilities

Resources

Fellowships and Scholarships

Private donations have enabled the Graduate College to provide fellowships and scholarships in many areas. Additional programs seek to reward and encourage scholars conducting and presenting original scholarship at the highest levels. Dissertation Awards and Graduate Teaching Assistant Awards are given to reward excellence in dissertation research and teaching, respectively. In addition, the annual Three Minute Thesis competition (3MT®) challenges students to communicate the significance of their research to a general audience in just three minutes. Cash prizes are awarded, and the finalists' presentations are featured on the Graduate College website. For more information on these programs and others that may be available, visit the Graduate College website.

Funding and Awards

The Graduate College provides funding opportunities for students who present at a conference, conduct research, or attend a prestigious training or class not offered at OU. They also manage tuition waivers for graduate research and teaching assistants.

Graduate Student Life (GSL) Center and Programs

The GSL Center is a comfortable place for graduate students to work, relax, and reset. All graduate students have the opportunity to attend GSL's social, academic, and professional development events and make valuable connections with colleagues from other disciplines across campus.

English Training and Certification Services (ETCS)

ETCS offers standardized testing services to certify the appropriate English capacity for international graduate students to serve in instructional positions at OU. ETCS also provides support and training opportunities for first-time English certification, to obtain a higher level of certification, or to assist with English communication difficulties in a current appointment.

Courses

GRAD 5000 Concurrent Students at OUHSC 0 Credit Hours

Prerequisite: graduate standing. OU students concurrently enrolled at OUHSC. (F, Sp, Su)

GRAD 5003 Oklahoma Scholar-Leadership Enrichment Program Graduate Seminar 3 Credit Hours

Prerequisite: graduate standing. May be repeated with change of content; maximum credit 12 hours. An interdisciplinary seminar variable in content changing with each seminar. Seminars are led by prominent national and international scholars and leaders coordinated with a current faculty member in their area of expertise. Emphasis is on enrichment and exploration with scholars to investigate ideas and issues affecting the future of humanity. (F, Sp)

GRAD 5103 Interdisciplinary EOS3 3 Credit Hours

Prerequisite: Graduate Standing. Earth Observation Science for Society and Sustainability (EOS3) is an interdisciplinary certificate program consisting of a four-course certificate (Interdisciplinary EOS3, EOS3 Data Analytics, EOS3 Interface, and EOS3 Practicum) designed to provide students with advanced training in interdisciplinary communication, leadership, and data science skills. This course serves as the introduction to Interdisciplinary EOS3 and the processes by which effective science team are formed and become productive. Students will gain experience in working with interdisciplinary teams to leverage their disciplinary expertise and work with those with other expertise to address societal concerns. (F)

GRAD 5203 EOS3 Data Analytics 3 Credit Hours

Prerequisite: graduate standing. Focuses on using large, open-source civil Earth observation and other geospatial data. Introduces students to various open-source data tools for acquiring, managing, and analyzing large public data sets. Students will work in interdisciplinary teams to fuse disparate data and conduct analyses that meld ideas from natural and social science disciplines. The student teams will be comprised of members with varied skill sets to establish a culture of collaborative teaching and learning. (F)

GRAD 5303 EOS3 Interface 3 Credit Hours

Prerequisite: graduate standing. EOS3 Interface focuses on interdisciplinary communication, the application of group communication theories to team science, and the communication of science across societal and cultural gaps. Theory, scholarship, and applications of group and organizational communication will be discussed within this context. In addition, the course will cover how socio-cultural differences affect communication, with a focus on how those affect the communication of scientific and technical information across disciplines and to the lay public and policymakers. (Sp)

GRAD 5403 EOS3 Practicum 3 Credit Hours

Prerequisite: graduate standing. The EOS3 practicum is the culminate of the certificate program and will allow students to apply what they have learned in their previous coursework while working as part of a collaborative and interdisciplinary team tasked with addressing real world research topics relating to the EOS3 theme. (Sp)

GRAD 5940 Professional Master's Practicum/Internship 1-5 Credit Hours

1 to 5 hours. Prerequisite: graduate standing and permission of instructor. May be repeated once; maximum credit five hours. Provides a practicum or internship experience for students in the professional master's degree program. The students will apply the knowledge from their core academic discipline (e.g. science, engineering, education, fine arts) in an appropriate supervised professional setting (e.g. business, public administration, international programs) to provide a valid experience related to the core discipline and career context of their professional masters degree. The internship/practicum will serve as the culminating experience for the degree. (F, Sp, Su)

GRAD 5980 Research for Master's Thesis 2-9 Credit Hours

Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

GRAD 5990 Graduate Special Topics 1-4 Credit Hours

1 to 4 hours. Prerequisite: graduate standing and permission of instructor. May be repeated with change of topic; maximum credit twelve hours. Selected topics in graduate areas not usually covered in traditional courses. For any particular section there may be additional prerequisites required. (F, Sp, Su).

GRAD 6980 Research for Doctoral Dissertation 2-12 Credit Hours

2 to 12 hours. Prerequisite: Graduate standing and permission of instructor or Graduate College; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

GRAD 6990 Graduate Advanced Special Topics 1-4 Credit Hours

1 to 4 hours. Prerequisite: graduate standing and permission of instructor. May be repeated with change of content; maximum credit twelve hours. Selected advanced topics in graduate areas not usually covered in traditional courses. For any particular section there may be additional prerequisites required. (F, Sp, Su)

Community Engagement (Tulsa), Graduate Certificate

Minimum Total Hours: 12

Program Code: G031

Admission Requirements

The Graduate Certificate in Community Engagement is offered through Academic Affairs in Norman and through the Tulsa Graduate College in Tulsa.

In addition to meeting the general requirements for admission to the Graduate College, applicants must also meet the admissions requirements for the Certificate Program in Community Engagement. Applications will be evaluated based on previous course work, evidence of leadership potential, and commitment to community health and well-being. Applicants must meet the minimum 3.0 GPA requirement (based upon a 4.0 scale) in previous course work. Compliance with admission requirements is demonstrated by submission of the following documents:

- Application to the Certificate program
- Personal Goal Statement
- Community Engagement Interest Statement
- Professional resume or CV
- Three letters of recommendation from persons familiar with the applicant's scholastic or leadership potential

For admission into the certificate program, applicants must meet the requirements for full graduate admission standing. To do so, the candidate must have supplied all the items listed above and must be eligible for admission to graduate certificate degree program for the Graduate College.

Certificate Requirements

The curriculum builds on the learner's existing knowledge and skills in their respective degree programs and provides additional knowledge, tools, and skills needed to be a highly effective agent of change to positively influence and promote a thriving community and help its members to optimize their potential.

Code	Title	Credit Hours
OCL 5603	The Science of Community Engagement	3
OCL 5613	The Tools of Community Engagement	3
OCL 5623	Community Engagement Apprenticeship	3
OCL 5633	Community Engagement Capstone	3
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Interdisciplinary Studies, Ph.D.

This program is designed to provide the opportunity for synergistic research beyond established doctoral programs and among the different disciplines currently represented at the University of Oklahoma. It is for admitted doctoral students with strong academic records who have demonstrated the ability to work independently and at a high scholarly level.

Prior to preparing an application, students will discuss the proposed research areas with relevant faculty members who hold the appropriate graduate faculty status. The student will prepare the application in close consultation with the prospective committee members.

For complete information, download the IPP Packet.

Admission Requirements

- Cumulative GPA of 3.5 in graduate-level coursework at OU.
- Currently admitted to an existing OU Norman or Tulsa doctoral program, which will be referred to as the *home unit*.

Admission

- Deadlines: October 15 for spring (decision anticipated by December 15) and March 15 (decision anticipated by May 15) for fall admission. These deadlines are designed to allow time for a meeting with the IPP subcommittee and revisions of application materials if requested.
 - Students who hold a master's degree will be eligible to apply for the IPP during the second semester and before the end of the third semester in the home unit.
 - Students who do not hold a master's degree will be eligible to apply during the fourth semester and no later than the end of the fifth semester.
- Deviations from the timeline above will be considered on a case-by-case basis.
- After submission of the application, the student will meet with the IPP subcommittee of the Graduate Council, which is the body that evaluates the application. This meeting will allow the IPP subcommittee to learn more about the student's research plans and provide the student with feedback. The chair and/or co-chair of the student's proposed doctoral committee should attend the meeting. The subcommittee will have read the submitted materials, but the student is welcome to give a 5-10 minute presentation about their project if they wish.

Graduate Council IPP Subcommittee

- This subcommittee will be chaired by the Graduate College dean and consist of faculty members of the Graduate Council.
- Responsibilities will include reviewing admission proposals and progress evaluations.
- Any change to the *Advisory Conference Report* or request for exceptions to the policies of the *Graduate College Bulletin* must be approved by the IPP subcommittee, the student's doctoral committee, and the graduate liaison of the home unit.
- The IPP subcommittee is responsible for monitoring and revising IPP guidelines and structure, subject to normal approval processes of the Graduate Council and University as required.

Organizational and Community Leadership (Tulsa), Ph.D.

Minimum Total Hours: 90

Program Code: D750

Admission Requirements

The Doctor in Philosophy in Organizational and Community Engagement is offered through the Graduate College in Tulsa.

In addition to meeting the general requirements for admission to the Graduate College, applicants must also meet the admissions requirements for the Ph.D. in Organizational and Community Engagement. Applications will be evaluated based on undergraduate and graduate work, evidence of leadership potential, and commitment to

community health and well-being. Applicants must meet the minimum 3.0 GPA requirement (based upon a 4.0 scale) in previous course work. Compliance with admission requirements is demonstrated by submission of the following documents:

- Application to the Ph.D. program
- Personal Goal Statement
- Research Interest Statement
- Professional resume or CV
- Three letters of recommendation from persons familiar with the applicant's scholastic or leadership potential

For admission into the Ph.D. program, applicants must meet the requirements for full graduate admission standing. To do so, the candidate must have supplied all the items listed above and must be eligible for admission to degree status for the Graduate College.

Applicants who do not meet the criteria for full admission to the Ph.D. program will not be admitted into the program. All admission materials, not just GPA documents, will be used in determining the admissibility of applicants. The program faculty may elect to interview applicants who are selected as finalists for admission. Finalists may also be asked to submit additional information, such as an example of a significant research paper written during their prior graduate work or a chapter from their master's thesis.

Program Requirements

- *This program is currently offered only at the University of Oklahoma's Tulsa campus*

General Information

An internationally prominent faculty, state-of-the-art facilities and new technology combine to make the University of Oklahoma Health Sciences Center a leader in education, research and patient care.

As one of only four comprehensive academic health centers in the nation with seven professional schools, the OU Health Sciences Center serves approximately 4,000 students on the Oklahoma City and Tulsa campuses as well as locations throughout the state. The OU Health Sciences Center serves as the state's training facility for physicians, biomedical scientists, nurses, dentists, pharmacists, and a wide range of allied health and public health professionals. The center is composed of the College of Allied Health, College of Dentistry, College of Medicine and School of Community Medicine, Fran and Earl Ziegler College of Nursing, College of Pharmacy, Hudson College of Public Health, and Graduate College.

Located one mile south of the State Capitol, the OU Health Sciences Center is the cornerstone of the 275-acre Oklahoma Health Center, a complex of 19 public and private health care institutions. Students and residents receive clinical training at on-site institutions, including University Hospital, Children's Hospital of Oklahoma, Presbyterian Hospital, Dean A. McGee Eye Institute, Veterans Affairs Medical Center, Oklahoma State Department of Health, Oklahoma Medical Research Foundation and other affiliated hospitals and clinics in Oklahoma City and throughout the state.

General Information

The Honors College curriculum at the University of Oklahoma provides high achieving students with the opportunity to develop their intellectual and leadership potential to the fullest. The Honors College has long-serving core faculty and also draws from the best research and teaching faculty from all undergraduate colleges of the University to offer an enhanced curriculum at both the lower and upper divisions. Students can enroll in the small sections (generally 19-22) of Honors-designated general education courses, Honors sections across campus, the Honors at Oxford summer program, and independent study and research with faculty in the student's major discipline. The Honors College also encourages active participation in OU's Education Abroad program and in the Oklahoma Scholar-Leadership Enrichment Program seminars taught by nationally recognized scholars. The Honors College offers academic advising to assist students in moving through the Honors curriculum.

The Honors College offers a 4-year Honors experience with structured programs to develop research, writing, oral communication, and leadership skills. Students in the Honors College can major in any of the academic disciplines offering undergraduate bachelor's degrees at the University of Oklahoma. The Honors College does not confer a degree, but completion of the Honors College requirements will be noted on students' final OU transcript. Students earning Latin Honors (*cum laude*, *magna cum laude*, or *summa cum laude*) will also have that distinction recognized on their diploma and transcript. Students who are only interested in Latin

Honors may receive that designation at the time of graduation, regardless of their involvement in the Honors College.

Programs Offered

- Medical Humanities, Minor (p. 1620)

Programs & Facilities

Medical Humanities Scholars Program

The Medical Humanities Scholars Program is a highly selective, sequential BA-MD program that prepares 5-8 incoming high school seniors per year for a career in medicine through an enhanced pre-medical curriculum (MH Minor) that includes extensive coursework in history, literature, fine arts, philosophy, ethics, sociology, anthropology, economics, spirituality, and politics as they relate to health, disease, and the practice of medicine. MH Scholars are expected to develop speaking proficiency in a world language. Students also engage in service learning and clinical experiences to develop an appreciation for the social dimensions of health and healing. Upon admission into the program, students receive provisional acceptance at the University of Oklahoma College of Medicine, contingent upon their GPA and MCAT scores.

Pre-Law Scholars Program

The Pre-Law Scholars Program is a highly selective accelerated BA/BS-JD program. Incoming freshmen admitted to the Honors College are eligible to apply for this program, which gives provisional acceptance to OU College of Law, contingent upon GPA and LSAT scores. Pre-Law Scholars sequentially complete a Bachelor's degree and Juris Doctor in only 6 years.

Informal Reading Groups

Each semester, the Honors College sponsors a program of informal reading groups. The groups meet just one hour per week, with 10-15 students and a facilitator discussing about 50 pages of reading. The books cover a very wide range of topics, and most have been recommended by Honors students. To participate, the only commitment is that each student makes a good-faith effort to do the reading and come to the group meeting as often as possible, with the understanding there may be one or two weeks when students need to do other things. This is a great opportunity to meet other Honors students with similar interests. The goals of the program can be summarized as "maximum information and enjoyment, with zero stress." Books are given free of charge to all participants.

Presidential Teaching Fellows in Honors

Presidential Teaching Fellows in Honors are faculty members selected from across campus who excel in all their professional activities and who relate those activities to the students they teach and mentor. Presidential Teaching Fellows typically teach in the Honors College for one year.

Honors at Oxford

Honors College students have the opportunity to study in our summer program at Oxford University in England. Each year, a group of Honors students spends 3 weeks in July at Brasenose College, Oxford University. Honors colloquia are offered on topics of British history and culture, and typically involve field trips to related sites of interest. Students are able to use weekends to travel and explore farther afield.

Undergraduate Research Opportunities Program (UROP)

The Undergraduate Research Opportunities Program (UROP) offers financial assistance for scholarly and creative projects under the

mentorship of a faculty member. Dozens of research projects are funded each year in support of ambitious and exciting research endeavors. This competitive program is open to all University of Oklahoma main campus and Health Science Center undergraduates who apply for grants of up to \$1,000 each term. Students and faculty from across the University discover the benefits of hands-on research opportunities in laboratories, studios, libraries, and field sites. UROP recipients present the results of their research or accounts of their work in progress at the Honors College's Undergraduate Research Day, a professional conference held each spring. For more information contact Jeff Cooper at jdcooper@ou.edu.

Undergraduate Research Day (URD)

Undergraduate Research Day (URD) is a special event held every spring. The Honors College hosts and celebrates students who were funded in their research or creative activities by the Undergraduate Research Opportunities Program, as well as other undergraduate students who want to show what they have discovered and produced in their academic endeavors. The Honors College invites all undergraduates to apply. Participants will be part of a panel of 4-6 students with whom they'll present their research to an audience of their peers, faculty, and parents. Topics can include fine arts, natural sciences, life sciences, business, engineering, social sciences, and the humanities. Prose and poetry submissions and other forms of creative activity are also encouraged. Monetary prizes are awarded to the strongest presentations. For more information contact Jeff Cooper at jdcooper@ou.edu.

Honors Research Assistant Program (HRAP)

The Honors Research Assistant Program provides Honors students the opportunity to work with professors as research assistants on specific projects the professor is studying. Participants work ten hours a week for ten weeks, and earn \$1000. Honors College students with at least 15 hours of college credit and a 3.4+ GPA are eligible to apply. We accept applications for this program at the beginning of the Fall and Spring terms. Applicants are considered until all positions are filled. For more information contact Jeff Cooper at jdcooper@ou.edu.

The Honors Undergraduate Research Journal (THURJ)

The *Honors Undergraduate Research Journal (THURJ)* is an annual publication that celebrates undergraduate research in all academic disciplines. Each spring, *THURJ* publishes the best Honors College student papers from the previous year. An Editorial Board of student peers evaluates submissions using a blind review process, choosing between 8-12 papers for publication. All published authors also receive a monetary prize.

- Students interested in serving on the *THURJ* editorial board should look for announcements in August and September about the application deadline.
- Students interested in submitting a paper to *THURJ* should look for publicized announcements in December and January for the submission deadline.

For more information contact: Imelda Aldava, imelda.aldava-1@ou.edu

First Year Research Experience (FYRE)

Each spring the Honors College offers an opportunity for first-year Honors students to participate in laboratory research, usually lab-based. This course, the Honors First-Year Research Experience (FYRE), is open to Honors College students from all majors through a competitive application and interview process. Besides working alongside professors and graduate students, students earn three hours of credit of Honors for

successfully completing the course. Look for announcements in August and September for the application deadline. Contact the Honors College main office for more information.

Nationally Competitive Scholarships and Fellowships

The Honors College maintains complete application information and works with outstanding undergraduates in their quest for Rhodes Scholarships, Marshall Scholarships, Goldwater Scholarships, Truman Scholarships, Gates Cambridge Scholarships, Rotary Scholarships, and other prestigious awards. For more information, contact Dr. Brian Johnson, bjohn@ou.edu.

Integrated Living-Learning Environment

David L. Boren House is a housing option for Honors students. The academic offices for the Honors College are housed in this residence hall. Faculty offices, seminar rooms, study areas, and a courtyard are also a part of the facility. Non-Honors students can contract to live in this residence hall. Additional options for preferential student housing are offered to Honors students each year.

Honors Student Association

All Honors students are members of the Honors Student Association (HSA). The HSA is an official student organization at OU. As such, it receives funds from the University of Oklahoma Student Government Association to sponsor events of interest to Honors College students and to the University community at large.

Undergraduate Study

Admission

Any student interested in applying for the Honors College must fulfill the following requirements:

- have already been accepted into the University of Oklahoma. We cannot process your application without an accepted common application on file, including officially-submitted test scores. Please visit Admissions & Recruitment to apply for the University of Oklahoma.
- submit a 500 word essay based on one of the provided topics.

Freshmen entering the University of Oklahoma are eligible to apply to the Honors College if they have:

- an ACT Composite of 30 or higher or an SAT Critical Reading and Mathematics Total of 1360 or higher.
- **and** an **unweighted** high school GPA of 3.75 or rank in the top 10% of graduates of their high school class.

Students with lower scores may be considered by including a letter of academic recommendation from a teacher or guidance counselor.

Freshmen from countries outside the US entering the University of Oklahoma are eligible to apply to the Honors College if:

- You have an International Baccalaureate score of 40 or higher.

Transfer students entering the University of Oklahoma are eligible to apply to the Honors College if they have:

- earned 15 or more hours of total transfer credit with a transfer GPA of 3.40 or higher

Students currently enrolled at the University of Oklahoma are eligible to apply to the Honors College if they have:

- earned 15 or more hours of OU credit with a cumulative GPA of 3.40 or higher

Final admission into the Honors College is determined by evaluation of the Honors College application form, which includes a written essay of 350-500 words.

Continued good standing in the Honors College requires an OU retention/combined retention grade point average of 3.40 and progress towards completion of the curricular requirements of the Honors College.

Honors College Curriculum

Honors College courses are intended to be included in the hours earned toward completion of the student's undergraduate degree.

Honors College requirements include the following:

- HON 2973 OR HON 2963 (Perspectives)
- HON 3980 (Research - 3 credit hours)
- HON 3993
- Honors Electives (9 credit hours): may include HON 3960 Honors Reading Honors Reading and Honors designated courses.
- C or higher required in all HON classes
- filing an honors thesis (the end result of the Honors 3980 research project or other thesis-worthy work) with the Honors Office.
- both an OU Retention GPA **and** a Combined Retention GPA of 3.4

Medical Humanities Minor

Any Honors College-eligible (3.4 GPA or higher) student at the University of Oklahoma may pursue a Minor in Medical Humanities (p. 1620) focused on a specific area within the medical humanities (history of medicine; bioethics; medical anthropology; literature and medicine; cross-cultural perspectives on health and disease; etc.), on world languages, or on world cultural traditions. The goal is for students to prepare for the health professions and the multi-cultural clinical context by gaining a broad vision of the social, cultural, historical, economic, political, ethical, and spiritual factors shaping health, disease, and the delivery of healthcare

Courses

HON 2963 Perspectives on the Global Experience 3 Credit Hours

Prerequisite: Admission to Honors College; May be repeated with change of content, maximum 6 hours. Perspectives courses explore a broad subject from multiple perspectives. 2963 is an interdisciplinary investigation of the social, economic, and political realities of life and culture in non-Western geographic areas, such as Asia, Africa, Oceania, and Latin America. Geographic focus and topic vary by course title and instructor; see Honors College website for current offerings. This course is writing intensive. (F, Sp, Su)

HON 2970 Honors Seminar 3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors College Curriculum. May be repeated; maximum credit six hours. (F, Sp)

HON 2973 Perspectives on the American Experience 3 Credit Hours

Prerequisite: Permission of Honors College; May be repeated; maximum credit six hours. Perspectives courses explore a broad subject from multiple perspectives. 2973 is an interdisciplinary investigation of the social, economic, and political realities of North American life and culture from the late nineteenth century to the present. Specific topics vary by course title and instructor; see Honors College website for current offerings. This course is writing intensive. (Sp)

HON 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

HON 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors College; departmental permission; May be repeated; maximum credit six hours. Will consist of topics designated by the instructor. The content will emphasize work not presented in other courses. (F, Sp, Su)

HON 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: member of Honors College Curriculum in good standing. May be repeated; maximum credit six hours. An upper-division Honors College course to be used by departments and by the Honors College. (F, Sp, Su)

HON 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated with change of content; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project under the guidance of a professor in the student's field. (F, Sp, Su)

HON 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

HON 3993 Honors Colloquium 3 Credit Hours

Prerequisite: admission to and good standing in Honors College Curriculum. May be repeated with change in course topic. An interdepartmental course involving two or more instructors from different departments. (Sp)

Medical Humanities, Minor

Minimum Total Credit Hours: 18

Program Code: N678

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

Requests to substitute a minor requirement must be approved in writing by the Honors College.

- The Medical Humanities Minor is available to all Honors-eligible (GPA 3.4 or higher) students at OU.

Required Courses

Students minoring in Medical Humanities will complete 18 hours of coursework in anthropology, psychology, communication, history, history of science, medicine & technology, philosophy, cultural studies, women's & gender studies, ethnic studies, religious studies, ethics, music, art, classics, sociology, and foreign language. Courses are chosen in consultation with the Honors College to develop students' cultural competence through the study of cultural variation within any humanistic, social scientific, or scientific context.

Three of the 18 hours will be devoted to the study of a foreign language beyond the College of Arts & Sciences minimum 13-hour requirement.

Code	Title	Credit Hours
Interdisciplinary Course Distribution ¹		
<i>Lower Division Humanities and Social Sciences</i>		
	Choose 6 hours (p. 1621)	6
<i>Upper Division Humanities and Social Sciences</i>		
	Choose 6 hours (p. 1621)	6
World Culture Course		
	Choose 3 hours	3
Foreign Spoken Language		
	Choose any intermediate foreign language course, including ASL, beyond the College of Arts and Sciences first semester intermediate language requirement ²	3
Total Credit Hours		18

¹ Note: at least two courses (6 hours) must devote a significant portion of the semester to health-related issues.

² This requirement is waived for students completing a major or minor in a modern foreign language.

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

INTERDISCIPLINARY COURSE DISTRIBUTION

Lower DIVISION HUMANITIES AND SOCIAL SCIENCES

Acceptable courses include (but are not limited to):

Code	Title	Credit Hours
ANTH 2203	Global Cultural Diversity	3

Administrative Officer

- Jonathan Stalling, Ph.D., Interim Dean, College of International and Area Studies; Harold J. and Ruth Newman Chair in US-China Issues and Professor of International Studies; Co-Director, Institute for US-China Issues

General Information

The David L. Boren College of International Studies (CIS) was officially created in January 2011 as a reflection of former President David Boren's vision of advancing international educational opportunities for all OU students. Today, CIS houses the academic Department of International and Area Studies and a number of other international institutes and centers. Together, these various offices, departments and centers work to provide a range of opportunities for students to learn about the global community in which they live.

The David L. Boren College of International Studies aspires to be a national center of excellence and innovation in international education. Our goals are to broaden international exchange and research partnerships and to enhance the global fluency of our students so they can become compassionate, open-minded global citizens and leaders.

Programs Offered

- Asian Studies, B.A. (p. 1641)
 - Asian Studies Course Lists (p. 1643)
- European Studies, B.A. (p. 1644)
 - European Studies Course Lists (p. 1646)
- European Studies: Russian & East European, B.A. (p. 1646)
 - European Studies: Russian & East European Course Lists (p. 1649)
- Global Energy, Environment, and Resources, B.A. (p. 1649)
 - Global Energy, Environment, and Resources Course Lists (p. 1652)
- International Development, B.A. (p. 1652)
 - International Development Course Lists (p. 1655)
- International Security Studies, B.A. (p. 1655)
 - International Security Studies Course Lists (p. 1658)
- International Studies, B.A. (p. 1658)
 - International Studies Course Lists (p. 1661)
- Latin American Studies, B.A. (p. 1662)
 - Latin American Studies Course Lists (p. 1664)
- Middle Eastern Studies, B.A. (p. 1665)
 - Middle Eastern Studies Course Lists (p. 1667)
- African Studies, Minor (p. 1667)
 - African Studies Minor Electives (p. 1668)
- Asian Studies, Minor (p. 1669)
 - Cultural & Area Studies Course List (p. 1670)
- European Studies, Minor (p. 1670)
- Global Energy, Environment, and Resources, Minor (p. 1671)
- International Development, Minor (p. 1671)
- International Security Studies, Minor (p. 1672)
- International Studies, Minor (p. 1673)
- Iranian Studies, Minor (p. 1673)
- Latin American Studies, Minor (p. 1674)
- Middle Eastern Studies, Minor (p. 1675)
- Russian and Eastern European Studies, Minor (p. 1675)
- Global Engagement, Undergraduate Certificate (p. 1676)
- International Studies, B.A./Global Studies, M.A. (p. 1676)
 - International Studies Accelerated Course Lists (p. 1679)
- Global Affairs, M.A. (p. 1680)
 - Global Affairs Course List (p. 1681)
- Global Studies, M.A. (p. 1682)
 - Global Studies Course Lists (p. 1682)
- International Relations, M.A. (p. 1683)
 - International Relations Course Lists (p. 1683)

Programs & Facilities

Research Centers and Programs

The David L. Boren College of International Studies is home to 10 research centers and institutes that engage with scholars from all over the world and promote cross-cultural collaboration throughout the university. These centers provide learning opportunities for students, faculty and the community alike, hosting events and guest speakers as well as other initiatives.

- **African Studies Institute,**
The African Studies Institute (ASI) at the University of Oklahoma is an emerging, interdisciplinary center dedicated to research and the study of Africa, as well as building a community of those interested in Africa in the state of Oklahoma.
- **Center for the Americas,**
The Center for the Americas is dedicated to enhancing programming at the University of Oklahoma in several areas of the Western Hemisphere. Its major focus is in Latin America, but it also promotes activities on the Caribbean, Canada and global U.S. foreign policy.
- **Center for Brazil Studies,**
The Center for Brazil Studies is a hub for teaching, research and outreach relating to Brazil at the University of Oklahoma. The Center works in cooperation with other OU programs/centers, departments, and colleges, as well as with Brazilian institutions, academics and professionals, to provide the OU faculty and students with opportunities to develop language skills (Portuguese), to develop

substantive knowledge on/professional experience in Brazil, to engage in contemporary Brazilian debates and to engage in research in, about and with Brazil.

- **Center for Middle East Studies,**

The goal of the Center for Middle East Studies (CMES) is to enrich Middle East programming at the University of Oklahoma. CMES brings three distinguished speakers to the University each semester, sponsors informal "brown bag" lunches, and supports Middle East events on campus.

- **Center for Peace and Development,**

The Center for Peace and Development (CPD) builds on OU's longtime work with communities in northern Uganda. CPD brings together faculty and students from across the University's varied disciplines to build collaborative partnerships with communities affected by conflict.

- **Center for the Study of Nationalism,**

The Center for the Study of Nationalism (CSN) engages OU faculty and students in the empirical and theoretical aspects of studying nationalism and related cultural and political issues, including: cultural authenticity and reinvention; self-determination and secession; ethnic conflict and civil war; immigration and citizenship; globalization, development and inequality; minority rights, accommodation and nation-building.

- **Cyber Governance and Policy Center,**

The Cyber Governance and Policy Center is dedicated to enhancing research-based understanding of policy and governance issues pertaining to modern information and communications technology, broadly understood to include cyber-physical systems. The center serves as a focal point for research on such issues at the University of Oklahoma, facilitating collaboration among faculty and graduate students across a range of disciplines including International Relations, Political Science, Law, Communications, Economics, Business, Engineering and Computer Science.

- **European Union Center,**

The European Union Center at OU was founded in September 2001, when University of Oklahoma became one of 15 national universities to host a center for European Union studies. Activities during the Center's first three years were supported by a grant awarded through a national competition by the Commission of the European Communities. The Center seeks to advance knowledge of the European Union at OU as well as throughout the local community, the state of Oklahoma, and the southwestern United States. The European Union Center at the University of Oklahoma has established a network of affiliates at universities throughout the southwest providing the program opportunities for reaching a broad regional audience.

- **Farzaneh Family Center for Iranian and Persian Gulf Studies,**

The Farzaneh Family Center for Iranian and Persian Gulf Studies aims to coordinate a variety of curricular, research and outreach activities at OU that explore the history and culture of Iran and the Persian-speaking world. These activities include lectures, conferences, film screenings, exhibits, concerts and other programs.

- **Institute for US-China Issues,**

The Institute for U.S.-China Issues at the University of Oklahoma was established in August 2006 with the generous financial support of Harold J. & Ruth Newman. The Institute seeks to enhance the understanding and management of U.S.-China relations by

simultaneously addressing two sets of interrelated issue clusters – the security, technology, economic, environmental, public health and political (STEEPP) issues, and the instrumental role culture plays in shaping how the two nations perceive and engage each other. To achieve this goal, the Institute works along parallel tracks through public programming, research, publications, symposiums and teaching to tackle both the STEEPP and cultural issues confronting the two nations.

- **MENA at OU,**

The College of International Studies has launched a new "MENA at OU" webpage to serve as home to Middle East and North Africa studies, research, and programs at the University of Oklahoma. MENA covers peoples, cultures, and lands that relate to the Middle East, the Sahel and West Africa, East Africa, North Africa, Afghanistan, and Pakistan, and their diasporas.

Undergraduate Study Admission

Students must be admitted to the University of Oklahoma before being admitted to the College of International Studies. First-year students are admitted to University College. The freshman year at the University of Oklahoma is spent in University College, which provides an advisory system for freshmen and assists students in choosing a major. Transfer to the Department of International and Area Studies from University College is automatic upon completion of the IAS admission requirements below.

Admission to the College of International Studies

The minimum requirements for admission are:

- A declared International and Area Studies major;
- At least a 2.00 combined retention grade point average on all college-level work attempted; and,
- At least 24 semester credit hours of earned college-level credit.

International and Area studies majors also have a minimum major grade point average requirement for graduation, as discussed in the graduation requirements section.

Student Responsibilities

It is the student's responsibility to make decisions during undergraduate study that ensure academic success and timely graduation. To make such important decisions, it is crucial that students know and understand the following:

- All requirements for admission to and completion of the degree program.
- The rules and regulations that govern enrollment and graduation.
- University deadlines.
- University policies and procedures.
- Availability of required courses to complete the degree.
- Where and when to go for help.

Student Advisement

The College of International Studies (CIS) requires all undergraduate majors to be advised prior to each enrollment. Current students will meet with the professional academic advisors in the Department of International and Area Studies. Advisors assist students in choosing courses appropriate for the IAS major, guide students in career and major-

specific information, and assist in the evaluation of study abroad work for major credit. Their telephone number is (405) 325-4547. After advisement, students enroll in classes through the online enrollment system.

The College of International Studies Academic Services Office certifies students for graduation. The academic counselors in this office answer questions regarding academic standing, transcript evaluation, degree requirements, or other University regulations. Students who have earned 80 hours or more must meet with this office for an official degree check. Appointments with the Academic Services Office can be scheduled by calling (405) 325-1429.

Transfer Students

Students who wish to transfer from other colleges or universities should be aware of the following:

- Transfer students who have completed at least 24 semester credit hours will be admitted directly into the Department of International and Area Studies if they meet the University's admission requirements.
- Transfer students who have earned fewer than 24 semester credit hours will be admitted to University College.
- The Office of Admissions will determine acceptance of credits from the transferring institutions.
- The Department of International and Area Studies will determine how these credits apply toward the requirements for an IAS degree.
- All newly admitted transfer students must meet with an academic counselor in the Academic Services Office prior to their first enrollment at the University of Oklahoma.

Transfer students should be familiar with the requirements for their chosen International and Area Studies major (p. 1627).

Scholastic Requirements

A student must maintain at least a 2.00 grade point average in order to be in good standing in the Department of International and Area Studies. Any student whose combined or OU retention grade point average falls below 2.00 is placed on academic contract status, and must meet specific conditions established by the Department of International and Area Studies. Failure to meet these conditions will result in denial of enrollment privileges as an International and Area Studies major. Additional grade point average requirements in the major are necessary for a student to be eligible for graduation, as detailed in the Graduation Requirements section of this chapter.

Academic Course Load

Students may enroll in a maximum of 19 credit hours of work in one semester. The minimum requirement for full-time status is 12 hours. To enroll in more than 19 hours, permission must be obtained from the Director of Academic Advising. Students must have minimum OU and combined GPAs of 3.0 in order to receive overload permission.

Change of Enrollment

Deadlines for enrollment, adding a course, and dropping a course are published in the Academic Calendar. *It is the student's responsibility to meet deadlines set by the University for changing an enrollment.*

Graduation Requirements

The responsibility for meeting graduation requirements lies with the student.

The requirements for graduation from the Department of International and Area Studies programs normally have four components:

- University-Wide General Education requirements,
- Department of International and Area Studies requirements,
- Major requirements, and
- Free electives.

The specific requirements for majors and minors are listed on Degree Requirements Checksheets (p. 55).

Grade Point Average Requirements

The Department of International and Area Studies requires certain minimum grade point averages in each of the following areas:

- Students must earn a minimum of a 2.00 combined retention grade point average (University of Oklahoma and transfer work combined).
- Students must earn a minimum of a 2.00 retention grade point average on all University of Oklahoma coursework.
- Students must earn a minimum of a 2.50 retention grade point average in all major credit courses (University of Oklahoma and transfer work combined), and a 2.50 retention grade point average in major credit courses taken at the University of Oklahoma.

Ten-Year Limitation Rules

A student in the Department of International and Area Studies may elect to follow the degree requirements from any valid program year (beginning with those that were in place at the time of the student's first enrollment in the Oklahoma State System for Higher Education—excluding high school concurrent enrollment), in consultation with the academic counselor. Students must complete their requirements within a maximum of 10 calendar years from the date of their program year. If the work for a degree covers a period longer than 10 years, the student must update to more current degree program requirements.

Credit in a student's major that is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the Department of International and Area Studies and the respective course departments.

Application for Graduation

Students must consult with their academic counselor prior to the beginning of their final semester or term to ensure that their final enrollment will complete all remaining graduation requirements. In order to graduate seniors must also complete a graduation application form and submit it during their final term of enrollment prior to published deadlines. Graduation applications are submitted online through one.ou.edu. Failure to file the graduation application will result in the student not being eligible for graduation during that semester or term. Those students who plan to graduate in the fall are strongly encouraged to apply for graduation before May 1; those finishing in the spring before December 1; and those finishing in the summer before March 1. In addition to completing all academic requirements for the undergraduate degree, students must also pay all tuition and fees before the degree can be conferred. Students who complete all academic requirements but fail to pay tuition and fees before the beginning of the following semester or session will have the original graduation date printed on their diploma, but only after all tuition and fees are paid.

Dean's Honor Roll

The Department of International and Area Studies Honor Roll is compiled at the close of each fall and spring semester. It includes students who

have completed at least 12 grade point hours and have earned an average of 3.50 or higher for the semester. Students enrolled part-time for both the fall and spring semesters of an academic year will be included on the spring semester honor roll, provided that a 3.50 or better is earned for each semester on a minimum of six semester grade point hours with no withdrawals for either semester. There is no honor roll during the summer session or during intersession, and grades earned during these sessions are not included in determining eligibility for inclusion on regular semester honor rolls.

Double Majors

Students may earn two majors between the Department of International and Area Studies and another college at the University as part of a single degree, if they adhere to the following:

- Both majors may not be in the Department of International and Area Studies.
- One major must be in the Department of International and Area Studies, and the other major must be in a different college on OU Norman Campus.
- Both majors must be completed concurrently prior to graduation and must be awarded concurrently in the the same semester.
- The degree will be awarded when requirements for both majors are completed.
- Only one degree will be awarded, but the transcript will indicate both majors.
- Courses used to fulfill one of the majors or a minor may not be used toward either major.
- All general education, college, major, and major support requirements of both majors must be completed.
- The student will be awarded the degree (diploma) for the degree of their choice listed as their "primary" major.

Concurrent Dual Degrees

Students may earn two degrees between the Department of International and Area Studies and another college on campus, if they adhere to the following:

- Both degrees may not be in the Department of International and Area Studies.
- One degree must be in the Department of International and Area Studies, and the other degree must be in a different college on OU Norman Campus.
- At least 30 additional credit hours, 15 of which must be upper-division level, must be completed, in addition to the minimum hours required for one degree. Example: most dual degrees will require a minimum of 150 hours with 63 upper-division hours.
- Both degrees must be completed concurrently prior to graduation and must be awarded concurrently in the same semester.
- The degrees will be awarded when requirements for both majors are completed.
- Two degrees will be awarded, and the transcript will indicate both majors.
- Courses used to fulfill one of the majors or a minor may not be used toward either major.
- All general education, college, major, and major support requirements of both degrees must be completed.
- The student will be awarded the diploma for each degree.

For more information, please contact the Advising offices of the Department of International and Area Studies.

Additional Bachelor's Degrees

Additional bachelor's degrees may be earned from the Department of International and Area Studies by satisfying specific requirements beyond those required for a first degree from the department. Students may earn two degrees concurrently, or students holding a bachelor's degree from another college within the University or from another institution may qualify for an additional (consecutive) degree. To earn an additional bachelor's degree from the Department of International and Area Studies, a student must:

- Choose a major different from that of the prior degree(s). A student may not earn two degrees within the Department of International and Area Studies or a similar degree program.
- Be accepted to pursue an additional bachelor's degree by the College of International Studies through a petition process.
- Satisfy all current requirements of the additional degree program.
- Earn a minimum of 30 credit hours in International and Area Studies courses not applied toward a previous degree, 15 of which must be upper-division.
- Earn a minimum 2.00 average on all work attempted for the additional degree, along with any specific grade point average requirements for the chosen major (including a 2.5 major grade point average for the International and Area Studies degree).
- Meet the required residency regulations for the second degree.

Graduate Study

Refer to the Graduate tab on the Department of International and Area Studies (p. 1628) of this catalog for information concerning graduate programs.

Opportunities

Scholarships and Financial Aid

In addition to general scholarships offered through the University of Oklahoma, the David L. Boren College of International Studies offers several scholarships sponsored by alumni and friends. IAS scholarships include:

- Admiral William J. Crowe, Jr. Award
- Ambassador Edward J. Perkins Scholarship
- Student Support Grants and Emergency Relief Fund
- St. Elijah's and Anthony Shadid Award
- Board of Visitors Scholarship
- Latin American Studies Best Paper Contest
- Parsa Scholarship for Iranian Studies
- Boren Scholars and Fellows Program (NSEP)
- Additional undergraduate and graduate level scholarships and awards

The Admiral William J. Crowe, Jr. Award is awarded annually to the most outstanding graduating senior in the Department of International and Area Studies. The Award recognizes an IAS student that has demonstrated high academic achievement, a commitment to public service and a desire to pursue a career in global affairs. The recipient receives a cash award and recognition at the IAS convocation.

Visit the International and Area Studies website for more information on the scholarships above and for application details.

Student Life and Careers

The University of Oklahoma has a wide range of student organizations that may be of interest to College of International Studies students.

Phi Beta Delta

Phi Beta Delta is an association that aims to recognize scholarly achievement in international education. Membership is open to all who qualify as an OU upper-classman or graduate student.

Model United Nations

Model United Nations imitates the work of the UN and aims to gain a deeper understanding of the work they do in the world. One of MUN'S main tasks is to analyze the work that the UN does and try to simulate innovative ways such a large organization could become even more effective. MUN meets once a week on Mondays and hosts special events throughout the year. Each year, the group travels to their annual Midwest MUN Conference in St. Louis, Missouri, where they participate in debates and mock crisis-solving for three days with delegates from other universities. Model UN is open to all students, regardless of major or experience.

Fulbright

Sponsored by the US Department of State's Bureau of Educational and Cultural Affairs, the Fulbright U.S. Student Program offers fellowships abroad for one academic year to graduating college seniors, graduate students, young professionals, scientists and artists. Program participants pursue graduate or professional study, advanced research, or English teaching in elementary and secondary schools or universities. Each year, approximately 1,600 Americans traveling to more than 140 countries receive support from the Fulbright U.S. Student Program.

Peace Corps Prep Program

The Peace Corps Prep Program (PC Prep) at the University of Oklahoma prepares students for service as a Peace Corps volunteer. Qualified undergraduate students can apply to take part in the program, which equips students in four areas: intercultural competence, sector-specific skills, language development, and professionalism and leadership. After completing the program, students receive a certificate from the Peace Corps. While completion of the program does not guarantee that applicants are selected for service, it makes students much more competitive applicants for Peace Corps volunteer positions. The program is open to all undergraduate students at the University of Oklahoma.

Internships

Internship experience can make a very valuable contribution to a student's educational development, and students in the College of International Studies are strongly encouraged to take advantage of these opportunities when they become available. Under certain conditions, it is possible to earn academic credit for an internship in the Department of International and Area Studies.

General Information

The Department of International and Area Studies (IAS) works with colleges and departments across campus to promote internationalization of the curriculum of the University of Oklahoma and to train students to succeed in an increasingly interdependent world. At the center of the department's academic programs are the B.A. in International and Area Studies and the M.A. in International Studies. The goal of these degrees is to prepare students to take positions of leadership in fields such as international affairs, international business, and international non-profit services. In addition to a core faculty appointed within IAS, some faculty are jointly appointed in IAS and another academic department. In addition, more than 100 faculty across campus are involved as affiliate faculty of IAS.

Students take a wide range of courses drawing from the Department of International and Area Studies; the departments of Anthropology, Communication, Economics, History, History of Science, Film and Media Studies, Modern Languages, Literatures, and Linguistics, Philosophy, Political Science, Religious Studies, Sociology, Women's & Gender Studies (Dodge College of Arts and Sciences); Art History, Music History (Weitzenhoffer Family College of Fine Arts); Geography (College of Atmospheric and Geographic Sciences); Architecture (Gibbs College of Architecture), among others.

Careers

The Department of International and Area Studies provides the first stage for students interested in foreign service, international relations, business, law, research, teaching, public service, or any other career where international knowledge and experience is useful and desirable.

Student Organizations

Phi Beta Kappa

Phi Beta Kappa, the nation's oldest college honor society, was founded at the College of William and Mary in 1776. Alpha Chapter of the University of Oklahoma was chartered in 1920. Membership in Phi Beta Kappa is open by invitation only to seniors in the Department of International and Area Studies, the College of Arts and Sciences, Gaylord College of Journalism, and a limited number of other programs. Seniors with distinguished academic records are elected in March/April of each year. Students who graduate at the end of the summer session or fall semester are eligible for election the following spring. For additional information about the University's Phi Beta Kappa chapter, contact the Department of International and Area Studies academic counselor, or visit the Phi Beta Kappa website.

Phi Beta Delta

Phi Beta Delta is an honor society which serves to recognize and encourage high achievements in the field of International Education. It encourages interdisciplinary contacts and promotes the exchange of ideas in the area of international affairs among students, faculty, and staff of the university community, and between it and other academic institutions. Membership is open to all students and faculty whose study includes an international focus. For more information, visit the department's website.

Undergraduate Study

Bachelors of Arts Degrees

International and Area Studies offers Bachelor of Arts degrees with majors in Asian Studies, European Studies, Global Energy, Environment and Resources, International Development, International Studies, International Security Studies, Latin American Studies, and Middle Eastern Studies.

Asian Studies

Asian Studies (p. 1641) challenges students to integrate language and cultural skills to prepare for careers in the Pacific region. The objectives of the program are to provide an understanding of the fundamentals of the civilizations of Asia in both traditional and modern settings, and to provide a more in-depth comprehension of specific areas within the region. This major features courses from such departments as Anthropology, Art, Communication, Geography, History, Philosophy, Political Science, Sociology, Modern Languages, Literatures and Linguistics, and the Department of International and Area Studies. Students will obtain an educational foundation appropriate for teaching, business, research, foreign service, technological and economic development, as well as other careers related to Asia.

European Studies

European Studies (p. 1644) immerses students in European history and culture. The course of study includes literature, art, and geography, as well as the politics and economics of the region. The scope of the program includes western, central and Mediterranean Europe since approximately 1500. European Studies graduates will be capable of functioning in at least one European country in which a language other than English is spoken, and they will be able to read materials in the language of that country.

European Studies: Russian & East European Studies

Russian & East European Studies (p. 1646) is a special concentration within the European Studies major. It allows students to specialize in the study of Russia and its neighboring countries in Eastern Europe and Eurasia in preparation for careers in teaching, research, business, government or foreign service. The program provides a broad and multi-disciplinary introduction to the larger region, with course offerings in languages, literature, political science, history, economics, geography, music, and film.

Global Energy, Environment, and Resources

Global Energy, Environment, and Resources (p. 1649) students receive training that emphasizes policy, management, and sustainability in an international context. This major provides students with the skills they need to succeed in an international field with growing employment opportunities.

International Development

The International Development major equips students with a comprehensive set of skills enabling them to analyze and understand socioeconomic issues in developing countries. Students will take courses in development economics and political economy as well as courses that examine development from historical, cultural, and social perspectives. Students will be strongly encouraged to make an internship with a development agency part of their international experience.

International Security Studies

International Security Studies (p. 1655) is designed for the student looking for a career in the fields of foreign policy or national security. The program allows students to develop proficiency in any language

recognized to be a critical security language, as well as the culture where that language is spoken. Specialized classes help students to understand international organizations and the global issues that affect security around the world. This degree prepares students for careers with US federal and state agencies, international organizations and companies in the private sector that operate in critical regions of the world.

International Studies

The International Studies (p. 1658) major allows students to gain a global perspective on world affairs. Through an interdisciplinary curriculum that focuses on world history, international relations and international economics, students learn how the international system operates and prepare themselves for careers in foreign affairs or international business, for advanced training in international law or business. Like the area studies programs, the international studies program requires strong understanding of a foreign language and a period of study or work abroad. Students may also combine International Studies with a minor in one of the Area Studies programs.

Latin American Studies

Latin American Studies (p. 1662) provides a concentration in the region's history and culture. The course of study features Latin America's economic, geographic, social and political patterns as well as its problems. With a population nearing half a billion people, Latin America has traditionally been, and is now more than ever, a critical area for the United States. Students will examine the historical ties between the two regions in relation to the commonality of cultures and objectives that are becoming increasingly stronger as interdependence grows. Students majoring in Latin American Area Studies will choose their language specialization and begin studying the Spanish and/or Portuguese language as early as their freshman year.

Middle Eastern Studies

Middle Eastern Studies (p. 1665) allows students to combine their study of either Arabic or Hebrew with courses in the history, religions and cultures of the Middle East from Ancient to modern Times. This program will provide the student with a basic understanding of the peoples and history of this diverse and culturally-rich region of the world and a firm foundation for further study. The cultural and language proficiency achieved will also serve as excellent preparation for a variety of job opportunities in teaching, business, government or foreign service.

International Studies Undergraduate Certificate

Global Engagement

The Global Engagement undergraduate certificate (p. 1676) is designed to enhance students' knowledge of the global community, including international affairs and modern global issues, as well as encourage them to become active global citizens.

BA/MA Accelerated Degree

The International Studies, Bachelor of Arts/ Global Studies, Master of Arts (p. 1676) is an accelerated program designed for exceptional students to earn both the BA and MA in International Studies in 5 years of study.

Minors

International and Area Studies also offers Minors in most major fields, as well as a minor in African Studies and Iranian Studies. An attractive advantage of an International and Area Studies minor is that it can allow a student in any major to earn a minor while completing General Education requirements. Many of the courses required for an IAS Minor are approved for certain general education credits, thus, students can fulfill General Education requirements and earn credit for a minor

simultaneously. Students currently majoring in an area of International and Area Studies may also minor in a different area of International and Area Studies with approval of the department.

- African Studies Minor (p. 1667)
- Asian Studies Minor (p. 1669)
- European Studies Minor (p. 1670)
- Global Energy, Environment and Resources Minor (p. 1671)
- International Development Minor (p. 1671)
- International Security Studies Minor (p. 1672)
- International Studies Minor (p. 1673)
- Iranian Studies Minor (p. 1673)
- Latin American Studies Minor (p. 1674)
- Middle Eastern Studies Minor (p. 1675)
- Russian and East European Minor (p. 1675)

Graduate Study

Master of Arts Degrees

The Global Studies, Master of Arts (p. 1682) equips students with the tools to engage a globally integrated environment, whether in the realm of diplomacy and Foreign Service, non-profit and non-governmental organizations, think-tanks, research institutes, or academia. With a focus on international politics, foreign policy, and policy analysis, the program also provides a rigorous foundation in global economics, global security, law and institutions, and area studies, and allows students to concentration their coursework in one of these four sub-fields. The Global Studies program emphasizes a "cohort model," whereby students admitted the same year take many of the same classes together, participating in various group activities, projects, and assignments, most notably culminating in the Global Policy Workshop in the final semester.

The Global Affairs, Master of Arts (p. 1680) enables students to pursue studies with a focus on the political, economic and social interactions that have an impact on global turbulence. The program's coursework is designed to provide students with a global vision from a variety of disciplinary perspectives. Additionally, students will develop expertise in one or more geographic areas of the globe. The program will provide valuable and practical experience through a planned policy exercise and collective study abroad program. Students will increase their knowledge of global affairs, enhance their ability to operate in a dynamic global environment and expand their global connections, contributing to professional success.

Courses

IAS 1223 Introduction to Asian Philosophy 3 Credit Hours

(Crosslisted with PHIL 1223) Survey of the major figures and schools of philosophy in Asia. Includes study of Hinduism, Buddhism, Confucianism, and Daoism. (Irreg.) [IV-WDC].

IAS 1533 Global Perspectives 3 Credit Hours

This course promotes an intercultural awareness that will allow students to interact more effectively with others. It will teach core cultural fluency competencies, including an understanding of different cultural norms and practices, cross-cultural communication, as well as critical thinking and problem-solving, drawing upon diverse experiences and perspectives. (F, Sp, Su) [V-FYE].

IAS 2003 Understanding the Global Community 3 Credit Hours

The world today is an interdependent global community that requires an awareness of international politics and economics. This course seeks to enhance our understanding of the global community because of the impact of international relations on our lives and the lives of others around the world. (F, Sp) [III-SS].

IAS 2123 China Today 3 Credit Hours

China has the largest population and standing army in the world with a GDP of over \$7 trillion. Long-term economic development of every country depends on China, and China's rapid modernization is changing the face of global politics and culture. Students will be exposed to the diversity and complexity of modern China. (F, Sp) [IV-WDC].

IAS 2133 International Sports 3 Credit Hours

This course examines the social, political, economic, and cultural effects of sports on the global stage. In addition to surveying the history of international sport, it analyzes the relationship between sports and national identity, economic development, and global governance, among other topics, by drawing on cases from Asia, Africa, and Latin America. (Irreg.) [IV-WC].

IAS 2970 Special Topics/Seminar 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

IAS 3000 Special Topics in International and Area Studies 1-4 Credit Hours

Prerequisite: junior standing or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Special topics are courses of variable credit that examine international or global issues. (Irreg.)

IAS 3003 Topics in International and Area Studies 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213; May be repeated with change of content; maximum credit 15 hours. A maximum of 12 hours may be applied to the major. An examination of several selected topics in international and area studies. (Irreg.)

IAS 3013 International Law 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Examines international law. Broad issues include the different sources of international law, the relationship between international law and states, individuals and other international actors, the content of international law as it pertains to different issues areas, and how these bodies of law generally affect international relations. (Irreg.) [IV-WC].

IAS 3033 International Human Rights 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Examines the increasingly complex body of substantive law and political practices related to the protection and promotion of human rights and fundamental freedoms in international law and politics. Explores major international and regional systems of enforcement, and the growing role of human rights in domestic politics and international relations. (Irreg.)

IAS 3043 Global Security 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Examines some of the major security challenges confronting the United States and the international community in the 21st century, and how these challenges differ from our expectations of conflict -- major, minor, inter-state, and intra-state -- in recent decades. (Irreg.) [IV-WC].

IAS 3053 Globalization: The Politics of Global Governance 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. This course covers the actors, institutions and processes by which international cooperation and coordination are created and maintained. It emphasizes major themes including power and authority, change in institutions over time, and roles for public and private actors. Students apply theoretical and thematic knowledge to key issues like humanitarian intervention, cybersecurity, the global economy and the environment. (Irreg.) [IV-WC].

IAS 3073 Global Economic Relations 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213; ECON 1113 or ECON 1123 recommended but not required. Examines relations among states from the perspective of economic competition and cooperation. Explores political conflicts that have risen over trade, capital flows, and other international economic exchanges. The primary focus is on the role of states and international organizations in shaping the global economy. (Irreg.) [III-SS].

IAS 3083 International Activism 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Examines the role that nongovernmental actors play in international relations as they work independently and in concert to advocate for various transnational causes. Specifically, explores the concept of transnational advocacy and the ways in which individual and group activists affect change around the world. (Irreg.) [IV-WC].

IAS 3093 Global Health Perspectives 3 Credit Hours

Prerequisite: Junior standing or permission of instructor. This course provides an anthropological approach to global health. It examines how health conditions change over time as economic and social culture changes. Students will meet with health professionals and researchers in the field of health and nutrition and explore how health care is intertwined with cultural and social elements, such as the environment, the economy, religion, politics and development. (Irreg.)

IAS 3103 Activism, Art & Leadership 3 Credit Hours

Prerequisite: Departmental permission. This course is taught on-site in Arezzo, Italy, and is for President's Leadership Class students only. This course examines the leadership role that governmental actors and individual activists play in international relations and various other sectors as they work independently and collectively to advocate for certain local, regional, national and transnational causes. Specifically, the class explores the concept of international advocacy and the ways in which individual and group activists frame and promote issues of concern in an effort to affect change around the world. The goal of this course is to raise our awareness about and enhance our understanding of the multitude of actors - from individual political leaders, to nongovernmental organizations, to artists - that work to address issues of concern. (Irreg.)

IAS 3123 Arab Visual Cultures 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. This course introduces students to the visual cultures that shape the Arab World, ranging from traditional Islamic calligraphy to contemporary forms of visual media, including film, political cartoons, comics, fashion, art, and social media. Students will examine how visual culture shapes and reflects Arab identities, values, and experiences, and how it challenges dominant narratives, amplifies under-represented voices, and drives change. (Irreg.) [IV-WDC].

IAS 3143 Chinese Politics 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. This course provides a systematic investigation into how the political system works in contemporary China. Specifically, it will examine how the Chinese state structures and adjusts the country's political system, governs the Chinese society, performs the fundamental functions of a modern state, coordinates interests, builds system resilience, and manages political developments at home and abroad in the 21st century. (Irreg.) [IV-WDC].

IAS 3153 Chinese Foreign Policy 3 Credit Hours

Prerequisite: junior standing or permission of instructor. Provides a comprehensive introduction to Chinese foreign policy. Examines several key issues and concepts, including China's external relations prior to "Liberation" in 1949, international relations theory, the history of the PRC's foreign relations, and vital foreign policy issues confronting China in the 21st century. (Irreg.)

IAS 3173 Work, Family, and Religion in Rural China 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Examines changes over the last century in work patterns, family life, and religion in rural China. It particularly focuses on issues causing instability and transformation both in China and the developing world, including sexuality, gender, and family dynamics; the rural-urban divide; internal migration; religious conflict and repression; and the agency of marginalized populations. (Irreg.) [IV-WDC].

IAS 3193 Environment and Disease Crises in China 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Explores the intertwined relationship of environment, agriculture, economic development, pollution, disease, patriotism, domestic security, and international conflict in China and how it deals with environmental issues and disease crises. Of particular concern are China's devastating water shortage that threatens to leave much of northern China without water in the next twenty years, major epidemics, and China's aging, rural population. (Irreg.) [IV-WDC].

IAS 3203 The Middle East Since World War I 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Examines major religions and ethnic groups of the Middle East; also explores how the largest ethnic groups have decided to define their national identities: Arabs, Jews, Turks, Iranians and Kurds. Topics include the Arab-Israeli conflict and possibilities of peace, and the Gulf regions where Iran, Saudi Arabia and Iraq have fought for supremacy and control of oil and the Gulf. (Irreg.) [IV-WDC].

IAS 3223 Modern Iran: Islam & Revolution 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Surveys the history of Iran from the 16th century to the present. Topics include the rise of the Safavid dynasty in the sixteenth century, the establishment of Shi'ism, reform in the nineteenth century, great power politics, Western cultural and intellectual influence, nationalism, the Islamic revolution of 1979, and Iran since the revolution. (Irreg.) [IV-WDC].

IAS 3233 Nationalism and the Middle East 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Survey of the history of the Middle East from 1800 to the present. Analyzes the origins of politics of national identity in the region as a result of transformations rooted in the nineteenth century, its rise to dominance as a form of politics and ideology during the twentieth century, as well as countervailing trends that today challenge its continued dominance. (Irreg.) [IV-WDC].

- IAS 3273 The European Union 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Is EU an economic superpower? Can the EU reach the objective of rivaling the U.S. diplomatically shared by many political leaders in Europe? This course will help students understand contemporary debates about the nature of the European Union, its place in the world, and its current economic and political challenges. (Irreg.)
- IAS 3283 Culture, Power, and Global Environment 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. This course surveys some of the diverse ways in which human populations adapt to, understand, and transform their environments. It explores how social and cultural differences within and among human populations complicate efforts to address the myriad environmental problems we face - from neighborhoods struggling with contaminated soil, to regional ecosystem restoration and wildlife management, to transnational climate-change mitigation efforts. (Irreg.) [IV-WDC].
- IAS 3303 National Security Policy 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course provides students with an interdisciplinary overview of issues in U.S. national security. It introduces students to the various national security agencies, bureaucracies, advisors, and organizations to understand their respective origins and evolutions. Students will analyze in-depth historical case studies of consequential geopolitical events to see the national security in action and its implications for contemporary U.S. policy. (Irreg.)
- IAS 3313 Latin American International Relations 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Examines international relations of Latin America in an interdisciplinary fashion. International relations is broadly defined in this course, and includes economic and cultural aspects as well. (Irreg.) [IV-WC].
- IAS 3323 The Political Economy of Development 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Examines the relationship between politics and economics in less developed countries. Reviews the history of economic theories of development and also examines the economic effects of inward looking trade policies and political stability in Latin America and India, as well as the political economy of recent reforms in both areas. (Irreg.)
- IAS 3343 Chinese Philosophy 3 Credit Hours**
(Crosslisted with PHIL 3343) Prerequisite: six hours of philosophy or junior standing. Survey and analysis of the major texts and schools of philosophy in China, from the ancient world to the contemporary era. (Irreg.) [IV-WDC].
- IAS 3353 Modern Brazil 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Introduction to contemporary Brazilian history and culture. Broad overview of Brazil's colonial history and emergence as a modern nation, and an exploration of the country's incredible cultural and regional diversity, as well as some of the challenges it currently faces. Course material includes exploration of indigenous realities, the rural landless movement, poverty and crime, gender, family, race, contemporary religion, etc. (Irreg.) [IV-WC].
- IAS 3383 The United Nations & World Politics 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. The focus of this course will be on understanding the roles played by the UN and related inter-governmental organizations in world politics pertaining to four broad issue areas: international peace and security, human rights and humanitarian affairs, the global environment, and global trade and development. (Irreg.) [IV-WC].
- IAS 3393 Iranian Society through Cinema 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course attempts to understand Iranian society and culture through the lens of Iran's post-revolutionary cinema. In moving beyond stereotypical images presented by mass media, modern Iranian cinema provides a medium to study issues such as religion, gender, class, and politics of Iran today. (Irreg.) [IV-WDC].
- IAS 3403 US-Iranian Relations: History, Politics, and the Road to Confrontation 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Since the revolution of 1979, Iran and the United States have been engaged in a political, diplomatic, and ideological "cold war". This course is designed to place the recent politics of US - Iranian relations within a larger historical narrative of US-Iranian contact, cooperation, and conflict. (Irreg.)
- IAS 3413 Iran and Islam in Global History 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Surveys the role of Iran within Middle Eastern history, culture, and society from antiquity to eve of modern period. Topics include: Iranian empires in ancient period, history of Zoroastrianism, advent of Islam and Arab conquest of Iran; emergence of Persian literary tradition in Islamic culture; emergence of the Turko-Persian Safavid state in 16th century and formation of Shi'ite-Iranian culture. (Irreg.) [IV-WDC].
- IAS 3423 Middle East Through Film 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course provides a survey of Middle Eastern history and politics through film. Emphasis will be on how the history and politics of the Middle East has been portrayed through the medium of cinema, with special focus on cultural representation and the role of film in determining contested historical and political understandings of the region. (Irreg.) [IV-WDC].
- IAS 3433 International Relations in the Middle East 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Examines the major wars of the region from the First World War and ending with the US invasion of Iraq. Covers the Arab-Israeli conflict, the cold war, and the contest for control of the Persian gulf and oil markets. Investigates the role of the great powers and the major Middle Eastern states in shaping international relations in the region. (Irreg.) [IV-WDC].
- IAS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- IAS 3443 Political Islam 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Examines the Muslim brotherhood since its founding in 1928, its radicalization under Sayyid Qutb, and the many groups that look to it for inspiration. Covers Al-Qaida, Hizbullah, and Hamas, the tensions between Shiites and Sunnis, and how some Middle Eastern countries have dealt with the growth of radical Islamic groups. (Irreg.) [IV-WDC].
- IAS 3473 The Arab-Israeli Conflict 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. A survey of the history of the conflict around Eretz Israel/Palestine, with the aim of providing a better understanding of its roots and recent developments. The course looks at both sides of the conflict at various moments throughout its history and will present two very different historical narratives: the Israeli/Jewish and the Palestinian/Arab. (Irreg.)

IAS 3503 The United States and the Middle East: 1945-Present 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. This course is an introduction to the historical and contemporary relationship between the United States and the Middle East from the nineteenth century until the present, with a concentration on the period since 1945. The course will focus on the political and economic aspects of US-Middle East relations but will also consider the cultural and social dimensions of this interaction. (Irreg.)

IAS 3523 Women and Gender in South Asia 3 Credit Hours

Prerequisite: junior standing or permission of instructor. Considers how women/gender have been thought from 19th century articulation of "The Women's Question" and Women's Reform to present day rethinking of state based rights strategies and normative gender constructions in the Indian Subcontinent. Scholarly articles, primary sources, fiction, and film interrogate questions about women's place in society, women and the state, gendering work, and women's lives in South Asia. (Irreg.) [IV-WDC].

IAS 3533 Political Violence in Comparative Perspective 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. This course examines the major topics within the study of political violence, including civil war, terrorism, genocide, organized criminal violence, and electoral violence. It focuses on the diverse drivers of violence as well as its social, political, and economic consequences for individuals and communities within North and South America, Europe, Sub-Saharan Africa, the Middle East, and Southeast Asia. (Irreg.)

IAS 3543 International Peacebuilding 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. This course examines how countries put an end to war and the role of international actors in this process. It also analyzes the pursuit of justice and accountability following conflict and human rights violations and efforts to achieve sustainable peace and stability in the longer-term, with particular emphasis on social and economic development, statebuilding, political inclusion, and democratization. (Irreg.)

IAS 3583 Managing US-China Relations 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Provides comprehensive and systematic assessment of the bilateral relationship between a rising power aiming to return to its historical prestige and a currently dominant power searching to augment its over-stretched power resources. In-depth examination of the historical context of how the two countries have engaged with each other at the global, regional, and bilateral levels primarily since 1949. (Irreg.) [IV-WDC].

IAS 3603 Energy, Environment & Climate Change in China 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Examines how China confronts the challenges of energy security, environmental pollution, and climate change. It explores not only how the country addresses each of the three challenges individually, but also identifies areas where policy coordination can be enhanced so as to promote a holistic approach to three interconnected challenges simultaneously. (Irreg.) [IV-WDC].

IAS 3643 Illicit Trafficking 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Focuses on some of today's most troubling security issues - the persistent and growing problems associated with the trafficking and smuggling of drugs, money, humans, guns, and commodities of all sorts. Closely examines the issue of trafficking in a global context, providing case studies of trafficking in women, illegal workers, drugs, weapons, and even butterflies. (Irreg.)

IAS 3653 Energy, Climate, and Security 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. This course provides a systematic treatment of how energy and climate change intersect with growth, development, security, and the trajectory of human civilization. It examines the politics of energy from a variety of perspectives; explores the causes and efforts to address climate change, and looks at ways forward for the transition beyond fossil fuels. (Irreg.)

IAS 3663 Comparative Politics of the Middle East 3 Credit Hours

Prerequisite: ENGL or EXPO 1213. This course examines major themes in Middle East and North African politics (MENA). Topics and themes to be discussed include: states and state formation in the Middle East; the persistence and dynamics of authoritarianism; political liberalization and democratization; civil society; nationalism and identity; oil wealth; Islam and politics; the 2011 Arab uprisings. (Irreg.)

IAS 3683 Poverty and Inequality in the Middle East 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. An introduction to poverty and inequality in the Middle East which will give students an overview of how poverty has been defined, represented and contested in international development discourse. The course will examine causes of economic underdevelopment, inequality and poverty, including regional politics, urbanization and the Middle East's legacy of colonialism. (Irreg.)

IAS 3693 Military, State & Society 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. This course is concerned with some of the key problems and puzzles of civil-military relations such as military intervention in politics and the role militaries play in social revolutions. This course will examine different political contexts across the world, including the U.S., Europe, Latin America, China/Asia, Africa and the Middle East. (Irreg.)

IAS 3703 South Asian Security 3 Credit Hours

Prerequisite: Junior standing or permission of instructor. This course introduces students to security and conflict in South Asia. South Asian security has significant ramifications for global order and security. Topics covered include Hindu nationalism in India, military domination in Pakistan, India's economic ascendance, the Kashmir conflict, nuclear deterrence, terrorism & counterterrorism, the rise of the Taliban in Afghanistan, and the China-Pakistan axis. (Irreg.)

IAS 3723 Sexuality & Identity in the Islamic World 3 Credit Hours

Prerequisite: Junior standing or permission of instructor. This course explores expressions of sexuality and sexual identity across a broad range of time and throughout a variety of Muslim-majority regions in the Middle East, Africa, and South Asia. (Irreg.) [IV-WDC].

IAS 3742 Model UN 2 Credit Hours

Prerequisite: Junior standing or permission of instructor. Provides students with a fundamental understanding of the institutions and activities of the United Nations. Issues of current interest in the UN will also be discussed. Students will acquire skills to not only prepare them to participate in a Model United Nations conference, but also prepare them to develop, implement and manage such a conference. (Irreg.)

IAS 3743 The Politics of the International System 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. This course introduces students to the international system. This interconnected set of institutions establishes the rules of the game for world politics, and shapes world order. The course takes a hands-on approach, providing students the chance to study historical variants of international systems, as well as the opportunity to study the origins and evolution of the current international system. (Irreg.)

- IAS 3753 Youth Culture in Contemporary Iran 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course seeks to better understand strategies that Iran's third generation is deploying in order to navigate Iran's maze of structural constraints and opportunities. This course will also serve as an introduction to Iran's post-Revolution history, and examine how Iran's youngest citizens have engaged in this history. (Irreg.) [IV-WDC].
- IAS 3763 Women and Gender in the Middle East 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Introduction to study of women and gender in contemporary Middle East. Examines how depictions of Muslim, Middle Eastern women and debates surrounding gender have shaped and been shaped by wider local and global forces over time. Topics include debates on women and gender in the Middle East; the rise of women's movements; and ways Muslim women conceptualize themselves. (Irreg.) [IV-WDC].
- IAS 3773 State & Society in Pakistan 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. Examine the history, politics, and important social issues of Pakistan. Drawing on materials from a variety of social science disciplines, topics of discussion will include: nation-state building, ethnic conflict, political Islam, terrorism, civil-military relations, democratization, civil society, and gender politics. (Irreg.) [IV-WDC].
- IAS 3783 US-Arab Cultural Encounters 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. In this course, students will gain insight into complex Arab thoughts and perspectives of the United States with respect to issues such as the American dream, globalization, identity politics, cultural imperialism, democracy, human rights, and power dynamics. (Irreg.) [IV-WDC].
- IAS 3793 African Politics & Society 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course introduces students to the politics, history and social processes of sub-Saharan Africa, as well as the precolonial, colonial and postcolonial history of the continent. Other topics of discussion include contemporary issues, such as identity, customary authority, economics, violence, civil war, elections, democracy and authoritarianism. (Irreg.) [IV-WDC].
- IAS 3803 International Cooperation & Development 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course examines the fundamental idea of mobilizing global resources with the purpose of changing the realities of those countries that have been considered impoverished or less developed. The course opens the debate on what development means and what it has meant historically and in theory. It also presents the myriad of actors that participate in the international aid industry. (Irreg.) [IV-WDC].
- IAS 3810 Journey to Africa 1-6 Credit Hours**
1 to 6 hours. Prerequisite: sophomore standing and completion of ENGL 1213, or permission of instructor. May be repeated; maximum credit 12 hours. Journey to Africa is a summer study abroad program designed for OU students. Students will travel with an OU faculty member and other OU students throughout an African country or region, and learn about various cultural, historical, political, social, economic or linguistic issues relevant for an understanding of one or more African countries. Academic instruction for this program takes place in English. (Su)
- IAS 3813 Development Practice 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course examines the knowledge and skills required by individuals who work for international organizations, bilateral agencies, private foundations, or non-governmental organizations in the field of international development. Participants will familiarize themselves with the mission of those development actors, as well as with their main documents, procedures and working methods. (Irreg.)
- IAS 3823 Technology & War 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course discusses the relationship between technology and war, the context in which different weapons develop, and how different war strategies have changed international politics. The development and effects of weapons including gunpowder, tanks, submarines, nuclear weapons, and drones is also considered. (Irreg.)
- IAS 3833 Democratic Decline in Global Perspective 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course examines the theory and practice of how liberal democracies develop, live, and die. (Irreg.) [IV-WC].
- IAS 3843 Latin American Independence 1750-1880 3 Credit Hours**
(Crosslisted with HIST 3843) Prerequisite: HIST 2613 or HIST 2623; junior standing, or permission of instructor. Covers history of Latin America from the crisis and dissolution of the Iberian empires through the consolidation of independent republics, a period bridging the colonial and modern periods in the region's history. (Irreg.)
- IAS 3853 Russian Foreign Policy 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course provides a broad overview of fundamental issues and relationships in Russian foreign policy. It examines the driving forces of Russian foreign policy and the tools that Russia has to influence international politics. Examples of major contemporary issues and vectors of Russian foreign policy will also be discussed. (Irreg.)
- IAS 3863 Global Environment 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course examines the relationship between space, power, and the environment. It explores the spatialities and multi-scalar dimensions of environmental policy, governance and politics, with a focus on dimensions of social and environmental justice. (Irreg.) [III-SS].
- IAS 3873 Global Cybersecurity Issues 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. This course introduces students to contemporary global cybersecurity challenges and to the policy tools available to cope with them. (Irreg.)
- IAS 3883 Italy Through Italian Film 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. This course offers a basic survey of the social, political and cultural history of Italy over the last 40 years through the screening and discussion of Italian films which are illustrative of Italy's main cultural and historical aspects. (F, Sp)
- IAS 3893 Law & Globalization 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course will explore the origins and characteristics of globalization, the relationship between globalization and "the law", and will also look at more recent developments in globalization and speculate about what they mean for law and regulation. (Irreg.)

- IAS 3910 International Studies Internship 2-3 Credit Hours**
Prerequisite: 45 completed hours and a minimum of a 2.75 overall GPA. May be repeated; Maximum credit six hours. This course allows students to receive academic credit for internship work with an internationally oriented public or private organization. The award of academic credit for the internship requires an element of reflection, research, and writing about the work undertaken. This academic component can strongly enhance what is gained from the internship opportunity and improve a student's ability to articulate knowledgeably the requirements, benefits and lessons of work in the public or non-profit sector. (F, Sp, Su)
- IAS 3913 The Practice of Diplomacy 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course is designed to provide an understanding of how day-to-day diplomacy is conducted by the U.S. Department of State and other entities. The class will review the structure of the U.S. Department of State as well as a U.S. Embassy, major recent diplomatic challenges, and provide the case for renewal of American Diplomacy. (Irreg.)
- IAS 3920 Journey to Italy 1-6 Credit Hours**
1 to 6 hours. Prerequisite: sophomore standing and completion of ENGL 1213, or permission of instructor. May be repeated; maximum credit 12 hours. Journey to Italy is a program designed for OU students in collaboration with the University of Siena, an OU partner university in Arezzo. Students will travel with an OU faculty member and other OU students throughout Italy, and learn about various cultural, historical, political, social, economic or linguistic issues relevant for an understanding of contemporary Italy. Academic instruction for this program takes place in English. (Su)
- IAS 3923 World Happiness 3 Credit Hours**
(Crosslisted with P SC 3923) Prerequisite: Junior standing or permission of instructor. This course explores and compares, in detail, the breadth and expression of global happiness philosophical concepts in the east and west leading to modern global and societal well-being measures and well-being policies in nations around the world. (Irreg.)
- IAS 3930 Journey to China 1-6 Credit Hours**
1 to 6 hours. Prerequisite: sophomore standing and completion of ENGL 1213, or permission of instructor; May be repeated; maximum credit 12 hours. Journey to China is a summer study abroad program designed for OU students, who will be hosted by OU partner universities in cities across China. Students will travel with an OU faculty member and other OU students throughout China, and learn about various cultural, historical, political, social, economic or linguistic issues relevant for an understanding of contemporary China. (Su)
- IAS 3933 Intelligence & National Security 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course provides a survey of the historical origins and continued development of US intelligence capabilities. Students will learn about intelligence processes, and the roles, missions, and structure of the organizations which comprise the US Intelligence Community. Other topics of discussion include ethical and moral issues associated with intelligence operations, foreign intelligence services, their targets, and operational successes and failures. (Irreg.)
- IAS 3940 Journey to Latin America 1-6 Credit Hours**
1 to 6 hours. Prerequisite: sophomore standing and completion of ENGL 1213, or permission of instructor. May be repeated; maximum credit 12 hours. Journey to Latin America is a summer study abroad program designed for OU students. Students will travel with an OU faculty member and other OU students throughout a Latin American country or region, and learn about various cultural, historical, political, social, economic or linguistic issues relevant for an understanding of one or more Latin American countries. Academic instruction for this program takes place in English. (Su)[IV-NW].
- IAS 3943 Global Intelligence Challenges 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course provides an overview of current and future global security challenges. Students will explore key, contemporary security issues in Europe, Asia, and the Middle East. Topics of discussion include transnational security issues, collective security/alliances, inter-state conflict, ethnic conflict, WMD proliferation, nuclear strategy, deterrence, arms control, cyber security, and terrorism. (Irreg.)
- IAS 3960 Honors Reading 1-6 Credit Hours**
1 to 6 hours. Prerequisite: admission to Honors Program, permission of instructor and junior standing. May be repeated once with change of content. Independent study in international and area studies for students enrolled in the Honors Program. Will consist of topics not usually presented in regular courses. (F, Sp, Su)
- IAS 3963 US-Russia Relations 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. An overview of US-Russia relations over the past 200 years with an emphasis on Cold War tensions and the contentious relationship since the "re-emergence" of Russia from the post-Soviet morass in the Putin era. Students will examine various attempts to "reset" the relationship under different Administrations and will explore potential areas of cooperation including space, climate change, and humanitarian assistance. (Irreg.)
- IAS 3970 Honors Seminar 3-6 Credit Hours**
3 to 6 hours. Prerequisite: admission to Honors Program. May be repeated once with change of content. Small group seminar on topics not covered by normal coursework. Restricted to students in the Honors Program. (Irreg.)
- IAS 3973 Cultural Diplomacy 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Examines the role of cultural diplomacy in the process of diplomatic interaction. Areas of study include the European Union, the Middle East and East Asia; the Cold War and the role of cultural diplomacy in foreign policy of the Soviet Union and the US; Juxtapositions of cultural diplomacies and institutional organizations of France, Great Britain, Germany, Russia and Canada. (Irreg.)
- IAS 3980 Honors Research 1-6 Credit Hours**
1 to 6 hours. Prerequisite: admission to Honors Program, permission of instructor and junior standing . May be repeated once with change of content. Provide international and area studies students an opportunity to work on an international research project. (F, Sp, Su)
- IAS 3983 Anti-Muslim Racism 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course will examine anti-Muslim racism in the United States while simultaneously understanding anti-Muslim racism as a global project. We will further investigate how anti-Muslim racism is implicated in imperialist projects in the Middle East. Examining anti-Muslim sentiment through the lens of racism will show how both race and religion come together to inform present day structural inequality and violence. (Irreg.) [IV-WC].

- IAS 3990 Independent Study 1-6 Credit Hours**
1 to 6 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- IAS 3993 Global Communism 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course introduces both theoretical bases and actual applications of Marxism and other forms of communism from the late 19th century to the present. After engaging the principles of Marxism through foundational texts, students study later adaptations of Marxism, including Maoism, and the manifestations of communist party rule from the Soviet Union to Southeast Asia to the Horn of Africa. (Irreg.)
- IAS 4013 Senior Capstone Seminar in International and Area Studies 3 Credit Hours**
Prerequisite: international and area studies major, senior standing, and permission of the department. May be repeated with change of content; maximum credit 6 hours. Devoted to analysis, research, writing, and synthesizing on one of several selected interdisciplinary topics in international and area studies. (F, Sp) [V].
- IAS 4343 Early Chinese Philosophy 3 Credit Hours**
(Crosslisted with PHIL 4343) Prerequisite: Permission of the instructor. Survey of pre-Qin Chinese philosophy, including the major texts and figures of Confucianism, Daoism, and other notable schools. No student may earn credit for both 4343 and 5343. (Irreg.)
- IAS 4513 Intellectuals & Artists in Modern Latin America 3 Credit Hours**
(Crosslisted with HIST 4513) Prerequisites: History 2613 or 2623 or junior standing or permission of instructor. Examines both the history of ideas in modern Latin America as well as the history of intellectuals as a social group. We will consider intellectuals in the process of independence and the consolidation of nation states, the role of "race" in Latin American thought, and the relationship between European and Latin American thought. (Irreg.) [IV-WC].
- IAS 4523 Latin American Left 3 Credit Hours**
(Crosslisted with HIST 4523) Prerequisite: History 2613 or 2623 or junior standing or permission of instructor. This course examines the shifting political tactics and theoretical positions of a variety of leftist movements in Latin America since the early 20th century. We will exam leftist thought on the nature of Latin American development, approaches to commercial culture, and labor organizing, among other topics. (Irreg.) [IV-WC].
- IAS 4533 Populism in 20th-Century South America 3 Credit Hours**
(Crosslisted with HIST 4533) Prerequisites: History 2613 or 2623 or junior standing or permission of instructor. This course will examine the phenomenon of Latin American "populism," a set of political movements that held a central place in 20th century Latin American history. We will focus on three cases as they relate to the broader economic and social processes in the region as a whole: Brazil; Argentina; and Chile. (Irreg.) [IV-WC].
- IAS 4543 Latin America in the Age of the Cuban Revolution 3 Credit Hours**
(Crosslisted with HIST 4543) Prerequisites: History 2613 or 2623 or junior standing or permission of instructor. This course is an in-depth examination of Latin American history of the period 1955-1973. We cover changes in politics, economics, literature, film, music, and theology in what many Latin Americans called the "revolutionary process" of the period. (Irreg.) [IV-WC].
- IAS 4813 Africa in Context 3 Credit Hours**
(Slashlisted with IAS 5813) Prerequisite: Sophomore standing and ENGL 1213, or permission of instructor. Explores topics related to the historical analysis of Africa including cultural, economic, and development issues. Through a primary focus on Uganda, students will examine the lasting effects of conflict, the emergence of civic, religious and international groups and their related work, and gain a deeper appreciation of Ugandan culture and communities. No student may earn credit for both 4813 and 5813. (Su) [IV-WDC].
- IAS 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- IAS 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- IAS 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- IAS 5003 U.S. Foreign Relations 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Examines current events and the historical and economic aspects of American foreign policy. Gives students an understanding of the main theories, actors, and debates in the field. (Irreg.)
- IAS 5013 International Law 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Examines different sources of international law; the relationship between international law and states, individuals and other international actors; the content of international law as it pertains to different issue areas (e.g. the use of force, human rights, the environment); and how these bodies of law affect international relations more generally. (Irreg.)
- IAS 5023 The Practice of Diplomacy 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course is designed to provide an understanding of how day-to-day diplomacy is conducted by the U.S. Department of State and other entities. The class will review the structure of the U.S. Department of State as well as a U.S. Embassy, major recent diplomatic challenges, and provide the case for renewal of American Diplomacy. (Irreg.)
- IAS 5043 Global Security 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Examines some of the major theoretical and practical approaches to the study of global security, and focuses on the causes of war, the impact of various actors, technologies, resources and other transnational problems on violent conflict, and the different approaches to and dimensions of security solutions. (Irreg.)

- IAS 5053 Global History 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Defines global history not only as the history of globalization or the history of state-to-state relations, but also more broadly as the evolution of events, forces, ideas, and processes that were common to several areas of the globe and that led to the shaping of the modern world. Considers a wide range of ways of being global through the centuries. (Irreg.)
- IAS 5063 Civil Military Relations 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course focuses on the key questions about civil-military relations: What is the proper relationship between the politician and the soldier? How does professionalism affect the military's political behavior? Should military organizational ethos reflect societal values? Why are some and not other societies prone to coups? How do new democracies exert control over militaries? (Irreg.)
- IAS 5073 International Terrorism 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course will cover how terrorist organizations have spread and how their goals have been taken up by like-minded organizations. How has terrorism changed? What effect does the psychology of terrorism have on the free societies? The course will attempt to answer these questions and develop an understanding of the fundamental reasons that terrorism has been at times effective. (Irreg.)
- IAS 5083 International Activism 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course examines the role that nongovernmental actors play as they work independently and in concert to raise awareness about various international issues and to advocate for change on behalf of others. The course will explore the history of the study of activism, the evolution of theory on social movements, and the marketing tools employed by activism organizations. (Irreg.)
- IAS 5093 U.S. Intelligence Community 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course will provide a survey of the origins of US intelligence capabilities, including collection disciplines and analytic techniques the US Intelligence Community (IC) uses, examine how the US IC supports national security decision making, review the ethical and moral issues associated with intelligence operations, and study contemporary issues facing the US IC. (Irreg.)
- IAS 5123 African Peacekeeping and Peace Enforcement 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course is designed for the MA in International Relations degree through OU's Advanced Programs. The course covers peacekeeping and peace enforcement operations in Africa. These missions combine the efforts of governmental, intergovernmental, and nongovernmental actors. The class will examine nation building, stabilization, reconstruction, and transition across the spectrum of peace operations with emphasis on peacekeeping and peace enforcement. (Irreg.)
- IAS 5203 Post-Brexit Ireland 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course will examine the impact of British exit from the EU on Ireland in a broad context. This includes the history of British repression in Ireland and the struggle for independence, the border with Northern Ireland, and Ireland's economic standing. (Irreg.)
- IAS 5213 Politics of the European Union 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Examines the historical process of European integration. Topics include the structure of the EU institution, the process of law making in the EU, the international role of the EU, the trans-Atlantic relationship. (F)
- IAS 5243 Nations and Nation States in Europe 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. In this class, we will study and discuss nation and nation states in Europe since 1789 until 1939. Our key nations and nation states will be France, Germany, and Poland. Ultimately, nationalism resulted in the complete destruction of four Empires in Europe (and Asia) during World War I, a legacy that is still felt in Europe today. (Irreg.)
- IAS 5253 US-Russia Relations 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course will provide an overview of United States (US)-Russia relations over the past 200+ years with an in-depth look at Cold War tensions and the contentious relationship since the "re-emergence" of Russia from the post-Soviet morass in the Putin era. (Irreg.)
- IAS 5263 Russian Foreign Policy 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Explores Russian foreign policy in the contemporary world, with an eye on the deep historical context that informs the relationships between Russia and the rest of the world. What drives Russian foreign policy? What tools does Russia have to influence international politics? What are the major contemporary issues in Russian foreign policy? What are the vectors of Russian foreign policy? (Irreg.)
- IAS 5283 Europe Since 1989 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Studies major events that have transformed Europe since 1989: the collapse of Communist rule in Eastern Europe and the fall of the Berlin Wall, the end of the Cold War, the role of an expanding EU, different forms of immigration to Europe and its perception, historical memory, and Russia's role in Europe. (Irreg.)
- IAS 5323 The Political Economy of Development 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Studies the relationship between politics and economics in less developed countries. Reviews the history of economic theories of development and examines the economic effects of different trade strategies in Latin America, India, and East Asia. (Irreg.)
- IAS 5353 Latin American International Relations 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Surveys the hemisphere's international relations with emphasis on U.S.-Latin American relations. Focuses on post-Cold War issues in hemispheric affairs, and gives students a skill set appropriate for internationally related careers. (Irreg.)
- IAS 5383 Political Economy of the Underworld: Organized Crime and Conflict 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Organized crime is a global presence that fuels instability, corruption, and violent extremism. Many conflicts cannot be fully understood without assessing the presence of organized crime groups as agents of instability, arms trafficking, resource extraction, and informal governance. This class will cover the origins of organized crime, organized crime in post-Soviet conflict, organized crime and globalization, and interdisciplinary research methods. (Irreg.)
- IAS 5403 Humanitarianism and Africa 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. The course explores the longstanding need of Westerners to "help" Africans, examines the historical basis of this particular mode of thought and how it has changed over time, and seeks to understand how Western humanitarian intervention shaped and, perhaps more important, was shaped by Africans. (Irreg.)

- IAS 5413 Global Migration & Media 3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor. This course will expose students to key topics related to immigration in various regions around the world. Students will seek out and interpret the ways that media portrayals impact immigration and how immigration patterns influence that very media framing. This course seeks to break down stereotypes and create new perspectives on the global movement of people. (Irreg.)
- IAS 5423 Media and the Global World 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course will investigate the media to see connections between the media and the democratization process, media and change, and media and conflict. We will see how traditional, online, and social media can influence politics, economics, and society. We will also examine the connection between media, trust and transparency, and its implications in the global world. (Irreg.)
- IAS 5433 International Relations in the Middle East 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Surveys how the modern states of the region were constructed by the European powers and local authorities following the destruction of the Ottoman and Persian empires in WWI. Concentrates on two regional conflicts, the Arab-Israeli conflict and the Gulf conflict, and discusses how policy could have been improved and what the U.S. should be doing in the Middle East today. (Irreg.)
- IAS 5453 Politics and Policy of the Middle East 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Focuses on the historical issues of state formation and emergence of the modern Middle East; the contemporary question or persistent authoritarianism from social, economic, and political perspectives; and aspects of the U.S. involvement in the Middle East. (Irreg.)
- IAS 5463 Comparative Politics of the Middle East 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course examines themes in Arab and Middle East politics. This includes states and state formation; identity, nationalism, and politics; political economy; the persistence and dynamics of authoritarianism; oil wealth, Gulf politics, and its impact on domestic politics; Islam and politics; the 2011 Arab uprisings; sectarianism; regional politics, and the current state of the Middle East. (Irreg.)
- IAS 5473 Arab-Israeli Conflict 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. The Arab-Israeli conflict attracts a disproportionate amount of attention in the news media, international politics and law, and the socio-cultural sphere. This course examines the origins of the Arab-Israeli conflict in an attempt to place it in its historical context, while tracing its developments from multiple angles, in order to provide understanding of the dynamic that constitutes 'the conflict'. (Irreg.)
- IAS 5483 Minorities in the Middle East 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course will discover the Middle East's heterogeneity by examining the experiences and changing positions of minorities since the rise of Islam. Specific topics will include the non-Muslims in classical Islamic and Ottoman societies, the rise of nationalism, Kurds and other Muslim ethnic minorities, Jews, Druzes and other heterodox Muslim minorities, Middle Eastern Christians, and the Baha'is. (Irreg.)
- IAS 5493 Global Islamophobia 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. What is Islamophobia and what are the strengths and limitations of the term in capturing the global complexity of Muslim experiences? This course will study the theoretical and practical iterations of Islamophobia on a global scale and examine the concept through specific sites of contemporary anti-Muslim sentiments in the United States, Europe, Asia, and the Middle East. (Irreg.)
- IAS 5503 Theory and Practice of International Politics 3 Credit Hours**
Prerequisite; graduate standing or permission of instructor. Focuses on political relations among states, the role and function of non-state actors, the nature of the international system, factors that affect state behavior, analytical and practical tools relevant for foreign policy decision-making, and various policy relevant issues in the international arena. (Irreg.)
- IAS 5513 US Diplomatic History 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course focuses on the establishment and evolution of U.S. foreign policy from 1776 to the present. It introduces key events and the roles of key players, including the President, National Security Council, State Department, and Congress, in the development of U.S. foreign policy. (Irreg.)
- IAS 5523 Global Political Economy 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Examines economic relations, cooperation, and competition among states and non-state actors. Students in this course can gain a familiarity with the principles of international trade and finance, understand the functions and power of international economic institutions and how these have evolved and changed, and understand different theories that have been offered to explain international political economy. (Irreg.)
- IAS 5533 Modern Statecraft 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Geopolitics has its basis in statecraft, the application of the power of the state toward other states, organizations, and peoples. The key to managing international relationships to further one's prosperity and security is embodied by statecraft and the multi-faceted aspects of state power. (Irreg.)
- IAS 5543 International Organizations 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course will give participants the opportunity to critically reflect on the reasons why sovereign states have collectively decided to create International Organizations (IOs). The course will also provide a survey of some of the main IOs in existence as well as their current political and institutional challenges. Finally, this course will discuss challenges to global governance. (Irreg.)
- IAS 5553 Global Cybersecurity Issues 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Virtually every area of political, economic, and social life is increasingly dependent on networked computing and related information and communications technologies (ICTs). As a result, states and societies now face an array of pressing cybersecurity challenges. This course will introduce students to contemporary global cybersecurity challenges and to the policy tools available to cope with them. (Irreg.)
- IAS 5563 Illicit Trafficking 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course focuses on some of today's most troubling security issues - the persistent and growing problems associated with the trafficking and smuggling of drugs, money, humans, guns, and commodities of all sorts. The course will demonstrate the very broad and encompassing nature of illicit trafficking and how this activity has an impact on global security and underdevelopment. (Irreg.)

- IAS 5573 Nationalism and the Modern Middle East 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. A survey of Middle East history from 1800-present with an emphasis on the emergence of "nationalism" as a new form of political identity in the region. Focused on ethnic, linguistic, racial, sectarian, secessionist, and confessional identities that have become one of the main sources of political contestation in the region. (Irreg.)
- IAS 5583 African Politics and Society 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course is designed to introduce students to the history, politics and social processes of sub-Saharan Africa. In addition to learning about the histories and trajectories of individual countries, the course will also focus on sub-regional and cross-national similarities and differences, as well as contextualize African politics in a larger global history. (Irreg.)
- IAS 5623 Inequality Around the World 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course will derive coherence from a focus on economic inequality, specifically on the social and political consequences of economic inequality. Material will address such questions as: what is the scope of economic inequality in modern societies? Why does inequality matter? Do societies necessarily become more unequal as they grow more prosperous? Might inequality at some level harm economic growth? (Irreg.)
- IAS 5633 Political Development 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course will discuss different approaches to international development. At the end of the course, participants will have a comprehensive view of how development has evolved historically, how it has been disputed by different scholars, and how various stakeholders have worked for the promotion of development at the international level. (Irreg.)
- IAS 5643 Global Perspectives on Gender 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. From this course, students will be able to understand critiques of Western feminism, analyze the lived experiences of non-western women and communities of color, be conversant with critical epistemologies and anti-oppressive research methodologies, and discuss and apply intersectionality in a way that is historically and contextually accurate. (Irreg.)
- IAS 5653 Global Environmental Politics 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. A comprehensive introduction to key themes relating to global environmental politics. The course is divided into three core sections: (1) global environmental governance; (2) global political economy as it relates to the environment and natural resources; and (3) contemporary, global challenges in global environmental politics. Students will also evaluate documents prepared by government agencies, think tanks, non-profits, and global institutions. (Irreg.)
- IAS 5683 US-China Relations 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Provides a systematic examination of contemporary U.S.-China relations, one of the most important bilateral relationships in the world, from the U.S. perspective through relevant theoretical debates, historical analysis and case studies. Also includes an exploration of the future trajectories of U.S.-China relations. (Irreg.)
- IAS 5693 Political Economy of China 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Explores debates over the political economy of China. Examines theories of institutional change and economic performance, state capacity and political development, rent-seeking and corruption, and class formation and collective action. How do China's reforms over the past three decades confirm or challenge the assumptions and propositions central to these established social science theories? How have recent studies of political economy in China advanced our understanding of these theories or suggested new approaches to the study of comparative political economy? These and other core questions will be covered including topics such as popular protest, global capitalism, corruption, and the nature of one-party rule in China. (Irreg.)
- IAS 5703 International Studies Colloquium 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This class will introduce the broad, multi-disciplinary field of International Studies. Students will practice analytical writing, reading, and public speaking, and become familiar with IAS faculty members and their areas of expertise. The culminating assignment will require each student to present the work they completed to members of the IAS faculty and graduate program. (F)
- IAS 5713 Policy Analysis and Writing 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course will prepare students for policy-oriented careers. Students will develop an understanding of the policy value chain, from policy making to policy implementation and from diffusion to evaluation, and how associated feedback loops shape the policy trajectories. Building on an understanding of the policy cycle, it will give students an opportunity to engage in policy analysis. (Irreg.)
- IAS 5723 Global Policy Workshop 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course serves as a culminating experience for the MAIS program. It is intended for students to integrate the knowledge and skills they have gained in their program and to apply them in a practical and/or experiential manner to contemporary global policy issues. The applied component will typically involve an extended simulation exercise or a project for a real-world organization. (Sp)
- IAS 5793 Graduate Studies in International Relations 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Designed to provide students with a foundation for success in coursework for the MA degree in International Relations. The course begins with a focus on effective analytical writing in the field of international relations. The remaining sections of the course concentrate on essential building blocks in the field of international relations, with a particular emphasis on the relationship between domestic and international levels of explanation of international phenomena, from treaties/international agreements to economic sanctions to war. (Irreg.)
- IAS 5803 Global Affairs Practicum 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. All students are expected to engage in a research project resulting in a written document that examines a specific government or international policy. The paper should ultimately propose specific policy recommendations that are intended to be an improvement upon the current policy. The project may be conducted under the auspices of the Diplomacy Lab. (Irreg.)

IAS 5810 Field Studies in Africa**1-6 Credit Hours**

1 to 6 hours. Prerequisite: graduate standing. May be repeated; maximum credit 12 hours. The Field Studies in Africa course is a summer program designed exclusively for OU students. Participants travel with an OU faculty member for up to one month throughout one or more countries in Africa. Academic instruction for this program takes place in English, but some foreign language training may be included in the program. Experiential activities, cultural events and lectures from host nationals add to expert OU faculty lectures to give Field Studies in Africa participants a comprehensive understanding of the historical context and contemporary issues facing the countries of study and the African continent today. All accepted applicants receive a travel fellowship to offset the cost of international airfare. (Su)

IAS 5813 Africa in Context**3 Credit Hours**

(Slashlisted with IAS 4813) Prerequisite: Graduate standing or permission of instructor. Explores topics related to the historical analysis of Africa including cultural, economic, and development issues. Through a primary focus on Uganda, students will examine the lasting effects of conflict, the emergence of civic, religious and international groups and their related work, and gain a deeper appreciation of Ugandan culture and communities. No student may earn credit for both 4813 and 5813. (Su)

IAS 5820 Field Studies in Italy**1-6 Credit Hours**

1 to 6 hours. Prerequisite: graduate standing. May be repeated; maximum credit 12 hours. The Field Studies in Italy course is a summer program designed exclusively for OU students. Participants travel with an OU faculty member for up to one month throughout the country of Italy. Academic instruction for this program takes place in English, but some foreign language training may be included in the program. Experiential activities, cultural events and lectures from host nationals add to expert OU faculty lectures to give Field Studies in Italy participants a comprehensive understanding of the historical context and contemporary issues facing Italy and the continent of Europe today. All accepted applicants receive a travel fellowship to offset the cost of international airfare. (Su)

IAS 5830 Field Studies in China**1-6 Credit Hours**

1 to 6 hours. Prerequisite: graduate standing. May be repeated; maximum credit 12 hours. The Field Studies in China course is a summer program designed exclusively for OU students. Participants travel with an OU faculty member for up to one month throughout the country of China. Academic instruction for this program takes place in English, but some foreign language training may be included in the program. Experiential activities, cultural events and lectures from host nationals add to expert OU faculty lectures to give Field Studies in China participants a comprehensive understanding of the historical context and contemporary issues facing China and the Asian region today. All accepted applicants receive a travel fellowship to offset the cost of international airfare. (Su)

IAS 5840 Field Studies in Latin America**1-6 Credit Hours**

1 to 6 hours. Prerequisite: graduate standing. May be repeated; maximum credit 12 hours. The Field Studies in Latin America course is a summer program designed exclusively for OU students. Participants travel with an OU faculty member for up to one month throughout the one or more Latin American countries. Academic instruction for this program takes place in English, but some foreign language training may be included in the program. Experiential activities, cultural events and lectures from host nationals add to expert OU faculty lectures to give Field Studies in Latin America participants a comprehensive understanding of the historical context and contemporary issues facing Latin American countries and the entire region today. All accepted applicants receive a travel fellowship to offset the cost of international airfare. (Su)

IAS 5850 Field Studies in Turkey**1-6 Credit Hours**

1 to 6 hours. Prerequisite: graduate standing. May be repeated; maximum credit 12 hours. The Field Studies in Turkey course is a summer program designed exclusively for OU students. Participants travel with an OU faculty member for up to one month throughout the country of Turkey. Academic instruction for this program takes place in English, but some foreign language training may be included in the program. Experiential activities, cultural events and lectures from host nationals add to expert OU faculty lectures to give Field Studies in Turkey participants a comprehensive understanding of the historical context and contemporary issues facing Turkey and the Middle Eastern region today. All accepted applicants receive a travel fellowship to offset the cost of international airfare. (Su)

IAS 5902 Global Political Turbulence**2 Credit Hours**

Prerequisite: Graduate standing or permission of instructor. This is one of three core courses in the MAGA program focused on aspects of global turbulence. The Global Political Turbulence course explores the sources, consequences and implications of turbulence in the international political system. It will examine political turbulence in a global context, as well as turbulent affairs in each region of the world. We will concentrate on the political turbulence that characterizes global affairs today and will highlight turbulent relations in each region of the world. (Irreg)

IAS 5912 Global Economic Turbulence**2 Credit Hours**

Prerequisite: Graduate standing or permission of instructor. This is one of three core courses in the MAGA program focused on aspects of global turbulence. This course explores sources of turbulence in the global economy and their consequences – from the increasing global diffusion of economic power, to the volatility produced by free movement of large amounts of capital around the world. We will begin by examining shifts in the global distribution of economic power. We also will consider the 2008-9 global financial crisis, the aftermath of which continues to have dramatic consequences across governments and international organizations worldwide. (Irreg)

IAS 5913 International Studies Internship**3 Credit Hours**

Prerequisite: graduate standing or permission of instructor. Students receive academic credit for internship work with an internationally oriented public or private organization. Internship credit requires an element of reflection, research, and writing about the work undertaken, and can strongly enhance the internship opportunity and improve a student's ability to articulate knowledgeably the requirements, benefits and lessons of work in the public or non-profit sector. (Irreg.)

IAS 5922 Global Social Turbulence**2 Credit Hours**

Prerequisite: Graduate standing or permission of instructor. This is one of three core courses in the MAGA program focused on aspects of global turbulence. This course examines the layered causes and consequences of social turbulence around the world. It explores how peoples interact with each other and the world around them. Additionally, students will address how people react to societal and environmental changes. At the end of this course, students should have a firmer grasp on societal interaction and reaction along a number of important areas. (Irreg)

IAS 5923 International Studies Policy Exercise**3 Credit Hours**

Prerequisite: graduate standing or permission of instructor. Policy exercise offers students the option of a Capstone project that demands the integration of skills developed in the MAIS program core. Each semester the faculty will develop a policy exercise based on a contemporary global problem. Students will be responsible for gathering extensive evidence and analyses bearing on the problem at hand from a variety of perspectives. (Irreg.)

IAS 5940 Topics in International Studies 1-4 Credit Hours

1 to 4 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Analysis of one or several selected topics in international studies, international development, and/or international management. (Irreg.)

IAS 5950 Research Problems 2-5 Credit Hours

2 to 5 hours. Prerequisite: graduate standing. May be repeated with change of content; maximum credit six hours. Directed research and writing on selected topics in international relations, international development, and international management. (F, Sp, Su)

IAS 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and graduate standing. May be repeated; maximum credit six hours. Directed individual readings on selected topics in international relations; international development, and international management. (F, Sp, Su)

IAS 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

IAS 5980 Research for Master's Thesis 2-6 Credit Hours

2 to 6 hours. Prerequisite: permission of instructor and admission to M.A. in International Relations. May be repeated; maximum credit four hours. Directed individual research and writing on master's thesis. Student must be admitted to the M.A. in International Relations program. (F, Sp, Su)

IAS 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and graduate standing. May be repeated; maximum credit six hours. Directed individual work on topics in international relations, international development, and/or international management. (F, Sp, Su)

Choose one course ^{3,4}	3
<i>World Culture</i>	
Choose one course ⁴	3
Core Area V: First-Year Experience	
Choose one course	3
Total Credit Hours	37-50

¹ College of International Studies Requirements: College requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level. If this requirement is waived, a few hours of General Education electives may be needed to achieve the required 40 hour minimum (may also be satisfied by a major requirement or free elective).

³ Excluding HIST 1483 and HIST 1493.

⁴ It is recommended students take either Artistic Forms, Western Culture, or World Culture at the 3000-/4000-level to fulfill the university requirement of one upper-division course from the approved University Wide General Education list. The course must be outside the major. This may also be satisfied in the upper-division or free elective categories.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Liberal Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Major Work: A minimum of 30 semester hours must be earned in the major, including a minimum of 15 credit hours at the upper-division level.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

Military, Military In-Service, Skills, Applied Technology, and P.E. Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.

- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Information regarding Grade Point Averages, Special Degrees, and Application for Graduation can be found in the catalog under David L. Boren College of International Studies: Undergraduate Study. (p. 1623)

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement. Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, <http://www.ou.edu/international>. Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the degree checksheet for official requirements. Students must consult with College of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of International Studies, and Asian Studies major requirements.

¹ College of International Studies Requirements: College requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level. If this requirement is waived, a few hours of General Education electives may be needed to achieve the required 40 hour minimum (may also be satisfied by a major requirement or free elective).

³ Excluding HIST 1483 and HIST 1493.

⁴ It is recommended students take either Artistic Forms, Western Culture, or World Culture at the 3000-/4000-level to fulfill the university requirement of one upper-division course from the approved University Wide General Education list. The course must be outside the major. This may also be satisfied in the upper-division or free elective categories.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Liberal Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Major Work: A minimum of 30 semester hours must be earned in the major, including a minimum of 15 credit hours at the upper-division level.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

Military, Military In-Service, Skills, Applied Technology, and P.E.

Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Information regarding Grade Point Averages, Special Degrees, and Application for Graduation can be found in the catalog under David L. Boren College of International Studies: Undergraduate Study. (p. 1623)

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement. Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, <http://www.ou.edu/international>.

Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of International Studies, and European Studies major requirements.

¹ College of International Studies Requirements: College requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level. If this requirement is waived, a few hours of General Education electives may be needed to achieve the required 40 hour minimum (may also be satisfied by a major requirement or free elective).

³ Excluding HIST 1483 and HIST 1493.

⁴ It is recommended students take either Artistic Forms, Western Culture, or World Culture at the 3000-/4000-level to fulfill the university requirement of one upper-division course from the approved University Wide General Education list. The course must be outside the major. This may also be satisfied in the upper-division or free elective categories.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Liberal Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Major Work: A minimum of 30 semester hours must be earned in the major, including a minimum of 15 credit hours at the upper-division level.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

Military, Military In-Service, Skills, Applied Technology, and P.E.

Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Information regarding Grade Point Averages, Special Degrees, and Application for Graduation can be found in the catalog under David L. Boren College of International Studies: Undergraduate Study. (p. 1623)

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement. Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, <http://www.ou.edu/international>. Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university,

College of International Studies, and Russian and East European Studies major requirements.

Global Energy, Environment, and Resources, B.A.

Minimum Total Credit Hours: 120

Major Hours: 33

Minimum Upper-Division Hours: 48

Upper-Division Hours Within Major: 18

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.50

Program Code: B495

Some courses required for the major may also fulfill University General Education and/or College of International Studies Requirements

The major requires 33 hours, 18 of which must be upper-division. 18 of the required 33 must be taken in the Department of International and Area Studies.

Major Requirements

Code	Title	Credit Hours
I. Foundations of GEER		
IAS 3283	Culture, Power, and Global Environment	3
or IAS 3653	Energy, Climate, and Security	
II. Areas of Concentration		
Choose five courses from the following groups. Courses are chosen from a list maintained by the department. A minimum of one course from each group must be taken. A minimum of 6 hours must be IAS designated. (p. 1652)		15
Energy, Climate, and the Environment		
Environment & Global Ethics		
International Society and Environment		

III. Area Studies Focus		
Choose three courses from one region of the world ¹		9
IV. Internship or Service Learning		
Choose one of the following (preferably with an international focus): ²		3
IAS 3910	International Studies Internship (Energy Company)	
IAS 3910	International Studies Internship (Environmental Organization)	
Service Learning appropriate to the major		
V. Senior Capstone Course		
IAS 4013	Senior Capstone Seminar in International and Area Studies	3
Total Credit Hours		33

¹ Courses outside of the department must be approved by the IAS Academic Advisor. A minimum of 3 hours must be IAS designated.

² Students must have an internship in an energy company or environmental organization, preferably with an international focus. Students may also engage in service learning appropriate to the major. All internships and service learning must be approved by the IAS Academic Advisor.

Note: Students may take other appropriate courses as approved by the IAS Academic Advisor.

Major Support Requirements

Code	Title	Credit Hours
Choose 13 hours of one foreign language relevant to the major		13
IAS 2003	Understanding the Global Community	3
International Experience		
Majors are strongly encouraged to pursue study abroad opportunities.		
Total Credit Hours		16

General Education and College Requirements

Courses for fulfillment of General Education and College of International Studies requirements must be from the approved General Education course list published in the Class Schedule or at: <http://www.ou.edu/content/gened/courses.html>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing

<i>Western Culture</i>		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course ^{3,4}		3
<i>World Culture</i>		
Choose one course ⁴		3
Core Area V: First-Year Experience		
Choose one course		3
Total Credit Hours		37-50

¹ College of International Studies Requirements: College requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level. If this requirement is waived, a few hours of General Education electives may be needed to achieve the required 40 hour minimum (may also be satisfied by a major requirement or free elective).

³ Excluding HIST 1483 and HIST 1493.

⁴ It is recommended students take either Artistic Forms, Western Culture, or World Culture at the 3000-/4000-level to fulfill the university requirement of one upper-division course from the approved University Wide General Education list. The course must be outside the major. This may also be satisfied in the upper-division or free elective categories.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Liberal Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55

semester hours of liberal arts and sciences courses are required for a BS degree.

Major Work: A minimum of 30 semester hours must be earned in the major, including a minimum of 15 credit hours at the upper-division level.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

Military, Military In-Service, Skills, Applied Technology, and P.E.

Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Information regarding Grade Point Averages, Special Degrees, and Application for Graduation can be found in the catalog under David L. Boren College of International Studies: Undergraduate Study. (p. 1623)

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement. Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, <http://www.ou.edu/international>. Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of International Studies, and Asian Studies major requirements.

Core Area V: First-Year Experience

Choose one course 3

Total Credit Hours 37-50

¹ College of International Studies Requirements: College requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level. If this requirement is waived, a few hours of General Education electives may be needed to achieve the required 40 hour minimum (may also be satisfied by a major requirement or free elective).

³ Excluding HIST 1483 and HIST 1493.

⁴ It is recommended students take either Artistic Forms, Western Culture, or World Culture at the 3000-/4000-level to fulfill the university requirement of one upper-division course from the approved University Wide General Education list. The course must be outside the major. This may also be satisfied in the upper-division or free elective categories.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Liberal Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Major Work: A minimum of 30 semester hours must be earned in the major, including a minimum of 15 credit hours at the upper-division level.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

Military, Military In-Service, Skills, Applied Technology, and P.E.

Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Information regarding Grade Point Averages, Special Degrees, and Application for Graduation can be found in the catalog under David L. Boren College of International Studies: Undergraduate Study. (p. 1623)

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement. Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, <http://www.ou.edu/international>. Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of International Studies, and International Security Studies major requirements.

Latin American Studies, B.A.

Minimum Total Credit Hours: 120

Major Hours: 30

Minimum Upper-Division Hours: 48

Upper-Division Hours Within Major: 18

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.50

Program Code: B630

Some courses required for the major may also fulfill University General Education and/or College of International Studies Requirements.

The major requires 30 hours, 18 of which must be upper-division, and a 2.50 GPA. 12 of the required 30 must be taken in the Department of International and Area Studies.

Major Requirements

Code	Title	Credit Hours
I. Language & Literature		
	Choose two courses at the 3000-level or above beyond the 16-hour requirement, in any of the languages in the area of concentration	6
II. Latin American Studies		
	Choose 9 hours from a list of courses maintained by the department (p. 1664)	9
III. History and Geography		
	Choose 3 hours from a list of courses maintained by the department (p. 1664)	3
IV. Politics and Economics		
	Choose 3 hours from a list of courses maintained by the department (p. 1664)	3
V. Arts, Culture & Society		
	Choose 3 hours from a list of courses maintained by the department (p. 1664)	3

VI. Additional Course

	Choose an additional 3 hours from Latin American Studies, History and Geography, Politics and Economics, or Arts, Culture & Society (p. 1664)	3
--	---	---

VII. Senior Capstone Course

IAS 4013	Senior Capstone Seminar in International and Area Studies	3
----------	---	---

Total Credit Hours 30

Note: Students may take other appropriate courses as approved by the IAS Academic Advisor.

Major Support Requirements

Code	Title	Credit Hours
	Choose 16 hours of one foreign language relevant to the geographical area of concentration	16
IAS 2003	Understanding the Global Community	3

International Experience

Majors are strongly encouraged to pursue study abroad opportunities.

Total Credit Hours 19

General Education and College Requirements

Courses for fulfillment of General Education and College of International Studies requirements must be from the approved General Education course list published in the Class Schedule or at: <http://www.ou.edu/content/gened/courses.html>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
	or EXPO 1213 Expository Writing	
<i>Language</i>		
(0-13 hours in the same language) The College of International Studies requirement cannot be met by high school coursework		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics</i>		
	Choose one course	3
Core Area II: Natural Science		
	Choose two courses from different disciplines in the biological and/or physical sciences, one of which must include a laboratory component ¹	7
Core Area III: Social Science		
P SC 1113	American Federal Government	3
	Choose one course	3
Core Area IV: Arts and Humanities		
<i>Artistic Forms</i>		

Choose one course ⁴	3
<i>Western Culture</i>	
HIST 1483 United States to 1865 or HIST 1493 United States, 1865 to the Present	3
Choose one course ^{3,4}	3
<i>World Culture</i>	
Choose one course ⁴	3
Core Area V: First-Year Experience	
Choose one course	3
Total Credit Hours	37-50

¹ College of International Studies Requirements: College requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level. If this requirement is waived, a few hours of General Education electives may be needed to achieve the required 40 hour minimum (may also be satisfied by a major requirement or free elective).

³ Excluding HIST 1483 and HIST 1493.

⁴ It is recommended students take either Artistic Forms, Western Culture, or World Culture at the 3000-/4000-level to fulfill the university requirement of one upper-division course from the approved University Wide General Education list. The course must be outside the major. This may also be satisfied in the upper-division or free elective categories.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Liberal Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Major Work: A minimum of 30 semester hours must be earned in the major, including a minimum of 15 credit hours at the upper-division level.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

Military, Military In-Service, Skills, Applied Technology, and P.E.

Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Information regarding Grade Point Averages, Special Degrees, and Application for Graduation can be found in the catalog under David L. Boren College of International Studies: Undergraduate Study. (p. 1623)

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement. Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, <http://www.ou.edu/international>. Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of International Studies, and Latin American Studies major requirements.

Minimum Upper-Division Hours: 9

Program Code: N016

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must successfully complete at least 15 hours of coursework in international studies, including at least 9 hours at the upper-division level.

At least 6 credit hours must be earned in courses acceptable for residence credit by standards set forth by the Department of International and Area Studies, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit.

A minimum of 6 of the required 15 hours must be taken in the Department of International and Area Studies.

Students are encouraged to study abroad. Courses taken while studying abroad may also be substituted to meet minor requirements, though they might not satisfy General Education requirements.

A list of approved courses for the minor may be obtained in the IAS Academic Advising Office or on the departmental website.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement. Requests to substitute a minor requirement must be approved in writing by the African Studies coordinator.

- Minors are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

A minimum of 6 of the required 15 hours must be taken in the Department of International and Area Studies.

Students are encouraged to study abroad. Courses taken while studying abroad may also be substituted to meet minor requirements, though they might not satisfy General Education requirements.

A list of approved courses for the minor may be obtained in the IAS Academic Advising Office or on the departmental website.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement. Requests to substitute a minor requirement must be approved in writing by the Middle Eastern Studies coordinator.

- Minors are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Code	Title	Credit Hours
Required Course		
IAS 2003	Understanding the Global Community	3
Language or Culture		
Choose one course from the following third semester language or upper-division cultural & area studies list		3
Third semester language course:		
ARAB 2113	Intermediate Arabic	

HEBR 2113 Intermediate Hebrew

PERS 2113 Intermediate Persian

Upper-division IAS class approved for Cultural & Area Studies credit (list of approved courses can be obtained in the IAS Academic Advising Office or on the departmental website) (p. 1670)

Electives ¹

Choose 9 additional upper-division level hours of courses acceptable for Minor Credit (3 of the hours must be taken in the Department of International and Area Studies) 9

Total Credit Hours 15

¹ The most current elective list can be obtained in the IAS Academic Advising Office or on the departmental website (Advising section: https://www.ou.edu/cis/ias/undergrad-academics/majors/course_selections).

Russian and Eastern European Studies, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N826

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must successfully complete at least 15 hours of coursework in international studies, including at least 9 hours at the upper-division level.

At least 6 credit hours must be earned in courses acceptable for residence credit by standards set forth by the Department of International and Area Studies, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit.

A minimum of 6 of the required 15 hours must be taken in the Department of International and Area Studies.

Students are encouraged to study abroad. Courses taken while studying abroad may also be substituted to meet minor requirements, though they might not satisfy General Education requirements.

A list of approved courses for the minor may be obtained in the IAS Academic Advising Office or on the departmental website.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement. Requests to substitute a minor requirement must be approved in writing by the Russian and Eastern European Studies coordinator.

- Minors are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Global Engagement, Undergraduate Certificate

Minimum Total Credit Hours: 18

Program Code: T215

The Global Engagement undergraduate certificate is designed to enhance students' knowledge of the global community, including international affairs and modern global issues, as well as encourage them to become active global citizens. Certificate requirements are similar to those in the currently-existing OU program, the Global Engagement Fellowship (GEF) Program. These requirements include successfully completing required coursework; gaining or demonstrating proficiency in a modern language; studying or working abroad twice (at least one summer or winter term); becoming actively involved in international groups and events on campus; and maintaining an e-portfolio documenting their experiences and reflections. The certificate adds a formal designation to fellows' OU academic record showing that they completed a global education curriculum and provides them a tangible way to make their experiences more marketable to potential future employers. All GEFs who successfully complete the program requirements are eligible for the certificate, but it is also available to any degree-seeking OU student.

Certificate Requirements

Code	Title	Credit Hours
IAS 2003	Understanding the Global Community	3
IAS 3910	International Studies Internship	3-6
Approved Study Abroad or international internship program		6-9

Complete 3 credits in a modern language at the 2223 (intermediate continued) level ¹	3
Total Credit Hours	18

¹ If a student has already obtained this level of proficiency in a relevant language, they may substitute additional approved IAS or study abroad coursework.

International Studies, B.A./Global Studies, M.A.

Minimum Total Credit Hours: 144

Major Hours: 33

Minimum Upper-Division Hours: 48

Upper-Division Hours Within Major: 18

Overall GPA - Combined and OU: 3.00

Major GPA - Combined and OU: 3.00

Program Code: A605/F497

Some courses required for the major may also fulfill University General Education and/or College of International Studies Requirements

The major requires 33 hours, 18 of which must be upper-division. 18 of the required 33 must be taken in the Department of International and Area Studies.

Major Requirements

Code	Title	Credit Hours
I. International Relations (3 hours must be IAS designated)		
Choose 3 hours from a list of courses maintained by the department (p. 1679)		3
IAS 5503	Theory and Practice of International Politics	3
II. Development & Economics (3 hours must be IAS designated)		
Choose 3 hours from a list of courses maintained by the department (p. 1679)		3
IAS 5713	Policy Analysis and Writing	3
III. History & Culture (3 hours must be IAS designated)		
Choose 3 hours from a list of courses maintained by the department (p. 1679)		3
IAS 5003	U.S. Foreign Relations	3
IV. Politics & Society (3 hours must be IAS designated)		
Choose 3 hours from a list of courses maintained by the department (p. 1679)		3
IAS 5703	International Studies Colloquium	3
V. Specialization (3 hours must be IAS designated)		
Choose 6 hours in an area of specialization that fits career goals ¹		6
VI. Senior Capstone Course		
IAS 4013	Senior Capstone Seminar in International and Area Studies	3
Total Credit Hours		33

¹ Will include additional hours from sections I-IV, an area studies, or custom specialization as approved.

Note: Students may take other appropriate courses as approved by the IAS Academic Advisor.

or HIST 1493	United States, 1865 to the Present	
Choose one course ^{3,4}		3
<i>World Culture</i>		
Choose one course ⁴		3
Core Area V: First-Year Experience		
Choose one course		3
Total Credit Hours		37-50

¹ College of International Studies Requirements: College requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level.

³ Excluding HIST 1483 and HIST 1493.

⁴ It is recommended students take either Artistic Forms, Western Culture, or World Culture at the 3000-/4000-level to fulfill the university requirement of one upper-division course from the approved University Wide General Education list. The course must be outside the major. This may also be satisfied in the upper-division or free elective categories.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Total Hours: A minimum of 144 semester hours acceptable toward graduation must be completed of both the B.A. and the M.A.

Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Liberal Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Major Work: A minimum of 33 semester hours must be earned in the major, including a minimum of 18 credit hours at the upper-division level.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

Military, Military In-Service, Skills, Applied Technology, and P.E.

Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Information regarding Grade Point Averages, Special Degrees, and Application for Graduation can be found in the catalog under David L. Boren College of International Studies: Undergraduate Study. (p. 1623)

Suggested Semester Plan of Study

This plan is a sample of one possible grouping of courses that would allow students to graduate in five years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of International Studies, International Studies, and Global Studies major requirements.

Bachelor's degrees require a minimum of 48 hours of upper-division (3000-4000) coursework.

This plan of study should not be used in lieu of academic advisement.

Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, <http://www.ou.edu/international>.

Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

Global Affairs, M.A.

Minimum Total Hours (Non-Thesis): 33

Program Code: M494

The requirements listed on this degree check sheet apply to the following concentrations in Global Affairs:

- Global Economics & Development - M494/Q276
- International Security Studies - M494/Q384
- Middle Eastern Studies - M494/Q454

Required Courses

Code	Title	Credit Hours
Core Courses		
IAS 5902	Global Political Turbulence	2
IAS 5912	Global Economic Turbulence	2
IAS 5922	Global Social Turbulence	2
Concentration		
Choose one of the following concentrations: ¹		12
International Security Studies (p. 1681)		
Global Economics & Development (p. 1681)		

Middle Eastern Studies (p. 1681)

Area Studies		
Choose 9 hours from a list maintained by the program (p. 1681)		9
Practicum		
IAS 5803	Global Affairs Practicum	3
Education Abroad Experience		
Choose a faculty-led overseas experience offered such as the following:		3
IAS 5810	Field Studies in Africa	
IAS 5820	Field Studies in Italy	
IAS 5830	Field Studies in China	
IAS 5840	Field Studies in Latin America	
IAS 5850	Field Studies in Turkey	
Total Credit Hours		33

¹ Each specialization requires 9 hours from the chosen track and 3 hours from another track.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Total Credit Hours		36

¹ No more than 3 hours may be IAS 5990. Electives may be chosen from the following topics and disciplines, subject to approval by the Graduate Liaison: Economics (Global/Regional), World/Regional History, Political Science, International Relations, Comparative Politics, Policy Studies, World and Human Geography, Sociology, Anthropology, Cultural Studies, Law (International and Comparative), Foreign languages.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Barbara Merckx, News Director
Deyna Aragon, Director of Community and Alumni Relations
Kennedy Sepulvado, Production Manager
Buddy Wiedemann, IT Director
Kevin Hahn, Building Technology Resource Coordinator
Nate Feken, Sports Director

General Information

History and Purpose

A School of Journalism was first established at the University of Oklahoma in 1913. During the early years, the thrust of the program was to prepare young people for reporting and editing careers in newspapers and magazines. By 1921, the curriculum had expanded to include courses in advertising and newspaper management that were at the forefront of journalism education in the country. The course offerings of the school continued to grow to include radio news in the 1930s. By the late 1950s, courses in professional writing, public relations, and television news had been added.

The School of Journalism was renamed the H.H. Herbert School of Journalism and Mass Communication in 1961. Herbert, the school's second director, led the school from 1917 to 1945. Under his leadership, the standards of the school were raised, and by 1921 the school became one of only 11 institutions in the United States to meet the requirements for admission to the Association of American Schools and Departments of Journalism. High standards continue with the college's accreditation by the Accrediting Council on Education in Journalism and Mass Communication. Only about a quarter of the journalism programs in the U.S. meet the ACEJMC's accreditation standards. In May 2000, the H.H. Herbert School of Journalism and Mass Communication became the Gaylord College of Journalism and Mass Communication.

The Gaylord College of Journalism and Mass Communication is housed in Gaylord Hall located on the South Oval. The 62,000-square-foot building opened in fall 2004 (Phase I) and includes a fully digital television production studio; a news ticker facing the South Oval; a completely wireless network; an open multimedia lab; a spacious library; three computer classrooms; a video conferencing classroom and a dozen video editing suites. Gaylord Hall (Phase II) opened 2009 and adds an additional 46,000 square feet.

The college's goal is to provide students with the most effective training and preparation possible for careers in every facet of the mass communication industry. This education includes conceptual courses in journalism history, ethics, public opinion, communication law, public relations and advertising; various delivery systems, including print, broadcast, and online; and craft courses in gathering writing, editing, and processing information.

The college holds memberships in The Association of Schools of Journalism and Mass Communication (ASJMC), and the Broadcast Education Association. The college is also the headquarters for the Oklahoma Scholastic Media, which is the oldest continuing secondary school press organization in the world.

Programs Offered

- Journalism Advertising, B.A. (p. 1707)
- Creative Media Production, B.A. (p. 1709)
- Journalism, B.A. (p. 1712)
- Professional Writing, B.A. (p. 1714)
- Public Relations, B.A. (p. 1717)
 - Public Relations Course List (p. 1719)
- Broadcast Meteorology, Minor (p. 1719)

- Journalism and Mass Communication, M.A. (p. 1734)
- Strategic Communication and Digital Strategy, M.A. (p. 1735)
- Professional Writing, M.P.W. (p. 1735)
- Media Management, Graduate Certificate (p. 1736)
 - Price College of Business approved course list (p. 1736)

- Strategic Planning, Graduate Certificate (p. 1736)
- Mass Communication, Ph.D. (p. 1737)

Programs & Facilities

Production Facilities

The Gaylord College has developed a facility that offers students the opportunity to produce high quality video and television programs. This includes studio cameras and controls; digital audio; single camera video production; field audio production; studio and field lighting non-fiction and documentary production; and fictional and experimental video production. Several post-production platforms are available, suited to different levels of production.

Student Services Center

The Student Services Center is located in 2533 Gaylord Hall. The office staff is knowledgeable about undergraduate degree programs offered by the college. Academic counselors also assist students with transcript evaluation, enrollment and graduation requirements, as well as any problems of an academic nature. Students may seek internship/career assistance in the Student Services Center.

OU Nightly

OU Nightly is a live, student-run newscast produced by the college. The newscast is the collective effort of students in the television news and news practicum courses offered through the college, with additional input from other journalism students and the OU School of Meteorology. An industry standard style newscast, *OU Nightly* airs live on Cox Cable channel 4 in Norman in a pre-prime time slot Monday through Friday during both the fall and spring semesters. Prime-time news cut-ins are also produced by Gaylord College students.

Gaylord News

Gaylord News is a statewide reporting project operated by Gaylord College. Gaylord News serves 3.4 million viewers and readers via a network of 54 newspapers, 8 television stations and 6 radio station partners. It operates news operations in Washington, D.C., Norman and Lawton. Nearly 60 students have produced story packages or series since the news service launched in August 2018. It serves professional media outlets, and content is judged in the professional category of journalism contests, because it serves professional media outlets.

Creative Lab

The Gaylord College of Journalism and Mass Communication creative lab is open to all students enrolled in JMC courses approximately 85 hours each week. The latest Macintosh computers feature a wide array of software applications including Microsoft Office, Adobe Creative Suite, Apple Final Cut Studio, AVID Media Composer, SPSS, and more. Broadcast students also have access to powerful video editing stations.

Work Experiences

Students are encouraged to supplement traditional classroom experience with on-the-job training, which will often increase the chances of gaining a professional position after graduation. Students may enroll in a practicum to receive credit while working at one of several on-campus media operations. In addition, several journalism and mass communication courses provide experience through coordination with *OU Daily* campus newspaper.

Television and Radio

Creative Media Production students have the opportunity to work for the student-produced television station, such as the award-winning *OU Nightly* newscast; sports magazine show, *OU Sports Pad*; or the music magazine, *The Set*. In addition, students work on major independent projects such as films, documentaries, and commercial productions.

Students wishing to work in radio can get hands-on experience at two on-campus stations *KGOU*, the local NPR station. Students may also work with the athletic department's high-definition production unit, *SoonerVision* or with guest programs such as ESPN-U.

Advertising and Public Relations

In the summer of 2009, 18 intrepid Strategic Communications students devoted their entire vacation to learn the workings of an advertising / public relations agency. They bonded over the necessary details of operating an agency that was to be both entrepreneurial and pedagogical. They created such a firm foundation that today Lindsey + Asp is an operational stratcomm laboratory, working with real clients in a real world atmosphere that rivals any professional agency. Lindsey + Asp is a true experiential learning opportunity for not only strategic communications students, but for those in professional writing and creative media production as well. The application process for prospective agency staff is rigorous in order to ensure that the quality of Lindsey + Asp work and the agency's reputation with clients is maintained.

Online opportunities can be found throughout many of the work experiences listed above. Students may produce online content for *The Oklahoma Daily*, *SoonerVision*, *TV4OU*, or the advertising/public relations agency.

Internships

The college's close location to the professional job market in Oklahoma City provides students with outstanding opportunities for part-time employment with professional communication organizations and departments. Internships outside of the state are encouraged as well.

Juniors and seniors may also participate in the college's internship for credit program, in which students may gain experience and degree credit in paid or unpaid positions. Students must have at least 75 hours earned and a 3.00 retention grade point average to apply for an internship for credit. Internship application forms are available in the Student Services Center as well as on the college's website. Students who wish to receive credit for internship experience must obtain permission from the college no later than the end of the first week of the internship. Internship opportunities are posted on the college's Web site and in the Student Services Center. Students may also arrange their own internships. Students also have the option of gaining general elective credit for internship through OU Career Center once JMC credits have been maxed out.

Gaylord Extra

The **Gaylord Extra** is the college's primary method of communicating information and important deadlines to journalism and mass communication majors. The **Gaylord Extra** includes information on drop and add deadlines, withdrawal deadlines, advising schedules, graduation, degree checks, scholarship application deadlines, internships, workshops, college-sponsored job fairs, and other college-related announcements. Students enrolled in the Gaylord College of Journalism and Mass Communication will receive the **Gaylord Extra** in their OU e-mail account every week. The **Gaylord Extra** is also posted on the college's website.

Event-related announcements are also posted throughout the building, on the College's Web site, Facebook page and sent via special event e-mails.

Student Organizations

Several organizations are invaluable in developing ties that carry into professional life. These student organizations include:

- AdClub, the advertising society for students interested in advertising media, agencies and strat comm;
- Society of Professional Journalists (SPJ), for students aspiring to news careers;
- Public Relations Student Society of America (PRSSA), for students interested in public relations as a career;
- Oklahoma University College Broadcasters (OUCB), for students in broadcasting and electronic media;
- National Association of Black Journalists (NABJ), an organization for African-American students who aspire to careers in mass communication;
- Kappa Tau Alpha (KTA), an honorary scholastic organization for journalism and mass communication students;
- Native American Journalists Association (NAJA);
- National Association of Hispanic Journalists (NAHJ);
- *OU Daily*;
- Professional Writing Students Association;
- Graduate Student Interest Group.

Scholarships

Each year, the Gaylord College awards approximately \$400,000 in scholarships, with nearly \$40,000 reserved for incoming freshmen who demonstrate academic and journalistic promise. Recipients of freshman level scholarships have special curricular opportunities to enhance their academic experiences. Transfer students are eligible for all upper-class level scholarships. Freshmen students use the OU common scholarship application, so no additional application is necessary. Upperclassmen scholarship applications are applied through the University's Centralized Academic Scholarship Hub (ASH) which opens December 1st and closes February 1st.

Undergraduate Study

The Gaylord College of Journalism and Mass Communication offers professionally-oriented undergraduate degree programs in the following fields: Strategic Communication (advertising and public relations); News Media (journalism); and Media Arts (Creative Media Production, and Professional Writing).

Admission to the Gaylord College of Journalism and Mass Communication

The OU Gaylord College of Journalism and Mass Communication uses the same admissions policies for accepting new students into its programs as that of the institution.

FRESHMAN ADMISSION

For more information regarding freshman admission, visit the OU Admissions webpage.

TRANSFER ADMISSIONS

For more information regarding transfer engineering admission, visit the OU Admissions webpage.

Scholastic Requirements & Equivalencies

Academic Standards

Students in the Gaylord College of Journalism and Mass Communication must meet the following academic standards:

- A successful score on both College entrance exams; the Language Skills Test (LST), which includes portions on grammar, punctuation and spelling; the Academic Integrity Test (AIT), which covers information from the Academic Misconduct Code as printed in the University of Oklahoma Student Code booklet.
- Completion of JMC 1013 (Introduction to Media) with a grade of C or better.
- Maintain a minimum combined retention grade point average of 2.50 on all work attempted, as well as 2.50 on all major work.
- Transfer students must have a 2.50 combined retention grade point average to gain admission into the college.
- Students must maintain a 2.50 OU retention GPA and a 2.50 combined retention GPA. Students who fail to maintain the minimum GPA requirements will be placed on academic contract. Students have one semester to raise their GPA to the required minimum. Students who fail to raise their GPA will be stopped out of the Gaylord College and asked to change majors. Students stopped out of the Gaylord College must reapply to the program under the same procedures outlined under Admission. Students may apply for readmission only once.

The college's degree programs are accredited by the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC). The college endorses the philosophy of the council that a broad foundation of knowledge and experience will enhance the professional lives of its graduates. In support of that liberal arts philosophy, the curriculum directs students to divide their studies among the arts, sciences, business and related fields. This a ratio gives students the opportunity to develop specialties in mass communication skills while acquiring the recommended broad liberal arts base.

Language Skills Test (LST)/Academic Integrity Test (AIT)

The Language Skills Test is the entrance examination to the Gaylord College. The LST must be completed prior to enrollment in JMC 2033 Media Writing & Storytelling, a course that is required of all journalism and mass communication majors.

The LST is administered on canvas.ou.edu. Please contact the Student Services Center (405-325-5684) to gain permission to take the exams. Test results are available immediately.

The LST includes 80 questions on grammar, punctuation and spelling.

The college encourages students to thoroughly review these areas prior to taking the LST. An online study guide is available on the college's website. Students are also encouraged to review a grammar and composition textbook (several are recommended on the college's Web site) as well as the Student Academic Integrity Code.

The LST may be attempted three times. If a student fails the third time, the student will be required to enroll in JMC 0123 Fundamentals of Writing for the Media, a course that will not apply toward the degree.

The AIT consists of 20 questions that are taken directly from information in the Academic Misconduct Code.

Advising

With the exception of Intersession, advising is mandatory prior to each academic term for all students in the Gaylord College. Advising for the summer session and the fall semester begins in February; advising for the spring semester begins in September. Students are advised by professional academic counselors in the Student Services Center. Students may also meet with faculty members to discuss careers, internships, and professional issues. Notices about advising will be posted in the Gaylord Extra.

Students are strongly encouraged to maintain current local addresses and e-mail addresses with the University, as important advising and graduation information is distributed each academic term in the Gaylord Extra.

Transfer Students

The Gaylord College of Journalism and Mass Communication welcomes transfer students from other colleges or universities. The Office of Admissions determines which credits will be accepted from a transferring institution. The application of those credits toward a BA in Journalism and Mass Communication will be determined by an academic counselor in the Student Services Center. Transfer students must meet with an academic counselor prior to their first enrollment at the University. Transfer work is counted as lower-division or upper-division depending on the level at which it was offered at the institution where it was earned. Two-year college work is acceptable only as lower-division credit.

Students may transfer in a maximum of 12 hours of journalism and mass communication coursework prior to full admission to the Gaylord College. Once fully admitted to the college, students may petition the faculty to have an additional three (3) hours from an outside ACEJMC institution applied to their University of Oklahoma degree. A maximum of 15 credit hours of JMC transfer coursework may be applied to a degree.

Undergraduate Degree Requirements

Students who plan to earn a BA in Journalism in four years should plan to complete at least 33 credit hours per academic year. Students should also be aware of important academic deadlines, which are listed on the University's Academic Calendars website.

The Student Services Center assists students in determining the number of hours remaining to complete the degree; however, **the responsibility for meeting graduation requirements lies with the student.**

A BA in Journalism is made up of the following components:

- University-Wide General Education requirements;
- Additional General Education requirements specific to the College of Journalism and Mass Communication;
- Requirements in the major;
- Requirements in the major support area (advertising majors only); and
- Electives.

Major Requirements

Advertising

A major in Advertising (p. 1707) is ideal for the student interested in artistic expression, persuasive messaging, and strategic planning and research. Our graduates pursue careers as brand managers, media

planners, account executives in advertising agencies, in marketing firms, and in-house corporate communications. The critical thinking, analysis and research skills also prepares students for postgraduate studies.

Creative Media Production

A major in Creative Media Production (p. 1709) is ideal for the student interested in using sight, sound, motion, and words to tell informative, persuasive or entertaining stories and who wants to pursue careers in media industries such as film, corporate production, radio or television. The critical thinking, analysis, and research skills also prepares students for postgraduate studies.

Journalism

A major in Journalism (p. 1712) is ideal for the student interested in writing, public affairs or current events, or digital storytelling and multimedia production. Journalism majors pursue careers as reporters, news anchors, broadcast journalists or copy writers and editors. The critical thinking, analysis and research skills also prepares students for postgraduate studies.

Professional Writing

The Professional Writing (p. 1714) option has a 70-year history of helping its majors develop the skills needed to succeed in the publishing industry. Those skills, which include the ability to communicate clearly, think logically, manage large-scale projects, and craft a compelling narrative, are critical to virtually all careers. They also prepare students for graduate work in writing-intensive fields that include creative writing, English, journalism, and the law.

Public Relations

A major in Public Relations (p. 1717) is ideal for the student interested in problem solving, event planning, and strategic planning and research. Our graduates pursue careers as public information officers, account executives in public relations agencies, community relations, and in-house corporate communications. The critical thinking, analysis and research skills gained with a public relations education also prepares students for postgraduate studies.

Graduation Rules and Regulations

- A minimum **2.50** combined retention grade point average in the major, overall, and on the last 60 hours is required to earn a Bachelor of Arts in Journalism degree.
- A grade of C or better is required in each major course, resident or transfer.
- Students fully admitted to the college may petition the faculty to have an additional three (3) credit hours from an outside ACEJMC institution applied to their University of Oklahoma degree. A maximum of 15 credit hours of JMC transfer coursework may be applied to a degree.
- The Senior Capstone course must be taken in residence at OU.
- Students must file an official application for graduation during their first two weeks of the final term of enrollment.

Credit Hour Regulations

- At least **120** semester credit hours applicable towards a Bachelor of Arts in Journalism degree must be earned. Not all hours acceptable by the University are acceptable towards a BA in Journalism.
- At least **60** semester credit hours must be earned at accredited senior (four-year) institutions.
- At least **48** semester credit hours must be earned at the upper-division level (courses numbered 3000 or above).

- At least **30** semester credit hours must be earned in the major, including at least **21** at the upper-division level.
- A minimum of **15** of the last **30** hours must be earned in residence at the University of Oklahoma. OU correspondence courses and transfer courses are non-resident credit.
- No more than **50** hours of JMC coursework may be applied to a Bachelor of Arts in Journalism degree. If a student pursues a minor in Film and Video Studies, any JMC courses which are applied toward this minor are also included in the maximum number of JMC credit hours allowed.
- No more than **16** semester credit hours earned under the Pass/No Pass option will apply toward the degree. P/NP credit may not be used to satisfy general education, college, major, major support, or minor requirements. Transfer credit graded P/NP is counted as part of the 16 semester credit hours earned.
- No more than **16** semester credit hours earned in all basic skills courses, including PE activity courses; military courses including Aerospace, Naval Science and Military Science courses; and military in-service experience will apply toward a BA in Journalism and Mass Communication. No more than four of the 16 hours may be in PE activity courses. Two credit hours of basic military training may be counted toward the degree when the posting of the credits by the Office of Admissions is in the form of four one-hour courses as follows: Personal Physical Conditioning, First Aid, Outdoor Skills Practicum and Marksmanship.
- No more than **12** semester credit hours earned in all individual study courses, e.g., Independent Study, but excluding Honors Reading and Research, will be counted as part of the minimum 130 semester credit hours required for graduation.
- No more than **31** semester credit hours earned by a combination of credit by exam (e.g., CLEP or Advanced Standing Exam) and correspondence courses will apply toward the degree. JMC majors may take general education and elective courses by correspondence, but are not permitted to take journalism and mass communication work by correspondence.

Ten-Year Limitation Rules

JMC credit which is more than 10 years old may not be applied toward a Bachelor of Arts in Journalism degree unless approval is obtained from the college's Appeals Board. A student in the Gaylord College may elect to follow the degree program requirements that were in place at the time of the student's first enrollment in the Oklahoma State System for Higher Education (excluding high school concurrent enrollment), or exercise the option to update to the most current degree program requirements. Those who elect to follow requirements in place at the time of their first enrollment must complete all degree requirements within a maximum of 10 calendar years from the date of that enrollment. If the work for the degree covers a period longer than 10 years, the student must update to the most current degree program requirements.

Independent Projects

Students who qualify may earn elective journalism and mass communication credit for special projects. Enrollment requires the permission of a supervising faculty member. Generally, permission is given only when the proposed study program does not duplicate material or experiences available in regular offerings of the school.

Interdisciplinary Program in Film and Video Studies

In keeping with the school's participation in and commitment to the interdisciplinary program in Film and Video Studies the Gaylord College allows FVS students to enroll in a number of JMC courses. In order to

receive permission to enroll in a JMC course, the FVS student must present an advisement form signed by an FVS advisor. Film and Video Studies students may complete a maximum of 15 JMC credit hours. Journalism and Mass Communication majors, completing a minor in Film and Video Studies, will be allowed a combined maximum of 45 hours in JMC to count toward the Bachelor of Arts in Journalism degree.

Minors

Broadcast Meteorology Minor

Minor in Broadcast Meteorology (p. 1719)

Minor in Creative Media Production

The Minor in Creative Media Production (p. 1719) allows majors outside of Journalism and Mass Communication to pursue creative media production courses skill set and knowledge.

Professional Writing Minor

The Professional Writing Minor (p. 1720) allows majors outside of Journalism and Mass Communication to pursue professional writing course skill set and knowledge.

Accelerated Bachelor of Arts in Journalism/Master of Arts

The accelerated Bachelor of Arts/Master of Arts provides high-achieving Gaylord undergraduate students an accelerated MA option. The program is a sequential accelerated program which awards the BA when it is completed. Students are then moved to graduate status.

- Advertising, Bachelor of Arts/Master of Arts (p. 1720)
- Creative Media Production, Bachelor of Arts/Master of Arts (p. 1724)
- Journalism, Bachelor of Arts/Master of Arts (p. 1727)
- Public Relations, Bachelor of Arts/Master of Arts (p. 1731)

Graduate Study

Master of Arts

Journalism and Mass Communication Master of Arts (p. 1734) areas of interest include Broadcast and Electronic Media, Mass Communication Management, Journalism and Strategic Communication (public relations and advertising).

Master of Arts in Strategic Communication and Digital Strategy (Online)

The Strategic Communication and Digital Strategy (Online) option (p. 1735) provides early-to-mid-career strategic communication professionals the digital knowledge and data skills to advance their careers.

Master of Professional Writing

Master of Professional Writing (p. 1735) program is designed to develop and refine commercial writing skills for students interested in producing nonfiction books, novels and screenplays.

Graduate Certificates

Journalism and Mass Communication Graduate Certificates are not degree programs; rather, they are separate graduate education credentials. Certificates are the sets of courses that provide specific knowledge in the particular area. Students can now receive graduate certificates in Media Management (p. 1736) or Strategic Planning (p. 1736).

Doctoral Programs

The Mass Communication Ph.D. (p. 1737) program is designed for students who wish to explore deeply the practices and values of journalism, mass communication and the media professions. Graduates will be prepared to become both accomplished researchers and outstanding teachers in colleges and universities around the world.

Admission

Students seeking admission to the college's master's programs, which lead to the Master of Arts and Master of Professional Writing degrees, must meet all requirements for admission to the University's Graduate College. Please see the Graduate College for specific information.

To be admitted in full standing, a student must have a minimum undergraduate grade point average of 3.20 on the 4.0 scale on the last 60 hours of coursework completed. Students may be admitted conditionally with a 3.0 grade point average in the last 60 hours of undergraduate coursework.

For full admission to the M.A., a student must also have successfully completed courses in media writing, mass communication history or law, an upper-division journalism and mass communication elective, and a course in statistics. Admission to the graduate program is conditional until the aforementioned requirements are complete.

Professional writing applicants without sufficient background may be required to take courses on short story writing, writing for the entertainment media, or both as part of conditional admission.

Students with a grade point average below 3.0 in the last 60 hours, while not eligible for admission into the journalism and mass communication master's programs, may seek admission to the University as Special Students. By permission, upon completion of a minimum of 12 hours of 3000-4000-level coursework with a grade point average of 3.25 or better, they could be considered for admission into the Gaylord College of Journalism and Mass Communication.

G4000-Level Courses

A maximum of 12 credit hours of G4000-level courses will count toward the master's degree. No more than nine of these hours may be in journalism and mass communication.

Transfer Credit

A maximum of eight credit hours of graduate work may be transferred from other universities if such work meets the college's requirements. No transfer credit will be accepted toward meeting core requirements.

Courses

JMC 0123 Fundamentals of Writing for the Media 3 Credit Hours

Students review the fundamentals of writing and English grammar to strengthen their understanding of proper structure. Examples of language conventions for the media field are introduced. This course primarily consists of lectures and hands-on practice during class. Course offers preparatory materials for the Language Skills Test. Students will complete assignments & quizzes to test understanding of the grammar rules. (F, Sp)

JMC 1013 Introduction to Media 3 Credit Hours

Development, scope, functions and information resources of mass media, emphasizing the role of professionals in solving contemporary problems in the mass media. (F, Sp) [V-FYE].

JMC 1021 Introduction to Creative Media Prod 1 Credit Hour

Prerequisite: JMC 1013; Majors only. An overview of the Creative Media Production for new majors. Students will be introduced to the various opportunities and sequences in the Creative Media Production major. (F, Sp)

JMC 1031 Principles of American Journalism 1 Credit Hour

Prerequisite: Majors only, departmental permission, and JMC 1013. A survey of the normative roles and functions of journalism in the U.S. It explores the meaning of a free press, journalism's democratic functions, and how those functions are achieved (or not). Journalistic values of freedom, inclusivity, independence, public service, truth and social responsibility are studied in relation to journalism history and changes in the digital age. (F, Sp, Su)

JMC 1041 Visual Literacy 1 Credit Hour

Prerequisite: Majors only, departmental permission, and JMC 1013. Visual theories underpin all visual communication and production. Students will understand how these theories work both at the conceptual and the practical level. Understanding of how visuals communicate & are powerful conveyers of "proof," how images can be manipulated for strategic purposes as proof & reinforcement of stereotypes. Students will learn & apply photography & design principles through class projects. (F, Sp, Su)

JMC 1051 Digital Literacy 1 Credit Hour

Prerequisite: Majors only, departmental permission, and JMC 1013. Students will be introduced to the social psychology theories that underpin collective behavior online, understand how media organizations either restrict or afford that behavior via the code(algorithms) they develop and learn how to engage in networked communities. (F, Sp, Su)

JMC 1061 Journalism Writing & Editing 1 Credit Hour

Prerequisite: Majors only, departmental permission, and JMC 1013. Introduction to journalistic writing and professional standards of news writing across all distribution platforms (broadcast, newspaper, online). Students will practice crafting and editing stories that provide accurate, objective, unbiased news and information across legacy and emerging media platforms. (F, Sp, Su)

JMC 1071 News Judgment & Interviewing 1 Credit Hour

Prerequisite: Majors only, departmental permission, and JMC 1013. Building students' abilities to recognize a news story, identify the elements needed to tell that story, and prepare for and conduct interviews with sources. Course will introduce interviewing strategies, the difference between quotes and soundbites, how to cultivate sources and persist in asking questions under difficult circumstances. (F, Sp, Su)

JMC 1081 Reporting with Numbers 1 Credit Hour

Prerequisite: Majors only, departmental permission, and JMC 1013. This course will introduce students to the basic concepts and skills necessary to use numerical, statistical, geographical and survey data as a way of telling compelling fact-based stories. Content covered includes reporting statistical findings, finding trends in data, basic understanding of financial reporting, and reporting with public data sources. Ethics and issues of diversity included and graphical representation of data. (F, Sp, Su)

JMC 2033 Media Writing & Storytelling 3 Credit Hours

Prerequisite: 1013 or concurrent enrollment; passage of the school's writing skills test, and permission of instructor. Introduction to journalistic writing: the expository and persuasive formats; supervised practice in writing for the print, broadcast and photographic media; study of professional demands of organizing and presenting information in the various media. Laboratory (F, Sp)

- JMC 2643 Sound, Light, and Motion** 3 Credit Hours
Prerequisite: JMC 1013; Majors only. Understand and demonstrate the basic skills of preproduction, sound recording/mixing, single-camera digital video production, and non-linear editing. (F, Sp)
- JMC 2683 Survey of Electronic Media** 3 Credit Hours
Prerequisite: 1013. Conceptual overview of electronic media in both the national and international contexts. Course will cover technology, history, ethics, regulation, programming, diversity, advertising, management and production. (F, Sp)
- JMC 2970 Special Topics** 1-3 Credit Hours
1 to 3 hours. Prerequisite: sophomore standing. May be repeated with change of content; maximum credit nine hours. Deals with content and concepts not usually offered in regular coursework and/or special creative situations or projects. (Irreg.)
- JMC 3003 Multimedia Journalism** 3 Credit Hours
Prerequisite: 2033. Introduces concepts and practices necessary for working in a multi-platform media environment. Provides instruction in the use of photographs, graphics, audio, video and the written word to create stories and content for print, broadcast and online media. (F, Sp, Su)
- JMC 3011 Practicum** 1 Credit Hour
Prerequisite: permission of instructor. May be repeated; maximum credit three hours, two hours may be in the same area. Sections include The Wire, tv programming and operations, Oklahoma Daily, radio station KGOU, OUNightly News, the Sooner Yearbook student staff members, and other JMC major co-curricular opportunities. Discussion and analysis of current problems. (F, Sp, Su)
- JMC 3013 Intermediate Cross-Platform Reporting** 3 Credit Hours
Prerequisite: Majors only, departmental permission, JMC 1013, JMC 1031, JMC 1041, JMC 1051, JMC 1061, JMC 1071, JMC 1081, and JMC 2033. A rigorous exploration of storytelling using social media and other digital tools to promote information but also gather information and sources in order to develop story ideas, judge news value, conduct research and interviews, develop sources and produce news content for print, broadcast and online media. (F, Sp, Su)
- JMC 3023 Long Form Storytelling** 3 Credit Hours
Prerequisite: Majors only, departmental permission, JMC 1013, JMC 1031, JMC 1041, JMC 1051, JMC 1061, JMC 1071, JMC 1081, JMC 2033, and JMC 3013. This course will teach students the craft of writing in-depth works of narrative nonfiction, which includes conceptualizing story ideas, in-depth research, interviewing, navigating various long-form structures, editing and revisions, pitching and publication. (F, Sp)
- JMC 3043 Community Journalism** 3 Credit Hours
Prerequisite: 2033. The meaning of community is evolving with the importance of new media in the cultural mix. While geographical communities continue to define media consumers, so do online communities, ethnic and racial communities, gender communities and other ways of grouping together to find and exchange relevant information through the media. Explores a variety of forms of community journalism from its roots in the small town newspapers that have provided a verbal/visual town square for centuries to current redefinitions of the concept of community and the media manifestations of those redefinitions. (F, Sp)
- JMC 3063 Introduction to Broadcast Journalism** 3 Credit Hours
Prerequisite: 2033 and 3003, or concurrent enrollment or permission. Introduction to the professional standards, vocabulary, processes, and newsroom organization of broadcast news. Focus is on learning how a broadcast newsroom functions and the collaboration needed to create a productive and efficient newsroom environment. (F, Sp, Su)
- JMC 3083 Business of Media** 3 Credit Hours
Prerequisite: 2033 and completion of OU Math requirement. Explores the dual purpose of news and information media - the public service ethic rooted in journalism values and the financial interest rooted in business - and how the values of journalism co-exist and conflict with the values of business. (F, Sp)
- JMC 3103 News Editing** 3 Credit Hours
Prerequisite: 2033, 3003. Work on newspapers, including correction of errors of fact and expression. The factors considered in selection of news. Good taste in editing copy; avoidance of libel; headline writing; techniques of copy control; newspaper makeup and arrangement. Laboratory (F, Sp)
- JMC 3143 Photojournalism** 3 Credit Hours
Prerequisite: JMC 1013 and JMC 2033, or permission from instructor. Course will sharpen your skills as a professional creator of photographic content. Learn to operate DSLR cameras. Learn how to deliver visual content on mobile & social media platforms along with basic video storytelling. (F)
- JMC 3163 Intro to Sports Journalism** 3 Credit Hours
Prerequisite: JMC 1013, JMC 2033, or permission of instructor. Focus will be on the art of sports interviewing and sports writing. Course will contain all phases of the media – print, radio, TV, & online. Emphases on asking pertinent questions & then building a story line. Students will be expected to create editorials & features as they pertain to different media groups. (F)
- JMC 3173 Play by Play** 3 Credit Hours
Prerequisite: JMC 1013, JMC 2033, JMC 3003 or permission of instructor. Learn what is like to be behind the mic in addition to the complete structure of a television production. Will focus on live sports television production including an in-depth look at all crew positions, production techniques, game formats and emerging technology. Also will examine radio and television play-by-play techniques. (F, Sp)
- JMC 3303 Introduction to Advertising** 3 Credit Hours
Prerequisite: 1013, 2033 or permission. Survey of the field of advertising and career areas within the field with emphasis on the relationship between marketing and advertising and the media which serve as channels of advertising communication. (F)
- JMC 3333 Advertising Research** 3 Credit Hours
Prerequisite: 1013, 2033, 3303. Introduction to concepts of research. Survey and use of secondary and primary data sources as basis for formulating basic advertising plans, including advertising and communications goals and objectives. (Sp)
- JMC 3343 Advertising Design & Visual Storytelling** 3 Credit Hours
Prerequisite: JMC 1013, JMC 2033, JMC 3303 or permission; majors only. Designed to give the advertising student an overall understanding of the development of the visual elements of advertising messages, strategies and executions. Emphasis on the technical aspects of creating advertising layouts using Adobe InDesign, PhotoShop, & Illustrator, & other selected programs along with effective communication using layout, typography & imagery. (F, Sp)

- JMC 3353 Advertising Storytelling 3 Credit Hours**
Prerequisite: JMC 1013, JMC 2033, JMC 3303; majors only; or permission. Overall understanding of the development of message strategy and written executions. Emphasis on creativity, concept development, idea generation & principles of effective communication using words, pictures in a variety of print, social, digital and broadcast media. (Sp)
- JMC 3363 Advertising Media 3 Credit Hours**
Prerequisite: 1013, 2033, 3303. Characteristics of the major advertising media. Problems of rates, coverage and costs of using various media mixes. Emphasis on the planning of the media schedule and its relationship to the creative strategy. (F)
- JMC 3383 Digital Design I 3 Credit Hours**
Prerequisite: JMC 3433, and JMC 3423 or JMC 3353, or permission from instructor. This will be a foundational course for the primary Adobe design programs: InDesign, Illustrator and Photoshop with specific focus on Illustrator and the creation and manipulation of vector graphics. Through learning and application, you will also be exposed to basic principles of good design. (F, Sp)
- JMC 3393 Advanced Copywriting 3 Credit Hours**
Prerequisite: JMC 1013, 2033, 3303, 3333, 3353. Extended practice in application of creative copy principles for major advertising media including newspapers, magazines, radio and television. (Irreg.)
- JMC 3413 Public Relations Principles, Origins & Practice 3 Credit Hours**
Prerequisite: JMC 1013 and JMC 2033; Majors only. Will examine the nature and role of the field of public relations, history and developments of the profession over the years, activities of public relations professionals, their responsibilities, functions and practices in a variety of organizations, and significant issues, trends and ethical concerns that shape and will continue to influence the practice of public relations in the future. (F, Sp)
- JMC 3423 Public Relations Writing 3 Credit Hours**
Prerequisite: 1013, 2033, 3413. Fundamentals and practice in preparation of public relations copy for various media and channels, including news and feature stories, photo captions, public service broadcasts and telecasts, viewbooks, annual reports, plans-programs memos, speeches, letters and direct mail materials. Techniques in dealing with management and various publics, including the news media. Laboratory (Sp)
- JMC 3433 Public Relations Design 3 Credit Hours**
Prerequisite: JMC 1013, 2033, 3413, and 3423; Majors only. This course strives to train students to recognize and apply good publication design techniques in a public relations setting. In addition, we will learn the importance of structuring visual communications. The major goal of this course, however, is to give students the ability to translate a concept of visual communication into an actual publication. (F)
- JMC 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- JMC 3443 Event Planning 3 Credit Hours**
Prerequisite: JMC 1013, JMC 2033, JMC 3413 or permission from instructor. This course explains how the event planning business works and what event planners do - from small parties to big corporate events. Elements covered include design, project management, site selection and development, safety and security, food and beverage service, and entertainment. (F)
- JMC 3453 Public Relations & Society 3 Credit Hours**
Prerequisite: JMC 1013, 2033, and 3413; Majors only. This course is designed to introduce students to ethical principles relevant to public relations and to discuss core concepts surrounding ethical and professional public relations practice in organizations. Using case study, case scenarios, and class discussion, the course will cover and discuss ethics among a variety of topics such as corporate social responsibility, social media influencer, international/cross-cultural ethics. (F, Sp)
- JMC 3463 Cross Cultural Issues in Media & Society 3 Credit Hours**
Prerequisite: JMC 1013 and JMC 2033 or permission of instructor; Majors only. Cross-Cultural Issues in Media and Society highlights key areas of diverse ethnic, gender, ability and ideological groups inside and outside the United States in order to help PR/communications professionals begin to consider how culture may affect future projects. The critical role of diverse voices in a democracy will be discussed. (F, Sp)
- JMC 3473 Art Direction & Design 3 Credit Hours**
Prerequisite: JMC 1013, JMC 2033, and JMC 3303 or permission of instructor. This course includes advanced development of art direction and design skills, and the execution of new work created in Adobe Photoshop, Illustrator, InDesign, and XD. Demonstrating mastery of design, craft, organization and presentation is the goal of this advanced course. (F, Sp)
- JMC 3483 Preparing for Life After Gaylord 3 Credit Hours**
Prerequisite: JMC 1013, 2033 & 3303 or permission from instructor. Successfully navigating the communications field can be tricky, as there are no textbooks or step-by-step guides explaining how to land the right job, negotiate salaries, manage a team, and many other aspects of the working world. Understanding of how to combine your individual academic and emotional intelligence to artfully navigate the practitioner world, to achieve your potential and goals. (F, Sp)
- JMC 3493 National Student Advertising Competition 3 Credit Hours**
Prerequisite: Junior Standing or special permission from instructor. The National Student Advertising Competition is the premier college advertising competition that provides more than 2,000 college students with the real-world experience of creating a strategic advertising/marketing/media campaign for a corporate client. (Sp)
- JMC 3504 Introduction to Professional Writing 4 Credit Hours**
Prerequisite: JMC 1013, JMC 2033, JMC 3011 or concurrent enrollment in JMC 3011, and instructor permission. Basic theory, orientation and fundamental techniques of fiction writing. (F, Sp)
- JMC 3613 Single Camera Production 3 Credit Hours**
Prerequisite: 1013, 2033 or concurrent enrollment; Majors only. Understand and demonstrate the intermediate skills of preproduction, sound recording/mixing, single-camera digital video production, and non-linear editing in the storytelling process. (F, Sp)
- JMC 3623 Electronic Media Writing 3 Credit Hours**
Prerequisite: JMC 1013, 2033; Majors only. Understand and demonstrate the basic skills of appropriate script formats, treatments, and writing for a wide variety of media genres. (F, Sp)

JMC 3633 Audio Production	3 Credit Hours	JMC 3800 Internship	1-3 Credit Hours
Prerequisite: 1013, 2033. Studies in audio technology, recording techniques and technology, audio for television, film, radio and other distribution technologies. The study of processes including foley, synchronization, live mixing, talent microphone techniques, and audio engineering. Production of multiple audio elements for a variety of applications including news, advertising, promotion and others. (F, Sp)		1 to 3 hours. Prerequisite: 3.00 grade point average required with a total of 75 semester hours completed of which 15 semester hours are required in JMC; Permission of instructor; May be repeated; maximum 6 credit hours. Participation in supervised intern experience; grade of S or U based on work performance, regular reports, on-site supervisor evaluation. (F, Sp, Su)	
JMC 3643 Media Relations	3 Credit Hours	JMC 3960 Honors Reading	1-3 Credit Hours
Prerequisite: JMC 1013, JMC 2033, JMC 3413, and JMC 3423. Media Relations is most important skills a PR Practitioner can posse. The course is designed to take an in-depth look at the tactics & techniques PR students and other who might engage the media can use to achieve excellent relations with the media. (F, Sp)		1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated with change of content; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program; covers materials not usually presented in regular courses. (F, Sp, Su)	
JMC 3653 Radio News	3 Credit Hours	JMC 3970 Honors Seminar	1-3 Credit Hours
Prerequisite: JMC 2033 and JMC 3003 or JMC 3623; Majors only. Study and practice of writing, editing and preparation of radio newscasts. (F)		1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated with change of content; maximum credit six hours. Projects vary; deal with concepts no usually presented in regular coursework. (F, Sp, Su)	
JMC 3663 Visual Reporting	3 Credit Hours	JMC 3980 Honors Research	1-3 Credit Hours
Prerequisite: Majors only, departmental permission, JMC 1013, JMC 1031, JMC 1041, JMC 1051, JMC 1061, JMC 1071, JMC 1081, JMC 2033, and JMC 3013. Basic visual news gathering skills, including production of strong visual story ideas, shooting and editing with digital equipment and application of news ethics. (F, Sp)		1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated with change of content; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)	
JMC 3683 Digital Reporting	3 Credit Hours	JMC 3990 Independent Study	1-3 Credit Hours
Prerequisite: Majors only, departmental, JMC 1013, JMC 1031, JMC 1041, JMC 1051, JMC 1061, JMC 1071, JMC 1081, and JMC 2033. An overview of the Creative Media Production for new majors. Students will be introduced to the various opportunities and sequences in the Creative Media Production major. (F, Sp)		1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content; maximum credit six hours. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)	
JMC 3703 Backpack Reporting	3 Credit Hours	JMC 4013 Essential Reporting	3 Credit Hours
Prerequisite: Majors only; JMC 1013, JMC 2033, JMC 3003 or permission of instructor. Learn to produce video stories with compelling sound, images and to do so by themselves and with efficiency, thus "backpack journalism". Content produced may be for a legacy media organization, for commercial or non-profit groups or for documentary work. (Irreg.)		Prerequisite: Majors only, departmental permission, JMC 1013, JMC 1031, JMC 1041, JMC 1051, JMC 1061, JMC 1071, JMC 1081, and JMC 2033. Students will learn to navigate county, city and school government from the basics of court procedure to following a paper trail through the court system and government. (F, Sp)	
JMC 3713 History of Motion Media	3 Credit Hours	JMC 4033 Advancing Cultural Proficiency in Media Leadership	3 Credit Hours
Prerequisite: JMC 2683 and JMC 3623, majors only; or permission of instructor. History and development of film, television and emerging media as a communication medium. Varied critical perspectives are offered; exemplary media presented, preceded by lectures on history and technique, followed by discussion periods. (Irreg.)		Prerequisite: Majors only, departmental permission, JMC 1013, JMC 1031, JMC 1041, JMC 1051, JMC 1061, JMC 1071, JMC 1081, JMC 2033, and JMC 3013. The study of diversity and leadership from both a theoretical and a practical perspective. (F, Sp)	
JMC 3723 Introduction to Documentary	3 Credit Hours	JMC 4043 TV News Producing	3 Credit Hours
Prerequisite: JMC 1013 and JMC 3623; majors only; or permission of instructor. History and development of the documentary medium. Varied perspectives are offered; exemplary films and videos are presented, preceded by lectures on history and technique. Includes discussion periods and practice. (Irreg.)		(Slashlisted with JMC 5043) Prerequisite: JMC 3063, 3663, and JMC 3003; or with permission of instructor. This course will focus on television news producing in its various forms, such as line producing, field producing, content producing, and preditor (producer/editor). Students will experience hands-on how to produce a full-length newscast, field produce an individual story, and learn the responsibilities of content producing and preditor positions in a digital newsroom. No student may earn credit for both 4043 and 5043. (F, Sp)	
JMC 3753 Electronic Media Criticism	3 Credit Hours	JMC 4143 Reporting in Washington	3 Credit Hours
Prerequisite: 1013, 2033. Offers basic skills to interpret the role that internet, video, film and audio play as a cultural force in society. Students will learn to become critical analysts of media texts. (Sp)		Prerequisite: JMC 1013, JMC 2033, JMC 3003, and JMC 3013; or permission of instructor. Students will be generating stories about activities of the Oklahoma's congressional delegation and federal issues impacting Oklahomans for Oklahoma media. Course will take place in Washington DC. The course will explore how reporters gain access to events that only a handful of reporters are allowed to attend as well as generating stories on deadline. (F, Sp)	
JMC 3763 Narrative Screenwriting	3 Credit Hours		
Prerequisite: JMC 2033, JMC 2643 & JMC 3623 or concurrent enrollment; Majors only. Understand and demonstrate the intermediate skill of narrative script writing. (F, Sp)			
JMC 3773 Television News	3 Credit Hours		
Prerequisite: 3003, 3013, 3063 and 3663. Television news principles and practice in use of ENG (electronic news gathering), editing of video tape stories and preparation of television news programs. Laboratory (F, Sp)			

JMC 4153 Public Relations for Causes and Issues 3 Credit Hours
(Slashlisted with JMC 5153) Prerequisite: JMC 1013, JMC 2033, JMC 3413, and JMC 3423. Course takes a hands-on approach to causes and issues in public relations. Examines research and theory-based approaches for communication strategies that target key stakeholders. Provides students with essential information on how to develop, implement, and evaluate a comprehensive communications campaign for different types of organizations such as nonprofits, advocacy groups, and philanthropic organizations. No student may earn credit for both 4153 and 5153. (F, Sp)

JMC 4163 Public Relations for Consumer Culture 3 Credit Hours
(Slashlisted with JMC 5163) Prerequisite: JMC 1013, JMC 2033, JMC 341, and JMC 3423. Comprehensive introduction to the major theories and empirical studies of consumer culture with emphasis upon the motivations and cultural aspects of consumption in America; substantive focus upon diverse topics such as fashion, celebrity influences, food, tourism, physical attractiveness, children, and race/ethnicity. No student may earn credit for both 4163 and 5163. (F, Sp)

JMC 4173 Public Relations for Public vs. Private Organizations 3 Credit Hours
(Slashlisted with JMC 5173) Prerequisite: JMC 1013, JMC 2033, and JMC 3413. Students will examine how identity influences the ways in which organizations represent themselves to the various constituencies, and how identity is influenced by interactions with the groups. The course also examines the distinct challenges, considerations, and communication strategies in shaping and safeguarding the reputation of entities operating in the public and private sectors. No student may earn credit for both 4173 and 5173. (F, Sp)

JMC 4183 Advanced Cross-Platform Reporting 3 Credit Hours
Prerequisite: Majors only, departmental permission, JMC 1013, JMC 1031, JMC 1041, JMC 1051, JMC 1061, JMC 1071, JMC 1081, JMC 2033, and JMC 3013. Develop tools to become proficient at creating professional news stories, develop advanced content for media outlets in Oklahoma, and increase understanding of importance of diversity in our reporting and inside our own newsroom. (F, Sp)

JMC 4193 Principles of Media Entrepreneurship 3 Credit Hours
(Slashlisted with JMC 5193) Prerequisite: JMC 1013 and JMC 2033. An in-depth examination of media entrepreneurship and distribution in the digital age. Students will learn how to create their own company, design a business plan, create budgets, and find financial backers and sponsors. Current approaches to marketing and distributing media products of various forms to the media industry will also be explored. No student may receive credit for both 4193 and 5193. (F, Sp, Su)

JMC 4213 Innovators in Journalism 3 Credit Hours
Prerequisite: JMC 1013, JMC 2033, JMC 3003, and JMC 3013; or permission of instructor. The nation's capital has long been the nexus for journalists aspiring to be leaders in the profession. As a result, many of the innovative changes being utilized to cover the federal government have been developed here. This course will explore some of those developments and result in meetings with many of the journalists behind those advances. (F, Sp)

JMC 4223 Digital Advertising 3 Credit Hours
(Slashlisted with JMC 5223) Prerequisite: JMC 1013, JMC 2033 and JMC 3303. Recognizing the growing importance of newly emerging forms of advertising/promotions using non-traditional or alternative media, this course is designed to explore a new view of advertising in the current marketing/media environments. Along with learning the traditional advertising theories, students will understand how to effectively measure the use of interactive advertising media. No student may earn credit for both 4223 and 5223. (Irreg.)

JMC 4233 Advertising Portfolio 3 Credit Hours
(Slashlisted with JMC 5233) Prerequisite: JMC 1013, JMC 2033, JMC 3303, and JMC 3343. This course includes revision of existing pieces to professional standards, and the execution of new work to complete the professional portfolio. Demonstrating mastery of design, craft, organization and presentation is the goal of this Portfolio course. Topics covered related to the business of art direction, graphic design, copy writing, business correspondence, interviewing & self promotional skills, & job promotional skills. No student may earn credit for both 4233 and 5233. (F, Sp)

JMC 4243 Strategic Fashion Communication 3 Credit Hours
(Slashlisted with JMC 5243) Prerequisite: 1013, 2033, 3303, 3413. Offers both a critical and practical exploration of the fashion communication business covering the complete cycle of the fashion industry from the concept and production stages to marketing campaigns, product sales, and events planning. Focusing on the lifecycle of the fashion brand. No student may earn credit for both 4243 and 5243. (Irreg.)

JMC 4253 British Media Studies 3 Credit Hours
Prerequisite: JMC 1013, JMC 2033, and permission of instructor. Critical analysis of the products of the media and the impact that the British media have upon their and our culture. Students will gain the ability to understand similarities and differences in British and American media cultures. (Irreg.)

JMC 4263 British News Media Systems 3 Credit Hours
Prerequisite: junior standing and permission of instructor. Examines the structure, role, history and future of the news media in the U.K. and Europe. Covers print, broadcast, and web-based news media, with particular emphasis on broadcast/journalism and the current challenges it faces. There will be site visits to advertising and public relations agencies. Students will learn about the role of public service media in the U.K. (Irreg.)

JMC 4273 Communicating Culture Tourism Media: Concepts and Theory 3 Credit Hours
(Slashlisted with JMC 5273) Prerequisite: JMC 1013, JMC 2033 & JMC 3413 & permission from instructor; corequisite JMC 4283. Through an immersion experience in an international location, students will analyze the cultural traditions and history of modern travel media. Studies include the major contexts and motives of tourism, as well as the foundations of contemporary forms of travel media. No student may earn credit for both 4273 and 5273. (Irreg.)

JMC 4283 Communicating Culture Tourism Media: Travel Genres 3 Credit Hours

(Slashlisted with JMC 5283) Prerequisite: JMC 1013, JMC 2033, JMC 3413 & permission of instructor; corequisite JMC 4273. Through an immersion experience in an international location, this course will teach students the elements of narrative storytelling for media, and give them opportunities to hone and develop their individual writing styles through applied assignments. Students will gain the strategic and applied skills for feature-style writing that will allow them to produce media that meet professional standards. No student may earn credit for both 4283 and 5283. (Irreg.)

JMC 4293 Advanced Copywriting 3 Credit Hours

Prerequisite: JMC 1013, JMC 2033, JMC 3303, and JMC 3353; or permission of instructor. Primary emphasis will be on the creation of multiple strategic, compelling, and effective advertising campaigns. Students will leverage the tools of concept development (the Big Idea), idea generation and the execution of digital, social, experiential, and traditional (print and broadcast) advertising as well as peer workshop criticism to refine work to include in a professional portfolio. (F, Sp)

JMC 4303 International Advertising 3 Credit Hours

(Slashlisted with JMC 5303; Crosslisted with MKT 4303) Prerequisite: JMC 3303 or special permission from instructor. May be repeated with change of subject matter; maximum credit six hours. Designed to provide basic understanding of advertising and culture that applies to advertising in non-American locations. No student may earn credit for both 4303 and 5303. (Irreg.)

JMC 4323 Advertising Account Planning 3 Credit Hours

(Slashlisted with 5323) Prerequisite: 3303. Discussion and practice of the advertising agency function of representing the target audience. Emphasis on learning to think like a consumer. Incorporates creativity, market research, consumer behavior and critical thinking to help in understanding target audiences. No student may earn credit for both 4323 and 5323. (F)

JMC G4333 Contemporary Problems in Advertising 3 Credit Hours

(Slashlisted with 5333) Prerequisite: 1013, 2033, 3303, 3333. Survey of contemporary problems in advertising, including current social and economic criticisms, legal and self-regulation problems, and agency and media-related problems. No student may earn credit for both 4333 and 5333. (F)

JMC 4343 Advertising Campaigns 3 Credit Hours

Prerequisite: 1013, 2033, 3303, 3333, 3353, 3363 and senior standing. This is the senior capstone course for the advertising sequence. Working as members of competitive advertising agency teams, students research, plan, develop marketing, creative and media strategy and make formal presentations to a major client for a complete advertising campaign. Laboratory (F, Sp) [V].

JMC 4353 Cinematography 3 Credit Hours

(Slashlisted with JMC 5353) Prerequisite: JMC 1013, JMC 2033 and JMC 2643; Majors only. Understand and demonstrate the advanced skills of scriptwriting, preproduction, sound recording/mixing, single-camera digital video production and non-linear editing in the narrative storytelling process. No student may earn credit for both 4353 and 5353. (Sp)

JMC 4363 Data Journalism 3 Credit Hours

(Slashlisted with JMC 5363) Prerequisite: JMC 1013 and JMC 2033 or permission from instructor. Introduction to the basic concepts and skills necessary to use numerical, statistical, geographical and survey data as a way of telling compelling fact-based stories. Stories may be used as news, strategic or narrative products. Data can be used in all of Gaylord fields from journalism to professional writing. Class builds skills in finding, cleaning, analyzing, interpreting and then using data. No student may earn credit for both 4363 and 5363. (F, Sp)

JMC 4373 Media Psychology 3 Credit Hours

(Slashlisted with JMC 5373) Prerequisite: JMC 1013 and JMC 2033 or Instructor permission. Focus on cognitive and emotional processing of media. Topics cover: how do media impact our thoughts, feelings and behaviors, how and when we change our attitudes, what the media teach us about the world, how we pay attention to television, print media, and the Internet, how we respond emotionally, and how we decide what is real. Psychological theories reviewed. No student may earn credit for both 4373 and 5373. (F, Sp)

JMC 4383 Digital Design II 3 Credit Hours

Prerequisite: JMC 3383 or permission from instructor. Utilizing the adobe creative suite, students will advance design capabilities. Students will be provided opportunities to explore new and innovative concepts relevant to graphic design in order to further develop their creativity and personal design aesthetic. Class collaboration along with instructor feedback will learn to complete work in a timely & professional manner. (F, Sp)

JMC 4393 Advanced PR Writing 3 Credit Hours

Prerequisite: JMC 1013, JMC 2033, JMC 3413, and JMC 3423; permission of instructor. Hiring managers need PR practitioners who can write strategically and persuasively, who can take complex ideas and communicate them effectively to various targeted audiences. Advanced PR Writing is designed to take your communications skills to a higher level, focusing on writing for audio/visual and social media platforms, writing for business and writing for executives. Reinforce AP style writing. (F, Sp)

JMC 4403 Public Relations Campaigns 3 Credit Hours

Prerequisite: JMC 1013, 2033, 3413, 3423, and 4453; Majors only. This course covers the application of theory, research data, and problem-solving techniques in the development of a comprehensive public relations campaign. (F, Sp)

JMC 4413 Crisis Communication 3 Credit Hours

Prerequisite: 3413 or instructor permission. Examine strategic communication practices throughout the three stages of a crisis event. Special emphasis is placed on crisis planning, media relationships, image restoration, ethical responses, and organizational learning. No student may earn credit for both 4413 and 5413. (F, Sp)

JMC 4423 Contemporary Problems in Public Relations Capstone 3 Credit Hours

Prerequisite: JMC 1013, 2033, 3413, 3423, 3443, 4453 and 4403; Majors only. Through the analysis of real-life cases, students will discuss, critique, and apply public relations models and theories, standards, ethics, and values. Students will also apply and master research skills, sharpen critical thinking skills, and understand concepts from multiple points of view. (F, Sp)

- JMC 4433 Sports Public Relations 3 Credit Hours**
(Slashlisted with 5433) Prerequisite: 1013, 2033, 3413. A study of public relations as it is practiced in the sports industry featuring guest and video presenters representing various sports publicity, promotion and public relations positions. Includes representatives of newspaper, television, and radio sports departments. No student may earn credit for both 4433 and 5433. (Irreg.)
- JMC 4443 Public Relations Management 3 Credit Hours**
(Slashlisted with JMC 5443) Prerequisite: Majors only; JMC 2033, JMC 3413, JMC 3423 or permission of instructor. This course will introduce you to the field of public relations and give you an overview of the historical development and current status of public relations. You will understand the study of public relations as the strategic behavioral management function that applies communication and organizational theory to the research, planning, implementation, and evaluation of the communication programs of organizations. No student may earn credit for both 4443 and 5443. (Irreg.)
- JMC 4453 Public Relations Research 3 Credit Hours**
(Slashlisted with 5453) Prerequisite: 3413. To build skills in the use of various public relations research methodologies available for exploratory, evaluation, and management assessment of programs. No student may earn credit for both 4453 and 5453. (Sp)
- JMC 4473 Social Media Marketing 3 Credit Hours**
(Slashlisted with JMC 5473) Prerequisite: junior standing; majors only; JMC 1013, JMC 2033 and JMC 3413. Social Media Marketing explores the most effective marketing strategies and tactics used by brands to engage with consumers on each social media platform. You'll study best practices in social media marketing and apply them to the eight-step social media-planning model to construct an extensive real world social media marketing plan for a client. No student may receive credit for both 4473 and 5473. (F, Sp, Su)
- JMC 4483 Global and International Public Relations 3 Credit Hours**
(Slashlisted with JMC 5483). Prerequisite: JMC 1013, JMC 2033 and JMC 3413. Investigate current issues in global public relations practice. Students will examine how political, socio-economic, cultural, and historical particularities, together with pop culture, influence modern public relations practice. Students will also learn what role the social media plays in shaping global public relations strategies, as well as what role globalization plays in shaping strategic communication messages on international markets. No student may receive credit for both 4483 and 5483. (F, Sp, Su)
- JMC 4493 Social Media Strategies 3 Credit Hours**
(Slashlisted with JMC 5493) Prerequisite: Permission of Instructor; JMC 1013, JMC 2033, and JMC 3413. Student will understand the mass communication industry by discussion and using assignments to focus on social media post writing, publishing, management, and measurement. Students will complete a social media audit, social media calendar, social media monitoring and evaluation plan, target public personas, as well as several social media platform certifications. No student may earn credit for both 4493 and 5493. (F, Sp)
- JMC 4503 Tutorial in Writing 3 Credit Hours**
Prerequisite: 1013, 2033, 3504, 3514 and permission. May be repeated once for credit; maximum credit six hours. May accompany 3514 with permission. Individual conferences devoted entirely to preparation, criticism, editing and preparation for marketing of the student's original manuscript, both fiction and nonfiction. (F, Sp)
- JMC 4514 Writing the Novel 4 Credit Hours**
Prerequisite: 1013, 2033, 3504 and 3514; or permission. May be repeated; maximum credit eight hours. Analysis of the practical creative problems involved in writing novels. Instruction in specific approaches and techniques useful in plotting, characterization, setting, scene, etc. Supervised writing of a novel by each student. (F, Sp)
- JMC 4523 Theories of Public Relations 3 Credit Hours**
(Slashlisted with JMC 5523) Prerequisite: JMC 1013, JMC 2033, JMC 3413, JMC 3423, JMC 3453. Students will have a unique opportunity to meet and network with some of the leading public relations academic and practitioner experts and to learn more about the public relations and strategic communications field. No student may earn credit for both 4523 and 5523. (F, Sp)
- JMC 4524 Writing the Short Story 4 Credit Hours**
(Slashlisted with JMC 5524) Prerequisite: majors only; JMC 1013, JMC 2033, JMC 3504 and permission of instructor or department. Techniques and theory of fiction writing and plots, with emphasis on current American short stories. No student may earn credit for both 4524 and 5524. (F, Sp)
- JMC 4533 Mystery Writing 3 Credit Hours**
(Slashlisted with JMC 5533) Prerequisite: JMC 3504. A survey and discussion of the various popular forms that are used in the creation of commercial crime stories in fiction and film. This look at the most popular forms of crime writing and their rationales has the intention of allowing students to develop their own crime writing projects to better fit the prevailing markets. No student may earn credit for both 4533 and 5533. (F, Sp)
- JMC 4543 Sci-Fi & Fantasy Writing 3 Credit Hours**
(Slashlisted with JMC 5543) Prerequisite: JMC 3504. Although most people lump science fiction and fantasy stories together, these two genres are worlds apart. This course will help you expand your understanding of the two areas by focusing on world building, tech, and magic as well as potential societal differences. Sci-Fi & Fantasy Writing allows participants to dig more deeply into genres they wish to explore. No student may earn credit for both 4543 and 5543. (F, Sp)
- JMC 4553 Advanced Novel Writing 3 Credit Hours**
Prerequisite: JMC 1013, JMC 2033, JMC 3504, and JMC 4514 or permission of instructor; May be repeated; maximum credit six hours. Designed to follow WRITING THE NOVEL (JMC 4514), this course will guide students through completion of the second half of a novel as well as a supervised revision, breaking down the process into a series of milestones and weekly deadlines, with personalized feedback, guidance, encouragement, and one-on-one conferences with the instructor. (F, Sp)
- JMC G4563 Category Fiction 3 Credit Hours**
(Slashlisted with 5563) Prerequisite: 3504 and 3514, or permission of instructor. May be repeated once with change of content; maximum credit six hours. In-depth study of current popular fiction genres and techniques used by category authors. Discussion of books in terms of fiction devices and application of such techniques to student's own work. No student may earn credit for both 4563 and 5563. (F)
- JMC 4573 Theories of Professional Writing 3 Credit Hours**
(Slashlisted with JMC 5573) Prerequisite: majors only; JMC 3504. Study of significant theories of the writing process, the motivation to write, and intended effects of writing. Students will address aesthetics, philosophy and values relating to careers in writing. No student may earn credit for both 4573 and 5573. (F, Sp)

- JMC 4593 Young Adult Fiction Writing 3 Credit Hours**
(Slashlisted with JMC 5593) Prerequisite: JMC 3504. Young adult fiction is a thriving sector of the book industry. This class deconstructs the state of the young adult market and uses current award winners and bestsellers as models of aspects of story such as characterization, world-building, plotting and voice. Students learn how to position their work in a booming market and discover how writing young adult fiction is similar to and different from writing for adults. No student may earn credit for both 4593 and 5593. (F, Sp)
- JMC 4603 Business of Professional Writing 3 Credit Hours**
Prerequisite: JMC 4573 & Senior Standing. The capstone course should reflect the culmination of the student's training in writing technique and craftsmanship and demonstrate the student's ability to apply such knowledge in his or her own writing. Furthermore, the student should show awareness of the marketplace and what constitutes work that is commercial, professional, and saleable. (F, Sp) [V].
- JMC 4623 Multi-Camera Production 3 Credit Hours**
(Slashlisted with JMC 5623) Prerequisite: JMC 2643; Majors only. Understand and demonstrate the skills of scriptwriting, preproduction, sound recording/mixing, multi-camera video production and non-linear editing in the storytelling process. No student may earn credit for both 4623 and 5623. (F)
- JMC 4633 Advanced Single Camera Production 3 Credit Hours**
(Slashlisted with JMC 5633) Prerequisite: JMC 2033, JMC 3613; Majors only. Understand and demonstrate the advanced skills of scriptwriting, sound recording/mixing, single-camera digital video production and non-linear editing in the storytelling process. No student may earn credit for both 4633 and 5633. (F, Sp)
- JMC 4643 Advanced Audio Production 3 Credit Hours**
(Slashlisted with JMC 5643) Prerequisite: 2623, 3633. Advanced study of the technology, capabilities and utilization of audio media. Units on advanced audio techniques for radio, television and film. Intensive practice and skill development in audio production techniques. No student may earn credit for both 4643 and 5643. (Irreg.)
- JMC 4651 Portfolio -CMP 1 Credit Hour**
Prerequisite: JMC 4653 or concurrent enrollment; senior standing; Majors only. Career development course where students develop a demo reel, website, resume and other materials to assess students work and begin their professional careers. (F, Sp)
- JMC 4653 Issues And Ethics In Electronic Media 3 Credit Hours**
Prerequisite: 90 hours including twelve hours of Journalism and Mass Communications courses. Capstone course for Broadcasting and Electronic Media. Identification, examination, and analysis of current and ethical issues affecting media and media industries. Course content varies. (Sp) [V].
- JMC 4673 Advanced Broadcast News 3 Credit Hours**
(Slashlisted with 5673) Prerequisite: 3013 and 3773. Study of current requirements for and practice of public affairs programming, including news. Evolution of broadcast documentary form; writing, filming, editing techniques; budgeting and scheduling; actual preparation of public affairs programs of various types with emphasis on the extended-length news documentary. No student may earn credit for both 4673 and 5673. Laboratory (Sp)
- JMC 4683 Multimedia Content Management 3 Credit Hours**
(Slashlisted with 5683) Prerequisite: 3013 and 3683. Examines working with media content in a variety of formats such as text, audio, video, photography and graphics, for online media. Instruction and practice in editing designing, presenting, and managing news and information content for online media. No student may earn credit for both 4683 and 5683. (F, Sp) [V].
- JMC 4693 Podcasting 3 Credit Hours**
(Slashlisted with JMC 5693) Prerequisite: Junior standing; JMC 1013 and JMC 2033 or permission of instructor. Podcasting is a newer media form built on older media forms, made possible by digital technologies. It is transforming our media experience of who gets to tell stories, what stories are being told, and how we interact at large and small scales. Understanding media in the current era requires understanding podcasting. No student may earn credit for both 4693 and 5693. (F, Sp)
- JMC 4723 Horror Writing 3 Credit Hours**
(Slashlisted with JMC 5723) Prerequisite: Junior standing; JMC 1013 and JMC 2033 or permission of instructor. Students are expected to gain proficiency with writing and understanding horror in prose, script, and voice acting/acting through analysis of published articles, reviews, and blogs, in-class technique drills, individualized coaching from the professor, and writing original pieces of their own. Learn how to submit their work in the horror field and get published pieces to put into their resumes. No student may earn credit for both 4723 and 5723. (F, Sp)
- JMC 4733 Advanced Narrative Screenwriting 3 Credit Hours**
Prerequisite: JMC 2033, JMC 3763; Majors only. Understand and demonstrate the advanced skills of narrative scriptwriting. (Sp)
- JMC 4753 Documentary Research and Writing 3 Credit Hours**
(Slashlisted with JMC 5753) Prerequisite: JMC 3623, and JMC 3723 or concurrent enrollment; majors only; or permission of instructor. Covers the preparation of a documentary from both practical and critical/theoretical directions. Focuses on research, writing and submission of documentary proposals, and practical writing exercises. No student may earn credit for both 4753 and 5753. (F)
- JMC 4763 Documentary Production 3 Credit Hours**
(Slashlisted with JMC 5763) Prerequisite: JMC 3613, JMC 3723; Majors only. Understand and demonstrate the advanced skills of research, preproduction, scriptwriting, sound recording/mixing, single-camera digital video production and non-linear editing in the documentary storytelling. No student may earn credit for both 4763 and 5763. (Sp)
- JMC 4773 After Effects 3 Credit Hours**
(Slashlisted with JMC 5773) Prerequisite: Majors only; JMC 3613. Practice and understanding of graphic design, motion graphics, compositing, color correction, VFX and puppet animations using After Effects. No student may earn credit for both 4773 and 5773. (F)
- JMC 4793 Broadcast Advertising Production 3 Credit Hours**
(Slashlisted with 5793) Prerequisite: 2623 and 3613, or permission of instructor. Addresses all the major stages of creating broadcast advertising messages from research and development of scripts through production, post production and final presentation. Emphasis will be placed on working in teams to create commercial messages. No student may earn credit for both 4793 and 5793. (Irreg.)

- JMC 4803 History of Media 3 Credit Hours**
Prerequisite: Junior standing and twelve hours of Journalism credit; Majors only. Historical contributions and influences related to broad, relevant elements of media. Historical relationship of media and culture, development of freedom of expression. Relationship between interpretive nature of historiography and diversity of groups in a global society. Role of individuals, institutions, professional influences, and events historically shaping communications through media. (F, Sp)
- JMC 4813 Media Law 3 Credit Hours**
Prerequisite: ninety hours, including thirteen hours of journalism and mass communication. Capstone course for the Journalism sequence. Examines the principles by which the media exercise their public functions and fulfill the mission of the First Amendment. Areas studied include: the right to know, truth and fairness, responsibility, libel, privilege, fair comment, privacy, contempt, copyright, regulation of advertising and the rules, regulations and industry codes which affect the broadcast media. (F, Sp) [V].
- JMC 4833 Journalism Ethics 3 Credit Hours**
(Slashlisted with 5833) Prerequisite: junior standing and twelve hours of journalism and mass communication courses. Press criticism; organizational performance; reportorial performance; print/broadcast distinctions. No student may earn credit for both 4833 and 5833. (F, Sp)
- JMC 4843 Sports Promotion 3 Credit Hours**
(Slashlisted with JMC 5843) Prerequisite: JMC 1013, JMC 2033, and JMC 3413 or permission of instructor. This course overviews the various types of sports industry positions that utilize strategic communication skills under the overarching umbrella of "sports promotion." The goal of this course is to help students fully understand the myriad of different ways public relations, advertising, sales and marketing techniques can be used in sports promotion. No student may earn credit for both 4843 and 5843. (F, Sp)
- JMC 4853 Race, Gender, Class and the Media 3 Credit Hours**
(Slashlisted with JMC 5853) Prerequisite: Majors only; junior standing and twelve Journalism and Mass Communication credit hours. Survey of past and present relationships between women and racial and ethnic minorities in the U.S. and the media. Media portrayal, employment, ownership and access will be studied. No student may earn credit for both 4853 and 5853. (F, Sp)
- JMC 4863 Journalism, Ethics and Democracy 3 Credit Hours**
Prerequisite: 90 hours, including 24 hours in Journalism. Journalism Capstone course that immerses majors in a conceptual examination of the crucial role of news professionals in a participatory democracy. Emphasizes freedom of speech and press, ethical principles, the watchdog function of journalism, and social and professional responsibilities of journalists in an age of rapidly changing media forms. (F, Sp) [V].
- JMC 4903 Production for Clients 3 Credit Hours**
(Slashlisted with JMC 5903) Prerequisite: JMC 4633 or permission of instructor. Students work on actual client projects. The class simulates a production house operation. Working in teams, students are responsible for budgeting, working with clients, scripting, shooting, editing, and follow-through on the project. No student may earn credit for both 4903 and 5903. (F, Sp)
- JMC 4913 Narrative Production 3 Credit Hours**
(Slashlisted with JMC 5913) Prerequisite: JMC 3613, JMC 3763; Majors only. Understand and demonstrate the advanced skills of scriptwriting, preproduction, sound recording/mixing, single-camera digital video production and non-linear editing in the narrative storytelling process. No student may earn credit for both JMC 4913 and 5913. No student may earn credit for both 4913 and 5913. (F, Sp)
- JMC 4933 Gaylord 360: Storytelling Without Walls 3 Credit Hours**
Prerequisite: Departmental permission; JMC 1013, JMC 2033, and JMC 3303. Gaylord 360: Storytelling Without Walls is a unique learning experience that gives advertising, creative media production, journalism, professional writing, and public relations majors the opportunity to work together to create and implement storytelling in a holistic, real-world 360-degree environment from beyond the OU campus community. Gaylord 360 will work in Arezzo, Italy with client to gain hands-on experience. (Su)
- JMC 4943 Food Writing and Social Media 3 Credit Hours**
Prerequisite: Departmental permission; JMC 1013, JMC 2033, and JMC 3303. Designed for Gaylord College students in Arezzo and combines the history and customs of food, olive oil, and wine in Arezzo and the surrounding region with food writing and blogging. The class will explore a small portion of the history of Italian food & wine. Students will become educated, informed, and discerning food writers and publishers. (Su)
- JMC 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- JMC 4970 Special Topics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Varied projects with experimental, innovative and creative approaches, to communicating through the mass media. (Irreg.)
- JMC 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department; 3.00 grade point average on all college work. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- JMC 5001 Professional Practices 1 Credit Hour**
Prerequisite: graduate standing and permission. May be repeated with change of content; maximum credit six hours. Discussion and practice in specialized skills related to news and information, strategic communication, or media arts. (F, Sp)
- JMC 5043 TV News Producing 3 Credit Hours**
(Slashlisted with JMC 4043) Prerequisite: Graduate standing and permission of instructor. This course will focus on television news producing in its various forms, such as line producing, field producing, content producing, and preditor (producer/editor). Students will experience hands-on how to produce a full-length newscast, field produce an individual story, and learn the responsibilities of content producing and preditor positions in a digital newsroom. No student may earn credit for both 4043 and 5043. (F, Sp)

JMC 5063 Readings in Mass Communication 3 Credit Hours

Prerequisite: graduate standing and permission. Exploration of key works defining the field of mediated communication. Students will examine an area of inquiry of interest to them in depth through readings, discussion, and writing. Includes an examination of online resources, bibliographies, histories, theoretical concepts and issues, and critical biographies of key figures. (Sp)

JMC 5073 Conceptual Issues in Graduate Study in Journalism and Mass Comm 3 Credit Hours

Prerequisite: graduate standing. Introduction to key study areas in journalism and mass communication. Historical foundations, theoretical development and research trends will be outlined. Students will meet graduate faculty members and discuss major ideas and issues in the field. (F)

JMC 5083 Mass Communication Theory 3 Credit Hours

Prerequisite: graduate standing or permission. Theoretical perspectives and issues in mass communication. Emphasis on processes and effects that affect mass communication practices and media. Exploration of contemporary research and its contribution to the growing body of knowledge about mass communication. (F)

JMC 5091 Thesis/Project Seminar 1 Credit Hour

Prerequisite: graduate standing. Choice and development of appropriate research topics and proposals for thesis and professional projects. Discussion of the rigor and expectations for this research. (Sp)

JMC 5093 Introduction to Research Methods in Mass Communication 3 Credit Hours

Prerequisite: graduate standing. Introduction to research methods used in the study and practice of mass communication. Addresses how to formulate research problems and choose appropriate methods to study them, including both quantitative and qualitative approaches. (F)

JMC 5113 Qualitative Research Methods 3 Credit Hours

Prerequisite: graduate standing. Surveys a range of conceptual and methodological approaches appropriate for qualitative research in mass communication. Topics include conceptualization of research problems, framing research questions, the nature and sources of evidence, modes of interpretation, and conceptual framework from which evidence is analyzed in qualitative studies. (Sp)

JMC 5133 Quantitative Research Methods 3 Credit Hours

Prerequisite: graduate standing. Quantitative research methods commonly used in the study of the process and effects of mass communication and the application of the scientific method to such inquiry. (Sp)

JMC 5153 Public Relations for Causes and Issues 3 Credit Hours

(Slashlisted with JMC 4153) Prerequisite: Graduate standing and departmental permission. Course takes a hands-on approach to causes and issues in public relations. Examines research and theory-based approaches for communication strategies that target key stakeholders. Provides students with essential information on how to develop, implement, and evaluate a comprehensive communications campaign for different types of organizations such as nonprofits, advocacy groups, and philanthropic organizations. No student may earn credit for both 4153 and 5153. (F, Sp)

JMC 5163 Public Relations for Consumer Culture 3 Credit Hours

(Slashlisted with JMC 4163) Prerequisite: Graduate standing and departmental permission. Comprehensive introduction to the major theories and empirical studies of consumer culture with emphasis upon the motivations and cultural aspects of consumption in America; substantive focus upon diverse topics such as fashion, celebrity influences, food, tourism, physical attractiveness, children, and race/ethnicity. No student may earn credit for both 4163 and 5163. (F, Sp)

JMC 5173 Public Relations for Public vs Private Organizations 3 Credit Hours

(Slashlisted with JMC 4173) Prerequisite: Graduate standing and departmental permission. Students will examine how identity influences the ways in which organizations represent themselves to the various constituencies, and how identity is influenced by interactions with the groups. The course also examines the distinct challenges, considerations, and communication strategies in shaping and safeguarding the reputation of entities operating in the public and private sectors. No student may earn credit for both 4173 and 5173. (F, Sp)

JMC 5183 Advanced Multimedia Journalism 3 Credit Hours

Prerequisite: graduate standing and permission of instructor. Advanced instruction in multimedia journalism, with a focus on producing news and information content using text, photography, audio and video for a web-based product. No student may earn credit for 4183 and 5183. (F, Sp)

JMC 5193 Principles of Media Entrepreneurship 3 Credit Hours

(Slashlisted with JMC 4193) Prerequisite: JMC 1013 & 2033 and graduate standing. An in-depth examination of media entrepreneurship and distribution in the digital age. Students will learn how to create their own company, design a business plan, create budgets, and find financial backers and sponsors. Current approaches to marketing and distributing media products of various forms to the media industry will also be explored. No student may receive credit for both 4193 and 5193. (F, Sp, Su)

JMC 5223 Digital Advertising 3 Credit Hours

(Slashlisted with JMC 4223) Prerequisite: graduate standing in Journalism. Recognizing the growing importance of newly emerging forms of advertising/promotions using non-traditional or alternative media, this course is designed to explore a new view of advertising in the current marketing/media environments. Along with learning the traditional advertising theories, students will understand how to effectively measure the use of interactive advertising media. No student may earn credit for both 4223 and 5223. (Irreg.)

JMC 5233 Advertising Portfolio 3 Credit Hours

(Slashlisted with JMC 4233) Prerequisite: Graduate standing in Journalism. This course includes revision of existing pieces to professional standards, and the execution of new work to complete the professional portfolio. Demonstrating mastery of design, craft, organization, and presentation is the goal of this portfolio course. Topics covered relate to the business of art direction, graphic design, copy writing, business correspondence, interviewing and self-promotional skills, and job-promotional skills. No student may earn credit for both 4233 and 5233. (F, Sp)

JMC 5243 Strategic Fashion Communication 3 Credit Hours

(Slashlisted with JMC 4243) Prerequisite: graduate standing in Journalism. Offers both a critical and practical exploration of the fashion communication business covering the complete cycle of the fashion industry from the concept and production stages to marketing campaigns, product sales, and events planning. Focusing on the lifecycle of the fashion brand. No student may earn credit for both 4243 and 5243. (Irreg.)

JMC 5273 Communicating Culture Tourism: Concepts and Theory 3 Credit Hours

(Slashlisted with JMC 4273) Prerequisite: graduate standing and permission of instructor; corequisite JMC 5283. Through an immersion experience in an international location, students will analyze the cultural traditions and history of modern travel media. Studies include the major contexts and motives of tourism, as well as the foundations of contemporary forms of travel media. No student may earn credit for both 4273 and 5273. (Irreg.)

JMC 5283 Communicating Culture Tourism Media: Travel Genres 3 Credit Hours

(Slashlisted with JMC 4283) Prerequisite: graduate standing and permission from instructor; corequisite JMC 5273. Through an immersion experience in an international location, this course will teach students the elements of narrative storytelling for media, and give them opportunities to hone and develop their individual writing styles through applied assignments. Students will gain the strategic and applied skills for feature-style writing that will allow them to produce media that meet professional standards. No student may earn credit for both 4283 and 5283. (Irreg.)

JMC 5293 Professional Seminar in Strategic Communication 3 Credit Hours

Prerequisite: Graduate standing; MA in Journalism & Mass Communication/Strategic Communication and Digital Strategy majors only. Digital media bring new opportunities and challenges for strategic communicators that require new ways of thinking and responding. This course explores current, fast-changing industry topics and issues, including social and cultural issues, legal and regulatory issues, economic issues, and new technology issues, to help students understand and craft solutions to advance their organization's strategic needs. (F, Sp, Su)

JMC 5303 International Advertising 3 Credit Hours

(Slashlisted with 4303) Prerequisite: graduate standing. May be repeated with change of subject matter; maximum credit six hours. Designed to provide basic understanding of advertising and culture that applies to advertising in non-American locations. No student may earn credit for both 4303 and 5303. (Irreg.)

JMC 5323 Advertising Account Planning 3 Credit Hours

(Slashlisted with 4323) Prerequisite: 3303. Discussion and practice of the advertising agency function of representing the target audience. Emphasis on learning to think like a consumer. Incorporates creativity, market research, consumer behavior and critical thinking to help in understanding target audiences. No student may earn credit for both 4323 and 5323. (F)

JMC 5333 Contemporary Problems in Advertising 3 Credit Hours

(Slashlisted with 4333) Prerequisite: graduate standing and permission. Survey of contemporary problems in advertising; including current social and economic criticisms, legal and self-regulation problems, and agency and media-related problems. No student may earn credit for both 4333 and 5333. (F)

JMC 5343 Digital Strategic Communication 3 Credit Hours

Prerequisite: Graduate standing; MA in Journalism & Mass Communication/Strategic Communication and Digital Strategy majors only. These days, the shift of media environments occurs more rapidly than ever, which influences our daily lives and requires practitioners in advertising and public relations (PR) to follow the media dynamics. This course is designed to provide a basic understanding of digital media environments and to explore how the digital media is integrated into strategic communication. (F, Sp, Su)

JMC 5353 Cinematography 3 Credit Hours

(Slashlisted with JMC 4353) Prerequisite: Graduate standing, majors only, and permission of instructor. Understand and demonstrate the advanced skills of scriptwriting, preproduction, sound recording/mixing, single-camera digital video production and non-linear editing in the narrative storytelling process. No student may earn credit for both 4353 and 5353. (Sp)

JMC 5363 Data Journalism 3 Credit Hours

(Slashlisted with JMC 4363) Prerequisite: Graduate standing. Introduction to the basic concepts and skills necessary to use numerical, statistical, geographical, and survey data as a way of telling compelling fact-based stories. Stories may be used as news and strategic or narrative products. Data can be used in all Gaylord fields from journalism to professional writing. Class builds skills in finding, cleaning, analyzing, interpreting, and then using data. No student may earn credit for both 4363 and 5363. (F, Sp)

JMC 5373 Media Psychology 3 Credit Hours

(Slashlisted with JMC 4373) Prerequisite: Graduate standing. Focus on cognitive and emotional processing of media. Topics cover: how do media impact our thoughts, feelings and behaviors, how and when we change our attitudes, what the media teach us about the world, how we pay attention to television, print media, and the Internet, how we respond emotionally, and how we decide what is real. Psychological theories reviewed. No student may earn credit for both 4373 and 5373. (F, Sp)

JMC 5383 Media Management 3 Credit Hours

Prerequisite: Graduate standing. The aim of this course is to provide you with an overview of the principles underlying management and how those fit into the media management environment of the 21st century. This will be done by developing your knowledge of relevant literature, research, and theory, as well as methods of inquiry in the field of media management and economics. (F, Sp)

JMC 5391 Grant Writing 1 Credit Hour

Prerequisite: Graduate Standing. Learn to develop grant writing and project development skills, which are highly applicable in academic and non-academic environments. Be able to identify funding opportunities, to conceptualize a grant proposal in response to RFA, and develop standard proposal components, including project synopsis, project description, logic model, approach and budget. (F, Sp)

JMC 5413 Crisis Communication 3 Credit Hours

Prerequisite: graduate standing and instructor permission. Examine strategic communication practices throughout the three stages of a crisis event. Special emphasis is placed on crisis planning, media relationships, image restoration, ethical responses, and organizational learning. No student may earn credit for both 4413 and 5413. (F, Sp)

JMC 5433 Sports Public Relations 3 Credit Hours

(Slashlisted with 4433) Prerequisite: graduate standing. A study of public relations as it is practiced in the sports industry featuring guest and video presenters representing various sports publicity, promotion and public relations positions. Includes representatives of newspaper, television, and radio sports departments. No student may earn credit for both 4433 and 5433. (Irreg.)

- JMC 5443 Public Relations Management 3 Credit Hours**
(Slashlisted with JMC 4443) Prerequisite: Graduate standing and departmental permission. This course will introduce you to the field of public relations and give you an overview of the historical development and current status of public relations. You will understand the study of public relations as the strategic behavioral management function that applies communication and organizational theory to the research, planning, implementation, and evaluation of the communication programs of organizations. No student may earn credit for both 4443 and 5443. (Irreg.)
- JMC 5453 Public Relations Research 3 Credit Hours**
(Slashlisted with 4453) Prerequisite: graduate standing and permission. To build skills in the use of various public relations research methodologies available for exploratory, evaluation and management assessment of programs. No student may earn credit for both 4453 and 5453. (Sp)
- JMC 5463 Conceptualization 3 Credit Hours**
Prerequisite: Graduate Standing. Discuss the meaning, value, and logic of social inquiry from a range of perspectives. Scholarly research is built from careful and comprehensive thinking, theorizing, conceptualizing, and operationalizing. While there is no universally best way to do research, you should leave the course with a clear understanding of how to design research that makes a contribution to theoretical knowledge. (F, Sp)
- JMC 5473 Social Media Marketing 3 Credit Hours**
(Slashlisted with JMC 4473) Prerequisite: graduate standing. Social Media Marketing explores the most effective marketing strategies and tactics used by brands to engage with consumers on each social media platform. You'll study best practices in social media marketing and apply them to the eight-step social media-planning model to construct an extensive real world social media marketing plan for a client. No student may receive credit for both 4473 and 5473. (F, Sp, Su)
- JMC 5483 Global and International Public Relations 3 Credit Hours**
(Slashlisted with JMC 4483) Prerequisite: graduate standing. Investigate current issues in global public relations practice. Students will examine how political, socio-economic, cultural, and historical particularities, together with pop culture, influence modern public relations practice. Students will also learn what role the social media plays in shaping global public relations strategies, as well as what role globalization plays in shaping strategic communication messages on international markets. No student may receive credit for both 4483 and 5483. (F, Sp, Su).
- JMC 5493 Social Media Strategies 3 Credit Hours**
(Slashlisted with JMC 4493) Prerequisite: Graduate standing or JMC 1013, JMC 2033 & JMC 3413. Student will understand the mass communication industry by discussion and using assignment to focus on social media post writing, publishing, management and measurement. Students will complete a social media audit, social media calendar social media monitoring and evaluation plan, target public personas, as well as social media platform certifications. No student may earn credit for both 4493 and 5493. (F, Sp)
- JMC 5503 Graduate Tutorial in Writing 3 Credit Hours**
Prerequisite: graduate standing and permission. May be repeated once; maximum credit six hours. Individual conferences devoted entirely to preparation, criticism, editing and preparation for marketing of the student's original manuscript, both fiction and non-fiction. (F, Sp)
- JMC 5513 Media Management & Transformation 3 Credit Hours**
Prerequisite: Graduate standing. The aim of this course is to provide you with an overview of the principles underlying management and how those fit into the media management environment of the 21st century. This will be done by developing your knowledge of relevant literature, research and theory, as well as methods of inquiry in the field of media management and economics. (F, Sp)
- JMC 5514 Writing the Novel-Graduate 4 Credit Hours**
Prerequisite: graduate standing and permission. May be repeated; maximum credit eight hours. Analysis of the concepts, principles and practical creative problems involved in writing novels. Instruction in specific approaches and techniques useful in plotting, characterization, setting, scene, etc. Supervised writing of a novel by each student. (F, Sp)
- JMC 5523 Theories of Public Relations 3 Credit Hours**
(Slashlisted with JMC 4523) Prerequisite: Graduate standing or permission of instructor. Students will have a unique opportunity to meet and network with some of the leading public relations academic and practitioner experts and to learn more about the public relations and strategic communications field. No student may earn credit for both 4523 and 5523. (F, Sp)
- JMC 5524 Writing the Short Story 4 Credit Hours**
(Slashlisted with JMC 4524) Prerequisite: JMC 1013, JMC 2033, JMC 3504 and permission of instructor or department. Techniques and theory of fiction writing and plots, with emphasis on current American short stories. No student may earn credit for both 4524 and 5524. (F, Sp)
- JMC 5533 Mystery Writing 3 Credit Hours**
(Slashlisted with JMC 4533) Prerequisite: JMC 3504 or graduate standing and permission. A survey and discussion of the various popular forms that are used in the creation of commercial crime stories in fiction and film. This look at the most popular forms of crime writing and their rationales has the intention of allowing students to develop their own crime writing projects to better fit the prevailing markets. No student may earn credit for both 4533 and 5533. (F, Sp)
- JMC 5543 Sci-Fi & Fantasy Writing 3 Credit Hours**
(Slashlisted with JMC 4543) Prerequisite: JMC 3504 and graduate standing. Although most people lump science fiction and fantasy stories together, these two genres are worlds apart. This course will help you expand your understanding of the two areas by focusing on world building, tech, and magic as well as potential societal differences. Sci-Fi & Fantasy Writing allows participants to dig more deeply into genres they wish to explore. No student may earn credit for both 4543 and 5543. (F, Sp)
- JMC 5563 Category Fiction 3 Credit Hours**
(Slashlisted with 4563) Prerequisite: graduate standing and permission. May be repeated once with change of content; maximum credit six hours. In-depth study of current popular fiction genres and techniques used by category authors. Discussion of books in terms of fiction devices and application of such techniques to student's own work. No student may earn credit for both 4563 and 5563. (F)
- JMC 5573 Theories of Professional Writing 3 Credit Hours**
(Slashlisted with JMC 4573) Prerequisite: JMC 3504 and graduate standing. Study of significant theories of the writing process, the motivation to write, and intended effects of writing. Students will address aesthetics, philosophy and values relating to careers in writing. No student may earn credit for both 4573 and 5573. (F, Sp)

- JMC 5593 Young Adult Fiction Writing 3 Credit Hours**
(Slashlisted with JMC 4593) Prerequisite: JMC 3504 or graduate standing and permission. Young adult fiction is a thriving sector of the book industry. This class deconstructs the state of the young adult market and uses current award winners and bestsellers as models of aspects of story such as characterization, world-building, plotting and voice. Students learn how to position their work in a booming market and discover how writing young adult fiction is similar to and different from writing for adults. No student may earn credit for both 4593 and 5593. (F, Sp)
- JMC 5594 Writing the Commercial Nonfiction Book 4 Credit Hours**
Prerequisite: graduate standing and permission. May be repeated; maximum credit eight hours. Techniques, structure and elements of writing commercial nonfiction. Each student will work on an original book project and create a submittable book proposal with a list of suitable markets. No student may earn credit for both 4594 and 5594. (F)
- JMC 5623 Multi-Camera Production 3 Credit Hours**
(Slashlisted with JMC 4623) Prerequisite: Graduate standing, majors only, and permission of instructor. Understand and demonstrate the skills of scriptwriting, preproduction, sound recording/mixing, multi-camera video production and non-linear editing in the storytelling process. No student may earn credit for both 4623 and 5623. (F)
- JMC 5633 Advanced Single-Camera Production 3 Credit Hours**
(Slashlisted with JMC 4633) Prerequisite: Graduate standing, majors only, and permission of instructor. Understand and demonstrate the advanced skills of scriptwriting, sound recording/mixing, single-camera digital video production and non-linear editing in the storytelling process. No student may earn credit for both 4633 and 5633. (F, Sp)
- JMC 5643 Advanced Audio Production 3 Credit Hours**
(Slashlisted with JMC 4643) Prerequisite: graduate standing and permission of instructor. Advanced study of the technology, capabilities and utilization of audio media. Units on advanced audio techniques for radio, television and film. Intensive practice and skill development in audio production techniques. No student may earn credit for both 4643 and 5643. (Irreg.)
- JMC 5653 Prac: Research Proposal & Design 3 Credit Hours**
Prerequisite: Graduate Standing. Focusing on research design should help you learn how to transform everyday questions about media and communication processes into testable research questions and substantiative research designs. (F, Sp)
- JMC 5673 Advanced Broadcast News 3 Credit Hours**
(Slashlisted with 4673) Prerequisite: graduate standing and permission. Study of current requirements for and practice of public affairs programming, including news. Evolution of broadcast documentary form; writing, filming, editing techniques; budgeting and scheduling; actual preparation of public affairs programs of various types with emphasis on the extended-length news documentary. No student may earn credit for both 4673 and 5673. Laboratory (Sp)
- JMC 5683 Multimedia Content Management 3 Credit Hours**
(Slashlisted with 4683) Prerequisite: graduate standing and permission of instructor. Examines working with media content in a variety of formats such as text, audio, video, photography and graphics, for online media. Instruction and practice in editing designing, presenting, and managing news and information content for online media. No student may earn credit for both 4683 and 5683. (F, Sp)
- JMC 5693 Podcasting 3 Credit Hours**
(Slashlisted with JMC 4693) Prerequisite: Graduate standing and departmental permission. Podcasting is a newer media form built on older media forms, made possible by digital technologies. It is transforming our media experience of who gets to tell stories, what stories are being told, and how we interact at large and small scales. Understanding media in the current era requires understanding podcasting. No student may earn credit for both 4693 and 5693. (F, Sp)
- JMC 5723 Horror Writing 3 Credit Hours**
(Slashlisted with JMC 4723) Prerequisite: Graduate standing and departmental permission. Students are expected to gain proficiency with writing and understanding horror in prose, script, and voice acting/ acting through analysis of published articles, reviews, and blogs, in-class technique drills, individualized coaching from the professor, and writing original pieces of their own. Will learn how to submit their work in the horror field and get published pieces to put into their resumes. No student may earn credit for both 4723 and 5723. (F, Sp)
- JMC 5734 Writing the Screenplay 4 Credit Hours**
Prerequisite: graduate standing and permission. May be repeated; maximum credit eight hours. Analysis of the form and structure of the narrative screenplay. Specific approaches and techniques useful in developing plotting, characterization, setting, scene, etc. Supervised writing of feature-length screenplay by each student. (Sp)
- JMC 5753 Documentary Research and Writing 3 Credit Hours**
(Slashlisted with 4753) Prerequisite: graduate standing and permission of instructor. Covers the preparation of a documentary from both practical and critical/theoretical directions. Focuses on research, writing and submission of documentary proposals, and practical writing exercises. No student may earn credit for both 4753 and 5753. (F)
- JMC 5763 Documentary Production 3 Credit Hours**
(Slashlisted with JMC 4763) Prerequisite: Graduate standing, majors only, and permission of instructor. Understand and demonstrate the advanced skills of research, preproduction, scriptwriting, sound recording/mixing, single-camera digital video production and non-linear editing in the documentary storytelling process. No student may earn credit for both 4763 and 5763. (Sp)
- JMC 5773 After Effects 3 Credit Hours**
(Slashlisted with JMC 4773) Prerequisite: Graduate standing and permission of instructor. Practice and understanding of graphic design, motion graphics, compositing, color correction, VFX and puppet animations using After Effects. No student may earn credit for both 4773 and 5773. (F)
- JMC 5793 Broadcast Advertising Production 3 Credit Hours**
(Slashlisted with 4793) Prerequisite: graduate standing and permission of instructor. Addresses all the major stages of creating broadcast advertising messages from research and development of scripts through production, post production and final presentation. Emphasis will be placed on working in teams to create commercial messages. No student may earn credit for both 4793 and 5793. (Irreg.)
- JMC 5800 Graduate Internship 1-3 Credit Hours**
Prerequisite: graduate standing and permission. May be repeated with change of content; maximum credit six hours. Professional work experience in mass communication with associated readings, analysis, and critical research. (F, Sp, Su)

- JMC 5813 Ethics of Strategic Communication** **3 Credit Hours**
Prerequisite: Graduate standing; MA in Journalism & Mass Communication/Strategic Communication and Digital Strategy majors only. The course will cover ethics among a variety of topics through cases such as corporate social responsibility, digital ethics, and global ethics. Students will explore the real-world and industry application of the ethical frameworks and conducts. Students will be able to apply different philosophical approaches and critical thinking skills to analyze and navigate contemporary strategic communication challenges. (F, Sp, Su)
- JMC 5823 Cross-Cultural Communication** **3 Credit Hours**
Prerequisite: Graduate standing; MA in Journalism & Mass Communication/Strategic Communication and Digital Strategy majors only. This course strives to advance understanding and appreciation of the roles of culture in shaping society, our senses of reality, and media. The course uses research, analyses, and critical observations of media performances to focus on understanding media and culture, analyzing the power of mediated symbols to create public perceptions that misrepresent social/cultural groups, and developing cross-cultural awareness and sensitivity. (F, Sp, Su)
- JMC 5833 Journalism Ethics** **3 Credit Hours**
(Slashlisted with 4833) Prerequisite: graduate standing and permission. Press criticism; organizational performance; reportorial performance; print/broadcast distinctions. No student may earn credit for both 4833 and 5833.(F)
- JMC 5843 Sports Promotion** **3 Credit Hours**
(Slashlisted with JMC 4843) Prerequisite: Graduate standing. This course overviews the various types of sports industry positions that utilize strategic communication skills under the overarching umbrella of "sports promotion." The goal of this course is to help students fully understand the myriad of different ways public relations, advertising, sales and marketing techniques can be used in sports promotion. No student may earn credit for both 4843 and 5843. (F, Sp)
- JMC 5853 Race, Gender, Class and the Media** **3 Credit Hours**
(Slashlisted with JMC 4853) Prerequisite: Graduate standing and departmental permission. Survey of past and present relationships between women and racial and ethnic minorities in the U.S. and the media. Media portrayal, employment, ownership, and access will be studied. No student may earn credit for both 4853 and 5853. (F, Sp)
- JMC 5863 Marketing & Media Analytics** **3 Credit Hours**
Prerequisite: Graduate standing; MA in Journalism & Mass Communication/Strategic Communication and Digital Strategy majors only. This course will explore the many ways that data analysis informs strategic communication by using real-world examples of customer and media metrics, common analytic techniques, and key foundational concepts. Marketers need to know what data they should expect to see, what data they should ask for, and how to understand data to translate it into strategy and action. (F, Sp, Su)
- JMC 5873 Strategic Planning & Brand Strategy** **3 Credit Hours**
Prerequisite: Graduate standing; MA in Journalism & Mass Communication/Strategic Communication and Digital Strategy majors only. This course will prepare students to identify and manage how change impacts their organization and how to strategically adapt to change. In addition, this course will explore the role of brand management and the brand planning process as an integral part of an organization's strategic planning process and how it can impact corporate brand value. (F, Sp, Su)
- JMC 5880 Graduate Project** **2-4 Credit Hours**
2 to 4 hours. Prerequisite: graduate standing in journalism and mass communication. For students electing the project track (nonthesis track). Students will develop, under their project committee's direction, a creative or professional project, such as a novel, a film, an advertising or public relations campaign, or a management plan for a media-related organization. (F, Sp, Su)
- JMC 5883 Digital Behavior** **3 Credit Hours**
Prerequisite: Graduate standing; MA in Journalism & Mass Communication/Strategic Communication and Digital Strategy majors only. This course covers the methods to understand the audience through data analytics. Several psychology theories will be introduced to understand the digital audience's pattern. Students will develop more effective communication strategies to engage digital audiences. (F, Sp, Su)
- JMC 5893 Management & Leadership** **3 Credit Hours**
Prerequisite: Graduate standing; MA in Journalism & Mass Communication/Strategic Communication and Digital Strategy majors only. This course focuses on the management of organizations - how to build effective systems, motivate employees, and create innovative organizational cultures. Through scholarly and professional writings, students explore management roles and functions, leadership of people toward common goals, and processes of organizational development and change. (F, Sp, Su)
- JMC 5903 Production for Clients** **3 Credit Hours**
(Slashlisted with JMC 4903) Prerequisite: graduate standing and permission of instructor. Students work on actual client projects. The class simulates a production house operation. Working in teams, students are responsible for budgeting, working with clients, scripting, shooting, editing, and follow-through on the project. No student may earn credit for both 4903 and 5903. (F, Sp)
- JMC 5913 Narrative Production** **3 Credit Hours**
(Slashlisted with JMC 4913) Prerequisite: Graduate standing, majors only, and permission of instructor. Understand and demonstrate the advanced skills of scriptwriting, preproduction, sound recording/mixing, single-camera digital video production and non-linear editing in the narrative storytelling process. No student may earn credit for both 4913 and 5913. (F, Sp)
- JMC 5960 Directed Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- JMC 5970 Seminar** **1-3 Credit Hours**
1 to 3 hours. May be repeated with change of subject matter; maximum credit 12 hours. Methods of research. Selection, evaluation and development of research problems. (Irreg.)
- JMC 5980 Research for Master's Thesis** **2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- JMC 5990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing; permission of instructor. May be repeated with change of subject matter; maximum credit six hours. (F, Sp, Su)

JMC 6091 Ph.D. Seminar 1 Credit Hour

Prerequisite: graduate standing and permission. May be repeated with change of content; maximum credit six hours. Discussion and presentation of research by doctoral students, faculty and visiting scholars. Designed to enhance faculty-student interaction and collaboration on research, and to provide preliminary feedback toward development of dissertation proposals. (F, Sp)

JMC 6153 Advanced Topics in Media Arts 3 Credit Hours

Prerequisite: graduate standing and permission. May be repeated with change of content; maximum credit twelve hours. Advanced investigation and analysis of a problem relating to such subjects as a significant trend, practice, medium, idea, critical principle, or significant person in television, film, book, and other artistic or entertainment media. (Irreg.)

JMC 6163 Advanced Topics in Journalism & Media Studies 3 Credit Hours

Prerequisite: Graduate standing and departmental permission; May be repeated with change of content; maximum credit twelve hours. Advanced investigation and analysis of problems relating to such subjects as a significant trend, practice, medium, idea, critical principle, or significant person in journalism, news, and information fields. (Irreg.)

JMC 6173 Advanced Topics in Strategic Communication 3 Credit Hours

Prerequisite: graduate standing and permission. May be repeated with change of content; maximum credit twelve hours. Advanced investigation and analysis of a problem relating to such subjects as a significant trend, practice, medium, idea, critical principle, or significant person in advertising, public relations and strategic communication fields. (Irreg.)

JMC 6183 Approaches to Teaching in Mass Communication 3 Credit Hours

Prerequisite: graduate standing and permission. An overview of pedagogy related to teaching college classes, specifically in journalism and mass communication programs. Immediately helpful to graduate students with teaching assistantships, and ultimately helpful for all students interested in teaching careers. (F)

JMC 6393 Advanced Grant Writing 3 Credit Hours

Prerequisite: Graduate Standing. Learn to develop grant writing and project development skills, which are highly applicable in academic and non-academic environments. Be able to identify funding opportunities, to conceptualize a grant proposal in response to RFA, and develop standard proposal components, including project synopsis, project description, logic model, approach and budget. (F, Sp)

JMC 6463 Advanced Conceptualization 3 Credit Hours

Prerequisite: Graduate Standing. Discuss the meaning, value, and logic of social inquiry from a range of perspectives. Scholarly research is built from careful and comprehensive thinking, theorizing, conceptualizing, and operationalizing. While there is no universally best way to do research, you should leave the course with a clear understanding of how to design research that makes a contribution to theoretical knowledge. (F, Sp)

JMC 6653 Prac: Advanced Research Proposal and Design 3 Credit Hours

Prerequisite: Graduate Standing. Focusing on research design should help you learn how to transform everyday questions about media and communication processes into testable research questions and substantiative research designs. (F, Sp)

JMC 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

JMC 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

JMC 6980 Research for Doctoral Dissertation 2-12 Credit Hours

2 to 12 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

JMC 6990 Independent Study 1-4 Credit Hours

Prerequisite: Graduate standing and permission. May be repeated with change of content; maximum credit eight hours. An individual course of intensive study with the area and problem to be determined by the student and the instructor responsible for supervising the study. (F, Sp, Su)

Requirements to Remain in Gaylord College of Journalism and Mass Communication

After direct admission, all incoming Freshman or transfer students must meet the following requirements to remain in Gaylord College:

- Pass the Gaylord College Entrance Exams – Language Skills Test and Academic Integrity Test
- Complete JMC 1013 (Introduction to Media) with a grade of C or better;
- Maintain a minimum combined retention grade point average of 2.50 on all work attempted, as well as a 2.50 on all major work.
- Transfer Students must have a 2.50 combined retention grade point average to gain admission into the college.

Major Requirements

A maximum of 50 hours of Journalism and Mass Communication may be counted in the 120 hours required for graduation. No student will be awarded a BA in Journalism degree without completing at least 70 semester credit hours outside the College.

A grade of C or better is required in all Journalism and Mass Communication courses.

Information Concerning General Rules, Regulations and Minimum Requirements

Information regarding Total Hours; Hours by Examination, Correspondence Study and/or Extension; Repeat of Failed Coursework; and Requirements for Full Admission to the Gaylord College of Journalism and Mass Communication can be found in the catalog under Gaylord College of Journalism and Mass Communication: Undergraduate Study (p. 1688).

Attendance: Students who do not attend a JMC class or lab on the first day of classes may be dropped from the class or lab.

Transfer Work: Students may transfer in a maximum of 12 credit hours of journalism and mass communication coursework prior to full admission to the Gaylord College. Once fully admitted to the college, students may petition the faculty to have an additional three (3) credit hours from an outside ACEJMC institution applied to their University of Oklahoma degree. A maximum of fifteen (15) credit hours of JMC transfer coursework may be applied to a degree.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of 30 semester hours acceptable toward graduation must be earned in residence at OU, including at least 15 of the last 30 hours applied toward the degree.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are not considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Application for Graduation: Students must apply for graduation during the term in which they complete their degree requirements in order to graduate in that term. Application forms are available in the Student Services Center, 2533 Gaylord Hall. The deadline for completion of all coursework to graduate in a particular term is the last day of classes in that term.

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement.

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Information regarding Total Hours; Hours by Examination, Correspondence Study and/or Extension; Repeat of Failed Coursework; and Requirements for Full Admission to the Gaylord College of Journalism and Mass Communication can be found in the catalog under Gaylord College of Journalism and Mass Communication: Undergraduate Study (p. 1688).

Attendance: Students who do not attend a JMC class or lab on the first day of classes may be dropped from the class or lab.

Transfer Work: Students may transfer in a maximum of 12 credit hours of journalism and mass communication coursework prior to full admission to the Gaylord College. Once fully admitted to the college, students may petition the faculty to have an additional three (3) credit hours from an outside ACEJMC institution applied to their University of Oklahoma degree. A maximum of fifteen (15) credit hours of JMC transfer coursework may be applied to a degree.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of 30 semester hours acceptable toward graduation must be earned in residence at OU, including at least 15 of the last 30 hours applied toward the degree.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are not considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Application for Graduation: Students must apply for graduation during the term in which they complete their degree requirements in order to graduate in that term. Application forms are available in the Student Services Center, 2533 Gaylord Hall. The deadline for completion of all coursework to graduate in a particular term is the last day of classes in that term.

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement.

Freshman

First Semester	Credit Hours

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Information regarding Total Hours; Hours by Examination, Correspondence Study and/or Extension; Repeat of Failed Coursework; and Requirements for Full Admission to the Gaylord College of Journalism and Mass Communication can be found in the catalog under Gaylord College of Journalism and Mass Communication: Undergraduate Study (p. 1688).

Attendance: Students who do not attend a JMC class or lab on the first day of classes may be dropped from the class or lab.

Transfer Work: Students may transfer in a maximum of 12 credit hours of journalism and mass communication coursework prior to full admission to the Gaylord College. Once fully admitted to the college, students may petition the faculty to have an additional three (3) credit hours from an outside ACEJMC institution applied to their University of Oklahoma degree. A maximum of fifteen (15) credit hours of JMC transfer coursework may be applied to a degree.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of 30 semester hours acceptable toward graduation must be earned in residence at OU, including at least 15 of the last 30 hours applied toward the degree.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are not considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Application for Graduation: Students must apply for graduation during the term in which they complete their degree requirements in order to graduate in that term. Application forms are available in the Student Services Center, 2533 Gaylord Hall. The deadline for completion of all coursework to graduate in a particular term is the last day of classes in that term.

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement.

Freshman

First Semester	Credit Hours

Information Concerning General Rules, Regulations and Minimum Requirements

Information regarding Total Hours; Hours by Examination, Correspondence Study and/or Extension; Repeat of Failed Coursework; and Requirements for Full Admission to the Gaylord College of Journalism and Mass Communication can be found in the catalog under Gaylord College of Journalism and Mass Communication: Undergraduate Study (p. 1688).

Attendance: Students who do not attend a JMC class or lab on the first day of classes may be dropped from the class or lab.

Transfer Work: Students may transfer in a maximum of 12 credit hours of journalism and mass communication coursework prior to full admission to the Gaylord College. Once fully admitted to the college, students may petition the faculty to have an additional three (3) credit hours from an outside ACEJMC institution applied to their University of

Oklahoma degree. A maximum of fifteen (15) credit hours of JMC transfer coursework may be applied to a degree.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of 30 semester hours acceptable toward graduation must be earned in residence at OU, including at least 15 of the last 30 hours applied toward the degree.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are not considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Application for Graduation: Students must apply for graduation during the term in which they complete their degree requirements in order to graduate in that term. Application forms are available in the Student Services Center, 2533 Gaylord Hall. The deadline for completion of all coursework to graduate in a particular term is the last day of classes in that term.

Suggested Semester Plan of Study

- **Apply for Admission to the Accelerated BA/MA program.** Student must be a current undergraduate student at Gaylord College, have a minimum GPA of 3.5 overall, and must have completed 60 credits to be eligible to apply. Student may only apply for the area of the program in which they currently major. For more information, please visit www.ou.edu/gaylord.
- **Student must have completed 97 credit hours to be admitted to the program.**
- **Students are eligible for graduate status upon graduation with the BA in Journalism.**
- This plan of study should not be used in lieu of academic advisement.

Requirements to Remain in Gaylord College of Journalism and Mass Communication

After direct admission, all incoming Freshman or transfer students must meet the following requirements to remain in Gaylord College:

- Pass the Gaylord College Entrance Exams – Language Skills Test and Academic Integrity Test
- Complete JMC 1013 (Introduction to Media) with a grade of C or better;
- Maintain a minimum combined retention grade point average of 2.50 on all work attempted, as well as a 2.50 on all major work.
- Transfer Students must have a 2.50 combined retention grade point average to gain admission into the college.

Major Requirements

A maximum of 50 hours of Journalism and Mass Communication may be counted in the 120 hours required for graduation. No student will be awarded a BA in Journalism degree without completing at least 70 semester credit hours outside the College.

A grade of C or better is required in all Journalism and Mass Communication courses.

This is a coursework only program.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Strategic Communication and Digital Strategy, M.A.

Minimum Total Hours (Non-Thesis): 33

Program Code: M859

Required Courses

A maximum of eight credit hours of graduate work may be transferred from other universities if such work meets the college's requirements. No transfer credit will be accepted toward meeting core requirements.

Media Management, Graduate Certificate

Minimum Total Hours: 13

Program Code: G083

It's called the media business for a reason. Whether it's a newsroom, a public relations firm, an advertising agency, or a film company, all are in need of solid management skills and sound business sense. The Gaylord College Media Management Graduate Certificate provides media professionals with the business basics they will need to be successful overseeing either an existing media business or starting a new entrepreneurial venture. The Media Management Graduate Certificate combines the media industry knowledge from Gaylord College with the business skills expertise offered by Price College of Business. A total of 13 hours is required for the certificate.

Certificate Requirements

Code	Title	Credit Hours
JMC 5193	Principles of Media Entrepreneurship	3
JMC 5970	Seminar (Topic: Media Management)	3
JMC 5473	Social Media Marketing	3
or JMC 5833	Journalism Ethics	
Choose 4 hours:		4

Price College of Business approved course list (p. 1736)

Total Credit Hours **13**

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

ANTH 5163	The Study of Material Culture	
ANTH 5213	Ethnographic Methods	

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Mass Communication, Ph.D.

Minimum Total Hours: 90

Program Code: D660

Doctor of Philosophy

The Ph.D. program in the Gaylord College allows students to examine more deeply the theories that underlie mass communication and to critique mass communication practices. The program also allows students to pursue advanced study in the Gaylord College and to prepare for university-level research and teaching across a variety of areas.

ADMISSION REQUIREMENTS

The following requirements must be met before a student will be admitted to the doctoral program in the Gaylord College of Journalism and Mass Communication:

- 3.50 in previous graduate work
- Strong Graduate Record Exam (GRE) scores
- Three letters of recommendation
- A one to two-page resume
- A minimum 1,000-word essay detailing reasons for pursuing the Ph.D., to include the intended future application
- A minimum TOEFL score of 550 (213 computer-based)

A minimum of three years of professional experience in a mass communication field is preferred.

Excellent candidates who do not meet admission requirements will be given careful consideration.

Retention and graduation standards reflect OU Graduate College policies.

In addition to taking coursework aimed at fostering research, students must prepare an original research paper for presentation in an annual mini-conference each year until admitted to candidacy.

AREAS OF CONCENTRATION

The program offers three areas of concentration:

News and Information

Emphasizes performance, critical analysis, effects, representations and the community-building potential of news and information media. Faculty expertise: organizational management; media ethics and normative

theory, media law, race and gender, media credibility, and international/intercultural/ethnic media.

Strategic Communication

Emphasizes a broad spectrum of theoretical and practice-oriented research topics and problems in public relations and advertising.

Faculty expertise: rhetorical analysis; race and gender, international public relations, law, new media advertising, crisis communication, organizational behavior, and message strategy and tactics.

Media Arts

Emphasizes performance, critical analysis, effects, representations and the community-building potential of entertainment and experimental media including visual digital and video; audio; multimedia, and long-form print media. Faculty expertise: creative, writing, script writing, documentary film, multimedia, video, and digital production.

Areas of Emphasis within Concentrations

Doctoral students will be encouraged to design a flexible, interdisciplinary program targeting an area of emphasis within these concentrations. Some examples are: history; media management and economics; media ethics; visual communication, international communication, and communication theory and methodology. Students will be guided in making these choices through consultation with their committees and by examining topic areas as defined in leading professional organizations such as the Association for Education in Journalism and Mass Communication, and the International Communication Association. These choices will allow students to tailor courses to their interests and plan dissertation topics accordingly.

Program Requirements

Code	Title	Credit Hours
Core Classes (27 hours)		
JMC 5083	Mass Communication Theory (or 3 hours 5000-or 6000-level elective approved by advisory committee if JMC 5083 was taken at M.A. level)	3
JMC 5093	Introduction to Research Methods in Mass Communication (or another OU or transfer graduate-level methods course as approved by advisory committee)	3
JMC 5113	Qualitative Research Methods (or 3 hours 5000-or 6000-level elective approved by advisory committee if JMC 5113 was taken at the M.A. level)	3
JMC 5133	Quantitative Research Methods (or 3 hours of 5000-6000-level elective approved by advisory committee if JMC 5133 was taken at the M.A. level)	3
JMC 5391	Grant Writing	1
JMC 5463	Conceptualization	3
JMC 5653	Prac: Research Proposal & Design	3
JMC 6091	Ph.D. Seminar (1 credit hour per semester, minimum 2 hours)	2
JMC 6183	Approaches to Teaching in Mass Communication	3

Additional 3-hour research methods course and/or graduate level statistics at the 5000 or 6000 level in an OU department outside or JMC (for example: Anthropology, Psychology, Sociology, History)	3
Concentration & Emphasis (27 hours)	
Choose a minimum of 12-15 hours of JMC Advanced Topics courses from:	12-15
JMC 6163 Advanced Topics in Journalism & Media Studies	
JMC 6173 Advanced Topics in Strategic Communication	
Choose 12-15 hours of Non-JMC coursework with approval of advisory committee	12-15
Dissertation Research (12 hours minimum)	
JMC 6980 Research for Doctoral Dissertation	12
Additional Coursework (up to 24 hours)	
Remaining hours to bring degree total to 90 will come from a combination of additional electives taken during the student's doctoral study at OU, transfer credit, or both	0-24
Total Credit Hours	90

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

COLLEGE OF LAW

Andrew M. Coats Hall
300 Timberdell Road
Norman, OK 73019-5081
Phone: (405) 325-4699
FAX: (405) 325-0502

Administrative Officers of the College

Katheleen Guzman, Dean
Melissa D. Mortazavi, Associate Dean of Academics
Gail E. Mullins, Associate Dean of Graduate Programs & Experiential Learning
Mark R. Gillett, Associate Dean for Research and Scholarship
Jennifer Needham, Assistant Dean of Students
Kenton Brice, Director of the Law Library

General Information

The College of Law was established in 1909. In 1911 the College of Law joined the Association of American Law Schools. Since 1923 the College of Law has been accredited by the American Bar Association's Section on Legal Education. The College of Law is the only public law school in Oklahoma.

In 1971, the University of Oklahoma Law Center was formed. The Law Center comprises the College of Law, Law Library and the Legal Assistant Education program. The center was established to encourage and facilitate development of programs beyond the normal law school scope. The role of the Law Center is more than training lawyers. It provides a number of professional activities to serve the Bar and the citizens of the state of Oklahoma. These include continuing legal education for lawyers, training of legal assistants, publishing books on Oklahoma law, organized legal research, public service projects, and legal aid services for the needy. It is home to the Donald E. Pray Library.

The Law Center building, now named Andrew M. Coats Hall, was completely renovated in 2002, adding 80,000 square feet to the facilities. The expansion included a new law library with large reading room, high-speed modernized computer labs, private study rooms, and a 250-seat high-tech courtroom. OU Law students now are able to watch live trials and appeals hearings as state and federal courts bring the real world into the Law Center.

Programs Offered

- Master of Laws (p. 1756)
- Master of Laws in Energy and Natural Resources Law (p. 1756)
- Master of Laws in Healthcare Law (p. 1757)
- Master of Laws in Indigenous Peoples Law (p. 1757)
- Master of Laws in International Business Law (p. 1758)
- Master of Legal Studies in Energy and Natural Resources Law (p. 1758)
- Master of Legal Studies in Healthcare Law (p. 1758)
- Master of Legal Studies in Indigenous Peoples Law (p. 1759)
- Master of Legal Studies in International Business Law (p. 1759)
- American Indian Law Graduate Certificate (p. 1760)
- Business and Transactional Law Graduate Certificate (p. 1761)
- Energy and Natural Resources Law Graduate Certificate (p. 1762)
- Indigenous Peoples Law Graduate Certificate (p. 1762)
- International Law Graduate Certificate (p. 1763)
- Litigation Graduate Certificate (p. 1764)
- Oil & Gas, Natural Resources, and Energy Law Graduate Certificate (p. 1764)
- Juris Doctor (p. 1765)
- Dual Degrees

Programs & Facilities

Donald E. Pray Law Library

The Law Library's mission is to support the scholarly and instructional activities of the Law Center's faculty and students and to serve the research and informational needs of the University, the legal community, and the public. The Law Library strives to provide our patrons with access to a rich collection of research materials in both print and electronic formats.

OU Legal Clinic

Through the OU College of Law Civil Clinic and Criminal Defense Clinic, students represent clients from Cleveland and McClain counties who would not otherwise be able to afford counsel. Operating under the close supervision of faculty attorneys, student interns face the same situations and practice demands they will encounter as attorneys while being directly responsible for representation of clients as licensed legal interns

Paralegal Studies Program

OU Law's ABA-approved legal assistant/paralegal education certificate prepares students to work with lawyers in public and private law practice, in the judiciary, corporations, and government.

Oklahoma Law Review

The *Oklahoma Law Review* is published quarterly by University of Oklahoma College of Law to serve the profession and the public with timely discussions of state and federal legal issues.

American Indian Law Review

The *American Indian Law Review* was launched by a group of OU Law students in 1973 to provide a scholarly forum for the study of legal issues relevant to Native Americans and indigenous peoples around the world.

Oil and Gas, Natural Resources, and Energy Journal (ONE J)

ONE J: Oil and Gas, Natural Resources, and Energy Journal is a peer-reviewed publication, the first of its kind in the nation. Its student editors publish domestic and international legal scholarship on oil, gas, energy, and natural resources law, for the benefit of a worldwide readership that accesses ONE J content via various online platforms.

Center for International Business and Human Rights

The International Business and Human Rights Center has a two-fold mission: (1) to provide OU Law students with academic training, networking, and practical experience in this emerging field that will equip them to be leaders in this space as well as train the greater legal community and others in IBHR issues, and (2) to provide academic think tank support on international business and human rights issues, with a particular focus on the energy/extractive sector and Information and Communications Technology (ICT) companies.

Center for Technology and Innovation in Practice

The Center for Technology and Innovation in Practice engages with academics, policymakers and industry experts to research and implement the use of technology in legal education and law practice. The OU Law Center for Technology & Innovation in Practice exists to prepare law students for practice through technology training and innovative initiatives to move the practice of law forward.

Center for the Study of American Indian Law and Policy

The Center for the Study of American Indian Law and Policy provides counsel to tribal, state and national policymakers and a forum for the interdisciplinary discussion and resolution of problems facing native communities.

Oil & Gas, Natural Resources and Energy Center

OU Law is a national and international leader in oil and gas, natural resources, and energy law – what we call ONE. Our expansive offerings are synthesized within our ONE Center, covering our academic degrees and certificates – J.D. certificates and an LL.M. in energy and natural resources, and an online M.L.S. in oil, gas, and energy law – and programming. Our ONE Center and OU Law host the annual Eugene Kuntz Conference on Natural Resources Law and Policy, the largest conference of its kind in the country, and are home to the Oil and Gas, Natural Resources, and Energy Journal (ONE J), the first journal of its kind. Students can also participate in the student association, ONE S – Oil and Gas, Natural Resources, and Energy Society. Thanks to our strategic partnerships throughout the industry, we are able to build upon our academic strength to provide unparalleled opportunities to our students.

Financial Aid and Scholarships

In addition to incoming student scholarships, OU Law administers a scholarship and awards program based on a scholarship application. This application is given to all students after classes begin in the fall and again in the spring. By completing the application, students are considered for all merit, field of interest, and need-based scholarships for which they qualify. Scholarships range from several hundred to several thousand dollars. The Scholarship Committee makes decisions in October and April of each year.

In addition to internal scholarships, OU Law receives notifications about outside scholarships and awards available to law students. To learn more about external scholarships, visit the College of Law website.

The College of Law also participates in the FAFSA program. Students applying for financial aid should file a *Free Application for Federal Student Aid* (FAFSA). Contact the Student Financial Center, 1000 Asp Avenue, 105 Buchanan Hall, Norman, OK 73019, (405) 325-9000, for more information.

Career Services

The College of Law provides career planning for students through its Career Development Office. The office is involved in a variety of activities to assist students seeking internships as well as those seeking permanent employment. These activities include career goal setting, networking and job search session, mock interviews, and hosting on-campus interviews.

Student Organizations

There are many student organizations at the College of Law.

- Student Bar Association and its Board of Governors
- Law Student Division of the American Bar Association
- Board of Advocates
- Organization for Advancement of Women in Law
- Oklahoma International Law Society
- Environmental Law Student Association
- Lawyers Against Human Trafficking
- The Federalist Society
- Health Law Student Association
- Federal Bar Association
- Business Law Society
- OUtLaw
- Oil & Gas, Natural Resources, and Energy Law Society
- Intellectual Property Society
- Agricultural Law Society
- Christian Legal Society
- Criminal Law Society
- Military Law Society
- Technology Law Society
- Victim Advocacy Program
- Public Interest Law Student Association
- Sports & Entertainment Law Society
- American Constitutional Society
- Native American Law Student Association
- Black Law Student Association
- Latinex Law Student Association
- Asian Pacific American Law Student Association
- Immigration Law Society
- First Generation Law Student Association
- Animal Legal Defense Fund
- Two legal fraternities are active – Phi Delta Phi and Phi Alpha Delta.

Programs Offered

Doctoral Degree

The College of Law offers the Juris Doctor degree (p. 1765), the first professional degree in law. Areas of concentration include American Indian and Indigenous Peoples Law; Business, Commercial, and Real Estate; Litigation; Oil and Gas, Natural Resources and Energy Law; Constitutional and Public Interest Law; Criminal Law and Procedure; Estate Planning; Family Law; General Practitioner; Health Care; Intellectual Property Law; International and Comparative Law; and Tax Law.

Dual Degrees

The OU College of Law offers flexible dual degree options for J.D. students wishing to concentrate their studies in a specific area of practice. Our dual degree program, offered in partnership with other schools and colleges across The University of Oklahoma, allows students to complete two advanced degrees in less time than if earned independently, typically in three to four years.

Dual Degrees Offered:

- Juris Doctor and Master of Business Administration (J.D./M.B.A)
- Juris Doctor and Master of Public Health (J.D./M.P.H.)
- Juris Doctor and Master of Arts in International Studies (J.D./MAIS)
- Juris Doctor and Master of Arts in Native American Studies (J.D./N.A.S.)
- Juris Doctor and Masters of Health Administration (J.D./MHA)
- Build Your Own Dual Degree: Juris Doctor and Master's Degree

Masters

Post Doctorate Degree: Master of Laws

The John. B. Turner LL.M. Program offers five Master of Laws degrees:

- Energy and Natural Resources Law – online (p. 1756)
- Indigenous People's Law - online (p. 1757)
- International Business Law - online (p. 1758)
- Healthcare Law - online (p. 1757)
- US Legal Studies (p. 1756) (for foreign-educated lawyers) – on campus
 - U.S. Legal Studies students have the option to earn a certificate in:
 - Energy and Natural Resources or
 - Indigenous Peoples Law.

Master's Degrees: Master of Legal Studies

The Master of Legal Studies in Healthcare Law (p. 1758) is designed for non-lawyers whose careers demand an understanding of healthcare-related legal issues. It provides graduate level education for professionals who work in the administration of healthcare facilities or systems. Students receive a grounding in laws and regulations that frame, guide, and direct the provision of healthcare services. The program offers a competitive advantage to anyone in the healthcare industry who handles compliance, advocacy, negotiates contracts, deals with the Affordable Healthcare act, manages real estate transactions, or works closely with healthcare attorneys. The curriculum requires the study of laws regulating the delivery and quality of medical services, access to public and private means of payment for such services, and transactions and liability within the healthcare industry.

The Master of Legal Studies in Indigenous Peoples Law (p. 1759) is designed for non-lawyers whose careers demand an understanding of

the complex rules of Federal Indian Law. It offers a strong foundation in Native American Law for anyone who deals with contracts, negotiations or any other issues that demand knowledge of Native American self-governance issues, policy, regulation or business practice. This program can be taken entirely online.

The Master of Legal Studies in International Business Law (p. 1759) provides graduate level education for business professionals relating to the legal and regulatory environment of international business law. Students will receive a grounding in laws and regulations that frame, guide, and direct international finance, sales, and disputes.

The Master of Legal Studies in Energy and Natural Resources Law (p. 1758) recognizes a need for an online graduate program to serve the professionals in the energy industry who do not wish to seek a Juris Doctor degree at this point in their career. It is specifically designed for non-lawyers whose careers demand an understanding of energy-related legal issues. The degree program offers a competitive advantage to anyone in the energy industry who negotiates oil and gas contracts, deals with mineral rights or real estate transactions, or works closely with energy attorneys. This program offers an accelerated program that can be taken primarily online.

The Master of Legal Studies in Legal Studies (p. 1760) is an online program that provides graduate-level education with a solid grounding in the study of law while allowing additional flexibility in areas of relevant specialization.

Graduate Certificates

The OU College of Law also offers the following graduate certificates:

- The American Indian Law Graduate Certificate (p. 1760) allows J.D. students to enrich their knowledge of American Indian Law through coursework including indigenous peoples' culture, tribal courts, federal water law, and more. This certificate also includes experiential learning opportunities including an externship and work with OU Law's journal *American Indian Law Review*.
- The Business and Transactional Law Graduate Certificate (p. 1761) is suited for J.D. students who wish to enter a transactional and business counseling practice. Required and elective business law classes are the backbone of this program, which also includes training in business drafting and writing. Interdisciplinary options include business coursework from the OU Price College of Business
- The Energy and Natural Resources Law Graduate Certificate will allow on campus LL.M. students to concentrate their studies in Energy and Natural Resources Law, choosing from the broad curriculum offered by the College of Law in this area.
- The Graduate Certificate in Indigenous Peoples Law (p. 1762) furthers on campus LL.M. students' study of Native American and other Indigenous Peoples Law, choosing from the broad curriculum offered by the College of Law in this area.
- The International Law Certificate (p. 1763) furthers J.D. students' knowledge of key international law issues. This certificate includes international interdisciplinary as well as externship opportunities.
- The Graduate Certificate in Oil & Gas, Natural Resources, and Energy Law (p. 1764) furthers J.D. students' knowledge of legal issues unique to the energy industry. Students learn more about oil and gas production—from well drilling to delivery systems—and also about wind and water law, conservation, mineral titles, international petroleum transactions, real estate, and more. Interdisciplinary options include energy management coursework from the OU Price

College of Business or a geology class from the Mewbourne College of Earth and Energy.

Admission

Admission Process

Regular Admission

- First year students are admitted only in the fall. Applicants must have a baccalaureate degree prior to matriculation in the College of Law. Application forms may be obtained online.
- All applicants must take the Law School Admission Test (LSAT), or other graduate school admission test of suitable rigor. The LSAT is administered by the Educational Testing Service and available by writing for an application and information from: LSAT, Box 2000, Newtown, PA 18940, or via their website. Applicants must take the test no later than June of the year in which admission to the College of Law is sought and should indicate on the LSAT application form that their scores be reported to the University of Oklahoma College of Law.
- All applicants must also register with the Law School Data Assembly Service (LSDAS).
- Each applicant must pay a non-refundable application fee.
- Applicants are considered individually by the Admissions Committee, composed of three members of the law faculty. Selections are made from the most qualified, with approximately equal weight given to the LSAT score and the undergraduate grade point average. Admission is competitive as applications far outnumber available seats in the first-year class.
- The Oklahoma State Regents for Higher Education limit the number of nonresidents to 15 percent of the student body and precludes the admission of a nonresident whose qualifications are lower than those of a resident denied admission.
- LSAT scores more than five years old will not be considered. When an applicant takes the LSAT more than once, we accept the highest score. Other factors, such as undergraduate major, improvement in the undergraduate GPA during the last years of study, grade inflation, working while in undergraduate school, and/or graduate work may be considered in reviewing an applicant's academic record.
- Two letters of recommendation are required. Additionally, the Admissions Committee likes to conduct personal interviews with each applicant.
- Applicants to whom admission is offered will be required to pay a \$425 (\$350 for MLS) non-refundable deposit, which will be applied toward the first semester's tuition. If the applicant does not enroll in the College of Law, the deposit is forfeited. The offered admission is good only for the semester for which it was granted. A deferment may be granted under special circumstances for one year. The fact that an applicant was admitted in a previous year but did not attend is given no weight in evaluating a subsequent application.
- Applicants will be notified when their files are complete. If any information is missing, the applicant will be notified in time to submit the information before the deadline.
- The application deadline is March 15. All applicants should be notified of their admission status by May 15.

1LS Program

The 1LS program, which runs from mid-June to early August, was designed to give a select group of admitted students a first-look at law school—and the chance to work ahead. Completing a few credits early allows you to lighten your course and final exam loads for the first year.

1LS students typically take the Legal Foundations course and one other first-year class over the summer (for a total of five credit hours), and then join the rest of their first-year cohort in the fall semester.

There is no separate application form for the 1LS program. Interested applicants must apply for both 1LS and fall admission on the OU Law application.

Early Entry Program

Begin work on your Juris Doctor during your final undergraduate year at the University of Oklahoma or Oklahoma State University.

OU Law's Early Entry Program allows select OU and OSU undergraduate students to begin law school, even before graduating with their undergraduate degree.

Upon the successful completion of the first year at OU Law, the student will also qualify for the Bachelor of Arts or Bachelor of Science degree at their respective university.

To be considered for first-year or early admission to the OU Law Juris Doctor program, applicants must meet the following educational criteria:

- Have completed 98 hours of undergraduate credit before the first day of law school including:
 - At least 30 semester credit hours at the student's undergraduate institution.
 - At least 15 semester credit hours of upper-division major credit courses at the student's undergraduate institution.
 - At least 15 of the last 30 semester credit hours before entering the College of Law at the student's undergraduate institution.
 - All other degree requirements for the undergraduate degree except elective hours.
- Have taken the Law School Admission Test (LSAT), or other graduate school admission test of suitable rigor, before the fall semester in which they begin law school.
- Have an LSAT score, or a score from another graduate school admission test of suitable rigor, as well as an undergraduate cumulative GPA that is comparable to the median LSAT and GPA score of the most recent class admitted to the College of Law.
- Have confirmation that the baccalaureate awarding institution agrees to participate with the stipulations of this policy, if applicable, while meeting all other State Regents' policies for baccalaureate degree requirements.

Transfer with Advanced Standing

To be considered for transfer with advanced standing, an applicant must have attended an ABA accredited law school. Students must complete one full year of study before being admitted and then successfully complete 60 hours at OU Law. OU Law will accept up to 30 hours of law credit taken at an ABA approved law school, in which the student earned a grade of C or better. Admission for transfer is based upon law school GPA, class standing, and various other factors.

Admissions Checklist:

To apply for transfer admission with advanced standing, the applicant must submit an application form through the LSAC website. Application materials include:

- \$50 nonrefundable application and processing fee
- Personal statement indicating your reasons for wanting to transfer to OU Law

- Resume
- Two letters of recommendation (optional)
- LSAC Credential Assembly Service Report
- Transcript and class rank from current law school (You may submit your application with fall grades and rank only, but a final decision will not be rendered until spring grades and rank are reported)
- A letter from the Associate Dean Of Academics or Registrar indicating you are in good academic standing and eligible to transfer

Transfer applicants are encouraged to apply online.

Students applying to transfer for the fall semester may submit their transfer application from March 15 to July 31st. Spring transfer applicants may process their application from Sept. 1 to Dec. 1 and are notified in December. Applicants will be notified as soon as a decision has been made.

A student cannot receive credit for work taken in another law school when enrolled at the same time in classes in the OU College of Law. When a student transfers to the College of Law from another school, grades at the other school will not be counted in determining the student's cumulative grade point average or class standing at the OU College of Law. Applicants who have been dismissed from another law school for scholarly deficiency or serious academic misconduct will not be considered for admission.

Visiting Student Admission Requirements

The law school grants a limited number of requests for admission to visiting students during the fall, spring, and summer terms. To be considered for admission as a visiting student, an applicant must:

- have completed the first-year curriculum at an ABA-accredited law school;
- be a student in good academic standing at current law school

Students who meet these requirements will be admitted as long as space is available at the law school. Visiting student applicants must submit the following:

- Completed visitor application (Contact the Registrar (rlucas@ou.edu or 405-325-4729) for the application.
- Dean's letter of good standing and permission to visit; along with any parameters under which the home school will accept the credits earned at OU Law towards their degree requirements (i.e., need to earn a C or better in each course, etc.).

Grades

The grades given in the College of Law and the numerical grade point value are as follows: A+ = 12, A = 11, A- = 10, B+ = 9, B = 8, B- = 7, C+ = 6, C = 5, C- = 4, D+ = 3, D = 2, D- = 1, F = 0. The grades of Incomplete (I), Withdrawal Passing (W), Administrative Withdrawal (AW), Satisfactory (S) and Unsatisfactory (U) have no numerical value and are not included in the calculation of a student's grade point average. Certain courses are graded on a Satisfactory (S)/Unsatisfactory (U) basis. Students do not have the option of choosing to be graded S/U.

Attendance

Regular attendance in courses is considered indispensable. Each professor must adopt and announce an attendance policy that meets the requirements of the American Bar Association and the Association of American Law Schools. When a student is absent an excessive number

of times, the professor may withdraw the student from the course, or the professor may lower the student's grade (even to failing) in the course.

The college is a full-time law school, and students are expected to devote substantially all their time to the study of law. Excessive outside work is discouraged. While the American Bar Association doesn't monitor this anymore, OU College of Law policy states that a student may not work in excess of 20 hours per week while enrolled full-time during the fall and spring semesters or at least five (5) hours during the summer semester. First year students are urged to forego any substantial outside activities until they have had ample opportunity to measure the demands of legal study upon their time and energy.

Course Load

The College of Law limits the number of hours in which a student may enroll during a semester, thus assuring each student the opportunity for sufficient concentration on each subject. First-year students may enroll only in prescribed first-year courses. Second- and third-year students should enroll in a minimum of 10 credit hours and a maximum of 18 credit hours in a regular semester and a minimum of 5 and a maximum of 10 credit hours in a summer session, to be considered full-time students. Course loads less than (i.e., not considered full-time) must be approved by the Associate Dean for Academics and Curriculum Committee. In no instance is a student allowed to enroll in more than 18 hours per the parameters set by the American Bar Association..

Class Rank

A student's class ranking is available when grades are processed each semester. Grades are available on the student's ONE account. Class rank is usually available within three days following the distribution of grades.

Code of Academic Responsibility

Conduct of law students in the law school is governed by a Code of Academic Responsibility. Each student is to abide by the Code, which represents the ethical standards of the legal profession. The complete text of the Code of Academic Responsibility is included in the first-year orientation materials, and is also available in the Student Services office.

Academic Appeals Board

The University of Oklahoma's "Joint Statement: Rights and Freedoms of Students" provides that students shall have "protection through orderly procedures against prejudiced or capricious academic evaluation." The rules of procedure governing proceedings before the Academic Appeals Board are provided in the Law Student Handbook, which can be found on the law student Courtyard.

Courses

ILAW 5000 Law Study Abroad 1-15 Credit Hours

Prerequisite: permission of the College of Law. Course is designed to facilitate student participation in law study abroad and reciprocal exchange programs. (Irreg.)

ILAW 6000 Law Study Abroad 1-15 Credit Hours

Prerequisite: permission of the College of Law. Course is designed to facilitate student participation in law study abroad and reciprocal exchange programs. (Irreg.)

- LAW 5000 Professional Writing for Litigators** 2-3 Credit Hours
Prerequisite: Legal Research & Writing I and II (LAW 5123 and LAW 5202). Provides students with the tools necessary to evaluate, modify, and design litigation documents (excluding substantive motions and briefs). The focus is on learning the processes necessary for effective written communication with clients and other professionals and for production of litigation-related documents. Completion of this course is required for the Litigation Certificate and does not satisfy any credit hour requirements for the J.D. (F, Sp)
- LAW 5003 Argumentation and Public Speaking for Lawyers** 3 Credit Hours
Prerequisite: admission to the College of Law. Explores the art of public speaking and argumentation to audiences typically encountered by lawyers. The course will focus on strategies and theories of communication that outline how to construct and deliver effective arguments, enabling students to hone their skills through practical applications. Completion of this course is required for the Litigation Certificate and does not satisfy any credit hour requirements for the J.D. (F, Sp)
- LAW 5010 International Student Private Law Firm Internship** 0 Credit Hours
Prerequisite: Admission to College of Law; Acceptance into a summer Internship; Must be an International student here on an F-1 Visa. This course allows international juris doctor students with F-1 Visas to work in a private law firm internship. During the internship, students gain substantive legal experience while learning about a variety of legal concepts. The students will gain real-world experience so that they graduate from law school with practical legal experiences and a well-rounded skill set. (Su)
- LAW 5103 Civil Procedure I** 3 Credit Hours
Civil procedure in state and federal courts; introductory survey of procedures by which questions of substantive law commonly are raised and determined; procedural and remedial background; law governing controversies in federal courts; details of procedure in a lawsuit, including forum selection, pleading, joinder of claims and parties, discovery, the pretrial conference, disposition without trial, trial before a judge or jury, post-trial motions and appeals; issue and claim preclusion. (F)
- LAW 5114 Contracts** 4 Credit Hours
Prerequisite: admission to College of Law. Basic first-year survey course which explores the nature and enforceability of promises. Subjects include contract formation, performance, termination of contracts, material breach, remedies for breach of contract, mistake and excuse for nonperformance, statute of frauds, interpretation of contract language, conditions, assignment and delegation, and third party beneficiaries. (F)
- LAW 5123 Legal Research, Writing & Analysis I** 3 Credit Hours
Prerequisite: admission to the College of Law. Focuses on the legal research, writing, and communication skills necessary for a lawyer to identify a client's legal issue; research and understand the relevant law; and precisely and objectively analyze how the law applies to the client's situation, so the lawyer can advise the client or decide how to best meet the client's goals. (F)
- LAW 5130 Lincoln, the Constitution and the Crisis of the Union** 2-3 Credit Hours
2 to 3 hours. Prerequisite: LAW 5134. Study of: 1) the constitutional debate about the character of a 'more perfect union' and federalism prior to 1861; 2) the limited commitment to human rights in the pre-1868 Constitution, and the antebellum inspirations for the Reconstruction constitutional amendments; 3) the national government's powers to preserve the Union, and the South's claim of a constitutional right to secede. (F, Sp)
- LAW 5134 Constitutional Law** 4 Credit Hours
Selected issues, including: judicial review; the judicial process in construing and applying the United States Constitution; federal and state powers, federalism and separation of powers; an introduction to the concepts of equal protection and due process. (Sp)
- LAW 5144 Torts** 4 Credit Hours
Prerequisite: admission to the College of Law. Introduction to basic principles of civil liability, with study of selected issues, which may include intentional wrongs, negligence, strict liability, vicarious liability, defenses and immunities, comparative fault, assessment of damages, nuisance, products liability, misrepresentation, injuries to reputation, and alternative compensation systems. (F, Sp)
- LAW 5153 Supreme Court Theory and Practice** 3 Credit Hours
Prerequisite: LAW 5134. In this course on the decision-making processes and practices before and behind-the-scenes at the Supreme Court, students act as law clerks assisting in the review of pending certiorari petitions; lawyers arguing pending cases; justices voting on those cases and drafting judicial opinions deciding them; and scholars studying the Court's role as a key and controversial institution in our constitutional democracy. (F, Sp)
- LAW 5201 Introduction to Brief Writing** 1 Credit Hour
Prerequisite: Admission to the College of Law and LAW 5123. Introduction to the principles and practice of written advocacy. Students complete a trial-level motion brief and appellate brief. While building on the analytical, writing, and research skills learned in LRWA I, this course focuses on the lawyer's need to become self-directed and reflective while engaging in increasingly complex research, legal analysis, writing, and editing for persuasion. (Sp)
- LAW 5202 Legal Research, Writing & Advocacy II** 2 Credit Hours
Introduction to oral advocacy and brief writing. (Sp)
- LAW 5203 Civil Procedure II** 3 Credit Hours
Civil procedure in state and federal courts; introductory survey of procedures by which questions of substantive law commonly are raised and determined; procedural and remedial background; law governing controversies in federal courts; details of procedure in a lawsuit, including forum selection, pleading, joinder or claims and parties, discovery, the pretrial conference, disposition without trial, trial before a judge or jury, post-trial motions and appeals; issue and claim preclusion. (F)
- LAW 5223 Criminal Law** 3 Credit Hours
General principles of criminal responsibility and the elements of common law, statutory crimes, and defenses. Emphasis is placed on the subject of criminal intent. (Sp)
- LAW 5234 Property** 4 Credit Hours
Introduction to basic property concepts, including: adverse possession; estates in land; landlord and tenant; concurrent estates; nonpossessory interests (including easements, licenses, covenants and equitable servitudes); and real estate transactions. (Sp)

- LAW 5301 Oral Advocacy 1 Credit Hour**
Prerequisite: Admission to the College of Law and LAW 5201. Using appellate briefs written in Introduction to Brief Writing, students will study principles of oral advocacy and learn to effectively organize and make affirmative oral arguments and respond to questions and concerns in a simulated courtroom setting. The course culminates in three mock appellate-level oral arguments before panels of student judges, professors, practitioners, and judges. (Sp)
- LAW 5303 Criminal Procedure: Investigation 3 Credit Hours**
Prerequisite: LAW 5223. Examines the constitutional criminal procedure of police investigations, including the Fourth Amendment's protection against unreasonable search and seizure, the Fifth Amendment's guarantee of due process and privilege against compulsory self-incrimination, and the Sixth Amendment's right to counsel. (F, Sp)
- LAW 5314 Evidence 4 Credit Hours**
Presentation of evidence; judicial control and legal reasoning in the determination of issues of fact; topics relating to the admissibility of evidence, including relevancy, testimonial and real evidence; the original writing rule; and topics relating to the exclusion of evidence, including hearsay, the right of confrontation and privileged communications. (F, Sp)
- LAW 5323 Professional Responsibility 3 Credit Hours**
The nature of law as a profession; problems facing the profession and the individual lawyer. Fundamentals of legal ethics and responsibilities, with emphasis on the Model Rules of Professional Conduct of the American Bar Association. (F, Sp, Su)
- LAW 5403 Administrative Law 3 Credit Hours**
Basic considerations relating to administrative agencies, including nondelegation doctrine, fact versus law distinction, agency rule making, adjudication, due process requirements, information gathering, and judicial review. (F, Sp, Su)
- LAW 5410 Bankruptcy 3-4 Credit Hours**
3 to 4 hours. Rights and remedies of debtors and creditors; bankruptcy including liquidation, reorganization, and wage earner plans; attachment, judgment execution; garnishment, fraudulent conveyances, bulk sales and collection remedies including compositions and assignments. (F, Sp)
- LAW 5433 Corporations 3 Credit Hours**
Formation of corporations; duties and powers of corporate management; corporate control; shareholder rights, shares, dividends; derivative suits, fundamental changes and dissolution. (F, Sp)
- LAW 5434 Business Associations 4 Credit Hours**
Prerequisite: admission to the College of Law. Introduction to the law of business associations with a focus on the modern corporation. Particular attention is directed to organizational structuring and the allocation of control among stockholders, directors, and officers. Federal securities law is introduced, but not covered in a substantial manner. Limited attention will also be given to the basic principles of agency, partnerships, LPs, and LLCs. (F, Sp)
- LAW 5443 Family Law 3 Credit Hours**
The rights, obligations, and liabilities arising from marital and nonmarital relations; divorce; marital property alimony, child support. (F, Sp, Su)
- LAW 5450 The First Amendment 2-3 Credit Hours**
2 to 3 hours. Prerequisite: 5214. The First Amendment: Individual rights of expression, assembly, association and religion. Permissible government restrictions and regulations in relation to activities protected by the First Amendment. (Irreg.)
- LAW 5463 Income Taxation of Individuals 3 Credit Hours**
Structure of the federal income tax with emphasis on operation of the system through use of concepts such as income, basis, gains and losses, realization and recognition, exclusions and deductions. (F, Sp)
- LAW 5470 Wills and Trusts 3-4 Credit Hours**
3 to 4 hours. Intestate succession, execution, interpretation, amendment, revocation and contest of wills, rights of decedent's family, will substitutes and the avoidance of probate; creation, validity, funding, amendment and termination of trusts and the fiduciary obligation. (F, Sp)
- LAW 5520 Alternative Dispute Resolution 2-3 Credit Hours**
2 to 3 hours. Negotiation, mediation and arbitration; includes court-ordered arbitration, mini-trials, summary jury trials and other formal and informal means of resolving disputes short of formal court adjudication. (Irreg.)
- LAW 5530 Civil Pretrial Litigation 2-3 Credit Hours**
2 to 3 hours. The study of litigation tactics and techniques prior to trial. Included are discovery, motion practice, witness preparation, settlement, alternate dispute resolution, pretrial conferences, mini-trials, summary jury trials, and other related areas. (F, Sp)
- LAW 5533 Conflict of Law 3 Credit Hours**
The law relating to transactions with elements in more than one state or nation, jurisdiction of courts and enforcement of foreign judgments, choice of law problems, constitutional issues, and the theoretical basis of choice of law, including an introduction to the problems of renvoi and characterization. (Irreg.)
- LAW 5543 Federal Courts 3 Credit Hours**
Examines concepts of case or controversy, federal subject matter jurisdiction; supplemental jurisdiction; venue; removal; substantive law applied in federal courts; and the relationship of the state and federal courts. (Irreg.)
- LAW 5553 Remedies 3 Credit Hours**
A study of remedies available in court actions, including specific performance, injunctions, and other equitable remedies. (F, Sp)
- LAW 5602 Comparative Indigenous Peoples' Law Seminar 2-2 Credit Hours**
Prerequisite: admission to College of Law. Seminar will examine the differences and similarities between Canadian, United States, Australian and New Zealand laws affecting native peoples. Participants in the seminar will include students from law schools at University of Ottawa, University of Saskatchewan, Auckland University, and Monash University attending via television. Federal Indian law is not a prerequisite, but strongly recommended. (Sp)
- LAW 5603 Native American Natural Resources-MLS 3 Credit Hours**
Prerequisite: admission to Masters of Legal Studies Program. Provides an overview of the history of U.S. native policy and the basic doctrines of Indian law, then covers a variety of issues relating to tribal interests in and jurisdiction over environmental resources. Topics includes tribal rights to land; land use and environmental protection in Indian country; economic and natural resource development issues (including grazing, minerals, timber, and taxation); hunting and fishing rights; as well as international perspectives on indigenous resources. Throughout the course, students will consider the roles of the tribal, federal, and state governments in resource regulation and use. (F, Sp)

- LAW 5610 Federal Indian Law** **2-3 Credit Hours**
2 or 3 hours. The history of federal Indian policy and its impact on modern Indian problems; the Bureau of Indian Affairs; the federal government-Indian relationship and policy; tribal sovereignty; states' rights; criminal, civil, and taxing jurisdiction in Indian country; rights of individual Indians; tribal self-government; property rights; water rights; and hunting and fishing rights. (F).
- LAW 5623 Religion, Culture & Indian Law-MLS** **3 Credit Hours**
Prerequisite: admission to online Masters of Legal Studies Program. Examines the roles of law and policy on Native American religious and cultural practice. Explores issues relating to tribal interests and jurisdiction over Native religion and culture including information concerning preservation, restoration, and destruction of sacred sites and indigenous remains, the laws and practices pertaining to species protection and sacred species, institutionalized persons, as well as entheogens, protection of cultural and intellectual resources. International law as related to indigenous religions and culture is also explored. (F, Sp)
- LAW 5633 Native American Natural Resources** **3-3 Credit Hours**
Prerequisite: admission to College of Law. Covers a variety of issues relating to tribal interests in and jurisdiction over environmental resources. Course coverage includes tribal rights to land; land use and environmental protection in Indian country; economic and natural resource development issues (including grazing, minerals, timber and taxation), water rights, and hunting and fishing rights. (F, Sp)
- LAW 5642 Indigenous Peacemaking** **2 Credit Hours**
Prerequisite: admission to the College of Law. Students will compare and contrast Tribal Justice and the American Justice system, and the history of dispute resolution of Tribal Nations. Students will examine peacemaking through case studies demonstrating healing through justice. Peacemaking designs to restore harmony while developing the wisdom of consensus outcomes. Students will learn through study and participation the structure of the peacemaking circle and community development. (F, Sp)
- LAW 5663 Federal Indian Water Law-MLS** **3 Credit Hours**
Prerequisite: admission to Masters of Legal Studies Program. Explores the context, decisional and statutory law, and overarching policies that shape water law. Examines foundations in both federal Indian law and basic principles of water law, including relevant substantive and procedural law, and mechanics and social issues relating to water resource management. Also, explores state and federal powers and roles in relation to American Indian tribes and water resources; intergovernmental/ intercommunity conflict, as well as methods of management and resolution. (F, Sp)
- LAW 5673 Indian Gaming Laws & Regulations-MLS** **3 Credit Hours**
Prerequisite: admission to Masters of Legal Studies Program. Examines litigation and history of tribal gaming, along with critical decisions rulings on tribal/state compacting and scope of gaming conflicts. Explores tribal compacting experiences around the country with focus on Oklahoma tribes and the Oklahoma Model Gaming Compact of 2004. Distinguishes the regulatory roles of tribes, states and the feds and explores differences in Class II and Class III gaming, regulations and disputes. Explains creative approaches to financing and development of tribal gaming facilities. (F, Sp)
- LAW 5703 Antitrust Law** **3 Credit Hours**
Federal and state antitrust laws approached on the basis of type of conduct, i.e., monopolies, mergers, price control by private business, exclusive dealing contracts, fair trade pricing, agreements not to compete; discrimination in distribution and refusals to deal; and unfair trade practices. (F)
- LAW 5712 Corporate Drafting** **2 Credit Hours**
Prerequisite: LAW 5433 or LAW 5434. Will cover transactional drafting skills as well as business planning and counseling in the corporate setting. Students will draft a variety of corporate and transactional provisions and documents such as certificates of incorporation, bylaws, board resolutions, and proxy statements. (F, Sp)
- LAW 5713 Transactional Law Practicum I: Business Combinations** **3 Credit Hours**
Prerequisite: LAW 5433 or LAW 5434. This course offers the opportunity to learn about transactional law practice by completing a simulated public company corporate transaction. (F)
- LAW 5733 Unincorporated Business Entities** **3 Credit Hours**
Prerequisite: admission to the College of Law. Deals with the legal principles concerning association in business by agency, partnership, and other unincorporated forms. The agency relationship and its consequences are covered in detail. Unincorporated business organizations such as the general partnership, LP, and LLC are covered, focusing on topics such as formation, liability, fiduciary obligations, and dissolution. If time permits LLP and closely-held corporations will be included. (F, Sp)
- LAW 5740 Payment Systems** **2-3 Credit Hours**
2 to 3 hours. Course will cover the checking system, the credit and debit card system, electronic funds transfer, letters of credit, interest payments, negotiable instruments and the securities trading and settlement system. Substantive law would be Articles 3, 4, 4A, 5 and 8 of the UCC as well as the Expedited Funds Availability Act, parts of the Truth in Lending Act and the Electronic Funds Transfer Act (and implementing regulations.) (F, Sp)
- LAW 5743 Transactional Law Practicum II: Law of Innovation** **3 Credit Hours**
Prerequisite: LAW 5433 or LAW 5434. This course offers the opportunity to learn and experience the law of innovation by advising in a start-up context in a simulation. (Sp)
- LAW 5750 Secured Transactions** **3-4 Credit Hours**
3 to 4 hours. Prerequisite: admission to the College of Law. This course covers Article 9 of the Uniform Commercial Code. Topics include the establishment and perfection of security interests pursuant to credit sales contracts, problems of focusing on the interface between Article 9 and federal bankruptcy law, priority disputes among collateral claimants, default, and rights after default. Emphasis is placed on developing an understanding of the code's statutory scheme. (F, Sp)
- LAW 5753 Federal Securities Regulation** **3 Credit Hours**
Federal securities laws and the activities and industry they govern; the meaning of "security"; regulation of the issuance, sale, resale, and purchase of securities; disclosure requirements, generated by registration; anti-fraud provisions; and civil liability. (F, Sp)
- LAW 5763 Mergers and Acquisitions** **3 Credit Hours**
Prerequisite: prior or concurrent enrollment in 5433. Provides an understanding of the issues arising in business acquisition (and divestiture) transactions. Coverage is given to theories underlying acquisitions, alternative acquisition techniques and planning considerations that bear on the choice among those techniques. (Sp)

- LAW 5773 Consumer Finance Law 3 Credit Hours**
Prerequisite: Admission to College of Law. This course covers the law and finance of household lending. The course will go over basic financial principles and household lending laws to give students a background in these topics that will help them represent clients as well navigate their own personal financial lives. (F, Sp)
- LAW 5830 Criminal Procedure: Adjudication 2-3 Credit Hours**
2 to 3 hours. Prerequisite: LAW 5223. Examines the adjudicatory phase of our criminal procedure, beginning after arrest and continuing through to post-conviction matters. We consider federal constitutional provisions and rules of procedure, the policies underlying those requirements, and their impact on the roles of prosecution and defense counsel. (F, Sp)
- LAW 5913 American Legal History 3 Credit Hours**
Prerequisite: admission to College of Law. The development and characteristics of American legal institutions and basic themes in American law and legal philosophy. (Sp)
- LAW 5920 Complex Litigation 2-3 Credit Hours**
2 to 3 hours. Examines the procedure for preparation and trial of mass tort and other complex cases in federal court including: jurisdiction, joinder, intervention, consolidation, transfer, discovery, preclusion, class action, and trial procedures. (Irreg.)
- LAW 5980 Research for Master's Thesis 2-9 Credit Hours**
- LAW 6020 Comparative Law 2-3 Credit Hours**
2 or 3 hours. A comparison of the corresponding features of the American system of law and the systems of law of other nations. (F)
- LAW 6040 International Business Transactions 2-3 Credit Hours**
2 or 3 hours. Legal issues in international trade, licensing, and investment; limitations affecting movement of goods and flow of capital; organization, financing, and protection of international business; contract negotiation and dispute resolution and foreign investment. (F)
- LAW 6050 International Human Rights 2-3 Credit Hours**
2 to 3 hours. The sources, norms, institutions, and process of international human rights law; the incorporation of human rights law into domestic legal systems, particularly the United States. (Irreg.)
- LAW 6060 International Law Foundations 2-3 Credit Hours**
2 to 3 hours. An introduction to the international legal system: its structure, rules, and process; the incorporation of international law into domestic legal system, particularly in the United States; in current issues including dispute resolution, jurisdiction, environmental protection, human rights, and use of force. The course is not international business transactions or comparative law. (Sp)
- LAW 6100 Selected Legal Problems 1-4 Credit Hours**
1 to 4 hours. Involved current legal problems. Subject matter and course credit will be included with the enrollment instructions. (F, Sp)
- LAW 6110 Bioethics and the Law 2-3 Credit Hours**
2 to 3 hours. Legal, ethical, and economic analysis of problems posed by advances in biomedical technologies. Includes problems raised by behavior control through direct organic intervention, genetic engineering; extension of human powers and faculties by artificial means, human reproduction and death control; and regulation of experimentation involving human subjects. (Irreg.)
- LAW 6190 Health Law 2-3 Credit Hours**
2 or 3 hours. The legal aspects of medicine; civil liability of medical professionals and health care providers; organization and regulation of the medical profession; uses of medical science in litigation; selected health sciences and public policy issues such as human reproduction, the right to treatment, and mental health problems. (F, Sp)
- LAW 6210 Immigration Law 2-3 Credit Hours**
2 to 3 hours. Constitutional, statutory, and regulatory framework for the admission, exclusion, and deportation of non-citizens who seek immigrant and non-immigrant status in the United States; refugee and asylum law and policy, and citizenship acquisition. (F, Sp)
- LAW 6213 Intellectual Property Survey 3 Credit Hours**
Prerequisite: admission to the College of Law. Provides a high-level introduction to U.S. IP law. Specific areas of coverage include patents, trade secrets, trademarks, and copyright. This course is designed for students who plan to specialize in IP and would like a high-level overview, students who are not sure if they'd like to specialize IP, and students who plan to work in any commercial setting. (F, Sp)
- LAW 6223 Trademarks & Unfair Competition 3 Credit Hours**
Prerequisite: admission to the College of Law. This course provides an in-depth survey of U.S. law related to the law, theory, and institutions governing trademarks and unfair competition. Specific areas of coverage will include trademark registration, the scope and nature of trademark rights, rights of publicity, domain name disputes and the law of false advertising. (F, Sp)
- LAW 6311 American Indian Law Review 1 Credit Hour**
Production of a written note or comment for the Review or other approved activities associated with production of the Review. (F, Sp, Su)
- LAW 6313 Child Abuse Clinic 3 Credit Hours**
Prerequisite: 5443, 6113. Each student enrolls for an entire academic year for three hours each semester. (F, Sp, Su)
- LAW 6320 Directed Legal Research 1-2 Credit Hours**
1 to 2 hours. Legal research and writing under the supervision of a faculty member. The student must write a paper of sufficient quality to be considered for publication in a law review or other publication. A student may enroll in one or two credit hours with supervising faculty member's permission. (F, Sp, Su)
- LAW 6321 Competitions 1 Credit Hour**
Students who participate on a trial or appellate advocacy competition team sponsored by the College of Law and directly supervised by a faculty member may enroll in this course. (F, Sp)
- LAW 6323 Criminal Defense Clinic 3 Credit Hours**
Prerequisites: 5104, 5314, 5323, and legal intern license. Clinical experience providing students the opportunity to represent indigent defendants charged with municipal, misdemeanor and felony offenses in Cleveland and McClain Counties. Students handle every aspect of the defense of a criminal case, including interviewing, investigating, negotiating, litigating motions and conducting the trial. (F, Sp, Su)
- LAW 6331 Oil & Gas, Natural Resources, and Energy Journal 1 Credit Hour**
Prerequisite: admission to College of Law and ONE J membership. Production of case summaries of recently released court decisions on matters relating to oil and gas, natural resources, and/or energy. (F, Sp)
- LAW 6341 Appellate Advocacy Competitions 1 Credit Hour**
Prerequisite: Must be chosen for a competition team. Students will receive instruction on research, writing, and oral advocacy skills. Students participate in groups (teams) to research and write an appellate advocacy brief, and practice oral arguments. Students will compete in regional and national competitions. (F, Sp)

- LAW 6342 Advanced Persuasive Writing 2 Credit Hours**
Prerequisite: LAW 5123 and LAW 5202. We will approach persuasive writing from different practical and theoretical perspectives as we investigate why some writing is more persuasive than others and the specific steps we can take to make our legal writing more effective. Students continually critique contemporary examples, write, edit, and receive critique, having repeated opportunities to gain new insights and put them to use. (F, Sp)
- LAW 6360 Interviewing, Counseling and Negotiation 2-3 Credit Hours**
3 to 4 hours. Theoretical and practical aspects of interviewing, counseling and negotiation, including simulation of situations calling for these skills, taught in a lecture-workshop format with a lecture and demonstration on a particular topic each week, followed by small workshops in which students simulate the lawyer's role. (F, Sp)
- LAW 6363 Civil Clinic 3 Credit Hours**
Prerequisites: 5104, 5314, 5323 and intern license. Student interns, working from an office operated by the Law Center, participate in actual representation of low-income clients in civil trials and transactions. Experience is acquired through court appearances, jury and non-jury trials, interviewing, discovery, drafting of pleadings, negotiation and counseling under the supervision of the clinical legal education staff. Students maintain an active caseload and office hours. (F, Sp, Su)
- LAW 6382 Intermediate Legal Writing: Introduction to Non-litigation Drafting 2 Credit Hours**
Prerequisite: LAW 5123 and LAW 5202. Course will provide you with the tools necessary to design, evaluate, and modify non-litigation documents, including contracts, wills, client letters, and legislation. Students will identify document users, determine competing objectives and interests, choose among drafting alternatives consistent with the relevant law, and test the content and organization of documents for intended and unintended consequences. (Sp)
- LAW 6391 Oklahoma Law Review 1 Credit Hour**
Prerequisite: Oklahoma Law Review membership. Production of a written note or comment for the Review or other approved activities associated with production of the Review. (F, Sp, Su)
- LAW 6392 Advanced Legal Research 2 Credit Hours**
Prerequisite: LAW 5123 and LAW 5202. The ability to "find the law" is an important practical skill for attorneys. The goal of the course is to further develop a student's ability to find solutions to legal problems by formulating efficient and effective legal research strategies. This course emphasizes advanced online search techniques and explores how technology is impacting the delivery of legal information. (Sp)
- LAW 6400 Selected Legal Problems of Applied Nature 1-4 Credit Hours**
1 to 4 hours. Subject matter and course credit will be announced. (F, Sp)
- LAW 6410 Trial Techniques 2-3 Credit Hours**
2 to 3 hours. Prerequisite: 5314. An introduction to basic trial techniques under simulated trial situations. Students will conduct opening statements, direct and cross examination of witnesses, introduce and use exhibits, impeachment, expert examination, jury selection, closing arguments and a final trial. (F, Sp, Su)
- LAW 6412 Representing the Criminally Accused 2 Credit Hours**
Prerequisite: admission to the College of Law; LAW 5314 recommended. Focuses on the practical aspects of criminal defense, from the business end of private practice to practical considerations such as whether to litigate and how to negotiate better deals. Students select a fact pattern then draft and argue bond hearings, conduct a preliminary hearing and argue a pre-trial motion. Relevant handouts are provided and students will conduct legal research. (F)
- LAW 6422 Bar Exam Preparation I: Strategies and Tactics for Success 2 Credit Hours**
Prerequisite: admission to the College of Law. Designed to help get a jump on preparations to pass the bar, but IS NOT a substitute for commercial bar exam preparation courses. Students will review substantive law in at least three areas heavily tested on the bar exam as they learn and practice skills necessary to maximize scores on both the multiple choice and essay portions of the exam. (F, Sp)
- LAW 6501 Introduction to Petroleum Engineering and Geo-Sciences-MLS 1 Credit Hour**
Prerequisite: admission to Masters of Legal Studies Program. Presents an overview of the production life cycle from discovery to development and production of oil and gas. The course examines the different roles of the key players in each stage of this process. (F, Sp)
- LAW 6510 Energy and Natural Resources 2-3 Credit Hours**
2 to 3 hours. Regulation of natural resources capable of energy fuels production; environmental technological and economic impacts of coal, water, oil, gas, uranium, and solar energy sources through exploration, development, production, transportation, and end use; legal context of natural resource conservation, allocation, and distribution. (Irreg.)
- LAW 6523 Environmental Law 3 Credit Hours**
Common law and statutory approaches to environmental, economic, and technological impacts on society; jurisprudential underpinnings of environmental law; environmental administrative process and scope of judicial review; quality standards for land, air, and water, including minimal standards for preventing degradation or exhaustion of human and natural environments. (F, Sp)
- LAW 6540 Oil and Gas 3-4 Credit Hours**
3 to 4 hours. Nature of property interests in oil and gas; conveyancing of interests in oil and gas; legal interests created by oil and gas leases; the validity of leases; the habendum, drilling, and rental clauses; assignment of interests of lessor and lessee; rents and royalties; and the conservation of oil and gas. (F, Sp)
- LAW 6543 Copyright 3 Credit Hours**
Prerequisite: admission to the College of Law. Provides an in-depth survey of U.S. copyright law, theory, and policy. Topics will include the basic requirements for copyright protection, the nature and scope of the rights granted by the Copyright Act, and the normative foundations of copyright law. No technical background is required. (F)
- LAW 6550 Oil and Gas Contracts 2-3 Credit Hours**
2 to 3 hours. Examination of contracts used in the oil and gas industry for exploration, production and development of oil and gas properties and for investment; the nature of the relationships created by such contracts, the rights and duties of the parties, income tax consequences and governmental regulation of such contracts. (Sp)
- LAW 6552 International Petroleum Transactions 2 Credit Hours**
This course will study the international oil and gas business, a business that must be uniquely concerned with both public and private international law, as well as domestic law of the business entity's home state, the host government, and oftentimes, a third country. Students will study the sovereign rights to minerals, including disputes that arise between neighboring countries regarding boundary disputes. Students will look at how crude oil is bought and sold on the world market. Students will study the various types of host government contracts used by various countries to assign development rights to private companies, including how such rights are acquired, and study how disputes between a private company and host government are resolved. Students will also look at contracts between private companies engaged in exploration and production operations. (Sp)

- LAW 6560 Title Examination and Assurance 2-3 Credit Hours**
2 to 3 hours. A study of conveyancing, with emphasis on the examination of abstracts of title to real property. (F, Sp)
- LAW 6570 Real Estate Transactions 2-3 Credit Hours**
2 to 3 hours. The first two-thirds of the course covers the terms and legal issues involved in drafting, executing, and enforcing residential real estate contracts, including obtaining and evaluating title evidence prior to closing and recovery for breach of title guarantees. The last third of the course will introduce certain basic commercial real estate transactions, including processes and issues involved in housing subdivisions, condominiums, shopping centers, and commercial leases. (Irreg.)
- LAW 6580 Water Law 2-3 Credit Hours**
2 to 3 hours. The system of water rights; riparian, appropriation, and prescriptive rights; stream, surface, and ground water; transfer and termination of rights; injuries caused by water; development of water supplies; federal-state, interstate, and intrastate conflicts; water pollution control; federal and Indian rights and federal water resource problems. (F, Sp)
- LAW 6662 Employment Law Seminar 2 Credit Hours**
The law of employment, including personnel practices, employment contracts, employee rights and federal-state regulation of employer-employee relationships. (Irreg.)
- LAW 6680 Family and Law of Torts Seminar 1-2 Credit Hours**
1 to 2 hours. Tort liability within the family, family tort liability to third parties, injuries to family members, interference with family relationships, wrongful birth, and related topics. (Sp)
- LAW 6682 Law and Literature Seminar 2 Credit Hours**
Prerequisite: Admission to the College of Law. The format of the seminar will involve reading and discussion of selected classical and contemporary works which have a legal theme or influence. The grade will be based on a composite of class participation, short papers, and a group presentation on one of the assigned readings. (F, Sp)
- LAW 6692 Environmental Law Seminar 2 Credit Hours**
Prerequisite: Admission to the College of Law. The format of the seminar will involve reading and discussion of selected classical and contemporary scientific and legal works which have an environmental theme or influence. The grade will be based on a composite of class participation, short papers, and a group presentation on one of the assigned readings. (F, Sp)
- LAW 6700 Selected Legal Problems Seminar 1-4 Credit Hours**
1 to 4 hours. May be repeated twice with change of content. Involves current legal problems. Subject matter and course credit will be included with the enrollment instructions. (F, Sp)
- LAW 6732 War Crimes Tribunals Seminar 2 Credit Hours**
Prerequisite: admission to the College of Law. Examines various judicial institutions established outside the control of national legal systems for the prosecution of certain international atrocity crimes, including the International Criminal Tribunals for Yugoslavia and Rwanda, the Extraordinary Chambers of the Cambodian Courts and the Special Court of Sierra Leone. Attention will be paid to the background, jurisdiction, procedures, substantive law and daily operations of such institutions. (F, Sp)
- LAW 6742 The International Criminal Court Seminar 2 Credit Hours**
Prerequisite: admission to the College of Law. Examines the International Criminal Court, the first permanent institution to prosecute atrocity crimes. Beginning with the creation of the ICC, the course will address the ICC's jurisdiction, substantive crimes, trial, appeal and punishment, while exploring situations and cases before the ICC. Discussions will include the future of the court, its emerging jurisprudence and the United States' evolving perspective and involvement. (F, Sp)
- LAW 6752 Comparative Responses to Terrorism and Political Violence Seminar 2 Credit Hours**
Prerequisite: admission to the College of Law. Examination of a wide range of legal issues related to terrorism and governmental responses. Topics include the framework of separate branches of government with shared national security power; fighting terrorists and international criminals; and protecting national security information in a democratic society. (F, Sp)
- LAW 6762 Comparative Criminal Law Seminar 2 Credit Hours**
Prerequisite: admission to the College of Law. Review and comparison of select criminal law issues in various national legal systems. Issues include the purpose and benefits of studying comparative law generally while covering specific topics including, among others, police powers and investigations, the role of the judiciary, role of the jury, due process concerns and the objectives of punishment. (F, Sp)
- LAW 6772 Federal Sentencing Seminar 2 Credit Hours**
Prerequisite: admission to College of Law. Examines aspects of sentencing unique to the federal court system, including application of complex sentencing guidelines. Federal sentencing provides one of the last frontiers for pure legal advocacy, as litigants seek departures or variances to fit the circumstances of the case while providing insight into the victims and/or defendants. Both critical guideline analysis and creative argument are reviewed and applied. (F, Sp)
- LAW 6782 Perspectives on Governmental Law 2 Credit Hours**
Prerequisite: admission to the College of Law. Seminar designed around three vantage points or "perspectives" of Governmental legal practice – Federal, State, and Tribal. Each perspective highlights the unique legal issues of governmental practice. Perspectives will be taught in a mentoring style. Topics will include: the duty to serve the public interest, open government, policy making, and the role of the lawyer advisor. (F)
- LAW 6820 Business Tax 3-4 Credit Hours**
3 to 4 hours. Prerequisite: LAW 5463. This course surveys the federal income tax laws on organizing and running businesses as corporations, partnerships, S corporations, and LLCs. Also, the course looks at the taxation of oil and gas operations including exploration, development, production, and abandonment. No technical background is required. (F, Sp)
- LAW 6830 Pensions and Employee Benefit Plans 2-3 Credit Hours**
2 to 3 hours. Planning, establishment, and administration of pension, health care and other employee benefit plans under the tax and labor laws. (Irreg.)
- LAW 6832 Partnership Tax 2 Credit Hours**
Prerequisite: 5463. Subchapter K of the Internal Revenue Code, involving taxation of partnerships and partners. (F)
- LAW 6840 Tax Procedure 2-3 Credit Hours**
2 to 3 hours. Prerequisite: 5463. Federal tax procedure and conflict resolution, including administrative practice, trial and appellate review. (Irreg.)

LSG 5001 Legal Research & Sources of Law 1 Credit Hour

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Designed to provide you with the tools necessary to perform thorough and efficient legal research using resources from commercial databases, print publications, and relevant websites; understand the importance of using citators, key numbers, annotations, and other techniques in the research process; and use proper legal citation to show support for your legal analysis. (F, Sp, Su)

LSG 5013 Business Organizational Structures & Governance 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Designed to provide the tools necessary to understand the purposes, risks, and benefits of various business organizational structures and the laws governing their formation, operation, and dissolution. Students will apply information to evaluate risks, benefits, and ethical considerations relevant to organizational structure and governance. (F, Sp, Su)

LSG 5023 Regulatory and Administrative Law 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Administrative agency law dominates the modern legal system. This course focuses on understanding the intersection between legislative and administrative regulations, administrative rulemaking, the roles of state and federal agencies in interpreting statutes and regulations, and judicial review of agency decision making. (F, Sp, Su)

LSG 5033 Contract Law 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Introduces students to contract formation and the legal significance of contracts. Specific topics include the requirements for formation of a contract (such as offer and acceptance), justifications for enforcing promises (such as consideration or detrimental reliance), justifications for denying or limiting enforcement (such as unconscionability or mistake), interpretation of contract terms, and remedies for breach of contract. (F, Sp, Su)

LSG 5043 Processes in Dispute Resolution 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Formal dispute resolution of legal disputes in the civil context includes the following: (1) Arbitration; (2) Mediation; or (3) Litigation. Students will learn the costs, benefits, and risks of each; finality of decisions; the legal requirements and ethical standards governing the various processes; and considerations of time and intangible personal costs. (F, Sp, Su)

LSG 5222 Foundations of the U.S. Legal System 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. An introduction to the study of law. Students will learn the vocabulary of the law; understand the intersections and hierarchy of federal and state constitutions, statutes, cases, and administrative rules; and enhance critical thinking skills through the analysis of a broad array of legal materials. (F, Sp, Su)

LSG 5233 Written & Oral Communication 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Focuses on effective, clear, and concise writing and communication for a legal audience. Students will learn best practices in predictive and persuasive communication and document drafting while applying legal authorities in a factual context. (F, Sp, Su)

LSH 5902 Introduction to the American Legal System 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Program. Examines the United States court system, the role of the Constitution, and other foundations in US law and their relation to the healthcare system. Introduces students to fundamental principles in US law. Explains how law functions with our society and how it plays a role in conflict resolution, civil liberties, equality, in contracts, and interacts with the U.S. healthcare system. (F, Sp)

LSH 6102 Structure of Health Care Enterprises: Legal Forms, Governance, and Relationships 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. The course will cover the different legal forms a healthcare enterprise can take, including; Non-profits, physician owned, government owned, and Hospital systems. This course will also familiarize students with the contents and role of organizational documents, Governance issues, fiduciary duties, issues for tax exempt organizations, and relationships between Physicians and tax-exempt entities. (F, Sp, Su)

LSH 6112 Sources and Types of Liability of Healthcare Institutions and Professionals 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Will discuss how the healthcare providers and institutions can be held liable as well as the consequences of agency and contractor status. In addition, this course will cover the elements of negligence in cases involving healthcare professionals. (F, Sp, Su)

LSH 6123 Regulation of Private Health Insurance, Managed Care 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. This course will cover the regulation of health insurance companies with a focus on changes brought about by the Affordable Care Act (ACA). Students will become familiar with managed care concepts and analyze key components of health care plans. (F, Sp, Su)

LSH 6132 Quality Control: Licensing, Accreditation, and Quality Regulation 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Designed to introduce students to the laws, agencies, and other bodies that license, regulate and discipline physicians. Topics covered will include licensing proceedings and hearings and health care entity policies addressing these issues. (F, Sp, Su)

LSH 6142 Professional Relationships in Health Care Enterprises 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Covers professional relationships between and among healthcare enterprises and the differences and between direct employment and independent practitioners with privileges when looking at; credentialing, disciplinary issues, and the Healthcare Quality Improvement Act. (F, Sp, Su)

LSH 6152 HIPAA/Patient Privacy 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Explores the federal regulatory scheme designed to protect the privacy and security of health information. Topics covered include; Entities and information to which the Health Insurance Portability and Accountability Act of 1996 (HIPAA) applies, HIPAA compliance and enforcement, American Recovery and Reinvestment Act (ARRA), and the Health Information Technology for Economic and Clinical Health (HITECH) Act. (F, Sp, Su)

- LSH 6153 Overview of Public Health Care Programs 3 Credit Hours**
Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Will cover public health insurance (including Medicare, Medicaid, government hospitals, and other government-financed health programs). In addition, this course will cover what treatment is required of anyone coming into an Emergency department by the Emergency Medical Treatment and Labor Act (EMTALA). (F, Sp, Su)
- LSH 6162 Health Information Management 2 Credit Hours**
Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Will cover health information law and policy as it pertains to data security and privacy of electronic health records in the United States. Students will examine how individual health information is collected, maintained, and transferred in this electronic information age, and the ramifications when such information is improperly protected, stolen, and misused. (F, Sp, Su)
- LSH 6172 Health Care Transactions and Contracts 2 Credit Hours**
Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. This course covers the business, regulatory, and legal issues that arise in healthcare business transactions: asset sales, mergers, joint ventures, procurement contracts, and the application of tax laws to transactions. In addition, this course will cover the fundamental principles of contract law and the role of valuations in healthcare transactions. (F, Sp, Su)
- LSH 6173 Fraud and Abuse Claims 3 Credit Hours**
Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Will cover federal physician self-referral law, fraud and abuse law. Students will learn the statutes, regulations, and advisory opinions that define the parameters of physician referrals and anti-kickback laws, analyzing case studies for those issues. Students will familiarize themselves with the False Claims Act and other laws, regulations, and government regulatory actions designed to combat false claims and fraudulent activities. (F, Sp, Su)
- LSH 6182 Coding and Billing 2 Credit Hours**
Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Provides students with working knowledge of the business side of medicine: medical record documentation, coding and billing. This course will provide students with an in-depth knowledge of the legal role of the medical record, specifically in the context of obligations for the organization of the medical record and its support for reimbursement of services. (F, Sp, Su)
- LSH 6183 Experiencing a Simulated Investigation 3 Credit Hours**
Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Prepares students for experiencing an investigation including how to prepare for potential investigation and how to respond to and cooperate with an investigation. A portion of the course will involve live simulation exercises. (F, Sp, Su)
- LSH 6192 Anti-Trust Issues in Healthcare Delivery 2 Credit Hours**
Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Program. Focuses on antitrust issues relevant to health care providers: hospital and physician mergers, virtual mergers and joint ventures; exclusive contracts and other medical staff exclusion issues; covenants not to compete; managed care plans; antitrust defenses such as state action, nonprofit, learned profession, efficiencies, failing business, etc.; and federal and state healthcare antitrust regulatory efforts, including healthcare collaborative guidelines. (F, Sp, Su)
- LSI 5101 Introduction to Legal Research 1 Credit Hour**
Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Provides students with an understanding of the most efficient and cost-effective tools and methods for researching U.S. and tribal law. It includes lecture sessions, hands-on research training, and practical exercises across a range of subject areas for both print and electronic sources. (F, Sp, Su)
- LSI 5603 Native American Natural Resources 3 Credit Hours**
Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Covers basic doctrines of Indian law and a variety of issues relating to tribal interests in and jurisdiction over environmental resources. Topics include tribal rights to land; land use and environmental protection in Indian country; economic and natural resource development issues; hunting and fishing rights; and international perspectives on indigenous resources. Consider the roles of tribal, federal, and state governments. (F, Sp, Su)
- LSI 5613 Criminal Jurisdiction in Indian Country 3 Credit Hours**
Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Traces the development the rules governing the exercise of criminal jurisdiction in Indian Country by three sovereigns: federal government, state government, and tribal government. Materials examined include historical treaties, major federal statutes, and U.S. Supreme Court decisions. Students should finish the course with the ability to understand, analyze and contribute meaningfully to discussions regarding criminal jurisdiction problems in Indian Country. (F, Sp, Su)
- LSI 5622 History of Federal Indian Law and Policy I 2 Credit Hours**
Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Traces the development of British colonial and United States policy towards indigenous peoples in North America from the Seventeenth Century through the major policy initiatives of the Nineteenth Century. (F, Sp, Su)
- LSI 5623 Religion, Culture & Indian Law 3 Credit Hours**
Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Examines the roles of law and policy on Native American religious and cultural practice. Explores issues relating to tribal interests and jurisdiction over Native religion and culture including information concerning preservation, restoration, and destruction of sacred sites and indigenous remains, laws and practices pertaining to species protection and sacred species, institutionalized persons, entheogens, protection of cultural and intellectual resources. (F, Sp, Su)
- LSI 5632 History of Federal Indian Law and Policy II 2 Credit Hours**
Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Traces the development of British colonial and United States policy towards indigenous peoples in North America from the major policy initiatives of the Nineteenth Century to the present day. (F, Sp, Su)
- LSI 5643 International Indigenous Peoples Law 3 Credit Hours**
(Crosslisted with LSIB 5643) Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Explores the development of international law rules relating to the rights of indigenous peoples from the early 20th Century through the present, focusing on modern international institutions and instruments including the UN Declaration on the Rights of Indigenous Peoples. (F, Sp, Su)

LSI 5653 Civil Jurisdiction in Indian Country 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Addresses regulatory and adjudicatory authority, including the history of Federal-Tribal relations, tribal recognition, the scope of Indian Country, and tribal sovereignty as it relates to civil jurisdiction. State-Tribal struggles over jurisdiction, recent Supreme Court diminishment of tribal authority, environmental regulations and the tribal role within the system of cooperative federalism are also examined. (F, Sp, Su)

LSI 5663 Federal Indian Water Law 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Explores the context, decisional and statutory law, and overarching policies that shape water law. Examines foundations in both federal Indian law and basic principles of water law, including relevant substantive and procedural law, and mechanics and social issues relating to water resource management. Also, explores state and federal powers and roles in relation to American Indian tribes and water resources. (F, Sp, Su)

LSI 5673 Indian Gaming Laws & Regulations 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Examines litigation, history of tribal gaming, critical rulings on tribal/state compacting, and scope of gaming conflicts. Explores tribal compacting experiences around country focusing on Oklahoma tribes and Oklahoma Model Gaming Compact of 2004. Distinguishes regulatory roles of tribes, states, and feds. Explores differences in Class II and III gaming, regulations and disputes. Explains financing and development of tribal gaming facilities. (F, Sp, Su)

LSI 5693 The Indian Child Welfare Act & Family Law in Indian Country 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Indian Child Welfare Act, passed by Congress (1978), grants tribes and parents of Indian children special rights within state court systems. ICWA raises significant issues for courts, and often serve as the flashpoint of tribal/state disputes. Student will understand the clash of sovereigns and the state laws involving children. Covers requirements of ICWA and varying ways states have interpreted them. (F, Sp, Su)

LSI 5723 Tribal Courts in Indian Country 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. This course examines the relationship between Tribal Nations and the three main sovereigns: Federal government, state governments, and tribal governments. Students will understand, analyze and discuss the importance of tribal court to tribal sovereignty, the tribal people, and to specific tribal cultures. (F, Sp, Su)

LSI 5911 Introduction to the American Legal System 1 Credit Hour

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Examines U.S. courts, role of Constitution in U.S., and foundations of United States law. The goal is to introduce students to distinctive aspects and/or fundamental principles in U.S. law. This course explains how law functions with various aspects of our society and how it plays an increasingly significant role in conflict resolution, civil liberties and equality, contracts, and property agreements. (F, Sp, Su)

LSIB 5002 Sources of International Law-MLS 2 Credit Hours

Prerequisite: admission to Masters of Legal Studies in International Business Law Program. Teaches students the core skills of finding and using various sources of international and transnational business law including bilateral and multinational treaties, uniform international rules and principles, decisions of international and transnational adjudicatory organizations, and European Union directives and decisions. (F, Sp, Su)

LSIB 5012 Introduction to Legal Studies 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. A general introduction to the nature and structure of national, international, and transnational legal systems. It introduces the students to the common law and civil law legal systems as well as the international and transnational organizations and structures of international and transnational business law such as the European Union, NAFTA, the WTO, UNCITRAL. (F, Sp, Su)

LSIB 5013 Business Organizational Structures & Governance 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Designed to provide the tools necessary to understand the purposes, risks, and benefits of various business organizational structures and the laws governing their formation, operation, and dissolution. Students will apply information to evaluate risks, benefits, and ethical considerations relevant to organizational structure and governance. (F, Sp, Su)

LSIB 5023 Regulatory and Administrative Law 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Administrative agency law dominates the modern legal system. This course focuses on understanding the intersection between legislative and administrative regulations, administrative rulemaking, the roles of state and federal agencies in interpreting statutes and regulations, and judicial review of agency decision making. (F, Sp, Su)

LSIB 5033 Contract Law 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Introduces students to contract formation and the legal significance of contracts. Specific topics include the requirements for formation of a contract (such as offer and acceptance), justifications for enforcing promises (such as consideration or detrimental reliance), justifications for denying or limiting enforcement (such as unconscionability or mistake), interpretation of contract terms, and remedies for breach of contract. (F, Sp, Su)

LSIB 5043 Processes in Dispute Resolution 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Formal dispute resolution of legal disputes in the civil context includes the following: (1) Arbitration; (2) Mediation; or (3) Litigation. Students will learn the costs, benefits, and risks of each; finality of decisions; the legal requirements and ethical standards governing the various processes; and considerations of time and intangible personal costs. (F, Sp, Su)

LSIB 5112 International Payment Systems 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Students will examine some of the key international payment systems: Letters of Credit, wire transfers, international netting, and the SWIFT system. The main themes will include risks associated with fraudulent transactions and the allocation of credit risk throughout the payment systems. (F, Sp, Su)

LSIB 5113 Comparative Corporate Law 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Examines the differences between corporate law in civil law countries and corporate law in the Anglo-American world. Aspects of corporate law to be compared include: the formation process, capital requirements and distributions, duties and liabilities of management, the powers of the general meeting vis-a-vis the powers of the management bodies, minority shareholders' protection, and creditor protection. (F, Sp, Su)

LSIB 5122 Combating International Corruption 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Introduction to the principles of US Foreign Corrupt Practices Act (FCPA) and the OECD Convention on Combatting Bribery of Foreign Public Officials in International Business Transactions other transparency initiatives, which is important for any business with an overseas presence. It is practically focused on the need for compliance planning and transaction screening and reporting to prevent violating the FCPA provisions. (F, Sp, Su)

LSIB 5123 European Union Business and Competition Law 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Provides an introduction to the subject of European Law. Students will learn the unique structure of the EU and the Common Market including how directives are made and implemented. It will then focus on a few specific areas of law including: free movement of goods, employment, taxation, and competition law. (F, Sp, Su)

LSIB 5132 International Sanctions Regimes 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Provides an overview of the international sanctions regimes. It explores the processes by which UN, other multilateral, and unilateral sanctions are imposed and how sanctions impact the way business is conducted. A few country specific sanctions provisions will be explored. (F, Sp, Su)

LSIB 5133 International Sales and other Business Transactions 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Focuses on the legal aspects of commercial activity that takes place in two or more countries. It will examine the sale of goods and services across national boundaries, licensing of intellectual property, foreign investment, and the core principles of international taxation and antitrust law. (F, Sp, Su)

LSIB 5143 International Commercial and Investment Arbitration 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Examines international arbitration as a system of private justice, focusing on the five building blocks of international arbitration - the agreement to arbitrate, arbitral rules of procedure, international conventions on the enforcement of arbitration agreements, national arbitration laws, and relevant decisions of national courts - and comparing arbitration with other forms of dispute resolution. (F, Sp, Su)

LSIB 5153 International Business, Human Rights, and Corporate Responsibility 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Looks at the appropriate role and responsibilities of multinational corporations with respect to human rights. Will examine the United Nations (UN) and Organization for Economic Cooperation and Development (OECD) guidelines for business and human rights as well as the UN's decision to draft a treaty on this topic as well as national regulations and potential litigation risks. (F, Sp, Su)

LSIB 5233 Written & Oral Communication 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Focuses on effective, clear, and concise writing and communication for a legal audience. Students will learn best practices in predictive and persuasive communication and document drafting while applying legal authorities in a factual context. (F, Sp, Su)

LSIB 5643 International Indigenous Peoples Law 3 Credit Hours

(Crosslisted with LSI 5643) Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Explores the development of international law rules relating to the rights of indigenous peoples from the early 20th Century through the present, focusing on modern international institutions and instruments including the UN Declaration on the Rights of Indigenous Peoples. (F, Sp, Su)

LSIB 6100 Selected Legal Problems 1-4 Credit Hours

1 to 4 hours. Involved current legal problems. Subject matter and course credit will be included with the enrollment instructions. (F, Sp)

LSIB 6112 International Finance: Capital Markets 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Examines laws and institutions governing global capital markets, as well as the applicability of US Securities regulation abroad. The major markets and exchanges covered include London, Europe, and Hong Kong. It will examine attempts at and challenges to international harmonization. In addition to primary capital market transactions, it will also consider cross boarder public merger and takeover regulations and practices. (F, Sp, Su)

LSIB 6113 International Trade and Investment 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Examines regulation of trans-border trade on a global level. Explores laws and institutions which regulate the flow of international trade and foreign investment. Major institutions covered include World Trade Organization, International Monetary Fund, International Bank for Reconstruction and Development (World Bank), European Union, North American Free Trade Agreement, and Asian regional institutions. (F, Sp, Su)

LSIB 6122 International Finance: Banking and Structured Finance 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Covers the international regulation of the market for bank financing. Principles of capital adequacy, safety and soundness, and systemic risk will be introduced. The process of syndication and global structured finance will also be explored. Finally, the course will introduce the topic of anti-money laundering regulation. (F, Sp, Su)

LSIB 6132 International Energy 2 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Provides a broad review of international energy resources and production. It covers energy sources and distribution, including hydrocarbons and renewables; administrative organization and applicable legislative/regulatory framework; in addition to an overview of climate change and related international goals, and the effect of energy on indigenous populations, human rights, and environment. (F, Sp, Su)

LSO 5112 Foundations of Contract Law for the Energy Industry 2 Credit Hours

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. Explores the formation, drafting, interpretation and enforceability of contractual promises. Subjects include contract formation, performance, termination of contracts, material breach, remedies for breach of contract, mistake and excuse for nonperformance, statute of frauds, interpretation of contract language, conditions, assignment and delegation, and third party beneficiaries. (F, Sp)

LSO 5232 Introduction to Property Law and Natural**Resources 2 Credit Hours**

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. Provides an introduction to basic property concepts relevant for the oil and gas and energy industries, including: adverse possession; estates in land; mineral title, surface title, co-ownership, non-possessory interests (including easements, real covenants and equitable servitudes). (F, Sp)

LSO 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

LSO 6352 Negotiations, Communication, and Ethics 2 Credit Hours

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. Teaches effective negotiation and communication skills through a series of mock negotiation exercises. In addition, this course will discuss ethical dilemmas raised in the oil and gas industry. (F, Sp)

LSO 6501 Introduction to Petroleum Engineering and Geo-Sciences 1 Credit Hour

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. Presents an overview of the production life cycle from discovery to development and production of oil and gas. The course examines the different roles of the key players in each stage of this process. (F, Sp)

LSO 6502 Project Economics and Finance 2 Credit Hours

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. Introduces the economics and finance of capital-intensive projects, especially those involving power generation, public infrastructure, and extractive industries. Students will receive a broad overview of the project finance market, showing a typical project finance deal and the main players involved. The costs, benefits, and risks associated with project finance are also described. (F, Sp)

LSO 6511 Midstream Oil and Gas Law 1 Credit Hour

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. Provides an overview and an examination of the legal issues facing the midstream oil and gas industry. The midstream industry provides the infrastructure necessary to gather, process, transport, store and market crude oil, natural gas, natural gas liquids, and refined products. (F, Sp)

LSO 6512 Oil and Gas Law 2 Credit Hours

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. Nature of property interests in oil and gas; conveyancing of interests in oil and gas; legal interests created by oil and gas leases; validity of leases; habendum, drilling, and rental clauses; assignment of interests of lessor and lessee; rents and royalties; and conservation of oil and gas. (F, Sp)

LSO 6513 Oil and Gas Regulatory Practice 3 Credit Hours

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. Offers a practical skills approach to oil and gas practice. This course will examine the regulation of oil and gas exploration, development, and production, including conservation law designed to prevent waste and protect correlative rights. The class will address securing a drilling permit, settling surface damages, well spacing and density. (F, Sp)

LSO 6522 Legal Drafting 2 Credit Hours

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. How does one discover a client's objectives and then translate them into legal text (contracts, etc.) that has the best chance of accomplishing what the client wants? This skills course considers many different forms of legal drafting, focusing primarily on legal work intended for oil and gas contracts and surface-related agreement drafting. (F, Sp)

LSO 6531 Legal Research for the Energy Industry 1 Credit Hour

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. Students will be instructed on how to conduct energy-related research using a variety of sources, but especially using online resources. (F, Sp)

LSO 6553 Oil and Gas Contracts 3 Credit Hours

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. Examination of specific provisions in contracts prevalent in the oil and gas industry for exploration, production, and development of oil and gas properties and for investment; the nature of the relationships created by such contracts; the rights and duties of the parties; income tax consequences of particular contracts. (F, Sp)

LSO 6563 Mineral Title Examination 3 Credit Hours

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. Examines the study of the relevant law relating to and the preparation of a drilling title opinion and a division order title opinion in Oklahoma, Texas, and other states. (F, Sp)

LSO 6572 Real Estate Transactions 2 Credit Hours

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. A study of the terms and legal issues involved in drafting, executing, enforcing, and recording real estate contracts, including obtaining and evaluating title evidence, different types of deeds, and basic financing. (F, Sp)

LSO 6573 Oil & Gas Development of Public Lands 3 Credit Hours

Prerequisite: Admission to the Master of Legal Studies and/or Master of Laws Programs. Examines the oil and gas leasing and development of onshore federal, state, and Indian lands. Explores the leasing of railroad rights of way and lands belonging to local governments. (F, Sp)

LSO 6581 Water Law for the Energy Industry 1 Credit Hour

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. The system of water rights as related for energy extraction and development, including riparian, appropriation, and prescriptive rights; stream, surface, and ground water; transfer and termination of rights; injuries caused by water; development of water supplies; federal-state, interstate, and intrastate conflicts; water pollution control; federal and Indian rights; and federal water resource problems. (F, Sp)

LSO 6592 Oil and Gas Environmental Law 2 Credit Hours

Prerequisite: Admission to Masters of Legal Studies and/or Master of Laws Programs. Examines federal and state environmental laws that affect oil and gas lease transactions, drilling and completion operations, and production activities. (F, Sp)

Law, LL.M.

Overall GPA - Combined and OU: 5.00

Minimum Total Hours: 24

Program Code: M360/M361 (Online)

The John. B Turner LL.M. Program allows students to earn a Master of Laws degree with specializations in energy and natural resources, indigenous people's law, or US Legal Studies (for internationally educated lawyers). OU Law provides Master of Law students outstanding opportunities such as studying in the classroom with world class faculty and juris doctor students and attending guest lectures, field trips, social

events, and networking opportunities. Master of Laws students may also receive credit for related courses offered by other OU departments.

Admission Requirements

To qualify for admission to the John B. Turner LL.M. program, applicants must have earned their first law degree – LL.B., J.D., or equivalent. Admission is highly selective, and those admitted must have excellent law school records, strong letters of recommendation, proficiency in English and leadership potential. Although not required, some work or research experience following completion of the first law degree is preferred.

The College of Law John B. Turner LL.M. program admissions page provides more information on admission requirements, the application process, and how to apply online.

Program Requirements

US Legal Studies

- The degree requires successful completion of 24 credit hours over two semesters of study (subject to possible extension for cause).
- Students may attend classes full-time at the University of Oklahoma College of Law
- Students may also specialize in Energy and Natural Resources Law and Indigenous Peoples Law.

Total Credit Hours 25

International Business Law, LL.M.

Overall GPA - Combined and OU: 5.00

Minimum Total Hours: 24

Program Code: M592

Admission Requirements

To qualify for admission to the LL.M. program, applicants must have earned their first law degree – LL.B., J.D., or equivalent. Admission is highly selective, and those admitted must have excellent law school records, strong letters of recommendation, proficiency in English and leadership potential. Although not required, some work or research experience following completion of the first law degree is preferred.

The College of Law LL.M. program admissions page provides more information on admission requirements, the application process, and how to apply online.

Program Requirements

- This is an online-only degree program.

Total Credit Hours 24

Energy and Natural Resources Law, M.L.S.

Overall GPA - Combined and OU: 7.00

Minimum Total Hours: 32

Program Code: M368

The Master of Legal Studies in Energy and Natural Resources Law recognizes a need for an online graduate program to serve the professionals in the energy industry who do not wish to seek a Juris Doctor degree at this point in their career. It is specifically designed for non-lawyers whose careers demand an understanding of energy-related legal issues. The degree program offers a competitive advantage to anyone in the energy industry who negotiates oil and gas contracts, deals with mineral rights or real estate transactions, or works closely with energy attorneys. This program offers an accelerated program that can be taken primarily online.

This graduate degree can be completed in 15 months.

Required Courses

Code	Title	Credit Hours
LSO 5232	Introduction to Property Law and Natural Resources	2
LSO 6522	Legal Drafting	2
LSO 6531	Legal Research for the Energy Industry	1
Choose 27 hours of LSO electives		27
Total Credit Hours		32

Healthcare Law, M.L.S.

Overall GPA - Combined and OU: 7.00

Minimum Total Hours: 32

Program Code: M503

The Master of Legal Studies in Healthcare Law is designed for non-lawyers whose careers demand an understanding of healthcare-related legal issues. It provides graduate level education for professionals who work in the administration of healthcare facilities or systems. Students receive a grounding in laws and regulations that frame, guide, and direct the provision of healthcare services. The program offers a competitive advantage to anyone in the healthcare industry who handles compliance, advocacy, negotiates contracts, deals with the Affordable Healthcare act, manages real estate transactions, or works closely with healthcare attorneys. The curriculum requires the study of laws regulating the delivery and quality of medical services, access to public and private means of payment for such services, and transactions and liability within the healthcare industry.

This program is an online graduate degree that can be completed in 15 months.

Required Courses

Master of Legal Studies, M.L.S.

Overall GPA - Combined and OU: 7.00

Minimum Total Hours: 32

Program Code: M636

The Legal Studies, M.L.S. curriculum provides students with an introduction to the study of law. Students will learn the vocabulary of the law; understand the intersections and hierarchy of federal and state constitutions, statutes, cases, and administrative rules; and enhance critical thinking skills through the analysis of a broad array of legal materials. This curriculum provides the knowledge and skills for graduates to address regulatory, compliance, contractual, and legal issues.

This is an online program.

American Indian Law, Graduate Certificate

Overall GPA - Combined and OU: 8.00

Minimum Total Hours: 15

Program Code: G017

The American Indian Law Graduate Certificate allows students to enrich their knowledge of American Indian Law through coursework including

indigenous peoples' culture, tribal courts, federal water law, and more. This certificate also includes experiential learning opportunities including an externship and work with OU Law's journal *American Indian Law Review*.

Certificate Requirements

Full-time JD degree-candidate OU Law students are eligible to receive the certificate at graduation conditioned upon the successful completion of the requirements outlined below.

Code	Title	Credit Hours
Core		
LAW 5610	Federal Indian Law	3
Choose at least 9 credit hours from the following list of American Indian Law courses: (p. 1760) ¹		9
Electives		
Choose an Experiential course from one of these options (hours vary): (p. 1761) ²		
Choose at least one course from the following Guided Electives for a total of at least 3 credit hours: (p. 1761)		3
Writing Project		
Complete one major writing project in a topic related to Indian Law. This paper may also satisfy the graduation writing requirement. ³		
Total Credit Hours		15

¹ Choose at least 5 credit hours if the student as earned at least 3 hours in an Indian Law externship.

² The American Bar Association prohibits a student from receiving course credit for a paid internship. In other words, students have a choice of obtaining an unpaid but credited externship or a paid but uncredited job. To earn the Certificate, the student could select either option. Quality for the paid field work will be assured through supervision of the Center Director in collaboration with the Director of Extern Programs.

³ Under the direction of a professor, either in a designated course or through independent directed study.

Graduation Writing Requirement ¹		
Choose five courses from an upper-division elective menu of substantive core courses. ²		10-15
Students are required to complete one or more experiential course(s) totaling at least six credit hours which must satisfy the requirements of American Bar Association Standard 303(a)(3) as a simulation course, a law clinic, or a field placement. ²		6
Complete elective courses which together with all required courses equal a total of 90 credit hours. ²		32-37
Total Credit Hours		90

¹ Details on the graduation writing requirement may be found on the College of Law website: <https://law.ou.edu/jd/academics/curriculum>

² The lists of upper-division elective menu courses, experiential learning courses, and elective courses are listed on the College of Law website: <https://law.ou.edu/jd/academics/curriculum>

Degree Requirements

To qualify for the juris doctor degree, a student must:

- Successfully complete all required courses
- Successfully complete one rigorous writing course during the second or third year of law study under the direct supervision of a faculty member
- Successfully complete at least 60 hours at the College of Law
- Successfully complete additional work sufficient to total 90 semester hours
- Attain a cumulative grade point average of at least a 5.00 (C) in all work taken in the College of Law and a grade of C on all work taken at other approved law schools
- Complete all degree requirements within five years of initial enrollment
- File an official Application for Graduation

For additional information regarding the requirements for the juris doctor, consult the College of Law website.

POLYTECHNIC INSTITUTE

OU-Tulsa Schusterman Center
4502 East 41st Street
Tulsa, OK 74135
Phone: (918) 660-3456

Administrative Officer

- Teri K. Reed, PH.D., MBA, F.ASEE
Director of the OU Polytechnic Institute, Professor and George Kaiser Family Foundation Chair

Administrative Staff

- Tarah Hayes, Executive Assistant

Student Services and Advising Staff

- Lauren Deerdoff, Recruiting and Admissions Counselor
- Tally Begaye, Admissions Communications Coordinator

General Information

First announced in 2022, the OU Polytechnic Institute (OUIPI) represents a significant advancement for the Tulsa community and region, aiming to address the growing demand in northeast Oklahoma for highly skilled workers in essential STEM fields. This initiative underscores the region's commitment to becoming a leading center for technological growth and employment opportunities.

Developed in collaboration with industry leaders, the school's curriculum is specifically designed to rapidly establish northeast Oklahoma as a technological hub, fostering economic growth and job creation. By offering cutting-edge programs, OUIPI equips graduates with the skills to revolutionize Oklahoma's industries.

This degree completion program requires 60 credit hours of 3000-4000 level classes and is structured to be completed within two years, culminating in a Bachelor of Science degree from the University of Oklahoma. Graduates will be positioned to excel in diverse career opportunities available both locally and globally. Through a combination of hands-on learning, interdisciplinary projects, internships, and industry-sponsored senior design projects, students will gain invaluable real-world experience, preparing them to lead Oklahoma into a new era of technological advancement and economic growth.

The Polytechnic Institute embodies learning by doing, providing a practical education in today's digital landscape. The program incorporates a strategic breadth of study coupled with integrated content designed to provide mastery in essential work ready skills including terminal proficiency, collaboration (comprehensive project portfolio), and demonstrable project management and delivery. Additionally, the curriculum is designed to build a student's professional network with other students, faculty as well as local and national employers. It's about fueling innovation through technology and preparing students in Tulsa to propel Oklahoma forward. This approach not only enriches the educational experience but also prepares students to meet the challenges of the future, driving innovation and leadership in the tech sector.

OUIPI focuses on high-demand, advanced and applied technology-based education and prepares graduates to transform industries in Oklahoma. From curriculum to on-site training, programs at OUIPI will help meet the changing academic and workforce needs of the Tulsa region largely thanks to our close working relationship with industry partners. All classes are in person, hands-on, and in Tulsa.

Programs Offered

- Cybersecurity, B.S. (p. 1772)

Programs and Facilities Computing

The OU Network consists of a high-speed backbone with connections to faculty, staff, laboratory, and classroom computers. Wireless technology extends the network to cover the Polytechnic building, outside areas, laboratories, and classrooms. For more detailed information, visit the <https://www.ou.edu/tulsa/it>

Support Infrastructure:

The Information Technology department and OUIPI have partnered to provide a comprehensive computer support infrastructure. This includes wireless coverage, repair services, network file storage, and classrooms equipped with additional power and network capabilities.

Wireless:

All OUIPI buildings have wireless coverage throughout. To connect, choose the network called "WIFI@OU". Registration of your device with your 4+4 is required to access this network. Campus guests can receive temporary, limited access by connecting to the "OUGuest" network.

Repair Services:

IT provides student support for all computing needs. To locate the nearest IT Service Center, visit needhelp.ou.edu. The IT Service Centers are Dell and Apple certified warranty repair centers and provide support for these and other brands of computers. This service is free of charge, excluding any parts.

The OU IT Service Team is unable to provide hardware or software support for machines purchased outside of the U.S.

Network Storage:

200 MB of network storage space is provided for students to store homework, projects, or other files. This space is automatically mapped as H:\ in the cybersecurity computer labs. For assistance connecting to the H:\ drive from home or wirelessly, contact the IT Service Desk at

325-HELP or visit the OU-Tulsa Computer Lab at 1C65 or log on to <http://support.ou.edu>.

Undergraduate Study

Admissions

Admission to the University of Oklahoma (Norman Campus) and subsequently a degree granting college is based upon the admission requirements that are in effect for the semester that a student initiates enrollment at OU. For information on current admission requirements, contact the Office of Admissions & Recruitment, University of Oklahoma, Jacobson Hall, 550 Parrington Oval, Room L-1, Norman, OK 73019-4076 or visit their homepage.

Admission to an undergraduate program within the OU Polytechnic Institute is based upon the program requirements in effect at the time of a student's initial enrollment in any institution (including OU) in the Oklahoma State System of Higher Education. As a completion program, the degrees offered at the OUPI are considered completion degrees in that only the junior (3000) and senior (4000) level courses are offered at the OUPI located at OU-Tulsa. The first two years can be completed either at OU Norman or can be obtained at another institution (see Transfer Students below).

All students seeking admission to a program within the OU Polytechnic Institute must fulfill the following minimum requirements:

1. Completed admission to the University of Oklahoma;
2. At least 24 semester hours of earned college credit;
3. Completion of any curricular deficiencies that may exist in English, Math and/or Science;
4. A declared major in the OUPI; and
5. Obtain at least the minimum combined and OU retention grade point average required for graduation from the program the student has declared. All undergraduate programs in the OUPI may require additional admission requirements beyond those listed above. Refer to the respective area for information regarding additional program admission requirements.

Transfer Students

An undergraduate students transferring from an institution within the Oklahoma State System of Higher Education must fulfill the transfer admission requirements of the University of Oklahoma Office of Admissions & Recruitment. For more information, visit their website.

A student requesting transfer into a program of the OU Polytechnic Institute from another institution will be considered for admission once they have completed at least 24 semester hours of earned college credit with an overall GPA of 2.5. Such an applicant, in addition to satisfying all admission requirements of the University and the college, must be approved by the division director for that particular major.

A student requesting to transfer into a program of the OU Polytechnic Institute from another institution outside of the Oklahoma State System of Higher Education will follow the most recent curriculum requirements for the major the student declares.

Transfer Credit

The following credit hour regulations are specific to transfer students:

- All professional courses not taken at the University of Oklahoma are subject to evaluation for equivalency by the appropriate division of the college prior for the approval of these courses as transfer credit.

- Work accepted from other institutions is subject to validation by the satisfactory completion of at least 30 hours of credit in residence.
- College credit for work experience is permitted only under the supervised conditions of the Preceptor Program of the college or approved internship/field experience courses.

Change of Major Requests

Students interested in pursuing a change of major within OUPI, or who are pursuing a major in another college on either the OU-Norman or OU-Tulsa campus but wish to switch to an OUPI program must meet with an academic advisor in OUPI to change majors. The advisor will assess the student's GPA and completed courses. If the student lacks necessary preparation to begin coursework in the major, the student might be advised to remain in their current major until they are adequately prepared for the course curriculum. In accordance with State Regents' requirements, students are assigned to the degree program year that was current at the time they entered the Oklahoma State System of Higher Education.

College Regulations

Laptop Requirement

Students with a major in the OU Polytechnic Institute will be required to have a laptop computer. Laptop technologies are used to enhance the learning experience, and using a computer will become second nature to all of our students. See Laptop Policy page (PDF) for recommendations for the specifications needed, as well as other pertinent information.

Probation and Advancement

In accordance with the approved retention policy of the Oklahoma State Regents for Higher Education a student must maintain a combined retention minimum grade point average of at least 2.00 (C) in order to be in good academic standing at the University of Oklahoma. A student who fails to maintain the required grade point averages for their program will be notified and required to sign an "Enrollment Contract" each semester their retention grade point average is below the minimum required for graduation. A student on enrollment contract may be denied further enrollment in the college if they fail to fulfill the terms of the enrollment contract during any semester they are on academic notice.

Graduation Policies

The following requirements must be met in order to graduate with a bachelor's degree from the OU Polytechnic Institute:

- Student must have an OU retention and combined retention grade point average of 2.00 or higher.
- Student must have successfully completed a minimum of 120 semester hours inclusive of general education, major course work, and electives. Hours vary depending on degree.
- Student must earn a "C" or better in each course in her/his major.
- Student must complete a minimum of 40 hours of general education approved coursework as outlined by the college and the university.
- Student must complete at least one general education approved course at the upper-division level (3000 – 4000), outside the student's major. Students should take advantage of the "Attribute Type" tool at one.ou.edu or utilize search options at classnav.ou.edu when enrolling in general education course requirements.
- Students must complete a minimum of 40 hours of upper division (3000-4000 level) course work.

- Oklahoma State Regents' policy requires each student to complete a minimum of 60 hours at a senior (4-year) institution.
- Student must complete a senior graduation check with an academic counselor in the OU Polytechnic Dean's Office.
- Student must complete an Application for Graduation at one.ou.edu. This application must be on file with the University Records Office in order for the student to officially graduate from the university.

Senior Graduation Check

All OU Polytechnic Institute Seniors should complete a Graduation Check at least one semester before they plan to graduate. To schedule a Graduation Check, make an appointment with one of the OUPI Academic Counselors.

Courses

CYBS 3113 Operating Systems Fundamentals 3 Credit Hours

Prerequisite: CYBS 3123. This course introduces major concepts and techniques for designing and implementing operating systems, including memory management, process management, information management, and computer security. Principles of performance evaluation. Class projects require the design and implementation of software systems. A UNIX family operating system will be used. (Sp)

CYBS 3123 Introduction to Unix Systems 3 Credit Hours

Prerequisite: C S 2413 and MATH 1914; and C S 2813 or MATH 2513. This course provides an introduction to the UNIX operating system. Topics include files and directories, electronic mail, security, advanced file systems, network utilities, network file sharing, text utilities, shell programming, regular expressions, UNIX internals, UNIX system administration, UNIX variations, and systems programming. Programming assignments involve the UNIX shell script language. (F)

CYBS 3213 Foundations of Cybersecurity 3 Credit Hours

Prerequisite: C S 2413, MATH 1914 and either C S 2813 or MATH 2513. This course introduces cybersecurity, principles, and technologies. It deals with security issues related to systems and software. Topics include cyber threats and vulnerabilities, information security frameworks and policies, cryptography, penetration testing, and in-depth defense. The goal is to develop a foundation for further study in cybersecurity. (F)

CYBS 3223 Applied Statistics for Computing 3 Credit Hours

Prerequisite: MATH 2423, course is not open to freshmen. This course is an introduction to basic statistical concepts and techniques with an emphasis on application to applied computing. Topics include basic properties of probability, a review of descriptive statistics, common discrete and continuous distributions of data, visualization of real data, hypothesis testing, parametric versus nonparametric tests, supervised and unsupervised learning methods, the bias-variance tradeoff, use of statistical packages. (F)

CYBS 3313 Introduction to Cyber Ethics and Law 3 Credit Hours

Prerequisite: Junior Standing. Legal and ethical issues with networked IT, including privacy, surveillance, digital piracy, and military use. First unit introduces ethical frameworks applicable to cybersecurity, sources of applicable law and regulation. Second unit introduces issues relating to cybercrime: intellectual property, user privacy, information assurance, and harmful online content. Third unit introduces issues with IT in government operations. (Sp)

CYBS 3323 Hardware Security 3 Credit Hours

Prerequisite: CYBS 3123 or concurrent enrollment in CYBS 3123. This course focuses on hardware (HW) security and covers security and trust from the HW perspective. It introduces students to HW components, including SoC and PCB, and examines security and trust issues in such HW components. Topics include digital lock, circuit theory, ASICs and FPGAs, HW security threats, malware, and attacks, along with specific countermeasures against HW attacks. (F)

CYBS 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CYBS 3743 Cyberforensics Fundamentals 3 Credit Hours

Prerequisite: CYBS 3213. This course introduces students to cyber forensics and cyber-crime scene analysis fundamentals. The various laws and regulations dealing with computer forensic analysis are discussed. Students are introduced to the emerging international standards for cyber forensic analysis and a formal methodology for conducting computer forensic investigations. (Sp)

CYBS 3813 Network Fundamentals 3 Credit Hours

Prerequisite: C S 2413, MATH 1914, and either C S 2813 or MATH 2513. Introduces the fundamentals of computer networks, including network architectures, network topologies, network protocols, layering concepts (for example, ISO/OSI, TCP/IP reference models), wired and wireless network protocols, communication paradigms (point-to-point vs. multicast/broadcast, connectionless vs. connection-oriented), and networking APIs (sockets). Protocols in all layers will be introduced. In this course, socket programming is also introduced. (Sp)

CYBS 3913 Database Fundamentals 3 Credit Hours

Prerequisite: C S 2413, MATH 1914, and either C S 2813 or MATH 2513. Introduction to the concepts behind relational database systems, modeling with Entity-Relationship diagrams and how these are used for data design. SQL to define, manipulate, and test the database, programmatic access, and practical issues. Strong foundation in database security, auditing principles, practices and methodologies. Topics: application security models, security architecture, access controls, auditing, trust management, privacy, threat vectors, and attack methods. (Sp)

CYBS 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

CYBS 4103 Engineering Secure Software 3 Credit Hours

Prerequisite: CYBS 3813 and CYBS 3913. This course covers topics at the intersection of security and software engineering. This course introduces software engineering processes and standards for building secure software applications. It discusses secure software life cycle development principles to include security in every phase. It also explores security issues and vulnerabilities in software applications due to a lack of secure software engineering processes. (F)

- CYBS 4123 System Administration 3 Credit Hours**
(Slashlisted with CYBS 5123) Prerequisite: CYBS 3123. This course provides a comprehensive introduction to system administration. Topics include virtualization, authentication and authorization, directory services, system management, and system security and set up of modern compute and storage clouds, networking systems, file systems, logging and analysis, and networking. Includes topics related to scripting for all administrative functions. Emphasis is placed on enterprise-level systems. No student may earn credit for both 4123 and 5123. (F, Sp)
- CYBS 4133 Ethical Hacking and Penetration Testing 3 Credit Hours**
(Slashlisted with CYBS 5133) Prerequisite: CYBS 3113. This course covers concepts related to ethical hacking and penetration testing methods to assess, exploit, and report security vulnerabilities on systems and their resources. The course will emphasize the ethical application of penetration testing methods and hacking tools. No student may earn credit for both 4133 and 5133. (F, Sp)
- CYBS 4203 Cybersecurity Risk Management and Assessment 3 Credit Hours**
(Slashlisted with CYBS 5203) Prerequisite: CYBS 3213. This course develops competency in information security policies and plans, including controls for physical hardware, software, and networks. The course introduces security risk detection strategies, countermeasures, damage assessment, and control. The course introduces the students to performing information system risk analysis and management audits. Tools for analyzing log files of various kinds will also be introduced. No student may earn credit for both 4203 and 5203. (F)
- CYBS 4293 Introduction to Cloud Computing and Security 3 Credit Hours**
(Slashlisted with CYBS 5293) Prerequisite: CYBS 3113. Course covers the concepts behind cloud computing, including storage and computing. We will also learn about virtualization, software as a service, and deployment models. We will learn about cybersecurity risks on cloud infrastructure and countermeasures using access policies, distributed access control, key management, and others. Covers topics in the cloud computing security guidelines set forth in international standards organizations. No student may earn credit for both 4293 and 5293. (Sp)
- CYBS 4323 IoT Security and Privacy 3 Credit Hours**
(Slashlisted with CYBS 5323) Prerequisite: CYBS 3323. This course prepares students to securely develop and operate Internet of Things (IoT) devices considering security and privacy. The course covers concepts of IoT architectures with a focus on security and privacy issues. No student may earn credit for both 4323 and 5323. (F, Sp)
- CYBS 4333 Incidence Response Management 3 Credit Hours**
(Slashlisted with CYBS 5333) Prerequisite: CYBS 3123. This course provides a comprehensive treatment of cyber incidents and how to manage them, including understanding attacker motivation, attack methods, and the anatomy of the attacks. Additionally, topics related to incidence readiness, remote triage tools, memory analysis, malware analysis, disk forensics, network intrusion detection tools, and others will be discussed. No student may earn credit for both 4333 and 5333. (F, Sp)
- CYBS 4473 Network Security 3 Credit Hours**
(Slashlisted with CYBS 5473) Prerequisite: CYBS 3113. The course deals with understanding all aspects of cybersecurity that involve the network. Topics will include network transport-level security, wireless network security, electronic mail security, IP security, firewalls, VPNs, Secure HTTP, person-in-the-middle attack scenarios, and SSL/TLS and SSH (SP). Learn about various tools for analyzing network data at various levels of the TCP/IP stack and operating security operations centers. No student may earn credit for both 4473 and 5473. (F)
- CYBS 4583 Machine Learning for Cybersecurity 3 Credit Hours**
Prerequisite: CYBS 3213 and CYBS 3223. Various machine learning concepts, deep learning, time-series analysis, data mining, and other machine-learning concepts. Tools and libraries to analyze data sets, build predictive models, and evaluate the fit of the models. Common learning algorithms, including dimensionality reduction, classification, principal-component analysis, k-NN, k-means clustering, gradient descent, regression, logistic regression, regularization, multiclass data, algorithms, boosting and decision trees. Applies concepts to problems. (F, Sp)
- CYBS 4883 Cryptography Fundamentals 3 Credit Hours**
Prerequisite: CYBS 3213. This course introduces cryptography and its related tools. Specifically, in this course, cryptographic algorithms, protocols, and techniques will be introduced. The course will also introduce students to public key encryption, key exchange protocols, digital signatures, hashing-based encryption, and Data Encryption Standards. This course will also introduce cryptographic implementation in software and web application programming. (F)
- CYBS 4953 Operating and Maintaining Cyber Ranges 3 Credit Hours**
Prerequisite: CYBS 4473. Students will learn to use and build a cyber range for various assessments of threats and exploits. They will learn to build configurations for different business operations and the formation of red and blue team exercises. Students will have real-world experiences in handling situations without the real-world risk associated with practicing on live production equipment and systems. (Sp)
- CYBS 4963 Cybersecurity Capstone 3 Credit Hours**
Prerequisite: CYBS 4103 and Senior Standing. Provides the students with an experience to exhibit their knowledge and skills in all areas of cybersecurity. Students will work in small groups to identify and scope a cybersecurity problem and/or challenges. Required to write a proposal about their project and asked to create a work plan to develop solution to solve the problem/challenge. Create a final report and presentation. (Sp)
- CYBS 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and senior standing. May be repeated once with change of content. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp, Su)
- CYBS 5113 Introduction to Cybersecurity Leadership 3 Credit Hours**
Prerequisite: Graduate standing. This course provides an in-depth exploration of insider threats within organizations and the strategies for managing and mitigating these risks. Students will learn about the motivations behind insider threats, detection methods, prevention techniques, and deterrence mechanisms. (F, Sp, Su)
- CYBS 5123 System Administration 3 Credit Hours**
(Slashlisted with CYBS 4123) Prerequisite: Graduate Standing. This course provides a comprehensive introduction to system administration. Topics include virtualization, authentication and authorization, directory services, system management, and system security and set up of modern compute and storage clouds, networking systems, file systems, logging and analysis, and networking. Includes topics related to scripting for all administrative functions. Emphasis is placed on enterprise-level systems. No student may earn credit for both 4123 and 5123. (F, Sp)
- CYBS 5133 Ethical Hacking and Penetration Testing 3 Credit Hours**
(Slashlisted with CYBS 4133) Prerequisite: Graduate Standing. This course covers concepts related to ethical hacking and penetration testing methods to assess, exploit, and report security vulnerabilities on systems and their resources. The course will emphasize the ethical application of penetration testing methods and hacking tools. No student may earn credit for both 4133 and 5133. (F, Sp)

CYBS 5203 Cybersecurity Risk Management and Assessment 3 Credit Hours

(Slashlisted with CYBS 4203) Prerequisite: Graduate Standing. This course develops competency in information security policies and plans, including controls for physical hardware, software, and networks. The course introduces security risk detection strategies, countermeasures, damage assessment, and control. The course introduces the students to performing information system risk analysis and management audits. Tools for analyzing log files of various kinds will also be introduced. No student may earn credit for both 4203 and 5203. (F)

CYBS 5213 Behavioral Cybersecurity 3 Credit Hours

Prerequisite: Graduate standing. This course explores the interdisciplinary field of behavioral cybersecurity, emphasizing the role of human personality in cybersecurity practices. It aims to address the growing challenges posed by the digital age. Course will examine the application of psychological methods, profiling techniques, and the use of game theory in understanding human behavior. (F, Sp, Su)

CYBS 5233 Cybersecurity Ethics, Policy, and Law 3 Credit Hours

Prerequisite: Graduate standing. This course explores the intersection of ethics, policy, and law within the realm of cybersecurity. Students will engage with case studies, legal frameworks, and ethical dilemmas to critically analyze and navigate the complex landscape of digital security. The goal is to develop a foundation for applying ethical considerations in any organizational structure. (F, Sp, Su)

CYBS 5243 Threat Hunting and Incident Response 3 Credit Hours

Prerequisite: Graduate standing. This course provides an in-depth exploration of threat hunting and incident response in cybersecurity. It moves beyond traditional defensive measures to actively seek out and mitigate novel cyber threats. Students will learn how to plan, execute, and recover from hunts, customize frameworks for specific use cases, and respond to incidents, including ransomware attacks. (F, Sp, Su)

CYBS 5253 Cybercrime and Cybersecurity 3 Credit Hours

Prerequisite: Graduate standing. This course delves into the intricacies of cybersecurity and cybercrime, offering a comprehensive overview of the challenges and strategies associated with protecting digital assets. Students will explore various threats, risk management approaches, and the critical roles of people, processes, and technology in cybersecurity. (F)

CYBS 5293 Introduction to Cloud Computing and Security 3 Credit Hours

(Slashlisted with CYBS 4293) Prerequisite: Graduate Standing. Course covers the concepts behind cloud computing, including storage and computing. We will also learn about virtualization, software as a service, and deployment models. We will learn about cybersecurity risks on cloud infrastructure and countermeasures using access policies, distributed access control, key management, and others. Covers topics in the cloud computing security guidelines set forth in international standards organizations. No student may earn credit for both 4293 and 5293. (Sp)

CYBS 5303 Insider Threat and Risk Management 3 Credit Hours

Prerequisite: Graduate standing. This course provides an in-depth exploration of insider threats within organizations and the strategies for managing and mitigating these risks. Students will learn about the motivations behind insider threats, detection methods, prevention techniques, and deterrence mechanisms. (F, Sp, Su)

CYBS 5323 IoT Security and Privacy 3 Credit Hours

(Slashlisted with CYBS 4323) Prerequisite: Graduate Standing. This course prepares students to securely develop and operate Internet of Things (IoT) devices considering security and privacy. The course covers concepts of IoT architectures with a focus on security and privacy issues. No student may earn credit for both 4323 and 5323. (F, Sp)

CYBS 5333 Incidence Response Management 3 Credit Hours

(Slashlisted with CYBS 4333) Prerequisite: Graduate Standing. This course provides a comprehensive treatment of cyber incidents and how to manage them, including understanding attacker motivation, attack methods, and the anatomy of the attacks. Additionally, topics related to incidence readiness, remote triage tools, memory analysis, malware analysis, disk forensics, network intrusion detection tools, and others will be discussed. No student may earn credit for both 4333 and 5333. (F, Sp)

CYBS 5383 Trust in Artificial Intelligence 3 Credit Hours

Prerequisite: Graduate standing. This course explores the intersection of artificial intelligence (AI), management, and trust, delving into how these elements influence each other in modern organizations. It covers various aspects of trust in AI, including organizational, psychological, technological, and ethical dimensions. The course also examines the role of trust in human-machine interaction, AI's impact on innovation, and reducing costs. (F, Sp, Su)

CYBS 5443 Cyber Threat and Intelligence 3 Credit Hours

Prerequisite: Graduate standing. This course explores the dynamic and complex nature of cyber threats and the role of intelligence in addressing them. It covers the spectrum of threat intelligence, from tactical to strategic levels, and delves into the methodologies and technologies used to gather, analyze, and apply intelligence to enhance cybersecurity. (F, Sp, Su)

CYBS 5453 Cybersecurity in a Cloud Environment 3 Credit Hours

Prerequisite: Graduate standing. This course provides an in-depth look into the multifaceted aspects of cybersecurity within cloud computing environments. Covering fundamental concepts, architecture, software security, risk issues, and life cycle concerns, students will learn how to secure cloud services and infrastructure effectively. (F, Sp, Su)

CYBS 5473 Network Security 3 Credit Hours

(Slashlisted with CYBS 4473) Prerequisite: Graduate Standing. The course deals with understanding all aspects of cybersecurity that involve the network. Topics will include network transport-level security, wireless network security, electronic mail security, IP security, firewalls, VPNs, Secure HTTP, person-in-the-middle attack scenarios, and SSL/TLS and SSH (SP). Learn about various tools for analyzing network data at various levels of the TCP/IP stack and operating security operations centers. No student may earn credit for both 4473 and 5473. (F)

CYBS 5903 Master's Practicum 3 Credit Hours

Prerequisite: Graduate Standing. The course provides the students with a culminating experience to exhibit their knowledge and skills in all areas of cybersecurity. Students will collaboratively work in small groups to identify and scope a current cybersecurity problem and/or challenge. Students will be required to write a proposal, create a work plan, draft a final report and make a presentation. (Sp)

CYBS 5963 Strategic Planning in Cybersecurity Practicum 3 Credit Hours

Prerequisite: Graduate standing. This capstone course delves into the strategic planning and leadership aspects of cybersecurity. Students will explore the relationship between the business environment and organizational goals, risk management, and protecting information assets. The course will provide tools to build a cybersecurity strategic plan, develop IT security policies, and lead teams in the execution of these plans. (Irreg.)

CYBS 5980 Research for Master's Thesis 2-9 Credit Hours

2 to 9 hours. Prerequisite: Graduate Standing and Instructor Permission. Directed research culminating in the completion of the master's thesis. Variable enrollment, permission of instructor required, two to nine hours; maximum credit required for degree, six hours. (F, Sp)

Faculty

The faculty at OUPI bring a rich blend of industry and academic research experience in communications, automotive, heavy equipment control systems, biotech, law enforcement, first-responder and defense electronics, fintech, and high-end computing. Research interests of the faculty stretch across many applications and industries in cybersecurity, software development and integration, artificial intelligence, and digital manufacturing.

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Beattie	Matthew	J	2023	Adjunct of Artificial Intelligence	PhD, University of Oklahoma, 2022
Butt	Ahmed	Ashraf	2024	Assistant Professor of Artificial Intelligence	PhD, Purdue University 2023
Freeze	Christopher		2023	Assistant Professor of Cybersecurity	PhD, University of Oklahoma 2023
Hassell	John		2023	Associate Professor of Software Development & Integration	PhD, University of Oklahoma 2005
Jung	Sungbo		2024	Assistant Professor of Cybersecurity	PhD, University of Louisville 2024
MacDonald	Gregory	G.	2024	Associate Professor of Artificial Intelligence	PhD, University of Oklahoma 2012
Reed	Teri	K	2023	Professor and Director of OUPI	PhD, Arizona State University 1999
Riaz	Muhammad Sajid		2024	Assistant Professor of Software Development & Integration	PhD, University of Oklahoma 2024
Roller	Chad	B	2024	Assistant Professor of Software Development & Integration	PhD, Rice University 2005

Cybersecurity, B.S.

Minimum Total Credit Hours: 120

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B264

A grade of C or better is required in each course in the curriculum, including all prerequisite courses.

Major Requirements

Code	Title	Credit Hours
Required Courses		
CYBS 3113	Operating Systems Fundamentals	3
CYBS 3123	Introduction to Unix Systems	3
CYBS 3213	Foundations of Cybersecurity	3
CYBS 3223	Applied Statistics for Computing	3
CYBS 3313	Introduction to Cyber Ethics and Law	3
CYBS 3323	Hardware Security	3
CYBS 3743	Cyberforensics Fundamentals	3
CYBS 3813	Network Fundamentals	3
CYBS 3913	Database Fundamentals	3
CYBS 4103	Engineering Secure Software	3
CYBS 4203	Cybersecurity Risk Management and Assessment	3
CYBS 4293	Introduction to Cloud Computing and Security	3
CYBS 4473	Network Security	3
CYBS 4883	Cryptography Fundamentals	3
CYBS 4963	Cybersecurity Capstone	3

Major Electives

Choose 4 approved CYBS electives from a list maintained by the department 12

Total Credit Hours 57

Major Support Requirements

Code	Title	Credit Hours
Math and Science		
MATH 2423	Calculus and Analytic Geometry II ¹	3
C S 1324	Introduction to Computer Programming for Non-Programmers	4
C S 2334	Programming Structures and Abstractions	4
C S 2413	Data Structures	3
C S 2813	Discrete Structures	3
	or MATH 2513 Discrete Mathematical Structures	
Total Credit Hours		17

¹ Students may take MATH 1743 and MATH 2123 or MATH 1914 and MATH 2924 in place of MATH 1823 and 2423.

General Education and College Requirements

Courses designated as Core I, II, III, IV, or V are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list, including at least one upper-division Gen. Ed. course outside of the student's major. **Courses graded P/NP will not apply.**

A grade of C or better is required in each course in the curriculum, including all prerequisite courses.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-10 hours in the same language)</i>		
This requirement can be met by two years of the same language in high school:		0-10
Beginning Course (0-5 hours)		
Beginning Course, continued (0-5 hours)		
<i>Mathematics (minimum 3 hours)</i>		
MATH 1823	Calculus and Analytic Geometry I ^{1,2}	3
Core Area II: Natural Science (minimum 7 hours, including one laboratory)		
Choose two courses from different disciplines, one must include a laboratory		7
Core Area III: Social Science		
P SC 1113	American Federal Government	3
Choose one course		3
Core Area IV: Arts & Humanities		
<i>Artistic Forms</i>		
Choose one course		3
<i>Western Culture</i>		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course (excluding HIST 1483 and HIST 1493)		3
<i>World Culture</i>		
Choose one course		3
Core Area V: First-Year Experience		
Choose one course		3
Total Credit Hours		37-47

¹ Major support requirements that also satisfy University General Education requirements.

² Students may take MATH 1743 and MATH 2123 or MATH 1914 and MATH 2924 in place of MATH 1823 and 2423.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with OU Polytechnic Institute academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy university, Polytechnic Institute, and major requirements.

Courses designated as Core I, II, III, IV or V are part of the General Education curriculum. Students must complete a minimum of 40 hours

of General Education courses, chosen from the approved list. Two college-level courses in a single world language are required; this may be satisfied by successful completion of 2 years in a single world language in high school. Students who must take language at the University will have an additional 6-10 hours of coursework.

David Babb, Ph.D., Associate Dean

General Information

Mission and Description of the College

The College of Professional and Continuing Studies (PACS) was established in 1960 to serve the higher education needs of adult and non-traditional students. The college's mission is to provide access to transformational, world-class University of Oklahoma degrees, certifications, and programs for a diverse group of learners. The college is best characterized by the populations it serves, as well as the specialized programming it offers. Primarily focusing on the higher education needs of place-bound working adults, military-connected personnel, and those seeking specialized study in selected professional areas, the college offers a variety of undergraduate degrees, professional development courses, and lifelong learning programs. To facilitate understanding of the complex world in which we live and building on its historical roots, the college emphasizes a holistic approach to learning, focuses on the immediate application of learning to one's life and work, promotes lifelong learning opportunities, and encourages the work of active citizenship. While its programs were originally developed for adult and non-traditional students, many of the seminars, colloquia, and conferences offered by the college also serve students enrolled in conventional academic programs, as well as the general public.

Faculty and Leadership

The College of Professional and Continuing Studies utilizes a combination of its own departmental faculty, faculty from other University of Oklahoma colleges, and qualified practice professionals who serve

as adjunct instructors to teach, advise, and mentor students. Faculty and instructors are invited to participate in the college's programs on the basis of their professionalism and commitment to the mission, values, and goals of the organization. Leadership for the College of Professional and Continuing Studies is vested in the Dean, Associate Dean, college faculty, and senior staff.

General University Policies

Students enrolled through the College of Professional and Continuing Studies are subject to the University of Oklahoma's general policies, scholastic regulations, and standards as outlined in the University's General Catalog. Questions concerning OU policies or procedures should be directed to the college.

Programs Offered

Programs Governed by PACS

- College of PACS Administrated Programs (p. 1792)
 - Integrative Studies, B.A. (p. 1794)
 - Integrative Studies Bachelor of Arts Elective Course List (p. 1795)
 - Interdisciplinary Studies: Aerospace & Defense Management, B.A. (p. 1795)
 - Interdisciplinary Studies: Business Administration, B.A. (p. 1797)
 - Interdisciplinary Studies: Construction Management, B.A. (p. 1798)
 - Interdisciplinary Studies: Criminal Justice Leadership, B.A. (p. 1800)
 - Interdisciplinary Studies: Healthcare Management, B.A. (p. 1801)
 - Interdisciplinary Studies: Learning and Education Studies, B.A. (p. 1803)
 - Interdisciplinary Studies: Organizational Leadership, B.A. (p. 1804)
 - Lifespan Care Administration (Online), B.A. (p. 1806)
 - Organizational Leadership, B.A. (p. 1808)
 - Criminal Justice (Online), B.S. (p. 1809)
 - Criminal Investigation and Intelligence Analysis, Minor (p. 1810)
 - Criminal Justice, Minor (p. 1811)
 - Organizational Leadership, Minor (p. 1811)
 - Restorative Justice, Minor (p. 1812)

Programs and Facilities

Campus-Affiliated Programs

OU Testing Center

Competency-based credit is available to students through the OU Testing Center, which offers College Level Examination Program (CLEP), Defense Activity for Non-Traditional Education (DANTES) Standardized Subject Tests (DSST), and institutionally developed Prior Learning Assessment exams. The Testing Center also offers the American College Testing (ACT) residual exam, Test of English as a Foreign Language (TOEFL), Graduate Record Exam (GRE), and the FAA Airman's Knowledge Test. For more information about the OU Testing Center, email testing@ou.edu or call (405) 325-1921.

Developmental Studies

The Developmental Studies program is a partnership between the OU College of Professional and Continuing Studies and Rose State College. The program offers OU students a convenient way to strengthen

their academic foundations prior to beginning University-level courses required in OU academic degrees. DMAT 0113, DMAT 0123, DENG 0113, and DRDG 0122 are offered as courses to assist students in assuring their readiness to succeed in regular University-level coursework. For more information on these programs, call (405) 325-5101.

Lifelong Learning Programs

Economic Development Institute

The OU Economic Development Institute (EDI) is the premier economic development program in the nation, with 60 years of experience providing professional economic developers with up-to-date knowledge and tools necessary to succeed in today's constantly-changing environment. More than 6,000 professionals have completed the full certification course, widely recognized throughout the profession. The OU EDI experience is designed to immediately impact a participant's professional career through the usage of best practices. It also provides all coursework needed to sit for the International Economic Development Council (IEDC) CEcD certification exam. Please email edi@ou.edu or call (405) 325-3136 for additional information.

Lean Institute

The OU Lean Institute (OULI) offers a wide variety of classes, certifications and coaching in Lean/Six Sigma, Lean Leadership, and Business Culture Transformation. Since 2004, The Institute has served a broad spectrum of private sector businesses, governmental agencies, and non-profits, saving money and other resources by improving efficiency and reducing waste. The Lean Institute teaches through project-based training, with students learning by making real world improvements in their companies and organizations. Our instructors, who are also expert field practitioners, work with students and clients on-site, in person and remotely. Participants in our training programs receive professional certificates from the University of Oklahoma and have the opportunity to complete white, green, and black belts in Lean Six Sigma. Our participants also acquire continuing education units (CEUs) necessary for many professional licenses. Successfully educating thousands in its nearly 20 years, the Lean Institute trains and works with clients in virtually all fields including transactional, service, manufacturing, health care, military, government, banking, energy, and education. Please email lean@ou.edu or call (405) 325-3136 for more information.

Laurance Reid Gas Conditioning Conference (LRGCC)

The Laurance Reid Gas Conditioning Conference (LRGCC) has been presented by the University of Oklahoma since 1951. The LRGCC has a worldwide reputation as the principal forum for preparing and purifying natural gases and other fuels. It is a crucial conference for professionals in the gas processing, conditioning, and sweetening industries. The program provides technological advances, theoretical breakthroughs, and current research in the field. For more information about this conference, email lmartinez@ou.edu.

Other Energy & Engineering Programs

The College of Professional and Continuing Studies offers additional niche training seminars and courses that include the annually held Corrosion Control Course and Gas Compressor Short Course, as well as the monthly#Blowout Prevention School. For more information on these programs, call (405) 325-3136.

Osher Lifelong Learning Institute (OLLI)

The Osher Lifelong Learning Institute (OLLI) at the University of Oklahoma is dedicated to promoting lifelong learning and personal growth of older adults, age 50+, through a variety of noncredit courses. Initially, these programs took the form of travel study opportunities and Elderhostel courses. In the 1980s, OU developed a dedicated learning

unit to serve the learning needs of mature adults, which was known as Senior Adult Services (SAS). In 2006, SAS received a grant from The Bernard Osher Foundation in California to become one of 125 Osher Lifelong Learning Institutes in America. The grant allows the program to do more of what it does best — serve Oklahoma's mature learners. In 2010, the program was endowed with a \$1 million gift from The Bernard Osher Foundation to sustain OLLI operations. Today, OLLI at OU provides educational and enrichment opportunities for adult learners through both the aforementioned avenues, including Mornings with the Professor, Senior Seminars, and invitations to special events. For more information about OLLI, email olli@ou.edu or call (405) 325-3488.

Precollegiate Programs

OU Precollegiate Programs provides academic and leadership programs for K-12 students, through a variety of academic enrichment activities. The program reaches 3,000 youth each year through academic programs, including summer academies funded by the Oklahoma State Regents for Higher Education in STEAM fields, NSF-funded summer research opportunities for high school students, Mini College summer camp for elementary school students, and Model United Nations of the Southwest. Precollegiate Programs has a long tradition of service to the broader community and serves as a way to engage K-12 youth in educational opportunities on a university campus and encourage them to engage on a path to higher education. For more information about OU Precollegiate Programs, email precollegiateprograms@ou.edu or call (405) 325-6897.

Thurman J. White Forum Building and Conference Services

As an integral part of the College of Professional and Continuing Studies, the Thurman J. White Forum hosts over 3200 events annually for more than 108,000 attendees. Participants come from across the United States and beyond to attend conferences, meetings, courses, and training offered in a variety of in-person and virtual formats.

The Forum Conference Services team provides turn-key professional meeting support to University and non-University groups. Available services include event planning, marketing, coordinating contracts with outside services, and online and on-site registration. OU Forum Conference Services also provides comprehensive on-site event management at the Forum Building, as well as other venues on the OU campus, hotels in Norman, and nearby cities.

The Forum Building is equipped with a full complement of A/V and meeting equipment in all meeting spaces, including ceiling mounted projectors and screens, sound-systems, laptops, wi-fi, whiteboards, and lecterns. Staff are available on-site during all event hours to provide technical and logistical support. Forum Conference Services also offers beverage service and can arrange for event catering needs.

For more information about Forum Conference Services, please email conferenceservices@ou.edu or call (405) 325-7378.

Undergraduate Study

Goals of Undergraduate Programs

The undergraduate curriculum offered by the College of Professional and Continuing Studies (PACS) is designed to help students gain greater self-awareness and realization of their potential in both work and life contexts, with a focus on helping them become ready to excel in some of the most in-demand fields in the region.

While pursuing their degrees, students will not only become well versed in their chosen areas of study, they will master the skills necessary to excel

in the workforce, setting them up for career advancement and higher salaries.

Online Coursework

The college offers its undergraduate degree programs in a 100% online format. All courses are considered asynchronous, meaning that students are not required to be online at the same time as their professors and classmates. Online courses are typically offered in five, eight-week academic sessions throughout the year — two sessions during the fall, two during the spring, and one during the summer. Students may choose to enroll in two courses (six hours) during each of the available academic sessions, allowing them to make full-time progress toward completion of their degree.

Online courses are provided through the University of Oklahoma's learning management system, Canvas, which can be accessed anywhere with an internet connection utilizing a smart phone, tablet, laptop, or desktop computer. The Canvas classroom environment facilitates student learning by providing a single location to access online lectures, learning materials, reading assignments, and discussion topics. Canvas also allows students to upload their assignments for instructor assessment, grading and feedback.

Admission to the College

Individuals wishing to pursue an undergraduate degree from the College must be fully admitted to the University of Oklahoma before beginning their coursework.

Individuals applying for admission to the PACS Adult Degree Completion (ADC) Program must be 25 years of age or older at the start of their first semester. They should also have completed at least 60 hours of letter-graded college credit with a 2.0 GPA or higher.

Applications to the ADC program can be completed at <https://attend.ou.edu/>. No application fee is required.

Students must submit official college transcripts from all previously attended academic institutions. International students must also demonstrate English proficiency.

Official transcripts must be enclosed in a sealed envelope and mailed directly from the institutions you attended to the following address:

OU College of Professional and Continuing Studies
Office of Admissions, Registration, and Records
1610 Asp Avenue, Suite 108
Norman, OK 73072-6405

Transcripts can also be submitted electronically to pacsugadmissions@ou.edu directly by the institutions you attended.

Application deadlines and additional information about the ADC application process can be found at the following location: <https://www.ou.edu/online/admissions/undergraduate>. Applications for admission can be submitted at any time of year, and students are encouraged to apply as early as possible to complete the admission process in advance of anticipated attendance.

Questions concerning admissions should be directed to:

Phone: (405) 325-1062
Toll-free: (800) 522-4389
Email: pacsinfo@ou.edu

Student Status and Enrollment

Current student status is effective for one year from the time of admission. If an admitted student does not enroll within one year, an application for readmission must be filed.

PACS reserves the right to cancel any course prior to its starting date if the course does not have sufficient enrollments.

Fee Structure and Payment

For the 2023-2024 academic year, all students registered in the PACS Adult Degree Completion Program will be charged a flat programmatic rate of \$500 per credit hour.

All university-related charges are billed through OU Bursar Services. Payment options are available and will be described in the electronic bill students receive from the Bursar. For additional billing information, please contact the Student Financial Center at (405) 325-9000 or sfc@ou.edu.

Other Educational Expenses

In addition to the programmatic fee charged per credit hour, students will be financially responsible for obtaining textbooks and any other required study materials. Students will also assume responsibility for travel and living expenses associated with attending any optional on-site seminars, as well as any material or field trip fees associated with these optional learning activities.

Refund Policy

A student withdrawing completely from a PACS program may be entitled to a refund. Students should contact their academic advisor for the refund policies associated with their program of study.

Financial Aid / Tuition Assistance

Most PACS undergraduate degree-seeking students are eligible to receive financial aid by completing the Free Application for Federal Student Aid (FAFSA). It takes a minimum of eight weeks to process financial aid materials, so students are encouraged to begin the financial aid process at least two months before the start of an academic session. For information concerning any financial aid matters, please contact PACS Financial Aid Services:

Phone: (405) 325-2929
Email: onlineaid@ou.edu
Website: <https://pacs.ou.edu/tuition-financial-aid/>

Some governmental agencies provide tuition assistance and other support programs for their employees. Likewise, many business and industrial corporations have available educational assistance programs. PACS students are urged to explore these types of assistance. Students who receive financial support from their employer are responsible for ensuring that any necessary authorization forms are forwarded to PACS in a timely fashion. Students are also responsible for knowing and meeting any criteria in respect to their enrollment status and their financial support.

Military Education Assistance

Tuition Assistance

Military-connected students using Tuition Assistance should begin by contacting their Education Officer for assistance. For any questions or concerns about current or future PACS enrollments, contact: va-militarybilling@ou.edu.

Veteran Benefits

Veterans and their dependents may be eligible to use US Department of Veteran Affairs (VA) education benefits for PACS programs. For more information, visit the VA's website, or contact OU Veteran Student Services.

Scholarships

The College of Professional and Continuing Studies provides a number of scholarship opportunities for undergraduate through alumni contributions to the University of Oklahoma. The college offers Start-Up Scholarships each semester for newly matriculated students entering the Adult Degree Completion Program. Additionally, a variety of alumni and named (endowed) scholarships are awarded to undergraduate students who are eligible based on the guidelines provided for each scholarship.

For many years, the College of Professional and Continuing Studies has also administered the Osher Scholarship program, which provides funding for undergraduate students returning to college who have at least a five-year gap in their college enrollment history and are working to complete their first bachelor's degree. In 2013, the college applied for and received a \$1 million endowment gift to permanently endow the Osher scholarship that is administered through the college. Criteria and procedures related to PACS scholarships are available on the PACS website.

PACS students may also qualify for some University scholarships in addition to those offered by the college. Students should visit the OU Centralized Academic Scholarship Hub (CASH) to review available scholarship opportunities.

University Services and Opportunities

PACS students have the same rights and responsibilities as other University students with respect to participation in most University programs and services, such as the Scholar-Leadership Enrichment Program, athletic events, museum access, cultural events, and other campus activities.

Some services for which traditional students pay additional semester-based fees, such as Goddard Health Center and Sarkey's Fitness Center, may be available to PACS students for a usage or service charge.

Grading System

Most courses offered by PACS are letter-graded (A-F) and utilize the grade point system (A=4, B=3, C=2, D=1, F=0).

Some independent study courses and specially offered seminars may be S/U graded (satisfactory/ unsatisfactory). In these cases, a grade of 'S' at the undergraduate level signifies that work was completed at the 'D' level or better and is necessary for receiving credit for a non-letter-graded course.

Graduation

Students will become graduation candidates upon completion of all requirements for the degree they are pursuing. All OU students must apply for graduation. Please visit the OU Graduation Office website for deadlines, procedures, and details about convocations and graduation receptions.

Degrees are conferred by the University each year in December, May, and August. PACS commencement ceremonies are held in-person on the OU campus every May.

Minimum Requirements for Graduation

- A minimum cumulative GPA of 2.0
- At least 30 hours earned from the University of Oklahoma
- At least 40 upper-division hours earned
- At least 60 hours earned from a four-year, baccalaureate-granting institution
- Completion of all general education requirements specified for the degree
- Completion of all major course requirements with a 'C' or higher (or an 'S', if enrolled in an S/U graded course). Major course requirements cannot be taken as Pass/Fail
- Completion of additional free electives with a passing grade, so the total number of credit hours earned meets the minimum required for the degree being pursued

Preparation for Graduate Study

All PACS undergraduate degree programs satisfy the baccalaureate degree requirement for admission to the OU Graduate College and most other graduate institutions. Some graduate programs, however, may require the completion of specific courses for full graduate standing in their major and/or minor fields of study. It is important to inquire and learn of specific curricular and admission requirements before making application to a graduate program at OU or elsewhere, and it is the student's responsibility to do so for any graduate program to which the student wishes to apply.

Awards and Recognition

PACS students and faculty are eligible to participate in recognition and award programs offered by the university and college. These awards are supported through gifts to the University of Oklahoma Foundation.

Each fall semester, one PACS bachelor's student is recognized as the college's outstanding senior in the OU Parent's Association award program. During the spring semester, an outstanding bachelor's graduate receives the Jesse E. Burkett Award, named for an early college administrator. The George Henderson Leadership Award is also awarded each spring, recognizing a bachelor's student who has displayed outstanding leadership ability in the college's undergraduate Organizational Leadership program. Each may, the college also selects a Banner Carrier to represent the college in convocation and commencement activities.

Faculty awards include the Kenneth E. Crook Award and the Rufus G. Hall Faculty Achievement Award, both named in honor of faculty founders of the college's original degree programs. The Superior Teaching Award is presented to the faculty member who best demonstrates superior teaching. Faculty awardees are selected for their teaching excellence and meritorious service to the college.

Courses

LSAL 2700 Topics in Administrative Leadership 1-9 Credit Hours
May be repeated with change of content; maximum credit nine credit hours. Specific course content will be defined each time the course is offered. A problem-oriented approach to Administrative Leadership. Reading and research, arranged and directed in consultation with the instructor, in specified areas of Administrative Leadership. (F, Sp, Su)

- LSAL 3243 Lean Leadership 3 Credit Hours**
Prerequisite: None. This course experience will give students an opportunity to examine their current perceptions of what makes for an effective leader in business/life situations and compare these perceptions with the primary mission of a Lean Leader. (Sp)
- LSAL 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- LSAL 3533 Adapting To Changing Marketing Environments 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. Focuses on innovative strategy planning that helps businesses survive in increasingly competitive markets. An analysis of the individual consumer as a problem solver who is influenced by psychological variables, social influences, and the purchase situation. Also studies the number, size, location, and buying behavior of various types of organizational customers, and logistics activities and how they provide time and place utility to improve value to the customer. (F, Sp, Su)
- LSAL 4700 Advanced Topics in Administrative Leadership 1-9 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. May be repeated with change of content; maximum credit nine hours. Investigation into problems of leadership not covered in existing courses, and utilizing an interdisciplinary approach. Will culminate in a written report of investigation. Specific course content will be defined each time the course is offered. Reading and research, arranged and directed in consultation with the instructor, in specified areas of liberal studies. (F, Sp, Su)
- LSAL 4920 Internship in Administrative Leadership 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing and permission from CLS adviser. May be repeated with change of content; maximum credit nine hours. Field experience in issues related to a student's area of study. Students will gain knowledge through experiential and on-the-job practice. (F, Sp, Su)
- LSAL 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: junior standing and permission from PACS adviser and instructor. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- LSAL 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing or permission from PACS adviser. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- LSAL 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Junior standing and permission of PACS adviser and instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- LSCJ 2700 Topics in Criminal Justice 1-9 Credit Hours**
May be repeated with change of content; maximum credit nine credit hours. Specific course content will be defined each time the course is offered. A problem-oriented approach to Criminal Justice. Reading and research, arranged and directed in consultation with the instructor, in specified areas of Criminal Justice. (F, Sp, Su)
- LSCJ 3233 Restorative Justice and Problem-Solving Courts 3 Credit Hours**
Prerequisite: Junior standing or permission from advisor. Exploration of the philosophies, principals and strategies of non-incarceration justice models that seek to rehabilitate offenders as well as reduce harm to society and victims. (F, Sp, Su)
- LSCJ 3243 Capital Punishment 3 Credit Hours**
Prerequisite: Sophomore standing, or permission from academic advisor. An exploration of historical, legal, ethical, and sociological aspects of capital punishment in the American experience. Topics include an examination of capital punishment as practiced from colonial times to present, the moral, legal, and political conflicts surrounding the American death penalty, the players and personalities in our capital punishment system, and representations of capital punishment in American culture. (F, Sp, Su)
- LSCJ 3333 Special Populations in Corrections 3 Credit Hours**
Prerequisite: Junior standing or permission from academic advisor. Introduction to the management challenges presented by special populations in the criminal justice system, including individuals with mental illness, addictions, the disabled and the elderly. (F, Sp, Su)
- LSCJ 3423 Computer Crime and Digital Investigation 3 Credit Hours**
Prerequisite: Junior standing or departmental permission. The course will examine the ways in which the digital world has changed legal concepts developed in the brick-and-mortar world. It will focus on cutting-edge legal issues related to cybercrime, obtaining digital evidence, privacy issues, and the intersection of these issues with civil liberties. (F, Sp, Su)
- LSCJ 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- LSCJ 3953 Prospectus-Writing for Criminal Justice 3 Credit Hours**
Prerequisite: Junior standing and LSTD 3003, or permission from advisor. Preparatory course for LSCJ 4953 focusing on research methods, critical evaluation of academic literature, identifying and developing research topics, and improving academic writing. (F, Sp, Su)
- LSCJ 4143 Drugs and Society 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. Examines the impact of drug abuse on contemporary American society. Students learn about drug regulation and legal issues, how drugs affect the brain and shape behavior, and the various categories of drugs and their characteristics. Also focuses on drug abuse prevention, treating drug dependence, and law enforcement programs to address drugs in society. (F, Sp, Su)

- LSCJ 4233 Community Policing and Problem Solving 3 Credit Hours**
Prerequisite: Junior standing or permission from academic advisor. An introduction to the concept of community policing. Topics include an historic overview of policing in the US, the definition of and strategies used in community policing, and an exploration of challenges related to modern policing. Specific emphasis is placed on developing a tool set for law enforcement professionals to effectively lead police agencies into the future. (F, Sp, Su)
- LSCJ 4253 Corporate Security: Private Policing in the 21st Century 3 Credit Hours**
Prerequisite: Junior standing or permission from academic advisor. An examination of the operational aspects of private security and private forms of policing with particular emphasis towards how these functions relate to the broader public safety and homeland security landscape. (F, Sp, Su)
- LSCJ 4700 Advanced Topics in Criminal Justice 1-9 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. May be repeated with change of content; maximum credit nine hours. Specific course content will be defined each time the course is offered. A problem-oriented approach to criminal justice. Reading and research, arranged and directed in consultation with the instructor in specified areas of criminal justice. (F, Sp, Su)
- LSCJ 4920 Internship in Criminal Justice 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing and permission from CLS adviser. May be repeated with change of content; maximum credit nine hours. Field experience in issues related to a student's area of study. Students will gain knowledge through experiential and on-the-job practice. (F, Sp, Su)
- LSCJ 4943 Practicum in Criminal Justice Leadership - Self-Study 3 Credit Hours**
Prerequisite: Criminal Justice major with senior standing, retention GPA of 2.8 or higher, consent of the Criminal Justice Department Lead Faculty, and any additional criteria as specified by the internship manual. A comprehensive work experience that promotes essential knowledge, skills, and abilities needed to succeed in the field of criminal justice. Options include cooperative education, apprenticeships, extended job shadowing, internships, and other systematic, planned work experiences. Approval of work experience and number of credits to be earned is required. (F, Sp, Su)
- LSCJ 4953 Capstone in Criminal Justice 3 Credit Hours**
Prerequisite: Junior standing, LSTD 3003, and LSCJ 3953, or permission from advisor. Senior capstone course for criminal justice culminating in a scholarly paper focusing on a specialized topic or case study. Students will demonstrate mastery of research skills, critical and analytical thinking, academic writing, and programmatic knowledge. (F, Sp)
- LSCJ 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: junior standing and permission from PACS adviser and instructor. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- LSCJ 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing or permission from PACS adviser. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- LSCJ 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Junior standing and permission of PACS adviser and instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- LSIS 3433 Positives and False Positives: Identifying Archaeoastronomy Pseudoscience 3 Credit Hours**
Prerequisite: Junior Standing or departmental permission. An introduction to the critical assessment of well-founded archaeoastronomy research in comparison with examples of popularized, but unsupported pseudoscience. (F, Sp)
- LSIS 3473 Concepts and Methods for Astronomy in Culture 3 Credit Hours**
Prerequisite: Junior Standing or departmental permission. This course focuses on the mechanics and methods of Cultural Astronomy and teaches proper data collection and publication. The underlying concepts of astronomy are introduced, and students are familiarized with research instruments such as sighting compasses, inclinometers, and theodolites. (F, Sp)
- LSIS 4273 Understanding Educational Inequality in the U.S. 3 Credit Hours**
Prerequisite: Junior standing or permission from CLS adviser. An examination of inequality within the American educational system from K-12 to higher education utilizing demographic data and analyzing current research on inequality based upon race, class, and gender. (F, Sp, Su)
- LSIS 4283 Class and Economic Inequality in America 3 Credit Hours**
Prerequisite: Junior standing or permission from CLS adviser. An examination of how social class and socio-economic status (SES) operate in American society, including how media and research findings depict economic and social inequality in the United States. (F, Sp, Su)
- LSIS 4303 Leadership and Governance for Social Entrepreneurs 3 Credit Hours**
Prerequisite: Junior standing and LSAL 4163, or permission from PACS adviser. Explores leadership and governance through the perspective of organizational directors and corporate officers. Examines the processes of vision and mission casting, the setting of organizational direction, strategic planning through executive leadership, and the creation of founding documents and policies, all with the "design culture" in mind. (F, Sp, Su)
- LSIS 4323 Budgeting for Social Entrepreneurs 3 Credit Hours**
Prerequisite: Junior standing and LSAL 4163, or permission from PACS adviser. An exploration of economics, finance, and accounting from the perspective of commercial, nonprofit, community service and government service entities. Topics include basic accounting principles and the organization of financial statements, the fundamentals of financial investing, and the impact of interest on an organization's planning. (F, Sp, Su)
- LSIS 4343 Case Studies in Social Entrepreneurship 3 Credit Hours**
Prerequisite: Junior standing and LSAL 4163, or permission from PACS adviser. An exploration of social innovation and entrepreneurship presented through the historical examination of organizations that have utilized innovative methods and strategies to address social issues. (F, Sp, Su)

LSIS 4493 Contemporary Cultural Astronomy 3 Credit Hours

Prerequisite: Junior standing or departmental permission. This course explores the many ways that astronomy plays a role in contemporary popular culture. It focuses on cultural examples and ways that people are inspired to react to astronomical events. It will instill an understanding of the effects of astronomy in culture and examines 21st Century ceremonies at sites such as Chaco Canyon, Machu Picchu, and Stonehenge. (F, Sp, Su)

LSIS 4700 Advanced Topics in Integrated Studies 1-9 Credit Hours

1 to 9 hours. Prerequisite: junior standing or permission from CLS adviser. May be repeated with change of content; maximum credit nine hours. Specific course content will be defined each time the course is offered. A problem-oriented approach to interdisciplinary studies. Reading and research, arranged and directed in consultation with the instructor in specified areas of integrated studies. (F, Sp, Su)

LSIS 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: junior standing and permission from PACS adviser and instructor. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

LSIS 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: junior standing or permission from PACS adviser. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

LSIS 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Junior standing and permission of PACS adviser and instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

LSIS 5033 Ethnographic Field Research and Writing 3 Credit Hours

Prerequisite: Graduate standing and LSTD 5003, or permission from graduate advisor. This course is an applied exploration of ethnographic research methodology through the development of a research question, immersion with a person or group of people, and completion of a final paper. Research skills addressed include participant-observation, listening, and critical thinking to develop both insider (emic) and outsider (etic) perspectives about sociological and cultural issues. (F, Sp, Su)

LSIS 5093 Literature Review Development 3 Credit Hours

Prerequisite: Graduate standing and LSTD 5003, or permission from graduate advisor. An applied exploration of the literature review process. Research skills practiced include: conducting academic literature searches, selecting sources, and documenting salient research related to a specified problem statement, background to the problem, research questions, and methodology. (F, Sp, Su)

LSIS 5113 Critical Readings in Interdisciplinary Studies 3 Credit Hours

Prerequisite: Graduate standing and LSTD 5003 or permission from graduate advisor. The course is an analysis of critical texts in interdisciplinary research selected to expand creative thought and insight about the world in which we live and to provide a basis for future application of interdisciplinary study and reasoning. (F, Sp, Su)

LSIS 5133 Advanced Interdisciplinary Foundations 3 Credit Hours

Prerequisite: Graduate standing, LSTD 5003 and LSTD 5013 or permission from graduate advisor. The course is an introduction of Thomas Kuhn's paradigm concept and its utility to both describe and guide knowledge acquisition in academic disciplines. Topics include the origins of the paradigm concept, the history and nature of scientific discovery, and the application of the paradigm concept to non-physical science academic disciplines. (F, Sp, Su)

LSIS 5203 Diversity and Leadership in the United States 3 Credit Hours

Prerequisite: Graduate standing and LSTD 5003, or permission from graduate advisor. Study of theories of leadership, identity, race, gender, disability, and oppression, issues of diversity and inclusion, challenges of underrepresented populations in the United States, and our responsibilities as leading diverse populations. Explores concepts, principles and case studies in ethics in the social science, particularly business ethics. Students examine core values of social conditioning, short-term profiteering, and the need for affiliation. (F, Sp, Su)

LSIS 5233 Global Challenges in Leadership 3 Credit Hours

Prerequisite: Graduate standing and LSTD 5003, or permission from graduate advisor. This course is an exploration of global leadership challenges based on individual, organizational, and multi-cultural scenarios. Issues examined include cultural diversity, the role of women in global context, social and economic disparities, development of a global mindset and global leaders, leading multinational and culturally diverse teams, and challenges of expatriate leadership. (F, Sp, Su)

LSIS 5243 LGBTQ Leadership 3 Credit Hours

Prerequisite: Graduate standing. An exploration of LGBTQ leadership and associated issues in social, corporate, and political organizations. Topics include current and historical LGBTQ leaders, challenges associated with anti-LGBTQ bias, and implementation of diversity policies in organizations. (F, Sp, Su)

LSIS 5253 Cultural Communication in Leadership 3 Credit Hours

Prerequisite: Graduate standing and LSTD 5003, or permission from graduate advisor. A critical look at the value and necessity of cross-cultural communication in human development and interdisciplinary learning for quality interpersonal relations in communities and the workplace. The course will survey major theories of cultural communication and their intersections with race, gender, sexuality, and economics and will apply these concepts to real-world scenarios. (F, Sp, Su)

LSIS 5263 Significance of Race in Society in the United States 3 Credit Hours

Prerequisite: Graduate standing. An exploration of the major theoretical perspectives used to explain racial issues in the United States. Identifies common racial/ethnic assumptions through an examination of how race or ethnicity is portrayed in the media with a comparison of current research findings relating to inequality. (F, Sp, Su)

LSIS 5273 Overcoming Educational Inequality in the United States 3 Credit Hours

Prerequisite: Graduate standing. An examination of inequality within the American educational system from K-12 to higher education utilizing demographic data and analyzing current research on inequality based upon race, class, and gender. (F, Sp, Su)

LSIS 5293 Exploring Race and Gender in Film 3 Credit Hours

Prerequisite: Graduate standing. An examination of race and gender in film during the post-civil rights period. Explores the effects of inequality and inclusiveness through the cinematic lens and analyzes the evolution of film relating to the depiction of race and gender issues. (F, Sp, Su)

- LSIS 5333 Volunteer Program Development 3 Credit Hours**
Prerequisite: Graduate standing, LSTD 5003 and LSTD 5013 or permission from the instructor. Introduction to volunteer program planning and development. Topics include assessing an organization's volunteer needs; planning and implementing recruiting, screening, placement, and training strategies; and mobilizing volunteers to meet organizational goals. (F, Sp, Su)
- LSIS 5373 Volunteer Management 3 Credit Hours**
Prerequisite: Graduate standing, LSTD 5003 and LSTD 5013 or permission from graduate advisor. Examination of the affective use of volunteers in a variety of organizations. Topics include motivating, monitoring, and supervising volunteers, and the retention of volunteers through appreciation and recognition strategies. (F, Sp, Su)
- LSIS 5403 Introduction and Research Methods for Archaeoastronomy 3 Credit Hours**
Prerequisite: Graduate standing. An introduction to the interdisciplinary research field of archaeoastronomy, the study of prehistoric astronomical knowledge. Topics include research methods, examples of astronomical associations with prehistoric architecture, and cultural insights of prehistoric peoples acquired through the field. (F, Sp, Su)
- LSIS 5423 Archaeoastronomy of Chaco Canyon and Cahokia 3 Credit Hours**
Prerequisite: Graduate standing. A review of archaeoastronomy research at two prehistoric cities in North America. Topics include the evidence for cosmological references in architecture and monumental architecture at Chaco Canyon and Cahokia and the foundational interpretive context provided by published historic period ethnographic information ("ethnoastronomy") for selected culture groups. (F, Sp, Su)
- LSIS 5433 Astronomy Traditions of the First Nations in the United States and Canada 3 Credit Hours**
Prerequisite: Graduate standing. An exploration of indigenous astronomy and how it has been used by First Nations in the United States and Canada. Historical examples of how astral phenomena were interpreted and employed will be discussed. (F, Sp, Su)
- LSIS 5443 Latin American Archaeoastronomy 3 Credit Hours**
Prerequisite: Graduate standing. An exploration of Mesoamerican and Latin American calendrical systems and the importance of astronomy to the design of cities and monumental structures. Surveyed sites include Chichen Itza, Teotihuacan, Tenochtitlan, and Cuzco. Emphasis is placed on the methods used to conduct archaeoastronomy research based on evidence provided by contributing academic disciplines. (F, Sp, Su)
- LSIS 5463 Archaeoastronomy Beyond the Americas 3 Credit Hours**
Prerequisite: Graduate standing. A survey of astronomy as documented through traditional world cultures during the historic period and the astronomical associations with monumental prehistoric structure design. Site locations discussed include the British Isles, Egypt, China, Polynesia, and Australia. (F, Sp, Su)
- LSIS 5483 Ethnoastronomy 3 Credit Hours**
Prerequisite: Graduate standing. This course is an examination of how astronomy has been utilized by various cultures throughout history. Topics include ethnoastronomy, cultural interpretations of astral phenomena, and astronomical beliefs relating to creation and religion. (F, Sp)
- LSIS 5493 Fieldwork in Archaeoastronomy 3 Credit Hours**
Prerequisite: Graduate standing, LSIS 5403, LSIS 5423, and departmental permission. A practical application of archaeoastronomy survey fundamentals. Includes a contextual and site literature review and one-week onsite field survey led by departmental faculty. Students will engage in preliminary collaborative data interpretation and have the option to pursue a post field-school publication of their research findings. Survey site will change annually with focus on Chaco Canyon, NM outlier Great Houses. (Su)
- LSIS 5700 Advanced Topics in Integrated Studies 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing. May be repeated; maximum credit 12 hours. Intensive research on a topic related to the student's program of study; variable topics. (F, Sp, Su)
- LSIS 5920 Internship in Integrated Studies 2-6 Credit Hours**
2 to 6 hours. Prerequisite: graduate standing, LSTD 5003, and permission of dean. May be repeated; maximum credit six hours. 450 hours of field experience directly related to study focus in the MALS program. Requirements include journal, reports, written summary, and comprehensive examination over these materials. (F, Sp, Su)
- LSIS 5960 Directed Readings 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing, LSTD 5003, and completion of first concentration core course; or permission of the dean. May be repeated with change of content; maximum credit 9 hours. In-depth study of literature on a topic related to the student's program of study; variable content. (F, Sp, Su)
- LSIS 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing, LSTD 5003, and completion of first concentration core course; or permission of dean. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- LSIS 5980 Research for Master's Thesis 2-9 Credit Hours**
Prerequisite: graduate standing, LSTD 5003, LSTD 5013, and completion of first concentration core course; or permission of dean. May be repeated; maximum credit six hours. Research and writing of a thesis for completion of CLS graduate degrees. (F, Sp, Su)
- LSIS 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing, LSTD 5003, and completion of first concentration core course; or permission of dean. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- LSLC 2970 Topics in Lifespan Care and Administration 1-6 Credit Hours**
1 to 6 hours. May be repeated with change of content; maximum credit six credit hours. Specific course content will be defined each time the course is offered. A problem-oriented approach in lifespan care and administration. May include reading and research, as well as lecture in a specified area of cultural studies. (F, Sp, Su)
- LSLC 3133 Lifespan Health 3 Credit Hours**
Prerequisite: junior standing or permission from CLS advisor. Lifespan Health will provide students with an introductory survey of the importance and principles of good health over the lifespan. Students will learn how to identify signs of incipient health problems and basic health promotion strategies. Assignments are designed to provide students with practical knowledge and application of health promotion across the lifespan. (F, Sp, Su)

- LSLC 3173 Human Service Administration I 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. Introduction to current theory and best practices in the administration of human services in both non-profit and for-profit settings. Topics include legal issues, effective administrative models, leadership in human services organizations, and management of human resources. (F, Sp, Su)
- LSLC 3203 Care of Infant and Child 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. Introduction to basic principles of child behavior and development and apply those principles to child care settings. Topics include normative physical, social, emotional, cognitive, and sexual development, as well as risk factors for early intervention and referral to professional services. (F, Sp, Su)
- LSLC 3223 Problems of the American Family 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. Study of the societal influences that may have adverse effects on family life. Factors covered include poverty, divorce, employment, violence, substance abuse and other stressors. Additional topics include historical perspectives on the changing nature of the American family and evidence-supported strategies for coping with and preventing family stressors. (F, Sp, Su)
- LSLC 3273 Management of Infant and Child Care Facilities 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. In-depth study of the theory and practice of managing infant and child care facilities. (F, Sp, Su)
- LSLC 3313 Issues in Adolescence I 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. Investigation of the physical, behavioral, mental, emotional and social changes that accompany growth and development during the adolescent years. (F, Sp, Su)
- LSLC 3333 Career and Life Development for Adolescents 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. Discussion of current research on career options for adolescents. Specific emphasis is placed on providing practitioners with tools needed to develop plans of action to engage youth and help them choose a career and life course. (F, Sp, Su)
- LSLC 3373 Management of Adolescent Residential Care Facilities 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. In-depth study of the theory and practice of managing adolescent residential care. (F, Sp, Su)
- LSLC 3403 Issues in Geriatrics I 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. Introduction to key concepts and current research in geriatrics. Topics include operational definitions and terms used in studying geriatrics, facts and misconceptions associated with aging, and a review of US and international gerontological services and social policies. (F, Sp, Su)
- LSLC 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- LSLC 3473 Management of Geriatric Care Facilities 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. Introduction to the basic concepts and approaches to management of older patients and their informal care givers designed for staff and directors of service agencies that care for older individuals. Topics include understanding the motivations for care delivery in old age and the array of services available for geriatric care management. (F, Sp, Su)
- LSLC 3953 Lifespan Capstone Prospectus 3 Credit Hours**
Prerequisite: junior standing and LSTD 3003; or permission from CLS adviser. Preparatory course for capstone experience in Lifespan Care and Administration. Course objectives include a critical evaluation of research issues in Lifespan Development, investigation of practicum opportunities, and development of a practicum case study with a preliminary annotated bibliography. (F, Sp, Su)
- LSLC 4063 Issues in Lifespan Research 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. Discussion of philosophy of science and scientific method as it relates to research in health and human services. (F, Sp, Su)
- LSLC 4173 Human Service Administration II 3 Credit Hours**
Prerequisite: LSLC 3173, Human Service Administration I. Examination of current theory and best practices in the administration of human services in both non-profit and for-profit settings. Topics include legal issues, effective administrative models, leadership in human and health services organizations, and management of human resources. (F, Sp, Su)
- LSLC 4193 Human Service Budgeting and Finance 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. Introduction to the leadership competencies necessary to formulate, execute, monitor, and evaluate fiscal operations of human services organizations. (F, Sp, Su)
- LSLC 4203 Parenting: Different Models 3 Credit Hours**
Prerequisite: Junior standing or permission from CLS adviser. Review of theory and research on styles and techniques of effective parenting for children and adolescents, including discussion of how contextual, cultural and individual difference factors impact parenting. Applications to real world contexts including counseling and case management services for children and families are also addressed. (F, Sp, Su)
- LSLC 4313 Issues in Adolescence II 3 Credit Hours**
Prerequisite: junior standing and LSLC 3313, or permission from CLS adviser. Continuing study of important issues in adolescence, particularly those that can enhance or interfere with healthy physical, emotional, or social development. Topics include substance abuse, aggression, delinquency, gangs, sex, romantic relationships, peer relationships, and peer pressure. (F, Sp, Su)
- LSLC 4403 Issues in Geriatrics II 3 Credit Hours**
Prerequisite: junior standing and LSLC 3403, or permission from CLS adviser. Continuing study of geriatrics from a biological perspective. Topics include why and how organisms age, what it means to age successfully, and debates over whether and how aging might be slowed, stopped or reversed. (F, Sp, Su)
- LSLC 4513 Registered Behavior Technician Preparatory Course 3 Credit Hours**
Prerequisites: Sophomore standing. An exploration of the basic principles of Applied Behavior Analysis (ABA) designed to provide the knowledge base needed to work as a line therapist in ABA programs under the direction of licensed or certified personnel and to become a nationally certified Registered Behavior Technician. (F, Sp, Su)

LSLC 4700 Advanced Topics in Lifespan Care and Administration 1-9 Credit Hours

Prerequisite: junior standing or permission from CLS adviser. May be repeated with change of content; maximum credit nine hours. Specific course content will be defined each time the course is offered. A problem-oriented approach to lifespan care and administration. Reading and research, arranged and directed in consultation with the instructor in specified areas of lifespan care and administration. (F, Sp, Su)

LSLC 4920 Internship in Lifespan Care and Administration 1-3 Credit Hours

1 to 3 hours. Prerequisite: junior standing and permission from CLS adviser. May be repeated with change of content; maximum credit nine hours. Field experience in issues related to a student's area of study. Students will gain knowledge through experiential and on-the-job practice. (F, Sp, Su)

LSLC 4953 Lifespan Practicum and Study-in-Depth 3 Credit Hours

Prerequisite: junior standing, and LSTD 3003 and LSLC 3953; or permission from CLS adviser. The senior capstone course in Lifespan Care and Administration consisting of a field practicum followed by a scholarly paper on a specialized topic/case study within the area of lifespan studies. The required paper shall be of the quality and extent comparable to a senior thesis. The study should reflect the student's competence and achievement in sustained research on a topic within lifespan studies. (F, Sp)

LSLC 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: junior standing and permission from PACS adviser and instructor. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

LSLC 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: junior standing or permission from PACS adviser. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

LSLC 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Junior standing and permission of PACS adviser and instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

LSPS 5113 Foundations in Prevention Science 3 Credit Hours

Prerequisite: graduate standing. Provides a theoretical and practical basis for exploring the role of primary prevention, examining prevention practice as social action, analyzing prevention systems and development, and evaluating the role of media advocacy and social marketing in effective prevention practice as they relate to substance abuse. (F, Sp, Su)

LSPS 5133 Prevention Across the Lifespan 3 Credit Hours

Prerequisite: graduate standing. Study of lifespan issues related to substance abuse to include theories of human growth and development, brain development, impact of substances on the brain at various stages of development, transition periods, and strategies to address service provision issues. (F, Sp, Su)

LSPS 5173 Program Development Implementation and Evaluation 3 Credit Hours

Prerequisite: graduate standing. Facilitates the development of knowledge and skills essential to understanding and applying concepts, principles, processes and models to plan, design, implement and evaluate substance abuse prevention programs. (F, Sp, Su)

LSPS 5203 Drugs and the Brain 3 Credit Hours

Prerequisite: graduate standing. Examination of the effects of drug use on the brain. Topics include physical and functional aspects of the brain, damage to the brain caused by drugs, and how brain damage appears as behavioral patterns that cause problems for individuals, their families, and society in general. (F, Sp, Su)

LSPS 5700 Advanced Topics in Prevention Science 2-9 Credit Hours

2 to 9 hours. Prerequisite: graduate standing. May be repeated; maximum credit 12 hours. Advanced studies in various prevention science topics, offered under stated titles determined each semester by the instructor involved. (F, Sp, Su)

LSPS 5920 Internship in Prevention Science 2-6 Credit Hours

2-6 hours. Prerequisite: graduate standing, LSTD 5003, and permission of dean. May be repeated; maximum credit six hours. Field experience directly related to study focus in the Prevention Science program. Requirements include some combination of journal, progress reports, written summary of experiences, or academic paper, and a possible comprehensive examination over these materials. (F, Sp, Su)

LSPS 5960 Directed Readings in Prevention Science 2-9 Credit Hours

2 to 9 hours. Prerequisite: graduate standing, LSTD 5003, and completion of first concentration course; or permission of dean. May be repeated with change of content; maximum credit 9 hours. In-depth study of literature on a topic related to the student's program of study; variable content. (F, Sp, Su)

LSPS 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing, LSTD 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

LSPS 5980 Research for Master's Thesis 2-9 Credit Hours

2 to 9 hours. Prerequisite: graduate standing, LSTD 5003, LSTD 5013, and completion of first concentration core course; or permission of dean. May be repeated; maximum credit six hours. Research and writing of a thesis for completion of PACS graduate degrees. (F, Sp, Su)

LSPS 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing, LSTD 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

LSTD 1603 Operation and Application of Small Unmanned Aerial Systems 3 Credit Hours

Preparatory course in small unmanned aerial systems (sUAS) for students planning to take the FAA's 14 CFR Part 107 initial aeronautical knowledge test. Topics include regulatory requirements associated with certification, registration, and waivers for sUAS flight scenarios and the practical application of sUAS in public and private sectors. (F, Sp, Su)

- LSTD 2203 Evil Acts, Religious Reasons 3 Credit Hours**
Examines the ways in which religious faith has been used to rationalize war, terrorism, ethnic cleansing and other evil acts. Using comparative religious study as a basis for inquiry, students will learn the five warning signs of imminent evil in the name of religion. This is an interdisciplinary course, drawing upon perspectives from religious history, sociology, education and religious philosophy. (F, Sp, Su)
- LSTD 2700 Special Topics in Liberal Studies 1-9 Credit Hours**
May be repeated with change of content; maximum credit nine credit hours. Specific course content will be defined each time the course is offered. A problem-oriented approach to interdisciplinary studies. Reading and research, arranged and directed in consultation with the instructor, in specified areas of liberal studies. (F, Sp, Su)
- LSTD 3021 Fundamentals of Online Research 1 Credit Hour**
Equips students to successfully complete academic research in an online environment. Topics will include fundamentals of online research, search tools and applications, OU online resources, research strategies, evaluation of sources, and basics of referencing and citation. Students will have the opportunity to practice online research strategies and apply research methods to topics in their current courses. (F, Sp, Su)
- LSTD 3043 Goal Setting and Attainment 3 Credit Hours**
Prerequisite: junior standing or permission from academic advisor. Introduction to the importance of establishing goals and the goal attainment process in career, civic, and personal settings. (F, Sp, Su)
- LSTD 3283 Film Noir 3 Credit Hours**
Prerequisites: Sophomore standing or permission from CLS academic adviser. An exploration of film noir as an art form through the perspectives of history, sociology, psychology, philosophy, and technology. Topics include the intellectual and literary origins of film noir and the genre's impact on film making and culture. (F, Sp, Su)
- LSTD 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- LSTD 3953 Study-in-Depth Prospectus 3 Credit Hours**
Prerequisite: junior standing and LSTD 3003; or permission from CLS adviser. This course helps prepare the student for the senior capstone study in depth paper. Content will focus on upper-division level writing, research and argumentation. (F, Sp, Su)
- LSTD 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major. The topics will cover materials not usually presented in the regular courses. (Irreg.)
- LSTD 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- LSTD 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work on a special project under the guidance of a professor in the student's field. (Irreg.)
- LSTD 4153 Exploring Justice 3 Credit Hours**
Prerequisite: Junior standing or permission from academic advisor. A comparative exploration of the concept of justice as it is defined and applied around the world. Topics include historical and modern theories on justice, the potential contradictions between various understandings of justice, and the real-life implications of these different viewpoints. (Irreg.)
- LSTD 4273 Jazz and the Global Community 3 Credit Hours**
Prerequisite: junior standing or permission from CLS adviser. A course about jazz, its social history, and its relationship to world cultures and the international community. Although jazz is no longer the most popular music in the United States, its history and the issues surrounding its nature stand at the heart of a diverse America that has borrowed cultures and traditions all over the world. (F, Sp, Su)
- LSTD 4920 Internship in Liberal Studies 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing and permission from CLS adviser. May be repeated with change of content; maximum credit nine hours. Field experience in issues related to a student's area of study. Students will gain knowledge through experiential and on-the-job practice. (F, Sp, Su)
- LSTD 4953 Study-in-Depth: CLS Capstone Course 3 Credit Hours**
Prerequisite: junior standing, LSTD 3003, and LSTD 3953; or permission from CLS adviser. A scholarly paper on a specialized topic, or an artistic or literary creation of the quality and extent comparable to a senior thesis. The study should reflect the student's originality, competence and achievement in sustained research or creative endeavor involving a specific or limited field in some depth. (F, Sp, Su) [V].
- LSTD 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: junior standing and permission from CLS adviser and instructor. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- LSTD 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing or permission from CLS adviser. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- LSTD 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Junior standing and permission of CLS adviser and instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- PSAD 3603 Introduction to Aerospace and Defense 3 Credit Hours**
Prerequisite: Junior standing or departmental permission. This course provides an overview of topics needed by decision makers in the aerospace and defense field. Topics related to the development and history of the field, technology, intelligence, weapons, procurement, strategy, and future trends will be examined. Students will be exposed to a range of ideas and competencies needed by policymakers in a variety of aerospace and defense organizations. (F, Sp)

PSAD 4613 Considerations for Future Aerospace and Defense 3 Credit Hours

Prerequisite: Junior standing or departmental permission. This course provides an overview of the aerospace and defense industry, with a focus on the development of national strategy and doctrine, international political environment, contemporary and future procurement, and future developments in technology and planning. Students will learn about the key players in the industry, the challenges and opportunities, and the role of aerospace and defense in national security. (F, Sp)

PSBA 2283 Understanding Management 3 Credit Hours

Examines organizational planning, the process of organizational decision making, the early research on leadership that focuses on personal traits, motivation in organizations, communicating in organizations, teamwork in organizations, the principles of organization and organizational control. (F, Sp, Su)

PSBA 3123 Applied Budget & Finance 3 Credit Hours

Prerequisite: Junior standing or departmental permission. This course serves as an introduction to fundamental financial principles utilized in business today. It is increasingly important for nonfinancial managers to be able to understand financial terms at a nontechnical level. This course provides students with an understanding of financial terminology and accounting methods so that they can effectively explain the financial implications of decisions made within the business. (F, Sp, Su)

PSBA 3143 Marketing and Brand Management 3 Credit Hours

Prerequisite: Junior standing or departmental permission. Focuses on marketing and marketing strategy planning, examining the "Four Ps" (Product, Place, Promotion, and Price). The course integrates topics such as international marketing, social media, and ethics throughout the units. The course will also cover brand management concepts, discussing how branding should result in increased sales, as well as how branding integrates into the other areas of marketing. (F, Sp, Su)

PSBA 3223 Finance for Non-Finance Managers 3 Credit Hours

Prerequisite: Junior standing or departmental permission. An introduction to financial information for leaders who are not directly responsible for accounting or finance functions in their organizations. (F, Sp, Su)

PSBA 4123 Quality Initiatives in Organizations 3 Credit Hours

Prerequisite: junior standing or permission from advisor. Total quality management enables leaders of for-profit, nonprofit, public sector, and multinational organizations to produce high-quality products and services that customers want. The TQM process adds value to customers' lives and positions the organization to respond quickly to changing consumer preferences. Lean, Six Sigma, Kaizen, and benchmarking methods help leaders systematically optimize and modernize their organizational practices to improve effectiveness. (F, Sp, Su)

PSBA 4133 Human Resources Administration 3 Credit Hours

Prerequisite: Junior standing or departmental permission. This course is designed to implement the administration of Human Resources within all types of organizations. The theoretical review covers the aspects related to the analysis of work and job design while discussing behavioral aspects that affect Human Resources performance. The practical approach will review recruitment, selection, training, career development, performance management, compensation, labor relations, rules, and regulations. (F, Sp, Su)

PSBA 4163 Non-Profit Management 3 Credit Hours

Prerequisite: junior standing or permission from CLS adviser. Provides an overview of nonprofit management, operations, and leadership as well as the problems and environment unique to the various nonprofit entities functioning in society. (F, Sp, Su)

PSBA 4173 Business Ethics and Legal Environment 3 Credit Hours

Prerequisite: Junior standing or departmental permission. This course will help students develop an understanding of the law and its application to the business environment. Emphasis will be on recognition of legal problems, critical thinking, and ethical analysis. Few can conduct business without having to consider and deal with legal, ethical, and social responsibility issues. This course prepares students for reasoned decision-making in the workplace. (F, Sp, Su)

PSBA G4623 Principles of Lean Thinking 3 Credit Hours

Prerequisite: Junior standing. Explores the interdependencies of Lean process improvement tools and the business culture elements required for companies to evolve from mediocrity to excellence. Students will be challenged to capture current state conditions of processes and suggest improvements based on the mentalities of Lean (Continuous Improvement + Respect for People). Lean Six Sigma Yellow Belt certification is included. (F, Sp)

PSCJ 2283 Introduction to Criminal Justice 3 Credit Hours

Investigation and analysis of the three major components of the criminal justice system: police, courts, and corrections. Topics include the criminal justice system's ability to balance crime control and individual civil liberties, the use of formal and informal decision-making processes, and the effectiveness of criminal justice policies, practices, and programs. (F, Sp, Su)

PSCJ 3063 Statistics in Criminal Justice 3 Credit Hours

Prerequisite: junior standing or permission from PACS adviser. An introduction to the basics of social statistics, the methods and techniques which sociologists, policy analysts, and other social scientists use to summarize numeric data obtained from censuses, surveys, and experiments. (F, Sp, Su)

PSCJ 3113 Comparative Justice Systems 3 Credit Hours

Prerequisite: junior standing or permission from PACS adviser. Examines and compares the legal and criminal justice systems of different nations. Focuses on historical, political and social factors, and explains their influence on legal institutions and systems of justice. Discusses points of divergence between other societies and the United States in perceived causes of crime and differing approaches to rehabilitation and crime prevention. Countries representing Europe, Africa, Asia and (F, Sp, Su)

PSCJ 3133 Theories of Criminal Behavior 3 Credit Hours

Prerequisite: junior standing or permission from PACS adviser. An overview of theories of criminal behavior as well as current issues in criminology. Students will be exposed to biological, sociological and psychological theories of crime, as well as opposing viewpoints on important topics in criminology. (F, Sp, Su)

PSCJ 3173 Deviance and Social Control 3 Credit Hours

Prerequisite: junior standing or permission from PACS adviser. Students will be introduced to the sociological study of deviance and social control, with a focus on the social construction of deviant behavior and the relative nature of such definitions through time and across cultures. Current research on selected types of deviance will be reviewed to understand the individual and structural dimension of behavior as well as implications for policy (F, Sp, Su)

PSCJ 3203 Criminal Justice Administration 3 Credit Hours

Prerequisite: junior standing or permission from PACS adviser. Covers the development, proliferation, institutionalization, and goals of the components of the criminal justice system and their administration. The course will also cover the ethics of managing justice and punishment. (F, Sp, Su)

- PSCJ 3223 American Judicial Processes 3 Credit Hours**
Prerequisite: junior standing or permission from PACS adviser. Acquaints students of criminal justice with the overall structure of state and federal courts, including jurisdiction, sources of law, civil and criminal legal procedures from initial pleadings through appeal, substantive civil and criminal law, and policy issues about the role of the judiciary in representative government. (F, Sp, Su)
- PSCJ 3413 Crime Scene Processing 3 Credit Hours**
Prerequisite: Sophomore standing or permission from academic advisor. Introductory training in the process of crime scene management and how to become proficient in recognizing evidence and determining the proper packaging and preservation methods. Topics include basic methods in crime scene photography, sketching, collection, and documentation. (F, Sp, Su)
- PSCJ 3463 Homeland Security and Emerging Threats 3 Credit Hours**
Prerequisite: Junior standing or permission from PACS adviser. An introduction to the organizational and process aspects of Homeland Security at federal, state, and local levels and the emerging threats to the U.S. homeland. (F, Sp, Su)
- PSCJ 4123 Introduction to Forensic Science/Criminalistics 3 Credit Hours**
Prerequisite: junior standing or permission from PACS adviser. Using the study and application of science to examine the relationship between science disciplines, and the criminal investigative process, students will be presented with theories and principles related to methods in the recognition, collection, preservation and analysis of physical evidence. Actual forensic cases will be presented and discussed throughout the course. (F, Sp, Su)
- PSCJ 4143 Drugs and Society 3 Credit Hours**
Prerequisite: junior standing or permission from PACS adviser. Examines the impact of drug abuse on contemporary American society. Students learn about drug regulation and legal issues, how drugs affect the brain and shape behavior, and the various categories of drugs and their characteristics. Also focuses on drug abuse prevention, treating drug dependence, and law enforcement programs to address drugs in society. (F, Sp, Su)
- PSCJ 4243 Police and Policing 3 Credit Hours**
Prerequisite: junior standing or permission from PACS adviser. Provides a historical perspective of policing as well as up-to-date information on policing and the issues that police deal with in a post-9/11 society. The course will provide students with a basic understanding of the CSI effect, the creation of the Department of Homeland Security and developments in community policing. The course also highlights the role of officers in society (F, Sp, Su)
- PSCJ 4263 The American Correctional System 3 Credit Hours**
Prerequisite: junior standing or permission from PACS adviser. A survey course covering the development of the field of corrections from its early American roots to the present. Included are discussions of the role and function of jails, traditional and modern correctional facilities, private/contract corrections, and probation and parole. (F, Sp, Su)
- PSCJ 4273 Community Corrections 3 Credit Hours**
Prerequisite: Junior standing or permission from academic advisor. Introduction to the topics of probation, parole, and other alternatives to incarceration, collectively referred to as Community Corrections. Emphasis will be placed on the role of research and program evaluation in determining policy/program effectiveness. (F, Sp, Su)
- PSCJ 4403 Criminal Investigation 3 Credit Hours**
Prerequisite: junior standing or permission from PACS adviser. Provides students with the theoretical and practical aspects of criminal investigation. Students develop an analytical and practical understanding of investigative methodology, the collection and preservation of physical evidence and explore current crime solving technology. (F, Sp, Su)
- PSCJ 4413 Intelligence Analysis for Law Enforcement 3 Credit Hours**
Prerequisite: Junior standing or permission from academic advisor. A survey of intelligence analysis and the use of data, cyber, and human sources of information to predict, interdict, and investigate crime. Topics include understanding the role of intelligence analysis and dissemination in modern law enforcement and homeland security, crime analysis techniques, geographic information systems, cyber data gathering, and human sources of intelligence. (F, Sp, Su)
- PSCJ 4423 Cyberspace Security 3 Credit Hours**
Prerequisite: junior standing or permission from PACS adviser. Provides an in-depth exploration of cyberspace crime and security. An intensive study of the types of crimes committed in cyberspace, a profile of offenders, and current legal issues in cyberspace. Students will explore emerging issues in information assurance and prevention of cyberspace crimes and will examine the proper collection, preservation and examination of digital evidence. (F, Sp, Su)
- PSCJ 4443 Juvenile Delinquency 3 Credit Hours**
Prerequisite: junior standing or permission from PACS adviser. An overview of juvenile delinquency in the United States, including current issues. Students will read both classic studies on the emergence of the juvenile system and current research on trends in juvenile delinquency. (F, Sp, Su)
- PSCJ 4453 Human Trafficking 3 Credit Hours**
Prerequisite: Junior standing or permission from academic advisor. An examination of human trafficking and slavery, including bonded labor, forced migration, and sex trafficking. Topics include historical and modern examples from both the United States and global contexts, as well as current policies and laws intended to combat human trafficking. (F, Sp, Su)
- PSCJ 4463 Homeland/Global Security and Justice 3 Credit Hours**
Prerequisite: junior standing or permission from PACS adviser. Designed to help the student understand how governments deal with the problem of securing the homeland. Examines what terrorism is, and how America has traditionally dealt with homeland security, and how that perspective is evolving. Once we understand what terrorism is, the focus of the course will be on how law enforcement and the courts have taken on the challenge (F, Sp, Su)
- PSCJ 4493 Organized Crime and International Drug Trafficking 3 Credit Hours**
Prerequisite: Junior standing or permission from PACS adviser. An examination of trends relating to international drug trafficking and organized crime. Topics include the history of the drug trade, criminal organizations and governments involved in drug trafficking, and emerging issues relating to the digital world and cyberspace. (F, Sp, Su)

PSCS 3613 Software and Information Technology Systems 3 Credit Hours

Prerequisite: Junior standing or departmental permission. This course provides students with an overview of core computer technology concepts common to complex modern organizations. Students will be exposed to a range of software and information technology topics needed by managers and decision-makers in a variety of organizations, including core ideas of software, data storage, collaborative work systems, web-based applications, data security, hardware, networks, and programming. (F, Sp)

PSCS 4603 Applied Statistics for Data Analytics 3 Credit Hours

Prerequisite: Junior standing or departmental permission. This course provides students with an overview of core concepts and techniques in statistical data analysis. Students will be exposed to a range of statistical and data analytic techniques needed by managers and decisionmakers in a variety of organizations. Students will gain understanding of the core ideas of validity, the empirical method, statistical testing, and insight into quantitative data analysis. (F, Sp)

PSHA 3153 Ethical and Legal Issues in Health Care 3 Credit Hours

Prerequisite: junior standing or permission from adviser. Introduction to the ethical and legal issues caregivers and administrators face in providing health services throughout the lifespan. (F, Sp, Su)

PSHA 3523 Healthcare Finance 3 Credit Hours

Prerequisite: Junior standing or departmental permission. This course serves as an introduction to the concepts of healthcare finance. Course content includes fundamentals of finance, principles of accounting, planning, budgeting, financial statement preparation, and capital analysis. This course will provide students with an understanding of financial management and accounting methods to make effective and efficient decisions applicable to the healthcare industry. (F, Sp, Su)

PSHA 4513 Healthcare Operations Management 3 Credit Hours

Prerequisite: Junior standing or departmental permission. Healthcare operations management integrates scientific principles of management to determine the most efficient methods to support patient care delivery. Healthcare in the United States is continuously innovating, reducing costs, and improving quality. Topics include managed care, health plans, value-based payments, quality improvement, information technology, statistical analysis, supply chain management, and healthcare finance, among other important aspects of management. (F, Sp, Su)

PSHA 4533 Healthcare Program Evaluation 3 Credit Hours

Prerequisite: Junior standing or departmental permission. This course facilitates the development of knowledge and skills essential to understand and apply the concepts, principles, processes, models, and assessment strategies imperative to plan, design, implement, and evaluate a healthcare system, education program, or prevention program. (F, Sp, Su)

PSHU 1213 Creativity in the Arts 3 Credit Hours

Students will learn about the literary, visual and performance arts by viewing, reading and listening to some of the most famous examples of the arts. Students will also learn about the creative process through the production of their own art. (F, Sp, Su)

PSHU 3113 Special Topics in the Humanities of the Ancient World 3 Credit Hours

Prerequisite: junior standing or permission from adviser. Students will explore a broad variety of cultural themes found concurrently in both western and non-western cultures from Antiquity through the Middle Ages. (F, Sp, Su) [IV-WC].

PSHU 3133 Special Topics in the Humanities of the Modern World 3 Credit Hours

Prerequisite: junior standing or permission from adviser. Students will explore a broad variety of cultural themes found concurrently in both western and non-western cultures from the Renaissance through the Enlightenment and into the Modern World. (F, Sp, Su) [IV-WC].

PSHU 3173 Renaissance Art 3 Credit Hours

Prerequisite: junior standing or permission from adviser. A critical discussion of the art of the Italian Renaissance. The focus of this course will be on explicating religious textual narratives and exploring how artists translated these ideas into visual form to create an effective message. The course will deal with painting, sculpture and architecture and will highlight well-known artists. (F, Sp, Su) [IV-AF].

PSHU 3193 Art of the Non-Western World 3 Credit Hours

Prerequisite: junior standing or permission from adviser. Explores variety of cultural themes found in non-western art from the ancient to the modern world. Introduction to art of non-western cultures and the role that art history plays in the study of these objects. Consists of four parts: African art; Asian art of India, China and Japan; native American art of North, Meso-America; and South America and the Pacific. (F, Sp, Su) [IV-WDC].

PSHU 3283 Film Noir 3 Credit Hours

Prerequisite: Sophomore standing or permission from academic adviser. An exploration of film noir as an art form through the perspectives of history, sociology, psychology, philosophy, and technology. Topics include the intellectual and literary origins of film noir and the genre's impact on film making and culture. (F, Sp, Su)

PSHU 4163 World Religions and Ecology 3 Credit Hours

Prerequisite: Junior standing or permission from academic advisor. A multi-religious perspective on the environment investigating how various religious traditions treat the relationship between human agency and the environment. Topics include the connections between religion, politics, economics, social policies and the environment, as well as sustainability, eco-justice, and globalization. (Irreg.) [IV-WDC].

PSHU 4173 Women in the Bible and Qur'an 3 Credit Hours

Prerequisite: Junior standing or permission from academic advisor. An examination of women in the Bible and Qur'an and the insight this exploration provides about religious traditions. Topics include the roles of women within these Scriptures, their role relative to men in general, their place in the foundational myths such as the creation accounts, and the ways in which women negotiate power and authority. (Irreg.) [IV-WC].

PSHU 4183 Crafting the Cinematic Jesus 3 Credit Hours

Prerequisite: Junior standing or permission from academic advisor. Surveys common understandings of the person and goals of Jesus, and the roles of other biblical figures, through film and literature. Examines the role that film plays in religious understanding, the role of culture in religion, the variety of conceptions of Jesus, and key issues of the Christian tradition. (Irreg.) [IV-AF].

PSHU 4193 Women of the Middle East and North Africa 3 Credit Hours

Prerequisite: Junior standing or permission from academic advisor. An examination of women in the Middle East and North Africa. Topics include the social, political, and economical status of women in the region, the effects of globalization, and a discussion of recent political and cultural changes. (F, Sp, Su) [IV-WDC].

- PSHU 4213 A Critical Review of the Bible as a Literary Work 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. Examines the Bible as a work of literature, approaching it without concern for the doctrines of any particular religion. The aim of the course is to make students biblically familiar with both the Old and New Testaments. (F, Sp, Su) [IV-WC].
- PSHU 4293 Exploring Race and Gender in Film 3 Credit Hours**
Prerequisite: Junior standing or permission from academic adviser. An exploration of race and gender in film during the post-civil rights period. Examines the effects of inequality and inclusiveness through the cinematic lens and analyzes the evolution of film relating to the depiction of race and gender issues. (F, Sp, Su)
- PSIS 1003 Introduction to Interdisciplinary Study 3 Credit Hours**
An introductory study of the concepts and practices of interdisciplinary inquiry, writing, critical thinking and problem solving across disciplines, and techniques for solving problems and writing papers from an interdisciplinary perspective. (F, Sp, Su)
- PSIS 1113 Interdisciplinary Composition I 3 Credit Hours**
First in a series of two courses that help prepare students for interdisciplinary work by emphasizing writing and the conventions of academic discourse through natural sciences, social sciences, and humanities. Students will employ a variety of writing strategies, study expository prose models and interpret, critique, summarize and paraphrase text. (F, Sp, Su) [I-ENGL].
- PSIS 1133 Interdisciplinary Composition II 3 Credit Hours**
Prerequisite: ENGL 1113 or PSIS 1113, or equivalent. This course completes the series of composition courses by emphasizing argument, library research, and style. Through its emphasis on thinking rhetorically, providing evidence for assertions, creative thinking, and writing as a process, this course will prepare students for argument and research-based writing in academic interdisciplinary settings. (F, Sp, Su) [I-ENGL].
- PSIS 2023 Strategies for Success 3 Credit Hours**
An exploration of useful skills and strategies for academic, professional, and personal success. Topics discussed include individual learning styles, emotional intelligence, time management, goal setting, effective listening and communication, organization, creative and critical thinking, interdependence and collaboration skills, and combating self-defeating patterns of thoughts and behaviors. (F, Sp, Su)
- PSIS 2033 Writing for Success 3 Credit Hours**
Prerequisite: Sophomore standing or departmental permission. An exploration of writing skills and strategies for academic essays, personal narratives and research. Topics include the selection of a research topic, development of a writing plan, the correct way to summarize and paraphrase, and the use of the APA citation style. (F, Sp, Su)
- PSIS 3003 Interdisciplinary Inquiry 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. Will focus on adult learning theory and development, assessment of prior learning, development of self-directed learning skills, educational and career planning and writing of portfolios and learning contracts. Designed for the returning, adult learner. Will also focus on preparation for academic writing and argumentation. (F, Sp, Su)
- PSIS 3013 Effective Communication 3 Credit Hours**
Prerequisite: Junior standing or departmental permission. Students will enhance their interpersonal and professional communication skills in this course. Special attention is paid to recognizing the role of listening in communication, in addition to enhancing verbal, nonverbal, written, and presentation skills. Throughout the course, students will apply these concepts to real world situations and reflect on the impact of communication in their personal and professional lives. (F, Sp, Su)
- PSIS 3053 Digital Literacy & Data Analysis 3 Credit Hours**
Prerequisite: Junior standing or departmental permission. This course is designed to increase students' knowledge and application of digital and quantitative data literacy. Students will also be introduced to principles of ethical decision-making. Using applied activities and analyses, students will learn how to utilize these skills in the real world and the workplace. (F, Sp, Su)
- PSIS 3071 Life Design 101 1 Credit Hour**
Prerequisite: Junior standing or departmental permission. A holistic examination of a student's life, skill set, and career aspirations. Includes assessment inventories, personal reflections, and the development of action plans. (F, Sp, Su)
- PSIS 3083 Life Design: A Better You 3 Credit Hours**
Prerequisite: Junior standing or departmental permission. The Transformation Triad is designed to help students find ways to introduce more balance into their lives, uncover their purpose, and use that knowledge to produce meaningful change within themselves in order to lead their best life. Students will evaluate their life on a fundamental level and create balance along with a concrete plan for what will come after graduation. (F, Sp, Su)
- PSIS 3153 Foundations of Ethics in Liberal Studies 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. A foundation for the scholarly research and discussion of ethics. Topics will include historical and philosophical grounding in the consideration of ethics. The course will utilize an interdisciplinary approach to the inquiry of ethics. (F, Sp, Su)
- PSIS 3243 Leadership in LGBTQ Studies 3 Credit Hours**
Prerequisite: Sophomore Standing or permission from an academic advisor. An introduction to lesbian, gay, bisexual, transgender, queer/questioning, (LGBTQ+) and marginalized individuals based on their sexual/romantic orientation. Empirical data is utilized to holistically explore the experiences of this community as a means of understanding factors and limitations in leadership. (F, Sp, Su) [III-SS].
- PSIS 3343 Challenges in a Changing World 3 Credit Hours**
Prerequisite: junior standing or permission from adviser; PSCC 1313. Conformity and deviance in societies. Topics addressed include sexual behavior, drug use and crime and violence. It also looks at social problems expressed on a broader scale, including those associated with increased problems and associated urbanization and the outbreaks of war, terrorism and international conflict arising from inequalities occurring on an international scale. (F, Sp, Su)
- PSIS 3953 Critical Inquiry in Interdisciplinary Studies 3 Credit Hours**
Prerequisite: Departmental permission and approximately 70% of program core complete. This course requires students to locate, critique, and integrate literature/concepts to demonstrate their understanding of the foundational principles of interdisciplinary studies and their primary area of concentration. During the course, students will complete a series of assignments that will be used in the development of a comprehensive ePortfolio, which will be constructed and finalized in LSI 4953. (F, Sp, Su)

- PSIS 4033 Innovative Problem-Solving 3 Credit Hours**
Prerequisite: Junior standing or departmental permission. This course is intended to empower students to think clearly and analytically about information and beliefs. Students will be prepared to recognize bias and common fallacies in reasoning and evaluate informational resources. An introduction to innovative thinking and creative decision-making will help position students to tackle problem-solving at the personal, academic, and career levels. (F, Sp, Su)
- PSIS 4353 Mediation: History, Theory, and Practice 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. The course provides an overview of the history of mediation as well as an introduction to substantive mediation theories and models. The practice of mediation will be introduced by examining its origins in both the court and community-focused movements. Contemporary applications and trends in mediation also will be examined. (F, Sp, Su)
- PSIS 4483 Calendars, Culture, and Cosmos 3 Credit Hours**
Prerequisite: Junior standing or departmental permission. This course details the many ways in which contemporary timekeeping is founded upon astronomy. It explores early derivations by cultures learning to keep time by observing movements of the Moon and Sun and traces this development to contemporary timekeeping systems. The calendars of many present cultures are examined in depth. (F, Sp, Su)
- PSIS 4700 Advanced Topics in Liberal Studies 1-9 Credit Hours**
1 to 9 hours. Prerequisite: junior standing or permission from adviser; PSSC 2213; may be repeated with change of content; maximum credit nine hours. Specific course content will be defined each time the course is offered. A problem-oriented approach to interdisciplinary studies. Reading and research, arranged and directed in consultation with the instructor in specified areas of liberal studies. (F, Sp, Su)
- PSIS 4953 Portfolio in Interdisciplinary Studies 3 Credit Hours**
Prerequisite: PSIS 3953 and departmental permission. The practicum course for the Interdisciplinary Studies program requires students to create a comprehensive ePortfolio, which showcases their key learnings about effective communication, digital literacy, data analysis, innovative problem-solving, and their primary area of concentration. (F, Sp, Su)
- PSMS 1053 Mathematics in Liberal Studies 3 Credit Hours**
Prerequisite: Norman Campus students only - DMAT 0123 at OU, satisfactory score on the placement test, or satisfactory score on the ACT/SAT. Designed to enhance the student's ability to understand and utilize mathematical tools in their daily lives. Covers such topics as use of statistics, evaluating others' use of statistics, mathematics in finance, and growth models. (F, Sp, Su) [I-M].
- PSNS 1513 Introduction to Interdisciplinary Physical Sciences 3 Credit Hours**
Emphasis on physics and chemistry, including topics such as the laws of motion, elements of thermodynamics, wave forms and properties, structure of atoms, and the formation of chemical bonds. (F, Sp, Su)
- PSNS 2413 Celestial Insights 3 Credit Hours**
This course explores questions about the natural world and how astronomy is/has been used in culture. Students learn about Moon phases, seasons, blue skies, eclipses, and tides and their relation to astronomy. The course investigates how cultures kept time by the Sun and Moon, astronomical derivations for the names of days, and reasons behind changing times for moveable feasts. (F, Sp, Su)
- PSNS 2514 The Human Environment 4 Credit Hours**
Explores the interaction between the environment and multiple disciplines, such as society, the economy, and politics. Students will be immersed in an interactive experience in which they learn about the basic chemical properties and processes of the physical environment and how other parts of their world affect it. (F, Sp, Su) [II-NS].
- PSNS 2533 Science as a Process 3 Credit Hours**
Analysis and criticism of the scientific method, design of experiments and collection and interpretation of data in scientific investigations. (F, Sp, Su) [II-NS].
- PSNS 2553 Interdisciplinary Life Sciences 3 Credit Hours**
A study of the integration of biological systems at the cellular level. It includes discussions of metabolism, chromosome structure and function and the structure and function of the DNA molecule. (F, Sp, Su)
- PSNS 2700 Special Topics in Liberal Studies 1-9 Credit Hours**
1 to 9 hours. Prerequisite: May be repeated with change of content; maximum credit nine credit hours. Specific course content will be defined each time the course is offered. A problem-oriented approach to interdisciplinary studies. Reading and research, arranged and directed in consultation with the instructor, in specified areas of liberal studies. (F, Sp, Su)
- PSNS 3113 Lifespan Development 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. Survey of human development from birth to death, drawing from multiple disciplines including biology, psychology, sociology, and medicine. The emphasis is on empirically-derived information about human development that may be of practical use to individuals working directly with others in a service capacity. Particular attention is devoted to issues of physical, cognitive, social, and emotional development at all stages of (F, Sp, Su)
- PSNS 3413 History of Astronomy in Culture 3 Credit Hours**
Prerequisite: Junior Standing or departmental permission. An exploration of the historical methods and uses of astronomy in cultures throughout the world, with examples from six continents and islands in the Pacific. (F, Sp)
- PSNS 3423 Biology of Human Aging 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. Introduction of both natural science and social science methods used to study aging in humans and other creatures. Topics will include a synopsis of the demographics of aging in human populations, terms and theories of aging, mechanisms of aging at the cellular level, and a review of how the body ages, system-by-system. (F, Sp, Su)
- PSNS 3513 The Dynamic Universe 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. Select topics including the Big Bang, formation of matter and its association into stars and planets, plate tectonics and the physics and chemistry of the atmosphere. (F, Sp, Su)
- PSNS 3533 Ecology and Evolution 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. A study of the interactions of genetic change in organisms with environmental stress, and contributions of these interactions to evolution. (F, Sp, Su)
- PSNS 3573 Chemistry for Changing Times 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. An overview of chemistry, with fundamentals and organic processes explained. The course investigates chemicals found in everyday life and on the earth with the aim of understanding how chemical processes are at work, both in the environment around us and in energy, air, water, biochemistry, drugs, poisons and chemicals. It is ideal for the generalist and the interdisciplinary student, although (F, Sp, Su)

- PSNS 4563 Weather and Climate 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. An introduction to energy balance, temperature, atmospheric moisture, cloud formation, static stability, precipitation mechanisms, winds, mid-latitude and severe storms, weather forecasting and climate. The course is designed for students who are not scientists. (F, Sp, Su)
- PSNS 4593 The Role of Genetic Engineering: Past, Present and Future 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. Examines the role of gene manipulation in the past, present, and future. It will begin with descriptions of genes, evolution and fitness, and will conclude by exploring the scientific and political future of genetic engineering. (F, Sp, Su)
- PSOL 3113 Leadership in Organizations 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. The general purpose of this course is to learn about contemporary thinking regarding leadership in organizations and the applications of these insights for growth as a leader. (F, Sp, Su)
- PSOL 3133 Conflict Resolution 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. A review of several contemporary theories of the nature of conflict and how best to manage it. Students examine the communication process and practice effective communication skills through exercise. (F, Sp, Su)
- PSOL 3153 Ethics in Leadership 3 Credit Hours**
Prerequisite: Junior standing or departmental permission. Explores the principles and standards of conduct used by organizational leaders to build trust and integrity in business through systemic ethical practices. Students grow their leadership capacity by developing the behaviors and virtues of the workforce that contribute to sustainable ethical business conduct. (F, Sp, Su)
- PSOL 3333 Motivation in Learning and Leadership 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. Introduces learners to several theories on human motivation which can be applied across several contexts, including both learning and leadership. (F, Sp, Su)
- PSOL 3373 Measuring Human Performance 3 Credit Hours**
Prerequisite: Sophomore Standing or permission from an academic advisor. An exploration of how leaders use assessments to measure human performance in organizations. Topics include common research terminology, best practices in employee selection, performance appraisals, and organizational performance management. (F, Sp, Su)
- PSOL 3393 Goal Setting in Organizations 3 Credit Hours**
Prerequisite: Junior standing or permission from advisor. An examination of the importance of establishing goals, goal alignment, and goal attainment processes in organizational settings. Key concepts include perspectives of goal attainment strategies that apply to organizational effectiveness and methods to overcome inevitable challenges to goal success. (F, Sp, Su)
- PSOL 3513 Integrated Marketing Strategies 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. Focuses on marketing communications by examining many types of retailers, the basic concepts that apply to all areas of promotion, basic selling techniques, and advertising and sales promotion as important parts of a promotion blend. (F, Sp, Su)
- PSOL 3953 Research Analysis and Application in Organizational Leadership 3 Credit Hours**
Prerequisite: Junior standing and LSTD 3003, or permission from advisor. Preparatory course for the organizational leadership capstone. Students examine, critique, integrate, and apply organizational behavior literature and concepts to demonstrate mastery of the foundational principles of leadership. (F, Sp, Su)
- PSOL 4113 Group & Organizational Communication 3 Credit Hours**
Prerequisite: Junior standing or departmental permission. Designed to support students in the development of interpersonal and employment-related business communication skills as an integral component in the field of business administration. Topics covered include foundational communication principles; communication planning; oral, written, and electronic communication; formal report-writing and presentation; and employment communication. Students will apply their knowledge on these topics by completing written, spoken (recorded), and team-discussion-based coursework. (F, Sp, Su)
- PSOL 4143 Cultural Diversity in the Workplace 3 Credit Hours**
Prerequisite: Junior standing or departmental permission. Students will explore their personal perceptions about diversity in organizational settings, learn how implicit bias can undermine organizational performance, and develop best practices to promote cultural diversity in the workplace. (F, Sp, Su)
- PSOL 4203 Decision-Making, Problem Solving, and Strategic Thinking 3 Credit Hours**
Prerequisite: junior standing or permission from adviser. Exploration of decision-making, problem solving and strategic thinking in a variety of organizational settings. Discussion of applied intelligence and the methods/tools utilized to make effective decisions. (F, Sp, Su)
- PSOL 4283 Social Processes in Organizations 3 Credit Hours**
Prerequisite: Junior Standing or permission from an academic advisor. An overview of how leaders use social processes to improve organizational performance. Topics include the individual factors that affect social processes, i.e. personality, emotion, attitudes, perceptions, etc., and strategies to motivate employees, lead teams, communicate ideas, and develop an organizational culture. (F, Sp, Su)
- PSOL 4953 Capstone in Organizational Leadership 3 Credit Hours**
Prerequisite: Junior standing, PSIS 3003, and PSOL 3953, or permission from advisor; students may enroll in PSOL 3953 and PSOL 4953 during the same semester provided that PSOL 3953 is successfully completed (grade of C or higher) prior to the start of PSOL 4953. Capstone course in organizational leadership resulting in the creation of a comprehensive ePortfolio that demonstrates student mastery of leadership theories and best practices. (F, Sp, Su) [V].
- PSSC 1153 A History of the United States 3 Credit Hours**
A general historical overview of the United States with a particular focus on the role that the humanities played in shaping this country. (F, Sp, Su) [IV-US].
- PSSC 1313 What in the World are the Social Sciences? 3 Credit Hours**
Discusses what comprises the social sciences and how we perform research in the different areas, including addressing ethical questions. (F, Sp, Su) [III-SS].
- PSSC 1333 Government in the United States 3 Credit Hours**
An analysis of the differing ideologies governing autocratic vs. democratic systems of government, the structure of the United States government, and the role of extra-governmental elements such as lobbyists and the PACs on the process of governing. (F, Sp, Su) [III-PSC].

PSSC 2313 The Human Experience: The Role of Culture 3 Credit Hours

A critical discussion of prejudice, discrimination, gender identity and crime and deviance from the perspective of the social sciences. (F, Sp, Su)

PSSC 2323 Human Groups and Distribution of Resources 3 Credit Hours

A study of culture from a social sciences perspective, including investigating topics such as ethnocentrism, cultural relativism and personal identity within the context of being American. (F, Sp, Su)

PSSC 2333 Contemporary Social Issues 3 Credit Hours

An introduction to social issues in modern day society. Beginning with an introduction to differing sociological perspectives, and addresses issues such as the changing demographics in the U.S., gender inequality, the environment, and both utopian and dystopian societies. Students will be expected to review, consider, and write how each of the topics impacts their lives, either directly or indirectly. (F, Sp, Su)

PSSC 3203 Diversity in the United States 3 Credit Hours

Prerequisite: Sophomore Standing or permission from an academic advisor. An examination of current issues of race, gender, class, and culture utilizing a combination of empirical data, historic records and conceptual reflection. (F, Sp, Su) [III-SS].

PSSC 3223 Social Justice Leadership 3 Credit Hours

Prerequisite: Sophomore standing or permission from academic advisor. An interdisciplinary examination of issues related to social justice and leadership. The concepts of race, class, gender, and ability are addressed from a variety of historical, conceptual, and theoretical perspectives relating to the study of social difference. Also includes an analysis of social movements and strategies for community engagement. (F, Sp, Su)

PSSC 3263 Multiculturalism in the Workplace: Global Challenges 3 Credit Hours

Prerequisite: Junior Standing or departmental permission. An examination of psychological and organizational challenges that leaders experience in a multicultural or multinational workplace. Includes case studies and discussions to illustrate theories and research findings for developing positive employee engagement strategies. (F, Sp, Su)

PSSC 3333 Human Arrangements: Troubled Institutions, Probs. Inequality 3 Credit Hours

Prerequisite: junior standing or permission from adviser; LSTD 1313 and LSTD 1323. Issues affecting institutions from family through those affecting the national population, including health care, education, the economy, and the interaction of government with all such questions. Problems arising from inequality among groups in the society, including poverty, elderly and young, minority and majority, and gender concerns. (F, Sp, Su)

PSSC 3363 Ethics in Social Sciences 3 Credit Hours

Prerequisite: junior standing or permission from adviser; LSTD 1313 and LSTD 1323. Concepts, principles and case studies involved in ethics in the social sciences, with a particular emphasis on business ethics. Students will examine core values in light of social conditioning, short-term profiteering and the need for affiliation. (F, Sp, Su)

PSSC 3373 American Public Intellectuals 3 Credit Hours

Prerequisite: Junior standing or permission from adviser. Examines the unique and diverse styles of six important Americans from different eras in order to determine the impact these individuals had on society and posterity. (F, Sp, Su)

PSSC 3383 Harry Potter and the Culture of the Wizarding World 3 Credit Hours

Prerequisite: ENGL 1113 or equivalent, ENGL 1213 or equivalent; junior standing or permission from Academic Advisor. This course takes a social sciences approach to analyze social and cultural themes within the films from the Harry Potter series by J.K. Rowling. Students will practice social science methodologies and apply key social sciences concepts to evaluate character actions, relationships, and social structures within the wizarding world, drawing parallels to current and historical events and personal experiences as well. (F, Sp, Su) [III-SS].

PSSC 4133 US History of World War II - Pacific Theater 3 Credit Hours

A review of several contemporary theories of the United States involvement in World War II: Pacific Theater. Students examine the historical process and practice effective communication skills through exercise. (F, Sp, Su)

PSSC 4263 Understanding Race in American Society 3 Credit Hours

Prerequisite: Junior standing or permission from academic adviser. An exploration of the major theoretical perspectives used to explain racial issues in the United States. Identifies common racial/ethnic assumptions through an examination of how race or ethnicity is portrayed in the media with a comparison of current research findings relating to inequality. (F, Sp, Su)

College of PACS Administrated Programs

Adult Degree Completion Programs

Integrative Studies, Bachelor of Arts (p. 1794)

The online Bachelor of Arts in Integrative Studies is designed to make finishing a bachelor's degree a flexible and obtainable goal. With the help

of an advisor, students will design a degree program based on their career goals and interests, choosing from a broad selection of courses that will help them build a strong foundation and set of skills applicable in a wide variety of in-demand career fields, such as health care, business, and human resources.

Interdisciplinary Studies: Aerospace & Defense Management, Bachelor of Arts (p. 1795)

The online Bachelor of Arts in Interdisciplinary Studies with a major in Aerospace & Defense Management will connect to the aerospace & defense industry where there is a strong demand specifically to Oklahoma's top 100 critical occupations. The core requirements within the degree provides courses relevant to the workforce, in-demand knowledge, and skills including communication, data literacy and analysis, problem solving methods, and practical application of knowledge learned in the program. The major requirements are topic-specific, providing depth of knowledge in the field of aerospace & defense, but specifically the management and leadership side of the industry.

Interdisciplinary Studies: Business Administration, Bachelor of Arts

The online Bachelor of Arts in Interdisciplinary Studies with a major in Business Administration will help students master the set of skills necessary for leadership positions in a variety of high-demand career fields. Students will master their communication prowess while strengthening other important business and leadership skills like problem-solving, ethics and brand management. Topics also include applied budget and finance, human resources administration, and more.

Interdisciplinary Studies: Construction Management, Bachelor of Arts (p. 1798)

The online Bachelor of Arts in Interdisciplinary Studies with a major in Construction Management will connect to the construction industry where there is a strong demand specifically to Oklahoma's top 100 critical occupations. The core requirements provide courses relevant to the workforce in-demand knowledge and skills including communication, data literacy and analysis, problem solving methods, and practical application of knowledge learned in the program. The other major requirements are topic-specific, providing depth of knowledge in the field of construction management.

Interdisciplinary Studies: Criminal Justice Leadership, Bachelor of Arts

The online Bachelor of Arts in Interdisciplinary Studies with a major in Criminal Justice Leadership offers students a deeper understanding of law enforcement and the criminal justice system, paired with curriculum that details the insight and skills necessary to grow as an effective leader. Topics include judicial processes, data analysis, conflict resolution, ethics, innovative problem solving, leadership in organizations, and more.

Interdisciplinary Studies: Healthcare Management, Bachelor of Arts

The online Bachelor of Arts in Interdisciplinary Studies with a major in Healthcare Management teaches students the industry-specific management and business principles needed to succeed as a management professional in the healthcare industry. Students will learn financial, ethical, operational, and program management skills that will allow them to establish and evaluate the strategic direction of a medical facility, business, or system.

Interdisciplinary Studies: Learning and Education, Bachelor of Arts (p. 1803)

The online Bachelor of Arts in Interdisciplinary Studies with a major in Learning and Education will connect to the education career field where there is a strong demand specifically to Oklahoma's top 100 critical occupations. The core requirements provide courses relevant to the workforce in-demand knowledge and skills including communication, data literacy and analysis, problem solving methods, and practical application of knowledge learned in the program. The other major requirements are topic-specific, providing depth of knowledge in the field of study.

Interdisciplinary Studies: Organizational Leadership, Bachelor of Arts

The online Bachelor of Arts in Interdisciplinary Studies with a major in Organizational Leadership demonstrates how ethics, conflict resolution, diversity, social processes, and more interact to affect a leader's decision-making at the individual, team, and organizational levels. Students explore different leadership styles, developing the strategies necessary to inspire growth and change within an organization and cultivate vital leadership skills in others.

Additional Online Degree Programs

Criminal Justice, Bachelor of Science (p. 1809)

The online Bachelor of Science in Criminal Justice is designed for those who want to protect and serve the community. By providing a broad-based foundational understanding of the justice system, this program helps build leadership and conflict resolution abilities while integrating current, real-world issues. Whether students currently work or hope to work in law enforcement, corrections, homeland security, or juvenile justice, or victim services and restorative justice, this bachelor's program will help them develop skills to confront any challenge. Topics include theories of criminal behavior, basic scientific process, deviance/social controls, investigations, criminal justice administration, and restorative justice processes.

Lifespan Care Administration, Bachelor of Arts (p. 1806)

The online Bachelor of Arts in Lifespan Care Administration emphasizes caregiving best practices across the lifespan, preparing graduates to provide quality care no matter the healthcare environment. It is an accredited, flexible, and affordable degree program designed to improve the essential knowledge and skills of care facility staff and administrators. The degree can be customized based on individual interest—whether that interest is in care for children, adolescents, or the elderly. Students gain knowledge that can be applied to responsibilities and goals across the range of human development and will become familiar with the theoretical, ethical, and legal issues related to caregiving.

Organizational Leadership, Bachelor of Arts (p. 1808)

The online Bachelor of Arts in Organizational Leadership follows an applied approach to the study and practice of leadership. This bachelor-degree program provides students with specific, work-related principles resting on a foundation of a well-rounded liberal education. Students will learn to approach new ideas, projects, and challenges by drawing upon multiple perspectives, and thereby will increase their ability to lead others and enhance the overall leadership capacity of the organizations where they work, consult, or serve.

Undergraduate Minor Programs

Criminal Investigation Minor

The Minor in Criminal Investigation and Intelligence Analysis introduces students to a core function of law enforcement and security operations. For approximately two decades, information technology and computer analytics have steadily improved the capabilities of crime analysis, crime forecasting, and homeland security operations. These functions frequently support and augment criminal and security investigations of every kind.

Criminal Justice Minor

The Minor in Criminal Justice allows students in other undergraduate programs at OU to explore the issues of crime, law and the criminal justice system, emphasizing courts, criminal procedure, corrections and emerging issues and trends in law enforcement. Students get a solid understanding of the criminal justice system by studying theories in policing, criminal behavior, American judicial processes, and the American correctional system.

Organizational Leadership Minor

The Minor in Organizational Leadership provides non-majors with a basic understanding of organizational behavior/leadership theories and equips students with a set of leadership skills to make positive, well-informed contributions to an organization's mission.

Restorative Justice Minor

The Minor in Restorative Justice emphasizes services to crime victims, offenders, and communities, aiming to repair the damage done by crime. Persons working in restorative justice professions serve as victim advocates, counselors, mediators, court officers, probation and parole officers, crime prevention and restoration experts.

Integrative Studies, B.A.

Minimum Total Credit Hours: 120

Major Hours: 30

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B575 (traditional) and B576 (online)

This program has changes pending State Regents approval for 2024/25. These pending changes are not reflected here.

A grade of "C" or higher must be earned in each course presented for major credit.

Major Requirements

Some courses required for the major may also fulfill University General Education Requirements.

Every candidate for this degree must select their plan of study, which is a set of courses that meets the student's professional and personal goals.

These courses must total a minimum of 30 credit hours completed at the upper-division level (3000-4000-level).

Courses should be selected in consultation with an advisor to submit a Proposed Plan of Study to the Associate Dean.

Information Concerning General Rules, Regulations And Minimum Requirements

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Bachelor of Arts Hours: At least 80 semester hours of liberal arts and science courses are required for a BA degree.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation. **Senior Institution Hours:** A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency: 30 hours of credit applied toward the degree must be satisfactorily completed at OU.

Grade Point Averages: Students must earn a minimum overall 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Special Degrees: The degree with Distinction will be conferred on students who achieve at least a 3.65 retention grade point in their OU and combined grade point average. The degree with Special Distinction requires at least a 3.75 retention grade point average in the OU and combined grade point average.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic & Oral Communication (9-19 hours)		
<i>English Composition</i>		
ENGL 1113 or LSTD 1113	Principles of English Composition	3

Choose one course	3
Total Credit Hours	37-47

¹ Students who have completed two years of high school language are exempt from the general education language requirement. If this requirement is waived, a few hours of General Education electives may be needed to achieve the required 40 hour minimum.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 40 upper-division hours.

SUGGESTED SEMESTER PLAN OF STUDY

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Professional & Continuing Studies academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Professional & Continuing Studies, and major requirements.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic & Oral Communication (9-19 hours)		
<i>English Composition</i>		
ENGL 1113	Principles of English Composition	3
	or LSTD 1113	
ENGL 1213	Principles of English Composition	3
	or LSTD 1133	
	<i>Mathematics: Choose one course</i>	3
	<i>Language</i> ¹	0-10
Core Area II: Natural Science (minimum 7 hours)		
	Choose two courses from different disciplines, including 1 laboratory component	7
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
	or LSTD 1333	
	Additional Social Science course	3
Core Area IV: Arts and Humanities (12 hours)		
	<i>Artistic Forms: Choose one course</i>	3
	<i>Western Culture: Choose one course</i>	3
	<i>U.S. History</i>	

HIST 1483	United States to 1865	3
	or HIST 1493 United States, 1865 to the Present	
	or LSTD 1153	
	<i>World Culture: Choose one course</i>	3
Core Area V: First Year Experience (3 hours)		
	Choose one course	3
Total Credit Hours		37-47

¹ Students who have completed two years of high school language are exempt from the general education language requirement. If this requirement is waived, a few hours of General Education electives may be needed to achieve the required 40 hour minimum.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 40 upper-division hours.

SUGGESTED SEMESTER PLAN OF STUDY

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Professional & Continuing Studies academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Professional & Continuing Studies, and major requirements.

Total Credit Hours		15

- The Restorative Justice minor is available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the Bachelor's degree is posted.

POLICIES

Equal Opportunity Policy

The University of Oklahoma, in compliance with all applicable federal and state laws and regulations does not discriminate on the basis of race, color, national origin, sex, sexual orientation, genetic information, gender identity, gender expression, age, religion, disability, political beliefs, or status as a veteran in any of its policies, practices, or procedures. This includes, but is not limited to: admissions, employment, financial aid, housing, services in educational programs or activities, or health care services that the University operates or provides.

Inquiries regarding non-discrimination policies may be directed to: Marci Gracey, Interim Institutional Equity Officer, 405-325-3546, mgracey@ou.edu or visit the Institutional Equity Office website.

Student Code

The University of Oklahoma Student Rights and Responsibilities Code includes rules that address the responsibilities and conduct required of all University of Oklahoma students, student groups, organizations, and University-approved or operated living units. The Student Rights and Responsibilities Code, Procedures, and Alcohol Policy area all available on the Student Conduct website.

Academic Integrity Policy

Integrity in all aspects of scholarship is essential to the University's mission. The Academic Integrity Code establishes a student Integrity Council, sets forth the rights and responsibilities of all students on the Norman Campus regarding academic integrity, and provides the procedures to be followed in cases of suspected misconduct. Academic misconduct is defined as any act which improperly affects the evaluation of a student's academic performance or achievement. It is the responsibility of each student to be familiar with the definitions, policies and procedures concerning academic misconduct. Unfamiliarity with the code alters none of a student's rights or responsibilities thereunder. Academic work submitted in any course is subject to review by plagiarism detection services such as Turnitin.com. The Code, the "Student's Guide to Academic Integrity," and other helpful documents are available on the Integrity Council website.

Reasonable Accommodation Policy

The University of Oklahoma will reasonably accommodate otherwise qualified individuals with a disability unless such accommodation would pose an undue hardship, would result in a fundamental alteration in the nature of the service, program, or activity or in undue financial or administrative burdens. The term "reasonable accommodation" is used in its general sense in this policy to apply to employees, students, and visitors.

Reasonable accommodation may include, but is not limited to:

- Making existing facilities readily accessible and usable by individuals with disabilities
- Job restructuring
- Part-time or modified work schedules
- Reassignment to a vacant position if qualified
- Acquisition or modification of equipment or devices
- Adjustment or modification of examinations, training materials or policies

- Providing qualified readers or interpreters
- Modifying policies, practices and procedures

The Accessibility and Disability Resource Center, unless otherwise provided, is the central point-of-contact to receive all requests for reasonable accommodation and to receive all documentation required to determine disability status under law. This center will then make a recommendation on accommodation to the appropriate administrative unit. Reasonable accommodation with respect to employment matters should be coordinated with the Office of Human Resources. Reasonable accommodation with respect to academic matters, including but not limited to faculty employment, should be coordinated with the Office of the Provost while all other issues of reasonable accommodation should be coordinated with the Office of the Vice President for Administrative Affairs.

Individuals who have complaints alleging discrimination based upon a disability may file them with the University Equal Opportunity Office in accordance with prevailing University discrimination grievance procedures.

Student requests for reasonable accommodation should be addressed to the Accessibility and Disability Resource Center, 730 College Avenue - University Community Center, Norman, OK 73019, (405) 325-3852 (Voice) - (405) 217-3494 (VP) - (405) 325-4491 (Fax), or adrc@ou.edu.

Sexual Misconduct, Discrimination, and Harassment Policy

The University is committed to creating and maintaining a community where all persons who participate in University programs and activities can work and learn together in an atmosphere free from all forms of harassment, exploitation, or intimidation. The University condemns discrimination based on sex or gender, sexual harassment, sexual assault, sexual orientation discrimination, discrimination based on gender identity or expression, and sexual misconduct, including but not limited to dating violence, domestic violence, and stalking. Any such activity committed by a member of the University community may subject the individual to University sanctions as well as civil and criminal penalties. For more information, contact the University's Sexual Misconduct Office, Walker Center 2nd Floor at (405) 325-2215, smo@ou.edu, or the Institutional Equity Office, 102 Evans Hall, (405) 325-3546.

Student Grievance Policy

The University has a policy of internal adjudication of student grievances. There are specific procedures for many grievances (e.g., academic appeals, alleged discrimination, etc.) that are set forth on the Student Conduct website. In cases where University policy designates no specific procedure, grievances regarding academic matters, financial aid, educational records, or payment of tuition and fees should be addressed to the Senior Vice President and Provost; grievances regarding other aspects of student life should be addressed to the Vice President for Student Affairs.

University Email Notifications

In order to assure timely and efficient communication, the University establishes email as an acceptable means of official communication. All University students, faculty, and staff are assigned an official University email account. Official University communications may be sent to this account. Email sent to this account is expected to be read in a timely fashion, except in circumstances where access to email is impracticable.

Faculty and staff may assume that a student's official University email is a valid mechanism for communicating with that student. Faculty who rely upon electronic communication with or between students in their classes will specify their requirements in the course syllabus. Account holders who choose to have email forwarded to another email address do so at their own risk. An account holder's failure to receive or read, in a timely manner, official University communications sent to an official email account does not absolve the account holder from knowing and complying with the content of the official communication.

Glossary of Terms and Abbreviations

The following glossary is provided to explain the academic terms and abbreviations used throughout this catalog.

Academic Forgiveness Policy — policy set forth by the Oklahoma State Regents for Higher Education that allows for the exclusion from the retention grade point average of hours that meet the provisions of either the repeat policy, reprieve policy, or renewal policy (p. 46).

Academic Overload — more than 19 hours in a semester or 9 hours in a summer term.

Accreditation — approval by a regional or professional accrediting association (e.g., The Higher Learning Commission of the North Central Association of Colleges and Schools).

Add/Drop — the process by which a student changes his or her class schedule by adding a course, dropping a course, or both.

Advanced Placement — a test taken to determine a student's level of competency in sequential courses such as mathematics, language and chemistry. This type of test is designed only to place a student in an appropriate level of classroom instruction and does not award college credit.

Advanced Standing Examination — an examination taken to establish course credit without enrolling in the course.

Advisement — the process of planning a program and selecting courses with assistance from an advisor.

Advisement/Degree Audit (A/DA) — see **Degree Navigator (DN)**.

Application for Graduation — the official form used in applying for graduation. Students apply online through one.ou.edu.

Area of Concentration — a concentration of coursework within the major.

Attempted Hours — total number of credit hours in which a student enrolls and receives a grade of A, B, C, D, F, P, NP, S, U, I, or N.

Audit — to attend a class regularly without receiving credit. Does not count toward full-time enrollment.

B.A. — Bachelor of Arts, the baccalaureate degree typically awarded in the arts and humanities.

B.S. — Bachelor of Science, the baccalaureate degree typically awarded in the sciences, engineering, and health professions.

Baccalaureate Degree — a degree awarded for the successful completion of an approved undergraduate program.

Bachelor's Degree — see **Baccalaureate Degree**.

Blended Course/Hybrid Course — A course in which instruction is partly delivered face-to-face and partly over the Internet.

Cancellation — an official act to terminate an enrollment before classes start for the term of enrollment.

Catalog — an official publication listing degree programs.

Certification Programs for Teachers — programs to qualify prospective public school teachers to meet Oklahoma state standards.

Checksheet — a concise, one-page description of graduation requirements for a specific undergraduate major.

College — an academic unit of the University, headed by a dean, offering instruction and granting degrees (or degree designations) in several areas of study.

College Office — the office of the college dean.

Combined Cumulative GPA — grade point average based on all courses attempted, both OU and transfer.

Combined Retention GPA — grade point average based on all courses attempted, both OU and transfer courses, minus any courses repeated in accordance with the policy on repeated courses, remedial courses, and PE activity courses.

Commencement — the ceremony at which degrees are conferred.

Complete Withdrawal — official withdrawal from all courses during a specific term or semester.

Comprehensive Examination — a required examination for a non-thesis master's program that covers all fields of work offered for the degree.

Concurrent Enrollment — simultaneous enrollment in two or more courses, programs, colleges, or campuses of the University.

Conditional Admission — an admission category at the graduate level for students whose grade point average is below that required for full admission, who have coursework deficiencies in the relevant field of study, and/or who have incomplete application materials or lack the additional departmental information required for full admission. At the undergraduate level, students are admitted conditionally if they have incomplete academic credentials.

Confer (a degree) — award, upon successful completion of requirements.

Corequisite — a requirement that one course must be taken in the same term as another course.

Correspondence Study — courses taken for credit by correspondence through the Center for Independent and Distance Learning.

Course — a unit of study for a semester or term.

Credit by Examination — credit earned by advanced standing examination.

Credit Hour — the unit of credit for one hour of lecture per week for a semester or the equivalent.

Curriculum — a program of study.

Dean — chief administrative officer of a college.

Degree – a title conferred upon one who has successfully completed an approved program of study.

Degree Navigator (DN) – system that monitors a student’s progress toward completion of degree requirements. It provides information on coursework completed (both OU and transfer), coursework in progress, degree course requirements remaining, and grade point average. This package replaces the previous Advisement/Degree Audit (A/DA) system.

Diploma – an official document certifying a degree earned.

Dissertation – a written report of research completed in fulfillment of the requirements for a doctoral degree.

Doctoral Degree – a graduate degree awarded for the completion of an advanced course of study emphasizing research, typically requiring 90 hours of course and research work beyond the bachelor’s degree, the completion of an independent research project, and the completion and successful defense of a dissertation.

Drop/Add – see **Add/Drop**.

Earned Hours – total number of credit hours awarded for completed courses in which the student has earned a passing grade.

Electives – courses taken for credit and grade but not to meet specific major course requirements for graduation.

Enrollment – the process of choosing and officially registering in a set of courses for a semester or term.

Enrollment Fee – the charge paid to enroll in courses.

Enrollment Verification – written confirmation of current or past enrollment for student loan institutions or other companies. Obtained through the Office of Academic Records.

Faculty Advisor – the faculty person assigned to assist the student in program planning and course selection.

Fee – a charge paid by students for services, e.g., course fee, student activity fee, health fee, etc.

Fee Waiver – a reduction in the fees a student must pay to enroll in courses at the University.

Freshman – undergraduate student with fewer than 30 credit hours.

Full Standing – an admission category at the graduate level for those students who meet the requirements for admission to a specific program.

Full-Time Student – an undergraduate student enrolled in 12 or more hours in a semester or six or more hours in a summer term. Graduate students should see the Graduate College section of this catalog.

General Education Requirements – common set of courses or categories of courses that are required of all undergraduate students to complete a degree.

GMAT – Graduate Management Admissions Test administered by the Educational Testing Service and used by some business colleges and schools as one item in the application packet for predicting success in graduate school.

Good Standing – status accorded students who meet certain grade point average requirements.

GPA – grade point average.

Grade Point Average – total grade points divided by total grade point hours.

Grade Point Hours – credit hours attempted for letter graded courses (A, B, C, D, F).

Grade Points – four points for each credit hour of A, three for each hour of B, two for each hour of C, one for each hour of D, zero for each hour of F.

Graduate Coursework – 5000- and 6000-level courses.

Graduate Student – a student who has already earned a baccalaureate degree and who is admitted to the Graduate College and enrolled in Graduate College advanced courses (usually 4000-, 5000- and 6000-level) that could lead to a master’s or doctoral degree.

Graduation GPA – see **Retention/Graduation GPA**.

GRE – Graduate Record Examination administered by the Educational Testing Service and used by some departments as one item in the application packet for predicting success in graduate school.

Incomplete (I) – a grade that may be given to a student who has not completed all of the requirements for a course prior to the end of the semester or term.

Independent Studies Courses – one-semester, individualized programs of study approved by a faculty instructor and departmental chair.

Junior – undergraduate student with between 60 and 89 credit hours.

Letter Grade – a grade of A, B, C, D or F.

Lower-Division Coursework – 1000- and 2000-level courses.

Major – the subject matter declared for in-depth study.

Major Field – see **Major**.

Master’s Degree – a graduate degree awarded for the completion of an advanced course of study, typically requiring 30 hours of coursework beyond the bachelor’s degree.

Matriculate – to initially enroll at a university.

Minimum Degree Requirements – minimum fulfillment of each specific requirement.

Minor – a secondary field of study in addition to the major.

Neutral Grade – a grade which is not used in calculating grade point averages (AU, AW, P, NP, S, U, W, I, N, X).

Oklahoma State System of Higher Education – colleges and universities receiving state funds and governed by the Oklahoma State Regents for Higher Education (OSRHE).

Online Course – A course in which instruction is delivered entirely over the Internet.

Online Enrollment – a Web-based process of choosing and officially registering in a set of courses for a semester or term.

OU Cumulative GPA — grade point average based on all courses attempted at OU.

OU Retention GPA — grade point average based on all courses attempted at OU minus any OU courses repeated in accordance with the policy on repeated courses, remedial courses, and PE activity courses.

Overload — see **Academic Overload**.

Pass/No Pass Grade Option (P/NP) — a neutral grade option selected by students for individual courses. Individual colleges may or may not accept the P/NP option.

Petition — a formal, written request, which, if approved, will allow modification or waiver of a specific requirement.

Placement Examination — a non-credit examination taken to determine the level in which a student should enroll in a sequential series of courses. This examination does not award college credit.

Planned Program — an individualized degree program designed by a student in consultation with faculty and/or degree college advisors in lieu of a regular major.

Post-Master's Coursework — coursework completed after a master's degree is conferred.

Prerequisite — a requirement, usually credit in another course, which must be met before a particular course can be taken.

Probation — an academic warning that a student is in academic difficulty, which could lead to suspension from the University. Undergraduate students may be placed on academic probation for an indefinite period of time by the University if they do not meet the requirements outlined in this catalog under the section called Scholastic Regulations and Standards.

Probationary Enrollment — enrollment on probation.

Proficiency Examination — see **Placement Examination**.

Provisional Admission — a temporary admission category which should not exceed 120 days. **Note:** This policy applies only to the College of Professional and Continuing Studies.

Registration — consists of advisement through the college office, enrollment in courses, and payment of tuition and fees.

Repeat Policy — policy for undergraduate students set forth by the Oklahoma State Regents for Higher Education that allows for the exclusion from the retention GPA of hours of repeated courses in which the original grade was a D or F up to a maximum of four courses, not to exceed 18 hours.

Reprive — policy for undergraduate students set forth by the Oklahoma State Regents for Higher Education that allows for the exclusion from the retention GPA of hours in one semester, or two consecutive semesters, that have been petitioned and approved in accordance with the guidelines of the policy.

Resident Credit — courses completed in residence at OU, excluding correspondence courses. Credits earned by examination are neither resident nor non-resident credit.

Resident Status — the classification of students as either in-state or out-of-state for admission and tuition purposes.

Retention — eligibility for continued enrollment.

Retention/Graduation GPA — grade point average computed excluding those courses repeated or reprieved, in accordance with the academic forgiveness policy, as well as remedial and PE activity courses and used to determine a student's eligibility to enroll in classes and to graduate.

Satisfactory (S) — passing neutral grade in courses graded on an S/U basis.

Satisfactory–Unsatisfactory Graded Courses (S/U) — courses selected by departments to be graded without letter grades.

Scholarship — a cash award or tuition waiver awarded to a student.

Semester — a 16-week academic session.

Semester Credit Hour — see **Credit Hour**.

Semester GPA — grade point average based on all courses attempted during a single semester at OU.

Senior — undergraduate student with 90 or more credit hours.

Senior Institution — a college or university offering baccalaureate degree programs.

Senior Vice President and Provost — the chief academic administrative officer of the Norman or Health Sciences Center campus, reporting directly to the University president.

Sophomore — undergraduate student with between 30–59 credit hours.

Special Student — an admission category available to students who are admissible to the University and wish to take courses without pursuing a degree. Undergraduate students are limited to nine hours; graduate students are limited to 24 hours.

Stop-Out — a University policy that allows students who have not graduated or been suspended to break their enrollment at the University for no more than one major semester and a summer term and return to the University without applying for readmission. Students may also attend consecutive summer terms without going through the readmission process.

Summer Term — A session of courses beginning after the end of the spring semester and ending prior to the beginning of the fall semester.

Suspension for Poor Scholarship — occurs when a student fails to meet minimum requirements of probation. The student is not eligible to attend classes at the University for one semester and must apply and be approved for readmission in order to re-enter the University.

Thesis — a written report of research or creative activity completed in partial fulfillment of the requirements of a course or degree.

TOEFL — Test of English as a Foreign Language administered by the Educational Testing Service and used to determine the level of English proficiency for students for whom English is a second language.

Transcript — a written report of a student's academic record. An "official transcript" must bear the seal of the university and the signature of an authorized university official.

Transfer Course Equivalent — an OU course that substantially matches the content and credit hours of a transfer course.

Transfer Course Substitution – a transfer course that, while not equivalent to a specific course at OU, is similar enough in content that it may be used to fulfill the requirement that the OU course fulfills. Substitutions are student specific and must be approved by the dean's office of the student's degree-recommending college.

Transfer Credit Evaluation – an assessment of a student's transfer credit, generally performed at the time of admission, in which OU course equivalencies are established (if possible) for individual transfer courses. This evaluation is used by academic advisors in degree checks and student advisement.

Transfer Cumulative GPA – grade point average based on all transfer courses attempted.

Transfer Retention GPA – grade point average based on all transfer courses attempted, minus any courses repeated in accordance with the policy on repeated courses.

Transfer Work – credit earned at another institution.

Tuition – the charge in addition to enrollment fees paid by all students to enroll in courses at the University.

Tuition Waiver – a reduction in the tuition a student must pay to enroll in courses at the University.

Unclassified Student – a graduate student in unclassified status is not a candidate for a degree, nor does unclassified status offer assurance of future admission to a degree program.

Undergraduate – a student enrolled in courses leading to a baccalaureate degree.

Unsatisfactory – non-passing neutral grade in courses graded on the S–U basis.

Upper-Division Coursework – courses numbered 3000 and 4000.

Visitor – an admission category for graduate students in good academic standing in a graduate program at other accredited institutions who wish to take courses at the University of Oklahoma to transfer back to their home campus.

Withdrawal (W) – an official act to terminate a student's total enrollment for a semester. Also a neutral grade that may be given to a student who withdraws from a course with a passing grade.

COURSE DESCRIPTIONS

A

- A HI-Art History (p. 1820)
- A T-Art and Technology (p. 1826)
- ACCT-Accounting (p. 1827)
- AERO-Aerospace Studies (p. 1831)
- AFAM-African & African American Studies (p. 1832)
- AGSC-Atmospheric and Geographic Sciences (p. 1835)
- AHS-Allied Health Sciences (p. 1836)

A HI-Art History

A HI 1113 The Understanding of Art 3 Credit Hours

Explanation and analysis of the principles underlying the visual arts. Consideration of formal, historical and other factors in the valuation and enjoyment of painting, sculpture, architecture and utilitarian objects. (F, Sp, Su) [IV-AF].

A HI 1314 Introduction to Art History 4 Credit Hours

Students will be introduced to basic concepts in art and art history through a thematic study of global art. (F, Sp) [IV-AF].

A HI 2303 Introduction to Art in Europe: 1300-1800 3 Credit Hours

This course is an introduction to art and architecture of the early modern period in Europe, from the beginning of the Renaissance in the 1300s until the end of the French Revolution, around 1800. (Irreg.)

A HI 2403 Introduction to American Art 3 Credit Hours

This course offers an introduction to American art, architecture, and visual culture from the colonial period to the present, with an emphasis on art of the United States. Foregrounding issues of encounter and exchange between peoples, nations, and cultures, we will ask what new visual forms were forged in the hybrid cultures of North America. (Irreg.)

A HI 2503 Introduction to Modern Art 3 Credit Hours

This course offers an Introduction to Modern Art, tracing its emergence, development, and some reactions to its practice. We will discuss the institutional, social, and political conditions that spurred artists to address and critique their contemporary moment, beginning with the gritty Realism of Gustave Courbet and stretching to the modular geometries of Minimalism. (Irreg.)

A HI 2603 Introduction to Contemporary Art 3 Credit Hours

This course focuses on contemporary art of the world with a strong emphasis on art made since 1989. Departing from transformations in late modern art that marked the aftermath of World War II and the process of decolonization, we will survey major developments and investigate social, political, and economic aspects of contemporary art. (Irreg.) [IV-AF].

A HI 2703 Introduction to Museum Studies 3 Credit Hours

This introductory course lays the foundation for understanding both the practical and theoretical concerns of the museum world. Topics will include museum management, the acquisition and conservation of art and artifacts, debates over display and interpretation, repatriation and the rights of Native peoples, and memorial museums. (Irreg.) [IV-AF].

A HI 2803 Introduction to Native American Art 3 Credit Hours

This course is designed as a broad survey of Native American art history. We will examine artworks from a vast range of locations, communities, and artistic practices throughout North America and focus on Native peoples' kinships with the natural world and trade partnerships. (Irreg.) [IV-WDC].

A HI 2970 Special Topics/Seminar 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

A HI 3133 Survey of Aegean Art and Architecture 3 Credit Hours

Prerequisite: junior standing. Understanding of art and architecture of the Aegean civilization. The focus of the course will be on artistic production of the island of Crete and to a lesser extent Cycladic and Mycenaean achievements in the Bronze Age Greece. (alt. Sp) [IV-WC].

- A HI 3213 Classical Art and Archaeology: Greek Art to the Death of Alexander** **3 Credit Hours**
(Crosslisted with CL C 3213) Prerequisite: sophomore standing. Lectures, occasionally illustrated, and assigned readings. Survey of the architecture, sculpture, painting and minor arts in the Greek regions of the eastern Mediterranean in the successive stages of their development, with analyses of dominant styles and detailed study of select masterpieces and monuments. (F) [IV-AF].
- A HI 3223 Classical Art and Archaeology: Hellenistic Greek Art; Roman Art** **3 Credit Hours**
(Crosslisted with CL C 3223) Prerequisite: sophomore standing. Continuation of 3213. Survey of Hellenistic art, with particular attention to the individuality of style and diversity of matter. Early Etruscan and Roman art. The development of Roman art in native and assimilated forms; studies in domestic and national monuments. (Sp) [IV-AF].
- A HI 3233 Medieval Art I** **3 Credit Hours**
Prerequisite: Junior standing. This course covers the art and architecture of Europe and the Mediterranean from Late Antiquity through the fall of Constantinople in 1453. Beginning with Constantine and the rise of Christianity, this course follows the development and spread of new cultures and art forms, stretching from Islamic material in the east to insular art of the British Isles. (Irreg.) [IV-WC].
- A HI 3263 Survey of Byzantine Art and Architecture** **3 Credit Hours**
Prerequisite: junior standing A survey of Byzantine monuments from the foundation of Constantinople in 330 CE to its fall in 1453. (Sp-Alt) [IV-AF].
- A HI 3303 Renaissance Art in Italy 1200-1600** **3 Credit Hours**
Prerequisite: junior standing. Focuses on Renaissance art and architecture in Italy from a social and cultural framework, beginning in the 1200's and ending around 1580. (Irreg.) [IV-AF].
- A HI 3313 Art and Culture in Italy** **3 Credit Hours**
Prerequisite: permission of department: acceptance to "Journey to Italy". Taught on-site in Italy as part of the "Journey to Italy" summer program in Arezzo. Students will study art from ancient Roman through the Baroque, with special focus on the Renaissance. (Irreg.) [IV-WC].
- A HI 3343 Northern Renaissance Art** **3 Credit Hours**
Prerequisite: Junior standing. Painting, sculpture and architecture in Northern Europe from 1400-1600. The course will emphasize painting in Flanders, Germany and the Netherlands. (Irreg.) [IV-WC].
- A HI 3403 Baroque Art and Architecture in Europe:1600-1700** **3 Credit Hours**
Prerequisite: junior standing; Covers art and architecture in Europe in the seventeenth century, during the time period called the Baroque. (Irreg.) [IV-WC].
- A HI 3440 Mentored Research Experience** **3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- A HI 3503 Art of the 18th Century: The Age of Enlightenment** **3 Credit Hours**
Prerequisite: Junior standing. Emphasizes the interaction of art with scientific, literary, historic and philosophical innovations of the eighteenth century. Content includes painting, sculpture and architecture of Northern Europe. (Irreg.) [IV-WC].
- A HI 3553 Nineteenth-Century Art** **3 Credit Hours**
Prerequisite: Junior standing. European art from the French Revolution to 1900, with particular emphasis on developments in French painting. Brief consideration of parallel trends in American art. (Irreg.) [IV-WC].
- A HI 3603 American Art** **3 Credit Hours**
Prerequisite: junior standing. American art from the colonial period to 1950. (Irreg.) [IV-WC].
- A HI 3613 Studies in American Art** **3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213; junior standing; May be repeated with change of subject matter; maximum credit 9 hours. Specialized study in selected topics in American art. Topics vary by semester; potential topics include colonial portraiture, nineteenth-century genre painting, murals in American art, U.S. sculpture, U.S. art in international contexts, and U.S. memorials and monuments. (Irreg.)
- A HI 3663 Contemporary Art** **3 Credit Hours**
Prerequisite: Junior standing. Focuses on contemporary art of the world with a strong emphasis on art made since 1989. (Irreg.) [IV-AF].
- A HI 3673 History of Visual Communication** **3 Credit Hours**
Prerequisite: junior standing. The history of visual communications and design from prehistoric times to the twentieth century. (Sp)
- A HI 3693 New Media Art** **3 Credit Hours**
Prerequisite: Junior standing. This course covers new media - video, installation, performance, and digital media - and technology in art since 1950. (Irreg.) [IV-AF].
- A HI 3703 Exhibition Preparation and Presentation** **3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213, Junior standing. This course will familiarize you with practical aspects of museum studies involving exhibitions. Taught by faculty with varied areas of expertise, the course is unique each time it is offered, as each instructor will bring differing expertise, interests, and projects into the classroom. Students gain working experience involving varied aspects of the preparation and presentation of exhibitions. (Irreg.)
- A HI 3733 Art of the American West** **3 Credit Hours**
Prerequisite: ENGL 1213 and junior standing. An introduction to the art of the American West accompanied by close study of relevant primary and scholarly texts. Students will be responsible for active participation in class discussion and for a series of short papers and assessments designed to develop skills in writing and historical interpretation. (Irreg.)
- A HI 3803 Pre-Columbian Art & Architecture of Meso- and South America** **3 Credit Hours**
Prerequisite: junior standing. An overview of Pre-Columbian art and architecture in Meso-America from Prehistoric times until the Spanish intervention in the early 1500s. (F-alternate) [IV-WDC].
- A HI 3813 Colonial Latin American Art** **3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213; junior standing. This upper-level course examines the history of artistic production in Latin America from the sixteenth through the mid eighteenth century. We will conduct case studies of artistic media by region, beginning with Peru and ending with the Californias. A geographical approach allows us to identify regional differences in artistic expression, which reflect local materials and Indigenous ideas. (Irreg.) [IV-AF].
- A HI 3833 Native American Art of the West** **3 Credit Hours**
Prerequisite: Junior standing. This course will focus on the artistic and architectural practices of Native American communities throughout the western United States and parts of Canada and Mexico. We will examine how Native artists responded to the impacts of colonization on their ancestral practices. (Irreg.) [IV-AF].

- A HI 3903 Art History, Theory and Practice 3 Credit Hours**
Prerequisite: A HI 1314, A HI 2000-level elective, and junior standing; or permission of instructor. Introduction to the theory and practice of Art History required for the major involving consideration of the field's history, exposure to historical and contemporary approaches to its practice, and training in art historical writing and critical and visual analysis. (Irreg.)
- A HI 3913 American Visual Culture 3 Credit Hours**
Prerequisites: junior standing. Explores approaches to American visual culture, an interdisciplinary area of inquiry that considers the role of visual experience in everyday life. These include photography, cinema, television, digital media, and public art. We examine the key theorists, methodologies, and cultural practices that have shaped the field of Visual Culture Studies. (Irreg.)
- A HI 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- A HI 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- A HI 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- A HI 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- A HI 4043 Native Americans, Museums and Exhibitions 3 Credit Hours**
(Slashlisted with AHI 5043) Prerequisite: Junior standing; A HI 1314 or permission of instructor. A discussion-based seminar on the history of museums and Native American art and culture. An examination of early collecting practices that removed materials and belongings from Native American communities, eventually becoming part of museum collections. We will also look at the interventions living artists are making and how they choose to present themselves and their culture to the public. No student may earn credit for both 4043 and 5043. (Irreg.)
- A HI 4163 Etruscan Art 3 Credit Hours**
(Slashlisted with 5163) Prerequisite: junior standing or permission of instructor. Examine and interpret selected works of Etruscan art in reference to the possible influences from the social, political, economic, literary, and religious "climate" of the time. No student may earn credit for both 4163 and 5163. (F) [IV-WC].
- A HI 4273 Byzantine Icons 3 Credit Hours**
(Slashlisted with 5273) Prerequisite: junior standing. Byzantine images occupy a principal position at the heart of the Eastern Church and they are an organic part of daily services. The icon represents a vision of the invisible, and therefore a vision founded on divine knowledge which transforms the created work into the miracle working image. This Class will examine the challenging process of producing holiness and divinity through painting panels. No student may earn credit for both 4273 and 5273. (Irreg.) [IV-AF].
- A HI 4373 The Italian City: Renaissance and Baroque Architecture 3 Credit Hours**
(Slashlisted with 5373) Prerequisite: junior standing. Architecture and urban planning of Italy from about 1300-1700. Emphasis on the growth of the city and how new forms of social interaction affected the development of architecture and the urban setting. No student may earn credit for both 4373 and 5373. (Alt. F) [IV-WC].
- A HI 4383 Italian Renaissance Art and Science 3 Credit Hours**
Prerequisite: junior standing. Focuses on the confluence of science and art in Renaissance Italy through a study of materials, process, technique and structural issues addressed by artists in the creation of painting, sculpture, and architectures. (Su) [IV-WC].
- A HI 4463 Issues in Northern Baroque Art 3 Credit Hours**
(Slashlisted with A HI 5463) Prerequisite: junior standing. Focuses on Northern Baroque art as case-study for examination of a variety of art historical methodologies and problems such as attribution, function, and meaning. No student may earn credit for both 4463 and 5463. (Irreg.)
- A HI 4523 Art and Power 3 Credit Hours**
(Slashlisted with AHI 5523) Prerequisite: Junior standing. What is the relationship between art and power, and how has it changed over time? This course delves into how art and architecture have been used to assert, reinforce, and resist power from 1800 to the present. We will explore topics including propaganda, cultural diplomacy, monumentality, restitution and repatriation, thinking critically about how similar strategies are utilized today. No student may earn credit for both 4523 and 5523. (Irreg.)
- A HI 4573 Impressionist Revolt 3 Credit Hours**
(Slashlisted with A HI 5573) Prerequisite: A HI 1314, A HI 2000-level elective, and junior standing; or permission of instructor. This course will establish a context for the Impressionist movement by looking at works by theme. We will examine the physical and social transformation of Paris at midcentury, prostitution and the deceptions of capitalism, cafe culture and precarious public spaces, performers of (theater, opera, dance), and the escapist seduction of suburban leisure. No student may earn credit for both 4573 and 5573. (Irreg.)
- A HI 4583 Caricature and Satire 3 Credit Hours**
(Slashlisted with A HI 5583) Prerequisite: A HI 1314, A HI 2000-level elective, and junior standing; or permission of instructor for non-majors in related areas of study. This course will investigate topics and themes related to satire and caricature, first grounding our discussion in theoretical foundations. We will look at social caricature and social science, political critique and the rise of the illustrated press, criminality and 19th-century science, cults of celebrity, and the impact of censorship on form. No student may earn credit for both 4583 and 5583. (Irreg.)
- A HI G4623 Contemporary Art and the Environment 3 Credit Hours**
Prerequisite: Junior standing. In this course, we will think together about how contemporary art relates to the environment. We will approach this topic at the intersection of the discipline of art history and the interdisciplinary area of environmental studies, which can draw on the arts, humanities, sciences, and professional disciplines like medicine, engineering, and law. (Irreg.) [IV-AF].
- A HI 4633 Modern Art: Cezanne to 1950 3 Credit Hours**
(Slashlisted with 5633) Prerequisite: junior standing. European art from Post-Impressionism to 1950, including some American developments. Emphasis on painting and sculpture, with some consideration of architecture. No student may earn credit for both 4633 and 5633. (Irreg.) [IV-WC].

- A HI 4643 Art After Modernism 3 Credit Hours**
(Slashlisted with A HI 5643) Prerequisite: Junior standing. Examines the transition from modern to contemporary art in Europe and the United States between 1950 and 1989. No student may earn credit for both 4643 and 5643. (Irreg.)
- A HI 4683 American Material Culture 3 Credit Hours**
Prerequisite: Junior standing. An interdisciplinary seminar addressing the significance of ordinary American objects (cell phones, storm shelters, ATM machines, lava lamps, food processors; the possibilities are nearly endless) taken as evidence of unconscious as well as conscious attitudes and beliefs, some specific to their original makers, users, owners and perceivers, others latent in the broader cultural milieu of their creation. (Sp)
- A HI 4723 Cinema of the American West: Then and Now 3 Credit Hours**
(Slashlisted with A HI 5723) Prerequisite: junior standing. Provides a critical overview of cinema of the American West from the 1930s to present day. Through screenings and course readings, examines the underlying components of Western films, including issues of race, class, ethnicity, gender, sexuality and ideology. Also explores the influence of painting and photography on cinema, as filmmakers both reinforced and reshaped popular imaginings of the American West. No student may earn credit for both 4723 and 5723. (Irreg.)
- A HI 4733 Contemporary Art in Exhibition 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213; junior standing. Museums are usually places where things go when they have outlasted their original purposes but still retain value, require care, and stir interest. In this course, we will think in various ways about how contemporary art and the museum do and do not go together. (Irreg.)
- A HI 4743 The American West in Art, Photography and Popular Culture 3 Credit Hours**
(Slashlisted with A HI 5743) Prerequisite: junior standing or permission of instructor. Focuses on the Trans-Mississippi West, as seen through the eyes of artists and photographers from the early 19th century until today. A variety of media will be discussed, including paintings, prints, photography, and sculpture. The course will study Euro-American artistic conventions/tradition and how they have been employed in defining western history, culture, and native people as fact, fiction, and myth. No student may earn credit for both 4743 and 5743. (Irreg.) [IV-AF].
- A HI 4753 The American West in Photography 3 Credit Hours**
(Slashlisted with 5753) Prerequisite: Junior standing or permission of the instructor. This course focuses on the study of the trans-Mississippi west as seen through the eyes of photographers from the early 19th century up to the present. The purpose of this course will primarily be to study Euro-American photographic conventions, traditions, and styles and how they have been employed in defining American western history, culture and native peoples as fact, artistic motif and myth. No student may earn credit for both 4753 and 5753. (Irreg.) [IV-WC].
- A HI 4773 Modern Exhibition Histories 3 Credit Hours**
(Slashlisted with A HI 5773) Prerequisite: Junior standing and ENGL 1213 or EXPO 1213. This course offers a history of modern art exhibitions, with a focus on European, U.S., and transnational contexts. It explores how exhibitionary decisions, including object choice, design and installation, location, historical context, artistic goals, and visitor experience and reception shape the fluid and multiple meanings of art. No student may earn credit for both 4773 and 5773. (Irreg.)
- A HI 4823 20th Century American Indian Art History 3 Credit Hours**
(Slashlisted with A HI 5823) Prerequisite: junior standing. Examination and study of the arts of North American Indians. Included in the survey will be the examination of new materials, styles, and the shifts of gender roles in the creative arts. No student may earn credit for both 4823 and 5823. (F) [IV-WDC].
- A HI 4853 American Indian Women Artists 3 Credit Hours**
(Slashlisted with A HI 5853) Prerequisite: Junior standing or permission of the instructor. Investigates the arts of indigenous women throughout the Americas. Students will participate in research, discussion of selected readings, written assignments and individual presentations concerning the non-western aesthetics and ideals that are found in arts of Indian women from the 20th century forward. No student may earn credit for both 4853 and 5853. (Irreg.) [IV-WDC].
- A HI 4913 Seminar 3 Credit Hours**
(Slashlisted with 5913) Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 12 hours. Advanced topics in art history. No student may earn credit for both 4913 and 5913. (Irreg.)
- A HI 4930 Internship 1-6 Credit Hours**
1 to 6 hours. Prerequisite: permission of instructor; majors only. May be repeated; maximum credit 6 hours. Students arrange and participate in a professional work experience with an approved internship site. (Irreg.)
- A HI 4933 Process and Theory Workshop 3 Credit Hours**
(Slashlisted with A HI 5933; Crosslisted with ARTC 4933) Prerequisite: Junior standing or permission of instructor; majors only. May be repeated with change of subject; maximum credit 6 hours. The course will offer a deeper grounding in relevant theoretical issues, as students explore together the interdisciplinary landscapes of contemporary theory and assess their relevance for artistic practice and art historical research. No student may earn credit for both 4933 and 5933. (Irreg.)
- A HI 4943 Fieldwork for Art History 3 Credit Hours**
(Slashlisted with A HI 5943) Prerequisite: Junior standing and permission of instructor. Students will be introduced to the idea that strategies art historians have developed to interpret art can be applied to the full range of traces left by human beings in the natural world. This course stretches the discipline of art history in experimental ways, challenging the centrality of art, understood as the sort of object that belongs in a museum. No student may earn credit for both 4943 and 5943. (Irreg.)
- A HI 4953 Museum Studies 3 Credit Hours**
(Slashlisted with 5953) Prerequisite: junior standing. Analysis of problems in collecting, authenticating, exhibiting and conserving works of art. Attention is also given to museum architecture and administration, as well as to the cultural and educational role of the museum in the community. Field trips, projects and papers are required. No student may earn credit for both 4953 and 5953. (Irreg.)
- A HI 4960 Directed Readings 2-6 Credit Hours**
Prerequisite: six hours of upper-division art history and permission of instructor. May be repeated; maximum credit six hours. Research culminating in the preparation of papers using technical and critical literature in the history of art. (Irreg.)
- A HI 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

- A HI 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing and permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- A HI 4993 Senior Capstone Experience 3 Credit Hours**
Prerequisite: senior classification. May not be repeated for credit. Primary objective is to provide a culminating experience for the senior-year student. Satisfies the University-wide General Education Requirement for a capstone course for art history majors. (F, Sp) [V].
- A HI 5043 Native Americans, Museums and Exhibitions 3 Credit Hours**
(Slashlisted with AHI 4043) Prerequisite: Graduate standing. A discussion-based seminar on the history of museums and Native American art and culture. An examination of early collecting practices that removed materials and belongings from Native American communities, eventually becoming part of museum collections. We will also look at the interventions living artists are making and how they choose to present themselves and their culture to the public. No student may earn credit for both 4043 and 5043. (Irreg.)
- A HI 5163 Etruscan Art 3 Credit Hours**
(Slashlisted with 4163) Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. Examine and interpret selected works of Etruscan art in reference to the possible influences from the social, political, economic, literary, and religious "climate" of the time. No student may earn credit for both 4163 and 5163. (Irreg.)
- A HI 5210 Graduate Readings 1-6 Credit Hours**
1 to 6 hours. Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. May be repeated with change of subject; maximum credit nine hours. Selected readings in art history. (Irreg.)
- A HI 5220 Graduate Projects 1-6 Credit Hours**
1 to 6 hours. Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. May be repeated with change of subject; maximum credit nine hours. Individual problems on selected topics. (Irreg.)
- A HI 5273 Byzantine Icons 3 Credit Hours**
(Slashlisted with 4273) Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. Byzantine images occupy a principal position at the heart of the Eastern Church and they are an organic part of daily services. The icon represents a vision of the invisible, and therefore a vision founded on divine knowledge which transforms the created work into the miracle working image. This class will examine the challenging process of producing holiness and divinity through painting panels. No student may earn credit for both 4273 and 5273. (Irreg.)
- A HI 5373 The Italian City: Renaissance and Baroque Architecture 3 Credit Hours**
(Slashlisted with 4373) Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. Architecture and urban planning of Italy from about 1300-1700. Emphasis on the growth of the city and how new forms of social interaction affected the development of architecture and the urban setting. No student may earn credit for both 4373 and 5373. (Irreg.)
- A HI 5463 Issues in Northern Baroque Art 3 Credit Hours**
(Slashlisted with A HI 4463) Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. Looks at northern Baroque art as a case study for the examination of a variety of art historical problems such as attribution, function, interpretation, and symbolism. No student may earn credit for both 4463 and 5463. (Irreg.)
- A HI 5523 Art and Power 3 Credit Hours**
(Slashlisted with AHI 4523) Prerequisite: Graduate standing or instructor permission. What is the relationship between art and power, and how has it changed over time? This course delves into how art and architecture have been used to assert, reinforce, and resist power from 1800 to the present. We will explore topics including propaganda, cultural diplomacy, monumentality, restitution and repatriation, thinking critically about how similar strategies are utilized today. No student may earn credit for both 4523 and 5523. (Irreg.)
- A HI 5573 Impressionist Revolt 3 Credit Hours**
(Slashlisted with A HI 4573) Prerequisite: Graduate standing and permission of instructor. This course will establish a context for the Impressionist movement by looking at works by theme. We will examine the physical and social transformation of Paris at midcentury, prostitution and the deceptions of capitalism, cafe culture and precarious public spaces, performers of theater, opera, and dance, and the escapist seduction of suburban leisure. No student may earn credit for both 4573 and 5573. (Irreg.)
- A HI 5583 Caricature and Satire 3 Credit Hours**
(Slashlisted with A HI 4583) Prerequisite: Graduate standing and permission of instructor. This course will investigate topics and themes related to satire and caricature, first grounding our discussion in theoretical foundations. We will look at social caricature and social science, political critique and the rise of the illustrated press, criminality and 19th-century science, cults of celebrity, and the impact of censorship on form. No student may earn credit for both 4583 and 5583. (Irreg.)
- A HI 5633 Modern Art: Cezanne to 1950 3 Credit Hours**
(Slashlisted with 4633) Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. European art from Postimpressionism to 1950, including some American developments. Emphasis on painting and sculpture, with some consideration of architecture. No student may earn credit for both 4633 and 5633. (Irreg.)
- A HI 5643 Art After Modernism 3 Credit Hours**
(Slashlisted with A HI 4643) Prerequisites: graduate standing; permission of instructor. Examines the transition from modern to contemporary art in Europe and the United States between 1950 and 1989. No student may earn credit for both 4643 and 5643. (Irreg.)
- A HI 5723 Cinema of the American West: Then and Now 3 Credit Hours**
(Slashlisted with A HI 4723) Prerequisite: graduate standing; majors only or permission of instructor. Provides a critical overview of cinema of the American West from the 1930s to present day. Through screenings and course readings, examines the underlying components of Western films, including issues of race, class, ethnicity, gender, sexuality, and ideology. Also explores the influence of painting and photography on cinema, as filmmakers both reinforced and reshaped popular imaginings of the American West. No student may earn credit for both 4723 and 5723. (Irreg.)

A HI 5743 The American West in Art, Photography, and Popular Culture 3 Credit Hours

(Slashlisted with A HI 4743) Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. Focuses on the Trans-Mississippi West, as seen through the eyes of artists and photographers from the early 19th century until today. A variety of media will be discussed, including paintings, prints, photography, and sculpture. The course will study Euro-American artistic conventions/tradition and how they have been employed in defining western history, culture, and native people as fact, fiction, and myth. No student may earn credit for both 4743 and 5743. (Irreg.)

A HI 5753 The American West in Photography 3 Credit Hours

(Slashlisted with 4753) Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. This course focuses on the study of the trans-Mississippi west as seen through the eyes of photographers from the early 19th century up to the present. The purpose of this course will primarily be to study Euro-American photographic conventions, traditions, and styles and how they have been employed in defining American western history, culture and native peoples as fact, artistic motif and myth. No student may earn credit for both 4753 and 5753. (Irreg.)

A HI 5773 Modern Exhibition Histories 3 Credit Hours

(Slashlisted with A HI 4773) Prerequisite: Graduate standing and permission of instructor. This course offers a history of modern art exhibitions, with a focus on European, U.S., and transnational contexts. It explores how exhibitionary decisions, including object choice, design and installation, location, historical context, artistic goals, and visitor experience and reception shape the fluid and multiple meanings of art. No student may earn credit for both 4773 and 5773. (Irreg.)

A HI 5823 20th Century American Indian Art History 3 Credit Hours

(Slashlisted with 4823) Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. Examination and study of the arts of North American Indians. Included in the survey will be the examination of new materials, styles, and the shifts of gender roles in the creative arts. No student may earn credit for both 4823 and 5823. (Irreg.)

A HI 5853 American Indian Women Artists 3 Credit Hours

(Slashlisted with 4853) Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. Investigates the arts of indigenous women throughout the Americas. Students will participate in research, discussion of selected readings, written assignments and individual presentations concerning the non-western aesthetics and ideals that are found in arts of Indian women from the 20th century forward. No student may earn credit for both 4853 and 5853. (Irreg.)

A HI 5903 Methodologies and Theories in Art History 3 Credit Hours

Prerequisite: graduate standing in art history or senior standing with permission of instructor. A study of various scholarly approaches to the history of art, as well as the theories which inform these approaches. Preparation of bibliographies; short presentations and papers. (Irreg.)

A HI 5911 Teaching of Art History 1 Credit Hour

Prerequisites: graduate standing; permission of instructor. Introduction to pedagogy for art history graduate students. It is required for Graduate Teaching Assistants with teaching assignments, and they should normally take it in the first semester of their appointment. The course focuses on principles and practices of good teaching and uses hands-on methods to encourage students to gain confidence and share ideas. Through a series of practical assignments students will increase their competency in creating and evaluating assignments, developing syllabi, and leading discussion sections. (Irreg.)

A HI 5912 Professional Writing for Art Historians 2 Credit Hours

Prerequisites: graduate standing; permission of instructor. This course is intended for graduate students pursuing an art history degree at the M.A. or Ph.D. level. It aims to teach professional writing skills necessary for a career in academia or the art world with a focus on proposals for conferences and grants. (Irreg.)

A HI 5913 Seminar 3 Credit Hours

(Slashlisted with 4913) Prerequisite: permission of instructor. May be repeated with change of content; maximum credit twelve hours. Advanced topics in art history. No student may earn credit for both 4913 and 5913. (Irreg.)

A HI 5930 Graduate Internship 1-6 Credit Hours

Prerequisite: graduate standing; permission of instructor. Variable credit: 1-6 hours. May be repeated; maximum credit 6 credit hours. An Internship is a planned work experience related to a student's personal career and academic goals. It can help a student learn about a career, apply knowledge gained in the classroom, develop skills, and enrich the student's understanding of a variety of art organizations. The primary purpose of an internship is to help relate academic experiences with those in the workplace. (Irreg.)

A HI 5933 Process and Theory Workshop 3 Credit Hours

(Slashlisted with A HI 4933; Crosslisted with ARTC 5933) Prerequisite: Graduate standing and permission of instructor. May be repeated with change of subject; maximum credit 6 hours. The course will offer a deeper grounding in relevant theoretical issues, as students explore together the interdisciplinary landscapes of contemporary theory and assess their relevance for artistic practice and art historical research. No student may earn credit for both 4933 and 5933. (Irreg.)

A HI 5943 Fieldwork for Art History 3 Credit Hours

(Slashlisted with A HI 4943) Prerequisite: Graduate standing and permission of instructor. Students will be introduced to the idea that strategies art historians have developed to interpret art can be applied to the full range of traces left by human beings in the natural world. This course stretches the discipline of art history in experimental ways, challenging the centrality of art, understood as the sort of object that belongs in a museum. No student may earn credit for both 4943 and 5943. (Irreg.)

A HI 5953 Museum Studies 3 Credit Hours

(Slashlisted with A HI 4953) Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. Analysis of problems in collecting, authenticating, exhibiting and conserving works of art. Attention is also given to museum architecture and administration, as well as to the cultural and educational role of the museum in the community. Field trips, projects and papers are required. No student may earn credit for both 4953 and 5953. (Irreg.)

A HI 5960 Directed Readings 2-6 Credit Hours

Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Research culminating in the preparation of papers using technical and critical literature in the history of art. (Irreg.)

A HI 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

- A HI 5972 Thesis Proposal 2 Credit Hours**
Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. Students will create a research topic, select a thesis committee and formulate a proposal and bibliography approved by their committee. (Irreg.)
- A HI 5980 Research for Master's Thesis 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. May be repeated for credit; maximum credit applicable toward degree, four hours. Directed research culminating in the completion of the master's thesis. (Irreg.)
- A HI 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- A HI 5993 Special Studies 3 Credit Hours**
Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. May be repeated; maximum credit twelve hours. Advanced studies in various periods of art history, given under stated titles determined semester by the instructor involved. (Irreg.)
- A HI 6203 Native American Art 3 Credit Hours**
Prerequisite: graduate standing in the School of Art and Art History or permission of the instructor. May be repeated with change in topic; maximum credit 12 hours. Advanced seminar that will examine in depth various concepts, individuals, schools, movements, or themes. Topics may include: Oklahoma Native American artist; Ledger art; art of Native American people; contemporary Native American painters; Native American sculptors; southwestern Native American weaving; jewelry; beadwork; potteries; coastal American art of the northwest; and native arts of Hawaii. (Irreg.)
- A HI 6213 Graduate Seminar in Ancient Art 3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor; May be repeated with change of content; maximum credit 6 hours. This is a rotating topic course on Ancient Art. Content initially will include examining selected works and archaeological sites of the Cycladic Islands. (Irreg.)
- A HI 6313 Seminar in Early Modern Art 3 Credit Hours**
Prerequisite: Graduate standing. May be repeated with change of content; maximum credit 6 hours. This course is a variable topic seminar on European Art from c. 1400s-c. 1700s that includes an advanced examination of a particular artist, theme, style, or era. (Irreg.)
- A HI 6413 Seminar in Modern Art 3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor. May be repeated with change of content; maximum credit 6 hours. This course is a variable topic seminar on European Art from c. 1800s-1900s that includes an advanced examination of a particular artist, theme, style, or era. (Irreg.)
- A HI 6423 Topics in American Art History 3 Credit Hours**
Prerequisite: Graduate standing in the School of Art and Art History or permission of instructor. Interdisciplinary seminar addressing topics in the history of American art, its focus changing from year to year though always concerned with developments in the art of the American west, based on close, restrained analysis of particular images combined with readings in art history and related disciplines. (Irreg.)
- A HI 6433 Material Culture, Theory and Practice 3 Credit Hours**
Prerequisite: Graduate standing in the OU School of Visual Arts or permission of the instructor. Interdisciplinary seminar addressing the significance of ordinary objects taken as evidence of unconscious as well as conscious attitudes and beliefs, some specific to their original makers, users, owners and receivers, others latent in the broader cultural milieu in which each object circulated or circulates still. (Irreg.)
- A HI 6513 Critical Issues in Recent American Art History 3 Credit Hours**
Prerequisite: Graduate standing in the School of Art and Art History or permission of the instructor. Interdisciplinary seminar addressing critical issues in recent American art history through close attention to a series of recent monographs by major figures in the field. (Irreg.)
- A HI 6523 Graduate Seminar in Contemporary Art 3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor; May be repeated with change of content; maximum credit 6 hours. The course is a rotating topics seminar on contemporary art that includes an advanced examination of an artist, theme, style, or era. (Irreg.)
- A HI 6950 Dissertation Proposal 1-6 Credit Hours**
1 to 6 hours. Prerequisite: Completion of core coursework for the PhD in Art History. May be repeated; maximum credit six hours. Students will create a research topic and formulate a proposal and bibliography approved by their doctoral committee. (F, Sp)
- A HI 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- A HI 6970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- A HI 6980 Research for Doctoral Dissertation 2-9 Credit Hours**
2 to 9 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the Doctoral dissertation. (F, Sp)
- A HI 6990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

A T-Art and Technology

- A T 5803 History and Theory of Art and Technology Seminar 3 Credit Hours**
Prerequisite: Graduate standing and Master of Arts in Art and Technology majors only. This course surveys the history and theory of art and technology from prehistory to the present. Presenting the major historical developments alongside key works and texts in art and design practice, their critical and historical reception, and their theorization, the course provides students with a comprehensive foundation in the past of their field. (F, Sp, Su)

A T 5813 Creative Coding Techniques 3 Credit Hours

Prerequisite: Graduate standing and Master of Arts in Art and Technology majors only. This course provides an introduction to the computer as a usable art production tool. Students work to understand computer code as a malleable form within the context of New Media Art. Students learn the basic structure of OOP (Object Oriented Programming) as it pertains to the navigation of current technologies. (F, Sp, Su)

A T 5823 Emerging Art and Technology Seminar 3 Credit Hours

Prerequisite: Graduate standing and Master of Arts in Art and Technology majors only. This course helps students position themselves within the field of art and technology by equipping them with knowledge necessary to anticipate the future shape of its fast-paced development. Specific topics covered tend to involve big-picture changes on the horizon, new technologies in development, and the shifting relationship of society to technology. (F, Sp, Su)

A T 5833 Video and Sound Techniques 3 Credit Hours

Prerequisite: Graduate standing and Master of Arts in Art and Technology majors only. This course provides students with an overview of audio and video capture and post-production. This technique-intensive lab features weekly sequences of video tutorials covering introductory to advanced techniques for video capture, video lighting and exposure, audio capture, technical equipment, and industry standard software post-production methods. (F, Sp, Su)

A T 5843 3D Animation Techniques 3 Credit Hours

Prerequisite: Graduate standing and Master of Arts in Art and Technology majors only. This course teaches students how to produce 3D models and 3D animations with the latest industry-standard software. This technique-intensive lab features weekly sequences of in-depth video tutorials covering introductory to advanced techniques for creating high-quality 3D objects, environments, characters, keyframe animations, procedural animations, and simulation FX. (Sp, Su)

A T 5853 Motion Graphics Techniques 3 Credit Hours

Prerequisite: Graduate standing and Master of Arts in Art and Technology majors only. This course provides students with a technical overview of using motion graphics, including but not limited to, effective communication in moving text, interactive media, and basic digital compositing. This technique-intensive lab features weekly sequences of in-depth video tutorials covering techniques for key components in the successful creation of imagery, sound, video, and animation for use in motion graphic projects. (F, Sp, Su)

A T 5863 Moving Image Production 3 Credit Hours

Prerequisite: Graduate standing and Master of Arts in Art and Technology majors only. This studio course provides students with one-on-one and group feedback for self-directed projects of time-based media. Students will develop their work within a theoretical and conceptual framework, learning and applying the principles of interactivity in art and design. The course includes screenings, discussions, and critiques. (F, Sp, Su)

A T 5873 Game Engine Techniques 3 Credit Hours

Prerequisite: Graduate standing and Master of Arts in Art and Technology majors only. This course provides students with an overview of 3D game engine software to produce narrative and experimental screen-based video games. This technique-intensive lab features weekly sequences of in-depth video tutorials covering introductory to advanced techniques for importing, animating, scripting, and exporting computer games. (F, Sp, Su)

A T 5883 Interactive Media Production 3 Credit Hours

Prerequisite: Graduate standing and Master of Arts in Art and Technology majors only. This studio course provides students with one-on-one and group feedback for self-directed projects in interactive media. Students will develop their work within a theoretical and conceptual framework, learning and applying the principles of interactivity in art and design. The course includes screenings, discussions, and critiques. (F, Sp, Su)

A T 5893 Mixed Reality Techniques 3 Credit Hours

Prerequisite: Graduate standing and Master of Arts in Art and Technology majors only. This course teaches students to how to create virtual and augmented reality experiences. This technique-intensive lab features weekly sequences of in-depth video tutorials covering introductory to advanced techniques for creating art and design projects in advanced, emerging visual technologies. (F, Sp, Su)

A T 5913 Professional Project 3 Credit Hours

Prerequisite: Graduate standing, Master of Arts in Art and Technology majors only, and concurrent enrollment in AT 5923. The purpose of this culminating project is to synthesize the student's knowledge in the field of art and technology through the production of a work or body of works in art or design that demonstrates professional skills and will serve the student well as a key component of their portfolio moving forward in their career. (F, Sp, Su)

A T 5923 Professional Forum 3 Credit Hours

Prerequisite: Graduate standing, Master of Arts in Art and Technology majors only, and concurrent enrollment in AT 5913. This group seminar course is intended to provide a forum for peer feedback on the professional project as it evolves from conception to completion. Students will discuss their ideas and their practices, developing both greater clarity about their working process as well as a deepened capacity to talk about their work and present it coherently to the public. (Sp, Su)

ACCT-Accounting

ACCT 2113 Fundamental Financial Accounting 3 Credit Hours

Prerequisite: Business majors and students enrolled in approved degree programs or by permission of Price College advising; B AD 1001 or concurrent enrollment. Basic principles of financial accounting. Emphasis on the preparation and use of the income statement, balance sheet and statement of funds flow for corporations. Coverage includes the analysis and recording of transactions involving cash, inventories, fixed assets, bonds and capital stock as well as closing, adjusting and reversing entries for revenue and expense items. (F, Sp, Su)

ACCT 2123 Fundamental Managerial Accounting 3 Credit Hours

Prerequisite: Business majors and students enrolled in approved degree programs or by permission of Price College advising; ACCT 2113. Introduction to managerial accounting. Analysis of cost behavior and the use of this knowledge for both short- and long-term decision. An introduction to budgeting and the accumulation of product costs for planning and performance evaluation. Specific coverage includes cost-volume-profit analysis, capital budgeting, allocations, variances from standard costs and the measurement of divisional performance. (F, Sp, Su)

ACCT 2970 Special Topics/Seminar 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ACCT 3023 International Financial Statement Analysis 3 Credit Hours

Prerequisite: Must be approved for degree candidacy by Price College, ACCT 2113 and ACCT 2123; Majors only. A review of international financial reporting development, procedures and standards with an emphasis on financial statement interpretation and analysis. Not open to accounting majors. (Irreg.)

ACCT 3033 Financial Reporting Issues in Energy 3 Credit Hours

Prerequisite: ACCT 2123, MATH 1743 or MATH 1823 or MATH 1914, only declared Energy Management majors, and student must be approved for degree candidacy by Price College. Study of financial reporting issues directed toward energy companies. Review of the accounting cycle with an emphasis on the accounting treatment for acquisition of mineral interests, geological and geophysical costs, intangible drilling costs, delay, rental, dry hole costs, lease and well equipment, joint interest billing and royalties payable. (Sp)

ACCT 3043 International Financial Reporting 3 Credit Hours

Prerequisite: ACCT 2113 and departmental permission. A review of international financial reporting procedures and standards with an emphasis on financial statement interpretation and analysis. (Irreg.)

ACCT 3113 Intermediate Accounting I 3 Credit Hours

Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2113 and ACCT 2123 with a grade of C or better in each course; MATH 1743 or MATH 1823 or MATH 1914. Measurement and reporting of assets including receivables, inventory, investments, fixed assets, and intangible assets; special issues related to revenue recognition. (F, Sp)

ACCT 3123 Intermediate Accounting II 3 Credit Hours

Prerequisite: ACCT 2113, ACCT 2123 and ACCT 3113 with a minimum grade of C or better in each course; student must be approved for degree candidacy by Price College; MATH 1743 or MATH 1823 or MATH 1914. Measurement and reporting of bonds, leases, pensions, derivatives, stockholders' equity, earnings per share, and share-based compensation; special issues related to accounting for income taxes and the statement of cash flows. (F, Sp)

ACCT 3313 Cost Accounting 3 Credit Hours

Prerequisite: ACCT 2123 with a minimum grade of C, student must be approved for degree candidacy by Price College, and MATH 1743 or MATH 1823 or MATH 1914. Basic cost principles. Job order costing, process and joint costing, and estimated costs. (F, Sp)

ACCT 3353 Accounting Information Systems/Databases 3 Credit Hours

Prerequisite: Student must be approved for degree candidacy by Price College, ACCT 2113 and ACCT 2123 with a minimum grade of C or better in each course, and MATH 1743 or MATH 1823 or MATH 1914; or permission. A study of the role of technology in accounting, focusing on the documentation, flow, and processing of accounting information in business. Gives an introduction to the various components of an information system and the necessary internal controls in complex business computing environments. Course includes data analytics and enterprise systems projects. (F, Sp)

ACCT 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ACCT 3603 Income Tax Accounting I 3 Credit Hours

Prerequisite: ACCT 2113, ACCT 2123 and ACCT 3113 with a minimum grade of C or better in each course, or permission; student must be approved for degree candidacy by Price College; MATH 1743 or MATH 1823 or MATH 1914. Introduction to the taxation of income including issues related to the measurement and recognition of income, deductions and losses; the taxation of property transactions; basis and cost recovery concepts; and alternative forms of business organization. (F, Sp)

ACCT 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: junior or senior standing, admission to the Honors Program. May be repeated; maximum credit six hours. Independent study in field of accounting and related disciplines to broaden student's perspective in general field of business. (F, Sp)

ACCT 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

ACCT 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: junior or senior standing, admission to the Honors Program. May be repeated; maximum credit six hours. Independent research in field of accounting and related disciplines to apply research techniques learned in research tool courses to actual business situations. (F, Sp)

ACCT 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (Irreg.)

ACCT 4543 Auditing 3 Credit Hours

(Slashlisted with ACCT 5543) Prerequisite: ACCT 3113 and ACCT 3123 with a minimum grade of C or better in each course; ACCT 3603; ACCT 3353 or concurrent enrollment; MATH 1743, or MATH 1823, or MATH 1914; Students must be approved for degree candidacy by Price College. This course will cover auditing concepts, standards, principles, and procedures; coverage includes professional ethics, auditors' legal responsibilities, electronic data processing (EDP) control systems, audit sampling, and audit reports. No student may earn credit for both 4543 and 5543. (F, Sp)

ACCT 4563 Oil and Gas Accounting I 3 Credit Hours

(Slashlisted with ACCT 5563) Prerequisite: ACCT 3123; MATH 1743 or MATH 1823 or MATH 1914; Students must be approved for degree candidacy by Price College. May be taken concurrent with ACCT 3123. A study of financial accounting issues specifically directed toward oil and gas companies. Includes basic oil and gas transactions: leases, subleases, free wells, farmouts, carried interests. This course covers accounting for acquisition costs, exploration and development costs, operating costs, joint interest costs, and revenue accounting for oil and gas companies. Field trip required. No student may earn credit for both 4563 and 5563. (F)

- ACCT 4583 Internal Auditing 3 Credit Hours**
(Slashlisted with ACCT 5583) Prerequisite: ACCT 3353; ACCT 4543; senior standing; Majors only. Internal audit from a broad perspective including evaluating business processes, information technology, accounting systems, internal auditing standards, risk assessment, governance, ethics, audit techniques, and emerging issues. The course covers the design of business processes, implementation of key control concepts and will use a case study approach addressing tactical, strategic, systems and operational areas. No student may earn credit for both 4583 and 5583. (F)
- ACCT 4703 Income Tax Accounting II 3 Credit Hours**
(Slashlisted with ACCT 5703) Prerequisite: ACCT 3603 or permission; junior standing. Advanced issues related to the taxation of multi-jurisdictional operations and transactions involving corporations, partnerships, estates, and trusts, and their owners throughout the life of the entity. No student may earn credit for both 4703 and 5703. (F, Sp)
- ACCT 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- ACCT 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ACCT G4990 Special Problems in Accounting 1-2 Credit Hours**
1 to 2 hours. Prerequisite: Junior standing; ACCT 3123, ACCT 3313, ACCT 3353, and ACCT 3603; and ACCT 4113 or ACCT 4323 or ACCT 4543 or ACCT 4703; or departmental permission. May be repeated with change of content; maximum credit 2 hours. This directed readings and problems course for advanced students will be supervised by faculty and staff. A comprehensive report and/or examination is required. (F, Sp, Su)
- ACCT 5023 International Financial Reporting and Analysis 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. Overview of the international financial reporting environment and exploration of international financial standards and procedures, with emphasis on financial statement interpretation and analysis. (Irreg.)
- ACCT 5100 Accounting Professional Development 0 Credit Hours**
Prerequisite: admission into the BBA/MAcc or MAcc program. Introduces students to a wide range of business and professional issues, including developing current events not covered elsewhere in the curriculum, as well as to build and expand on topics that are covered. The course will also help students develop and polish some of the skills necessary for professional and personal success. (Irreg.)
- ACCT 5113 Advanced Accounting 3 Credit Hours**
Prerequisite: ACCT 3113, ACCT 3123, and graduate standing. Topics in this course include consolidated reporting for firms that have merged with or acquired other companies and the accounting and reporting for governmental and nonprofit organizations. (F, Sp)
- ACCT 5123 Special Topics in Advanced Financial Accounting 3 Credit Hours**
Prerequisite: Graduate Standing, Departmental Permission, and ACCT 5113. This course expands upon topics from Advanced Accounting. Topics include the cost method of consolidation, the process of translation, remeasurement and consolidation of financial statements presented in a foreign currency, and introduction of topics such as partnership accounting, bankruptcy accounting, and SEC Reporting issues. (Irreg.)
- ACCT 5202 Financial Accounting 2 Credit Hours**
Prerequisites: graduate standing; departmental permission. Students will learn to construct and analyze financial statements of for-profit corporate enterprises. The basic accounting model including financial statement recording and preparation will be covered. A major emphasis will be placed on using financial statements for decision making by investors, creditors, and other users. Basic ratio analysis and valuation concepts will be introduced. (Irreg.)
- ACCT 5212 Managerial Accounting 2 Credit Hours**
Prerequisites: 5202 and graduate standing; departmental permission. This course emphasizes the use of accounting information for internal planning and control. Introduces students to types of managerial information used to effectively and efficiently run businesses. Covers basic issues in costing (activity based and product); generation and interpretation of information for planning and strategic decision-making (pricing, make-or-buy analysis, cost-volume-profit analysis); production and use of information related to performance measurement. (Irreg.)
- ACCT 5222 Fundamentals of Cost Accounting 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and ACCT 2123 or ACCT 5212. This course covers an overview of technical management accounting concepts. Topics will include process costing; rework and scrap costs; support costs, joint costs and byproducts; relevant costs; transfer pricing; inventory management; and performance measures. (F)
- ACCT 5232 Financial Reporting Foundations 2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. This course introduces the process of preparing, reporting, and using financial data reported on the income statement and balance sheet. Emphasizes complex revenue and receivable transactions, such as performance obligations, long-term contracts, variable considerations, transaction pricing, and uncollectible accounts, and assesses how these transactions are reported and analyzed by external users. (F)
- ACCT 5242 Financial Reporting for Assets and Investments 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and ACCT 2113 or ACCT 5202 or ACCT 5232. This course introduces the process of measuring and reporting assets and investments. Emphasizes topics such as asset acquisition, nonmonetary asset exchange, internally generated assets, impairment, depreciation, debt investments, equity investments, and the use of derivatives for speculative and hedging purposes. (F)
- ACCT 5252 Financial Reporting for Liabilities and Equity 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and ACCT 2113 or ACCT 5202 or ACCT 5232. This course introduces the process of valuing and reporting liabilities and equities. Emphasizes topics such as private and public debt offerings, lease accounting, income tax implications, equity-based compensation, dividends, dilutive instruments, and the computation of earnings per share. (Sp)

ACCT 5262 Fundamentals of Income Taxation & Tax Accounting 2 Credit Hours

Prerequisite: Graduate standing, departmental permission, and ACCT 2113 or ACCT 5202 or ACCT 5232. This course covers introduction to the taxation of income generally including the definition and measurement of taxable income and the recognition and taxation of gains and losses from property transactions. (F)

ACCT 5272 Fundamentals of Taxation of Business & Employment Income 2 Credit Hours

Prerequisite: Graduate standing, departmental permission, and ACCT 2113 or ACCT 5202 or ACCT 5232. This course covers the introduction to the alternate organizational forms in which businesses may be conducted, the measurement and taxation of income generated by those business forms, and the impact of organizational form choice on the owners of the business. (Sp)

ACCT 5282 Fundamentals of Accounting Information Systems 2 Credit Hours

Prerequisite: Graduate standing, departmental permission, and ACCT 2113 or ACCT 5202 or ACCT 5232. This course introduces the conceptual foundations of AIS and data analytics. Addresses issues and mitigating factors of accounting information systems reliability. (Sp)

ACCT 5292 Fundamentals of Internal Control 2 Credit Hours

Prerequisite: Graduate standing, departmental permission, and ACCT 3353 or ACCT 5282 or MIS 3353. This course introduces the basic concepts of system documentation and internal controls of accounting information systems. Discusses relevant controls to the audit of financial statements and reporting in the context of the audit risk model. (Sp)

ACCT 5302 Fundamentals of Auditing 2 Credit Hours

Prerequisite: Graduate standing, departmental permission, and ACCT 3113 or ACCT 5242 and ACCT 3123 or ACCT 5252. This course will develop the perspective and knowledge necessary to understand the audit process and gain basic competency in audit risk assessment and reporting. (Su)

ACCT 5303 Accounting Data Analytics 3 Credit Hours

Prerequisite: ACCT 3353 and graduate standing. This course covers the use of data analytics and visualization in the accounting profession, including analytics processes and tools to generate meaningful accounting insights and answer accounting questions. Students will also learn to think critically, solve problems, and make good decisions about the use of analytics in the accounting environment. Applications in tax, audit, managerial, and financial accounting will be (F, Sp)

ACCT 5352 Financial Statement Analysis Theory and Methods 2 Credit Hours

Prerequisites: graduate standing; departmental permission. Intended to increase your ability to use and make decisions using information presented in the financial statements of publicly traded companies. A number of different decision contexts will be examined including valuation of potential acquisitions, investment analysis, credit analysis, managing corporate financing policies and analyzing business communications. Will consider the role of both accounting and non-accounting information. (Irreg.)

ACCT 5353 Financial Statement Analysis 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. Topics in analysis and use of general purpose financial statements for decision making, ratio analysis, credit risk, and valuation will be covered. (Irreg.)

ACCT 5403 Accounting Ethics and Professional Responsibilities 3 Credit Hours

Prerequisite: graduate standing, 24 hours of accounting, and permission. Examines the ethical issues encountered by, and the professional and legal obligations of, practicing accountants with the ultimate goal of enhancing ethical decision-making and behavior in the profession. Applies both ethical theories of decision-making and professional standards to real-world problems encountered across various functional areas of accounting. (Irreg.)

ACCT 5543 Auditing 3 Credit Hours

(Slashlisted with ACCT 4543) Prerequisite: Graduate standing and permission of instructor. This course will cover auditing concepts, standards, principles, and procedures; coverage includes professional ethics, auditors' legal responsibilities, electronic data processing (EDP) control systems, audit sampling, and audit reports. No student may earn credit for both 4543 and 5543. (Irreg.)

ACCT 5553 Fraud Examination 3 Credit Hours

Prerequisite: 4543, graduate standing or permission. To develop a broad understanding of the different types of fraud that affect organizations, as well as to learn how and why fraud occurs. To understand the fundamentals regarding fraud prevention and detection. To learn how to conduct fraud investigations. To learn what is required of external auditors regarding fraud. The course focuses on organizational fraud (e.g. employee and management fraud). (Irreg.)

ACCT 5563 Oil & Gas Accounting I 3 Credit Hours

(Slashlisted with ACCT 4563) Prerequisite: Graduate standing and permission of instructor. A study of financial accounting issues specifically directed toward oil and gas companies. Includes basic oil and gas transactions: leases, subleases, free wells, farmouts, and carried interests. This course covers accounting for acquisition costs, exploration and development costs, operating costs, joint interest costs, and revenue accounting for oil and gas companies. Field trip required. No student may earn credit for both 4563 and 5563. (F)

ACCT 5573 Advanced Oil and Gas Accounting and Taxation 3 Credit Hours

Prerequisites: ACCT 4563 or ACCT 5563, ACCT 3603, and Graduate standing. This course will cover accounting for derivatives, asset retirement obligations, supplemental footnote disclosures, analysis of financial statements of oil and gas companies, and alternative sources of energy. Approximately 1/3 of the course will be devoted to taxation of oil and gas companies. (Irreg.)

ACCT 5583 Internal Auditing 3 Credit Hours

(Slashlisted with ACCT 4583) Prerequisite: Graduate standing, ACCT 3353, and ACCT 4543. Internal audit from a broad perspective including evaluating business processes, information technology, accounting systems, internal auditing standards, risk assessment, governance, ethics, audit techniques, and emerging issues. The course covers the design of business processes and implementation of key control concepts, and will use a case study approach addressing tactical, strategic, systems, and operational areas. No student may earn credit for both 4583 and 5583. (F, Sp)

ACCT 5613 Tax Research and Practice 3 Credit Hours

Prerequisite: Graduate standing and ACCT 3603 (or equivalent). Course focuses on the development of skills necessary to resolve issues in tax practice. Objectives include developing knowledge of tax research resources, understanding the framework of tax law, and understanding ethics as applied to tax practice. (Irreg.)

- ACCT 5643 Advanced External Auditing 3 Credit Hours**
Prerequisite: Graduate standing, Accounting majors only, ACCT 4543, and departmental permission. Designed to introduce students to advanced external auditing topics, such as how to audit internal controls, revenue, and fair value, with a special emphasis on audit data analytics. Taught using a mixture of lecture, cases, and projects. Students gain skills in platforms such as Excel, IDEA, Tableau, and others. (Irreg.)
- ACCT 5703 Income Tax Accounting II 3 Credit Hours**
(Slashlisted with 4703) Prerequisite: 3603 or permission and junior standing. Advanced issues related to the taxation of multi-jurisdictional operations and transactions involving corporations, partnerships, estates, and trusts, and their owners throughout the life of the entity. No student may earn credit for both 4703 and 5703. (F, Sp)
- ACCT 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- ACCT 5970 Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission. May be repeated with change of subject matter; maximum credit eight hours. A seminar for graduate students, with topics to be announced each time the course is offered. (F, Sp, Su)
- ACCT 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- ACCT 5990 Research in Accounting 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit eight hours. (F, Sp, Su)
- ACCT 6193 Introduction to Accounting Research 3 Credit Hours**
Prerequisite: graduate standing and permission. May be repeated with change of content; maximum credit six hours. A survey of current topics appearing in the academic accounting literature. Students will analyze and critique emerging original research in accounting. Intended for, but not restricted to, doctoral accounting students to provide a foundation for their future research efforts. Required for all Ph.D. students whose dissertation topic is in the area of accounting. (Irreg.)
- ACCT 6553 Accounting Theory and Research 3 Credit Hours**
Prerequisite: graduate standing, 24 hours of accounting and permission. Examines the history and development of accounting theory and its reflection in current professional standards. In the process, the course also facilitates the development of the knowledge and skills necessary to research and analyze specific practice and policy issues. (Irreg.)
- ACCT 6613 Federal Income Taxation of Corporations and Shareholders 3 Credit Hours**
Prerequisite: Graduate standing and ACCT 5613 or concurrent enrollment. An advanced study of corporate income taxation, including corporate formation, concept of earnings and profits, acquisitions and liquidations, reasonable compensation, stock redemptions, accumulated earnings tax, personal holding companies, reorganizations, Subchapter S corporations, and other tax areas. (Irreg.)
- ACCT 6623 Federal Income Taxation of Partnerships 3 Credit Hours**
Prerequisite: Graduate standing, ACCT 5613 and ACCT 6613, or departmental permission. An advanced study of acquisitions of partnership interests, the basis of a partner's partnership interest, taxing partnership operations, transfers of partnership interests, partnership distributions, death or retirement of a partner, and adjustments to the basis of partnership assets. (Irreg.)
- ACCT 6633 Selected Topics in Taxation 3 Credit Hours**
Prerequisite: Graduate standing, permission of instructor, and ACCT 5613. Selected topics will focus on concepts and functional areas currently relevant to the field of taxation and tax accounting. (Sp)
- ACCT 6713 Judgment and Decision Making Research Seminar 3 Credit Hours**
Prerequisite: 6193 or permission of instructor. Introduces basic psychology research in judgment and decision making, explores accounting and accounting-related work in judgment and decision making, and develops evaluation skills for experimental research. (Irreg.)
- ACCT 6723 Archival Financial Reporting Research Seminar 3 Credit Hours**
Prerequisite: 6193 or permission of instructor. Heavy emphasis placed on basic theory and empirical findings of how accounting information relates to market prices. Additional topics may include archival evidence of firm's earnings management activities, the role of financial analysts' earnings forecasts in financial accounting research, and cross-company differences in financial reporting. (Irreg.)
- ACCT 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- ACCT 6970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and ACCT 6193 or permission of instructor; May be repeated with change of content; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- ACCT 6973 Seminar 3 Credit Hours**
Prerequisite: 6193 or permission of instructor. May be repeated with change of topic; maximum credit six hours. Seminar in latest developments in research and theory from one of the following general areas of accounting: auditing, taxation, positive theory, managerial accounting, or financial reporting. Specific topic is announced for each time of offering. (Irreg.)
- ACCT 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- ACCT 6990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

AERO-Aerospace Studies

- AERO 1011 Introduction to the Department of the Air Force - Heritage and Values 1 Credit Hour**
Prerequisite: concurrent enrollment in AERO 1300. This course provides an introduction to the Air and Space Forces, hopefully encouraging students to pursue an AF career. The course also lays the foundation for becoming an Air or Space professional by outlining our heritage and values. As a foundational course, AERO 1011 also provides a historical perspective with lessons on war, AF operations, and principles of airpower. (F)

AERO 1021 The Air Force Today 1 Credit Hour

Prerequisite: departmental permission; concurrent enrollment in 1300. A study of aerospace defense, missile defense, general purpose forces and aerospace support forces. The mission, resources and operation of tactical air forces, with special attention to limited war; and a review of Army, Navy and Marine general purpose forces. (Sp)

AERO 1300 Leadership Laboratory 0 Credit Hours

Prerequisite: concurrent enrollment in AERO 1011, 1021, 2011, 2021, 3013, 3023, 4013 or 4023 or permission. Designed to introduce the student to the customs and courtesies associated with the Air Force. Also provides a practicum for the initial development of leadership and command abilities. (F, Sp)

AERO 2011 Team and Leadership Fundamentals I 1 Credit Hour

Prerequisite: Corequisite: AERO 1300. This course is designed to provide a fundamental understanding of both leadership and team building. It is imperative that students are taught from the beginning that there are many layers to leadership, including listening, understanding themselves, being a good follower and problem solving efficiently. Students should demonstrate basic verbal and written communication skills. (F)

AERO 2021 Team and Leadership Fundamentals II 1 Credit Hour

Prerequisite: Corequisite: AERO 1300. This course is designed to continue providing a fundamental understanding of both leadership and team building. It is imperative that students are taught from the beginning that there are many layers to leadership, including listening, understanding themselves, being a good follower and problem solving efficiently. Students should demonstrate basic verbal and written communication skills. (Sp)

AERO 3013 Air Force Leading People and Effective Communication I 3 Credit Hours

Prerequisite: Departmental Permission; Corequisite: AERO 1300. This course is designed to build on the leadership fundamentals taught in AERO 2021. The students will have the opportunity to utilize their skills as they begin more of a leadership role in the detachment. The goal is for students to have a more in-depth understanding of how to effectively lead people. Concurrent enrollment in AERO 1300 is required. (F)

AERO 3023 Air Force Leading People and Effective Communication 2 3 Credit Hours

Prerequisite: AERO 3013 or Departmental Permission; Corequisite: AERO 1300. This course is designed to build on the leadership fundamentals taught in AERO 3013. The students will have the opportunity to utilize their skills as they begin more of a leadership role in the detachment. The goal is for students to have a more in-depth understanding of how to effectively lead people. Concurrent enrollment in AERO 1300 is required. (Sp)

AERO 4013 American National Security I 3 Credit Hours

Prerequisite: 3023 or departmental permission. Conceptual study of the U.S. national security policy examining the formulation, organization and implementation of national security; the context of national security; the evolution of strategy; and the management of conflict. Included is a block of instruction on the military justice system. Concurrent enrollment in 4100 is required. (F)

AERO 4023 American National Security II 3 Credit Hours

Prerequisite: 4013 or departmental permission. Examines U.S. national security policy in the international setting; arms control and peacekeeping efforts; and civil-military interaction. Includes a study of the military profession and officership. Designed to provide future Air Force officers with a background in the profession and U.S. national security policy so that they can function effectively in today's Air Force. Concurrent enrollment in 4100 is required. (Sp)

AFAM-African & African American Studies

AFAM 2003 Introduction to African and African-American Studies 3 Credit Hours

Introduces students to African and African-American Studies at the University of Oklahoma, and at other institutions of higher education in the United States. Students will study the major ideas, concepts, problems, issues, research and scholars in the field. Provides career focus and information for students who will major or minor in African and African-American Studies. (F, Sp) [IV-WDC].

AFAM 2113 Africa and the Diaspora 3 Credit Hours

The course introduces students to the study of Africa and the dispersion of African people throughout the New World. Focus is placed upon the geographical and historical understanding of the continent of Africa and the identification of central causes of underdevelopment within the continent. (Irreg.) [IV-WDC].

AFAM 2970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

AFAM 3123 West African and African-American Experiences 3 Credit Hours

Prerequisite: any course that focuses on African or African American content, or English 1213. Provides a basis for understanding discourse concerning the future of West Africa and Africans in the American Diaspora. Examines significant issues concerning West African people, their past, their priorities, and prognoses. (Irreg.)

AFAM 3133 Introduction to African Aesthetics 3 Credit Hours

Prerequisite: any course that focuses on African or African American content, or English 1213. Explores the philosophy, culture, and aesthetic expressions of African Americans before, during, and after enslavement through a comparison of African and African American culture. Emphasis is placed upon developing a body of knowledge and analytic skills that will enable students to deepen their understanding of traditional and contemporary culture practiced by the African American community. (Irreg.) [IV-WDC].

AFAM 3143 Gospel Music Past and Present 3 Credit Hours

Prerequisite: junior standing. African and African-American history as it relates to gospel music. The class correlates the climate and cultural history with various genres of music that led to gospel music. Individual artists are studied not in isolation but as part of the larger cultural context. (F, Sp) [IV-AF].

- AFAM 3333 The Black West** **3 Credit Hours**
(Crosslisted with HIST 3333) Prerequisite: Junior standing, or any 2000-level African and African American Studies class, or permission of instructor. Survey of Black history and experience in the American West. Students will learn about life in the region through primary documents, scholarly texts, literature, film, and popular culture. Emphasis on how identity, regionalism, and nationalism converge in North America. Particular attention will be paid to Oklahoma and the larger Great Plains. (Irreg.)
- AFAM 3343 Black Greek Letter Organizations** **3 Credit Hours**
Prerequisite: junior standing or departmental permission and successful completion of at least one AFAM course. Examines the history and culture of black greek-letter organizations (BGLOs), the contributions of the BGLOs (also referred to as historically black fraternities and sororities) to the black community through leadership and service, and issues relevant to the future of BGLOs in the 21st century. (Irreg.)
- AFAM 3413 African American Education in the United States** **3 Credit Hours**
Prerequisite: any course that focuses on African or African-American content, or English 1213. Examines two major historical features of African American education: the ways in which the African American community has sought to educate itself and the ways in which white Americans have sought to educate African Americans. Emphasis is placed on the purpose of education, and alternative visions of educational possibility. (Irreg.)
- AFAM 3423 African-American Men** **3 Credit Hours**
Prerequisite: any course the focuses on African and African-American content, or English 1213. Examines the status and role of the African-American male, from the perspective of contemporary research and literature which should frame the extant disclosure and discussions, policy-making, and future research. (Irreg.)
- AFAM 3433 African American Women** **3 Credit Hours**
Prerequisite: any course the focuses on African or African American content, or English 1213. Examines the history and experience of African American women, focusing on race, gender, and socio-economic status and the corresponding effects of these forces in their lives. (Irreg.)
- AFAM 3440 Mentored Research Experiences** **3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- AFAM 3453 The Black Athlete in America** **3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213 or sophomore standing. Provides students with a historical and contemporary overview of the Black athlete in American society. This course will underscore and examine the Black athlete from a social, political, and cultural perspective. Many of the misconceptions and deep-seated stereotypes of Black athletes both in intercollegiate athletics and professional sports will be uncovered. Additionally, perspectives will be gained on the changing status of Black athletes and how those changes have engendered the changing of sport, American society, and critical triumphs within Black culture. (Irreg.)
- AFAM 3513 AFAM Research Methods** **3 Credit Hours**
Prerequisite: AFAM major or minor, junior standing. This course is designed to introduce students to research methods in African and African American studies. Qualitative and quantitative research methods are studied, discussed, and undertaken. Course design stresses the importance of using both methods to cross-validate findings. (Irreg.)
- AFAM 3613 Visual Culture and African American Identity: 1895-1939** **3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Examines the visual commodities of black and white cultural producers to analyze issues of caste and class status, gender, and sexuality that historically and currently inform competing notions of blackness within the public sphere. (Irreg.) [IV-WDC].
- AFAM 3960 Honors Reading** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers topics not usually presented in the regular courses.
- AFAM 3970 Honors Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses.
- AFAM 3980 Honors Research** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- AFAM 3990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- AFAM 4003 Senior Seminar in African and African-American Studies** **3 Credit Hours**
Prerequisite: completion of 12 hours of required AFAM or AFAM-related courses. Provides students the opportunity to review and integrate their study in African and African-American courses. Students will be involved in academic experiences that facilitate the translation from theory to practice. Experiences will vary depending on the instructor. (Sp) [V].
- AFAM 4010 Special Topics In African And African-American Studies** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing and any course covering African and African-American issues. May be repeated with change of content; maximum credit nine hours. Designed to permit the study of specific and changing issues and problems in AFAM Studies. Course will also be used for special workshops, conferences, seminars, etc. and individually planned and supervised activities focused on specific areas of concern. (Irreg.)
- AFAM 4133 Contemporary Visual Art of Africa** **3 Credit Hours**
Prerequisite: junior standing and any 2000-level African and African-American Studies (AFAM) class. This course explores current visual arts developments in Africa. The course traces the historical evolution, influences and status of contemporary African art, with special reference to established visual artists who either work within or outside of Africa. (Sp)

- AFAM 4213 African Dance 3 Credit Hours**
Prerequisite: any course that focuses on African or African American content, or English 1213. Examines various essential dance movements from the African Diaspora. Theory and praxis meet in an effort to better understand the culture and language of dance amongst African people. (Irreg.) [IV-AF].
- AFAM 4233 Blacks and the Movies: Hollywood and Black Independent Film 3 Credit Hours**
Prerequisite: any course that focuses on African or African American content, or English 1213. Historical overview of the development of African American cinema. Examines how film has been used to culturally define the parameters of black cultural identity and how black cultural producers promoted alternate constructions of black identity. (Irreg.)
- AFAM 4243 The Black Arts Movement 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213, or permission of instructor, or junior standing. Examines the literature, art, music, film, and cultural commentary of the Black Arts Movement. Focuses on the notion of 'blackness' and the black experience as developed in the cultural expressions of key figures of the Black Arts Movement, and the subsequent connection of that movement to further changes in literature, drama, film, music and art. Also explores the emergence of a critical discourse specific to a "new" black aesthetic. (Irreg.)
- AFAM 4413 Issues in the African American Family 3 Credit Hours**
Prerequisite: any course that focuses on African or African American content, or English 1213. The purpose of the class is to explore the inter- and intra-structural components of the African American family using an applied social systems and ecological approach. Great emphasis will be placed on historical and concurrent social, religious, political and economic factors that influence the psyche of both the family and in a broader sense a culture rooted in the Afrocentric paradigm. (Irreg.)
- AFAM 4423 African American Health Issues 3 Credit Hours**
Prerequisite: any course that focuses upon African or African American content, or English 1213. Examines health problems, health status, and health behavior of African American men and women. A life course perspective is emphasized from birth to later life. It is assumed that being African American predisposes persons to health problems that increase the risk of disease or that influence health based on the diversity of cultural beliefs, values, and practices. Access to health services will be addressed. (Irreg.)
- AFAM 4443 African American Mental Health 3 Credit Hours**
Prerequisite: English 1213 or Expository Writing 1213. Introduces issues related to African American mental health in this country. Topics discussed and explored in this course will cover the past, present, and future states of mental health in the African American community. Students will investigate their personal history of mental health and uncover ways that those histories relate to and connect with the issues addressed throughout the course. (F)
- AFAM 4493 Africa and the Atlantic Slave Trade 3 Credit Hours**
(Crosslisted with HIST 4493) Prerequisite: ENGL 1213 or EXPO 1213. About the changing nature of slavery in and the impact of slave trading on Africans in their homelands and in the diaspora. Origins in Africa; rise of the Atlantic trade; impact of the trade; middle passage, etc. (Irreg.) [IV-WDC].
- AFAM 4623 Hip Hop Culture and Contemporary America 3 Credit Hours**
Prerequisite: any course that focuses on African or African American content, or English 1213. Historical inquiry into behavioral and sociopolitical trends of hip hop culture. Attempts to codify and recognize dominant cultural attitudes, concepts and paradigms as global phenomenon shaping understanding of contemporary African American character, identity, and culture. (Irreg.)
- AFAM 4633 African American Religious Traditions 3 Credit Hours**
Prerequisite: any course that focuses on African or African American content, or English 1213. An anthropological and historical inquiry into the nature of the religious experience of Africans enslaved and involuntarily brought to the United States. Emphasis is placed upon the identification and understanding of the central cultural and religious practices and products form black peoples' experiences of the holy. (Irreg.)
- AFAM 4643 Black Feminism and Womanism 3 Credit Hours**
(Crosslisted with WGS 4643) Prerequisite: Junior standing and any 2000-level African and African-American Studies class. This course analyzes the way race, gender, sexuality, and socioeconomic status have historically dominated, intersected, and/or competed with the lives and experiences of Black women. This course examines the way Black women have drawn upon these internal struggles to serve as voices of power and agents of social change. Readings in this course will highlight activism, literature, and social justice. (Irreg.)
- AFAM 4713 Afrocentric Thinking and the Civil Rights Movement 3 Credit Hours**
Prerequisite: any course that focuses on African or African American content, or English 1213. Examines afrocentric thinking and identifies key afrocentric patterns and strategies within the civil rights movement. Students will analyze African American leadership and how leaders brought afrocentric thinking to the forefront. (Irreg.)
- AFAM 4733 Civil Rights Law: Employment and Education 3 Credit Hours**
Prerequisite: any course the focuses on African or African American content, or English 1213. Analyzes civil rights law in employment and education. Focuses on laws that address discrimination, equal employment opportunity, equal educational opportunity and affirmative action, as well as the legal foundation for diversity initiatives. Examines regulations of enforcement agencies, and agency grievance procedures, including selected court cases. (Irreg.)
- AFAM 4743 Black Women and Leadership 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213 and junior standing. Explores issues and strategies related to the roles and responsibilities of women in leadership positions and public service. The focus will be on African-American female leaders in diverse contexts. Do women have an identifiably different ways of leading? How does leadership manifest itself in the public arena? Why does women's public leadership matter? (Irreg.)
- AFAM 4763 The History of Lynching and Racial Violence in America 3 Credit Hours**
Prerequisite: English 1213 or Expository Writing 1213 with a grade of C or better. Explores the historical development of lynching, survey of lynching and its impact on American society; investigates the ways race, class, gender, and sexuality shaped particular lynching episodes, justifications for the practice and the historical legacy. (Irreg.)

AFAM 4813 Prison Industrial Complex 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213, or permission of instructor, or junior standing. The American prison industrial complex is a phenomenon with roots in American prison history, convict leasing, and the proliferation of prison industries. Designed to familiarize students with the phenomenon, how it came to exist, and the impact it has had and is having on American society in general, and on the African American community in particular. (Irreg.) [III-SS].

AFAM 4823 African American Politics and Public Policy 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213, or permission of instructor, or junior standing. Focuses on the African American experience and politics, examining the history and experience from the civil rights era to the election of President Barack Obama. Materials will discuss grassroots and national political agendas, and explore the politics of topics such as environmental justice, healthcare, literature, music, sexuality and voting. (Irreg.) [III-SS].

AFAM 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

AFAM 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

AFAM 4990 Independent Study 1-3 Credit Hours

Prerequisite: permission of instructor. Permits the student to study in depth, under the guidance of the instructor, particular and special African and African-American topics of interest to the student and within the expertise of the instructor. Generally, students and the instructor meet to determine the nature of independent study, schedule progress reports and meetings, timelines for the submission of assignments, nature of the evaluation process and culminating effort or activity. (F, Sp, Su)

AGSC-Atmospheric and Geographic Sciences

AGSC 2970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

AGSC 3011 Career Planning & Development for A&GS Majors 1 Credit Hour

Prerequisite: Junior standing or permission of instructor. Provides students with instruction in the career planning process directly related to their major and, ultimately, the world of work. Research shows that the majority of people lose their jobs because of poor work ethic, not because of aptitude. Course teaches appropriate skills desired by employers across AGS disciplines. Through lecture, discussion, individual projects and guest speakers, the interactive curriculum will cover topics such as behavioral interviewing techniques, self-directed job search strategies and career opportunities in multiple job sectors. As the course progresses, students will develop a career portfolio which includes a career assessment, class notes, handouts, cover letters and resumes (including electronic versions).

AGSC 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

AGSC 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers topics not usually presented in the regular courses.

AGSC 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

AGSC 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

AGSC 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

AGSC 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

AGSC G4970 Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Subjects covered vary. Deals with interdisciplinary concepts in atmospheric and geographic sciences not usually covered in regular courses. (Irreg.)

AGSC 4990 Special Studies 1-4 Credit Hours

1 to 4 hours. Prerequisite: Permission of instructor, upper-division standing. Contracted special problems study for topics not currently offered in regularly scheduled courses; may include library and/or laboratory research and field projects.

AGSC 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

AGSC 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Subjects covered vary. Deals with interdisciplinary concepts in atmospheric and geographic sciences not usually treated in regular courses. (Irreg.)

AGSC 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

AHS-Allied Health Sciences

AHS 1400 Orientation To The Health Professions 1 Credit Hour
Orientation to the health professions. 1 to 2 Hours. Typically, a one-hour survey course to introduce and explore the health professions offered by the colleges of the University of Oklahoma Health Sciences Center. Through a series of lectures, students will interact with educators, practitioners, and students in: audiology, dental hygiene, dentistry, medicine, nuclear medicine, nursing, nutritional sciences, occupational therapy, pharmacy, physical therapy, physician associate, public health, radiation therapy, radiography, sonography, and speech-language pathology. (F, Sp)

AHS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

AME-Aerospace & Mechanical Engineering

AME 2102 Engineering Design Graphics 2 Credit Hours
Prerequisite: Sophomore standing and majors only; ENGR 1413, and MATH 1914 or MATH 2423. Visualization and modeling techniques for product design and development. Design methodology, graphic standards, projection theory, freehand sketching, and spatial geometry. Three-dimensional Computer-Aided-Design modeling, components and assemblies, graphic standards, geometric dimensioning and tolerancing, engineering drawings. Solving open-ended design and visualization problems. (Sp)

AME 2113 Statics 3 Credit Hours
Prerequisite: (PHYS 2514; MATH 1823 or 1914; MATH 2423 or 2924; and CHEM 1315 all with a minimum grade of C; MATH 2433 or 2934 or concurrent enrollment. Vector representation of forces and moments: general three-dimensional theorems of statics; centroids and moments of area and inertia. Free-body diagrams, equilibrium of a particle and of rigid bodies, distributed loads, friction and internal shear and moment loads. Analysis of trusses, frames, and machines. (F)

AME 2213 Thermodynamics 3 Credit Hours
Prerequisite: Majors only; (Physics 2514; MATH 1823 or 1914; MATH 2423 or 2924; and CHEM 1315) all with a minimum grade of C. First and second laws of thermodynamics are developed and applied to the solutions of problems from a variety of engineering fields. Extensive use is made of differential calculus to interrelate thermodynamics functions. (F)

AME 2223 Introduction to Aerospace Engineering 3 Credit Hours
Prerequisite: AE majors (A010 & B010) only; PHYS 2514; MATH 1823 or 1914; MATH 2423 or 2924; and CHEM 1315 all with a minimum grade of C. Introduction to the foundational dynamics of aerospace vehicles, propulsion system performance, and basic aerodynamic forces and conventions. (F)

AME 2303 Materials, Design and Manufacturing Processes 3 Credit Hours
(Crosslisted with I E 2303) Prerequisite: 2113 or Civil Engineering 2113 or Engineering 2113. Mechanical and physical properties of engineering materials. Introduction to design concepts, manufacturing processes and equipment used in engineering. (Sp)

AME 2402 Engineering Computing 2 Credit Hours
Prerequisite: MATH 1823 or 1914 or concurrent enrollment; Majors only. Introduction to computer programming and university computing facilities. Program design and development: computer application exercises in engineering. (F)

AME 2533 Dynamics 3 Credit Hours
Prerequisite: AME 2113, MATH 2433 or 2934; Majors only. Dynamics (kinematics and kinetics) of particles and rigid bodies for rectilinear, curvilinear and angular motion; work and energy methods; conservations of impulse and momentum; introduction to mechanical vibrations. (Sp)

AME 2623 Circuits and Sensors 3 Credit Hours
Prerequisite: PHYS 2514; MATH 1823 or 1914; MATH 2423 or 2924; and CHEM 1315 all with a minimum grade of C or better with an overall average of 3.0 in these four courses - AP credit accepted and weighted based upon score; MATH 3413 and 3401 or concurrent enrollment; PHYS 2524 or concurrent enrollment; Majors only. Formulation and solution of circuit equations, network theorems, sinusoidal steady-state analysis, simple transients. Introduction to digital logic circuits. Physical principles of sensing and actuation. Applications to engineered systems of computer programming, embedded systems, and controls. (Sp)

AME 3103 Interactive Engineering Design Simulation 3 Credit Hours
Prerequisite: AME 3143, Solid Mechanics; and AME 3153, Fluid Mechanics or AME 3253, Aerodynamics. Visualization and introductory finite element modeling techniques for product design and development. Three-dimensional CAD modeling, components and assemblies, graphic standards, dimensions and tolerances, engineering drawings. Introduction to finite element methods for structural and fluid mechanics problems, with verification. (Sp)

AME 3112 Solid Mechanics Lab 2 Credit Hours
Prerequisite: 3143 or concurrent enrollment. Measurement of displacement; velocity, acceleration, force, torque, strain, stress, data acquisition and processing; data and uncertainty analysis; report writing. (F)

AME 3122 Heat Transfer and Fluid Mechanics Lab 2 Credit Hours
Prerequisite: AME 3112; AME 3173 or concurrent enrollment. Basic measurement concepts in fluid mechanics and thermal science. Concepts and methods of measuring pressure, temperature, flow, thermal and transport properties. Laboratory. (Sp)

AME 3143 Solid Mechanics 3 Credit Hours
Prerequisite: MATH 3113, or MATH 3413 and MATH 3401; AME 2303; AME 2533. Concepts of stress and strain; mechanical behavior of engineering materials; analysis of uniform stress states; analysis of members in torsion; stresses and deflections in beams; modes and theories of failure; design criteria. (F)

- AME 3153 Fluid Mechanics 3 Credit Hours**
Prerequisite: AME 2113, AME 2213, AME 2533, and MATH 3113; majors only. Principles of fluid mechanics: fluid statics, flow descriptions, conservation equations, dimensional analysis, potential flow, viscous flow and internal flow. (F)
- AME 3173 Heat Transfer 3 Credit Hours**
Prerequisite: AME 2213 and AME 3153 or CEES 2223. Heat transfer by conduction, convection, and radiation; mass transfer and combined modes of heat transfer. (Sp)
- AME 3253 Aerodynamics 3 Credit Hours**
Prerequisite: AME 2213, AME 2223, AME 2533, MATH 3413 and MATH 3401. Fluid properties, fluid statics, flow description, conservation equation; incompressible inviscid flow dynamics; characteristic airfoil parameters; two-dimensional flow around thin airfoils; flow around wings of finite span; boundary layer development; compressibility; governing equations for inviscid compressible flow normal and oblique shock relations; Prandtl-Meyer expansion waves; quasi-one dimensional flow through nozzles and diffusers. (F)
- AME 3272 Windtunnel Laboratory 2 Credit Hours**
Prerequisite: AME 3253 or concurrent enrollment. Operation and calibration of a subsonic wind tunnel. Experimental testing of airfoils, model airplanes, and aerodynamic shapes. Calibration and use of balance and associated test equipment. Laboratory (F)
- AME 3333 Flight Mechanics 3 Credit Hours**
Prerequisites: AME 2223, AME 2533, and AME 3253. Classical linear stability analysis and equations of motion in the body frame for rigid body aircraft. Static and dynamic analysis of aircraft open loop stability. Aircraft design topics including weight and balance, trim, and control sizing. (Sp)
- AME 3353 Design of Mechanical Components 3 Credit Hours**
Prerequisite: 2303 and 3143. Analysis and design of mechanical subsystems and selection of elements such as gears, shafts, clutches, brakes and modern mechanical components. (Sp)
- AME 3363 Design of Thermal-Fluid Systems 3 Credit Hours**
Prerequisite: AME 2402 or C S 1313, AME 3153 or AME 3253, and AME 3173. Design of fluid flow, heat transfer and energy systems including analysis, synthesis and optimization. Topics include but are not limited to: ducts and piping systems, fluid machinery, heat exchangers, thermal storage devices, furnaces, combustors, refrigeration and air conditioning systems. (F)
- AME 3413 Vibrating Systems 3 Credit Hours**
Prerequisite: 2533 and Mathematics 3113. Free and forced vibrations in lumped-parameter linear systems of one, two or more degrees of freedom. Resonance phenomena, dynamic absorbers; vibration-measuring equipment. Introduction to Laplace transforms and transient vibrations, distributed systems. (Irreg.)
- AME 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it the with the URCP office. Not for honors credit. (F, Sp, Su)
- AME 3523 Aerospace Structural Analysis 3 Credit Hours**
Prerequisite: AME 3143, MATH 3401 and MATH 3413. Advanced concepts of stress and strain; introduction to the analysis of aerospace engineering structures; complex bending and torsion, shear flows in thin-walled and stringer-skin sections; buckling; introduction to the finite element method; introduction to composite materials. (Sp)
- AME 3623 Embedded Real-Time Systems 3 Credit Hours**
Prerequisite: AME 2623 or equivalent, C S 1313 or equivalent. The fundamentals of real-time embedded systems are covered including processes, scheduling, frequency requirements, and watchdog timers. Includes work with actual real-time systems. (Sp)
- AME 3723 Numerical Methods For Engineering Computation 3 Credit Hours**
Prerequisite: AME 2402 or C S 1313, and MATH 3113 or MATH 3413. Course uses specific software applications tailored toward aerospace and mechanical engineering. Basic methods for obtaining numerical solutions with a digital computer. Included are methods for the solutions of algebraic and transcendental equations, simultaneous linear equations, ordinary and partial differential equations, and curve fitting techniques. The methods are compared with respect to computational efficiency and accuracy. (F)
- AME 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Coverage includes materials not usually presented in the regular courses. (F, Sp, Su)
- AME 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. Deals with concepts not usually presented in regular coursework. (F, Sp, Su)
- AME 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work on a special project in the student's field. (F, Sp, Su)
- AME 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- AME 4003 Introduction to Structural Health Monitoring 3 Credit Hours**
(Slashlisted with AME 5003) Prerequisite: AME 3112 and AME 3143. Comprehensive instruction of structural dynamics, signal processing, passive and active sensing, feature extraction, statistical pattern recognition, nondestructive evaluation methods. No student may earn credit for both 4003 and 5003. (F)
- AME 4013 Introduction to Medical Device Design 3 Credit Hours**
(Slashlisted with AME 5013; Crosslisted with BME 4013) Prerequisite: Junior standing or permission of instructor. Introduction to medical device design with emphasis on the entire procedure of developing a medical device from identifying the unmet medical need to product launching. Topics include marketing and technology survey, concept development, the biocompatible material, device prototype, bench test, in vitro/in vivo test, clinical trial and FDA regulation. No student may earn credit for both 4013 and 5013. (Sp)

AME 4043 Analysis of Heat Pumping Systems 3 Credit Hours

(Slashlisted with AME 5043) Prerequisite: AME 2213 and AME 3173. A systematic introduction of thermodynamic analysis methods for heat pumping systems, including vapor-compression, absorption and other common heat pumping technologies. A specific focus is on the applications to air-conditioning, heat pump and refrigeration equipment. No student may earn credit for both 4043 and 5043. (F)

AME 4093 Applied Biomechanics - Ear Mechanics 3 Credit Hours

(Slashlisted with AME 5093; Crosslisted with BME 4093) Prerequisite: Junior standing; PHYS 2514; MATH 1823 or 1914; MATH 2423 or 2924; and CHEM 1315 all with a minimum grade of C or better. The course curriculum starts with a review of some basic solid mechanics and fluid mechanics. Then the course will review the applications of mechanics in different biosystems or organs. Finally, this course will cover how to apply mechanics on ear tissue mechanical measurements, ear modeling and ear implant design. No student may earn credit for both 4093 and 5093. (F)

AME 4133 Heat Transfer in Multiphase Systems 3 Credit Hours

(Slashlisted with AME 5133) Prerequisite: MATH 2433, PHYS 2524, AME 2213, AME 3153 and AME 3173; senior standing or permission of instructor. Basic principles for analysis of transport phenomena in multiphase systems are developed and their application to a wide variety of engineering systems including phase change is presented. The scope is limited to thermodynamics and heat and mass transfer fundamentals in solid-liquid, liquid-vapor and solid-vapor phase change processes with emphasis on condensation, evaporation, sublimation, vapor deposition, boiling, melting and solidification. No student may earn credit for both 4133 and 5133. (Sp)

AME 4143 Nanocomposites 3 Credit Hours

(Slashlisted with 5143) Prerequisite: 3143 or permission from instructor. Nanostructured materials and their interactions with polymer matrices; dispersion of nanoparticles and nanotubes; surface and interfaces; structure and characterization of nanophases; synthesis and processing of structural nanocomposites; characterization of properties of nanocomposites; nanomechanics of elastic moduli; potential applications and design. No student may earn credit for both 4143 and 5143. (Irreg.)

AME 4163 Principles of Engineering Design 3 Credit Hours

Prerequisites: AME 3103, AME 2533, AME 3353. Design process and methodology from concept through analysis, layout and prototyping. Types of design problems, human element in design, computer aid in design, specification development, concept generation, concept evaluation, product generation, function and performance evaluation, prototyping, design for manufacturing, design for assembly, design for life-cycle, sustainability, final product documentation, inclusive intergroup communication, ethics, safety and economics. (F)

AME 4183 Design Theory and Methods 3 Credit Hours

(Slashlisted with AME 5183) Prerequisite: AME 3103 and AME 3723, or permission of instructor. A general understanding of modern design theory and mainstream design methods for support of engineering design. Topics include: game and utility theories, decision-based design, single-objective design optimization, multi-objective design optimization, gradient calculation, multi-disciplinary design optimization, and practical engineering applications. Software tools installed on students' laptops for use in lectures, to work on homework, take tests, and collaborate on class project. No student may earn credit for both 4183 and 5183. (Irreg.)

AME 4193 Introduction to Computer-Aided Design 3 Credit Hours

(Slashlisted with AME 5193) Prerequisite: AME 3103 and MATH 2443/2934, or permission of instructor. A general understanding of computer-aided design and underline theory of commercial CAD systems for support of engineering design. Topics include: e-Design paradigm, geometric modeling, solid modeling (CSG, B-Rep, parametric modeling, direct modeling), assembly modeling, design parametrization, and product data exchange and management. Offered as a laptop course with hands-on lab sessions. No student may earn credit for both 4193 and 5193. (Irreg.)

AME 4213 Biomechanics I 3 Credit Hours

(Slashlisted with AME 5213) Prerequisite: 3143 and 3153 or permission of instructor. Introduction to physiological systems with emphasis on structure and function of tissues and organs; application of continuum mechanics to understanding of tissue and organ behavior at microscopic and macroscopic levels; viscoelastic and solid biomaterials. No student may earn credit for both 4213 and 5213. (F)

AME G4243 Aerospace Propulsion Systems 3 Credit Hours

Prerequisites: AME 2213 and AME 3253. Propulsion systems, review of compressible flow, combustion and thermochemical analysis, gas turbine and jet engines, rocket vehicles, chemical rockets. This course is approved for graduate credit. (F)

AME 4263 Computer Integrated Manufacturing 3 Credit Hours

(Slashlisted with AME 5263) Prerequisites: AME 2303 or permission of instructor. A general understanding of computer-based methods for manufacturing and assembly of mechanical products. The concept and methods for product manufacturing and assembly will be introduced from design viewpoint. No student may earn credit for both 4263 and 5263. (Irreg.)

AME 4273 Aerospace Systems Design I 3 Credit Hours

(Slashlisted with AME 5273) Prerequisites: AME 3103, AME 3253, AME 3333, and AME 3523 or permission of the instructor. Analysis, design, and optimization of an aerospace system. Performance analysis, mission simulation, and multi-disciplinary optimization of flight vehicles using both classical and modern design and analysis methods. No student may earn credit for both 4273 and 5273. Laboratory (F)

AME 4281 Engineering Co-Op Program 1 Credit Hour

(Crosslisted with BME, C S, CEES, CH E, ECE, EPHY and ISE 4281) Prerequisite: Departmental permission and junior standing. May be repeated; maximum credit 6 hours. The Co-Op program provides students an opportunity to enhance their education via career exploration in related professional work experiences. Course assignments help students articulate their experiences by completing journals; mid-term paper; final paper and/or final presentation. Faculty receive an evaluation from the student's Co-Op supervisor who monitors performance. Faculty collaborate with the Co-Op supervisor to ensure student success. (F, Sp, Su)

AME 4283 Concurrent Design and Manufacturing 3 Credit Hours

Prerequisite: 2303, 2533, and 3143. The general concepts and methods in performing concurrent design and manufacturing for product development. Fundamental design theories and methods such as utility theory, state transition matrix method, game theory, and system life-cycle modeling and optimization will be introduced. No student may earn credit for both 4283 and 5283. (F)

- AME 4303 Designing for Open Innovation 3 Credit Hours**
(Slashlisted with AME 5303) Prerequisite: All seniors in engineering, business, and the sciences or permission of the instructor. Open innovation; designing for sustainability; realizing new complex engineered systems; system definition, verification and validation; identifying and managing dilemmas; Blooms Taxonomy; white space competencies, energy systems. No student may earn credit for both 4303 and 5303. (Irreg.)
- AME 4373 Aerospace Systems Design II 3 Credit Hours**
(Slashlisted with AME 5373) Prerequisite: AME 4273 or permission of the instructor. Synthesis course that emulates a team aircraft design program from conceptual design to flight test and mission evaluation. Conceptual design, preliminary analysis, detailed CAD, FEA, and CFD analysis; optimization of aircraft configuration. Advanced design, analysis, and fabrication methods based on a complete flight vehicle, a propulsion system, a structural system, or a control system. Laboratory. No student may earn credit for both 4373 and 5373. (Sp) [V].
- AME G4383 Control Systems 3 Credit Hours**
Prerequisite: 2533, Mathematics 3413 and 3401. Introduction to the concepts and theory of feedback control systems. Representation of electromechanical systems and aerospace vehicles by transfer and state variable methods. Stability and performance analysis, design techniques and synthesis methods for linear control systems. (F)
- AME 4393 Renewable Energy Systems and Control 3 Credit Hours**
(Slashlisted with AME 5393) Prerequisite: Senior Standing; MATH 2934 or MATH 2443; AME 2402 or CS 1313; AME 3723 or equivalent; MATH 3333 and AME 4383 or ECE G441 are preferred but not required. This course introduces students to the fundamentals of data science methods for the design and operation of energy systems. The course is oriented towards students pursuing a technical career in cleantech, or a graduate study in the energy sciences and engineering. Course contents include: mathematical modeling & analysis, state estimation, optimization, machine learning, and optimal control. No student may earn credit for both 4393 and 5393. (Sp)
- AME G4442 Internal Combustion Engines Laboratory 2 Credit Hours**
Prerequisite: 3122 or graduate standing. Test equipment and instrumentation, propulsion systems, reciprocating engines, supercharger fuel systems, tests and evaluation. Lecture and Laboratory (Sp)
- AME 4493 Space Sciences and Astrodynamics 3 Credit Hours**
(Slashlisted with AME 5493) Prerequisites: PHYS 2524, MATH 2443 or 2934. Selected topics in astrophysics which may include astrodynamics, stellar structure and evolution, stellar pulsation, supernovae black holes, interstellar medium, galactic structure and clusters and superclusters, active galaxies, quasars, and cosmology. No student may earn credit for both 4493 and 5493. (F)
- AME 4503 Nonlinear Dynamical Systems and Control 3 Credit Hours**
(Slashlisted with AME 5503) Prerequisite: AME 4383 or Instructor's permission. Students will learn to analyze and control nonlinear dynamical systems and apply that knowledge to real engineering problems. No student may earn credit for both 4503 and 5503. (Sp)
- AME 4513 Flight Controls 3 Credit Hours**
(Slashlisted with AME 5513) Prerequisites: AME 3333 and AME 4383. Classical and modern control theory with applications to aircraft flight control system design. No student may earn credit for both 4513 and 5513. (F)
- AME 4553 Design Practicum 3 Credit Hours**
Prerequisite: senior standing, 3363 and 4163. Design study of actual problems in industry. Lecture and Laboratory (Sp) [V].
- AME 4593 Space Systems and Mission Design 3 Credit Hours**
(Slashlisted with 5593) Prerequisite: 4493 or permission from instructor. Topics include basic orbital mechanics, orbit determination, perturbations, numerical techniques, interplanetary transfer, influence of space environment, atmospheric re-entry. Space vehicles subsystems design; propulsion, attitude determination and control, structural design, thermal control, power and telecommunications. Investigation into mission design concepts and consideration. No student may earn credit for both 4593 and 5593. (Sp)
- AME G4653 Air Conditioning Systems 3 Credit Hours**
Prerequisite: 3173. Theory and design of systems for controlling properties such as temperature, humidity, air purity, air distribution and noise in enclosures. (Sp)
- AME 4802 Robotics Laboratory 2 Credit Hours**
Prerequisite: AME major only (A010 or B010); AME 3112, C S 1313 or equivalent. Hands-on studies of robot systems with emphasis on semi-autonomous mobile robots. Mechanical, electrical and computational features of robots will be investigated. Lecture and Laboratory (F)
- AME G4822 Fluid and Thermal Laboratory 2 Credit Hours**
Prerequisite: 3173; 3122 or equivalent or graduate standing. May be repeated with change of content; maximum credit six hours. Experimental studies in heat transfer or fluid mechanics. Lecture and Laboratory (F)
- AME G4832 Micro and Nanomaterials Lab 2 Credit Hours**
Prerequisites: AME 3112, AME 3143 or equivalent or graduate standing. Introduction of experimental analysis and characterization techniques of different types of advanced materials to include polymeric micro composite materials and nanocomposites. Topics include fabrication methods. Determination of mechanical properties, microstructural analysis, nondestructive determination of properties of isotropic and anisotropic solids and microscopy techniques. Laboratory. (Irreg.)
- AME 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- AME 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- AME 4971 Seminar 1 Credit Hour**
(Slashlisted with 5971) Prerequisite: senior standing. May be repeated without limit; maximum credit one hour for a B.S. degree. Recent developments in selected subjects in aerospace and mechanical engineering presented by invited experts from on and off campus. No student may earn credit for both 4971 and 5971. (F, Sp)
- AME 4980 Undergraduate Research Studies 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Work with various faculty members on individual research projects. The nature of the research and the hours credit varies. (F, Sp, Su)

- AME 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- AME 5003 Introduction to Structural Health Monitoring 3 Credit Hours**
(Slashlisted with AME 4003) Prerequisite: Graduate standing, AME 3112, AME 3143, and AME 3353. Comprehensive instruction of structural dynamics, signal processing, passive and active sensing, feature extraction, statistical pattern recognition, nondestructive evaluation methods. No student may earn credit for both 4003 and 5003. (F)
- AME 5013 Introduction to Medical Device Design 3 Credit Hours**
(Slashlisted with AME 4013; Crosslisted with BME 5013) Prerequisite: Graduate standing or permission of instructor. Introduction to medical device design with emphasis on the entire procedure of developing a medical device, from identifying the unmet medical need to product launching. Topics include marketing and technology survey, concept development, the biocompatible material, device prototype, bench test, in vitro/in vivo test, clinical trial, and FDA regulation. No student may earn credit for both 4013 and 5013. (Sp)
- AME 5023 Elastic Stress Analysis 3 Credit Hours**
Prerequisite: 3143 and Mathematics 3113; or permission. Theory of stress for continuous media, large displacement strain theory, stress-strain relations for elastic media, plane elasticity, application of theory to modern engineering problems. (F)
- AME 5043 Analysis of Heat Pumping Systems 3 Credit Hours**
(Slashlisted with AME 4043) Prerequisite: Graduate standing or permission of instructor. A systematic introduction of thermodynamic analysis methods for heat pumping systems, including vapor-compression, absorption, and other common heat pumping technologies. A specific focus is on the applications to air-conditioning, heat pump, and refrigeration equipment. No student may earn credit for both 4043 and 5043. (F)
- AME 5063 Composite Materials 3 Credit Hours**
Prerequisite: 3143 or permission. Nature and scope of composite materials; stress-strain relations and strength of a single layer of a laminated composite; laminated composite-material beams, plates and cylindrical shells; micromechanics and characterization of stiffness, fracture and transport properties; applications and optimal design. (Irreg.)
- AME 5093 Applied Biomechanics - Ear Mechanics 3 Credit Hours**
(Slashlisted with AME 4093; Crosslisted with BME 5093) Prerequisite: Graduate standing. The course curriculum starts with a review of some basic solid mechanics and fluid mechanics. Then the course will review the applications of mechanics in different biosystems or organs. Finally, this course will cover how to apply mechanics on ear tissue mechanical measurements, ear modeling and ear implant design. No student may earn credit for both 4093 and 5093. (F)
- AME 5133 Heat Transfer in Multiphase Systems 3 Credit Hours**
(Slashlisted with AME 4133) Prerequisite: MATH 2433, PHYS 2524, AME 2213, AME 3153 and AME 3173; graduate standing or permission of instructor. Basic principles for analysis of transport phenomena in multiphase systems are developed and their applications to a wide variety of engineering systems including phase change are presented. The scope is limited to thermodynamics and heat and mass transfer fundamentals in solid-liquid, liquid-vapor and solid-vapor phase change processes with emphasis on condensation, evaporation, sublimation, vapor deposition, boiling, melting and solidification. No student may earn credit for both 4133 and 5133. (Sp)
- AME 5143 Nanocomposites 3 Credit Hours**
(Slashlisted with 4143) Prerequisite: 3143, graduate standing or permission of instructor. Nanostructured materials and their interactions with polymer matrices; dispersion of nanoparticles and nanotubes; surface and interfaces; structure and characterization of nanophases; synthesis and processing of structural nanocomposites; characterization of properties of nanocomposites; nanomechanics of elastic moduli; potential applications and design. No student may earn credit for both 4143 and 5143. (Irreg)
- AME 5183 Design Theory and Methods 3 Credit Hours**
(Slashlisted with AME 4183) Prerequisite: Graduate standing or permission of instructor. A general understanding of modern design theory and mainstream design methods for support of engineering design. Topics include game and utility theories, decision-based design, single-objective design optimization, multi-objective design optimization, gradient calculation, multi-disciplinary design optimization, and practical engineering applications. Software tools installed on students' laptops for use in lectures, to work on homework, take tests, and collaborate on class project. No student may earn credit for both 4183 and 5183. (Irreg.)
- AME 5193 Introduction to Computer-Aided Design 3 Credit Hours**
(Slashlisted with AME 4193) Prerequisite: Graduate standing or permission of instructor. A general understanding of computer-aided design and underline theory of commercial CAD systems for support of engineering design. Topics include: e-Design paradigm, geometric modeling, solid modeling (CSG, B-Rep, parametric modeling, direct modeling), assembly modeling, and design parametrization. Offered as a laptop course with hands-on lab sessions. No student may earn credit for both 4193 and 5193. (Irreg.)
- AME 5213 Biomechanics I 3 Credit Hours**
(Slashlisted with 4213; Crosslisted with BME 5213) Prerequisite: AME 3143 and AME 3153 or permission of instructor. Introduction to physiological systems with emphasis on structure and function of tissues and organs; application of continuum mechanics to understanding of tissue and organ behavior at microscopic and macroscopic levels; viscoelastic and solid biomaterials. No student may earn credit for both 4213 and 5213. (F)
- AME 5263 Computer Integrated Manufacturing 3 Credit Hours**
(Slashlisted with AME 4263) Prerequisite: graduate standing in engineering or permission of instructor. A general understanding of computer-based methods for manufacturing and assembly of mechanical products. The concept and methods for product manufacturing and assembly will be introduced from design viewpoint. No student may earn credit for both 4263 and 5263. (Irreg.)
- AME 5273 Aerospace Systems Design I 3 Credit Hours**
(Slashlisted with AME 4273) Prerequisites: AME 3103, 3253, 3333, 3523 or permission of the instructor. Analysis, design, and optimization of an aerospace system. Performance analysis, mission simulation, and multidisciplinary optimization of flight vehicles using both classical and modern design and analysis methods. No student may earn credit for both 4273 and 5273. Laboratory (F)
- AME 5283 Concurrent Design and Manufacturing 3 Credit Hours**
Prerequisite: graduate standing in engineering. The general concepts and methods in performing concurrent design and manufacturing for product development. Fundamental design theories and methods such as utility theory, state transition matrix method, game theory, and system life-cycle modeling and optimization will be introduced. No student may earn credit for both 4283 and 5283. (F)

- AME 5303 Designing for Open Innovation 3 Credit Hours**
(Slashlisted with AME 4303) Prerequisite: Graduate standing in engineering, business, natural sciences, or permission of instructor. Open innovation; designing for sustainability; realizing new complex engineered systems; system definition, verification and validation; identifying and managing dilemmas; Blooms Taxonomy; white space competencies, energy systems. No student may earn credit for both 4303 and 5303. (Irreg.)
- AME 5333 Thermodynamics and Combustion 3 Credit Hours**
Prerequisite: Graduate standing and AME 2213, or permission of instructor. Thermodynamics of non-reacting and reacting mixtures, chemical equilibrium, flame temperature, transport processes in combustion, chemical kinetics, fuels and their combustion properties, premixed and diffusion flames, deflagrations and detonations, practical combustion systems, and pollutant emissions. (Sp)
- AME 5373 Aerospace Systems Design II 3 Credit Hours**
(Slashlisted with AME 4373) Prerequisite: AME 4273 or permission of the instructor. Synthesis course that emulates a team aircraft design program from conceptual design to flight test and mission evaluation. Conceptual design, preliminary analysis, detailed CAD, FEA, and CFD analysis; optimization of aircraft configuration. Advanced design, analysis, and fabrication methods based on a complete flight vehicle, a propulsion system, a structural system, or a control system. No student may earn credit for both 4373 and 5373. Laboratory. (Sp)
- AME 5393 Renewable Energy Systems and Control 3 Credit Hours**
(Slashlisted with AME 4393) Prerequisite: Graduate Standing; MATH 2934 or MATH 2443; AME 2402 or CS 1313; AME 3723 or equivalent; MATH 3333 and AME 4383 or ECE G441 are preferred but not required. This course introduces students to the fundamentals of data science methods for the design and operation of energy systems. The course is oriented towards students pursuing a technical career in cleantech or graduate study in the energy sciences and engineering. Course contents include mathematical modeling & analysis, state estimation, optimization, machine learning, and optimal control. No student may earn credit for both 4393 and 5393. (Sp)
- AME 5493 Space Sciences and Astrodynamics 3 Credit Hours**
(Slashlisted with AME 4493) Prerequisite: PHYS 2524, MATH 2443 or MATH 2934. Selected topics in astrophysics, the solar system; basic orbital mechanics, orbit determination and maneuvers, perturbations, numerical techniques, rendezvous and proximity operations, the N-body problem and approximations, interplanetary transfers. Design considerations. No student may earn credit for both 4493 and 5493. (F)
- AME 5503 Nonlinear Dynamical Systems and Control 3 Credit Hours**
(Slashlisted with AME 4503) Prerequisite: Graduate standing. Students will learn to analyze and control nonlinear dynamical systems and apply that knowledge to real engineering problems. No student may earn credit for both 4503 and 5503. (Sp)
- AME 5513 Flight Controls 3 Credit Hours**
(Slashlisted with AME 4513) Prerequisites: permission of instructor. Classical and modern control theory with applications to aircraft flight control system design. No student may earn credit for both 4513 and 5513. (F)
- AME 5573 Advanced Engineering Analysis I 3 Credit Hours**
Prerequisite: Mathematics 3413 or equivalent. Vector and tensor analysis. Calculus of variations followed by variational methods and/or the method of weighted residuals. (Irreg.)
- AME 5583 Advanced Engineering Analysis II 3 Credit Hours**
Prerequisite: 5573 or permission. Selected topics in Advanced Engineering Analysis, such as lie theory for ordinary differential equations; eigenvalue problems and spectral analysis; transform methods; solution methods for partial differential equations. (Irreg.)
- AME 5593 Space Systems And Mission Design 3 Credit Hours**
(Slashlisted with 4593) Prerequisite: 4493 or permission from instructor. Topics include basic orbital mechanics, orbit determination, perturbations, numerical techniques, interplanetary transfer, influence of space environment, atmospheric re-entry. Space vehicles subsystems design; propulsion, attitude determination and control, structural design, thermal control, power and telecommunications. Investigation into mission design concepts and consideration. No student may earn credit for both 4593 and 5593. (Sp)
- AME 5710 Topics in Solid Mechanics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit nine hours for master's degree or twelve hours for a doctoral degree. Selected topics in continuum mechanics, such as theory of continuum mechanics, finite element methods, fatigue analysis and fracture mechanics.
- AME 5720 Topics in Fluid Mechanics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 5903 or permission of instructor. May be repeated with change of content; maximum credit nine hours for master's or 12 hours for a doctoral degree program. Concentration in a particular field of specialization in fluid mechanics, such as: rotating flows; hypersonic flow theory; advanced aerodynamics; advanced stability theory; plasma and laser dynamics. (Irreg.)
- AME 5740 Topics in Design 1-3 Credit Hours**
Prerequisite: permission of instructor. May be repeated with change of content; maximum credit nine hours for master's or 12 hours for doctoral degree program. Selected topics in conceptual, preliminary and final design; CAD and optimization applications.
- AME 5763 Introduction to the Finite Element Method 3 Credit Hours**
(Crosslisted with CEES 5763) Prerequisite: graduate standing. Weighted residual and variational approaches. Finite element formulation for rod, truss and beam elements; plane stress and plane strain problem; axisymmetric and three-dimensional analysis; isoparametric elements; conforming and nonconforming plate and shell elements. (Sp)
- AME 5803 Principles of Heat Transfer 3 Credit Hours**
Prerequisite: 3173 or permission. Steady and transient heat conduction in multi-dimensional systems, convective heat transfer for external flows, convective heat transfer for internal flows, radiant heat transfer in lumped systems, integral equations of thermal radiation, and combined mode heat transfer. (F)
- AME 5890 Guided Individual Studies 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing and permission. May be repeated; maximum credit nine hours. May be subject to restricted applicability for specific degree requirements. Guided study of selected topics not offered in regularly scheduled classes. Arrangements and work requirements established by prior agreement of instructor and student(s). Students should expect to spend at least sixty hours of reading and study for each credit hour. (F, Sp, Su)
- AME 5903 Fundamental Fluid Dynamics 3 Credit Hours**
Prerequisite: 3153, 5573 or concurrent enrollment, or permission. Basic laws of fluid motion; Navier-Stokes equations, kinematics of the flow field, vorticity and circulation, basic theorems for inviscid, incompressible flows, potential-flow application, exact solutions. (F)

AME 5913 Viscous Fluid Dynamics 3 Credit Hours

Prerequisite: 5903 or permission. Fundamental exact solutions of viscous flow; Stokes' flow, boundary-layer flow, drag and resistance to motion, elements of heat transfer, effects of compressibility, thin shear layers, jets and wakes, elements of turbulence. (Sp)

AME 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

AME 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

AME 5971 Seminar 1 Credit Hour

(Slashlisted with 4971) Prerequisite: graduate standing. May be repeated without limit; maximum credit two hours for master's degree or four hours for a doctoral degree. Recent developments in selected subjects in aerospace and mechanical engineering presented by invited experts from on and off campus. No student may earn credit for both 4971 and 5971. (F, Sp)

AME 5980 Research for Master's Thesis 2-9 Credit Hours

Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

AME 5983 Computational Fluid Dynamics 3 Credit Hours

Prerequisite: 5573, 5903, 5973, or permission of instructor. Methods for the numerical solution of the Euler, boundary-layer, Navier-Stokes and parabolized Navier-Stokes equations. (Irreg.)

AME 5990 Special Projects 1-9 Credit Hours

1 to 9 hours. Prerequisite: graduate standing and permission of instructor. May be repeated but total credit applicable to any degree may be limited. Individual or group R & D projects involving original laboratory, analytical or theoretical investigations and syntheses. Specific objectives and work requirements established by prior agreement of the instructor and student. Students should expect to spend at least 60 hours for each credit hour and to submit appropriate reports or papers. (F, Sp, Su)

AME 6033 Fracture Mechanics 3 Credit Hours

Prerequisite: 5023 or equivalent. Elastic crack-tip stress field, crack-tip plastic zone, energy principle, plane strain fracture toughness, crack opening displacement criterion, fatigue crack propagation and applications. (Irreg.)

AME 6663 Advanced Finite Element Methods 3 Credit Hours

(Crosslisted with CEES 6663) Prerequisite: 5763. Selected topics such as: nonlinear material problems, plasticity, creep (visco-plasticity), fracture, etc.; geometrically nonlinear problems; large displacements and structural stability; dynamic problems and analytical solution procedures; soil-structure interactions, application of the finite element method to fluid and heat transfer problem. (Irreg.)

AME 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

AME 6970 Advanced Topics In Aerospace And/OR Mechanical Engineering 1-3 Credit Hours

Prerequisite: permission of instructor. May be repeated with change of content; maximum credit nine hours for a master's and twelve hours for doctoral degree program. Selected advanced topics in all aspects of aerospace and/or mechanical engineering.

AME 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

AME 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

AMGT-Arts Management

AMGT 2013 Marketing in the Arts 3 Credit Hours

Any entrepreneurial or organizational role in the professional arts industry calls for an understanding of negotiation (advocating for an outcome with multiple parties) and marketing (advocating for one's mission, service, or product). This course explores the basics of negotiations and marketing. There is a particular emphasis on social media and engagement. (Irreg.)

AMGT 3013 Fundraising for the Arts 3 Credit Hours

Prerequisite: Junior standing. An exploration of approaches to the development of capital for projects, whether for artists to arts organizations, including techniques for the facilitation of individual donations, corporate and foundation contributions, and government grants. Students will learn important frameworks and tools for organizing a number of possible avenues of financial support, including workback and follow-up schedules. (Irreg.)

AMGT 3023 Entrepreneurial Mindset in the Arts 3 Credit Hours

Prerequisite: AMGT 2013 and AMGT 3013. This course is designed for students who are intent on developing artistic sustainability, entrepreneurial success, and creative/social change. A career in tomorrow's art industry benefits from a mindset that welcomes change, fast-paced decision-making, and a rock-solid foundation of values, work ethic, and reasoning. This hands-on course is delivered through exercises and mini-projects dealing with ideation, action, marketing, pitching, and strategy. (Irreg.)

AMGT 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

AMGT 4030 Internship I in the Arts 1-3 Credit Hours

1 to 3 hours. (Slashlisted with AMGT 5030) Prerequisite: Junior standing or permission of the instructor; May be repeated; Maximum credit: six hours. Students arrange for and work in a focused professional work experience. No student may earn credit for both 4030 and 5030. (Irreg.)

- AMGT 4173 Artist Management 3 Credit Hours**
(Slashlisted with AMGT 5173) Prerequisite: Junior standing. This course explores the role, importance, and function of artist managers and artistic teams. How they impact the career of the artist and their brand. Students will examine the principles of leadership dynamics and motivation to focus and empower current and potential managers. This course provides the tools necessary to manage artists' careers across various artistic disciplines. No student may earn credit for both 4173 and 5173. (Sp)
- AMGT 4213 Arts Incubation Lab 3 Credit Hours**
(Slashlisted with 5213) Prerequisite: Student must be declared as a Arts Management and Entrepreneurship minor; AMGT 3023; permission of instructor. This course is based on experiential learning and runs concurrently with an external competitive program for entrepreneurial projects in the professional arts marketplace. Students in this course will have the opportunity to build on the basics of entrepreneurship and management skills acquired within the courses of the undergraduate minor in Arts Management and Entrepreneurship. No student may earn credit for both 4213 and 5213. (Su)
- AMGT 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- AMGT 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- AMGT 5013 Overview of Arts Management and Entrepreneurship 3 Credit Hours**
Prerequisite: graduate standing. This class will present an overview and historical perspective of the field of arts entrepreneurship and management. Readings will be supplemented by guest speakers and visits to professional organizations, enhancing the student's understanding of the diversity of the professional opportunities in arts administration and arts management. (Irreg.)
- AMGT 5030 Internship I in The Arts 1-3 Credit Hours**
1 to 3 hours. (Slashlisted with AMGT 4030) Prerequisite: Graduate standing, AMGT 5013, and permission of instructor; may be repeated, maximum 6 credits. Students arrange for and work in a focused professional work experience. No student may earn credit for both 4030 and 5030. (Irreg.)
- AMGT 5033 Entrepreneurial Mindset in the Arts 3 Credit Hours**
Prerequisite: Graduate standing, AMGT 5013 or concurrent enrollment, and departmental permission. This course is designed for students who are intent on developing artistic sustainability, entrepreneurial success, and creative/social change. A career in tomorrow's art industry benefits from a mindset that welcomes change, fast-paced decision-making, and a rock-solid foundation of values, work ethic, and reasoning. This course is delivered through various arts-focused exercises/projects dealing with ideation, action, marketing, pitching, plans and strategy. (F, Sp)
- AMGT 5173 Artist Management 3 Credit Hours**
(Slashlisted with AMGT 4173) Prerequisite: Graduate standing, AMGT 5013, and permission of instructor. This course explores the role and importance and function of artist managers and artistic teams, and how they impact the career of the artist and their brand. Students will examine the principles of leadership dynamics and motivation to focus and empower current and potential managers. This course provides the tools necessary to manage artists' careers across various artistic disciplines. No student may earn credit for both 4173 and 5173. (Sp)
- AMGT 5213 Arts Incubation Lab 3 Credit Hours**
(Slashlisted with AMGT 4213) Prerequisite: Graduate standing, AMGT 5013, and permission of instructor. This course is based on experiential learning and runs concurrently with an external competitive program for entrepreneurial projects in the professional arts marketplace. Students in this course will have the opportunity to build on the basics of entrepreneurship and management skills acquired within the courses of the Graduate Certificate in Arts Management and Entrepreneurship. No student may earn credit for both 4213 and 5213.
- AMGT 5223 Marketing in the Arts 3 Credit Hours**
Prerequisite: Graduate standing, AMGT 5013 or concurrent enrollment, and departmental permission. This course will examine the challenges of audience development and discussion of the role of art in contemporary society. This course will explore the basics of negotiations (distributive and integrative bargaining) before delving into current examples in the arts industry and explores the basics of marketing (planning, implementation, analysis) as well as how these principles relate to social media. (F, Sp)
- AMGT 5233 Financial Management and Budgeting in the Arts 3 Credit Hours**
Prerequisite: Graduate standing, AMGT 5013 or concurrent enrollment, and departmental permission. This class will examine financial models, accounting, and contractual practices of successful cultural-based organizations. Arts managers are expected to understand how to apply best financial management and budgeting practices to cultural organizations. This course provides an overview of best practices to budgeting for artistic ideas for entrepreneurs and will explore long-range planning implications and budget forecasting models for arts organizations. (F, Sp)
- AMGT 5243 Leadership and Strategic Thinking in the Arts 3 Credit Hours**
Prerequisite: Graduate standing, AMGT 5013 or concurrent enrollment, and departmental permission. This course is for students who are intent on developing sustainability and use design-thinking strategies to achieve their goals as entrepreneurial artists or by serving culture-based organizations. The course provides best strategic practices for leaders of arts organizations, encouraging students to determine the importance of planning and decision-making, and will address the importance of strategic thinking, change management, and leadership. (F, Sp)
- AMGT 5263 Fundraising and Development in the Arts 3 Credit Hours**
Prerequisite: Graduate standing, AMGT 5013 or concurrent enrollment, and departmental permission. This course explores approaches to the development of capital for projects, whether for artists or arts organizations, including techniques for facilitation of individual donations, corporate/foundation contributions, and government grants. Students will learn important frameworks and tools for organizing avenues of financial support, including workback and follow-up schedules, drafting appeal letters, managing deadlines, cultivating requests, and writing with key governing values. (F, Sp, Su)

AMGT 5273 Innovative Approaches to Museum Leadership 3 Credit Hours

Prerequisite: Graduate standing and Arts Management majors only. This course prepares students to lead effectively in the constantly evolving museum landscape. It cultivates the field knowledge, professional skills, and innovative mindset necessary to practice leadership at all organizational levels. Students will be introduced to the organizational structures, policies, and practices of museum governance, including topics such as museum mission, strategy, and administration. (Sp)

AMGT 5283 The Global Arts Market 3 Credit Hours

Prerequisite: Graduate standing and Arts Management majors only. This course offers an in-depth exploration of the art business world. It equips students with practical understanding of the various aspects of the art industry, including galleries, auction houses, art fairs, foundations, museums, and artist collectives. Through the analysis of case studies and real-world examples, students will learn about the economic, legal, and ethical considerations underpinning the art market. (F)

AMGT 5853 Theatre Management 3 Credit Hours

Prerequisite: Graduate standing, AMGT 5013 or concurrent enrollment, and majors only or permission of Program Director. This course focuses on the study of the fundamental operations of commercial, professional non-profit, stock, dinner, and university theatre in the United States. Reserved for students in the OU Online MA in Arts Management. (F, Sp)

AMGT 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review on selected topics under the direction of a faculty member. (Irreg.)

AMGT 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

AMGT 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

ANTH-Anthropology

ANTH 1104 YES Oklahoma - A Primer for Cancer Research 4 Credit Hours

Prerequisite: Enrollment in OU's YES Oklahoma summer STEM program (instructor permission and concurrent high school student). Understanding cancer research and its societal and cultural contexts is vital for all. The course has a nature, life and social science perspective, yet the assignments are heavily social science methods. (Su) [III-SS].

ANTH 1113 What Makes Us Human? Exploring Cultural and Biological Diversity 3 Credit Hours

An introduction to the anthropological way of thinking about culture, language, social organization, religion, gender, prehistory, the rise of civilization, evolution and fossil hominins. Anthropological perspectives on the roles culture and biology play in influencing modern and ancient diversity of human behavior will be explored. (F, Sp, Su) [III-SS].

ANTH 1124 YES Oklahoma: Cancer Research Training 4 Credit Hours

Prerequisite: Enrollment in OU's YES Oklahoma summer STEM program (instructor permission and concurrent high school student). This is the natural science course for the concurrently enrolled students of YES Oklahoma; the focus is scientific methodology and an introduction to a body of foundational and factual knowledge about cancer. Included is an introduction to genomics, human variation and cancer biology, laboratory research experiences and professionalization. (Su) [II-NSL].

ANTH 1203 Language Across Cultures 3 Credit Hours

(Crosslisted with LING 1203) Theories of language family origins and their relationship to human migration; types of human languages; linguistic concept of genetic relatedness; writing systems development; non-Western sociolinguistic and usage phenomena; cultural and scientific importance of endangered languages; how languages become endangered; factors involved in preservation. This course may not count for major credit. (Sp) [IV-WDC].

ANTH 1253 Folklore and Folklife 3 Credit Hours

Introduces the academic study of folklore and folklife by introducing four key concepts: Tradition, community, art and performance. Verbal folklore, material culture, performance genres and customary knowledge will be examined. Issues of cultural diversity and historical change will be addressed. Special emphasis will be placed on exploring traditional cultures in the United States and Europe. (F) [IV-AF].

ANTH 1413 Great Discoveries in Archaeology 3 Credit Hours

Introduces students to the accomplishments of ancient civilizations around the world. A brief overview of archaeological methods and research and of the precursors of civilizations. Concentrates on major civilizations of the world including Mesopotamia, Europe, Egypt, sub-Saharan Africa, India, China, Southeast Asia, Mesoamerica, South America, and the North American Midwest. (F) [IV-WDC].

ANTH 1823 Religion in Everyday Life 3 Credit Hours

This course focuses on the variety of religious phenomena found throughout the world and the theoretical approaches anthropologists use to account for them. Using ethnographic studies of belief in practice, we will seek to understand the role that religions play in the human experience. (F, Sp) [IV-WDC].

ANTH 1913 Plagues and People: Health and Disease in Human Society 3 Credit Hours

The study of the impact of diseases such as malaria, bubonic plague, and AIDS on human society, from their effects on populations to how they have influenced the course of history. Identification of social and cultural factors, conditions that influence and impede the spread of contagious diseases, ethical issues concerning the treatment of the sick, and policies designed to halt epidemics will be examined. The contemporary threat of biological weapons and the impact on local and national public health efforts in the U.S. will be discussed. (Irreg.) [III-SS].

ANTH 2203 Global Cultural Diversity 3 Credit Hours

A survey of global cultures, introducing students to the diversity of human organization, behavior, and worldviews, including modes of livelihood, political organization, religious practices, gender systems, kinship structures, social inequality, and the effects of globalization. (F, Sp, Su) [IV-WDC].

- ANTH 2253 Human and Animal Interaction Across Cultures 3 Credit Hours**
Students will examine the varied ways we think, feel, and interact with animals across cultures, and moral quandaries/contradictions around animal treatment. Emphases include animals' roles; humans' ideas, attitudes, and emotions toward animals; and how these impact our behavior toward them. Our ultimate goal is to broaden notions of human-animal interaction and awaken curiosity about these frequently take-for-granted cross-species relationships. (Irreg.) [IV-WDC].
- ANTH 2303 General Linguistics 3 Credit Hours**
(Crosslisted with LING 2303) Humanistic and formal study of natural languages: how they are similar to and different from one another in their use of speech sounds, logical structures and mechanisms that integrate events, objects and speakers in spatio-temporal contexts. The relationship between language and culture; language acquisition and language change. (F, Su) [I-O].
- ANTH 2613 Native Peoples of North America 3 Credit Hours**
An introduction to the native societies and cultures north of Mexico from pre-Columbian times to the present. (Sp, Su) [IV-WDC].
- ANTH 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- ANTH 3011 Anthropology Cornerstone I: Introduction to the Major 1 Credit Hour**
Prerequisite: Anthropology major or minor. Recommended for students in their first year of the major. This provides an introduction to the Anthropology Major. Topics include: Introduction to the subfields of anthropology, introduction to the department, information on enhancement and hands-on research opportunities (field schools, internships, labwork, study abroad), and ethics. Emphasis on the opportunities within the department and on guiding students to relevant resources. (Sp)
- ANTH 3021 Anthropology Cornerstone II: Research and Writing 1 Credit Hour**
Prerequisite: Sophomore standing, enrollment in at least one ANTH upper-division elective, and the student is an Anthropology major or minor. Recommended when students start taking upper division Anthropology electives. This course provides a foundation in anthropological research and writing in order to develop student abilities as persuasive academic writers. Topics include: research literacy, crafting a written argument, citation and peer review, and critical analysis of published research. Emphasis is placed on developing students as advanced-level undergraduate researchers and persuasive writers. (Sp)
- ANTH 3031 Anthropology Cornerstone III: Professionalization 1 Credit Hour**
Prerequisite: Anthropology major or minor, and Senior standing, or Department Permission. Recommended for graduating seniors, OR juniors who are applying to postgraduate school in the next year (get Departmental permission to enroll). This course provides students with information about professionalizing their anthropology degree. Topics include: long-term goal setting, cultivating professional networks and faculty references, information about graduate school and non-academic employment, and generalized professional skills such as interviewing and public speaking. (F)
- ANTH 3063 Language and Culture 3 Credit Hours**
Prerequisite: sophomore standing. The relationships between language and the rest of culture, with emphasis on diachronic as well as synchronic problems. Such crucial issues as the limitation of language on thought and perception and language and conceptualization are also considered. (F, Sp) [IV-WDC].
- ANTH 3113 Principles of Archaeology 3 Credit Hours**
Prerequisite: sophomore standing or 3 credit hours in ANTH or concurrent enrollment in 3 credit hours of ANTH or permission of the instructor. To acquaint the beginning student with the discipline of archaeology as it is now practiced within the science of anthropology. No student may earn credit for both ANTH 2113 and ANTH 3113. (F, Sp) [III-SS].
- ANTH 3203 Introduction to Biological Anthropology 3 Credit Hours**
Prerequisite: Sophomore standing or 3 credit hours in ANTH or concurrent enrollment in 3 credit hours of ANTH or permission of the instructor. Examines human biology within an evolutionary context. Course content includes a history of evolutionary thought from before Darwin to present; basic genetics; primate biology and behavior; human evolution and the fossil record; human biological variation; and human adaptation. No student may earn credit for both ANTH 2503 and ANTH 3203. (F, Sp)
- ANTH 3243 Anthropological Approaches to Health, Illness and Healing 3 Credit Hours**
Prerequisite: Sophomore standing. An examination of illness, health, and healing processes in cross-cultural perspective within the framework of medical anthropology. Drawing on global examples, the course considers topics such as the body, biotechnologies, illness experience, health disparities, and the intersection of gender and health. (Irreg.) [IV-WDC].
- ANTH 3423 Anthropology of Religion 3 Credit Hours**
Prerequisite: Junior standing or 3 hours of ANTH. A consideration of the nature and role of religion in small-scale societies. Emphasis will be given to the relationship of the various anthropological approaches to religion with the intellectual history of anthropology as a discipline. (Irreg.) [IV-WDC].
- ANTH 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- ANTH 3453 Contemporary Native American Issues 3 Credit Hours**
Prerequisite: English 1213/Expo 1213 or junior standing. A survey of the social, political and economic issues of modern Native American groups. The relationship between native tribal cultures and American economic and government interests will be examined. (Irreg.) [IV-WDC].
- ANTH 3613 Community Archaeology 3 Credit Hours**
Prerequisite: Junior standing or permission of the instructor. Community Archaeology is an approach that partners archaeologists with members of communities impacted by their work, including but not limited to members of descendant and local communities. Students will learn to conduct "community-based participatory research" (CBPR) and will partner with a community of their choice to conduct original CBPR that benefits their partner. Service-learning credit is available. (Irreg.)

- ANTH 3783 The Anthropology of Slavery and Captivity 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. Examines slavery from the anthropological and historical perspectives and specifically seeks to expand students' understanding of the experiences of slaves in Africa, North America, and in South Asia. The origins of slavery, how slavery in Africa and the Americas existed before and after colonization by Europeans, and issues of race, power, and resistance will be explored. (F, Sp) [IV-WDC].
- ANTH 3810 Internship in Linguistic Anthropology 1-6 Credit Hours**
Prerequisite: 1113, 2303 and six additional credit hours in Anthropology. May be repeated. Maximum credit six hours. Designed to provide training in linguistic anthropology. Internships are arranged on an individual basis with professional linguistic anthropologists or with professionals working in a setting in which cultural linguistic research can be performed. Students must meet criteria for acceptable performance and submit a final paper. (F, Sp, Su)
- ANTH 3833 Language and Power 3 Credit Hours**
Prerequisite: Junior Standing. Students examine the intersection of language and power from a broadly sociolinguistic perspective. There are many false beliefs about the nature of language. This course uses the tools of linguistic science to interrogate those beliefs in order to better understand language in society, uncover the origins of popular (mis)conceptions about language variation, and nurture an appreciation for global linguistic diversity. (Irreg.) [III-SS].
- ANTH 3853 Music, Language and Culture 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Explores the recent wave of literature on the common roots of language and music, covering everything from their foundations in social interaction to their biological expression and development in evolutionary terms. (Irreg.) [IV-WDC].
- ANTH 3873 Primate Evolution and Behavior 3 Credit Hours**
Prerequisite: ANTH 3203 or junior standing or permission of instructor. Course looks at primates, our closest living relatives, with particular emphasis on the evolution and ecology of primate behavior, and uses evolutionary theory as the underlying theoretical perspective. (Irreg.) [II-NS].
- ANTH 3893 Maya, Aztec and Inca: High Civilizations of Ancient America 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. An archaeological and ethnological study of the pre-Spanish cultures of Mesoamerica and the Central Andes giving primary emphasis to the Maya of Yucatan, the Aztec of Mexico and the Inca of Peru. (F, Sp) [IV-WDC].
- ANTH 3910 Internship in Biological Anthropology 6 Credit Hours**
Prerequisite: ANTH 3203 and six additional credit hours in anthropology. May be repeated; maximum credit six hours. Designed to provide field and/or laboratory training in biological anthropology. Internships are arranged on an individual basis with professional biological anthropologists. Students must meet criteria for acceptable performance and submit a final paper. (Sp, Su)
- ANTH 3920 Internship in Museum Anthropology 1-6 Credit Hours**
Prerequisite: junior standing or 6 hours of ANTH. May be repeated; maximum credit six hours. Designed to provide hands-on training in anthropological museum work. Internships are arranged on an individual basis with professional museum anthropologists or with professionals working in a museum in which anthropology-oriented museum work is undertaken. Students must meet criteria for acceptable performance and submit a final report. (F, Sp, Su)
- ANTH 3930 Fieldwork in Archaeology 1-8 Credit Hours**
1 to 8 hours. Prerequisite: ANTH 3113 or sophomore standing or permission of instructor. May be repeated; maximum credit eight hours. Designed to teach the student field methods in archaeology through actual participation in a field program using a combination of lectures, lab, discussion, and/or research. The subject matter depends upon the specific summer session and varies from year to year. The course is given during the summer session and the length of the class will vary with the project. (Su)
- ANTH 3933 Archaeology Lab Practicum 3 Credit Hours**
Prerequisite: ANTH 3113 or sophomore standing or permission of instructor. This course offers students hands-on experience working with real archaeological collections in a lab setting and is typically paired with a field school. Students will learn to accession, analyze, and interpret artifacts and records from an archaeological field project. (Su)
- ANTH 3940 Internship in Archaeology 1-6 Credit Hours**
Prerequisite: ANTH 3113. May be repeated; maximum credit six hours. Designed to provide advanced archaeological field and/or laboratory training for students who already have some archaeological field and/or laboratory experience. Internships are arranged on an individual basis with professional archaeologists. Students must meet criteria for acceptable performance and submit a final report. (F, Sp, Su)
- ANTH 3950 Internship in Cultural Anthropology 1-6 Credit Hours**
Prerequisite: Six credit hours in cultural anthropology. May be repeated; maximum credit six hours. Designed to provide field training in cultural anthropology. Internships are arranged on an individual basis with professional cultural anthropologists or with professionals working in a setting in which cultural anthropology research can be performed. Students must meet criteria for acceptable performance and submit a final report. (F, Sp, Su)
- ANTH 3953 Proseminar in Anthropology 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. May be repeated; maximum credit six hours. Topics will vary and are intended to acquaint undergraduate majors with subdisciplines through specialized study involving anthropological theory, methodology, the preparation, development and writing of reports. (F, Sp)
- ANTH 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Honors Reading will provide students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given in this course only after an intensive oral examination. (F, Sp)
- ANTH 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The topics addressed in this course will cover highly circumscribed areas of anthropological inquiry which are intensively investigated during the course of the semester. Originality of research and approach will be required and each student will be expected to contribute to the proceedings as a relatively mature scholar. (Irreg.)
- ANTH 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project under the guidance of a professor in the student's major department. (F, Sp)

- ANTH 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- ANTH 4023 Museum Anthropology 3 Credit Hours**
Prerequisite: Junior standing or 3 hours of ANTH. This course takes a critical approach to examining the intertwined history of museums and anthropological practice. We pay special attention to the ethical and moral considerations endemic to museum work. The course also covers basic principles of collections management, acquisitions, and exhibition. The course seeks to familiarize students with professional career paths for anthropological work in museums. (Sp)
- ANTH 4053 Morphology 3 Credit Hours**
(Slashlisted with ANTH 5053; Crosslisted with LING 4053) Prerequisite: 3053 and 3353. Introduces and develops theories and concepts of morphology including word formation, derivation, inflection, non-concatenative morphs, covert categories, prosodic phenomena, morphosyntactic categories and clitics. Data from non-Western languages will be prominent. No student may earn credit for both 4053 and 5053. (Irreg.)
- ANTH 4063 Language Contact, Loss, and Revitalization 3 Credit Hours**
Prerequisite: 2303 and junior standing. Covers the linguistic, social and cultural factors involved in contact-induced language change and language shift, and on the main trends and literature in revitalization and maintenance of endangered languages. Students gain experience in practical applications of language revitalization, focusing on languages of the Americas. No student may earn credit for both 4063 and 5063. (Irreg.)
- ANTH 4073 Anthropology of Jews and Jewishness 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. Explores major anthropological issues through the lens of ethnography conducted in Jewish communities around the world. The particular combinations of race, religion, ethnicity, identity, and gender as they are understood and expressed by Jews cross-culturally challenge our understanding of continuity and change in human societies. (Irreg.) [IV-WDC].
- ANTH 4093 Bodies and Materialities 3 Credit Hours**
(Slashlisted with ANTH 5093) Prerequisite: Junior standing or 3 hours of ANTH. This course will examine the body and material culture as a focus for an anthropological investigation into past populations. To acquaint ourselves with: a) the historical background to contemporary theories on materiality and embodiment, and b) critical evaluation of application of these theories to the archaeological record, and their potential and limitations. No student may earn credit for both 4093 and 5093. (Irreg.)
- ANTH 4113 Anthropology Capstone 3 Credit Hours**
Prerequisite: ANTH 2203 or ANTH 2303 or ANTH 3113 or ANTH 3203, and Junior standing. Extensive research in anthropological sources relating to a special problem or topic selected by the instructor. Emphasis will be on synthesis of material presented in the course with previous material learned in Anthropology courses for the individual preparation of research papers. Content varies by section. (Irreg.) [V].
- ANTH 4163 The Study of Material Culture 3 Credit Hours**
(Slashlisted with ANTH 5163) Prerequisite: junior standing or 3 hours of ANTH. Focuses on the study of the things people make and the broader social contexts in which objects are used, circulated, made meaningful, and consumed. Methods and theories developed in geography, folklore, cultural anthropology, archeology, and related social sciences will be examined. No student may earn credit for both 4163 and 5163. (F)
- ANTH 4223 The Anthropology of Childhood 3 Credit Hours**
Prerequisite: English 1213/Expository Writing 1213. Explores global and deep historical perspectives on childhood, using methods from cultural anthropology. Specific attention is paid to beliefs and practices regarding reproduction and childbirth, infancy and toddlerhood, learning and school, adolescence and sexuality, and early adulthood and parenting. Course materials will emphasize understanding the role of social and cultural context in shaping the experiences of children and families. (Irreg.) [IV-WDC].
- ANTH 4253 The Anthropology of Communities 3 Credit Hours**
(Slashlisted with ANTH 5253) Prerequisite: junior standing or 3 hours of ANTH. Designed to introduce students to the community in applying anthropological field techniques and theory, while gaining training in method and theory in class, students will be given assignments to execute in community settings. Particular emphasis will be placed on ethnicity, gender and seniority as ethnological parameters. No student may earn credit for both 4253 and 5253. (Irreg.)
- ANTH 4283 Curriculum & Teaching Materials Development for Endangered Languages 3 Credit Hours**
Prerequisite: ANTH/LING 2303 and junior standing. Provides tools to create maximally useful teaching and learning materials for under-studied languages. Focuses on teaching methods that emphasize language for actual day-to-day communication and language curricula that is culturally situated. (Irreg.)
- ANTH 4303 Women and Development in Africa 3 Credit Hours**
(Slashlisted with ANTH 5303) Prerequisite: junior standing or 3 hours of ANTH. Examines women's involvement in economic development in Africa. Some consideration will be given to family structure and social stratification, as well as women's participation in the social, political and economic spheres. Avenues for viable social change will also be considered. No student may earn credit for both 4303 and 5303. (Irreg.) [IV-WDC].
- ANTH 4323 The Anthropology of Aging 3 Credit Hours**
(Slashlisted with ANTH 5323) Prerequisite: English 1213/Expository Writing 1213. Examines the process and experience of aging as it relates to culture, and what it means to get older in a variety of cultural contexts, including the United States. Special attention will be devoted to cultural ideas about aging, the roles of older people, illness, caregiving, dying, and what it means to age well in a variety of cultures. No student may earn credit for both 4323 and 5323. (Irreg.) [IV-WDC].
- ANTH 4333 Archaeologies of Movement and Migration in North America 3 Credit Hours**
Prerequisite: Junior standing or 3 hours of ANTH. This course will draw from the work of archaeologists to explore the long-term histories of human migration and movement in North America. We will investigate why movement has been so critical for our ancestors, the different types of movement, why people migrate, and consider the history of voluntary and forced migrations in our continent's history. (Irreg.) [IV-WDC].
- ANTH 4423 Introduction to Population Genetics 3 Credit Hours**
(Slashlisted with ANTH 5423) Prerequisite: ANTH 3203 or 3 hours of BIOL. Population genetics is a classic course in biological anthropology sciences, and studies the fundamental forces that cause genetic change within and between populations. No student may earn credit for both 4423 and 5423. (Irreg.)

- ANTH 4433 Ethnographic Writing 3 Credit Hours**
(Slashlisted with ANTH 5433) Prerequisite: Junior standing or 3 hours of ANTH. This course is an immersion in creative ethnographic writing. It teaches students how to gather original ethnographic data and to translate their findings into an insightful, artfully written study. No student may earn credit for both 4433 and 5433. (Irreg.)
- ANTH 4443 Visual Anthropology 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. Explores the historical and contemporary use of media to represent culture, and examines the changes in styles of ethnographic film from direct cinema and observational cinema to reflexivity, personal cinema, indigenous media, and collaboration between ethnographic filmmaker and film subject. (Irreg.) [IV-WDC].
- ANTH 4463 Peopling of the New World 3 Credit Hours**
(Slashlisted with 5463) Prerequisite: ANTH 1413 or ANTH 3113 or permission of instructor. Introduces the dynamic domain of the earliest human colonization of the Americas. Focuses on such key "peopling" debates as the geographic origins of First Americans; when people first arrived in the New World; and if and how ancient human skeletal remains should be studied. No student may earn credit for both 4463 and 5463. (Irreg.)
- ANTH 4513 Applying Anthropology to Contemporary Social Problems 3 Credit Hours**
(Slashlisted with ANTH 5513) Prerequisite: ANTH 2203 or approval of instructor. Explores the application of anthropological knowledge and practice to contemporary societal challenges. How anthropological concepts, methods, and insights can be used to understand and solve problems. (Irreg.) No student may earn credit for both 4513 and 5513. (Irreg.)
- ANTH 4593 Anthropology of Human Reproduction 3 Credit Hours**
Prerequisite: ANTH 3203 or junior standing. Examines the major features of human fertility and reproduction, exploring the interactions between physiology, ecology, and behavior. The course applies an anthropological perspective to such issues as cross-cultural patterns of fertility, the timing and probability of conception, age at first and last reproduction, and male reproductive physiology. (Irreg.) [II-NS].
- ANTH 4623 Approaches to Cross-Cultural Human Problems 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. Introduces students to the complex problems of contemporary global-scale cultures and helps them better understand their place on this global arena. This course will look at specific international issues or problems, and relate them to processes occurring in many parts of the world. (Irreg.) [IV-WDC].
- ANTH 4643 Psychiatric Anthropology 3 Credit Hours**
(Slashlisted with 5643) Prerequisite: junior standing or 3 hours of ANTH. Explores historical and contemporary thinking about culture and mental illness, and examines classic formulations of the relationship between anthropology and psychiatry. No student may earn credit for both 4643 and 5643. (Irreg.)
- ANTH G4713 Statistical Concepts in Anthropology 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. An introduction to anthropological statistics. Emphasis will be placed on anthropological research design and analysis of anthropological data. (Irreg.)
- ANTH 4723 Gender and Health 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. Provides an overview of the complex scientific and cultural interface between sex, gender, and health. Topics covered include gender identity and biological sex, various life cycles issues such as birth, sexual maturity, reproduction, and post-reproductive years. No student may earn credit for both 4723 and 5723. (Irreg.)
- ANTH 4733 Bioarchaeology of Death & Burials 3 Credit Hours**
(Slashlisted with 5733) Prerequisite: Junior standing or 3 hours of ANTH. The dead can tell us many secrets if we know how to "listen" to their stories. We will explore the social significance of death, burial and commemoration among diverse groups around the world. Using cutting edge archaeological methods and theories, we will work to understand how death is materialized in the archaeological record. No student may earn credit for both 4733 and 5733. (F, Sp)
- ANTH 4753 Body, Culture, Power: Anthropologies of Flesh 3 Credit Hours**
(Slashlisted with ANTH 5753) Prerequisite: Junior standing or 3 hours of ANTH. The body has come to occupy a central place in anthropological inquiry. This course looks at the body from different theoretical perspectives, offering a survey of recent scholarship on embodiment and biopower. We explore how the body is a medium for experience, and consider regulation of the "body politic" through immigration policy, reproductive governance, fertility control, and technological advancement. No student may earn credit for both 4753 and 5753. (Irreg.)
- ANTH 4783 Landscape Archaeology 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. Introduces the method and theory of landscape archaeology, which is the study of how humans experience, modify, and respond to their natural and social environments. Archaeological and contemporary case studies will be examined using methods like environmental reconstruction, geoarchaeology, remote sensing, and GIS, to examine human-natural systems, resilience and vulnerability, sacred landscapes, monumentality, and mobility. (Irreg.) [IV-WDC].
- ANTH 4813 Archaeology of North America 3 Credit Hours**
(Slashlisted with ANTH 5813) Prerequisite: junior standing or 3 hours of ANTH. A course in the prehistory of the American Indian. Study of the prehistory of North America north of Mexico. Consideration of the various archeological areas of the continent in terms of the prehistoric sequence of events from the earliest times up to European contact. No student may earn credit for both 4813 and 5813. (Irreg.) [IV-WDC].
- ANTH 4823 Medical Anthropology 3 Credit Hours**
(Slashlisted with ANTH 5823) Prerequisite: junior standing or permission of instructor. An introduction to the field of medical anthropology, the subfield of anthropology that focuses on the interaction of culture and biology in the areas of health, medicine and disease. Medical anthropology offers a unique perspective on how people cope with disease and how medical systems are constructed. Includes theoretical and topical overviews of the field. No student may earn credit for both 4823 and 5823. (F)
- ANTH G4833 Archaeology of the Great Plains 3 Credit Hours**
Prerequisite: junior standing or 3 hours of ANTH. A detailed survey of the archaeological remains from the Great Plains from the earliest occupation of the area until the reservation period. (Irreg.)

ANTH 4843 Cross-Cultural Study of Sex, Gender and Sexuality 3 Credit Hours

(Slashlisted with ANTH 5843) Prerequisite: junior standing or 3 hours of ANTH. A consideration of ethnographic material that challenges understandings of the relationships among sex, gender, and sexuality. Topics include language, socialization, segregation and inequality, gender variance and "third gender" categories, sexual practices and identities, and transsexual and transgender phenomena. No student may earn credit for both 4843 and 5843. (Irreg.) [IV-WDC].

ANTH G4853 Archaeology of the Greater Southwest 3 Credit Hours

Prerequisite: junior standing or 3 hours of ANTH. A detailed survey of the prehistoric sequence in the American Southwest and northwestern Mexico from earliest times up to the time of European contact. (Irreg.)

ANTH 4863 Archaeology of the Southeast 3 Credit Hours

(Slashlisted with ANTH 5863) Prerequisite: junior standing or 3 hours of ANTH. A study of the prehistoric and early historic Native American culture histories. Some attention will be given to historic African and European cultures in the Southeast. Emphasis will be placed on long-term social change, pan-regional trends and colonial transformations. No student may earn credit for both 4863 and 5863. (Irreg.)

ANTH 4883 Dates, Compositions, and Ancestors: Scientific Applications in Archaeology 3 Credit Hours

(Slashlisted with ANTH 5883) Prerequisite: Junior standing or 3 hours of ANTH. Provides an overview of physical science applications in archaeological research. Topics include: dating objects, determining where an object was made, inferring the use of artifacts, and reconstructing genetic relationships between groups. Emphasis is placed on both how these techniques work and how they can be appropriately utilized to understand prehistoric social organization. No student may earn credit for both 4883 and 5883. (Irreg.)

ANTH 4903 Race and Ethnicity 3 Credit Hours

Prerequisite: junior standing or 3 hours of ANTH. Introduces a broad spectrum of issues, concepts and methods in the anthropology of race and ethnicity. The goal is to teach students to think, read and write critically about race and ethnicity from a cross-cultural perspective, a strategy that encourages better understanding of the various forms of structural oppression that structure everyday lives. (Irreg.) [IV-WC].

ANTH G4943 Human Osteology and Paleopathology 3 Credit Hours

Prerequisite: ANTH 3203 or permission of instructor. Allows the student to develop a basic familiarity with human skeletal remains, standard anatomical terminology, and methods and techniques of data collection. In turn, these osteological skills will provide a means to explore questions of human adaptability, variation, evolution, patterns of health and disease in prehistory, and the applicability of these findings to contemporary problems. (Irreg.)

ANTH 4953 Special Topics in Anthropology 3 Credit Hours

Prerequisite: Junior standing or 3 hours of ANTH or permission of the instructor. May be repeated with change of content; maximum credit twelve hours. Topics will vary and are intended to acquaint the advanced anthropology major with subdisciplines through specialized study involving anthropological theory, methodology, the preparation, development and writing of reports. (Irreg.)

ANTH 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

ANTH 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ANTH 4973 Introduction to Faunal Analysis 3 Credit Hours

(Slashlisted with ANTH 5973) Prerequisite: ANTH 3113. An introductory-level look at animal bone analysis as performed by archaeologists and zooarchaeologists. The bones of birds, fish, reptiles, amphibians, and mammals, as well as mollusk shell, are discussed under the topics of taxonomy, taphonomy, age and sex determination, morphometrics, seasonality, and specialized techniques. No student may earn credit for both 4973 and 5973. (Irreg.)

ANTH 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

ANTH 4993 Reconstruction of Life from the Skeleton 3 Credit Hours

(Slashlisted with ANTH 5993) Prerequisite: Junior standing or 3 hours of ANTH. Bioarchaeology is the study of human skeletal remains. This includes a myriad of interconnected phenomena including mortuary contexts, paleopathology, and assessing human variation and adaptation. It also encompasses scientific approaches and applications of social theory, and ethical issues. Students will develop a historical perspective on bioarchaeology. Emphases also are placed on recent discoveries, new interpretations and theoretical approaches. No student may earn credit for both 4993 and 5993. (Irreg.)

ANTH 5001 Professionalization in Anthropology 1 Credit Hour

Prerequisite: graduate standing. Prepares students for graduate school and careers in Anthropology. Topics covered include publishing, grant writing, professional conduct, expectations in graduate school, and more. (F)

ANTH 5053 Morphology 3 Credit Hours

(Slashlisted with ANTH 4053) Prerequisite: Graduate standing. Introduces and develops theories and concepts of morphology including word formation, derivation, inflection, non-concatenative morphs, covert categories, prosodic phenomena, morphosyntactic categories, and clitics. Data from non-Western languages will be prominent. No student may earn credit for both 4053 and 5053. (Irreg.)

ANTH 5063 Language Contact, Loss, and Revitalization 3 Credit Hours

Prerequisite: 2303 and graduate standing. Covers the linguistic, social and cultural factors involved in contact-induced language change and language shift, and on the main trends and literature in revitalization and maintenance of endangered languages. Students gain experience in practical applications of language revitalization, focusing on languages of the Americas. No student may earn credit for both 4063 and 5063. (Irreg.)

ANTH 5083 Quantitative Methods in Anthropology 3 Credit Hours

Prerequisite: graduate standing. Introduces students to the basics of quantitative analysis in the field of anthropology. Topics include parametric and non-parametric measurements of significance and association, multivariate techniques, and concepts useful to anthropologists such as spatial analysis and sampling. (Irreg.)

- ANTH 5093 Bodies and Materialities 3 Credit Hours**
(Slashlisted with 4093) Prerequisite: Graduate standing. This course will examine the body and material culture as a focus for an anthropological investigation into past populations. The course goals are to acquaint ourselves with the historical background to contemporary theories on materiality and embodiment, and critically evaluate the application of these theories to the archaeological record and their potentials and limitations. No student may earn credit for both 4093 and 5093. (Irreg.)
- ANTH 5123 Contemporary Culture Theory 3 Credit Hours**
Prerequisite: ANTH 5223. Introduces students to different unit and levels of sociocultural analysis. Students will be required to address a series of research problems as a means of understanding sociocultural analysis. (Sp)
- ANTH 5153 Ethnography of Communication 3 Credit Hours**
Prerequisite: graduate standing. This course focuses on language use in larger discourse and cultural contexts and how language is used to conduct the social life and the dynamics of culture. Topics include topic and focus, deixis, reported speech, speaking styles, strategies, and genres, and language and ethnicity. (F)
- ANTH 5163 The Study of Material Culture 3 Credit Hours**
(Slashlisted with ANTH 4163) Prerequisite: graduate standing. Focuses on the study of the things people make and the broader social contexts in which objects are used, circulated, made meaningful, and consumed. Methods and theories developed in the fields of geography, folklore, cultural anthropology, archaeology, and related social sciences will be examined. No student may earn credit for both 4163 and 5163. (F)
- ANTH 5183 Contemporary Native American Ethnography 3 Credit Hours**
Prerequisite: graduate standing. Examines the impact of changes in the relationship between anthropologists and Native communities and the possibilities for an improved collaborative relationship between anthropologists and First Nations communities in the U.S. and Canada. Through readings, class discussion, and media we examine the ways in which Native people maintain cultural identity and sovereignty in response to ever-changing social conditions of life in the 21st century. (Irreg.)
- ANTH 5203 Hunter-Gatherers 3 Credit Hours**
Prerequisite: graduate standing. Considers the social, economic, ecological, and historical variation in hunter-gatherer societies. The history and theory of hunter-gatherer studies will be explored. Ethnographic and archaeological case studies will be used to examine settlement and mobility practices, architecture, subsistence, social organization, interaction, technology, and cosmology. (Irreg.)
- ANTH 5213 Ethnographic Methods 3 Credit Hours**
Prerequisite: graduate standing. Survey of ethnographic methods in anthropological research, with weekly fieldwork assignments and writing exercises. First half of class devoted to current theoretical debates, including the post-modern controversy and literary issues in classic ethnography. Second half of class devoted to hands-on research, including participant-observation, interviews, field notes, databases, and linguistic elicitation. (Irreg)
- ANTH 5223 Foundations of Social Thought 3 Credit Hours**
Prerequisite: Graduate standing; majors only or permission of instructor. Survey of anthropological theorists and theories of culture (evolutionary, functional, cognitive, ecological, structural, symbolic, etc.) and their impact on research methods in each of the four fields of anthropology and related disciplines. Emphasis will be given to a discussion of primary texts written by the major theorists. (F)
- ANTH 5253 The Anthropology of Communities 3 Credit Hours**
(Slashlisted with ANTH 4253) Prerequisite: graduate standing. Designed to introduce students to the community in applying anthropological field techniques and theory. While gaining training in method and theory in class, students will be given assignments to execute in community settings. Particular emphasis will be placed on ethnicity, gender and seniority as ethnological parameters. No student may earn credit for both 4253 and 5253. (Irreg.)
- ANTH 5273 Topics in Social Anthropology 3 Credit Hours**
May be repeated; maximum credit twelve hours. Topics vary. (F, Sp)
- ANTH 5293 Origins of Complex Society 3 Credit Hours**
Prerequisite: graduate standing. Examines the origins and development of complex society and the institutionalization of social inequalities. Complexity is examined along a changing scale of sociopolitical organization, from small "egalitarian" societies to middle-range "chiefdoms" to large archaic states, using both archaeological and ethnographic examples. (Sp)
- ANTH 5303 Women and Development in Africa 3 Credit Hours**
(Slashlisted with ANTH 4303) Prerequisite: graduate-level social science course. Examines women's involvement in economic development in Africa. Some consideration will be given to family structure and social stratification, as well as women's participation in the social, political and economic spheres. Avenues for viable social change will also be considered. No student may earn credit for both 4303 and 5303. (Irreg.)
- ANTH 5323 The Anthropology of Aging 3 Credit Hours**
(Slashlisted with ANTH 4323) Prerequisite: ANTH 5223 and graduate standing. Examines the process and experience of aging as it relates to culture, and what it means to get older in a variety of cultural contexts, including the United States. Special attention will be devoted to cultural ideas about aging, the roles of older people, illness, caregiving, dying, and what it means to age well in a variety of cultures. No student may earn credit for both 4323 and 5323. (Irreg.)
- ANTH 5363 Linguistic Anthropology 3 Credit Hours**
Prerequisite: graduate standing in Anthropology or permission of instructor. Course covers the history of theory in linguistic anthropology, starting with the early work of Boas, Sapir, and Whorf, and continuing with the writings of Levi-Strauss, Hymes, Basso, Silverstein, Bakhtin, and Hill. Surveys contemporary trends in discourse analysis, sociolinguistics and cognitive linguistics. Course is a required core course for anthropology graduate students. (F, Sp)
- ANTH 5393 Anthropology and the Health of Indigenous People 3 Credit Hours**
Prerequisite: graduate standing. Introduces graduate students to research in medical, biological, linguistic, and sociocultural anthropology and archaeology that relates to the health and well-being of global indigenous populations, with an emphasis on the native peoples of the Americas. (F)
- ANTH 5413 Public Archaeology 3 Credit Hours**
Prerequisite: graduate standing, permission of instructor. Focus is on the articulation of graduate academic training in archaeology with current federal rules and regulations, and educational outreach concerning archaeological research and goals. Emphasis is on advanced training in the preservation and management of archaeological resources. (Irreg.)

- ANTH 5423 Introduction to Population Genetics 3 Credit Hours**
(Slashlisted with ANTH 4423) Prerequisite: graduate standing. Population genetics is a classic course in biological anthropology sciences, and studies the fundamental forces that cause genetic change within and between populations. No student may earn credit for both 4423 and 5423. (Irreg.)
- ANTH 5433 Ethnographic Writing 3 Credit Hours**
(Slashlisted with ANTH 4433) Prerequisite: Graduate standing. This course is an immersion in creative ethnographic writing. It teaches students how to gather original ethnographic data and to translate their findings into an insightful, artfully written study. No student may earn credit for both 4433 and 5433. (Irreg.)
- ANTH 5463 Peopling of the New World 3 Credit Hours**
(Slashlisted with ANTH 4463) Prerequisite: graduate standing. Introduces the dynamic domain of the earliest human colonization of the Americas. Focuses on such key "peopling" debates as the geographic origins of First Americans; when people first arrived in the New World; and if and how ancient human skeletal remains should be studied. No student may earn credit for both 4463 and 5463. (Irreg.)
- ANTH 5513 Applying Anthropology to Contemporary Social Problems 3 Credit Hours**
(Slashlisted with ANTH 4513) Prerequisite: Graduate standing in Anthropology or instructor approval. Explores the application of anthropological knowledge and practice to contemporary societal challenges. How anthropological concepts, methods, and insights can be used to understand and solve problems. (Irreg.) No student may earn credit for both 4513 and 5513. (Irreg.)
- ANTH 5543 Research Design 3 Credit Hours**
Prerequisite: graduate standing and 5223. Studies ethnographic research methods and design. An overview of current practices and theoretical disputes, followed by group discussion of individual class members' unique research design problem. (Irreg.)
- ANTH 5593 Spatial Methods and Technologies in Anthropology 3 Credit Hours**
Prerequisite: graduate standing. Introduces the theory and techniques of GIS, remote sensing, mapping, and GPS as it relates to anthropological fieldwork. The emphasis will be on topics related to and management of spatial data that is aimed specifically at the archaeologist or cultural anthropologist expecting to use GIS in the course of their research or applied work. (Irreg.)
- ANTH 5643 Psychiatric Anthropology 3 Credit Hours**
(Slashlisted with ANTH 4643) Prerequisite: ANTH 5223 and graduate standing. Explores historical and contemporary thinking about culture and mental illness, and examines classic formulations of the relationship between anthropology and psychiatry. No student may earn credit for both 4643 and 5643. (Irreg.)
- ANTH 5733 Bioarchaeology of Death & Burials 3 Credit Hours**
(Slashlisted with 4733) Prerequisite: Graduate standing. The dead can tell us many secrets if we know how to "listen" to their stories. We will explore the social significance of death, burial, and commemoration among diverse groups around the world. Using cutting edge archaeological methods and theories, we will work to understand how death is materialized in the archaeological record. No student may earn credit for both 4733 and 5733. (F, Sp)
- ANTH 5753 Body, Culture, Power: Anthropologies of Flesh 3 Credit Hours**
(Slashlisted with ANTH 4753) Prerequisite: Graduate standing. The body has come to occupy a central place in anthropological inquiry. This course looks at the body from different theoretical perspectives, offering a survey of recent scholarship on embodiment and biopower. We explore how the body is a medium for experience and consider regulation of the "body politic" through immigration policy, reproductive governance, fertility control, and technological advancement. No student may earn credit for both 4753 and 5753. (Irreg.)
- ANTH 5783 Ceramics in Archaeology 3 Credit Hours**
Prerequisite: graduate standing. The theoretical frameworks surrounding the analysis of ceramics in archaeology are discussed. Topics considered may include analytic methods, origins, mobility and sedentism, function, production, gender, specialization, distribution, style, ethnicity, household size, ideology, and social identity. (Irreg.)
- ANTH 5803 Theories of Identity 3 Credit Hours**
Prerequisite: 5223 and graduate standing. Considers the relationship between ethnicity and other social categories on processes such as race, peoplehood, culture, tradition, heritage, nationality, religion, gender, and class. (Sp)
- ANTH 5813 Archaeology of North America 3 Credit Hours**
(Slashlisted with ANTH 4813) Prerequisite: graduate standing. A course in the prehistory of the American Indian. Study of the prehistory of North America north of Mexico. Consideration of the various archeological areas of the continent in terms of the prehistoric sequence of events from the earliest times up to European contact. No student may earn credit for both 4813 and 5813. (Irreg.)
- ANTH 5823 Medical Anthropology 3 Credit Hours**
(Slashlisted with ANTH 4823) Prerequisite: graduate standing and permission of instructor. An introduction to the field of medical anthropology, the subfield of anthropology that focuses on the interaction of culture and biology in the areas of health, medicine and disease. Medical anthropology offers a unique perspective on how people cope with disease and how medical systems are constructed. Includes theoretical and topical overviews of the field. No student may earn credit for both 4823 and 5823. (F)
- ANTH 5843 Cross-Cultural Study of Sex, Gender and Sexuality 3 Credit Hours**
(Slashlisted with ANTH 4843) Prerequisite: graduate standing. A consideration of ethnographic material that challenges understandings of the relationships among sex, gender, and sexuality. Topics include language, socialization, segregation and inequality, gender variance and "third gender" categories, sexual practices and identities, and transsexual and transgender phenomena. No student may earn credit for both 4843 and 5843. (Irreg.)
- ANTH 5863 Archaeology of the Southeast 3 Credit Hours**
(Slashlisted with ANTH 4863) Prerequisite: graduate standing. A study of the pre-contact and early post-contact Native American culture histories. Some attention will be given to historic African and European cultures in the Southeast. Emphasis will be placed on long-term social change, pan-regional trends and colonial transformations. No student may earn credit for both 4863 and 5863. (Sp)

ANTH 5883 Dates, Compositions, and Ancestors: Scientific Applications in Archaeology 3 Credit Hours

(Slashlisted with ANTH 4883) Prerequisite: graduate standing. Provides an overview of physical science applications in archaeological research. Topics include: dating objects, determining where an object was made, inferring the use of artifacts, and reconstructing genetic relationships between groups. Emphasis is placed on both how these techniques work and how they can be appropriately utilized to understand prehistoric social organization. No student may earn credit for both 4883 and 5883. (Irreg.)

ANTH 5893 Topics in Archaeology 3 Credit Hours

May be repeated; maximum credit 12 hours. Topics will vary. Laboratory (F, Sp)

ANTH 5913 Topics in Biological Anthropology 3 Credit Hours

Prerequisite: graduate standing. May be repeated with change of topic; maximum credit 12 hours. An opportunity for a seminar of interest in biological anthropology. (F, Sp)

ANTH 5923 Lithic Technology and Analysis 3 Credit Hours

Prerequisite: graduate standing in Anthropology or permission of instructor. Instructs students in flint knapping, raw material properties, chipped stone analysis, and the application of analytical approaches to archaeological research problems. (Irreg.)

ANTH 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

ANTH 5963 Writing for Anthropologists 3 Credit Hours

Prerequisite: graduate standing in Anthropology. Teaches students to be better and more efficient anthropological writers. Topics range from pragmatic approaches to increasing productivity; to understanding the peer-reviewed process; to the nuts and bolts of writing an effective research paper, literature review, and grant proposal. (Irreg.)

ANTH 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ANTH 5973 Introduction to Faunal Analysis 3 Credit Hours

(Slashlisted with ANTH 4973) Prerequisite: graduate standing. An introductory-level at animal bone analysis as performed by archaeologists and zoo archaeologists. The bones of birds, fish, reptiles, amphibians, and mammals, as well as mollusk shell are discussed under the topics of taxonomy, age and sex determination, morphometrics, seasonality, and specialized techniques. No student may earn credit for both 4973 and 5973. (Irreg.)

ANTH 5980 Research for Master's Thesis 2-9 Credit Hours

Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. Laboratory (F, Sp, Su)

ANTH 5990 Special Anthropological Problems 1-3 Credit Hours

1 to 3 hours. May be repeated; maximum credit 12 hours. Permits the student to investigate a specific problem in terms of currently available data. It may be within any field of anthropology recommended by the instructor or adviser. (F, Sp, Su)

ANTH 5993 Reconstruction of Life from the Skeleton 3 Credit Hours

(Slashlisted with ANTH 4993) Prerequisite: Graduate standing. Bioarchaeology is the study of human skeletal remains. This includes a myriad of interconnected phenomena including mortuary contexts, paleopathology, and assessing human variation and adaptation. It also encompasses scientific approaches, applications of social theory, and ethical issues. Students will develop a historical perspective on bioarchaeology. Emphases also are placed on recent discoveries, new interpretations and theoretical approaches. No student may earn credit for both 4993 and 5993. (Irreg.)

ANTH 6203 Political Economy 3 Credit Hours

Prerequisite: graduate standing. Examines the political-economic perspective in anthropology and explores its approach to the construction of knowledge, culture, the nature of social systems, social history, archaeology, ethnography (the remote and recent past), ethnicity, class, and gender. (F)

ANTH 6223 Community Engaged Anthropology 3 Credit Hours

Prerequisite: Graduate standing. This course examines community-engaged research from historical, methodological, and practical perspectives, and examines the many roles a community-engaged researcher assumes, the responsibilities of researchers to members of the communities in which they work, as well as the nature and limits of those responsibilities. Emphasis is placed on developing partnerships that blur the line between "research" and "researched." (Irreg.)

ANTH 6310 Internship in Applied Medical Anthropology 1-6 Credit Hours

1 to 6 hours. Prerequisite: Graduate standing in Anthropology or instructor approval. The internship in Applied Medical Anthropology provides an opportunity for students to apply anthropological theory and method to real-world health problems. Students work collaboratively with an organization/community on an agreed upon issue related to human health, contributing to its efforts, while learning how to put anthropological skills into practice. (F, Sp, Su)

ANTH 6590 Fieldwork in American Indian Languages 3-6 Credit Hours

3 to 6 hours. Prerequisite: Graduate standing. Advanced field experience in the recording and analysis of Native American languages, including a discussion of problems in selecting and effectively utilizing informants. (Irreg.)

ANTH 6633 Method and Theory in Biological Anthropology 3 Credit Hours

Prerequisite: graduate standing in Anthropology or permission of instructor. The core course in biological anthropology. Historical development of biological (physical) anthropology; the development and application of method and theory in the major subfields of biological anthropology. (Sp)

ANTH 6650 Advanced Fieldwork in Anthropology 3-8 Credit Hours

3 to 8 hours. Prerequisite: permission of chairperson and dean of the Graduate College. Students interested in this summer program should request a Special Announcement from the Department of Anthropology. Laboratory (Su)

ANTH 6713 Archaeological Theory 3 Credit Hours

Prerequisite: graduate standing in Anthropology or permission of instructor. This course explores archaeological theory, its evolution and context. As an anthropological core class, it stresses the articulation of archaeological theory within its wider parent discipline, anthropology. (F)

ANTH 6750 Research in Archaeology 1-4 Credit Hours

1 to 4 hours. Permits the student to undertake independent research. Such research is normally limited to original or unpublished work. (Problems to be solved by library research are properly within the scope of 5990.) Laboratory (F, Sp)

ANTH 6803 Advanced Archaeological Theory 3 Credit Hours

Prerequisite: 6713. An advanced course in archaeological theory focusing especially on those theories prominent in the last decade. The course concentrates on theoretical frameworks that might form the students' dissertation research. (Irreg.)

ANTH 6810 Research in Ethnology 1-4 Credit Hours

1 to 4 hours. Permits the student to undertake independent fieldwork to study some problems in ethnology. (F, Sp, Su)

ANTH 6843 Foundations of Biological and Medical Anthropology 3 Credit Hours

Prerequisite: graduate standing in Anthropology. Introduces students to the theoretical foundations of biological and medical anthropology. (F)

ANTH 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

ANTH 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

ANTH 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

ANTH 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

ARAB-Arabic

ARAB 1115 Beginning Arabic 5 Credit Hours

Aims at developing mastery of Arabic phonology and script, control of basic vocabulary, grammar, basic communicative situations, and cultural concepts explicitly expressed in the language. Listening and speaking are emphasized from the very beginning. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F) [I-FL].

ARAB 1225 Beginning Arabic Continued 5 Credit Hours

Prerequisite: 1115. Focuses on all language skills (listening, speaking, reading, and writing), including developing the ability to interact successfully in basic communicative situations. Short texts and topics of general import as well as cultural concepts embedded in the language will be covered. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (Sp) [I-FL].

ARAB 2013 Colloquial Arabic 3 Credit Hours

Prerequisite: ARAB 1225. May be repeated once with a change of topic (dialect); maximum credit 6 hours. Develops communicative functional abilities, in particular speaking and listening, in one of the regional spoken dialects of the Arab world. The direct connection between the colloquial dialect taught and Modern Standard Arabic will be explored. Relevant aspects of local culture will be covered, as well as the cultural appropriateness of communicative functions introduced. (F, Sp)

ARAB 2113 Intermediate Arabic 3 Credit Hours

Prerequisite: ARAB 1225. Aims at developing language skills (listening, speaking, reading and writing) at the intermediate level, with more emphasis on reading and writing. Expands into more complex structures, wider communicative situations and vocabulary relating to practical, social, cultural and media topics. (F)

ARAB 2223 Intermediate Arabic Continued 3 Credit Hours

Prerequisite: ARAB 2113; ARAB 2013 or concurrent enrollment. Continues developing language skills (listening, speaking, reading and writing) at the intermediate level, with more emphasis on reading and writing. Continues to expand into more complex structures, wider communicative situations and vocabulary relating to practical, social, cultural and media topics. (Sp)

ARAB 2970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ARAB 3113 Advanced Arabic 3 Credit Hours

Prerequisite: 2223. Students are expected to read, listen to, and understand the content and intent of a variety of authentic texts; write at the paragraph level; and participate in formal and informal discussion on social and professional topics. (F)

ARAB 3223 Advanced Arabic (Continued) 3 Credit Hours

Prerequisite: 3113. Students are expected to read, listen to, and understand the content and intent of a variety of authentic texts; write at the paragraph level; and participate in formal and informal discussion on social and professional topics. (Sp)

ARAB 3423 Advanced Arabic Composition 3 Credit Hours

Prerequisite: ARAB 2223. Instruction in proper writing habits at an advanced level, toward the achievement of idiomatic formal Arabic. Focuses on writing in Arabic for personal, professional and academic needs. Develops the ability to narrate and describe in the different Arabic tenses (past, present and future), narrate and describe with a sufficient control of aspect (indicating whether an action is completed), write summaries of familiar topics, combine sentences into texts of paragraph length, and use cohesive devices properly. (F)

ARAB 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ARAB 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers topics not usually presented in the regular courses.

ARAB 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses.

ARAB 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

ARAB 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

ARAB 4413 Arabic Structure 3 Credit Hours

Prerequisite: 3223. Detailed explanations of the structure of the Arabic language at both the theoretical and pedagogical levels. The different phonological, morphological, and syntactic rules are presented and discussed holistically, combining both form and function, to achieve adequate knowledge of Arabic structure. The course is conducted mostly in Arabic. (F)

ARAB 4433 Arabic Media and Politics 3 Credit Hours

Prerequisite: 3223. Exposes students to various types of mass media covering contemporary political, economic, historical, and social issues in the Arab world. Sociolinguistic features of news reports are examined to understand the content, political underpinnings, and the framing or packaging techniques used in media discourse. The course is conducted entirely in Arabic. (F)

ARAB 4443 Readings in Islamic Religious Texts 3 Credit Hours

Prerequisite: 3223. Representative texts in Arabic from the Qur'an, Qur'anic Exegesis, Prophetic Hadith, Prophet Muhammad's biographies, and legal, mystical, and theological treatises. The objectives are to understand major Islamic doctrines, and themes, and to develop working knowledge of genre specific vocabulary and style. Class is conducted in Arabic. (Sp)

ARAB 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

ARAB 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ARAB 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: four courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

ARAB 4993 Readings in Contemporary Arab Culture 3 Credit Hours

Prerequisite: ARAB 4413 and ARAB 4433. Deeper understanding of major cultural issues by examining critical texts of intellectual figures throughout the contemporary Arab world. Prepares students to write their final project in Arabic, and provides opportunities for developing their language skills further for adequate mastery of the language. Course is conducted entirely in Arabic. (Sp) [V].

ARCH-Architecture

ARCH 1155 Design I - Design Fundamentals 5 Credit Hours

Prerequisite: Co-requisites: ARCH 1163 or permission of director. Development of foundational design and representational skills, and graphic conventions including sketching and digital methods. The course introduces processes of Creating-Making through methods engaged in critical thinking and experiential knowing. Methods of composition are introduced and explored: design elements and principles, proportion and scale, ordering systems, and organizational strategies. Introduction to issues of craft and material engagement. (F)

ARCH 1163 Methods I - Materiality of Place 3 Credit Hours

Prerequisite: Co-requisites: ARCH 1155 or permission of director. Introduction to principles of representation in freehand, hand-constructed, and computer-generated form through a variety of media, formats, and techniques, including projective geometry, orthographic and axonometric drawings, perspectives, sketches, and more. A wide breadth of architectural vocabulary will be explored and related to the design studio activities. (F)

ARCH 1255 Design II - Craft and Making 5 Credit Hours

Prerequisite: ARCH 1163 and ARCH 1155, Corequisite: ARCH 1263; or permission of director. A continuation in the development of fundamental design skills through introductions to the material, formal, and spatial properties of architecture. Fabrication safety, craft, and techniques will be introduced and developed through the making of full-scale constructions. Continued ideas involving Creating-Making are explored through exercises in the formal, spatial, and material qualities of human environments. (Sp)

ARCH 1263 Methods II - Pattern of Architecture 3 Credit Hours

Prerequisite: ARCH 1163 and ARCH 1155, Corequisite: ARCH 1255; or permission of director. An introduction to organizational strategies across a range of architectural scales. Ordering principles are investigated from micro through macro, from the materiality and tectonics of details, to urban patterns. Architectural assemblies and building technology will introduce structural systems and material characteristics. Massing and typology studies will introduce relationships of building to site and environment. (Sp)

ARCH 1713 Architectural Journeys in Europe and the Americas 3 Credit Hours

Introduction to the built environment using residence, public buildings, and communities as vehicles. Overview of architectural history is interwoven with an introduction to architectural form, space, order, and the elements of architecture. Stories of European and American cities serve as a vehicle to explore both architectural styles and to apply ways of thinking about space and how humans live together. (Sp) [IV-AF].

ARCH 1723 Architectural Explorations in Asia, Africa, and Australia 3 Credit Hours

Introduction to the built environment using residence, public buildings, and communities as vehicles. Overview of architectural history is interwoven with an introduction to architectural form, space, order, and the elements of architecture. Stories of East Asian, South Asian, and Southeast Asian cities serve as a vehicle to explore architectural styles, space, and how humans live together. (F) [IV-WDC].

- ARCH 2243 History of the Built Environment I 3 Credit Hours**
Prerequisite: majors only or permission of director. Co-requisite: ARCH 2363, ARCH 2356; for Interior Design majors: completion of A HI 2213 and A HI 2223. A theoretical investigation of the cultural, political, and aesthetic values of diverse Western and non-Western cultures and how these affect the built environment from pre-history through the Renaissance. This course continues the development of critical writing skills and further develops analytic skills that act to inform design decisions related to studio projects. (F) [IV-WC].
- ARCH 2343 History of the Built Environment II 3 Credit Hours**
Prerequisites: ARCH 2363, ARCH 2356, ARCH 2243. Co-requisites: ARCH 2463, ARCH 2456, ARCH 4193; or permission of director. An investigation of the cultural, political, and aesthetic values of diverse Western and non-Western cultures and how these have affected the built environment from the Renaissance through the 19th century. This course continues the development of critical writing skills and further develops analytic skills that act to inform design decisions related to studio projects. (Sp) [IV-WC].
- ARCH 2356 Design III - Crafting Place 6 Credit Hours**
Prerequisites: ARCH 1263, ARCH 1255 with a grade of C or better. Corequisites: ARCH 2363, ARCH 2243; or permission of director. Development of formal and spatial architectural components that demonstrate engagement with design principles, precedent analysis, human factors, and environmental and cultural influences on design. Expression of ideas through the application of virtual techniques of representation and visual communication are required. (F)
- ARCH 2363 Materials and Form 3 Credit Hours**
(Crosslisted with CNS 2363) Prerequisite: Majors only. An introduction to the nature of building materials with regard to form, strength, durability, workability, structure, connections, surfaces, and edges. Analysis of architectural expression through the use of building materials including the effects of: light, air movement, humidity, and their relationships to both one another and formal and spatial expressions. (F)
- ARCH 2456 Design IV - Materials and Making 6 Credit Hours**
Prerequisite: ARCH 2363, ARCH 2356, ARCH 2243 with a grade of C or better. Corequisites: ARCH 2463, ARCH 2343, and ARCH 4193; Majors only; or permission of director. Introduces projects of moderate complexities demonstrating intermediate design principles within the context of the urban environment demonstrating an understanding of material. Students begin to engage the effects of site and environmental conditions upon material, formal, and spatial design decisions. (Sp)
- ARCH 2463 Methods IV- Sustainable and Resilient Systems I 3 Credit Hours**
Prerequisite: ARCH 2363, ARCH 2356, and ARCH 2243 with a grade of C or better. Co-requisites: ARCH 2456, ARCH 2343, ARCH 4193; or permission of director. Introduction to psychrometrics, heat transmission, mechanical heating and cooling, natural ventilation, passive solar conditioning, plumbing, and fire protection in buildings. (Sp)
- ARCH 2970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- ARCH 3013 Architecture for Non-Majors 3 Credit Hours**
Prerequisite: junior standing. An introduction of basic principles of architecture for the non-architect. Understanding of the qualities and characteristics of a well-designed architectural environment. Not open to architecture majors. (F, Sp) [IV-AF].
- ARCH 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- ARCH 3556 Design V - Architectural Making I 6 Credit Hours**
Prerequisite: ARCH 2463, ARCH 2456, ARCH 2343, and ARCH 4193 with a grade of C or better. Co-requisites: ARCH 4563, ARCH 4233, ARCH 4453; or permission of director. Introduces principles and techniques of site design within a building context of place, order, form, and structure. It also introduces climatic data analysis software as a means for teaching evidence based design and sustainable design principles. Studio-based lectures and assignments will challenge students to analyze, adapt to, and transform the site within a building design context. (F)
- ARCH 3656 Design VI - Architectural Making II 6 Credit Hours**
Prerequisites: ARCH 4563, ARCH 3556, ARCH 4233, ARCH 4453 with a grade of C or better. Co-requisites: ARCH 4663, ARCH 4543; or permission of director. Students develop the ability to design in the context of existing urban environments. Students are challenged to take into account the layered histories of cities as well as the complexities of dealing with site and street design for urban contexts. Course features guest lectures from experts on urban design and planning; and special topics pertaining to individual studio programs. (Sp)
- ARCH 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- ARCH 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework.
- ARCH 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp)
- ARCH 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- ARCH 4000 Foreign Study 0 Credit Hours**
Prerequisite: permission of instructor. The student will experience an alternative culture or setting that enhances awareness and sensitivity. While this course normally involves foreign studies, it may include design/build, community service, volunteer activities, or other experiences relevant to Creating-Making. The duration of this experience shall be no less than eight weeks, and must be approved by a faculty coordinator. (F, Sp, Su)

- ARCH 4053 Methods X- Tool of Practice 3 Credit Hours**
(Slashlisted with ARCH 5053) Prerequisites: ARCH 4923, ARCH 4956 with a grade of C or better. Co-requisites: ARCH 4056 or permission of director. Explores issues in contemporary architectural practice including the role of the client, contracts, practice and project management, leadership skills, legal responsibilities, and ethics. Emphasis is placed upon issues of cultural and environmental sustainability, political activism, and the changing role of the architecture profession. The course contains program specific research and support related to studio projects. No student may earn credit for both 4053 and 5053. (Sp)
- ARCH 4056 Design X- Options Studio II 6 Credit Hours**
Prerequisite: ARCH 4723, ARCH 4756, and ARCH 4333 with a grade of C or better. This course examines analytical and methodological aspects of the design process through individual architectural projects. Students develop design proposals through means of intensive modeling and representation, both in analog and digital media. Fundamental issues of form, order, site, program along with schematic structure and constructability concepts are developed as part of the final project. (Sp)
- ARCH 4160 Internship 0 Credit Hours**
(Slashlisted with ARCH 5160) Prerequisite: ARCH 4723, ARCH 4756; or permission of director. This internship requirement corresponds with the National Council of Architectural Registration Boards Internship Development Program (IDP) and provides students with experience in an architecture office or in a related field. Students must follow the Division's Internship Program Guidelines in order to verify the appropriate experience is gained and documented. No student may earn credit for both 4160 and 5160. (F, Sp, Su)
- ARCH 4161 Co-Op: Cooperative Education Experience 1 Credit Hour**
(Slashlisted with ARCH 5161) Prerequisite: ARCH 4723 and ARCH 4756; or permission of director. The purpose of the Cooperative Education Program is to provide students with an actual office practice experience prior to graduation. The student is ideally exposed to a broad range of areas, such as construction documents, marketing, office practice, business management, client reviews, construction administration and a host of other daily activities that may be possible while working in Host Firms. No student may earn credit for both 4161 and 5161. (F, Sp, Su)
- ARCH 4183 Survey of Middle Eastern Architecture 3 Credit Hours**
(Slashlisted with ARCH 5183) Prerequisite: Junior standing or permission of instructor. Survey of Middle Eastern architecture and the impact architects and architecture from this time and region had upon the advancement of environmental/urban design throughout the rest of history. No student may earn credit for both 4183 and 5183. (Irreg.) [IV-WDC].
- ARCH 4193 Architectural Structures I 3 Credit Hours**
(Slashlisted with ARCH 5193; Crosslisted with CNS 4193) Prerequisite: Architecture major and completion of MATH 1523 and PHYS 1114; or Construction Science major and completion of PHYS 2414 and MATH 1523; or permission of division director. An introduction to basic physics, forces within structural systems, material strength, and associated structural engineering principles. Develops both intuitive and empirical knowledge of forces within structural systems that serve as a foundation for future courses within the Structures sequence. No student may earn credit for both 4193 and 5193. (Sp)
- ARCH 4233 Architectural Structures II 3 Credit Hours**
(Slashlisted with ARCH 5233; Crosslisted with CNS 4233) Prerequisite: ARCH 4193 or CNS 4193; majors only. Focus is on wood, concrete, and steel as structural materials. Material properties, common manufactured systems, common material sections, and common connection types will be explored with students demonstrating the ability to develop technical details related to various structural systems. No student may earn credit for both 4233 and 5233. (F)
- ARCH 4283 Persian Architecture 3 Credit Hours**
(Slashlisted with ARCH 5283) Prerequisite: junior standing. The goal of the course is to guide students into an understanding of the important contributions that Persian Architecture has made to the built environment. This course provides a comprehensive history of ancient Iranian architecture and urbanism, from the first societies to the present. No student may earn credit for both 4283 and 5283. (Sp)
- ARCH 4333 Advanced Structures 3 Credit Hours**
(Slashlisted with ARCH 5333) Prerequisite: ARCH 4193 and ARCH 4233; or permission of director. Introduces design of structural members using reinforced concrete. It covers the structural concrete, loads, analyses of tension and compression members, bending design for beams, axial load design for columns, structural systems, and design of reinforced concrete buildings. Concrete structures as taught for architects emphasizes principles of design rather than formulaic calculations. It emphasizes learning through project based collaborations. No student may earn credit for both 4333 and 5333. (F)
- ARCH 4353 LEED Seminar 3 Credit Hours**
Prerequisite: senior standing. Gives a comprehensive understanding of leadership in energy and environmental design (LEED) and the certification process. Students acquire first-hand experience in the process of "greening up" a campus. Prepares students with the knowledge necessary to sit for and pass the LEED certification exam. (F, Sp)
- ARCH 4433 Rendering 3 Credit Hours**
Prerequisite: senior standing. Helps students develop a more advanced understanding of graphic presentation principles and the use of pen and pencil, marker, and water color in developing presentation floor plans, sections, elevations and 3-D renderings. (Sp) [IV-AF].
- ARCH 4453 Modern and Contemporary Architecture 3 Credit Hours**
(Slashlisted with ARCH 5453) Prerequisite: Junior level standing; or permission of director. The course focus is on the relationship between architectural theories and projects during culture and the modern era. It considers how particular historical contexts shaped theories of design as well as how architects responded to the change. The course examines the relationship between the constructed environment and notions of modernity, developments in technology, building traditions, and politics. No student may earn credit for both 4453 and 5453. (F)
- ARCH 4493 Architecture of Democracy 3 Credit Hours**
(Slashlisted with ARCH 5493; Crosslisted with P SC 4493) Prerequisite: P SC 1113 or permission of instructor. This course explores how space, place and values come together in public spaces, by reviewing the evolution of architecture as it relates to human governance; introducing methods for assessing and designing physical space as an expression of human values; examines the social meaning and behavioral impact of spaces; studies the expression of democratic values in public spaces. No student may earn credit for both 4493 and 5493. (Irreg.)

- ARCH 4513 Creativity Through Sketching 3 Credit Hours**
(Slashlisted with ARCH 5513) Prerequisite: ENGL 1213 or EXPO 1213. This course teaches students how to express themselves creatively through sketching. Students receive instruction and assignments tailored to help them learn basic sketching techniques with the aim of developing their own expressive means of communicating through sketching. No student may earn credit for both 4513 and 5513. (F) [IV-AF].
- ARCH 4543 Architectural Theory and Criticism 3 Credit Hours**
(Slashlisted with ARCH 5543) Prerequisite: Junior level standing; or permission of director. The development of research and academic writing in an urban and architectural context. Development of critical and analytical writing skills through the use of original research and/or analysis term papers. Topics may range from periods, politics, technology, economics, religion, gender, and culture. Open to non-architecture majors to encourage interdisciplinary research/writing. No student may earn credit for both 4543 and 5543. (Sp)
- ARCH 4563 Methods V- Sustainable and Resilient Systems II 3 Credit Hours**
Prerequisite: ARCH 2463, ARCH 2456, ARCH 2343, ARCH 4193 with a grade of C or better. Co-requisite: ARCH 3556, ARCH 4453, ARCH 4233; or permission of director. Introduction to plumbing, lighting, acoustics, and other auxiliary systems that impact the Creating-Making of the built environment. These systems are discussed in relation to issues of sustainability and human comfort. Codes and standards that effect building design will be introduced and discussed. (F)
- ARCH 4663 Methods VI- Urban Design Methodologies 3 Credit Hours**
(Slashlisted with ARCH 5663). Prerequisites: ARCH 4563, ARCH 3556, ARCH 4233, ARCH 4453 with a grade of C or better. Co-requisites: ARCH 3656, ARCH 4543 or permission of program director. Provides an introduction to urban design, an overview of its history, and a cross section of contemporary strategies to effect desired urban design conditions. The course content may support design work developed in studios of the architecture curriculum. Students may not earn credit for both 4663 and 5663. (Sp)
- ARCH 4713 Real Estate Fundamentals 3 Credit Hours**
(Slashlisted with ARCH 5713) Prerequisite: Junior Standing. This course is the first part of a two-course series providing an introductory survey of real estate development in terms of terminology, data, and the players, parties, and processes involved from both theoretical and practical perspectives. This course, Real Estate I, is intended to provide students with a fundamental understanding of real property's role in the creation of cities. No student may earn credit for both 4713 and 5713. (F)
- ARCH 4723 Methods VII - Advanced Systems 3 Credit Hours**
(Slashlisted with ARCH 5723) Prerequisites: ARCH 4543, ARCH 4663, ARCH 3656 with a grade of C or better. Co-requisites: ARCH 4756; or permission of director. Introduction to advanced issues of structure, building systems, sustainability, and integrated building management systems. Course material will develop advanced understanding of the theories and practices of these complex systems and their effects on the built environment. No student may earn credit for both 4723 and 5723. (F)
- ARCH 4743 Legal Framework for Design 3 Credit Hours**
(Slashlisted with ARCH 5743) Prerequisite: Junior standing or permission of instructor. The course covers the study of legal principles relevant to real estate and real-estate projects, and the business entities through which to conduct that business. No student may earn credit for both 4743 and 5743. (F)
- ARCH 4756 Design VII - Systems and Context 6 Credit Hours**
Prerequisites: ARCH 4543, ARCH 4663, ARCH 3656 with a grade of C or better. Co-requisites: ARCH 4723; or permission of director. This capstone course emphasizes the relationship of schematic design to contract documents through a broad exploration of structural, mechanical, electrical, plumbing, and other buildings systems. It builds on the fundamental issues of place, order, form, structure, site and programming. It is also dedicated to developing interdisciplinary and collaborative skills through team-based projects and other small group exercises. (F) [V].
- ARCH 4783 Architectural Acoustics 3 Credit Hours**
(Slashlisted with ARCH 5783) Prerequisite: 3rd, 4th or 5th year student in the College of Architecture. Focuses primarily on the nature of architectural acoustics based on material choices, surface arrangement, and the overall shaping of space to promote natural acoustics. There will also be some discussion concerning natural lighting and how design decisions for lighting and acoustics can work in unison. Students may not earn credit for both 4783 and 5783. (Irreg.)
- ARCH 4813 Real Estate Development 3 Credit Hours**
(Slashlisted with ARCH 5813) Prerequisite: Junior Standing. The course is the second part of a two-course series providing an introductory survey of real estate development in terms of terminology, data, and the players, parties, and processes involved from both theoretical and practical perspectives. This course, Real Estate II, is intended to provide students with an understanding of the development process from beginning to end. No student may earn credit for both 4813 and 5813. (Sp)
- ARCH 4923 Methods IX- Entrepreneurial Architect and Leadership 3 Credit Hours**
(Slashlisted with ARCH 5923) Prerequisites: ARCH 4723, ARCH 4756, ARCH 4333 with a grade of C or better. Co-requisites: ARCH 4956; or permission of director. Explores finance and leadership issues that currently confront the development, design, and construction industries. Expertise and decision-making capabilities with be explored. No student may earn credit for both 4923 and 5923. (F)
- ARCH G4940 Field Work 1-4 Credit Hours**
1 to 4 hours. Prerequisite: senior standing and permission of instructor. Field study related to the student's area of interest in a position approved by the instructor. One hour credit per 120 hours of field work or equivalent. Documentation and evaluation is required. (F, Sp, Su)
- ARCH 4956 Design IX- Options Studio I 6 Credit Hours**
Prerequisite: ARCH 4723, ARCH 4756, ARCH 4333 with a grade of C or better. This course addresses advanced aspects of architectural design. It focuses on the development of analytical and methodological aspects of the design process, including but not limited to problem formulation, design representation and decision-making. Projects investigate a number of issues ranging from socio-economic, demographic, spatial justice, equity and environmental challenges, among others. (F)
- ARCH 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: senior standing and permission of instructor. May be repeated with change of subject; maximum credit 12 hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (F, Sp, Su)
- ARCH G4970 General Departmental Seminar 1-6 Credit Hours**
1 to 6 hours. Prerequisite: senior or graduate standing, or permission of instructor. May be repeated with change of content. Special topics in architecture. (F, Sp, Su)

- ARCH 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: four courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- ARCH 5053 Methods X - Tools of Practice 3 Credit Hours**
(Slashlisted with ARCH 4053) Prerequisites: Program admission or permission of graduate liaison. Explores issues in contemporary architectural practice including the role of the client, contracts, practice and project management, leadership skills, legal responsibilities, and ethics. Emphasis is placed upon issues of cultural and environmental sustainability, political activism, and the changing role of the architecture profession. The course contains program specific research and support related to studio projects. No student may earn credit for both 4053 and 5053. (Sp)
- ARCH 5055 Design X - Comprehensive Architecture II 5 Credit Hours**
Prerequisite: ARCH 5922, ARCH 5955, or permission of graduate liaison. Corequisite: 5022. A continuation of ARCH 5955. Students are expected to further develop their project to a level of Design Development and limited Construction Detailing. The course encourages the continued exploration, speculation, and experimental innovation begun in Design IX extended into materials detailing, construction methods, mechanical systems, and creative spatial and aesthetic development. Component and assembly prototyping and performance modeling are included. (Sp)
- ARCH 5143 Architectural History 3 Credit Hours**
Prerequisite: Program admission or permission of graduate liaison. A theoretical investigation of the cultural, political, and aesthetic values of diverse Western and non-Western cultures and how these affect the built environment. This course continues the development of critical writing skills and further develops analytic skills that act to inform design decisions related to studio projects. (F)
- ARCH 5160 Internship 0 Credit Hours**
(Slashlisted with ARCH 4160) Prerequisite: Program admission or permission of graduate liaison. This internship requirement corresponds with the National Council of Architectural Registration Boards Internship Development Program (IDP) and provides students with experience in an architecture office or in a related field. Students must follow the Division's Internship Program Guidelines in order to verify the appropriate experience is gained and documented. No student may earn credit for both 4160 and 5160. (F, Sp, Su)
- ARCH 5161 Co-Op: Cooperative Education Experience 1 Credit Hour**
(Slashlisted with ARCH 4161) Prerequisite: Graduate standing. The purpose of this Cooperative Education Program is to provide students with an actual office practice experience prior to graduation. The student is ideally exposed to a broad range of areas, such as construction documents, marketing, office practice, business management, client reviews, construction administration, and a host of other daily activities that may be possible while working in host firms. No student may earn credit for both 4161 and 5161.
- ARCH 5183 Survey of Middle Eastern Architecture 3 Credit Hours**
(Slashlisted with 4183) Prerequisite: Graduate standing or permission of instructor. Survey of Middle Eastern architecture and the impact architects and architecture from this time and region had upon the advancement of environmental/urban design throughout the rest of history. No student may earn credit for both 4183 and 5183. (Irreg.)
- ARCH 5193 Architectural Structures I 3 Credit Hours**
(Slashlisted with ARCH 4193) Prerequisite: graduate standing and majors only; or permission of graduate liaison. An introduction to basic physics, forces within structural systems, material strength, and associated structural engineering principles. Develops both intuitive and empirical knowledge of forces within structural systems that serve as a foundation for future courses within the Structures sequence. No student may earn credit for both 4193 and 5193. (Sp)
- ARCH 5233 Architectural Structures II 3 Credit Hours**
(Slashlisted with ARCH 4233) Prerequisite: Program admission or permission of graduate liaison. Focus is on wood, concrete, and steel as structural materials. Material properties, common manufactured systems, common material sections, and common connection types will be explored with students demonstrating the ability to develop technical details related to various structural systems. No student may earn credit for both 4233 and 5233. (F)
- ARCH 5283 Persian Architecture 3 Credit Hours**
(Slashlisted with ARCH 4283) Prerequisite: graduate standing. The goal of the course is to guide students into an understanding of the important contributions that Persian Architecture has made to the built environment. This course provides a comprehensive history of ancient Iranian architecture and urbanism, from the first societies to the present. No student may earn credit for both 4283 and 5283. (Sp)
- ARCH 5333 Advanced Structures 3 Credit Hours**
(Slashlisted with ARCH 4333) Prerequisite: Program admission or permission of graduate liaison. Introduces design of structural members using reinforced concrete. It covers the structural concrete, loads, analyses of tension and compression members, bending design for beams, axial load design for columns, structural systems, and design of reinforced concrete buildings. Concrete structures as taught for architects emphasizes principles of design rather than formulaic calculations. It emphasizes learning through project based collaborations. No student may earn credit for both 4333 and 5333. (F)
- ARCH 5363 Methods III- Materials and Form 3 Credit Hours**
Prerequisite: Program admission or permission of graduate liaison. Introduction to the nature of building materials with regard to form, strength, durability, workability, structure, connections, surfaces, and edges. Analysis of architectural expression through the use of building materials including the effects of: light, air movement, humidity, and their relationships to both one another and formal and spatial expressions. (F)
- ARCH 5453 Modern and Contemporary Architecture 3 Credit Hours**
(Slashlisted with ARCH 4453) Prerequisite: Program admission or permission of graduate liaison. The course focus is on the relationship between architectural theories and projects during culture and the modern era. It considers how particular historical contexts shaped theories of design as well as how architects responded to the change. The course examines the relationship between the constructed environment and notions of modernity, developments in technology, building traditions, and politics. No student may earn credit for both 4453 and 5453. (F)
- ARCH 5463 Advanced Sustainable and Resilient Systems 3 Credit Hours**
Prerequisite: Graduate standing, ARCH 5363 and ARCH 5516 with a grade of C or better. Introduction to plumbing, lighting, acoustics, and other auxiliary systems that impact the Creating-Making of the built environment. These systems are discussed in relation to issues of sustainability and human comfort. Codes and standards that effect building design will be introduced and discussed. (Sp)

- ARCH 5493 Architecture of Democracy 3 Credit Hours**
(Slashlisted with ARCH 4493; Crosslisted with P SC 5493) Prerequisite: Graduate standing or permission of instructor. This course explores how space, place and values come together in public spaces by reviewing the evolution of architecture as it relates to human governance; introducing methods for assessing and designing physical space as an expression of human values; examining the social meaning and behavioral impact of spaces; and studying the expression of democratic values in public spaces. No student may earn credit for both 4493 and 5493. (Irreg.)
- ARCH 5513 Creativity Through Sketching 3 Credit Hours**
(Slashlisted with ARCH 4513) Prerequisite: Graduate standing or instructor permission. This course teaches students how to express themselves creatively through sketching. Students receive instruction and assignments tailored to help them learn basic sketching techniques with the aim of developing their own expressive means of communicating through sketching. No student may earn credit for both 4513 and 5513. (F)
- ARCH 5516 Graduate Architectural Design I 6 Credit Hours**
Prerequisite: Program admission or permission of the graduate liaison. Introduces projects of moderate complexities demonstrating intermediate design principles within the context of the built environment. Application of both physical and virtual communication skills as professional techniques of representation and communication are required. (F)
- ARCH 5526 Graduate Architectural Design II 6 Credit Hours**
Prerequisite: Program admission or permission of graduate liaison. Continuation of ARCH 5126 with an introduction to passive and active forms of lighting, acoustics, conveyance systems, and electrical systems. An emphasis will be placed on the relation between these auxiliary building systems and Creating-Making. Issues of sustainability including environmental impacts, resource utilization, ethical resource efficiencies and performance-based design will be related to concepts of Creating-Making. Codes and standards that effect the built environment will be explored. (Sp)
- ARCH 5536 Graduate Architectural Design III 6 Credit Hours**
Prerequisite: Program admission or permission of graduate liaison. Emphasis is on the relationship of schematic design to contract documents in order to understand structural, mechanical, electrical, plumbing, and other systems within buildings. Students demonstrate an understanding of drafting conventions, the production of traditional contract documents, Building Information Modeling, and the communication of additional solutions necessary for construction. The course develops interdisciplinary and collaborative skills through team projects. (F) [V].
- ARCH 5543 Architectural Theory and Criticism 3 Credit Hours**
(Slashlisted with ARCH 4543) Prerequisite: Program admission or permission of graduate liaison. The development of research and academic writing in an urban and architectural context. Development of critical and analytical writing skills through the use of original research and/or analysis term papers. Topics may range from periods, politics, technology, economics, religion, gender, and culture. Open to non-architecture majors to encourage interdisciplinary research/writing. No student may earn credit for both 4543 and 5543. (Sp)
- ARCH 5546 Graduate Architectural Design IV 6 Credit Hours**
Prerequisite: Program admission or permission of graduate liaison. Emphasis is on the development of a complete project from schematic design through design development and construction detailing. Students will develop a building of limited programmatic complexity through more complete technical development. The application of Building Information Modeling software will be required. This course addresses and builds upon the collaborative and analytic knowledge developed in ARCH 5423. (Sp)
- ARCH 5663 Methods VI- Urban Design Methodologies 3 Credit Hours**
(Slashlisted with ARCH 4663) Pre-requisites: Program admission or permission of graduate liaison. Provides an introduction to urban design, an overview of its history and a cross section of contemporary strategies to effect desired urban design conditions. The course content may support design work developed in studios of the architecture curriculum. No student may earn credit for both 4663 and 5663. (Sp)
- ARCH 5713 Real Estate Fundamentals 3 Credit Hours**
(Slashlisted with ARCH 4713) Prerequisite: Graduate standing or permission of instructor. This course is the first of a two-course series providing an introductory survey of real estate development in terms of terminology, data, and the players, parties, and processes involved from both theoretical and practical perspectives. The course is intended to provide students with a fundamental understanding of real property's role in the creation of cities. No student may earn credit for both 4713 and 5713. (F)
- ARCH 5723 Methods VII-Advanced Systems 3 Credit Hours**
(Slashlisted with ARCH 4723) Prerequisite: Program admission or permission of graduate liaison. This course introduces students to advanced issues of structure, building systems, sustainability, and integrated building management systems. Course material will develop advanced understanding of the theories and practices of these complex systems and their effects on the built environment. No student may earn credit for both 4723 and 5723. (F)
- ARCH 5743 Legal Framework for Design 3 Credit Hours**
(Slashlisted with ARCH 4743) Prerequisite: Graduate standing or permission of instructor. The course covers the study of legal principles relevant to real estate, real estate projects, and the business entities through which to conduct that business. No student may earn credit for both 4743 and 5743. (F)
- ARCH 5763 Landscape Architecture for Architects 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Analysis and organization of the site together with the use of plant materials in landscape design. (Sp)
- ARCH 5783 Architectural Acoustics 3 Credit Hours**
(Slashlisted with ARCH 4783) Prerequisite: Graduate standing and permission of instructor. Focuses primarily on the nature of architectural acoustics based on material choices, surface arrangement, and the overall shaping of space to promote natural acoustics. There will also be some discussion concerning natural lighting and how design decisions for lighting and acoustics can work in unison. Students may not earn credit for both 4783 and 5783. (Irreg.)
- ARCH 5812 Human Centric Design: Equity and Comfort 2 Credit Hours**
Prerequisite: Graduate standing and majors only. An introduction to environmental justice, including stakeholders and community engagement. A survey of how human comfort metrics intersect with site and climate. Introduces systemic issues associated with equity in the built environment and indigenous approaches. (F, Sp, Su)

- ARCH 5813 Real Estate Development 3 Credit Hours**
 (Slashlisted with ARCH 4813) Prerequisite: Graduate standing or permission of the instructor. The course provides an introductory survey of real estate development in terms of terminology, data, and the players, parties, and processes involved from both theoretical and practical perspectives. This course is intended to provide students with an understanding of the development process from beginning to end. No student may earn credit for both 4813 and 5813. (Sp)
- ARCH 5822 Foundations of Building Physics and Analysis 2 Credit Hours**
 Prerequisite: Graduate standing and majors only. An introduction to topics in building physics including indoor and outdoor climate, passive technologies, daylighting, water issues, psychrometrics, and heat transfer. Explores the scientific method and application with building performance analysis, simple software-based calculations used to evaluate designs and construction against codes and standards. Explores connections between site and sustainable building metrics, Zero Tool, and AIA Framework for Design Excellence. (F, Sp, Su)
- ARCH 5832 Introduction to Building Performance Analysis 2 Credit Hours**
 Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. An introduction to metrics for evaluating building performance and tools for evaluation. Explores performance targets such as the Architecture 2030 Challenge. Examines pre- and post-occupancy performance analysis tools, equipment, and methods. Introduces software such as Cove Tools, Autodesk Insight, and Sefaira. (F, Sp)
- ARCH 5842 Introduction to Research Methods for Analysis 2 Credit Hours**
 Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. An introduction to design research methods. Examines the application of quantitative and qualitative research methods to research questions in architecture and urban design from pre-design to post-occupancy evaluation. Explores the practice of evidence-based design. (F, Sp)
- ARCH 5852 Sustainable Design and BIM Workflows 2 Credit Hours**
 Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. An introduction to Building Information Modeling (BIM) sustainable design workflows. Explores how designers, engineers, and contractors collaborate through BIM to reach sustainable design goals. Examines how BIM can be used to drive sustainable design and decision-making in theory and practice. (F, Sp)
- ARCH 5862 Sustainable Urban Design 2 Credit Hours**
 Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. An introduction to sustainable urban design principles and practices. Explores Geographic Information System (GIS) tools and EPA databases such as the TRI Explorer as they relate to sustainable urbanism, real estate, and equity. Introduces the Ecodistrict Accredited Professional program. (F, Sp)
- ARCH 5863 Methods VIII-Building Performance Analytics 3 Credit Hours**
 Prerequisite: Graduate standing in Architecture, ARCH 5723, and ARCH 5536; corequisite, ARCH 5546; or permission of graduate liaison. Advanced level course investigating contemporary theories and practices of sustainable and resilient design. Case studies are used to examine the connections between theories and practices particularly with regard to circular economies, and life cycle costs. (Sp)
- ARCH 5872 LEED GA Exam 2 Credit Hours**
 Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. An introduction to the US Green Building Council Leadership in Energy and Environmental Design (LEED) program. Examines how buildings can be designed and operated to reduce energy consumption, protect resources and promote health through the LEED program. Prepares students for taking the LEED Green Associate Exam. (F, Sp)
- ARCH 5882 WELL AP Exam 2 Credit Hours**
 Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. An introduction to the theory and practices associated with WELL Building Standard. Explores the research on human health and the design of the built environment that forms the foundation for the WELL building program. Prepares students for taking the WELL Accredited Professional exam. (F, Sp)
- ARCH 5892 LCCA and the Circular Economy 2 Credit Hours**
 Prerequisite: Graduate standing; ARCH 5842; majors only. Introduction to Life Cycle Cost Accounting (LCCA) and the Circular Economy. Explores the economic history, basic theory, and practices associated with LCCA. Examines connections between performative building design evaluations and sustainability's three "E's": Environment, Equity, and Economic factors. Considers the role of the architect in a global context and their interdisciplinary impact on sustainability. (F, Sp)
- ARCH 5902 Building Operations Management 2 Credit Hours**
 Prerequisite: Graduate standing; ARCH 5812, ARCH 5822; majors only. This course will explore the Rocky Mountain Institute (RMI) "NZE Leasing Best Practice Guide" and ULI's "Blueprint for Green Real Estate" including the steps of how to write and negotiate an NZE lease with elements that include energy budgets, building dashboards, recommissioning, green building financing models, and BIM-enabled digital twins. (F, Sp)
- ARCH 5912 Sustainable Design Case Studies 2 Credit Hours**
 Prerequisite: Graduate standing; ARCH 5842; majors only. Explores the realities of building impacts on the environment through sustainable design case studies. Introduces the case study method of analysis using the AIA Framework for Design Excellence. Introduces tools and methods for undertaking case study analysis of built works. (F, Sp)
- ARCH 5923 Methods IX - Entrepreneurial Architect and Leadership 3 Credit Hours**
 (Slashlisted with ARCH 4923) Prerequisites: Program admission or permission of graduate liaison. Explores finance and leadership issues that currently confront the development, design, and construction industries. Expertise and decision-making capabilities will be explored. No student may earn credit for both 4923 and 5923. (F)
- ARCH 5932 Sustainable Design Literature Reviews 2 Credit Hours**
 Prerequisite: Graduate standing; ARCH 5912; majors only. Introduces literature reviews in the context of architectural research questions. Explores design research methods and process through a review of existing literature on a topic. Develops an understanding of how to identify gaps in existing knowledge. (F, Sp)
- ARCH 5942 Case Study Research 2 Credit Hours**
 Prerequisite: Graduate standing; ARCH 5932; majors only. Explores examples of sustainable building design and construction through case study analysis following the American Institute of Architects case study format. Provides an opportunity for individual research project development. Includes consideration of sustainable design standards such as LEED and/or WELL. (F, Sp)

- ARCH 5952 Comprehensive Exam** **2 Credit Hours**
Prerequisite: Graduate standing; ARCH 5882 and ARCH 5892; majors only. This course prepares students to take the Comprehensive Examination, given at the end of the course, demonstrating: 1) their experience in secondary research in their area of program concentration; 2) their knowledge of the areas and subareas of the discipline and their position relative to these areas; and (3) their pedagogical knowledge, techniques and literature. (F, Sp, Su)
- ARCH 5960 Directed Readings** **1-4 Credit Hours**
1 to 4 hours. Prerequisite: fifth year or graduate standing in architecture and permission of instructor. May be repeated with change of subject; maximum credit nine hours. Studies in major field as approved by instructor. (F, Sp, Su)
- ARCH 5962 Case Study Development and Presentation** **2 Credit Hours**
Prerequisite: Graduate standing; ARCH 5942; majors only. Building on ARCH 5942, case studies are developed through peer reviews and presentations. Publication venues are investigated. (F, Sp)
- ARCH 5970 General Departmental Seminar** **1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Advanced professional topics in architecture, construction science, urban design or environmental design. Lectures, team and individual assignments. (F)
- ARCH 5980 Research for Master's Thesis** **2-9 Credit Hours**
Prerequisite: Graduate standing. Variable enrollment, two to nine hours; Laboratory (F, Sp, Su)
- ARCH 5990 Special Studies in Architecture** **1-6 Credit Hours**
1 to 6 hours. Prerequisite: fifth year or graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Subject as assigned by instructor will be explored in depth. Documentation and presentation varies with nature of problem. Laboratory (Sp, Su)
- ARCH 6056 Design X- Comprehensive Architecture II** **6 Credit Hours**
Prerequisite: Graduate standing and ARCH 6956, or permission of graduate liaison. This course is a continuation of ARCH 6956. Analytical and methodological aspects of the design process introduced in the Fall are reinforced in the context of individual architectural projects. Schematic design alternatives developed at the end of ARCH 6956 will be developed. Fundamental issues of form, order, site, program, and building systems integration are developed for the final project. (Sp)
- ARCH 6156 Graduate Studio I** **6 Credit Hours**
Prerequisite: Permission of graduate liaison. The class introduces fundamental design and visual communication skills through the use of material, formal, and spatial properties of architecture. Fabrication safety, craft, and techniques will be introduced and developed through the making. Ideas involving creating-making are explored through exercises in the formal, spatial and material qualities of human environments. (Su)
- ARCH 6590 Professional Project Research** **1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. Research and development on subjects related to the professional project in architectural studies, architectural technology, historic preservation, urban design or other approved topics. (F, Sp, Su)
- ARCH 6643 Urban Design Theory** **3 Credit Hours**
(Crosslisted with L A 6643 and RCPL 6643) Prerequisite: graduate standing. A survey of theory relevant to the urban design process, including social and behavioral concepts, visual and aesthetic theory, spatial and geographic factors of urban form. (Sp)
- ARCH 6680 Urban Design Studio** **1-6 Credit Hours**
1 to 6 hours. Prerequisite: graduate standing. May be repeated with different content; maximum credit six hours. The course involves advanced architectural design projects with an emphasis in architectural studies, architectural technology, historic preservation, urban design, or other approved topics. Laboratory. (F, Sp)
- ARCH 6690 Professional Project** **1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5595 or 6680. May be repeated; maximum credit six hours. A terminal professional project demonstrating comprehensive understanding and integrative capabilities in architectural studies, architectural technology, historic preservation, urban design or other approved topics. Laboratory (F, Sp, Su)
- ARCH 6956 Design IX- Comprehensive Architecture I** **6 Credit Hours**
Prerequisite: Program admission or permission of graduate liaison. This is the first of a two-semester sequence that concludes with ARCH 6056. The course encourages innovative exploration, analysis, speculation, and experimentation in developing schematic proposals. Building design concepts will consider attitudes towards ethical, environmental, site, sustainable, social, financial, material, and historical issues within the built environment and the program's Creating-Making curriculum. (F)
- ARCH 6960 Directed Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- ARCH 6970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- ARCH 6990 Special Studies in Architecture** **1-6 Credit Hours**
1 to 6 hours. Prerequisite: graduate standing. May be repeated; maximum credit 12 hours. The candidate will thoroughly explore the particular phase of architecture selected for advanced study by the student and the graduate committee; presentation of the work will be determined by the nature of the contribution. Laboratory (F, Sp, Su)

ARNM-Art for Non-Majors

- ARNM 1003 Art For Non-Majors: Two-Dimensional** **3 Credit Hours**
May be repeated; maximum credit six hours. Provides students who are not art majors with an introduction to the basic studio processes of painting and drawing. (Irreg.)
- ARNM 2843 Photography for Non Art Majors** **3 Credit Hours**
This course will introduce the non art major to camera controls and traditional darkroom operations including film processing, contact printing, enlarging and processing of black and white material, matting and presentation. Students enrolling in this course do not need to have any previous photographic or art skills. This course will complete a portfolio of images to complete the course. Textbook required. (Irreg.)
- ARNM 2970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: sophomore standing or permission of instructor. May be repeated; maximum credit six hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ARNM 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ARNM 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers topics not usually presented in the regular courses.

ARNM 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses.

ARNM 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

ARNM 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

ARNM 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: junior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ART-Art

ART 1033 Core Studio I: Surface 3 Credit Hours

Prerequisite: majors only; co-requisite: ART 1043. Core Studio I: Surface is a foundation level course that introduces students to a variety of experiences using two-dimensional design and drawing practices. The course will focus on developing conceptual imagery as expressed through the organization of spatial relationships using design elements and principles, visual observation, color relationships, and the investigation of line, perspective, the figure, gesture, and space. (F)

ART 1043 Core Studio II: Space and Time 3 Credit Hours

Prerequisite: majors only; co-requisite: ART 1033. A foundation level course that introduces students to a variety of experiences using interdisciplinary spatial relationships and three-dimensional design practices. The course will focus on developing a keen awareness of space, form, and time via the application of design principles to handmade forms. Students will create artworks through a variety of media investigations to enhance awareness of the interconnections within visual art and design disciplines. The course emphasizes ideation and process, and exploring and exploiting subject matter and media as a means of obtaining individual conceptual goals. (F)

ART 1133 Core III: Technology 3 Credit Hours

Prerequisite: majors only; ART 1033 and ART 1043. Co-requisite: ART 1143. A foundation level course that introduces students to a variety of experience using electronic tools, processes and techniques. The course will focus on image, interactivity, and motion using core concepts & principles. (Sp)

ART 1143 Core IV: Integrated Studio 3 Credit Hours

Prerequisites: majors only; ART 1033 and ART 1043. Co-requisite: ART 1133. Integrated Studio is a foundation level art practice course that introduces students to the broad dialogues driving activity in the world of contemporary art. Students learn to structure their work around core concepts and make practical decisions that propel critical discourse within the context of an art or design practice. (Sp)

ART 2253 Beginning Ceramics 3 Credit Hours

Prerequisite: majors only; ART 1033 and ART 1043. Introduction to various hand-building, glazing and firing techniques. Emphasis placed on developing an understanding of working in three dimensions (with clay as the medium), and on interpreting shape by combining surface color and three-dimensional form. Conceptual and critical issues introduced. (F, Sp)

ART 2313 Beginning Drawing 3 Credit Hours

Prerequisite: majors only; ART 1033 and ART 1043. Uses representational drawing to increase observational abilities. Perspective, value, form, texture, proportion and scale are studied using still life, the figure and outside drawing assignments. (Irreg.)

ART 2413 Beginning Painting 3 Credit Hours

Prerequisite: majors only; ART 1033 and ART 1043. The aqueous media used in various approaches to painting problems (processes and concepts); lectures, group criticism and individual instruction assist the student in studying the fundamentals of painting. (Irreg.)

ART 2523 Beginning Sculpture: Figurative 3 Credit Hours

Prerequisite: majors only; ART 1033 and ART 1043. Creating in oil base clay the human skull and a life-size portrait; creating a waste mold and making a plaster cast from it. (Irreg.)

ART 2533 Beginning Sculpture: Contemporary 3 Credit Hours

Prerequisite: Majors only; ART 1033 and ART 1043. This course will introduce students to the methods of sculpture including material exploration, space investigation and conceptual development of sculptural experiences. Scale, material relationships, craft, context, and final presentation will be fundamental aspects covered in this course. Students will be encouraged to formulate elements of self-expression, research artists & ideas, and develop a vocabulary for constructive criticism. (Irreg.)

ART 2743 Beginning Printmaking 3 Credit Hours

Prerequisites: majors only; ART 1033. This course is a formal introduction to the art of printmaking and the disciplines that comprise it. Students learn to create repeatable matrices in various media, including relief, screen, lithography, and intaglio printing. Technical demonstrations combine with lectures to provide students a sense of the materials, tools, and skills involved in printing as well as printmaking's history and the role it has played in our culture. (Irreg.)

ART 2873 Video for the Artist I 3 Credit Hours

Prerequisite: majors only; ART 1013, ART 1023, ART 1113, ARTC 1003, ARTC 1103. Emphasis on developing video production and post-production skills. Training exercises in studio and field production, camera work, lighting and sound. Instruction and practice in analog and digital editing. Exploration of digital media. Students will produce a number of short projects. (Irreg.)

- ART 2970 Studio Special Topics 1-3 Credit Hours**
Prerequisite: majors only; ART 1033 and ART 1043. May be repeated with change of content; maximum credit nine hours. Special topics course for content not currently offered in regular scheduled courses. (Irreg.)
- ART 3143 Core III: Integrated Studio 3 Credit Hours**
Prerequisite: ART 1033 and ART 1043; Junior standing or above, majors only. Integrated Studio is a junior-level art practice course that engages students in dialogue and collaboration centered around issues related to contemporary art. (F)
- ART 3253 Intermediate Ceramic Design 3 Credit Hours**
Prerequisite: 2253. Continued exploration of various hand-building, glazing and firing techniques. Primarily low fire processes. Formal issues such as sculptural composition, form and surface development, and the interpretation of function addressed. Emphasis placed on developing a personal language of materials and ideas. Progression through the range of ceramic-making skill sets. Conceptual and critical issues expanded. (F, Sp)
- ART 3263 Intermediate Ceramic Processes 3 Credit Hours**
Prerequisite: 2253. Continued exploration of various hand-building, glazing and firing techniques. Primarily high fire processes. Utilitarian and sculptural concerns, creative problem solving, art making strategies addressed. Emphasis placed on developing a personal language of materials and ideas. Progression through the range of ceramic-making skill sets. Conceptual and critical issues expanded. (F, Sp)
- ART 3313 Intermediate Drawing Processes 3 Credit Hours**
Prerequisite: 2313 or permission of instructor. Intermediate life drawing in various media with use of the human figure as the primary subject. The development of drawing processes and proficiency is stressed. (Irreg.)
- ART 3323 Experimental Drawing Practices 3 Credit Hours**
Prerequisites: majors only; junior standing; ART 2313. Drawing will be explored as a unique visual language. An emphasis will be placed on experimentation, exploration and the development of a personal drawing practice. (Irreg.)
- ART 3343 Comics & Sequential Art 3 Credit Hours**
Prerequisite: Majors only and ART 2313; may be repeated; maximum credit 6 hours. Comics and Sequential Art has been designed to gain insight into the depth, complexity, and cultural significance of comics through the making and analyzing of how this art form functions differently from other traditional two-dimensional art mediums. (Sp)
- ART 3353 Collage & Assemblage 3 Credit Hours**
Prerequisite: Majors only, Junior standing, and ART 2313 or permission of instructor; may be repeated; maximum credit 6 hours. This course examines the history, theory, and practice of collage and its use in related mediums including assemblage, installation art, film and video, sound art, etc. Students will learn about major tendencies within the history of the medium, key figures from the past, leading ideas about collage, and techniques for making culture from culture. (Irreg.)
- ART 3413 Intermediate Painting Studio I 3 Credit Hours**
Prerequisite: majors only; junior standing; ART 2413. Personal painting issues are developed in a variety of media. An emphasis on experimentation, exploration, development of imagery and personal expression. (Irreg.)
- ART 3423 Intermediate Painting Studio 2 3 Credit Hours**
Prerequisites: majors only; junior standing; ART 2413. Individual painting issues are pursued through an intense exploration of ideas and technical risk taking. Students will develop research methodologies that will influence their visual and conceptual problem solving. (Irreg.)
- ART 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- ART 3513 Intermediate Sculpture: Contemporary Process 3 Credit Hours**
Prerequisite: ART 2513 or ART 2523 or permission of instructor. Examination of metal fabrication, welding, woodworking (construction and carving), and advanced assembly with nontraditional materials. Concerns in the development of formal visual issues, presentation, concept and theory of contemporary sculpture will be emphasized. (Irreg.)
- ART 3523 Intermediate Sculpture: Figurative Processes 3 Credit Hours**
Prerequisite: 2513, 2523 or permission of instructor on a space available basis. Creating a bas-relief and sculpting the human hand and foot in oil based clay; creating a slip cast mold of the bas-relief for water base clay castings. (Irreg.)
- ART 3533 Sculpture: Digital Fabrication for Artists and Designers 3 Credit Hours**
Prerequisites: majors only; junior standing; ART 2533. Focuses on digital fabrication technologies associated with CAD modeling and vector based digital production. Students will be involved in developing projects that will be constructed using a variety of 3D printing and CNC technologies using plastic, acrylic, metal, wood, and fabrics. Students will be expected to develop a vocabulary of digital production as it relates to contemporary art and design. (Irreg.)
- ART 3543 Intermediate Sculpture: Figurative Small Projects 3 Credit Hours**
Prerequisite: 2513 or 2523 or permission of the instructor. Creating a plaster sculpture(s) with a foam core; students will sculpt several small figurative sculptures from oil based clay. Armatures for smaller sculptures are designed and developed for more complex compositions. (Irreg.)
- ART 3563 Sculpture: Functional Design Studio 3 Credit Hours**
Prerequisites: majors only; junior standing; ART 2533. Investigate function as a means for creative experience and interaction. This includes furniture design, product development, utilitarian objects, and other associated objects that exist functionally within our environment. Design principles, construction techniques, and craft will be emphasized. Students will employ traditional construction techniques as well as digital fabrication to plan, design and build projects that approach utility from various practical and experimental approaches. (Irreg.)
- ART 3743 Intermediate Printmaking I: Lithography and Planar Processes 3 Credit Hours**
Prerequisite: Majors only; ART 2743; May be repeated; maximum credit 6 hours. This section of printmaking is designed for investigating multiple surfaces and processes in intermediate printmaking with an emphasis on drawing. The different levels of each process will allow students to develop their understanding of the basic concepts of the intaglio, lithography and relief processes. (Irreg.)

ART 3753 Intermediate Printmaking II-Screen Printing and Digital Processes 3 Credit Hours

Prerequisite: Majors only; ART 2743; May be repeated; maximum credit 6 hours. This course serves as a practical investigation of photo-process screenprinting and an introduction to various other forms of photo and digital printmaking. Students learn to handle, utilize, and manipulate photosensitive materials and how these materials are commonly utilized in the creation of print media. (F, Sp)

ART 3763 Intermediate Printmaking III-Book Arts 3 Credit Hours

Prerequisite: Majors only; ART 2743; May be repeated; maximum credit 6 hours. Students focus on techniques related to book arts, case building, and letterpress printing as they learn to utilize the formal materials of printmaking (paper, board, and fabric) as expressive elements in their creative process. The concepts that guide bookmaking and book construction are covered in an open and nontraditional manner to allow for experimentation, self-expression, and evolution. (Irreg.)

ART 3823 Concepts in Electronic Media 3 Credit Hours

Prerequisite: Majors only; ATC 2823. Consideration of conceptual and aesthetic issues within technological systems, which may include interactive media, immersive virtual environments, experimental games, visualization & simulation, and 3-D object development. Exposure to a variety of possible technical processes as they consider visual strategies regarding the constraints of visual spaces. Topics may include, but are not limited to 3-D modeling, real-time processing, database/interactive narrative, game play, and strategies for designing objects and environments. A personal laptop is required. (Irreg.)

ART 3853 Intermediate Traditional Photography 3 Credit Hours

Prerequisite: Majors only; ART 2853 or ATC 2853. May be repeated with change of content; maximum credit 6 hours. This course will explore traditional photographic practices. It focuses on the development of concepts in the imagemaking process and explores various means for producing a cohesive body of work. Instructor will determine the content and methodology, but all courses will include refinement of ideas and informed discussion with referential context. Readings and writings will supplement class discussion. Laboratory. (Irreg.)

ART 3863 Intermediate Digital Photography 3 Credit Hours

Prerequisite: Majors only; ART 2853 or ATC 2853. Explores digital photographic practices. Focus on the development of concepts in the image making process, and explores various means for producing a cohesive body of work. The content and methodology will be determined by the instructor, but all courses will include refinement of ideas and informed discussion with referential context. Readings and writings will supplement class discussion. Laboratory. (Irreg.)

ART 3873 Video for the Artist II 3 Credit Hours

Prerequisite: Majors only; ATC 2873. Continuation of ATC 2873. Introduction to advanced imaging and editing techniques. (F)

ART 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated with change of subject matter; maximum credit six hours. Consists of either reading topics or independent study designated by the instructor in keeping with the student's major program. The topics of study will cover materials not usually presented in the regular courses. (F, Sp)

ART 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program, junior or senior standing. May be repeated with change of subject matter; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)

ART 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated with change of subject; maximum credit six hours. Provides an opportunity for the gifted honors candidate to work at a special project in the student's field. (F, Sp)

ART 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

ART 4253 Advanced Ceramics 3 Credit Hours

Prerequisite: 3253, 3263. May be repeated, maximum credit twelve hours. Emphasis on articulating and developing individual projects in ceramics. Students are expected to research materials and techniques pertinent to development and exploration of personal direction of form and ideas. Each student is expected to create a body of work building on prior exploration of color and form in clay and glazes, traditional and/or non-traditional techniques. Emphasis is on students' individual area of interest. (F, Sp)

ART 4323 Advanced Drawing Concepts 3 Credit Hours

Prerequisite: 2313, 2323, 3313, or 3323, 4313. Students are encouraged to refine their portfolio of work representing drawing proficiency and professional maturity. (Irreg.)

ART 4333 Drawing the Natural World 3 Credit Hours

Prerequisite: Majors only, junior standing, and ART 3313 or ART 3323. This course explores methods for observing and drawing natural objects with an emphasis on scientific illustration as an application. Students will gain experience drawing specimens from life, while exploring mediums and conventions specific to the field of scientific illustration. (F, Sp)

ART 4423 Advanced Painting Concepts 3 Credit Hours

Prerequisite: 4413. A series of paintings are created representing a body of work of a professional nature. (Irreg.)

ART 4433 Alternative Painting Practices 3 Credit Hours

Prerequisites: majors only; junior standing; ART 2413, ART 3413, ART 3423. May be repeated; maximum credit 6 hours. Advanced-level topics to be determined by department and which may include materials and techniques; landscape painting; figurative painting or related topics. Each option will permit concentration and encourage realization of conceptual goals. (Irreg.)

ART 4513 Advanced Sculpture: Contemporary 3 Credit Hours

Prerequisite: ART 3513 or ART 3533 or permission of instructor. May be repeated twice; maximum credit nine hours. Self-directed research objectives in terms of sculpture technique, process and concept. Progress relating to personal artistic growth and professional discipline will be expected. Emphasis will be placed on producing a unique body of work for portfolio development and exhibition. (Irreg.)

ART 4533 Advanced Sculpture: Figurative I 3 Credit Hours

Prerequisite: 2513, 3513, 3523. Develop the student's awareness of form through the modeling of the human figure. The students will study the fundamentals of sculpture such as armature, design, materials, tools and techniques. (Irreg.)

ART 4543 Advanced Sculpture: Figurative II 3 Credit Hours

Prerequisite: 4533. Continuation of the techniques developed in 4533. Students will explore more complex compositions and armature designs while modeling the human form. There will be more emphasis on human and animal anatomy. Will expand into the study and application of bas-reliefs. (Irreg.)

- ART 4573 Monumental Sculpture 3 Credit Hours**
Prerequisite: 4543. Students will be introduced to various enlarging techniques, taking a sculpture from the maquette (small version) to life-size or monumental scale. Focus on enlarging with the grid method. Use of a pantograph and the wafer method will also be discussed. Emphasis will be placed on the professional aspects of working with foundries, installations, and clientele. (F)
- ART 4743 Advanced Printmaking Studio 3 Credit Hours**
Prerequisites: majors only, junior standing; Art 3743, ART 3753 or ART 3763. May be repeated; maximum credit 6 hours. Offers advanced instruction in all areas of printmaking. Through discussion, lecture, and demonstration, instructors work closely with students to improve their technical and conceptual acuity. Students expand their formal understanding of print processes as they deepen their focus on the concepts that drive their art practice. (Irreg.)
- ART 4823 Advanced Art and Technology 3 Credit Hours**
Prerequisite: Majors only; ART 3823. May be repeated with change of content; maximum credit 12 hours. Advanced-level topics are determined by department. Individual topics may include, but are not limited to: Interactive Objects and Environment, Experimental Electronics, Sound Synthesis, Virtual Space, and hardware/software/wetware. (Irreg.)
- ART 4833 Experimental Art and Technology 3 Credit Hours**
Prerequisite: Majors only; ART 3823. May be repeated with change of content; maximum credit 12 hours. Experimental topics determined by department, and may include, but not limited to: Art & Science, Expanded Narrative, Game Art, Critical Play, Tactical Media, Sensory Systems, Networks, Bio-media and Participatory Media. (Irreg.)
- ART 4843 Applied Photo Practice 3 Credit Hours**
Prerequisite: 2853 and 3853. May be repeated; maximum credit 15 hours. Explores various applied and practical topics of photography to be determined by department. Topics may include view camera technique, zone system, photo illustration, studio experience and extended research and presentation of related topics. Each option will permit concentration and encourage realization of conceptual goals. (Irreg.)
- ART 4853 Advanced Photo Practices 3 Credit Hours**
Prerequisite: 2853 and 3853. May be repeated with change of content; maximum credit 15 hours. Advanced-level topics to be determined by department and which may include advanced B&W; color; books and portfolios. Extended research and presentation of related topics. Each option will permit concentration and encourage realization of conceptual goals. (Irreg.)
- ART 4863 Alternative Photo Practices 3 Credit Hours**
Prerequisite: majors only; ART 2853 or ATC 2853 and ART 3853. May be repeated; maximum credit 15 hours. Topics of historical processes, contemporary explorations, and alternatives to traditional photo methods to be determined by department (nonsilver I and II; process imagery, alternative color, digital imaging, extended research and presentation, etc.). Each method will permit concentration and encourage realization of conceptual goals. (Irreg.)
- ART 4883 BFA Senior Studio I 3 Credit Hours**
Prerequisite: majors only; senior standing; BFA studio majors having completed a minimum of 12 hours of 3000 or 4000 level studio courses and permission of the instructor. The BFA Senior Studio is an immersive experience of art making, creativity, and thinking. This intensive studio experience is focused on studio practice and research related to the artist's discipline. The expectation is that BFA seniors are working towards a professional career and/or the MFA degree. (F)
- ART 4893 BFA Senior Studio II 3 Credit Hours**
Prerequisite: ART 4883, majors only, senior standing, and permission of the instructor; co-requisite: ART 4993 Senior Experience. The BFA Senior Studio II is a continuation of creative work established in BFA Studio I. Building on their ideas and personal expression, students will refine theoretical and conceptual ideas, expand their research interests, and further develop new work. (Sp)
- ART 4913 Ceramics Studio Topics 3 Credit Hours**
Prerequisite: majors with junior standing or permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Special topics course in ceramics for content not currently offered in regularly scheduled courses. (Irreg.)
- ART 4923 Drawing Studio Topics 3 Credit Hours**
Prerequisite: majors with junior standing or permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Special topics course in drawing for content not currently offered in regularly scheduled courses. (Irreg.)
- ART 4930 Internship 1-6 Credit Hours**
1 to 6 Hours. Prerequisite: permission of instructor; majors only. May be repeated; maximum credit six hours. Students arrange and participate in a professional work experience with an approved internship site. (Irreg.)
- ART 4933 Painting Studio Topics 3 Credit Hours**
Prerequisite: majors with junior standing or permission of the instructor. May be repeated with change of subject matter; maximum credit nine hours. Special topics course in painting for content not currently offered in regularly scheduled courses. (Irreg.)
- ART 4953 Sculpture Studio Topics 3 Credit Hours**
Prerequisite: majors with junior standing or permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Special topics course in sculpture for content not currently offered in regularly scheduled courses. (Irreg.)
- ART 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- ART 4963 Photography Studio Topics 3 Credit Hours**
Prerequisite: majors with junior standing or permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Special topics course in photography for content not currently offered in regularly scheduled courses. (Irreg.)
- ART 4970 Special Topics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: majors with junior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regular scheduled courses. (Irreg.)
- ART 4973 Film and Video Studio Topics 3 Credit Hours**
Prerequisite: majors with junior standing or permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Special topics course in film and video for content not currently offered in regularly scheduled courses. (Irreg.)
- ART 4983 Senior Capstone Experience 3 Credit Hours**
Prerequisite: senior classification. May not be repeated for credit. Primary objective is to provide a culminating experience for the senior-year student. Satisfies the University-wide General Education Requirement for a capstone course for art majors. [V].

ART 4990 Independent Study	1-3 Credit Hours	ART 5243 Graduate Studio Printmaking III	3 Credit Hours
Prerequisite: junior standing or permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. Title is variable only to reflect specific discipline area within the School of Art. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the printmaking studio area. (Irreg.)	
ART 4993 Senior Experience	3 Credit Hours	ART 5253 Graduate Studio Sculpture III	3 Credit Hours
Prerequisite: ART 3143, senior standing, majors only. The primary objective of this class is to provide a culminating experience for the senior-year studio student. There are two primary objectives that must be completed: 1) A written document presented in the form of a self-autobiographical monograph and 2) The artwork you display in the Senior Exhibition. (Sp)		Prerequisite: graduate standing in Art. Individual problems in the sculpture studio area. (Irreg.)	
ART 5013 Graduate Studio Ceramics I	3 Credit Hours	ART 5263 Graduate Studio Photography III	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the ceramics studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the photography studio area. (Irreg.)	
ART 5033 Graduate Studio Painting I	3 Credit Hours	ART 5273 Graduate Studio Film/Video III	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the painting studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the film/video studio area. (Irreg.)	
ART 5043 Graduate Studio Printmaking I	3 Credit Hours	ART 5313 Graduate Studio Ceramics IV	3 Credit Hours
Graduate Studio Printmaking I. Prerequisite: Graduate Standing In Art Individual Problems In The Printmaking Studio Area (Irreg)		Prerequisite: graduate standing in Art. Individual problems in the ceramics studio area. (Irreg.)	
ART 5053 Graduate Studio Sculpture I	3 Credit Hours	ART 5333 Graduate Studio Painting IV	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the sculpture studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the painting studio area. (Irreg.)	
ART 5063 Graduate Studio Photography I	3 Credit Hours	ART 5343 Graduate Studio Printmaking IV	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the photography studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the printmaking studio area. (Irreg.)	
ART 5073 Graduate Studio Film/Video I	3 Credit Hours	ART 5353 Graduate Studio Sculpture IV	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the film/video studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the sculpture studio area. (Irreg.)	
ART 5113 Graduate Studio Ceramics II	3 Credit Hours	ART 5363 Graduate Studio Photography IV	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the ceramics studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the photography studio area. (Irreg.)	
ART 5133 Graduate Studio Painting II	3 Credit Hours	ART 5373 Graduate Studio Film/Video IV	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the painting studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the film/video studio area. (Irreg.)	
ART 5143 Graduate Studio Printmaking II	3 Credit Hours	ART 5413 Graduate Studio Ceramics V	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the printmaking studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the ceramics studio area. (Irreg.)	
ART 5153 Graduate Studio Sculpture II	3 Credit Hours	ART 5433 Graduate Studio Painting V	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the sculpture studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the painting studio area. (Irreg.)	
ART 5163 Graduate Studio Photography II	3 Credit Hours	ART 5443 Graduate Studio Printmaking V	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the photography studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the printmaking studio area. (Irreg.)	
ART 5173 Graduate Studio Film/Video II	3 Credit Hours	ART 5453 Graduate Studio Sculpture V	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the film/video studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the sculpture studio area. (Irreg.)	
ART 5213 Graduate Studio Ceramics III	3 Credit Hours	ART 5473 Graduate Studio Film/Video V	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the ceramics studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the film/video studio area. (Irreg.)	
ART 5233 Graduate Student Painting III	3 Credit Hours	ART 5513 Graduate Studio Ceramics VI	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the painting studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the ceramics studio area. (Irreg.)	
		ART 5533 Graduate Studio Painting VI	3 Credit Hours
		Prerequisite: graduate standing in Art. Individual problems in the painting studio area. (Irreg.)	
		ART 5543 Graduate Studio Printmaking VI	3 Credit Hours
		Prerequisite: graduate standing in Art. Individual problems in the printmaking studio area. (Irreg.)	

ART 5553 Graduate Studio Sculpture VI	3 Credit Hours	ART 5960 Directed Readings	1-3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the sculpture studio area. (Irreg.)		1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)	
ART 5573 Graduate Studio Film/Video VI	3 Credit Hours	ART 5970 Special Topics/Seminar	1-3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the film/video studio area. (Irreg.)		1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)	
ART 5613 Graduate Studio Ceramics VII	3 Credit Hours	ART 5980 Research for Master's Thesis	2-9 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the ceramics studio area. (Irreg.)		Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)	
ART 5633 Graduate Studio Painting VII	3 Credit Hours	ART 5990 Independent Study	1-3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the painting studio area. (Irreg.)		1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)	
ART 5643 Graduate Studio Printmaking VII	3 Credit Hours	ART 6010 Graduate Studio	1-6 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the printmaking studio area. (Irreg.)		1 to 6 hours. Prerequisite: graduate standing - 30 hours. May be repeated with change of subject; maximum credit twelve hours. Individual problems in major studio area, with a choice of medium. (F, Sp, Su)	
ART 5653 Graduate Studio Sculpture VII	3 Credit Hours	ART 6013 Graduate Studio Ceramics XI	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the sculpture studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the ceramics studio area. (Irreg.)	
ART 5673 Graduate Studio Film/Video VII	3 Credit Hours	ART 6033 Graduate Studio Painting XI	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the film/video studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the painting studio area. (Irreg.)	
ART 5713 Graduate Studio Ceramics VIII	3 Credit Hours	ART 6133 Graduate Studio Painting XII	3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the ceramics studio area. (Irreg.)		Prerequisite: graduate standing in Art. Individual problems in the painting studio area. (Irreg.)	
ART 5733 Graduate Studio Painting VIII	3 Credit Hours	ART 6880 Graduate Exhibition	1-4 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the painting studio area. (Irreg.)		1 to 4 hours. Prerequisite: at least 30 hours of graduate credit successfully completed. May be repeated; maximum credit four hours. A special project course culminating in a graduate exhibition presented by the candidate for the Master of Fine Arts degree. Students enrolled will be following the "no thesis" plan. (F, Sp, Su)	
ART 5743 Graduate Studio Printmaking VIII	3 Credit Hours	ART 6960 Directed Readings	1-3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the printmaking studio area. (Irreg.)		1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)	
ART 5753 Graduate Studio Sculpture VIII	3 Credit Hours	ART 6970 Special Topics/Seminar	1-3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the sculpture studio area. (Irreg.)		1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)	
ART 5773 Graduate Studio Film/Video VIII	3 Credit Hours	ART 6990 Independent Study	1-3 Credit Hours
Prerequisite: graduate standing in Art. Individual problems in the film/video studio area. (Irreg.)		1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)	
ART 5813 Graduate Studio Ceramics IX	3 Credit Hours		
Prerequisite: graduate standing in Art. Individual problems in the ceramics studio area. (Irreg.)			
ART 5833 Graduate Studio Painting IX	3 Credit Hours		
Prerequisite: graduate standing in Art. Individual problems in the painting studio area. (Irreg.)			
ART 5843 Graduate Studio Printmaking IX	3 Credit Hours		
Prerequisite: graduate standing in Art. Individual problems in the printmaking studio area. (Irreg.)			
ART 5913 Graduate Studio Ceramics X	3 Credit Hours		
Prerequisite: graduate standing in Art. Individual problems in the ceramics studio area. (Irreg.)			
ART 5933 Graduate Studio Painting X	3 Credit Hours		
Prerequisite: graduate standing in Art. Individual problems in the painting studio area. (Irreg.)			

ARTC-Art Theory & Criticism

ARTC 2813 Introduction to Visual Culture and Media

Literacy

3 Credit Hours

Prerequisite: ENGL 1213. An introduction to the study of media in relationship to modern society and culture. Establish methodologies for describing and analyzing diverse forms of media, including print, television, cinema, and digital communication. Critically examines the historical scholarship, theory, and media practice that informs current conversations in the fields of media and cultural studies. (Irreg.)

ARTC 3440 Mentored Research Experience

3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ARTC 3930 Special Topics In Theory & Criticism

2-6 Credit Hours

Prerequisite: junior Standing. May be repeated with change of content; maximum credit six hours. Covers various topics dealing with diverse issues relating to the visual arts. (Irreg.)

ARTC 3960 Honors Reading

1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

ARTC 3970 Honors Seminar

1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

ARTC 3980 Honors Research

1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

ARTC 3990 Independent Study

1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

ARTC 4513 Understanding Comics, Criticism & Practice

3 Credit Hours

Prerequisites: junior or senior standing; ENGL 1113; ENGL 1213/ EXPO 1213 or EXPO 1223. May be repeated with change of content: maximum credit 6 hours. An online course designed to give insight into the depth, complexity and intellectual significance of comics. The overall goal of this course is for students to understand the visual and conceptual inner-workings of comics. (Irreg.)

ARTC 4853 Photography: Theory and Criticism

3 Credit Hours

Prerequisite: majors with junior standing or permission of instructor. May be repeated with change of content; maximum credit 9 hours. Covers various topics related to critical issues in photographic thought and cultural studies. Students will examine literary resources, view various media sources and participate in a variety of interactions with peers and available guests. (Irreg.)

ARTC 4933 Process and Theory Workshop

3 Credit Hours

(Slashlisted with ARTC 5933; Crosslisted with A HI 4933) Prerequisite: Junior standing or permission of instructor; majors only. May be repeated with change of subject; maximum credit 6 hours. The course will offer a deeper grounding in relevant theoretical issues, as students explore together the interdisciplinary landscapes of contemporary theory and assess their relevance for artistic practice and art historical research. No student may earn credit for both 4933 and 5933. (Irreg.)

ARTC 4943 Business of Art: Professional Practice

3 Credit Hours

(Slashlisted with ARTC 5943) Prerequisite: Junior standing and majors only. This course is designed for students who plan to enter a career in the visual arts. Students will learn professional tactics to improve their marketing and visibility as visual artists. Emphasis on publicity, self-promotion, effective communication, and presentation skills that will assist with career opportunities, exhibition opportunities, management of finances, budgets, and strategies for career growth. No student may earn credit for both 4943 and 5943. (Irreg.)

ARTC 4960 Directed Readings

1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

ARTC 4970 Special Topics/Seminar

1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ARTC 4990 Independent Study

1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

ARTC 5013 Graduate Seminar

3 Credit Hours

Prerequisite: graduate standing. A required course during the first semester that focuses upon developing an informed approach to the art making process. It will utilize readings, writings, and visual references to form a basis for discussions. Each student will conduct a presentation on the aesthetic basis of their own work to the class. (F, Sp)

ARTC 5933 Process and Theory Workshop

3 Credit Hours

(Slashlisted with ARTC 4933; Crosslisted with A HI 5933) Prerequisite: Graduate standing and permission of instructor. May be repeated with change of subject; maximum credit 6 hours. The course will offer a deeper grounding in relevant theoretical issues, as students explore together the interdisciplinary landscapes of contemporary theory and assess their relevance for artistic practice and art historical research. No student may earn credit for both 4933 and 5933. (Irreg.)

ARTC 5943 Business of Art: Professional Practice

3 Credit Hours

(Slashlisted with ARTC 4943) Prerequisite: Graduate standing and permission of instructor. This course is designed for students who plan to enter a career in the visual arts. Students will learn professional tactics to improve their marketing and visibility as visual artists. Emphasis on publicity, self-promotion, effective communication, and presentation skills that will assist with career opportunities, exhibition opportunities, management of finances, budgets, and strategies for career growth. (Irreg.) No student may earn credit for both 4943 and 5943. (Irreg.)

ARTC 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

ARTC 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ARTC 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

ARTC 6881 Thesis Proposal/Statement 1 Credit Hour
Prerequisite: 5013. Provides guidance for the development of the thesis exhibition proposal and the written statement required to accompany the exhibition of visual work. The student enrolls in this course the semester prior to the thesis exhibition and may enroll again for completion of the written component. (F, Sp)

ARTH-Art Therapy

ARTH 3403 Theory and Application of Art Therapy 3 Credit Hours
Prerequisite; junior standing, not for Art or Art History majors. Class considers the underlying principles, prevailing theories, current practice and evolving uses of art therapy with a focus on the theory and interdisciplinary nature of art therapy. In addition, the social and interpersonal applications of art, which are on a continuum with art therapy, will be addressed linking the disciplines of art and therapy. The primary approaches of art psychotherapy and art as therapy will be contrasted and students will create and discuss art within both theoretical frameworks. (Irreg.)

ARTH 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ARTH 3503 Theory and Application of Creative Therapies 3 Credit Hours
Prerequisite: junior standing, not for Art or Art History majors. Class covers a broad range of therapeutic methods which all draw from a theoretical base in the arts, creativity, and expression. A strong focus will be on creativity theory and how it is applied through creative therapy disciplines such as art, music, dance and drama therapy. These creative therapies will be linked in terms of physical and mental outcomes expected and that are documented in the literature and research. Students will be required to take a critical look at both the theoretical basis and the practical applications of these creative modes. (Irreg.)

ARTH 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers topics not usually presented in the regular courses.

ARTH 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

ARTH 3980 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

ARTH 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

ARTH 4950 Art Therapy Practicum 2-6 Credit Hours
Prerequisite: junior standing, two courses in social sciences; not for Art or Art History majors. Class covers a broad range of therapeutic modalities which all draw from a theoretical base in creativity and expression. A strong focus will be on creativity theory and how it is applied through creative therapy modalities. Modalities taught will be linked in terms of physical and mental outcomes expected and that are documented in the creative therapies literature and research. Students will be required to take a critical look at both the theoretical basis and practical application of these creative modes. (Irreg.)

ARTH 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

ARTH 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ARTH 4973 Special Topics in Art Therapy 3 Credit Hours
Prerequisite; 3403 or 3503, not for Art or Art History majors. May be repeated with change of content; maximum credit six hours. Covers various topics dealing with diverse issues relating to the visual arts in therapeutic applications. Special topics allows a focus on one particular area or application of art therapy through readings, artwork (arts-based research protocols), and class discussion. Individualized readings and assignments may focus on a student's interdisciplinary interest. (Irreg.)

ARTH 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

ASTR-Astronomy

ASTR 1504 Astronomy: Exploring the Universe 4 Credit Hours
An introduction to the concepts of modern astronomy. The solar system, the sun and stars, the Milky Way and other galaxies, current theories of the origin, evolution and fate of the universe. Not for major credit. A student may not receive credit for this course and ASTR 1514. (F, Sp, Su) [II-NS].

- ASTR 1514 Astronomy: Exploring the Universe with Laboratory** **4 Credit Hours**
0 to 4 hours. An introduction to the concepts of modern astronomy. The solar system, the sun and stars, the Milky Way and other galaxies, current theories of the origin, evolution, and fate of the universe. Not for major credit. A student may not receive credit for this course and ASTR 1504. Laboratory (F, Sp, Su) [II-NSL].
- ASTR 1523 Life in the Universe** **3 Credit Hours**
Introductory astronomy course focusing on general physical conditions under which life is thought to arise and evolve in the universe. Topics include historical astronomy, gravitation and planetary orbits, the solar system. The earth's geology and atmosphere, stellar evolution, theories for the origin of life on earth, the discoveries of extrasolar planets, and the search for extraterrestrial life. (Sp) [II-NS].
- ASTR 2513 Introductory Astrophysics** **3 Credit Hours**
Prerequisite: PHYS 1215 or 2524, or permission of instructor. An introduction to solar system astronomy and basic astrophysical concepts for majors and students with a knowledge of introductory physics and calculus. Includes planetary system formation, asteroids, comets, terrestrial planets and giant planets. Astrophysical concepts including Keplers laws, blackbody radiation, hydrostatic equilibrium and heat transfer. Elements of astronomy, including time, celestial coordinates, telescopes and detectors, magnitudes and color indices. (F)
- ASTR 2970 Special Topics/Seminar** **1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- ASTR 3103 Stars** **3 Credit Hours**
Prerequisite: 2513 or permission of instructor. Stellar properties and stellar evolution. Includes fundamental properties of stars (temperature, luminosity, mass) and how to determine them, star formation, main sequence, post main sequence, supernovae, black holes, neutron stars, white dwarfs, binary stars. (F)
- ASTR 3113 Galaxies and Cosmology** **3 Credit Hours**
Prerequisite: 2513 or permission of instructor; 3103 strongly recommended. Galactic and extragalactic astronomy. Includes the Milky Way galaxy, the interstellar medium, normal and active galaxies, clusters of galaxies, cosmology. (Sp)
- ASTR 3190 Topics in Astronomy** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. (F, Su)
- ASTR 3440 Mentored Research Experience** **3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- ASTR 3960 Honors Reading** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- ASTR 3970 Honors Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- ASTR 3980 Honors Research** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- ASTR 3990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Sp, Su)
- ASTR G4303 Stellar Astrophysics** **3 Credit Hours**
Prerequisite: 3113 or permission of instructor. Physics of stars: gas and radiation laws, stellar atmospheres and spectra, stellar interiors and evolution. (F)
- ASTR 4523 Advanced Observatory Methods** **3 Credit Hours**
Prerequisite: 2513 and 3103. Techniques of multiwavelength observational astronomy. Includes time and coordinates, physics of astronomical ccds, telescopes, photometry, extinction correction, technical feasibility calculations, optical spectroscopy, and x-ray astronomy. Introductions to gamma-ray, infrared, UV radio astronomy. No student may earn credit for both 4523 and 5523. (Irreg.)
- ASTR 4960 Directed Readings** **1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- ASTR 4970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ASTR 4990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- ASTR 5403 High-Energy Astrophysics** **3 Credit Hours**
Prerequisite: 4303 or permission of instructor. High-energy radiation processes in astronomy: synchrotron radiation, bremsstrahlung, inverse Compton-effect. New wavebands of observation, UV, X-ray and gamma-ray astronomy. Radioastronomy: supernova remnants, pulsars, neutron stars. Radiogalaxies, active galactic nuclei, quasars. Theories of the origin of cosmic rays. (Irreg.)
- ASTR 5453 Extragalactic Astronomy and Cosmology** **3 Credit Hours**
Prerequisite: 3113 or 4303 or permission of instructor. Basic properties of stars. Review of observational tools for extragalactic work. Stellar content and interstellar medium in normal galaxies. Introduction to the theory of Big Bang cosmology. Comparison of observational data to cosmological predictions. The extragalactic distance scale and the age of the universe. Large scale structure: galaxy clusters and superclusters. Active galaxies – radio galaxies and quasars. (Irreg.)

ASTR 5463 Stellar Atmospheres 3 Credit Hours

Prerequisite: 4303 or permission of instructor. Local thermodynamic equilibrium. Radiative transfer, continuous absorption coefficient and model stellar atmospheres. Atomic and molecular spectroscopy and the quantitative analysis of stellar spectra. Atomic processes and departures from local thermodynamic equilibrium. Extended and expanding atmospheres, novae, supernovae. (Irreg.)

ASTR 5473 Stellar Interiors 3 Credit Hours

Prerequisite: 4303 or permission of instructor. Evolution and energy balance of stars including gravitational attraction, nucleosynthesis, radiative and convective energy, transport and equilibrium, construction of stellar models for pre-main sequence and main sequence stars, and the theory of giants and white dwarfs. (Irreg.)

ASTR 5513 Interstellar Medium 3 Credit Hours

4303 or permission. Processes in low-density media are explored, including the physics relevant to emission line objects such as HII and HI regions, molecular clouds, and active galaxies. Techniques for deriving chemical abundances are explored, as are interstellar absorption by gas and dust and radiation transfer. (Irreg.)

ASTR 5523 Advanced Observatory Methods 3 Credit Hours

Prerequisite: 2513 and 3103. Techniques of multiwavelength observational astronomy. Includes time and coordinates, physics of astronomical CCDs, telescopes, photometry, extinction correction, technical feasibility calculations, optical spectroscopy, and x-ray astronomy. Introductions to gamma-ray, infrared, UV radio astronomy. No student may earn credit for both 4523 and 5523. (Irreg.)

ASTR 5900 Seminar in Astrophysics 3 Credit Hours

Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. A research seminar devoted to the study of specialized topics in astronomy and astrophysics. Topics selected will reflect the interest of the instructor and students. (Irreg.)

ASTR 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

ASTR 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ASTR 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

ATC-Art, Technology, and Culture**ATC 2823 Space - Introductory Studio Practice 3 Credit Hours**

Prerequisite: Majors only; ART 1033 and ART 1043. Establishes a foundational perspective that considers embodiment and space in the digital age. Examines how networked information spaces might be understood, intervened with, repurposed, and inhabited as socially navigable spaces. This examination will be supported by an equal commitment to the physical via site specificity and emerging forms of public art practice. The goal is first of all, to engage the term 'space', and secondly, to examine possibilities as that engagement is extended into practice. (Irreg.)

ATC 2853 Image - Introductory Studio Practice 3 Credit Hours

Prerequisites: Majors only; ART 1033 and ART 1043 or concurrent enrollment. An introduction to light and lens-based imaging with a specific emphasis on photography and the photographic image. Instructor determines content and methodology; all courses will include refinement of basic technical skills as well as critical engagement with photography and its ontology. Readings and writings will supplement class discussion. (Irreg.)

ATC 2873 Time - Introductory Studio Practice 3 Credit Hours

Prerequisites: Majors only; ART 1033 and ART 1043. Introduces students to a variety of temporal experience given form in film, video, and uses of the Internet. Time is conceived in terms of: (1) a succession of passing frames, (2) the mediated presence of another consciousness, (3) the inscription of testimony for an archive, (4) the live performance in bodily or vocalized sound, and (5) the re-marking of community over the course of technological change. Basic instruction is provided in the various technologies necessary to explore these topics. (Irreg.)

ATC 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ATC 3843 3D Modeling for Computer Animation 3 Credit Hours

Prerequisite: Majors only. Online intensive digital studio course covers beginning to advanced 3D modeling techniques in industry-standard animation software. Course content includes video tutorials, online discussion forums, projects, and critical feedback. Topics may include using curves, polygon modeling, material shaders, 3D sculpting, texturing, lighting and rendering. (Irreg.)

ATC 3883 2D Computer Animation 3 Credit Hours

Prerequisite: Majors only; ATC 2823, or ATC 2873 or permission of instructor. Introduction to computer animation as an art form. Course content includes technical tutorials, screenings, projects, and critiques. Topics may include stop motion, 2D animation, 3D animation, abstract motion graphics, effects, character design, and narrative and/or experimental approaches. A personal laptop is required. (Irreg.)

ATC 3893 Experimental Animation 3 Credit Hours

Prerequisite: Majors only; ATC 2823 or permission of instructor. Advanced studio course covers abstract and experimental approaches to animation as an art form. Course content includes technical tutorials, screenings, projects, and critiques. Topics may include advanced motion graphics, dynamics simulation, motion capture, and procedural animation. A personal laptop is required. (Irreg.)

ATC 3913 Interface - Code Is Not Neutral 3 Credit Hours

Prerequisite: Majors only; ART 1033 and ART 1043. This course teaches students to how to design and develop interactive User Interface and Extended Reality web products. Technical instruction covers the design and development process from wire framing, to mockups, to developing, to testing and debugging a usable web product. (Irreg.)

ATC 4863 BFA Studio 3 Credit Hours

Prerequisites: Majors only; ATC 2823, ATC 2853, and ATC 2873; admission to ATC major. May be repeated with change of content; maximum credit 12 hours. In this course, students develop research techniques in support of their studio practice. Seemingly diverse concentrations (for example: photography, performance, and robotics) synthesize with a common intent to investigate and communicate ideas. Students are exposed to experiences involving professional practices, including critical critique, proposed solutions and examinations of problems, public speaking/discourse, writing about art, and the formal presentation of artworks. Students' effort are concentrated through the series of Studio/Seminar courses that culminate in the public presentation of their thesis. (Irreg.)

ATC 4883 Narrative Animation 3 Credit Hours

Prerequisite: Majors only; ATC 3843 or ATC 3883 or ATC 3893 or permission of instructor. Advanced studio course covers narrative and cinematic approaches to animation as an art form. Course content includes technical tutorials, screenings, projects, and critiques. Topics may include storyboarding, character design, rigging, sound design, motion capture, dynamics, and advanced rendering techniques. A personal laptop is required. (Irreg.)

ATC 4893 Expanded Animation 3 Credit Hours

Prerequisite: Majors only; ATC 3843 or ATC 3893 or permission of instructor. Advanced studio course exploring special topics in animation which may include virtual reality, augmented reality, motion tracking, motion capture, projection mapping, and immersive media installation. A personal laptop is required. (Irreg.)

AVIA-Aviation

AVIA 1013 Introduction to Air Traffic Control 3 Credit Hours

Prerequisite: Permission of the department. The purpose of this course is to learn about the air traffic control system from both the pilot and controller's perspectives. This course is the first of eight ATC courses required for the Air Traffic Management degree path or ATC minor and a prerequisite for basic air traffic control regulations. (F, Sp)

AVIA 1111 Aviation Orientation 1 Credit Hour

Prerequisite: Majors only and departmental permission. Required orientation course for all declared Aviation Majors during their first semester. Orients students to the department, curriculum, resources, and provides an overview of the various aviation professions. Guest lecturers will include departmental instructors covering all aspects of the industry, as well as the advising staff. (F, Sp)

AVIA 1113 Introduction to Aviation 3 Credit Hours

Prepares student to take the FAA private pilot written examination. Covers FAR's, meteorology, aerodynamics, flight physiology, performance charts, radio navigation techniques. (F, Sp, Su)

AVIA 1133 Private Ground - Helicopter 3 Credit Hours

Prerequisite: departmental permission. Prepares students to take the FAA Computer Knowledge Test. Students will develop the knowledge specified by 14 CFR Section 141App B 3 (b) for a Private Pilot Rotorcraft/Helicopter certificate. (F, Sp, Su)

AVIA 1213 Basic Air Traffic Control Regulations 3 Credit Hours

Prerequisite: AVIA 1013 and permission of the department. This course is a progressive continuation of introduction to air traffic control and a prerequisite for general air traffic control procedures. This course is more narrowly focused on study and interpretation of the FAA orders and regulations that govern the air traffic control system and the national airspace system. (Sp, Su)

AVIA 1222 Primary Flying 2 Credit Hours

Prerequisite: 1113 or permission of department. Includes in-flight instruction with effort directed toward obtaining FAA certification as a private pilot. Third class medical must be obtained prior to flying. (F, Sp, Su)

AVIA 1332 Private Flight - Helicopter 2 Credit Hours

Prerequisite: departmental permission. Prepares students with the knowledge, skill, and aeronautical experience necessary to meet the requirements for a private pilot certificate with a rotorcraft/helicopter category. (F, Sp, Su)

AVIA 2013 General Air Traffic Control Procedures 3 Credit Hours

Prerequisite: AVIA 1013, 1213, and permission of the department. This course will present the study of "general control" procedures used in the terminal and en route control options as well as FAA flight service processes and procedures. This course will serve as a prerequisite for airport traffic control procedures. (F)

AVIA 2231 Advanced Flying 1 Credit Hour

Prerequisite: AVIA 1222 or private pilot certificate. Flight instruction in preparation for FAA commercial pilot certificate. (F, Sp, Su)

AVIA 2341 Secondary Flying 1 Credit Hour

Prerequisite: 2231. Consists of cross-country experience under the direct supervision of an instructor pilot. Part of the FAA Part 141 commercial certification course. (F, Sp, Su)

AVIA 2513 The History of Aviation 3 Credit Hours

Prerequisite: Must be a declared aviation major with permission of the department. Chronicles the history of aviation through an in-depth study of powered flight and focus on the development of civil, commercial, and military aviation. Covers significant events and people throughout aviation history from the first powered flight through present day developments and a brief look into the future. Also examines the impact of aviation on recreation, transportation, warfare, and exploration. (F, Sp)

AVIA 2613 Aviation Safety 3 Credit Hours

Prerequisite: Sophomore standing and departmental permission. This course will examine all aspects of accidents/incidents involving airline and general aviation flights. It examines those areas from the perspective of pilots, crew members, air traffic controllers and National Transportation Safety Board (NTSB) findings. Each accident/incident is dissected with the goal of determining what went wrong and lessons that can be learned. (F, Sp)

AVIA 2970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Must be a declared aviation major with permission of the department. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

AVIA 3013 Career Development for Aviation Professionals 3 Credit Hours

Prerequisite: Sophomore standing and must be a declared aviation major with permission of the department. This course will provide an overview of the career planning process for aviation students. Students will master the techniques of self-assessment, resume and letter writing, interviewing, researching companies, proper writing techniques, ethics and etiquette, and networking. This course is intended to help students prepare for internship interviews or entering the aviation industry as a professional. (F, Sp)

AVIA 3103 Flight Deck Environmental Issues 3 Credit Hours

Prerequisite: Must be a declared aviation major and departmental permission. Human-machine interface issues in today's modern flight deck are the focus of the course. Leading to that end, the student will explore the cognitive and psychomotor domains of learning, review studies of aircrew interface problems, learn coping mechanisms used by today's best aviation trainers to overcome design-induced problems in cockpit advanced technology. (F, Sp)

AVIA 3111 Advanced Flight Maneuvers 1 Credit Hour

Prerequisite: 1222 or FAA private pilot certificate. Increase the student's knowledge and understanding of advanced flight maneuvers. Accelerated stalls, spins, inverted flight, and recovery from unusual altitudes. Advanced aerodynamics will be discussed and demonstrated. (F, Sp, Su)

AVIA 3113 Commercial Aviation 3 Credit Hours

Prerequisite: AVIA 3133 or instrument rating and permission of the department. Course provides the student the knowledge required to obtain a commercial pilot certificate. (F, Sp, Su)

AVIA 3123 Instrument Ground - Helicopter 3 Credit Hours

Prerequisite: Sophomore standing and departmental permission; AVIA 1133 and AVIA 1332 with grade of C or better. Prepare students with the knowledge specified by 14 CFR Section 61.65 and 14 CFR Section 141 Appendix C for an Instrument Pilot Rotorcraft/Helicopter certificate. (F, Sp, Su)

AVIA 3133 Fundamentals of Instrument Flight 3 Credit Hours

Prerequisite: 2231 and private pilot license. Federal aviation regulations as pertain to instrument flight rules (IFR), weather and forecast products, interpretation of en route low altitude charts and terminal instrument approach procedures, instrument flight procedures and techniques. (F, Sp, Su)

AVIA 3143 Commercial Ground Helicopter 3 Credit Hours

Prerequisite: Sophomore standing and departmental permission; AVIA 1133, AVIA 1332, AVIA 3123 and AVIA 3532 with grade of C or better. Prepare students with the knowledge specified by 14 CFR Section 61.125 for a Commercial Pilot Rotorcraft/Helicopter certificate. (F, Sp, Su)

AVIA 3213 Airport Traffic Procedures 3 Credit Hours

Prerequisite: AVIA 1013, 1213, 2013, and permission of the department. The primary focus of this course is to study visual air traffic control procedures, specifically, to learn the principles of operation and the separation methods required in the air traffic control tower environment. This course will serve as a prerequisite for IFR Air Traffic Control Procedures. (Sp)

AVIA 3313 IFR Air Traffic Procedures 3 Credit Hours

Prerequisite: AVIA 1013, 1213, 2013, 3213, and permission of the department. Focus on the requirements and procedures used in the IFR air traffic control environment. The students will study all of the separation standards and rules used in radar and non-radar environments in the approach control and air route traffic control facilities. This course will serve as a prerequisite for Air Traffic Simulation. (F)

AVIA 3333 Survey of Aviation Law 3 Credit Hours

Prerequisite: AVIA 1113, junior standing, and permission of the department. Survey of legal issues in aviation. The student will review legislation, regulatory agencies, and case studies dealing with legal issues in the medium of airspace above the ground-predominantly over the United States. The student will be able to identify and comprehend the historical events and technical terms that describe national and international legal precedents that have shaped aviation law. (F, Sp)

AVIA 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

AVIA 3513 Airport Operations Management 3 Credit Hours

Prerequisite: AVIA 1113, junior standing, permission of the department, and must be a declared Aviation major. Provides the student with an in-depth analysis of airport management, operations and planning functions necessary to operate, develop, and maintain safe and efficient airport facilities as is the practice in the United States. Also introduces air traffic control (ATC) concepts. (F, Sp)

AVIA 3532 Instrument Flying - Helicopter 2 Credit Hours

Prerequisite: Sophomore standing and departmental permission; AVIA 1133 and AVIA 1332 with grades of C or better. Prepare students with the knowledge, skill, and aeronautical experience necessary to meet the requirements for an Instrument Pilot Rating with a rotorcraft/helicopter category to include Preflight Preparation, Preflight Procedures, Air Traffic Control Clearances & Procedures, Flight by Reference to Instruments, Navigation Systems, Instrument Approach Procedures, Emergency Operations and Post-flight Procedures. (F, Sp, Su)

AVIA 3572 Instrument Flying 2 Credit Hours

Prerequisite: 3133 and private pilot certificate. Individual flight simulator instruction in the technique of flying solely by reference to instruments. Ground instruction in radio navigation, meteorology, instrument approach procedures, air traffic control procedures and federal aviation regulations. (F, Sp, Su)

AVIA 3581 Multi-Engine Flying 1 Credit Hour

Prerequisite: 4552 or commercial pilot certificate. A study of the design, construction and flight characteristics of multiengine aircraft. Inflight instruction in pilotage and operation of multiengine airplanes. Designed to qualify the student for certification as a multiengine pilot. (F, Sp, Su)

AVIA 3913 Aerospace Contract Administration 3 Credit Hours

Prerequisite: Junior standing, permission of the department, and must be a declared aviation major. Survey and study of specialized procedures used in the management and administration of aerospace (aviation) contracts, particularly associated with commercial and defense systems acquisitions. Students will use case study analysis, involving aerospace development and acquisition procedures, to enhance the learning experience and prepare them for future employment in the aerospace industry. (F)

- AVIA 3923 Aerospace Operational Research 3 Credit Hours**
Prerequisite: Junior standing, must be a declared Aviation major, and departmental permission. Students will be introduced to the fundamental methods and techniques employed by the aviation/aerospace industry when researching and analyzing operational issues. Students will be able to use specialized research methods to collect data, analyze it, and then draw logical conclusions. Knowledge, skills, and abilities learned in this course will prepare students for Senior Capstone. (F)
- AVIA 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- AVIA 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Ireg.)
- AVIA 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- AVIA 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- AVIA 4004 Air Traffic Control Tower Simulation 4 Credit Hours**
Prerequisite: AVIA 1013, 1213, 2013, 3213, 3313, and 4013; all with minimum grade of C; and permission of the department. Provides students an opportunity to apply knowledge learned in previous air traffic control courses, specifically AVIA 3213, and expand the knowledge base of terminal ATC procedures. The application and expansion of knowledge will occur in lectures and through working in a high fidelity, simulated ATC tower environment. (F)
- AVIA 4013 En-Route Radar Lab 3 Credit Hours**
Prerequisite: AVIA 1013, 1213, 2013, 3213, 3313; all with minimum grade of C; and permission of the department. Lab to prepare student for on-the-job training in an FAA En-Route Air Traffic Control facility. Course will consist of dynamic simulation exercises in an ATC computer lab as well as classroom briefings. Students will run scenarios as the controller and as a pseudo pilot. Course objectives are based on federal guidelines by the Federal Aviation Administration. (Sp)
- AVIA 4023 Tracon Radar Lab 3 Credit Hours**
Prerequisite: AVIA 1013, 1213, 2013, 3213, 3313, 4004, and 4013; all with minimum grade of C; and permission of the department. Lab to prepare students for on-the-job training in an FAA Terminal Radar Air Traffic Control facility. Course will consist of dynamic simulation exercises in an ATC computer lab as well as classroom briefings. Students will run scenarios as the controller and as a pseudo pilot. Objectives are based on federal guidelines by the Federal Aviation Administration. (Sp)
- AVIA 4033 EnRoute Radar Lab-Enhanced Follow On 3 Credit Hours**
Prerequisite: Junior standing; AVIA 1013, AVIA 1213, AVIA 2013, AVIA 3313, and AVIA 4013, all with a minimum grade of C. Provides students an opportunity to apply knowledge learned in previous air-traffic-control courses, including AVIA 3313 and AVIA 4013, and to prepare student for on-the-job training in an FAA EnRoute Air Traffic Control facility. Course consists of simulation exercises in an ATC computer lab as well as classroom briefings. Students will run scenarios as the controller and as a pseudo pilot. (F, Sp, Su)
- AVIA 4043 ATC Tower Simulation Enhanced Follow On 3 Credit Hours**
Prerequisite: Junior standing; AVIA 1013, AVIA 1213, AVIA 2013, AVIA 3313, AVIA 4013, and AVIA 4004, all with minimum grade of C. This course provides students an opportunity to apply knowledge learned in previous air traffic control courses, specifically AVIA 4004, and expand the knowledge base of terminal ATC procedures. The application and expansion of knowledge will occur in lectures and through working in a high fidelity, simulated ATC tower environment. (F, Sp, Su)
- AVIA 4113 CFI Seminar 3 Credit Hours**
Prerequisite: 3133, 3113. Increase student knowledge of theories of learning, flight instructor authority, and responsibility and classroom and flight techniques. Emphasis on principles of instruction, student motivation and maneuver error analysis. (F, Sp, Su)
- AVIA 4123 Helicopter Flight Instructor Ground 3 Credit Hours**
Prerequisite: Junior standing and departmental permission; AVIA 1133, AVIA 1332, AVIA 3123, AVIA 3532, AVIA 3143 and AVIA 4332 with grade of C or better. Prepare student instructor candidates with the knowledge specified by 14 CFR Section 61.181 and 14 CFR Section 141 Appendix F for a Flight Instructor Pilot Rotorcraft/Helicopter certificate. (F, Sp, Su)
- AVIA 4313 Turbine Transition 3 Credit Hours**
Prerequisite: AVIA 3581, 4552, and permission of the department. Introduce the student to the procedures of flying a turbine aircraft and the concepts of crew resource management. Emphasis is placed on the basic terminology and procedures and emergency operations. (F, Sp, Su)
- AVIA 4332 Commercial Flying - Helicopter 2 Credit Hours**
Prerequisite: Sophomore standing and departmental permission; AVIA 1133, AVIA 1332, AVIA 3123 and AVIA 3532 with grade of C or better. Prepare students with the knowledge, skill, and aeronautical experience necessary to meet the requirements for a Commercial Pilot Certificate with a rotorcraft/helicopter category. (F, Sp, Su)
- AVIA 4423 Crew Resource Management 3 Credit Hours**
Prerequisite: AVIA 1113, junior standing, permission of the department, and must be a declared aviation major. To teach the student the principles and procedures of a two or more person cockpit. Includes: briefings, call-outs, and emergency procedures. (F, Sp)
- AVIA 4552 Commercial Flying 2 Credit Hours**
Prerequisite: 3113. The final stage of the FAA Part 141 commercial pilot certification course. Designed to polish pilot skills in commercial aircraft maneuvers. (F, Sp, Su)
- AVIA 4602 Flight Instructor-Airplane 2 Credit Hours**
Prerequisite: commercial pilot certificate and instrument rating. Flight instruction in preparation for FAA flight instructor certificate. (F, Sp, Su)
- AVIA 4613 Instrument Flight Instructor 3 Credit Hours**
Prerequisite: commercial pilot certificate and flight instructor-airplane certificate. Consists of lecture and flight instruction in the specialized teaching techniques and procedures required of an instrument flight instructor. At the end of the course, the student will meet the requirements for certification by the FAA as an instrument flight instructor. (F, Sp, Su)

AVIA 4632 Flight Instructor - Helicopter 2 Credit Hours

Prerequisite: Junior standing and departmental permission; AVIA 1133, AVIA 1332, AVIA 3123, AVIA 3532, AVIA 3143 and AVIA 4332 with grade of C or better. Prepare students with the knowledge, skill, and aeronautical experience necessary to meet the requirements for a Certified Flight Instructor Rating with a rotorcraft/helicopter category. (F, Sp, Su)

AVIA 4642 Instrument Instructor Helicopter Flight 2 Credit Hours

Prerequisite: Junior standing and departmental permission; AVIA 1133, AVIA 1332, AVIA 3123, AVIA 3532, AVIA 3143, AVIA 4332, AVIA 4123 and AVIA 4632 with grade of C or better. Prepare students with the knowledge, skill, and aeronautical experience necessary to meet the requirements for an Certified Flight Instructor Instrument Pilot Rating with a rotorcraft/helicopter category to include Preflight Preparation, Preflight Procedures, Air Traffic Control Clearances & Procedures, Flight by Reference to Instruments, Navigation Systems, Instrument Approach Procedures, Emergency Operations and Post-flight Procedures. (F, Sp, Su)

AVIA 4643 Instrument Instructor Ground - Helicopter 3 Credit Hours

Prerequisite: Junior standing and departmental permission; AVIA 1133, AVIA 1332, AVIA 3123, AVIA 3532, AVIA 3143, AVIA 4332, AVIA 4123 and AVIA 4632 with grade of C or better. Prepare the student with the knowledge specified by 14 CFR Section 61.65 and 14 CFR Section 141 Appendix G for the Flight Instructor Instrument Rotorcraft/Helicopter Rating. (F, Sp, Su)

AVIA 4663 Survey of Aerospace Ethical Issues 3 Credit Hours

Prerequisite: Junior standing, permission of the department, and must be a declared aviation major. A survey of past and present ethical issues influencing the development of ethical behavior among U.S. aerospace companies and commercial and corporate aviation. Individual development of defense mechanisms to ensure ethical behavior in competitive environments. (F, Sp, Su)

AVIA 4713 Senior Capstone 3 Credit Hours

Prerequisite: senior standing, permission of department, and all major upper-division courses or concurrent enrollment. This project course builds on the accumulated knowledge from all courses to date. Lectures will cover problem identification, analysis, generation of alternatives, cost/benefit studies, interviews and presentations. Student teams will analyze and make recommendations on an actual problem for an aviation related organization, such as the FAA. (F, Sp) [V].

AVIA 4803 Aviation Mental Health: Psychological Implications for Air Transportation 3 Credit Hours

Prerequisite: junior standing, permission of the department, and must be a declared aviation major. Students will learn about mental health issues relevant to passengers, cabin crew, and flight deck crew—that have far-reaching psychological implications for all those who travel by means of air transportation—through the experiences of flight attendants, pilots, clinicians, researchers, trainers, and professors. (Sp, Su)

AVIA 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

AVIA 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing and permission of department; May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

AVIA G4983 Airline Management 3 Credit Hours

Prerequisite: Junior or graduate standing, and departmental permission; must be a declared aviation major. Study of the managerial aspects of the airline industry to include economic and organizational characteristics, marketing, operational scheduling, fleet planning, and labor relations. Students participate in management simulation as senior executives of a regional domestic carrier. (F, Sp)

AVIA 4990 Special Studies in Aviation 1-4 Credit Hours

1 to 4 hours. Prerequisite: departmental permission. Will encompass various aviation-related topics including many specialty flight programs; such as, aerobatic instruction, multiengine training, pilot refresher training, etc. (F, Sp, Su)

B AD-Business Administration

B AD 1001 Personal Computing Productivity Tools 1 Credit Hour

B AD 1001 is designed to help all business majors and business minors succeed as students and young professionals. Being able to effectively utilize OneDrive (cloud storage system) and Microsoft Excel are skills recognized by all employers. These skills allow young professionals to differentiate themselves from others when applying for internships or jobs. (F, Sp, Su)

B AD 1010 Passport to Success II 0 Credit Hours

Prerequisite: Degree Candidacy. Collection of curricular, co-curricular and extracurricular activities that enable students to succeed in the workplace regardless of major within Price College of Business. Students are required to earn a total of 40 "milestones" to successfully graduate from Price College. At least five and no more than seven milestones should be earned each semester. Milestones are chosen from an approved list. (F, Sp)

B AD 1523 Business for People, Prosperity, and the Planet 3 Credit Hours

This course introduces students to the world of business while supporting their transition to the University of Oklahoma and building a collaborative learning community. This course uses a business simulation to help you build cultural fluency, critical thinking, civil discourse, citizenship, and community engagement, which are all keys to their success in college and beyond. (F, Sp) [V-FYE].

B AD 2091 Career Readiness I-Transitioning to the Workplace 1 Credit Hour

Prerequisite: Business majors only. Introduces students to the professional world of business. Emphasizes important aspects such as business culture, communications, ethics, social responsibility and business skills development. Prepares students for a professional future and to identify and address strengths and weaknesses for earning that first job. Includes Career Services registration, creation of a usable resume, and exploration of people skills necessary for success. (F, Sp)

B AD 2113 Introduction to Business I 3 Credit Hours

Designed for non-Business majors. Gives each student a comprehensive introduction to the study of business. Focuses on creation and maintenance of a long-term strategic vision for the firm. Introduces and builds an understanding of the functional business areas such as management, marketing, accounting, finance, and information systems. The concepts learned are essential in managing business activities in an increasingly competitive business world. (F, Sp)

- B AD 2970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- B AD 3013 Integrated Business Core Practicum 3 Credit Hours**
Prerequisite: ACCT 2123 or concurrent enrollment; Corequisite: enrollment in Integrated Business Core (L S 3323, MGT 3013, MKT 3013); Students must be approved for degree candidacy by Price College. Students will apply concepts from the corequisite courses to their own start-up business ventures and to community service projects. (F, Sp)
- B AD 3091 Career Readiness II-Advancing in the Workplace 1 Credit Hour**
Prerequisite: Student must be approved for degree candidacy by Price College, junior standing, and B AD 2091. An immersive course designed to explore areas of professional development that will help lead students on a path to a successful career. As an accompaniment to BAD 2091-Business and Professional Basics, this course is designed to further explore areas that will help you, the student, become a more successful, well-rounded business professional as you seek internships and full-time job placement. (F, Sp)
- B AD 3113 Managing Corporate Communication 3 Credit Hours**
(Crosslisted with MGT 3113) Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914; B C 2813. Strategic Communication challenges students to master their writing, listening, presentation, and interpersonal communication skills to excel in various business environments. Students will also develop strategies to promote customer engagement and loyalty through social media review sites. Emphasis is placed on credibility management, audience analysis, research, revision, and rehearsal to equip students for professional success. (F, Sp)
- B AD 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- B AD 3513 International Business 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy in the Price College of Business; ACCT 2123 or concurrent enrollment. The nature and economic role of the multinational corporation including the impact of legal, political, educational, sociological, and cultural variables upon firm performance and managerial activity; case studies illustrate managerial, marketing, financial and accounting activities projected across national boundaries. (F, Sp)
- B AD 3700 Internship in Business Administration 1-3 Credit Hours**
1 to 3 hours. Prerequisite: student must be approved for degree candidacy by Price College; permission showing approval from the designated faculty or advisor overseeing internships for credit. (F, Sp, Su)
- B AD 3710 Topics in Business Administration 1-3 Credit Hours**
1 to 3 hours. Prerequisite: student must be approved for degree candidacy in Price College of Business. May be repeated; maximum credit nine hours. Permits students to study topics in business administration not included in standard course offerings. Subject of course will vary. (F, Sp, Su)
- B AD 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted honors candidate to study materials not usually presented in regular courses. (F, Sp, Su)
- B AD 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- B AD 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program; junior standing. May be repeated; maximum credit six hours. Independent research on special projects. (F, Sp)
- B AD 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- B AD 4013 Business Strategy and Policy 3 Credit Hours**
Prerequisite: senior standing and completion of all other College of Business core courses. Administrative decision making with emphasis on analyzing business problems, formulating policies and implementing plans for action; comprehensive cases provide the opportunity to study the proper interrelationships among production, finance, marketing and the many other functions involved in managing a business enterprise. Should be taken in student's final semester. (F, Sp, Su) [V].
- B AD 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- B AD 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- B AD 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- B AD 5001 Quantitative Methods and Modeling I 1 Credit Hour**
Prerequisites: graduate standing; departmental permission. Review of important mathematical concepts used in business decision making (emphasis on problem solving). Spreadsheets are used as the principal device for building models. The course covers concepts in the effective spreadsheet design and use. Through development and usage of specific spreadsheets, students will become well-versed in verbalizing, visualizing, forming equations, and calculating answers to key types of business problems. (Irreg.)
- B AD 5010 Foundations of MBA Success 0 Credit Hours**
Prerequisites: departmental permission; graduate standing; majors only. This course provides an orientation to the Price MBA program, and is an essential ingredient for succeeding in the program and beyond. (F)

- B AD 5101 MBA - Professional Development 1 Credit Hour**
Prerequisite: admission to MBA program. Stresses professional development skills. Designed to prepare students for their professional careers and the job search process in particular. Topics include: resume writing, job search and interview, negotiation skills, business etiquette, career decisions, and project and career management. (F)
- B AD 5102 Managerial Economics 2 Credit Hours**
Prerequisites: graduate standing; departmental permission. Microeconomic concepts and analysis as used in managerial decision-making with emphasis on marginal analysis, comparative advantage, resource allocation, opportunity cost, demand and supply, elasticity, economic efficiency, price discrimination, welfare analysis, production and cost functions, productivity, market structures, externalities and public goods, game theory, information asymmetry, market signaling, and government regulation of anti-competitive behavior. (Irreg.)
- B AD 5122 Quantitative Analysis I 2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. This course examines key probability and applied statistical concepts. General course objectives are: 1) enhanced Excel modeling skills; 2) understanding and use of descriptive statistics; 3) basics of probability theory; 4) use and interpretation of various probability models; 5) ANOVA; and 6) regression analysis. Microsoft Excel will be used to illustrate many of these topics. (Irreg.)
- B AD 5172 Business, Government and Society 2 Credit Hours**
Prerequisite: graduate standing, admission into Business graduate program and department permission. Within the study of business, emphasis is placed upon market competition while little attention is paid to "non-market" conditions. Examples of non-market issues include: legislation, lawsuits, etc. Non-market conditions are often reviewed as external events having limited effect upon the strategies of the firm. This course seeks to integrate these concepts/ demonstrate the importance of strategically managing these issues. (Su)
- B AD 5182 Quantitative Analysis II 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and B AD 5122. This course expands treatment of multiple regression analysis and pursues other models and analytical techniques for actionable managerial decision making. Data analysis techniques in the context of Business Intelligence are covered. Specific techniques include multiple regression models and implications of violation of classical assumptions, basic forecasting techniques, linear programming, and optimization and simulation techniques for decision support. (Irreg.)
- B AD 5201 MBA - Professional Development II 1 Credit Hour**
Prerequisite: B AD 5101. This course will enable students to develop critical skills needed to identify, prepare for, and pursue a post MBA career. The course will focus on real-world and practical aspects of the business arena. Students will interact with key business leaders representing a variety of industries and functional areas. (Sp)
- B AD 5202 Career & Professional Development 2 Credit Hours**
Prerequisite: Admission into the Professional MBA or Online MBA Program, Graduate Standing, and Departmental Permission. This course will prepare MBA students for the world of work. This class will enable students to develop the critical skills necessary to identify, prepare for, and confidently pursue a post-MBA career - and ultimately become great business leaders. The course will also focus on real-world and practical skills to succeed in the workplace. (F, Sp)
- B AD 5302 Advanced Leadership 2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. You will explore leadership traits, behaviors, styles, and skills that are important to being an effective leader. We will highlight research in leadership and review important business concepts from business press and books. You will be asked to deeply reflect on your current leadership situation and create an actionable development plan that will move your forward in your leadership career. (Irreg.)
- B AD 5312 Strategic Communication 2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. Strategic Communication challenges students to master writing, listening, presentation, and interpersonal skills to lead in business environments. Students will develop strategies to promote engagement and loyalty with internal and external stakeholders. Emphasis is placed on credibility management, audience analysis, research, revision, and rehearsal to equip students for professional success. (Irreg.)
- B AD 5322 Strategic Leadership & Communication in the Workplace 2 Credit Hours**
Prerequisite: Graduate standing. In today's workplace, the most influential leaders are self-aware, emotionally intelligent, and continuously strive to improve the skills necessary to manage and lead professionally. These leaders are also excellent communicators committed to strengthening their speaking & listening skills. In this course, students will explore methods to improve their ability to lead and communicate effectively at any level of leadership. (Su)
- B AD 5490 Readings in Business Communication and Business Administration 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission. May be repeated; maximum credit 12 hours. Preparation and submission of a research report on an assigned comprehensive topic relating to the business enterprise or to its ethical environment. (F, Sp, Su)
- B AD 5812 Global Business Experience 2 Credit Hours**
Prerequisite: graduate standing and department permission. The course will focus on a study-abroad experience in a specific country. Students will have in-class instruction prior to and during their trip. Students will visit local and U.S. businesses; interact with and governmental leaders; participate in cultural events and experience local customs and culture; analyze cases involving the country; and, complete a written report. (Irreg.)
- B AD 5822 Business Consulting Practicum 2 Credit Hours**
Prerequisite: graduate standing and department permission. This course applies the "Design Thinking" approach, which relies on rapid action followed by interaction and then reflection, to business consulting projects. It offers an immersive experience to students by using a hands-on, iterative approach to collaboratively solving real world business problems, and may include developing innovative products, processes and services. (Sp)
- B AD 5832 Applied Field Project 2 Credit Hours**
Prerequisite: Graduate standing or department permission. This semester-long course will provide experiential learning in a student's area of specialization and thereby enable them to apply their academic knowledge to real world contexts. Students specializing in different academic areas will be matched with internships in those areas. (F)

B AD 5902 Strategic Management 2 Credit Hours

Prerequisite: graduate standing and permission of the department. The study of management decisions and actions to improve an organization's competitiveness in global business environments. Uses a variety of pedagogies to integrate strategies. Students develop skills to formulate, implement, and evaluate organizational strategies in rapidly changing environments. This course is an integrative/cross-functional course. (F, Su)

B AD 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

B AD 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

B AD 5973 Seminar 3 Credit Hours

Prerequisite: graduate standing, permission (Director-CBA Graduate Programs). May be repeated with change of topic; maximum credit nine hours. A seminar for graduate students with topics to be announced each time the course is offered. (F, Sp, Su)

B AD 5980 Research for Master's Thesis 2-9 Credit Hours

Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

B AD 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

B AD 6243 Applied Univariate Statistics 3 Credit Hours

Prerequisite: Ph.D. standing or permission of instructor, permission (director-CBA graduate programs). Probability, algebra of expectations, random sampling, sampling distributions, point and interval estimation, tests of hypotheses, parametric and nonparametric, sampling methods, survey design, general linear model, computer applications, statistical analysis system. (F)

B AD 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

B AD 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

B AD 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisites: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

B AD 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

B C-Business Communication

B C 2813 Strategic Communication for Business Professionals 3 Credit Hours

Prerequisite: Business majors or other majors approved by Price College advising; ENGL 1213 or EXPO 1213 or equivalent. Introduces the strategies, processes, and resources necessary for writers in business and professional contexts. Students practice informative and analytical business genres while gaining expertise in research, writing, and revision. (F, Sp, Su)

B C 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

B C 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

B C 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

B C 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

B C 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

BASN-Bassoon

BASN 2000 Freshman and/or Sophomore Secondary Bassoon 1-2 Credit Hours

1 to 2 hours. Prerequisite: permission of adviser and instructor. May be repeated; maximum credit toward B.F.A., B.M.A., B.M.E., and B.M. degrees, eight hours. For freshman and sophomore music students studying in a secondary (or minor) performance area. (F, Sp, Su)

BASN 2020 Bassoon for Music Majors; Freshman/Sophomore 2-4 Credit Hours

2 to 4 hours. Prerequisite: Majors only. May be repeated; maximum credit 12 hours. Applied instrumental lessons for freshmen and sophomore music majors in a School of Music degree program. (F, Sp)

BASN 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

BASN 4000 Junior and/or Senior Secondary Bassoon 1-2 Credit Hours

1 to 2 hours. Prerequisite: permission of adviser and instructor. May be repeated; maximum credit toward B.F.A., B.M.A., B.M.E., and B.M. degrees, eight hours. For junior and senior music students studying in a secondary (or minor) performance area. (F, Sp, Su)

BASN 4020 Bassoon for Music Majors: Junior/Senior 1-4 Credit Hours

1 to 4 hours. Prerequisite: Majors only; junior standing. May be repeated; maximum credit 20 hours. Applied instrumental lessons for junior and senior music majors in a School of Music degree program. (F, Sp)

BASN 5000 Master's Level Secondary Bassoon 1-2 Credit Hours

1 to 2 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For master's degree music students studying in a secondary (or minor) performance area. (F, Sp, Su)

BASN 5010 Master's-Level Bassoon for Non-Performance Music Majors 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For master's degree students other than performance majors in their major field. (F, Sp, Su)

BASN 5020 Master's-Level Bassoon for Performance Majors 2-4 Credit Hours

2 to 4 hours. Prerequisite: graduate standing in music; permission of adviser and instructor; 4020 and 4021 or equivalent. May be repeated; maximum credit toward an M.M. degree 10 hours. (F, Sp, Su)

BASN 6000 Doctoral Secondary Bassoon 1-2 Credit Hours

1 to 2 hours. Prerequisite: graduate standing in music, permission of adviser or instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For doctoral degree music students studying in a secondary (or minor) performance area. (F, Sp, Su)

BASN 6010 Doctoral Bassoon for Non-Performance Music Majors 2-3 Credit Hours

2 to 3 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated. Doctoral-level study of applied music in the major performance area for students other than performance majors in their primary field. (F, Sp, Su)

BASN 6020 Doctoral Bassoon for Performance Majors 2-4 Credit Hours

2 to 4 hours. Prerequisite: graduate standing in music; 5042; permission of adviser and instructor. May be repeated; credit applicable toward applied music requirements for the Doctor of Musical Arts degree. Doctoral-level study of applied music for performance majors in their primary field. (F, Sp, Su)

BASS-Bass**BASS 2000 Freshman and/or Sophomore Secondary Bass 1-2 Credit Hours**

1 to 2 hours. Prerequisite: permission of adviser and instructor. May be repeated; maximum credit toward B.F.A., B.M.A., B.M.E., and B.M. degrees, eight hours. For freshman and sophomore music students studying in a secondary (or minor) performance area. (F, Sp, Su)

BASS 2020 Bass for Music Majors: Freshman/Sophomore 2-4 Credit Hours

2 to 4 hours. Prerequisite: Majors only. May be repeated; maximum credit 12 hours. Applied instrumental lessons for freshmen and sophomore music majors in a School of Music degree program. (F, Sp)

BASS 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

BASS 4000 Junior and/or Senior Secondary Bass 1-2 Credit Hours

1 to 2 hours. Prerequisite: permission of adviser and instructor. May be repeated; maximum credit toward B.F.A., B.M.A., B.M.E., and B.M. degrees, eight hours. For junior and senior music students studying in a secondary (or minor) performance area. (F, Sp, Su)

BASS 4020 Bass for Music Majors: Junior/Senior 1-4 Credit Hours

1 to 4 hours. Prerequisite: Majors only; junior standing. May be repeated; maximum credit 20 hours. Applied instrumental lessons for junior and senior music majors in a School of Music degree program. (F, Sp)

BASS 5000 Master's Level Secondary Bass 1-2 Credit Hours

1 to 2 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For master's degree music students studying in a secondary (or minor) performance area. (F, Sp, Su)

BASS 5010 Master's-Level Bass for Non-Performance Music Majors 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For master's degree students other than performance majors in their major field. (F, Sp, Su)

BASS 5020 Master's-Level Bass for Performance Majors 2-4 Credit Hours

2 to 4 hours. Prerequisite: graduate standing in music; permission of adviser and instructor; 4020 and 4021 or equivalent. May be repeated; maximum credit toward an M.M. degree 10 hours. (F, Sp, Su)

BASS 6000 Doctoral Secondary Bass 1-2 Credit Hours

1 to 2 hours. Prerequisite: graduate standing in music, permission of adviser or instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For doctoral degree music students studying in a secondary (or minor) performance area. (F, Sp, Su)

BASS 6010 Doctoral Bass for Non-Performance Music Majors 2-3 Credit Hours

2 to 3 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated. Doctoral-level study of applied music in the major performance area for students other than performance majors in their primary field. (F, Sp, Su)

BASS 6020 Doctoral Bass for Performance Majors 2-4 Credit Hours
2 to 4 hours. Prerequisite: graduate standing in music; 5042; permission of adviser and instructor. May be repeated; credit applicable toward applied music requirements for the Doctor of Musical Arts degree. Doctoral-level study of applied music for performance majors in their primary field. (F, Sp, Su)

BIA-Business Intelligence & Analysis

BIA 3713 Introduction to Business Intelligence and Analytics 3 Credit Hours

Prerequisite: MIS 2113; departmental permission; Student must be approved for degree candidacy by Price College of Business and must be accepted into the Business Intelligence and Analytics Certificate Program. This course will introduce concepts in Business Analytics (BA) and develop basic analytics skills with tools such as Microsoft Power BI. Through case studies, lectures and hands-on exercise, students will learn about Business Intelligence and Analytics relevant to business organizations. (Irreg.)

BIA 3723 Data Management and Presentation for Business Intelligence 3 Credit Hours

Prerequisite: MIS 2113 and BIA 3713 or concurrent enrollment in BIA 3713; departmental permission required; Student must be approved for degree candidacy by Price College and must be accepted into the Business Intelligence and Analytics Certificate Program. Students will learn to use dashboards to communicate large amounts of critical information as a narrative. There will be discussions through case studies of actual BI implementation in well-known corporations. This course is designed to show a managerial perspective to data and BI, but will involve practical hands-on experiences through which students can become skilled in using BI software. (Irreg.)

BIA 3733 Programming for Business and Artificial Intelligence 3 Credit Hours

Prerequisite: BIA 3713, BIA 3723, and departmental permission; must be accepted into the Business Intelligence and Analytics Certificate Program. An introduction to the tools for management and development of business intelligence. The course will introduce and compare several of the emerging tools for conducting data analysis in a business environment. (Irreg.)

BIA 4743 Data Mining for Business and Artificial Intelligence 3 Credit Hours

Prerequisite: BIA 3733 and departmental permission; must be accepted into the Business Intelligence and Analytics Certificate Program. In this course, we will review techniques that we have used quite often in data science, and then spend time in learning new methods in analytics. We will conduct data mining exercises and develop predictive models based on observed patterns in data. (Irreg.)

BIOL-Biology

BIOL 1003 Contemporary Issues in Biology 3 Credit Hours

An introduction to biology, focusing on the scientific background needed to understand selected issues related to cells, genetics and inheritance, evolution and ecology. Not open to students with credit for BIOL 1005, BIOL 1013, BIOL 1114, BIOL 1124, BIOL 1134, or PBIO 1114. Cannot be used for major credit in Biology, Microbiology, or Plant Biology. (F, Sp) [II-NS].

BIOL 1005 Concepts in Biology 5 Credit Hours

Prerequisite: None, but high school or college chemistry is recommended. An introduction to the life sciences, focusing on the structure and function of organisms and their relationship to the environment. Fulfills general education laboratory science requirement. Not open to students with credit for BIOL 1003 or BIOL 1134, or PBIO 1114, BIOL 1114 or BIOL 1124. Cannot be used for major credit in Biology, Plant Biology, or Microbiology. Field trips. (F, Sp) [II-NSL].

BIOL 1013 Introduction to Biology 3 Credit Hours

Introductory survey of the fundamental concepts that underlie biological phenomena from the cellular to the ecosystem level. Not open to students with credit for BIOL 1003, BIOL 1005, BIOL 1114, BIOL 1124, or BIOL 1134. Cannot be used for major credit in Biology, Plant Biology or Microbiology. (F, Sp) [II-NS].

BIOL 1114 Introductory Zoology 4 Credit Hours

Major biological principles and concepts as illustrated in the structure, function and evolution of animals. Emphasis is on self-regulatory mechanisms, especially in the vertebrates, and their adaptive significance. (F, Sp, Su) [II-NS].

BIOL 1121 Introductory Zoology Lab 1 Credit Hour

Prerequisite: previous completion or concurrent enrollment in 1114. Laboratory study of structure and development of organ systems. Experiments on physiological process of selected vertebrates and invertebrates. (F, Sp, Su) [II-NSL].

BIOL 1124 Intro Biol: Molecule/Cell/Phys 4 Credit Hours

Major principles and concepts are presented in the function and physiology of animals, plants, fungi and microbes. Emphasis is on biological chemistry, cell structure and function, cellular energetics, molecular genetics, homeostasis and physiology. Includes biological laboratory experience with emphasis on critical thinking and problem solving. (F, Sp, Su) [II-NSL].

BIOL 1134 Introductory Biology: Evolution, Ecology and Diversity 4 Credit Hours

Prerequisite: Life science majors only. Major biological principles and concepts as illustrated in a survey of the diversity, behavior, and ecological functions of animals, plants, fungi, and microbes. Emphasis is on evolution, ecology, and diversity. Will include biological laboratory experience with emphasis on problem solving. Will include training in scientific procedures, including laboratory technical skills, writing skills, and introduction to statistical analysis. (Sp) [II-NSL].

BIOL 1203 The Age of Dinosaurs 3 Credit Hours

(Crosslisted with GEOL 1203) Introduction to basic principles and theories in biology (evolution, systematics, vertebrate morphology and relationships) and geology (geologic time, earth history, plate tectonics, sedimentation and stratigraphy), focusing on the evolutionary history of Dinosauria. May not be counted for major coursework in Biology or Geology. (F) [II-NS].

BIOL 2124 Human Physiology 4 Credit Hours

Prerequisite: BIOL 1114 and BIOL 1121 with a grade of C or better, or BIOL 1124 with a grade of C or better; a course in chemistry with a grade of C or better. May not be applied for biology major credit. Open only to majors in nursing, physical therapy, health and exercise science, and selected fields. Function of vertebrate organ systems in homeostasis. Circulation, digestion, endocrine and nervous control, metabolism, muscle action and respiration, with emphasis on humans. Laboratory. (F, Sp, Su)

- BIOL 2234 Introduction to Human Anatomy 4 Credit Hours**
Prerequisite: BIOL 1114 and BIOL 1121 with a grade of C or better, or BIOL 1124 with a grade of C or better, sophomore standing. (Cannot be enrolled concurrently with BIOL 2255). Open only to majors in health and exercise science, physical therapy, nursing and selected fields. An introduction to the gross morphology of the human body. The course will use a lab/lecture format with extensive use of models, videos, and computer-assisted instruction as well as prosected cadavers. Not for Biology major credit. (F)
- BIOL 2255 Human Anatomy 5 Credit Hours**
Prerequisite: BIOL 1114 and BIOL 1121 with a grade of C or better, or BIOL 1124 with a grade of C or better, sophomore standing. (Cannot be enrolled concurrently with BIOL 2234). Open only to majors in health and exercise science, physical therapy, nursing and selected fields. See http://biology.ou.edu/human_anatomy-physiology.htm for complete list. The development and gross morphology of the human body and its systems. Laboratory dissection of human cadavers. Not for biology major credit. Laboratory (F, Sp)
- BIOL 2404 Ecology/Environmental Quality 4 Credit Hours**
(Crosslisted with PBIO 2404) Prerequisite: sophomore standing. Study of ecological principles and their applications to human systems, study of population, air pollution, water pollution, energy issues, etc. Laboratory exercises focus on learning scientific methods of measurement of environmental quality factors. Laboratory (Sp) [II-NSL].
- BIOL 2815 Introduction to Microbiology 5 Credit Hours**
Prerequisite: one course in college chemistry. Introduction to microorganisms as biological entities. Survey of the roles of microorganisms in the ecosystem. Application of microorganisms to industrial and environmental problems. Discussion of microorganisms as causes of human disease and response of hosts to microbial invasion. This course does not count for major credit in Biology, Microbiology or Plant Biology. Laboratory (F, Sp, Su) [II-NSL].
- BIOL 2913 Intro to Quantitative Biology 3 Credit Hours**
Prerequisite: 1114 and 1121, or 1124, or Biology 1134, Mathematics 1523 or 1643 or higher, or permission of instructor. The connections between basic mathematics and how biological data are organized, tested, and interpreted. Includes review of probability theory, introduction to parametric and non-parametric biostatistics, fundamentals of experimental design, and sketches of how optimality theory can be used to generate biological questions. (Sp even-numbered years)
- BIOL 2970 Special Topics 3 Credit Hours**
0 to 3 hours. Prerequisite: BIOL 1134 and BIOL 1124; or BIOL 1134 and BIOL 1114 and BIOL 1121; or BIOL 1124, BIOL 1134, or BIOL 1114 and BIOL 1121, and either Plant Biology 1114 or Chemistry 1315; or permission of instructor; May be repeated with change of content, maximum credit nine hours. Seminar or special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- BIOL 3001 Microbiology: the Discipline and Degree 1 Credit Hour**
Prerequisite: BIOL 1114 or BIOL 1124 or BIOL 1134. Introduce students to their discipline, degree and faculty. Allows students microbiology credit prior to MBIO 3813, which has a prerequisite of Chemistry 3053. By the end of the course students will have an introduction to use of the literature of microbiology and writing in scientific English, as well as familiarity with the discipline, progress towards degree completion and their faculty. (Sp)
- BIOL 3013 Evolution 3 Credit Hours**
Prerequisite: BIOL 1124 and BIOL 1134. Processes of evolution including natural selection and non-selective forces. Phylogenetics and the history of life. The nature and origin of species. Factors contributing to divergence of genes, populations, species, and higher taxa such as genetics, ecology, geography, and behavior. (F, Sp)
- BIOL 3063 Veterinary Entomology 3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 1134. The study of insects and their near relatives, such as ticks, as they relate to the causation of economic loss and transmission of disease organisms in livestock and companion animals. Insect biology, disease transmission, and methods of control will be stressed in lecture. Laboratory emphasizes 1) collection, preservation, and pathogens, and 2) methods used to control/evaluate insecticides and acaricides. Laboratory.
- BIOL 3073 Medical Entomology 3 Credit Hours**
Prerequisite: 1114 and 1121, or Biology 1134. Medical entomology investigates the relationship of insects and other arthropods to the health of humans, domestic animals, and wildlife. Laboratory. (Sp)
- BIOL 3083 Animal Behavior 3 Credit Hours**
(Crosslisted with PSY 3083) Prerequisite: 2013 or permission of instructor. Animal behavior from an evolutionary perspective. The effects of natural selections on mechanisms underlying behavior and on diversity of behavior among and within species. (F, Sp)
- BIOL 3101 Principles of Physiology Lab 1 Credit Hour**
Prerequisite: BIOL 3103 or concurrent enrollment. Provides students with an introduction to methods and procedures used in physiological research. Topics include data acquisition, analysis and basic statistics, effects of temperature on living systems, nervous system functions, muscle mechanics and physiology, and studies of metabolic rates. In addition to hands-on lab experience, library projects and research papers are used to introduce students to methods of scientific communication. (Sp)
- BIOL 3103 Principles of Physiology 3 Credit Hours**
Prerequisite: ZOO/BIOL 1124, or ZOO/BIOL 1114 and ZOO/BIOL 1121; and Biology 1134, or permission of instructor. One semester of physics and organic chemistry strongly recommended. Introduction to basic concepts of physiology; relation of functions of organisms to physical and chemical principles, and to the environment; discussion of experimental design, constituents of tissues, energy, growth, homeostasis, cellular and organ functions. (F, Sp)
- BIOL 3111 Undergraduate Professional Development 1 Credit Hour**
Prerequisite: permission of instructor. The Professional Development course is designed to assist our microbiology students in achieving their career goals by enhancing their ability to communicate their accomplishments effectively. Students will learn about the career opportunities in microbiology, how to prepare resumes and/or graduate and professional school applications, how to communicate effectively in an interview, and how to build a professional network. (Sp)
- BIOL 3113 Cell Biology 3 Credit Hours**
(Crosslisted with PBIO and MBIO 3113) Prerequisite: 1114, or 1124, or BIOL 1134, or PBIO 1114, and CHEM 3053. Introduction to the cell as a unit of life. A chemical and physical comparison of procaryotic and eucaryotic cells to include a discussion of cell metabolism, types of metabolic regulation, and an analysis of ultrastructure. Emphasis will be placed on the dynamic changes in metabolism and ultrastructure which occur during the life of a cell. (F, Sp)

- BIOL 3122 Cell Biology Laboratory** **2 Credit Hours**
Prerequisite: BIOL 1124; Prerequisite or Concurrent Enrollment: BIOL 3113. This laboratory course introduces fundamental concepts of cellular biology through hands-on experience. The emphasis is to promote development of skills in formulating hypotheses, experimental design, data analysis and interpretation, and the ability to engage in ethical research, scientific writing, and communication. (F)
- BIOL 3163 Economic Botany** **3 Credit Hours**
Prerequisite: BOT 1114 or BIOL 1114 or BIOL 1134 or BIOL 1005 or any introductory biology course. A survey of plants and plant products used in industry, drug plants and drugs, and especially food plants and food adjuncts. Origin of agriculture, domestication and evolution of crop plants, and uses of plants in different cultures are emphasized. (F) [IV-WC].
- BIOL 3201 Animal Development Lab** **1 Credit Hour**
Prerequisite: 3203 or concurrent enrollment. Laboratory study of the development and embryology of a variety of animals. Developmental concepts and mechanisms will be illustrated through the use of prepared materials and hands-on experiments. Laboratory (F, Sp)
- BIOL 3203 Animal Development** **3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 3333; and BIOL 1134. Study of animal development from gamete formation through organogenesis and postembryonic phases in different animal models. Concepts and mechanisms at the tissue, cellular and molecular levels will supplement descriptive analyses of development. (Sp)
- BIOL 3214 Comparative Vertebrate Anatomy** **4 Credit Hours**
Prerequisite: BIOL 1114 and BIOL 1121; or BIOL 1124; or BIOL 1134; or equivalent. A study of the anatomy and evolutionary development of vertebrate organ systems. Representative vertebrates are studied in laboratory. Laboratory (F)
- BIOL 3333 Genetics** **3 Credit Hours**
(Crosslisted with PBIOL 3333) Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; BIOL 1134 recommended. Principles of inheritance at gene, chromosome, and population levels; nature of the genetic material and its involvement in the determination of structure and function. (F, Sp)
- BIOL 3342 Genetics Laboratory** **2 Credit Hours**
Prerequisite: BIOL 3333 or concurrent enrollment, or equivalent. The demonstrations, crosses and experiments are designed to illustrate various genetic phenomena, including Mendelian laws, recombination, mutation, natural and artificial selection, and interaction of genotype with environment. The primary organism studied is *Drosophila*, with some use of corn, *Neurospora*, and others. Laboratory (F)
- BIOL 3403 Principles of Ecology** **3 Credit Hours**
Prerequisite: BIOL 1114 and BIOL 1121, or BIOL 1134, or PBIOL 1114. Patterns of environments and biological communities; the processes maintaining these patterns. Field trips. Some overnight trips. Laboratory (F, Sp)
- BIOL 3440 Mentored Research Experience** **3 Credit Hours**
0 to 3 hours. Prerequisite: ENGL 1113 or equivalent, and permission of instructor; May be repeated, maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- BIOL 3451 Methods in Plant Ecology** **1 Credit Hour**
Prerequisite: corequisite BIOL 3453. Methodology in plant physiological, population, community and ecosystem ecology will be covered. Emphasis will be on actual field or laboratory experience and the applicability of these methods to other areas of ecology. Laboratory. (F)
- BIOL 3453 Principles of Plant Ecology** **3 Credit Hours**
Prerequisite: BIOL 1114 or BIOL 1134. Introduction to physiological, population and community ecology. Emphasis is placed on environmental factors, disturbance and succession and how these factors affect species diversity and landscape patterns. One field trip. (F)
- BIOL 3463 Water and Ecological Sustainability** **3 Credit Hours**
(Crosslisted with ENST 3463) Prerequisite: junior standing and English 1213 or Expository Writing 1213, BIOL 1114 or BIOL 1124 or BIOL 1134, or permission of instructor. Objective of the course is to allow students to examine and discuss important historical and current issues relating to the interactions between socio-economic use of water resources and ecosystem biodiversity, function, and sustainability. (F) [II-NS].
- BIOL 3563 Biological Conservation** **3 Credit Hours**
Prerequisite: BIOL 1114 and BIOL 1121, or BIOL 1134, or PBIOL 1114. Active learning format course for exploring ecological, legal, and societal issues affecting biodiversity at local, regional, and global scales. Offered Fall of even-numbered years. (Irreg.)
- BIOL 3673 Practical Bioinformatics** **3 Credit Hours**
Prerequisite: junior standing; BIOL 2815 or BIOL 3813 or BIOL 1114 or BIOL 1005 or equivalent introductory biology course or instructor permission. Study of the use of computers to analyze and interpret various types of biological data. Topics covered will include accessing genomics databases, aligning DNA and protein sequences, searching genomic databases for similar sequences, analyzing protein structure, and building molecular phylogenies. Classes will emphasize group work and in-class computer exercises in a highly interactive environment. (Sp)
- BIOL 3812 Fundamentals of Microbiology Laboratory** **2 Credit Hours**
Prerequisite: credit or concurrent enrollment in 3813. Fundamental microbiological methods: aseptic technique, culture methods, microscopy, metabolic and physiological tests, bacterial isolation and identification, environmental microbiology. Laboratory. (F, Sp, Su)
- BIOL 3813 Fundamentals of Microbiology** **3 Credit Hours**
Prerequisite: BIOL 1005 or BIOL 1114 or BIOL 1124 or BIOL 1134; and CHEM 1315; and CHEM 1415 or CHEM 1335; and CHEM 1435. Cell structure and phylogeny of bacteria, archaea, and eukaryotic microorganisms; growth, metabolism and ecological roles; symbiotic relationships; gene expression, genetic exchange, genomics. (F, Sp, Su)
- BIOL 3833 Introduction to Neurobiology** **3 Credit Hours**
Prerequisite: BIOL 1124. Introduction to cellular and behavioral neurobiology. Topics covered will include cellular neurobiology, neurophysiology, neuroanatomy, sensory processing, movement, and neurobiology of behavior. (Sp)
- BIOL 3960 Honors Reading (HONORS)** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program and departmental permission; May be repeated, maximum credit six hours. Will consist of topics designated by the instructor. The content will emphasize work not presented in other courses. (F, Sp, Su)
- BIOL 3970 Honors Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated, maximum credit six hours. Discussion of recent and current research trends and significant developments in zoology. (Irreg.)

- BIOL 3980 Honors Research (HONORS) 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Departmental permission and admission to Honors Program; May be repeated, maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project under the guidance of a professor in the student's field. Laboratory (F, Sp, Su)
- BIOL 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied and permission of instructor and department; May be repeated, maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- BIOL 4003 Arthropod Vector Surveillance and Management 3 Credit Hours**
Prerequisite: BIOL 1124 or BIOL 1134. Immerse yourself in a medical-veterinary field experience. Collect, preserve, and identify arthropod pests and vectors of pathogens that cause disease in humans and animals. Determine the risk associated with arthropod pests and vector borne diseases and develop an integrated pest (vector) management program to reduce that risk. Laboratory. (Sp)
- BIOL 4023 Field Mammalogy 3 Credit Hours**
(Slashlisted with BIOL 5023) Prerequisite: two college science courses that include a laboratory, one of which should be in biological sciences or permission of UOBS Director; Course taught at Biological Station, students must apply for enrollment into course. Study of mammals with emphasis on principle of mammalian ecology, conservation, biodiversity, techniques of field study, and methods of collection and preservation. Topics include characteristics of mammals, classification, natural history, ecology, biodiversity, conservation, and techniques in field study. Emphasis is given to mammals of southern Oklahoma and northern Texas. Laboratory. No student may earn credit for both 4023 and 5023. (Su)
- BIOL G4034 Mammalogy 4 Credit Hours**
Prerequisite: BIOL 1124 and BIOL 1134. Classification, distribution, and natural history of mammals with emphasis on Oklahoma species. Mammals are collected and prepared for scientific collections. Field trips. Some overnight camping. Laboratory. Offered Fall even-numbered years. (Irreg.)
- BIOL 4043 Research in Ecology 3 Credit Hours**
Prerequisite: Two college sciences courses that include a laboratory; one of these courses must be focused within the field of biology. Field study of population and community dynamics in which students work collaboratively to design, conduct, and present the results of original experiments in an interactive and supportive setting. (Su)
- BIOL G4044 Ornithology 4 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and 1121; and BIOL 1134. Biology of birds. Identification of birds in North America with emphasis on Oklahoma; relationships, natural history and behavior of birds. Field trips. Laboratory. Offered Sp odd-numbered years. (Irreg.)
- BIOL 4053 Forensic Entomology 3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 1134. Lecture will explore the use of insects in forensic entomology and its impact on death scene investigation, neglect or abuse; contamination of food products and other marketable goods and subsequent litigation. Lab will be centered on a "death scene investigation". Students will collect data from a pig carcass to determine factors that affect the rate of decomposition. Laboratory.
- BIOL 4063 Field Herpetology 3 Credit Hours**
(Slashlisted with BIOL 5063) Prerequisite: two college science courses that include a laboratory, one of which should be in biological sciences or permission of UOBS Director. Overview of methods, techniques, and standards for the collection, management, and analysis of herpetological field data for various applications. Includes collection of amphibians and reptiles, and diagnostic (morphological, ecological, and behavioral) characteristics of species. Students design and complete individual projects that address current issues in biology and conservation in herpetology. Laboratory. No student may earn credit for both 4063 and 5063. (Su)
- BIOL G4073 General Entomology 3 Credit Hours**
Prerequisite: Sophomore standing, and BIOL 1114 and BIOL 1121, or BIOL 1134, or P BIO 1114, or BIOL 1005, or permission of instructor. Introduction to the world of insects. Morphological and physiological adaptations; taxonomy, life histories, and methods of collection. Field trips. Laboratory (F)
- BIOL G4083 Herpetology 3 Credit Hours**
Prerequisite: 2013 and Biology 1134 or permission of instructor. An introduction to the study of amphibians and reptiles. Taxonomy, ecology, behavior and life histories of amphibians and reptiles, with emphasis on local forms. Field trips. Laboratory. Offered Fall of odd-numbered years. (Irreg.)
- BIOL 4113 Cellular Pathology 3 Credit Hours**
(Slashlisted with BIOL 5113) Prerequisite: 3113 or permission of instructor. The course focus is on the molecular and cellular bases of disease and alterations in cellular processes that lead to the development of various pathological conditions. Topics include symptoms of cellular disease, pathology of organelles, cell injury, cell death, immunopathology, neoplasia and genetic disorders. No student may earn credit for both 4113 and 5113. (F)
- BIOL G4114 Principles of Plant Physiology 4 Credit Hours**
Prerequisite: BIOL 1114 and CHEM 3053, or permission of instructor. Plant Physiology is the study of how plants grow and develop, respond to biotic and abiotic factors in their environments, convert solar energy to chemical energy, and generally how plants go about their business. Modern plant physiology is a fairly all-inclusive discipline and incorporates plant anatomy and morphology, biochemistry, genetics, molecular biology, etc. Laboratory. (F)
- BIOL 4153 Endocrinology 3 Credit Hours**
(Slashlisted with BIOL 5153) Prerequisite: BIOL 3103; BIOL 3113 also strongly recommended. Endocrinology covers the structure and function of endocrine glands and the mechanisms of hormone action. Coverage of the endocrine glands includes biosynthesis of hormones, control and secretion of hormones, physiological, morphological, and behavioral actions of hormones, as well as a review of common endocrine disorders and clinical conditions. No student may earn credit for both 4153 and 5153. (Sp)
- BIOL 4204 Vertebrate Paleobiology 4 Credit Hours**
(Crosslisted with GEOL 4204) Prerequisite: BIOL 1114 and 1121, or 1124 or 1134; BIOL 3214; or permission of instructor. Systematics, relationships, zoogeography and evolutionary morphology of the major groups of vertebrates. Field trips. Laboratory. (Sp)

- BIOL 4233 Neurobiology of Disease 3 Credit Hours**
(Slashlisted with BIOL 5233) Prerequisite: BIOL 4833 (preferred), or BIOL 3113 and BIOL 3333, or BIOL 2124 or BIOL 3103; or permission of the instructor. Cellular and molecular mechanisms underlying both normal neuronal function and neuronal disorders. Includes a review of basic concepts in neuroscience through traditional lectures, and reading and discussion of original research articles. Students are required to give oral presentations, write critiques and term papers, and present research posters. No student may earn credit for both 4233 and 5233. (F)
- BIOL G4244 Animal Histology 4 Credit Hours**
0 to 4 hours. Prerequisite: BIOL 3103 and BIOL 3113, or permission of instructor. Structure and function of animal tissues with emphasis on the cellular basis of tissue and organ function. Laboratory emphasizes the identification of cells and tissues with the use of the light microscope. Laboratory (Sp)
- BIOL 4264 Morphology of Vascular Plants 4 Credit Hours**
Prerequisite: permission of instructor. Structural organization and phylogenetic relationships of vascular land plants are explored using living and extinct plants. Emphasis is given to understanding the origins, unique and common features of plant life histories, organography and morphogenesis. (Irreg.)
- BIOL 4353 Molecular Tech-Field Biology 3 Credit Hours**
(Slashlisted with BIOL 5353) Prerequisite: 1114 and 1121, or 1124 and permission of instructor; 3333 or 3403 recommended. Selected protocols and data interpretation using molecular techniques to study protein and DNA variation in natural populations and the application of molecular techniques to research problems in ecology, systematics, animal behavior, conservation biology, and related areas. Graduate students enrolled in 5353 will have additional project expectations and written work. Taught at the OU Biological Station. Field trips. Laboratory. No student may earn credit for both 4353 and 5353. (Su)
- BIOL 4361 Experimental Genetics and Cell Biology Lab 1 Credit Hour**
Prerequisite: BIOL 3333 or BIOL 3113. Students will be introduced to experimental design and techniques including types of microscopy such as SEM and TEM, cell and tissue culture, DNA isolation, protein and DNA electrophoresis, PCR, and introductory bioinformatics. Offered Sp of odd numbered years. (Irreg.)
- BIOL 4423 Stream Ecology 3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 1134; junior or senior standing, or permission of instructor. A combined lecture/laboratory course that focuses on the physical, chemical, and biological features of stream ecosystems, including current theories explaining species interactions and stream function. Course requirements/evaluation including a midterm and final examination, individual research papers and presentations, participation in group laboratory and field experiments, and reading and discussing the primary literature. Field trips. Laboratory. Offered Fa of odd-numbered years. (Irreg.)
- BIOL G4463 Lake Ecology 3 Credit Hours**
Prerequisite: BIOL 3403, or permission of instructor. An introduction to the biology, chemistry, physics, and geology of freshwater environments, with emphasis on ecology. (Sp)
- BIOL 4483 Physiological Plant Ecology 3 Credit Hours**
(Slashlisted with BIOL 5483) Prerequisite: BIOL 3453 or BIOL 4115, or permission of instructor. Study of energy budgets, plant water relations, carbon uptake and release, nutrient uptake and availability, and other factors as they affect plant growth, competition and ecosystem-level factors. In-depth analysis of current literature. (F, even-numbered years) No student may earn credit for both 4483 and 5483.
- BIOL G4493 Ichthyology 3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 1134. Taxonomy, morphology, ecology and distribution of fishes, with emphasis on those of the region. Field trips. Some overnight trips. Laboratory. (Sp)
- BIOL 4523 Biogeography and Macroecology 3 Credit Hours**
(Slashlisted with BIOL 5523) Prerequisite: BIOL 3013: Evolution, or permission of instructor. This course will explore the causes and consequences of the geographic distribution of life on Earth. We will discuss the processes which shape individual species distributions, why some regions host more species than others, and how the evolution of biodiversity is tied to the history and geography of Earth itself. No student may earn credit for both 4523 and 5523. (F)
- BIOL 4534 Plant Systematics 4 Credit Hours**
(Slashlisted with BIOL 5534) Prerequisite: BIOL 1114 and BIOL 1134, or permission of instructor. Introduction to the evolution and identification of vascular plants with emphasis on the origin and evolution of the Oklahoma flora. Laboratory activities stress identification skills, terminology, field techniques, and family recognition for the flora of Oklahoma. Field trips. Laboratory. No student may earn credit for both 4534 and 5534. (Irreg.)
- BIOL 4553 Wetlands Ecology 3 Credit Hours**
(Slashlisted with BIOL 5553) Prerequisite: Two college science courses that include a laboratory, one of which should be in biological sciences or permission of UOBS Director. Comprehensive field-based examination of wetland science and management. Biological, physical, chemical, and hydrological aspects of wetland ecosystem structure and function are explored through visits to several field sites. Major wetland types and resources are examined and the biogeochemical and ecological diversity of wetland waters, soils, vegetation, and fauna is investigated. Laboratory. No student may earn credit for both 4553 and 5553. (Su)
- BIOL 4573 Conservation Genetics 3 Credit Hours**
Prerequisite: 3333 or permission of the instructor. This lecture/discussion course will examine the use of population genetic/ecological genetic principles in the study and management of populations of threatened and/or endangered species. No student may earn credit for both 4573 and 5573. (Sp)
- BIOL 4633 Ecology and Evolution of Infectious Diseases 3 Credit Hours**
(Slashlisted with BIOL 5633) Prerequisite: Junior standing, and a course on foundations of ecology and evolution is strongly recommended. Basic biological principles in how parasites are transmitted in natural populations, coevolution of hosts and parasites, and how novel parasites emerge and impact their host populations, including zoonotic parasites. No student may earn credit for both 4633 and 5633. (Sp)
- BIOL G4653 Parasitology 3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 1134. Parasitology is an introduction to the biological relationships known as parasitism. Although there are many different types of parasites, this course will focus on primarily protozoan and helminthes parasites that cause disease in humans and domestic animals. Field trips. Laboratory. (Sp)
- BIOL 4663 Advanced Limnology 3 Credit Hours**
(Slashlisted with BIOL 5663) Prerequisite: BIOL 4423 or BIOL 5423, or BIOL 4463, or permission of instructor; May be repeated with change of content, maximum credit 6 hours. Detailed study of fundamental or contemporary topics within limnology, such as biogeochemistry, nutrient cycling, ecological stoichiometry, biodiversity, and predatory-prey and food-web dynamics in aquatic communities. No student may earn credit for both 4663 and 5663. (Sp)

- BIOL 4673 Microbiomes: Health & Disease 3 Credit Hours**
(Slashlisted with BIOL 5673) Prerequisite: Senior standing; BIOL 3812 and BIOL 3813 and CHEM 3013 or CHEM 3053, or permission of instructor. Introduces students to the modern-day characterization of microbiomes, from initial sequence information to the living organisms that make up these complex communities. Students will become familiar with the role microbiomes play in health and disease processes in addition to their role in personalized medicine. No student may earn credit for both 4673 and 5673. (Irreg.)
- BIOL 4703 Basic Virology 3 Credit Hours**
Prerequisite: BIOL 3813 and CHEM 3653 or BIOL 4843, or permission of instructor. Introduction to the principles of viruses that infect animals, plants and bacteria. Topics will include viral structural and taxonomy, virus replication and disease pathogenesis, methods of viral detection and diagnosis, host resistance to viral infections, viruses and cancer and the used of viruses in gene therapy and vaccine applications. (Sp)
- BIOL 4733 Microbial Genetics 3 Credit Hours**
(Slashlisted with BIOL 5733) Prerequisite: BIOL 4843 or permission of instructor. Microbial genetics underlies important topics such as antibiotic resistance, genetic engineering, drug development, and many biotechnological advances. Explores the interesting world of microbial genetics by discussing molecular genetic methods and related aspects of bacterial and archaeal biology. Examples will include both traditional and recently developed microbial model systems. No student may earn credit for both 4733 and 5733. (Sp)
- BIOL 4743 Case Studies in Medical Microbiology 3 Credit Hours**
Prerequisite: BIOL 3813; BIOL 4823 or concurrent enrollment; or instructor permission. Provides in-depth knowledge of infectious diseases utilizing an inquiry-based format. Case studies will be discussed in the context of patient symptoms as well as molecular- and culture-based test results. Case studies from standard textbooks and clinical microbiology journals will be utilized. Students will gain experience in identifying causative agents of numerous infections. Ideal course for pre-dental, pre-medical and pre-pharmacy students. (Irreg.)
- BIOL 4753 Molecular Evolution and Phylogenetics 3 Credit Hours**
(Slashlisted with BIOL 5753) Prerequisite: BIOL 2013 or BIOL 3333 or permission of instructor. Theory and practice of inferring evolutionary history from molecular and morphological data. Applications of the phylogenetic approach in systematics, comparative biology, molecular evolution, and genomics will be covered. (F even-numbered years) No student may earn credit for both 4753 and 5753.
- BIOL 4783 Introduction to Python Programming for Data Analytics 3 Credit Hours**
(Slashlisted with BIOL 5783) Prerequisite: senior standing. This course will introduce students, who have no prior programming experience, to Python programming. It will cover data analysis and visualization methods in Python. Real-world examples will be used to teach general concepts in data analytics and practical coding skills in Python. No student may earn credit for both 4783 and 5783.
- BIOL 4793 Microbial Genetics 3 Credit Hours**
(Slashlisted with BIOL 5793) Prerequisite: BIOL 4843 or permission of instructor. Microbial genetics underlies important topics such as antibiotic resistance, genetic engineering, drug development, and many biotechnological advances. Explores the interesting world of microbial genetics by discussing molecular genetic methods and related aspects of bacterial and archaeal biology. Examples will include both traditional and recently developed microbial model systems. No student may earn credit for both 4793 and 5793. (Sp)
- BIOL 4810 Special Topics 3 Credit Hours**
0 to 3 hours. (Slashlisted with BIOL 5810) Prerequisite: BIOL 3812 and BIOL 3813, and permission of instructor. Topics will include newly developing areas of the discipline. Taught at an upper-division level based on previous course background. May be repeated with change of content, maximum credit 3 hours per semester, 9 hours total. No student may earn credit for both 4810 and 5810. (Irreg.)
- BIOL G4813 Pathogenic Microbiology Laboratory 3 Credit Hours**
Prerequisite: BIOL 3812 and BIOL 3813. This course will focus primarily on bacterial species that cause disease in humans. Emphasis will be placed on the use of selective/differential media for pathogen isolation; the key diagnostic features of pathogenic bacteria and the application of rapid technologies for pathogen identification. Scientific papers will also be used to highlight the virulence properties of various pathogens. (F)
- BIOL G4823 Pathogenic Microbiology and Infectious Disease 3 Credit Hours**
Prerequisite: BIOL 3812 and BIOL 3813. Introduces the basic methods for pathogenic microbiology and infectious disease epidemiology. Topics covered include definitions and nomenclature, outbreak investigations, disease surveillance, case-studies, laboratory diagnosis, immunology, molecular epidemiology, dynamics of transmission, and vaccine effectiveness. Emerging pathogens, their effects on society and the health care services will also be addressed. (F)
- BIOL 4833 Neurobiology 3 Credit Hours**
(Slashlisted with BIOL 5833) Prerequisite: permission of instructor. Advanced examination of cellular and behavioral neurobiology. Topics covered will include membrane biophysics, cellular neurobiology, neurophysiology, neuroanatomy, sensory processing, movement, and neurobiology of behavior. No student may earn credit for both 4833 and 5833. (F)
- BIOL 4843 Molecular Biology 3 Credit Hours**
(Slashlisted with BIOL 5843) Prerequisite: BIOL 1114 or BIOL 1124 or BIOL 1134, BIOL 3812 and BIOL 3813, and one course in Organic Chemistry (CHEM 3053 or CHEM 3064). Introduction to the characteristics and biological functions of nucleic acids and proteins in living cells with emphasis on nucleic acid replication, transcription, translation and regulation; also emphasis on the molecular aspects of microbial genetics transformation, transduction and conjugation; and emphasis on molecular immunology and genetic engineering/recombinant DNA technology. No student may earn credit for both 4843 and 5843. (F, Sp)
- BIOL G4853 Physiology of Microorganisms 3 Credit Hours**
Prerequisite: BIOL 3812 and BIOL 3813 and one course in Organic Chemistry. Diversity, metabolism, energetics and physiology of microorganisms. (Sp)
- BIOL 4863 Neural Control of Movement 3 Credit Hours**
(Slashlisted with BIOL 5863) Prerequisite: BIOL 3103, or BIOL 3113, or BIOL 3833, or BIOL 4833, or BIOL 5833, or permission of instructor. Introduction to neural control of movement through reading and discussion of key original research articles from the 19th century to the present. Students lead discussions and write essays addressing a general question, utilizing data from the articles. Topics include localization of function, sensory vs. central contributions, roles of single neurons, effects of neuromodulators, and motor learning. No student may earn credit for both 4863 and 5863. (Sp)

- BIOL 4871 Current Topics in Neurobiology 1 Credit Hour**
(Slashlisted with BIOL 5871) Prerequisite: BIOL 3833 or permission of instructor; May be repeated with change of content, maximum credit three hours. A seminar course designed to develop a student's abilities to interpret and critically evaluate research in cellular and behavioral neurobiology. Involves both public seminars and journal club style discussions of contemporary literature. No student may earn credit for both 4871 and 5871. (F, Sp)
- BIOL 4873 Diversity of Biological Sex Characteristics 3 Credit Hours**
(Slashlisted with BIOL 5873) Prerequisite: BIOL 1124 and BIOL 1134. This course explores the diverse biological sex characteristics of nonhuman animals and people. We examine the evolution of sexual reproduction, sex-determining mechanisms, and hermaphroditic, parthenogenetic, intersex, and multiple-gender animal species, followed by the biology of intersex and transgender people. Finally, we discuss human infant genital surgeries and participation in athletic competitions. No student may earn credit for both 4873 and 5873. (F)
- BIOL G4883 Water Microbiology Laboratory 3 Credit Hours**
Prerequisite: BIOL 3812 and BIOL 3813. Focuses on the causes and prevention of waterborne microbial diseases and the use of microorganisms to improve water quality. Topics include: waterborne diseases, detection of waterborne pathogens, epidemiology, indicator organisms, water quality standards, treatment of drinking water and sewage, and groundwater contamination. The laboratory provides training in the standard methods used to detect microbial contamination. (F)
- BIOL 4893 Behavioral Neurobiology 3 Credit Hours**
(Slashlisted with BIOL 5893) Prerequisite: BIOL 3103, or BIOL 3113, or BIOL 3833, or BIOL 4833, or BIOL 5833, or permission of instructor. Examines neurobiological mechanisms of natural animal behaviors (i.e. neuroethology), utilizing textbook and lectures as well as in-depth reading, discussion, and student presentation of original research articles. No student may earn credit for both 4893 and 5893. (F)
- BIOL 4903 Topics in Virology 3 Credit Hours**
(Slashlisted with BIOL 5903) Prerequisite: CHEM 3653 or BIOL 4843 or permission of instructor. Aspects related to selected RNA viruses, such as HIV/AIDS and polio virus, will be studied and discussed. Topics will include the molecular structure of RNA viruses, the mechanisms of viral assembly and replication, viral disease pathogenesis, host responses to viral infections, vaccine development, anti-viral and RNA interference (RNAi) therapeutics. No student may earn credit for both 4903 and 5903. (F)
- BIOL G4913 Quantitative Biology 3 Credit Hours**
Prerequisite: BIOL 1124, or BIOL 1114 and BIOL 1121; and BIOL 1134; Permission of instructor required. Techniques for complex data analysis and experimental design. (F)
- BIOL 4943 Multivariate Analysis 3 Credit Hours**
(Slashlisted with BIOL 5943) Prerequisite: BIOL 4913 or permission of instructor. An introduction to the concepts and underpinnings of multivariate statistics used commonly in the life sciences. It includes sections on regression, central tendency, data reduction, cluster analyses, and ordination and treats both parametric and non-parametric approaches. No student may earn credit for both 4943 and 5943. (Sp)
- BIOL 4953 BioWriting 3 Credit Hours**
(Slashlisted with BIOL 5953; Crosslisted with MBIO and PBIO 4953) Prerequisite: permission of instructor. This course provides students engaged in research with the information and skills needed to effectively communicate as professional biologists. Students will learn to report the results of their own research in the format of a journal article, conference-style presentation, and poster. No student may earn credit for both 4953 and 5953. (Irreg.)
- BIOL 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean; May be repeated, maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- BIOL 4961 Undergraduate Seminar 1 Credit Hour**
Prerequisite: Senior standing in Zoology/Biology or permission of department; May be repeated, maximum credit two hours. Survey of current research programs in environmental biology, cell biology, physiology, animal behavior and other fields presented in weekly public seminars by visiting and local experts in biology. (F, Sp)
- BIOL 4970 Special Topics in Biology 3 Credit Hours**
0 to 3 hours. Prerequisite: permission of instructor and department; May be repeated with change of content, maximum credit nine hours. Seminar or special topic course; may include laboratory or field work. No student may earn credit for 4970 and 5970 on the same topic. (F, Sp, Su)
- BIOL 4981 Current Topics in Disease Ecology 1 Credit Hour**
(Slashlisted with BIOL 5981) Prerequisite: Junior standing. This seminar course will involve discussion of recent empirical and theoretical literature in the field of disease ecology and evolution. No student may earn credit for both 4981 and 5981. (F, Sp)
- BIOL 4983 Senior Seminar 3 Credit Hours**
Prerequisite: BIOL major with senior standing, or permission. An interdisciplinary approach will be used to synthesize ideas from the major fields of zoology. Readings and discussion will focus on contemporary social, ethical and economic issues. (F, Sp) [V].
- BIOL 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied and permission of instructor and department; May be repeated, maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- BIOL 5023 Field Mammalogy 3 Credit Hours**
(Slashlisted with BIOL 4023) Prerequisite: graduate standing and two college science courses that include a laboratory, one of which should be in biological sciences or permission of UOBS Director. Study of mammals with emphasis on principle of mammalian ecology, conservation, biodiversity, techniques of field study, and methods of collection and preservation. Topics include characteristics of mammals, classification, natural history, ecology, biodiversity, conservation, and techniques in field study. Emphasis is given to mammals of southern Oklahoma and northern Texas. No student may earn credit for both 4023 and 5023. Laboratory. (Su)

- BIOL 5063 Field Herpetology 3 Credit Hours**
(Slashlisted with BIOL 4063) Prerequisite: graduate standing and two college science courses that include a laboratory, one of which should be in biological sciences or permission of UOBS Director. Overview of methods, techniques, and standards for the collection, management, and analysis of herpetological field data for various applications. Includes collection of amphibians and reptiles, and diagnostic (morphological, ecological, and behavioral) characteristics of species. Students design and complete individual projects that address current issues in biology and conservation in herpetology. No student may earn credit for both 4063 and 5063. Laboratory. (Su)
- BIOL 5113 Cellular Pathology 3 Credit Hours**
(Slashlisted with BIOL 4113) Prerequisite: Graduate standing and BIOL 3113 or permission of instructor. The course focus is on the molecular and cellular bases of disease and alterations in cellular process that lead to the development of various pathological conditions. Topics include symptoms of cellular disease, pathology of organelles, cell injury, cell death, immunopathology, neoplasia and genetic disorders. No student may earn credit for both 4113 and 5113. (F)
- BIOL 5153 Endocrinology 3 Credit Hours**
(Slashlisted with BIOL 4153) Prerequisite: Graduate standing and BIOL 3103; BIOL 3113 also strongly recommended. Endocrinology covers the structure and function of endocrine glands and the mechanisms of hormone action. Coverage of the endocrine glands includes biosynthesis of hormones, control and secretion of hormones, physiological, morphological, and behavioral actions of hormones, as well as a review of common endocrine disorders and clinical conditions. No student may earn credit for both 4153 and 5153. (Sp)
- BIOL 5233 Neurobiology of Disease 3 Credit Hours**
(Slashlisted with BIOL 4233) Prerequisite: BIOL 4833 (preferred), or BIOL 3113 and BIOL 3333, or BIOL 2124 or BIOL 3103; or permission of the instructor. Cellular and molecular mechanisms underlying both normal neuronal function and neuronal disorders. Includes a review of basic concepts in neuroscience through traditional lectures, and reading and discussion of original research articles. Students are required to give oral presentations, write critiques and term papers, and present research posters. No student may earn credit for both 4233 and 5233. (F)
- BIOL 5353 Molecular Tech-Field Biology 3 Credit Hours**
(Slashlisted with BIOL 4353) Prerequisite: Graduate standing and permission of instructor. Selected protocols and data interpretation using molecular techniques to study protein and DNA variation in natural populations and the application of molecular techniques to research problems in ecology, systematics, animal behavior, conservation biology, and related areas. Graduate students enrolled in 5353 will have additional project expectations and written work. Taught at the OU Biological Station. Field trips. Laboratory No student may earn credit for both 4353 and 5353. (Su)
- BIOL 5364 Transmissn Electron Microscopy 4 Credit Hours**
(Crosslisted with P BIO and M BIO 5364) Prerequisite: Graduate standing and permission of instructor. Introduction to the theory of transmission electron microscopy and practical instruction in specimen preparation, ultramicrotomy, instrument operation, photography and quantitative methods. Laboratory. (F)
- BIOL 5374 Scanning Electron Microscopy 4 Credit Hours**
(Crosslisted with P BIO and M BIO 5374) Prerequisite: basic chemistry; basic physics; demonstrated need; graduate standing and permission of instructor. Principles of scanning electron microscopy are combined with training in the operation of the SEM and ancillary equipment. Students will be certified in the operation of all equipment. Sample preparation on a variety of samples and darkroom procedures will be performed. Independent project with oral report and poster required. Laboratory (Irreg.)
- BIOL 5394 Advanced Light Microscopy 4 Credit Hours**
(Crosslisted with M BIO and P BIO 5394) Prerequisite: permission of instructor and graduate standing. Focuses on theory and techniques in light microscopy covering principles including confocal laser scanning microscopy, multiple photon imaging, FLIM/FCS, FRET, fluorescence microscopy, phase contrast, DIC, 3D rendering, and other advanced optical technologies. Also includes a lab section where students will learn to use advanced epifluorescence and confocal microscopes. (F)
- BIOL 5403 Population Ecology 3 Credit Hours**
Prerequisite: graduate standing. History, demography, environmental factors, density-dependent factors, genetics and population ecology, theories of population and community organization (ideas of Elton, Williams, Preston, MacArthur, Smith, Hairston, and Slodobodkin). No laboratory. Offered Sp of even-numbered years. (Irreg.)
- BIOL 5413 Community Ecology 3 Credit Hours**
Prerequisite: Graduate standing, BIOL 3403 and MATH 1743 or 1823, or permission. Theoretical and empirical study of the structure and organization of natural communities. Topics include competition, predation, disturbance, abiotic gradients, species equilibria.
- BIOL 5423 Stream Ecology 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. A combined lecture/laboratory course that focuses on the physical, chemical, and biological features of stream ecosystems, including current theories explaining species interactions and stream function. Course requirements/evaluation including a midterm and final examination, individual research papers and presentations, participation in group laboratory and field experiments, and reading and discussing the primary literature. Field trips. Laboratory. Offered Fa of odd-numbered years. (Irreg.)
- BIOL 5453 Advanced Ecology/Evol Biology 3 Credit Hours**
(Crosslisted with P BIO 5453) Prerequisite: Graduate standing and BIOL 3403. Required for students in the ecology and evolutionary biology doctoral program. An introduction to current research opportunities and research programs in ecology and evolutionary biology at the University of Oklahoma. Specific topics and lecturers will vary from week to week to give students a broad overview of ongoing research projects. (F)
- BIOL 5471 Seminar in Ecology & Evolutionary Biology 1 Credit Hour**
(Crosslisted with P BIO and M BIO 5471) Prerequisite: graduate standing; May be repeated, maximum credit 2 hours. Two semesters of enrollment are required for students in the ecology and evolutionary biology doctoral program. An intensive, student-based seminar in which students present both proposals and ongoing progress reports on doctoral level research projects in ecology and evolutionary biology. (F, Sp)

- BIOL 5483 Physiological Plant Ecology 3 Credit Hours**
(Slashlisted with BIOL 4483) Prerequisite: graduate standing; BIOL 3453 or BIOL 4115, or permission of instructor. Study of energy budgets, plant water relations, carbon uptake and release, nutrient uptake and availability, and other factors as they affect plant growth, competition and other ecosystem-level factors. In-depth analysis of current literature. (F, even-numbered years). No student may earn credit for both 4483 and 5483.
- BIOL 5523 Biogeography and Macroecology 3 Credit Hours**
(Slashlisted with BIOL 4523) Prerequisite: Graduate standing and BIOL 3013, or Permission of Instructor. This course will explore the causes and consequences of the geographic distribution of life on Earth. We will discuss the processes which shape individual species distributions, why some regions host more species than others, and how the evolution of biodiversity is tied to the history and geography of Earth itself. No student may earn credit for both 4523 and 5523. (F)
- BIOL 5534 Plant Systematics 4 Credit Hours**
(Slashlisted with BIOL 4534) Prerequisite: graduate standing. Introduction to the evolution and identification of vascular plants with emphasis on the origin and evolution of the Oklahoma flora. Laboratory activities stress identification skills, terminology, field techniques, and family recognition for the flora of Oklahoma. Field trips. Laboratory. No student may earn credit for both 4534 and 5534. (Irreg.)
- BIOL 5553 Wetlands Ecology 3 Credit Hours**
(Slashlisted with BIOL 4553) Prerequisite: graduate standing and two college science courses that include a laboratory, one of which should be in biological sciences or permission of UOBS Director. Comprehensive field-based examination of wetland science and management. Biological, physical, chemical, and hydrological aspects of wetland ecosystem structure and function are explored through visits to several field sites. Major wetland types and resources are examined and the biogeochemical and ecological diversity of wetland waters, soils, vegetation, and fauna is investigated. No student may earn credit for both 4553 and 5553. Laboratory. (Su)
- BIOL 5573 Conservation Genetics 3 Credit Hours**
Prerequisite: Graduate standing and BIOL 3333 or permission of the instructor. This lecture/discussion course will examine the use of population genetic/ecological genetic principles in the study and management of populations of threatened and/or endangered species. (Sp)
- BIOL 5633 Ecology and Evolution of Infectious Diseases 3 Credit Hours**
(Slashlisted with BIOL 4633) Prerequisite: Graduate standing; a course on foundations of ecology and evolution is strongly recommended. Basic biological principles in how parasites are transmitted in natural populations, coevolution of hosts and parasites, and how novel parasites emerge and impact their host populations, including zoonotic parasites. No student may earn credit for both 4633 and 5633. (Sp)
- BIOL 5663 Advanced Limnology 3 Credit Hours**
(Slashlisted with BIOL 5663) Prerequisite: 4423 or 5423, or 4463 and 4471, or permission of instructor; May be repeated with change of content, maximum credit 6 hours. Detailed study of fundamental or contemporary topics within limnology, such as biogeochemistry, nutrient cycling, ecological stoichiometry, biodiversity, and predator-prey and food-web dynamics in aquatic communities. No student may earn credit for both 4663 and 5663. (Sp)
- BIOL 5673 Microbiomes: Health & Disease 3 Credit Hours**
(Slashlisted with BIOL 4673) Prerequisite: graduate standing; and BIOL 3812 and BIOL 3813 and CHEM 3013 or CHEM 3053; or permission of instructor. Introduces students to the modern-day characterization of microbiomes, from initial sequence information to the living organisms that make up these complex communities. Students will become familiar with the role microbiomes play in health and disease processes in addition to their role in personalized medicine. No student may earn credit for both 4673 and 5673. (Irreg.)
- BIOL 5733 Microbial Genetics 3 Credit Hours**
(Slashlisted with BIOL 4733) Prerequisite: graduate standing; BIOL 4843 or 5843, or permission of instructor. Microbial genetics underlies important topics such as antibiotic resistance, genetic engineering, drug development, and many biotechnological advances. Explores the interesting world of microbial genetics by discussing molecular genetic methods and related aspects of bacterial and archaeal biology. Examples will include both traditional and recently developed microbial model systems. No student may earn credit for both 4733 and 5733. (Sp)
- BIOL 5753 Molecular Evolution and Phylogenetics 3 Credit Hours**
(Slashlisted with BIOL 4753) Prerequisite: BIOL 2013 or BIOL 3333 or permission of instructor and graduate standing. Theory and practice of inferring evolutionary history from molecular and morphological data. Applications of the phylogenetic approach in systematics, comparative biology, molecular evolution, and genomics will be covered. Offered Fa of even-numbered years. No student may earn credit for both 4753 and 5753. (Irreg.)
- BIOL 5783 Introduction to Python Programming for Data Analytics 3 Credit Hours**
(Slashlisted with BIOL 4783) Prerequisite: graduate standing. This course will introduce students, who have no prior programming experience, to Python programming. It will cover data analysis and visualization methods in Python. Real-world examples will be used to teach general concepts in data analytics and practical coding skills in Python. No student may earn credit for both 4783 and 5783. (F)
- BIOL 5793 Microbial Genetics 3 Credit Hours**
(Slashlisted with BIOL 4793) Prerequisite: graduate standing; BIOL 4843 or 5843, or permission of instructor. Microbial genetics underlies important topics such as antibiotic resistance, genetic engineering, drug development, and many biotechnological advances. Explores the interesting world of microbial genetics by discussing molecular genetic methods and related aspects of bacterial and archaeal biology. Examples will include both traditional and recently developed microbial model systems. No student may earn credit for both 4793 and 5793. (Sp)
- BIOL 5810 Special Topics 3 Credit Hours**
0 to 3 hours. (Slashlisted with BIOL 4810) Prerequisite: graduate standing and permission of instructor; BIOL 3812 and BIOL 3813. Topics will include newly developing areas of the discipline. Taught at graduate level based on previous course background. May be repeated with change of content, maximum credit 3 hours per semester, 9 hours total. No student may earn credit for both 4810 and 5810. (Irreg.)
- BIOL 5833 Neurobiology 3 Credit Hours**
(Slashlisted with BIOL 4833) Prerequisite: graduate standing or permission of instructor. Advanced examination of cellular and behavioral neurobiology. Topics covered will include membrane biophysics, cellular neurobiology, neurophysiology, neuroanatomy, sensory processing, movement, and neurobiology of behavior. No student may earn credit for both 4833 and 5833. (F)

- BIOL 5843 Molecular Biology** **3 Credit Hours**
(Slashlisted with BIOL 4843) Prerequisite: graduate standing or permission of instructor. Introduction to the characteristics and biological functions of nucleic acids and proteins in living cells with emphasis on nucleic acid replication, transcription, translation and regulation; also emphasis on the molecular aspects of microbial genetics transformation, transduction and conjugation; and emphasis on molecular immunology and genetic engineering/recombinant DNA technology. No student may earn credit for both 4843 and 5843. (F, Sp)
- BIOL 5863 Neural Control of Movement** **3 Credit Hours**
(Slashlisted with BIOL 4863) Prerequisite: Graduate standing and BIOL 3103 or BIOL 3113 or BIOL 4833/5833, or permission of instructor. Introduction to neural control of movement through reading and discussion of key original research articles from the 19th century to the present. Students lead discussions and write essays addressing a general question, utilizing data from the articles. Topics include localization of function, sensory vs. central contributions, roles of single neurons, effects of neuromodulators, and motor learning. No student may earn credit for both 4863 and 5863. (Sp)
- BIOL 5871 Current Topics in Neurobiology** **1 Credit Hour**
(Slashlisted with BIOL 4871) Prerequisite: Graduate standing and permission of the instructor; May be repeated, maximum credit three hours. A seminar course designed to develop a student's abilities to interpret and critically evaluate research in cellular and behavioral neurobiology. Involves both public seminars and journal club style discussions of contemporary literature. No student may earn credit for both 4871 and 5871 concurrently. No student may earn credit for both 4871 and 5871. (F, Sp)
- BIOL 5873 Diversity of Biological Sex Characteristics** **3 Credit Hours**
(Slashlisted with BIOL 4873) Prerequisite: Graduate standing. This course explores the diverse biological sex characteristics of nonhuman animals and people. We examine the evolution of sexual reproduction, sex-determining mechanisms, and hermaphroditic, parthenogenetic, intersex, and multiple-gender animal species, followed by the biology of intersex and transgender people. Finally, we discuss human infant genital surgeries and participation in athletic competitions. No student may earn credit for both 4873 and 5873. (F)
- BIOL 5893 Behavioral Neurobiology** **3 Credit Hours**
(Slashlisted with BIOL 4893) Prerequisite: Graduate standing and BIOL 3103 or BIOL 3113, or BIOL 4833/5833 or permission of instructor. Examines neurobiological mechanisms of natural animal behaviors (i.e., neuroethology), utilizing textbook and lectures as well as in-depth reading, discussion, and student presentation of original research articles. No student may earn credit for both 4893 and 5893. (F)
- BIOL 5903 Topics in Virology** **3 Credit Hours**
(Slashlisted with BIOL 4903) Prerequisite: graduate standing; and CHEM 3653 or BIOL 4843 or permission of instructor. Aspects related to selected RNA viruses, such as HIV/AIDS and polio virus, will be studied and discussed. Topics will include the molecular structure of RNA viruses, the mechanisms of viral assembly and replication, viral disease pathogenesis, host responses to viral infections, vaccine development, anti-viral and RNA interference (RNAi) therapeutics. No student may earn credit for both 4903 and 5903. (F)
- BIOL 5923 Programming in R for Biology** **3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. R is a data analysis and graphics platform that has become increasingly popular in the sciences because of its power and versatility. This course provides an introduction to programming using R for applications in the biological sciences, with an emphasis on implementation. (F)
- BIOL 5943 Multivariate Analysis** **3 Credit Hours**
(Slashlisted with BIOL 4943) Prerequisite: Graduate standing and BIOL 4913 or permission of instructor. Introduces the concepts and underpinnings of multivariate statistics used commonly in the life sciences. The following topics will be included: regression, central tendency, data reduction, cluster analyses, and ordination and treats both parametric and non-parametric approaches. No student may earn credit for both 4943 and 5943. (Sp)
- BIOL 5953 BioWriting** **3 Credit Hours**
(Slashlisted with BIOL 4953; Crosslisted with MBIO and PBIO 5953) Prerequisite: Graduate standing and permission of instructor. This course provides students engaged in research with the information and skills needed to effectively communicate as professional biologists. Students will learn to report the results of their own research in the format of a journal article, conference-style presentation, and poster. Graduate students have additional assignments beyond those completed by undergraduates. No student may earn credit for both 4953 and 5953. (Irreg.)
- BIOL 5960 Directed Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department; May be repeated, maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- BIOL 5970 Special Topics in Biology** **3 Credit Hours**
0 to 3 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated with change of topic, maximum credit 12 hours. Special topics course; may include laboratory or field work. No student may earn credit for 4970 and 5970 on the same topic. (F, Sp, Su)
- BIOL 5980 Research for Master's Thesis** **2-9 Credit Hours**
2 to 9 hours. Prerequisite: Graduate standing. Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. Laboratory (F, Sp, Su)
- BIOL 5981 Current Topics in Disease Ecology** **1 Credit Hour**
(Slashlisted with BIOL 4981) Prerequisite: Graduate standing; May be repeated, maximum credit 9 hours. This seminar course will involve discussion of recent empirical and theoretical literature in the field of disease ecology and evolution. No student may earn credit for both 4981 and 5981. (F, Sp)
- BIOL 5990 Independent Study** **1-6 Credit Hours**
1 to 6 hours. Prerequisite: Graduate standing and permission. May be repeated in different fields; maximum credit 12 hours. Directed readings. Written report required. No laboratory. (F, Sp, Su)
- BIOL 6960 Directed Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor; May be repeated, maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- BIOL 6970 Seminar** **1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing and permission of instructor; May be repeated, maximum credit 12 hours; no more than six hours may be in any one field. No laboratory. (F, Sp, Su)

BIOL 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisites: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

BIOL 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated, maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

BME-Biomedical Engineering

BME 1421 Introduction to Biomedical Engineering 1 Credit Hour
Prerequisite: Freshman Standing. This course serves as an introduction to and overview of biomedical engineering. Course content serves to provide appreciation for the breadth of the biomedical engineering field and to guide first year students in making curriculum, major, and career choices. (F, Sp)

BME 2333 Biomedical Engineering Fundamentals 3 Credit Hours
Prerequisite: Course is not open to freshmen; Majors only; MATH 1823 or 1914; MATH 2423 or 2924; CHEM 1315 or 1335; CHEM 1415 or 1435; and PHYS 2514, and BME 1421 or permission of instructor. Introduction to material, energy, charge, and momentum balances in biological systems. Steady state and transient conservation equations for mass, energy, charge, and momentum will be derived and applied using basic mathematical principles, physical laws, stoichiometry, and thermodynamic properties. (F)

BME 2433 Signals and Systems for Biomedical Engineering 3 Credit Hours
Prerequisite: BME 2333; ECE 2723 or concurrent enrollment; course is not open to freshmen. Students learn circuits and linear systems concepts necessary for analysis and design of biomedical systems. Theory is motivated by examples from biomedical engineering. Topics covered include electrical circuit fundamentals, operational amplifiers, frequency response, electrical transients, impulse response, transfer functions, and convolution, all motivated by circuit and biomedical examples. Elements of continuous time domain-frequency domain analytical techniques are developed. (Sp)

BME 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

BME 3113 Bioimaging 3 Credit Hours
Prerequisite: BME 2333; BME 2433; PHYS 2524 and MATH 3113. Introduction to medical imaging techniques such as x-ray, computed tomography, magnetic resonance, and ultrasound. (F, Sp)

BME 3123 Biotransport 3 Credit Hours
Prerequisite: BME 2333; PHYS 2524 and MATH 3113. Covers key transport concepts in biomedical engineering. Emphasis is put on mass and momentum transport with applications related to biology, medical science and biotechnology. (F, Sp)

BME 3133 Bioelectricity 3 Credit Hours
Prerequisite: BME 2333; 2433; PHYS 2524 and MATH 3113. The electrophysiology of excitable cells from a quantitative perspective. Topics include the ionic basis of action potentials, quantitative models for nerve and muscle including the Hodgkin-Huxley equations, impulse propagation, synaptic dynamics, source-field relationships, and an introduction to functional electrical stimulation. (F, Sp)

BME 3143 Biomechanics 3 Credit Hours
Prerequisite: BME 2333, PHYS 2524, and MATH 3113. Analysis of human motion, evaluation of tissue solid mechanics, and use of momentum balance in fluid mechanics. (F, Sp)

BME 3153 Molecular, Cellular and Tissue Engineering 3 Credit Hours
Prerequisite: BME 2333, MATH 3113 and BIOL 1124. Application of engineering methods to study, measure, repair, or replace biological functions at the molecular, cellular, or tissue-level length scales. (F, Sp)

BME 3163 Biomedical Micro-/Nano-Technology 3 Credit Hours
Prerequisite: BME 2333; PHYS 2524; MATH 3113; majors only. Introduction to micro/nanotechnology in biomedical settings, including micro/nanotechnologies used to investigate biological systems, physiological responses to nanotherapeutics, and first principles of microfluidics and microfabrication. (F, Sp)

BME 3171 Biomedical Engineering Lab 1 1 Credit Hour
Prerequisite: Junior standing; ISE 3293 or departmental permission; BME 3143 or concurrent enrollment; majors only. Hands-on lab that teaches students technical skills associated with BME biomechanics, and also includes topics such as bioelectricity and bioimaging. Lab components include hypothesis testing and analysis, computer simulation, lab safety and instrument training, and technical communication. (F)

BME 3181 Biomedical Engineering Lab 2 1 Credit Hour
Prerequisite: Junior standing; BME 3171; BME 3123 or concurrent enrollment, and BME 4813 or concurrent enrollment; majors only. Hands-on lab that teaches students technical skills associated with biotransport and quantitative physiology, and includes topics such as molecular, cellular & tissue engineering, bioimaging, and micro/nanotechnology. Lab components include hypothesis testing and analysis, computer simulation, lab safety and instrument training, and technical communication. (Sp)

BME 3233 Biomaterials 3 Credit Hours
Prerequisite: BIOL 1124, BME 2333, PHYS 2524, and BME 3143; majors only; permission of instructor. Introduction to materials used in biomedical environment, the design and use of implantable materials, such as metals, polyethylene, ceramics, and composites, biocompatibility, test methods, and tissue growth on biomaterials. (F)

BME 3243 Biomechanics of Human Movement 3 Credit Hours
Prerequisite: BME 3143. This course introduces advanced undergraduate students to musculoskeletal biomechanics and the quantitative analysis of human movement. Topics covered will include rigid-body kinematics, dynamics, motion capture, external force measurement, electromyography, and mechanical properties of muscles and tendons. (Sp)

- BME 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- BME 3531 Bioinstrumentation Lab 1 Credit Hour**
Prerequisite: BME 2433, corequisite BME 3533; Majors only. Fundamental circuit elements and concepts include resistance, capacitance, inductance, op-amps, impedance, voltage, current, power, and frequency. Fundamental analog measurement concepts include adequate bandwidth and amplitude and phase linearity. Examples of medical measurements and devices are included for the fundamental circuit and measurement concepts covered above. Introduction of laboratory instruments used to simulate measurements of and direct measure physiological events. (F)
- BME 3533 Biomedical Instrumentation 3 Credit Hours**
Prerequisite: Majors only; BME 2433 and ECE 2723. Measurement and analysis of biopotentials and biomedical transducer characteristics; electrical safety applications of FET's; integrated circuits, operational amplifiers for signal processing and computer interfacing; signal analysis and display on the laboratory minicomputer. (Sp)
- BME 3722 Numerical Methods in Biomedical Engineering 2 Credit Hours**
Prerequisite: Majors only; C S 1213, MATH 3113, and BME 2333. Introduces principles and techniques of numerical analysis of biomedical engineering problems using software packages. Covers numerical methods of interpolation, curve fitting, solving linear systems, analysis of ordinary and partial differential equations, numerical modeling of biomedical engineering systems, symbolic computation, and scientific visualization. (F)
- BME 3723 Numerical Methods in Biomedical Engineering 3 Credit Hours**
Prerequisite: Majors only; CS 1213; MATH 3113; and BME 2333. Introduces principles and techniques of numerical analysis of biomedical engineering problems using software packages. Covers numerical methods of interpolation, curve fitting, solving linear systems, analysis of ordinary and partial equations, numerical modeling of biomedical engineering systems, symbolic computation, and scientific visualization. (F)
- BME 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)
- BME 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit 6 hours. Selected students work with individual faculty members on research problems in biomedical engineering. (F, Sp, Su)
- BME 4013 Introduction to Medical Device Design 3 Credit Hours**
(Slashlisted with BME 5013; Crosslisted with AME 4013) Prerequisite: Junior standing or permission of instructor. Introduction to medical device design with emphasis on the entire procedure of developing a medical device from identifying the unmet medical need to product launching. Topics include marketing and technology survey, concept development, the biocompatible material, device prototype, bench test, in vitro/in vivo test, clinical trial and FDA regulation. No student may earn credit for both 4013 and 5013. (Sp)
- BME 4050 Design Projects in Biomedical Engineering 3 Credit Hours**
0 to 3 hours. Prerequisite: Permission of Instructor. May be repeated; maximum credit 6 hours. This course is designed for students who are participating in design and project based experiences. This course is different from mentored research in that the student is expected to have completed a functioning prototype or design solution by the end of the experience. Credit hours may vary, based on the size, scope, and expectations of the project. (F, Sp)
- BME 4093 Applied Biomechanics - Ear Mechanics 3 Credit Hours**
(Slashlisted with BME 5093; Crosslisted with AME 4093) Prerequisite: Junior Standing; PHYS 2514; MATH 1823 or 1914; MATH 2423 or 2924; and CHEM 1315 all with a minimum grade of C or better. The course curriculum starts with a review of some basic solid mechanics and fluid mechanics. Then the course will review the applications of mechanics in different biosystems or organs. Finally, this course will cover how to apply mechanics on ear tissue mechanical measurements, ear modeling and ear implant design. No student may earn credit for both 4093 and 5093. (F)
- BME 4243 Biochemical Engineering 3 Credit Hours**
(Slashlisted with BME 5243; Crosslisted with CH E 4243) Prerequisite: CH E 3113 or permission of instructor. Current bioprocesses for reaction and separation with emphasis on fundamental principles of biochemical engineering, biochemistry, and microbiology. No student may earn credit for both 4243 and 5243. (Sp)
- BME 4281 Engineering Co-Op Program 1 Credit Hour**
(Crosslisted with AME, C S, CEES, CH E, ECE, ISE and EPHY 4281) Prerequisite: Departmental permission and junior standing. May be repeated; maximum credit 6 hours. The Co-Op program provides students an opportunity to enhance their education via career exploration in related professional work experiences. Course assignments help students articulate their experiences by completing journals; mid-term paper; final paper and/or final presentation. Faculty receive an evaluation from the student's Co-Op supervisor who monitors performance. Faculty collaborate with the Co-Op supervisor to ensure student success. (F, Sp, Su)
- BME 4373 Tissue Engineering 3 Credit Hours**
(Slashlisted with BME 5373; Crosslisted with CH E 4373) Prerequisite: senior standing or permission of instructor. Examines the background and recent advances in the science of combining multiple cell types with an appropriate support to provide a construct that can replace or support damaged tissue. No student may earn credit for both 4373 and 5373. (Irreg.)
- BME 4423 Genetic Engineering and Biotechnology 3 Credit Hours**
(Slashlisted with BME 5423; Crosslisted with CH E 4423) Prerequisite: permission of instructor for upper-class undergraduates. The course will cover state-of-the-art technologies of manipulating and controlling genes, genomes and cellular pathways with a goal of engineering human (stem) cells and microbes for health, environmental and industrial applications. No student may earn credit for both 4423 and 5423. (F)

- BME 4533 Neural Engineering** **3 Credit Hours**
(Slashlisted with BME 5533) Prerequisite: BME 3113 or BME 3133 or concurrent enrollment, or instructor permission. Principles and technologies of applying engineering to neuroscience, including areas as neural tissue engineering, models of neural function, neural interface and neuromodulation technology. Examples of neural engineering systems focus on brain-controlled interface and prosthetic systems currently in development or produced commercially, neurofeedback and brain stimulation systems for treating disorders such as depression. MATLAB(R) programming is required. No student may earn credit for both 4533 and 5533. (F)
- BME 4713 Biomedical Engineering Design I** **3 Credit Hours**
Prerequisite: BME 3533 or concurrent enrollment; Senior standing in the BS in BME curriculum. Structured methodologies for designing systems or to interface with living systems. Creative design, analysis, selection, development, and fabrication of biomedical components and systems. (F)
- BME G4813 Quantitative Physiology** **3 Credit Hours**
Prerequisite: BME 3722, junior standing, and majors only. Introduces students to the mathematical and numerical techniques used to develop, solve, and analyze quantitative models of physiology systems. (Sp)
- BME 4823 Biomedical Engineering Design II** **3 Credit Hours**
Prerequisite: BME 4713. Development of team projects in biomedical engineering with emphasis on prototype development and quantitative analysis, and written and oral reporting of the outcome. Capstone. (Sp) [V].
- BME 4873 Network Modeling and Analysis of Complex Systems** **3 Credit Hours**
(Slashlisted with BME 5873) Prerequisite: BME 3722 or permission of instructor. In this course, we will cover the key concepts and methodologies for studying the structure and dynamics of complex biological systems such as protein, genetic, and neural networks. No student may earn credit for both 4873 and 5873. (Sp)
- BME 4970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- BME 4980 Senior Thesis** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing, BME 3440 or BME 3980, and permission of instructor. The Senior Thesis is an option for seniors who are especially interested in research and/or intending to continue on to a PhD program. Students who have completed the first semester (fall of their senior year) and have satisfactorily passed the fall semester report will enroll in this course for the Spring of their senior year only. (Sp)
- BME 5013 Introduction to Medical Device Design** **3 Credit Hours**
(Slashlisted with BME 4013; Crosslisted with AME 5013) Prerequisite: Graduate standing or permission of instructor. Introduction to medical device design with emphasis on the entire procedure of developing a medical device, from identifying the unmet medical need to product launching. Topics include marketing and technology survey, concept development, the biocompatible material, device prototype, bench test, in vitro/in vivo test, clinical trial, and FDA regulation. No student may earn credit for both 4013 and 5013. (Sp)
- BME 5093 Applied Biomechanics - Ear Mechanics** **3 Credit Hours**
(Slashlisted with BME 4093; Crosslisted with AME 5093) Prerequisite: Graduate Standing. The course curriculum starts with a review of some basic solid mechanics and fluid mechanics. Then the course will review the applications of mechanics in different biosystems or organs. Finally, this course will cover how to apply mechanics on ear tissue mechanical measurements, ear modeling and ear implant design. No student may earn credit for both 4093 and 5093. (F)
- BME 5113 Special Topics in Cancer** **3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor. Students will develop an appreciation of the tools available at hand to dissect the molecular mechanisms controlling cancer development such that they can take this knowledge to the bench to develop their own graduate research. (Sp)
- BME 5123 Biophotonics Imaging Microscopy** **3 Credit Hours**
Prerequisite: Graduate standing; BME 2333; BME 2433; PHYS 2524 and MATH 3113; or instructor permission. Optical imaging, spectroscopy, and microscopy have become indispensable tools in modern biomedical research. This course will cover the principles and instrumentation of various biomedical optical techniques, including fluorescence and Raman spectroscopy, confocal and multi-photon microscopy, optical coherence tomography, and diffuse optical tomography. Biomedical applications, particularly on cancer and brain research, will also be discussed. (F)
- BME 5133 Therapeutic Biophotonics** **3 Credit Hours**
Prerequisite: Graduate standing, BME 4813 or permission of the instructor. This course will introduce the effects of photothermal, photochemical, photomechanical, photoimmunological, and photomodulatory interactions. Applications of biophotonics in treatment of cancer and other diseases in basic, translational, and clinical studies will be discussed. Modern multiomics technologies, such as spatial and/or single cell transcriptomics for analysis of phototherapy induced biological effects will also be discussed. (Sp)
- BME 5143 Biosensor: Fundamentals and Applications** **3 Credit Hours**
Prerequisite: Graduate standing or Permission of Instructor. Healthcare, precision medicine, and self-monitoring of health all depend on biosensors. The goal of the course is to provide students a thorough introduction to the topic of biosensors as well as a quantitative and in-depth understanding of device design and performance evaluation. (Sp)
- BME 5213 Biomechanics I** **3 Credit Hours**
(Crosslisted with AME 5213) Prerequisite: AME 3143 and AME 3153 or permission of instructor. Introduction to physiological systems with emphasis on structure and function of tissues and organs; application of continuum mechanics to understanding of tissue and organ behavior at microscopic and macroscopic levels; viscoelastic behavior at microscopic and macroscopic levels; viscoelastic and solid biomaterials. (F)
- BME 5233 Biomaterials** **3 Credit Hours**
Prerequisite: Graduate standing, BME 3233, and permission of instructor. Introduction to materials used in biomedical environment, the design and use of implantable materials (such as metals, polyethylene, ceramics, composites), biocompatibility, test methods, and tissue growth on biomaterials. (Sp)
- BME 5243 Biochemical Engineering** **3 Credit Hours**
(Slashlisted with BME 4243; Crosslisted with CH E 5243) Prerequisite: CH E 5971; graduate standing or instructor permission. Current bioprocesses for reaction and separation with emphasis on fundamental principles of biochemical engineering, biochemistry, and microbiology. No student may earn credit for both 4243 and 5243. (Sp)

- BME 5283 ImmunoEngineering 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. The immune system plays a big role to maintain the homeostasis in our body. It provides the first reaction to external stresses, such as pathogens, biomaterials and implants, and cancer. Dysregulations in immune system can cause autoimmune diseases or determine our fate when we are exposed to external diseases. (Sp)
- BME 5293 Transport in Biological Systems 3 Credit Hours**
(Crosslisted with CH E 5293) Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. Theoretical and practical aspects of transport phenomena in living organisms and biomedical technologies. Applications include hemorheology, drug delivery, extracorporeal circulation and artificial organs. (Irreg.)
- BME 5363 Optical Engineering 3 Credit Hours**
(Crosslisted with ECE 5363) Prerequisite: ECE 3793. Underlying theory and design of optical systems. Interference, diffraction and coherence phenomena will be examined as a basis for studying the limits of optical system performance. Other topics include a detailed study of polarization, the interaction of light with various media and geometrical optics. (Sp)
- BME 5373 Tissue Engineering 3 Credit Hours**
(Slashlisted with BME 4373; Crosslisted with CH E 5373) Prerequisite: CH E 5971; graduate standing, admission into Gallogly College of Engineering or permission of instructor. Examines the background and recent advances in the science of combining multiple cell types with an appropriate support to provide a construct that can replace or support damaged tissue. No student may earn credit for both 4373 and 5373. (Irreg.)
- BME 5413 Nanomedicine 3 Credit Hours**
Prerequisite: BME 3163 and permission of instructor. Introduction to nanomaterials used in preclinical and clinical stages; the design, application, and evaluation of nanomaterials to diagnose and treat diseases, including cancer. (Sp)
- BME 5423 Genetic Engineering and Biotechnology 3 Credit Hours**
(Slashlisted with BME 4423; Crosslisted with CH E 5423) Prerequisite: Graduate standing in CBME or SBME, or permission of instructor. The course will cover state-of-the-art technologies of manipulating and controlling genes, genomes and cellular pathways with a goal of engineering human (stem) cells and microbes for health, environmental and industrial applications. No student may earn credit for both 4423 and 5423. (F)
- BME 5443 Neural System and Rehabilitation Engineering 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Advanced knowledge of neural control of movement, musculoskeletal system, and movement impairment and disability will be discussed. Topics include the frontiers of rehabilitation engineering, including assistive technologies, brain-computer interfaces, non-invasive brain stimulation, regenerative rehabilitation, and machine learning in rehabilitation. The students will learn writing skills for NIH/AHA aims page for research projects in the field of rehabilitation (Sp)
- BME 5453 Polymer Science and Engineering 3 Credit Hours**
(Crosslisted with CH E 5453) Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. This course will be focused on the synthesis, characterization, processing, and properties of state-of-the-art polymeric and multicomponent polymeric materials. Students should come into the course with a background knowledge of polymers such as that found in an Engineering Materials and/or Organic Chemistry Course. (Sp)
- BME 5533 Neural Engineering 3 Credit Hours**
(Slashlisted with BME 4533) Prerequisite: Graduate standing or permission of instructor. Principles and technologies of applying engineering to neuroscience, including neural tissue engineering, models of neural function, neural interface, and neuromodulation technology. Examples of neural engineering systems focus on brain-controlled interface and prosthetic systems currently in development or produced commercially, and neurofeedback and brain stimulation systems for treating disorders such as depression. MATLAB(R) programming is required. No student may earn credit for both 4533 and 5533. (F)
- BME 5853 Biomedical Signals and Systems 3 Credit Hours**
(Crosslisted with ECE 5853) Prerequisites: ECE 3723 and ECE 3793, or equivalent course in electrical circuits and signal processing, or permission of instructor. Comprehensive coverage of topics related to signals in humans. Emphasis on using engineering tools to interpret signals and underlying physiological principles. Focus on emerging engineering technologies, physiological knowledge and clinical application. (Sp)
- BME 5863 Bioinstrumentation 3 Credit Hours**
(Crosslisted with ECE 5863) Prerequisite: ECE 4213 or permission of the instructor. A comprehensive coverage of topics related to principles, applications, and design of medical instruments widely used in hospitals and clinical researches. Emphasis is placed on general design concepts, discussions on a great variety of medical devices, and medical device safety issues. Materials cover different levels and various aspects of human systems, such as heart, brain, circulation, respiration. (F, Sp)
- BME 5873 Network Modeling and Analysis of Complex Systems 3 Credit Hours**
(Slashlisted with BME 4873) Prerequisite: graduate standing or permission of instructor. In this course, we will cover the key concepts and methodologies for studying the structure and dynamics of complex biological systems such as protein, genetic, and neural networks. No student may earn credit for both 4873 and 5873. (Sp)
- BME 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of department. May be repeated; maximum credit six hours. Directed readings and/or literature reviews under the direction of a faculty member. (Irreg.)
- BME 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- BME 5971 Seminar in Biomedical Engineering Research 1 Credit Hour**
Prerequisite: Graduate standing and BME majors only; May be repeated with change of content; maximum credit 6 hours. The department will invite speakers and the graduate students to present their ongoing research. Students will learn the frontiers in biomedical engineering and relevant fields and will have the opportunity for discussion with leading scientists. Students will also be encouraged to present their own research work and get feedback from faculty and peers. (F, Sp)
- BME 5973 Special Topics in Electrical and Computer Engineering 3 Credit Hours**
(Crosslisted with ECE 5973) Prerequisite: Graduate standing and permission of instructor. May be repeated with change of content; maximum credit 12 hours. Selected topics of current research interest not covered by regularly scheduled coursework. (F, Sp, Su)

BME 5980 Research for Master's Thesis 2-6 Credit Hours
2 to 6 hours. Prerequisite: graduate standing or permission by instructor. May be repeated; maximum credit toward degree six hours. Directed research culminating in the completion of the master's thesis. (F, Sp, Su)

BME 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

BME 6213 Optical Information Processing 3 Credit Hours
Prerequisite: ECE 5213 and ECE 5353. Application of Fourier transforms, linear systems, and diffraction theory to the analysis of optical systems. Emphasis is on the use of optical systems for information processing, including image enhancement, pattern recognition, data processing, optical switching, and computing. (F)

BME 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

BME 6970 Advanced Topics in Bioengineering 1-6 Credit Hours
1 to 6 hours. Prerequisite: graduate standing or instructor permission. May be repeated with change of topic; maximum credit towards degree six hours. Selected topics of current faculty research interest at the PhD level not covered by regularly scheduled courses. (Irreg.)

BME 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

BME 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

C S-Computer Science

C S 1213 Programming for Non-Majors with Python 3 Credit Hours
Prerequisite: Mathematics 1503 or concurrent enrollment. Introduction to the design and implementation of computer programs in the language Python. We will cover data types, control flow, iterations, functions, and the use of external libraries for text processing, graphics, image manipulation, web programming and others. Emphasis on problem solving with examples drawn from diverse disciplines. (F, Sp)

C S 1313 Programming for Non-Majors with C 3 Credit Hours
Prerequisite: MATH 1523 or concurrent enrollment. Introduction to the design and implementation of computer programs. Emphasis on problem solving. Topics include: variables and constants, arithmetic and Boolean expressions, conditional statements, loops, procedures and functions, arrays, standard libraries, input and output, structures, and program documentation. (F, Sp)

C S 1321 Java for Programmers 1 Credit Hour
Prerequisite: Departmental Permission; and Math 1523 or MATH 1743 or equivalent or concurrent enrollment, or placement into Math 1823 or higher. Introduction to computer programming using the Java programming language for students who are already proficient in another programming language. Topics include: variables and constants, arithmetic and Boolean expressions, conditional statements, repetition, methods, arrays, linear and binary search, basic sorting algorithms, object-oriented programming, documentation, and testing. Students may not take this class after passing CS 2334. (F, Sp)

C S 1323 Introduction to Computer Programming for Programmers 3 Credit Hours
Prerequisite: Departmental Permission; and Math 1523 or MATH 1743 or equivalent or concurrent enrollment, or placement into Math 1823 or higher. Introduction to the design and implementation of computer software with an emphasis on abstraction and program organization for students with some prior programming experience. Topics include: variables and constants, arithmetic and Boolean expressions, conditional statements, repetition, methods, arrays, linear and binary search, basic sorting algorithms, object-oriented programming, documentation, and testing. Students may not take this class after passing CS 2334. (F, Sp)

C S 1324 Introduction to Computer Programming for Non-Programmers 4 Credit Hours
Prerequisite: Departmental Permission; and Math 1523 or MATH 1743 or equivalent or concurrent enrollment, or placement into Math 1823 or higher. Introduction to the design and implementation of computer software with an emphasis on abstraction and program organization for students with no prior programming experience. Topics include: variables and constants, arithmetic and Boolean expressions, conditional statements, repetition, methods, arrays, linear and binary search, basic sorting algorithms, object-oriented programming, documentation, and testing. Students may not take this class after passing CS 2334. (F, Sp)

C S 2334 Programming Structures and Abstractions 4 Credit Hours
Prerequisite: C S 1323 or 1321 or 1324, and MATH 1523 or higher. The design and implementation of computer programs using disciplined methodologies. Use of several abstract data types. Software reuse through encapsulation, composition, aggregation, inheritance, polymorphism, and generics. Topics include recursion, GUI development, file processing, and unit testing. A program design tool will be used. Introduction to ethics in computer science, including philosophical ethics theories. Discussion of intellectual property rights and privacy. (F, Sp)

C S 2413 Data Structures 3 Credit Hours
Prerequisite: C S 2334 and MATH 1823 or 1914; and C S 2813 or MATH 2513, or concurrent enrollment in C S 2813 or MATH 2513. Representation, analysis and implementation of data structures and associated algorithms including: algorithm complexity, sorting algorithms, lists, stacks, queues, search trees (AVL, Red-Black, Splay, 2-3), Heaps, Graphs, and Hashing. Written communications required in some projects. Ethical issues and tools and techniques used in writing secure applications will also be discussed. The primary programming language is C++ with a debugging tool. (F, Sp)

- C S 2414 Data Structures 4 Credit Hours**
Prerequisite: C S 2334 and MATH 1823 or 1914; and C S 2813 or MATH 2513, or concurrent enrollment in C S 2813 or MATH 2513. Representation, analysis and implementation of data structures and associated algorithms including: algorithm complexity, sorting algorithms, lists, stacks, queues, search trees (AVL, Red-Black, Splay, 2-3), Heaps, Graphs, and Hashing. Written communications required in some projects. Ethical issues and tools and techniques used in writing secure applications will also be discussed. The primary programming language is C++ with a debugging tool. (F, Sp)
- C S 2614 Computer Organization 4 Credit Hours**
Prerequisite: CS 2334. An introduction to the architecture, organization and design of uniprocessor-based computer systems. Topics include processor, control and memory design and organization, pipelining and vector processing, computer arithmetic, I/O organization, and computer systems security. (F, Sp)
- C S 2813 Discrete Structures 3 Credit Hours**
Prerequisite: C S 2334; MATH 2423 or MATH 2924 as prerequisite or concurrent enrollment. Introduction to the theory of discrete structures useful in computer science. Topics include combinatorics, relations, functions, computational complexity, recurrences, and graph theory. (F, Sp)
- C S 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- C S 3113 Introduction to Operating Systems 3 Credit Hours**
Prerequisite: C S 2413 or C S 2414, and C S 2813 or MATH 2513, and C S 2614 or ECE 3223. An introduction to the major concepts and techniques of designing and implementing operating systems including: memory management, process management, information management, and computer security. Principles of performance evaluation. Class projects require the design and implementation of software systems. A UNIX family operating system will be used. (F)
- C S 3203 Software Engineering 3 Credit Hours**
Prerequisite: C S 2413 or CS 2414, and C S 2813 or MATH 2513. Methods and tools for software specification, design, implementation, testing, code management and documentation. Emphasis on architectural modularity, encapsulation of software objects, and current industrial software development processes. Students will make reasoned choices among software components. Study of professional ethics, responsibility, and legal issues. No student may obtain credit for CS 3203 and C S 5213. (F, Sp)
- C S 3323 Principles of Programming Languages 3 Credit Hours**
Prerequisite: C S 2413 or C S 2414, and C S 2813 or MATH 2513, and ENGL 3153 or BC 2813 or ENGR 2002 as a prerequisite or concurrent enrollment. An introduction to theoretical foundations and paradigms of programming languages. Topics include basic concepts such as lexical analysis, syntax analysis, type systems and semantics, some practical issues such as memory management and exception handling, and programming paradigms such as imperative programming, object-oriented programming, functional programming and scripting. (Sp)
- C S 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisite: ENGL 1213 or EXPO 1213, and permission of instructor; may be repeated; maximum credit 12 hours. For the inquisitive student to apply computer science in a project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. . (F, Sp, Su)
- C S 3450 Undergraduate Research 3 Credit Hours**
0 to 3 hours. Prerequisite: (CS 2413 or CS 2414 and CS 2813 or Math 2513) and permission of instructor; may be repeated, maximum credit 6 hours. For the inquisitive student to perform computer science research or creative activity under the mentorship of a faculty member. Not for honors credit. (F, Sp, Su)
- C S 3823 Theory of Computation 3 Credit Hours**
Prerequisite: CS 2413 and CS 2813 or MATH 2513 or CS 5005 or DSA 5005. Introduction to abstract machine theory and formal language theory. Topics include Turing machines, finite/pushdown automata, deterministic versus nondeterministic computations, context-free grammars, and mathematical properties of these systems. (F)
- C S 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp)
- C S 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated with change of topic; maximum credit eight hours. Projects covered will vary. Deals with concepts not usually presented in regular coursework. (Irreg.)
- C S 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated with change of subject matter; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work on a special project in the student's field. (F, Sp, Su)
- C S 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- C S 4013 Artificial Intelligence 3 Credit Hours**
(Slashlisted with C S 5013) Prerequisite: CS 2413 or CS 5005, and CS 2813 or CS 4005 or MATH 2513. Study of the methods of search, knowledge representation, heuristics, and other aspects of automating the solution of problems requiring intelligence. No student may earn credit for both 4013 and 5013. (Sp)
- C S 4023 Introduction to Intelligent Robotics 3 Credit Hours**
(Slashlisted with C S 5023) Prerequisite: C S 2413, and C S 2813 or MATH 2513. History of intelligent robotics; functional models approach; reactive robots; ethology for robotics; architectures and methodologies; implementation; sensing; hybrid deliberative/reactive robotics; multi-robot systems; navigation; topological path planning; metric path planning; localization and mapping. No student may earn credit for both 4023 and 5023. (F)

- C S 4033 Machine Learning Fundamentals 3 Credit Hours**
(Slashlisted with C S 5033) Prerequisites: C S 2413, and C S 2813 or MATH 2513, and MATH 4753 or ISE 3293 or MATH 4743, and MATH 3333, and MATH 3113 or MATH 3413. Topics include decision trees, relational learning, neural networks, Bayesian learning, reinforcement learning, multiple-instance learning, feature selection, learning appropriate representations, clustering, and kernel methods. No student may earn credit for both 4033 and 5033. (F)
- C S 4053 Computer Graphics 3 Credit Hours**
(Slashlisted with C S 5053) Prerequisite: C S 2413, and C S 2813 or MATH 2513, and MATH 3333. An introduction to computer graphics. Topics include coordinate systems, transformations, rendering in both two and three dimensions, and graphical programming. No student may earn credit for both 4053 and 5053. (F)
- C S 4063 Human Computer Interaction 3 Credit Hours**
(Slashlisted with CS 5063) Prerequisite: C S 2413, and C S 2813 or MATH 2513. An introduction to human-computer interaction and graphical user interfaces. Topics include principles of human-computer interaction, human perceptual and cognitive abilities, user interface analysis and design, window systems, and social implications of computing. Current user interface programming tools will be described and used. Oral presentations are required for some assignments. No student may earn credit for both 4063 and 5063. (Sp)
- C S 4113 Distributed Operating Systems 3 Credit Hours**
(Slashlisted with C S 5113) Prerequisite: C S 3113, and Mathematics 4753 or Industrial Engineering 3293 or Mathematics 4743 or Engineering 3293. Continuation of study from 3113. Advanced topics and examples and simulation techniques used in performance evaluation. No student may earn credit for both 4113 and 5113. (Sp)
- C S 4133 Data Networks 3 Credit Hours**
(Slashlisted with 5133) Prerequisite: 3113 or permission of instructor. Comprehensive treatment of data networking principles including: layered protocol design and their functions, tools for performance analysis, multi-access communication, routing and flow control. No student may earn credit for both 4133 and 5133. (F)
- C S 4173 Computer Security 3 Credit Hours**
(Slashlisted with C S 5173) Prerequisite: CS 3113. An introduction to computer security. Topics include applied cryptography, access control, programming and software security, operating system security, network security protocols, and the legal and ethical aspects of security software. (F)
- C S 4273 Capstone Design Project 3 Credit Hours**
Prerequisite: C S 3203, and C S major or C S minor. Students working in teams implement a significant software product, including design documents, user's guide, and process reports. Emphasis is on data abstraction and reusable components. Students will make reasoned choices among software components. Students will practice oral/written communication skills, learn about professional social issues and responsibilities. No student may obtain credit for C S 4273 and C S 5213. (F, Sp) [V].
- C S 4281 Engineering Co-Op Program 1 Credit Hour**
(Crosslisted with AME, CH E, CEES, ECE, EPHY, ISE and BME 4281) Prerequisite: Departmental permission and junior standing. May be repeated; maximum credit 6 hours. The Co-Op program provides students an opportunity to enhance their education via career exploration in related professional work experiences. Course assignments help students articulate their experiences by completing journals; mid-term paper; final paper and/or final presentation. Faculty receive an evaluation from the student's Co-Op supervisor who monitors performance. Faculty collaborate with the Co-Op supervisor to ensure student success. (F, Sp, Su)
- C S G4323 Compiler Construction 3 Credit Hours**
Prerequisite: 2413 and 3823. Introduction to the theory and implementation of programming language compilers and interpreters. Class projects require the design of medium scale software systems. (Sp)
- C S 4410 Programming Competition 0 Credit Hours**
Prerequisite: Permission of Instructor. Prepare students to participate in regional, national, and international computer programming competitions. Students will work in teams to solve challenging computer programming problems. (F, Sp)
- C S G4413 Algorithm Analysis 3 Credit Hours**
(Crosslisted with DSA 4413) Prerequisites: C S 2413 and C S 2813; or MATH 2513; or C S 5005. Design and analysis of algorithms and measurement of their complexity. This course introduces various algorithm design strategies: divide and conquer, greedy principle and dynamic programming to solve a variety of problems using algorithms of various types - deterministic and randomized, serial and parallel, centralized and decentralized, program based and circuit based. (F)
- C S 4433 Computational Methods in Discrete Optimization 3 Credit Hours**
(Slashlisted with C S 5433) Prerequisite: MATH 3333 and C S 4413 or concurrent enrollment in 4413. Linear programming: simplex method for LP problems, degeneracy and anticycling strategies, duality theory and complementary slackness conditions, revised simplex method, sensitivity analysis and simplex method for general LP problems. Network optimization: the transshipment problem, network simplex method, shortest path algorithms, the maximum flow problem, and the primal dual method. No student may earn credit for both 4433 and 5433. (F, Sp)
- C S 4473 Parallel, Distributed, and Network Programming 3 Credit Hours**
(Slashlisted with C S 5473) Prerequisite: CS 3113 and CS 4413. Parallel and distributed architectures, algorithms, programming paradigms and network communication protocols and programming. Topics include asynchronous/synchronous computation, GPU architectures, load balancing, memory hierarchies, other parallel and distributed models of computation, concepts about computer networks, including internet protocol stack and internet architecture, and socket programming using TCP and UDP. No student may earn credit for both 4473 and 5473. (Sp)
- C S G4513 Database Management Systems 3 Credit Hours**
(Crosslisted with DSA 4513) Prerequisites: C S 2413 and C S 2813; or MATH 2513; or C S 5005. The design and implementation of a DBMS including data models, query languages, entity-relationship diagrams, functional dependencies, normalization, storage structures, access methods, query processing, security and transaction management, and applications. The impact of databases on individuals, organizations, and society, and legal and professional responsibilities including security and privacy will be discussed. A commercial DBMS is used. Students practice written communication skills. (F)

- C S G4613 Computer Architecture** **3 Credit Hours**
(Crosslisted with ECE 4613) Prerequisite: ECE 3223 or C S 2614 or C S 2613. Covers basic concepts of computer system design and communication between components, along with current and historical examples of computer architecture. (F, Sp)
- C S 4723 Neural Data Science** **3 Credit Hours**
(Slashlisted with C S 5723) Prerequisite: Computer Programming (CS 1213 or CS 1313 or CS 1321 or CS 1323 or CS 1324) and Statistics (ECE 2523 or ISE 3293 or Math 4743 or Math 4753); or permission of instructor. This course will introduce the fundamental concepts of neural data analysis and its implementation using computer programming. Topics include statistical modeling, connectivity analysis, time-frequency analysis, and pattern recognition. No student may earn credit for both 4723 and 5723. (F)
- C S 4733 Computer Vision for Autonomous Vehicles** **3 Credit Hours**
(Slashlisted with C S 5733) Prerequisite: C S2413 or C S 2414 or C S 5005; and MATH 3333; or permission of instructor. This course delves into the foundational principles of mathematics and the practical implementation of state-of-the-art autonomous navigation algorithms, specifically within the domains of self-driving cars, delivery robots, and autonomous aerial vehicles such as drones. Positioned within the field of robotics, it explores various aspects of autonomous navigation, covering motion planning, computer vision, localization, and mapping. No student may earn credit for both 4733 and 5733. (F)
- C S 4743 Scientific Computing I** **3 Credit Hours**
(Slashlisted with C S 5743) Prerequisite: MATH 3333. Interaction between applications, architectures, and algorithms. Review of linear algebra, serial, pipelined vector processors, cluster of processors. Measures of performance of parallel algorithms. Parallel algorithms for the solution of linear systems. No student may earn credit for both 4743 and 5743. (F)
- C S 4823 Cryptography** **3 Credit Hours**
(Slashlisted with 5823) Prerequisite: 3823 and 4413. Elementary number theory, time complexity for doing arithmetic, finite fields, RSA, discrete logarithm and Diffie-Hellman, zero-knowledge protocols and oblivious transfer. Basic elliptic curve cryptosystems, elliptic curve factorization and primality proving. No student may earn credit for both 4823 and 5823. (Sp)
- C S 4910 Senior Reading and Research** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing, permission of instructor. May be repeated with change of subject matter; maximum credit six hours. Individually supervised reading and research in computing science for gifted seniors. (F, Sp, Su)
- C S 4970 Undergraduate Seminar** **1-3 Credit Hours**
0 to 3 hours. May be repeated with change of subject matter; maximum credit three hours. A special type of seminar necessitated by the rapidly changing nature of modern data processing information science and computing sciences. (Irreg.)
- C S 4973 Special Topics** **3 Credit Hours**
Prerequisite: 2413 and permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. A special topics course necessitated by the rapidly changing nature of computer sciences. Topics offered under this number will be accepted as approved Computer Science electives for Computer Science majors. (Irreg.)
- C S 4990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours but total credit applicable to any degree may be limited. Individual or group research and development projects involving original laboratory, analytical or theoretical investigations and syntheses. Specific objectives and work requirements are established by prior agreement of the instructor and student. Students should expect to spend at least 48 hours for each credit hour and to submit appropriate reports or papers (F, Sp, Su).
- C S 5005 Computing Structures** **5 Credit Hours**
(Crosslisted with DSA 5005) Prerequisite: CS 2334, MATH 1914 or MATH 1823 or with permission of graduate liaison. This course has three parts: discrete mathematics, object-oriented programming in C++, and data structures in C++. As part of the discrete mathematics students will be introduced to combinatorics, logic, relations, functions, computational complexity, automata, and graph theory. Students will be introduced to the fundamentals of object-oriented programming and learn to design, build, and analyze data structures using object-oriented principles and techniques. Credit hours earned for this course cannot be used to fulfill degree requirements for the B.S., M.S. or Ph.D. programs in computer science. (Irreg.)
- C S 5013 Artificial Intelligence** **3 Credit Hours**
(Slashlisted with C S 4013) Prerequisite: graduate standing and C S 2413 or C S 5005, and C S 2813 or C S 4005 or MATH 2513. Study of the methods of search, knowledge representation, heuristics, and other aspects of automating the solution of problems requiring intelligence. No student may earn credit for both 4013 and 5013. (Sp)
- C S 5023 Introduction to Intelligent Robotics** **3 Credit Hours**
(Slashlisted with C S 4023) Prerequisite: graduate standing and C S 2413, and C S 2813 or MATH 2513. History of intelligent robotics; functional models approach; reactive robots; ethology for robotics; architectures and methodologies; implementation; sensing; hybrid deliberative/reactive robotics; multi-robot systems; navigation; topological path planning; metric path planning; localization and mapping. No student may earn credit for both 4023 and 5023. (F)
- C S 5033 Machine Learning Fundamentals** **3 Credit Hours**
(Slashlisted with C S 4033) Prerequisite: Graduate standing and C S 2413; C S 2813 or MATH 2513; MATH 4753 or ISE 3293 or MATH 4743; MATH 3333; and MATH 3113 or MATH 3413. Topics include decision trees, relational learning, neural networks, Bayesian learning, reinforcement learning, multiple-instance learning, feature selection, learning appropriate representations, clustering, and kernel methods. No student may earn credit for both 4033 and 5033. (F)
- C S 5043 Advanced Machine Learning** **3 Credit Hours**
Prerequisite: Graduate standing; MATH 3333; MATH 4743 or MATH 4753 or ENGR 3293 or ISE 3293; and C S 4033/5033 or C S 5073; or permission of the instructor. Topics include deep learning, deep networks, convolutional neural networks, recurrent neural networks, transformers, autoencoders, generative adversarial networks, and explainable deep learning. (Irreg.)
- C S 5053 Computer Graphics** **3 Credit Hours**
(Slashlisted with C S 4053) Prerequisite: graduate standing and C S 2413, and C S 2813 or MATH 2513, and MATH 3333. An introduction to computer graphics. Topics include coordinate systems, transformations, rendering in both two and three dimensions, and graphical programming. No student may earn credit for both 4053 and 5053. (F)

- C S 5063 Human Computer Interaction 3 Credit Hours**
(Slashlisted with CS 4063) Prerequisite: Graduate standing and C S 2413, and C S 2813 or MATH 2513; or departmental permission. An introduction to human computer interaction and graphical user interfaces. Topics include principles of human computer interaction, human perceptual and cognitive abilities, user interface analysis and design, window systems, and social implications of computing. Current user interface programming tools will be described and used. Oral presentations are required for some assignments. No student may earn credit for both 4063 and 5063. (Sp)
- C S 5073 Artificial Neural Networks Evolution 3 Credit Hours**
Prerequisite: CS 2413 and CS 2813, or CS 5005, and MATH 3333. Overview of computational intelligence and artificial evolution, artificial neural networks and artificial evolution, introduction to artificial life and neuro-evolution, and evolutionary robotics. (F)
- C S 5093 Visual Analytics 3 Credit Hours**
Prerequisite: permission of instructor. Exploration and analysis of complex information through visual interactive computational tools and techniques. Topics include analytic reasoning, sense-making, knowledge dissemination, data representation and transformation, visual abstraction, coordinated interaction, visual query languages, spatiotemporal visualization, and applications of visual analysis. (Sp)
- C S 5113 Distributed Operating Systems 3 Credit Hours**
(Slashlisted with C S 4113) Prerequisite: Graduate standing, C S 3113; and MATH 4753, ISE 3293, or MATH 4743. Advanced topics, examples, and simulation techniques used in performance evaluation. No student may earn credit for both 4113 and 5113. (Sp)
- C S 5133 Data Networks 3 Credit Hours**
(Slashlisted with 4133) Prerequisite: 3113 or 5004 or permission of instructor. Comprehensive treatment of data networking principles including: layered protocol designs and their functions, tools for performance analysis, multi-access communication, routing and flow control. No student may earn credit for both 4133 and 5133. (F)
- C S 5143 Network Design and Management 3 Credit Hours**
Prerequisite: 4133 or 5133, or equivalent. Basic concepts in networks; modeling and evaluation techniques; network analysis: delay, loss and throughput, centralized network design; distributed network design, network reliability; applications to local area wireless, wide area, multi-service networking, etc.; network management: SNMP, OSI management, distributed network management and architectures. (Sp)
- C S 5173 Computer Security 3 Credit Hours**
(Slashlisted with C S 4173) Prerequisite: CS 3113. An introduction to computer security. Topics include applied cryptography, access control, programming and software security, operating system security, network security protocols, and the legal and ethical aspects of security software (F)
- C S 5183 Wireless and Mobile Networks 3 Credit Hours**
Prerequisite: Graduate standing, CS 4133/5133; MATH 4743 or MATH G4753 or ISE 3293 or ECE 2523 or permission of instructor. This course provides a systematic view of designing and securing wireless mobile computing systems and networks. It covers system and security elements from the physical layer all the way to the application layer in wireless mobile computing. (Sp)
- C S 5213 Software Engineering Processes 3 Credit Hours**
Prerequisite: graduate standing, C S 3113 or C S 3823 or C S 5005. No student may obtain credit for C S 4263 or C S 4273 and CS 5213. Effective processes for software requirements specification, planning, design, documentation, development, review, defect tracking, testing, product delivery, and product evaluation. Emphasis on resource tracking and software quality. Students work in teams to develop, deliver, and evaluate software products. (Sp)
- C S 5293 Text Analytics 3 Credit Hours**
Prerequisite: C S 2413 or C S 5005; CS 2813 or MATH 2513; and MATH 4743 or MATH 4753 or ISE 3293 or ISE 5013. The course covers the design and implementation of algorithms to extract useful knowledge from text to support decision making, including methods to obtain data sets, understanding data formats, detecting duplicates, cleaning data sets, tagging, indexing, search, evaluating algorithms, classification, clustering, topic modeling, and entity resolution. (Sp)
- C S 5413 Computational Complexity 3 Credit Hours**
Prerequisite: 4413 and 3823 or 5813. Computational complexity theory dealing with various models of computation and a detailed analysis of P and NP hard problems. (Sp)
- C S 5433 Computational Methods in Discrete Optimization 3 Credit Hours**
(Slashlisted with C S 4433) Prerequisite: MATH 3333 and C S 4413 or concurrent enrollment in 4413. Linear programming: simplex method for LP problems, degeneracy and anticycling strategies, duality theory and complementary slackness conditions, revised simplex method, sensitivity analysis and simplex method for general LP problems. Network optimization: the transshipment problem, network simplex method, shortest path algorithms, the maximum flow problem, and the primal dual method. No student may earn credit for both 4433 and 5433. (F)
- C S 5463 Advanced Computer Architecture 3 Credit Hours**
(Crosslisted with ECE 5463) Prerequisite: C S 4613. The design of modern programmable computer systems with emphases on exploiting parallelism at all levels, designing within constraints, including energy consumption, and the impact of architecture on software design. Covers state of the art computer architecture, case studies and trends. (Sp)
- C S 5473 Parallel, Distributed, and Network Programming 3 Credit Hours**
(Slashlisted with C S 4473) Prerequisite: Graduate standing, C S 3113, and C S 4413. Parallel and distributed architectures, algorithms, programming paradigms and network communication protocols and programming. Topics include asynchronous/synchronous computation, GPU architectures, load balancing, memory hierarchies, other parallel and distributed models of computation, concepts about computer networks, including internet protocol stack and internet architecture, and socket programming using TCP and UDP. No student may earn credit for both 4473 and 5473. (Sp)
- C S 5483 Network Science 3 Credit Hours**
Prerequisite: C S 4413 or DSA 4413 or permission of instructor. Topics to be covered include fundamental algorithms for network analysis, investigating properties of networks, learning community detection methods, understanding network inference methods, understanding dynamics of networks, percolation, resilience, spreading phenomenon, social influence, and cascades. A variety of application contexts will be used, including physical, informational, biological, cognitive, and social systems. (F)

- C S 5513 Advanced Database Management 3 Credit Hours**
Prerequisite: 4513. An advanced course dealing with both current database applied research subjects and theoretical aspects of relational databases. Selected topics such as distributed databases, object-oriented databases, real-time databases, and multimedia databases will be discussed. (Sp)
- C S 5593 Data Mining 3 Credit Hours**
Prerequisite: graduate standing and permission from the instructor or department. Covers the process, concepts and techniques in data mining, including advanced techniques that deal with Big Data. It provides students with the necessary background to conduct data mining tasks for real world problems. The topics covered include understanding and preprocessing data, classification, association analysis, cluster analysis, anomaly detection, and Big Data mining. (F)
- C S 5613 Computer Networks and Distributed Processing 3 Credit Hours**
Prerequisite: 4613. Provides a comprehensive treatment of the analysis and design of computer networks. Data communication techniques and distributed processing in a network architecture will be examined. (Sp)
- C S 5703 Machine Learning Practice 3 Credit Hours**
(Crosslisted with DSA 5703) Prerequisite: Graduate standing; C S 4013/5013, C S 5593, ISE/DSA 5103; or permission of instructor. Machine learning is the data-driven process of constructing mathematical models that can be predictive of data observed in the future. In this course, we will study the use of a range of supervised, semi-supervised and unsupervised methods to solve both classification and regression problems. (F)
- C S 5713 Computational Learning Theory 3 Credit Hours**
Prerequisite: Departmental Permission and C S 4413 or DSA 4413. Topics of machine learning theory. Learning using membership queries, equivalence queries, version spaces, decision trees, perceptrons. Probably approximately correct (PAC) learning, Occam algorithms, VC-dimension, sample sizes for distribution-independent learning. Representation issues, proper learning, reductions, intractability, learning in the realizable case, agnostic learning. Noise models, statistical queries, PAC learning under noise. Adversarially robust learning against poisoning attacks and against adversarial examples. (F)
- C S 5723 Neural Data Science 3 Credit Hours**
(Slashlisted with C S 4723) Prerequisite: Graduate standing or permission of instructor. This course will introduce the fundamental concepts of neural data analysis and its implementation using computer programming. Topics include statistical modeling, connectivity analysis, time-frequency analysis, and pattern recognition. No student may earn credit for both 4723 and 5723. (F)
- C S 5733 Computer Vision for Autonomous Vehicles 3 Credit Hours**
(Slashlisted with C S 4733) Prerequisite: Graduate standing or permission of instructor. This course delves into the foundational principles of mathematics and the practical implementation of state-of-the-art autonomous navigation algorithms, specifically within the domains of self-driving cars, delivery robots, and autonomous aerial vehicles such as drones. Positioned within the field of robotics, it explores various aspects of autonomous navigation, covering motion planning, computer vision, localization, and mapping. No student may earn credit for both 4733 and 5733. (F)
- C S 5743 Scientific Computing I 3 Credit Hours**
(Slashlisted with C S 4743) Prerequisite: graduate standing and MATH 3333 and AME 3723 or MATH 4073 or ENGR 3723 or C S 3723. Interaction between applications, architectures, and algorithms. Review of linear algebra, serial, pipelined vector processors, cluster of processors. Measures of performance of parallel algorithms. Parallel algorithms for the solution of linear systems. No student may earn credit for both 4743 and 5743. (F)
- C S 5753 Scientific Computing II 3 Credit Hours**
Prerequisite: 5743. Special research topics in scientific computing. Possible topics include optimization algorithms, time series modeling, Kalman filtering techniques, and multivariate statistical techniques. (Sp)
- C S 5813 Formal Languages 3 Credit Hours**
Prerequisite: 3823. Theory of formal languages. Mathematical modeling of natural or artificial objects, events, and phenomena. Topics include systems for linear/nonlinear objects, their language-theoretical properties, and the related machine theory. (F)
- C S 5823 Cryptography 3 Credit Hours**
(Slashlisted with 4823) Prerequisite: 3823 and 4413. Elementary number theory, time complexity for doing arithmetic, finite fields, RSA, discrete logarithm and Diffie-Hellman, zero-knowledge protocols and oblivious transfer. Basic elliptic curve cryptosystems, elliptic curve factorization and primality proving. No student may earn credit for both 4823 and 5823. (Sp)
- C S 5833 Blockchains & Cryptocurrencies 3 Credit Hours**
Prerequisite: Departmental Permission and C S 3823 or C S 4413. This course attempts to bridge the gap in the technical understanding of blockchain architectures and their applications as a currency. Specifically, this course will address the following fundamental questions and more: How does Bitcoin work and what makes it different? How secure are Bitcoins? How anonymous are Bitcoin users? What applications can be built using Bitcoin as a platform? (Sp)
- C S 5880 Graduate Project 2-6 Credit Hours**
2 to 6 hours. Prerequisite: Graduate standing and permission of department. For students electing the non-thesis project option. Students will plan and carry out a project in computer science under the direction of their project committee. Students must take at least 6 credit hours of CS 5880 over one or more semesters; only the first 6 credits will count towards the non-thesis project program requirement. (F, Sp, Su)
- C S 5903 Graduate Perspectives on Computing 3 Credit Hours**
Prerequisite: Graduate standing and permission of department. A broad survey of principles, pathways, practices, and research in computer science. Topics include foundations and current computing research on systems, theory, artificial intelligence & machine learning, and people & data; ethics, integrity, social implications, and professional practices in computing; and essential skills and tools for computing research and practice. (F, Sp)
- C S 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- C S 5970 Graduate Seminar 1-3 Credit Hours**
Prerequisite: permission of instructor. May be repeated with a change of subject matter; maximum credit six hours. Selected topics of current research interest not covered by regularly scheduled coursework. (F, Sp, Su)

C S 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

C S 5990 Independent Studies 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing, permission of instructor. May be repeated with change of topic; maximum graduate credit nine hours. Supervised individual reading and research in computer science for graduate students. (F, Sp, Su)

C S 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

C S 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

C S 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisites: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

C S 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

CAS-College of Arts & Sciences

CAS 1523 Gateway to Belonging at OU 3 Credit Hours
This course teaches critical thinking skills and supports students in developing a true understanding of others, as well as a sense of belonging at OU and beyond. It offers students an opportunity to consider how they have formed their own beliefs and opinions and how they can interact with one another to gain the most from their college experience. (F, Sp, Su) [V-FYE].

CAS 1543 Ethical and Intercultural Leadership 3 Credit Hours
This course offers students an exploration of ethical and intercultural leadership through an interdisciplinary lens. Students will have an opportunity to practice ethical and moral decision-making and other competencies, skills, and attitudes that are beneficial for leading and facilitating intercultural groups in the campus and community environments. (F, Sp, Su) [V-FYE].

CAS 1553 Gateway to the Sciences 3 Credit Hours
This course enriches the first-year experience. Students explore and discuss how various fields of science impact society and learn about their research methods. Students develop an awareness of the rich diversity of scientists and scientific disciplines. Students get to know faculty and advisors from various departments. Students are empowered through the development of foundational knowledge and skills. (F, Sp, Su) [V-FYE].

CAS 1563 Gateway to the Social Sciences 3 Credit Hours
This course enhances the first-year experience by cultivating a supportive student community that thrives on interactive learning. Participants will actively examine how diverse fields within the realm of social sciences influence society, and gain insights into their research methodologies. Students will also gain an understanding of the rich diversity of scientific disciplines within the social sciences. (F, Sp, Su) [V-FYE].

CAS 1573 Gateway to the Humanities 3 Credit Hours
This course enhances the first-year experience by cultivating a supportive student community that thrives on interactive learning. Participants will actively examine how diverse fields within the realm of the Humanities influence society, and gain insights into their research methodologies. Students will also gain an understanding of the rich diversity of disciplines within the Humanities. (F, Sp, Su) [V-FYE].

CAS 2091 Career Planning for Arts and Sciences Students 1 Credit Hour
Assist students to determine personal career goals, explore career opportunities beyond graduation, develop a strategy for the job search process, and improve job search techniques as life-long resource tools. (F, Sp)

CAS 2970 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

CAS 3002 Digital Scholarship Internship 2 Credit Hours
Prerequisite: junior standing or permission of instructor. Provides the opportunity to learn technological means of communicating academic information to the public. Such digital skills are increasingly necessary in a global job market. Students will reflect upon and integrate their practical experiences learning technological communication formats into their major, minor, or study abroad coursework, incorporating how the internship illuminates and augments a particular aspect of academic research. (F, Sp, Su)

CAS 3091 Career Planning for Arts and Sciences Students 1 Credit Hour
Prerequisite: CAS major; must have completed 30 hours. Assist students to determine personal career goals, explore career opportunities beyond graduation, develop a strategy for the job search process, and improve job search techniques as life-long resource tools. (F, Sp)

CAS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CAS 3900 Study Abroad 1-6 Credit Hours
1-6 hours. Prerequisite: sophomore standing and completion of ENGL 1213, or permission of instructor. May be repeated; maximum credit 12 hours. Content/location varies. Enrollment in this course indicates that the student is participating in an OU study abroad program run by the College of Arts and Sciences, taught by OU faculty. They will study various cultural, historical, political, social, economic or linguistics issues relevant to understanding their study abroad environment in the specific country chosen and reflected in the course title. (Su)

- CAS 3901 Arts and Sciences Co-Op Program 1 Credit Hour**
Prerequisite: concurrent participation in A&S Co-Op Program. Program allows students to work outside the university in a job related to the major. Enrollment in this course will be during a term in which a student is working full-time, with the cooperation of the employer, with the intent of returning to OU to continue with the degree requirements. Upon completion of the term's work, the student will write a paper describing their work experience and the relevance to their major. (F, Sp, Su)
- CAS 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- CAS 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- CAS 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- CAS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- CAS 4113 Life After OU: A Survival Course 3 Credit Hours**
Prerequisite: senior standing. Introduces students to practical aspects of life after college. Includes interviewing; legal aspects of employment; money, banking and finances; insurance; mortgages; estate planning; and civic involvement. (Irreg.)
- CAS 4630 CAS Internship 1-6 Credit Hours**
1 to 6 hours. Prerequisite: CAS major; must have completed at least 30 hours; permission of instructor. May be repeated; maximum credit six hours. Provides hands-on experience for students in chosen field of study. (F, Sp, Su)
- CAS 4703 Multidisciplinary Capstone 3 Credit Hours**
Prerequisite: senior standing and permission. Explores interdisciplinary topics through research, analysis, and writing. It will incorporate instruction in appropriate research methods, focus on contemporary issues from a global perspective, and prepare students to function as informed citizens in a democracy. Required readings will provide a common basis for discussion. (F, Sp) [V].
- CAS 4710 Entrepreneurship Internship 1-3 Credit Hours**
Prerequisite: Student must have declared minor in enterprise studies. May be repeated for up to six hours credit. (F, Sp, Su)
- CAS 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- CAS 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- CAS 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- CAS 5003 Introduction to Grad Studies 3 Credit Hours**
Prerequisite: graduate standing. Intensive seminar providing orientation to advanced interdisciplinary study, appreciation for standards of performance and scholarship appropriate to graduate study, development of skills necessary for success in academic research and writing in a graduate interdisciplinary program. (F, Sp, Su)
- CAS 5013 Interdisciplinary Foundations 3 Credit Hours**
Prerequisite: graduate standing. Selected readings designed to reinforce the interdisciplinary approach to graduate studies and to introduce the concept of paradigms as an organizing principle for understanding and interpreting information. (F, Sp, Su)
- CAS 5043 Research Methods 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and CAS 5013; or permission of dean. Theories and techniques of research designed to prepare MLS students to carry out individual research on a topic within an interdisciplinary program of study. (F, Sp, Su)
- CAS 5073 Quantitative Research Methods for Interdisciplinary Studies 3 Credit Hours**
Prerequisite: Graduate standing, CAS 5003 and CAS 5013 or permission from graduate advisor. Introduction to descriptive and inferential statistics for quantitative research in interdisciplinary studies. Includes use of graphs, frequency distributions, probability, central tendency, dispersion, hypothesis testing, tests of mean differences, and correlation. (F, Sp, Su)
- CAS 5083 Qualitative Research Methods in Interdisciplinary Studies 3 Credit Hours**
Prerequisite: graduate standing, CAS 5003 and CAS 5013; or permission of dean. An inquiry designed to acquaint students with qualitative research methods in interdisciplinary study. By the end of the course, the student will be familiar with the most common methods and issues qualitative research. Students will learn how to design a study; how to recognize and address ethical issues; and how to analyze qualitative data. (F, Sp, Su)
- CAS 5700 Advanced Topics in Interdisciplinary Studies 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing. Intensive research on a topic related to the student's program of study; variable topics. (F, Sp, Su)
- CAS 5920 Internship 2-6 Credit Hours**
2 to 6 hours. Prerequisite: Graduate standing, CAS 5003, and permission of dean; May be repeated, maximum credit six hours. 450 hours of field experience directly related to study focus in the MA in Integrative Studies program (75 hours per credit hour of enrollment). Requirements include journal, reports, written summary, and comprehensive examination over these materials. (F, Sp, Su)
- CAS 5940 Research Project 2-6 Credit Hours**
2 to 6 hours. Prerequisite: Graduate standing, CAS 5003, CAS 5013, and completion of first concentration core class; May be repeated, maximum credit six hours. Development of creative or applied research project related to MA in Integrative Studies study focus. The final form will vary according to topic and purpose of the project but must include a written component. Comprehensive examination over the research project is required. (F, Sp, Su)

CAS 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

CAS 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CAS 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

CEE-College of Earth & Energy

CEE 1513 Towards Just and Responsible Energy Engineering 3 Credit Hours

Prerequisite: none. Introducing students to the role and impact of energy engineering in the world, energy sources and uses, natural resources, energy justice, the environment, and sustainability. Allows students to explore individual and collective responsibilities as engineers to the energy industry and to build some of the skills needed including cultural fluency, critical thinking, civil discourse, citizenship, and community engagement. (F) [V-FYE].

CEE 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CEE 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

CEE 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CEE 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

CEE 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

CEE 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CEE 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

CEES-Civil Engineering & Environmental Science

CEES 1000 CEES Seminar 0 Credit Hours

Seminar provides a common meeting time for students and faculty for department activities, such as invited speakers, project presentations, educational surveys, cross-course project coordination, and policy announcements. Students must enroll every semester that they are matriculated in CEES at OU after the freshman year, but in no case can a student graduate without successfully completing four semesters of seminar. (F, Sp)

CEES 1111 Exploring CEES 1 Credit Hour

Prerequisite: Majors only. Introduction to fundamental concepts (principles of mechanics, energy balances, simple circuits), problem solving and design, simple computing software, and disciplinary topics for architectural, civil or environmental engineers and environmental scientists. (Sp)

CEES 1112 Introduction to Civil Engineering and Environmental Science 2 Credit Hours

Prerequisite: Freshman only. Introduction to fundamental concepts (mass/flow balance), problem solving and design, and simple computing software for architectural, civil or environmental engineers and environmental scientists. (F)

CEES 2113 Statics 3 Credit Hours

Prerequisite: PHYS 2514 and MATH 2433 or MATH 2934 or concurrent enrollment in MATH 2433 or MATH 2934. Vector representation of forces and moments; general three-dimensional theorems of statics; centroids and moments of area and inertia. Free-body diagrams, equilibrium of a particle and of rigid bodies, distributed loads, friction and internal shear and moment loads. Analysis of trusses, frames, and machines. (F)

CEES 2153 Mechanics of Materials 3 Credit Hours

Prerequisites: 2113 or AME 2113 or PE 2113. Basic principles of mechanics, including the definition of stress and strain, transformations and principal values for the stress and strain tensors, kinematic relations, review of conservation equations and the development and application of constitutive laws for idealized materials. Elementary elastostatics utilizing Hooke's law; constitutive relations for a linear-elastic continuum, including elastic parameters such as Young's modulus, shear and bulk moduli and Poisson's ratio. Solution of elementary one- and two-dimensional mechanics problems, including thermal stresses and strains, beam flexure, shear and deflections, pressure vessels and buckling of columns. (Sp)

- CEES 2213 CADD Fundamentals 3 Credit Hours**
Prerequisite: CEES Majors only and Sophomore standing. Introduction to computer aided design and drafting with a focus on the AutoCAD and MicroStation platforms. This course is primarily about learning to use the software and learning how to convey an engineering design graphically. (F)
- CEES 2223 Fluid Mechanics 3 Credit Hours**
Prerequisites: 2113 or AME 2113 or PE 2113, and Math 3113 or concurrent enrollment. Coverage of the fundamentals of fluid statics and dynamics. Formulation of the equation of fluid flow, i.e., Navier-Stokes equation, Eulers equations, Bernoulli equations, etc. and their application. Examples of ideal fluid flow, such as flow in open and closed conduits. (Sp)
- CEES 2313 Water Quality Fundamentals 3 Credit Hours**
Prerequisite: CHEM 1415, MATH 2423 or MATH 2924. Introduction to environmental mass balance and fate processes. Studies of mass and energy transfer, introductory environmental chemistry, water quality parameters, mathematics of growth, statistics and data analysis, introduction to environmental laws and regulations. (F)
- CEES 2323 Environmental Transport and Fate Process 3 Credit Hours**
Prerequisite: 2313. Physicochemical and biological processes controlling contaminant distribution and fate; hydrological processes controlling contaminant transport; sources, prevention and remediation of environmental pollutants. (Sp)
- CEES 2412 Earth Systems and Processes 2 Credit Hours**
Prerequisite: CHEM 1315, and MATH 1823 or MATH 1914. This course provides environmental engineering and science students with a working knowledge of earth systems and their processes, specifically emphasizing the atmosphere, hydrological systems, limnology, soils, and ocean systems. This course will exam the physical structure of these systems, as well as their physical-chemical processes, and how the transfer of energy and mass between earth systems influences the global climate. (Sp)
- CEES 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- CEES 3213 Water Resources Engineering 3 Credit Hours**
Prerequisite: 2223 or permission of instructor. Municipal water demands, surface water hydrology, ground water hydrology, water distribution systems, pump design, wastewater collection systems, storm water management, water law. (F)
- CEES 3243 Water and Wastewater Treatment Design 3 Credit Hours**
Prerequisite: CEES 2223. Design of municipal water and wastewater treatment plants. Emphasis is placed on the characterization of water and wastewater and physical, chemical and biological treatment methods. Sludge processing advanced treatment methods and treatment plant hydraulics are also considered. (Sp)
- CEES 3251 WaTER Center Integrated Seminar 1 Credit Hour**
Prerequisite: permission of instructor. This course is a weekly hour-long seminar in which students will hear from guest speakers discussing WASH projects in emerging regions, present their intercultural experience in the form of a case study, and listen to other case study presentations. Students may also read and discuss assigned readings (e.g., published peer-reviewed papers of other researchers doing similar work). (F,SP)
- CEES 3263 Introduction to Dynamics for Architectural and Civil Engineers 3 Credit Hours**
Prerequisite: CEES 2153 and MATH 3113. Kinematics and kinetics of rigid bodies; free and forced vibrations of undamped and damped single degree-of-freedom systems; concept of mass, stiffness, and damping for typical structures; introduction to vibrations of two and more degrees-of-freedom systems; and determination of loads on structures from dynamic events such as earthquakes. (F)
- CEES 3361 Soil Mechanics Laboratory 1 Credit Hour**
Prerequisite: CEES 2153 or PE 2153; CEES 3363 or concurrent enrollment (you must be enrolled in both lecture and lab section together the first time you attempt either). This is one of two complimentary courses taken in the area of Geotechnical Engineering and serves as an introduction to soil mechanics. During this course, the student will conduct simple laboratory tests to identify and classify soils, characterize the compacted properties of soil, and quantify soil permeability, compressibility and strength. (F)
- CEES 3363 Soil Mechanics 3 Credit Hours**
Prerequisite: CEES 2153 or PE 2153; CEES 3361 or concurrent enrollment (you must be enrolled in both lecture and a lab section together the first time you attempt either). General treatment of the physical and mechanical properties of soils. Topics include soil composition, classification, phase relationships, compaction, effective stress, consolidation, shear strength and permeability and seepage. (F)
- CEES 3403 Materials 3 Credit Hours**
Prerequisite: CEES 2153 or PE 2153 or concurrent enrollment. Study of the properties of materials utilized by architectural and civil engineers; analyses of aggregates, concrete, masonry, steel, asphalt, plastics and wood. Laboratory. (Sp)
- CEES 3413 Structural Analysis I 3 Credit Hours**
Prerequisite: CEES 2153 or PE 2153. Loads, reactions and force systems; introduction to design codes; analysis of frames and trusses; calculation of structural deformations; and analysis of indeterminate structures. Emphasis on classical solutions and time-tested approaches to structural engineering. Introduction to structural analysis computer programs to solve complex problems. (F)
- CEES 3422 Intercultural Immersion Experience in an Emerging Region 2 Credit Hours**
Prerequisite: permission of instructor. This course is intended to be a 3-6 week summer international immersion experience with a WaTER component (technological, cultural, business lens on water, sanitation, hygiene in a particular context). Students design their own experience/ internship, write a proposal of planned activities, and secure CEES faculty advisor approval. After completion, students submit a written report and oral presentation to a review committee. (Su)
- CEES 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- CEES 3453 Introduction to Construction Management 3 Credit Hours**
Prerequisite: CEES 2213 and junior level standing in CEES. Introduction to methods for managing construction projects including scheduling, cost estimating, contracts, pay request, change orders, and requests for information. Students will also learn how to read construction documents and understand project specifications. (Sp)

- CEES 3663 Structural Design - Steel I 3 Credit Hours**
Prerequisite: CEES 3413 and CEES 3403 or concurrent enrollment in CEES 3403. Design of steel structural members including tension elements, columns, beams, and beam-columns; bolted and welded connection design; composite beam design; introduction to plastic design. Laboratory. (Sp)
- CEES 3673 Structural Design - Concrete I 3 Credit Hours**
Prerequisite: CEES 3403, CEES 3413. Analysis and design of reinforced concrete beams, columns, slabs, footings, etc., along with discussion of current building practice. Laboratory (F or Sp)
- CEES 3883 Transportation Engineering 3 Credit Hours**
Prerequisite: CEES 2153 or P E 2153 and CEES 3403 or concurrent enrollment. Introduction to transportation planning, design, construction, operations and maintenance emphasizing the highway/street mode. Includes demand modeling, route location and design, pavements including hot mix asphalt volumetrics and stability, drainage, and traffic control devices. (Sp)
- CEES 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- CEES 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. Deals with concepts not usually presented in regular coursework. (Irreg.)
- CEES 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work on a special project in the field. (Sp)
- CEES 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- CEES 4113 Building Lighting and Electrical Systems 3 Credit Hours**
Prerequisite: MATH 2423 or MATH 2924; PHYS 2524; and ENGR 2431 or concurrent enrollment, CEES majors only. Fundamentals of building lighting and electrical systems. Lighting topics include the determination of appropriate lighting quantity and quality, luminaires and lighting design procedures for residential, commercial and industrial buildings. Electrical topics will include service voltages, overcurrent protection, short circuit analysis and branch circuit design for residential, commercial and industrial buildings. (F or Sp)
- CEES 4114 Aquatic Chemistry 4 Credit Hours**
(Slashlisted with CEES 5114) Prerequisite: CHEM 1415 and CEES 2323 or permission of instructor. Environmental kinetics and thermodynamics in aquatic systems; acid/base, precipitation/solubility, metal complexation and oxidation/reduction reactions; environmental colloidal and solid-liquid interface chemistry. No student may earn credit for both 4114 and 5114 or Environmental Science 4114 and 5114. Laboratory. No student may earn credit for both 4114 and 5114. (F)
- CEES G4123 Open Channel Flow 3 Credit Hours**
Prerequisite: CEES 2223. Theory, analysis and design of channels, aqueducts, headworks, siphons, spillways and hydraulic structures. An in-depth study of critical flow and measurement techniques. Backwater analysis by analytical, calculator and computer methods. Special emphasis on practical problems of general interest. (F)
- CEES G4243 Water Technologies for Emerging Regions 3 Credit Hours**
Prerequisite: 2223 or 2323 or equivalent or instructor permission. Students will gain an understanding of water and sanitation issues in remote villages of developing countries. Explore and design sustainable technologies appropriate to these settings including cultural, political and economic factors. (Sp)
- CEES G4253 Statistics and Probability 3 Credit Hours**
Prerequisite: MATH 2423 or 2924 and PHYS 2524 or 2424. Designed to help students understand the fundamentals of probability, statistics, reliability, and risk methods in support of decision making for future engineers and scientists. Fundamental concepts in probability and statistics will be reviewed and used. Engineering decisions are often based on data that contain uncertainty; future scientists and engineers should understand how uncertainty affects calculated quantities, accuracy, precision, and reliability. (Sp)
- CEES G4263 Hazardous and Solid Waste Management 3 Credit Hours**
Prerequisite: junior or above status in CEES or permission of instructor. Sources and types of solid wastes; identification and classification of hazardous wastes; waste handling, transportation, treatment and disposal techniques, federal and state legislation; and environmental and health effects. (F)
- CEES G4273 WaTER Technical Field Methods 3 Credit Hours**
Prerequisite: permission of instructor. A hands-on practicum for construction and implementation of water and sanitation projects in developing countries. Course modules reflect the typical projects and skills needed by development workers in organizations such as Peace Corps, USAID, Engineers Without Borders, and faith-based organizations. Emphasis will be on sustainable technologies using methods and materials appropriate to emerging regions. Non-engineering students are encouraged to participate. (Su)
- CEES 4281 Engineering Co-Op Program 1 Credit Hour**
(Crosslisted with AME, CH E, C S, ECE, EPHY, ISE and BME 4281) Prerequisite: Departmental permission and junior standing. May be repeated; maximum credit 6 hours. The Co-Op program provides students an opportunity to enhance their education via career exploration in related professional work experiences. Course assignments help students articulate their experiences by completing journals; mid-term paper; final paper and/or final presentation. Faculty receive an evaluation from the student's Co-Op supervisor who monitors performance. Faculty collaborate with the Co-Op supervisor to ensure student success. (F, Sp, Su)
- CEES 4324 Environmental Biology and Ecology 4 Credit Hours**
(Slashlisted with CEES 5324) Prerequisite: CEES 2323. Examines applied environmental biology; biological consequences of environmental impacts; mitigation of environmental impacts via biogeochemical, ecological and microbial processes. No student may earn credit for both 4324 and 5324. Laboratory (F)
- CEES G4333 Foundation Engineering 3 Credit Hours**
Prerequisite: CEES 3363. Substructure analysis and design to meet various soil conditions; footings and rafts, shoring and underpinning, piles, cofferdams, caissons, breakwaters, piers, wharves, vibratory effects on foundations. (Sp)

- CEES 4363 Ecological Engineering Science 3 Credit Hours**
(Slashlisted with 5363) Prerequisite: Senior standing or permission of instructor. Exploration of the design of sustainable ecosystems integrating human society with its natural environment for the benefit of both. Uses a systems perspective that resilient and sustainable solutions involve working with natural ecological and biogeochemical processes and not against them, and require less fossil fuel input, produce less pollution, and represent cost-effective alternatives to traditional energy- and resource-intensive technologies. No student may earn credit for both 4363 and 5363. (Sp)
- CEES 4373 Water Resources Systems Modeling 3 Credit Hours**
(Slashlisted with CEES 5373) Prerequisite: CEES 3213 or concurrent enrollment or instructor permission. Theory and concept of water resources management. An in-depth study of theory of optimization, hydrologic modeling, reservoir and dams operation. Data analysis and computational methods for hydrology and water resources management. Special emphasis on system modeling and parameter tuning using automatic calibration approaches. Basic level of scientific programming. No student may earn credit for both 4373 and 5373. (F)
- CEES 4423 CEES Professional Internship or Co-op 3 Credit Hours**
Prerequisite: completion of at least 19 hours of Civil Engineering and Environmental Science (CEES) coursework (for Civil Engineering and Environmental Engineering majors); or completion of at least 19 hours of CEES and science coursework (for Environmental Science majors); or completion of at least 19 hours CEES and Architecture (ARCH) coursework (for Architectural Engineering majors). Provides three hours of professional elective credit for 400 hours of internship. Prior to starting the internship, students should write a proposal of planned activities and secure the approval from a CEES faculty member to serve as an of the advisor. After completion of the internship or co-op, the students should enroll in this course. The student must then submit a written report, and make an oral presentation for a three-member review committee that includes the faculty advisor. (F, Sp, Su)
- CEES G4453 Geomatics Engineering 3 Credit Hours**
Prerequisites: CEES 2213, CEES 3403 and MATH 2433 or MATH 2934 or instructor permission. Geomatics engineering deals with the science of determining relative positions of features for mapping, engineering and construction plans. Topics include digital leveling, orientation, distance measurement, traversing and control surveys, accuracy, error sources, precise horizontal and zenith angle measurements, and introduction of global navigation satellite system. Laboratory (F)
- CEES G4663 Introduction to Matrix Methods in Structural Analysis 3 Credit Hours**
Prerequisite: CEES 3413. Review of matrix algebra and solution of linear equations; energy concepts and principle of virtual work; fundamentals of flexibility and stiffness methods; coordinate transformation and matrix assemblage; computer-oriented direct stiffness method and computer code developments; secondary effects; support settlement and temperature change; method of finite differences and application to beam and plate problems. (F or Sp)
- CEES G4753 Structural Design - Wood 3 Credit Hours**
Prerequisite: CEES 3413 or equivalent. Material properties and behavior of wood. Analysis and design of solid and laminated structural members, connections, systems, trusses and arches. Current developments in structural wood design and research. (F)
- CEES 4843 Hydrology 3 Credit Hours**
(Slashlisted with CEES 5843) Prerequisite: MATH 2924/2423 and CEES 4253 (pre- or co-requisite) or instructor permission. Hydrology is the study of water across the globe. This is an applied course on hydrology dealing with environmental water problems; principles of hydrologic systems, their structure and components; and methods of analysis and their application to various purposes of water resources planning and development. No student may earn credit for both 4843 and 5843. (Sp)
- CEES G4883 Traffic Analysis, Design and Control 3 Credit Hours**
Prerequisite: CEES 3883 or Permission of Instructor. Study of fundamentals of traffic engineering; components of the traffic system; intersection types and design elements; basic variables of the traffic system (flow, capacity, level of service, delay); design and analysis of traffic signals and intersections; traffic control and traffic impact analysis; safety performance and traffic crash analysis; use of the Highway Capacity Manual and traffic analysis software. (F)
- CEES 4901 Introduction to CE Capstone 1 Credit Hour**
Prerequisite: CEES 3213, CEES 3363, and CEES 3663 or CEES 3673 (or concurrent enrollment). Introduction to the capstone design project, which is a two-semester-long, open-ended engineering design problem that requires applying the skills and techniques acquired in earlier engineering course work. This course will focus on introducing the project requirements; forming multi-disciplinary teams of students; developing team identities; assigning team roles; evaluating project constraints; and developing a project design schedule. (F)
- CEES 4903 Civil Engineering Capstone 3 Credit Hours**
Prerequisite: CEES 3213, and CEES 3363, and CEES 3663 or CEES 3673, and CEES 4901. Solution of major design problems by a team approach of disciplines. Problems to be varied within the areas of civil engineering (structural; geotechnical; and transportation) according to the student's major interest. The capstone project will be under direct faculty supervision. (Sp) [V].
- CEES 4911 Introduction to ES Capstone 1 Credit Hour**
Prerequisite: CEES 4114 or CEES 5114 (or concurrent enrollment), CEES 4324 or CEES 5324 (or concurrent enrollment). Introduction to the capstone design project, which is a two-semester-long, open-ended engineering design problem that requires applying the skills and techniques acquired in earlier engineering course work. This course will focus on introducing the project requirements; forming multi-disciplinary teams of students; developing team identities; assigning team roles; evaluating project constraints; and developing a project design schedule. (F)
- CEES 4913 Environmental Science Capstone 3 Credit Hours**
Prerequisite: CEES 4911 and CEES 4253 (or concurrent enrollment). The capstone experience draws upon undergraduate course work in environmental science, biology, chemistry, physics, mathematics, and related sciences. Student teams address a client-driven, open-ended, real-world problem. Faculty coordinators serve in advisory capacities only, introducing field, laboratory, and computer methods and coordinating class meetings and presentations. Any other in-class presentations cover non-traditional (non-technical) topics. (Sp) [V].

- CEES 4921 Introduction to EE Capstone 1 Credit Hour**
Prerequisite: CEES 3213, CEES 4114 or CEES 5114 (or concurrent enrollment), CEES 4324 or CEES 5324 (or concurrent enrollment). Introduction to the capstone design project, which is a two-semester-long, open-ended engineering design problem that requires applying the skills and techniques acquired in earlier engineering course work. This course will focus on introducing the project requirements; forming multi-disciplinary teams of students; developing team identities; assigning team roles; evaluating project constraints; and developing a project design schedule. (F)
- CEES 4923 Environmental Engineering Capstone 3 Credit Hours**
Prerequisite: CEES 4921 and CEES 4253 (or concurrent enrollment). The capstone experience is a course where students draw upon their undergraduate course work for analysis of an open-ended, real world problem. Faculty coordinators serve in advisory capacities only. All in-class presentations will cover non-traditional (non-technical) topics. Students are presumed to have been trained in basic natural and engineering sciences and introduced to environmental sampling/analysis and impact/risk assessment methods. (Sp) [V].
- CEES 4943 Air Quality Management 3 Credit Hours**
Prerequisite: CEES 2313 or CEES 2223 or instructor permission. Important aspects of air quality will be covered, including air quality legislation, major sources and effects of air pollutants, monitoring, atmospheric dispersion, and air quality modeling. (Sp)
- CEES 4951 Contemporary Topics in Professional Practice 1 Credit Hour**
Prerequisite: Junior standing in Civil Engineering or Environmental Engineering. Civil engineering is a dynamic profession, as methods of practice evolve to address the many pressing problems in today's built and natural environment. This course provides an introduction to contemporary topics in professional practice, such as basic concepts of sustainability in engineering design, modern tools for project management, and the role of business/policy considerations in practice. (F)
- CEES 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- CEES 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- CEES 4980 Environmental Science Senior Research 1-12 Credit Hours**
Prerequisite: senior standing. Maximum credit twelve hours. Intensive research investigation of a special project under the direction of a faculty member. (F, Sp, Su)
- CEES 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- CEES 4991 Introduction to AE Capstone 1 Credit Hour**
Prerequisite: CEES 3663 (or concurrent enrollment), CEES 3673 (or concurrent enrollment), CEES 4113, and AME 4653 (or concurrent enrollment). Introduction to the capstone design project, which is a two-semester-long, open-ended engineering design problem that requires applying the skills and techniques acquired in earlier engineering course work. This course will focus on introducing the project requirements; forming multi-disciplinary teams of students; developing team identities; assigning team roles; evaluating project constraints; and developing a project design schedule. (F)
- CEES 4993 Architecture Engineering Capstone 3 Credit Hours**
Prerequisite: CEES 3663, CEES 3673, CEES 4991 and AME 4653; CEES 4113 and CEES 4333 or concurrent enrollment. A capstone course emphasizing design of structural components and environmental systems of buildings. Requires students to have knowledge and skills from prerequisite courses to address a real-world, open-ended design problem. (Sp) [V].
- CEES 5010 Civil Engineering Problems 1-4 Credit Hours**
Prerequisite: senior or graduate standing and permission of instructor. May be repeated; maximum credit four hours for a master's program or six hours for a doctoral program, including hours taken as part of another graduate program. Independent or small group study under the supervision of one or more faculty members. (F, Sp, Su)
- CEES 5020 Special Topics in Civil Engineering 1-6 Credit Hours**
1 to 6 hours. Prerequisite: senior or graduate standing and permission of instructor. May be repeated with change of topic; maximum credit twelve hours. Examines subject matter in civil engineering not covered by existing course offerings as a regular course. (F, Sp, Su)
- CEES 5021 Technical Communications 1 Credit Hour**
Prerequisite: CEES graduate standing or permission of instructor. Focused on enabling students to improve oral and written communications skills. Examines appropriate formats for various technical publications, as well as methods and practices for developing effective oral presentations. Each student will be required to develop an oral presentation about his/her written product. (Sp)
- CEES 5103 Water Policy and Institutions 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course examines the evolution of water policy in the United States and the substantive roles that federal and state water resource institutions have played. Students will gain an understanding of the legal and institutional frameworks within which water resources are managed and the broader implications of climate change for water security. (F)
- CEES 5113 Water Management Chemistry 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course provides knowledge of water chemistry encountered in the management and assessment of water quality. Course goals are: 1) to become proficient interpreting water chemistry data so to be able to successfully evaluate the water quality status of a water resource, and 2) to know which specific water chemistry parameters are essential to measure for monitoring water quality problems. (F)
- CEES 5114 Aquatic Chemistry 4 Credit Hours**
(Slashlisted with 4114) Prerequisite: graduate standing, one year general chemistry. Environmental kinetics and thermodynamics in aquatic systems; acid/base, precipitation/solubility, metal complexation and oxidation/reduction reactions; environmental colloidal and solid-liquid interface chemistry. No student may earn credit for both 4114 and 5114 or Environmental Science 4114 and 5114. Laboratory. (F)

CEES 5123 Climate Change and Impacts on Water Energy Food Nexus 3 Credit Hours

Prerequisite: Graduate standing or permission of instructor. An interdisciplinary course to learn the basics of climate change and its impacts on the interactions among water, energy and food nexus. The course provides fundamental theories of climate change, water cycle, and technologies about renewable energy (hydro, wind, solar, ocean, biomass, geothermal) and non-renewable energy (fossil fuels). The course talks about global food production and teaches basic Python programming. (Sp)

CEES 5133 Water Sustainability 3 Credit Hours

(Crosslisted with CH E 5133) Prerequisite: Civil Engineering, Environmental Engineering, or Environmental Science Graduate standing; or permission of instructor. Introduction to water reclamation and reuse. Wastewater characteristics. Conventional approaches for wastewater treatment. Emerging materials and technologies for water remediation. Water reuse applications and outlook. (Irreg.)

CEES 5153 Water Innovation: Technology, Policy, and Organizational Issues 3 Credit Hours

Prerequisite: Graduate standing or permission of instructor. This course encompasses water technologies and their extended innovation processes in three substantive sections. A basic understanding of technological innovation frameworks precedes discussion of water systems. The second section addresses water policy in general as well as specific cases of policy innovation. The final section covers organizations and how they can become more innovative with respect to water systems. (Sp)

CEES 5233 Biological Waste Treatment Design 3 Credit Hours

Prerequisite: Graduate standing or permission of instructor. Waste treatment design using biological processes; emphasis on treatment biokinetics, municipal wastewater treatment processes, and design of municipal wastewater unit processes; application of biological treatment concepts to other wastes including industrial wastes, groundwater, and solid or hazardous wastes. (F)

CEES 5243 Physical-Chemical Water Treatment 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. The course covers physical and chemical processes for water purification, primarily for drinking water treatment, including governing regulations (the Safe Drinking Water Act), reactor kinetics, coagulation, flocculation, sedimentation, filtration, disinfection, demineralization, taste and odor removal, and advanced treatment. (Sp)

CEES 5244 Physicochemical Water Treatment Processes 4 Credit Hours

Prerequisite: graduate standing or permission of instructor. Physical and chemical processes for drinking water, ground water and industrial water treatment. Processes discussed include coagulation/flocculation, gravity separation, filtration, disinfection, adsorption, advanced oxidation, and phase transfer (e.g., air stripping). (Sp even years)

CEES 5313 Engineering Geology 3 Credit Hours

Prerequisites: CEES 3363, CEES 3361 and permission of instructor. Understanding geology in engineering design and mitigation: topics include weathering and soil-forming processes; engineering properties of rock; landslides and debris flow (slope stability); fluvial processes and hazards; land subsidence; expansive soil; hazard, risk and land-use planning. (F)

CEES 5323 Geosynthetics 3 Credit Hours

Prerequisites: CEES 3363 and CEES 3361. To introduce students to concepts and design methods involving the use of geosynthetics in geotechnical and transportation engineering applications. (F)

CEES 5324 Environmental Biology and Ecology 4 Credit Hours

(Slashlisted with CEES 4324) Prerequisite: Graduate standing in CEES. Examines applied environmental biology; biological consequences of environmental impacts; mitigation of environmental impacts via biogeochemical, ecological and microbial processes. Laboratory No student may earn credit for both 4324 and 5324. (F)

CEES 5343 Advanced Soil Mechanics 3 Credit Hours

Prerequisites: CEES 3363, CEES 3361 and permission of instructor. Advanced treatment of theories and principles of shearing strength, stress distribution and settlement analysis. (F)

CEES 5353 Introduction to Soil Dynamics 3 Credit Hours

Prerequisite: Graduate Standing, CEES 3363 or permission of instructor. Review of basic concepts (single- and multi-degree of freedom system, wave propagation, behavior of dynamically loaded soils), liquefaction, vibrations of footings on elastic half space, analog models, dynamics of pile foundations, machine foundations, design of foundations for dynamic loads including earthquake loading. (Irreg.)

CEES 5363 Ecological Engineering Science 3 Credit Hours

(Slashlisted with CEES 4363) Prerequisite: senior or graduate standing. Exploration of the design of sustainable ecosystems integrating human society with its natural environment for the benefit of both. Uses a systems perspective that resilient and sustainable solutions involve working with natural ecological and biogeochemical processes and not against them, and require less fossil fuel input, produce less pollution, and represent cost-effective alternatives to traditional energy- and resource-intensive technologies. No student may earn credit for both 4363 and 5363. (Sp)

CEES 5373 Water Resources Systems Modeling 3 Credit Hours

(Slashlisted with CEES 4373) Prerequisite: Graduate standing or permission of instructor. Theory and concept of water resources management. An in-depth study of theory of optimization, hydrologic modeling, reservoir and dams operation. Data analysis and computational methods for hydrology and water resources management. Special emphasis on system modeling and parameter tuning using automatic calibration approaches. Basic level of scientific programming. No student may earn credit for both 4373 and 5373. (F)

CEES 5383 Earthquake Engineering 3 Credit Hours

Prerequisite: senior or graduate standing. To provide students with an understanding of the effects of earthquakes on civil engineering structures and analytical tools for their seismic analysis. (F)

CEES 5393 Reinforced Soil Structures 3 Credit Hours

Prerequisites: CEES 3363 and CEES 3361. Introduce students to the analysis and design methods related to geotechnical structures reinforced with geosynthetics. The main focus of this course will be on reinforced soil walls, slopes and embankments. (Sp)

CEES 5413 Soil-Structure Interaction 3 Credit Hours

Prerequisite: Graduate standing and CEES 3363, or permission of instructor. Introduction-definition, methods of solution; beams on deformable foundations; analysis and design of axially loaded structures -- single pile, pile groups, retaining walls; plates on deformable foundations; role of interfaces and joints; wave equation for pile behavior. (Irreg.)

- CEES 5433 In-Situ Soil Testing 3 Credit Hours**
Prerequisites: CEES 3363, CEES 3361 and permission of instructor. This is a "hands-on" course that focuses on conducting and interpreting laboratory and in-situ tests for geotechnical engineering. Topics can include but are not limited to drilling, sampling, soil characterization, triaxial shear testing, one-dimensional compression, flexible wall permeability testing, pressuremeter, cone penetrometer, borehole shear, and pile load testing. Laboratory (Sp)
- CEES 5443 Unsaturated Soil Mechanics 3 Credit Hours**
Prerequisites: CEES 3363 and CEES 3361. Provide students with an understanding of the theoretical and practical fundamentals of unsaturated soil mechanics with applications in geotechnical engineering. (F)
- CEES 5473 Forensic Geotechnical Engineering 3 Credit Hours**
Prerequisites: CEES 3363 and CEES 3361. Examines methods for investigating and analyzing geotechnical failures. Examples include slope failures, pavement subgrade failures, foundation failures, excessive seepage from earth dams, and excavation failures. The course also addresses the role of the engineer as a consultant and/or expert witness in legal cases involving geotechnical failures. (F or Sp)
- CEES 5493 Transportation and Land Development 3 Credit Hours**
(Crosslisted with RCPL 5493) Prerequisite: graduate standing or permission. Study of interactions between land development activity and the transportation network. Application of planning and design techniques to manage the impacts of development upon the transportation system.
- CEES 5503 Highway Engineering 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. In this course, students will study geometric elements of highway design, with emphasis on highway safety and traffic flow, design controls, route analysis, and alignment. Highway engineering includes corridor selection, design of vertical and horizontal alignments, evaluation of earthwork requirements, drainage and culvert design, and safety considerations. (Su)
- CEES 5513 Traffic Engineering 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course focuses on traffic flow theory, analysis of traffic data, and advanced technology applications for data collection, traffic control, and real-time system management. It will include emphasis on highway capacity, signal integration, intelligent transportation systems (ITS), and impacts of advanced technology, including automated vehicles. (Sp)
- CEES 5523 Transportation Asset Management 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course focuses on fundamental elements of transportation asset management and application of its principles; explores the impetus, philosophy, and policy for implementing a long term, comprehensive plan for managing infrastructure assets; presents engineering and economic analysis concepts and processes used to evaluate and support strategic and systematic planning, finance, investment, performance, measurement, management, and preservation of a transportation system. (Su)
- CEES 5533 Multimodal Transportation 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Course focuses on fundamental elements of system performance for the multimodal transportation system and application of its principles; explores the impetus, philosophy, and policy for implementing a long term, comprehensive plan; presents transportation modes, including land, air and marine, modal shift and impact; presents engineering/economic analysis concepts used to evaluate and support planning, design, and financing processes for multimodal system. (Sp)
- CEES 5543 Hazards Mitigation & Community Resilience 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course will address, describe, and quantify in time and space the physical phenomena of several natural and man-made hazards. Students will learn about the current best practices and identify novel approaches to mitigate such risks and hazards to be able to sustain and protect the well-being of the residents as well as the infrastructure systems in the community. (F)
- CEES 5583 Water Law 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. A course for non-lawyers that explores systems of water rights; riparian, appropriation, and prescriptive rights; stream, surface, and ground water; development of water supplies; nationwide conflicts; water pollution control; federal and Indian rights and federal water resource issues and problems, so that water managers, environmental scientists or policy makers can provide needed input to threats to and protection of water. (Su)
- CEES 5623 Watershed Management and Restoration 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Course provides a comprehensive examination of watershed assessment, management, planning, protection, and restoration. Processes governing drainage-basin scale physiography, hydrology, hydrogeomorphology, and ecology are examined, emphasizing water quality-driven approaches to watershed management and restoration. (F even years)
- CEES 5624 Biological Waste Treatment 4 Credit Hours**
Treatment of waste using biological processes; emphasis on treatment kinetics, municipal wastewater treatment processes, and design of municipal wastewater unit processes; application of biological treatment concepts to other wastes including industrial wastes, groundwater, and solid or hazardous wastes. Laboratory (F)
- CEES 5643 Quantitative Hydrometeorology 3 Credit Hours**
(Crosslisted with METR 5643) Prerequisite: Graduate standing or permission of instructor. Theory and concept of hydrometeorology and remote sensing, across atmospheric science and hydrology and across water science and engineering. An in-depth study of precipitation estimation from in-situ, radar, satellite, uncertainty modeling and decision making. Data analysis and computational methods for hydrometeorology. Special emphasis on probabilities/statistics and decision making. Basic level of scientific programming is helpful but not mandatory. (Irreg.)
- CEES 5653 Advanced Mechanics of Materials 3 Credit Hours**
Prerequisite: CEES 2153 or PE 2153 and senior or graduate standing. Principal stresses and strains; theories of failure; introduction to elasticity; unsymmetrical bending and shear; torsion of noncircular solid cross sections, cellular sections and open sections; introduction to plate bending and buckling. (F)
- CEES 5663 Structural Analysis II 3 Credit Hours**
Prerequisite: Graduate standing and CEES 3413, or permission of instructor. This course addresses many of the classical methods used in the analysis of structures before the advent of the computer, such as virtual work, force method, slope-deflection, and approximate methods. Second-order analysis, stability, and matrix methods are also covered, and modern structural analysis software is introduced. (Sp)
- CEES 5673 Colloid and Surface Science 3 Credit Hours**
(Crosslisted with CH E 5673) Prerequisite: Civil Engineering, Environmental Engineering, or Environmental Science Graduate standing or permission of instructor. Capillarity, surface thermodynamics, adsorption from vapor and liquid phases, contact angles, micelle formation, solubilization, emulsions and foams. Applications to be discussed include detergency, enhanced oil recovery and adsorption for pollution control. (Irreg.)

- CEES 5683 Dynamics of Structures 3 Credit Hours**
Prerequisite: Graduate standing, CEES 3263, and CEES 3413. Topics covered include free vibration, forced vibration, and transient response of structures having one, multiple or infinite number of degrees-of-freedom; structural damping effects; numerical solution techniques; Lagrange's equation of motion; and Rayleigh-Ritz method. General matrix formulation for multiple degrees-of-freedom and modal coordinate transformation. Introduction to earthquake engineering concepts. (F)
- CEES 5693 Structural Design of Pavements 3 Credit Hours**
Prerequisites: CEES 3363, 3361 and 3883. Effect of load and climate on the design of rigid and flexible pavements and interaction of pavement components. (Irreg.)
- CEES 5713 Structural Design - Masonry 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. A course for students who desire to learn how to design structures using a composite material such as masonry. From its historical use to the modern design involving reinforced masonry, the student will become familiar with the material properties, the different structural elements and their role in transferring horizontal and vertical loads. Code provisions will be reviewed throughout the course. (Sp)
- CEES 5723 Design of RC Structures with Fiber Reinforced Polymers 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This class will be focused on understanding behavior of Fiber Reinforced Polymer (FRP) materials; the design of reinforced concrete structures using FRP reinforcement; the strengthening of existing structures using FRP materials. (F)
- CEES 5733 Hydroclimatology 3 Credit Hours**
(Crosslisted with METR 5733) Prerequisite: Graduate standing or permission of instructor. Theory and concept of hydroclimatology across atmospheric science and hydrology. An in-depth study of the local to global climate of precipitation with specific foci on drought, pluvials, and how they vary in a changing climate system. Data analysis and computational methods for hydroclimatology. Basic level of scientific programming is helpful but not mandatory. (Su)
- CEES 5763 Introduction to Finite Element Method 3 Credit Hours**
(Crosslisted with AME 5763) Prerequisite: graduate standing. Weighted residual and variational approaches. Finite element formulation for rod, truss and beam elements; plane stress and plane strain problem; axisymmetric and three-dimensional analysis; isoparametric elements; conforming and nonconforming plate and shell elements. (Sp)
- CEES 5773 Structural Design--Steel II 3 Credit Hours**
Prerequisite: CEES 3663. Advanced structural steel design including steel deck diaphragms, column and beam bracing, composite beam design, rigid frame design, torsional member design, plate girder design, and design of building connections. (F or Sp)
- CEES 5783 Structural Design--Concrete II 3 Credit Hours**
Prerequisite: CEES 3673. Advanced reinforced concrete behavior and design including limit design, anchorage slender columns, truss models for shear and torsion on beams, two-way and flat slabs, and the art of detailing. (F or Sp)
- CEES 5793 Design of Prestressed Concrete Structures 3 Credit Hours**
Prerequisite: CEES 3673. Design procedures for pretensioned and post-tensioned concrete structures, with emphasis on the behavior of prestressed concrete. Topics include methods of analysis, time dependent effects, fabrication and construction procedures, connections, highway bridges, frames, composite construction, continuous structures, and anchorage zone detailing. (Irreg.)
- CEES 5813 Water Treatment, Reuse, and Health Impacts 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. An introduction to water quality applications and the health impacts of water and wastewater. The course covers the basic principles of public health epidemiology and water-related diseases. Conventional and advanced water treatment methods are presented, along with various types of potable and non-potable water reuse to supplement public water supply in times of water stress. (Sp)
- CEES 5833 Ground Water Quality Protection 3 Credit Hours**
Prerequisite: graduate standing or permission. Introduction to ground water quality protection. Covers sources of ground water, ground water hydrology, ground water information sources, ground water pollution sources, subsurface transport and fate processes and monitoring of ground water systems. (F)
- CEES 5843 Hydrology 3 Credit Hours**
(Slashlisted with CEES 4843) Prerequisite: Graduate standing or permission of instructor. Hydrology is the study of water across the globe. This is an applied course on hydrology dealing with environmental water problems; principles of hydrologic systems, their structure and components; and methods of analysis and their application to various purposes of water resources planning and development. No student may earn credit for both 4843 and 5843. (Sp)
- CEES 5853 Groundwater and Seepage 3 Credit Hours**
Prerequisite: graduate standing in civil engineering, environmental engineering, environmental science, geology or permission of instructor. An applied course dealing with properties of aquifers, modeling of groundwater flow, groundwater hydrology and its interrelation with surface water, well hydraulics, pumping tests and safe yield of aquifers. (F)
- CEES 5873 Water Quality Management 3 Credit Hours**
Prerequisite: MATH 3113, and graduate standing, or instructor permission. Water quality in lakes, rivers, estuaries; chemical, physical and biological aspects of marine and fresh waters; waste assimilation; system modeling; water quality management; waste load allocation, and engineer controls. (Sp)
- CEES 5883 Environmental Modeling 3 Credit Hours**
Prerequisite: MATH 3113, graduate standing or instructor permission. Introduction to theoretical and practical issues of computer-based environmental modeling. Covers problem formulation, implementation, and application. Topical areas include conceptualizing problems, conservation laws, partial differential equations, numerical methods, and applications ranging from coastal hydrodynamics to contaminant transport. Emphasis on understanding the model process rather than using "canned" models. (F)
- CEES 5903 Remote Sensing Hydrology 3 Credit Hours**
Prerequisite: senior standing, or graduate standing, or permission of instructor. Overview of various orbital satellite platforms/sensors and introduces advances in remote sensing hydrology from space-borne observations, state-of-the-art retrieval algorithms for hydrological variables, and ground validation strategies. Required for Hydrology minors. (Sp)
- CEES 5933 Climate Change and Water Sustainability 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This seminar course is for students who wish to understand the Earth's climate variability and water sustainability. In the context of an integrated Earth climate system, the course provides an overview of global water resources, impacts of climate change on various systems, and recommends practical responses to mitigate climate change. (F)

- CEES 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- CEES 5963 Water Security 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course defines water security as existing at the water quantity-quality-equity nexus, looks at historical examples of water insecurity, discusses major water security challenges (e.g., natural disasters, global warming, the water-food-energy nexus, urbanization, transboundary issues) as well as responses to these challenges (e.g., water resilience plans, LID, desalination/reuse technologies, developing a water ethic) and evaluates pioneering water security initiatives. (Sp)
- CEES 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- CEES 5973 Fundamental Hydrology 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. A science-based course for students who desire to be water managers, environmental scientists, or policy makers. The course provides a quantitative introduction to atmospheric, surface, and subsurface hydrology. Modules present the storage and movement of water between the environmental compartments, the effect of human activities on the natural water cycle, and the threats to and protection of water security. (Sp)
- CEES 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- CEES 5982 CEES Non-Thesis Project 2 Credit Hours**
Prerequisite: graduate standing and instructor permission. This is for all CEES non-thesis students to take as their final project for their non-thesis defense. Each student with their faculty advisor will determine what the project will cover. Each student will be required to develop an oral presentation about his/her written project. (F, Sp, Su)
- CEES 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- CEES 6663 Advanced Finite Element Methods 3 Credit Hours**
(Crosslisted with AME 6663) Prerequisite: 5763. Selected topics such as: nonlinear material problems, plasticity, creep (visco-plasticity), fracture, etc.; geometrically nonlinear problems, large displacement and structural stability; dynamic problems and analytical solution procedures; soil-structure interactions; application of finite element method to fluid and heat transfer problem. (Irreg.)
- CEES 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- CEES 6970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- CEES 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisites: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- CEES 6990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

CELO-Cello

- CELO 2000 Freshman and/or Sophomore Secondary Cello 1-2 Credit Hours**
1 to 2 hours. Prerequisite: permission of adviser and instructor. May be repeated; maximum credit toward B.F.A., B.M.A., B.M.E., and B.M. degrees, eight hours. For freshman and sophomore music students studying in a secondary (or minor) performance area. (F, Sp, Su)
- CELO 2020 Cello for Music Majors: Freshman/Sophomore 2-4 Credit Hours**
2 to 4 hours. Prerequisite: Majors only. May be repeated; maximum credit 12 hours. Applied instrumental lessons for freshmen and sophomore music majors in a School of Music degree program. (F, Sp)
- CELO 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- CELO 4000 Junior and/or Senior Secondary Cello 1-2 Credit Hours**
1 to 2 hours. Prerequisite: permission of adviser and instructor. May be repeated; maximum credit toward B.F.A., B.M.A., B.M.E., and B.M. degrees, eight hours. For junior and senior music students studying in a secondary (or minor) performance area. (F, Sp, Su)
- CELO 4020 Cello for Music Majors: Junior/Senior 1-4 Credit Hours**
1 to 4 hours. Prerequisite: Majors only; junior standing. May be repeated; maximum credit 20 hours. Applied instrumental lessons for junior and senior music majors in a School of Music degree program. (F, Sp)
- CELO 5000 Master's-Level Secondary Cello 1-2 Credit Hours**
1 to 2 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For master's degree music students studying in a secondary (or minor) performance area. (F, Sp, Su)
- CELO 5010 Master's-Level Cello for Non-Performance Music Majors 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For master's degree students other than performance majors in their major field. (F, Sp, Su)

CELO 5020 Master's-Level Cello For Performance Majors 2-4 Credit Hours

2 to 4 hours. Prerequisite: graduate standing in music; permission of adviser and instructor; 4020 and 4021 or equivalent. May be repeated; maximum credit toward an M.M. degree 10 hours. (F, Sp, Su)

CELO 6000 Doctoral Secondary Cello 1-2 Credit Hours

1 to 2 hours. Prerequisite: graduate standing in music, permission of adviser or instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For doctoral degree music students studying in a secondary (or minor) performance area. (F, Sp, Su)

CELO 6010 Doctoral Cello for Non-Performance Music Majors 2-3 Credit Hours

2 to 3 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated. Doctoral-level study of applied music in the major performance area for students other than performance majors in their primary field. (F, Sp, Su)

CELO 6020 Doctoral Cello for Performance Majors 2-4 Credit Hours

2 to 4 hours. Prerequisite: graduate standing in music; 5042; permission of adviser and instructor. May be repeated; credit applicable toward applied music requirements for the Doctor of Musical Arts degree. Doctoral-level study of applied music for performance majors in their primary field. (F, Sp, Su)

CH E-Chemical Engineering

CH E 2003 Chemical Engineering Computing/Statistics 3 Credit Hours

Prerequisite: CHE 2033 (or concurrent enrollment in CHE 2033), and MATH 1823 or 1914 or concurrent enrollment. Introduction to engineering computing and programming using prevalent engineering computing software; program design and development; computer application exercises in engineering. Basic statistical concepts. Computer application exercise in engineering and statistics. (Sp)

CH E 2033 Chemical Engineering Fundamentals 3 Credit Hours

Prerequisite: MATH 1823 or 1914, and CHEM 1415 or CHEM 1425 or CHEM 1435 or equivalent. Material balances involving physical equilibria and chemical reaction; energy balances; gas behavior including vapor pressure and Raoult's Law. (F, Sp)

CH E 3113 Momentum, Heat and Mass Transfer I 3 Credit Hours

Prerequisite: CH E 2033; MATH 2443 or 2934 or concurrent enrollment in 2443 or 2934; completion or concurrent enrollment in PHYS 2524 and completion or concurrent enrollment in MATH 3113. The common mathematical and physical basis of these processes is presented. Calculation methods for all three processes are developed. Design procedures of equipment for fluid flow, heat transfer and diffusional processes are given. (Sp)

CH E 3123 Momentum, Heat and Mass Transfer II 3 Credit Hours

Prerequisite: CH E 3113 and MATH 3113. The common mathematical and physical basis of these processes is presented. Calculation methods for all three processes are developed. Design procedures of equipment for fluid flow, heat transfer and diffusional processes are given. (F)

CH E 3313 Structure and Properties of Materials 3 Credit Hours

Prerequisite: CHEM 1415 or CHEM 1425 or CHEM 1435, PHYS 2524, and CHE 3123 or instructor permission. The behavior of materials under various conditions and environments is correlated to atomic and molecular structure and bonding. (Sp)

CH E 3333 Separation Processes 3 Credit Hours

Prerequisite: CH E 3123 and CH E 3473. Coverage of the fundamentals and modeling techniques of various separation processes found in the chemical process industries. Discussion of various computational approaches for binary and multicomponent separations; factors affecting efficiency, capacity and energy requirements. (Sp)

CH E 3432 Unit Operations Laboratory 2 Credit Hours

Prerequisite: CH E 3123, CH E 3333 or concurrent enrollment in CH E 3333, and CH E 3473. Experimental examination of processes involving fluid flow, heat and mass transfer, kinetics and process control. Process parameters and physical properties are measured. Results are presented in written reports and oral presentations. Laboratory. (Sp)

CH E 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CH E 3473 Chemical Engineering Thermodynamics 3 Credit Hours

Prerequisite: CH E 2033, CH E 3113, MATH 2443 or 2934, and CHEM 3423; junior standing. Application of the first and second laws of thermodynamics to the analysis of phase change, solution behavior and chemical equilibria and reaction. (F)

CH E 3723 Numerical Methods for Engineering Computation 3 Credit Hours

Prerequisite: CHE 2003 and MATH 3113 or 3413. Course uses specific software applications tailored toward chemical engineering. Basic methods for obtaining numerical solutions with a digital computer. Included are methods for the solutions of algebraic and transcendental equations, simultaneous linear equations, ordinary and partial differential equations, and curve fitting techniques. The methods are compared with respect to computational efficiency and accuracy. (F)

CH E 3953 Undergraduate Research 3 Credit Hours

Prerequisite: Permission of instructor. Students work on an individual research project in Chemical Engineering. (F, Sp, Su)

CH E 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)

CH E 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. Deals with concepts not usually presented in regular coursework. (Irreg.)

CH E 3983 Honors Research 3 Credit Hours

Prerequisite: Admission to Honors Program, and instructor permission. Provides an opportunity for the Honors candidate to work on a special project in the student's field. Laboratory (F, Sp, Su)

CH E G4153 Process Dynamics and Control 3 Credit Hours

Prerequisite: 4473. Formulation of first-order models for storage tanks, chemical reactors and heated, stirred tanks; transient and steady-state process dynamics; three-mode control of unit operations; higher-order systems and counter-current operations; analog simulation and digital control of chemical processes. (F)

- CH E 4203 Bioengineering Principles 3 Credit Hours**
(Slashlisted with CH E 5203) Prerequisite: MATH 3113 and PHYS 2524; or permission of instructor. Principles of bioengineering including biomechanics of solids and fluids and mass transfer as they apply to the human body, biomaterials, drug delivery, and tissue engineering. No student may earn credit for both 4203 and 5203. (Sp)
- CH E 4243 Biochemical Engineering 3 Credit Hours**
(Slashlisted with CH E 5243; Crosslisted with BME 4243) Prerequisite: CH E 3113 or permission of instructor. Current bioprocesses for reaction and separation with emphasis on fundamental principles of chemical engineering, biochemistry, and microbiology. No student may earn credit for both 4243 and 5243. (Sp)
- CH E G4253 Process Design & Safety 3 Credit Hours**
Prerequisite: Graduate standing or CH E 3333. Processes and process equipment design including safety considerations; technical design of units combined into plants. (F)
- CH E G4262 Chemical Engineering Design Laboratory 2 Credit Hours**
Prerequisite: CH E 3432 and CH E 4253 or concurrent enrollment in CH E 4253. Experimental techniques for the acquisition of pilot plant data, using unit operations equipment and reactors for use in process design. Results are presented in written reports and oral presentations. Laboratory. (F)
- CH E G4273 Advanced Process Design 3 Credit Hours**
Prerequisite: CH E 3333, CH E 4153, CH E 4253, CH E 4262, and CH E 4473. Process and process equipment design, complete design of process plants including complete flow sheets, estimated plant costs, costs of process development, economics of investment. Results are presented in written reports and oral presentations. (Sp) [V].
- CH E 4281 Engineering Co-Op Program 1 Credit Hour**
(Crosslisted with AME, CEES, C S, ECE, EPHY, ISE and BME 4281) Prerequisite: Departmental permission and junior standing. May be repeated; maximum credit 6 hours. The Co-Op program provides students an opportunity to enhance their education via career exploration in related professional work experiences. Course assignments help students articulate their experiences by completing journals; mid-term paper; final paper and/or final presentation. Faculty receive an evaluation from the student's Co-Op supervisor who monitors performance. Faculty collaborate with the Co-Op supervisor to ensure student success. (F, Sp, Su)
- CH E 4323 Chemical Process Sustainability 3 Credit Hours**
Prerequisite: permission of instructor. Concepts of sustainability relevant to chemical processes, including energy and waste minimization, reduction, of greenhouse gas emissions, economic impact of sustainable practices. (Sp)
- CH E 4373 Tissue Engineering 3 Credit Hours**
(Slashlisted with CH E 5373; Crosslisted with BME 4373) Prerequisite: senior standing or permission of instructor. Examines the background and recent advances in the science of combining multiple cell types with an appropriate support to provide a construct that can replace or support damaged tissue. No student may earn credit for both 4373 and 5373. (Irreg.)
- CH E 4423 Genetic Engineering and Biotechnology 3 Credit Hours**
(Slashlisted with CH E 5423; Crosslisted with BME 4423) Prerequisite: Permission of instructor for upper-class undergraduates. The course will cover state-of-the-art technologies of manipulating and controlling genes and genomes with a goal of engineering human and non-human cells for health and industrial applications. No student may earn credit for both 4423 and 5423. (F)
- CH E G4473 Kinetics 3 Credit Hours**
Prerequisite: 3473, 3723, Mathematics 3113. Fundamentals of rates, homogeneous isothermal reactions, non-isothermal reactions, reactors and design, heterogeneous reactions, fixed and fluidized bed reactors, experimental data reduction, non-ideal flow reaction systems. (Sp)
- CH E 4583 Advanced Techniques in Biomanufacturing 3 Credit Hours**
(Slashlisted with CH E 5583) Prerequisite: CHE 4373 or CHE 5373 or BME 5373 or CHE 4423 or CHE 5423 or BME 5423; co-requisite CHE 4243 or ChE 5243 or BME 5243; or permission of instructor. Biomanufacturing is a multidisciplinary program that requires a strong collaboration among diverse functional groups. This course aims to impact knowledge about biomanufacturing workflow including fermentation, and downstream bioprocessing, with a focus on biological products, design and industrial practices. The main objective is to train students to develop hands-on experience through working with advanced unit operations being used in this field. No student may earn credit for both 4583 and 5583. (Sp)
- CH E 4953 Undergraduate Research II 3 Credit Hours**
Prerequisite: CHE 3953 and permission of instructor. Students interested in pursuing and advanced Chemical Engineering degree work on an individual research project in Chemical Engineering. (F, Sp, Su)
- CH E 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- CH E 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- CH E 4983 Honors Research II 3 Credit Hours**
Prerequisite: CHE 3983, admission to Honors Program and instructor permission. Honors students interested in pursuing an advanced CH E degree work on an individual research project in Chemical Engineering. (F, Sp, Su)
- CH E 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- CH E 5003 Management & Leadership 3 Credit Hours**
Prerequisite: MATH 1914 or equivalent and graduate standing. The graduates will master the differences between management and leadership, will be able to assemble teams based on main personality traits, will effectively design risk mitigation strategies, and will be proficient in managing financial resources. Invited speakers from academia and industry will allow the graduates understand that effective management/leadership depends on the circumstances. (F)
- CH E 5013 Decision & Risk Analysis 3 Credit Hours**
Prerequisite: MATH 1914 or equivalent and graduate standing. The graduates will master methods for predicting capital and operational costs of chemical plants, approaches for the quantification of uncertainties and how such uncertainty could affect the profitability of industrial operations, and the most common approaches for decision making in industry, with their pros and cons. Industrial speakers will provide a framework for the material discussed in class. (Sp)

- CH E 5023 Challenge Group Project 3 Credit Hours**
Prerequisite: MATH 1914 or equivalent and graduate standing. The Challenge consists primarily of a group research project on a topic relevant to the MS in Sustainability. Projects will be offered by Faculty members in the School of Chemical, Biological and Materials Engineering. The instructor will coordinate the activities and assign some individual tasks. Specialistic presentations will be offered to support the projects development. (Su)
- CH E 5033 Environmental Separations 3 Credit Hours**
Prerequisite: MATH 1914 or equivalent and graduate standing. The graduates will master fundamentals and applied aspects of:
1. Sustainable aspects of gas and liquid separations
2. Emergent technologies for the prevention and remediation of liquid contamination. The course will cover existing technologies, as well as current cutting-edge research in these fields, with an emphasis on the potential applicability in the field. (F)
- CH E 5043 Business Sustainability 3 Credit Hours**
Prerequisite: MATH 1914 or equivalent and graduate standing. The graduates will be able to plan and assess the efficacy of business strategies to ensure the sustainability of commercial operations. In particular, the graduates will be able to (a) Achieve and maintain the social license to operate; (b) Operate within the boundaries of environmental regulations; and (c) Promote the goals of a diverse, inclusive, and equitable work force. (Sp)
- CH E 5053 Carbon Capture & Utilization 3 Credit Hours**
Prerequisite: MATH 1914 or equivalent and graduate standing. The graduates will quantify pros and cons of cutting-edge technologies available for capturing, storing, and utilizing CO₂ (CCUS). They will become familiar with technological developments in catalysis (for carbon utilization), materials design (carbon capture), and sequestration (geological repositories, hydrates, mineralization, direct capture from air). The graduates will quantify capital and operational costs associated with these technologies. (Sp)
- CH E 5063 Sustainable Energy Applications 3 Credit Hours**
Prerequisite: Graduate standing. This class presents the fundamental concepts of thermal, electro-, and photo-catalysis and then builds on that knowledge to cover important sustainable energy conversion applications. Topics to be covered include fuel cells, water electrolyzers, CO₂ conversion to valuable fuels and chemicals, ammonia synthesis, batteries and other state-of-the-art technologies. (F)
- CH E 5123 Sustainable Separations 3 Credit Hours**
Prerequisite: Graduate Standing or Permission of Instructor. Students will learn the fundamentals of membrane separations. Lectures will connect the mechanism of small molecule transport in polymer membranes to the design of functional membrane materials exhibiting pre-assigned permeability, selectivity, and durability. Details of a variety of membrane processes for gas, vapor, organic liquid and water separation, as well as selective ion separation, will be presented and discussed. (Sp)
- CH E 5133 Water Sustainability 3 Credit Hours**
(Crosslisted with CEES 5133) Prerequisite: Chemical Engineering Graduate standing or permission of instructor. Introduction to water reclamation and reuse. Wastewater characteristics. Conventional approaches for wastewater treatment. Emerging materials and technologies for water remediation. Water reuse applications and outlook. (Irreg.)
- CH E 5143 Multiscale Modeling of Matter 3 Credit Hours**
Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. The course is suitable for students who are already familiar with classical thermodynamics, differential and integral calculus. This course covers multiscale modeling methods at atomistic and meso scales. By a combination of method discussions and hands-on tutorials, students will learn fundamentals of structures and properties of matter. Both molecular dynamics simulation and Monte Carlo method will be discussed in detail. (F)
- CH E 5163 Heterogeneous Catalysis 3 Credit Hours**
Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. Physical characterization of heterogeneous catalysts; catalytic activity of metals, semiconductors, solid acids, and shape-selective materials. Theories of catalytic activity, catalytic reactors, basics of catalyst surface characterization and activity measurement. (F)
- CH E 5183 Graduate Transport Phenomena 3 Credit Hours**
Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. Fundamentals of the theory of transport process; heat, mass, momentum transfer combined with chemical reactions; derivation of different equations to describe processes and process units; analytical and numerical solutions of systems of describing equations. (F)
- CH E 5203 Bioengineering Principles 3 Credit Hours**
(Slashlisted with CHE 4203) Prerequisite: MATH 3113 and PHYS 2524; graduate standing. Principles of bioengineering for the areas of the biomechanics of solids and fluids, mass transfer, biomaterials, electrical networks, imaging, and ionizing radiation as they apply to the human body. No student may earn credit for both 4203 and 5203. (Sp)
- CH E 5213 Experimental Methods in Materials Research 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor; CH E 5971. Course will focus on theory and application of experimental techniques to characterize hard and soft materials including metals, ceramics, polymers, and composites. This course will include lectures, lab visits with demonstrations, and hands-on laboratory activities. (Sp)
- CH E 5223 Refining Principles 3 Credit Hours**
Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. Introduction to petroleum refining and how feedstocks are valued and selected. Covers more in-depth operation and modeling of several treatment and conversion processes including hydrotreating, catalytic cracking, hydrocracking, and coking. Additional concepts covered include crude oil fractionation, solids handling, and an introduction to several supporting processes. (Sp)
- CH E 5233 Colloidal Assembly 3 Credit Hours**
Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. The aim of this course is to provide fundamental knowledge of colloid and interface science with a focus on the assembly phenomenon at the nano and colloidal scale. The concepts discussed in this class will equip students with essential skills helpful in understanding and analyzing literature that entails colloidal building blocks. (F)
- CH E 5243 Biochemical Engineering 3 Credit Hours**
(Slashlisted with CH E 4243; Crosslisted with BME 5243) Prerequisite: CH E 5971; Chemical Engineering Graduate standing or permission of instructor. Current bioprocesses for reaction and separation with emphasis on fundamental principles of chemical engineering, biochemistry, and microbiology. No student may earn credit for both 4243 and 5243. (Sp)

CH E 5263 Industrial and Environmental Transport Processes 3 Credit Hours

Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. This course is designed to introduce students to areas in transport phenomena that are critical to common applications. We will cover theory, predictive modeling, applications and numerical methods for multiphase flows (gas-liquid and flows with small particles), turbulent flows with transport of heat or mass, and (time permitting) microfluidics. (Sp)

CH E 5293 Transport in Biological Systems 3 Credit Hours

(Crosslisted with BME 5293) Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. Theoretical and practical aspects of transport phenomena in living organisms and biomedical technologies. Applications include hemorheology, drug delivery, extracorporeal circulation, and artificial organs. (Irreg.)

CH E 5323 Sustainable Engineering Principles 3 Credit Hours

Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. Basic concepts of sustainability will be discussed including elements relevant to materials manufacturing, chemical processes, energy production, waste minimization, and reduction of greenhouse gas emissions. Emphasis will be given to equity, diversity, and inclusion in the workplace. Students will also learn to quantify the environmental impact of materials, products and processes via the implementation of a life cycle assessment. (F)

CH E 5333 Sustainable Polymer Manufacturing 3 Credit Hours

Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. Course will provide opportunities for students to develop skills necessary to understand the basic principles of polymer life cycles, polymer properties and environmental footprints, manufacturing, design guidelines for sustainability, and recycling/upcycling. Provides an overview of the contradictory positive and negative characteristics of polymers with respect to sustainability. Discuss conventional processing and additive manufacturing methods for producing polymeric parts and goods. (F)

CH E 5343 Sustainable Process Design 3 Credit Hours

Prerequisite: Chemical Engineering graduate standing or permission of instructor; CH E 5971. This course will cover concepts of sustainable design of chemical processes, including issues related to energy usage and GHG emissions, long-term availability of raw materials, and changes to process design that can lead to sustainable outcomes, including 'green' chemistry options. (Sp)

CH E 5353 Emerging Technologies toward Water Sustainability 3 Credit Hours

Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. This course will provide an introduction to water reclamation and reuse, wastewater characteristics, conventional approaches for wastewater treatment, emerging materials and technologies for water remediation, and water reuse applications and outlook. (F)

CH E 5373 Tissue Engineering 3 Credit Hours

(Slashlisted with CH E 4373; Crosslisted with BME 5373) Prerequisite: CH E 5971; graduate standing, admission into Gallogly College of Engineering or permission of instructor. Examines the background and recent advances in the science of combining multiple cell types with an appropriate support to provide a construct that can replace or support damaged tissue. No student may earn credit for both 4373 and 5373. (Irreg.)

CH E 5393 Rheology of Complex Fluids 3 Credit Hours

(Crosslisted with P E 5393) Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. Develop skills necessary to understand the basic principles of rheological and viscoelastic properties of complex fluids, such as polymer melts and solutions, emulsions, suspensions, multiphase flow, etc. Covers the flow behavior of non-Newtonian fluids and viscoelastic fluids. Newtonian fluid mechanics will be reviewed to describe the standard flows for rheology. Rheometry, the technique for characterization of fluids, will be discussed. (Sp)

CH E 5423 Genetic Engineering and Biotechnology 3 Credit Hours

(Slashlisted with CH E 4423; Crosslisted with BME 5423) Prerequisite: Graduate standing in CBME or SBME, or permission of instructor. The course will cover state-of-the-art technologies of manipulating and controlling genes, genomes and cellular pathways with a goal of engineering human (stem) cells and microbes for health, environmental and industrial applications. No student may earn credit for both 4423 and 5423. (F)

CH E 5453 Polymer Science and Engineering 3 Credit Hours

(Crosslisted with BME 5453) Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. This course will be focused on the synthesis, characterization, processing, and properties of state-of-the-art polymeric and multicomponent polymeric materials. Students should come into the course with a background knowledge of polymers such as that found in an Engineering Materials and/or Organic Chemistry Course. (Sp)

CH E 5463 Polymer Processing 3 Credit Hours

Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. The theory and practice of the production of finished polymer shapes (tubes, sheets, fibers, bottles, etc.) from polymeric raw materials. (Alt. F)

CH E 5480 Topics in Chemical Engineering 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of content. Seminar course in specialized topics in chemical engineering. (Irreg.)

CH E 5523 Advanced Mathematical Methods in Science and Engineering 3 Credit Hours

Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. Scale and vector field theory. Ordinary and partial differential equations. Matrix algebra. Complex analysis. (F)

CH E 5533 Materials Design for Energy Application 3 Credit Hours

Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. This course is focused on electrochemical engineering and its application in several energy-related research areas such as lithium ion batteries, fuel cells, and water electrolysis and photolysis. We will introduce basic principles of electrochemistry and materials science and discuss various issues in these energy-related applications and how to address them from a materials science and engineering perspective. (Irreg.)

CH E 5583 Advanced Techniques in Biomanufacturing 3 Credit Hours

(Slashlisted with CH E 4583) Prerequisite: CHE 5373 or BME 5373 or CHE 5423 or BME 5423; co-requisite CHE 5243 or BME 5243; graduate standing or permission of instructor. Biomanufacturing is a multidisciplinary program that requires a strong collaboration among diverse functional groups. This course aims to impact knowledge about biomanufacturing workflow including fermentation, and downstream bioprocessing, with a focus on biological products, design and industrial practices. The main objective is to train students to develop hands-on experience through working with advanced unit operations being used in this field. No student may earn credit for both 4583 and 5583. (Sp)

- CH E 5673 Colloid and Surface Science 3 Credit Hours**
(Crosslisted with CEES 5673) Prerequisite: Chemical Engineering Graduate standing or permission of instructor. Capillarity, surface thermodynamics, adsorption from vapor and liquid phases, contact angles, micelle formation, solubilization, emulsions and foams. Applications to be discussed include detergency, enhanced oil recovery and adsorption for pollution control. (Irreg.)
- CH E 5843 Advanced Chemical Engineering Thermodynamics 3 Credit Hours**
Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. Advanced thermodynamics as applied to engineering problems and design. (F)
- CH E 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- CH E 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971; May be repeated, maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- CH E 5971 Seminar in Chemical Engineering Research 1 Credit Hour**
Prerequisite: Graduate Standing or departmental permission. Speakers from academia and industry elaborate on methods and results from research in their areas of expertise to provide the student with an appreciation of the problems of current interest in chemical engineering. (F, Sp)
- CH E 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. Laboratory (F, Sp, Su)
- CH E 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- CH E 6522 Designing Circular Materials 2 Credit Hours**
Prerequisite: Graduate standing or instructor permission. This course will adapt the economic concept of 'circular economy' to the design of new materials and products for a variety of practical applications, including recycling and up-cycling. Techniques to quantify sustainability in materials science will also be introduced.
- CH E 6523 Materials Discovery 3 Credit Hours**
Prerequisite: Graduate standing or instructor permission. This course will introduce a variety of cutting-edge computational tools, ranging from data analysis to simulations, from machine learning to artificial intelligence, and others, and will discuss methods in which these techniques can be used to discover new advanced materials for a variety of cutting-edge applications. (F, Sp)
- CH E 6524 Advanced Characterization of Materials 4 Credit Hours**
Prerequisite: Graduate standing or instructor permission. This course will explore several cutting-edge experimental techniques currently used to characterize the electronic, atomic, and molecular structure of materials. The course will have both class and laboratory sections. (F, Sp)
- CH E 6533 Fundamentals of Materials Structural Properties 3 Credit Hours**
Prerequisite: Graduate standing or instructor permission. This course will explore the molecular features of different materials, including but not limited to metals, ceramics, and polymers. The relation between structure and properties of these materials will be developed, achieving a quantitative understanding of how defects can lead to peculiar properties, or perhaps failure. (F, Sp)
- CH E 6723 Advanced Kinetics and Reaction Engineering 3 Credit Hours**
Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971. Understanding and analysis of complex kinetics and reactor systems: free radical and cracking reactions, polymerization, biokinetics and catalytic kinetics with mass heat transfer limitations. Advanced reactor systems such as catalytic fixed bed reactors in one- and two-dimensions, equilibrium limited reaction systems, fluidized and trickle bed reactors, etc. are considered. (F)
- CH E 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- CH E 6970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- CH E 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Chemical Engineering Graduate standing or permission of instructor; CH E 5971 Laboratory. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- CH E 6990 Special Chemical Engineering Problems 1-2 Credit Hours**
1 to 2 Hours. Prerequisite: permission. May be repeated; maximum credit four hours. Special research problems are pursued by the students either as individuals or as a group under staff direction. (F, Sp, Su)

CHEM-Chemistry

- CHEM 1305 Fundamentals of General Chemistry 5 Credit Hours**
Prerequisite: MATH 1503 or MATH 1643 or a Math ACT score of 23 or higher. This course covers topics from both semesters of the traditional general chemistry series and is geared towards students who need only one semester of general chemistry. Topics to be covered may range from biochemistry, inorganic, organic, and environmental chemistry. Not open to students with credit for CHEM 1315, CHEM 1335, CHEM 1415, or CHEM 1435. (F) [II-NSL].
- CHEM 1315 General Chemistry 5 Credit Hours**
Prerequisite: MATH 1503 or MATH 1643, or Math ACT equal to or greater than 25. General Chemistry is an overview of the chemical basis of natural phenomena. First of a two-semester sequence in general chemistry. Topics covered: basic measurement, atomic theory, electron configuration, periodicity, chemical reactivity and energetics, stoichiometry, gas laws and changes in state, bonding and molecular structure. A student may not receive credit for this course and CHEM 1335. Laboratory. (F, Sp, Su) [II-NSL].

- CHEM 1335 General Chemistry I: Signature Course 5 Credit Hours**
Prerequisite: MATH 1503 or MATH 1643, or Math ACT equal to or greater than 25 AND 2 years high school chemistry OR AP Chemistry. General Chemistry is an overview of the chemical basis of natural phenomena. First of a two-semester sequence which prepares students for higher-level courses and research. Topics include atomic and molecular structure, chemical reactions, basic thermodynamics, properties of gases, liquids, solids and solutions, including select stoichiometric and quantitative analysis. A student may not receive credit for this course and CHEM 1315. (F, Sp) [II-NSL].
- CHEM 1415 General Chemistry (Continued) 5 Credit Hours**
Prerequisite: CHEM 1305 with a minimum grade of B or CHEM 1315 with a minimum grade of C or CHEM 1335 with a minimum grade of C or a satisfactory score on the chemistry placement examination. Topics covered include thermochemistry, equilibrium, thermodynamics, acid and base properties, kinetics and electrochemistry. A student may not receive credit for this course and CHEM 1435. Laboratory. (F, Sp, Su) [II-NSL].
- CHEM 1425 Advanced General Chemistry (HONORS) 5 Credit Hours**
Prerequisite: Admission to Honors Program; STEM major and four years of high school math and 1 year high school chemistry, or permission of instructor. Designed for STEM majors well prepared in high school chemistry and math. Topics covered at an advanced level of understanding. The topics include: nature of solutions, equilibrium, thermodynamics, acid and base properties, kinetics and electrochemistry, gas laws and changes in state, molecular structure. Laboratory. (F) [II-NSL].
- CHEM 1435 General Chemistry II: Signature Course 5 Credit Hours**
Prerequisite: grade of C or better in CHEM 1315 or CHEM 1335 or satisfactory score on the chemistry placement examination. General Chemistry is an overview of the chemical basis of natural phenomena. Second of a two-semester sequence which prepares students for higher-level courses and research. Topics include chemical kinetics and thermodynamics including calorimetry, equilibria, electrochemistry, nuclear chemistry, ionic salts, properties of acids and bases, and acid-base reactions including buffers. Students may not receive credit for 1435 and 1415. Laboratory. (F, Sp) [II-NSL].
- CHEM 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- CHEM 3005 Quantitative Analysis 5 Credit Hours**
Prerequisite: CHEM 1415 or CHEM 1425 or CHEM 1435 or equivalent. Analysis by quantitative procedures. Laboratory. (F, Sp)
- CHEM 3053 Organic Chemistry I: Biological Emphasis 3 Credit Hours**
Prerequisite: CHEM 1415 or CHEM 1425 or CHEM 1435. Intended for life science majors. First course in a two-semester sequence (3053 and 3153). This course will cover the concepts of organic structure, nomenclature, and reactivity with an emphasis on biological applications. (F, Sp, Su)
- CHEM 3064 Organic Chemistry I 4 Credit Hours**
Prerequisite: CHEM 1415 or CHEM 1425 or CHEM 1435. Intended for chemistry and biochemistry majors. First course in a two-semester sequence (3064 and 3164). This course will cover the concepts of organic structure, nomenclature, reactivity, and synthesis. The laboratory will use selected experiments to develop the fundamental techniques used in organic research including utilization of spectroscopy and to demonstrate the application of the scientific approach to laboratory work. Laboratory. (F)
- CHEM 3152 Organic Chemistry Laboratory: Biological Emphasis 2 Credit Hours**
Prerequisite: CHEM 3053 or concurrent enrollment. Intended for life science majors. Laboratory course designed to accompany CHEM 3053 and CHEM 3153. Selected experiments designed to illustrate the fundamental techniques used in organic chemistry, to develop familiarity with the properties of organic compounds and to introduce analytical techniques including spectroscopy. (F, Sp, Su)
- CHEM 3153 Organic Chemistry II: Biological Emphasis 3 Credit Hours**
Prerequisite: CHEM 3053 with a grade of C or better. Intended for life science majors. Second course in a two-semester sequence (3053 and 3153). This course will cover the concepts of organic chemical reactivity with an emphasis on carbohydrates, lipids, and proteins. (F, Sp, Su)
- CHEM 3164 Organic Chemistry II 4 Credit Hours**
Prerequisite: CHEM 3064, or both CHEM 3053 and CHEM 3152; with a grade of C or better. Intended for chemistry and biochemistry majors. Second course in a two-semester sequence (3064 and 3164). This course will continue the development of organic chemical reactivity, with an emphasis on synthesis, polymers, and biomolecules. The laboratory will use selected experiments to continue the development of techniques used in organic research with an emphasis on synthesis. Laboratory (Sp)
- CHEM 3421 Physical Chemistry Laboratory 1 Credit Hour**
Prerequisite: 3423 or concurrent enrollment. Physicochemical measurements and calculations. (F, Sp, Su)
- CHEM 3423 Physical Chemistry I 3 Credit Hours**
Prerequisite: CHEM 1415 or CHEM 1425 or CHEM 1435; MATH 2423 or MATH 2924 or concurrent enrollment. Kinetic theory of ideal gases and properties of real gases; first, second, and third laws of thermodynamics; chemical and phase equilibria; and chemical kinetics and reaction mechanisms. (F, Sp, Su)
- CHEM 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- CHEM 3451 Basic Physical Chemistry Laboratory 1 Credit Hour**
Prerequisite: 3453 or concurrent enrollment. Laboratory application of physical chemical principles and techniques. (F, Sp)
- CHEM 3453 Basic Physical Chemistry 3 Credit Hours**
Prerequisite: CHEM 1415 or CHEM 1425 or CHEM 1435; MATH 1823 or MATH 1914; PHYS 2424 or PHYS 2524. The application of physical chemical principles and methods. (F, Sp)
- CHEM 3521 Physical Chemistry Laboratory 1 Credit Hour**
Prerequisite: CHEM 3523 or concurrent enrollment and CHEM 3421 with a grade of C or better. To perform experiments which illustrate important principles in physical chemistry. (F, Sp, Su)
- CHEM 3523 Physical Chemistry II 3 Credit Hours**
Prerequisite: 3423 with a grade of "C" or above. Continuation of 3423. Kinetics, electrochemistry, atomic and molecular states of matter, etc. (F, Sp)

- CHEM 3653 Introduction to Biochemistry 3 Credit Hours**
Prerequisite: CHEM 3013, CHEM 3053, or CHEM 3064, with a grade of C or better. Chemistry of proteins, carbohydrates, lipids, and nucleic acids; enzyme kinetics; biochemical energetics; intermediary metabolism; regulatory processes. A Student may not receive credit for this course and CHEM 3853. (F)
- CHEM 3753 Introduction to Biochemical Methods 3 Credit Hours**
Prerequisite: CHEM 3653 or CHEM 3853 or concurrent enrollment. A survey of current and routinely used methods in biochemistry. Students attend lecture twice weekly and a three-hour lab per week. Laboratory (Sp)
- CHEM 3853 Biochemistry I 3 Credit Hours**
Prerequisite: CHEM 3153 or CHEM 3164 with a grade of C or better. Course 1 of a 2 course progression with focus on Biochemistry. Provides an overview of the cell as an elaborate chemical reactor. Serves as a foundation for further in-depth studies of cellular metabolism. Topics include: structure and function of major biomolecules, catalysis, energy generation, biosynthesis, and information processing. A student may not receive credit for this course and CHEM 3653. (F)
- CHEM 3953 Biochemistry II 3 Credit Hours**
Prerequisite: CHEM 3853 with a grade of C or better, or CHEM 3653 with a grade of B or better. Course 2 of a 2 course progression with focus on Biochemistry. Topics include information metabolism, biochemical aspects of cell organization, and primary molecular biology reactions. Special emphasis on inhibition of various pathways and drug design and discovery. (Sp)
- CHEM 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and permission of Honors College. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- CHEM 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered in this course will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)
- CHEM 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and permission of Honors College. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- CHEM 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- CHEM 4023 Instrumental Methods of Chemical Analysis 3 Credit Hours**
Prerequisite: CHEM 3005. Introduction to instrumental methods of analysis, with emphasis upon electrometric and spectroscopic techniques and instruments. Includes sampling procedures, requirements of reagents and standards, and evaluation of errors. (F)
- CHEM 4033 Instrumental Methods of Chemical Analysis Laboratory 3 Credit Hours**
Prerequisite: 4023. Selected experiments illustrating the principles developed in 4023. Two four and a half hour laboratories per week. Laboratory (Sp)
- CHEM 4053 Culinary Chemistry and Culture in Italy 3 Credit Hours**
Prerequisite: CHEM 1415 or CHEM 1435 with a grade of C or better. The overall objectives are to understand the chemicals in major chemical processes that occur in the production of wine, cheese, pasta, and gelato and the importance of the traditional meal in Italian culture and knowledge of the varieties of wine and cheese in Italy, making direct and integrated connections between the Organic Chemistry covered in and outside of the classroom. (Su)
- CHEM 4232 Laboratory Glassblowing 2 Credit Hours**
Prerequisite: Departmental permission. Discussion of materials and techniques with demonstrations of procedures. Exercises will be performed in the laboratory with a special emphasis upon the different types of seals required in the construction of glass apparatus. One hour of lecture and three hours of laboratory will be scheduled each week. (F, Sp)
- CHEM 4333 Advanced Inorganic Chemistry-Periodic System 3 Credit Hours**
Prerequisite: CHEM 3053 or CHEM 3064. A survey of all elements and important compounds based on atomic structure and position in the Periodic System; effect of atomic size, ionic size and charge on the properties of elements. Inorganic nomenclature. (F)
- CHEM 4444 Advanced Synthesis and Spectral Characterization 4 Credit Hours**
Prerequisite: CHEM 3164, or both CHEM 3152 and CHEM 3153. Lectures cover spectroscopic analysis, thermodynamics of synthesis and fundamentals of advanced techniques, and hands-on spectroscopic identification of reaction products. Two lecture and six laboratory hours per week. Laboratory (Sp)
- CHEM 4753 Principles of Biochemistry I 3 Credit Hours**
Prerequisite: CHEM 3153 or CHEM 3164, CHEM 3423 or CHEM 3453, CHEM 3653 or CHEM 3853 or equivalent. The first semester of a two-semester sequence covering the fundamental principles of protein structure and function, enzymology, carbohydrate and lipid metabolism, biochemical energetics, membranes, nucleic acid and protein metabolism, information transfer and the genetic code, and the interdependence of biochemical pathways. (F)
- CHEM 4913 Senior Thesis 3 Credit Hours**
Prerequisite: permission of instructor and permission of department. Capstone Course. Research project, theoretical or experimental, to be arranged with individual faculty member, leading to a senior thesis. Each student will present an oral report in a lecture presentation or poster format to an audience of students and faculty. Laboratory (F, Sp) [V].
- CHEM 4923 Senior Project 3 Credit Hours**
Prerequisite: Permission of instructor and permission of department. Capstone Course. Topics of current interest and importance in chemistry or biochemistry, requiring in-depth reading, extensive literature search, group work, and report writing. (F, Sp) [V].
- CHEM 4933 Current Topics in Biochemistry 3 Credit Hours**
Prerequisite: Either CHEM 3653 or CHEM 3853; CHEM 3753; and one semester of physical chemistry with lab. Capstone course for biochemistry majors. Topics of current interest in biochemistry. Students will attend lectures and will be involved in literature search, group discussion, oral presentation, and report writing. (Sp) [V].

- CHEM 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- CHEM 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- CHEM 4980 Undergraduate Research 1-4 Credit Hours**
Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Provides an opportunity for student to work on a special project under the supervision of faculty in the student's field. (F, Sp, Su)
- CHEM 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- CHEM 5001 Practicum in General Chemistry Education 1 Credit Hour**
Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. Explores the pedagogical issues associated with teaching general chemistry at the undergraduate level. Includes administration of instruction, student and teacher behavior, goals of instruction, instructional strategies, student thinking processes, problem solving, and grading. (F)
- CHEM 5011 Fundamentals I 1 Credit Hour**
Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. Designed to provide all students entering the graduate program with the skills required to succeed in the Ph.D. program. (F)
- CHEM 5021 Fundamentals II 1 Credit Hour**
Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. Designed to provide all first-year graduate students with the skills required to succeed in the Ph.D. program. (Sp)
- CHEM 5080 Laboratory Rotations 1-2 Credit Hours**
1 to 2 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry. May be repeated; maximum credit 3 hours. Seven-week rotations per credit hour in research laboratories, normally during the first semester of graduate school. (F, Sp)
- CHEM 5090 Departmental Colloquium 0 Credit Hours**
Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. Enrollment is expected during each semester of graduate study. Oral presentations on recent developments in chemistry and biochemistry by invited speakers, faculty, advanced graduate students, and postdoctoral fellows. (F, Sp)
- CHEM 5100 Instrumental Methods of Analysis 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for the Analytical Program. Topics will provide an overview of various instrumental methods employed for qualitative and quantitative chemical analysis. (F, Sp)
- CHEM 5110 Spectroscopic Chemical Analysis 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for the Analytical Program. Theory and operation of instruments employed for optical spectroscopy. (F, Sp)
- CHEM 5120 Separation Methods 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for the Analytical Program. Basic principles underlying methods employed for chemical separations with emphasis on chromatographic methods. (F, Sp)
- CHEM 5160 Special Topics in Analytical Chemistry: Instrumentation 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5100, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Selected topics will focus on instrumentation and applications of selected chemical analysis techniques. (Irreg.)
- CHEM 5170 Special Topics in Analytical Chemistry: Methodology 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5100, or permission of the instructor. May be repeated with change in subject matter for a maximum of 12 credit hours. Selected topics will focus on details of specific methodologies employed for chemical analysis. (Irreg)
- CHEM 5180 Practicum in Analytical Chemistry 1-2 Credit Hours**
1 to 2 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5100, or permission of the instructor. May be repeated with change of content; maximum credit four hours. Study and training in practical methods relevant to analytical chemistry. (F, Sp)
- CHEM 5191 Seminar in Analytical Chemistry 1 Credit Hour**
Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated; maximum credit 12 hours. Oral presentations and discussions of topics relevant to the current state-of-the-art in analytical chemistry research. (F, Sp)
- CHEM 5200 Principles of Biochemistry 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for graduate Biochemistry Program. Fundamental principles of biomolecules, protein structure and function, enzymology, carbohydrate and lipid metabolism, nucleic acid and protein metabolism, membranes and signal transduction, expression and transmission of genetic information, and the interdependence of biochemical pathways. (F, Sp)
- CHEM 5210 Molecular Biology 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for graduate Biochemistry Program. Characteristics and biological functions of nucleic acids and proteins in living cells with emphasis on nucleic acid replication, transcription, translation and regulation; also emphasis on the molecular aspects of genetic engineering/recombinant DNA technology. (F, Sp)

- CHEM 5240 Biochemical and Biophysical Methods 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5200, or permission of the instructor. Basic principles and practical applications of the analytical and preparative techniques used in current biochemical and biophysical research. (F, Sp)
- CHEM 5260 Special Topics in Biochemistry I 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5240, or permission of the instructor. May be repeated with change of content; maximum credit 12 hours. Selected contemporary topics that investigate the frontiers of knowledge in biochemistry. (Irreg.)
- CHEM 5270 Special Topics in Biochemistry II 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5240, or permission of the instructor. May be repeated with change of content; maximum credit 12 hours. Selected contemporary topics that focus on applications of biochemical knowledge. (Irreg.)
- CHEM 5280 Practicum in Biochemistry 1-2 Credit Hours**
1 to 2 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5240, or permission of the instructor. May be repeated with change of content; maximum credit four hours. Study and training in practical methods relevant to biochemistry. (F, Sp)
- CHEM 5291 Seminar in Biochemistry 1 Credit Hour**
Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated; maximum credit 12 hours. Research seminar in which graduate students and invited speakers present and discuss current advances in biochemical research. (F, Sp)
- CHEM 5300 Intermediate Inorganic Chemistry 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Fundamental concepts and an introduction to modern inorganic chemistry. Topics may include: atomic structure and relation to properties of the elements, bonding theory, coordination and bioinorganic compounds, organometallic compounds and catalysis, symmetry and applications to spectroscopy, magnetic materials. (F, Sp)
- CHEM 5330 Advanced Inorganic Chemistry 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5300, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. For students majoring in inorganic chemistry. Selected topics for this course may include: physical and experimental methods in inorganic chemistry, modern spectroscopic methods in inorganic chemistry, bioinorganic and organometallic reactions, advanced kinetics and inorganic reaction mechanisms, catalysis, and advanced experimental design for mechanistic evaluation. (F, Sp)
- CHEM 5360 Frontiers in Inorganic Chemistry 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5300, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Selected topics concerning the theory, synthesis, reactivity and applications of inorganic and coordination compounds. Topics may include: computational chemistry, electrochemistry, metals in biology and medicine, industrial and biological main group chemistry, environmental chemistry, applications of inorganic compounds in alternative energy (nuclear cycle, hydrogen cycle, photovoltaics), and inorganic materials science (metal-organic frameworks, metallopolymers, inorganic polymers). (F, Sp)
- CHEM 5380 Practicum in Inorganic Chemistry 1-2 Credit Hours**
1 to 2 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5300, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Study and training in practical methods relevant to inorganic chemistry. (F, Sp)
- CHEM 5391 Seminar in Inorganic Chemistry 1 Credit Hour**
Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5300, or permission of instructor. May be repeated; maximum credit 12 hours. Graduate student research seminar and related activities, with a selection of topics related to research preparation and research outcomes. (F, Sp)
- CHEM 5400 Organic Chemistry I: Mechanisms and Reactivity 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for graduate Program of Study in Organic Chemistry. Introduction to the study of organic reaction mechanisms and reactivity. (F, Sp)
- CHEM 5430 Organic Chemistry II: Reactions and Synthesis 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5400, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Core course for graduate Program of Study in Organic Chemistry. Detailed treatment of reactions used in organic synthesis and the design of synthetic strategy. (F, Sp)
- CHEM 5450 Structural Characterization of Organic Compounds 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5400, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Application of current methods to problems of structure determination in organic chemistry. (F, Sp)
- CHEM 5460 Special Topics in Chemical Reactivity and Physical Organic Chemistry 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5400, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Selected topics in the study and application of specialized chemical reaction methods. Topics may include: theoretical or computational aspects of organic chemistry; advanced study of reaction mechanisms; study and application of novel chemical methods such as photochemical methods, organometallic chemistry, chemical catalysis, reagent design and application. (Irreg.)

CHEM 5470 Special Topics in Bioorganic and Specialized Organic Compounds 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5400, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Selected topics in the study and preparation of specialized classes of organic compounds including biologically related aspects of organic chemistry. Topics may include: specialized synthesis and design strategies; medicinal chemistry; study and application of biosynthetic methods; advanced synthetic design for targeted organic compounds; study of specialized classes of compounds including natural products, medicinal compounds, bioactive compounds, polymers, functional materials and devices. (Irreg.)

CHEM 5480 Practicum in Organic Chemistry 1-2 Credit Hours

1 to 2 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5400, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Study and training in practical methods relevant to organic chemistry. Topics may include: use of modern instrumental methods for organic structural determination; acquisition and interpretation of spectral data for structural determination; optimization of measurement techniques; specialized preparative laboratory methods; specialized methods for separation and analysis of organic compounds. (F, Sp)

CHEM 5491 Seminar in Organic Chemistry 1 Credit Hour

Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5400, or permission of instructor. May be repeated; maximum credit 12 hours. Research and literature seminar for presenting and discussing a selection of topics from current literature or research in organic chemistry. (F, Sp)

CHEM 5500 Topics in Quantum Chemistry 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing in the Department of Chemistry and Biochemistry or permission of instructor. May be repeated with change of content; maximum credit 6 hours. Review of classical mechanics; introduction to wave mechanics and applications to atoms and molecules. This is a core course for graduate majors. (F, Sp)

CHEM 5530 Topics in Statistical Thermodynamics 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5500 or concurrent enrollment, or permission of the instructor. May be repeated with change of content; maximum credit 6 hours. Chemical thermodynamics, statistical thermodynamics, chemical kinetics, applications of quantum chemistry, structure of matter. This is a core course for graduate majors. (F, Sp)

CHEM 5570 Selected Topics in Physical Chemistry 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5500 or CHEM 5520, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Studies in special areas of physical chemistry not covered in the regular course curriculum. (F, Sp)

CHEM 5580 Practicum in Physical Chemistry 1-2 Credit Hours

1 to 2 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5500 or CHEM 5520, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Study and training in practical methods relevant to physical chemistry. (F, Sp)

CHEM 5591 Seminar in Physical Chemistry 1 Credit Hour

Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5500 or CHEM 5520, or permission of instructor. May be repeated; maximum credit 12 hours. Participation is required of all graduate students majoring in physical chemistry. Research seminar, with a selection of topics from current or projected research at the University of Oklahoma. Discussion of contemporary topics in physical chemistry and related disciplines. (F, Sp)

CHEM 5730 Macromolecular Crystallography 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5210, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Principles of diffraction, symmetry, reciprocal space, data collection, data reduction and absorption corrections; methods for structure solution and refinement; and interpretation of data and limitations thereof. (F, Sp)

CHEM 5750 Macromolecular Structure and Function 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5200, or permission of instructor. May be repeated with change of content; maximum credit 4 hours. Principles of protein architecture and levels of organization, nucleic acid structure, functional roles of intermolecular interactions, structure-function in protein and nucleic acid complexes. (F, Sp)

CHEM 5760 Special Topics in Structural Biology 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5200, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Content may include the structural basis of signal transduction, structural dynamics, computational methods for biological macromolecules, microscopy, structural basis for gene regulation, and structure-guided drug discovery and design. (Irreg.)

CHEM 5780 Practicum in Structural Biology 1-2 Credit Hours

1 to 2 hours. Prerequisite: Graduate standing in the Department of Chemistry and Biochemistry and CHEM 5730 or CHEM 5740, or permission of instructor. May be repeated; maximum credit four hours. The X-ray practicum (prerequisite: 5730) includes crystallization, advanced checkout and operation of X-ray diffractometers, data collection using research samples, structure solution and refinement, and evaluation of crystal structure quality. The NMR practicum (prerequisite: 5740) includes sample preparation of biological macromolecule on a research sample, advanced checkout and operation of NMR spectrometers, structure determination and dynamics, and evaluation of structure quality. (F, Sp)

CHEM 5960 Directed Readings in Chemistry 1-2 Credit Hours

1 to 2 hours. Prerequisite: permission. May be repeated with change of content; maximum credit six hours. Selected from topics of current interest in any of the areas of chemistry. (F, Sp, Su)

CHEM 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CHEM 5980 Research for Master's Thesis 2-9 Credit Hours

Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

CHEM 5990 Independent Studies 1-3 Credit Hours

1 to 3 hours. May be repeated with change of subject matter; maximum credit nine hours. Staff members in the student's field of interest supervise research and/or library studies which closes gaps in student's training or builds on this training in specialized areas. (F, Sp, Su)

CHEM 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

CHEM 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

CHEM 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

CHER-Cherokee

CHER 1715 Beginning Cherokee 5 Credit Hours

Introduction to the structure of the Cherokee language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp) [I-FL].

CHER 1725 Beginning Cherokee-Continued 5 Credit Hours

Prerequisite: 1715. A continuation of the study of the structure of the Cherokee language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community are emphasized. (Sp) [I-FL].

CHER 2733 Intermediate Cherokee 3 Credit Hours

Prerequisite: 1723. A systematic review of the structure of the Cherokee language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

CHER 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CHIN-Chinese

CHIN 1115 Beginning Chinese 5 Credit Hours

An elementary course in understanding, speaking, reading and writing Mandarin Chinese. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F) [I-FL].

CHIN 1225 Beginning Chinese (Continued) 5 Credit Hours

Prerequisite: 1115. Continued training in understanding, speaking, reading and writing elementary Mandarin Chinese. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (Sp) [I-FL].

CHIN 2113 Intermediate Chinese 3 Credit Hours

Prerequisite: 1225. Combination of basic Chinese grammar and vocabulary and their application to spoken and written Mandarin Chinese. (F)

CHIN 2223 Intermediate Chinese (Continued) 3 Credit Hours

Prerequisite: 2113. Continued training in the use of grammar and vocabulary in both spoken and written Mandarin Chinese. (Sp)

CHIN 2323 Intermediate Listening and Speaking 3 Credit Hours

Prerequisite: permission of department. Serves as the prerequisite for Chinese 3113 (Advanced Chinese I.) Assignments and class activities include immersion in daily family-type communication, conversations and functioning in daily business activities, travel and functioning at the intermediate proficiency level. Upon completion, students will have developed the languages skills that will allow them to function with most daily situations in a Chinese-speaking country. (F, Sp)

CHIN 2970 Special Topics/Seminar 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

CHIN 3113 Advanced Chinese I 3 Credit Hours

Prerequisite: CHIN 2223 and CHIN 2323 or equivalent. An integrated advanced course designed to improve skills in the four aspects of learning Mandarin Chinese as a foreign language: listening, speaking, reading, and writing. Emphasis is on the phonetics of standard Mandarin Chinese and conversation on topics in daily life. (F)

CHIN 3223 Advanced Chinese II 3 Credit Hours

Prerequisite: 3113 or equivalent. Continue to improve skills in the four aspects of learning Mandarin Chinese as a foreign language: listening, speaking, reading, and writing. Emphasis on composition and advanced-level reading comprehension. (Sp)

CHIN 3323 Advanced Listening and Speaking 3 Credit Hours

Prerequisite: 2223. Develops listening and speaking skills of students who have taken intermediate Chinese. Conversations are presented in authentic and naturally-paced language. Lessons are constructed to support existing knowledge and develop mastery of new vocabulary, grammatical patterns, and sociocultural formalities in ways that are compatible with genuine communication. (F)

CHIN 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CHIN 3623 Business Chinese 3 Credit Hours

Prerequisite: permission of department. Designed for students who have completed at least two years basic Chinese language learning and have an interest in business-related communications with Chinese-speaking people. Aims to prepare students with the language skills and cultural knowledge for a globalized economy through learning the vocabulary, usages, customs and conventions required for business activities with China. (F)

CHIN 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

CHIN 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

CHIN 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

CHIN 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: two courses in Chinese; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

CHIN 4113 Advanced Reading and Writing 3 Credit Hours

Prerequisite: 3223. Advanced reading and comprehension of authentic Chinese texts. Development of good writing skills with correct usage of grammar. (Sp)

CHIN 4333 Translating Chinese 3 Credit Hours

Prerequisite: CHIN 3113. Assists advanced Chinese major or minor students attain better Chinese-to-English translation skills through practical training and hands-on instruction. The emphasis is on comprehension of original Chinese texts, with particular attention to idioms and expressions. (Irreg.)

CHIN 4533 Learning Chinese through Media 3 Credit Hours

Prerequisite: CHIN 3113 or equivalent. Intended for advanced students to enhance their reading/listening proficiency in modern Chinese language and further develop their self-learning skills. Students will be immersed in a simulacrum of Chinese media by reading Chinese news reports; watching Chinese news videos, short films, and TV programs; and using the Chinese encyclopedia. (F)

CHIN 4543 Study of Classical Chinese and Calligraphy 3 Credit Hours

Prerequisite: CHIN 3223. Major aspects covered include 1) grammatical structures of classical Chinese compared to modern Chinese; 2) lexical and semantic features of most commonly used words and phrases; 3) reading and understanding of simple texts from the classics; 4) cultural perspectives to appreciate Chinese heritage texts, paintings and calligraphy. (F)

CHIN 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

CHIN 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CHIN 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: four courses in Chinese and general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

CHIN 4993 Senior Capstone for Chinese 3 Credit Hours

Prerequisite: Senior standing or permission of instructor. Designed to serve as the senior capstone experience for the Chinese major. Students will study linguistic theory, technique, and methodology. Includes reading in critical analysis as preparation for writing assignments and final project to be written in Chinese. (F) [V].

CHOC-Choctaw

CHOC 1715 Beginning Choctaw 5 Credit Hours

Introduction to the structure of the Choctaw language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp) [I-FL].

CHOC 1725 Beginning Choctaw-Continued 5 Credit Hours

Prerequisite: 1715. A continuation of the study of the structure of the Choctaw language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community are emphasized. (Sp) [I-FL].

CHOC 2733 Intermediate Choctaw 3 Credit Hours

Prerequisite: 1723. A systematic review of the structure of the Choctaw language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

CHOC 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CL C-Classical Culture

CL C 1123 Gods and Heroes in Art 3 Credit Hours

Students will be introduced to stories of ancient gods, goddesses, heroes, and lovers as they have been depicted by various art forms through the ages. Examples of these art forms will include sculptures, mosaics, frescoes, paintings, theater, and motion pictures. Through exposure to a variety of art, students will craft educated opinions about artistic works, both ancient and modern. (F, Sp) [IV-AF].

CL C 1133 The Roman War Machine 3 Credit Hours

This course examines the history and archaeology of the Roman army in times of war and peace, and in doing so provides an introduction to ancient history, classical studies, and Mediterranean archaeology. Drawing on a diverse range of materials, including art, artifacts, and primary source documents, this course explores warfare from Pre-Roman times to Late Antiquity. (F, Sp)

- CL C 2143 Women in Antiquity 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Survey of the roles of women in Ancient Greece from the Bronze Age through the Hellenistic Period. Primary and secondary sources are utilized to provide students with both a literary and historical perspective of women in this time frame. (Irreg.)
- CL C 2213 Introduction to Classical Archaeology 3 Credit Hours**
Introductory survey of the archaeological discovery of the ancient civilizations of the Near and Middle East and the Mediterranean World, including the Mesopotamian, Egyptian, Hebrew, Roman, Minoan, Mycenaean, and Greek civilizations. Attention is given to principal sites for each civilization, their discovery, and the techniques and methodology of classical archaeology. (F, Sp) [IV-WC].
- CL C 2383 Classical Mythology 3 Credit Hours**
Lectures, with assigned readings. The origin and development of Greek and Roman myths indispensable for the understanding of ancient and modern literature; with allusion to their influence on art and religion. (F, Sp, Su) [IV-WC].
- CL C 2413 Medical Vocabulary 3 Credit Hours**
Prerequisite: sophomore standing. Designed to be of special use to students of the biological sciences. Study of basic Greek and Latin elements of medical terminology through the analysis of select vocabularies and word lists. (F, Sp, Su)
- CL C 2603 The Rise and Fall of Greece 3 Credit Hours**
Prerequisite: English 1213/Expository Writing 1213. Traces the development of the democratic ideal in Greece through the classical period. Aspects of culture such as literature, religion, art and architecture, education, science and technology, intellectual life and the role of women are emphasized. (F) [IV-WC].
- CL C 2613 The Rise and Fall of Rome 3 Credit Hours**
Prerequisite: English 1213/Expository Writing 1213. Examines the development and dissemination of Roman civilization in ancient times and its influence on the modern world. Aspects of Roman culture such as literature, law, religion, art and architecture, education, intellectual life, popular entertainment, and the role of women are emphasized. (Sp) [IV-WC].
- CL C 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- CL C 3033 Latin Literature in English Translation 3 Credit Hours**
Prerequisite: sophomore standing. May be repeated; maximum credit six hours. readings in a selected genre (e.g. epic, drama, satire, lyric) with lectures on the history and development of Latin literature. The Greek background to Latin literature and the Romans' influence on later works. [IV-WC].
- CL C 3053 Origins of Christianity: Jesus to Augustine 3 Credit Hours**
Prerequisite: English 1213. A survey of early Christian history that aims to set the Christian scriptures in their cultural and political context. Canonical, non-canonical, Jewish, and pagan sources are read alongside one another in order to consider the interrelationships among various religious ideas in the Roman world. (F) [IV-WC].
- CL C 3103 States in Crisis in Greek and Roman Literature 3 Credit Hours**
Prerequisite: ENGL 1213/EXPO 1213; Course is not open to freshmen. The framers of the Constitution looked to ancient Athens, with its democracy, and Rome, with its republic, as models for a form of government that could withstand the vagaries of time. This course examines how those ancient governments fared during critical moments in their history. (Irreg.) [IV-WC].
- CL C 3113 Gods and Heroes of Ancient Epic 3 Credit Hours**
Prerequisite: English 1213/Expository Writing 1213. The epic poetry of Homer, Hesiod, Vergil and other Greek and Roman writers in its literary and historical context. The epic tradition in later European literature. (F) [IV-WC].
- CL C 3123 Ancient Drama in English Translation 3 Credit Hours**
Prerequisite: junior standing or permission of the instructor. Lectures on the development of the ancient Greek and Roman drama. Lectures with readings and discussion from the works of Aeschylus, Sophocles, Euripides, Aristophanes, Plautus, Terence, and Seneca and from Aristotle's poetics. The influence of ancient drama on European literature. (F) [IV-WC].
- CL C 3133 Plato and the Platonic Tradition 3 Credit Hours**
A study of the major ideas in the central works of Plato and of their influence on the Neoplatonists. (Sp) [IV-WC].
- CL C 3163 Visions of Heaven and Hell: Virgil, Dante, and Milton 3 Credit Hours**
Prerequisite: sophomore standing. Focuses on Virgil's influence on Dante. Virgil celebrates, in both *The Georgics* and *The Aeneid*, the outcome of the struggle against external furor and passion and those elements within the individual. Dante, with Virgil as his spiritual guide in *The Inferno*, presents a series of spiritual exercises. (F, Sp) [IV-WC].
- CL C 3183 Hellas, the Civilization of Ancient Greece 3 Credit Hours**
Prerequisite: junior standing and permission of instructor. Hellas examines the human factor dominating western history, philosophy, literature and political science as Greek civilization chronologically evolves. Responsible behavior, balance and control are the lessons of all Greek literature, art, philosophy and social institutions. (Sp) [IV-WC].
- CL C 3213 Classical Art & Archaeology: Greek Art to the Death of Alexander 3 Credit Hours**
Prerequisite: sophomore standing. Lectures, occasionally illustrated and assigned readings. Survey of the architecture, sculpture, painting and minor arts in the Greek regions of the Eastern Mediterranean in the successive stages of their development; with analyses of dominant styles and detailed study of select masterpieces and monuments. (F) [IV-AF].
- CL C 3223 Classical Art & Archaeology: Hellenistic Greek Art; Roman Art 3 Credit Hours**
(Crosslisted with A HI 3223) Prerequisite: sophomore standing. Continuation of 3213. Survey of Hellenistic art with particular attention to the individuality of style and diversity of matter. Early Etruscan and Roman art. The development of Roman art in native and assimilated forms; studies in domestic and national monuments. (Sp) [IV-AF].
- CL C 3233 The Roman Forum and its Monuments 3 Credit Hours**
Focus on the excavation of the Roman Forum, the central part of ancient Rome. concentrate study on archaeological methodology, specific excavations, topography of Rome, and the cultural significance of Roman urban development on the ancient world.

CL C 3243 Food and Drink in the Ancient Mediterranean 3 Credit Hours
Prerequisite: English 1213/Expo 1213. You are what you eat. You are how you eat. You are when and where and with whom you eat. This was as true in the ancient Mediterranean world of Greece and Rome as it remains in our own. To explore the foodways in the past, we will draw on a wide menu of ancient texts, images, and material culture. (F, Sp)

CL C 3253 Ancient Athletics: Fun and Games in the Mediterranean World 3 Credit Hours
Prerequisite: English 1213/Expository Writing 1213. Athletic activities, and games of all kinds, were just as popular and significant in the ancient Greek and Roman worlds as they are today. We will use primary texts, artistic representations, archaeological discoveries, and modern analogies to explore topics ranging from the rise of the Olympic Games and gladiatorial combats, to just what people considered 'fun' in the ancient world. (F, Sp)

CL C 3283 Roma: The Civilization of Ancient Rome 3 Credit Hours
Prerequisite: junior standing and permission of instructor. This course surveys the Roman nation from its legendary origins in 753 BCE to the collapse of the Western Empire in 476 CE. Through readings from standard texts and historical fiction, students will learn about Roman history, literature and philosophy and its influence on the modern world. (Sp) [IV-WC].

CL C 3403 Law and Justice 3 Credit Hours
Prerequisite: junior standing or permission of the instructor. With Aristotle's politics as the principal guide, course follows development of justice throughout the Greco-Roman experience. (F) [IV-WC].

CL C 3413 Archaeologies of Ancient Espionage 3 Credit Hours
Prerequisite: English 1213/Expository Writing 1213. Spies, surveillance, security - these concepts loom large today, but have their origins in the distant past. This course examines archaeological remains, material and visual culture, and ancient texts to understand espionage, border security, signals intelligence, and surveillance systems in ancient Greece and Rome. We examine intelligence activities from the perspective of ancient empires and resistance to them. (F)

CL C 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CL C 3510 Selected Topics in Classical Culture 2-3 Credit Hours
2 to 3 Hours. May be repeated; maximum credit nine hours. A study of selected topics in the civilizations and cultures of the Romans, Greeks and Hebrews. (F, Sp, Su)

CL C 3613 Classical Influence on Modern Literature 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. May be repeated with change of content; maximum credit 6 hours. Identifies the continuing importance of the classical tradition in modern literature. (F, Sp, Su) [IV-WC].

CL C 3803 The World of Late Antiquity: From Rome to Baghdad 3 Credit Hours
Prerequisite: English/Expository Writing 1213. This course introduces students to the historical period of Late Antiquity (circa 300 to 800 CE). The Mediterranean will be the center of attention, but Mesopotamia, Arabia, the Caucasus, the Balkans, and Western Europe will also be considered in turn, along with the rise and development of Christianity and the emergence of Islam as a permanent presence in the East. (F, Sp) [IV-WC].

CL C 3960 Honors Reading 1-3 Credit Hours
1 to 3 Hours. Prerequisite: admission to honors program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

CL C 3970 Honors Seminar 1-3 Credit Hours
1 to 3 Hours. Prerequisite: admission to honors program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (F, Sp)

CL C 3980 Honors Research 1-3 Credit Hours
1 to 3 Hours. Prerequisite: admission to honors program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

CL C 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

CL C 4503 Classics Capstone 3 Credit Hours
Prerequisite: senior standing in major. Students review major facts, figures, and events of Greco-Roman antiquity and write a senior paper on a topic to be chosen in consultation with the instructor, using primary and secondary sources to demonstrate a comprehensive understanding of one of the major areas of Greco-Roman civilization. (Sp) [V].

CL C 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

CL C 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CL C 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

CL C 5990 Special Studies 1-3 Credit Hours
1 to 3 Hours. Prerequisite: graduate standing. May be repeated; maximum credit six hours. Reading and research, arranged and directed in consultation with the instructor, in specified areas of classical civilization and culture. (F, Sp, Su)

CLAR-Clarinet

CLAR 2000 Freshman and/or Sophomore Secondary Clarinet 1-2 Credit Hours

1 to 2 hours. Prerequisite: permission of adviser and instructor. May be repeated; maximum credit toward B.F.A., B.M.A., B.M.E., and B.M. degrees, eight hours. For freshman and sophomore music students studying in a secondary (or minor) performance area. (F, Sp, Su)

CLAR 2020 Clarinet for Music Majors: Freshman/Sophomore 2-4 Credit Hours

2 to 4 hours. Prerequisite: Majors only. May be repeated; maximum credit 12 hours. Applied instrumental lessons for freshmen and sophomore music majors in a School of Music degree program. (F, Sp)

CLAR 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CLAR 4000 Junior and/or Senior Secondary Clarinet 1-2 Credit Hours

1 to 2 hours. Prerequisite: permission of adviser and instructor. May be repeated; maximum credit toward B.F.A., B.M.A., B.M.E., and B.M. degrees, eight hours. For junior and senior music students studying in a secondary (or minor) performance area. (F, Sp, Su)

CLAR 4020 Clarinet for Music Majors: Junior/Senior 1-4 Credit Hours

1 to 4 hours. Prerequisite: Majors only; junior standing. May be repeated; maximum credit 20 hours. Applied instrumental lessons for junior and senior music majors in a School of Music degree program. (F, Sp)

CLAR 5000 Master's-Level Secondary Clarinet 1-2 Credit Hours

1 to 2 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For master's degree music students studying in a secondary (or minor) performance area. (F, Sp, Su)

CLAR 5010 Master's-Level Clarinet for Non-Performance Music Majors 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For master's degree students other than performance majors in their major field. (F, Sp, Su)

CLAR 5020 Master's-Level Clarinet for Performance Majors 2-4 Credit Hours

2 to 4 hours. Prerequisite: graduate standing in music; permission of adviser and instructor; 4020 and 4021 or equivalent. May be repeated; maximum credit toward an M.M. degree 10 hours. (F, Sp, Su)

CLAR 6000 Doctoral Secondary Clarinet 1-2 Credit Hours

1 to 2 hours. Prerequisite: graduate standing in music, permission of adviser or instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For doctoral degree music students studying in a secondary (or minor) performance area. (F, Sp, Su)

CLAR 6010 Doctoral Clarinet for Non-Performance Music Majors 2-3 Credit Hours

2 to 3 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated. Doctoral-level study of applied music in the major performance area for students other than performance majors in their primary field. (F, Sp, Su)

CLAR 6020 Doctoral Clarinet for Performance Majors 2-4 Credit Hours

2 to 4 hours. Prerequisite: graduate standing in music; 5042; permission of adviser and instructor. May be repeated; credit applicable toward applied music requirements for the Doctor of Musical Arts degree. Doctoral-level study of applied music for performance majors in their primary field. (F, Sp, Su)

CNS-Construction Science

CNS 1111 Introduction to Construction Management 1 Credit Hour

An introduction to the concepts and issues related to construction management, as well as a description of the roles and careers available in the construction industry. (F)

CNS 1312 Computers in Construction Lab 2 Credit Hours

Prerequisite: Majors only and CNS 2833. Introductory course providing students with basic computer application knowledge relevant to the construction industry. (Sp)

CNS 2133 Introduction to Housing in America 3 Credit Hours

This course covers housing in America. It provides a background of the evolution of the American home, including regional and cultural influences, governmental housing policies, urban and suburban residential development, and construction materials and methods. (Sp) [IV-WC].

CNS 2303 Construction Industry Fundamentals 3 Credit Hours

Students will gain an understanding of the construction industry. A brief history of the industry, its different segments, stakeholders, roles, and characteristics are covered. Attention is paid to the general construction process and the documents used in construction (blueprints, specifications, and contracts). These concepts are foundational to subsequent construction management courses. (F, Sp, Su)

CNS 2313 Construction Materials and Methods 3 Credit Hours

Students will gain an understanding of the materials and methods commonly used in the construction of buildings and other projects. Topics include: sitework, concrete, masonry, metals, woods and plastics, thermal and moisture protection, openings, finishes, specialties, Equipment, Mechanical, Electrical, & Plumbing. (F, Sp, Su)

CNS 2363 Materials and Form 3 Credit Hours

(Crosslisted with ARCH 2363) Prerequisite: ARCH or CNS majors only. An introduction to the nature of building materials with regard to form, strength, durability, workability, structure connections, surfaces and edges. Analysis of architectural expression through the use of building materials including the effects of light, air movement, humidity, and their relationships to both one another and formal and spatial expressions. (F)

CNS 2433 MEP Systems 1 3 Credit Hours

Prerequisite: CNS 2833; majors only. The Mechanical Electrical & Plumbing (MEP) Systems course introduces theories, concepts, and their materials and methods. The course prepares construction science students to work closely with mechanical engineers and subcontractors. Design aspects of MEP systems are introduced, while the course is mainly focused on understanding MEP systems, their procurement and installation. (Sp)

CNS 2811 Construction Fundamentals Lab 1 Credit Hour

Prerequisite: CNS 1111 and CNS 2363; Corequisite: CNS 2813. Practical exercises reinforce material seen in CNS 2813 to improve students' understanding and ability to interpret construction drawings and specifications, use hands on techniques to understand actual installation of common materials and systems used in building construction. (F)

- CNS 2813 Construction Documents 3 Credit Hours**
Prerequisite: Majors only; CNS 1111 and CNS 2363; Corequisite (major only, not required for CNS minor): CNS 2811. Students will learn to read, find information, and interpret the drawings and specifications of typical construction projects. (F)
- CNS 2833 Materials and Methods for Construction 3 Credit Hours**
Prerequisite: CNS 1111 and CNS 2363; CNS majors only. Focuses on materials and methods used to construct a building from the roofed frame to flooring installation. Content includes exterior cladding, finishes, and waterproofing, exterior glazing systems, electrical, plumbing, and mechanical system installation basics, above the ceiling installation, interior walls and finishes, interior doors and hardware, dropped ceilings and flooring. (Sp)
- CNS 3103 Construction Surveying 3 Credit Hours**
Prerequisite: Majors only; junior standing; CNS 2813 and CNS 1312; Corequisite: CNS 3533. The purpose of this course is to acquaint the student with basic concepts of surveying and to provide practical training necessary for construction applications. (F)
- CNS 3303 Preconstruction Management 3 Credit Hours**
Prerequisite: CNS 2303 and CNS 2313 or permission of instructor. Students will gain a deeper understanding of the preconstruction management aspect of construction. Special attention will be paid to business development, delivery methods, contract types, negotiation, bidding documents, and preconstruction. Students will explore these concepts through the lens of real world case studies. (F, Sp, Su)
- CNS 3313 Applied Construction Project Management 3 Credit Hours**
Prerequisite: CNS 3303. Students will gain a deeper understanding of project management processes and procedures. The course will focus on documentation, project cost controls, trade coordination, permitting, risk management, safety management, different meeting requirements, and the differences between project management for a general contractor vs a specialty contractor. (F, Sp, Su)
- CNS 3323 Applied Construction Estimating & Scheduling 3 Credit Hours**
Prerequisite: CNS 3313. Students will gain a deeper understanding of cost estimating and scheduling processes. Through the study of contract documents and estimating practices, students will learn basic estimating skills, schedule concepts and strategies, and basic scheduling software. (F, Sp, Su)
- CNS 3333 Construction Efficiency 3 Credit Hours**
Prerequisite: CNS 3313. Students will gain a deeper understanding of construction efficiency as facilitated through the application of specialized software, technology, sustainability concepts, and management strategies. Students will use these various lenses during the course to explore opportunities for efficiency during the various phases of a construction project. (F, Sp, Su)
- CNS 3343 Communication and Personnel Management in Construction 3 Credit Hours**
Prerequisite: CNS 3313. Students will gain a deeper understanding of communication and personnel management in construction. Students will learn about technical communication, the difference between leadership and management, relationships between trades people and general contractor staff, ethics and personal behavior, resumes, LinkedIn, proposal presentations, and personal growth. (F, Sp, Su)
- CNS 3413 Construction Communication 3 Credit Hours**
Prerequisite: Majors only; Junior Standing; CNS 3533 and COMM 1113; Corequisite: CNS 3823. A communication course designed to focus on written, visual, and oral communication appropriate to the construction industry. The course will expand on the fundamentals of communication with specific instruction about the techniques and tools used to communicate with both internal and external team members. (Sp)
- CNS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- CNS 3443 MEP Systems 2 3 Credit Hours**
Prerequisite: Majors only; Junior Standing; CNS 2433; Corequisite: CNS 3533. This course builds on the theories, concepts, materials, and methods of mechanical, electrical, & Plumbing (MEP) systems students were introduced to in CNS 2433. The accumulated knowledge will be used to explore building science and coordination of MEP subcontractors. (F)
- CNS 3533 Construction Cost Estimating 3 Credit Hours**
Prerequisite: Majors only; Junior Standing; CNS 2813 and CNS 1312. In this course we will learn the basic foundations of the estimating process and about the different components of a construction project estimate. These include: quantity surveying, estimate organization, direct and indirect costs, cost database use, and bid preparation. Students will create cost estimates using manual and electronic take-off estimating software. (F)
- CNS 3543 Project Planning and Scheduling 3 Credit Hours**
Prerequisite: Majors only; Junior Standing; CNS 2813 and CNS 3533; Corequisite: CNS 3413. Students will learn about scheduling concepts in an integrated construction planning and control system. Students will gain knowledge about different scheduling techniques and computer applications employed to facilitate the scheduling process. Students will learn to create schedules using manual network computations and scheduling software. (Sp)
- CNS 3823 Project Management & Cost Controls 3 Credit Hours**
Prerequisite: Majors only; Junior Standing; CNS 3533; Corequisite: CNS 3543. Focuses on the management of a commercial building project after the contract is awarded. Content includes required project communication and documentation and setup and use of a cost accounting system to track and manage the project - including field productivity, work sequence, cost and profitability, payment and cash flow, schedule compression and updating change process and closeout. (Sp)
- CNS 3881 Construction Safety 1 Credit Hour**
Prerequisite: Majors only; Junior Standing; CNS 4941. Students will learn strategies and understand how construction managers proactively plan to ensure safety on an active job site, including the creation of a safety plan for a construction project. (F)
- CNS 3943 Field Work 3 Credit Hours**
Prerequisite: CNS major and permission. Utilize a construction work experience to prepare for construction management functions. Student is responsible for finding the construction-related activity and proposing a work-related project. Written and oral presentation is required. (F, Sp, Su)

- CNS 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- CNS 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- CNS 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- CNS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- CNS 4133 BIM for Constructors 3 Credit Hours**
(Slashlisted with CNS 5133) Prerequisite: Majors only; Senior Standing; CNS 3823; Corequisite: CNS 4523. This Building Information Modeling (BIM) course is designed for the construction professional. Students will gain knowledge about the concepts, core business processes, and software involved in a building information model. BIM is presented as a methodology and tool that provides for shared information across the facility's lifecycle. No student may earn credit for both 4133 and 5133. (F)
- CNS 4143 Legal Issues in Construction 3 Credit Hours**
(Slashlisted with CNS 5143) Prerequisite: Majors only, Senior Standing, and CNS 4523. An examination of current construction law as it pertains to the day-to-day management of the construction contract. Includes legal ramifications of construction bidding, contracts, changes, delays, and dispute resolution. Course emphasizes reduction of disputes through knowledge. No student may earn credit for both 4143 and 5143. (Sp)
- CNS 4193 Architectural Structures I 3 Credit Hours**
(Crosslisted with ARCH 4193) Prerequisite: Architecture major and completion of MATH 1523 and PHYS 1114 or Construction Science major and completion of PHYS 2414 and MATH 1523 or permission of the division director. An introduction to basic physics, forces within structural systems, material strength, and associated structural engineering principles. Develops both intuitive and empirical knowledge of forces with structural systems that serve as a foundation for future courses within the structures sequence. (Sp)
- CNS 4213 Design-Build Principles and Practices 3 Credit Hours**
(Slashlisted with CNS 5213) Prerequisites: 3rd, 4th or 5th year College of Architecture student or instructor permission. Introduces design and construction students to the principles and practices of design-build. Course is approved by the Design-Build Institute of America. Students who successfully complete core course requirements will earn credit for the professional designation as Associate DBIA Professional. Students may not earn credit for both 4213 and 5213. (Sp)
- CNS 4303 Lean Construction Management 3 Credit Hours**
(Slashlisted with 5303) Prerequisite: Junior standing; Majors only; Permission of instructor. (Slashlisted with CNS 5303.) Explores the lean concepts specifically tailored to the Architecture Engineering Construction (AEC) industry. Students will learn how lean concepts along with creative transformational thinking and technological advancement can improve and sustain performance in the construction industry. Students may not earn credit for both CNS 4303 and CNS 5303. (Sp) No student may earn credit for both 4303 and 5303. (Sp)
- CNS 4403 Leadership in the Construction Industry 3 Credit Hours**
(Slashlisted with 5403) Prerequisite: Permission of instructor. A study of leadership styles and best practices found in the Architecture, Engineering and Construction industries. The course is designed to educate students about individual, organizational and process/structural leadership. No student may earn credit for both 4403 and 5403. (Sp)
- CNS 4503 Residential Construction 3 Credit Hours**
(Slashlisted with CNS 5503) Prerequisite: Junior standing; CNS majors only or instructor approval. Examines the processes and stakeholders specific to residential property development, including predevelopment activities, feasibility analyses, project financing, and relevant regulatory frameworks. The course also covers material selection and installation practices specific to residential projects, as well as emerging trends in homebuilding and multifamily construction. No student may earn credit for both 4503 and 5503. (F)
- CNS 4512 Soils and Foundations 2 Credit Hours**
Prerequisite: Majors only, Senior Standing, and CNS 4193. Content includes identification and classification of soil properties as they pertain to a construction project, the role of the geotechnical engineer, soils reports, soil preparation, foundation design, soil testing, and the causes of building settlement. Practical exercises are emphasized. (F)
- CNS 4523 Pre-Construction Services 3 Credit Hours**
(Slashlisted with CNS 5523) Prerequisite: Majors only; Senior Standing; CNS 3533 and CNS 3543; Corequisite: CNS 4133. Pre-construction services provide owners with greater project clarity and expectations before their project begins while also aligning owners, designers, and contractors. This course covers the practices performed during pre-construction to increase project success from the owner's, designer's, and contractor's perspectives. Topics include: feasibility reports, budget development, value engineering, economics, risk management, QC, site management, and subcontractor procurement. No student may earn credit for both 4523 and 5523. (F)
- CNS 4603 Design + Build: Construction Lab 3 Credit Hours**
Prerequisite: Junior standing and permission of instructor. Design + Build: Construction Lab is a comprehensive, interdisciplinary, and hands-on learning experience. Serving a community partner, students analyze a conceptual design for cost effectiveness and constructability, then assist in developing construction drawings. Upon completing material investigation and systems analyses, students spend the majority of the semester constructing the project and undertake all activities leading to a completed facility. (Sp)
- CNS 4853 Heavy Civil Construction Project Management 3 Credit Hours**
(Slashlisted with CNS 5853) Prerequisite: Junior standing and majors only. This course is designed to familiarize students with the peculiarities of the heavy-civil construction industry, and to provide students with the analytical skills to compete for projects in that arena. Students will study projects which may include the construction of airports, highways, bridges, dams, tunnels, and similar heavy civil projects. No student may earn credit for both 4853 and 5853. (Sp)

- CNS 4941 Field Work (Internship) - Required 1 Credit Hour**
Prerequisite: Majors only; Junior Standing; CNS 3533; CNS 3413; CNS 3813; CNS 3823. Utilize a construction work experience to prepare for construction management functions and understand entry level roles in the construction industry. Students are responsible for securing a construction-related internship. Written and oral presentation are required. Students must work for 12 weeks and 480 hours. (Su)
- CNS 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: senior standing, permission. May be repeated with change of subject matter; maximum credit eight hours. Subjects proposed by students or instructors may be used to expand knowledge beyond the normal core construction curriculum. Verbal or written presentation may be required to demonstrate successful completion of a subject unit. (F, Sp, Su)
- CNS 4970 Undergraduate General Departmental Seminar 1-4 Credit Hours**
1 to 4 hours. Prerequisite: senior standing, permission. May be repeated with change of subject matter; maximum credit 12 hours. Special topics in construction science. (Irreg.)
- CNS 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- CNS 4993 Construction Science Capstone 3 Credit Hours**
Prerequisite: Majors only; Senior Standing; CNS 4133 and CNS 4523. The capstone course is the culmination of the Construction Science undergraduate experience. Students apply all aspects of the construction project management process in an integrated manner to a construction project. Class interaction requires participants to utilize and extend knowledge of all areas of expertise used by construction managers. Teamwork, interdisciplinary collaboration, and cooperation are required. (Sp) [V].
- CNS 5003 Construction Fundamentals I 3 Credit Hours**
Prerequisite: Graduate standing and majors only. Course will familiarize students with the basic foundations of construction management, including reading and understanding construction plans and specifications, implementing cost estimating techniques, and developing and manipulating project schedules as applied to design and construction project management. (F)
- CNS 5013 Construction Fundamentals II 3 Credit Hours**
Prerequisite: Graduate standing; CNS 5003 and CNS 5033. The course is designed to continue to familiarize students with the basic foundations of the project management and control mechanisms from the owner's, the designer's and the construction contractor's perspective. These concepts include terms, vocabulary, and paperwork used in the construction industry, as well as construction site safety and construction methods. (Sp)
- CNS 5023 Research Methods in Planning, Design and Construction 3 Credit Hours**
Prerequisite: graduate standing and majors only. Framework for understanding the processes, components, and methods of empirical research used in the design and evaluation of planning, design, and construction problems. Emphasis is on understanding the primary types of research methods, evaluating the pros and cons of each, and developing the skills necessary to identify research questions and ways to answer research questions. (Sp)
- CNS 5033 Applied Project Management 3 Credit Hours**
Prerequisite: Graduate standing and majors only. Course is designed to familiarize students with the fundamental processes to apply principles of financial management to managing a construction project. These concepts include document management strategies, cost accounting and control, and project closeout. (F)
- CNS 5133 BIM for Constructors 3 Credit Hours**
(Slashlisted with CNS 4133) Prerequisite: Graduate standing; majors only; CNS 5013. This Building Information Modeling (BIM) course is designed for the construction professional. Students will gain knowledge about the concepts, core business processes, and software involved in a building information model. BIM is presented as a methodology and a tool that provides for shared information across the facility's lifecycle. No student may earn credit for both 4133 and 5133. (F)
- CNS 5143 Legal Issues in Construction 3 Credit Hours**
(Slashlisted with CNS 4143) Prerequisite: Graduate standing and majors only. An examination of current construction law as it pertains to the day-to-day management of the construction contract. Includes legal ramifications of construction bidding, contracts, changes, delays, and dispute resolution. Course emphasizes reduction of disputes through knowledge. No student may earn credit for both 4143 and 5143. (Sp)
- CNS 5213 Design-Build Principles and Practices 3 Credit Hours**
(Slashlisted with CNS 4213) Prerequisite: Graduate standing and majors only, or departmental permission for non-majors. Introduces design and construction students to the principles and practices of design-build. Course is approved by the Design-Build Institute of America. Students who successfully complete core course requirements will earn credit for the professional designation as Associate DBIA Professional. No student may earn credit for both 4213 and 5213. (Sp)
- CNS 5303 Lean Construction Management 3 Credit Hours**
(Slashlisted with CNS 4303) Prerequisite: Graduate standing; majors only; and CNS 5013 or concurrent enrollment. Explores the lean concepts specifically tailored to the Architecture Engineering Construction (AEC) industry. Students will learn how lean concepts along with creative transformational thinking and technological advancement can improve and sustain performance in the construction industry. No student may earn credit for both 4303 and 5303. (Sp)
- CNS 5403 Leadership in the Construction Industry 3 Credit Hours**
(Slashlisted with CNS 4403) Prerequisite: Graduate standing; majors only. A study of leadership styles and best practices found in the architecture, engineering, and construction industries. The course is designed to educate students about individual, organizational, and process/structural leadership. No student may earn credit for both 4403 and 5403. (Sp)
- CNS 5503 Residential Construction 3 Credit Hours**
(Slashlisted with CNS 4503) Prerequisite: Graduate standing. Examines the processes and stakeholders specific to residential property development, including predevelopment activities, feasibility analyses, project financing, and relevant regulatory frameworks. The course also covers material selection and installation practices specific to residential projects, as well as emerging trends in homebuilding and multifamily construction. No student may earn credit for both 4503 and 5503. (F)

CNS 5523 Pre-Construction Services 3 Credit Hours

(Slashlisted with CNS 4523) Prerequisite: Graduate standing; majors only; and CNS 5013. Pre-construction services provide owners with greater project clarity and expectations before their project begins while also aligning owners, designers, and contractors. This course covers the practices performed during pre-construction to increase project success from the owner's, designer's, and contractor's perspectives. Topics include: feasibility reports, budget development, value engineering, economics, risk management, QC, site management, and subcontractor procurement. No student may earn credit for both 4523 and 5523. (F)

CNS 5611 Introduction to Construction Management 1 Credit Hour

Prerequisite: Graduate standing and majors only. The purpose of this course is to learn about the various facets of the design and construction industry and the role of the construction manager. Students will engage in workshops with faculty and industry professionals from diverse backgrounds to explore the variety of specialties within the industry. (F, Sp)

CNS 5612 Construction Business Development 2 Credit Hours

Prerequisite: Graduate standing and majors only. The purpose of this course is to explore strategies for connecting with potential clients, nurturing relationships with industry partners, developing proposals, and setting goals that will lead to company success. (Sp)

CNS 5621 Construction Management Capstone 1 Credit Hour

Prerequisite: Graduate standing and majors only. This course gives students the opportunity to apply all of the concepts and topics from the program and create a project plan and proposal. Students will work with industry professionals and with fellow classmates in the development of the final project. (F, Sp)

CNS 5622 Lean Construction: Principles and Methodologies 2 Credit Hours

Prerequisite: Graduate standing and majors only. The purpose of this course is to explore lean concepts as they are applied in the design and construction industry. Students will learn how to use creative thinking and available technologies to apply lean concepts to processes in the design and construction industry to foster sustained, improved performance. (F)

CNS 5632 Leadership Principles in the Construction Industry 2 Credit Hours

Prerequisite: Graduate standing and majors only. The purpose of this course is to explore leadership styles, techniques, and best practices and how they are applied in the design and construction industry. (Sp)

CNS 5642 Advanced Construction Law 2 Credit Hours

Prerequisite: Graduate standing and majors only. The purpose of this course is to examine construction law as it pertains to the management of the design and construction process. Students will examine the legal ramifications of construction bidding, contracts, performance, changes, delays, and dispute resolution. Students will learn how legal requirements impact the design and construction process beginning in the feasibility and financing phase through completion. (Su)

CNS 5652 Experiential Learning in Design and Construction 2 Credit Hours

Prerequisite: Graduate standing and majors only. In this course, students will connect with industry professionals in a variety of roles within the industry to learn how the different roles contribute to the design and construction process. Students will shadow the professionals in the workplace and work with classmates to develop a framework of how various key team members influence a project. (F)

CNS 5853 Heavy Civil Construction Project Management 3 Credit Hours

(Slashlisted with CNS 4853) Prerequisite: Graduate standing; majors only. This course will familiarize students with the challenges of the heavy-civil construction industry and give them the analytical tools to compete for projects in that area. Skills include unit price estimating, construction equipment, linear scheduling, and major components of the construction of highways, bridges, and engineered facilities. No student may earn credit for both 4853 and 5853. (Sp)

CNS 5940 Construction Industry Practicum 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing, majors only, and permission of instructor. May be repeated with change of content; maximum credit 3 hours. Students will utilize construction work experience to prepare for construction management functions. Students will find an activity and propose a work-related project. (F, Sp, Su)

CNS 5952 Special Studies Presentation 2 Credit Hours

Prerequisite: permission of committee chair. May be repeated; maximum credit six hours. Completion of research for the required special studies project selected by the student and advisory committee. (Irreg.)

CNS 5960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: Graduate standing, majors only, and permission of instructor. May be repeated with change of content; maximum credit 6 hours. Studies in major field as approved by the individual instructor. (F, Sp, Su)

CNS 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and majors only. May be repeated with change of content; maximum credit 9 hours. Special topics or seminar course for content not currently offered in regularly-scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CNS 5980 Research for Master's Thesis 2-9 Credit Hours

2 to 9 hours. Prerequisite: Graduate standing and majors only. May be repeated; Maximum credit applicable toward degree, 5 hours. Production of Master's Thesis. (F, Sp, Su)

CNS 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

CNS 5993 Special Studies Research 3 Credit Hours

Prerequisite: Graduate standing and majors only. May be repeated with change of content; maximum credit 6 hours. Credit for applied research for the special studies project selected by the student and advisory committee. (Irreg.)

COMM-Communication

COMM 1113 Principles of Communication 3 Credit Hours

Introductory study of human communication emphasizing both theoretic understanding of the process as well as skillful application of communication principles and techniques within a variety of settings. (F, Sp, Su) [I-O].

COMM 2003 Communication in Non-Western Culture 3 Credit Hours

Designed to broaden students' perspectives on human communication beyond the boundaries of Western cultural traditions. Patterns of perception, language, verbal behavior, nonverbal behavior, and interpersonal orientation in Asian, Middle Eastern, African and Latin American traditions are studied. (F, Sp) [IV-WDC].

- COMM 2111 Practicum in Forensics 1 Credit Hour**
May be repeated; maximum credit four hours. Develop performance materials (speeches, interpretive cuttings, debate briefs) for use in speech/debate contests. Practice sessions with critiques of performances are given. (F, Sp)
- COMM 2113 Business and Professional Communication 3 Credit Hours**
Seeks to enhance the student's awareness and appreciation of communication processes in business and professional settings. An emphasis is placed on improving skills in interpersonal relations, professional oral presentations, interviews, and group processes. Career opportunities in business and professional contexts are discussed. (F, Sp) [I-O].
- COMM 2213 Interpersonal Communication 3 Credit Hours**
This course surveys theory and research related to interpersonal communication. The course focuses on effectively managing personal (e.g., romantic, family, roommates, and friends) and professional relationships (e.g., work and classroom). The course's format consists of lectures, group discussions, experiential activities, and written assignments. (F, Sp)
- COMM 2323 Survey of Health Communication 3 Credit Hours**
An introduction to one of the fastest-growing areas of the communication discipline: health communication. Surveys current issues, theory, and research surrounding health communication and it will focus on a variety of issues, such as perceptions of health, provider-patient relationships, health organizations, health campaigns, intercultural issues, and the use of new communication technologies in health care. (Irreg.) [III-SS].
- COMM 2413 Media Literacy 3 Credit Hours**
Students will develop the ability to question media content and to think critically about how media generate meaning and affect our lives. Topics include: social impact of popular culture, influence of advertising on media content, mass media as a global industry, how to read the news, and media as a source of information and entertainment. (Irreg.) [III-SS].
- COMM 2513 Introduction to Statistics 3 Credit Hours**
Prerequisite: Mathematics 0123 or a satisfactory score on the math placement test. This course introduces statistics with the purpose of providing tools for interpreting and conducting social science research. Topics include; central tendency, variability, normal distributions, sampling distributions, correlation, regression, T-tests, anovas, and nonparametric statistics. (F, Sp) [I-M].
- COMM 2613 Public Speaking 3 Credit Hours**
Develops skill in the composition and delivery of speeches suitable to various common speech situations and criteria for judging speeches heard or read. Topics include: nature of public speaking; choosing and presenting a topic; analyzing an audience; organizing and outlining. (F, Sp, Su) [I-O].
- COMM 2713 Communication Theory 3 Credit Hours**
Prerequisite: 1113. Examines the formats, roles, strategies and constraints of human communication in varied social contexts. (F, Sp)
- COMM 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- COMM 3003 Political Campaign Processes 3 Credit Hours**
Prerequisite: COMM 1113 or P SC 1113 and junior standing or permission of instructor. Teaches students to apply communication skills including public speaking, debating, mass media news and advertising to political campaigns. (F, Sp)
- COMM 3023 Communication Research Methods 3 Credit Hours**
Prerequisite: COMM 1113 and COMM 2513. Studies the goals, objects and methods of communication research. Emphasis is on the student's role as a critical consumer of research; exploration of vocational/professional applications of communication study. (F, Sp)
- COMM 3223 Small Group Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Examination of communication principles in the small group setting. Includes consideration of task and interpersonal dimensions, cohesiveness, conformity and approaches to leadership. (F, Sp)
- COMM 3243 Communication and Social Change 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Critical analysis and evaluation of persuasive strategies employed in historical and contemporary social movements, especially situations involving agitation and counter-agitation. (F, Sp)
- COMM 3253 Persuasion Principles 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. This course investigates various communication and social science theories dealing with cognitive, affective, emotional, and motivational processes associated with persuasion and social influence. The primary focus is on the psychological means and methods different sources use to manipulate communication to influence people within various contexts, as well as the means receivers have for accepting or resisting that influence. (Irreg.)
- COMM 3263 Organizational Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Focus on the communication patterns and strategies of private and governmental organizations, including most recent research on problems in management, motivation and communication systems. (F, Sp)
- COMM 3283 Communication and Emotion 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Communication and emotion is an advanced course designed to examine the interrelationships between human communication and affective, emotional, and cognitive processes. Emphasis is on theory and research regarding the function of affect and emotion as they impact thinking, feeling, mood, memory, and expression in communication and social interaction. (Irreg.)
- COMM 3313 Communication and Public Health 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Introduction to concepts fundamental to understanding human health behavior and health promotion. Describes prevalent health behavior, psychosocial, and psychological theories of behavior change used by health educators and researchers in a variety of contexts. Examines several individual-based, social-based, organization-based, and eco-social theories, including the health belief model, the theory of planned behavior, the transtheoretical model, decision-making, and social support. (F, Sp)
- COMM 3413 Interethnic Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Examines the nature of communication between individuals of differing ethnic/racial backgrounds. Identifies behaviors that impede or facilitate the development of positive interethnic relationships. Explores various societal, situational, and psychological forces that influence the communication process. (F, Sp)

- COMM 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: COMM 1113 and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Project (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- COMM 3443 Deception 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. This course explores the varieties of deceptive communication, their causes and consequences in a wide range of contexts, as well as strategies that can be used to detect their occurrence. (F, Sp)
- COMM 3483 Communication and Argumentation 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Seeks to acquaint the student with ways of constructing valid arguments, with application to such communication contexts as policy making, legal decision-making, organizational decision-making and personal inquiry. Fundamentals of argumentation are explored, along with methods of argument construction and numerous contextual applications. (F, Sp)
- COMM 3513 Intercultural Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Introduction to intercultural communication theory, research, and application addressing the challenges and the promise of communicating with people with differing cultural/subcultural backgrounds. Topics include cross-cultural variations in communication behavior, intercultural communication effectiveness, intercultural relationship development, cross-cultural adaptation, and intercultural community building. (F, Sp) [IV-WC].
- COMM 3523 Communication in Relationships 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Introduces and discusses various theoretical approaches (social exchange, pragmatism, social cognition, etc.) toward understanding human interaction. In addition, the following topics are covered: relationship development and termination, life-span communication, the family, friendship relationships, therapeutic relationships, and interpersonal relationships in various organizational settings. (F, Sp)
- COMM 3543 Conflict Management and Negotiation 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Expands understanding and practical experience with negotiation and conflict management. Provides an understanding of negotiation and conflict management processes in a wide range of contexts and from a communication perspective. Also examines factors that influence communication in negotiation and conflict, types of strategies used, and their outcomes for the management of such situations. (Sp)
- COMM 3563 Risk and Crisis Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Provides an understanding of the theory, research, and practice related to risk and crisis communication. The course's format consists of lectures, group discussions, experiential activities, and written assignments that require your active involvement. (Irreg.)
- COMM 3573 Communication and Humor 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Provides an understanding of the role of humor in communication. Students will learn about theories and ideas related to humor and its effects on a variety of issues, including: relationships, persuasion, identity, media, and politics. Insight will be gained into humor and communication in a way that illuminates important issues in life. (Irreg.)
- COMM 3643 Media and Society 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Examines the role of the mass media in social life. Topics include the impact of technology, economics, law, work routines, and culture on media content, and the relationship between the messages created and the audiences that receive them. Competing theories about information dissemination and reception are considered. Emphasis on providing students a framework for thinking critically about mass media content. (Irreg.)
- COMM 3653 Computer Mediated Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. An introduction to the area of computer-mediated communication (CMC). Will look at a number of contexts for CMC, including CMC and interpersonal communication, on-line communities, CMC within organizations, and CMC as mass communication. Will introduce students to the history of computer-mediated communication, theories of computer-mediated communication, and will explore communication within a variety of internet-based populations. (Irreg.)
- COMM 3810 Variable Topics in Communication 1-6 Credit Hours**
1 to 6 hours. Prerequisite: COMM 1113 and junior standing or permission of instructor. May be repeated with change of content; maximum credit six hours. Content will vary, but will cover a specific aspect or issue in Communication. Designed to present content not currently offered in regularly scheduled courses. (Irreg.)
- COMM 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1113, 2713 or junior standing with permission of instructor, and admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (Irreg.)
- COMM 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1113, 2713 or junior standing with permission of instructor, and admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted honors candidate to work at a special project in the student's field. (Irreg.)
- COMM 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- COMM G4010 Communication Internship 1-3 Credit Hours**
1 to 6 hours. Prerequisite: junior or senior who has completed two-thirds of the communication courses required for graduation, plus permission of instructor. Applicants must have minimum overall GPA of 2.50 or higher and a minimum GPA of 2.75 in communication courses. May be repeated; maximum credit six hours. A planned work experience related to personal career and academic goals, integrated into the student's academic schedule. It includes working in an assigned workplace several hours a week in addition to completing academic assignments and meeting regularly with organizational and academic supervisors. (F, Sp, Su)
- COMM 4153 Nonverbal Communication 3 Credit Hours**
Prerequisite: COMM 1113 and junior standing or permission of instructor. Seeks to expose students to recent research on nonverbal behavior, emphasizing those properties of communication which characterize social and cultural group memberships. (Irreg.)

COMM G4233 Free Speech: Responsible Communication Under Law 3 Credit Hours

Prerequisite: COMM 1113 and junior standing or permission of instructor. A study of the interaction between communication and the law. A consideration of the role of law as both deterrent and protector of the communicator's efforts. Attempts to provide a better understanding of the pervasiveness of regulation of communication. (Irreg.)

COMM 4243 Family Communication 3 Credit Hours

Prerequisite: COMM 1113 and junior standing or permission of instructor. Examines social science research related to communication processes in family relationships. Focuses on the impact of communication in the development, maintenance, and dissolution of family relationships. Topics include: research methods and theory, stage models of family development, diversity issues related to families, and communication patterns related to different family forms including single-parent families, nuclear families, stepfamilies, and extended families. (Irreg.)

COMM 4253 Strategic Communication Campaigns 3 Credit Hours

Prerequisite: COMM 1113 and junior standing or permission of instructor. Course focus is on the use of influence in modern campaigns. The course attempts to apply theories and strategies of persuasion to applied campaign settings. The broad objectives of the course includes fostering a student's ability to understand and to use the theories, strategies, and methods involved in persuasive campaigns in a generic sense and in terms of specific contexts. (Irreg.)

COMM 4323 Political Communication 3 Credit Hours

(Crosslisted with P SC 4323) Prerequisite: COMM 1113 or P SC 1113 and junior standing or permission of instructor. This course considers the role of communication in democracy. Topics include the kinds of information necessary to sustain democratic systems, the ways in which citizens are informed about public affairs, the function of news media in democratic systems, and how citizens, media and political leaders interact. (F, Sp)

COMM 4413 Issues in Health Communication 3 Credit Hours

Prerequisite: COMM 1113 and junior standing or permission of instructor. Communication theories and principles in various contexts. Will be a thematic course, which focuses on in-depth, context-specific, health-related research and theories. Introduces various themes that are important in health communication, with particular focuses on interpersonal (e.g., social support, uncertainty management, provider-patient communication), cross-cultural (e.g., cross-cultural health care and illness ideology), and organizational (e.g., HMOs and risk communication) contexts. (Irreg.)

COMM 4423 Communication and Public Opinion 3 Credit Hours

Prerequisite: COMM 1113 or P SC 1113 and junior standing or permission of instructor. Examines the concept and measurement of public opinion. Students learn critical and analytical tools for evaluating the current role of public opinion in democratic societies. Topics include how to measure public opinion, interpreting polling data, social and psychological aspects of public opinion, impacts of media and interpersonal communication on public opinion, and public opinion as group behavior. (Irreg.)

COMM 4513 International Communication 3 Credit Hours

Prerequisite: COMM 1113 and junior standing or permission of instructor. Presentation and discussion of academic analyses of culture, politics, and ethics in various non-USA media systems. Issues covered include media ownership and concentration, ethnicity and gender in the media, media and international conflict, non-western media industries, global media audiences, and new information and communication technologies. (F, Sp)

COMM 4643 Mass Media Effects 3 Credit Hours

Prerequisite: COMM 1113 and junior standing or permission of instructor. Examines theories and research that informs conclusions about mass communication effects. Focuses on media use patterns, social effects (violence, pornography, and stereotyping) and effects on children, public opinion, political effects (election campaigns), economic effects (advertising), cultural effects, new communication technologies, and long-term effects. The course also seeks to enhance the skills of critical reading, logical thinking, and use of media. (F)

COMM 4713 Issues in Communication Study 3 Credit Hours

Prerequisite: Departmental permission, COMM 1113, COMM 2613, COMM 2713 (with a grade of C or better), COMM 3023 (with a grade of C or better), COMM 2513 and nine hours of Communication electives at the upper-division level; Must have earned senior standing (90 hours or more) prior to the semester of enrollment. Provides the opportunity to integrate knowledge about communication and apply it to a project culminating in a speech and senior paper. The project will develop a selected problem, issue, or controversy in communication. (F, Sp, Su) [V].

COMM 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

COMM 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

COMM 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: COMM 1113 and COMM 2713 or junior standing with permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

COMM 5003 Quantitative Research Methods 3 Credit Hours

Prerequisite: Graduate standing. This course introduces students to social-behavioral science processes of inquiry about human communication phenomena. It Examines the relationship of theory and method, looks at various research paradigms and designs, and provides an introduction to descriptive and inferential statistics. (Sp)

COMM 5013 Introduction to Graduate Study 3 Credit Hours

Prerequisite: graduate standing or permission. Traces the development of research and professions in communication, providing an integrative conception of the discipline and an introduction to research and theory formulation. Students are exposed to those skills critical to success in graduate training in communication. (F)

COMM 5023 Introduction to Quantitative Research Methods 3 Credit Hours

Prerequisite: graduate standing. Introduction to social-behavioral science processes of inquiry about human communication phenomena for graduate students not pursuing a Ph.D. Examines the relationship of theory and method, between research paradigms and designs, and provides an introduction to descriptive and inferential statistics. (F, Sp, Su)

- COMM 5033 Advanced Statistics 3 Credit Hours**
Prerequisite: graduate standing and COMM 5003, or permission of instructor. Advanced statistics covering topics which include: ANOVA, ANCOVA, MANOVA, multiple regression, path analysis, and confirmatory and exploratory factor analysis. (F)
- COMM 5043 Organizational Research Practicum 3 Credit Hours**
Prerequisite: graduate student major who has completed two-thirds of the communication courses required for graduation, plus permission. Applicants must have an overall grade point average of 3.25 or higher. Provides practical research experience in an organization. Student adviser and organization's sponsor must agree through a written contract about the goals, plan, and activities associated with the research project. (Irreg.)
- COMM 5053 Introduction to Qualitative Research Methods 3 Credit Hours**
Prerequisite: graduate standing. Introduction to various qualitative methodological strategies used in the social sciences for students not pursuing a Ph.D. Examines the relationship of method and theory and the process of collecting, coding, and analyzing data. (F, Sp, Su)
- COMM 5213 Interpersonal Communication 3 Credit Hours**
Prerequisite: graduate standing or permission. Studies the research and theories in interpersonal communication with emphasis on dyads and small groups, public address, message analysis and nonverbal communication. (Irreg.)
- COMM 5233 Communication and Social Change 3 Credit Hours**
Prerequisite: graduate standing or permission. Studies alternative theories of social change, both historical and modern, with emphasis on the role played by communication at the interpersonal, group and social levels. (F)
- COMM 5253 Cross-Cultural Communication: Theory and Research 3 Credit Hours**
Prerequisite: graduate standing or permission. Study of theory of cross-cultural communication with special attention to language, stereotyping, perception, role, power and nonverbal communication as such variables operate in cross-cultural situations. (Irreg.)
- COMM 5263 Health Communication in Interpersonal Contexts 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Provides a broad overview of theoretical and applied approaches to health communication. A variety of health communication topics including doctor-patient communication, health information campaigns, mass media influences on health, role of culture in health and disease, health care organizations, and group influences on well-being will be presented. (F)
- COMM 5313 Qualitative Research Methods 3 Credit Hours**
Prerequisite: graduate standing. Survey of different qualitative methodological strategies used in the social sciences to collect, code, and analyze information. (Sp)
- COMM 5323 Advanced Qualitative Research 3 Credit Hours**
Prerequisite: 5313. Designed to immerse students in the actual experience of conducting qualitative research in the field. Emphasis on participatory observation, ethnographic research, and textual analysis. (F)
- COMM 5333 Organizational Communication 3 Credit Hours**
Prerequisite: graduate standing. Focuses on the communication environment of organizations, both internal and external, emphasizing implications of organizational designs for communication, communication principles to motivate employees, and the role of communication for productivity and the quality of life. (Irreg.)
- COMM 5353 Conflict Management 3 Credit Hours**
Prerequisite: graduate standing. Examines theory and research about conflict management in various communication contexts. Takes a social scientific approach to conflict management with emphasis on cognitive processes, affective systems, interaction sequences and strategies and tactics related to how people negotiate the meaning and management/ resolution of conflict. (Irreg.)
- COMM 5363 Communication and Technology 3 Credit Hours**
Prerequisite: graduate standing or permission. Provides a comprehensive overview of emerging technologies (e.g., teleconferencing, electronic mail, videotext, electronic bulletin boards, telecommuting, distance education, media richness, voice messaging, invisible technologies, etc.) and analyzes some of the social and behavioral effects of these technologies on human interaction in interpersonal, organizational, small group, and international contexts. (F)
- COMM 5373 Communication and Leadership 3 Credit Hours**
Prerequisite: graduate standing. Examines theory and research related to the philosophy and behaviors associated with leadership communication in various contexts. Emphasis placed on unique aspects of messages as individuals enact leadership roles. Scholarship from several areas of the social sciences will be considered, but communication theory will be given primary emphasis. (F)
- COMM 5383 Survey of Political Communication 3 Credit Hours**
(Crosslisted with P SC 5383) Prerequisite: graduate standing. Embraces the premise that meaningful democracy requires an effective political communication system. Examines some of the tensions between the requirements of democracy and the forms of communication that have emerged to meet them, exploring the roles of political leaders, citizens, and the media in the evolution of a democratic political information system. (Irreg.)
- COMM 5393 Risk and Crisis Communication 3 Credit Hours**
Prerequisite: graduate standing. The term "risk communication" refers to a body of knowledge and a set of practical skills that can be used in characterizing and managing issues, disseminating information, and communicating effectively in crises or emergency situations. Examines key concepts of risk communication, investigates risk communication theories and approaches as well as implements practical application in learning about communicating in risk situations. (Irreg.)
- COMM 5453 Social Influence 3 Credit Hours**
Prerequisite: graduate standing. A social scientific approach to the study of influence (persuasion), emphasizing scholarship drawn from speech communication, mass communication and social psychology. (F)
- COMM 5553 Survey of Communication Campaigns 3 Credit Hours**
Prerequisite: graduate standing. Theory and research about persuasive communication campaigns which involve conscious sustained communication efforts designed to influence the thinking, feelings and/or behaviors of targeted receiver groups. (Sp)
- COMM 5810 Special Topics in Communication 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Topics will vary and are intended to acquaint the graduate communication major with specialized study involving communication theory, methodology and research. (F, Sp, Su)

- COMM 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate Standing and permission of instructor; May be repeated; maximum credit three hours for the master's degree and nine hours for the Ph.D. Intensive survey of the literature in a selected area of communication under the direction of a graduate faculty member. (F, Sp, Su)
- COMM 5970 Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing; others vary by topic. May be repeated with change of content; maximum credit nine hours. Varied special topics in communication. (Irreg.)
- COMM 5980 Research for Master's Thesis 2-9 Credit Hours**
2 to 9 hours. Prerequisite: Graduate standing, majors only, and permission of instructor. Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- COMM 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated; maximum credit eight hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- COMM 6023 Communication Research Task Groups 3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor; May be repeated; maximum credit 15 hours. Designed to explore numerous topics in communication study, including the development and execution of research in communication. (F, Sp, Su)
- COMM 6233 Small Group Processes 3 Credit Hours**
Prerequisite: graduate standing. Considers current status of small group theory and research, emphasizing leadership. Includes both the development of a tentative theory of leadership and the application of small group theory to the process of decision making. (F, Sp)
- COMM 6314 History and Theory of Communication 4 Credit Hours**
Prerequisite: 5003, 5013, and 5313 or permission of instructor. Presents the evolution of communication theory from ancient rhetorical traditions to the present. Topics covered include: classical origins of communication; enlightenment contributions to theory; interdisciplinary roots of communication study; and contemporary theories of communication. (Sp)
- COMM 6323 International Communication 3 Credit Hours**
Prerequisite: graduate standing or permission. An interdisciplinary survey of theory and research pertaining to issues of mass media and information and communication technologies and their interaction with culture, identity, politics, and ethics. (Irreg.)
- COMM 6413 Interethnic Communication Seminar 3 Credit Hours**
Prerequisite: graduate standing or permission. An interdisciplinary survey of theory and research pertaining to issues of interethnic/interracial communication. Specific verbal and nonverbal communication behaviors are examined in conjunction with salient contextual factors of the macro-societal, situational, and psychological milieu surrounding the communication process. (Irreg.)
- COMM 6423 Communication in Health Organizations 3 Credit Hours**
Prerequisite: graduate standing. Examines delivery and exchange of messages within health organizations with emphasis on conflict, bargaining, and negotiating, communication networks and environments, virtual systems of communication, etc. (Sp)
- COMM 6433 Seminar in Intercultural Communication 3 Credit Hours**
Prerequisite: graduate standing. Studies communication across cultural boundaries with emphasis on comparative analysis of communication systems of various cultures, factors involved in predicting intercultural communication patterns and effects, and the role of communication in cultural and technological development. Special attention is given to communication problems between subcultures in American society. (Irreg.)
- COMM 6453 Seminar in Social Influence 3 Credit Hours**
Prerequisite: graduate standing. May be repeated with change of content; maximum credit six hours. Seminar on specialized topic in social influence. Content focus varies with instructor. (Sp)
- COMM 6463 Media and Political Behavior 3 Credit Hours**
Prerequisite: graduate standing. Examines the interplay of mediated communication and political behavior. Focuses on individual-level psychological processes that shed light on how news, political campaigns, new media, and entertainment programming may influence socialization, attitude formation, political decision-making and participation. (Irreg.)
- COMM 6473 Communication and Public Opinion 3 Credit Hours**
Prerequisite: graduate standing. Focuses on how collective and individual opinions are formed, communicated, and deployed to make decisions. Examines different conceptions of public opinion, such as the aggregation of individual citizens' opinions, the development of shared values and beliefs, and the active negotiation of opinion in the public sphere. (Irreg.)
- COMM 6483 Media and Civic Life 3 Credit Hours**
Prerequisite: graduate standing. Focuses on the relationship between media and civic life, including campaigns and engagement in the electoral arena, as well as broader perspectives of life as part of the general body politic. Examines the changing news and media landscape, including the affordances and limitations of contemporary and emerging communication platforms in democratic politics. (Irreg.)
- COMM 6523 Health, Culture, and Communication 3 Credit Hours**
Prerequisite: graduate standing and permission of department. Examines the complex definitions and dimensions of culture and the various pathways in which culture can shape patients' illness experiences and providers' behaviors. This course focuses on three general areas: culture and health behaviors; healthcare delivery in cross-cultural contexts, and minority health. (Irreg.)
- COMM 6563 Structural Equation Modeling 3 Credit Hours**
Prerequisites: graduate standing and COMM 5033. Introduction to the analysis of covariance structures. Topics covered include confirmatory factor analysis, structural equation modeling, multi-group analyses, and latent means models. (Irreg.)
- COMM 6573 Social Network Analysis 3 Credit Hours**
Prerequisites: graduate standing and COMM 5033. Reviews theoretical, conceptual, and analytic issues associated with network perspectives on communicating and organizing. The course will review scholarship on the science of networks in communication, economics, organizational science, public health, political science, psychology, and sociology, in order to take an in-depth look at theories, methods, and tools to examine the structure and dynamics of networks. (Irreg.)
- COMM 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated; maximum credit three hours for the master's degree and nine hours for the Ph.D. degree. Directed readings and/or literature review under the direction of a faculty member. (F, Sp, Su)

COMM 6970 Seminar in Communication 1-4 Credit Hours

1 to 4 hours. Prerequisite: graduate standing. May be repeated with change of content; maximum credit 15 hours. (F, Sp, Su)

COMM 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Maximum credit applicable toward degree, 15 hours. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

COMM 6990 Independent Study 1-4 Credit Hours

1 to 4 hours. Prerequisite: Graduate standing and permission of instructor; May be repeated; maximum credit eight hours. An individual course of intensive study with the area and problem to be determined by the student and the instructor responsible for supervising the study. (F, Sp, Su)

COMP-Composition

COMP 2000 Freshman and/or Sophomore Secondary Composition 1-2 Credit Hours

1 to 2 hours. Prerequisite: permission of adviser and instructor. May be repeated; maximum credit toward B.F.A., B.M.A., B.M.E., and B.M. degrees, eight hours. For freshman and sophomore music students studying in a secondary (or minor) performance area. (F, Sp, Su)

COMP 2020 Freshman and/or Sophomore Composition for Performance Majors 2-4 Credit Hours

1 to 4 hours. Prerequisite: permission of adviser and instructor. May be repeated; maximum credit toward the B.M. degree, eight hours. For freshman and sophomore music students in the B.M. (Performance or Composition majors) degree program who are studying in the major performance area. (F, Sp, Su)

COMP 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

COMP 4000 Junior and/or Senior Secondary Composition 1-2 Credit Hours

1 to 2 hours. Prerequisite: permission of adviser and instructor. May be repeated; maximum credit toward B.F.A., B.M.A., B.M.E., and B.M. degrees, eight hours. For junior and senior music students studying in a secondary (or minor) performance area. (F, Sp, Su)

COMP 4020 Junior and/or Senior Composition for Performance Majors 4 Credit Hours

1 to 4 hours. Prerequisite: permission of adviser and instructor. May be repeated; maximum credit toward the B.M. degree 14 hours. May be elected for two hours credit only during summer session. For junior and senior music students in the B.M. (Performance or Composition majors) degree program who are studying in the major performance area. (F, Sp, Su)

COMP 5000 Master's-Level Secondary Composition 1-2 Credit Hours

1 to 2 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For master's degree music students studying in a secondary (or minor) performance area. (F, Sp, Su)

COMP 5010 Master's-Level Composition for Non-Performance Music Majors 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For master's degree students other than performance majors in their major field. (F, Sp, Su)

COMP 5020 Master's-Level Composition for Performance Majors 2-4 Credit Hours

2 to 4 hours. Prerequisite: graduate standing in music; permission of adviser and instructor; 4020 and 4021 or equivalent. May be repeated; maximum credit toward an M.M. degree 10 hours. (F, Sp, Su)

COMP 6000 Doctoral Secondary Composition 1-2 Credit Hours

1 to 2 hours. Prerequisite: graduate standing in music, permission of adviser or instructor. May be repeated; maximum credit eight hours on a given instrument (including voice). For doctoral degree music students studying in a secondary (or minor) performance area. (F, Sp, Su)

COMP 6010 Doctoral Composition for Non-Performance Music Majors 2-3 Credit Hours

2 to 3 hours. Prerequisite: graduate standing in music; permission of adviser and instructor. May be repeated. Doctoral-level study of applied music in the major performance area for students other than performance majors in their primary field. (F, Sp, Su)

COMP 6020 Doctoral Composition for Performance Majors 2-4 Credit Hours

2 to 4 hours. Prerequisite: graduate standing in music; 5042; permission of adviser and instructor. May be repeated; credit applicable toward applied music requirements for the Doctor of Musical Arts degree. Doctoral-level study of applied music for performance majors in their primary field. (F, Sp, Su)

CREK-Creek

CREK 1715 Beginning Creek/Seminole 5 Credit Hours

Introduction to the structure of the Creek/Seminole language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp) [I-FL] .

CREK 1725 Beginning Creek/Seminole-continued 5 Credit Hours

Prerequisite: 1715. A continuation of the study of the structure of the Creek/Seminole language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community are emphasized. (F, Sp) [I-FL] .

CREK 2733 Intermediate Creek/Seminole 3 Credit Hours

Prerequisite: 1725. A systematic review of the structure of the Creek/Seminole language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

CREK 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CRJU-Criminal Justice

CRJU 5013 Introduction to Criminal Justice 3 Credit Hours

Prerequisite: Graduate standing. This course provides a comprehensive overview of the American criminal justice system. Students will examine the historical foundations and evolution of key institutions, policies, and practices. A critical lens will be applied to analyze how structural inequality has contributed to disparate outcomes for marginalized groups. (F, Sp, Su)

CRJU 5063 Research Methods for Criminal Justice 3 Credit Hours

Prerequisite: graduate standing, CAS 5003 and CAS 5013; or permission of dean. Introduces students to conducting and evaluating scientific research of the criminal justice system. Research methods overview the basics of research methodologies, with a focus on measurement and data collection. Statistical analysis overviews basic statistical techniques for analysis of criminal justice data, with a focus on both descriptive and inferential statistics. (F, Sp, Su)

CRJU 5073 Quantitative Research and Analysis 3 Credit Hours

Prerequisite: Graduate standing and CRJU 5063; or permission of academic advisor. This course is designed as an introduction to quantitative statistical methods and their application in criminology and criminal justice research. The course features an overview of the use and interpretation of descriptive, inferential, and predictive statistics. Basic regression and data analysis techniques are discussed, along with bivariate and multivariate techniques. (F, Sp, Su)

CRJU 5083 Qualitative Research Methods in Criminal Justice 3 Credit Hours

Prerequisite: Graduate standing and CRJU 5063; or permission of academic advisor. This course is an introduction to the use of qualitative research methods and analysis in criminal justice research, including practical application of methods addressed in the course. (F, Sp, Su)

CRJU 5113 Theoretical Foundations of Criminal Justice 3 Credit Hours

Prerequisite: graduate standing. Enhances students' understanding of criminal theory focusing on critical analysis of major theoretical perspectives in a social, historical and political context. (F, Sp, Su)

CRJU 5133 Criminal Justice Policy Development 3 Credit Hours

Prerequisite: graduate standing. Students will learn how to measure policies against established standards of practice and case law, writing model policies to gain experience in the process, and evaluating policies to see if they actually work. (F, Sp, Su)

CRJU 5153 Ethical Decision Making in Criminal Justice 3 Credit Hours

Prerequisite: graduate standing. Principles from the major ethical positions charted by Plato, Aristotle, Hume, Mill, Kant, and Rawls. Students will combine these principles with codes of practice and current case law, examine case vignettes and discuss the ethical components of each case. (F, Sp, Su)

CRJU 5203 Victimology and Restorative Justice 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. A survey of the evolving field of victimology from its preoccupation with the study of the victim as a co-active participant in crime to the reemergence of the victim as the focus of the criminal justice system and public policy. This course will also examine the corollary reemergence of the concept of restorative justice, which seeks to address the needs of victims, offenders, and the community. (F, Sp, Su)

CRJU 5213 Mediation & Conflict Resolution for Criminal Justice Professionals 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of practical strategies for managing and resolving conflicts in criminal justice professions. (F, Sp, Su)

CRJU 5223 Community Corrections in the 21st Century 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. Introduction to the topics of probation, parole, and other alternatives to incarceration, collectively referred to as Community Corrections. Emphasis will be placed on the role of research and program evaluation in determining policy/program effectiveness. (F, Sp, Su)

CRJU 5263 Restorative Justice Programs for Drug Offenders 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An exploration of the restorative justice model focusing on how drug courts have implemented key principles of restorative justice programs to deter crime and improve public health. (F, Sp, Su)

CRJU 5283 Human Trafficking and Prostitution 3 Credit Hours

Prerequisite: Graduate standing, CAD 5003 and CRJU 5113. This course will unpack the international debate on trafficking and prostitution by examining the intersections of contemporary social issues, gender bias, poverty, social hierarchies, and culture that perpetuate human trafficking. We will critique mainstream trafficking frameworks that often result in re-victimization of vulnerable people and explore feminist debates on sex work and competing policy approaches to regulating sex work. (F, Sp, Su)

CRJU 5303 Correctional Leadership 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. A review of leadership styles, core competencies demonstrated by effective correctional leaders, skills sets needed for each managerial level within corrections, and elements of leadership that effect the development of a collaborate and dynamic workforce. (F, Sp, Su)

CRJU 5343 Mental Illness and the Criminal Justice System 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of mental illness in the criminal justice system. (F, Sp, Su)

CRJU 5353 Women and Crime 3 Credit Hours

Prerequisite: graduate standing, CAS 5003 and CRJU 5113; or permission of dean. Provides an in-depth examination of women and crime, particularly in the United States, from a sociological perspective, focusing on theoretical explanations, women as offenders, women as victims of crime, and societal responses to female crime. (F, Sp, Su)

CRJU 5363 Penology 3 Credit Hours

Prerequisite: graduate standing, CAS 5003 and CRJU 5113; or permission of dean. An exploration of key issues and emerging themes in scholarship on penology and corrections. Specific attention will be devoted to the United States and the significant correctional issues that it faces including theories of punishment, the history of incarceration, the current state of corrections in the United States, international comparisons in prisons, as well as an investigation of the future of incarceration. (F, Sp, Su)

CRJU 5403 Drug Enforcement Operations and Management 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. This course will examine how criminal justice professionals administer and manage drug investigations. Administrative topics will include personnel issues, policy development, and budgeting. Operational management topics will include informant management, undercover operations, tactical operations, wire-intercepts, and money laundering investigations. (F, Sp, Su)

CRJU 5413 Substance Abuse and Crime in the United States 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of substance abuse trends in the United States. Topics include the interrelationship between substance abuse and dependency, substance abuse treatment and the criminal justice system, and the effectiveness of drug policies and programs. (F, Sp, Su)

CRJU 5423 Global Drug Trafficking, Narco-Terrorism, and United States Drug Policy 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of the global nature of drug supply and demand, organizations involved in drug trafficking and narco-terrorism, and the implementation of US drug policies at the local, state, and federal levels. (F, Sp, Su)

CRJU 5463 Gangs in the United States 3 Credit Hours

Prerequisite: graduate standing, CAS 5003 and CRJU 5113; or permission of dean. Gang formation, risk factors for joining gangs, and the efficacy of different types of prevention, intervention and interdiction policies. The historical backgrounds of gangs, drugs, and violence in America, as well as current issues related to these subjects, will be explored. (F, Sp, Su)

CRJU 5513 Studies in Police Leadership 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An exploration of the dynamics of leadership within the law enforcement context, including the history and evolution of police administration, general leadership theories, management best practices, as well as contemporary issues confronting the profession. (F, Sp, Su)

CRJU 5533 Crime Analysis for Intelligence-Led Policing 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. Introduction to crime analysis and the use of data to intelligently prevent and/or interdict crime. (F, Sp, Su)

CRJU 5583 Cyber-Forensics 3 Credit Hours

Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of the legal, ethical and technical aspects of cyber-forensics. (F, Sp, Su)

CRJU 5700 Advanced Topics in Criminal Justice 2-9 Credit Hours

2 to 9 hours. Prerequisite: graduate standing. May be repeated with change of content; maximum credit 12 hours. Advanced studies in various criminal justice topics, offered under stated titles determined each semester by the instructor involved (F, Sp, Su)

CRJU 5920 Internship in Criminal Justice 2-6 Credit Hours

2 to 6 hours. Prerequisite: graduate standing, CAS 5003, and permission of dean. May be repeated; maximum credit six hours. 2-6 hours. Field experience directly related to study focus in the Criminal Justice program. Requirements include some combination of journal, progress reports, written summary of experiences, or academic paper, and a possible comprehensive examination over these materials. (F, Sp, Su)

CRJU 5953 Demonstration Project 3 Credit Hours

Prerequisite: Criminal Justice Majors only and graduate standing. The Demonstration Project is meant to be the culmination of the MS program in Criminal Justice. It gives students an opportunity to demonstrate the skills they have developed in the program, providing a "final experience" that fits with their specific interests. (F, Sp, Su)

CRJU 5960 Directed Readings in Criminal Justice 2-9 Credit Hours

2 to 9 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated with change of content; maximum credit 9 hours. In-depth study of literature on a topic related to the student's program of study; variable content. (F, Sp, Su)

CRJU 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CRJU 5980 Research for Master's Thesis 2-9 Credit Hours

2 to 9 hours. Prerequisite: graduate standing, CAS 5003, CAS 5013, and completion of first concentration course; or permission of dean. May be repeated; maximum credit six hours. Research and writing of a thesis for completion of PACS graduate degrees. (F, Sp, Su)

CRJU 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

CYBS-Cybersecurity

CYBS 3113 Operating Systems Fundamentals 3 Credit Hours

Prerequisite: CYBS 3123. This course introduces major concepts and techniques for designing and implementing operating systems, including memory management, process management, information management, and computer security. Principles of performance evaluation. Class projects require the design and implementation of software systems. A UNIX family operating system will be used. (Sp)

CYBS 3123 Introduction to Unix Systems 3 Credit Hours

Prerequisite: C S 2413 and MATH 1914; and C S 2813 or MATH 2513. This course provides an introduction to the UNIX operating system. Topics include files and directories, electronic mail, security, advanced file systems, network utilities, network file sharing, text utilities, shell programming, regular expressions, UNIX internals, UNIX system administration, UNIX variations, and systems programming. Programming assignments involve the UNIX shell script language. (F)

CYBS 3213 Foundations of Cybersecurity 3 Credit Hours

Prerequisite: C S 2413, MATH 1914 and either C S 2813 or MATH 2513. This course introduces cybersecurity, principles, and technologies. It deals with security issues related to systems and software. Topics include cyber threats and vulnerabilities, information security frameworks and policies, cryptography, penetration testing, and in-depth defense. The goal is to develop a foundation for further study in cybersecurity. (F)

- CYBS 3223 Applied Statistics for Computing 3 Credit Hours**
Prerequisite: MATH 2423, course is not open to freshmen. This course is an introduction to basic statistical concepts and techniques with an emphasis on application to applied computing. Topics include basic properties of probability, a review of descriptive statistics, common discrete and continuous distributions of data, visualization of real data, hypothesis testing, parametric versus nonparametric tests, supervised and unsupervised learning methods, the bias-variance tradeoff, use of statistical packages. (F)
- CYBS 3313 Introduction to Cyber Ethics and Law 3 Credit Hours**
Prerequisite: Junior Standing. Legal and ethical issues with networked IT, including privacy, surveillance, digital piracy, and military use. First unit introduces ethical frameworks applicable to cybersecurity, sources of applicable law and regulation. Second unit introduces issues relating to cybercrime: intellectual property, user privacy, information assurance, and harmful online content. Third unit introduces issues with IT in government operations. (Sp)
- CYBS 3323 Hardware Security 3 Credit Hours**
Prerequisite: CYBS 3123 or concurrent enrollment in CYBS 3123. This course focuses on hardware (HW) security and covers security and trust from the HW perspective. It introduces students to HW components, including SoC and PCB, and examines security and trust issues in such HW components. Topics include digital lock, circuit theory, ASICs and FPGAs, HW security threats, malware, and attacks, along with specific countermeasures against HW attacks. (F)
- CYBS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- CYBS 3743 Cyberforensics Fundamentals 3 Credit Hours**
Prerequisite: CYBS 3213. This course introduces students to cyber forensics and cyber-crime scene analysis fundamentals. The various laws and regulations dealing with computer forensic analysis are discussed. Students are introduced to the emerging international standards for cyber forensic analysis and a formal methodology for conducting computer forensic investigations. (Sp)
- CYBS 3813 Network Fundamentals 3 Credit Hours**
Prerequisite: C S 2413, MATH 1914, and either C S 2813 or MATH 2513. Introduces the fundamentals of computer networks, including network architectures, network topologies, network protocols, layering concepts (for example, ISO/OSI, TCP/IP reference models), wired and wireless network protocols, communication paradigms (point-to-point vs. multicast/broadcast, connectionless vs. connection-oriented), and networking APIs (sockets). Protocols in all layers will be introduced. In this course, socket programming is also introduced. (Sp)
- CYBS 3913 Database Fundamentals 3 Credit Hours**
Prerequisite: C S 2413, MATH 1914, and either C S 2813 or MATH 2513. Introduction to the concepts behind relational database systems, modeling with Entity-Relationship diagrams and how these are used for data design. SQL to define, manipulate, and test the database, programmatic access, and practical issues. Strong foundation in database security, auditing principles, practices and methodologies. Topics: application security models, security architecture, access controls, auditing, trust management, privacy, threat vectors, and attack methods. (Sp)
- CYBS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- CYBS 4103 Engineering Secure Software 3 Credit Hours**
Prerequisite: CYBS 3813 and CYBS 3913. This course covers topics at the intersection of security and software engineering. This course introduces software engineering processes and standards for building secure software applications. It discusses secure software life cycle development principles to include security in every phase. It also explores security issues and vulnerabilities in software applications due to a lack of secure software engineering processes. (F)
- CYBS 4123 System Administration 3 Credit Hours**
(Slashlisted with CYBS 5123) Prerequisite: CYBS 3123. This course provides a comprehensive introduction to system administration. Topics include virtualization, authentication and authorization, directory services, system management, and system security and set up of modern compute and storage clouds, networking systems, file systems, logging and analysis, and networking. Includes topics related to scripting for all administrative functions. Emphasis is placed on enterprise-level systems. No student may earn credit for both 4123 and 5123. (F, Sp)
- CYBS 4133 Ethical Hacking and Penetration Testing 3 Credit Hours**
(Slashlisted with CYBS 5133) Prerequisite: CYBS 3113. This course covers concepts related to ethical hacking and penetration testing methods to assess, exploit, and report security vulnerabilities on systems and their resources. The course will emphasize the ethical application of penetration testing methods and hacking tools. No student may earn credit for both 4133 and 5133. (F, Sp)
- CYBS 4203 Cybersecurity Risk Management and Assessment 3 Credit Hours**
(Slashlisted with CYBS 5203) Prerequisite: CYBS 3213. This course develops competency in information security policies and plans, including controls for physical hardware, software, and networks. The course introduces security risk detection strategies, countermeasures, damage assessment, and control. The course introduces the students to performing information system risk analysis and management audits. Tools for analyzing log files of various kinds will also be introduced. No student may earn credit for both 4203 and 5203. (F)
- CYBS 4293 Introduction to Cloud Computing and Security 3 Credit Hours**
(Slashlisted with CYBS 5293) Prerequisite: CYBS 3113. Course covers the concepts behind cloud computing, including storage and computing. We will also learn about virtualization, software as a service, and deployment models. We will learn about cybersecurity risks on cloud infrastructure and countermeasures using access policies, distributed access control, key management, and others. Covers topics in the cloud computing security guidelines set forth in international standards organizations. No student may earn credit for both 4293 and 5293. (Sp)
- CYBS 4323 IoT Security and Privacy 3 Credit Hours**
(Slashlisted with CYBS 5323) Prerequisite: CYBS 3323. This course prepares students to securely develop and operate Internet of Things (IoT) devices considering security and privacy. The course covers concepts of IoT architectures with a focus on security and privacy issues. No student may earn credit for both 4323 and 5323. (F, Sp)

- CYBS 4333 Incidence Response Management 3 Credit Hours**
(Slashlisted with CYBS 5333) Prerequisite: CYBS 3123. This course provides a comprehensive treatment of cyber incidents and how to manage them, including understanding attacker motivation, attack methods, and the anatomy of the attacks. Additionally, topics related to incidence readiness, remote triage tools, memory analysis, malware analysis, disk forensics, network intrusion detection tools, and others will be discussed. No student may earn credit for both 4333 and 5333. (F, Sp)
- CYBS 4473 Network Security 3 Credit Hours**
(Slashlisted with CYBS 5473) Prerequisite: CYBS 3113. The course deals with understanding all aspects of cybersecurity that involve the network. Topics will include network transport-level security, wireless network security, electronic mail security, IP security, firewalls, VPNs, Secure HTTP, person-in-the-middle attack scenarios, and SSL/TLS and SSH (SP). Learn about various tools for analyzing network data at various levels of the TCP/IP stack and operating security operations centers. No student may earn credit for both 4473 and 5473. (F)
- CYBS 4583 Machine Learning for Cybersecurity 3 Credit Hours**
Prerequisite: CYBS 3213 and CYBS 3223. Various machine learning concepts, deep learning, time-series analysis, data mining, and other machine-learning concepts. Tools and libraries to analyze data sets, build predictive models, and evaluate the fit of the models. Common learning algorithms, including dimensionality reduction, classification, principal-component analysis, k-NN, k-means clustering, gradient descent, regression, logistic regression, regularization, multiclass data, algorithms, boosting and decision trees. Applies concepts to problems. (F, Sp)
- CYBS 4883 Cryptography Fundamentals 3 Credit Hours**
Prerequisite: CYBS 3213. This course introduces cryptography and its related tools. Specifically, in this course, cryptographic algorithms, protocols, and techniques will be introduced. The course will also introduce students to public key encryption, key exchange protocols, digital signatures, hashing-based encryption, and Data Encryption Standards. This course will also introduce cryptographic implementation in software and web application programming. (F)
- CYBS 4953 Operating and Maintaining Cyber Ranges 3 Credit Hours**
Prerequisite: CYBS 4473. Students will learn to use and build a cyber range for various assessments of threats and exploits. They will learn to build configurations for different business operations and the formation of red and blue team exercises. Students will have real-world experiences in handling situations without the real-world risk associated with practicing on live production equipment and systems. (Sp)
- CYBS 4963 Cybersecurity Capstone 3 Credit Hours**
Prerequisite: CYBS 4103 and Senior Standing. Provides the students with an experience to exhibit their knowledge and skills in all areas of cybersecurity. Students will work in small groups to identify and scope a cybersecurity problem and/or challenges. Required to write a proposal about their project and asked to create a work plan to develop solution to solve the problem/challenge. Create a final report and presentation. (Sp)
- CYBS 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and senior standing. May be repeated once with change of content. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp, Su)
- CYBS 5113 Introduction to Cybersecurity Leadership 3 Credit Hours**
Prerequisite: Graduate standing. This course provides an in-depth exploration of insider threats within organizations and the strategies for managing and mitigating these risks. Students will learn about the motivations behind insider threats, detection methods, prevention techniques, and deterrence mechanisms. (F, Sp, Su)
- CYBS 5123 System Administration 3 Credit Hours**
(Slashlisted with CYBS 4123) Prerequisite: Graduate Standing. This course provides a comprehensive introduction to system administration. Topics include virtualization, authentication and authorization, directory services, system management, and system security and set up of modern compute and storage clouds, networking systems, file systems, logging and analysis, and networking. Includes topics related to scripting for all administrative functions. Emphasis is placed on enterprise-level systems. No student may earn credit for both 4123 and 5123. (F, Sp)
- CYBS 5133 Ethical Hacking and Penetration Testing 3 Credit Hours**
(Slashlisted with CYBS 4133) Prerequisite: Graduate Standing. This course covers concepts related to ethical hacking and penetration testing methods to assess, exploit, and report security vulnerabilities on systems and their resources. The course will emphasize the ethical application of penetration testing methods and hacking tools. No student may earn credit for both 4133 and 5133. (F, Sp)
- CYBS 5203 Cybersecurity Risk Management and Assessment 3 Credit Hours**
(Slashlisted with CYBS 4203) Prerequisite: Graduate Standing. This course develops competency in information security policies and plans, including controls for physical hardware, software, and networks. The course introduces security risk detection strategies, countermeasures, damage assessment, and control. The course introduces the students to performing information system risk analysis and management audits. Tools for analyzing log files of various kinds will also be introduced. No student may earn credit for both 4203 and 5203. (F)
- CYBS 5213 Behavioral Cybersecurity 3 Credit Hours**
Prerequisite: Graduate standing. This course explores the interdisciplinary field of behavioral cybersecurity, emphasizing the role of human personality in cybersecurity practices. It aims to address the growing challenges posed by the digital age. Course will examine the application of psychological methods, profiling techniques, and the use of game theory in understanding human behavior. (F, Sp, Su)
- CYBS 5233 Cybersecurity Ethics, Policy, and Law 3 Credit Hours**
Prerequisite: Graduate standing. This course explores the intersection of ethics, policy, and law within the realm of cybersecurity. Students will engage with case studies, legal frameworks, and ethical dilemmas to critically analyze and navigate the complex landscape of digital security. The goal is to develop a foundation for applying ethical considerations in any organizational structure. (F, Sp, Su)
- CYBS 5243 Threat Hunting and Incident Response 3 Credit Hours**
Prerequisite: Graduate standing. This course provides an in-depth exploration of threat hunting and incident response in cybersecurity. It moves beyond traditional defensive measures to actively seek out and mitigate novel cyber threats. Students will learn how to plan, execute, and recover from hunts, customize frameworks for specific use cases, and respond to incidents, including ransomware attacks. (F, Sp, Su)

CYBS 5253 Cybercrime and Cybersecurity 3 Credit Hours

Prerequisite: Graduate standing. This course delves into the intricacies of cybersecurity and cybercrime, offering a comprehensive overview of the challenges and strategies associated with protecting digital assets. Students will explore various threats, risk management approaches, and the critical roles of people, processes, and technology in cybersecurity. (F)

CYBS 5293 Introduction to Cloud Computing and Security 3 Credit Hours

(Slashlisted with CYBS 4293) Prerequisite: Graduate Standing. Course covers the concepts behind cloud computing, including storage and computing. We will also learn about virtualization, software as a service, and deployment models. We will learn about cybersecurity risks on cloud infrastructure and countermeasures using access policies, distributed access control, key management, and others. Covers topics in the cloud computing security guidelines set forth in international standards organizations. No student may earn credit for both 4293 and 5293. (Sp)

CYBS 5303 Insider Threat and Risk Management 3 Credit Hours

Prerequisite: Graduate standing. This course provides an in-depth exploration of insider threats within organizations and the strategies for managing and mitigating these risks. Students will learn about the motivations behind insider threats, detection methods, prevention techniques, and deterrence mechanisms. (F, Sp, Su)

CYBS 5323 IoT Security and Privacy 3 Credit Hours

(Slashlisted with CYBS 4323) Prerequisite: Graduate Standing. This course prepares students to securely develop and operate Internet of Things (IoT) devices considering security and privacy. The course covers concepts of IoT architectures with a focus on security and privacy issues. No student may earn credit for both 4323 and 5323. (F, Sp)

CYBS 5333 Incidence Response Management 3 Credit Hours

(Slashlisted with CYBS 4333) Prerequisite: Graduate Standing. This course provides a comprehensive treatment of cyber incidents and how to manage them, including understanding attacker motivation, attack methods, and the anatomy of the attacks. Additionally, topics related to incidence readiness, remote triage tools, memory analysis, malware analysis, disk forensics, network intrusion detection tools, and others will be discussed. No student may earn credit for both 4333 and 5333. (F, Sp)

CYBS 5383 Trust in Artificial Intelligence 3 Credit Hours

Prerequisite: Graduate standing. This course explores the intersection of artificial intelligence (AI), management, and trust, delving into how these elements influence each other in modern organizations. It covers various aspects of trust in AI, including organizational, psychological, technological, and ethical dimensions. The course also examines the role of trust in human-machine interaction, AI's impact on innovation, and reducing costs. (F, Sp, Su)

CYBS 5443 Cyber Threat and Intelligence 3 Credit Hours

Prerequisite: Graduate standing. This course explores the dynamic and complex nature of cyber threats and the role of intelligence in addressing them. It covers the spectrum of threat intelligence, from tactical to strategic levels, and delves into the methodologies and technologies used to gather, analyze, and apply intelligence to enhance cybersecurity. (F, Sp, Su)

CYBS 5453 Cybersecurity in a Cloud Environment 3 Credit Hours

Prerequisite: Graduate standing. This course provides an in-depth look into the multifaceted aspects of cybersecurity within cloud computing environments. Covering fundamental concepts, architecture, software security, risk issues, and life cycle concerns, students will learn how to secure cloud services and infrastructure effectively. (F, Sp, Su)

CYBS 5473 Network Security 3 Credit Hours

(Slashlisted with CYBS 4473) Prerequisite: Graduate Standing. The course deals with understanding all aspects of cybersecurity that involve the network. Topics will include network transport-level security, wireless network security, electronic mail security, IP security, firewalls, VPNs, Secure HTTP, person-in-the-middle attack scenarios, and SSL/TLS and SSH (SP). Learn about various tools for analyzing network data at various levels of the TCP/IP stack and operating security operations centers. No student may earn credit for both 4473 and 5473. (F)

CYBS 5903 Master's Practicum 3 Credit Hours

Prerequisite: Graduate Standing. The course provides the students with a culminating experience to exhibit their knowledge and skills in all areas of cybersecurity. Students will collaboratively work in small groups to identify and scope a current cybersecurity problem and/or challenge. Students will be required to write a proposal, create a work plan, draft a final report and make a presentation. (Sp)

CYBS 5963 Strategic Planning in Cybersecurity Practicum 3 Credit Hours

Prerequisite: Graduate standing. This capstone course delves into the strategic planning and leadership aspects of cybersecurity. Students will explore the relationship between the business environment and organizational goals, risk management, and protecting information assets. The course will provide tools to build a cybersecurity strategic plan, develop IT security policies, and lead teams in the execution of these plans. (Irreg.)

CYBS 5980 Research for Master's Thesis 2-9 Credit Hours

2 to 9 hours. Prerequisite: Graduate Standing and Instructor Permission. Directed research culminating in the completion of the master's thesis. Variable enrollment, permission of instructor required, two to nine hours; maximum credit required for degree, six hours. (F, Sp)

DANC-Dance

DANC 1212 Ballet Technique I 2 Credit Hours

May be repeated; maximum credit four hours. Practice of ballet technique at beginning level. This course does not count for major credit in the School of Dance. (F, Sp, Su)

DANC 1312 Modern Technique I 2 Credit Hours

May be repeated; maximum credit four hours. Practice of modern dance technique at the beginning level. This course does not count for major credit in the School of Dance. (F, Sp, Su)

DANC 1411 Stage Makeup for the Dancer 1 Credit Hour

To develop skill in the application of basic stage makeup for the dancer, including character analysis and traditional styles. (Irreg.)

DANC 1713 Understanding Dance 3 Credit Hours

A course in dance appreciation covering all aspects of various theatrical dance styles. (F, Sp) [IV-AF].

DANC 1813 Introduction to Non-Western Dance Forms 3 Credit Hours

An abbreviated examination of the history, evolution, and significance of dance in three regions of the non-western world which possess very distinct dance cultures. (F, Sp) [IV-WDC].

DANC 1911 Rehearsal and Production 1 Credit Hour

Prerequisite: open to dance majors only. May be repeated; maximum credit four hours. Study, practice and participation in every phase of dance production work and management. Laboratory (F, Sp, Su)

DANC 1913 Music for Dancers	3 Credit Hours	DANC 2512 Ballroom Dancing I	2 Credit Hours
This course is designed to increase the dancer's understanding of rhythm, notation of rhythm, musical forms and styles. Music from Western and Non-Western cultural practices as well as from varying historical periods will be explored. Students will make music together in the classroom to gain a deeper understanding of these topics. (F, Sp)		May be repeated; maximum credit eight hours. Instruction in traditional and popular social dances, as well as social skill and etiquette. Includes instruction in the basic ballroom dances of cha-cha, salsa, swing, tango, and waltz. Dancers take the basic skills and introduce new dances and rhythms with an added emphasis on dancing technique. (F, Sp)	
DANC 2212 Ballet Technique II	2 Credit Hours	DANC 2522 Ballroom Dancing II	2 Credit Hours
Prerequisite: permission of instructor. May be repeated; maximum credit eight hours. Continuation of 1212. (F, Sp, Su)		Prerequisite: 2512 or permission of instructor. May be repeated; maximum credit eight hours. Intermediate-level ballroom dancing which builds on the basic skills of the dancer and introduces new dances and rhythms with an added emphasis on dancing techniques. Includes instruction in the foxtrot, rumba, samba, and east and west coast swings. A brief review of basic skills is presented at the beginning of the semester. (F, Sp)	
DANC 2213 Intermediate Ballet Technique	3 Credit Hours	DANC 2612 Belly Dance	2 Credit Hours
Prerequisite: Majors only; permission of instructor; May be repeated; maximum credit 9 hours. Class includes participation in a complete ballet barre and center including adagio, pirouettes, petit allegro and grande allegro. The emphasis will be on the practice and principles of the classical ballet vocabulary. Students will be expected to develop and demonstrate the ability to perform the movements with proper body alignment and a sense of artistic expression. (F, Sp)		May be repeated three times; maximum credit eight hours. A course on one of the forms of dance from the Middle East, belly dancing, as referred to in North America. The class will focus on learning the technique of the dance as well providing the history of the form. (F, Sp)	
DANC 2241 Pointe Class	1 Credit Hour	DANC 2632 Elements of Dance Composition	2 Credit Hours
Prerequisites: Majors only; permission of instructor. Corequisite: must be enrolled in a ballet technique class. May be repeated; maximum credit 4 hours. Technique and practice on pointe to build strength and proficiency for ballet. (F, Sp)		Prerequisite: Majors only; permission of instructor. Theoretical and practical experience with the principles of composition in the area of expressive movement. (Irreg.)	
DANC 2292 Ballet Company Apprentice	2 Credit Hours	DANC 2712 Body Science for Dancers	2 Credit Hours
Prerequisite: Majors only; permission of instructor. May be repeated; maximum credit eight hours. A practical analysis and application of the original and classical ballet repertoire. (F, Sp, Su)		An introduction to human anatomy and body mechanics through the study of skeletal alignment and movement efficiency in dance training, teaching and performance. This course is only open to Dance majors, and is intended to be taken during the second semester of the freshman year or the first semester of the sophomore year. (Irreg.)	
DANC 2312 Modern Technique II	2 Credit Hours	DANC 2970 Special Topics	1-3 Credit Hours
Prerequisite: Majors only; permission of instructor. May be repeated; maximum credit eight hours. Continuation of 1312. (F, Sp)		1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)	
DANC 2313 Intermediate Modern Technique	3 Credit Hours	DANC 3213 Ballet Technique III	3 Credit Hours
Prerequisite: Majors only; permission of instructor; May be repeated; maximum credit 12 hours. Intermediate modern dance technique emphasizes skill refinement, increased vocabulary, and performance capabilities. Class includes floor work, inversions, dynamic movement through space, turns and jumps. (F, Sp)		Prerequisite: Majors only; permission of instructor; May be repeated; maximum credit 24 hours. Class includes participation in an advanced ballet barre and center including adagio, pirouettes, petit allegro and grande allegro. The emphasis will be on the practice and advanced principles of the classical ballet vocabulary. Students will be expected to develop and demonstrate the ability to perform the movements with proper body alignment, musicality, and a sense of artistic expression. (F, Sp, Su)	
DANC 2321 Dance Improvisation	1 Credit Hour	DANC 3272 Performance Practices in Ballet	2 Credit Hours
Prerequisite: majors only; permission of instructor. May be repeated; maximum credit four hours. An introduction to improvisation as a creative and choreographic tool. Students will develop the ability to comprehend, apply, and manipulate movement in order to craft creative impulses. Also explores how to convey concepts and meaning, informing and inspiring others through various methods of non-verbal communication. (F, Sp)		Prerequisite: Majors only; permission of instructor. An introduction to and participation in performance practices in character dance and pantomime in ballet training. Emphasis on the practice, principles and style of character dance and its function as an integral part of classical ballet repertory and the use of pantomime and acting techniques for dancers. Students learn character dance technique and choreography from the classical repertoire as well as practicing individual role development through character studies culminating in the use of pantomime vocabulary and expressive movement. (Irreg.)	
DANC 2392 Modern Company Apprentice	2 Credit Hours	DANC 3292 OU Ballet Company	2 Credit Hours
Prerequisite: Majors only; permission of instructor. May be repeated; maximum credit 10 hours. A practical analysis and application of the past and present choreographic dance works within the modern dance area. (F, Sp, Su)		Prerequisite: Majors only; permission of instructor. May be repeated; maximum credit 16 hours. Rehearsal and performance with the OU Ballet Company. Laboratory (F, Sp, Su)	
DANC 2412 Pilates Body Conditioning	2 Credit Hours		
May be repeated; maximum credit eight hours. The philosophy of awareness in movement and a total body/mind workout based on the methods developed by Joseph Pilates over 75 years ago. This method is one of physical and mental conditioning designed to work every muscle in the body in an efficient and balanced manner. (F, Sp)			

- DANC 3313 Modern Technique III 3 Credit Hours**
Prerequisite: Majors only; permission of instructor; May be repeated; maximum credit 24 hours. Modern Technique III emphasizes advanced skill refinement and creative exploration of performance capabilities. Class includes advanced floor work, inversions, improvisation, composition, large movement through space, large turns and jumps. (F, Sp, Su)
- DANC 3392 Contemporary Dance Oklahoma 2 Credit Hours**
Prerequisite: Majors only; permission of instructor. May be repeated; maximum credit 16 hours. Rehearsal and performance with the Contemporary Dance Oklahoma. (F, Sp, Su)
- DANC 3412 Pilates Equipment 2 Credit Hours**
Prerequisite: 2412 and permission of the instructor. May be repeated; maximum credit eight hours. Using Pilates equipment, the class foundation is built on that developed by Joseph Pilates as a method of physical and mental conditioning to work every muscle in one's body in an efficient and balanced manner. The basis throughout the semester is that philosophy of awareness in movement and a total body/mind workout. (F, Sp)
- DANC 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- DANC 3632 Dance Composition 2 Credit Hours**
Prerequisite: Majors only; permission of instructor. Theoretical and practical experience with the principles of composition in the area of expressive movement. (Irreg.)
- DANC 3743 Dance History: Early Roots 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. A survey of the development of dance from pre-historic eras in western civilization through ancient cultures in Egypt, Greece and Rome. Investigations continue through Medieval, Renaissance and Baroque periods up to the evolution of Romantic ballet in the nineteenth century. (F) [IV-WC].
- DANC 3753 Dance History: Three Centuries of Development 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. From nineteenth-century Romanticism, this course traces the development of western theatrical dancing through the current season. (Sp) [IV-WC].
- DANC 3813 History of World Dance 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. An examination of the history, evolution and significance of dance in regions which possess very distinct dance cultures throughout the non-European world. (Irreg.) [IV-WDC].
- DANC 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated with change of subject; maximum credit six hours. Consists of either reading topics or independent study designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)
- DANC 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program, junior or senior standing. May be repeated with change of subject; maximum credit six hours. The projects covered will vary. Deals with concepts not usually presented in regular coursework. (Irreg.)
- DANC 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated with change of subject; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- DANC 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- DANC G4022 Ballet Repertoire 2 Credit Hours**
Prerequisite: Majors only; permission of instructor. Research and analysis of some of the works of the basic classical repertoire insofar as story contents. Musical and choreographic approaches are used by renowned choreographers. (Irreg.)
- DANC 4213 Ballet Technique IV 3 Credit Hours**
Prerequisite: Majors only; permission of instructor; May be repeated; maximum credit 24 hours. Class includes participation in an advanced ballet barre and center including adagio, pirouettes, petit allegro and grande allegro. The emphasis will be on the strict practice and advanced principles of the classical ballet vocabulary. Students will be expected to demonstrate at an advanced level the ability to perform the movements with proper body alignment, musicality, and sense of artistic expression. (F, Sp)
- DANC 4241 Pas de Deux 1 Credit Hour**
Prerequisite: Majors only; permission of instructor. May be repeated; maximum credit 2 hours. Basic techniques of partnering and being a partner in ballet performance. (Irreg.)
- DANC 4313 Modern Technique IV 3 Credit Hours**
Prerequisite: DANC 3313; Majors only; permission of instructor; May be repeated; maximum credit 24 hours. Modern Technique IV emphasizes advanced and complex skill refinement and creative approaches to performance capabilities. Class includes advanced floor work, inversions, improvisation, composition, musicality, large movements through space, large jumps and turns. (F, Sp, Su)
- DANC 4612 Ballet Choreography 2 Credit Hours**
Prerequisite: Majors only; permission of instructor. Study and practice in the principles of ballet composition, with emphasis on Romantic, Classical, Neoromantic and Neoclassical choreography. (Irreg.)
- DANC 4721 Senior Capstone Lecture 1 Credit Hour**
Prerequisite: Senior standing and permission of department; majors only. Professional preparation for a career in dance and related fields. Students will develop material relevant to a professional career in the industry. Topics include: goal setting, professional correspondence documents, interview techniques, audition preparation, applying for graduate school, video sample creation. Student and instructor initiated discussions with working professionals will explore the role of the dancer in the professional industry. (F) [V].
- DANC 4722 Senior Capstone Project 2 Credit Hours**
Prerequisite: DANC 4721 or concurrent enrollment; senior standing; Permission of department required; majors only. An advanced, individual project which demonstrates mastery of skills and knowledge in the student's area of interest. Taken in the senior year, the project will be selected under advisement, guided by the appropriate faculty member(s) and include required submission of a written component. (F, Sp) [V].

- DANC G4812 Teaching of Ballet Technique 2 Credit Hours**
Prerequisite: twelve hours of ballet or permission. Comprehensive study of the basic ballet exercises and body positions. Terminology and discussions on anatomy for the dancer. Experience in teaching of ballet. (Irreg.)
- DANC G4821 Teaching Practicum - Ballet 1 Credit Hour**
Prerequisite: Majors only; DANC 4812. May be repeated; maximum credit three hours. Teaching children's ballet classes of various levels. Student will teach an average of twelve classes per semester, and meet with the supervising professor following observation of teaching assignments. (F, Sp)
- DANC 4832 Methods in Teaching Dance 2 Credit Hours**
Prerequisite: Majors only; permission of instructor. Methods of teaching through the creative approach. Progressions in teaching dance studies and techniques. (Irreg.)
- DANC G4851 Practical Experience in Teaching Modern Dance 1 Credit Hour**
Prerequisite: 4832. May be repeated; maximum credit three hours. Practical teaching experience in modern dance or creative dance for children. (F, Sp)
- DANC 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- DANC 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- DANC 4990 Special Studies 1-6 Credit Hours**
1 to 6 hours. Prerequisite: Departmental permission; May be repeated with change of subject matter; maximum credit eight hours. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (F, Sp, Su)
- DANC 5023 Introduction to Graduate Study in Dance 3 Credit Hours**
Prerequisite: graduate standing. Developing research, organizational and refined skills for scholarly writing. Establishing a foundation to analyze existing materials in the dance field for purposes of debate and theory construction. Providing clarification of MFA in Dance expectations and defining a direction/program of study which will enrich knowledge within the discipline. (Irreg.)
- DANC 5090 Graduate Special Studies 1-6 Credit Hours**
1 to 6 hours. Prerequisite: permission. May be repeated; maximum credit six hours. A special creative or research project course in any phase of dance adapted to the individual student. (F, Sp)
- DANC 5224 Graduate Ballet Technique 4 Credit Hours**
Prerequisite: Graduate standing and departmental permission; May be repeated; maximum credit 12 hours. Intensive study of dance techniques for proficiency in performance and teaching. (F, Sp, Su)
- DANC 5292 Advanced Ballet Company Class 2 Credit Hours**
Prerequisite: graduate standing, permission of adviser. Continued enrollment based on performance; maximum credit ten hours. A rehearsal situation which provides the special training required in performance. It is conducted in a practicum-laboratory situation aimed at the advanced graduate student. Laboratory (F, Sp)
- DANC 5322 Advanced Dance Improvisation 2 Credit Hours**
Prerequisite: Graduate standing and Master of Fine Arts in Dance majors only. Development of advanced skills, tools, and conceptualization around dance improvisation and its application to the creative process of choreography. (F)
- DANC 5324 Graduate Modern Dance Technique 4 Credit Hours**
Prerequisite: Graduate standing and departmental permission; May be repeated; maximum credit 12 hours. Intensive practice of modern dance techniques for proficiency in performance and teaching. (F, Sp)
- DANC 5392 Advanced Modern Dance Company Class 2 Credit Hours**
Prerequisite: graduate standing, permission of adviser. Continued enrollment based on performance; maximum credit ten hours. A rehearsal situation which provides the special training required in performance. It is conducted in a practicum-laboratory situation aimed at the graduate student. Laboratory (F, Sp)
- DANC 5613 Graduate Choreography 3 Credit Hours**
Prerequisite: Graduate standing; DANC 3632 or DANC 4612, or departmental permission; May be repeated; maximum credit 6 hours. Practical application of principles of choreography in original production projects. (F, Sp)
- DANC 5713 History of World Dance 3 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and Master of Fine Arts in Dance majors only. An examination of the history, evolution, and significance of dance in regions which possess very distinct dance cultures throughout the non-European world. (Irreg.)
- DANC 5743 Dance History: Early Roots 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. A survey of the development of dance from pre-historic eras in western civilization through ancient cultures in Egypt, Greece and Rome. Investigations continue through Medieval, Renaissance and Baroque periods up to the evolution of Romantic ballet in the nineteenth century. Will have additional meeting times, research and written assignments. (F)
- DANC 5753 Dance History: Three Centuries of Development 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Development of western theatrical dancing from nineteenth-century Romanticism through the current season. Will have additional meetings, research and written assignments. (Sp)
- DANC 5813 Advanced Teaching of Dance 3 Credit Hours**
Prerequisite: Graduate standing. This course is designed to provide different voices and diverse points of view on teaching dance within higher education through reading assignments, discussions, and practical applications. (Irreg.)
- DANC 5913 Graduate Project in Dance 3 Credit Hours**
Prerequisite: permission. May be repeated with change of subject matter; maximum credit six hours. Study and practice in assuming full responsibility of a project in the area of dance. (F, Sp, Su)
- DANC 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- DANC 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

DANC 5980 Research for Master's Thesis **2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

DANC 5990 Independent Study **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

DENG-Developmental English

DENG 0113 Introduction to College Writing **3 Credit Hours**
Course prepares students, who are judged at risk by secondary assessment, for "Principles of English Composition" (ENGL 1113). Course addresses issues of focus, development, expression, sentence structure, and editing skills. This course does not count for college credit at the University of Oklahoma. (F, Sp)

DES-Design

DES 2633 Visual Communication I **3 Credit Hours**
Prerequisite: Majors only; ART 1033, ART 1043; corequisite: DES 2643. Introductory course in visual communication which focuses on nonverbal communication. Students are introduced to design research, theory and methods. This course explores the importance design plays in shaping meaning and interpretation through basic visual interaction. (F)

DES 2643 Design Technology **3 Credit Hours**
Prerequisite: majors only, ART 1033 and ART 1043; corequisite: DES 2633. Introduction to electronic tools, processes and techniques as they relate to visual communications. (F)

DES 2653 Visual Communication II **3 Credit Hours**
Prerequisite: Majors only; DES 2633, DES 2643; corequisite: DES 2663. Course is structured to help students apply various strategies, concepts, and form/content relationships to their work. Projects stress theory, application and an introduction to the computer as a design process tool. (Sp)

DES 2663 Typography I **3 Credit Hours**
Prerequisite: Majors only; DES 2633, DES 2643; corequisite: DES 2653. Introduction to the basic concepts of typographic design through studio projects, critiques and lectures. (F, Sp)

DES 2970 Special Topics **1-3 Credit Hours**
1 to 3 hours. Prerequisite: sophomore standing or permission of instructor. May be repeated; maximum credit six hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

DES 3440 Mentored Research Experience **3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

DES 3633 Visual Communication III **3 Credit Hours**
Prerequisite: Majors only; DES 2653, DES 2663; corequisite: DES 3663. Exploration and application of information systems as they apply to visual communications. (F)

DES 3643 Integrated Technology **3 Credit Hours**
Prerequisite: Majors only; DES 3633, DES 3663; corequisite: DES 3653. Emphasis will be in developing user interfaces, experiences and outcomes in design communication, moving from the printed page to electronic media. Development of strategies using new technologies into integrated systems. (Sp)

DES 3653 Visual Communication IV **3 Credit Hours**
Prerequisite: Majors only; DES 3633 and DES 3663; corequisite: DES 3643. Concentration is on design problem solving in visual communication at an intermediate level. (Sp)

DES 3663 Typography II **3 Credit Hours**
Prerequisite: Majors only; DES 2653, DES 2663; corequisite: DES 3633. Concentrated exploration of issues within typography using word and image. Projects explore visual and verbal context and meaning through expressive and utilitarian aspects of typography. (F)

DES 3960 Honors Reading **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated with change of subject matter; maximum credit six hours. Consists of either reading topics or independent study designated by the instructor in keeping with the student's major program. The topics of study will cover materials not usually presented in the regular courses. (F, Sp)

DES 3970 Honors Seminar **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program, junior or senior standing. May be repeated with change of subject matter; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)

DES 3980 Honors Research **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated with change of subject; maximum credit six hours. Provides an opportunity for the gifted honors candidate to work at a special project in the student's field. (F, Sp)

DES 4643 Visual Communication V **3 Credit Hours**
Prerequisite: Majors only; DES 3653, DES 3643; corequisite: DES 4653. Students explore contemporary and critical issues in visual communications. This course deals with the planning, design and implementation of multi-faceted design problems directed towards an understanding and integration of people and visual communication. (F)

DES 4653 Typography III **3 Credit Hours**
Prerequisite: Majors only; DES 3643, DES 3653; corequisite: DES 4643. Typographic problem solving, exploration, and experimentation. Emphasis is on the development of syntactic typographic relations in visual communication. (F)

DES 4663 Visual Communication VI **3 Credit Hours**
Prerequisite: Majors only; DES 4643 and DES 4653. An advanced course in visual communication exploring multi-component graphic design problems that convey complex information. (Sp)

DES 4673 Professional Practice **3 Credit Hours**
Prerequisite: DES 4643, DES 4653, majors only, and Senior standing; Co-requisite: DES 4663. The course focuses on concept development, methodology and creation of a professional body of graphic design work. The concentration is on portfolio development and assessment, client relationships, interviewing, contracts and pricing, budgeting, best practices, presentations, and identifying and pursuing goals and career paths. (Sp)

DES 4930 Internship 1-6 Credit Hours

1 to 6 Hours. Prerequisite: permission of instructor; majors only. May be repeated; maximum credit six hours. Students arrange and participate in a professional work experience with an approved internship site. (Irreg.)

DES 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit six hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

DES 4983 Senior Capstone Experience 3 Credit Hours

Prerequisite: senior standing; majors only. May not be repeated for credit. Primary objective is to provide a culminating experience for the senior-year student. Satisfies the University-wide General Education Requirement for a capstone course for design majors. (F, Sp) [V].

DES 4990 Independent Study 1-3 Credit Hours

Prerequisite: majors only; junior standing or permission of instructor. May be repeated: Maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent Study may include library and/or laboratory research and field projects. Title is variable only to reflect specific discipline area within the School of Art & Art History. (Irreg.)

DES 4993 Visual Communication Topics 3 Credit Hours

Prerequisite: majors only; junior standing. May be repeated with change of subject matter; maximum credit nine hours. Special topics course in visual communication for content not currently offered in regularly scheduled courses. (Irreg.)

DES 5093 Graduate Studio Visual Communication I 3 Credit Hours

Prerequisite: graduate standing in Art. Individual problems in visual communications area. (Irreg.)

DES 5970 Special Topics 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

DES 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

DMAT-Developmental Mathematics

DMAT 0113 Elementary Algebra 3 Credit Hours

Prerequisite: completion of placement test. For students who score in the lowest bracket on the placement test. A review of beginning algebra including polynomial arithmetic, solving equations, graphing, inequalities, and the quadratic equation. Not acceptable for degree credit at the University of Oklahoma. (F, Sp, Su)

DMAT 0115 Fundamental Algebra 5 Credit Hours

Prerequisite: placement test. Combines the course content of Math 0113 and 0123. A review of beginning algebra including polynomial arithmetic, solving equations, graphing, inequalities, rational expressions, exponents and radicals, imaginary and complex numbers, quadratic equations, systems of linear equations. Not acceptable for degree credit at the University of Oklahoma. (F, Sp, Su)

DMAT 0123 Intermediate Algebra 3 Credit Hours

Prerequisite: "C" or better in DMAT 0113 at OU, or satisfactory score on the placement test, or satisfactory score on the ACT/SAT. Properties of real numbers, equations and inequalities, algebra of rational expressions, exponents and radicals, introduction to quadratic equations, functions and graphs, systems of linear equations. Not acceptable for degree credit at the University of Oklahoma. (F, Sp, Su)

DRAM-Drama

DRAM 1114 Costume Construction 4 Credit Hours

The theory and practice of the construction, finishing and handling of stage costumes. Includes practical production applications. Laboratory (F, Sp, Su)

DRAM 1124 Stagecraft 4 Credit Hours

Stagecraft. The Theory And Practice Of The Construction, Painting And Handling Of Scenery And Props. Includes Practical Production Applications. Laboratory (F, Sp, Su)

DRAM 1133 Drawing and Rendering 3 Credit Hours

Exploring methods of using freehand drawing to communicate design ideas. Skill building course: form, shape, color, texture, light. Includes some mechanical drawing. (F, Sp)

DRAM 1134 Stage Lighting and Sound 4 Credit Hours

Prerequisite: Majors only. This course acquaints students with the technical procedures and equipment involved in effective lighting and sound systems for theatrical productions. Emphasis includes safe handling of equipment, understanding basics of electricity and audio, and a hands-on process of working with lighting and sound equipment. Laboratory requirement reinforces concepts taught in class. (F, Sp)

DRAM 1141 Stage Management Seminar I 1 Credit Hour

A weekly forum for sharing insights and solving problems on current production assignments, as well as examining the bigger picture of stage management and theatre in America today. (F, Sp)

DRAM 1411 Makeup 1 Credit Hour

To direct and provide experience in the effective application of makeup materials in creating an impression of character. (F, Sp)

DRAM 1503 Acting for Non-Majors 3 Credit Hours

To develop a beginning understanding and appreciation of the art and skill of acting through the study of acting principles, dramatic scenes, and basic stage techniques. (F, Sp, Su)

DRAM 1513 Introduction to Acting 3 Credit Hours

To acquaint the beginning student with the fundamentals of acting and to explore the basic elements of the actor's art. Explores the physical, vocal, emotional and technical aspects of acting in a format that encourages freedom of imagination and personal growth. (F)

DRAM 1523 Character Study for the Actor 3 Credit Hours

Prerequisite: 1513. To develop and exercise basic acting skills through practical application of the fundamental elements of the actor's art. The student will become familiar with the actor's tools and learn how to utilize them on a rudimentary level. Emphasis will be placed upon characterization and beginning script analysis required for character study. (Irreg.)

DRAM 1603 Voice And Diction for Non-Majors 3 Credit Hours

Improves the student's voice, articulation, pronunciation and expressive intonation for effective communication. (Irreg.)

- DRAM 1612 Introduction to Voice and Movement 2 Credit Hours**
Prerequisite: School of Drama freshmen performance majors. Skill-based course introduces the student to the foundations of voice and movement for the actor. (F)
- DRAM 1643 Voice and Speech I 3 Credit Hours**
Prerequisite: 1523. Improves the student's voice, articulation, pronunciation and expressive intonation for effective communication, and performing for the stage. (F)
- DRAM 1713 Understanding Theatre 3 Credit Hours**
Prerequisite: Non-theatre majors only. A course in theatre appreciation covering the nature and creation of theatre, with opportunity for the students to attend theatrical productions. (F, Sp, Su) [IV-AF].
- DRAM 1731 Dramaturgy Studio 1 1 Credit Hour**
Prerequisite: Majors only or permission of instructor. A weekly forum to discuss and explore the role of the dramaturg in production in the Helmerich School of Drama as well as industry practices in the United States. (F, Sp)
- DRAM 1811 Music Notation and Score Reading for Stage Managers and Designers 1 Credit Hour**
Prerequisite: Majors only. Introduces music notation and score reading to stage management and design students who may work on musical theatre, ballet and/or opera in their academic and professional careers. (F)
- DRAM 1911 Rehearsal and Production 1 Credit Hour**
Prerequisite: open to drama majors only. May be repeated; maximum credit four hours. Study, practice and participation in every phase of dramatic production work and management; attendance and critical discussion of plays. Kinds of service are given unit evaluations in terms of relative difficulty and time consumption. Laboratory (F, Sp, Su)
- DRAM 2013 Introduction to Theatrical Design and Production 3 Credit Hours**
Prerequisite: Majors only. Explores the processes of theatrical design in the forms of scenery, lighting, sound and costume design as well as stage management and technical direction. Also focuses on the creation of a holistic design approach uniting script analysis, research, visual imagery and storytelling into one single artistic form of communication. (F, Sp)
- DRAM 2052 Traditional Media 2 Credit Hours**
Prerequisite: DRAM 1133; majors only. Exploration and building of illustrative skills with the traditional art mediums used by theatrical designers. (Sp)
- DRAM 2053 Computer Aided Design I for the Theatre 3 Credit Hours**
Prerequisite: DRAM 2153 or DRAM 3353. The course will teach students to develop basic design and rendering skills using computer-aided design software currently used in the entertainment industry. (Sp)
- DRAM 2062 Digital Media 2 Credit Hours**
Prerequisite: DRAM 1133; majors only. A course in basic visual design principles, concepts, and techniques of computer-aided design and rendering for the theatre. (F)
- DRAM 2141 Stage Management Seminar II 1 Credit Hour**
Prerequisite: 1141 or permission of instructor. A weekly forum for sharing insights and solving problems on current production assignment, as well as examining the bigger picture of stage management and theatre in America today. (F, Sp)
- DRAM 2153 Scene Design 3 Credit Hours**
Prerequisite: 1124 and 1133. Acquaints the student with the practical and aesthetic principles involved, and provides experience in designing scenery. (F)
- DRAM 2223 Lighting Design 3 Credit Hours**
Prerequisite: DRAM 1134, majors only. Acquaints the student with advanced design, presentation, visual awareness and "styles" in lighting design. Includes practical production applications. (F)
- DRAM 2233 Introduction to Technical Production 3 Credit Hours**
Prerequisite: 1114, 1124, and major in drama. Survey of technical production skills in scene technology and costume technology including communications. Shop management and safety. (F)
- DRAM 2243 Draping And Pattern Drafting I 3 Credit Hours**
Prerequisite: permission of instructor, and sophomore standing. Topics and experiences related to draping skills and pattern drafting for the theatre. Demonstrations and hands-on experience using techniques discussed. Laboratory (F)
- DRAM 2253 Draping and Pattern Drafting II 3 Credit Hours**
Prerequisite: 2243. Continuation of 2243. Topics and experiences related to draping skills and pattern drafting for the theatre. Demonstrations and hands-on experience using techniques discussed. Laboratory (Sp)
- DRAM 2323 Stage Movement 3 Credit Hours**
Prerequisite: 1523. To give the drama student an understanding of the use of the body as an expressive instrument through development of flexibility, strength and coordination. (F)
- DRAM 2333 Advanced Stage Movement 3 Credit Hours**
Prerequisite: 2323 and sophomore standing. Focuses on physicality as a fundamental element of the actor's craft through manipulation of movement to explore emotional truth, create a character or convey the reality of a particular theatrical world to an audience. (Sp)
- DRAM 2343 History of Costume 3 Credit Hours**
Prerequisite: permission. Acquaints the student with the costumes worn by people of dramatically significant periods and countries. (Sp)
- DRAM 2413 Sound Techniques 3 Credit Hours**
Prerequisite: Majors only. A course in the fundamentals of theatrical sound and sound technology. (F)
- DRAM 2423 Drafting for the Theatre 3 Credit Hours**
Prerequisite: DRAM 1133; majors only. Increases the student's skill in the technical craft of drafting as a major communication device of scenery and lighting designers. Course will use international drafting conventions and U.S.I.T.T. standards. (Irreg.)
- DRAM 2451 Lighting Seminar I 1 Credit Hour**
Prerequisite: May be repeated; maximum 2 credit hours; Majors only, sophomore standing or permission. This course will provide opportunity for students to work on their design or production electrician duties in a mentoring environment. Class will also discuss contemporary trends and issues in the theatrical lighting design industry. (F, Sp)
- DRAM 2503 On-Camera Acting for Non-Majors 3 Credit Hours**
Instructs the student on requirements, discipline and basic techniques of performing on camera, with an appreciation of the full process of creating a film or television production. Non-majors course. (F)
- DRAM 2513 Scene Study for the Actor 3 Credit Hours**
Prerequisite: DRAM 1523; Corequisite: DRAM 1643; majors only. Designed to develop the actor's skill through the intensive study and performance of scenes from modern realistic world theatre. Emphasis will be placed upon building a character, milieu study, and scene structure. (F)
- DRAM 2523 Performing Shakespeare 3 Credit Hours**
Prerequisite: 2513 and permission. Designed to develop the actor's skill through the intensive study and performance of scenes and monologues from Shakespeare and other verse drama. Emphasis will be placed upon handling language with believable and appropriate characterization. (Sp)

- DRAM 2643 Voice and Speech II 3 Credit Hours**
Prerequisite: 1643; corequisite: 2523. Develops the actor's vocal instrument as an integrated and organic function of self and character. Focus on the expressive voice with verse texts. (Sp)
- DRAM 2713 Introduction to Fine Arts 3 Credit Hours**
Lectures, illustrated with slides, motion pictures, recordings and readings, surveying the development of the fine arts (architecture, drama, the visual arts and music) from prehistoric times to the present. Background material will include the religious, political and economic conditions and changes affecting the arts. (F) [IV-AF].
- DRAM 2731 Dramaturgy Studio 2 1 Credit Hour**
Prerequisite: DRAM 1731, Majors only or permission of instructor. A weekly forum to discuss and explore the role of the dramaturg in production in the Helmerich School of Drama as well as industry practices in the United States. (F, Sp)
- DRAM 2733 Introduction to Dramaturgy 3 Credit Hours**
Prerequisite: DRAM 1513 and ENGL 1213/EXPO 1213; majors only; sophomore standing. Introduces students to basic techniques of dramaturgy: research, text analysis, and collaboration for theatrical production. (F, Sp)
- DRAM 2813 Stage Management 3 Credit Hours**
Prerequisite: sophomore standing. Designed to give theatre students the background and skills to function as a stage manager for theatre, dance, or musical productions. An introductory course covering the basics of the stage manager's process from pre-production through closing as well as discussing professional topics such as theatrical unions, production management, and job opportunities. (F)
- DRAM 2821 Design Drafting for Stage Managers 1 Credit Hour**
Prerequisite: Majors only. Acquaints the stage management student to principles related to theatrical drafting, including terminology, fundamentals, and graphic standards. (F)
- DRAM 2970 Special Topics 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- DRAM 3043 Computer Aided Design I for the Theatre 3 Credit Hours**
Prerequisite: Majors only and DRAM 2062. The course will teach students to develop design and rendering skills using computer-aided design software currently used in the entertainment industry. (Sp)
- DRAM 3052 Illustration I: Dry Media 2 Credit Hours**
Prerequisite: 1133 and sophomore standing. Studio class intended to facilitate illustration depicting theatre scenery and costume design through the use of colored pencil and pastel media. Focus on the human form clothed for theatre performance and on scenic rendering and/or vignettes. Exercises will stress the effect of light on the objects and the creation of fullness/plasticity. (F)
- DRAM 3053 Computer Aided Design II for the Theatre 3 Credit Hours**
Prerequisite: Majors only and DRAM 3043. Covers the creation and manipulation of 3D objects, and developing those objects as design tools for presentation and visualization of a theatre design. Students will develop skills utilizing 3D visualization software currently used in the entertainment industry. (F)
- DRAM 3063 Projection Design 3 Credit Hours**
Prerequisite: Course is not open to freshman; majors only; DRAM 2153, DRAM 2223, and DRAM 3043. This course explores the art and technique of projection design as it relates to theatrical performance and entertainment use. (Sp)
- DRAM 3141 Stage Management Seminar III 1 Credit Hour**
Prerequisite: 1141, 2141 or permission of instructor. A weekly forum for sharing insights and solving problems on current production assignments, as well as examining the bigger picture of stage management and theatre in America. (F,Sp)
- DRAM 3223 Costume Construction Techniques 3 Credit Hours**
Prerequisite: DRAM 2243, junior standing, majors only. Advanced work in the mechanics and technology of costume builder's draft including practical work in the costume shop. (F)
- DRAM 3323 Stage Movement: Theatrical Intimacy 3 Credit Hours**
Prerequisite: DRAM 2323, junior standing, and departmental permission. Introduces students to the basic principles of acting and staging moments of theatrical intimacy. Course focuses on safety, documentation, and storytelling through theatrical intimacy standards. (Irreg.)
- DRAM 3353 Costume Design 3 Credit Hours**
Prerequisite: 1114. Acquaints students with elementary costume design and construction, historical styles, character evaluation and design sources. (F)
- DRAM 3413 Sound Design 3 Credit Hours**
Prerequisite: junior standing and permission of instructor. Provides theatre students with the basic skills and concepts for designing sound as support for a theatrical production. This is a design course providing the necessary skills in script analysis, research, style, sound resources, and sound scoring. (Irreg.)
- DRAM 3433 Advanced Materials for Stage Scenery and Properties 3 Credit Hours**
Prerequisite: 2233 junior standing and permission of instructor. Application of metals, plastics and non-traditional materials in scenic and properties construction. Emphasis on safety and efficacy. (Sp)
- DRAM 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- DRAM 3443 Digital Audio Techniques 3 Credit Hours**
Prerequisite: Majors only; DRAM 2413 and DRAM 3413. This course will provide sound design students with an extended understanding of digital audio. Emphasis is placed on editing and manipulating digital audio, understanding digital audio workstations, and adapting digital audio techniques to digital mixers and other digital audio equipment. (F)
- DRAM 3451 Lighting Seminar II 1 Credit Hour**
Prerequisite: May be repeated; Maximum 2 credit hours; DRAM 2223, DRAM 2451, majors only, and junior standing or permission of instructor. This course builds on skills learned in DRAM 2223 and DRAM 2451 through practical application as a Lighting Designer or Production Electrician. Students will continue to develop skills used in the industry, and class will include focused discussions about contemporary trends and issues in theatrical lighting design and production. (F, Sp)
- DRAM 3513 Performing Departures from Realism 3 Credit Hours**
Prerequisite: 2523 and juried audition. Acquaints students with performance theory and practice for non-realistic plays and forms, exploring the material through exercises, improvisations and performances of scripted scenes. (F)

- DRAM 3523 Performing New Plays** **3 Credit Hours**
Prerequisite: 2523 and juried audition. Provides practical experiences for the actor in working with playwrights on new, unpublished plays through performances in scenes, staged readings and through text readings in American acting traditions. (Irreg.)
- DRAM 3533 Advanced Shakespeare Performance** **3 Credit Hours**
Prerequisites: majors only; junior status; DRAM 2523 and DRAM 2643. Students must have passed their sophomore jury prior to enrolling in this course. Designed to help the student further their skills in rehearsing and performing Shakespeare and other classical texts. Provides advanced training in verse scansion and form, and increases students' knowledge of lesser-known Shakespearean and other Elizabethan texts. (Sp)
- DRAM 3543 Audition Techniques** **3 Credit Hours**
Prerequisite: Majors only, junior standing, DRAM 2523, and juried audition. This course is designed to help advanced undergraduate actors learn, hone, and drill audition techniques for theatrical, film/TV, and commercial auditions at the professional level. (F)
- DRAM 3613 Directing I** **3 Credit Hours**
Prerequisite: DRAM 2733; majors only. Consists of lectures, demonstrations and exercises performed by members of the class. Includes, but is not limited to: stage management, dramatic and theatrical values of a play, play analysis and various techniques of directing. Laboratory (F)
- DRAM 3623 Directing II** **3 Credit Hours**
Prerequisite: 3613. An intensive study for majors only of the craft and techniques involved in the directing of plays. Special emphasis is placed on script analysis; communication with actors; and practical laboratory work in employing these methods. Scenes from major dramatic works are rehearsed and prepared in class with extensive critique and "in-shop training." Laboratory (Irreg.)
- DRAM 3643 Voice And Speech III** **3 Credit Hours**
Prerequisite: 2643, junior standing. Develops the actor's vocal instrument as an integrated function of self and character. Work on dialects. (F)
- DRAM 3713 History of the Theatre I** **3 Credit Hours**
Prerequisite: junior standing and permission. Acquaints the student with the development of drama, theatre and production procedures through the ages from 500 B.C. to 1780. (F) [IV-WC].
- DRAM 3723 History of the Theatre II** **3 Credit Hours**
Prerequisite: junior standing and permission. Continuation of 3713. Acquaints the student with the development of drama, theatre and production procedures through the ages from 1700 to the present. (Sp) [IV-WC].
- DRAM 3731 Dramaturgy Studio 3** **1 Credit Hour**
Prerequisite: DRAM 2731, DRAM 2733 or permission of instructor. A weekly forum to discuss and explore the role of the dramaturg in the Helmerich School of Drama as well as industry practices in the United States. (F, Sp)
- DRAM 3753 Dramatic Structures: Story, Genre, Culture, Theory** **3 Credit Hours**
Prerequisite: Majors only and DRAM 2733. What shapes do stories take in theater? This course surveys select dramaturgical structures and theories of dramatic composition across performance histories and cultures. In particular, the course focuses on the relationship between dramatic shapes and how these forms continue to exert their influence today. (Irreg.)
- DRAM 3781 Topics in Dramatic Literature** **1 Credit Hour**
Prerequisite: DRAM 2733 and ENGL 1213 or EXPO 1213; Majors only. May be repeated; maximum credit 4 hours. Specialized study in selected topics in dramatic literature. (Irreg.)
- DRAM 3822 Stage Management Studio I** **2 Credit Hours**
Prerequisite: 2813 and junior standing. May be repeated; maximum credit four hours. Practical experience in stage management on university theatre productions. Laboratory (F, Sp)
- DRAM 3833 Advanced Stage Management** **3 Credit Hours**
Prerequisite: 2813 and major in Drama. Advanced studies of stage management. Topics covered include leadership, team-building, organization, communication, interpersonal relations, problem solving and creating a positive work environment. (Sp)
- DRAM 3910 Advanced Rehearsal and Production** **1-2 Credit Hours**
1 to 2 hours. Prerequisite: DRAM 1114, DRAM 1124, and DRAM 1134; majors only. May be repeated; maximum credit four hours. Study and practice in an administrative or supervisory capacity of every phase of dramatic production work and management; attendance and critical discussion of plays. Kinds of service are given unit evaluation in terms of relative difficulty and time consumption. Laboratory (Irreg.)
- DRAM 3960 Honors Reading** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to honors program. May be repeated with change of subject; maximum credit six hours. Consists of either reading topics or independent study designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)
- DRAM 3970 Honors Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- DRAM 3980 Honors Research** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated with change of subject; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- DRAM 3990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- DRAM 4023 Model Building** **3 Credit Hours**
Prerequisite: DRAM 1133; majors only. Acquaints students with the process of building the scenographic model as it relates to the design process. Lecture and Laboratory (Sp)
- DRAM 4073 Developing the Professional Perspective** **3 Credit Hours**
Prerequisite: senior standing. Meant to give the artist the life tools to participate and thrive in an artistic lifestyle. (F)
- DRAM G4113 Scene Painting** **3 Credit Hours**
Prerequisite: 1114, 1124, 1133. The study and practice of traditional and new scene painting materials and techniques. Individual scene painting problems in the uses of dry pigments, casein, aniline dyes and texture materials. Laboratory (Sp)
- DRAM 4141 Stage Management Seminar IV** **1 Credit Hour**
Prerequisite: 1141, 2141, 3141 or permission of instructor. A weekly forum for sharing problems on current production assignments, as well as examining the bigger picture of stage management and theatre in America today. (F, Sp)

- DRAM 4153 Advanced Scene Design 3 Credit Hours**
Prerequisite: DRAM 3053; majors only. An advanced study in scenic design for a variety of theatrical forms, including multiple scene, unit and single settings for dance, drama, musical theatre and opera. (Irreg.)
- DRAM 4163 Lighting Design II 3 Credit Hours**
Prerequisite: DRAM 2223, majors only, and sophomore standing or permission. This course explores specific design techniques and styles in lighting for drama and dance. Students will investigate the differences of each genre as well as become familiar with contemporary and traditional styles found in both. (Sp)
- DRAM 4173 Concert Lighting 3 Credit Hours**
Prerequisite: Majors only; DRAM 2223 and DRAM 3053. This course explores the foundations of musical concert lighting, exploring the history of the art and the techniques used to create it. Students will develop skills in adapting techniques of modern lighting design to musical concert performance. (Sp)
- DRAM 4213 Lighting Design III 3 Credit Hours**
Prerequisite: DRAM 4163, majors only, and junior standing or permission. This course explores specific design techniques and styles in lighting for opera and musical theatre. Students will investigate the differences of each genre as well as become familiar with contemporary and traditional styles found in both. (F)
- DRAM 4233 Costume Crafts for Theatre 3 Credit Hours**
Prerequisite: DRAM 2243, DRAM 2253; junior standing; majors only. Study of and work with special techniques that employ dying and painting of fabrics and other materials used in costume construction; millinery (construction of headgear). Wig-making and the construction of three-dimensional costume elements such as padding to alter the actor's physical appearance. (Sp)
- DRAM G4243 Costume Shop Management 3 Credit Hours**
Prerequisite: 2233, senior standing and permission of instructor. Instruction and experience in shop management including budgeting of resources, time management, personnel, and organization. (Sp)
- DRAM G4253 History of Decor 3 Credit Hours**
Prerequisite: majors only, junior standing and permission of instructor. Survey of interior and exterior decoration with particular emphasis on theatrical application. (F)
- DRAM 4263 Properties and Set Dressing for Theatre, T.V. and Film 3 Credit Hours**
Prerequisite: DRAM 2233, junior standing. The course will provide a foundation of the skills associated with the role of the Properties Master for Theatre, T.V. and Film. Students will explore topics on materials, fabrication, period styles, project management, and shop supervision. (Sp)
- DRAM 4272 Lighting Production 2 Credit Hours**
Prerequisite: DRAM 1134, and DRAM 2223; majors only. The investigation of various lighting crafts including special effects, three-phase power, and lighting console programming. An in-depth study of the role of the master electrician's duties as they are understood in the industry including: power distribution, hang, load-in, and focus sessions. (Irreg.)
- DRAM G4323 Stage Combat I: Unarmed Stage Combat 3 Credit Hours**
Prerequisite: 2323 and senior standing. Introduces students to the basic principles of unarmed stage combat. Course focuses on safety, emotional commitment and developing proficiency in techniques required for certification by society of American fight directors. (Sp)
- DRAM G4333 Stage Combat: Edged Weaponry 3 Credit Hours**
Prerequisite: 2323 and senior standing. Introduces students to the basic principles of armed stage combat using edged weaponry. Course focuses on safety, emotional commitment and developing proficiency in techniques required for certification by society of American fight directors. (Sp.)
- DRAM G4353 Costume Design II 3 Credit Hours**
Prerequisite: DRAM 2343, DRAM 3353; majors only. Promotes an understanding of style as a design consideration and encourages an awareness of the relationships between theatrical styles and historical styles. (Irreg.)
- DRAM 4363 Costume Design III 3 Credit Hours**
Prerequisite: DRAM 2343, DRAM 3353, DRAM 4353; majors only. To further develop costume design students presentation and illustration skills. Also, allows the student to explore every facet of the design process. (Irreg.)
- DRAM 4413 Advanced Sound Design 3 Credit Hours**
Prerequisite: DRAM 3413. The course builds upon the skills developed in DRAM 3413 to hone critical design practices in the art of Sound Design for the theatre. (F)
- DRAM 4423 Sound Scoring 3 Credit Hours**
Prerequisite: DRAM 1811 and DRAM 3413; majors only. Develops music research and compositional skills necessary to provide music sufficient to support the artistic goals of a theatrical production. (Sp)
- DRAM 4451 Lighting Seminar III 1 Credit Hour**
Prerequisite: May be repeated; maximum 2 credit hours; DRAM 3451, majors only, senior standing or permission. This course builds on skills learned in DRAM 3451 through practical application as a Lighting Designer or Production Electrician. Students will further develop skills used in the industry, and class will include focused discussions about contemporary trends and issues in theatrical lighting design and production (F, Sp)
- DRAM 4513 Professional Preparation 3 Credit Hours**
Prerequisite: Majors only, junior standing, and DRAM 3543. Teaches the skills necessary for the performer to enter the profession; preparation of photos and resumes, training for interviews, preparation for advanced training programs, and an introduction to issues unique to the business. (Sp)
- DRAM G4523 Acting for the Camera 3 Credit Hours**
Prerequisite: 2523 and jury auditions. Designed to instruct the student in the requirements, discipline, and basic techniques of working on camera as a professional actor, with an appreciation of the full process of creating a film or television program. All work by the student will be videotaped then subsequently replayed with a critique by the instructor. (Sp)
- DRAM 4533 Master Teachers of Acting 3 Credit Hours**
Prerequisite: DRAM 2523 and permission of instructor; majors only. A juried audition is required for permission. This is a team-taught course intended for upper-division acting students. The course provides 2-3 weeks each of extensive study of the techniques and methods of six legendary American acting teachers of the Stanislavski method. (Irreg.)
- DRAM 4553 Acting for the Camera II 3 Credit Hours**
Prerequisite: Majors only and DRAM 4523. Designed to continue instructing the student in the requirements, discipline, strategies, business tools, and techniques of working on camera as a professional actor, building on principles established in DRAM 4523. (Sp)

- DRAM 4563 Showcase 3 Credit Hours**
Prerequisite: Majors only, senior standing, and DRAM 4523. This course is designed to create a flexible structure within which seniors will accomplish Senior Showcase preparation and acquire professional skills, materials, and strategies necessary for the successful navigation of the Senior Showcase process and their careers in the professional industry. (F)
- DRAM 4643 Advanced Voice Extended Usage 3 Credit Hours**
Prerequisite: juried auditions. Develop the voice for extended usage in combat, laughing, crying, shouting, screaming, topping extraneous noise, and projecting in large or outdoor venues. The foundations of breath, resonance, and the free and open vocal track will be reviewed. Anatomy and care of the voice will be stressed. Theories of voice training will be explored. Practice skills with monologues and short scenes. (Sp)
- DRAM 4731 Dramaturgy Studio 4 1 Credit Hour**
Prerequisite: Majors only, DRAM 1731, DRAM 2731, and DRAM 3731; may be repeated; maximum credit two hours. A weekly forum to discuss and explore the role of the dramaturg in production in the Helmerich School of Drama as well as industry practices in the United States. (F, Sp)
- DRAM 4733 Dramaturgy Seminar 3 Credit Hours**
Prerequisite: DRAM 2733 or departmental permission. Designed to train students to do dramaturgy and literary management as they are currently practiced in American theatre. Develops students' skills in theatre research, writing and script analysis which may be applied to the functions of a dramaturg or other artist in the field. (Irreg.)
- DRAM 4743 US Latinx Theater & Politics: 1950s to Today 3 Credit Hours**
Prerequisite: Majors only and DRAM 2733 or permission of instructor. This class looks at US-based Latinx theater and performance from the mid-twentieth century to today. In its discussions of artists, productions, aesthetics, themes, and companies, the class notes important contributions from theorists in Latinx studies; students will also consider the sociopolitical contexts that surround and shape Latinx theater and performance. (Irreg.)
- DRAM 4752 Season, Sequence, Script: The Art of Critical Selection 2 Credit Hours**
Prerequisite: Majors only and DRAM 2733. In this course, students will interact with the season selection process at the School of Drama and develop a roundtable appreciation for literary management, artistic leadership, project curation, and institutional outreach. Students will meet with artistic leaders, produce play reports, and pitch a final project of their own. (Irreg.)
- DRAM G4773 Playwriting I 3 Credit Hours**
Prerequisite: DRAM 2733 and permission of instructor. Study and practice in playwriting. Acquaints the student with dramatic structure and technical limitations placed upon material written for dramatic production and provides experience in writing for the stage. (F, Sp)
- DRAM G4783 Playwriting II 3 Credit Hours**
Prerequisite: permission. Study and practice in playwriting. Acquaints the student with dramatic structure and technical limitations placed upon material written for dramatic production and provides experience in writing for the stage. (F, Sp)
- DRAM 4803 Capstone Experience 3 Credit Hours**
Prerequisite: permission of instructor. Advanced, individual project which demonstrates mastery of skills and knowledge in student's area of interest, selected under advisement and guided by appropriate faculty member(s). Take in the senior year, capstone requires written document, either explanatory or evaluative, of the entire capstone project in appropriate research paper format. (F, Sp, Su) [V] .
- DRAM 4810 Performance Practicum 1-2 Credit Hours**
1 to 2 hours. Prerequisite: Departmental permission. May be repeated; maximum credit 8 hours. Study and practice in process and performance as a cast member, dramaturg, or designer of OU theatre productions. (F, Sp)
- DRAM 4822 Stage Management Studio II 2 Credit Hours**
Prerequisite: 3822 and senior standing. May be repeated; maximum credit four hours. Practical experience in stage management on university theatre productions. Laboratory (F, Sp)
- DRAM G4853 Theatre Management 3 Credit Hours**
Prerequisite: Junior standing and departmental permission. A study of the fundamental operations of commercial, professional non-profit, stock, dinner, and university theatre in the United States. (F)
- DRAM 4900 Professional Semester 3-12 Credit Hours**
3 to 12 hours. Prerequisite: junior or senior standing. Internship with a non-academic theatre (or theatre-related) organization which will augment the students academic experiences. (F, Sp, Su)
- DRAM 4940 Special Topics in Theatre 2-6 Credit Hours**
2 to 6 hours. Prerequisite: May be repeated with change of content; maximum credit 12 hours; Majors only; junior standing or permission of instructor. Varying topics in the study and practice of theatre and drama not covered in regularly scheduled courses or new developments within the area of expertise. (Irreg.)
- DRAM 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- DRAM 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- DRAM 4990 Special Studies 2-6 Credit Hours**
2 to 6 hours. Prerequisite: permission. May be repeated with change of subject matter; maximum credit 12 hours. A special creative or research project course on an advanced level in any phase of the theatre or drama adapted to the individual student. (F, Sp, Su)
- DRAM 5940 Special Topics in Theatre Drama 2-6 Credit Hours**
Prerequisite: graduate standing or permission of instructor. For majors only. May be repeated with change of content; maximum credit nine hours. Varying topics in the study and practice of theatre and drama not covered in regularly scheduled courses or new developments within the area of expertise. (Irreg.)
- DRAM 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

DRAM 5970 Graduate Seminar 1-4 Credit Hours

1 to 4 hours. Prerequisite: 12 hours of drama and graduate standing or permission. May be repeated with change of subject matter; maximum credit 12 hours. (F, Sp, Su)

DRAM 5980 Research for Master's Thesis 2-9 Credit Hours

Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

DRAM 5990 Special Studies for Graduate Students 2-6 Credit Hours

2 to 6 hours. Prerequisite: permission. May be repeated with change of subject matter; maximum credit each time six hours. (F, Sp, Su)

DRDG-Developmental Reading

DRDG 0112 Reading Improvement 2 Credit Hours

Designed to improve the ability of individual students to read and comprehend college-level material. Each student is tested to permit instruction to begin at the appropriate levels. Not acceptable for credit at the University of Oklahoma. (F, Sp, Su)

DRDG 0122 College Reading Strategies 2 Credit Hours

A continuation of DRDG 0112. The course focuses on the development of reading strategies for college textbooks. Strategies include comprehension monitoring and how to construct a coherent interpretation of a passage. Not acceptable for credit at the University of Oklahoma. (F, Sp, Su)

DSA-Data Science and Analytics

DSA 3013 Machine Learning for Data Science 3 Credit Hours

Prerequisite: CS 1213 or CS 1313 or CS 1321 or CS 1323 or CS 1324, and departmental permission. Machine Learning for Data Science provides a broad overview of widely accepted and state-of-the-art machine learning approaches to automatically extract information from a variety of data types. This course will include conceptual background on data, methods, and application approaches; coverage of issues of data security, privacy, and ethics related to machine learning; and practical, hands-on exercises. (Irreg.)

DSA 3023 Big Data Engineering 3 Credit Hours

Prerequisite: DSA 3013, and CS 1213 or CS 1313 or CS 1321 or CS 1323 or CS 1324, and departmental permission. Students in this course will develop basic ability to design, build, and implement data pipeline systems to allow efficient access to data and databases. Several topics will be covered including data wrangling, data ingestion, and storage engines. Cloud based systems for data processing and distributed computing will also be discussed. (Irreg.)

DSA 4003 Applied Data Science 3 Credit Hours

Prerequisite: DSA 3013 and DSA 3023, and CS 1213 or CS 1313 or CS 1321 or CS 1323 or CS 1324; and departmental permission. In this course you will complete multiple larger-scale team projects on real-world complex data sets. The projects will allow you to develop and continue to refine your skills in problem identification, data visualization, data wrangling, data organization, machine learning, communication, and presentation. (Irreg.)

DSA G4413 Algorithm Analysis 3 Credit Hours

(Crosslisted with C S 4413) Prerequisites: C S 2413 and C S 2813; or MATH 2513; or DSA 5005; and departmental permission. Design and analysis of algorithms and measurement of their complexity. This course introduces various algorithm design strategies--divide and conquer, greedy principle and dynamic programming--to solve a variety of problems using algorithms of various types: deterministic and randomized, serial and parallel, centralized and decentralized, and program based and circuit based. (F)

DSA G4513 Database Management Systems 3 Credit Hours

(Crosslisted with C S 4513) Prerequisites: C S 2413 and C S 2813; or MATH 2513; or DSA 5005; and departmental permission. The design and implementation of a DBMS including data models, query languages, entity-relationship diagrams, functional dependencies, normalization, storage structures, access methods, query processing, security and transaction management, and applications. The impact of databases on individuals, organizations, and society, and legal and professional responsibilities including security and privacy will be discussed. A commercial DBMS is used. Students practice written communication skills. (F)

DSA 5001 Data Analytics and Media 1 Credit Hour

Prerequisites: Departmental permission; graduate standing. This course covers the application of data analytics to the media environment. Students will learn the application and usage of data analytics in media and its effectiveness; and how data analytics provides research tools to collect audiences' opinion on political, social, public issues, and consumers' responses to the brand. (Irreg)

DSA 5005 Computing Structures 5 Credit Hours

(Crosslisted with C S 5005) Prerequisite: CS 2334, MATH 1914 or MATH 1823 or with permission of graduate liaison. This course has three parts: discrete mathematics, object-oriented programming in C++, and data structures in C++. As part of the discrete mathematics students will be introduced to combinatorics, logic, relations, functions, computational complexity, automata, and graph theory. Students will be introduced to the fundamentals of object-oriented programming and learn to design, build, and analyze data structures using object-oriented principles and techniques. Credit hours earned for this course cannot be used to fulfill degree requirements for the B.S., M.S. or Ph.D. programs in computer science. (Irreg.)

DSA 5011 Introduction to R 1 Credit Hour

Prerequisites: departmental permission; graduate standing. R is a free open source statistical programming language used by professionals in every field and industry. This introductory course aims to provide students with the fundamentals of R and R Studio. Instead of passively watching videos, students will apply R to solve real data problems while receiving instant and personalized feedback that guides them to the correct solution. (Irreg.)

DSA 5013 Fundamentals of Engineering Statistical Analysis 3 Credit Hours

(Crosslisted with ISE 5013) Prerequisite: graduate standing. Introduction to probability, expectation, discrete and continuous distributions, sampling and descriptive statistics, parameter estimation, and statistical tests to aid decision making. The student will learn analysis techniques for verification of systems parameters. (F, Sp)

DSA 5021 Data Analytics Applied to Meteorology Data 1 Credit Hour

Prerequisites: departmental permission; graduate standing. This course focuses on meteorology data that is stored regularly in space and time, so-called gridded data. For example, satellite or forecast data that is stored in a specific latitude-longitude grid, and available at uniform increments in time. Analysis of gridded data is abetted by programming in Python, offering an array syntax that exploits the uniformity of data. (Irreg.)

DSA 5031 Econometrics for DSA 1 Credit Hour

Prerequisite: Graduate standing and departmental permission. The main goal of this course is to learn a set of econometrics tools that can be applied in empirical research related to economic issues. The course will emphasize applying different estimation techniques, or quasi-experimental methods, to establish causal relationships in observational data. (Irreg.)

DSA 5041 Advanced R 1 Credit Hour

Prerequisite: Graduate standing in DSA/C S/ISE and DSA 5011, or departmental permission. R is a free open source statistical programming language used by professionals in every field and industry. This course will provide students with detailed knowledge of R and R Studio. Instead of passively watching videos, students will apply R to solve real data problems while receiving instant and personalized feedback that guides them. (Irreg.)

DSA 5051 Data Visualization 1 Credit Hour

Prerequisite: Graduate standing in DSA/C S/ISE and departmental permission; DSA 5103 and DSA 4513 recommended. Aspiring data scientists need to be able to communicate the stories of data to communities of interest. This usually requires the depiction of data in visualizations. The course combines an overview of best practices for visualizations with practical knowledge, including the use of Tableau and how to gather user requirements. (Irreg.)

DSA 5061 Python for Data Science and Analytics 1 Credit Hour

Prerequisite: Graduate standing, C S 1313 or C S 1323, and departmental permission. This course introduces core programming basics, including data types, control structures, and algorithm development with functions via the Python programming language for students without prior programming experience. The course discusses the fundamental principles of Object-Oriented Programming and their application in data science and analytics. (Irreg.)

DSA 5103 Intelligent Data Analytics 3 Credit Hours

(Crosslisted with ISE 5103) Prerequisite: graduate standing or permission of instructor; ISE 3293 or ISE 5013; CS 1313 or CS 1323. In our society, data is rapidly increasing in volume, velocity, and variety. At the same time computing power and the sophistication of data analysis techniques are increasing. However, even with the expanding capabilities, businesses and organizations often find themselves "data rich, but information poor." Intelligent Data Analysis is a holistic approach to addressing real-world data intensive problems that integrates human intuition with data analysis tools to best draw out meaningful insights. To this end, the course has four underlying themes: defining the Problem, understanding and coping with Data, selecting and using appropriate Analytical Tools, and discovering and communicating the Insight. Techniques covered include data cleansing and pre-processing, exploratory analysis and visualization, dimension reduction, linear and logistic regression, decision trees, and clustering. This course will introduce students to a powerful open source statistical programming language (R) and include extensive hands-on data analysis and team projects. (F)

DSA 5113 Advanced Analytics and Metaheuristics 3 Credit Hours

(Crosslisted with ISE 5113) Prerequisite: ISE 5013, graduate standing or permission of Instructor. Explores advanced techniques for addressing complex optimization problems. Focus is on formulating mathematical models and developing problem solving strategies using methods in the context of Data Science and Analytics. Topics include continuous and combinatorial optimization with an emphasis on both traditional and modern heuristic techniques. (Sp)

DSA 5133 Energy Analytics 3 Credit Hours

(Crosslisted with ISE 5133) Prerequisite: Graduate standing or permission of instructor. In today's data-driven world, the ability to extract knowledge and create successful future energy projections is critical for the energy sectors. In this regard, data science body of knowledge promises a strong set of analytical tools that can be used for demand/supply forecasting and price prediction. This course aims at teaching the students the fundamentals of data analysis and interpretation. (F)

DSA 5203 Time Series Analysis 3 Credit Hours

Prerequisite: DSA/ISE/C S graduate standing or Departmental permission. This course will cover data mining and time series analysis. Modules include: statistical estimation, transformations and decomposition of time series, quantifying correlation structure in standard models, forecasting methods, linear least squares method, and volatility models. Students will utilize MATLAB Time Series Tool Box and open source programs in R. (Irreg.)

DSA 5303 Financial Engineering Analytics 3 Credit Hours

Prerequisite: departmental permission or DSA/ISE/C S graduate standing. Course focuses on use of optimization and stochastic models to solve portfolio optimization problems; price derivative securities including energy and weather derivatives; and applications of financial engineering, including algorithmic trading, financial networks, pricing of real options, and the use of machine learning in pricing. Data driven models and big data mining in financial engineering will be also discussed. (Irreg.)

DSA 5403 Bayesian Statistics 3 Credit Hours

Prerequisite: Departmental permission or DSA graduate standing. Course topics are models, probability, Bayes' Rule and R; inference to a binomial probability; and the generalized linear model. (Irreg.)

DSA 5503 Healthcare Analytics 3 Credit Hours

(Crosslisted with ISE 5503) Prerequisite: Graduate standing and ISE 3293 or ISE/DSA 5013. This course gives an overview of the primary concepts and methods towards developing artificial intelligence (AI)-enabled healthcare systems. We will focus on foundational methods in machine learning and data analytics for prediction and pattern recognition, and apply them to specific areas in medicine and healthcare including, but not limited to, disease diagnosis, patient treatments and their outcomes prediction. (Sp)

DSA 5703 Machine Learning Practice 3 Credit Hours

(Crosslisted with C S 5703) Prerequisite: Graduate standing; C S 4013/5013, C S 5593, or ISE/DSA 5103; or permission of instructor. Machine learning is the data-driven process of constructing mathematical models that can be predictive of data observed in the future. In this course, we will study the use of a range of supervised, semi-supervised and unsupervised methods to solve both classification and regression problems. (F)

DSA 5900 Professional Practice 1-4 Credit Hours

1 to 4 hours. Prerequisite: Completed or concurrent enrollment in DSA 5103, DSA 5113, DSA 4413, and DSA 4513. Graduate standing and departmental permission. May be repeated; maximum credit four hours. Participation in a professional experience with an approved project sponsor and topic. A written report detailing the responsibilities and results of the experience is required upon completion along with an oral presentation. (F, Sp, Su)

DSA 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor. May be repeated with a change of subject matter; maximum credit 12 hours. Selected topics of current research interest not covered by regularly scheduled coursework. (F, Sp, Su) (Irreg.)

DSA 5980 Research for Master's Thesis 2-9 Credit Hours

2 to 9 hours. Prerequisite: Graduate standing and departmental permission. Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

DSA 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

DSA 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

EACS-Educational Administration Curriculum & Supervision

EACS 2960 Individual Study 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)

EACS 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

EACS 3960 Honors Reading 1-3 Credit Hours

Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)

EACS 3970 Honors Seminar 1-3 Credit Hours

Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)

EACS 3980 Honors Research 1-3 Credit Hours

Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)

EACS 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

EACS 4960 Directed Readings In Education 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

EACS 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

EACS 4980 Practicum in Education 1-3 Credit Hours

1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)

EACS 4990 Special Problems in Education 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)

EACS 5023 Research Literacy 3 Credit Hours

Prerequisite: Graduate standing. Rigorous social science research can inform the development of policy and practice in schools. Yet, the methodological quality of research in the social sciences varies considerably. It is thus important for educational leaders to be discerning consumers of social science research. In this course, you will develop skills for locating, appraising, and synthesizing social science research. (F, Sp, Su)

EACS 5233 The Organization of Education 3 Credit Hours

Prerequisite: graduate standing. The organization of American schools. The history, relationships, functions, present status and trends in local, state and national education agencies. The places which professional educational associations, citizen's committees and other influential groups have in relation to schools. The administrative hierarchy in schools and the special functions of each level. The multicultural aspects of schooling in America. (F, Sp, Su)

EACS 5263 Education and the Law 3 Credit Hours

Prerequisite: graduate standing. Legal framework of education in the United States; consideration of federal and state constitutional provisions, federal and state statutes, federal and state judicial decisions and rules and regulations of the various federal and state agencies which affect education. (F, Sp, Su)

EACS 5333 Politics in Educational Administration 3 Credit Hours

Prerequisite: graduate standing. An overview of political activities at the local, state, and federal levels that will enhance the professional development of school administrators. Issues addressed include micro-politics at the school site and district offices; superintendent and school board relations; lobbying legislators and dealing with interest groups; the state political process, federal aid; and analysis of current political controversies. (F, Sp)

EACS 5343 Financial Leadership in the Schools 3 Credit Hours

Prerequisite: graduate standing. Primarily for prospective building level educational leaders, and includes a comprehensive overview of the effective management of fiscal resources in public schools. (Su)

EACS 5353 Teacher Compensation, Recruitment and Retention 3 Credit Hours

Prerequisite: Graduate standing is required; EACS 5343 Financial Leadership in Schools or equivalent is recommended. The purpose of the seminar is to provide a forum for understanding research that informs teacher compensation, recruitment and retention practices, nationally and in Oklahoma, and to apply the research to education leadership settings. (F, Sp)

EACS 5403 Inquiry for Performance Improvement 3 Credit Hours

Prerequisite: graduate standing. School administrators need to draw on knowledge and competencies related to the inquiry process, measurement and assessment, and data collection, analysis, and interpretation to lead continuous improvement. Inquiry for performance improvement is designed to develop the capacity of school leaders to manage effective performance by applying competencies of organizational research and development to the design and implementation of a balanced approach to performance management. (F, Sp)

EACS 5543 School Level Instructional Leadership 3 Credit Hours

Prerequisite: graduate standing. Focuses on school-level leadership in the areas of instructional and curriculum leadership. In the areas of instruction, the role of the principal is to develop the instructional capacity of teachers by developing human capital, enhancing the quality of teaching resources, developing instructional cultures/climate to improve teaching and learning. (F, Sp)

EACS 5573 Supervision of Instruction 3 Credit Hours

Prerequisite: graduate standing. Focuses upon the clinical supervision of the classroom environment, instructional procedures and the evaluation of teaching through the processes of observation and consultation. Participants develop control of the instrumentation and procedures which enable them to gather, display and interpret data relevant to the evaluation of classroom environments. (F, Sp)

EACS 5593 Principal Leadership 3 Credit Hours

Prerequisite: graduate standing. School leadership; effective schools; elementary and secondary administration; administration characteristics and responsibilities including personnel, fiscal, facility organization governance, and evaluation. (F)

EACS 5623 School and Staff Development Management 3 Credit Hours

Prerequisite: graduate standing. Provides preparation in the development of technical and conceptual skills applicable to principals in their establishment of professional cultures in school environment(s). Topics will include: staff development; school climate variables; school imaging problems, strategies, and improvement models; student special interest programs and recognition procedures; and involving external groups in school improvement. (F, Sp)

EACS 5693 Technology in Educational Administration 3 Credit Hours

Prerequisite: graduate standing. Provides the administrator the training in theory and application of computer concepts and the utilization of specific software programs and applications to enhance administrative decision making. (F)

EACS 5793 Technology Staff Development in Education 3 Credit Hours

Prerequisite: 5693 or equivalent. Technology in the form of computers and multimedia devices is becoming increasingly prevalent in classrooms. As school districts are expending more funds to purchase equipment and provide networking, it is important that educators have the training and development necessary to effectively utilize technology to improve the instruction of students. The course is designed to familiarize students with research and best practices in the area of technology staff development. (Sp)

EACS 5823 The Charter School Phenomenon 3 Credit Hours

Prerequisite: Graduate standing. The course provides a forum to explore the historical, foundational (including educational choice), economic, social, political, financial, and performance elements of charter schools in the United States. (F, Sp, Su)

EACS 5913 Practicum in Education--Master's 3 Credit Hours

Prerequisite: Graduate standing; May be repeated; maximum credit six hours. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)

EACS 5920 Internship in Education--Master's 1-6 Credit Hours

1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)

EACS 5923 Principal Internship 3 Credit Hours

Prerequisite: Graduate standing; Majors only. The internship provides field experiences and clinical practice for candidates within the school building environment to synthesize and apply the content knowledge and develop professional skills learned. Candidates are provided opportunities to gain experiences in two or more types of school settings to practice a wide range of relevant school-based knowledge and leadership skills, as well as supervision of instruction (F, Sp, Su)

EACS 5940 Field Studies in Education 1-4 Credit Hours

1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)

EACS 5960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)

- EACS 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EACS 5980 Research For Master'S Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- EACS 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- EACS 6023 Applied Quantitative Research Methods in Educational Administration 3 Credit Hours**
Prerequisite: graduate standing. Designed to provide advanced graduate students with research skills required of effective executive educational leaders. This course will provide students with the analytical tools necessary to become effective, critical consumers of educational research, and to enable potential educational leaders to oversee and supervise staff in the preparation, development, and dissemination of evaluative research. (F)
- EACS 6103 Visionary Leadership in Education 3 Credit Hours**
Prerequisite: graduate standing. The course is intended to prepare educational leaders who value and are committed to educating all students to become successful adults. Included is a detailed analysis of the role of vision and visionary leadership in educational organizations. Both scholarly literature and best practices concerning visionary leadership in education underlay course activities and discussions. (F)
- EACS 6123 Administrative and Organizational Theory 3 Credit Hours**
Prerequisite: graduate standing. An introduction to the important theoretical bases underlying the administration of organizations, particularly educational organizations; topics include bureaucracy, social systems, leadership, decision-making, properties of systems, communication and situational analysis. (F, Sp)
- EACS 6133 Qualitative Inquiry for Practitioners 3 Credit Hours**
Prerequisite: graduate standing. Introduces graduate students to concepts, methods, and issues in qualitative research as it is used in educational settings. Draws attention to epistemological and ethical concerns in social science and to strategic and logistical issues in the conduct of field research. Both positivist and interpretive approaches to the use of qualitative methods will be explored. Concept and theory building, strategies and techniques, and discussions of different issues of reliability and validity in the use of qualitative data will be emphasized. (F)
- EACS 6203 Instructional Leadership in Educational Administration 3 Credit Hours**
Prerequisite: graduate standing. Focuses on instructional leadership and its emphasis on competencies necessary for leadership and management of school districts. The class draws from research, public policy and educational practices related to curriculum, instruction, assessment, strategic planning, and professional growth plans. Will enable school district administrators to plan for the integration of technology in curriculum implementation, instructional strategies, and evaluation/assessment. (Sp)
- EACS 6213 Program Evaluation 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course builds knowledge and competencies on theory-based evaluation science through a review of evaluation approaches and theoretical paradigms, evaluation components, terms, and methods; and endemic issues and challenges in conducting evaluation in the social sciences. (Sp)
- EACS 6223 Policy Planning and Development in Education 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. An introduction to analytical techniques applicable to the development of education policy. Includes consideration of decision theory and its application to policy making. Social, political, economic and multicultural factors in the organization and its environment will be explored as contexts within which educational policy is established. (F)
- EACS 6253 Financing Education 3 Credit Hours**
Prerequisite: graduate standing, 5213, 5223, or equivalent or permission of instructor. A consideration of the roles of federal, state and local governments in the financing of education. Attention is given to the important contemporary issues related to educational financing at all three governmental levels. Also includes an introduction to the economics of education. (Sp)
- EACS 6263 Educational and Community Relations 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Examines the field of intra/interpersonal relationships in the context of educational organizations and their constituent communities; topics include authenticity, organizational communication, leader behavior, group dynamics, and conflict management. (F)
- EACS 6303 Strategic and Financial Planning in Education 3 Credit Hours**
Prerequisite: graduate standing. Strategic planning enables a district or school to shape and guide its overall educational objectives. Through effective strategic planning an educational organization creates a framework for developing, adapting and aligning organizational vision, mission and goals to achieve and sustain its desired educational outcomes. A critical element of the planning process is financial planning, in which the organization's goals are aligned with organizational resources. Course focuses on the leadership competencies necessary to formulate, execute and monitor the strategic planning for an educational organization based on research-based analytical techniques and models. Includes an examination for school district risk management. (Sp)
- EACS 6503 Ethics in Educational Administration 3 Credit Hours**
Prerequisite: graduate standing. Intends to familiarize upper-level graduate students with ethical theories that can be utilized in the policy development and administration of school districts and related decision making. Prepares students to enter school district management with the skills necessary to assume a successful leadership role. Firm grounding in the current problems of today's schools will be used as an opportunity to explore decision making capacity as a district level administrator. Students will learn the foundations of ethics which will promote decision making. Challenges students to understand and apply ethical considerations with regard to 1) the rights of others with regard to confidentiality, dignity and honesty; 2) sensitivity to student diversity; and 3) impartiality in their interactions with others. Students will explain decisions based on ethical and legal principles. (Sp)

EACS 6553 Profiles in Leadership 3 Credit Hours

Prerequisite: Graduate standing. The purpose of this course is to further students' understanding and knowledge of the nature and responsibilities of a school leader. To this end, the course consists of the basic principles of effective leadership. First, we will take a deep dive into Profiles in Effective Leadership. Second, we will apply leadership behaviors to the school setting. (Sp)

EACS 6663 Special Education Law 3 Credit Hours

Prerequisite: graduate standing. Enables students to understand the legal complexities involved in identifying and providing educational services to students with special needs. (F)

EACS 6673 Advanced Inquiry 3 Credit Hours

Prerequisites: graduate standing and EACS 6023, 6713, and 6970. The course is intended to help provide advanced graduate students with necessary analytical skills to become effective consumers of research, and to produce an effective doctoral dissertation. The course focuses on skills related to formulation of research problems, developing research proposals, collection, analysis and interpretation of data. (Fa, Su)

EACS 6693 Educational Technology Leadership 3 Credit Hours

Prerequisite: graduate standing, 5693. Designed to help enhance the competencies of school district administrators in the area of educational technology leadership. Focuses on technology leadership (at the central office level), rather than technology user skills. Intended for district level leaders (such as superintendents) who are not technology specialists (e.g., the course is not intended for district level technology directors or coordinators). (F)

EACS 6713 Pro Seminar 3 Credit Hours

Prerequisite: graduate standing. The purpose of this course is to introduce beginning doctoral students to the concept and process of research. Included are issues related to the role of philosophical frameworks, theory, research conceptualization, scholarly writing, and rudimentary research methods. (F, Sp, Su)

EACS 6813 Prospectus Development 3 Credit Hours

Prerequisite: Graduate standing; majors only. This seminar is designed for advanced PhD students/candidates and is a formal venue for developing a sample dissertation prospectus as a starting point to work from and further develop with the student's dissertation chair and committee. (F)

EACS 6910 Practicum in Education--Doctoral 1-6 Credit Hours

1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)

EACS 6920 Internship in Education--Doctoral 2-6 Credit Hours

1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)

EACS 6930 Intensive Studies in Education 1-6 Credit Hours

1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)

EACS 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

EACS 6970 Post-Master's Seminar 2-4 Credit Hours

2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)

EACS 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

EACS 6990 Individual Study in Education 1-4 Credit Hours

1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)

ECE-Electrical & Computer Engineering

ECE 2214 Digital Design 4 Credit Hours

Prerequisite: MATH 1823 or MATH 1914. Number systems, Boolean algebra, minimization procedures, combinational logic functions, introduction to sequential logic design, finite state machines and clocked (synchronous) sequential circuits. Analysis, synthesis and implementation are appropriately emphasized. (F, Sp)

ECE 2523 Probability, Statistics and Random Processes 3 Credit Hours

Prerequisite: ECE major or minor; MATH 2433 or MATH 2924. Covers the role of statistics in electrical and computer engineering and includes substantial exposure to applications appropriate to the discipline: basic probability; random variables, vectors and processes; time averages, expectations and laws of large numbers; stationarity, autocorrelation and spectral analysis; minimum mean squared error estimation; detection and linear filtering; IID, Markov, independent increment, counting, Gaussian and Poisson random processes. (F, Sp)

ECE 2713 Digital Signals and Filtering 3 Credit Hours

Prerequisite: ENGR 1411 or ENGR 3511 or concurrent enrollment; CS 1313 or CS 1321 or CS 1323 or CS 1324 or concurrent enrollment; and MATH 2423 or 2924. Digital signals and filter, discrete Fourier A and Z transforms, sampling. (F, Sp)

ECE 2723 Electrical Circuits I 3 Credit Hours

Prerequisites: ECE 2713 or concurrent enrollment in ECE 2713; MATH 2423 or 2924; PHYS 2524. Introduction to circuit elements and the laws of electrical science. Loop and nodal analysis solution methods. Thevenin and Norton equivalent circuits. Superposition and source transformation methods. Laplace transform analysis of electrical circuits. Guest lectures introducing advanced topics. (F, Sp)

- ECE 2970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ECE 3113 Energy Conversion I 3 Credit Hours**
Prerequisite: ECE 2723 and ECE 3613. Survey of methods of energy conversion; field-energy force relationships, equations of motion, incremental motion transducers, transformer theory; introduction to rotating machines. (Sp)
- ECE 3223 Microprocessor System Design 3 Credit Hours**
Prerequisite: ECE 3773 or concurrent enrollment. Review of clocked sequential circuits; MSI/LSI devices and applications, including registers, busing, combinational functions; use of microprocessors and logic design using microprocessors. Emphasizes assembly of full functional units into workable systems. (F, Sp)
- ECE 3323 Introduction to Solid State Electronic Devices 3 Credit Hours**
Prerequisite: 3613. Introduction to quantum mechanics, crystal properties and growth of semiconductors, energy bands in solids, charge carriers in semi-conductors, excess carriers in semiconductors, and introduction to diodes and transistors. (F, Sp)
- ECE 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- ECE 3613 Electromagnetic Fields I 3 Credit Hours**
Prerequisite: ECE 2723 and MATH 2443 or MATH 2934 and Mathematics 3113. Electrostatic and magnetostatic fields and sources, boundary conditions; introduction to Laplace's and Poisson's equations; quasi-stationary and time-varying fields; Maxwell's equations and circuit concepts. (F, Sp)
- ECE 3723 Electrical Circuits II 3 Credit Hours**
Prerequisites: ECE 2713, ECE 2723; and MATH 3113 or concurrent enrollment in MATH 3113. Analysis of electrical circuits in both time and frequency domains. Continuation of AC circuit theory, use of two port network theorems, impulse response, convolution, and differential equations. Laplace and Fourier transform analysis of electrical circuits. (F, Sp)
- ECE 3773 Electrical and Computer Engineering Circuits Laboratory 3 Credit Hours**
Prerequisite: ECE 2214 and either ECE 3723 or concurrent enrollment in ECE 3723. Electrical laboratory procedures, circuit construction, debug and experimental Confirmation of the principles of circuit theory. Introduction to use of laboratory instrumentation, including skills in the use of the oscilloscope in the evaluation of DC and AC circuits. Use and application of diodes, operational amplifiers and programmable logic devices. (F, Sp)
- ECE 3793 Signals and Systems 3 Credit Hours**
Prerequisites: ECE 2713, ECE 2723, MATH 3113; and MATH 3333 or concurrent enrollment in MATH 3333. Linear systems; time domain analysis; frequency domain analysis; Fourier, Laplace and Z-transforms; introduction to communications and control. (F, Sp)
- ECE 3813 Introductory Electronics 3 Credit Hours**
Prerequisites: ECE 2713, and ECE 2723; CHEM 1315; and MATH 2443 or 2934 or concurrent enrollment in MATH 2443 or 2934. Small and large signal characteristics and models of electronic devices; analysis and design of elementary electronic circuits. (F, Sp)
- ECE 3873 Electrical and Computer Engineering Electronics Laboratory 3 Credit Hours**
Prerequisite: ECE 2523, ECE 3723, ECE 3773, ECE 3813, and ENGR 2002 or ENGR 2003. Electronic analog circuit design, simulation, construction, debugging and measurement of circuit behavior and noise using advanced instrumentation techniques; statistics-based circuit reliability theory; independent design skills development and technical writing. (F, Sp)
- ECE 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)
- ECE 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: Admission to Honors program. May be repeated; maximum credit six hours. Projects covered will vary. Deal with concepts not usually presented in regular coursework.
- ECE 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors program. May be repeated; maximum credit six hours. provides an opportunity for the gifted Honors candidate to work on a special project in the student's field. (F, Sp, Su)
- ECE 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- ECE G4113 Analysis of Electrical Transmission 3 Credit Hours**
Prerequisite: 3113. Transmission and distribution of electrical energy, particularly addressing electrical transmission systems in the competitive energy market. (F)
- ECE 4213 Digital Signal Processing 3 Credit Hours**
(Slashlisted with 5213) Prerequisite: 3793. Discrete-time linear systems, finite duration impulse response digital filters, finite work length effects, spectral analysis, fast Fourier-transforms, two-dimensional signal processing and applications. No student may earn credit for both 4213 and 5213. (F)
- ECE 4273 Digital Design Laboratory 3 Credit Hours**
Prerequisite: Graduate standing, or ECE 3223 and ECE 3873. Design of digital systems with integrated circuits and MSI/LSI and microprocessor interfacing. (F, Sp)
- ECE 4281 Engineering Co-Op Program 1 Credit Hour**
(Crosslisted with AME, BME, C S, CEES, CH E, EPHY and ISE 4281) Prerequisite: Departmental permission and junior standing. May be repeated; maximum credit 6 hours. The Co-Op program provides students an opportunity to enhance their education via career exploration in related professional work experiences. Course assignments help students articulate their experiences by completing journals; mid-term paper; final paper and/or final presentation. Faculty receive an evaluation from the student's Co-Op supervisor who monitors performance. Faculty collaborate with the Co-Op supervisor to ensure student success. (F, Sp, Su)

- ECE 4363 Optical Engineering 3 Credit Hours**
(Slashlisted with ECE 5363) Prerequisite: ECE 3793. Underlying theory and design of optical systems. Interference, diffraction and coherence phenomena will be examined as a basis for studying the limits of optical system performance. Other topics include a detailed study of polarization, the interaction of light with various media and geometrical optics. No student may earn credit for both 4363 and 5363. (Sp)
- ECE 4383 IC Fabrication Technology I 3 Credit Hours**
(Slashlisted with ECE 5383) Prerequisite: 3323. A treatment of the theory and processes involved in the fabrication of integrated circuits. No student may earn credit in both 4383 and 5383. (F)
- ECE G4413 Introduction to Control System Engineering 3 Credit Hours**
Prerequisite: 3793. Analysis and synthesis of control systems; control systems performance and applications. (F)
- ECE 4433 Measurement and Automation 3 Credit Hours**
(Slashlisted with ECE 5433) Prerequisite: ECE 3793 or instructor permission or systems course in another major. Fundamentals of data acquisition and control. A series of design projects in data acquisition, logging and real-time analysis. Includes machine vision and image processing as well as vibration, motion and real-time control. No student may earn credit for both 4433 and 5433. (F)
- ECE G4523 Introduction to Communication Theory 3 Credit Hours**
Prerequisite: ECE 2523 and ECE 3793. An introductory treatment of statistical communication theory; description of a random process by auto-correlation and power spectral density functions, sources and properties of electrical noise, the effects of modulation, detection and filtering on signal information content, bandwidth and signal-to-noise ratio. (Sp)
- ECE 4603 Radar Imaging 3 Credit Hours**
(Slashlisted with ECE 5603) Prerequisite: senior standing or permission of instructor; ECE 3793. Course coverage includes radar signal models and phase histories, the types of processing steps used to focus radar data into high-resolution imagery, and fundamental behaviors and performance metrics of radar imaging. Course also investigates various radar imaging algorithms applied to range-Doppler imaging, synthetic aperture radar (SAR), inverse SAR, and angle-of-arrival (spatial) imaging. No student may earn credit for both 4603 and 5603. (Sp)
- ECE G4613 Computer Architecture 3 Credit Hours**
(Crosslisted with C S 4613) Prerequisite: ECE 3223 or C S 2614 or C S 2613. Covers basic concepts of computer system design and communication between components, along with current and historical examples of computer architecture. (F, Sp)
- ECE 4623 Computer Hardware Design 3 Credit Hours**
(Slashlisted with 5623) Prerequisite: 3223. Design of modern digital computing circuits, computer arithmetic, number systems, state machines, control units, data transfer, bus interfacing, VHDL language elements and usage, circuit simulation. No student may earn credit for both 4623 and 5623. (F)
- ECE 4643 Radio Frequency and Microwave Engineering 3 Credit Hours**
(Slashlisted with ECE 5643) Prerequisite: ECE 3613. Analysis of radio frequency (RF) and microwave components, circuits and systems using modern engineering tools and measurement instruments. No student may earn credit for both 4643 and 5643. (Sp)
- ECE 4653 Digital Radar Systems 3 Credit Hours**
(Slashlisted with ECE 5653) Prerequisite: ECE 3793. Modern and next-generation radar systems, with an emphasis on the digital receiver and post processing that follows the RF front-end. Several off-the-shelf receiver case studies will be conducted. These will focus on analog-to-digital converter (ADC) selection followed by software defined radio (SDR) concepts for field programmable gate array (FPGA) implementation. These receivers may also be used for communication systems and have other broad applications. No student may earn credit for both 4653 and 5653. (F)
- ECE 4663 Radar Engineering 3 Credit Hours**
(Crosslisted with METR 4663; Slashlisted with 5663) Prerequisite: Grade of C or better in 3613, or permission. Introduction to radar system designs and applications with emphasis on weather radar; radar system architecture and their functionalities and limitations of subsystems; theories of radar detection and estimation in a noisy and cluttered environment; existing technologies and advanced techniques to improve radar performance. No student may earn credit in both 4663 and 5663. (F)
- ECE 4693 Antennas 3 Credit Hours**
(Slashlisted with ECE 5693). Prerequisite: ECE 3613 and ECE 4703 or permission of instructor. Introduction to antenna theory and design. Course covers design, construction, and measurement of antennas including, but not limited to the following specific types; dipoles, loops, aperture, microstrip, and broadband antennas, as well as array theory. No student may earn credit for both 4693 and 5693. (Sp)
- ECE 4703 Electromagnetic Fields and Wave Propagation 3 Credit Hours**
(Slashlisted with ECE 5703). Prerequisite: ECE 3613. Maxwell's Equations, time-harmonic fields, plane waves, reflections on interfaces, waveguides and transmission lines, radiation, and antenna basics. No student may earn credit for both 4703 and 5703. (F, Sp)
- ECE 4733 RF & Microwave Filter Design 3 Credit Hours**
(Slashlisted with ECE 5733) Prerequisite: instructor permission. Introduction to advanced filter design. The use of filters is very widespread in all aspects of communication and radar systems. At the end of the semester, a student that has successfully embraced the subject will be able to design, fabricate, and test filters, using a range of different technologies and methods. No student may earn credit for both 4733 and 5733. (Sp)
- ECE 4773 Laboratory (Special Projects) 3 Credit Hours**
Prerequisite: 4273 or concurrent enrollment in 4273. Individually supervised special engineering problems of experimental nature. Laboratory (F, Sp) [V].
- ECE G4813 Electronics 3 Credit Hours**
Prerequisite: ECE 3813 and ECE 3873. Analysis and design of electronic circuits such as multi-stage amplifiers, feedback amplifiers, oscillators and power amplifiers. (Sp)
- ECE G4823 Engineering Principles of the Human Body 3 Credit Hours**
Prerequisites: ECE 2723, PHYS 2514, MATH 2423 or 2924. Introduction to the foundational engineering approach to analyzing the human body's anatomy and physiological function. Topics include muscle and forces, fluid dynamics of the lungs and cardiovascular system, electrical signals in the body, and vision and optics of the eye. (Sp)

- ECE 4833 VLSI Digital System Design 3 Credit Hours**
(Slashlisted with ECE 5833) Prerequisite: ECE 3223 and ECE 3873. An introduction to Very-Large-Scale Integrated (VLSI) systems design methods; complementary Metal-Oxide Semiconductor (CMOS) technology emphasized. VLSI Computer Aided Design (CAD) tools and CMOS layout rules and techniques. Project oriented. No student may earn credit for both 4833 and 5833. (F)
- ECE 4853 Biomedical Signals and Systems 3 Credit Hours**
(Slashlisted with ECE 5853) Prerequisite: ECE 3723 and ECE 3793, or equivalent courses in electrical circuits and signal processing, or permission of instructor. Comprehensive coverage of topics related to signals in humans. Emphasis on using engineering tools to interpret signals and underlying physiological principles. Focus on emerging engineering technologies, physiological knowledge and clinical application. No student may earn credit for both 4853 and 5853. (Sp)
- ECE 4863 Bioinstrumentation 3 Credit Hours**
Prerequisite: ECE 3723 or ECE 4813 or permission of instructor. A comprehensive coverage of topics related to principles, applications and design of medical instruments widely used in hospitals and clinical research. Emphasis is placed on general design concepts, discussions on a great variety of medical devices and medical device safety issues. Materials cover different levels and various aspects of human systems, such as heart, brain, circulation, respiration. (F, Sp)
- ECE 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- ECE 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ECE 4973 Special Topics 3 Credit Hours**
Prerequisite: Varies with course content. May be repeated with change of subject; maximum credit six hours in combination with 4990. Devoted to special topics in Electrical and Computer Engineering not covered in the current curriculum. (F, Sp, Su)
- ECE 4990 Special Studies 1-3 Credit Hours**
Prerequisite: Senior standing and permission. May be repeated with change of subject matter; maximum credit six hours in combination with 4973. Devoted to supervised individual studies of special topics (S/U Graded) in Electrical and Computer Engineering. (F, Sp, Su)
- ECE 5123 Wireless Communications 3 Credit Hours**
Prerequisite: 3793 or permission. Wireless communications principles, multiple access techniques, wireless networking, and systems and standards. (F)
- ECE 5153 Emerging Topics in LTE-Advanced and 5G 3 Credit Hours**
Prerequisite: Graduate standing. This course will train students to master the latest developments in the rapidly evolving landscape in wireless cellular networks, preparing them for working on emerging as well as near future wireless technologies. Focuses on selected topics for research and development of LTE-A and 5G cellular networks, such as PHY and MAC layer techniques suitable LTE-A & 5G; network densification techniques. (Sp)
- ECE 5183 Quantum Information Theory 3 Credit Hours**
Prerequisite: linear algebra. Introductory course of quantum information theory. Topics covered include quantum state, quantum measurement, quantum channels, No-Cloning Theorem, Bell's inequalities, entanglement, quantum dense coding, quantum teleportation, distance measures, quantum entropy, quantum mutual information, information of quantum channels. (F)
- ECE 5213 Digital Signal Processing 3 Credit Hours**
(Slashlisted with 4213) Prerequisite: 3793. Discrete-time linear systems, finite duration impulse response digital filters, infinite impulse response digital filters, finite word length effects, spectral analysis, fast Fourier-transforms, two-dimensional signal processing and applications. No student may earn credit for both 4213 and 5213. (F)
- ECE 5223 Estimation and Identification 3 Credit Hours**
Prerequisite: 5403 and 5523. Estimation and filtering, optimal filtering, modeling, parametric and nonparametric identification methods. (Sp)
- ECE 5273 Digital Image Processing 3 Credit Hours**
Prerequisite: 3793 or permission of instructor. This course covers the theory, methods, and applications of image enhancement, image restoration, image compression, image segmentation, image representation and description, and image recognition and interpretation. (Sp)
- ECE 5303 Solid State Electronics I 3 Credit Hours**
Prerequisite: 3323. Principles and applications of electronic properties of solids for devices with particular emphasis on semiconductor junction, bulk and field effect devices. (F)
- ECE 5323 Opto-Electronics I 3 Credit Hours**
Prerequisite: 3323 or Engineering 2313. Introduction to phenomenological and quantum mechanical theory of solids; introduction to lasers and masers with particular emphasis on the physical mechanisms underlying interactions between electromagnetic radiation and atomic systems. (F, Sp)
- ECE 5343 Quantum Structures and Devices 3 Credit Hours**
Prerequisite: ECE 3323 or permission of instructor. Theory and application of KP method, strain effects, electrical and optical properties of quantum structures, semiconductor quantum devices including quantum well infrared photodetectors, quantum cascade and interband cascade lasers, type-II superlattice detectors. (Sp)
- ECE 5363 Optical Engineering 3 Credit Hours**
(Slashlisted with 4363; Crosslisted with BME 5363) Prerequisite: ECE 3793. Underlying theory and design of optical systems. Interference, diffraction, and coherence phenomena will be examined as a basis for studying the limits of optical system performance. Other topics include a detailed study of polarization, the interaction of light with various media, and geometrical optics. No student may earn credit for both 4363 and 5363. (Sp)
- ECE 5383 IC Fabrication Technology I 3 Credit Hours**
(Slashlisted with ECE 4383) Prerequisite: 3323. A treatment of the theory and processes involved in the fabrication of integrated circuits. No student may earn credit for both 4383 and 5383. (F)
- ECE 5393 Integrated Circuit Fabrication Technology II 3 Credit Hours**
Prerequisite: ECE 5383. Students will gain hands-on experiences of cleanroom technologies of the semiconductor industry, including epitaxial crystal growth, photolithography, and some techniques such as SEM. (Sp)

- ECE 5403 Linear Systems Analysis 3 Credit Hours**
Prerequisite: Math 3333. In-depth background course in methods of linear analysis in systems engineering. Topics include least squares methods, singular value decomposition, continuous and discrete time linear dynamical systems, controllability and state transfer. (F)
- ECE 5413 Control Theory 3 Credit Hours**
Prerequisite: 4413, 5403. Controllability, optimal control and dynamic programming, LQR, observability, linear estimation and Kalman filter, realization theory. (Sp)
- ECE 5423 Power System Protection 3 Credit Hours**
Prerequisite: Graduate Standing and ECE 3113 (ECE 4113 is also preferred) or permission of instructor. This course facilitates a study into the main protection system elements and their design fundamentals for modern power systems. It covers the operating principles of different types of fault sensing and interrupting components as well as coordination strategies and device settings for typical power system configurations including: generator, transformer, busbar, transmission line and distribution feeder protection. (Sp, Irreg.)
- ECE 5433 Measurement and Automation 3 Credit Hours**
(Slashlisted with ECE 4433) Prerequisite: Graduate standing and ECE 3793, or instructor permission, or systems course in another major. Fundamentals of data acquisition and control. A series of design projects in data acquisition, logging and real-time analysis. Includes machine vision and image processing as well as vibration, motion and real-time control. No student may earn credit for both 4433 and 5433. (F)
- ECE 5463 Advanced Computer Architecture 3 Credit Hours**
(Crosslisted with C S 5463) Prerequisite: graduate standing. The design of modern programmable computer systems with emphases on exploiting parallelism at all levels, designing within constraints including energy consumption, and the impact of architecture on software design. Covers state of the art computer architecture, case studies and trends. (Sp)
- ECE 5513 Communication Theory 3 Credit Hours**
Prerequisite: 4523. Probability theory, stochastic processes, detection, extraction and predictions of signals in noise. (F)
- ECE 5523 Random Signals 3 Credit Hours**
Prerequisite: Graduate standing, ECE 2523, ECE 3793, or permission of instructor. This course explores random signals from two perspectives: random variables and random processes. Topics include probability, single and double random variables, and random vectors; concepts of stationarity and ergodicity; random signals as an input into linear systems and the statistical properties of their outputs; random signal parameters; and quality of estimators. (F)
- ECE 5553 Telecommunications Technology 3 Credit Hours**
Prerequisite: 3793. The ways and means by which voice, data and video traffic are moved long distances. Topics include data networks, telephone systems, video, and optical systems. (F)
- ECE 5583 Information Theory and Probabilistic Programming 3 Credit Hours**
Prerequisite: Graduate standing, and ECE 4523 or equivalent. Introductory course in information theory. Topics include asymptotic equipartition property, entropy, Fano's inequality, Huffman coding, lossy source coding theory, and channel coding theory. (F)
- ECE 5603 Radar Imaging 3 Credit Hours**
(Slashlisted with ECE 4603) Prerequisite: graduate standing or permission of instructor; ECE 3793. Course coverage includes radar signal models and phase histories, the types of processing steps used to focus radar data into high-resolution imagery, and fundamental behaviors and performance metrics of radar imaging. Course also investigates various radar imaging algorithms applied to range-Doppler imaging, synthetic aperture radar (SAR), inverse SAR, and angle-of-arrival (spatial) imaging. No student may earn credit for both 4603 and 5603. (Sp)
- ECE 5623 Computer Hardware Design 3 Credit Hours**
(Slashlisted with 4623) Prerequisite: 3223. Design of modern digital computing circuits, computer arithmetic, number systems, state machines, control units, data transfer, bus interfacing, VHDL language elements and usage, circuit simulation. No student may earn credit for both 4623 and 5623. (F)
- ECE 5643 Radio Frequency and Microwave Engineering 3 Credit Hours**
(Slashlisted with ECE 4643) Prerequisite: Graduate standing. Analysis of radio frequency (RF) and microwave components, circuits, and systems using modern engineering tools and measurement instruments. No student may earn credit for both 4643 and 5643. (Sp)
- ECE 5653 Digital Radar Systems 3 Credit Hours**
(Slashlisted with ECE 4653). Prerequisite: ECE 3793. Modern and next-generation radar systems, with an emphasis on the digital receiver and post processing that follows the RF front-end. Several off-the-shelf receiver case studies will be conducted. These will focus on analog-to-digital converter (ADC) selection followed by software defined radio (SDR) concepts for field programmable gate array (FPGA) implementation. These receivers may also be used for communication systems and have other broad applications. No student may earn credit for both 4653 and 5653. (F)
- ECE 5663 Radar Engineering 3 Credit Hours**
(Crosslisted with METR 5663; Slashlisted with 4663) Prerequisite: Grade of C or better in 3613, or permission of instructor. Introduction to radar system designs and applications with emphasis on weather radar; radar system architecture and their functionalities and limitations of subsystems; theories of radar detection and estimation in a noisy and cluttered environment; existing technologies and advanced techniques to improve radar performance. No student may earn credit in both 4663 and 5663. (F)
- ECE 5673 Weather Radar Theory and Practice 3 Credit Hours**
(Slashlisted with 4673, Crosslisted with METR 5673) Prerequisite: graduate standing, grade of C or better in Math 3113 and Physics 2524, or permission of instructor. Introduction to electromagnetic waves and propagation through the atmosphere, radar design trade-offs, antennas, transmitters, and coherent receivers; analysis of radar signals as noise-corrupted stochastic processes, with emphasis on digital signal processing for Doppler spectrum and moment estimation; implementation of processing algorithms using actual Doppler radar data. No student may earn credit for both 4673 and 5673. (F)
- ECE 5683 Weather Radar Applications 3 Credit Hours**
(Crosslisted with METR 5683) Prerequisite: graduate standing in Meteorology or Engineering, or permission of instructor. Interpretation of meteorological structures using weather radar. Introduces scatter from hydrometeors and refractive index variations. Presentation of quantitative precipitation estimation methods based on the radar reflectivity factor, attenuation, and dual-polarization observations. Also includes the fundamental concepts of clear-air echoes and the estimation of winds under non-precipitation conditions. (Sp)

- ECE 5693 Antennas 3 Credit Hours**
(Slashlisted with ECE 4693) Prerequisites: ECE 3613, ECE 4703, and permission of instructor. Introduction to antenna theory and design. Course covers design, construction, and measurement of antennas including, but not limited to the following specific types; dipoles, loops, aperture, microstrip, and broadband antennas, as well as array theory. No student may earn credit for both 4693 and 5693. (Sp)
- ECE 5703 Electromagnetic Fields and Wave Propagation 3 Credit Hours**
(Slashlisted with ECE 4703) Prerequisite: Graduate standing, ECE 3613 and permission of instructor. Maxwell's Equations, time-harmonic fields, plane waves, reflections on interfaces, waveguides and transmission lines, radiation, and antenna basics. No student may earn credit for both 4703 and 5703. (F, Sp)
- ECE 5723 Radar Signal Processing 3 Credit Hours**
Prerequisite: ECE 3793 or equivalent. Radar fundamentals: radar range equation, waveforms, detection and matched filtering, ambiguity functions. Processing and Applications: Pulse-Doppler radar, synthetic aperture radar (SAR), moving target indication (MTI), space time adaptive processing (STAP). (Sp)
- ECE 5733 RF & Microwave Filter Design 3 Credit Hours**
(Slashlisted with ECE 4733) Prerequisite: instructor permission. Introduction to advanced filter design. The use of filters is very widespread in all aspects of communication and radar systems. At the end of the semester, a student that has successfully embraced the subject will be able to design, fabricate, and test filters, using a range of different technologies and methods. No student may receive credit for both 4733 and 5733. (Sp)
- ECE 5833 VLSI Digital System Design 3 Credit Hours**
(Slashlisted with ECE 4833) Prerequisite: ECE 3223 and ECE 3873. An introduction to Very-Large-Scale Integrated (VLSI) systems design methods; complementary Metal-Oxide Semiconductor (CMOS) technology emphasized. VLSI Computer Aided Design (CAD) tools and CMOS layout rules and techniques. Project oriented. No student may earn credit for both 4833 and 5833. (F)
- ECE 5843 Medical Imaging Systems 3 Credit Hours**
Prerequisite: 3793 or Fourier transforms, or permission. Fundamental principles of medical image formation, image acquisition and image quality evaluation, Major medical imaging modalities, such as radiography, fluoroscopy, computed tomography, ultrasound, MRI, and nuclear medicine will be introduced. Clinical applications and limitations of each modality will also be analyzed. (Sp)
- ECE 5853 Biomedical Signals and Systems 3 Credit Hours**
(Slashlisted with 4853, Crosslisted with BME 5853) Prerequisites: ECE 3723 and ECE 3793, or equivalent course in electrical circuits and signal processing, or permission of instructor. Comprehensive coverage of topics related to signals in humans. Emphasis on using engineering tools to interpret signals and underlying physiological principles. Focus on emerging engineering technologies, physiological knowledge and clinical application. No student may earn credit for both 4853 and 5853. (Sp)
- ECE 5863 Bioinstrumentation 3 Credit Hours**
(Crosslisted with BME 5863) Prerequisite: ECE 4213 or permission of instructor. A comprehensive coverage of topics related to principles, applications, and design of medical instruments widely used in hospitals and clinical research. Emphasis is placed on general design concepts, discussions on a great variety of medical devices, and medical device safety issues. Materials cover different levels and various aspects of human systems, such as heart, brain, circulation, and respiration. (F, Sp)
- ECE 5873 Advanced VLSI Design and Applications 3 Credit Hours**
Prerequisite: ECE 4833 or ECE 5833. Design of sophisticated digital integrated circuits; special purpose architectures used where appropriate; silicon compiler and hardware description language used; project oriented. (Sp)
- ECE 5880 Professional Internship 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and 12 credit hours toward graduate degree. May be repeated; maximum credit six hours; grade equivalent to B or better required. Professional technical internship training in electrical and computer engineering, as part of M.S. or PhD degree requirements. A written report to be graded by a member of the graduate faculty is required. (F, Sp, Su)
- ECE 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- ECE 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ECE 5973 Special Topics in Electrical and Computer Engineering 3 Credit Hours**
(Crosslisted with BME 5973) Prerequisite: Graduate standing and permission of instructor. May be repeated with change of content; maximum credit 12 hours. Selected topics of current research interest not covered by regularly scheduled coursework. (F, Sp, Su)
- ECE 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, permission of instructor required, two to nine hours; credit required for degree, six hours. (F, Sp, Su)
- ECE 5990 Special Studies 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission. May be repeated with change of subject matter; maximum credit nine hours. Devoted to special topics in electrical engineering not covered in the regular curriculum or to supervised individual study. (F, Sp, Su)
- ECE 6613 Weather Radar Polarimetry 3 Credit Hours**
(Crosslisted with METR 6613) Prerequisite: graduate standing. Provides fundamentals and principles of weather radar polarimetry through understanding wave scattering and propagation in geophysical media subject to turbulent mixing and filled with hydrometers and other objects. The relations between polarimetric radar observables and physical parameters will be established. The methods and algorithms for retrieving cloud and precipitation microphysics for weather quantification and forecast will be introduced. (F)
- ECE 6813 Advanced Topics in Biomedical Engineering 3 Credit Hours**
Prerequisite: 5843. May be repeated with change of content; maximum credit 12 hours. In-depth studies in biomedical engineering. Focus will be on advanced optoelectronic biomedical technologies, such as bioinstrumentation, biomedical imaging modalities. Students will learn the knowledge behind current technology and also research and development methods of applying future technology to clinical and biomedical applications. (Sp)

ECE 6950 Research in Electrical and Computer Engineering 1-4 Credit Hours

1 to 4 hours. Prerequisite: graduate standing and permission of instructor in Electrical and Computer Engineering. May be repeated; maximum credit 24 hours. Research in electrical and computer engineering occurring prior to the General Examination. (F, Sp, Su)

ECE 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

ECE 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

ECE 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisites: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

ECE 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

ECON-Economics

ECON 1113 Principles of Economics-Macro 3 Credit Hours

Prerequisite: Satisfactory score on the Math placement test, or, for incoming freshmen direct from high school, satisfactory score on the ACT/SAT. The functioning and current problems of the aggregate economy: determination and analysis of national income, employment, inflation and stabilization; money and banking, monetary and fiscal policy; and aspects of international interdependence. Laboratory (F, Sp, Su) [III-SS].

ECON 1123 Principles of Economics-Micro 3 Credit Hours

Prerequisite: Satisfactory score on the Math placement test, or, for incoming freshmen direct from high school, satisfactory score on the ACT/SAT. Goals, incentives and allocation of resources resulting from economic behavior with applications and illustrations from current issues: operation of markets for goods, services and factors of production; the behavior of firms and industries in different types of competition and income distribution. Laboratory (F, Sp, Su) [III-SS].

ECON 2033 Your Guide to a Crazy World 3 Credit Hours

Have you ever wondered "What job is right for me?" or "Why do I do weird things?" Together, we'll explore the exciting world of economics in ways you've never imagined. From how we behave, to laws, health, cities, making a difference, politics, and much more. So, buckle up, and let's uncover the mysteries of life in our wild, wacky world! (F, Sp) [III-SS].

ECON 2843 Elements of Statistics 3 Credit Hours

Prerequisite: ALEKS math assessment score of 040 or higher, or Math Offer of MATH 1523 or higher, or completion of MATH 1503 or higher. Basic statistical techniques emphasizing business and economic applications. Topics covered include data summary techniques, elementary probability theory, estimation, hypothesis testing, simple regression, time-series and index numbers. Laboratory (F, Sp, Su) [I-M].

ECON 2970 Special Topics 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ECON 3113 Intermediate Microeconomic Theory 3 Credit Hours

Prerequisite: ECON 1113 and ECON 1123 with a grade of C or better and Mathematics 1743 or 1823 or 1914. Fundamental economic concepts and principles; value and distribution theories under conditions of competition, monopoly and monopolistic competition. Appraisal of modern problems in terms of these theories. (F, Sp, Su) [III-SS].

ECON 3133 Intermediate Macroeconomic Theory 3 Credit Hours

Prerequisite: a grade of C or better in ECON 1113, ECON 1123, and MATH 1743 or 1823 or 1914. National income concepts; aggregate demand by household, business, government, and foreign sectors; determination of national income, interest rate, price, output, and employment levels. (F, Sp, Su)

ECON 3213 Environmental Economics 3 Credit Hours

Prerequisite: a grade of C or better in ECON 1123. Economic approach to environmental protection; analysis focuses on property rights and externalities. Examines strategies for addressing externalities including command-and-control regulation, emissions taxes, and tradable discharge permits. Topics include air pollution, water pollution, waste disposal and recycling, and endangered species protection. (Irreg.)

ECON 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ECON 3513 Labor Problems 3 Credit Hours

Prerequisite: a grade of C or better in 1113 and 1123. Problems of labor in an industrial society; wages, hours, working conditions, child labor. Conflicts between management and labor. (F)

Prerequisite: a grade of C or better in ECON 1113 and ECON 1123. Analysis of economic aspects of government regulation and direction of business enterprise; controls affecting managerial discretion in the determination of prices and other basic business policies. (F, Sp, Su) [III-SS].

- ECON 3880 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Readings will consist of topics designated by the instructor in keeping with student's specialization within major program. Topics will cover materials not usually presented in regular courses. (F, Sp, Su)
- ECON 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to the Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- ECON 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content deals with concepts not usually presented in regular coursework. (Sp)
- ECON 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- ECON 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- ECON G4223 Econometric Analysis 3 Credit Hours**
Prerequisite: a grade of C or better in 1113, 1123, and 2843. Classical statistical inference; means, proportions, variances, analysis of variance and covariance; regression and correlation analysis; normal, binomial, chi-square, t, F, Poisson, exponential distributions. (F, Sp) [I-M]
- ECON G4313 Industrial Organization 3 Credit Hours**
Prerequisite: ECON 1113 and ECON 1123 with a grade of C or better. Industrial organization studies the way firms interact and compete with each other. Covers pricing strategies (price discrimination, bundling and tie-in sales); product strategies (product variety, quality, advertising); and mergers and acquisitions. Can be taken for graduate credit. (Irreg.)
- ECON G4353 Public Finance: Issues and Taxation 3 Credit Hours**
Prerequisite: a grade of C or better in 1113 and 1123. Public expenditures, their nature, cause of the increase, and classification; sources of public revenue; methods of distributing the tax burdens; public debts and debt management; introduction to fiscal theory and policy. (F, Sp)
- ECON G4363 Sports Economics 3 Credit Hours**
Prerequisite: ECON 1113 and ECON 1123 with a grade of C or higher, or permission of instructor. Application of economics principles and techniques to sports-related topics and problems. (Irreg.)
- ECON 4413 International Trade, Laws and Institutions 3 Credit Hours**
Prerequisite: a grade of C or better in ECON 3613. Explores the interface of the economics and legal professions' analysis of international trade. The class will explore some of the issues and topics of common interest from the perspective of each profession. (F)
- ECON G4453 Urban Economics 3 Credit Hours**
Prerequisite: ECON 3113 with a grade of C or better. Study of economic models of urban location, including firm location and residential location models. Public policy topics of urban taxation, residential housing discrimination, urban renewal, etc., will also be discussed from an economic perspective. Can be taken for graduate credit. (Irreg.)
- ECON G4513 The Economics of Discrimination 3 Credit Hours**
Prerequisite: a grade of C or better in 1113 and 1123. This course will focus on discrimination in the labor market. Topics to be covered include wage discrimination, employment discrimination, and occupational segregation. Examples will be drawn frequently from current events and public policies. (F, Sp)
- ECON G4523 Economics of Education 3 Credit Hours**
Prerequisite: Sophomore standing; ECON 1123 and ECON 2843. This course will focus on policy analysis of the market for education in the United States, including production and consumption of education services. Students will discuss and critically evaluate scientific studies related to key questions in the policy debate, and will learn tools for understanding how to distinguish between correlation and causation in the world of education policy. (F, Sp)
- ECON G4673 Economics-Money & Banking 3 Credit Hours**
