Prerequisite: FMS 1013. Designed to help students professionalize themselves by gaining general career skills (developing a resume, interviewing skills), information specific to careers in film and media (on-set etiquette and performance expectations), and introductions to industry professionals (through guest lectures and informational interviews with FMS alumni). (Irreg.)

FMS 3810 Variable Topics 1-3 Credit Hours

1 to 3 hours. Prerequisite: FMS 1013 or permission of instructor. May be repeated with change of content; maximum credit twelve hours. Varied projects concerning particular aspects of film and media history, genre, and methods of film or digital cinema production. (Irreg.)

FMS 3833 Masterpieces of World Cinema 3 Credit Hours

Prerequisite: 1013. May be repeated with change of content; maximum credit six hours. Survey of world film and the principles underlying historical and critical approaches to the cinema, emphasizing an appreciation of international cinema as an aesthetic, economic, and social factor in the twentieth century. (Irreg.)

FMS 3843 Topics in National Cinema 3 Credit Hours

Prerequisite: 1013. May be repeated with change of content; maximum credit six hours. Analytical study of exemplary motion pictures in terms of major periods, themes, and formal parameters in relation to national cultural histories, such as the French New Wave, Film Noir or American silent film. (Irreg.)

FMS 3853 Feature Screenwriting 3 Credit Hours

Prerequisite: 1013 and permission of instructor. An introduction to writing for the screen, including a variety of assignments leading up to developing and writing a feature screenplay. (F, Sp)

FMS 3903 Topics in New Media 3 Credit Hours

Prerequisite: FMS 1113; May be repeated with change of content; maximum credit 6 hours. Analytical study of digital new media, focusing on a specific venue (YouTube, Twitch, Podcasting, FaceBook), genre (fashion vlogging, "let's play" videos, true crime podcasts), or analytical lens (political economy, critical studies, cultural studies, feminist critique, visual culture, aesthetics). (Irreg.)

FMS 3913 Video Game Analysis and Critique 3 Credit Hours

Prerequisite: FMS 2033 or FMS 1123. Analytical study of video games as media objects, whose formal and aesthetic aspects convey artistic, cultural, and symptomatic meanings. Focus will be on the numerous ways that video games convey meaning and the various ways that scholars, media theorists, and journalists explore meaningful video game content. (Irreg.)

FMS 3923 Video Games and Culture 3 Credit Hours

Prerequisite: FMS 1123. Analytical study of video games and their relationship to wider cultural norms and practices. Focus will be on the subcultures that congregate around video games (developers, fan communities) and the ways that wider cultural issues (gender, sexuality, violence) intersect with video games. (Irreg.)

FMS 3933 Media Controversies 3 Credit Hours

Prerequisite: FMS 1013 or FMS 1113. Analytical study of media (including film) that faced banning or censorship in some way, and the public discourse surrounding it. Focus will be on comparing the media's content and artistic meaning, using public discourse about it as a lens through which to examine wider culture. (Irreg.)

FMS 3960 Honors Reading (HONORS) 1-3 Credit Hours

1 to 3 hours. Prerequisite: FMS 1013, permission of the Honors Program. May be repeated with change in content; maximum credit 6 hours. Independent study in film and media history, theory, and production for students enrolled in the Honors Program. In-depth analysis of specialized topics. (F, Sp, Su)

FMS 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

FMS 3980 Honors Research (HONORS) 1-3 Credit Hours

1 to 3 hours. Prerequisite: FMS 1013, permission of the Honors Program. May be repeated with change of content; maximum credit 6 hours. Open only to students enrolled in the Honors Program. Individualized research with a Film and Media Studies faculty member leading toward work for the Honors thesis. In-depth research of specialized topic in film and media theory, history, or production. (F, Sp, Su)

FMS 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

FMS 4013 Capstone in Film and Media 3 Credit Hours

Prerequisite: Majors only; 24 hours of major credit; senior standing. Special problems or topics in film and media studies selected by the instructor and indicated by its particular title. Emphasis will be on the individual preparation of a research paper and/or creative project in the topic area. (Sp) [V].

FMS 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

FMS 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

FMS 4990 Independent Study 1-4 Credit Hours

Prerequisite: 1013, permission of the instructor. Specialized study in film and media history, theory, and production, or other topic mutually agreed upon by the student and the instructor. The course enables the student to pursue in-depth analysis of special interest topics in Film and Media Studies. (F, Sp, Su)

Film & Media Studies, B.A.

Minimum Total Credit Hours: 120

Major Hours: 39

Minimum Upper-Division Hours: 48

Upper-Division Hours Within Major: 18

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.50

Program Code: B429

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements
- A grade of "C" or higher must be earned in each course presented for major credit.

Code	Title	Credit Hours
Core Requirements		
FMS 1013	Introduction to Film and Media Studies	3
FMS 2013	Film and Media History to 1960	3
FMS 2023	Film and Media History: 1960 to Present	3
FMS 2033	Writing About Film	3
FMS 3213	Media Theories & Methodologies	3
FMS 4013	Capstone in Film and Media	3
Creative Skills Requirement		
Choose one of the following: ¹		3
FMS 1313	Narrative Production Basics	
FMS 3313	Digital Cinema Production	
FMS 3323	Editing: History, Theory, Practice	

FMS 3703	Topics in Film and Media Production	
FMS 3713	Topics in Writing for the Screen	
FMS 3853	Feature Screenwriting	
Electives		
Choose six courses from any FMS course not used to satisfy Core or Creative Skill Requirements (p. 407) ²		18
Total Credit Hours		39

¹ Appropriate ART, DRAM, or JMC courses may be used to fulfill this requirement with approval of the FMS Academic Advisor.

² Additionally, FMS maintains a list of Guided Electives (p. 407), courses offered in other departments that have been approved for FMS Major credit. The list may be accessed online at <http://www.ou.edu/cas/fms.html> or in the FMS office.

Notes

- At least 12 hours of courses in Creative Skills and Electives for FMS Major must be taken at the Upper Division level.
- No more than 15 JMC credit hours may be counted toward the Film and Media Studies major.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>. Courses graded P/NP will not apply.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
	or EXPO 1213 Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>		
	Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)		

P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		
Core Area IV: Arts and Humanities (18 hours)		
<i>Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		
<i>Western Culture</i>		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		
<i>World Culture</i>		
Choose one course from the General Education World Culture list		
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>		
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		
Core Area V: First Year Experience (3 hours)		
Choose one course		
Total Credit Hours		56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.

- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Film and Media Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Film and Media Studies major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
FMS 1013	Introduction to Film and Media Studies (Core IV - Artistic Forms)	3

WGS 3703	Female Heroism in Hollywood	3
WGS 3713	Gender and James Bond	3

* These courses are adviser-approved Creative Skills. If used to meet the Creative Skills requirement, they cannot also be used as a major elective.

Film & Media Studies, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 9

Program Code: N429

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Film & Media Studies.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in Film and Media Studies. All courses with the FMS prefix are acceptable for minor credit. Consult the FMS department for the list of optional interdisciplinary Guided Electives (p. 407). At least nine (9) hours must be taken at the upper-division level. **Note: JMC courses may NOT be used to satisfy requirements for the minor.**

A minimum grade of C or better is required in all courses presented for FMS minor credit.

Code	Title	Credit Hours
Required Courses		
FMS 1013	Introduction to Film and Media Studies	3
FMS 2013	Film and Media History to 1960	3

Electives		
Choose four courses from coursework approved for FMS major credit, including at least 9 upper-division hours ¹		12
Total Credit Hours		18

¹ JMC courses may NOT be used to satisfy requirements for the FMS minor.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Department of Health and Exercise Science

S.J. Sarkeys Complex
1401 Asp Avenue, Room 104
Norman, OK 73019-6081
Phone: (405) 325-5211
FAX: (405) 325-0594
hesdept@ou.edu
www.ou.edu/cas/hes

General Information

The Department of Health and Exercise Science's interdisciplinary program is one of the largest in the Dodge College of Arts and Sciences. The program integrates the biological, physiological, medical, and behavioral sciences as they relate to physiological responses to exercise and other aspects of human health.

The mission of the Department of Health and Exercise Science is to lead the state and nation in exercise science and health promotion education and research by providing a rich and diverse undergraduate and graduate curriculum which draws from the life sciences, social sciences, health and exercise sciences, and the humanities; and to contribute to the enhancement of quality of life for various populations.

Faculty

Health and Exercise Science faculty are some of the foremost scholars and researchers in their fields. Their cutting-edge research is published in journals and many are invited to speak at national and international conferences. In addition to a Ph.D., many hold certifications such as Certified Strength and Conditioning Specialists (CSCS), Certified Health Education Specialists (CHES), National Strength and Conditioning Association Certified Personal Trainer (NSCA-CPT), and are members of organizations such as Fellow of the American College of Sports Medicine (FACSM), Fellow of the Research Consortium, Fellow of the Gerontological Society of America and Fellow of the National Academy of Kinesiology, American Public Health Association, and the American Academy of Health Behavior. Most importantly, they genuinely enjoy teaching and are accessible to undergraduate and graduate students alike.

Research

At any given time, HES faculty, graduate students, and undergraduate students have multiple research projects ongoing, focusing on the areas of bone density, nutrition, resistance training, aging, community interventions, health disparities, sports performance, and business analytics. Our state-of-the-art laboratories are conveniently located in the HES and Collums buildings. As a HES student, research opportunities will be an integral part of your educational experience.

Curriculum

Whether you are an undergraduate or graduate student studying Health Promotion or Exercise Physiology, you will have a broad educational experience that includes biological, physical, medical, and behavioral sciences as they relate to human health and physiological response. These multidisciplinary experiences will prepare you for many exercise physiology and health promotion related careers.

Programs & Facilities

Programs for Academic Excellence

The Department of Health and Exercise Science supports the position that students should receive both broad educational preparation and disciplinary specialization to prepare effectively for future professional demands. This includes strong general education preparation with an emphasis on biological and behavioral sciences, a core of requisite coursework in HES, and an individualized block of elective coursework.

The department is equally proud of its preparation and academic standards at the graduate level. The graduate program is demanding and comparable to programs at peer institutions that have much larger student populations.

Facilities

The Department of Health and Exercise Science is located in the west wing of the S. J. Sarkeys Complex and includes modern classrooms, a student computer lab, a conference room, and offices for our faculty, staff, and graduate students, providing easy access to all members of our department. Laboratories are housed on the lower floor of the department or in the Collums Building which is within proximity to the S. J. Sarkeys Complex. For more information about faculty members, their laboratories, research experiences, and current students, please visit <https://www.ou.edu/cas/hes/research/research-laboratories>.

Undergraduate Study

The undergraduate program integrates the biological, physiological, medical, and behavioral sciences as they relate to physiological responses to exercise and other aspects of human health.

- Health and Exercise Science, Bachelor of Science (p. 416)
The Bachelor of Science is designed to train students who plan to work in the health promotion, fitness, allied health, and sports fields or to prepare students for graduate studies in Health and Exercise Science. The undergraduate program consists of a single core curriculum emphasizing applied science and professional preparation in combination with an elective block sufficiently broad to allow students to develop strong preparation in an area of personal interest related to health and exercise.
- Health and Exercise Science Minor (p. 418)
A minor in Health and Exercise Science is available to students completing their major requirements in other departments.

Lifetime Skill Activity Courses

HES courses numbered below 2000 (except HES 1823) are basic skills courses that include the teaching of specific skills, rules, and regulations when appropriate and the nomenclature of a sport or recreational activity. The basic skills courses represent lifetime health, fitness, and leisure activities to enhance the lifestyle of all participants. All basic skills courses are graded S/U and have attendance requirements.

Scholarships and Financial Aid

The department offers the Mary Anne Price and Virginia Morris undergraduate merit scholarships to HES majors who meet the eligibility criteria. Eligible HES majors may apply for these scholarships through the university's centralized academic scholarship hub.

Health and Exercise Science Student Association

HESSA strives to support HES students, improve relationships across the department (faculty, staff, students), and increase awareness of the HES major across the university. Each year, HESSA provides opportunities for students to learn about HES-related professions and network with professionals and recruiters across health disciplines. HESSA also awards a community service scholarship to two HESSA members who distinguish themselves in service to the mission of the HES department and HESSA.

Graduate Study

Master of Science Degree

Program Options

- Health and Exercise Science (p. 419) - An interdisciplinary, hybrid program integrating health education/health promotion, applied exercise physiology, and nutrition, which is designed to prepare students for health/fitness professions, working in a variety of settings.
- Health and Exercise Science: Exercise Physiology (p. 419) - A disciplinary program integrating coursework from a range of research areas in applied exercise physiology, which is designed to prepare students for doctoral training, research, and/or practice in these areas.
- Health and Exercise Science: (p. 420)Health Promotion - A disciplinary program integrating coursework from a range of research areas in health education/health promotion, which is designed to prepare students for doctoral training, research, and/or practice in these areas.
- Health and Exercise Science: Sports Data Analytics (p. 420) - A program for students seeking additional professional development and training in the use of data science and data analytics within sports organizations.

Health and Exercise Science Doctoral Programs

The Doctor of Philosophy degree (Ph.D.) can be awarded in either Health and Exercise Science: Exercise Physiology (p. 422) or Health and Exercise Science: Health Promotion (p. 422). The doctoral degree in Health and Exercise Science is awarded for excellence in research scholarship in combination with successful completion of an approved program of study consisting of coursework within and external to the Department of Health and Exercise Science. It signifies the attainment of independently acquired and comprehensive learning which evidences general professional competence.

Cellular and Behavioral Neurobiology Doctoral Programs

The Cellular and Behavioral Neurobiology Graduate Program is a campus-wide interdisciplinary program whose faculty members are from Biology, Aerospace & Mechanical Engineering (AME), Chemistry & Biochemistry (Chem/Biochem), Health and Exercise Science (HES), and Psychology.

- Cellular and Behavioral Neurobiology: Exercise Physiology, Ph.D. (p. 421)

Scholarships and Financial Aid

The department offers the Glen Michael Sims graduate merit scholarship, the Helen Riddle doctoral research scholarship, the Travis Beck Memorial Scholarship for doctoral and master's students, and the Helen Riddle Travel Award. Students should contact the department for further information and applications.

Graduate assistantships are annually available for M.S. and Ph.D. students in the Department of Health and Exercise Science contingent upon available faculty and departmental funding. Students who have been admitted to the graduate program in the Department of Health and Exercise Science are eligible for consideration.

Courses

- HES 1011 Indoor Cycling 1 Credit Hour**
Designed to teach specific skills of indoor cycling and form. Indoor cycling is a form of exercise with classes focusing on cardiovascular endurance, strength, intervals, sprints, hills, lifts and recovery, and involves using a special stationary exercise bicycle. Individuals will learn the fundamentals of indoor cycling, skills and techniques, as well as accurate terms and etiquette. (F, Sp)
- HES 1041 Yoga 1 Credit Hour**
Yoga. Beginning Level Yoga Class Focusing On Basic Asanas (Poses), Breathing, Relaxation And Meditation. Students Will Improve Their Flexibility And Body Awareness. (F,Sp,Su)
- HES 1121 Beginning Weight Training 1 Credit Hour**
To learn basic skills of weight training, i.e., warm-up, lifting techniques, training programs, etc.; to condition and strengthen the body through a continuous weight training program; to learn and appreciate the ability of correct weight training to enhance personal fitness and the carry-over value into other sports and activities. (F, Sp, Su)
- HES 1221 Individual Fitness 1 Credit Hour**
May be repeated; maximum credit eight hours. Exercise designed to condition the body for maximum health and fitness; special emphasis on cardiovascular fitness. (F, Sp, Su)
- HES 1321 Wall Climbing 1 Credit Hour**
The purpose of this class is to learn and practice the basic techniques and safety concerns for rock climbing and bouldering. (F, Sp, Su)
- HES 1331 Roller Skating 1 Credit Hour**
The course is designed to develop a working knowledge of roller skating fundamentals and their application. Promotes knowledge and awareness of popular sports involving roller skating, and students will increase strength, stamina, balance and coordination. (F, Sp)
- HES 1351 Recreational Activities 1 Credit Hour**
May be repeated with change of subject matter; maximum credit three hours. (F, Sp, Su)
- HES 1823 Scientific Principles of Health and Disease 3 Credit Hours**
Students will be exposed to the basic science-based principles needed to develop an interdisciplinary understanding of human health. The course is designed to assist students in the development of a basic understanding of the anatomical structures and physiological process that are critical to understanding the development of various diseased/disorders. (F, Sp, Su) [II-NS].
- HES 1921 Basketball 1 Credit Hour**
Teach a basic understanding of the game of basketball; skills and analysis of skills, nature and rules of the game, and strategies for game situations. (F, Sp, Su)
- HES 1941 Soccer 1 Credit Hour**
Teach a basic understanding of the game of soccer; skills and analysis of skills, nature and rules of the game, and strategies in game situations. (F, Sp)
- HES 1981 Volleyball 1 Credit Hour**
Basic understanding of the game of volleyball; skills and analysis of skills, nature and rules of the game, and strategies for game situations. (F, Sp, Su)
- HES 2131 Introduction to Health and Exercise Science 1 Credit Hour**
Designed to introduce major students to the fundamentals of HES, including curricular disciplines, basic terminology, career opportunities, and professional associations. Students will also learn basic library research skills and a working knowledge of the support services and technologies available at the University. (F, Sp)
- HES 2212 First Aid 2 Credit Hours**
Includes the theory related to causes and prevention of accidents, as well as development of sufficient knowledge to determine the nature and extent of injuries. Training focuses on taking proper procedural steps at the proper times. Upon successful completion of the course and its specific requirements, students are awarded the American Red Cross Community First Aid and CPR Certificates. Lecture and laboratory combined. May include online components. (F, Sp, Su)
- HES 2823 Introductory Nutrition 3 Credit Hours**
(Crosslisted with CLINICAL DIETETICS - AN HSC COURSE 2823)
Evaluation of basic composition of nutrients and accessory factors required for adequate human nutrition. Application of nutritional principles to the planning of normal and special dietary regimen. [II-NS].
- HES 2913 Personal Health 3 Credit Hours**
Emphasizes the health knowledge and practices needed for effective living. The course has a holistic focus on personal health and provides both an informational and behavioral basis for health promotion and disease prevention. Topics include: mental health, stress management; fitness; nutrition; alcohol, tobacco, and other drug education; sexuality; and chronic/infectious disease. (F, Sp)
- HES 2970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- HES 3000 Special Topics in Health and Exercise Science 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Topics in health and exercise science not accommodated by the existing curriculum. Example: psychological factors in exercise adherence, i.e., personality traits of select exercise individuals, reinforcement procedures, personal goals as related to exercise needs, etc. (Irreg.)
- HES 3021 Sports Officiating: Football and Volleyball 1 Credit Hour**
Prerequisite: ENGL 1213 or EXPO 1213. Standards and principles involved in the art of officiating with emphasis on football and volleyball. Laboratory experience required. (F)

- HES 3031 Sports Officiating: Basketball, Softball, and Baseball** **1 Credit Hour**
Prerequisite: English 1213 or Expository Writing 1213. Standards and principles involved in the art of officiating with emphasis on basketball, softball, baseball, and track and field. (Sp)
- HES 3213 Principles and Practice of Sport Management for Non-HES Majors** **3 Credit Hours**
Prerequisite: Non-HES major and junior standing. Survey course covering fundamental management functions, structural components of sport organizations, management and leadership techniques commonly employed in effective sport organizations, human resource management strategies, and current trends in sport management. (F, Sp, Su)
- HES 3430 Field Experiences in Health and Exercise Science** **1-4 Credit Hours**
1 to 4 hours. Prerequisite: junior standing or permission of department. May be repeated with change of activity or advanced position; maximum credit four hours. Field study related to student's area of interest (athletic coaching, athletic training, exercise science, health promotion, sport management) as approved by the department's field supervisor of adviser. A contract is required prior to beginning the field experience. The contract will address: statement of purpose, process of submitting reports, on-site evaluations, and written evaluations by student and site supervisor. (F, Sp, Su)
- HES 3440 Mentored Research Experience** **3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- HES 3502 Care and Prevention of Athletic Injuries** **2 Credit Hours**
Prerequisite: HES 2212 or equivalent CPR/AED/First Aid certification; three hours of biological science and three credit hours of social science. Recognition, cause, prevention, treatment, rehabilitation of athletic injuries; taping methods, protective equipment, and doctor's recommendations; equipping the training room, conditioning the athlete, practice routines and the athlete's diet. Laboratory (F, Sp)
- HES 3513 Health Promotion Program Planning** **3 Credit Hours**
Prerequisite: HES major or permission of instructor. Discussion of health promotion programming in disease prevention, risk reduction, and wellness. Understanding the theoretical issues related to the development and evaluation of health promotion programs and the behavioral dimensions of health promotion. (F, Sp)
- HES 3523 Human Sexuality** **3 Credit Hours**
Prerequisite: 2913, Psychology 1113. An introduction to biological, psychological, and sociological concepts which form the interdisciplinary foundation for studying human sexuality. Current research findings in all areas will be emphasized. Areas of emphasis will include: personal, social, sexual, and gender identity development across the lifespan, interaction and communication within social and intimate relationships, and reproductive and other health-related sexuality issues. (F, Sp)
- HES 3543 Health and Wellness Coaching** **3 Credit Hours**
Prerequisite: junior standing and HES 2913. Encourages participants to successfully adopt healthier lifestyle behavior. Explores the development and efficacy of health and wellness coaching and develops the ability to implement basic coaching skills when working with patients and wellness clients. (Sp)
- HES 3553 Wellness in Native Communities** **3 Credit Hours**
Prerequisite: junior standing and HES 1823 or HES 2913. Designed to explore and understand the principles of individual and community wellness from the perspective of both mainstream society and from within the cultural frame of native beliefs and values. (F)
- HES 3563 Lifestyle Intervention** **3 Credit Hours**
Prerequisite: HES major or permission. Examines the relationship between individual behavior and the health status of a community. Current lifestyle intervention literature will be the focus. Application of intervention strategies will be presented for school, worksite, and community settings. (Irreg.)
- HES 3573 Obesity and Weight Management** **3 Credit Hours**
Prerequisite: junior standing and HES 2913 and either HES 1823 or BIOL 2124. Provides students with knowledge of the physiology and psychology of obesity and overweight. Designed to educate students not only on the scientific background of obesity but how to apply this knowledge to management of obesity in the general and specific populations they will be serving. (F)
- HES 3583 Sociocultural Aspects of Health** **3 Credit Hours**
Prerequisite: junior standing. Designed to offer a comprehensive approach to understanding social injustice and its impact on health. Particular attention will be given to research emphasizing social determinants as the underlying causes of ill health in the American society. (F, Sp)
- HES 3813 Principles of Health and Fitness** **3 Credit Hours**
Prerequisite: HES major or permission of instructor. Study of the underlying principles of life sciences that contribute to an understanding of the role of physical activity in health, fitness, and sports medicine. Specific reference to an overview of public health and disease, anatomy and biomechanics, exercise physiology, health appraisal and fitness testing and programming, human development and behavior, and program management. Laboratory (F, Sp, Su)
- HES 3823 Physiology of Exercise** **3 Credit Hours**
Prerequisite: 3813 and Health and Exercise Science major or permission of instructor. Introductory study of principles and concepts of exercise physiology. Theoretical and scientifically established mechanisms are explored that explain the body's response, adaptation, and concomitant regulation during acute and chronic exercise. Applications presented in the clinical, sport, occupational, and normal exercise settings. Focus is on an understanding of the body's function from the cellular to systemic level during exercise. An understanding of assessment and physical training principles to explain health and performance is emphasized. Specific factors that affect the physiological bases of human performance are investigated. (Irreg.)
- HES 3843 Biomechanics** **3 Credit Hours**
Prerequisite: MATH 1523 or MATH 1743 or PHYS 2414, and BIOL 2255 or BIOL 2234, and junior standing. The integrated study of anatomy, physiology, and mechanics with emphasis on understanding the anatomical and functional aspects of human movement in the area of health and exercise science, such as in clinical, daily living, and sport applications. (F, Sp)

HES 3853 Exercise Testing and Prescription 3 Credit Hours

Prerequisite: HES 3813 and Health and Exercise Science major or permission of instructor. Introduces the exercise science student to the theoretical and functional techniques of graded exercise testing for functional and/or diagnostic assessment. Equal time will be spent between lecture and lab as students will be provided the theoretical background for all testing methods commonly used in both a health and fitness scenario as well as an introduction to how these methods can be used clinically. This course is designed to prepare exercise science students for the American College of Sports Medicine's Health/Fitness Instruction Certification. Laboratory (F, Sp)

HES 3873 Principles of Personal Training 3 Credit Hours

Prerequisite: junior standing. Designed to prepare individuals who are interested in becoming certified personal trainers (CPT) through the National Strength and Conditioning Association. Instruction is provided describing basic exercise physiology as well as the principles of developing a personal training regimen for a typical gym trainee. Course experiences will reinforce training principles and teach the basic skills necessary for certification. (F, Sp)

HES 3883 Principles of Endurance Training 3 Credit Hours

Prerequisite: BIOL 2124 and BIOL 2255 or 2234 with a grade of C or better, and junior standing. Emphasis will be placed on understanding physiology related to endurance performance and principles of endurance training. Performance testing procedures for predicting endurance performance will be conducted throughout the semester. In addition, it will be required that an endurance training program utilizing the information covered in class will be designed. (F, Sp)

HES 3893 Facts and Fallacies of Exercise and Nutrition 3 Credit Hours

Prerequisite: Non-majors only and English 1213 or Expository Writing 1213. Provides meaningful and practical guidelines on how to recognize and dispel many of today's popular myths regarding exercise and nutrition. Course concepts will emphasize the proper use of scientific evidence to either dispel current topics as fallacy or confirm as fact. Sample current topics may include fads, infomercial products, weight loss, aerobic exercise, resistance exercise, dietary supplements, and exercise/sport nutrition, along with the effect of media and advertising and marketing ploys on these topics. (Irreg.)

HES 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Study of current research developments in health and sport sciences. An opportunity for the Honors' candidate to work with a faculty mentor on a research project of special interest to the student in the health and sport sciences. (F, Sp, Su)

HES 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. An opportunity for the Honors' candidate to work with a faculty mentor on a research project of special interest to the student. (F, Sp, Su)

HES 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

HES 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

HES 4213 Management in Health and Exercise Science 3 Credit Hours

Prerequisite: junior standing. Concentration on the following course topics: defining facility types, management and employees, facility systems, equipment and maintenance, programming and targeting audience, for profit – not for profit, marketing and sales, finance, budgeting and funding sources, legal responsibilities, safety and quality control. Class will regularly visit a wide range of health clubs, sports facilities, fitness, golf and recreational environments. (Irreg.)

HES 4273 Sport Finance 3 Credit Hours

Prerequisite: HES 3213 or ACCT 2113 or permission of instructor. Discussion and study of methods and techniques for funding sport programs, professional and amateur sports. Topics include financial challenges faced by sport organizations and the garnering of resources from the public sector, external sources, and enterprise activity. Emphasis will be placed on present valuations, financial risk management, the capital budgeting process, and exercising sound financial decision-making. (Sp)

HES 4283 Sports Economics and Policy 3 Credit Hours

Prerequisite: HES 3213 or ECON 1123. Analyzes the unique features of the sport industry relative to the principles of economics. Sport is one of the top twenty industries in the United States, with over eighty billion consumer dollars being spent on an annual basis. Students will review the basics of economic theory and apply these principles to the management decisions of modern and global sport organizations. Emphasis will also be placed on the economic aspects of public finance for sport facility construction and other forms of subsidization within the sports industry. In addition, important current economic issues will be discussed as they relate to the governance of professional sports leagues and intercollegiate athletics. (F, Sp)

HES 4430 Internship in Health and Exercise Science 1-4 Credit Hours

1 to 4 hours. Prerequisite: HES major and nine credit hours of HES major core, and departmental permission. May be repeated; maximum credit 4 hours. Practical experience in administration, techniques, organizational structure and appropriate materials used with health, fitness or sport-related occupations. (F, Sp, Su)

HES 4503 Principles of Community Health 3 Credit Hours

Prerequisite: Health and Exercise Science major or permission of instructor. Examines the importance of maintaining, protecting, and improving the health of people through organized community efforts. Basic concepts in community health and a review of the historical foundations of community health will be presented. (F, Sp)

HES 4513 Public Policy Impact on Health Promotion 3 Credit Hours

Prerequisite: junior standing and HES 1823 or HES 2913. As health promotion becomes more popular in the workplace, many organizations are struggling with existing and new regulations that help guide and ensure that compliant programs are being created. Examines existing policies and new policies that will have an impact on the delivery of health promotion programs. Topics include, but are not limited to, Healthy People 2020, CDC, State of Oklahoma Health Department, and Economic Theories on Wellness, Health Care Reform Impact and Tobacco Free Policies. (F, Sp, Su)

- HES 4523 Human Sexuality II 3 Credit Hours**
Prerequisite: 3523 or permission. In-depth study of human sexuality from a biopsychosocial perspective which emphasizes the roles of biology, psychological factors, and social learning. Area studies will include sexual and gender development across the life span; interaction and communication within intimate relationships; reproductive and health-related sexuality topics; and a historical look at the evolution of mating and love relationships. In addition, students will examine the integration of human sexuality issues and education in health-related occupations. (Irreg.)
- HES 4543 Comprehensive Stress Management 3 Credit Hours**
Prerequisite: BIOL 2234 or BIOL 2255 and BIOL 2124 and a course in Psychology. Helps students gain an awareness of stress and its effects, practice management techniques to reduce personal stress, and implement those techniques in their daily lives as well as the lives of others (school, community, corporation, etc.). Topics include: psychophysiology of stress, stress and disease, nutrition, personal planning and time management, cognitive restructuring, relaxation, and biofeedback. (Irreg.)
- HES 4573 Chronic Disease Intervention 3 Credit Hours**
Prerequisite: Health and Exercise Science major or permission of instructor. Provides a basic understanding of disease process in selected chronic diseases and intervention strategies for risk reduction and chronic disease prevention. Basic principles of epidemiology and chronic disease surveillance will also be covered. (Irreg.)
- HES 4823 Sport and Exercise Nutrition 3 Credit Hours**
Prerequisite: junior standing, HES 2823 and CHEM 1315. Provides a basic understanding of the influence of nutrition on sport and exercise performance. Requires students to integrate their knowledge of nutritional physiology, biochemistry and intermediary metabolism with that of exercise physiology and to apply this knowledge to develop a critical understanding of the nutritional and practical dietary needs of individuals participating in sport and exercise. (F, Sp)
- HES 4833 Physiology of Exercise Laboratory 3 Credit Hours**
Prerequisite: HES Major and HES 3813 or permission of instructor. Laboratory experiments emphasizing the understanding of fundamental physiological mechanisms, regulating responses, and adaptation to exercise. Basic analytical methodologies pertaining to the energy, muscular and circulatory systems. Includes factors affecting physiological performance capacities and experimental basis of exercise assessment and training. Laboratory (F, Sp)
- HES 4863 Physical Activity and Aging 3 Credit Hours**
Prerequisite: permission of instructor. Discussion of general concepts of aging and the issues related to dying, the expected changes related to aging in the various physiological systems, i.e., body composition, cardiovascular, bone, and skeletal muscle. In addition, exercise programming concerns for the aged as well as the possible benefits of exercise during aging will be discussed. (Irreg.)
- HES 4883 Advanced Strength and Conditioning 3 Credit Hours**
Prerequisite: BIOL 2124, and BIOL 2255 or 2234 with a grade of C or better, and junior standing. Advances knowledge of strength and conditioning concepts in an applied setting. Prepares students to confidently and specifically design strength and conditioning programs for all populations including athletes, elderly and children, as well as to successfully demonstrate and teach all lifts and conditioning drills. (F, Sp)
- HES 4933 Drug Education 3 Credit Hours**
Prerequisite: 2913. Beneficial and harmful uses and effects of drugs. Motivations behind drug abuse, especially among youth, and implications of this problem on the individual, school and society. Consideration given to legislative and educational efforts. Investigation of interpersonal skills and communication interaction techniques. The use of values-clarification techniques. (Irreg.)
- HES 4953 Senior Capstone 3 Credit Hours**
Prerequisite: Health and Exercise Science major, senior standing and permission of instructor. An integration and synthesis of the major disciplines of study in the health and exercise science. Readings, discussions and research methods will focus on applications and problem solving approaches related to contemporary policy, economic, social and ethical issues. (F, Sp) [V].
- HES 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- HES 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- HES 4973 Mediterranean Diet & Culture 3 Credit Hours**
Prerequisite: Application and acceptance to this specific study abroad program through OU Education Abroad. Taught on the OU-Arezzo campus. Students will experience the culture of Tuscany, including the eating habits of people from the region. Students will tour farms and food production facilities for ham, cheese, olive oil, and wine. Cooking classes introduce students to making pasta and other traditional Tuscan foods. The culture is also experienced through visits to areas that surround Arezzo. (Su)
- HES 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- HES 5000 Issues and Procedures in Health and Exercise Science 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of content; maximum credit six hours. Current topics such as the following: exercise prescription for the elderly; adherence to physical activity, exercise/sport. (Irreg.)
- HES 5283 Sports Financial and Market Analytics 3 Credit Hours**
Prerequisite: graduate standing and one of the following: HES 5953, MIT 5742, EIPT 6023, ECON 4233, PSY 5013, MATH 5773; or permission of instructor. The objective of this course is to analyze the unique features of the sports industry relative to principles of financial management and economics. Students will employ basic financial and econometric modeling to the management of sports organizations. Emphasis will be placed on labor markets, sports consumer demand, public finance for facilities/events, and other forms of subsidization of the sports industry. (F)

HES 5313 Athlete Tracking and Monitoring in Sports 3 Credit Hours

Prerequisite: graduate standing and permission of instructor. The objective of this course is to analyze methodologies used to track/monitor the loads imposed on athletes during training and competition. The validity, reliability, and efficacy of methodologies will be evaluated. Students will review performance testing, data acquisition, and data analysis and will develop data visualizations that relay the status of an athlete to the sports performance team. (F)

HES 5430 Internship in Health and Exercise Science 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and successful completion of course requirements in HES area of study; student must have completed a minimum of 12 course hours, including all core requirements, before enrolling in internship. May be repeated; maximum credit six hours. Internship hours will be counted as elective hours towards the normal course requirement (i.e., 30-32 hours). Field experience in area of study. Participation in on-the-job experiences in a wide range of hosting agencies, businesses and institutions. (F, Sp, Su)

HES 5513 Perspectives in Global Health 3 Credit Hours

Prerequisite: graduate standing. Examines major global health challenges, programs and policies. Students will be introduced to the world's vast diversity of determinants of health and disease, and current and emerging global health priorities will be discussed, including: emerging infectious diseases, poverty, conflicts and emergencies, health inequity, health systems reforms, and major global initiatives for disease prevention and health promotion. (F, Sp)

HES 5523 Health Promotion Strategies 3 Credit Hours

Prerequisite: graduate standing. Will provide students with a basic introduction to the principles of health promotion. Specific topics will include risk appraisal and risk reduction, behavior change theories, program planning and management, holistic health/wellness, and others. (F)

HES 5553 Health Promotion Evaluation 3 Credit Hours

Prerequisite: graduate standing and permission of instructor. Examination of the processes used to evaluate health promotion and health education programs. Includes: needs assessment, quality assurance evaluation, summative evaluation, data analysis, and cost benefit analysis strategies. (Irreg.)

HES 5563 Health Behavior I: Individual and Group Influences 3 Credit Hours

Prerequisite: Graduate standing or permission of instructor. Focuses on behavioral theories and research which are pertinent to understanding factors/conditions that influence the development of and change processes related to health behavior in individuals or small groups such as family units. It is designed to provide a knowledge and theoretical base for integration of behavioral principles into research design and health promotion programming. (Sp)

HES 5823 Exercise Physiology 3 Credit Hours

(Crosslisted with I E 5823) Prerequisite: Industrial Engineering 4824; Zoology 3104 or 3133; Physiology 5016 or 5019; or permission. Advanced study of physiological responses, regulatory mechanisms and adaptations of human performance and health; factors affecting performance and health; and training and evaluative techniques. (F)

HES 5833 Advanced Exercise Physiology Laboratory 3 Credit Hours

Prerequisite: 5823 or permission. Laboratory experiments of a theoretical and applied nature emphasizing advanced concepts of physiological mechanisms, regulating responses and adaptation to exercise. Analytical and prescriptive methodologies pertaining to the energy, muscular and cardiorespiratory systems, including body composition techniques. Laboratory (Sp)

HES 5853 Health Fitness: Theory and Application 3 Credit Hours

Prerequisite: 3513 or 4513 and Zoology 3133, or equivalent; graduate standing. A multidisciplinary study of health-fitness theories and their applications in preventive health. Emphases are threefold: first, to understand the underlying theoretical framework of epidemiological, biological and behavioral concepts; second, to develop skills to implement programs emphasizing physical fitness assessment and prescription; third, to critically examine the role of physical activity and fitness strategies in preventive and therapeutic health settings.

HES 5863 Physiology of Aging 3 Credit Hours

Prerequisite: Physiology 2124, 3104 or Zoology 3133, or permission of instructor. Discuss the various theories of aging as well as the age expected changes in the various physiological systems (cardiovascular, respiratory, muscle, bone, nerve and body composition). In addition, exercise programming concerns for the aged as well as the possible benefits of exercise during aging will be discussed. (F)

HES 5883 Exercise Endocrinology 3 Credit Hours

Prerequisite: 5823 or permission of instructor. In-depth examination of the role of the endocrine system on regulating acute and chronic metabolic responses to exercise. Special endocrine issues related to exercise physiology (i.e., diabetes) will be studied. (Irreg.)

HES 5903 Sports Performance Analytics 3 Credit Hours

Prerequisite: graduate standing, and one or more of the following: HES 5953, MIT 5742, EIPT 6023, ECON 4233, PSY 5013, or MATH 5773; or permission of instructor. Sports analytics refers to the use of data and quantitative methods to measure performance and make decisions within a sports business. This course builds on statistics courses and is designed to help students develop and apply analytical skills using various sports contexts. The primary objective is to help students understand what data can and cannot do for sport organizations. (Sp)

HES 5940 Intensive Studies in Health and Exercise Science 1-6 Credit Hours

1 to 6 hours. Prerequisite: graduate standing or permission. Completion of research project under faculty supervision. Meets research requirement for non-thesis option. (F, Sp, Su)

HES 5953 Research Methods in Health and Exercise Science 3 Credit Hours

Prerequisite: graduate standing. Methods and techniques used in the design and interpretation of health promotion and exercise science research. Emphasis on scientific writing and library use. (Sp)

HES 5960 Directed Readings in Health and Exercise Science 1-6 Credit Hours

1 to 6 hours. Prerequisite: graduate standing, permission. Designed for graduate students to provide them with an opportunity to investigate selected problems in the field. Thirty hours library and research work for each credit hour. Consultations with instructor required. Written report. Required for all students in a nonthesis program. (F, Sp, Su)

HES 5963 Statistical Applications in Health and Exercise Science 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. The application of techniques used to organize, analyze, and interpret statistical data unique to health and exercise science. Topics include measures of central tendency, measures of variability, percentiles, sampling, correlation, regression, standard scores, and tests of significance through repeated measures ANOVA and including parametric, non-parametric tests. (Irreg.)

- HES 5970 Seminar in Health and Exercise Science 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing. May be repeated with change of subject matter; maximum credit six hours. Study of pertinent and current problems of research. Students may use seminars to identify and develop thesis projects. Required written paper and research. (Sp)
- HES 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. Required of all students writing master's thesis. Consultations with major professor required as thesis progresses. (F, Sp, Su)
- HES 5990 Independent Study in Health and Exercise Science 1-6 Credit Hours**
1 to 6 hours. Prerequisite: graduate standing or permission. A study of selected problems under guidance of instructor. At least twenty-five hours of library and research time required for each hour of credit carried. Final paper required. (F, Sp, Su)
- HES 6000 Variable Topics in Health and Exercise Science 1-3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Course will consist of variable topics in health and exercise science. (Irreg.)
- HES 6513 Qualitative Research Methods in Health Promotion 3 Credit Hours**
Prerequisite: graduate standing. Designed to provide students with a theoretical and skill base to apply basic qualitative research methods (observation, interviewing and focus groups) to a wide range of health promotion areas and to critically evaluate the application of qualitative skills to a community setting. Over the semester, a community-based qualitative research project will be conducted. Heavily emphasizes application of concepts and student participation in the learning process. (Irreg.)
- HES 6523 Social Marketing in Health Promotion 3 Credit Hours**
Prerequisite: 5523 or permission of instructor. Focuses on the incorporation of basic marketing principles into strategies for behavioral and social change. Targeted outcomes include individual behaviors, group/population norms, environmental supports and policies pertinent to health promotion and/or public health issues. (Su)
- HES 6553 Advanced Measurement and Evaluation 3 Credit Hours**
Prerequisite: HES 5553 or permission of instructor. Issues related to measurement and evaluation in health promotion will be discussed. Different measurement techniques and instruments used in health promotion will be examined and critiqued, and principles of instrument development will be addressed. Issues related to the evaluation of health promotion program outcomes will serve as a context for the course. (Irreg.)
- HES 6563 Health Behavior II: Community, Organizational and Population Influences 3 Credit Hours**
Prerequisite: HES 5563 or permission of instructor and graduate standing. Focuses on examining new and emerging theories used in health promotion to conduct research in organizational/community/individual change, and to improve health and quality of life. Emphasis on exploring the conceptual and methodological issues associated with theory-based research. (Sp)
- HES 6583 Chronic Disease Assessment and Intervention 3 Credit Hours**
Prerequisite: graduate standing and permission of instructor. Provides basic understanding of selected chronic diseases including assessment, disease process, pharmacological and medical treatment and intervention strategies for reducing risk. (Irreg.)
- HES 6823 Cardiorespiratory Exercise Physiology 3 Credit Hours**
Prerequisite: 5823 or permission of instructor. This course covers a variety of topics in cardiorespiratory exercise physiology, including factors that regulate fatigue during endurance exercise, factors that limit maximal aerobic power, regulation of heart rate and blood flow during isometric and dynamic exercise, and cardiovascular adaptations to aerobic training programs. Assessment techniques for cardiorespiratory function will be discussed in depth. Laboratory (Irreg.)
- HES 6833 Human Body Composition 3 Credit Hours**
Prerequisite: 5823 or permission of instructor. Theoretical and applied aspects of body composition assessment. Topics include limitations and usefulness of laboratory and field methods for assessing body composition in research, clinical and health/fitness settings. Evaluation of body composition research and application to health and clinical populations. Laboratory (Irreg.)
- HES 6843 Neuromuscular Physiology 3 Credit Hours**
Prerequisite: 5823 or permission of instructor. This course examines the structure and function of the central and peripheral nervous systems and skeletal muscle. Emphasis will be placed on how the central nervous system and motor units respond to conditions such as fatigue, exercise training, vibration, stretching, injury and disease. Laboratory (Irreg.)
- HES 6883 Endocrinology and Metabolism of Exercise 3 Credit Hours**
Prerequisite: 5823 or permission of instructor. Provide in-depth examination of the energy metabolism during exercise and the role of endocrine system in regulating acute and chronic metabolic responses to exercise. Special endocrine issues related to physiology (i.e. diabetes) will be studied. Laboratory (Irreg.)
- HES 6960 Directed Readings in Health and Exercise Science 1-6 Credit Hours**
Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit six hours. Special reading programs are designed to enable graduate students (1) to extend their study to fields that are not covered in other courses and/or (2) to provide an opportunity for more intensive study of subjects covered in other courses. (F, Sp, Su)
- HES 6970 Seminar in Health and Exercise Science 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing in HES or permission of instructor. May be repeated with change of subject matter; maximum credit four hours. Study of pertinent and current problems of research. Students may use seminars to identify and develop area of dissertation research. (Irreg.)
- HES 6980 Research for Doctoral Dissertation 2-12 Credit Hours**
2 to 12 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- HES 6990 Independent Study in Health and Exercise Science 1-3 Credit Hours**
1 to 3 hours. Prerequisite: master's degree and permission of instructor. May be repeated; maximum credit 12 hours. Supervised research for advanced graduate students on major projects with a faculty member. (F, Sp, Su)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed

Health & Exercise Science, B.S.

Minimum Total Credit Hours: 120

Major Hours: 43

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B500

Admission Requirements for the Bachelor of Science in Health and Exercise Science

Students interested in entering the HES undergraduate degree program must apply for matriculation into the upper division HES core curriculum. Final admission to HES is a competitive process that is based on the following criteria: prerequisite course GPA and combined retention GPA. Students will be selected for admission from a pool of applicants who have completed all prerequisite coursework, have both prerequisite and combined retention GPA of 2.75 or higher, and have submitted all required HES application materials. Please note that due to limited resources for this program not all students with the minimum 2.75 GPA are admitted. Depending on the number of applicants and their GPA distributions, the minimum GPA required for consideration may not be competitive and does not guarantee admission.

Admission to this major is a selective process. Not all students with the minimum 2.75 are admitted due to limited resources for this program. Contact the Department of Health & Exercise Science for information about the HES admission process.

A grade of C or better is required in all HES courses and in all major support requirements.

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**

Code	Title	Credit Hours
Health & Exercise Science		
HES 2131	Introduction to Health and Exercise Science	1
HES 2823	Introductory Nutrition	3
HES 2913	Personal Health	3
HES 3513	Health Promotion Program Planning	3
HES 3563	Lifestyle Intervention	3

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹

Core Area III: Social Science (6 hours)

P SC 1113 American Federal Government 3

Choose one course from the General Education Social Science list 3

Core Area IV: Arts and Humanities (18 hours)

Artistic Forms

Choose one course from the General Education Artistic Forms list 3

Western Culture

HIST 1483 United States to 1865 3

or HIST 1493 United States, 1865 to the Present

Choose one course from the General Education Western Culture list (excluding HIST 1483/1493) 3

World Culture

Choose one course from the General Education World Culture list 3

Additional Core IV Upper-Division Arts & Humanities courses

Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3} 3

Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3} 3

Core Area V: First Year Experience (3 hours)

Choose one course 3

Total Credit Hours 56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Health & Exercise Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Health & Exercise Science major requirements.

Students who have completed prerequisites and meet the minimum grade point average requirement must file an application to be admitted to the program. Because admission is competitive, not every applicant will be admitted.

Health & Exercise Science, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 12

Program Code: N500

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP,

Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Health & Exercise Science.

Required Courses

Students must successfully complete, with the grade of C or better, at least 18 hours of courses acceptable for major credit in Health and Exercise Science, including at least 12 hours at the upper-division level. In addition to HES 1823 and HES 2913, students must complete twelve (12) additional upper division hours, which can consist of four 3-hour upper-division electives, or any combination of appropriate upper-division electives that will total twelve (12) hours.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
HES 1823	Scientific Principles of Health and Disease	3
HES 2913	Personal Health	3
Choose 12 hours of courses acceptable for major credit in HES ^{1,2}		12
Total Credit Hours		18

¹ HES 3893 may be used for HES minor credit.

² Students obtaining a minor in HES are *not* eligible for Internship or Independent Study hours.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Total Credit Hours 90

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

General Information

The study of History has always claimed a place at the center of a liberal arts education. By understanding the experiences of people who lived in the near and distant past, students gain a far sharper perspective on their own place in the world. Knowing the past enhances our capacity to understand the present and imagine the future. History also sharpens our research and writing skills and hones our ability to think critically and imaginatively.

Studying the past – whether it's near or distant, foreign or familiar – is fascinating. History Majors at the University of Oklahoma work closely with faculty distinguished for both teaching and research. The research, analytical, and writing skills that History majors develop help them advance in a wide range of careers. History majors pursue careers in fields such as law, public service, business, journalism, information management, military service, or medicine. Others use their historical expertise and knowledge of other cultures more directly as teachers, museum curators, public historians, workers in non-profit agencies, or Peace Corps volunteers. Some go on to graduate school to become professional historians. Numerous government agencies such as the Foreign Service, CIA, FBI, national and state parks, the Peace Corps, and social services have positions for history graduates. Other hiring institutions include business corporations, educational institutions, the travel and tourism industry, the media (newspapers, journals, TV and film), museums, foundations, and public relations firms. History is an excellent major for students wishing to go on to law school. Graduates with liberal arts degrees (including history) are prime candidates for executive training programs in private business. They may become archivists, curators, consultants, analysts, criminologists, genealogists, librarians, lawyers, teachers, researchers, writers, or publishers. In addition to the many career benefits, history majors will discover that their studies give them the perspective to participate more fully in the world around them.

Programs & Facilities

Schusterman Center for Judaic and Israel Studies

The Schusterman Center (p. 476) is housed within the Department of History. The center offers an undergraduate major in Judaic Studies and a minor in Judaic & Israel Studies through the Department of History, and a Hebrew language minor through the Department of Modern Languages, Literatures and Linguistics. Graduate students may select a major field in Judaic/Israel History through the Department of History's graduate program. The programming and scholarship opportunities of the Schusterman Center are interdisciplinary and serve as bridge from history to other departments and colleges at the University.

Internship Program

The History Department's Service Learning Internship Program is one of only six service learning credit opportunities on the OU Norman campus. The program's mission is to provide History majors with hands-on experience analyzing, organizing, preserving and/or presenting history for and to the public. We place undergraduate interns at local historical organizations and agencies every spring, summer and fall semester. We are proud to coordinate with our site sponsors at organizations such as the Oklahoma City National Memorial and Museum, the Oklahoma Historical Society, the Oklahoma Department of Libraries and on-campus opportunities with Bizzell Memorial Library.

Scholarships and Financial Aid

- Annual Awards and Fellowships - for outstanding undergraduate and graduate students
- Other Funds - for conference travel and research are available on a competitive basis from the Department of History, the Graduate College, the Dodge College of Arts and Sciences, and the Graduate Student Senate. Students should consult those offices or (in the case of graduate students) the Director of Graduate Studies for application information.

Undergraduate Study

The History Department allows majors to tailor their upper-division coursework to reflect their historical interests. As a major, you will choose from two tracks: The Traditional Major offers a variety of geographic, chronological, and thematic perspectives. The Field of Concentration major allows you to focus on a particular region (like the U.S. or Asia) or theme (like Women's and Gender History or History of War, Revolution, and Diplomacy). Whichever track you choose, you will progress through three small seminars designed to teach you the skills that are central to our discipline: HIST 2573 (History Sleuth); HIST 3573 (The Junior Colloquium); and HIST 4973 (The Senior Capstone). Because each of these courses builds on its predecessor, you are strongly encouraged to take them in order.

If you have any questions about majoring or minoring in history, please contact our Director of Undergraduate Studies, Dr. Rhona Seidelman. You can also visit the Undergraduate Studies page of our website.

- History, Bachelor of Arts (p. 436)
 History majors choose from two tracks: the Traditional Major offers a variety of geographic, chronological, and thematic perspectives; and the Field of Concentration major focuses on a particular region or theme.

- History Minor (p. 438)
Students majoring in other subjects may elect to minor in history.

Graduate Study

The Department of History at the University of Oklahoma offers premier graduate programs in the history of the American West, Native American History, Latin American History, Environmental History, Transnational Women's and Gender History, and Judaic History. Our faculty are leaders: They publish books and articles that help define their fields. They serve as officers in professional organizations. And they offer close, one-to-one mentoring to students working toward both the M.A. and Ph.D. degrees.

Our graduate students benefit from special fellowships, travel and research support, innovative lecture series, and a dynamic sense of purpose. They have garnered an impressive range of nationally and internationally competitive research fellowships and pre- and post-doctoral fellowships. Our program also boasts an excellent placement record: Our graduates have built successful careers as tenure-track professors at research universities and liberal arts colleges; public historians; and scholarly editors.

We offer our students unparalleled research resources. The University of Oklahoma's Bizzell Library has over 2.5 million books, more than 1.6 million government publications, over 3 million pieces of microform, and subscribes to 16,000 journals. The University is also home to the Western History Collections, one of the most important facilities in the world for the study of Native American, Western American, and Environmental History. It contains 65,000 books, 10,000 cubic feet of manuscripts, and nearly 2 million photographic images. The manuscript collection of the Carl Albert Center houses the papers of many public figures important to the American West. The Charles M. Russell Center for the Study of the Art of the American West provides access to an extensive collection of books, manuscripts, theses and dissertations, periodicals and journals, artist files, and slides on western American and Native American art. The Sam Noble Natural History Museum, one of the nation's largest connected to either a public or private university, offers rich research opportunities for those interested in studying Native American, Western American, and environmental history. Finally, the Oklahoma Historical Society, in Oklahoma City, offers access to thousands of documents.

Master of Arts

The department offers a thesis and a non-thesis option for the Master of Arts (p. 439) degree in History.

Doctor of Philosophy (PhD)

The Doctor of Philosophy Degree (p. 439) is offered primarily in one of the department's core areas. Detailed information may be obtained from the graduate liaison of the department and by visiting our website.

Courses

HIST 1113 History of Medieval Europe 3 Credit Hours

History of Europe from the fall of Rome to the end of the 15th century. Emphasis on the development of social structures and culture forms, and the sociocultural background of political and religious developments. (F, Sp)

HIST 1223 Europe, 1500 to 1815 3 Credit Hours

An introductory survey of Europe in the early modern period. Topics include the Reformation, development of the nation-state, the Enlightenment, and the French Revolution and Napoleon. (F, Sp) [IV-WC].

HIST 1233 Europe since 1815 3 Credit Hours

An introductory survey of Europe from 1815 to the present. Examines the major political, economic, social and cultural trends in the major countries and European foreign affairs and overseas expansion. (F, Sp) [IV-WC].

HIST 1303 The History of Disease 3 Credit Hours

Prerequisite: English 1213/Expository Writing 1213 or permission of instructor. Examines contagious disease in the 20th century. It explores a time period— following the discovery of antibiotics— in which biomedicine seemed invincible. The course, as it moves later into the 20th century, when the AIDS virus and resistance to antibiotics turned contagion into a new, and thoroughly modern, threat. (Irreg.) [IV-WC].

HIST 1483 United States to 1865 3 Credit Hours

A general survey of United States history to the end of the Civil War, with emphasis upon national political, diplomatic, economic, constitutional, social and intellectual developments. (F, Sp, Su) [IV-US].

HIST 1493 United States, 1865 to the Present 3 Credit Hours

A general survey of United States history from the Civil War to the present day, with emphasis upon national political, diplomatic, economic, constitutional, social and intellectual developments. (F, Sp, Su) [IV-US].

HIST 1543 Introduction to American Indian History 3 Credit Hours

A history of American Indian people in North America and their role in shaping American history through the early 1970's. Emphasis will be on how cultural values influenced Indian-European interactions and how cultures change over time. (F, Sp) [IV-WDC].

HIST 1563 The Jews: From Abraham to Zionism 3 Credit Hours

Introduces students to both the basics of Jewish history and the different disciplinary inquiries into the Jewish experience. The course covers biblical, rabbinic, medieval and modern Jewries in the ways in the ancestral homeland (e.g. Israel) and in the diaspora (e.g. other lands in which Jews settled). (Irreg.) [IV-WC].

HIST 1573 The Artists' Bible - From Mosaics to Graphic Novels 3 Credit Hours

The Artists' Bible presents major artistic movements. Students explore mosaics, paintings, architecture, sculpture, graphic novels that expand the Bible's compact language. We begin with Genesis and end with Revelation. We focus primarily on western art with Middle Eastern counterexamples. Female and male characters will be analyzed. Overviews the Bible and artistic tradition. Involves analysis of biblical passages that invited visualization. (F) [IV-AF].

HIST 1613 Western Civilization I 3 Credit Hours

History and culture of western civilization from origins of Greek society to end of religious wars in seventeenth century. (F) [IV-WC].

HIST 1623 Western Civilization II 3 Credit Hours

History and culture of western civilization between 1660 and the present. Emphasis will be placed on western institutions and ideas, their evolution, and their influence elsewhere. (Sp) [IV-WC].

HIST 1723 East Asia to 1600 3 Credit Hours

A general survey of the histories of China and Japan with the history of Korea included as it bears upon the history of Japan. The focus is on the political, social, economic, and intellectual aspects of China and Japan, and their points of contact. (Irreg.) [IV-WDC].

HIST 1733 East Asia Since 1600 3 Credit Hours

A general survey of the histories of China, Japan, and Korea from 1600 to the present. Focus is on the political, social, and economic systems of these countries, major historical events and intra-Asian interactions. (Irreg.) [IV-WDC].

- HIST 1923 World Civilization 1600-Present 3 Credit Hours**
Deals with the entire globe rather than with one country or region; deals with all peoples, not just with so-called Western or non-Western peoples. Focuses on historical forces or movements of worldwide influence. Comparative history. (Irreg.) [IV-WC].
- HIST 2013 Ancient Near Eastern Civilizations 3 Credit Hours**
A study of the major civilizations of the Ancient Near East from the last Pluvial period (ca. 8400 B.C.) through the first millennium B.C., with particular emphasis on the historic periods (ca. 3000 B.C. onwards). (Irreg.) [IV-WDC].
- HIST 2033 Introduction to Digital Humanities 3 Credit Hours**
(Crosslisted with LIS, WGS and HSTM 2033) This course introduces students to digital and/or computational methods in the humanities and addresses critical questions about the role of digital technology in society. This is a collaborative, hands-on, project-based course. (Sp) [IV-WC].
- HIST 2063 History of Activism 3 Credit Hours**
This course explores the history of activism in the twentieth century, paying particular attention to the ways race, ethnicity, class, and gender have shaped political, economic, environmental and health injustices and community responses to them. (Irreg.) [IV-WC].
- HIST 2103 Genocides in Modern History 3 Credit Hours**
Globally comparative course introduces students to the types and causes of genocide in the modern era. Focus is on various case studies of exterminatory mass violence, in order to analyze evolutions and patterns in transnational historical contexts, as well as consider methods of resistance and prevention. (Irreg.)
- HIST 2123 The Holocaust 3 Credit Hours**
Discussion of the Holocaust, how it could happen and how it is remembered today in different European and non-European countries. (Irreg.) [IV-WC].
- HIST 2333 The British Empire 3 Credit Hours**
A survey of the development of the British Empire and Commonwealth to the present day. Emphasis upon the period after the American Revolution; includes extension of control in Asia and Africa, movements of independence, the emergence of the Commonwealth and mid-twentieth-century challenges to the Commonwealth. (Irreg.) [IV-WC].
- HIST 2503 American Jews/Jewish Americans 3 Credit Hours**
Through a case study of American Jewry, this class will ask: How to define a minority (religion, race, ethnicity)? How does a group create lasting institutions? How does a group become American yet retain communal identity? How can a minority shape majority culture? What constitutes "success"? (Irreg.) [IV-WC].
- HIST 2573 The History Sleuth 3 Credit Hours**
Prerequisite: majors only or permission of department. Introduces students to the craft of history. Students will explore the many types of sources available to reconstruct the past and learn how historians collect, select, and evaluate historical evidence. (F, Sp)
- HIST 2613 Colonial Hispanic American History, 1492-1810 3 Credit Hours**
The founding and development of the Spanish and Portuguese empires in America with special attention to the conquest of native civilizations and to the political, economic, social and intellectual institutions of the colonial period. (F, Su) [IV-WC].
- HIST 2623 Modern Latin America 1810-Present 3 Credit Hours**
The emancipation and development of the Spanish-American nations (and of Brazil) with special attention to the movements for national independence, political unification, economic developments and social welfare. (Irreg.) [IV-WC].
- HIST 2703 African Societies and Cultures 3 Credit Hours**
Explores the complexity and divergence of African societies and cultures, political organizations, social structures, traditions and artistic expressions created by Africans over time and introduces Africa's history after 1500, its cultural diversity, and political transformation. (Irreg.) [IV-WDC].
- HIST 2713 Survey of African Civilization 3 Credit Hours**
Survey of the social, economic, political and cultural development of sub-Saharan African peoples from the emergence of human society to the present. (F) [IV-WDC].
- HIST 2723 History of South Asia 3 Credit Hours**
The course examines South Asia, which refers to the vast geographical space stretching from the Himalayan mountain ranges in the north to the Indian Ocean in the south and from the valley of the Indus in the west to the plains of the Brahmaputra in the east. Students examine the histories, cultures and societies of these spaces. (Irreg.) [IV-WDC].
- HIST 2803 Survey of Russia 3 Credit Hours**
An introduction to the history of Russia from its beginnings to the present day. Intended primarily for nonspecialists. (F) [IV-WC].
- HIST 2970 Special Topics 3 Credit Hours**
1 to 3 hours. Prerequisite: sophomore standing or permission of instructor. May be repeated; maximum credit six hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- HIST 3003 History of Sparta 3 Credit Hours**
Traces the history of Sparta from its antecedents in the Heroic Age through the Dorian Invasion to the Roman conquest. (Sp) [IV-WC].
- HIST 3013 Indigenous Politics in Modern Latin American History 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course traces the history of Latin America's indigenous peoples during the 19th and 20th centuries, moving from the Andes to the Southern Cone to Brazil to Mexico and Central America. Considering indigenous people's experiences as well as policies and ideas that affected them, students read a variety of sources, from scholarly books to primary sources like letters and literature. (Irreg.) [IV-WDC].
- HIST 3023 Classical Greece 3 Credit Hours**
An examination of the history of ancient Greece during its "Classical" Period, the fifth and fourth centuries B.C., with emphasis upon Athens, Sparta and Alexander the Great (C. 500-300 B.C.). (Irreg.) [IV-WC].
- HIST 3033 Black Britain in the Long Nineteenth Century 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing, or permission of instructor. This course explores the history of Black people in Britain from the late eighteenth century to the end of the First World War. Through this, students uncover the ways those of African descent shaped British history and yet were excluded from its narratives. (Irreg.) [IV-WC].
- HIST 3053 Medieval Italy 3 Credit Hours**
Prerequisite: 1113 or 1613 or junior standing. A survey of Italy from circa 400-1350 CE, emphasizing the mix of Roman, Christian, and barbarian traditions, relations between the church and empire, and the role of cities and commerce. (Sp) [IV-WC].

- HIST 3063 The Ancient Art of War 3 Credit Hours**
Traces the history of warfare from its origins through the ancient world to the beginning of the Middle Ages. (Sp) [IV-WC].
- HIST 3073 The Renaissance 3 Credit Hours**
Prerequisite: HIST 1223 or HIST 1613 or junior standing or permission of instructor. Examines the European Renaissance, a time period that was crucial to the development of western European culture, intellectual thought, and state formation. By reviving classical antiquity, the Renaissance created both the classical canon of intellectual study and modern political units. (Irreg.) [IV-WC].
- HIST 3083 The American Colonies 3 Credit Hours**
A history of the British colonies in North America from the earliest discoveries and of the United States from the Second Continental Congress to the inauguration of Washington in 1789. (Irreg.) [IV-WC].
- HIST 3093 The Revolutionary Era 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. The American Revolution and the development of political institutions under the Articles of Confederation and the Constitution; innovations of the Federalists; domestic and foreign affairs. (Irreg.) [IV-WC].
- HIST 3103 Slavery in World History 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Examines slavery and unfree labor from the earliest times in Mesopotamia to the present and includes an analysis of slavery in the American South and Latin America. Also traces the history of the Abolition Movement. (Irreg.) [IV-WDC].
- HIST 3113 The Crusades 3 Credit Hours**
Prerequisite: 1113 or 1613 or junior standing. Covers crusades to the Holy Land and Europe against Moors, pagans, heretics, and enemies of the Pope. Topics include crusade ideology, relations between Latins, Byzantines, Jews and Muslims, crusader states, techniques of warfare, and the experience of crusading. (F) [IV-WC].
- HIST 3120 Topics in Modern European History 1-5 Credit Hours**
1 to 5 hours. May be repeated for credit with change of content. Discussion of a selected special problem or problems in modern European history. (Irreg.)
- HIST 3123 War in European History 3 Credit Hours**
Prerequisite: ENGL/EXPO 1213 or junior standing or permission of instructor. A study of the impact of war on European history and the interaction of armies and society in the period from the fourteenth century to the present. (Irreg.) [IV-WC].
- HIST 3133 Medieval Women 3 Credit Hours**
(Crosslisted with WGS 3133) Prerequisite: 1113 or 1613 or junior standing. Covers social history of women in western Europe from late Antiquity to the late Middle Ages. Topics include stages of life, marriage, families, occupation, law, power, health, religion, love, and education. (F) [IV-WC].
- HIST 3143 The Era of the Reformation 3 Credit Hours**
An analysis of the forces leading to the religious upheaval in the sixteenth century and the spread of Protestantism in Northern European countries; the Catholic Reformation or Reaction; Thirty Years War; and the relation of the Reformation Era to medieval and modern civilization. (F) [IV-WC].
- HIST 3153 The Great War, 1914-18 3 Credit Hours**
Prerequisite: 1233 or 1623. Examines the causes, conduct, and consequences of World War I, with primary emphasis on its cultural impact. (F) [IV-WC].
- HIST 3163 Europe from the French Revolution to Napoleon 3 Credit Hours**
A social, political, military and cultural treatment of Europe from 1789 to 1815. Appropriate attention will also be given to causes of the French Revolution. (Sp) [IV-WC].
- HIST 3173 The Early U.S. Republic 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. This course surveys the 35 years of U.S. history after the War of 1812. We will examine the rise of a modern political parties; the creation of an American empire; the expansion of slavery; the violence of Indian removal; the dramatic political battles of Jacksonian America; the far-reaching impact of evangelical Christianity; and the development and evolution of American prosperity. (Irreg.) [IV-WC].
- HIST 3183 Italy: Making a Nation? 3 Credit Hours**
Prerequisite: HIST 1233 or junior standing or permission of instructor. Course examines the creation of modern Italy from the late Renaissance, Enlightenment, nationalism, the unification movement, World War I and World War II. (Irreg.) [IV-WC].
- HIST 3193 Modern France: Gender, Religion and Nation 3 Credit Hours**
Prerequisite: HIST 1623 or HIST 1233 or junior standing or permission of instructor. This course surveys key events and ideals that have shaped the modern nation of France. We will engage literature, history, film, and sociology to develop a more nuanced understanding of France and its place in the world. We will focus particularly on the roles played by gender and religious identities in constructing or complicating definitions of French citizenship. (F) [IV-WC].
- HIST 3203 Transformation of Jews 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. Introduces students to the era of emancipation in modern Europe and will discuss Jewish approaches to become integrated and assimilated in the different emerging nation states. (Irreg.) [IV-WC].
- HIST 3213 Intellectual History of Nineteenth-Century Europe 3 Credit Hours**
Examination of the impact on European social and political development of concepts such as Nationalism, Imperialism, Socialism and Darwinism. (Irreg.) [IV-WC].
- HIST 3223 Intellectual History of Twentieth-Century Europe 3 Credit Hours**
A general survey of the major intellectual developments in Western Europe since 1900, including the areas of social thought, religious thought, political philosophy, scientific thought, literature and drama. In each area the relationship of intellectual expression will be related to the historical context from which it emerged. (Irreg.) [IV-WC].
- HIST 3233 Modern Spain 3 Credit Hours**
Prerequisite: junior standing. Examines the political, economic, social, and cultural aspects of modern Spanish history (1808-present) and will attempt to place Spain within the context of European history, where it has often been ignored by European historians. (F, Su) [IV-WC].
- HIST 3243 European Women & Gender Relations 3 Credit Hours**
Prerequisite: HIST 1233 or HIST 1623 or junior standing or permission of the instructor. Explores the social, cultural, political, and economic history of European women and gender relations from the Scientific Revolution to the present. (Irreg.) [IV-WC].

- HIST 3253 Germany: From Bismarck to Hitler 3 Credit Hours**
Prerequisite: HIST 1233 or junior standing or permission of instructor. History of Germany during the 19th and 20th centuries, from the unification era to the rise of Hitler and the Nazi Party. Topics include the Congress of Vienna, German unification, World War I, the rise of Nazism, and World War II. (Irreg.) [IV-WC].
- HIST 3263 History of Public Health 3 Credit Hours**
(Crosslisted with HSTM 3263) Prerequisite: Junior Standing or a lower division HSCI course or HIST 1733 or HIST 2723 or Permission of Instructor. Taking an historical perspective students explore and analyze the social, economic, political and scientific events and processes that have shaped modern public health. (F) [IV-WC].
- HIST 3273 Of Acupuncture, Medicine Men & Ayurveda: Indigenous & Non-Western Medicine in Perspective 3 Credit Hours**
(Crosslisted with HSTM 3273) Prerequisite: Junior standing or a lower division HSTM course or HIST 1733 or HIST 2723 or Permission of Instructor. Introduces histories of practices and systems of medicine and healing that are variously deemed "indigenous," "traditional," "non-western," "alternative," and "complementary" in historical context. Students critique the historical and cultural meaning of these terms, as well as their attendant conceptions of health, disease, and the body. (Sp) [IV-WDC].
- HIST 3283 History of Ireland, Part II 3 Credit Hours**
Examines the history of Ireland from 1600 to the present day. Looks at the British conquest of Ireland, subsequent Anglo-Irish relations, events leading to Irish independence, and the origins and causes of present day sectarian violence. (Sp-alternate) [IV-WC].
- HIST 3290 Topics in British History 1-5 Credit Hours**
1 to 5 hours. May be repeated for credit with change of content. Discussion of a selected special problem or problems in British history. (Irreg.)
- HIST 3293 Antisemitism 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Covers the world's oldest prejudice from ancient times to the present. Topics include Christian Antisemitism; medieval demonization of the Jews; Inquisition; Dreyfus case; pogroms; American Antisemitism; Nazism and Holocaust; Arab and Muslim Antisemitism; and African American Antisemitism. (Irreg.) [IV-WC].
- HIST 3303 Mexico and the United States 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. Explores the long and complicated relationship between these two nations. Explores economic investment, war, immigration, bilingualism, and culture. (Irreg.) [IV-WC].
- HIST 3313 Israeli Culture Through Film 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Introduces students to the Israeli culture in its modern day context of the young Jewish state. Focuses on the dynamic mosaic of this multi-faceted society which is still evolving. (Sp) [IV-WDC].
- HIST 3323 Tudor England 3 Credit Hours**
A study of England from 1485 to 1603. Topics covered include the establishment of the Tudor dynasty, Tudor administrative and political development, the English Reformation, foreign and colonial relations, economic growth, and sixteenth-century social and cultural life. (F) [IV-WC].
- HIST 3333 The Black West 3 Credit Hours**
(Crosslisted with AFAM 3333) Prerequisite: Junior standing, or any 2000-level African and African American Studies class, or permission of instructor. Survey of Black history and experience in the American West. Students will learn about life in the region through primary documents, scholarly texts, literature, film, and popular culture. Emphasis on how identity, regionalism, and nationalism converge in North America. Particular attention will be paid to Oklahoma and the larger Great Plains. (Irreg.)
- HIST 3343 Eighteenth-Century England 3 Credit Hours**
A discussion of the domestic politics, society, economy, foreign affairs and constitutional and imperial development of England from the accession of the Hanoverians in 1714 to the passage of the First Reform Act of 1832. (Irreg.) [IV-WC].
- HIST 3353 England Since 1832 3 Credit Hours**
Topical analysis of major developments in British life since 1832, including growth of political democracy, adaptation to industrialism, social and cultural change, foreign affairs, imperialism, growth of the welfare state. Britain's changed role in the twentieth century. (Irreg.) [IV-WC].
- HIST 3363 Legal And Constitutional History Of England I 3 Credit Hours**
The first part of a course of lectures on the development of the English constitution, and of legal concepts, institutions and procedures from the Anglo-Saxons to the present. (Irreg.) [IV-WC].
- HIST 3373 The Long Civil Rights Movement in America 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing, or permission of instructor. This course treats the Civil Rights Movement as a century-long struggle. Using court cases as historical documents alongside other secondary and primary sources, it examines both the legal concept of civil rights as well as the activism of people who sought such rights. It concludes with an examination of the modern notions of civil rights. (Irreg.) [IV-WC].
- HIST 3383 The American West 3 Credit Hours**
A survey of the economic, political, social and cultural development of the American West. Particular attention will be paid to the West as a frontier process and as a causative factor in historical change. (F) [IV-WC].
- HIST 3393 History of Oklahoma 3 Credit Hours**
Meets the requirement in Oklahoma history for teacher's certificate. A survey of Oklahoma history from its beginning to the present, including its Indian background, formation into territories, achievement of statehood, and general cultural, economic and political development. (F, Sp, Su)
- HIST 3403 Modern Israel 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Introduces students to the history of modern Israel. They will learn about the Israeli people, politics & culture. The course will cover 100 years (1882-1982). (Irreg.) [IV-WDC].
- HIST 3413 The History of Ancient Israel 3 Credit Hours**
A topical survey from 1400 B.C. to 425 A.D., dealing critically with the main institutions and their historical background from early tribal theocracy to the end of the Rabbinic Patriarchate under Rome. (Sp) [IV-WC].

- HIST 3423 War, Prosperity and Depression 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of the instructor. Covers United States involvement in the two world wars; decline of socialism; youth culture; changing gender roles and relations; crisis of masculinity; transformation of work; consumerism; racism; antisemitism; depression and New Deal; and America's response to the Holocaust. (Irreg.) [IV-WC].
- HIST 3430 Topics in United States History 1-5 Credit Hours**
1 to 5 hours. May be repeated for credit with change of content. Discussion of a selected problem or problems in United States history. (F, Sp, Su)
- HIST 3433 The United States in the Cold War Era, 1945-1980 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Examines changes taking place in American life during the second half of the twentieth century. Topics include the Cold War, McCarthyism, the New Frontier, Civil Rights Movement, protest in the 60s, the Vietnam War, and adaptations to a global economy. (Irreg.) [IV-WC].
- HIST 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- HIST 3443 Early North American West 3 Credit Hours**
Prerequisite: HIST 1483. This course examines the early history (1200 CE to about 1850 CE) of North America. Topics include early indigenous societies, exploration and conquest, systems of slavery, and colonial and federal policies that led, finally, to the removal and relocation of indigenous nations from the early United States. The course concludes with an analysis of the west in the era sectionalism. (Irreg.) [IV-WC].
- HIST 3453 The Modern North American West 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493. This course focuses upon the different peoples, resources, landscapes, and ideas that collided in the recent American West. Sometimes that contact was violent, sometimes loving, but always the the collision created an American story that has enormous influence today. This course concludes with an analysis of how the western past appears in the present. (Irreg.) [IV-WC].
- HIST 3483 Gilded Age and Progressive Era, 1877-1917 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. The period from 1877 to 1917 included the fastest and most extensive industrial revolution in world history, the worst economic depression in U.S. history, the most violent episodes of industrial violence, the most radical agrarian protests, the greatest racial violence in the nation's history, the acquisition of an overseas empire, and intervention in the First World War. (Irreg.) [IV-WC].
- HIST 3493 American Environmental History 3 Credit Hours**
Examine American attitudes toward the environment since the founding of American colonies, evolution of natural resource policies, and lives of prominent figures in the "conservation" and "ecology" movements of the late nineteenth and twentieth centuries. (F) [IV-WC].
- HIST 3500 Special Topics in History 1-6 Credit Hours**
Prerequisite: junior standing. May be repeated with change of content; maximum credit six hours. Covers topics not covered in current course listings or specific geographic area topics courses. (F, Sp)
- HIST 3503 The World War II Era, 1918-1945 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Treats origins, conduct and outcome of World War II in global setting. Emphasis on roles of national interest, policy making, relations of states, and effects of war on societies involved. (F) [IV-WC].
- HIST 3523 History after the Internet: Exploring Digital History 3 Credit Hours**
(Crosslisted with HSTM 3523) Prerequisite: Junior Standing. Examines major themes, issues, and developments affecting the research, writing, analysis, preservation and presentation of history in the digital age. Includes hands-on engagement with and critical assessment of the use of digital tools for conducting historical inquiry, and exploration of the circulation of historical knowledge in such venues as social media, blogs, podcasts, digital archives, online collections and historically-themed gaming. (Sp) [IV-WC].
- HIST 3533 The History of Early American Women 3 Credit Hours**
Prerequisite: 1483 or 1493, or junior standing. Explores the history of American women from the seventeenth century to the mid-nineteenth century by focusing on women's lives from a wide variety of perspectives including demographic change, sexuality, work patterns, and political involvement. (F) [IV-WC].
- HIST 3543 The History of Modern American Women 3 Credit Hours**
Prerequisite: 1483 or 1493, or junior standing. Explores the history of American women from the mid-nineteenth century to the present by focusing on women's lives from a wide variety of perspectives including demographic change, family life, sexuality, work patterns, and political involvement. (Sp) [IV-WC].
- HIST 3553 Slavery and the Civil War Era 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493, or junior standing, or permission of instructor. A course of lectures on the social, economic, political, intellectual and military aspects of the Civil War era. (Irreg.) [IV-WC].
- HIST 3563 Jerusalem 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Examines how Jerusalem has been shaped by subjects as different as King David, Jesus, and Muhammed to soccer hooligans, suicide bombers, artists, and refugees. Also examines the Middle East conflict; the relationships between Jews, Christians, and Muslims; and historical and contemporary Israel. (Irreg.) [IV-WC].
- HIST 3573 Special Topics Colloquium 3 Credit Hours**
Prerequisite: History major and junior standing or permission of instructor. May be repeated with change of topic, maximum credit 15 hours. A writing-intensive, open topic, seminar designed to improve students' research and writing abilities and introduce them to basic methodological issues in history. While the course is specifically meant to prepare students for their senior capstone course, the emphasis on research and writing will enhance their preparation for all upper-division history course. This course must be completed prior to enrolling for the senior capstone. (F, Sp)
- HIST 3583 History of Sport in America 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213 or junior standing or permission of instructor. Examines the role of sport in American society, and uses sport as a device to explore social, historical and political topics like the commercialization of leisure, changing conceptions of masculinity, violence, racism, labor relations, gender relations, and working-class culture. (Irreg.) [IV-WC].

- HIST 3593 Women in the American West 3 Credit Hours**
Prerequisite: 1483 or 1493. Nineteenth-century gender ideologies, multi-cultural interaction and exchange, work roles and community building, participation in politics, and reform movements of women in Trans-Mississippi West. (Irreg.) [IV-WC].
- HIST 3603 The Spiritual Conquest of Latin America 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. This course deals with orthodoxy and its discontents in the golden age of Catholic empire. The Church was central to the spread of the Spanish and Portuguese empires across the globe, and in the policing of their subject peoples. This course will explore church and popular religion in this time, as well as some of its rich documents. (Irreg.)
- HIST 3613 Roman Religion 3 Credit Hours**
(Crosslisted with RELS 3613) Prerequisite: junior standing or permission of instructor. The course examines religious practices and beliefs in the Roman world from the founding of the Roman Republic to Late Antiquity, including conceptions of the divine, ways of worshiping the gods, civic and private religion, conceptions of the afterlife, magic, the mystery religions and salvation, and philosophical religions, through a survey of literary and archaeological evidence. (Irreg.)
- HIST 3623 Conformity and Dissent in the 1950s and 1960s 3 Credit Hours**
Examines conformity and dissent in the 1950s and 1960s. Topics include the consumer culture, suburbia, the impact of television, 'McCarthyism', the Beats and the 1960s counterculture, student protest, civil rights and black nationalism, and women's liberation. (Irreg.) [IV-WC].
- HIST 3633 American Indian History to 1880 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213, or junior standing, or permission of instructor. Examines the ways in which native societies in North America responded to European invasions between 1492 and 1890. Emphasis will be placed on Indian culture, the way in which it changed, and the various governmental attempts to destroy it. (Irreg.) [IV-WDC].
- HIST 3643 American Indian History Since 1865 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213; or junior standing, or permission of instructor. Examines American Indian history since the 19th century reservation era. Major themes include life patterns, cultural survival patterns, pan-Indian movements, the Indian Reorganization Act, relocation and termination policies, and self-determination issues. (Irreg.) [IV-WC].
- HIST 3653 American Jewish History 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. The course examines American Jewish experiences from 1654 to the present, and the ways in which Jews adapted to American life, constructed American-Jewish identities, and contributed to American politics and culture. Topics include: immigration, assimilation, gender norms, antisemitism, McCarthyism, suburbanization, the Holocaust, Israel, the civil rights movement, and political behavior, among others. (Irreg.) [IV-WC].
- HIST 3663 The American Presidency & the Presidents, Washington-Trump 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Provides an examination of the most important presidents in US history. Topics include the limits of presidential power, the separation of powers, leadership in war and peace, and the changing role of political parties, the press, and campaign contributions in shaping the office and those who fill it. (Irreg.) [IV-WC].
- HIST 3673 Arguing over America, 1917-2001 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Examines how Americans argued over the nature of contemporary American society and culture, especially as applied to minority groups, from World War I until 9/11. (Irreg.) [IV-WC].
- HIST 3683 Capitalism and Socialism 3 Credit Hours**
Prerequisite: ENGL/EXPO 1213 or junior standing or permission of instructor. This course will focus on the development of socialism and capitalism in Europe and the United States. We study ideas and practice—the vision and the reality-of the two systems, examining their implications for economic and political organization, class and family relationships, and culture broadly defined. (Irreg.)
- HIST 3690 Topics in Latin American History 1-5 Credit Hours**
1 to 5 hours. May be repeated for credit with change of content. Discussion of a selected special problem or problems in the history of Latin America. (F)
- HIST 3693 Spanish Borderlands 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Examines the region made up roughly of what are now the states of California (Baja and Alta), Arizona, New Mexico, Texas, Chihuahua, Coahuila, and Sonora; the colonial period. The peoples of the Southwest have responded to the challenges of coexistence both through violence and creative mutual adaptation. Students will gain knowledge of the varieties of colonial experience in the region. (Irreg.) [IV-WDC].
- HIST 3703 Native Peoples of Latin America 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Explores the history of Latin America's indigenous peasantry and the issue of ethnicity in the modern world. Focus is on the people of Mexico, Guatemala, Peru and Brazil. (Irreg.) [IV-WDC].
- HIST 3713 History of Mexico, 1800-Present 3 Credit Hours**
Explores the history of Mexico from independence to the present. Particular attention is paid to the issues of statebuilding, dependency, revolution, and post-revolutionary change. (Irreg.) [IV-WC].
- HIST 3723 Africa Since 1945 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Thematically and chronologically examines social, political, cultural and economic developments in Africa from the end of World War II to the contemporary period. The growth of millenarian religious movements, nationalism, decolonization, and the post-colonial nation states are among the topics examined. (Irreg.) [IV-WDC].
- HIST 3733 History of Heaven and Hell in Judaism and Christianity 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Traces the evolution of the concept of the afterlife, eternal reward and punishment in Judaism and Christianity from late Antiquity to the high Middle Ages. (Irreg.) [IV-WC].
- HIST 3743 African-American History to 1877 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Traces the history of African-Americans from their African origins to the end of the Reconstruction of the southern United States in 1877. (Irreg.) [IV-WC].
- HIST 3753 African-American History Since 1877 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Considers African-American history in its national and international contexts from the post-emancipation South until the twentieth century. Topics include the African-American political traditions and activism. (Irreg.) [IV-WC].

- HIST 3763 Genesis Through Jewish Eyes 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Through a close reading of Genesis and its Jewish interpreters, this class takes one mode of reading to ask: How a minority tradition understands key passages, terms & theologies. It also addresses how deducing the Bible's message depends on one's own presuppositions, and how another tradition can enhance one's own reading of Scripture. (Irreg.) [IV-WC].
- HIST 3773 Jews and Christians--Middle Ages 3 Credit Hours**
Prerequisite: HIST 1113 or HIST 1223 or HIST 1613 or junior standing or permission of instructor. Traces the development of the relationship between the Jewish minority and the Christian majority in medieval Europe, from the fifth century to the early modern period. Discusses how Jews and Christians dealt with and imagined each other. (Irreg.) [IV-WC].
- HIST 3783 Slavery and the Atlantic World 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or equivalent. Exploring Atlantic slavery from the 15th to 19th centuries, and moving from Africa to the Caribbean to the colonies of the Americas, this course centers the lives and voices of the enslaved. We also explore the growth of the Atlantic slave trade, how early modern people thought about racial difference, anti-slavery activism, and the challenges of studying this history. (Irreg.)
- HIST 3793 Imperial Russia 3 Credit Hours**
A study of the origins and growth of the Russian Empire, origins and development of autocracy and serfdom, Russia's emergence as a great power, its reforms and revolutions. (Sp, Su) [IV-WC].
- HIST 3803 The Era of the Russian Revolutions 3 Credit Hours**
Deals specifically with the conditions and events of change in Russia between 1905 and 1921. Seeks to take into account the broad questions of industrialization and backwardness, the popular responses to these matters and the rise of radical groups. Beyond this setting, major attention will be placed on the dissolution of the old regime during World War I and the two revolutions of March and November 1917, as well as the civil wars and the NEP. (Sp)
- HIST 3813 Twentieth-Century Russian History 3 Credit Hours**
Detailed study of political, social, cultural and economic developments in the Soviet Union in world affairs. (F) [IV-WC].
- HIST 3823 Law and Punishment 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Examines how four ancient polities--classical Athens, imperial Rome, early China, and the Hebrew tribes, as represented in the Hebrew Bible--meted out, and justified, punishment. Where possible, we will probe contemporary debates about punishment, but we will also closely scrutinize portions of the still extant codes and commandments from these polities relating to various criminal activities of interest. (Irreg.) [IV-WC].
- HIST 3833 Archaeology of the Lands of the Bible 3 Credit Hours**
(Crosslisted with RELS 3833) Prerequisite: junior standing. Examines the lands, cultures, and people associated with the Hebrew Bible and the New Testament through a chronological survey of archaeological evidence and investigates the relationship between archaeology and biblical texts. The course also investigates archaeological evidence for Jewish and Christian practices in late Roman Palestine as well as archaeological and architectural evidence for early Islamic Jerusalem. (Sp) [IV-WC].
- HIST 3843 Latin American Independence 1750-1880 3 Credit Hours**
(Crosslisted with IAS 3843) Prerequisite: HIST 2613 or HIST 2623 or junior standing or permission of instructor. Covers history of Latin America from the crisis and dissolution of the Iberian empires through the consolidation of independent republics, a period bridging the colonial and modern periods in the region's history. (Irreg.)
- HIST 3853 Japan to 1850 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Traces the history of Japan beginning with the earliest Jomon and Yayoi cultures and ending with the unraveling of the last feudal regime in the nineteenth century. (Irreg.) [IV-WDC].
- HIST 3863 Japan Since 1850 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Designed to introduce students to the history of Japan from the 1850's to the present. Will include the Meiji restoration, industrial development, imperial expansion, wartime mobilization, the U.S. occupation, economic recovery and high growth, and the changing political and popular culture of the 1980s and 1990s. (Irreg.) [IV-WDC].
- HIST 3873 Early Imperial China 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. The cultural, political, economic, and social transformations China underwent during the period from the Sui to the Song dynasties. (Alt. F) (Irreg.) [IV-WDC].
- HIST 3883 Late Imperial China 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. The cultural, political, economic, and social transformations China underwent during the rule of its later dynasties from the 13th-century Mongol conquest to the final struggles and collapse of China's existence as an empire with the Revolution of 1911. (Irreg.) [IV-WDC].
- HIST 3893 Greek Religion 3 Credit Hours**
(Crosslisted with RELS 3893) Prerequisite: junior standing or permission of instructor. Examines the religious rituals, beliefs, and sacred sites of the ancient Greeks. Considers such topics as the relationship between myths and ritual, sacred time and space, concepts of the afterlife, and the role of religion in the family and city-state. (Irreg.)
- HIST 3913 Jews & Hollywood 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or equivalent. This class examines how Jewish immigrants helped found the motion picture industry; the role of Jews in the industry as it evolved over the course of the 20th century; the representation (and invisibility) of Jews on film; how that representation has changed over time; and how Americans have interpreted the large presence of Jews in the American film industry. (Irreg.)
- HIST 3923 China Since 1911 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. An examination of Chinese history since the Revolution of 1911, including the development of Republican and Communist thought, warlord rule, China's tumultuous wartime period, and the rise of the People's Republic of China (PRC). Also covers the history of the PRC, China after Mao, Taiwan and China's changing position in the world. (Irreg.) [IV-WDC].
- HIST 3933 U.S. Queer History 3 Credit Hours**
(Crosslisted with WGS 3933) Prerequisite: Junior standing. The last 130 years have been a time of incredible change for LGBTQ people and the meanings of sexuality in the United States. We will trace LGBTQ experience and community formation, the policing of queer communities, and the constructions of queerness in pop culture, medicine, the law, and politics, as well as how these histories inform our own time. (Irreg.) [IV-WC].
- HIST 3943 Muslim Societies in Africa 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Explores the history, nature, and dynamics of Islam in Africa -- Early Islam; Muslim Societies/Groups; Islamic fundamentalism; Women and Islam; Religious practices/education; prayers/rituals; Africanization of Islam. (Irreg.) [IV-WDC].

- HIST 3950 Topics in Middle Eastern History 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing. May be repeated with change of content; maximum credit nine hours. Discussion of a selected problem or problems in Middle Eastern history. (Irreg.)
- HIST 3953 The Modern Middle East 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Explores the political and social history of the modern countries of Egypt, Iraq, Israel, Jordan, Lebanon, Saudi Arabia, Syria and Turkey and areas affected by them from 1500 to the present. (F) [IV-WDC].
- HIST 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program and permission. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- HIST 3963 From Zionism to Modern Israel 3 Credit Hours**
Prerequisite: junior standing. Examines the historical evolution of the Zionist movement in the second half of the 19th century through the establishment of the State of Israel in the mid-20th century within the framework of Jewish modernization, antisemitism, and conflicting modern nationalisms. (Irreg.) [IV-WC].
- HIST 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Sp, Su)
- HIST 3973 Judaism - A Religious History 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Introductory survey of Judaism from its earliest origins in the ancient Near East to the present. Development of ideas, forms of worship, and religious expression as well as sectarian trends and variations will be examined. (Irreg.) [IV-WDC].
- HIST 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- HIST 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- HIST 3993 The Evolution of Martyrdom in the Judeo-Christian Civilization 3 Credit Hours**
Prerequisite: junior standing. Traces the historical development of martyrdom in Judaism and Christianity to understand what motivated individuals and communities to give up their lives for their convictions. Compare the evolution of the idea of martyrdom in Judaism and Christianity to identify differences and similarities between these two faiths. (Irreg.) [IV-WC].
- HIST 4003 Jews and Other Germans 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. Discusses the history and culture of the Jews in Germany from 1750 until the Nazi period. Focuses on the internal dimension of the German-Jewish experience and analyze the contribution of Jews to the German culture. (Irreg.) [IV-WC].
- HIST 4023 Inquisitions 3 Credit Hours**
Prerequisite: 1223 or 1233 or junior standing or permission of the instructor. Examines the historical roots of inquisitions in order to better understand how they have shaped modern conflicts. The mechanisms people used for disciplining themselves, for imposing control on others, and for evaluating who has the right to participate in society reveals people's fears, priorities, and weaknesses. (Irreg.) [IV-WC].
- HIST 4073 Cultural Heritage Data and Social Engagement 3 Credit Hours**
(Slashlisted with HIST 5073; Crosslisted with WGS, HSTM and LIS 4073)
Prerequisite: Junior standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage – the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)
- HIST 4083 Museums, Monuments, Memory 3 Credit Hours**
Prerequisite: HIST 1223 or HIST 1233 or HIST 1613 or HIST 1623 or HIST 1923 or junior standing or permission of instructor. Globally oriented course that explores how national and ethnic memory play a key role in the formation of social and cultural identities. Emphasis is placed on rituals, "sites of memory," monuments, museums and their publics. (Irreg.)
- HIST 4203 Classical China 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Examines the roots of Chinese civilization, from its pre-historical origins through its emergence as a formidable empire to its devolution during a lengthy period of civil war after the end of the Han dynasty. (Irreg.) [IV-WDC].
- HIST 4213 China's Art of War 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Scope of course is both the theory and practice of warfare in China's pre-modern eras; discussion of some of the most renowned texts on military strategy, and the theoretical issues that are involved in strategizing about and preparing for war. Study of the cause and effect of various wars from the earliest periods to just before the modern period. (Irreg.) [IV-WDC].
- HIST 4313 American Foreign Policy, 1900-45 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Explores the globalization of American foreign relations, from the origins of late 19th century expansion to the diplomacy culminating in the creation of the United Nations at the end of World War II. (Irreg.)
- HIST 4343 The Vietnam War 3 Credit Hours**
Prerequisites: 1483 or 1493 or junior standing or permission of instructor. This course explores the origins of the Vietnam War, how the United States waged the war, the impact of the war on American culture, and the meaning of the United States defeat in Vietnam. (Irreg.) [IV-WC].
- HIST 4393 American Working Class 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. This course examines the working- and lower-class experience in America from the colonial period to the present. Topics include: social banditry and piracy, slavery, rise of the factory, scientific management, women and work, 19th and 20th century labor movement, radicalism, prostitution, and working-class masculinity. (Irreg.) [IV-WC].

- HIST 4403 Mussolini, Fascism, & America 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493, or junior standing, or permission of instructor. Explores the nature of fascism & Mussolini's rule from 1922 until his death in 1945, including the cult of Il Duce, fascist architecture and the fascist aesthetic in general, fascism and youth, fascism and conquest, and the American response to Italian fascism in the 1920s and 1930s. (Irreg.) [IV-WC]
- HIST 4453 American Military History 1860-Present 3 Credit Hours**
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Explores United States military history from the Civil War through the modern age. With a special emphasis on politics, culture, and rapidly changing technology, this class focuses on the evolution of the American way of war as well as the transformative nature of war on the nation. (Irreg.)
- HIST 4493 Africa and the Atlantic Slave Trade 3 Credit Hours**
(Crosslisted with AFAM 4493) Prerequisite: ENGL 1213 or EXPO 1213. About the changing nature of slavery in and the impact of slave trading on Africans in their homelands and in the diaspora. Origins in Africa; rise of the Atlantic trade; impact of the trade; middle passage, etc. (Irreg.) [IV-WDC].
- HIST 4503 Brazil, 1500-2000 3 Credit Hours**
Prerequisite: 2613 or 2623 or junior standing or permission of instructor. Surveys the history of Brazil from contact to 2000. Touches on the pre-Columbian period, but focuses on the social, cultural, economic and political transformation of the region under Portuguese and Brazilian rule. (Irreg.) [IV-WC].
- HIST 4513 Intellectuals & Artists in Modern Latin America 3 Credit Hours**
(Crosslisted with IAS 4513) Prerequisite: 2613 or 2623 or junior standing or permission of instructor. Examines both the history of ideas in modern Latin America as well as the history of intellectuals as a social group. We will consider intellectuals in the process of independence and the consolidation of nation states, the role of "race" in Latin American thought, and the relationship between European and Latin American thought. (Irreg.) [IV-WC].
- HIST 4523 Latin American Left 3 Credit Hours**
(Crosslisted with IAS 4523) Prerequisite: 2613 or 2623 or junior standing or permission of instructor. This course examines the shifting political tactics and theoretical positions of a variety of leftist movements in Latin America since the early 20th century. We will examine leftist thought on the nature of Latin American development, approaches to commercial culture, and labor organizing, among other topics. (Irreg.) [IV-WC].
- HIST 4533 Populism in 20th-Century South America 3 Credit Hours**
(Crosslisted with IAS 4533) Prerequisite: 2613 or 2623 or junior standing or permission of instructor. This course examines the phenomenon of Latin American "populism," a set of political movements that held a central place in 20th-century Latin American history. We will focus on three cases as they relate to the broader economic and social processes in the region as a whole: Brazil; Argentina; and Chile. (Irreg.) [IV-WC].
- HIST 4543 Latin America in the Age of the Cuban Revolution 3 Credit Hours**
(Crosslisted with IAS 4543) Prerequisite: 2613 or 2623 or junior standing or permission of instructor. This course is an in-depth examination of Latin American history of the period 1955-1973. We cover changes in politics, economics, literature, film, music, and theology in what many Latin Americans called the "revolutionary process" of the period. (Irreg.) [IV-WC].
- HIST 4553 Environmental History of Latin America 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Serves as a broad-based study of the environmental history of Latin America. We will examine the history of human interactions with the natural world in this region from pre-Colombian and colonial eras through contemporary times. Heavy emphasis will be placed on comparing native life-ways with the changes wrought by European colonization and the results on the land (Irreg.) [IV-WDC].
- HIST 4563 History of India 3 Credit Hours**
Prerequisite: HIST 2723 or junior standing or permission of instructor. This course will survey the social, cultural, political and colonial histories of India beginning with the emergence of one of the earliest human civilizations in the Indus valley. Topics include: politics and culture before, during and after colonization; religion; and economic and social history. (Irreg.) [IV-WDC].
- HIST 4950 History Internship 1-3 Credit Hours**
1 to 3 hours. Prerequisite: History major and junior standing, and permission of instructor. May be repeated; maximum credit six hours. Allows history majors to receive credit for qualifying internships appropriate to the subject. Students who complete the course engage in service learning that focuses on historical content. (F, Sp, Su)
- HIST 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- HIST 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- HIST 4973 Undergraduate Seminar in History 3 Credit Hours**
Prerequisite: History majors may enroll only after completing 75 credit hours of undergraduate coursework, 24 hours of which must be history. Non-majors may enroll with permission of instructor. May be repeated with change of content; maximum credit nine hours. Extensive research in historical sources and literature relating to a special problem or topic selected by the instructor. Emphasis will be on the individual preparation of research papers. (F, Sp, Su) [V].
- HIST 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- HIST 5001 Navigating The History Profession 1 Credit Hour**
Prerequisite: graduate standing or permission of instructor. Introduction to the various fields of historical inquiry, resources for historical research, and how to navigate the history profession – conferences, grants, the job market –and the OU graduate programs, M.A. and Ph.D. (F)
- HIST 5050 Directed Readings in History 1-4 Credit Hours**
Prerequisite: graduate standing. Graduate-level independent study for master's candidates only. (Irreg.)

HIST 5073 Cultural Heritage Data and Social Engagement 3 Credit Hours

(Slashlisted with HIST 4073; Crosslisted with WGS, LIS and HSTM 5073)
Prerequisite: Graduate standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage – the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)

HIST 5110 Independent Studies in European History 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 15 hours. Independent study, arranged between the professor and student, in the history of Europe. (F, Sp, Su)

HIST 5210 Independent Studies in American History 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content, maximum credit 15 hours. Independent study, arranged between the professor and student, in the history of America. (F, Sp, Su)

HIST 5310 Independent Studies in Latin American History 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content, maximum credit 15 hours. Independent study, arranged between the professor and student, in the history of Latin America. (F, Sp, Su)

HIST 5410 Independent Studies in African History 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 15 hours. Independent study, arranged between the professor and student, in the history of Africa. (F, Sp, Su)

HIST 5510 Independent Studies in Asian History 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 15 hours. Independent study, arranged between the professor and student, in the history of Asia. (F, Sp)

HIST 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

HIST 5970 Special Topics 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

HIST 5980 Research for Master's Thesis 2-9 Credit Hours

Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

HIST 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

HIST 6050 Research Problems 2-5 Credit Hours

2 to 5 hours. Prerequisite: 12 hours of history and permission. May be repeated with change of content; maximum credit 15 hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (F, Sp, Su)

HIST 6160 Advanced Readings in European History 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor; student must be at Ph.D. level. May be repeated with change of content; maximum credit 15 hours. Independent study in the history of Europe; designed to give students the opportunity to do intensive readings in his/her major fields of study under direct guidance of his/her advisory committee. (F, Sp, Su)

HIST 6200 Seminar in European History 2-4 Credit Hours

2 to 4 hours. Prerequisite: Graduate standing with permission; May be repeated with change of content, maximum credit 18 hours. Training in historical research, bibliography and historiography, featuring reports and criticism. (F, Sp)

HIST 6230 Advanced Directed Readings in Medieval History 1-5 Credit Hours

1 to 5 hours. Prerequisite: master's degree or equivalent in history, reading knowledge of French and German and permission of instructor. May be repeated with change of content and permission; maximum credit 18 hours. A supervised program of readings on a selected special problem in medieval history. (F)

HIST 6260 Advanced Readings in American History 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor; student must be at Ph.D. level. May be repeated with change of content; maximum credit 15 hours. Independent study in American history; designed to give students the opportunity to do intensive readings in his/her major fields of study under direct guidance of his/her advisory committee. (F, Sp)

HIST 6300 Seminar in Latin American History 1-4 Credit Hours

1 to 4 hours. Prerequisite: Graduate standing and permission; May be repeated with change of content, maximum credit 18 hours. Training in historical research, bibliography and historiography. Features reports and criticism. (Irreg.)

HIST 6360 Advanced Readings in Latin American History 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor; student must be at Ph.D. level. May be repeated with change of content; maximum credit 15 hours. Independent study in Latin American history; designed to give students the opportunity to do intensive readings in his/her major fields of study under direct guidance of his/her advisory committee. (F, Sp)

HIST 6400 Seminar in American History 1-4 Credit Hours

1 to 4 hours. Prerequisite: Graduate standing with permission; May be repeated with change of content, maximum credit 24 hours. Training in historical research, bibliography and historiography. Features reports and criticism. (F, Sp)

HIST 6460 Advanced Readings in African History 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor; student must be at Ph.D. level. May be repeated with change of content; maximum credit 15 hours. Independent study in African history; designed to give students the opportunity to do intensive readings in his/her major fields of study under direct guidance of his/her advisory committee. (F, Sp)

HIST 6500 Seminar in Transnational Women's and Gender History **1-4 Credit Hours**

1 to 4 hours. Prerequisite: Graduate standing; May be repeated with change of content; maximum credits 8 hours. The course introduces students to the theoretical foundations and research methods in transnational women's and gender history. Students will develop competency in feminist theories and build expertise in the historiographies of women and gender in their subfields. (Irreg.)

HIST 6560 Advanced Readings in Asian History **1-4 Credit Hours**

1 to 4 hours. Prerequisite: permission of instructor; student must be at Ph.D. level. May be repeated with change of content; maximum credit 15 hours. Independent study in Asian history; designed to give students the opportunity to do intensive readings in his/her major fields of study under direct guidance of his/her advisory committee. (F, Sp, Su)

HIST 6600 Seminar in Middle Eastern History **1-4 Credit Hours**

1 to 4 hours. Prerequisite: graduate standing with permission. May be repeated with change of content; maximum credit 12 hours. Training in historical research, bibliography and historiography. Features reports and criticism. (Irreg.)

HIST 6700 Seminar in Transnational History **1-4 Credit Hours**

1 to 4 hours. Prerequisite: graduate standing. May be repeated with change of content; maximum credit nine hours. The course aims to engage the histories and legacies of nationalism, colonialism, and other transnational historical phenomena. Particular emphasis will be given to discussing national, transnational, and colonial systems and how those systems shaped identities, race, ethnicities, national and transnational dynamics, and created transnational subjectivities. (Irreg.)

HIST 6800 Seminar in Modern Japanese History **1-4 Credit Hours**

1 to 4 hours. Prerequisite: graduate standing with permission. May be repeated with change of content; maximum credit 12 hours. Training in historical research, bibliography, and historiography. Features reports and criticism. (Irreg.)

HIST 6880 Readings and Research in Public History **1-4 Credit Hours**

1 to 4 hours. Prerequisite: Graduate standing; May be repeated with change of content; maximum credits 8 hours. This course introduces the practice of public history. Students will meet with practicing public historians; have a reasonable writing component with relatively brief individual assignments across the semester; and work in teams with a client and produce a final product that addresses the client's needs and a final report that summarizes the team's objectives, research strategies, challenges, and conclusions. (Irreg.)

HIST 6960 Directed Readings **1-3 Credit Hours**

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

HIST 6970 Special Topics **1-3 Credit Hours**

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

HIST 6980 Research for Doctoral Dissertation **2-16 Credit Hours**

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

HIST 6990 Independent Study **1-3 Credit Hours**

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Wickersham	Jane	K	2006	ADJUNCT ASSISTANT PROFESSOR OF LIBERAL STUDIES, 2010; ASSOCIATE PROFESSOR OF HISTORY, 2012	PhD, Indiana Univ, 1996; MA, Indiana Univ, 1996; BA, Univ of Georgia, 1994
Wrobel	David	M	201	MERRICK CHAIR IN WESTERN AMERICAN HISTORY, 2011; PROFESSOR OF HISTORY, 2011; DAVID L. BOREN PROFESSOR OF HISTORY, 2016	PhD, Ohio Univ, 1991; MA, Ohio Univ, 1987; BA, Univ of Kent, 1985

History, B.A.

Minimum Total Credit Hours: 120

Major Hours: 36

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B505

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.

Code	Title	Credit Hours
Required Surveys		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
HIST 2573	The History Sleuth	3
Lower-Division Survey Requirements		
Choose one course each from three of the following categories: (p. 436)		9
Premodern Western Civilization		
Modern Western Civilization		
Premodern Non-Western Civilization		
Modern Non-Western Civilization		
Additional History Requirements		
Choose 21 elective hours, which must include at least one Colloquium course and one Capstone course: ^{1,2}		21
HIST 3573	Special Topics Colloquium	
HIST 4973	Undergraduate Seminar in History (Senior Capstone)	
Total Credit Hours		36

¹ 21 major elective hours of HIST courses at the 2000-level or above. At least 15 of these hours must be taken at OU at the 3000-level or above. *Fifteen (15) of these hours must be taught by History Department faculty. Six (6) of these hours may be taught by affiliated faculty in other departments.*

Fifteen (15) of these hours must fall within a departmentally approved geographic or thematic field. Lists of fields and of the courses approved for each field may be obtained in the History Department or on the departmental website.

² A 2000-level course that has been used to fulfill a survey requirement can not be used toward the 21 additional history requirements hours.

Lower-Division Survey Requirement Course Lists

PREMODERN WESTERN CIVILIZATION

Code	Title	Credit Hours
HIST 1113	History of Medieval Europe	3
HIST 1613	Western Civilization I	3

MODERN WESTERN CIVILIZATION

HIST 2623	Modern Latin America 1810-Present	3
HIST 2703	African Societies and Cultures	3
HIST 2713	Survey of African Civilization	3

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/genesd/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
------	-------	--------------

Core Area I: Symbolic and Oral Communication

English Composition (6 hours)

ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	

Language (0-13 hours in the same language)

The college requirement cannot be met by high school coursework.

Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3

Mathematics (3 hours)

Choose one course from the General Education Mathematics list		3
---	--	---

Core Area II: Natural Science (7 hours, including one laboratory component)

Biological Science

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
---	--	-----

Physical Science

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
--	--	-----

Core Area III: Social Science (6 hours)

P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3

Core Area IV: Arts and Humanities (18 hours)

Artistic Forms

Choose one course from the General Education Artistic Forms list		3
--	--	---

Western Culture

HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	

Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)

World Culture

Choose one course from the General Education World Culture list

Additional Core IV Upper-Division Arts & Humanities courses

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3}

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3}

Core Area V: First Year Experience (3 hours)

Choose one course

Total Credit Hours **56**

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of History academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and History major requirements.

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N505

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of History.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in History, including at least nine (9) hours at the upper-division level. The US History survey course (HIST 1483 or HIST 1493) taken for Gen Ed credit can be counted toward this total.

Code	Title	Credit Hours
	Choose at least 15 hours of courses acceptable for major credit in History, including at least 9 hours at the upper-division level	15
Total Credit Hours		15

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

History, M.A.

Minimum Total Hours (Thesis): 30

Minimum Total Hours (Non-Thesis): 34

Program Code: M505

Required Courses

Thesis Option

Code	Title	Credit Hours
Required Course		
HIST 5001	Navigating The History Profession	1
Core Courses		
	Choose four courses in the student's major field, one course of which must be a research seminar	12
	Choose three courses in a minor or comparative field	9
HIST 5980	Research for Master's Thesis	5
Electives		
	Choose one elective course	3
Total Credit Hours		30

Notes: For thesis students coursework should include at least five graduate seminars (from HIST 6200, HIST 6300, HIST 6400, HIST 6700, HIST 6800 or HIST 6880; 3 hours each, total of 15); remaining 9 hours may be other graduate courses or directed readings. 9-12 hours of graduate coursework can be substituted for the seminar requirement with the approval of the Graduate Studies Committee.

Non-Thesis Option

Code	Title	Credit Hours
Required Course		
HIST 5001	Navigating The History Profession	1
Core Courses		
	Choose six or seven graduate courses (3 hours each), including one that must be a research seminar in the student's major field	18-21

Choose three or four courses in a minor or comparative field 9-12

Electives	
Choose at least one elective course which may be in a cognate field like Education ¹	3-6

Total Credit Hours 34

¹ There could be more than one course required if the student elects to take fewer courses in the major or minor history fields.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

History, Ph.D.

Minimum Total Hours: 90

Program Code: D505

Program Requirements

- Students must demonstrate a reading competency in at least one language other than English, as determined by the student's major professor and advisory committee. Competency may be demonstrated through successful completion of undergraduate language courses or reading examinations or by other methods as approved by the graduate liaison.

Code	Title	Credit Hours
	30 credit hours of elective credits and/or Master's credit hours from an accredited university (26-36 credit hours may be accepted with the approval of the Graduate Studies Committee)	30
HIST 5001	Navigating The History Profession	1
	Three courses (9 hours) in Specialized Field ¹	9
	Three courses (9 hours) in Comparative Field ¹	9
	Three courses (9 hours) in General Area Field ¹	9
HIST 6050	Research Problems	3

HIST 6980	Research for Doctoral Dissertation ²	29
Total Credit Hours		90

¹ Six of the nine required Field courses (18 of the 27 hours) must be seminars from this list: HIST 6200, HIST 6300, HIST 6400, HIST 6700, HIST 6800, HIST 6880. Of these 6 required seminar courses, a minimum of three courses (at least one in each of the three fields) must be taken during the doctoral program. Others may be transferred from a completed OU MA degree. This transfer applies only to the PhD seminar requirement, and does not change the total number of credit hours required for the PhD. A maximum of 9 hours of graduate coursework can be substituted for the seminar requirement with the approval of the Graduate Studies Committee.

² Between 23-33 Dissertation hours may be accepted with the approval of the Graduate Studies Committee.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

General Information

The History of Science, Technology, and Medicine Department was established in 1971 by the University President's Committee on the History of Science. Since its inception, the program has been closely tied to the History of Science Collections in the University Libraries, which dates from a gift of rare books by University of Oklahoma alumnus Everette L. DeGolyer. In 1954 Duane H. D. Roller became the first Curator of the Collections (then called the DeGolyer Collection), and Professor Roller presided over the growth of an undergraduate and graduate teaching program in history of science. Since this beginning, the history of science program at the University of Oklahoma has grown to ten faculty members appointed in the department, along with one faculty in the History of Science Collections, two faculty in the Honors College, and two in the History Department, teaching a program of undergraduate courses and conferring master's and doctoral degrees. The department's mission is three-fold: to offer instruction to undergraduates; to offer instruction and guidance for graduate students; and to contribute to research in the history of science.

Our graduate program, established in 1954, is specifically designed for students who are interested in research and teaching careers in higher education, or professional positions in specialized libraries, museums, and other institutions. Students work closely with faculty in a graduate training program designed to produce historians who are scholarly, productive in research, effective in the classroom, and who have high standards of professional conduct and responsibility. Students are encouraged to adapt program materials to the wider discipline of the history of science.

Since 1983 students have had the opportunity to complete requirements for a Minor in the History of Science. In 2011, the BA in the History of Science, Technology and Medicine was approved, thereby offering OU students an undergraduate program in which to inquire into the development of scientific thought from its origins in the cultural and intellectual efforts of the ancient civilizations of Egypt, Mesopotamia, Greece and Rome, through the Islamic and Christian civilizations of the Middle Ages, to the modern period. History of science courses place strong emphasis upon both the internal growth of scientific ideas and their development within the wider political, social, economic, religious, and cultural context of Western history.

Programs & Facilities

History of Science Collections

The History of Science Collections, located on the 5th floor of Bizzell Memorial Library, is a premier research collection in its field. Holdings of nearly 100,000 volumes from every field and subject area of science, technology and medicine range chronologically from Hrabanus Maurus, *Opus de universo* (1467) to current publications in the history of science. The Darwin collection consists of all of Darwin's works in their first editions and several autographed letters, as well as hundreds of subsequent editions and translations.

OU Lynx

The educational arm of the History of Science Collections of OU Libraries is the OU Academy of the Lynx. We seek to collaborate with educators in exhibit-based learning by creating, field-testing and sharing Open Educational Resources (OER's). We invite researchers, graduate students, and others to join us as a participating educator, museum worker, amateur astronomer, student, scholar, sponsor or docent.

Programs for Academic Excellence

The history of science has been designated an area of future emphasis within the Dodge College of Arts and Sciences, in the University's Strategy for Excellence. The foundations of the University's commitment to emphasis in this field are the superb History of Science Collections and a department of twelve historians of science dedicated to a comprehensive program of teaching and research.

Through a generous endowment made by the Andrew W. Mellon Foundation, the History of Science program provides travel fellowships for visitors to make use of its resources for research in the history of science. In addition to working in the Collections, visiting fellows interact with students and faculty in the program and frequently present the results of their research to the university community.

Scholarships and Financial Aid

The Department of History of Science offers the undergraduate **Corliss E. and Esther C. Livesey Endowed Scholarship** carrying a cash stipend to outstanding history of science, technology and medicine full-time major students who have earned 15 hours of major coursework and who have a minimum overall grade point average of 3.25. Eligible students submit applications for the award.

To honor Everette L. DeGolyer, and to recognize his affiliation with the History of Science Program at the University of Oklahoma, the University awards the **Everette Lee DeGolyer History of Science Fellowship** to a graduate student in the Department of the History of Science. The Department of the History of Science nominates eligible applicants during the annual recruitment and application cycle.

The History of Science Department offers graduate assistantships as available each year. For information on scholarships and graduate assistantships, students should contact the chair of the department.

History of Science Association

The History of Science Association (HSA) is an organization comprised of the current students in the History of Science Department at the University of Oklahoma. Every graduate student in the department is a member of HSA, and undergraduate majors and minors are welcome to participate as well. Membership is also open to interested students in other graduate programs across campus. The HSA promotes history of science courses at OU through a variety of efforts, including sponsoring speakers, coordinating a tutoring service, assisting with department participation in University undergraduate recruitment events, and arranging informal social get-togethers for students enrolled in the major or in the minor program.

Undergraduate Study

Bachelor of Arts

- Health, Medicine & Society, Bachelor of Arts (p. 446)
- History of Science, Technology & Medicine, Bachelor of Arts (p. 449)

Minor

- History of Medicine Minor (p. 452)
- History of Science Minor (p. 453)

Graduate Study

Areas of Specialization

The History of Science Program is especially strong in the following areas of specialization, because of the concentration of faculty working in the area, the availability of material resources in support of the field, and by institutional linkages with other departments and programs in allied specializations: pre-modern science; biological and social sciences in the modern world; science and religion; American science; history of technology; science, the public and popular culture; medicine, public health and biomedical science; and new media in history of science, technology and medicine.

The programs of study leading to the M.A. and Ph.D. degrees will entail the student's enrollment in history of science courses, history courses, other approved courses outside the department, and extensive use of the materials contained in the History of Science Collections.

Master of Arts

The History of Science, Technology & Medicine (p. 453), Master of Arts program has a thesis option and a non-thesis option.

Dual MA-MLIS Degree Program

The Graduate College approves proposals for dual degree programs. A dual degree allows a student to receive master's degrees in two departments. The programs may be designed for a specific student or established by agreement between departments. The Master of Library and Information Studies/History of Science, Technology and Medicine Master of Arts program is an example of a dual degree program established by a department and the School of Library and Information Studies. Students must be admitted to both degrees before twelve hours are completed in one or the other. The purpose of the dual Master of Library and Information Studies and Master of Arts in the History of Science, Technology and Medicine program is to provide a course of study for those individuals planning for a career in librarianship as a science librarian, as a curator of a rare book and manuscript collection in the history of science/health sciences, or as a public historian or archivist in the history of science.

History of Science Doctoral Program

The History of Science Ph.D. (p. 454) program calls for a total of 90 approved credit hours beyond the baccalaureate degree, or 60 hours beyond the Masters degree, including dissertation hours. Students matriculating for the doctoral degree must demonstrate reading proficiency in at least two appropriate world languages (usually chosen from French, German, and Latin) before being admitted to candidacy.

Courses

HMS 1113 Introduction to Health, Medicine and Society 3 Credit Hours

Class explores health and disease in different cultural and historical contexts. In the first half of the class we focus on the ways individuals experience disease, examining how gender, race, ethnicity, class and sexuality shape medical knowledge about disease, individuals' lived experience, and social perceptions of sufferers. In the second half, we focus on epidemic diseases. (F, Sp) [IV-WC].

HMS 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

- HMS 4430 Health, Medicine, and Society Internship 1-4 Credit Hours**
1 to 4 hours. Prerequisite: Student must be HMS major with Junior standing; have a minimum 2.5 GPA; and have permission of HMS internship liaison, supervising faculty, and internship granting agency. The purpose of the HMS Internship Program is to provide a planned experience in the community that is relevant to the student's major program of study. This can be work in a facility or with an organisation that is engaged in the delivery of health care to the community, or another relevant aspect of service learning. (Irreg.)
- HMS 4993 Health, Medicine and Society Capstone 3 Credit Hours**
Prerequisite: Senior standing. This is the senior capstone for the Health, Medicine and Society Major. We will discuss important works in the history, anthropology and sociology of medicine. You will develop a research project on a topic of your choosing and work on it throughout the course. (F) [V].
- HSTM 1113 Science, Nature and Society: Historical Perspectives 3 Credit Hours**
An introduction to the study of science, technology, and medicine in light of historical, philosophical, and cultural analysis. Focusing on the relationships between science, nature, and society, this class introduces some of the big questions about who we are, who we have been, and who we might become. (Irreg.) [IV-WC].
- HSTM 1313 Disasters 3 Credit Hours**
How have technologies both increased and mitigated risks from natural disasters? How have human societies responded to human-made disasters and assessed the potential risks raised by new technologies? Taking a global perspective, we will examine responses to both natural and human disasters and consider the challenges to formulating fair and effective policies that minimize the risks posed by emerging technology. (Sp) [IV-WC].
- HSTM 2033 Introduction to Digital Humanities 3 Credit Hours**
(Crosslisted with LIS, WGS and HIST 2033) This course introduces students to digital and/or computational methods in the humanities and addresses critical questions about the role of digital technology in society. This is a collaborative, hands-on, project-based course. (Sp) [IV-WC].
- HSTM 2133 Science and Popular Culture 3 Credit Hours**
Draws on interdisciplinary perspectives to examine the interplay between science and popular culture from the Scientific Revolution to the present. Topics include representations of science, scientists, and nature in popular literature, television, films, and documentaries; the development of zoos and science museums; children and science, and science journalism. (Sp) [IV-WC].
- HSTM 2213 The Darwinian Revolution 3 Credit Hours**
The "Darwinian Revolution" was a revolution in culture as well as biology. We consider the history of the social, political, and theological issues associated with the development of evolutionary thought from the early nineteenth century to the present. (Irreg.) [IV-WC].
- HSTM 2423 Social and Ethical Issues in Science, Technology, Environment and Medicine 3 Credit Hours**
An introduction to a range of social and ethical issues in the history of science, technology, environment and medicine. Including the social, political and ethical implications of technology and scientific knowledge, and the role they play in shaping our environment and our selves. (Irreg.) [IV-WC].
- HSTM 2970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special Topics. 1 to 3 hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- HSTM 3013 History of Science to the Age of Newton 3 Credit Hours**
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. A survey of Western people's efforts to understand the natural world, from earliest historical times to the seventeenth century. (F, Sp, Su) [IV-WC].
- HSTM 3023 History of Science Since the Seventeenth Century 3 Credit Hours**
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. A survey of the historical and intellectual development of modern science. (F, Sp, Su) [IV-WC].
- HSTM 3223 Gender Issues in Science, Technology and Medicine 3 Credit Hours**
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. Historical analysis of gender issues in science, technology and medicine, and in comparison with current practices. Topics will include questions in scientific method, particularly the concept of "objectivity," bio-social theories of gender; gender issues in scientific inquiry, in the development of and engagement with technologies, and in medical thought and practice; media images; and feminist science fiction. (Irreg.) [IV-WC].
- HSTM 3243 Women and Medicine 3 Credit Hours**
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. Surveys the relationship between women and medicine in the modern period (roughly between 1750 and the present). Examines the interrelated histories of women as medical practitioners, patients and objects of medical knowledge. Also includes discussion on how women experienced illness in the past and the expectations and norms that shaped their illness experiences. Finally, a look at medical knowledge about (Sp) [IV-WC].
- HSTM 3253 Race and Science 3 Credit Hours**
Prerequisite: junior standing or completion of one History of Science course or permission of instructor. Examines the rise and fall of scientific conceptions of race from 1800 to the present, paying particular attention to its connections to 19th Century evolutionary theory, eugenics, the modern evolutionary synthesis, and recent genetics and genomics. Also looks at the role of cultural values associated with race in science more broadly. Course materials include films and novels as well as (F, Sp) [IV-WC].
- HSTM 3263 History of Public Health 3 Credit Hours**
(Crosslisted with HIST 3263) Prerequisite: Junior Standing or a lower division HSTM course or HIST 1733 or HIST 2723 or Permission of Instructor. Taking an historical perspective students explore and analyze the social, economic, political and scientific events and processes that have shaped modern public health. (F) [IV-WC].
- HSTM 3273 Of Acupuncture, Medicine Men & Ayurveda: Indigenous & Non-Western Medicine in Perspective 3 Credit Hours**
(Crosslisted with HIST 3273) Prerequisite: Junior Standing or a lower division HSTM course or HIST 1733 or HIST 2723 or Permission of Instructor. Introduces histories of practices and systems of medicine and healing that are variously deemed 'indigenous,' 'traditional,' 'non-western,' 'alternative' and 'complementary' in historical context. Students critique the historical and cultural meaning of these terms, as well as their attendant conceptions of health, disease and the body. (F) [IV-WDC].

- HSTM 3283 Introduction to Disability Studies 3 Credit Hours**
Prerequisite: junior standing or permission of instructor or completion of one lower-division History of Science course. Students engage text, audio and video sources to examine the social and cultural experience of disability in different times and cultures to critically assess how culture (mis)represents disability and corporeal difference. (F) [IV-WC].
- HSTM 3293 Environment and Health 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. This course explores the complex and changing relationship between the environment and health over the past 500 years, blending environmental history, the history of ecological science, and the history of environmental movements. Because the human-made environmental changes of the twentieth century could spell our own extinction, understanding the connections between environment and health is ever more urgent. (Sp) [IV-WC].
- HSTM 3313 Science and Technology in Asian History 3 Credit Hours**
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. Examines science and technology in east, south, and southeast Asia from 1000 A.D. to the present. We examine the influence and interaction of knowledge traditions (especially Chinese, south Asian and Islamic), how they circulate around and beyond Asia, and interactions with European knowledge traditions, culminating in examinations of political and ethical dimensions of science and technology in contemporary Asia. (Irreg.) [IV-WDC].
- HSTM 3333 Technology and Society in World History 3 Credit Hours**
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. A survey of the history of technology since 1500. Emphasizes historical contexts and cultural meanings, not technical details, as it explores the key steps in the construction of our modern technological world. Materials include literature and film as well as non-fiction. (Sp) [IV-WC].
- HSTM 3343 Revolution in Power: the Evolution of Energy Systems from Fossil Fuels to Renewables 3 Credit Hours**
(Crosslisted with P E 3343) Prerequisite: Junior standing, or completion of one History of Science lower-division course, or permission of instructor. This course provides an interdisciplinary perspective on energy systems in both their technical and human contexts, from fossil fuels to renewables, with particular focus on their social, culture, and environmental implications for Western society and the world. The history and evolution of the associated technologies will be discussed, with attention to non-western and indigenous perspectives on these global technological systems. (F) [IV-WC].
- HSTM 3353 Science and Empire 3 Credit Hours**
Prerequisite: junior standing or one previous HSCI course or permission of instructor. Examines the contested history of science and empire from both western and non-western perspectives, learning about colonial and post-colonial encounters in science, both imagined and lived. Materials include travelers' tales, explorers' accounts, fiction, and films as well as nonfiction. (Sp) [IV-WC].
- HSTM 3413 Biomedical Ethics 3 Credit Hours**
Prerequisite: Junior standing, or completion of one History of Science lower-division course, or permission of instructor. Introduces key concepts in biomedical ethics. Topics may include: the doctor/patient relationship; medical research on humans and animals; reproductive rights and technologies; medical decisions at the end of life; and the allocation of scarce resources. (Irreg.) [IV-WC].
- HSTM 3423 Modern Medicine - A Historical Introduction 3 Credit Hours**
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. Examines the history of modern medicine in Europe and America. Aims to connect medical ideas and practices to the broader social and cultural contexts in which they were developed. (Irreg.) [IV-WC].
- HSTM 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisite: ENGL 1113 or equivalent, and permission of instructor; May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- HSTM 3443 Science in a Religious World 3 Credit Hours**
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. An overview of major events in the intersection of science and religion from the Middle Ages to the present. A detailed look at the historical record and exploration of the background of the people involved, the social and political context, and the reasons why certain issues mattered so much. (Sp) [IV-WC].
- HSTM 3453 Science and Civilization in Islam 3 Credit Hours**
Prerequisite: junior standing or permission. History of scientific traditions and ideas in Islamic civilization, from the origins of Islam to the early modern period. Emphasis is on the derivation, development and transmission of Islamic science, as well as on the assimilation and influence of science within Islamic culture. (Sp) [IV-WDC].
- HSTM 3463 Cold War Science 3 Credit Hours**
Prerequisite: junior standing or permission. Science and technology during the Cold War, including strategic weapons and SDI, medical experiments, the space race, science in popular culture, and science and foreign policy. (Irreg.) [IV-WC].
- HSTM 3473 History of Ecology and Environmentalism 3 Credit Hours**
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. Explores the historical development of ecology as a science and as a political stance, from the eighteenth through the twentieth century. Topics may include: climate change, population control, deforestation, globalization, resource management, and environmental ethics. (Irreg.) [IV-WC].
- HSTM 3483 Technology, Politics, and International Development 3 Credit Hours**
Prerequisite: Junior standing, or completion of one History of Science lower-division course, or permission of instructor. Explores the interactions between politics and technology that have informed efforts to produce "developed" industrial societies around the world. Examines the emergence of development thinking and practice in Japan and the colonized world, international development and the technopolitics of decolonization, and contemporary issues in technology and development. (Irreg.) [IV-WDC].
- HSTM 3493 The History of Media 3 Credit Hours**
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. An introduction to the history of informational technologies and communications media from the printing press to the internet. Topics will include the print revolution, the advent of electronic communications, the growth of broadcast media, the development of the digital computer, and the internet boom. Course materials include novels and films as well as non-fiction. (Irreg.) [IV-WC].

HSTM 3523 History After the Internet: Exploring Digital History **3 Credit Hours**

(Crosslisted with HIST 3523) Prerequisite: Junior Standing. Examines major themes, issues, and developments affecting the research, writing, analysis, preservation, and presentation of history in the digital age. Includes hands-on engagement with, and critical assessment of, the use of digital tools for conducting historical inquiry, and exploration of the circulation of historical knowledge in such venues as social media, blogs, podcasts, digital archives, online collections, and historically-themed gaming. (Sp) [IV-WC].

HSTM 3533 Science and Global Politics in the Modern Era: Cross-Cultural Perspectives **3 Credit Hours**

Prerequisite: Junior standing. Focuses on interactions between professional scientists, corporate entities, advocacy groups, NGOs, the public, and the state, with case studies drawn from different national contexts in order to make cross-cultural comparisons. Students will develop an international perspective on this topic by focusing on both western and non-western national contexts. Topics may include such issues as public health; biotechnology; bioprospecting; organ trafficking; (Irreg.) [IV-WC].

HSTM 3543 Balloons, Barometers, and Ice Cores: History of Weather and Climate Science **3 Credit Hours**

(Crosslisted with METR 3543) Prerequisite: Junior standing or completion of one other course in HSTM or permission of instructor. This course explores the history of meteorology and climate sciences from 1500 to the present. We investigate the role of science in humanity's relationship with weather and climate, the social and political contexts of weather sciences as they have changed over time, and contributions of these sciences to sustainability and survival on a rapidly warming planet. No science background required. (F)

HSTM 3813 Science in the Ancient World **3 Credit Hours**

Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission. An examination of science in antiquity. Topics include the origins of ancient science, the transmission and interaction of various scientific traditions, the relation between science and philosophy, the development of a concept of science, and the place of science within the cultures of the period. (Irreg.) [IV-WC].

HSTM 3823 Science in Medieval Culture **3 Credit Hours**

Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission. A survey of the historical development of medieval scientific, mathematical, medical, and philosophical thought. (Irreg.) [IV-WC].

HSTM 3833 The Scientific Revolution **3 Credit Hours**

Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. Explores the history of the "scientific revolution" of the sixteenth and seventeenth centuries. Study includes understanding debates not just about what happened in the past but about how we today define science and how we understand the place of science in the modern world. (Irreg.) [IV-WC].

HSTM 3960 Honors Reading **1-3 Credit Hours**

1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated; maximum credit six hours. Will consist of topics designated by the instructor. The topics will cover materials not usually presented in regular coursework. (F, Sp, Su)

HSTM 3970 Honors Seminar **1-3 Credit Hours**

1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)

HSTM 3980 Honors Research **1-3 Credit Hours**

1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project. (Irreg.)

HSTM 3990 Independent Study **1-3 Credit Hours**

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content; Maximum credit 6 hours. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

HSTM 3993 Junior Seminar **3 Credit Hours**

Prerequisite: 9 hours of history of science classes and permission of instructor; if repeating course, permission of undergraduate academic adviser; May be repeated with change of content; maximum credit 6 hours. Offers students the chance to work on an extended research topic in the history of science, technology, environment and medicine. The themed seminar format will allow for small group discussion and close supervision of student projects. Students will be introduced to the methods and tools of advanced research. Seminar themes will vary. (Sp)

HSTM 4053 History of Magic **3 Credit Hours**

(Crosslisted with RELS 4053) Prerequisite: Junior standing or permission of instructor. This course is an investigation of the category of magic, magical practices, and the place of magic in society from antiquity to the modern world. (Irreg.) [IV-WC].

HSTM 4073 Cultural Heritage Data and Social Engagement **3 Credit Hours**

(Slashlisted with HSTM 5073; Crosslisted with WGS, HIST and LIS 4073) Prerequisite: Junior standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage – the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)

HSTM 4133 Science and Literature **3 Credit Hours**

(Slashlisted with HSTM 5133) Prerequisite: ENGL 1213 or EXPO 1213 or HSCI 1113, or another HSCI course, junior standing and permission of instructor; May be repeated with change of content; maximum credit 6 hours. Explore the relationship between science and literature in the Victorian period from historical and literary perspectives. Students read and contextualize select historical works of fiction and of science in order to better understand the historical relationship between science and society, and between contemporary scientific and literary cultures. No student may earn credit for both 4133 and 5133. (Irreg.) [IV-WC].

HSTM 4430 History of Science, Technology, & Medicine Internship **1-4 Credit Hours**

1 to 4 hours. Prerequisite: Student must be HSCI major with Junior standing; have a minimum 2.5 GPA; and have permission of departmental internship liaison, supervising faculty, and internship granting agency. The HSCI Internship Program is to provide a planned experience in the community that is relevant to the student's major program of study. This can be work in a facility or with an organization, a library or archive, which is engaged in the provision of products or services that relate to the student's academic field of study. (Irreg.)

HSTM 4960 Directed Readings **1-4 Credit Hours**

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean; May be repeated, maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

- HSTM 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor; May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- HSTM 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department; May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- HSTM 4993 Capstone in History of Science, Technology, and Medicine 3 Credit Hours**
Prerequisite: junior standing and permission of instructor. This course fulfills the capstone requirement for a major in the history of science, technology and medicine. The goal of this seminar-format course is to provide students with the opportunity to further develop their skills in research, writing, and critical analysis with respect to the historical study of science. The course provides the opportunity for in-depth individualized research within the (F) [V].
- HSTM 5073 Cultural Heritage Data and Social Engagement 3 Credit Hours**
(Slashlisted with HSTM 4073; Crosslisted with WGS, HIST and LIS 5073) Prerequisite: Graduate standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage – the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)
- HSTM 5133 Science and Literature 3 Credit Hours**
(Slashlisted with HSTM 4133) Prerequisite: Graduate standing and permission of instructor; May be repeated with change of content; maximum credit 6 hours. Explores the relationship between science and literature in the Victorian period from historical and literary perspectives. Students read and contextualize select historical works of fiction and of science in order to better understand the historical relationship between science and society, and between contemporary scientific and literary cultures. No student may earn credit for both 4133 and 5133. (Irreg.)
- HSTM 5513 Advanced Studies in the History of Ancient and Medieval Science 3 Credit Hours**
Prerequisite: HSTM 3013 or equivalent, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Thematic historical analyses of ancient and/or medieval foundations of science, focusing on the development of particular disciplines or scientific institutions, the relationship between science and religion, or transmission of science. Includes examination of sources and critical assessment of scholarly interpretations. (Irreg.)
- HSTM 5523 Adv. Stds. In The History Of Renaissance & Early Modern Sci. 3 Credit Hours**
Prerequisite: 3013 Or 3023, Or Equivalent; Or Permission Of Instructor. Advanced Studies In The History Of Renaissance And Early Modern Science. May Be Repeated With Change Of Content; Maximum Credit 12 Hours. Thematic Historical Analyses Of Scientific Ideas And Practices In The Scientific Revolution And The Enlightenment, 16th-18th Centuries. Includes Examination Of Sources And Critical Assessment Of Scholarly Interpretations. (Irreg.)
- HSTM 5533 Advanced Studies In The History Of Modern Science 3 Credit Hours**
Prerequisite: 3023, Or Equivalent Or Permission Of Instructor. Advanced Studies In The History Of Modern Science. May Be Repeated With Change Of Content; Maximum Credit 12 Hours. Thematic Historical Analyses Of Modern Science And Culture Focus- Ing On The European And American Development And Professional- Iization Of Scientific Disciplines, Interdisciplinary Relationships Among The Sciences, And Intersections Between Scientific And Pub- Lic Culture. Includes Examination Of Sources And Critical Assess- (Irreg.)
- HSTM 5550 Topics In The History Of Science 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate Standing Or Permission Of Instructor. Topics In The History Of Science. 1 To 3 Hours. May Be Repeated With Change Of Content; Maximum Credit Twelve Hours. Topics Of Scholarly Interest In The History Of Science.
- HSTM 5613 Issues and Methods in the Digital Humanities 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Provides a graduate-level introduction to the central issues, methods, and tools in the emerging field of the digital humanities. Digital humanities is an interdisciplinary set of methods, concepts, values, and practices that enable scholars to create and apply new technologies to answer social, cultural, and historical questions. (Irreg.)
- HSTM 5623 Practicum/Internship in the Digital Humanities 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit 9 hours. A practical, project-based internship, focused on the design and development of a project in the digital humanities under the close supervision of a faculty member. (F, Sp)
- HSTM 5713 History of Medicine Seminar 3 Credit Hours**
Prerequisite: Graduate standing. This seminar is a graduate-level introduction to the history of medicine. We will begin with an examination of the origins and development of the history of medicine as an academic discipline, then delve into some of the big themes and questions that have shaped the field. (Irreg.)
- HSTM 5723 History of Technology Seminar 3 Credit Hours**
Prerequisite: Graduate standing. This course introduces graduate students to the study of technology in its historical contexts. Based in the history of technology, it also introduces students to tools and concepts from cognate fields, such as environmental history, urban studies, mobility studies, and more. (Irreg.)
- HSTM 5960 Directed Readings in the History of Science 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing and permission of instructor. May be repeated with change of content; maximum credit six hours toward M.A. degree, 12 hours toward Ph.D. degree. Intensive readings in a selected area of the history of science, under the direction of a graduate faculty member. (F, Sp, Su)
- HSTM 5970 Seminar: Research, Criticism and Analysis 2-3 Credit Hours**
2 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 15 hours. Fundamentals of investigation and exposition in the history of science. (F, Sp)
- HSTM 5980 Research for Master's Thesis 2-9 Credit Hours**
2 to 9 hours. Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

HSTM 5990 Special Studies 3-5 Credit Hours
3 to 5 hours. Prerequisite: permission of instructor; May be repeated with change of content; maximum credit nine hours. Specialized studies in the history of science. Individual research culminating in the preparation of a research paper. (F, Sp, Su)

HSTM 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

HSTM 6970 Seminar in the History of Science 2-3 Credit Hours
2 to 3 hours. Prerequisite: permission of instructor; May be repeated with change of content; maximum credit 15 hours. Advanced study and historical criticism in specialized areas. (F, Sp)

HSTM 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

HSTM 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Health, Medicine, and Society, B.A.

Minimum Total Credit Hours: 120

Major Hours: 30

Minimum Upper-Division Hours: 48

Upper-Division Hours Within Major: 21

Overall GPA - Combined and OU: 2.50

Major GPA - Combined and OU: 2.50

Program Code: B502

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- Thirty hours of major coursework must be completed, and 21 of the 30 hours must be upper division courses.
- A grade of C or better must be earned in each course for major credit.

Code	Title	Credit Hours
Introduction		
HMS 1113	Introduction to Health, Medicine and Society (meets Core IV Western Civ. & Culture)	3
Ethical Issues in Health & Medicine		
PHIL 1263 or HSTM 3413	Introduction to Ethics in Health Care Biomedical Ethics	3
Historical/Humanistic Perspectives		
Choose three courses ¹		9
Social Scientific Perspectives		
Choose three courses ¹		9
In-Major Electives		

Choose an additional course from Historical/Humanistic or Social Scientific Perspectives¹ 3

Capstone

HMS 4993 Health, Medicine and Society Capstone 3

Total Credit Hours 30

¹ Choose courses from an approved list of courses (p. 448) maintained by the department. Other courses that meet program criteria may be counted towards the major with the written approval of the program advisor.

Major Support Requirements

A grade of C or better must be earned in each course for major support credit

Code	Title	Credit Hours
PSY 1113	Elements of Psychology (meets Core III additional Social Science)	3
or SOC 1113	Introduction to Sociology	
Choose a course in statistics, such as the following:		3
BIOL 2913	Intro to Quantitative Biology	
ECON 2843	Elements of Statistics	
MATH 4753	Applied Statistical Methods	
Choose at least 9 hours of coursework (including labs) in life or natural sciences in addition to those taken to meet Gen Ed requirements (p. 448)		9
Total Credit Hours		15

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>. Courses graded P/NP will not apply.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213 or EXPO 1213	Principles of English Composition Expository Writing	3
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO¹ 3-4

Physical Science

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS¹ 3-4

Core Area III: Social Science (6 hours)

P SC 1113 American Federal Government 3

Choose one course from the General Education Social Science list 3

Core Area IV: Arts and Humanities (18 hours)

Artistic Forms

Choose one course from the General Education Artistic Forms list 3

Western Culture

HIST 1483 United States to 1865 3
or HIST 1493 United States, 1865 to the Present

Choose one course from the General Education Western Culture list (excluding HIST 1483/1493) 3

World Culture

Choose one course from the General Education World Culture list 3

Additional Core IV Upper-Division Arts & Humanities courses

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3} 3

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3} 3

Core Area V: First Year Experience (3 hours)

Choose one course 3

Total Credit Hours 56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Health, Medicine & Society academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and HMS major requirements.

IN-MAJOR ELECTIVE

Students can meet this requirement by taking any of the courses in the lists above

Major Support

The department intends that the science courses required for any of the pre-med/health-related programs can be counted toward the 9 hours of coursework in the "life or natural sciences" category under Major Support Requirements for the HMS BA degree. Besides the general education courses required for pre-degree programs, the following courses are acceptable as science major support electives:

Code	Title	Credit Hours
BIOL 2124	Human Physiology	4
BIOL 2234	Introduction to Human Anatomy	4
BIOL 2255	Human Anatomy	5
BIOL 3083	Animal Behavior	3
BIOL 3103	Principles of Physiology	3
BIOL 3113	Cell Biology	3
BIOL 3201	Animal Development Lab	1
BIOL 3203	Animal Development	3
BIOL 3214	Comparative Vertebrate Anatomy	4
BIOL 3333	Genetics	3
BIOL 3342	Genetics Laboratory	2
BIOL 3833	Introduction to Neurobiology	3
BIOL 4034	Mammalogy	4
BIOL 4233	Neurobiology of Disease	3
BIOL 4244	Animal Histology	4
BIOL 4843	Molecular Biology	3
BIOL 4893	Behavioral Neurobiology	3
BIOL 4970	Special Topics in Biology (Topic: Epigenetic)	3
MBIO 3812	Fundamentals of Microbiology Laboratory	2
MBIO 3813	Fundamentals of Microbiology	3
MBIO 4823	Pathogenic Microbiology and Infectious Disease	3
MBIO 4833	Basic Immunology	3
MBIO 4903	(Topics in Virology)	
CHEM 3053	Organic Chemistry I: Biological Emphasis	3
CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis	2
CHEM 3153	Organic Chemistry II: Biological Emphasis	3
CHEM 3064	Organic Chemistry I	4
CHEM 3164	Organic Chemistry II	4
CHEM 3653	Introduction to Biochemistry	3

HES 4523	Human Sexuality II	3
PHYS 2424	General Physics for Life Science Oriented Majors	4
PHYS 2524	General Physics for Engineering and Science Majors	4

History of Science, Technology, and Medicine, B.A.

Minimum Total Credit Hours: 120

Major Hours: 36

Minimum Upper-Division Hours: 48

Upper-Division Hours Within Major: 21

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B510

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- A grade of "C" or higher must be earned in each course presented for major credit.

A minimum of 36 hours of HSTM courses, 21 of which must be upper-division, are required. The 21 upper-division hours includes the capstone course. Up to six hours (2 courses) taught in other departments (i.e., Honors College) may be counted towards the major, subject to written prior approval of the HSTM *departmental undergraduate advisor*.

Students may choose a specific emphasis within the major: **technology & society**; **biology, medicine & society**; or, a **traditional history of science** emphasis.

Code	Title	Credit Hours

History of Medicine, Minor

Minimum Total Credit Hours: 15**Minimum Upper-Division Hours: 9****Program Code: N508**

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of History of Science, Technology, and Medicine.

Required Course

Students must successfully complete at least 15 hours of coursework, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned for each course presented for minor credit.

Code	Title	Credit Hours

HSTM 3423	Modern Medicine - A Historical Introduction
HMS 4993	Health, Medicine and Society Capstone
Total Credit Hours	15

Notes

- A list of HSTM/HMS courses with variable content is available in the department that may also count with the prior approval of the HSTM undergraduate studies committee.
- Up to six hours of non-HSTM or HMS courses from a list of approved courses maintained in the department may be applied to the minor.
- Courses not previously listed, which are deemed to have appropriate content, may be applied towards the minor with the prior approval of the HSTM undergraduate committee.

Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

HSTM 5713 or HSTM 5723 (students must take one of these two courses and may take the other as an elective)		
Other approved graduate course (may be outside the Department)		
Total Credit Hours		32

NOTES

- All requirements are to be satisfied by the student's fourth semester in the program. If special circumstances warrant an exception, the department may extend this deadline.
- For thesis students, the thesis should be a single, sustained piece of writing modeled on a scholarly journal article. With regard to length and quality, it is expected that the thesis will be presented to the department as a pre-circulated paper and discussed as a part of the colloquium series. At the discretion of the thesis committee, this presentation may take the place of the oral defense of the thesis.
- For non-thesis students, a portfolio of three research papers prepared as part of your regular graduate course work should be submitted to your committee.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

History of Science, Technology, and Medicine, Ph.D.

Minimum Total Hours: 90

Program Code: D511

Program Requirements

The Ph.D. degree calls for a total of 90 approved credit hours beyond the baccalaureate degree, or 60 hours beyond the master's degree, including dissertation hours.

Code	Title	Credit Hours
<i>Doctoral students will be expected to complete the following minimum course requirements (not counting dissertation hours) before completion of the General Examination:</i>		
Approved course of study consisting of 30 credit hours for the master's degree or its equivalent		30
At least 18 hours of Post-Master's degree coursework, which must include:		18
One three hour course to complete the sequence:		
HSTM 5513	Advanced Studies in the History of Ancient and Medieval Science	3
HSTM 5523	Adv. Stds. In The History Of Renaissance & Early Modern Sci.	3
HSTM 5533	Advanced Studies In The History Of Modern Science	3
One three hour course to complete both of:		
HSTM 5713	History of Medicine Seminar	3
HSTM 5723	History of Technology Seminar	3
12 additional elective course hours beyond the MA before general exams. If students have completed either or both of the specific course requirements above, they will need to take sufficient additional elective courses to bring their total to 18 hours beyond the MA.		
<i>Students must complete a minimum of 2 hours of Dissertation Research:</i>		
HSTM 6980	Research for Doctoral Dissertation	2
<i>Additional Coursework for completion:</i>		

Additional coursework as needed to reach 90 post-baccalaureate credit hours 40

Total Credit Hours 90

NOTES:

- **Language requirements:** Students admitted to the doctoral program are assumed to have satisfied the course distribution and language requirement for the master's. If not, additional coursework or language study may be required. The doctoral degree requires demonstrated competence in a second approved foreign language (beyond the language requirement for the master's).
- **Doctoral field requirements:** Students must satisfy the requirements for four distinct fields. Three of these fields will be examined and will be closely related to the student's doctoral research. The fourth field may be satisfied without an examination and will differ from the student's specialization enough to ensure a breadth of competence sufficient to teach survey courses and to participate as an active and informed member of the history of science community. 1. The doctoral field, designed by the student and their committee chair, supports the student's dissertation research. 2. The second field is typically (but not necessarily) supervised by a member of the student's committee other than the committee chair. 3. The outside field is typically (but not necessarily) supervised by a faculty member outside of the department, presumably a member of the student's committee. This field is intended to support the student's research interests by providing a different perspective on or a different context for the student's research topic. 4. The complementary field may be satisfied by means other than a written examination, as determined by the student's committee.

Outside courses: Students are strongly encouraged to take one or more courses outside the department, especially (but not solely) to fulfill the requirements of the outside field. These courses normally, though not necessarily, will be in the history department.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

Department of Human Relations

Wesley Long, Chair
601 Elm Avenue room 730
Norman, OK 73019-0315
Phone: (405) 325-1756
FAX: (405) 325-4402
stacy@ou.edu
www.ou.edu/cas/humanrelations

General Information

The Department of Human Relations was founded in 1970 with a mission to train graduate students to be agents of social change. The department has grown to include a Bachelor of Arts (BA) in Human Relations in Norman and a Master's degree in Human Relations (MHR) on the University of Oklahoma campuses in Norman and Tulsa, as well as through OU's Extended Campus.

Human Relations is a multi-disciplinary field of study and professional practice combining theoretical perspectives from the social sciences and humanities, organizational studies, the world of work and service, and from multicultural studies. The BA and the MHR degrees prepare students to meet the challenge of working in an increasingly diverse and global workplace.

Programs & Facilities

Student Society for Human Relations

The mission of the Student Society for Human Relations is to promote social justice, principles of tolerance, inclusion, dignity, and equal respect for all groups of people; to serve as social agents of change for the betterment of society; to develop leadership skills as future human relations professionals, and to actively seek ways to build relationships through service with the entire university and with the community at large.

Undergraduate Study

Human Relations degrees prepares graduates for careers focusing on social change and resolution of human relations problems. Students focus on areas of study such as counseling, non-profits, volunteerism, women's issues, race relations, and organizational studies. Many HR undergraduates pursue a Master in Human Relations as a professional degree.

- Human Relations, Bachelor of Arts (p. 466)
- Human Relations Minor (p. 469)

Graduate Study

The Master of Human Relations degree prepares graduates for careers focusing on research and/or resolution of human relations problems.

Particular attention is given to students who work part-time and full-time. To accommodate both traditional and nontraditional students, courses are offered on the Norman campus, at the Schusterman Center in Tulsa, and through Extended Campus in day, evening and week-end formats. Since its inception, the department has graduated a large

number of ethnic minorities, women, older persons returning to college, and international students.

Each student pursuing a Master of Human Relations degree is expected to initiate curriculum planning with a major advisor within the first semester. This planning will identify course sequences which seem most likely to lead to mastery in one or more areas of concentration. Some students may not need to design a unique program but may select from concentration options in which the course sequences have been designed by the faculty.

Areas of Specialization

Human relations, human resources, and clinical mental health counseling.

Masters' Degree Programs

- Diversity, Equity and Strategic Impact, Master of Human Relations (p. 471)
- Human Relations (Standard), Master of Human Relations (p. 472)
- Inclusive Leadership, Master of Human Relations (p. 474)
- Human Resource Studies, Master of Arts (p. 475)
- Master of Clinical Mental Health Counseling (p. 469)
- Clinical Mental Health Counseling, M.S. (p. 471)

Human Relations Graduate Certificates

- Graduate Certificate in Helping Skills in Human Relations (p. 476)
- Graduate Certificate in Human Resource Development and Workforce Diversity (p. 476)

Courses

H R 1113 Human Relations and Community Engagement: Make an Impact 3 Credit Hours

Through this interactive course, students will learn various concepts/theories related to community engagement, social change, and inclusion. This course is taught with a human relations (HR) lens and we discuss topics as they relate to our values and concepts. Students will write critical reflection papers over course lectures, readings, and community involvement to develop a deeper understanding of community engagement. (F, Sp, Su)

H R 2013 Understanding American Social Problems 3 Credit Hours

The course will introduce students to social problems in the United States and how they impact human relations and interactions. The course will discuss topics that polarize, unite, or make people indifferent to social problems and issues that impact their daily lives. Human Relations encourages social advocacy and being a change agent when dealing with social problems and issues. (F, Sp, Su)

H R 2443 Introduction to International Human Relations 3 Credit Hours

The goal of this course will be to familiarize you with key international issues relevant to human relations. These include, but are not limited to, gender, nation of origin, culture, etc. (F, Sp)

H R 3003 Human Relations Theory 3 Credit Hours

Prerequisite: junior standing or permission of instructor. Emphasizes key ideas of theorists who have contributed to the interdisciplinary field of human relations. Students are introduced to selected primary readings by influential scholars with the goals of understanding and integrating the various perspectives, and of developing critical thinking skills. (Irreg.)

H R 3013 Introduction to Human Relations 3 Credit Hours

Prerequisite: Sophomore standing. Designed to introduce students to the breadth and depth of the field of human relations. Emphasis is on the processes of communication, problem solving, decision making, conflict and change as they occur in individuals, interpersonal, group and intergroup relations. (F, Sp, Su)

H R 3033 Writing for Human Relations Professionals 3 Credit Hours

Prerequisite: junior standing or permission of instructor. Familiarizes students with the fundamental skills of professional writing and presentation. Student skill development emphasized in the course includes critical thinking, information gathering, comprehensive planning, precise writing, and effective presentations. (Irreg.)

H R 3043 Interpersonal Skills and Group Dynamics 3 Credit Hours

Prerequisite: 3013 or permission of instructor. Students explore interpersonal dynamics that characterize effective communication in families, the workplace, community organizations, and social settings. Focuses on ways to improve relationships and emphasizes observation, analysis, and skill training in relationship development. (Irreg.)

H R 3203 Introduction to Organizational Studies 3 Credit Hours

Prerequisite: 3013 or junior standing, or permission of instructor. This course surveys the basic concepts of organizational studies, including organizational behavior, motivation, leadership, teams, change and development, conflict, organizational structure and design, and innovation. (Irreg.)

H R 3233 Presentation Skills in Human Relations 3 Credit Hours

Prerequisite: 3013 or junior standing, or permission of instructor. This course is designed to provide students with the skills, knowledge, and strategies to prepare and deliver effective presentations in human relations settings. In this course, students will receive opportunities to plan, develop, deliver and evaluate presentations. (Irreg.)

H R 3253 Personality and Human Relations 3 Credit Hours

Prerequisite: H R 3013 or junior standing, or departmental permission. This course will introduce students to theories of personality, communication and how they intersect with human relations in both personal and professional relationships. (F)

H R 3303 Family Issues in Human Relations 3 Credit Hours

Prerequisite: 3013 or junior standing, or permission of instructor. This course will focus on contemporary issues challenging families and couples. The text and instruction will explore the ideas of why humans seek intimacy, different forms of human coupling, variations of marriage and family life, parenting, and problems faced by families. (Irreg.)

H R 3313 Ethical Issues in Intercollegiate Athletics 3 Credit Hours

Prerequisite: 3013 or junior standing, or permission of instructor. This course is designed to survey intercollegiate athletics in America and contemporary ethical issues related to major college sports and its place within higher education. Such topics as character development, criminal activity, gender equity, academic scandal, extra benefits, illegal inducements, and compensation of college athletes, etc., are explored in depth. (Irreg.)

H R 3403 History of Racism 3 Credit Hours

Prerequisite: 3013 or junior standing, or permission of instructor. Racism is the single most critical barrier to building effective coalitions for social change. Racism has been consciously and systematically erected, and it can be undone only if people understand what it is, where it comes from, how it functions, and why it is perpetuated. This course will examine history and culture to look at racism within the United States of America. (Irreg.)

- H R 3413 Cultural Awareness in Human Relations 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Course explores theory and applications of cross-cultural communication from both practical and academic viewpoints through scholarly internet and multimedia resources. The course will provide an understanding of the possible variations in language, culture, and communication styles that affect human relations work and life in general. (F, Sp)
- H R 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- H R 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- H R 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- H R 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- H R 4013 Social Change Process 3 Credit Hours**
Prerequisite: 3013 or permission of instructor. Utilizing interdisciplinary behavioral sciences literatures, students will gain knowledge of selected laws and community programs that characterize social change activities. Through case studies, guest lectures, and field trips, the students will acquire the skills needed to design and carry out a community project that may positively impact the lives of a target population. (Irreg.)
- H R G4113 Practicum in Human Relations 3 Credit Hours**
Prerequisite: junior standing, two courses in social sciences and permission of instructor. May be repeated with change of content; maximum credit nine hours. Practica are designed for undergraduate and graduate students who wish to acquire experiences in human resources agencies. While directly participating in the helping process, students will learn about the function of professionals in different disciplines, the nature of agencies, their relation to one another and to the community. (F, Sp, Su)
- H R 4123 Diversity in the Workplace 3 Credit Hours**
Prerequisite: H R 3013 or junior standing, or departmental permission. Prepare students as professionals for the essential understanding, empathic communication skills, ethical practice, and professional competencies to engage in appropriate and positive diversity understanding. Focus on empowering future business leaders/owners/managers to understand significance of inclusion and diversity in the workforce, addresses diversity in personal and global manners, assisting to reflect on complex paradigm shifts within workplaces. (F, Sp, Su)
- H R 4143 Theories of The Oppressed 3 Credit Hours**
Prerequisite: H R 3013 or junior standing, or departmental permission. Introduction and deeper exploration of cultural, racial, ethnic, gendered and sexual oppression throughout the US and globally. Explore the theoretical underpinnings of oppression from a critical cultural perspective and the themes of hegemony, unequal distribution of power, the role of activism/resistance to literal and symbolic oppression by marginalized people both political/personal in nature, exploring effects of oppression on marginalized/hegemonic communities. (F, Sp, Su)
- H R 4153 Introduction to Counseling in Human Relations 3 Credit Hours**
Prerequisite: H R 3013 or junior standing, or departmental permission. Introduction to the field of Human Relations Counseling. Provides overview of the field and explores the struggles, uncertainties, demands, and stresses of the helping professions. Students will examine whether the helping professions are right for them, their values, and their belief systems and introduces the helping process, with special attention to the ethics/diversity/stress/burnout, and working in communities. (F, Sp, Su)
- H R 4163 Making Men: Media, Violence and Misogyny 3 Credit Hours**
Prerequisite: H R 3013 or junior standing, or departmental permission. Introduce students to theories of misogyny, homophobia and violence through lens of developmental sociological/human relational perspective. Will take queer/feminist approach while looking at specific issues men face in the development of social, intrapersonal sexual and professional identities in the presence of negative and limited media, and societal messages about masculinity, boyhood and manhood while utilizing communication/human relation theories. (F, Sp, Su)
- H R 4170 Special Topics in Human Relations 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 3013 or junior standing, or permission of instructor. May be repeated with change of content; maximum credit nine hours. The course is designed to permit the study of topical human relations issues. (Irreg.)
- H R 4183 Criminal Justice in Human Relations 3 Credit Hours**
Prerequisite: H R 3013 or junior standing, or departmental permission. Course focuses on three parts: policing, the courts system, and corrections. The general theme addresses the establishment of and the adaptation to the ever-changing balance between expectations of the community, in terms of safety, and the rights of the individual, in terms of civil liberties and looks at where the criminal justice system succeeds--and where it fails. (F, Sp, Su)
- H R 4203 Social Issues in the Workplace 3 Credit Hours**
Prerequisite: 3013 or junior standing, or permission of instructor. This course will provide students with an interdisciplinary examination of human relations, social issues, and the workplace. Historical social change will be examined as it is impacted by workplace dynamics. The course will employ a case study approach to explore social justice concerns and sociocultural dynamics in the American workplace. (Irreg.)
- H R 4223 International Human Relations 3 Credit Hours**
Prerequisite: H R 3013 or junior standing, or departmental permission; course is not open to freshmen. Course familiarizes students with significant international issues relevant to human relations. Explores the meaning of being a Human Relations professional in an increasingly globalized world, including, but not limited to, the role of human relations in addressing issues such as warfare, terrorism, gender discrimination, international issues affecting children, and the protection of human rights.

- H R 4303 Human Relations in Action 3 Credit Hours**
Prerequisite: H R 3013 or sophomore standing. Course designed to provide an overview of how individuals, grassroots organizations, and structured groups orchestrate local/community/state/national/international societal/political change. Class will review historical and current events and realities that have sparked both peaceful and violent uprisings with the demand and hope for better treatment and social justice. Focus on both famous and current grassroots movements throughout the US and abroad. (F, Sp, Su)
- H R 4313 Intercollegiate Athletic Administration 3 Credit Hours**
Prerequisite: 3013 or junior standing, or permission of instructor. Intercollegiate athletics has many constituencies with differing perceptions about its value to higher education and the community. This course is designed to survey intercollegiate athletics in America and its place within higher education. The contributions of college athletics to higher education will be discussed in depth as well as its values to student-athletes. In addition, the organizational structure and roles of the college athletics department are explored in depth. (Irreg.)
- H R 4323 Sexism in Modern America 3 Credit Hours**
Prerequisite: H R 3013 or Junior standing or departmental permission. This course is designed to take a critical look at sexism in the modern United States. We will examine feminist theories, intersectionality, and gender. (F, Sp, Su)
- H R 4413 Adolescent Issues in the African-American Community 3 Credit Hours**
Prerequisite: 3013 or junior standing, or permission of instructor. This course is designed to introduce students to adolescent issues facing African-Americans. The course will examine development of all adolescents, as well as critically analyze the major issues and challenges facing African-American youth. Students will also identify possible solutions to these issues. (Irreg.)
- H R 4423 Women's Issues in Human Relations 3 Credit Hours**
Prerequisite: 3013 or junior standing, or permission of instructor. This course examines a perspective on women's development that accurately reflects women's experiences rather than society's traditional view of women. We will explore the effect on women of being silenced, sexualized, and subordinated in a patriarchal culture. Particular attention will be given to self-in-relation theory, a developmental theory proposing that women develop their sense of self through relationships, but eventually discover that this is not valued or required. Since so many of our attitudes are determined in early life, we will explore the construction of identity in adolescent female development. Views of women's experiences in different cultures will also be examined. (Irreg.)
- H R 4433 Gender and War 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Course will cover theoretical issues relevant to gender and war as well as applied topics such as child soldiers, refugees, rape as a tool of war, and definitions of human rights. Where relevant, case studies will be used to illustrate the gendered dimensions of warfare. (F, Sp)
- H R 4503 Applied Research 3 Credit Hours**
Prerequisite: COMM 2513 or ECON 2843 or P SC 3123 or PSY 2003 or PSY 2113 or S WK 2223 or SOC 3123. Introduces students to the theoretical and methodological skills necessary to conduct an applied research program. Methodological approaches are varied and emphasize a range of social science orientations. (Irreg.)
- H R 4513 Service Learning 3 Credit Hours**
Prerequisite: 3003, 3013, 3043, and 4013. Capstone course to be taken in the final semester. Students apply learning from other courses to a project of significant community need. Classes are held both on campus and on-site, and group work, evaluative discussion, and written reflection are integral parts of the course. (Irreg.) [V]
- H R 4523 Civil Rights Movement 3 Credit Hours**
Prerequisite: Junior standing or departmental permission. This course will examine the United States civil rights movement in a broad context of twentieth-century social movements, in particular emphasis on how the African American freedom movement intersected with and influenced other social movements through analysis of the structure and dynamics of the civil rights movement from the viewpoints of history, sociology, and political science. (F, Sp, Su)
- H R G4613 Human Relations in Law 3 Credit Hours**
Prerequisite: Junior standing or departmental permission. Students learn central issues found when exploring principles of human relations as seen in various areas of law. Students will gain a general framework of law and guidance of human relations principles found within the framework exploring different areas of law where rich examples include constitutional, health, family, criminal, immigration and employment laws. (F, Sp, Su)
- H R 4723 Sexism and Homophobia 3 Credit Hours**
(Slashlisted with H R 5723) Prerequisite: H R 3013 or junior standing, or departmental permission. Designed to introduce students to the intersection between homophobia, sexism, transphobia and gender/sexual violence. Surveys important theories of gender, homophobia and misogyny and how these social phenomena effect those who they target and those who practice them. Will cover psychological/interpersonal and sociological/political exploration of the associated nature of each area. No student may earn credit for both 4723 and 5723. (F, Sp, Su)
- H R 4960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Junior standing and permission of instructor. May be repeated; Maximum credit 6 hours. Faculty supervised exploration of an area of human relations not covered in regularly offered courses. (F, Sp, Su)
- H R 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- H R 4973 Advanced Research and Writing for Human Relations 3 Credit Hours**
Prerequisite: Majors only or departmental permission. Prepares students in Human Relations to produce clear, effective, and well-argued academic writing. Students will conduct online searches, evaluate sources, think critically about issues, and write various types of papers, including a literature review. Expressing clear thoughts in a way that reflects respect for gender, difference, and inclusion will be part of all written exercises. (F, Sp, Su)
- H R 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

- H R 5003 Theoretical Foundations Of Human Relations 3 Credit Hours**
Prerequisite: admission to the degree program in human relations or permission of department. An analysis of human relations theories and concepts from the perspectives of the social sciences, the humanities and education. (F)
- H R 5013 Current Problems In Human Relations 3 Credit Hours**
Prerequisite: admission to the degree program in human relations or permission of department. In-depth studies of outstanding problems facing social practitioners, including racism, sexism, poverty and human rights. Strategies for change and ethics of intervention also will be discussed. (F)
- H R 5022 Research in Human Relations I - Quantitative 2 Credit Hours**
Prerequisite: Graduate standing and majors only. Designed to provide basic skills in statistical methods, data analysis and evaluation, introduction to the concepts of research design, methodology, sampling techniques, measurement, and internal/external validity. Special focus: designing/implementing a research project to HR. Methodological approaches are varied ranges of social science orientations. Emphasis on understanding of research methods, critical consumers of research, critical analysis of statistics and research methods. (F, Sp)
- H R 5023 Research in Human Relations 3 Credit Hours**
Prerequisite: admission to the degree program in human relations or permission of department. Special focus will be upon designing and implementing a research project related to the student's area of concentration in human relations. (Sp)
- H R 5033 Introduction to Inclusive Leadership in Organizations 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor; Inclusive Leadership M.H.R. students only. Examines how leaders formulate complex and effective strategies for equitable policies, practices, and procedures. LO equips students with the framework to develop skills that will allow them to analyze and navigate current organizations, using past, current, and potential work experiences. The analytical frameworks will help students to understand leadership; the practical experience will help students put that understanding into action.
- H R 5043 Seminar in Organizational Change and Development 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Focus will be upon the change process and a survey of major approaches used to bring about organizational change, such as confrontation meetings, survey feedback, job enrichment, process consultation and third party intervention. (Sp)
- H R 5053 Diversity and Justice in Organizations 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Focuses on concepts of justice in organizations, and the changing demographics of our society, especially related to race and culture, gender, age, disability, and socio-economic status. The course emphasizes the implications of these factors for effective organizational management. (Irreg.)
- H R 5063 Seminar in Strategies of Social Change 3 Credit Hours**
Prerequisite: graduate standing or permission of department. A study of techniques for bringing about individual, group or organizational changes. Special focus will be placed on philosophies and results of violent and nonviolent tactics. (F)
- H R 5073 Creative Problem Solving 3 Credit Hours**
Surveys the nature of creative thinking and creative problem solving. Topics to be covered include creative thinking obstacles, creativity, readiness, major stages of the creative problem-solving process (fact finding, problem finding, idea finding, solution finding and acceptance finding) and use of a variety of individual and group techniques for different stages in the process. (Sp)
- H R 5083 Seminar in Group Dynamics 3 Credit Hours**
Prerequisite: graduate standing or permission of department and graduate dean. An intensive study and critical evaluation of social-psychological concepts related to sensitivity training as a human relations technique. (CE)
- H R 5093 Introduction to Graduate Studies in Human Relations 3 Credit Hours**
Prerequisite: admission to degree program in human relations or permission of instructor. Designed to acquaint graduate students with human relations theory and practice in various contexts. Emphasis is placed on the role of human relations professionals as agents of persistence and change at the interpersonal, group, organizational and societal levels of analysis. (F)
- H R 5100 Advanced Theories in Human Relations 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of content; maximum credit six hours. Additional in-depth studies of human relations theories and their implications for human relations practitioners will focus on topics such as, but not limited to: affirmative action and reverse discrimination; spiritual aspects of recovery in chemical dependency; conceptual models of violence and nonviolence as a basis for peace curriculum; human relations in the twenty-first century; human values in sexuality; and women and men in organizations. (F, Sp)
- H R 5110 Advanced Seminar in Current Problems 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of content; maximum credit six hours. Additional in-depth studies of current social problems and strategies for intervention and change on topics such as, but not limited to: chemical dependency and society; ethnic and gender discrimination issues; disadvantaged children; domestic violence; sexual/physical abuse; physically and emotionally handicapped populations. (F, Sp)
- H R 5113 Seminar in Local Issues in Human Relations 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. May be repeated with change of topic; maximum credit nine hours. Variable topics and content related to human relations problems and solutions. (F, Sp, Su)
- H R 5122 Research in Human Relations II - Qualitative 2 Credit Hours**
Prerequisite: Graduate standing and majors only. Course introduces students to the field of qualitative research and its multiple epistemological approaches that inform the understanding of human behavior, interaction, and structure. Qualitative research is a rigorous process of data collection and analysis that requires a unique skill set. The course will equip students to explore activities relevant to the conduction of qualitative methodology. (F, Sp)

H R 5133 Change, Challenge and Creativity in the Workplace 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. This course examines ways to enhance creativity and the creative problem solving process within the context of a rapidly changing workplace. The major changes occurring in today's workplace and the management of change at both the personal and organizational level will also be considered. Particular emphasis will also be placed on examining the creative process, common barriers to creativity, and a variety of individual and group techniques that foster or facilitate the creative process. (Irreg.)

H R 5143 Human Resources for the Human Relations Professional 3 Credit Hours

Prerequisite: graduate standing or permission of department. This course serves as an introduction to the Human Resource Management (HRM) discipline. Specifically, this course is designed to assist students in discovering what HRM is (and is not), recognizing its' multifaceted and ever evolving nature, and how HRM fits into the total organization. An awareness and understanding of the central HRM topics, competencies, terminology, and ethical issues is foundational to the course. In addition, the highly influential nature of federal and state law on HRM is highlighted. Additionally, this course will illuminate the many rewarding career opportunities available within the HRM discipline. (Irreg.)

H R 5153 Human Emotions 3 Credit Hours

Prerequisite: graduate standing. Goal is to become familiar with some of the major conceptualizations of emotions and the evidence used to validate them; to examine a number of emotions such as attachment, love, loss and grief, depression, anxiety, joy, anger, fear, etc. Will be both didactic and experiential. Skills in self-disclosure, active listening, empathy, confrontation, etc. will be used to increase the understanding of emotions and to increase the ability to communicate emotional content. (Irreg.)

H R 5163 Seminar in Nonverbal Behavior in Human Relations 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. Topics include research methods, cross-cultural studies, proxemics, kinesics, vocalics, emotions, touch and human development, dress and appearance, attractiveness and social order. (F or Sp)

H R 5183 Seminar in Issues in Human Relations Training 3 Credit Hours

Prerequisite: 5083 or 5173. Focuses on theory and research in group dynamics (group development, membership, goals, conformity, power, leadership, essentials in laboratory design); ethics, values and professionalism in human relations; and criticisms of human relations training. (CE)

H R 5193 Intervention and Practice in Training 3 Credit Hours

Prerequisite: 3013, 5003, 5013, 5023, 5083 or 5173. Specifically designed to enable advanced students to explore their skills in working with others from both a theoretical and pragmatic perspective. Students are required, through course content, to develop a clear picture of facilitation, leadership, consultant or teacher style. (Sp)

H R 5200 Internship In Human Relations 1-6 Credit Hours

1 to 6 hours. Prerequisite: admission to the degree program in human relations and permission of department. Field experience in and outside Oklahoma. Each student must have both types of experiences. Agency roles and responsibilities will be learned by on-the-job practice. (F)

H R 5203 Graduate Research and Writing for Human Relations 3 Credit Hours

Prerequisite: graduate standing, majors only, or permission of department. Prepares students in Human Relations to produce clear, effective, and well-argued graduate-level academic writing. Students will conduct online searches, evaluate sources, think critically about issues, and write various types of papers, including a literature review. Expressing clear thoughts in a way that reflects respect for gender, difference, and inclusion will be part of all written exercises. (Irreg.)

H R 5213 Organizational Behavior for Leaders 3 Credit Hours

Prerequisite: Graduate standing and departmental permission. Organizational behavior (OB) represents the behavioral approach to management. OB is concerned with human behavior at work and how various structures and work processes influence such behavior. This course will address several important organizational issues and processes, including organizational culture, group behavior and teamwork, and leadership. (F, Sp, Su)

H R 5223 Leadership for Systemic Change 3 Credit Hours

Prerequisite: Graduate standing and departmental permission. Systemic change is the change that can impact policies, processes, structures, organizational culture, or other ways that an organization's system exists and functions. This course will explore the competencies needed for inclusive leaders to understand the overall alignment of the organization's system to plan, implement, and guide the process, and then assess the effectiveness of the outcomes. (F, Sp, Su)

H R 5233 Strategic Leadership for Intercultural Awareness 3 Credit Hours

Prerequisite: Graduate Standing and Departmental Permission. Strategic Leadership (SL) requires a humanist touch and effective management of people. This course moves progressively through individual, community, organizational, and global leadership. SL will enhance your ability to comprehend, communicate, and construct innovative skill sets to become a successful leader in any field you choose. (F, Sp, Su)

H R 5243 Developing Inclusive Leaders in a Diverse World 3 Credit Hours

Prerequisite: Graduate standing and departmental permission. Inclusive leaders promote inclusionary principles and values at the individual, group, and broader organizational levels. In order for inclusion to become an embedded norm, leaders will need to develop cognitive competencies to effectively create, convey, implement, and sustain an inclusive environment. Students will learn to apply principles of inclusion as a lens to view relationships, processes, and interacting systems. (F, Sp, Su)

H R 5253 International Conflict Resolution 3 Credit Hours

Prerequisite: Graduate standing or departmental permission. Course will explore key concepts, chart the development of the field, evaluate successes/failures, assess challenges/debates, discuss environmental conflict resolution in the arts and popular culture, and discuss conflict resolution in the media and the communications revolution. Macro view: integrate demographic factors of religion, politics, geography, history, and economics as conceptual frames of analyses. (F, Sp, Su)

H R 5263 International/Intercultural Awareness 3 Credit Hours

Prerequisite: Graduate standing and departmental permission. Understand diverse cultures using a multidisciplinary approach of how cultures are different and what factors contribute to cultural distinctiveness. Use the tools of history, geography, economics, sociology, and other social/physical sciences for the whys behind cultural distinctiveness. Study how to adapt to cultural differences and work with people from other cultures, domestically and internationally. (Irreg.)

- H R 5273 Athletics in Higher Education 3 Credit Hours**
(Crosslisted with EDAH 5273) Prerequisite: Graduate Standing. Provide Students With An Understanding Of The History, Structure And Administration Of Intercollegiate Athletics, As Well As An Opportunity To Discuss A Wide Variety Of Related Contemporary Issues. (Irreg.)
- H R 5283 Clinical Practicum 3 Credit Hours**
Prerequisite: Graduate standing, admission to the Master of Clinical Mental Health Counseling degree program, and departmental permission. This course includes supervised practical experience at approved practicum sites. Emphasis on counseling theory, practice skills, professional identity, and theory and technique integration. Weekly conferences on counseling issues, practice development, and professional identity. (F, Sp, Su)
- H R 5293 Multicultural Issues in Human Relations 3 Credit Hours**
Prerequisite: Graduate standing or departmental permission. This course focuses on the historical, social, cultural, economic, and political situation of selected populations in the USA. It examines complex issues in workplace diversity, and skills, policies, and processes that foster a culture that affirms diversity in the workplace and scrutinizes potential barriers to culturally competent practices. (Irreg.)
- H R 5303 Stress Management 3 Credit Hours**
Prerequisite: Graduate standing or departmental permission. The course will teach human relations professionals various methods of stress management and prevention that can be used with clients, employees, co-workers, and family. It offers an examination of one's stressors and how to find a balance of mental, emotional, physical, and environmental stress management techniques for leading healthier and more productive lives. (Irreg.)
- H R 5313 Leadership in the Legal Environment 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. Leaders should be highly competent in concepts relevant to discrimination and harassment law. In this course, students will explore federal constitutional and federal statutory legal protections related to discrimination, which supersede state and local protections. 14th Amendment equal protection as it is applied to laws via strict scrutiny for suspect classifications and related due process will be examined. (F, Sp, Su)
- H R 5323 Organizational Behavior in Human Relations 3 Credit Hours**
Prerequisite: graduate standing. Organizational behavior (OB) represents the behavioral approach to management. OB is concerned with human behavior at work and how various structures and work processes influence such behavior. This course will address a number of important organizational issues and processes, including organizational culture, group behavior and teamwork, and leadership. (Su)
- H R 5333 Mediation 3 Credit Hours**
Prerequisite: graduate standing. Studies how the acceptable third party assists parties in resolving disputes. There will be considerable attention paid to the mediation process and the activities of mediators. Also focuses on negotiations because mediators help parties complete negotiations they are unable to settle on their own. (F)
- H R 5343 Conflict Resolution 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. This course will explore the nature and origins of human conflict in modern life. It will emphasize an understanding of conflict and resolution methods useful in professional counseling and other HR settings such as organizational development and interpersonal facilitation. (Irreg.)
- H R 5353 Organizational Communication in Human Relations 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. This course will explore organizational communication concepts, theories, research, and practical applications for human relations professionals. (Irreg.)
- H R 5363 Program Training & Development 3 Credit Hours**
Prerequisite: Graduate standing and Departmental Permission. This course explores the process of program training and development with an emphasis on DEI and social justice. Specifically, this course examines the individual and organization strategies designed to foster inclusive and diverse environments using program training and examines the application of theoretical frameworks used in today's organization, as well as developing needs assessment, planning/budgeting, goal setting/evaluation methods. (F, Sp, Su)
- H R 5373 Grant Writing 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. This course will explore fundraising as a dynamic process through which an organization or an individual becomes financially able to accomplish a specific goal by using writing skills, management skills, and solicitation. Students will acquire the skills needed to prepare grant proposals. (Irreg.)
- H R 5383 Public Policy for Human Relations Professionals 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. This course examines how public policy is made at various levels of government and how these policies affect society. Particular emphasis will be given to public policy issues that affect human relations professionals, their clients, and the public and private agencies in which they work. (Irreg.)
- H R 5393 Team Building 3 Credit Hours**
Prerequisite: Graduate standing or departmental permission. The course content is devoted to team success. It focuses upon three major areas for teamwork: basic team concepts, internal team dynamics, and external team dynamics. Learn concepts, ponder thought-provoking questions, participate in the class exercises, assess a case study involving a team experience, and write a critique of a journal article. (Irreg.)
- H R 5403 Psycho-Social Development 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Covers human psycho-social development. Discussion of the expanding social realm of the developing individual. Theories and research in a variety of areas related to social development will include: attachment, aggression, sex typing, moral development, and parent-child interaction. (F, Sp)
- H R 5413 Addiction Counseling 3 Credit Hours**
Prerequisite: HR 5533, HR 5453, HR 5463, Graduate standing and Departmental Permission; Clinical Mental Health Counseling students only. Explores how addiction affects physical, psychological, and social functioning in individuals and communities. The dynamics of addiction, treatment, and the recovery process are explored. Attention is given to the emotional, physical, psychological, and sociocultural aspects of addiction. (F)
- H R 5423 Family Systems and Family Reconstruction 3 Credit Hours**
Prerequisite: permission of instructor. Teaches students how to impact family systems. Through didactic and experiential learning, students will learn how students function in systems and explore their own rules for living in systems. (CE)
- H R 5433 Group Counseling in Human Relations 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Examines a variety of group counseling models, types of groups (process, solution-focused, action-oriented), the role of the group counselor, group members, and techniques and strategies for facilitating group work. (Irreg.)

- H R 5443 Adolescent Issues in Human Relations 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Designed to acquaint human relations professionals with issues facing teens today. The pressures confronting youth along with various adaptive and maladaptive coping behaviors will be studied. (F, Sp, Su)
- H R 5453 Ethical Issues in H R Counseling 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Surveys ethical, legal, and professional issues facing human services workers. (F, Sp, Su)
- H R 5463 Counseling Skills in Human Relations 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Introduce students to the helping professions and provide them with a basic mastery of important counseling skills in human relations. (Irreg.)
- H R 5473 Women and Mental Health 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Examines psychological theory and practice as it pertains to women. This course will look at traditional theories and practice, new approaches to working with women, and topical issues. (Irreg.)
- H R 5483 Diagnosis in Human Relations Counseling 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Introduces students to the diagnostic systems of mental disorders outlined by the American Psychiatric Association and the World Health Organization. Also covers principles and techniques of interviewing which produce a correct diagnosis. (F, Sp)
- H R 5493 Assessment and Evaluation in Human Relations 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Provides an overview of clinical and social assessment procedures used in counseling settings including career and life planning, personality, and mental health assessments. Emphasis is placed on a thorough examination of diagnostic classifications for mental disorders. Also develops a working knowledge of assessment skills along with a bias-free multicultural perspective, and ethical issues applicable to assessment. (F, Sp)
- H R 5503 Research for Counseling 3 Credit Hours**
Prerequisite: Graduate Standing and Departmental Permission; Clinical Mental Health Counseling students only. This course examines techniques involving quantitative, qualitative, and mixed methods methodology will be introduced and applied to clinical mental health counseling settings. Special attention will be given to program evaluation and techniques in applying research methods to clinical practice. (F, Sp, Su)
- H R 5513 Couples and Family Counseling 3 Credit Hours**
Prerequisite: HR 5533, HR 5453, HR 5463, Graduate standing and Departmental Permission; Clinical Mental Health Counseling students only. This course explores different methods and theoretical approaches for counseling with intimate interpersonal relationships and families. (F, Sp, Su)
- H R 5523 Counseling With Children, Adolescents, and Families 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. This course will explore various theories, modalities and practices working with young children, adolescents and their families. Students will be introduced to theories of development; individual, group and family therapies, and a meta-theoretical framework of social construction. (Irreg.)
- H R 5533 Counseling Theories in Clinical Mental Health Counseling 3 Credit Hours**
Prerequisite: Graduate Standing and Clinical Mental Health Counseling students only, or Departmental Permission. This course emphasizes skills training in counseling approaches utilized by human relations practitioners. The skills training is organized according to basic counseling and psycho-therapy theories, including psychodynamic, behavioral, cognitive, existential-humanistic, multicultural, systemic and integrative approaches. (F, Sp, Su)
- H R 5543 Counseling with Diverse Populations 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. This course addresses four populations: women, persons of sexual/gender minority identification, persons with disabilities, and aging persons. Students will examine the special issues of each population and consider appropriate counseling approaches. (Irreg.)
- H R 5553 Marital and Family Assessment 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. This course will explore various approaches to conceptualizing assessment of couples and families. (Irreg.)
- H R 5563 Career Counseling 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Explores conceptual and functional tools for enhancing career development of children, youth and adults in both counseling and corporate human resource relationships. Class participants have the opportunity to experience a variety of career assessment tools including interest inventories, personality assessments and values clarification exercises. Career counseling strategies for a variety of life situations are discussed. (Irreg.)
- H R 5573 Personality and Personality Disorders 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. This course will explore the historical and contemporary concepts of personality development, personality styles and personality disorders, as well as examine personality disorders and their treatment. (Irreg.)
- H R 5583 Social Justice Counseling 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course emphasizes theory and methods to promote social justice in human relations. The ethics of social justice in counseling will also be addressed. Various social justice and counseling theories will be explored, as well as strategies for integrating into human relations counseling. Concepts and skills will be studied through readings, discussion, case studies, exercise, videos, and class projects. (Irreg.)
- H R 5593 Multicultural Counseling 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. The model of multicultural understanding followed in this course is intended to increase the understanding of culturally diverse groups. This class is both practice and theory oriented. Emphasis will be placed on providing a broader knowledge base and developing the skills to counsel individuals from various cultures. (Irreg.)
- H R 5603 Play Therapy with Children 3 Credit Hours**
Prerequisite: graduate standing, majors only, or permission of department. Provides a basis for the use of play in assessing and intervention with children and their families. History, techniques, and issues in play therapy will be addressed in class reading and discussions. (Irreg.)

- H R 5613 Assessment and Evaluation in Counseling 3 Credit Hours**
Prerequisite: Graduate Standing and Clinical Mental Health Counseling students only. An examination of the major individual, marital, and family assessment strategies and instruments. Students will receive training in the use of both testing and non-testing approaches to assessment and appraisal. Attention will be given to the relationship between assessment, diagnosis, and treatment planning. (F, Sp, Su)
- H R 5623 Post-Traumatic Stress Disorder 3 Credit Hours**
Prerequisite: graduate standing, majors only; or permission of department. Concentrates on what constitutes post-traumatic stress, its assessment, diagnosis, and therapeutic intervention. Covers different sources of post-traumatic stress, as well as different methods of evidence-based treatment modalities. Special populations are also addressed. (Irreg.)
- H R 5633 Advanced Counseling Skills 3 Credit Hours**
Prerequisite: graduate standing, majors only, or permission of department. An advanced study of various counseling approaches with opportunities for demonstration and evaluation of each student's counseling skills. Designed to provide the student with advanced exploration and analysis of current counseling practice. Students will be expected to demonstrate the ability to analyze, synthesize, critique, and discuss, in verbal and written form, the key concepts of traditional and contemporary counseling practice. (Irreg.)
- H R 5643 Crisis Intervention and Trauma Counseling 3 Credit Hours**
Prerequisite: HR 5533, HR 5453, HR 5463, and graduate standing; Clinical Mental Health Counseling majors only. Designed to facilitate knowledge and skills related to crisis intervention and trauma counseling. Focuses on individuals, families, and groups facing mental, physical, developmental, occupational, residential, and environmental crises, as well as the methods of assessment and intervention. (F, Sp, Su)
- H R 5653 Grief, Death and Dying 3 Credit Hours**
Prerequisite: graduate standing, majors only or permission of department. Explores grief counseling throughout the human life cycle with particular attention paid to the aspects of death and dying. (Irreg.)
- H R 5663 Psychopathology 3 Credit Hours**
Prerequisite: graduate standing, majors only, or permission of department. Provides an in-depth review of a broad spectrum of psychopathological conditions. The focus of the review will include the etiology, prevalence and incidence, signs and symptoms, and criteria for differential diagnoses. The emphasis of this review will be on comparing and contrasting different theoretical perspectives of each disorder. (Irreg.)
- H R 5673 LPC Clinical Supervision 3 Credit Hours**
Prerequisite: graduate standing, majors only, or permission of department. Students will become familiar with models of counseling supervision; become familiar with the Oklahoma LPC Supervision requirements and become acquainted with the research in counselor training and supervision. (Irreg.)
- H R 5683 Working with Divorcing Families 3 Credit Hours**
Prerequisite: graduate standing, majors only, or permission of department. Designed to prepare students for counseling with families experiencing separation, divorce and remarriage. Provides students with current information concerning divorce as well and options for helping children and adults cope with divorce in a constructive way. (Irreg.)
- H R 5693 Issues in Aging 3 Credit Hours**
Prerequisite: graduate standing, majors only, or permission of department. Designed to acquaint students with the interdisciplinary field of gerontology. Provides students with the opportunity to explore current topics associated with the aging process. Also examines contemporary issues that impact individuals, families and society during the later years. Finally, provides an overview of theory, policies and practices associated with aging and counseling with elderly clients. (Irreg.)
- H R 5703 International Human Relations 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. This course will examine ways to understand people of different cultures. It uses a multidisciplinary approach to look at the roots and explanations of differences between cultures and what these differences mean for working with people of different backgrounds. This course utilizes the tools of history, geography, economics, sociology, and other social and physical sciences to understand why people are different in order to identify strategies for building effective human relations. (Irreg.)
- H R 5713 Women, Work, and the Family 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. A creative exploration of the dynamics of women's issues in both the family and in the workplace. It examines the societal conditioning creating the "Superwoman," mother-blaming, balancing roles, the time bind of home and work, discrimination in the workplace, relational practice at work, and companies that care for and about women and families. Exploration will include strategies for innovative planned change. (Irreg.)
- H R 5723 Sexism and Homophobia 3 Credit Hours**
(Slashlisted with H R 4723) Prerequisite: graduate standing or permission of instructor. Designed to introduce students to the intersection between homophobia, sexism, transphobia and gender/sexual violence. Surveys important theories of gender, homophobia and misogyny and how these social phenomena effect those who they target and those who practice them. Will cover psychological/interpersonal and sociological/political exploration of the associated nature of each area. No student may earn credit for both 4723 and 5723. (Irreg.)
- H R 5733 Program Assessment and Evaluation 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. Students will be introduced to the evaluation design process; learn how to engage stakeholders in crafting evaluation designs; study the fundamentals of designing exploratory, process, and outcome evaluations; and learn how to select an evaluation design that best meets a client's information needs. The focus of this course is on the contexts/purposes/techniques for assessing and evaluating social policy implications (F, Sp, Su)
- H R 5743 Violence Against Women and Children 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. The effects of violence on women, children and families will be presented within an academic and clinical framework for purposes of developing skills for assessment, intervention, and prevention. Students will discuss various strategies for crisis intervention, safety planning, and preferred counseling methods for abuse victims. Students will discuss the historical implications of violence against women and the effects on human relationships in contemporary society. (Irreg.)
- H R 5753 Advanced Theories: Diversity and Justice 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. This course is designed to make meaning of diversity and justice from a sociological perspective. Students will actively explore how categories of race, class, gender, sex, sexual orientation, political ideology, and disability (not exhaustive) shape the human experience and are critical to the formation of social structures, cultural understandings, group and organizational processes, and identities. (F, Sp, Su)

- H R 5763 Human Sexuality 3 Credit Hours**
Prerequisite: graduate standing, majors only, or permission of instructor. Examines sexuality in the context of current research, culture and opposing perspectives. The various definitions, experiences, and expressions of sexuality will be explored and debated in order for students to develop individual perspectives on human sexuality. Willingness to openly discuss topics of sexuality and relationship is critical for this course. (Irreg.)
- H R 5773 Policy, Program, and Practice 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. This course explores the relationship between policy, programs, and practices that support equity, inclusion, social justice, access, and diversity. Students will examine notable policy in the U.S. that was designed to address access and equity issues for marginalized and minoritized communities. Students will identify and discuss key programs that have been designed as a response to policy and transformative practices. (F, Sp, Su)
- H R 5783 Advanced Theories: Strategies of Social Change 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. Course is designed to expose students to contemporary strategies of social and political change and its impact on policies and relationships such as in civil rights movements. Strategies are traditionally argued in relation to violence or non-violence methodology and whether such methodology is isolated to reality and structural make-up. (F, Sp, Su)
- H R 5793 Social Change and the Law 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. Explore social justice as seen in various areas of law to include general framework of law and guidance of human relations principals found within the framework. Explore different areas of law with examples of human relations and social justice, to include but not limited to: constitutional law, health law, family law, criminal law, immigration law, and employment law. (F, Sp, Su)
- H R 5803 Total Rewards: Compensations and Benefits for HR Management Professionals for the HR Prof 3 Credit Hours**
Prerequisite: H R 5143 or graduate standing or permission of the department. A core Human Resource Management competency, Total Rewards: Compensation and Benefits will provide students with an introduction to compensation and benefit programs. Specifically, students will explore the forms of direct (compensation) and indirect (benefits) compensation used to attract, reward, and retain employees. The design, administration, and evaluation of compensation systems and benefit programs are also examined. Further, students will also analyze the legal and regulatory factors affecting total rewards planning and delivery. Additionally, this course will illuminate the many rewarding career opportunities available in the Total Rewards discipline. (Irreg.)
- H R 5813 Business Management and Strategic Planning 3 Credit Hours**
Prerequisite: H R 5143 or graduate standing or permission of department. Introduction to the overall strategic planning process of organizations. Students will explore organizational strategic planning processes to include but not limited to: development of mission, vision, values, goals and objectives; policy formation, enforcement, and evaluation. In addition, evaluation of organizational strategic planning is analyzed. Further, students will understand how employees contribute to the overall effectiveness of an organization by studying how organizations assess and deploy human capital. (Irreg.)
- H R 5823 Workforce Planning & Employment, A Component of Human Resource Management for the HR Prof 3 Credit Hours**
Prerequisite: H R 5143 or graduate standing or permission of department. Workforce Planning and Employment is one of the courses applied to the area of Human Resource Management for the Human Relations Professional. Workforce Planning and Employment highlights the activities necessary to ensure the workforce's ability to achieve the organization's goals and objectives. Specific areas covered include: key laws and regulations (ADA, Title VII, Affirmative Action, etc.), organizational staffing requirements and methods, job analysis and documentation, recruitment, flexible staffing, selection and retention, organizational exit, and employee records and retention. (Irreg.)
- H R 5833 Human Resource Development 3 Credit Hours**
Prerequisites: H R 5143 or graduate standing or permission of department. Learning and Development (L&D) is a broad discipline utilized in a number of fields. Designated as a core course for the Human Resource certificate program, L&D offers learners an examination of key legislation affecting L&D activities, L&D theory, role of technology in L&D, and the intricacies of Human Resource L&D. In addition, examines the analysis, development, design, implementation, and evaluation of learning and development programs. (Irreg.)
- H R 5853 Employee and Labor Relations for HR Management Professions in Human Relations 3 Credit Hours**
Prerequisites: H R 5143 or graduate standing or permission of department. Examines the employer/employee relationship. Introduces students to the key employment law, i.e., state, local, and federal laws and regulations that govern organizational structure and operations and help to maintain an ethical, healthy, and safe work environment. Among the ideas analyzed include: how workplace relationships are managed and maintained; how organizations balance employer/employee needs and rights while supporting organizational goals and objectives. A broad overview, students will become familiar with a plethora of employee relations issues such as termination, policy development, and interpretation of the most significant laws that affect HRM. (Irreg.)
- H R 5863 Human Resources for the HR Prof Fundamentals of Human Resource Information Systems 3 Credit Hours**
Prerequisites: H R 5143 or graduate standing or permission of department. This course examines the ever growing field that is Human Resource Information Systems (HRIS). Specifically, students will explore the metamorphosis of human resource technology; how it has gone from situational asset to mandatory strategic business partner across the Human Resource Management gamut. Designed to develop an awareness and appreciation of the nature and use of data and information systems in organizations, this course will introduce students to the various HRIS systems utilized by organizations and the associated analysis, design, and implementation of those systems. Additionally, this course will illuminate the many rewarding career opportunities available within the HRIS discipline. (Irreg.)
- H R 5873 Organizational Ethics 3 Credit Hours**
Prerequisite: Graduate standing or departmental permission. Course focuses on professional values, integrity, and ethical decision-making processes in organizations. Students will discover theoretical and practical ways to approach moral/ethical dilemmas in organizational life and improve skills in moral reasoning/ethical decision-making. A case study approach is used to analyze/resolve ethical dilemmas/situations from a practitioner, human relations perspective. Emphasis placed on ethical leadership in organizations' social justice outcomes. (F, Sp, Su)

H R 5880 Human Relations Capstone 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department and instructor. May be repeated; maximum credit 3 hours. Human Relations capstone is designed as a culminating experience for students electing the non-thesis track. Students will develop, under the direction of their advisor or approved faculty, a capstone project centered in Human Relations. The project shall be specific to student's elected H R concentration. (F, Sp, Su)

H R 5883 Introduction to the Counseling Profession 3 Credit Hours

Prerequisite: Graduate standing and departmental permission. This course introduces the graduate student to the practice of Licensed Professional Counselors (LPC), utilizing instructor(s) from the LPC field. This course covers the history, development, and implementation of licensed counselors. (F, Sp, Su)

H R 5893 Psychopharmacology 3 Credit Hours

Prerequisite: Graduate standing; departmental permission or permission of instructor. This course serves as an introduction to psychopharmacology for mental health counselors and the commonly prescribed psychotropic medications used to address mental health disorders as defined in the Diagnostic and Statistical Manual of Mental Disorders (DSM - 5). Emphasis will be placed on the use of medications from a biopsychosocial perspective and the therapeutic role of the counselor. (F, Sp, Su)

H R 5903 Counseling Internship I 3 Credit Hours

Prerequisite: HR 5883, HR 5533, HR 5453, HR 5463, HR 5483, HR 5433, HR 5593, HR 5613, Clinical Mental Health Counseling students only, Graduate standing and Departmental Permission. The internship is 300 total hours of direct and indirect on-site work experience at an agency, organization, business firm, institution or other professional or industry setting to fulfill the requirement for a Master of Clinical Mental Health Counseling. The Internship provides extensive supervised on-the-job experience in a setting within the counseling profession. (F, Sp, Su)

H R 5913 Counseling Internship II 3 Credit Hours

Prerequisite: HR 5903, Clinical Mental Health Counseling students only, Graduate standing and Departmental Permission. The internship is 300 total hours of direct and indirect on-site work experience at an agency, organization, business firm, institution or other professional or industry setting to fulfill the requirement for a Master of Clinical Mental Health Counseling. The Internship provides extensive supervised on the job experience in a setting that is within the counseling profession.

H R 5923 Human Growth and Development 3 Credit Hours

Prerequisite: Graduate Standing and Clinical Mental Health Counseling students only. This course will explore development through the human life span from a psycho-social approach and will examine theoretical approaches from the mid-twentieth century to recent theoretical perspectives. In this context, the expanding social realm of the developing individual will be discussed along with research in a variety of areas related to social development including cognitive and social neurosciences. (F, Sp, Su)

H R 5960 Directed Readings in Human Relations 1-6 Credit Hours

1 to 6 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit six hours. Individual investigations and report of findings on selected problems in human relations education. (F, Sp, Su)

H R 5963 Leadership in Organizations 3 Credit Hours

Prerequisite: Graduate standing and departmental permission. This graduate level course is designed to explore the conceptual, theoretical, and practical aspects of leadership in organizational settings. This course is useful for future as well as current managers. (F, Sp, Su)

H R 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit six hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

H R 5980 Research for Master's Thesis 2-9 Credit Hours

Prerequisite: admitted to candidacy for a Master of Human Relations. Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. Original paper in an area of concentration in human relations. (F, Sp, Su)

H R 5990 Independent Study 1-4 Credit Hours

1 to 4 hours. Prerequisite: 5023 or equivalent and permission of instructor. May be repeated; maximum credit six hours. Individual investigation of special research topics in human relations. (F, Sp, Su)

H R 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Human Relations academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Human Relations major requirements.

Total Credit Hours		122

¹ Any one of these courses will satisfy both the General Education Mathematics requirements as well as the major support requirement for a statistics course.

² The following courses will satisfy both the General Education Non-Western Culture (Core IV) requirement and the cultural diversity major support requirement: AFAM 2003, ANTH 1613, ANTH 1823, ANTH 2203, or ANTH 2613.

Human Relations, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N515

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Human Relations.

Required Courses

Students must successfully complete at least 15 hours of coursework in Human Relations, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
H R 3013	Introduction to Human Relations	3
Choose four courses from any undergraduate Human Relations coursework		12
Total Credit Hours		15

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Clinical Mental Health Counseling (Online), M.C.M.H.C.

Minimum Total Hours (Non-Thesis): 60

Program Code: M202

This program has pending 2024 changes that have not yet been approved by the OU Board of Regents which are not reflected here.

Program Requirements

- This program is Non-Thesis Only.

Code	Title	Credit Hours
Core Courses (24 hours)

Total Credit Hours		60

NOTES

- For Non-Thesis students, the comprehensive exam will be completed during the last two semesters of the program concurrently with Counseling Internship I and, if needed, Counseling Internship II.

CMHC TRANSFER CREDIT GUIDELINES

Transfer credits are not accepted for the online Master of Clinical Mental Health Counseling program.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Clinical Mental Health Counseling, M.H.R.

Minimum Total Hours (Non-Thesis): 60

Program Code: M200

- This program is Non-Thesis Only.

Requirements

Code	Title	Credit Hours
Core Courses (9 hours, shared with standard MHR program)		
H R 5003	Theoretical Foundations Of Human Relations	3
H R 5013	Current Problems In Human Relations	3
H R 5023	Research in Human Relations	3
Concentration (24 hours)		
H R 5403	Psycho-Social Development	3
H R 5453	Ethical Issues in H R Counseling	3

H R 5633	Advanced Counseling Skills	3
H R 5663	Psychopathology	3

H R 5200	Internship In Human Relations ¹	6
Electives		
Choose 27 additional hours of counseling electives ²		27
Total Credit Hours		60

¹ Students must complete 9 hours of core requirements, 18 hours of required counseling courses, and 18 hours of electives prior to enrolling in internship.

² These electives must come from the LPC course list and will be approved by the graduate liaison.

Notes

- No more than ½ of course work can be S/U graded.
- For Non-Thesis students, at least 75% of your course work (27 hours), including the two core courses, must be completed before you take your comprehensive exam.

MHR Transfer Credit Guidelines

- MHR students may transfer no more than 9 hours of graduate credit from other universities. These credits must be evaluated by the university. They may not be applied toward individual course requirements without prior graduate liaison approval.
- Other OU Graduate Classes: No more than 9 hours of graduate credit taken in other OU programs may be used toward the MHR degree. These hours must be approved by the MHR graduate liaison.
- MHR students may not apply more than 9 combined hours of transfer credit and OU credit outside the HR program.
- A letter must accompany all transfer hours from the school-of-origin stating which LPC course requirement the course(s) fulfill. These transfer hours will then get departmental approval.
- At least 39 hours of a student's coursework must be in classroom-based HR classes. Internship is not classroom-based and therefore cannot be counted as part of the 39 hours of classroom-based work. Other University of Oklahoma courses and transfer hours do not count as part of these 39 hours.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Clinical Mental Health Counseling, M.S.

H R 5913	Counseling Internship II	3
Electives		
15 additional hours of counseling electives are required from the LPC course list and will be approved by the graduate liaison.		15
Total Credit Hours		60

¹ Students must complete 30 hours of core counseling courses prior to enrolling in practicum (H R 5283), and 48 hours of core counseling courses prior to enrolling in internship (H R 5903).

NOTES

- For Non-Thesis students, the comprehensive exam will be completed during the last two semesters of the program concurrently with Counseling Internship I and, if needed, Counseling Internship II.

Human Relations Transfer Credit Guidelines:

- Students may transfer no more than 9 hours of graduate counseling-based credit from other universities. These credits must be evaluated by the university. They may not be applied toward individual course requirements without prior graduate liaison approval.
- Other OU Graduate Classes: No more than 9 hours of graduate counseling-based credit taken in other OU programs may be used toward the CMHC degree. These hours must be approved by the HR graduate liaison.
- Students may not apply more than 9 combined hours of transfer credit and OU credit outside the HR program.

- A letter must accompany all transfer hours from the school-of-origin outside of the State of Oklahoma stating which LPC course requirement the course(s) fulfill(s). These transfer hours will then get departmental approval.
- At least 30 hours of a student's coursework must be in classroom-based H R classes. Practicum and Internship is not classroom-based and therefore cannot be counted as part of the 30 hours of classroom based work. Also, other University of Oklahoma courses and transfer hours do not count as part of these 30 hours.
- Transfer courses cannot be older than 5 years old at the time of graduation.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Choose 18 hours ¹		18
Total Credit Hours		36

¹ No more than six hours of H R 5100, six hours of H R 5110, six hours of H R 5990, and nine hours of H R 5113 may count towards degree; No more than a combined total of six hours of H R 5960 and H R 5970 may count towards the degree.

Notes

- **At least 15 hours of a student's coursework (except students in the 100% online program) must be in classroom-based H R classes. Internship, independent study, directed reading, and practicum are not classroom-based and therefore cannot be counted as part of the 15 hours of classroom-based work. Also, other University of Oklahoma courses and transfer hours do not count as part of these 15 hours. Students facing circumstances which prevent them from meeting this requirement may petition the graduate liaison for an exception, with good cause. The graduate liaison has the**

discretion to approve fewer than 15 classroom-based HR hours, with appropriate justification and in limited circumstances.

- MHR students may transfer no more than 9 hours of graduate credit from other universities. These credits must be evaluated by the university. They may not be applied toward individual course requirements without prior graduate liaison approval. MHR students may not apply more than 9 combined hours of transfer credit and OU credit outside the HR program.
- Other OU Graduate Classes: No more than 9 hours of graduate credit taken in other OU programs may be used toward the MHR degree. These hours must be approved by the graduate liaison.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Helping Skills in Human Relations, Graduate Certificate

Minimum Total Hours: 12

Program Code: G047

The certificate provides professionals in a wide variety of helping professions with the knowledge and skills to improve relationships, and to be effective and ethical helpers.

Certificate Requirements

Code	Title	Credit Hours
H R 5003	Theoretical Foundations Of Human Relations	3
H R 5463 or H R 5633	Counseling Skills in Human Relations Advanced Counseling Skills	3
H R 5453	Ethical Issues in H R Counseling	3
Choose one 3-credit elective as approved by the chairperson or graduate liaison for the Department of Human Relations		3
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Human Resource Development and Workforce Diversity, Graduate Certificate

Minimum Total Hours: 12

Program Code: G058 (Online:G059)

The certificate helps students develop the skills and knowledge needed to be successful in the contemporary workplace. Students will learn how to develop human resources and address social justice and diversity issues in work settings.

Certificate Requirements

Code	Title	Credit Hours
H R 5143	Human Resources for the Human Relations Professional	3
H R 5323	Organizational Behavior in Human Relations	3
H R 5053	Diversity and Justice in Organizations	3
H R 5833	Human Resource Development	3
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Schusterman Program in Judaic and Israel Studies

judaicstudies@ou.edu
Website: <http://judaicstudies.ou.edu>

General Information

The Schusterman Center for Judaic and Israel Studies at OU offers an exceptionally wide variety of courses, including Jewish history in all periods and places, Hebrew Language and Literature at all levels, the Bible and Its Interpretation, Israel Studies, the Holocaust/Genocide, Jewish Literature in translation, as well as anthropological, sociological, and political perspectives on the Jewish experience.

Judaic Studies explores the history and culture of the Jewish people over a period of four millennia in the Land of Israel and in the Diaspora (Dispersion) through the tools of the humanities and the social sciences. The field began as an academic discipline in Europe during the nineteenth century and developed within universities and research centers the world

over during the twentieth and twenty-first. Israel Studies is a much more recent field dedicated to interpreting the culture, politics and society of the modern State of Israel.

Scholarships & Facilities

Scholarships and Awards

Schusterman Center Study in Israel Scholarship

Scholarships are offered for semester-long study abroad programs in Israel; and for those wishing to study in Israel during the summer. The scholarships are open to full-time University of Oklahoma undergraduate and graduate students during the period for which application is made. Students must have completed a minimum of 15 hours of college coursework. Priority will be given to graduate students concentrating in Jewish History and undergraduate students who have officially declared a major or a minor in Judaic Studies or a minor in Hebrew. Applicants must have maintained a 3.0 GPA in Jewish History, Judaic Studies or Hebrew courses and a 2.5 GPA overall.

Schusterman Center Domestic Scholarships

The Schusterman Center awards merit-based scholarships each academic year.

Esther Rose Shnier Scholarship

The Schusterman Center annually offers two Shnier Scholarships. The scholarships are open to any individual who, having completed at least 30 credit hours of college coursework, is a full-time, regularly enrolled student of the University of Oklahoma during the period in which application is made, and who has officially declared a major or minor in Judaic Studies and/or a minor in Hebrew. Applicants must have maintained a 3.0 grade average on a scale of 4.0 in Judaic Studies/Hebrew courses. The number of completed hours in the major or minors will also be taken into consideration by the selection committee. Any eligible, deserving undergraduate student is qualified for either an initial award or a subsequent award if, in the opinion of the selection committee, the student is making satisfactory progress toward graduation and the student needs supplemental financial assistance. Applicants will be chosen chiefly on college performance with financial need assuming a secondary role.

Rosalyn Price Scholarship

The Price Memorial Scholarship is open to any individual who is a full-time, regularly enrolled student of the University of Oklahoma majoring in Judaic Studies. Applicants must have maintained a 2.8 grade point average on a scale of 4.0. The overall grade point average may also be taken into consideration by the selection committee as well as the number of completed hours in the major. Any eligible, deserving undergraduate or graduate student is qualified for either an initial award or a subsequent award if, in the opinion of the selection committee, the student is making satisfactory progress toward graduation.

Zarrow Family Scholarship

The Zarrow Scholarship is open to any individual who, having completed at least three Judaic Studies and/or Hebrew courses, is a full-time, regularly enrolled undergraduate or graduate student of the University of Oklahoma during the period in which application is made. Preference will be given to declared majors or minors in Judaic Studies or minors in Hebrew. Applicants must have maintained a 3.0 grade point average in the minor on a scale of 4.0. The overall grade point average may also be taken into consideration by the selection committee as well as the number of

completed hours in the major and/or minors. Any eligible, deserving undergraduate or graduate student is qualified for either an initial award or a subsequent award if, in the opinion of the selection committee, the student is making satisfactory progress toward graduation.

Norman Stillman Prize for Excellence in Judaic Studies

Established in 2016 in honor of the Schusterman Center's founding director, the Norman Stillman Prize for Excellence in Judaic Studies is awarded annually to an outstanding undergraduate or graduate student scholar at the University of Oklahoma. Prospective winners are nominated by our faculty and the awardees selected by committee.

Film Library, Videos and Recordings

The Schusterman Center has a large collection of DVDs, including recorded lectures. Please contact the departmental office for individual availability. The Schusterman Center for Judaic and Israel Studies also offers a variety of recorded lectures, available on their YouTube channel.

Undergraduate Study

Bachelor of Arts

The Bachelor of Arts in Judaic Studies (p. 478) provides students with: a solid grounding in the history and culture of one of the seminal components of modern civilization; in-depth familiarity with one of the most significant countries of the Middle East; and proficiency in the language of present-day Israel and of Jewish historical creativity.

Minor

The Judaic & Israel Studies Minor (p. 480) allows for each student to select what interests them. Students can mix and match from three focus areas: Israel: Ancient and Modern, European Jewry: Medieval to the Holocaust Bible, Jewish Culture & Literature.

A Hebrew Language Minor (p. 574) is offered through the Department of Modern Languages, Literatures, and Linguistics.

Graduate Study

Students who wish to pursue a master's or doctoral degree may select a Judaic/Israel History major field through the Department of History's graduate programs.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of History, Center for Judaic and Israel Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Judaic Studies major requirements.

Judaic & Israel Studies, Minor

Minimum Total Credit Hours: 15-19

Minimum Upper-Division Hours: 9

Program Code: N608

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Judaic & Israel Studies program.

Required Courses

Students must successfully complete 15-19 hours from courses designated for the Judaic & Israel Studies minor, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours

General Information

The department was founded in 1929 within the College of Arts and Science by Jesse Lee Rader. The first degree programs offered were the

Bachelor of Arts in Library Science, Master of Library Science, and the Master of Arts in Library Science. Both Master's programs were conferred accreditation by the American Library Association in 1956. The name was changed to the School of Library and Information Studies in 1990 to reflect the expanding role of the School in the information age. The School continues to offer the only ALA-accredited Library and Information Studies program in Oklahoma.

The University of Oklahoma School of Library and Information Studies (OU SLIS) educates professionals qualified to meet the challenges of the information society. The ability to generate, access, and use information has become the key factor in personal, social, and economic growth. The expanding global information society requires the free flow of information; and the impact of rapidly changing information and communications technologies is reshaping our personal, educational, and social activities, our organizational and political practices, and our local, national, and international institutions.

Roles, responsibilities, and career opportunities for professionals who can function as creative, information resource managers; act as culturally sensitive guides, navigators and interpreters for local and global users; and produce customized, culturally relevant, value-added services and products for diverse clientele are expanding.

These professionals will play an increasingly vital role in empowering individuals, organizations, and communities to maximize the benefits of the information age.

Through a forward-looking curriculum and diverse learning environments, the School prepares graduates who have the knowledge, skills, and attitudes necessary to be ethical, culturally aware, and transformative leaders.

Programs & Facilities

Scholarships

Scholarships are awarded competitively on the basis of demonstrated academic merit and potential for leadership. The SLIS Admissions and Scholarships Committee considers all applications for scholarships in the spring of each school year. Applications for student scholarships are due annually on February 1st. Current students are notified of the deadline for scholarships via the School's student email distribution list. Most of the SLIS scholarships are for master's students, but there is one undergraduate scholarship and one doctoral scholarship.

Undergraduate Student Organization

The Information Sciences and Technology (IST) Hub supports undergraduate students in both the BSIST and BAIS programs offering opportunities for hands-on learning, networking, and collaboration in the field of Library and Information Science (LIS). Their mission is to create an encouraging environment for OU students who wish to connect, aspire to spread ideas, inspire, and implement solutions to reflect the expanding role of information sciences and technology in our world. Connect with the IST Hub on OU Engage.

Graduate Student Organization

OLISSA is an American Library Association Student Chapter at the School of Library and Information Studies and a recognized student organization at the University of Oklahoma. OLISSA's mission is to bring library students together with other students, faculty, and library and information professionals. We strive to provide information on the various career paths possible with a library and information studies degree. We provide students with an opportunity to be active participants in

the SLIS program and University of Oklahoma Student Association. The organization's primary purpose is to represent and serve the SLIS student body. Officers are either elected or volunteer to serve each spring. They serve as liaisons between the SLIS students and faculty. Connect with OLISSA on OU Engage.

Undergraduate Study

Bachelor of Arts, Information Studies

The Information Studies, Bachelor of Arts is an interdisciplinary degree that offers a core of technology and data science coursework upon which students can then focus their interests through guided elective categories. Opportunities in these categories include numerous technology, data science, and communications electives for students who plan to go into information technology careers; or a variety of libraries, archives, museums (LAMs), and digital humanities electives for students more interested in careers in cultural heritage institutions. For these students, the technology foundation builds the skills that students need to work in today's LAMs' environments of digital collections, digital preservation, and virtual exhibits while serving diverse user groups.

Bachelor of Science, Information Science and Technology

Information Science as a discipline revolves around the interactions of people, technology, and information. The Information Science and Technology, Bachelor of Science (p. 489) prepares graduates to be innovative information and technology leaders who can solve current and evolving information problems using the latest technologies in data analytics, text mining, interaction design, as well as other emerging application fields.

Bachelor's/Master's Accelerated Program

The Bachelor of Arts/Master of Library and Information Studies (p. 496) accelerated program is designed for exceptional students who wish to begin earning the MLIS in their senior year of the BAIS program. The program is open to all OU students who qualify.

Information Studies Minor

The Information Studies Minor (p. 496) focuses on how information impacts and is influenced by societal issues, governmental regulation, policy, and economics, as well as I.T. systems design, implementation, and management.

Graduate Study

Master of Library and Information Studies (MLIS)

The Master of Library and Information Studies (p. 499) program is designed to educate students at the graduate, professional, and postgraduate levels to provide information services and products in an information-based, pluralistic, global society; prepare graduates to effectively participate in and promote evidence-based practice; and provide leadership, consultation, and guidance to the professional/information communities. The program offers specialized tracks within traditional library settings and supports the development of skills, knowledge, and attitudes required in information agencies and in positions of information management, storage, organization, access, and use within profit and not-for-profit institutions.

Museum Studies, Master of Arts

The Museum Studies (p. 500) program serves the career-development needs of individuals who work in museums and related institutions.

Students initially trained in museum work and those entering the profession from other disciplines receive a focused, integrated approach to museum studies with practical application for the various dimensions of museum work. Students will learn from a variety of professionals and faculty members about museum responsibilities such as curatorship, exhibit management, fund raising, administration, education, conservation, and public relations.

Dual Master's Degree Programs

The OU Graduate College allows dual master's degrees to be pursued with any two master's programs that agree to it. In its quest to provide alternative educational opportunities for students wishing to specialize in a variety of areas, the School of Library and Information Studies has developed a number of specialized programs. In addition, the Generic Dual Master's degree program is available for students who wish to earn dual master's degrees not specified by the School.

Graduate Certificates

Graduate certificates can add additional job credentials to those seeking particular types of positions. They signal to employers that the holders of the certificates have concentrated coursework in that specialty.

- Graduate Certificate in Archival Studies (p. 500)
- Graduate Certificate in Digital Humanities (p. 501)
- Graduate Certificate in Data Analytics for Information Professionals (p. 501)

Doctoral Programs

The Information Studies Ph.D. (p. 502) expands SLIS' mission and vision by educating students to thoroughly understand the discipline of information studies; develop expertise in using the various research methods necessary for investigation in the field; conduct effective, sustained research; and understand the ways in which information in all its forms is produced, recorded, organized, preserved, retrieved, communicated, managed, and used. Additionally SLIS seeks to educate researchers that are able to understand the ways in which people's information-related activity shapes - and is shaped by - information technologies, information structures, and information institutions such as libraries, archives, and museums. The answers to the research questions posed in information studies help to improve information systems and services, to guide information policy, and to enrich life in today's information society.

Courses

LIS 1013 Information and Digital Literacy 3 Credit Hours

In this era of "alternative facts" and "fake news" information literacy can help students learn to identify information from disinformation. This course is intended to make students more knowledgeable consumers of information, particularly when using internet resources and social media. Exercises in the use and evaluation of information resources, online searching, information ethics, visual literacy, and copyright/fair use are emphasized. (F, Sp) [I-O].

LIS 2003 Introduction to Information Science 3 Credit Hours

Explores the definition, impact, and history of information and information transmission. Introduces technology used to create, read, store, retrieve and transmit information. Analyzes societal institutions, techniques, and processes for the creation, distribution and management of information. Assesses the role of the information professions and information systems in culture and society. (F, Sp) [III-SS].

- LIS 2033 Introduction to Digital Humanities 3 Credit Hours**
(Crosslisted with HIST, WGS and HSTM 2033) This course introduces students to digital and/or computational methods in the humanities and addresses critical questions about the role of digital technology in society. This is a collaborative, hands-on, project-based course. (Sp) [IV-WC].
- LIS 3063 Essentials of IT & Informatics 3 Credit Hours**
Prerequisite: sophomore standing. Students will learn the fundamentals of information technology concepts and applications, understand and utilize emerging technologies to meet society's rapidly changing information needs, and apply these in solving various information problems. (F, Sp)
- LIS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- LIS 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major or program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- LIS 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- LIS 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to the Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field of study. (F, Sp, Su)
- LIS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- LIS 4073 Cultural Heritage Data and Social Engagement 3 Credit Hours**
(Slashlisted with LIS 5073; Crosslisted with WGS, HIST and HSTM 4073) Prerequisite: Junior standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage – the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)
- LIS 4143 Government Information 3 Credit Hours**
(Slashlisted with LIS 5143) Prerequisite: junior standing. Introduces students to current policy, technology, and social factors that drive government resource and information production, distribution, and access. Topics include transformation of government information; information discovery skill sets, models, and techniques; evaluation of information use and value; and government information issues (e.g. access, authentication, privatization, preservation). No student may earn credit for both 4143 and 5143. (F)
- LIS 4213 Social Informatics 3 Credit Hours**
(Slashlisted with LIS 5213) Prerequisite: LIS 2003. Social Informatics analyzes interactions among people and information/communication technologies (ICTs). Issues covered include basic concepts of social systems, ICTs, and their interactions; uses of mobile information technology devices; online interaction and virtual community; information technology and work; and laws and policies related to information technologies. No student may earn credit for both 4213 and 5213. (Sp)
- LIS 4223 Project Planning and Management 3 Credit Hours**
(Slashlisted with LIS 5223) Prerequisite: LIS 3063 or permission of instructor. Fundamentals of planning, designing, and managing information technology solutions; market and trend analysis; planning and assessment techniques and tolls; human factors in technology management. No student may earn credit for both 4223 and 5223. (Su)
- LIS 4303 Children's Literature 3 Credit Hours**
Prerequisite: junior standing. Survey, evaluation and selection of materials for children; interests and needs of various age groups; methods of stimulating reading and listening. Reading of books for children is emphasized. (Correspondence)
- LIS 4453 Digital Collections 3 Credit Hours**
(Slashlisted with LIS 5453) Prerequisite: junior standing. Introduction to the creation and development of digital collections and to the technical requirements for storage and dissemination of digital materials. Topics will include creation, development, organization, maintenance, and use of digital collections. Students will explore a variety of techniques and technologies for digitizing materials; evaluate the strengths and limitations of current efforts in creating, collecting and organizing digital materials; and explore the different opportunities and challenges of digital libraries, repositories, and archives. No student may earn credit for both 4453 and 5453. (Sp)
- LIS 4483 Introduction to Health Informatics 3 Credit Hours**
(Slashlisted with LIS 5483) Prerequisite: Majors only; repeatable for credit, maximum credit 6 hours. Introduction to healthcare industry, data management in healthcare, foundation concepts in health informatics, and information search in healthcare. The student will gain a solid understanding of the fundamentals of health informatics to maximize the use of information, the source of health information, and the retrieval of health information in the delivery of efficient health information services to the users. No student may earn credit for both 4483 and 5483. (Sp)
- LIS 4493 Data Stewardship 3 Credit Hours**
(Slashlisted with LIS 5493) Prerequisite: Junior standing or permission of instructor. Data is being produced at an unprecedented rate in many forms and within many contexts. Information professionals play a vital role as ethical data stewards by organizing, curating, preserving, storing, proving access to, and repurposing data for varying purposes. Understanding the complex issues associated with ethical data stewardship is increasingly important in today's data saturated world. No student may earn credit for both 4493 and 5493. (F)
- LIS 4523 Online Information Retrieval 3 Credit Hours**
(Slashlisted with LIS 5523) Prerequisite: junior standing. Structure, content, and application of online databases for education, research, business, and public use. Principles and techniques for the evaluation of online databases and services. Document representation, information need specification and query formulation for online information retrieval. No student may earn credit for both 4523 and 5523. (F)

- LIS 4613 Dynamic Web Development 3 Credit Hours**
(Slashlisted with LIS 5613) Prerequisite: LIS 3063 and junior standing. The interactive web design server interaction with special emphasis on database connectivity and application development on the internet. No student may earn credit for both 4613 and 5613. (F)
- LIS 4623 Advanced Data Analytics 3 Credit Hours**
(Slashlisted with LIS 5623) Prerequisite: LIS 4643. Application of data analytic theories and models to solve real world problems using various unsupervised and supervised models. Topics include cluster analysis, association rule mining, random forest classifier, neural networks, and naive Bayesian classifiers. No student may earn credit for both 4623 and 5623. (F)
- LIS 4633 Web Design and Implementation 3 Credit Hours**
(Slashlisted with LIS 5633) Prerequisite: junior standing. Students will learn how to design contemporary websites and web pages using current design thinking, techniques and best practices, and how to implement the websites using front-end programming languages including HTML, CSS, and Javascript. No student may earn credit for both 4633 and 5633. (F)
- LIS 4643 Introduction to Data Analytics 3 Credit Hours**
(Slashlisted with LIS 5643) Prerequisite: LIS 2003. Introduces foundational concepts for data analytics. Topics include basic computer programming, statistical understanding and application, data structure, data types, data retrieval from various sources and forms, data cleaning/processing, data visualization, and group manipulations. No student may earn credit for both 4643 and 5643. (F)
- LIS 4663 Information Studies Capstone 3 Credit Hours**
Prerequisite: 2003, 3003, 4003, 4103, and senior standing. Capstone course for the Bachelor of Arts in Information Studies; design and development of an operational prototype information system in a selected organizational setting. Introduces project management terms, techniques, and effect on the success of information technology projects. (F, Sp, Su) [V].
- LIS 4673 Introduction to Information Visualization 3 Credit Hours**
(Slashlisted with LIS 5673) Prerequisite: junior or senior standing. Information visualization is becoming key to LIS, due to the growing need for visual literacy and to the growing demand for data resources in almost all disciplines. Covers basics of developing and evaluating information visualizations and the importance of data accuracy. No student may earn credit for both 4673 and 5673. (F)
- LIS 4683 Database Design for Information Organizations 3 Credit Hours**
(Slashlisted with LIS 5683) Prerequisite: LIS 3063. This course has two major components: (1) conceptual foundations of database design and theory and (2) practical applications of design and theory to real-world database designs. For the conceptual and theoretical design component, this class covers data definition and type, entity relationship diagram (ERD) and data normalization. The practical application uses emerging database tools to cover industry critical functions. No student may earn credit for both 4683 and 5683. (Sp)
- LIS 4693 Information Retrieval and Text Mining 3 Credit Hours**
(Slashlisted with LIS 5693) Prerequisite: LIS 3063 and LIS 4643, or instructor or advisor permission. Identify various sources of textual information in the society and learn different textual data collection methods, understand text analytic processes, understand textual information retrieval models and different text analytic methods to analyze textual information and interpret text analysis results for users' information needs. No student may earn credit for both 4693 and 5693. (Sp)
- LIS 4723 Cybersecurity Essentials 3 Credit Hours**
(Slashlisted with LIS 5723) Prerequisite: Junior standing and majors only. Covers the developments in cybersecurity by discussing and analyzing problems that security designers and security administrators address. Students will be provided hands-on experience with common tools and techniques used by security analysts and white/black hat hackers today. Students will be able to identify threats, assess the relative risk of the threats and develop cost effective countermeasures. No student may earn credit for both 4723 and 5723. (Sp)
- LIS 4823 Internship in Information Studies 3 Credit Hours**
Prerequisite: LIS 3063, LIS 4643, LIS 4143, LIS 4223, LIS 4633 or permission of instructor and adviser. Provides an opportunity for student synthesis of principles and theories acquired in coursework and application of these principles and theories in a working environment. Under professional supervision, the student will complete 135 hours emphasizing general understanding of the specific assignment and completion of a focused project. (F, Sp)
- LIS 4920 Directed Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: LIS 3063, LIS 4643, LIS 4143, LIS 4223, LIS 4633, or permission of instructor and adviser. May be repeated; maximum credit three hours. Faculty supervised research; requires written report. (Irreg.)
- LIS 4940 Directed Project 1-3 Credit Hours**
1 to 3 hours. Prerequisite: LIS 3063, LIS 4643, LIS 4143, LIS 4223, and LIS 4633 and senior standing, or permission of instructor and adviser; May be repeated; maximum credit three hours. Faculty supervised design and implementation of an information project that applies principles and theories acquired in coursework to solution of information problems in practical settings. Requires a project prospectus and written report. (Irreg.)
- LIS 4960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Junior standing and permission of instructor. May be repeated; maximum credit three hours. Faculty supervised exploration of an area of information studies not covered in regularly offered courses. (Irreg.)
- LIS 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- LIS 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing and permission of instructor. May be repeated; maximum credit nine hours. Examination and discussion of current problems in information studies. (F, Sp, Su)
- LIS 5023 Management in Information Organizations 3 Credit Hours**
Prerequisite: Graduate standing, and LIS 5033 or concurrent enrollment. Introduction to managerial principles and practices for information organizations such as libraries and archives, emphasizing financial administration, legal and ethical practices, organizational communication, operational efficiencies, personnel development, and planning processes. (F, Sp)
- LIS 5033 Information and Society 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Introduction to conceptual foundations of the information society, including the nature of data, information, and knowledge; the evolution of national and global organizational information infrastructures; and ethical, legal, and social considerations for LIS professionals. (F, Sp)

- LIS 5043 Organization of Information 3 Credit Hours**
Prerequisite: Graduate standing, and LIS 5033 or concurrent enrollment. Introduction to the organization of internal and external sources of information, information services and tools, basic concepts of information storage and retrieval systems, and design and structure of information systems. Students will become familiar with organization methods such as classification, cataloging, taxonomies and metadata, and how the organization of information is connected to information retrieval. (F, Sp)
- LIS 5053 Information Seeking and Use 3 Credit Hours**
Prerequisite: Graduate standing, and LIS 5033 or concurrent enrollment. The course teaches information seeking and use by people in various roles, situations, and contexts, individually and in groups. The course examines information behavior through psychological, sociological, and political perspectives, examining theory and applying it to practical, real-life information environments. (F, Sp)
- LIS 5063 Fundamentals of Information Technology 3 Credit Hours**
Prerequisite: Graduate standing, and LIS 5033 or concurrent enrollment. Students will learn the fundamentals of information technology concepts and applications, understand and utilize emerging technologies to meet society's rapidly changing information needs, and apply these in solving various information problems. No student may earn credit for both 4063 and 5063. (F, Sp)
- LIS 5073 Cultural Heritage Data and Social Engagement 3 Credit Hours**
(Slashlisted with LIS 4073; Crosslisted with WGS, HIST and HSTM 5073)
Prerequisite: Graduate standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage – the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)
- LIS 5123 Literature and Methods For Readers' Advisory Services 3 Credit Hours**
Prerequisites: 5033 and 5053. Examination of value and role of leisure reading in U.S. public libraries; interview techniques, support processes, and bibliographic resources for providing services to adults and older adolescent readers. (Irreg.)
- LIS 5133 Biomedical Bibliography and Reference Materials 3 Credit Hours**
Prerequisite: LIS 5033 or permission of instructor. Provides an in-depth study of the organization of medical reference departments; reference sources in the health sciences; and the major textbooks in the basic sciences, clinical sciences, and related specialties. Medical audiovisuals, periodicals, indexes and abstracts are included as is automated searching of medical literature. Basic medical terminology is an integral part of the course and given special consideration. (F)
- LIS 5143 Government Information 3 Credit Hours**
(Slashlisted with LIS 4143) Prerequisite: LIS 5033 or permission of instructor. Introduces students to current policy, technology, and social factors that drive government resource and information production, distribution, and access. Topics include transformation of government information; information discovery skill sets, models, and techniques; evaluation of information use and value; and government information issues (e.g. access, authentication, privatization, preservation). No student may earn credit for both 4143 and 5143. (F)
- LIS 5163 Biomedical Databases 3 Credit Hours**
Prerequisite: LIS 5133 or permission of instructor. An in-depth approach to the on-line databases supplied by the National Library of Medicine and to the biomedical databases supplied by commercial companies. Deals with all aspects of searching, including the development of effective policies and procedures. Differences and similarities among the databases are emphasized. (F)
- LIS 5173 Diversity Fundamentals in LIS 3 Credit Hours**
Prerequisite: LIS 5033. Awareness of, and sensitivity to, diverse groups and multicultural heritages; information needs of multiethnic and diverse populations; information needs assessment and analysis; program and service planning. (Su)
- LIS 5183 Information Resources and Services for Children 3 Credit Hours**
Prerequisite: LIS 5033. Course covers childhood development and information needs of children; children's information behavior, learning, and reading; contemporary children's literature; digital media and technology; early literacy, information literacy, and 21st-century skills; selection/evaluation of information resources; information services for children; and 21st-century trends in children's services. (F)
- LIS 5193 Information Resources and Services for Young Adults 3 Credit Hours**
Prerequisite: LIS 5033. Covers developmental characteristics and information needs of young adults; young adults' information behavior, learning, and reading; contemporary young adult literature; digital media and technology; information literacy and 21st-century skills; selection/evaluation of information resources; information services for young adults; and 21st-century trends in youth services. (Sp)
- LIS 5203 Leadership in Information Organizations 3 Credit Hours**
Prerequisite: Graduate standing, and LIS 5023, LIS 5033 or concurrent enrollment; or permission of instructor. Advanced leadership skills for information organizations such as libraries and archives, emphasizing organizational analysis, planning, and assessment, as well as the development of appropriate organizational leadership styles. (F, Sp)
- LIS 5213 Social Informatics 3 Credit Hours**
(Slashlisted with LIS 4213) Prerequisite: graduate standing. Social Informatics analyzes interactions among people and information/communication technologies (ICTs). Issues covered include basic concepts of social systems, ICTs, and their interactions; uses of mobile information technology devices; online interaction and virtual community; information technology and work; and laws and policies related to information technologies. No student may earn credit for both 4213 and 5213. (Sp)
- LIS 5223 Project Planning and Management 3 Credit Hours**
(Slashlisted with LIS 4223) Prerequisite: Graduate standing, LIS 5033, and LIS 5063; or permission of instructor. Fundamentals of planning, designing, implementing, and managing information technology solutions; market and trend analysis; planning and assessment techniques and tools; human factors in technology management. No student may earn credit for both 4223 and 5223. (Su)
- LIS 5233 Oklahoma Information Environment 3 Credit Hours**
Prerequisite: LIS 5033 or permission of school. Interaction between information and culture in the state of Oklahoma with emphasis on information needs, resources, and challenges; research collections; public libraries; tribal libraries and tribal colleges; digital technologies; in-depth exploration of library, museum, archival, and other information services and resources for Oklahomans. (Su)

- LIS 5243 Comics and Graphic Novels 3 Credit Hours**
Prerequisite: Graduate standing and majors only. The course has 3 major components. History & Language of Comics with focus on the period of the Golden Age to the modern day; Comics & the Community, which will examine the relationships between comic book fans and the medium; and Libraries & the Role of Comics, which will focus on the relationship libraries have with comics & graphic novels. (Sp)
- LIS 5253 Community Relations and Advocacy 3 Credit Hours**
Prerequisite: LIS 5023, LIS 5033. Examination of the communication process by which the library/information center personnel satisfy user needs and provide/transmit information about the program objectives and functions to develop public awareness and support. Involves as audiences: the users, the library/information center staff, general public, governance entities, political representatives, educational and service agencies, and professional organizations. (F)
- LIS 5283 School Library Administration 3 Credit Hours**
Prerequisite: LIS 5023 and LIS 5033. History and role of school libraries in the educational program; planning, organizing and administering library programs in the elementary and secondary schools. (Sp)
- LIS 5343 Archival Concepts and Traditions 3 Credit Hours**
Prerequisite: LIS 5033. Introduction to the principles and practice of collecting, servicing, and arranging archival holdings. Includes appraisal, acquisition, arrangement and description, preservation, and administration of institutional archives. Attention to issues of preservation, intellectual property, and service in both physical and digital environments. (Sp alternating semesters)
- LIS 5403 Cataloging and Classification 3 Credit Hours**
Prerequisite: 5033, 5043. Detailed study of principles and practices of cataloging and classification according to current standards. Instruction covers original descriptive cataloging, subject analysis and classification. (alt. F, irreg. Su)
- LIS 5443 Collection Development and Management 3 Credit Hours**
Prerequisite: LIS 5033 and LIS 5043. Examination of the acquisition and evaluation processes used for building and maintaining collections in all formats. Formulation and implementation of collection development policies, identification of user needs, selection methods and tools, storage alternatives, publishing and intellectual freedom, administrative and legal issues including licensing and contract negotiation. (F)
- LIS 5453 Digital Collections 3 Credit Hours**
(Slashlisted with LIS 4453) Prerequisite: LIS 5033, LIS 5043, LIS 5063. Introduction to the creation and development of digital collections and to the technical requirements for storage and dissemination of digital materials. Topics will include creation, development, organization, maintenance, and use of digital collections. Students will explore a variety of techniques and technologies for digitizing materials; evaluate the strengths and limitations of current efforts in creating, collecting and organizing digital materials; and explore the different opportunities and challenges of digital libraries, repositories, and archives. No student may earn credit for both 4453 and 5453. (Sp)
- LIS 5463 Archival Representation and Use 3 Credit Hours**
Prerequisite: LIS 5033 or permission of instructor. Introduction to the principles and practices of collecting, servicing, and arranging archival holdings. Includes elements of appraisal, acquisition, and preservation with significant focus on archival arrangement, description, and administration of institutional archives. (Sp)
- LIS 5473 Document and Records Management 3 Credit Hours**
Prerequisite: graduate standing, LIS 5033 and LIS 5043. The systematic capture, acquisition, and processing, storage, and control of documents in all formats, including their management as records throughout the life cycle from creation to final disposition. Introduction to principles, methodologies, administration, tools, and techniques in various settings. (Irreg.)
- LIS 5483 Introduction to Health Informatics 3 Credit Hours**
(Slashlisted with LIS 4483) Prerequisite: Graduate standing, majors only; repeatable for credit, maximum credit 6 hours. Introduction to healthcare industry, data management in healthcare, foundation concepts in health informatics, and information search in healthcare. The student will gain a solid understanding of the fundamentals of health informatics to maximize the use of information, the source of health information, and the retrieval of health information in the delivery of efficient health information services to the users. No student may earn credit for both 4483 and 5483. (Sp)
- LIS 5493 Data Stewardship 3 Credit Hours**
(Slashlisted with LIS 4493) Prerequisite: Graduate standing. Data is being produced at an unprecedented rate in many forms and within many contexts. Information professionals play a vital role as ethical data stewards by organizing, curating, preserving, storing, providing access to, and repurposing data for varying purposes. Understanding the complex issues associated with ethical data stewardship is increasingly important in today's data saturated world. No student may earn credit for both 4493 and 5493. (F)
- LIS 5503 Information Literacy and Instruction 3 Credit Hours**
Prerequisites: 5033 and 5053. Instructional methods and materials for the acquisition and development of information literacy skills; theories of instruction and current trends in information literacy instruction. (Irreg.)
- LIS 5513 Information Sources and Services 3 Credit Hours**
Prerequisite: 5033, 5053. Characteristics and use of information sources and systems; policies and procedures for the provision of user-centered service in libraries and other information agencies. Introduction to basic reference tools in both print and electronic formats. (F, Sp, irreg. Su)
- LIS 5523 Online Information Retrieval 3 Credit Hours**
(Slashlisted with LIS 4523) Prerequisite: LIS 5033 and LIS 5053. Structure, content, and application of online databases for education, research, business, and public use. Principles and techniques for the evaluation of online databases and services. Document representation, information need specification and query formulation for online information retrieval. No student may earn credit for both 4523 and 5523. (F)
- LIS 5533 Foundations of Learning Sciences 3 Credit Hours**
(Crosslisted with EIPT 5533) Prerequisite: Graduate standing or permission of instructor. Learning Sciences is an interdisciplinary approach to investigating, understanding, and supporting learning. It draws on diverse fields and methodologies. The goal of this class is to develop a critical orientation with regard to how we use them in integrated, meaningful, contextual, and ethical ways, in service to learners and society. (F)
- LIS 5563 Archival Appraisal 3 Credit Hours**
Prerequisite: LIS 5033. Evaluation and examination of contributions of key figures in development of archival appraisal theory; identification and evaluation of distinct movements in archival appraisal; identification of cultural, political, sociological, and technological movements that can have impact on appraisal methodologies; and development of effective appraisal strategies for a variety of communities. (F even-numbered years)

- LIS 5573 Makerspaces: Theory and Practice 3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor; Repeatable for credit, maximum credit 6 hours. An overview of theories and practice of makerspaces in libraries and museums. Students will learn theories behind the maker movement, hands-on tools and technologies, and issues on the design and implementation of a makerspace, such as assessing the needs of community, managing a space, facilitating making and learning, and evaluating the impact. (F)
- LIS 5613 Dynamic Web Development 3 Credit Hours**
(Slashlisted with LIS 4613) Prerequisite: Graduate standing, and LIS 4063 or LIS 5063. The interactive web design server interaction with special emphasis on database connectivity and application development on the internet. No student may earn credit for both 4613 and 5613. (F)
- LIS 5623 Advanced Data Analytics 3 Credit Hours**
(Slashlisted with LIS 4623) Prerequisite: Graduate standing and LIS 5643. Application of data analytic theories and models to solve real world problems using various unsupervised and supervised models. Topics include cluster analysis, association rule mining, random forest classifier, neural networks, and naive Bayesian classifiers. No student may earn credit for both 4623 and 5623. (F)
- LIS 5633 Web Design and Implementation 3 Credit Hours**
(Slashlisted with LIS 4633) Prerequisite: LIS 5033. Students will learn how to design contemporary websites and web pages using current design thinking, techniques and best practices, and how to implement the websites using front-end programming languages including HTML, CSS, and JavaScript. No student may earn credit for both 4633 and 5633. (F)
- LIS 5643 Introduction to Data Analytics 3 Credit Hours**
(Slashlisted with LIS 4643) Prerequisite: LIS 5033. Introduces foundational concepts for data analytics. Topics include basic computer programming, statistical understanding and application, data structure, data types, data retrieval from various sources and forms, data cleaning/processing, data visualization, and group manipulations. No student may earn credit for both 4643 and 5643. (F)
- LIS 5653 Preservation of Information Materials 3 Credit Hours**
Prerequisite: graduate standing and LIS 5033. Theory and practice of the preservation and conservation of intellectual content and physical artifacts, including paper, microform, and digital records. Emphasis on planning and administering disaster prevention and recovery, preservation, and digitization programs. (Alt. Sp, Irreg. Su)
- LIS 5673 Introduction to Information Visualization 3 Credit Hours**
(Slashlisted with LIS 4673) Prerequisite: graduate standing and LIS 5033. Information visualization is becoming key to LIS, due to the growing need for visual literacy and to the growing demand for data resources in almost all disciplines. Covers the basics of developing and evaluating information visualizations and the importance of data accuracy. (F)
- LIS 5683 Database Design for Information Organizations 3 Credit Hours**
(Slashlisted with LIS 4683) Prerequisite: graduate standing and LIS 5033. This course has two major components: (1) conceptual foundations of database design and theory and (2) practical applications of design and theory to real-world database designs. For the conceptual and theoretical design component, this class covers data definition and type, entity relationship diagram (ERD) and data normalization. The practical application uses emerging database tools to cover industry critical functions. No student may earn credit for both 4683 and 5683. (Sp)
- LIS 5693 Information Retrieval and Text Mining 3 Credit Hours**
(Slashlisted with LIS 4693) Prerequisite: Graduate standing; LIS 5063 and LIS 5643, or permission of instructor. Identify various sources of textual information in the society and learn different textual data collection methods. Understand text analytic processes, textual information retrieval models, and different text analytic methods to analyze textual information and interpret text analysis results for users' information needs. No student may earn credit for both 4693 and 5693. (Sp)
- LIS 5713 Research and Evaluation Methods 3 Credit Hours**
Prerequisites: LIS 5033. Methods of investigating library and information (LIS) problems; use of evaluation in planning for continuous quality assessment and improvement of LIS policies, processes, and procedures; development of original research designs; evaluation of research studies in LIS. (F, Sp)
- LIS 5723 Cybersecurity Essentials 3 Credit Hours**
(Slashlisted with LIS 4723) Prerequisite: Graduate standing. Covers the developments in cybersecurity by discussing and analyzing problems that security designers and security administrators address. Students will be provided hands-on experience with common tools and techniques used by security analysts and white/black hat hackers today. Students will be able to identify threats, assess the relative risk of the threats, and develop cost effective countermeasures. No student may earn credit for both 4723 and 5723. (Sp)
- LIS 5743 Digital Curation 3 Credit Hours**
Prerequisite: Graduate standing. This course provides an introduction to the appraisal, processing, storage, maintenance, and use of born-digital collections and the technical requirements for their storage, preservation, and dissemination. Students will gain an in-depth look into archival practices focused on best practices for creation, selection, storage, and long-term discoverability of digital objects and policy development. (Irreg.)
- LIS 5753 Archives in the Museum Setting 3 Credit Hours**
Prerequisite: Graduate standing. This course teaches students to analyze and evaluate the range of recordkeeping systems, policies, and practical workflows which have been used by various institutions to document their collections, and the physical and intellectual environment in which records are created, used, and maintained. The course will focus on the records of natural history museums, Native American museums, and history museums. (Irreg.)
- LIS 5823 Internship in Library/Information Centers 3 Credit Hours**
Prerequisite: 18 hours of LIS coursework, including one-half of the required courses, permission of the supervising instructor. Provides an opportunity for student synthesis of principles and theories acquired in coursework and application of these principles and theories in an outstanding library/information center. Under professional supervision, the student will complete 135 hours. (F, Sp, Su)
- LIS 5920 Directed Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and LIS 5713, permission of instructor and adviser. May be repeated; maximum credit six hours. Research under faculty supervision; requires a written report. (F, Sp, Su)
- LIS 5940 Directed Project 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and 24 hours of LIS coursework and permission of instructor and adviser. May be repeated; maximum credit three hours. Design and implementation of a professional project that applies principles and theories acquired in coursework to the solution of professional problems in practical settings. Requires a project prospectus and a written report at conclusion of the project. Conducted under faculty supervision. May not be taken for credit toward the MLIS degree by students electing thesis option. (Irreg.)

LIS 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and 15 hours of LIS coursework and permission of instructor and adviser. May be repeated; maximum credit six hours. Exploration of an area of library and information studies not covered in regularly offered course. (F, Sp, Su)

LIS 5970 Special Topics/Seminar 1-3 Credit Hours

Prerequisite: 1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

LIS 5980 Research for Master's Thesis 2-9 Credit Hours

Prerequisite: graduate standing and permission of instructor. Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

LIS 5990 Special Problems 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Examination and discussion of current problems in librarianship. (Irreg.)

LIS 6033 Intellectual Traditions in Information Studies 3 Credit Hours

Prerequisite: graduate standing and permission of school. Introduces students to the main philosophical traditions of research and scholarship that currently inform inquiry in Information Studies. (F)

LIS 6503 Information Behavior 3 Credit Hours

Prerequisite: graduate standing and permission of school. Information use by individuals and groups in various roles, situations, and contexts. Influences of learning and cognitive processes; value systems; and situational, psychological, sociological, and political perspectives on information behavior. Application of user studies to textual, graphical, and visual representation of information. Study of theoretical models and practical methodologies in information systems. (Sp)

LIS 6543 Social and Community Informatics 3 Credit Hours

Prerequisite: graduate standing and permission of school. Analysis of interactions among people, information/communication technologies (ICTs), and local social settings. Effects of social and technical contexts on the design, implementation, and evaluation of ICTs. Social systems and community contexts, ICTs, and their interactions; uses of mobile information technologies; online interaction and virtual community; information technology and work; and, organizational/institutional information technologies laws and policies. (F)

LIS 6553 Critical Information Studies 3 Credit Hours

Prerequisite: graduate standing and permission of school. Introduces students to Critical Theory. It examines the idea of immanent critique developed within the Frankfurt School and how critical theory informs inquiry in Information Studies. (Sp)

LIS 6713 Research Methods and Design in Information Studies 3 Credit Hours

Prerequisite: graduate standing and permission of school. A survey of quantitative, qualitative, and historical research designs. Topics covered include ethical issues; conceptualization and measurement; sampling; surveys; and data analysis. (Sp)

LIS 6920 Directed Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of school. May be repeated; maximum credit 12 hours. Students will prepare a proposal and have it approved by the SLIS faculty member who will direct the study and their SLIS faculty adviser prior to registration. (F, Sp)

LIS 6962 Doctoral Seminar 2 Credit Hours

Prerequisite: Graduate standing, majors only, and departmental permission. May be repeated with change of content; maximum credit 8 hours. Serves as a venue for the development of a variety of skills and capacities to succeed as a scholar. Offers a mix of sessions on progression through the Ph.D. degree program, the research process, guidance on the academic profession, and written and oral presentation of scholarly research. (F, Sp)

LIS 6970 Special Topics in the Theory of Information Studies 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of school. May be repeated with change of subject matter; maximum credit six hours. Topics in information studies for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (F)

LIS 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

<i>Additional Core IV Upper-Division Arts & Humanities courses</i>		
	Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
	Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3

Core Area V: First Year Experience (3 hours)

Choose one course	3
Total Credit Hours	56

- ¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
- ² One course at the intermediate level or demonstrated competency at that level
- ³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or School of Library and Information Studies academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Information Science & Technology major requirements.

Freshman

First Semester		Credit Hours

Information Studies, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 9

Program Code: N560

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the School of Library and Information Studies.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course presented for minor credit.

Code	Title	Credit Hours

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3} 3

Core Area V: First Year Experience (3 hours)

Choose one course 3

Total Credit Hours 56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in five years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or School of Library and Information Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Information Studies major requirements.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Archival Studies, Graduate Certificate

Minimum Total Hours: 12

Program Code: G021

The graduate certificate is a 12-credit hour (four course) program that provides a focused specialization and an indication of expertise in archival theory and practice. It provides a formal indication of training which endorses the abilities and knowledge of the certificate holders.

Certificate Requirements

Code	Title	Credit Hours
	Choose 4 courses (12 hours) from the approved list of archive courses maintained by the academic unit and approved by the Graduate College. (p. 501)	12
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Archival Studies Elective Course List

The most current list of approved courses is maintained in the School of Library and Information Studies.

Code	Title	Credit Hours

Digital Humanities, Graduate Certificate

Minimum Total Hours: 12

Program Code: G315

The Graduate Certificate in Digital Humanities provides a pathway for individuals working in the humanities, social sciences, and the sciences to advance their understanding of how potentially transformative methods, tools, models, applications, and theoretical frameworks are being put to use in expanding the scope and scale of inquiry in the humanities disciplines. The certificate consists of 12 credit hours (four courses).

LIS 6970	Special Topics in the Theory of Information Studies	3

Additional Methodology Courses Outside SLIS (6 hours)

Two additional methodology courses selected from a list maintained by the School of Library & Information Studies	6
---	---

Major Specialization (12 hours)

Four courses focused on creating a major area of specialization, as approved by committee chair and graduate liaison. ¹	12
--	----

Doctoral Seminar (8 hours)

LIS 6962	Doctoral Seminar (2 hours per semester for four semesters)	8
----------	--	---

Guided Electives (12 hours)²

6 hours from 6000-level LIS courses	6
6 hours of graduate coursework offered outside of SLIS	6

General Electives (30-33 hours) 30-33

Must be approved by committee and graduate liaison. Up to 30 hours may be credited from a prior master's degree in a related field (with permission of committee chair and graduate liaison).

Dissertation Research (10-13 hours)

LIS 6980	Research for Doctoral Dissertation	10-13
----------	------------------------------------	-------

Total Credit Hours	90
---------------------------	-----------

¹ This can be 4 semesters of LIS 6920, Directed Research, to create a specialization in research.

² It is recommended that these courses are chosen carefully with a view to (a) acquiring the knowledge and skills necessary for designing and implementing a research study in the student's area of interest, and/or (b) exploring a particular cognate area relating to the student's research interests and becoming acquainted with faculty who may serve as external dissertation committee members.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

General Information

Mathematics students are well trained for a number of career fields, including architecture, economics, computer programming, education, meteorology and financial planning. The variety of coursework in the Mathematics program prepares students to work for companies such as Microsoft, IBM Global, NASA and Proctor and Gamble as well as the U.S. government. The David and Judi Proctor Department of Mathematics offers students a flexible liberal arts education with multiple degree options. The Mathematics degree is perfect for students who have a general interest in math, because it gives them the opportunity to study an array of math-related topics.

Programs & Facilities

Math Club

The Math Club meets throughout each semester to host a variety of talks, campus visits, and field trips.

Scholarships

The Mathematics Department has a number of endowed scholarship funds to support its undergraduate majors. All math majors are encouraged to apply. Application forms will be accepted in March each year.

Graduate Student Support

Extensive support is available for students enrolled in a graduate program in Mathematics. The department has a limited number of fellowships available; all students are automatically considered for these fellowships. Although both teaching and research assistantships are available, incoming students are generally considered only for graduate teaching assistant appointments.

Undergraduate Study

Major Programs

The student whose major interest is in mathematics may work either for the standard degree of Bachelor of Arts (p. 511) or the professional degree of Bachelor of Science (p. 513). The Bachelor of Arts degree provides a well-rounded liberal arts degree preparing students for a wide variety of career paths. The Bachelor of Science in Mathematics Professional Degree is a rigorous undergraduate mathematics degree. This challenging program will prepare student to pursue graduate studies in mathematics or mathematically intensive subjects.

Accelerated Programs

- Mathematics, B.A./Master of Business Administration (p. 515)
- Mathematics, B.A./Finance, M.S. (p. 519)

The Mathematics & Biostatistics, Bachelor of Science/Master of Science (p. 521) is a five-year dual-degree program in conjunction with the Department of Biostatistics and Epidemiology at the OU Health Sciences Center. The program leads to a Mathematics Bachelor of Science and a Biostatistics Master of Science.

Minor in Mathematics

Students may also pursue a Minor in Mathematics (p. 515).

Teacher Certification

Students who wish to pursue a career teaching mathematics may be interested in the Bachelor of Science in Education (p. 1155) degree from the College of Education specializing in Mathematics. This program can also be combined with your teaching certification for middle and high school.

Graduate Study

Master's Programs

The department has two different master's degree programs. The Master of Arts (p. 524) degree is particularly suitable for students who may want to pursue a doctorate or who are interested in teaching at the college level. The Master of Science (p. 524) degree emphasizes applications of mathematics. The dual degree program addresses the increasing need of mathematics in business and management.

Doctoral Programs

In order to be admitted to the Ph.D. program (p. 525) in mathematics, a student should first have completed a master's degree or equivalent. A total of at least 90 hours beyond the baccalaureate degree is required for this degree.

- **PhD Program (traditional option).** The student's ultimate goal in this program is to write and defend a dissertation representing an original contribution to research in mathematics. This research is conducted under the guidance of a faculty member (PhD advisor). A wide variety of research interests is represented in the Mathematics Department.
- **PhD Program (RUME option).** The student's ultimate goal in this program is to write and defend a dissertation representing an original contribution to research in undergraduate mathematics education. The student's PhD degree will however still be in mathematics, not mathematics education. RUME students take many of the same classes taken by students in the traditional option of the PhD program.

Courses

MATH 0999 Remedial Transfer Credit 10 Credit Hours

This is not a course offered at the University of Oklahoma. It is used to denote remedial transfer credit for which there is no OU equivalent course.

MATH 1471 Mathematics for Critical Thinking Corequisite 1 Credit Hour

Prerequisite: A satisfactory score on the math placement examination; Corequisite: MATH 1473. This course is designed as a corequisite supplement to MATH 1473 (Math for Critical Thinking). It covers material that supports the learning of key arithmetic, algebra topics, and terminology needed to address common contextualized scenarios involving quantities and numeration (e.g., personal financial mathematics and interpretation of data representations found in media). The course also further emphasizes topics from MATH 1473. (F, Sp, Su)

- MATH 1473 Mathematics for Critical Thinking** **3 Credit Hours**
Prerequisite: "C" or better in DMAT 0123 at OU, or satisfactory score on the math assessment. A study of the mathematics needed for the critical evaluation of quantitative information and arguments including logic, critical appraisal of graphs and tables; use of simple mathematical models and an introduction to elementary statistics. (F, Sp, Su) [I-M].
- MATH 1501 College Algebra Corequisite** **1 Credit Hour**
Prerequisite: A satisfactory score on the math placement examination; Corequisite: MATH 1503. This course is a corequisite supplement to MATH 1503 (College Algebra), which is designed for students in preparation for engineering calculus. MATH 1501 supports the learning of key algebra topics, including expanding and simplifying algebraic expressions (linear, quadratic, polynomial, rational, radical, exponential, and logarithmic); factoring techniques; and representations of mathematical information. The course also further emphasizes topics from MATH 1503. (F, Sp, Su)
- MATH 1503 College Algebra** **3 Credit Hours**
Prerequisite: "C" or better in DMAT 0123, or satisfactory score on the math assessment. Study of equations, inequalities, functions (linear, absolute value, quadratic, polynomial, rational, radical, exponential, logarithmic). Includes systems of equations; recognizing, utilizing, creating, and converting between symbols, tables, graphs, models. Prerequisite for MATH 1523. A student may not receive credit for this course and MATH 1643. (F, Sp, Su) [I-M].
- MATH 1523 Precalculus and Trigonometry** **3 Credit Hours**
Prerequisite: MATH 1503 or satisfactory score on the math assessment. Primarily concentrates on trigonometric functions and their inverses, trigonometric identities, solutions of triangles, and applications. In addition, limits, vectors and some vector operations, polar coordinates and continuity are introduced. Suitable for students planning to take calculus; intended as prerequisite for MATH 1823. (F, Sp, Su) [I-M].
- MATH 1641 Functions and Modeling Corequisite** **1 Credit Hour**
Prerequisite: A satisfactory score on the math placement examination; Corequisite: MATH 1643. This course is a corequisite supplement to MATH 1643 (Functions & Modeling), which is designed to prepare students for business calculus, as well as other business, life, and social science courses. The 1641 course focuses on key algebra skills and improvement of academic study skills necessary for success in MATH 1643. It also further emphasizes topics covered in MATH 1643. (F, Sp, Su)
- MATH 1643 Functions and Modeling for Business, Life and Social Sciences** **3 Credit Hours**
Prerequisite: "C" or better in DMAT 0123 at OU, or satisfactory score on the math assessment. Study of equations and functions (linear, polynomial, rational, exponential, logarithmic) from various perspectives (symbolic, verbal, numerical, graphical); digital techniques for graphing functions, solving equations, and modeling data using regressions. This course is designed for students in agricultural, business, life/health sciences, or social science majors. A student may not receive credit for this course and MATH 1503. (F, Sp, Su) [I-M].
- MATH 1743 Calculus I for Business, Life and Social Sciences** **3 Credit Hours**
Prerequisite: MATH 1523, MATH 1643, or satisfactory score on the math assessment. Topics in differentiation of polynomial, exponential and logarithmic functions. Applications to the business, life and social sciences, including optimization. A student may not receive credit for this course and MATH 1823. (F, Sp, Su) [I-M].
- MATH 1823 Calculus and Analytic Geometry I** **3 Credit Hours**
Prerequisite: MATH 1523 or satisfactory score on the math assessment. Topics include functions, limits, and continuity; differentiation; and applications of differentiation including related rates, maximum-minimum theory, curve sketching, and optimization. A student may not receive credit for this course and MATH 1743; duplicates 3 hours of MATH 1914. (F, Sp, Su) [I-M].
- MATH 1914 Differential and Integral Calculus I** **4 Credit Hours**
Prerequisite: Satisfactory score on math assessment. Topics include limits and continuity; differentiation; applications of differentiation including related rates, maximum-minimum theory, curve sketching, and optimization; Fundamental Theorem of Calculus; substitution rule; and applications of integration to computation of areas and volumes. Duplicates three hours of MATH 1823 and one hour of MATH 2423. (F, Sp, Su) [I-M].
- MATH 2123 Calculus II for Business, Life and Social Sciences** **3 Credit Hours**
Prerequisite: MATH 1743. Integration of polynomial, exponential and logarithmic functions, including u-substitution. Applications of integrals to the business, life and social sciences, including probability. Partial derivatives including multivariable optimization, Lagrange multipliers, and least squares. A student cannot receive credit for this course and MATH 2423. (Sp) [I-M].
- MATH 2213 Mathematical Systems** **3 Credit Hours**
Prerequisite: plane geometry, intermediate algebra, enrollment in an appropriate elementary teachers' program. A systematic analysis of arithmetic and a presentation of intuitive algebra and geometry. Not open to students in the University College. (F, Sp, Su)
- MATH 2223 Data Analysis and Geometric Systems** **3 Credit Hours**
Prerequisite: 0123 at OU or satisfactory score on math placement test and admission to 0802A, 0808A, or 0823A degree programs. Algebra and the structure of number systems, functional relationships, informal geometry. Course is not open to students in University College. (F, Sp)
- MATH 2423 Calculus and Analytic Geometry II** **3 Credit Hours**
Prerequisite: MATH 1823 or MATH 1914. Topics include integration and its applications; calculus of transcendental functions; indeterminate forms; techniques of integration; and improper integrals. A student may not receive credit for this course and MATH 2123; duplicates one hour of MATH 1914 and two hours of MATH 2924. (F, Sp, Su) [I-M].
- MATH 2433 Calculus and Analytic Geometry III** **3 Credit Hours**
Prerequisite: MATH 2423 or MATH 2924. Polar coordinates, parametric equations, sequences, infinite series, vector analysis. (F, Sp, Su)
- MATH 2443 Calculus and Analytic Geometry IV** **3 Credit Hours**
Prerequisite: 2433. Vector calculus; functions of several variables; partial derivatives; gradients, extreme values and differentials of multivariate functions; multiple integrals; line and surface integrals. (F, Sp, Su)
- MATH 2513 Discrete Mathematical Structures** **3 Credit Hours**
Prerequisite: MATH 2423 or MATH 2924 or concurrent enrollment. A course for math majors or prospective math majors. Provides an introduction to discrete concepts such as finite sets and structures, and their properties and applications. Also exposes students to the basic procedures and styles of mathematical proof. Topics include basic set theory, functions, integers, symbolic logic, predicate calculus, induction, counting techniques, graphs and trees. Other topics from combinatorics, probability, relations, Boolean algebras or automata theory may be covered as time permits. (F, Sp, Su)

- MATH 2924 Differential and Integral Calculus II 4 Credit Hours**
Prerequisite: MATH 1914 with a grade of C or better. Topics include calculus of transcendental functions; indeterminate forms; techniques of integration; improper integrals, parametric curves; polar coordinates, infinite sequences and series, vectors in two and three dimensions. Duplicates two hours of MATH 2423 and two hours of MATH 2433. (F, Sp, Su)
- MATH 2934 Differential and Integral Calculus III 4 Credit Hours**
Prerequisite: 2924 with grade of C or better. Vectors and vector functions, functions of several variables, partial differentiation and gradients, multiple integration, line and surface integrals, Green-Stokes-Gauss theorems. Duplicates one hour of 2433 and three hours of 2443. (F, Sp, Su)
- MATH 2970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- MATH 3113 Introduction to Ordinary Differential Equations 3 Credit Hours**
Prerequisite: MATH 2423 or MATH 2924. First order ordinary differential equations, linear differential equations with constant coefficients, two-by-two linear systems, Laplace transformations, phase planes and stability. Duplicates two hours of MATH 3413. (F, Sp, Su)
- MATH 3333 Linear Algebra I 3 Credit Hours**
Prerequisite: MATH 2123 or MATH 1823 or MATH 1914 or permission of instructor. Systems of linear equations, determinants, finite dimensional vector spaces, linear transformations and matrices, characteristic values and vectors. (F, Sp, Su)
- MATH 3401 Numerical Methods With Matlab 1 Credit Hour**
Prerequisite: 3413 or concurrent enrollment. Programming with MATLAB. Numerical solution of nonlinear equations. Matrices and linear algebraic equations, regression, interpolation, splines. Numerical integration. Numerical solution of systems of ordinary differential equations. Numerical solution of partial differential equation. Laboratory (F, Sp)
- MATH 3413 Physical Mathematics I 3 Credit Hours**
Prerequisite: MATH 2443 or MATH 2934 or concurrent enrollment. Complex numbers and functions. Fourier series, solution methods for ordinary differential equations and partial differential equations, Laplace transforms, series solutions, Legendre's equation. Duplicates two hours of MATH 3113. (F, Sp)
- MATH 3423 Physical Mathematics II 3 Credit Hours**
Prerequisite: MATH 2443 or MATH 2934, MATH 3413. The Fourier transform and applications, a survey of complex variable theory, linear and nonlinear coordinate transformations, tensors, elements of the calculus of variations. (F)
- MATH 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- MATH 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)
- MATH 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (F, Sp)
- MATH 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- MATH 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. Overall grade point average of 2.50 or better. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- MATH G4073 Numerical Analysis I 3 Credit Hours**
Prerequisite: 3113 or 3413. Solution of linear and nonlinear equations, approximation of functions, numerical integration and differentiation, introduction to analysis of convergence and errors, pitfalls in automatic computation, one-step methods in the solutions of ordinary differential equations. (F)
- MATH 4093 Applied Numerical Methods 3 Credit Hours**
(Slashlisted with MATH 5093) Prerequisite: MATH 2443 or MATH 2934, MATH 3113 or MATH 3413, MATH 3333 or MATH 4373, or permission of instructor. Numerical treatment of ordinary differential equations, numerical linear algebra and applications, basic numerical methods for partial differential equations. No student may earn credit for both 4093 and 5093. (Alt. Sp.)
- MATH G4103 Introduction to Functions of a Complex Variable 3 Credit Hours**
Prerequisite: 3113. Complex analytic functions, conformal mappings, complex integrals. Taylor and Laurent series, integration by the method of residues, complex analytic functions and potential theory. (Sp)
- MATH 4123 Fourier Transforms 3 Credit Hours**
(Slashlisted with MATH 5123) Prerequisite: MATH 2443 or MATH 2934, MATH 3113 or MATH 3413, MATH 3333, or permission of instructor. Fourier series, classical Fourier transform, discrete Fourier transform, distributions and Fourier transforms. Sampling and Shannon's Theorem. No student may earn credit for both 4123 and 5123. (F)
- MATH G4163 Introduction to Partial Differential Equations 3 Credit Hours**
Prerequisite: MATH 2443 or MATH 2934, MATH 3113 or MATH 3413. Physical models, classification of equations, Fourier series and boundary value problems, integral transforms, the method of characteristics. (F, Sp, Su)
- MATH 4193 Introductory Mathematical Modeling 3 Credit Hours**
Prerequisite: MATH 3113 or MATH 3413, MATH 3333, MATH 4733 or MATH 4753, or permission of instructor. Mathematics models are formulated for problems arising in various areas where mathematics is applied. Techniques are developed for analyzing the problem and testing validity of proposed model. (Sp)

- MATH G4313 Introduction to Number Theory 3 Credit Hours**
Prerequisite: 2513 and 3333 or permission of instructor. Topics include factorization and prime numbers, congruence, quadratic residues and reciprocity, continued fractions and approximations, Diophantine equations, arithmetic functions, and selected applications. (Irreg.)
- MATH G4323 Introduction to Abstract Algebra I 3 Credit Hours**
Prerequisite: MATH 3333 and MATH 2513, or permission of instructor. Concepts from set theory; the system of natural numbers, extension from the natural numbers to the integers; semigroups and groups; rings, integral domain and fields. (F, Sp)
- MATH G4333 Introduction to Abstract Algebra II 3 Credit Hours**
Prerequisite: 4323. Extensions of rings and fields, elementary factorization theory; groups with operators; modules and ideals; lattices. (Sp)
- MATH 4373 Abstract Linear Algebra 3 Credit Hours**
(Slashlisted with 5373) Prerequisite: 3333. Vector spaces over arbitrary fields, bases, dimension, linear transformations and matrices, similarity and its canonical forms (rational, Jordan), spectral theorem and diagonalization of quadratic forms. No student may earn credit for both 4373 or 5373. (F, Sp)
- MATH 4383 Applied Modern Algebra 3 Credit Hours**
(Slashlisted with 5383) Prerequisite: 3333. Topics from the theory of error correcting codes, including Shannon's theorem, finite fields, families of linear codes such as Hamming, Golay, BCH, and Reed-Solomon codes. Other topics such as Goppa codes, group codes, and cryptography as time permits. No student may earn credit for both 4383 and 5383. (Sp)
- MATH G4433 Introduction to Analysis I 3 Credit Hours**
Prerequisite: MATH 2433 or MATH 2924, and MATH 2513 or permission of instructor. Review of real number system. Sequences of real numbers. Topology of the real line. Continuity and differentiation of functions of a single variable. (F, Sp, Su)
- MATH 4443 Introduction to Analysis II 3 Credit Hours**
(Slashlisted with 5443) Prerequisite: 4433. Integration of functions of a single variable. Series of real numbers. Series of functions. Differentiation of functions of more than one variable. No student may earn credit for both 4443 and 5443. (Sp)
- MATH 4513 Senior Mathematics Seminar 3 Credit Hours**
Prerequisite: MATH 2443 or MATH 2934; MATH 2513; MATH 3113 or MATH 3413; MATH 3333; and senior standing. Capstone course which synthesizes ideas from different areas of mathematics with emphasis on current topics of interest. The course will involve student presentations, written projects and problem solving. (F, Sp) [V].
- MATH G4643 Topics in Geometry and Combinatorics 3 Credit Hours**
Prerequisite: 3333. May be repeated with permission of instructor; maximum credit six hours. Topics may include convexity (convex sets, combinatorial theorems in finite dimensional Euclidean space), graph theory, finite geometries, foundations of geometry. (F, Sp)
- MATH 4653 Introduction To Differential Geometry I 3 Credit Hours**
(Slashlisted with MATH 5653) Prerequisite: MATH 2443 or MATH 2934, and MATH 3333, or permission of instructor. Elementary theory of curves and surfaces in three-dimensional Euclidean space, differentiable manifolds, Riemannian geometry of two dimensions, Gauss Theorem Egregium. No student may earn credit for both 4653 and 5653. (F)
- MATH 4673 Graph Theory I 3 Credit Hours**
(Slashlisted with 5673) Prerequisite: 2513 or permission of instructor. An introduction to the theory of graphs. Topics include basic definitions, cutpoints, blocks, trees, connectivity and Menger's theorem. No student may earn credit for both 4673 and 5673. (F)
- MATH G4733 Mathematical Theory of Probability 3 Credit Hours**
Prerequisite: MATH 2443 or MATH 2934 or concurrent enrollment. Probability spaces, counting techniques, random variables, moments, special distributions, limit theorems. (F)
- MATH 4743 Introduction to Mathematical Statistics 3 Credit Hours**
(Slashlisted with 5743) Prerequisite: 4733. Mathematical development of basic concepts in statistics: estimation, hypothesis testing, sampling from normal and other populations, regression, goodness-of-fit. No student may earn credit for both 4743 and 5743. (Sp)
- MATH G4753 Applied Statistical Methods 3 Credit Hours**
Prerequisite: MATH 2123 or MATH 2423 or MATH 2924 or permission of instructor. Estimation, hypothesis testing, analysis of variance, regression and correlation, goodness-of-fit, other topics as time permits. Emphasis on applications of statistical methods. (F, Sp, Su)
- MATH 4773 Applied Regression Analysis 3 Credit Hours**
(Slashlisted with 5773) Prerequisite: 3333, 4733 or 4753 or any statistical probability course at an equivalent level. The general regression problem of fitting an equation involving a single dependent variable and several independent variables, estimation and tests of regression parameters, residual analysis, selecting the "best" regression equation. No student may earn credit for both 4773 and 5773. (Alt. F)
- MATH 4793 Advanced Applied Statistics 3 Credit Hours**
(Slashlisted with 5793) Prerequisite: 4743 or 4753 or equivalent. Survey of advanced applied statistical methods other than applied regression, including exploratory data analysis, analysis of multivariate data (principal components: analysis, multiple analysis of variance, cluster analysis, etc.), and introduction to non-parametric methods. No student may earn credit for both 4793 and 5793. (Alt. F)
- MATH 4803 Topics in Mathematics 3 Credit Hours**
Prerequisite: permission of instructor. May be repeated with change of content; maximum credit nine hours. Topics may include any area of mathematics; these will be substantial and fundamental subjects not offered in regular courses. (F, Sp, Su)
- MATH G4853 Introduction to Topology 3 Credit Hours**
Prerequisite: MATH 2433 or MATH 2924; and MATH 2513; or permission of instructor. Metric spaces and topological spaces, continuity, connectedness, compactness and related topics. (Sp)
- MATH 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- MATH 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- MATH 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied, permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Sp)

- MATH 5093 Applied Numerical Methods 3 Credit Hours**
(Slashlisted with MATH 4093) Prerequisite: graduate standing and MATH 2443 or MATH 2934, MATH 3113 or MATH 3413, MATH 3333 or MATH 4373, or permission of instructor. Numerical treatment of ordinary differential equations, numerical linear algebra and applications, basic numerical methods for partial differential equations. No student may earn credit for both MATH 4093 and MATH 5093. (Alt. Sp.)
- MATH 5103 Mathematical Models 3 Credit Hours**
Prerequisite: permission of instructor or admission to the M.S. program. May be repeated with change of content; maximum credit six hours. Mathematical models are formulated for problems arising in various areas in which mathematics has been applied. In each case, techniques are developed for analyzing the resulting mathematical problem, and this analysis is used to test the validity of the model. (Sp)
- MATH 5123 Fourier Transforms 3 Credit Hours**
(Slashlisted with MATH 4123) Prerequisite: graduate standing and MATH 2443 or 2934, MATH 3113 or MATH 3413, MATH 3333, or permission of the instructor. Fourier series, classical Fourier transform, discrete Fourier transform, distributions and Fourier transforms. Sampling and Shannon's Theorem. No student may earn credit for both 4123 and 5123. (F)
- MATH 5163 Partial Differential Equations 3 Credit Hours**
Prerequisite: 4163 or permission of instructor. First order equations, Cauchy problem for higher order equations, second order equations with constant coefficients, linear hyperbolic equations. (Sp)
- MATH 5173 Advanced Numerical Analysis I 3 Credit Hours**
Prerequisite: 4433, 4443 or permission of instructor. Topics may include: error analysis of numerical methods for optimization and initial value problems, numerical approximation of aspects of control problems. (Alt. F)
- MATH 5183 Advanced Numerical Analysis II 3 Credit Hours**
Prerequisite: 4433, 4443 or permission of instructor. Topics may include: analysis of spline approximations as a basis of the finite element method, error analysis for finite element approximation of elliptic and parabolic boundary value problems. (Alt. Sp)
- MATH 5253 Introduction to Mathematics Pedagogy Research 3 Credit Hours**
Prerequisite: Graduate standing in mathematics or permission of the instructor. This course is intended for students who will be consumers of mathematics education research as well as those who will be producers of this research. The course offers an overview of the mathematics pedagogy research process and a detailed survey of selected aspects of this process. Particular topics including reviewing existing mathematics teaching research literature, designing research studies, gathering research data, analyzing research data, and reporting pedagogical research. (F)
- MATH 5263 Issues and Problems in Mathematics Pedagogy 3 Credit Hours**
Prerequisite: graduate standing in mathematics or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Considers current issues and perennial problems in undergraduate mathematics teaching. Potential topics include, but are not limited to, use of technology in mathematics instruction, use of group work and other instructional strategies actively engaging students in Mathematics learning, the nature of mathematics learning, research-based practices in teaching undergraduate mathematics, issues of gender and diversity in undergraduate mathematics, the nature of the undergraduate mathematics curriculum. (Sp)
- MATH 5303 Topics in Group Theory 3 Credit Hours**
Prerequisite: 4323 or permission of instructor. May be repeated with change of content; Maximum credit 15 hours. Topics may include permutation groups, invariant subgroups, prime power groups, abelian groups, generators and relations, free groups, solvable and nilpotent groups, semi-direct products and extensions, automorphism groups, reflection groups, coxeter groups, crystallographic groups, matrix groups and representation group actions. (Irreg.)
- MATH 5333 Topics in Number Theory 3 Credit Hours**
Prerequisite: at least one mathematics course numbered above 3000, other than 4232. May be repeated with change of content; maximum credit nine hours. Topics may include congruencies, arithmetic functions, quadratic reciprocity, continued fractions, diophantine equations, primality testing, factorization methods, cryptography, quadratic forms and quadratic fields, computational number theory, additive number theory, coding theory, p-adic numbers. (Irreg.)
- MATH 5353 Abstract Algebra I 3 Credit Hours**
Prerequisite: 4323, permission of instructor. Groups, Sylow theorems, group actions, group presentations. Rings, ideals, polynomial rings, unique factorization. Fields, algebraic and transcendental extensions. (F)
- MATH 5363 Abstract Algebra II 3 Credit Hours**
Prerequisite: 5353. Galois theory, solvability. Modules over a principal ideal domain. Noetherian ideal theory. Group representations, semisimple rings. Classical groups. (Sp)
- MATH 5373 Abstract Linear Algebra 3 Credit Hours**
(Slashlisted with 4373) Prerequisite: 3333. Vector spaces over arbitrary fields, bases, dimension, linear transformations and matrices, similarity and its canonical forms (rational, Jordan), spectral theorem and diagonalization of quadratic forms. No student may earn credit for both 4373 and 5373. (F, Sp)
- MATH 5383 Applied Modern Algebra 3 Credit Hours**
(Slashlisted with MATH 4383) Prerequisite: MATH 3333. Topics from the theory of error correcting codes, including Shannon's theorem, finite fields, families of linear codes such as Hamming, Golay, BCH, and Reed-Solomon codes. Other topics such as Goppa codes, group codes, and cryptography as time permits. No student may earn credit for both 4383 and 5383. (Sp)
- MATH 5403 Calculus of Variations 3 Credit Hours**
Prerequisite: 4433 or 3423 or 4163. Linear spaces, global and local theories of optimization, necessary conditions for relative extrema of integrals. (Irreg.)
- MATH 5423 Complex Analysis I 3 Credit Hours**
Prerequisite: 4433. The complex numbers, topologies of the extended plane and related sphere, elementary functions, power series, properties of general holomorphic functions. The integral of a complex-valued function over an oriented rectifiable curve, the classical theorems on integrals, Taylor and Laurent expansions, analytic continuation, introduction to Riemann surfaces. (Alt. F)
- MATH 5443 Introduction To Analysis II 3 Credit Hours**
(Slashlisted with 4443) Prerequisite: 4433. Integration of functions of a single variable. Series of real numbers. Series of functions. Differentiation of functions of more than one variable. No student may earn credit for both 4443 and 5443. (Sp)
- MATH 5453 Real Analysis I 3 Credit Hours**
Prerequisite: 4433 or permission of instructor. Lebesgue measure and integration theory, absolutely continuous functions, metric spaces. (F)

- MATH 5463 Real Analysis II** **3 Credit Hours**
Prerequisite: 5453. General measure and integration theory, Banach spaces, topics from related areas. (Sp)
- MATH 5653 Introduction To Differential Geometry I** **3 Credit Hours**
(Slashlisted with MATH 4653) Prerequisite: graduate standing and MATH 2443 or MATH 2934, and MATH 3333, or permission of instructor. Elementary theory of curves and surfaces in three-dimensional Euclidean space, differentiable manifolds, Riemannian geometry of two dimensions, Gauss Theorem Egregium. No student may earn credit for both 4653 and 5653. (F)
- MATH 5673 Graph Theory I** **3 Credit Hours**
(Slashlisted with 4673) Prerequisite: 2513 or permission of instructor. An introduction to the theory of graphs. Topics include basic definitions, cutpoints, blocks, trees, connectivity and Menger's theorem. No student may earn credit for both 4673 and 5673. (F)
- MATH 5693 Topics in Geometry and Combinatorics I** **3 Credit Hours**
Prerequisite: permission of instructor. May be repeated with permission of instructor; maximum credit 12 hours. Topics may include convexity, combinatorial geometry, graph theory, or Riemannian geometry. (F, Sp, Su)
- MATH 5743 Introduction to Mathematical Statistics** **3 Credit Hours**
(Slashlisted with 4743) Prerequisite: 4733. Mathematical development of basic concepts in statistics: estimation, hypothesis testing, sampling from normal and other populations; regression, goodness of fit. No student may earn credit for both 4743 and 5743. (Sp)
- MATH 5763 Introduction to Stochastic Processes** **3 Credit Hours**
Prerequisite: 4733 or permission of instructor. Stochastic processes in discrete time including random walks, recurrent events, Markov chains and branching processes. Processes in continuous time including linear and nonlinear birth-death processes and diffusions. Applications taken from economics, engineering, operations research. (Irreg.)
- MATH 5773 Applied Regression Analysis** **3 Credit Hours**
(Slashlisted with 4773) Prerequisite: 3333, 4733 or 4753 or any statistical probability course at an equivalent level. The general regression problem of fitting an equation involving a single dependent variable and several independent variables, estimation and tests of regression parameters, residual analysis, selecting the "best" regression equation. No student may earn credit for both 4773 and 5773. (Alt. F)
- MATH 5793 Advanced Applied Statistics** **3 Credit Hours**
(Slashlisted with 4793) Prerequisite: 4743 or 4753 or equivalent. Survey of advanced applied statistical methods other than applied regression, including exploratory data analysis, analysis of multivariate data (principal components: analysis, multiple analysis of variance, cluster analysis, etc.), and introduction to non-parametric methods. No student may earn credit for both 4793 and 5793. (Alt. F)
- MATH 5803 Topics in Mathematics** **3 Credit Hours**
Prerequisite: permission of instructor. May be repeated with change of content; maximum credit fifteen hours. Topics may include any area of mathematics; these will be substantial and fundamental subjects not offered in regular courses. (F, Sp, Su)
- MATH 5853 Topology I** **3 Credit Hours**
Prerequisite: 2433 and 2513. Set theory, separation axioms, connectedness, compactness, continuity, metric spaces, nets and sequences. (F)
- MATH 5863 Topology II** **3 Credit Hours**
Prerequisite: 5853. Metrization, product and quotient spaces, function spaces, dimension theory, Hilbert spaces, homotopy, simplicial complexes, continua. (Sp)
- MATH 5900 Graduate Mathematics Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: six-hour mathematics sequence at the 5000+ level. May be repeated with change of content; maximum credit fifteen hours. Special background readings in advanced mathematical topics as preparation for later dissertation work. (F, Sp, Su)
- MATH 5920 Seminar--Algebra and Theory of Numbers** **1-2 Credit Hours**
1 to 2 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 12 hours. (F, Sp)
- MATH 5930 Seminar--Geometry and Topology** **1-2 Credit Hours**
1 to 2 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 12 hours. (F, Sp)
- MATH 5950 Seminar-Undergraduate Mathematics Curriculum & Pedagogy** **1-2 Credit Hours**
1 to 2 hours. May be repeated with change of content; maximum credit 12 hours. This seminar will explore the current research literature on undergraduate mathematics curriculum and pedagogy. (F, Sp)
- MATH 5960 Directed Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- MATH 5970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- MATH 5980 Research for Master's Thesis** **2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp)
- MATH 5990 Special Problems in Mathematics** **1-2 Credit Hours**
1 to 2 hours. An option for all candidates for the master's degree who do not present theses. (F, Sp, Su)
- MATH 6303 Literacy in Algebra** **3 Credit Hours**
Prerequisite: Graduate standing and MATH 5363; May be repeated with change of content; maximum credit 15 hours. This course will cover three independent advanced topics in the general area of Algebra. Some past topics have included: plane curves and singularities; introduction to buildings; invariant theory; representation stability; Morita theorems and Tannaka duality; computational commutative algebra; quiver representations; friezes; p-adic and motivic integration; introduction to algebraic analysis. (Irreg.)
- MATH 6333 Lie Theory I** **3 Credit Hours**
Prerequisites: 5363 and 5863 or permission of the instructor. Basic properties of Lie algebras, nilpotent and solvable Lie algebras, semi-simple Lie algebras, root systems and classification theorems. (Irreg.)
- MATH 6343 Lie Theory II** **3 Credit Hours**
Prerequisite: 6333 or permission of the instructor. Representation theory of semi-simple Lie algebras, Lie groups, connections between Lie groups and Lie algebras, structure theory and representation theory of compact Lie groups. (Irreg.)
- MATH 6373 Commutative Algebra** **3 Credit Hours**
Prerequisite: 4323, 4333, 5333 or permission of instructor. Commutative rings and their modules, ideals, prime ideals, Noetherian modules and rings, localization, principal and factorial rings, discrete valuation domains, Dedekind domains, integral ring extensions, dimension theory, tensor products, flat modules, the homofunctor, injective and projective modules, regular rings, Cohen-Macaulay rings. (Irreg.)

MATH 6383 Algebraic Geometry 3 Credit Hours

Prerequisite: 6373. Hilbert's Nullstellensatz, the correspondence between ideals and algebraic sets, Zariski topology, irreducible algebraic sets, ringed spaces, morphisms, affine varieties, algebraic varieties, regular maps, sub-varieties and products, bi-rational equivalence, local rings and tangent spaces, differentials, non-singular points. (Irreg.)

MATH 6393 Topics in Algebra 3 Credit Hours

Prerequisite: 5353 or permission of instructor. May be repeated with change of content; maximum credit 15 hours. Topics of modern research interest in algebra. (Irreg.)

MATH 6403 Literacy in Analysis 3 Credit Hours

Prerequisite: Graduate standing and MATH 5463; May be repeated with change of content; maximum credit 15 hours. This course will cover three independent advanced topics in the general area of Analysis. Some past topics have included: Sobolev spaces; C^* -algebras; analysis of partial differential operators; distributions; holomorphic functional calculus; interpolation spaces; symbolic dynamics; Hardy spaces; perturbation theory and fixed point theorems; regularity theory for elliptic PDE. (Irreg.)

MATH 6473 Functional Analysis I 3 Credit Hours

Prerequisite: 5463 or permission of instructor. Vector spaces with topology or norm, dual space, theorems on linear operators, spectral theory in Hilbert space, spectral decomposition of operators, convex sets and weak topologies, fixed point theorems. (Alt. F)

MATH 6483 Functional Analysis II 3 Credit Hours

Prerequisite: 6473. Banach algebras and harmonic analysis, representations of symmetric rings, unitary representations of a group, rings of operators in Hilbert space, decomposition of ring operators. Introduction to the theory of distributions. (Alt. Sp)

MATH 6493 Topics in Analysis 3 Credit Hours

Prerequisite: 5453 or permission of instructor. May be repeated with change of course content; maximum credit 15 hours. Topics of modern research interest in analysis. (F, Sp)

MATH 6673 Differential Geometry I 3 Credit Hours

Prerequisite: 5853 or permission of instructor. Multilinear algebra, differential manifolds, exterior differential forms, affine connections, Riemannian manifolds. (F)

MATH 6683 Differential Geometry II 3 Credit Hours

Prerequisite: 6673. Riemannian manifolds, theory of connections, bundles with classical groups as structure groups, curvature and Betti numbers, complex manifolds. (Sp)

MATH 6803 Literacy in Topology 3 Credit Hours

Prerequisite: Graduate standing and MATH 5863; May be repeated with change of content; maximum credit 15 hours. This course will cover three independent advanced topics in the general area of Topology. Some past topics have included: Mostow rigidity; group cohomology; curvature and topology; Morse theory; ergodicity of geodesic flow; Bass-Serre theory; deRham cohomology; introduction to mapping class groups; K-theory; geometry of metric spaces; the homeomorphism group of the circle; topology of 3-manifolds. (Irreg.)

MATH 6813 Algebraic Topology I 3 Credit Hours

Prerequisite: 5863. Introduction to homology theory of spaces, fundamental group and covering spaces, higher homotopy groups, CW-complexes and cellular homology, Whitehead and Hurewicz theorems, Eilenberg-Steenrod axioms. (F)

MATH 6823 Algebraic Topology II 3 Credit Hours

Prerequisite: 6813. Topics in cohomology and homology theory, universal coefficient theorems, orientation and duality on manifolds. Further topics may include: obstruction theory, cohomology operations, fibre bundles and characteristic classes, theory of sheaves, Eilenberg-MacLane spaces and Postnikov systems, spectral sequences. (Sp)

MATH 6833 Topics in Topology I 3 Credit Hours

Prerequisite: 5863. May be repeated with permission of instructor; maximum credit 15 hours. Topics may include algebraic topology, combinatorial topology, linear topological spaces, dimension theory, metrization, continua, decomposition spaces, topology of flat spaces. (F, Sp)

MATH 6910 Seminar--Analysis 1-2 Credit Hours

1 to 2 hours. Prerequisite: permission of the instructor. May be repeated with change of content; maximum credit 15 hours. Seminar on analysis and applied mathematics topics. (F, Sp)

MATH 6930 Seminar--Geometry and Topology 1-2 Credit Hours

1 to 2 hours. Prerequisite: permission of the instructor. May be repeated with change of content; maximum credit 12 hours. (F, Sp)

MATH 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

MATH 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

MATH 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

MATH 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Akin	Kaan		1984	ASSOCIATE PROFESSOR OF MATHEMATICS, 1988	PhD, Brandeis Univ, 1980; MA, Brandeis Univ, 1977; BA, Univ of Pennsylvania, 1975
Albert	John	P	1984	PROFESSOR OF MATHEMATICS, 2000	PhD, Univ of Chicago, 1989; MS, Univ of Chicago, 1984; BS, Univ of Santa Clara, 1978
Apanasov	Boris	N	1991	PROFESSOR OF MATHEMATICS, 1994	PhD, Acad of Pedagogical Science, 1976; MS, Novosibirsk State Univ, 1973; BA, Novosibirsk State Univ, 1971

Brady	Noel		1998	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2004; PROFESSOR OF MATHEMATICS, 2006	PhD, Univ of California-Berkeley, 1993; BA, Univ of Dublin-Trinity College, 1988
Chavez-Dominguez	Javier	A	2015	ASSISTANT PROFESSOR OF MATHEMATICS, 2015	PhD, Texas A&M Univ, 2012; MS, Univ Nacl Autonoma De Mexico, 2006; BS, Universidad de Guanajuato, 2006
Docampo Alvarez	Roi		2016	ASSISTANT PROFESSOR OF MATHEMATICS, 2016	PhD, Univ of Illinois, 2009; MS, Universidade de Compostela, 2003; Licenciatura, Universidade de Santiago de Compostela, 2001
Forester	Max	B	2003	PROFESSOR OF MATHEMATICS, 2014	PhD, Univ of Michigan, 1999; MS, Univ of Michigan, 1996; AB, Cornell Univ, 1992
Grigo	Alexander		2012	ASSISTANT PROFESSOR OF MATHEMATICS, 2012	PhD, Georgia Institute of Tech, 2009
Jablonski	Michael	R	2008	ASSOCIATE PROFESSOR OF MATHEMATICS, 2016	PhD, Univ of North Carolina, 2008; BS, Univ of Tennessee, 2002
Kornelson	Keri	A	2008	PROFESSOR OF MATHEMATICS, 2016	PhD, Univ of Colorado, 2001; MA, Univ of Colorado, 1997; BA, Univ of Maryland, 1995; BA, Univ of Colorado, 1989
Kramar	Miroslav		2019	ASSISTANT PROFESSOR OF MATHEMATICS	PhD, Vrije Universiteit Amsterdam, The Netherlands, 2009
Kujawa	Jonathan		2007	PROFESSOR OF MATHEMATICS, 2017	PhD, Univ of Oregon, 2003; MS, Univ of Oregon, 1999; BA, Gustavus Adolphus Coll, 1997
Lifschitz	Lucy		2001	ASSOCIATE PROFESSOR OF MATHEMATICS, 2005	PhD, Yale Univ, 1998; MS, Yale Univ, 1993; BS, Univ of California Los Angeles, 1991
Malestein	Justin		2015	ASSISTANT PROFESSOR OF MATHEMATICS, 2015	PhD, Univ of Chicago, 2009; BS, Univ of Michigan, 2004
Martin	Kimball	L	2007	PROFESSOR OF MATHEMATICS, 2016	PhD, California Inst of Tech, 2004; MS, Univ of Maryland, 1999; BS, Univ of Maryland, 1999
Mendes	Ricardo	A.E.		ASSISTANT PROFESSOR OF MATHEMATICS	PhD, Univ of Pennsylvania, 2011
Miller	Andrew	G	1981	DAVID ROSS BOYD PROFESSOR OF MATHEMATICS, 2012	PhD, Univ of Connecticut, 1981; MS, Univ of Connecticut, 1976; BS, Alfred, 1974
Moore-Russo	Deborah		2017	PROFESSOR OF MATHEMATICS, 2017	PhD, Univ of Oklahoma, 1995
Muller	Gregory		2017	ASSISTANT PROFESSOR OF MATHEMATICS, 2017	PhD, Cornell Univ, 2010; BA, Rutgers Univ, 2004
Ozaydin	Murad		1988	PROFESSOR OF MATHEMATICS, 2001	PhD, Purdue Univ, 1984; BS, Middle East Tech Univ Ankara, 1976
Petrov	Nikola	P	2005	NANCY SCOFIELD HESTER PRESIDENTIAL PROFESSOR, 2014; PROFESSOR OF MATHEMATICS, 2014; ADJUNCT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2014	PhD, Univ of Texas, 2002; MA, Univ of Texas, 2002; BS, Univ of Sofia, 1990
Pitale	Ameya		2010	ASSOCIATE PROFESSOR OF MATHEMATICS, 2014	PhD, Ohio State Univ, 2006; MS, Indian Inst of Tech, 2000
Przebinda	Tomasz		1990	PROFESSOR OF MATHEMATICS, 1999	PhD, Yale Univ, 2987; MS, Wroclaw Tech, 1980
Remling	Christian		2005	PROFESSOR OF MATHEMATICS, 2012	PhD, Universitat Osnabruck, 1996; MA, Universitat Frankfurt, 1992
Roche	Alan	J	2001	ASSOCIATE PROFESSOR OF MATHEMATICS, 2005	PhD, Univ of Chicago, 1996; MSc, Univ College of Dublin, 1998; BSc, Univ College of Dublin, 1987
Savic	Milos		2013	ASSOCIATE PROFESSOR OF MATHEMATICS, 2018	PhD, New Mexico State Univ, 2012; BS, Ball State, 2004
Schmidt	Ralf		2004	NANCY SCOFIELD HESTER PRESIDENTIAL PROFESSOR, 2010; PROFESSOR OF MATHEMATICS, 2012	PhD, Universität Hamburg, 1998; Universität Münster, 1994
Shankar	Krishnan		2002	PROFESSOR OF MATHEMATICS, 2011; NANCY SCOFIELD HESTER PRESIDENTIAL PROFESSOR, 2018	PhD, Univ of Maryland, 1999; BA, Reed College, 1993
Stewart	Sepideh		2012	ASSOCIATE PROFESSOR OF MATHEMATICS, 2018	PhD, Univ of Auckland, 2008; MS, Univ of Auckland, 2000; BS, Univ of Auckland, 1998
Tao	Jing		2012	ASSOCIATE PROFESSOR OF MATHEMATICS, 2018	PhD, Univ of Illinois, 2009; BS, Univ of Illinois, 2001
Wang	Ying		2013	ASSISTANT PROFESSOR OF MATHEMATICS, 2013	PhD, Ohio State Univ, 2010; MS, Georgia Inst of Tech, 2005; BS, National Univ of Singapore, 2001

Wei	Shihshu	W	1985	PROFESSOR OF MATHEMATICS, 1997	PhD, Univ of California Berkeley; MS, Washington, 1974; BS, Tamking, 1972
Wu	Yilun		2018	ASSISTANT PROFESSOR OF MATHEMATICS, 2018	PhD, Univ of Michigan, 2014; BS, Fudan Univ, 2008
Zhang	Pengfei		2017	ASSISTANT PROFESSOR OF MATHEMATICS, 2017	PhD, Univ of Science & Tech, 2011; BS, Univ of Science & Tech; 2006
Zhu	Meijun		1999	PROFESSOR OF MATHEMATICS, 2008	PhD, Rutgers, 1996; MS, Univ of Science and Tech, 1992; BS, Peking Univ, 1988

Mathematics (Standard Option), B.A.

Minimum Total Credit Hours: 120

Major Hours: 36

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B670

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements
- Students must earn a grade of C or better in all MATH courses at the 3000-level or higher.

Code	Title	Credit Hours
Choose one of the following sequences:		12
Sequence A:		
MATH 1823	Calculus and Analytic Geometry I	
MATH 2423	Calculus and Analytic Geometry II	
MATH 2433	Calculus and Analytic Geometry III	
MATH 2443	Calculus and Analytic Geometry IV	
Sequence B:		
MATH 1914	Differential and Integral Calculus I	
MATH 2924	Differential and Integral Calculus II	
MATH 2934	Differential and Integral Calculus III	
MATH 2513	Discrete Mathematical Structures	3
MATH 3333	Linear Algebra I	3
MATH 3113	Introduction to Ordinary Differential Equations ¹	3
	or MATH 3413 Physical Mathematics I	
Choose four additional math courses at the 3000-level or higher, including nine hours at the 4000-level or higher ²		12
MATH 4513	Senior Mathematics Seminar	3
Total Credit Hours		36

¹ MATH 3113 and MATH 3413 overlap by 2 hours. Students who take both will earn only 4 hours of credit.

² No more than 6 hours may be from MATH 4733, MATH 4743, MATH 4753, MATH 4773, and MATH 4793.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gedned/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
	or EXPO 1213 Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>		
	Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
	Choose one course from the General Education Social Science list	3
Core Area IV: Arts and Humanities (18 hours)		
<i>Artistic Forms</i>		
	Choose one course from the General Education Artistic Forms list	3
<i>Western Culture</i>		
HIST 1483	United States to 1865	3
	or HIST 1493 United States, 1865 to the Present	
	Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)	3
<i>World Culture</i>		
	Choose one course from the General Education World Culture list	3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>		

Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Core Area V: First Year Experience (3 hours)	
Choose one course	3
Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Mathematics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Mathematics major requirements.

Freshman		
First Semester		
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1823	Calculus and Analytic Geometry I (Core I)	3
P SC 1113	American Federal Government (Core III)	3
First Year Experience (Core V)		3
Beginning Language (Core I)		5
Credit Hours		17

Second Semester		
ENGL 1213	Principles of English Composition (Core I)	3
or EXPO 1213	or Expository Writing	
HIST 1483	United States to 1865 (Core IV)	3
or HIST 1493	or United States, 1865 to the Present	
MATH 2423	Calculus and Analytic Geometry II	3
Beginning Language continued (Core I)		5
Credit Hours		14

Sophomore		
First Semester		
MATH 2433	Calculus and Analytic Geometry III	3
MATH 2513	Discrete Mathematical Structures	3
Intermediate Language		3
Western Culture (Core IV)		3
Natural Science without lab (Core II)		3
Credit Hours		15

Second Semester		
MATH 2443	Calculus and Analytic Geometry IV	3
MATH 3333	Linear Algebra I	3
Natural Science with lab (Core II)		4
Social Science (Core III)		3
Artistic Forms (Core IV)		3
Credit Hours		16

Junior		
First Semester		
MATH 3113	Introduction to Ordinary Differential	3
or MATH 3413	Equations	
	or Physical Mathematics I	
MATH 4000-level Elective ¹		3
Arts & Humanities, upper-division, outside major (Gen. Ed.)		3
Free Elective, lower- or upper-division		3
Free Elective, lower- or upper-division		1
Credit Hours		13

Second Semester		
MATH 4000-level Elective ¹		3
Arts & Humanities, upper-division, outside major (Gen. Ed.)		3
World Culture (Core IV)		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		15

Senior		
First Semester		
MATH 3000-4000-level Elective ¹		3
MATH 4000-level Elective ¹		3

Free Elective, lower- or upper-division	3
Free Elective, upper-division (3000-4000-level)	3
Free Elective, upper-division (3000-4000-level)	3
Credit Hours	15

Second Semester

MATH 4513 Senior Mathematics Seminar	3
Free Elective, upper-division (3000-4000-level)	3
Free Elective, upper-division (3000-4000-level)	3
Free Elective, upper-division (3000-4000-level)	3
Free Elective, upper-division (3000-4000-level)	3
Credit Hours	15
Total Credit Hours	120

¹ MATH electives are subject to the restrictions listed in the Program Requirements.

Mathematics (Professional Option), B.S.

Minimum Total Credit Hours: 120

Major Hours: 39

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B671

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- Students must earn a grade of C or better in all MATH courses at the 3000-level or higher.

	or MATH 4443 Introduction to Analysis II	
MATH 4513	Senior Mathematics Seminar	3
Total Credit Hours		39

¹ MATH 3113 and MATH 3413 overlap by 2 hours. Students who take both will earn only 4 hours of credit.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/genesd/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
	or EXPO 1213 Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>		
	Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
	Choose one course from the General Education Social Science list	3
Core Area IV: Arts and Humanities (18 hours)		
<i>Artistic Forms</i>		
	Choose one course from the General Education Artistic Forms list	3
<i>Western Culture</i>		
HIST 1483	United States to 1865	3
	or HIST 1493 United States, 1865 to the Present	
	Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)	3

<i>World Culture</i>	
Choose one course from the General Education World Culture list	3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>	
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Core Area V: First Year Experience (3 hours)	
Choose one course	3
Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Mathematics academic advisors to verify that courses selected each semester fulfill

the recommended plan and satisfy University, College of Arts and Sciences, and Mathematics major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1823	Calculus and Analytic Geometry I (Core I)	3
P SC 1113	American Federal Government (Core III)	3

Total Credit Hours	120
---------------------------	------------

Mathematics, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N670

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Mathematics.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Mathematics, including MATH 2443 or MATH 2934 and nine (9) hours of upper-division level Math, six (6) of which must be at the 4000-level or higher. Three (3) hours of either MATH 3960 or MATH 3970 (not both) may be substituted for three (3) hours at the 4000-level or higher.

A grade of C or better must be earned in each upper division course counted for minor credit.

Code	Title	Credit Hours
Choose one math course acceptable for major credit		3
MATH 2443	Calculus and Analytic Geometry IV	3
or MATH 2934	Differential and Integral Calculus III	

Select 9 hours of upper-division Math courses, including at least 6 hours in courses at the 4000-level or higher	9
--	---

Total Credit Hours	15
---------------------------	-----------

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Mathematics, B.A./M.B.A.

Minimum Total Credit Hours: 156

Major Hours: 36

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 3.00

Major GPA - Combined and OU: 3.00

Program Code: A669/F140 Q439

Undergraduate Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements
- Students must earn a grade of C or better in all MATH courses at the 3000-level or higher.

Code	Title	Credit Hours
Choose one of the following sequences:		12
Sequence A:		
MATH 1823	Calculus and Analytic Geometry I

ENT 5102	Entrepreneurship & Innovation	
Electives (20 hours)		
Choose 14 hours of M.B.A. elective coursework. (p. 518)		14
Choose 6 hours of graduate level Math electives, approved by the Graduate Liaison (BA/MBA shared hours) (p. 518)		6
Total Credit Hours		48

¹ A student who actively and satisfactorily participates in all Prelude activities will receive a grade of 'S'. A student who does not satisfactorily participate in 75% of Prelude Week will be required to participate in a make-up session within the first two weeks of the semester. Failure to complete a make-up session will result in a grade of 'U', resulting in cancellation of the student's enrollment in the MBA program.

² Must make a grade of 'B' or better in B AD 5902 or it must be repeated. This is the capstone course and serves in lieu of the comprehensive examination. This requirement is non-waivable.

³ Shared Courses: Up to 12 hours of graduate level courses from a list maintained by the department and approved by the graduate liaison can be shared between BA and MBA programs. (p. 518)

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/genes/courses>. **Courses graded P/NP will not apply.**

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with

Dodge College of Arts and Sciences and/or Department of Mathematics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Mathematics major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1823	Calculus and Analytic Geometry I (Core I)	3
P SC 1113	American Federal Government (Core III)	3
First Year Experience (Core V)		3
Beginning Language (Core I)		5

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Mathematics, M.S.

Minimum Total Hours (Thesis): 32

Minimum Total Hours (Non-Thesis): 32

Program Code: M671

Required Courses

Degree coursework must include at least two courses taken at the 4000 level or higher, from outside the mathematics department, which use mathematics beyond elementary calculus.

NOTES

- Each student *not writing a thesis* will pass a comprehensive examination over material to be determined by the Applied Math Committee.
- A maximum of 9 hours of coursework outside the Mathematics department can be applied to the degree.
- No course below the 4000 level can be applied to the degree.
- No more than 9 hours of coursework in Mathematics can be below the 5000 level, and at most 12 hours of G4000 level coursework total.
- Twelve hours must be in the Mathematics department at the 5000 level or higher.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Mathematics, Ph.D.

Minimum Total Hours: 90

Program Code: D670

Program Requirements

- The Mathematics Ph.D. requires 90 hours of graduate credit beyond the baccalaureate degree, of which 2 hours may be by MATH 5980 or MATH 5990.
- Seminars and colloquia are expected in addition to regular coursework.

Code	Title	Credit Hours
A sequence of 12 hours numbered above 5000 level (including seminars) in one of the major areas of mathematics, or in the area of RUME (Research in Undergraduate Mathematics Education)		12
At least 18 hours of additional coursework in mathematics above 5000 level		18
Tools of research as determined and monitored by student's PhD Advisory Committee, including but not limited to: reading proficiency in a foreign language, proficiency in a programming language, or IRB training.		
Electives and dissertation hours (MATH 6980) as determined by the student's advisory committee to reach 90 hours beyond the baccalaureate		60
A dissertation representing an original contribution to mathematical knowledge or to RUME		
Total Credit Hours		90

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

Medieval and Renaissance Studies

Joyce Coleman, Director
318 Cate Center Dr.
Norman, OK 73019
Phone: (405) 325-6220
FAX: (405) 325-0831
joyce.coleman@ou.edu
www.ou.edu/cas/cmrs

Center for Medieval & Renaissance Studies

The Center for Medieval & Renaissance Studies, a division of the Dodge College of Arts & Sciences at the University of Oklahoma, promotes the study of the period in Western history that saw the development of such major components of modern life as parliamentary democracy, the nation-state, English and other modern languages, printing, Islam, global exploration, heliocentric astronomy, romantic love—and the universities in which we research and teach all these subjects.

By supporting our faculty and students, sponsoring brown-bag talks, and cosponsoring a free public lecture series with the Medieval Fair of Norman, OU's Center for Medieval & Renaissance Studies seeks to enrich the intellectual environment for medievalists and early modernists on campus and across the region.

Programs & Facilities

OU Special Collections

The fifth floor of OU's Bizzell Memorial Library houses a world-class History of Science collection along with the Nichols Collection, the Bizzell Bible Collection, and the Bass Business Collection.

Minor

The Medieval & Renaissance Studies Minor (p. 526) allows students to pursue an interdisciplinary study of literature, language, history, history of science, art, architecture, and religion. It is an attractive opportunity for students who wish to gain further understanding of medieval and Renaissance culture beyond the traditional disciplinary parameters. Fascinating in their diversity, medieval and Renaissance arts, literature, history, science, and philosophy offer rich material for study in their own right and also reveal the foundations upon which the achievements of subsequent periods were built.

No major in Medieval and Renaissance Studies is offered; students wishing to concentrate on these areas of study are best served by majoring in another humanities discipline while pursuing a Medieval and Renaissance Studies minor.

Courses

MRS 3023 Exploring Medieval and Renaissance Studies 3 Credit Hours

Prerequisite: junior standing or above, or permission of instructor. Provides an overview of the history, literature, art, and music of the Middle Ages and Renaissance, including hands-on work with medieval manuscripts and early printed books. This course will be taught by a series of faculty lecturing in their area of expertise, coordinated by a faculty member who will be present at every class and will serve as instructor of record. (Irreg.)[IV-WC] .

MRS 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

MRS 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

MRS 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

MRS 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

MRS 3990 Independent Study 1-3 Credit Hours

Prerequisite: junior standing or above and permission of instructor. May be repeated; maximum credit six hours. Independent study on a topic in medieval and/or Renaissance studies. (F, Sp)

MRS 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

MRS 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MRS 4990 Independent Study 1-3 Credit Hours

Prerequisite: junior standing or above and permission of instructor. May be repeated; maximum credit six hours. Independent study on a topic in medieval and/or Renaissance studies. (F, Sp)

Medieval & Renaissance Studies, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 9

Program Code: N679

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Courses on Medieval and Renaissance topics not listed here may count towards the MRS minor if approved, in writing, by the MRS advisor.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level, and six (6) hours from each of the three core areas, from the approved courses listed. No more than three (3) of the 18 hours may be earned in Independent Study courses (MRS 3990 or MRS 4990).

See <http://www.ou.edu/cas/cmrs/minor> for a full listing of course numbers and names. See <http://www.ou.edu/cas/cmrs/courses> for listing of courses currently being taught, recently taught, or scheduled for the next semester.

The following MRS courses may count in any appropriate area, as approved by the advisor: MRS 3023, MRS 3990, MRS 4990.

General Information

The Department of Modern Languages, Literatures, and Linguistics (MLLL) plays a key role in bringing the world to OU and OU to the world. Thus, MLLL is dedicated to upholding OU's mission of excellence through research and teaching in the humanities.

The MLLL faculty teaches fundamental linguistic skills and provides the intellectual training to contextualize cross-cultural experiences. We also emphasize the significance of literary and cultural traditions, as developed through history, for human self-understanding. At the graduate level, master's and doctoral students combine advanced courses in literature, culture, theory, and methodology with supervised pre-professional training. Consequently, our programs are designed to

prepare the next generation of researchers, teachers, and professionals, whose expertise builds upon modern languages, literatures, and cultures.

MLLL is home to scholars in literature, cultural studies, film, second language acquisition, and linguistics. Our faculty produces and disseminates knowledge in the humanities and advances critical humanistic research in international fields through the publication of numerous books and articles, active engagement in national and international professional organizations, and participation in conferences across the continents. The faculty commitment to research is intimately connected with our teaching, and subsequently, we incorporate the latest innovations in our courses. Hence, MLLL is resolutely committed to OU's mission to lead in research.

Through our engagement with critical inquiry, teaching, and service to the community, the Department of Modern Languages, Literatures, and Linguistics strives to fulfill OU's primary missions to achieve excellence and to value world cultures.

Programs & Facilities

Programs for Academic Excellence

Students are encouraged to study abroad as an enhancement to their degree programs. Summer or semester and year-long exchange programs in South America, Europe, Asia, and Africa are available to all students.

Special Facilities

The Language Learning Center is a state-of-the-art computer facility that provides technology, resources, and an engaging environment in which students, faculty, instructors, and visitors are supported in their language acquisition pursuits. The Learning Center boasts a large library of digitized listening files, web activities, language-learning software, and video/DVD materials. Listening materials and web activities are available to students in the Learning Center and via the remote connection.

Scholarships and Financial Aid

The Department of Modern Languages, Literatures, and Linguistics offers a variety of funding opportunities to students who choose to major or minor in one or more modern languages. MLLL students apply for all department scholarships online through the CASH website at scholarships.ou.edu.

Graduate assistantships are available through the department. All graduate assistants are required to enroll in MLLL 4813 during their first semester. In addition, graduate assistants are required to enroll in a minimum of six credit hours of graduate-level courses per semester.

Undergraduate Study

Bachelor of Arts Degree

The department offers the Bachelor of Arts degree with majors in Arabic, Chinese, French, German, Italian, Japanese, Russian, Spanish and Linguistics. Beginning language courses do not count toward the major. In the second year, students focus on improving the basic skills of speaking, understanding, reading, and writing while gaining some exposure to the culture and the literature of the language. The third year generally focuses on improving conversation skills and pronunciation, acquiring a stronger understanding of the grammatical rules of the language, and reading a limited number of complete literary works. In the senior year, majors study civilization and literature from its origins to the modern era.

The department also offers Minors in Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Linguistics, Portuguese, Russian and Spanish.

- Arabic, B.A. (p. 552)
- Chinese, B.A. (p. 554)
- French, B.A. (p. 556)
- German, B.A. (p. 558)
- Italian, B.A. (p. 560)
- Japanese, B.A. (p. 563)
- Linguistics, B.A. (p. 565)
- Russian, B.A. (p. 567)
- Spanish, B.A. (p. 570)
- Arabic, Minor (p. 572)
- Chinese, Minor (p. 572)
- French, Minor (p. 573)
- German, Minor (p. 573)
- Hebrew, Minor (p. 574)
- Italian, Minor (p. 574)
- Japanese, Minor (p. 575)
- Linguistics, Minor (p. 575)
- Portuguese, Minor (p. 576)
- Russian, Minor (p. 576)
- Spanish, Minor (p. 577)

Course Placement

Students who have completed two or more years of high school language and who wish to continue their language study at the University will be placed in appropriate courses based on their scores in the proficiency exam. Placement exams are administered during pre-enrollment periods as well as during regular enrollment periods.

Native Speaker Policy

For departmental purposes, the Department of Modern Languages, Literatures, and Linguistics defines a native speaker of a language as any individual who has been raised in a family and a society where this language is habitually used for everyday communication and is the language of instruction in the student's school system. A native speaker may not enroll in any undergraduate skills course in his or her native language, with the single exception of the course in Advanced Composition 3423, but may earn credit by advanced standing exams.

Graduate Study

Master of Arts Degree

Master of Arts degrees in French, German, and Spanish are offered in both a thesis and a non-thesis program.

- French, Master of Arts (p. 577)
- German, Master of Arts (p. 578)
- Spanish, Master of Arts (p. 578)
- TESOL, Master of Arts (p. 579)

Doctoral Programs

Doctoral degrees are offered in French (p. 579) and Spanish (p. 580).

Before completion of the degree, students must demonstrate reading competency in a second language. In order to do so, they may take the

departmental Graduate Reading Exam or complete two semesters or ten hours in another language.

A general examination based on coursework and a reading list established in consultation with the student's committee members is required for the Ph.D.

See Spanish Ph.D. Exam and Dissertation and French Ph.D. Exam and Dissertation for details on the Ph.D. examination and dissertation guidelines.

Courses

ARAB 1115 Beginning Arabic 5 Credit Hours

Aims at developing mastery of Arabic phonology and script, control of basic vocabulary, grammar, basic communicative situations, and cultural concepts explicitly expressed in the language. Listening and speaking are emphasized from the very beginning. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F) [I-FL].

ARAB 1225 Beginning Arabic Continued 5 Credit Hours

Prerequisite: 1115. Focuses on all language skills (listening, speaking, reading, and writing), including developing the ability to interact successfully in basic communicative situations. Short texts and topics of general import as well as cultural concepts embedded in the language will be covered. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (Sp) [I-FL].

ARAB 2013 Colloquial Arabic 3 Credit Hours

Prerequisite: ARAB 1225. May be repeated once with a change of topic (dialect); maximum credit 6 hours. Develops communicative functional abilities, in particular speaking and listening, in one of the regional spoken dialects of the Arab world. The direct connection between the colloquial dialect taught and Modern Standard Arabic will be explored. Relevant aspects of local culture will be covered, as well as the cultural appropriateness of communicative functions introduced. (F, Sp)

ARAB 2113 Intermediate Arabic 3 Credit Hours

Prerequisite: ARAB 1225. Aims at developing language skills (listening, speaking, reading and writing) at the intermediate level, with more emphasis on reading and writing. Expands into more complex structures, wider communicative situations and vocabulary relating to practical, social, cultural and media topics. (F)

ARAB 2223 Intermediate Arabic Continued 3 Credit Hours

Prerequisite: ARAB 2113; ARAB 2013 or concurrent enrollment. Continues developing language skills (listening, speaking, reading and writing) at the intermediate level, with more emphasis on reading and writing. Continues to expand into more complex structures, wider communicative situations and vocabulary relating to practical, social, cultural and media topics. (Sp)

ARAB 2970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ARAB 3113 Advanced Arabic 3 Credit Hours

Prerequisite: 2223. Students are expected to read, listen to, and understand the content and intent of a variety of authentic texts; write at the paragraph level; and participate in formal and informal discussion on social and professional topics. (F)

- ARAB 3223 Advanced Arabic (Continued) 3 Credit Hours**
Prerequisite: 3113. Students are expected to read, listen to, and understand the content and intent of a variety of authentic texts; write at the paragraph level; and participate in formal and informal discussion on social and professional topics. (Sp)
- ARAB 3423 Advanced Arabic Composition 3 Credit Hours**
Prerequisite: ARAB 2223. Instruction in proper writing habits at an advanced level, toward the achievement of idiomatic formal Arabic. Focuses on writing in Arabic for personal, professional and academic needs. Develops the ability to narrate and describe in the different Arabic tenses (past, present and future), narrate and describe with a sufficient control of aspect (indicating whether an action is completed), write summaries of familiar topics, combine sentences into texts of paragraph length, and use cohesive devices properly. (F)
- ARAB 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- ARAB 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers topics not usually presented in the regular courses.
- ARAB 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses.
- ARAB 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- ARAB 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- ARAB 4413 Arabic Structure 3 Credit Hours**
Prerequisite: 3223. Detailed explanations of the structure of the Arabic language at both the theoretical and pedagogical levels. The different phonological, morphological, and syntactic rules are presented and discussed holistically, combining both form and function, to achieve adequate knowledge of Arabic structure. The course is conducted mostly in Arabic. (F)
- ARAB 4433 Arabic Media and Politics 3 Credit Hours**
Prerequisite: 3223. Exposes students to various types of mass media covering contemporary political, economic, historical, and social issues in the Arab world. Sociolinguistic features of news reports are examined to understand the content, political underpinnings, and the framing or packaging techniques used in media discourse. The course is conducted entirely in Arabic. (F)
- ARAB 4443 Readings in Islamic Religious Texts 3 Credit Hours**
Prerequisite: 3223. Representative texts in Arabic from the Qur'an, Qur'anic Exegesis, Prophetic Hadith, Prophet Muhammad's biographies, and legal, mystical, and theological treatises. The objectives are to understand major Islamic doctrines, and themes, and to develop working knowledge of genre specific vocabulary and style. Class is conducted in Arabic. (Sp)
- ARAB 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- ARAB 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ARAB 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: four courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- ARAB 4993 Readings in Contemporary Arab Culture 3 Credit Hours**
Prerequisite: ARAB 4413 and ARAB 4433. Deeper understanding of major cultural issues by examining critical texts of intellectual figures throughout the contemporary Arab world. Prepares students to write their final project in Arabic, and provides opportunities for developing their language skills further for adequate mastery of the language. Course is conducted entirely in Arabic. (Sp) [V] .
- CHIN 1115 Beginning Chinese 5 Credit Hours**
An elementary course in understanding, speaking, reading and writing Mandarin Chinese. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F) [I-FL].
- CHIN 1225 Beginning Chinese (Continued) 5 Credit Hours**
Prerequisite: 1115. Continued training in understanding, speaking, reading and writing elementary Mandarin Chinese. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (Sp) [I-FL].
- CHIN 2113 Intermediate Chinese 3 Credit Hours**
Prerequisite: 1225. Combination of basic Chinese grammar and vocabulary and their application to spoken and written Mandarin Chinese. (F)
- CHIN 2223 Intermediate Chinese (Continued) 3 Credit Hours**
Prerequisite: 2113. Continued training in the use of grammar and vocabulary in both spoken and written Mandarin Chinese. (Sp)
- CHIN 2323 Intermediate Listening and Speaking 3 Credit Hours**
Prerequisite: permission of department. Serves as the prerequisite for Chinese 3113 (Advanced Chinese I.) Assignments and class activities include immersion in daily family-type communication, conversations and functioning in daily business activities, travel and functioning at the intermediate proficiency level. Upon completion, students will have developed the languages skills that will allow them to function with most daily situations in a Chinese-speaking country. (F, Sp)

- CHIN 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- CHIN 3113 Advanced Chinese I 3 Credit Hours**
Prerequisite: CHIN 2223 and CHIN 2323 or equivalent. An integrated advanced course designed to improve skills in the four aspects of learning Mandarin Chinese as a foreign language: listening, speaking, reading, and writing. Emphasis is on the phonetics of standard Mandarin Chinese and conversation on topics in daily life. (F)
- CHIN 3223 Advanced Chinese II 3 Credit Hours**
Prerequisite: 3113 or equivalent. Continue to improve skills in the four aspects of learning Mandarin Chinese as a foreign language: listening, speaking, reading, and writing. Emphasis on composition and advanced-level reading comprehension. (Sp.)
- CHIN 3323 Advanced Listening and Speaking 3 Credit Hours**
Prerequisite: 2223. Develops listening and speaking skills of students who have taken intermediate Chinese. Conversations are presented in authentic and naturally-paced language. Lessons are constructed to support existing knowledge and develop mastery of new vocabulary, grammatical patterns, and sociocultural formalities in ways that are compatible with genuine communication. (F)
- CHIN 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- CHIN 3623 Business Chinese 3 Credit Hours**
Prerequisite: permission of department. Designed for students who have completed at least two years basic Chinese language learning and have an interest in business-related communications with Chinese-speaking people. Aims to prepare students with the language skills and cultural knowledge for a globalized economy through learning the vocabulary, usages, customs and conventions required for business activities with China. (F)
- CHIN 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- CHIN 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- CHIN 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- CHIN 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: two courses in Chinese; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)
- CHIN 4113 Advanced Reading and Writing 3 Credit Hours**
Prerequisite: 3223. Advanced reading and comprehension of authentic Chinese texts. Development of good writing skills with correct usage of grammar. (Sp)
- CHIN 4333 Translating Chinese 3 Credit Hours**
Prerequisite: CHIN 3113. Assists advanced Chinese major or minor students attain better Chinese-to-English translation skills through practical training and hands-on instruction. The emphasis is on comprehension of original Chinese texts, with particular attention to idioms and expressions. (Irreg.)
- CHIN 4533 Learning Chinese through Media 3 Credit Hours**
Prerequisite: CHIN 3113 or equivalent. Intended for advanced students to enhance their reading/listening proficiency in modern Chinese language and further develop their self-learning skills. Students will be immersed in a simulacrum of Chinese media by reading Chinese news reports; watching Chinese news videos, short films, and TV programs; and using the Chinese encyclopedia. (F)
- CHIN 4543 Study of Classical Chinese and Calligraphy 3 Credit Hours**
Prerequisite: CHIN 3223. Major aspects covered include 1) grammatical structures of classical Chinese compared to modern Chinese; 2) lexical and semantic features of most commonly used words and phrases; 3) reading and understanding of simple texts from the classics; 4) cultural perspectives to appreciate Chinese heritage texts, paintings and calligraphy. (F)
- CHIN 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- CHIN 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- CHIN 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: four courses in Chinese and general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- CHIN 4993 Senior Capstone for Chinese 3 Credit Hours**
Prerequisite: Senior standing or permission of instructor. Designed to serve as the senior capstone experience for the Chinese major. Students will study linguistic theory, technique, and methodology. Includes reading in critical analysis as preparation for writing assignments and final project to be written in Chinese. (F) [V].
- FR 1115 Beginning French 5 Credit Hours**
An elementary course in understanding, speaking, reading and writing French. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].

- FR 1225 Beginning French (Continued) 5 Credit Hours**
Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing French. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].
- FR 2113 Intermediate French 3 Credit Hours**
Prerequisite: 1225. The systematic cultivation of increased depth and control in the basic skills of listening, speaking, reading and writing French. Laboratory (F, Sp, Su)
- FR 2223 Intermediate French (Continued) 3 Credit Hours**
Prerequisite: 2113. The systematic cultivation of increased depth and control in the basic skills of listening, speaking, reading and writing French. Laboratory (F, Sp, Su)
- FR 2243 French Conversation and Literature 3 Credit Hours**
Prerequisite: 2113 or 2133. Conversation practice based on modern literary texts, with the objective of improving reading speed, vocabulary and comprehension, and increased oral fluency, while obtaining an expanded appreciation of French literary texts. (F, Sp, Su)
- FR 2253 Health, Medicine, and the Environment in French Culture 3 Credit Hours**
Prerequisite: FR 2223 or concurrent enrollment, or FR 2243. This second-year French class teaches about key issues in health, medicine, and the environment, so that students develop functional cultural and linguistic fluency about French-speaking populations in relation to the topics under study. Issues of global and personal health, medicine, and the human relationship with nature, ecology and the environment are essential topics for our era. (F, Sp)
- FR 2970 Special Topics 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- FR 3083 Advanced French Conversation and Phonetics 3 Credit Hours**
Prerequisite: 2243 or concurrent enrollment. Intensive practice in speaking French on topics of everyday life; development of specialized vocabularies; fundamentals of French phonetics. (F, Sp)
- FR 3423 Advanced French Composition 3 Credit Hours**
Prerequisite: FR 2133 or FR 2243 or FR 2263. The inculcation of proper writing habits, at an advanced level, toward the achievement of idiomatic French. (Sp, Su)
- FR 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- FR 3623 Business French 3 Credit Hours**
Prerequisite: two years of college French or equivalent. Focuses on terms and expressions used in business settings. Designed to impart an awareness of the differences between French and American business cultures. (F)
- FR 3723 French for the Professions 3 Credit Hours**
Prerequisite: two years of college French or equivalent. Introduces students to vocabulary in sectors such as advertising, marketing, transportation, medicine, and law. French professional and business cultures are studied. Communication skills for professional and business settings will be practiced in this course. (Sp)
- FR 3753 French Culture Through Film 3 Credit Hours**
Prerequisite: 2243 or concurrent enrollment. This course deals with contemporary French culture through the medium of cinema. Topics examined include family, education, religion and societal issues, and ethnicity. As a course taught in French, it will also focus on regional accents and generational and ethnic speech. (F)
- FR 3853 Introduction to Literary Analysis 3 Credit Hours**
Prerequisite: 2223. Designed to introduce students to the language and technique of literary analysis. Also serves to improve reading skills generally, as well as oral/aural and written skills. Representative works from the various literary genres will be studied. (Sp, Su)
- FR 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp)
- FR 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. Will deal with concepts not usually presented in regular coursework. (F, Sp, Su)
- FR 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F)
- FR 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- FR G4153 Survey of French Literature to 1800 3 Credit Hours**
Reading and discussion of major French works and their background from the Middle Ages to the French Revolution. (F, Su)
- FR G4163 Survey of French Literature (Continued) 3 Credit Hours**
Prerequisite: 4153 or permission. Reading and discussion of major French works and their background from 1800 to the present day. (Sp, Su)
- FR 4313 From Lascaux to la Terre 3 Credit Hours**
Prerequisite: FR 3423; HIST 1223 or 1233. The political and social background of French literature from its beginning to the French revolution. (F, Su)
- FR 4323 The Making of Modern French Culture 3 Credit Hours**
Prerequisite: FR 3423; HIST 1223 or HIST 1233. The political and social background of French literature from the French revolution to the present day. (Sp)

- FR 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- FR 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- FR 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- FR 4993 Senior Capstone in French 3 Credit Hours**
Prerequisite: graduating majors in French. Requires undergraduate French majors to synthesize their knowledge of French contributions to world civilization. They will be required, as part of this enterprise, to demonstrate their mastery of the four basic skills involved in learning a foreign language: reading, writing, speaking, and understanding. (Sp) [V].
- FR 5283 Twentieth-Century French Novel 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Course presents a survey of the major forms of French novel throughout the twentieth century. (Irreg.)
- FR 5323 Old French Readings 3 Credit Hours**
Prerequisite: 5313. Introduction to a literary understanding and appreciation of the Old French Canon as represented by such texts as the Alexis, the Roland, Chretien's romances, Beroul's Tristan, the Rose, theatre, chronicles and lyric poetry, including Rutebeuf and Villon. (Alt. Sp)
- FR 5623 Seventeenth-Century Prose and Poetry 3 Credit Hours**
Prerequisite: 4153. A survey of baroque, precieux and classical style, form and content as exemplified in the prose and poetry of the period. (Irreg.)
- FR 5633 Eighteenth-Century French Philosophes 3 Credit Hours**
Prerequisite: graduate standing or permission. Presents the "philosophes" of the eighteenth century in France such as Montesquieu, Voltaire and Diderot. (Irreg.)
- FR 5643 Eighteenth-Century French Narrative and Theatre 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. The course will present an overview of eighteenth-century French narrative and theatre. (Irreg.)
- FR 5653 The French Atlantic 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Examines the aesthetic, social, and political issues foregrounded in 20th- and 21st-century Caribbean and Sub-Saharan francophone literature as well as the various historical forces influencing the development of Francophone cultures on both sides of the Atlantic. (Irreg.)
- FR 5910 Problems in Research 2-4 Credit Hours**
2 to 4 hours. May be repeated with change of content; maximum credit nine hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (F, Sp, Su)
- FR 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- FR 5963 Nineteenth-Century French Novel 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Course covers the major developments of the French novel throughout the nineteenth century. (Irreg.)
- FR 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- FR 5973 Nineteenth-Century French Poetry and Theatre 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Course surveys the major literary developments in French poetry and theatre throughout the nineteenth century. (Irreg.)
- FR 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp)
- FR 5990 Independent Studies 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit 12 hours. Independent reading on one or more topics under the general direction of a faculty member. (F, Sp, Su)
- FR 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- FR 6970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- FR 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp)
- FR 6990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- GERM 1115 Beginning German 5 Credit Hours**
An elementary course in understanding, speaking, reading and writing German. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].
- GERM 1225 Beginning German (Continued) 5 Credit Hours**
(Continued) Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing German. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].

- GERM 2113 Intermediate German 3 Credit Hours**
Prerequisite: 1225. Develops reading skills and control of grammar. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. Reading and discussion of texts of literary and cultural interest. Oral and written assignments. (F, Sp)
- GERM 2223 Intermediate German (Continued) 3 Credit Hours**
(Continued) Prerequisite: 2113. (F, Sp)
- GERM 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- GERM 3333 Internship in a German-Speaking Country 3 Credit Hours**
Prerequisite: junior or senior standing or permission of instructor. May be repeated; maximum credit six hours. Supplements as well as enhances a work experience of at least four weeks in a German-speaking country (e.g., Federal Republic of Germany, Federal Republic of Austria, Switzerland, Liechtenstein, German-speaking northern Italy, German-speaking eastern Belgium) that is typically undertaken during the summer. The course involves research, reflection, and oral and written communication about the internship experience. (Su)
- GERM 3423 Advanced German Composition 3 Credit Hours**
Prerequisite: GERM 2223. The inculcation of proper writing habits, at an advanced level, toward the achievement of idiomatic German. (Sp)
- GERM 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- GERM 3523 Advanced Conversation 3 Credit Hours**
Prerequisite: GERM 2223. Practice in conversational skills at an advanced level. (Sp)
- GERM 3623 Business German 3 Credit Hours**
Prerequisite: 2223. Introduces German business language as used in retail/wholesale, export/import, transport, and media. Will also familiarize the student with the European Union and cultural aspects of the German speaking business world. (F)
- GERM 3723 German for the European Market 3 Credit Hours**
Prerequisite: 2223. German business language as used in banking transactions, marketing, business letters, and business firms such as corporations, general and limited partnerships, and trade unions. How to respond to claims by firms in European countries and how to establish subsidiaries in another European country. Prepares students to take the "Prüfung Wirtschaftsdeutsch" (International Certificate in Business German). (Sp)
- GERM 3853 Literature and Film 3 Credit Hours**
Prerequisite: GERM 2223. Introduction to representative works of contemporary German literature and film. Within the context of reading and writing assignments and the viewing and discussion of films, the course is designed to improve language skills and knowledge of German culture. (F)
- GERM 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp)
- GERM 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered vary. The content deals with concepts not usually presented in regular coursework. (Irreg.)
- GERM 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp)
- GERM 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)
- GERM 4003 History of the German Language 3 Credit Hours**
(Slashlisted with 5003) Prerequisite: 3423, 3853. Linguistic, cultural, and social evolution of the German language from Indo-European times to the present. Additional emphasis is given to the place of German within the Germanic family of languages and to significant socio-linguistic issues in German-speaking countries as they enter the new millennium. No student may earn credit for both 4003 and 5003. (F)
- GERM 4113 The Middle Ages 3 Credit Hours**
(Slashlisted with 5113) Prerequisite: 3423, 3853. Secular and religious literature of medieval Germany, Austria, Switzerland, and the Netherlands discussed within the international cultural context of the European Middle Ages. No student may earn credit for both 4113 and 5113. (Alt. F)
- GERM 4253 Goethe's Faust and the Problem of Evil 3 Credit Hours**
Prerequisite: 3423 and 3853. Intensive study of Faust I, Faust II, and the Urfaust. The social and cultural history of the Faust figure, up to Goethe's Faust, will also be explored. No student may earn credit for both 4253 and 5253. (Irreg.)
- GERM G4313 Literature and Culture Pre-1700 3 Credit Hours**
Prerequisite: 3423 or 3853. From the beginnings until the end of the seventeenth century. A survey of literature, art, religion, social relations, music and history. (Alt. F)
- GERM G4323 Literature and Culture 1700-1890 3 Credit Hours**
Prerequisite: 3423 or 3853. Literature from 1700 to 1900. A survey of literature, art, philosophy, social relations, music and history. (Alt. F)
- GERM G4333 Topics in the Twentieth Century German Literature and Culture 3 Credit Hours**
Prerequisite: 3423 or 3853. From 1900 to the present. A survey of literature, art, film, social relations, music and history. (Sp) [V].
- GERM 4773 Post-1945 German Literature and Culture in Modern Europe 3 Credit Hours**
(Slashlisted with 5773) Prerequisite: 3423, 3853. Study of selected prose, poetry, and drama written after World War II in Austria, East Germany, Switzerland and West Germany, within the context of cultural and economic changes. Also includes contemporary German films. No student may earn credit for both 4773 and 5773. (F) [IV-WC].

- GERM 4953 Literature, Art and Culture in Turn-of-the-Century Austria** **3 Credit Hours**
Prerequisite: 3423, 3853. Examines two antithetical impulses in the Habsburg fin de siècle: to revel in ornamental display and to reveal essences beneath the exterior. Examines the tension and interplay between the two tendencies in the fields of literature, art, architecture, and theory, and consider some representative figures of the period, such as Klimt, Freud, Rilke, and Kafka. No student may earn credit for both 4953 and 5953. (Irreg.)
- GERM 4960 Directed Readings** **1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- GERM 4970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- GERM 4990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)
- GERM 5003 History of the German Language** **3 Credit Hours**
(Slashlisted with 4003) Prerequisite: graduate standing. Linguistic, cultural, and social evolution of the German language from Indo-European times to the present. Additional emphasis is given to the place of German within the Germanic family of languages and to significant socio-linguistic issues in German-speaking countries as they enter the new millennium. No student may earn credit for both 4003 and 5003. (F)
- GERM 5113 The Middle Ages** **3 Credit Hours**
(Slashlisted with 4113) Prerequisite: graduate standing. Secular and religious literature of medieval Germany, Austria, Switzerland, and the Netherlands discussed within the international cultural context of the European Middle Ages. No student may earn credit for both 4113 and 5113. (Alt. F)
- GERM 5773 Post-1945 German Literature and Culture in Modern Europe** **3 Credit Hours**
(Slashlisted with 4773) Prerequisite: graduate standing. Study of selected prose, poetry, and drama written after World War II in Austria, East Germany, Switzerland and West Germany, within the context of cultural and economic changes. Also includes contemporary German films. No student may earn credit for both 4773 and 5773. (F)
- GERM 5960 Directed Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- GERM 5970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- GERM 5980 Research for Master's Thesis** **2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp)
- GERM 5990 Independent Studies** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit 12 hours. Independent reading on one or more topics under the general direction of a faculty member. (F, Sp, Su)
- HEBR 1115 Beginning Hebrew** **5 Credit Hours**
An elementary course in modern and Biblical Hebrew. The course provides basic understanding, speaking, writing, and reading Hebrew, both modern and Biblical. Similarities and differences between modern and Biblical Hebrew are explored. (F, Sp) [I-FL].
- HEBR 1225 Beginning Hebrew (continued)** **5 Credit Hours**
Prerequisite: 1115. Focuses on all language skills: understanding, speaking, writing, reading of both modern and Biblical texts; including further exploration of similarities and differences between modern and Biblical Hebrew. By the end of this course, students are expected to write short dialogs. (F, Sp) [I-FL].
- HEBR 2113 Intermediate Hebrew** **3 Credit Hours**
Prerequisite: 1225. Further training in understanding, speaking, writing, and reading Hebrew, both modern and Biblical. Emphasis is given to grammar as well as to exploring differences in style between various Biblical texts, such as Torah versus prophets. (F)
- HEBR 2213 Intermediate Hebrew II** **3 Credit Hours**
Prerequisite: HEBR 2113. At the end of this course students will have acquired the ability to read longer texts, both modern and Biblical. They will be able to express themselves more sophisticatedly, and on more topics. (Sp)
- HEBR 2970 Special Topics/Seminar** **1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- HEBR 3113 Advanced Hebrew** **3 Credit Hours**
Prerequisite: 2113 and 2213. Continued training in understanding, speaking, writing, reading literary texts and newspaper articles, as well as Biblical texts, such as poetry. Emphasis is given to discussions on and writing about these texts. (F)
- HEBR 3223 Advanced Hebrew II** **3 Credit Hours**
Prerequisite: HEBR 3113. A continuation of Advanced Hebrew I. The aim is to continue promoting the four language skills; students should be able to sophisticatedly and intelligently express themselves both orally and in writing. (Sp)
- HEBR 3440 Mentored Research Experience** **3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- HEBR 3513 Biblical Hebrew** **3 Credit Hours**
Prerequisite: HEBR 2113 or permission of instructor. Learn Biblical Hebrew and read from the Hebrew Bible (Old Testament) in the original language. (Irreg.)

- HEBR 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- HEBR 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- HEBR 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- HEBR 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)
- HEBR 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- HEBR 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 3223 or permission of instructor. May be repeated with change of content; maximum credit 9 hours. This course is designed to give intensive training in listening and speaking in Hebrew for students who have taken 3223. The course develops students' understanding of functional ability of listening and speaking Hebrew. Students will learn unique features of Hebrew language and culture. (Irreg.)
- HEBR 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)
- ITAL 1115 Beginning Italian I 5 Credit Hours**
An elementary course in understanding, speaking, reading and writing Italian. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].
- ITAL 1225 Beginning Italian II 5 Credit Hours**
Prerequisite: 1115. Fundamentals of Italian continued. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].
- ITAL 2113 Intermediate Italian 3 Credit Hours**
Prerequisite: 1115. Fundamentals of Italian continued. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].
- ITAL 2223 Intermediate Italian Continued 3 Credit Hours**
Prerequisite: 2113. Emphasizes advanced reading skills and mastery of grammar. Emphasis on sophisticated vocabulary and understanding of grammatical structures. Literary and cultural texts discussed in oral and essay form. (Sp)
- ITAL 2970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- ITAL 3073 Italian Conversation & Culture 3 Credit Hours**
Prerequisite: ITAL 2223. Intensive practice in speaking Italian on topics of everyday life. (Sp)
- ITAL 3423 In Altre Parole: Writing in Italian 3 Credit Hours**
Prerequisite: ITAL 2223. The inculcation of proper writing habits, at an advanced level, toward the achievement of idiomatic Italian. (F)
- ITAL 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- ITAL 3553 Authors and Ideas: From Dante to our Time 3 Credit Hours**
Prerequisite: ITAL 2223 or permission. Survey of Italian literature from the Middle Ages to the present day through major works of literature and the visual arts—invoking names such as Dante, Machiavelli, Michelangelo, Galileo and Calvino. (F)
- ITAL 3663 Italian Cinema, Theater and Media 3 Credit Hours**
Prerequisite: ITAL 2223 or permission. This course will focus on theater, cinema and television, often reading literary works alongside their cinematic or TV adaptations. It offers an interdisciplinary look at Italian cultural history from the beginning of the twentieth century to the present day. (Sp)
- ITAL 3853 Readings in Italian Literature & Culture 3 Credit Hours**
Prerequisite: ITAL 2223. Designed to improve reading comprehension and to introduce the techniques of literary analysis. Representative works from the various literary genres will be studied. (Sp)
- ITAL 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp)
- ITAL 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- ITAL 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors program. May be repeated; maximum credit six hours. Provides an opportunity for the Honors candidate to work on a special project in the student's field. (F, Sp)
- ITAL 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

ITAL 4513 Topics in Medieval and Renaissance Italian Literature and Culture 3 Credit Hours

Prerequisite: 3073 or 3423. May be repeated with change of content; Maximum credit nine hours. This course will focus on a particular author, genre, or theme from the origins of Italian literature (1225) through 1550. Students will read primary texts in ;the original language with an emphasis on understanding the texts through close textual analysis. (Sp)

ITAL 4563 Topics in Modern Italian Literature and Culture 3 Credit Hours

Prerequisite: 3073 or 3423. May be repeated with change of content; maximum credit nine hours. This course will focus on an author, genre, or theme present in contemporary Italian literature (1700-Present). Students will read primary sources in the original language with an emphasis on understanding the text through close textual analysis. (F)

ITAL 4630 Internship 1-3 Credit Hours

Prerequisite: permission of instructor and junior standing. 1 to 3 hours. May be repeated; maximum credit three hours. For advanced language students studying in Italy as part of the OU in Arezzo program. Students enrolling in this variable credit course will enter into internships with area businesses, local, regional, and national government offices, non-profit organizations, and other local entities. Although the nature of the internships will vary depending on the partners, all internships will have the following requirements: the activities will be performed entirely in Italian; translation from English to Italian will not be the primary role of the intern; the sponsoring partner will provide at least weekly feedback; an OU faculty member will oversee the internship; at minimum students will complete an entrance, mid-term, final interview with the instructor; and a written final report. (F, Sp, Su)

ITAL 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

ITAL 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ITAL 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

ITAL 4993 Capstone: Special Topics in Italian 3 Credit Hours

Prerequisite: ITAL 3073, ITAL 3423, and one of the following: ITAL 3553 or ITAL 3663 or ITAL 4513 or ITAL 4563. Capstone course. Requires undergraduate Italian majors to synthesize their knowledge of Italian contributions to world civilization. They will be required, as part of this enterprise, to demonstrate their mastery of the four basic skills involved in learning a foreign language: reading, writing, speaking, and understanding. (Sp) [V].

JAPN 1115 Beginning Japanese 5 Credit Hours

An elementary course in understanding, speaking, reading and writing Japanese. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F) [I-FL].

JAPN 1225 Beginning Japanese (Continued) 5 Credit Hours

(Continued) Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing Japanese. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (Sp) [I-FL].

JAPN 2013 Intermediate Japanese Listening and Speaking 3 Credit Hours

Prerequisite: JAPN 2113 or concurrent enrollment with JAPN 2113. Provides intensive training in listening and speaking in Japanese for students who have taken first year Japanese. Through a systematic review of grammar and vocabulary taught in 1000-level Japanese coursework, develops students' understanding of functional ability to understand and speak Japanese and introduces unique features of Japanese language and culture, including formal and casual speech levels in Japanese. (F, Sp)

JAPN 2113 Intermediate Japanese 3 Credit Hours

Prerequisite: 1225. Combination of basic Japanese grammar and vocabulary and their application to spoken and written Japanese. Laboratory (F)

JAPN 2223 Intermediate Japanese (Continued) 3 Credit Hours

(Continued) Prerequisite: 2113. Develops control of the grammar, vocabulary and idioms of spoken Japanese and provides a thorough introduction to the Japanese writing system as well as some grammatical structures peculiar to written Japanese. Laboratory (Sp)

JAPN 2970 Special Topics/Seminar 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

JAPN 3013 Advanced Japanese Listening and Speaking 3 Credit Hours

Prerequisite: JAPN 2223 or concurrent enrollment in JAPN 2223. Designed to give intensive training in listening and speaking in Japanese for students who have successfully completed Japanese 2113. Develops students' understanding of functional ability of listening and speaking Japanese. Unique features of Japanese language and culture will be learned, including casual/polite speech, honorifics, giving-receiving verbs, a variety of new forms, such as transitive/intransitive, causative, passive, causative-passive forms. (F, Sp)

JAPN 3113 Advanced Japanese I 3 Credit Hours

Prerequisite: JAPN 2223. Trains students in advanced Japanese language skills of speaking, listening, reading, and writing and introduces new grammatical forms, vocabularies and expressions. Prepares students to understand Japanese society. (F, Sp)

JAPN 3223 Advanced Japanese II 3 Credit Hours

Prerequisite: JAPN 3113 or equivalent. An advanced course in conversation and composition covering cultural topics. Develops listening and speaking skills to communicate orally in authentic Japanese and expands spoken and written vocabulary knowledge. Presenting ideas in speech and composition effectively will be practiced. (Sp)

JAPN 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

- JAPN 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- JAPN 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- JAPN 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- JAPN 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 2223. May be repeated; maximum credit 12 hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- JAPN 4113 Japanese Language and Society I 3 Credit Hours**
Prerequisite: JAPN 3223 or JAPN 4543. May be repeated with change of content; maximum credit six hours. Designed to develop the advanced-level proficiency in reading and writing. Authentic reading materials on various topics will be used in combination with discussions, and oral and written reports. Emphasis is placed on strengthening correct usage of grammar and increasing knowledge of Kanji and compound terms using expressions and idioms in Japanese. (F)
- JAPN 4543 Introduction to Classical Japanese 3 Credit Hours**
Prerequisite: JAPN 3223. Students will learn classical Japanese grammar, major Japanese literary texts, as well as Japanese customs in ancient Japan. (Sp)
- JAPN 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- JAPN 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- JAPN 4990 Independent Study 1-3 Credit Hours**
Prerequisite: junior standing and permission of instructor. May be repeated with change of content; maximum credit six hours. Contracted independent study on one or more topics not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- JAPN 4993 Senior Capstone in Japanese 3 Credit Hours**
Prerequisite: JAPN 4113. Examines Japanese modern literature with a focus on the questions of Japanese modernity, post-modernity, nationalism, and cultural identity. (Sp)[V].
- JAPN 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- JAPN 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- JAPN 5990 Independent Study 1-3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor. May be repeated with change of content; maximum credit 12 hours. Contracted independent study on one or more topics not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory and field projects. (F, Sp, Su)
- LING 1203 Language Across Cultures 3 Credit Hours**
(Crosslisted with ANTH 1203) Theories of language family origins and their relationship to human migration; types of human languages; linguistic concept of genetic relatedness; writing systems development; non-Western sociolinguistic and usage phenomena; cultural and scientific importance of endangered languages; how languages become endangered; factors involved in preservation. This course may not count for major credit. (Sp) [IV-WDC].
- LING 2303 General Linguistics 3 Credit Hours**
(Crosslisted with ANTH 2303) Humanistic and formal study of natural languages: how they are similar to, and different from, one another in their use of speech sounds, logical structures and mechanisms that integrate events, objects and speakers in spatio-temporal contexts. The relationship between language and culture; language acquisition and language change. (F, Sp) [I-O].
- LING 2970 Special Topics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- LING 3033 Phonetic Description 3 Credit Hours**
Prerequisite: LING 2303. Study of the basic principles in forming the phonetic description of human speech. (Sp)
- LING 3043 Linguistic Semantics 3 Credit Hours**
Prerequisite: 2303. An introduction to basic ideas and concepts in the field of linguistic semantics. Includes discussion of current issues and representative theoretical approaches. (F)
- LING 3053 Phonology 3 Credit Hours**
Prerequisite: LING 3033. Phonology is the study of sound patterns found in human language. Provides a grounding in phonological theory by examining data from several of the world's languages. Covers the phoneme-allophone distinction, distinctive features, feature re-write rules, and a broad sampling of phonological phenomena. (F)
- LING 3133 Phonetic Field Methods 3 Credit Hours**
Prerequisite: 3033 or Anthropology 3033. This course covers techniques used to collect phonetic data, methodological concerns, the acoustic basis of speech sounds, how to record speech for linguistic analysis, and both acoustic and articulatory techniques for documenting the phonetic properties of speech. (Irreg.)
- LING 3173 Lesser Studied Languages 3 Credit Hours**
Prerequisite LING/Anthropology 2303. Learning and discussing some of the core properties of a few languages that are not often taught in the language classroom. Develops the students' ability to discuss the properties of languages in a precise and careful way. (F, Sp)

- LING 3353 Syntax 3 Credit Hours**
Prerequisite: LING 2303. An introduction to the fundamental concepts of Chomskyan syntax. Includes theory of categories and constituents, basic syntactic relations, case theory, and binding theory. (F)
- LING 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- LING 3813 Sociolinguistics 3 Credit Hours**
Prerequisite: LING/ANTH 2303. The study of the many ways human beings speak as a function of their being members of communities and societies. Included are multilingualism, creole languages, social and regional dialects, registers, gender, class, ethnic varieties, and language valuation. Includes an introduction to statistical methods. (F, Sp)
- LING 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program and will cover materials not usually presented in regular coursework. (F, Sp)
- LING 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- LING 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work on a special project in his/her field. (F, Sp)
- LING 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- LING 4023 Second Language Acquisition Theory 3 Credit Hours**
(Slashlisted with 5023) Prerequisite: 2303 or four semesters foreign language. Multidisciplinary approach to second language acquisition. Treats child language, interlanguage, universal grammar, input, interaction, output, non-language influences and formal instruction. No student may earn credit for both 4023 and 5023. (F)
- LING 4053 Morphology 3 Credit Hours**
(Crosslisted with ANTH 4053) Prerequisite: 3053 and 3353. Introduces and develops theories and concepts of morphology including word formation, derivation, inflection, non-concatenative morphs, covert categories, prosodic phenomena, morphosyntactic categories and clitics. Data from non-Western languages will be prominent. (Irreg.)
- LING 4173 Typology 3 Credit Hours**
Prerequisite: LING 3053 and LING 3353. An introduction to the major results of morphosyntactic typology. Focuses on morphological typology (case marking/agreement) and on syntactic typology (the relation between case marking and grammatical relations, word order, and of three major constructions: passives, causatives, and relative clauses). (F, Sp)
- LING 4313 Techniques of Historical Linguistics 3 Credit Hours**
Prerequisite: 3053 or Anthropology 3053, or permission. Brief survey of the development of historical linguistics, the comparative method, internal reconstruction, types of linguistic change, relationships between linguistic and cultural change, new developments in the field of historical linguistics. No student may earn credit for both 4313 and 5313. (Irreg.)
- LING 4330 Topics in Linguistics 1-4 Credit Hours**
1 to 4 hours. Prerequisite: nine hours of linguistics; May be repeated with change of content; maximum credit nine hours. Topic areas will vary across theoretical and applied areas of linguistics. Some topics that are appropriate include socio-linguistics, psycho-linguistics, language acquisition, advanced syntax, advanced phonology, field phonetics, pragmatics, and comparative readings of twentieth-century theorists. (Irreg.)
- LING 4363 Linguistic Field Methods 3 Credit Hours**
(Slashlisted with 5363) Prerequisite: 2303, 3053, and 3353. An introduction to all phases of linguistic field techniques, including training in the selection of informants, the use of recording devices, and most important, the actual collection and analysis of linguistic materials. Students may not earn credit for both 4363 and 5363. (Irreg.)
- LING 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- LING 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- LING 4983 Senior Essay 3 Credit Hours**
Prerequisite: LING 3053 and 3353 and senior standing. Development of a research paper which relates the linguistics major coursework to general knowledge. (F, Sp) [V] .
- LING 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or research and field projects. (F, Sp)
- LING 5023 Second Language Acquisition Theory 3 Credit Hours**
(Slashlisted with 4023) Prerequisite: 2303 or four semesters foreign language. Multidisciplinary approach to second language acquisition. Treats child language, interlanguage, universal grammar, input, interaction, output, non-language influences and formal instruction. No student may earn credit for both 4023 and 5023. (F)
- LING 5313 Techniques of Historical Linguistics 3 Credit Hours**
Prerequisite: 3053 or Anthropology 3053 or permission. Brief survey of the development of historical linguistics, the comparative method, internal reconstruction, types of linguistic change, relationships between linguistic and cultural change, new developments in the field of historical linguistics. No student may earn credit for both 4313 and 5313. (Irreg.)

- LING 5363 Linguistic Field Methods** **3 Credit Hours**
(Slashlisted with 4363) Prerequisite: graduate standing or permission of instructor. An introduction to all phases of linguistic field techniques, including training in the selection of informants, the use of recording devices, and most important, the actual collection and analysis of linguistic materials. No student may earn credit for both 4363 and 5363. (Irreg.)
- LING 5960 Directed Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- LING 5970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- LING 5980 Research for Master's Thesis** **2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, nine hours. (F, Sp, Su)
- LING 5990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit twelve hours. Independent reading on one or more topics under the general direction of a faculty member. (F, Sp)
- LING 6960 Directed Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- LING 6970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- LING 6990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- MLLL 1003 Introduction to Chinese Myths & Folklore** **3 Credit Hours**
Through studying an eclectic selection of time-honored Chinese myth and folklore, along with their adaptations, transculturation, transmediation, and transformation in modern and contemporary periods, students in this class will not only gain a deeper understanding and appreciation of Chinese culture, but also develop abilities in nuanced reading and critical thinking. (F) [IV-WDC].
- MLLL 2970 Special Topics** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- MLLL 3043 Mythology and Folklore** **3 Credit Hours**
Prerequisite: junior standing or permission. Readings in folktales and myths from cultures around the world, with a focus on narrative structures and the role of the storyteller. Involves weekly reading and weekly writing assignments and a semester-long research project published on the internet. (No previous web publishing experience is required). (F, Sp) [IV-WC].
- MLLL 3063 Survey of Jewish Literature from Antiquity to the Present** **3 Credit Hours**
Prerequisite: junior standing. Provides a survey of Jewish literature from the Hebrew Bible to contemporary American literature, presented as a journey in which stops will be made at important places, covering all significant periods, genres and prominent writers. (F) [IV-WC].
- MLLL 3073 The Hebrew Bible as Literature** **3 Credit Hours**
Prerequisite: ENGL 1213/Expo 1213. The Hebrew Bible is the best selling book in America every single year. We will explore its greatness by reading various Biblical texts such as a great novella, the Joseph story; the greatest religious conversion narrative, Ruth; the poetry of Psalms, and the rise of David from shepherd to king, as well as other favorites to be determined by class. (Sp) [IV-WC].
- MLLL 3123 Russian Culture and Civilization** **3 Credit Hours**
Considers the historical and cultural heritage of Russia through a study of its geography, history, religion, language, literature and the fine arts. Allows students to appreciate the global perspectives and cultural diversity. [IV-WC].
- MLLL 3133 Soviet and Post-Soviet Cinema** **3 Credit Hours**
Prerequisite: junior standing. Familiarizes students with the history of film in the Soviet Union, from the silent movies of its beginnings to its manifestation at the present time. No previous knowledge of the Russian language is required. Russian social and political issues explored through film. (F, Su) [IV-WC].
- MLLL 3143 Dostoevsky and His Age** **3 Credit Hours**
Prerequisite: junior standing. Examination of the life and literary works of Fyodor Dostoevsky, with special attention to the role the writer played in Russian and Western intellectual history. Reading assignments will include Crime and Punishment, The Brothers Karamazov, and several shorter works, all in English translation. (Irreg.) [IV-WC].
- MLLL 3163 Chekhov** **3 Credit Hours**
Prerequisite: junior standing or permission. An introduction to Anton Chekhov's work in translation. Both short stories and plays will be read, studying their narrative structure, plot devices, character development, themes, and other elements, while placing Chekhov's work in its historical, cultural, and political context. Excerpts of various screen adaptations of his plays will also be viewed. (F) [IV-WC].
- MLLL 3173 Nabokov** **3 Credit Hours**
Prerequisite: junior standing or permission. An introduction to Vladimir Nabokov's work in English, including works translated from Russian as well as texts originally written in English. Focus will be on Nabokov's Novels; although, some short stories and poems will be included. The main methodology will center on applying the techniques of close textual analysis, while placing Nabokov's work in its historical, cultural, and political context. (F) [IV-WC].

- MLLL 3183 Tolstoy: Writer, Thinker, Social Critic 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Introduction to Leo Tolstoy's work in translation. Traces Tolstoy's development as a writer of short stories, novels, and works of non-fiction. The writer's biography and significant aspects of nineteenth-century Russian society will inform discussions of Tolstoy's works, placing them in a broader context. In addition, students will explore Tolstoy's evolving religious, philosophical, and social ideas, as well as his legacy in Russia and throughout the world. (Irreg.) [IV-WC].
- MLLL 3193 Trauma, Memory, and Narrative 3 Credit Hours**
Prerequisite: junior standing. Ways in which traumatic historical events have been depicted in works of literature, art, and historical texts, and their commemoration in museum displays and in public ritual. While the focus is on the history of the Soviet Union and Eastern Europe, students will be encouraged to consider equivalent examples from other areas of the globe. (Irreg.) [IV-WC].
- MLLL 3223 Japan Through Film and Literature 3 Credit Hours**
Prerequisite: junior standing. Introduces Japanese post-war society and culture with emphasis on 1945 to the present, as reflected in film and literature. Students will examine essential issues, including class, family, gender, work, education, and minorities, paying attention to the struggles between traditional cultural values and modern society. (Irreg.) [IV-WDC].
- MLLL 3243 Readings in Arab/Islamic Heritage 3 Credit Hours**
Prerequisite: Junior standing. Survey of Arab /Islamic from Pre-Islam until the fall of Andalusia. Students will read selections of pre-Islamic poetry, the Qur'an, prophetic tradition, law, sociology, architecture, food, fables, and folklore. (Sp) [IV-WDC].
- MLLL 3303 The World of Dante 3 Credit Hours**
Prerequisite: Junior standing and English 1213. In this course students will engage in a close reading of a fundamental text in the western literary tradition: Dante Alighieri's Divine Comedy. The course will also consider one of Dante's minor works, the Vita Nuova, as well as the modern critical readings of Dante's writing and thought. In lectures, special attention will be paid to the historical, political, literary and intellectual context of Dante's poetry and thought. Students will also be asked to contribute to the classroom atmosphere by responding to questions and participating in discussions. (Irreg.) [IV-WC].
- MLLL 3313 Introduction to Italian Literature and Culture 3 Credit Hours**
Prerequisite: English 1213 or EXPO 1213. Interdisciplinary approach to literature, culture, and history of the Italian peninsula, from the Middle Ages to the present day. Through major works of literature, political science, the visual arts, music, and cinema, students will see Italy's variegated literary and cultural expressions in their social and historical contexts. (F) [IV-WC].
- MLLL 3323 Language, Culture, and Identity in the Middle East and North Africa 3 Credit Hours**
Prerequisite: Junior standing. Introduction to the relationship between language, society, and identity in the Middle East and North Africa (MENA), with an emphasis on theoretical and methodological approaches from sociolinguistics and linguistic anthropology. (Sp) [IV-WDC].
- MLLL 3343 Italian Pop Culture 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. An examination of Italian culture after WW2 through cinema, television, comics, popular literature, and more. (Sp) [IV-WC].
- MLLL 3373 Italian Cinema 3 Credit Hours**
Prerequisite: junior standing and English 1213. The aim of this course is to develop interpretive skills relevant to the study of Italian cinema by examining some of its most significant films. More specifically, we will analyze the ways in which Italian society is portrayed and typified in Italian cinema. We will cover the major film movements and periods, from "cinema muto" to Neorealism, from "commedia all'italiana" to the Italian horror genre and to the most recent works made by contemporary directors. (Irreg.) [IV-AF].
- MLLL 3393 Italian Cultural Literacy 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Introduces students studying abroad in the OU in Arezzo semester program to important aspects of Italian culture and history. Students will gain an ability to engage with Italian cultural phenomena and interact with native Italian speakers. No previous knowledge of Italian is required. The cultural part of the course will be taught in English. (F, Sp, Su)
- MLLL 3413 Arabic Literature and Culture 3 Credit Hours**
Prerequisite: junior standing. A survey of Arabic literature tradition and cultural history from the 4th century to the present. Covers themes and genres of the cultural heritage of Arabic-Islamic civilization, continuities and discontinuities between the classical and modern period, and background political and social changes. (F) [IV-WDC].
- MLLL 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- MLLL 3443 Islamic Culture in the United States 3 Credit Hours**
Prerequisite: Junior Standing or Permission of the Instructor. This course introduces students to the historical development and cultural growth of Islam and Muslims in the US. Students will learn about the specific experiences and struggles of African, Asian, and Arab immigrants throughout American history. Students will also explore the role of American Muslims in reconciling ethnic differences and racial discrimination, advancing empowerment and advocacy, and engaging with self-representation. (F) [IV-WDC].
- MLLL 3523 Survey of Russian Literature to 1917 in Translation 3 Credit Hours**
Prerequisite: junior standing. Reading, analysis and discussion of key works of Russian 19th century literature, including the major novels, plays, and poetry selections in English translation. This course does not satisfy the third semester Arts and Sciences language requirement. (F) [IV-WC].
- MLLL 3533 Survey of Russian Literature from 1917 in Translation 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Representative works of Soviet and post-Soviet literature are read and discussed. Selections of prose and poetry chosen from among symbolists, acmeists, futurists, populists, modernists, and post-modernists. This course does not satisfy the third semester Arts and Sciences language requirement. (Irreg.) [IV-WC].
- MLLL 3543 The Petersburg Myth and Text/The City in Russian Culture 3 Credit Hours**
Prerequisite: junior standing. The role and significance of the city of St. Petersburg in Russian culture by examining its literary image and myth. All readings and discussions in English. (Irreg.) [IV-WC].

- MLLL 3553 Contemporary Russian Literature 3 Credit Hours**
Prerequisite: junior standing. Explores major works of post-Soviet Russian literature. Students will become familiar with major figures and trends in contemporary Russian poetry and prose, and they will acquire critical vocabulary for analyzing works in any genre or national literary tradition. (Irreg.) [IV-WC].
- MLLL 3573 Arthurian Legend and Literature 3 Credit Hours**
(Crosslisted with ENGL 3573) Examination of the legend of King Arthur in European literature. Concentrate first on the historical Arthur, followed by major portion of semester on the medieval and modern literary texts concerning Arthur and the Round Table. All texts will be read in English translation. [IV-WC].
- MLLL 3623 Pre-Modern Japanese Literature and Culture 3 Credit Hours**
Prerequisite: junior standing. A survey of Japanese literature from ancient time to the Meiji restoration. Covers prominent works of poetry and prose in English translation. Students are introduced to traditional genres, themes, rhetorical device and aesthetics, as well as socio-historical context of literary production. (Irreg.) [IV-WDC].
- MLLL 3633 Modern Japanese Literature and Culture 3 Credit Hours**
Prerequisite: junior standing. A survey of Japanese literature from the Meiji restoration (1868) onward, with attention to social, political, and cultural issues as well as literary theory. Topics will include Japan's "westernization," "naturalism," proletarian literature movements, early post-war literature, and the "third new generation writers." (Sp) [IV-WDC].
- MLLL 3663 Japanese Cinema 3 Credit Hours**
Prerequisite: Junior standing. This course examines the development of Japanese film form and content, and of the cultural and political transformations imbricated with those developments. We will explore the place of cinema in shaping Japanese modernity; the silent era; cinema during World War II; the Golden Age of the 1950s, and the globalization of Japanese films in the decades after. (Irreg.) [IV-WDC].
- MLLL 3673 Anime: the World of Japanese Animation 3 Credit Hours**
(Crosslisted with FMS 3673) Prerequisite: Junior standing. This course explores the history and development of Japanese animation, or "anime". It examines how animation was brought to Japan, and how it developed prior to the Second World War, and then further in the postwar decades. We will highlight how despite being influenced by foreign sources, Japanese animators create a uniquely Japanese mode of image-making. (Irreg.) [IV-WDC].
- MLLL 3683 Traditional Japanese Poetry and Poetics in Translation 3 Credit Hours**
Prerequisite: Junior standing and ENGL/EXPO 1213. This course examines the long history and tradition of poetry in premodern Japan, and the philosophies and culture surrounding it. We explore poetry in both vernacular Japanese and Classical Chinese from Japan before the eighteenth century, and how poets and critics understood it. We will also try our own hands at making poems before compiling them into an anthology. (Sp)
- MLLL 3753 Modern Chinese Literature and Culture 3 Credit Hours**
Prerequisite: junior standing. Students will read Chinese literary texts in English translation and learn about the historical, political, social, and cultural contexts in which they were produced. (Sp) [IV-WDC].
- MLLL 3763 Chinese Cinema 3 Credit Hours**
Prerequisite: junior standing. Chinese films covering a wide range of historical periods and subjects will be viewed. The films screened in this class will be studied as reflections of their respective social, as well as the filmmakers' comments on and interventions of such realities. Cinematic concepts, techniques, and film theories, will be studied. (Sp) [IV-WDC].
- MLLL 3823 German Culture and Thought 3 Credit Hours**
Prerequisite: junior standing. Introduces major themes in German cultural history and analytical tools students can bring to the further study of German and/or other European literatures and cultures in translation. Specific topics may vary. (F) [IV-WC].
- MLLL 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp)
- MLLL 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- MLLL 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the Honors candidate to work on a special project in the student's field. (F, Sp)
- MLLL 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- MLLL 3993 Contemporary Brazilian Film 3 Credit Hours**
Prerequisite: Junior Standing. In this class students will get an overview of cinema recently produced in Brazil. Besides an analysis of the films themselves, in classes we will consider both the context in which the movies were produced, and the specific context presented in each, always in comparative fashion. All movies are available for watching online on canvas or on appropriate platforms. (Sp) [IV-WC].
- MLLL 4003 Movements in World Literature 3 Credit Hours**
(Crosslisted with ENGL 4003) Prerequisite: junior standing. May be repeated with change of subject matter; maximum credit nine hours. Focuses on texts within a literary movement (literature other than canonical American or British). Also attention to critical and theoretical questions about concepts such as genre, nation, national building, national identity, etc. (Irreg.) [IV-WC].
- MLLL 4063 Early Literary Criticism 3 Credit Hours**
(Slashlisted with 5063) Prerequisite: junior standing and English 1213. Establishes a solid critical foundation of aesthetics that will enable graduate and advanced undergraduate students to deal with fundamental ideas; aesthetic and social. Emphasis on rhetoric and discourse during the second part of the semester will also enable all students to write strategically and develop effective communication skills. No student may earn credit for both 4063 and 5063. (F)

MLLL 4113 Cultures in Portuguese: Brazil, Portugal, and Beyond 3 Credit Hours

Prerequisite: minimum of 30 hours earned. Survey of cultures that speak Portuguese, focusing on the best cultural production in Portuguese from Europe, the Americas, and Africa. Students will compare and contrast these cultures, which will be presented in literature, cinema and the arts. Students will see how Western and non-Western cultural elements interact and influence each other in these cultures, creating interesting and exciting hybrids. (F) [IV-WC].

MLLL 4173 Introduction to Francophone Literatures in Translation 3 Credit Hours

Prerequisite: junior standing. Examines the literary, social, and political issues forefronted by the Francophone literatures of West Africa, the Caribbean, and Polynesian Islands, Maghreb (chiefly Algeria, Tunisia, Morocco), and Quebec. (Sp) [IV-WDC].

MLLL 4453 Introduction to Chinese Language and Linguistics 3 Credit Hours

Prerequisite: Chinese 1115 and Chinese 1225, or LING/ANTH 2303 and LING 3033. Introduction to the structure of the Chinese language and its sociocultural meanings, with an emphasis on phonology, morphology, syntax, the writing system, and the language's interaction with culture and society. (F)

MLLL 4553 Lat America in its Lit: The Search for a Latin-American Identity 3 Credit Hours

Prerequisite: junior Standing. The course fosters an understanding of the political nature, impetus and implications of Latin-American literature. It examines stereotypes and the basis upon which they are constructed and develops an awareness of the varied identities reflected in Latin-American literature. (F)

MLLL 4753 The Chinese Way of Thinking: Language, Culture, & Cognition 3 Credit Hours

Prerequisite: Junior standing. How do languages/cultures shape the ways we think? Does learning new languages change the way you think? This course introduces the cognitive view of language use in Chinese and how it plays a critical role in mind-shaping in its cultural context. It also pursues a cross-linguistic/cross-cultural perspective on the study of Chinese languages as a window into cognition and culture. (Irreg.) [IV-WDC].

MLLL 4813 Principles and Techniques of Teaching a Foreign Language 3 Credit Hours

(Slashlisted with MLLL 5813) Prerequisite: four semesters of a foreign language or admission to the foreign language education major. Provides participants with practical experience in the teaching of foreign languages and introduces key issues in the teaching of foreign languages. Also introduces issues in teaching methodology and key issues in classroom language acquisition research. No student may earn credit for both 4813 and 5813. (F, Sp)

MLLL 4883 Puterbaugh/Neustadt International Literature 3 Credit Hours

(Slashlisted with MLLL 5883; Crosslisted with ENGL 4883) Prerequisite: ENGL 1213 and permission of department; May be repeated with a change of content, maximum credit nine hours. In-depth study of selected contemporary international writers/jurors who visit OU campus as part of the Neustadt and/or Puterbaugh symposia for World Literature Today. No student may earn credit for both 4883 and 5883. (Irreg.)

MLLL 4950 Special Topics in World Literature Today 1-3 Credit Hours

1 to 3 hours. Prerequisite: English 1213 and permission of instructor. May be repeated with change of content; maximum credit six hours. In-depth study of selected contemporary international writers/jurors who visit campus as part of the Neustadt and/or Puterbaugh symposiums for world literature today. (Irreg.)

MLLL 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

MLLL 4970 Seminar 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit six hours. Varied topics in literature in English translation. (Irreg.)

MLLL 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

MLLL 4993 Epics of India: Ramayana and Mahabarata 3 Credit Hours

Prerequisite: junior standing. Reading of the two great epics of India. Special attention will be paid to narrative structure and the role of the storyteller. The course involves extensive weekly reading along with weekly writing assignments and a semester-long research project which students will publish on the internet (no previous web publishing experience is required. (Sp) [IV-WDC].

MLLL 5063 Early Literary Criticism 3 Credit Hours

(Slashlisted with 4063) Prerequisite: graduate standing. Establishes a solid critical foundation of aesthetics that will enable graduate and advanced undergraduate students to deal with fundamental ideas; aesthetic and social. Emphasis on rhetoric and discourse during the second part of the semester will also enable all students to write strategically and develop effective communication skills. No student may earn credit for both 4063 and 5063. (F)

MLLL 5073 Contemporary Literary Criticism 3 Credit Hours

An introduction to contemporary linguistic, psychoanalytic and sociological literary theory and criticism. Readings and discussions will include questions of methodology and will demonstrate how these methods can be applied to particular texts. (Sp)

MLLL 5173 Introduction to Francophone Literatures in Translation 3 Credit Hours

Prerequisite: graduate standing. Examines the literary, social, and political issues fore-fronted by the Francophone literatures of West Africa, the Caribbean, and Polynesian Islands, Maghreb (chiefly Algeria, Tunisia, Morocco), and Quebec. (Sp)

MLLL 5813 Principles and Techniques of Teaching a Foreign Language 3 Credit Hours

(Slashlisted with MLLL 4813) Prerequisite: graduate standing. Provides participants with practical experience in the teaching of foreign languages and introduces key issues in the teaching of foreign languages. Also introduces issues in teaching methodology and key issues in classroom language acquisition research. No student may earn credit for both 4813 and 5813. (F, Sp)

MLLL 5883 Puterbaugh/Neustadt International Literature 3 Credit Hours

(Slashlisted with MLLL 4883; Crosslisted with ENGL 5883) Prerequisite: Graduate standing and permission of department; May be repeated with a change of content; maximum credit nine hours. In-depth study of selected contemporary international writers/jurors who visit OU campus as part of the Neustadt and/or Puterbaugh symposia for World Literature Today. No student may earn credit for both 4883 and 5883. (Irreg.)

MLLL 5910 Problems in Research 2-4 Credit Hours

2 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit four hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (Irreg.)

MLLL 5920 Field Research in Foreign Language Education 1-3 Credit Hours

1 to 3 hours. Prerequisite: 5833. Classroom oriented field research on the use of various methods of teaching foreign language in the classroom. Possible topics include aspects of language acquisition, evaluation, proficiency, communicative methods in foreign language education. (F, Sp, Su)

MLLL 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

MLLL 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MLLL 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

PORT 1115 Beginning Portuguese 5 Credit Hours

Develop the skills necessary to grasp fundamental principles of Portuguese and Luso-Brazilian culture, and to acquire basic proficiency in the four skills of language learning: listening, speaking, reading and writing. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

PORT 1225 Beginning Portuguese Continued 5 Credit Hours

Prerequisite: 1115. Give continuity to the skills acquired during the first semester of Portuguese in order to become more fluent in the spoken language as well as more proficient in writing. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

PORT 2113 Intermediate Portuguese 3 Credit Hours

Prerequisite: 1225. Develops reading skills and control of grammar while cultivating depth of oral and writing ability. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. Reading and discussion of texts of literary and cultural interest. Oral and written assignments. (F, Sp)

PORT 2223 Intermediate Portuguese (Continued) 3 Credit Hours

Prerequisite: 2113. Refines reading skills and mastery of grammar. Emphasis on sophisticated vocabulary and understanding of grammatical structures. Literary and cultural texts discussed in oral and essay form. (F, Sp)

PORT 2970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

PORT 3113 Advanced Portuguese 3 Credit Hours

Prerequisite: 2223. Develops further reading skills and control of grammar, cultivates speaking and writing ability, and exposes students to a wide range of topics covered daily by Brazilian newspapers and magazines. (F)

PORT 3223 Advanced Portuguese Continued 3 Credit Hours

Prerequisite: 3113. Continuation of 3113. Develops further reading skills and control of grammar while cultivating depth of oral and writing ability. Exposes the student to a wide range of topics covered daily by Brazilian newspapers and magazines. (Sp)

PORT 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

PORT 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

PORT 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

PORT 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

PORT 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

PORT 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

PORT 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

- PORT 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- RUSS 1115 Beginning Russian 5 Credit Hours**
An elementary course in understanding, speaking, reading and writing Russian. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].
- RUSS 1225 Beginning Russian (Continued) 5 Credit Hours**
Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing Russian. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].
- RUSS 2113 Intermediate Russian 3 Credit Hours**
Prerequisite: 1225. Training in reading, writing, speaking, and understanding contemporary Russian. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. (F, Sp)
- RUSS 2223 Intermediate Russian (Continued) 3 Credit Hours**
Prerequisite: 2113. Continued training in reading, writing, speaking, and understanding contemporary Russian. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. (F, Sp)
- RUSS 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- RUSS 3023 Beginning Business Russian 3 Credit Hours**
Prerequisite: twenty hours of Russian. Intended to enable Russian students to read, write, and translate business Russian. Readings in this course will consist of translating contracts, agreements, and other areas of commercial correspondence. (Irreg.)
- RUSS 3073 Russian Conversation 3 Credit Hours**
Prerequisite: RUSS 2113. Training in reading, writing, and understanding contemporary Russian. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. (F, Sp)
- RUSS 3313 Russian Phonetics 3 Credit Hours**
Prerequisite: 2113. A detailed study of the sounds of Russian and the inculcation of proper speech habits. (Irreg.)
- RUSS 3323 Advanced Russian Reading and Composition 3 Credit Hours**
Prerequisite: 2223. A systematic grammar review with a view toward improving the student's control of written Russian. (F)
- RUSS 3423 Advanced Russian Reading and Composition (Continued) 3 Credit Hours**
Prerequisite: 3323. A systematic grammar review with a view toward improving the student's control of written Russian. (Sp)
- RUSS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- RUSS 3523 Interpreting the Russian Media 3 Credit Hours**
Prerequisite: 2223. Focus on developing higher-level receptive and productive language skills through an exposure to authentic texts from Russian print media and television news reports. Students will focus on vocabulary-building, recognizing and employing journalistic conventions, reading between the lines, understanding nuance and enhancing their awareness of cultural references. (Irreg.)
- RUSS 3533 Russian Pop Culture 3 Credit Hours**
Prerequisite: RUSS 2223. A communicative language class in which students explore contemporary Russian-language popular music, television programming, and internet culture. (Irreg.)
- RUSS 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- RUSS 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually covered in regular coursework. (Irreg.)
- RUSS 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp)
- RUSS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)
- RUSS 4173 Topics in Nineteenth-Century Russian Literature and Culture 3 Credit Hours**
Prerequisite: 3423. May be repeated once with change of content; maximum credit six hours. A course for advanced students of the Russian language. All reading assignments and lectures will be in Russian. (F)
- RUSS 4183 Topics in 20th and Post-20th Century Russian Literature and Culture 3 Credit Hours**
Prerequisite: 3423. May be repeated once with change of content; maximum credit six hours. A course for advanced students of the Russian language. All reading assignments and lectures will be in Russian. (Sp) [V].
- RUSS G4613 Advanced Russian Conversation 3 Credit Hours**
Prerequisite: 3073, 3323. Conversation on topics in Soviet history, government, literature and sociology with emphasis on the particular terminology of each of these fields. (Sp)
- RUSS 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

- RUSS 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special Topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- RUSS 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)
- RUSS 5910 Problems in Research 2-4 Credit Hours**
2 to 4 hours. May be repeated with change of content; maximum credit nine hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (F, Sp)
- RUSS 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- RUSS 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- RUSS 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- SPAN 1115 Beginning Spanish 5 Credit Hours**
An elementary course in understanding, speaking, reading and writing Spanish. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].
- SPAN 1225 Beginning Spanish (Continued) 5 Credit Hours**
Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing Spanish. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].
- SPAN 2113 Intermediate Spanish 3 Credit Hours**
Prerequisite: 1225 or equivalent. Develops reading skills and control of grammar while cultivating depth of oral and writing ability. Emphasis on expansion of vocabulary and strong re-enforcement of grammatical structures. Reading and discussion of texts of literary and cultural interest. Oral and written assignments. (F, Sp, Su).
- SPAN 2223 Intermediate Spanish Continued 3 Credit Hours**
Prerequisite: 2113. Refines reading skill and mastery of grammar. Emphasis on sophisticated vocabulary and understanding of grammatical structures. Literary and cultural texts discussed in oral and essay form. (F, Sp, Su)
- SPAN 2603 Spanish for Social Work Majors 3 Credit Hours**
Prerequisite: social work major and SPAN 1225 or equivalent. Designed to prepare students for an intermediate proficiency in Spanish. An expansion of vocabulary and grammatical structure used in practice settings commonly experienced by social workers is emphasized. This course may not count for credit for any major other than social work. (F, Sp)
- SPAN 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- SPAN 3073 Grammar in Conversational Communication 3 Credit Hours**
Prerequisite: SPAN 2223. Aim is to improve students' conversational skills through an active use of the Spanish language. By using a contextualized content-based approach, focuses on seven core communicative functions and engages in meaningful communicative practices through listening and speaking activities related to cinema and other forms of cultural production. (F, Sp)
- SPAN 3423 Grammar in Written Communication 3 Credit Hours**
Prerequisite: SPAN 2223. Further develops communicative abilities as well as increasing students' knowledge and ability to produce a variety of forms of cultural production in the Spanish language. Writing as a process that includes brainstorming, organization, outline, drafts and revisions will be learned. Familiarity with authentic texts written in different styles will be developed. (F, Sp)
- SPAN 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- SPAN 3723 Business Spanish 3 Credit Hours**
Prerequisite: SPAN 3073. Designed to develop an understanding of the business cultures of Latin America and Spain. Methods for communicating with Spanish-speaking companies or customers will be learned. In addition, linguistic and intercultural skills that will enable students to perform different commercial transactions, as well as attend a trade fair to meet potential customers, will be learned. This course includes a service learning component. (F, Sp)
- SPAN 3733 Medical Spanish 3 Credit Hours**
Prerequisite: SPAN 3073. Develops new critical perspectives on health care for the Hispanic community in the United States. Develops medical language skills and cultural competency for health care situations in order to allow for more effective communication with Spanish-speaking patients and their families. Introduces essential medical vocabulary, practical reference information, and medical notes written from a cross-cultural perspective. (F, Sp)
- SPAN 3743 Legal Spanish 3 Credit Hours**
Prerequisite: SPAN 3073. Provides an overview of the Spanish language in the legal context. Spanish legal terminology and conversational topics in areas such as civil rights, employment law, family law, immigration law, and human rights will be studied. Legal texts and arguments in order to discuss their implications for the Spanish community in the United States will be examined. (F, Sp)

- SPAN 3753 Spanish for Social Work 3 Credit Hours**
Prerequisite: SPAN 3073. Addresses students' needs in the area of social work. Spanish terminology and conversational topics related to social services will be examined. Includes an exploration of current policy issues and emerging social needs affecting Spanish-speaking families in Oklahoma, as well as resources available to this group, and gaps in services. (F, Sp)
- SPAN 3763 Spanish for Journalism 3 Credit Hours**
Prerequisite: SPAN 3073. An introduction to the exciting world of journalism in Spanish. Explores the ingredients of news and news gathering as well as how to tell stories in Spanish across media platforms (print, radio, television, etc.). How to cover a variety of people, places, things, events, and issues associated with the Hispanic community in the United States will be learned. (F, Sp)
- SPAN 3853 Introduction to Hispanic Literature and Culture 3 Credit Hours**
Prerequisite: SPAN 2223. Initiates students into the literatures and cultures of the Hispanic world, both in Spain and Latin America. Teaches how to analyze literature by literary genres and movements. Emphasis on all four language skills (hearing, speaking, reading, and writing) and culture. (F, Sp)
- SPAN 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp)
- SPAN 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (F, Sp, Su)
- SPAN 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp)
- SPAN 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- SPAN 4083 Literature and Culture of Spain 3 Credit Hours**
Prerequisite: SPAN 3853. May be repeated with change of content; maximum credit nine hours. Introduces the literature and culture of Spain. It covers canonical texts from the Early to the Early Modern Period. It also emphasizes culture throughout its rich history. Like all other courses in Spanish, it emphasizes as well all four language skills (hearing, speaking, reading, and writing) and culture. (F, Sp)
- SPAN 4113 Literature and Culture of Latin America 3 Credit Hours**
Prerequisite: SPAN 3853. May be repeated with change of content; maximum credit nine hours. Introduces the literature and culture of Latin America. Covers canonical texts from the Early (Colonial) to the Early Modern (Postmodern) Period. Also emphasizes culture throughout its varied history. Like all other courses in Spanish, it stresses as well all four language skills (hearing, speaking, reading, and writing) and culture. (F, Sp)
- SPAN 4143 Transatlantic Literature and Culture 3 Credit Hours**
Prerequisites: SPAN 3853. May be repeated with change of content; maximum credit nine hours. Introduces the literature and culture of Spain and Spanish America. Covers canonical texts from the Early, the Early Modern, and the Modern (Postmodern) Period. Also emphasizes culture throughout the ages in its ample history. Like all other courses in Spanish, it stresses as well all four language skills (hearing, speaking, reading, and writing) and culture. (F, Sp)
- SPAN 4173 Regional Literature and Cultures 3 Credit Hours**
Prerequisite: SPAN 3853. May be repeated with change of content; maximum credit nine hours. Introduces the literature and cultures of specific regions in Spain or Spanish America. Covers canonical texts from the Early to the Early Modern Period. May focus on a specific literary genre, or several, theme, or movement. Like all other courses in Spanish, it emphasizes as well all four language skills (hearing, speaking, reading, and writing) and culture. (F, Sp)
- SPAN 4183 Senior Capstone 3 Credit Hours**
Prerequisite: 3853, Spanish major and senior standing. Synthesis of Hispanic contributions to world literature and culture. (F, Sp) [V].
- SPAN G4313 Spanish Civilization 3 Credit Hours**
Prerequisite: 3423, History 2613 or 2623. Spanish cultural heritage from the beginnings to the present day. (Sp)
- SPAN 4503 Hispanic Cinema Studies 3 Credit Hours**
Prerequisite: SPAN 3423. May be repeated with change of content; maximum credit nine hours. Introduces film culture of the Hispanic world. Covers classical and contemporary films from the five main areas producing film (Spain, Mexico, Brazil, Cuba, and Argentina) as well as from other Hispanic regions. (F, Sp)
- SPAN 4713 History of the Spanish Language 3 Credit Hours**
(Slashlisted with SPAN 5713) Prerequisite: SPAN 3853. As an introduction to historical Spanish Linguistics, the basic patterns of the evolution of Modern Spanish from Vulgar Latin, as shown in several major literary texts will be learned. Provides an understanding of how the Modern Spanish sound system evolved from the Vulgar Latin of the Iberian Peninsula. Emphasizes all four language skills (hearing, speaking, reading, and writing) and culture. No student may earn credit for both 4713 and 5713. (F, Sp)
- SPAN 4773 Topics in Spanish Linguistics 3 Credit Hours**
Prerequisites: SPAN 3073 and SPAN 3423. May be repeated with change of content; maximum credit nine hours. Introduces the role of meaning in the structure, function, and use of the language and focuses on the core aspects of the representation of meaning in Spanish. Examines how Spanish speakers combine basic linguistic units into larger linguistic expressions that allow them to represent the complex aspects of reality and thought in this language. (F, Sp)
- SPAN 4913 The Structure of the Spanish Language 3 Credit Hours**
Prerequisite: SPAN 3073 and SPAN 3423. Aims to improve students' formal knowledge of the Spanish language. Principal articulatory properties of the Spanish sounds, Spanish morphology such as word formation and word categories, and Spanish syntax and semantics will be examined. Topics related to social issues and Spanish variation, and in particular, to its situation in the United States will be explored. (F, Sp)

- SPAN 4923 Teaching of Spanish in the United States 3 Credit Hours**
(Slashlisted with SPAN 5923) Prerequisite: SPAN 3073 and SPAN 3423. A theoretical and practical introduction to teaching of Spanish in the United States. The theoretical component of the course incorporates major contemporary notions about Second Language Acquisition (SLA) and Second Language Teaching (SLT). The practical component of the course focuses on professional development as an instructor, roles of instructor and student, and day-to-day classroom activities. No student may earn credit for both 4923 and 5923. (F, Sp)
- SPAN 4933 Spanish Literary Translation 3 Credit Hours**
Prerequisite: SPAN 3423 and SPAN 3853. Introduces effective literary translation techniques from Spanish to English, paying particular attention to the role of meaning in the structure, function, and use of Spanish as it transfers to English and how texts written in Spanish combine basic linguistic units into larger linguistic expressions that allow them to represent the complex aspects of reality and thought in language. (F, Sp)
- SPAN 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- SPAN 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- SPAN 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- SPAN 5113 Traditional Novel in Spanish America: Romanticism to Vanguard 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Beginning with the earliest forms of long prose, the course treats the Romantic novel, the Naturalistic novel, the Novel of the Land, and the Indianist novel. Representative texts of each mode will provide a thorough grounding in the characteristics of the different forms of prose. (Irreg.)
- SPAN 5203 Prose Fiction of Cervantes-The Quijote 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Style, structure, content, and fundamental criticism of Cervantes' masterpiece. (Irreg.)
- SPAN 5353 Studies in Renaissance and Baroque Drama 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. The theatre of the Spanish siglo de oro. Works by Lope de Vega, Ruiz de Alarcón, Tirso de Molina, Calderón de la Barca, and others. Comedia theory and special topics such as kingship, honor, God. (Irreg.)
- SPAN 5413 The Spanish-American Novel of the Post-Boom 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Beginning with novels that are reactions to the new novel, often by the same novelists, the course treats the different forms that have characterized the novel in Spanish America since the seventies. The novelists portray ordinary characters whose quiet desperation and existential suffering is portrayed different from the new novel. (Irreg.)
- SPAN 5423 The Spanish-American Essay 3 Credit Hours**
The main currents of Spanish-American thought as they appear in the essay, from Simon Bolivar to the present. (Irreg.)
- SPAN 5433 Spanish-American Drama 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. The study of the canonical works tracing the development of Spanish-American drama from colonial times to the present. (Irreg.)
- SPAN 5443 Post-Modernista Poetry in Spanish America 3 Credit Hours**
Prerequisite: Graduate standing. A survey of Spanish-American poetry after World War I. (Irreg.)
- SPAN 5453 The Spanish-American Short Story 3 Credit Hours**
The development of the genre from colonial times to the present. (Irreg.)
- SPAN 5513 Colonial Literature: The Encounter 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. The objective of this course is to familiarize students with early colonial Latin American discourse and its cultural/literary/historic context. Beginning with the letters of Christopher Columbus, the course includes early chronicles and histories. (Irreg.)
- SPAN 5523 Colonial Literature: The Criollos 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. This course familiarizes students with colonial Latin American discourse and its cultural/literary/historic context. The course primarily focuses on writers raised in colonial Spanish America approximately 100 years after the encounter. (Irreg.)
- SPAN 5603 Studies in Renaissance and Baroque Prose 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of topic; maximum credit six hours. The study of representative narrative from the Spanish Golden Age, including the Picaresque, Pastoral, Sentimental, Chivalric, Mystical and Byzantine traditions. Works by Quevedo, Fray Luis de León, Cervantes, Jorge de Montemayor, Gracián, and others. (Irreg.)
- SPAN 5623 Studies in Renaissance and Baroque Poetry 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. Poetry of Garcilaso, Boscan, Fray Luis de Leon, Fernando de Herrera, Luis de Gongora, Francisco Quevedo, Lope de Vega, and others. Concepts of imitatio, cultismo, conceptismo, and the petrarchan and satirical traditions. (Irreg.)
- SPAN 5683 Studies in Modern Peninsular Prose 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. Representative writings in the development of the nineteenth- and twentieth-century Spanish narrative. The essay, short story, and novel of the Romantic, Realist, Naturalist, Modernist, Vanguard, and post Civil War periods are some of the themes to be covered. (Irreg.)

- SPAN 5693 Studies in Modern Peninsular Poetry 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. Representative poetry of modern Spain. Topics include the works of Romantic, Realist, and Modernist poetry: the Generation of '98; the Generation of '27; and post Civil War poets. Representative poets include Espronceda, Bécquer, Machado, Jiménez, Lorca, Salinas, Guillén, Diego, Alberti, Aleixandre, Cernuda, and others. (Irreg.)
- SPAN 5713 History of the Spanish Language 3 Credit Hours**
(Slashlisted with SPAN 4713) Prerequisite: SPAN 3853 and graduate standing. As an introduction to Historical Spanish Linguistics, the basic patterns of the evolution of Modern Spanish from Vulgar Latin, as shown in several major literary texts will be learned. Provides an understanding of how the Modern Spanish sound system evolved from the Vulgar Latin of the Iberian Peninsula. Emphasizes as well all four language skills (hearing, speaking, reading, and writing) and culture. No student may earn credit for both 4713 and 5713. (F, Sp)
- SPAN 5723 Studies in Modern Peninsular Drama 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. Representative writers and works of the modern Spanish theater. Topics include Romanticism, Realism, Expressionism, theater of the absurd., and the Esperpento. Dramatic works of Valle Inclán, Garcia Lorca, Buero Vallejo, Alfonso Sastre, and others will be included. (Irreg.)
- SPAN 5910 Problems in Research 2-4 Credit Hours**
2 to 4 hours. May be repeated with change of content; maximum credit nine hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (F, Sp, Su)
- SPAN 5923 Teaching Of Spanish In The United States 3 Credit Hours**
(Slashlisted with SPAN 4923) Prerequisite: graduate standing and Spanish proficiency. A theoretical and practical introduction to teaching of Spanish in the United States. The theoretical component of the course incorporates major contemporary notions about Second Language Acquisition (SLA) and Second Language Teaching (SLT). The practical component of the course focuses on professional development as an instructor, roles of instructor and student, and day-to-day classroom activities. No student may earn credit for both 4923 and 5923. (F, Sp)
- SPAN 5930 Seminar in Spanish Literature 1-3 Credit Hours**
1 to 3 hours. May be repeated with change of subject matter; maximum credit nine hours. (F, Sp)
- SPAN 5940 Seminar in Spanish-American Literature 1-3 Credit Hours**
1 to 3 hours. May be repeated with change of subject matter; maximum credit nine hours. (F, Sp)
- SPAN 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- SPAN 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- SPAN 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp)
- SPAN 5990 Independent Studies 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit twelve hours. Independent reading on one or more topics under the general direction of a faculty member. (F, Sp, Su)
- SPAN 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- SPAN 6970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- SPAN 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp)
- SPAN 6990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- TESL 5113 Phonetics for ESL 3 Credit Hours**
Prerequisite: graduate standing, MA TESOL majors only. Introduces the study of human speech sounds and relates this to teaching ESL; physiology of the vocal tract and how the parts shape sounds; the International Phonetic Alphabet and its interpretation. Students practice transcribing sounds and complete a phonetic description of how a language differs from English in its sound system. (Irreg.)
- TESL 5123 Second Language Acquisition Theory for ESL 3 Credit Hours**
Prerequisite: graduate standing, MA TESOL majors only. Covers the essential topics that underlie English language acquisition, with special emphasis on those that will be most pertinent to students who will be teaching English as a Second Language. Topics include age, individual differences, aptitude, cognition, affect, motivation, the learner environment, and social dimensions of learning. (Irreg.)
- TESL 5133 General Linguistics for ESL 3 Credit Hours**
Prerequisite: graduate standing, MA TESOL majors only. Covers the essential topics that underlie linguistics, with special emphasis on those that will be most pertinent to students who will be teaching English as a Second Language. Topics include morphology, phonology, semantics, pragmatics, language and the brain, and sociolinguistics, with review of phonetics and grammatical structure. (Irreg.)
- TESL 5143 Structure of the English Language 3 Credit Hours**
Prerequisite: graduate standing, MA TESOL majors only. Provides in-depth understanding of the grammatical, syntactical and other features of English as they are taught by teachers of ESL to non-native speakers. Topics will include recent theories of grammar and acquisition; taxonomy and rules of English; strategies for teaching simple and complex constructions; and strategies for recognizing and addressing language interference and learner needs. (F)

TESL 5233 ESL Methods and Techniques 3 Credit Hours

Prerequisite: graduate standing and MA TESOL majors only. Explores the intersection of second language acquisition theory and history, applied linguistics, and ESL methods and techniques related to teaching ESL. Examines new research grounded in sociolinguistics, behavioral linguistics and related fields. Explores how digital and social media innovations are transforming the field and can benefit student outcomes. (F)

TESL 5333 Understanding Cultures for ESL 3 Credit Hours

Prerequisite: graduate standing and MA TESOL majors only. Examines the interaction between language and culture, with application to teaching ESL. Explores how culture is defined and manifested, its influence on identity and self-concept, how cultural differences affect perceptions and interactions, and culture in the ESL classroom. Grounded in constructivist theories of formal schooling, the course trains culturally responsive teachers. (Irreg.)

TESL 5433 ESL Curriculum 3 Credit Hours

Prerequisite: graduate standing; MA TESOL majors only. Introduces students to learner-centered pedagogy and needs-based ESL curriculum. Students use the procedures to design ELL courses and materials. Through needs-assessment, students explore an outcomes-based curriculum planning process and identify curricular goals and objectives. Introduces the range of technologies and software for ELL's; students evaluate their usefulness to teach using CALL. (Sp)

TESL 5443 ESL Testing and Assessment 3 Credit Hours

Prerequisite: graduate standing, MA TESOL majors only. Provides fundamental principles for evaluating and designing assessment processes in ESL classes. Focuses on the most common pedagogical challenge: classroom based assessment for ELLs. Presents treatment of assessing all four macro skills. Considers the validity and utility of standardized tests, the ethics of testing and alternatives in assessment in ESL. (Sp)

TESL 5553 Teaching ESL Reading/ Writing/ Listening/ Speaking 3 Credit Hours

Prerequisite: graduate standing, MA TESOL majors only, GRAD 5113, GRAD 5123, GRAD 5143. Enables students to identify cultural learning strategies in the ESL/ELL paradigm and use that understanding to overcome barriers to learning in regards to the four macro skills. Analyzes learning and scaffolding techniques to build skills by evaluating metacognitive strategies. Emphasizes classroom management and professionalism. (Su)

TESL 5945 Internship in TESOL 5 Credit Hours

Prerequisite: Graduate standing and MA TESOL majors only. A 150-hour field component in which students observe, assist, and teach in an approved ESL setting. Students analyze and reflect upon their own professional knowledge in the field of TESOL with the aid of an instructor and fellow participants. Enables the students to plan future professional development. (Sp)

Total Credit Hours **56**

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.

- At least 15 semester hours of upper-division major work must be completed in residence at OU.

- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Arabic major requirements.

CHIN 2223	Intermediate Chinese (Continued)	3
CHIN 3113	Advanced Chinese I	3
CHIN 4993	Senior Capstone for Chinese	3
Choose at least four of the following:		12
CHIN 3223	Advanced Chinese II	
CHIN 3323	Advanced Listening and Speaking	
CHIN 3623	Business Chinese	
CHIN 4113	Advanced Reading and Writing	
CHIN 4333	Translating Chinese	
CHIN 4533	Learning Chinese through Media	
CHIN 4543	Study of Classical Chinese and Calligraphy	
Choose at least three of the following:		9
MLLL 3753	Modern Chinese Literature and Culture	
MLLL 3763	Chinese Cinema	
MLLL 4453	Introduction to Chinese Language and Linguistics	
MLLL 4753	The Chinese Way of Thinking: Language, Culture, & Cognition	
Total Credit Hours		33

Major Support Requirements

Code	Title	Credit Hours
Choose one of the following:		3
MLLL 1003	Introduction to Chinese Myths & Folklore	
A course in Chinese history approved by Chinese advisor (p. 556)		
A course in Chinese philosophy or Chinese politics approved by Chinese advisor (p. 556)		
Optional		
Majors are encouraged to pursue study abroad opportunities in China		
Total Credit Hours		3

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
<i>Artistic Forms</i>		

Choose one course from the General Education Artistic Forms list		3
<i>Western Culture</i>		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
<i>World Culture</i>		
Choose one course from the General Education World Culture list		3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>		
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses

taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Chinese major requirements.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/genesd/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
------	-------	--------------

Core Area I: Symbolic and Oral Communication

English Composition (6 hours)

ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	

Language (0-13 hours in the same language)

The college requirement cannot be met by high school coursework.

Beginning Course	0-5
Beginning Course, continued	0-5
Intermediate Course (2000 level) ^{1,2}	0-3

Mathematics (3 hours)

Choose one course from the General Education Mathematics list

Core Area II: Natural Science (7 hours, including one laboratory component)

Biological Science

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO¹

Physical Science

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS¹

Core Area III: Social Science (6 hours)

P SC 1113 American Federal Government

Choose one course from the General Education Social Science list

Core Area IV: Arts and Humanities (18 hours)

Artistic Forms

Choose one course from the General Education Artistic Forms list

Western Culture

HIST 1483 United States to 1865
or HIST 1493 United States, 1865 to the Present

Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)

World Culture

Choose one course from the General Education World Culture list

Additional Core IV Upper-Division Arts & Humanities courses

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3}

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3}

Core Area V: First Year Experience (3 hours)

Choose one course

Total Credit Hours 56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Italian major requirements.

Major Support Requirements**Language Study Experience**

The student will demonstrate significant experience in language study, according to the following criteria:

- For students who are native English speakers, the language support requirement may be met by either:
 - A major or minor in a world language; **or**
 - Two years of college instruction in one world language, plus one year of college instruction in a second world language. **or**
 - Two years of college instruction in one world language plus C S 1303 and C S 1323
- For students who are native speakers of a language other than English and for whom English is not their native language, the requirement will be met by:
 - Proficiency in the native language as demonstrated by testing out at the third year level (equivalent to the minor), with guidance by the departmental advisor, **or**

- Satisfaction of the College of Arts and Sciences language requirement in a language other than the native language.

NOTE

- One year of language study includes two semesters of introductory courses.
- Two years includes two semesters of introductory courses plus two semesters of intermediate study.

Choose one course from the General Education World Culture list		3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>		
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		3

Core Area V: First Year Experience (3 hours)

Choose one course	3
Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Modern Languages, Literatures, and Linguistics academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Russian major requirements.

Arabic, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 9

Program Code: N032

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Arabic program in the Modern Languages Department.

Required Courses

Students must successfully complete at least 18 hours of coursework in Arabic, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
ARAB 2013	Colloquial Arabic	3
ARAB 2113	Intermediate Arabic	3
ARAB 2223	Intermediate Arabic Continued	3
ARAB 3113	Advanced Arabic	3
ARAB 3223	Advanced Arabic (Continued)	3
Select one of the following:		3
MLLL 3413	Arabic Literature and Culture	
MLLL 3463		
Total Credit Hours		18

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Chinese, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 9

Program Code: N180

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Chinese program in the Modern Languages Department.

Required Courses

Students must successfully complete at least 18 hours of coursework in Chinese or MLLL related to China/Chinese, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Italian, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 12

Program Code: N606

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

A grade of C or better must be earned for each course presented for minor credit.

Requests to substitute a minor requirement must be approved in writing by the Italian program in the Department of Modern Languages, Literature, & Linguistics.

Required Courses

Students must successfully complete at least 18 hours of coursework in Italian, including at least 12 hours at the upper-division level.

Code	Title	Credit Hours

- **Students must demonstrate reading competency in a second language. In order to do so, they may take the departmental graduate reading exam or complete two semesters or ten hours in another language.**
- **No more than one-half of the credits for the degree (OU, or OU and transfer combined), excluding research for the thesis (FR 5980), may be S/U graded coursework.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Department of Native American Studies

Farina King, Ph.D., Interim Department Chair
 Copeland Hall, Room 235
 860 Van Vleet Oval
 Norman, OK 73019-3119
 (405) 325-2312
nas@ou.edu
nas.ou.edu

General Information

The Department of Native American Studies—one of the leading such programs in the nation—attracts and serves students of diverse backgrounds and academic interests who are committed to using distinctly Native American perspectives to place the sovereignty of Native nations and the cultures of Native peoples at the center of academic study.

The University of Oklahoma Department of Native American Studies recognizes the complexity and diversity of Indian Country. And significantly, we are representative of that diversity. Our faculty, staff, students, and alumni are both Native and non-Native. We represent federally recognized tribes, state-recognized tribes, and unrecognized tribes. We are citizens of dozens of tribal political entities and are related through kinship and cultural practice to many, many more indigenous communities. Some among us are tribally enrolled citizens; others are not. Some are fluent speakers of our Native languages; others are not. Some engage in traditional religious practices; others do not. Some powwow, some stomp. We are urban, reservation, and rural. We are local and global. Our complexions vary; our gender expressions and identities vary. We hold many divergent philosophies and perspectives, and we welcome the vigorous and collegial debate of those perspectives.

Together, we are committed to using distinctly Indigenous perspectives to place the sovereignty of Native nations and the cultures of Native peoples at the center of academic study and community-engaged research.

Together, we are committed to providing a deeper understanding of the unique political status of tribes and to examining contemporary tribal issues, as well as tribal cultures and histories.

Together, we represent and embrace the complexity, vibrancy, and diversity that is Indian Country.

Programs & Facilities

Native American Language Program

The University of Oklahoma is honored to serve as a place where Indigenous languages are preserved and revitalized. The Native American Language Program faculty is comprised of both first language and second language speakers who have training in linguistics. Our language courses combine lessons in the grammar of the language with vocabulary lessons and supplementary material and activities designed to situate language learning in cultural and historical context. Considerable class time is spent on conversation, but students also learn to read and write in the language.

Sam Noble Museum - Native American Languages Collection

The Native American Languages collection (NAL) at the Sam Noble Oklahoma Museum of Natural History is an archival repository for materials in and pertaining to the Indigenous languages of the Americas, with a specialization in the Indigenous languages of the central United States. The collection currently contains over 8,500 items representing 315 languages, with another ~800 languages represented in the reference collection. The collection itself consists of a climate-controlled archival space, a digitization lab, a recording studio, a reading room, and a reference library with supplementary materials on Native American languages, linguistics, archaeology, and ethnology. NAL is also a backup repository for a number of tribal archives in Oklahoma, and

the department actively participates in a wide variety of collaborative projects with Native communities.

NAL supports to the local community by providing audio/video recording services and free digitization of cassettes, reel-to-reels, miniDV tapes, Hi-8 tapes, vinyl records, and VHSs for media that contains Native languages.

NAL partners with the Sam Noble Museum, the Department of Native American Studies and the OU Native Nations Center to host the annual Oklahoma Native American Youth Language Fair. This unique event attracts over 1,000 students from pre-K to 12th grades who are learning their Native languages. In 2017, the Fair was awarded the University Museums and Collections Award from the International Council of Museums, which is a reflection of the impact the program has had on our Native community over the past 17 years.

NAL offers an internship and an independent study that provide course credit for archival training and work in the archive.

Students and members of the public can also volunteer in the collection at any time by contacting the Sam Noble Museum volunteer office.

Internship and Practicum Program

NAS students at the undergraduate and graduate levels are able to participate in a planned work experience related to personal career and academic goals. The Internship and Practicum Program helps students learn about possible careers, apply knowledge gained in the classroom, develop skills, and better understand how individuals relate to the workplace. Service to Native peoples in their communities and nations is a primary focus of the NAS internship and practicum experiences.

Andrew W. Mellon Foundation Impact Fellowship Program

Native American Studies and the OU Native Nations Center received a generous grant from the Andrew W. Mellon Foundation to support the development of an undergraduate fellowship in Native American and Indigenous Studies. The program will begin Fall 2021. The fellowship will emphasize experiential learning, faculty mentorship, and transferable skills. Mellon Impact Fellows will take three required classes in Native American Studies, including an internship that will emphasize professionalization. Fellow will receive a \$5,000 stipend to assist with the costs of a required internship at the end of their two-year term. Graduates of this program will be in a strong position to transition into careers or undertake further graduate or professional education. Visit our website for more information and to apply.

Undergraduate Study

The undergraduate major and minor in Native American Studies use distinctly Native American perspectives to place the sovereignty of Native nations and the cultures of Native peoples at the center of academic study. In addition to core classes in Indigenous theory and research methods, the Native American Studies curriculum currently supports intensive study in three interrelated areas of emphasis that are synthetic and interdisciplinary in nature: Tribal Governance and Policy; Indigenous Media and Arts; and Language, History, and Cultural Knowledge. The curriculum is, at the same time, focused and flexible. Students are encouraged to combine areas of emphasis according to their own scholarly and professional goals.

- Native American Studies, B.A. (p. 588)
- Native American Studies, Minor (p. 590)

Graduate Study

Master of Arts

The Master of Arts (p. 591) in Native American Studies uses distinctly Native American perspectives to place the sovereignty of Native nations and the cultures of Native peoples at the center of academic study. In addition to core classes in Indigenous theory and research methods, the Native American Studies curriculum currently supports intensive study in three interrelated areas of emphasis that are synthetic and interdisciplinary in nature: Tribal Governance and Policy; Indigenous Media and Arts; and Language, History, and Cultural Knowledge. The curriculum is, at the same time, focused and flexible. Students are encouraged to combine areas of emphasis according to their own scholarly and professional goals.

In addition, to the Master of Arts degree, students may pursue a joint Juris Doctor/M.A. Native American Studies, a Native American Studies Graduate Certificate (p. 592), or a Social Work with American Indians Graduate Certificate (p. 715).

Courses

CHER 1715 Beginning Cherokee 5 Credit Hours

Introduction to the structure of the Cherokee language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp) [I-FL].

CHER 1725 Beginning Cherokee-Continued 5 Credit Hours

Prerequisite: 1715. A continuation of the study of the structure of the Cherokee language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community are emphasized. (Sp) [I-FL].

CHER 2733 Intermediate Cherokee 3 Credit Hours

Prerequisite: 1723. A systematic review of the structure of the Cherokee language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

CHER 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CHOC 1715 Beginning Choctaw 5 Credit Hours

Introduction to the structure of the Choctaw language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp) [I-FL].

CHOC 1725 Beginning Choctaw-Continued 5 Credit Hours

Prerequisite: 1715. A continuation of the study of the structure of the Choctaw language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community are emphasized. (Sp) [I-FL].

CHOC 2733 Intermediate Choctaw 3 Credit Hours

Prerequisite: 1723. A systematic review of the structure of the Choctaw language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

CHOC 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CREK 1715 Beginning Creek/Seminole 5 Credit Hours

Introduction to the structure of the Creek/Seminole language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp) [I-FL].

CREK 1725 Beginning Creek/Seminole-continued 5 Credit Hours

Prerequisite: 1715. A continuation of the study of the structure of the Creek/Seminole language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community are emphasized. (F, Sp) [I-FL].

CREK 2733 Intermediate Creek/Seminole 3 Credit Hours

Prerequisite: 1725. A systematic review of the structure of the Creek/Seminole language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

CREK 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

KIOW 1715 Beginning Kiowa 5 Credit Hours

Introduction to the structure of the Kiowa language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp)[I-FL].

KIOW 1725 Beginning Kiowa Continued 5 Credit Hours

Prerequisite: KIOW 1715 or permission of the department or instructor. A continuation of KIOW 1715. The students will build upon their prior knowledge of symbols, diacritic marks, sounds and tones necessary to read, write, speak and comprehend Beginning Kiowa with a predetermined set of vocabulary, sentences, and basic conversation. (F, Sp)[I-FL].

KIOW 2733 Intermediate Kiowa 3 Credit Hours

Prerequisite: 1723. A systematic review of the structure of the Kiowa language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

KIOW 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

- NAS 1013 Introduction to Native American Studies 3 Credit Hours**
This course will introduce students to key concepts and methods in the study of American Indian history, culture, and contemporary governance and socio-economic status. (F, Sp) [IV-WDC].
- NAS 1715 Potawatomi Language I 5 Credit Hours**
Through a partnership between the Citizen Potawatomi Nation Language Department and the university, this language course will introduce students to the culture, history, phonology, morphology, syntax, conversational practice, and vocabulary of Bodewadmimwen (Potawatomi Language) using an online platform. Framed in a seasonal context, four modules guide students through a Potawatomi-centered worldview to create story-listeners and -tellers. (F, Sp)
- NAS 2013 Foundations in Native American Sovereignty 3 Credit Hours**
Prerequisite: Sophomore standing. Introduces the key concepts and methods in the discipline of Native American Studies. Examines the scope and nature of tribal sovereignty and self-government. Students will gain understanding of the historical origins of the current laws and policies that constitute the political foundations of sovereignty for Native peoples. (Irreg.)
- NAS 2203 Chickasaw Humanities 3 Credit Hours**
This course will give students an overview of Chickasaw humanities through exploring the Chickasaw history, culture and language in contemporary and historical context. Students will gain an understanding of a non-western culture while comparing and contrasting it to Western culture. Topics covered include indigenous and Chickasaw worldview, Chickasaw historical events, governmental structure, language and art. (F)
- NAS 3013 Native American Studies Internship 3 Credit Hours**
Prerequisite: permission of instructor. Participation in a supervised work experience. Grade is based on work performance, regular reports and journals, and on-site supervisor's evaluation. (F, Sp, Su)
- NAS 3113 Native American Philosophy 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. A survey of systems of understanding and explaining the relationships between human beings and the natural world in Native American cultures including; concepts of power, spirituality, and ceremonialism; ethical systems; and culturally based ways of knowing. (F) [IV-WDC].
- NAS 3123 Gender and Sexuality in Native North America 3 Credit Hours**
Prerequisite: junior standing. Study of gender and sexuality that is indigenous to North American tribal groups, focusing on the status of pre-colonial gender-non-normative peoples. Emergent analyses within Native studies will point to the gendered nature of colonialism by interrogating Western ontological models from Victorian-era and early anthropological ideas about sexuality. (Sp) [IV-WDC].
- NAS 3313 Introduction to Native Peoples and Sustainability 3 Credit Hours**
Prerequisite: junior standing. Explores the concept of sustainability from a Native perspective, and as it applies to Native peoples. Emphasis is placed on cultural resilience and identity, human-environment relationships, policy and politics of tribal sovereignty in Native North America. (F)
- NAS 3323 Tribal Service Learning 3 Credit Hours**
Prerequisite: junior standing. Exploration of contemporary issues relevant to Native American tribes and communities, utilizing critical thinking and problem-solving skills relevant to contemporary issues within the Indian Country to develop and implement a service project for a tribe or Native American community. (F, Sp)
- NAS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- NAS 3513 Native American Film 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. A critical investigation of the role that film, as an art genre, has played in creating the general public's idea of the American Indian, and its construction of images representing that idea. (Irreg.)
- NAS 3693 Special Topics 3 Credit Hours**
Prerequisite: six hours of NAS courses. May be repeated twice with a change in topic. Covers topics of special interest to NAS such as politics and tribal government, contemporary health issues, educational policies and trends, and tribal culture in the U.S. and Oklahoma. (F, Sp, Su)
- NAS 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors Program and permission of instructor. May be repeated with change of content; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. This course will allow the honors candidate the opportunity to study materials not offered in other courses. (F, Sp, Su)
- NAS 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- NAS 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated with change of content; maximum credit six hours. The study of issues related to Native American Studies for the gifted Honors candidate allowing him/her to work on a special project. (F, Sp, Su)
- NAS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: six hours of NAS major courses and permission of instructor. May be repeated; maximum credit six hours. Work on a topic of the student's choosing taken under the direct supervision of a faculty member. May involve directed reading and research or participation in a community-based activity. Students will be required to give a written report or research papers. (F, Sp)
- NAS 4033 Indigenous Research Methods 3 Credit Hours**
(Slashlisted with NAS 5033) Prerequisite: Junior standing. Introduction to research methods in Native American Studies with an emphasis on interdisciplinarity. Students will be introduced to the range of methods available for analysis, and to the presentation of research results. Students will formulate a research proposal that includes problem identification, recommendation and justification of methods for analysis, and preparation of a critical literature review. Emphasis on Indigenous methodologies. No student may earn credit for both 4033 and 5033. (Irreg.)
- NAS 4043 Sovereignty, Law, and Policy 3 Credit Hours**
(Slashlisted with NAS 5043) Prerequisite: junior standing or permission of instructor. Explores what constitutes the basic nature of political sovereignty and how it is exercised in Native American communities and what the possibilities and limitations are for tribal governments. No student may earn credit for both NAS 4043 and NAS 5043. (Irreg.)

- NAS 4053 Senior Capstone 3 Credit Hours**
Prerequisite: senior standing. Provides a culminating experience giving students the opportunity to incorporate knowledge gained through previous coursework. Students will integrate this knowledge into a final project. (Sp) [V].
- NAS 4063 Critical Indigenous Theory 3 Credit Hours**
(Slashlisted with NAS 5063) Prerequisite: senior standing. Seeks to transcend disciplinary boundaries and ground scholarly inquiry in Indigenous frameworks that reflect Native-centered concerns and objectives. Provides an alternative philosophical and theoretical toolkit for applying Indigenous methodologies, understanding strategies of decolonization, envisioning collective and individual agency and models of sovereignty, and examining the intersection of Indigenous intellectual production and lived experiences. No student may earn credit for both 4063 and 5063. (F)
- NAS 4113 Oklahoma Tribal History 3 Credit Hours**
(Slashlisted with NAS 5113) Prerequisite: junior standing. A survey of Native American history for the area known today as Oklahoma and the surrounding region. Explores the general concepts and histories of the region from a Native perspective. Discussion of Oklahoma tribal experiences in the context of regional and national experiences. Examines the Oklahoma Native experience through the world-views and words of Native Americans. No student may earn credit for both 4113 and 5113. (Irreg.)
- NAS 4133 Tribal Historic Preservation 3 Credit Hours**
(Slashlisted with NAS 5133) Prerequisite: junior standing or permission of instructor. Provides basic grounding in processes necessary to understand and participate in the federal tribal historic preservation program. Students will receive material and insights to help them gain skills in understanding laws and regulations relating to the federal historic preservation system. No student may earn credit for both 4133 and 5133. (Irreg.)
- NAS 4143 Native American Graves Protection and Repatriation 3 Credit Hours**
(Slashlisted with NAS 5143) Prerequisite: Junior standing. This course will be centered on Native American historic preservation as it is concerned with the history of protection and repatriation of Native American human remains and associated objects. Legislative histories and U. S. and international laws dealing with Native American human remains will be examined in the context of human rights legislation informed by tribal histories and current practices. No student may earn credit for both 4143 and 5143. (Irreg.)
- NAS 4153 Indigenous Mapping: Issues in Data Sovereignty and Security 3 Credit Hours**
(Slashlisted with NAS 5153) Prerequisite: Junior standing. This course will be centered on the discipline of Indigenous mapping and the resulting issues confronted in dealing with data sovereignty and security for Native American tribes. This course deals with specific Native American methodologies related to Geographic Information Systems (GIS) and the application of this technology to tribal initiatives. No student may earn credit for both 4153 and 5153. (Irreg.)
- NAS 4163 Native Food Sovereignty 3 Credit Hours**
(Slashlisted with NAS 5163) Prerequisite: Junior standing. This course focuses on Indigenous practices and concepts as it applies to the food sovereignty of the Native Americas using comparative data from across time and place. Of special interest are the dynamic connections between native foods and the health of people and place and the impacts of colonization and rapid cultural change. No student may earn credit for both 4163 and 5163. (Irreg.)
- NAS 4213 Intro to Language Documentation and Revitalization 3 Credit Hours**
(Slashlisted with NAS 5213) Prerequisite: Junior standing or departmental permission. We look at different strategies for language revitalization, and students investigate ways to use old and new language documentation in language revitalization. Topics include the differences and overlap between language documentation and description, how languages change in endangerment, what goes into the complete description of a language, types of language revitalization programs, and case studies of successes and troubles. No student may earn credit for both 4213 and 5213. (Irreg.)
- NAS 4223 Survey of Native American Languages 3 Credit Hours**
(Slashlisted with NAS 5223) Prerequisite: Junior standing or departmental permission. This class addresses the linguistic and structural diversity of the Americas, as well as topics like areal diffusion and language contact. Knowledge of this type, besides being necessary background for anyone wanting to specialize in languages of the Americas, is additionally useful for knowing how particular languages students may be interested in fit into the linguistic fabric of the world. No student may earn credit for both 4223 and 5223. (Irreg.) [III-SS].
- NAS 4233 Language Acquisition for Revitalization 3 Credit Hours**
(Slashlisted with NAS 5233) Prerequisite: Junior standing or departmental approval. This class deals with the intimate relationship between language revitalization and the science of creating new speakers, with the goal of taking experimental research in language acquisition and applying those findings to minority language revitalization contexts. No student may earn credit for both 4233 and 5233. (Irreg.)
- NAS 4243 Methods of Language Documentation 3 Credit Hours**
(Slashlisted with NAS 5243) Prerequisite: Junior standing or departmental permission. This class is a hands-on practicum in the latest and greatest in language documentation, and prepares you to go make professional-level recordings, video documentation, and essential secondary materials for language documentation. No student may earn credit for both 4243 and 5243. (Irreg.)
- NAS 4333 American Indian Health Issues and Concerns 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Historical information about American Indians with emphasis on health, including behavioral health, and tribal/Indian health service policy issues. Discusses traditional medicine and healing, research needs related to American Indian health, and career opportunities in health professions. (Irreg.)
- NAS 4343 American Indian Education Policy and Development 3 Credit Hours**
(Slashlisted with NAS 5343) Prerequisite: junior standing or permission of instructor. Enables students to come to an understanding of American Indian education history and policy as related to western European educational thought, philosophies, theories, and practices. No student may earn credit for both 4343 and 5343. (Sp) [III-SS].
- NAS 4353 Introduction to Tribal Economic Development 3 Credit Hours**
(Slashlisted with NAS 5353) Prerequisite: junior standing. Introduces students to the concept of tribal economic development and the relevant issues facing tribal, local, state, and federal agencies. Examines theories and roles of tribal economic development as they relate to the survival and continuation of tribal governments. No student may earn credit for both 4353 and 5353. (Irreg.) [III-SS].

- NAS 4363 Tribal Governance and Leadership 3 Credit Hours**
(Slashlisted with NAS 5363) Prerequisite: junior standing. Examines traditional and contemporary forms of tribal government and leadership. Students will be exposed to the historical development of modern tribal governments through examination of government policies and legislation. Explores contemporary issues in tribal government and styles of tribal leadership. No student may receive credit for both 4363 and NAS 5363. (Irreg.)
- NAS 4373 International Indigenous Issues 3 Credit Hours**
(Slashlisted with NAS 5373) Prerequisite: Sophomore standing. This seminar explores the contemporary politics of Indigenous Peoples and settler societies. It takes a sociological, legal, political and anthropological approach to how politics operate within and around Indigenous Peoples. By using a comparative perspective, it examines the dynamics of critical relationships in terms of national, regional and global political order. No student may earn credit for both 4373 and 5373. (Irreg.)
- NAS 4423 Issues in Native American Environment and Sustainability 3 Credit Hours**
(Slashlisted with NAS 5423) Prerequisite: Junior standing. This course will be centered on current issues in Native American environment and sustainability. This course will focus on the interrelationships of people, their environments, their philosophies and cosmologies, ethics, histories and health. No student may earn credit for both 4423 and 5423. (Irreg.)
- NAS 4433 Native American Women 3 Credit Hours**
(Slashlisted with NAS 5433) Prerequisite: Junior standing. The objective of this course is to provide students with a range of learning experiences that familiarizes them with Indigenous women in traditional and contemporary societies. Students will explore historical and contemporary issues relevant to Indigenous women, examine the multifaceted roles of Indigenous women, and analyze the complexities of Indigenous women within a settler colonial society. No student may earn credit for both 4433 and 5433. (Irreg.)
- NAS 4513 Native Cultural Aesthetics & the Heritage Industry 3 Credit Hours**
(Slashlisted with NAS 5513) Prerequisite: junior standing. Focus on aspects of heritage tourism pertaining to Native American experience in the United States from early 19th century to present, examining ways of life of tribes in the form of buildings, art, artifacts, and customs. No student may earn credit for both 4513 and 5513. (Irreg.) [IV-WDC].
- NAS 4533 Contemporary Native American Artists 3 Credit Hours**
(Slashlisted with NAS 5533) Prerequisite: Junior standing or Departmental Permission. This course introduces a contemporary tribal and textual diversity of the Indigenous arts and peoples of Native North America. By engaging with Indigenous aesthetics, Native artists' critical and creative ways of expression, and multiple modes of media, we will analyze material, visual, and aural art and artists through Indigenous-centered lenses. No student may earn credit for both 4533 and 5533. (Irreg.) [IV-NW].
- NAS 4713 Indigenous Community Planning 3 Credit Hours**
(Slashlisted with NAS 5713) Prerequisite: Junior standing or departmental permission. We will conceive of futures for Indigenous communities and delve into Indigenous planning and create a planning document. Related to that are Indigenous culture, land tenure, values, MMIW, and accountability to past, present, and future Indigenous community members. No student may earn credit for both 4713 and 5713. (Sp)
- NAS 4723 Spatial Storytelling 3 Credit Hours**
(Slashlisted with NAS 5723) Prerequisite: Junior Standing or departmental permission. This course will analyze and respond to the ongoing settler colonial structural impacts on spaces and places and the concomitant role of power relations in shaping community and culture. Students will learn low-tech and high-tech approaches to designing and carrying out community map biographies and stories that advocate for social transformation, as well as produce less-told spatial narratives. No student may earn credit for both 4723 and 5723. (Irreg.)
- NAS 4923 Contemporary Issues in Native American Studies 3 Credit Hours**
(Slashlisted with NAS 5923) Prerequisite: junior standing. Familiarizes and sensitizes students to dynamics of change relevant to prevailing issues and concerns among American Indian entities with a special focus on tribal development/progress. No student may earn credit for both 4923 and 5923. (Irreg.) [IV-NW].
- NAS 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- NAS 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of topic; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library research or special projects. (Irreg.)
- NAS 4990 Independent Study 1-3 Credit Hours**
Prerequisite: nine hours of NAS courses and permission of Program Director or instructor. May be repeated; maximum credit six hours. The study of issues related to Native American Studies to include research and special projects. (F, Sp, Su)
- NAS 5033 Indigenous Research Methods 3 Credit Hours**
(Slashlisted with NAS 4033) Prerequisite: Graduate standing. Introduction to research methods in Native American Studies with an emphasis on interdisciplinarity. Students will be introduced to the range of methods available for analysis, and to the presentation of research results. Students will formulate a research proposal that includes problem identification, recommendation and justification of methods for analysis, and preparation of a critical literature review. Emphasis on Indigenous methodologies. No student may earn credit for both 4033 and 5033. (Irreg.)
- NAS 5043 Sovereignty, Law, and Policy 3 Credit Hours**
(Slashlisted with NAS 4043) Prerequisite: graduate standing. Explores what constitutes the basic nature of political sovereignty and how it is exercised in Native American communities and what the possibilities and limitations are for tribal governments. No student may earn credit for both NAS 4043 and NAS 5043. (Irreg.)
- NAS 5063 Critical Indigenous Theory 3 Credit Hours**
(Slashlisted with NAS 4063) Prerequisite: graduate standing or student in the College of Law. Seeks to transcend disciplinary boundaries and ground scholarly inquiry in Indigenous frameworks that reflect Native-centered concerns and objectives. Provides an alternative philosophical and theoretical toolkit for applying Indigenous methodologies, understanding strategies of decolonization, envisioning collective and individual agency and models of sovereignty, and examining the intersection of Indigenous intellectual production and lived experiences. No student may earn credit for both NAS 4063 and NAS 5063. (F)

- NAS 5113 Oklahoma Tribal History 3 Credit Hours**
(Slashlisted with NAS 4113) Prerequisite: graduate standing. A survey of Native American history for the area known today as Oklahoma and the surrounding region. Explores the general concepts and histories of the region from a Native perspective. Discussion of Oklahoma tribal experiences in the context of regional and national experiences. Examines the Oklahoma Native experience through the world-views and words of Native Americans. No student may earn credit for both 4113 and 5113. (Irreg.)
- NAS 5133 Tribal Historic Preservation 3 Credit Hours**
(Slashlisted with NAS 4133) Prerequisite: Graduate standing. Provides basic grounding in processes necessary to understand and participate in the federal tribal historic preservation program. Students will receive material and insights to help them gain skills in understanding laws and regulations relating to the federal historic preservation system. No student may earn credit for both 4133 and 5133. (Irreg.)
- NAS 5143 Native American Graves Protection and Repatriation 3 Credit Hours**
(Slashlisted with NAS 4143) Prerequisite: Graduate standing. This course will be centered on Native American historic preservation as it is concerned with the history of protection and repatriation of Native American human remains and associated objects. Legislative histories and U. S. and international laws dealing with Native American human remains will be examined in the context of human rights legislation informed by tribal histories and current practices. No student may earn credit for both 4143 and 5143. (Irreg.)
- NAS 5153 Indigenous Mapping: Issues in Data Sovereignty and Security 3 Credit Hours**
(Slashlisted with NAS 4153) Prerequisite: Graduate standing. This course will be centered on the discipline of Indigenous mapping and the resulting issues confronted in dealing with data sovereignty and security for Native American tribes. This course deals with specific Native American methodologies related to Geographic Information Systems (GIS) and the application of this technology to tribal initiatives. No student may earn credit for both 4153 and 5153. (Irreg.)
- NAS 5163 Native Food Sovereignty 3 Credit Hours**
(Slashlisted with NAS 4163) Prerequisite: Graduate standing. This course focuses on Indigenous practices and concepts as they apply to the food sovereignty of the Native Americas using comparative data from across time and place. Of special interest are the dynamic connections between native foods and the health of people and place and the impacts of colonization and rapid cultural change. No student may earn credit for both 4163 and 5163. (Irreg.)
- NAS 5213 Intro to Language Documentation and Revitalization 3 Credit Hours**
(Slashlisted with NAS 4213) Prerequisite: Graduate standing. We look at different strategies for language revitalization, and students investigate ways to use old and new language documentation in language revitalization. Topics include the differences and overlap between language documentation and description, how languages change in endangerment, what goes into the complete description of a language, types of language revitalization programs, and case studies of successes and troubles. No student may earn credit for both 4213 and 5213. (Irreg.)
- NAS 5223 Survey of Native American Languages 3 Credit Hours**
(Slashlisted with NAS 4223) Prerequisite: Graduate standing. This class addresses the linguistic and structural diversity of the Americas, as well as topics like areal diffusion and language contact. Knowledge of this type, besides being necessary background for anyone wanting to specialize in languages of the Americas, is additionally useful for knowing how particular languages students may be interested in fit into the linguistic fabric of the world. No student may earn credit for both 4223 and 5223. (Irreg.)
- NAS 5233 Language Acquisition for Revitalization 3 Credit Hours**
(Slashlisted with NAS 4233) Prerequisite: Graduate standing. This class deals with the intimate relationship between language revitalization and the science of creating new speakers, with the goal of taking experimental research in language acquisition and applying those findings to minority language revitalization contexts. No student may earn credit for both 4233 and 5233. (Irreg.)
- NAS 5243 Methods of Language Documentation 3 Credit Hours**
(Slashlisted with NAS 4243) Prerequisite: Graduate standing. This class is a hands-on practicum in the latest and greatest in language documentation and prepares students to make professional-level recordings, video documentation, and essential secondary materials for language documentation. No student may earn credit for both 4243 and 5243. (Irreg.)
- NAS 5343 American Indian Education Policy and Development 3 Credit Hours**
(Slashlisted with NAS 4343) Prerequisite: graduate standing. Enables students to come to an understanding of American Indian education history and policy as related to western European educational thought, philosophies, theories, and practices. No student may earn credit for both 4343 and 5343. (Sp)
- NAS 5353 Introduction to Tribal Economic Development 3 Credit Hours**
(Slashlisted with NAS 4353) Prerequisite: graduate standing. Introduces students to the concept of tribal economic development and the relevant issues facing tribal, local, state, and federal agencies. Examines theories and roles of tribal economic development as they relate to the survival and continuation of tribal governments. No student may earn credit for both 4353 and 5353. (Irreg.)
- NAS 5363 Tribal Governance and Leadership 3 Credit Hours**
(Slashlisted with NAS 4363) Prerequisite: graduate standing. Examines traditional and contemporary forms of tribal government and leadership. Students will be exposed to the historical development of modern tribal governments through examination of government policies and legislation. Explores contemporary issues in tribal government and styles of tribal leadership. No student may receive credit for both 4363 and 5363. (Irreg.)
- NAS 5373 International Indigenous Issues 3 Credit Hours**
(Slashlisted with NAS 4373) Prerequisite: Graduate standing. This seminar explores the contemporary politics of Indigenous Peoples and settler societies. It takes a sociological, legal, political and anthropological approach to how politics operate within and around Indigenous Peoples. By using a comparative perspective, it examines the dynamics of critical relationships in terms of national, regional and global political order. No student may earn credit for both 4373 and 5373. (Irreg.)
- NAS 5423 Issues in Native American Environment and Sustainability 3 Credit Hours**
(Slashlisted with NAS 4423) Prerequisite: Graduate standing. This course will be centered on current issues in Native American environment and sustainability. This course will focus on the interrelationships of people, their environments, their philosophies and cosmologies, ethics, histories, and health. No student may earn credit for both 4423 and 5423. (Irreg.)

NAS 5433 Native American Women 3 Credit Hours
(Slashlisted with NAS 4433) Prerequisite: Graduate standing. The objective of this course is to provide students with a range of learning experiences that familiarizes them with Indigenous women in traditional and contemporary societies. Students will explore historical and contemporary issues relevant to Indigenous women, examine the multifaceted roles of Indigenous women, and analyze the complexities of Indigenous women within a settler colonial society. No student may earn credit for both 4433 and 5433. (Irreg.)

NAS 5513 Native Cultural Aesthetics & the Heritage Industry 3 Credit Hours
(Slashlisted with NAS 4513) Prerequisite: graduate standing. Focus on aspects of heritage tourism pertaining to Native American experience in the United States from early 19th century to present, examining ways of life of tribes in the form of buildings, art, artifacts, and customs. No student may earn credit for both 4513 and 5513. (Irreg.)

NAS 5533 Contemporary Native American Artists 3 Credit Hours
(Slashlisted with NAS 4533) Prerequisite: Graduate standing. This course introduces a contemporary tribal and textual diversity of the Indigenous arts and peoples of Native North America. By engaging with Indigenous aesthetics, Native artists' critical and creative ways of expression, and multiple modes of media, we will analyze material, visual, and aural art and artists through Indigenous-centered lenses. No student may earn credit for both 4533 and 5533. (Irreg.)

NAS 5713 Indigenous Community Planning 3 Credit Hours
(Slashlisted with NAS 4713) Prerequisite: Graduate standing. We will conceive of futures for Indigenous communities, delve into Indigenous planning and create a planning document. Related to that are Indigenous culture, land tenure, values, MMIW, and accountability to past, present, and future Indigenous community members. No student may earn credit for both 4713 and 5713. (Sp)

NAS 5723 Spatial Storytelling 3 Credit Hours
(Slashlisted with NAS 4723) Prerequisite: Graduate Standing. This course will analyze and respond to the ongoing settler colonial structural impacts on spaces and places and the concomitant role of power relations in shaping community and culture. Students will learn low-tech and high-tech approaches to designing and carrying out community map biographies and stories that advocate for social transformation, as well as produce less-told spatial narratives. No student may earn credit for both 4723 and 5723. (Irreg.)

NAS 5920 Native American Studies Practicum 3 Credit Hours
Prerequisite: graduate standing. A component of the core curriculum for the master's credential within the NAS discipline. Provides learning experiences and the application of understanding and skills in American Indian related professional settings. (F, Sp, Su)

NAS 5923 Contemporary Issues in Native American Studies 3 Credit Hours
(Slashlisted with NAS 4923) Prerequisite: graduate standing. Familiarizes and sensitizes students to dynamics of change relevant to prevailing issues and concerns among American Indian entities with special focus on tribal development/progress. No student may earn credit for both 4923 and 5923. (Irreg.)

NAS 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

NAS 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of topic; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library research or special projects. (Irreg.)

NAS 5980 Research for Master's Thesis 2-6 Credit Hours
Prerequisite: graduate standing. Variable enrollment, two to six hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

NAS 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

POTA 1715 Potawatomi Language I 5 Credit Hours
Through a partnership between the Citizen Potawatomi Nation Language Department and the university, this language course will introduce students to the culture, history, phonology, morphology, syntax, conversational practice, and vocabulary of Bodewadmimwen (Potawatomi Language) using an online platform. Framed in a seasonal context, four modules guide students through a Potawatomi-centered worldview to create story-listeners and -tellers. (F, Sp)

POTA 1725 Potawatomi Language II 5 Credit Hours
Prerequisite: NAS 1715 or departmental permission. Through a partnership between the Citizen Potawatomi Nation Language Department and the university, this language course will build on the foundation of Potawatomi Language I to introduce students to the culture, history, phonology, morphology, syntax, conversational practice, and vocabulary using an online platform. Students will foster awareness of the Potawatomi worldview by gaining comprehension of culture, identity, and historic events. (F, Sp)

Native American Studies, B.A.

Minimum Total Credit Hours: 120

Major Hours: 36

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B740

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- Programs of study must be approved by the program Director and coordinating committee.

Code	Title	Credit Hours
NAS Core Requirements		
NAS 2013	Foundations in Native American Sovereignty	3
NAS 3013	Native American Studies Internship	3
NAS 4033	Indigenous Research Methods	3
NAS 4053	Senior Capstone (should be taken in the senior year)	3
NAS 4063	Critical Indigenous Theory	3
Thematic Areas of Emphasis		
Choose seven courses in one or more of the following areas: ¹		21
Cultural Knowledge, Language, & History (p. 590)		

Tribal Governance & Policy (p. 590)	
Indigenous Media & Arts (p. 590)	
Total Credit Hours	36

¹ Students may declare one or more areas of emphasis. A list of appropriate courses may be obtained from the NAS program. Appropriate courses should be selected with the guidance of the NAS advisor.

Major Support Requirements

Code	Title	Credit Hours
Native Language Requirement		
Choose two introductory courses (1000-level) or the equivalent in a Native language ¹		6-10
Total Credit Hours		6-10

¹ May be used to fulfill General Education and College requirements. May not be used to satisfy NAS Core or Area of Emphasis coursework.

Recommended Free Electives ¹

Code	Title	Credit Hours
NAS 1013	Introduction to Native American Studies	3
CHER 2733	Intermediate Cherokee	3
CREK 2733	Intermediate Creek/Seminole	3
CHOC 2733	Intermediate Choctaw	3
KIOW 2733	Intermediate Kiowa	3

¹ These courses are not major or major support work, nor are they required.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>. Courses graded P/NP will not apply.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition or EXPO 1213 Expository Writing	3
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>		

Choose one course from the General Education Mathematics list 3

Core Area II: Natural Science (7 hours, including one laboratory component)

Biological Science

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO¹ 3-4

Physical Science

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS¹ 3-4

Core Area III: Social Science (6 hours)

P SC 1113 American Federal Government 3

Choose one course from the General Education Social Science list 3

Core Area IV: Arts and Humanities (18 hours)

Artistic Forms

Choose one course from the General Education Artistic Forms list 3

Western Culture

HIST 1483 United States to 1865 3
or HIST 1493 United States, 1865 to the Present

Choose one course from the General Education Western Culture list (excluding HIST 1483/1493) 3

World Culture

Choose one course from the General Education World Culture list 3

Additional Core IV Upper-Division Arts & Humanities courses

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3} 3

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3} 3

Core Area V: First Year Experience (3 hours)

Choose one course 3

Total Credit Hours 56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Native American Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Native American Studies major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
	Math (Core I)	3
NAS 1013	Introduction to Native American Studies (Core IV-World Culture)	3
	Beginning Native American Language course	5
Credit Hours		14

Second Semester

ENGL 1213	Principles of English Composition (Core I)	3
	or EXPO 1213 or Expository Writing	
	Natural Science with lab (Core II)	3
	First Year Experience (Core V)	3
	Beginning Native American Language course, continued	5
	Free Elective, lower-division	2

NAS 5513	Native Cultural Aesthetics & the Heritage Industry	3
NAS 5533	Contemporary Native American Artists	3

Native American Studies, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N725

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP,

Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Native American Studies program.

Required Courses

Students must successfully complete at least 15 hours of courses, including at least 9 hours at the upper-division level

Code	Title	Credit Hours
NAS Core Requirements		
NAS 2013	Foundations in Native American Sovereignty	3
NAS 4063	Critical Indigenous Theory	3
Thematic Area of Emphasis		
Choose three courses from one or more of the following areas: ¹		9
Cultural Knowledge, Language, & History (p. 590)		
Tribal Governance & Policy (p. 590)		
Indigenous Media & Arts (p. 590)		
Total Credit Hours		15

¹ Students may declare one or more areas of emphasis. A list of appropriate courses in each area may be obtained from the NAS Program. Appropriate courses should be selected with the guidance of the NAS advisor.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Native American Studies, M.A.

Minimum Total Hours (Thesis): 33

Minimum Total Hours (Non-Thesis): 33

Program Code: M740

Required Courses

Thesis Option

Code	Title	Credit Hours
NAS Core Requirements		
NAS 5063	Critical Indigenous Theory	3
Choose one of the following:		3
NAS 5033	Indigenous Research Methods	
LAW 6311 & LAW 6320	American Indian Law Review and Directed Legal Research (2 hours)	
NAS 5043 or LAW 5610	Sovereignty, Law, and Policy Federal Indian Law	3

Thematic Area of Emphasis

Choose seven courses in one or more of the following: ¹		21
Cultural Knowledge, Language, & History		
Tribal Governance & Policy		
Indigenous Media & Arts		
Thesis		
NAS 5980	Research for Master's Thesis ²	3
Native Language Proficiency		
Demonstrate proficiency in a Native American language or complete one introductory course (1000-level) in a Native language or the equivalent ³		
Total Credit Hours		33

- ¹ Students may declare one or more areas of emphasis. A list of appropriate courses may be obtained from the NAS program. Appropriate courses should be selected with the guidance of the NAS advisor.
- ² Minimum of three (3) thesis hours. Student will complete thesis under the direction of the committee chair.
- ³ May *not* be used to satisfy core or emphasis credit.

Non-Thesis Option

Code	Title	Credit Hours
NAS Core Requirements		
NAS 5063	Critical Indigenous Theory	3
Choose one of the following:		3
NAS 5033	Indigenous Research Methods	
LAW 6311 & LAW 6320	American Indian Law Review and Directed Legal Research (2 hours)	
NAS 5043 or LAW 5610	Sovereignty, Law, and Policy Federal Indian Law	3
Thematic Area of Emphasis		
Choose eight courses in one or more of the following: ¹		24
Cultural Knowledge, Language, & History		
Tribal Governance & Policy		
Indigenous Media & Arts		
Comprehensive Exam		
Student will complete comprehensive exam under the direction of the committee chair		
Native Language Proficiency		
Demonstrate proficiency in a Native American language or complete one introductory course (1000-level) in a Native language or the equivalent ²		
Total Credit Hours		33

- ¹ Students may declare one or more areas of emphasis. A list of appropriate courses may be obtained from the NAS program. Appropriate courses should be selected with the guidance of the NAS advisor.
- ² May *not* be used to satisfy core or emphasis credit.

Notes

- To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework.
- The dual Master of Arts in Native American Studies and Juris Doctorate program will require a total of 126 hours of coursework. Thirty-six hours are required for the M.A. and 90 hours are required for the JD. Twenty-four hours can be shared. The shared hours must come from the M.A. requirements.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Native American Studies, Graduate Certificate

Minimum Total Hours: 15

Program Code: G670

Certificate Requirements

Code	Title	Credit Hours
NAS 5033	Indigenous Research Methods	3
NAS 5043	Sovereignty, Law, and Policy	3
NAS 5063	Critical Indigenous Theory	3
Choose 6 hours in consultation with the NAS Graduate Liaison ¹		6
Total Credit Hours		15

¹ Students may, but are not required to declare, an area of emphasis from one of the three existing areas of emphasis: (1) Tribal Governance and Policy, (2) Cultural Knowledge and Language, or (3) Indigenous Media and Arts.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

 www.ou.edu/cas/philosophy

General Information

The Shyam Dev Patwardhan Department of Philosophy offers broad training in the major fields of philosophy, with particular strengths in the history of ancient and modern philosophy, Chinese philosophy, logic, metaphysics, epistemology, aesthetics and the philosophy of art, philosophy of science, philosophy of language, philosophy of mind and philosophy of religion. The department offers a rich and lively environment with an emphasis on informal interaction between faculty and students.

Programs & Facilities

Programs for Academic Excellence

Kingfisher College, Kingfisher, Oklahoma, discontinued giving instruction in 1927. An agreement with the trustees of the college provided for transferring a part of the library of the college to the University, for administering the Kingfisher College records for each graduate of Kingfisher College, recognizing the merits of the degree held by each, and inviting the holder to become associated with the alumni of the University. In 1951 the trustees of the college and the regents of the University jointly established a chair in the Department of Philosophy named Kingfisher College Professor of Philosophy of Religion and Ethics. Since its origin this chair has been expanded into an operative section of the Department of Philosophy, including both graduate and undergraduate level courses.

Society of Undergraduate Philosophers

The Society of Undergraduate Philosophers (SOUNP) is an organization of undergraduates and graduate students interested in philosophy. The SOUNP meets regularly for discussions, talks by faculty members, to view philosophically themed movies, and to engage in other philosophy related activities.

Undergraduate Study

Bachelor of Arts Degree

Undergraduate studies in philosophy offer broad training in the major fields of philosophy, with particular strengths in the history of ancient and modern philosophy, Chinese philosophy, logic, metaphysics, epistemology, aesthetics and the philosophy of art, philosophy of science, philosophy of language, philosophy of mind and philosophy of religion. In addition to classes and seminars, the department offers a rich and lively environment with an emphasis on informal interaction between faculty and students.

Philosophy

The Bachelor of Arts (p. 598) in Philosophy is an excellent preparation for professional graduate programs in business, medicine, and law, and for graduate programs in philosophy. It is also ideal as a second major in conjunction with physics, psychology, economics, political science, or literature. But perhaps most importantly, the philosophy major fosters a sense of wonder, and provides a rigorous intellectual method for gaining understanding of oneself and the world. By learning about the heritage of philosophical examination, students acquire an informed basis for arriving at their own conclusions about their most basic beliefs and values. Philosophy encourages students to become critical thinkers – to reason clearly and correctly concerning important and fundamental issues.

The ability to write clear, coherent papers is essential to philosophy. Philosophy majors receive specialized training in writing for the field in a Writing Workshop, and they must take at least two majors-only courses, in which they have intensive writing requirements.

Minor

The department also offers an undergraduate Philosophy Minor (p. 601).

Courses for Non-Majors

Most students who take philosophy courses are not philosophy majors. The topics covered by philosophy – e.g., moral, legal, aesthetic and religious values, logic, the theory of knowledge and the history of human thought on these subjects – are of interest to most college students, and many philosophy courses satisfy general education requirements. Non-majors are welcome in any course for which they have the appropriate prerequisites. Consult the course catalog (p. 1818) for information on prerequisites for courses above 3000.

Graduate Study

The Shyam Dev Patwardhan Department of Philosophy at the University of Oklahoma offers programs of study leading to two advanced degrees: a terminal MA, either with thesis or without, and a Ph.D. The department offers broad training in the major fields of philosophy.

- Philosophy, Master of Arts (p. 601)
- Philosophy, Ph.D (p. 602).

Courses

PHIL 1013 Introduction to Philosophy **3 Credit Hours**
Basic problems of philosophy explored through a consideration of selected philosophers. (F, Sp, Su) [IV-WC].

PHIL 1103 Critical Reasoning **3 Credit Hours**
An informal survey of evaluative principles of reasoning. The application of these principles is emphasized, and common errors and fallacies in everyday, ethical, legal, and scientific reasoning are discussed. This course is not a course in formal symbolic logic or mathematical logic. (F, Sp) [III-SS].

PHIL 1113 Introduction to Logic **3 Credit Hours**
Prerequisite: DMAT 0123 or satisfactory score on Math placement test. An introduction to modern logic and its applications. Emphasis is placed on deductive logic, but may also include some treatment of inductive logic. Various common fallacies and errors in reasoning will also be discussed. (F, Sp, Su) [I-M].

PHIL 1213 Introduction to Ethics **3 Credit Hours**
Basic issues in moral philosophy examined through a consideration of selected philosophers, including a sampling of normative theories as well as an introduction to issues of metaethics. (F, Sp, some Su) [IV-WC].

PHIL 1223 Introduction to Asian Philosophy **3 Credit Hours**
(Crosslisted with IAS 1223) Survey of the major figures and schools of philosophy in Asia. Includes study of Hinduism, Buddhism, Confucianism, and Daoism. (F) [IV-WDC].

PHIL 1233 Contemporary Moral Issues **3 Credit Hours**
Philosophical exploration of major contemporary moral issues such as euthanasia, abortion, death penalty, war and terrorism, poverty and world hunger, animal rights, pornography, marriage, affirmative action, drug legalization, and organ sales. Students will read contrasting views from prominent philosophers, and learn about how moral theories may be invoked in support of positions on those issues. (F, Sp)[IV-WC].

PHIL 1263 Introduction to Ethics in Health Care **3 Credit Hours**
An overview of important issues in health care ethics, including dilemmas facing providers, patients, researchers, and society at large. The course will introduce facts and concepts drawn from health care practice, and a variety of philosophical approaches used to analyze ethical dilemmas. (F, Sp) [IV-WC].

PHIL 1273 Introduction to Business Ethics **3 Credit Hours**
An overview of important issues in business ethics, including the morality of market systems, business-customer relations, employer-employee relations, and firm-shareholder relations. The course will introduce facts and concepts drawn from economic analysis and business practice, as well as a variety of philosophical approaches used to analyze ethical considerations. (F, Sp) [IV-WC].

PHIL 2023 Existentialism, its Sources and Influences **3 Credit Hours**
The historical background and cultural impact of existentialism in its literary, religious, psychiatric and philosophical expressions. Stresses Kierkegaard, Heidegger and Sartre. Briefly treats Nietzsche, Jaspers, Berdyaev, Maslow, Beckett, etc. (Irreg.)

PHIL 2900 Special Topics **4 Credit Hours**
1 to 4 hours. May be repeated with change of topic; maximum credit nine hours. Topics in philosophy not accommodated by the existing curriculum will be taught from time to time (examples: Islamic philosophy, Navajo thought, feminism). (Irreg.)

PHIL 3023 Aesthetics and the Philosophy of Art **3 Credit Hours**
Prerequisite: six hours of Philosophy or junior standing. Examines historical and contemporary views about the nature, value, social role and interpretation of artworks in a variety of artistic media. The appreciation of nature and of everyday experience is also discussed. (Irreg.) [IV-WC].

- PHIL 3033 Philosophy and Literature 3 Credit Hours**
Literature expresses in concrete form what philosophy discusses in abstract terms: views of the world that human beings inhabit; views of the nature of human freedom and rationality; and views of the good human life. Use of literature to illustrate philosophical issues, and philosophy to reveal the unstated assumptions and implications of selected literary works. (Irreg.) [IV-WC].
- PHIL 3233 The Meaning of Life 3 Credit Hours**
Prerequisite: Junior Standing. "What is the meaning of life?" In the realm of philosophy, this is often the first question that comes to mind. The meaning of life has been a subject of discussion among philosophers since ancient times. Over the past two decades, there has been a resurgence of interest, with a new wave of philosophers revisiting this profound question. (F, Sp)
- PHIL 3243 Civility 3 Credit Hours**
Prerequisite: 6 hours of Philosophy or junior standing. Addresses the moral, social, and political aspects of the virtue of civility. Course readings will range from theoretical works linking civility to broad moral and political concerns to more applied approaches that seek to address how civility practices have altered alongside historical, sociological, and technological changes in society. (Irreg.) [IV-WC].
- PHIL 3253 History of Ethics 3 Credit Hours**
Prerequisite: six hours of philosophy. A survey of the major figures in the history of moral philosophy with emphasis on their interrelations, influences on each other and effect on contemporary moral philosophy. (Sp) [IV-WC].
- PHIL 3263 Virtue Ethics 3 Credit Hours**
Prerequisite: junior standing or six hours of Philosophy. An overview of the history of virtue ethics from the ancient Greeks to the present day, covering the historical zenith of virtue ethics through the Middle Ages, the fall of virtue concepts in the early modern period, and the rebirth of virtue ethics in the later 20th century. Discusses a number of executive, moral, intellectual, and civic virtues and their related vices, and addresses some of the fundamental philosophical questions that arise in the study of virtue ethics. (F, Sp) [IV-WC].
- PHIL 3273 Ethics and Business 3 Credit Hours**
Prerequisite: Six hours of philosophy or junior standing. A study of how ethics illuminates business activities. Topics include: the philosophical bases of capitalism; the legitimacy of the profit motive; virtue and the marketplace; corporate responsibility; government regulation; the marketplace and the environment; the ethics of advertising; employee privacy; and the challenges posed by the developing information age. (Irreg.) [IV-WC].
- PHIL 3293 Environmental Ethics 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Surveys the field of environmental ethics. Various principles philosophers use to assign value to the natural world and assign obligations toward nature to human beings are examined by students in order to articulate and defend their own reasoned points of view on environmental questions. (Irreg.) [IV-WC].
- PHIL 3313 History of Ancient Philosophy 3 Credit Hours**
Prerequisite: six hours of philosophy. A survey of Greek and Roman philosophy with concentration on selected readings in classical philosophy from Thales to St. Augustine. (F) [IV-WC].
- PHIL 3333 History of Modern Philosophy 3 Credit Hours**
Prerequisite: six hours of philosophy. A survey of modern European philosophy with concentration on selected readings from the Renaissance through Kant. (Sp) [IV-WC].
- PHIL 3343 Chinese Philosophy 3 Credit Hours**
(Crosslisted with IAS 3343) Prerequisite: Six hours of philosophy or junior standing. Survey and analysis of the major texts and schools of philosophy in China, from the ancient world to the contemporary era. (Irreg.) [IV-WDC].
- PHIL 3393 History of Analytic Philosophy 3 Credit Hours**
Prerequisite: six hours of philosophy or junior standing; open to non-majors. Explores some of the main methods and topics of interest in the analytic philosophical tradition. Examines the views of influential philosophers, starting around the beginning of the twentieth century, on questions such as: What is the world made up of? What is the nature of time? What is knowledge, and do we have any? (Irreg.) [IV-WC].
- PHIL 3403 Jewish and Islamic Philosophy 3 Credit Hours**
Prerequisite: 6 hours of philosophy. This course covers the development of classical Jewish and Islamic philosophy from roughly 800 to 1200 CE and then examines the development of these traditions in light of issues of contemporary relevance. (F, Sp) [IV-WDC].
- PHIL 3423 Ancient and Medieval Religious Philosophy 3 Credit Hours**
Prerequisite: six hours of philosophy or junior standing. Covers the history of religious philosophy in the West from ancient Greece until the 16th century. Major figures studied include Plato, Aristotle, the Stoics, Plotinus, Augustine, Boethius, Anselm, Maimonides, Aquinas, Averroes, Scotus, Ockham, and the Reformers. (Irreg.) [IV-WC].
- PHIL 3433 Modern Philosophy of Religion 3 Credit Hours**
Prerequisite: six hours of philosophy or junior standing. Covers the history of modern religious philosophy in the West from the 17th to the mid-20th centuries. Major figures studied include Descartes, Pascal, Leibniz, Locke, Hume, Kant, Kierkegaard, Nietzsche, Clifford, James, Freud, and Wittgenstein. (Irreg.) [IV-WC].
- PHIL 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- PHIL 3443 Contemporary Issues in Philosophy of Religion 3 Credit Hours**
Prerequisite: six hours of philosophy or junior standing. Issues currently debated in philosophy of religion. Topics include the rationality of religious belief, the problem of evil, the dilemma of divine foreknowledge and human free will, life after death, the relation between science and religion, and religion and public policy. (Irreg.) [IV-WC].
- PHIL 3503 Self and Identity 3 Credit Hours**
Prerequisite: 1013 or permission of instructor. Introduction to a number of philosophical topics about the self including personal identity, immortality, unity of self-consciousness, self-knowledge, and nature of self. (Irreg.) [IV-WC].
- PHIL 3533 Language, Communication, and Knowledge 3 Credit Hours**
Prerequisite: six hours of philosophy or junior standing. The nature of language and communication as studied by linguists and philosophers. Topics will include the nature of meanings; the relationship between syntax, semantics, and pragmatics; and the transmission of knowledge through testimony. Combines philosophical readings with readings from the empirical sciences. (Irreg.) [IV-WC].

- PHIL 3613 Philosophy of Biology 3 Credit Hours**
Prerequisite: six hours of philosophy or junior standing. Philosophical issues raised by evolutionary theory. Topics include creationism versus evolutionary theory; what makes a hypothesis scientific; can evolutionary theory explain psychological or cultural phenomena? (Irreg.) [IV-WC].
- PHIL 3713 History of Social and Political Philosophy 3 Credit Hours**
Prerequisite: six hours of philosophy or junior standing. A survey of the views of major philosophers from Plato to the nineteenth century on the nature of man's relation to society and to the state in the context of their wider philosophical (logical, epistemological, metaphysical and ethical) doctrines. Plato, Aristotle, Aquinas, Hobbes, Locke, Rousseau, Hegel and Marx are the chief figures covered, though others will be considered as time permits. (Irreg.) [IV-WC].
- PHIL 3733 Religion in Political Theory 3 Credit Hours**
Prerequisite: six hours of Philosophy or junior standing. Survey of views on religion in political life held by important political theorists in the modern western tradition and consider how theoretical positions on the role of religion in political life are reflected in political institutions, such as the first amendment establishment clause. (Irreg.) [IV-WC].
- PHIL 3743 Feminist Philosophy 3 Credit Hours**
Prerequisite: Six hours of philosophy or junior standing. A study of the major schools of feminist philosophy, as well as issues of perennial and contemporary interest in feminist philosophy. (Irreg.) [IV-WC].
- PHIL 3753 Philosophy of Race 3 Credit Hours**
Prerequisite: junior standing or six hours of philosophy. Addresses philosophical questions about race. Social justice will be an important focus of the course. Additional specific issues related to race and racism will also be addressed; hopefully, a better understanding of the philosophical issues and a commitment to the eradication of racism and racial injustice will be reached. (Irreg.) [IV-WC].
- PHIL 3763 Law and Society 3 Credit Hours**
Prerequisite: six hours of philosophy or junior standing. An introduction to the history and structure of the main controversies in modern law, with special attention to the United States legal system. Covered topics include natural law, legal realism, the law and economics movement, theories of responsibility and liability, feminist legal theory, and theories of text interpretation. (Irreg.) [IV-WC].
- PHIL 3811 Philosophy Writing Workshop 1 Credit Hour**
Prerequisite: co-requisite with 3813, 3833 or 3853. Intensive instruction on how to write papers in philosophy. Students will use the workshop to help them write the term paper for a designated target class, in which they must be concurrently enrolled. (F, Sp)
- PHIL 3813 History of Ancient Philosophy for Majors 3 Credit Hours**
Prerequisite: six hours of philosophy and Philosophy or Ethics and Religion major. A survey of Greek and Roman philosophy with concentration on selected readings in classical philosophy from Thales to St. Augustine. For majors in Philosophy or Ethics and Religion. No student may earn credit for both 3313 and 3813. (F, Sp)
- PHIL 3833 History of Modern Philosophy for Majors 3 Credit Hours**
Prerequisite: six hours of philosophy and Philosophy or Ethics and Religion major. A survey of modern European philosophy with concentration on selected readings from the Renaissance through Kant. For majors in Philosophy or Ethics and Religion. No student may earn credit for both 3333 and 3833. (F, Sp)
- PHIL 3843 Chinese Philosophy for Majors 3 Credit Hours**
Prerequisite: six hours of Philosophy and declared Philosophy major. Survey and analysis of the major texts and schools of philosophy in China, from the ancient world to the contemporary era. This is the majors-only version of PHIL 3343, Chinese Philosophy; it meets concurrently with that course, but has intensified writing requirements. It can serve as a "target class" for PHIL 3811, the Writing Workshop in Philosophy. (Irreg.)
- PHIL 3853 History of Ethics for Majors 3 Credit Hours**
Prerequisite: six hours of philosophy and Philosophy or Ethics and Religion major. A survey of the major figures in the history of moral philosophy with emphasis on their interrelations, influences on each other and effect on contemporary moral philosophy. For majors in Philosophy or Ethics and Religion. No student may earn credit for both 3253 and 3853. (Sp)
- PHIL 3900 Special Topics 1-4 Credit Hours**
1 to 4 hours. May be repeated with change of topic, maximum credit nine hours. Topics in philosophy not accommodated by the existing curriculum will be taught from time to time. (Irreg.)
- PHIL 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. Topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- PHIL 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)
- PHIL 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- PHIL 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- PHIL 4023 Survey of Analytic Aesthetics and Philosophy of Art 3 Credit Hours**
(Slashlisted with PHIL 5023) Prerequisite: eight hours of philosophy or permission of department. Survey of major philosophical topics in aesthetics and the philosophy of art. Topics include the ontology of art, interpretation, the value of artworks, the relationship between aesthetic and moral value, and aesthetic experience in everyday life. No student may earn credit for both 4023 and 5023. (Irreg.)
- PHIL G4133 Symbolic Logic I 3 Credit Hours**
An introduction to the symbolism and methods of modern deductive logic. (F)
- PHIL 4293 Ethical Theory 3 Credit Hours**
(Slashlisted with 5293) Prerequisite: eight hours of philosophy including an ethics course or permission. A survey of theories of the nature and foundations of morality. Topics may include the analysis of moral language, the justification of moral beliefs, and the status of ethical theories. No student may earn credit for both 4293 and 5293. (Sp)

- PHIL 4343 Early Chinese Philosophy 3 Credit Hours**
(Slashlisted with 5343, Crosslisted with IAS 4343) Prerequisite: eight hours of Philosophy or permission. Survey of pre-Qin Chinese philosophy, including the major texts and figures of Confucianism, Daoism, and other notable schools. No student may earn credit for both 4343 and 5343. (Irreg.)
- PHIL 4473 Philosophy of Religion 3 Credit Hours**
(Slashlisted with 5473) Prerequisite: eight hours of philosophy or permission. Survey of topics in the philosophy of religion. Topics covered include the concept of God, the problem of religious knowledge, the nature of religious language, the problem of evil, and particular thinkers. No student may earn credit for both 4473 and 5473. (Irreg.)
- PHIL 4513 Metaphysics 3 Credit Hours**
(Slashlisted with 5513) Prerequisite: eight hours of philosophy or permission. Survey of major philosophical views about the nature of reality. Topics covered may include the mind-body problem, causation, personal identity, free will and determinism, universals, and the existence of God. No student may earn credit for both 4513 and 5513. (Sp)
- PHIL 4523 Epistemology 3 Credit Hours**
(Slashlisted with 5523) Prerequisite: eight hours of philosophy or permission. Survey on the evaluation of human reasoning and the nature and scope of human knowledge. Topics include skepticism, the nature of justification, the ethics of belief, and the problem of induction. No student may earn credit for both 4523 and 5523. (F)
- PHIL 4533 Philosophy of Language 3 Credit Hours**
(Slashlisted with PHIL 5533) Prerequisite: eight hours of philosophy or permission. Survey of major philosophical views on the nature and workings of language. Topics covered include: meaning and truth, sense and reference, speech acts, and communication. No student may earn credit for both 4533 and 5533. (Irreg.)
- PHIL 4543 Philosophy of Mind 3 Credit Hours**
(Slashlisted with PHIL 5543) Prerequisite: eight hours of philosophy or permission. Survey of major philosophical views on the nature of the mind. Topics covered may include: the nature and unity of consciousness, the mind-body problem, personal identity, the emotions, actions and intentions, self-knowledge, and other minds. No student may earn credit for both 4543 and 5543. (Irreg.)
- PHIL 4623 Philosophy of The Social Sciences 3 Credit Hours**
(Slashlisted with 5623) Prerequisite: nine hours of upper-division social sciences or permission. Survey of issues in the philosophy of the social sciences. Topics covered will include explanation in the social sciences, theory construction, theories and observation, evidence and theory of confirmation, theoretical constructs and operationism, verstehen and objectivity. No student may earn credit for both 4623 and 5623. (Irreg.)
- PHIL 4713 Survey of Social and Political Philosophy 3 Credit Hours**
(Slashlisted with 5713) Prerequisite: Eight hours of philosophy or permission. Survey of important theories in social and political philosophy. Beginning with ancient theories (Plato and Aristotle), to modern social contract theories and the foundations of liberalism (Hobbes, Locke, Rousseau, and Mill), and concludes with the debate between liberals and communitarians (Rawls and his critics). No student may earn credit for both 4713 and 5713. (Irreg.)
- PHIL 4893 Senior Capstone in Philosophy 3 Credit Hours**
Prerequisite: graduating majors. Covering the major areas of philosophy taught in the undergraduate major, coordinated with the departmental objectives for undergraduate majors and for the purpose of assessing the level of learning among graduating seniors. (Sp) [V] .
- PHIL 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- PHIL 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- PHIL 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- PHIL 5023 Survey of Analytic Aesthetics and Philosophy of Art 3 Credit Hours**
(Slashlisted with PHIL 4023) Prerequisite: graduate standing. Survey of major philosophical topics in aesthetics and the philosophy of art. Topics include the ontology of art, interpretation, the value of artworks, the relationship between aesthetic and moral value, and aesthetic experience in everyday life. No student may earn credit for both 4023 and 5023. (Irreg.)
- PHIL 5143 Symbolic Logic II 3 Credit Hours**
Prerequisite: graduate standing. Further study of first order predicate logic: identity, axiomatic development. Various metatheorems; soundness, consistency and completeness. (Alt. Sp)
- PHIL 5293 Ethical Theory 3 Credit Hours**
(Slashlisted with 4293) Prerequisite: graduate standing. A survey of theories of the nature and foundations of morality. Topics may include the analysis of moral language, the justification of moral beliefs, and the status of ethical theories. No student may earn credit for both 4293 and 5293. (Sp)
- PHIL 5313 Studies in Ancient Philosophy 3 Credit Hours**
Prerequisite: 3313. May be repeated with change of content; maximum credit 18 hours. Survey of philosophical writings of a major ancient Greek philosopher, typically Plato and Aristotle. Works covering different philosophical topics and written at different stages in the philosopher's development will be studied. Selection of figure will alternate each year the course is offered. (Sp)
- PHIL 5333 Studies in Modern Philosophy 3 Credit Hours**
May be repeated with change of content; maximum credit 18 hours. Survey of philosophical writings of major philosophers. Figures covered will alternate each year between the Rationalists (Descartes, Leibniz, and Spinoza) and the Empiricists (Locke, Berkeley, and Hume), though other combinations (e.g., Locke and Leibniz) may be offered. (F)
- PHIL 5343 Early Chinese Philosophy 3 Credit Hours**
(Slashlisted with 4343) Prerequisite: eight hours of Philosophy or permission. Survey of pre-Qin Chinese philosophy, including the major texts and figures of Confucianism, Daoism, and other notable schools. No student may earn credit for both 4343 and 5343. (Irreg.)

- PHIL 5473 Philosophy of Religion 3 Credit Hours**
(Slashlisted with 4473) Prerequisite: graduate standing. Survey of topics in the philosophy of religion. Topics covered include the concept of God, the problem of religious knowledge, the nature of religious language, the problem of evil, and particular thinkers. No student may earn credit for both 4473 and 5473. (Irreg.)
- PHIL 5513 Metaphysics 3 Credit Hours**
(Slashlisted with 4513) Prerequisite: graduate standing. Survey of major philosophical views about the nature of reality. Topics covered may include the mind-body problem, causation, personal identity, free will and determinism, universals, and the existence of God. No student may earn credit for both 4513 and 5513. (Sp)
- PHIL 5523 Epistemology 3 Credit Hours**
(Slashlisted with 4523) Prerequisite: graduate standing. Survey on the evaluation of human reasoning and the nature and scope of human knowledge. Topics include skepticism, the nature of justification, the ethics of belief, and the problem of induction. No student may earn credit for both 4523 and 5523. (F)
- PHIL 5533 Philosophy of Language 3 Credit Hours**
(Slashlisted with PHIL 4533) Prerequisite: graduate standing. Survey of major philosophical views on the nature and workings of language. Topics covered include: meaning and truth, sense and reference, speech acts, and communication. No student may earn credit for both 4533 and 5533. (Irreg.)
- PHIL 5543 Philosophy of Mind 3 Credit Hours**
(Slashlisted with PHIL 4543) Prerequisite: graduate standing. Survey of major philosophical views on the nature of the mind. Topics covered may include the nature and unity of consciousness, the mind-body problem, personal identity, the emotions, actions and intentions, self-knowledge, and other minds. No student may earn credit for both 4543 and 5543. (Irreg.)
- PHIL 5623 Philosophy of The Social Sciences 3 Credit Hours**
(Slashlisted with 4623) Prerequisite: graduate standing. Survey of issues in the philosophy of the social sciences. Topics covered will include explanation in the social sciences, theory construction, theories and observation, evidence and theory of confirmation, theoretical constructs and operationism, verstehen and objectivity. No student may earn credit for both 4623 and 5623. (Irreg.)
- PHIL 5713 Survey of Social and Political Philosophy 3 Credit Hours**
(Slashlisted with 4713) Prerequisite: Eight hours of philosophy or permission. Survey of important theories in social and political philosophy. Beginning with ancient theories (Plato and Aristotle), to modern social contract theories and the foundations of liberalism (Hobbes, Locke, Rousseau, and Mill), and concludes with the debate between liberals and communitarians (Rawls and his critics). No student may earn credit for both 4713 and 5713. (Irreg.)
- PHIL 5813 Philosophy Proseminar 3 Credit Hours**
Prerequisite: Graduate standing and Majors only. The Philosophy Proseminar is designed to: (i) help philosophy graduate students develop the skills needed to succeed at their academic work in the graduate program; (ii) prepare them to make good progress through their respective programs, either the MA or the PhD; and (iii) prepare them for success after graduation. (Sp)
- PHIL 5823 Philosophy Graduate Writing Seminar 3 Credit Hours**
Prerequisite: Graduate standing and Majors only. The Writing Seminar will immerse students in the professional craft of philosophical writing. We will examine exemplars of good philosophical writing, analyze philosophical writing techniques and structures, and identify common strengths and weaknesses in philosophical work. The course will be delivered in a cooperative fashion, with students gaining experience through presentations, giving peer feedback, intensive editing and revision. (F)
- PHIL 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- PHIL 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing. May be repeated with change of topic; maximum credit nine hours. Topics in philosophy not accommodated by the existing curriculum. (Irreg.)
- PHIL 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- PHIL 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and adviser. May be repeated with change of subject matter; maximum undergraduate credit eight hours; maximum graduate credit 12 hours. (F, Sp, Su)
- PHIL 6023 Seminar in Aesthetics and Philosophy of Art 3 Credit Hours**
Prerequisite: graduate standing. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in aesthetics and the philosophy of art. (Irreg.)
- PHIL 6203 Seminar in Ethics 3 Credit Hours**
May be repeated with change of subject matter; maximum credit 12 hours. (F, Sp)
- PHIL 6383 Seminar in Chinese Philosophy 3 Credit Hours**
Prerequisite: graduate standing. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in Chinese philosophy. (Irreg.)
- PHIL 6393 Seminar in the History of Philosophy 3 Credit Hours**
May be repeated with change of subject matter; maximum credit 12 hours. (Irreg.)
- PHIL 6473 Seminar In Philosophy Of Religion 3 Credit Hours**
Seminar In Philosophy Of Religion. Prerequisite: 5473 Or Permission. May Be Repeated With Change Of Content; Maximum Credit 12 Hours. Intensive Seminar On A Topic In The Philosophy Of Religion. (Irreg.)
- PHIL 6513 Seminar in Metaphysics 3 Credit Hours**
Prerequisite: 5513 or permission. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in metaphysics. (Irreg.)
- PHIL 6523 Seminar in Epistemology 3 Credit Hours**
Prerequisite: 5523 or permission. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in epistemology. (Irreg.)
- PHIL 6593 Seminar in Contemporary Philosophy 3 Credit Hours**
May be repeated with change of subject matter; maximum credit 12 hours. (Irreg.)

PHIL 6793 Seminar in Social and Political Philosophy 3 Credit Hours

Prerequisite: 5763 or permission. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in the philosophy of law. (Irreg.)

PHIL 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

PHIL 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

PHIL 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

PHIL 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Philosophy, B.A.

Minimum Total Credit Hours: 120

Major Hours: 31

Minimum Upper-Division Hours: 48

Upper-Division Hours Within Major: 25

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B775

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- A maximum of six hours of lower- division coursework may be used toward the 31 hours required by the major. A grade of C or better is required in PHIL 4893.
- Philosophy majors must take at least two 38XX ("for Majors") classes, chosen from Core or Distribution Requirements; and must take at least one 4000-level class beyond PHIL 4133 and PHIL 4893.

or PHIL 3813	History of Ancient Philosophy for Majors	
PHIL 3333	History of Modern Philosophy	3
or PHIL 3833	History of Modern Philosophy for Majors	
PHIL 3343	Chinese Philosophy	3
or PHIL 3843	Chinese Philosophy for Majors	
PHIL 3811	Philosophy Writing Workshop (taken concurrently with a 38XX 'for majors' class)	1
PHIL 4133	Symbolic Logic I	3
PHIL 4893	Senior Capstone in Philosophy (A grade of C or better is required)	3
Distribution Requirements		
Choose one course in each category (classes in each category are listed on the Philosophy Department website):		9
Ethics and Values (p. 601)		
Knowledge and Reality (p. 601)		
Philosophy in Society (p. 601)		
Philosophy Electives		
Choose 2 courses ¹		6
Total Credit Hours		31

¹ May not include PHIL 1113.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/general/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		

Beginning Course	0-5
Beginning Course, continued	0-5
Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>	
Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)	
<i>Biological Science</i>	
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>	
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)	
P SC 1113 American Federal Government	3
Choose one course from the General Education Social Science list	3
Core Area IV: Arts and Humanities (18 hours)	
<i>Artistic Forms</i>	
Choose one course from the General Education Artistic Forms list	3
<i>Western Culture</i>	
HIST 1483 United States to 1865	3
or HIST 1493 United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)	3
<i>World Culture</i>	
Choose one course from the General Education World Culture list	3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>	
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Core Area V: First Year Experience (3 hours)	
Choose one course	3
Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Philosophy academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Philosophy major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
Beginning Language (Core I)		5
First Year Experience (Core V)		3
Credit Hours		14
Second Semester		Credit Hours
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
Math (Core I)		3
Choose one of the following:		3
PHIL 1013	Introduction to Philosophy	
PHIL 1103	Critical Reasoning	
PHIL 1213	Introduction to Ethics	
Artistic Forms (Core IV)		3

PHIL 3763	Law and Society	3

Philosophy, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 9

Program Code: N765

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Philosophy.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in Philosophy, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
Choose one course from each of the following areas: ¹		
	Ethics & Values (p. 601)	3
	Knowledge & Reality (p. 601)	3
	Philosophy in Society (p. 601)	3
Choose additional Philosophy (PHIL) courses to complete the 18 total hour and 9 upper-division hour requirements		9
Total Credit Hours		18

¹ The most current lists of courses fulfilling each of the area requirements are available on the Department of Philosophy website: <http://www.ou.edu/cas/philosophy/academics/undergraduate/requirements/bachelor-arts>

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Philosophy, M.A.

Graduate GPA - Combined and OU: 3.00

Minimum Total Hours (Thesis): 33

Minimum Total Hours (Non-Thesis): 33

Program Code: M775

Completion		
Comprehensive Examination		0
Total Credit Hours		33

¹ Must be taken for graduate credit. Hours cannot be applied to both undergraduate and graduate degrees.

² Distribution coursework may be chosen from the list of approved courses maintained by the academic unit (p. 602).

Notes

- Up to 8 hours may be taken outside the department with approval from the Director of Graduate Studies.
- A maximum of 3 hours of PHIL 5990 will be allowed in this program.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Philosophy, M.A. Course Lists

- for the most current course lists, please consult the Shyam Dev Patwardhan Department of Philosophy

Distribution Coursework

Code	Title	Credit Hours
History (Modern)		
PHIL 5333	Studies in Modern Philosophy	3
History (Ancient)		
PHIL 5343	Early Chinese Philosophy	3
PHIL 5313	Studies in Ancient Philosophy	3
PHIL 6383	Seminar in Chinese Philosophy	3

Philosophy, Ph.D.

Graduate GPA - Combined and OU: 3.00

Minimum Total Hours: 90

Program Code: D775

Program Requirements

Code	Title	Credit Hours
Core		
PHIL 5813	Philosophy Proseminar	3
PHIL 5823	Philosophy Graduate Writing Seminar (two semesters required)	6
Distribution ¹		
9 hours of History of Philosophy, distributed across at least two different areas (e.g., Ancient Greek, Early Chinese, Modern European)		9
9 hours in Value, six of which must be in Ethics		9
9 hours in Metaphysics and Epistemology, with at least three hours in Metaphysics and at least three hours in Epistemology		9
Dissertation Research		
PHYS 6980	Research for Doctoral Dissertation (2 hour minimum, 39 hour maximum)	2-39
Additional Coursework		
Additional coursework as needed to complete 90 post-baccalaureate credit hours, with approval of student's committee		15-52
Total Credit Hours		90

¹ Distribution coursework may be chosen from the list of approved courses maintained by the academic unit (p. 603).

Notes:

- Students with an M.A. in philosophy from another institution may transfer up to 33 hours of "B" graded or better coursework toward the Ph.D. Normally at most 18 of those hours can apply outside of Research for Doctoral Dissertation.
- With approval of the committee, up to 12 hours of all coursework may be taken outside the department.
- A maximum of six hours of Independent Study (PHIL 5990) will be allowed in this program.
- The student's committee may require proficiency in one or more foreign languages.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

General Information

The Homer L. Dodge Department of Physics and Astronomy has a long tradition of educating scientists, engineers and teachers who have achieved distinguished careers as researchers and leaders in industry and education. Our graduates include a former Science Advisor to the President of the United States, a former director of NSF, university president, U.S. ambassador, founders of corporations, Arctic explorer, founder and first editor of the American Journal of Physics, journal

editors, inventors, research laboratory managers, university department chairs, Rhodes Scholar and Guggenheim Fellows, university professors, and hundreds of people devoted to advancing knowledge and improving the quality of life.

Programs & Facilities

Programs for Academic Excellence

Innovative education programs have been an integral part of the department since its inception and are still our tradition. In addition to our own faculty, post-doctoral fellows and weekly colloquium speakers promote academic excellence within the department. With additional support from state monies and private endowment, the department hosts a large number of visiting scientists each year who bring the latest developments in their areas of interest and who present opportunities to exchange scientific ideas.

The department offers all undergraduate majors the opportunity to perform research with faculty mentors, and runs a federally funded summer research experience for undergraduates from all across the country.

The OU Soonertarium is an educational outreach program whose goal is to share the joy of exploring the cosmos with fellow Oklahomans, one classroom at a time. They provide traveling planetarium shows and lectures, free of charge, to interested science classrooms in Oklahoma.

Special Facilities and Programs

Library Resources

The Homer L. Dodge Department of Physics and Astronomy library possesses an excellent scientific library of over 20,000 volumes and more than 150 journal subscriptions. Ancillary library holdings include the world-famous History of Science Collection and the Engineering Library.

Instrument Shop

The instrument shop at the Homer L. Dodge Department of Physics and Astronomy has supported the experimental research needs of the department for a century. This facility has designed, built and collaborated on a wide variety of apparatus including, but not limited to: High Energy Physics work on $D\bar{0}$, Higgs Boson, and Monopole detector systems; Atomic Molecular scattering systems – Electron-Photon Coincidence, Electric Dipole Moment, Cold Atom systems; UHV chambers and associated hardware; Thin film sputtering systems; High Pressure (100,000 PSI) systems, Electro-mechanical drive and control; Furnace construction and PID control; Telescope repair.

Laboratory Resources

The department has well-equipped laboratories for research in laser cooling and trapping of atoms and molecules, atomic and molecular collisions, nanostructured materials and devices, materials characterization, and high-energy physics instrumentation. We are also home to a multi-million dollar NSF funded Materials Research Science and Engineering Center. This center greatly expands our research effort in nanostructures. Additionally, many programs make use of facilities at national laboratories, such as Argonne, Fermilab, Lawrence Berkeley Labs and Los Alamos. The high-energy group is part of the ATLAS collaboration and hosts one of the ATLAS tier 2 computing centers. The HEP group owns a clean room to work on silicon pixel detector technology for the Phase II upgrade of the ATLAS detector. The Astronomy group has access to two telescopes at the Apache Point Observatory. They have 10.625% of the observing time on the Astronomical Research Consortium (ARC) 3.5 meter telescope and the 0.5-meter Astrophysical Research Consortium Small Aperture Telescope.

Individual faculty have access to other telescopes/projects including Sloan Digital Sky Survey V, ASAS-SN, and 4MOST. There is also a small on-campus observatory for class use and public viewing. Astronomy faculty compete successfully for use on ground-based observational facilities including the Karl G. Jansky Very Large Array, NSF's National Optical-Infrared Astronomy Research Laboratory telescopes, and the Gemini telescopes. They also compete for time on space-based observational facilities including the Hubble Space Telescope, JWST, the Chandra X-ray Observatory, XMM-Newton X-ray Observatory. The department has a network of linux computers and individual faculty groups run Linux servers. All faculty have access to OSCER; there is no charge for using this facility. Some faculty/groups have access to privately-owned servers operated by OSCER.

Scholarships and Financial Aid

The department offers a number of scholarships each year to students majoring in physics, astronomy, or engineering physics. Undergraduate majors and students who are considering becoming physics, astrophysics, or engineering physics majors are encouraged to apply for scholarships through the University of Oklahoma Centralized Academic Scholarship Hub (CASH).

Teaching and research assistantships are offered on a competitive basis to graduate students.

Undergraduate Study

Physics Degrees

The student whose major is physics may work for the professional degree of Bachelor of Physics (p. 618) or for the standard degree of Bachelor of Science (p. 615), both of which are awarded by the College of Arts and Sciences. The Engineering Physics Bachelor of Science (p. 1395) program is an interdisciplinary degree program which combines the course offerings and research activities of the Homer L. Dodge Department of Physics and Astronomy and the College of Engineering. This degree program is offered by the College of Engineering and detailed information concerning the program can be found in the College of Engineering section of this catalog.

Astrophysics Degree

Students whose major interest is the application of physics to modern astrophysics may work for the Astrophysics Bachelor of Science (p. 613).

Astronomy Degree

The student whose major is astronomy may work for the standard degree of Bachelor of Science (p. 611).

Minors

Minors are offered in physics (p. 620) and astronomy (p. 620).

Graduate Study

Areas of Specialization

Research areas available for both M.S. and Ph.D. degrees include:

- Astrophysics
- Atomic, Molecular and Optical Physics
- High Energy Physics
- Condensed Matter Physics

Master Of Science Degree

The department offers a Master of Science (p. 621) in Physics program with or without the thesis.

Master Of Science (Engineering Physics)

The Engineering Physics, Master of Science (p. 1398) degree is offered as either a thesis or non-thesis program.

Doctoral Programs

The Physics Ph.D. (p. 622) program requires the student to complete at least 90 hours of coursework, take and pass the written Qualifying and General (Specialist) examinations, and complete and successfully defend the results of original research as a dissertation. The department also offers an Astrophysics Ph.D. (p. 621) program.

All Ph.D. students are required to take an appointment as a teaching assistant with a minimum of two semester contact hours for two semesters. This teaching practicum is independent of financial support by the department.

Students who are interested in the **Engineering Physics Ph.D.** should refer to the general requirements of the Graduate College and the College of Engineering. Every student will be assigned an advisory committee who will determine the specific requirements within the guidelines set by these colleges and the career study goals of the student.

The required physics core courses and the Qualifying and Specialist exams are the same as for physics.

Courses

ASTR 1504 Astronomy: Exploring the Universe 4 Credit Hours

An introduction to the concepts of modern astronomy. The solar system, the sun and stars, the Milky Way and other galaxies, current theories of the origin, evolution and fate of the universe. Not for major credit. A student may not receive credit for this course and ASTR 1514. (F, Sp, Su) [II-NS].

ASTR 1514 Astronomy: Exploring the Universe with Laboratory 4 Credit Hours

0 to 4 hours. An introduction to the concepts of modern astronomy. The solar system, the sun and stars, the Milky Way and other galaxies, current theories of the origin, evolution, and fate of the universe. Not for major credit. A student may not receive credit for this course and ASTR 1504. Laboratory (F, Sp, Su) [II-NSL].

ASTR 1523 Life in the Universe 3 Credit Hours

Introductory astronomy course focusing on general physical conditions under which life is thought to arise and evolve in the universe. Topics include historical astronomy, gravitation and planetary orbits, the solar system. The earth's geology and atmosphere, stellar evolution, theories for the origin of life on earth, the discoveries of extrasolar planets, and the search for extraterrestrial life. (Sp) [II-NS].

ASTR 2513 Introductory Astrophysics 3 Credit Hours

Prerequisite: PHYS 1215 or 2524, or permission of instructor. An introduction to solar system astronomy and basic astrophysical concepts for majors and students with a knowledge of introductory physics and calculus. Includes planetary system formation, asteroids, comets, terrestrial planets and giant planets. Astrophysical concepts including Keplers laws, blackbody radiation, hydrostatic equilibrium and heat transfer. Elements of astronomy, including time, celestial coordinates, telescopes and detectors, magnitudes and color indices. (F)

ASTR 2970 Special Topics/Seminar 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ASTR 3103 Stars 3 Credit Hours

Prerequisite: 2513 or permission of instructor. Stellar properties and stellar evolution. Includes fundamental properties of stars (temperature, luminosity, mass) and how to determine them, star formation, main sequence, post main sequence, supernovae, black holes, neutron stars, white dwarfs, binary stars. (F)

ASTR 3113 Galaxies and Cosmology 3 Credit Hours

Prerequisite: 2513 or permission of instructor; 3103 strongly recommended. Galactic and extragalactic astronomy. Includes the Milky Way galaxy, the interstellar medium, normal and active galaxies, clusters of galaxies, cosmology. (Sp)

ASTR 3190 Topics in Astronomy 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. (F, Su)

ASTR 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ASTR 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

ASTR 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

ASTR 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

ASTR 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Sp, Su)

ASTR G4303 Stellar Astrophysics 3 Credit Hours

Prerequisite: 3113 or permission of instructor. Physics of stars: gas and radiation laws, stellar atmospheres and spectra, stellar interiors and evolution. (F)

ASTR 4523 Advanced Observatory Methods 3 Credit Hours

Prerequisite: 2513 and 3103. Techniques of multiwavelength observational astronomy. Includes time and coordinates, physics of astronomical ccds, telescopes, photometry, extinction correction, technical feasibility calculations, optical spectroscopy, and x-ray astronomy. Introductions to gamma-ray, infrared, UV radio astronomy. No student may earn credit for both 4523 and 5523. (Irreg.)

- ASTR 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- ASTR 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ASTR 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- ASTR 5403 High-Energy Astrophysics 3 Credit Hours**
Prerequisite: 4303 or permission of instructor. High-energy radiation processes in astronomy: synchrotron radiation, bremsstrahlung, inverse Compton-effect. New wavebands of observation, UV, X-ray and gamma-ray astronomy. Radioastronomy: supernova remnants, pulsars, neutron stars. Radiogalaxies, active galactic nuclei, quasars. Theories of the origin of cosmic rays. (Irreg.)
- ASTR 5453 Extragalactic Astronomy and Cosmology 3 Credit Hours**
Prerequisite: 3113 or 4303 or permission of instructor. Basic properties of stars. Review of observational tools for extragalactic work. Stellar content and interstellar medium in normal galaxies. Introduction to the theory of Big Bang cosmology. Comparison of observational data to cosmological predictions. The extragalactic distance scale and the age of the universe. Large scale structure: galaxy clusters and superclusters. Active galaxies -- radio galaxies and quasars. (Irreg.)
- ASTR 5463 Stellar Atmospheres 3 Credit Hours**
Prerequisite: 4303 or permission of instructor. Local thermodynamic equilibrium. Radiative transfer, continuous absorption coefficient and model stellar atmospheres. Atomic and molecular spectroscopy and the quantitative analysis of stellar spectra. Atomic processes and departures from local thermodynamic equilibrium. Extended and expanding atmospheres, novae, supernovae. (Irreg.)
- ASTR 5473 Stellar Interiors 3 Credit Hours**
Prerequisite: 4303 or permission of instructor. Evolution and energy balance of stars including gravitational attraction, nucleosynthesis, radiative and convective energy, transport and equilibrium, construction of stellar models for pre-main sequence and main sequence stars, and the theory of giants and white dwarfs. (Irreg.)
- ASTR 5513 Interstellar Medium 3 Credit Hours**
4303 or permission. Processes in low-density media are explored, including the physics relevant to emission line objects such as HII and HI regions, molecular clouds, and active galaxies. Techniques for deriving chemical abundances are explored, as are interstellar absorption by gas and dust and radiation transfer. (Irreg.)
- ASTR 5523 Advanced Observatory Methods 3 Credit Hours**
Prerequisite: 2513 and 3103. Techniques of multiwavelength observational astronomy. Includes time and coordinates, physics of astronomical CCDs, telescopes, photometry, extinction correction, technical feasibility calculations, optical spectroscopy, and x-ray astronomy. Introductions to gamma-ray, infrared, UV radio astronomy. No student may earn credit for both 4523 and 5523. (Irreg.)
- ASTR 5900 Seminar in Astrophysics 3 Credit Hours**
Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. A research seminar devoted to the study of specialized topics in astronomy and astrophysics. Topics selected will reflect the interest of the instructor and students. (Irreg.)
- ASTR 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- ASTR 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ASTR 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- PHYS 1114 General Physics for Non-Science Majors 4 Credit Hours**
Prerequisite: high school algebra II. Not open to students who intend to do major work in mathematics or physical science. Concepts of force, energy, matter, atomic physics, electricity, light, presented as a part of a liberal education. A student may not receive credit for this course and PHYS 1205, PHYS 2414 or PHYS 2514. (F, Sp, Su) [II-NS].
- PHYS 1205 Introductory Physics I for Physics Majors 5 Credit Hours**
Prerequisite: enrollment in Mathematics 1823 or 1914 or permission of instructor. To be taken by physics, astronomy and engineering physics majors during the first semester of their freshman year. Kinematics, dynamics, work and energy, many-particle systems, rigid body rotation, simple harmonic motion. Laboratory is an integral part of the course. Laboratory (F) [II-NSL].
- PHYS 1215 Introductory Physics II for Physics Majors 5 Credit Hours**
Prerequisite: 1205 or permission of instructor. Electricity and magnetism: static fields and forces, circuits, electromagnetic induction. Thermodynamics: the First and Second Laws, temperature, heat, work and entropy. Laboratory is an integral part of the course. Laboratory (Sp)
- PHYS 1311 General Physics Lab I 1 Credit Hour**
Prerequisite: Corequisite: 2414 or 2514. Experiments in basic law of mechanics and thermodynamics. (F, Sp, Su) [II-NSL].
- PHYS 1321 General Physics Lab II 1 Credit Hour**
Prerequisite: Corequisite: 2424 or 2524. Experiments in basic laws of electricity, magnetism, and optics. (F, Sp, Su) [II-NSL].
- PHYS 1453 Musical Acoustics 3 Credit Hours**
An introduction to the science of sound and its propagation with special emphasis on the production of sound by musical instruments and the voice, psychological aspects of sound perception, and room acoustics. Topics are explored through lectures, demonstrations, and discussions. No previous musical experience or proficiency is required. Not for major credit. (F) [II-NS].

- PHYS 2203 Introductory Physics III: Modern Physics 3 Credit Hours**
Prerequisite: 1215 or 2524 (or concurrent enrollment), or permission of instructor. An introduction to and overview of key concepts in contemporary physics, with emphasis on the contrast between classical and modern ways of thinking about the physical universe. Includes an introduction to selected major subject areas, which might include light and optics, relativity, atoms and molecules, the solid state, nuclei, elementary particles, fundamental interactions, cosmology and/or chaos. Students will also explore selected topics in current physics research. (F)
- PHYS 2222 Computational Physics 2 Credit Hours**
Prerequisite: MATH 2433 and PHYS 2203. Students will learn basic skills in programming in the context of solving physics problems. It is assumed that the student has no computer programming experience, and only modest understanding of physics. Through a variety of projects, the students are to obtain a deeper understanding of physical principles by implementing computer simulations. (Sp)
- PHYS 2303 Electronics 3 Credit Hours**
Prerequisite: 1215 or 2524 (or concurrent enrollment), or permission of instructor. An introduction to the characteristics of semiconductor electronic components and their use in the design and operation of practical analog and digital electronic circuits. The emphasis will be on gaining a working knowledge of basic circuits and preparation for understanding and building electronic circuits encountered by experimental research physicists. (F)
- PHYS 2414 General Physics for Life Science Oriented Majors 4 Credit Hours**
Prerequisite: Mathematics 1523 or 1743. Kinematics and dynamics of particles and rigid bodies, gravitation, equilibrium, momentum, energy, static and flowing fluids, kinetic theory, heat and thermodynamics, vibrations, waves and sound. A student may not receive credit for this course and PHYS 1205 or PHYS 2514. (F, Sp, Su) [II-NS].
- PHYS 2424 General Physics for Life Science Oriented Majors 4 Credit Hours**
Prerequisite: PHYS 2414 or PHYS 2514. Electric charge, electric field, electric potential, energy, DC and AC currents, magnetic fields, electromagnetic induction, geometrical optics, wave nature of light, optical instruments, early quantum theory, models of the atom, the nucleus, radioactivity, nuclear reactions and nuclear energy. A student may not receive credit for this course and PHYS 1215 or PHYS 2524. (F, Sp, Su)
- PHYS 2514 General Physics for Engineering and Science Majors 4 Credit Hours**
Prerequisite: MATH 1823 or MATH 1914 with grade of C or better. Vectors, kinematics and dynamics of particles, work and energy systems of particles, rotational kinematics and dynamics, oscillations, gravitation, fluid mechanics, waves. A student may not receive credit for this course and PHYS 1205. (F, Sp, Su) [II-NS].
- PHYS 2524 General Physics for Engineering and Science Majors 4 Credit Hours**
Prerequisite: PHYS 2514 and MATH 2423 or MATH 2924 with grade of C or better. Temperature, heat, thermodynamics, electricity, magnetism, optics. A student may not receive credit for this course and PHYS 1215. (F, Sp, Su)
- PHYS 2970 Selected Topics in Physics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: sophomore standing or permission of instructor. May be repeated; maximum credit six hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- PHYS 3043 Physical Mechanics I 3 Credit Hours**
Prerequisite: 1205 or 2514, and Mathematics 3113 or 3413 (or concurrent enrollment); or permission of instructor. Differential equations based continuum mechanics: Newtonian particle mechanics, driven and damped oscillations, vibrations and waves, and their application to other linear systems, non-linear oscillations, introduction to Lagrange's equations. (Sp)
- PHYS 3053 Physical Mechanics II 3 Credit Hours**
Prerequisite: 3043 or permission of instructor. Lagrangian and Hamiltonian dynamics. Non-inertial reference frames. Rigid body motion. Central forces and collisions. Special relativity. (F)
- PHYS 3183 Electricity and Magnetism I 3 Credit Hours**
Prerequisite: 2203, Mathematics 3413 or concurrent enrollment; or permission of instructor. Electrostatics, dielectrics, continuity conditions, magnetic forces and fields, magnetic induction, magnetization, Maxwell's equations. (F)
- PHYS 3223 Modern Physics for Engineers 3 Credit Hours**
Prerequisite: Mathematics 3113 or equivalent. Relativity, atomic structure, nuclear theory, wave mechanics, statistical physics, solid state physics. (F)
- PHYS 3302 Advanced Lab I 2 Credit Hours**
Prerequisite: 2303 or permission of instructor. Junior-level experiments in physics. (F, Sp)
- PHYS 3312 Advanced Lab II 2 Credit Hours**
Prerequisite: 3302 or permission of instructor. Junior-level experiments in physics. (F, Sp)
- PHYS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- PHYS 3803 Introduction to Quantum Mechanics I 3 Credit Hours**
Prerequisite: PHYS 3043 and MATH 3413 or permission of instructor. Fundamental ideas of quantum physics. Postulates of quantum theory, wave functions, operators, the Schrodinger equation, one-dimensional systems. Mathematical tools of quantum mechanics. Theory of measurement. Stationary and nonstationary states. (Sp)
- PHYS 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)
- PHYS 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. Deals with concepts not usually presented in regular coursework. (Su)
- PHYS 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

- PHYS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- PHYS G4153 Statistical Physics and Thermodynamics 3 Credit Hours**
Prerequisite: 3803. Statistical properties of physical systems. Entropy and temperature, the Boltzmann distribution, Fermi-Dirac and Bose-Einstein gases. Thermodynamic functions. Statistical interpretation of thermodynamics. (F)
- PHYS G4183 Electricity and Magnetism II 3 Credit Hours**
Prerequisite: 3183. Maxwell's equations, electromagnetic wave equations, propagation of electromagnetic waves, reflection and refraction, radiation. (Sp)
- PHYS 4213 Nuclear and Particle Physics 3 Credit Hours**
(Slashlisted with 5213) Prerequisite: 3803. Basic nuclear structure, nuclear models, radioactivity, nuclear reactions. Particle interactions and families, quark model, weak decays of quarks and leptons. No student may earn credit for both 4213 and 5213. (F)
- PHYS 4223 Optics 3 Credit Hours**
(Slashlisted with PHYS 5223) Prerequisite: Junior standing. Geometrical optics; optical systems; optical aberrations; electromagnetic optics; diffraction theory; Fourier optics; interference; optical coherence and statistical properties of light; advanced topics such as, e.g., lasers and fiber optics. No student may earn credit for both 4223 and 5223. (Irreg.)
- PHYS 4243 Solid State Physics 3 Credit Hours**
(Slashlisted with 5243) Prerequisite: 3803. Crystal structure, electrons in simple metals, electron band theory, semiconductors, superconductivity, phonons. No student may earn credit for both 4243 and 5243. (Sp)
- PHYS 4300 Senior Research Project 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing in major and permission of instructor. May be repeated once. Research project, experimental or theoretical, to be arranged with individual faculty, leading to a senior thesis. Group seminars to discuss projects and other topics of current interest in physics and astronomy. Total of four hours required for general education capstone. (F, Sp) [V].
- PHYS 4310 Senior Research Project I 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. Research project, experimental or theoretical, to be arranged with individual faculty, leading to a senior thesis. Group seminars to discuss projects and other topics of current interest in physics and astronomy. Total of four hours between PHYS 4310 and PHYS 4320 are required. (F, Sp) [V].
- PHYS 4320 Senior Research Project II 1-3 Credit Hours**
1 to 3 hours. Prerequisite: PHYS 4310. A continuation of the research project, experimental or theoretical, arranged with individual faculty, producing a senior thesis. Group seminars to discuss projects and other topics of current interest in physics and astronomy. Total of four hours between PHYS 4310 and PHYS 4320 are required. (F, Sp) [V].
- PHYS G4803 Introduction to Quantum Mechanics II 3 Credit Hours**
Prerequisite: 3803 or permission of instructor. Quantum mechanics of three-dimensional systems. Angular momentum. Approximation methods: perturbation theory, variational methods. Time-dependent perturbations: transition rates, selection rules. Interaction of radiation with matter. Applications. Quantum mechanics of atoms and molecules. (F)
- PHYS 4813 Atomic Physics 3 Credit Hours**
(Slashlisted with PHYS 5813) Prerequisite: PHYS 4803. Hydrogen atom: fine structure, hyperfine structure, and external field effects; helium and many-electron atoms; two-level atom: rotating wave approximation, Rabi oscillation, and Bloch sphere; atom interferometry; broadening mechanisms; saturation spectroscopy; photon echoes. No student may earn credit for both 4813 and 5813. (Sp)
- PHYS 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- PHYS 4970 Seminar-Selected Topics in Physics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject; maximum credit six hours. (Irreg.)
- PHYS 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied, permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- PHYS 5000 Introduction to Graduate Studies in Physics 0 Credit Hours**
Prerequisite: Graduate standing. The course is an introduction to research in general as well as specific research done within the department. It will familiarize students with departmental procedures, improve their teaching of Physics, and convey the expectations and demands of a career in Physics or Astronomy. (F)
- PHYS 5013 Mathematical Methods in Physics 3 Credit Hours**
Prerequisite: graduate standing. Orthogonal transformations and tensor analysis; partial differential equations and special functions; Green's functions; perturbation theory; calculus of variations; theory of complex variables; integral definition of special functions. (F)
- PHYS 5153 Classical Mechanics 3 Credit Hours**
Prerequisite: PHYS 3053 or equivalent. Hamilton's principle, Lagrange's equations, mechanics of particles and rigid bodies, Hamilton's equations, canonical transformations, Poisson brackets, action-angle variables. (F)
- PHYS 5163 Statistical Mechanics 3 Credit Hours**
Prerequisite: PHYS 4153 or equivalent. Classical and quantum statistical mechanics, fluctuations, thermodynamics, ideal gases, phase equilibrium and transitions, Bose-Einstein and Fermi-Dirac statistics, blackbody radiation, Einstein-Debye model, electrons in metals, critical exponents, spin models. (Sp)
- PHYS 5213 Nuclear and Particle Physics 3 Credit Hours**
(Slashlisted with 4213) Prerequisite: 4803; graduate standing. Basic nuclear structure, nuclear models, radioactivity, nuclear reactions. Particle interactions and families, quark model, weak decays of quarks and leptons. No student may earn credit for both 4213 and 5213. (F)
- PHYS 5223 Optics 3 Credit Hours**
(Slashlisted with PHYS 4223) Prerequisite: Graduate standing. Geometrical optics; optical systems; optical aberrations; electromagnetic optics; diffraction theory; Fourier optics; interference; optical coherence and statistical properties of light; advanced topics such as, e.g., lasers and fiber optics. No student may earn credit for both 4223 and 5223. (Irreg.)

- PHYS 5243 Solid State Physics** **3 Credit Hours**
(Slashlisted with 4243) Prerequisite: 4803; graduate standing. Crystal structure, electrons in simple metals, electron band theory, semiconductors, superconductivity, phonons. No student may earn credit for both 4243 and 5243. (Sp)
- PHYS 5293 Electronic, Optical and Magnetic Properties of Materials** **3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor. This course surveys the electronic, optical and magnetic properties of materials and how these properties can be designed for specific applications. Topics include: forces, energies and timescales in condensed matter, electrons in crystalline semiconductors, electromagnetic waves in matter, optical and transport properties of polymers and small molecules, origins of magnetization in materials, structural and magnetic order/disorder phase transitions. (Irreg.)
- PHYS 5393 Quantum Mechanics I** **3 Credit Hours**
Prerequisite: PHYS 4803 or equivalent. Topics in nonrelativistic quantum mechanics including the Heisenberg and Schrodinger pictures, Dirac formalism, angular momentum, bound states of spherically symmetric potentials, spin and angular momentum coupling, density matrix, 1d potential scattering. (Sp)
- PHYS 5403 Quantum Mechanics II** **3 Credit Hours**
Prerequisite: PHYS 5393. Time-independent perturbation theory, time-dependent perturbation theory, electromagnetic interactions, potential scattering, symmetry and statistics, multiparticle systems, relativistic quantum mechanics including Klein-Gordon and Dirac equation. (F)
- PHYS 5573 Electrodynamics I** **3 Credit Hours**
Prerequisite: PHYS 4183 or equivalent. Electrostatics; Poisson equation; solution via Green's functions; ponderable media; magnetism and Ampere's law; Faraday's law; Maxwell equations, solution via potentials; gauge fixing; advanced and retarded Green's functions; causality. (Sp)
- PHYS 5583 Electrodynamics II** **3 Credit Hours**
Prerequisite: PHYS 5573. Electromagnetic waves and radiation; scattering and diffraction; special relativity and relativistic electrodynamics; radiation by moving charges. (F)
- PHYS 5813 Atomic Physics** **3 Credit Hours**
(Slashlisted with PHYS 4813) Prerequisite: Graduate standing and PHYS 4803. Hydrogen atom: fine structure, hyperfine structure, and external field effects; helium and many-electron atoms; two-level atom: rotating wave approximation, Rabi oscillation, and Bloch sphere; atom interferometry; broadening mechanisms; saturation spectroscopy; photon echoes. No student may earn credit for both 4813 and 5813. (Sp)
- PHYS 5910 Problems in Natural Science** **1-2 Credit Hours**
1 to 2 hours. Prerequisite: admission to candidacy for degree of Master of Natural Science. (F, Sp, Su)
- PHYS 5960 Directed Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- PHYS 5970 Seminar--Selected Topics in Modern Physics** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission. May be repeated with change of subject matter; maximum credit for master's degree six hours, for doctor's degree 12 hours. (F, Sp, Su)
- PHYS 5980 Research for Master's Thesis** **2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- PHYS 5990 Special Studies** **1-4 Credit Hours**
Prerequisite: 12 hours of physics, permission. May be repeated with change of subject matter; maximum credit for a master's degree four hours, for a doctor's degree ten hours. (F, Sp, Su)
- PHYS 6213 Advanced Particle Physics** **3 Credit Hours**
Prerequisite: 5213, 5403 or equivalents. The theory and phenomenology of the "standard model" of particle physics which encompasses the electro-weak and strong interactions. Topics will include: symmetries, groups and conservation laws; bound states, quarkonium; Feynman diagrams, QED; QCD; weak interactions; gauge theories. (Irreg.)
- PHYS 6243 Advanced Solid State Physics** **3 Credit Hours**
Prerequisite: 4243, 5403, or equivalents. The physics of metals, semiconductors and insulators. Free electron theory, crystal structure and phonons, electron band theory, semiclassical model, applications to electronic and optical properties of solids, effects of magnetic fields. (Irreg.)
- PHYS 6283 Advanced Atomic/Molecular Physics** **3 Credit Hours**
Prerequisite: Graduate standing and PHYS 5403 (QMII), PHYS 5813 (AMOI), or equivalent. Beyond the two-level atom approximation: effects such as lambda system, STIRAP, dark states, and slow light; Doppler-free spectroscopy; optical pumping; collective atomic effects; laser cooling; Bose-Einstein condensates; electronic wave functions of atoms and molecules: variational principle, Hartee-Fock, and configuration interaction; molecular interaction potentials; interaction of light and molecules. (Irreg.)
- PHYS 6333 General Relativity** **3 Credit Hours**
Prerequisite: 5013, 5583. The mathematical and physical basis for the relativistic theory of gravitation; the principle of equivalence; tensor analysis; Einstein's field equations; tests of general relativity; gravitational collapse; cosmology; toward a quantum theory of gravity. (Irreg.)
- PHYS 6433 Quantum Field Theory** **3 Credit Hours**
Prerequisite: 5403. Canonical quantization of scalar and spinor fields; perturbation theory and Feynman diagrams; renormalization; path integral formulation; renormalization group; gauge fields with selected applications to QED, electro-weak theory and QCD. (Irreg.)
- PHYS 6443 Advanced Quantum Field Theory** **3 Credit Hours**
Prerequisite: graduate standing and 6433. Path integral quantization; renormalization; renormalization group equations; gauge theories of strong and electroweak interactions. (F)
- PHYS 6543 Advanced Quantum Optics** **3 Credit Hours**
Prerequisite: Graduate standing, PHYS 5393, PHYS 5403, PHYS 5573, and PHYS 5813, or equivalent; Recommended - PHYS 5223. This course introduces students to advanced topics in quantum optics, with reference to both historic and current state-of-the-art developments. Students will be introduced to core concepts such as quantum noise, phase-space, atom-light interactions, entanglement, and open systems. Students will learn how to apply these theoretical concepts to experimental systems that study the generation and manipulation of quantum states of light. (Irreg.)

PHYS 6663 Non-Relativistic Many Body Theory 3 Credit Hours

Prerequisite: Graduate standing, PHYS 5393 (QMI), PHYS 5403 (QMII), PHYS 5573 (EMI), PHYS 5153 (Class Mech), and PHYS 5163 (Stat Mech), or equivalent. This course introduces students to several many-body treatments and illustrates the techniques on a variety of examples, focusing on applications of historical importance and recent modern developments. The course focuses on non-relativistic (as opposed to relativistic) quantum many-body techniques and applications. Students will be introduced to mean-field theory, Green's functions, broken symmetries and transformations, path integrals, and diagrammatic techniques. (Irreg.)

PHYS 6860 Advanced Topics in Mathematical Methods in Physics 1-3 Credit Hours

1 to 3 hours. Prerequisite: 5013 or permission. May be repeated with change of content; maximum credit nine hours. Topics covered will be selected by instructor and announced prior to the term in which it will be offered. The course is intended to offer material currently used in theoretical physics. (Irreg.)

PHYS 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

PHYS 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

PHYS 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

PHYS 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Abbott	Braden	K	2000	PROFESSOR OF PHYSICS AND ASTRONOMY, 2013	PhD, Purdue, 1994; MS, Purdue, 1992; BA, Univ of Minnesota Morris, 1989
Abraham	Eric	R	1998	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2004; L.J. SEMROD PRESIDENTIAL PROFESSOR, 2005; ASSOCIATE PROFESSOR ENGINEERING PHYSICS	PhD, Rice Univ, 1996; BA, St. Olaf College, 1991

Baer	Howard	A	2008	HOMER L. DODGE CHAIR IN HIGH ENERGY PHYSICS, 2008; GEORGE LYNN CROSS RESEARCH PROFESSOR OF PHYSICS AND ASTRONOMY, 2014	PhD, Univ of Wisconsin, 1984; MS, Univ of Wisconsin, 1981; BS, Univ of Wisconsin, 1979
Baron	Edward	A	1990	GEORGE LYNN CROSS RESEARCH PROFESSOR OF PHYSICS AND ASTRONOMY, 2011	PhD, Stony Brook Univ; 1985; MA, Stony Brook Univ, 1982; BA, Univ of Pennsylvania, 1980
Biederman	Grant			ASSOCIATE PROFESSOR OF PHYSICS	PhD, Stanford Univ, 2007; MS, Yale Univ, 2002; BS, Univ of Oklahoma, 2001
Blume	Doerte		2017	PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Georg-August Univ, 1998; BS, Georg-August Univ, 1995
Bumm	Lloyd	A	2001	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2007; ASSOCIATE PROFESSOR ENGINEERING PHYSICS	PhD, Northwestern Univ, 1991; BS, Clarkson Univ, 1982
Dai	Xinyu		2011	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Penn State Univ, 2004; BS, Peking Univ, 1998
Gutierrez	Phillip		1989	PROFESSOR OF PHYSICS AND ASTRONOMY, 2001; PROFESSOR ENGINEERING PHYSICS	PhD, Univ of California Riverside, 1983; MS, Univ of California Riverside, 1980; BS, Univ of California Riverside, 1976
Kaib	Nathan		2015	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2015	PhD, Univ of Washington, 2010; BS, Case Western Reserve Univ, 2002
Kao	Chung		2000	PROFESSOR OF PHYSICS AND ASTRONOMY, 2013	PhD, Univ of Texas, 1990; MS, Univ of Oregon, 1985; BS, National Taiwan Norman Univ, 1980
Kilic	Mukremin		2011	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Univ of Texas, 2006; BS, Bogazici Univ, 1999
Leighly	Karen	M	2000	PROFESSOR OF PHYSICS AND ASTRONOMY, 2013	PhD, Montana State Univ, 1991; MS, Montana State Univ, 1987; BS, New Mexico Inst Mining & Tech, 1983
Marino Valle	Alberto		2012	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2012; ASSISTANT PROFESSOR ENGINEERING PHYSICS	PhD, Univ of Rochester, 2006; MS, Univ of Rochester, 2002; BS, Universidad de Monterrey, 1998

Mason	Bruce	A	1989	ASSOCIATE PROFESSOR OF PHYSICS AND ASTRONOMY, 1995	PhD, Univ of Maryland, 1985; MS, Univ of Maryland, BA, Oberlin College, 1980
Mullen	Kieran	J	1994	PROFESSOR OF PHYSICS AND ASTRONOMY, 2007; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2009	PhD, Univ of Michigan, 1989; BS, Georgetown Univ, 1982
Munshi	Ferah	A	2017	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2017	PhD, Univ of Washington, 2013; MS, Univ of Washington, 2010; BA, Univ of California Berkeley, 2007
Santos	Michael	B	1993	SAMUEL ROBERTS NOBLE PRESIDENTIAL PROFESSOR, 1997; TED AND CUBA WEBB PRESIDENTIAL PROFESSOR, 2003; PROFESSOR OF PHYSICS AND ASTRONOMY, 2004; CHARLES L. BLACKBURN CHAIR IN ENGINEERING PHYSICS, 2006	PhD, Princeton Univ, 1992; MA, Princeton Univ, 1989; BS, Cornell Univ, 1986
Schwettmann	Arne		2014	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2014; ASSISTANT PROFESSOR ENGINEERING PHYSICS	PhD, Univ of Oklahoma, 2012; MS, Univ of North Texas, 2003; BS, Universität Hannover, 2001

MATH 2924	Differential and Integral Calculus II ¹	4
MATH 2934	Differential and Integral Calculus III ¹	4
MATH 3413	Physical Mathematics I	3
Total Credit Hours		20

¹ MATH 1823, MATH 2423, MATH 2433, and MATH 2443 may also be used to meet the Calculus sequence requirement.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/genesd/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3

Choose one course from the General Education Social Science list 3

Core Area IV: Arts and Humanities (18 hours)

Artistic Forms

Choose one course from the General Education Artistic Forms list 3

Western Culture

HIST 1483 United States to 1865 3
or HIST 1493 United States, 1865 to the Present

Choose one course from the General Education Western Culture list (excluding HIST 1483/1493) 3

World Culture

Choose one course from the General Education World Culture list 3

Additional Core IV Upper-Division Arts & Humanities courses

Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3} 3

Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3} 3

Core Area V: First Year Experience (3 hours)

Choose one course 3

Total Credit Hours 56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Physics and Astronomy academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Astronomy major requirements.

Freshman

Total Credit Hours **120**

¹ Students may substitute MATH 1823, MATH 2423, MATH 2433 and MATH 2443 calculus sequence instead of MATH 1914, MATH 2924, and MATH 2934.

Physics (Professional), B. Phys.

Minimum Total Credit Hours: 120

Major Hours: 45

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B781

- A grade of C or better must be earned in each required Physics and Mathematics course.

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.

A total of 45 hours in Physics is required, including the courses listed below.

Code	Title	Credit Hours
PHYS 1205	Introductory Physics I for Physics Majors	5
PHYS 1215	Introductory Physics II for Physics Majors	5
PHYS 2203	Introductory Physics III: Modern Physics	3
PHYS 2303	Electronics	3
PHYS 3043	Physical Mechanics I	3
PHYS 3053	Physical Mechanics II	3
PHYS 3183	Electricity and Magnetism I	3
PHYS 3302	Advanced Lab I	2
PHYS 3312	Advanced Lab II	2

MATH 2924	Differential and Integral Calculus II ¹	4
MATH 2934	Differential and Integral Calculus III ¹	4
MATH 3413	Physical Mathematics I	3
MATH 3423	Physical Mathematics II	3
Choose 3 upper-division elective hours in mathematics		3
Total Credit Hours		21-26

¹ MATH 1823, MATH 2423, MATH 2433 and MATH 2443 may also be used to meet this requirement.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/geded/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
------	-------	--------------

Core Area I: Symbolic and Oral Communication

English Composition (6 hours)

ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	

Language (0-13 hours in the same language)

The college requirement cannot be met by high school coursework.

Beginning Course	0-5
Beginning Course, continued	0-5
Intermediate Course (2000 level) ^{1,2}	0-3

Mathematics (3 hours)

Choose one course from the General Education Mathematics list	3
---	---

Core Area II: Natural Science (7 hours, including one laboratory component)

Biological Science

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
---	-----

Physical Science

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
--	-----

Core Area III: Social Science (6 hours)

P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3

Core Area IV: Arts and Humanities (18 hours)

Artistic Forms

Choose one course from the General Education Artistic Forms list	3
--	---

Western Culture

HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
World Culture		
Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Physics and Astronomy academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Physics major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1914	Differential and Integral Calculus I	4
PHYS 1205	Introductory Physics I for Physics Majors	5
First Year Experience (Core V)		3
Credit Hours		15

Second Semester

ENGL 1213	Principles of English Composition (Core I)	3
or EXPO 1213	or Expository Writing	
MATH 2924	Differential and Integral Calculus II	4
PHYS 1215	Introductory Physics II for Physics Majors	5

Credit Hours	11
Total Credit Hours	120

¹ Students may substitute MATH 1823, MATH 2423, MATH 2433 and MATH 2943 calculus sequence instead of MATH 1914, MATH 2924, and MATH 2934.

² At least 4 hours of upper-division General Education will be required to complete the 48 hour upper-division requirement.

Astronomy, Minor

Minimum Total Credit Hours: 26

Minimum Upper-Division Hours: 9

Program Code: N080

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Physics & Astronomy.

Required Courses

Students must successfully complete at least 26 hours of courses acceptable for major credit in Astronomy, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
PHYS 1205	Introductory Physics I for Physics Majors	4-5
or PHYS 2514	General Physics for Engineering and Science Majors	
PHYS 1215	Introductory Physics II for Physics Majors	4-5
or PHYS 2524	General Physics for Engineering and Science Majors	
PHYS 2203	Introductory Physics III: Modern Physics	3
PHYS 3043	Physical Mechanics I	3
ASTR 2513	Introductory Astrophysics	3
ASTR 3103	Stars	3
ASTR 3113	Galaxies and Cosmology	3
MATH 2443	Calculus and Analytic Geometry IV	3
Total Credit Hours		26

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Physics, Minor

Minimum Total Credit Hours: 22

Minimum Upper-Division Hours: 9

Program Code: N780

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Physics & Astronomy.

Required Courses

Students must successfully complete at least 22 hours of courses acceptable for major credit in Physics, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
PHYS 1205	Introductory Physics I for Physics Majors ¹	5
PHYS 1215	Introductory Physics II for Physics Majors ¹	5
PHYS 2203	Introductory Physics III: Modern Physics	3
or PHYS 3223	Modern Physics for Engineers	
PHYS 3043	Physical Mechanics I	3
Choose one of the following:		3
PHYS 3053	Physical Mechanics II	

PHYS 3183	Electricity and Magnetism I	
PHYS 3803	Introduction to Quantum Mechanics I	
Choose one of the following:		3-6
MATH 3113 & MATH 3333	Introduction to Ordinary Differential Equations and Linear Algebra I (both courses, 6 hours) ²	
MATH 3413	Physical Mathematics I (one course, 3 hours) ²	
Total Credit Hours		22

¹ PHYS 1205 and PHYS 1215 may be replaced by PHYS 2514 and PHYS 2524. If completing PHYS 2514 and PHYS 2524, students must also complete either PHYS 1311 and PHYS 1321 or PHYS 2303 or PHYS 3302.

² These MATH courses are acceptable for the minor although they do not meet the major credit requirement.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Physics, M.S.

Minimum Total Hours (Thesis): 30

Minimum Total Hours (Non-Thesis): 32

Program Code: M780

Required Courses

Thesis Option (standard)

Code	Title	Credit Hours
Choose 14-16 hours of PHYS and/or ASTR courses at the 4000-level or above (note that 4000 level courses must carry graduate credit)		14-16
PHYS 5980	Research for Master's Thesis	2-4
Choose 12 hours of other graduate coursework as approved by the advisory committee		12
Total Credit Hours		30

Thesis Option (Astrophysics)

Code	Title	Credit Hours
ASTR 4303	Stellar Astrophysics ¹	0 or 3
Choose 6 hours of ASTR courses numbered 5000 or above		6
Choose 12 credit hours of PHYS and/or ASTR courses at the 4000-level or above. (note that 4000 level courses must carry graduate credit)		12
PHYS 5980	Research for Master's Thesis	2-4
Choose 5-10 hours of other graduate coursework as approved by the advisory committee, to bring total graduate credit hours to 30		5-10
Total Credit Hours		30

¹ If presented as undergraduate credit, this course does not count towards the 30 hours required for the degree.

Non-Thesis Option

Code	Title	Credit Hours
Choose 20 hours of PHYS and/or ASTR courses at the 4000-level or above (note that 4000 level courses must carry graduate credit) ¹		20
Choose 12 hours of other graduate coursework as approved by the advisory committee		12
Total Credit Hours		32

¹ May not include PHYS 5980.

Notes

- **Non-thesis students must pass the internal departmental qualifying exams on Quantum Mechanics, Electrodynamics, and Classical & Statistical Mechanics.**
- **The Comprehensive Exam can be either the General Exam for admission to doctoral candidacy (for students pursuing a doctorate) or a separate written paper and oral exam (for students exiting with a Masters).**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Astrophysics, Ph.D.

Minimum Total Hours: 90

Program Code: D082

Program Requirements

Code	Title	Credit Hours
Required Physics & Astronomy Coursework (30 hours)		
PHYS 5000	Introduction to Graduate Studies in Physics	0
PHYS 5013	Mathematical Methods in Physics	3
PHYS 5153	Classical Mechanics	3
PHYS 5163	Statistical Mechanics	3
PHYS 5393	Quantum Mechanics I	3
PHYS 5573	Electrodynamics I	3
Additional five core courses (15 hours) that cover applications of physics principles in astrophysical settings can be selected from ASTR and PHYS courses at the 5000 level and above (excluding 5980 and 6980) or in related fields at the G4000 level and above if approved by the advisory committee and the graduate liaison		15
Additional Coursework (60 hours)		
PHYS 6980	Research for Doctoral Dissertation (minimum 2 hours)	2-60
Additional graduate-level coursework as needed to reach 90 post-baccalaureate hours, as approved by the advisory committee		0-58
Total Credit Hours		90

Note:

The General Exam consists of a written paper and oral presentation on an area related to proposed thesis. The General Exam can only be taken after passing the internal departmental qualifying exams.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

Physics, Ph.D.

Minimum Total Hours: 90

Program Code: D780

Program Requirements

Code	Title	Credit Hours
Required Physics and/or Astronomy Coursework (36 hours)		
PHYS 5000	Introduction to Graduate Studies in Physics	0
PHYS 5013	Mathematical Methods in Physics	3

General Information

The Department of Political Science is the academic home for faculty, staff members, undergraduate students, and graduate students who share a love of politics and a devotion to learning. The department offers two undergraduate degrees, one in political science and the other in public and nonprofit administration. Master's degrees in both political science and public administration are offered, and also a doctorate in political science.

The Department of Political Science is among the most intellectually eclectic at the University of Oklahoma. Faculty and students pursue research and study in topics as varied as American politics, comparative politics, international relations, public policy, public administration, and political theory. There are no intellectual or methodological orthodoxies. A diverse faculty and group of students pursue a multiplicity of paths to knowledge.

Affiliated with the department are the Carl Albert Congressional Research and Studies Center, the OU POLL (Public Opinion Learning Laboratory), the Institute for Public Affairs, International and Area Studies, the Institute for American Constitutional Heritage, and the Center for Applied Social Research.

Programs & Facilities

Special Facilities and Programs

The Carl Albert Congressional Research and Studies Center is a unique and nonpartisan institution that strengthens representative democracy through scholarship, learning, and service. Established in 1979 by the Oklahoma State Regents for Higher Education and the Board of Regents of the University of Oklahoma, the center is a living tribute to the ideals, leadership, and accomplishments of the Honorable Carl Albert, native Oklahoman, University of Oklahoma alumnus, Rhodes Scholar, 46th Speaker of the U.S. House of Representatives.

The University of Oklahoma's Public Opinion Learning Laboratory is a state-of-the-art survey research facility on the OU campus in Norman,

Oklahoma. Established by President Boren, the purpose of the OU POLL is to conduct research on public opinion, in order to foster knowledge about public affairs and to assist in the conduct of research on public policy important to University departments, state and local governments, media organizations, other public and private entities, and the general public. The OU POLL is located in Alley A9, Cross Center, on OU's Norman campus. Contact the OU POLL's Director, Amy Sue Goodin for more information.

The Institute for Public Affairs, established in 1995, conducts applied research on public policy issues affecting Oklahoma. The Institute provides policy research and technical assistance, training and leadership development, and civic education for public sector and non-profit audiences. The Institute draws on the diverse backgrounds, interests, and expertise represented among the faculty throughout the University. Faculty associated with the Institute work in the areas of policy analysis and policy formulation, program design, program evaluation, and design and assessment of operating systems such as budgeting and personnel. For more information, contact Dr. Scott Robinson, Director, 455 West Lindsey, Room 205, Norman, OK 73019-2002.

Student Organizations

Undergraduate and graduate students who qualify are invited to join Pi Sigma Alpha, the national political science honorary society. Other student organizations of interest to department majors are: Political Science Club, Student Association for Public Administration, OU Pre-Law Club, Model UN.

Scholarships

The Department of Political Science awards a variety of scholarships to undergraduates every spring. In addition to administering the prestigious Robert Dean Bass Memorial Scholarship, our department faculty nominate undergraduates for paper awards based on exceptional papers written in political science courses.

Undergraduate Study

Bachelor of Arts

The department offers these majors:

- Political Science (p. 637)
Students that choose political science can take courses in American politics, public policy, public administration, comparative politics, international relations or political theory.
- Political Science: Elections and Campaign Management (p. 640)
The Elections and Campaign Management concentration provides a concentrated education in campaigns and voter behavior.
- Public & Nonprofit Administration (p. 642)
Students that choose public and nonprofit administration will focus their coursework in public policy and public administration.

Accelerated Dual Degree Programs

- Political Science, Bachelor of Arts/Master of Public Administration (p. 650)
Students to simultaneously receive a Political Science Bachelor of Arts degree and the Master of Public Administration degree.
- Political Science, Bachelor of Arts/Master of Arts (p. 647)
Students to simultaneously receive a Political Science Bachelor of Arts degree and the Political Science Master of Arts degree.
- Public and Nonprofit Administration, Bachelor of Arts/Master of Arts (p. 652)

Students to simultaneously receive a Public and Nonprofit Administration Bachelor of Arts degree and the Political Science Master of Arts degree.

- Public and Nonprofit Administration, Bachelor of Arts/Master of Public Administration (p. 655)

Students to simultaneously receive a Public and Nonprofit Administration Bachelor of Arts degree and the Master of Public Administration degree.

Minors

The department offers these minors:

- Political Science (p. 646)
- Public Affairs & Administration (p. 647),
- Elections & Campaign Management (p. 644)
- Nonprofit Organizational Studies (p. 646)
- Non-Governmental Organizations (p. 645).

Careers

The study of political science and public administration is an excellent foundation for careers in law and law enforcement; government service at the national, state, and local levels, from federal agencies to city managers; politics, such as campaign management or lobbying or elective office; professional research for a “think tank;” labor relations; political journalism; teaching at the secondary and university levels; the diplomatic corps; management in the public and nonprofit sectors, in such areas as health care management and human resource management; consulting; international business; urban planning and development; business management; and policy analysis.

Graduate Study

Areas of Specialization

American politics, comparative politics, international relations, political theory, public administration, public policy, and research methods.

Master of Arts

The Master of Arts (p. 657) in Political Science degree provides excellent preparation for doctoral work for those in public non-profit, or private careers who find further professional development necessary. The degree program provides a basic minimum of structure to ensure that participants will obtain the necessary groundwork in political science. Beyond the basic requirements, there is an opportunity for significant specialization in the fields of most interest to the student.

Master of Public Administration

The degree is designed to provide the student with an understanding and knowledge of government and its environment. As a professional program, emphasis is placed upon learning those administrative concepts, processes, and techniques that are associated with managing the public's business. The academic base for the M.P.A. consists of required courses which include research methods, evaluation, and budgeting and area requirements in management, public policy, organizations, and American political process. The program integrates the theoretical with the practical dimensions of administration and encourages a broad academic and professional perspective. M.P.A. graduates typically enter the public or not-for-profit sectors, although many graduates have used the expertise gained in the program to enter and/or enhance careers in business and corporate enterprises. Public Administration offers classes in multiple formats and at multiple locations. Courses are scheduled in the evening, weekends, online and

during the day. The program can be completed on the Norman or Tulsa campuses, and our faculty routinely teach MPA courses at the OU Health Sciences Center in Oklahoma City.

- Master of Public Administration (p. 658)
- Public Management, Master of Public Administration (p. 659)
- Non-Profit Management, Master of Public Administration (p. 659)
- Public Policy, Master of Public Administration (p. 660)

Graduate Certificates

- Non-Profit Management (p. 660)

Doctoral Programs

The Political Science PhD (p. 661) program at the University of Oklahoma is one of the most diverse, well-established doctoral programs in the region. The program offers seven fields of study, which include American politics, comparative government, international relations, public administration, public policy, political theory and research methods. Doctoral students work closely with nationally recognized faculty who publish widely, are active in leadership positions in national and international professional associations, and are involved in editing leading journals in their fields. Students play a significant part in the intellectual life of the Department, participating in informal research-in-progress sessions, attending talks hosted by job candidates, and preparing papers for presentation at professional conferences.

Opportunities for research and funding are provided by programs affiliated with the department, including the Carl Albert Congressional Research and Studies Center, the Institute for Public Affairs, the International Programs Center, the OU POLL, the Center for Risk, Crisis and Resilience, the Center for Applied Social Research, and International and Area Studies.

Courses

NPNG 2033 Introduction to Nonprofits 3 Credit Hours

A comprehensive overview of the nonprofit sector, its characteristics, and how to manage a nonprofit organization. Examines a wide range of management issues today's nonprofits face in pursuing their missions and daily operations. (F, Sp)

NPNG 3033 Nonprofit Management 3 Credit Hours

Prerequisite: NPNG 2033 or permission of department. A more detailed look at how to manage or govern a well-run nonprofit organization efficiently. Combines academic theory with real-life experience, equipping students with the tools required to effectively lead a nonprofit organization. (F, Sp)

NPNG 3193 Nonprofits and Public Policy 3 Credit Hours

(Crosslisted with P SC 3193) Prerequisite: P SC 1113. Examines how nonprofit organizations advocate for their causes through the public policy process as well as how public policy influences nonprofit missions and funding. It also explores more broadly the role of nonprofit organizations in democracy and the various ways they interact with government, including collaborative and conflictual relationships with government. (Irreg.)

NPNG 3771 Issue Advocacy 1 Credit Hour

(Crosslisted with P SC 3771) Prerequisite: P SC 1113 or junior standing. Designed to provide a practical application of the theories and concepts acquired in the study of political science and public administration. How to be effective advocates at all levels of government for the issues and ideas they seek to see implemented in public policy will be learned. (Irreg.)

- NPNG 3781 Tracking Legislation 1 Credit Hour**
(Crosslisted with P SC 3781) Prerequisite: P SC 1113 or junior standing. Designed to provide a practical application of the theories and concepts acquired in the study of political science and public administration. How to read and track legislation in the State of Oklahoma will be learned. Additionally, students will learn the inner workings of state government from a legislative perspective. (Irreg.)
- NPNG 3791 Social Media Strategies for Public and Nonprofit Organizations 1 Credit Hour**
(Crosslisted with P SC 3791) Prerequisite: P SC 1113 or junior standing. Designed to offer an overview of the social media field as it pertains to nonprofits and public organizations.
- NPNG 3910 Nonprofit Internship 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing and permission of instructor. May be repeated; maximum credit six hours. Interns observe and participate in functions, processes and actions of nonprofit organizations. This experience can enhance a student's knowledge of the requirements, benefits and lessons of working in the public or non-profit sector. (F, Sp, Su)
- NPNG 4033 Leadership & Planning 3 Credit Hours**
Prerequisite: NPNG 3033 or permission of instructor. A continuation of nonprofit organization management, with emphasis on board members, volunteers, paid staff, accountability, interactions, risk management, finances, and trending. (Sp)
- NPNG 4103 Nonprofit Human Resource Management 3 Credit Hours**
Prerequisite: NPNG 2033 and junior standing, or permission of instructor. Provides a comprehensive overview for those interested in entering the fundraising field or learning more about methods, technology and concepts in the development area of the nonprofit sector. The sources of funding and how to apply fundraising strategies will be studied. (Irreg.)
- NPNG 4203 Fundraising and Philanthropy 3 Credit Hours**
Prerequisite: NPNG 2033 and senior standing or permission of instructor. Provides a comprehensive overview for those interested in entering the fundraising field or learning more about methods, technology and concepts in the development area of the nonprofit sector. The sources of funding and how to apply fundraising strategies will be studied. (Irreg.)
- NPNG 4303 Communications and Public Relations in Nonprofit Organizations 3 Credit Hours**
Prerequisite: NPNG 2033 and senior standing or permission of instructor. Provides students with the concepts and tools to conduct research and analyses, identify and evaluate target markets, explore opportunities to effectively communicate with new clients, donors and volunteers, and design effective web-based and social media tactic as part of an integrated marketing and communication strategy will be learned. (F)
- NPNG 4533 Donor Stewardship and Grant Writing 3 Credit Hours**
Prerequisite: NPNG 2033 and NPNG 3033. This course will cover three aspects of nonprofit development work, including database management, grant writing, and special events (Sp)
- NPNG 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- NPNG 5033 Nonprofits: The Sector and The System 3 Credit Hours**
Prerequisites: graduate standing or permission of instructor. Understanding the relationship between government and nonprofits is fundamental for the survival of the sector. Nonprofits implement public policy, receive government funding, respond to natural disasters, and help form legislation. The course includes an examination of broad theoretical, empirical and practical spectrum of nonprofit-public collaborations, conflicts, and resultant policy implications. (Irreg.)
- NPNG 5413 Nonprofit Law and Policy 3 Credit Hours**
Prerequisites: graduate standing or permission of instructor. Examines how policy influences nonprofits and how nonprofits impact policy. It will address the role of nonprofits in public policy and how laws shape nonprofit involvement by reviewing state and federal policy including legal forms, fundraising regulations, and employee compensation. Students will gain an understanding of nonprofit activities within a basic legal framework. (Irreg.)
- NPNG 5701 Nonprofit Fundraising and Grantmaking 1 Credit Hour**
Prerequisites: graduate standing or permission of instructor. Assists students in securing resources for nonprofits by understanding techniques for fundraising, conducting prospect research, practicing appropriate stewardship, leading campaigns for various types of giving, writing grants, utilizing technology to facilitate resource development, and implementing creative approaches to fundraising. (Irreg.)
- NPNG 5711 Nonprofit Financial Management 1 Credit Hour**
Prerequisites: graduate standing or permission of instructor. Introduces financial concepts required for effective management of nonprofit organizations. Offers an opportunity to learn about nonprofit accounting, budget management, financial planning, tax issues, grant compliance, audits, cash flow management, and capital financing. (Irreg.)
- NPNG 5721 Nonprofit Human Resources 1 Credit Hour**
Prerequisites: graduate standing or permission of instructor. Focuses on the knowledge and skills required by those who manage personnel. The course provides a solid base to understanding human resource management and applying that to work-life situations for those considering a career in management. Also investigates the essential concepts and federal laws that shaped human resource management. (Irreg.)
- P SC 1113 American Federal Government 3 Credit Hours**
Not accepted for major credit. A study of the structure, organization and powers of the executive, legislative and judicial branches including relationships between state and national governments. Emphasis upon political processes and popular government; elections, political parties, pressure groups, voting behavior. (F, Sp, Su) [III-PSC] .
- P SC 2013 Introduction to Political Analysis 3 Credit Hours**
Prerequisite: P SC 1113 or department permission; for majors only. Scientific method and the variety of approaches to a science of politics; problems of research design; methods and techniques of systematic political inquiry. (F, Sp)
- P SC 2103 Politics in America 3 Credit Hours**
Prerequisite: P SC 1113. Focuses on the practice of politics in the United States and the forces and ideas that shape political conflict and determines who wins. The three major national institutions of American government are considered: Congress, the presidency, and the judiciary. Examines their constitutional bases of power, their evolving relationships, and their roles in contemporary policymaking. Also considers how ideas and power relationships influence the shape of political conflict. Contemporary political issues will be integrated into course content. (F)

- P SC 2503 Global Politics 3 Credit Hours**
Prerequisite: P SC 1113. Introduces sources of continuity and change in world politics. Emphasis is given to the struggle for power and search for peace among state and non-state actors. Additional topics include the relevance of international law, foreign policy decision-making, balance of power, collective security, and moral choices in international politics. (F)
- P SC 2603 Governments Around the World 3 Credit Hours**
Prerequisite: P SC 1113. Gateway course in political science and international and area studies. Provides an introduction to the varieties of politics and governmental systems around the world. Students will develop skills in comparative analysis to understand why countries have distinct types of government. (F, Sp, Su) [IV-WC].
- P SC 2703 Justice, Liberty and the Good Society 3 Credit Hours**
Prerequisite: P SC 1113. An introduction to the literature about the best form of government, how a just and free society should be designed, and what difficulties stand in the way of our pursuit of the good society. Topics may include: the classic idea of a republic, theories shaping American democracy, the theory of equality and liberty, and contemporary ideas for the critical analysis and improvement of democracy. (F, Sp)
- P SC 2970 Special Topics 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- P SC 3020 Problems in American Government and Politics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Will not assume prior knowledge on the part of the students in reference to the topics under examination. The focus is on the national government, including the political processes and policies that relate to it. (F, Sp)
- P SC 3023 Law and Courts 3 Credit Hours**
Prerequisite: 1113 or permission of the instructor. This is an introduction to the judicial process, origin and sources of law, and the relationship between courts and other sectors of the American political system. It will focus on the criminal justice system, civil justice system, constitutional law, judicial selection, judicial policymaking, and how interest groups use the courts. (F)
- P SC 3033 Religion and Politics in America 3 Credit Hours**
Prerequisite: 1113. Examines the diverse religious traditions in America and explores their political manifestations. Assesses the religious impact on voting, lobbying, political mobilization and political culture. Particular attention will be paid to the strategic environment in which religious political actors must operate. [IV-WC].
- P SC 3043 Gender, Power and Leadership in Politics and Public Administration 3 Credit Hours**
(Crosslisted with WGS 3043) Prerequisite: 1113. Focuses on the relationship between gender, power, leadership, and government in politics and public administration. Causes of under-representation of women in elected office and the bureaucracy are explored. Historical, social, psychological, and organizational barriers are considered. (Irreg.)
- P SC 3053 Global Religion and American Foreign Policy 3 Credit Hours**
Prerequisite: 1113 or permission of instructor. This course examines the intersection of American faith-based movements, global religious developments, and U.S. foreign policy. It explores how global religious conflicts impinge on American foreign policy, and how domestic religious groups attempt to shape U.S. policy on such concerns as human rights, humanitarian aid, and conflict mediation. (F, Sp)
- P SC 3063 Religion and the American Constitution 3 Credit Hours**
Prerequisite: P SC 1113. This course examines the vital role of religion in the American Constitution, its antecedents and contemporary interpretations. (F)
- P SC 3073 Immigration Politics 3 Credit Hours**
Prerequisite: P SC 1113 or permission of instructor. An examination of the politics of immigration in America. Includes lively debate, in addition to daily discussions of current events involving immigration. Emphasis will be placed upon the development of a unique research project that examines an important question, puzzle, or aspect of immigration in American politics. (Irreg.)
- P SC 3083 The Politics of Criminal Justice 3 Credit Hours**
Prerequisite: P SC 1113. How does a political community best provide security to its members while also respecting the rights of all of its citizens? This course is an examination of the relationship between political variables and crime rates, police behavior, court dynamics and sentences, and prison practices and functions. (Irreg.)
- P SC 3090 Special Topics 1-3 Credit Hours**
Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit nine hours. Topics considered will deal with issues whose subject matter spans two or more subfields of the undergraduate curriculum in political science and/or public affairs and public administration. (Irreg.)
- P SC 3093 Minority Political Behavior 3 Credit Hours**
Prerequisite: P SC 1113. Examination of racial minority status in American politics. Addresses such broad topics as: racial and ethnic identity; political mobilization; statutory and legal intervention in the electoral process; the politics of immigration, acculturation, and identification; theories of minority representation; and what shapes political behavior among African-Americans, Latinos, Asian Americans, and Native Americans. (Irreg.)
- P SC 3113 Bureaucracy and Citizenship 3 Credit Hours**
Prerequisite: 1113 or permission of instructor. Focuses upon various aspects of political life in bureaucratic society, including the scope of contemporary public programs and their impact on society, and extent and character of citizens' bureaucratic encounters, administrative pathology, bureaucratic helping, appeals of administrative decisions, bureaucratic accountability and democratic theory, and the future of citizen-bureaucratic relations. (Sp)
- P SC 3123 Social Statistics 3 Credit Hours**
(Crosslisted with SOC 3123) Prerequisite: SOC 1113 and any General Education Math EXCEPT Philosophy 1113 or Philosophy 3113. Descriptive and inferential statistics as they are used in sociology to analyze survey and macro-level data. Problems of research design and interpretation of analysis in sociological theory are major topics. A grade of C or better in this course is a prerequisite for Sociology capstone courses. (F, Sp, Su)
- P SC 3133 Politics and Public Administration 3 Credit Hours**
Prerequisite: 1113 and sophomore standing. Examines the concept of the political role of the bureaucracy and the impact of other government institutions on bureaucratic structure, functions and behavior. The role of the bureaucracy in public policy making and the influence of politics on policy implementation is analyzed. (F) [III-SS].
- P SC 3143 U.S. Congress 3 Credit Hours**
An introduction to the legislative process, with emphasis upon the United States Congress: the legislative process, committee systems; legislative leadership; the legislator and constituents; lobbyist and interest groups; legislative-executive relations. (Sp)

- P SC 3163 The American Presidency 3 Credit Hours**
Prerequisite: 1113. Examination of the constitutional, electoral, administrative and political aspects of the contemporary American presidency; ending with an assessment of its capabilities in the context of its demands. (F)
- P SC 3170 Problems in Public Administration 1-3 Credit Hours**
1 to 3 hours. Prerequisite: five hours of political science or three hours of another social science, or junior standing and permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Special topics and/or problems in the field of public administration not covered in the regular curriculum or by supervised individual study. The course will involve readings appropriate to the subject matter and requires completion of a substantial paper. Additional requirements will be covered by the instructor in the syllabus. (Irreg.)
- P SC 3173 Administration & Society 3 Credit Hours**
Prerequisite: P SC 1113; Majors only. This course introduces you to public administration. We focus on understanding the purpose, structures, functions, and challenges related to operating publicly funded programs and how these dynamics relate to organizations in the public, non-profit and private sectors. (F, Sp)
- P SC 3183 Politics of Government Budgeting 3 Credit Hours**
Prerequisite: P SC 1113. Provides an introduction to budgeting and the budgetary process in American government. Budgeting decision-making about government revenues and expenditures will be presented. (Sp)
- P SC 3193 Nonprofits and Public Policy 3 Credit Hours**
(Crosslisted with NPNG 3193) Prerequisite: P SC 1113. Examines how nonprofit organizations advocate for their causes through the public policy process as well as how public policy influences nonprofit missions and funding. It also explores more broadly the role of nonprofit organizations in democracy and the various ways they interact with government, including collaborative and conflictual relationships with government. (Irreg.)
- P SC 3203 Sexuality, Gender, and the Law 3 Credit Hours**
Prerequisite: P SC 1113 or permission of the instructor. The course will examine a number of the most politically significant legal debates regarding gender and sexuality. Though the issues covered will vary by semester, they will include many of the following: discrimination on the basis of gender and sexual orientation, reproductive rights, the regulation of pornography, same-sex marriage, sexual harassment in the workplace, and the right to sexual privacy. (Irreg.)
- P SC 3213 Law, Politics, and Society 3 Credit Hours**
Prerequisite: 1113 or permission of instructor. Examines how courts and other political actors use law to solve problems and how judicial decisions incorporate legal and political considerations. It explores how law shapes or alters the political community, the extent that law changes to fit needs of society, and the role of politics in interpretation of law. (Sp)
- P SC 3220 Topics in Public Policy 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1113. May be repeated with change of content; maximum credit six hours. Research and investigation on selected topics in public policy. (Irreg.)
- P SC 3223 Making Public Policy 3 Credit Hours**
Prerequisite: P SC 1113; Majors and Minors only. Provides a rigorous introduction to the important components, concepts, and dominant theories of public policy in the context of federal, state, local, and foreign policymaking processes in the United States. (Irreg.)
- P SC 3233 Environmental Policy and Administration 3 Credit Hours**
Prerequisite: 1113. Characterizes the evolution of public sector involvement in protection of the environment; addresses current issues associated in environmental protection including administrative efficiency and effectiveness and intergovernmental relations, and assesses potential solutions to emerging environmental problems. (F)
- P SC 3263 Social Welfare 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Introduction to the basics of welfare policy in the United States. To do so, we will review the history of this policy area from early efforts in Western Europe up to the changes made by, and the impacts of, the Personal Responsibility and Work Opportunity Act of 1996 which did away with the Aid to Families with Dependent Children (AFDC) program and ushered in TANF (Temporary Assistance to Needy Families). There will be a specific focus on the logic behind policy components (to include examining competing theories of human behavior and how they relate to relief efforts), their evolution, and the role of the political environment in fostering change. (Sp)
- P SC 3273 Privatization 3 Credit Hours**
Prerequisite: P SC 1113 or permission of instructor. Exposes students to competing theories regarding the privatization of publicly provided services (such as fire and police protection, road construction and maintenance, refuse collection, child protective services, and maintenance of public parks) with a particular focus on the supposed benefits and problems. (F)
- P SC 3313 Urban Government and Politics 3 Credit Hours**
Structure and function of urban governments and analysis of politics in urban areas. (F)
- P SC 3323 State Government 3 Credit Hours**
The organization, structure, functions, and administration of American state and local governments; federal-state relations; constitutions and legal systems; legislative, executive, and judicial departments; a study in the political process; problems of metropolitan areas; fiscal and administrative systems. (F)
- P SC 3333 Civic Engagement 3 Credit Hours**
Prerequisite: PSC 1113. This course is an introduction to civic engagement. Students will learn about actions everyday citizens take to improve the world around them. Readings, lectures, and discussions cover who participates, who doesn't, and why; the evolution of civic engagement over time; the effectiveness of specific mobilization strategies; and how local, statewide, federal, and international societies are changed by such efforts. (Irreg.)
- P SC 3403 Interest Groups and Social Movements 3 Credit Hours**
Role of interest groups and collective action in the political process; theory of collective action and development of American pressure groups; group organization and internal behavior; patterns of external behavior; collective action and foreign political systems; and organized interests and democratic government. (F)
- P SC 3413 American Political Parties 3 Credit Hours**
A descriptive and critical examination of the political processes in the United States, with special reference to the role and organization of political parties and their relationship to voter behavior and the popular control of government. (Irreg.)
- P SC 3423 Public Opinion 3 Credit Hours**
Relies on three basic themes as a framework for the study of public opinion: coalitions, elites and masses. More specific subjects studied include political socialization, the parties and the media. Students may not take both P SC 3423 and P SC 4013 for credit. (Irreg.)

- P SC 3433 Voters and Campaigns 3 Credit Hours**
Prerequisite: 1113. Covers some of the literature on voting behavior and political campaigns: political socialization; political participation; election studies; influence on voting such as party, candidate, issues, and group affiliations; the legal framework and impact of reform; election outcomes and their policy import. Coverage of the campaign process includes party and interest group activity, campaign financing, strategy, the media, and campaign reform. (Irreg.)
- P SC 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- P SC 3443 Mass Media and American Politics 3 Credit Hours**
Prerequisite: 1113. Role of mass media in American politics including origin and development of relationship between press and politics, how the press covers politics, effects of mass media on public opinion, political elites, and institutions. (Irreg.)
- P SC 3463 American Political Development 3 Credit Hours**
Prerequisite: 1113 or permission of instructor. Analyzes the institutional development of American politics. The premise is that institutions are created to solve conflicts at specific historical junctures. Once in place, these institutions create opportunities and constraints for future generations. Focus on explaining large-scale political change in the United States from the founding to the present. (Irreg.) [IV-WC].
- P SC 3483 Campaign Management 3 Credit Hours**
Prerequisite: departmental permission and P SC 1113. Addresses practical aspects of campaign management including information about the decisions campaign managers make in gathering information, raising money, harnessing technology, honing and disseminating messages, and targeting volunteers/voters in the context of aiding a candidate in running for/winning office. Explores practical lessons on campaign management and provides hands-on training through the use of existing electoral databases and on-campus resources. (Irreg.)
- P SC 3493 Congress: Politics, Policy and the Constitution 3 Credit Hours**
Prerequisite: P Sc 1113. Introduces students to theory and research on the role of the Congress under the U.S. Constitution and the relationship of the Congress to the coordinate branches of the federal government, as well as to the state governments in interpreting and applying the Constitution. Experience in original archival research on the politics, policies and constitutional struggles of the Congress through the Carl Albert Congressional Research & Studies Center will be gained. (Irreg.)
- P SC 3543 United States-Latin American Relations 3 Credit Hours**
Prerequisite: Sophomore standing or departmental permission. This course studies both the historical development and current problems of conflict and cooperation between the United States and the countries of Latin America, and the ways their interactions affect each country's security, politics, economy, society, and culture. (Irreg.) [IV-WC].
- P SC 3550 Topics in International Relations 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit nine hours. Systematically explores contemporary problem areas in international relations. Will not assume prior knowledge on the part of the students in reference to the topics under examination. Meets in a seminar format where emphasis will be placed on classroom presentations and extensive research papers. (Irreg.)
- P SC 3553 International Political Economy 3 Credit Hours**
Prerequisite: 1113. Focus on patterns, processes, and problems of international trade, monetary, technological, and investment relations. Deals with the roles played by key international organizations in managing conflict and cooperation among states. Students learn to apply theoretical approaches in analyzing issues in the global economy. (F) [IV-WC].
- P SC 3563 United States Diplomatic History 3 Credit Hours**
Prerequisite: none. A survey of American diplomatic history from the War for Independence to the present, emphasizing relations with major European, Latin American and Far Eastern countries. [IV-WC].
- P SC 3573 Great Power Politics 3 Credit Hours**
Prerequisite: P SC 1113. Explores the meaning of power in politics and diplomacy, relations among great powers in different historical settings, arguments for and against realism as a theory of international politics, different strategies for projecting power, whether moral choices are relevant in the realm of power politics, and the importance of geopolitics in the 21st century map of world affairs. (Irreg.)
- P SC 3583 Masters & Commanders: Wartime Strategy and Statecraft 3 Credit Hours**
Prerequisite: P SC 1113. Based on Andrew Roberts' Masters And Commanders: How Roosevelt, Churchill, Marshall and Alanbrooke Won the War in the West. Focuses on debates between the four principals and senior Allied officials in shaping the grand strategy of the West during the Second World War. Attention is devoted to disagreements about military necessities and about the structure of the postwar world. (Sp)
- P SC 3593 Nongovernmental Organizations 3 Credit Hours**
Prerequisite: P SC 1113 and sophomore standing, or department permission. Provides an understanding of the political role of nongovernmental organizations (NGOs) in global as well as local politics. Introduces practical knowledge about the activities of NGOs in various policy fields. Provides information about transnational advocacy, nongovernmental networks, agenda setting, civil society mobilization, and contentious politics. (Irreg.)
- P SC 3600 Topics in Comparative Politics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit nine hours. Will examine contemporary issues in politics and government around the world. Meets in a seminar format where emphasis will be placed on classroom presentations and research. (Irreg.)
- P SC 3633 Politics of Authoritarian Regimes 3 Credit Hours**
Prerequisite: P SC 1113 and sophomore standing. This course invites students to think critically about non-democratic political systems. We explore some important authoritarian countries/regions and explore how autocrats there come to power and maintain power. We consider debates about whether institutions- such as political parties and legislatures- matter in authoritarian regimes. Finally, we examine the tools of authoritarian governance, including repression, cooptation, redistribution, propaganda and censorship. (F)

- P SC 3643 Democracies and Democratization: A Comparative Inquiry** **3 Credit Hours**
Prerequisite: 1113. Studies the theory, history, causes, and prospects for democracy in the world, beginning with ancient Greece and ending with the challenges of democracy and democratization in countries around the world today. Although primarily a social science course, questions about the philosophical underpinnings of democracy are also raised. (Sp) [IV-WC].
- P SC 3653 Government and Politics of Latin America** **3 Credit Hours**
Prerequisite: 1113 or permission of instructor. General survey of structure, organization and operation of Latin American governments. Problems of dictatorship, underdevelopment, social reform and relations with the United States are covered. (F) [IV-WC].
- P SC 3663 Politics of the Middle East** **3 Credit Hours**
Prerequisite: 1113 or permission of instructor. This course surveys the developments in current domestic politics in Middle Eastern countries. It will focus on the process of state building, great power politics, Islam and political ideologies, economic crises, and regime stability and change. (Irreg.)
- P SC 3703 From Plato to Machiavelli, the Classic Art of Politics** **3 Credit Hours**
Prerequisite: 1113 and sophomore standing. Study of the origins of political science or political philosophy in the thought of classical antiquity and of the continuing influence of the classic works. Topics may include: Plato and Aristotle's attempt at a systematic political science; Thucydides on democracy and war; the interaction of religion and politics; and the early modern rebirth of the classical republican era. (F) [IV-WC].
- P SC 3713 The Idea of a Liberal Society** **3 Credit Hours**
Prerequisite: 1113 and sophomore standing. Study of the major works of modern political thought that inspired the idea of a rights-oriented liberal society. Readings vary, but may include Thomas Hobbes and John Locke, their followers and critics in later centuries (such as Montesquieu, Rousseau, Kant, Hegel, and Mill), and those who later subjected the liberal idea to fundamental criticism (Marx, Nietzsche, and others). (Sp) [IV-WC].
- P SC 3723 Foundations of American Politics** **3 Credit Hours**
An examination of the principal issues and ideas of the American colonial, revolutionary and founding periods and their influence on, and relevance to contemporary American politics.
- P SC 3753 Human Rights and Contentious Politics** **3 Credit Hours**
Prerequisite: P SC 1113. Students gain an understanding of the major players influencing human rights, their interests, the arenas in which they interact, and the rules that govern their interactions. The focus of the class is not on philosophical underpinnings of rights, but rather on how repression and efforts to combat it play out in the domestic and international arena. (Irreg.)
- P SC 3763 Field Research Methods and Community Engagement: The Oklahoma City Exit Poll** **3 Credit Hours**
Prerequisite: P SC 1113. Trains students as field researchers for an election exit poll. In addition to learning how to design relevant and valid questionnaire items, students will participate as survey enumerators on the day of the election. As part of the course students will receive CITI certification demonstrating their expertise as researchers. (Irreg.)
- P SC 3771 Issue Advocacy** **1 Credit Hour**
(Crosslisted with NPNG 3771) Prerequisite: P SC 1113 or junior standing. Designed to provide a practical application of the theories and concepts students acquire in the study of political science and public administration. Students will learn to be effective advocates at all levels of government for the issues and ideas they seek to see implemented in public policy. (Irreg.)
- P SC 3781 Tracking Legislation** **1 Credit Hour**
(Crosslisted with NPNG 3781) Prerequisite: P SC 1113 or junior standing. Designed to provide a practical application of the theories and concepts acquired in the study of political science and public administration. How to read and track legislation in the State of Oklahoma will be learned. Additionally, students will learn the inner workings of state government from a legislative perspective. (Irreg.)
- P SC 3791 Social Media Strategies for Public and Nonprofit Organizations** **1 Credit Hour**
(Crosslisted with NPNG 3791) Prerequisite: P SC 1113 or junior standing. This course is designed to offer an overview of the social media field as it pertains to nonprofits and public organizations.
- P SC 3823 The Management and Politics of Disasters** **3 Credit Hours**
Prerequisite: P SC 1113. This course introduces the politics of extreme events such as natural disasters, technological crises, and terrorism. The discussion will address issues ranging from the emergency management cycle, social behavior in catastrophic circumstances, and the policy systems related to disasters. Films will complement the traditional academic reading and lecture material to provide vivid illustrations of the politics (and myths) of disasters. (Irreg.)
- P SC 3843 Education Policy** **3 Credit Hours**
Prerequisite: P SC 1113. This course will provide a thorough overview of the actors, institutions, and issues relevant to contemporary K-12 education policy in the United States. In providing such an overview, the course will address both longstanding areas of debate, such as the primary purpose of education and the financing of schools, as well as hot-button issues of the day. (Irreg.)
- P SC 3873 Transnational Politics** **3 Credit Hours**
Prerequisite: P SC 1113. Transnational Politics is about political phenomena that not only cross national borders, but transcend them. This includes the transnationalization of production by multinational companies; the transnationalization of culture by international advocacy organizations; and the transnationalization of insurgency by "terrorist" groups. We will evaluate the processes driving these trends, and consider their implications for both domestic and international politics. (Irreg.)
- P SC 3910 Government Internship** **2-3 Credit Hours**
2 to 3 hours. Prerequisite: good academic standing with 45 semester hours completed, including nine hours of political science; permission of instructor. May be repeated; maximum credit six hours. Interns observe and participate in the functions, processes and actions of governmental institutions at the federal, state and local level. Grade of S/ U based on completion of directed readings, an academic research paper, performance reports. (F, Sp, Su)
- P SC 3923 World Happiness** **3 Credit Hours**
(Crosslisted with IAS 3923) Prerequisite: Junior standing or permission of instructor. This course explores and compares, in detail, the breadth and expression of global happiness philosophical concepts in the east and west leading to modern global and societal well-being measures and well-being policies in nations around the world. (Irreg.)

- P SC 3943 Campaigns Through Film 3 Credit Hours**
Prerequisite: P SC 1113. Through the lens of documentary films, this course will examine various facets of campaigning for political office in the United States. (Irreg.)
- P SC 3953 Bhutan Democracy and Happiness 3 Credit Hours**
Prerequisite: P SC 1113. This is a comparative politics course that examines comparative theories of democratization and happiness with Gross National Happiness (GNH) policy and democratization in Bhutan. Incorporated in the examination of GNH is an examination of other non-Gross Domestic Product global measures of societal progress such as the Happy Planet Index, Human Development Index, and United Nations Millennium Development Goals. (Irreg.) [IV-WDC].
- P SC 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- P SC 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (F, Sp)
- P SC 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- P SC 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; junior standing; permission of instructor and department. May be repeated; maximum credit six hours. Through a written contract, independent study may be arranged for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- P SC 4020 Problems in American Government 1-3 Credit Hours**
1 to 3 hours. May be repeated with change of content; maximum credit nine hours. Focus on the national government, including the political processes and policies that relate to it. (Irreg.)
- P SC 4023 Community Scholars 3 Credit Hours**
Prerequisite: P SC 1113. Service-learning course allows students to become participants in community activities and organizations designed to address community needs. At the same time, students develop skills and abilities for critical thinking, group problem-solving, and effective civic engagement. Combines community service and academic learning to examine how local government agencies work along side community organizations, mainly nonprofit organizations, to meet the needs of their community. (F)
- P SC 4033 Capitol Scholars: A Service Learning Course 3 Credit Hours**
Prerequisite: P SC 1113 and permission of instructor. The course uses service-learning and weekly seminars to focus on institutions, policy-making and politics in legislative settings. (Sp)
- P SC 4043 Public Policy Implementation 3 Credit Hours**
(Slashlisted with P SC 5043) Prerequisite: P SC 1113. This course examines how public laws are implemented. It investigates actors, institutions and processes influential in decisions and actions regarding public program delivery. No student may earn credit for both 4043 and 5043. (Irreg.)
- P SC 4083 Strategies in Politics and Public Policy 3 Credit Hours**
(Slashlisted with P SC 5083) Prerequisite: P SC 1113. Politics involves the interaction of people who seek to use mechanisms of collective choice to further their goals. This undergraduate course focuses on how political institutions translate the preferences of individuals into social choices. What strategies can individuals employ to influence social choices? This class addresses these questions through theories of individual decision making, social choice, and collective action. No student may earn credit for both 4083 and 5083. (Irreg.)
- P SC 4093 Capstone Seminar in Political Science 3 Credit Hours**
Prerequisite: Majors only, P SC 1113, PSC 2013, senior standing and permission of department. Capstone seminar for majors in political science. Explores topics in political science for students with substantial background in the discipline and includes a significant writing component. Specific subtitles will vary. (F, Sp) [V].
- P SC 4143 Policy/Program Evaluation 3 Credit Hours**
Prerequisite: P SC 1113. Introduces the planning and implementation of a variety of evaluation types and methods. Considers the utilization of findings in a political environment. (Irreg.)
- P SC 4193 The Profession of Public Management 3 Credit Hours**
Prerequisite: 1113 or permission of instructor. Open to undergraduate students only. Focuses on the internal administrative processes of public agencies, concentrating on the generic management functions of planning, directing and controlling as they relate to the development and implementation of public policy programs. (Irreg.)
- P SC 4203 Capstone Seminar in Public Affairs and Administration 3 Credit Hours**
Prerequisite: Majors only, PSC 1113, PSC 2013, senior standing, and permission from department; May be repeated once with change of content. The focus and subtitle will vary. Develops the ability to analyze and interpret the subject matter; contains a substantial writing component. (F, Sp) [V].
- P SC 4220 Problems in Public Policy 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit nine hours. Research and investigation on selected problems in the field of public policy. (Irreg.)
- P SC 4253 Theories of the Policy Process 3 Credit Hours**
Prerequisite: P SC 1113 and Junior standing or permission of instructor. In this course, we will review the concepts and theories that underlie the study of public policy in political science. We will not focus on specific policy areas (e.g., environmental or health policy), but rather on lenses and techniques, which are argued to be applicable to all policy domains, to understand why and how policies are enacted, changed, and/or terminated. (F)
- P SC G4263 American Constitutional Law I: Governance 3 Credit Hours**
Prerequisite: P SC 1113. Chronological exploration of the role of constitutional principles and the United States Supreme Court in the historical and contemporary political struggles concerning the structure, distribution, and uses of national governmental power in the American polity. Examines the Constitution's allocation of powers vertically between the national government and the states, and horizontally among the legislative, executive, and judicial branches. (F)
- P SC G4283 American Constitutional Law II: Civil Rights and Civil Liberties 3 Credit Hours**
Prerequisite: P SC 1113 or permission of instructor. Investigates the character, function, and enforcement of civil rights and civil liberties in the American constitutional system. (Sp) [IV-WC].

- P SC 4323 Political Communication 3 Credit Hours**
(Crosslisted with COMM 4323) Prerequisite: COMM 1113 or P SC 1113 and junior standing or permission of instructor. This course considers the role of communication in democracy. Topics include the kinds of information necessary to sustain democratic systems, the ways in which citizens are informed about public affairs, the function of news media in democratic systems, and how citizens, media and political leaders interact. (F, Sp)
- P SC 4493 Architecture of Democracy 3 Credit Hours**
(Slashlisted with P SC 5493; Crosslisted with ARCH 4493) Prerequisite: P SC 1113 or permission of instructor. This course explores how space, place and values come together in public spaces, by reviewing the evolution of architecture as it relates to human governance; introducing methods for assessing and designing physical space as an expression of human values; examines the social meaning and behavioral impact of spaces; studies the expression of democratic values in public spaces. No student may earn credit for both 4493 and 5493. (Irreg.)
- P SC 4903 Social Movement Theory 3 Credit Hours**
(Slashlisted with P SC 5903) Prerequisite: P SC 1113. This course will focus on major political theories that assess social movements and public policymaking. It will also examine when and why social movements occur, who joins or supports social movements, how social movements are organized, what are the impacts of social movements, the role of the state and social movements, and why social movements decline. No student may earn credit for both 4903 and 5903. (Irreg.)
- P SC 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- P SC 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- P SC 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; senior standing; permission of instructor and department. May be repeated; maximum credit six hours. Through a written contract, independent study may be arranged for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- P SC 5003 Introduction to Public Administration 3 Credit Hours**
Prerequisite: graduate standing. An introductory graduate seminar surveying the field of public administration and its role and position in contemporary government, providing a basis from which to undertake advanced studies of theoretical and substantive nature. Attention will be given to key themes in past and present of mainstream public administration, such as the foundation, personnel, organization, and policies of government. (F, Sp, Su)
- P SC 5013 History and Theory of Urban Planning 3 Credit Hours**
(Crosslisted with RCPL 5013) Prerequisite: open to seniors in social science departments, civil engineering and architecture, and to graduate students in regional and city planning. An introductory course on the history and theory of contemporary planning, focusing on the physical, social, institutional and economic structure and dynamics of human settlements, and on the role and responsibilities of the professional planner. (F)
- P SC 5023 Problems in American Government 3 Credit Hours**
Prerequisite: 12 hours in political science or senior standing and permission of instructor. May be repeated with change of content; maximum credit nine hours. Content varies with instructor. The focus is on the national government, including the political process and policies that relate to it. (Irreg.)
- P SC 5033 Foundations of Nonprofit Management 3 Credit Hours**
Prerequisite: graduate standing. Introduces broad theories and managerial practices in the field of nonprofit management. The main foci of the course are to provide theoretical foundations of the nonprofit sector by examining its nature, scope, legal frameworks, functions, and policy implications and to examine various managerial challenges nonprofit organizations face due to their unique sector positions and how they respond to those challenges. Challenges are multifaceted (leadership, financial, personnel, performance evaluation and accountability, governmental relations) and the course will provide several case studies for students to review and seek potential solutions in individual as well as group settings. (Irreg.)
- P SC 5043 Public Policy Implementation 3 Credit Hours**
(Slashlisted with 4043) Prerequisite: graduate standing. This course examines how public laws are implemented. It investigates actors, institutions and processes influential in decisions and actions regarding public program delivery. No student may earn credit for both 4043 and 5043. (Irreg.)
- P SC 5053 Agenda-Setting in Public Policy 3 Credit Hours**
Prerequisite: graduate standing. This class will focus on agenda-setting and policy change - that is, how policy agendas are determined and their impact on policy change. In so doing, we will examine the role that various actors play (including public administrators), the impact of focusing events, political institutions, and the media. (Irreg.)
- P SC 5063 Nonprofits and the Public Sector Relations 3 Credit Hours**
Prerequisite: graduate standing. Explores various issues that arise from collaborative efforts between the nonprofit and government sectors in delivering public services. Includes an examination of a nonprofit-public sector collaboration and partnership, especially the nature of nonprofit-public sector strategic alliances, the dynamics of service delivery networks, and the effectiveness of collaborations. The role of nonprofits and the policy implications in social service contracting are examined. (Irreg.)
- P SC 5073 Municipal Management and Leadership 3 Credit Hours**
Prerequisite: graduate standing. Streets, water, sewer, trash, public safety, and business all center on Main Street U.S.A., and cities are literally where politics and policy directly meet citizens in their everyday lives. The management of urban areas involves a wide array of public administration skills and topics. Topics include: infrastructure, municipal finance, economic development, human resource management, and basic service delivery. Students will hone the skills of political analysis, project planning and strategic management. (Irreg.)
- P SC 5083 Strategies in Politics and Public Policy 3 Credit Hours**
(Slashlisted with P SC 4083) Prerequisite: graduate standing. Politics involves the interaction of people who seek to use mechanisms of collective choice to further their goals. This course focuses on how political institutions translate the preferences of individuals into social choices. What strategies can individuals employ to influence social choices? The class addresses these strategies through theories of individual decision making, social choice, and collective action. No student may earn credit for both 4083 and 5083. (Irreg.)

- P SC 5093 Grants and Contracts 3 Credit Hours**
Prerequisite: graduate standing. This course discusses how to write a strong grant or contract proposal along with strategies for successful implementation of the resulting project. The focus will be on project development and project management for public and nonprofit sectors. (Irreg.)
- P SC 5103 Organizations: Design, Structure and Process 3 Credit Hours**
Prerequisite: full graduate standing or permission of instructor. Analyzes large, complex organizations, particularly governmental units and other public sector agencies. Attention will be given to the principal theoretical models for their design and structure. Also seeks to understand system-subsystem relationships in the processes of decision making, communication, influence, leadership and technology. (F)
- P SC 5113 Federalism and Intergovernmental Relations 3 Credit Hours**
Covers the origins, development, and operational aspects of federalism in the U.S. Intergovernmental relations as the dynamics of federalism are studied as they impact on decision-making, administrative and fiscal patterns. Decentralization and reorganization are analyzed as they affect the administration of national programs. (Sp)
- P SC 5123 The Making of American Foreign Policy 3 Credit Hours**
A study of American policy formulation with its problems and limitations. Current American foreign policies and alternate courses of action are examined critically. (Irreg.)
- P SC 5133 Strategic Planning and Performance Measurement 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Introduces students to strategic planning, performance measurement, and benchmarking in the public sector. Provides an overview of strategic management and illustrates the development, implementation and reformulation of public policy and operational strategy. Emphasis on the changes in an organization's environment. (Irreg.)
- P SC 5143 Program Evaluation and Applied Policy Analysis 3 Credit Hours**
Prerequisite: graduate standing. Methodology of planning and evaluating government policies and programs. Emphasizes research design, economic analysis of public policies and programs, and methods for handling threats to validity of research results. (F)
- P SC 5170 Problems in Public Administration 2-3 Credit Hours**
2 to 3 hours. May be repeated; maximum credit six hours. Research and investigation on selected problems of public administration. Some alternative subjects; administrative theory and organizational theory; bureaucracy; organization and management; government corporations; administrative policy making; responsibility and accountability. (Irreg.)
- P SC 5173 Bureaucracy and Politics 3 Credit Hours**
Prerequisite: graduate standing. Examines the concept of the political role of the bureaucracy and the impact of other government institutions on bureaucratic structure, functions and behavior. The role of the bureaucracy in public policy making and the influence of politics on policy implementation are analyzed. (Sp)
- P SC 5183 Public Budgeting and Finance 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Examines the techniques and politics of raising and spending public funds. Discusses topics such as deficit politics, legislative and executive powers, and the budgetary role of the courts. Assesses the impacts of taxing and spending policies. Explores issues relevant to national, state, and local governments. (Sp)
- P SC 5213 Risk, Public Policy, and Law 3 Credit Hours**
Prerequisite: graduate standing. This seminar will focus on how concepts of risk serve to justify and shape public policies, legal rules, and risk management practices. It will introduce some of the primary methods for analyzing potentially risky policies and managing risk. We will begin with a focus on the definition of risk as it applies to public policy, and as it has been used to analyze and inform policies and laws designed to address risks. We will then turn to the differences between formal assessments of risk and the "perceived risks" and social, political and institutional responses that typically drive public policy. These concepts will then be applied to a set of specific cases in current public policies that involve the intersection of environmental, energy, natural disaster, and security concerns. (Irreg.)
- P SC 5233 Health Policy 3 Credit Hours**
Prerequisite: graduate standing. This course is designed to provide students with a clear understanding of the nature and dynamics of health policy making and administration in the United States. (Irreg.)
- P SC 5243 Managing Public Programs 3 Credit Hours**
Introduces MPA students to the general principles of management as they are applied in the public sector. Topics include: systems theory, systems design (PERT), organization design, techniques of supervision, public sector labor relations, public sector personnel practices, agency interface with political actors in the environment. (Irreg.)
- P SC 5253 Human Resource Administration 3 Credit Hours**
An analysis of the structure and role of manpower in all levels of U.S. government, focusing on the development of the public service, manpower planning, unionization of public employees and recent trends in public personnel relations. (Sp)
- P SC 5263 Congress in the Political System 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Empirically based course considering United States Congress and its role in American political system; examination of relationships between Congress and other institutions and actors. Possible topics include: Congress and the Presidency, interest groups, and lobbyists; Congress and Supreme Court; Congress and foreign policy; Congress and executive bureaus. (F)
- P SC 5283 Problems in Law and the Constitution 3 Credit Hours**
Content varies. Intensive analysis of specific problems in legal or constitutional theory. Topics could include: Slavery and the constitution, capitalism and constitutional order, constitutional crisis and failure, law and morality, jurisprudence. (Irreg.)
- P SC 5293 Administration, Ethics and American Government 3 Credit Hours**
Prerequisite: graduate standing. An exploration of the role of ethics in American government, especially in public administration. Topics to be studied include codes of professional ethics for administrators, ethics and constitutionalism, law and ethics, and the ethical implications of differing approaches to administrative work and to democracy. (Irreg.)
- P SC 5313 Urban Politics 3 Credit Hours**
Prerequisite: graduate standing. Examine differing theories as to how urban governance, administration, and politics actually operate. Included in this examination are a variety of major issues related to urban governance and administration including intergovernmental relations, urban service delivery, fragmentation of urban areas between cities and suburbs, the rise of sunbelt cities, urban sprawl, racism, poverty, crime, and national urban policy. We will also examine broader visions and proposals to revitalize and enhance urban living. Finally, we will consider the current state of urban politics and where it might go in the future. (Irreg.)

- P SC 5323 Problems in Public Policy 3 Credit Hours**
May be repeated with change of content; maximum credit six hours. Content varies with professor. Focus on topics related to public policy issues at all levels of government, including the design, implementation, and evaluation of specific policy initiatives. (Irreg.)
- P SC 5343 Public Policy and Inequality 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Explores alternative definitions of equality and their implications in terms of public policy. Specific topics include the role of issue definition and agenda-setting in policy formation, the causes and politics of inequality, the difficulties in measuring inequality, and institutional dynamics that exacerbate or ameliorate inequality. (F)
- P SC 5353 State and Local Public Finance and Budgeting Systems 3 Credit Hours**
(Crosslisted with RCPL 5353) Prerequisite: graduate standing or permission. An overview of the process and methods for local capital improvement programs and capital budget preparation, and an examination of the relationships between local development policies and fiscal decision making, including revenue potential. (CE)
- P SC 5363 Public Financial Management 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Introduces students to important concepts, procedures, and skills associated with managing public monies. Major topics include government accounting, debt management, forecasting, cash management, and capital budgeting. (Irreg.)
- P SC 5373 Education Policy 3 Credit Hours**
Prerequisite: graduate standing. This course is designed to give students an overview of the major policy issues in primary, secondary, and higher education. Special attention will be given to how these issues relate to prominent theories of the policy process. (Irreg.)
- P SC 5383 Survey of Political Communication 3 Credit Hours**
(Crosslisted with COMM 5383) Prerequisite: graduate standing. Embraces the premise that meaningful democracy requires an effective political communication system. Examines some of the tensions between the requirements of democracy and the forms of communication that have emerged to meet them, exploring the roles of political leaders, citizens, and the mass media in the evolution of a democratic political information system. (Irreg.)
- P SC 5400 Problems in Political Behavior 2-3 Credit Hours**
2 to 3 hours. Prerequisite: graduate standing, qualified senior by permission of instructor. May be repeated; maximum credit six hours. Content varies, representative topics would include interdisciplinary contributions to the study of political behavior, political socialization, decision making, voting behavior, belief systems, political violence, personality and politics and political culture. (Irreg.)
- P SC 5423 Mass Politics: Public Opinion, Voting, Realignment 3 Credit Hours**
A survey of the literature on public opinion, voting behavior and realignment (or electoral change). Additional topics may include political socialization, participation and elite-mass interactions. (Irreg.)
- P SC 5493 Architecture of Democracy 3 Credit Hours**
(Slashlisted with P SC 4493; Crosslisted with ARCH 5493) Prerequisite: Graduate standing or permission of instructor. This course explores how space, place and values come together in public spaces, by reviewing the evolution of architecture as it relates to human governance; introducing methods for assessing and designing physical space as an expression of human values; examining the social meaning and behavioral impact of spaces; and studying the expression of democratic values in public spaces. No student may earn credit for both 4493 and 5493. (Irreg.)
- P SC 5513 International Relations Theory 3 Credit Hours**
Overview and appraisal of the state of the field of international relations. Primary emphasis will be placed on scope and method issues and on a review of theoretical attempts to explain general and specific aspects of international relations. (Irreg.)
- P SC 5523 Morality and Foreign Policy 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Addresses the moral and ethical foundations of foreign policy. Emphasis will be on American foreign policy, but may also include broader issues of foreign policy and international relations. Sample issues may include national interest versus conceptions of justice as foundations for foreign policy, idealism and realism in the American foreign policy tradition, ethical issues in international relations, globalization, genocide, just war theory, etc. Readings may be taken from political theory, American foreign policy, and international relations. (Irreg.)
- P SC 5550 Problems in International Relations 2-3 Credit Hours**
2 to 3 hours. May be repeated; maximum credit six hours. Analysis of current international conflicts and problems with study of possible solutions. May include study of the role and current problems of the United Nations. (Irreg.)
- P SC 5600 Problems in Comparative Government 2-3 Credit Hours**
2 to 3 hours. May be repeated; maximum credit six hours. Content varies, but involves systematic comparative treatment of such central themes as the transitional society, change and revolution, modernization, political groups, constitutionalism, and bureaucracy. (Sp)
- P SC 5653 Democracies and Democratization 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Examines the historical sources of modern democracy, the causal factors underlying the genesis and survival of democracy, the dynamics of democratic breakdowns and transitions from authoritarian rule, and the problems of democratic regime consolidation and quality. (Irreg.)
- P SC 5673 Global Far Right and Democracy 3 Credit Hours**
Prerequisite: graduate standing. Examines in detail, theories of democracy as they occur around the planet. Analyzes theories of the global far right and explores the theoretical and practical linkages and implications of the global far right and democracy. Finally, we look at several representative and real-world case examples of the global far right and democracy. (Irreg.)
- P SC 5683 Politics in Latin America 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Covers recent approaches to understanding politics in Latin America, with an emphasis on questions of transitions to democracy and regime stability, the nature of democratic rule, and the role of political institutions, the economy, and the military. (F)

- P SC 5693 Global Urban Politics & Theory 3 Credit Hours**
Prerequisite: Graduate standing. The course will examine differing theories related to power and influence in global urban governance and politics. We will also examine broader visions and proposals to revitalize and enhance global urban living. Finally, we will consider the current state of global urban politics and where it might go in the future. (Irreg.)
- P SC 5803 Emergency Management 3 Credit Hours**
Prerequisite: graduate standing. Large scale emergency events (including natural disaster, technological risks, and terrorist attacks) create novel challenges for our political system. This course will review the basic logic of our emergency management policy system along with the basic skills needed to succeed as an emergency manager. (Irreg.)
- P SC 5903 Social Movement Theory 3 Credit Hours**
(Slashlisted with P SC 4903) Prerequisite: Graduate standing. This course will focus on major political theories that assess social movements and public policymaking. It will also examine when and why social movements occur, who joins or supports social movements, how social movements are organized, what are the impacts of social movements, the role of the state and social movements, and why social movements decline. No student may earn credit for both 4903 and 5903. (Irreg.)
- P SC 5910 Government Internship 2-8 Credit Hours**
2 to 8 hours. Prerequisite: 15 hours of political science or 24 hours of social science. May be repeated; maximum credit eight hours. (F, Sp, Su)
- P SC 5913 Introduction to Analysis of Political and Administrative Data 3 Credit Hours**
Prerequisite: Graduate standing, majors only. Presents an introduction to the foundations and use of quantitative methods in political science/public administration. Topics covered include: conducting systematic research in political science/public administration, measurement theory, bivariate analysis, hypothesis testing and statistical inference. A student may not receive credit for this course and P SC 5923. (F)
- P SC 5923 Introduction to Analysis of Political Data 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. Introduces research methods and statistical analysis for political science, including basic statistics. Students put these elements into practice by developing a basic research project. Oriented toward development and utilization of quantitative procedures and interpretation of results, instead of theoretical issues and the mathematical derivation of formulas. A student may not receive credit for this course and P SC 5913. (F)
- P SC 5933 Intermediate Analysis of Political Data 3 Credit Hours**
Prerequisite: 5913; 5000-level prerequisite. Continues the study of the foundations and use of quantitative methods in political science. Topics covered include: probability theory, distribution theory, control table analysis, analysis of variance and correlation and regression analysis. (Sp)
- P SC 5940 Advanced Research Methods: Special Topics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 5913 or permission of instructor. May be repeated with change of subject matter; maximum credit six hours. Provides introduction into advanced qualitative or quantitative analytical methods for students who will pursue a career in research. Topics will vary but may include such methodologies as ethnographic, cultural, discriminant, or factor analysis. (Irreg.)
- P SC 5950 Research Problems 2-5 Credit Hours**
2 to 5 hours. May be repeated with change of subject matter; maximum credit ten hours. Students must indicate field of research and hours credit at the time of enrollment. To be subdivided topically as follows: American national government, public administration, American state and local government, public law, popular government, international relations, comparative government, political theory, elections and political behavior, behavioral laboratory. (F, Sp, Su)
- P SC 5953 Qualitative Research Methods 3 Credit Hours**
Prerequisite: P SC 5913 or permission of instructor. This course provides graduate-level training in qualitative research methods as preparation for dissertation research. The course begins by orienting students towards research traditions and epistemological issues. It then considers a range of options for designing research and achieving causal inference. The last third of the course covers concrete tools that researchers may deploy while conducting fieldwork. (Irreg.)
- P SC 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. (F, Sp, Su)
- P SC 5963 Capstone in Public Administration 3 Credit Hours**
Prerequisite: graduate standing. The primary role of government is to address the collective problems, needs, and challenges faced by its citizenry. Government addresses these issues through the development, enactment, and implementation of public policy. This class takes an analytical approach, broadly defined, to studying collective problems and government responses to these problems. The end product of this study will be a research paper. (Sp)
- P SC 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- P SC 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)
- P SC 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- P SC 6003 Political Science: Survey of a Discipline 3 Credit Hours**
Prerequisite: admission to doctoral program in political science. Traces the development of the discipline of political science as well as the epistemological and theoretical foundations of the field. Emphasis is given to the role of research design for political analysis. Attention also is devoted to the professional norms and expectations of an academic career in political science. (Every third semester)
- P SC 6023 Field Seminar in American Politics 3 Credit Hours**
Prerequisite: graduate standing. Seminar designed to introduce as much of the field of American politics as possible. Includes epistemology and paradigms, institutionalism, the various political institutions that structure our politics, and the role of the individual in American politics. (Irreg.)

P SC 6103 Field Seminar in Public Administration 3 Credit Hours

Prerequisite: graduate standing. Review of the field of public administration. Investigates epistemology and paradigms of the field and considers the role of bureaucratic organizations in the American system of governance. (Irreg.)

P SC 6113 Foundations in Public Administration 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. Broad overview of the public administration literature. Historical underpinnings of the subfield and its evolution. Focuses on the frameworks and theories scholars have developed to understand public administration generally. Both theoretical and empirical research are reviewed to examine the "big picture." (Irreg.)

P SC 6133 Foundations in Public Policy 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. Gives students a broad overview of the public policy literature. We examine the historical underpinnings of the subfield and familiarize ourselves with its evolution. The course is not substantive in the sense of studying particular policy areas (e.g., environmental, education), but rather focuses on the frameworks and theories scholars have developed to understand the policy process generally. Both theoretical and empirical research are reviewed in an effort to examine the "big picture." (Irreg.)

P SC 6223 Field Seminar in Public Policy 3 Credit Hours

Prerequisite: permission of the instructor. A capstone seminar for doctoral students who have substantially completed public policy coursework in preparation of information on completing theories, frameworks, approaches, analytical tools, and guiding principles central to the study of the formulation, implementation, and evaluation of public policy. Attention also will be given to crosscutting topics such as values in the policy process, the role(s) of the policy analyst; ethics; and the utilization and misutilization of the results of social science research. (Irreg.)

P SC 6603 Field Seminar in Comparative Politics 3 Credit Hours

Prerequisite: graduate standing. This course is an exploration of the central theoretical concepts and problems of comparative politics. (Irreg.)

P SC 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

P SC 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

P SC 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

P SC 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Political Science, B.A.

Minimum Total Credit Hours: 120

Major Hours: 33

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B790 P617

Major Requirements

- The Department of Political Science does *not* permit major coursework to also fulfill General Education or Dodge College of Arts and Sciences requirements.
- P SC 1113 does not count for major credit.

Code	Title	Credit Hours
Research Methods		
P SC 2013	Introduction to Political Analysis	3
Distribution Requirements		
Choose four courses, one course each from 4 of the following 6 groups: (p. 639) ¹		12
Group I: American Politics		
Group II: Comparative Politics		
Group III: International Relations		
Group IV: Public Administration		
Group V: Public Policy		
Group VI: Political Theory		
Electives		

Choose 15 hours of P SC electives, which must include at least 12 hours of upper-division courses 15

Capstone

P SC 4093 Capstone Seminar in Political Science ² 3

Total Credit Hours 33

¹ A list of the courses approved for each group may be obtained in the Political Science Department or on the departmental website.

² This course should be taken during the senior year. (The capstone course must be completed with a grade of C or better.)

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gedned/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
	or EXPO 1213 Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>		
	Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹	3-4
<i>Physical Science</i>		
	Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹	3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
	Choose one course from the General Education Social Science list	3
Core Area IV: Arts and Humanities (18 hours)		
<i>Artistic Forms</i>		
	Choose one course from the General Education Artistic Forms list	3
<i>Western Culture</i>		
HIST 1483	United States to 1865	3

or HIST 1493 United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)	3
<i>World Culture</i>	
Choose one course from the General Education World Culture list	3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>	
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Core Area V: First Year Experience (3 hours)	
Choose one course	3
Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Political Science major requirements.

Total Credit Hours				56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are *not* considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Public Affairs and Administration major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
	Artistic Forms (Core IV)	3
	First Year Experience (Core V)	3

Credit Hours		15

Total Credit Hours **120**

¹ The American Political Institutions Major Elective must be chosen from: P SC 3113, P SC 3143, P SC 3163, P SC 4273, or P SC 4283.

Elections & Campaign Management, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N339

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Political Science.

Required Courses

Students must successfully complete at least 15 hours of coursework, including at least nine (9) hours at the upper-division level.

This program requires a minimum 2.00 GPA (both OU and Combined) in the minor coursework.

Code	Title	Credit Hours
P SC 3433	Voters and Campaigns	3
P SC 3483	Campaign Management	3
Choose one of the following:		3

Total Credit Hours

18

¹ At least six (6) credit hours at the upper-division level. Note: Students must meet prerequisite requirements for enrollment in upper-division classes.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Political Science, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N790

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Political Science.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Political Science, including at least nine (9) hours at the upper-division level. Note that the introductory survey course (P SC 1113) does not count toward this total.

Code	Title	Credit Hours
Choose at least 15 hours of course credit acceptable for major credit in Political Science (at least 9 of these hours must be upper division)		15
Total Credit Hours		15

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Public Affairs & Administration, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N805

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Political Science.

Students must successfully complete at least 15 hours of courses acceptable for major credit in Public Affairs and Administration, including at least nine (9) hours at the upper-division level. Note that introductory courses are not counted toward this total. Up to three (3) hours of other Political Science courses may be substituted with the permission of the Department of Political Science.

Required Courses

Each of the courses to be offered to students minoring in Public Affairs and Administration is part of the curriculum of the bachelor's degree in Public Affairs and Administration. As courses are added to the bachelor's curriculum, they will also be available to students taking the minor. Only three (3) courses from outside of the department are included. One of these courses is NPNG 2033; the other two (2) courses are offered by Economics. They have been included in the curriculum of the minor in Public Affairs and Administration because they emphasize public sector activities which are not covered in any political science courses.

Code	Title	Credit Hours
Choose 15 hours acceptable for major credit in Public Affairs and Administration, including at least nine (9) hours at the upper-division level, from the following:		15
NPNG 2033	Introduction to Nonprofits

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Political Science major requirements.

P SC 4033	Capitol Scholars: A Service Learning Course	3
P SC 4043	Public Policy Implementation	3
P SC 4143	Policy/Program Evaluation	3

P SC 4193	The Profession of Public Management	3
P SC 4213		3
P SC 4220	Problems in Public Policy	1-3
P SC 4990	Independent Study ¹	1-3

¹ Each course may be taken only once. **Course content must be PAA related.**

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/genesd/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
<i>Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Culture</i>		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3

<i>World Culture</i>	
Choose one course from the General Education World Culture list	3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>	
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Core Area V: First Year Experience (3 hours)	
Choose one course	3
Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester

fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Political Science major requirements.

Freshman			
First Semester			
ENGL 1113	Principles of English Composition (Core I)	3	Credit Hours
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3

² Secondary Emphasis Areas: American Government and Politics, Political Theory, Comparative Government and Politics, International Relations, Public Administration, Political Methodology, Public Law, Public Policy.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Public Administration, M.P.A.

Non-Profit Management (Tulsa), Graduate Certificate

Minimum Total Hours: 15

Program Code: G091

This program is currently offered only through OU's Tulsa campus.

The Graduate Certificate in Nonprofit Management requires 15 hours and focuses on skill development. The curriculum in this embedded certificate meets many of the core and area requirements of the MPA.

Certificate Requirements

Code	Title	Credit Hours
P SC 5033	Foundations of Nonprofit Management	3
P SC 5143	Program Evaluation and Applied Policy Analysis	3
NPNG 5033	Nonprofits: The Sector and The System	3
NPNG 5413	Nonprofit Law and Policy	3
NPNG 5701	Nonprofit Fundraising and Grantmaking	1
NPNG 5711	Nonprofit Financial Management	1
NPNG 5721	Nonprofit Human Resources	1
Total Credit Hours		15

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.

- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Political Science, Ph.D.

Minimum Total Hours: 90

Program Code: D790

Program Requirements

- The Ph.D. program requires a minimum of 90 post-baccalaureate hours. A master's degree is not required.
- At least 2 semesters in residence as a full-time student are required.

Code	Title	Credit Hours
Required Courses		
P SC 5923	Introduction to Analysis of Political Data	3
P SC 5933	Intermediate Analysis of Political Data	3
P SC 5950	Research Problems	3
P SC 6003	Political Science: Survey of a Discipline	3
Fields		
9 hours minimum of coursework in three of eight fields, as approved by the committee chair and graduate liaison, and selected from a list maintained by the academic unit and approved by the Graduate College: ¹		27
American Government & Politics		
Comparative Government & Politics		
International Relations		
Political Methodology		
Political Theory		
Public Administration		
Public Law		
Public Policy		
Dissertation in an Examined Field		
P SC 6980	Research for Doctoral Dissertation	2-44
Additional Hours		
Additional field coursework, electives or master's credit as needed to meet the degree total, as approved by the committee chair and graduate liaison, and selected from a list maintained by the academic unit and approved by the Graduate College.		7-49
Total Credit Hours		90

¹ Students must complete a General Examination (written and oral) in two of the three fields. (Political Methodology is a secondary examining field only. Public Law is a non-examining third field only.) Up to 12 hours may be taken from outside the Political Science department, with not more than 6 hours from any one outside department and not more than 6 hours applied to any one Field of Study.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral

degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

Department of Psychology

Lara Mayeux, Chair
705 Dale Hall Tower

General Information

The Department of Psychology was founded in 1928. The primary emphasis of the department is on psychology as an experimental and applied science. At the present time, the department is focused on the areas of cognitive psychology, social psychology, quantitative psychology, industrial/organizational psychology, developmental psychology, neuroscience, personality/individual differences.

At the undergraduate level, our department offers students an exceptional education that is flexible enough to support a wide range of career paths. Our undergraduate degree programs provide students with the opportunity to develop the type of broad and rich introduction to scientific psychology that will support a wide variety of post-graduate interests, whether they are to further graduate training in such areas as clinical or experimental psychology, pursue graduate training in other professional areas, such as medicine, law, or business, or to immediately seek meaningful employment in the contemporary workplace.

The programs of graduate training in the department are designed to produce experimental psychologists who are capable of assuming positions in academia, as well as industry and government. In a rigorous but cooperative and congenial atmosphere, high-quality research psychologists are trained to contribute to the body of knowledge of scientific psychology, as well as to disseminate and apply psychological knowledge.

The department provides research training by means of a curriculum that requires students to be involved in research beginning with their first enrollment and continuing every semester thereafter.

Programs & Facilities

Laboratory and Teaching Facilities

The laboratory and teaching facilities of the Department of Psychology include the Brain and Cognitive Development lab, Snyder Lab, Center for the Study of Human Operator Performance (C-SHOP), Mumford Lab, Day Lab, and Connelly Lab. SONA is a website that the Department uses to manage all experiments. See Undergraduate Research Opportunities for more details.

Scholarships and Financial Aid

At the undergraduate level, the department offers The Outstanding Psychology Students (TOPS) scholarships to outstanding psychology students with at least junior standing and a superior record in coursework.

At the graduate level, the department has been able to provide financial support to most of those students wishing to be supported. Summer support is available on a competitive basis. The Charles Gettys Award and a Graduate Student Teaching Award are presented annually for outstanding research and teaching by a graduate student in the department.

Student Organizations

The University of Oklahoma Psychology Club's purpose is to encourage, stimulate, and maintain excellence in psychology and to facilitate and further knowledge in psychology among students.

Psi Chi is the National Honor Society in Psychology, founded in 1929 for the purposes of encouraging, stimulating, and maintaining excellence in scholarship, and advancing the science of psychology. Membership is open to graduate and undergraduate men and women who are making the study of psychology one of their major interests.

Undergraduate Study

Students considering a major in psychology should contact an academic advisor in the Department of Psychology.

Bachelor of Arts

The Bachelor of Arts (p. 671) in Psychology provides the student with experience and training necessary to pursue post-baccalaureate education in psychology and other professional areas or to secure employment immediately following completion of the undergraduate degree, and with the broad education essential to the formation of a well-rounded, informed individual.

Bachelor of Science

The Bachelor of Science (p. 674) in Psychology is designed to provide additional training and experience in research to those students who want greater mastery in basic sciences and methodology. The B.S. degree program is most appropriate for those students who want to significantly enhance their competitive standing for admission to doctoral training in psychology - although it should be noted that the majority of our B.A. degree students have been highly successful in achieving graduate school acceptance as well.

Minors

- Pre-Health Social Sciences Minor (p. 677)
- Psychology Minor (p. 677)

Careers in Psychology

For an excellent introduction to careers in psychology, with a description of many subfields and job domains, please see the brochure (PDF) published by the American Psychological Association (APA).

Psychologists assume many different roles. For example, they work as teachers, researchers, service providers, administrators, and consultants. Because psychologists perform such diverse tasks, they work in many different settings: colleges and universities, elementary and secondary schools, private practices, hospitals, human service agencies, business and industry, and government.

The following are just some of the fields that graduates with bachelor's degrees in psychology have entered: administration and management, business and industry, casework, child care, employment interviewing, health services, marketing and public relations, personnel, probation and parole, psychiatric assisting, research or laboratory assisting, sales, teaching, and technical writing. Students pursuing the bachelor's degree as a terminal degree are encouraged to seek academic counseling on an intensive level with a faculty advisor, and to consult closely with the University's job placement service.

Graduate Study

Areas of Specialization

Areas of specialization in graduate training include cognitive psychology, social psychology, industrial-organizational, and quantitative psychology. In addition to these four specializations, researchers in the department also work in one or more of three integrative, cross-cutting specialties: developmental, neuroscience, and personality/individual differences.

The programs of graduate training in the department are designed to produce experimental psychologists who are capable of assuming positions in academia, as well as industry and government. In a rigorous but cooperative and congenial atmosphere, high-quality research psychologists are trained to contribute to the body of knowledge of scientific psychology, as well as to disseminate and apply psychological knowledge.

Graduate Certificates

- Human Resource Management (p. 682)
- Organizational Psychology (p. 682)
- Organizational Research (p. 682)
- Project Management (p. 683)

Degree Programs

Master of Arts

The Department of Psychology offers an innovative Master of Arts in Organizational Dynamics program at the Schusterman Center at OU-Tulsa. The program emphasizes research combined with practical application. After completing core courses, students specialize in one of three general tracks: Organizational Dynamics (p. 678), Human Resource Management (p. 679) or Project Management. (p. 680) Students interested in this program should consult with faculty members at OU-Tulsa.

Master of Science

The Master of Science (p. 681) in Psychology degree is conferred as a mark of progress toward the Ph.D. or as a terminal degree.

Doctor of Philosophy

To complete the Ph.D. program in either standard Psychology (p. 684) or Industrial and Organizational Psychology (p. 684), a student must complete 90 hours of coursework beyond the bachelor's degree. The individual student, in consultation with a faculty advisory committee, will design a unique course of study that reflects the student's interests and career goals. Successful completion of all coursework, the Ph.D. general exams, and the dissertation is required for the Ph.D.

Students interested in our Quantitative program also take two courses from the mathematics department: Calculus-based mathematical statistics and linear algebra. The pre-requisite calculus courses for these may be taken at OU if the student does not have them at the time of admission.

General Requirements for MS and Ph.D.

A continuing involvement in directed or independent research is expected to be a part of the student's program of doctoral study. The department has no language requirements, but a student's Advisory Committee may recommend the development of competence in other areas of study (e.g., computer science, industrial engineering, mathematics, philosophy of science, history of science, physiology) of potential benefit to the student's particular professional development and interests.

As a vital part of the graduate training program in psychology, all graduate students are required to be engaged in a training assignment each term. These assignments vary according to the needs and professional aspirations of the student. They are designed to supplement the more formal coursework by a variety of pre-professional activities such as assisting in research, teaching, etc., under faculty supervision. The training assignment increases in responsibility as the student progresses. The amount of time required of the student varies from 10–20 hours per week, depending upon level of progress, the type of assignment, etc. The purpose of these assignments is to train the student in some of the types of activities that the student will ultimately be engaged in after the degree is received.

A student's progress toward the Ph.D. degree is evaluated annually. Additionally, first-year students are evaluated after the first semester. The purpose of these evaluations is to provide feedback to the student and to assess the student's proficiency based on academic coursework, progress in research, and potential for significant contributions to the profession.

Courses

ODYN 5113 The Psychology of Leadership 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Focuses on the theories, principles, and practice of leadership in organizational settings; particular focus on technologically based organizations, leading change in organizations, and leading teams. (Irreg.)

ODYN 5123 Survey of Organizational Dynamics 3 Credit Hours
Prerequisite: admission to the Organizational Dynamics program or instructor's consent. Overview of theories and practices used in human resource management; project management; and knowledge management. Emphasis is on research methodologies and key theories relevant to each of the three substantive area, as well as application of general principles of each of the three areas in the workforce, considering individual, group and organizational levels. (Irreg.)

ODYN 5133 Teams and Motivation 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Team formation, socialization and identity, team problem solving, individual and collective motivation, conflict and power, learning and team development, and group liabilities. (Irreg.)

ODYN 5153 Design, Evaluation, and Statistics 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Covers applied research designs such as quasi-experimental and correlation designs; covers basic statistics, hypothesis testing, correlation/multiple regression, and quality control models. Focus will be on application of statistics in organizational problem solving. (Irreg.)

ODYN 5163 Applied Measurement and Analysis 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Focuses on teaching principles and practices of individual and organizational assessment, covering concepts such as validity, reliability, survey and instrument development, and characteristics of organizational data. Techniques for analyzing organizational data and conducting program evaluation will also be discussed. (Irreg.)

ODYN 5183 Capstone Project 3 Credit Hours
Prerequisite: Graduate standing and OLYN 5973, or permission of instructor. This capstone project will involve real-world application of the material covered in the program. (Irreg.)

ODYN 5223 Performance Management 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Covers basic approaches to motivating and developing individuals to perform well within organizational settings; includes discussion of alternative methods for measuring and assessing individual, team, and organizational performance. (Irreg.)

ODYN 5233 Training and Career Development 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Overview of principles, theories, and practices of learning and development in organizations. Application of various training techniques and designs will be covered as well as roles of different organizational constituencies in employee training and development. (Irreg.)

ODYN 5243 Staffing, Selection, and Compensation 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Focuses on recent, state-of-the-art processes and technologies for organizational staffing, personnel selection, and employee benefits and pay. Relevant theories in these areas will be reviewed. (Irreg.)

ODYN 5253 Organizational Behavior, Change, and Development 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Explores theories and practices related to the planned process of changing an organization or group's culture to increase organizational productivity and effectiveness. Topics such as organizational assessment and diagnosis, continuous learning, problem solving sessions, reward systems, visioning, and empowerment will be covered. (Irreg.)

ODYN 5263 Human Resource Management Systems and Techniques 3 Credit Hours

Prerequisite: Graduate standing or permission of instructor. Survey of theory and practice in primary areas of human resource management such as workforce planning, recruiting, selection and staffing, performance management, compensation, and training and development. Focuses on a systems approach to human resource management, including how aspects of HRM are interrelated, as well as strategies and technologies being used to perform various HRM functions. (Irreg.)

ODYN 5283 Employee Health, Safety and Wellness 3 Credit Hours

Prerequisite: Graduate standing or permission of instructor. Focuses on health, safety and wellness issues relevant to the workplace. Individual, social, situational and environmental factors that affect workplace health, safety and wellness will be covered, including topics such as: stress and burnout; work-life conflict; workplace safety and injury prevention; legal and regulatory compliance; and workplace conflict, aggression, and violence. (Irreg.)

ODYN 5293 Work and Life Integration 3 Credit Hours

Prerequisite: Graduate standing or permission of instructor. This course is designed to teach students about the interactive relationship between the family system and the work system. With the changing demographics of the workforce comes a stronger need to assess the relationship between these two major areas of life on one another. Such topics as work/family conflict, childcare issues, role conflict, marital satisfaction, and work satisfaction are covered. (Irreg.)

ODYN 5313 Planning Processes and Strategy Development 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. Overview of principles and practices of planning and strategy development. Planning processes will be examined at micro as well as macro organizational levels; organizational strategies such as succession planning and workforce planning will be discussed. (Irreg.)

ODYN 5323 The Psychology and Practice of Project Management 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. Focuses on strategies and steps involved in developing project proposals and work plans. Includes topics such as needs assessment, budgeting, resource utilization, managing diverse project teams, troubleshooting, and others. (Irreg.)

ODYN 5333 Customer Service and Market Analysis 3 Credit Hours

Prerequisite: Graduate standing or permission of instructor. Principles, theories and applications of market analysis and customer service will be reviewed; techniques for gathering, assessing, and analyzing market and customer data will be covered; and techniques for improving customer service will be discussed. (Irreg.)

ODYN 5343 Organizational Communication 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. Overview of theories and systems of communication in organizational settings. Various forms and effectiveness of communication as well as purposes and strategies at different organizational levels will be covered. (Irreg.)

ODYN 5353 Global Business Practices and Ethics 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. Covers the relationship between organizations and global markets. Explores how organizational systems work together to meet global demands, system breakdowns, and assessment of organizational performance. (Irreg.)

ODYN 5383 Emerging Topics in Project Management 3 Credit Hours

Prerequisite: Graduate standing or permission of instructor. In-depth examination of existing and emerging issues and problems facing project management professionals who work as internal or external consultants. May include issues such as risk management, project selection, conflict resolution, and strategic management decision processes. (Irreg.)

ODYN 5393 Creativity and Innovation in Organizations 3 Credit Hours

Prerequisite: Graduate standing or permission of instructor. This course focuses on theories of creativity and its assessment at the individual, group/team, and organizational level. Assumptions and predictions of the theories will be presented and discussed. A special focus will be on the stages of creative processes and their facilitation. (Irreg.)

ODYN 5413 Positive People Practices 3 Credit Hours

Prerequisite: Graduate standing or permission of instructor. Positive people practices are those practices undertaken by organizations that seek to treat five stakeholder groups (society, partners, investors, customers, and employees) as equally important to achieving the organization's vision and mission. This class will discuss a variety of positive people practices and examine diverse organizations that implement such policies effectively. (Irreg.)

ODYN 5513 Knowledge Management in Project-Driven Organizations 3 Credit Hours

Prerequisite: Graduate standing or permission of instructor. This class will focus on the 3rd generation of knowledge management and do so with a project-centric strategy. It is a project-centric environment that makes knowledge management most feasible for active, growing organizations. Students will learn methods and tools they can use to bring a sense of order to organizational knowledge. (Irreg.)

ODYN 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

ODYN 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ODYN 5973 Proposing and Presenting Research 3 Credit Hours

Prerequisite: admission to Organizational Dynamics master's program. Students in the course will learn to (a) read, synthesize and summarize existing research in organizational dynamics; (b) develop a research proposal that is founded in real world problems, that is based on sound research principles, and that meets accepted standards for professional and scholarly publication. The proposal, on approval of the faculty, may serve as the prospectus for either the professional project or the master's thesis. (F, Sp)

ODYN 5980 Research for Master's Thesis 2-4 Credit Hours

Prerequisite: permission of instructor. Supervised research in area agreed upon by the student and the instructor. (F, Sp, Su)

ODYN 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

- PSY 1113 Elements of Psychology 3 Credit Hours**
A survey of the scientific study of human behavior. Emphasis is placed upon scientific method, basic life processes, mechanisms of adaptation, individual differences and group behavior. Students have the opportunity to be exposed to the research process either by serving as participants in research experiments or by conducting reviews of research topics. (F, Sp, Su) [III-SS].
- PSY 2001 Career Exploration for Psychology 1 Credit Hour**
Prerequisite: PSY 1113 or concurrent enrollment. This course will explore the range of career options in psychology and other fields available to those with bachelor's and graduate psychology degrees, and provide academic planning assistance. Sub-disciplines within the field of psychology will be examined as well as graduate school application processes. (F, Sp, Su)
- PSY 2003 Understanding Statistics 3 Credit Hours**
Prerequisite: Math 0123 or satisfactory score on math placement test. An introductory applied statistics course which will focus on descriptive and inferential statistical methods. Emphasis will be placed on in-class activities and homework which help the student learn by experience. Topics include measures of central tendency and variability, z-scores, normal distribution, correlation, regression, sampling distributions, hypotheses testing, t-tests and chi-square tests. Laboratory (F, Sp, Su) [I-M].
- PSY 2403 Introduction to Personality 3 Credit Hours**
Prerequisite: PSY 1113 or permission of instructor. Introduces the classic theoretical perspectives in personality psychology and establishes a solid foundation for understanding personality dynamics. The emphasis is on personality theories representing (but not limited to) the psychodynamic, trait, cognitive, behavioral, and humanistic perspectives. (F, Sp, Su)
- PSY 2503 Computing for Behavioral Sciences 3 Credit Hours**
Students will learn to identify the parts and functions of personal computers. Building on that basic knowledge, such topics as developing and publishing a web page, collecting data from participants through the web, and using the advanced features of Excel for statistical analysis will be covered. Programming languages will include HTML and JavaScript. (F, Sp, Su)
- PSY 2603 Lifespan Development 3 Credit Hours**
Prerequisite: PSY 1113. Survey of the psychological changes across the life span; the changes in cognitive, social, emotional, and physiological development from conception to death will be included. (F, Sp, Su)
- PSY 2970 Special Topics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- PSY 3003 Advanced Undergraduate Statistics 3 Credit Hours**
Prerequisite: PSY 2003 or PSY 2113. Review of previous material, SAS, multiple comparisons, two-way ANOVA, power calculations, repeated measures designs, multiple linear regression, general linear model, nonparametric methods. Designed to help students prepare for graduate statistics courses. (Irreg.)
- PSY 3083 Animal Behavior 3 Credit Hours**
(Crosslisted with ZOO 3083) Prerequisite: Zoology 2013 or permission of instructor. Animal behavior from an evolutionary perspective. The effects of natural selections on mechanisms underlying behavior and on diversity of behavior among and within species. (F, Sp)
- PSY 3114 Research Methods: Applications and Experimental Design 4 Credit Hours**
Prerequisite: Major in Psychology; PSY 1113; PSY 2003 or PSY 2113. Examines how new discoveries are made in psychology through the scientific method. Primary goal is to prepare students to conduct an independent research project to address a theoretical question, analyze and interpret the data, and present the data to others in both written and oral form. Laboratory. (F, Sp, Su)
- PSY 3203 Cognitive Psychology 3 Credit Hours**
Prerequisite: PSY 1113. Surveys how people extract relevant information from their environment and store, retrieve and utilize such information at a later time. Topics will include memory storage and retrieval, attention, imagery, mnemonic devices and other cognitive processes. (F, Sp, Su)
- PSY 3313 Positive Psychology 3 Credit Hours**
Prerequisite: PSY 1113. Survey of positive psychology—the scientific study of the conditions and processes that contribute to the flourishing or optimal functioning of people, groups, and institutions. Topics include research methods, models of well-being, positive emotions, positive relationships, engagement and flow, self-regulation and grit, goals and habits, optimism and hope, as well as applications and interventions.
- PSY 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisite: PSY 1113 or equivalent, and permission of instructor; May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- PSY 3613 Developmental Psychology: Infancy through Adolescence 3 Credit Hours**
Prerequisite: PSY 1113; PSY 2003 or PSY 2113, or permission of instructor. Introduces themes, theories, and scientific research on cognitive, social, and emotional development from infancy through adolescence. Explores fundamental psychological questions of how we become who we are, what factors cause children's development of behavior and mind, and what leads to the diversity of developmental outcomes. No student may earn credit for both PSY 2603 and PSY 3613. (Irreg.)
- PSY 3703 Social Psychology 3 Credit Hours**
Prerequisite: PSY 1113. The science of how people think and feel about, relate to, and influence one another. Topics include classic and contemporary research on stereotypes, persuasion, attitude change, emotions, the self-concept, aggression, impression formation, and altruism, among others. (F, Sp, Su)
- PSY 3753 Introduction to Industrial Organizational Psychology 3 Credit Hours**
Prerequisite: PSY 1113 and PSY 2003 or PSY 2113 or permission of instructor. Industrial Organizational psychology covers psychological theories and their practical applications to the workplace. The course covers issues of critical relevance to the well-being of individuals and organizational performance. Topics include, but are not limited to, motivation, selection, training, assessment, performance management, satisfaction, teams, and leadership. (F, Sp, Su)
- PSY 3803 Physiological Psychology 3 Credit Hours**
Prerequisite: PSY 1113 or equivalent; and BIOL 1114 or BIOL 1124 or equivalent. Provides an introduction to physiological and neurological foundations of behavior. Some emphasis will be placed on contemporary issues and theoretical models. (F, Sp)

- PSY 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program, PSY 2003 or PSY 2113, and permission of department. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- PSY 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program; PSY 2003 or PSY 2113. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)
- PSY 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program, PSY 2003 or PSY 2113, and permission of department. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- PSY 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied, PSY 2003 or PSY 2113, and permission of department. May be repeated; maximum credit, six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- PSY 4023 Psychological Test and Measurements 3 Credit Hours**
Prerequisite: PSY 1113, and PSY 2003 or PSY 2113; and junior standing. An introduction to the measurement of human behavior. Special emphasis is given to tests of intelligence, achievement, personality, and interest. (Irreg.)
- PSY 4113 Capstone Survey of Major Fields in Psychology 3 Credit Hours**
Prerequisite: Major in Psychology; PSY 3114 or permission of instructor; senior standing. Lecture-based course focusing on major areas of psychology. Attempts to instill in the student an understanding of the integration and diversity of the field of psychology. Content and title vary with instructor. (F, Sp) [V].
- PSY 4143 Capstone Service Learning 3 Credit Hours**
Prerequisite: Major in Psychology; PSY 2403, PSY 3114, PSY 4453; senior standing and permission of instructor. Students apply learning from other courses to a project of significant community need. Classes are held both on campus and on-site. Students will develop a written description of the experience and the psychological principles applied. (F, Sp) [V].
- PSY 4243 Decision Making and Problem Solving 3 Credit Hours**
Prerequisite: PSY 2003 or PSY 2113, and PSY 3203. Review of issues in inductive thinking, deductive reasoning, inference generation, problem solving, insight, expertise, algorithms, and heuristics. The emphasis will be on current research investigations. (Irreg.)
- PSY G4253 Selected Topics in Cognitive Science 3 Credit Hours**
Prerequisite: PSY 1113 and PSY 3114 and PSY 3203, and PSY 2003 or PSY 2113; or permission of instructor. May be repeated with change of content; maximum credit 6 hours. Seminar focusing on specific issues in cognitive science. Topics include memory representation and retrieval, symbol and referent processing, knowledge structure, expert and novice differences, imagery, and others. (Irreg.)
- PSY 4263 Psychology and Law 3 Credit Hours**
Prerequisite: 3114. Examines some of the most important points of contact between the fields of psychology and the law, including eyewitness identification, the prison system, juries, and confessions and interrogations. (Irreg.)
- PSY 4283 Neural Bases of Perception and Cognition 3 Credit Hours**
Prerequisite: Junior standing; PSY 1113, PSY 2003, and PSY 3114; PSY 3203, PSY 3803, or permission of instructor. Survey of the ways in which the structures and functions of the nervous system support psychological experience, including basic perception, attention, memory, and complex cognition. Topics to be emphasized may vary by semester. (Irreg.)
- PSY G4313 Motivation 3 Credit Hours**
Prerequisite: PSY 2003 or PSY 2113. Primary motivational states and learned motivational states (e.g., fear, frustration, anxiety, etc.) will be considered as well as emotion and curiosity. Topics of current interest in both human and animal motivation will also be covered. (Irreg.)
- PSY 4343 Health Psychology 3 Credit Hours**
Prerequisite: Major in Psychology; PSY 1113 or an introductory Biology course. Health psychology examines the bi-directional relationship between psychology and health. Topics include, but are not limited to, physiological and psychological factors that influence perceptions of stress, the links between stress and illness, the psychosocial influences on health enhancing and health compromising behaviors, adjustment to illness and coping, pain, sociocultural factors and health, and personality and health. (F, Sp, Su)
- PSY G4403 Advanced Personality 3 Credit Hours**
Prerequisite: PSY 1113, PSY 2403, and junior standing or permission of instructor. Advanced personality course focusing on modern and current theoretical and empirical research. Introduces the research methods personality psychologists use to make substantive contributions to the scientific understanding of human thoughts, feelings, and behaviors. Topics include (but are not limited to) field dependence, autonomy, sex/gender, subjective well-being, dominance, leadership, sensation-seeking, risk-taking, pain tolerance, sensation reducing/augmenting, and locus of control. (Irreg.)
- PSY 4413 Behavioral Addictions 3 Credit Hours**
Prerequisite: major in Psychology; PSY 1113. This course provides a conceptualization of behavioral addictions and brief overview of the varied forms of addictive behaviors and treatments, including gambling, online gaming, food addiction, pornography addiction, sex addiction, compulsive shopping, Internet addiction, and a variety of impulse control disorders, among others. Attention is given to the relationship between behavioral addictions and substance addictions across a number of domains. (Irreg.)
- PSY 4423 Eating Disorders 3 Credit Hours**
Prerequisite: major in Psychology; PSY 1113. Eating Disorders provides an introduction to the characteristics and criteria associated with a variety of forms of disordered eating. It covers Pica, Avoidant-Restrictive Food Intake Disorder, anorexia nervosa, bulimia, binge eating disorder, and compulsive overeating, among others, and overviews key features of their causes, presentation, and treatment. (Irreg.)
- PSY 4433 Clinical Psychology 3 Credit Hours**
Prerequisite: Major in Psychology; PSY 1113, PSY 2003 or 2113, and PSY 4453. A survey of the field of Clinical Psychology. Topics include but are not limited to the following: Current Issues in the field, such as training and ethics; Psychological assessment; and Psychotherapy. Evidence-Based Practice in Psychology (EBPP) is emphasized. (F, Sp)

- PSY 4443 Law, Counseling, & Psychology 3 Credit Hours**
Prerequisite: PSY 1113 and PSY 2003; junior standing. This course deals with topics at the interface of psychology, counseling, and the law. There are many points of contact between these fields, including eyewitness identification, confessions, and interrogations, forensic confirmation biases, jury decision-making, the death penalty, the impact of and rationale for incarceration, evaluation of competency, mental illness, deception detection, plea bargains, the impact of race, etc. (Irreg.)
- PSY 4443` Law, Counseling, & Psychology 3 Credit Hours**
Prerequisite: PSY 1113 and PSY 2003; junior standing. This course deals with topics at the interface of psychology, counseling, and the law. There are many points of contact between these fields, including eyewitness identification, confessions, and interrogations, forensic confirmation biases, jury decision-making, the death penalty, the impact of and rationale for incarceration, evaluation of competency, mental illness, deception detection, plea bargains, the impact of race, etc. (Irreg.)
- PSY 4453 Abnormal Psychology 3 Credit Hours**
Prerequisite: Major in Psychology; PSY 1113 and PSY 2403, and PSY 2003 or PSY 2113; or permission of instructor. An examination of the major clinical and research findings in the field of abnormal psychology. Topics include studies of conflict, anxiety, neurosis, character disorders, schizophrenia, and psychotherapy. (F, Sp)
- PSY 4510 Applications of Psychology Practicum 1-3 Credit Hours**
1 to 3 hours. Prerequisite: PSY 2003 or PSY 2113, 12 hours of psychology, permission of instructor. May be repeated; maximum credit six hours; undergraduates limited to two enrollments. Individualized field experiences in an area of interest in psychology. (F, Sp)
- PSY 4523 Sport & Exercise Psychology 3 Credit Hours**
Prerequisite: PSY 1113, and PSY 2003 or PSY 2113, and junior standing; or instructor permission. Course discusses how psychological principles can be used by physical educators, coaches, and athletes in everyday situations and to cultivate peak performance and personal growth, and also many practical issues relevant to students, such as anxiety and stress; confidence and coping strategies; skill acquisition and training; attention control; goal setting; self-regulation; coaching and leadership, cohesion; burnout; injuries; and career options. (Irreg.)
- PSY 4613 Current Topics in Developmental Psychology 3 Credit Hours**
Prerequisite: PSY 2003 or PSY 2113, and PSY 2603 or PSY 3613; or permission of instructor. May be repeated with change of content; maximum credit 6 hours. An advanced seminar dealing with contemporary issues in developmental psychology. Content will vary with the instructor. (Irreg.)
- PSY 4633 Social and Personality Development 3 Credit Hours**
Prerequisite: PSY 1113, and PSY 2603 or PSY 3613. Explores theory and research in social and personality development from infancy through adolescence. Topics covered include attachment, temperament, emotional development, moral development, peer relationships, gender development, prosocial and antisocial behavior, and the influence of parenting, child care, and other important developmental contexts on the behavior and adjustment of children and adolescents. (Irreg.)
- PSY 4653 Cognitive Development 3 Credit Hours**
Prerequisite: PSY 2603 or PSY 3613. This course explores classic and contemporary theory and research on cognitive development from infancy through adolescence, including perceptual development, attention and memory, conceptual development, language, and social cognition. (F, Sp)
- PSY 4673 Psychology of the Family 3 Credit Hours**
Prerequisite: PSY 2603. This course addresses family structure and functioning as they affect human development from pregnancy through adulthood. Topics covered include the influence of parents, siblings, and grandparents; childless and childfree families; and family resilience. (F, Sp)
- PSY 4703 Psychology of Leadership 3 Credit Hours**
Prerequisite: major in Psychology, senior standing or permission of instructor. Provide students with an understanding of the psychological principles underlying leadership in government, industry, and society. Review psychological research on leadership and management, examining topics such as leadership skills, leading changes in organization, leader-follower relationships, and leadership tactics. Students will participate in various exercises to analyze leadership strategies and assess their potential strengths and weaknesses as leaders. (Sp)
- PSY 4713 Prejudice and Civil Rights 3 Credit Hours**
Prerequisite: PSY 1113. The Psychology of Prejudice and Civil Rights examines systems of privilege, oppression, and institutionalized discrimination that influence and help maintain racism, sexism, heterosexism, and classism and their psychological consequences on the individual and society. This course is designed to acquaint you with a modern conceptualization of these issues and provide you with a more comprehensive understanding of this field. (Irreg.)
- PSY 4723 Moral Psychology 3 Credit Hours**
Prerequisite: Junior Standing. This course focuses on moral behavior and reasoning informed by empirical science and philosophy. Topics may include moral motivation, moral responsibility, character traits, virtues, cross-cultural differences, reactive attitudes, moral development, and applied issues. (Irreg.)
- PSY 4733 Selected Topics in Social Psychology 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. May be repeated once with change of topic; maximum credit six hours. Content varies with the instructor. Deals with central topical areas of study in social psychology (i.e., attitudes and social cognition; person perception; groups and group dynamics; or theory construction). (Irreg.)
- PSY 4763 Work, Stress, and Health 3 Credit Hours**
Prerequisite: PSY 1113; PSY 2003 or PSY 2113; and PSY 3753. This Work, Stress, and Health course is the interdisciplinary study of how psychological factors influence employee health and wellness in the workplace. (Irreg.)
- PSY 4793 Psychology of Groups 3 Credit Hours**
Prerequisite: 1113. Provides students with an understanding of the psychological principles underlying group behavior. Topics covered will include group formation and development, cohesion and norms, social influence, power, inter-group relations, stereotyping and prejudice, group decision making, diversity within groups, stigma in the workplace, social identity, leadership in groups, group performance, and staffing organizational groups. (Irreg.)
- PSY 4910 Instructional Aides 1-3 Credit Hours**
1 to 3 hours. Prerequisite: PSY 1113 and PSY 2003 or PSY 2113; junior standing (or honors students); majors with grade point averages of at least 3.00 and acceptance of an application, or by invitation by faculty member. May be repeated once, maximum credit six hours. Designed for students contemplating graduate school to offer experience in all aspects of instruction. Individual assignments of special instructional tasks in psychology. Supervised instructional experience will be part of each enrollment. (F, Sp, Su)

PSY 4920 Current Topics in Basic and Applied Psychology**1-3 Credit Hours**

1 to 3 hours. Prerequisite: PSY 1113, and PSY 2003 or PSY 2113; May be repeated with change of content; maximum credit 9 hours. Content and number of credit hours varies with instructor and section. Focus on current topics in psychology not covered in existing course offerings. Intended for purpose of offering high interest course topics during regular semester, summer, and intersession. (F, Sp, Su)

PSY G4940 Seminar in Psychology**1-3 Credit Hours**

1 to 3 hours. Prerequisite: PSY 1113, and PSY 2003 or PSY 2113; and junior standing; or departmental permission. May be repeated with change of content; maximum credit 6 hours. Advanced seminar dealing with contemporary issues and problems in psychology. Content varies with instructor. (F, Sp, Su)

PSY 4960 Directed Readings**1-4 Credit Hours**

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

PSY 4970 Special Topics**1-3 Credit Hours**

Special Topics. 1 to 3 hours. Prerequisite: Junior standing or permission of instructor. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

PSY 4990 Independent Study**1-3 Credit Hours**

1 to 3 hours. Prerequisite: PSY 2003 or PSY 2113, PSY 3114, three courses in general area to be studied, and permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PSY 5003 Psychological Statistics I**3 Credit Hours**

Prerequisite: graduate standing and undergraduate statistics course, or permission of instructor. Applied statistics with emphasis upon statistical problems in behavioral sciences research. Includes probability, descriptive statistics, estimations and test of hypotheses. Techniques covered in depth include t-test, one and two factor ANOVA methods, multiple comparison methods (e.g., Scheff, Tukey, Ryan, etc.), and the robustness of these techniques to violation of their assumptions.

PSY 5013 Psychological Statistics II**3 Credit Hours**

Prerequisite: 5003 or equivalent, or permission of instructor. The general linear model is covered as it applies to the analysis of variance including fixed, mixed, and random models, individual comparisons, analysis of covariance, and multiple regression. Also, some nonparametric techniques are discussed including chi-square and distribution free procedures.

PSY 5203 Survey in Cognitive Psychology**3 Credit Hours**

Prerequisite: graduate standing or permission. Survey of the field of cognitive psychology designed to provide a foundation for the study of human higher mental processes. Topics include: pattern recognition, attention, episodic memory, semantic memory, psycholinguistics, comprehension, reasoning, decision making and problem solving.

PSY 5280 Seminar in Cognitive Processes**1-4 Credit Hours**

1 to 4 hours. Prerequisite: 5203 or permission of instructor. May be repeated with change of subject matter; maximum credit six hours. Considers special topics in cognitive psychology emphasizing recent research literature.

PSY 5403 Survey in Developmental Psychology**3 Credit Hours**

Prerequisite: graduate standing in the department or permission of instructor. Survey of classic and contemporary research in developmental psychology. (Irreg.)

PSY 5423 Current Theories in Social Psychology**3 Credit Hours**

Prerequisite: graduate standing and permission of instructor. An overview of current theory and research in social psychology, including such topics as motivated cognition, automatic and controlled processing, stereotyping, impression formation, attributions, the self-concept and self-regulation, relationships, emotions, attitudes, altruism, and aggression. (Irreg.)

PSY 5703 Survey of Industrial Psychology**3 Credit Hours**

Prerequisite: Graduate standing. This course is intended to provide an overview of the key principles and practices of Industrial/Organizational psychology with an emphasis on work analysis and the selection, assessment, and development of human resources. This course will also examine legal and ethical issues faced by I/O psychologists as well as strategic workforce planning. (Irreg.)

PSY 5713 Training and Development**3 Credit Hours**

Prerequisite: 5703. Design and development of training courses as well as practical considerations in the delivery of training in organizational settings. (Sp)

PSY 5723 Selection and Assessment in Organizations**3 Credit Hours**

Prerequisite: 5703. Covers a variety of substantive topics including; the choice and design of personnel selection tools, validation of employment tests, legal issues regarding personnel assessment and selection, assessment of intelligence, experience, personality and integrity, the use of common assessment methods such as situational judgment tests, interviews, biodata, and assessment centers, frame-of-reference training, theoretical and empirical literature regarding assessment center technology, and development and administration of an assessment center. (Irreg.)

PSY 5733 Techniques in Industrial and Organizational Psychology**3 Credit Hours**

Prerequisite: 5703. Provides an overview of how to develop and apply several methodologies and techniques that I/O psychologists commonly use to address organizational needs. During this course we will explore topics such as basic consulting skills, job analysis, individual assessment and selection, biodata, performance appraisal, ad organizational surveys. Some basic familiarity with these areas is assumed. This class focuses on how to develop and implement these types of applications in organizational settings. (Irreg.)

PSY 5743 Survey of Organizational Psychology**3 Credit Hours**

Prerequisite: Graduate standing. The purpose of this course is to provide a broad overview of important topics defining organizational psychology and organizational behavior from a psychological perspective, covering topics such as organizational socialization, commitment, networks and culture, conflict and negotiation, organizational change, and counterproductive work behavior. (Irreg.)

PSY 5753 Cognition in Organizations**3 Credit Hours**

Prerequisite: Graduate standing. Organizational cognition has become a key sub-discipline in the fields of organizational behavior and organizational psychology. This course will examine the nature of knowledge in organizations and how this knowledge is used in decision-making. It will also examine key cognitive processes (e.g. creative problem solving processes, forecasting, causal analysis) involved in organizational cognition along with key applications. (Irreg.)

- PSY 5763 Individual Differences 3 Credit Hours**
Prerequisite: Graduate standing. Understanding of the sources of human variation provides a basis for many psychology-based interventions. This course reviews critical findings, major theories, and research methods employed in studying the major content areas involved in the study of individual differences, covering general domains such as cognitive, motivational, dispositional/trait, and group-based individual differences. (Irreg.)
- PSY 5783 Seminar in I/O Psychology 3 Credit Hours**
Prerequisite: Graduate standing; May be repeated with change of topic; maximum credits 12 hours. The purpose of this course is to provide a general course number that can be repeated with a change of content. A variety of courses will be taught under this number such as Organizational Cognition, Organizational Ethics, Innovation in Organizations, and Individual Differences. (Irreg.)
- PSY 5901 Foundations of Psychological Science I 1 Credit Hour**
Prerequisite: admission to graduate psychology program. Overview of current research in psychological science. Discussion of ethics, professional development, the pedagogical arts, methodology and grantsmanship. Participants complete a first year research project including a grant proposal, presentation at a professional meeting and presentation at departmental speaker series.
- PSY 5911 Foundations of Psychological Science II 1 Credit Hour**
Prerequisite: 5901. Continuation of 5901. Advanced topics in professional development, research planning, funding and communication.
- PSY 5960 Directed Readings in Psychology 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission of instructor, adviser and dean. Maximum credit nine hours. Supervised reading of selected topics in psychology by agreement of instructor and student. (F, Sp, Su)
- PSY 5970 Pre-Master's Research in Psychology 1-4 Credit Hours**
Prerequisite: graduate standing; pre-master's status; permission of instructor. May be repeated; maximum credit nine hours. Supervised research in area agreed upon by student and instructor. Students conducting research for the master's thesis should enroll in 5980. (F, Sp, Su)
- PSY 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- PSY 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- PSY 6013 Factor Analysis and Structural Equation Models 3 Credit Hours**
Prerequisite: 5003, 5013 or equivalent. Several exploratory factor analysis models are discussed including principle factors, maximum likelihood, and alpha-factors analysis. Factor-analytic-like models such as components analysis and image analysis are also covered. Offers an overview of the application of structural equations in the social sciences. (Irreg.)
- PSY 6023 Statistical Models of Tests Scores 3 Credit Hours**
Prerequisite: 5003, 5013 or equivalent. Topics include classical test theory, item-sampling theories, latent ability test theory, item analysis and test validation. (Irreg.)
- PSY 6063 Seminar in Quantitative Psychology 3 Credit Hours**
Prerequisite: 5013 or permission of instructor. May be repeated with change of topic; maximum credit 15 hours. The topic or topics to be covered depend upon the faculty member or members in charge of the seminar at the time it is offered.
- PSY 6073 Experimental Design for Psychology 3 Credit Hours**
Prerequisite: 5003, 5013, or permission of instructor. Classical experimental design applied to research problems in the behavioral sciences; completely randomized, randomized blocks, factorial, Latin square, fractional factorial and repeated measures designs, confounding, and related topics are discussed. (F)
- PSY 6223 Quantitative Models in Cognition 3 Credit Hours**
Prerequisite: 5203 or permission. Survey of quantitative models in cognition, with an emphasis on memory and reaction time. Techniques for model testing and development will be taught and supported by exercises.
- PSY 6280 Advanced Seminar in Cognitive Processes 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 5203 or permission. May be repeated with change of subject matter; maximum credit 12 hours. Special topics in human learning and memory or in memory and cognitive processes will be considered in detail, emphasizing recent research literature and development of research proposals. (Irreg.)
- PSY 6323 Teaching of Psychology 3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor. The purpose of this course is to prepare you to excel as an independent instructor, whether you are teaching for the first time or already have experience as an instructor of record. The class is designed with a practical focus on preparing course materials, creating assignments, delivering content, managing interactions, and evaluating student work. (Sp)
- PSY 6423 Seminar in Social Psychology 3 Credit Hours**
Prerequisite: graduate standing and permission of instructor. May be repeated with change of topic; maximum credit nine hours. Intensive study of major problem areas in social psychology, including intrapersonal processes, group dynamics, the self, and research methods. Course topic will vary. (Irreg.)
- PSY 6433 Seminar in Theories of Personality 3 Credit Hours**
Prerequisite: graduate standing in Psychology or permission of instructor. May be repeated with change of topic; maximum credit 12 hours. Intensive exploration of both traditional and modern theories of personality. Examples from several major categories of personality theory are examined through intensive primary readings, writing, and discussion. (Irreg.)
- PSY 6443 Stress, Health, and Identity 3 Credit Hours**
Prerequisite: Graduate standing or instructor permission. The focus of this course is to consider theoretical perspectives, methods, and research findings in the study of stress, health, and identity. Course content includes perspectives on stress, coping, and health; research on advancing health equity and justice; and multiple facets of identity as they relate to adjustment, well-being, and health from social and developmental psychology perspectives. (Irreg.)
- PSY 6453 Seminar in Interpersonal Relationships 3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor. Covers classic and contemporary theories and findings in the social psychological literature on interpersonal relationships, with a focus on the biological, motivations, social and personality factors that contribute to attraction, closeness, satisfaction, and stability in dyadic relationships. (Irreg.)

PSY 6643 Seminar in Developmental Psychology 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. May be repeated with change of topic; maximum credit 12 hours. Involves in-depth study of theory and research in major areas of developmental psychology, e.g., social cognition, peer relations, emotions, temperament and personality, morality, aggression, theory of mind. (Irreg.)

PSY 6703 Advanced Seminar in Industrial and Organizational Psychology 3 Credit Hours

Prerequisite: 5703. May be repeated with change of content; maximum credit nine hours. Focus in-depth on one or more topics examining the area with respect to new theoretical developments and major research findings. Topics may include active, emergent research areas likely to lead to changes in theoretical and professional practice including motivation, team effectiveness, work and family issues, changes in job design, etc. (Sp)

PSY 6713 Leadership Theories, Research, and Practice 3 Credit Hours

Prerequisite: 5703. This graduate seminar examines the theoretical and empirical research as well as case studies on a variety of topics in the field of leadership, leadership dyads, outstanding forms of leadership (transformational, charismatic, pragmatic), politics, leading innovation and change, assessing leadership effectiveness, gender and leadership, and cross-cultural leadership. (Irreg.)

PSY 6910 Readings in Psychology 1-4 Credit Hours

1 to 4 hours. Prerequisite: advanced graduate standing (post-master's). May be repeated; maximum graduate credit nine hours. Supervised reading for advanced students. Topics chosen by agreement of instructor and student.

PSY 6923 History of Psychology 3 Credit Hours

Prerequisite: graduate standing. Introduction to origin of modern psychology within science. Origins are examined from the ancient Greeks through philosophy, physiology, and astronomy. Special emphasis placed on the historical trends and the people involved.

PSY 6930 Res-Cognitive Process, Sensation-Perception, Physiological Psy 1-6 Credit Hours

1 to 6 hours. Prerequisite: by permission of instructor only. May be repeated; maximum graduate credit eighteen hours. Supervised laboratory research on major projects in an area of mutual interest with a faculty member. Upon advice of the instructor involved, enrollment for work on minor research projects in the above areas may alternatively be in 4990. (F, Sp, Su)

PSY 6940 Research in Personality: Social and Developmental Psychology 1-6 Credit Hours

1 to 6 hours. Prerequisite: by permission of instructor only. May be repeated; maximum graduate credit 18 hours. Supervised individual laboratory research on major projects in an area of mutual interest with a faculty member. Upon advice of the instructor involved, enrollment for work on minor research projects in the above areas may alternatively be in 4990. (F, Sp, Su)

PSY 6960 Research in Industrial and Organizational Psychology 1-6 Credit Hours

1 to 6 hours. Prerequisite: 5703 and permission of instructor. May be repeated; maximum credit twelve hours. Provide guided research experiences preparatory for master's and doctoral degrees. Topics selected in consultation with faculty member may include leadership, management ethics, and motivation. Exposure to key aspects of the research process including literature reviews, study design, data analysis, report preparation, proposal writing, paper presentation, and article writing. (F, Sp, Su)

PSY 6970 Post-Master's Research in Psychology 1-4 Credit Hours

Prerequisite: master's degree and permission of instructor. May be repeated; maximum credit 12 hours. Supervised research for advanced graduate students on major projects of mutual interest with a faculty member. (F, Sp, Su)

PSY 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

PSY 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Psychology (Standard), B.A.

Minimum Total Credit Hours: 120

Major Hours: 35

Minimum Upper-Division Hours: 48

Upper-Division Hours Within Major: 22

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B800

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.

Code	Title	Credit Hours
Foundation Courses		
PSY 1113	Elements of Psychology	3
PSY 2001	Career Exploration for Psychology	1
PSY 2003	Understanding Statistics	3
PSY 3114	Research Methods: Applications and Experimental Design	4
Core Courses		
Choose three of the following:		9
PSY 2403	Introduction to Personality	
PSY 2603	Lifespan Development	
	or PSY 3613 Developmental Psychology: Infancy through Adolescence	
PSY 3203	Cognitive Psychology	
PSY 3703	Social Psychology	
PSY 3753	Introduction to Industrial Organizational Psychology	
Depth Courses		
Choose 15 hours from 3000- or 4000-level PSY courses ¹		15
Total Credit Hours		35

¹ 3000- or 4000-level PSY courses, no more than 6 hours may be from PSY 3440/PSY 3990/PSY 4990, and none of which may be from PSY 4910 or the Core Courses listed above.

Major Support Requirements

Code	Title	Credit Hours
Mathematics		
MATH 1503	College Algebra ¹	3
or MATH 1643	Functions and Modeling for Business, Life and Social Sciences	
Biology		
Choose one of the following:		4-5
BIOL 1005	Concepts in Biology	
BIOL 1124	Intro Biol: Molecule/Cell/Phys	
BIOL 1134	Introductory Biology: Evolution, Ecology and Diversity	
Group I		
Choose 6-10 hours from the Group I course list (p. 672)		6-10
Group II		
Choose 6 hours from the Group II course list (p. 672)		6
Total Credit Hours		19-24

¹ MATH 1523, or MATH 1743, may also be used to satisfy this requirement and is a prerequisite for several of the course options in the Group I major support course list.

Major Support Group Course Lists

GROUP I

Code	Title	Credit Hours
BIOL 2013		
CHEM 1315	General Chemistry	5
CHEM 1415	General Chemistry (Continued)	5
C S 2334	Programming Structures and Abstractions	4
PHYS 2414	General Physics for Life Science Oriented Majors	4
METR 2603	Severe and Unusual Weather	3
A maximum of one of the following:		3
C S 1213	Programming for Non-Majors with Python	
C S 1313	Programming for Non-Majors with C	
C S 1321	Java for Programmers	
C S 1323	Introduction to Computer Programming for Programmers	
C S 1324	Introduction to Computer Programming for Non-Programmers	
MIS 2113	Computer-Based Information Systems	
PSY 2503	Computing for Behavioral Sciences	

GROUP II

Code	Title	Credit Hours
A maximum of one of the following:		3
ANTH 2303	General Linguistics	
ANTH 3203	Introduction to Biological Anthropology	
ANTH 4223	The Anthropology of Childhood	
A maximum of one of the following:		3
COMM 1113	Principles of Communication	
COMM 2003	Communication in Non-Western Culture	
COMM 2113	Business and Professional Communication	
ECON 1113	Principles of Economics-Macro	3
or ECON 1123	Principles of Economics-Micro

HSTM 1113	Science, Nature and Society: Historical Perspectives	
HSTM 2213	The Darwinian Revolution	
HSTM 2423	Social and Ethical Issues in Science, Technology, Environment and Medicine	
HSTM 3013	History of Science to the Age of Newton	
HSTM 3023	History of Science Since the Seventeenth Century	
PHIL 1113	Introduction to Logic	3
A maximum of one of the following:		3
SOC 1113	Introduction to Sociology	
SOC 3523	Criminology	
SOC 3723	Sociology of Family	

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/genesed/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO¹ 3-4

Physical Science

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS¹ 3-4

Core Area III: Social Science (6 hours)

P SC 1113 American Federal Government 3

Choose one course from the General Education Social Science list 3

Core Area IV: Arts and Humanities (18 hours)

Artistic Forms

Choose one course from the General Education Artistic Forms list 3

Western Culture

HIST 1483 United States to 1865 3
or HIST 1493 United States, 1865 to the Present

Choose one course from the General Education Western Culture list (excluding HIST 1483/1493) 3

World Culture

Choose one course from the General Education World Culture list 3

Additional Core IV Upper-Division Arts & Humanities courses

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3} 3

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3} 3

Core Area V: First Year Experience (3 hours)

Choose one course 3

Total Credit Hours 56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Psychology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Psychology major requirements.

Freshman

<i>World Culture</i>	
Choose one course from the General Education World Culture list	3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>	
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3}	3
Core Area V: First Year Experience (3 hours)	
Choose one course	3
Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Psychology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Psychology major requirements.

Freshman

¹ Group 1 Major Support Requirements must total at least 8 credit hours (8-13 credit hours, total).

Pre-Health Social Sciences, Minor

Minimum Total Credit Hours: 21

Minimum Upper-Division Hours: 9

Program Code: N795

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Psychology.

Required Courses

Students must successfully complete at least 21 hours of courses, including least nine (9) hours at the upper-division level.

Code	Title	Credit Hours

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Choose 3 hours from an elective list maintained by the department or as approved by the ODYN Graduate Liaison		3
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.

- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Organizational Psychology (Tulsa), Graduate Certificate

Minimum Total Credit Hours: 12

Program Code: G675

This program is currently offered only at the University of Oklahoma's Tulsa campus.

Cellular & Behavioral Neurobiology: Psychology, Ph.D.

Minimum Total Hours: 90

Program Code: D149

Program Requirements

Code	Title	Credit Hours
Core		
BIOL 5833	Neurobiology	3
BIOL 5871	Current Topics in Neurobiology	1
Lab Rotations		
PSY 6990	Independent Study (6-9 hours of laboratory rotations, 2-3 in CBN affiliated labs)	6-9
Psychology Coursework		
PSY 5003	Psychological Statistics I	3
PSY 5013	Psychological Statistics II	3
PSY 6073	Experimental Design for Psychology	3
PSY 5901	Foundations of Psychological Science I	1
PSY 5911	Foundations of Psychological Science II	1
Minor		
A sequence of at least three courses (minimum 9 hours) selected in accordance with departmental policy, as approved by the advisory committee and graduate liaison.		9
Breadth		
Two courses (6 hours) in Psychology areas outside the major and minor areas, as approved by the advisory committee and graduate liaison.		6
Dissertation		
PSY 6980	Research for Doctoral Dissertation (minimum 2 hours)	2
Electives		
Additional coursework to reach 90 post-baccalaureate hours, as required by doctoral advisory committee		49-52
Total Credit Hours		90

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

Psychology, Ph.D.

General Information

The academic study of religion is a vibrant and vital part of OU's liberal arts curriculum. It is in this discipline that we attend to the ways humans all over the world think about questions of life and death; engage in processes of making meaning, manifesting joy, and of grieving; and create and respond to cultures and institutions of power. Students emerge from our major with a strong foundation in deeply culturally-grounded critical thinking, an ability to interrogate and critique forms of power, and a nuanced understanding of the human condition. Our majors

and minors have gone on to pursue careers in a wide variety of fields and professions including especially law, medicine, nonprofit work, and education. No matter what their line of work, our alumni are prepared to honor difference, embrace complexity, and lead with integrity.

It is very important to all of us in Religious Studies to see students develop intellectually, find and follow their intellectual and academic interests, and develop their personal and career aspirations during their undergraduate years. We are a warm and welcoming community of scholars and mentors with a commitment to education as well as to the success of the students who pass through our courses and our doors on the way to becoming educated and critically-thinking citizenry, whatever their career choices. Our commitment to your education is directly linked to our hopes and aspirations for the quality of your life, including the quality of your intellectual life after you leave OU and for years beyond.

We invest in the success of our students at several levels. What that means is simply that you're not a statistic. We are interested in far more than checking you off a list or clicking on an online box once you've graduated. We measure success by a host of factors beyond the achievement of a diploma. You can view each semester's Religious Studies course lists on our website.

Please explore this website and the Department of Religious Studies website to learn more. Our faculty offer courses in a variety of specializations leading to a BA degree, and we offer an inviting, welcoming, and rigorous scholarly community. Welcome!

Programs & Facilities

Visit our Department of Religious Studies website to learn more about scholarships, departmental events, information for prospective students, careers in Religious Studies, our undergraduate support system, and our faculty and staff.

The Department of Religious Studies sponsors or co-sponsors numerous programs featuring a variety of prominent speakers and authors each year. In addition to speaking in classes and meeting with students, most of these visitors present public lectures on religious dimensions of important contemporary issues. The public lectures are open to the wider OU campus and local community.

The department encourages community with our student, faculty, staff, and alumni. We host monthly events for students and faculty. Alumni and various guests are at times invited to discuss religious studies, careers, and the broader world beyond OU.

The department also actively encourages and supports study abroad opportunities. In addition to annual summer archaeological field study trips, faculty members work with other entities across campus to develop study abroad opportunities. Some scholarships are available to facilitate summer field study programs.

The Department of Religious Studies currently provides several partial scholarships each year in a competitive process for RELS majors and minors.

Undergraduate Study

Make your mark on the world with a Religious Studies degree. With a Bachelor of Arts in Religious Studies (p. 689) or a Minor in Religious Studies (p. 693) you learn:

- A broader perspective of the world around us and a nuanced understanding of the human condition

- Critical thinking and analytic reasoning
- An ability to interrogate and critique forms of power
- Teamwork skills with diverse groups
- Culturally-grounded critical judgement and decision making
- How to be an effective oral and written communicator
- How to utilize complex problem-solving skills

New to the 2024-2025 academic year, Religious Studies will offer undergraduate certificates in Asian Religions (T032) (p. 693) and Islamic Studies (T292) (p. 694). Learn about these new options here in the OU General Catalog, and on our website.

Our OU Religious Studies graduates do amazing things! We have alumni (majors and minors) with various career paths, many of which include nonprofit work, education, medicine, and law. They've gone on to become:

- State representatives
- Intelligence analysts for the FBI
- Staff attorneys for the Choctaw Nation
- Nonprofit tax attorneys
- Attorneys and counselors at law
- Supervisors of library programs
- Special collections assistants at university research libraries
- Physical therapists
- Residents in family medicine
- Psychiatric physician assistants
- Caseworkers in child protective services
- Elementary school art teachers
- Program managers at the Family Safety Center
- Vicars, senior pastors, priests
- Occupational safety specialists
- AP statistics and mathematics instructors
- University faculty
- Freelance writers
- Managers in mortgage servicing

RELS can easily pair with double majors and multiple minors. Some RELS courses may count toward your major or minor and your GenEd requirements at the same time. Our website posts the Religious Studies course lists each semester.

Courses

RELS 1113 Introduction to Religious Studies 3 Credit Hours

Facilitates understanding of human behaviors and products that are identified as religious. Includes critical engagements with ideas and practices of authority, transcendence, value, meaning, and collectivity. Provides strong foundation in culturally-grounded critical thinking, a nuanced understanding of how humans construct their worlds, and the ability to interrogate forms of power. (F, Sp, Su) [IV-WC].

RELS 1213 Judaism and Christianity in Conversation and Conflict 3 Credit Hours

This course introduces students to academic study of Judaism and Christianity, including their relationship to one another in antiquity and today. Our approach is comparative, historical, and analytical as we examine the development of these major religious traditions over time and the diversity both between and within them. (Irreg.) [IV-WC].

RELS 2133 History of Christian Traditions 3 Credit Hours

Explores Christian beliefs and practices from ancient origins to the present day. Examines key texts and observes how and why certain thinkers and events were crucial to the development of the Christian religious tradition, and how ideas and practices were contested (internally and externally) and adapted according to cultural context. (Sp) [IV-WC].

RELS 2213 World Religions 3 Credit Hours

An introduction to some of the world's major religious traditions, including study of their internal diversity and how they change over time. Close attention is also paid to the ways the categories of "religion" and "world religions" shape the way we understand one another and the world around us. (F) [IV-WDC].

RELS 2303 Introduction to Islam 3 Credit Hours

An introduction to a selection of major Islamic beliefs, texts, stories, practices, rituals, ethical norms, institutions, and debates. History, concepts, and examples are presented with an eye toward interpreting writings by Muslim authors with a diversity of backgrounds and outlooks. (Irreg.) [IV-WDC].

RELS 2313 Religion and Black Popular Music 3 Credit Hours

Examines the relationship between black religions and black popular music in the U.S. Key areas of emphasis include the cultural, social, religious, political, and economic dimensions (the "context") of genres from spirituals to ragtime, blues, jazz, gospel, rock & roll, rhythm and blues, reggae, soul, disco, house, and hip hop. (Sp) [IV-AF].

RELS 2613 Pilgrims and Pilgrimage 3 Credit Hours

Prerequisite: Sophomore standing or permission of instructor. This course examines historical and modern-day religious and secular pilgrimage. (Irreg.) [IV-WC].

RELS 2653 Approaches to the Study of Religion 3 Credit Hours

Examines ways religion may be studied in order to better understand it. The course will include theory and the methodologies of the social sciences and humanities. (Sp)

RELS 2703 History of Buddhist Traditions 3 Credit Hours

An introductory study of Buddhist traditions focusing on sacred texts and core concepts. Examines the historical development of Buddhism in India, the formation of Theravada, Mahayana, and Vajrayana Buddhism, and local variations in Southeast Asia, East Asia, and the modern West. (Irreg.) [IV-WDC].

RELS 2713 History of Hindu Traditions 3 Credit Hours

Introduces students to the historical development of the many traditions that come under the umbrella of what we now call "Hinduism." Particular attention paid to the ways in which Hindu ways of being have been influenced by many factors in South Asian history, and have constantly been debated and in flux. (Irreg.) [IV-WDC].

RELS 2960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major. Topics will cover materials not usually presented in the regular course offerings. (F, Sp, Su)

RELS 2970 Special Topics 1-3 Credit Hours

1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

- RELS 3013 Special Topics in Religious Texts 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. May be repeated with change of text; maximum credit nine hours. An examination of religious texts, and may include the Koran, Jewish scriptures, Christian scriptures, Bhagavad Gita, Vedas, etc. (Irreg.)
- RELS 3043 Special Topics in Religion, Social Organization & Politics 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. May be repeated with a change of content; maximum credit nine hours. An examination of issues and topics in religion, social organization and politics. (Irreg.)
- RELS 3053 Special Topics in Religion and History 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. May be repeated with a change of content; maximum credit nine hours. An examination of religious phenomena throughout history, appearance and development of religious traditions, or special issues or topics in religion and history. (Irreg.)
- RELS 3103 Famous Bibles 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. The Bible is one of the most famous books ever produced and distributed. But it wasn't always a book, and it has never been singular. The Bible exists in material form as varied and multiple. This course explores the historical circumstances of the production of particular bibles through attention to famous, and infamous, Bibles in Jewish and Christian history. (Irreg.)
- RELS 3153 Jesus Interpreted 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Examines varied portrayals of Jesus of Nazareth in literature, scholarship, and film, ranging from ancient gospels to contemporary scholarly and cinematic portrayals. Primary texts include canonical and non-canonical gospels from antiquity, modern scholarly reconstructions of the historical Jesus, and contemporary Jesus films. (Irreg.) [IV-WC].
- RELS 3173 Women and the Bible 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. A study of biblical literature through narratives from the Bible featuring women. Using a variety of perspectives, including historical, literary, and ideological approaches, we consider what these texts tell us about sex, gender, masculinity, and femininity in the ancient world and also how these texts have been interpreted through time to shape attitudes about women, gender, and sexuality. (Irreg.) [IV-WC].
- RELS 3193 Biblical Literature 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Examines Biblical texts to observe the Bible as the scriptural background of both Judaism and Christianity; modern scholarship and current debates surrounding the composition, themes, content, and dating of Biblical texts; historical and geographic circumstances surrounding the composition of biblical texts; the Bible as cultural inscription, the various ways the Bible is read today, and its impact on modern culture. (Irreg.) [IV-WC].
- RELS 3223 Religion and Nationalism in India 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. A study of how the major religions of India (Hinduism, Buddhism, Islam, Zoroastrianism, and Sikhism) change under various political regimes; a case study of how these religions transformed under British colonial rule and in nationalist and post-independence India, hardened religious boundaries, and the partition of India into two nation-states, and one (Pakistan) divided again (into Pakistan and Bangladesh). (Irreg.) [IV-WDC].
- RELS 3233 Money, Power, and God(s): Religion and Economy East and West 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. An exploration of the intertwining of religious and economic modes of human life, particularly in Euro-American and South Asian contexts. The course disrupts the received categories of "religion" and "economy" to uncover the ways that humans think about what is valuable, good, and precious and how they seek to create a world in which each emerges. (Sp) [IV-WDC].
- RELS 3323 Religion and Social Change 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. What is social change? What is religion? What is the relationship between religion and social change? This course examines how global movements have intersected with religious communities and practices in the 20th and 21st centuries in the hope of producing a world where all life, both human and non-human, can flourish. (Irreg.)
- RELS 3353 Religion and Black Political Thought 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. Examines the relationship between black religions and black political thought in the U.S. Key areas of emphasis include the cultural, social, religious, political, and economic dimensions (the "context") informing the "decolonial turn" in black religious and political thought. (Irreg.)
- RELS 3423 Gender, Sex, and the Body in the Christian Tradition 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. An overview of some topics where issues of gender and sexuality intersect with a particular religious tradition. Topics have to do with gender, sexuality, and religion, including purity and power, celibacy and virginity, marriage, reproductive rights, gender fluidity, and religious leadership and ordination. (F) [IV-WC].
- RELS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- RELS 3533 The Qur'an 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. Intensive study of the Qur'an, its major themes, and literary forms, with attention to a range of classical and contemporary discourses about the Qur'an, emphasizing the great variety of ways in which Muslims and non-Muslims have analyzed and interpreted the Qur'an. (Irreg.) [IV-WDC].
- RELS 3543 Islamic Law 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. A close reading and discussion of primary texts (scriptural, classical, and modern) and accounts of court cases, focused on one aspect of Islamic law such as equity, violence, authority, or gender. (Irreg.) [IV-WDC].
- RELS 3563 Islamic Theology 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. A close reading and discussion of primary texts (the Qur'an creeds, classical theological arguments, and modern writings) on major theological problems such as salvation, God, revelation, and religious pluralism. (Irreg.) [IV-WDC].

RELS 3593 Hermeneutics: Approaches to Interpreting the Bible and the Qur'an 3 Credit Hours

Prerequisite: Junior standing or permission of instructor. A historical and philosophical excursion through the landscape of hermeneutics—the theory of how to interpret texts, especially scriptures. We will explore how Christians, Muslims, and modern European philosophers have answered the question of where meaning comes from and how it should be discovered (or created), focusing on how to interpret the Bible and the Qur'an. (Sp)

RELS 3613 Roman Religion 3 Credit Hours

(Crosslisted with HIST 3613) Prerequisite: junior standing or permission of instructor. The course examines religious practices and beliefs in the Roman world from the founding of the Roman Republic to Late Antiquity, including conceptions of the divine, ways of worshiping the gods, civic and private religion, conceptions of the afterlife, magic, the mystery religions and salvation, and philosophical religions, through a survey of literary and archaeological evidence. (Irreg.)

RELS 3623 Paul and Christian Origins 3 Credit Hours

Prerequisite: junior standing or permission of the instructor. Explores who Paul claimed to be within his own Jewish and then Greco-Roman first-century context. Explores the letter-writing medium, his view of law, the role of women, resurrection and afterlife, and his goals for the church. (Irreg.)

RELS 3733 Tibetan Buddhism 3 Credit Hours

Prerequisite: junior standing or permission of instructor. A survey of Tibetan Buddhism, sometimes referred to as "Vajrayana" or "Tantric Buddhism," considered in relation to the socio-cultural history of late Medieval India. Themes include monastic institutions, reincarnate lama traditions, death and dying, and contemporary political issues. A major theme will be the "image of Tibet"—the mythologization of Tibet, the Tibetan people, and their culture in foreign imagination. (Irreg.) [IV-WDC].

RELS 3743 History of Daoist Traditions 3 Credit Hours

Prerequisite: junior standing or permission of instructor. Examines history, practices, and worldviews of the greater Daoist tradition as it developed and took shape over Chinese history focusing on the social and cultural forces that shaped its development, and the views, practices, and goals of specific Daoist schools. A study of the formation of Daoist identity and community, material culture, construction of sacred space, and self-cultivation techniques. (Irreg.) [IV-WDC].

RELS 3763 Chinese Religions 3 Credit Hours

Prerequisite: Junior standing or permission of instructor. This course introduces students to major religious traditions of China: Confucianism, Daoism, Buddhism, and popular religion. These religious traditions are considered in reference to the historical development of their respective worldviews, practices, and institutions as well as the manner in which they have mutually influenced each other over the course of that historical development. (Sp) [IV-WDC].

RELS 3813 Animals, Art, and Religion 3 Credit Hours

Prerequisite: Junior standing or permission of instructor. This interdisciplinary seminar analyzes recent work in animal studies that bridges religious studies, Black studies, Native American studies, feminist and queer theory, anthropology, performance studies, biology, and art history. We'll explore the significance of representational forms in shaping understandings of animality and religion across a variety of artistic practices, including film, theater, photography, poetry, sculpture, painting, and literature. (Irreg.)

RELS 3823 Queer Religion 3 Credit Hours

(Crosslisted with WGS and LGBT 3823) Prerequisite: Junior standing or permission of instructor. This interdisciplinary seminar engages a range of methods and theoretical approaches to queer studies and religion. The course explores questions including: What is the relationship between queer life and religious life? Is religion ever queer? Is queerness ever religious? What do scholars mean when they label religion (or other objects of study) as queer or queer-able? (Irreg.) [IV-WC].

RELS 3833 Archaeology of the Lands of the Bible 3 Credit Hours

(Crosslisted with HIST 3833) Prerequisite: junior standing. Examines the lands, cultures, and people associated with the Hebrew Bible and the New Testament through a chronological survey of archaeological evidence and investigates the relationship between archaeology and biblical texts. The course also investigates archaeological evidence for Jewish and Christian practices in late Roman Palestine as well as archaeological and architectural evidence for early Islamic Jerusalem. (Sp) [IV-WC].

RELS 3893 Greek Religion 3 Credit Hours

(Crosslisted with HIST 3893) Prerequisite: junior standing or permission of instructor. Examines the religious rituals, beliefs, and sacred sites of the ancient Greeks. Considers such topics as the relationship between myths and ritual, sacred time and space, concepts of the afterlife, and the role of religion in the family and city-state. (Irreg.)

RELS 3900 Special Topics 1-4 Credit Hours

1 to 4 hours. Prerequisite: junior standing or permission of instructor. May be repeated with change of topic; maximum credit nine hours. Topics in Religious Studies not accommodated by the existing curriculum. (Irreg.)

RELS 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Topics will cover materials not usually presented in the regular course offerings. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

RELS 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

RELS 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Topics will cover materials not usually presented in the regular offerings. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

RELS 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: 1113, Anthropology 1823, Philosophy 1203 or 2403; junior standing, and permission of instructor. May be repeated; maximum credit six hours. Through a written contract, independent study may be arranged for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or field projects. (F, Sp, Su)

RELS 4053 History of Magic 3 Credit Hours

(Crosslisted with HSTM 4053) Prerequisite: Junior standing or permission of instructor. This course is an investigation of the category of magic, magical practices, and the place of magic in society from antiquity to the modern world. (Irreg.) [IV-WC].

RELS 4323 Capstone 3 Credit Hours

Prerequisite: Major in Religious Studies and permission of instructor. Capstone provides the opportunity to integrate knowledge about the major and apply it to a project culminating in a presentation and senior paper. The project will develop a selected problem, issue, or controversy in religious studies. (F, Sp) [V].

RELS 4640 Field Study in Religious Studies 1-6 Credit Hours

(Slashlisted with RELS 5640) 1 to 6 hours. Prerequisite: junior standing and permission of instructor or RELS program. May be repeated with change of content/location; maximum credit 12 hours. Students participate in excavation and field study of material culture. Course combines lectures, lab, discussion, and/or research. The subject matter depends upon the specific summer session. No student may earn credit for both 4640 and 5640 for the same content/location. (Su)

RELS 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

RELS 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

RELS 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: 1113, Anthropology 1823, Philosophy 1203 or 2403; senior standing, and permission of instructor. May be repeated; maximum credit six hours. Through a written contract, independent study may be arranged for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or field projects. (F, Sp, Su)

RELS 5640 Field Study in Religious Studies 1-6 Credit Hours

(Slashlisted with RELS 4640) 1 to 6 hours. Prerequisite: graduate standing, permission of instructor or RELS program. May be repeated with a change of content/location; maximum credit twelve hours. Students will participate in excavation and field study of material, social, and visual culture. Combines lectures, lab, discussion, and/or research. The subject matter depends upon the specific summer session. No student may earn credit for both 4640 and 5640. (Su)

RELS 5960 Independent Study In Religious Studies 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and/or permission of instructor. May be repeated with change of content; maximum credit nine hours, maximum of six hours with one professor/instructor. Independent study/directed reading arranged between the professor and student on a special topic in religious studies, to give students the opportunity to complete intensive readings in field of study under direct guidance of the student's advisory committee. F, Sp, Su)

RELS 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

RELS 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

RELS 6960 Advanced Readings in Religious Studies 1-3 Credit Hours

1 To 3 Hours. Prerequisite: permission of instructor; student must be at PhD level. May be repeated with change of content; maximum credit nine hours. Advanced independent study/directed reading, arranged between the professor and student on a special topics in religious studies. Designed to give students the opportunity to complete intensive readings in field of study under direct guidance of his/her advisory committee. (F, Sp, Su)

RELS 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

RELS 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Religious Studies, B.A.

Minimum Total Credit Hours: 120

Major Hours: 30

Minimum Upper-Division Hours: 48

Upper-Division Hours Within Major: 15

Overall GPA - Combined and OU: 2.25

Major GPA - Combined and OU: 2.25

Program Code: B820

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- No course may be used more than once to satisfy major requirements, and courses counted for the major may not be used for other majors or minors, except for support requirements.
- The major requires at least 30 hours with at least 15 hours of upper-division courses.
- **A grade of C or better must be earned for each course fulfilling requirements for the Religious Studies degree.**

Code	Title	Credit Hours
Required Courses		
RELS 2653	Approaches to the Study of Religion	3
RELS 4323	Capstone	3
Major Electives		
	Choose 24 hours of major electives; at least 15 hours must be RELS courses, the remaining 9 hours may be chosen from the approved list of elective courses maintained by the department (p. 691)	24
Total Credit Hours		30

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gedned/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
	or EXPO 1213 Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
	Beginning Course	0-5
	Beginning Course, continued	0-5
	Intermediate Course (2000 level) ^{1,2}	0-3
<i>Mathematics (3 hours)</i>		
	Choose one course from the General Education Mathematics list	3
Core Area II: Natural Science (7 hours, including one laboratory component)		

Biological Science

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹ 3-4

Physical Science

Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹ 3-4

Core Area III: Social Science (6 hours)

P SC 1113 American Federal Government 3

Choose one course from the General Education Social Science list 3

Core Area IV: Arts and Humanities (18 hours)

Artistic Forms

Choose one course from the General Education Artistic Forms list 3

Western Culture

HIST 1483 United States to 1865 3
or HIST 1493 United States, 1865 to the Present

Choose one course from the General Education Western Culture list (excluding HIST 1483/1493) 3

World Culture

Choose one course from the General Education World Culture list 3

Additional Core IV Upper-Division Arts & Humanities courses

Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3} 3

Choose one course from Artistic Forms, Western Culture, or World Culture ^{1,3} 3

Core Area V: First Year Experience (3 hours)

Choose one course 3

Total Credit Hours 56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Religious Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Religious Studies major requirements.

Freshman

Credit Hours 15

Total Credit Hours 120

¹ If the Western Civilization & Culture Gen. Ed. requirement is satisfied by a major course, a lower-division elective is to be selected.

² If the World Culture Gen. Ed. requirement is satisfied by a major course, a lower-division elective is to be selected.

³ The Religious Studies major requires 24 hours of major electives: 15 hours must be RELS courses; the remaining 9 hours may be chosen from the list of approved electives maintained by the department. Since 15 upper-division hours are required within the major, some of the major elective courses listed in the semester grid must be selected at the upper-division level to ensure this requirement is met.

Religious Studies Major Elective Course Lists

- For the most current course lists, please contact the Department of Religious Studies
- At least 24 total major elective hours are required for the B.A. in Religious Studies.

Approved RELS Courses (at least 15 hours required)

Religious Studies, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N820

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Religious Studies.

Required Courses

Students must successfully complete at least 15 hours of coursework, with at least 12 hours in Religious Studies, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
	Choose 12 hours of RELS courses, 9 hours of which must be upper division	12
	Choose 3 hours from the acceptable elective course list maintained by the department (p. 691)	3
Total Credit Hours		15

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Asian Religions, Undergraduate Certificate

Reserve Officers Training Corps

The Reserve Officers' Training Corps is a group of college and University-based officer training programs for training commissioned officers of the United States Armed Forces. While ROTC graduate officers serve in all branches of the U.S. military, the U.S. Marine Corps and the U.S. Coast Guard do not have their own respective ROTC programs but graduates of Naval ROTC programs have the option to serve as officers in the Marine Corps contingent on meeting Marine Corps requirements.

Commissioning opportunities in the Air Force, Army, Marines, Navy at the University of Oklahoma:

- Air Force ROTC - Aerospace Studies (p. 694)
 - Aerospace Studies, Minor (p. 696)
- Army ROTC - Military Science (p. 696)
 - Military Science, Minor (p. 698)
- Naval ROTC - Naval Science (p. 699)
 - Naval Science, Minor (p. 701)

Air Force ROTC - Aerospace Studies

Maj Aaron T. Ashley, U.S. Air Force, Assistant Professor of Aerospace Studies

General Information

For over 60 years, some of the best and brightest from the University of Oklahoma (OU) Detachment 675 have served their country as pilots, navigators, space operations officers, engineers, doctors, nurses, mathematicians, communications officers, acquisition managers, and a host of other occupations. Today, that tradition continues for the cadets at the Air Force Reserve Officer Training Corps (Air Force ROTC) Detachment 675 on the Norman campus.

Air Force ROTC offers men and women the opportunity to earn a commission as an Air Force or Space Force officer while they complete requirements for their first bachelor's degree. Interested students may join Air Force ROTC during any semester in their first year of college and during the Fall of their second year of college without any obligation or

commitment. OU students completing the entire program will also earn a minor in Aerospace Studies.

Air Force ROTC is the largest and oldest source of commissioned officers for the U.S. Air Force. Air Force ROTC's stated mission is to "develop premier leaders of character for tomorrow's Air Force." Air Force ROTC units are located on 140 college and university campuses with 1,000 additional institutions of higher learning participating in cross-town agreements that allow their students to attend Air Force ROTC classes at a nearby "host" college or university.

Anyone interested in a challenging and rewarding opportunities to study and work with some of our nation's best women and men should contact the Recruiting Officer at afrotc@ou.edu or call us at (405) 325-3211. You may also visit our web page.

Commissioning Requirements Through Air Force ROTC

All requirements must be met for a degree according to the University of Oklahoma, as well as completion of certain courses required by the Department of the Air Force.

Air Force ROTC Benefits

Air Force ROTC can help students with the high cost of earning a college degree. The Department of the Air Force also offers a competitive benefits package as compared to other career opportunities upon completion of an undergraduate or graduate degree. In addition to these benefits, participants appreciate the team spirit that comes with being a member of Air Force ROTC, and enjoy social and extracurricular activities.

Scholarships

High School Seniors or Graduates

Competitive scholarships are available to high school seniors and high school graduates not enrolled full-time in college. Although the Department of the Air Force needs engineering, mathematics, computer science, meteorology, physics, language and nursing majors, many scholarships are also available to those in non-technical degree programs including world languages. Students must apply for scholarships online.

In-College Students

Air Force ROTC awards partial and full tuition scholarships available for qualified applicants. For more information and an on-line application visit the Air Force ROTC website. Along with tuition money, scholarship recipients receive a textbook allowance each semester and a monthly living expenses stipend during the academic year.

Minor

OU students who complete the entire program will earn an Aerospace Studies Minor (p. 696).

Courses

AERO 1011 Introduction to the Department of the Air Force - Heritage and Values 1 Credit Hour

Prerequisite: concurrent enrollment in AERO 1300. This course provides an introduction to the Air and Space Forces, hopefully encouraging students to pursue an AF career. The course also lays the foundation for becoming an Air or Space professional by outlining our heritage and values. As a foundational course, AERO 1011 also provides a historical perspective with lessons on war, AF operations, and principles of airpower. (F)

AERO 1021 The Air Force Today 1 Credit Hour

Prerequisite: departmental permission; concurrent enrollment in 1300. A study of aerospace defense, missile defense, general purpose forces and aerospace support forces. The mission, resources and operation of tactical air forces, with special attention to limited war; and a review of Army, Navy and Marine general purpose forces. (Sp)

AERO 1300 Leadership Laboratory 0 Credit Hours

Prerequisite: concurrent enrollment in AERO 1011, 1021, 2011, 2021, 3013, 3023, 4013 or 4023 or permission. Designed to introduce the student to the customs and courtesies associated with the Air Force. Also provides a practicum for the initial development of leadership and command abilities. (F, Sp)

AERO 2011 Team and Leadership Fundamentals I 1 Credit Hour

Prerequisite: Corequisite: AERO 1300. This course is designed to provide a fundamental understanding of both leadership and team building. It is imperative that students are taught from the beginning that there are many layers to leadership, including listening, understanding themselves, being a good follower and problem solving efficiently. Students should demonstrate basic verbal and written communication skills. (F)

AERO 2021 Team and Leadership Fundamentals II 1 Credit Hour

Prerequisite: Corequisite: AERO 1300. This course is designed to continue providing a fundamental understanding of both leadership and team building. It is imperative that students are taught from the beginning that there are many layers to leadership, including listening, understanding themselves, being a good follower and problem solving efficiently. Students should demonstrate basic verbal and written communication skills. (Sp)

AERO 3013 Air Force Leading People and Effective Communication I 3 Credit Hours

Prerequisite: Departmental Permission; Corequisite: AERO 1300. This course is designed to build on the leadership fundamentals taught in AERO 2021. The students will have the opportunity to utilize their skills as they begin more of a leadership role in the detachment. The goal is for students to have a more in-depth understanding of how to effectively lead people. Concurrent enrollment in AERO 1300 is required. (F)

AERO 3023 Air Force Leading People and Effective Communication 2 3 Credit Hours

Prerequisite: AERO 3013 or Departmental Permission; Corequisite: AERO 1300. This course is designed to build on the leadership fundamentals taught in AERO 3013. The students will have the opportunity to utilize their skills as they begin more of a leadership role in the detachment. The goal is for students to have a more in-depth understanding of how to effectively lead people. Concurrent enrollment in AERO 1300 is required. (Sp)

AERO 4013 American National Security I 3 Credit Hours

Prerequisite: 3023 or departmental permission. Conceptual study of the U.S. national security policy examining the formulation, organization and implementation of national security; the context of national security; the evolution of strategy; and the management of conflict. Included is a block of instruction on the military justice system. Concurrent enrollment in 4100 is required. (F)

AERO 4023 American National Security II 3 Credit Hours

Prerequisite: 4013 or departmental permission. Examines U.S. national security policy in the international setting; arms control and peacekeeping efforts; and civil-military interaction. Includes a study of the military profession and officership. Designed to provide future Air Force officers with a background in the profession and U.S. national security policy so that they can function effectively in today's Air Force. Concurrent enrollment in 4100 is required. (Sp)

Aerospace Studies, Minor

Minimum Total Credit Hours: 16

Minimum Upper-Division Hours: 12

Program Code: N013

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Both two and four-year Air Force ROTC programs are offered.

Students who elect not to participate in the General Military Course may substitute a five-week summer field training period for this requirement.

Four-year cadets participate in a four-week training period during the summer between their sophomore and junior years.

Required Courses

Code	Title	Credit Hours

AERO 4023	American National Security II	3
Total Credit Hours		16

Minors are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Army ROTC - Military Science

Lieutenant Colonel Kevin Wolf, Field Artillery, U.S. Army, Professor and Department Chair

General Information

The training goals of the OU Army ROTC are to develop cadets mentally, physically, and scholastically. The course focuses on developing basic soldier skills, leadership qualities, physical fitness, and officership. The intent of the program is to prepare college-age men and women to lead American Soldiers in armed conflict. Upon graduation those who complete their Military Science and degree requirements will be commissioned as second lieutenants and serve as officers in either the Active Army, Army National Guard or Army Reserve.

Since Army ROTC is a university elective course, enrollment into Army ROTC can be done online or through your OU academic advisor **after** being accepted into The University of Oklahoma.

Contact Army ROTC for more information concerning requirements and enrollment..

Minor in Military Science

Cadets cannot major in Military Science, but have the option of adding the Minor in Military Science (p. 698) to their degree. To enroll in this option students should see their academic counselor.

Green to Gold

The Green to Gold program seeks talented young enlisted soldiers who have decided to leave, or are considering leaving, active duty to attend college. Quality enlisted soldiers with officer potential who have served at least two years on active duty are allowed to voluntarily request discharge from active duty, and enroll in Army ROTC to earn baccalaureate degrees and commissions as Second Lieutenants.

Critical Language Incentive Program

Cadets studying any of 70 languages designated by the Department of the Army as "critical" can receive up to \$2,500 each year for receiving passing grades. Current languages eligible for the bonus pay include Arabic, Chinese, Japanese, Korean, Pashto, Persian, Portuguese, Russian and over 60 more. This program is eligible to Basic Course and Advanced Course cadets. To apply, students must submit a proposal to the Professor of Military Science at the beginning of the semester. Bonuses are paid at the end of the semester in which a successful grade was achieved.

Ranger Challenge

Ranger Challenge is the varsity sport of Army ROTC. Each year students compete for a spot on an eight-man team to compete against other colleges in a series of military events. Events include a medical assault course, grenade assault course, one rope bridge, assembly/dis-assembly of an M16 rifle, obstacle course, improvised raft course, and a 10k ruck march. Try-outs are rigorous, and the training requires a commitment of additional time and dedication. Winners of regional competitions go on to

compete at the national level against ROTC departments from across the country.

Summer Training Opportunities

Each summer selected students who are enrolled in Military Science have the opportunity to attend Airborne, Air Assault, Mountain Warfare training, or Cadet Troop Leader Training. These courses are offered to cadets on a voluntary and limited basis. Unlike CIET and CLC, which are specifically for ROTC cadets, these are regular US Army courses and cadets attend right along side current Army soldiers and officers.

Simultaneous Membership Program

The Simultaneous Membership Program (SMP) allows enlisted members of the National Guard and Army Reserve to enroll in ROTC courses as a means of earning an officer's commission. While in the SMP students continue to drill with their current unit while taking Military Science courses, but are given the rank of cadet, are placed in officer trainee positions within their units, receive E-5 drill pay, and are non-deployable for as long as they are in school. SMP cadets receive all the tuition benefits available from the National Guard or Army Reserve in addition to ROTC benefits, such as the monthly stipend and scholarship opportunities. Upon graduation SMP participants have the option of serving on Active Duty, or part-time in the National Guard or Army Reserves.

SMP Scholarship Opportunities

Students currently serving (or soon enlisting) in the Army National Guard or Army Reserves can apply for the Dedicated Reserve component scholarships for either the National Guard or US Army Reserves. With a Dedicated Scholarship Reservists and Guardsmen continue to drill with their current unit while enrolled in Military Science, and receive National Guard or Army Reserve education benefits in addition to the scholarship benefits listed above. Please speak to a scholarship and enrollment officer for full details. Upon graduation, DED scholarship winners will not be considered for Active Duty appointments, and serve their military commitment with part-time service as officers in the Army National Guard or Army Reserves.

SMP Non-Scholarship Opportunities

Eligible students, who do not wish to obligate their military career to a Reserve component, may compete to serve Active Duty upon commissioning. This opportunity will include a promotion to E-5 and a monthly ROTC stipend. Students may also be eligible for any benefits earned; Montgomery GI Bill, GI Bill Kicker, or Post 9-11 GI Bill¹ Benefits.

Campus-Based Scholarship Program

Campus-based scholarships are available to eligible students at the University of Oklahoma and are merit based; awarded to students that are enrolled in the Army ROTC Program and apply for a scholarship. These cadets prove themselves through their moral character, college GPA, leadership potential, and PT test scores. Application can be made by contacting the Military Science Department.

High School Scholarship Program

The High School Scholarship application process is for high school students planning on attending a four-year college program. Contact your high school academic advisor or campus Military Science department for more information.

Financial Assistance

All students enrolled in Military Science are furnished with necessary military science textbooks, equipment and uniforms at no cost. All advanced course students and scholarship winners are paid a monthly stipend. The OU Army ROTC can provide tuition assistance each year based on merit and need. There are over a dozen other military scholarships and awards that students may compete for each year. Award deadlines and requirements vary and require current enrollment in Military Science classes.

Veterans

Qualified veterans may receive Basic Course credit enabling them to complete Army commissioning requirements in two years in the Advanced Course. Veterans receive the same benefits as other students in addition to their GI Bill and VA benefits. Veterans, as well as current Army Reserve and National Guard soldier/students, are also eligible to compete for scholarships.

Medical/Pre-Med Students

Army ROTC provides a pathway to becoming an Army doctor (including dentists and veterinarians) in specialties ranging from Anesthesiology and Cardiology to Radiology and Vascular Surgery. Cadets with pre-med majors receive the same training—with the same requirements—as every other cadet while they complete ROTC. Upon graduation they are commissioned as second lieutenants, but instead of immediately beginning their officer service, cadets who are accepted into a medical school may delay their military obligation until completion of the medical training, at which time they enter service as officers in the Army Medical (Dental, or Veterinarian) Corps.

After completing a bachelor's degree, opportunities for fully-funded medical training are available under two programs: the Armed Forces Health Professions Scholarship Program (HPSP), and the Uniformed Services University of the Health Sciences (USUHS). The HPSP scholarship can be used at any accredited medical school in the United States, and includes full tuition and a stipend of over \$2000 per month. USUHS is a DOD medical school located in Bethesda, MD, and offers free tuition plus second lieutenant pay, benefits and allowances for all four years of school.

¹ GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <http://www.benefits.va.gov/gibill>.

Courses

M S 1011 Military Conditioning 1 Credit Hour

A physical conditioning course using exercises developed for use by the US Army and classroom instruction. This is a progressive program of exercise that promotes muscular strength and endurance, cardio-respiratory endurance, flexibility, and a healthy body fat content. Classroom instruction includes nutrition and the aspects of physical fitness in accordance with military service. (F, Sp, Su)

M S 1113 Introduction to Leadership I 3 Credit Hours

Introduction to the organization of the US Army and the ROTC program. Overview of leadership principles, problem solving, military fitness, and effective communication. Introduces small unit tactics, map reading, land navigation, and the principles of officership. Laboratory (F)

M S 1213 Adaptive Leadership and Professional Competence 3 Credit Hours

Prerequisite: MS 1113 or department permission. Introduces students to the personal challenges and competencies that are critical for adaptive leadership. Students learn the basics of the communications process and the importance for leaders to develop the essential skills to effectively communicate in the Army. Students will examine the Army Profession and what it means to be a professional in the U.S. Army. Laboratory. (Sp)

M S 2323 Foundations of Leadership I 3 Credit Hours

Prerequisite: M S 1113 and M S 1213; or permission of the department. Examines the challenges of leading tactical teams in the complex Contemporary Operating Environment. Highlights dimensions of terrain analysis, patrolling, and operation orders. Further study of the theoretical basis of the Army leadership framework. Covers troop leading procedures, Army problem solving, land navigation, squad organization, fundamentals of the offense and defense, and battle drills. Laboratory (F)

M S 2423 Foundations of Leadership II 3 Credit Hours

Prerequisite: M S 2323, or permission of department. Develops knowledge, understanding and skill in land navigation, military operations, leadership and basic tactics. Instruction focuses on applying leadership and management theory to the area of organization effectiveness. Laboratory (Sp)

M S 3123 Adaptive Team Leadership 3 Credit Hours

Prerequisite: M S 2423. Uses increasingly intense situational leadership challenges to build skill in leading tactical operations. Exercises focus on platoon level tactics in combat, stability, and support operations. Students conduct military briefings and develop proficiency in preparing orders, decision making, and building effective teams. Laboratory (F)

M S 3223 Applied Team Leadership 3 Credit Hours

Prerequisite: M S 3123. Theory, methods and principles for understanding leadership and behavior in groups. Analysis of the leader's role in directing and coordinating the efforts of individuals and small units in the execution of offensive and defensive tactical missions, to include communication systems, internal defense/development and the military team; intelligence gathering, and the role of the various branches of the Army. Laboratory (Sp)

M S 3413 United States Military History and Heritage: 1607-Present 3 Credit Hours

Prerequisite: M S 1113, M S 1213, and ENGL/EXPO 1213; or Departmental Permission. This course will develop a student's awareness of the relationship of the U.S. military to American society. It will cover the evolution of war and strategy, the progression of military professionalism, the history and purpose of joint operations, as well as the role of history and heritage in understanding the US Army as a profession. Commissioning requirement for Army ROTC. (F, Sp)

M S 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisite: ENGL 1113 or equivalent, and permission of instructor; May be repeated, maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

M S 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated, maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

M S 4213 Seminar in Leadership and Management 3 Credit Hours

Prerequisite: advanced standing in military science. Analysis of selected leadership and management problems involved in staff organization and function, and military justice. Application of leadership principles, stressing responsibilities of the leader, and affording experience through practical exercises. Obligations and responsibilities of an officer on active duty; chain of command; and officer-enlisted relationships. Laboratory (Sp)

M S 4223 Mission Command and the Company Grade Officer 3 Credit Hours

Prerequisite: M S 4123. Introduces students to the challenges of mission command and gaining an understanding of the Army Profession. Students learn the basics of what mission command is and how it is used in Army operations. Students will examine the Army Profession and what it means to be a professional in the U.S. Army. (Sp)

M S 4510 Seminar in Military Leadership 1-3 Credit Hours

1 to 3 hours. Prerequisite: junior standing and permission of department. May be repeated with change of content; maximum credit nine hours. Students will learn various theories of leadership and organizational culture and gain practical experience in the application of those theories within a peer leadership setting. Additionally, the course may include elements of military history, social theory, ethics, and military law. (Irreg.)

M S 4610 Comparative Military History 1-3 Credit Hours

1 to 3 hours. Prerequisite: 3610 or permission of department chair. May be repeated; maximum credit three hours. Students will examine events leading to national and world crisis. Focus points will be socio-economic as well as goals and personalities of political and military leaders. (F, Sp)

Military Science, Minor

Minimum Total Credit Hours: 15

Program Code: N700

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Courses may not be taken Pass/No Pass.

All courses applied toward the Minor in Military Science must be completed with at least a C grade.

To earn a Minor in Military Science a student must complete a minimum of 15 credits, including all of the following:

- The Basic Course (or have placement credit, such as having completed Basic Training)
- The Advanced Course
- 3 hours of Military History.

Required Courses

Code	Title	Credit Hours
Basic Course Requirements		
All of the following must be completed (placement credit may be awarded for prior military service, Basic Training, or high school JROTC):		
M S 1113	Introduction to Leadership I	
M S 1213	Adaptive Leadership and Professional Competence	
M S 2323	Foundations of Leadership I	
M S 2423	Foundations of Leadership II	
Advanced Course Requirements		
M S 3123	Adaptive Team Leadership	3
M S 3223	Applied Team Leadership	3
M S 4213	Seminar in Leadership and Management	3
M S 4223	Mission Command and the Company Grade Officer	3
Military History		
Choose 3 hours from a list of history courses within the department; the following is recommended:		3
HIST 4453	American Military History 1860-Present	
Total Credit Hours		15

Minors are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Naval ROTC - Naval Science

Captain Paul Young, U.S. Navy, Professor and Chair
290 West Brooks St., Room 12
Norman, OK 73019-4102
Phone: (405) 325-2021
FAX: (405) 325-7639
navalrotc@ou.edu
nrotc.ou.edu

The Naval ROTC is a highly competitive program maintained for one purpose — to educate and train qualified men and women for service as commissioned officers in the Marine Corps and in the Navy as unrestricted line officers. The officer's commission is earned by the successful completion of degree requirements in the student's chosen academic field of study, and the completion of the naval science curriculum. The increasingly technical complexion of today's military prompts many NROTC midshipmen to enroll in demanding majors that will place them at the forefront of tomorrow's technology.

Naval Science courses are open to all accepted University of Oklahoma students. The courses are accredited. The Naval ROTC program consists of specific naval technical courses, University courses, and leadership development seminars. No military obligation is incurred until a student accepts a scholarship. In addition to their diploma at graduation, a NROTC graduate is commissioned and placed on active duty as a leader, as well as the exciting opportunity to proudly serve our country as a naval aviator, submarine officer, surface warfare officer, special warfare officer (SEAL), explosive ordnance disposal officer or Marine officer.

Students selected to participate in The University of Oklahoma's NROTC Program make their own arrangements for college enrollment and room and board. They take the normal course load required by the college or university for degree completion as well as courses required for participation in NROTC. Additionally, all midshipmen are required to follow specific academic guidelines. Contact Naval ROTC for information concerning specific requirements.

Naval Science Minor

Students have the option of adding the Naval Science Minor (p. 701) to their degree, and should consult their academic counselor to enroll.

Scholarships

OU NROTC offers opportunities for students to earn a commission in a variety of ways; NROTC scholarships, college program and enlisted commissioning programs. Visit NROTC for more information on scholarship application requirements. Selected applicants for the NROTC Scholarship Program are awarded scholarships through a highly competitive national selection process. Scholarship selectees receive full tuition, books, educational fees at the University of Oklahoma, and a monthly subsistence allowance.

High School Seniors - 4 Year Scholarship Program

Qualified high school seniors can elect to apply for a 4-Year Scholarship that will lead them to a career as a naval officer in the United States Navy or Marine Corps.

Available Program for College Students

Students enrolled at The University of Oklahoma who wish to pursue a Navy or Marine Corps career may enroll into NROTC as a college program student. College program students who perform well academically, physically, and professionally may be awarded with a full scholarship that will cover his/ her remaining semesters. College program students who are awarded with the scholarship will also receive a monthly stipend and a stipend for textbooks every semester.

College Program

ROTC College Program

The College Program is for incoming freshman or sophomore students who desire a commission in the United States Navy or Marine Corps who have not been selected for the NROTC National Scholarship. Students accepted to the NROTC College Program are required to participate in all NROTC events and activities to be eligible for NROTC benefits. Students can apply for a scholarship at the end of the freshman and sophomore years. All NROTC College Program students are eligible for IN-STATE tuition.

Non-Affiliated Students

Non-Affiliated Scholarships are for freshman or sophomore students who desire a commission in the United States Navy or Marine Corps but have not previously participated in NROTC. Students selected for two- or three-year NROTC scholarship receive the associated scholarship benefits going forward and matriculate toward a commission in the United States Navy or Marine Corps. Participation in all NROTC events and activities is required to maintain scholarship. Additionally, students are required to take the applicable Naval Science classes in addition to your normal classes.

Visit NROTC Scholarships for additional information is available.

Financial Assistance

Regardless of financial situation, it is highly recommended that students submit a Free Application for Federal Student Aid (FAFSA). Admission to an educational institution is not needed to submit a FAFSA. A Student Aid Report (SAR) will then be sent, which will list for what aid the student is qualified. If OU is listed on the FAFSA, the OU Financial Aid Services office will also receive the Student Aid Report.

MECEP – Marine Enlisted Commissioning Education Program

The Marine Enlisted Commissioning Education Program (MECEP) is an enlisted to officer commissioning program designed to provide outstanding enlisted Marines the opportunity to serve as Marine Corps officers. Marines selected for MECEP who successfully complete Officer Candidates School and graduate with a Bachelor's Degree will be commissioned a Second Lieutenant in the U.S. Marine Corps.

STA-21 - Seaman to Admiral Program

STA-21 is designed to provide an opportunity for Navy enlisted personnel who possess outstanding qualifications and motivation for a naval career to obtain a commission. The STA-21 Program will keep all participants on active duty at their current enlisted pay grade. This means they will receive all the pay, allowances, benefits, and privileges they currently enjoy and will still be eligible for enlisted advancement while in the program.

Activities

Midshipmen students, on a voluntary basis, may participate in a diversified field of unit-sponsored activities. These include precision drill teams, color guard, rifle and pistol team, intramural athletics, endurance team, unit publications such as the "Flaghoist," midshipmen social and professional organizations, and fleet orientation trips. Participation in extracurricular activities is not limited solely to those areas sponsored by the Naval ROTC unit. Midshipmen are encouraged to participate in a broad spectrum of University activities.

Summer Training

Summer training is provided to midshipmen in fleet units worldwide. The training is for the individual's introduction and participation in fleet operations. Additionally, such training assists the midshipmen in requesting a military specialty prior to commissioning. In the summer prior to starting college, scholarship candidates and selected College Program candidates will attend the NROTC Indoctrination Program and Naval Station Great Lakes. College Program students that do not attend prior to their Freshman year will attend between their Freshman and Sophomore year.

Scholarship students, between their freshman and sophomore years, participate in a four-week career orientation program in which a week is spent each with Naval Aviation, Submarine Force, Surface Force, and the Marine Corps. Between their sophomore and junior years, Midshipmen attend a four-week cruise on various commands throughout the fleet serving in the capacity of enlisted sailors. During the period between the junior and senior years, Navy option midshipmen participate in a cruise on maritime platforms in various areas of the world serving in the capacity of junior officers. Additionally, Navy option midshipman will attend Sea Trials, a professional and military training and evaluation. For the Marine Corps option midshipmen, six weeks of training is conducted

at Quantico, Virginia. Funds are provided to the individual for summer training.

Career Opportunities

The qualified young men and women who complete the Naval ROTC Program at the University will not have to worry about seeking employment after graduation. Upon graduation, midshipmen are commissioned as officers in either the Navy or Marine Corps, and during their final semester are allowed to choose their military specialty from among those fields for which they are qualified. Navy ensigns can select a career in aviation, surface warfare, submarines, explosive ordnance disposal or special warfare. The Marine Corps second lieutenants have a choice between aviation, cyber and ground fields, including infantry, artillery, armor, communication-electronics, combat engineering, intelligence, air control, computer systems, logistics and manpower.

Courses

N S 0110 Leadership Development 0 Credit Hours

Designed to expose NROTC students to the professional development of a military officer. This is accomplished through military drill, guest lecturers, command situation and role enactment training. The goal is to better prepare young men and women to serve as naval officers in various fleet assignments. (F, Sp)

N S 1123 Introduction to Naval Science 3 Credit Hours

Presents an overview of the mission and organization of the Department of Defense with particular emphasis on the Naval Service. Among the topics covered are military law, leadership fundamentals, naval heritage, naval customs and traditions, and career opportunities for Navy and Marine Corps officers. The course is designed for freshmen enrolled in NROTC but is open to all interested students. (F)

N S 1133 Sea Power And Maritime Affairs 3 Credit Hours

Sea Power And Maritime Affairs. Traces The Development Of Sea Power And Analyzes Its Influence On Maritime Strategy Through The Study Of Major Events In Naval History. Students Will Develop An Appreciation For The Overlapping Roles That National Interests, Technical Advances, Maritime Strategists, And Individual Leaders Play In The Formulation Of U.S. Security Strategy And Policy. (Sp)

N S 2113 Leadership and Management 3 Credit Hours

Designed to teach introductory-level leadership and management concepts and applications to sophomore-level Naval ROTC midshipmen and all other interested University students. (F)

N S 2133 Navigation 3 Credit Hours

Introduction to marine navigation, including both traditional and electronic navigation theory and practical applications. Includes concepts in navigational safety, rules of the nautical road, and an introduction to relative motion. (Sp)

N S 3223 Naval Ship Systems I: Naval Engineering Systems 3 Credit Hours

Prerequisite: N S 1123 or permission of instructor. Detailed study of the engineering principles that define Naval Ship Systems. Course focus is on the application of electrical, mechanical, and computer engineering while introducing concepts in ship design, hydrodynamics, and the steam cycle. (F)

N S 3333 Evolution of Warfare 3 Credit Hours

Prerequisite: ENGL 1213 or equivalent. Examines the evolution of warfare throughout history by focusing on warfare concepts, historical case studies, common threads, themes, military leadership, and the relationship between the elements of national power and the strategic, operational, tactical, and technical aspects of war. (Sp)

N S 3433 Naval Ship Systems II - Naval Weapons Systems 3 Credit Hours

Prerequisite: N S 3223 or permission of instructor. Outlines the engineering principles of weapons systems. Course focus is on the application of radar, sonar, and ballistics while introducing the concept of weapons employment through the detect to engage sequence. (Sp)

N S 4433 Naval Operations and Seamanship 3 Credit Hours

Prerequisite: 2133 or permission of instructor. Advanced navigation concepts, including applications to shipboard evolutions and operations. Overview of operational security and tactical communications. Introduction to the law of the sea and international maritime law, naval warfare doctrine and joint operations. (F)

N S 4443 Fundamentals of Maneuver Warfare 3 Credit Hours

Prerequisite: ENGL 1213. To provide students with the necessary knowledge to understand the fundamentals of maneuver warfare and appreciate the complexities and dynamics posed by the art and science of warfare. (Sp)

N S 4633 Naval Leadership and Ethics 3 Credit Hours

Prerequisite: Junior standing or permission of instructor. An examination of leadership, ethical concepts, and management of naval (Navy and Marine Corps) resources. Objective is to learn the leadership skills, ethical expectations, and management techniques necessary to succeed as a naval officer in leading people and using limited resources in the most efficient manner. Encompasses leadership and ethics readings, and discussion of the uniform code of military justice. (F, Sp)

Naval Science, Minor

Minimum Total Credit Hours: 18 (Marine Option) or 24 (Naval Option)

Program Code: N737

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Courses may not be taken Pass/No Pass.

The minor is open to all students, not just those participating in the NROTC program.

General Information

Social work education has been a part of the curriculum at the University of Oklahoma since 1917. A separate School of Social Work was established in 1935. The graduate program was fully accredited in 1957 and has maintained continuous accreditation. The school became the Anne and Henry Zarrow School of Social Work in 2009 and moved into its state of the art facility Anne and Henry Zarrow Hall in the fall of 2011.

Social work is a profession devoted to the enhancement of human well-being and to the alleviation of poverty and oppression. Social workers strive to promote the empowerment and well-being of individuals, families, communities, and organizations in an increasingly global society. The expansion of human service programs and areas of practice utilizing social work knowledge and skills has created a demand for professional social workers. Social work offers a challenging and exciting career for the individual who is motivated to help others and has a personal commitment to the advancement of social justice.

The school prepares practitioners who will use an integrated combination of theories, conceptual knowledge, values, and skills to serve diverse client and community systems. The undergraduate program and the foundation requirements of the graduate program are based on a generalist model that emphasizes skills, knowledge, and values basic to all social work practice.

The curriculum recognizes the importance of moving students forward through approaches to mastery and competence that instills within students the necessary attitudes, motivation, knowledge, and skills required for sound practice. The curriculum prepares students for life-long learning within specific domains of their own choosing. Each degree program anticipates student movement into particular domains formed by human need and social issues, social policies, systems of care, and particular organizations.

Programs & Facilities

Field Education Program

The Field Education program welcomes students to the practicum experience, prospective social work students, current students at the University of Oklahoma Anne & Henry Zarrow School of Social Work, or prospective Field Instructors. With a Field Education office on both the Norman and Tulsa campuses, placements are coordinated across Oklahoma in over 300 affiliated agencies offering students direct learning experiences with individuals, families, groups, and communities. Sites provide the supervision and resources needed to develop competent social workers.

Child Welfare Professional Enhancement Program

The Child Welfare Professional Enhancement Program (CWPEP) is a title IV-E partnership between the University of Oklahoma, The Oklahoma Department of Human Services, and the US Department of Health and Human Services Administration for Children and Families. The purpose of this partnership is to enhance and support Oklahoma's public child welfare workforce.

Knee Center for Strong Families

The Knee Center for Strong Families sponsors academic and community-oriented programs in the fields of social work, public health (including mental health), and fine arts in three core areas: Visiting lectureships, workshops, seminars, meetings of scholars, conferences, symposia, and forums; planning grants or "seed money" to develop programs that might have continuous funding from other sources; and underwriting research on the planning and development of educational programs to enhance family life in Oklahoma.

Center for Social Work in Healthcare

The Center for Social Work in Healthcare is dedicated to promoting and supporting the optimal use of the social work profession in health care settings, with an emphasis on primary health care settings. This is accomplished through the provision of educational opportunities and

supports to social work students who have demonstrated an interest in interdisciplinary practice in health care. The center supports and participates in Oklahoma projects and programs focused on improving primary and community health, and supporting the increased use of evidence based social work practice in health care. In addition, the Center provides technical assistance and resources to primary care practices that are interested in developing social work positions within their practices, or improving the use of social work in their interdisciplinary teams.

Continuing Education

The Anne and Henry Zarrow School of Social Work Program for Continuing Education seeks to provide high quality continuing education events to Oklahoma social workers. Events are held on both the Norman and Tulsa campuses as well as Northwest Oklahoma.

Haruv USA at OU-Tulsa

Haruv USA at the University of Oklahoma-Tulsa is a new venture bringing together the best of two worlds — the unique expertise and international leadership of the Haruv Institute paired with the research-based educational knowledge and expertise of OU-Tulsa and the Anne and Henry Zarrow School of Social Work. An initiative of the Charles and Lynn Schusterman Family Foundation, Haruv USA will focus on comprehensive, inter-professional education and training for students and professionals who touch the lives of children from a wide variety of settings, along with research for the identification, prevention, and treatment of child abuse and neglect, with an emphasis on underserved children and families.

Center for Child Welfare Training & Simulation

Operating within the University of Oklahoma Anne & Henry Zarrow School of Social Work, the Center for Child Welfare Training & Simulation is committed to supporting the highest quality training and professional development for the child welfare system of Oklahoma. The center utilizes the extensive resources at OU, faculty resources and professional partnerships to develop curricula, tools for evaluation, and consultation for workforce development. The center's mission is to prepare and support a highly skilled and stable workforce to ultimately advance the safety, permanency, and well-being of children in Oklahoma.

Scholarship and Financial Aid

The Anne and Henry Zarrow School of Social Work is dedicated to helping students fund their education by providing opportunities for internal (within the University) as well as external (outside of the University) scholarships.

OU also offers a wide variety of scholarships as does the College of Arts and Sciences. All financial need based scholarships for both undergraduate and graduate students are available through the Centralized Academic Scholarship Hub (CASH).

The School of Social Work provides a limited number of departmental scholarships to qualified students in the Social Work program. For graduate students and Tulsa undergraduate students, information about how to complete the online application is disseminated in the spring semester to both current students and new admits via email. Norman campus undergraduate students should apply through OU's Centralized Academic Scholarship Hub (CASH) for all departmental, college, and need based scholarships.

The school has a limited number of Graduate Research Assistant positions available that offer both a tuition waiver, a stipend, and health insurance. Information about how to apply for a GRA position is disseminated in the spring semester to both current students (via email) and new students (via acceptance packets) or as information becomes available.

OU Financial Aid Services administers federal, state, institutional and private aid programs.

The Child Welfare Professional Enhancement Program (CWPEP) is a stipend and tuition assistance program specifically designed to encourage future MSWs and BSWs to work in the child welfare field.

The Zarrow Mental Health Stipends support students in Masters level foundation and concentration year practicum in Tulsa.

The Center for Social Work in Healthcare provides stipends for students interested in a health-related practicum.

Leadership Education in Neuro-developmental and Related Disabilities (LEND) is a nationwide training program sponsored by the Maternal Child Health Bureau of the United States Department of Health and Human Services. In Oklahoma, LEND prepares graduate students for leadership roles as professionals with interdisciplinary skills to support community-based partnerships with professional colleagues, clients, and families.

Undergraduate Study

The Bachelor of Arts (p. 711) in Social Work program is designed to prepare social workers to assume entry-level professional roles in human and social service systems. In addition to the academic expectations, social work students are expected to demonstrate professional behavior which reflects a commitment to the ethics of the social work profession.

The role of the social worker involves helping people from a variety of backgrounds and with a range of problems, so it is important that the social work student not permit personal issues to interfere with this role and that the student have the emotional and psychological resources to render effective assistance to those in need.

Graduates of the baccalaureate program are eligible for membership in the National Association of Social Workers. They are also eligible to apply for advanced standing in the M.S.W. program at the University of Oklahoma or other graduate programs in social work. Following two years of supervised practice, they are eligible to apply for a license in the State of Oklahoma.

The School of Social Work fully subscribes to and is guided by the NASW Code of Ethics. Social work program applicants and students are expected to demonstrate professional behavior which reflects a commitment to the ethics of the social work profession as exemplified in the Code of Ethics. Behavior and statements contrary to these ethical principles may result in denial admission or review of continuance in the School's programs. Examples of behavior which warrant such denial or a review include, but are not limited to, derogatory oral and written statements towards other students, faculty, and/or persons from populations reflecting racial, ethnic, handicapped status, religious, socioeconomic, gender, and sexual orientation differences. Students are responsible for knowing and adhering to the NASW Code of Ethics. The most recent version can be read and downloaded from the internet through the national NASW website.

Additionally, the school publishes its own standards compatible with NASW in its Student Performance Policy (PDF).

Graduate Study Master of Social Work

The Master of Social Work degree (MSW) is designed to prepare students for advanced professional practice within an organizational context. The curriculum is an advanced integrative design that balances a broad skill base with the opportunity to specialize in the selectives that are offered. The MSW is offered in both Norman and Tulsa in both full-time and part-time format and an online format. Advanced Standing status at both campuses and online is available to students who have completed a bachelor's degree in social work from an accredited program within the past seven years and who meet additional criteria. The MSW offers a Thesis and a Non-Thesis track.

- Social Work, Master of Social Work (p. 713)
- Social Work: Advanced Standing, Master of Social Work (p. 714)

See MSW Admission Information for admission details, or contact ouswk-norman@ou.edu or ouswk-tulsa@ou.edu for more information.

Graduate Certificates

The Anne and Henry Zarrow School of Social Work offers a Graduate Certificate in Social Work with American Indians (p. 715). This is independent from the degree even though courses overlap. Certificates cannot be added post graduation. Typically obtaining a certificate does not add courses to your degree but rather specifies the electives taken.

Dual Degrees

Master of Social Work and Master of Public Health - The joint MSW-MPH program strengthens public health social work through coursework graduate social work students undertake in both programs.

Master of Social Work and Master of Arts in International Studies - The joint MSW-MAIS program prepares students for a globally integrated practice environment that addresses global social, political and economic justice issues, whether in the realm of international diplomacy, the international economy, humanitarian aid and economic development assistance, or international advocacy.

Courses

S WK 2113 Introduction to Social Work 3 Credit Hours

Prerequisite: sophomore or junior standing. Defines the profession of social work and describes its historical development. Provides foundation knowledge in social work values, professional ethics, and the history of social welfare and social services policy in the United States. (F, Sp)

S WK 2223 Statistics for Social Work 3 Credit Hours

Prerequisite: DMAT 0123, MATH 0123, or satisfactory score on math placement exam. Introduction to statistics and data analysis in social work and the helping professions. Covers descriptive statistics (univariate and bivariate), inferential statistics (estimation and significance tests) and data interpretation (causality and generalizability). (F, Sp, Su) [I-M].

S WK 2970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

- S WK 3003 Interviewing Skills for Generalist Practice 3 Credit Hours**
Prerequisite: majors only. Introduction to basic interviewing and communication skills utilized in culturally sensitive, generalist social work practice. Emphasis on the development of self-awareness and skill development and on providing both didactic and experiential learning. (F)
- S WK 3013 Professions in Social Work 3 Credit Hours**
Prerequisite: Junior standing. This course provides an overview of social work as a profession, including central concepts and theories, values and ethics and career pathways. The profession's historical development is included along with a focus on poverty and economic disparity, human rights and social justice, and human diversity. It provides an introduction to the generalist practice model across system levels. (Su)
- S WK 3103 Generalist Practice with Individuals and Families 3 Credit Hours**
Prerequisite: majors only. First of three generalist social work practice courses explicates a generalist perspective that focuses on the knowledge, values, skills, and techniques appropriate for engagement, assessment, intervention and evaluation with individuals and families. (F)
- S WK 3113 Generalist Practice with Families and Groups 3 Credit Hours**
Prerequisite: Junior standing and S WK 3103 or concurrent enrollment. The second of three generalist social work practice courses; explicates a generalist perspective that focuses on the knowledge, values, skills and techniques appropriate for engagement, assessment, intervention, and evaluation with families and small groups. (F, Sp)
- S WK 3233 Human Behavior: Individuals and Families 3 Credit Hours**
Prerequisite: majors only. Within a social systems framework and biopsychosocial perspective, students learn empirically based theories which deal with life-span development and family dynamics. This course provides a theoretical foundation for micro-level generalist practice. (F)
- S WK 3313 Social Welfare Policy: Analysis and Practice 3 Credit Hours**
Prerequisite: majors only. An undergraduate level historical and descriptive review of federal and state social welfare programming, introduction to social welfare policy analysis, and the role of the social work profession in affecting change in social welfare policy. (Sp)
- S WK 3323 Human Diversity and Social Justice 3 Credit Hours**
Prerequisite: majors only. Provides undergraduate students with social work knowledge of human diversity from a social justice perspective. Knowledge of diverse groups' norms/values, differential power, societal oppression, and transactions between and within social groups are emphasized. (F)
- S WK 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- S WK 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in regular coursework. (F, Sp, Su)
- S WK 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite; admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)
- S WK 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- S WK 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- S WK 4003 Forensic Social Work 3 Credit Hours**
(Slashlisted with S WK 5003) Prerequisite: Junior standing. This course provides an overview of forensic social work practice and theory. Additionally, it illustrates skills for working with diverse populations across the lifespan and across diverse settings, such as community, medical, school, child welfare, mental health and addictions, and juvenile and criminal justice settings. No student may earn credit for both 4003 and 5003. (Irreg.)
- S WK 4033 Trauma-Informed Practice in Child Welfare 3 Credit Hours**
(Slashlisted with S WK 5033) Prerequisite: Senior standing; Students who are being funded by the Child Welfare program are required to take this course. This course will provide a multi-dimensional exploration of trauma and the importance of trauma informed child welfare practice. Skill development focuses on building a strong knowledge base concerning trauma that will support ethical social work practice and an emphasis on strengths-based social work service delivery. This course also brings forward the concepts of trauma informed organizational practice. No student may earn credit for both 4033 and 5033. (Su)
- S WK 4053 Preventing and Treating Substance Use Disorders 3 Credit Hours**
(Slashlisted with S WK 5053) Prerequisite: Junior standing or permission of instructor. Students will be introduced to the fundamentals of the prevention and treatment of substance use disorders. Course emphasizes best practices in the areas of treatment and prevention of substance use disorders, and the strategic prevention framework. Cultural influences and issues important to special populations will be also reviewed. No student may earn credit for both 4053 and 5053. (Irreg.)
- S WK 4063 Social Work with Older Adults 3 Credit Hours**
(Slashlisted with S WK 5063) Prerequisite: Upper-division standing or permission of instructor. Focus is on issues of significance to social work or social welfare. This course focuses on the knowledge, skills and techniques appropriate for engagement, assessment, intervention and evaluation with older adults and their family caregivers. No student may earn credit for both 4063 and 5063. (Irreg.)
- S WK 4083 Undergraduate Social Work Research Methods I 3 Credit Hours**
Prerequisite: senior standing and S WK 2223 or equivalent. Introduction to the design and implementation of quantitative and qualitative research methods appropriate to social work practice evaluation and program evaluation. (F)
- S WK 4093 Undergraduate Social Work Research Methods II 3 Credit Hours**
Prerequisite: S WK 4083. Introduction to applied data analysis methods appropriate to research in social work practice evaluation and human services program evaluation. (Sp)

- S WK 4103 Generalist Practice with Organizations and Communities** **3 Credit Hours**
Prerequisite: S WK 3113; Majors only. Third of three methods courses in the social work practice sequence using a generalist model focuses on knowledge, values and skills requisite for social work practice with various client systems. Course emphasizes development of knowledge and skills specific for assessment and intervention with organizations and communities. (Sp)
- S WK 4163 Child Abuse and Neglect** **3 Credit Hours**
(Slashlisted with S WK 5163) Prerequisite: upper-division standing or permission of instructor. Introduction to the field of child abuse and neglect. Examines the history of the field, different forms of abuse and neglect, causative factors, abuse and neglect dynamics, treatment approaches, the social services system, and prevention strategies. No student may earn credit for both 4163 and 5163. (Irreg)
- S WK 4170 Special Topics in Social Work and Social Welfare** **2-3 Credit Hours**
(Slashlisted with S WK 5170) 2 to 3 hours. Prerequisite: upper-division standing or permission of director. May be repeated with change of content; maximum credit nine hours. Focus is on issues significant to social work or social welfare. No student may earn credit for both 4170 and 5170 on the same topic. (Irreg.)
- S WK 4313 Practicum Seminar I** **3 Credit Hours**
Prerequisite: senior standing, majors only; corequisite: 4315. The integration of classroom course content with the learning of practice skills in the field setting. (F, Sp, Su)
- S WK 4315 Practicum I** **5 Credit Hours**
Prerequisite: majors only, senior standing; corequisite: S WK 4313. A structured, educationally directed experience in social work practice, provided under the supervision of a qualified social worker as practicum instructor. (F, Sp, Su)
- S WK 4323 Practicum Seminar II** **3 Credit Hours**
Prerequisite: Social Work BASW majors only; S WK 4313; senior standing; corequisite: S WK 4325. This is the Capstone course for the BASW. The purpose of this course is for students to demonstrate application of major social work content including social work research, social welfare policy, human behavior in the social environment, human diversity, and social work practice in the context of a field practicum setting. (F, Sp, Su)
- S WK 4325 Practicum II** **5 Credit Hours**
Prerequisite: S WK 4315 and S WK 4313; majors only; senior standing; permission of instructor; corequisite: S WK 4323. A continuation of the educational experience in S WK 4315. In combination with Practicum Seminar II (S WK 4323), this course comprises the General Education capstone experience in social work. (F, Sp, Su) [V].
- S WK 4573 Disaster Response in Japan: A Human Rights Approach** **3 Credit Hours**
(Slashlisted with S WK 5573) Prerequisite: Junior standing or instructor permission. This course provides experiences and knowledge of how human advocacy services are provided to victims of disasters in Japan, man-made or natural. This is the study abroad program which was cultivated within the frameworks of Experiential and Transformative Learning theories, specifically for students to gain knowledge of and experience in global human rights aspects in social work. No student may earn credit for both 4573 and 5573. (Sp) [IV-WDC].
- S WK 4753 Child and Adolescent Psychopathology: Assessment and Treatment** **3 Credit Hours**
(Slashlisted with S WK 5753) Prerequisite: Junior standing or permission of instructor. Provides an overview of clinical information necessary to effectively assess, diagnose and provide social work treatment for children and adolescents in need of mental health services. The course incorporates both person-in-environment and strengths perspective in the understanding of how to serve children and families dealing with childhood disorders. No student may earn credit for both 4753 and 5753. (Irreg.)
- S WK 4960 Directed Readings** **1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- S WK 4970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- S WK 4990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be covered; permission of instructor and undergraduate program coordinator. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field practicum projects. (F, Sp, Su)
- S WK 5003 Forensic Social Work** **3 Credit Hours**
(Slashlisted with S WK 4003) Prerequisite: Graduate standing. This course provides an overview of forensic social work practice and theory. It illustrates skills for working with diverse populations across the lifespan and across diverse settings, such as community, medical, school, child welfare, mental health and addictions, and juvenile and criminal justice settings. No student may earn credit for both 4003 and 5003. (Irreg.)
- S WK 5033 Trauma-Informed Practice in Child Welfare** **3 Credit Hours**
(Slashlisted with S WK 4033) Prerequisite: Graduate standing; Students funded by the Child Welfare program are required to take this course. This course will provide a multi-dimensional exploration of trauma and the importance of trauma-informed child welfare practice. Skill development focuses on building a strong knowledge base concerning trauma that will support ethical social work practice and an emphasis on strengths-based social work service delivery. The course also brings forward the concepts of trauma-informed organizational practice. No student may earn credit for both 4033 and 5033. (Su)
- S WK 5043 Introduction to Advanced Integrative Practice** **3 Credit Hours**
Prerequisite: Requires admission to MSW Advanced Standing program. This seminar course is designed to enhance the preparation of Advanced Standing students for graduate study in social work. This course orients students to graduate level writing and research, the generalist practice model, Social Work in Oklahoma, simulation as a tool for skill development, and an introduction to the Decision Case model. Individualized student professional development is emphasized. (Su)

S WK 5053 Preventing and Treating Substance Use Disorders**3 Credit Hours**

(Slashlisted with S WK 4053) Prerequisite: Graduate standing or permission of instructor. Students will be introduced to the fundamentals of the prevention and treatment of substance use disorders. Course emphasizes best practices in the areas of treatment and prevention of substance use disorders, and the strategic prevention framework. Cultural influences and issues important to special populations will be also reviewed. No student may earn credit for both 4053 and 5053. (Irreg.)

S WK 5063 Social Work with Older Adults**3 Credit Hours**

(Slashlisted with S WK 4063) Prerequisite: Graduate standing or permission of instructor. Focus is on issues of significance to social work or social welfare. This course focuses on the knowledge, skills, and techniques appropriate for engagement, assessment, intervention, and evaluation with older adults and their family caregivers. No student may earn credit for both 4063 and 5063. (Irreg.)

S WK 5083 Social Work Research Methods**3 Credit Hours**

Prerequisite: Graduate standing in Social Work. Introduction to the design and implementation of quantitative and qualitative research methods used to evaluate the effectiveness of social work practice and policies. (F)

S WK 5093 Social Work Research Methods II**3 Credit Hours**

Prerequisite: graduate standing in Social Work and S WK 5083. Introduction to applied data analysis methods appropriate to research in social work practice evaluation and human services program evaluation. (Sp)

S WK 5153 Seminar on Community Health**3 Credit Hours**

Prerequisite: graduate standing in social work or permission of instructor. This is an intensive course that immerses students within the OU-Tulsa School of Community Medicine Summer Institute. A variety of experiential learning methods are combined into an interdisciplinary setting. Full participation in the Summer Institute is required in addition to specific assignments relevant to social work. (Irreg.)

S WK 5163 Child Abuse and Neglect**3 Credit Hours**

(Slashlisted with S WK 4163) Prerequisite: graduate standing or permission of instructor. Introduction to the field of child abuse and neglect. Examines the history of the field, different forms of abuse and neglect, causative factors, abuse and neglect dynamics, treatment approaches, the social services system, and prevention strategies. No student may earn credit for both 4163 and 5163. (Irreg.)

S WK 5170 Special Topics in Social Work and Social Welfare**2-3 Credit Hours**

(Slashlisted with S WK 4170) 2 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Focus is on issues significant to social work or social welfare. No student may earn credit for both 4170 and 5170 on the same topic. (Irreg.)

S WK 5213 Infant Mental Health**3 Credit Hours**

Prerequisite: graduate standing in social work or permission of instructor. This course provides an overview of clinical and policy information necessary to effectively assess, and provide treatment for children ages 1 - 5 years and their families. (Irreg.)

S WK 5253 Alcohol and Other Drugs**3 Credit Hours**

Prerequisite: graduate standing in Social Work or permission of instructor. Integrated focus on the action of drugs and the consequences of AOD use, abuse, and addiction. Historical and current policies as well as issues are also examined. Attention is given to diverse populations, research findings and theoretical perspectives. (Irreg.)

S WK 5263 Biopsychosocial Aspects of Health and Behavior**3 Credit Hours**

Prerequisite: graduate standing or permission of instructor. The primary focus of this course is on enhancing knowledge and understanding of biological determinants of health and behavior as they interact with the environmental dimensions of health and behavior. These issues will be discussed in relation to the individual, and family, as well as ethical and policy and program implications. (Irreg.)

S WK 5273 School Social Work**3 Credit Hours**

Prerequisite: graduate standing in social work or permission of instructor. Designed to help prepare students for social work practice in school settings. It covers a range of practice and policy issues along with the multiplicity of school social worker roles and responsibilities. Currently offered as an internet course. (Irreg.)

S WK 5283 Tribal-U.S. Child/Family Welfare Policy and Practice**3 Credit Hours**

Prerequisite: graduate standing. Examines and critically analyzes the policies, regulations, and organizational change issues that aim to improve the lives of children, youth, and families from tribal and United States backgrounds. The contexts, forces, and ideologies that produce the often-changing goals and methods of agencies serving children and their families at a tribal, state, and national levels will be examined. Emphasis will be placed on current opportunities and dilemmas facing Indian child welfare programs and public and private child welfare agencies. Using social and behavioral science research and information related to diversity and social justice, critical frameworks for assessing and analyzing child welfare policies, service systems, and organizational structures will be developed. It is highly recommended that S WK 5293: Social Work with American Indians be taken prior to this course. (Irreg.)

S WK 5293 Direct Practice with Diverse Students, Disabilities, & Transition**3 Credit Hours**

Prerequisite: S WK 5103 or EDSP 5093 or permission of instructor; Social Work or Educational Psychology graduate students only. An overview of the theory and skills needed to work with diverse students including students with disabilities as they prepare to transition from school to adult life. Focuses on the knowledge, values, skills, and techniques appropriate for engagement, assessment, intervention and evaluation with diverse students preparing for transition. (Su)

S WK 5303 American Indian Behavioral Health**3 Credit Hours**

Prerequisite: graduate standing. Provides the knowledge, skills, and self-awareness necessary for culturally relevant behavioral health services to tribal populations located in the United States. Knowledge will encompass traditional tribal conceptualizations of mental health and the impact of colonization. Indigenous and Western theories will frame the development of skills for mental health and substance abuse assessment, interventions, and prevention with individuals, families, and communities with a particular focus on tribal youth. It is highly recommended that S WK 5293: Social Work with American Indians be taken prior to this course. (Irreg.)

S WK 5313 Policy Practice in Social Work: Analysis and Advocacy**3 Credit Hours**

Prerequisite: graduate standing in Social Work. A historical and descriptive review of federal and state social welfare programming, an introduction to practice skills of policy analysis, and advocacy in affecting development, change, or implementation of social welfare policy. (F, Sp)

- S WK 5333 Human Diversity and Societal Oppression 3 Credit Hours**
Prerequisite: graduate standing in Social Work. Provides graduate students with social work knowledge of human diversity from a social justice perspective. Knowledge of diverse groups' norms/values, differential power, societal oppression, and transactions between and within social groups is emphasized. (F)
- S WK 5343 Social Work with American Indians 3 Credit Hours**
Prerequisite: graduate standing in Social Work, Native American Studies or junior/senior undergraduate standing in Social Work or Native American Studies. An introduction to issues influencing social work among American Indians. Knowledge of tribal culture, historical and contemporary oppression, sovereign status, and current service contexts will be framed against the strengths and empowerment perspectives. The skills and values unique to social work with American Indians will be developed to form the essential foundation for effective practice across the individual, family, clan, community, and tribal nation. (Irreg.)
- S WK 5353 International Child Welfare 3 Credit Hours**
Prerequisite: graduate standing. Comparative study of child welfare policies and practices in Israel and the United States through study abroad. Content areas include international and comparative frameworks in policy and practice analyses, child welfare practices in the United States and Israel, governmental and not-for-profit sectors for the protection of children and their families, cross-cultural learning exchanges with social work students and social workers in Israel and the United States. (Su)
- S WK 5363 Health & Social Work 3 Credit Hours**
Prerequisite: graduate standing or special permission for undergrads. Designed to develop practice-based knowledge of social work in health care settings, medical terminology, health care provisions, interdisciplinary teams, and insurance issues; the effects of illness and disease on the patient and families, the importance of patient rights and the intersection of culture, gender, age, class, and sexual orientation, on the interactions between the patient, healthcare system and professionals. (Irreg.)
- S WK 5373 Theory, Practice, and Evaluation with Individuals 3 Credit Hours**
Prerequisite: Graduate standing in Social Work. This course provides the theoretical background, practice skills, and research experience necessary for generalist social work practice and evaluation at the individual level. The generalist intervention model is the foundation for teaching the knowledge, values, skills, cognitive, and affective processes necessary for engagement, assessment, intervention, and evaluation with individuals. (F, Sp)
- S WK 5383 Theory, Practice, and Evaluation with Families and Groups 3 Credit Hours**
Prerequisite: Graduate standing in Social Work. This course addresses foundation-level components of theory, practice, and evaluation related to generalist social work practice with families and groups. Students learn key explanatory theories about how families and groups operate, and are introduced to generalist practice models for practice with these client types. Students also learn about how to effectively evaluate practice with families and groups. (F, Sp)
- S WK 5393 Theory, Practice, and Evaluation with Communities and Organizations 3 Credit Hours**
Prerequisite: Graduate standing in Social Work. Exploration of the generalist perspective focusing on the knowledge, values, skills, and techniques appropriate to assessment and interventions with organizations and communities. (F, Sp)
- S WK 5403 Professional Social Work 3 Credit Hours**
Prerequisite: Graduate standing in Social Work. This course is an overview of social work as a profession, including central concepts and theories, values, ethics, and career pathways. The profession's historical development is included along with a focus on poverty and economic disparity, human rights and social justice, and human diversity. It provides an introduction to the generalist practice model across system levels.
- S WK 5413 Social Work Practicum I 3 Credit Hours**
Prerequisite: Graduate standing in Social Work, and permission of practicum coordinator. Professionally supervised foundation year practicum placement in an area social service agency. (F, Sp, Su)
- S WK 5423 Social Work Practicum II 3 Credit Hours**
Prerequisite: Graduate standing in Social Work, and S WK 5413 or concurrent enrollment. A professionally supervised practicum placement in an area social service agency; a continuation of S WK 5413. (F, Sp, Su)
- S WK 5433 Human Lifespan Development 3 Credit Hours**
Prerequisite: Graduate standing in Social Work. Within a social systems framework and biopsychosocial perspective, students learn empirically-based theories that deal with lifespan development and family theory. This course provides an introduction to small group dynamics and development as well as a theoretical foundation for micro and mezzo level generalist practice. (F, Sp)
- S WK 5513 Client-Centered Direct Practice 3 Credit Hours**
Prerequisite: Graduate standing in Social Work. This course addresses clinical practice across the lifespan with application to individuals, families, and groups. Evidenced informed practice provides a framework within which empirically supported treatment modalities are explored as they relate to the intersecting domains of trauma, substance abuse, and mental health. (F)
- S WK 5523 Macro Systems in Practice 3 Credit Hours**
Prerequisite: Graduate standing in Social Work. This course utilizes an advanced generalist perspective focused on advancing the knowledge, values, skills, and techniques appropriate to engagement, assessment, and intervention with organizations and communities. (F)
- S WK 5563 Integrative Practice with Children and Families 3 Credit Hours**
Prerequisite: Graduate standing. This course provides students with specific knowledge and skills utilized when working with children and adolescents within their family systems. (Irreg.)
- S WK 5573 Disaster Response in Japan: A Human Rights Approach 3 Credit Hours**
(Slashlisted with S WK 4573) Prerequisite: Graduate standing or permission of instructor. This course provides experiences and knowledge of how human advocacy services are provided to victims of disasters in Japan, man-made or natural. This is the study abroad program which was cultivated within the frameworks of Experiential and Transformative Learning theories, specifically for students to gain knowledge of and experience in global human rights aspects in social work. No student may earn credit for both 4573 and 5573. (Sp)
- S WK 5723 Human Services Administration 3 Credit Hours**
Prerequisite: Graduate standing. Social work selective course offered first to social work master's level students who have completed a foundation level macro social course. Primary attention is given to the roles of administrator and planner in social work/social welfare settings with additional emphasis on grant writing and resource development. (Irreg.)

- S WK 5733 Mental Health Assessment and Diagnosis 3 Credit Hours**
Prerequisite: graduate standing in social work or permission of instructor. Designed to assist the student in understanding & using the prevailing psychiatric taxonomic system, the diagnostic & statistical manual of mental disorders (DSM 5). Prepares students to function in clinical settings where familiarity with the DSM 5 criteria & the multi-axial diagnostic framework is fundamental knowledge. Additionally, students will examine the benefits and risks of this psychiatric taxonomy. (Irreg.)
- S WK 5753 Child and Adolescent Psychopathology: Assessment and Treatment 3 Credit Hours**
(Slashlisted with S WK 4753) Prerequisite: Graduate standing in social work or permission of instructor. Provides an overview of clinical information necessary to effectively assess, diagnose, and provide social work treatment for children and adolescents in need of mental health services. The course incorporates both person-in-environment and strengths perspective in the understanding of how to serve children and families dealing with childhood disorders. No student may earn credit for both 4753 and 5753. (Irreg.)
- S WK 5783 Human Sexuality 3 Credit Hours**
Prerequisite: Graduate standing in Social Work or instructor permission. This course provides graduate students with social work knowledge of human sexuality in social work practice. The primary goal of the course is to increase social worker's competence and understanding of human sexuality concepts based on theory, research and practice. (Irreg.)
- S WK 5816 Social Work Practicum III 6 Credit Hours**
Prerequisite: Graduate standing in Social Work, S WK 5513, S WK 5523, and permission of instructor. This course offers an educationally focused and professionally supervised practicum placement in a social service agency and requires a minimum of 550 clock hours at an assigned practicum site. (Sp, Su)
- S WK 5826 Social Work Practicum IV 6 Credit Hours**
Prerequisite: Graduate standing in Social Work, S WK 5513, S WK 5523, and permission of instructor. This course offers an educationally focused & professionally supervised practicum placement in a social service agency & requires a minimum of 550 clock hours at an assigned practicum site. (Sp, Su)
- S WK 5833 Social Work with Sexual and Gender Minorities 3 Credit Hours**
Prerequisite: Graduate standing in social work. This course addresses advanced micro, mezzo, and macro-level social work practice with individuals identifying as lesbian, gay, bisexual, transgender, queer and/or questioning, intersex, asexual, two-spirit (LGBTQIA2S+). (Irreg.)
- S WK 5883 Military Social Work 3 Credit Hours**
Prerequisite: Graduate standing. Theoretical and practical approaches to clinical practice with military families. Overview of common social issues in the military system and demands on the family dynamic. (Irreg.)
- S WK 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing in Social Work and permission of the department. Directed readings and/or literature reviews under the direction of a faculty member. May be repeated; maximum credit six hours. (F, Sp, Su)
- S WK 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- S WK 5973 Advanced Integrative Seminar 3 Credit Hours**
Prerequisite: Graduate standing in Social Work. This is an advanced integrative seminar for concentration year students taken in the final semester. The course builds on foundation and concentration course work throughout the MSW curriculum using critical thinking that incorporates micro and macro systems case analysis and decision-making. (Sp)
- S WK 5980 Research for Master's Thesis 2-6 Credit Hours**
Prerequisite: permission of instructor. Research for Master's thesis. Variable enrollment, two to six hours; maximum credit applicable toward degree: six hours. (F, Sp, Su)
- S WK 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- S WK 6003 Theories for Social Work 3 Credit Hours**
Prerequisite: Graduate standing in social work or departmental permission. This course examines social work theories, analyzing their assumptions and empirical basis. Students explore historical contexts, research effectiveness, and major theories from diverse disciplines. Additionally, they delve into unique theories related to their interests, gaining insight into broader philosophical and empirical methods supporting social work. (F)
- S WK 6011 Doctoral Professional Seminar I 1 Credit Hour**
Prerequisite: Graduate standing in social work or departmental permission. This one-hour seminar delves into career opportunities for Ph.D. in social work holders, covering academia, research, policy, and more. Participants learn to create a strategic professional development plan during their doctoral studies and post-Ph.D. years. The session also provides insights into job search processes for academic, post-doc, research, and policy positions. (F)
- S WK 6013 Applied Quantitative Research Methods 3 Credit Hours**
Prerequisite: Graduate standing in social work or departmental permission. This course delves into the diverse landscape of quantitative research designs, covering five key types. Participants explore the nuances of Descriptive, Survey, Correlational, Quasi-experimental, and Experimental Research designs. Through engaging discussions and practical applications, learners gain a comprehensive understanding of each design's purpose, methods, and potential contributions to empirical inquiry in various fields. (F)
- S WK 6021 Doctoral Professional Seminar II 1 Credit Hour**
Prerequisite: Graduate standing in social work or departmental permission. This one-hour seminar covers crucial aspects of academic progression. Topics include selecting an advisor and dissertation committee, faculty presentations, conference participation, and publishing endeavors. Faculty members provide insights and guidance, ensuring students gain valuable knowledge in navigating academia. The seminar concludes with reflections and next steps, fostering a comprehensive understanding of key academic milestones. (Sp)

S WK 6023 Applied Qualitative Research Methods 3 Credit Hours

Prerequisite: Graduate standing in social work and completion of CITI Human Subjects Training. This course builds on qualitative research skills, focusing on conceptualization, design, and data collection in social work and related fields. It addresses research problems, design considerations, and theory's role, encompassing qualitative traditions like biography, phenomenology, grounded theory, ethnography, and case study. It explores qualitative data collection methods such as observation, interviews, focus groups and document analysis. (F)

S WK 6041 Doctoral Professional Seminar IV 1 Credit Hour

Prerequisite: Graduate standing in social work or departmental permission. This course navigates diverse career paths in research, policy, and international work. Participants explore their interests, learn to craft a professional vita, and draft effective cover letters. The module on obtaining external funding covers fellowship basics, research funding exploration, and proposal development skills. The job search segment addresses crucial considerations, interview preparation, and efficient research communication. (Sp)

S WK 6043 Advanced Qualitative Data Analysis 3 Credit Hours

Prerequisite: Graduate standing in social work and completion of CITI Human Subjects Training. This advanced qualitative data analysis course explores intricate methodologies for analyzing qualitative data. Students delve into advanced coding techniques, thematic analysis, and interpretive frameworks. Emphasis is on refining skills in uncovering nuanced insights, triangulating data sources, and crafting comprehensive narratives. The course integrates practical applications, fostering expertise in handling complex qualitative research challenges. (Sp)

S WK 6053 Advanced Quantitative Data Analysis 3 Credit Hours

Prerequisite: Graduate standing in social work and completion of CITI Human Subjects Training. This advanced inferential statistics course focuses on practical statistical analysis. Students explore the role of statistics in research, learn terminology, apply appropriate techniques, and interpret findings in economics, business, nursing, and medical research. Topics include data graphing, hypothesis testing, chi-squared, ANOVA, regression, correlation, and decision-making under uncertainty. (Sp)

S WK 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

Social Work, B.A.

Minimum Total Credit Hours: 120

Major Hours: 49

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.50

Major GPA - Combined and OU: 2.50

Program Code: B840

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- Social Work majors must earn at least a 2.50 overall grade average; at least a 2.50 grade average in required social work courses; an S in S WK 4315 and S WK 4325; and at least a C in all required social work courses and the major support requirements.
- Students must earn a minimum GPA of 2.25 to be eligible for admission.

Prior to Junior Year: Students who have completed prerequisites and meet the minimum grade requirement must file an application to be admitted to the program. *Because admission is competitive, not every applicant will be admitted.*

Total Credit Hours		9-11

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/genesd/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) ^{1,2}		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO ¹		3-4
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS ¹		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
<i>Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Culture</i>		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	

Choose one course from the General Education Western Culture list (excluding HIST 1483/1493) 3

World Culture

Choose one course from the General Education World Culture list 3

Additional Core IV Upper-Division Arts & Humanities courses

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3} 3

Choose one course from Artistic Forms, Western Culture, or World Culture^{1,3} 3

Core Area V: First Year Experience (3 hours)

Choose one course 3

Total Credit Hours 56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult

with Dodge College of Arts and Sciences and School of Social Work academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Social Work major requirements.

Freshman

First Semester		Credit Hours

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Social Work with American Indians, Graduate Certificate

Minimum Total Hours: 15

Program Code: G104 (Online: G105)

The Anne and Henry Zarrow School of Social Work offers an embedded Graduate certificate in Social Work with American Indians. Typically obtaining a certificate does not add courses to your MSW degree but rather specifies the electives taken.

Courses cannot be double counted towards more than one graduate certificate, and certificates cannot be added post-graduation.

Certificate Requirements

Code	Title	Credit Hours

S WK 5303	American Indian Behavioral Health	3
S WK 5283	Tribal-U.S.Child/Family Welfare Policy and Practice	3
Choose 6 hours from S WK and/or NAS as approved by the Graduate Liaison and Social Work with American Indians Certificate Coordinator		6
Total Credit Hours		15

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

General Information

The Department of Sociology has two interrelated missions: to provide the highest quality education at the baccalaureate, master's, and doctoral levels, and to foster state-of-the-art research among faculty and graduate students. Teaching and research in the department help meet the needs of the state and nation by addressing important social issues. The undergraduate program contains two degree options, one in general sociology and one in criminology. Graduate level areas of concentration are class stratification, criminology and deviance, family, gender, cross-national Sociology, race and ethnicity, religion, and social psychology. Contemporary issues within these areas are emphasized, and their historical, comparative, and global dimensions are explored. Through research, we seek to update and refine knowledge in each area to assist in formulating and evaluating social policy.

At both the undergraduate and graduate levels, coursework in Sociology provides an analytic research emphasis for studying, understanding, and explaining major issues. Research in these areas updates and refines knowledge and, further, helps formulate and evaluate social policy.

The undergraduate curriculum in sociology prepares students for jobs in a wide-variety of occupations and for admission to advanced degree programs, especially in sociology, law, and criminal justice. The graduate program provides more intensive instruction and stimulates further intellectual growth and maturity. Graduate students completing a degree in sociology typically find employment in academic settings as professors and researchers, and in the public or private sectors as statistical analysts and research coordinators. The quality of the programs in sociology can be measured by the successful placement of our graduates in agencies, corporations, graduate and professional programs, research settings, and colleges and universities.

A major strength of the department's graduate program is its training in research methods and statistics. The department maintains its own computer lab equipped with advanced statistical package software. Core seminars in statistics and methods encourage participation in all phases of research, from research design to data collection and analysis to the presentation of findings. Strength in this area complements coursework

in the department's three substantive areas of interest, and encourages students to be independent researchers and informed teachers. The department's graduate students regularly present research papers at professional meetings, and have been very successful in winning competitions with these papers.

Programs & Facilities

Inside-Out Prison Exchange Program

The Inside-Out Prison Exchange Program is an educational program tailored to effectively facilitate dialogue across difference. It originated as a means of bringing together campus-based college students with incarcerated students for a semester-long course held in a prison, jail or other correctional setting.

ADQUANT - Advanced Quantitative Methods Working Group

The Advanced Quantitative Methods Working Group (ADQUANT) is a collaborative forum for the discussion and dissemination of quantitative approaches to data analyses across the social sciences. We are interested in developing an understanding of advanced statistical methods and facilitating interdisciplinary approaches to data analyses throughout the OU campuses and beyond.

Sociology and Criminology Club

The purpose of the Sociology/Criminology Club (SCC) is to provide a forum for undergraduate students who are interested in criminology and sociology. The mission of the SCC is to inform its members about careers, internships, graduate study, and other opportunities available in criminology and sociology and to provide a setting in which they can meet and socialize with other students who share similar interests.

Undergraduate Study

Bachelor of Arts

The Department of Sociology at OU offers two options within the Bachelor of Arts in Sociology program: the General Sociology (p. 723) option and the Criminology (p. 725) option. The general sociology option gives students a broad education in the field of sociology, and students can select any type of upper-division sociology electives to complete the major. The criminology option focuses on criminology, a specialized area within sociology, so students on this track take upper-division electives that focus on the nature, extent, causes, and control of criminal behavior.

Students considering a major in Sociology should contact the department for assistance in selecting courses which contribute to the student's educational and career plans. Students who intend to pursue careers in social agencies, corporations, or research settings will be advised regarding courses most appropriate to those interests. Students wishing to enroll in graduate or professional school will be advised regarding courses normally prerequisite to such work.

Minors

- General Sociology Minor (p. 728)
- Criminology Minor (p. 728)

Accelerated Bachelor's and Master's Degree (BA/MA Program)

The sociology department is excited to offer an accelerated Bachelor's and Master's Degree in Sociology. This program is designed to be completed in 5 years, with students leaving the program with a Bachelor's degree in Sociology or Criminology as well as a Master's Degree in Sociology.

This track provides the same rigorous training in graduate level sociology/criminology, social scientific research methods, and producing publication quality sociological/criminological research as our terminal graduate Master's Degree, but is designed to be completed co-currently with the final series of upper division undergraduate coursework. We believe this track provides our outstanding undergraduate students with a head start on their graduate careers as well as some of the job opportunities made available by completing an advanced social science research degree.

Graduate Study

The Master of Arts (p. 731) in Sociology and Doctor of Philosophy (p. 732) programs in sociology emphasize the learning of research methods and statistics in conjunction with chosen substantive area(s) of interest. The department offers six different courses in which graduate students develop research skills. At the doctoral level, students may choose to specialize in any two areas from the three areas of emphasis in the department.

Admission Requirements

See Department of Sociology graduate programs page for admission information.

Additional Doctoral Program Information

With few exceptions, the student seeking the Sociology Ph.D. (p. 732) anticipates a career in teaching and/or research. Departmental requirements emphasize professional competence in sociology as a whole, especially research methodology, and expertise in two fields within sociology. At the PhD level, the student should acquire a broad knowledge of the fundamentals of sociology and a focused specialization in two substantive areas of expertise.

A plan of study, filed formally with the Dean of the Graduate College, should develop the student's knowledge of and expertise in sociology broadly defined, as well as two substantive areas of sociological expertise. The plan of study must include the core requirements for the MA plus one additional theory course. This is especially important to highlight for students who are transferring credits from other universities or entering the doctoral program with a Master's degree in a related field. The plan of study must contain sufficient coursework to prepare a student for the general examination. The program of coursework and the committee can be amended as needed. A maximum of 44 credit hours may be transferred from other universities with the permission of a student's advisory committee and the Dean of the Graduate College.

The purpose of the graduate coursework is to prepare the student for the general examination and the dissertation. The accumulation of coursework, in and of itself, does not constitute progress toward the degree.

The general examination in sociology consists of a written component and an oral component. It usually is taken in the fall semester of the

third year of the program. Once the relevant elements of the written component of the exam are considered satisfactory, then the student may proceed to the oral component of the general exam. In cases where the student's written answers were considered satisfactory but the performance on the oral component of the exam was not, they will retake the oral component of the general exam in the following semester (timing to be determined in consultation with the student's committee). A second unsatisfactory performance on the oral component of the general exam will result in dismissal from the program.

The doctoral dissertation is written and defended under the guidance of the student's doctoral committee consisting of five members of the graduate faculty, at least one of whom is from outside the Department of Sociology.

Ph.D. students, having sole responsibility for teaching a course in the Department, are also required to take Professionalization Seminar and the Teaching Seminar (SOC 5831).

Courses

- SOC 1113 Introduction to Sociology** **3 Credit Hours**
The fundamental concepts of sociology; foundations of group life; social change, processes, and problems. (F, Sp, Su) [III-SS].
- SOC 1523 Social Problems** **3 Credit Hours**
Analysis of major social problems of contemporary U.S. and policy debates concerning them. Examination of social science theory and research that are relevant to understanding these problems. Development of social institutions in which social problems occur. (F, Sp, Su) [IV-WC].
- SOC 2970 Special Topics** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- SOC 3123 Social Statistics** **3 Credit Hours**
(Crosslisted with P SC 3123) Prerequisite: SOC 1113 and any General Education Math EXCEPT Philosophy 1113 or Philosophy 3113. Descriptive and inferential statistics as they are used in sociology to analyze survey and macro-level data. Problems of research design and interpretation of analysis in sociological theory are major topics. A grade of C or better in this course is a prerequisite for Sociology capstone courses. (F, Sp, Su)
- SOC 3133 Methods of Social Research** **3 Credit Hours**
Prerequisite: SOC 1113 and any General Education Math EXCEPT Philosophy 1113 or Philosophy 3113 or permission of instructor. Basic elements of the scientific method as applied to the study of human group life. Examines the problem of conceptualization, the formulation of hypotheses, designs of proof, the interdependence of theory and fact and the techniques and procedures for assembling and ordering of data. A grade of C or better in this course is a prerequisite for Sociology capstone courses. (F, Sp, Su)
- SOC 3353 Race, Class and Gender** **3 Credit Hours**
(Crosslisted with WGS 3353) Prerequisite: junior standing or permission of instructor. Explores the intersections of race, ethnicity, class, gender and sexuality. Focus is on how systems of power and oppression reinforce each other, how they intersect in shaping social structure and individual experiences, and how the systems of oppression are mutually reinforcing. Theories and practice of intersectionality, how gender, race, class and other categories of identity are constructed and reproduced in social, political and economic structures, and experienced in every day life. (F, Sp)
- SOC 3363 Sociological Theory** **3 Credit Hours**
Prerequisite: SOC 1113 and ENGL 1213 or EXPO 1213; majors only; not open to freshmen. Consideration of classical sociologists including Durkheim, Weber, and Marx. Attention is devoted to the application of classical theories to current research issues. (F, Sp)
- SOC 3440 Mentored Research Experience** **3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- SOC 3523 Criminology** **3 Credit Hours**
Prerequisite: 1113 or sophomore standing. A study of the nature and causes of various forms of deviant and illegal behavior, especially serious personal injury and property crimes (e.g., homicide, burglary). While some consideration is given to biological and psychological explanations, the primary focus is on sociological theories that attempt to explain crime, criminality, and victimization in modern societies. (F, Sp)
- SOC 3533 The System of Criminal Justice** **3 Credit Hours**
Prerequisite: 1113 or permission of instructor. An analysis of the sociological literature on the American system of criminal justice, viewed as a system of social control. Emphasis is on the functional significance of the system in relation to the various interests represented in the law. Attention given to special problems in each of the major components of the system: law enforcement, the administration of justice and corrections. (F, Sp)
- SOC 3543 Sociology of Deviance** **3 Credit Hours**
Prerequisite: SOC 1113 or permission of instructor. The sociological study of deviant behaviors. Focus is on sociological theories and processes by which behaviors are defined as deviant, and how these definitions affect the individual. (F, Sp)
- SOC 3553 Sociology of Law** **3 Credit Hours**
Prerequisite: 1113 or permission of instructor. Provides a sociological understanding of the interrelationship between law and society. Covers the origins of law, types of legal systems, theories of punishment, and examines law as an independent variable (i.e., as a mechanism for social change) and as a dependent variable (i.e., how laws are created or changed by social pressure). (F, Sp)
- SOC 3573 Sexuality, Media, and Crime** **3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. The sociological constructions of gender and sexuality will be examined through the context of several forms of American media including advertising, television, and film. Also examines stigma, hate crimes, and violence based on gender and sexuality including LGBTQ identities/experiences. (Irreg.)
- SOC 3583 Federal Criminal Justice System** **3 Credit Hours**
Prerequisite: SOC 1113 or permission of instructor; course not open to freshmen. This course provides an overview of the federal criminal justice system, including the structure and functions of the federal court system, distinctions between state and federal justice systems; federal law enforcement agencies and types of crimes prosecuted by the U.S. Department of Justice and federal punishment under the United States Sentencing Guidelines including critical issues and policies. (Irreg.)

- SOC 3593 Sexual Deviance and Society 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. A critical examination of the sociology of deviant sexual behaviors. Investigations of deviance, criminology and gender through the study of sexual behavior, sex crimes, and victimology. (Irreg.)
- SOC 3613 Global Social Problems 3 Credit Hours**
Prerequisite: SOC 1113 or Junior standing. Provides an overview of pressing global social problems with attention to developing insights into the conceptual analyses of meaningful solutions from a sociological perspective. Readings discuss the relationships among various levels of the social system, so that social roots of pressing issues are recognized and used as a tool to suggest alternative approaches to address them. (Irreg.) [III-SS].
- SOC 3623 Sociology of Race and Ethnicity 3 Credit Hours**
Prerequisite: SOC 1113 or permission of instructor. This course explores the historical and contemporary issues surrounding the impact that race and ethnicity have on U.S. society. You will examine how racial and ethnic criteria often guide important economic, political, and social decisions that affect access to resources by various groups, usually having significant consequences for the individual. (Irreg.)
- SOC 3643 Population and Society 3 Credit Hours**
Prerequisite: SOC 1113 or permission of instructor. Introduction to population study. Analysis of human mortality, fertility and migration. Evaluation of demographic theories with emphasis on social and cultural factors. (Irreg.)
- SOC 3663 Sociology of Music 3 Credit Hours**
Prerequisite: Junior standing. The course is an historical, theoretical, and sociological exploration of music. The course addresses diverse topics such as how the current system of music developed, the distinction between high culture and popular culture, and the ways race, gender, class and other social distinctions influence the production and consumption of music. (Irreg.) [III-SS].
- SOC 3683 Wealth, Power, and Prestige 3 Credit Hours**
Prerequisite: 1113 or sophomore standing or above. Examines the systems in which the central elements of class stratification—wealth, power, and prestige—are created and distributed and addresses the issue of "who gets how much and why?". Topics include a review of the theories and evidence in current stratification studies and an assessment of the racial, ethnic, and religious correlates of inequality. (F, Sp)
- SOC 3713 Medical Sociology 3 Credit Hours**
Prerequisite: SOC 1113 or permission of instructor. A study of cultural and class factors in health and morbidity. Focus is on the social organization of medical services, including discussion of the hospital as a social institution. The role of medical and paramedical personnel and the interaction of the medical system with other social institutions such as government, church, education, and family. (Sp)
- SOC 3723 Sociology of Family 3 Credit Hours**
Prerequisite: 1113 or sophomore standing or above. The sociological study of the family as an institution; the origin and development of the family; the interrelationships of the family and the larger society; the environmental conditions which seem to favor the development and continuance of the major family forms; the rise of the modern democratic family; characteristic patterns of change in the contemporary family. (F, Sp)
- SOC 3733 Sociology of Gender 3 Credit Hours**
Prerequisite: 1113 or permission of instructor. Sociological analysis of the reinforcement of gender roles by the major institutions of society. Examine the effects on gender roles of education, mass media, economics, public policy, law, religion, and society. (Irreg.)
- SOC 3773 Sociology of Religion 3 Credit Hours**
Prerequisites: SOC 1113 or sophomore standing. Using the perspectives and methods of social science, and particularly sociology, the common social dimensions of all religions including moral definitions; micro-level processes of membership, conversion and socialization; the life-cycle of religious institutions; and religion's relationship to health, science, and important institutions like the American family, economy, and politics will be examined. (F, Sp, Su)
- SOC 3803 Inequality in A Global Perspective 3 Credit Hours**
Prerequisite: SOC 1113 or sophomore standing or above. Examines the causes and consequences of socioeconomic inequality in contemporary societies (including the United States) by using theories and research evidence from the vantage point of international political economy. Topics include the nature, structure, and hierarchy of the global economy; the link between international and national distributions of wealth and power; and the racial, ethnic, and religious correlates of social inequality. (Irreg.)
- SOC 3813 Individual and Society 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. Introduction to social psychological theories and findings. Covers socialization, identity development, emotions, social interaction, deviant behavior, and small group behavior. (Irreg.)
- SOC 3843 Sociology of Aging 3 Credit Hours**
Prerequisite: 1113 or permission of instructor. Comprehensive description of the dimensions of aging. The point of departure is the notion that to talk meaningfully about one aspect of aging requires consideration of its other dimensions. (Irreg.)
- SOC 3893 Environment, Ecology and Society 3 Credit Hours**
Prerequisite: SOC 1113 or permission of instructor. Examines relationships between environmental factors and human social arrangements. The class will be organized around these and a number of related topics, which will help to shape the readings, lectures, and discussions. (Irreg.)
- SOC 3900 Special Topics in Sociology 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit six hours. Cover topics not currently offered in regularly scheduled courses. (Irreg.)
- SOC 3903 The Sociology of Urban Street Gangs 3 Credit Hours**
Prerequisite: SOC 1113 and SOC 3523 and junior standing. Focusing on a sociological understanding of gangs, this course will provide an overview of research on gangs and theoretical perspectives of gang membership, while paying close attention to the interplay of social structure, gang dynamics, and the life-course of individual gang members. (Irreg.)
- SOC 3913 The Death Penalty in the United States 3 Credit Hours**
Prerequisite: 1113 and 3523. Provides an overview of capital punishment in the United States, and Oklahoma in particular, from a sociological perspective. History of capital punishment in the United States specific cases related to the death penalty, and arguments for and against the use of capital punishment. (Irreg.)
- SOC 3923 Alcohol, Drugs and Society 3 Credit Hours**
Prerequisite: 1113 and 3523. Explores sociological explanations of alcohol and drug use with a special emphasis on current issues in the United States. (Irreg.)

- SOC 3933 Inside/Out: Drugs, Alcohol, and Society 3 Credit Hours**
Prerequisite: SOC 1113, SOC 3523, and departmental permission; Course not open to Freshmen. This is an "inside-out" course. Taught with half enrollment of "inside students" from a correctional facility and "outside students" from OU. Explores sociological explanations of alcohol and drug use with a special emphasis on current issues in the United States. (Irreg.)
- SOC 3943 Inside/Out: The Family and Crime 3 Credit Hours**
Prerequisite: SOC 1113, SOC 3523 and departmental permission; Course not open to Freshmen. The "Inside-Out" Prison Exchange Program is an opportunity for students from OU and a group of prison residents to exchange ideas about a variety of issues. Our focus is the family and crime, and we will delve into causes of crime, the role of families, the effects of contact with the criminal justice system on families and communities, etc. (Irreg.)
- SOC 3953 Juvenile Justice 3 Credit Hours**
Prerequisite: 1113 or permission of instructor. Course examines criminal measurement of juvenile crime, theories of delinquency, legal rights of juveniles and the juvenile justice system. (Irreg.)
- SOC 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1113 and permission of instructor and admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (Irreg)
- SOC 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1113 or permission of instructor and admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg)
- SOC 3973 Sociology of Violence 3 Credit Hours**
Prerequisite: SOC 1113 and SOC 3523. An examination of the causes, correlates and consequences of various forms of violent crime. An emphasis on the social nature of violence, social institutions related to violence and the social costs of violence. (F, Sp)
- SOC 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 1113 or permission of instructor and admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (Irreg)
- SOC 3983 Women, Girls and Crime 3 Credit Hours**
Prerequisite: SOC 1113 and SOC 3523, or permission of instructor. In-depth examination of crime and the justice system as it relates to girls and women. The focus will be on girls and women as victims, girls and women as offenders, and criminal justice responses to girls and women. (F, Sp)
- SOC 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- SOC 3993 Sociology of Gender and Sexuality in the Media 3 Credit Hours**
Prerequisite: ENGL 1213 or EXPO 1213. The sociological constructions of gender and sexuality will be examined through the context of several forms of American media including advertising, television, and film. Explores how manifestations of "normative" behaviors are reproduced and maintained through media representations of gender and sexuality. Examines advertising, television, and film as they relate to societal shifts in attitudes toward gender and sexuality. (Irreg.)
- SOC 4033 Sociology of Housing 3 Credit Hours**
(Slashlisted with SOC 5033; Crosslisted with RCPL 4033) Prerequisite: ENGL 1213 or EXPO 1213, Junior standing, and Departmental Permission. This course introduces students to socioeconomic, political, and equity issues in housing. Students will engage with planning and policy issues to understand the history of housing and interventions for diverse populations. Topics will cover primarily U.S. Housing policy and practices with some comparative international examples. No student may earn credit for both 4033 and 5033. (Irreg.)
- SOC 4113 International Migration 3 Credit Hours**
Prerequisite: Junior standing. This course will use sociological theory to understand structural and cultural factors that shape social change in Europe and present real challenges to full participation. (Su) [III-SS].
- SOC 4373 Sociology of Climate Change 3 Credit Hours**
(Slashlisted with SOC 5373) Prerequisite: Junior standing, departmental permission, and SOC 1113 or SOC 1523. The course will prepare students to analyze the climate crisis, including its origins, impacts, and its entanglements with other issues. The course examines potential pathways toward climate stability and climate justice. These issues are examined through a sociological lens while also engaging relevant scholarship in the humanities and other social sciences. No student may earn credit for both 4373 and 5373. (F) [III-SS].
- SOC 4603 Internship in Sociology 3 Credit Hours**
Prerequisite: SOC 1113, SOC 3123, SOC 3133, and at least two of the following: SOC 3523, SOC 3533, SOC 3543, SOC 3553, SOC 3623, SOC 3683, SOC 3723, SOC 3733. Work experience in the field of sociology under the supervision of a faculty member. While the instructor will assist in finding internship opportunities, the ultimate responsibility is with the student. Internships may be served in any setting related to the field of sociology. Student will be required to develop a paper linking the work experience to scholarly research in sociology. (F, Sp, Su)
- SOC 4843 Capstone in Criminology 3 Credit Hours**
Prerequisite: SOC 1113, SOC 3123 (C or better), SOC 3133 (C or better), and at least two of the following: SOC 3363, SOC 3523, SOC 3533, SOC 3543, SOC 3553, SOC 3583, SOC 3623, SOC 3923, SOC 3953, and permission of instructor. Students will actively participate in an in-depth analysis and discussion of current research topics in the sociological study of criminology (crime and delinquency, deviance, sociology of law, criminal justice). Students will use material learned in Sociology 3123, 3133 and 3000-level substantive courses and will be required to demonstrate in written assignments their ability to understand and critique current quantitative research. (F, Sp) [V].
- SOC 4873 World Religions and Society 3 Credit Hours**
(Slashlisted with SOC 5873) Prerequisite: sophomore standing. The course examines the major world religions, how they develop historically and in the context of other social institutions. Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, Islam, and Native Traditions will be considered. Students will study how religious institutions are influenced by, and have an influence on, societies and the people in them. No student may earn credit for both 4873 and 5873. (Irreg.) [IV-WDC].

- SOC 4943 Capstone in General Sociology 3 Credit Hours**
Prerequisite: SOC 1113, SOC 3123 (C or better), SOC 3133 (C or better), and at least two of the following: SOC 3363, SOC 3523, SOC 3623, SOC 3643, SOC 3683, SOC 3713, SOC 3723, SOC 3733, SOC 3753, and permission of instructor. As a component of this course, students will actively participate in an in-depth analysis and discussion of a current research topic or topics in sociology. Students will be expected to use material they have learned in Sociology 3123 and 3133, as well as material in substantive courses, and will be required to demonstrate their ability to understand and critique research. (F, Sp) [V] .
- SOC 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- SOC 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- SOC 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Fifteen hours of Sociology (including 1113, 3123, 3133) and permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- SOC 5033 Sociology of Housing 3 Credit Hours**
(Slashlisted with SOC 4033; Crosslisted with RCPL 5033) Prerequisite: Graduate standing, departmental permission, and instructor permission. This course introduces students to socioeconomic, political, and equity issues in housing. Students will engage with planning and policy issues to understand the history of housing and interventions for diverse populations. Topics will cover primarily U.S. Housing policy and practices with some comparative international examples. No student may earn credit for both 4033 and 5033. (Irreg.)
- SOC 5143 Program Evaluation 3 Credit Hours**
Prerequisite: Graduate standing. Methodology of planning and evaluating government policies and programs. Emphasizes research design, economic analysis of public policies and programs, and methods for handling threats to the validity of research results. (Irreg.)
- SOC 5283 Fundamentals of Sociological Statistics 3 Credit Hours**
Prerequisite: SOC 3123 and SOC 3133, or graduate standing in Sociology, or permission of instructor. Advanced statistical concepts and analysis; analysis of variance and covariance; multiple regression analysis; use of computers for statistical analysis. (Irreg.)
- SOC 5293 Advanced Methods of Social Research 3 Credit Hours**
Prerequisite: SOC 3123 and SOC 3133, or graduate standing in Sociology, or permission of instructor. Advanced research methodology; heavy focus of attention will be on concept measurement, index formation and survey research. (Irreg.)
- SOC 5313 Qualitative Research Methods 3 Credit Hours**
Prerequisite: graduate standing. Survey of different qualitative methodological strategies used in the social sciences to collect, code, and analyze information. (Sp)
- SOC 5333 Seminar in the Criminal Justice System 3 Credit Hours**
Prerequisite: graduate standing in Sociology or permission of instructor. A critical examination of the American system of criminal justice. Attention will be given to the unique problems of the system and to each of its component parts. Special emphasis will be placed on the role of extralegal factors in discretionary decision-making by the principal actors within the system. (Irreg.)
- SOC 5373 Sociology of Climate Change 3 Credit Hours**
(Slashlisted with SOC 4373) Prerequisite: Graduate standing and departmental permission. The course will prepare students to analyze the climate crisis, including its origins, impacts, and its entanglements with other issues. The course examines potential pathways toward climate stability and climate justice. These issues are examined through a sociological lens while also engaging relevant scholarship in the humanities and other social sciences. No student may earn credit for both 4373 and 5373. (F)
- SOC 5383 Social Stratification 3 Credit Hours**
Prerequisite: graduate standing in Sociology or permission of instructor. In-depth treatment of sociological theories, methods and research in the area of stratification and inequality. (Irreg.)
- SOC 5483 Advanced Regression Analysis 3 Credit Hours**
Prerequisite: SOC 5283 and graduate standing in Sociology or permission of instructor. A graduate-level introduction to linear regression analysis. Focuses on theory and empirical applications including topics such as model specification, estimation, interpretation, inferences, and assumptions diagnostics. (Irreg.)
- SOC 5523 Criminology 3 Credit Hours**
Prerequisite: graduate standing in Sociology or permission of instructor. Examines the patterns and correlates of crime at the individual, situational, and aggregate levels. Also includes examination of the history of criminological thought as well as contemporary explanations of crime, with an emphasis on critical evaluation of these explanations. (Irreg.)
- SOC 5543 Deviance and Social Control 3 Credit Hours**
Prerequisite: graduate standing in Sociology or permission of instructor. A critical examination of the literature on deviance and social control with special emphasis on the scope of the field. The frame of reference for the examination will consist of one or more of the major theoretical perspectives in sociology: the functional, the conflict and the symbolic interactionist. (Irreg.)
- SOC 5623 Race and Ethnicity 3 Credit Hours**
Prerequisite: graduate standing in Sociology or permission of instructor. Review of concepts and terminology of social differentiation, and in-depth study of the theories of prejudice and discrimination, power and dominance, and patterns of inter-group relations. Includes a history and analysis of race and ethnicity in the United States and other selected countries. (Irreg.)
- SOC 5683 Categorical, Panel, and Advanced Statistical Analyses 3 Credit Hours**
Prerequisite: SOC 5483 or permission of instructor. The primary focus of this course will be on the application of categorical outcome regression models for social scientific research questions. The course will also provide a broad-based overview of some advanced statistical models commonly used in the social sciences including basic longitudinal/panel statistical models, hierarchical linear models, and a number of approaches to handling missing data in regression analysis. (Irreg.)

- SOC 5713 Program Evaluation Practicum 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission.
Field experience. Students will observe and document how working professionals perform their job responsibilities. Students will also participate in performing tasks under supervision by program professors and on-site staff. (Irreg.)
- SOC 5723 Sociology of the Family 3 Credit Hours**
Prerequisite: graduate standing in Sociology or permission of the instructor. Analysis of the family as a social institution, focusing on the problems created by changes in the family. The family is examined in historical, cross cultural and demographic perspectives. Applications include consideration of alternative arrangements, including discussion of the probable future of family arrangements in Western society. (Irreg.)
- SOC 5733 Sociology of Gender 3 Credit Hours**
Prerequisite: graduate standing in Sociology or permission of instructor. Theoretical and empirical approaches to the study of gender within several substantive areas of sociology such as family, work, race and ethnicity, and social class. (Irreg.)
- SOC 5743 Religion Seminar 3 Credit Hours**
Prerequisite: Graduate standing, majoring in sociology or permission of instructor/department. The course considers theoretical perspectives on religion. In connection with that, it examines the major world religions, including how they developed historically and in the context of other social institutions. The course examines how religious institutions are influenced by, and have an influence on, societies and the people in them, considering the contemporary world in its comparative and historical context. (Irreg.)
- SOC 5790 Special Sociological Issues 2-3 Credit Hours**
2 to 3 hours. Prerequisite: graduate standing in Sociology and permission of instructor. May be repeated with change of content; maximum credit 12 hours. Intensive survey of the literature in a selected area of sociology under the direction of a member of the staff. Instructors rotate each semester. (Irreg.)
- SOC 5821 Professionalization Seminar 1 Credit Hour**
Prerequisite: Graduate standing and majors only. Prepares students for careers in academia. Comprised of units covering research and service. (Irreg.)
- SOC 5823 Social Demography 3 Credit Hours**
Prerequisite: graduate standing in Sociology or permission of instructor. Introduction to the four variables that comprise the subject matter of demography: fertility, mortality, migration, and age structure. Sources of demographic data for the study of these variables are examined and basic demographic statistics are covered. (Irreg.)
- SOC 5831 Teaching Seminar 1 Credit Hour**
Prerequisite: graduate standing in Sociology. Preparation for teaching sociology. Taken prior to assignment of sole responsibility for teaching a course in sociology. (Irreg.)
- SOC 5833 Social Psychology 3 Credit Hours**
Prerequisite: graduate standing in Sociology or permission of instructor. Examines issues regarding research in social psychology and personality psychology. Addresses the history of social psychology research issues, some class controversies, and new research directions in the field. Specific topics include social cognition attitudes, attribution, the self, groups, expectation states, collective behavior, the life course. (Irreg.)
- SOC 5873 World Religions and Society 3 Credit Hours**
(Slashlisted with SOC 4873) Prerequisite: graduate standing. The course examines the major world religions, how they develop historically and in the context of other social institutions. Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, Islam, and Native Traditions will be considered. Students will study how religious institutions are influenced by, and have an influence on, societies and the people in them. No student may earn credit for both 4873 and 5873. (Irreg.)
- SOC 5893 Seminar in Environment and Society 3 Credit Hours**
Prerequisite: graduate standing. Explores the human interface with the natural environment through the sociological perspective, particularly in the late industrial era. How social development, population and technology impact the environment will be studied. Considering ways to think about the complex array of environmental issues as society moves into the Third Millennium will conclude the course. (Irreg.)
- SOC 5933 Sociological Theory 3 Credit Hours**
Prerequisite: graduate standing in Sociology or permission of instructor. Intensive analysis of the original writings of classical sociologists including Durkheim, Weber and Marx. Attention is devoted to the application of classical theories to current research issues. (Irreg.)
- SOC 5943 Inequality in a Global Perspective 3 Credit Hours**
Prerequisite: graduate standing in Sociology or permission of instructor. Provides an in-depth review and analysis of the sociological concepts and theories used to study how wealth (and its correlates, power and prestige) are created and distributed. Special emphasis is placed upon how these processes occur within a global system. (Irreg.)
- SOC 5960 Directed Readings in Sociology 1-4 Credit Hours**
Prerequisite: Graduate standing, twelve hours of upper-division sociology. No more than six hours may be counted toward the M.A. degree. No more than twelve hours may be counted toward the Ph.D. degree. Intensive survey of literature in a selected area of sociology under the direction of a sociology faculty member. (F, Sp, Su)
- SOC 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing in Sociology or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- SOC 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- SOC 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- SOC 6343 Special Topics in Criminology 3 Credit Hours**
Prerequisite: graduate standing in Sociology or permission of instructor. May be repeated; maximum credit 12 hours. Covers in depth one significant topic in the area of criminology such as, but not limited to, deterrence, longitudinal research, ecology of crime, drugs and alcohol, societal reaction theory, macro-normative theory, micro-normative theory, penology, mental illness, victimology, and violence. (Irreg.)

SOC 6353 Life Course Seminar 3 Credit Hours

Prerequisite: Graduate standing in Sociology or permission of instructor; May be repeated; maximum credit 12 hours. Covers in depth a topic in the area of demography such as, but not limited to, migration, mortality, fertility, population composition, and segregation. (Irreg.)

SOC 6363 Family Demography Seminar 3 Credit Hours

Prerequisite: Graduate standing in Sociology or permission of instructor; May be repeated with change of content; maximum credit 12 hours. Covers in depth one significant area of social differentiation such as, but not limited to, racial prejudice/discrimination, status attainment, poverty and welfare, work and occupations, community power and social elites. (Irreg.)

SOC 6373 Sociology of Sexualities 3 Credit Hours

Prerequisite: Graduate standing in Sociology or permission of instructor. Considers sociological understandings of sex and sexualities, LGBTQ identities/experiences, and heteronormativity with an emphasis on gender, power, and intersectionalities. (Irreg.)

SOC 6753 Historical and Comparative Sociology 3 Credit Hours

Prerequisite: graduate standing in Sociology or permission of instructor. Examines how religious, educational, economic, and political institutions influence peoples lives from a historical and comparative perspective. Examines general principles and conditions for how societies evolve over time. (Irreg.)

SOC 6903 Issues in Sociological Theory 3 Credit Hours

Prerequisite: SOC 5933 and graduate standing in Sociology or permission of instructor. M.A. students may enroll only once; Ph.D. students may repeat the course once with a change of topic; maximum credit six hours. Examines a particular sociological theory in detail at a level appropriate for students who have completed SOC 5933. Topics will vary and may include conflict theory, functionalism, symbolic interactionism, exchange theory, etc. (Irreg.)

SOC 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

SOC 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing in Sociology or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

SOC 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

SOC 6990 Special Studies in Sociology 1-4 Credit Hours

1 to 4 hours. Prerequisite: eighteen hours of sociology and permission of instructor. Individual research in a selected field; a problem is analyzed under the direction of a member of the staff. (F, Sp)

Sociology - General Option, B.A.

Minimum Total Credit Hours: 120

Major Hours: 33

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00

Major GPA - Combined and OU: 2.00

Program Code: B845

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.

Code	Title	Credit Hours
Sociology Core		
SOC 1113	Introduction to Sociology	3
SOC 3123	Social Statistics	3
SOC 3133	Methods of Social Research	3
SOC 3363	Sociological Theory	3
SOC 4943	Capstone in General Sociology	3
Substantive Area Courses		
Choose five courses from the Substantive Area course list (p. 724)		15
Major Elective Courses		
Choose one additional Sociology course which may be chosen from courses listed in Substantive Area		3
Total Credit Hours		33

NOTES

- PHIL 1113 Intro. to Logic will not satisfy the prerequisite to enroll in SOC 3123 Social Statistics or SOC 3133 Methods of Social Research.
- Both SOC 3123 and SOC 3133 must be completed with a grade of C or higher BEFORE the capstone.
- The capstone course should be taken the FINAL SEMESTER in residence at the university. It is only offered in Spring and Fall semesters.
- We suggest using free elective hours to help students utilize their academic skills after graduation by completing a minor or any service-learning designated class. Service-learning designated classes can be found by searching for SERV when enrolling. These classes are also very beneficial: CAS 3091 Career Planning for Arts & Sciences and CAS 4113 Life After OU-Survival Course

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/general/courses>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-13 hours in the same language)</i>		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level)		0-3
<i>Mathematics (3 hours)</i>		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
<i>Biological Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO		3-4
¹		
<i>Physical Science</i>		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS		3-4
¹		

Core Area III: Social Science (6 hours)

P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3

Core Area IV: Arts and Humanities (18 hours)

<i>Artistic Forms</i>		
Choose one course from the General Education Artistic Forms list		3
<i>Western Culture</i>		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
<i>World Culture</i>		
Choose one course from the General Education World Culture list		3
<i>Additional Core IV Upper-Division Arts & Humanities courses</i>		
Choose one course from Artistic Forms, Western Culture, or World Culture		3
^{1,3}		
Choose one course from Artistic Forms, Western Culture, or World Culture		3
^{1,3}		

Core Area V: First Year Experience (3 hours)

Choose one course		3
-------------------	--	---

Total Credit Hours **56**

- ¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
- ² One course at the intermediate level or demonstrated competency at that level
- ³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.

- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Sociology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Sociology major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
	Math (Core I)	3
	Beginning Language (Core I)	5
	Natural Science with lab (Core II)	4
Credit Hours		15

NOTES

- PHIL 1113 Intro. to Logic will not satisfy the prerequisite to enroll in SOC 3123 Social Statistics or SOC 3133 Methods of Social Research.
- Both SOC 3123 and SOC 3133 must be completed with a grade of C or higher BEFORE the capstone.
- The capstone course should be taken the FINAL SEMESTER in residence at the university. It is only offered in Spring and Fall semesters.
- We suggest using free elective hours to help students utilize their academic skills after graduation by completing a minor or any service-learning designated class. Service-learning designated classes can be found by searching for SERV when enrolling. These classes are also very beneficial: CAS 3091 Career Planning for Arts & Sciences and CAS 4113 Life After OU-Survival Course

Total Credit Hours	56

¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

² One course at the intermediate level or demonstrated competency at that level

³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.**

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Sociology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Sociology major requirements.

¹ A grade of C or better must be earned in SOC 3123 and SOC 3133.

Sociology - General, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 9

Program Code: N845

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Sociology.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in Sociology, including at least nine (9) hours at the upper-division level. SOC 3890 will *not* count toward this total.

Code	Title	Credit Hours

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Applied Research and Program Evaluation, Graduate Certificate

Choose 9 credit hours from the electives course list maintained by the department or approved by the Graduate College. (p. 732)		9
Total Credit Hours		15

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Applied Research and Program Evaluation Electives Course List

- For the most current list of approved electives, please consult the Department of Sociology.

Code	Title	Credit Hours
ANTH 5083	Quantitative Methods in Anthropology	3
ANTH 5153	Ethnography of Communication	3
ANTH 5213	Ethnographic Methods	3
ANTH 5543	Research Design	3
ANTH 5593	Spatial Methods and Technologies in Anthropology	3
COMM 5003	Quantitative Research Methods	3
COMM 5023	Introduction to Quantitative Research Methods	3
COMM 5033	Advanced Statistics	3
COMM 5053	Introduction to Qualitative Research Methods	3

SOC 5483	Advanced Regression Analysis	3
SOC 5683	Categorical, Panel, and Advanced Statistical Analyses	3

Other relevant social science, policy science, behavioral science courses in research methods and statistics. (Students must seek approval for courses other than those listed above).

Sociology, Ph.D.

Minimum Total Hours: 90

Program Code: D845

This program has changes for 2024 pending approval by the OU Board of Regents which are not reflected here.

Program Requirements

Code	Title	Credit Hours
Required Courses (20 hours)		
SOC 5283	Fundamentals of Sociological Statistics	3
SOC 5293	Advanced Methods of Social Research	3
SOC 5483	Advanced Regression Analysis	3
SOC 5683	Categorical, Panel, and Advanced Statistical Analyses	3
SOC 5821	Professionalization Seminar	1
SOC 5831	Teaching Seminar	1
SOC 5933	Sociological Theory	3

SOC 6903	Issues in Sociological Theory	3
Dissertation Research (2 hour minimum, 24 hour maximum)		
SOC 6980	Research for Doctoral Dissertation	2-24
Additional Coursework		
Additional graduate credit hours as needed to reach 90 post-baccalaureate hours, with approval by doctoral advisory committee ¹		46-68
Total Credit Hours		90

¹ Minimum of 46 hours, at least 33 hours must be housed in the Department of Sociology at the 5000-level or above. 12 hours of electives may be Directed Readings (5960), cross-listed courses housed outside the department, or other courses outside the department.

A maximum of 34 credit hours may be transferred from other universities with the permission of a student's advisory committee and the dean of the Graduate College.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

General Information

The OU Women's and Gender Studies Department was the first in the state of Oklahoma to offer an undergraduate major in the discipline. Our students explore the operations of power through the workings of gender and sexuality as understood across cultures and history. Women's and Gender Studies courses employ intersectional perspectives in the study of such diverse phenomena as music, art, war, political activism, religion, communication, family life, and popular culture.

Through coursework, service learning and internships our students learn critical thinking, writing, public speaking, organization, conflict resolution, and project design. The transdisciplinary and intersectional perspectives students gain in the Department of Women's and Gender Studies enable them to achieve their highest potential in their chosen field and as citizens of diverse local and global communities. Women's and Gender Studies majors and minors have found work in for-profit and not-for-profit organizations, social help agencies, human rights advocacy, and victim's advocacy. Others have pursued graduate study in law, medicine, human relations, education, business, information science, communications, fine arts, and public health.

Programs & Facilities

The WGS Center for Social Justice

The WGS Center for Social Justice is committed to the pursuit of justice, equality, and rights through local and global community engagement. Toward that end, we embrace interdisciplinary approaches to teaching, research, and creative praxis. The CSJ offers a platform for social and ecological justice advocacy and awareness, while creating opportunities for students to create positive change.

WGS Library

The Women's and Gender Studies Library was created thanks to a generous gift from the Cousin's Family. On October 16, 1998, Charles Cousins was honored at a reception dedicating the Women's and Gender Studies Library.

Scholarships and Financial Aid

Student Travel Awards

The Women's and Gender Studies Department makes available travel awards to students with a declared WGS major/minor/certificate to support the cost of attending a conference, research trip, or special event. Awards are available on a rolling basis.

Alice Mary Robertson Award

The Alice Mary Robertson award was established to honor the memory of Alice Mary Robertson, Oklahoma's first female representative in the United States Congress. The purpose of the award is to stimulate an interest among graduate students in the study and interpretation of the contributions made by women to the culture and progress of Oklahoma as well as to awaken the public to a greater appreciation of these contributions. The award is a one-time award to a graduate student whose creative activity and/or scholarly or archival research enhances the appreciation of these contributions. Any graduate student currently enrolled at the University of Oklahoma or Tulsa campuses may submit an application for this award. A committee selects the recipients during the spring semester, based on an evaluation of the creative or research activity.

Undergraduate Study

Bachelor of Arts

Students undertaking a Bachelor of Arts (p. 739) in Women's and Gender Studies explore the operations of power through the workings of gender and sexuality as understood across cultures and history. Women's and Gender Studies courses employ intersectional perspectives in the study of such diverse phenomena as music, art, war, political activism, religion, communication, family life, and popular culture.

Women's and Gender Studies students learn a variety of skills including critical thinking, writing, public speaking, organization, conflict resolution, diversity training and project design. The interdisciplinary and global perspectives students gain in the Department of Women's and Gender Studies enables them to achieve their highest potential in their chosen field of study and as citizens of the global community.

Minors

The LGBTQ Studies Minor (p. 741) provides students with an intersectional analysis of how LGBTQ identities and community have been (and continue to be) shaped historically, socially, philosophically, culturally, medically, and scientifically. It creates a space for critical inquiry around how sexual and gender minorities are affected by society's normative perceptions and practices, while also exploring ways various LGBTQ communities and individuals have responded.

The Social Justice Minor (p. 742) engages students with the complexities and critical analysis of structural inequalities and injustices. Students will learn to utilize multidisciplinary and feminist approaches that recognize the struggles for liberation and the importance of social movements, advocacy, and activism locally and globally.

The Women's and Gender Studies Minor (p. 743) can easily be combined with many majors including Education, English, History, Human Relations, Journalism and Mass Communication, Music, Modern Languages, Political Science, Psychology, Sociology and Social Work.

Graduate Study

Graduate Certificate

The Women's and Gender Studies (p. 744) Graduate Certificate provides an interdisciplinary and intersectional graduate education focusing on feminist thought and methodologies.

The certificate can be taken to complement an existing degree program for OU graduate students. Non-degree students may enroll directly in the certificate program, which can help them with career goals in areas such as education and non-profit work.

Courses

LGBT 1003 Introduction to LGBTQ Studies 3 Credit Hours

Covers expansive fields of Lesbian, Gay, Bisexual, Trans*, and Queer studies. Includes issues related to lesbian, gay, bisexual, transgender, and queer communities, organizing, and theorizing. Emphasizes different aspects of LGBTQ studies including history, queer theory, popular culture, media, and literature. Examines its relationship with historical and contemporary movements as well as its productive, yet sometimes tenuous, relationship with feminist studies. (F, Sp) [IV-WC].

LGBT 3263 LGBTQ Movements 3 Credit Hours

(Crosslisted with WGS 3263) Prerequisite: WGS 1003 or junior standing. This course will focus on the mainstream gay and lesbian movement in US history, and how that movement shifted from radical to mainstream and the important debates therein. The course will also consider the impact of systems of oppression from colonialism to the US justice system on LGBTQ identity. (Irreg.)

LGBT 3273 Queer Theory 3 Credit Hours

(Crosslisted with WGS 3273) Prerequisite: WGS 1003 or junior standing. This interdisciplinary course is an introduction to the academic fields and debates within queer theory, specifically, normalization, resistance, and the practice of queering. The central focus is to examine, challenge, critique, and destabilize normative conceptions and representations of not just gender and sexuality but of other categories of being as well. (Irreg.)

LGBT 3823 Queer Religion 3 Credit Hours

(Crosslisted with RELS and WGS 3823) Prerequisite: Junior standing or permission of instructor. This interdisciplinary seminar engages a range of methods and theoretical approaches to queer studies and religion. The course explores questions including: What is the relationship between queer life and religious life? Is religion ever queer? Is queerness ever religious? What do scholars mean when they label religion (or other objects of study) as queer or queer-able? (Irreg.) [IV-WC].

LGBT 4623 Gender and Children's Culture 3 Credit Hours

(Crosslisted with WGS 4623) Prerequisite: WGS 1003 or LGBT 1003. Children's culture shapes our identities and environments. This course explores children's culture contexts through feminist and queer frameworks. Key content includes analyzing children's media, video games, books, toys, the environment, academics, and digital cultures while examining how childhood is a context for cultural history and leveraging power. It focuses on children's engagement in world building and knowledge production. (F)

LGBT 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

WGS 1003 Introduction to Women's and Gender Studies 3 Credit Hours

Examines women's issues and movements in the U.S. and globally, focusing on the role of gender in people's lives and on the ways it is used to create privilege for some and oppress others. This course challenges traditional, normative notions about gender and sexuality, which are inextricably entwined. Explores how disability, race, and religion intersect with gender and sexual identity. (F, Sp, Su) [IV-WC].

WGS 2033 Introduction to Digital Humanities 3 Credit Hours

(Crosslisted with LIS, HIST and HSTM 2033) This course introduces students to digital and/or computational methods in the humanities and addresses critical questions about the role of digital technology in society. This is a collaborative, hands-on, project-based course. (Sp) [IV-WC].

WGS 2970 Special Topics in WGS 1-4 Credit Hours

Special Topics. 1 to 4 hours. May be repeated; Maximum credit eight hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

- WGS 3043 Gender/Power/Ldrshp-Politics 3 Credit Hours**
(Crosslisted with P SC 3043) Prerequisite: Political Science 1113. Focuses on the relationship between gender, power, leadership, and government in politics and public administration. Causes of under-representation of women in elected office and the bureaucracy are explored. Historical, social, psychological, and organizational barriers are considered. (Irreg.)
- WGS 3063 Topics in United States Women's Movements 3 Credit Hours**
Prerequisite: WGS 1003 or junior standing. May be repeated with change of content; maximum credit 9 hours. Content will vary but will cover a particular aspect of women's studies, be it history, art, communication, literature, contemporary social problems, theory, or other appropriate area of study. (Irreg.)
- WGS 3123 Social Justice and Social Change 3 Credit Hours**
Prerequisite: W S 1003 or junior standing. Introduces students to the major theories and principles of social justice, including fairness, equality and justice; applies these concepts to contemporary social issues such as poverty, gender equality, racial and ethnic identity and politics, environmentalism, the social role of media, war, and globalization; and suggests strategies for creating social change and social justice. Includes both an analysis of the major cultural and structural causes of inequality and injustice, and an examination of the most effective responses. (Irreg.) [IV-WC].
- WGS 3133 Medieval Women 3 Credit Hours**
(Crosslisted with HIST 3133) Prerequisite: History 1113 or History 1613 or junior standing. Covers social history of women in western Europe from late antiquity to the late Middle Ages. Topics include stages of life, marriage, families, occupation, law, power, health, religion, love and education. (F) [IV-WC].
- WGS 3203 Rhetoric and Sexuality 3 Credit Hours**
(Crosslisted with ENGL 3203) Prerequisite: ENGL 1213 or EXPO 1213 or the equivalent. Investigates the intersections of rhetoric and sexuality as they function socially, politically, and personally. Development and application of research methods from the field of rhetoric and writing studies with a focus on writing, inquiry and revision. (Irreg.) [I-O].
- WGS 3220 WGS Special Topics 1-3 Credit Hours**
Prerequisite: WGS 1003 or junior standing. 1 to 3 hours. 3220 preceded by the department name will be a junior level interdisciplinary course in women's studies. May be repeated with change of title and content; maximum credit nine hours. Content will be agreed upon by the departments in cooperation with women's studies. (F, Sp, Su)
- WGS 3223 WGS Special Topics 3 Credit Hours**
Prerequisite: WGS 1003 or junior standing. 3223 preceded by the department name will be a junior level interdisciplinary course in women's and gender studies. May be repeated with change of title and content; maximum credit twelve hours. (F, Sp, Su)
- WGS 3233 Women Creating Social Change 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Overview of how women's organizations developed as part of the women's movement in the 1960's. Examines how women have organized at the local, regional and national levels, both within and across race, class, ethnicity, religion and sexuality. Provides students with a basic understanding of how to create, run and manage a nonprofit organization. (F) [IV-WC].
- WGS 3253 Men and Masculinity 3 Credit Hours**
Prerequisite: junior standing or W S 1003. Designed as an introduction to the literature and theory that focuses on men and masculinity. Masculinity will be opened for critique and critical inquiry in cross-cultural and cross-historical comparison. The performance of masculinity and attendant judgments of this performance change based upon class, race, ethnicity, sexuality, politics, geography, culture, and language. Our readings are designed to analyze this performance from a number of contextual and sociological angles. Particular emphasis will focus on the way that masculinity and concepts of masculinity have been received and engaged in women's and gender studies, feminism and queer theory. (Irreg.)
- WGS 3263 LGBTQ Movements 3 Credit Hours**
(Crosslisted with LGBT 3263) Prerequisite: WGS 1003 or junior standing. This course will focus on the mainstream gay and lesbian movement in US history, and how that movement shifted from radical to mainstream and the important debates therein. The course will also consider the impact of systems of oppression from colonialism to the US justice system on LGBTQ identity. (Irreg.)
- WGS 3273 Queer Theory 3 Credit Hours**
(Crosslisted with LGBT 3273) Prerequisite: WGS 1003 or junior standing. This interdisciplinary course is an introduction to the academic fields and debates within queer theory, specifically, normalization, resistance, and the practice of queering. The central focus is to examine, challenge, critique, and destabilize normative conceptions and representations of not just gender and sexuality but of other categories of being as well. (Irreg.)
- WGS 3283 Human Trafficking 3 Credit Hours**
Prerequisite: junior standing. Introduces the trafficking of persons in different areas, included, but not limited to, bonded labor, forced migration, and sex trafficking. Human trafficking from a historical and also modern perspective, both in the United States and in the global context, will be studied. Human trafficking is modern day slavery. There are more slaves in the world today than before the time of abolition. Estimates show there are about 27-30 million people are enslaved in the world today. Human trafficking is a 32 billion dollar industry worldwide and is second only to drug trafficking with 36 billion dollar revenue. Explores the different kinds of trafficking, effects of globalization, the demand, and what the governments can do in order to combat human trafficking. (F)
- WGS 3353 Race, Class & Gender 3 Credit Hours**
(Crosslisted with SOC 3353) Prerequisite: junior standing or permission of instructor. Explores the intersections of race, ethnicity, class, gender and sexuality. Focus is on how systems of power and oppression reinforce each other, how they intersect in shaping social structure and individual experiences, and how the systems of oppression are mutually reinforcing. Theories and practice of intersectionality, how gender, race, class and other categories of identity are constructed and reproduced in social, political, and economic structures, and experienced in every day life. (F, Sp)
- WGS 3393 Gender and Identity in STEM 3 Credit Hours**
Prerequisite: Sophomore standing or permission of the instructor. This course examines the effects of gender and other forms of identity, including race, ethnicity, and sexual orientation, on contemporary STEM students and professionals, including the impact on skill, self-efficacy, and academic/professional outcomes in STEM disciplines. It also explores the intersection and effects of cultural expectations associated with gender, race, ethnicity, and sexual orientation on professional identity and student engagement. (Irreg.) [IV-WC].

- WGS 3413 Body Image Vs. Reality** **3 Credit Hours**
Prerequisite: 1003 or junior standing. Looks at the topic of body image, which is of great importance to men and women. We explore women's identity in popular culture, examining how different authors have responded to the pressures on women to be beautiful, to inhabit a particular place in society and to create a space for themselves as subjects rather than objects. (F, Sp, Su)
- WGS 3423 Women and Sports** **3 Credit Hours**
Prerequisite: 1003 or junior standing. Examines six generations of American women athletes and their struggle to achieve equality. Explores how women have historically participated in sports and how sports have changed with the passage to Title IX, as well as contemporary female athletics. (F, Sp)
- WGS 3433 Race and Sexuality in Women's Sports** **3 Credit Hours**
Prerequisite: Junior Standing. This course is an in-depth look at how gender and sexuality have impacted sports for women. The class will address the issues facing women of color and LGBTQ women and how they survived in a world that had no experience in accepting them. Also included is the role of Title IX and how contemporary female athletes have changed society. (Sp)
- WGS 3440 Mentored Research Experience** **3 Credit Hours**
- WGS 3463 Sex and Gender in Early Christianities** **3 Credit Hours**
Prerequisite: Junior standing. Course introduces students to the diverse understandings of sexuality and gender that developed in early Christianities. Focus on the relationships between gender, leadership, and power; understandings of the body; and views on human sexuality including same-sex relationships, non-binary and transgressive gender expressions, and celibacy. Course will examine how developments in these early Christian communities had long-lasting effects throughout history. (Sp)
- WGS 3473 Red Dirt Women and Power** **3 Credit Hours**
Prerequisite: 1003 or junior standing. The stories of "red dirt women" are central to an examination of their power and vulnerability in Oklahoma past and present. Individual women come alive as students do oral/video histories. Novels, videos, history and structural social analysis place them in their social context. (F) [IV-WC].
- WGS 3483 Domestic Violence and the Law** **3 Credit Hours**
Prerequisite: 1003 or junior standing. Introduction to the legal aspects of domestic violence by examining case law, statutes and scholarly research and commentary. Studies how domestic violence is addressed by the legal system, and analyzes the different legal treatment of married couples, non-married couples and same-sex couples. Law enforcement, court systems, legal representation, and advocacy groups are evaluated for the role they play in domestic violence law. (F)
- WGS 3493 Bodies, Nature, and Justice** **3 Credit Hours**
Prerequisite: WGS 1003. This course will explore the interconnections between reproductive justice and environmental justice. We use feminist theories of embodiment combined with critical environmental humanities explorations of what constitutes "nature" to explore the political and ethical dimensions of reproductive justice and environmental justice. (Irreg.)
- WGS 3513 Gender, Law and Human Rights** **3 Credit Hours**
Prerequisite: junior standing or 1003. This course follows the development of women's human rights and the subsequent evolution of legal remedies for gender-specific issues. Studies will include the relevant treaties and conventions of the United Nations as well as international case law affecting women. Various women's human rights issues we will study include religion, employment discrimination, gender violence, cultural relativism, polygyny and reproductive rights. (Irreg.) [III-SS].
- WGS 3523 Reproductive Law and Justice** **3 Credit Hours**
Prerequisite: Junior standing. In the United States, reproductive rights incorporate legal principles including family law, health law, criminal law, immigration, human rights, and constitutional law. Explores social, legal, and economic barriers to accessing reproductive health through tools including critical race theory, critical legal theory, human rights, feminist theory, and public health systems. Includes contemporary issues: breast-feeding regulations, gender identity discrimination, poverty, and racism. (F)
- WGS 3563 Gender and Global Politics** **3 Credit Hours**
Prerequisite: junior standing or permission of instructor. How gender shapes global processes such as war and peace, globalization and labor migration, the rise of ideologies of community such as ethno-nationalism and religious fundamentalism, and the emergence of global norms and activism. A particular focus is on local and global social movements and activism that address gender inequality, as well as the rise of global norms of gender equality. (F) [III-SS].
- WGS 3703 Female Heroism in Hollywood** **3 Credit Hours**
Prerequisite: WGS 1003 or junior standing. Examines conceptual and performative shifts in female heroism in Hollywood genre. Students will engage with various theoretical (feminist theory, feminist film theory, critical race theory) and critical texts discussing the social construction of the female body in American society and cinema, and examine the changing generic parameters through which the female body is considered and constituted heroic. (F) [IV-WC].
- WGS 3713 Gender and James Bond** **3 Credit Hours**
Prerequisite: WGS 1003 or junior standing. Explores the unprecedented longevity and popular cultural viability of the James Bond film franchise by considering the representations of heroism and villainy in the series, focusing on the performance and intersectionality of gender, race, class, nationality and sexual orientation. Examines representations of women and the way those representations have changed throughout the life of the franchise. (Irreg.) [IV-WC].
- WGS 3810 WGS Special Topics** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: WGS 1003 or junior standing. May be repeated with change of content; maximum credit nine hours. Content will vary but will cover a particular aspect of women's studies, be it history, art, communication, literature, contemporary social problems, theory, or other appropriate area of study. Texts and supplementary readings will be assigned according to the topics chosen. (F, Sp)
- WGS 3813 WGS Special Topics** **3 Credit Hours**
Prerequisite: WGS 1003 or junior standing. May be repeated with change of content; maximum credit nine hours. Content will vary but will cover a particular aspect of women's and gender studies, be it history, art, communication, literature, contemporary social problems, theory, or other appropriate area of study. (Irreg.)

- WGS 3823 Queer Religion 3 Credit Hours**
(Crosslisted with LGBT and RELS 3823) Prerequisite: Junior standing or permission of instructor. This interdisciplinary seminar engages a range of methods and theoretical approaches to queer studies and religion. The course explores questions including: What is the relationship between queer life and religious life? Is religion ever queer? Is queerness ever religious? What do scholars mean when they label religion (or other objects of study) as queer or queer-able? (Irreg.) [IV-WC].
- WGS 3933 U.S. Queer History 3 Credit Hours**
(Crosslisted with HIST 3933) Prerequisite: Junior standing. The last 130 years have been a time of incredible change for LBGTQ people and the meanings of sexuality in the United States. We will trace LBGTQ experience and community formation, the policing of queer communities, and the constructions of queerness in pop culture, medicine, the law, and politics, as well as how these histories inform our own time. (Irreg.) [IV-WC].
- WGS 3943 Women's Health 3 Credit Hours**
Prerequisite: 2003 or permission of instructor. Students will gain basic understanding of subjects necessary to develop physical, mental, and social well-being. Covers female anatomy, physiology, and normal processes, including reproduction, childbearing, and menopause. Healthy life choices and decision-making, stress management, and self-care, including nutrition, exercise, and mental wellness, will also be considered. (F, Sp)
- WGS 3953 Women and the Law 3 Credit Hours**
Prerequisite: junior standing. This course will examine the history of women's rights and gender discrimination in the United States. It will focus on topics such as the family, education, reproduction, sexual harassment, violence against women, pornography and discrimination in the workplace. Although the subject matter involves legal cases and discourse, it is not intended to be a law school course. (F) [IV-WC].
- WGS 3960 Honors Reading (HONORS) 1-3 Credit Hours**
Prerequisite: 2003 and admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the Women's and Gender Studies faculty member. Topics will cover materials not usually presented in regular courses. (Irreg.)
- WGS 3963 Gender, Employment Discrimination and Law 3 Credit Hours**
Prerequisite: WGS 1003 or junior standing. Taught through a feminist lens, students will learn about employment law by focusing primarily on Title VII of the Civil Rights Act of 1964 and federal case law examining adverse employment actions on the basis of sex. Sexual harassment, gender discrimination, family leave, sexual orientation and equal pay will all be examined in detail. (Irreg.)
- WGS 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- WGS 3973 Divorce Law and Social Implications 3 Credit Hours**
Prerequisite: WGS 1003 or junior standing. This course provides an understanding of divorce law and the social impact divorce can have on women in particular. This information is crucial to understanding gendered poverty, single parenting issues, and societal norms associated with divorced women and will be looked at through a feminist lens. (Irreg.)
- WGS 3980 Honors Research (HONORS) 1-3 Credit Hours**
Prerequisite: 2003 and admission to Honors Program. Individualized research with a Women's and Gender Studies faculty member on a topic leading toward work for the Honors thesis. In-depth research of specialized topic in women's studies. (Irreg.)
- WGS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- WGS 4003 Women's and Gender Studies Senior Capstone 3 Credit Hours**
Prerequisite: WGS 1003 or junior standing and WGS major or minor. Designed to acquaint majors and/or minors with the inter-relationship between theory and methodology in Women's and Gender Studies. The course will interweave the sciences, social sciences, humanities, and arts. Students are expected to write weekly critiques, develop a research proposal, and do an oral presentation. (Sp)
- WGS 4013 WGS Internship 3 Credit Hours**
Prerequisite: junior standing, permission of adviser and instructor, and an approved women's and gender studies course. May be repeated; maximum credit six hours. Students must relate their academic experience to women's or gender issues by working with a non-profit organization or project. Academic credit is based on the site supervisor's report and a substantial paper relating to the internship experience. (F, Sp, Su)
- WGS 4023 Social Justice Internship 3 Credit Hours**
Prerequisite: 2223 and junior standing and 2.5 GPA. Designed to provide students an opportunity to relate their academic experience to social justice issues in the community by working in a social justice agency or non-profit organization or on a social justice service-learning project for a semester. (F, Sp)
- WGS 4073 Cultural Heritage Data and Social Engagement 3 Credit Hours**
(Slashlisted with WGS 5073; Crosslisted with HIST, LIS and HSTM 4073) Prerequisite: Junior standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage – the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)
- WGS G4120 WGS Special Topics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing. May be repeated in a given department, maximum credit nine hours, provided that the course title and content is different in each instance. (F, Sp, Su)
- WGS 4123 Contemporary Feminist Thought 3 Credit Hours**
(Slashlisted with WGS 5123) Prerequisite: senior standing or permission of instructor. Survey of the core concepts and texts of feminist theory exposes students to the major works in feminist theory as well as critiques and scholarly analysis of them. Includes discussion of the roots of feminist theory, analysis of alternatives to liberal feminist thought, and examination of the impact of postmodernism on feminist thought and the rise of global feminism. (Sp) [V].
- WGS 4233 Feminist Research Methods 3 Credit Hours**
Prerequisite: WGS 1003 or LGBT 1003 and declared WGS major or minor. This course teaches students the building blocks of feminist knowledge production, exploring the theories behind research methodologies in Women's and Gender Studies scholarship, the importance of understanding interdisciplinary methods as well as new methods in WGS, and how to navigate complex information and data environments. Students will apply their knowledge by conducting original research in projects of their own design. (F)

- WGS 4473 Women and Mental Health 3 Credit Hours**
Prerequisite: junior standing. Examines psychological theory and practice as it pertains to women. Will look at traditional theories and practice, new approaches to working with women, and such topical issues as leadership, work issues, depression, trauma, and health. Will be useful to all students who seek to have a better understanding of social and psychological issues that impact women, and how to help resolve those issues. (Irreg.)
- WGS 4623 Gender and Children's Culture 3 Credit Hours**
(Crosslisted with LGBT 4623) Prerequisite: WGS 1003 or LGBT 1003. Children's culture shapes our identities and environments. This course explores children's culture contexts through feminist and queer frameworks. Key content includes analyzing children's media, video games, books, toys, the environment, academics, and digital cultures while examining how childhood is a context for cultural history and leveraging power. It focuses on children's engagement in world building and knowledge production. (F)
- WGS 4633 Latina Feminist Epistemologies 3 Credit Hours**
(Slashlisted with WGS 5633; Crosslisted with EDS 4633) Prerequisite: Junior standing. This course explores the experiences of Chicanas and Latinas through the lens of contemporary research. Topics to be discussed: community formation and activism, Chicana/Latina feminism, sexuality, religion, health, family, immigration, migration, education, work, media, and artistic expressions. Readings emphasize the links between the structural inequalities of society, and the day-to-day lived experiences of Chicanas/Latinas. No student may earn credit for both 4633 and 5633. (Irreg.)
- WGS 4643 Black Feminism and Womanism 3 Credit Hours**
(Crosslisted with AFAM 4643) Prerequisite: Junior standing and any 2000-level African and African-American Studies class. This course analyses the way race, gender, sexuality, and socioeconomic status have historically dominated, intersected, and/or competed with the lives and experiences of Black women. This course examines the way Black women have drawn upon these internal struggles to serve as voices of power and agents of social change. Readings in this course will highlight activism, literature, and social justice. (Irreg.)
- WGS 4913 Senior Thesis 3 Credit Hours**
Prerequisite: senior standing and permission of instructor. Research and presentation of written thesis on suitable topics in women's or gender studies. Specific topic must be approved in advance by instructor. (F, Sp, Su)
- WGS 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- WGS 4970 Special Topics in WGS 1-4 Credit Hours**
Prerequisite: twelve hours in women's studies courses or permission of instructor. 1 to 4 hours. Variable content; impact of women's studies on the several academic disciplines; interdisciplinary scholarship on women; integration of women's studies in the curriculum. (Sp)
- WGS 4990 Independent Study 1-6 Credit Hours**
1 to 6 hours. Prerequisite: junior standing, permission of instructor, and an approved Women's and Gender Studies course. May be repeated once with change of content; maximum credit six hours. Designed to accommodate students' interest in reading and research in a specialized area of women's studies. (F, Sp, Su)
- WGS 5001 Women & Gender Studies Colloq 1 Credit Hour**
Prerequisite: 3 hours at or above the 5000-level. Offers a discussion and review of major debates and current literature in the women's and gender studies field with an emphasis on feminist research methods and approaches. Students will expose one another to approaches to women's and gender studies in such major disciplines as anthropology, sociology, political science, education, English, history, communications, and human relations. (F)
- WGS 5013 Graduate Internship 3 Credit Hours**
Prerequisite: graduate standing, permission of instructor, and an approved graduate women's and gender studies course. May be repeated; maximum credit six hours. Students must relate their academic experience to women's or gender issues by working with a non-profit organization or project. Academic credit is based on the site supervisor's report and a substantial paper relating to the internship experience. (F, Sp, Su)
- WGS 5073 Cultural Heritage Data and Social Engagement 3 Credit Hours**
(Slashlisted with WGS 4073; Crosslisted with HIST, LIS and HSTM 5073) Prerequisite: Graduate standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage – the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)
- WGS 5123 Contemporary Feminist Thought 3 Credit Hours**
(Slashlisted with 4123) Prerequisite: graduate standing or permission of instructor. Survey of the core concepts and texts of feminist theory exposes students to the major works in feminist theory as well as critiques and scholarly analysis of them. Includes discussion of the roots of feminist thought, analysis of alternatives to liberal feminist thought, and examination of the impact of postmodernism on feminist thought and the rise of global feminism. (Sp)
- WGS 5633 Latina Feminist Epistemologies 3 Credit Hours**
(Slashlisted with WGS 4633; Crosslisted with EDS 5633) Prerequisite: Graduate standing. This course explores the experiences of Chicanas and Latinas through the lens of contemporary research. Topics to be discussed include community formation and activism, Chicana/Latina feminism, sexuality, religion, health, family, immigration, migration, education, work, media, and artistic expressions. Readings emphasize the links between the structural inequalities of society, and the day-to-day lived experiences of Chicanas/Latinas. No student may earn credit for both 4633 and 5633. (Irreg.)
- WGS 5960 Directed Readings 1-6 Credit Hours**
1 to 6 hours. Prerequisite: six hours of Women's and Gender Studies courses at the graduate level. Graduate directed readings is designed for specialized research on a women's studies topic. (F, Sp, Su)
- WGS 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

WGS 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Choose one course 3

Total Credit Hours 56¹ College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.² One course at the intermediate level or demonstrated competency at that level³ 6 upper-division hours, 2 courses, at the 3000- 4000-level. **Must be outside the major.****Free Electives**

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements**Arts and Sciences Hours:** At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.**Pass/No Pass Enrollment:** A maximum of 16 semester hours of free elective credit may be attempted under this option.**Individual Studies (e.g., courses titled "Independent Study"):** A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.**P.E. Courses:** No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.**Senior Institution Hours:** A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.**Residency:**

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are **not** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU

Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Women's and Gender Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Women's and Gender Studies major requirements.

LGBTQ Studies, Minor

Minimum Total Credit Hours: 18

Minimum Upper-Division Hours: 9

Program Code: N642

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Women's and Gender Studies Program.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level.

Or courses not listed here which qualify for the Women's and Gender Studies major

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Women's and Gender Studies, Graduate Certificate

Minimum Total Hours: 13

Program Code: G110

The purpose of the graduate certificate program is to provide an interdisciplinary graduate education which will broaden and/or give specialty focus to students' Women's and Gender studies. The program may particularly signify a student's focus on one or more of the following: feminist scholarship, research, or creative activity in a particular field of study; teaching interdisciplinary Women's and Gender Studies; or professional public service for/to women/girls/sexual minorities. The graduate certificate will augment and provide formal recognition to students' work in this area, thereby enhancing their success in the academic and professional job markets.

Courses can be double counted between a graduate degree and a graduate certificate. However, courses cannot be double counted towards more than one graduate certificate.

Program Requirements

Code	Title	Credit Hours
WGS 5001	Women & Gender Studies Colloq	1
WGS 5123	Contemporary Feminist Thought	3
<i>Elective Specialty</i>		
Choose 9 hours as approved by the Women's and Gender Studies graduate committee and director ¹		9
Total Credit Hours		13

¹ No more than 3 hours may be taken as Directed Readings, Independent Study, or Internship.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of

coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

COLLEGE OF ATMOSPHERIC AND GEOGRAPHIC SCIENCES

Administrative and Academic Office

120 David L. Boren Blvd., Suite 3630
Norman, OK 73072
Phone: (405) 325-3095
FAX: (405) 325-1180
ags@ou.edu
www.ou.edu/ags

Administrative Officers

Berrien Moore, III, Ph.D., Dean and Director National Weather Center
Petra Klein, Ph.D., Executive Associate Dean
Aisha Owusu, MA, Assistant Dean for Student Services

General Information

The mission of the College of Atmospheric and Geographic Sciences is to provide a world-class academic experience that promotes inclusion, innovation and research, resulting in advanced education and successful career in the private sector, academia, government agencies, and non-governmental organizations.

The college is composed of academic and research units:

Academic Units

- Department of Geography and Environmental Sustainability
- School of Aviation
- School of Meteorology

Research Units

- Advanced Radar Research Center (ARRC)
- Center for the Analysis and Prediction of Storms (CAPS)
- Center for Spatial Analysis (CSA)
- Cooperative Institute for Severe and High-Impact Weather Research and Operations (CIWRO)
- Oklahoma Alliance for Geographical Education (OKAGE)
- Oklahoma Climatological Survey (OCS)
- South Central Climate Adaptation Science Center (SC-CASC)

Programs Offered

- Department of Geography and Environmental Sustainability (p. 752)
 - Environmental Sustainability, B.A. (p. 767)
 - Environmental Sustainability Concentration Elective List (p. 770)
 - Environmental Sustainability, B.S. (p. 771)

- Environmental Science B.S. Electives (p. 773)
- Geographic Information Science, B.A. (p. 774)
- Geographic Information Science, B.S. (p. 776)
- Geography: Geohumanities, B.A. (p. 778)
- Geography: Physical & Social Sciences, B.A. (p. 780)
- Geography, B.S. (p. 782)
- Climate Adaptation, Minor (p. 785)
- Environmental Sustainability, Minor (p. 785)
- Geographic Information Systems, Minor (p. 786)
- Geography, Minor (p. 786)
- Hydrologic Science, Minor (p. 786)
- Physical Geography, Minor (p. 787)
- Environmental Sustainability: Planning & Management, B.A./M.R.C.P. (p. 787)
- Environmental Sustainability: Planning & Management, B.S./M.R.C.P. (p. 790)
- Geographic Information Science, B.A./M.R.C.P. (p. 794)
- Geographic Information Science, B.S./M.R.C.P. (p. 797)
- Geography: Physical & Social Sciences, B.A./M.R.C.P. (p. 799)
- Geography, B.S./M.R.C.P. (p. 802)
- Geography & Environmental Sustainability, M.A. (p. 805)
- Geography & Environmental Sustainability: Environmental Systems, M.S. (p. 805)
- Geography & Environmental Sustainability: Geospatial Technologies, M.S. (p. 806)
- Geospatial Technologies, Graduate Certificate (p. 807)
- Geography & Environmental Sustainability, Ph.D. (p. 808)
- School of Aviation (p. 809)
 - Aviation: Air Traffic Management Track, B.S. (p. 815)
 - Aviation: Aviation Management Track, B.S. (p. 818)
 - Aviation: Aviation Management – Non-Flying Track, B.S. (p. 820)
 - Aviation: Professional Pilot - Airplane Track, B.S. (p. 822)
 - Aviation: Professional Pilot - Helicopter Track, B.S. (p. 825)
 - Air Traffic Control, Minor (p. 827)
 - Aviation: Aviation Management, Minor (p. 827)
 - Aviation: Single-Engine Commercial Pilot, Minor (p. 828)
 - Aviation: Multi-Engine Commercial Pilot, Minor (p. 828)
- School of Meteorology (p. 829)
 - Meteorology, B.S. (p. 841)
 - Meteorology Upper Division Major Elective Course List (p. 843)
 - Meteorology, Minor (p. 844)
 - Weather and Climate, Minor (p. 844)
 - Meteorology, B.S./M.B.A. (p. 845)
 - Meteorology, B.S./Data Science and Analytics, M.S. (p. 848)
 - Meteorology, M.S. (p. 850)
 - Meteorology, Ph.D. (p. 851)

Programs & Facilities

The College of Atmospheric and Geographic Sciences occupies state of the art classroom, laboratory, and research space in multiple locations on the OU campus. The Department of Geography and Environmental Sustainability is headquartered in the Sarkeys Energy Center (SEC) on

the OU Main Campus; the School of Aviation boasts Max Westheimer Airport (MWA) as its base on OU North Campus, while the School of Meteorology calls the National Weather Center (NWC) its home on the OU Research Campus. The college's research units are strategically located across the SEC, NWC, as well as in Partner's facilities on the OU Research Campus. Each unit is situated to take full advantage of collaborations that will advance the international leadership role of OU in the aviation, atmospheric, and geographic sciences.

Max Westheimer Airport

The Max Westheimer Airport (MWA) terminal building, the AM&E Building, and the simulator building located on North Campus at the University Research Park are the primary office and classroom buildings for the School of Aviation. The buildings contain many classrooms and study areas, with training aids, simulators, and other facilities to enhance the student's learning environment. The airport is a 15-20 minute drive from main campus or via the EMBARK (Norman's city bus service). Aviation students also have access to the school's maintenance hangars, which further enhance the student's ability to learn. Students are encouraged to take an active part in their learning process.

Sarkeys Energy Center

The Department of Geography and Environmental Sustainability and the Oklahoma Alliance for Geographic Education (OKAGE) are housed on floors four, five, and six in the Sarkeys Energy Center (SEC). Classrooms, computer labs, and laboratory facilities are also located in the building.

The National Weather Center

The National Weather Center (NWC) houses University of Oklahoma components and a confederation of state and federal organizations that work together on educational, pure and applied research, and operational activities. The Atmospheric and Geographic Sciences Dean's Office, the School of Meteorology, the Cooperative Institute for Mesoscale Meteorological Studies, the Center for Analysis and Prediction of Storms, the Center for Spatial Analysis, the Natural Hazards and Disaster Prevention Center, and the Oklahoma Climatological Survey are the University of Oklahoma components of the Weather Center. The federal agencies that are part of the Weather Center include: the National Severe Storms Forecast Laboratory, the Storm Prediction Center, the National Weather Service Office (Oklahoma City), the WSR-88D (NEXRAD) Radar Operations Center, and the Warning Decision Training Branch. The National Weather Center programs offer a rich educational and research environment for students pursuing undergraduate and graduate study in meteorology, climate, hydrology, remote sensing, and computer applications. The NWC also houses the NWC Library, which contains almost 4,000 meteorology books and hundreds of government documents in its collection and access to over 50 atmospheric science journals. The NWC Library supports the research, education, outreach and operations missions of all of the entities in the NWC and also supports the wider meteorology community in Norman. For more information, visit the NWC Library's website.

Advanced Radar Research Center (ARRC)

The Advanced Radar Research Center is involved in many aspects of radar research applied to studies of the atmosphere. Topics range from sophisticated radar signal processing to precipitation microphysical studies.

Center for the Analysis and Prediction of Storms (CAPS)

Center for the Analysis and Prediction of Storms develops and demonstrates techniques for the numerical analysis and prediction of

high-impact local weather and environmental conditions, with emphasis on the assimilation of observations from Doppler radars and other advanced in-situ and remote sensing systems.

Center for Spatial Analysis (CSA)

The Center for Spatial Analysis at the University of Oklahoma is a multidisciplinary university research center specializing in the study and application of geospatial science and technology. CSA is composed of three working units that focus on research and development, outreach and training, and applications and services. Through efforts in each of these units CSA seeks to advance the geospatial vision of the University and contribute to education, research, and economic development in the State of Oklahoma. Housed in Two Partners Place, CSA is a member of the National Weather Center program and the OU Research Campus, an affiliate member in the Oklahoma NASA Space Grant Consortium, and a partner to the Center for Applied Social Research. Visit their website for further information.

Cooperative Institute for Severe and High-Impact Weather Research and Operations (CIWRO)

The Cooperative Institute for Severe and High-Impact Weather Research and Operations is the largest research center at the University of Oklahoma, employing more than 215 researchers, support personnel and students. CIWRO was established in 2021, and extends cooperative programs between the National Oceanic and Atmospheric Administration (NOAA) and OU that have existed continually since 1978. CIWRO connects the scientific and technical resources of OU and NOAA with the goal of improving the basic understanding of weather and transitioning that understanding to operations to produce better forecasts that save lives and property.

FAA Center of Excellence (FAA COE)

In 2016, the University of Oklahoma was awarded as Technical Lead for the Federal Aviation Administration's newest Center of Excellence (FAA COE), focused on Technical Training and Human Performance (TTHP). There are currently 10 active FAA COEs in the United States. As of 2022, OU's Center is in its seventh operational year and has reached \$17 million in funding for 80 research projects. The Center serves the FAA's Air Traffic Organization and Civil Medical Aerospace Institute, as well as the Aviation Safety, Flight Program Operations, and NextGen divisions. The OU FAA Center of Excellence TTHP is a consortium of 15 institutions and over 50 industry partners dedicated to helping the FAA revolutionize training practices for pilots, air traffic controllers, maintenance technicians, safety operators, and engineers. The Center also examines human performance, such as the cognitive, physiological, and psychological factors that result in human error during high risk-based decision making. In addition, the Center has worked with the FAA to increase employee readiness for addressing workforce challenges from natural disasters and/or pandemics. The Center has also recently been expanded to support the FAA in responding to new legislation mandating the in-depth study of the human factor impacts of flight automation on pilot and crew in commercial aircraft.

Oklahoma Alliance for Geographical Education (OKAGE)

Oklahoma Alliance for Geographical Education is an organization for geography educators in Oklahoma, and is affiliated with the National Geographic Society and its national network of state geographic alliances and national geography organizations.

Oklahoma Climatological Survey (OCS)

The Oklahoma Climatological Survey was established in 1980 to provide climatological services to the people of Oklahoma, conduct research on the impacts of climate on human activities, and serve as a support facility for the State Climatologist. OCS has a legislative mandate to acquire, process, and disseminate climate and weather data and information for use by the state's citizens. In addition, the Survey maintains an extensive array of climatological information, conducts research on both land-air interactions and applied climatology, educates hundreds of Oklahoma decision-makers annually, and operates the Oklahoma Mesonet, Oklahoma's weather network. OCS is located in the National Weather Center, part of the Norman Research Campus.

Oklahoma Mesonet

The Oklahoma Mesonet consists of over 100 automated observing stations that continuously monitor numerous important weather and soil variables. The Oklahoma Mesonet Program is administered jointly by the University of Oklahoma and Oklahoma State University.

Southern Climate Impacts Planning Program (SCIPP)

The Southern Climate Impacts Planning Program assists organizations with decision making that builds resilience by collaboratively producing research, tools, and knowledge that reduce weather and climate risks and impacts across the South-Central United States. SCIPP is a partnership between the University of Oklahoma, Louisiana State University, Texas Sea Grant at Texas A&M University, and Adaptation International. Established in 2008, SCIPP is one of several NOAA Climate Adaptation Partnerships teams, formerly Regional Integrated Sciences and Assessments. The SCIPP team includes expertise from various academic disciplines, including climatology, meteorology, climate adaptation, political science, public administration, business, geography, environmental justice, sociology, and psychology. Stakeholder-driven or "co-produced" research is a central tenet of the NOAA CAP program.

Simulation Center

The School of Aviation cut the ribbon on a newly renovated simulation center in the Fall of 2022. This 5,000-square-foot facility houses two classrooms, full-scale air traffic control simulators for approach, en route, and tower control, and two flight simulators. This state-of-the-art facility has helped elevate the OU School of Aviation to greater heights since our students are able to train on top-of-the-line equipment. Specifically, the air traffic control simulators were purchased and installed in 2022 making OU a premier air traffic control training facility.

South Central Climate Adaptation Science Center (SCCASC)

The South Central Climate Adaptation Science Center is a partnership between the US Geological Survey and a consortium of seven member institutions consisting of the University of Oklahoma (OU), Texas Tech University (TTU), Louisiana State University (LSU), the Chickasaw Nation (CN), the Choctaw Nation of Oklahoma (CNO), Oklahoma State University (OSU), and NOAA's Geophysical Fluid Dynamics Lab (GFDL). The consortium has broad expertise in the physical, biological, natural, and social sciences to address impacts of climate change on land, water, fish and wildlife, ocean, coastal, and cultural resources.

Participation in the Honors Program

Eligible undergraduate students are encouraged to participate in the University-wide Honors Program described elsewhere in this catalog. Specially designed Honors courses and seminars provide the Honors student with small classes and opportunities for interaction with the

University's best and brightest faculty members, both within the student's major field of study and in other courses used to satisfy curricular requirements.

Research Opportunities

Undergraduate students are encouraged to work with faculty on research projects. These student research projects can be an important component of the Honors Program and/or a source of part-time income and scholarship support. Such research participation provides the student with important experience in his or her discipline in addition to meeting normal academic requirements. For more information on undergraduate research, visit the University's Undergraduate Research website.

Faculty-supervised research is an important component of the College of Atmospheric and Geographic Sciences graduate program. Many graduate students are supported financially through research assistantships funded by federal and private industry grants and contracts. Other graduate students are supported financially through teaching assistantships awarded by their academic units. Faculty-supervised student research leading to master's theses and doctoral dissertations is an integral component of the overall graduate degree requirements.

Computing Services

The College of Atmospheric and Geographic Sciences has made a major commitment to integrate and expand computer and network technology in its courses and programs. The college provides a specialized Media lab for exclusive use by its majors in the National Weather Center, Room 3650. This lab contains equipment geared toward the special needs of students majoring in the College of Atmospheric and Geographic Sciences and includes an HP DesignJet 800ps 42" Poster Printer. The college also maintains three state-of-the-art computer labs in Sarkeys Energy Center. The college is a partner in the University of Oklahoma SuperComputing (OSCER-OU SuperComputing Center for Education and Research Center).

Storm Chasing Policy

The University of Oklahoma's College of Atmospheric and Geographic Sciences does not condone or encourage storm chasing by students. Anyone who chooses to chase storms does so at their own risk and should not imply that their activities are connected with the University. The only possible exception is when students are officially included in storm intercept activities conducted as part of well-planned and safety-trained scientific projects lead by faculty or scientists in the National Weather Center research units. Storm chasing is not part of the School of Meteorology course curriculum nor should such activities take precedence over the academic activities of the School such as coursework and attending classes and seminars.

Undergraduate Study

Bachelor of Arts

The **Bachelor of Arts** degrees emphasize the social applications of the discipline. Students pursuing a bachelor of arts will acquire knowledge and skills in language, statistics and social understanding, including policy making.

Bachelor of Science

The **Bachelor of Science** degrees emphasize the science and engineering sides of the discipline. Students pursuing a Bachelor of Science degree will acquire knowledge and skills in math, physics and computation.

Accelerated Bachelor/Master Degrees (4+1)

Several accelerated dual-degree programs are offered through collaboration with the Department of Geography and Environmental Sustainability housed in the College of Atmospheric and Geographic Sciences and the Division of Regional and City Planning, an academic unit in the College of Architecture. These accelerated programs are designed for exceptional students who wish to begin earning the Master of Regional and City Planning in the second semester of their junior year of their Bachelor programs.

The School of Meteorology offers accelerated dual-degree programs in collaboration with the Price College of Business, offering exceptional students pursuing an undergraduate degree in meteorology to also pursue a Master of Business Administration. Meteorology majors may also choose to pursue a Master of Science in Data Science and Analytics through the Gallogly College of Engineering.

Minors

The College of Atmospheric and Geographic Sciences offers students the option of declaring a minor subject. Minors in the college are available within its academic units and specifically in air traffic control, aviation, broadcast meteorology (for meteorology majors only and through Gaylord College of Journalism and Mass Communications), climate adaptation, environmental sustainability, geography, geographic information systems, hydrologic science meteorology (for non-meteorology majors), physical geography, and weather and climate.

Second Bachelor's Degrees

A student who has completed the requirements for a bachelor's degree may receive a second bachelor's degree upon the completion of the curriculum prescribed for the second degree, provided that the work completed includes at least 30 additional credit hours of upper-division geography, environmental sustainability, geographic information science, or meteorology, applied science and elective courses appropriate to the field of the second degree. These courses must be over and above the credit hours required for the first degree.

Admission to the College

Students are admitted to the College of Atmospheric and Geographic Sciences from University College once they declare a major in geography, environmental sustainability, geographic information science, or meteorology, and complete the following requirements:

- a minimum of 24 semester hours of college credit.
- a minimum combined retention grade point average of 2.25.

Students transferring into the University of Oklahoma from another institution must have a minimum of 24 semester hours of college credit and a minimum 2.50 retention grade point average to be directly admitted to the College of Atmospheric and Geographic Sciences.

Academic credit from any division of the University of Oklahoma – Norman campus, Health Sciences Center, OU-Tulsa, and Claremore, or Professional and Continuing Studies – is considered resident credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU retention and cumulative grade point

averages for purposes of admission or readmission to the University, and to the individual colleges within the University.

Student Advisement

The Atmospheric & Geographic Sciences Dean's Office and your academic advisor will:

- Work with you to establish realistic goals and objectives.
- Encourage you to be responsible for your own academic progress and to realize your full potential as a student at the University of Oklahoma.
- Understand and communicate the Atmospheric and Geographic Sciences curriculum, graduation requirements, and University of Oklahoma policies and procedures.
- Be accessible for meetings by appointment.
- Respond promptly to your e-mails and telephone calls.
- Make referrals to resources outside the college when needed.
- Help you monitor your progress toward graduation.
- Assist you with any problems of an academic nature.

As a student in the College of Atmospheric and Geographic Sciences, you are expected to:

- Learn the requirements for your degree program, which are posted on the college website and in the OU General Catalog.
- Become familiar with Degree Navigator, the University's online system that monitors progress toward the completion of your degree.
- Become knowledgeable about University policies and procedures, e.g., drop/add deadlines, enrollment, how to apply for financial aid.
- Set a projected graduation date and develop a semester-to-semester plan to complete your degree.
- Stay up to date with college events and opportunities by reading Monday Memo, the college's weekly online newsletter which is emailed to your OU email account every Monday during the spring and fall semesters.
- Meet with your academic advisor at least once every semester.
- Schedule a degree check in the A&GS Dean's Office (NWC, Room 3630) by the first semester of your junior year.
- Save a copy of every paper or major assignment, along with all official University documents (e.g., receipts) until you are cleared for graduation.
- Be responsible for your actions and decisions.

ALL students in the Department of Geography & Environmental Sustainability, School of Aviation, and School of Meteorology are advised by a professional academic counselor, who also works with majors to establish faculty mentoring.

In addition to the advisor in your academic unit, the Dean's Office (NWC, Room 3630) is available to assist students with degree checks, transfer equivalencies, and any problems of an academic nature. Students may call (405) 325-3095 to schedule an appointment.

Please note that the responsibility for meeting graduation requirements lies with the student and not with the advisor, the school/department, or the Dean.

College Grade Point Average Requirements

To remain in good standing in the College of Atmospheric and Geographic Sciences, students must maintain a 2.25 combined retention grade point

average in all coursework attempted, a 2.25 grade point average in all coursework attempted in the major area, and a 2.25 retention grade point average in all coursework attempted at OU.

Academic Contract

Students whose major, combined retention or OU retention grade point averages fall below 2.25 are placed on academic contract. Students on academic contract are denied enrollment privileges through the College of Atmospheric and Geographic Sciences following any semester in which satisfactory scholastic progress toward a 2.25 has not been made.

Grade point deficiencies must be made up through reenrollment in major courses in which the student had a last-recorded grade of D or F. Should all D or F grades in curriculum courses be raised to a C or above, and the student still has grade point scholastic deficiencies, the student may then enroll in non-major courses. For the freshman and sophomore years any course may be used, but for the junior and senior years, the courses must be numbered 2000 or above, unless the course so elected is approved as an elective in the last two years of the student's major curriculum.

After a student has been reinstated in the University following an unsatisfactory scholastic record, the student must apply to the Dean of the College of Atmospheric and Geographic Sciences for reinstatement in the college. The Dean will determine whether to readmit the student and may prescribe the conditions for reinstatement in the college in accordance with the policies established by the faculty and the Dean.

Additional Academic Regulations

- Any departure by a student from the curriculum requirements and scholastic rules must be approved by a petition and must not conflict with existing University regulations.
- Full-time students may enroll in 12-19 hours of coursework. Enrollment in more than 19 credit hours is permitted only with the approval of the student's advisor and the Dean of the College of Atmospheric and Geographic Sciences. Permission to carry more than 19 hours will depend primarily on the student's scholarship record and their ability to carry increased loads.
- Academically superior students are encouraged to contact the Honors College office to investigate their participation in the University's Honors College.
- Pass/no pass enrollments may not be used to satisfy College of Atmospheric and Geographic Sciences requirements.

Ten-Year Limitation Rule

Credit in a student's major that is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the major department or by each department if the student's major is interdisciplinary.

College Honor Roll

The College of Atmospheric and Geographic Sciences Honor Roll is compiled at the close of each fall and spring semester. It includes students who have completed at least 12 grade point hours (excluding courses graded S/U or P/NP) and have earned an average of 3.50 or higher during the semester. Part-time students enrolled for both the fall and spring semesters of an academic year will be included on the spring semester honor roll provided that, as a result of combining the work completed during the fall and spring semesters, they earn at least 12 grade point hours (excluding courses grade S/U or P/NP) with no withdrawals and an average of 3.50 or better.

College Requirements for Graduation

Graduation Grade Point Average

A minimum 2.25 must be maintained in the major, on all OU work attempted, and on the student's combined retention grade point average to earn a bachelor's degree through the College of Atmospheric and Geographic Sciences.

Graduate Study

Refer to the Graduate tabs within the Department of Geography and Environmental Sustainability (p. 752) and the School of Meteorology (p. 829) pages of this catalog for information concerning graduate programs.

Scholarships and Financial Aid

The College of Atmospheric & Geographic Sciences and its academic units offer a number of scholarships. The college also offers research grant opportunities to A&GS upperclassmen. Students are encouraged to file the Free Application for Federal Student Aid, apply for scholarships, and other resources on the University's Financial Aid Services website.

Career Opportunities

Aviation

Career choices for students completing the undergraduate program in aviation include, but are not limited to, airport management, business planning analyst, aviation technical writer, contract specialist, corporate or airline management, corporate, military, air ambulance, sight-seeing, airline and flight test pilot, flight instructor, freelance commercial assistant, aircraft sales, leasing and insurance, flight dispatcher, flight schedule coordinator, safety inspector, air traffic controller, planning and development manager, aeronautical charting, aviation law, accident investigator, and air marshal. Additionally, OU Aviation helps students further their career prospects in that it is an approved school to provide training for the FAA Air Traffic-Collegiate Training Initiative and the Restricted Airline Transport Pilot, as well as enjoying pipeline agreements with several Regional airlines such as Envoy, PSA, Republic and as a Southwest Airlines Destination 225 Cadet Pathway partner.

Environmental Sustainability

Climate change, habitat destruction, pollution and the overuse of natural resources have contributed to a human environment that may no longer be sustainable. Only by using modern scientific methods and by integrating scientific research with an understanding of the global economy and governmental institutions can we expect to understand and manage a natural environment that will be sustainable, supporting and enhancing the quality of life for generations to come. Skilled professionals educated in the principles of environmental sustainability are essential to the effective management of the natural environment. These professionals will be qualified for numerous sustainability-related positions in government, the private sector, the non-profit sector, and education. Because many managers in these sectors have only a vague understanding of sustainability, persons with degrees in environmental sustainability are positioned very well to achieve important leadership positions, setting agendas for long-run sustainability at the local, regional, national, and global levels.

Geographic Information Science

Location-based data are central to 80 to 90 percent of all governmental information and to a wide range of business endeavors. Students who major in geographic information science study the science and

technology of gathering, analyzing, interpreting, distributing and using geographic information. The U.S. Department of Labor declared geospatial technology as one of the twelve targeted industries that are high growth, high demand, and economically vital for the nation. Lending itself to both physical and social sciences, geospatial technology is applied across a broad range of sectors. Career opportunities span academia, government, industry and non-governmental organizations and include careers in agriculture, forestry, urban planning, land use, soil mapping, energy & utilities, redistricting, identifying and monitoring surface and ground water, flood damage assessment and relief measures, and consumer industries like in-car navigation systems.

Geography

More geographers than ever before are being hired in dozens of different fields. All levels of government hire geographers, who work for local and state economic development or planning offices, conduct research in recreation and park use, or map land use from satellite images. Many geographers at the federal level work for the Environmental Protection Agency, the Central Intelligence Agency, the U.S. Geological Survey, and the Department of State. Geographers also conduct marketing studies, plan transportation routes, understand international markets, advise businesses on the best location for new stores, work in real estate and urban planning, and determine environmental risks associated with site locations. From electric companies to wind-power farms, from forestry to telecommunications, real-time mobile interactive geographic technologies and databases are emerging as the backbone of large-scale management systems for industries with distributed assets and mobile workforces.

Meteorology

Meteorologists are highly trained atmospheric professionals who not only report on the weather, but also forecast it, prepare warnings, study the ozone and pollution levels, brief pilots on hazardous conditions, monitor rainfall and flood levels, and conduct research into specific weather phenomena like severe storms and tornadoes. Although a large number of meteorologists are employed by the media and the National Weather Service, the demand for meteorologists from engineering and environmental firms, private weather forecasters and consultants, and over a dozen federal agencies indicates that the need for professional meteorologists will continue to increase. Employers include all branches of the military, airlines and cargo haulers, the National Aeronautics & Space Administration (NASA), utility and insurance companies, ocean shipping firms, commodity trading firms, federal and state research laboratories, and meteorological software companies.

Courses

AGSC 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

AGSC 3011 Career Planning & Development for A&GS Majors 1 Credit Hour

Prerequisite: Junior standing or permission of instructor. Provides students with instruction in the career planning process directly related to their major and, ultimately, the world of work. Research shows that the majority of people lose their jobs because of poor work ethic, not because of aptitude. Course teaches appropriate skills desired by employers across AGS disciplines. Through lecture, discussion, individual projects and guest speakers, the interactive curriculum will cover topics such as behavioral interviewing techniques, self-directed job search strategies and career opportunities in multiple job sectors. As the course progresses, students will develop a career portfolio which includes a career assessment, class notes, handouts, cover letters and resumes (including electronic versions).

AGSC 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

AGSC 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers topics not usually presented in the regular courses.

AGSC 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

AGSC 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

AGSC 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

AGSC 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

AGSC G4970 Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Subjects covered vary. Deals with interdisciplinary concepts in atmospheric and geographic sciences not usually covered in regular courses. (Irreg.)

AGSC 4990 Special Studies 1-4 Credit Hours
1 to 4 hours. Prerequisite: Permission of instructor, upper-division standing. Contracted special problems study for topics not currently offered in regularly scheduled courses; may include library and/or laboratory research and field projects.

AGSC 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

AGSC 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Subjects covered vary. Deals with interdisciplinary concepts in atmospheric and geographic sciences not usually treated in regular courses. (Irreg.)

AGSC 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Department of Geography and Environmental Sustainability

General Information

The Department of Geography and Environmental Sustainability (DGES) has three majors: Geography, Environmental Sustainability, and Geographic Information Science (GIS) which all offer a Bachelor of Arts or Bachelor of Science. Geography, Environmental Sustainability, and Geographic Information Science are all strongly interlinked. Together, they provide new ways of thinking and tools for understanding and managing the planet. Yet each is sufficiently distinct and provides different career paths and opportunities for students and practitioners.

Geography is made up of the study of two interrelated phenomena: spatial patterns (the why of where) and human-environment relationships (how people interact with where they live, work and play). Geography has a long and sometimes controversial history; geographers created maps of the world, and those maps were used to tell stories about how the world is, and what it ought to be. Contemporary geography includes the making of maps as well as critical examinations of their purposes and uses, but it is not limited to the study of maps. The discipline is often divided into three areas: physical geography (the study of the Earth's physical environments, features, and processes); human geography (the study patterns and dynamics of cultures, societies, economies and regions); and GIS (the study of geospatial information systems, spatial algorithms, and geovisualization). Many geographers find that the discipline is unusually supportive of work at the intersection between physical and social sciences, *making geography an important cognate to environmental and sustainability studies.*

Environmental Sustainability is a growing field that addresses how societies can meet the needs of the present without compromising the ability of future generations to meet their needs. Environmental sustainability has emerged as a field of study following recognition that the resources that support human life and make it comfortable are

decreasing in quantity and quality while the demand and consumption for these resources continues to rise. Simultaneously, there is recognition that the issues involved, such as renewable energy resources, climate change, biodiversity loss, water resources, environmental justice, air and environmental quality etc., are cross-cutting issues that are not, and cannot adequately be, addressed by existing disciplines. Thus, there is need for new educational and research paradigms that weave environmental, economic and social issues together to provide students with an interdisciplinary education designed for dealing with such complex issues. Environmental sustainability degree holders are well-prepared for careers in state and municipal government, non-governmental organizations, and business. Graduates of this program will lead efforts in research, decision-making, and policies that underpin the drive for sustainable futures.

Geographic Information Science (GIS) is the science and technology of acquiring, analyzing, visualizing, and interpreting spatial data to enhance understanding, reveal relationships, patterns, and trends, and to support decision-making processes. Geographic Information Science includes the study, development and application of geographic information systems, remote sensing and global positioning systems (GPS). It is by nature multidisciplinary and has considerable applications in many disciplines including anthropology, biology, business management, ecology, energy management, engineering, geography, geology, meteorology, sociology, and urban and regional planning. GIS integrates methods from these different fields in order to solve problems and understand human, natural and physical systems from local to global scales. Any data that has geographic attributes can be analyzed and visualized in GIS to reveal information that is essentially not available using any other means. For these reasons, many businesses and organizations find GIS an indispensable part of routine operations and long term strategic planning. Several faculty members have strong research interests in applying GIS and remote sensing technologies to understand land use land cover change, ecosystem dynamics, and urban environments.

The department's educational mission and scholarship covers the entire spectrum of geography, environmental sustainability, and geographic information science. Faculty research interests in conservation biology, hydrology, global and tropical climatology, land-use land cover, and biogeography. In human geography, faculty research interests include urban and environmental politics, humanities and visual arts, economic and natural resource development, indigenous cultures, specific regions, such as Latin America, Africa, Russia and East Asia, and indigenous use of media. Research in environmental sustainability focuses on renewable energy resources principally, energy and wind power development, ecosystem valuation, and sustainability perception. Many faculty members make extensive use of geographical information systems (GIS) in both geography and environmental sustainability research, in addition to investigating cutting edge methodological issues in geographic information sciences.

Faculty members also use a wide range of quantitative and analytic methods, including statistics remote sensing, archival methods and qualitative methodologies. The faculty is involved in wide ranging research associated with areas including natural hazards, land-use and land cover change, water resources, applied climatology and sustainability. The faculty is currently working in many geographical areas, including the United States, Canada, Latin America, Africa, the Middle East, and South and East Asia.

Thus, unique among all disciplines, geographic inquiry sits at the intersection of the social sciences, the humanities, and the natural sciences. Within the department, the research interests and expertise

of faculty members cover the entire spectrum of geography including biogeography and human impacts on species distribution, applied climatology, renewable energy resources, hydrology and water resources, land cover and land use change, cultures, indigenous identities, political ecology, geohumanities, regional specialties, environmental policy and natural hazards.

Below are the current jobs our alumni have, the employment opportunities, and helpful links for each major:

Recent OU Geography Alumni - Employment

- Analyst at Inegra Realty Resources
- Assistant Planner at Association of Central Oklahoma Governments
- Associate GIS Analyst at Gulfport Energy Corp.
- Associate GIS Tech at OGE Energy Corp
- Bicycle & Pedestrian Coordinator at OK Dept. of Transportation
- Broadcast Meteorologist at TEGNA
- Community Development Specialist at City of Bethany
- EHS Data Analyst I at Chesapeake Energy
- Emergency Management Specialist, Kinston, North Carolina
- Engineering Tech at OGE Energy Corp
- GIS Tech at Aerotek
- Environment Project Specialist at Professionals Service Industries
- Environmental Services at Frito Lay
- Geospatial Analyst at Jeppesen
- GIS & Mapping Specialist at Reagan Smith Energy Solutions
- GIS Analyst at ConocoPhillips
- GIS Analyst at Enercon Services
- GIS Business Analyst III at Kalibrate
- GIS Mapping Specialist at Reagan Smith Energy Solutions
- GIS Specialist at Meshek & Associates
- GIS Specialist at ONEOK
- GIS Specialist at Zayo Group
- GIS Technician at Adecco Group
- Environmental Health Fellow with the U.S. EPA .
- Land Mapping Technologist at Encana Corporation
- Forensic Meteorologist at Weather Decision Technologies
- Mapping Support Specialist at Innovative Systems
- Marketing & Sales Coordinator at Weather Decision Technology
- Mesonet Calibration Lab Technician at Oklahoma Mesonet
- Officer in the U.S. Navy
- Project manager at Tulsa Regional Chamber of Commerce Regional Chamber of Commerce
- Sustainable Development & Transportation Planning at North Central Texas Council of Governments System
- Technician, General Dynamics Information Technology
- Technical Specialist at Baker Hughes
- Transportation planner with the North Central Texas Council of Governments

Recent OU Geography Alumni - Graduate School

- Ph.D. in Geography at the University of Maryland
- Ph.D. in Professional Counseling at Oklahoma State University

- Law Student at Penn State University
- Master of Arch at OU in landscape Arch and Urban Planning
- Master of Arts in Geography at The Univeristy of Oklahoma
- Master of Science in Geography at The University of Oklahoma
- Master of Public Health at The University of Oklahoma Health Sciences Center
- Master of City and Regional Planning at the University of North Carolina
- Master of Public Admin at George Mason
- Master in Geography and Spatial Planning at the University of Luxembourg

Career Options in Geography

- Climatologist
- Community Developer
- Community Resources Specialist
- Emergency Management
- Environmental Impact Analyst
- Environmental Scientist
- Facilities Planner
- Geointelligence Specialist
- Historic Preservationist
- Hydrologist
- Land Economist
- Land Use Analyst
- Location and Siting Analyst
- Logistics Analyst
- Map Analyst
- Map Curator / Librarian
- Natural Hazards Anlyas
- Natural Resources Manager
- Site Researcher
- Urban and Regional Planner
- Water Resources Specialist

Recent OU Environmental Sustainability Alumni - Employment

- Environmental Programs Specialist II at OK. Dept. of Environmental Quality
- Air Quality Program Coordinator at Choctaw Nation of OK
- Brand & Content Strategist at Opower in San Francisco
- Business Development at CleanTX in Austin
- City Planner for the City of Amarillo
- District Executive for Boys Scouts of America in OKC

- Field Scientist at Terracon in Katy, TX
- Freshest Cargo Route Manager at Fresh Approach in San Francisco
- GIS Specialist at LandWorks, Inc. in Houston, TX
- Director of Marketing and Communications at CleanTX in Austin
- Retail Strategy Architect of Digital Innovation in Norman
- GIS Specialist for Brownsfields Program for Oil and Gas Conservation Division of OK. Corp. Commission
- Health and Safety Executive (HES) Officer. Innospec Oilfield Services in OKC
- Insurance Agent at Kemper in Georgia
- Associate Planner and Program Coordinator at the Office of Sustainability in OKC
- Quality Control Analyst at Cyanotech in Hawaii
- Brown Field Coordinator at Absentee Shawnee Tribe, Office of Environmental Health and Engineering
- Natural Resources and Sustainable Development (NRS) Graduate program in WDC, American University School of International Service (SIS)
- Masters of City and Regional Planning Program, UNC; Graduate Asst. UNC Highway Safety Research Center on safe routes to school

Career Options in Environmental Sustainability

Government

- Sustainable community planner
- Green economic developer
- National Park ranger
- Municipal water conservation program manager
- Green team leader for city government
- Oklahoma Department of Environmental Quality
- Oklahoma Water Resources Board
- United States Environmental Protection Agency
- United States Office of Renewable Energy and Energy Efficiency
- United Nations Sustainable Development Officer

Business

- Green energy entrepreneur
- Corporate social responsibility manager
- Environmental consultant
- Energy auditor
- Environmental journalist
- ISO certification specialist

Nonprofit

- Executive director of a local environmental nonprofit
- State-level engagement coordinator for Greenpeace
- Fundraising and grant writer for Sierra Club
- Communications manager for World Wildlife Fund

Recent OU GIS Alumni - Employment

- OU GIS Alumni hold a variety of jobs in many differing career fields. Below is just a small example of these jobs:
- GIS Technician at the 9-1-1 Dept. of the Association for Central OK Government
- Geospatial Imagery Analyst at US Navy Reserve
- Cartography Technician in Kansas City at Garmin
- Design Technician, Charlotte County, Florida
- GIS Analyst, Williams
- GIS Analyst, KAMO POWER
- GIS Analyst I, Chesapeake Energy
- GIS Technician, Chickasaw Nation, Ada, OK
- GIS Analyst II, Williams, San Antonio, TX
- GIS Analyst at Muscogee Creek Nation
- GIS Analyst, Absentee Shawnee Tribe; Office of Env. Health and Eng.
- GIS Contractor, OGE Energy
- GIS Specialist, Oklahoma Dept. of Transportation
- GIS Technician, Apply, Austin TX
- GIS Tech, Chesapeake
- GIS Tech III, Chesapeake
- GIS Technician, Meshek & Associates GIS Technician at American Energy Partners
- GIS Technician, Apex Systems
- GIS Analyst, Chesapeake Energy
- GIS Analyst, Tapstone Energy
- Routing Technician, Oklahoma Environmental Management Authority
- SAP Specialist and Warehouse Lead Supervisor over the F119 Program, URS Corporation, An AECOM Company
- Software Engineer, Centuria
- IT Analyst II, The University of Oklahoma
- GIS Research Analyst, Templeton Demographics

Career Options in GIS

- Cartographic Design
- Computer Programming
- Data Analysis, Integration, Mining and Visualization
- Database Design and Management
- Disaster Response
- Environmental Analysis and Management
- Intelligence Analyst
- Imagery Analyst
- Logistics Planning and Support
- Planning (Urban, Transportation, Resources)
- Project Management
- System Administration
- Web Mapping

Programs & Facilities

Department offices are housed primarily on the fourth, fifth and sixth floors of Sarkeys Energy Center, while laboratories are located on the first floor of the same building. Available software includes ERDAS, ENVI, ARCMAP, Microsoft Office products and SPSS for statistical analysis.

The department has labs for physical geography, GIS, cartography, and remote sensing. We also offer a DGES student only lab on the 6th floor and a collaborative space students can reserve on the 5th floor.

University resources include the Bizzell Memorial Library, which has an extensive collection of journals and books on geography and environmental sustainability, a large collection of maps and aerial photographs, and special collections in Western History, the History of Science, and the Geosciences.

The department also houses the Oklahoma Alliance for Geographic Education (OKAGE), an organization for geography educators in Oklahoma. OKAGE is affiliated with the National Geographic Society and its national network of state geographic alliances and national geography organizations. Also associated with the department are the experimental Geography studio, the Center for Spatial Analysis, the South Central Climate Science Center, and the Water-Energy-Food Institute (WEFI).

Study Abroad

Students majoring in geography, environmental sustainability, and geographic information science are strongly encouraged to participate in the University's Study Abroad Program. Department advisors work closely with students to ensure that courses taken abroad will apply to their degrees. Our degrees offer a great deal of flexibility to allow for study abroad courses to count toward the degree plan. Students may study abroad in any of more than 100 cities across 50 countries around the world. Graduates of the program have studied abroad in Austria, Costa Rica, Ecuador, Ireland, Germany, Netherlands, Peru, the Galapagos Islands, and the United Kingdom (English and Scottish universities). The College of Atmospheric and Geographic Sciences offers the John T. Snow Study Abroad Scholarship; this \$1,500 award is presented each year to a junior A&GS student who plans to study abroad, in addition to funding opportunities offered by OU through the Study Abroad Program.

Scholarships

The department offers 12 awards and scholarships (6 of which are endowed) which are used annually to recognize deserving students. The Ralph and Margaret Olson Scholarship Fund provides awards to students on the basis of high academic achievement; undergraduate majors are eligible after completion of the junior year. The Clyde Bollinger Award provides awards to graduating seniors who demonstrate outstanding scholarship and enthusiasm for geography. Additional awards and scholarships are provided annually to outstanding graduate and undergraduate students. The James Davis Geography Early Scholar Award and the Gress Family Scholarship are awarded to freshmen or sophomores who declare a major in geography or environmental

sustainability in the freshmen or sophomore year. The Chair's award for Outstanding Senior Capstone is awarded each year to the student or team of undergraduate students that produce an original body of work judged to be the best by the faculty members.

Undergraduate Study

Bachelor of Arts and Bachelor of Science

All undergraduate students majoring in geography, environmental sustainability, or geographic information science are required to complete a core curriculum in the respective degrees, which provides students with an introduction to the major areas of geography and sustainability. Both the Bachelor of Arts and Bachelor of Science degrees contain electives that allow the student (in consultation with an advisor) to craft a degree program that meets their interests in the various facets of the fields. Students are encouraged to meet with the departmental faculty advisors early in the student's academic career to begin discussing the courses best suited to the student's interests.

- Environmental Sustainability, Bachelor of Arts (p. 767)
- Environmental Sustainability, Bachelor of Science (p. 771)
- Geographic Information Science, Bachelor of Arts (p. 774)
- Geographic Information Science, Bachelor of Science (p. 776)
- Geography: Geohumanities, Bachelor of Arts (p. 778)
- Geography: Physical & Social Sciences, Bachelor of Arts (p. 780)
- Geography, Bachelor of Science (p. 782)

Accelerated Degree Programs

The department now offers accelerated Master's programs with any of our undergraduate degrees and a Masters in Regional and City Planning.

- Environmental Sustainability: Planning & Management, Bachelor of Arts/Master of Regional & City Planning (p. 787)
- Environmental Sustainability: Planning & Management, Bachelor of Science/Master of Regional & City Planning (p. 790)
- Geographic Information Science, Bachelor of Arts/Master of Regional & City Planning (p. 794)
- Geographic Information Science, Bachelor of Science/Master of Regional & City Planning (p. 797)
- Geography: Physical & Social Sciences, Bachelor of Arts/Master of Regional & City Planning (p. 799)
- Geography, Bachelor of Science/Master of Regional & City Planning (p. 802)

Minors

Minors offered by the OU Department of Geography and Environmental Sustainability (DGES) provide complimentary knowledge for a variety of careers and degrees. By combining the study of environmental issues and research methods, social, economic, energy and policy considerations, and digital technologies and their applications, our minors prepare graduates to better comprehend and contribute to addressing real-world social and environmental issues.

- Climate Adaptation, Minor (p. 785)
- Environmental Sustainability, Minor (p. 785)
- Geographic Information Systems, Minor (p. 786)
- Geography, Minor
- Hydrologic Science, Minor (p. 786)
- Physical Geography, Minor (p. 787)

Graduate Study

Master of Arts/Master of Science

The Master of Arts and Master of Science degrees certify that a student has a professional grasp of the concepts and techniques of geography/environmental sustainability and has demonstrated competence and originality in their use. The degrees can be acquired by one of two methods—a thesis option or a non-thesis option.

- Master of Arts, Geography and Environmental Sustainability (p. 805)
- Master of Science, Geography and Environmental Sustainability: Environmental Systems (p. 805)
- Master of Science, Geography and Environmental Sustainability: Geospatial Technologies (p. 806)

Online Graduate Degrees

- Master of Science, Geography and Environmental Sustainability: Geospatial Technologies (p. 806)

Graduate Certificates

Students interested in pursuing Geospatial Technologies Graduate Certificate must be currently enrolled in a graduate program at the University of Oklahoma.

Doctoral Programs

The Geography and Environmental Sustainability Ph.D. (p. 808) certifies that a student has mastered a significant body of geographical knowledge and has demonstrated a high degree of professional competence as a geographer by making an important, original contribution to knowledge.

All Ph.D. students must identify an advisory committee which will consist of the advisor and four other faculty members, one of whom must be from a discipline other than geography.

Students are expected to declare provisional specialties, in consultation with the advisory committee, by the end of the second semester of residence in the Ph.D. program. Coursework requirements in connection with this specialty, as well as with the cognate field, are determined by the student and the advisory committee in a formal conference held before the end of the first year of residence.

Each student must select a cognate field or discipline related to their area of specialization. The advisory committee must approve both the cognate field and the courses which fulfill this requirement.

The readiness of a student to proceed with dissertation research will be evaluated by a proposal as well as written and oral examinations. The proposal presentation will be open to the general public and must be announced in advance, giving the entire department and public a chance to participate. A written statement of the proposal shall be given to each member of the dissertation committee and to the remaining members of the faculty. The comprehensive examinations will be administered by an examining committee of five faculty members, three from geography and at least one external committee member. The written portion of the examination will cover the degree specializations and cognate field. The examination will be prepared by the advisor from questions suggested by members of the examining committee. The oral examination will consist of follow-up questions related to the written portion and to the student's knowledge of geographic thought and methodology. Satisfactory

completion of the written and oral portions of the general examination is followed by formal certification of candidacy for the Ph.D. degree.

The final requirement is the preparation and oral defense of a Ph.D. dissertation, which must be a major piece of research recognized by the dissertation committee as a significant contribution to knowledge. The dissertation committee must consist of at least five faculty members; three or more of them must be faculty members in the department and also on the geography graduate faculty of the University. Members of the advisory committee will normally remain as members of the examination and dissertation committees. All changes in committee membership must be forwarded to the Graduate College for approval at least 30 days prior to defense of the dissertation.

After advancement to candidacy for the Ph.D. degree, a student is expected to submit a dissertation manuscript within four years. After this time, at the discretion of the Department of Geography faculty, the student may be required to repeat the general examinations and/or to resubmit a dissertation proposal as a condition for remaining a degree candidate. As long as there is clear evidence that a student is making progress and is keeping up-to-date professionally, the four-year time period may be extended on recommendation of the dissertation committee. Experience shows, however, that long delays tend to increase the likelihood of problems in completing a dissertation.

The final defense of the dissertation will be scheduled only after the committee has agreed to approve the draft as nearly complete. Procedures for this defense shall follow those outlined by the Graduate College. Major points of conflict regarding substance or style should be resolved before the final defense. However, minor additions and revisions may be expected after the defense.

Courses

GEOG 1103 Human Geography 3 Credit Hours

An introduction to the humanized Earth; specifically, to the geography of population, the global pattern of cultures and such affiliated elements as language, religion, technology, and political organization, and to the physical expression of those cultures in rural and urban settings. (F, Sp, Su) [IV-WC].

GEOG 1113 The Language of Maps 3 Credit Hours

Introduction to reading, analyzing and interpreting graphic information symbolized on a wide variety of maps. Topics include: scale, projection, generalization, symbolization, statistical map techniques, coordinate systems, interpreting human and physical landscapes on topographic maps and web-based mapping services, controversies about place names, political gerrymandering, and cartographic innovations. (Sp) [I-O].

GEOG 1114 Physical Geography 4 Credit Hours

A systematic introduction to the physical Earth; including Earth materials, landform processes and resultant landforms, Earth-sun relations, weather, climate, the water cycle, natural vegetation, and soil types. Emphasis is placed on the inter-relationships among these phenomena. (F, Sp, Su) [III-NSL].

GEOG 1123 Introduction to Geohumanities 3 Credit Hours

Introduces students to the link between geography and the humanities, specifically the way we imagine, design, understand and represent the lands and lives of everyday places. Students learn how others have used words (e.g., literature, stories, blogs), pictures (e.g., art, photography, television, video, cinema), music, and maps to assign meaning to places. (F, Sp)

- GEOG 1203 Global Environmental Issues 3 Credit Hours**
This course is an "interactive" lecture/discussion course, and integrates environmental content with selected readings, hosts guest experts and connects students with real world applications. The myriad of environmental issues and concepts expressed by various media that impact us directly and indirectly will be academically explored. (F, Sp) [III-SS].
- GEOG 1213 Economic Geography 3 Credit Hours**
A survey of the contemporary global economy and of the analytical approaches developed by geographers studying it. Economic systems are examined at the household, urban, regional, national, and international levels. Special attention is given to changes in resource use, regional specialization, trade, industrial and retail location, and modernization. (F, Sp) [III-SS].
- GEOG 2021 Exploring DGES 1 Credit Hour**
Prerequisite: Majors only. An immersive course designed to introduce students to The Department of Geography & Environmental Sustainability (DGES). Students investigate and practice what it means to be an environmental sustainability, geographic information science, or geography major. Provides foundational knowledge for researching, designing, and implementing each student's DGES degree for a successful collegiate experience and create a sense of belonging and community. (F)
- GEOG 2603 World Regional Geography 3 Credit Hours**
A broad survey of the world's major culture regions emphasizing basic physical, cultural, economic, and political patterns, as well as the processes that have created those patterns. Emphasis on economic development, ethnic conflict, and environmental degradation, as well as on the changing role of the United States. (F, Sp, Su) [IV-WC].
- GEOG 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- GEOG 3003 Interpreting Planet Earth 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. This one semester, dynamic course integrates human and physical geography. Understanding our planet, its people, issues and global activities will involve "hot topic" discussions, case studies, a team project, plus two outside class field-based activities. (Sp) [III-SS].
- GEOG 3023 Principles of Physical Geography 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. This course is designed to explain important physical geographical processes and phenomena, the interactions among these phenomena, and their relationship with various human activities. The course provides a solid foundation for upper level physical geography courses including biogeography, climatology, geomorphology, and hydrology. (Sp)
- GEOG 3043 Living With Nature 3 Credit Hours**
Prerequisite: Junior standing or department permission. Examine the forces of nature that cause disruptions and disasters which includes the process that produces storms, hurricanes, wildfires, droughts, etc. Each topic will include an examination of the causes of those events, where and how often they occur, and the risks they pose to people and society and what actions are needed to reduce or prevent impacts. (Sp) [II-NS].
- GEOG 3133 Geography of Beer, Wine and Spirits 3 Credit Hours**
Prerequisite: junior standing; students must be 21 years of age or older as of the first day of the semester; permission of department; Student must e-mail instructor for permission to enroll. This course introduces you to the cultural and historical landscapes that made/make beer, wine, and spirits possible. The course is a rapid introduction to help bring an appreciation to these these industries. Analysis of physical and cultural forces which shape the production, consumption and variety of these beverages. (F, Sp)
- GEOG 3213 Principles of Human Geography 3 Credit Hours**
Prerequisite: upper-division standing or permission of instructor. Introduction to the distribution of humans and their activities on the surface of the earth and the processes that generate these distributions. Special attention given to the influence of economy, culture, and politics in shaping the land and the spatial character and organization of human life. A key theme is the relationship of human diversity and places to the environment. (F)
- GEOG 3233 Principles of Sustainability 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Provides a broad introduction to the basic principles of sustainable development with an examination of its social, economic, and environmental dimensions. Students will learn about sustainability strategies and practices from a national and international perspective with attention paid to the ethical and cultural aspects integral to a transition to sustainability. (F)
- GEOG 3243 Principles of Economic Geography 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. An examination of the distribution of economic activities and the processes that generate them. Special attention is given to principles of economic location and their application to patterns of production, consumption, and exchange. Contemporary approaches to economic geography are critiqued, including relational economic geography, the creative economy, and environmental economic geography. (Sp)
- GEOG 3253 Environmental Conservation 3 Credit Hours**
Contemporary environmental issues and policies. Problems of population growth, food production, energy shortages, resource depletion and pollution impacts will be stressed. The social aspects of conservation management policies will be viewed at both global and national scales. (F) [III-SS].
- GEOG 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- GEOG 3443 Environment and Society 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. An introduction to the political, economic, and cultural factors that shape human-environmental relations around the world. Special attention is placed on how societies come to value the environment differently, how people struggle over access to and control of natural resources, and the social causes and consequences of environmental change. (F) [III-SS].

- GEOG 3513 Political Geography 3 Credit Hours**
Prerequisite: junior standing. A survey, stressing current geopolitical conflicts. Special topics include the nation-state, territoriality, the legacies of colonialism, spheres of political influence, regional conflicts, and geopolitics in such areas as Europe and the Pacific Rim, demographic and resource considerations in world politics, and emerging culturally based conflicts. (F, Sp, Su) [IV-WC].
- GEOG 3523 Managing for a Changing Climate 3 Credit Hours**
(Crosslisted with METR 3523) Prerequisite: Junior or Senior standing. Provides an integrative understanding of the components of the climate system including the range of natural climate variability and external drivers of climate change, in addition to impacts of a changing climate on multiple sectors such as the economy, policy, ecosystems, and indigenous populations. (F) [II-NS].
- GEOG 3773 Geography of the United States 3 Credit Hours**
Prerequisite: Junior standing or permission of instructor. An introduction to the regional character of the United States, including its physical, social, and economic elements. (Irreg.)
- GEOG 3843 Gender and Environment 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Critically examines the concepts of environment and gender. Particular emphasis is placed on how and why environmental inquiry and academic advocacy intersect. Students will study the organizational practices, institutional policies, and cultural politics with which the concepts of gender and environment are composed, conveyed, and contested. (Sp) [III-SS].
- GEOG 3890 Selected Studies in Geography 3 Credit Hours**
1 to 3 hours. Prerequisite: junior standing. May be repeated with change of subject matter; maximum credit nine hours. To be used for special intersession courses and occasional (irregularly scheduled) courses of special concern and use for the undergraduate. (F, Sp)
- GEOG 3923 Quantitative Methods 3 Credit Hours**
Prerequisite: junior standing and completion of a lower division general education math requirement. Introduces students to methods of collecting, organizing, and describing data, focusing specifically on environmental and geographical applications. Students also learn basic concepts of probability and statistical inference. The overall objective is to develop an understanding of statistical literacy as it is applied to geographical and sustainability related issues. (F, Sp)
- GEOG 3930 Field Techniques for Geographers 1-4 Credit Hours**
1 to 4 hours. Prerequisite: twelve hours of geography or permission of instructor. May be repeated with change of subject matter; maximum credit six hours. Basic methods of data acquisition: surveying, measuring, sampling, sketching, and mapping. Individual and group projects may be required. (Irreg.)
- GEOG 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Su)
- GEOG 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. Deals with concepts not usually presented in regular coursework. (Irreg.)
- GEOG 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- GEOG 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- GEOG 4003 The Global City and Planning Issues 3 Credit Hours**
(Crosslisted with RCPL 4003; Slashlisted with 5003) Prerequisite: English 1213 and junior standing. An introduction to the concept of globalization and its effects on cities, and the city planning issues related to those effects. Characteristics, theories, and strategies of city development are reviewed. Cities are observed from several perspectives: natural and built environment, governance, society, economics, and history. No student may earn credit for both 4003 and 5003. (Sp)
- GEOG 4023 Geography of Health and Disease 3 Credit Hours**
(Slashlisted with GEOG 5023) Prerequisite: Junior standing or department permission. This course offers a holistic view on "one health" by linking health and disease outcomes to the socio-cultural and physical environment, and the places that generate them. Lectures and discussion/lab sections will focus on basic concepts, principles, and methodologies in health studies, landscape epidemiology, global health under changing climate and environment, health disparities, healthcare and medical service planning. No student may earn credit for both 4023 and 5023.
- GEOG 4033 Human Impact on the Earth 3 Credit Hours**
(Slashlisted with GEOG 5033) Prerequisite: Junior Standing. The earth has been radically transformed by human action. This course explores the human-induced "why" and the extent of global environmental change. The need to explain, predict and prevent such change led to the development of transdisciplinary approaches examining complex human-environmental relationships. Course discusses the current, international global environmental science research agendas within the context of social and environmental justice. No student may earn credit for both 4033 and 5033. (Sp)
- GEOG 4043 Urban Climatology 3 Credit Hours**
(Slashlisted with GEOG 5043; Crosslisted with METR 4043) Prerequisite: Junior standing or departmental permission. This course provides an overview of urban climates based on a synthesis of modern scientific and applied research findings. The course covers a broad spectrum of topics such as urban airflow, radiation exchanges, urban energy balance, urban heat island, urban surface hydrology, air pollution, cities under global climate change, biometeorology, and sustainable urban design and planning. No student may earn credit for both 4043 and 5043. (Sp)
- GEOG 4123 Cities and Society 3 Credit Hours**
(Slashlisted with GEOG 5123) Prerequisite: Junior standing or permission of instructor. The course introduces students to the geography of cities-- history of cities in human society, connections between urban policies and social outcomes, challenges in constructing a city that works for all. Key concepts include city planning, industrialization, housing, transportation, social/racial/environmental justice, gentrification, and the future of cities. No student may earn credit for both 4123 and 5123. (F)

- GEOG 4183 Patterns and Processes in Landscape Ecology** **3 Credit Hours**
(Slashlisted with GEOG 5183) Prerequisite: Junior standing. This course will identify and evaluate the central constructs and methods of landscape ecology, focusing on the role of humans in creating and affecting landscape patterns and processes. Topics covered include fundamentals/frameworks of landscape ecology; how spatial patterns influence ecosystem, management, and conservation; how to quantify spatial pattern; and how to identify general drivers of landscape pattern. No student may earn credit for both 4183 and 5183. (F)
- GEOG 4200 Internship in Geography** **1-6 Credit Hours**
1 to 6 hours. Prerequisite: Permission of instructor and junior standing. May be repeated; maximum credit 6 hours. A student must secure their own internship that provides career training experience whereby students may apply geographical or environmental skills and develop further professional capabilities in a realistic setting. Students must complete internship hours and reflective coursework provided by faculty member to obtain credit. (F, Sp, Su)
- GEOG 4273 Regional Climatology** **3 Credit Hours**
(Slashlisted with GEOG 5273) Prerequisite: junior standing or permission of instructor. Investigates the nature of the Earth's climate and provides an examination of ideas about atmospheric circulation. Topics include radiation, the hydrologic cycle, general circulation, local and regional climates, and global climate change. Specific attention is focused on the climatic water budget, its utility in evaluating local and regional climates, the role of climate models, and issues in applied climatology. No student may earn credit for both 4273 and 5273. (Irreg.) [II-NS].
- GEOG 4283 Biogeography** **3 Credit Hours**
(Slashlisted with GEOG 5283) Prerequisite: junior or senior standing. Biogeography is the study of the spatial distribution, past and present, of plant and animal species and biodiversity. Course topics include factors affecting the distribution of species, the role of biogeography in biological conservation and understanding a changing world. No student may earn credit for both 4283 and 5283. (F)
- GEOG 4293 Hydrologic Science** **3 Credit Hours**
(Slashlisted with GEOG 5293) Prerequisite: Math 1823 or 1914 and either Physics 2414, 2514 or Chemistry 1315. Study of the processes which control the storage and movement of water at global, regional, and local scales. The emphasis is on the land portion of the hydrologic cycle, and includes the study of processes such as infiltration, soil water flow in the saturated and unsaturated zone, rainfall/runoff and evaporation. Lab sections include exercises on a computer in the field and in a soils lab. No student may earn credit for both 4293 and 5293. (Sp)
- GEOG 4313 Interpreting Society and Environment: Qualitative Research Methods** **3 Credit Hours**
(Slashlisted with GEOG 5313) Prerequisites: junior standing. This class approaches qualitative research methods from the perspective of human geography. That makes it especially useful for students who want to investigate the intersections of social and environmental relationships: be they historical, contemporary, or future (as in planning). No student may earn credit for both 4313 and 5313. (F)
- GEOG 4333 Corporate Environmental Strategy** **3 Credit Hours**
(Slashlisted with GEOG 5333) Prerequisite: junior standing or permission of instructor. Examination of the importance of environmental science and technology for corporations seeking sustainability. Students attain an understanding of the private sector as a force for positive environmental change and the dimensions of the natural environment in the competitive market. Corporate case students are discussed to improve understanding of strategic decision making. No student may earn credit for both 4333 and 5333. (Sp)
- GEOG 4343 Climate, History, and Society** **3 Credit Hours**
(Slashlisted with GEOG 5343) Prerequisite: junior standing or permission of instructor. This course is an overview of the mutual interactions of climate and human activities, and examines historical examples of significant climatic impacts. The course includes investigation of the nature of earth's climate and a synthesis of contemporary scientific ideas about the climate and its environmental and societal impacts. No student may earn credit for both 4343 and 5343. (Irreg.) [II-NS].
- GEOG 4423 Environmental Justice** **3 Credit Hours**
(Slashlisted with GEOG 5423) Prerequisite: Junior standing. This course will cover environmental injustices related to environmental hazards (e.g., air and water pollution, toxic and hazardous waste, industrial byproducts) as well as injustices related to environmental benefits (e.g., access to parks, greenery, and clean environments). Throughout the course, we will engage with environmental racism. No student may earn credit for both 4423 and 5423. (Sp) [III-SS].
- GEOG 4513 Real-world Applications of Climate and Weather Information** **3 Credit Hours**
(Slashlisted with GEOG 5513) Prerequisite: MATH 1823 and PHYS 2514. The purpose of this class is to broaden the perspective of students to the use of climate information in agriculture, energy, water resources, public health, and other areas of society. Field trip. No student may earn credit for both 4513 and 5513. (Sp)
- GEOG 4523 Life Cycle Analysis** **3 Credit Hours**
(Slashlisted with GEOG 5523) Prerequisite: junior standing or permission of instructor. This course provides students with an understanding of Life Cycle Analysis both with respect to its conceptual foundations as well as its applications across a variety of socially important sectors. No student may earn credit for both 4523 and 5523. (Sp)
- GEOG 4563 American Indian Geographies** **3 Credit Hours**
Prerequisite: upper-division standing. A survey of the geographical knowledge among Indians in North America. Historical and contemporary topics are covered in a cross-cultural perspective including land use, environmental perception, concepts of space and place, symbolic landscapes, sacred land, and the idea of resources. (Sp) [IV-WDC].
- GEOG 4583 Energy Systems and Sustainability** **3 Credit Hours**
(Slashlisted with GEOG 5583) Prerequisite: Junior standing or permission of instructor. An understanding of interdisciplinary elements and perspectives associated with energy systems in the context of sustainability. It examines current and future energy supply, transmission, and demand management options. A critical focus on the economic, social, and environmental implications of energy system transitions will help identify energy technology and infrastructure solutions while understanding the institutional and organizational changes necessary for implementation. No student may earn credit for both 4583 and 5583. (F)

GEOG 4653 Urban Sustainability: Nature, Justice, and the City 3 Credit Hours

(Slashlisted with GEOG 5653) Prerequisite: Sophomore standing and ENGL/EXPO 1213, or instructor permission. This course explores the sustainability challenges our cities face and how we might address them from critical perspectives in urban studies, planning, and geography. Through guest speakers, films, field trips and reading discussions, we will learn about the historical, multi-spatial, political, and representational dimensions of urban sustainability, and analyze the implications of different approaches to urban sustainability. No student may earn credit for both 4653 and 5653. (F)

GEOG 4663 Water and Society 3 Credit Hours

(Slashlisted with GEOG 5663) Prerequisite: Sophomore standing and ENGL/EXPO 1213, or instructor permission. To examine assumptions and understanding of the accessibility, quality, and distribution of water, the forces driving social change related to water, and the likely course of water and society issues in the future. A major objective is to challenge students to critically think about policy, and how we might develop effective, equitable, and just water policy for the 21st Century. No student may earn credit for both 4663 and 5663. (F)

GEOG 4713 Dynamic Modeling of Socio-Environmental Systems 3 Credit Hours

(Slashlisted with GEOG 5713) Prerequisite: Senior standing or permission of instructor. This course is an overview of the use of modeling and simulation to document, analyze, and project the dynamic behavior of socio-environmental systems. The course covers an introduction of basic modeling and simulation terminology and three different approaches to modeling temporal and/or spatial dynamics: system dynamics modeling, agent-based modeling, and cellular automata. No student may earn credit for both 4713 and 5713. (Sp)

GEOG 4753 Transportation Geography and Planning 3 Credit Hours

(Slashlisted with GEOG 5753; Crosslisted with RCPL 4753) Prerequisite: Junior standing. This course is intended to introduce students to the world of transportation planning and geography by explaining the importance of transportation from local to global and by engaging them in everyday transportation activities. Topics include, but not limited to, the history of transportation, the relationships between transportation and geography, transportation managements and policies, and urban transportation systems. No student may earn credit for both 4753 and 5753. (Sp)

GEOG 4863 Regional Geographies of Indigenous Media 3 Credit Hours

(Slashlisted with GEOG 5863) Prerequisite: junior standing. Learn about the making, moving, and meanings of Indigenous media. Regional case studies feature scholarly readings that examine the geographically- and culturally-specific contexts from which particular forms of Indigenous media emerge. Ample video viewings allow us to explore the contents of media made by Indigenous artists/activists/intellectuals and their allies who live and/or work in a particular region. No student may earn credit for both 4863 and 5863. (Irreg.) [IV-WDC].

GEOG 4893 Research and Professional Development 3 Credit Hours

Prerequisite: GIS 2023; GEOG 3923 or concurrent enrollment; senior standing; departmental permission. Synthesize and integrate students' previous course experiences through literature review, professional practices and discussion to create a capstone proposal. Students complete their proposals for research to be undertaken in the subsequent capstone course, GEOG 4953. The course will include professional development e.g resume writing, presentation, and interviewing skills. (F, Sp)

GEOG 4943 Natural Hazards 3 Credit Hours

(Slashlisted with GEOG 5943) Prerequisite: junior or senior standing. Examines changes in patterns of a range of natural hazards and the impact they have on society. Examines general concepts of hazard mitigation and design and our perceptions of risk and how that affects preparedness and mitigation decisions. No student may earn credit for both 4943 and 5943. (F) [III-SS].

GEOG 4953 Capstone 3 Credit Hours

Prerequisite: Department permission and GEOG 3924, GIS 2023, and C or better in GEOG 4893. Completion of research as proposed in GEOG 4893, including a formal presentation of results to faculty and students in the department and submission of a final research report reflecting a culminating experience in the student's degree program. (Sp) [V].

GEOG 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

GEOG 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

GEOG 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topics not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

GEOG 5003 The Global City And Planning Issues 3 Credit Hours

(Crosslisted with RCPL 5003; Slashlisted with 4003) Prerequisite: graduate standing. An introduction to the concept of globalization and its effects on cities, and the city planning issues related to those effects. Characteristics, theories, and strategies of city development are reviewed. Cities are observed from several perspectives: natural and built environment, governance, society, economics, and history. No student may earn credit for both 4003 and 5003. (Sp)

GEOG 5023 Geography of Health and Disease 3 Credit Hours

(Slashlisted with GEOG 4023) Prerequisite: Graduate standing or permission of instructor. This course offers a holistic view on "one health" (interconnectedness of human, animal, and environmental health) by linking health and disease outcomes to the socio-cultural and physical environment that generate them. Lectures and discussion/lab sections will focus on basic concepts, principles, and methodologies in health studies, landscape epidemiology, global health under changing climate, health disparities, healthcare and medical service planning. No student may earn credit for both 4023 and 5023. (Sp)

GEOG 5033 Human Impact on the Earth 3 Credit Hours

(Slashlisted with GEOG 4033) Prerequisite: Graduate standing. The earth has been radically transformed by human action. This course explores the human-induced "why" and the extent of global environmental change. The need to explain, predict and prevent such change led to the development of transdisciplinary approaches examining complex human-environmental relationships. Course discusses the current, international global environmental science research agendas within the context of social and environmental justice. No student may earn credit for both 4033 and 5033. (Sp)

- GEOG 5043 Urban Climatology 3 Credit Hours**
(Slashlisted with GEOG 4043; Crosslisted with METR 5043) Prerequisite: Graduate standing or departmental permission. This course provides an overview of urban climates based on a synthesis of modern scientific and applied research findings. The course covers a broad spectrum of topics such as urban airflow, radiation exchanges, urban energy balance, urban heat island, urban surface hydrology, air pollution, cities under global climate change, biometeorology, and sustainable urban design and planning. No student may earn credit for both 4043 and 5043. (Sp)
- GEOG 5113 Quantitative Methods in Geographic and Environmental Research 3 Credit Hours**
Prerequisite: Graduate standing. An introduction to quantitative research design and problem-solving research techniques useful for geographical and other environmental and social research. (F, Sp)
- GEOG 5123 Cities and Society 3 Credit Hours**
(Slashlisted with GEOG 4123) Prerequisite: Graduate standing or permission of instructor. The course introduces students to the geography of cities—history of cities in human society, connections between urban policies and social outcomes, challenges in constructing a city that works for all. Key concepts include city planning, industrialization, housing, transportation, social/racial/environmental justice, gentrification, and the future of cities. No student may earn credit for both 4123 and 5123. No student may earn credit for both 4123 and 5123. (F)
- GEOG 5183 Patterns and Processes in Landscape Ecology 3 Credit Hours**
(Slashlisted with GEOG 4183) Prerequisite: Graduate standing. This course will identify and evaluate the central constructs and methods of landscape ecology, focusing on the role of humans in creating and affecting landscape patterns and processes. Topics covered include fundamentals/frameworks of landscape ecology; how spatial patterns influence ecosystem, management, and conservation; how to quantify spatial pattern; and how to identify general drivers of landscape pattern. No student may earn credit for both 4183 and 5183. (F)
- GEOG 5200 Internship in Geography 1-3 Credit Hours**
Prerequisite: graduate standing. May be repeated; maximum credit six hours. Provides career training experience for students, allowing them to apply their skills and theoretical constructs in a real world setting in industry, business, government agencies or educational institutions. (F, Sp)
- GEOG 5213 Principles and Practice of Urban Planning 3 Credit Hours**
(Crosslisted with RCPL 5213) Prerequisite: open to seniors in social science departments, architecture and civil engineering and to graduate students in regional and city planning. A lecture course which examines the physical, social, economic and public interest determinants of land use; the economic population and land use studies required to provide the basis for planning; space and location requirements and design characteristics for residential, commercial, industrial and public uses of land; and the study of urban traffic as a function of land use in terms of structure and systems of movement. (F, Su)
- GEOG 5253 The Economics of Sustainability 3 Credit Hours**
Prerequisites: graduate standing or permission of instructor. This course critiques various approaches to understanding the economics of sustainability, including neoclassical economic perspectives, environmental economics, and ecological economics. Students will examine the links between the natural environment and the human economy. (Sp)
- GEOG 5273 Regional Climatology 3 Credit Hours**
(Slashlisted with GEOG 4273) Prerequisite: Graduate standing. Investigates the nature of the Earth's climate and provides an examination of ideas about atmospheric circulation. Topics include radiation, the hydrologic cycle, general circulation, local and regional climates, and global climate change. Specific attention is focused on the climatic water budget, its utility in evaluating local and regional climates, the role of climate models, and issues in applied climatology. No student may earn credit for both 4273 and 5273. (Irreg.)
- GEOG 5283 Biogeography 3 Credit Hours**
(Slashlisted with GEOG 4283) Prerequisite: Graduate Standing. Biogeography is the study of the spatial distribution, past and present, of plant and animal species and biodiversity. Course topics include factors affecting the distribution of species, the role of biogeography in biological conservation and understanding a changing world. No student may earn credit for both 4283 and 5283. (F)
- GEOG 5293 Hydrologic Science 3 Credit Hours**
(Slashlisted with GEOG 4293) Prerequisite: Math 1823 or 1914 and either Physics 2414, 2514 or Chemistry 1315, or the equivalents and graduate standing. Study of the processes which control the storage and movement of water at global, regional, and local scales. The emphasis is on the land portion of the hydrologic cycle, and includes the study of processes such as infiltration, soil water flow in the saturated and unsaturated zone, rainfall/runoff and evaporation. Lab sections include exercises on a computer in the field and in a soils lab. No student may earn credit for both 4293 and 5293. (Sp)
- GEOG 5313 Interpreting Society and Environment: Qualitative Research Methods 3 Credit Hours**
(Slashlisted with GEOG 4313) Prerequisites: graduate standing. This class approaches qualitative research methods from the perspective of human geography. That makes it especially useful for students who want to investigate the intersections of social and environmental relationships: be they historical, contemporary, or future (as in planning). No student may earn credit for both 4313 and 5313. (F)
- GEOG 5333 Corporate Environmental Strategy 3 Credit Hours**
(Slashlisted with GEOG 4333) Prerequisite: graduate standing or permission of instructor. Examination of the importance of environmental science and technology for corporations seeking sustainability. Students attain an understanding of the private sector as a force for positive environmental change and the dimensions of the natural environment in the competitive market. Corporate case students are discussed to improve understanding of strategic decision making. No student may earn credit for both 4333 and 5333. (Sp)
- GEOG 5343 Climate, History, and Society 3 Credit Hours**
(Slashlisted with 4343) Prerequisite: graduate standing or permission of instructor. This course is an overview of the mutual interactions of climate and human activities, and examines historical examples of significant climatic impacts. The course includes investigation of the nature of earth's climate and a synthesis of contemporary scientific ideas about the climate and its environmental and societal impacts. No student may earn credit for both 4343 and 5343. (Irreg.)
- GEOG 5423 Environmental Justice 3 Credit Hours**
(Slashlisted with GEOG 4423) Prerequisite: graduate standing. This course will cover environmental injustices related to environmental hazards (e.g., air and water pollution, toxic and hazardous waste, industrial byproducts) as well as injustices related to environmental benefits (e.g., access to parks, greenery, and clean environments). Throughout the course, we will engage with environmental racism. No student may earn credit for both 4423 and 5423. (Sp)

GEOG 5433 Sustainability: Theory and Practice 3 Credit Hours

Prerequisites: graduate standing or permission of instructor. This course examines the concept of sustainability from a human development perspective. A set of sustainability principles are critiqued to provide an understanding of the difficulty facing human systems to solve environmental, social and economic challenges. (Sp)

GEOG 5513 Real-world Applications of Climate and Weather Information 3 Credit Hours

(Slashlisted with GEOG 4513) Prerequisite: Graduate standing. The purpose of this class is to broaden the perspective of students to the use of climate information in agriculture, energy, water resources, public health, and other areas of society. Field trip. No student may earn credit for both 4513 and 5513. (Sp)

GEOG 5523 Life Cycle Analysis 3 Credit Hours

(Slashlisted with GEOG 4523) Prerequisite: Graduate Standing. This course provides graduate students with an understanding of Life Cycle Analysis both with respect to its conceptual foundations as well as its applications across a variety of socially important sectors. No student may earn credit for both 4523 and 5523. (Sp.)

GEOG 5583 Energy Systems and Sustainability 3 Credit Hours

(Slashlisted with GEOG 4583) Prerequisite: Graduate standing or permission of instructor. An understanding of interdisciplinary elements and perspectives associated with energy systems in the context of sustainability. It examines current and future energy supply, transmission, and demand management options. A critical focus on the economic, social, and environmental implications of energy system transitions will help identify energy technology and infrastructure solutions while understanding the institutional and organizational changes necessary for implementation. No student may earn credit for both 4583 and 5583. (F)

GEOG 5653 Urban Sustainability: Nature, Justice, and the City 3 Credit Hours

(Slashlisted with GEOG 4653) Prerequisite: Graduate standing. This course explores the sustainability challenges our cities face and how we might address them from critical perspectives in urban studies, planning, and geography. Through guest speakers, films, field trips and reading discussions, we will learn about the historical, multi-spatial, political, and representational dimensions of urban sustainability, and analyze the implications of different approaches to urban sustainability. No student may earn credit for both 4653 and 5653. (F)

GEOG 5663 Water and Society 3 Credit Hours

(Slashlisted with GEOG 4663) Prerequisite: Graduate standing. To examine assumptions and understanding of the accessibility, quality, and distribution of water, the forces driving social change related to water, and the likely course of water and society issues in the future. A major objective is to challenge students to critically think about policy, and how we might develop effective, equitable, and just water policy for the 21st century. No student may earn credit for both 4663 and 5663. (F)

GEOG 5713 Dynamic Modeling of Socio-Environmental Systems 3 Credit Hours

(Slashlisted with GEOG 4713) Prerequisite: Graduate standing. This course is an overview of the use of modeling and simulation to document, analyze, and project the dynamic behavior of socio-environmental systems. The course covers an introduction of basic modeling and simulation terminology and three different approaches to modeling temporal and/or spatial dynamics: system dynamics modeling, agent-based modeling, and cellular automata. No student may earn credit for both 4713 and 5713. (Sp)

GEOG 5753 Transportation Geography and Planning 3 Credit Hours

(Slashlisted with GEOG 4753; Crosslisted with RCPL 5753) Prerequisite: Graduate standing. This course is intended to introduce students to the world of transportation planning and geography by explaining the importance of transportation from local to global and by engaging them in everyday transportation activities. Topics include, but not limited to, the history of transportation, the relationships between transportation and geography, transportation managements and policies, and urban transportation systems. No student may earn credit for both 4753 and 5753. (Sp)

GEOG 5863 Regional Geographies of Indigenous Media 3 Credit Hours

(Slashlisted with GEOG 4863) Prerequisite: Graduate standing. Learn about the making, moving, and meanings of Indigenous media. Regional case studies feature scholarly readings that examine the geographically- and culturally-specific contexts from which particular forms of Indigenous media emerge. Ample video viewings allow us to explore the contents of media made by Indigenous artists/activists/intellectuals and their allies who live and/or work in a particular region. No student may earn credit for both 4863 and 5863. (Irreg.)

GEOG 5943 Natural Hazards 3 Credit Hours

(Slashlisted with GEOG 4943) Prerequisite: graduate standing. Examines changes in patterns of a range of natural hazards and the impact they have on society. The course will examine general concepts of hazard mitigation and design and our perceptions of risk and how that affects preparedness and mitigation decisions. No student may earn credit for both 4943 and 5943. (F)

GEOG 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

GEOG 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

GEOG 5980 Research for Master's Thesis 2-9 Credit Hours

Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. Laboratory (F, Sp, Su)

GEOG 5990 Selected Studies in Geography 1-4 Credit Hours

1 to 4 hours. Prerequisite: teacher's certificate or bachelor's degree and permission. May be repeated with change of subject matter; maximum credit eight hours. Designed to afford either an intensive study of a systematic field or an extensive coverage of broad problem topics in geography. (F, Sp, Su)

GEOG 6220 Seminar in Human Geography 1-3 Credit Hours

1 to 3 hours. Prerequisite: twelve hours of geography or permission. May be repeated with change of subject matter; maximum credit fifteen hours. Directed studies in one of the major divisions of human geography. (Irreg.) Sec. 1 - Urban Geography Sec. 2 - Settlement Patterns Sec. 3 - Historical Geography Sec. 4 - Cultural Ecology Sec. 5 - Cultural Geography Sec. 6 - Economic Development Sec. 7 - Political Geography Sec. 8 - Social Geography Sec. 9 - Regional Geography Sec. 10 - Political Ecology .

GEOG 6230 Seminar in Economic Geography 1-3 Credit Hours

1 to 3 hours. Prerequisite: twelve hours of geography or permission. May be repeated with change of subject matter; maximum credit 15 hours. Directed studies in one of the major divisions of economic geography. (Irreg.)

GEOG 6240 Seminar in Geography and Environmental Sustainability 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing. May be repeated with change of subject matter; maximum credits 15 hours. Directed studies in one of the major aspects of geography and environmental sustainability. Possible topics include: coupled human-natural systems, energy resources, land use, sustainable development, water systems, geospatial technologies, and climate change. (Irreg.)

GEOG 6950 Research Problems in Geography 1-6 Credit Hours

1 to 6 hours. Prerequisite: graduate standing in geography, permission. May be repeated with change of subject matter; maximum credit 15 hours. Advanced independent research on any systematic or regional topic within the scope of geography appropriate to the library facilities or field study opportunities available to the student. (F, Sp, Su)

GEOG 6953 Research and Professional Development 3 Credit Hours

Prerequisite: Graduate standing and majors in the Department of Geography and Environmental Sustainability, or permission of instructor. This course provides a comprehensive background on the practice of geographic and environmental research. Students learn about current issues while exploring employment opportunities in environmental and geographical fields and practicing formal research presentations. They also formulate a research proposal, including literature review, methodology, and consideration of ethics. (Sp)

GEOG 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

GEOG 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

GEOG 6973 Thinking about Geography and Environmental Sustainability 3 Credit Hours

Prerequisite: Graduate standing. This course addresses the foundational concepts of geography and environmental sustainability, emphasizing the intersection of human and natural systems. Students explore the relevance of, and possibilities for, real world impacts of geographic and environmental research. (F)

GEOG 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

GEOG 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

GIS 1313 Computers and Programs for Environmental Professionals 3 Credit Hours

This course covers Microsoft Office software, various computer literacy skills, Python and briefly R programming languages that will help prepare students for future environmental and GIS course work and careers. Topics include data management techniques, logical file/folder structures, Python programming tasks, safety procedures when downloading materials, geographical applications of programming, constructing "for" loops and conditional statements, and utilizing backup storage. (F)

GIS 2023 Introduction to Spatial Thinking and Computer Mapping 3 Credit Hours

Facilitates the effective communication of geographic information through sound cartographic principles and techniques. Introduces students to geographic information literacy, spatial perspectives on information management, and the use of maps as a communication tool. (Sp)

GIS 2970 Special Topics 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

GIS 3003 Computer Cartography and Geovisualization 3 Credit Hours

Prerequisite: ENGL 1213/EXPO 1213 and GIS 2023. This course is designed to help students learn the theory and the practical applications of map design, with a focus on current methods for visualizing spatial data and introduces the latest cutting-edge data visualization techniques. The course covers a variety of topics but focuses on both traditional map elements but also includes modern advancements in visualization. (F, Sp)

GIS 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

GIS 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

GIS 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

GIS 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

GIS 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

- GIS 4013 Fundamentals of Geographic Information Systems 3 Credit Hours**
(Slashlisted with GIS 5013) Prerequisite: GIS 2023. Designed to help students learn introductory to intermediate concepts of geographic information science (GIScience) and become proficient users of geographic information systems (GIS). The course covers a variety of topics but focuses on GIS data models, data structures, and spatial analysis. Teaching formats include lectures, in-class exercises and lab exercises. No student may earn credit for both 4013 and 5013. (F, Sp)
- GIS 4133 Fundamentals of Remote Sensing 3 Credit Hours**
(Slashlisted with GIS 5133) Prerequisite: Junior standing or permission of instructor. An introduction to the basic principles of remote sensing, image acquisition, image processing, image interpretation, and its geographic and environmental applications. Labs involve the processing of satellite, airborne, and other geospatial data in an open-source cloud computing platform to explore the concepts taught in lectures. No student may earn credit for both 4133 and 5133. (F)
- GIS 4173 Drones and Remote Sensing 3 Credit Hours**
(Slashlisted with GIS 5173) Prerequisite: GIS 4133; junior standing. This course will explore remote sensing fundamentals, drone technology, data acquisition, image processing, and integration of these technologies for environmental monitoring, disaster management, agricultural applications, urban planning, and more. Students will gain the skills necessary to operate drones, process remote sensing data, and apply these tools to real-world problem solving. No student may earn credit for both 4173 and 5173. (F)
- GIS 4200 Internship in Geoinformatics 1-6 Credit Hours**
1 to 6 hours. Prerequisite: junior standing and permission of instructor. May be repeated; maximum credit six hours. Provides career training experience whereby students may apply geoinformatics skills and further develop professional capabilities in a realistic setting. Students will be assigned to private industry, government agencies or educational institutions on an individual basis and report on their experience to the instructor. (F, Sp, Su)
- GIS 4233 Digital Image Processing 3 Credit Hours**
(Slashlisted with 5233) Prerequisite: Grade of C or better in 4133 or permission of instructor. Theory and techniques for computer processing (digital image processing or DIP) of digital earth resources satellite imagery and incorporation into geographic information systems. No student may earn credit for both 4233 and 5233. (Sp)
- GIS 4243 Remote Sensing Applications 3 Credit Hours**
(Slashlisted with GIS 5243) Prerequisite: GIS 4133; junior standing. This course is designed to build on the Fundamentals of Remote Sensing towards helping students develop a strong understanding of the tools and techniques used to display, process, and analyze remotely sensed data. Students will learn how to develop analytical workflows to derive products and extract information from remotely sensed data for a broad range of applications. No student may earn credit for both 4243 and 5243. (F, Sp)
- GIS 4253 GIS Applications 3 Credit Hours**
(Slashlisted with GIS 5253) Prerequisite: GIS 4013. Designed to help students learn intermediate and advanced concepts of geographic information science related to a variety of socio-economic and environmental fields. Course topics may include: landscape ecology and metrics; suitability modeling; binary and ranking index models; routing and network analysis; and other topics applicable to social or environmental fields. Teaching formats include both lectures and lab exercises. No student may earn credit for both 4253 and 5253. (Sp)
- GIS 4453 Advanced GIS and Spatial Analysis 3 Credit Hours**
(Slashlisted with GIS 5453) Prerequisite: GIS 2023 and GIS 4013 and GIS 4253, CS 1313 or CS 1323 or METR 1313 or MIS 3013, and upper-division standing; or permission of instructor. Expands and solidifies the GIS knowledge acquired in introductory and applied GIS classes. Focuses on highly complex geographic questions which cannot be solved in simple steps but instead require advanced GIS analysis and sometimes automation. The course is intended to prepare the student for a professional GIS position in the government or business world, or a higher-level graduate position. No student may earn credit for both 4453 and 5453. (Sp)
- GIS 4553 Advanced Remote Sensing 3 Credit Hours**
(Slashlisted with GIS 5553) Prerequisite: GIS 4133; junior standing. This course will introduce students to advanced topics in digital remote sensing towards understanding the theoretical and conceptual underpinnings in both aerial and satellite remote sensing. Focus will be placed on advanced active and passive sensors characteristics, digital image analysis, and processing for advanced issues in remote sensing, including new frontiers in the discipline. No student may earn credit for both 4553 and 5553. (F, Sp)
- GIS 4653 Spatial Programming and GIS 3 Credit Hours**
(Slashlisted with GIS 5653) Prerequisite: GIS 4013, upper-division standing or permission of instructor. Introduces students to geocomputation concepts, spatial programming skills and computational approaches to spatial data services and spatial problem solving. No student can earn credit for both 4653 and 5653. (F)
- GIS 4733 Environmental Remote Sensing 3 Credit Hours**
(Slashlisted with GIS 5733; Crosslisted with P BIO 4733) Prerequisite: either a course or hands-on experience in remote sensing, GIS, statistical analysis, computer programming, or permission of the instructor and adviser. Course develops comprehensive knowledge and advanced skills of remote sensing, to apply to the study of the structure, composition, and functions of vegetation, landscapes, and the biosphere. Students will learn hyperspectral data acquisition and analysis; field survey methods; land cover classification from multiple sensors, time series data; and estimation of biophysical and biochemical parameters. Includes image processing software and algorithms. No student may earn credit for both 4733 and 5733. (Sp)
- GIS 4833 Environmental Spatial Modeling 3 Credit Hours**
(Slashlisted with GIS 5833) Prerequisite: Junior standing and GIS 2023. This course covers an introduction to decision-making techniques about land use allocation and planning. Lectures and lab/discussion sections will focus on addressing conflicts involving environmental concerns and multiple objectives. Examples include water resources development, corridor location (e.g., rights-of-way for transmissions, roads, etc.), preservation of endangered species, power plant siting, and others. No student may earn credit for both 4833 and 5833. (Sp)
- GIS 4923 Spatial Statistics 3 Credit Hours**
(Slashlisted with GIS 5923) Prerequisite: GEOG 3924, CS 1313 or CS 1323 or METR 1313 or MIS 3013, and upper-division standing; or permission of instructor. Explains and demonstrates methods and techniques in spatial sampling; spatial auto-correlation and spatial composition. It also delves into spatially adjusted regression, local statistics, and geo-statistics and related techniques. Theoretical explanations and derivations as well as practical applications making use of both ArcGIS and R. No student may earn credit for both 4923 and 5923. (Irreg.)

- GIS 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- GIS 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- GIS 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- GIS 5003 Spatial Data Management for GIS Professionals 3 Credit Hours**
Prerequisite: Graduate standing. The goal of this course is to develop introductory computer science skills and information management literacy for GIS professionals finding work in industry. Students will learn how to capture, create, validate, and maintain spatial data for use in a professional GIS setting, and become familiar navigating federal, local, and private online GIS data repositories for future GIS work. (F, Sp)
- GIS 5013 Fundamentals of Geographic Information Systems 3 Credit Hours**
(Slashlisted with GIS 4013) Prerequisite: graduate standing. Designed to help students learn introductory to intermediate concepts of geographic information science (GIScience) and become proficient users of geographic information systems (GIS). The course covers a variety of topics but focuses on GIS data models, data structures, and spatial analysis. Teaching formats include lectures, in-class exercises and lab exercises. No student may earn credit for both 4013 and 5013. (F, Sp)
- GIS 5133 Fundamentals of Remote Sensing 3 Credit Hours**
(Slashlisted with GIS 4133) Prerequisite: Graduate standing or permission of instructor. An introduction to the basic principles of remote sensing, image acquisition, image processing, image interpretation, and its geographic and environmental applications. Labs involve the processing of satellite, airborne, and other geospatial data in an open-source cloud computing platform to explore the concepts taught in lectures. No student may earn credit for both 4133 and 5133. (F)
- GIS 5173 Drones and Remote Sensing 3 Credit Hours**
(Slashlisted with GIS 4173) Prerequisite: GIS 4133 or GIS 5133; graduate standing or permission of instructor. This course will explore remote sensing fundamentals, drone technology, data acquisition, image processing, and integration of these technologies for environmental monitoring, disaster management, agricultural applications, urban planning, and more. Students will gain the skills necessary to operate drones, process remote sensing data, and apply these tools to real-world problem solving. No student may earn credit for both 4173 and 5173. (F)
- GIS 5233 Digital Image Processing 3 Credit Hours**
(Slashlisted with 4233) Prerequisite: Graduate standing and a grade of C or better in GIS 4133 or GIS 5133 or permission of instructor. Theory and techniques for computer processing (digital image processing or DIP) of digital earth resources satellite imagery and incorporation into geographic information systems. No student may earn credit for both 4233 and 5233. (Sp)
- GIS 5243 Remote Sensing Applications 3 Credit Hours**
(Slashlisted with GIS 4243) Prerequisite: GIS 4133 or GIS 5133; graduate standing. This course is designed to build on the Fundamentals of Remote Sensing towards helping students develop a strong understanding of the tools and techniques used to display, process, and analyze remotely sensed data. Students will learn how to develop analytical workflows to derive products and extract information from remotely sensed data for a broad range of applications. No student may earn credit for both 4243 and 5243. (F, Sp)
- GIS 5253 GIS Applications 3 Credit Hours**
(Slashlisted with GIS 4253) Prerequisite: graduate standing, GIS 5013. Designed to help students learn intermediate and advanced concepts of geographic information science related to a variety of socio-economic and environmental fields. Course topics may include: landscape ecology and metrics; suitability modeling; binary and ranking index models; routing and network analysis; and other topics applicable to social or environmental fields. Teaching formats include both lectures and lab exercises. No student may earn credit for both 4253 and 5253. (Sp)
- GIS 5453 Advanced GIS and Spatial Analysis 3 Credit Hours**
(Slashlisted with GIS 4453). Prerequisite: GIS 5013 and GIS 5253, graduate standing. Expands and solidifies the GIS knowledge acquired in introductory and applied GIS classes. Focuses on highly complex geographic questions which cannot be solved in simple steps but instead require advanced GIS analysis and sometimes automation. The course is intended to prepare the student for a professional GIS position in the government or business world, or a higher-level graduate position. No student may earn credit for both 4453 and 5453. (Sp)
- GIS 5553 Advanced Remote Sensing 3 Credit Hours**
(Slashlisted with GIS 4553) Prerequisite: GIS 5133; graduate standing. This course will introduce students to advanced topics in digital remote sensing towards understanding the theoretical and conceptual underpinnings in both aerial and satellite remote sensing. Focus will be placed on advanced active and passive sensors characteristics, digital image analysis, and processing for advanced issues in remote sensing, including new frontiers in the discipline. No student may earn credit for both 4553 and 5553. (F, Sp)
- GIS 5653 Spatial Programming and GIS 3 Credit Hours**
(Slashlisted with GIS 4653) Prerequisite: graduate standing and GIS 4013/GIS 5013. Introduces students to geocomputation concepts, spatial programming skills, and computational approaches to spatial data services and spatial problem solving. No student may earn credit for both 4653 and 5653. (F)
- GIS 5733 Environmental Remote Sensing 3 Credit Hours**
(Slashlisted with GIS 4733; Crosslisted with PBIO 5733) Prerequisite: graduate standing, and either a course or hands-on experience in remote sensing, GIS, statistical analysis, computer programming, or permission of the instructor and adviser. Course develops comprehensive knowledge and advanced skills of remote sensing, to apply to the study of the structure, composition, and functions of vegetation, landscapes, and the biosphere. Students will learn hyperspectral data acquisition and analysis; field survey methods; land cover classification from multiple sensors, time series data; and estimation of biophysical and biochemical parameters. Includes image processing software and algorithms. No student may earn credit for both 4733 and 5733. (Sp)

GIS 5833 Environmental Spatial Modeling 3 Credit Hours

(Slashlisted with GIS 4833) Prerequisite: Graduate standing. This course covers an introduction to decision-making techniques about land use allocation and planning. Lectures and lab/discussion sections will focus on addressing conflicts involving environmental concerns and multiple objectives. Examples include water resources development, corridor location (e.g., rights-of-way for transmissions, roads, etc.), preservation of endangered species, power plant siting, and others. No student may earn credit for both 4833 and 5833. (Sp)

GIS 5923 Spatial Statistics 3 Credit Hours

(Slashlisted with GIS 4923) Prerequisite: graduate standing; it is recommended that students have taken an introductory statistics course. Explains and demonstrates methods and techniques in spatial sampling, spatial auto-correlation, and spatial composition. It also delves into spatially-adjusted regression, local statistics, geo-statistics, and related techniques. Theoretical explanations and derivations as well as practical applications, making use of both ArcGIS and R. No student may earn credit for both 4923 and 5923. (Irreg.)

GIS 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

GIS 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

GIS 5980 Research for Master's Thesis 2-9 Credit Hours

Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

GIS 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

GIS 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

GIS 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

GIS 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

GIS 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Bhattarai	Nishan		2022	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2022	Ph.D. Environmental Resources Engineering, State Univ of New York College of Environmental Science and Forestry, 2015; M.S. Forest Hydrology, Auburn Univ, 2010; B.S. Forestry, Tribhuvan Univ, 2006
Deng	Chengbin		2022	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2022; DIRECTOR, CENTER FOR SPATIAL ANALYSIS, 2022	Ph.D. Geography, Univ of Wisconsin-Milwaukee, 2013; M.S. Remote Sensing and GIScience, Sun Yat-sen Univ, 2008; B.S. Remote Sensing and GIScience, Sun Yat-sen Univ, 2006
Denham	Diana		2021	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2021	Ph.D. Urban Studies, Portland State Univ; M.A. Latin American Studies, Univ of California Los Angeles; M.A. Urban Planning, Univ of California Los Angeles; B.A. Development Studies, Latin American Studies, Brown Univ
Feng	Selena		2021	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2021	Ph.D. Geography, Univ of California, Santa Barbara, 2019; M.A. Geographical Sciences and Urban Planning, Arizona State Univ, 2015; M.S. Remote Sensing & GIS, Peking Univ, 2013; B.S. Cartography and Geographical Information System, Wuhan Univ, 2010
Gliedt	Travis	J	2012	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2018	PhD, Univ of Waterloo, 2012; MS, Univ of Waterloo, 2006; BS, Univ of Waterloo, 2005
Greene	John	S	1995	PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2008; DIRECTOR, OKLAHOMA WIND POWER INITIATIVE, 2015	PhD, Univ of Delaware, 1994; MA, Univ of Hawaii, 1990; BA, Univ of California Berkeley, 1987

Hoagland	Bruce	W	1996	HERITAGE COORDINATOR OF OKLAHOMA BIOLOGICAL SURVEY, 1999; ASSOCIATE HERITAGE ECOLOGIST OF OKLAHOMA BIOLOGICAL SURVEY, 2002; PROFESSOR OF OKLAHOMA BIOLOGICAL SURVEY, 2011; PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2011	PhD, Univ of Oklahoma, 1995; MS, Eastern Kentucky Univ, 1990; BA, Univ of Louisville, 1986
Koch	Jennifer	A M	2014	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2014	Dr.-Ing, Univ of Kassel, 2010; Diplom, Univ of Bayreuth, 2005
Loraamm	Rebecca	W	2015	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2015	PhD, Univ of South Florida, 2015; MS, Univ of South Florida, 2011; BS, Florida Southern Univ, 2009
McPherson	Renee		2012	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2012; DIRECTOR, SOUTH CENTRAL CLIMATE ADAPTATION SCIENCE CENTER, 2012	Ph.D. Meteorology, Univ of Oklahoma, Norman, OK, 2003; M.S. Meteorology, Univ of Oklahoma, Norman, OK, 1991; B.S. Mathematics and Meteorology with Honors, Univ of Wisconsin-Madison, Madison, WI, 1987
Mullenbach	Lauren		2021	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2021	Ph.D. Recreation, Park and Tourism Management & Human Dimensions of Natural Resources and the Environment, Penn State Univ (2020), M.S. Forest Resources, Univ of Georgia (2015), B.S. Psychology, Univ of Georgia (2012)
Neeson	Thomas	M	2015	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2015	PhD, Univ of Michigan, 2010; MA, Univ of Michigan, 2009; MS, Case Western Reserve Univ, 2005; BS, Case Western Reserve Univ, 2003
Purcell	Darren	E	2009	ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2013	PhD, Florida State Univ, 2003; MA, Univ of Kentucky, 1996; BA, Univ of Kentucky, 1991
Shafer	Mark	A	1990	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2012; RESEARCH SCIENTIST OF OKLAHOMA CLIMATOLOGICAL SURVEY, 2012; CIMMS FELLOW, 2012	PhD, Univ of Oklahoma, 2005; MS, Univ of Oklahoma, 1990; BS, Univ of Illinois, 1987
Smith	Laurel	C	2007	ADJUNCT ASSISTANT PROFESSOR OF WOMEN'S AND GENDER STUDIES, 2008; ASSOCIATE PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2014; ADJUNCT ASSOCIATE PROFESSOR OF INTERNATIONAL AND AREA STUDIES, 2016	PhD, Univ of Kentucky, 2005; MA, Univ of Oklahoma, 1994; BA, Univ of Wisconsin, 1989
Wimberly	Michael		2018	PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2018	Phd, Oregon State Univ; MS, Univ of Washington; BA, Univ of Virginia
Yang	Anni		2021	ASSISTANT PROFESSOR OF GEOGRAPHY AND ENVIRONMENTAL SUSTAINABILITY, 2021	Ph.D. Geography, Minor in Numerical Epidemiology, Univ of Florida, 2019; M.S. Geography, Michigan State Univ, 2016; B.S. Surveying and Mapping, Hohai Univ (China) 2014

Environmental Sustainability, B.A.

Minimum Total Credit Hours: 120

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.25

Major GPA - Combined and OU: 2.25

Program Code: B408

Major Requirements

- Courses required for the major may also fulfill University-Wide General Education Requirements.

Code	Title	Credit Hours
Core		
GEOG 1203	Global Environmental Issues	3
GEOG 2021	Exploring DGES	1
GEOG 3233	Principles of Sustainability	3
GEOG 3443	Environment and Society	3
GEOG 3923	Quantitative Methods	3

GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3
GEOG 4523	Life Cycle Analysis	3
GEOG 4893	Research and Professional Development	3
GEOG 4953	Capstone (Capstone)	3

Major Electives

Choose two of the following:		6
GEOG 3043	Living With Nature	
GEOG 3523	Managing for a Changing Climate	
GEOG 3843	Gender and Environment	
GEOG 4033	Human Impact on the Earth	
GEOG 4123	Cities and Society	
GEOG 4423	Environmental Justice	
GEOG 4583	Energy Systems and Sustainability	
GEOG 4653	Urban Sustainability: Nature, Justice, and the City	
GEOG 4663	Water and Society	

Concentrations

Choose a minimum of 9 hours, including at least 6 hours of GEOG courses, from one of the following concentrations (approved course lists maintained by the department): (p. 770)		9
Culture and Society (P161)		
Planning and Management (P516)		
Science and Natural Resources (P591)		

Total Credit Hours **40**

Major Support Requirements

- Courses required for major support may *not* also fulfill University-Wide General Education Requirements.

Code	Title	Credit Hours
Advisor-Approved Electives		
Choose 20 hours, including six hours upper-division (3000-4000 level), of advisor-approved coursework relevant to the student's field(s) of study.		20
Total Credit Hours		20

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course lists at <http://www.ou.edu/content/gened/courses.html>. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

At least three hours of Upper-Division General Education coursework must be completed **outside the major**.

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3

or EXPO 1213	Expository Writing	
<i>Language (0-10 hours)</i>		
(0-10 hours) Students who have not completed two years of the same language in high school are required to take two college courses in the same language		
Beginning Course		0-5

Language		
Choose one course at the intermediate level ²		3
Total Credit Hours		13

¹ If the student successfully places beyond the second intermediate course, the 13 hours of required language will become free electives.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

Freshman

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Geoinformatics Program academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Geographic Information Science major requirements.

Freshman

First Semester		Credit Hours

Free Electives

Electives to bring total applicable hours to 121 including 40 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Geoinformatics Program academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Geographic Information Science major requirements.

Code	Title	Credit Hours
PHYS 2424	General Physics for Life Science Oriented Majors	4
or PHYS 2524	General Physics for Engineering and Science Majors	
Total Credit Hours		4

Free Electives

Electives to bring total applicable hours to 120 including 40 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography and Environmental Sustainability academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Geography major requirements.

METR 4553/5553	Climate and Renewable Energy
RCPL 4213	Principles and Practice of Urban Planning

Total Credit Hours 18

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Environmental Sustainability, Minor

Minimum Total Credit Hours: 18

Program Code: N410

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

A minimum 2.00 GPA is required in all work presented for minor credit.

Required Courses

Code	Title	Credit Hours
Fundamentals		
GEOG 1203	Global Environmental Issues	3
Environmental Sustainability Core		
GEOG 3233	Principles of Sustainability	3
GEOG 3443	Environment and Society	3
GEOG 4523	Life Cycle Analysis	3
Sustainability Electives		
Choose at least 6 additional hours of upper division (numbered 3000+), graded courses ¹		6
Total Credit Hours		18

¹ To be selected from the Area of Concentration lists for the Environmental Sustainability degrees (Culture & Society, Planning & Management, and Science & Natural Resources). It is preferred

that these courses *not* be from the Geography and Environmental Sustainability department.

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Geographic Information Systems, Minor

Minimum Total Credit Hours: 15

Program Code: N462

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree

A minimum 2.00 GPA is required in all work presented for minor credit.

Required Courses

Code	Title	Credit Hours
Required Course		
GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3
Electives		
Choose 12 hours, with at least 9 hours at the upper division (3000+) level, from the following:		12
GEOG 1113	The Language of Maps	
GEOG 4023	Geography of Health and Disease	
GEOG 4183	Patterns and Processes in Landscape Ecology	
GIS 1313	Computers and Programs for Environmental Professionals	
GIS 3003	Computer Cartography and Geovisualization	
GIS 4013	Fundamentals of Geographic Information Systems	
GIS 4133	Fundamentals of Remote Sensing	
GIS 4173	Drones and Remote Sensing	
GIS 4233	Digital Image Processing	
GIS 4243	Remote Sensing Applications	
GIS 4253	GIS Applications	
GIS 4453	Advanced GIS and Spatial Analysis	
GIS 4553	Advanced Remote Sensing	
GIS 4653	Spatial Programming and GIS	
GIS 4833	Environmental Spatial Modeling	
GIS 4923	Spatial Statistics	
GIS 4970	Special Topics/Seminar	
Total Credit Hours		15

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Geography, Minor

Minimum Total Credit Hours: 18

Program Code: N466

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

A minimum 2.00 GPA is required in all work presented for minor credit.

Required Courses

Code	Title	Credit Hours
Fundamentals		
Choose a minimum of 6 hours from the following:		6
GEOG 1103	Human Geography ¹	
GEOG 1114	Physical Geography ²	
GEOG 1123	Introduction to Geohumanities	
GEOG 1213	Economic Geography ³	
Techniques		
Choose one of the following:		3-4
GEOG 3924		
GIS 4013	Fundamentals of Geographic Information Systems	
GIS 4133	Fundamentals of Remote Sensing	
GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3
Upper Division Electives		
Choose at least 6 additional hours of upper division (courses numbered 3000+) graded Geography courses selected in consultation with an academic advisor from the Department of Geography		6
Total Credit Hours		18

¹ Also fulfills a General Education Western Civilization requirement.

² Also fulfills a General Education Natural Science with Lab requirement.

³ Also fulfills a General Education Social Science requirement.

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Hydrologic Science, Minor

Minimum Total Credit Hours: 15

Program Code: N477

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

The Hydrologic Science minor is designed for students who are interested in expanding their understanding of the role of water in our environment.

The minor requires a minimum of 15 semester credit hours, to include at least one course each from Meteorology, Geography, and Civil or Environmental Engineering. No more than (9) hours may come from any one discipline.

For Meteorology majors, successful completion of the Hydrologic Science minor will satisfy the required elective in meteorology, hydrology, or climatology.

A minimum 2.00 GPA is required in all work presented for minor credit.

Required Courses

Code	Title	Credit Hours
Choose a minimum of 15 hours from the following:		15
CEES 4123	Open Channel Flow	
ENGR 4510	Selected Topics	
GEOG 4273	Regional Climatology	
GEOG 4293	Hydrologic Science	
GIS 4013	Fundamentals of Geographic Information Systems	
METR 4624		
METR 4633	Hydrometeorology	
Total Credit Hours		15

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Physical Geography, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 15

Program Code: N468

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

This minor is not available to Geography Majors.

Required Courses

A minimum 2.00 GPA is required in all work presented for minor credit.

- Topics in GEOG 3890 and GEOG 4990 that are related to Physical Geography will also apply.
- In addition to GIS 4133, one upper division course from the Minor in Geospatial Information Science (N467) may be substituted for a course in this minor.

Code	Title	Credit Hours
Choose a minimum of 15 hours from the following:		15
GEOG 3023	Principles of Physical Geography	
GEOG 4273	Regional Climatology	
GEOG 4283	Biogeography	
GEOG 4293	Hydrologic Science	
GEOG 4343	Climate, History, and Society	
GIS 4133	Fundamentals of Remote Sensing	
Total Credit Hours		15

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Environmental Sustainability: Planning & Management, B.A./M.R.C.P.

Minimum Total Credit Hours: 149

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 3.00

Major GPA - Combined and OU: 3.00

Program Code: A408 P516/F817 Q228

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 3.00

Major GPA - Combined and OU: 3.00

Program Code: A410 P516/F817 Q229

Undergraduate Requirements

MAJOR REQUIREMENTS

Code	Title	Credit Hours
Core		
GEOG 1203	Global Environmental Issues	3
GEOG 2021	Exploring DGES	1
GEOG 3233	Principles of Sustainability	3
GEOG 3443	Environment and Society	3
GEOG 3923	Quantitative Methods	3
GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3
GEOG 4523	Life Cycle Analysis	3
GEOG 4893	Research and Professional Development	3
GEOG 4953	Capstone	3
Computer-Related		
GIS 1313	Computers and Programs for Environmental Professionals	3
Major Electives		
Choose two of the following:		6
GEOG 3043	Living With Nature	
GEOG 3523	Managing for a Changing Climate	
GEOG 3843	Gender and Environment	
GEOG 4033	Human Impact on the Earth	
GEOG 4123	Cities and Society	

GEOG 4423	Environmental Justice	
GEOG 4583	Energy Systems and Sustainability	
GEOG 4653	Urban Sustainability: Nature, Justice, and the City	
GEOG 4663	Water and Society	

Planning & Management

Choose a minimum of 9 hours, including at least 6 hours of GEOG courses, from the Planning and Management Approved Course List (p. 791) 9

Total Credit Hours 43

MAJOR SUPPORT REQUIREMENTS

- Courses required for major support may *not* also fulfill University-Wide General Education Requirements.

Code	Title	Credit Hours
Upper-Division Science Electives		
Choose a minimum of 15 hours of 3000-4000-level courses to be chosen from a list of approved courses maintained by the department.		15
Total Credit Hours		15

Shared Hours

These 15 hours of Graduate Credit count towards both the undergraduate and graduate degrees:

Code	Title	Credit Hours
GIS 5013	Fundamentals of Geographic Information Systems	3
RCPL 5013	History and Theory of Urban Planning	3
RCPL 5063	Planning with Diverse Communities	3
RCPL 5203	Urban Land Use Controls	3
RCPL 5173	Urban and Regional Analysis	3
Total Credit Hours		15

MRCP Component

Code	Title	Credit Hours
RCPL 5113	Urban Planning Research Methods	3
Choose one of the following:		5
RCPL 5525	Comprehensive Regional And City Planning Project	
RCPL 5522 & RCPL 5523	Comprehensive RCPL Project: Reporting and Implementation and Comprehensive RCPL Project: Research and Plan Making	
Program Electives		21
Total Credit Hours		29

Planning & Management Course List

A minimum of 9 hours of Planning & Management coursework is required in the undergraduate major, to be chosen from the following department

maintained approved course list or other advisor-approved courses. **At two courses (6 hours) must be GEOG courses.**

Code	Title	Credit Hours
B AD 2113	Introduction to Business I	3
ECON 3213	Environmental Economics	3
ENT 2113	Innovation & Entrepreneurship	3
ENT 3113	New Venture Development I	3
GEOG 4003	The Global City and Planning Issues	3
GEOG 4333	Corporate Environmental Strategy	3
GEOG 4343	Climate, History, and Society	3
GEOG 4583	Energy Systems and Sustainability	3
GEOG 4970	Special Topics/Seminar (Topic: Environmental Economics)	3
HSTM 3473	History of Ecology and Environmentalism	3
HSTM 3483	Technology, Politics, and International Development	3
IAS 3073	Global Economic Relations	3
IAS 3323	The Political Economy of Development	3
IAS 3603	Energy, Environment & Climate Change in China	3
IAS 3653	Energy, Climate, and Security	3
METR 4553	Climate and Renewable Energy	3
MGT 2013	Introduction to Management	3
MKT 2013	Introduction to Marketing and Supply Chain Management	3
NPNG 2033	Introduction to Nonprofits	3
NPNG 3033	Nonprofit Management	3
PHIL 3293	Environmental Ethics	3
P SC 3020	Problems in American Government and Politics	3
P SC 3133	Politics and Public Administration	3
P SC 3193	Nonprofits and Public Policy	3
P SC 3213	Law, Politics, and Society	3
P SC 3233	Environmental Policy and Administration	3
P SC 4193	The Profession of Public Management	3
SOC 3643	Population and Society	3
SOC 3893	Environment, Ecology and Society	3

Science Electives

Code	Title	Credit Hours
ANTH 3873	Primate Evolution and Behavior	3
ANTH 4593	Anthropology of Human Reproduction	3
CEES 4243	Water Technologies for Emerging Regions	3
CEES 4324	Environmental Biology and Ecology	4
BIOL 3403	Principles of Ecology	3
BIOL 3463	Water and Ecological Sustainability	3
BIOL 3563	Biological Conservation	3
BIOL 4423	Stream Ecology	3
BIOL 4463	Lake Ecology	3
CHEM 3053	Organic Chemistry I: Biological Emphasis	3
CHEM 3153	Organic Chemistry II: Biological Emphasis	3

ENST 3303	Food, Agriculture, and the Environment	3	ENGL 1213	Principles of English Composition	3
ENST 3503	Energy Use, Climate Change, and the Environment	3	or EXPO 1213	Expository Writing	
ENST 3713	Nature in the City	3	<i>Language (0-10 hours)</i>		
ENST 3743	Biological Invasions and Society	3	(0-10 hours in the same language) Students who have not completed two years of the same language in high school are required to take two college courses in the same language		
GEOG 3023	Principles of Physical Geography	3	Beginning Course		0-5
GEOG 3043	Living With Nature	3	Beginning Course, continued		0-5
GEOG 3523	Managing for a Changing Climate	3	<i>Mathematics (minimum 3 hours)</i>		
GEOG 4043	Urban Climatology	3	MATH 1743	Calculus I for Business, Life and Social Sciences ^{1,2}	3
GEOG 4183	Patterns and Processes in Landscape Ecology	3	or MATH 1823	Calculus and Analytic Geometry I	
GEOG 4273	Regional Climatology	3	Core Area II: Natural Science (minimum 7 hours, 2 courses)		
GEOG 4283	Biogeography	3	CHEM 1315	General Chemistry (Science with Lab) ¹	5
GEOG 4293	Hydrologic Science	3	PHYS 2414	General Physics for Life Science Oriented Majors ¹	4
GEOG 4513	Real-world Applications of Climate and Weather Information	3	or PHYS 2514	General Physics for Engineering and Science Majors	
GEOG 4943	Natural Hazards	3	Core Area III: Social Science (6 hours)		
GEOL 3633	Introduction to Oceanography	3	P SC 1113	American Federal Government	3
GEOL 3013	The Geology of Oklahoma	3	Choose one course from the General Education Social Science list		
GEOL 3033	Earth Resources and the Environment	3	Core Area IV: Arts and Humanities		
GEOL 4633	Hydrogeology	3	<i>Artistic Forms (3 hours)</i>		
GIS 4013	Fundamentals of Geographic Information Systems	3	Choose one course from the General Education Artistic Forms list		
GIS 4133	Fundamentals of Remote Sensing	3	<i>Western Culture (6 hours)</i>		
GIS 4233	Digital Image Processing	3	HIST 1483	United States to 1865	3
GIS 4253	GIS Applications	3	or HIST 1493	United States, 1865 to the Present	
GIS 4453	Advanced GIS and Spatial Analysis	3	Choose one course from the General Education Western Culture list (Excluding HIST 1483 and HIST 1493)		
GIS 4733	Environmental Remote Sensing	3	<i>World Culture (3 hours)</i>		
GIS 4833	Environmental Spatial Modeling	3	Choose one course from the General Education World Culture list		
METR 4443	Introduction to Tropical Meteorology	3	Core Area V: First Year Experience (3 hours)		
METR 4533	Earth's Past Climate	3	Choose one course		
METR 4553	Climate and Renewable Energy	3	Total Credit Hours		
METR 4713	Private Sector Meteorology	3	39-49		
MIS 3013	Introduction to Programming	3	¹ College of Atmospheric and Geographic Sciences requirements.		
PBIO 3453	Principles of Plant Ecology	3	² MATH 1914 will also fulfill the College's calculus requirement.		
PBIO 3534		4			
PBIO 4733	Environmental Remote Sensing	3			
P SC/SOC 3123	Social Statistics	3			

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course list at <http://www.ou.edu/content/gened/courses.html>. **Courses graded P/NP will not apply**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

At least three hours of Upper-Division General Education coursework must be completed **outside the major**.

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3

ADDITIONAL COLLEGE BACHELOR OF SCIENCE REQUIREMENTS

Code	Title	Credit Hours
GEOG 1114	Physical Geography	4
Total Credit Hours		4

Free Electives

Electives to bring total applicable hours to 149 including 40 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 3.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
MATH 1823 or MATH 1743	Calculus and Analytic Geometry I or Calculus I for Business, Life and Social Sciences	3
GEOG 1203	Global Environmental Issues	3
First Year Experience (Core V)		3
Credit Hours		15
Second Semester		Credit Hours
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
P SC 1113	American Federal Government (Core III)	3
GEOG 1114	Physical Geography	4
General Education: Artistic Forms (Core IV) ¹		3
Free Elective		3
Credit Hours		16

Sophomore

First Semester		Credit Hours
GEOG 2021	Exploring DGES	1
GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3
CHEM 1315	General Chemistry	5
General Education: Western Culture (Core IV) ¹		3
Free Elective, lower- or upper-division		3
Credit Hours		15
Second Semester		Credit Hours
PHYS 2414 or PHYS 2514	General Physics for Life Science Oriented Majors or General Physics for Engineering and Science Majors	4
GEOG 3443	Environment and Society	3
GIS 1313	Computers and Programs for Environmental Professionals	3
Free Elective, lower- or upper-division		3
Free Elective, lower- or upper-division		4
Credit Hours		17

Junior

First Semester		Credit Hours
GEOG 3233	Principles of Sustainability	3
GIS 5013	Fundamentals of Geographic Information Systems ²	3
Planning & Management Concentration course ³		3
Upper Division Science Elective ⁴		3
Upper Division Science Elective ⁴		3
Credit Hours		15
Second Semester		Credit Hours
GEOG 3923	Quantitative Methods	3
GEOG 4523	Life Cycle Analysis	3
RCPL 5203	Urban Land Use Controls ²	3
Major Elective		
Upper Division Science Elective ⁴		3
Upper Division Science Elective ⁴		3
Credit Hours		15

Senior

First Semester		Credit Hours
GEOG 4893	Research and Professional Development	3
RCPL 5013	History and Theory of Urban Planning ²	3
RCPL 5113	Urban Planning Research Methods	3
Major Elective		
Planning & Management Concentration course ³		3
General Education: World Culture (Core IV) ¹		3
Credit Hours		15
Second Semester		Credit Hours
GEOG 4953	Capstone	3
RCPL 5173	Urban and Regional Analysis ²	3
Planning & Management Concentration course ³		3
Upper Division Science Elective ⁴		3
Graduate Elective		3
Credit Hours		15

Fifth Year**First Semester**

Choose one of the following: 3-5

RCPL 5525	Comprehensive Regional And City Planning Project	
RCPL 5523	Comprehensive RCPL Project: Research and Plan Making (Fa) ⁵	
Graduate Elective		3
Graduate Elective		3
Graduate Elective		3
Credit Hours		14

Second Semester

RCPL 5063	Planning with Diverse Communities ²	3
Graduate Elective		3
Graduate Elective		3
Graduate Elective		3
Choose the following if RCPL 5523 taken in the Fall:		0-2
RCPL 5522	Comprehensive RCPL Project: Reporting and Implementation	
Credit Hours		12
Total Credit Hours		149

¹ To be chosen from the University-Wide General Education Approved Course List. Three hours of general education must be upper-division outside the major.

² These courses are shared between the undergraduate and graduate degrees.

³ A minimum of 12 hours, including at least 6 hours of GEOG courses, to be chose from the Planning and Management concentration approved course list.

⁴ A minimum of 15 hours of 3000-4000 -level courses to be chosen from the approved list of courses maintained by the department.

⁵ In addition to taking RCPL 5522 in the Spring.

Geographic Information Science, B.A./M.R.C.P.

Minimum Total Credit Hours: 149

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 3.00

Major GPA - Combined and OU: 3.00

Program Code: A450/F817 Q272

Undergraduate Requirements

MAJOR REQUIREMENTS

Code	Title	Credit Hours
Core		
GIS 2023	Introduction to Spatial Thinking and Computer Mapping	3
GEOG 1113	The Language of Maps	3
GEOG 1123	Introduction to Geohumanities	3
GEOG 3773	Geography of the United States	3

GIS 5013	Fundamentals of Geographic Information Systems ¹	3
GIS 4253	GIS Applications	3
GEOG 4893	Research and Professional Development	3
GEOG 4953	Capstone	3

Remote Sensing

Choose two of the following: 6		
GIS 4133	Fundamentals of Remote Sensing	
GIS 4233	Digital Image Processing	
GIS 4970	Special Topics/Seminar (Remote Sensing)	
Advisor-approved elective		

Statistics

GEOG 3924		4
GEOG 4313	Interpreting Society and Environment: Qualitative Research Methods	3

Computer-Related

Choose one of the following: 3		
C S 1313	Programming for Non-Majors with C	
METR 1313	Introduction to Programming for Meteorology	
MIS 2113	Computer-Based Information Systems	
MIS 3013	Introduction to Programming	

Applied GIS

Choose one of the following: 3		
RCPL 4463	Geographic Information Systems for Land Use Planning	
Other advisor-approved course		

Total Credit Hours 43

¹ GIS 5013 counts towards both the undergraduate and graduate degrees.

MAJOR SUPPORT REQUIREMENTS

- Courses required for major support may *not* also fulfill University-Wide General Education Requirements.
