Free Electives

Electives to bring total applicable hours to the minimum total required for the degree.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 3.00 for each of the following: Combined Retention GPA (all college grades), OU

Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 3.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or Department of Geography academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Environmental Sustainability major requirements.

Freshman

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

GEOG 6240	Seminar in Geography and Environmental Sustainability	1-3

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Geospatial Technologies, Graduate Certificate

Minimum Total Hours: 12

Program Code: G042, G043 (Online)

This program has changes pending State Regents approval for 2024/25. These pending changes are not reflected here.

Masters students in the existing degree program may be focused in physical geography, human geography, or applications of geotechnologies to geographic questions. For this certificate, however, we recommend a subset of existing courses to focus on one or more of the following: geographical information systems (GIS), remote sensing (RD), or management of geodatabases associated with GIS, RS, or other geospatial technologies.

The embedded certificate consists of a minimum of 12 hours consisting of at least four courses, at least two of which are required to have the GIS prefix.

Certificate Requirements

Code	Title	Credit Hours
Fundamentals ¹		
Choose two of the following Fundamentals courses:		6
GIS 5003	Spatial Data Management for GIS Professionals	
GIS 5013	Fundamentals of Geographic Information Systems	
GIS 5133	Fundamentals of Remote Sensing	
Techniques		
Choose at least one course from the following:		3
GIS 5923	Spatial Statistics	
GIS 5653	Spatial Programming and GIS	
GEOG 5313	Interpreting Society and Environment: Qualitative Research Methods	
ISE 5103	Intelligent Data Analytics	
Advanced/Applied Courses ²		
Choose one of the following Advanced/Applied courses:		3
<i>Geographic Information Science Track</i>		
GIS 5253	GIS Applications	
GIS 5453	Advanced GIS and Spatial Analysis	
RCPL 5463	Geographic Information Systems for Land Use Planning	
RCPL 5970	Special Topics/Seminar (Topic: Advanced GIS)	
<i>Remote Sensing Track</i>		
GIS 5233	Digital Image Processing	
GRAD 5203	EOS3 Data Analytics	
CEES 5903	Remote Sensing Hydrology	
PBIO 5733	Environmental Remote Sensing	
METR 5673	Weather Radar Theory and Practice	
Total Credit Hours		12

¹ If the student previously finished a fundamentals course as an undergraduate, they should take an additional course from the Advanced/Applied list instead.

² If students started in the Geographic Information Science track, they should continue in this track when choosing Advanced/Applied courses. If students started in the Remote Sensing track, they should continue in this track when choosing Advanced/Applied courses.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Geography & Environmental Sustainability, Ph.D.

Minimum Total Hours: 90

Program Code: D461

This program has changes pending State Regents approval for 2024/25. These pending changes are not reflected here.

Program Requirements

Code	Title	Credit Hours
GEOG 6973	Thinking about Geography and Environmental Sustainability	3
GEOG 6953	Research and Professional Development	3
Two seminars or graduate-level courses (6 hours) in Geography & Environmental Sustainability ¹		6
GEOG 6980	Research for Doctoral Dissertation ²	2-78
Total Credit Hours		90

¹ Slashlisted courses, independent study and research courses will not satisfy this requirement.

² Enough to bring total post-baccalaureate credit hours to 90 (after required courses, electives, and any transfer credit hours accepted from the Master's degree)

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

School of Aviation

Dr. Todd Hubbard, Ed.D., Lead Faculty Member
 Eric Wydra, MACRM, Program Director
 Shelly Ainsworth, M.H.R., Director of Academic Advising Services
 1700 Lexington Ave., Bldg. 101
 Norman, OK 73069
 Phone: (405) 325-7231
 FAX: (405) 325-0136
www.ou.edu/ags/aviation

General Information

The mission of the School of Aviation is to provide each student with the knowledge and the skills of a competent pilot and/or industry professional, combined with a liberal education and business concentration that will provide them an initial and long-term competitive advantage as professionals in global organizations and in society. The School of Aviation is responsible for credit and noncredit aviation education, FAA Part 141 and 61 pilot training, and FAA AT-CTI curriculum and simulation courses. A Bachelor of Science Degree with four aviation concentrations and four aviation minors are offered.

The School of Aviation's modern training assets include: 15 Piper Warrior III aircraft (two with glass Avidyne flight systems and with Garmin 430 GPS units), nine Piper 100i aircraft with glass Garmin flight systems, one Cessna 152 Aerobat, two Twin Engine Piper Seminole, one King Air C-90 B Turbo Prop, three Guimbal Cabri G2 helicopters, two advanced FAA Aircrew Training Devices (Red Bird Simulator and Frasca Simulator). This modern aircraft fleet offers students advanced technology and also provides air transportation through the Faculty and Staff Transport (FAST) Program. Additionally, the AT-CTI program boasts a complete array of all available air traffic control simulations to include a Tower Simulation Cab for tower and ground operations, and an ATC Enroute Radar Simulation Facility Lab.

History

The University of Oklahoma School of Aviation was established in 1947, after purchasing the airport land in 1940, as an independent, Provost-directed department chaired by the airport manager J.E. Coulter. The school's initial charge was to provide flight instruction for OU students seeking flight certification. The Bachelor of Science in Aviation was developed in the mid-1970s and was first offered as a degree in 1978.

In 1994, the Department of Aviation joined the OU College of Continuing Education and in 2017 moved to the newly formulated College of Professional and Continuing Studies. As part of this transition, the Department of Aviation changed its name to the School of Aviation Studies. In 2022, the school moved to the College of Atmospheric and Geographic Sciences and became the School of Aviation.

Mission

Our program mission is to provide aviation majors with the knowledge and skills of a competent pilot, air traffic controller, and/or industry professional along with broad education and business concentrations that provide long-term competitive professional advantages.

Goal

All graduates of the program in aviation will have developed a depth of understanding of the aviation industry and been afforded the opportunity to prepare for an aviation-related professional career following graduation.

Accreditation

Each of the four degree concentration programs are each fully accredited by the Aviation Accreditation Board International (AABI). Accreditation ensures each aviation student at OU earns a degree from a nationally recognized institution with a quality aviation program and impeccable safety record. It can also have the added benefit of opening more doors to students in the areas of industry scholarship procurement, internships, and eventual employment.

Careers

Career choices for students completing the undergraduate program in aviation include, but are not limited to, airport management, business planning analyst, aviation technical writer, contract specialist, corporate or airline management, corporate, military, air ambulance, sight-seeing, airline and flight test pilot, flight instructor, freelance commercial assistant, aircraft sales, leasing and insurance, flight dispatcher, flight schedule coordinator, safety inspector, air traffic controller, planning and development manager, aeronautical charting, aviation law, accident investigator, and air marshal. Additionally, OU Aviation helps students further their career prospects in that it is an approved school to provide training for the FAA Air Traffic-Collegiate Training Initiative and the Restricted Airline Transport Pilot, as well as enjoying pipeline agreements with several Regional airlines such as Envoy, PSA, Republic and as a Southwest Airlines Destination 225 Cadet Pathway partner.

Programs & Facilities

Max Westheimer Airport

The Max Westheimer Airport terminal building, the AM&E Building, and the simulator building located on North Campus at the University Research Park are the primary office and classroom buildings for the School of Aviation. The buildings contain many classrooms and study areas, with training aids, simulators, and other facilities to enhance the student's learning environment. The airport is a 15-20 minute drive from main campus or via the EMBARK (Norman's city bus service). Aviation students also have access to the school's maintenance hangars, which further enhance the student's ability to learn. Students are encouraged to take an active part in their learning process.

FAA Center of Excellence - Technical Training and Human Performance

In 2016, the University of Oklahoma was awarded as Technical Lead for the Federal Aviation Administration's newest Center of Excellence (FAA COE), focused on Technical Training and Human Performance (TTHP). There are currently 10 active FAA COEs in the United States. As of 2022, OU's Center is in its seventh operational year and has reached \$17 million in funding for 80 research projects. The Center serves the FAA's Air Traffic Organization and Civil Medical Aerospace Institute, as well as the Aviation Safety, Flight Program Operations, and NextGen divisions.

The OU FAA Center of Excellence TTHP is a consortium of 15 institutions and over 50 industry partners dedicated to helping the FAA revolutionize training practices for pilots, air traffic controllers, maintenance technicians, safety operators, and engineers. The Center also examines human performance, such as the cognitive, physiological, and psychological factors that result in human error during high risk-based decision making. In addition, the Center has worked with the FAA to increase employee readiness for addressing workforce challenges from natural disasters and/or pandemics. The Center has also recently been expanded to support the FAA in responding to new legislation

mandating the in-depth study of the human factor impacts of flight automation on pilot and crew in commercial aircraft.

FAA COE TTHP Leads: University of Oklahoma, Embry-Riddle Aeronautical University, and Wichita State University.

FAA COE TTHP Core Institutions: Auburn University, Drexel University, Inter American University, Oklahoma State University, Purdue University, The Ohio State University, The University of Akron, The University of Oklahoma, Tulsa Community College, University of Nebraska-Omaha, University North Dakota, University of Wisconsin – Madison, Western Michigan University, and Wichita State University.

For more information about the FAA COE TTHP, visit <http://www.coetthp.org>. To discuss partnering with our organization, please contact April Millaway Axton, Program Manager at april.e.williams@ou.edu.

Air Traffic–College Training Initiative (AT-CTI)

The University of Oklahoma has a long history of partnership with the Federal Aviation Administration (FAA) and was selected as an AT-CTI school in Fall 2007, making OU one of few approved programs in the southwest region of the United States. This program has been added as a proactive approach to help develop the much needed additions to the FAA workforce. The AT-CTI programs are a priority source of hiring for the FAA and likely a more prevalent source for professional controller candidates worldwide. Graduates from these programs may apply to the FAA Air Traffic Control Academy in Oklahoma City. However, the AT-CTI coursework must be completed in conjunction with a Non-Engineering Aviation Degree from an approved FAA AT-CTI school. In order to be considered for an ATCS position with FAA, you must not have reached your 31st birthday for Tower and En Route Center facility employment. For more specific details, visit the Federal Aviation Administration's website or contact OU Aviation.

Sooner Flight Academy

The University of Oklahoma's Sooner Flight Academy (SFA) provides aviation, aerospace, and STEM education for K-12 learners via field trips, one-day workshops, fall and spring break sessions, and summer camps. The SFA program helps learners develop an understanding of and love for aviation and flight through various hands-on lessons, panels, activities, demos, and experiments.

The purpose of the OU Sooner Flight Academy is to establish lifelong contributions to aviation and related STEM career fields. A secondary goal of SFA is to provide youth with college-aged role models, most of whom are studying to be pilots, air traffic controllers, and/or in airport or airline operations management, to promote a continuation of education beyond high school and vocational school with a linkage to lifelong learning opportunities available through the OU School of Aviation. In addition, the program provides teacher training and curriculum to support under-resourced districts that desire Aviation and Aerospace opportunities for Oklahoma youth.

To learn more about SFA and/or participate in our programs, please visit flightcamp.ou.edu and/or contact Ashley Chrisman, SFA Program Director at ashley.n.chrisman@ou.edu.

Internships

Aviation related internship experiences are available for qualifying students. Interested students should contact the Aviation Advising Office at (405) 325-7231 for more information.

Scholarships

The School of Aviation Studies awards a number of scholarships each semester to deserving majors who have been enrolled in the program. Individual scholarship application procedures and deadlines may be found on Aviation Scholarships.

Honor Societies and Professional Organizations

Eight unique societies and professional organizations are available for students in aviation:

- Sooner Air Traffic Control Association (SATCA) – for students with an interest in supporting the ATC programs
- Sooner Aviation Club – for students interested in aviation
- Sooner Chapter of American Association of Airport Executives (AAAE) – for students interested in the business side of aviation, including airport management
- Women In Aviation International (WAI) – for students dedicated to the encouragement and advancement of women in all aviation career fields and interests
- Alpha Eta Rho, Beta Chi Chapter – an international fraternity for aviation students
- National Intercollegiate Flight Association (NIFA) Flight Team – comprised of aviation students who compete regionally on a collegiate level in various aviation-related events, varying in complexity
- National Gay Pilot's Association (NGPA) – an organization open to all students to build, support and unite the LGBTQ aviation community worldwide
- Colonel Kenneth R. Carson Aviation Leadership Program – to provide leadership training, professional development and networking opportunities with the aviation industry to the top 10% of OU Aviation students

Undergraduate Study

Bachelor of Science Degree

The undergraduate degree in Aviation is designed to offer students a choice in their aviation career. The degree offers four areas of concentration:

- Air Traffic Management (p. 815)
- Aviation Management (p. 818)
- Non-Flying Aviation Management (p. 820)
- Professional Pilot - Airplane (p. 822)
- Professional Pilot - Helicopter (p. 825)

Upon completion of the program, the student will have a basic familiarity with the facts, skills, techniques, and attitudes which are relevant to the aviation industry, along with the basic educational and aeronautical experience to compete in today's aviation marketplace.

Aviation Minors

Aviation minors are generally open to non-Aviation majors at the University of Oklahoma. Please check with the Aviation Advising Office, as the minors with a flight component may be suspended during periods of high demand, and the coursework in these instances must be reserved for Aviation majors. Air Traffic Control is the only Aviation minor open to Aviation majors. Students pursuing any Aviation minor must earn at

least a minimum grade of “C” in Aviation courses taken to meet minor requirements.

- Air Traffic Control (p. 827)
- Aviation Management (p. 827)
- Single-Engine Commercial Pilot (p. 828)
- Multi-Engine Commercial Pilot (p. 828)

Admission

To be admitted to the Aviation program, a student must first be admitted to the University of Oklahoma. During periods of high demand, the admission for flight majors is open only in the fall term, with flight slots to be allocated to the admitted students over the course of the academic year (fall, spring, summer). Early application is considered important due to the limited number of students the program will be able to accept.

Inquiries concerning admission to the University should be addressed to the Office of Admissions & Recruitment, University of Oklahoma, 1000 Asp Avenue, Room 127, Norman, OK, 73019-4076. Specific requirements for admission may be found at the Admissions & Recruitment website.

Residency Requirement

Candidates for the BS degree must complete their last 30 hours as a resident student at the University of Oklahoma. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, nine of the last 60 hours may be taken at another university or by correspondence. Students are encouraged to consult their advisors prior to enrollment.

Pass/No Pass Enrollment

Pass/No Pass Enrollment may only be used to fulfill Elective Requirements.

Use of Graduate Level Courses

Graduate-level courses may NOT count toward the undergraduate degree.

Credit Hour Load

Generally to be considered full time, an undergraduate student must be enrolled in at least 12 hours in a fall or spring semester and six hours in a summer session. Please be advised that the VA and various scholarship donors may have specific hour requirements that may vary. Enrollments of 20 hours or more in a fall or spring semester and 10 hours or more in a summer session, must be approved by an academic advisor within the School of Aviation Studies. Students requesting such an exception must have demonstrated readiness to perform on an overload basis either through superior performance on a college aptitude test, or on the basis of superior academic achievement in previous college coursework.

Concurrent Degree in Two Colleges

- Both degrees must be completed and certified in the same semester.
- A graduation application must be filed for each degree. Two diplomas will be awarded.
- At least 30 additional hours must be completed beyond the degree that requires the least number of hours.

Ten-Year Limitation Rules

Students must complete the degree requirements within a maximum of 10 calendar years from the date of that enrollment. If the work for a degree covers a period longer than 10 years, the student must update to the most current degree program requirements.

Credit in a student’s major that is more than 10 years old may not be applied toward a bachelor’s degree unless it is validated by the Aviation Academic Chair.

Academic Probation & Stop-Out Policy

To be considered in good standing with the School of Aviation, a student should maintain an OU retention and combined retention grade point averages of at least 2.25 and comply with all School of Aviation and FAA policies. Additionally, Aviation majors are required to enroll in and successfully complete a MATH course every semester until the Math 1743 requirement is fulfilled. This is essential due to the fact that math is a prerequisite for several of the “Basic Business” courses and all of the “Upper-Division Business” coursework required for the degree. Hence, failure to comply with the math rule will delay one’s degree completion.

If a student’s OU retention or combined retention grade point average falls below 2.25, or the math policy is not adhered to, the student will be placed on one semester of academic probation. Failure of a student to satisfy the terms of this probationary semester will lead to the student being stopped-out of the Aviation program. Likewise, a student who does not comply with all FAA and School policies will also be stopped-out of the program.

Students who are stopped out will have their enrollment cancelled and must change their major from Aviation. After being stopped out, students are not eligible to return to Aviation or enroll in Aviation courses until their OU retention and combined retention grade point averages have reached the minimum 2.25 and/or a MATH course has been successfully completed. Upon being stopped-out, students’ records will be transferred to the Academic Advising Resources Center (AARC). All stopped-out students must contact AARC to discuss options for changing their major and re-enrolling at the University of Oklahoma.

Graduation

Students must apply for the degree that they are pursuing; Deadlines are December 1 for spring graduates, March 1 for summer graduates, and May 1 for fall graduates. *Dates are subject to change at the discretion of Academic Records.* Application is made online via one.ou.edu. All Aviation majors are required to make an appointment for a graduation check the semester before they intend to graduate. During the graduation check, applications and senior exit interviews will be completed.

Aviation Credit Flight Fees

Below are all the flight courses offered at OU that carry a flight or lab fee which are *in addition* to the tuition costs for the courses. It is important to note that not all the courses listed are required for each degree option, but some are optional if the student desires the additional training. The following classes are *required* for the Aviation Management—Flying degree option: AVIA 1222, AVIA 2231, AVIA 2341, AVIA 3572, and AVIA 4552. The following classes are *required* for the Professional Pilot degree option: AVIA 1222, AVIA 2231, AVIA 2341, AVIA 3572, AVIA 4552, AVIA 3581, and AVIA 4313.

* Primary Flying AVIA 1222: (29.0 Dual, 10.0 Solo, 1.0 Sim)	\$9,852 (39 hrs, Warrior III)
* Advanced Flying AVIA 2231: (18.0 Dual, 22.0 Solo)	\$8,136 (40 hrs, Warrior III)
* Secondary Flying AVIA 2341: (16.0 Dual, 24.0 Solo)	\$7,812 (40 hrs, Warrior III)

*Instrument Flying AVIA 3572: (25.2 Dual, 14.0 Sim)	\$9,288 (39.2 hrs, Warrior III)
*Commercial Flying AVIA 4552: (21.0 Dual, 19.0 Solo)	\$8,296 (40 hrs., Warrior III)
*Multi-Engine Flying AVIA 3581: (13.5 Dual)	\$6,315 (13.5 hrs., Seminole)
*Turbine Transition AVIA 4313: (5.0 Dual)	\$9,525 (5 hrs, King Air)

Optional Courses

*Flight Instructor AVIA 4602: (25.0 Dual)	\$6,212 (25 hrs., Warrior III)
*Advanced Flight Maneuvers AVIA 3111: (5.0 Dual)	\$1,444 (5 hrs., Cessna)
*Instrument Instructor AVIA 4613: (15.0 Dual)	\$4,192 (15 hrs., Warrior III)
*Multi-Engine Instructor: (25.0 Dual)	\$11,231 (25 hrs, Seminole)

ATC Course Fees

IFR Traffic Procedures AVIA 3313:	\$426
En Route Radar Lab AVIA 4013:	\$1,667
ATC Tower Simulation AVIA 4004:	\$1,960
Tracon Radar Lab AVIA 4023:	\$1,667

Prices for courses shown above are for the FAA hours required in a course syllabus. Actual flight hours and costs will most likely vary. For example, most Private Pilot students on average require 5 to 10 hours of overflight. * Students may voluntarily pay for additional flight training hours if needed to satisfactorily complete course tasks as discussed with Flight Instructor.

*Overflight: If student requires overflight hours, it is billed at the per flight hour cost (varies by aircraft, see table below). Additionally, for overflight, there is a \$39 per hour charge for instructor pre- and post-flight preparation.

Warrior Dual	\$214	Cessna Dual	\$190	Seminole Dual	\$401
Warrior Solo	\$170	King Air Dual	\$1,409	Simulator	\$142
Ground	\$44	King Air Ground	\$55		

ALL PRICES EFFECTIVE AUGUST 1, 2023, AND ARE SUBJECT TO CHANGE EACH ACADEMIC YEAR. PLEASE CONTACT THE SCHOOL OF AVIATION TO VERIFY COSTS AT (405) 325-7231.

Aviation majors must earn a minimum grade of C in aviation courses to be considered passing and move to the next requirement.

Courses

AVIA 1013 Introduction to Air Traffic Control 3 Credit Hours
Prerequisite: Permission of the department. The purpose of this course is to learn about the air traffic control system from both the pilot and controller's perspectives. This course is the first of eight ATC courses required for the Air Traffic Management degree path or ATC minor and a prerequisite for basic air traffic control regulations. (F, Sp)

AVIA 1111 Aviation Orientation 1 Credit Hour
Prerequisite: Majors only and departmental permission. Required orientation course for all declared Aviation Majors during their first semester. Orients students to the department, curriculum, resources, and provides an overview of the various aviation professions. Guest lecturers will include departmental instructors covering all aspects of the industry, as well as the advising staff. (F, Sp)

AVIA 1113 Introduction to Aviation 3 Credit Hours
Prepares student to take the FAA private pilot written examination. Covers FAR's, meteorology, aerodynamics, flight physiology, performance charts, radio navigation techniques. (F, Sp, Su)

AVIA 1133 Private Ground - Helicopter 3 Credit Hours
Prerequisite: departmental permission. Prepares students to take the FAA Computer Knowledge Test. Students will develop the knowledge specified by 14 CFR Section 141App B 3 (b) for a Private Pilot Rotorcraft/Helicopter certificate. (F, Sp, Su)

AVIA 1213 Basic Air Traffic Control Regulations 3 Credit Hours
Prerequisite: AVIA 1013 and permission of the department. This course is a progressive continuation of introduction to air traffic control and a prerequisite for general air traffic control procedures. This course is more narrowly focused on study and interpretation of the FAA orders and regulations that govern the air traffic control system and the national airspace system. (Sp, Su)

AVIA 1222 Primary Flying 2 Credit Hours
Prerequisite: 1113 or permission of department. Includes in-flight instruction with effort directed toward obtaining FAA certification as a private pilot. Third class medical must be obtained prior to flying. (F, Sp, Su)

AVIA 1332 Private Flight - Helicopter 2 Credit Hours
Prerequisite: departmental permission. Prepares students with the knowledge, skill, and aeronautical experience necessary to meet the requirements for a private pilot certificate with a rotorcraft/helicopter category. (F, Sp, Su)

AVIA 2013 General Air Traffic Control Procedures 3 Credit Hours
Prerequisite: AVIA 1013, 1213, and permission of the department. This course will present the study of "general control" procedures used in the terminal and en route control options as well as FAA flight service processes and procedures. This course will serve as a prerequisite for airport traffic control procedures. (F)

AVIA 2231 Advanced Flying 1 Credit Hour
Prerequisite: AVIA 1222 or private pilot certificate. Flight instruction in preparation for FAA commercial pilot certificate. (F, Sp, Su)

AVIA 2341 Secondary Flying 1 Credit Hour
Prerequisite: 2231. Consists of cross-country experience under the direct supervision of an instructor pilot. Part of the FAA Part 141 commercial certification course. (F, Sp, Su)

AVIA 2513 The History of Aviation 3 Credit Hours
Prerequisite: Must be a declared aviation major with permission of the department. Chronicles the history of aviation through an in-depth study of powered flight and focus on the development of civil, commercial, and military aviation. Covers significant events and people throughout aviation history from the first powered flight through present day developments and a brief look into the future. Also examines the impact of aviation on recreation, transportation, warfare, and exploration. (F, Sp)

- AVIA 2613 Aviation Safety 3 Credit Hours**
Prerequisite: Sophomore standing and departmental permission.
This course will examine all aspects of accidents/incidents involving airline and general aviation flights. It examines those areas from the perspective of pilots, crew members, air traffic controllers and National Transportation Safety Board (NTSB) findings. Each accident/incident is dissected with the goal of determining what went wrong and lessons that can be learned. (F, Sp)
- AVIA 2970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Must be a declared aviation major with permission of the department. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- AVIA 3013 Career Development for Aviation Professionals 3 Credit Hours**
Prerequisite: Sophomore standing and must be a declared aviation major with permission of the department. This course will provide an overview of the career planning process for aviation students. Students will master the techniques of self-assessment, resume and letter writing, interviewing, researching companies, proper writing techniques, ethics and etiquette, and networking. This course is intended to help students prepare for internship interviews or entering the aviation industry as a professional. (F, Sp)
- AVIA 3103 Flight Deck Environmental Issues 3 Credit Hours**
Prerequisite: Must be a declared aviation major and departmental permission. Human-machine interface issues in today's modern flight deck are the focus of the course. Leading to that end, the student will explore the cognitive and psychomotor domains of learning, review studies of aircrew interface problems, learn coping mechanisms used by today's best aviation trainers to overcome design-induced problems in cockpit advanced technology. (F, Sp)
- AVIA 3111 Advanced Flight Maneuvers 1 Credit Hour**
Prerequisite: 1222 or FAA private pilot certificate. Increase the student's knowledge and understanding of advanced flight maneuvers. Accelerated stalls, spins, inverted flight, and recovery from unusual altitudes. Advanced aerodynamics will be discussed and demonstrated. (F, Sp, Su)
- AVIA 3113 Commercial Aviation 3 Credit Hours**
Prerequisite: AVIA 3133 or instrument rating and permission of the department. Course provides the student the knowledge required to obtain a commercial pilot certificate. (F, Sp, Su)
- AVIA 3123 Instrument Ground - Helicopter 3 Credit Hours**
Prerequisite: Sophomore standing and departmental permission; AVIA 1133 and AVIA 1332 with grade of C or better. Prepare students with the knowledge specified by 14 CFR Section 61.65 and 14 CFR Section 141 Appendix C for an Instrument Pilot Rotorcraft/Helicopter certificate. (F, Sp, Su)
- AVIA 3133 Fundamentals of Instrument Flight 3 Credit Hours**
Prerequisite: 2231 and private pilot license. Federal aviation regulations as pertain to instrument flight rules (IFR), weather and forecast products, interpretation of en route low altitude charts and terminal instrument approach procedures, instrument flight procedures and techniques. (F, Sp, Su)
- AVIA 3143 Commercial Ground Helicopter 3 Credit Hours**
Prerequisite: Sophomore standing and departmental permission; AVIA 1133, AVIA 1332, AVIA 3123 and AVIA 3532 with grade of C or better. Prepare students with the knowledge specified by 14 CFR Section 61.125 for a Commercial Pilot Rotorcraft/Helicopter certificate. (F, Sp, Su)
- AVIA 3213 Airport Traffic Procedures 3 Credit Hours**
Prerequisite: AVIA 1013, 1213, 2013, and permission of the department.
The primary focus of this course is to study visual air traffic control procedures, specifically, to learn the principles of operation and the separation methods required in the air traffic control tower environment. This course will serve as a prerequisite for IFR Air Traffic Control Procedures. (Sp)
- AVIA 3313 IFR Air Traffic Procedures 3 Credit Hours**
Prerequisite: AVIA 1013, 1213, 2013, 3213, and permission of the department. Focus on the requirements and procedures used in the IFR air traffic control environment. The students will study all of the separation standards and rules used in radar and non-radar environments in the approach control and air route traffic control facilities. This course will serve as a prerequisite for Air Traffic Simulation. (F)
- AVIA 3333 Survey of Aviation Law 3 Credit Hours**
Prerequisite: AVIA 1113, junior standing, and permission of the department. Survey of legal issues in aviation. The student will review legislation, regulatory agencies, and case studies dealing with legal issues in the medium of airspace above the ground-predominantly over the United States. The student will be able to identify and comprehend the historical events and technical terms that describe national and international legal precedents that have shaped aviation law. (F, Sp)
- AVIA 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- AVIA 3513 Airport Operations Management 3 Credit Hours**
Prerequisite: AVIA 1113, junior standing, permission of the department, and must be a declared Aviation major. Provides the student with an in-depth analysis of airport management, operations and planning functions necessary to operate, develop, and maintain safe and efficient airport facilities as is the practice in the United States. Also introduces air traffic control (ATC) concepts. (F, Sp)
- AVIA 3532 Instrument Flying - Helicopter 2 Credit Hours**
Prerequisite: Sophomore standing and departmental permission; AVIA 1133 and AVIA 1332 with grades of C or better. Prepare students with the knowledge, skill, and aeronautical experience necessary to meet the requirements for an Instrument Pilot Rating with a rotorcraft/helicopter category to include Preflight Preparation, Preflight Procedures, Air Traffic Control Clearances & Procedures, Flight by Reference to Instruments, Navigation Systems, Instrument Approach Procedures, Emergency Operations and Post-flight Procedures. (F, Sp, Su)
- AVIA 3572 Instrument Flying 2 Credit Hours**
Prerequisite: 3133 and private pilot certificate. Individual flight simulator instruction in the technique of flying solely by reference to instruments. Ground instruction in radio navigation, meteorology, instrument approach procedures, air traffic control procedures and federal aviation regulations. (F, Sp, Su)
- AVIA 3581 Multi-Engine Flying 1 Credit Hour**
Prerequisite: 4552 or commercial pilot certificate. A study of the design, construction and flight characteristics of multiengine aircraft. Inflight instruction in pilotage and operation of multiengine airplanes. Designed to qualify the student for certification as a multiengine pilot. (F, Sp, Su)

AVIA 3913 Aerospace Contract Administration 3 Credit Hours

Prerequisite: Junior standing, permission of the department, and must be a declared aviation major. Survey and study of specialized procedures used in the management and administration of aerospace (aviation) contracts, particularly associated with commercial and defense systems acquisitions. Students will use case study analysis, involving aerospace development and acquisition procedures, to enhance the learning experience and prepare them for future employment in the aerospace industry. (F)

AVIA 3923 Aerospace Operational Research 3 Credit Hours

Prerequisite: Junior standing, must be a declared Aviation major, and departmental permission. Students will be introduced to the fundamental methods and techniques employed by the aviation/aerospace industry when researching and analyzing operational issues. Students will be able to use specialized research methods to collect data, analyze it, and then draw logical conclusions. Knowledge, skills, and abilities learned in this course will prepare students for Senior Capstone. (F)

AVIA 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

AVIA 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

AVIA 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

AVIA 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

AVIA 4004 Air Traffic Control Tower Simulation 4 Credit Hours

Prerequisite: AVIA 1013, 1213, 2013, 3213, 3313, and 4013; all with minimum grade of C; and permission of the department. Provides students an opportunity to apply knowledge learned in previous air traffic control courses, specifically AVIA 3213, and expand the knowledge base of terminal ATC procedures. The application and expansion of knowledge will occur in lectures and through working in a high fidelity, simulated ATC tower environment. (F)

AVIA 4013 En-Route Radar Lab 3 Credit Hours

Prerequisite: AVIA 1013, 1213, 2013, 3213, 3313; all with minimum grade of C; and permission of the department. Lab to prepare student for on-the-job training in an FAA En-Route Air Traffic Control facility. Course will consist of dynamic simulation exercises in an ATC computer lab as well as classroom briefings. Students will run scenarios as the controller and as a pseudo pilot. Course objectives are based on federal guidelines by the Federal Aviation Administration. (Sp)

AVIA 4023 Tracon Radar Lab 3 Credit Hours

Prerequisite: AVIA 1013, 1213, 2013, 3213, 3313, 4004, and 4013; all with minimum grade of C; and permission of the department. Lab to prepare students for on-the-job training in an FAA Terminal Radar Air Traffic Control facility. Course will consist of dynamic simulation exercises in an ATC computer lab as well as classroom briefings. Students will run scenarios as the controller and as a pseudo pilot. Objectives are based on federal guidelines by the Federal Aviation Administration. (Sp)

AVIA 4033 EnRoute Radar Lab-Enhanced Follow On 3 Credit Hours

Prerequisite: Junior standing; AVIA 1013, AVIA 1213, AVIA 2013, AVIA 3313, and AVIA 4013, all with a minimum grade of C. Provides students an opportunity to apply knowledge learned in previous air-traffic-control courses, including AVIA 3313 and AVIA 4013, and to prepare student for on-the-job training in an FAA EnRoute Air Traffic Control facility. Course consists of simulation exercises in an ATC computer lab as well as classroom briefings. Students will run scenarios as the controller and as a pseudo pilot. (F, Sp, Su)

AVIA 4043 ATC Tower Simulation Enhanced Follow On 3 Credit Hours

Prerequisite: Junior standing; AVIA 1013, AVIA 1213, AVIA 2013, AVIA 3313, AVIA 4013, and AVIA 4004, all with minimum grade of C. This course provides students an opportunity to apply knowledge learned in previous air traffic control courses, specifically AVIA 4004, and expand the knowledge base of terminal ATC procedures. The application and expansion of knowledge will occur in lectures and through working in a high fidelity, simulated ATC tower environment. (F, Sp, Su)

AVIA 4113 CFI Seminar 3 Credit Hours

Prerequisite: 3133, 3113. Increase student knowledge of theories of learning, flight instructor authority, and responsibility and classroom and flight techniques. Emphasis on principles of instruction, student motivation and maneuver error analysis. (F, Sp, Su)

AVIA 4123 Helicopter Flight Instructor Ground 3 Credit Hours

Prerequisite: Junior standing and departmental permission; AVIA 1133, AVIA 1332, AVIA 3123, AVIA 3532, AVIA 3143 and AVIA 4332 with grade of C or better. Prepare student instructor candidates with the knowledge specified by 14 CFR Section 61.181 and 14 CFR Section 141 Appendix F for a Flight Instructor Pilot Rotorcraft/Helicopter certificate. (F, Sp, Su)

AVIA 4313 Turbine Transition 3 Credit Hours

Prerequisite: AVIA 3581, 4552, and permission of the department. Introduce the student to the procedures of flying a turbine aircraft and the concepts of crew resource management. Emphasis is placed on the basic terminology and procedures and emergency operations. (F, Sp, Su)

AVIA 4332 Commercial Flying - Helicopter 2 Credit Hours

Prerequisite: Sophomore standing and departmental permission; AVIA 1133, AVIA 1332, AVIA 3123 and AVIA 3532 with grade of C or better. Prepare students with the knowledge, skill, and aeronautical experience necessary to meet the requirements for a Commercial Pilot Certificate with a rotorcraft/helicopter category. (F, Sp, Su)

AVIA 4423 Crew Resource Management 3 Credit Hours

Prerequisite: AVIA 1113, junior standing, permission of the department, and must be a declared aviation major. To teach the student the principles and procedures of a two or more person cockpit. Includes: briefings, call-outs, and emergency procedures. (F, Sp)

AVIA 4552 Commercial Flying 2 Credit Hours

Prerequisite: 3113. The final stage of the FAA Part 141 commercial pilot certification course. Designed to polish pilot skills in commercial aircraft maneuvers. (F, Sp, Su)

AVIA 4602 Flight Instructor-Airplane 2 Credit Hours

Prerequisite: commercial pilot certificate and instrument rating. Flight instruction in preparation for FAA flight instructor certificate. (F, Sp, Su)

AVIA 4613 Instrument Flight Instructor 3 Credit Hours

Prerequisite: commercial pilot certificate and flight instructor-airplane certificate. Consists of lecture and flight instruction in the specialized teaching techniques and procedures required of an instrument flight instructor. At the end of the course, the student will meet the requirements for certification by the FAA as an instrument flight instructor. (F, Sp, Su)

AVIA 4632 Flight Instructor - Helicopter 2 Credit Hours

Prerequisite: Junior standing and departmental permission; AVIA 1133, AVIA 1332, AVIA 3123, AVIA 3532, AVIA 3143 and AVIA 4332 with grade of C or better. Prepare students with the knowledge, skill, and aeronautical experience necessary to meet the requirements for a Certified Flight Instructor Rating with a rotorcraft/helicopter category. (F, Sp, Su)

AVIA 4642 Instrument Instructor Helicopter Flight 2 Credit Hours

Prerequisite: Junior standing and departmental permission; AVIA 1133, AVIA 1332, AVIA 3123, AVIA 3532, AVIA 3143, AVIA 4332, AVIA 4123 and AVIA 4632 with grade of C or better. Prepare students with the knowledge, skill, and aeronautical experience necessary to meet the requirements for an Certified Flight Instructor Instrument Pilot Rating with a rotorcraft/helicopter category to include Preflight Preparation, Preflight Procedures, Air Traffic Control Clearances & Procedures, Flight by Reference to Instruments, Navigation Systems, Instrument Approach Procedures, Emergency Operations and Post-flight Procedures. (F, Sp, Su)

AVIA 4643 Instrument Instructor Ground - Helicopter 3 Credit Hours

Prerequisite: Junior standing and departmental permission; AVIA 1133, AVIA 1332, AVIA 3123, AVIA 3532, AVIA 3143, AVIA 4332, AVIA 4123 and AVIA 4632 with grade of C or better. Prepare the student with the knowledge specified by 14 CFR Section 61.65 and 14 CFR Section 141 Appendix G for the Flight Instructor Instrument Rotorcraft/Helicopter Rating. (F, Sp, Su)

AVIA 4663 Survey of Aerospace Ethical Issues 3 Credit Hours

Prerequisite: Junior standing, permission of the department, and must be a declared aviation major. A survey of past and present ethical issues influencing the development of ethical behavior among U.S. aerospace companies and commercial and corporate aviation. Individual development of defense mechanisms to ensure ethical behavior in competitive environments. (F, Sp, Su)

AVIA 4713 Senior Capstone 3 Credit Hours

Prerequisite: senior standing, permission of department, and all major upper-division courses or concurrent enrollment. This project course builds on the accumulated knowledge from all courses to date. Lectures will cover problem identification, analysis, generation of alternatives, cost/benefit studies, interviews and presentations. Student teams will analyze and make recommendations on an actual problem for an aviation related organization, such as the FAA. (F, Sp) [V].

AVIA 4803 Aviation Mental Health: Psychological Implications for Air Transportation 3 Credit Hours

Prerequisite: junior standing, permission of the department, and must be a declared aviation major. Students will learn about mental health issues relevant to passengers, cabin crew, and flight deck crew--that have far-reaching psychological implications for all those who travel by means of air transportation--through the experiences of flight attendants, pilots, clinicians, researchers, trainers, and professors. (Sp, Su)

AVIA 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

AVIA 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing and permission of department; May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

AVIA G4983 Airline Management 3 Credit Hours

Prerequisite: Junior or graduate standing, and departmental permission; must be a declared aviation major. Study of the managerial aspects of the airline industry to include economic and organizational characteristics, marketing, operational scheduling, fleet planning, and labor relations. Students participate in management simulation as senior executives of a regional domestic carrier. (F, Sp)

AVIA 4990 Special Studies in Aviation 1-4 Credit Hours

1 to 4 hours. Prerequisite: departmental permission. Will encompass various aviation-related topics including many specialty flight programs; such as, aerobatic instruction, multiengine training, pilot refresher training, etc. (F, Sp, Su)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed

SPECIALIZED AVIATION ELECTIVES

Students are not required to complete specialized aviation electives, but may choose to do so for additional training: AVIA 3333 and AVIA 4803.

Additional Requirements

- Maintaining less than a 2.25 GPA, or failure to complete the required math sequence each semester will result in academic probation.
- The maximum number of aviation hours accepted by transfer is twelve.
- A maximum of nine hours of aviation may be accomplished through advanced standing.
- A total of 55 hours of liberal arts coursework is required.

- To receive the general business minor a 2.50 OU retention, overall retention, and upper-division business GPA is required.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
ENGL 1113	Principles of English Composition (Core I)	3

Core Area IV: Arts & Humanities		
HIST 1483	United States to 1865 (Core IV)	3
or HIST 1493	United States, 1865 to the Present	
One course from one of the following 3 fields (Core IV) must be upper-division:		
Choose one Artistic Forms course		3
Choose one Western Culture course		3
Choose one World Culture course		3
Core Area V: First Year Experience		
Choose one course		3
Total Credit Hours		44-54

¹ Students who have completed two years of high school language are exempt from the general education language requirement.

² Core I—Substitute: MATH 1823, Calculus & Analytic Geom. I or MATH 1914, Differential and Integral Calculus I

³ Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement under Major Support.

Free Electives

Five hours if exempt from language; zero hours if two semesters of language must be taken. **Free electives may include any specialized aviation courses.**

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

SPECIALIZED AVIATION ELECTIVES (p. 823)

Students are not required to complete all electives listed (p. 823), but may choose to do so for additional training.

Additional Requirements

- Maintaining less than a 2.25 GPA, or failure to complete the required math sequence each semester will result in academic probation.
- The maximum number of aviation hours accepted by transfer is twelve.
- A maximum of nine hours of aviation may be accomplished through advanced standing.
- A total of 55 hours of liberal arts coursework is required.

SPECIALIZED AVIATION ELECTIVES

Students are not required to complete all electives listed below, but may choose to do so for additional training.

Code	Title	Credit Hours
AVIA 3111	Advanced Flight Maneuvers	1
AVIA 3333	Survey of Aviation Law	3
AVIA 3513	Airport Operations Management	3
AVIA 4113	CFI Seminar	3
AVIA 4602	Flight Instructor-Airplane	2
AVIA 4613	Instrument Flight Instructor	3
AVIA 4803	Aviation Mental Health: Psychological Implications for Air Transportation	3
AVIA 4990	Special Studies in Aviation	1-4

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communications

Choose one course	3
Total Credit Hours	47-57

¹ Students who have completed two years of high school language are exempt from the general education language requirement.

² Core I—Substitute: MATH 1823, Calculus & Analytic Geom. I or MATH 1914, Differential and Integral Calculus I

³ Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement under Major Support.

Free Electives

6 hours if exempt from language; 0 hours if two semesters of language must be taken. **Free electives may include specialized aviation courses.**

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

Freshman		
First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3

Total Credit Hours 120

- For those students who did not successfully complete two years of the same language in high school, two college-level courses in a single language are required. The 4 hours of free electives in the semester plan will be replaced with two semesters of the same college-level language.

- For those students pursuing the General Business Minor, successful completion of ECON 2843 is required.
- This plan of study should not be used in lieu of academic advisement.

Air Traffic Control, Minor

Minimum Total Credit Hours: 25

Program Code: N093

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete all 25 minor hours in residence at the University of Oklahoma

No correspondence work or advanced standing is allowed to count towards the minor

- A 2.25 OU and combined GPA is required in the minor coursework.

One course per semester; courses cannot be taken concurrently without permission of the AT-CTI Director

Required Courses

A minimum grade of C is required in aviation courses counting toward the minor.

Code	Title	Credit Hours
AVIA 1013	Introduction to Air Traffic Control	3
AVIA 1213	Basic Air Traffic Control Regulations	3
AVIA 2013	General Air Traffic Control Procedures	3
AVIA 3213	Airport Traffic Procedures	3
AVIA 3313	IFR Air Traffic Procedures ¹	3
AVIA 4004	Air Traffic Control Tower Simulation ¹	4
AVIA 4013	En-Route Radar Lab ¹	3
AVIA 4023	Tracon Radar Lab ¹	3
Total Credit Hours		25

¹ Courses involve both classroom instruction & lab simulation; an additional flight fee is applied.

- Minors are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Aviation: Aviation Management, Minor

Minimum Total Credit Hours: 18

Program Code: N090

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete 12 of the 18 minor hours in residence at the University of Oklahoma

A maximum of 6 hours of transfer work may be applied towards the minor

No correspondence work is allowed to count towards the minor

A 2.25 OU and combined GPA is required in the minor coursework; not open to aviation majors

Required Courses

A minimum grade of C is required in aviation courses counting toward the minor.

Code	Title	Credit Hours
AVIA 1113	Introduction to Aviation	3
AVIA 3513	Airport Operations Management	3
AVIA 4663	Survey of Aerospace Ethical Issues	3
AVIA 4983	Airline Management	3
Choose two of the following courses (6 total credit hours):		6
AVIA 2513	The History of Aviation	
AVIA 2613	Aviation Safety	
AVIA 3913	Aerospace Contract Administration	
AVIA 3923	Aerospace Operational Research	
AVIA 4423	Crew Resource Management	
Total Credit Hours		18

- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Aviation: Single-Engine Commercial Pilot, Minor

Minimum Total Credit Hours: 17

Program Code: N092

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete 11 of the 17 minor hours in residence at the University of Oklahoma

A maximum of 6 hours of transfer work may be applied towards the minor

A 2.25 OU and combined GPA is required in the minor coursework; not open to aviation majors

Required Courses

A minimum grade of C is required in aviation courses counting toward the minor.

Code	Title	Credit Hours
AVIA 1113	Introduction to Aviation	3
AVIA 1222	Primary Flying ¹	2
AVIA 2231	Advanced Flying ¹	1
AVIA 2341	Secondary Flying ¹	1
AVIA 3113	Commercial Aviation	3
AVIA 3133	Fundamentals of Instrument Flight	3
AVIA 3572	Instrument Flying ¹	2
AVIA 4552	Commercial Flying ¹	2
Total Credit Hours		17

¹ Courses involve both classroom instruction & flight instruction; an additional flight fee is applied.

- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Aviation: Multi-Engine Commercial Pilot, Minor

Minimum Total Credit Hours: 18

Program Code: N091

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete 12 of the 18 minor hours in residence at the University of Oklahoma

A maximum of 6 hours of transfer work may be applied towards the minor

A 2.25 OU and combined GPA is required in the minor coursework; not open to aviation majors

Required Courses

A minimum grade of C is required in aviation courses counting toward the minor.

Code	Title	Credit Hours
AVIA 1113	Introduction to Aviation	3

AVIA 3572	Instrument Flying ¹	2
AVIA 3581	Multi-Engine Flying ¹	1
AVIA 4552	Commercial Flying ¹	2
Total Credit Hours		18

¹ Courses involve both classroom instruction & flight instruction; an additional flight fee is applied.

- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

School of Meteorology

Jens Redemann, Director
National Weather Center
120 David L. Boren Blvd., Suite 5900
Norman, OK 73072-7307
Phone: (405) 325-6561
FAX: (405) 325-7689
jredemann@ou.edu
meteorology.ou.edu

General Information

Meteorology, or atmospheric science, is the study of the atmosphere and its interaction with Earth's surface, oceans, and biological systems. Meteorologists seek to describe, understand, and predict weather phenomena that occur on spatial scales ranging from millimeters to thousands of kilometers, and on time scales from microseconds to thousands of years or longer. These phenomena range from localized thunderstorms and tornadoes, to regional frontal systems and hurricanes, to global climate change.

Major scientific areas of research in meteorology today include weather, climate, and the interactions between them. This includes the study and prediction of severe and hazardous weather events that strongly affect life and property. These events include, but are not limited to, lightning, tornadoes, floods, hail, blizzards, dense fog and hurricanes. Research activities regarding climate and weather-climate interactions include the study of past climates, regional climate, surface and boundary layer processes, climate change and seasonal forecasting. The School of Meteorology is actively engaged in research on all the above-mentioned topics.

The School of Meteorology at the University of Oklahoma is the largest such program in the nation. The undergraduate and graduate programs are unique due to our co-location with NOAA, Department of Interior and Department of Energy programs as well as several University strategic organizations, which broaden the education, training and research portfolio of the school. The school is routinely ranked near the top of the nation in terms of undergraduate awards, such as the annual number of undergraduate scholarships awarded from the NOAA Hollings and American Meteorological Society (AMS) programs. Our students have received numerous best poster and best oral presentation awards at recent conferences and symposium.

Programs & Facilities

National Weather Center

A unique feature of the School of Meteorology is that it has close ties with several University-based state and federal research and operational organizations in Norman. Collectively known as the National Weather Center, these organizations include the School of Meteorology, the Department of Geography and Environmental Sustainability, the Oklahoma Climatological Survey, Center for Spatial Analysis, the Cooperative Institute for Mesoscale Meteorological Studies, the Center

for Analysis and Prediction of Storms, the Atmospheric Radar Research Center, the Environmental Verification and Analysis Center, the National Severe Storms Laboratory, the National Weather Service Forecast Office, the Storm Prediction Center, the WSR-88D Doppler Radar Operations Center, and the Warning Decision Training Branch. These organizations provide part- and full-time employment opportunities for undergraduate and graduate students as well as opportunities to participate in state-of-the-art research projects and observational field programs. The high concentration of research and operational institutions also attracts a large number of distinguished visiting scientists for stays varying in length from a day to a year. Nearly all of these organizations have been housed together in the new National Weather Center building since fall 2007.

Facilities available to students and faculty include a PC LINUX-based lab/classroom (25 machines), a general-purpose Apple Macintosh computer lab as well as departmental servers for email, World Wide Web, and weather data. Departmental computing resources are augmented by the College of Atmospheric and Geographic Sciences Amoco PC lab and the resources of the OU Supercomputing Center, OSCER. All these resources are interconnected through the campus network of wired and wireless connections and to the Internet for access to national super-computer centers, the World Wide Web, and other stops on the information superhighway. The school provides a full suite of current weather data, radar data and forecast products from the National Weather Service. Data are also available from the Oklahoma Mesonet, a unique network of remotely operated ground-based sensors providing current weather at the county level for the entire state. The school also helps support two large mobile Doppler radar vehicles (SMART-R) for the detailed study of tornadoes, thunderstorms, hurricanes, fronts and other small-scale phenomena. Observational and experimental work and instrumentation development are pursued in laboratories located in the school, OCS, and on the roof of the NWC. Hands-on experience is an important part of the degree programs of the School of Meteorology. Facilities at the National Weather Center and its partners taken together provide unique opportunities and challenges for students of all levels.

Atmospheric Radar Research Center (ARRC)

Under the auspices of the University of Oklahoma's Strategic *Radar Initiative*, faculty members from the Schools of Meteorology and Electrical and Computer Engineering have united to form an interdisciplinary team of scientists and engineers to solve challenging Doppler radar research problems and prepare the next generation of students. Through the collaborative nature instilled in its members, the ARRC has proven effective at developing synergy in the field of weather radar between science and engineering. In the National Weather Center and its laboratory facilities in One Partner's Place, meteorology and engineering faculty and students work side-by-side to learn from each other in a true team environment. This interdisciplinary *esprit de corps* has already had a profound effect on both the undergraduate and graduate educational experiences in radar provided to OU students. Since being established in 2004, the ARRC has grown to include 10 faculty members, over 30 graduate students, and several postdoctoral fellows. Areas of research concentration are in radar configuration/design/ optimization, signal processing, phased array/imaging, retrieval algorithm development, quantifications of radar performance and measurement uncertainty, cloud/precipitation microphysics, severe convective storms, boundary layer dynamics, wind-field retrieval, radar-based model parameterization and initialization, electro-magnetic signatures of targets, birds, insects, and hydrometeors, waves in random media, and polarimetry/interferometry techniques. The ARRC offers graduate research assistantships, post-doctoral fellowships, visiting

scientist appointments, and undergraduate fellowships. For additional information, visit the ARRC's website.

Center for Analysis and Prediction of Storms (CAPS)

CAPS originated in 1989 as a National Science Foundation Science and Technology Center and graduated from this program in 2000. It continues to be supported by a number of agency grants as well as private industry, and its primary mission remains the development of techniques for the prediction of high-impact local weather with an emphasis on thunderstorms and mesoscale phenomena. Its research programs include numerical modeling and computational fluid dynamics, data assimilation, small-scale predictability, physical process studies, Doppler radar analysis and forecast evaluation. CAPS recently helped initiate a new NSF Engineering Research Center for Collaborative Adaptive Sensing of the Atmosphere (CASA) that is focused on developing new Doppler radar technology and also leads an NSF Information Technology Research grant known as Linked Environments for Atmospheric Discovery (LEAD). CAPS offers graduate research assistantships, postdoctoral fellowships, visiting scientist appointments, and undergraduate fellowships. For additional information, visit the Center's website.

South Central Climate Adaptation and Science Center (CASC)

The South Central Climate Adaptation Science Center began in 2012, and in 2014 South Central CASC published its *Tribal Engagement Strategy*. As part of the strategy, they began to build tribal capacity in climate-related areas, invest in the next generation of tribal staff, and train climate researchers to invest in these relationships, among many other new goals. From 2013-2015 the team has had 28 total trainings, 554 tribal attendees, engaged 91 different tribes and nations, and has had 5100 contact hours with first nations. The youth of the tribes have not gone unnoticed in the *Tribal Engagement Strategy*. From 2013-2016, 24 tribal youth events were held by the South Central CASC, and South Central CASC staff members mentored 16 Native American undergraduate and graduate students. In only five years of existence, the South Central CASC has had tremendous success with inclusion and partnership with first nations. The South Central CASC has had the privilege of being able to engage with 61 of the 68 regional tribes or nations. Led by School of Meteorology alumna and adjunct associate professor (and DGES associate professor) Dr. Renee McPherson, the South Central CASC works "with natural and cultural resource managers to gather the scientific information and build the tools needed to help fish, wildlife and ecosystems adapt to the impacts of climate change", according to their website. This important work is accomplished through "a collaborative partnership among USGS scientists, resource management agencies, and a consortium of academic institutions from across the region, including Texas Tech University, Louisiana State University, the Chickasaw Nation, the Choctaw Nation of Oklahoma, Oklahoma State University, and the University of New Mexico."

Center for Autonomous Sensing and Sampling (CASS)

Oklahoma is a recognized world leader in weather and radar research and has a rich aviation and aerospace history, making it a prime location to fuse the two disciplines while leveraging the State's and University's strengths in aviation, atmospheric science, robotics, and remote sensing development with the aim to create innovative solutions to pressing societal needs. CASS's mission is to explore, advance, and develop complete adaptive and autonomous sensing and sampling systems for use in the atmosphere, on the ground, and in the water and to help facilitate the integration of this technology across various disciplines and institutions.

Since being established in April 2016, CASS has grown to include 7 faculty affiliates, a staff engineer, a research scientist, postdoctoral fellow, six graduate students, and nearly a dozen undergraduate research assistants across a wide range of fields such as electrical engineering, computer science, data science and analytics, chemistry, geography, civil engineering, aerospace and mechanical engineering, physics, and meteorology. Areas of research focus currently include atmospheric chemistry, boundary layer structure and dynamics, data processing and visualization, earth science, and solution-based engineering. CASS offers graduate and undergraduate research assistantships, postdoctoral opportunities, affiliate and visiting appointments. For additional information or to explore collaborative opportunities, we invite you to visit our website or to contact Dr. Chilson or Dr. Pillar-Little.

Cooperative Institute for Mesoscale Meteorological Studies (CIMMS)

CIMMS is a joint University of Oklahoma/NOAA cooperative institute designed to improve the effectiveness of research and instruction by providing a stimulating environment where scientists can meet and work on problems of mutual interest. Current research themes include convective and mesoscale processes, forecast improvements, climatic effects of/controls on mesoscale processes, socioeconomic impacts of mesoscale weather systems and regional-scale climate variations, Doppler weather radar research and development, and climate change monitoring and detection. CIMMS is also the home of the Site Scientist for the DOE Atmospheric Radiation Measurement (ARM) Program for the Southern Great Plains, and the Data Quality Office for all three ARM Sites (Southern Great Plains, Tropical Western Pacific, North Slope of Alaska). CIMMS is housed on the second and third floors in the National Weather Center.

National Severe Storms Laboratory (NSSL)

The NOAA National Severe Storms Laboratory (NSSL) is dedicated to improvement of our understanding of severe convective and mesoscale events. Areas of emphasis include forecasting and analysis techniques, radar development and applications, and applications of multi-scale numerical forecast models. Research assistantships are available through CIMMS and adjunct faculty at the NSSL supervise graduate student research in the School of Meteorology.

National Weather Service Forecast Office (NWSFO)

The NWSFO, a technologically advanced forecast facility prepares and disseminates life-saving warnings, watches and advisories for all types of hazardous weather conditions affecting 48 counties in central, western and southern Oklahoma, and eight counties in western north Texas. Intern and temporary position opportunities are available for OU students.

National Weather Service Storm Prediction Center (SPC)

The NOAA Storm Prediction Center (SPC) is the NWS national center of expertise for mesoscale hazardous weather forecasting. It has responsibility for issuing tornado and severe thunderstorm warnings for the contiguous United States. In addition, SPC prepares outlooks of areas with expected tornado and severe thunderstorm activity during the next eight days. The SPC also produces eight-day forecasts for areas of the country where conditions are compatible with the ignition and spread of wild fires, and short-term forecasts of mesoscale features associated with hazardous winter weather and excessive precipitation. The SPC is one of the organizing partners of the NOAA Hazardous Weather Testbed which explores ways to improve the timeliness and accuracy of hazardous weather forecasts. The SPC collaborates with meteorologists from around the world, and has conducted many joint

projects with programs in the College of Atmospheric and Geographic Sciences.

The **Warning Decision Training Branch** develops and delivers training on the integrated elements of the warning process within a National Weather Center forecast office.

Oklahoma Climatological Survey (OCS)

The OCS is a state agency housed at the University of Oklahoma and serves as one component of the School of Meteorology's current research cluster. The OCS is a dual-purpose organization functioning as a service provider and conducting cutting-edge research. OCS contributes data resources and expertise in a broad field of interests such as climate and climate change, real-life application of weather data, and the operation of the Oklahoma Mesonet, Oklahoma's weather network. Research interests include K-20 education, first-responder instruction and support, surface transportation monitoring systems, and weather instrumentation research. The main office of OCS is located in the National Weather Center, part of the new Norman Research Campus. For additional information, visit the agency's website.

Radar Operations Center (ROC)

The ROC, a NOAA organization partially located in the National Weather Center provides life-cycle hardware and software engineering and maintenance support for a world-class network of 167 Doppler weather radars (also known as NEXRAD) installed nationwide and at several overseas locations. The ROC uses a co-located WSR-88D radar for development and testing, operates a helpdesk to support operations and maintenance activities, and deploys teams of engineers and technicians to perform major maintenance. Working in collaboration with NSSL and OU researchers, the ROC transitions new radar techniques and products to operations to continually improve the nation's weather radar capabilities.

Exchange Program

The School of Meteorology has developed exchange programs with the University of Reading in England, Hamburg University in Germany. Meteorology majors at the University of Oklahoma can apply to study abroad at one of these institutions during the spring semester of their junior year. Students complete the equivalent of OU meteorology requirements at one of these schools, so there is no delay in graduation. The College of Atmospheric and Geographic Sciences also offers the John T. Snow Study Abroad Scholarship; this \$1,000 award is presented each year to a junior A&GS student who plans to study abroad. Visit School of Meteorology Study Abroad for more information about these programs.

Scholarships and Financial Aid

Depending on availability of funds, the school offers a number of scholarships per year for each of its freshman, sophomore, junior and senior classes. These awards are primarily based on merit and qualified students will receive application forms from the school in advance of the next academic year. The School of Meteorology encourages all applicants to seek University-wide scholarships and financial aid for which they may be eligible. The department offers graduate teaching and research assistantships to highly qualified applicants with undergraduate degrees in meteorology or atmospheric science, physics, mathematics, computer science, engineering, or other related fields. For information, please write to:

Director, School of Meteorology
University of Oklahoma

120 David L. Boren Blvd., Suite 5900
Norman, OK 73072

Undergraduate Study

Bachelor of Science

The Bachelor of Science (p. 841) in Meteorology is a rigorous degree program designed to prepare students to enter the workforce as strong competitors or to move on to graduate school at a top institution.

Accelerated Bachelor/Master Degrees

The School of Meteorology offers accelerated dual-degree programs in collaboration with the Price College of Business, offering exceptional students pursuing an undergraduate degree in meteorology to also pursue a Master of Business Administration. Meteorology majors may also choose to pursue a Master of Science in Data Science and Analytics through the Gallogly College of Engineering. Students apply for these programs in their junior year.

- Meteorology, B.S./M.B.A. (p. 845)
- Meteorology, B.S./Data Science and Analytics, M.S. (p. 848)

Minors

The College of Atmospheric and Geographic Sciences offers students in the physical sciences and engineering majors a Meteorology Minor (p. 844) and a Weather and Climate Minor (p. 844). Meteorology majors are also encouraged to consider minors offered through other OU academic programs. Possible minors include math, physics, computer science, physical geography, geographic information science, interdisciplinary perspectives on the environment, hydrologic science, general business, entrepreneurship, astronomy, chemistry and geology.

Graduate Study

The School of Meteorology is generally considered at or near the top spot for graduate research on convective storms, radar, and mesoscale meteorology. The school, however, has developed a broad research portfolio in recent years through the addition of new faculty giving us excellent researchers in climate, polar processes and atmospheric chemistry including tropospheric-stratospheric exchanges.

- Meteorology, Master of Science (p. 850)
- Meteorology, Ph.D. (p. 851)

Courses

METR 1003 Introduction to the Atmospheric Sciences 3 Credit Hours
Prerequisite: Math 1523 or higher or concurrent enrollment in Math 1823 or concurrent enrollment in Math 1914. An introduction to the field of atmospheric science, with a focus on concepts that can be understood using algebra. Periodic presentations from different professional atmospheric scientists introduce career options, challenges, and opportunities in the atmospheric sciences. Required of all meteorology majors during their first year of residence. (F)

METR 1014 Introduction to Weather and Climate 4 Credit Hours
For non-science majors. A descriptive study of both short-term and long-term atmospheric phenomena, evenly divided between: (1) the structure and processes in the atmosphere that affect our every-day weather; and (2) climate and causes of climate change. This course does not count for major credit in the School of Meteorology. Laboratory (F, Sp) [II-NSL].

METR 1034 Native Science and Earth Systems of North America 4 Credit Hours

(Crosslisted with GEOL 1034) Examines Earth systems of North America using both indigenous and Western perspectives, and an Earth science approach. This team-taught course will utilize a combination of geology, geography, meteorology, and Native American sciences, as expressed through the use of art. (Sp) [II-NSL].

METR 1111 Orientation to Professional Meteorology 1 Credit Hour

Prerequisite: Mathematics 1503 or higher. Required of all Meteorology majors during their first year of residence. Introduction to the School of Meteorology and its curriculum, faculty and staff. Presentations from different professional meteorologists introduce career options, challenges and opportunities in meteorology. (F)

METR 1313 Introduction to Programming for Meteorology 3 Credit Hours

Prerequisite: Math 1523 or equivalent, or concurrent enrollment. Introduction to the design and implementation of computer programs using the Python programming language. Emphasis on working with simple data sets. (F, Sp, Su)

METR 2004 Atmospheric Circulations 4 Credit Hours

Prerequisite: Grade of C or better in MATH 1914 (or MATH 2423), PHYS 2514, METR 1003, CHEM 1315, and METR 1313 (or CS 1321, 1323, or 1324). Co-requisites: MATH 2924 (or MATH 2433), PHYS 2524. Introduction to the application of mathematical techniques and physical principals to key atmospheric processes and phenomena, with a focus on stability, moisture, synoptic-scale flows, convection, boundary layer meteorology, and climate change. The course seeks to create a foundation of critical thinking and problem solving for subsequent classes in meteorology. Required of all meteorology majors during their second year of residence. (F)

METR 2011 Introduction to Meteorology I Laboratory 1 Credit Hour

Prerequisite: Grade of C or better in Math 1823 or 1914; corequisite: METR 2013, Math 2423 or 2924 and Physics 2514 or 1205. Reinforces the theoretical concepts provided in the counterpart lecture course Meteorology 2013, which introduces students to important phenomena and physical processes that occur in the earth's atmosphere. Through a series of laboratory exercises, students will learn the basic concepts and tools that are used to study atmospheric problems. Special emphasis will be placed on developing information technology and computational skills. (F, Sp) [II-NSL].

METR 2013 Introduction to Meteorology I 3 Credit Hours

Prerequisite: Grade of C or better in Math 1823 or 1914; corequisite: METR 2011, Math 2423 or 2924, Physics 2514 or 1205. Introduces students to important phenomena and physical processes that occur in earth's atmosphere, as well as to the basic concepts and instruments used to study atmospheric problems. Focuses on atmospheric radiation, thermodynamics, moisture, stability, clouds, and precipitation. (F, Sp) [II-NS].

METR 2021 Introduction to Meteorology II Laboratory 1 Credit Hour

Prerequisite: Grade of C or better in METR 2011 or 2014, 2013, MATH 2423 or 2924, and PHYS 2514 or 1205; corequisite: METR 2023, MATH 2433 or 2934, and PHYS 2524 or 1215. Reinforces the theoretical concepts provided in the counterpart lecture course Meteorology 2023, which introduces students to important phenomena and physical processes that occur in the earth's atmosphere. Through a series of laboratory exercises, students will learn the basic concepts and tools that are used to study atmospheric problems. Special emphasis will be placed on developing information technology and computational skills. The laboratory exercises target the topics covered in the lecture component. (Sp, Su)

METR 2023 Introduction to Meteorology II 3 Credit Hours

Prerequisite: Grade of C or better in METR 2013, 2011 or 2014, MATH 2423 or 2924, and PHYS 2514 or 1205; corequisite: METR 2021, MATH 2433 or 2934, and PHYS 2524 or 1215. Introduces students to important phenomena and physical processes that occur in earth's atmosphere. Students will learn the basic concepts and instruments used to study atmospheric problems. Part II of the introduction to meteorology sequence focuses on atmospheric dynamics, wind systems of different origin and scale, and thunderstorms. It also addresses boundary layer meteorology, air pollution, forecasting and climate change. (Sp, Su)

METR 2213 Physical Meteorology I: Thermodynamics 3 Credit Hours

Prerequisite: C or better in PHYS 2524, MATH 2924 or MATH 2433, and METR 2004; Corequisite: MATH 2443 or MATH 2934; majors only. This course introduces the physical processes associated with atmospheric composition, basic radiation and energy concepts, the equation of state, the zeroth, first, and second law of thermodynamics, the thermodynamics of dry and moist atmospheres, thermodynamic diagrams, statics, and atmospheric stability. (F, Sp)

METR 2603 Severe and Unusual Weather 3 Credit Hours

Provide non-majors and majors a detailed descriptive account of the physical processes important in the formation of various severe and unusual weather phenomena including: thunderstorms, tornadoes, hail storms, lightning, hurricanes, midlatitude snowstorms, lake effect snows, atmospheric optical effects, and global climate change. This course does not count for major credit in the School of Meteorology. (Irreg.) [II-NS].

METR 2613 Atmospheric In-Situ & Surface-Based Measurements 3 Credit Hours

Prerequisite: Grade of C or better in METR 1313 or CS 1321 or CS 1323 or CS 1324, METR 2004, MATH 2924 or MATH 2433, PHYS 2524 and PHYS 1311; Co-requisite: MATH 2443 or 2934; majors only. Regardless of which area of atmospheric science you are interested in, measurements of atmospheric variables will undoubtedly influence your work. In any area of science, it is observations of nature that lead to new theories and new understanding. In meteorology, we cannot hope to predict weather accurately unless we have sufficient knowledge of the current state of the atmosphere. (F, Sp)

METR 2970 Special Topics/Seminar 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

- METR 3011 Practicum on Broadcast Software 1 Credit Hour**
Prerequisite: sophomore standing. May be repeated; maximum credit three hours. In this course students will learn how to use and manage the VIPIR and OMNI systems made by Baron Services. This will be accomplished via forecasting exercises and other various assignments. (F, Sp)
- METR 3113 Atmospheric Dynamics I: Intro to Atmospheric Kinematics/Dynamics 3 Credit Hours**
Prerequisite: Grade of C or better in METR 2004, MATH 2443 or 2934, PHYS 2524, and METR 1313 (or CS 1321, 1323, or 1324). Characterization of the atmosphere mathematically, the study of forces acting upon it, and approximations used. Topics include Newton's laws of motion; energy, equilibrium and stability; coordinate systems and forces; the equations of motion and simple force balances; and mass and energy conservation. (F)
- METR 3123 Atmospheric Dynamics II: Theory of Atmospheric Flows 3 Credit Hours**
Prerequisite: Grade of C or better in METR 3113 and MATH 3413. Continuation of the study of atmospheric dynamics and kinematics begun in Dynamics I. Topics include: natural coordinates, geostrophic wind, inertial flow, cyclostrophic flow, gradient wind, thermal wind, kinematics and dynamics of circulation and vorticity, viscosity, and stress; turbulence, structure, and dynamics of the atmospheric boundary line. (Sp)
- METR 3213 Physical Meteorology I: Thermodynamics 3 Credit Hours**
Prerequisite: grade of C or better in METR 2023 and 2021, MATH 2433, 2443 or 2934, PHYS 1215 or 2524, and METR 1313 or CS 1313 or CS 1323. This course introduces the physical processes associated with atmospheric composition, basic radiation and energy concepts, the equation of state, the zeroth, first and second law of thermodynamics for dry and moist atmospheres, thermodynamic diagrams, statics, and atmospheric stability. (F)
- METR 3223 Physical Meteorology II: Cloud Physics, Atmos Electricity/Optics 3 Credit Hours**
Prerequisite: Grade of C or better in METR 2213, METR 3513, MATH 3413. Cloud and precipitation processes including the role of aerosols in cloud droplet and ice nucleation, growth of cloud particles into rain, snow, and hail by diffusion, coalescence, and cloud aggregation; the Clausius-Clapeyron equation; application of cloud physics in cloud electrification and optical phenomena in the atmosphere; concepts of weather radar. (Sp)
- METR 3334 Principles of Research & Communication in Meteorology 4 Credit Hours**
Prerequisite: Grade of C or better in METR 1313, METR 2213, METR 2613, and MATH 2934 (or MATH 2443). An introduction to and/or development of topical skills in computing, writing, and speaking. The course will be composed of short thematic projects on topics relevant to meteorology and the atmospheric sciences. The professional skills gained reflect those needed by meteorologists in government, academia and the private sector. Required of all meteorology majors during their third year of residence. (Sp)
- METR 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- METR 3513 Atmospheric Chemistry in Weather and Climate 3 Credit Hours**
Prerequisite: Grade of C or better in METR 2213. Advanced survey of atmospheric structure and composition, and introduction to chemical processes in the atmosphere. Groups of relevant trace species and their role in the atmosphere are identified. Additional topics include importance of and chemical processes associated with aerosols, and direct and indirect linkages between chemistry, weather, and climate. Required of all meteorology majors during their third year of residence. (F)
- METR 3523 Managing for a Changing Climate 3 Credit Hours**
(Crosslisted with GEOG 3523) Prerequisite: Junior or Senior standing. Provides an integrative understanding of the components of the climate system including the range of natural climate variability and external drivers of climate change, in addition to impacts of a changing climate on multiple sectors such as the economy, policy, ecosystems, and indigenous populations. (F) [II-NS].
- METR 3543 Balloons, Barometers, and Ice Cores: History of Weather and Climate Science 3 Credit Hours**
(Crosslisted with HSTM 3543) Prerequisite: Junior standing or completion of one other course in HSTM or permission of instructor. This course explores the history of meteorology and climate sciences from 1500 to the present. We investigate the role of science in humanity's relationship with weather and climate, the social and political contexts of weather sciences as they have changed over time, and contributions of these sciences to sustainability and survival on a rapidly warming planet. No science background required. (F)
- METR 3613 Meteorological Measurement Systems 3 Credit Hours**
Prerequisite: Grade of C or better in METR 2023 and 2021, MATH 2433, 2443 or 2934, PHYS 1215 or 2524, and METR 1313 or CS 1313 or CS 1323. Introduces the physical principles of meteorological instruments, discusses static and dynamic sensor performance, and explores the concepts of meteorological instruments, and to identify sensor limitations and major error sources. Furthermore, basic procedures of data analysis will be discussed. Laboratory (F)
- METR 3890 Meteorology Internship 1-3 Credit Hours**
1 to 3 hours. Prerequisite: METR 1111 and permission of instructor. 1-3 hours. May be repeated; maximum credit 12 hours. This course provides a mechanism for students to receive credit for their internship experiences with the National Weather Service, TV stations, the private sector or any other kind of agency or institution which provides internship opportunities for Meteorology Majors. (F, Sp, Su)
- METR 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)
- METR 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Projects covered vary. Deals with concepts not usually presented in regular coursework. (Irreg.)
- METR 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

- METR 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- METR 4013 Science at the Tropopause: Physics, Dynamics, & Chemistry of the Upper Troposphere/Lower Stratosphere 3 Credit Hours**
(Slashlisted with METR 5013) Prerequisite: Grade of C or better in both METR 2213 and METR 3113, or permission of instructor; Not open to Freshmen. A survey of the dynamics, physics, and chemistry of the UTLS. Topics will include basic characteristics of the UTLS, definition of the tropopause, dynamic principals of and theory used for the UTLS, stratosphere-troposphere exchange, and common analysis techniques for UTLS studies. Will gradually increase focus on process-level understanding and review key dynamic and physical features/phenomena that impact the UTLS. No student may earn credit for both 4013 and 5013. (Sp)
- METR 4023 Polar Meteorology 3 Credit Hours**
(Slashlisted with METR 5023) Prerequisite: grade of C or better in MATH 3113 or MATH 3413, or permission by instructor. This course provides an introduction and overview to weather and climate of the Earth's polar regions. This includes the climatology, dynamics, and thermodynamics of Arctic and Antarctic atmospheres. Special topics of significance will include the polar boundary layer, sea ice, polar vortices, polar lows, and oceanic circulations. This course will develop and strengthen skills in teaching, research, and service. No student may earn credit for both 4023 and 5023. (Irreg.)
- METR 4043 Urban Climatology 3 Credit Hours**
(Slashlisted with METR 5043; Crosslisted with GEOG 4043) Prerequisite: Junior standing or departmental permission. This course provides an overview of urban climates based on a synthesis of modern scientific and applied research findings. The course covers a broad spectrum of topics such as urban airflow, radiation exchanges, urban energy balance, urban heat island, urban surface hydrology, air pollution, cities under global climate change, biometeorology, and sustainable urban design and planning. No student may earn credit for both 4043 and 5043. (Sp)
- METR 4083 Developing Ethical and Responsible AI for Earth Sciences 3 Credit Hours**
(Slashlisted with METR 5083) Prerequisite: grade of C or better in C S 4013/5013 or C S 4033/5033 or C S 5043; or permission of instructor. Ethics of developing Artificial Intelligence (AI) for Earth and environmental sciences (ES). Topics will include responsible conduct of research, ethical scientific conduct, ownership of ideas, algorithms and data, and ethics of developing AI for ES applications. Learning activities include active discussions and debates, writing, and projects. No student may earn credit for both 4083 and 5083. (Sp)
- METR G4133 Atmospheric Dynamics III: Mid-Latitude Synoptic-Scale Dynamics 3 Credit Hours**
Prerequisite: Grade of C or better in 3123 and 3223. Concepts from kinematics, dynamics and thermodynamics used to characterize synoptic-scale atmosphere, emphasis on quasi-geo strophic and baroclinic instability theory as basis for understanding extra-tropical weather systems including cyclones, fronts and jets. Linear theory is used to describe a variety of atmospheric waves and their role in synoptic-scale meteorology. (F)
- METR G4233 Physical Meteorology III: Radiation and Remote Sensing 3 Credit Hours**
Prerequisite: Graduate standing, or grade of C or better in METR 3123 and METR 3223. Fundamental principles of radiation; absorption and emission of radiation; solar and terrestrial radiation; radiative transfer and heating rates; surface and global energy balances; atmospheric general circulation; natural climate variations; greenhouse climate change; stratospheric ozone depletion. (F)
- METR 4313 Statistical Meteorology 3 Credit Hours**
(Slashlisted with METR 5313) Prerequisite: METR 1313 or CS 1313 or CS 1321 or CS 1323 or CS 1324; and MATH 2423 or MATH 2924; with grade of C or better; or permission of instructor. The role of probability and statistics in meteorology and climate: decision making, sampling, graphical presentation of data, resampling techniques, autocorrelation, confidence intervals, statistical power, and various regression models. Computational aspects using meteorology and climate data will be emphasized. No student may earn credit for both 4313 and 5313. (F)
- METR 4323 Weather Simulation With Computers 3 Credit Hours**
Prerequisite: METR 1313. The basics principles of computer programming for simulating and predicting fluid motion with computers. Applications range from idealized baroclinic instability to idealized tornado vortices. The FORTRAN and Python programming languages will be used. Prior programming experience is required, but not necessarily with these languages. (Irreg.)
- METR 4330 Information Technology Skills for Meteorology 1-3 Credit Hours**
(Slashlisted with 5330) Prerequisite: grade of C or better in CS 1313 or permission of instructor. May be repeated; maximum credit three hours. The use of computers and networks to process the information of meteorology. Workstation skills, computer operating systems, programming languages, the internet, computer graphics, analysis and display of meteorological data. No student may credit for both 4330 and 5330. (Irreg.)
- METR 4403 Application of Meteorological Theory to Severe-Thunderstorm Forecasting 3 Credit Hours**
(Slashlisted with METR 5403) Prerequisite: majors only; METR 4424 with a grade of B or better or permission of instructor. This course provides an opportunity to bridge the academia and operational forecasting realms and provide an opportunity for students to learn from experienced meteorologist-forecasters who have performed research on a variety of topics. No student may earn credit for both 4403 and 5403. (Sp)
- METR G4424 Synoptic Meteorology Laboratory 4 Credit Hours**
Prerequisite: Grade of C or better in 3123 and 3223. This course is a lecture/laboratory course designed to provide students a physical understanding of atmospheric principles. Students are challenged to explain theoretical concepts and to demonstrate a mastery in understanding various physical processes including the theory and practice of weather analysis and forecasting, surface and upper air analysis, fronts and wave cyclones, satellite meteorology, sounding analysis, thermodynamic diagram, cross sections, forecasting, NMC models, MOS, radar meteorology, and severe weather. Communications skills are emphasized. (F)
- METR G4433 Mesoscale Meteorology 3 Credit Hours**
Prerequisite: Grade of C or better in 4133, 4424. Structure and dynamics of convective and mesoscale phenomena including: mesoscale convective systems, severe thunderstorms, tornadoes, low-level jets, mountain waves and hurricanes. Discussion of the general behavior, characteristics, and dynamics of the formation and development of these phenomena, and the types of weather and hazards they produce. (Sp)

- METR 4443 Introduction to Tropical Meteorology 3 Credit Hours**
(Slashlisted with 5443) Prerequisite: senior standing in Meteorology or permission of instructor. Introduces students to the weather and climate of the tropics. Material presented will include an overview of tropical weather, basic physics of air-sea interaction and the attendant effects on tropical weather. No student may earn credit for both 4443 and 5443. (Irreg.)
- METR 4523 Climate and the General Circulation 3 Credit Hours**
Prerequisite: Grade of C or better in MATH 2443, MATH 3413, PHYS 2524, and METR 4233. Characterizes the climate of the Earth's atmosphere qualitatively and quantitatively, with a focus on large-scale dynamics and the general circulation. Applies the gained knowledge of the climate system and climate modeling to understand global climate change and climate variability in the past, present, and future. Required of all meteorology majors during their fourth year of residence. (Sp)
- METR 4533 Earth's Past Climate 3 Credit Hours**
(Slashlisted with METR 5533; Crosslisted with GEOL 4533) Prerequisite: senior or graduate standing, or permission of instructor. Explores earth's climate system, controls on climate change, and evolution of climate history through geologic time as deciphered from climate proxies. No student may earn credit for both 4533 and 5533. (F)
- METR 4543 Global Climate Change 3 Credit Hours**
(Slashlisted with METR 5543) Prerequisite: One of the following: METR 1014, METR 2013, METR 2603, METR 2903, CEES 1112, GEOG 1114, GEOG 1203, GEOG 3023, GEOL 1034, GEOL 1104, GEOL 1114, GEOL 2014, or permission of instructor. The Intergovernmental Panel on Climate Change assesses the scientific and socio-economic information relevant for understanding the risk of human-induced climate change. This interdisciplinary class will use readings, student-led presentations and roundtable discussions of the in-situ observations, as well as modeling of the atmosphere, oceans, ice, carbon, clouds and radiative forcing to understand the next 100-years of climate change. No student may earn credit for both 4543 and 5543. (Sp)
- METR 4553 Climate and Renewable Energy 3 Credit Hours**
(Slashlisted with METR 5553) Prerequisite: junior standing. Examines the science and technical aspects of solar, wind, hydro, and biomass power systems. Targets students interested in environmental science. Emphasis is on the key role of climate in determining where each of these systems is most likely to provide feasible alternatives to energy generated by fossil fuels. No student may earn credit for both 4553 and 5553. (Sp)
- METR 4603 Advanced Observations for Lower Atmospheric Research 3 Credit Hours**
(Slashlisted with METR 5603) Prerequisite: METR 2213 and METR 2613, or instructor permission. This course will examine the observation and operation principles behind a variety of research-grade instruments and the data they provide. Taught as a mix of lectures, instrument demonstrations, and data-focused projects, material presented focuses on modern, state-of-the-art instruments applied to current research problems emphasizing lower-atmospheric observations. Students use Python for processing, analysis, and visualization of real observed datasets. No student may earn credit for both 4603 and 5603. (F)
- METR 4623 Radar Meteorology 3 Credit Hours**
Prerequisite: grade of C or better in METR 2613 or METR 3613, Math 2433 or Math 2934. Principles of weather radar and storm observations including: radar system design, em wave propagation, radar equation for point and distributed targets, Rayleigh/Mie/Gan scattering, power spectrum, I&Q, moments of the power spectrum, ground clutter, attenuation, rainfall measurements using radar reflectivity and using polarization diversity radars, Doppler interpretation and analysis, polarimetric theory and applications, kinematics of convective storms. (Sp)
- METR G4633 Hydrometeorology 3 Credit Hours**
(Slashlisted with METR 5633) Prerequisite: Grade of C or better in METR 3123, METR 3223 or permission of instructor. Interdisciplinary emphasis on mesoscale precipitation processes, applications of new hydrometeorological observing systems, and on the interactions between meteorology and hydrology during flood events. No student may earn credit for both 4633 and 5633. (Irreg.)
- METR 4663 Radar Engineering 3 Credit Hours**
(Crosslisted with ECE 4663; Slashlisted with 5663) Prerequisite: grade of C or better in Electrical and Computer Engineering 3613, or permission. Introduction to radar system designs and applications with emphasis on weather radar. Radar system architecture and their functionalities and limitations of subsystems are discussed. Theories of radar detection and estimation in a noisy and cluttered environment; existing technologies and advanced techniques to improve radar performance. No student may earn credit in both 4663 and 5663. (F)
- METR 4693 Environmental Sampling Methods 3 Credit Hours**
(Slashlisted with METR 5693; Crosslisted with P BIO and M BIO 4693) Prerequisite: diverse STEM background; permission of instructor; senior standing. The course gives students from diverse STEM backgrounds experience and knowledge of environmental sampling techniques, analysis of data generated, and interpretation of results in a scientific field outside their primary area of study. The multi-disciplinary structure helps students develop an understanding of different sampling techniques based on assumptions and perspectives on the environment at different spatial scales. No student may earn credit for both 4693 and 5693. (Sp)
- METR 4713 Private Sector Meteorology 3 Credit Hours**
Prerequisite: senior standing in Meteorology. An overview of private sector meteorology in the United States. Designed to build background knowledge, foster the use of higher-order analytical skills, and further develop communication and presentation skills. The course includes lectures, directed readings, visiting local private sector companies, interviews with practicing meteorologists, and the development of a portfolio about a private sector meteorological company. Students gain experience in applying their meteorological knowledge to a practical problem as might be encountered in professional practice. No student may earn credit for both 4713 and 5713. (Irreg.)
- METR 4743 Applications of Weather Forecasting 3 Credit Hours**
Prerequisite: METR 2013 or instructor permission. The course will focus on introducing students to various types of weather forecasts, and how those weather forecasts are created. (F, Sp)

METR 4753 Forecast and Warning Communication 3 Credit Hours

(Slashlisted with METR 5753) Prerequisite: Junior or Senior Standing. This course explores the fundamental theories related to the communication of weather and climate information. We will explore effective risk communication, including characteristics of the forecast, the audience, and the message that most effectively convey the information to multiple audiences. Guest speakers will share their expertise so students see the range of jobs that exist in the weather/climate information sphere. No student may earn credit for both 4753 and 5753. (Irreg.)

METR G4803 Selected Topics in Meteorology 3 Credit Hours

Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit 12 hours. Topics may include aspects of atmospheric dynamics and severe-storm forecasting, experimental design, economic meteorology, weather modification, climate, radiation, aviation weather, etc. (Irreg.)

METR 4911 Senior Seminar (Capstone) 1 Credit Hour

Prerequisite: Grade of C or better in 3123, 3223. With 4922, satisfies Capstone course requirement. The instructor will guide senior meteorology majors through planning of a research project. Interdisciplinary topics are encouraged and library work will be required. Students will be paired with regular or adjunct faculty mentors. Senior doctoral students may serve as mentors with permission from the instructor. The result of 4911 will be a mini-proposal which will serve as a guide for the senior research project. In addition, the instructor may present professional skills useful during job search, early employment, and graduate school application and attendance. Note that METR 4922 should be taken following this course. (F, Sp) [V].

METR 4913 Senior Seminar 3 Credit Hours

Prerequisite: grade of C or better in 3113 and 3223. Satisfies the capstone course requirement. The instructor will guide senior meteorology majors on a research project. Interdisciplinary topics will be encouraged and library work is required. Students will complete written and oral presentations of a senior thesis. (F, Sp) [V].

METR 4922 Senior Seminar II (Capstone) 2 Credit Hours

Prerequisite: Grade of C or better in 3123, 3223, 4911. with 4911, satisfies the Capstone course requirement. The instructor will guide students as they follow the research plan established in the mini-proposal completed in METR 4911. Library work will continue to be required with development of research methodology and analysis of results. Students will continue to work with faculty (senior doctoral student) mentors. The culmination of the two-course Capstone sequence will be a written and oral presentation of the senior thesis. The skills learned in Capstone I and II will be useful whether the student is employed in academia, government, or the private sector. (F, Sp) [V].

METR 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

METR 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

METR 4990 Special Problems in Meteorology 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of subject matter. (F, Sp, Su)

METR 5004 Fundamentals of Atmospheric Science 4 Credit Hours

Prerequisite: graduate standing in a meteorology, physical science, or engineering program, MATH 3113 or MATH 3413 or permission of instructor. Provides a rigorous survey of the fundamental concepts in the atmospheric sciences relevant to weather, climate and atmospheric chemistry. The course is designed to provide sufficient background knowledge so that the students will be prepared to successfully undertake more specialized graduate coursework in meteorology. Graduate students in fields closely related to meteorology, such as radar engineering and hydrology, will also benefit from knowledge of these concepts. (F)

METR 5013 Science at the Tropopause: Physics, Dynamics, & Chemistry of the Upper Troposphere/Lower Stratosphere 3 Credit Hours

(Slashlisted with METR 4013) Prerequisite: Graduate standing. A survey of the dynamics, physics, and chemistry of the UTLS. Topics will include basic characteristics of the UTLS definition of the tropopause, dynamical principals of and theory used for the UTLS, stratosphere-troposphere exchange, and common analysis techniques for UTLS studies. Will gradually increase focus on process-level understanding and review key dynamical and physical features/phenomena that impact the UTLS. No student may earn credit for both 4013 and 5013. (Sp)

METR 5023 Polar Meteorology 3 Credit Hours

(Slashlisted with METR 4023) Prerequisite: graduate standing in a meteorology or related discipline; grade of C or better in MATH 3113 or MATH 3413, or permission by instructor. This course provides an introduction and overview to weather and climate of the Earth's polar regions. This includes the climatology, dynamics, and thermodynamics of Arctic and Antarctic atmospheres. Special topics of significance will include the polar boundary layer, sea ice, polar vortices, polar lows, and oceanic circulations. This course will develop and strengthen skills in teaching, research, and service. No student may earn credit for both 4023 and 5023. (Irreg.)

METR 5043 Urban Climatology 3 Credit Hours

(Slashlisted with METR 4043; Crosslisted with GEOG 5043) Prerequisite: Graduate standing or departmental permission. This course provides an overview of urban climates based on a synthesis of modern scientific and applied research findings. The course covers a broad spectrum of topics such as urban airflow, radiation exchanges, urban energy balance, urban heat island, urban surface hydrology, air pollution, cities under global climate change, biometeorology, and sustainable urban design and planning. No student may earn credit for both 4043 and 5043. (Sp)

METR 5083 Developing Ethical and Responsible AI for Earth Sciences 3 Credit Hours

(Slashlisted with METR 4083) Prerequisite: graduate standing; grade of C or better in C S 4013/5013 or C S 4033/5033 or C S 5043; or permission of instructor. Ethics of developing Artificial Intelligence (AI) for Earth and environmental sciences (ES). Topics will include responsible conduct of research, ethical scientific conduct, ownership of ideas, algorithms and data, and ethics of developing AI for ES applications. Learning activities include active discussions and debates, writing, and projects. No student may earn credit for both 4083 and 5083. (Sp)

METR 5103 Boundary Layer Meteorology 3 Credit Hours

Prerequisite: 3113, Mathematics 3113. Transfer processes near the earth's surface, turbulence, the planetary boundary layer, air mass modification, fog formation, pollutant transport.

- METR 5113 Advanced Atmospheric Dynamics I 3 Credit Hours**
Prerequisite: Mathematics 4163 or permission of instructor. Basic fluid dynamics, equations of motion, vorticity dynamics, scale analysis, shallow water equations, linear wave dynamics, gravity waves, Rossby waves, quasi-geostrophic motions. (F)
- METR 5223 Atmospheric Radiation 3 Credit Hours**
Prerequisite: 3213, Mathematics 3113, or permission of instructor. Theory of radiative transfer, spectra of gaseous molecules, use of band models for radiative calculations, interaction of solar radiation with atmospheres, infrared radiative transfer in atmospheres, radiative cooling and heating, scattering, climate and radiation, remote sensing. (Sp)
- METR 5233 Cloud and Precipitation Physics 3 Credit Hours**
Prerequisite: 3223, Mathematics 3113. Development of thermodynamical relationships and generalized Clausius-Clapeyron equation, phase diagrams, atmospheric aerosols, review of hydrodynamics of flow past particles, collision and coalescence efficiency, theory of nucleation, precipitation growth, observations with radar, electrical state of the atmosphere. (F)
- METR 5243 Atmospheric Electrodynamics 3 Credit Hours**
Prerequisite: permission of instructor. Global electrical circuit, fair-weather electricity, storm electrification, charging mechanisms, electrical discharges, lightning, thunder, instrumentation and observing systems, meteorological applications.
- METR 5303 Objective Analysis 3 Credit Hours**
Prerequisite: METR 4133, MATH 3113 or MATH 3413, or equivalent. Introduction to techniques used in objective analysis of meteorological data; polynomial fitting; method of successive corrections; weighting functions; statistical methods; optimum interpolation; filter design; four-dimensional data assimilation. (F)
- METR 5313 Statistical Meteorology 3 Credit Hours**
(Slashlisted with METR 4313) Prerequisite: Graduate standing. The role of probability and statistics in meteorology and climate: decision making, sampling, graphical presentation of data, resampling techniques, autocorrelation, confidence intervals, statistical power, and various regression models. Computational aspects using meteorology and climate data will be emphasized. No student may earn credit for both 4313 and 5313. (F)
- METR 5330 Information Technology Skills for Meteorology 1-3 Credit Hours**
(Slashlisted with 4330) Prerequisite: Grade of C or better in Computer Science 1313 or permission of instructor. May be repeated; maximum credit three hours. The use of computers and networks to process the information of meteorology. Workstation skills, computer operating systems, programming languages, the Internet, computer graphics, analysis and display of meteorological data. No student may earn credit for both 4330 and 5330. (Irreg.)
- METR 5344 Computational Fluid Dynamics I 4 Credit Hours**
Prerequisite: 3113 or Engineering 3223; Engineering 3723; Mathematics 3123; permission of instructor. Application of finite difference, spectral, and semi-Lagrangian methods to multidimensional Newtonian fluid flow problems, including well-posedness, consistency, stability, convergence, accuracy, boundary conditions, conservation, grid systems, and filtering. In addition, code development practices and the use of high-performance vector and parallel supercomputers will be addressed.
- METR 5403 Applications of Meteorological Theory to Severe-Thunderstorm Forecasting 3 Credit Hours**
(Slashlisted with METR 4403) Prerequisite: graduate standing and department permission. This course provides an opportunity to bridge the academia and operational forecasting realms and provide an opportunity for students to learn from experienced meteorologist-forecasters who have performed research on a variety of topics. No student may earn credit for both 4403 and 5403. (Sp)
- METR 5413 Advanced Synoptic Meteorology 3 Credit Hours**
Prerequisite: 4133, 4424, 5113 or permission of instructor. Theory and application of quasi-geostrophic dynamics, Q-vectors and isentropic potential vorticity, diagnostic studies of mid-latitude synoptic-scale systems, mesoscale structure of precipitation, structure and dynamics of fronts and jets. (Sp)
- METR 5433 Advanced Statistical Meteorology 3 Credit Hours**
Prerequisite: senior standing or graduate standing and permission of instructor. Data analysis is a routine part of many types of research in the atmospheric sciences. As such, having the right set of tools and prowess on how to use those tools is an important part to understanding the statistical and dynamical behavior of the climate system. (F, Sp)
- METR 5443 Introduction to Tropical Meteorology 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Introduces students to the weather and climate of the tropics. Material presented will include an overview of tropical weather, basic physics of air-sea interaction and the attendant effects on tropical weather. No student may earn credit for both 4443 and 5443. (Irreg.)
- METR 5503 Climate Dynamics 3 Credit Hours**
Prerequisite: 5113. Survey of past climates; climate variability; heat and water budgets of the atmosphere, oceans and land surfaces; the general circulation; climate modeling.
- METR 5533 Earth's Past Climate 3 Credit Hours**
(Slashlisted with METR 4533; Crosslisted with GEOL 5533) Prerequisite: senior or graduate standing, or permission of instructor. Explores earth's climate system, controls on climate change, and evolution of climate history through geologic time as deciphered from climate proxies. No student may earn credit for both 4533 and 5533. (F)
- METR 5543 Global Climate Change 3 Credit Hours**
(Slashlisted with METR 4543) Prerequisite: permission of instructor. The Intergovernmental Panel on Climate Change assesses the scientific and socio-economic information relevant for understanding the risk of human-induced climate change. This interdisciplinary class will use readings, student-led presentations and roundtable discussions of the in-situ observations, as well as modeling of the atmosphere, oceans, ice, carbon, clouds and radiative forcing to understand the next 100-years of climate change. No student may earn credit for both 4543 and 5543. (Sp)
- METR 5553 Climate and Renewable Energy 3 Credit Hours**
(Slashlisted with METR 4553) Prerequisite: Mathematics 1503. Examines the science and technical aspects of solar, wind, hydro, and biomass power systems. Targets students interested in environmental science. Emphasis is on the key role of climate in determining where each of these systems is most likely to provide feasible alternatives to energy generated by fossil fuels. No student may earn credit for both 4553 and 5553. (Sp)

METR 5603 Advanced Observations for Lower Atmospheric Research 3 Credit Hours

(Slashlisted with METR 4603) Prerequisite: Graduate standing and METR 5004 or concurrent enrollment, or permission of instructor. This course will examine the observation and operation principles behind a variety of research-grade instruments and the data they provide. Taught as a mix of lectures, instrument demonstrations, and data-focused projects, material presented focuses on modern, state-of-the-art instruments applied to current research problems emphasizing lower-atmospheric observations. Students use Python for processing, analysis, and visualization of real observed datasets. No student may earn credit for both 4603 and 5603. (F)

METR 5633 Hydrometeorology 3 Credit Hours

(Slashlisted with METR 4633) Prerequisite: graduate standing. Hydrometeorology is part of meteorology directly concerned with hydrologic problems, such as forecasting and observing heavy precipitation and floods and how such features impact flood control, hydroelectric power, irrigation and similar fields of engineering and water resource management. No student may earn credit for both 4633 and 5633. (Irreg.)

METR 5643 Quantitative Hydrometeorology 3 Credit Hours

(Crosslisted with CEES 5643) Prerequisite: Graduate standing or permission of instructor. Theory and concept of hydrometeorology and remote sensing, across atmospheric science and hydrology and across water science and engineering. An in-depth study of precipitation estimation from in-situ, radar, satellite, uncertainty modeling and decision making. Data analysis and computational methods for hydrometeorology. Special emphasis on probabilities/statistics and decision making. Basic level of scientific programming is helpful but not mandatory. (Irreg.)

METR 5663 Radar Engineering 3 Credit Hours

(Crosslisted with ECE 5663; Slashlisted with 4663) Prerequisite: grade of C or better in Electrical and Computer Engineering 3613, or permission. Introduction to radar system designs and applications with emphasis on weather radar. Radar system architecture and their functionalities and limitations of subsystems are discussed. Theories of radar detection and estimation in a noisy and cluttered environment; existing technologies and advanced techniques to improve radar performance. No student may earn credit in both 4663 and 5663. (F)

METR 5673 Weather Radar Theory and Practice 3 Credit Hours

(Crosslisted with ECE 5673) Prerequisite: grade of C or better in Mathematics 3113 and Physics 2524 or permission. This course provides an introduction to electromagnetic waves and propagation through the atmosphere, radar design trade-offs, antennas, transmitters, and coherent receivers. Analysis of radar signals as noise-corrupted stochastic processes, with emphasis on digital signal processing for Doppler spectrum and moment estimation. Implementation of processing algorithms using actual Doppler radar data. (F)

METR 5683 Weather Radar Applications 3 Credit Hours

(Crosslisted with ECE 5683) Prerequisite: Graduate standing in Meteorology or Engineering, or permission of instructor. Interpretation of meteorological structures using weather radar. Introduces scatter from hydrometeors and refractive index variations. Presentation of quantitative precipitation estimation methods based on the radar reflectivity factor, attenuation, and dual-polarization observations. Also includes the fundamental concepts of clear-air echoes and the estimation of winds under non-precipitation conditions. (Sp)

METR 5693 Environmental Sampling Methods 3 Credit Hours

(Slashlisted with METR 4693; Crosslisted with METR and PBIO 5693) Prerequisite: Graduate standing and permission of instructor. The course gives students from diverse STEM backgrounds experience and knowledge of environmental sampling techniques, analysis of data generated, and interpretation of results in a scientific field outside their primary area of study. The multi-disciplinary structure helps students develop an understanding of different sampling techniques based on assumptions and perspectives on the environment at different spatial scales. No student may earn credit for both 4693 and 5693.

METR 5713 Private Sector Meteorology 3 Credit Hours

Prerequisite: graduate standing in Meteorology. An overview of private sector meteorology in the United States. Designed to build background knowledge, foster the use of higher-order analytical skills, and further develop communication and presentation skills. The course includes lectures, directed readings, visiting local private sector companies, interviews with practicing meteorologists, and the development of a portfolio about a private sector meteorological company. Students gain experience in applying their meteorological knowledge to a practical problem as might be encountered in professional practice. No student may earn credit for both 4713 and 5713. (Irreg.)

METR 5733 Hydroclimatology 3 Credit Hours

(Crosslisted with CEES 5733) Prerequisite: Graduate standing or permission of instructor. Theory and concept of hydroclimatology across atmospheric science and hydrology. An in-depth study of the local to global climate of precipitation with specific foci on drought, pluvials, and how they vary in a changing climate system. Data analysis and computational methods for hydroclimatology. Basic level of scientific programming is helpful but not mandatory. (Su)

METR 5743 Forecast Evaluation and Decision Analysis 3 Credit Hours

Prerequisite: Graduate Standing or Permission of Instructor. The course is an overview of techniques and application for the evaluation of forecasts and classification problems in meteorology and other fields. It also includes basics in the analysis of decisions which relate to the value of forecasts, including models of decision making, and complexity of human decision processes. (Irreg.)

METR 5753 Forecast and Warning Communication 3 Credit Hours

(Slashlisted with METR 4753) Prerequisite: Graduate standing. This course explores the fundamental theories related to the communication of weather and climate information. We will explore effective risk communication, including characteristics of the forecast, the audience, and the message that most effectively convey the information to multiple audiences. Guest speakers will share their expertise so students see the range of jobs that exist in the weather/climate information sphere. No student may earn credit for both 4753 and 5753. (Irreg.)

METR 5803 Topics in Applied Meteorology 3 Credit Hours

Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit 12 hours. Application of meteorological concepts and information to current environmental and meteorological problems on any scale.

METR 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

METR 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

METR 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

METR 5990 Independent Study 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing, permission of instructor. May be repeated with change of subject matter; maximum credit eight hours for master's degree students. Individual research problems in meteorology, climatology, hydrometeorology, and other areas of the atmospheric and earth sciences. (Irreg.)

METR 6103 Turbulence 3 Credit Hours
Prerequisite: Graduate standing and METR 5103 or METR 5113, or permission of instructor. Introduction to the evolution, structure, and effects of turbulent flow. Students will learn to use a variety of theoretical and practical tools of discovery and analysis. (Sp)

METR 6223 Convective Clouds and Storms 3 Credit Hours
Prerequisite: 5113 or equivalent. Anelastic and Boussinesq equations; Benard convection; plume models; parameterization of cloud microphysics; three-dimensional models; Doppler radar analysis; observations of severe thunderstorms and tornadoes. (Irreg.)

METR 6313 Advanced Data Assimilation Methods: Ensemble Kalman Filter Techniques and Applications 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Introduction to ensemble Kalman data assimilation techniques (EnKF). Students learn the most popular EnKF techniques through lectures and hands-on project assignments, and also develop skill in scientific thinking and synthesis, written and oral communication and programming throughout the course. (Irreg.)

METR 6413 Topics in Advanced Mesoscale Meteorology 3 Credit Hours
Prerequisite: 5113. Research topics in the areas of cyclogenesis, frontogenesis and mesoscale systems. Topics include "IPV thinking" and its application to cyclogenesis; trapped gravity currents and Kelvin waves; the dryline; rainbands in extratropical cyclones; air-sea instability; topographically induced eddies; generalization of the frontogenetical function.

METR 6613 Weather Radar Polarimetry 3 Credit Hours
(Crosslisted with ECE 6613) Prerequisite: graduate standing. Provides fundamentals and principles of weather radar polarimetry through understanding wave scattering and propagation in geophysical media subject to turbulent mixing and filled with hydrometeors and other objects. The relations between polarimetric radar observables and physical parameters will be established. The methods and algorithms for retrieving cloud and precipitation microphysics for weather quantification and forecast will be introduced. (F)

METR 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

METR 6970 Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission. May be repeated with change of subject matter; maximum credit four hours for master's degree, or 10 hours for doctor's degree. (F, Sp)

METR 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

METR 6990 Special Problems 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing, permission of instructor. May be repeated with change of subject matter; maximum credit 12 hours for doctoral students. Individual research problems in meteorology and related areas conducted under faculty supervision. (F, Sp, Su)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Basara	Jeffrey	B	2001	CIMMS FELLOW, 2007; ASSOCIATE PROFESSOR OF METEOROLOGY, 2012; 2018; ASSOCIATE PROFESSOR OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, EXECUTIVE ASSOCIATE DIRECTOR, HYDROLOGY AND WATER SECURITY PROGRAM, 2019, DIRECTOR, KESSLER ATMOSPHERIC AND ECOLOGICAL FIELD STATION, 2019	PhD, Univ of Oklahoma, 2001; MS, Univ of Oklahoma, 1998; BA, Purdue Univ, 1994
Biggerstaff	Michael	I	2002	CIMMS FELLOW, 2002; PROFESSOR OF METEOROLOGY, 2015	PhD, Univ of Washington, 1991; BS, Univ of Texas, 1984
Bluestein	Howard	B	1976	CIMMS FELLOW, 1983; SAMUEL ROBERTS NOBLE PRESIDENTIAL PROFESSOR, 2001; GEORGE LYNN CROSS RESEARCH PROFESSOR OF METEOROLOGY, 2004	PhD, Mass Inst of Tech, 1976; MS, Mass Inst of Tech, 1972; BS, Mass Inst of Tech, 1971
Cavallo	Steven		2011	CIMMS FELLOW, 2012; ASSOCIATE PROFESSOR OF METEOROLOGY, 2017	PhD, Univ of Washington, 2009; MS, Univ of Washington, 2006; BS, Florida State Univ, 2003
Chilson	Phillip	B	2004	CIMMS FELLOW, 2007; PROFESSOR OF METEOROLOGY, 2011; DIRECTOR, CENTER FOR AUTONOMOUS SENSING AND SAMPLING; 2017	PhD, Clemson Univ, 1993; MS, Univ of Florida, 1990; BS, Clemson Univ, 1985

Droegemeier Kelvin	K	1985	PROFESSOR OF METEOROLOGY, 1998; REGENTS' PROFESSOR, 2001; CIMMS FELLOW, 1986; DIRECTOR, CENTER FOR ANALYSIS AND PREDICTION OF STORMS, 1994; DIRECTOR, ENVIRONMENTAL COMPUTING APPLICATIONS SYSTEM, 1996; OU ASSOCIATES PRESIDENTIAL PROFESSOR, 1998; ROGER AND SHERRY TEIGEN PRESIDENTIAL PROFESSOR, 2004; WEATHERNEWS CHAIR IN APPLIED METEOROLOGY, 2005; DIRECTOR, SASAKI INSTITUTE, 2005; VICE PRESIDENT FOR RESEARCH, 2009.	Ph.D., Univ of Illinois, 1985; M.S., Univ of Illinois, 1982; B.S., Univ of Oklahoma, 1980	Martin Elinor R	2014	ASSISTANT PROFESSOR OF METEOROLOGY, 2014; CIMMS FELLOW, 2015, ASSOCIATE DIRECTOR, UNDERGRADUATE PROGRAMS, 2019	PhD, Texas A&M Univ, 2011; MS, Colorado State Univ, 2007; BSc, Univ of Reading, 2005
					McFarquhar Gregory	2017	PROFESSOR OF METEOROLOGY, 2017	PhD, Univ of Toronto, 1993; MS, Univ of Toronto, 1989; BS, Univ of Toronto, 1987
					Moore Berrien	2010	PROFESSOR OF METEOROLOGY, 2010; CHESAPEAKE ENERGY CORPORATION CHAIR IN CLIMATE STUDIES, 2010; CIMMS FELLOW, 2010	PhD, Univ of Virginia, 1969; BS, Univ of North Carolina, 1963
					Palmer Robert D	2003	PROFESSOR OF METEOROLOGY, 2004; TOMMY C. CRAIGHEAD CHAIR OF METEOROLOGY, 2007; CIMMS FELLOW, 2007	PhD, Univ of Oklahoma, 1989; MS, Univ of Oklahoma, 1986; BS, Univ of Oklahoma, 1984
Fedorovich Evgeni		1999	PROFESSOR OF METEOROLOGY, 2004; EDITH KINNEY GAYLORD PRESIDENTIAL PROFESSOR, 2012;	PhD, Leningrad State Univ, 1986; MS, Leningrad State Univ, 1979	Parsons David B	2010	MARK AND KANDI MCCASLAND CHAIR EMERITUS, 2018; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2018; PROFESSOR OF METEOROLOGY, 2010; CIMMS FELLOW, 2010	PhD, Washington Univ, 1982; BS, Rutgers Univ, 1976
Furtado Jason C		2015	ASSISTANT PROFESSOR OF METEOROLOGY, 2015	PhD, Georgia Inst of Tech, 2010; MS, Colorado State Univ, 2005; BS, Lyndon State College, 2002				
Homeyer Cameron R		2014	ASSISTANT PROFESSOR OF METEOROLOGY, 2014, CHESAPEAKE ENERGY PROFESSOR OF CLIMATE SYSTEMS SCIENCE, 2019, ASSOCIATE DIRECTOR, GRADUATE PROGRAMS, 2019	PhD, Texas A&M Univ, 2012; MS, Texas A&M Univ, 2010; BS, Texas A&M Univ, 2008	Redemann Jensen	2018	PROFESSOR OF METEOROLOGY, 2018; KANDI AND MARK MCCASLAND CHAIR IN METEOROLOGY, 2018	PhD, Univ of California Los Angeles, 1999; MS, Univ of California Los Angeles, 1997; MS, Freie Universitat, 1995
Kirstetter Pierre		2018	ASSOCIATE PROFESSOR, SCHOOL OF METEOROLOGY 2018, ASSOCIATE PROFESSOR CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCE, 2018	PhD, Grenoble Alps Univ, 2009; MS-Environmental Sciences, Grenoble Alps Univ, 2005; M. Engr-Civil and Environmental Science, Grenoble Institute of Technology, 2004	Richman Michael B	1991	CIMMS FELLOW, 1996; EDITH KINNEY GAYLORD PRESIDENTIAL PROFESSOR, 2005; PROFESSOR OF METEOROLOGY, 2006; ADJUNCT PROFESSOR OF LIBERAL STUDIES, 2009	PhD, Univ of Illinois, 1994; MS, Univ of Illinois, 1980; BA, SUNY at Plattsburgh
Klein Petra M		2001	CIMMS FELLOW, 2002; EDITH KINNEY GAYLORD PRESIDENTIAL PROFESSOR, 2009; PROFESSOR OF METEOROLOGY, 2016	PhD, Univ of Karlsruhe, 1999; Diploma, Univ of Karlsruhe, 1993	Sakaeda Naoko	2017	ASSISTANT PROFESSOR OF METEOROLOGY, 2017	B.S. Atmospheric Sciences, Univ of Washington 2009, Ph.D Atmos Sciences, Univ of Albany, 2015
					Salesky Scott T	2017	ASSISTANT PROFESSOR OF METEOROLOGY, 2017	PhD, Pennsylvania State Univ, 2014; MS, Pennsylvania State Univ, 2010; BS, Martin Luther College, 2008

Wang	Xuguang	2008	CIMMS FELLOW, 2009; PRESIDENTIAL RESEARCH PROFESSOR, 2014; ASSOCIATE PROFESSOR OF METEOROLOGY, 2014; PROFESSOR 2019, ROBERT LOWRY CHAIR PROFESSOR, AND PRESIDENTIAL RESEARCH PROFESSOR 2019	PhD, Penn State Univ, 2004; BS, Peking Univ, 1998
Xu	Feng	2019	ASSOCIATE PROFESSOR, 2019	PhD.-Physics, Univ of Rowen, 2008; M. Engr, Univ of Shanghai for Science and Technology, 2004; B. Engr, Univ of Shanghai for Science and Technology, 2002
Xue	Ming	1989	CIMMS FELLOW, 2007; GEORGE LYNN RESEARCH PROFESSOR OF METEOROLOGY, 2018; WEATHERNEWS CHAIR IN APPLIED METEOROLOGY, 2010	PhD, Univ of Reading, 1989; BS, Nanjing Univ, 1984
Zhang	Guifu	2005	CIMMS FELLOW, 2007; PROFESSOR OF METEOROLOGY, 2012; ADJUNCT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2014	PhD, Univ of Washington, 1998; MS, Wuhan Univ, 1985; BS, Anhui Univ, 1982

Meteorology, B.S.

Minimum Total Credit Hours: 120-123

Minimum Upper-Division Hours: 52

Overall GPA - Combined and OU: 2.25

Major GPA - Combined and OU: 2.25

Program Code: B685

Major Requirements

Code	Title	Credit Hours
Core (48 hours, 15 courses)		
METR 1003	Introduction to the Atmospheric Sciences	3
METR 2004	Atmospheric Circulations	4
METR 2213	Physical Meteorology I: Thermodynamics	3
METR 2613	Atmospheric In-Situ & Surface-Based Measurements	3
METR 3113	Atmospheric Dynamics I: Intro to Atmospheric Kinematics/Dynamics	3
METR 3123	Atmospheric Dynamics II: Theory of Atmospheric Flows	3
METR 3223	Physical Meteorology II: Cloud Physics, Atmos Electricity/Optics	3

METR 3334	Principles of Research & Communication in Meteorology	4
METR 3513	Atmospheric Chemistry in Weather and Climate	3
METR 4133	Atmospheric Dynamics III: Mid-Latitude Synoptic-Scale Dynamics	3
METR 4233	Physical Meteorology III: Radiation and Remote Sensing	3
METR 4424	Synoptic Meteorology Laboratory	4
METR 4433	Mesoscale Meteorology	3
METR 4523	Climate and the General Circulation	3
METR 4913	Senior Seminar (Capstone)	3

Major Elective (3 hours)

Choose one Meteorology, Hydrology or Climatology upper-division elective (p. 843)	3
---	---

Total Credit Hours 51

Major Support Requirements

- Courses required for major support may *not* also fulfill University-Wide General Education Requirements.

Code	Title	Credit Hours
Math and Physics		
MATH 2934	Differential and Integral Calculus III	3-4
or MATH 2443	Calculus and Analytic Geometry IV	
PHYS 1311	General Physics Lab I	1
MATH 3413	Physical Mathematics I	3
METR 3323		3
or MATH 4753	Applied Statistical Methods	
Programming Elective		
Choose one course from the following:		1-4
METR 1313	Introduction to Programming for Meteorology	
C S 1321	Java for Programmers	
C S 1323	Introduction to Computer Programming for Programmers	
C S 1324	Introduction to Computer Programming for Non-Programmers	
Total Credit Hours		11-15

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course list at <http://www.ou.edu/content/gened/courses.html>. **Courses graded P/NP will not apply**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

At least three hours of Upper-Division General Education coursework must be completed **outside the major**.

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
	English Composition (6 hours)	

ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-10 hours)</i>		
(0-10 hours in the same language) Students who have not completed two years of the same language in high school are required to take two college courses in the same language		
Beginning Course		0-5
Beginning Course, continued		0-5
<i>Mathematics (minimum 3 hours)</i>		
MATH 1914	Differential and Integral Calculus I ¹	4
Core Area II: Natural Science (minimum 7 hours, 2 courses)		
CHEM 1315	General Chemistry (Science with Lab) ¹	5
PHYS 2514	General Physics for Engineering and Science Majors (Science without Lab) ¹	4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities		
<i>Artistic Forms (3 hours)</i>		
Choose one course from the General Education Artistic Forms list.		3
<i>Western Culture (6 hours)</i>		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (Excluding HIST 1483 and HIST 1493)		3
<i>World Culture (3 hours)</i>		
Choose one course from the General Education World Culture list		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		40-50

¹ College of Atmospheric and Geographic Sciences requirements.

ADDITIONAL COLLEGE REQUIREMENTS FOR B.S.

Code	Title	Credit Hours
MATH 2924	Differential and Integral Calculus II ¹	4
PHYS 2524	General Physics for Engineering and Science Majors	4
Total Credit Hours		8

¹ MATH 1823, MATH 2423, and MATH 2433 will also fulfill the college's calculus requirement.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 52 upper-division hours. These electives may be used to fulfill the requirements for a minor, if desired, but must include at least nine hours of upper-division coursework.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or School of Meteorology academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Meteorology major requirements.

Freshman

First Semester		Credit Hours
METR 1003	Introduction to the Atmospheric Sciences ¹	3
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1914	Differential and Integral Calculus I (Core I) ¹	4
CHEM 1315	General Chemistry (Core II)	5
Credit Hours		15

Second Semester

MATH 2924	Differential and Integral Calculus II (Core I) ¹	4
PHYS 1311	General Physics Lab I ¹	1
PHYS 2514	General Physics for Engineering and Science Majors (Core II) ¹	4
METR 1313	Introduction to Programming for Meteorology (or other programming elective from list in major support) ¹	3
First Year Experience (Core V)		3
Credit Hours		15

Sophomore**First Semester**

ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
METR 2004	Atmospheric Circulations ¹	4
MATH 2934	Differential and Integral Calculus III ¹	4
PHYS 2524	General Physics for Engineering and Science Majors ¹	4
Credit Hours		15

Second Semester

METR 2213	Physical Meteorology I: Thermodynamics ¹	3
METR 2613	Atmospheric In-Situ & Surface-Based Measurements ¹	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
P SC 1113	American Federal Government (Core III)	3
General Education	Western Culture (Core IV) ²	3
Credit Hours		15

Junior**First Semester**

METR 3113	Atmospheric Dynamics I: Intro to Atmospheric Kinematics/Dynamics ¹	3
METR 3513	Atmospheric Chemistry in Weather and Climate ¹	3
METR 3323 or MATH 4753	¹ or Applied Statistical Methods	3
MATH 3413	Physical Mathematics I ¹	3
General Education	Artistic Forms (Core IV) ²	3
Credit Hours		15

Second Semester

METR 3123	Atmospheric Dynamics II: Theory of Atmospheric Flows ¹	3
METR 3223	Physical Meteorology II: Cloud Physics, Atmos Electricity/Optics ¹	3
METR 3334	Principles of Research & Communication in Meteorology ¹	4
General Education	World Culture (Core IV) ²	3
General Education	Social Sciences (Core III) ²	3
Credit Hours		16

Senior**First Semester**

METR 4913	Senior Seminar	3
METR 4133	Atmospheric Dynamics III: Mid-Latitude Synoptic-Scale Dynamics ¹	3
METR 4233	Physical Meteorology III: Radiation and Remote Sensing ¹	3
METR 4424	Synoptic Meteorology Laboratory ¹	4
Upper Division Free Elective		3
Credit Hours		16

Second Semester

METR 4433	Mesoscale Meteorology	3
METR 4523	Climate and the General Circulation ¹	3
Meteorology, Hydrology or Climatology	Upper-Division Elective	3

Upper Division Free Elective	3
Upper Division Free Elective	3
Credit Hours	15
Total Credit Hours	122

¹ Students must attain a grade of C or better in all MATH, PHYS, CHEM, and C S, and in METR courses that are direct prerequisites for other METR courses.

² To be chosen from the University-Wide General Education Approved Course List for Core III (Social Science) and Core IV (Humanities). At least three hours must be upper-division outside the major.

- Students who have not completed two years of the same language in high school are required to take two college courses in the same language. This additional coursework may add 6-10 hours to the minimum hours required for graduation.

Computer Science Area of Concentration

The School of Meteorology has joined with the School of Computer Science in the College of Engineering to provide an Area of Concentration within the meteorology curriculum for students interested in further developing their skills in the use of computers in science, engineering, and business. Additional information is available from your faculty advisor.

Minor in Broadcast Meteorology

The College of Journalism and Mass Communication offers a minor in Broadcast Meteorology for meteorology majors interested in careers in broadcast media. **Seventeen hours in communication and journalism courses are required.** Additional information is available from your faculty advisor.

Additional Minors

Minors in Mathematics, Business, Chemistry, Computer Science, Environmental Science, Geography, Geology, Hydrologic Science, Interdisciplinary Perspectives on the Environment, and Physics

Minors in mathematics, business, chemistry, computer science, environmental science, geography, geology, hydrologic science, interdisciplinary perspectives on the environment, and physics are available and students are encouraged to consider one or more of these minors. Students may obtain a minor in mathematics by taking one additional 4000+ MATH course in addition to those required in the curriculum.

Additional information is available from your faculty advisor or from the Atmospheric and Geographic Sciences Dean's Office, National Weather Center, Room 3630.

Meteorology Upper Division Major Elective Course List

The following courses are approved for use as the Meteorology/Hydrology/Climatology Upper Division Major Elective. Please consult the School of Meteorology for the most current list.

Code	Title	Credit Hours
METR 3440	Mentored Research Experience	3
METR 3523	Managing for a Changing Climate	3
METR 3890	Meteorology Internship (with approval from the School)	1-3
METR 4323	Weather Simulation With Computers	3
METR 4330	Information Technology Skills for Meteorology	1-3
METR 4403	Application of Meteorological Theory to Severe-Thunderstorm Forecasting	3
METR 4443	Introduction to Tropical Meteorology	3
METR 4533	Earth's Past Climate	3
METR 4543	Global Climate Change	3
METR 4553	Climate and Renewable Energy	3
METR 4603	Advanced Observations for Lower Atmospheric Research	3
METR 4633	Hydrometeorology	3
METR 4663	Radar Engineering	3
METR 4693	Environmental Sampling Methods	3
METR 4713	Private Sector Meteorology	3
METR 4743	Applications of Weather Forecasting	3
METR 4970	Special Topics/Seminar	1-3
GEOG 3443	Environment and Society	3
GEOG 3523	Managing for a Changing Climate	3
GEOG 4273	Regional Climatology	3
GEOG 4293	Hydrologic Science	3
GEOG 4343	Climate, History, and Society	3
GEOG 4513	Real-world Applications of Climate and Weather Information	3
GEOG 4943	Natural Hazards	3
GEOL 3633	Introduction to Oceanography	3
IAS 3920	Journey to Italy (Topic: Climate Change in Italy: Wine, Art, & Tourism)	1-6
IAS 3653	Energy, Climate, and Security	3
ENST 3503	Energy Use, Climate Change, and the Environment	3
CEES 3213	Water Resources Engineering	3

Meteorology, Minor

Minimum Total Credit Hours: 16

Minimum Upper-Division Hours: 9

Program Code: N685

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

This minor is not available to Meteorology majors.

A minor in Meteorology requires a minimum of 16 hours of courses acceptable for major credit in Meteorology, to include at least 9 hours at the upper division level.

Students must adhere to the course prerequisite policy as set by the School of Meteorology.

Required Courses

A minimum 2.25 GPA is required in all work presented for minor credit.

Code	Title	Credit Hours
METR 1003	Introduction to the Atmospheric Sciences	3
METR 2004	Atmospheric Circulations	4
Choose 9 hours of upper division Meteorology courses		9
Total Credit Hours		16

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Weather and Climate, Minor

Minimum Total Credit Hours: 15

Minimum Upper-Division Hours: 9

Program Code: N869

- The requirements for a minor must be completed concurrently with the major degree requirements.
- No minor may be added by completing courses after receiving the bachelor's degree.

This minor is not available to Geography or Meteorology Majors.

A minor in Weather and Climate requires a minimum of 15 hours of courses acceptable for major credit in Geography and Meteorology, to include at least 9 hours at the upper division level.

Required Courses

A minimum 2.00 GPA is required in all work presented for minor credit.

Code	Title	Credit Hours
Choose a minimum of 6 hours from the following:		6
METR 1014	Introduction to Weather and Climate ¹	
METR 2013 & METR 2011	Introduction to Meteorology I and Introduction to Meteorology I Laboratory ¹	
METR 2023 & METR 2021	Introduction to Meteorology II and Introduction to Meteorology II Laboratory	
METR 2603	Severe and Unusual Weather ²	
Choose 9 hours from the following:		9
GEOG 3023	Principles of Physical Geography	
GEOG 3253	Environmental Conservation ³	
GEOG 4273	Regional Climatology ²	
GEOG 4293	Hydrologic Science	
GEOG 4343	Climate, History, and Society	
Total Credit Hours		15

¹ Also fulfills a General Education Natural Science with Lab requirement.

² Also fulfills a General Education Natural Science without Lab requirement.

³ Also fulfills a General Education Social Science requirement.

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Meteorology, B.S./M.B.A.

Minimum Total Credit Hours: 156-159

Minimum Upper-Division Hours: 52

Overall GPA - Combined and OU: 3.00

Major GPA - Combined and OU: 3.00

Program Code: A685/F140-Q449

¹ MATH 1823, MATH 2423, and MATH 2433 will also fulfill the college's calculus requirement.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 52 at the upper-division level, and at least 30 at the Graduate level (5000-6000-level).

Shared hours with the M.B.A. will replace 12 elective hours in the undergraduate degree.

Information Concerning General Rules, Regulations and Minimum Requirements for Undergraduate Degrees

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 40 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- A minimum of two semesters must be spent in residence in the College of Atmospheric and Geographic Sciences.
- At least 36 of the last 48 hours must be completed in residence at OU.

Individual Studies: No more than six hours of independent study or directed readings may be applied toward degree requirements.

Grade Point Averages: Students must earn a minimum overall 2.25 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Atmospheric and Geographic Sciences and/or School of Meteorology academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Atmospheric & Geographic Sciences, and Meteorology major requirements.

Freshman**First Semester**

METR 1003	Introduction to the Atmospheric Sciences ¹	3
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1914	Differential and Integral Calculus I (Core I) ¹	4
CHEM 1315	General Chemistry (Core II)	5
Credit Hours		15

Second Semester

MATH 2924	Differential and Integral Calculus II (Core I) ¹	4
PHYS 1311	General Physics Lab I ¹	1
PHYS 2514	General Physics for Engineering and Science Majors (Core II) ¹	4
METR 1313	Introduction to Programming for Meteorology (or other programming elective from list in major support) ¹	3
First Year Experience (Core V)		3

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Meteorology, Ph.D.

Minimum Total Hours: 90

Program Code: D685

Program Requirements

Code	Title	Credit Hours
Coursework		
<i>A minimum of 34 hours of letter-graded METR courses, 5000 or above (excluding METR 5990).</i>		34
The following courses must be included and must be passed with a grade of B or better.		
METR 5004	Fundamentals of Atmospheric Science ^{1,2}	
METR 5113	Advanced Atmospheric Dynamics I ¹	
METR 5413	Advanced Synoptic Meteorology ¹

METR 6970	Seminar ³	1-10
Dissertation Research		
METR 6980	Research for Doctoral Dissertation (minimum 2 hours) ⁴	2
Additional coursework as needed to complete 90 post-baccalaureate hours, as approved by advisor and doctoral advisory committee		44-53
Satisfactory completion of the written and oral portion of the School of Meteorology's General Exam		
Satisfactory dissertation defense		
Total Credit Hours		90

- ¹ Any of these five courses may be replaced by transfer courses with equivalent course content as indicated on the Advisory Conference Report.
- ² METR 5004 may be waived at the discretion of the advisory committee and graduate liaison. In this case, 4 credit hours of any graduate-level meteorology courses numbered 5000 or above may be taken in lieu of METR 5004.
- ³ Enrollment in at least 1 credit hour of METR 6970 is required every academic year after admission into the PhD program.
- ⁴ After the first semester of enrolling in METR 6980, continuous enrollment of at least 2 hours of METR 6980 each semester (excluding summer sessions) must be maintained until the doctoral degree is completed. Enrollment in the summer session is required only if (1) the degree is conferred in the summer session, or (2) work is being done on the dissertation.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

NOTES:

- Transfer credits from M.S. degree: A total of up to 44 credit hours from a completed master's degree and additional graduate course work may be approved for transfer credit. Only 4 thesis research (METR 5980) credits can be transferred from a M.S. meteorology degree (the number required for the degree)
- S/U graded coursework restrictions: No more than one-half of the credits for OU coursework for a doctoral degree, excluding research for the dissertation (METR 6980), may be S/U-graded coursework; and no more than one-half of the overall coursework (OU credit and transfer credit, combined), excluding credits for METR 6980, may be S/U-graded coursework.
- A plan for the completion of the required and elective PhD course work must be indicated in the student's Advisory Conference Report or its amendments.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

General Information

History

A curriculum in business subjects was first offered in 1913 through a subordinate school in the College of Arts and Sciences called the School of Commerce and Industry. The first certificates in commerce and industry were granted in 1915. The name was changed to the School of Public and Private Business in 1917. In June 1923, the Board of Regents established a school of business as a separate two-year school of the University and authorized it to confer the degree of Bachelor of Science in Business. The first Bachelor of Science in Business degrees were conferred in 1924. The following year the School of Business was admitted to membership in the Association to Advance Collegiate Schools of Business (AACSB International), the international accrediting agency for bachelor's and master's degrees in business. To earn and retain accreditation, these degree programs must undergo a rigorous initial evaluation and be reevaluated periodically. These programs of the college have been fully accredited since 1926. In addition, programs leading to bachelor's and master's degrees in accounting have met separate AACSB International accreditation standards specifically for accounting programs.

In 1929, the Board of Regents changed the School of Business to the College of Business Administration.

In 1997, alumnus Michael F. Price announced a contribution of \$18 million to the College of Business. The OU Regents officially renamed the College of Business Administration the Michael F. Price College of Business. The Price funds are applied strategically to areas of excellence. This endowment has established endowed faculty positions, a library endowment, scholarships and graduate assistantships, a student support center, and provides support for a number of other initiatives.

Mission: The Purpose of Price

"The Michael F. Price College of Business ensures the enduring global competitiveness of Oklahoma and the nation." Our graduates will grasp opportunities to see how separate pieces of a business puzzle are brought together to create a new business or industry. Conceptual thinking and real-world training allows them to solve complex problems within a business or industry.

The college's strategic plan integrated with that of the University helps the college attain its goals of enhanced excellence and contributions to the economy of the state, nation and the world.

Objectives

To further its mission, the college provides degree programs at the baccalaureate, master's and doctoral levels, with the objective of providing career opportunities in a wide variety of professional and entrepreneurial roles. While most graduates will find employment in the private sector, a Michael F. Price College of Business education will provide a general understanding of, and appreciation for, managerial processes that apply in public sector and not-for-profit institutions as well.

In addition to technical competence in areas of specialty, the college expects graduates to attain a level of understanding, and appreciation for, the liberal arts and the social sciences. The aim is to provide an educational base upon which the graduate can build not only technical but also social capability through a lifetime of continuing growth and development. The emphasis is as much on the formation of attitudes and understanding of complex issues as on the attainment of knowledge and skills.

Since formal education may tend to become abstracted from the realities of practice, the college seeks to maintain close ties with the professional communities it serves. Internship opportunities for students, participation by practicing professional managers in the classroom, consulting and research by faculty, boards of advisers to the college, conferences and the like involving people from outside the University provide opportunities for continuing interaction with the world of organizations.

While maintaining a practical, relevant perspective, the faculty seeks to advance the frontiers of knowledge through research, both applied and theoretical. This research is fundamental to the overall excellence of the teaching function. Students at all levels may expect to be exposed not only to well-established knowledge, but also to ideas and issues that are at the forefront of research and experimentation. As a complement to degree programs, the college includes continuing education and managerial development programs for practicing professionals.

Throughout the wide variety of educational programs and in its research and public service objectives, the college strives to maintain standards of excellence consistent with the University's role as one of the leading institutions of higher education in the nation.

Programs Offered

- College of Business Administrated Programs (p. 862)
 - Economics, B.B.A. (p. 871)
 - General Business for Non-Business Majors, Minor (p. 873)
 - Economics, B.B.A./Management of Information and Technology, M.S. (p. 874)
 - Business Administration, M.B.A. (p. 876)
 - Professional MBA, M.B.A. (p. 877)
 - Aerospace and Defense, E.M.B.A. (p. 878)
 - Energy, E.M.B.A. (p. 878)
 - Renewables, E.M.B.A. (p. 879)
 - Aerospace and Defense Analytics, Graduate Certificate (p. 879)
 - Commercial Space Applications, Graduate Certificate (p. 880)
 - Executive Management in Aerospace and Defense, Graduate Certificate (p. 880)
 - Departmental list of electives (p. 880)
 - Foundations of Business, Graduate Certificate (p. 881)
 - Departmental list of courses (p. 881)
- Hydrocarbon Energy, Graduate Certificate (p. 881)
 - Departmental Lists of Courses (p. 882)
- Renewable Energy, Graduate Certificate (p. 882)
 - Departmental Lists of Courses (p. 882)
- Business Administration, Ph.D. (p. 883)
- John T. Steed School of Accounting (p. 885)
 - Accounting, B.B.A. (p. 890)
 - Accounting, Minor (p. 893)
 - Accounting, B.B.A./M.Acc. (p. 893)
 - Accounting, B.B.A./Finance, M.S. (p. 896)
 - Accounting/Finance Graduate Electives Course List (p. 898)
 - Accounting, B.B.A./Management of Information and Technology, M.S. (p. 898)
 - Accounting Advanced Standing, M.Acc. (p. 901)
 - Online Accounting Advanced Standing, M. Acc. (p. 901)
 - Online Accounting, M.Acc. (p. 902)
- Tom Love Division of Entrepreneurship and Economic Development (p. 903)
 - Entrepreneurship and Venture Management, B.B.A. (p. 908)
 - Entrepreneurship for Business Majors, Minor (p. 910)
 - Entrepreneurship for Non-Business Majors, Minor (p. 910)
 - Entrepreneurship & Venture Management, B.B.A./Management of Information and Technology, M.S. (p. 911)
 - Entrepreneurship and Innovation (Online), M.S. (p. 913)
 - Entrepreneurship and Innovation Major Electives List (p. 914)
 - Business Entrepreneurship, Graduate Certificate (p. 914)
 - Guided Electives (p. 914)
- Division of Finance (p. 915)
 - Finance, B.B.A. (p. 923)
 - Finance for Business Majors, Minor (p. 925)
 - Finance, B.B.A./Finance, M.S. (p. 925)
 - Finance BBA/MS Graduate Electives Course List (p. 928)
 - Finance, B.B.A./Management of Information and Technology, M.S. (p. 928)
 - Finance, M.S. (p. 931)
 - Finance Electives Course List (p. 931)
 - Business of Energy, Graduate Certificate (p. 932)
 - Finance, Graduate Certificate (p. 932)
 - Departmental list of courses (p. 932)
- Division of Management and International Business (p. 933)
 - Energy Management, B.B.A. (p. 941)
 - International Business, B.B.A. (p. 944)
 - Management, B.B.A. (p. 947)
 - Sports Business, B.B.A. (p. 949)
 - Leadership for Business Majors, Minor (p. 952)
 - Management, Minor (p. 952)
 - Sports Business for Business Majors, Minor (p. 952)
 - Sports Business for Non-Business Majors, Minor (p. 953)
 - Esports Business, Undergraduate Certificate (p. 954)
 - Human Resource Management, Undergraduate Certificate (p. 954)
 - Human Resource Management Electives Course List (p. 954)
 - Leadership, Undergraduate Certificate (p. 954)

- Legal Studies, Undergraduate Certificate (p. 955)
 - Legal Studies Electives Course List (p. 955)
- Renewable Energy Management, Undergraduate Certificate (p. 955)
- Management, B.B.A./Management of Information and Technology, M.S. (p. 955)
- Division of Management Information Systems (p. 958)
 - Management Information Systems, B.B.A. (p. 964)
 - MIS for Business Majors, Minor (p. 966)
 - MIS for Non-Business Majors, Minor (p. 966)
 - Business Intelligence and Analytics, Undergraduate Certificate (p. 967)
 - Management Information Systems, B.B.A./Management of Information and Technology, M.S. (p. 967)
 - Business Analytics (Online), M.S. (p. 970)
 - Business Analytics Course List (p. 970)
 - Management of Information and Technology, M.S. (p. 970)
 - Digital Technologies, Graduate Certificate (p. 971)
 - Graduate Electives (p. 971)
- Division of Marketing and Supply Chain Management (p. 971)
 - Healthcare Business, B.B.A. (p. 979)
 - Marketing, B.B.A. (p. 981)
 - Supply Chain Management, B.B.A. (p. 983)
 - Digital Marketing for Business Majors, Minor (p. 986)
 - Digital Marketing for Non-Business Majors, Minor (p. 986)
 - Franchising, Minor (p. 987)
 - Healthcare Business, Minor (p. 987)
 - Marketing, Minor (p. 987)
 - Marketing for Non-Business Majors, Minor (p. 988)
 - Supply Chain Management for Business Majors, Minor (p. 988)
 - Supply Chain Management for Non-Business Majors, Minor (p. 989)
 - Marketing, B.B.A./Management of Information and Technology, M.S. (p. 989)
 - Marketing, B.B.A./Supply Chain Management (Online), M.S. (p. 992)
 - Supply Chain Management, B.B.A./Management of Information and Technology, M.S. (p. 995)
 - Supply Chain Management, B.B.A./Supply Chain Management (Online), M.S. (p. 997)
 - Supply Chain Management (Online), M.S. (p. 1000)
 - Course List (p. 1000)
 - Supply Chain Management (Online), Graduate Certificate (p. 1000)

Programs & Facilities

Business Communication Center

The Business Communication Center prepares students for the technology-delivered world. With one-on-one instruction from the center's friendly staff, Price College students learn valuable hands-on skills such as multimedia presentations, Web page design, video conferencing, public speaking, and digital imaging.

Tom Love Center for Entrepreneurship

The *Princeton Review* and *Entrepreneur* magazine ranked the center eighth in the nation at the undergraduate level. This speaks to the opportunities

available to major or minor in Entrepreneurship and Venture Management for business or engineering students at the University of Oklahoma. The goals of the Tom Love Center for Entrepreneurship are:

- Create entrepreneurial-thinking students.
- Connect faculty, researchers and students to the entrepreneurial world through research, teaching and working labs.
- Provide OU alumni knowledge and resources for Oklahoma's business and entrepreneurial community to assist their growth.
- Start and grow businesses in the state of Oklahoma.
- Commercialize University of Oklahoma intellectual property.

The Center is located in Suite 1036, Price Hall (405) 325-3611.

Fixed Income Fund

The Fixed Income Fund experience exposes senior-level undergraduate students and MBA students to the intricacies associated with the management of portfolios that contain only bond-like financial instruments. The class is divided into teams of students. Students must make real-time decisions using the latest information on financial markets to select fixed income securities to include in the portfolio. The class is sponsored by BOK Financial Corporation, the parent company of the Bank of Oklahoma.

Honors Program

Students may graduate with Latin Honorifics (*cum Laude*, *Magna cum Laude*, or *Summa cum Laude*) if they successfully meet the GPA requirements in addition to their regular degree program requirements. The Honors College also offers special classes and sections of regular classes for academically superior students. Students must be admitted to and satisfy the requirements of the Honors College (p. 1618) to receive a special notation on their transcript. For more information, contact the director of the Honors College, or call (405) 325-5291.

First Fidelity Bank Integrated Business Core

Undergraduate students have the opportunity to enroll in a one-semester (12 hours) project-based program called the First Fidelity Bank Integrated Business Core (IBC), which provides both real-world experience and an integrated introduction to concepts in at least three business disciplines. IBC students gain experience by creating and managing an actual start-up company funded by a loan up to \$5,000 and a hands-on community service project on behalf of a non-profit campus or community organization. Students have donated more than \$1,000,000 dollars and more than 34,000 volunteer hours to charity, and the program has received local, regional and national acclaim.

Students who are participants in IBC:

- are responsible for mastering the concepts and terminology of each of the content courses: Marketing, Management and Legal Studies;
- work as "employees" of an assigned 20-member company which becomes the Entrepreneurship/Community Service Practicum. Here the students have the opportunity to apply the concepts from each of the core business disciplines while at the same time devoting time to their selected community service project;
- Students spend the first seven weeks developing a business plan;
- the plan is submitted to a loan committee which grants, denies or defers the loan application;
- Upon receipt of the loan students have six weeks to implement their business plan.

JCPenney Leadership Center

The Leadership Program of Price College is directed at those students who will become a significant force in the economic, political, social and moral development of our state and nation.

These students have leadership potential because they are academic achievers and have those personal characteristics that thrust them into various activities in which they assume leadership roles.

The college views these student leaders as a valuable resource whose potential should be developed fully for the benefit of themselves and society. These students will help the college fulfill its mission of transmitting knowledge about the continuing adaptation of organizations in a changing global business environment.

The primary objective of the program is to provide these students with opportunities for intellectual and scholastic enrichment, stimulating contact with business and the economic leaders in the nation, and the mutual challenge and benefits of association with a peer group of equally talented students. These opportunities will lead to an enhancement of the students' experiences at the University that will shape the course of their lives.

The three main components of the program include corporate views, fellowships and the Distinguished Speaker Series.

Corporate Views

Participants in this special program accompany executives in their normal work environment and experience firsthand the administrative responsibilities and management styles of successful business leaders. This daylong program significantly expands Associates' classroom educational experience by enhancing their awareness of proven leadership skills and broadening their understanding of actual corporate operations.

Fellowships

The JCPenney Fellowship Program is one of the Center's most exciting and productive avenues and adds greater value to the undergraduate educational experience of Leadership Associates. Each recipient receives a stipend to serve as either a research or training fellow to a Price College faculty mentor for one semester. Eligibility is limited to junior and senior associates. Applications and detailed information is available in the JCPenney Leadership Center.

Distinguished Speaker Series

The Price College of Business and the Kanaly Lecture Series hosts approximately four nationally respected leaders each academic year who have an Oklahoma connection — either through birth, residence, higher education, or business interest. The purpose of the series is to provide the opportunity to learn and grow from the accumulated experience and wisdom of this premier group of opinion leaders.

Student Support Center

The Student Support Center serves graduate students in the Michael F. Price College of Business. The value of the learning experience is expanded for graduate students by providing personal mentoring and career development resources.

Core resources provided to graduate students include:

- mentoring;
- executive visitation;

- career preparation; and
- internships — domestic and international.

AMOCO Business Information Resource Center

Discovery and transmission of knowledge requires information, whether that information is contained in the income statements and financial records of a large U.S. corporation, in profiles of corporate returns on investments, in business trends among the states and regions of the country, or in international trade and investment patterns. Distributive technology — the desktop computers, the interlinked local area networks, the CD-ROM readers — is altering the costs and availability of information acquisition and dissemination, enhancing the potential for greater effectiveness and efficiency in dealing with information.

Price College has developed various "pockets" of expertise in the acquisition of information for instruction and research. The School of Accounting subscribes to the FASB Financial Accounting Research Service, the Center for Financial Studies and the College cooperate in the purchase of CRSP files that contain monthly and daily returns on NYSE, AMEX, and NASDAQ corporations; and the Center for Economic and Management Research subscribes to quarterly updates to the Citibase data system.

While we must rely on various "pockets" to acquire this information, we are limiting our potential for effective utilization of information in our present "distributive" organizational setting. By establishing one central place for the location and dissemination of these information sets, we can greatly enhance our effective use of information.

The AMOCO Business Resources Information Center (BRIC) supports the academic and research goals of Price College by serving as a centralized data repository and technical assistance resource for faculty and students. Individual and group instruction is provided to students and faculty in the use of database software applications and offers technical assistance and support in their use.

Data holdings include industry standard financial, economic and demographic databases obtained from state, federal, and commercial information services. The AMOCO BRIC also maintains a computer lab designed for instruction as well as routine use by students and faculty.

Center for Financial Studies

Price College, through its Division of Finance, has established the Center for Financial Studies. The mission of the Center is to support scholarly research and sponsor educational programs that will improve and share knowledge among finance students, executives and academicians.

The rapid changes occurring in the financial world make it imperative for those involved to be knowledgeable of the innovations, problems and opportunities prevailing in all sectors of the financial markets. The Center for Financial Studies will assume an important leadership role in this endeavor by directing its programs toward mid-and top-level finance executives and toward academicians with research and teaching interests in finance.

Center for MIS Studies

The Center for MIS Studies, an interdisciplinary center located in Price College, is a partnership between the University and business firms designed to share ideas on MIS topics of direct relevance and major concern to the business partners. Effective industry MIS programs require that businesses understand and utilize rapidly changing technologies and complex organizational policies, strategies and structures. Rapid changes of the Internet era, combined with the move

toward outsourcing, makes keeping up exceptionally difficult for IS professionals. Costs of research, development, and training in this complex and dynamic field are high, and results are often disappointing.

The fundamental idea of the Center for MIS Studies is resource sharing – to share the knowledge, skills, and efforts of the University and the member firms in a framework that encourages innovation, quality and productivity. For questions, comments, or additional information, contact:

Center for Management Information System Studies
University of Oklahoma, Price College
307 West Brooks
Norman, OK 73019
Phone: (405) 325-0768
FAX: (405) 325-7482

Library

The Bizzell Memorial Library provides excellent facilities for research and instruction in business and economics. Students, teachers, researchers and the University community at large can research and gain access to materials in a variety of media and in numerous ways. State-of-the-art computer searches through national databases are possible through the University's participation in national library associations. The University is a member of the Research Libraries Group which provides on-line access to the premier libraries in the United States through the Research Libraries Information Network (RLIN). The University is also connected to another, much broader database through the Online Computer Library Center, Inc. (OCLC). In addition, the University has an extensive collection of books, periodicals, microform material, newspapers, trade journals and corporation annual reports. Subscriptions are maintained to various investment, insurance, tax, labor relations and other services which keep patrons in touch with current developments. The University is a designated repository for federal documents which are kept on the fourth floor of the library.

The Bass Collection in Business History

Although ours is a business civilization, relatively little has been done to assemble library materials in the area of business and management history in most American universities. One exception is the University of Oklahoma, which has a distinguished collection in this field, capable of serving not only undergraduate and graduate students, but research scholars throughout the nation.

Through the generosity of the late Harry W. Bass of Dallas, Texas, and the continuing support of the Bass Foundation, a comprehensive collection of books and periodicals in the areas of business and management history are available at the University of Oklahoma. Mr. Bass was a former student in the College of Business.

This distinguished collection of rare and current research materials is housed in a special suite of rooms on the fifth floor of the Bizzell Memorial Library. Dr. Daniel A. Wren is curator of the Bass Collection.

The Ronald B. Shuman Research Fellowship in Business History is designated for graduate and some undergraduate students to work under the direction of the curator of the Bass Collection. This fellowship is in the amount of \$1,000 to be divided between two semesters.

Center for Economic and Management Research

The Center for Economic and Management Research conducts research in business and economics as well as in such diverse areas as energy, delivery of health services, quality of life in Oklahoma and human resources utilization and development. It also provides research support

and data to the business community and to federal, state, and local agencies for use in planning, as well as providing a vehicle for directly relating classroom offerings and the research thrust of Price College to the problems faced by business and government.

CEMR also houses the Survey Research Center, which provides the capability for obtaining current information on the economy of the state and on the attitudes of Oklahomans toward various issues in Oklahoma. These data are presented in special reports for use by planners and decision makers in both business and government.

The Center maintains an extensive database and makes this information available to the public through its publications program that includes press releases, reports, a quarterly economic journal (the Oklahoma Business Bulletin) and the annual Statistical Abstract of Oklahoma. Current and historical economic and demographic information are also available via the Oklahoma Resources Integrated General Information Networks Systems (ORIGINS), an Internet accessible data access and retrieval system containing databases of economic time series.

Adams Hall

Adams Hall is currently the primary office and classroom building for Price College. It contains numerous classrooms, many of which are designed with tiered seating to increase eye contact and facilitate discussion. These case study rooms contribute to and stimulate the learning process.

Instruction and research are facilitated by the computer tools made available in our computer technology enhanced classrooms. Adams Hall currently supports multiple microcomputer labs.

Price Hall

Michael F. Price Hall, a \$19 million, 55,000-square-foot addition to the east side of Adams Hall added nine new classrooms, a business communications center with a behavioral lab, four study rooms, three conference rooms, three Student Services offices, two large commons areas and a courtyard with outdoor seating.

Undergraduate Study

The undergraduate degree in business is designed to offer:

- Preparation for intellectual, political and cultural citizenship and leadership.
- A basic familiarity with facts, skills, techniques and attitudes that are relevant to business and management.
- An opportunity to develop a sense of historical perspective and understanding of the impact of the past upon the present and future.
- An intellectual discipline, "a way of thinking," about problems and problem solving or the decision-making process, including the ability to weigh values and form independent judgments.
- An in-depth exposure to a specific function or discipline.

General Information

Admission

To be admitted to the Michael F. Price College of Business, a student must first be admitted to the University of Oklahoma. Inquiries concerning admission to the University should be addressed to the Office of Admissions and Recruitment, 1000 Asp Avenue, Room 127, Norman, OK, 73019-4076.

Admission to an undergraduate program within a degree-recommending college at the University of Oklahoma (Norman campus) shall be

based upon the requirements of the University of Oklahoma that are in effect at the time of a student's initial enrollment in any institution (including OU) in the Oklahoma State System of Higher Education. Freshmen and transfer students who have not completed 24 semester hours with at least a 2.75 combined retention grade point average are automatically enrolled in University College upon their admission to the University of Oklahoma. **All students taking 3000-level or higher business courses must meet the grade point average, course, and permission requirements.**

Academic credit from any division of the University of Oklahoma — Norman campus, Health Sciences Center, OU-Tulsa or Professional and Continuing Studies — is considered resident credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU retention and cumulative grade point averages for purposes of admission or readmission to the University, and to the individual colleges within the University.

Non-Business Majors

Students not admitted to Price College may elect business courses subject to the prerequisites and minimum GPA requirements; however, business students will receive priority. Students from outside the College who seek academic advising on business course selections should inquire in the Price Academic Advising Services, Suite 1010 Price Hall.

Programs of Study

Students must complete the requirements outlined on the following pages for the degree and major chosen.

Bachelor of Business Administration Degree

Emphasis in this program has been placed on an educational rather than a training or vocational approach, although in certain areas, provisions for a limited amount of specialization have been made. The curriculum is designed to provide:

1. an extension and intensification of the cultural foundation begun in the secondary schools,
2. a comprehensive view of the general principles and procedures practiced in the business world, and
3. in the junior and senior years, a limited amount of professional education in certain specialized subjects.

With this degree program, a student must choose one of the following majors: accounting, economics, energy management, entrepreneurship and venture management, finance, general management, human resources management, international business, management information systems, marketing, or supply chain management.

Double Majors

Price College offers students the option of double majors. A double major consists of hours in the selected major and completion of specific requirements of the additional major. A double major will add to the required number of hours to complete a single major business degree. Only one degree will be awarded, however both majors will be listed on the student's transcript. Students who are not majoring in business may not double major in Price College. No single course may be used by a student to satisfy a major requirement in two majors.

Minors

Minors are offered to both students majoring in business and those majoring in subjects offered in other colleges. No single course may be used by a student to satisfy a major requirement and a minor requirement.

Undergraduate Certificate

Undergraduate certificates are offered to both students majoring in business and those majoring in subjects offered in other colleges.

Accelerated Program for Graduate Study in Business

This program is designed to provide foundational study in the functional areas of business while a student is pursuing his or her undergraduate degree. The designated coursework may be applied toward degree requirements in the master's-level professional degree programs offered through the Price College, as well as be used as electives to complete one's undergraduate degree. Students in any field of study in their junior or senior years may apply for admission to the accelerated program. Because accelerated program students will be enrolled with graduate students in graduate-level classes (5000 or above), admission to the accelerated program will be highly selective and performance closely monitored.

The professional degree programs of Price College assume no prior training in either business administration or related disciplines.

Accelerated Program students must designate one of the professional degree programs in business administration at the time of application. The options include the Master of Business Administration and Master of Accountancy.

Students admitted to the Accelerated Program will be provided a plan of study that considers the student's academic background and the number of elective hours remaining in the student's undergraduate program. The plan of study must be approved for both the student's undergraduate degree and the Accelerated Program. Upon receipt of an undergraduate degree, accelerated program students in good standing are admitted to graduate study in a master's-level professional degree program offered through the College of Business.

Undergraduate students who have completed 90 credit hours or more may be admitted to the Accelerated Program. After 75 hours of undergraduate study, students interested in the Accelerated Program should take the Graduate Management Admission Test (GMAT). The GMAT is offered by the Educational Testing Service of Princeton, NJ "on demand" at various sites in Oklahoma and throughout the world. Only students with a retention grade point average at the University of Oklahoma of at least 3.00 and who receive a satisfactory score on the GMAT will be **considered** for admission to the Accelerated Program. The grade point average must be based on at least 60 credit hours taken at the University of Oklahoma. Admission is determined by the grade point average, the GMAT scores, and evidence of maturity, motivation and leadership potential as indicated by personal interviews and letters of recommendation. Though the admission decision may be made prior to the completion of 90 undergraduate credit hours, acceptance is contingent upon continued performance at a high level.

Choice of Degree Program

(The rules and regulations of this catalog become effective beginning summer term, 2010.)

- Transfer students are required to meet the degree requirements and regulations of the degree program that is in effect at the time of their first enrollment in the state system provided they complete the work for a degree within a maximum of seven years. If the work for a degree covers a period longer than seven years, students must adopt a degree program within seven years of the current requirements. (Example: The 2021–2022 requirements may be in effect only until the end of the 2028 school year [Spring, 2028].)

- Resident students shall be governed by the degree requirements and regulations in effect at the time of their initial enrollment at the University of Oklahoma provided they complete the work for a degree within a maximum of seven years. If work for a degree covers a period longer than seven years, students must adopt a degree program within seven years of the current program. (See example in preceding paragraph.)
- Students may adopt any later degree program which becomes effective while enrolled at the University of Oklahoma if they report this change to the Price Academic Advising Services Office, Suite 1010 Price Hall.
- Credit in the major which is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the major division.

Academic Advisement

Price Academic Advising Services Office

Students in Price College or business minors may receive information and assistance in Suite 1010 Price Hall. Full-time academic advisors maintain records on all undergraduate business majors and provide them with information concerning business college admission, degree audits, degree requirements, contract and stop-out.

Academic Advisement

Career and academic advisement about specific course information is available from the faculty in the major divisions.

The responsibility for meeting all graduation requirements lies with the student.

Credit Hour Load

To be considered full time, an undergraduate student must be enrolled in at least 12 hours in a fall or spring semester and six hours in a summer session. The recommended maximum credit hour enrollment for a regular semester according to the student's cumulative grade point average is as follows:

Less than 2.50 – 16 hours maximum;
2.50–3.00 – 17 hours maximum;
3.00–3.50 – 18 hours maximum;
3.50–4.00 – 19 hours maximum.

Enrollments of 20 hours or more in a fall or spring semester and 10 hours or more in a summer session, must be approved by the Director in the Price Academic Advising Services Office, Suite 1010 Price Hall. Students requesting overload enrollments must have earned a 3.50 GPA in both OU and combined areas.

Course Levels

Undergraduate students are not eligible to enroll in business courses numbered 5000 and above. The only exceptions to the above are graduating seniors who have petitioned the Graduate College to receive graduate credit for the course and whose petitions have been approved.

Graduate-level business courses may not count toward the undergraduate degree; however a student may petition to count non-business courses.

Scholastic Regulations

Attendance

When absences seriously affect a student's classwork, the instructor will report this fact to the Office of Admissions and Records. The information will also be forwarded to the Price Academic Advising Services Office.

Computation of Grade Point Averages

The resident grade point average includes all courses taken at the University of Oklahoma (including correspondence and extension work) that apply toward a degree in Price College. Academic credit from any division of the University of Oklahoma — Norman campus, Health Sciences Center, OU courses taught in Tulsa or Continuing Education — is considered credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU retention and cumulative grade point averages for purposes of retention.

The transfer grade point average includes all courses transferred from other institutions that are accepted by the University of Oklahoma.

The combined retention grade point average is computed with both transfer and OU credits. Both the resident and overall GPA's consist of three areas: the major, upper-division business, and overall degree. Minimum retention grade point averages of 2.50 are required in all of these areas to be eligible to graduate.

Contract and Enrollment Stops

A minimum grade point average of 2.50 OU retention and combined retention is required for good standing in the Michael F. Price College of Business.

A student who has an enrollment stop for poor scholarship is not eligible to be considered for re-enrollment until after at least one semester has elapsed following the stop. At this time, a student who is stopped from Price College is eligible to apply for readmission. An appeal for readmission, however, does not guarantee automatic readmission. Each request is considered on its individual merit. These students will have one semester to either rectify all deficiencies or meet the conditions for continued enrollment. Those failing to do so will be stopped again from the College for a period of three calendar years after which they may apply for readmission to the College.

All applications for readmission must present clearly documented evidence indicating a high probability the student will successfully complete the B.B.A. degree program. The application will be considered based upon standards of the Petition Committee of the College or such other committee as the dean might designate. If readmission is granted, it will be subject to such terms and conditions as the committee may prescribe. Some students who are stopped out from Price College may still be eligible for continued enrollment under the University retention policy. These students may continue without interruption only if they are accepted by a college other than the Michael F. Price College of Business.

Degree Information

General Degree Information

Residency Requirement

Candidates for the BBA degree must complete their last 30 hours as resident students at the University of Oklahoma. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, nine of the last 60 hours may be taken at another university or by correspondence from OU. Students must take a minimum of 24 hours of upper-division business courses in residence for the Bachelor of Business Administration degree. Students must earn 60 hours from a four-year institution.

- Any study abroad program will count toward Price College residency (51 of the last 60 hours or the last 30 hours at OU).
- Students who study abroad will still be required to meet OU and State Regents residency (15 of the last 30 hours at OU).

Transfer Credit

- A maximum of 60 hours will transfer for credit from a two-year college.
- Credit from a two-year college will be accepted to meet lower-division requirements and free electives only.
- A maximum of six hours of transfer work will apply toward the major.

Repeated Courses

Students may not repeat a course in which they earned a grade of A or B, unless the course is one in which there is a change of subject matter (e.g., OSLEP, Independent Study).

If a student repeats a course at the University of Oklahoma for any purpose, the grade received the last time the course was taken becomes the grade for that course. All previous attempts are included in computing grade point averages, but credit for the course is counted only once toward the hours required for the degree. The exception is if it falls in the University repeat policy which affects the retention and graduation grade point averages.

Pass/No Pass Option

A maximum of 12 semester hours, not to exceed one course per semester, may be taken on a pass/no pass basis. This option may be applied to only social science electives and non-business free electives.

Second Bachelor's Degree

A student may earn only one undergraduate business degree from an AACSB accredited institution. Students with business degrees from non-AACSB accredited institutions may petition the College for permission to pursue a BBA. The following conditions must be met:

- At least two semesters must be taken in residence at OU.
- At least 30 additional hours must be completed in the college of the second degree. The 30 hours must be in addition to the total number of hours completed by the student for the first degree.
- At least 24 hours of the 30 must be 3000-4000 level business courses.

If a student is pursuing concurrent degrees in two colleges:

- Both degrees must be completed and certified in the same semester.
- A graduation application must be filed for each degree. Two diplomas will be awarded.
- At least two semesters must be taken in residence at OU.
- At least 30 additional hours must be completed beyond the degree that requires the least number of hours.
- At least 24 hours of the 30 must be 3000-4000 level business courses.

Correspondence Courses**Limitations on Accepted Courses**

- A **combined** maximum of 60 hours credit by correspondence courses, extension courses, and advanced standing examinations may be applied to the Bachelor of Business Administration degree with the following constraints:
 - A combined maximum of 32 hours of correspondence and extension work.
- Credit is given for all correspondence work except for courses presented for the major. Correspondence study may be taken in the major to be used only in the computation of the major grade point average.

- A maximum of six hours from the 15 hours of upper-division business core courses may be taken by correspondence.
- Correspondence work transferred to the College is subject to the same restrictions for all transfer work. Upper-division business courses completed through correspondence and transferred to the College are subject to departmental approval.

Enrollment Regulations

- Students may enroll in correspondence courses by obtaining authorization from Price Academic Advising Services and by contacting the Center for Independent and Distance Learning, 1600 S. Jenkins, Room 101, Norman, OK 73072-6507. Phone: (405) 325-1921.
- A student may enroll in a maximum of six hours of correspondence at one time.
- If students are concurrently enrolled in correspondence and in-residence credit, the total number of hours for one semester may not exceed the recommended maximum shown under Credit Hour Load based on their overall grade point average.
- A student must secure written permission from a counselor in the Price Academic Advising Services (1010 Price Hall) on the correspondence application form.

Advanced Standing Examinations

Students who feel they have a sufficient knowledge of the subject matter of a course offered by the University may take an advanced standing examination for undergraduate credit in the course.

A maximum of 60 hours of credit by advanced standing examinations may apply to the Bachelor of Business Administration degree. Students who have received a grade in any course, other than a W, may not subsequently take the same course by advanced standing.

The Center for Independent and Distance Learning administers advanced standing examinations by individual appointment for credit in courses offered by Price College.

Graduation**Application**

Students must apply for the graduation. Consult the Graduate OU website for more information.

Graduate Study

Admission to each of the graduate programs is available to students with demonstrated aptitude for, and interest in, graduate business education. Previous study in business is not required. Admission decisions are based on a number of factors, including: undergraduate/graduate grade point average, GMAT score, TOEFL (and TSE, if necessary) score, employment history, letters of recommendation and the applicant's personal statement.

Admission recommendations are made on a rolling basis once all application materials are received. It is the student's responsibility to ensure application materials are received on a timely basis.

Refer to the Graduate tabs within each of the Price College of Business academic units' pages of this catalog for information concerning graduate work.

- John T. Steed School of Accounting (p. 885)
- Tom Love Division of Entrepreneurship and Economic Development (p. 903)
- Division of Finance (p. 915)

- Division of Management Information Systems (p. 958)
- Division of Marketing and Supply Chain Management (p. 971)

Master of Business Administration

The Master of Business Administration (p. 876) program at the University of Oklahoma has continued to meet accreditation standards since it was originally established by the American Assembly of Collegiate Schools of Business in 1963.

The MBA program is designed to give the broad perspective needed to manage an overall enterprise, while allowing sufficient flexibility to gain in-depth preparation in an elected area of concentration. The program provides familiarity with the functional areas of business, the necessary tools for management decision making, and the environment in which organizations operate. The MBA program is offered in both a full-time and part-time format.

Full-Time MBA (p. 876)

The full-time MBA is a 49-credit hour, degree. All courses are graduate level. The full-time program is 16 months in length and offers its required courses during the day on the Norman campus. Students in the full-time program will also complete two zero-credit hour courses in Professional Development as part of their curriculum.

Professional MBA (p. 877)

The Professional MBA program is a 37-hour degree program designed for students who work full time. Courses in this program are held in the evenings in Oklahoma City at the OU Health Sciences Center. This program is flexible to allow students to progress toward the MBA degree at an individual pace. While students typically complete the program in approximately 24 months, they have up to five years to earn their MBA. Students are admitted to the Professional MBA program each fall.

Prerequisites for the MBA Programs

While applicants are not required to have previous study in the field of business, they are expected to possess a basic understanding of analytical techniques (including matrix algebra, calculus, and computer usage), and a facility for expressing ideas precisely and coherently. All MBA courses are graduate-level and do not require undergraduate preparation.

Executive Master of Business Administration

The Executive Master of Business Administration in Aerospace & Defense (p. 878)(EMAD) delivers business management education to the growing Aerospace and Defense industry. This executive master's degree seeks to enhance and expand the career educational opportunities for working professionals in the Aerospace & Defense industry (A&D) with the State of Oklahoma, the U.S., and the broader global community by providing a unique and high-level educational experience focused on fundamental and advanced topics in the field of business specifically tailored for A&D.

The Executive Master of Business Administration in Energy (p. 878) is designed to create current and future leaders in the energy industry. The program offers business fundamentals specifically customized for energy professionals, a global perspective on energy, and executive career coaching to enhance leadership skills.

The Executive Master of Business Administration in Renewables (p. 879) program is designed to develop future leaders in the renewable energy industry. The program provides students the business

fundamentals included in a MBA specifically for experienced energy professionals.

Graduate Certificates Administrated by the Price College of Business

- Aerospace and Defense Analytics Graduate Certificate (p. 879)
- Commercial Space Applications Graduate Certificate (p. 880)
- Executive Management in Aerospace and Defense Graduate Certificate (p. 880)
- Foundations of Business Graduate Certificate (p. 881)
- Hydrocarbon Energy Graduate Certificate (p. 881)
- Renewable Energy Graduate Certificate (p. 882)

Dual Degree Programs

In recognition of the strong demand for interdisciplinary expertise in many settings, Price College, in cooperation with other academic units within the University, offers several dual-degree programs. While the dual-degree programs require less total hours than pursuing the degrees separately, applicants must be admitted to each program independently. Admission, retention, and degree requirements are maintained by the separate colleges.

Honors and Awards

The Delta Sigma Pi Key

Each year, Delta Sigma Pi awards the Delta Sigma Pi Scholarship Key to the graduating senior with the highest academic average for the four years of study in business administration.

The Oklahoma Society of Certified Public Accountants Award

Medals are awarded annually to the three outstanding graduating seniors majoring in accounting. The award is based on academic performance in accounting courses.

John F. Y. Stambaugh Awards

Plaques and cash awards are bestowed annually on the outstanding accounting senior and junior, based on overall academic and extracurricular performance.

The Floyd Lamar Vaughan Memorial Award

The student chapter of the American Marketing Association bestows this annual award for excellence in marketing studies to an outstanding Price College of Business student.

The Julian J. Rothbaum Award

Given annually to a senior student majoring in energy management.

The Kenneth Baker Horning Memorial Award

An annual award given for excellence in business writing.

The Oklahoma City Sales Marketing Executives Awards

Keys and awards are bestowed annually for excellence in marketing and sales studies.

The Oklahoma Chapter Of The Financial Executive Institute Of America Award

A key is awarded annually to an outstanding student majoring in accounting.

The Horace B. Brown Case Study Award

Awarded annually by the Division of Marketing to the undergraduate student (or team) who has made the most significant contribution in classes taught by the case method. The award consists of a certificate and cash award.

The Entrepreneurship Institute Awards

Separate awards are made to graduate and undergraduate students for the best plan involving entrepreneurial activities. The award includes a certificate and cash award.

Scholarships, Fellowships and Loans

The University of Oklahoma has many general financial aid programs, including the following: Perkins Loans, Supplemental Educational Opportunity Grants, PELL, Work-Study, Stafford Student Loans, institutional short-term loans and Lew Wentz Foundation Loans. Students interested in applying for any of these programs should contact the Student Financial Center, 1000 Asp Avenue, room 105, Norman, OK 73019-4078.

In addition, Price College offers a wide variety of scholarships, fellowships, grants, loans, and research and teaching assistantships. Contact the Graduate Programs Office, Michael F. Price College of Business for more information.

College of Business Administrated Programs

B.B.A. and Accelerated Degree

The Economics, Bachelor of Business Administration (p. 871) shares with the discipline of economics some of the same conceptual concerns, but its focus is on the business firm and its well-being. Economics is a social science focusing on the economic well-being of society.

The Economics, B.B.A./Management of Information and Technology, M.S. (p. 874) program is a great opportunity for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics.

Minor

Price College offers a Minor in General Business for Non-Business Majors (p. 873).

Master's Degrees

The Master of Business Administration (p. 876) cohort-based program enhances teamwork and collaboration through designed case studies and interactive learning. The program offers an array of industry specializations, certificates, summer internships, and dual-degree opportunities so that students' educational experiences are uniquely tailored to their career goals.

The Professional Master of Business Administration (p. 877) program is designed for both rising and seasoned professionals in the Oklahoma City area looking to advance their careers.

The Executive Master of Business Administration in Aerospace & Defense (p. 878) (EMAD) delivers business management education to the growing Aerospace and Defense industry. This executive master's degree seeks to enhance and expand the career educational opportunities for working professionals in the Aerospace & Defense industry (A&D) with

the State of Oklahoma, the U.S., and the broader global community by providing a unique and high-level educational experience focused on fundamental and advanced topics in the field of business specifically tailored for A&D.

The Executive Master of Business Administration in Energy (p. 878) program is designed to create current and future leaders in the energy industry. The program offers students with the business fundamentals specifically customized for energy professionals, a global perspective on energy, and executive career coaching to enhance their leadership skills.

The Executive Master of Business Administration in Renewables (p. 879) program is designed to develop future leaders in the renewable energy industry. The program provides students the business fundamentals included in a MBA specifically for experienced energy professionals.

Graduate Certificates

The Aerospace & Defense Analytics Graduate Certificate is designed to enhance professional development in the aerospace and defense industry.

The Commercial Space Applications Graduate Certificate (p. 880) is designed to enable students with an interest in commercial space applications to build on their skillsets to include securing government and private funding for startups.

The Executive Management in Aerospace and Defense Graduate Certificate (p. 880) delivers business management education to the growing Aerospace/Defense industry. The graduate certificate is available to managers, executives, and employees in a wide variety of fields who work in the Aerospace/Defense industry. The certificate provides additional management education for these professionals who need specific skills using a flexible format, enabling students to tailor the certificate to their own needs, as well as those of their employer. The program prepares them for careers at the interface of managerial and leadership positions in aerospace and defense organizations, consulting companies, government agencies, and defense contractors.

The Foundations of Business Graduate Certificate (p. 881) is offered for any OU graduate or professional student.

The Hydrocarbon Energy Graduate Certificate (p. 881) will provide students will specific skills and knowledge relevant to today's rapidly evolving hydrocarbon-based energy industry.

The Renewable Energy Graduate Certificate (p. 882) will offer students with opportunities to gain expertise in the renewable energy field to further their professional careers and better position them as leaders in this transitioning industry.

Doctor of Philosophy

The Business Administration, Ph.D. (p. 883) is a high-quality program stressing solid preparation, collaborative relationships with faculty, support for research and professional travel, and strong placements. This program provide students with the necessary knowledge, training, and resources to pursue successful careers in research and teaching that expand the frontiers of knowledge in business disciplines.

Courses

B AD 1001 Personal Computing Productivity Tools 1 Credit Hour

B AD 1001 is designed to help all business majors and business minors succeed as students and young professionals. Being able to effectively utilize OneDrive (cloud storage system) and Microsoft Excel are skills recognized by all employers. These skills allow young professionals to differentiate themselves from others when applying for internships or jobs. (F, Sp, Su)

B AD 1010 Passport to Success II 0 Credit Hours

Prerequisite: Degree Candidacy. Collection of curricular, co-curricular and extracurricular activities that enable students to succeed in the workplace regardless of major within Price College of Business. Students are required to earn a total of 40 "milestones" to successfully graduate from Price College. At least five and no more than seven milestones should be earned each semester. Milestones are chosen from an approved list. (F, Sp)

B AD 1523 Business for People, Prosperity, and the Planet 3 Credit Hours

This course introduces students to the world of business while supporting their transition to the University of Oklahoma and building a collaborative learning community. This course uses a business simulation to help you build cultural fluency, critical thinking, civil discourse, citizenship, and community engagement, which are all keys to their success in college and beyond. (F, Sp) [V-FYE].

B AD 2091 Career Readiness I-Transitioning to the Workplace 1 Credit Hour

Prerequisite: Business majors only. Introduces students to the professional world of business. Emphasizes important aspects such as business culture, communications, ethics, social responsibility and business skills development. Prepares students for a professional future and to identify and address strengths and weaknesses for earning that first job. Includes Career Services registration, creation of a usable resume, and exploration of people skills necessary for success. (F, Sp)

B AD 2113 Introduction to Business I 3 Credit Hours

Designed for non-Business majors. Gives each student a comprehensive introduction to the study of business. Focuses on creation and maintenance of a long-term strategic vision for the firm. Introduces and builds an understanding of the functional business areas such as management, marketing, accounting, finance, and information systems. The concepts learned are essential in managing business activities in an increasingly competitive business world. (F, Sp)

B AD 2970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

B AD 3013 Integrated Business Core Practicum 3 Credit Hours

Prerequisite: ACCT 2123 or concurrent enrollment; Corequisite: enrollment in Integrated Business Core (L S 3323, MGT 3013, MKT 3013); Students must be approved for degree candidacy by Price College. Students will apply concepts from the corequisite courses to their own start-up business ventures and to community service projects. (F, Sp)

B AD 3091 Career Readiness II-Advancing in the Workplace 1 Credit Hour

Prerequisite: Student must be approved for degree candidacy by Price College, junior standing, and B AD 2091. An immersive course designed to explore areas of professional development that will help lead students on a path to a successful career. As an accompaniment to BAD 2091-Business and Professional Basics, this course is designed to further explore areas that will help you, the student, become a more successful, well-rounded business professional as you seek internships and full-time job placement. (F, Sp)

B AD 3113 Managing Corporate Communication 3 Credit Hours

(Crosslisted with MGT 3113) Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914; B C 2813. Strategic Communication challenges students to master their writing, listening, presentation, and interpersonal communication skills to excel in various business environments. Students will also develop strategies to promote customer engagement and loyalty through social media review sites. Emphasis is placed on credibility management, audience analysis, research, revision, and rehearsal to equip students for professional success. (F, Sp)

B AD 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

B AD 3513 International Business 3 Credit Hours

Prerequisite: Student must be approved for degree candidacy in the Price College of Business; ACCT 2123 or concurrent enrollment. The nature and economic role of the multinational corporation including the impact of legal, political, educational, sociological, and cultural variables upon firm performance and managerial activity; case studies illustrate managerial, marketing, financial and accounting activities projected across national boundaries. (F, Sp)

B AD 3700 Internship in Business Administration 1-3 Credit Hours

1 to 3 hours. Prerequisite: student must be approved for degree candidacy by Price College; permission showing approval from the designated faculty or advisor overseeing internships for credit. (F, Sp, Su)

B AD 3710 Topics in Business Administration 1-3 Credit Hours

1 to 3 hours. Prerequisite: student must be approved for degree candidacy in Price College of Business. May be repeated; maximum credit nine hours. Permits students to study topics in business administration not included in standard course offerings. Subject of course will vary. (F, Sp, Su)

B AD 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted honors candidate to study materials not usually presented in regular courses. (F, Sp, Su)

B AD 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

- B AD 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program; junior standing. May be repeated; maximum credit six hours. Independent research on special projects. (F, Sp)
- B AD 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- B AD 4013 Business Strategy and Policy 3 Credit Hours**
Prerequisite: senior standing and completion of all other College of Business core courses. Administrative decision making with emphasis on analyzing business problems, formulating policies and implementing plans for action; comprehensive cases provide the opportunity to study the proper interrelationships among production, finance, marketing and the many other functions involved in managing a business enterprise. Should be taken in student's final semester. (F, Sp, Su) [V].
- B AD 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- B AD 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- B AD 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- B AD 5001 Quantitative Methods and Modeling I 1 Credit Hour**
Prerequisites: graduate standing; departmental permission. Review of important mathematical concepts used in business decision making (emphasis on problem solving). Spreadsheets are used as the principal device for building models. The course covers concepts in the effective spreadsheet design and use. Through development and usage of specific spreadsheets, students will become well-versed in verbalizing, visualizing, forming equations, and calculating answers to key types of business problems. (Irreg.)
- B AD 5010 Foundations of MBA Success 0 Credit Hours**
Prerequisites: departmental permission; graduate standing; majors only. This course provides an orientation to the Price MBA program, and is an essential ingredient for succeeding in the program and beyond. (F)
- B AD 5101 MBA - Professional Development 1 Credit Hour**
Prerequisite: admission to MBA program. Stresses professional development skills. Designed to prepare students for their professional careers and the job search process in particular. Topics include: resume writing, job search and interview, negotiation skills, business etiquette, career decisions, and project and career management. (F)
- B AD 5102 Managerial Economics 2 Credit Hours**
Prerequisites: graduate standing; departmental permission. Microeconomic concepts and analysis as used in managerial decision-making with emphasis on marginal analysis, comparative advantage, resource allocation, opportunity cost, demand and supply, elasticity, economic efficiency, price discrimination, welfare analysis, production and cost functions, productivity, market structures, externalities and public goods, game theory, information asymmetry, market signaling, and government regulation of anti-competitive behavior. (Irreg.)
- B AD 5122 Quantitative Analysis I 2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. This course examines key probability and applied statistical concepts. General course objectives are: 1) enhanced Excel modeling skills; 2) understanding and use of descriptive statistics; 3) basics of probability theory; 4) use and interpretation of various probability models; 5) ANOVA; and 6) regression analysis. Microsoft Excel will be used to illustrate many of these topics. (Irreg.)
- B AD 5172 Business, Government and Society 2 Credit Hours**
Prerequisite: graduate standing, admission into Business graduate program and department permission. Within the study of business, emphasis is placed upon market competition while little attention is paid to "non-market" conditions. Examples of non-market issues include: legislation, lawsuits, etc. Non-market conditions are often reviewed as external events having limited effect upon the strategies of the firm. This course seeks to integrate these concepts/ demonstrate the importance of strategically managing these issues. (Su)
- B AD 5182 Quantitative Analysis II 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and B AD 5122. This course expands treatment of multiple regression analysis and pursues other models and analytical techniques for actionable managerial decision making. Data analysis techniques in the context of Business Intelligence are covered. Specific techniques include multiple regression models and implications of violation of classical assumptions, basic forecasting techniques, linear programming, and optimization and simulation techniques for decision support. (Irreg.)
- B AD 5201 MBA - Professional Development II 1 Credit Hour**
Prerequisite: B AD 5101. This course will enable students to develop critical skills needed to identify, prepare for, and pursue a post MBA career. The course will focus on real-world and practical aspects of the business arena. Students will interact with key business leaders representing a variety of industries and functional areas. (Sp)
- B AD 5202 Career & Professional Development 2 Credit Hours**
Prerequisite: Admission into the Professional MBA or Online MBA Program, Graduate Standing, and Departmental Permission. This course will prepare MBA students for the world of work. This class will enable students to develop the critical skills necessary to identify, prepare for, and confidently pursue a post-MBA career - and ultimately become great business leaders. The course will also focus on real-world and practical skills to succeed in the workplace. (F, Sp)
- B AD 5302 Advanced Leadership 2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. You will explore leadership traits, behaviors, styles, and skills that are important to being an effective leader. We will highlight research in leadership and review important business concepts from business press and books. You will be asked to deeply reflect on your current leadership situation and create an actionable development plan that will move you forward in your leadership career. (Irreg.)

- B AD 5312 Strategic Communication 2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. Strategic Communication challenges students to master writing, listening, presentation, and interpersonal skills to lead in business environments. Students will develop strategies to promote engagement and loyalty with internal and external stakeholders. Emphasis is placed on credibility management, audience analysis, research, revision, and rehearsal to equip students for professional success. (Irreg.)
- B AD 5322 Strategic Leadership & Communication in the Workplace 2 Credit Hours**
Prerequisite: Graduate standing. In today's workplace, the most influential leaders are self-aware, emotionally intelligent, and continuously strive to improve the skills necessary to manage and lead professionally. These leaders are also excellent communicators committed to strengthening their speaking & listening skills. In this course, students will explore methods to improve their ability to lead and communicate effectively at any level of leadership. (Su)
- B AD 5490 Readings in Business Communication and Business Administration 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission. May be repeated; maximum credit 12 hours. Preparation and submission of a research report on an assigned comprehensive topic relating to the business enterprise or to its ethical environment. (F, Sp, Su)
- B AD 5812 Global Business Experience 2 Credit Hours**
Prerequisite: graduate standing and department permission. The course will focus on a study-abroad experience in a specific country. Students will have in-class instruction prior to and during their trip. Students will visit local and U.S. businesses; interact with and governmental leaders; participate in cultural events and experience local customs and culture; analyze cases involving the country; and, complete a written report. (Irreg.)
- B AD 5822 Business Consulting Practicum 2 Credit Hours**
Prerequisite: graduate standing and department permission. This course applies the "Design Thinking" approach, which relies on rapid action followed by interaction and then reflection, to business consulting projects. It offers an immersive experience to students by using a hands-on, iterative approach to collaboratively solving real world business problems, and may include developing innovative products, processes and services. (Sp)
- B AD 5832 Applied Field Project 2 Credit Hours**
Prerequisite: Graduate standing or department permission. This semester-long course will provide experiential learning in a student's area of specialization and thereby enable them to apply their academic knowledge to real world contexts. Students specializing in different academic areas will be matched with internships in those areas. (F)
- B AD 5902 Strategic Management 2 Credit Hours**
Prerequisite: graduate standing and permission of the department. The study of management decisions and actions to improve an organization's competitiveness in global business environments. Uses a variety of pedagogies to integrate strategies. Students develop skills to formulate, implement, and evaluate organizational strategies in rapidly changing environments. This course is an integrative/cross-functional course. (F, Su)
- B AD 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- B AD 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- B AD 5973 Seminar 3 Credit Hours**
Prerequisite: graduate standing, permission (Director-CBA Graduate Programs). May be repeated with change of topic; maximum credit nine hours. A seminar for graduate students with topics to be announced each time the course is offered. (F, Sp, Su)
- B AD 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- B AD 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- B AD 6243 Applied Univariate Statistics 3 Credit Hours**
Prerequisite: Ph.D. standing or permission of instructor, permission (director-CBA graduate programs). Probability, algebra of expectations, random sampling, sampling distributions, point and interval estimation, tests of hypotheses, parametric and nonparametric, sampling methods, survey design, general linear model, computer applications, statistical analysis system. (F)
- B AD 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- B AD 6970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- B AD 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisites: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- B AD 6990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- B C 2813 Strategic Communication for Business Professionals 3 Credit Hours**
Prerequisite: Business majors or other majors approved by Price College advising; ENGL 1213 or EXPO 1213 or equivalent. Introduces the strategies, processes, and resources necessary for writers in business and professional contexts. Students practice informative and analytical business genres while gaining expertise in research, writing, and revision. (F, Sp, Su)

- B C 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- B C 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- B C 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- B C 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- B C 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- EMAD 5302 Accounting in Aerospace and Defense 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, majors only, and admission to the Executive Management in Aerospace/Defense graduate certificate program. This course will create a foundation for understanding accounting and financial management in the Aerospace and Defense (A&D) industry, including performance measurement and budgeting. This course is intended to provide students with a working knowledge of A&D financial statements, including preparation and analysis. This course includes an in-person class at the Gene Rainbolt Graduate School of Business in Oklahoma City. (Irreg.)
- EMAD 5312 Information Technology and Cyber Security in Aerospace and Defense 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and admission to the Executive Management in Aerospace/Defense graduate certificate program. Information technology and cyber security are crucial in managing a business in the aerospace and defense (A&D) industry. This course will provide a basic understanding of the technical and management aspects of data communications, networking infrastructure, and cyber security concepts for A&D. (Irreg.)
- EMAD 5322 Managing Supply Chain and Logistics in Aerospace and Defense 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and admission to the Executive Management in Aerospace/Defense graduate certificate program. Supply chain and logistics are crucial in the aerospace and defense industry. A&D firms are attempting to improve their competitive positions by managing the flow of raw materials, work-in-process inventories, and finished goods. This course covers managing the supply chain that plans, sources, makes, and delivers an A&D organization's goods and/or services, from suppliers of raw materials to customer. (Irreg.)
- EMAD 5332 Legal Environment for Aerospace and Defense 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and admission to the Executive Management in Aerospace/Defense graduate certificate program. This course examines the A&D industry contract vehicles, contract performance management, and regulation management and federal statutory law. Students will learn the legal and ethical environment of A&D business. The course provides necessary background on traditional A&D business law topics, including A&D contracting. This course includes an in-person class at the Gene Rainbolt Graduate School of Business in Oklahoma City. (Irreg.)
- EMAD 5342 Project Management for Aerospace and Defense 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and admission to the Executive Management in Aerospace/Defense graduate certificate program. This course develops the knowledge, skills, tools, and techniques to initiate, plan, execute, monitor, and control activities related to meeting A&D project requirements. It focuses on the theoretical foundations and practical applications of project management along with the IT tools to support project planning, budgeting, scheduling, cost analysis, resource leveling/control, and human resource management in A&D organizations. (Irreg.)
- EMAD 5352 Global Aerospace and Defense Strategy 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and admission to the Executive Management in Aerospace/Defense graduate certificate program. This course develops an innovative mindset to deal with global complexity, barriers to international trade, and human resource challenges. Students are provided with the evidence, concepts, and models for understanding company performance in a global world and the issues facing executives in the early 21st century. (Irreg.)
- EMAD 5362 Field Project in Aerospace & Defense (Analysis) 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and admission to the Executive Management in Aerospace/Defense graduate certificate program. This course provides experiential learning in the aerospace and defense industry by having students apply knowledge from the classroom and work experience to analyzing problems facing A&D organizations. Field projects will deal with scoping the problem under study, structured analysis of the problem including data collection from internal and external sources, and development of recommendations, solutions, and timeline for implementation. (Irreg.)
- EMAD 5372 Field Project in Aerospace & Defense (Implementation) 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, admission to the Executive Management in Aerospace/Defense graduate certificate program, and B AD 5362. This course provides experiential learning in the aerospace and defense industry by having students apply their knowledge from the classroom and their work experience to implement solutions and recommendations developed in B AD 5362 or those provided by the client organization. They will also include the development of a prototype, a pilot implementation of the solutions, and outcome testing. (Irreg.)

EMAD 5382 Quantitative Methods & Models for Aerospace & Defense 2 Credit Hours

Prerequisite: Graduate standing and departmental permission, or admission into the Executive Master of Business Administration in Aerospace & Defense program. This course focuses on understanding and applying quantitative methods and models in the context of Aerospace & Defense (A&D). The course content is organized around three modules: summarizing quantitative data, relating and comparing data, and predicting outcomes based on sample data. The topics covered in these modules include descriptive statistics, associative statistics, regression, multiple regression, and inferential statistics. (Irreg.)

EMAD 5392 Organizational Behavior in Aerospace & Defense Organizations 2 Credit Hours

Prerequisite: Graduate standing and departmental permission, or admission to the Executive Master of Business Administration in Aerospace & Defense program. This course deals with the need for managers to understand behavior in organizations and the challenges they face. It discusses individual differences, employee motivation, and effective job design, and how organizations should select, retain, and evaluate employees. The course discusses group dynamics, team management, effective communication, managing conflict, employee stress, and career management issues. (Irreg.)

EMAD 5402 Aerospace and Defense Marketing Fundamentals 2 Credit Hours

Prerequisite: Graduate standing and departmental permission, or admission into the Executive Master of Business Administration in Aerospace & Defense program. The traditional role of marketing management is enlarged to include the development, implementation, and control of marketing strategies in the aerospace/defense organization. Emphasis is on the strategic marketing process in the dynamic aerospace/defense business environment. Strategic marketing decisions, analysis, and issues are integrated with the goal of achieving customer satisfaction to gain a sustainable competitive advantage within the aviation industry. (Irreg.)

EMAD 5412 Innovation and Entrepreneurship in Aerospace & Defense 2 Credit Hours

Prerequisite: Graduate standing and departmental permission, or admission into the Executive Master of Business Administration in Aerospace & Defense program. This course introduces skills and techniques that enable the development of innovative and entrepreneurial strategies in aerospace and defense. We also evaluate approaches to developing an innovative, entrepreneurial culture in environments where science- and technology-related activities are critical for effective operations. The course will analyze the challenges posed by complex organizations and highlight methods to deal with them. (Irreg.)

EMAD 5422 Lean Six Sigma Tools for Aerospace & Defense 2 Credit Hours

Prerequisite: Graduate standing and departmental permission, or admission to the Executive Master of Business Administration in Aerospace & Defense program. The course introduces the fundamental Lean Six Sigma concepts within a business organization. It covers the basic concepts within Six Sigma and Lean techniques, and introduces tools for measurement and process improvement metrics in organizations through the DMAIC process. The course has a strategic foundation in which we review the strategic use of techniques, ensuring a positive result upon implementation. (Irreg.)

EMAD 5432 Advanced Financial Management in Aerospace & Defense 2 Credit Hours

Prerequisite: Graduate standing, EMAD 5302 and departmental permission, or admission into the Executive Master of Business Administration in Aerospace & Defense program. This is a comprehensive course in corporate financial management and analysis. The course builds on the main concepts of the core Accounting course (EMAD 5302). The primary objective is to develop the skills necessary to value firms and optimize a corporation's capital structure in the Aerospace and Defense Industry using varying finance methods. (Irreg.)

EMAD 5442 Mergers and Acquisitions in Aerospace and Defense 2 Credit Hours

Prerequisite: Graduate standing and departmental permission, or admission into the Executive Master of Business Administration in Aerospace & Defense program. This course studies the design and valuation of deals to acquire or divest corporate assets. We study M&A transactions, applying them to the aerospace and defense industry through case-based methods. We explore how the legal system, accounting rules, and tax incentives affect outcomes of M&A transactions. We analyze types of M&A transactions, their motivations, and their effects on corporate value. (Irreg.)

EMAD 5452 Managing Aerospace & Defense Government Contracts 2 Credit Hours

Prerequisite: Graduate standing and departmental permission, or admission into the Executive Master of Business Administration in Aerospace & Defense program. This course introduces the procurement and contracting processes used in the aerospace and defense (A&D) industry. Students will gain an understanding of best practices from both government and industry perspectives, including subcontracting. The course will navigate the highly complex federal acquisition process including governance and operational roles. The course emphasizes government contracting but also discusses private sector contracting in A&D. (Irreg.)

EMAD 5472 Data Management and Security in Aerospace & Defense 2 Credit Hours

Prerequisite: Graduate standing and departmental permission, or admission to the Executive Master of Business Administration in Aerospace & Defense program. Every organization is concerned with data management. Data must be stored effectively and securely so it can be retrieved to support decision making. These issues are particularly relevant for the A&D industry, an environment where extra measures must be taken in all aspects of security. The objective is to provide a basic understanding of data management and security. (Irreg.)

EMAD 5482 Data Analytics for Aerospace & Defense 2 Credit Hours

Prerequisite: Graduate standing and departmental permission, or admission to the Executive Master of Business Administration in Aerospace & Defense program. Data analytics is becoming increasingly important for every industry, and it is especially important in the aerospace and defense (A&D) industry. The objective of this course is to provide a basic understanding of data analytics in A&D. (Irreg.)

EMAD 5602 The Future of Space 2 Credit Hours

Prerequisite: Graduate Standing and Departmental Permission. This course focuses on the future of a commercial space application, the history of manned and unmanned space flight, and recent commercial ventures in space along with new innovations in the realm of possibility as space travel and launches are becoming more accessible. The course will also look at political developments and the current business climate for space. (Irreg.)

EMAD 5622 Space and Small Business: Business Opportunities in the Space Economy 2 Credit Hours

Prerequisite: Graduate Standing, Majors Only, and Departmental Permission. This course examines the current status and evolving nature of business opportunities in the expanding commercial space sector. Once the domain of governments and large aerospace and communications corporations, the space economy is now ripe with opportunities for new entrants. The course will survey the large-scale trends and dynamics driving this renaissance. (Irreg.)

EMAD 5642 Private Equity and Investment in Space 2 Credit Hours

Prerequisite: Graduate Standing and Departmental Permission. With the declining cost of sending payload into lower orbit, many new startups are forming around the concept of commercializing space. This course reviews the basics of setting up term sheets for new ventures and presents real opportunities to pitch their new venture to tap into this new market. (Irreg.)

EMAD 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

EMBA 5012 Energy Policy and Regulations 2 Credit Hours

Prerequisite: graduate standing, EMBA students only. Examines U.S. and global energy policy and regulatory development emphasizing: resource access, business-government relations, environmental protection, social responsibility, and sustainability. Topics explored from the perspectives of government, business, citizens and civil society stakeholder groups, emphasizing unique positions of entities in the various major energy-producing regions and energy users in the U.S. and worldwide. (Irreg.)

EMBA 5021 Energy Technology and Innovation 1 Credit Hour

Prerequisite: Graduate standing and EMBA majors only. The energy sector is developing and deploying scalable innovative technologies to navigate the energy transition landscape by reducing greenhouse gas emissions, making a lower carbon future for hydrocarbons, improving energy security, and providing access to energy to communities that previously lacked it. This course provides a broad overview of such technologies and innovations. (Irreg.)

EMBA 5022 Introduction to Energy Accounting 2 Credit Hours

Prerequisite: Graduate standing and EMBA majors only. This course uses concepts from financial accounting and managerial accounting and applies them to specific reporting issues in the energy industry as well as presentation of the information on the financial statements of an oil and gas company. Reviews the accounting cycle with an emphasis on the proper accounting treatment of energy-related activities, actions (e.g., acquisition of mineral interests). (Irreg.)

EMBA 5031 Organizational Behavior 1 Credit Hour

Prerequisite: graduate standing, EMBA students only. Designed for students who wish to occupy leadership and managing positions in the energy industry and increase their understanding of individual behavior in organizations. It explores theories and concepts of organizational behavior to address managerial problems. Topics include: management challenges; evidence-based management; managing diversity; motivating, evaluating, and rewarding employees; and creating a positive work environment and achieving personal well-being. (Irreg.)

EMBA 5042 Energy Economics 2 Credit Hours

Prerequisite: graduate standing, EMBA students only. Economic concepts and analysis used in managerial decision-making in energy companies with emphasis on demand, supply, market equilibrium, elasticities, perfect competition, external effects and public goods, market power and monopoly, natural monopolies, economic regulation, market dominance, merger clearance, cartels, collusion and antitrust, oligopolistic markets, GDP, unemployment, inflation, monetary and fiscal policies, and the interrelations among different sectors of the economy. (Irreg.)

EMBA 5052 Financial Markets and Securities 2 Credit Hours

Prerequisite: graduate standing, majors only. During this course, you'll obtain a strong foundation for an understanding of financial markets and the main types of securities traded in these markets. The course topics include trading structure, risk and return, portfolio theory, asset pricing models, market efficiency and an introduction to the nature and valuation of equities and bonds, and an overview of technical concepts. (Irreg.)

EMBA 5062 Quantitative Methods and Models 2 Credit Hours

Prerequisite: graduate standing, EMBA students only. The purpose of this course is to understand and apply quantitative methods and models in the context of energy management. This course is organized to develop the student's ability to: 1) summarize, 2) compare, and 3) predict outcomes based on sample quantitative data. The topics covered in course modules include descriptive statistics, associative statistics, inferential statistics, and multiple regression analysis. (Irreg.)

EMBA 5082 Strategic Management 2 Credit Hours

Prerequisites: graduate standing, EMBA students only. Examines management decisions and actions to improve an organization's competitiveness in global business environments. Uses a variety of pedagogies to integrate strategies, and students will develop skills to formulate, implement, and evaluate organizational strategies that play across the energy industry in rapidly changing environments. (Irreg.)

EMBA 5091 Accounting II 1 Credit Hour

Prerequisite: Graduate standing, EMBA 5022, and EMBA majors only. This course will cover Financial Accounting Standards Board (FASB), Generally Accepted Accounting Principles (GAAP), and Securities and Exchange Commission (SEC) financial statement disclosures specific to entities engaged in oil and gas producing activities (referred to as Upstream Entities), accounting for derivatives, and tax issues affecting the energy industry. (Irreg.)

EMBA 5111 Management Information Systems 1 Credit Hour

Prerequisites: graduate standing, EMBA students only. Managers in energy organization need to understand the pathways for improving performance through IT-enablement and to be active participants in decisions regarding investing in and implementing IT-enabled business solutions and supporting infrastructures. This course provides student with an awareness and understanding of the technologies and issues they are likely to confront in their roles as managers in an energy organization. (Irreg.)

EMBA 5112 Data, Analytics and Decision-Making 2 Credit Hours

Prerequisite: Graduate standing and EMBA majors only. Develops skills in data analytics including managing data resources, techniques for analysis, visualization, security and privacy, and data-driven decision-making. Particular attention is paid to disruptive technologies, governance, and organizational issues in deepening analytics capabilities in the energy industry. (Irreg.)

- EMBA 5131 Renewable Energy Resources 1 Credit Hour**
Prerequisite: Graduate standing and EMBA majors only. Considers interest in renewable energy from the view that meeting global energy demand is "all of the above." Examines traditional energy firms possibly adding alternative energy to its offerings. Provides student with a broad overview of how renewable energy affects markets today, renewable energy technology, and its cost effectiveness compared to other energy sources and its future penetration rate projections. (Irreg.)
- EMBA 5141 Supply Chain Management 1 Credit Hour**
Prerequisite: Graduate standing, EMBA students only. Historically, energy supply chain mainly involved moving products from refineries to customers. Now it is expected to improve performance and manage supply and demand across areas such as strategic sourcing, platform construction, plant maintenance and reliability, storage, etc. This course explores hydrocarbon and renewable energy value chains and provides a foundational knowledge of the intersections of supply chain and energy. (Irreg.)
- EMBA 5142 Derivatives and Energy Trading 2 Credit Hours**
Prerequisite: Graduate standing and EMBA majors only. Provides a comprehensive review of the organization and structure of the market for energy assets and commodities. Topics include trading platforms, pricing issues, forecasting, role and linkage with associated futures, forwards and options contracts, "basis" and spreads, hedging strategies, the principles governing the valuation of these "derivative" securities, and the ways in which these securities can be used effectively. (Irreg.)
- EMBA 5152 Derivative Securities and Markets 2 Credit Hours**
Prerequisites: graduate standing, EMBA students only. Develop an understanding, both intellectual and practical, of the organization and micro-structure of the markets for forward, futures, and options contracts, the principles governing the valuation of these "derivative" securities, and the ways in which these securities can be used effectively in investment banking, portfolio management, hedging, and risk management. Particular attention is paid to energy derivatives and the perspective of the energy sector. (Irreg.)
- EMBA 5162 Energy Assets and Commodities Trading 2 Credit Hours**
Prerequisites: graduate standing, EMBA students only. Provides a comprehensive and in-depth review of the market for energy assets and commodities: including trading platforms, pricing issues, forecasting, role and linkage with associated futures, forwards and options contracts, study of "basis" and spreads, and hedging strategies. The course will be anchored solidly within a theoretical conceptual framework and be supported with relevant case studies. (Irreg.)
- EMBA 5182 Enterprise Valuation, Mergers and Acquisitions, and Corporate Restructuring 2 Credit Hours**
Prerequisite: graduate standing, EMBA students only. The course covers major aspects of M&A and other corporate restructuring transactions; reasons that deals are done, the mechanics of the transactions, the valuation of the firms involved, various aspects of deal structure, the roles and incentives of the parties involved, and related issues. Brings together materials from previous finance courses and links financial decision-making with firm's overall business strategy. (Irreg.)
- EMBA 5191 Marketing Strategy – Changing Energy Mix and New Markets 1 Credit Hour**
Prerequisite: Graduate standing and EMBA students only. Covers the challenges faced by the energy industry in developing new markets for its products, and how to manage customer and client relations. Students will learn practical marketing tools and how they can be used to affect corporate strategy. Topics include the strategic marketing process, oil, gas and NGL valuation, market segmentation, supply chain and logistics, pricing mechanisms and hedging. (Irreg.)
- EMBA 5201 Managing Change – Role of Leadership 1 Credit Hour**
Prerequisite: Graduate standing, EMBA students only. Provides a theoretical understanding and skill development necessary for being an effective leader and manage organizational change. Identify ways to become a more effective leader by applying theories of human behavior to solve day-to-day problems of organizational administration. Examines core decision-making challenges, complex change scenarios, and leadership approaches and strategies to manage change in the context of the energy industry. (Irreg.)
- EMBA 5212 Valuation of Hydrocarbon Resources 2 Credit Hours**
Prerequisite: Graduate standing, majors only. This course brings together concepts to make better economic decisions in projects and industry. It examines ways to evaluate the economic viability of an investment opportunity and develops skills to make these evaluations. The participants perform evaluations of field development projects and practice negotiation skills to create value for an acquisition/divestment. (Irreg.)
- EMBA 5222 Corporate Energy Finance 2 Credit Hours**
Prerequisite: Graduate standing, EMBA students only. Provides students with the analytical and conceptual skills required in the modern practice of corporate financial management in energy organizations. Will focus on three key areas: (1) optimal allocation of capital; (2) optimal choices for raising capital; (3) optimal management of risk in conjunction with (1) and (2), including measuring and managing risks in energy companies. (Irreg.)
- EMBA 5232 Hydrocarbon Law and Regulations 2 Credit Hours**
Prerequisite: Graduate standing, majors only. This course is an introduction to energy policy, law, and regulation, covering some basics in both contract and property law and how to critically read and brief cases. While hydrocarbon law is a major focus, other energy resources and how the multiple energy markets can affect each other are explored. Policies for balancing energy needs with environmental protection are examined. (Irreg.)
- EMBA 5242 Reserve Valuation and Reporting 2 Credit Hours**
Prerequisites: graduate standing, EMBA students only. Key objectives are learning compliant methods of preparing reserves/resources estimates, learning to estimate and understand the composition of and variables to the estimates, understanding the impact of economics on those estimates, properly classifying those estimates using current industry accepted definitions, and understanding the use of reports. Will discuss utilizing a reserves report as the basis for company modeling projections. (Irreg.)
- EMBA 5251 Electric, Gas & Utility Fundamentals 1 Credit Hour**
Prerequisite: Graduate standing and majors only. This course covers material on basic concepts, terms, and the integration of primary functions in electric utility systems, including an overview of the utility regulatory environment and markets, general business model of regulated and unregulated utilities, and electric generation options and economic dispatch. (Irreg.)

- EMBA 5261 Energy and Environment 1 Credit Hour**
Prerequisite: Graduate standing and EMBA majors only. An introduction to the global energy industry's past, present, and future, along with the history and current issues/challenges that different regions face. The course provides a broad look at the fundamentals (resources, politics, culture, regulatory, and legal framework, plus environmental issues) that impact world energy supply and demand. (Irreg.)
- EMBA 5271 Energy and Environment II 1 Credit Hour**
Prerequisite: Graduate standing, EMBA 5261, and EMBA majors only. Introduces energy system from an environmental and human health perspective, and the industry's social license to operate. Examines energy supply and use, its environmental and human health impact and mitigating factors. Discusses energy system organization: how we got here, how it operates, feasible paths going forward, and how to leverage forces of change for a more sustainable energy future. (Irreg.)
- EMBA 5281 Introduction to Energy Systems I 1 Credit Hour**
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course is designed to help understand the earth's energy system and the potential impact of human activity by providing a broad understanding of the current energy system, its challenges, particularly with respect to the environment, and possible paths to a sustainable energy future. (Irreg.)
- EMBA 5291 Electric Power Systems 1 Credit Hour**
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course discusses power systems and environmental consequence, electric circuit theory, principles and practices of the electrical power industry. The course provides an understanding of how, in an electricity grid, power generation and power consumption are closely matched; integrating renewable energy resources into the grid; and the business model of regulated and unregulated utilities, generation options, and economic dispatch. (Irreg.)
- EMBA 5301 Transportation and Residential, Commercial & Industrial Energy Systems 1 Credit Hour**
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course covers the technical and economic structure of energy consumption, and the drivers of energy demand in the transportation, residential, commercial and industrial sectors, which define the set of services that can be supplied by renewable sources in each sector. (Irreg.)
- EMBA 5312 Introduction to Accounting for Renewable Energy 2 Credit Hours**
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course provides an understanding of the accounting cycle with emphasis on the proper accounting treatment of renewable energy activities; uses accounting concepts and applies them to specific reporting and decision-making issues in renewables; and discusses the analysis and presentation of financial statement information for renewable energy companies and cost systems analysis for product costing, decision making, and cost management. (Irreg.)
- EMBA 5322 Managing Change in Renewables - Strategy and Leadership 2 Credit Hours**
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course provides an understanding of the implementation of major strategic organizational changes and the fundamental leadership theories and management practices associated with managing change within the energy industry, providing participants with the necessary framework and tools to effectively lead organizational changes, with attention placed on the human side of change and how to plan for and manage change accordingly. (Irreg.)
- EMBA 5331 Accounting for Renewable Energy 1 Credit Hour**
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course will cover advanced financial topics for renewable energy companies, such as financial statement disclosures specific to entities engaged in renewable energy, depreciation and depreciation reserves, accounting for derivatives, and tax equity and tax benefits for renewable energy industry. (Irreg.)
- EMBA 5341 Cyber-Physical Security and Resilience for Energy 1 Credit Hour**
Prerequisite: Graduate standing and majors only. This course covers introductory topics in cyber-physical systems security, provides a layered perspective of the energy industry, and provides an overview of the interactions among system components and the interaction between external forces and the system, breaches and enforcement, standardization, best practices, policies, privacy, and legal issues. (Irreg.)
- EMBA 5351 Renewable Energy Law and Regulations 1 Credit Hour**
Prerequisite: Graduate standing and majors only. The course will be an introduction to the legal framework governing renewable energy project development and operation, including regulatory and commercial issues facing various stakeholders. (Irreg.)
- EMBA 5361 Introduction to Energy Systems II 1 Credit Hour**
Prerequisite: Graduate standing, EMBA 5281, and EMBA in Renewables majors only. This course provides a framework for thinking about why energy-related events are happening in the world, what they may mean for future energy use and by extension societal and environmental well-being, and how we might improve our current energy system moving forward. (Irreg.)
- EMBA 5371 Data Analytics and Digitization 1 Credit Hour**
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course provides a broad-based introduction to the use of data science for understanding sustainability problems and energy systems. Course materials will address developing a foundational understanding of terminology, methods, applications, and tools that are employed across all energy sectors, with emphasis on renewable energy. (Irreg.)
- EMBA 5381 Renewable Energy Project Development: Forecasting 1 Credit Hour**
Prerequisite: Graduate standing and majors only. All major stakeholders associated with a renewable energy project must rely on many different types of forecasting. Generating accurate forecasts is critical to reducing the uncertainty and risks associated with intermittent resources. This course will provide an overview on how different types of forecasts inform project decisions, both from a project development and operational perspective. (Irreg.)
- EMBA 5391 Renewable Energy Project – Business Plan 1 Credit Hour**
Prerequisite: Graduate standing and EMBA in Renewables majors only. This course provides an overview of preparing a business plan for a renewable energy project and how to evaluate renewable energy project financing and investment opportunities, with particular emphasis on intermittent technologies like solar and wind. (Irreg.)
- EMBA 5402 Renewable Energy Project – Develop, Implement, and Manage 2 Credit Hours**
Prerequisite: Graduate standing and EMBA in Energy majors only. The course will follow the progression of the development of an energy project, from early-stage site and offtake development issues, through construction and project financing, through operation. Teams determine which renewable energy they want to focus on and develop business propositions accordingly. (Irreg.)

EMBA 5403 Renewable Energy Project (Capstone) 3 Credit Hours

Prerequisite: Graduate standing and EMBA in Renewables majors only. The course will follow the progression of the development of an energy project, from early stage site and offtake development issues through construction and project financing through operation. Teams determine which renewable energy they want to focus on and develop business propositions accordingly. (Irreg.)

EMBA 5412 Carbon Management: Strategies and Steps 2 Credit Hours

Prerequisite: Graduate standing and EMBA in Energy majors only. Carbon footprint is the amount of carbon dioxide, or Greenhouse Gas Emissions, that organizations contribute to the environment. This course is on developing and implementing a long-term carbon management plan to provide an organization with strategies and steps that will help prepare the organization for the physical and economic risks of climate change, remaining competitive in a low carbon economy. (Irreg.)

EMBA 5421 ESG and Sustainability 1 Credit Hour

Prerequisite: Graduate standing and EMBA in Energy majors only. Sustainability factors are part of the fundamentals needed to attain higher returns, organizational resilience, and stakeholder trust. Environmental, social, and governance (ESG) risks have gained increasing attention, and organizations are seeking to proactively manage and report on their ESG risks. This course will provide an understanding of ESG and how to implement sustainable ESG requirements. (Irreg.)

EMBA 5431 Financing Hydrocarbon Projects 1 Credit Hour

Prerequisite: Graduate standing and majors only. This course is designed to teach students how to finance hydrocarbon projects and to provide an understanding of the steps involved in valuation, financing, structuring a deal, addressing carbon footprint issues, and packaging for presentation for securing investments. (Irreg.)

EMBA 5441 Renewable Energy Technology and Innovation 1 Credit Hour

Prerequisite: Graduate standing and EMBA in Energy majors only. Innovations in renewable energy encompass all new approaches that help to overcome barriers and result in accelerated deployment of renewables supporting the energy transition. Innovation powers the ongoing transformation of the global energy system. This course provides a broad overview about energy-related innovation and technology issues, and what they may mean for the future of energy and energy transition. (Irreg.)

EMBA 5451 Renewable Energy Project Valuation 1 Credit Hour

Prerequisite: Graduate standing and EMBA in Energy majors only. This course introduces valuation concepts and the main factors affecting the valuation of a broad range of renewable energy assets, projects, and business enterprises. (Irreg.)

EMBA 5462 Introduction to Energy Systems 2 Credit Hours

Prerequisite: Graduate Standing and EMBA in Energy majors only. The course covers different forms of energy and their production/technology, distribution, and consumption, and evaluates current hydrocarbon and renewable energy systems to integrate them into a single energy system. This course also provides an overview of the hydrocarbon value chain as well as the function and organization of electric power systems, focusing on generation, transmission, distribution, and consumer segments. (Irreg.)

EMBA 5471 Path to Net Zero 1 Credit Hour

Prerequisite: Graduate Standing and EMBA in Energy majors only. In support of broader efforts to address climate change, companies are increasingly pledging to reach net-zero emissions as part of their business strategies. To reach their target, companies need to make changes. This course provides a framework for companies to drive transformational changes and strategically address the challenges to a net zero-world. (Irreg.)

Economics, B.B.A.

Minimum Total Credit Hours: 120

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.50

Major GPA - Combined and OU: 2.50

Upper-Division Business Courses GPA - Combined and OU: 2.50

Program Code: B295

This program has changes pending Regents approval for 2024-25. These pending changes are not reflected here.

To enroll in upper-division business courses, students must be certified for degree candidacy and meet all prerequisites.

A maximum of six hours of transfer work will apply toward the major.

Major Requirements

Code	Title	Credit Hours
ECON 3113	Intermediate Microeconomic Theory	3
ECON 3133	Intermediate Macroeconomic Theory	3
Choose 12 hours of upper-division Economics		12
Total Credit Hours		18

Required Courses

Code	Title	Credit Hours
Core Requirements		12
L S 3323	Legal Environment of Business	
MGT 3013	Principles of Organization and Management	
MKT 3013	Principles of Marketing and Supply Chain Management	
B AD 4013	Business Strategy and Policy (to be taken last semester of senior year) ¹	
Upper-Division Business Electives		3
Choose 3 hours from the following fields: ACCT, B AD, B C, EMGT, ENT, FIN, L S, MGT, MIS, MKT, and SCM		
Additional Requirements		8
B AD 2091	Career Readiness I-Transitioning to the Workplace	
B AD 3091	Career Readiness II-Advancing in the Workplace	
ENT 2113	Innovation & Entrepreneurship	

FIN 2303	Business Finance	
Total Credit Hours		23

¹ Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		6-16
ENGL 1113	Principles of English Composition (Core I)	
ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 Expository Writing	
Language (Core I) - Students who have completed two years of high school language are exempt from this general education requirement (0-10 hours).		
<i>Mathematics</i>		6
MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ¹	
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ¹	
Core Area II: Natural Science		7
Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)		
Core Area III: Social Science ²		
P SC 1113	American Federal Government (Core III)	3
Core Area IV: Arts and Humanities		12
HIST 1483	United States to 1865 (Core IV) or HIST 1493 United States, 1865 to the Present

ECON 2843	Elements of Statistics (Core I-M) ⁵	

MIS 2113	Computer-Based Information Systems ⁵	
Total Credit Hours		59-69

¹ Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743

² Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement.

³ It is recommended students take either World Culture or Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course outside the major from the approved University-Wide General Education. It may also be satisfied in the upper-division or free elective categories.

⁴ College requirement: courses are part of the degree candidacy application process that students must complete to earn degree candidacy and begin upper-division business courses.

⁵ Minimum grade of C required.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU. Students must take a minimum of 24 hours of their upper-division business courses in residence for the Bachelor of Business Administration degree.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience and flight instruction courses will count toward the required hours.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses ¹.

This major normally requires three semesters of study beyond the business core requirements.

¹ Prebusiness course.

² University-Wide General Education course, refer to online listing.

³ May be free elective if artistic form, World culture or science is 3000- or 4000-level.

General Business for Non-Business Majors, Minor

Minimum Total Credit Hours: 21

Program Code: N450

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students accepted in the minor will be given permission to enroll in the upper-division credit hours of the minor.

Students must earn a 2.50 overall OU and combined retention GPA to declare the Minor.

Students must complete at least fifteen (15) minor hours in residence at the University of Oklahoma.

Courses for the minor may not be taken Pass/No Pass.

Minimum OU and Combined GPA of 2.50 in all specifically required courses. Lower division courses must be taken before upper-division courses.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major outside Price College of Business.
- Students must achieve a minimum 2.50 GPA (OU and overall) in the minor coursework.

Required Courses

Code	Title	Credit Hours
ECON 1113	Principles of Economics-Macro	3
ACCT 2113	Fundamental Financial Accounting	3
ECON 2843	Elements of Statistics ¹	3
FIN 2303	Business Finance	3
MGT 3013	Principles of Organization and Management	3
or MGT 2013	Introduction to Management	
MIS 2113	Computer-Based Information Systems	3
MKT 3013	Principles of Marketing and Supply Chain Management	3
or MKT 2013	Introduction to Marketing and Supply Chain Management	
Total Credit Hours		21

¹ Arts & Sciences economics majors will substitute ACCT 2123.

If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Economics, B.B.A./Management of Information and Technology, M.S.

Minimum Total Credit Hours: 140-152

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 3.00

Major GPA - Combined and OU: 3.00

Upper-Division Businesses Courses GPA - Combined and OU: 3.00

Program Code: A295/F657 Q193

This program has changes pending Regents approval for 2024-25. These pending changes are not reflected here.

To enroll in upper-division business courses, students must be certified for degree candidacy and meet all prerequisites.

A maximum of six hours of transfer work will apply toward the major.

Total Credit Hours		48

¹ Courses may be satisfied on the basis of previous study with approval of the Graduate Liaison, which must be indicated on the Admission to Candidacy Form. The satisfied hours will be made up via additional elective hours to meet the required total of degree applicable hours.

² Must make a grade of 'B' or better in B AD 5902 or it must be repeated. This is the capstone course and serves in lieu of the comprehensive examination. This requirement is non-waivable.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Aerospace and Defense Analytics, Graduate Certificate

Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Executive Management in Aerospace & Defense, Graduate Certificate

Minimum Total Hours: 12

Program Code: G010

The Executive Management in Aerospace and Defense Graduate Certificate delivers business management education to the growing Aerospace/Defense industry. The graduate certificate is available to managers, executives, and employees in a wide variety of fields who work in the Aerospace/Defense industry. The certificate provides additional management education for these professionals who need specific skills using a flexible format, enabling students to tailor the certificate to their own needs, as well as those of their employer. The program prepares them for careers at the interface of managerial and leadership positions in aerospace and defense organizations, consulting companies, government agencies, and defense contractors.

Additional graduate level courses as approved by the department and Graduate Liaison

Foundations of Business, Graduate Certificate

Minimum Total Hours: 12

Program Code: G040/G384-OL

The Graduate Certificate in the Foundations of Business will help graduate students in areas outside of business, such as healthcare, to: (1) understand the core principles and theories underlying the functional areas of business; (2) develop frameworks for analyzing, applying and evaluating business processes and practices related to their primary area of interest; and (3) develop a broader perspective that incorporates their primary area of interest in a business context through meaningful interaction with business practitioners and academic professionals. A non-business student admitted to the program will take these courses with other graduate business students, including those in the MBA program, the Master of Accountancy program, and the Master of Information Technology program. By taking these courses with graduate students in the business school, OUHSC graduate students will have the opportunity to learn from each other in addition to gaining insights from current Price College of Business faculty members.

Business Administration, Ph.D.

Minimum Total Hours: 90

Program Code: D140

Doctor of Philosophy Degree

The Michael F. Price College of Business offers a program leading to the degree of Doctor of Philosophy. The applicant need not hold a degree in business administration, and applications from students in disciplines other than business are encouraged. The degree requires 90 hours beyond the undergraduate degree and dissertation hours cannot exceed 30 of the 90 hours.

TIME LIMITS

The student has four years from the point of admission to candidacy and six years from the point of entering the doctoral program to prepare and successfully defend the dissertation. If the student fails to do so, they will be required to retake the general examination. These time limits preclude the admission of part-time students to the doctoral program.

MAJORS

The major must be selected in Accounting, Entrepreneurship and Economic Development, Finance, Management and International Business, Management Information Systems, or Marketing/Supply Chain Management. The course content of a major and the administration of the general examination are determined by the division in which the major is taken.

REQUIRED COURSEWORK

Required background in Business

Fields: ACCT 5202; FIN 5302; MKT 5402;

and MGT 5702, B AD 5902 or B AD 5102. A student may receive credit for

equivalent core courses taken at other institutions at the discretion of the Doctoral Advisory Committee.

STATISTICS/QUANTITATIVE METHODS

Nine hours in statistics/quantitative methods are chosen to support the student's plan of study. They may be selected from among the many approved courses offered throughout the University, especially those in the Divisions of Economics and Marketing and the Departments of Mathematics and Psychology.

RESEARCH METHODS

Six hours in research methods are selected to support the student's plan of study, and may be taken from any department within the University.

SPECIALIZATION AREA

A specialization area is a set of courses taken to gain a mastery of a sub-discipline within or external to business administration. These courses may be wholly within a division of the college, across divisions, or divisions of the college and a University department outside the college. A specialization area must involve at least 21 hours.

ADDITIONAL COURSEWORK

The student's Doctoral Advisory Committee determines the free graduate electives the student will take to fulfill the remainder of the 90 required hours.

COMPOSITION OF THE DOCTORAL COMMITTEES

The Doctoral Advisory Committee will consist of at least five members, with the majority of the members coming from within the student's major division and no less than one member from outside of the major division. An accepted plan of study will be viewed as a contract between the student and the University. The Doctoral Advisory Committee is automatically disbanded upon successful completion of the written and oral segments of the student's general examination.

The Doctoral Dissertation Committee will oversee the writing of the student's dissertation proposal, the writing of the dissertation, and the oral defense of the dissertation. The Doctoral Dissertation Committee is constituted upon a student's admission to Ph.D. candidacy, i.e., upon successful completion of the general examination, and will consist of at least five members, with at least two members from the major area and at least one member from each of the two fields. Furthermore, the committee must include at least one member whose appointment is in a department outside of the College of Business. The committee may also include members within or without the student's field who possess professional expertise germane to the student's research.

EVALUATION

In lieu of qualifying examinations (i.e., examinations over the required coursework only) the graduate programs director will convene for each student each year those faculty who are instructing the student, and said faculty will assess the performance of that student. A report will be forwarded to the student's advisory committee and entered into the student's permanent file. Students will not be allowed to continue in the program if they earn more than two grades of C or lower in courses taken as part of the program.

GENERAL EXAMINATION

As the student nears completion of prescribed coursework, the student should prepare for the general examination. Such examinations are not scheduled either during final examination periods or indeed at any

time when a suitable committee cannot be assembled. The general examination will be taken only when the student has completed all curriculum coursework.

The student must apply for the examination at least two weeks before it is to be held. The application is completed by the student on a form provided by the Office of Graduate Programs, and is signed by the student and the members of the Doctoral Advisory Committee. The application is then examined by the graduate programs director and the dean of the Graduate College and if it is in order, is approved. Subsequently, the dean of the Graduate College will authorize the examination. The examination will not be authorized unless the student has completed all prescribed courses, and maintained an overall grade point average of B or higher.

The general examination is intended to test the student's mastery of a number of related fields, as well as capacity for synthesis, sound generalization, and reasoning ability. It will consist in part of written examinations covering the three fields, and will be prepared by the committee. This will be followed by an oral examination in the presence of the whole committee. A student's performance on the general examination will be rated Pass with Distinction, Pass, or Failure. If the student fails the examination, they may repeat the examination either the following semester or later at the discretion of the committee; it may not be given a third time. After each attempt at the general examination, the chairperson will submit a report to the graduate dean that indicates whether the student has passed or failed and what further work must be done. If the individual has passed, the graduate dean will admit the student to candidacy for the doctoral degree.

DOCTORAL DISSERTATION

After the general examination, the candidate will devote most of their time to research and composition, and may also enroll in enough hours of 6980 to meet the minimum requirements of the major division.

After admission to candidacy students must maintain continuous enrollment in 6980 until the requirements for the degree are completed or degree candidacy is discontinued.

DISSERTATION DEFENSE

The candidate may apply for this examination upon presentation of a corrected draft of the dissertation and receipts showing that all fees have been paid. At least four members, including the outside member, of the doctoral committee must be present to conduct the examination. The examination is open to the public.

After the examination, the committee will report its decision to the graduate dean.

Correspondence

For further information on the graduate programs in business administration, contact: Brandy Gunter-Cox (brandy.n.gunter@ou.edu), Advisor for MS-MIT and PhD programs, Price Hall, Price College of Business, 1003 Asp Ave. Room 1010, University of Oklahoma, Norman, OK 73019-4302, (405) 325-5612.

Program Requirements

Required Background in Business Fields

All students are required to demonstrate knowledge in four of the five following business fields: Accounting, Finance, Marketing, Management, and/or Economics. Sufficient background knowledge will be determined by the graduate liaison and advisor, and noted on the Advisory

Conference Report. Verification of completion of the requirement will be endorsed by the graduate liaison and submitted to the Graduate College with the Request for Authority for Dissertation Defense.

Coursework Requirements

Code	Title	Credit Hours
Statistics/Quantitative Methods		
Choose 3 courses (9 hours) from the following:		9

MIT 6980	Research for Doctoral Dissertation	
MKT 6980	Research for Doctoral Dissertation	
Additional Coursework		
		30-61
The student's advisory committee sets the remainder of the elective requirements to meet the 90 hours required for the degree.		
Total Credit Hours		90

Additional Requirements

- Doctoral students in Business Administration shall not be allowed to continue in the program if they earn more than 2 grades of C or below in courses taken as part of the doctoral program.
- Students must have admission to candidacy within four years of admission and complete all degree requirements within four years of admission to candidacy.
- All required courses must be completed prior to taking the general examination.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

John T. Steed School of Accounting

Karen Hennes, Ph.D., Director
200 Adams Hall
307 W. Brooks Street
(405) 325-4221
khennes@ou.edu
www.ou.edu/price/accounting

General Information

The John T. Steed School of Accounting is among a limited number of schools nationwide and the first one in Oklahoma to qualify for accounting accreditation from the Association to Advance Collegiate Schools of Business. The evaluation focused on student quality, faculty professional experience and research productivity, academic curriculum and program-support facilities.

The faculty of the school possess impressive credentials. Their academic backgrounds come from leading universities in the country. The faculty members have established strong records of research and professional publication. Some are consultants to major corporations, authors of textbooks and leaders in professional accounting associations.

The School of Accounting curriculum includes courses in financial accounting, cost accounting, taxation, auditing, and accounting information systems. Graduates are recruited by national and regional firms for challenging and rewarding careers in public accounting and business firms; others secure accounting positions in government.

Undergraduate Study

Bachelor of Business Administration

The mission for the Accounting, Bachelor of Business Administration (p. 890) degree is to educate students in the broad concepts and principles governing accounting, auditing and taxation. The program provides students with sufficient depth in internal and external accounting as well as strong analytical skills to prepare them for entry-level accounting positions in industry and government. It also provides a background that will serve as the basis for continued graduate study in professions where an accounting background is useful or necessary.

Accelerated Programs

The Accounting, Bachelor of Business Administration/Master of Accountancy (p. 893) accelerated program allows motivated current OU business undergraduates interested in professional accountancy to begin working on their Masters degree while still completing their undergraduate coursework.

The Accounting, B.B.A./Finance, M.S. (p. 896) accelerated program provides an excellent education and academic experience. By combining the BBA with the master's in Finance, Accounting students will have a broader range of career options when they enter the job market or they may choose to pursue a PH.D. in Finance.

The Accounting, B.B.A./Management of Information and Technology, M.S. (p. 898) accelerated program is a great opportunity for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics.

Minors

An Accounting Minor (p. 893) is also offered.

Master of Accountancy

The Master of Accountancy program at the University of Oklahoma became the first graduate program in the State of Oklahoma to be accredited under the AACSB International's accounting accreditation program. The program offers three options: an advanced standing residential in-person degree, an advanced standing fully remote online degree, as well as a 51-hour online degree option.

The MAcc program is designed to prepare students for positions of responsibility in the accounting profession. Students may specialize in tax or auditing.

Part-Time Enrollment

To assist with career or other obligations that conflict with full-time enrollment, the MAcc program permits part-time study. The part-time student is given five years from the time of entrance to complete all degree requirements.

Prerequisites for the MACC Program

Applicants are not required to have previous study in the field of accounting and can enroll in preparatory coursework as part of their MAcc degree plan.

- Accounting Advanced Standing, M.Acc. (p. 901)
- Online Accounting Advanced Standing, M.Acc. (p. 901)
- Online Accounting, M.Acc. (p. 902)

Courses

ACCT 2113 Fundamental Financial Accounting 3 Credit Hours
Prerequisite: Business majors and students enrolled in approved degree programs or by permission of Price College advising; B AD 1001 or concurrent enrollment. Basic principles of financial accounting. Emphasis on the preparation and use of the income statement, balance sheet and statement of funds flow for corporations. Coverage includes the analysis and recording of transactions involving cash, inventories, fixed assets, bonds and capital stock as well as closing, adjusting and reversing entries for revenue and expense items. (F, Sp, Su)

ACCT 2123 Fundamental Managerial Accounting 3 Credit Hours

Prerequisite: Business majors and students enrolled in approved degree programs or by permission of Price College advising; ACCT 2113. Introduction to managerial accounting. Analysis of cost behavior and the use of this knowledge for both short- and long-term decision. An introduction to budgeting and the accumulation of product costs for planning and performance evaluation. Specific coverage includes cost-volume-profit analysis, capital budgeting, allocations, variances from standard costs and the measurement of divisional performance. (F, Sp, Su)

ACCT 2970 Special Topics/Seminar 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ACCT 3023 International Financial Statement Analysis 3 Credit Hours

Prerequisite: Must be approved for degree candidacy by Price College, ACCT 2113 and ACCT 2123; Majors only. A review of international financial reporting development, procedures and standards with an emphasis on financial statement interpretation and analysis. Not open to accounting majors. (Irreg.)

ACCT 3033 Financial Reporting Issues in Energy 3 Credit Hours

Prerequisite: ACCT 2123, MATH 1743 or MATH 1823 or MATH 1914, only declared Energy Management majors, and student must be approved for degree candidacy by Price College. Study of financial reporting issues directed toward energy companies. Review of the accounting cycle with an emphasis on the accounting treatment for acquisition of mineral interests, geological and geophysical costs, intangible drilling costs, delay, rental, dry hole costs, lease and well equipment, joint interest billing and royalties payable. (Sp)

ACCT 3043 International Financial Reporting 3 Credit Hours

Prerequisite: ACCT 2113 and departmental permission. A review of international financial reporting procedures and standards with an emphasis on financial statement interpretation and analysis. (Irreg.)

ACCT 3113 Intermediate Accounting I 3 Credit Hours

Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2113 and ACCT 2123 with a grade of C or better in each course; MATH 1743 or MATH 1823 or MATH 1914. Measurement and reporting of assets including receivables, inventory, investments, fixed assets, and intangible assets; special issues related to revenue recognition. (F, Sp)

ACCT 3123 Intermediate Accounting II 3 Credit Hours

Prerequisite: ACCT 2113, ACCT 2123 and ACCT 3113 with a minimum grade of C or better in each course; student must be approved for degree candidacy by Price College; MATH 1743 or MATH 1823 or MATH 1914. Measurement and reporting of bonds, leases, pensions, derivatives, stockholders' equity, earnings per share, and share-based compensation; special issues related to accounting for income taxes and the statement of cash flows. (F, Sp)

ACCT 3313 Cost Accounting 3 Credit Hours

Prerequisite: ACCT 2123 with a minimum grade of C, student must be approved for degree candidacy by Price College, and MATH 1743 or MATH 1823 or MATH 1914. Basic cost principles. Job order costing, process and joint costing, and estimated costs. (F, Sp)

ACCT 3353 Accounting Information Systems/Databases 3 Credit Hours

Prerequisite: Student must be approved for degree candidacy by Price College, ACCT 2113 and ACCT 2123 with a minimum grade of C or better in each course, and MATH 1743 or MATH 1823 or MATH 1914; or permission. A study of the role of technology in accounting, focusing on the documentation, flow, and processing of accounting information in business. Gives an introduction to the various components of an information system and the necessary internal controls in complex business computing environments. Course includes data analytics and enterprise systems projects. (F, Sp)

ACCT 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ACCT 3603 Income Tax Accounting I 3 Credit Hours

Prerequisite: ACCT 2113, ACCT 2123 and ACCT 3113 with a minimum grade of C or better in each course, or permission; student must be approved for degree candidacy by Price College; MATH 1743 or MATH 1823 or MATH 1914. Introduction to the taxation of income including issues related to the measurement and recognition of income, deductions and losses; the taxation of property transactions; basis and cost recovery concepts; and alternative forms of business organization. (F, Sp)

ACCT 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: junior or senior standing, admission to the Honors Program. May be repeated; maximum credit six hours. Independent study in field of accounting and related disciplines to broaden student's perspective in general field of business. (F, Sp)

ACCT 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

ACCT 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: junior or senior standing, admission to the Honors Program. May be repeated; maximum credit six hours. Independent research in field of accounting and related disciplines to apply research techniques learned in research tool courses to actual business situations. (F, Sp)

ACCT 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (Irreg.)

ACCT 4543 Auditing 3 Credit Hours

(Slashlisted with ACCT 5543) Prerequisite: ACCT 3113 and ACCT 3123 with a minimum grade of C or better in each course; ACCT 3603; ACCT 3353 or concurrent enrollment; MATH 1743, or MATH 1823, or MATH 1914; Students must be approved for degree candidacy by Price College. This course will cover auditing concepts, standards, principles, and procedures; coverage includes professional ethics, auditors' legal responsibilities, electronic data processing (EDP) control systems, audit sampling, and audit reports. No student may earn credit for both 4543 and 5543. (F, Sp)

- ACCT 4563 Oil and Gas Accounting I 3 Credit Hours**
(Slashlisted with ACCT 5563) Prerequisite: ACCT 3123; MATH 1743 or MATH 1823 or MATH 1914; Students must be approved for degree candidacy by Price College. May be taken concurrent with ACCT 3123. A study of financial accounting issues specifically directed toward oil and gas companies. Includes basic oil and gas transactions: leases, subleases, free wells, farmouts, carried interests. This course covers accounting for acquisition costs, exploration and development costs, operating costs, joint interest costs, and revenue accounting for oil and gas companies. Field trip required. No student may earn credit for both 4563 and 5563. (F)
- ACCT 4583 Internal Auditing 3 Credit Hours**
(Slashlisted with ACCT 5583) Prerequisite: ACCT 3353; ACCT 4543; senior standing; Majors only. Internal audit from a broad perspective including evaluating business processes, information technology, accounting systems, internal auditing standards, risk assessment, governance, ethics, audit techniques, and emerging issues. The course covers the design of business processes, implementation of key control concepts and will use a case study approach addressing tactical, strategic, systems and operational areas. No student may earn credit for both 4583 and 5583. (F)
- ACCT 4703 Income Tax Accounting II 3 Credit Hours**
(Slashlisted with ACCT 5703) Prerequisite: ACCT 3603 or permission; junior standing. Advanced issues related to the taxation of multi-jurisdictional operations and transactions involving corporations, partnerships, estates, and trusts, and their owners throughout the life of the entity. No student may earn credit for both 4703 and 5703. (F, Sp)
- ACCT 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- ACCT 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ACCT G4990 Special Problems in Accounting 1-2 Credit Hours**
1 to 2 hours. Prerequisite: Junior standing; ACCT 3123, ACCT 3313, ACCT 3353, and ACCT 3603; and ACCT 4113 or ACCT 4323 or ACCT 4543 or ACCT 4703; or departmental permission. May be repeated with change of content; maximum credit 2 hours. This directed readings and problems course for advanced students will be supervised by faculty and staff. A comprehensive report and/or examination is required. (F, Sp, Su)
- ACCT 5023 International Financial Reporting and Analysis 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. Overview of the international financial reporting environment and exploration of international financial standards and procedures, with emphasis on financial statement interpretation and analysis. (Irreg.)
- ACCT 5100 Accounting Professional Development 0 Credit Hours**
Prerequisite: admission into the BBA/MAcc or MAcc program. Introduces students to a wide range of business and professional issues, including developing current events not covered elsewhere in the curriculum, as well as to build and expand on topics that are covered. The course will also help students develop and polish some of the skills necessary for professional and personal success. (Irreg.)
- ACCT 5113 Advanced Accounting 3 Credit Hours**
Prerequisite: ACCT 3113, ACCT 3123, and graduate standing. Topics in this course include consolidated reporting for firms that have merged with or acquired other companies and the accounting and reporting for governmental and nonprofit organizations. (F, Sp)
- ACCT 5123 Special Topics in Advanced Financial Accounting 3 Credit Hours**
Prerequisite: Graduate Standing, Departmental Permission, and ACCT 5113. This course expands upon topics from Advanced Accounting. Topics include the cost method of consolidation, the process of translation, remeasurement and consolidation of financial statements presented in a foreign currency, and introduction of topics such as partnership accounting, bankruptcy accounting, and SEC Reporting issues. (Irreg.)
- ACCT 5202 Financial Accounting 2 Credit Hours**
Prerequisites: graduate standing; departmental permission. Students will learn to construct and analyze financial statements of for-profit corporate enterprises. The basic accounting model including financial statement recording and preparation will be covered. A major emphasis will be placed on using financial statements for decision making by investors, creditors, and other users. Basic ratio analysis and valuation concepts will be introduced. (Irreg.)
- ACCT 5212 Managerial Accounting 2 Credit Hours**
Prerequisites: 5202 and graduate standing; departmental permission. This course emphasizes the use of accounting information for internal planning and control. Introduces students to types of managerial information used to effectively and efficiently run businesses. Covers basic issues in costing (activity based and product); generation and interpretation of information for planning and strategic decision-making (pricing, make-or-buy analysis, cost-volume-profit analysis); production and use of information related to performance measurement. (Irreg.)
- ACCT 5222 Fundamentals of Cost Accounting 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and ACCT 2123 or ACCT 5212. This course covers an overview of technical management accounting concepts. Topics will include process costing; rework and scrap costs; support costs, joint costs and byproducts; relevant costs; transfer pricing; inventory management; and performance measures. (F)
- ACCT 5232 Financial Reporting Foundations 2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. This course introduces the process of preparing, reporting, and using financial data reported on the income statement and balance sheet. Emphasizes complex revenue and receivable transactions, such as performance obligations, long-term contracts, variable considerations, transaction pricing, and uncollectible accounts, and assesses how these transactions are reported and analyzed by external users. (F)
- ACCT 5242 Financial Reporting for Assets and Investments 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and ACCT 2113 or ACCT 5202 or ACCT 5232. This course introduces the process of measuring and reporting assets and investments. Emphasizes topics such as asset acquisition, nonmonetary asset exchange, internally generated assets, impairment, depreciation, debt investments, equity investments, and the use of derivatives for speculative and hedging purposes. (F)

ACCT 5252 Financial Reporting for Liabilities and Equity 2 Credit Hours

Prerequisite: Graduate standing, departmental permission, and ACCT 2113 or ACCT 5202 or ACCT 5232. This course introduces the process of valuing and reporting liabilities and equities. Emphasizes topics such as private and public debt offerings, lease accounting, income tax implications, equity-based compensation, dividends, dilutive instruments, and the computation of earnings per share. (Sp)

ACCT 5262 Fundamentals of Income Taxation & Tax Accounting 2 Credit Hours

Prerequisite: Graduate standing, departmental permission, and ACCT 2113 or ACCT 5202 or ACCT 5232. This course covers introduction to the taxation of income generally including the definition and measurement of taxable income and the recognition and taxation of gains and losses from property transactions. (F)

ACCT 5272 Fundamentals of Taxation of Business & Employment Income 2 Credit Hours

Prerequisite: Graduate standing, departmental permission, and ACCT 2113 or ACCT 5202 or ACCT 5232. This course covers the introduction to the alternate organizational forms in which businesses may be conducted, the measurement and taxation of income generated by those business forms, and the impact of organizational form choice on the owners of the business. (Sp)

ACCT 5282 Fundamentals of Accounting Information Systems 2 Credit Hours

Prerequisite: Graduate standing, departmental permission, and ACCT 2113 or ACCT 5202 or ACCT 5232. This course introduces the conceptual foundations of AIS and data analytics. Addresses issues and mitigating factors of accounting information systems reliability. (Sp)

ACCT 5292 Fundamentals of Internal Control 2 Credit Hours

Prerequisite: Graduate standing, departmental permission, and ACCT 3353 or ACCT 5282 or MIS 3353. This course introduces the basic concepts of system documentation and internal controls of accounting information systems. Discusses relevant controls to the audit of financial statements and reporting in the context of the audit risk model. (Sp)

ACCT 5302 Fundamentals of Auditing 2 Credit Hours

Prerequisite: Graduate standing, departmental permission, and ACCT 3113 or ACCT 5242 and ACCT 3123 or ACCT 5252. This course will develop the perspective and knowledge necessary to understand the audit process and gain basic competency in audit risk assessment and reporting. (Su)

ACCT 5303 Accounting Data Analytics 3 Credit Hours

Prerequisite: ACCT 3353 and graduate standing. This course covers the use of data analytics and visualization in the accounting profession, including analytics processes and tools to generate meaningful accounting insights and answer accounting questions. Students will also learn to think critically, solve problems, and make good decisions about the use of analytics in the accounting environment. Applications in tax, audit, managerial, and financial accounting will be (F, Sp)

ACCT 5352 Financial Statement Analysis Theory and Methods 2 Credit Hours

Prerequisites: graduate standing; departmental permission. Intended to increase your ability to use and make decisions using information presented in the financial statements of publicly traded companies. A number of different decision contexts will be examined including valuation of potential acquisitions, investment analysis, credit analysis, managing corporate financing policies and analyzing business communications. Will consider the role of both accounting and non-accounting information. (Irreg.)

ACCT 5353 Financial Statement Analysis 3 Credit Hours

Prerequisite: graduate standing or permission of instructor. Topics in analysis and use of general purpose financial statements for decision making, ratio analysis, credit risk, and valuation will be covered. (Irreg.)

ACCT 5403 Accounting Ethics and Professional Responsibilities 3 Credit Hours

Prerequisite: graduate standing, 24 hours of accounting, and permission. Examines the ethical issues encountered by, and the professional and legal obligations of, practicing accountants with the ultimate goal of enhancing ethical decision-making and behavior in the profession. Applies both ethical theories of decision-making and professional standards to real-world problems encountered across various functional areas of accounting. (Irreg.)

ACCT 5543 Auditing 3 Credit Hours

(Slashlisted with ACCT 4543) Prerequisite: Graduate standing and permission of instructor. This course will cover auditing concepts, standards, principles, and procedures; coverage includes professional ethics, auditors' legal responsibilities, electronic data processing (EDP) control systems, audit sampling, and audit reports. No student may earn credit for both 4543 and 5543. (Irreg.)

ACCT 5553 Fraud Examination 3 Credit Hours

Prerequisite: 4543, graduate standing or permission. To develop a broad understanding of the different types of fraud that affect organizations, as well as to learn how and why fraud occurs. To understand the fundamentals regarding fraud prevention and detection. To learn how to conduct fraud investigations. To learn what is required of external auditors regarding fraud. The course focuses on organizational fraud (e.g. employee and management fraud). (Irreg.)

ACCT 5563 Oil & Gas Accounting I 3 Credit Hours

(Slashlisted with ACCT 4563) Prerequisite: Graduate standing and permission of instructor. A study of financial accounting issues specifically directed toward oil and gas companies. Includes basic oil and gas transactions: leases, subleases, free wells, farmouts, and carried interests. This course covers accounting for acquisition costs, exploration and development costs, operating costs, joint interest costs, and revenue accounting for oil and gas companies. Field trip required. No student may earn credit for both 4563 and 5563. (F)

ACCT 5573 Advanced Oil and Gas Accounting and Taxation 3 Credit Hours

Prerequisites: ACCT 4563 or ACCT 5563, ACCT 3603, and Graduate standing. This course will cover accounting for derivatives, asset retirement obligations, supplemental footnote disclosures, analysis of financial statements of oil and gas companies, and alternative sources of energy. Approximately 1/3 of the course will be devoted to taxation of oil and gas companies. (Irreg.)

ACCT 5583 Internal Auditing 3 Credit Hours

(Slashlisted with ACCT 4583) Prerequisite: Graduate standing, ACCT 3353, and ACCT 4543. Internal audit from a broad perspective including evaluating business processes, information technology, accounting systems, internal auditing standards, risk assessment, governance, ethics, audit techniques, and emerging issues. The course covers the design of business processes and implementation of key control concepts, and will use a case study approach addressing tactical, strategic, systems, and operational areas. No student may earn credit for both 4583 and 5583. (F, Sp)

- ACCT 5613 Tax Research and Practice 3 Credit Hours**
Prerequisite: Graduate standing and ACCT 3603 (or equivalent). Course focuses on the development of skills necessary to resolve issues in tax practice. Objectives include developing knowledge of tax research resources, understanding the framework of tax law, and understanding ethics as applied to tax practice. (Irreg.)
- ACCT 5643 Advanced External Auditing 3 Credit Hours**
Prerequisite: Graduate standing, Accounting majors only, ACCT 4543, and departmental permission. Designed to introduce students to advanced external auditing topics, such as how to audit internal controls, revenue, and fair value, with a special emphasis on audit data analytics. Taught using a mixture of lecture, cases, and projects. Students gain skills in platforms such as Excel, IDEA, Tableau, and others. (Irreg.)
- ACCT 5703 Income Tax Accounting II 3 Credit Hours**
(Slashlisted with 4703) Prerequisite: 3603 or permission and junior standing. Advanced issues related to the taxation of multi-jurisdictional operations and transactions involving corporations, partnerships, estates, and trusts, and their owners throughout the life of the entity. No student may earn credit for both 4703 and 5703. (F, Sp)
- ACCT 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- ACCT 5970 Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission. May be repeated with change of subject matter; maximum credit eight hours. A seminar for graduate students, with topics to be announced each time the course is offered. (F, Sp, Su)
- ACCT 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- ACCT 5990 Research in Accounting 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit eight hours. (F, Sp, Su)
- ACCT 6193 Introduction to Accounting Research 3 Credit Hours**
Prerequisite: graduate standing and permission. May be repeated with change of content; maximum credit six hours. A survey of current topics appearing in the academic accounting literature. Students will analyze and critique emerging original research in accounting. Intended for, but not restricted to, doctoral accounting students to provide a foundation for their future research efforts. Required for all Ph.D. students whose dissertation topic is in the area of accounting. (Irreg.)
- ACCT 6553 Accounting Theory and Research 3 Credit Hours**
Prerequisite: graduate standing, 24 hours of accounting and permission. Examines the history and development of accounting theory and its reflection in current professional standards. In the process, the course also facilitates the development of the knowledge and skills necessary to research and analyze specific practice and policy issues. (Irreg.)
- ACCT 6613 Federal Income Taxation of Corporations and Shareholders 3 Credit Hours**
Prerequisite: Graduate standing and ACCT 5613 or concurrent enrollment. An advanced study of corporate income taxation, including corporate formation, concept of earnings and profits, acquisitions and liquidations, reasonable compensation, stock redemptions, accumulated earnings tax, personal holding companies, reorganizations, Subchapter S corporations, and other tax areas. (Irreg.)
- ACCT 6623 Federal Income Taxation of Partnerships 3 Credit Hours**
Prerequisite: Graduate standing, ACCT 5613 and ACCT 6613, or departmental permission. An advanced study of acquisitions of partnership interests, the basis of a partner's partnership interest, taxing partnership operations, transfers of partnership interests, partnership distributions, death or retirement of a partner, and adjustments to the basis of partnership assets. (Irreg.)
- ACCT 6633 Selected Topics in Taxation 3 Credit Hours**
Prerequisite: Graduate standing, permission of instructor, and ACCT 5613. Selected topics will focus on concepts and functional areas currently relevant to the field of taxation and tax accounting. (Sp)
- ACCT 6713 Judgment and Decision Making Research Seminar 3 Credit Hours**
Prerequisite: 6193 or permission of instructor. Introduces basic psychology research in judgment and decision making, explores accounting and accounting-related work in judgment and decision making, and develops evaluation skills for experimental research. (Irreg.)
- ACCT 6723 Archival Financial Reporting Research Seminar 3 Credit Hours**
Prerequisite: 6193 or permission of instructor. Heavy emphasis placed on basic theory and empirical findings of how accounting information relates to market prices. Additional topics may include archival evidence of firm's earnings management activities, the role of financial analysts' earnings forecasts in financial accounting research, and cross-company differences in financial reporting. (Irreg.)
- ACCT 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- ACCT 6970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and ACCT 6193 or permission of instructor; May be repeated with change of content; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- ACCT 6973 Seminar 3 Credit Hours**
Prerequisite: 6193 or permission of instructor. May be repeated with change of topic; maximum credit six hours. Seminar in latest developments in research and theory from one of the following general areas of accounting: auditing, taxation, positive theory, managerial accounting, or financial reporting. Specific topic is announced for each time of offering. (Irreg.)
- ACCT 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- ACCT 6990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Accounting, B.B.A.

Minimum Total Credit Hours: 120

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.50

Major GPA - Combined and OU: 2.50

Upper-Division Business Courses GPA - Combined and OU: 2.50

Program Code: B001

This program has changes pending Regents approval for 2024-25. These pending changes are not reflected here.

To enroll in upper-division business courses, students must be certified for degree candidacy and meet all prerequisites.

Major Requirements

Any 3000- or 4000-level ACCT course will count in the Accounting major grade point average unless otherwise specified, including additional hours taken to fulfill electives.

A maximum of six hours of transfer work will apply toward the major.

Code	Title	Credit Hours
ACCT 3113	Intermediate Accounting I (must earn a C in this course)	3
ACCT 3123	Intermediate Accounting II	3
ACCT 3313	Cost Accounting	3
ACCT 3603	Income Tax Accounting I	3
ACCT 3353	Accounting Information Systems/ Databases	3
ACCT 4543	Auditing	3
Total Credit Hours		18

ACCT 3023 and ACCT 3033 will not count towards the BBA or in the ACCT major GPA.

Required Courses

Code	Title	Credit Hours
Core Requirements		12
L S 3323	Legal Environment of Business	
MGT 3013	Principles of Organization and Management	
MKT 3013	Principles of Marketing and Supply Chain Management	
B AD 4013	Business Strategy and Policy (to be taken last semester of senior year) ¹	
Additional Requirements		8
B AD 2091	Career Readiness I-Transitioning to the Workplace	
B AD 3091	Career Readiness II-Advancing in the Workplace	
ENT 2113	Innovation & Entrepreneurship	
FIN 2303	Business Finance	
Total Credit Hours		20

¹ Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		6-16
ENGL 1113	Principles of English Composition (Core I)	
ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 Expository Writing	
Language (Core I) - Students who have completed two years of high school language are exempt from this general education requirement (0-10 hours).		
<i>Mathematics</i>		6
MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ¹	
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ¹	
Core Area II: Natural Science		7
Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)		
Core Area III: Social Science ²		
P SC 1113	American Federal Government (Core III)	3
Core Area IV: Arts and Humanities		12
HIST 1483	United States to 1865 (Core IV) or HIST 1493 United States, 1865 to the Present	
PHIL 1273	Introduction to Business Ethics (Core IV: Western Culture)	
Choose one course in each of the following fields (Core IV):		
Artistic Forms ³		
World Culture ³		
Core Area V: First-Year Experience		3
Choose one course		
Basic Business ⁴		22
ACCT 2113	Fundamental Financial Accounting ⁵	
ACCT 2123	Fundamental Managerial Accounting ⁵	
B AD 1001	Personal Computing Productivity Tools	
B C 2813	Strategic Communication for Business Professionals ⁵	
ECON 1113	Principles of Economics-Macro (Core III-SS) 2, 5	
ECON 1123	Principles of Economics-Micro (Core III-SS) 2, 5	
ECON 2843	Elements of Statistics (Core I-M) ⁵	
MIS 2113	Computer-Based Information Systems ⁵	
Total Credit Hours		59-69

¹ Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743

² Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement.

³ It is recommended students take either World Culture or Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course outside the major from the approved University-Wide General Education. It may also be satisfied in the upper-division or free elective categories.

⁴ College requirement: courses are part of the degree candidacy application process that students must complete to earn degree candidacy and begin upper-division business courses.

⁵ Minimum grade of C required.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU. Students must take a minimum of 24 hours of their upper-division business courses in residence for the Bachelor of Business Administration degree.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience and flight instruction courses will count toward the required hours.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

This major normally requires three semesters of study beyond the business core requirements.

Freshman

First Semester		Credit Hours
ECON 1113	Principles of Economics-Macro (Core III) ¹	3

³ May be free elective if artistic form, world culture or science is 3000- or 4000-level.

Accounting, Minor

Minimum Total Credit Hours: 15

Program Code: N001

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

Courses for the minor may not be taken Pass/No Pass.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- **Students must achieve a minimum 2.50 GPA (OU and overall) in the minor coursework.**

Required Courses

Code	Title	Credit Hours
Prerequisite		
ACCT 2123	Fundamental Managerial Accounting	3
Accounting Minor Courses		
ACCT 3113	Intermediate Accounting I	3
Choose 9 hours from the following:		9
ACCT 3123	Intermediate Accounting II	
ACCT 3313	Cost Accounting	
ACCT 3353	Accounting Information Systems/ Databases	
ACCT 3603	Income Tax Accounting I	
ACCT 4543	Auditing	
Total Credit Hours		15

If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Accounting, B.B.A./M.Acc.

Minimum Total Credit Hours: 150

Overall GPA - Combined and OU: 3.00

Major GPA - Combined and OU: 3.00

Upper-Division Businesses Courses GPA - Combined and OU: 3.00

Program Code: A001

To enroll in upper-division business courses, students must be certified for degree candidacy and meet all prerequisites.

A maximum of six hours of transfer work will apply toward the major.

Undergraduate Major Requirements

Code	Title	Credit Hours
ACCT 3113	Intermediate Accounting I (must earn a C in this course)	3
ACCT 3123	Intermediate Accounting II	3
ACCT 3313	Cost Accounting	3
ACCT 3603	Income Tax Accounting I	3
ACCT 3353	Accounting Information Systems/ Databases	3
ACCT 4543	Auditing	3
Total Credit Hours		18

Required Courses

MGT 3013	Principles of Organization and Management	
MKT 3013	Principles of Marketing and Supply Chain Management	
B AD 4013	Business Strategy and Policy ¹	
Upper-Division Business Requirements		6-11
FIN 3503		
FIN 3603	Advanced Corporate Finance	
Students may share up to 5 hours of additional graduate-level business electives with the graduate degree		
Additional Requirements		8
B AD 2091	Career Readiness I-Transitioning to the Workplace	
B AD 3091	Career Readiness II-Advancing in the Workplace	
ENT 2113	Innovation & Entrepreneurship	
FIN 2303	Business Finance	
Upper-Division Electives		11
Total Credit Hours		37-42

¹ Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.

Graduate Requirements

The Non-Thesis degree is a coursework-only degree; a Non-Thesis examination is not required.

Code	Title	Credit Hours
Accounting Electives		21
ACCT 5100	Accounting Professional Development	
ACCT 5113	Advanced Accounting	
ACCT 5703	Income Tax Accounting II (or other appropriate 5000- or 6000-level tax course as determined by Graduate Liaison)	
ACCT 6553	Accounting Theory and Research	
Choose 12 hours of any 5000- or 6000-level Accounting course ¹		
Graduate Courses²		
<i>Graduate Business Electives</i>		12
Choose 12 additional hours of graduate-level elective courses in ACCT, B AD, ECON, ENGB, ENT, FIN, L S, MGT, MIS, MKT, and SCM ³		
Total Credit Hours		33

¹ Except ACCT 5202 and ACCT 5212.

² Students may share up to 5 hours of the previously described graduate accounting or graduate business electives with the undergraduate degree, dependent upon the student's proposed career track or interest. We recommend MIT 5602 or L S 5523, but other appropriate courses may be applied as approved by the Graduate Liaison.

³ Maximum three hours ACCT coursework.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		6-16
ENGL 1113	Principles of English Composition (Core I)	
ENGL 1213	Principles of English Composition (Core I) or EXPO 121 Expository Writing	
Language (Core I) - Students who have completed two years of high school language are exempt from this general education requirement (0-10 hours).		
<i>Mathematics</i>		6
MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ¹	
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ¹	
Core Area II: Natural Science		7

Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)

Core Area III: Social Science²		
P SC 1113	American Federal Government (Core III)	3
Core Area IV: Arts and Humanities		12
HIST 1483	United States to 1865 (Core IV) or HIST 1493 United States, 1865 to the Present	
PHIL 1273	Introduction to Business Ethics (Core IV: Western Culture)	
Choose one course in each of the following fields (Core IV):		
Artistic Forms ³		
World Culture ³		
Core Area V: First-Year Experience		3
Choose one course		
Basic Business⁴		22
ACCT 2113	Fundamental Financial Accounting ⁵	
ACCT 2123	Fundamental Managerial Accounting ⁵	
B AD 1001	Personal Computing Productivity Tools

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 3.00

Major GPA - Combined and OU: 3.00

Upper-Division Businesses Courses GPA - Combined and OU: 3.00

Program Code: A002/F657 Q005

This program has changes pending Regents approval for 2024-25. These pending changes are not reflected here.

To enroll in upper-division business courses, students must be certified for degree candidacy and meet all prerequisites.

A maximum of six hours of transfer work will apply toward the major.

Undergraduate Major Requirements

Code	Title	Credit Hours
ACCT 3113	Intermediate Accounting I	3
ACCT 3123	Intermediate Accounting II	3
ACCT 3313	Cost Accounting	3
ACCT 3603	Income Tax Accounting I	3
ACCT 3353	Accounting Information Systems/ Databases	3
ACCT 4543	Auditing	3
Total Credit Hours		18

Required Courses

Code	Title	Credit Hours
Core Requirements		12
L S 3323	Legal Environment of Business	
MGT 3013	Principles of Organization and Management	
MKT 3013	Principles of Marketing and Supply Chain Management	
B AD 4013	Business Strategy and Policy ¹	
Additional Requirements		8
B AD 2091	Career Readiness I-Transitioning to the Workplace	
B AD 3091	Career Readiness II-Advancing in the Workplace	
ENT 2113	Innovation & Entrepreneurship	
FIN 2303	Business Finance	
Total Credit Hours		20

¹ Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.

Graduate Requirements

Up to 12 hours of graduate level MIT or MIS courses from a list maintained by the department and approved by the graduate liaison can be shared between BBA and MS-MIT programs.

Code	Title	Credit Hours
Required		2
MIT 5602	Management Information Systems	
MIT Electives		10-13
Choose 10 to 13 credit hours of graduate level MIT courses as necessary to reach 32 hours for the degree		

Graduate Electives		13
Choose 13 credit hours of graduate-level Business, MIT electives or other electives as approved by MIT Division		
Choose one of the following options:		0-3
Non-Thesis Option (coursework-only degree; exam is not required)		
MIT 5980	Research for Master's Thesis (Thesis Option; 3 credit hours)	
Choose 4 credit hours of additional required coursework from a list maintained by the department and approved by the Graduate Liaison		4
Total Credit Hours		32

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		6-16
ENGL 1113	Principles of English Composition (Core I)	
ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 Expository Writing	
Language (Core I) - Students who have completed two years of high school language are exempt from this general education requirement (0-10 hours).		
Mathematics		6
MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ¹	
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ¹	
Core Area II: Natural Science		7
Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)		
Core Area III: Social Science ²		
P SC 1113	American Federal Government (Core III)	3
Core Area IV: Arts and Humanities		12
HIST 1483	United States to 1865 (Core IV) or HIST 1493 United States, 1865 to the Present	
PHIL 1273	Introduction to Business Ethics (Core IV: Western Culture)	
Choose one course in each of the following fields (Core IV):		
Artistic Forms ³		
World Culture ³		
Core Area V: First-Year Experience		3
Choose one course		
Basic Business ⁴		22
ACCT 2113	Fundamental Financial Accounting ⁵	
ACCT 2123	Fundamental Managerial Accounting ⁵	
B AD 1001	Personal Computing Productivity Tools	

B C 2813	Strategic Communication for Business Professionals ⁵
ECON 1113	Principles of Economics-Macro (Core III-SS) 2, 5
ECON 1123	Principles of Economics-Micro (Core III-SS) 2, 5
ECON 2843	Elements of Statistics (Core I-M) ⁵
MIS 2113	Computer-Based Information Systems ⁵
Total Credit Hours	59-69

¹ Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743

² Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement.

³ It is recommended students take either World Culture or Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course outside the major from the approved University-Wide General Education. It may also be satisfied in the upper-division or free elective categories.

⁴ College requirement: courses are part of the degree candidacy application process that students must complete to earn degree candidacy and begin upper-division business courses.

⁵ Minimum C required. ACCT majors must earn a 2.5 GPA in ACCT 2113 & ACCT 2123.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

1. Pass/No Pass **will not** be accepted for any Business or General Education courses or any specifically required courses.
2. Students must complete the GMAT exam with a score of 500 or greater.
3. Comprehensive written exam required at end of program.
4. Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
5. A combined maximum of 8 hours of general military experience and flight instruction courses will count toward the required hours.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

During the 2nd semester, third year:

- Take GMAT
- Interview for internship
- Apply for admission to MIT program

² Maximum three hours of ACCT coursework.

The Non-Thesis degree is a coursework-only degree; a Non-Thesis examination is not required.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Tom Love Division of Entrepreneurship and Economic Development

Keith Brigham, Director
Michael F. Price Hall
1003 Asp Ave., Room 3050
(405) 325-1638
kbrigham@ou.edu
www.ou.edu/price/entecdev

General Information

OU's Entrepreneurship Program has consistently been ranked among the top entrepreneurship programs in the country by The Princeton Review and Entrepreneur Magazine.

The division's central mission is to help students connect to the world of opportunity. The program builds excellent thinking skills, solid content, hands-on innovation-based projects, leadership/communication skills, and interpersonal/team skills. Students experience entrepreneurship and learn by doing.

As a part of the Price College of Business, the Tom Love Division of Entrepreneurship and Economic Development continues to build an entrepreneurial ecosystem that includes experiential learning and enables the launching of successful ventures and successful careers.

Students are immersed in the entrepreneurial process through hands-on innovation curriculum and programs enabling them to learn how to build new ventures with the help of practicing entrepreneurs and leading entrepreneurship scholars. We empower students with the resources and opportunities they need to launch a successful business venture to economically impact Oklahoma and the world.

Programs & Facilities

Tom Love Center for Entrepreneurship

The Tom Love Center for Entrepreneurship enables students to discover entrepreneurship, develop specialized skills, test emerging business ideas and launch breakthrough ventures to transform our state, nation and world.

Tom Love Innovation Hub

The Tom Love Innovation Hub offers a variety of resources such as digital fabrication lab, code lab, visualization lab, legal clinic, and collaborative spaces and classrooms.

OU Startup Programs

OU Startup Programs is a collection of programs designed to foster and grow entrepreneurial development at the University of Oklahoma. Purposed with creating good companies and exceptional founders, OU Startup Programs supports entrepreneurs at critical stages of development. Our programs provide guidance and resources to carry entrepreneurs from ideation to testing to funding. Each Startup Program is adaptive to an entrepreneur's individual needs and remain a viable option for businesses at any size and at any stage. Our programs are

open to University of Oklahoma students and University affiliates (i.e., alumni, faculty and staff).

Ronnie K. Irani Center for the Creation of Economic Wealth (I-CCEW)

I-CCEW is an economic development organization at the University of Oklahoma specializing in technology commercialization, software business development, social entrepreneurship, and agile product design. This program offers learning experiences, collaborative spaces, high-impact programming, and entrepreneurial consulting to graduate and undergraduate students, young professionals, entrepreneurs, and community members in Norman, Tulsa and Oklahoma City. As a client or team member, all OU students can take advantage of these opportunities.

Undergraduate Study

Bachelor of Business Administration

Entrepreneurship and Venture Management, Bachelor of Business Administration (p. 908) immerses students in the entrepreneurial process through hands-on innovation programs. Students learn how to build new ventures with the help of practicing entrepreneurs and leading entrepreneurship scholars.

Accelerated Program

The Entrepreneurship & Venture Management, B.B.A./Management of Information and Technology, M.S. (p. 911) accelerated program is a great opportunity for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics.

Minors

An Entrepreneurship for Non-Business Majors Minor (p. 910) and an Entrepreneurship for Business Majors Minor (p. 910) are offered.

Graduate Study

Master of Science

In today's global economy, entrepreneurship and innovation have become essential drivers of economic growth, national competitiveness and societal progress. They create new opportunities, industries and jobs in fields ranging from energy to health care, and manufacturing to sustainability. As the world grapples with unprecedented challenges, the need for novel ideas and business models has become even more pressing. The Master of Science in Entrepreneurship and Innovation (p. 913) addresses these issues in a hybrid delivery mode that combines an in-residence week of project-focused learning and networking with online delivery of content and interaction.

Graduate Certificates

The Graduate Certificate in Business Entrepreneurship (p. 914) teaches students how to assess the feasibility of a new venture, chart a commercialization path for an innovation, analyze other people's plans, and plan for successful capitalization and launch.

Courses

ENT 2113 Innovation & Entrepreneurship 3 Credit Hours

Explore the basic concepts of innovation and entrepreneurship. The class will be a mix of lectures and discussions, presentations, experiential exercises and guest speakers. This course will not count towards the 9 hours of additional ENT coursework for ENT majors or the ENT elective for business majors pursuing the ENT minor. (F, Sp)

- ENT 3103 Entrepreneurial Methods 3 Credit Hours**
Prerequisite: ECON 1123, ENT 2113 or MGT 2013; Not available to Price College of Business majors; Required for non-business students who obtain a minor in entrepreneurship from the Price College of Business. Entrepreneurial Methods introduces non-business students to the practices associated with obtaining and managing the money and resources needed when launching a new venture. Students learn why understanding sources of income and funding, and the costs of doing business, is vital for entrepreneurial success. (F, Sp)
- ENT 3113 New Venture Development I 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College, Entrepreneurship majors and minors or permission; ACCT 2123 or concurrent enrollment. Focuses on developing a better understanding of the nature of entrepreneurial opportunities and how these opportunities relate to the external environment and to students' entrepreneurial careers. Topics in this course include understanding the opportunity environment, determining the feasibility of an opportunity, preparing for the launch, growth and harvesting of an entrepreneurial venture and planning for a career in entrepreneurship. (F, Sp)
- ENT 3123 Corporate Innovation 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; ENT 3113 and ENT 3513 or concurrent enrollment. In today's hypercompetitive environment, corporate innovation is essential. This course is about understanding how some firms are able to achieve and maintain an entrepreneurial spirit and superior performance. (F, Sp)
- ENT 3133 Entrepreneurial Resources 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment. A central facet of the entrepreneurial process is the attainment and management of key resources. The focus of this course is to offer a practical exploration of key resources available to entrepreneurs. Examples include angels and angel groups, venture capital, crowdfunding, accelerators/incubators, grant funding, among others. Students will learn about each resource, and why/when they might be utilized by entrepreneurs. (F, Sp)
- ENT 3193 Social Entrepreneurship 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College, ENT 3113, and ENT 3513 or concurrent enrollment. Introduction to social entrepreneurship in for-profit ventures, and practices to start and grow mission-driven ventures. Social ventures aim for a double or triple bottom line with meaningful social and/or environmental returns, and sustainable financial returns through their products, services or other business practices. (F, Sp)
- ENT 3203 Entrepreneurial Process 3 Credit Hours**
Prerequisite: student must be approved for degree candidacy by Price College. Course focuses on the early development of independent ventures as well as those within established organizations. Individual and organizational level issues will be addressed. Entrepreneurial thinking will explore the thought processes that challenge existing norms and pave the way for novel solutions to problems in any field. The venture life-cycle of opportunity, launch, growth, and harvest is highlighted. (Sp)
- ENT 3213 Entrepreneurial Leadership 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College. To lead ventures in new or established organizations, cultivating entrepreneurial leadership is essential. This requires leaders to expand their worldviews and continually learn to better lead themselves and others. Entrepreneurial leadership involves a mentality of coordinating resources by collaboratively turning problems into opportunities. Entrepreneurial leaders value character, relationships, curiosity, communication, action, and the processes by which impactful outcomes are achieved. (F, Sp)
- ENT 3423 International Entrepreneurship 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment. Designed to emerge the student in the European Union consumer experience. A practicum course that provides students with opportunities to apply concepts mastered in previous business courses. The class materials are two major assignments, three cases, and a book. Materials will also be supplemented with corporate visits that reinforce the concepts from the in-class materials. (Su)
- ENT 3433 Global Entrepreneurship 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College. To launch and lead new ventures outside the United States, entrepreneurs must develop a global perspective and exercise cross-cultural business and communication skills. In this course, students learn to assess and navigate global contexts for entrepreneurship. Students practice the entrepreneurship skills required to advance global ventures. Special attention is given to differing institutional settings and markets. (F, Sp)
- ENT 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- ENT 3513 Venture Capitalization I 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College, course is not open to Freshmen; ENT 3113, and FIN 2303 or FIN 3303 or concurrent enrollment in FIN 2303 or FIN 3303. Teaches students the functional tools to engage in the management of entrepreneurial capital in ventures from early stage to mature. (F, Sp)
- ENT 3603 New Venture Development II 3 Credit Hours**
Prerequisite: student must be approved for degree candidacy by Price College, ENT 3113, and ENT 3513 or concurrent enrollment. Teaches student to conduct elaborate research relevant to the starting of a new venture. Focus is on researching and assessing the market, industry and customer context of a potential venture. Course forms the foundation for writing a solid business plan. (F, Sp)
- ENT 3613 Launching the New Venture 3 Credit Hours**
Prerequisite: student must be approved for degree candidacy by Price College. This class covers issues an entrepreneur might face during the launch of their new venture or product. The case-based curriculum teaches the critical questions that must be addressed to turn products and ideas into sales and revenue. Issues to be covered are opportunity identification, manufacturing, pricing, market segmentation, advertising, promotions, public relations, branding, sales, negotiations, channels, franchising, competition and strategy. (F, Sp)

- ENT 3710 Topics in Entrepreneurship 1-3 Credit Hours**
1 to 3 hours. Prerequisite: student must be approved for degree candidacy in Price College of Business. May be repeated; maximum credit nine hours. Permits students to study topics in entrepreneurship not included in standard course offerings. Subject of course will vary. (F, Sp, Su)
- ENT 3880 Directed Reading 1-3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College, permission. Directed readings and problems under staff supervision for advanced students. A comprehensive report and/or examination is required. (Irreg.)
- ENT 3913 Entrepreneurial Growth Strategies 3 Credit Hours**
Prerequisite: student must be approved for degree candidacy by Price College, and MGT 3013 or concurrent enrollment. Focuses on growth processes and systems; attracting the right people; managing cash-flow; shareholder decision-making; financial and market-driven options for long-run competitiveness, organizational structures, and management team issues; strategic planning from a resource-based perspective; transition planning for the corporate entity, family dynamics and communication issues; and leadership empowerment. (F)
- ENT 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- ENT 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- ENT 3980 Honors Research 1-3 Credit Hours**
Prerequisite: Admission to Honors College, and 3113 or concurrent enrollment. May be repeated, maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (Irreg.)
- ENT 3990 Independent Study 1-3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College, all 3000-level business core courses, ENT 3113 or concurrent enrollment. Provides an opportunity for the student to work at a special project in the student's field. (F, Sp, Su)
- ENT 4503 Ronnie K. Irani Center for the Creation of Economic Wealth Internship 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College, ENT 3113 or concurrent enrollment; students must apply for and be accepted in the Fall for a Spring internship, or in the Spring for a Fall internship, and must have selected to receive credit for their internship; department/Instructor approval required. I-CCEW provides OU with an enhanced mechanism to offer practical experience to promote the entrepreneurial spirit and assist in developing Oklahoma's economy. The Ronnie K. Irani Center for the Creation of Economic Wealth operates alongside the University's Office of Technology Development which is the primary source of the center's intellectual property. Through internship programs, I-CCEW participants engage in entrepreneurial outreach. (F, Sp)
- ENT 4603 New Venture Development III 3 Credit Hours**
Prerequisite: Business majors must be approved for degree candidacy by Price College; ENT 3603 and ENT 3513 for both ENT majors and ENT minor for business majors; or ENT 3603 and ENT 3103 for ENT minor for non-business majors. Teaches students the critical skills and processes associated with the commercialization of innovative ventures. The commercialization process involves building the resources and financial requirements for successfully launching a new venture. Success in this course requires application of prior learning the New Venture Development I and II. (F, Sp)
- ENT 4710 Topics in Entrepreneurship 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Student must be approved for degree candidacy by Price College, ENT 3113 or concurrent enrollment. Topics in Entrepreneurship. May be repeated with change of topic; maximum credit six hours. (F, Sp, Su)
- ENT 4813 Entrepreneurial Law 3 Credit Hours**
Prerequisite: Students must be approved for degree candidacy by Price College, L S 3323. Designed to provide the would-be entrepreneur with a working knowledge of certain essential substantive areas of the law and the ability to work with and use lawyers effectively. The focus will be on the practical legal considerations in forming and sustaining an entrepreneurial enterprise, including entity organization, securities laws, employment benefits, operational liabilities, financing, mergers and acquisitions and intellectual property (Sp)
- ENT 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- ENT 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ENT 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- ENT 5102 Entrepreneurship & Innovation 2 Credit Hours**
Prerequisite: graduate standing and admitted to the MBA program or permission of instructor. Innovation & Entrepreneurship offers MBA candidates the opportunity to understand how starting your own business can alter your life's path. The course offers an overview of the concepts and tools of entrepreneurship involving 1) finding or creating opportunities 2) critical success factors in the creation of new ventures and 3) the significance of entrepreneurship for economic development. (Irreg.)
- ENT 5111 Social Entrepreneurship 1 Credit Hour**
Prerequisite: Graduate standing and departmental permission. The course will challenge students to look beyond traditional business practices by using entrepreneurial principles to create public good. The design of the course assumes that entrepreneurs are powerful agents of social and economic change who, if properly harnessed, can drive a sustainable economy and environment as well as improve the equity, health, and wellbeing of the population. (Irreg.)

- ENT 5112 Corporate Entrepreneurship 2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. Corporate Entrepreneurship is about understanding how and why some firms can maintain their entrepreneurial spirit, competitiveness, and growth, whereas others cannot. It is about creating work environments where innovation is the norm, where employees are encouraged to work entrepreneurially, where leadership is supportive (not controlling), and where firms are organized to take advantage of opportunities. (Irreg.)
- ENT 5121 Entrepreneurial Family Business 1 Credit Hour**
Prerequisite: Graduate standing and departmental permission. The course provides an overview of family businesses and the skills and knowledge needed to operate an entrepreneurial and sustainable family business. Topics include family business social and economic impact, strategy, performance, governance, succession, family business dynamics, and family business roles. (Irreg.)
- ENT 5122 Entrepreneurship for Science and Technology 2 Credit Hours**
(Crosslisted with ENGR 5122) Prerequisite: Graduate standing and departmental permission. This course will introduce entrepreneurship from the science and technology perspective. We will start with ideas, analyze them, and see how they could grow into a business. The course will cover areas such as innovation, prototyping, competition, customer discovery, business model canvas, networking, funding, and legal issues, including patents and intellectual property. (F, Sp)
- ENT 5131 Design Thinking for Entrepreneurship 1 Credit Hour**
Prerequisite: Graduate standing and departmental permission. This course introduces design thinking for budding business titans, policy makers, social innovators, and anyone else interested in learning an approach that can be applied to a variety of "wicked" problems, helping foster equity, and transforming product, services, and organizations. (Irreg.)
- ENT 5132 Global Entrepreneurship 2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. This course will explore the basic concepts of global entrepreneurship. The class will be a mix of lectures, cases studies, discussions, experiential exercises, and guest speakers. (Irreg.)
- ENT 5141 Entrepreneurial Law 1 Credit Hour**
Prerequisite: Graduate standing and departmental permission. This course will provide the entrepreneur with a working knowledge of certain essential substantive areas of the law and the ability to work with and use lawyers effectively. The focus will be on the practical legal considerations in forming and sustaining an entrepreneurial enterprise, including entity organization, securities law, operational liabilities, financing, mergers and acquisitions, and intellectual property law. (Irreg.)
- ENT 5142 Economics of Innovation 2 Credit Hours**
Prerequisite: Graduate Standing and Departmental Permission. This is a graduate-level course on economics of innovation. The ultimate learning objective of this course is to improve students' analytical skills and critical thinking in topics that relate to the key determinants of innovative activities in modern economies and the implications of innovation for growth and development. (Irreg.)
- ENT 5151 Entrepreneurial Resources 1 Credit Hour**
Prerequisite: Graduate standing and departmental permission. A central facet of the entrepreneurial process is the attainment and management of key resources. The focus of this course is to offer a practical exploration of key resources available to entrepreneurs. Examples include angels and angel groups, venture capital, crowdfunding, accelerators/incubators, and grant funding, among others. (Sp)
- ENT 5152 Entrepreneurship Law 2 Credit Hours**
Prerequisite: Graduate Standing and Departmental Permission. This course will provide the entrepreneur with a working knowledge of essential substantive areas of the law and the ability to work with lawyers effectively. The focus will be on the practical legal considerations in forming and sustaining an entrepreneurial enterprise, including entity organization; sources of funding; securities laws; employment benefits; operational liabilities; financing; mergers and acquisitions; and intellectual property. (Irreg.)
- ENT 5161 Sustainable Entrepreneurship 1 Credit Hour**
Prerequisite: Graduate Standing and Departmental Permission. Sustainable entrepreneurship uses the tools of entrepreneurship to address environmental challenges in for-profit and nonprofit contexts. The course will cover concepts such as systems thinking, life cycle assessments, and climate change as sources of opportunities for entrepreneurs. Understanding the underlying principles allows for improving the environment while maintaining financial viability. (Irreg.)
- ENT 5162 Product Design & Development 2 Credit Hours**
Prerequisite: Graduate Standing and Departmental Permission. The focus of Product Design and Development is integration of the marketing, design, and manufacturing functions of the firm in creating a new product. It is expected that each student will prepare for and attend all of the class sessions and enhance class discussions. Participation in a team project is central to this course. (Irreg.)
- ENT 5172 Innovation & Change 2 Credit Hours**
Prerequisite: Graduate Standing and Departmental Permission. The primary purpose of the course is developing an understanding of innovation and change management skills and processes (by focusing on the interrelated concepts of Innovation, Change, & New Value Creation) and applying this knowledge to fostering the creation of new value. Students will also be exposed to real world entrepreneurial ecosystems which are designed to enable innovation and entrepreneurship. (Irreg.)
- ENT 5182 Strategic New Venture Development 2 Credit Hours**
Prerequisite: Graduate Standing and Departmental Permission. This class provides hands-on learning on what it's like to start a company. Our goal is to create an entrepreneurial experience for you with all the pressures and demands of the real world in an early-stage startup. The class is designed to provide the experience of how to work as a team and turn an idea into a company. (Irreg.)
- ENT 5902 Entrepreneurial Leadership 2 Credit Hours**
Prerequisite: Graduate standing and MGT 5702. To lead ventures in new or established organizations, cultivating entrepreneurial leadership is essential. This requires leaders to expand their worldviews and continually learn to better lead themselves and others. Entrepreneurial leadership involves a mentality of coordinating resources by collaboratively turning problems into opportunities. Entrepreneurial leaders value character, relationships, curiosity, communication, action, and the processes by which impactful outcomes are achieved. (Irreg.)
- ENT 5912 Capitalizing the New Venture 2 Credit Hours**
Prerequisite: graduate standing in Business. This course will cover various aspects of financing entrepreneurial ventures. Topics will include methods of financing, financials, techniques for valuing new businesses and financial structure. Funding sources examined will include commercial banks, small business investment companies SBIC, Business Angels, IPO, Series A & B & C financing, acquisitions, LBO, and venture capital companies. These processes are often referred to as sourcing, diligence and valuation. Concepts are illustrated through Harvard Business School, Babson College, and Stanford Cases, supplemented by notes and readings. (Irreg.)

ENT 5934 Strategic Venture Development 4 Credit Hours

Prerequisite: graduate standing in Price College of Business. Entrepreneurship is about the identification and enactment of entrepreneurial opportunities. This class is about evaluation of technology and commercialization, opportunity feasibility analysis, initial industry and market analysis, designing and writing a quality business plan, full industry and market analysis, development of sales and distribution structures, resources and financial capital requirements, selling a venture concept to potential investors, oral presentation skills, and compete in business plan competitions. (Irreg.)

ENT 5942 Launching the New Venture 2 Credit Hours

Prerequisite: graduate standing in Business. This class deals with the issues entrepreneurs might face during the launch phase of their new venture and/or new product. The case-based curriculum teaches students the critical questions that must be answered in order to turn products and ideas into sales and revenue. Issues to be covered are opportunity identification, manufacturing, pricing, market segmentation, advertising, promotions, public relations, branding, sales, negotiations, channels, service, franchising, competition, and strategy. (Irreg.)

ENT 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

ENT 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ENT 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

ENT 5992 Entrepreneurial Growth Strategies 2 Credit Hours

Prerequisites: graduate standing, majors only. Focuses on growth processes and systems, attracting the right people, managing cash-flow, shareholder decision-making; financial and market-driven options for long-run competitiveness, organizational structures, and management team issues; strategic planning from a resource-based perspective; transition planning for the corporate entity, family dynamics and communication issues; and leadership empowerment. (F)

ENT 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit six hours. Directed readings and /or literature reviews under the direction of a faculty member. (F, Sp, Su)

ENT 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

ENT 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

Entrepreneurship and Venture Management, B.B.A.

Minimum Total Credit Hours: 120

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.50

Major GPA - Combined and OU: 2.50

Upper-Division Business Courses GPA - Combined and OU: 2.50

Program Code: B380

This program has changes pending Regents approval for 2024-25. These pending changes are not reflected here.

To enroll in upper-division business courses, students must be certified for degree candidacy and meet all prerequisites.

A maximum of six hours of transfer work will apply toward the major.

Major Requirements

Any 3000- or 4000-level ENT course will count in the Entrepreneurship and Venture Management major grade point average unless otherwise specified, including additional hours taken to fulfill electives.

Code	Title	Credit Hours
B AD 3013	Integrated Business Core Practicum ¹	3
ENT 3113	New Venture Development I	3
ENT 3513	Venture Capitalization I	3
ENT 3603	New Venture Development II	3
ENT 4603	New Venture Development III	3
Total Credit Hours		15

¹ B AD 3013 is preferred; any 3000/4000 level ENT course not used in the major or as a required ENT course may be substituted.

Required Courses

Code	Title	Credit Hours
Core Requirements ¹		12
L S 3323	Legal Environment of Business	
MGT 3013	Principles of Organization and Management	
MKT 3013	Principles of Marketing and Supply Chain Management	
B AD 4013	Business Strategy and Policy (Capstone) (to be taken last semester of senior year) ²	
Additional Requirements		8
B AD 2091	Career Readiness I-Transitioning to the Workplace	
B AD 3091	Career Readiness II-Advancing in the Workplace	
ENT 2113	Innovation & Entrepreneurship	
FIN 2303	Business Finance	
Required ENT Courses		9
Choose three 3000/4000 level courses from any ENT course not used in the major or 3000/4000 level courses as approved by the ENT Division		
Total Credit Hours		29

¹ *The Integrated Business Core is strongly recommended.*

² Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		6-16
ENGL 1113	Principles of English Composition (Core I)	
ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 Expository Writing	
Language (Core I) - Students who have completed two years of high school language are exempt from this general education requirement (0-10 hours)		
<i>Mathematics</i>		6
MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ¹	
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ¹	
Core Area II: Natural Science		7
Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)		
Core Area III: Social Science ²		

P SC 1113 American Federal Government (Core III) 3

Core Area IV: Arts and Humanities 12

HIST 1483 United States to 1865 (Core IV)
or HIST 1493 United States, 1865 to the Present

PHIL 1273 Introduction to Business Ethics (Core IV:
Western Culture)

Choose one course in each of the following fields (Core IV):

Artistic Forms³

World Culture³

Core Area V: First-Year Experience 3

Choose one course

Basic Business⁴ 22

ACCT 2113 Fundamental Financial Accounting⁵

ACCT 2123 Fundamental Managerial Accounting

B AD 1001 Personal Computing Productivity Tools

B C 2813 Strategic Communication for Business
Professionals⁵

ECON 1113 Principles of Economics-Macro (Core III-SS)
2, 5

ECON 1123 Principles of Economics-Micro (Core III-SS)
2, 5

ECON 2843 Elements of Statistics (Core I-M)⁵

MIS 2113 Computer-Based Information Systems⁵

Total Credit Hours 59-69

¹ Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743

² Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement.

³ It is recommended students take either World Culture or Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course outside the major from the approved University-Wide General Education. It may also be satisfied in the upper-division or free elective categories.

⁴ College requirement: courses are part of the degree candidacy application process that students must complete to earn degree candidacy and begin upper-division business courses.

⁵ Minimum grade of C required.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU. Students must take a minimum of 24 hours of their upper-division business courses in residence for the Bachelor of Business Administration degree.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.

3. Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.

4. A combined maximum of 8 hours of general military experience and flight instruction courses will count toward the required hours.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or language is required. Please see an academic counselor to develop a plan of study.

This major normally requires three semesters of study beyond the business core requirements.

During the second semester, sophomore year:

- Apply for degree candidacy
- Recommended semester to study abroad

Entrepreneurship for Business Majors, Minor

Minimum Total Credit Hours: 15

Overall GPA - Combined and OU: 2.50

Program Code: N379

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

Courses for the minor may not be taken Pass/No Pass.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Entrepreneurship for Non-Business Majors, Minor

Minimum Total Credit Hours: 18

Program Code: N381

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students accepted in the minor will be given permission to enroll in the upper-division credit hours of the minor.

All upper division courses must be completed at OU.

Courses for the minor may not be taken Pass/No Pass.

Minimum OU and Combined GPA of 2.50 in all specifically required business and all specifically required upper division business courses. Lower division courses must be taken before upper-division courses.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major outside Price College of Business.
- Students must achieve a minimum 2.50 GPA (OU and overall) in the minor coursework.**

Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)		
Core Area III: Social Science ²		
P SC 1113	American Federal Government (Core III)	3
Core Area IV: Arts and Humanities		12
HIST 1483	United States to 1865 (Core IV) or HIST 1493 United States, 1865 to the Present	
PHIL 1273	Introduction to Business Ethics (Core IV: Western Culture)	
Choose one course in each of the following fields (Core IV):		
Artistic Forms ³		
World Culture ³		
Core Area V: First-Year Experience		3
Choose one course		
Basic Business ⁴		22
ACCT 2113	Fundamental Financial Accounting ⁵	
ACCT 2123	Fundamental Managerial Accounting	

B AD 1001	Personal Computing Productivity Tools
B C 2813	Strategic Communication for Business Professionals ⁵
ECON 1113	Principles of Economics-Macro (Core III-SS) ^{2, 5}
ECON 1123	Principles of Economics-Micro (Core III-SS) ^{2, 5}
ECON 2843	Elements of Statistics (Core I-M) ⁵
MIS 2113	Computer-Based Information Systems ⁵
Total Credit Hours	59-69

¹ Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743

² Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement.

³ It is recommended students take either World Culture or Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course outside the major from the approved University-Wide General Education. It may also be satisfied in the upper-division or free elective categories.

⁴ College requirement: courses are part of the degree candidacy application process that students must complete to earn degree candidacy and begin upper-division business courses.

⁵ Minimum grade of C required.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. B AD 2110, B AD 2113, MKT 2013 and MGT 2013 will not count for credit toward a BBA.

Additional Requirements

1. Pass/No Pass **will not** be accepted for any Business or General Education courses or any specifically required courses.
2. Students must complete the GMAT exam with a score of 500 or greater.
3. Comprehensive written exam required at end of program.
4. Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
5. A combined maximum of 8 hours of general military experience and flight instruction courses will count toward the required hours.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or foreign language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

During the 2nd semester, third year:

- Take GMAT
- Interview for internship
- Apply for admission to Master's program

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Business Entrepreneurship, Graduate Certificate

Minimum Total Hours: 12

Program Code: G023

The Business Entrepreneurship Certificate program teaches students the theory and principles of entrepreneurship for the development of business opportunity projects, how to commercialize technologies from their respective fields of study, encourages interdisciplinary graduate teams exploring cutting edge innovations from our university laboratories, provides the tools to evaluate their economic feasibility, encourages interdisciplinary graduate teams to build business plans for the commercialization of innovative solutions for opportunities in today's global marketplace, and enhances career opportunities through involvement with entrepreneurial opportunities and business development. A total of 12 hours is required for the certificate.

Certificate Requirements

Code	Title	Credit Hours
ENT 5102	Entrepreneurship & Innovation	2
ENT 5934	Strategic Venture Development	4
Choose 4 hours of guided electives (p. 914)		4
Choose 2 hours general electives (p. 914)		2
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

307 W. Brooks
Norman OK 73019
(405) 325-5591
finance@ou.edu
www.ou.edu/price/finance

General Information

The Division of Finance offers required and elective courses in corporate finance, investments, financial modeling, risk management, banking, real estate and financial planning that enable students to major and minor in finance while specializing in various finance career tracks. The division also offers an online Master of Science in Finance program and a PhD in Finance program. Additionally, the division supports the Price MBA program, including by offering a concentration in Finance. Despite enrolling more than 1000 undergraduate majors and 150 MSF and PhD graduate students, the Finance Division strives to provide students an individualized cutting-edge learning experience deploying a highly trained and experienced faculty team that is dedicated to achieving excellence in teaching and student experiences.

The Division of Finance recently ranked 56th in North America based on the per capita research productivity of its faculty. Finance Division faculty have served as editors of major journals, served as conference chairs, and received recognition through major research excellence awards. Finance faculty have received research grants in excess of \$2 million from the U.S. National Science Foundation, U.S. Department of Energy, and other federal agencies and private foundations. The Finance Division is especially well known for the biennial Oklahoma Energy and Climate Finance Research Conference that it hosts on the OU campus in partnership with the *Review of Financial Studies*. The Finance Division faculty routinely serve as consultants to international, federal, and state agencies, and private companies, including as litigation experts.

Programs & Facilities

Center for Financial Studies

The mission of the Center for Financial Studies is to foster and support finance research and scholarship at the University of Oklahoma and to facilitate interaction between students, faculty and the external business and academic community, including by supporting PhD students, procuring data, sponsoring a seminar speaker series that brings leading finance scholars from other universities to present their research at OU and supporting the biennial Energy and Climate Finance Research Conference that the Finance Division hosts in partnership with the *Review of Financial Studies*, one of the top-3 finance journals.

Finance Seminar Series

The Finance Seminar Series features faculty presentations by faculty visitors from other universities as well as University of Oklahoma faculty, and OU PhD student presentations.

Student Investment Fund

The Student Investment Fund is a stock fund for which Mr. Michael Price provided the seed money in 1996 and which has since then been successfully managed by students.

Finance Student Association

The Finance Student Association and the various clubs associated with the FSA are important venues connecting students to employers, faculty, and fellow students.

Undergraduate Study

Bachelor of Business Administration

The Finance, Bachelor of Business Administration (p. 923) program is designed to train students to succeed in multiple career tracks, including corporate finance, investment management, commercial banking, investment banking, trading, financial analysis, corporate finance, risk management, financial planning, real estate, and more.

Accelerated Programs

The Bachelor of Business Administration/Master of Science (p. 925) in Finance accelerated program is an excellent opportunity to combine the BBA with a master's degree in Finance which will provide students a significant competitive advantage when they search for finance jobs. Students may also choose to pursue a Ph.D. in Finance.

The Finance, B.B.A./Management of Information and Technology, M.S. (p. 928) program provides an opportunity for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics.

Minor

The Finance Division also offers a Minor in Finance for Business Majors (p. 925).

Graduate Study

Master of Science

The Master of Science (p. 931) in Finance provides a unique and high-level educational experience focused on fundamental and advanced topics in the field of modern finance. The curriculum is designed around state-of-the-art thinking and best practices and is taught by scholars who are both high-quality instructors and at the forefront of modern finance research. The curriculum is a build-up structure in which fundamental building blocks are followed by in-depth advanced topical courses which integrate and build upon the courses already completed.

Graduate Certificates

The Graduate Certificate in The Business of Energy (p. 932) provides students with a rigorous curriculum in energy finance that includes a broad overview of the energy sector, along with in-depth examinations of the regulatory, accounting, and tax issues in energy. The curriculum provides preparation for placement in the business and finance side of the energy industry. Courses also provide students with a comprehensive review of energy company decision making as it pertains to the analysis of financing and the valuation of energy projects as well as company-level risk management. In addition, the curriculum focuses on the market for energy assets and commodities, the trading of such assets, asset pricing, and the role of financial derivative contracts and hedging strategies.

The Graduate Certificate in Finance (p. 932) provides students with rigorous analysis, hands-on practice, and intense discussions to prepare

them for and provide the concepts, approaches, and experience to manage portfolios, advise clients, analyze investments, or contribute to a corporate finance practice in industry or banking. Learn how to value financial securities, price and manage assets, manage risk, and model finances. Gain perspective on financing and financial decision making, reporting, and analysis.

Courses

ENGB 5131 Energy Upstream/Downstream 1 Credit Hour

Prerequisite: open to MBA students only. Students will gain an understanding of the operations and economics of the upstream sector in most of its aspects: reserves, players, investments, costs, benchmarking, etc. Understand the operations and the main economic characteristics of the refining and distribution. (F)

ENGB 5142 Introduction to Energy 2 Credit Hours

Prerequisite: Graduate standing in Price College of Business and departmental permission. Experiential learning course including video overview of oil and gas business. Site visits will include some or all of the following: drilling rig, oil and gas production and midstream facilities, power generation plant, and OU Well Construction Technology Center. Valuation project requires students to contact investor relations department and complete strategic analysis with financial model to analyze an energy company. (Irreg.)

ENGB 5152 Energy Accounting and Regulations 2 Credit Hours

Prerequisite: Graduate standing in Price College of Business, ENGB 5142, and departmental permission. This course provides an overview of federal and state regulatory law in the US affecting natural gas and oil producers and developers, interstate and intrastate pipelines, gas and power marketing companies, and power generating and transmission companies. The major accounting and tax issues affecting the energy industry are also covered. (Irreg.)

ENGB 5162 Energy Corporate Finance 2 Credit Hours

Prerequisite: graduate standing in Price College of Business, FIN 5312; FIN 5322; and ENGB 5142. Provides students specialized knowledge of the corporate finance of firms in the energy sector. Provides an integrated perspective on assessing and financing energy projects, corporate risk management in the energy industry, and issues pertaining to mergers, acquisitions and restructuring in energy firms. While the course will be rigorous and solidly grounded in theoretical concepts, it will provide a thoroughly applied perspective on topics covered by the use of case studies and other hands-on learning opportunities. (Sp)

ENGB 5172 Energy Assets and Commodities: Financial Instruments, Pricing and Trading 2 Credit Hours

Prerequisite: Graduate standing in Price College of Business; FIN 5322; and ENGB 5142. Provides a comprehensive and in-depth review of the market for energy assets and commodities: including trading platforms, pricing issues, forecasting, role and linkage with associated futures, forwards and options contracts, study of "basis" and spreads, and hedging strategies. The course will be anchored solidly within a theoretical conceptual framework and be supported with relevant case studies. (F)

ENGB 5182 Enterprise Valuation, Mergers and Acquisitions, and Corporate Restructuring 2 Credit Hours

Prerequisite: MBA majors only; ENGB 5162. Covers divestitures and the entire Mergers and Acquisitions continuum from valuation, through post-merger integration for energy companies. Provides tools, templates, and proven techniques managers need to efficiently combine different processes and organizations, and cultures. The course presents and examines the latest case studies and research findings in the energy industry. (F)

ENGB 5490 Readings in Energy for Business 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission. May be repeated; maximum credit six hours. Preparation and submission of a research report on an assigned comprehensive topic relating to a topic in energy not offered in the current curriculum. (F, Sp, Su)

ENGB 5970 Special Topics/ Seminar in Energy for Business 1-3 Credit Hours

Prerequisite: graduate standing, permission of instructor. May be repeated with change of topic; maximum credit six hours. Seminar in latest developments in research and theory from the energy field. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (F, Sp, Su)

FIN 2303 Business Finance 3 Credit Hours

Prerequisite: ACCT 2113 and declared business major. The goal of this course is to provide students with a working knowledge of fundamental concepts in financial management and the ability to apply these concepts to real-world problems. In particular, the student should learn the following subjects: time value of money, interest rates, risk and return, stock and bond valuation, cash flow analysis, and capital budgeting. (F, Sp, Su)

FIN 2970 Special Topics/Seminar 1-3 Credit Hours

Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

FIN 3013 Principles of Real Estate 3 Credit Hours

Prerequisite: Student must be approved for degree candidacy by Price College; Acct 2123 or concurrent enrollment, FIN 2303, and MATH 1743 or MATH 1823 or MATH 1914. An introductory course designed to cover the legal, financial, economic and marketing concepts related to real estate. Topics include property rights (contracts, deeds, mortgages, leases, liens); property ownership (titles, closing of settlement, insurance, taxes); financing (interest rates and mortgage types); brokerage; and property evaluation. This course serves as an introduction to the field of real estate. (F, Sp)

FIN 3203 Principles of Insurance 3 Credit Hours

Prerequisite: student must be approved for degree candidacy by Price College. The course is built to introduce students to how individuals and organizations assess and manage risk with special focus on insurance. No previous knowledge of risk management is required. The course will cover principles of risk management, insurance companies and markets, underwriting and pricing, industry structure and regulation. (F, Sp)

- FIN 3213 Estate Planning** **3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; Acct 2123, FIN 2303, and MATH 1743 or MATH 1823 or MATH 1914. The course will provide students with the fundamentals of the general estate process in the United States. Furthermore, the class will explore the limitations of the financial planner in the estate process. The course will prepare students for estate planning topics that may be tested on the CFP exam. (Irreg.)
- FIN 3223 Retirement Planning** **3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123, FIN 2303, and MATH 1743 or MATH 1823 or MATH 1914. The course will teach the fundamentals of the general retirement process in the U.S. The class will discuss legal and financial topics involving both private and public sources of retirement income. Retirement needs and the advantages and disadvantages of various retirement plans will be explored. The course will prepare students for retirement planning topics on the CFP exam. (Irreg.)
- FIN 3403 Financial Intermediaries and Markets** **3 Credit Hours**
Prerequisite: Economics 1113 and 1123. Investigates the determination of the level of domestic rates of interest and their implications for international currency markets. Describes the important financial institutions in U.S. financial markets. Details the structure of interest rates. Analyzes the behavior of fixed income prices. Discusses techniques of domestic and international institutions to immunize portfolios. (F, Sp, Su)
- FIN 3440 Mentored Research Experience** **3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- FIN 3453 Financial Modeling and Analysis in Excel** **3 Credit Hours**
Prerequisite: Finance and Risk Management majors only; Price College degree candidacy; FIN 2303 or FIN 3303. The application of quantitative financial concepts through extensive use of Excel. Students will become proficient in the use of Excel, will have a working knowledge of quantitative concepts used in financial modeling, and will be able to apply these skills in building and solving financial models. (F, Sp)
- FIN 3603 Advanced Corporate Finance** **3 Credit Hours**
Prerequisite: student must be approved for degree candidacy by Price College; junior standing; FIN 2303 or FIN 3303. Development of theory and applications of financial management of the firm with both domestic and international investment decisions, structure and cost of capital, working capital management, dividend policy, long term financial planning and forecasting. The course emphasizes the development of problem solving skills and the use of computerized financial modeling. (F, Sp)
- FIN 3710 Topics in Finance** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: student must be approved for degree candidacy in Price College of Business. May be repeated; maximum credit nine hours. Permits students to study topics in finance not included in standard course offerings. Subject of course will vary. (F, Sp, Su)
- FIN 3960 Honors Reading** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program and approval for Degree Candidacy by Price College. May be repeated; maximum credit three hours. Provides an opportunity for the gifted Honors candidate to study materials not usually presented in regular courses. (F, Sp, Su)
- FIN 3970 Honors Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- FIN 3980 Honors Research** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program; junior standing. May be repeated; maximum credit six hours. Independent research on special projects. (F, Sp, Su)
- FIN 3990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- FIN 4013 Real Estate Finance** **3 Credit Hours**
Prerequisite: Degree Candidacy and completed FIN 2303. The student should learn the following subjects: legal principles related to property, legal principles related to mortgages, time value of money as applied specifically to real estate finance, interest rates and their impact on real estate, risk and return, underwriting principles, and the institutional framework surrounding primary and secondary mortgage markets. (F, Sp)
- FIN 4103 Investments** **3 Credit Hours**
(Slashlisted with FIN 5103) Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment, FIN 2303, and FIN 3453 or concurrent enrollment. Topics covered include the structure and operation of securities markets, introduction to portfolio management and capital market theory, the valuation of common stocks and fundamental analysis, determinants of option prices, the determinants of future prices, portfolio performance measurement and risk management, international portfolio management and international investing. Computer exercises are required. No student may earn credit for both 4103 and 5103. (F, Sp, Su)
- FIN 4113 Derivative Securities and Markets** **3 Credit Hours**
(Slashlisted with 5113) Prerequisite: FIN 2303 or FIN 3303, student must be approved for degree candidacy by Price College. Uses of futures, option, and swap contracts in investments, banking, business finance, and foreign trade. Topics include valuation, trading mechanics and strategies, and applications. Hedging foreign currencies is included. The course is math and computer intensive. No student may earn credit for both 4113 and 5113. (F, Sp)
- FIN 4133 International Financial Management** **3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; FIN 2303 or FIN 3303. Provides the student with the analytical tools needed to evaluate and provide solutions for problems that are commonly encountered in international financial management. Emphasizes basic theoretical models of exchange rate determination and hedging exchange rate risk, international financial transactions, the link between a nation's macroeconomic accounts and its balance of payments accounts, privatization of state-owned enterprises, and international banking. (Irreg.)

- FIN 4143 Retirement Planning** **3 Credit Hours**
Prerequisite: Majors only; FIN 2303; MATH 1743, MATH 1823, or MATH 1914; ACCT 2123 or concurrent enrollment; Student must be approved for degree candidacy by Price College. The course will provide students with the fundamentals of the general retirement process in the United States and will discuss legal and financial topics involving both private and public sources of retirement income. Retirement needs and the advantages and disadvantages of various retirement plans will be explored. CFP exam topics that may be tested on (Retirement Planning) will be covered. (Sp)
- FIN 4153 Estate Planning** **3 Credit Hours**
Prerequisite: Majors only; FIN 2303; MATH 1743, MATH 1823, or MATH 1914; ACCT 2123 or concurrent enrollment; Student must be approved for degree candidacy by Price College. The course will provide students with the fundamentals of the general estate process in the United States. The class will discuss the various financial implications associated with death, including the pre-planning for the disposition of assets. Furthermore, the class will explore the limitations of the financial planner in the estate process and estate planning topics on the CFP exam. (Sp)
- FIN 4213 Real Estate Investments** **3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123, FIN 2303, FIN 4013, and MATH 1743 or MATH 1823 or MATH 1914. The class will introduce students to real estate investments and the evaluation of real estate investment opportunities. The class will cover the fundamentals of real estate cash flows, the analysis of various lease terms on those cash flows, the integration of real estate financing into the investment decision, and the evaluation of factors influencing the real estate investment decision. (Irreg.)
- FIN 4223 Real Estate Modeling and Analysis** **3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; FIN 2303, FIN 4013, FIN 4213 or concurrent enrollment; ACCT 2123, AND MATH 1743 or MATH 1823 or MATH 1914. The class will provide students practical experience in real estate valuations using Excel and the ARGUS Enterprise ("AE") real estate valuation and asset management software. Students will apply concepts from pre- and co-requisite real estate courses to build cases and evaluate investments in new and existing retail, office, and residential real estate. (F, Sp)
- FIN 4303 Advanced Corporate Finance** **3 Credit Hours**
(Slashlisted with FIN 5303) Prerequisite: Student must be approved for degree candidacy by Price College; FIN 2303 or FIN 3303; ACCT 2123 or concurrent enrollment. Development of theory and applications of financial management of the firm with both domestic and international investment decisions, structure and cost of capital, working capital management, dividend policy, long term financial planning and forecasting. The course emphasizes the development of problem solving skills and the use of computerized financial modeling. No student may earn credit for both 4303 and 5303. (Irreg.)
- FIN 4403 Advanced Topics in Investments** **3 Credit Hours**
Prerequisite: FIN 2303 or FIN 3303, FIN 3503; student must be approved for degree candidacy by Price College. An advanced course providing in-depth analysis of portfolio management and strategic asset allocation; fund performance measurement; coverage of alternative investments (such as real estate, private equity and venture capital); analyzes activities of hedge funds, closely-held companies and inactively traded securities; discusses investing in financially distressed firms; and covers investing in commodities. (F, Sp)
- FIN 4413 Commercial Banking** **3 Credit Hours**
Prerequisite: FIN 2303, FIN 3403, and student must be approved for degree candidacy by Price College. Financial management of the banking firm, including analysis of bank financial performance, bond portfolio analysis, interest rate risk management, capital management, cost of funds, and loan administration. Regulation of the banking system is discussed as is competition from foreign banks. A computerized bank simulation game is used, and international aspects of financial markets are discussed. (F, Sp)
- FIN 4423 Mergers & Acquisitions** **3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123, FIN 2303, FIN 3453, and MATH 1743 or MATH 1823 or MATH 1914. The objective of the course is to develop an understanding of mergers and acquisitions (M&A), as well as other corporate restructuring transactions, from the perspective of the corporate executive. Discussing major elements of the acquisition process including the legal environment surrounding an acquisition, the valuation of the firms involved, financing decisions, transaction structures, restructuring options, takeover defenses, and post-acquisition integration. (F, Sp)
- FIN 4433 Financial Technology and Applications** **3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; FIN 2303, FIN 3503, and ACCT 2123. Introduction to financial technologies (FinTech) and how these technologies have disrupted traditional financial markets and institutions. Topics covered include the structure and functionality of blockchain technology and applications, cryptocurrencies, decentralized finance (DeFi) on blockchains, innovative credit-scoring and lending technologies, the evolution of crowdfunding and online banking, and the impact of FinTech on investing and investment advising. (F, Sp)
- FIN 4443 Sustainable Finance** **3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; FIN 2303 or FIN 3303; ACCT 2123 or concurrent enrollment. This course aims to provide students with a fundamental grasp of key financial market issues concerning ESG, responsible business, and climate change. The course employs a blend of lectures, group presentations, and case studies. The curriculum is divided into two parts: Part 1 focuses on ESG, while Part 2 delves into climate change. (F, Sp)
- FIN 4453 Corporate Financial Planning & Analysis** **3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; FIN 2303 or FIN 3303; FIN 3453; ACCT 2123 or concurrent enrollment. The course will provide students with skills & knowledge necessary to be successful in a corporate FP&A role and/or be successful in executing the FP&A related functions/duties that are commonly required in corporate finance roles. Students will learn how to use financial data to assess a company's financial health, develop financial plans & budgets, track performance, and make informed decisions. (F, Sp)
- FIN 4513 Financial Risk Management** **3 Credit Hours**
Prerequisite: FIN 2303 or FIN 3303, FIN 3503; Student must be approved for degree candidacy by Price College. Emphasizes financial and commodity derivative securities and their use as risk management tools. Emphasis on the commodity side is given to energy related products. A financial market simulator will be used to develop students' trading and valuation skills. (Sp)

- FIN 4543 Financial Trading Strategies** **3 Credit Hours**
Prerequisite: FIN 2303 or FIN 3303, FIN 3503; student must be approved for degree candidacy by Price College. Focus is on practical application of theoretical models of pricing and valuation in finance. In addition to learning about trading in general (market structure, trading mechanics, and trading environment and regulation), students will also learn to trade based on their knowledge of various topics: asset allocation, equity valuation, mergers and acquisitions, fixed income valuation and risk, and derivative securities. (F, Sp)
- FIN 4613 Student Investment Fund** **3 Credit Hours**
(Slashlisted with 5613) Prerequisite: FIN 2303 or FIN 3303; FIN 3503; Departmental Permission; student must be approved for degree candidacy by Price College. The management of a real dollar portfolio of common stocks using the value style approach. Emphasis is on the application of fundamental analysis. Frequent class presentations are required. No student may earn credit for both 4613 and 5613. (F, Sp)
- FIN 4703 Internship in Finance** **3 Credit Hours**
Prerequisite: FIN 2303 or FIN 3303; departmental permission; student must be approved for degree candidacy by Price College. Academic projects in the business world applied to practical on-the-job situations. (F, Su)
- FIN 4713 Fixed Income Securities and Markets** **3 Credit Hours**
Prerequisite: FIN 2303 or FIN 3303, FIN 3503; student must be approved for degree candidacy by Price College. Students are involved in the management of a fixed income (bond) portfolio. Emphasis is given to the analytics of fixed income security valuation, and the analysis of investment opportunities. (F)
- FIN 4960 Directed Readings** **1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- FIN 4970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Degree candidacy, FIN 2303 or FIN 3303, and Finance majors or minors only. May be repeated, maximum credit 9 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- FIN G4990 Special Studies** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: FIN 2303, departmental permission, and student must be approved for degree candidacy by Price College. May be repeated with change of subject; maximum credit 3 hours. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. The only passing grade given is the neutral grade of S. (F, Sp, Su)
- FIN 5102 Financial Management** **2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. The goal of this course is to provide a working knowledge of fundamental concepts in financial management and the ability to apply these concepts to real-world problems. The student should learn the following subjects: time value of money, interest rates, risk and return, stock and bond valuation, cash flow analysis, and capital budgeting. (Irreg.)
- FIN 5103 Investments** **3 Credit Hours**
(Slashlisted with FIN 4103) Prerequisite: Graduate standing, majors only, and Permission (Director, CBA Graduate Programs). Topics covered include the structure and operation of securities markets, introduction to portfolio management and capital market theory, the valuation of common stocks and fundamental analysis, determinants of option prices, the determinants of future prices, portfolio performance measurement and risk management, international portfolio management and international investing. Computer exercises are required. No student may earn credit for both 4103 and 5103. (F, Sp, Su)
- FIN 5112 Investments** **2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. The purpose of this course is to provide the fundamentals of investment analysis. This course will place an emphasis on topics such as risk and return, asset pricing models, portfolio theory, hedge funds, behavioral finance, bond valuation, introduction to futures markets and options, and basics on financial instruments and trading of securities. (Irreg.)
- FIN 5113 Derivative Securities and Markets** **3 Credit Hours**
(Slashlisted with FIN 4113) Prerequisite: 5043 or Business Administration 5283. Uses of futures, option, and swap contracts in investments, banking, business finance, and foreign trade. Topics include valuation, trading mechanics and strategies, and applications. Hedging foreign currencies is included. The course is math and computer intensive. No student may earn credit for both 4113 and 5113. (Sp)
- FIN 5132 Corporate Finance Strategy** **2 Credit Hours**
Prerequisite: Graduate standing and Permission of Instructor. Corporate Finance Strategy Seminar is a comprehensive course in corporate financial management. The course builds on the main concepts taught in the core finance and accounting courses. The objective is to develop your ability to make strategic decisions within a corporate setting. (Irreg.)
- FIN 5302 Financial Markets and Securities** **2 Credit Hours**
Prerequisite: ACCT 5202 and graduate standing. The aim of this course is to provide a strong foundation for an understanding of financial markets and the main types of securities traded in these markets. The topics covered in the course include trading structure, present value calculations, risk and return, portfolio theory, asset pricing models, market efficiency and an introduction to the nature and valuation of equities, bonds, futures, and options. The course will strike a balance between the theoretical paradigms and the empirical literature, and the important links between theory and the real world. The emphasis will be both on principles and on problem solving. The lectures and examinations will focus both on quantitative and conceptual foundations. (Irreg.)
- FIN 5303 Advanced Corporate Finance** **3 Credit Hours**
(Slashlisted with FIN 4303) Prerequisite: Graduate standing and permission of department. Development of theory and applications of financial management of the firm with both domestic and international investment decisions, structure and cost of capital, working capital management, dividend policy, and long term financial planning and forecasting. The course emphasizes the development of problem-solving skills and the use of computerized financial modeling. No student may earn credit for both 4303 and 5303. (Irreg.)

- FIN 5312 Corporate Finance** **2 Credit Hours**
Prerequisite: graduate standing and 5302. This course aims to provide students with the basic analytical and conceptual skills required in the modern practice of corporate financial management. Students enrolled in this class will already have been exposed to the concepts of risk and return, the determination of financial security prices, and models useful in predicting the required returns demanded by investors. In addition, students enrolled in this class will already have been exposed to the fundamentals of financial statements and the analysis of such statements. The course will focus on three key areas of financial management: (1) the optimal allocation of capital; (2) the optimal choices for raising capital; (3) the optimal management of risk in conjunction with (1) and (2). The course includes application of finance theory to solving real business problems, and emphasizes the importance of technology and globalization to the modern practice of finance. (Irreg.)
- FIN 5322 Financial Derivatives** **2 Credit Hours**
Prerequisite: Graduate standing; departmental permission; FIN 5112 and B AD 5122. This course is an introduction to derivative securities, markets in which they trade, and how they are used. Derivative securities are constantly changing with new types of derivative securities being developed and traded. The goal of this course is to introduce students to the most common types of derivative securities, though the principles can be applied to more general securities. (Irreg.)
- FIN 5332 Risk Management** **2 Credit Hours**
Prerequisite: Graduate standing, FIN 5322, and departmental permission. This course focuses on defining, measuring, and managing risk in financial institutions as well as in non-financial corporations. Introduces different types of risk, including market, credit, liquidity, and operational risk. The risks are discussed in the general framework of Enterprise Risk Management. Covers several major tools of risk measurement and management with the emphasis on the use of derivatives. (Irreg.)
- FIN 5342 Advanced Corporate Finance** **2 Credit Hours**
Prerequisite: Graduate standing and FIN 5102. This course is for students aspiring to careers in financial management in corporations, banks, and other financial institutions. It covers topics on the corporate financial management function, including advanced capital project evaluation, financing, dividends, corporate risk management, and mergers, acquisitions and corporate restructuring. The course provides the conceptual aspects of corporate finance and an applied perspective on the subject. (Irreg.)
- FIN 5352 International Financial Management** **2 Credit Hours**
Prerequisite: Graduate standing, Permission of Department, FIN 5102, and FIN 5112. This course develops the analytical framework required for understanding the interactions between exchange rates, cross-border trade and capital flows, inflation, interest rates, economic growth, and government policy. The course will then examine international financial markets and the opportunities they present for achieving risk management, financing, and investment objectives. The principal focus will be on financial instruments used for these purposes. (Irreg.)
- FIN 5362 Fixed Income Securities and Markets** **2 Credit Hours**
Prerequisite: Graduate standing and FIN 5112. The aim of this course is to develop an intellectual and practical understanding of the principles governing the valuation of fixed income securities and their derivatives, the main problems and issues relevant in the management of interest rate risk, and the organization and structure of debt markets, all from the perspective of fixed income fund management. (Irreg.)
- FIN 5372 Mergers & Acquisitions and Corporate Restructuring** **2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and FIN 5102. The course deals with acquiring or disposing of corporate assets (taking into consideration legal issues, accounting, and tax and how they affect the outcome of M&A transactions). Topics include valuation of assets being sold/purchased by corporations, economic motivations for mergers and acquisitions, structuring of the transactions, deal tactics/strategies, leveraged buyouts, and corporate restructuring. (Irreg.)
- FIN 5382 Financial Modeling** **2 Credit Hours**
Prerequisite: Graduate standing and FIN 5112. The application of quantitative concepts in financial modeling using Excel. Students will become proficient in Excel and use it in building financial models. In addition, students will gain a working knowledge of quantitative concepts such as corporate valuation, portfolio theory, and Monte Carlo methods. (Irreg.)
- FIN 5392 Financial Intermediation and Banking** **2 Credit Hours**
Prerequisite: graduate standing, FIN 5302, and FIN 5322. This course will focus on the core economic reasoning behind commercial and investment banking and the modern management and valuation of financial intermediaries. Specific topics will include loan evaluation techniques, asset and liability management, risk management and Value-at-Risk, and managing within the confines of regulation. Exposure to modern econometric calculation systems such as Eviews, Stata, MATLAB, or similar. (Sp)
- FIN 5402 Equity Fund Management** **2 Credit Hours**
Prerequisite: graduate standing, FIN 5302, FIN 5322, and B AD 5001. This course will focus on the modern practice of equity portfolio management including the estimation and evaluation of critical parameters, implementation of the Markowitz and Black-Litterman models, the implications of measurement error for assessing portfolio risk, Value-at-Risk, the application of simulation methods for assessing risk exposure, and the computational issues involved with management of portfolios containing many securities and work-arounds. (Sp)
- FIN 5412 Advanced Topics in Investments** **2 Credit Hours**
Prerequisite: graduate standing and FIN 5302. The course will focus on advanced areas of the field of investments, including econometric and statistical techniques for the analysis and modeling of financial markets. Additional focus will be on modeling of volatility, estimation and utilization of modern asset pricing models, and computation of critical parameters for the valuation of derivative securities. (Sp)
- FIN 5422 Alternative Investments** **2 Credit Hours**
Prerequisite: Graduate standing, FIN 5112, and departmental permission. This course provides an overview of alternative investments from the perspective of a portfolio manager. The course will provide a basic understanding of the types of alternative investments such as hedge funds, real assets, and private equity. The course will cover the investment process, construction, and management of portfolios with alternative investments. (Irreg.)
- FIN 5432 Venture Capital & Private Equity** **2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. This course will explain the structure, funding methods, investment patterns, and financial performance of the private equity industry (venture capital and buyout funds) in the United States and examine how private equity practices developed here have spread worldwide. The course will be taught online—recorded lectures posted for students to download and view asynchronously—with weekly synchronous, live discussion sessions. (Irreg.)

- FIN 5442 Real Estate Finance and Investments 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and FIN 5102. The course introduces students to the fundamentals of real estate and real estate finance. The class reviews the time value of money, and explores in more depth quantitative computational principles, underwriting analysis, and the ultimate source of funds for real estate finance. Focus is on the legal, economic, quantitative, and strategic elements of the real estate finance and investing process. (Irreg.)
- FIN 5452 Financial Statement Analysis for Financial Decisions 2 Credit Hours**
Prerequisite: Graduate Standing and Departmental Permission. The objective of this course is to provide necessary tools to analyze and interpret firms' financial statements for tasks such as credit analysis, fraud detection, estimating future performance, and conducting fundamental analysis. The emphasis is on integrating financials for more effective financial decision-making. Earnings management and mitigation is also addressed. (Irreg.)
- FIN 5462 Economics for Finance 2 Credit Hours**
Prerequisite: Graduate Standing and Departmental Permission. The purpose of this course is to cover microeconomic and macroeconomic principles that underlie financial decision-making. Supply and demand analysis, production and cost, optimal profit-maximizing behavior of firms, industrial structure, inflation, unemployment, fiscal and monetary policy are topics covered in the course. The objective is to incorporate economic principles for effective operational and investment decisions. (Irreg.)
- FIN 5472 Financial Ethics 2 Credit Hours**
Prerequisite: FIN 5102, graduate standing, and departmental permission. This course covers ethical dimensions of finance. Topics covered range from morality of market institutions to the ethical issues involved in the relations between finance professionals and their clients, employers and their employees, and firms and their shareholders. Moral theories philosophers are presented to explain and justify ethical judgments. CFA Institute Ethics and Standards of Practice are also covered. (Irreg.)
- FIN 5482 Corporate Risk Management 2 Credit Hours**
Prerequisite: Graduate standing and departmental permission; FIN 5102 and FIN 5112. This course will cover a broad range of topics pertaining to financial risk management, especially those related to operational and financial risk exposure faced by modern corporations, volatility of commodity prices, exchange rates, interest rates etc. Techniques covering how risk is assessed; whether it should be managed; and how it should be managed are included in the class. (Irreg.)
- FIN 5492 Real Estate Modeling & Analysis 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and FIN 5442. The goal of this course is to build upon prior real estate finance coursework and provide students with the ability to analyze, model and evaluate investment opportunities in commercial real estate. Topics include: commercial real estate market analysis, lease terms, cash flow modeling and investment evaluation with extensive application of CoStar, ARGUS Enterprise, and Excel. (Irreg.)
- FIN 5502 Mortgage Backed Securities 2 Credit Hours**
Prerequisite: FIN 5102 and FIN 5112, graduate standing, and departmental permission. This course is designed to provide students with opportunities to learn how the mortgage market operates, how structured products are packed, valued, and traded, and how the concepts of default and prepayment impact specific structures and individual packages. (Irreg.)
- FIN 5613 Student Investment Fund 3 Credit Hours**
(Slashlisted with FIN 4613) Prerequisite: graduate standing and by permission. The management of a real dollar portfolio of common stocks using the value style approach. Emphasis is on the application of fundamental analysis. Frequent class presentations are required. No student may earn credit for both 4613 and 5613. (F, Sp)
- FIN 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- FIN 5970 Special Topics in Finance 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and FIN 5312. May be repeated with change of content; maximum credit 6 hours. Special topics in finance of interest to students in the MBA program. (F, Sp, Su)
- FIN 5980 Research for Master's Thesis 2-9 Credit Hours**
2 to 9 hours. Prerequisite: graduate standing. Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- FIN 5990 Directed Readings in Finance 1-3 Credit Hours**
Prerequisite: 5043 or Business Administration 5283. May be repeated; maximum credit six hours. Individual graduate study of a specific narrow topic not offered in the current curriculum. (F, Sp, Su)
- FIN 6603 Introduction to Finance Theory 3 Credit Hours**
Prerequisite: graduate standing and permission. Topics include decision making under uncertainty, portfolio theory, models of asset pricing, efficient markets, option pricing, capital structure and agency theory. (Irreg.)
- FIN 6803 Corporate Finance Theory 3 Credit Hours**
Prerequisite: 6603 and Economics 5213. Topics include complete and incomplete markets, capital structure theory, agency theory, property rights, dividend policy, signaling models, corporate control issues, mergers and acquisitions. (Irreg.)
- FIN 6903 Financial Markets and Institutions 3 Credit Hours**
Prerequisite: 6603 and Economics 5213. Topics include the term and risk structure of interest rates, debt pricing, financial contracting, information economics, duration and immunization, futures and options. (Irreg.)
- FIN 6960 Directed Readings in Finance 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 12 hours in finance and/or specifically related subjects, graduate standing, and permission of instructor. May be repeated with change of topic; maximum credit nine hours. Directed readings in various lines of specialization in finance. Conducted on a conference basis by the staff. Scope of reading and credit to be arranged on entry into the course. (F, Sp, Su)
- FIN 6970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- FIN 6973 Seminar 3 Credit Hours**
Prerequisite: 12 hours of finance and/or economics, graduate standing, permission. May be repeated with change of topic; maximum credit nine hours. Seminar in latest developments in research and theory from one of the following general areas of the finance field: business finance, capital markets, insurance, investments, money and banking, public finance, real estate. A specific topic is announced for each time of offering. (F, Sp)

FIN 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

FIN 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Finance, B.B.A.

Minimum Total Credit Hours: 120

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.50

Major GPA - Combined and OU: 2.50

Upper-Division Business Courses GPA - Combined and OU: 2.50

Program Code: B435

This program has changes pending Regents approval for 2024-25. These pending changes are not reflected here.

To enroll in upper-division business courses, students must be certified for degree candidacy and meet all prerequisites.

A maximum of six hours of transfer work will apply toward the major.

Major Requirements

Any 3000- or 4000-level FIN course will count in the Finance major grade point average unless otherwise specified.

Code	Title	Credit Hours
Required		12
FIN 3403	Financial Intermediaries and Markets	
FIN 3453	Financial Modeling and Analysis in Excel	
FIN 3503		
FIN 3603	Advanced Corporate Finance	
Major Electives		9
Choose 9 hours of upper-division FIN courses		
Total Credit Hours		21

Note: FIN 3133 and FIN 3513 will not count toward the BBA or in the FIN major GPA.

Major Requirements Recommended for CFA (Chartered Financial Analyst): FIN 3403, FIN 3503, FIN 3603, FIN 4113, FIN 4713, and one course chosen from FIN 4133, FIN 4403, or FIN 4613.

Required Courses

Code	Title	Credit Hours
Core Requirements		12
L S 3323	Legal Environment of Business	
MGT 3013	Principles of Organization and Management	
MKT 3013	Principles of Marketing and Supply Chain Management	
B AD 4013	Business Strategy and Policy (to be taken last semester of senior year) ²	
Additional Requirements		8
B AD 2091	Career Readiness I-Transitioning to the Workplace	
B AD 3091	Career Readiness II-Advancing in the Workplace	
ENT 2113	Innovation & Entrepreneurship	
FIN 2303	Business Finance	
Upper-Division Business		9
ECON 3113	Intermediate Microeconomic Theory (fulfills upper-division general education requirement)	
ACCT 3113	Intermediate Accounting I (must earn a C in this course)	
ACCT 3123	Intermediate Accounting II	
Total Credit Hours		29

¹ May not be completed online.

² Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		6-16
ENGL 1113	Principles of English Composition (Core I)	
ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 Expository Writing	
Language (Core I) - Students who have completed two years of high school language are exempt from this general education requirement (0-10 hours).		
<i>Mathematics</i>		<i>6</i>

MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ¹	
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ¹	
Core Area II: Natural Science		7
Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)		
Core Area III: Social Science ²		
P SC 1113	American Federal Government (Core III)	3
Core Area IV: Arts and Humanities		12

Choose one course in each of the following fields (Core IV):		
Artistic Forms ³		
World Culture ³		
Core Area V: First-Year Experience		3
Choose one course		
Basic Business ⁴		22
ACCT 2113	Fundamental Financial Accounting ⁵	
ACCT 2123	Fundamental Managerial Accounting ⁵	
B AD 1001	Personal Computing Productivity Tools	
B C 2813	Strategic Communication for Business Professionals ⁵	
ECON 1113	Principles of Economics-Macro (Core III-SS) ^{2, 5}	
ECON 1123	Principles of Economics-Micro (Core III-SS) ^{2, 5}	
ECON 2843	Elements of Statistics (Core I-M) ⁵	
MIS 2113	Computer-Based Information Systems ⁵	
Total Credit Hours		59-69

¹ Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743.

² Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement.

³ It is recommended students take either World Culture or Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course outside the major from the approved University-Wide General Education. It may also be satisfied in the upper-division or free elective categories.

⁴ College requirement: courses are part of the degree candidacy application process that students must complete to earn degree candidacy and begin upper-division business courses.

⁵ Minimum C required.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU. Students must take a minimum of 24 hours of their upper-division business courses in residence for the Bachelor of Business Administration degree.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience and flight instruction courses will count toward the required hours.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses ¹.

This major normally requires three semesters of study beyond the business core requirements.

Freshman

First Semester		Credit Hours
ECON 1113	Principles of Economics-Macro (Core III) ¹	3

Total Credit Hours 120

¹ Prebusiness course.

² University-Wide General Education course, refer to online listing.

³ Will fulfill upper-division General Education requirement unless Economics is second major.

Finance for Business Majors, Minor

Minimum Total Credit Hours: 15

Program Code: N435

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

Courses for the minor may not be taken Pass/No Pass.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- Students must achieve a minimum 2.50 GPA (OU and overall) in the minor coursework.

Required Courses

Code	Title	Credit Hours
Prerequisite		
FIN 2303	Business Finance	3
Required		
FIN 4103	Investments	3
FIN 4303	Advanced Corporate Finance	3
Electives		
Choose 6 hours of 3000/4000-level Finance courses ¹		6
Total Credit Hours		15

¹ Excluding FIN 3513, FIN 3960, FIN 3980, and FIN 4703.

If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Finance, B.B.A./Finance, M.S.

Minimum Total Credit Hours: 140-144

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 3.00

Major GPA - Combined and OU: 3.00

Upper-Division Businesses Courses GPA - Combined and OU: 3.00

Program Code: A434/F435 Q253

This program has changes pending Regents approval for 2024-25. These pending changes are not reflected here.

To enroll in upper-division business courses, students must be certified for degree candidacy and meet all prerequisites.

A maximum of six hours of transfer work will apply toward the major.

Undergraduate Major Requirements

Any 3000- or 4000-level FIN course will count in the Finance major grade point average unless otherwise specified.

Code	Title	Credit Hours
Required		12
FIN 3403	Financial Intermediaries and Markets	
FIN 3453	Financial Modeling and Analysis in Excel	
FIN 3503		
FIN 3603	Advanced Corporate Finance	
Major Electives		9
Choose 9 hours of upper-division FIN courses		
Total Credit Hours		21

Note: FIN 3133 and FIN 3513 will not count toward the BBA or in the FIN major GPA.

Major Requirements Recommended for CFA (Chartered Financial Analyst): FIN 3403, FIN 3503, FIN 3603, FIN 4113, FIN 4713, and one course chosen from FIN 4133, FIN 4403, or FIN 4613.

Required Courses

Code	Title	Credit Hours

Note: The M.S. in Finance is coursework only; a non-thesis examination is not required.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Business of Energy, Graduate Certificate

Minimum Total Hours: 12

Program Code: G022

The Graduate Certificate in The Business of Energy provides students with a rigorous curriculum in energy finance that includes a broad overview of the energy sector, along with in-depth examinations of the regulatory, accounting, and tax issues in energy. The curriculum provides preparation for placement in the business and finance side of the energy industry. Courses also provide students with a comprehensive review of energy company decision making as it pertains to the analysis of financing and the valuation of energy projects as well as company-level risk management. In addition, the curriculum focuses on the market for energy assets and commodities, the trading of such assets, asset pricing, and the role of financial derivative contracts and hedging strategies. A total of 12 hours is required for the certificate.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Finance, Graduate Certificate

Minimum Total Hours: 12

Program Code: G039

The Graduate Certificate in Finance provides students with rigorous analysis, hands-on practice, and intense discussions to prepare them for and provide the concepts, approaches, and experience to manage portfolios, advise clients, analyze investments, or contribute to a corporate finance practice in industry or banking. Learn how to value financial securities, price and manage assets, manage risk, and model finances. Gain perspective on financing and financial decision making, reporting, and analysis. A total of 12 hours is required for the certificate.

General Information

The goal of the Division of Management and International Business is to educate students so that they can make strategic, administrative and/or supervisory contributions to organizations through critical thinking plus mastery of fundamental skills and concepts. Faculty are active in research plus have publications in leading academic and practitioner-oriented journals in the areas of Human Resources Management, International Business, Organizational Behavior, Social/Environmental Issues in Business, and Strategic Management. The course portfolio ranges from survey courses in cross-cultural management, human resource management, the legal environment of business, organizational behavior and the management of professional sports to skills based courses in consulting, contract law, negotiation and supervision as well as specialty courses including international human resources, natural gas markets, sports logistics and real property law. The award-winning faculty consists of both academics and practitioners which provides students with both an intellectual framework within which to understand world of management and real-world insights to help insure students' success. This combined approach is a dynamic strength of our unit, leading to an application oriented, integrative core approach to the classroom.

Programs & Facilities

Sports Business Association

The Sports Business Association is a student run organization that serves to develop business and leadership skills of our members. The SBA works with local, regional, and national organizations, industry leaders, and program alumni to design programming that fits all levels of professional development. The club is open to any OU student who wants to learn more about the sports business industry.

Energy Management Student Association

The EMSA provides an abundance of activities including energy industry programs, internship opportunities, scholarship interviews, community service, and more.

Capstone and International Business in Spain

The Division of Management & International Business offers B AD 4013, Business Policy and Strategy (Capstone), during the summer (late May,

June) in Alcalá de Henares, a historic college town and UNESCO World Heritage Site just 30 minutes from Madrid. Transportation is readily available to allow students access to everything Madrid has to offer including concert halls, museums, shopping, and restaurants. Students from Price College will be on campus in Alcalá de Henares with other Spanish and international students. All classes are taught in English by Price College faculty, with the additional participation of professors from the University of Alcalá de Henares. Lectures complement other program activities that include business tours, trips to other cities and areas of Spain, visits to museums, and an introduction to Spanish culture and cuisine.

First Fidelity Bank Integrated Business Core

Undergraduate students have the opportunity to enroll in a one-semester (12 hours) project-based program called the First Fidelity Bank Integrated Business Core (IBC), which provides both real-world experience and an integrated introduction to concepts in at least three business disciplines. IBC students gain experience by creating and managing an actual start-up company funded by a loan up to \$10,000 and a hands-on community service project on behalf of a non-profit campus or community organization. The program has had a nearly \$13 million economic impact since 2000 and has received local, regional and national acclaim.

Undergraduate Study

Bachelor of Business Administration

The Energy Management, Bachelor of Business Administration (p. 941) is the first (and largest) of its kind in the nation - created in 1958. The energy-focused curriculum is comprised of classes in business, law, petroleum engineering, geology, and meteorology.

The Management, Bachelor of Business Administration (p. 947) prepares students to lead and communicate with people in a professional role. Jobs are available in almost every industry worldwide for managers with strong leadership qualities.

The International Business, Bachelor of Business Administration (p. 944) prepares students for the global business world of the 21st century. A unique feature of the program is that it is a Dual-Major program. Students are required to major in International Business, which provides an across-business-disciplines appreciation of the challenges and strategies for coping in the global business world in which we live today and will continue to live during your lifetime. Additionally, students are required to double major in Accounting, Economics, Entrepreneurship, Finance, Human Resource Management, Management Information Systems, Marketing, or Supply Chain Management.

The Sports Business, Bachelor of Business Administration (p. 949) program combines courses from faculty with extensive experience, exposure to hands-on projects, plus internship opportunities with all types of sports organizations.

Accelerated Program

- Management, B.B.A./Management of Information and Technology, M.S. (p. 955)

Minor

The Division of Management and International Business offers these Minors:

- Leadership for Business Majors Minor (p. 952)
- Management Minor (p. 952)
- Sports Business Minor for Business Majors (p. 952)
- Sports Business Minor for Non-Business Majors (p. 953)

Undergraduate Certificates

The Division of Management and International Business offers these undergraduate certificates:

- Esports Business (p. 954)
- Human Resource Management (p. 954)
- Leadership (p. 954)
- Legal Studies (p. 955)
- Renewable Energy Management (p. 955)

Courses

EMGT 2001 Introduction to Energy Management 1 Credit Hour

Prerequisite: Sophomore standing. Designed to give students interested in the energy industry an understanding of and appreciation for the history and dynamics of the OU Energy Management program and the energy industry, includes industry lecturers and on-site operation visits. (F, Sp)

EMGT 3113 Energy Production and Markets 3 Credit Hours

Prerequisite: Student must be approved for Degree Candidacy; Energy Management majors only; MATH1743, MATH1823 or MATH1914; ACCT2123 or concurrent enrollment. Survey of the energy landscape and introduction to local, regional, national and international energy issues from a management perspective. Provides comprehensive coverage of all facets of energy production and use. Introduces students to contemporary issues shaping the industry such as deregulation and emergence of new energy markets. (F, Sp)

EMGT 3123 Introduction to Exploration and Production 3 Credit Hours

Prerequisite: Student must be approved for Degree Candidacy; Energy Management majors only; MATH1743, MATH1823 or MATH1914; ACCT2123 or concurrent enrollment. Overview of hydrocarbons and world energy; exploration technology; drilling and completion methods; hydraulic fracturing; production systems; well completions and stimulation; common industry terminology and acronyms. (F, Sp)

EMGT 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

EMGT 3513 Sustainable Policy and Regulations 3 Credit Hours

Prerequisite: Student must be approved for degree candidacy by Price College or departmental permission for non-business majors in the Renewable Energy Management certificate program. The course will provide a comprehensive understanding of developing law and policy for renewable energy and its effects on energy policy for the US and the world. Course work will include a comparative understanding of existing energy policy and the effects on the environment. The course will include guest speakers addressing topical work in this fast-paced area of study. (F, Sp)

EMGT 3523 Natural Gas Marketing and Power Trading 3 Credit Hours

Prerequisite: Student must be approved for Degree Candidacy by Price College or departmental permission for non-business majors in the Renewable Energy Management certificate program; Energy Management majors only; MATH1743, MATH1823 or MATH1914; ACCT2123 or concurrent enrollment. An overview of the supply & demand of natural gas and electricity markets with an introduction to risk management techniques associated with the physical and financial aspects of the commodities. (F, Sp)

EMGT 3533 Commercial Applications in Power Markets 3 Credit Hours

Prerequisite: Students must be approved for degree candidacy by Price College or departmental permission for non-business majors in the Renewable Energy Management certificate program. The course will provide a comprehensive understanding of all commercial applications around the electricity sector. Course work will include comprehensive understanding of all aspects of energy supply and electricity demand, the US power grids, financial and physical trading, and economic deal structures for business development. The course will include guest speakers addressing topical work in this fast-paced area of study. (F, Sp)

EMGT 3603 Energy Law I 3 Credit Hours

Prerequisite: Student must be approved for Degree Candidacy by Price College; majors only; EMGT 2001 or EMGT 3001 and L S 3323; MATH 1743 or MATH 1823 or MATH 1914; ACCT 2123 or concurrent enrollment. The format of this course has been designed to give students a fundamental understanding of the importance of law and regulation in the energy industry. The emphasis of the course will be oil and gas law and regulation. We will focus on ownership of minerals, the oil and gas lease, oil and gas contracts and certain environmental issues. (F, Sp)

EMGT 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

EMGT 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

EMGT 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

EMGT 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

EMGT 4960 Directed Readings 1-41 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

EMGT 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

- EMGT 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- L S 2970 Special Topics 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- L S 3323 Legal Environment of Business 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914 prerequisite. The legal environment of business organizations with ethical considerations and the social and political influences affecting such environments. (F, Sp, Su)
- L S 3423 Legal Environment of Business II 3 Credit Hours**
Prerequisite: L S 3323, and student must be approved for degree candidacy by Price College. A thorough knowledge of the legal and regulatory environment in which businesses operate is essential. This course provides an overview of the legal and regulatory environment in the United States and is designed as an enhancement to your LS3323 Legal Environment of Business course. Topics include forms of business organization, sales contracts, intellectual property, business crimes, environmental law, and antitrust. (F, Sp)
- L S 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- L S 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- L S 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- L S 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- L S 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- L S 4413 The Law of Business Organization 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; LS 3323; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. Course will trace the law and ethics of agency, agency problem and various types of business organizations. Each form of business ownership has advantages and disadvantages and presents peculiar ethical and legal issues associated with governance. (F, Sp)
- L S 4523 The Law of Commercial Transactions 3 Credit Hours**
(Slashlisted with L S 5523) Prerequisite: L S 3323 and ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914; student must be approved for degree candidacy by Price College. A comprehensive survey of commercial transactions, including the law of sales, warranties, risk of loss, negotiable instruments, bank collections and deposits, electronic fund transfers, secured transactions and bankruptcy. No student may earn credit for both 4523 and 5523. (F, Sp)
- L S G4613 Real Property Law 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; and L S 3323; and ACCT 2123 or concurrent enrollment; and MATH 1743 or MATH 1823 or MATH 1914. General law of real property; historical development, acquisition of title to personal property, estates in land, landlord and tenant relations, easements, deeds, mortgages, adverse possession, wills and trusts. (F, Sp)
- L S G4713 The Law of International Business Transactions 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; LS 3323; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. Examines the legal and ethical environment of international business. Topics include international treaties and conventions, comparative legal systems, extraterritoriality of U.S. and foreign laws, the Act of State Doctrine and the resolution of international business disputes. (Sp)
- L S 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- L S 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- L S 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- L S 5523 The Law of Commercial Transactions 3 Credit Hours**
(Slashlisted with L S 4523) Prerequisite: L S 3323, graduate standing and permission of instructor. A comprehensive survey of commercial transactions, including the law of sales, warranties, risk of loss, negotiable instruments, bank collections and deposits, electronic fund transfers, secured transactions and bankruptcy. No student may earn credit for both 4523 and 5523. (Irreg.)

- L S 5612 Employment Law** **2 Credit Hours**
Prerequisites: Departmental permission; graduate standing; admission into Price College graduate program. Employment law affects not only the employee/employer relationship, but can also affect the bottom line. This course is designed to explore the most common employment laws along with the ramifications of non-compliance of federal and state laws. Students will get an overview of federal discrimination laws and how they can impact the employment environment. (Su)
- L S 5802 Business Ethics/Legal** **2 Credit Hours**
Prerequisites: graduate standing; departmental permission. Review of the American legal process and ethical frameworks for gauging business decisions. (Irreg.)
- L S 5960 Directed Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- L S 5970 Topics in Legal Studies** **1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5323 or permission. May be repeated with change of subject matter. (Irreg.)
- L S 5990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- MGT 2013 Introduction to Management** **3 Credit Hours**
A survey course covering the fundamental processes of management in terms of planning, organizing, leading and controlling in an organization. This course will not count for credit toward any Price College of Business major. (F, Sp)
- MGT 2153 Introduction to Esports** **3 Credit Hours**
Prerequisite: ENGL 1213/EXPO 1213; Sophomore standing or permission of the instructor. This course introduces students to the business concepts that apply to the esports industry, including marketing, finance, leadership, management information systems, and supply chain management. Students will examine the various components of the esports industry, including players, teams, sponsors, and event organizers, and will learn about the key factors that contribute to success in the industry. (F, Sp)
- MGT 2700 Management Internship for Credit** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Departmental permission showing approval from the designated faculty or advisor overseeing internships for credit. The internship experience will provide students with the opportunity to work in positions related to their field of study and to gain valuable professional experience while enhancing their academic career. An internship normally covers one academic semester and may be either paid or unpaid. (F, Sp, Su)
- MGT 2970 Special Topics/Seminar** **1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- MGT 3013 Principles of Organization and Management** **3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment. An introductory course presenting the basic concepts and practices of management, both private and public. Historical development of management; basic definitions and philosophy; fundamental managerial functions, including planning, organizing, staffing, directing, and controlling; a survey approach to quantification in organizational life; current trends in management; possible future developments in organization and administration. (F, Sp, Su)
- MGT 3113 Managing Corporate Communication** **3 Credit Hours**
(Crosslisted with B AD 3113) Prerequisite: Majors only; Student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914; B C 2813. Strategic Communication challenges students to master their writing, listening, presentation, and interpersonal communication skills to excel in various business environments. Students will also develop strategies to promote customer engagement and loyalty through social media review sites. Emphasis is placed on credibility management, audience analysis, research, revision, and rehearsal to equip students for professional success. (F, Sp)
- MGT 3123 Supervision Skills** **3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College, or permission; ACCT 2123 or concurrent enrollment; MGT 3013 or concurrent enrollment. Designed to introduce basic managerial skills required to build personal effectiveness and effective working relationships with employees. Through a variety of teaching methods, students will learn "real world" skills in various types of communication including coaching, motivation, goal setting, and performance feedback. (F, Sp)
- MGT 3133 Leading Individuals, Teams, and Organizations** **3 Credit Hours**
Prerequisite: MGT 3013; MGT 3363 or concurrent enrollment and ACCT 2123 or concurrent enrollment; student must be approved for degree candidacy by Price College. This course is designed to expose students to a variety of leadership perspectives and practices in order to enhance individual development and effectiveness as a leader. Focus will be on a repertoire of practical and theoretical leadership principles. This course will offer opportunities for students to improve their leadership skills through exercises and simulations. (F, Sp)
- MGT 3143 Legal Issues for Managers** **3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; MGT 3013 or departmental permission; ACCT 2123 or concurrent enrollment. Provide students a basic understanding of state & federal employment law, encourage critical thinking and evaluation of legal issues to successfully navigate issues in a management environment. Topics covered will include U.S. employment laws such as family leave, equal pay, wrongful discharge, independent contractors, undocumented workers, workplace privacy, safety, discrimination, management practices, and other current developments. (Sp)
- MGT 3153 An Introduction to the Business of Sports** **3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment. Study of the management principles of both collegiate and professional athletics. This class will cover the management of every major department of a collegiate athletic department and of a professional sport team. Guest speakers from the industry as well as field trips to witness the operation of a sporting event are a vital part of this class. (F, Sp, Su)

MGT 3163 Licensing and Intellectual Property Management in Sports 3 Credit Hours

Prerequisite: MGT 3013 or permission; ACCT 2123 or concurrent enrollment; Must be approved for degree candidacy by Price College and a Sports Business or Sports Management major or minor for Business major or Non-business major. Provides students with an introductory view into the world of collegiate licensing. This information will be extremely useful in application for all areas within athletics, where an understanding of the principles of intellectual property—specifically trademark law and licensing—will assist in understanding of the happenings within a department or professional organization. (F, Sp)

MGT 3173 Sports Logistics 3 Credit Hours

Prerequisite: MGT 3013 or permission; ACCT 2123 or concurrent enrollment; Student must be approved for degree candidacy by Price College and a Sports Business or Sports Management major or minor for Business major or Non-Business major. Principles in sports logistics. Instruction emphasizes intercollegiate athletics and deals with practical application. Provides an understanding of all phases of intercollegiate sports logistics. Opportunities for hands-on learning will be provided and guest speakers will be included. (F, Sp)

MGT 3193 Sports Marketing and Management 3 Credit Hours

Prerequisite: MGT 3013 and ACCT 2123 or concurrent enrollment; student must be approved for degree candidacy by Price College and a Sports Management major or Sports Business minors. Introduction to Sports Marketing Management designed to expose students to the concepts of collegiate sports marketing while giving a real world, behind the scenes exposure to managing a major college athletics department through the marketing side of the industry. (F, Sp)

MGT 3203 Pay for Play: College Sports at the Precipice 3 Credit Hours

Prerequisite: MGT 3013; must be enrolled in one of the following fields of study - sports business or sports management major or minor for business majors or non-business majors; student must be approved for degree candidacy by Price College. This course is designed to understand the history, legal foundations, dynamics, and alternatives for the pay for play debate raging in the courts and the media. The contributions and missions of college athletics to higher education will be discussed in depth as well as its value to student-athletes. The course is designed as an undergraduate seminar. (Sp)

MGT 3213 Sports Sales and Revenue Generation 3 Credit Hours

Prerequisite: MGT 3013 and ACCT 2123 or concurrent enrollment; sports business or sports management major or minor for business majors or non-business majors; student must be approved for degree candidacy by Price College. This course examines various business disciplines as they apply to generating revenue in the sports industry. (F)

MGT 3223 Sports Analytics 3 Credit Hours

Prerequisite: MGT 3013 and ACCT 2123 or concurrent enrollment; student must be approved for degree candidacy by Price College; must be declared in Sports Business or Sports Management major or minor for Business majors or Non-Business majors. Students will use analytics to study a wide variety of issues affecting the sport industry. Topics examined include: player performance measurement; in-game decision making; player selection/team building; general administration such as marketing, pricing, contracts, stadium management, etc. Students will learn how the recent application of analytics has improved each of these areas within the professional and collegiate sport industry. (Irreg.)

MGT 3233 Leadership in International Settings 3 Credit Hours

Prerequisite: Junior standing; student must be approved for degree candidacy by Price College; departmental permission; ACCT 2123 or concurrent enrollment. This class will help students become culturally sensitive and knowledgeable leaders. The unique setting in Costa Rica, class discussions, current readings, and business site visits will enrich the learning environment, broaden students' perspectives and contribute to their life experiences and thus leadership development. (Sp)

MGT 3243 Financing in Sports Business 3 Credit Hours

Prerequisite: MGT 3013 and ACCT 2123 or concurrent enrollment; must be declared in Sports Business or Sports Management major or minor for business or non-business majors. This course is designed to introduce students to the concepts of financial management as applied to the unique world of sports. Topics examined include: time value of money, risk, sport ticket options, deferred compensation, financial statements, roster depreciation allowance, capital budgeting, sport team valuation, and conference realignment. (Irreg.)

MGT 3253 The Economics of Sports Business 3 Credit Hours

Prerequisite: MGT 3013 and ACCT 2123 or concurrent enrollment; student must be approved for degree candidacy by Price College; must be declared in the Sports Business or Sports Management major or minor for Business majors or Non-Business majors. Economic analysis of a wide variety of issues affecting the sport industry. Topics include: optimal ticket pricing strategies; effects of free agency and collective bargaining processes on player salaries; effects of league-wide policies such as revenue-sharing, salary caps, and luxury taxes on team financial performance and league competitive balance; and impacts and rationales for government subsidization of stadiums. (Irreg.)

MGT 3263 The Future of Sports Business 3 Credit Hours

Prerequisite: Students must be approved for degree candidacy by Price College and MGT 3013; ACCT 2123 or concurrent enrollment; must be declared in Sports Business major/minor or Sports Business minor for non-business majors. This course is themed around emerging categories, technologies, and companies that may not be relevant in the Sports industry today, but will be soon. Categories include betting and gambling in sports, artificial intelligence and machine learning, metaverse, startup businesses and entrepreneurship, data privacy and policy, and emerging sports. (F)

MGT 3273 Esports Revenue Streams and Monetization 3 Credit Hours

Prerequisite: Student must be approved for degree candidacy by Price College or departmental permission for non-business majors in the Esports Certificate program; Sports Business major or Sports Business minor; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. This course focuses on the diverse revenue streams that drive the Esports industry. Students will gain insights into how Esports organizations, teams, and events generate income through sponsorships, advertising, merchandise, and other monetization strategies. (F, Sp)

MGT 3283 The Esports Front Office and Beyond 3 Credit Hours

Prerequisite: Student must be approved for degree candidacy by Price College or departmental permission for non-business majors in the Esports Certificate; Sports Business major or Sports Business minor; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. This course provides a comprehensive exploration of the essential aspects involved in leading the front office of an esports company. Students will gain insights into the unique challenges and opportunities within the esports industry, focusing on leadership, strategic planning, and operational management. (F, Sp)

- MGT 3363 Understanding Organizational Behavior 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; MGT 3013 or permission; ACCT 2123 or concurrent enrollment. Covers the structure of organizations and the dynamics of behavior within organizations. Included are such topics as job design, perception, communication, decision making, motivation, groups, leadership, and organizational change and effectiveness. (F, Sp, Su)
- MGT 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- MGT 3513 Managing Human Capital and Talent 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College, MGT 3013 or permission; ACCT 2123 or concurrent enrollment. A survey course that focuses on developing students' understanding of human resource issues and the practical application of methods for solving these issues. Topics covered include job analysis, recruitment, interviewing, selection, performance appraisal, training, compensation, and equal employment opportunity. Issues are reviewed within the context of historical and current social, labor market, legal and global economic conditions influencing practice. (F, Sp, Su)
- MGT 3700 Management Internship for Credit 1-3 Credit Hours**
1 to 3 hours. Prerequisite: student must be approved for degree candidacy by Price College; permission showing approval from the designated faculty or advisor overseeing internships for credit; MGT 3013. The internship experience will provide students with the opportunity to work in positions related to their field of study and to gain valuable professional experience while enhancing their academic career. An internship normally covers one academic semester and may be either paid or unpaid. (F, Sp, Su)
- MGT 3710 Topics in Management 1-3 Credit Hours**
1 to 3 hours. Prerequisite: student must be approved for degree candidacy in Price College of Business. May be repeated; maximum credit nine hours. Permits students to study topics in management not included in standard course offerings. Subject of course will vary. (F, Sp, Su)
- MGT 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to study materials not usually presented in regular courses. (F, Sp, Su)
- MGT 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- MGT 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- MGT 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- MGT 4143 Evidence-Based Human Resources Management 3 Credit Hours**
Prerequisite: MGT 3013; MGT 3513; student must be approved for degree candidacy by Price College. May be repeated once; maximum credit six hours. The purpose of this course is to survey topics in human resource management practices and systems concerning financial and/or operational impact of HR practices (or what is often called utility analysis). (F, Sp)
- MGT 4173 Sports Management Practicum 3 Credit Hours**
Prerequisite: MGT 3013, MGT 3153, and ACCT 2123 or concurrent enrollment; student must be approved for degree candidacy by Price College and a Sports Business or Sports Management major or minor for Business major or Non-Business Major. Designed to allow students to both gain conceptual knowledge of project management and to conduct a semester length project for a professional or intercollegiate sports organization. (F, Sp)
- MGT 4183 Managing Negotiations and Conflict 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment; MGT 3013 or concurrent enrollment. This course explores the principles behind effective negotiation and mediation while helping students develop and refine their own unique styles. Students will learn negotiation strategies in a non-threatening classroom context. The readings and lectures will provide students with a framework for analyzing negotiations and tools and concepts useful in negotiating more effectively. (F, Sp)
- MGT 4233 Applying Organizational Behavior 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; MGT 3013 and MGT 3363 or permission; ACCT 2123 or concurrent enrollment. Designed to introduce basic managerial skills required to build personal effectiveness and effective working relationships with employees. Through a variety of teaching methods, students will learn "real world" skills in various types of communication including coaching, motivation, goal setting, and performance feedback. (F, Sp)
- MGT 4323 Managing Across Cultures 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment; MGT 3013 or concurrent enrollment. The purpose of the Managing Across Cultures is to improve students' understanding of the international business environment by: (a) discussing the role of culture and its influence on business interactions; (b) developing the students' capacity to effectively manage themselves in intercultural situations, and (c) exploring the challenges organizations face when leading and managing employees in the context of global operations. (F, Sp)
- MGT G4710 Special Problems in Management 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Student must be approved for degree candidacy by Price College. Special Topics. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (F, Sp, Su)

- MGT 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- MGT 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- MGT 4973 International Human Resource Management 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment; MGT 3013 or concurrent enrollment. Aspects of managing people in the global workplace. Caters to students aspiring to become either global managers who work for multi-national corporations located in different countries or managers who work for diversified enterprises with plants and branches in different locations. Covers global HR issues arising in relation to the management of workforces functioning in cross-cultural operating contexts. (F, Sp, Su)
- MGT 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- MGT 5101 Leadership Academy Part 1 1 Credit Hour**
Prerequisite: Graduate standing; majors only; admission to Professional MBA program; departmental permission. This course is the first in a two-course sequence forming the Professional MBA Leadership Academy. In the first half of the academy, we will split our focus between participant's self-assessment feedback and major leadership frameworks from our readings. We will focus on a range of rigorous, scientifically valid, and time-tested leadership self-assessments. (F)
- MGT 5102 PMBA Leadership Academy 2 Credit Hours**
Prerequisite: Graduate standing, departmental permission, and PMBA students only. In this course, focus is split between participants' self-assessment feedback and major leadership frameworks from readings. Focus is on a range of rigorous, scientifically valid, and time-tested leadership self-assessments. In addition, focus of hearing from and discussing leadership development with successful industry professionals from the OKC area. (Irreg.)
- MGT 5112 International Management 2 Credit Hours**
Prerequisite: Graduate standing and departmental permission. This course will provide students with a comprehensive and relevant overview of managing a business in a global context. The knowledge and skills acquired will help students to develop a global mindset and to understand and respond effectively to the challenges and complexities of international business. (Sp)
- MGT 5201 Leadership Academy Part 2 1 Credit Hour**
Prerequisite: MGT 5101; graduate standing; majors only; admission to Professional MBA program; departmental permission. This course is the second in a two-course sequence forming the Professional MBA Leadership Academy. The second half will add the focus of hearing from and discussing leadership development with successful industry professionals from the OKC area. We will continue our focus on reading, applying, and discussing additional leadership frameworks. (Sp)
- MGT 5702 Organizational Behavior 2 Credit Hours**
Prerequisites: graduate standing; departmental permission. Concepts and theories of organizational behavior and human resources management for MBAs. (Irreg.)
- MGT 5712 Negotiations 2 Credit Hours**
Prerequisite: graduate standing and departmental permission. The course is designed to provide students with knowledge of the foundations of effective negotiating, opportunities to apply this knowledge through simulations and class discussions, and a written development plan to reflect on their skills and chart a path for continued progress. (Irreg.)
- MGT 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- MGT 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- MGT 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. The only passing grade given is the neutral grade of S. (F, Sp, Su)
- MGT 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- MGT 6253 Seminar in Organizational Theory 3 Credit Hours**
Prerequisite: graduate standing. A consideration of major topics in organization structure and macroorganization theory. Emphasis will be given to applications in a wide variety of organizational and administrative contexts. (F, Sp)
- MGT 6273 Seminar in Organizational Behavior 3 Credit Hours**
Prerequisite: graduate standing and admission to the PhD program in the Price College of Business. Addresses personal and interpersonal issues in marketing and management. Application of social science theory to explain the behavior of organization members. (F, Sp)
- MGT 6293 Seminar in Strategic Management 3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor. Reviews the major theories, concepts, and frames of reference regarding strategic management. (Irreg.)
- MGT 6960 Readings in Selected Fields of Management 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of management, graduate standing and permission. Guided reading in selected fields of management theory and application, conducted on a conference basis by staff. Scope of reading and credit to be arranged on entry into course. The only passing grade in this course is the neutral grade of S. (F, Sp, Su)
- MGT 6963 Seminar in Human Resources Management 3 Credit Hours**
Prerequisite: graduate standing and permission of instructor. Introduces doctoral-level students to major areas within the field of human resources management (HRM). Students will review and critique the literature in these selected areas and develop ideas for future research that further our understanding of HRM issues in organizations. The topics and readings covered in this course are not exhaustive, but are representative of HRM research. (Irreg.)

MGT 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

MGT 6973 Seminar 3 Credit Hours

Prerequisite: graduate standing and permission. May be repeated with change of topic; maximum credit 12 hours. A seminar for graduate students with topics to be announced each time course is offered. (F, Su)

MGT 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

MGT 6983 Research Methods and Design 3 Credit Hours

Prerequisite: graduate standing and permission of instructor. Survey of research design and methods issues. Designed to introduce the Ph.D. student to the broad range of issues from the idea creation to publishing. Topics include theory, models, designs, data, measurement, data collection, analysis, theory development to academic writing and ethical issues. (Irreg.)

MGT 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

ACCT 2123	Fundamental Managerial Accounting
B AD 1001	Personal Computing Productivity Tools
B C 2813	Strategic Communication for Business Professionals ⁵
ECON 1113	Principles of Economics-Macro (Core III-SS) 2,5
ECON 1123	Principles of Economics-Micro (Core III-SS) 2,5
ECON 2843	Elements of Statistics (Core I-M) ⁵
MIS 2113	Computer-Based Information Systems ⁵
Total Credit Hours	60-70

¹ Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743

² Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement.

³ It is recommended students take either World Culture or Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course outside the major from the approved University-Wide General Education. It may also be satisfied in the upper-division or free elective categories.

⁴ College requirement: courses are part of the degree candidacy application process that students must complete to earn degree candidacy and begin upper-division business courses.

⁵ Minimum grade of C required.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU. Students must take a minimum of 24 hours of their upper-division business courses in residence for the Bachelor of Business Administration degree.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
- A combined maximum of 8 hours of general military experience and flight instruction courses will count toward the required hours.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

This major normally requires three semesters of study beyond the business core requirements.

Freshman

First Semester		Credit Hours

Pre-Approved International Experience Requirement

Study Abroad Experience (p. 945)	
----------------------------------	--

Additional Business Major 18-41

Students majoring in International Business must also choose a second major as approved by the department. ²	
---	--

Language Requirement 6

Language Met (P408): If Language Met, 6 hours of electives are required.	
All other languages: 6 hours of 2000 level coursework in the same language.	

Total Credit Hours 44-67¹ Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.² Second business major to be chosen from : Accounting, Economics, Energy Management, Entrepreneurship, Finance, Management Information Systems, Marketing, Risk Management, Sports Management, or Supply Chain Management.

MAJOR ELECTIVES

12 hours chosen from the following with a maximum of three hours of non-Business courses:

Code	Title	Credit Hours
ACCT 3023	International Financial Statement Analysis	3
ECON 3613	International Trade Theory and Problems	3
L S 4713	The Law of International Business Transactions	3
or IAS 3013	International Law	
MGT 4323	Managing Across Cultures	3
MGT 4973	International Human Resource Management	3
MKT 4523	International Marketing	3
or MKT 4303	International Advertising	
Study Abroad Course (must be pre-approved by IB Major Coordinator or Division Director)		
Choose a maximum of one of the following: 3		
FIN 3133		
FIN 4133	International Financial Management	
ECON 3633	International Finance Theory and Problems	

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

PRE-APPROVED INTERNATIONAL EXPERIENCE REQUIREMENT

- A minimum 8 weeks, full cultural immersion in a foreign country with exception of Canada. Alternative study abroad programs could be considered case by case basis. Method of completion must be approved by Price College IB Committee.
- Complete and submit the Declaration of Intent to Study Abroad to Price Hall, Suite 1010
- Earn passing credits while abroad (passing credits are determined by foreign institution)

Language Concentration Codes

- **Language Met (P408)**
- **Arabic (P041)**
- **Chinese (P106)**
- **French (P266)**
- **German (P271)**
- **Hebrew (P311)**
- **Italian (P386)**
- **Japanese (P391)**
- **Portuguese (P526)**
- **Russian (P571)**
- **Spanish (P621)**

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		6-16
ENGL 1113	Principles of English Composition (Core I)	
ENGL 1213	Principles of English Composition (Core I)	
or EXPO 1213	Expository Writing	
Language (Core I) - Students who have completed two years of high school language are exempt from this general education requirement (0-10 hours) ¹		
<i>Mathematics</i>		6
MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ²	
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ²	
Core Area II: Natural Science		7
Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)		
Core Area III: Social Science ³		
P SC 1113	American Federal Government (Core III)	3
Core Area IV: Arts and Humanities		12
HIST 1483	United States to 1865 (Core IV)	
or HIST 1493	United States, 1865 to the Present	
PHIL 1273	Introduction to Business Ethics (Core IV: Western Culture)	
Choose one course in each of the following fields (Core IV):		
Artistic Forms ⁴		
World Culture ⁴

¹ Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.

SPORTS BUSINESS TOPICS

Choose three from the Division's approved Sports Topics course list (see the Sports Business Program webpage for the current list). One course must be offered by Price College of Business.

Available courses include the following:

Code	Title	Credit Hours
HES 4273	Sport Finance	3
HES 4283	Sports Economics and Policy	3
MGT 3163	Licensing and Intellectual Property Management in Sports	3
MGT 3173	Sports Logistics	3
MGT 3193	Sports Marketing and Management	3
MGT 3203	Pay for Play: College Sports at the Precipice	3
MGT 3213	Sports Sales and Revenue Generation	3
MGT 3223	Sports Analytics	3
MGT 3243	Financing in Sports Business	3
MGT 3253	The Economics of Sports Business	3
MGT 4173	Sports Management Practicum	3

NOTE: Internship must be pre-approved by Sports Program Director. If used for Analytics Track, must be approved for that purpose. Only one internship can be used for credit.

SPORTS BUSINESS ELECTIVES

Choose one from the Division's approved Sports Business Elective course list (see the Sports Business Program webpage for the current list). Additionally, any Sports Business Topics course not used previously can be used to fulfill this requirement.

Available courses include the following:

Code	Title	Credit Hours
MKT 4123	Professional Selling and Negotiations	3
H R 3313	Ethical Issues in Intercollegiate Athletics	3
H R 4313	Intercollegiate Athletic Administration	3
PSY 4940	Seminar in Psychology	1-3

SPORTS ANALYTICS TRACK

Students pursuing the Analytics Track must pick three of the following or choose courses from the Division's approved Sports Analytics course list:

Code	Title	Credit Hours
MGT 3223	Sports Analytics	3
Choose two courses from the following list:		
SOC 3123	Social Statistics	3
ECON 4223	Econometric Analysis	3
MIS 3213	Business Data Analysis	3

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		6-16
ENGL 1113	Principles of English Composition (Core I)	

ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 Expository Writing	
Language (Core I) - Students who have completed two years of high school language are exempt from this general education requirement (0-10 hours).		
Mathematics		6
MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ¹	
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ¹	
Core Area II: Natural Science		7
Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)		
Core Area III: Social Science ²		
P SC 1113	American Federal Government (Core III)	3
Core Area IV: Arts and Humanities		12
HIST 1483	United States to 1865 (Core IV) or HIST 1493 United States, 1865 to the Present	
PHIL 1273	Introduction to Business Ethics (Core IV: Western Culture)	
Choose one course in each of the following fields (Core IV):		
Artistic Forms ³		
World Culture ³		
Core Area V: First-Year Experience		3
Choose one course		
Basic Business ⁴		22
ACCT 2113	Fundamental Financial Accounting ⁵	
ACCT 2123	Fundamental Managerial Accounting ⁵	
B AD 1001	Personal Computing Productivity Tools	
B C 2813	Strategic Communication for Business Professionals ⁵	
ECON 1113	Principles of Economics-Macro (Core III-SS) ^{2,5}	
ECON 1123	Principles of Economics-Micro (Core III-SS) ^{2,5}	
ECON 2843	Elements of Statistics (Core I-M) ⁵	
MIS 2113	Computer-Based Information Systems ⁵	
Total Credit Hours		59-69

¹ Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743

² Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement.

³ It is recommended students take either World Culture or Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course outside the major from the approved University-Wide General Education. It may also be satisfied in the upper-division or free elective categories.

⁴ College requirement: courses are part of the degree candidacy application process that students must complete to earn degree candidacy and begin upper-division business courses.

⁵ Minimum grade of C required.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

1. Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU. Students must take a minimum of 24 hours of their upper-division business courses in residence for the Bachelor of Business Administration degree.
2. Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
3. Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
4. A combined maximum of 8 hours of general military experience and flight instruction courses will count toward the required hours.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

This major normally requires three semesters of study beyond the business core requirements.

³ May be free elective if artistic form, World culture or science is 3000- or 4000-level.

Leadership for Business Majors, Minor

Minimum Total Credit Hours: 15

Program Code: N635

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

A minimum of nine (9) hours must be completed at OU.

Courses for the minor may not be taken Pass/No Pass.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- **Students must achieve a minimum 2.50 GPA (OU and overall) in the minor coursework.**

Required Courses

Code	Title	Credit Hours
Prerequisite		
MGT 3013	Principles of Organization and Management	
Minor Courses		
Choose one from the following:		3
MGT 3133	Leading Individuals, Teams, and Organizations	
MGT 3710	Topics in Management (JCPenney Leadership Associates Only)	
MGT 3123	Supervision Skills	3
Electives		
Choose any three of the following in at least two categories:		9
International Leadership:		
B AD 3513	International Business	
MGT 4323	Managing Across Cultures	
Human Capital & Leadership:		
MGT 3363	Understanding Organizational Behavior	
MGT 4183	Managing Negotiations and Conflict	
MGT 3513	Managing Human Capital and Talent	
Experiential Leadership (JCPenney Leadership Associates Only):		
B AD 3700	Internship in Business Administration	
Outside of Price College of Business:		

PSY 4703	Psychology of Leadership (Prerequisite: senior standing or permission from instructor)
H R 3013	Introduction to Human Relations
Total Credit Hours	
15	

If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Management, Minor

Minimum Total Credit Hours: 15

Program Code: N658

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

Courses for the minor may not be taken Pass/No Pass.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- **Students must achieve a minimum 2.50 GPA (OU and overall) in the minor coursework.**

Required Courses

Code	Title	Credit Hours
Prerequisite		
MGT 3013	Principles of Organization and Management	3
Required		
MGT 3363	Understanding Organizational Behavior	3
MGT 3513	Managing Human Capital and Talent	3
Electives		
Choose 6 hours of upper-division MGT (3000-4000)		6
Total Credit Hours		15

If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Sports Business for Business Majors, Minor

Minimum Total Credit Hours: 15

Program Code: N853

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

Courses for the minor may not be taken Pass/No Pass.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- **Students must achieve a minimum 2.50 GPA (OU and overall) in the minor coursework.**

Required Courses

Code	Title	Credit Hours
Prerequisite		
MGT 3013	Principles of Organization and Management	3
Required		
MGT 3153	An Introduction to the Business of Sports	3
Electives		
Choose 9 hours MGT electives from the following:		9
MGT 3163	Licensing and Intellectual Property Management in Sports	
MGT 3173	Sports Logistics	
MGT 3193	Sports Marketing and Management	
MGT 3700	Management Internship for Credit ¹	
MGT 4173	Sports Management Practicum	
HES 4273	Sport Finance	
HES 4283	Sports Economics and Policy	
Total Credit Hours		15

¹ Internship must be pre-approved by Division Director. Only one internship may be used towards minor requirement.

If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Sports Business for Non-Business Majors, Minor

Minimum Total Credit Hours: 21

Program Code: N854

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students accepted in the minor will be given permission to enroll in the upper-division credit hours of the minor.

Sports Management minor for non-business majors will be restricted to no more than 15 new students per year. Student must have a 3.0 retention combined grade point average or better at the time of application. Students must have completed or be concurrently enrolled in the required lower division courses for the minor. Accepted students in the minor will be given permission to enroll in as many as eighteen upper-division credit hours for the minor.

The Sports Management Review Committee will evaluate applicants. Acceptance into the program will be based on academic performance in courses, activities, awards, work experience, and other measures indicative of future performance. Submit Application online at https://ousurvey.qualtrics.com/jfe/form/SV_5urBtBzwht3Uh93.

All upper division courses must be completed at OU.

Courses for the minor may not be taken Pass/No Pass.

Minimum OU and Combined GPA of 2.75 in courses completed in the minor.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major outside Price College of Business.
- **Students must achieve a minimum 2.75 GPA (OU and overall) in the minor coursework.**

Required Courses

Code	Title	Credit Hours
Prerequisite		
ECON 1123	Principles of Economics-Micro (grade of B or better)	3
Required		
MGT 2013	Introduction to Management	3
or MGT 3013	Principles of Organization and Management	
MGT 3153	An Introduction to the Business of Sports	3
Electives		
Choose 12 hours MGT electives from the following: ¹		12
MGT 3163	Licensing and Intellectual Property Management in Sports	
MGT 3173	Sports Logistics	
MGT 3183		
MGT 3193	Sports Marketing and Management	
MGT 3700	Management Internship for Credit ²	
MGT 4173	Sports Management Practicum	
HES 4273	Sport Finance	
HES 4283	Sports Economics and Policy	
Total Credit Hours		21

¹ Students pursuing the minor must complete MGT 3153 prior to taking these courses.

² Internship must be pre-approved by Division Director. Only one internship may be used towards minor requirement.

If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Esports Business, Undergraduate Certificate

Total Credit Hours 140

¹ Prebusiness course.

² University-Wide General Education course, refer to online listing.

³ May be free elective if Artistic Form, World Culture, or Science is 3000-4000-level.

⁴ These courses are dual-counted, fulfilling requirements for both the undergraduate degree and the graduate business degree (140 total hours with 12 shared hours).

Division of Management Information Systems

General Information

The Management Information Systems (MIS) Division includes a vibrant group of faculty, staff and students, collaborating to develop student skills, research and advance knowledge on information technologies for organizational use. Since its inception in 1995, the division has grown and thrived as a place for high quality information technology education and research.

The undergraduate major and minor program provides students the knowledge on latest information technologies and organizational applications, practical skill experiences with current tools, that enable them to design, develop, manage and use computer-based information systems in global organizations. The coursework prepares students to understand and apply technology concepts and tools on topics such as data structures, database management, programming, web design, systems analysis and design, business infrastructure and cybersecurity, business analysis, data analytics, enterprise resource planning, enterprise system architecture and project management. Through a field project capstone course, students interact and conduct work for a real-world organization, through an actual system design. The graduate program offers a full set of courses to obtain knowledge and skills on business data analytics by coverage of topics such as business intelligence, data warehousing, data science, predictive modeling, analytics programming, social analytics, visual analytics, health informatics, and health analytics. The doctoral program develops students that can conduct high-quality research and teaching to pursue careers in academia.

The MIS division has dedicated faculty who excel at teaching and research, and their accomplishments are globally recognized. They often earn awards from the college, university and professional organizations for outstanding research, teaching excellence, innovations and service to students and the institution. All faculty members work in a collaborative manner, engaging with students and business partners to regularly improve curriculum and offer the best information technology education.

Programs & Facilities

MIS Student Association

The MIS Student Association (MISSA) is one of the most active in the college. Through MISSA, students receive the opportunity to meet and talk with leading business professionals. Many students spend one or more summers in well-paid internship positions during their program here.

Center for MIS Studies

The Center for MIS Studies (CMISS) is a thriving industry-academic partnership that connect business and government leaders with MIS faculty and students on a regular basis for the mutual exchange of ideas to develop future technology talent and scholarship.

Undergraduate Study

Bachelor of Business Administration

The Management Information Systems, Bachelor of Business Administration (p. 964) provides a strong foundation and knowledge to apply information technologies to empower organizations. The program helps students understand the fundamentals of information technology, learn to apply it to solve business problems and add value in ways that could not have been done without the use of data and information.

Accelerated Program

The Management Information Systems, B.B.A./Management of Information and Technology, M.S. (p. 967) program is a great opportunity for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics

Minors

The MIS Minor coursework is designed to give students a practical understanding of the information technology tools businesses use to achieve their goals and complete their operations. The minor is perfect for students who wish to know how technologies can be used in different areas of business, and how they can productively use information technologies at work, thereby increasing potential job opportunities in their chosen areas of study.

- MIS Minor for Non-Business Majors (p. 966)
- MIS Minor for Business Majors (p. 966)

Undergraduate Certificate

- Business Intelligence and Analytics (p. 967)

Graduate Study

Master of Science

Management of Information and Technology

The Master of Science in Management of Information and Technology (p. 970) program offers a gamut of courses on applied organizational aspects of Big Data and Analytics with several choices available. Course topics include enterprise data modeling, enterprise data analytics with enterprise systems, business intelligence, social analytics, visual analytics, data science, predictive modeling, database design, data warehousing, advanced database technologies, cloud computing, distributed file processing systems, advanced analytics programming, project management, business infrastructure and cyber security. Popular analytics software and tools will be taught and students will conduct projects using these tools.

Business Analytics

The Master of Science in Business Analytics (p. 970) program focuses on statistical modeling, data warehousing and mining, programming, forecasting, and operations research techniques applied to the analysis of business organizations and performance.

Graduate Certificate

The Graduate Certificate in Digital Technologies (p. 971) provides an educational opportunity for those with a specific interest in the core MIT coursework, but do not wish to complete the full MS in MIT. Further, this program serves as a focus for those students matriculating in business or non-business OU graduate degree program who would benefit from a facility with information technology and using IT to solve problems and make decisions.

Dual MBA/MS in MIT

The joint MBA/MS in MIT program allows students to develop a broad general business background along with a deeper understanding of information technology. Students are given the information needed to manage information technology firms as well as other areas of business.

Courses

BIA 3713 Introduction to Business Intelligence and Analytics 3 Credit Hours

Prerequisite: MIS 2113; departmental permission; Student must be approved for degree candidacy by Price College of Business and must be accepted into the Business Intelligence and Analytics Certificate Program. This course will introduce concepts in Business Analytics (BA) and develop basic analytics skills with tools such as Microsoft Power BI. Through case studies, lectures and hands-on exercise, students will learn about Business Intelligence and Analytics relevant to business organizations. (Irreg.)

BIA 3723 Data Management and Presentation for Business Intelligence 3 Credit Hours

Prerequisite: MIS 2113 and BIA 3713 or concurrent enrollment in BIA 3713; departmental permission required; Student must be approved for degree candidacy by Price College and must be accepted into the Business Intelligence and Analytics Certificate Program. Students will learn to use dashboards to communicate large amounts of critical information as a narrative. There will be discussions through case studies of actual BI implementation in well-known corporations. This course is designed to show a managerial perspective to data and BI, but will involve practical hands-on experiences through which students can become skilled in using BI software. (Irreg.)

BIA 3733 Programming for Business and Artificial Intelligence 3 Credit Hours

Prerequisite: BIA 3713, BIA 3723, and departmental permission; must be accepted into the Business Intelligence and Analytics Certificate Program. An introduction to the tools for management and development of business intelligence. The course will introduce and compare several of the emerging tools for conducting data analysis in a business environment. (Irreg.)

BIA 4743 Data Mining for Business and Artificial Intelligence 3 Credit Hours

Prerequisite: BIA 3733 and departmental permission; must be accepted into the Business Intelligence and Analytics Certificate Program. In this course, we will review techniques that we have used quite often in data science, and then spend time in learning new methods in analytics. We will conduct data mining exercises and develop predictive models based on observed patterns in data. (Irreg.)

MIS 2113 Computer-Based Information Systems 3 Credit Hours

Prerequisite: undergraduate major in Business, prerequisite or concurrent enrolled in B AD 1001. The course educates students on how information technology facilitates organizations to achieve its goals and solve problems. Students will learn to use latest tools of information technology, conduct hands-on-exercises and solve problems. Hence, students will become familiar with advanced use of spreadsheet and database software, networking technologies, web and application programming languages, and business analytics methods. (F, Sp, Su)

MIS 3013 Introduction to Programming 3 Credit Hours

Prerequisite: MIS 2113 and Junior standing; student must be approved for degree candidacy by Price College. Introduce the basic principles of programming and design. Topics covered are language syntax, algorithm, development, logic structures, arrays and math function. (F, Sp)

- MIS 3033 Business Programming Languages 3 Credit Hours**
Prerequisite: student must be approved for degree candidacy by Price College; majors only; MIS 3013; and MIS 3353 or concurrent enrollment. May be repeated once with change of topic; maximum credit six hours. Various emerging programming languages and tools relevant to MIS applications. The basic syntax, code construction, and Object-oriented programming concepts and the business use of programming languages will be covered. Possible languages could include Visual Basic in the .Net framework, Java, and C#. (F, Sp)
- MIS 3213 Business Data Analysis 3 Credit Hours**
Prerequisite: student must have been approved for degree candidacy by Price College. This course will cover the use of end user computing tools such as spreadsheets to analyze various business problems. The course will introduce fundamental principles of business analysis and computer programming to develop solutions. Students may not receive credit for both MIS 3213 and MIS 3223. (F, Sp)
- MIS 3353 Databases 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; majors only; or permission. As organizations depend on data for their decisions, understanding database management is crucial. This course covers the structure, flow, and use of business data with an emphasis on data integrity. It covers conceptual data modeling, normalization, structured query language (SQL), physical database design and implementation, and data warehousing concepts. A team project with phased deliverables serves as the focal point. (F, Sp)
- MIS 3373 Systems Analysis and Design Theory 3 Credit Hours**
Prerequisite: 3353 or permission. A study of the structure and application of tools, technologies, and models for analyzing, designing, and evaluating information systems. Topics include: case tools, structured analysis, I/O design, rapid application development, simulation models, prototyping, human factors, alternatives, cost/benefit analysis, recommendations for a new system, implementation and post-evaluation. (F, Sp)
- MIS 3383 Electronic Business 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College or permission. The application of information technology to enable business processes (e.g., sales, manufacturing, procurement, financial accounting) across business enterprises. There is a substantial focus on Enterprise Resource Planning (ERP) systems, and students become familiar with the value and use of these systems in supporting everyday business activities. Students will make use and develop competency on popular ERP software. (F, Sp)
- MIS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- MIS 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to study materials not usually presented in regular courses. (F, Sp)
- MIS 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- MIS 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp)
- MIS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- MIS G4013 E-Commerce Web Design 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; MIS 3013 or MIS 3033, or instructor/departmental permission. Students will be exposed to fundamental principles of web design and development that can enable e-commerce and add business value. By programming and using tools, students will design and develop a website for an organization. They will understand how the website can be evaluated from an e-commerce perspective. (Sp)
- MIS G4313 Introduction to Business Analytics 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; senior standing; MIS 2113 or MIT 5602. Introduces students to concepts of business analytics and helps them develop skills to identify interesting insights from data. Students will be introduced to tools, techniques, and digital technologies that are relevant to business analysis and decision-making. While exploring these tools, the course will attend to applications across the different functional areas of business and organizations. (F, Sp)
- MIS G4363 Business Infrastructure and Cyber Security 3 Credit Hours**
(Crosslisted with HCB 4363) Prerequisite: Student must be approved for degree candidacy by Price College. Provides information necessary to gain an understanding of communications and telecommunications networks and cyber security concepts. Key topic areas of the course are: OSI and internet network models, standards and protocols, business infrastructure design (LAN, WLAN, Backbone Networks, WAN, Connection to the Internet), cyber security concepts, basic technical and managerial aspects of business infrastructure, and practitioner's concerns and perspectives. (F, Sp)
- MIS G4393 Enterprise Resource Planning Configuration 3 Credit Hours**
Prerequisite: MIS 3383, and student must be approved for degree candidacy by Price College; or permission of instructor. This course is designed to present an overview of key enterprise systems design concepts from a functional, technical, and implementation perspective. Emphasis is on the process-centered organization and how integrated systems are designed to support cross-functional business. (F, Sp)
- MIS G4433 Project Management 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; MIS 3353 or MGT 3013, or permission of instructor. Presents the technical, managerial, and organizational concepts and tactics associated with managing software development and/or acquisition projects. A project management software tool will be introduced and used at a very basic level. (Irreg.)

- MIS G4663 MIS Field Project 3 Credit Hours**
Prerequisite: MIS 3013, MIS 3353, and MIS 3033 or concurrent enrollment in MIS 3033; student must be approved for degree candidacy by Price College; or permission of instructor. Involves a field project for a client-business firm or other organization. Students will work closely with their client to perform an analysis, provide design alternatives, evaluate alternatives, develop and demonstrate a working model (prototype) of a part of the system, prepare a recommendation, and make a formal presentation to their client. (F, Sp)
- MIS G4693 Intelligent Robotic Automation 3 Credit Hours**
Prerequisite: MIS 3033 or MIS 3013 or departmental permission. This course introduces students to the latest intelligent robotic automation and AI technology (e.g., Chat GPT). Particular attention is given to emerging issues associated with the building and applications of AI technology architectures to enable efficient, effective, and adaptable business operations and strategies. It also provides hands-on exercises for building intelligent robots to address emerging business needs. (Sp)
- MIS G4703 Mobile Application Development 3 Credit Hours**
Prerequisite: MIS 3013, MGT 3013, MKT 3013, LS 3323, and FIN 3303; student must be approved for degree candidacy by Price College. Students will learn elements of good interface design for mobile devices, get an overall view of mobile app development, and build their own basic mobile app. (F, Sp)
- MIS G4723 Information Security 3 Credit Hours**
Prerequisite: MIS 3013; student must be approved for degree candidacy by Price College. The course covers the essentials of information security using a hands-on approach. Students will learn how computer security breaches occur and apply concepts learned. (F, Sp)
- MIS 4960 Directed Readings in Management Information Systems 1-3 Credit Hours**
1 to 3 hours. Prerequisite: 2113, 3013 or 3033, or permission. May be repeated once with change of topic; maximum credit six hours. Topics in the management of information systems. (F, Sp, Su)
- MIS 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- MIS 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- MIT 5012 Programming Fundamentals 2 Credit Hours**
Prerequisite: Graduate standing and MIT 5602 corequisite. This course will introduce programming concepts used for business data analysis. (F, Sp)
- MIT 5032 Analytics Programming 2 Credit Hours**
Prerequisite: graduate standing. Programming in languages used for data extraction and preparation of data for data analytics and data mining. Can be repeated with change of content; maximum credit 6 hours.
- MIT 5052 Programming Concepts for Business Data Analysis 2 Credit Hours**
Prerequisite: Graduate standing. This course will introduce programming concepts used for business data analysis. It is intended to get students comfortable with programming and to give them insight into how data is used in an application. (F)
- MIT 5302 E-Business Architectures 2 Credit Hours**
Prerequisite: Graduate standing in the Price College of Business and MIT 5602 or concurrent enrollment. A study of the basic concepts of telecommunications and distribution processing and their applications to e-business. Focus is on managerial issues related to telecommunications. (Irreg.)
- MIT 5352 Digital Innovation 2 Credit Hours**
Prerequisite: Graduate standing and MIT 5602. Digital innovation, enabled by various information and communication technologies, is quickly changing the world around us. This course will provide an understanding of digital innovation-enabled transformations in the business environment, and how individuals and teams leverage such innovations to create value and gain competitive advantage for organizations. (Irreg.)
- MIT 5432 Machine Learning 2 Credit Hours**
Prerequisite: Graduate standing and MIT 5032 (Python) or equivalent. This course will introduce machine learning and artificial intelligence techniques applied in business scenarios. Natural language processing as a tool to enable organizational problem-solving capability will be introduced. The course will assist students in enhancing their computational thinking and skills. (Irreg.)
- MIT 5602 Management Information Systems 2 Credit Hours**
Prerequisites: graduate standing; departmental permission. This course examines the role of information technology, and its management, in supporting an organization's (internally- and externally-focused) operations and strategies. Particular attention is given to issues associated with the funding and building of business and technology architectures to enable efficient, effective, and adaptable operational, tactical and strategic actions. (Irreg.)
- MIT 5612 Database Design and Administration 2 Credit Hours**
Prerequisite: graduate standing. This course is concerned with the design and governance of organizational data and its use. In this module, students will learn about the roles of database designers and administrators. Along the way, students will learn about the modeling techniques used by database designers to develop organizational databases and the standard language used to interface with databases. (Irreg.)
- MIT 5642 Emerging Topics in Information Technology 2 Credit Hours**
Prerequisite: Graduate standing and MIT 5602. Examines current issues and approaches to information technology. Students will examine issues involved in the management and understanding of emerging topics in IT. (Irreg.)
- MIT 5662 Project Management 2 Credit Hours**
Prerequisite: MIT 5602 or MIT 5622 and graduate standing. Focus on managing projects, including their implementation within an organization. A project is a complex, non-routine, one-time effort limited by time, budget, resources, and performance specifications designed to meet customer needs. The characteristics make project management a particularly challenging management task. Project management concepts apply to many other types of organizational activities, e.g., managing task forces and committees. Planning, organizing, staffing and controlling projects require traditional management skills, an understanding of quality assurance techniques, and an appreciation of the unique challenges of managing projects. (Irreg.)
- MIT 5672 ERP Business Processes 2 Credit Hours**
Prerequisite: Graduate standing in the Price College of Business and MIT 5602. This course covers key issues and trends of business strategies and technologies associated with Enterprise Resource Planning (ERP) systems. (Irreg.)

- MIT 5682 Business Data Analysis** **2 Credit Hours**
Prerequisite: graduate standing. Surveys analysis tools available in Excel relevant to business decision-making. The objective of the course is to be aware and comfortable with analytical techniques used for knowledge discovery, and to understand the power and potential of these tools in business settings. Also examines illustrations and applications across different functional areas. (Irreg.)
- MIT 5692 Managing ERP Systems** **2 Credit Hours**
Prerequisite: Graduate standing in the Price College of Business and MIT 5602. Enterprise Resource Planning (ERP) introduces students to enterprise systems and provides an overview of the managerial and technical issues in planning, designing, implementing, and extending enterprise systems and technologies. Focus of the course is managerial with some technical content and several hands-on exercises involving enterprise software from the industry leader SAP. (Irreg.)
- MIT 5702 Social Analytics** **2 Credit Hours**
Prerequisite: MIS 5682 or instructor permission. Introduce students to analytic and visualization techniques required for processing social and social media data. (Sp)
- MIT 5722 Cyber Security** **2 Credit Hours**
Prerequisite: Graduate standing. The course covers the essentials of information security using a hands-on approach. Students will learn how computer security breaches occur and apply concepts learned in an isolated lab environment. (F)
- MIT 5732 Management of Business Intelligence** **2 Credit Hours**
Prerequisites: graduate standing, MIT 5602; MIT 5612 or MIT 5772, or permission of instructor. This course will adopt a managerial perspective to recognizing the role of Business Intelligence and provide practical hands-on experience. Course sessions will help students understand how organizations could develop strategies to discover patterns in data and use this to compete in the global marketplace. (F, Sp)
- MIT 5742 Data Science and Analytics** **2 Credit Hours**
Prerequisite: graduate standing, MIT 5602 and MIT 5612, or permission of instructor. Students will compare and experience data science tools along with the newer tools and methods of analytics, with the goal of becoming knowledgeable in both sets of tools. (Sp)
- MIT 5752 Cloud Computing** **2 Credit Hours**
Prerequisite: graduate standing and departmental permission. Offers detailed discussion and hands-on exploration of technologies used to process, manage and store 'big data'. The ecosystem of products we will be focusing on surrounds Hadoop, including the Hadoop File System, MapReduce, and others. This course involves many labs and familiarity with SQL is helpful. Programming expertise is not required but optional materials will be provided. (F, Sp)
- MIT 5762 Enterprise Modeling** **2 Credit Hours**
Prerequisite: graduate standing; MIT 5602 and MIT 5742; or permission of instructor. An in-depth study of enterprise modeling techniques using an industry standard data mining technology suite. Students will develop a conceptual understanding of the major concepts used in data analytics along with in-depth use of corresponding computer software. (Sp)
- MIT 5772 Principles of Data Warehousing** **2 Credit Hours**
Prerequisite: Departmental permission, graduate standing, and MIT 5612. This class will introduce students to concepts relating to a data warehouse (DW), considered a core component of business intelligence and data analytics in an organization. Students will learn to use current tools to develop requirements and create and maintain a DW. Students will also learn to manipulate data in the DW to extract and generate analytical reports for employees. (Irreg.)
- MIT 5802 Advanced Database Management** **2 Credit Hours**
Prerequisite: Graduate standing; MIT 5612 and MIT 5602. This course covers the principles of design, use, and management of database technology, including data warehouses from a manager's perspective. Involves a number of exercises using a multi-user relational database management system and associated tools to address typical business problems. (F)
- MIT 5812 Cyberanalytics** **2 Credit Hours**
Prerequisite: MIT 5602, graduate standing, and departmental permission. The course introduces analytical methods and concepts focused on the use of cyber-analytics for security management. Topics of coverage span organizational strategies and policies, network and data management, plus internal and operational controls. (F, Sp)
- MIT 5822 Health Information Technologies** **2 Credit Hours**
Prerequisite: graduate standing, MIT 5602, or departmental permission. This course examines the application of health information technologies. It explores human computer interactions and emerging technologies for their impact on patient care and safety. The course also discusses the role of legal, regulatory, ethical, and security issues as they apply to clinical and consumer information technologies. (F)
- MIT 5832 Healthcare Information Systems** **2 Credit Hours**
Prerequisite: graduate standing, MIT 5602, or departmental permission. Students will apply project management and information systems development principles in developing an electronic health record software application to support healthcare decision-making. Students will also explore data manipulation and analytics using structured query language (SQL) and healthcare data analytics tools. (Irreg.)
- MIT 5842 Healthcare Analytics I** **2 Credit Hours**
Prerequisite: Graduate standing and MIT 5602 or concurrent enrollment. This course covers data management and presentation appropriate to understanding healthcare data.
- MIT 5852 Healthcare Analytics 2** **2 Credit Hours**
Prerequisite: Graduate standing and MIT 5602 or concurrent enrollment. This course covers various methods for analyzing and predicting outcomes from healthcare data using modern data modeling tools and systems. (Irreg.)
- MIT 5960 Directed Readings** **1-3 Credit Hours**
Prerequisite: graduate standing. 1 to 3 hours. May be repeated with change of topic; maximum credit six hours. Topics in management of information technology. (Irreg.)
- MIT 5970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- MIT 5980 Research for Master's Thesis** **2-9 Credit Hours**
Prerequisite: MIS 5622 and instructor permission, graduate standing. Variable enrollment, two to nine hours; maximum credit applicable toward degree, three hours. Acquaints students with the research process. Students propose research project, and then conduct the research including but not limited to, performing a literature review, collecting and analyzing data, and writing the thesis prior to the end of the semester. (F, Sp)

MIT 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

MIT 6713 Cognition and Decision Making in Management Information Systems 3 Credit Hours

Prerequisite: graduate standing. May be repeated; maximum credit nine hours. Ph.D. seminar addressing issues of cognition and decision making in information technology enabled settings. The course focuses on these issues in an organizational setting and considers cognition and decision making at the individual, group, and organizational levels. Topics may include: fundamental theories of cognition and decision making; technology support and influence on decision making and cognition; mechanisms to coordinate cognition across individuals, groups and organizations. (Irreg.)

MIT 6733 Governance and Control 3 Credit Hours

Prerequisite: PhD program, Price College of Business. Examines theories and empirical research regarding the governance and control (G&C) in organizations, with special attention to the role of technology in G&C equations. The assigned readings sample the arena of governance and control and should provide students with the range of topics that are informed and influenced by the arena as well as exposure to the state-of-the-art in theory and empirics of governance and control. (Irreg.)

MIT 6753 The Science and Analytics of Human-Technology Interactions 3 Credit Hours

Prerequisite: Graduate Standing. Attention will be focused on research relating to interactions between Humans and Information Technology (IT) artifacts, to identify facets that make these interactions productive and enjoyable. The course goals will be to get familiar on the theory foundations that help the science of HTI, become skilled in the use of data analytics tools, and complete a limited research study. Class discussions will span a broad range of topics that include among others, the science of human-technology interactions, visualization of data, designs of visual displays, support for employee's learning of IT, and gamification of HTI interactions. (F)

MIT 6960 Directed Readings in MIT 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of instructor. May be repeated as needed by Ph.D. students; maximum credit twelve hours. A study of current research and practice in information technology. (F, Sp, Su)

MIT 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

MIT 6973 Seminar in Management Information Systems 3 Credit Hours

Prerequisite: graduate standing. Covers topics from current research in information systems. May be repeated three time with change of content. (Irreg.)

MIT 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

MIT 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Chidambaram	Lakshmanan		2002	W. P. WOOD PROFESSOR OF MANAGEMENT INFORMATION SYSTEMS, 2002; PROFESSOR OF MANAGEMENT INFORMATION SYSTEMS, 2006; FACULTY FELLOW, OFFICE OF THE SENIOR VICE PRESIDENT AND PROVOST, 2017	PhD, Indiana Univ, 1989; MBA, Univ of Georgia, 1985; B Commerce, Loyola College, 1983
Dauffenbach	Robert	C	1990	PROFESSOR OF MANAGEMENT INFORMATION SYSTEMS, 1990; PROFESSOR OF ECONOMICS, 1990; MCCASLAND FOUNDATION PROFESSOR OF AMERICAN FREE ENTERPRISE, 2013	PhD, Univ of Illinois, 1973; MA, Wichita State Univ, 1969; BA, Wichita State Univ, 1968
Durcikova	Alexandra		2018	ASSOCIATE PROFESSOR OF MANAGEMENT INFORMATION SYSTEMS, 2018	PhD, Univ of Pittsburgh, 2004; MS, Comenius Univ, 1994
Feng	Xuan			ASSISTANT PROFESSOR OF MANAGEMENT INFORMATION SYSTEMS	PhD, Indiana Univ
Jensen	Matthew		2008	JOHN E. MERTES JR. PRESIDENTIAL PROFESSOR, 2013; ASSOCIATE PROFESSOR OF MANAGEMENT INFORMATION SYSTEMS, 2015; PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2018	PhD, Univ of Arizona, 2007; MA, Brigham Young Univ, 2002; BS, Brigham Young Univ, 2001
Miranda	Shaila	M	2002	JOHN E. MERTES, JR. PROFESSOR OF EXCELLENCE, 2017; PROFESSOR OF MANAGEMENT INFORMATION SYSTEMS, 2017	PhD, Univ of Georgia, 1991; MA, Columbia Univ, 1999; M Mgt Studies, Univ of Bombay, 1985; BA, Univ of Bombay, 1983

Santhanam Radhika		2013	PROFESSOR OF MANAGEMENT INFORMATION SYSTEMS, 2013; MICHAEL F. PRICE CHAIR IN BUSINESS, 2013	MBA, Univ of Mumbai, 1983; PhD, Univ of Nebraska, 1989; MS, Texas A&M Univ, 1986; BS, Univ of Madras, 1978

Management Information Systems, B.B.A.

Minimum Total Credit Hours: 120
 Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.50
 Major GPA - Combined and OU: 2.50
 Upper-Division Business Courses GPA - Combined and OU: 2.50

Program Code: B660

This program has changes pending Regents approval for 2024-25. These pending changes are not reflected here.

To enroll in upper-division business courses, students must be certified for degree candidacy and meet all prerequisites.

A maximum of six hours of transfer work will apply toward the major.

Major Requirements

Any 3000- or 4000-level MIS course will count in the Management Information Systems major grade point average unless otherwise specified, including additional hours taken to fulfill electives.

Code	Title	Credit Hours
MIS 3013	Introduction to Programming	3
MIS 3033	Business Programming Languages	3
MIS 3353	Databases	3

L S 3323	Legal Environment of Business	
MGT 3013	Principles of Organization and Management	
MKT 3013	Principles of Marketing and Supply Chain Management	
B AD 4013	Business Strategy and Policy (Capstone - to be taken last semester of senior year) ¹	
Additional Requirements		8
B AD 2091	Career Readiness I-Transitioning to the Workplace	
B AD 3091	Career Readiness II-Advancing in the Workplace	
ENT 2113	Innovation & Entrepreneurship	
FIN 2303	Business Finance	
Total Credit Hours		20

¹ Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		6-16
ENGL 1113	Principles of English Composition (Core I)	
ENGL 1213	Principles of English Composition (Core I)	
or EXPO 1213 Expository Writing		
Language (Core I) - Students who have completed two years of high school language are exempt from this general education requirement (0-10 hours).		
<i>Mathematics</i>		6
MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ¹	
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ¹	
Core Area II: Natural Science		7
Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)		
Core Area III: Social Science ²		
P SC 1113	American Federal Government (Core III)	3
Core Area IV: Arts and Humanities		12
HIST 1483	United States to 1865 (Core IV)	
or HIST 1493 United States, 1865 to the Present		

PHIL 1273	Introduction to Business Ethics (Core IV: Western Culture)	
Choose one course in each of the following fields (Core IV):		
Artistic Forms ³		
World Culture ³		
Core Area V: First-Year Experience		3
Choose one course		
Basic Business⁴		22
ACCT 2113	Fundamental Financial Accounting ⁵	
ACCT 2123	Fundamental Managerial Accounting	
B AD 1001	Personal Computing Productivity Tools	
B C 2813	Strategic Communication for Business Professionals ⁵	
ECON 1113	Principles of Economics-Macro (Core III-SS) 2, 5	
ECON 1123	Principles of Economics-Micro (Core III-SS) 2, 5	
ECON 2843	Elements of Statistics (Core I-M) ⁵	
MIS 2113	Computer-Based Information Systems ⁵	
Total Credit Hours		59-69

¹ Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743.

² Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement.

³ It is recommended students take either World Culture or Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course outside the major from the approved University-Wide General Education. It may also be satisfied in the upper-division or free elective categories.

⁴ College requirement: courses are part of the degree candidacy application process that students must complete to earn degree candidacy and begin upper-division business courses.

⁵ Minimum grade of C required.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

- Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU. Students must take a minimum of 24 hours of their upper-division business courses in residence for the Bachelor of Business Administration degree.
- Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
- Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.

4. A combined maximum of 8 hours of general military experience and flight instruction courses will count toward the required hours.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

This major normally requires three semesters of study beyond the business core requirements.

MIS for Business Majors, Minor

Minimum Total Credit Hours: 15**Program Code:** N660**The requirements for a minor must be completed concurrently with the major degree requirements.****No minor may be added by completing courses after receiving the bachelor's degree.**

Students must complete prerequisites for all courses.

A minimum of nine (9) hours must be completed at OU.

Courses for the minor may not be taken Pass/No Pass.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- **Students must achieve a minimum 2.50 GPA (OU and overall) in the minor coursework.**

Required Courses

Code	Title	Credit Hours
Prerequisite		
MIS 2113	Computer-Based Information Systems	3
Minor Courses		
MIS 3213	Business Data Analysis	3
MIS 3353	Databases	3
MIS 3383	Electronic Business	3

If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Business Intelligence and Analytics, Undergraduate Certificate

Minimum Total Credit Hours: 15

Program Code: T065

This program has changes pending Regents approval for 2024-25. These pending changes are not reflected here.

Certificate Requirements

Every employee requires data literacy. Therefore, all students graduating with an undergraduate degree must have data literacy skills. For students at the Price College of Business, this certificate is intended to provide the level of data literacy required by the companies that recruit business majors at the University of Oklahoma.

All courses counted toward the certificate must be completed with a C or better.

Code	Title	Credit Hours
MIS 2113	Computer-Based Information Systems	3
BIA 3713	Introduction to Business Intelligence and Analytics	3

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Additional information for master's degree students may be found in the Graduate College Bulletin.

Digital Technologies, Graduate Certificate

Minimum Total Hours: 12

Program Code: G317

The Graduate Certificate in Digital Technologies is intended to impart critical information technology and development skills to individuals with no formal training in Management of Information Technology. The graduate certificate will provide an educational opportunity for those with a specific interest in the core MIT coursework, but do not wish to complete the full MS in MIT. Further, it can serve as a focus for students matriculating in business or non-business graduate degree programs that would benefit from a facility with information technology and using IT to solve problems and make decisions. A total of 12 hours is required for the certificate.

Certificate Requirements

Code	Title	Credit Hours
MIT 5602	Management Information Systems	2
	Choose 10 hours from a list of graduate electives (p. 971)	10
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

General Information

The Division of Marketing and Supply Chain Management offers courses that prepare students for positions in marketing, supply chain management, and the business of healthcare. Classes provide comprehensive coverage of topics including product/service design, development, and commercialization, pricing of products and services; and promotion (through advertising sales promotion, and personal selling). Primary emphasis is placed on the distribution of products/services, including channel structure and physical delivery/logistics.

The division's faculty have a national reputation for expertise in marketing channels, marketing strategy, supply chain management, and the business of healthcare. All have academic credentials from leading U.S. schools, and many have significant business experience. The division faculty have a strong record of publication and research and use this knowledge in the classroom and as consultants to corporations.

Members have been elected to prominent leadership positions in professional associations.

Students will find a wide range of opportunities to interact with successful business executives, both formally in the classroom, and informally, through professional student organizations.

Programs & Facilities

Integrated Business Core

Students get hands-on, real-world training through Integrated Business Core. From brainstorming and market analysis to managing employees and the legal implications of business transactions to selling products and closing the books on the last sale, IBC develops the skills it takes to launch a successful business. All profits go to local non-profit charities along with 'sweat equity' of up to 500 hours of community service each semester.

Full Semester Study in Italy Program

Marketing & Supply Chain Management offers a full semester study in Italy program that allows students to study in Italy throughout the spring semester, and also provides opportunities for internships abroad as a part of this program, as well as the chance to experience Italian and European culture.

Undergraduate Study

Bachelor of Business Administration

Healthcare Business, Bachelor of Business Administration (p. 979) students take specialized interdisciplinary courses in healthcare marketing, ethical and regulatory issues, and supply chain. They obtain employment in organizations that sell to and service the hospitals and clinics in the healthcare industry, including pharmaceutical reps, and medical equipment agents.

Marketing, Bachelor of Business Administration (p. 981) students take courses that prepare them for careers involving retailing, negotiation/selling, international marketing, and new product development. Internships can greatly facilitate the job search process and prepare students for their first jobs. Students are strongly encouraged to do an internship.

Supply Chain Management, Bachelor of Business Administration (p. 983) provides an invaluable education experience based of real-world application of distribution, marketing, and management practices. Students take courses in logistics management, purchasing and buying behavior, production operations management, and inventory and materials management.

Accelerated Programs

The Marketing, B.B.A./Management of Information and Technology, M.S. (p. 989) and Supply Chain Management, B.B.A./Management of Information and Technology, M.S. (p. 995) accelerated programs are great opportunities for undergraduate students who are pursuing a BBA degree to earn a master's degree with a specialization in data analytics.

The Marketing, B.B.A./Supply Chain Management (Online), M.S. (p. 992) and Supply Chain Management, B.B.A./Supply Chain Management (Online), M.S. (p. 997) accelerated programs are great opportunities for undergraduate students who are pursuing a BBA degree to earn a master's degree in the field of supply chain management.

Minors

The Digital Marketing for Business Majors, Minor (p. 986) and Digital Marketing for Non-Business Majors, Minor (p. 986) provide the practical knowledge and insights required to establish objectives and strategies, properly select the digital marketing platforms to engage consumers, and monitor and measure the results of these efforts.

The Franchising Minor (p. 987) enhances the credentials of Price College students and creates a more attractive recruit. The minor serves all Price College majors but is particularly beneficial in conjunction with a Marketing Major as a means to increase placement opportunities.

The Healthcare Minor (p. 987) offers additional perspective and credentials that supplements the student's business degree, making them desirable recruits and better prepared employees for hospitals, clinics, and related healthcare organizations.

The Marketing Minor (p. 987) and the Marketing for Non-Business Majors, Minor (p. 988) introduce the field of marketing.

The Supply Chain Management for Business Majors, Minor (p. 988) and the Supply Chain Management for Non-Business Majors, Minor (p. 989) introduce the field of supply chain management.

Graduate Study

Master of Science

The Master of Science in Supply Chain Management (Online) (p. 1000) seeks to enhance and expand the career and educational opportunities for working professionals in a variety of key industries such as aerospace, defense, healthcare, and high tech, telecommunication, transportation, supply chain, within the State of Oklahoma, the United States, and the broader global community, by providing a unique and high-level educational experience focused on fundamental and advanced topics in the field of supply chain management. The course of study will be delivered in a fully online format. The program will be taught by leading scholars in the field, who are faculty of the Division of the Price College of Business and leading executives and practitioners, who will bring modern thought on best practices from the literature and field into the classroom.

Graduate Certificate

The Graduate Certificate in Supply Chain Management (Online) (p. 1000) is designed for professionals, particularly those who have advanced leadership, analysis, innovation and technology skills to adapt to current and future disruption of technology in SCM.

Courses

HCB 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisite: ENGL 1113 or equivalent, and permission of instructor; ACCT 2123 or concurrent enrollment; Math 1743 or Math 1823 or MATH 1914; May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

HCB 3613 Healthcare Marketing and Administration 3 Credit Hours
(Crosslisted with MKT 3613) Prerequisite for Business Majors: Business Candidacy & MKT 3013 Prerequisite for Non-business Majors: MKT 2013 or 3013. Healthcare organizations must be prepared to shift their strategies in order to meet the increasing demands in this dynamic market. The purpose of this course is to apply the systems of marketing and administration to the problems of health care organizations and provide an insight to the business problems healthcare organizations are likely to encounter. (F, Sp)

HCB 3633 Healthcare Finance 3 Credit Hours
Prerequisite: HCB 3613, student must be approved for degree candidacy by Price College, sophomore standing, ACCT 2123 or concurrent enrollment, and MATH 1743 or MATH 1823 or MATH 1914. This course will be organized into four separate modules designed to provide students with a background in finance within the healthcare industry. Students will be impacted with the necessary knowledge of tools utilized in accounting and finance, financial management strategy and principles in the Healthcare industry. (F, Sp)

HCB 3643 Healthcare Planning, Budgeting & Accounting 3 Credit Hours
Prerequisite: HCB 3613; student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. A budget is an organization's operating plan expressed in monetary terms. It defines goals, outlines how operations are conducted and sets performance standards. Budgets provide a framework to set and pursue goals and evaluate the organization's performances. This course is designed to give students knowledge of different types of budgeting procedures and how to apply them to the healthcare industry. (F, Sp)

HCB 3653 Decision Modeling for Healthcare 3 Credit Hours
Prerequisite: HCB 3613; student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. This course will provide an overview of analytical techniques used to model complex healthcare problems to address strategic, tactical, and operational issues. We will address how decisions relating to forecasting,, resource allocation, project management, healthcare supply chain can be improved through the use of analytical models. (F, Sp)

HCB 3703 Applied Project in the Business of Healthcare 3 Credit Hours
Prerequisite: HCB 3613; student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. The purpose of this course is to introduce the student to the various nuances of health care organizations and provide an insight to the business problems healthcare organizations are likely to encounter. (F, Sp)

HCB 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

HCB 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

HCB 4613 Ethical and Regulatory Issues in Healthcare 3 Credit Hours
(Crosslisted with MKT 4613) Prerequisite: MKT 3013, HCB 3613 or MKT 3613, LS 3323 prerequisite or concurrent enrollment; student must be approved for degree candidacy by Price College. This course explores the complex moral, ethical and legal issues that continue to arise within the healthcare profession, providing an opportunity to apply concepts learned in previous course studies. Case studies and supplemental readings will augment the text in guiding the student to a better understanding of healthcare economics. (F, Sp)

HCB 4623 Competitive and Economic Environment of Healthcare 3 Credit Hours
(Crosslisted with MKT 4623) Prerequisite: for Business Majors: Business Candidacy, MKT/HCB 3613; for Non-business Majors: ECON 1123 and MKT/HCB 3613. A range of new governmental regulatory interventions in the healthcare arena and changes to the economic environment are linked to uncertainty in the structure of health insurance; the contractual arrangements and relationships that exist between patients, doctors, and hospitals. Explore these issues in detail and case studies that will guide the student to a better understanding of healthcare economics. (F, Sp)

HCB G4633 Healthcare Supply Chain Management 3 Credit Hours
(Crosslisted with SCM 4633) Prerequisite: MKT 3613 or HCB 3613; student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. The healthcare supply chain is a critical core business component of the healthcare delivery system. The purpose of this course is to bring an overview of the healthcare supply chain through the elements of the supply chain, the operational aspects and the strategic aspects of the integration of the supply chain with the clinical delivery of care. (F, Sp)

HCB 4643 Lean Six-Sigma in Healthcare 3 Credit Hours
Prerequisite: Student must be approved for degree candidacy by Price College; Math 1743 or MATH 1823 or MATH 1914; ACCT 2123 or concurrent enrollment; MKT 3613 or HCB 3613. Lean Six Sigma in Healthcare is designed to provide a step-by-step guide to the DMAIC process, which will provide a valuable continuous improvement framework for students to address problems in the healthcare industry and other sectors of business. Students will be given a thorough overview of Lean Six Sigma. (Sp)

HCB 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MKT 2013 Introduction to Marketing and Supply Chain Management 3 Credit Hours
Prerequisite: Non-Majors only and sophomore standing. This course provides a foundational understanding of the intertwined disciplines of Marketing & Supply Chain Management; two critical components of modern business operations. Not open to Business majors and may not count toward degree requirements for the BBA degree. (F, Sp)

MKT 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

MKT 3013 Principles of Marketing and Supply Chain Management**3 Credit Hours**

Prerequisite: ACCT 2123 or concurrent enrollment, MATH 1743 or MATH 1823 or MATH 1914, and student must be approved for degree candidacy by Price College. MKT 3013 provides a foundational understanding of the intertwined disciplines of Marketing & Supply Chain Management; two critical components of modern business operations. Students will gain a familiarity with each field and the terminology, learn core concepts, strategies, and best practices of both areas, explore the interaction between the two fields. (F, Sp, Su)

MKT 3053 Marketing Research**3 Credit Hours**

Prerequisite: Students must be approved for degree candidacy by Price College; MKT 3013. Provides students with an understanding of the role of marketing research in organizations and how marketing research is implemented. Topics include: the value of primary and secondary data, methods for data collection and analysis, and how research errors can be avoided. The course will enhance students' ability to work in teams and effectively communicate facts and opinions to solve problems. (F, Sp)

MKT 3223 Logistics Management**3 Credit Hours**

(Crosslisted with SCM 3223) Prerequisite: Student must be approved for degree candidacy by Price College, 3013 or concurrent enrollment. The physical supply and distribution function in business management, including channel selection, transportation, facility location and materials management; concentrates on the analytical and managerial methods necessary for the development and control of an integrated logistics system. (F, Sp)

MKT 3323 Consumer Behavior**3 Credit Hours**

Prerequisite: Students must be approved for degree candidacy by Price College; MKT 3013 or concurrent enrollment; ACCT2123 or concurrent enrollment. This course is an introduction to the world of consumer (customer) behavior and their purchasing habits. The internal and external influences on the consumer are studied in the context of forming marketing strategies and tactics. Topics include cultural values, demographics, subcultures, reference groups, lifestyles, perception, learning, memory, motivation, personality, emotion, and attitudes. (F, Sp)

MKT 3343 Retailing Management**3 Credit Hours**

Prerequisite: Student must be approved for degree candidacy by Price College, MKT 3013. An analytical approach to the management of retail institutions. Addresses strategic and operating level decision making related to delivery of products and services to consumers, focusing on each of the four dimensions of the marketing mix. Includes modules on electronic commerce and ethical responsibility. (F, Sp)

MKT 3413 New Product Development**3 Credit Hours**

Prerequisite: Student must be approved for degree candidacy by Price College; MKT3013 & MKT3053. Focuses on the development of ideas for new or established organizations, creating an environment conducive to innovation, recognizing business opportunities, assessing the market, customer and competitor situation. The development of these ideas leads to a feasibility analysis. Examines the development of a sales and distribution structure (including franchising, distributorship, and licensing and alliances), understanding segmentation, targeting, and niching. (F, Sp)

MKT 3440 Mentored Research Experience**3 Credit Hours**

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

MKT 3513 Social Media Marketing**3 Credit Hours**

Prerequisite: Student must be approved for degree candidacy by Price College; MKT3013 or concurrent enrollment; ACCT2123 or concurrent enrollment. The new sectors of Social Media and Digital Marketing are exploding in new technology, resulting in fundamental shifts in the way marketers communicate and interact with consumers. This course provides the practical knowledge and insights required to establish objectives and strategies, properly select the social media platforms to engage consumers and monitor the results of these efforts. (F, Sp)

MKT 3613 Healthcare Marketing and Administration**3 Credit Hours**

(Crosslisted with HCB 3613) Prerequisite for Business Majors: Business Candidacy & MKT 3013 Prerequisite for Non-business Majors: MKT 2013 or 3013. Healthcare organizations must be prepared to shift their strategies in order to meet the increasing demands in this dynamic market. The purpose of this course is to apply the systems of marketing and administration to the problems of health care organizations and provide an insight to the business problems healthcare organizations are likely to encounter. (F, Sp)

MKT 3713 Fundamentals of Franchising**3 Credit Hours**

(Crosslisted with FRAN 3713) Prerequisite: Business Candidacy and 3000 level core or concurrent enrollment. Provides a fundamental understanding of the franchising business model to showcase its unique differential advantages over alternative conventional systems of distribution. In particular, the course will focus on introducing students to operational issues, information flows, financial considerations and relationship processes involved in franchising. (F, Sp)

MKT 3960 Honors Reading**1-3 Credit Hours**

Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted honors candidate to study materials not usually presented in regular courses. (F, Sp, Su)

MKT 3970 Honors Seminar**1-3 Credit Hours**

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

MKT 3980 Honors Research**1-3 Credit Hours**

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

MKT 3990 Independent Study**1-3 Credit Hours**

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

- MKT 4123 Professional Selling and Negotiations 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; MKT3013. Addresses the field sales effort of the firm with emphasis on tactical analysis. It examines professional selling as the negotiation process that provides the link between firm and customer with a focus on both the oral and written communication involved. The thrust of the course is application and the view is first line and tactical. (F, Sp)
- MKT 4143 Digital Marketing 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; MKT 3013. This course provides the practical knowledge and insights required to establish objectives and strategies, properly select the digital marketing platforms to engage consumers, monitor and measure the results of these efforts. Learn how to manage, analyze a successful digital marketing presence for an organization, techniques for gaining internal/external influences to achieve organizational goals that benefit society as a whole. (F, Sp)
- MKT 4173 Marketing Analytics 3 Credit Hours**
Prerequisite: Students must be approved for degree candidacy by Price College; MKT3013 and MKT3053. This will be an exciting, hands-on course which will give you a variety of tools to help you understand, manipulate and add value to data thereby allowing you and others to make better business decisions. (F, Sp, Su)
- MKT 4303 International Advertising 3 Credit Hours**
(Crosslisted with JMC 4303) Prerequisite: JMC 3303 or special permission. May be repeated once with change of subject matter; maximum credit six hours. Designed to provide basic understanding of advertising and culture that applies to advertising in non-American locations. (Irreg.)
- MKT G4333 Marketing Strategy and Policy 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; MKT3013, MKT3053 & MKT3323. Major topics addresses are strategic marketing, product management, pricing management and marketing ethics. (F, Sp)
- MKT 4523 International Marketing 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; MKT3013. Study of marketing concepts and their international marketing implications, dealing with international market structure, framework for multinational marketing, strategic guidelines for global marketing strategies, pricing, promotion, product and distribution strategies for international markets. Special assignments include case studies, country analysis, article reviews and a term paper on topic of special interest related to international marketing. (F, Sp)
- MKT 4613 Ethical and Regulatory Issues in Healthcare 3 Credit Hours**
(Crosslisted with HCB 4613) Prerequisite: MKT 3013, HCB 3613 or MKT 3613, LS 3323 or concurrent enrollment; student must be approved for degree candidacy by Price College. This course explores the complex moral, ethical and legal issues that continue to arise within the healthcare profession, providing an opportunity to apply concepts learned in previous course studies. Case studies and supplemental readings will augment the text in guiding the student to a better understanding of healthcare economics. (F, Sp)
- MKT 4623 Competitive and Economic Environment of Healthcare 3 Credit Hours**
(Crosslisted with HCB 4623) Prerequisite: for Business Majors: Business Candidacy, MKT/HCB 3613; for Non-business Majors: ECON 1123 and MKT/HCB 3613; Not open to Marketing majors. A range of governmental regulatory interventions in the healthcare arena and changes to the economic environment are linked to uncertainty in the structure of health insurance; the contractual arrangements and relationships that exist between patients, doctors, and hospitals. Explore these issues in detail and case studies that will guide the student to a better understanding of healthcare economics. (F, Sp)
- MKT 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- MKT 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- MKT 5402 Marketing Management 2 Credit Hours**
Prerequisite: graduate standing; departmental permission. Covers marketing concepts of use to MBAs. Topics include the use of management information systems, pricing, product offerings, promotion, distribution and consumer behavior, as well as marketing segmentation and strategic marketing. (F, Sp)
- MKT 5960 Readings in Selected Fields of Marketing 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing and permission. May be repeated; maximum credit eight hours. Guided reading in selected fields of marketing; conferences with staff. Scope of reading and credit to be arranged on entry into course. The only passing grade given in this course is the neutral grade of S. (F, Sp, Su)
- MKT 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- MKT 5990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- MKT 6393 Core Theories in Marketing Research 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission of the Director, Price College of Business graduate programs. This seminar is designed to provide students with a broad exposure to the major theories in marketing research, especially in the marketing strategy literature. The goal is to provide a working knowledge of the important substantive topics and conceptual ideas that underlie historic and ongoing marketing strategy research. (Irreg.)

- MKT 6960 Directed Readings in Marketing 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing; permission of instructor, permission (Director, Price College of Business Graduate Programs). May be repeated as needed by Ph.D. students. Special reading programs are designed to enable graduate students (1) to extend their study to fields of marketing that are not covered in other courses and/or (2) to provide an opportunity for more extensive or intensive study of subjects covered in other courses. (F, Sp, Su)
- MKT 6970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- MKT 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- MKT 6990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- SCM 2113 Introduction to Logistics and Supply Chain Management 3 Credit Hours**
Course is designed to familiarize and present business related topics to majors in other disciplines of study. Topics will vary and may encompass all divisions within the Price College of Business. (F, Sp)
- SCM 3113 Principles of Supply Chain Management 3 Credit Hours**
Prerequisite: Student must be approved for business degree candidacy; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. Firms of all kinds are attempting to improve their competitive positions by strategically managing the flow of raw materials, work-in-process inventories and finished goods. This course is built around the topic of managing the supply chain that plans, sources, makes and delivers an organization's good and/or services - from suppliers of raw materials through to the final customer. (F, Sp)
- SCM 3123 Procurement and Strategic Sourcing 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; SCM 3113; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. Procurement and Strategic Sourcing addresses the processes that facilitate the structure, creation and management of value-added transaction and relationships between supplier and customer organizations in a channel, supply chain, and integrated value system context. (F)
- SCM 3223 Logistics Management 3 Credit Hours**
(Crosslisted with MKT 3223) Prerequisite: Student must be approved for degree candidacy by Price College, Marketing 3013 or concurrent enrollment. The physical supply and distribution function in business management, including channel selection, transportation, facility location and materials management; concentrates on the analytical and managerial methods necessary for the development and control of an integrated logistics system. (F, Sp)
- SCM 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- SCM 3523 Production/Operations Management 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College, SCM 3113; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. A study of the principles and practices related to production and operations management including product decisions, process planning, project planning, work measurement, plant location, facilities layout, scheduling and associated analytical techniques. (F, Sp)
- SCM 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- SCM 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- SCM 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- SCM 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- SCM G4003 Global Supply Chain Management 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; SCM 3113, SCM 3123, SCM 3223, SCM 3523; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. Overview of current transportation and supply chain management practices, which is a dynamic process involving a constant flow of information, products, and funds between the supplier, manufacturer, wholesaler, retailer and the consumer. Includes a review of current case studies and provides managerial insights into what is considered the best practices. (F, Sp)
- SCM G4013 Supply Chain Modeling and Decision Making 3 Credit Hours**
Prerequisite: Student must be approved for degree candidacy by Price College; SCM 3113, SCM 3123, SCM 3223, SCM 3523; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. This course involves the development and application of analytical techniques to model complex supply chains to address strategic, tactical and operational issues. We will address how decisions relating to forecasting, resource allocation, transportation, project management, inventory management and supply networks can be improved through the use of analytical models. (F)

- SCM 4323 Applied Strategic Projects 3 Credit Hours**
Prerequisite: Majors only; SCM 3123, SCM 3223 or MKT 3223, and SCM 3523; Student must be approved for degree candidacy by Price College. Supply chain management is of critical importance to businesses, households and the health and welfare of the country and the world. SCM 4323 will provide an overview of current supply chain management practices, which is a dynamic process that involves a constant flow of information, products, and funds between the supplier, manufacturer, wholesaler, retailer, and the consumer. (Sp)
- SCM G4633 Healthcare Supply Chain Management 3 Credit Hours**
(Crosslisted with HCB 4633) Prerequisite: MKT 3613 or HCB 3613; student must be approved for degree candidacy by Price College; ACCT 2123 or concurrent enrollment; MATH 1743 or MATH 1823 or MATH 1914. The healthcare supply chain is a critical core business component of the healthcare delivery system. The purpose of this course is to bring an overview of the healthcare supply chain through the elements of the supply chain, the operational aspects and the strategic aspects of the integration of the supply chain with the clinical delivery of care. (F, Sp)
- SCM 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- SCM 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- SCM 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- SCM 5402 Logistics, Distribution and Transportation Management 2 Credit Hours**
Prerequisite: Graduate Standing; departmental permission; and SCM 5502 or concurrent enrollment. This course explores logistics, distribution, and transportation management by leveraging current events and case studies. Topics include planning, controlling, implementing, forwarding, and reversing the flows of goods, services, and information. This is an integrated course meant to offer a framework to improve personal managerial skills and professionalism in supplies management practices through analyzing logistics activities. (Irreg.)
- SCM 5422 Strategic Sourcing and Supply Management 2 Credit Hours**
Prerequisite: Graduate Standing; departmental permission; and SCM 5502 or concurrent enrollment. Recognized as one of the key areas in supply chain management, strategic sourcing and supply management plays a role in maximizing value in the integrated supply chain. We will discuss advanced concepts, analytical tools, strategic and practical issues, and solutions in strategic sourcing and supply management across multiple major industry sectors. (Irreg.)
- SCM 5502 Fundamentals of Supply Chain 2 Credit Hours**
Prerequisite: Graduate standing; departmental permission. This course dives into the fundamentals of supply chain and is divided into five sections, including (1) supply chain management: an overview, (2) supply issues in supply chain management, (3) operations issues in supply chain management (4) distribution issues in supply chain management, and (5) integration issues in supply chain management. (F)
- SCM 5522 Planning and Operations Management 2 Credit Hours**
Prerequisite: Graduate standing; departmental permission. In this course, we will discuss advanced concepts of operations planning, operations functions, current operations management practices, analytical techniques related to operations management problems, and applying these concepts and techniques in practice. (Irreg.)
- SCM 5562 Supply Chain Excellence in a Global World 2 Credit Hours**
Prerequisite: Graduate Standing; departmental permission; and SCM 5402 or concurrent enrollment; and SCM 5422 or concurrent enrollment; and SCM 5522 or concurrent enrollment. Supply Chain is truly global in today's world markets, and an up-to-date perspective is needed as the world is changing daily. Logistics is a key driver of globalization, and a facilitator of international trade and development with an ever search for excellence. We will focus on interdependent flows: materials, data, and resources worldwide, with a lens on quality and distinction. (Irreg.)
- SCM 5572 Modeling, Analytics, and Decision Making 2 Credit Hours**
Prerequisite: Graduate standing; departmental permission; and SCM 5402 or concurrent enrollment; and SCM 5422 or concurrent enrollment; and SCM 5522 or concurrent enrollment. This course will provide an overview of analytical techniques used to model complex supply chain problems to address strategic, tactical, and operational issues. We will address how decisions relating to forecasting, resource allocation, transportation, project management, inventory management, and supply networks can be improved by analytical models. (Irreg.)
- SCM 5582 Current Topics in Supply Chain Management 2 Credit Hours**
Prerequisite: Graduate standing; departmental permission; and SCM 5402 or concurrent enrollment; and SCM 5422 or concurrent enrollment; and SCM 5522 or concurrent enrollment. Supply chain management occurs in a world that is constantly changing. This course is designed to examine the current issues and challenges that face the supply chain managers and executives during the period that this course is taught. (Irreg.)
- SCM 5602 Integrated Supply Chain Capstone 2 Credit Hours**
Prerequisite: Graduate standing; departmental permission; and SCM 5562 or concurrent enrollment; and SCM 5572 or concurrent enrollment; and SCM 5582 or concurrent enrollment. The student will gain an understanding of strategic sourcing and SCM and will develop critical thinking skills involving how the components of supply chain management work together to create value. The student will be introduced to decision analytic tools and their use in decision-making in SCM to develop an appreciation of the impact on the performance of the company. (Irreg.)
- SCM 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- SCM 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

SCM 5990 Independent Study**1-3 Credit Hours**

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Healthcare Business, B.B.A.

Minimum Total Credit Hours: 120
Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.50
Major GPA - Combined and OU: 2.50
Upper-Division Businesses Courses GPA - Combined and OU: 2.50

Program Code: B498

This program has changes pending Regents approval for 2024-25. These pending changes are not reflected here.

To enroll in upper-division business courses, students must be certified for degree candidacy and meet all prerequisites.

A maximum of six hours of transfer work will apply toward the major.

Major Requirements

Any 3000- or 4000-level HCB course will count in the Healthcare Business major grade point average unless otherwise specified, including additional hours taken to fulfill electives.

Code	Title	Credit Hours
Required Courses		15
HCB 3613	Healthcare Marketing and Administration	
HCB 4613	Ethical and Regulatory Issues in Healthcare	
HCB 4623	Competitive and Economic Environment of Healthcare	
HCB 4633	Healthcare Supply Chain Management	
HCB 3703	Applied Project in the Business of Healthcare	
Major Elective		3

Choose 3 credit hours from the following:

HCB 3633	Healthcare Finance
HCB 3643	Healthcare Planning, Budgeting & Accounting
HCB 3653	Decision Modeling for Healthcare

Total Credit Hours 18

Required Courses

Code	Title	Credit Hours
Core Requirements		12
L S 3323	Legal Environment of Business	
MGT 3013	Principles of Organization and Management	
MKT 3013	Principles of Marketing and Supply Chain Management	
B AD 4013	Business Strategy and Policy (Capstone - to be taken last semester of senior year) ¹	
Additional Requirements		8
B AD 2091	Career Readiness I-Transitioning to the Workplace	
B AD 3091	Career Readiness II-Advancing in the Workplace	
FIN 2303	Business Finance	
ENT 2113	Innovation & Entrepreneurship	

Total Credit Hours 20

¹ Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		6-16
ENGL 1113	Principles of English Composition (Core I)	
ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 Expository Writing	
Language (Core I) - Students who have completed two years of high school language are exempt from this general education requirement (0-10 hours).		
Mathematics		6
MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ¹	
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ¹	
Core Area II: Natural Science		7

Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)

Core Area III: Social Science ²		
P SC 1113	American Federal Government (Core III)	3
Core Area IV: Arts and Humanities 12		
HIST 1483	United States to 1865 (Core IV) or HIST 1493 United States, 1865 to the Present	
PHIL 1273	Introduction to Business Ethics (Core IV: Western Culture)	
Choose one course in each of the following fields (Core IV):		
Artistic Forms ³		
World Culture ³		
Core Area V: First-Year Experience 3		
Choose one course		
Basic Business ⁴ 22		
ACCT 2113	Fundamental Financial Accounting ⁵	
ACCT 2123	Fundamental Managerial Accounting	
B AD 1001	Personal Computing Productivity Tools	
B C 2813	Strategic Communication for Business Professionals ⁵	
ECON 1113	Principles of Economics-Macro (Core III-SS) 2, 5	
ECON 1123	Principles of Economics-Micro (Core III-SS) 2, 5	
ECON 2843	Elements of Statistics (Core I-M) ⁵	
MIS 2113	Computer-Based Information Systems ⁵	
Total Credit Hours		59-69

¹ Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1823
² Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement.
³ It is recommended students take either World Culture or Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course outside the major from the approved University-Wide General Education. It may also be satisfied in the upper-division or free elective categories.
⁴ College requirement: courses are part of the degree candidacy application process that students must complete to earn degree candidacy and begin upper-division business courses.
⁵ Minimum grade of C required.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. B AD 2110, B AD 2113, MGT 2013, and MKT 2013 will not count for credit toward a BBA.

Additional Requirements

1. Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU. Students must take a minimum of 24

hours of their upper-division business courses in residence for the Bachelor of Business Administration degree.

2. Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
3. Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
4. A combined maximum of 8 hours of general military experience and flight instruction courses will count toward the required hours.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

This major normally requires three semesters of study beyond the business core requirements.

Program Code: B857

This program has changes pending Regents approval for 2024-25. These pending changes are not reflected here.

To enroll in upper-division business courses, students must be certified for degree candidacy and meet all prerequisites.

A maximum of six hours of transfer work will apply toward the major.

Major Requirements

Any 3000- or 4000-level SCM course will count in the Supply Chain Management major grade point average unless otherwise specified.

Code	Title	Credit Hours
SCM 3113	Principles of Supply Chain Management	3
SCM 3123	Procurement and Strategic Sourcing	3
SCM 3223	Logistics Management	3
SCM 3523	Production/Operations Management	3
SCM 4003	Global Supply Chain Management	3
SCM 4323	Applied Strategic Projects	3
SCM 4013	Supply Chain Modeling and Decision Making	3
Total Credit Hours		21

Required Courses

Code	Title	Credit Hours
Core Requirements		12
L S 3323	Legal Environment of Business	
MGT 3013	Principles of Organization and Management	
MKT 3013	Principles of Marketing and Supply Chain Management	
B AD 4013	Business Strategy and Policy (Capstone - to be taken last semester of senior year) ¹	
Additional Requirements		8
B AD 2091	Career Readiness I-Transitioning to the Workplace	
B AD 3091	Career Readiness II-Advancing in the Workplace	
ENT 2113	Innovation & Entrepreneurship	
FIN 2303	Business Finance	
Internship or study abroad to be pre-approved by the MKT/SCM Division		
Total Credit Hours		20

¹ Requires completion of all other business core courses prior to enrollment and permission from Price Academic Advising Services.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published at <http://www.ou.edu/gened/courses>.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		6-16
ENGL 1113	Principles of English Composition (Core I)	
ENGL 1213	Principles of English Composition (Core I)	
	or EXPO 1213 Expository Writing	
Language (Core I) - Students who have completed two years of high school language are exempt from this general education requirement (0-10 hours).		
<i>Mathematics</i>		6
MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ¹	
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ¹	
Core Area II: Natural Science		7
Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)		
Core Area III: Social Science ²		
P SC 1113	American Federal Government (Core III)	3
Core Area IV: Arts and Humanities		12
HIST 1483	United States to 1865 (Core IV)	
	or HIST 1493 United States, 1865 to the Present	
PHIL 1273	Introduction to Business Ethics (Core IV: Western Culture)	
Choose one course in each of the following fields (Core IV):		
Artistic Forms ³		
World Culture ³		
Core Area V: First-Year Experience		3
Choose one course		
Basic Business ⁴		22
ACCT 2113	Fundamental Financial Accounting ⁵	
ACCT 2123	Fundamental Managerial Accounting	
B AD 1001	Personal Computing Productivity Tools	
B C 2813	Strategic Communication for Business Professionals ⁵	
ECON 1113	Principles of Economics-Macro (Core III-SS) ^{2, 5}	
ECON 1123	Principles of Economics-Micro (Core III-SS) ^{2, 5}	
ECON 2843	Elements of Statistics (Core I-M) ⁵	
MIS 2113	Computer-Based Information Systems ⁵	
Total Credit Hours		59-69

¹ Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MATH 1743

² Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement.

³ It is recommended students take either World Culture or Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course outside the major from the approved University-Wide General Education. It may also be satisfied in the upper-division or free elective categories.

⁴ College requirement: courses are part of the degree candidacy application process that students must complete to earn degree candidacy and begin upper-division business courses.

⁵ Minimum grade of C required.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. The following is suggested: MKT 4123. The following courses will not count for credit toward a BBA: B AD 2110, B AD 2113, MGT 2013, and MKT 2013.

Additional Requirements

1. Candidates for the B.B.A. degree must complete their last 30 hours as resident students in Price College. However, if a candidate has completed the last 51 hours as a resident student at the University of Oklahoma, 9 of the last 60 hours may be taken at another university or by correspondence from OU. Students must take a minimum of 24 hours of their upper-division business courses in residence for the Bachelor of Business Administration degree.
2. Pass/No Pass **will not** be accepted for any upper-division Business or General Education courses or any specifically required courses.
3. Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
4. A combined maximum of 8 hours of general military experience and flight instruction courses will count toward the required hours.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

This major normally requires three semesters of study beyond the business core requirements.

¹ Prebusiness course.

² University-Wide General Education course, refer to online listing.

³ May be free elective if artistic form, World culture, or science is 3000- or 4000-level.

Digital Marketing for Business Majors, Minor

Minimum Total Credit Hours: 15

Program Code: N292

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

Courses for the minor may not be taken Pass/No Pass.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- **Students must achieve a minimum 2.50 GPA (OU and overall) in the minor coursework.**

Required Courses

Code	Title	Credit Hours
MKT 3513	Social Media Marketing ¹	3
MKT 3013	Principles of Marketing and Supply Chain Management	3
MKT 4143	Digital Marketing	3
MKT 3053	Marketing Research ¹	3
MKT 4173	Marketing Analytics	3
Total Credit Hours		15

¹ For Marketing majors only - Choose six hours of MKT courses (excluding MKT 3013) not already applied towards major requirements to substitute for MKT 3513 and MKT 3053.

If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Digital Marketing for Non-Business Majors, Minor

Minimum Total Credit Hours: 15

Program Code: N293

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students accepted in the minor will be given permission to enroll in the upper-division credit hours of the minor.

Students must have a 3.0 retention combined grade point average or better at the time of application.

The Marketing Review Committee will evaluate applicants. Acceptance into the program will be based on academic performance in courses, activities, awards, work experience, and other measures indicative of future performance.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

Courses for the minor may not be taken Pass/No Pass.

Minimum OU and Combined GPA of 2.50 in courses completed in the minor.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major outside Price College of Business.
- **Students must achieve a minimum 2.50 GPA (OU and overall) in the minor coursework.**

Required Courses

Code	Title	Credit Hours
MKT 2013	Introduction to Marketing and Supply Chain Management	3
MKT 3053	Marketing Research	3
MKT 3513	Social Media Marketing	3
MKT 4143	Digital Marketing	3
MKT 4173	Marketing Analytics	3
Total Credit Hours		15

If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Franchising, Minor

Minimum Total Credit Hours: 15

Program Code: N440

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Students must complete prerequisites for all courses.

Students must complete at least nine (9) minor hours in residence at the University of Oklahoma.

Courses for the minor may not be taken Pass/No Pass.

No single course may be used to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

- The minor is only available to undergraduate students with a declared major within Price College of Business.
- **Students must achieve a minimum 2.50 GPA (OU and overall) in the minor coursework.**

Required Courses

Code	Title	Credit Hours

- ² Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement.
- ³ It is recommended students take either World Culture or Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course outside the major from the approved University-Wide General Education. It may also be satisfied in the upper-division or free elective categories.
- ⁴ College requirement: courses are part of the degree candidacy application process that students must complete to earn degree candidacy and begin upper-division business courses.
- ⁵ Minimum grade of C required.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. B AD 2110, B AD 2113, MKT 2013 and MGT 2013 will not count for credit toward a BBA.

Additional Requirements

1. Pass/No Pass **will not** be accepted for any Business or General Education courses or any specifically required courses.
2. Students must complete the GMAT exam with a score of 500 or greater.
3. Comprehensive written exam required at end of program.
4. Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
5. A combined maximum of 8 hours of general military experience and flight instruction courses will count toward the required hours.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

During the 2nd semester, third year:

- Take GMAT
- Interview for internship
- Apply for admission to Master's program

ENGL 1113	Principles of English Composition (Core I)	
ENGL 1213	Principles of English Composition (Core I) or EXPO 1213 Expository Writing	
Language (Core I) - Students who have completed two years of high school language are exempt from this general education requirement (0-10 hours).		
<i>Mathematics</i>		6
MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I) ¹	
MATH 1743	Calculus I for Business, Life and Social Sciences (Core I) ¹	
Core Area II: Natural Science		7
Natural Sciences - Choose two courses taken from the biological and/or physical sciences. The two courses must be from different disciplines and at least one course must include a laboratory component (Core II)		
Core Area III: Social Science ²		
P SC 1113	American Federal Government (Core III)	3
Core Area IV: Arts and Humanities		12
HIST 1483	United States to 1865 (Core IV) or HIST 1493 United States, 1865 to the Present	
PHIL 1273	Introduction to Business Ethics (Core IV: Western Culture)	
Choose one course in each of the following fields (Core IV):		
Artistic Forms ³		
World Culture ³		
Core Area V: First-Year Experience		3
Choose one course		
Basic Business ⁴		22
ACCT 2113	Fundamental Financial Accounting ⁵	
ACCT 2123	Fundamental Managerial Accounting	
B AD 1001	Personal Computing Productivity Tools	
B C 2813	Strategic Communication for Business Professionals ⁵	
ECON 1113	Principles of Economics-Macro (Core III-SS) ^{2, 5}	
ECON 1123	Principles of Economics-Micro (Core III-SS) ^{2, 5}	
ECON 2843	Elements of Statistics (Core I-M) ⁵	
MIS 2113	Computer-Based Information Systems ⁵	
Total Credit Hours		59-69

- ¹ Substitute: MATH 1523 for MATH 1643; MATH 1823 or MATH 1914 for MA 111/143
- ² Two courses, 6 hours, of Core III Social Science are required and one course must be P SC 1113. ECON 1113 or ECON 1123 will meet the other 3 hours of this requirement.
- ³ It is recommended students take either World Culture or Artistic Forms at the 3000/4000 level to fulfill the university requirement of one upper-division course outside the major from the approved University-Wide General Education. It may also be satisfied in the upper-division or free elective categories.
- ⁴ College requirement: courses are part of the degree candidacy application process that students must complete to earn degree candidacy and begin upper-division business courses.
- ⁵ Minimum grade of C required.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours. B AD 2110, B AD 2113, MKT 2013 and MGT 2013 will not count for credit toward a BBA.

Additional Requirements

1. Pass/No Pass **will not** be accepted for any Business or General Education courses or any specifically required courses.
2. Students must complete the GMAT exam with a score of 500 or greater.
3. Comprehensive written exam required at end of program.
4. Sixty hours, excluding physical education activity courses, must be taken at a baccalaureate degree-granting institution.
5. A combined maximum of 8 hours of general military experience and flight instruction courses will count toward the required hours.

Suggested Semester Plan of Study

Additional hours may be required if remedial math or language is required. Please see an academic counselor to develop a plan of study.

Apply for permission to take upper division business courses the semester in which you will complete the prebusiness courses¹.

During the 2nd semester, third year:

- Take GMAT
- Interview for internship
- Apply for admission to Master's program

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

COLLEGE OF CONTINUING EDUCATION

1700 Asp Avenue
Norman, OK 73072-6400
Phone: (405) 325-4414
FAX: (405) 325-7196
Outreach / OCCE Information

Administrative Officers

- Belinda P. Biscoe, Ph.D., Interim Senior Associate Vice President for University Outreach/College of Continuing Education

General Information

The University of Oklahoma Outreach/College of Continuing Education is a lifelong learning organization dedicated to helping individuals, businesses, groups, and communities transform themselves through knowledge. Nationally recognized for its pioneering efforts in continuing education, University Outreach extends the educational resources of the University of Oklahoma on campus, online, and at locations around the world.

Oklahoma Center for Continuing Education

Both University Outreach (College of Continuing Education) and the College of Professional and Continuing Studies are housed in the Oklahoma Center for Continuing Education (OCCE) complex. Originally designed as a comprehensive adult learning community for educational activities, OCCE is one of several W.K. Kellogg Foundation-funded centers in the world. OCCE provides a unique setting for individuals who have chosen this facility for their meetings, conferences, workshops, and seminars. The Thurman White Forum Building offers facilities for 1,000 participants through a combination of 15 meeting rooms, a computer lab, and the large auditorium-sized Forum Room that seats 600. Equipped with state of the art technology, the Forum can adapt to meet almost any group's conference requirements. On-site technical support is also available for the computer lab.

The OCCE complex includes the James P. Pappas Administration Building, the Pete Kyle McCarter Hall, and the Boomer Outreach Building, all of which house administrative staff for both OU Outreach/College of Continuing Education and the College of Professional and Continuing

Studies. In addition, ten duplex cottage units (Sooner Suites) provide an intimate atmosphere with each side featuring a kitchenette, living area, two double bedrooms, and a bath.

For more information on the Oklahoma Center for Continuing Education, call 405-325-7378.

Business, Community, and Education Services American Indian Institute

The American Indian Institute (Aii) provides culturally sensitive conferences, training, strategic planning services, and expert technical assistance to American Indian, Alaska Native, and Canadian First Nation tribes and bands. For more information, call 405-325-4127 or visit aii.ou.edu.

Center for Early Childhood Professional Development

The Center for Early Childhood Professional Development (CECPD) provides training and technical assistance for early care and education professionals, enabling them to provide improved educational foundations and quality of life for all Oklahoma children. CECPD professional development opportunities also include *Coaching Innovations*, professional development designed to train instructional coaches, and the *Early Learning Quick Assessments* (ELQA), literacy and numeracy formative assessments. To learn more about the CECPD and its collaborative partners, call 405-799-6383, email cecpd@ou.edu, or visit cecpd.org.

Center for Public Management

The Center for Public Management (CPM) began in 1994 as a satellite-training network for the Oklahoma Department of Human Services. CPM has since expanded its core services to become a comprehensive solution provider for public partners. CPM works with public agencies, nonprofits, and private industries to deliver cost-effective, customer-oriented solutions tailored to each client. CPM is capable of calling upon the vast resources of the entire University's faculty and staff to help continue to provide creative, effective solutions. To learn more, call 405-325-0519, email info@oucpm.org or visit oucpm.org.

Center for the Study of Small/Rural Schools

The University of Oklahoma's Center for the Study of Small/Rural Schools (CSSRS) is endorsed by the National Rural Education Association. Its clients include school boards, teachers, administrators, businesses, community groups, rural organizations, state and federal agencies, as well as international agencies and governments. The center aids small and rural schools through workshops, surveys, needs assessments, and technical assistance.

Conference Pros

Conference Pros began in 1996, providing conference logistics support services for federal and state programs. In 1997, they expanded services to include conference, meeting, and event planning services. Conference Pros aids local, regional, national, and international agencies and organizations in developing and conducting conferences that meet the specific needs of their direct clientele. Conference Pros benefits from the strengths of faculty at OU's College of Continuing Education, as well as a wide range of other resources and consultants in recommending appropriate expertise and presentation skills in various fields of study. The staff of Conference Pros has extensive experience and demonstrated success in designing content, providing logistical support, and conducting large national and international conferences of high impact, visibility, and national or international acclaim. For more

information, call Laurie Smith at 405-325-0751, Richard Feinberg at 405-325-7807, or visit conferencepros.org.

Center for Institutional Data Exchange and Analysis

The Center coordinates the Consortium for Student Retention Data Exchange (CSRDE), which includes higher education institutions that share data, knowledge, and innovation. CSRDE publishes four annual reports that provide timely, comprehensive, and comparative benchmarking data on college student retention, plus the electronic book, *Building Bridges for Student Success: A Sourcebook for Colleges and Universities*. CSRDE hosts the National Symposium on Student Retention and monthly webinars. For more information, call (405) 325-2158, email csrde@ou.edu, or visit csrde.ou.edu.

Corporate Online Education Programs

Outreach partners with Ed2Go to offer career-focused, online courses designed to provide the skills necessary to acquire professional caliber positions in many in-demand occupations. For more information, call 405-850-5594, email wboni@ou.edu, or visit Career Training Programs.

Educational Technical Assistance Services (EDUTAS)

EDUTAS at the University of Oklahoma Outreach engages and leads partners and stakeholders in learning conversations and collaborative work to improve education systems, policies, and practices. Our educational technical assistance and professional learning services focus on:

- Guiding complex systems change processes and initiatives;
- Improving instructional practice using evidence-based strategies;
- Developing leaders' capacity for building collective teacher efficacy to improve learner outcomes; and
- Driving equal opportunity through inclusive, excellent educational opportunities.

For more information visit edutas.org or call 405-325-3542.

Educational Training, Evaluation, Assessment and Measurement

Educational Testing, Evaluation, Assessment, and Measurement (E-TEAM) designs research tools and evaluations to help organizations understand and use data to solve real-world problems. E-TEAM works on projects for the public and private sectors that have a lasting effect on the community. The program helps community leaders determine what is best for the community through evaluation, assessment, and research. For more information, call 405-325-7186, e-mail us at eteam@ou.edu or visit us at eteam.ou.edu.

Fullstack

Powered by award-winning Fullstack Academy, the OU Outreach Bootcamps on cybersecurity and web development provide condensed, immersive programs taught by industry experts in convenient 100% live, online, or hybrid formats. The Bootcamp grads leave ready for lucrative high-tech careers in Oklahoma and beyond. For more information contact Dr. Nina Barbee, director of Outreach Continuing Education, at 405-361-5720 or at nbarbee@ou.edu.

KGOU/KROU Radio

KGOU Radio is a full-service public radio station presented as a community service through the University of Oklahoma Outreach. KGOU provides an essential program service to the citizens of Oklahoma. KGOU is an NPR-member station that delivers news, information, community

event calendars, discussion, and unique entertainment programming over the air and online. Its mission is to help people become deeply informed about issues that affect their lives, be better prepared to make decisions, and be more engaged in our community. KGOU teaches a practicum class and employs part-time student journalists from OU. For more information, call 405-325-3388, email manager@kgou.org, or visit www.kgou.org.

Medieval Fair

The Medieval Fair, held annually each spring since 1977, began as a forum for the English Department and later moved to University Outreach reflecting its impact on our community. It was recently recognized in 2011 by *Renaissance Magazine* as the second largest festival in the country of its type for the number of participants attending. It has grown into a program that is supported by the strong community of medieval enthusiasts in the Norman and Oklahoma City Metropolitan areas. During the academic year, a free lecture series is provided by university faculty from across the state of Oklahoma. The Medieval Fair transports patrons away from the worries and cares of today, back in time to the first market fair of spring 1360 in the town of Avalon where they can learn about and become a part of life in the Middle Ages. For more information, call (405) 325-8610, ameckart@ou.edu, or visit the Medieval Fair website.

National Center for Disability Education and Training

The National Center for Disability Education and Training improves independent living, employment, and career opportunities for people with disabilities. Through its model programs, NCDet proves that youth and adults with disabilities can be successfully employed. The center develops and delivers customized training programs for professionals in related disability fields. NCDet implements Project SEARCH and Pre-Employment Transition Services with high school students with disabilities across the state of Oklahoma. For more information, call 405-325-0158, email abaghda1@ou.edu or visit <https://ncdet.ou.edu/en/>.

National Resource Center for Youth Services

The National Resource Center for Youth Services (NRCYS) works to enhance the quality of life for the nation's youth and families by improving the effectiveness of human services through training, technical assistance, practical resources, and other targeted services. NRCYS supports public and private non-profit organizations in Oklahoma and across the country to build their capacity to support children, youth and families to thrive. For more information, call (918) 660-3700 or visit www.nrcys.ou.edu.

Public Service Institute

Managing change is critical for schools, faith-based organizations, public service organizations, and social organizations. A leader's response to change is often the greatest factor affecting the success or failure of his or her organization. The Public Service Institute teaches leaders how to allow their organizations to remain dynamic and supportive of clients despite a constantly changing environment. Most of the center's initiatives focus on building the capacity of multi-stakeholder partnerships to support transformational outcomes in developing countries. Through its focus on information access and capacity building, the Institute also promotes connectivity to improve living conditions in impoverished communities around the world. For more information, call 405-325-1712 or visit Public Service Institute.

Reading Program Development

Reading Program Development is a course designed and taught by instructors from the Institute of Reading Development provides speed-reading for academic, professional, and recreational reading for K12

and adult students. For more information, call 800-964-8888 or visit the Summer Reading Program at <https://outreach.ou.edu/educational-services/education/reading-program/>.

Southwest Center for Human Relations Studies

Established in 1961, the Southwest Center for Human Relations Studies (SWCHRS) is a program within the Public and Community Division in OU Outreach with the primary mission of extending the resources of the University to communities in the Southwest faced with civic conflict and controversy. The core mission of the Southwest Center for Human Relations Studies is to provide opportunities for learning, facilitated training, research and knowledge dissemination on issues of intercultural and intergroup relations as they pertain to communication, conflict management, collaboration, leadership, organizational culture, decision making, and inclusive practices. The center annually hosts the National Conference on Race and Ethnicity (NCORE) in Higher Education, the largest conference of its kind in the United States. For more information, call 405-325-3694 or visit the SWCHRS website.

Southwest Prevention Center

The Southwest Prevention Center (SWPC) is committed to preventing alcohol, tobacco and drug abuse, and high-risk behavior. This multi-state program provides prevention information, training, and technical assistance and develops prevention resources. SWPC works to support healthy, drug-free environments through the community, school, and organizational capacity building. For more information, call 405-325-1454, swpc@ou.edu, or visit the Southwest Prevention Center website.

Team Quest (Executive Training)

Team Quest equips teams and leaders with skills and tools to become more effective. Their unique approach addresses the needs of adult learners through training experiences that incorporate action learning exercises, self-assessments, focused discussions and engaging classroom instruction. For more information, call 405-325-0464, email ETTQ.

MEWBOURNE COLLEGE OF EARTH AND ENERGY

Sarkeys Energy Center, 15th Floor, Room 1510
100 E. Boyd Street
Norman, OK 73019-1015
Main Phone: (405) 325-3821
Advising: (405) 325-4005
FAX: (405) 325-3180
mcee@ou.edu
www.ou.edu/mcee

Administrative Officers

John Antonio, Interim Dean and Lester A. Day Family Chair
email: antonio@ou.edu

General Information

Mewbourne College Vision

The Mewbourne College of Earth and Energy educates scientists and engineers and creates knowledge of Earth's past and present to navigate a future that meets societal needs for both energy and a livable environment.

Mewbourne College Mission

The college offers an intellectual atmosphere combining scholarship, research, and teaching that leads to the creativity needed to address the issues of tomorrow and prepare our students for the global competition they will experience during their professional careers. We will also ensure that OU maintains and builds on its heritage in energy education by continuing to focus on exploration, development and extraction processes in petroleum geosciences and petroleum and geological engineering, while providing close ties to engineering fundamentals and the science base in geosciences. Through the Oklahoma Geological Survey, we will promote the wise use of Oklahoma's natural resources consistent with sound environmental practices.

About Mewbourne College

In a progressive move by the University signaling its ongoing commitment to energy education and research, the Mewbourne College of Earth and Energy was established January 1, 2006. The Mewbourne College of Earth and Energy consists of the Mewbourne School of

Petroleum and Geological Engineering, the School of Geosciences, and the Oklahoma Geological Survey. Our academic programs are highly ranked nationally, and the petroleum engineering program is consistently ranked in the top three nationally.

The college provides an academic environment for the development of tomorrow's academic and industry leaders that contains the full breadth of the University of Oklahoma's educational experience while continuing to provide close ties to engineering fundamentals and the science base in geology, geophysics, and paleontology. The Mewbourne College focus is laboratory 'hands-on' education and is an academic leader for end-to-end energy education and research. Distinguished faculty, exceptional students, and state-of-the-art research laboratories are the bedrock of the Mewbourne College of Earth and Energy.

The college's name honors Curtis W. Mewbourne, a Shreveport, Louisiana, native who obtained his degree in petroleum engineering from OU, where he has been honored as a Distinguished Graduate. After serving as an officer in the U.S. Army and working as a petroleum engineer, he founded Mewbourne Oil Company in 1965. Mewbourne Oil is one of the most successful privately owned oil and gas producers in America.

In recognition of his longtime support, the University named the Mewbourne School of Petroleum and Geological Engineering in his honor in 2000 and granted him the Doctor of Humane Letters in 2002. In 2007 the Mewbourne College of Earth and Energy was named in his honor, and he was presented the Oklahoma Trailblazer Award for his professional achievement and lifetime commitment to the energy sector. Curtis Mewbourne and his family have contributed millions of dollars to endowed faculty positions and student support at OU.

Programs Offered

- College of Earth and Energy Administrated Programs (p. 1009)
 - Sustainable Energy Systems, Undergraduate Certificate (p. 1009)
 - Sustainable Energy Systems Electives (p. 1009)
- Mewbourne School of Petroleum and Geological Engineering (p. 1010)
 - GeoEnergy Engineering, B.S. (p. 1019)
 - Petroleum Engineering, B.S. (p. 1022)
 - Petroleum Engineering, B.S./M.S. (p. 1024)
 - Petroleum Engineering, B.S./M.B.A. (p. 1027)
 - Geological Engineering, M.S. (p. 1030)
 - Natural Gas Engineering & Management, M.S. (p. 1031)
 - Petroleum Engineering (Standard), M.S. (p. 1032)
 - Geological Engineering, Ph.D. (p. 1032)
 - Petroleum Engineering, Ph.D. (p. 1033)
- School of Geosciences (p. 1033)
 - Environmental Geology, B.S. (p. 1048)
 - Geology, B.S. (p. 1050)
 - School of Geosciences Math & Science Elective Lists (p. 1052)
 - Geophysics, B.S. (p. 1053)
 - Paleontology, B.S. (p. 1055)
 - Petroleum Geology, B.S. (p. 1057)
 - Geology, Minor (p. 1059)
 - Geology, M.S. (p. 1059)
 - Geophysics, M.S. (p. 1060)

- Geology, Ph.D. (p. 1060)
- Geophysics, Ph.D. (p. 1061)

Programs & Facilities

Oklahoma Geological Survey

100 East Boyd St., Suite N131 Norman, OK 73019
Phone: (405) 325-3031
ogs@ou.edu
www.ou.edu/ogs

The Oklahoma Geological Survey was created by directive of the State Constitution written in 1907. An enabling act was presented to Oklahoma's first legislature and signed into law by Gov. Charles N. Haskell on May 29, 1908.

The Oklahoma Geological Survey is charged with investigating the land, water, mineral, and energy resources of the state, and disseminating the results of those investigations to promote the wise use of Oklahoma's natural resources consistent with sound environmental practices.

The Oklahoma Geological Survey carries out this charter through fossil energy research, activities in geological carbon sequestration and low-carbon energy resources, geological mapping programs, earth-science education, operation of a state-wide seismograph network, development of geological databases, an industrial minerals program, and basic geological studies conducted in various areas of Oklahoma. The results of these investigations are made available through publications of technical and educational material, maps, a web site containing data for downloading, the Oklahoma Petroleum Information Center (OPIC), presentations to the public and professional organizations, and organizing workshops for technology transfer to industry and academia.

At the Oklahoma Petroleum Information Center (OPIC) in Norman, there are thousands of core and well samples, well logs, a well data library, and other petroleum-related material available to the public. The general public, industry, and academic groups have access to the OPIC facility resources and can purchase hard copies of OGS publications. Many publications, spanning over a century, are available for free on the OGS website. In pursuit of data and core preservation and seismic monitoring, the OGS works closely with local, state, and federal agencies, as well as with professional and educational organizations and agencies from other states. While not an academic unit, OGS staff serve as mentors, adjunct faculty, instructors, and committee members for students enrolled at the University of Oklahoma and other universities. As a unit of the Mewbourne College of Earth and Energy, the OGS supports a number of students with the college's research and service efforts.

Ronnie K. Irani Center for Energy Solutions

The Ronnie K. Irani Center for Energy Solutions provides leadership to develop the energy solutions necessary to meet an ever-growing demand for energy. Under the direction of the Irani Center, students work in partnership with companies to solve real-world problems and provide innovative solutions. The Irani Center continues legacy programs established by the Energy Institute of the Americas to connect industry professionals with world-renowned faculty through professional development courses, as well as providing informative content via webinars and presentations. Through these and other efforts, the Irani Center has nurtured hundreds of students and industry participants to actively engage in the critically important mandate to provide sustainable, reliable, affordable, and responsible energy in our community, state, nation, and throughout the world.

Institute for Resilient Environmental and Energy Systems

The University of Oklahoma's Institute for Resilient Environmental and Energy Systems (IREES) connects OU scholars from across our three campuses with national, regional, and place-based partners to understand the multiple interacting dimensions of transformational change and apply that knowledge to strengthen and empower communities, create new economic opportunities, and enable environmental improvement.

Attribute-Assisted Seismic Processing and Interpretation Research Group

Seismic attributes have become crucial for mapping structure, stratigraphy, and quantifying reservoir properties. The AASPI research group focuses on four main goals: mapping reservoir compartments and fractures, optimizing seismic processing workflows for improved resolution, contextualizing seismic attributes with tectonic deformation and geomorphology, and developing predictive tools for guiding reservoir completion programs.

Reservoir Geomechanics and Seismicity Research Group

The Reservoir Geomechanics and Seismicity Research Group (RGSR) at OU is recognized as a world-class experimental and numerical modeling research center. The RGSR develops and applies new knowledge of geomechanics/rock mechanics through experimental and modeling activities to develop solutions for a variety of engineering problems related to conventional and unconventional reservoirs and geothermal systems (enhanced geothermal systems) such as hydraulic fracturing, induced seismicity, wellbore stability, DFIT, injection geomechanics, etc.

Well Construction Technology Center

The Well Construction Technology Center is an advanced technology research center that incorporates high pressure, high temperature fluid flow applications using both field scale and lab scale equipment for the oil industry.

Integrated Core Characterization Center

The Integrated Core Characterization Center consists of the complete Amoco Rock Physics Laboratory. This lab has unparalleled industrial, commercial, and academic capabilities and offers the widest range of measurement and research opportunities in the industry. Originally established a seismic velocity measurement laboratory, it evolved into an integrated facility that provides a vast array of petrophysical, seismic, and rock mechanics capabilities.

Jerry Holmes Leadership Program for Engineers and Scientists

The Jerry Holmes Leadership Program for Engineers and Scientists provides a variety of leadership and related development opportunities for students, faculty and staff. The program's mission is to help Gallogly College of Engineering & Mewbourne College of Earth and Energy students learn and practice the skills they will need to be effective and ethical leaders now and throughout their careers.

Honors Program

A high percentage of eligible University undergraduate students participate in the University-wide Honors Program (refer to the Honors College (p. 1617) section of this catalog for more information). Specially designed Honors courses and seminars provide the Honors student with small classes and opportunities for interaction with the University's best

and brightest faculty members, both within the student's major field of study and in other courses used to satisfy curricular requirements. Students may graduate with Latin Honorifics if they successfully meet the GPA requirements in addition to their regular degree program requirements.

Undergraduate Study

Admission to the College

Students will be admitted to the Mewbourne College of Earth and Energy once they declare a major within the college and complete the following requirements:

- Applicants who are direct from high school must be admitted to OU and have earned 24 semester credit hours with an OU and combined retention grade point average of 2.50 or higher.
- Students transferring to the University of Oklahoma must have a retention GPA of a 2.50 or higher.
- University of Oklahoma readmits must have an OU retention and combined retention GPA of a 2.50 or higher

Academic Advising

The Mewbourne College of Earth and Energy **Pioneer Natural Resources Student Services Center** is staffed by academic advisors who are available for student support and curricular guidance. Prior to registering for the next term, students meet with an academic advisor to discuss advising recommendations, support services, and student engagement opportunities. The *Pioneer Natural Resources Student Services Center* is located in Sarkeys Energy Center, 1st floor, room P119. Students may call (405) 325-4005 or use iAdvise.ou.edu to schedule their advising appointments. Although the Dean's office checks each student's records, **the responsibility for meeting graduation requirements lies with the student** and not with the academic advisor, the school, or the Dean.

Scholastic Requirements

Students in the Mewbourne College of Earth and Energy must meet the following academic standards:

- A minimum grade of C in each course required in the curriculum.
- No more than three attempts per course to successfully complete the course. Unsuccessful attempts include earned grades of D, F, I, U, AU, W, and AW. Terms with "complete withdrawal" notated on the transcript do not count towards these totals.
- A student must maintain at least 2.50 grade point averages to be in good standing in the college. This applies to the following GPAs:
 - OU retention grade point average
 - Combined retention grade point average
 - Term grade point average
 - Major retention grade point average

Students who do not meet these standards will be notified by the Director of Student Services and guided to meet with their academic advisor for support. Students on academic performance contract who fail to meet the terms of their academic performance contract after one semester may be dismissed (stopped out) from the Mewbourne College of Earth and Energy. Students who fail to make adequate progress toward their degree may be dismissed from the college.

A student dismissed from the Mewbourne College of Earth and Energy may be eligible for enrollment in another college under the University retention policy. To continue at the University of Oklahoma, the student

will need to make an appointment with the Academic Advising Resource Center (AARC), Cate 1, room 418 or phone (405) 325-1596. However, even if the student is able to continue at the University, further enrollment in Mewbourne College of Earth and Energy courses is not allowed.

A student dismissed from the Mewbourne College of Earth and Energy is unlikely to be readmitted to the college. Students are eligible to apply for readmission after at least 2 full (fall and spring) semesters have elapsed since the date of dismissal and they have significantly improved their performance in courses that are technically demanding and relevant to an engineering/science education. Applying for readmission does not guarantee that a student will be readmitted. Each request is considered on its individual merit. If the student is readmitted to the MCEE, the student will be placed on an Academic Performance Contract. Students who are dismissed from the MCEE for a second time are not eligible for readmission.

The Mewbourne School of Petroleum and Geological Engineering and the School of Geosciences have additional grade requirements. For details, see the specific school sections of the catalog.

College Ten-Year Limitation Rule

A student may elect to graduate under the requirements for an undergraduate degree set forth in the catalog in effect at the time of their first enrollment in the state system, provided they complete the work for a degree within a maximum of six years. If the work for a degree covers a period longer than that specified by the college, the college will determine the degree plan in effect for that student's graduation. Credit in a student's major which is more than 10 years old may not be applied toward a bachelor's degree unless it is validated by the major department.

Transfer Students

1. Students transferring to the University of Oklahoma Mewbourne College of Earth and Energy must have a retention GPA of a 2.50 or higher.
2. Students should check transfer equivalencies on the transfer equivalency database.
3. Students should visit the Pioneer Natural Resources Student Services Center to determine exactly how their transfer credits apply toward their degree program.
4. Pass/No Pass course enrollments may not be used to satisfy Mewbourne College of Earth and Energy course requirements.
5. Academic credit from any division of the University of Oklahoma – Norman campus, OU Health Sciences Center, OU-Tulsa, or Continuing Education – is considered resident credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU and combined retention grade point averages for purposes of admission or readmission to the University, and to the individual colleges within the University. (See also Residence Requirements under Graduation Requirements.)

Scholarships and Financial Aid

Students entering the University of Oklahoma are eligible to apply for scholarships. General scholarships are awarded on the basis of academic achievement and financial need. In addition to general scholarships offered through the University of Oklahoma, the Mewbourne College of Earth and Energy and both schools offer several scholarships sponsored by alumni and industry. Continuing students apply each year through the Student Financial Center's Centralized Academic Scholarship Hub (CASH). Financial questions may be directed to the Student Financial Center email: sfc@ou.edu or phone: (405) 325-9000.

College Graduation GPA Requirements

Students recommended for a bachelor's degree in the Mewbourne College of Earth and Energy must have at least a 2.50 OU and combined retention grade point average in all coursework attempted, in their major area, and in their curriculum. The Schools of Petroleum and Geological Engineering and Geosciences may have additional grade requirements. For details, see the specific school section in this chapter of the catalog.

Graduation Requirements

Basic Requirements

The Mewbourne College of Earth and Energy is organized into two schools, Mewbourne School of Petroleum and Geological Engineering (p. 1010) and School of Geosciences (p. 1033).

The student must satisfy the following requirements:

- **Curricular Courses:** Complete all prescribed curricular courses or equivalent courses as approved by the faculty.
- **Two-year College Transfer Credits:** A minimum of 60 semester hours must be earned in a 4-year institution for a baccalaureate degree.
- **Catalog Requirements:** Fulfill all requirements listed in the catalog. Although the Dean's office checks each student's records, ***the responsibility for meeting graduation requirements lies with the student***, and not with the academic advisor, the school, or the Dean.
- Be in good academic standing with the college and the University.
- Complete graduation application by December 1 for spring graduation, May 1 for fall graduation and March 1 for summer graduation.
- **Residency Requirements:** To be recommended for a degree, a candidate must have:
 - a. spent two semesters or the equivalent in residence in the Mewbourne College of Earth and Energy;
 - b. completed at least 36 of the last 60 hours in residence. Twenty-four of these 36 hours must be in the major field;
 - c. fulfilled the grade and grade point requirements of the college and school; **Note:** Academic credit from any division of the University of Oklahoma – Norman campus, OU Health Sciences Center, OU-Tulsa, or Continuing Education – is considered resident credit at the University of Oklahoma. Grades and hours earned at any of these divisions are included in the OU and combined retention grade point averages for purposes of determining completion of degree requirements.

Degrees are awarded at the end of each fall and spring semester and summer session. All diplomas are mailed to students following the official graduation date. The degree and date of the diploma are entered on the student's permanent academic record. The date of graduation is the last day of the semester or summer session in which all requirements for the degree are completed. When a student completes all requirements for a degree other than at the close of a semester or summer session, the Office of Academic Records, upon request, will issue a certified statement that the student is eligible for the degree as of the date when the requirements for the degree were completed.

Dean's Honor Roll

To be eligible for the Mewbourne College of Earth and Energy Dean's Honor Roll, a full-time undergraduate student must earn 12 or more hours and attain a grade point average of 3.00 or higher during a regular fall or spring semester. Part-time students may qualify for the Honor Roll by earning at least 6 but less than 12 hours and attaining a grade point

average of 3.00 or higher, provided they have no withdrawals for that semester.

Minors

The Mewbourne College of Earth and Energy offers students the option of declaring a minor. A Geology minor is available in the college, and the specific minor requirements can be found in the School of Geosciences section of the catalog. Students may complete minors in other areas, and these will be posted on the transcript after graduation. For a listing of the minors offered at the University, reference the OU General Catalog Minors page.

Certificates

A multidisciplinary undergraduate certificate in Sustainable Energy Systems is administered by the Mewbourne College. Details can be found on the MCEE website.

Second Bachelor's Degrees

A student who has completed the requirements for a bachelor's degree at OU may also receive a second bachelor's degree upon the completion of the curriculum prescribed for the second degree, provided that the work completed includes at least 30 additional hours of upper-division geology, geophysics or engineering (according to second undergraduate degree program), applied science and elective courses appropriate to the field of the second degree. These courses must be over and above the credit hours required for the first degree.

Graduate Study

The Mewbourne College of Earth and Energy offers programs leading to the Master of Science degree in geology, geophysics, geological engineering, natural gas engineering and management, and petroleum engineering. The college also offers Ph.D. degrees in geology, geophysics, geological engineering, and petroleum engineering.

Refer to the Graduate tabs within the Mewbourne School of Petroleum and Geological Engineering (p. 1010) and the School of Geosciences (p. 1033) pages of this catalog for information concerning graduate programs.

CEE 1513 Towards Just and Responsible Energy Engineering 3 Credit Hours

Prerequisite: none. Introducing students to the role and impact of energy engineering in the world, energy sources and uses, natural resources, energy justice, the environment, and sustainability. Allows students to explore individual and collective responsibilities as engineers to the energy industry and to build some of the skills needed including cultural fluency, critical thinking, civil discourse, citizenship, and community engagement. (F) [V-FYE].

CEE 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CEE 4960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

CEE 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CEE 4990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

CEE 5960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

CEE 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CEE 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

College of Earth and Energy Administrated Programs

Undergraduate Certificate

- Sustainable Energy Systems, Undergraduate Certificate (p. 1009)

Courses

SES 2113 Fundamentals of Earth Systems, Energy, & Sustainability 3 Credit Hours

Prerequisite: MATH 1503. A comprehensive exploration of key topics related to climate, energy, and sustainability. Study of the carbon cycle and earth system processes at multiple temporal and geographical scales. Introduction to fundamental principles of energy systems, covering diverse energy forms and their conversions. Students will develop the knowledge and skills to analyze, design, and implement sustainable energy solutions. (F)

SES 2123 Energy in Society: A Systems Perspective on Energy Transitions 3 Credit Hours

Prerequisite: ENGL 1213 or EXPO 1213. Explores how energy systems can be viewed from a social perspective. Combines several academic approaches on society to present a comprehensive overview of the components of and historical changes in energy systems. Reviews ethical theories to help identify issues of moral concern in existing energy systems, and ways energy transitions can address them. (Sp)

Sustainable Energy Systems, Undergraduate Certificate

Minimum Total Credit Hours: 15

Program Code: T632

Certificate Requirements

Courses presented for the undergraduate certificate must be completed with a C grade or better.

Code	Title	Credit Hours
Core Courses		
SES 2113	Fundamentals of Earth Systems, Energy, & Sustainability	3
SES 2123	Energy in Society: A Systems Perspective on Energy Transitions	3
SES Electives		
	Choose 3 courses (9 hours) from a list of approved electives maintained by the College. (p. 1009)	9
Total Credit Hours		15

Sustainable Energy Systems Electives

- For the most current list of SES electives, consult the MCEE website.

Code	Title	Credit Hours
<i>Carbon Management</i>		
G E 4613	Carbon Capture, Utilization and Storage	3
GEOG 4970/5970	Special Topics/Seminar (Topic: Climate CO2 Removal Strategies)	3
<i>Climate</i>		
ENST 3303	Food, Agriculture, and the Environment	3
ENST 3503	Energy Use, Climate Change, and the Environment	3

General Information

The Mewbourne School of Petroleum and Geological Engineering is nationally ranked as one of the best. Petroleum is synonymous with energy. A large fraction of the energy used in this country originates from oil or natural gas. Although the overall percentage provided by petroleum is expected to drop, the total amount provided by petroleum sources will increase. The world energy transition is occurring, and the petroleum industry will be required to meet the international demands for economical sources of fuels. Energy engineers with enhanced oil recovery, unconventional natural gas and frontier producing areas will provide a greater fraction of this production. The need for complex technology required to produce such difficult resources will require a continued demand for qualified petroleum and geological engineers.

Petroleum and geological engineering are many-faceted disciplines that are directed toward exploiting natural resources contained in a geological habitat. Our newest degree for GeoEnergy Engineers prepares individuals how to characterize, model, and monitor the ground below to design and oversee construction of wells and facilities for subsurface storage, production, and injection. Graduates from our programs can work in several different areas and at different levels of technical involvement. They may work on specific production-related problems in a technical area or they may work on broad energy solutions within their organizations. Between these extremes is the complete spectrum of job possibilities.

Petroleum and GeoEnergy Engineers are required to utilize complex technologies. Exploration and production are not simple, independent processes. Rather, projects are complex and the extreme financial and physical risks must be integrated into the engineering design of specific exploration and production projects to make them succeed. Engineers who analyze and design systems and facilities for current producing systems must be well prepared. The Mewbourne School of Petroleum and Geological Engineering is prepared to produce such engineers.

Programs & Facilities

Laboratory Facilities

Laboratories, located in the Sarkeys Energy Center and the north campus, are well-equipped to give undergraduate and graduate instruction in all phases of petroleum, geological, and geoenery engineering. Specific laboratory items include equipment for the following: core analysis, capillary pressure and relative permeability measurements; ultrasonic velocity; nuclear magnetic resonance spectra; fines migration and formation damage control; the testing and treatment of drilling muds, emulsions, and oil field brines; pressure-volume-temperature measurements of gas and oil mixtures under

reservoir conditions; units for studying the flow of oil, gas, and water through porous media; electrolytic models; gas analysis, regulation, and metering; electrical properties of cores; high pressure PVT equipment; corrosion rate measurement and enhanced oil recovery techniques such as surfactant flooding, polymer flooding, in-situ combustion and microbial processes. Large-scale equipment includes a system for studying crude oil displacement by steam, bottom hole pressure and temperature instruments, drilling and cementing tools, cement consistometer, subsurface pumps, artificial lift equipment, scanning electron microscope, acoustic microscope, Fourier transform infrared spectrometer, load frame and models to illustrate various principles of drilling and production.

The University has access to several thousands of electrical logs and cores from oil and gas wells drilled in Oklahoma.

Undergraduate Study

GeoEnergy Engineering, Bachelor of Science

The GeoEnergy Engineering (p. 1019) curriculum is structured to provide a strong foundation in engineering, and to provide specialized education in energy resources, energy resource economics, carbon capture, utilization, applied geomechanics, geothermal energy, hydrogen energy utilization, energy storage, well logs and remote sensing, production and injection systems, drilling and well construction, fluid flow and heat transfer in porous media, porous media characterization. This curriculum will directly benefit students that graduate to work in the energy industry, with diversified knowledge, and abilities to work in a broader scope of energy generation, storage, and transport.

Petroleum Engineering, Bachelor of Science

The objectives of the Petroleum Engineering, Bachelor of Science (p. 1022) are that Alumni will:

- Our alumni will have successful careers as engineers in oil and gas, government, or related industries by applying engineering judgement that is established on fundamentals and continual growth in their competencies.
- Our alumni will serve society by involvement in professional activities that positively impact health, safety, and environment through ethical behavior and contemporary knowledge

Graduates receiving the degree of Bachelor of Science in Petroleum Engineering are professionally prepared for positions in the fields of drilling, production, well completion, reservoir management and evaluation. They may work in industry or government. They are well prepared to continue their education in professional or graduate studies. Students who choose to specialize in advanced developments or research may pursue graduate studies leading to the master's or doctor's degree.

Petroleum Engineering Bachelor of Science/Master of Science

The accelerated Bachelor of Science/Master of Science (p. 1024) program allows undergraduate students the opportunity to pursue a graduate education in petroleum engineering while completing their undergraduate degree. Having already received core instruction through OU's undergraduate studies, the introductory petroleum engineering course requirements that are required of graduate students are not necessary, which allows more time to explore course electives in complimentary disciplines such as geology, geophysics, mechanical

engineering, civil engineering and chemical engineering, making students more versatile in their discipline and increasing their marketability.

Petroleum Engineering Bachelor of Science/Master of Business Administration

The accelerated Petroleum Engineering, Bachelor of Science/Master of Business Administration (p. 1027) program is designed for the petroleum engineering student with an interest in business. The synergy of this track is strengthened by incorporating the Energy specialization of the MBA program into the accelerated curriculum. Students graduating with this option will have a firm foundation in engineering fundamentals along with knowledge of business and energy principles.

Laptop Requirement

Students with a major in Petroleum Engineering are expected to have a laptop computer. The laptop technologies are used to enhance the learning experience. Students should consult with faculty advisors and the Mewbourne College of Earth and Energy Dean's office for additional information.

Graduate Study

Areas of Specialization

The graduate program offers specialized training in drilling, well completion and stimulation, rock mechanics, production engineering, petrophysics, formation damage and control, miscible, immiscible and microbial enhanced oil recovery, reservoir engineering, natural gas engineering, coal bed methane, geological engineering, oil field management and several other allied areas.

Master of Science Degree

Students may pursue a thesis or non-thesis option in Petroleum Engineering, Geological Engineering or Natural Gas Engineering and Management.

- Petroleum Engineering, Master of Science (p. 1032)
- Geological Engineering, Master of Science (p. 1030)
- Natural Gas Engineering and Management, Master of Science (p. 1031)

Doctoral Programs

Candidates for the Doctor of Philosophy in Petroleum Engineering (p. 1033) or Geological Engineering (p. 1032) shall satisfy all requirements for the Ph.D. degree in engineering. The degree requires 90 post-baccalaureate credit hours of coursework including the dissertation. Each candidate must meet the general requirements as specified in the bulletin of the Graduate College, as well as all requirements as specified in the general requirements for the master's degree in Petroleum and Geological Engineering, including the satisfactory passage of the Qualifying and General Examinations.

A student should normally expect to spend the equivalent of three full academic years beyond the master's degree in study for the doctorate. As a general rule, either their bachelor's degree or master's degree (or both) will be in PE or GE. All such hours may, on recommendation of the student's Advisory Conference, be applied to their doctoral program. Exceptional applicants who have bachelor and master degrees in other engineering and science fields may be admitted to the MPGE Ph.D. program. Course work deficiencies may be necessary (such as geology), depending upon the applicant's background. Coursework deficiencies will

be determined by the Graduate Liaison and will not be counted as part of the student's Ph.D. program.

The coursework applied toward the Ph.D. degree must include a minor consisting of a minimum of 12 hours (out of 90 credit hours) of applied mathematics or other natural sciences. Courses of study are individually structured to capitalize upon each student's background and to meet their specific needs and research interests. Every candidate for the Ph.D. degree in petroleum and geological engineering must satisfactorily complete the Qualifying and General Examinations.

Courses

G E 2013 Introduction to Energy Resources 3 Credit Hours

Prerequisite: PHYS 2514; Co-requisite: PHYS 2524. Survey of energy sources including geothermal, fossil, solar, nuclear, wind, hydropower, and biomass. Addressing societal and environmental implications of different type of energy sources. (F, Sp)

G E 3212 Porous Media Characterization 2 Credit Hours

Prerequisite: MATH 2934, PHYS 2524, GEOL 1114, and P E 2113; Co-requisite G E 3221. Properties of porous media and the physical processes that controls and alters these properties. How to measure, analyze and interpret porous media properties. (F, Sp)

G E 3213 Porous Media Characterization 3 Credit Hours

Prerequisite: MATH 2934, PHYS 2524, GEOL 1114, and P E 2113; Co-Requisite: G E 3221. Properties of porous media and the physical processes that controls and alters these properties. How to measure, analyze and interpret porous media properties. (F, Sp)

G E 3220 GeoEnergy Engineering Internship 0 Credit Hours

Prerequisite: G E 2013. Full time Career-related work experience of at least eight weeks in the energy industry. The internship may also involve research with faculty members. (F, Su)

G E 3221 Porous Media Characterization Lab 1 Credit Hour

Prerequisite: None; Co-requisite: G E 3212. Laboratory experiments to understand and characterize porous media. (F, Sp)

G E 3313 Drilling and Well Construction 3 Credit Hours

Prerequisite: P E 3223 or concurrent enrollment, G E 3343, and P E 2153. Overview of well design and drilling engineering from surface to final depth, completion and abandonment for production and all six classes of injection wells. Topics include; casing design based on pore pressure and fracturing window, design cementing, selection of wellbore fluids for drilling and completion, and state of the art drilling equipment and processes. (F, Sp)

G E 3343 Applied Geomechanics 3 Credit Hours

Prerequisite: G E 3213, P E 2153, P E 3223, and GEOL 3003. Introduction to geomechanics. How to establish properties for rocks, subsurface stresses and pressures. Geomechanical analysis of subsurface energy applications. (F, Sp)

G E 3413 Production and Injection Systems 3 Credit Hours

Prerequisite: P E 3223, G E 3213, and P E 2153. Comprehension of well completion concepts leading to design for optimum well performance for injection and production wells. Applied understanding of the surface production systems and associated components. Included are flow assurance, surface facilities, separation, water and gas processing, pumps, compressors and flow meters. (F, Sp)

G E 3440 Mentored Research Experience 3 Credit Hours

0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

G E 3513 Fluid Flow and Heat Transfer in Porous Media 3 Credit Hours

Prerequisite: G E 3213, P E 3223, and GEOL 3003. The course covers fluid flow and heat transfer in porous media including constitutive equations and modelling methods of transport processes through porous media. (F, Sp)

G E 3712 Energy Resource Economics 2 Credit Hours

Prerequisite: G E 2013. Application of engineering principles and economics to the evaluation/completion of energy projects, results of which to be used by regulatory agency and investors to value corporations. (F, Sp)

G E 3813 Formation Evaluation: Well Logs & Remote Sensing Methods 3 Credit Hours

Prerequisite: ENGR 2431, GEOL 3003, and G E 3213. Comprehension of various methods of formation evaluation. Application of logging tools, geophysical methods, and other sensing techniques to formation evaluation of sub-surface rocks. (F, Sp)

G E 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp)

G E 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. Deals with concepts not usually presented in regular coursework. (Irreg.)

G E 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work on a special project in the student's field. (F, Sp)

G E 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

G E 4553 GeoEnergy Capstone Design 3 Credit Hours

Prerequisite: G E 3513 and G E 3712 and G E 3813, or concurrent enrollment. Team based open ended capstone project in geoenery engineering. (F, Sp)

G E 4613 Carbon Capture, Utilization and Storage 3 Credit Hours

Prerequisite: G E 3513. CO₂ separation from syngas and flue gas for gasification and combustion processes. Transportation of CO₂ in pipelines and sequestration in deep underground geological formations or enhanced oil recovery. Comparison of options for geological sequestration in oil and gas reservoirs, deep unmineable coal beds, and saline aquifers. (F, Sp)

G E 4623 Energy Conversion and Storage 3 Credit Hours

Prerequisite: G E 2013 and P E 2213. Overview of thermal, mechanical, and hybrid chemical energy storage systems. Surface and subsurface storage technologies are addressed. (F, Sp)

- G E 4633 Hydrogen Energy Systems 3 Credit Hours**
Prerequisite: G E 2013, P E 2213, and P E 3223. Production of hydrogen from natural, hydrocarbon and renewable energy sources. Transportation, storage and utilization of hydrogen. (F, Sp)
- G E 4713 Overview of Geothermal Energy 3 Credit Hours**
Prerequisite: G E 2013, P E 2213, P E 3223, and GEOL 3003. Geothermal exploration, surface and downhole geothermal facilities. Overview of geothermal systems such as direct use and enhanced geothermal systems. (F, Sp)
- G E 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- G E 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- G E 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- G E 5233 Geothermal Technologies 3 Credit Hours**
(Crosslisted with P E 5233) Prerequisite: Graduate standing or permission of instructor. This course provides an overview of geothermal resources, applications, systems, surface facilities, wellbore design and completion in geothermal wells, fracture design for EGS systems, drilling challenges of deep geothermal application, well construction challenges in geothermal, and new advancements in numerical and experimental investigation of geothermal. Risk and failure analysis and economic analysis of geothermal systems are incorporated. (F)
- G E 5443 Formation Damage 3 Credit Hours**
(Crosslisted with P E and GEOL 5443) Prerequisite: Graduate standing or permission of instructor. This course presents an overview of main mechanisms of formation damage (mechanical, chemical, thermal, and biological) occurring during subsurface applications, including but not limited to primary and enhanced hydrocarbon production, CO₂ storage, and geothermal processes. Existing theories explaining the process and methods to mitigate the formation damage will be discussed. (Irreg.)
- G E 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- G E 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- G E 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, 2 to 9 hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- G E 5990 Special Studies 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing in Geological Engineering. May be repeated with change of topic; maximum credit four hours. Supervised individual study or specialized research in geological engineering. (F, Sp)
- G E 6273 Advanced Rock Mechanics II 3 Credit Hours**
(Crosslisted with P E 6273) Prerequisite: Graduate standing and instructor permission. Advanced topics related to petroleum and geothermal reservoir rock properties, constitutive models, rock fracture, and coupled processes in rocks and rock masses. Influence of stress, fluid pressure, temperature, and chemistry on rock properties and deformation in the context of drilling, reservoir stimulation, and induced seismicity. (Irreg.)
- G E 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- G E 6970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)
- G E 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- G E 6990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- P E 2011 Introduction to Petroleum Engineering 1 Credit Hour**
Discuss the various sources of energy and their uses. Outline the full value chain of fossil fuels from exploration to production in light of government regulation and political influence. Recognize the impact of fossil fuel production on society. (Sp)
- P E 2022 Python for Energy Applications 2 Credit Hours**
Prerequisite: MATH 1914. This course provides an introduction to programming basics, problem-solving methods and algorithm development aided with Python. The course focuses on program design, debugging, testing and documentation and covers data types, control statements, functions, passing arguments, library functions, arrays, plotting, and object-oriented design. Students will also learn about various Python libraries that aid in the manipulation and analyses of large datasets. (Sp)
- P E 2113 Statics and Dynamics 3 Credit Hours**
Prerequisite: Physics 2514 and Mathematics 2934 or 2433 or concurrent enrollment in Mathematics 2934 or 2433. Vector representations of forces and moments; general three-dimensional theorems of statics and dynamics; centroids and moments of area and inertia. Free-body diagrams, equilibrium of a particle and of rigid bodies, principles of work and energy; principle of impulse-momentum. Motion of particles and rigid bodies of translating and rotating reference frames. Newton's laws of motion and Lagrange's equation, including application to lumped-parameter systems. Analyses of trusses, frames, and machines. (F)

- P E 2153 Mechanics of Materials 3 Credit Hours**
Prerequisite: PE 2113. Basic principle of mechanics, including the definition of stress, transformations and principal values for the stress and strain tensors, kinematic relation review of conservation equations and the development and application of consecutive laws for idealized materials. Elementary elastostatics utilizing Hooke's Law; consecutive relations for a linear-elastic continuum, including elastic parameters such as young's modulus, shear and bulk moduli and poisson's ratio. Solution of elementary one- and two-dimensional mechanics problems, including thermal stresses and strains, beam flexure, shear and deflections, pressure vessel and buckling of columns. (Sp)
- P E 2213 Thermodynamics 3 Credit Hours**
Prerequisite: MATH 2934 or 2433 and PHYS 2524 or concurrent enrollment in both MATH 2934 or 2433 and PHYS 2524. First and second law of thermodynamics are developed and applied to the solutions of problems from a variety of engineering fields. Extensive use is made of differential calculus to interrelate thermodynamics functions. (Sp)
- P E 2281 Engineering Co-Op Program 1 Credit Hour**
(Crosslisted with AME, CH E, CEES, C S, ECE, ENGR, EPHY and I E 2281)
Prerequisite: student participation in the program. The Co-Op program provides student placement in jobs outside the University, but in a position related to the student's major. On completion of a semester work period, the student submits a brief written report. One hour of credit (elective) granted for each work period, with a maximum credit of six hours. (F, Sp, Su)
- P E 3021 Technical Communications 1 Credit Hour**
Prerequisite: English 1213/EXPO 1213. Develop skills for communication in a business/technical setting. (Sp)
- P E 3022 Technical Communications 2 Credit Hours**
Prerequisite: ENGL 1213. Develop skills for communication in a business/technical setting. (Sp)
- P E 3123 Petroleum Reservoir Fluids 3 Credit Hours**
Prerequisite: PE 2213. Gain knowledge of properties of naturally occurring fluids in the subsurface. Analyze and interpret contemporary field and laboratory fluid property measurements to construct fluid system models for reservoir performance during depletion. (F)
- P E 3213 Reservoir Rock Properties 3 Credit Hours**
Prerequisite: PE 2011 or concurrent enrollment, PE 2213 or concurrent enrollment, and GEOL 1114; Corequisite: PE 3221. Gain knowledge of properties of reservoir rocks under subsurface conditions, as well as the physical processes which control and alter them. Analyze and interpret contemporary rock properties measurements that address storativity, transmissibility and heterogeneity. (Sp)
- P E 3220 Petroleum Engineering Internship 0 Credit Hours**
Prerequisite: PE 2011. Full time Career-related work experience of at least eight weeks in the petroleum industry. The internship may also involve research with faculty members. (F, Su)
- P E 3221 Rock Properties Laboratory 1 Credit Hour**
Prerequisite: PE 3022 or concurrent enrollment, co-requisite PE 3213. Laboratory course aimed at exposing student teams to the design and conducting of experiments and the analysis and interpretation of reservoir properties. Students are expected to summarize experimental results in written research reports. The course will stress safety concerns appropriate for all laboratory procedures, error analyses and report writing. (Sp)
- P E 3222 Petroleum Engineering Practice II (Internship) 2 Credit Hours**
Prerequisite: P E 2011. Full time Career-related work experience of at least eight weeks in the petroleum industry. The internship may also involve research with faculty members. (F, Su)
- P E 3223 Fluid Mechanics 3 Credit Hours**
Prerequisite: PE 2113, PE 2213 or concurrent enrollment, Mathematics 2934/2443 or concurrent enrollment, Mathematics 3113 or concurrent enrollment. Coverage of the fundamental of fluid statics and dynamics. Formulation of the equations of fluid flow such as Navier Stokes, Euler, Bernoulli, etc. and their application. Examples of ideal and viscous fluid flow in open and closed conduits. (F)
- P E 3313 Drilling I 3 Credit Hours**
Prerequisite: PE 3213, PE 3223 or concurrent enrollment. Comprehension of contemporary drilling techniques including: rig systems, drilling cost and economics, drilling fluids, wellbore hydraulics, cementing, pore and fractured pressure gradients and drill bits. Design of balanced pressure systems, with professional and ethical responsibility considerations towards safety, while minimizing common drilling problems such as formation damage, fluid loss, lost circulation, stuck pipe, kick and well control incidents. (F)
- P E 3343 Revolution in Power: the Evolution of Energy Systems from Fossil Fuels to Renewables 3 Credit Hours**
(Crosslisted with HSTM 3343) Prerequisite: Junior standing, or completion of one History of Science lower-division course, or permission of instructor. This course provides an interdisciplinary perspective on energy systems in both their technical and human contexts, from fossil fuels to renewables, with particular focus on their social, culture, and environmental implications for Western society and the world. The history and evolution of the associated technologies will be discussed, with attention to non-western and indigenous perspectives on these global technological systems. (F) [IV-WC].
- P E 3413 Production Engineering I 3 Credit Hours**
Prerequisite: PE 3123; PE 3223 or concurrent enrollment. Comprehension of well completion concepts leading to design for optimum well performance, including nodal analysis for performance prediction. (Sp)
- P E 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- P E 3513 Reservoir Engineering I 3 Credit Hours**
Prerequisite: PE 3123, PE 3213. Combine knowledge of rock and fluid properties in enabling performance prediction and evaluation of hydrocarbon reservoirs, encouraging the understanding of the impact of evolving technology to the development of conventional and unconventional reservoirs. (Sp)
- P E 3712 Petroleum Economics 2 Credit Hours**
Prerequisite: Students need to have been admitted to the PE professional program to take upper division PE courses, requires Mewbourne College of Earth and Energy qualified enrollment. Application of petroleum engineering principles and economics to the evaluation of oil and gas projects. Analysis of the petroleum reserve management system and its use by the securities exchange commission and investors to value corporations. (F)

P E 3723 Numerical Methods for Engineering Computation 3 Credit Hours

Prerequisite: MATH 3113 or MATH 3413 or concurrent enrollment. Course uses software applications tailored for petroleum engineering majors, including methods for obtaining numerical solutions with digital computers, methods for solutions of algebraic and transcendental equations, simultaneous linear equations, and curve fitting techniques. Students will solve contemporary engineering problems using computational numerical methods for solutions in varied technical, societal, global, economic, and environmental applications. Any student who earns credit for P E 3723 cannot receive duplicate credit for AME 3723, C S 3723, or CH E 3723. (F)

P E 3813 Formation Evaluation with Well Logs 3 Credit Hours

Prerequisite: PE 3213. Comprehension of various methods of formation evaluation. Application of tool responses to formation evaluation in conventional and unconventional reservoirs. Using these principles to evaluate in-place hydrocarbon volume and the selection of applicable techniques as they evolve to the ever changing exploration environment. (Sp)

P E 3960 Honors Reading 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in regular coursework. (F, Sp)

P E 3970 Honors Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. Deals with concepts not usually presented in regular coursework. (Irreg.)

P E 3980 Honors Research 1-3 Credit Hours

1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work on a special project in the student's field. (F, Sp)

P E 3990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

P E G4033 Oil, Gas and Environmental Law 3 Credit Hours

Prerequisite: PE 3712. Review and analysis of legal principles and leading cases related to oil and gas exploration, production and marketing in the areas of land titles, leases, operating agreements, contracts, acquisitions, gas marketing, environmental regulation, pollution, and litigation. (F)

P E 4221 Petroleum Engineering Practice III 1 Credit Hour

Prerequisite: P E 3220; Majors only. Career-related work experience of at least eight weeks in the petroleum industry. (F, Su)

P E 4323 Drilling II 3 Credit Hours

Prerequisite: PE 3313, PE 2153. Application of petroleum engineering principles, wellbore, well planning, casing design, direction control, drilling preparation, offshore operations. Team design project and presentation in casing design. Understand and evaluate environmental risk, professional and ethical responsibilities associated in drilling and production operations. Assess impact price of oil has on drilling activities, analyze and compare international drilling and completion concepts under environmental, societal contexts. (F)

P E 4331 Drilling Engineering Laboratory 1 Credit Hour

Prerequisite: P E 3313. Laboratory course aimed at exposing student teams to the design and conducting of experiments and the analysis and interpretation of drilling and production engineering. The course will stress safety concerns appropriate for all laboratory procedures, error analyses and report writing. (Sp)

P E 4423 Production Engineering II 3 Credit Hours

Prerequisite: PE 3223. Gain applied understanding of the surface production systems and associated components based on technical, professional, environmental, and safety principles. Included are flow assurance, surface facilities, separation, water and gas processing, pumps, compressors and flow meters. (F)

P E 4463 Data Analytics 3 Credit Hours

(Slashlisted with P E 5463) Prerequisite: P E 3723. Introduction to Data Mining and Machine Learning for students interested in the theory and applications of data mining/data analytics/machine learning in the petroleum industry. Will be of value to petrophysicists, geophysicists, and petroleum engineers who deal with large datasets, extracting meaning out of data. No student may earn credit for both 4463 and 5463. (Sp)

P E 4521 Reservoir Fluid Mechanics Laboratory 1 Credit Hour

Prerequisite: PE 3513. Laboratory course aimed at exposing student teams to the design and conducting of experiments and the analysis and interpretation of reservoir fluid mechanics. The course stresses safety concerns appropriate for all laboratory procedures, error analyses and report writing. (F)

P E 4532 Reservoir Engineering II 2 Credit Hours

Prerequisite: PE 3513. Comprehension of primary and secondary recovery drive mechanisms, including the effects of heterogeneity, for constructing enhanced recovery performance prediction models. (F)

P E G4533 Reservoir Engineering II 3 Credit Hours

Prerequisite: PE 3513. Comprehension of primary and secondary recovery drive mechanisms, including the effects of heterogeneity, for constructing enhanced recovery performance prediction models. (F)

P E 4552 Data Analytics 2 Credit Hours

Prerequisite: PE 3723. This course provides an introduction to Data Mining and Machine Learning for students interested in the theory and applications of data mining/data analytics/machine learning in the petroleum industry. As such it will be of immense value to petrophysicists, geophysicists and petroleum engineers who deal with large datasets and want to extract meaning out of this data. (Sp)

P E 4553 Integrated Reservoir Management 3 Credit Hours

(Slashlisted with P E 5553) Prerequisite: PE 3313, PE 3813, PE 4712 or PE 4711, PE 4423, PE 4533 or PE 4532, PE 4323 or concurrent enrollment. Comprehensive reservoir assessment experience based on knowledge and skills throughout PE curriculum. Results are delivered by teams in oral presentations, written technical and summary reports. Experience incorporates petroleum reserve management system (appropriate engineering standards) and multiple realistic constraints (current economic and political conditions). Requires work flow design tailored to specific reservoirs to resolve production performance, recovery and volumetrics. Capstone. No student may earn credit for both 4553 and 5553. (F, Sp) [V].

- P E 4573 Well Test Analysis 3 Credit Hours**
(Slashlisted with PE 5573) Prerequisite: PE 3513 or PE 3413. Review of petrophysics and fluid properties related to well testing. Material balance, diffusivity equation, steady-state flow, and pseudosteady-state flow. Analytical model for well tests. Wellbore storage and skin effects. Well test interpretation in conventional formations. Gas well test interpretation. Flow regimes and bounded reservoir behavior. Well test interpretation in fractured, faulted, and dual-porosity formations. Wellbore and near-wellbore phenomena. No student may earn credit for both 4573 and 5573. (Irreg.)
- P E 4583 Improved Recovery Techniques 3 Credit Hours**
(Slashlisted with P E 5583). Prerequisite: PE 3513. New wellbore and reservoir techniques for improved recovery, diagnostic techniques, waterflooding, and enhanced oil recovery. No student may earn credit for both 4583 and 5583. (Sp)
- P E 4711 Petroleum Project Evaluation 1 Credit Hour**
Prerequisite: PE 3413 and PE 3513; and PE 3712 can be taken concurrently. Application of petroleum engineering principles and economics to the evaluation of oil and gas projects. Analysis of the petroleum reserve management system and its use by the securities exchange commission and investors to value corporations. Evaluation of risk including developing political and scientific risks to oil and gas projects. (F, Sp)
- P E 4712 Petroleum Project Evaluation 2 Credit Hours**
Prerequisite: PE 3413, PE 3513, PE 3712. Application of petroleum engineering principles and economics to the evaluation of oil and gas projects. Analysis of the petroleum reserve management system and its use by the securities exchange commission and investors to value corporations. Evaluation of risk including developing political and scientific risks to oil and gas projects. (F)
- P E 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- P E 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- P E 4990 Special Studies 1-4 Credit Hours**
1 to 4 hours. Prerequisite: department instructor permission. May be repeated; maximum credit 4 hours. Special research on current or special problems. (F, Sp, Su)
- P E 5123 Scanning Electron Microscopy of Geological Materials 3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor. Gain the competency to operate and apply scanning electron microscopy technology to focus on geologic materials with special attention pertinent to the petroleum industry. Acquire and critically analyze SEM data suitable for scientific publication. (F)
- P E 5233 Geothermal Technologies 3 Credit Hours**
(Crosslisted with G E 5233) Prerequisite: Graduate standing or instructor permission. This course provides an overview of geothermal resources, applications, systems, surface facilities, wellbore design and completion in geothermal wells, fracture design for EGS systems, drilling challenges of deep geothermal application, well construction challenges in geothermal, and new advancements in numerical and experimental investigation of geothermal. Risk and failure analysis and economic analysis of geothermal systems are incorporated. (F)
- P E 5243 Introduction to Rock Mechanics 3 Credit Hours**
Prerequisite: Graduate standing or instructor permission. Engineering properties of rock; rock testing techniques; in-situ methods; mathematical approach to stress-strain analysis; discontinuities in rock; applications for underground openings; rock slopes; foundations and drilling. (Sp)
- P E 5343 Oil Country Tubular Goods 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Provides an overview of tubular use in the oil industry and manufacturing process of tubulars used from upstream to downstream applications. Students will learn about the design options to meet deliverables, safety, and integrity requirements in tubular applications. Main components of a well are described and analyzed by their function and design criteria. (F)
- P E 5353 Advanced Drilling 3 Credit Hours**
Prerequisite: Graduate standing or instructor permission. Cost control, hole problems, planning a well, drilling; muds, drilling fluid solids removal, pressure losses, lifting capacity of drilling fluids, surge and swab pressures, pore pressure and fracture gradients, pressure control, well control equipment, blowouts, deviation in boreholes, rotary drilling bits. (F)
- P E 5363 Completion and Workover 3 Credit Hours**
Prerequisite: Graduate standing and majors only, or P E 3313 and P E 3413. This course provides an overview of completions and workover equipment and methods in the oil and gas industry. It is designed to complement the courses on drilling and production engineering currently offered. The students will learn about the design options to meet deliverability, safety, and integrity requirements in completions and workover operations. (F)
- P E 5393 Rheology of Complex Fluids 3 Credit Hours**
(Crosslisted with CH E 5393) Prerequisite: Graduate standing and CH E 5971, or permission of instructor. Develop skills necessary to understand the basic principles of rheological and viscoelastic properties of complex fluids, such as polymer melts and solutions, emulsions, suspensions, multiphase flow, etc. Covers the flow behavior of non-Newtonian fluids and viscoelastic fluids. Newtonian fluid mechanics will be reviewed to describe the standard flows for rheology. Rheometry, the technique for characterization of fluids, will be discussed. (Sp)
- P E 5423 Advanced Stimulation 3 Credit Hours**
Prerequisite: Graduate standing or instructor permission. Theory and application of continuum mechanics concepts to hydraulic fracturing, acidizing, acid fracturing and other stimulation processes. (Irreg.)
- P E 5433 Horizontal Well Technology 3 Credit Hours**
Prerequisite: Graduate standing or instructor permission. Horizontal well technology including: horizontal drilling and associated drilling problems, horizontal well completions and stimulation, horizontal well testing and logging, horizontal wells lift systems, environmental aspects of horizontal wells, economics, regulations. (Sp)

- P E 5443 Formation Damage 3 Credit Hours**
(Crosslisted with G E and GEOL 5443) Prerequisite: Graduate standing or permission of instructor. This course presents an overview of main mechanisms of formation damage (mechanical, chemical, thermal, and biological) occurring during subsurface applications, including but not limited to primary and enhanced hydrocarbon production, CO₂ storage, and geothermal processes. Existing theories explaining the process and methods to mitigate the formation damage will be discussed. (Irreg.)
- P E 5463 Data Analytics 3 Credit Hours**
(Slashlisted with P E 4463) Prerequisite: Graduate standing or instructor permission. Introduction to Data Mining and Machine Learning for students interested in the theory and applications of data mining/data analytics/machine learning in the petroleum industry. Will be of value to petrophysicists, geophysicists, and petroleum engineers who deal with large datasets, extracting meaning out of data. No student may earn credit for both 4463 and 5463. (Sp)
- P E 5523 Advanced Production Engineering 3 Credit Hours**
Prerequisite: graduate standing or permission. Inflow performance relationship, skins of well completion & design, single/multiple phase flow in wellbore and pipes, Nodal analysis, artificial lifting methods including gas lift, rod pump and ESP, Production stimulation technologies including acidizing and hydraulic fracturing, introduction of production logging. (F)
- P E 5553 Integrated Reservoir Management 3 Credit Hours**
(Slashlisted with P E 4553) Prerequisite: Graduate standing, prerequisite or concurrent enrollment in P E 3313, P E 3813, P E 4423, P E 4323, P E 4712 or P E 4711, P E 4533 or P E 4532. Comprehensive reservoir assessment experience based on knowledge and skills throughout P E curriculum. Results are delivered by teams in oral presentations, written technical and summary reports. Experience incorporates petroleum reserve management system (appropriate engineering standards) and multiple realistic constraints (current economic and political conditions). Requires work flow design tailored to specific reservoirs to resolve production performance, recovery, and volumetrics. No student may earn credit for both 4553 and 5553. (F, Sp)
- P E 5563 Mathematical Simulation Models 3 Credit Hours**
Prerequisite: Graduate standing or instructor permission. Principles of simulating engineering systems by partial differential equation systems; considers the use of engineering principles in formulating mathematical simulation models and analytic techniques for solving the resulting mathematical models. (Sp)
- P E 5573 Well Test Analysis 3 Credit Hours**
(Slashlisted with P E 4573) Prerequisite: Graduate standing or instructor permission. Review of petrophysics and fluid properties related to well testing. Material balance, diffusivity equation, steady-state flow, and pseudosteady-state flow. Analytical model for well tests. Wellbore storage and skin effects. Well test interpretation in conventional formations. Gas well test interpretation. Flow regimes and bounded reservoir behavior. Well test interpretation in fractured, faulted, and dual-porosity formations. Wellbore and near-wellbore phenomena. No student may earn credit for both 4573 and 5573. (Sp)
- P E 5583 Improved Recovery Techniques 3 Credit Hours**
(Slashlisted with P E 4583) Prerequisite: senior standing, or graduate standing. New wellbore and reservoir techniques for improved recovery, diagnostic techniques, waterflooding, and enhanced oil recovery. No student may earn credit for both 4583 and 5583. (Sp)
- P E 5603 Introduction to Natural Gas Engineering and Management 3 Credit Hours**
Prerequisite: Graduate standing or instructor permission. Global natural gas supply and demand, international gas trade and infrastructure, gas policy, regulation, safety and environmental issues, natural gas resource base: conventional and unconventional, gas exploration, drilling and production, gas processing, storage and pipeline, gas trading and marketing, gas utilization, LNG, chemicals. (F)
- P E 5613 Natural Gas Engineering 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Review of properties of natural gases and condensate systems; gas flow in porous media; gas reservoir engineering; gas field development; gas condensate reservoirs; natural gas transportation and storage. (Alt. Sp)
- P E 5623 Natural Gas Processing 3 Credit Hours**
Prerequisite: PE 5603, graduate standing or permission of instructor. Gas conditioning; processing of gas for its liquids; design of adsorption and absorption facilities; fractionation design. (Alt. Sp)
- P E 5633 Oil and Gas Laws 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. The course will provide students with fundamental understanding of various oil and gas laws which control and govern different aspects of oil and gas business activities, from reservoir to ultimate customers of different products, whether they are oil and natural gas or final products, including methane, ethane, propane, LPG, NGL, etc. (Irreg.)
- P E 5643 Natural Gas Finance - Valuation and Investment 3 Credit Hours**
Prerequisite: Graduate standing or instructor permission. This course is the first in a two-course sequence in natural gas finance. The first course covers valuation and investment topics; and the second course covers risk management and natural gas trading topics. The valuation and investment course exposes students to basic concepts and practices of valuation and investment in the natural gas industry. Topics include accounting systems, financial statement analysis, valuation of company stocks, competitive comparisons, value of reserves in the ground, corporate restructuring, legal and tax environment for mergers, valuation of bonds and preferred stocks. The emphasis of the course will be on the application of the basis financial theories of valuation and investment on the natural gas industry. (F)
- P E 5653 Natural Gas Finance - Trading and Risk Management 3 Credit Hours**
Prerequisite: Graduate standing or instructor permission. This course is the second in a two-course sequence in natural gas finance. The first course covers valuation and investment topics; and the second course covers risk management and natural gas trading topics. The gas risk management course exposes students to basic concepts and practices of risk management in the natural gas industry. Topics include basic structure of the gas physical and financial markets, derivatives, hedging strategies, futures and forward price determination, option pricing theories, value at risk and market fundamental and technical analyses. The emphasis of the course will be on the application of the basis financial risk management theories to the natural gas industry. (Sp)
- P E 5663 Natural Gas Utilization 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. The course covers the uses of natural gas for combustion, power, LNG, gas conversion to chemicals and fuels, and gas transportation. (Sp)

- P E 5673 Liquefied Natural Gas Value Chain 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. The course covers the worldwide supply and demand landscape for LNG followed by all aspects of the LNG value chain, beginning with receiving feed natural gas from supply pipelines and processing it to meet required specifications for liquification to LNG and transporting it to end users. (F, Sp)
- P E 5683 Natural Gas Transportation & Storage 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. This course covers basic principles of hydrocarbon value chain from well-head to the end user. Primary focus relates to mid-stream operations and covers hydrocarbon transportation fundamentals (on-shore and off-shore), transportation safety, fluid characterization, pipeline design (on-shore and off-shore), rotating and reciprocating equipment design, storage facilities, flow assurance, and integrity management. (F)
- P E 5693 Safety and Human Factors 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. This course is designed as an introduction to the safety and human factors that are important in delivering on the energy industries' commitment to safe and environmentally-sound development of our natural resources. Engineered systems work hand in hand with leadership and organizational culture to adapt to an ever-changing environment to ensure that safe and environmentally-sustainable performance is maintained. (Su)
- P E 5703 Advanced Energy Economics 3 Credit Hours**
Prerequisite: Graduate standing. Covers the topics related to the economic analysis of the energy industry markets at both the domestic and international levels. Analysis of natural gas market including topics of energy scenarios, energy demand and supply analyses, determination of prices under different market structures, various energy sectors, role of energy efficiency, and policy. (F)
- P E 5723 Environmental Sustainability 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. Course will discuss trends moving toward low carbon energy sources and how natural gas technologies fit in the future energy market; will cover proactive environmental management opportunities including concepts in pollution prevention and industrial ecology applied to natural gas systems; and will review how to calculate material and energy balances for power systems as basis for sustainability analyses. (Sp)
- P E 5733 Culmination Experience 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. Culmination research project within the online Master's Degree Program in Natural Gas Engineering and Management program. Designed to prepare Engineering Managers, Business Managers, and Government Representatives to address the wide-ranging challenges in the midstream natural gas business. This research project course is structured to demonstrate the program outcomes have been achieved and sufficient awareness of topics gained. (F, Sp)
- P E 5743 Advanced Project Management 3 Credit Hours**
Prerequisite: Graduate standing or instructor permission. This course covers how capital-intensive projects worth billions of dollars in the oil and gas industry are executed, including the different aspects of planning from conception to closeout for successful execution. (Su)
- P E 5753 Low Carbon Energy Markets 3 Credit Hours**
Prerequisite: Graduate standing or departmental permission. Comprehensive review of principles, technologies, policies, and market drivers behind the shift towards low-carbon energy. Learn about technologies that make up low-carbon energy markets and explore the role of energy storage and emerging trends. Examine policies/regulations that shape industry. Develop critical thinking and problem-solving skills to analyze complex energy markets, evaluate ethical/social implications and make strategic recommendations for stakeholders. (Su)
- P E 5763 Integrated Asset Management 3 Credit Hours**
Prerequisite: Graduate standing. This course is based on the three steps to the successful completion of solutions to managing asset integration: Assessing needs and requirements; Analyzing and modeling solution candidates; Gaining organizational approval and adoption. It will provide an understanding, tools, and skills that can be used to pursue the steps to achieve successful integrated solutions in the technical realms of modern industry. (Sp)
- P E 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- P E 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- P E 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- P E 5990 Special Studies 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing in petroleum engineering. May be repeated with change of topic; maximum credit twelve hours. Supervised individual study or specialized research in petroleum engineering. (F, Sp, Su)
- P E 6273 Advanced Rock Mechanics II 3 Credit Hours**
(Crosslisted with G E 6273) Prerequisite: Graduate standing and instructor permission. Advanced topics related to petroleum and geothermal reservoir rock properties, constitutive models, rock fracture, and coupled processes in rocks and rock masses. Influence of stress, fluid pressure, temperature, and chemistry on rock properties and deformation in the context of drilling, reservoir stimulation, and induced seismicity. (Irreg.)
- P E 6283 Seismic Reservoir Modeling 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course is designed to explore the seismic response of rocks and how it is related to petrophysical parameters. This understanding is key to interpretation of seismic data in terms of subsurface rocks and fluids. (F)
- P E 6293 Unconventional Reservoirs 3 Credit Hours**
Prerequisite: Graduate standing or instructor permission. The objective of this course is to provide basic understanding of developing and producing from unconventional reservoirs, in particular, mudrocks/shales. (F)
- P E 6573 Advanced Reservoir Engineering 3 Credit Hours**
Prerequisite: graduate standing. Petrophysics, Formation Evaluation, Reservoir Fluid Properties, Flow in Porous Media, Reservoir Material Balance, Decline Curve Analysis and Reservoir Simulation. (F)

P E 6583 Enhanced Oil Recovery 3 Credit Hours

Prerequisite: graduate standing or permission. Fundamentals and principles of enhanced oil recovery; practical applications of method of characteristics to design miscible gas injection, water alternating gas flooding, and polymer flooding. (Sp)

P E 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

P E 6970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

P E 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

P E 6990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Ahmed	Ramadan	M	2008	PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING, 2014; MEWBOURNE CHAIR IN PETROLEUM ENGINEERING, 2015	PhD, Norwegian Univ of Sci & Tech, 2001; MS, Norwegian Univ of Sci & Tech, 1997; BS, Addis Ababa Univ, 1989
Devegowda	Deepak		2008	MEWBOURNE CHAIR IN PETROLEUM ENGINEERING, 2015; PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING, 2015	PhD, Texas A&M Univ, 2008; MS, Texas A&M Univ, 2008; BS, Indian Insti of Tech, 1998
Fahs	Machhad	M	2014	ASSOCIATE PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING, 2020	PhD, Imperial Coll-Sci, Tech & Med, 2007; BS, Lebanese Univ, 2002
Ghanbarnezhad Moghanlo	Abuzbeh		2013	ASSOCIATE PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING, 2018	PhD, Univ of Texas, 2012; MS, Amir Kabir Univ of Tech, 2003; BS, Amir Kabir Univ of Tech, 2001
Ghassemi	Ahmad		2013	MCCASLAND CHAIR IN PETROLEUM ENGINEERING, 2013; PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING, 2013	PhD, Univ of Oklahoma, 1996; MS, Univ of Minnesota, 1990; MS, South Dakota Schl Mines & Tech, 1988; BS, Univ of Oklahoma, 1984

Karami Mirazizi	Hamidreza		2017	ASSOCIATE PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING, 2017	PhD, Univ of Tulsa, 2015; MS, Univ of Tulsa, 2011; BS, Sharif Univ of Tech, 2009
Nygaard	Runar			PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING, EBERLY FAMILY CHAIR IN PETROLEUM AND GEOLOGICAL ENGINEERING, 2019	PhD, Univ of Oslo, Norway, 2004; MSc, Univ of Oslo, Norway, 1996; BSc, Univ of Oslo, Norway, 1995
Rai	Chandra S		1999	PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING, 1999; MARTIN MILLER CHAIR IN PETROLEUM AND GEOLOGICAL ENGINEERING, 2019	PhD, Univ of Hawaii, 1977; MS, Univ of Hawaii, 1971; BS, Indian School of Mines, 1970
Sajjadi	Baharak			ASSISTANT PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING, 2022	PhD, Univ of Malaya, Kuala Lumpur, Malaysia, 2015; MS, Univ of Arak, Iran, 2010; BS, Univ of Arak, Iran, 2008
Shiau	Bor-Jier (Ben)		2008	ADJUNCT PROFESSOR OF CHEMICAL, BIOLOGICAL AND MATERIALS ENGINEERING, 2010; PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING, 2015	PhD, Univ of Oklahoma, 1995; MS, Univ of Oklahoma, 1991; MS, Univ of Oklahoma 1990; BS, Chun Yuan Christian Univ, 1983
Teodoriu	Catalin		2015	PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING, 2015; MEWBOURNE CHAIR IN PETROLEUM ENGINEERING, 2021	PhD, Oil and Gas Univ of Ploiesti, 2005; PhD, Clausthal Univ of Tech, 2003; MS, Oil and Gas Univ of Ploiesti, 1996
Wu	Xingru		2012	ASSOCIATE PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING, 2012	PhD, Univ of Texas, 2006; MS, Univ of Alaska, 2002; BS, China Petroleum Univ, 1997
Zaman	Musharraf			DAVID ROSS BOYD CHAIR & AARON ALEXANDER CHAIR PROFESSOR OF PETROLEUM AND GEOLOGICAL ENGINEERING	PhD, Univ of Arizona, 1982; MS, Carleton Univ, Ottawa, 1979; BS, Bangladesh Univ of Engineering and Technology, 1975

GeoEnergy Engineering, B.S.

Minimum Total Credit Hours: 129
 Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.50
 Major GPA - Combined and OU: 2.50

Curriculum GPA - Combined and OU: 2.50

Program Code: B448

This program has changes pending State Regents approval for 2024/25. These pending changes are not reflected here.

Major Requirements

A minimum grade of C is required for each course in the curriculum, and students must successfully complete prerequisite courses (with a minimum C grade) before proceeding to the next course.

Code	Title	Credit Hours
G E 2013	Introduction to Energy Resources	3
P E 2113	Statics and Dynamics	3
P E 2153	Mechanics of Materials	3
P E 2213	Thermodynamics	3
P E 3022	Technical Communications	2
G E 3212	Porous Media Characterization	2

or CHEM 1435	General Chemistry II: Signature Course	
GEOL 1114	Physical Geology for Science and Engineering Majors	4
GEOL 3003	Structural Geology and Stratigraphy for Petroleum Engineers	3
C S 1213	Programming for Non-Majors with Python	3
ENGR 2431	Electrical Circuits	1
Geoscience Elective: choose any upper-division (3000-4000 level) GEOL course		3
Total Credit Hours		30

¹ The MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course list at <http://www.ou.edu/content/gened/courses.html>. **Courses graded P/NP will not apply**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

At least three hours of Upper-Division General Education coursework must be completed **outside the major**.

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English Composition (6 hours)</i>		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
<i>Language (0-10 hours)</i>		
(0-10 hours in the same language) Students who have not completed two years of the same language in high school are required to take two college courses in the same language		
Beginning Course		0-5
Beginning Course, continued		0-5
<i>Mathematics (minimum 3 hours)</i>		
MATH 1914	Differential and Integral Calculus I ¹	3-4

P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		
Core Area IV: Arts and Humanities - one must be Upper Division (3000-4000-level)		
<i>Artistic Forms (3 hours)</i>		
Choose one course from the General Education Artistic Forms list.		
<i>Western Culture (6 hours)</i>		
HIST 1483	United States to 1865	3
	or HIST 1493 United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (Excluding HIST 1483 and HIST 1493)		
<i>World Culture (3 hours)</i>		
Choose one course from the General Education World Culture list		
Core Area V: First Year Experience (3 hours)		
Choose one course		
Total Credit Hours		39-50

¹ Mewborne College of Earth and Energy Sciences requirements that also satisfy University General Education requirements.

ADDITIONAL MEWBORNE COLLEGE OF EARTH & ENERGY REQUIREMENT

Code	Title	Credit Hours
PHYS 2524	General Physics for Engineering and Science Majors	4
Total Credit Hours		4

Free Electives

Electives to bring total applicable hours to 129 including 40 upper-division hours.

Suggested Semester Plan of Study

A minimum grade of C is required for each course in the curriculum.

Students must successfully complete prerequisite courses (with a minimum C grade) before proceeding to the next course.

Courses designated as Core I, II, III, IV, or V are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved lists.

Two college-level courses in a single language are required; this may be satisfied by successful completion of 2 years in a single language in high school. Students who must take language at the University will have an additional 6-10 hours of coursework.

Freshman

¹ CHEM 1315 and CHEM 1415 can be substituted with CHEM 1335 (Fall only) and CHEM 1435 (Spring only), respectively.

² The MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

³ To be chosen from the University-Wide General Education Approved Course List. Three of these hours must be upper-division (3000-4000). See list in the Class Schedule.

⁴ PE Elective: P E 4573, P E 4583, P E 4033, or any P E 5000-level course.

Petroleum Engineering, B.S./M.S.

Minimum Total Credit Hours: 151-157

Overall GPA - Combined and OU: 3.00

Major GPA - Combined and OU: 3.00

Curriculum GPA - Combined and OU: 3.00

Program Code: A764/F765

This program has changes pending State Regents approval for 2024/25. These pending changes are not reflected here.

Undergraduate Major Requirements

Bachelor of Science in Petroleum Engineering accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and the Petroleum and Similarly Named Engineering Programs Program Criteria.

A minimum grade of C is required for each course in the curriculum.

Students may enter the accelerated program based on the undergraduate degree pattern offered in the year they first enrolled in the Oklahoma State System of Higher Education or later.

Students must maintain a 3.0 GPA from the time of entering the accelerated program until graduation.

Students must take the GRE and apply for the MS program during the third year; minimum OU GPA and combined GPA of 3.0 is required. Students should submit an application to the School of Petroleum Engineering for the accelerated program during the fall semester of the Junior year. Students must also apply to the Graduate College during the spring semester of the Senior year to be admitted by that college to the MS program.

Code	Title	Credit Hours
P E 2011	Introduction to Petroleum Engineering	1
P E 2113	Statics and Dynamics	3

P E 2213	Thermodynamics	3
P E 2153	Mechanics of Materials	3
P E 3022	Technical Communications	2

GEOL 3003	Structural Geology and Stratigraphy for Petroleum Engineers	3
GPHY 3423	Introductory Petroleum Geology and Geophysics	3
Total Credit Hours		26

¹ The MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

Graduate Requirements

- Students may apply only 3 credit hours of S/U graded coursework (excluding thesis research) toward the M.S.

Code	Title	Credit Hours
P E 5980	Research for Master's Thesis ¹	6
Applied Math Course ²		3
Choose 15 hours of Approved Graduate Elective		15
Total Credit Hours		24

¹ For non-Thesis option M.S. students P E 5980 will be replaced by 12 hours of graduate-level electives approved by the graduate liaison. The Thesis option requires one of the following: 1. Publish a paper in a refereed journal or conference proceeding. 2. Paper accepted for publication in a journal. 3. Oral presentation of a paper at a conference. 4. Oral presentation as part of the department graduate seminar. The student must be listed as first or second author and the topic must relate to the student's thesis. The Graduate College will not authorize a student to defend until the graduate liaison has confirmed the student has met this requirement.

² Applied Math course - One course from the following list or approved by the department: MATH 4163, P E 5563, or P E 5990 (Topic: Petroleum Inverse Studies).

General Education and College Requirements

Courses for fulfillment of General Education and college requirements must be from the approved General Education course list at <http://www.ou.edu/content/gened/courses.html>. **Courses graded P/NP will not apply**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

At least three hours of Upper-Division General Education coursework must be completed **outside the major**.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in

all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Petroleum Engineering (Standard), M.S.

Minimum Total Hours (Thesis): 30

Minimum Total Hours (Non-Thesis): 36

Program Code: M765-Q512

- Students may apply only 3 credit hours of S/U graded courses (excluding thesis) toward a master's degree.

Thesis Option

The Thesis option requires one of the following: 1. Publish a paper in a refereed journal or conference proceeding. 2. Paper accepted for publication in a journal. 3. Oral presentation of a paper at a conference. 4. Oral presentation as part of the department graduate seminar. The student must be listed as first or second author and the topic must relate to the student's thesis. The Graduate College will not authorize a student to defend until the graduate liaison has confirmed the student has met this requirement.

Geological Engineering, Ph.D.

Minimum Total Hours: 90

Program Code: D470

Program Requirements

PROGRAM REQUIREMENTS ARE CURRENTLY UNAVAILABLE FOR THE PH.D. PROGRAM IN GEOLOGICAL ENGINEERING. WHEN THIS PROGRAM HAS MADE CURRICULAR UPDATES, PROGRAM PAGES WILL BE PUBLISHED.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

Petroleum Engineering, Ph.D.

Minimum Total Hours: 90

Program Code: D765

Program Requirements

Code	Title	Credit Hours
M.S.P.E.		
The student must have completed all coursework and research requirements for a Petroleum Engineering Master of Science or equivalent degree as determined by the graduate liaison, including the following specific requirements:		
P E 5353	Advanced Drilling	3
P E 5523	Advanced Production Engineering	3
P E 6573	Advanced Reservoir Engineering	3
Choose one Applied Math course from the following, or approved by the department:		3
MATH 4163	Introduction to Partial Differential Equations (graduate credit)	
P E 5563	Mathematical Simulation Models	
P E 5990	Special Studies (topic: Petroleum Inverse Problems)	
Elective courses, including up to a maximum of 3 credit hours special studies		12
Thesis Research		6
Requirements beyond Master's Degree		

At least 12 hours of coursework beyond the Master's Degree	12
P E 6980 Research for Doctoral Dissertation (minimum 36 hours, maximum 48 hours)	36-48
Total Credit Hours	90

NOTE:

Prior to defending, a student must have published (or accepted/in press) one refereed paper as first author on their dissertation research topic and have one conference proceeding as first author on their dissertation topic. The refereed paper should be in a journal that is listed in Thomson Reuters Web of Science and have a minimum impact factor of 0.5. The Graduate College will not authorize a student to defend until the graduate liaison has confirmed the student has met this requirement.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

School of Geosciences

Matthew Pranter, Director
 Sarkeys Energy Center, Suite 710
 100 E. Boyd Street
 Norman, OK 73019-1009
 Phone: (405) 325-3253
 FAX: (405) 325-3140
geology@ou.edu
geology.ou.edu

General Information

What is Geosciences?

Geosciences is the study of the Earth and even other planets. Geoscience is a broad, multidisciplinary field that encompasses topics such as earth's history, processes that create various landforms, water, soils, and energy.

The **School of Geosciences**, part of the **Mewbourne College of Earth and Energy**, is located in the Sarkeys Energy Center on the main campus of the University of Oklahoma. Founded in 1900 by Charles Gould, the school has been a leader in the geosciences research and education for over a century. Today, the school's faculty mentor a diverse group of undergraduate and graduate students in B.S., M.S., and Ph.D. programs in Geology and Geophysics.

The School of Geosciences has traditionally been a global leader in education and research in topics related to energy, but now includes research programs spanning aspects of organic, inorganic and environmental geochemistry and hydrochemistry, planetary geology, structure and geophysics of earthquakes and induced seismicity, near-field and solid-Earth geophysics, paleoecology and paleoclimate, sedimentary geology, paleomagnetism, and mineralogy/petrology.

The school's mission is to provide students with high-quality education and research opportunities within a creative, inclusive, and interdisciplinary environment with an emphasis on fundamental and applied geosciences.

Toward this mission, students in our Geosciences program experience learning far beyond the classroom. Extended field trips to points across the U.S. are a key component of our educational programs at both the undergraduate and graduate levels, and faculty and students conduct field work that has spanned every continent. Additionally, our students learn and conduct research using state-of-the-art software and experimental facilities.

Vision Statement

The School of Geosciences is a leader in multidisciplinary studies of complex and dynamic geosystems and their impacts on society.

The School will provide students with high-quality education and research opportunities within a creative and interdisciplinary environment with an emphasis on fundamental and applied geosciences

Programs & Facilities

Programs for Academic Excellence

For the student, excellence can be achieved through immersion in the science itself.

- Students are encouraged to participate with their peers in professional societies through local chapters.
- Seminars and colloquia are regularly offered in the school featuring presentations of the latest advances in the geosciences by experts in the field.
- Students are actively encouraged to become involved in current faculty research projects, develop their own research projects, and present these results at regional and national meetings with school support.
- Opportunities for summer employment in professional and research settings are promoted.
- Strong connections are maintained with the Oklahoma Geological Survey, where many environmentally and economically important site-specific problems are being investigated.
- The school, together with the Oklahoma Geological Survey, maintains one of the best Geology and Geophysics libraries in the country.
- Interdisciplinary programs with other departments are encouraged.

Aqueous Geochemistry Laboratory

The newly established Aqueous Geochemistry Laboratory provides analytical and sample processing support for research on organic matter in natural waters. Instrumentation in the AGL includes:

- TOC analyzer (Shimadzu TOC-L™) that uses a 680°C Combustion Catalytic Oxidation/NDIR Detection Method to measure total organic carbon (TOC) in water. Estimated TOC detection limit is 30-50 ppb.
- Horriba Aqualog™ Spectrofluorometer that is used to measure the absorbance and fluorescence properties of organic matter. This instrument generates data that can be used to create Excitation-Emission Matrices (EEMs) commonly used by researcher to characterize organic matter.
- Organic matter isolation equipment. The AGL has several sizes of columns and ion-exchange resin that are used to isolate the humic substance (humic and fulvic acids) fraction of organic matter.
- Electrochemistry support includes a Fischer Scientific multi-parameter (pH, temperature, conductivity, TDS, ORP, Dissolved Oxygen) used to support laboratory experimentation needs. A cupric ion selective electrode (Cu2+ ISE) is also available for measuring free copper (Cu2+) in solution.
- Field instrumentation includes a Hanna Instrument multi-parameter field meter, GeoTech peristaltic pump, Hach digital alkalinity titration kit, and a variety of sample bottles and filtration.

The AGL facility also contains a large fume hood, analytical balance, digital pipettes, magnetic stirring hot plate, and a ASTM Type I nanopure water purification system.

Attribute Assisted Processing & Interpretation (AASPI)

During the past two decades, seismic attributes have become a key component not only in mapping structure and stratigraphy but also in a quantitative reservoir characterization. In addition to enhancing individual faults and discontinuities, geometric attributes help interpreters map axial planes for structural analysis, relate curvature to intensity and orientation of fractures, and map lateral changes in reflectivity to detect channels below seismic resolution. During the 2013 AASPI Consortium research program, we will continue our focus on poststack and prestack data conditioning, calibration of attributes to geological and engineering control, and the use of LMR and AVAZ analysis of unconventional reservoirs. Our research is driven by the data provided by our sponsors, such that our primary efforts will be on the application of these attributes over resource plays and mature fields of North America (US, Canada, and Mexico) that have a combination of proprietary 3D surveys, production data, well logs, microseismic data, image logs, production logs, and core, within a well-understood geologic framework. We believe that a better understanding of the impact of acquisition, processing and imaging on seismic attributes is key to quantifying the errors in reservoir characterization and hydrocarbon estimation provided by modern attribute-driven geostatistics, neural networks, and clustering technology. In addition to research reports, we provide algorithm source code to all sponsors and attribute volumes to those sponsors who wish to provide us with 3D seismic data. More information can be found on the AASPI website.

Bartell Field Camp

The **OU Bartell Field Camp**, dedicated in 2011, is home to both the geology and geophysics field courses. The Bartell Field Camp is located on the northeastern edge of the Wet Mountains and overlooks the Cañon City Embayment, a structural reentrant in the Colorado Front Range. Snow-covered Pikes Peak is visible to the north and the Great

Plains to the east. The area is an ideal geological field laboratory – the Phanerozoic section and faults associated with the mountain front are beautifully exposed and available for study. Combined with the near-perfect weather and closeness to a variety of outdoor activities and metropolitan Denver, it's no wonder OU students have been coming here since 1950! For more information: https://www.ou.edu/mcee/geosciences/student-life-resources/field_camp

Computational Geophysics Laboratory

The Computational Geophysics Laboratory includes several labs assigned to individual research teams and the Wick Cary Geoscience Processing & Imaging Center (GPIC). Their mission is to provide critical computational infrastructure for research activities in near-surface geophysics, exploration geophysics, basin- to crustal scale imaging, earthquake seismology, and microseismic monitoring. The labs are equipped with Linux, Mac and Windows workstations, Linux servers, and data storage servers. The labs also have access to dedicated computing resources at the OU's supercomputer center (<http://www.oscer.ou.edu>), which includes 7 dual 12-core nodes, 250TB storage nodes, and 390 LTO-6 tapes (~975 TB) for data archive.

The Wick Cary Geoscience Processing and Imaging Center (GPIC)

GPIC provides computer hardware, software, data, and user-support to students and researchers of the Mewbourne College of Earth and Energy for both teaching and research activities. GPIC is the primary high-end interpretation and computational facility of the School of Geosciences. Through the generosity of exploration companies, national oil companies, and data brokers, GPIC enables access to high-quality 3D seismic (including multicomponent), electric log, image log, microseismic, and production data for both interdisciplinary research and education. GPIC provides students education using state-of-the-art geophysical exploration and development applications via hands-on approaches. It provides the framework for laboratory exercises in reservoir characterization, seismic modeling and migration, 3D seismic processing, exploration geophysics, 3D seismic interpretation, and quantitative seismic interpretation. GPIC also serves as the computational platform for research in seismic processing and imaging, seismic geomorphology, computer-assisted structure and fracture analysis, reservoir characterization, and potential field imaging of the earth's crust. GPIC is housed in room 1010 Sarkeys Energy Center and includes 23 dual-monitor Windows 10 Dell Precision Tower Workstations (12-16 cores, 32 GB RAM). A Linux-based server cluster provides over 150 Terabytes of disk space and a total number of 132 dual cores. In addition, GPIC has access to dedicated processing power housed within OU's supercomputer center (<http://www.oscer.ou.edu>), where very large jobs can also be run using a batch queuing system.

Software

Through the generosity of software vendors, the School of Geosciences has access to a suite of commercial and academic software packages which our faculty and students use for research and teaching.

- Seismic Processing and Acquisition Design: SLB Vista; SLB OMNI; Haliburton Landmark; ProMAX; SeisSpace; Madagascar
- Seismic Modelling: Tesseral; ANRAY 3D Ray Tracing
- Seismic Interpretation: CPSGG AASPI; SLB Petrel; Geophysical Insights Paradise; Ikon Geosciences RokDok; CGG Hampson-Russell Geoview; IHS Kingdom; OpendTect; Haliburton Landmark Decision Space
- Passive Seismic Data Management and Processing: Antelope; Seismon

- Near-Surface Geophysical Imaging: ReflexW (GPR, Near-surface seismic); AGI EarthImager 2D (Electrical Resistivity Tomography)
- Magnetic and Gravimetric Data Processing: Geosoft OASIS Montaj; GMSYS 2D/3D
- Miscellaneous: MatLAB; ArcGIS; PlatteRiver; BasinMod; NHWave

Critical Zone Biogeochemistry Laboratory

Instruments in the Critical Zone Biogeochemistry laboratory include a LI-COR LI7815 trace gas analyzer with a small volume introduction module, an Elementar Vario EL CNS analyzer for solids and liquids, and a Thermo Fisher MultiSkan SkyHigh microplate UV-Vis analyzer with wavelength scanning capability. We also have two drying ovens, a freezer, a refrigerator, multiple shakers, a ball mill, a jar mill, a water purification system, a benchtop centrifuge with capacity to spin microcentrifuge through 50 mL centrifuge tubes up to 30,000 RCF, single and multichannel pipettes, multiple sets of soil sieves, and a full suite of reagents, glassware, and plasticware. Our field equipment consists of soil carbon dioxide sensors, soil oxygen sensors, soil moisture sensors, Campbell scientific dataloggers, field-deployable fixed-potential redox sensors, augers with extensions, soil probes, a bulk density sampling set, and a LICOR smartflux soil trace gas flux system.

Devon Powder X-ray Diffraction and Clay Mineralogy Laboratory

The Devon lab includes equipment for the preparation and analysis of rock and mineral samples by powder X-ray diffraction, including clay mineral separations. A Rigaku Ultima-IV X-ray diffractometer features cross-beam optics, allowing rapid switching between Bragg-Brentano and parallel-beam optical configurations. Scintillation and Si-strip detectors are mounted with a Y-arm system that facilitates either extremely rapid or extremely precise data collection. The Ultima IV can also be configured for grazing incidence measurements of thin films on diffracting surfaces. Additionally, the lab is equipped for preparation of bulk rock samples, with tools such as a McCrone Micronizing mill, and for the treatment of rock samples for clay analysis, requiring a sequence of extraction steps involving a number of chemical and physical treatments. To accomplish the clay separations, the lab contains a centrifuge, a dialysis bath, desiccators, a drying oven, a furnace, a heating water bath, and a microbalance. For data analysis, updated software tools such as MDI Jade, MDI ClaySim, and Rigaku PDXL are interfaced with databases from the International Centre for Diffraction Data.

Environmental Compound-Specific Isotope Analysis (CSIA)

The Environmental Compound-Specific Isotope Analysis (CSIA) Laboratory evolved over the past two decades from the Organic Geochemistry Group in the School of Geosciences of the University of Oklahoma. The success in development of CSIA methods for analysis of environmental samples led to establishing an in-house research program focused on CSIA of environmental contaminants, and creation of an analytical service facility, serving academic and industrial customers since 2003. Today, the laboratory houses three GC/IRMS systems for determination of carbon and hydrogen isotope ratios. A GC/qMS system is used for determination of chlorine isotope ratios. The laboratory is equipped for handling of the complete suite of environmental samples (water, organic liquids, sediment and air). In addition, GC/qMS instrumentation permits characterization of organic composition of samples.

<http://enviro-isotope.oucreate.com/CSIA/>

Electron Microprobe Laboratory

The electron microprobe laboratory is built around a fully automated CAMECA SX100 microanalyzer. The five wavelength-dispersive spectrometers, Thermo Ultra-Dry SDD energy-dispersive detector, and GATAN PanaCL/F cathodoluminescence detector (CL) are fully integrated for all analytical and imaging functions (x-ray, secondary electron, backscattered electron, absorbed current, and CL signals). The system provides quantitative elemental microanalysis of boron to uranium; digital acquisition of electron, x-ray intensity, and cathodoluminescence images; image analysis and other data processing routines. A full description of the laboratory and its functions is available at: <http://ors.ou.edu/Microprobe/OUEMPLHome.html>

Experimental Earthquake Physics and Geotribology Lab

The equipment in this lab offers approaches to researchers from a wide range of disciplines including geosciences, petroleum engineering, mechanical engineering, and civil engineering. Determinations of earthquake physics (fault behavior) at conditions relevant for earthquake nucleation and propagation, the creation of fractures and determination of their mechanical parameters, the characterization of deformation and measurement of rock properties at shallow crustal conditions. Equipment: Double Torsion Fracture Mechanics Testing Apparatus, Bruker Tribometer System (with environmental condition chambers) and Profilometer

Experimental Petrology Laboratory

The experimental petrology laboratory has facilities for mineral synthesis, calibration of phase equilibrium reactions, and petrologic analogue or simulation experiments. In addition to sample preparation facilities, the experimental laboratory contains 18 externally heated cold-seal reaction vessels for routine operation to 850° C, 200 MPa, and two vessels capable of operation to 700° C, 400 MPa.

Experimental Rock Deformation and Poromechanics Lab [formerly the integrated PoroMechanics Institute (iPMI)]:

The equipment in this lab offers an integrated approach to researchers of various disciplines including petroleum engineering, geology, geophysics, civil engineering, computer science, and electrical engineering to conduct general and applied research on the mechanics of porous materials, in particular, geomechanics applied to hydrocarbon exploration/production, geothermal energy production, and carbon dioxide sequestration.

Field Geophysics Lab

The mission of the field geophysics lab is to provide equipment for research and field-based teaching activities by students and faculty in the School of Geosciences. The lab includes a wide range of equipment for near-surface studies, basin- to crustal-scale geophysical imaging and monitoring, rapid aftershock responses, infrastructural monitoring, and field-based classes.

Fluid Inclusion Microthermometry Laboratory

This facility is used to assess the compositions and physical properties of fluid inclusions through microthermometric techniques. In addition to specialized sample preparation equipment, the laboratory includes a new Linkam TH600 programmable heating/freezing stage on a Zeiss Research Photomicroscope.

Gas Hydrates Laboratory

The Gas Hydrates Laboratory at the University of Oklahoma is fully equipped to conduct, monitor, and analyze gas hydrate thermodynamic and kinetic experiments. Two Parr® pressure vessels are used as hydrate reactors with external heating/cooling systems which can achieve experimental temperatures from -50 to 400 degrees Celsius. The reactors are instrumented with digital thermocouples and pressure transducers which are monitored and recorded with a custom designed Labview® system.

High Resolution Mapping Raman User Facility

OU's High Resolution Mapping Raman User Center is housed within the School of Geosciences and managed by Dr. Megan Elwood Madden. The Renishaw InVia mapping Raman microscope and spectrometer utilizes both a 532 nm green laser and a 785 nm red laser, as well as the Wire 4.1 software for data analysis.

Instrumental Neutron Activation Analysis Laboratory

The INAA laboratory contains gamma-ray spectrometers for the determination of rare-earth elements and other trace element abundances in neutron activated geological materials.

Laurence S. Youngblood Energy Library

The current collection contains over 170,000 map sheets and approximately 92,000 catalogued volumes on the subjects of geochemistry, geology, geomorphology, geophysics, hydrology, mineralogy, paleontology, petrology, stratigraphy, structure and tectonics. The interdisciplinary nature of the earth sciences is supported by Chemistry, Math, Physics, and Engineering branch Libraries. Bizzell Memorial Library contains the biological sciences and the internationally recognized History of Science Collections.

Organic Geochemistry/Stable Isotope Laboratory

The organic geochemistry /stable isotope laboratories have wet chemistry facilities and instrumentation for the isolation and analysis of organic compounds from geologic materials. Dr. Engel has two HPLC systems and a HP GC/MSD instrument used for the analysis of amino acids and peptides. He has a conventional stable isotope laboratory equipped with vacuum lines and a Delta E isotope ratio mass spectrometer for high precision stable carbon isotope analyses of organic matter and carbonates and stable oxygen isotope analyses of carbonates and water. Dr. Engel also has a state of the art Thermo Delta V Plus isotope ratio mass spectrometer that is equipped for continuous flow as well as with a dual inlet for conventional off-line analyses. For continuous flow, the instrument is interfaced to a Costech Elemental Analyzer for stable carbon, nitrogen and sulfur isotope analyses and a Thermo TC/EA system for stable hydrogen isotope analyses. The instrument is also interfaced to a Thermo gas bench system for automated analyses of carbonates (carbon, oxygen) and water samples (oxygen). Dr. Liu has Agilent 1290 series ultra-high-performance liquid chromatography (UHPLC) system equipped with an Agilent 6530 quadrupole time-of-flight (qTOF) mass spectrometer for high-resolution accurate mass analysis on pigments and polar lipids in various types of biological and geological samples. An Agilent 5977B Inert Plus MSD system is also installed in Dr. Liu's lab for the analysis of small volatile compounds.

Paleomagnetism Laboratory

The shielded Paleomagnetism laboratory is used for paleomagnetic and rock-magnetic studies. Equipment includes a 2G cryogenic magnetometer with DC squids, AF and thermal demagnetizers, impulse

magnetizer, field equipment, and several magnetic susceptibility systems including a AGICO MFK-FA1 Multifunction Kappabridge.

Paleontology Laboratories, Sam Noble Oklahoma Museum of Natural History

Paleontological research is concentrated at the Sam Noble Museum, which includes fully equipped labs for invertebrate paleontology, vertebrate paleontology and paleobotany. Large collection areas house more than half-a-million specimens. In addition to various specimen preparation equipment, there are facilities for scanning electron microscopy and digital macrophotography. Exhibits in the Ancient Life Gallery are fully integrated into undergraduate classes (GEOL 1024; GEOL 3513; GEOL 4413), and allow detailed study of fossils ranging from trilobites to dinosaurs.

Physical and Environmental Geochemistry Laboratory

The Physical and Environmental Geochemistry Laboratory is equipped for a wide range of low to moderate temperature geochemical experiments and field sample processing. Geochemical reactors of various types including polyacrylate columns, pressure vessels, and custom-designed batch reactors, as well as stir plates, water baths, and shakers, are used to synthesize analyze the reactivity and rates of natural and laboratory materials. The solution chemistry of field water samples and laboratory experiments are characterized with various electrodes and meters, calorimetric methods using a Thermo Scientific Genesys 10S scanning UV-visible spectrophotometer, and elemental analysis with a PerkinElmer Analyst 800 combined flame / graphite furnace Atomic Absorption Spectrophotometer (AAS). Graphite-furnace capability allows determination of elements in the ppb range. Kinetic Phosphorescence Analysis (KPA) allows determination of sub-ppb levels of dissolved uranium. Trace element work is facilitated by a Barnstead Nanopure Diamond ultrapure water system. A Coy Labs anaerobic chamber allows experiments to be conducted at low oxygen fugacity, mimicking many subsurface/deep water environments. A Quantachrome gas adsorption analyzer determines BET surface area and pore size distribution. Contact Andy Elwood Madden or Megan Elwood Madden for more information.

Reservoir Characterization and Modeling Laboratory (RCML)

The RCML is directed by **Professor Matt Pranter** - Dr. Pranter and his students investigate the controls that stratigraphy, sedimentology, and structure play in regard to reservoir architecture, lithological and petrophysical-property heterogeneity, and reservoir performance. A fundamental goal is to assess the dominant controls on reservoir quality (both matrix and fracture) to more accurately map and model the spatial distribution of reservoir properties.

Sedimentology Laboratory

Quantitative Grain Size and Grain Shape Analysis. Grain size and texture are measured in the lab using the Malvern Mastersizer 3000 and the Malvern Morphologi G3. The Malvern Mastersizer 3000 uses laser diffraction to measure grain size distributions of sediment samples. Different modules allow the measurement of a wide range of sample sizes and grain sizes (sub micron to 2 mm). The Malvern Morphologi G3 quantitatively measures particle size and 2-D shape by photographing and analyzing each individual grain. Grain metrics and bulk geometrical statistics are calculated with the Malvern software.

Structural Geology Labs

The digital workroom includes two dual monitor Dell PC workstations, a Sun Blade workstation, and a SGI Octane workstation. The PCs are primarily used for GIS applications, Cross section construction and 3-D modeling. The Sun Blade and SGI workstations are primarily used for seismic interpretation (Landmark and Geoquest) and 3-D visualization. The physical modeling laboratory is equipped with controlled hydraulic and electric displacement equipment. These are employed to exert a variety of displacement boundary conditions on models made of sand, clay or plaster. Most of the experiments done in this laboratory are directed toward studies of upper crustal deformation, primarily faulting and fracturing.

Thin Section Petrography Laboratory

This laboratory contains research quality microscopes for graduate and undergraduate students, as well as faculty and researchers, to conduct petrographic research. It contains two Zeiss microscopes, including a Zeiss Imager Z1 which is capable of taking thin section photomicrographs. The lab also includes a Nikon reflecting light microscope and a Nikon binocular microscope.

Research Opportunities

Faculty-supervised research is an important component of the School of Geosciences graduate program. Most graduate students are supported financially through research assistantships funded by federal and private industry grants and contracts. Other graduate students are financially supported through teaching assistantships awarded by their academic unit. In either case, faculty-supervised student research leads to master's theses and doctoral dissertations as part of the overall graduate degree requirements. This research is often published in scientific journals which may be useful in assisting graduates to obtain employment. Talented undergraduate students are encouraged to work with faculty on research projects. These student research projects can be an important component of the Honors Program and/or a source of part-time income and scholarship support. Such research participation provides the student with important experience in his or her discipline in addition to meeting normal academic requirements.

Career Opportunities

According to the National Science Foundation, there are approximately 125,000 geologists and geophysicists at work in the United States today. Most are employed by private industry as petroleum geologists and geophysicists whose work is vital to oil and gas companies. Other geologists and geophysicists work for mining companies to locate ore deposits and estimate reserves. Geologists are also employed in other commercial fields such as cement and ceramic industries; sand and gravel firms; railroads; engineering companies; environmental agencies and in the banking industry. The largest single employer of geoscientists in the U.S. is the federal government. Most work for the United States Geological Survey, but others work for the U.S. Department of Energy national laboratories, Soil Conservation Service, Bureau of Land Management, Environmental Protection Agency, National Aeronautics and Space Administration, National Park Service, Bureau of Mines, Forest Service, or the U.S. Army Corps of Engineers. Many geoscientists work for the 50 state geological surveys. Colleges and universities employ about 8,000 geoscientists in teaching and research positions. Many geoscientists are self-employed. Some are independent oil operators; others work as consultants. Most consultants have acquired prior experience in industry, teaching or research. Opportunities also now exist in public school teaching.

The curricula for the Bachelor of Science in Geology and the Bachelor of Science in Geophysics are designed to provide the necessary preparation for professional work or graduate study. Options are available in petroleum geology, environmental geology, paleontology, and geophysics.

The Master's Degree in Geology or Geophysics is designed to provide a professional level degree for industry employment. Traditionally, this degree level has been favored by major petroleum companies.

The Ph.D. in Geology is a research-oriented degree which provides students the opportunity to seek employment in a variety of areas including academia, industry and government.

Undergraduate Employment Opportunities

Geology and geophysics students are eligible to participate in research projects and part-time employment opportunities with faculty members. Other opportunities for research and employment exist at the Oklahoma Geological Survey and the Youngblood Energy Library.

Financial Support – Graduate Studies

Several types of financial aid are available to students on a competitive basis. Prospective graduate students are considered automatically for financial aid at the time of application. The school offers annually approximately 20 teaching assistantships with stipends which include a partial waiver of tuition. International students are required to pass an English language proficiency exam (administered by the English Assessment Program) before they can hold a teaching assistantship. Additionally, the school awards several research assistantships and fellowships using funds from industrial and other private sources. Funds for graduate support are also available from the Oklahoma Geological Survey, and the Institutes of the Sarkeys Energy Center. Grant-supported research assistantships are available through faculty conducted federal, foundation- or industry-sponsored research. These assistantships carry a stipend comparable to teaching assistantships. Ph.D. students are encouraged to write research proposals with their graduate advisors for financial support and to apply for National Science Foundation Graduate Fellowships.

Undergraduate Study

Geology Bachelor of Science Programs

These curricula are designed to provide the necessary background for professional work or graduate studies in geology and allied sciences.

- Environmental Geology, Bachelor of Science (p. 1048)
- Geology, Bachelor of Science (p. 1050)
- Paleontology, Bachelor of Science (p. 1055)
- Petroleum Geology, Bachelor of Science (p. 1057)

Geophysics, Bachelor of Science

The Geophysics, Bachelor of Science (p. 1053) curriculum constitutes a preparation for professional work and also provides the necessary background for graduate work in geophysics and geology.

Minor

The Geology Minor (p. 1059) provides complimentary knowledge for students enrolled in all majors at the University of Oklahoma. The minor should give students a broad overview of Geology and the variety of subset topics within the field.

Graduate Study

The School of Geosciences offers the Master of Science and Doctor of Philosophy degrees. Some important aspects of these degree programs are described below.

Master of Science

The Geology, Master of Science (p. 1059) and the Geophysics, Master of Science (p. 1060) degree programs are intended primarily for those students who plan careers in the petroleum or minerals industries or with state and federal government agencies. The goal of the M.S. degree program is to prepare students by providing a broad background in the Earth sciences and related science and engineering fields through coursework; and encouraging critical thinking and analysis in the solution of geological and geophysical problems through independent thesis research.

Doctor of Philosophy

The Ph.D. degree programs in geology and geophysics (p. 1061) are intended primarily for those students who plan research careers in the earth sciences in universities, industry or government agencies. The goals of the Ph.D. degree program are to prepare the student for a career in research by providing coursework in an area of specialization in geology or geophysics, provide a strong background in allied fields such as mathematics, physical science, biological science, and engineering to give the student the necessary tools to conduct original and significant geological research; and encourage critical thinking and analysis of geological problems through the design of original research projects.

The Ph.D. degree normally requires a minimum of three years beyond the M.S. degree. The Graduate College at the University of Oklahoma requires 90 post-baccalaureate semester hours of coursework. Generally, the first year of residence is devoted primarily to coursework in preparation for the general examination; the remaining two years are devoted to both coursework and research. There are no specified course requirements for the Ph.D. degree in Geology. Rather, a coursework program is designed for each student in consultation with a doctoral committee composed of at least five graduate faculty members, including at least one from outside the major department within the University and one member outside the University. The Ph.D. in Geophysics has specific core requirements which will be determined by the faculty advisor. The purpose of the coursework is to prepare the student for the general examination, which tests the mastery of the field of specialization and related fields as well as the capacity for synthesis, sound generalization, and critical thinking. The examination consists of a written section in the major field of study, written sections in related fields, and oral defense of an original research proposal. Frequently, the original research proposal is the student's dissertation topic.

The dissertation is the culmination of an original research project in the student's field of specialization and should make a significant contribution to scientific understanding in the field. Normally, the student works closely with the faculty advisor in the design and execution of the research project. The student and the advisor may submit proposals to foundations or industry for financial support to carry out the research, and they report the results of the research at regional, national and international meetings and in papers published by national and international journals.

Courses

- GEOL 1003 Volcanoes and Earthquakes 3 Credit Hours**
Prerequisite: high school chemistry and algebra. Worldwide distribution of volcanic and earthquake activity; types of volcanic eruptions and associated landforms and rocks; causes of and techniques for location of earthquakes; prediction of volcanic eruptions and earthquakes; social consequences of predictions and actual volcanic and earthquake activity. (F, Sp) [II-NS].
- GEOL 1013 Global Environmental Change 3 Credit Hours**
Relationship between humanity and the environment from an intellectual and historical perspective. Principle of progress and the Industrial Revolution, the Enlightenment and Francis Bacon, the noble savage, conservation and land ethics. Malthusians and Cornucopians, the Gaia Hypothesis, risk analysis, global warming, fossil fuels and alternative energy sources. (Sp)
- GEOL 1023 Geology of National Parks 3 Credit Hours**
The amazing landforms and geologic features within the National Parks have a story to tell about their geologic history and tectonic setting, and are important for illustrating and describing concepts related to Earth processes and geologic time. This course blends an introduction to geology with geologic concepts as they apply to selected National Parks. (F, Sp) [II-NS].
- GEOL 1024 The History of the Earth and Life 4 Credit Hours**
Origin of the Earth/solar system. Rocks and minerals; geologic time; plate tectonics/continental drift. The ocean-atmosphere system; climate change over time; biological evolution. Fossil record of early life; the "Cambrian Explosion" of life in the oceans; invertebrate animals and their geological history. Geological history of fishes; evolution of plants. No student may earn credit for both GEOL 1024 and GEOL 1124 (Sp) [II-NSL].
- GEOL 1033 Earth, Energy, Environment 3 Credit Hours**
Explores Earth and its energy resources. Introduces physical geology and the link to global energy resources: their origin, properties, abundance, distribution in and on Earth, and environmental challenges. Emphasizes the advantages, disadvantages, and misconceptions of each energy resource. Also explores hydrogen as an energy resource, critical minerals and metals for energy applications, and possible methods to capture and store CO₂. (Sp) [II-NS].
- GEOL 1034 Native Science and Earth Systems of North America 4 Credit Hours**
0 to 4 hours. (Crosslisted with METR 1034) Examines Earth systems of North America using both indigenous and Western perspectives, and an Earth science approach. This team-taught course will utilize a combination of geology, geography, meteorology, and Native American sciences, as expressed through the use of art. (Sp) [II-NSL].
- GEOL 1104 The Dynamic Earth (Geology for non-Science Majors) 4 Credit Hours**
Introduction to the fundamentals of geology and their application to land-use, groundwater, mineral use and fossil fuel problems facing society. Several guest lecturers from industry and state and federal surveys will contribute to the content of the course. Laboratory fee. Three hours lecture, two hours lab. Laboratory. (F, Sp) [II-NSL].
- GEOL 1114 Physical Geology for Science and Engineering Majors 4 Credit Hours**
Prerequisite: equivalent knowledge of high school chemistry, algebra and trigonometry. Laboratory included. Plate tectonics, the makeup of continents and mountain building. Heat flow, magnetism, gravity, rock deformation, earthquakes and the earth's interior. Surface processes including weathering, erosion, transport and deposition. Landforms, rivers, groundwater, glaciers, ocean processes, and volcanoes. Minerals and rocks. Application of geology to land-use, groundwater, mineral and fossil fuel exploration. Laboratory. (F, Sp) [II-NSL].
- GEOL 1124 Earth History 4 Credit Hours**
Prerequisite: none; 1114 helpful but not required. Laboratory included; field trip. Physical history of the earth from its origin as a planet through the Great Ice age. Origin and growth of continents and ocean basins. Systematic survey of the history of continents with emphasis on North America: growth and leveling of mountain chains, rift valleys, transgressions and regressions of seas; continental fragmentation, assembly and relative motions. Plate tectonics, particularly as it relates to continent history. Climate and evolutionary changes through geologic time. Principles and methods used to interpret earth history and date rocks. Geologic time. Laboratory includes historical studies of specific regions; study of maps and fossils. Laboratory (F, Sp)
- GEOL 1203 The Age of Dinosaurs 3 Credit Hours**
(Crosslisted with BIOL 1203) Introduction to basic principles and theories in biology (evolution, systematics, vertebrate morphology and relationships) and geology (geologic time, earth history, plate tectonics, sedimentation and stratigraphy), focusing on the evolutionary history of Dinosauria. May not be counted for major coursework in Biology or Geology. (F) [II-NS].
- GEOL 2014 The Earth System 4 Credit Hours**
An integrated overview of earth sciences emphasizing earth materials, the oceans and atmosphere, the solar system, and earth's evolution. The interrelationship among the different earth systems will be emphasized. Topics will be explored through a learning-cycle approach. The lab component includes both in-class experiments and one field-based research project. Laboratory (Sp) [II-NSL].
- GEOL 2224 Introduction to Mineral Sciences 4 Credit Hours**
Prerequisite: GEOL 1114, CHEM 1315, and MATH 1823/1914 or concurrent enrollment. Main topics include crystal chemistry, optical properties and identification of minerals utilizing the petrographic microscope, mineral stability, crystal symmetry, and an introduction to the rock-forming minerals and their environments of formation. Laboratory (F)
- GEOL 2970 Special Topics 1-3 Credit Hours**
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- GEOL 3003 Structural Geology and Stratigraphy for Petroleum Engineers 3 Credit Hours**
Prerequisite: 1114, Physics 2524 or concurrent enrollment. Treatment of structural and stratigraphic geology with an emphasis on aspects of importance to petroleum engineering. Includes an investigation of mechanical principles relating to the earth's crust, descriptive study of nomenclature, causes of tectonic deformation, sedimentary processes and environments, and stratigraphic principles. Laboratory. (Sp)

- GEOL 3013 The Geology of Oklahoma 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. Provides an overview of geology emphasizing earth materials, surface processes, natural hazards, and the earth's evolution using Oklahoma as our natural laboratory. The course emphasizes problem solving and includes impact of anthropogenic changes and resources extraction. Required field trip. Grading based on exams, research paper and in-class exercises. (F) [II-NS].
- GEOL 3023 The Geology of Natural Resources in Sub-Saharan Africa 3 Credit Hours**
Prerequisite: Junior standing and one Natural Science General Education course 1000-level or higher, or instructor permission. Content will include the carbon cycle, rock/tectonic cycle, and water/climate cycle. Students will explore, through data analysis, processes that lead to the formation, distribution and variation of fossil fuels, mineral deposits, and lake and grassland ecosystems. These concepts will be highlighted through Oil/Gas Development, Mineral Mining, Land-use and Climate Change. (Fall) (F) [II-NS].
- GEOL 3033 Earth Resources and the Environment 3 Credit Hours**
Prerequisite: junior standing or permission of instructor. A geological perspective on Earth's water, energy, soil, and mineral resources, including their past, present, and potential future impact on society. By examining intersections between Earth resources and society, we will investigate the nature of science, role of science and scientists in society, evaluate scientific versus non-scientific sources of information, and communicate appropriately using scientific sources of information. (Sp) [II-NS].
- GEOL 3063 Exploring Planetary Worlds 3 Credit Hours**
Prerequisite: Six credits of introductory (1000 or 2000-level) natural science coursework; permission of instructor or department. Topics will include solar system and planet formation, planetary materials, and geologic processes that likely formed planetary features we observe today. Students will design a rover, lander, orbiter, or fly-by mission to gather data and test key hypotheses on a selected Planetary Body. Students will present on mission concept, including an outreach plan, in a written proposal and group presentation. (F) [II-NS].
- GEOL 3114 Structural Geology 4 Credit Hours**
Prerequisite: GEOL 2224 and PHYS 2514. An introduction to the fundamental concepts of structure and deformation in the lithosphere. It discusses recognition, interpretation, and mechanics (stress, strain) of faults, folds, structural features of igneous and metamorphic rocks, and introduces regional structural geology and tectonics. Laboratory includes techniques of structural analysis, recognition, and interpretation of structures on geologic maps, and construction of interpretive cross sections. (F)
- GEOL 3123 Introductory Field Geology 3 Credit Hours**
Prerequisite: 2224, 3114, and 3223 or 3233, or permission (completed laboratory). Techniques of geologic fieldwork including: measuring stratigraphic sections, airphoto analysis, mapping, total station, writing reports. Course includes 10-12 field days in Oklahoma (during weekends) and a weekly laboratory. Students will be charged transportation costs. (Sp)
- GEOL 3223 Igneous and Metamorphic Petrology 3 Credit Hours**
Prerequisite: 2224 or permission. Laboratory included. Field trip; students will be charged transportation costs. Generation, emplacement and crystallization of magma; phase chemistry; principles of igneous rock classification; the relationship of magma types to geologic setting. Principles of metamorphic petrology; phase chemistry and metamorphic reactions; concepts of metamorphic grade, P-T regimes and relationships to geologic environments; concepts of protoliths and provenance. Laboratory study of the textures, structures and mineral assemblages of igneous and metamorphic rocks utilizing hand specimens and thin sections. Laboratory. (Sp)
- GEOL 3233 Sedimentary Petrology and Sedimentology 3 Credit Hours**
Prerequisite: 2224 or permission. Laboratory included. Field trip; students will be charged transportation costs. Origin, evolution and interpretation of sedimentary rocks with an emphasis on terrigenous systems; interpretation of mineralogy, textures and structures of terrigenous clastic and carbonate rocks in hand specimen and thin section. Laboratory. (Sp)
- GEOL 3333 Geowriting 3 Credit Hours**
Prerequisite: English 1113 and English 1213 or Expository Writing 1213. Provides student with the information and skills needed to effectively communicate as professional geoscientists. Students will actively engage in writing and scientific communication exercises through in-class activities, weekly assignments, and semester-long projects. Substitutes for English 3153. (alt. F)
- GEOL 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- GEOL 3513 Fundamentals of Invertebrate Paleontology 3 Credit Hours**
Prerequisite: GEOL 1114 or GEOL 1024 or BIOL 1114 or permission of instructor. Fossil preservation and bias in the fossil record. Ontogeny and growth of invertebrates. Interpretation of the life habits of fossil organisms, with case histories from invertebrates and vertebrates. Speciation and macroevolution. Paleocology of marine communities. Mass extinctions in the fossil record. Biostratigraphy. Laboratory covers classification, morphology and ecology of the major invertebrate fossil groups. Laboratory (F)
- GEOL 3633 Introduction to Oceanography 3 Credit Hours**
General survey of the scientific framework of the four specializations of the oceanographic study - biological, chemical, geological/geophysical and physical oceanography. Applications of ocean research to social and economic problems; interrelations between the ocean disciplines and other fields of study. (Sp) [II-NL].
- GEOL 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers topics not usually presented in the regular courses. (F, Sp, Su)
- GEOL 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

- GEOL 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)
- GEOL 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- GEOL 4001 Colloquium Series 1 Credit Hour**
Prerequisite: Departmental Permission. May be repeated for credit, maximum credit 9 hours. Departmental seminar series which will host a new guest lecturer, faculty member or student presenter each week. These lectures will provide greater exposure to scholarly work within the field of Geology and Geophysics, along with providing a platform for discussion and department interaction. All department scholarship students are required to enroll in this course each semester. (F, Sp)
- GEOL 4113 Depositional Systems and Stratigraphy 3 Credit Hours**
(Slashlisted with GEOL 5113) Prerequisite: GEOL 3233, and GEOL 3114 or concurrent enrollment. Basic stratigraphic principles as well as reconstruction of ancient depositional systems. The controls (climatic, tectonic, eustatic) on deposition of stratigraphic sequences, stratigraphic completeness, biostratigraphy, magnetostratigraphy, and sequence stratigraphy. Field trip; students will be charged transportation costs. Laboratory. No student may earn credit for both 4113 and 5113. (F)
- GEOL 4133 Petroleum Geology for Geoscientists 3 Credit Hours**
Prerequisite: GEOL 3233 and GEOL 3114, majors only. Addresses the origin and distribution of conventional and unconventional petroleum resources, the petroleum system, source rocks, traps and seals, reservoir rock properties, and exploration and development methods. (F)
- GEOL 4136 Field Geology 6 Credit Hours**
Prerequisite: 3123; senior standing or permission. A six-week summer course held at the Oklahoma Geology Camp at Canon City, Colorado. Applications of field techniques, including use of aerial photographs, construction of geological maps and geophysical methods, to the recognition and interpretation of geologic phenomena. (Su) [V] .
- GEOL 4143 Petroleum Geology for Business Majors 3 Credit Hours**
Prerequisite: 1104 or 1114. The integration of several fields of geology with geochemistry, geophysics, and engineering to provide an overview of the science and technology used in the exploration for and development of oil and natural gas fields. Briefly covers historical development of petroleum geology, amount and location of the world's major oil and gas reserves, and future potential for conventional and non-conventional hydrocarbon resources. (F)
- GEOL 4204 Vertebrate Paleobiology 4 Credit Hours**
(Slashlisted with GEOL 5204; Crosslisted with BIOL 4204) Prerequisite: BIOL 1114 and 1121, or 1124, or 1134, or permission of instructor. Systematics, relationships, zoogeography and evolutionary morphology of the major groups of vertebrates. Field trips. Laboratory. No student may earn credit for both 4204 and 5204. (Sp)
- GEOL 4223 Principles of Geochemistry (Slashlisted with 5223) 3 Credit Hours**
Prerequisite: 2224, Chemistry 1315, and 1415. Experience with calculus recommended. Overview of major topics in geochemistry, emphasizing thermodynamics and kinetics within the context of natural systems. Additional topics will include nucleosynthesis and cosmochemistry, bulk Earth geochemistry, chemistry and bonding of natural materials, solutions and mineral solubility, redox processes, interfacial geochemistry, and isotope geochemistry. No student may earn credit for both 4223 and 5223. Laboratory (Alt. Sp)
- GEOL G4233 Subsurface Methods 3 Credit Hours**
Prerequisite: junior standing or permission of instructor/department. Concepts and methods of subsurface geoscience data analysis, modeling, and interpretation. Data integration (core, well logs, 3-D seismic, outcrops) to evaluate, map, model, and interpret subsurface geological characteristics and formation property heterogeneity. Application to subsurface reservoirs and aquifers related to energy (oil, gas, geothermal, hydrogen), water, and CO2 storage. (Fall) (F)
- GEOL 4373 History of Geology 3 Credit Hours**
Prerequisite: junior standing. History of science and the scientific method with an emphasis on geology. Greek science, scholasticism, Copernican revolution Francis Bacon, principle of uniformity, evolution, continental drift, climate, progress. Discussion of writings by Plato, Geike, Kuhn, Popper, Chamberlin, Gilbert, Hubbert and others. No student may earn credit for both 4373 and 5373. (F) [IV-WC] .
- GEOL 4513 Evolutionary Paleobiology 3 Credit Hours**
(Slashlisted with GEOL 5513) Prerequisite: GEOL 3513; MATH 2423 or MATH 2924; or permission of instructor. Advanced course on biological evolution emphasizing mathematical and computational approaches to the fossil record. Biodiversity through time, origination and extinction dynamics; Models of trait evolution (Brownian motion, Ornstein Uhlenbeck processes, and beyond), Markov processes; Phylogeny inference, parsimony, likelihood, and Bayesian approaches; Paleobiological contributions to understanding major features of evolution and the history of life, punctuated equilibrium, levels of selection. No student may earn credit for both 4513 and 5513. (Irreg.)
- GEOL 4533 Earth's Past Climate 3 Credit Hours**
(Slashlisted with GEOL 5533; Crosslisted with METR 4533) Prerequisite: senior or graduate standing, or permission of instructor. Explores earth's climate system, controls on climate change, and evolution of climate history through geologic time as deciphered from climate proxies. No student may earn credit for both 4533 and 5533. (F)
- GEOL 4613 Soil Genesis 3 Credit Hours**
(Slashlisted with GEOL 5613) Prerequisite: GEOL 1114 or Instructor/ Department Permission. This course focuses on the formation and morphology of soils - otherwise known as the field of pedology. Pedologists research the processes that generate different soils across and within landscapes. We apply this knowledge to understand the development of landforms, biogeochemical reactions across space and time, and the distribution of plant and animal species in the biosphere. No student may earn credit for both 4613 and 5613. (F)

- GEOL G4633 Hydrogeology 3 Credit Hours**
Prerequisite: MATH 2924 or MATH 2443, PHYS 2524, senior standing in geology, or permission of instructor. Darcy's law, Hubbert's fluid potential, equations of groundwater flow. Physical properties of geologic materials and fluids. Free convection, compaction- and gravity-driven flow. Role of fluids in geologic phenomena, including mineralization, metamorphism, hydrocarbon migration, sedimentary diagenesis, faulting and earthquakes, paleomagnetism. Application of geologic and geophysical techniques to fluid flow problems. (F)
- GEOL 4663 Biogeochemistry of the Critical Zone 3 Credit Hours**
(Slashlisted with GEOL 5663) Prerequisite: GEOL 1114 or Instructor/Department Permission. This course serves as a survey of the field of biogeochemistry through the lens of critical zone science. Biogeochemistry is the study of the fluxes and transformations of energy, water, carbon, nutrients, and other elements within and through the biosphere; critical zone science encompasses integrative works that study the near-surface interactions between rock, soil, air, water, and biota. No student may earn credit for both 4663 and 5663. (F)
- GEOL 4923 Pegmatites 3 Credit Hours**
(Slashlisted with GEOL 5923) Prerequisite: GEOL 3223, CHEM 1415, and permission of instructor. Granitic pegmatites are the most complex rocks on earth. Class instructs students in the use of scientific methods, including historical background, working hypotheses, analytical methods, experimental test, and theory as they are utilized in solving the origins of pegmatites. No student may earn credit for both 4923 and 5923. (Sp)
- GEOL 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- GEOL G4970 Seminar 3 Credit Hours**
1 to 3 hours. Prerequisite: permission. May be repeated; maximum credit nine hours. (F, Sp)
- GEOL 4983 Senior Thesis in Geology 3 Credit Hours**
Prerequisite: senior standing with a major in geology and permission. May not be repeated. Individual research of a geological topic selected by the student in consultation with the instructor. The project may involve fieldwork, theoretical analysis, computer modeling, and/or data analysis and interpretation, culminating in a written thesis. (F, Sp, Su)
- GEOL 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit nine hours. Contracted independent study for topics not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- GEOL 5001 Topics in Geosciences 1 Credit Hour**
Prerequisite: Graduate standing or departmental permission. This course is a broad survey of general concepts in the geosciences, delivered at an advanced level. Students will read the professional scientific literature, participate in class discussions, and complete short writings related to readings and their own research. (F)
- GEOL 5003 Diagenesis 3 Credit Hours**
Prerequisite: 26 hours of geology or geophysics or permission. Origin and interpretation of diagenetic features of sedimentary rocks, including porosity, permeability, fluid flow, compaction and cementation. Geochemical approaches are stressed. Laboratory. (Irreg.)
- GEOL 5010 Paleomagnetism/Diagenesis Seminar 1-2 Credit Hours**
Prerequisite: Senior or graduate standing; GPHY 5364 suggested. Seminar includes presentations by the professor on research topics as well as presentations by students on papers they read. In addition, each student will also make at least one presentation on their research. Also, students will work through a self-instruction lab with the microscopes. Focuses on recognizing diagenetic features that are important for paleomagnetism. May be taken for a total of six credit hours. (F, Sp)
- GEOL 5020 Sedimentology and Stratigraphy Seminar 1-3 Credit Hours**
Prerequisite: graduate standing. May be repeated with change of content; maximum credit twelve hours. Directed seminar on selected aspects of sedimentology and stratigraphy. (F, Sp)
- GEOL 5041 Critical Geosciences Seminar 1 Credit Hour**
Prerequisite: Graduate standing and permission of instructor. Directed seminar on knowledge and inquiry, profession and practice, and careers associated with 'Critical Geosciences,' including but not limited to biogeochemistry and geophysics of planetary critical zones and critical mineral/energy resources. 1 hour/week. (F, Sp)
- GEOL 5061 Topics in Critical Zone Science 1 Credit Hour**
Prerequisite: Graduate Standing or Department/Instructor Permission. In this seminar-style class we will explore recent advances in the field of critical zone science. Critical zone science integrates the earth sciences to study the near-surface interactions between rock, water, soil, air, and biota. Therefore, we will read and discuss research articles that use such a systems-based approach to answer questions related to an array of topics. (F, Sp.) (F, Sp)
- GEOL 5113 Depositional Systems and Stratigraphy 3 Credit Hours**
(Slashlisted with GEOL 4113) Prerequisite: Graduate Standing, GEOL 3233, and GEOL 3114 or equivalent. Basic stratigraphic principles as well as reconstruction of ancient depositional systems. The controls (climatic, tectonic, eustatic) on deposition of stratigraphic sequences, stratigraphic completeness, biostratigraphy, magnetostratigraphy, and sequence stratigraphy. Field trip; students will be charged transportation costs. No student may earn credit for both 4113 and 5113. Laboratory. (F)
- GEOL 5173 Clastic Facies 3 Credit Hours**
Prerequisite: 3233 or 4113 or equivalent. Bedforms, sedimentary structures, flow regime, intrinsic versus extrinsic controls on sedimentation, ancient depositional environments and depositional models (alluvial fan, fluvial, deltaic, lacustrine, eolian, shelf, etc.). (F)
- GEOL 5204 Vertebrate Paleobiology 4 Credit Hours**
(Slashlisted with GEOL 4204) Prerequisite: graduate standing and permission of instructor. Systematics, relationships, zoogeography, and evolutionary morphology of the major groups of vertebrates. Field trips. Laboratory. No student may earn credit for both 4204 and 5204. (Sp)
- GEOL 5223 Principles of Geochemistry (Slashlisted with 4223) 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Overview of major topics in geochemistry, emphasizing thermodynamics and kinetics within the context of natural systems. Additional topics will include nucleosynthesis and cosmochemistry, bulk Earth geochemistry, chemistry and bonding of natural materials, solutions and mineral solubility, redox processes, interfacial geochemistry, and isotope geochemistry. No student may earn credit for both 4223 and 5223. Laboratory (Alt. Sp)

- GEOL 5343 Stable Isotope Geochemistry 3 Credit Hours**
Prerequisite: Chemistry 1315, 1415; senior or graduate standing. Focuses on the stable isotopes of light elements (C, H, O, N, S) in the various processes that have resulted in their redistribution over geologic time. (Alt. F)
- GEOL 5353 Carbonates and Sequence Stratigraphy 3 Credit Hours**
Prerequisite: Senior undergraduate or graduate standing and permission of instructor. Sedimentology, sequence stratigraphy, paleo-climate, and reservoir attributes of Paleozoic carbonates (and associated eolian, fluvial and deep-water siliciclastics) of the classic Permian basin region. A highlight is a major field trip to world-class exposures in the Sacraments (NM) and Guadalupe (TX) mountains. (Irreg.)
- GEOL 5363 Carbonate Geology 3 Credit Hours**
Prerequisite: 26 hours of geology and geophysics, or permission. Students will be charged field trip costs. Petrology and petrography of modern and ancient chemical rocks, the reconstruction of their physical/chemical depositional and diagenetic environments in time and space; applied interpretation of cores, petrophysical logs, and seismic; five-day field trip to the Florida Keys. (Irreg.)
- GEOL 5413 Paleobotany 3 Credit Hours**
Prerequisite: permission of instructor. Introduction to the fossil record of terrestrial plants from algae to flowering plants. Lectures will address anatomy, morphology, taphonomy and paleoecology, including climate and plant-animal interactions. Laboratories will put lecture topics into practice using fossil plants from the Oklahoma Museum of Natural History collection and from fieldwork. Field trips. No student may earn credit for both 4413 and 5413. Laboratory. (Sp, even-numbered years)
- GEOL 5443 Formation Damage 3 Credit Hours**
(Crosslisted with P E and G E 5443) Prerequisite: Graduate standing. This course presents an overview of main mechanisms of formation damage (mechanical, chemical, thermal, and biological) occurring during subsurface applications, including but not limited to primary and enhanced hydrocarbon production, CO₂ storage, and geothermal processes. Existing theories explaining the process and methods to mitigate the formation damage will be discussed. (Irreg.)
- GEOL 5503 Clay Mineralogy 3 Credit Hours**
Prerequisite: Graduate Standing or Permission of Instructor. Theoretical fundamentals, methods of investigation, and applications of clay mineral structure and reactivity. Students are required to complete a hands-on original project applying methods and concepts from the course to their research.
- GEOL 5513 Evolutionary Paleobiology 3 Credit Hours**
(Slashlisted with GEOL 4513) Prerequisite: graduate standing or instructor permission. Advanced course on biological evolution emphasizing mathematical and computational approaches to the fossil record. Biodiversity through time, origination and extinction dynamics; Models of trait evolution (Brownian motion, Ornstein Uhlenbeck processes, and beyond), Markov processes; Phylogeny inference, parsimony, likelihood, and Bayesian approaches; Paleobiological contributions to understanding major features of evolution and the history of life, punctuated equilibrium, levels of selection. No student may earn credit for both 4513 and 5513. (Irreg.)
- GEOL 5533 Earth's Past Climate 3 Credit Hours**
(Slashlisted with GEOL 4533; Crosslisted with METR 5533) Prerequisite: senior or graduate standing, or permission of instructor. Explores earth's climate system, controls on climate change, and evolution of climate history through geologic time as deciphered from climate proxies. No student may earn credit for both 4533 and 5533. (F)
- GEOL 5543 Minerals and the Environment 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Explores the bonding and reactivity of common environmental minerals, as well as laboratory methods in environmental mineral analysis, including diffraction, microscopy, and spectroscopy. (F)
- GEOL 5613 Soil Genesis 3 Credit Hours**
(Slashlisted with GEOL 4613) Prerequisite: Graduate standing or Instructor/Department Permission. This course focuses on the formation and morphology of soils - otherwise known as the field of pedology. Pedologists research the processes that generate different soils across and within landscapes. We apply this knowledge to understand the development of landforms, biogeochemical reactions across space and time, and the distribution of plant and animal species in the biosphere. No student may earn credit for both 4613 and 5613. (F)
- GEOL 5633 Field Methods in Hydrogeology 3 Credit Hours**
Prerequisite: GEOL 4633 and senior standing or graduate standing in Geology, Civil Engineering, Geography & Environmental Sustainability, or Environmental Science, or permission of instructor. This course provides students with a hands-on introduction to commonly used field methods in hydrogeology. Some aspects of surface hydrology will also be covered. Field-focused exercises in well installation, slug testing, aquifer testing, water sampling (organic and inorganic constituents), in-situ measurement of water quality parameters, surface water discharge measurement techniques, and geophysical methods are covered. (F)
- GEOL 5663 Biogeochemistry of the Critical Zone 3 Credit Hours**
(Slashlisted with GEOL 4663) Prerequisite: Graduate Standing or Instructor/Department Permission. This course serves as a survey of the field of biogeochemistry through the lens of critical zone science. Biogeochemistry is the study of the fluxes and transformations of energy, water, carbon, nutrients, and other elements within and through the biosphere; critical zone science encompasses integrative works that study the near-surface interactions between rock, soil, air, water, and biota. No student may earn credit for both 4663 and 5663. (F)
- GEOL 5733 Sedimentation and Tectonics 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Provides a basic understanding of the coupling between tectonics and sedimentation, including how the composition, geometry, and stacking of sedimentary deposits are influenced by spatial and temporal changes in tectonics. Course content is delivered through a series of basic lectures outlining fundamental concepts, followed by discussion-based analyses of primary literature that highlights fundamental couplings between sedimentation and tectonics. (F)
- GEOL 5813 Basin Analysis for Oil and Gas 3 Credit Hours**
Prerequisite: permission. Development of exploration guidelines to oil and gas (origin, migration, accumulation) based on regional tectonic styles and related time and place associations of structure, sedimentation, heat history and fluid pressures. Laboratory. (F)
- GEOL 5923 Pegmatites 3 Credit Hours**
(Slashlisted with GEOL 4923) Prerequisite: GEOL 3223, CHEM 1415, and permission of instructor. Granitic pegmatites are the most complex rocks on earth. Class instructs students in the use of scientific methods, including historical background, working hypotheses, analytical methods, experimental test, and theory as they are utilized in solving the origins of pegmatites. No student may earn credit for both 4923 and 5923. (Sp)
- GEOL 5960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

- GEOL 5970 Special Topics/Seminar 3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- GEOL 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- GEOL 5990 Special Studies 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission. May be repeated; maximum credit nine hours. Advanced special studies in geological problems. May include directed reading in geology, fieldwork, laboratory research or preparation of reports. (F, Sp, Su)
- GEOL 6103 Petroleum Geochemistry 3 Credit Hours**
Prerequisite: graduate standing in geology or chemistry. An introduction to the basic concepts of petroleum geochemistry and their role in exploration. Includes the biomarker concept, pyrolysis techniques, isotopes in petroleum exploration, basin modeling and kinetic studies, organic petrography and detailed studies of a number of case histories. (Irreg.)
- GEOL 6113 Organic Geochemistry 3 Credit Hours**
Prerequisite: graduate standing or instructor permission. This course will introduce basic concepts, methods, and hot topics of Organic Geochemistry with a focus on lipid biomarkers, the molecular fossils that are commonly studied for tracing the metabolic activities of once living organisms and reconstructing past climates.
- GEOL 6633 Aqueous Geochemical Modeling 3 Credit Hours**
Prerequisite: Graduate standing in geology, civil engineering, environmental science, or other program with permission of instructor, and GEOL 5223/4223. Provides an interactive platform to improve our understanding of complex biogeochemical reactions and processes in natural systems. Course will cover the mathematical and thermodynamic basis for widely used geochemical modeling programs including PHREEQC, Visual MINTEQ, and Geochemists Work Bench (GWB). Various types of modeling approaches will be explored using geochemical data representative of real work applications. (Sp)
- GEOL 6950 Research 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing and permission of faculty supervisor. May be repeated with change of content; maximum credit twelve hours. Individual research in various areas of geology. (F, Sp, Su)
- GEOL 6960 Directed Readings 1-6 Credit Hours**
1 to 6 hours. Prerequisite: graduate standing and permission of faculty supervisor. May be repeated; maximum credit six hours. Supervised reading at an advanced graduate level. (F, Sp, Su)
- GEOL 6970 Seminar 4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing and permission of faculty supervisor. May be repeated with change of subject matter; maximum credit 20 hours. Directed seminar on selected aspects of geologic knowledge and inquiry. (F, Sp, Su)
- GEOL 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- GEOL 6990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- GPHY 1103 Adventures in Geophysics 3 Credit Hours**
The field of applied near-surface geophysics will be introduced within the broader scope of the geophysical sciences. Key geophysical techniques and tools will be covered through exploration of existing case studies involving fields such as archaeology, law enforcement and ground water resources. There will also be opportunities for 'hands on' experience with high-tech geophysical tools. (Sp) [II-NS].
- GPHY 2013 Frontiers of Geophysics 3 Credit Hours**
Prerequisite: GEOL 1114 or co-enrollment. Introduction to the basic theories, methods, and modern applications of geophysics. This sampler course will address topics such as, but not limited to: seismology, deep earth geophysics, remote sensing, reflection seismology, computational geophysics, and machine learning. (Sp)
- GPHY 3013 Data Analysis in Geoscience 3 Credit Hours**
Prerequisite: GEOL 1114, and MATH 2924 or MATH 2423. This course introduces theories and techniques in data analysis and their applications in the Earth and Environmental Sciences, with examples demonstrated in MatLab. Topics include data visualization, probability theory, linear models, periodicity detection, filtering, correlation, interpolation, approximations, and hypothesis testing. (Sp)
- GPHY 3423 Introductory Petroleum Geology and Geophysics 3 Credit Hours**
Prerequisite: GEOL 1114, MATH 2924 or MATH 2423, PHYS 2514, and GEOL 3003. Fundamentals of the utilization of geological and geophysical data in the exploration for and development of petroleum reserves. Fundamental principles, geological and geophysical data acquisition, processing and interpretation. (F)
- GPHY 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- GPHY 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)
- GPHY 3970 Honors Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)
- GPHY 3980 Honors Research 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

- GPHY 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)
- GPHY 4133 Colorado Field Geophysics 3 Credit Hours**
Prerequisite: 4113; Geology 3123; or permission of instructor. Students become familiar with field methods in geophysics and apply principles of geophysical methods to survey design, data acquisition, data processing, and interpretation. Students plan geophysical surveys, collect field geophysical data in small groups, interpret the acquired datasets in terms of earth structure, and learn about the tectonics and structure of the front range of the Rocky Mountains. Field course is taught at the OU field camp near Canon City, Colorado, and is predominantly field based. Three-week field experience required. (Su) [V].
- GPHY 4153 Fractures, Faults, and Earthquakes 3 Credit Hours**
(Slashlisted with GPHY 5153) Prerequisite: Junior Standing or permission of instructor. This course provides an introduction to the principles of fracturing, brittle faulting and earthquake mechanics. We will examine content including: brittle failure, fractures, fluid-flow and hydrothermal alteration, the state of stress in Earth's crust, borehole interpretation of fractures and faults, fault rocks and structures, the strength, rheology, and friction of faults, the seismic cycle, and scientific drilling. No student may earn credit for both 4153 and 5153. (Irreg.)
- GPHY 4413 Global Geophysics 3 Credit Hours**
Prerequisite: GEOL 3114 or concurrent enrollment; MATH 2924 or 2423; PHYS 2524 or concurrent enrollment; or equivalent coursework or permission of instructor. Introduces students to geophysical methods, the structure and physical properties of earth's interior, active processes on earth, and the use of geophysical methods to study structure and processes. Laboratory (Alt. F)
- GPHY G4553 Introduction to Seismology 3 Credit Hours**
Prerequisite: MATH 2924 or 2423, and PHYS 2514; or permission of instructor. This course presents an overview of seismology to introduce students to the fundamentals of seismic wave, quantitative data analyses, and the utilization of seismic wave for the study of earthquakes and the Earth's interior structure. Students will gain hand-on experiences with real data analysis. Course is appropriate for upper-class undergraduates and graduate students. (Sp)
- GPHY G4874 Seismic Exploration 4 Credit Hours**
Prerequisite: PHYS 2524; MATH 2433 or MATH 2924 or concurrent enrollment. Lectures, projects, and laboratory/problem sessions covering theory and advanced methods of reflection seismic methods and applications to energy exploration, carbon capture, paleosedimentation and paleotectonics. (F)
- GPHY 4953 Senior Thesis in Geophysics 3 Credit Hours**
Prerequisite: senior standing with a major in geophysics and permission. May not be repeated. Individual research of a geophysical topic selected by the student in consultation with the instructor. The project may involve fieldwork, theoretical analysis, computer modeling, and/or data analysis and interpretation, culminating in a written thesis. (F, Sp, Su) [V].
- GPHY 4960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- GPHY G4970 Seminar 3 Credit Hours**
1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit nine hours. (F, Sp)
- GPHY 4990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit nine hours. Contracted independent study for topics not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)
- GPHY 5021 Geophysical Journal Seminar 1 Credit Hour**
Prerequisite: Graduate Standing or Instructor Permission. This seminar course involves undergraduate and graduate students in selecting, reviewing, and discussing frontier research papers in geophysics about the solid Earth system and problems related to geo-hazards, energy, and the environment. Students will share research progress and discuss important topics for career development. (F, Sp)
- GPHY 5023 Computational Geophysics 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course introduces concepts and practices in numerical modeling in geophysics, including the formulation of finite-difference and finite-element methods and their applications in problems of heat and fluid flow, deformation, and wave propagation. Students learn to program numerical methods in MATLAB or Python, use open-source software, and discuss topics about computational methods in seismology, geomechanics, and geodynamics. (F, Sp)
- GPHY 5031 Near-Surface Geophysics Seminar 1 Credit Hour**
Prerequisite: Graduate Standing or Instructor Permission. In this course, we will discuss the latest scientific research and learn about new approaches for studying near-surface problems. We will also learn how to develop a proposal and how to review papers. At the end, students should be able to analyze and review scientific geophysical articles. Additionally, students should be able to prepare presentations based on the articles discussed. (F, Sp)
- GPHY 5153 Fractures, Faults, and Earthquakes 3 Credit Hours**
(Slashlisted with GPHY 4153) Prerequisite: Graduate Standing or permission of instructor. This course provides an introduction to the principles of fracturing, brittle faulting and earthquake mechanics. We will examine content including: brittle failure, fractures, fluid-flow and hydrothermal alteration, the state of stress in Earth's crust, borehole interpretation of fractures and faults, fault rocks and structures, the strength, rheology, and friction of faults, the seismic cycle, and scientific drilling. No student may earn credit for both 4153 and 5153. (Irreg.)
- GPHY 5203 Near-Surface Geophysics 3 Credit Hours**
Prerequisite: graduate Standing or instructor permission. Near-surface geophysics is a branch of geophysics that deals with a zone that spans within a few 100s of meters of the Earth's surface. In near-surface geophysics, we use methods such as seismic refraction and electrical resistivity to address environmental, engineering (civil), forensic, archaeological and mineral exploration issues. There is a required Field Research project as part of this course.
- GPHY 5303 Electrical Environmental Geophysics 3 Credit Hours**
Prerequisite: graduate Standing or permission of instructor. Introduction to "electrical-based" near-surface geophysical methods and the application of these techniques to environmental and engineering studies. Participation in problems set in class is expected. A minimum of time equivalent to one day of fieldwork will be organized for each student: participation in fieldwork is mandatory as it provides an opportunity to work with the different geophysical methods.

- GPHY 5364 Paleomagnetism** **4 Credit Hours**
Prerequisite: permission. Concerns the magnetic properties of minerals and rocks and the physical and chemical processes which produce them. Laboratory techniques used in investigations are discussed. (F)
- GPHY 5413 Global Geophysics** **3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Introduces students to geophysical methods, the structure and physical properties of earth's interior, active processes on earth, and the use of geophysical methods to study structure and processes. Will be taught every other fall semester. Laboratory included. No student may earn credit for both 4413 and 5413. (Irreg.)
- GPHY 5513 3-D Seismic Interpretation** **3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Principles of seismic stratigraphy, seismic geomorphology, structural geology, and rock physics to interpret seismic reflection data and associated attributes to delineate faults, fractures, folds, fluvial-deltaic complexes, turbidites, mass transport complexes, karst, and other structural and stratigraphic features of interest. Course is intended for graduate students in geophysics, geology, and petroleum engineering. Laboratory (F)
- GPHY 5523 3-D Seismic Processing** **3 Credit Hours**
Prerequisite: GPHY 4874 or equivalent and MATH 3333. Theory and application of seismic signal analysis to modern 3-D surface seismic surveys including sorting, statics, deconvolution, coherent noise suppression, velocity analysis and migration. At the end of the course, the student will be able to apply appropriate modern work flows to 3-D land data surveys resulting in prestack time migrated images amenable to AVO, attribute, and velocity anisotropy analysis. (Sp)
- GPHY 5533 Quantitative Seismic Interpretation** **3 Credit Hours**
Prerequisite: graduate standing, and GPHY 5513 or current research work in reservoir characterization or simulation. This course is the second part of a two-course sequence on seismic interpretation and will investigate the theoretical foundation and application of tools used in quantitative reservoir characterization. This course is intended for upper level graduate students in geophysics, geology, and petroleum engineering doing research in reservoir imaging, characterization, and simulation. (Sp-even yrs)
- GPHY 5613 Introduction to Seismic Stratigraphy** **3 Credit Hours**
Prerequisite: Physics 2524, Mathematics 3333, or permission. Introduction to the stratigraphic interpretation of reflection seismic data, emphasizing 2-D exploration seismic reflection group analysis. Topics covered include the theory and practice of borehole constrained interpretation, analysis, and mapping of seismic sequences, fault mechanical stratigraphy, chronostratigraphy, seismic facies, relative changes in sea level, and integrated geohistory analysis with emphasis upon providing a foundation for petroleum system analysis. Seismic sections for the analyses are taken from varying tectonic and depositional settings worldwide. (Alt. F)
- GPHY 5864 Gravimetric and Magnetic Exploration** **4 Credit Hours**
Prerequisite: Graduate standing, MATH 2924 or MATH 2433, PHYS 2524, or permission of instructor. Lectures and laboratory/ problem sessions covering theory and applications of gravimetric and magnetic exploration. Includes potential theory, filtering, modeling and interpretation. Emphasis is on exploration for minerals, oil and gas. Concepts of geodesy and isostasy are briefly considered. Laboratory (Sp)
- GPHY 5960 Directed Readings** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)
- GPHY 5970 Special Topics/Seminar** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- GPHY 5980 Research for Master's Thesis** **2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum applicable toward degree, four hours. (F, Sp, Su)
- GPHY 5990 Special Studies** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: permission. May be repeated; maximum credit nine hours. Advanced special studies in geophysical problems. May include directed reading in geophysics, fieldwork, laboratory research or preparation of reports. (F, Sp, Su)
- GPHY 6873 Seismic Imaging** **3 Credit Hours**
Prerequisite: Graduate standing. Seismic imaging is a fundamental tool to understand Earth's structure. This class will focus on various migrations used in exploration geophysics including ray-based and wavefield-based methods. Also, it will cover velocity analyses of the structure such as travel-time tomography and full-waveform inversion. (Sp)
- GPHY 6950 Research** **1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing and permission of faculty supervisor. May be repeated with change of content; maximum credit 12 hours. Individual research in various areas of geophysics. (F, Sp, Su)
- GPHY 6960 Directed Readings** **1-6 Credit Hours**
1 to 6 hours. Prerequisite: graduate standing and permission of faculty supervisor. May be repeated; maximum credit six hours. Supervised reading at an advanced graduate level. (F, Sp, Su)
- GPHY 6970 Seminar** **1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission. May be repeated with change of subject matter; maximum credit twenty hours. Directed seminar on selected aspects of geophysical knowledge and inquiry. (F, Sp)
- GPHY 6980 Research for Doctoral Dissertation** **2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- GPHY 6990 Independent Study** **1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Bedle	Heather		2018	ASSOCIATE PROFESSOR OF GEOSCIENCES, 2024; EDITH KINNEY GAYLORD PREIDENTIAL PROFESSORSHIP, 2024	PhD, Northwestern Univ, 2008; MS, Northwester Univ, 2005; BS, Wake Forest Univ, 1999
Carpenter	Brett	M	2017	WILLARD L. MILLER PROFESSOR, 2023; ASSOCIATE PROFESSOR OF GEOSCIENCES, 2023	PhD, Penn State Univ, 2012; MS, Penn State Univ, 2007; BS, Mansfield Univ of Pennsylvania, 2005
Cole	Selina		2022	ASSISTANT PROFESSOR, SCHOOL OF GEOSCIENCES AND ASSISTANT CURATOR, SAM NOBLE MUSEUM, 2022	PhD, The Ohio State Univ, 2017; BS, James Madison Univ, 2012; AA, Danville Community College, 2009
Dulin	Shannon	A	2014	ASSISTANT PROFESSOR OF GEOSCIENCES, 2014; DIRECTOR, BARTELL FIELD CAMP, 2020	PhD, Univ of Oklahoma, 2014; MS, Univ of Oklahoma, 2006; BS, Univ of Oklahoma, 2003
Elwood Madden	Megan	E	2007	ROBERT & DORIS KLABZUBA CHAIR, 2020; PROFESSOR OF GEOSCIENCES, 2020; STUBBEMAN-DRACE PRESIDENTIAL PROFESSOR, 2013; DIRECTOR, CENTER FOR FACULTY EXCELLENCE, 2020	PhD, Virginia Polytechnic Inst, 2005; BS, Univ of Illinois, 2000
Elwood Madden	Andrew	S	2013	JOE AND ROBERT KLABZUBA CHAIR, 2023; PROFESSOR OF GEOSCIENCES, 2020; DIRECTOR, SAMUEL ROBERTS NOBLE MICROSCOPY LABORATORY, 2020	PhD, Virginia Polytechnic, 2005; BS, Michigan State Univ, 2000
Engel	Michael	H	1982	PROFESSOR OF GEOSCIENCES, 1994; CLYDE BECKER, SR. CHAIR IN GEOLOGY AND GEOPHYSICS, 2009	PhD, Univ of Arizona, 1980; MS, Univ of Arizona, 1976; BA, SUNY at Binghamton, 1973
Filly	Timothy		2021	PROFESSOR, 2021; DIRECTOR OF INSTITUTE FOR RESILIENT ENVIRONMENTAL AND ENERGY SYSTEMS	Ph.D., 1997, The Pennsylvania State Univ; B.S., 1990, Loyola Univ
George	Sarah		2022	ASSISTANT PROFESSOR, SCHOOL OF GEOSCIENCES, 2022	PhD, Univ of Texas at Austin, 2019; BA, Wellesley College, 2014
Hodges	Caitlin		2021	ASSISTANT PROFESSOR OF GEOSCIENCES, 2021	Ph.D., 2021 Soil Science and Biogeochemistry – Pennsylvania State Univ; M.S., 2017 Ecology – Univ of Georgia; B.S.E.S. 2014 Water and Soil Resources – Univ of Georgia
Jiang	Junle		2020	ASSISTANT PROFESSOR OF GEOSCIENCES, 2020	Ph.D., 2016, Geophysics, California Institute of Technology, USA; Ph.D. minor, 2014, Computational Science and Engineering, California Institute of Technology, USA; M.S., 2011, Geophysics, California Institute of Technology, USA; B.S., 2009, Physics, Peking Univ, China
Lamadrid	Hector		2023	ASSISTANT PROFESSOR OF GEOSCIENCES, 2023	PhD, Virginia Tech, 2016; BS, National University of Mexico, 2005
Liu	Xiaolei		2017	NORMAN R. GELPHMAN PROFESSOR, 2023; ASSOCIATE PROFESSOR OF GEOSCIENCES, 2023	PhD, Univ of Bremen, 2011; MS, Chinese Acad of Sciences, 2007; BS, Shandong Univ, 2003
Lungmus	Jacqueline		2022	ASSISTANT PROFESSOR, SCHOOL OF GEOSCIENCES; ASSISTANT CURATOR, SAM NOBLE MUSEUM, 2022	PhD, Univ of Chicago, 2020; MS, Univ of Chicago, 2016
Lupia	Richard	A	1999	FRANK & HENRIETTA SCHULTZ CHAIR, 2020; ASSOCIATE DIRECTOR AND HEAD CURATOR, SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 2005; NORMAN R. GELPHMAN PROFESSOR, 2023; ASSOCIATE PROFESSOR OF GEOSCIENCES, 2005; ASSOCIATE PROFESSOR OF SAM NOBLE OKLAHOMA MUSEUM OF NATURAL HISTORY, 2005	PhD, Univ of Chicago, 1997; MS, Univ of Chicago, 1994; BA, Univ of Pennsylvania, 1991

Pranter	Matthew	J	2013	DIRECTOR, SCHOOL OF GEOSCIENCES AND EBERLY FAMILY CHAIR, 2023; PROFESSOR OF GEOSCIENCES, 2013	PhD, Colorado School of Mines, 1999; MS, Baylor Univ, 1989; BS, Colorado School of Mines, 1996; BS, Oklahoma State Univ, 1987
Saneiyan	Sina		2021	ASSISTANT PROFESSOR OF GEOSCIENCES, 2021	Ph.D., 2019 Environmental Sciences – Rutgers Univ, Newark, NJ; M.S., 2014 Petroleum Engineering – Shahrood Univ of Technology, Iran; B.S., 2011 Mining Engineering – Univ of Tehran, Iran
Soreghan	Gerilyn	S	1996	EDWARD L. MCCOLLOUGH CHAIR, 2023; DAVID L. BOREN PROFESSORSHIP, 2017	PhD, Univ of Arizona, 1992; BS, Univ of California Los Angeles, 1986
Soreghan	Michael	J	2005	JAMES ROY MAXEY CHAIR, 2020; ASSOCIATE PROFESSOR OF GEOSCIENCES, 2020	PhD, Univ of Arizona, 1994; MS, Univ of Indiana, 1990; BS, Univ of California Los Angeles, 1986
Wright	David		2022	ASSISTANT PROFESSOR, SCHOOL OF GEOSCIENCES; ASSISTANT CURATOR, SAM NOBLE MUSEUM, 2022	PhD, The Ohio State Univ, 2016; MS, Ohio Univ, 2012; BS, Univ of Kansas, 2010

GEOL 4113	Depositional Systems and Stratigraphy	3
GEOL 3123	Introductory Field Geology	3
GEOL 4136	Field Geology	6
GEOL 4983	Senior Thesis in Geology (or GEOL/GPHY Upper-Division Elective)	3
GEOL 4633	Hydrogeology	3

	Science Electives (9 hours including at least 3 from outside the college, and at least 6 hours need to be Upper-Division) ³	9
Total Credit Hours		26

¹ MATH 1914 and MATH 2924 may be substituted for MATH 1823, MATH 2423, MATH 2433. These tracks have a difference of one credit hour, so those enrolling in the 4 credit hour courses may need to enroll in 1 additional hour of free elective to meet the 121 total credits.

² Students need to select one course in the areas of statistics, quantitative and computer programming. The School of Geosciences maintains list of approved courses. (p. 1052)

³ A minimum of 9 hours of advisor approved courses from ANTH, ASTR, BIOL, CEES, CHEM, CS, ENGR, ENST, GEOG, GIS, GPHY, MATH, MBIO, METR, PBIO, and/or PE. At least 6 hours need to be upper division, and 3 hours need to be outside the College of Earth and Energy. Selected courses need to have an emphasis on the environment.

Environmental Geology, B.S.

Minimum Total Credit Hours: 121

Minimum Upper-Division Hours: 47

Overall GPA - Combined and OU: 2.50

Major GPA - Combined and OU: 2.50

Program Code: B395

Major Requirements

In order to progress in your curriculum, and as a specific graduation requirement, a grade of C or better is required in each course listed in the curriculum. All prerequisite courses must also be completed with a grade of C or better before proceeding to the next course.

Free Electives

Electives to bring total applicable hours to 121 including 47 upper-division hours.

Suggested Semester Plan of Study

Students who have not completed two years of the same language in high school are required to take two college courses in the same language. This additional coursework may add 6-10 hours to the minimum hours required for graduation.

To obtain an Environmental Geology B.S., a student must take the same coursework as for the Geology B.S. except for 16 hours of geology/geophysics and allied science electives which are more narrowly specified. The student must satisfy 6 hours of geology/geophysics and allied science elective requirements by taking an upper-division GEOL/GPHY elective and GEOL 4633. The student must also satisfy 9 additional hours of allied science elective requirements chosen from an approved course list.

In order to progress in your curriculum, and as a specific graduation requirement, a grade of C or better is required in each course listed in the curriculum. Students must also successfully complete all prerequisite courses with a grade of C or better before proceeding to the next course.

Geology, Minor

Minimum Total Credit Hours: 19

Minimum Upper-Division Hours: 9

Program Code: N475

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

Courses presented for minor credit must be completed with a C grade or better.

GEOL 1104 or GEOL 1114 is the only course that may count for both a student's major and minor.

No more than three (3) credit hours may be taken in the form of an Independent Study.

No more than three (3) credit hours may be transferred from another institution or taken through correspondence courses.

Requests to substitute a minor requirement must be approved in writing by the School of Geology & Geophysics.

Required Courses

Code	Title	Credit Hours
GEOL 1104	The Dynamic Earth (Geology for non-Science Majors)	4
or GEOL 1114	Physical Geology for Science and Engineering Majors	
Choose 6 hours of Geology coursework (GEOL prefix), Upper- or Lower Division:		6
Choose an additional 9 hours of Upper Division (3000- and 4000-level) GEOL courses:		9
Total Credit Hours		19

- The successful completion of a minor will be entered on the student's permanent record at the time the degree is recorded.

Geology, M.S.

Minimum Total Hours (Thesis): 30

Program Code: M475

- This degree is Thesis Only.*

Required Courses

Code	Title	Credit Hours
GEOL 5001	Topics in Geosciences	1
Core Courses		
Choose one letter-graded graduate-level course in three of the following seven "Core" areas:		9
Sedimentary Geology		
Igneous and Metamorphic Petrology		
Geochemistry		
Paleontology/Paleobiology		
Geophysics		
Structural Geology		
Environmental/Hydrogeology		
Science/Math/Engineering		
Choose three hours of letter-graded graduate credit science, math or engineering courses (outside of geology and geophysics) as approved by the student's thesis committee		3
Thesis		
GEOL 5980	Research for Master's Thesis	4
General Geology		
Choose 13 hours of graduate coursework with advisor approval before enrolling in these courses. At least one course must be letter-graded.		13
Total Credit Hours		30

Notes

Students must take 5 letter-graded courses. This means at least one course in addition to the Core and Science/Math/Engineering requirements must be letter-graded.

At least 14 hours (excluding thesis hours) must be in 5000 or 6000-level courses. Per course prerequisite, GEOL 6970 maximum is 20 credit hours.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Geophysics, M.S.

Minimum Total Hours (Thesis): 30

Program Code: M480

• *This degree is Thesis Only.*

Required Courses

Code	Title	Credit Hours

GPHY 5980	Research for Master's Thesis	4
Electives		
Choose 8 hours of coursework from Geology, Geophysics, Mathematics, Physics, Engineering and/or Chemistry		8
Total Credit Hours		30

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Geology, Ph.D.

Minimum Total Hours: 90

Program Code: D475

Program Requirements

PROGRAM REQUIREMENTS ARE CURRENTLY UNAVAILABLE FOR THE PH.D. PROGRAM IN GEOLOGY. WHEN THIS PROGRAM HAS MADE CURRICULAR UPDATES, PROGRAM PAGES WILL BE PUBLISHED.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

Geophysics, Ph.D.

Minimum Total Hours: 90

Program Code: D480

Program Requirements

- Students must complete at least 15 hours of (advisor approved) graded core coursework at the University of Oklahoma.
- Twelve hours of the graded core coursework must be completed before or concurrent with their General Exam.
- Core courses completed towards an MS degree at the University of Oklahoma may not be included in the required 15 hours unless additional core courses to fulfill the hours requirement are unavailable. In that case other geophysical courses with advisor approval can be substituted.

General Information

History

One of the stated purposes of the University of Oklahoma when founded in 1890 was the study of the “art of teaching.” However, education as a field of study did not become a priority until Stratton D. Brooks assumed the presidency of the University. Under Brooks’ leadership, education first became a field of study (1909), then a school of study in the College of Arts and Sciences (1910), and finally an independent school (1920). Brooks brought Warren Waverly Phelan from Baylor University in 1912 to serve as the first director of the school. Phelan served until 1926.

In 1929, the School of Education became the College of Education under the direction of Ellsworth Collings, who had been director of the School of Education. He served until 1945, and nine deans have served the College of Education since Collings. The current dean is Stacy Reeder, appointed in 2021.

The College of Education was reorganized in 1986 into three departments: the Department of Educational Leadership and Policy Studies, the Department of Educational Psychology, and the Department of Instructional Leadership and Academic Curriculum. The college currently has more than 700 undergraduate and 800 graduate students who are pursuing degrees and/or certification. The College offers Bachelors, Master’s, Ph.D., and Ed.D. degrees.

Mission Statement

At the Jeannine Rainbolt College of Education we aspire to become a diverse and inclusive community of learners who engage in transformative scholarship with and in communities to advance justice and promote human dignity.

Programs Offered

- Department of Educational Leadership and Policy Studies (p. 1069)
 - Adult & Higher Education, M.Ed. (p. 1083)
 - Adult & Higher Education: Intercollegiate Athletic Administration, M.Ed. (p. 1083)
 - Intercollegiate Athletic Administration Course List (p. 1084)
 - Educational Administration - Curriculum & Supervision, M.Ed. (p. 1084)
 - Educational Studies, M.Ed. (p. 1085)
 - College Teaching Certificate, Graduate Certificate (p. 1086)
 - Adult & Higher Education, Ph.D. (p. 1086)
 - Education Administration - Curriculum/Supervision, Ed.D. (p. 1087)
 - Curriculum/Supervision, Ed.D. Elective Course Lists (p. 1088)
 - Education Administration - Curriculum/Supervision, Ph.D. (p. 1089)
 - Educational Studies, Ph.D. (p. 1089)
- Department of Educational Psychology (p. 1090)
 - Special Education, B.S. (p. 1105)
 - Clinical Professional Counseling, M.Ed. (p. 1108)
 - Clinical Professional Counseling Graduate Elective Courses (p. 1109)
 - Learning Experience Design and Technology, M.S. (p. 1109)
 - Approved Learning Experience Design and Technology Electives (p. 1110)
 - Science of Psychology, Data, and Research in Education, M.S. (p. 1110)
 - Special Education, M.Ed. (p. 1110)
 - Applications of Educational Research and Evaluation, Graduate Certificate (p. 1111)
 - Applied Behavior Analysis, Graduate Certificate (p. 1112)
 - Drug and Alcohol Counseling, Graduate Certificate (p. 1112)
 - Fundamentals of Special Education, Graduate Certificate (p. 1112)
 - Learning Design and Technology, Graduate Certificate (p. 1113)
 - School Counseling, Graduate Certificate (p. 1113)
 - Secondary Transition Education Specialist, Graduate Certificate (p. 1113)
 - Learning Experience Design and Technology, Ph.D. (p. 1114)
 - Science of Psychology, Data, and Research in Education, Ph.D. (p. 1114)
 - Special Education, Ph.D. (p. 1115)
- Department of Instructional Leadership and Academic Curriculum (p. 1116)
 - Early Childhood Education, B.S. (p. 1140)
 - Early Childhood Education: Birth through Third Grade (Tulsa), B.Ed. (p. 1143)
 - Early Childhood Education: Birth through Third Grade (Tulsa), B.S. (p. 1146)
 - Elementary Education, B.S. (p. 1149)
 - Language Arts Education, B.S. (p. 1152)
 - Mathematics Education, B.S. (p. 1155)
 - Science Education: Biological Sciences, B.S. (p. 1158)
 - Science Education: Chemistry, B.S. (p. 1162)
 - Science Education: Earth Science, B.S. (p. 1165)

- Science Education: Physical Science, B.S. (p. 1168)
- Science Education: Physics, B.S. (p. 1171)
- Social Studies Education, B.S. (p. 1175)
- World Language Education: French, B.S. (p. 1178)
- World Language Education: German, B.S. (p. 1181)
- World Language Education: Latin, B.S. (p. 1184)
- World Language Education: Spanish, B.S. (p. 1187)
- ILAC: Early Childhood Education, M.Ed. (p. 1190)
- ILAC: Elementary Education, M.Ed. (p. 1191)
- ILAC: English Education, M.Ed. (p. 1192)
- ILAC: Instructional Leadership, M.Ed. (p. 1192)
- ILAC: Mathematics Education, M.Ed. (p. 1193)
- ILAC: Reading Education, M.Ed. (p. 1194)
- ILAC: Science Education, M.Ed. (p. 1195)
- ILAC: Science, Technology, Engineering & Math (STEM) Education, M.Ed. (p. 1196)
- ILAC: Secondary Education, M.Ed. (p. 1197)
- ILAC: Social Studies Education, M.Ed. (p. 1198)
- ILAC: Teacher Education, M.Ed. (p. 1198)
- ILAC: World Language Education, M.Ed. (p. 1199)
- Integrated Childhood Well-Being (Tulsa), M.A. (p. 1200)
- Reading Specialist, M.Ed. (p. 1201)
- Literacy Specialist, Graduate Certificate (p. 1201)
- Instructional Leadership & Academic Curriculum, Ph.D. (p. 1201)

Programs and Facilities

The Oklahoma Writing Project

The Oklahoma Writing Project, directed by Crag Hill, is devoted to improving the quality of composition instruction in elementary and secondary schools. The program, which has professionally prepared more than 500 educators as teacher consultants, is part of the National Writing Project, a network of university school programs across the nation. The OWP Teacher Consultants then travel to schools throughout the state, presenting in-service workshops to assist other educators in developing students' writing performance.

Zarrow Institute on Transition and Self Determination

The Zarrow Institute on Transition and Self-Determination implements innovative research, puts findings into practice, and disseminates knowledge through high-quality products and professional development. An endowment from the Zarrow Family Foundation of Tulsa established the Zarrow Institute in 2000.

Center for Educational Development and Research (CEDaR)

The Center for Educational Development and Research (CEDaR) provides support for the research and scholarship of faculty and graduate students in the College of Education. Its work includes data services, academic editing, survey design and administration, and grant-writing support. In addition, CEDaR regularly sponsors workshops on research related software.

The K20 Center for Educational and Community Renewal

The K20 Center for Educational and Community Renewal is a consortium of school-university-community partnerships committed to improving student achievement and democratic citizenship through authentic

teaching, technology integration, and cooperative networking. It is an interdisciplinary, University-wide center with a focus on educational and community renewal in the U.S. and internationally. The K20 Center proposes a model addressing the needs of children and families through interactive, action-oriented partnerships among schools, families, universities, and community and government agencies. The K20 Center brings teachers, administrators, students, parents, school board members, community members, business leaders, information technologists, University faculty and students together to share ideas, observe best practices, identify and analyze problems, and develop strategies for improved teaching, learning, and community life.

Center for Leadership Ethics and Change

The Center for Leadership Ethics and Change's primary mission is to engage with both University-based and PK-12 practitioner initiatives that support its vision.

Early Childhood Education Institute

The Early Childhood Education Institute at OU-Tulsa strives to advance and support early childhood programming and policies by generating, disseminating, and applying meaningful research.

The Institute of Child Development

The Institute of Child Development, which serves approximately 50 children from the Norman and University communities, has been accredited by the National Academy of Early Childhood Programs. Working with children from 2–5 years old, the Institute meets a variety of strict standards, including providing activities appropriate for preschool children, having an adequate student-staff ratio, meeting stringent health and safety standards, and providing opportunities for parental involvement. The OU Institute of Child Development was in the first group of licensed child care facilities in the United States to be accredited.

Sandra L. O'Brien Collaborative Learning Hub

The Sandra L. O'Brien Collaborative Learning Hub is available to students, faculty, and staff of the Jeannine Rainbolt College of Education for academic, research or personal use.

Low Wentz Debt-Free Teachers Initiative

The Low Wentz Debt-Free Teachers Initiative, a merit and need based assistance initiative directed toward outstanding students in the College with significant debt associated with their education. Students who are currently in the teacher preparation program can apply and once accepted into this program can receive up to \$5,000 in debt forgiveness for each year they teach in a high need area in the state of Oklahoma upon graduation (\$20,000 maximum).

Institute for the Study of Education Finance

"The mission of the Institute for the Study of Education Finance (ISEF) is to promote inquiry, discourse, and dissemination of research that informs professional practice related to elementary, secondary, and higher education, and to provide service supporting best practices related to education funding that promotes learner achievement."

For more information: <https://educationfinance.oucreate.com/>

THRIVE - The Leadership and Policy Center for Thriving Schools and Communities at the University of Oklahoma

The Leadership and Policy Center for Thriving Schools and Communities (THRIVE) was established in 2021 on the campus of the University of Oklahoma in Tulsa. THRIVE is a resource for the State of Oklahoma and

its education policymakers at the state, district, community, and school levels. OU social scientists from both the Norman and Tulsa campuses, and from various disciplines, are tapped as needed to address research and evaluation needs as they are identified.

Undergraduate Study

General Information

Admission

There is a two-step admission process for students seeking to enter the Jeannine Rainbolt College of Education.

1. Admission to the Jeannine Rainbolt College of Education (Step 1)

Students at the University of Oklahoma are eligible for admission to the college after they have:

- a minimum of 24 semester hours earned from an accredited institution of higher learning;
- a minimum of 2.75 combined retention grade point average on all coursework attempted;
- declared major in education.

2. Full Admission to a Certification Program (Step 2)

Students are eligible to apply for full admission to a teacher education certification program after they have:

- a minimum of 30 semester hours from an accredited institution of higher learning earning a grade of C or better in the following 24 hours of coursework as defined by the Oklahoma State Regents for Higher Education: English (Composition and Literature) ENGL 1113 and ENGL 1213 or their equivalencies—six hours; MATH (Gen Ed Core I)—three hours; American History—three hours; American Government—three hours; Gen Ed Core IV - Artistic Forms, Western Culture, World Culture; Language or other advisor approved Gen Ed course —three hours; Social Sciences (Core III)—three hours; Natural Sciences (Core II)—three hours;
- a minimum OU retention and combined retention grade point average of 2.75 on all coursework attempted;
- meet one of the five performance criteria listed by Oklahoma State Regents for Higher Education (OSRHE) that students may use to qualify for admission into an Oklahoma teacher education program. **Speak with your Education Advisor for more details.**

Admission to a teacher education certification program requires meeting particular program requirements, submission of an application and essay, background check, and an interview with program area faculty. Upon successful completion of the interview process and requirements, students will be fully admitted to a specific teacher education program and given permission to enroll in education classes.

Academic credit from any division of the University of Oklahoma — Norman campus, Health Sciences Center, OU-Tulsa, or Continuing Education — is considered resident credit at the University of Oklahoma. Grades and hours earned in any of these divisions are included in the OU retention and cumulative grade point averages for purposes of admission or readmission to the University, and to the individual colleges within the University.

Admission requirements are subject to change on an annual basis. For information that applies to you, please consult the degree checklist in effect at the time of your first enrollment in the state system.

Retention

- When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Conduct Policy.
- Students must maintain a minimum OU retention and combined retention grade point average of 2.75 in all undergraduate coursework and a minimum 3.00 grade point average in all graduate coursework attempted. Students whose OU retention or combined retention grade point average at the undergraduate level falls below 2.75 will be subject to dismissal from the college. Academic credit from any division of the University of Oklahoma — Norman campus, Health Sciences Center, OU-Tulsa, or Continuing Education — is considered resident credit at the University of Oklahoma. Grades and hours earned in any of these divisions are included in the OU retention and cumulative grade point averages for purposes of admission or readmission to the University, and to the individual colleges within the University.
- Students must maintain a minimum of 2.75 grade point average in all professional and all specialized education courses earning no grade less than a C.
- Students must earn a C or better in COMM 1113 or its equivalent.
- Students who have not earned OU retention or combined retention grade point averages of 2.75 after the completion of 60 semester hours will be dismissed from the college.
- Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared education majors must complete at least one college-level math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
- Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.
- Coursework over 10 years old in the professional and specialized education must be reviewed and approved by faculty in the appropriate area before it can be credited toward the completion of a teacher education degree or certification program. There is no guarantee that work over 10 years old will be accepted.
- A student has six years to complete a teacher education degree after full admission to a teacher certification program. After the six-year period, a student must seek readmission to that program and meet the program requirements at the time of readmission.

Requirements for Graduation

The responsibility for meeting all graduation requirements lies with the student. The requirements for graduation from the University of Oklahoma through the Jeannine Rainbolt College of Education are:

- A minimum of 124 semester hours inclusive of general education, professional education, specialized education and elective courses.
- OU retention and combined retention grade point averages of 2.75 or higher.
- Minimum grade point average of 2.75 in all professional and all specialized education coursework.
- A minimum of 40 hours of upper division coursework (3000-4000).

- A grade of C or better in all professional and specialized education coursework.
- A minimum of 60 hours from a senior institution.
- Completion of an Application for Graduation and filed by the published deadline.

General Education

General Education introduces the student to the arts, sciences and humanities as knowledge taken to be worthy in and of itself; as being valuable to the citizen participating in the American democracy; as knowledge useful to all in a technological society; and as an introduction to the fields of knowledge exposing the college student to various career options.

General Education is based on those studies known as the liberal arts and liberal sciences, which embrace the broad areas of the humanities, mathematics, the biological and physical sciences, the social and behavioral sciences, and oral and written communication skills.

Please refer to the respective checksheets for specific General Education requirements.

Professional Education

Professional core education courses are those classes taken by all students who are preparing to become teachers.

Admission to the student teaching internship semester requires students to be in good standing and have completed **all** baccalaureate degree requirements with the exception of the internship and research course.

Continued progress in the professional sequence is dependent upon successful completion of prerequisites.

Specialized Education

Specialized education requirements vary according to the teacher certification program. Continued progress in the specialized education coursework is dependent upon successful completion of prerequisites.

Other Requirements

Transfer Work

All professional education coursework transferred to the University of Oklahoma and submitted by the student as the equivalent of required courses in any teacher certification preparation program will be subject to the approval of the Jeannine Rainbolt College of Education.

Academic Residence

A student in the Jeannine Rainbolt College of Education shall satisfy the minimum academic residence requirement by completing courses offered on the University's Norman campus or at a residence center. Residency begins with full admission to teacher education. The student can meet the residence requirement through one of the two following options:

- Completing in residence 45 of the last 60 hours prior to graduation after being fully admitted to a teacher education program; **or**,
- Completing in residence the last 30 consecutive hours prior to graduation after being fully admitted to a teacher education program.

Advanced Standing, Correspondence and/or Extension

Credit granted through advanced standing may be accepted as residence study. Please refer to the admissions section of this catalog for further information on the regulations governing advanced standing credit. Credit earned through correspondence cannot be used to meet the

basic professional sequence requirements. The maximum allowable accumulation of advanced standing, correspondence and extension study credit in general education, specialized education, and professional education shall be one-fourth the total semester hours required in each category.

University of Oklahoma regulations pertaining to the acceptance of correspondence and extension credit from other institutions must be met before such work may be applied toward the degree.

Credit Hour Load

Undergraduate Students

Sixteen semester hours constitute a normal enrollment for fall and spring. Students may enroll for 19 semester hours. Students with grade point averages of 3.00 or above may enroll for 20 semester hours if they have the approval of their advisor and the dean of the college. Students with grade point averages of 3.50 may take more than 20, up to a maximum of 24, semester hours if they have the approval of their advisor and the dean of the college. During the summer session the normal enrollment is 14 semester hours. Students with grade point averages of 3.00 -3.49 may enroll for 15 summer semester hours or 18 hours with a 3.50 or above if they have the approval of their advisor and the dean of the college. Normal enrollment for a summer intersession is 3 hours. Students may enroll in four Intersession semester hours with grade point average of 3.00 -3.49 or for five to six Intersession semester hours with a 3.50 grade point average or above if they have the approval of their advisor and the dean of the college.

Pass/No Pass Option

The pass/no pass option may be used only on elective courses belonging to one of the general education areas of free electives. That is, if a specific course is listed as a requirement in one of these areas, it may not be completed under the pass/no pass option. Since such specific requirements vary with the individual teacher certification programs, it is the responsibility of the students to check their particular program requirements in the general education areas so that they may properly apply the pass/no pass option to their credit for graduation. All professional and specialized education course requirements are also excluded from the pass/no pass option.

Student Responsibility

The Jeannine Rainbolt College of Education disseminates information through the various offices, particularly the Academic Advising Center. An advisor is appointed to every student enrolled in the college. Even so, the student is expected to read the catalog, and know and understand all the requirements stated therein and on the appropriate degree checksheet.

The final responsibility for meeting degree requirements rests with the student.

Academic Retention Notice

Any student whose OU retention or combined retention grade point average falls below 2.75 will be subject to dismissal from the college.

Degrees Awarded

A degree is awarded only upon recommendation of the college, and represents the satisfactory completion of all requirements.

Licensure and Certification

Students who earn their degrees from the University of Oklahoma and who have satisfactorily completed state certification, including success on the required Certification Examinations for Oklahoma Educators, will

be recommended by the Jeannine Rainbolt College of Education for state certification. Teaching certification will be issued by the Oklahoma State Department of Education. Because OU's teaching certification program is nationally recognized and accredited, students can be recommended for teaching certification outside of Oklahoma and the U.S.

Teaching Certificate Programs

The following three teacher certification programs are available exclusively through the Jeannine Rainbolt College of Education:

- Early Childhood Education
- Elementary Education
- Special Education

The following are offered either through the Jeannine Rainbolt College of Education or in collaboration with the College of Arts and Sciences:

- Language Arts Education
- Mathematics Education
- Science Education-Biological Sciences
- Science Education-Chemistry
- Science Education-Earth Science
- Science Education-Physical Science
- Science Education-Physics
- Social Studies Education
- World Language Education: French, German, Latin and Spanish

The following is offered through the Weitzenhoffer Family College of Fine Arts:

- Music Education: Instrumental, Vocal

Graduation requirements vary according to which college a student elects to enter, and are stated on the program area checksheets.

Field Experiences

The TE-PLUS program contains three formal field experiences where students are placed in educational environments representing rural, urban, and suburban settings. These field experiences are tied to particular coursework. Students will learn about the expectations and their placements during class. Other, more informal field experiences are affiliated with some of the courses in professional and specialized education courses. These experiences are critical to student's professional development. Each teacher certification program culminates with the student teaching internship as a 16-week full-time field experience.

Graduate Study

Graduate programs in the Jeannine Rainbolt College of Education foster the insights and skills needed to deal with the most pressing challenges facing the education profession. They also are well regarded by professors and educational leaders throughout the nation. Outstanding faculty members construct rigorous coursework and field experiences for graduate students and engage in millions of dollars of funded research.

Master's programs generally prepare graduates for advancements or new roles within their respective fields as practitioners. For educators, the M. Ed. generally provides students with the knowledge and skills needed to obtain leadership positions in schools or to add initial or advanced

certification in teaching. Many programs also help students develop methods of inquiry and can lead to careers in research.

Doctoral programs in the Jeannine Rainbolt College of Education foster the insights and skills needed to deal with the most pressing challenges facing the education profession. Our programs are also highly regarded by deans and professors throughout the region and nation. Outstanding, internationally known faculty members construct rigorous opportunities for advanced study, mentor students and engage in millions of dollars of funded research.

The Ph.D. programs prepare researchers to serve in professional positions in universities, research agencies, policy agencies and schools. An Executive Doctor of Education (Ed.D.) degree is offered in Educational Administration, Curriculum and Supervision. All College of Education doctoral students are essential partners in developing new knowledge and in preparing the next generation of educators, practitioners, counselors and scholars.

Student Organizations

Graduate Student Advising & Organizing Committee

This Committee strives to support graduate education, community, and scholarship for social transformation in connection with the goals of the Jeannine Rainbolt College of Education's Graduate Studies and Research Office.

Kappa Delta Pi (KDP)

Kappa Delta Pi, the international honor society in education, recognizes outstanding contributions to education and encourages professional fellowship. Membership is by invitation and is offered for undergraduate and graduate education students who exhibit sound scholarship (a GPA of at least 3.25), commendable personal qualities, and worthy educational ideals.

Oklahoma Sooners National Science Teachers Association Student Chapter (NSTA)

The Oklahoma Sooners National Science Teachers Association Student Chapter is a registered student organization at OU and an official student chapter of the National Science Teachers Association (NSTA). The purpose of our chapter is to advocate the mission of NSTA, which is to promote excellence and innovation in science teaching and learning for all; to acquaint preservice teachers of science with the support resources available from NSTA; to provide additional professional development in science education to preservice teachers; and to create a network of preservice teacher at universities or colleges across the world. Benefits of the student chapter include a free one-year NSTA electronic student membership and opportunities to gain leadership skills, to enhance career growth, to network with peers and experienced science teachers and educators, and to support science education.

The Student Council for Exceptional Children (SCEC)

The University of Oklahoma Student Council for Exceptional Children is dedicated to enhancing the preparation of preservice special educators as they are about to embark on teaching students of all abilities. Professional development on timely topics through specific presentations is ongoing throughout the fall and spring semesters. Direct interaction with fellow students and faculty members further enriches the experiences available through this organization. Service learning provides additional opportunities to strengthen skills that will be needed

once practicing in the field. Membership is open to preservice general educators as well as special educators.

Oklahoma Aspiring Educators Association (OAEA)

The University of Oklahoma Oklahoma Aspiring Educators Association (OAEA) is a pre-professional organization of undergraduate and graduate students currently preparing for careers in education. Through OAEA, students are affiliated with the larger Oklahoma Education Association and the National Education Association. Membership in OAEA provides networking opportunities with professional educators and the opportunity to participate in professional development workshops and unite for special projects.

Scholarships and Financial Aid

Undergraduate Scholarships

- Frank and Dyan Agar Scholarship
- Dr. Kent and Kayleen Thomas Advance Innovate Mentor (AIM) Scholarship
- OU College of Education Alumni and Friends Association Scholarship
- Dr. Millie Audas Study Abroad Scholarship for Education Students
- Authur-Boggs Scholarship
- Bellwether Scholarship
- Sister Mary Blaise Endowed Scholarship
- Danni and Dan Boz Endowed Education Scholarship
- Dr. John Chiodo Scholarship
- Cleveland/McClain County Retired Educators Assn. Scholarship
- Hannah Foreman Davis Scholarship
- Frances Ranson Dunham Scholarship Fund

Courses

EDSW 1001 Person Centered Planning 1 Credit Hour

Prerequisite: Permission of the Educational Psychology department. A semesterly reoccurring course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with other Sooner Works courses to lay the foundations related to education, independent living, and career planning. This course is individualized to meet the needs and work on goals for each student. (F)

EDSW 1002 Sooner Works 101 2 Credit Hours

Prerequisite: Permission of the Educational Psychology department. The beginning course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with future courses to lay the foundations related to skills for independent living, education, and employment in adulthood. (F)

EDSW 1051 Self-Advocacy/Self-Determination 1 Credit Hour

Prerequisite: EDSW 1002 and permission of the Educational Psychology department. Self-Advocacy/Self-Determination is a course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with past and future courses to lay the foundations related to education, independent living, and career planning. (Sp)

EDSW 1052 Person Centered Planning 2 Credit Hours

Prerequisite: EDSW 1001 and permission of the Educational Psychology department. A semesterly reoccurring course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with other Sooner Works courses to lay the foundations related to education, independent living, and career planning. This course is individualized to meet the needs and work on goals for each student. (Sp)

EDSW 2001 Personal Financial Literacy 1 Credit Hour

Prerequisite: EDSW 1051 and permission of the Educational Psychology department. Personal Financial Literacy is a course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with future courses to lay the foundations related to independent living for understanding financial concepts. (F)

EDSW 2002 Person Centered Planning 2 Credit Hours

Prerequisite: EDSW 1052 and permission of the Educational Psychology department. A semesterly reoccurring course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with other Sooner Works courses to lay the foundations related to education, independent living, and career planning. This course is individualized to meet the needs and work on goals for each student. (F)

EDSW 2051 Healthy Adult Living Skills 1 Credit Hour

Prerequisite: EDSW 2001 and permission of the Educational Psychology department. Healthy Adult Living is a course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with future courses to lay the foundations related to independent living for healthy adult living. (Sp)

EDSW 2052 Person Centered Planning 2 Credit Hours

Prerequisite: EDSW 2002 and permission of the Educational Psychology department. A semesterly reoccurring course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with other Sooner Works courses to lay the foundations related to education, independent living, and career planning. This course is individualized to meet the needs and work on goals for each student. (Sp)

EDSW 3001 Household Budgeting & Paying Bills 1 Credit Hour

Prerequisite: EDSW 2051 and permission of the Educational Psychology department. A course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with future courses to lay the foundations related to independent living for household and daily budgeting. (F)

EDSW 3002 Person Centered Planning 2 Credit Hours

Prerequisite: EDSW 2052 and permission of the Educational Psychology department. A semesterly reoccurring course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with other Sooner Works courses to lay the foundations related to education, independent living, and career planning. This course is individualized to meet the needs and work on goals for each student. (F)

EDSW 3051 Your Adult Rights 1 Credit Hour

Prerequisite: EDSW 3001 and permission of the Educational Psychology department. A course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with future courses to lay the foundations related to employment and independent living regarding knowing and advocating for your adult rights. (Sp)

EDSW 3052 Person Centered Planning 2 Credit Hours

Prerequisite: EDSW 3002 and permission of the Educational Psychology department. A semesterly reoccurring course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with other Sooner Works courses to lay the foundations related to education, independent living, and career planning. This course is individualized to meet the needs and work on goals for each student. (Sp)

EDSW 4001 Navigating the Job World 1 Credit Hour

Prerequisite: EDSW 3051 and permission of the Educational Psychology department. A course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with future courses to lay the foundations related to employment and job related skills. (F)

EDSW 4002 Person Centered Planning 2 Credit Hours

Prerequisite: EDSW 3052 and permission of the Educational Psychology department. A semesterly reoccurring course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with other Sooner Works courses to lay the foundations related to education, independent living, and career planning. This course is individualized to meet the needs and work on goals for each student. (F)

EDSW 4051 Living Independently 1 Credit Hour

Prerequisite: EDSW 4001 and permission of the Educational Psychology department. A final course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with past courses to lay the foundations related to independent living beyond college. (Sp)

EDSW 4052 Person Centered Planning 2 Credit Hours

Prerequisite: EDSW 4002 and permission of the Educational Psychology department. A semesterly reoccurring course in a sequence at the University of Oklahoma for Sooner Works participants. It is designed to work in conjunction with other Sooner Works courses to lay the foundations related to education, independent living, and career planning. This course is individualized to meet the needs and work on goals for each student. (Sp)

General Information

There are three degree-granting programs in the department of Educational Leadership and Policy Studies (ELPS). Each of the three programs offers the M.Ed. and Ph.D. degrees. In addition, the Ed.D. is offered by the EACS program.

The Adult and Higher Education program focuses on adult learning, continuing higher and professional education, training and development, distributive learning, student affairs administration, intercollegiate athletics, community college leadership, and institutional research. Our graduates assume teaching, administrative, research and leadership positions in a variety of non-profit and for-profit organizational settings, including colleges and universities, governmental agencies, social service and learning centers, and business corporations.

The Educational Administration, Curriculum and Supervision program provides preparation for leadership positions in elementary and secondary school systems, district-level positions, administrative roles in government, researcher roles in policy and advocacy centers, and scholarly positions in colleges and universities. The diverse selection of elective courses provides for shaping the individual's degree program according to their professional interests at both the doctoral and master's

levels. Program offerings are located on both the Norman and Tulsa campuses.

Educational Studies offers a foundational core course and urban field experience for undergraduate pre-service teachers. Graduate study in EDS has an explicit research, teaching, and service mission: To foster social justice, non-violence, and democratic life through interpretive, critical, and normative inquiry in historical, philosophical, legal, social, and cultural studies of education—education for children and for adults, by various means, formal and informal, in diverse settings, local and global.

Programs & Facilities

Center for Leadership Ethics and Change

The OU CLEC is an affiliate of the Consortium for the Study of Leadership and Ethics in Education of the University Council for Educational Administration, a global association of faculty and research associates representing eight international university-based centers and institutes devoted to the support, promotion and dissemination of theory, research, and practice on values and leadership.

Institute for the Study of Education Finance

"The mission of the Institute for the Study of Education Finance (ISEF) is to promote inquiry, discourse, and dissemination of research that informs professional practice related to elementary, secondary, and higher education, and to provide service supporting best practices related to education funding that promotes learner achievement."

For more information: <https://educationfinance.oucreate.com/>

THRIVE - The Leadership and Policy Center for Thriving Schools and Communities at the University of Oklahoma

The Leadership and Policy Center for Thriving Schools and Communities (THRIVE) was established in 2021 on the campus of the University of Oklahoma in Tulsa. THRIVE is a resource for the State of Oklahoma and its education policymakers at the state, district, community, and school levels. OU social scientists from both the Norman and Tulsa campuses, and from various disciplines, are tapped as needed to address research and evaluation needs as they are identified.

Graduate Study

Master of Education

Admission and Requirements

Admission to a master's degree program in education requires a 3.00 grade point average for the last 60 credits of undergraduate study. Additional qualifications may be required by faculty in some areas.

Applicants for programs leading to the Master of Education degree must present a bachelor's degree in an appropriate field from an accredited college or university. Students must complete degree requirements within six calendar years after their first graduate enrollment at the University of Oklahoma. A written comprehensive examination may be required in the department of Educational Leadership and Policy Studies.

The program for the master's degree includes intensive preparation for a specialized type of educational responsibility with study in associated fields. Work at the graduate level may be required in educational psychology and historical, philosophical and social foundations of education. The exact pattern of the program will be determined after consultation with the advisor. Students may obtain information about

specific course requirements for each program area from the department office.

Adult and Higher Education (EDAH)

The Adult and Higher Education, Master of Education (p. 1083) prepares individuals to assume entry-level and mid-level administrative roles in appropriate adult and higher education organizations. The master's program is comprised of a comprehensive curriculum and practical experiences designed to prepare students for professional positions in a variety of educational and training organizations including colleges and universities, governmental agencies, educational planning agencies, and business and industry.

Intercollegiate Athletics Administration

The Intercollegiate Athletic Administration, Master of Education (p. 1083) is philosophically embedded within the broader study of adult and higher education. As such, it reflects the realities of modern intercollegiate athletics programs within the context of the higher education setting. The curriculum is designed to provide a breadth of knowledge in higher education with specialized course work in intercollegiate athletics. Courses are taught by both regular faculty members and practitioners in the field. This concentration prepares students for careers in each of the main functional units of a contemporary intercollegiate athletics department.

Educational Administration, Curriculum and Supervision (EACS)

The purpose of the Educational Administration - Curriculum and Supervision, Master of Education (p. 1084) is to provide graduate-level preparation for professional positions such as elementary school principal, middle school principal, director of elementary education, secondary principal, secondary curriculum consultant or supervisor, general or specific supervisor, curriculum consultant, and curriculum director.

Educational Studies (EDS)

The Educational Studies, Master of Education (p. 1085) is designed to engage experienced educators in interpretive, normative, and critical studies of children's and adults' education for social justice in diverse historical and cultural contexts, via the arts, humanities, and social sciences. Such interdisciplinary studies enhance the creative resources of educators and other persons involved in social service work who aim to be transformative leaders. For example, students consider the state's, institution's, or organization's role as an agent of acculturation or of social change. History, philosophy, sociology, economics, and anthropology are major disciplinary tools that inform the policy and practice of educators.

Doctoral Programs

Doctoral programs in Educational Leadership and Policy Studies are designed to prepare personnel for administrative, service and faculty positions in colleges and universities, public schools and other education and training agencies in government and the private sector. It is possible to study for the doctorate in adult and higher education, educational administration, curriculum and supervision, and educational foundations.

Adult and Higher Education (EDAH)

The doctoral program in Adult and Higher Education (p. 1086) is designed to prepare individuals for teaching and research positions in Adult and Higher Education, and for individuals interested in administrative and service positions in colleges and universities, professional organizations, and other educational and training agencies

in government and the private sector. The degree awarded in adult and higher education is the Doctor of Philosophy (Ph.D.).

Doctoral emphases within the Adult and Higher Education program include:

- Adult and Continuing Education
- Continuing Professional and Higher Education
- Higher Education Administration
- Intercollegiate Athletics Administration
- Student Affairs Personnel Services
- Workforce Learning and Development

Education Administration: Curriculum/Supervision (EACS)

The doctoral programs (Ph.D. (p. 1089) and Ed.D. (p. 1087)) in EACS are designed to prepare individuals for careers in the education profession, including those found in higher education institutions and public schools. The Ph.D. is intended for those who wish to pursue careers in the research-oriented professions such as a faculty member in a research institution or as a professional staff member in a research center. The degree requires a high level of commitment to research and an understanding of leadership functions. The Executive Ed.D. degree is intended for those aspiring to central office or other practitioner fields in education. It is offered in a cohort format and is intended especially for those who are committed to a career in school administration. The Ph.D. program is individually tailored to support the needs, interests, and career aspirations of each student. Basic coursework in administrative and organizational theory, community, educational renewal and human relations, curriculum, supervision, finance, law, policy, politics, leadership, and evaluation is available. Doctoral study may be interdisciplinary so coursework and experiences from other departments and colleges are encouraged.

Educational Studies (EDS)

The doctoral program in Educational Studies (p. 1089) prepares experienced educators for teaching and research positions in higher education or leadership roles in community and higher education. The program engages students in interpretive, normative, and critical research on children's and adults' education in diverse historical and cultural contexts, via the arts, humanities, or social sciences. Such research requires a broad, complex, and transformative view of teaching, learning, curriculum, and their myriad contexts, including gender, age, race, ethnicity, sexual orientation, and socioeconomic status. This interdisciplinary field brings together historical, philosophical, sociological, economic, legal, anthropological, and human relations approaches to understanding and evaluating the means and ends of education, past and present, actual and potential, especially for social justice. The program requires students to work closely with faculty to design their programs of study and residency plans so that they are tailored to each individual's own professional purposes and social justice concerns.

Courses

EACS 2960 Individual Study **1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)

- EACS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- EACS 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)
- EACS 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EACS 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- EACS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EACS 4960 Directed Readings In Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- EACS 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EACS 4980 Practicum in Education 1-3 Credit Hours**
1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)
- EACS 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- EACS 5023 Research Literacy 3 Credit Hours**
Prerequisite: Graduate standing. Rigorous social science research can inform the development of policy and practice in schools. Yet, the methodological quality of research in the social sciences varies considerably. It is thus important for educational leaders to be discerning consumers of social science research. In this course, you will develop skills for locating, appraising, and synthesizing social science research. (F, Sp, Su)
- EACS 5233 The Organization of Education 3 Credit Hours**
Prerequisite: graduate standing. The organization of American schools. The history, relationships, functions, present status and trends in local, state and national education agencies. The places which professional educational associations, citizen's committees and other influential groups have in relation to schools. The administrative hierarchy in schools and the special functions of each level. The multicultural aspects of schooling in America. (F, Sp, Su)
- EACS 5263 Education and the Law 3 Credit Hours**
Prerequisite: graduate standing. Legal framework of education in the United States; consideration of federal and state constitutional provisions, federal and state statutes, federal and state judicial decisions and rules and regulations of the various federal and state agencies which affect education. (F, Sp, Su)
- EACS 5333 Politics in Educational Administration 3 Credit Hours**
Prerequisite: graduate standing. An overview of political activities at the local, state, and federal levels that will enhance the professional development of school administrators. Issues addressed include micro-politics at the school site and district offices; superintendent and school board relations; lobbying legislators and dealing with interest groups; the state political process, federal aid; and analysis of current political controversies. (F, Sp)
- EACS 5343 Financial Leadership in the Schools 3 Credit Hours**
Prerequisite: graduate standing. Primarily for prospective building level educational leaders, and includes a comprehensive overview of the effective management of fiscal resources in public schools. (Su)
- EACS 5353 Teacher Compensation, Recruitment and Retention 3 Credit Hours**
Prerequisite: Graduate standing is required; EACS 5343 Financial Leadership in Schools or equivalent is recommended. The purpose of the seminar is to provide a forum for understanding research that informs teacher compensation, recruitment and retention practices, nationally and in Oklahoma, and to apply the research to education leadership settings. (F, Sp)
- EACS 5403 Inquiry for Performance Improvement 3 Credit Hours**
Prerequisite: graduate standing. School administrators need to draw on knowledge and competencies related to the inquiry process, measurement and assessment, and data collection, analysis, and interpretation to lead continuous improvement. Inquiry for performance improvement is designed to develop the capacity of school leaders to manage effective performance by applying competencies of organizational research and development to the design and implementation of a balanced approach to performance management. (F, Sp)
- EACS 5543 School Level Instructional Leadership 3 Credit Hours**
Prerequisite: graduate standing. Focuses on school-level leadership in the areas of instructional and curriculum leadership. In the areas of instruction, the role of the principal is to develop the instructional capacity of teachers by developing human capital, enhancing the quality of teaching resources, developing instructional cultures/climate to improve teaching and learning. (F, Sp)

- EACS 5573 Supervision of Instruction 3 Credit Hours**
Prerequisite: graduate standing. Focuses upon the clinical supervision of the classroom environment, instructional procedures and the evaluation of teaching through the processes of observation and consultation. Participants develop control of the instrumentation and procedures which enable them to gather, display and interpret data relevant to the evaluation of classroom environments. (F, Sp)
- EACS 5593 Principal Leadership 3 Credit Hours**
Prerequisite: graduate standing. School leadership; effective schools; elementary and secondary administration; administration characteristics and responsibilities including personnel, fiscal, facility organization governance, and evaluation. (F)
- EACS 5623 School and Staff Development Management 3 Credit Hours**
Prerequisite: graduate standing. Provides preparation in the development of technical and conceptual skills applicable to principals in their establishment of professional cultures in school environment(s). Topics will include: staff development; school climate variables; school imaging problems, strategies, and improvement models; student special interest programs and recognition procedures; and involving external groups in school improvement. (F, Sp)
- EACS 5693 Technology in Educational Administration 3 Credit Hours**
Prerequisite: graduate standing. Provides the administrator the training in theory and application of computer concepts and the utilization of specific software programs and applications to enhance administrative decision making. (F)
- EACS 5793 Technology Staff Development in Education 3 Credit Hours**
Prerequisite: 5693 or equivalent. Technology in the form of computers and multimedia devices is becoming increasingly prevalent in classrooms. As school districts are expending more funds to purchase equipment and provide networking, it is important that educators have the training and development necessary to effectively utilize technology to improve the instruction of students. The course is designed to familiarize students with research and best practices in the area of technology staff development. (Sp)
- EACS 5823 The Charter School Phenomenon 3 Credit Hours**
Prerequisite: Graduate standing. The course provides a forum to explore the historical, foundational (including educational choice), economic, social, political, financial, and performance elements of charter schools in the United States. (F, Sp, Su)
- EACS 5913 Practicum in Education--Master's 3 Credit Hours**
Prerequisite: Graduate standing; May be repeated; maximum credit six hours. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)
- EACS 5920 Internship in Education--Master's 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EACS 5923 Principal Internship 3 Credit Hours**
Prerequisite: Graduate standing; Majors only. The internship provides field experiences and clinical practice for candidates within the school building environment to synthesize and apply the content knowledge and develop professional skills learned. Candidates are provided opportunities to gain experiences in two or more types of school settings to practice a wide range of relevant school-based knowledge and leadership skills, as well as supervision of instruction (F, Sp, Su)
- EACS 5940 Field Studies in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- EACS 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)
- EACS 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EACS 5980 Research For Master'S Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- EACS 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- EACS 6023 Applied Quantitative Research Methods in Educational Administration 3 Credit Hours**
Prerequisite: graduate standing. Designed to provide advanced graduate students with research skills required of effective executive educational leaders. This course will provide students with the analytical tools necessary to become effective, critical consumers of educational research, and to enable potential educational leaders to oversee and supervise staff in the preparation, development, and dissemination of evaluative research. (F)
- EACS 6103 Visionary Leadership in Education 3 Credit Hours**
Prerequisite: graduate standing. The course is intended to prepare educational leaders who value and are committed to educating all students to become successful adults. Included is a detailed analysis of the role of vision and visionary leadership in educational organizations. Both scholarly literature and best practices concerning visionary leadership in education underlay course activities and discussions. (F)
- EACS 6123 Administrative and Organizational Theory 3 Credit Hours**
Prerequisite: graduate standing. An introduction to the important theoretical bases underlying the administration of organizations, particularly educational organizations; topics include bureaucracy, social systems, leadership, decision-making, properties of systems, communication and situational analysis. (F, Sp)

- EACS 6133 Qualitative Inquiry for Practitioners 3 Credit Hours**
Prerequisite: graduate standing. Introduces graduate students to concepts, methods, and issues in qualitative research as it is used in educational settings. Draws attention to epistemological and ethical concerns in social science and to strategic and logistical issues in the conduct of field research. Both positivist and interpretive approaches to the use of qualitative methods will be explored. Concept and theory building, strategies and techniques, and discussions of different issues of reliability and validity in the use of qualitative data will be emphasized. (F)
- EACS 6203 Instructional Leadership in Educational Administration 3 Credit Hours**
Prerequisite: graduate standing. Focuses on instructional leadership and its emphasis on competencies necessary for leadership and management of school districts. The class draws from research, public policy and educational practices related to curriculum, instruction, assessment, strategic planning, and professional growth plans. Will enable school district administrators to plan for the integration of technology in curriculum implementation, instructional strategies, and evaluation/assessment. (Sp)
- EACS 6213 Program Evaluation 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. This course builds knowledge and competencies on theory-based evaluation science through a review of evaluation approaches and theoretical paradigms, evaluation components, terms, and methods; and endemic issues and challenges in conducting evaluation in the social sciences. (Sp)
- EACS 6223 Policy Planning and Development in Education 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. An introduction to analytical techniques applicable to the development of education policy. Includes consideration of decision theory and its application to policy making. Social, political, economic and multicultural factors in the organization and its environment will be explored as contexts within which educational policy is established. (F)
- EACS 6253 Financing Education 3 Credit Hours**
Prerequisite: graduate standing, 5213, 5223, or equivalent or permission of instructor. A consideration of the roles of federal, state and local governments in the financing of education. Attention is given to the important contemporary issues related to educational financing at all three governmental levels. Also includes an introduction to the economics of education. (Sp)
- EACS 6263 Educational and Community Relations 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Examines the field of intra/interpersonal relationships in the context of educational organizations and their constituent communities; topics include authenticity, organizational communication, leader behavior, group dynamics, and conflict management. (F)
- EACS 6303 Strategic and Financial Planning in Education 3 Credit Hours**
Prerequisite: graduate standing. Strategic planning enables a district or school to shape and guide its overall educational objectives. Through effective strategic planning an educational organization creates a framework for developing, adapting and aligning organizational vision, mission and goals to achieve and sustain its desired educational outcomes. A critical element of the planning process is financial planning, in which the organization's goals are aligned with organizational resources. Course focuses on the leadership competencies necessary to formulate, execute and monitor the strategic planning for an educational organization based on research-based analytical techniques and models. Includes an examination for school district risk management. (Sp)
- EACS 6503 Ethics in Educational Administration 3 Credit Hours**
Prerequisite: graduate standing. Intends to familiarize upper-level graduate students with ethical theories that can be utilized in the policy development and administration of school districts and related decision making. Prepares students to enter school district management with the skills necessary to assume a successful leadership role. Firm grounding in the current problems of today's schools will be used as an opportunity to explore decision making capacity as a district level administrator. Students will learn the foundations of ethics which will promote decision making. Challenges students to understand and apply ethical considerations with regard to 1) the rights of others with regard to confidentiality, dignity and honesty; 2) sensitivity to student diversity; and 3) impartiality in their interactions with others. Students will explain decisions based on ethical and legal principles. (Sp)
- EACS 6553 Profiles in Leadership 3 Credit Hours**
Prerequisite: Graduate standing. The purpose of this course is to further students' understanding and knowledge of the nature and responsibilities of a school leader. To this end, the course consists of the basic principles of effective leadership. First, we will take a deep dive into Profiles in Effective Leadership. Second, we will apply leadership behaviors to the school setting. (Sp)
- EACS 6663 Special Education Law 3 Credit Hours**
Prerequisite: graduate standing. Enables students to understand the legal complexities involved in identifying and providing educational services to students with special needs. (F)
- EACS 6673 Advanced Inquiry 3 Credit Hours**
Prerequisites: graduate standing and EACS 6023, 6713, and 6970. The course is intended to help provide advanced graduate students with necessary analytical skills to become effective consumers of research, and to produce an effective doctoral dissertation. The course focuses on skills related to formulation of research problems, developing research proposals, collection, analysis and interpretation of data. (Fa, Su)
- EACS 6693 Educational Technology Leadership 3 Credit Hours**
Prerequisite: graduate standing, 5693. Designed to help enhance the competencies of school district administrators in the area of educational technology leadership. Focuses on technology leadership (at the central office level), rather than technology user skills. Intended for district level leaders (such as superintendents) who are not technology specialists (e.g., the course is not intended for district level technology directors or coordinators). (F)
- EACS 6713 Pro Seminar 3 Credit Hours**
Prerequisite: graduate standing. The purpose of this course is to introduce beginning doctoral students to the concept and process of research. Included are issues related to the role of philosophical frameworks, theory, research conceptualization, scholarly writing, and rudimentary research methods. (F, Sp, Su)
- EACS 6813 Prospectus Development 3 Credit Hours**
Prerequisite: Graduate standing; majors only. This seminar is designed for advanced PhD students/candidates and is a formal venue for developing a sample dissertation prospectus as a starting point to work from and further develop with the student's dissertation chair and committee. (F)
- EACS 6910 Practicum in Education--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)

- EACS 6920 Internship in Education--Doctoral 2-6 Credit Hours**
1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EACS 6930 Intensive Studies in Education 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)
- EACS 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- EACS 6970 Post-Master's Seminar 2-4 Credit Hours**
2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)
- EACS 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- EACS 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)
- EDAH 2960 Individual Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)
- EDAH 2962 Student Affairs Leadership 2 Credit Hours**
Prerequisite: Departmental permission. This introduction to the field of Student Affairs explores the relationship between leadership and practice in college contexts. Course content is complemented and enhanced by practicum experiences in Student Affairs and/or leadership activities. This class also serves as a site for community building among campus leaders, fostering collaboration among students who may not have previously had opportunities to work together. (F, Sp)
- EDAH 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- EDAH 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)
- EDAH 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EDAH 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- EDAH 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EDAH 4960 Directed Readings in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- EDAH 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDAH 4980 Practicum in Education 1-3 Credit Hours**
1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)
- EDAH 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- EDAH 4993 R.A. Training Special Problems in Education 3 Credit Hours**
Prerequisite: junior standing. Introduces various theories and skills that aid the student in the performance of the duties of a resident advisor. Areas of study include student development theory, community development, programming, peer counseling, and policy enforcement. The class will review current issues confronting college students. Students will also be involved in University community-building programs and special events which relate to the roll of resident advisor. (F, Sp)

- EDAH 5013 The Adult Learner 3 Credit Hours**
Prerequisite: graduate standing. Course content includes: (a) recent history; (b) social, technological and economic factors associated with changes in educational philosophy with consequences for lifelong learning; (c) trend data on adult enrollments by socio-economic, racial, ethnic and other factors; (d) major providers; (e) research and issues concerning adult learning ability, adult development, stresses upon the adult learner, teaching adults, etc. (F)
- EDAH 5023 Administration of Adult and Higher Education 3 Credit Hours**
Prerequisite: graduate standing. Organization and administration of adult and higher education from legislative, legal, structural-functional, power, political, bureaucratic and social perspectives. Topics considered include: governance, central office organization, administrative position analysis, faculty organization, faculty participation in policy formation and decision making, academic freedom, goals analysis, budgetary policies and methods, and decision strategies. (F)
- EDAH 5033 Critical Literature in Adult and Higher Education 3 Credit Hours**
Prerequisite: graduate standing. Explores twentieth-century ideas and issues in adult and higher education. The majority of the literature and discussion concern the university. (F)
- EDAH 5043 Introduction to Research in Adult and Higher Education 3 Credit Hours**
Prerequisite: graduate standing. Recommend specific prior enrollment – see adviser. An introduction to data collection and analysis, research methods (experimental, quasi-experimental, qualitative), and statistics used in adult and higher education. (F, Sp, Su)
- EDAH 5103 Instructional Strategies in Adult and Higher Education 3 Credit Hours**
Prerequisite: graduate standing. Encourages a rational consideration of the problems of college teaching. A problems-based course, requiring that each student be involved in an actual college teaching experience while taking it. Topics to be considered include: learning potentials of young adults; preparation of instructional objectives; evaluation of instruction; instructional techniques. (Su)
- EDAH 5133 American Community/Junior College 3 Credit Hours**
A study of its purposes, functions, curriculum, organization and administration; exploring this uniquely American institution as an emerging factor and significant element in the structure of higher education in America today. (Sp)
- EDAH 5143 Leadership Development in Adult and Higher Education 3 Credit Hours**
Prerequisite: graduate standing. Apply concepts from the behavioral and social sciences to the development of techniques and strategies specific to leadership development in adult and higher education. (Sp)
- EDAH 5153 Legal Aspects Of Higher Education 3 Credit Hours**
Prerequisite: graduate standing. Survey of principles, legislation, and court rulings in such areas as employment, affirmative action, dismissal, contracts, tenure, civil rights, due process, student rights, and other issues of concern to higher education administrators. (F)
- EDAH 5163 Diversity Issues in Higher Education 3 Credit Hours**
Prerequisite: graduate standing. Explores the educational participation of diverse groups in higher education. The student will gain a further understanding of issues of race, ethnicity, gender, and physical disability and their influence on colleges and universities. (F, Sp)
- EDAH 5173 Leadership and Administration in Student Affairs 3 Credit Hours**
Prerequisite: graduate standing. Designed to provide student foundational knowledge on topics related to leadership and administration of student affairs in collegiate settings. The course additionally exposes students to traditional and alternative leadership and administrative philosophies in college student affairs. Critical examination of how student affairs functions in the broader organizational structure and develop higher-ordered understanding of how institutional cultures (and a professional's role within those cultures) facilitate college student affairs administration. (F, Sp, Su)
- EDAH 5193 Minority Serving Institutions 3 Credit Hours**
Prerequisite: Graduate standing. This course is designed to provide students with a range of learning experiences that familiarize them with Minority Serving Institutions (MSIs). Students will explore the various types of MSIs, their historical development, missions, governance/organizational structure, challenges, support/advocacy, and futures. Additionally, students will examine the student populations served by MSIs, policies that impact these institutions, and relevant contemporary issues. (Irreg.)
- EDAH 5213 History of American Higher Education 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. The history of American higher education during the twentieth century, with an examination of the major issues which have shaped, and are shaping, the development of American colleges and universities. (Sp)
- EDAH 5223 Foundations of Student Affairs in Higher Education 3 Credit Hours**
Prerequisite: graduate standing. A comprehensive introduction to the field of student affairs and its role within the context of American higher education. Specifically, provides an introduction to the origin, history, philosophy, and current practices of the college student affairs profession. A related goal is the development of a broad foundation of knowledge to which subsequent study, practitioner skills, and research strategies may be added. (F)
- EDAH 5243 Financial Management In Higher Education 3 Credit Hours**
Prerequisite: graduate standing. Students will be introduced to the following topics: Administrative organization function and structure; financial management of sponsored programs (grants and contracts); fund accounting and basic financial statements; state coordination policies and procedures; basic budgeting concepts and techniques; cost analysis and comparisons. (Sp)
- EDAH 5253 Institutional Research In Higher Education 3 Credit Hours**
Prerequisite: graduate standing. Recommend specific prior enrollment–see advisor. Covers the roles and functions of institutional research, student information systems, faculty and staff analysis, facilities analysis, capital and financial analysis, environmental scanning, assessment studies, program review, student outcomes studies, and quality assessment. (F)
- EDAH 5263 Planning In Higher Education 3 Credit Hours**
Prerequisite: Graduate standing. Recommend specific prior enrollment–see advisor. Covers concepts, practices, issues and problems related to planning in higher education. (F)
- EDAH 5273 Athletics In Higher Education 3 Credit Hours**
(Crosslisted with H R 5273) Prerequisite: Graduate standing. Provide students with an understanding of the history, structure and administration of intercollegiate athletics, as well as an opportunity to discuss a wide variety of related contemporary issues. (Irreg.)

EDAH 5293 Academic Advising in Student Affairs 3 Credit Hours

Prerequisite: Graduate standing. This practitioner grounded course introduces the profession of academic advising through current research and campus field experiences. Topics include: history of the profession; developmental advising; theories of advising; advising models; advising skills; varying needs of diverse populations; role in student retention/graduation; student advocacy, legal and ethical considerations; use of technology; evaluation and assessment. (Irreg.)

EDAH 5333 Program Planning For The Adult Learner 3 Credit Hours

Prerequisite: graduate standing. Recommend specific prior enrollment—see advisor. Designed to develop an understanding of institutional roles and institutional differences; a knowledge of the principles of program planning in relation to the delivery of adult education. Reviews the elements of pProgram planning to include needs assessment, program design and delivery, and evaluation. (F)

EDAH 5383 Contemporary Issues In Student Personnel 3 Credit Hours

Prerequisite: graduate standing. Designed to provide students an opportunity to synthesize ideas from previous coursework and practical experiences in student affairs. An integration of student development theories, current issues in the field, and analysis of case studies will be the focus of the course. (F, Sp)

EDAH 5413 Design And Delivery Of Distance Education Programs 3 Credit Hours

Prerequisite: graduate standing. Designed to prepare student to design instruction for distance learning systems. Topics include the distance learner, facilitating learning at a distance, instructional design for distance learning systems, and assessment of learning at a distance. (Sp)

EDAH 5433 Organizational Design and Management of First Year Experience Programs 3 Credit Hours

Prerequisite: graduate standing. Focuses on the first-year experience through exploring existing research and practice in organizational design and management. Based on readings, research, national guidelines, course discussion, and personal/professional experience, graduate students will design their own first-year experience program for un-traditional students within an institution of their choice. (F, Sp)

EDAH 5443 Organization Development and Change 3 Credit Hours

Prerequisite: graduate standing. Designed to provide an overview of the practical skill sets required to plan, develop, and conduct organizational development activities within public as well as private sector organizations. Topics will include concepts of OD models and theories, organizational assessment procedures, various OD interventions methods, and technological tools for effect OD. Trends and contemporary solutions for organizational development will be introduced through webinars and demonstrations. (F, Sp, Su)

EDAH 5453 Autobiography and Lifewriting in Adult Education 3 Credit Hours

Prerequisite: graduate standing. Explores autobiography and other forms of life writing as an instructional method and research tool within the broader field of the study and education of adults. Reviews the historical and contemporary uses of autobiography, its related concepts and theories and major authors who have contributed to the field. These are explored in light of educational principles and how autobiography can lead to understanding of self and others. (F, Sp, Su)

EDAH 5473 Race, Class, and Gender in Education 3 Credit Hours

Prerequisite: graduate standing. This course attempts to achieve congruence between common and differing oppressions, challenges, and successes according to race, class, and gender. The topics are restricted to maximize integration with studies in the various educational specialties. Analysis of the work of educational institutions in light of the relationships of these institutions to the broader society in which they are situated. Particular attention is paid to the complexities of identity and multiculturalism across educational institutions and in the educational pipeline. (F, Sp, Su)

EDAH 5483 College Student Development 3 Credit Hours

Prerequisite: graduate standing. Designed to expose students to a variety of college student development theories as well as research that describes typical patterns of student growth and development during the college years. In addition, a primary objective of this course is to discuss how student affairs professionals, higher education administrators, and faculty may utilize student development theory to design programs, develop services, and create learning environments that support the academic and social development of students attending postsecondary institutions. (F, Sp, Su)

EDAH 5513 Management & Admin Of The Training Function 3 Credit Hours

Prerequisite: graduate standing. This course is designed for those preparing for or having oversight responsibilities in the training and development function. Topics will include the management function, staffing, ensuring the quality of training, legal issues, marketing and financial management.

EDAH 5523 Skills and Strategies in Designing, Developing, and Delivering Training 3 Credit Hours

Prerequisite: graduate standing. Addresses the core aspects of Instructional Systems Design (ISD) as applied to workforce learning, and performance. Learn and apply key principles involved in assessing, designing, developing, implementing, and evaluating face to face (traditional) training programs. Students select training topics identified as critical to success in the training and development field, and engage the ISD process in creating active training programs. (F, Sp)

EDAH 5543 Gender, Society, and Higher Education 3 Credit Hours

Prerequisite: graduate standing. Addresses issues of gender as set within the historical, economic and socio-political context of American higher and post-secondary higher education. Multiple feminist perspectives are explored including, but not limited to, liberal feminism, radical feminism, Black feminism, womanism, Chicana feminism, Native American feminism, Arab American feminism, multicultural feminism, eco- and global feminism. The connections between theory, practice, and reflection are emphasized. Social justice and ally development are strong components of this course. (F, Sp)

EDAH 5563 Inclusive Praxis in Intercollegiate Athletics 3 Credit Hours

Prerequisite: graduate standing. This course focuses on developing the inclusive practice, multicultural competence, and cultural humility of aspiring athletics administrators. Taught in a workshop format, this course will increase students' understanding various issues in the context of college sports, including race, gender, religion, nationality, class, sexual orientation, and power-based violence. (F, Sp, Su)

EDAH 5573 History of Intercollegiate Athletics 3 Credit Hours

Prerequisite: graduate standing. The course will attempt to deal with the continuity and changes in college sports as part of higher education and American culture. It will include analysis of the changing ideals of the student-athlete and the college coach as well as analysis of the political economy associated with college sports at the levels of the campus, the conference, and national associations. (F, Sp, Su)

EDAH 5583 Academics in Intercollegiate Athletics Administration 3 Credit Hours

Prerequisite: Graduate standing. This course is designed to provide an in-depth perspective regarding the history of academic support and student services in athletics, best practices in the profession, the relationship between the athletics and academic communities in higher education, and analysis of salient issues and challenges. (Sp)

EDAH 5613 Ethical Decision Making in Intercollegiate Athletics Administration 3 Credit Hours

Prerequisite: graduate standing. Explores ethical decision-making and conduct in the contemporary 21st century intercollegiate athletics department. Specific issues related to the commercialization of college athletics that will be covered include: academic reform, diversity within intercollegiate athletics, pay-for-play, gender equity, fiscal management, compensation for student-athletes, and the recruiting process. Students will analyze current research and theoretical frameworks centering on ethical decision making, as well as utilize a theory to practice case-study pedagogical approach in order to evaluate their personal morals, values, and principles as they pertain to ethics in college sports to enhance future decision-making. (Sp)

EDAH 5623 Marketing & Development in Intercollegiate Athletics Administration 3 Credit Hours

Prerequisite: graduate standing. The theoretical and practical foundations of sport marketing and fan development in 21st century intercollegiate athletics settings. Fundamental concepts that will be covered include: revenue generation, licensing, ticket sales, consumer marketing, and marketing matrix frameworks. Students will create an individual marketing proposal to develop an enhanced understanding of techniques and strategies used to successfully market large scale athletic events and enhance the consumer experience. (Sp)

EDAH 5633 Gender in Intercollegiate Athletics 3 Credit Hours

Prerequisite: graduate standing. The course examines how gender shapes the history, organization, and nature of higher education, sport, and society. The combination of theoretical, historical, and contemporary analysis will illuminate how gender shapes the daily interactions of all people and in turn sustains the lower social, political, and cultural standing of women in society at large. (F)

EDAH 5653 Academic Reform and Athletic Academic Advising 3 Credit Hours

Prerequisite: graduate standing. Explores and provides an understanding of the National Collegiate Athletics Association's academic reform movement in the 21st century and the subsequent effects on student-athletes in higher education. The course focuses in-depth on methods currently utilized in academic advisement of the student-athlete higher education population subset. In addition, focuses on the changes made to the current NCAA governing rules as they apply to academic support and advisement of student-athletes. Students will learn to critically analyze current academic reform measures taken by the NCAA and wrestle with present day challenges faced by athletics advisers in practitioner settings. The course will utilize case studies to frame critical inquiry and discussion to prepare future higher education leaders who work with this special population of students. (Sp)

EDAH 5673 Organization & Administration of Intercollegiate Athletics Administration 3 Credit Hours

Prerequisite: graduate standing. Examines the organizational structure of intercollegiate athletics departments nested within NCAA Division I, II, and III institutions of higher education. Students will develop an understanding of the organizational structures of each administrative unit internal to a 21st century intercollegiate athletics departments. Students will enhance personal leadership, communication and academic writing skills through multiple reflective exercises and case studies. Culminates with the development of a formal literature review and presentation. (F)

EDAH 5683 Race & Ethnicity in Intercollegiate Athletics 3 Credit Hours

Prerequisite: graduate standing. Using theory, research, personal narratives, and primary sources, this course examines race and ethnicity in college sports. Focus will be on racial diversity in sports, approaching the topic from a historic/structural perspective, a symbolic perspective, and an internal/personal perspective. (F, Sp, Su)

EDAH 5693 Professional Development in Intercollegiate Athletics 3 Credit Hours

Prerequisite: graduate standing. Prepares students for impending job searches in a competitive 21st century sport industry. Students complete career and professional development activities in addition to a personalized service-learning experience in intercollegiate athletics practitioner settings. Class time centers on: reflection of individual service-learning experiences, leadership growth and development, and workshop time to develop professional development portfolio. Students develop a professional portfolio over the course of the semester to include a current resume, cover letter, personal leadership philosophy, and site supervisor service-learning evaluations. This class is intended for students who have little to no previous experience in intercollegiate athletics. (F, Sp)

EDAH 5813 NCAA Compliance I 3 Credit Hours

Prerequisites: graduate standing. Examination of the structure of the National Collegiate Athletics Association ("NCAA") from a legal framework. Drawing on legal and organizational theory, this course will present an overview of NCAA regulations, research of NCAA interpretations, waivers and secondary violations. Students will examine specific cases to analyze NCAA, conference, institutional regulations and policies. Students will develop an enhanced understanding of NCAA compliance standards in college sport, a foundational skillset for aspiring athletics administrators and specifically those who wish to work in a compliance office at an NCAA institution. (F)

EDAH 5823 NCAA Compliance II 3 Credit Hours

Prerequisite: EDAH 5813 and graduate standing. Examines the structure of the National Collegiate Athletics Association ("NCAA") from a legal framework. Provides aspiring athletics administrators with foundational knowledge on the NCAA Enforcement procedures, the new Enforcement Model and internal compliance investigation standards paramount to successfully operating the daily activities of an intercollegiate compliance office. Students will develop an enhanced understanding of NCAA compliance standards, NCAA regulations, NCAA enforcement procedures of institutional investigation to rules violations, reporting of violations and major infraction cases in college sport. (F)

EDAH 5843 Event and Facility Management in Intercollegiate Athletics Administration 3 Credit Hours

Prerequisite: graduate standing. Provides students with an enhanced understanding of the logistical and operations management skillsets that are imperative for contemporary intercollegiate athletics administrators to possess. Drawing on consumer motivation and marketing theories, students will participate in the planning and development of a specific intercollegiate athletics event. By pairing theoretical discussion and practical application, students will learn how to safely and efficiently plan large-scale intercollegiate athletics events. (F)

EDAH 5853 Best Practices in Contemporary Intercollegiate Athletics Student Support Services 3 Credit Hours

Prerequisite: graduate standing. Designed to discuss different aspects of support services for student-athletes. Centers on developing an understanding of the role of student services units within intercollegiate athletics including athletic training, academics, nutrition, strength and condition, psychological support. Particular emphasis is placed on how these services interact with each other. Current research and perspectives from the field will be presented. Students will be expected to complete personal reflection exercises, case studies, and a culminating group project. (Sp)

EDAH 5863 Licensing, Trademark Law and Fundraising in IAA 3 Credit Hours

Prerequisite: graduate standing. Provide students with an introduction to the legal aspects of collegiate licensing and fundraising. Student will develop an enhanced understanding of the principles of intellectual property, trademark law and licensing. Explores the history and role that licensing plays in intercollegiate athletics. Culminates with the development of an athletic fundraising campaign group project. (Sp)

EDAH 5910 Practicum in Education--Master's 1-4 Credit Hours

1 to 4 hours. Prerequisite: graduate standing, permission of instructor and dean. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included.

EDAH 5920 Internship in Education--Master's 1-6 Credit Hours

1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty.

EDAH 5940 Field Studies in Education 1-4 Credit Hours

1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure.

EDAH 5960 Directed Readings 1-4 Credit Hours

1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours.

EDAH 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

EDAH 5973 Spirituality & Religious Diversity in Higher Education 3 Credit Hours

Prerequisite: Graduate standing. The course addresses issues of spirituality and religious diversity in higher education within the historical and sociopolitical context of the U.S. Multiple critical theoretical perspectives on religion and spirituality will be drawn upon throughout the semester. The connections between theory, practice in higher education, and (self) reflection are emphasized. Social justice and ally development are strong components of this course. (F, Sp, Su)

EDAH 5980 Research for Master's Thesis 2-9 Credit Hours

Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

EDAH 5990 Independent Study 1-4 Credit Hours

1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

EDAH 6013 Pro Seminar: Foundations of Research in Adult and Higher Education 3 Credit Hours

Prerequisite: Graduate standing. Introduction to concepts and processes of education research, including conceptualizing a research study, and an overview of qualitative, quantitative, and mixed-method approaches. Will examine philosophical, epistemological, and paradigmatic frameworks; problem, purpose, and significance; and the varying roles of theory, methodology, and findings. Will discuss general expectations of graduate work, particularly what constitutes original research and academic writing. (F)

EDAH 6813 Prospectus Development 3 Credit Hours

Prerequisites: Departmental permission; graduate standing. This Prospectus Development Seminar is designed for advanced doctoral students/candidates and is a formal venue for developing a sample dissertation prospectus as a starting point to work from and further develop with your dissertation chair and committee. (Sp)

EDAH 6910 Practicum in Education--Doctoral 1-6 Credit Hours

1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)

EDAH 6920 Internship in Education--Doctoral 1-6 Credit Hours

1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)

- EDAH 6930 Intensive Studies in Education 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)
- EDAH 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- EDAH 6970 Post-Master's Seminar 2-4 Credit Hours**
2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)
- EDAH 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisites: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- EDAH 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)
- EDS 2960 Individual Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)
- EDS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- EDS 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)
- EDS 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EDS 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- EDS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EDS 4003 Schools in American Cultures 3 Credit Hours**
Prerequisite: admission to Teacher Education program; EIPT 3473 or EDEC 3413. An overview of education as a profession based upon historical and philosophical principles including a treatment of current problems and affairs with specific attention given to multicultural phenomena. (F, Sp)
- EDS 4633 Latina Feminist Epistemologies 3 Credit Hours**
(Slashlisted with EDS 5633; Crosslisted with WGS 4633) Prerequisite: Junior standing. This course explores the experiences of Chicanas and Latinas through the lens of contemporary research. Topics to be discussed: community formation and activism, Chicana/Latina feminism, sexuality, religion, health, family, immigration, migration, education, work, media, and artistic expressions. Readings emphasize the links between the structural inequalities of society, and the day-to-day lived experiences of Chicanas/Latinas. No student may earn credit for both 4633 and 5633. (Irreg.)
- EDS 4960 Directed Readings in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- EDS 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDS 4980 Practicum in Educational Studies 1-3 Credit Hours**
1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)
- EDS 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- EDS 5003 School and Society 3 Credit Hours**
Prerequisite: graduate standing. Presents overview of education as a profession based upon historical, sociological, and philosophical principles, including a treatment of current problems and affairs with specific attention given to multicultural phenomena. (Sp)

- EDS 5023 Linguistic and Conceptual Analysis 3 Credit Hours**
Prerequisite: Graduate standing. Study of the philosophical method, linguistic and conceptual analysis, as a means to achieve greater clarity and understanding of tactical and theoretical problems faced by educators. Students using philosophical analysis in their research may pursue the beginnings of that analysis in consultation with the instructor and other students in the course. (F, Sp)
- EDS 5633 Latina Feminist Epistemologies 3 Credit Hours**
(Slashlisted with EDS 4633; Crosslisted with WGS 5633) Prerequisite: Graduate standing. This course explores the experiences of Chicanas and Latinas through the lens of contemporary research. Topics to be discussed include community formation and activism, Chicana/Latina feminism, sexuality, religion, health, family, immigration, migration, education, work, media, and artistic expressions. Readings emphasize the links between the structural inequalities of society and the day-to-day lived experiences of Chicanas/Latinas. No student may earn credit for both 4633 and 5633. (Irreg.)
- EDS 5703 Sociology of Education 3 Credit Hours**
Prerequisite: eight hours of education or permission. Social structure in the community wherein the school must operate and the nature of human relations within the school; social processes and patterns involved in the educational system relative to other aspects of our society; and the effect of the school on the behavior and personality of its participants.
- EDS 5783 Classics in Educational Thought 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Close critical study of selected "classics" in educational thought by Plato, Rousseau, DuBois, Dewey, Woolf, or others of comparable historical significance for multicultural co-education throughout the human lifespan, in a context of social inequalities. Intensive written and oral practice in basic conceptual skills and informal logic will require independent inquiries on topics of special interest to students. (F)
- EDS 5823 Contemporary Critical Thought and Education Studies 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. Close study of contemporary critical thought that has profoundly transformed recent theorizing about education and its various social, cultural, and economic contexts. Major texts selected from philosophical movements such as analysis, existentialism, Marxism, feminism, post-structuralism, and neo-pragmatism. Intensive oral and written practice in educational criticism and theory, developing case studies from primary sources. (Irreg.)
- EDS 5833 Topics in Gender, Values, and Education 3 Credit Hours**
Prerequisite: Graduate standing or permission of instructor. May be repeated with change of content; maximum credit 6 hours. Topics vary each semester and are developed from philosophical studies in and about education, politics, ethics, aesthetics, law, and religion that address the issues of gender and sexuality. Intensive oral and written theoretical inquiry. (Irreg.)
- EDS 5910 Practicum in Education--Master's 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission of instructor and dean. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)
- EDS 5913 Latinas/os and Education 3 Credit Hours**
Prerequisite: Graduate standing. This class situates the Latina/o experience in U.S. schools within an understanding of the overall history of American Education by examining the complex educational, racial, and legal history of Latinas/os in the United States. Similarly, this course will examine current trends in the education of Latinas/os and the ways that educators (both researchers and practitioners) can better serve Latina/o students. (Irreg.)
- EDS 5920 Internship in Education--Master's 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDS 5933 Girls, Women, and Educational Studies 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. History, sociology, and/or philosophy of girls' and women's education in a multicultural context that includes family, work, and community life as well as coeducational public schooling and higher education in the U.S. Oral and written critical inquiry concerning selected primary sources will introduce students to the activity of interdisciplinary theorizing about gender and sexuality in education. (F)
- EDS 5940 Field Studies in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: twelve hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- EDS 5943 History of Race and Education in Oklahoma 3 Credit Hours**
Prerequisite: graduate standing. Examines the history of race and education in Oklahoma, as well as the experiences of African Americans, Native Americans, and Latinas/os as they engaged in the creation and maintenance of schooling spaces, both prior to and proceeding from statehood. (F, Sp)
- EDS 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: twelve hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)
- EDS 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDS 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- EDS 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

- EDS 6010 Writing Educational Inquiry 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing and enrollment in Educational Studies program. May be repeated with change of content; maximum credit 9 hours. Individual or group tutorial study of informal logic and rhetorical theory concerning academic writing as a social practice. Emphasis on contextually appropriate documentation practices, philosophical moves, and rhetorical devices, and development of clarity and grace in written formulations of educational concepts and values. Addresses various scholarly and professional situations. Aimed toward public presentation or publication. (F, Sp)
- EDS 6033 Inquiry Design 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. An individual or small group tutorial focused exclusively on preparation of the dissertation or prospectus for interdisciplinary critical or theoretical inquiry in Historical, Philosophical, and Social Foundations in Education. (F)
- EDS 6723 Race and Representation in Educational Research 3 Credit Hours**
Prerequisite: Graduate standing. This course examines the major tenets of Critical Race Theory (CRT) and the ways to expand its use in educational research. Students will develop a research project utilizing methodologies utilized in CRT/LatCrit/TribalCrit research projects, e.g., testimonies and storytelling. (Sp)
- EDS 6763 Issues in Contemporary American Education 3 Credit Hours**
Prerequisite: graduate standing. Backgrounds of the contemporary American social scene with such issues as extension of educational opportunity; interrelationships between church, state, and school; changing economic concepts in the age of technology; purposes of education to social policy; federal aid to education; academic freedom.
- EDS 6793 History of U.S. Education 3 Credit Hours**
Prerequisite: graduate standing. Development of schools in American society from colonial times to the present as set against the background of intellectual movements and changes from the colonial period to the present. Attention is given to the development of the organization, administration, finance and curriculum in the American public school system. Major concepts relating to the maintenance of a school in American society are considered; historical treatment of nativism, populism, empiricism, associationism, a person's relation to spiritual and national self, as these topics relate to the development of educational ideals and practices in American society. (Irreg.)
- EDS 6910 Practicum in Education--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)
- EDS 6920 Internship in Education--Doctoral 2-6 Credit Hours**
1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit twelve hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDS 6930 Intensive Studies in Education 1-6 Credit Hours**
1 to 6 hours. Prerequisite: twelve hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)
- EDS 6933 Naturalistic and Qualitative Research in Education 3 Credit Hours**
Prerequisite: graduate standing. Designed to familiarize graduate students in education with naturalistic research and qualitative methodologies. (Irreg.)
- EDS 6943 In-Depth Approaches to Qualitative Inquiry in Educational Research 3 Credit Hours**
Prerequisite: graduate standing. Students should have had some introduction to qualitative inquiry and research. Graduate students should produce a presentable conference paper and/or publishable article. In addition, students will teach their selected methodology while applying this methodology to their own study. Students will develop a deeper understanding of the philosophical congruence of students and other classmates' research projects. (F, Sp)
- EDS 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- EDS 6970 Post-Master's Seminar 2-4 Credit Hours**
2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)
- EDS 6973 Historical Research Methods in Education 3 Credit Hours**
Prerequisite: Graduate standing. Examines problems and methods of narrative research in education. Use of primary and secondary sources, evidence, generalization, interpretation, documentation, citation, and oral history are discussed. (F)
- EDS 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. Maximum of 15 hours credit for the Ed.D. and 30 hours for the Ph.D. (F, Sp, Su)
- EDS 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: twelve hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)

Note: Practical experiences are designed to provide students with opportunities to explore possible areas of professional interest. Unpaid practica are strongly recommended for students who have not had at least one year's experience working in the field of adult and higher education.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Adult & Higher Education: Intercollegiate Athletic Administration, M.Ed.

College Teaching Certificate, Graduate Certificate

Minimum Total Hours: 12

Program Code: G026

The certificate is designed to prepare graduate students for higher-education teaching. Through the coursework, participation in the Graduate Teaching Academy, and through teaching or practicum experiences, students will learn and apply the pedagogical and institutional knowledge necessary for successful teaching and student learning. Each component of the certificate is designed with one of these goals in mind by offering direct instruction, group discussion, direct observation, and mentor relationships.

Certificate Requirements

Code	Title	Credit Hours
EDAH 5103	Instructional Strategies in Adult and Higher Education	3
EDAH 5910	Practicum in Education--Master's (3 hours) ¹	3

Choose 2 courses from the following: 6

EDAH 5133	American Community/Junior College	
EDAH 5153	Legal Aspects Of Higher Education	
EDAH 5163	Diversity Issues in Higher Education	
EDAH 5213	History of American Higher Education	
EDAH 5223	Foundations of Student Affairs in Higher Education	
EDAH 5243	Financial Management In Higher Education	
EDAH 5253	Institutional Research In Higher Education	
EDAH 5263	Planning In Higher Education	
EDAH 5333	Program Planning For The Adult Learner	

Total Credit Hours 12

¹ EDAH 5910 Practicum is waived for students with prior college-level teaching experience. The Practicum hours must be replaced with a third course from the approved list.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Total Credit Hours		90

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

Education Administration - Curriculum/Supervision Option, Ed.D.

Minimum Total Hours: 84-90

Program Code: D317 (D318 Online)

Program Requirements

Code	Title	Credit Hours
Common Core - Core Coursework (6 hours)		
EACS 6103	Visionary Leadership in Education	3
EACS 6263	Educational and Community Relations	3
Common Core - Research Tools (18 hours)		
EACS 6713	Pro Seminar	3
EACS 6023	Applied Quantitative Research Methods in Educational Administration	3
EACS 6133	Qualitative Inquiry for Practitioners	3
EACS 6213	Program Evaluation	3
EACS 6673	Advanced Inquiry	3
EACS 6813	Prospectus Development	3
Concentration Coursework (21-24 hours)		
21-24 hours (depending on concentration selected) of graduate-level coursework as approved by the student's doctoral committee (p. 1087)		21-24
Additional Hours (minimum 3 hours)		
Pick at least 1 course (3 hours, Standard and Educational Leadership concentrations) or 2 courses (6 hours, Higher Education Leadership concentration) from a list maintained by the academic unit and approved by the Graduate College. Additional electives and transfer credit (including from a completed master's degree) as approved by the doctoral advisory committee as needed to complete 84-90 hours beyond the baccalaureate degree may also count. ¹		3-42
Dissertation Research (3 hours minimum, 15 hours maximum)		
EACS 6980	Research for Doctoral Dissertation	3-15
Total Credit Hours		84-90

¹ Students in the on-campus concentration (D317 R155) must complete **90** hours minimum for the degree.

Students in the online concentrations (D318 R200 or D318 R333) must complete **84-90** hours minimum for the degree.

Concentration Coursework

Curriculum/Supervision (Standard) - Major Code: D317 R155

This concentration requires 22 hours of specific coursework:

Code	Title	Credit Hours
EACS 6203	Instructional Leadership in Educational Administration	3
EACS 6693	Educational Technology Leadership	3
EACS 6663	Special Education Law	3
EACS 6303	Strategic and Financial Planning in Education	3
EACS 6503	Ethics in Educational Administration	3
EACS 6970	Post-Master's Seminar (Topic: Readings for Prospectus)	3
EACS 6920	Internship in Education--Doctoral (Topic: Superintendent Internship)	4
Total Credit Hours		22

Educational Leadership (OL) - MAJOR CODE: D318 R200

This concentration requires 24 or more hours of specific coursework:

Code	Title	Credit Hours
EACS 6303	Strategic and Financial Planning in Education	3
EACS 6203	Instructional Leadership in Educational Administration	3
EACS 6970	Post-Master's Seminar (Topic: Readings for Prospectus)	3
EDUC 6113	Theoretical Paradigms in Educational Research	3
EACS 6663	Special Education Law	3
EACS 6920	Internship in Education--Doctoral (Topic: Superintendent Internship taken 3 hrs for two semesters)	6
EDUC 6223	Dissertation Development & Advisory (may be repeated)	3
Total Credit Hours		24

Higher Education Leadership (OL) - MAJOR CODE: D318 R333

This concentration requires 21 or more hours of specific coursework, and also 6 total hours (minimum) of graduate electives:

Code	Title	Credit Hours
EACS 6303	Strategic and Financial Planning in Education	3
EDAH 5023	Administration of Adult and Higher Education	3
EACS 6970	Post-Master's Seminar (Topic: Readings for Prospectus)	3
EDUC 6113	Theoretical Paradigms in Educational Research	3
EDAH 5173	Leadership and Administration in Student Affairs	3
EDAH 5033	Critical Literature in Adult and Higher Education	3

EDUC 6223	Dissertation Development & Advisory (may be repeated)	3
Total Credit Hours		21

Educational Studies, Ph.D.

Minimum Total Hours: 90

Program Code: D330

Program Requirements

Code	Title	Credit Hours
Foundational Core (9 hours minimum)		
<i>Interdisciplinary Educational Studies or Philosophy of Education</i>		
Choose one of the following courses:		3

EDS 5003	School and Society	
EDS 5033		
EDS 5753		
EDS 5783	Classics in Educational Thought	
<i>History of Education</i>		
EDS 5943	History of Race and Education in Oklahoma	3
or EDS 6793	History of U.S. Education	
<i>Sociology of Education</i>		
EDS 5703	Sociology of Education	3
or EDS 5913	Latinas/os and Education	
Major Coursework (12 hours minimum)		
12 hours (minimum) in one of the following areas:		12
Interdisciplinary Educational Studies (with a specified topical focus), Philosophy of Education, History of Education, Sociology of Education. ¹		
Minor Coursework (9 hours)		
9 hours minimum in any field(s) (such as an applied, disciplinary, or interdisciplinary specialty) directly relevant to the topical focus of the major and of the dissertation. ²		9
Research Proficiencies		
<i>Approaches to Educational Inquiry (9 hours, minimum)</i>		
Choose at least 3 courses from the following: ³		9
EDS 5023	Linguistic and Conceptual Analysis	
EIPT 5033	Introduction to Research and Evaluation in Education	
EDS 6010	Writing Educational Inquiry	
EDS 6723	Race and Representation in Educational Research	
EDS 6933	Naturalistic and Qualitative Research in Education	
EDS 6970	Post-Master's Seminar (Topic: Pro-Seminar)	
EDS 6970	Post-Master's Seminar (topic: Advanced Qualitative Inquiry in Education)	
EDS 6973	Historical Research Methods in Education	
<i>Plans for Dissertation Inquiry (3 hours, minimum)</i>		
EDAH/EACS 6970	Post-Master's Seminar (with topic: Prospectus Development)	3
or EDS 6033	Inquiry Design	
Dissertation Research (6 hours minimum, 15 hours maximum)		
EDS 6980	Research for Doctoral Dissertation	6-15
Additional Coursework		
Remaining graduate-level hours to bring degree total to 90. May include master's credit, additional electives or other coursework.		33-42
Total Credit Hours		90

¹ At least 9 hours of the Major must consist of EDS courses, but neither Foundational Core coursework nor Research Proficiencies coursework may count toward the Major.

² Neither Foundational Core coursework nor Research Proficiencies coursework may count toward the Minor. Students are encouraged to complete their minor outside of Educational Studies.

³ When deemed appropriate to the dissertation by the Advisory Committee, a student may substitute for one of these courses a more

appropriate research course from any of the following academic units: Anthropology, Communication, Educational Psychology, English, Fine Arts, History, Philosophy, Political Science, or Sociology.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

General Information

The Educational Psychology department is committed to developing and disseminating new knowledge through research and scholarly activity, delivering quality instruction and professional training, and pursuing research and training opportunities at the junctures of the disciplines within the department.

Research

Faculty members in the Department of Educational Psychology are active researchers. Examples of the topics under investigation in each of the program areas are listed below.

Learning Experience Design and Technology

The LXDT program is designed to prepare students for roles such as learning/instructional designers and developers, instructional design consultants, learning experience designers, educational technologists,

trainers, curriculum developers, project managers, researchers, and more. Areas of research include instructional design, scaffolding problem solving with technology, visual literacy, and many other areas in multiple contexts such as P-12 schools, higher education institutions, business, industry, healthcare, government, and military.

Professional Counseling

The guiding philosophy, goals, policies, and practices of the Professional Counseling Program are shaped by its central commitment: To develop socially-conscious professionals, facilitate a community of belonging, and engage in community-focused, ecologically sensitive research and practice. The Professional Counseling Program is committed to developing and disseminating knowledge through research and scholarly activity, delivering quality instruction and professional training to prepare students at the master's level in clinical mental counseling, school counseling, and addictions counseling to work as practitioners in a variety of settings including community mental health agencies and schools.

Science of Psychology, Data, and Research in Education

The Science of Psychology, Data, and Research in Education program bridges the fields of educational psychology, research design, and data analytics to integrate theoretical perspectives, practical knowledge and deep understanding of research methodology necessary to successfully conduct independent research in a variety of fields and contexts.

Areas of research include factors that influence student motivation and engagement in learning, teacher professional development, the development of expertise, and many other areas in multiple contexts (i.g., P-12 schools, institutions of higher education, museums, workplaces, non-profits).

Special Education

The Special Education program seeks to improve educational and community living outcomes for people with disabilities and their families through the development and dissemination of new knowledge, the provision of high-quality educational experiences related to personnel preparation, and a commitment to provide service and leadership to the field of education. Areas of research include academic achievement, behavioral supports, and post-secondary outcomes for students with exceptionalities.

Programs & Facilities

Zarrow Institute on Transition and Self-Determination

The Zarrow Institute on Transition and Self-Determination implements innovative research, puts findings into practice, and disseminates knowledge through high-quality products and professional development. An endowment from the Zarrow Family Foundation of Tulsa established the Zarrow Institute in 2000.

Under the Zarrow Institute, the Sooner Works program is a four-year comprehensive integrated program for students with an intellectual or developmental disability who desire a postsecondary experience on a college campus. Students in Sooner Works live on campus and take traditional university courses in conjunction with courses specific to Sooner Works. In addition, students participate in internships and social organizations on the beautiful University of Oklahoma campus.

Undergraduate Study

The Special Education, Bachelor of Science (p. 1105) program prepares students to become teachers certified to instruct students with mild and moderate disabilities.

Graduate Study

Master of Education

Admission Requirements

Admission to study for the master's degree in education requires a grade point average of 3.00 in the last 60 hours of undergraduate study. Additional requirements in some areas are determined by area faculty.

Prospective students are encouraged to consult the Department of Educational Psychology *Graduate Student Handbook* for information about program availability, and college and departmental requirements. In addition, the section of the *Graduate Bulletin*, which describes the procedures and requirements for graduate study at the University, should be reviewed and kept as a reference.

Requirements for the Master's Degree

Applicants for programs leading to the degree of Master of Education must present a bachelor's degree in an appropriate field from an accredited college or university. A student must complete work within six calendar years after the student's first graduate enrollment at the University of Oklahoma.

Depending on program area, a written examination is required and thesis, non-thesis, or special project options may be applicable.

The program for the master's degree includes intensive preparation for a specialized type of educational or professional responsibility with study in associated fields. The exact pattern of the program will be determined after consultation with the advisor. The student should check with the program area for specific course requirements.

The specific requirements of each program are tailored to provide excellence of preparation in the field of practice.

Learning Experience Design and Technology

The Master of Science Program in Learning Experience Design and Technology prepares graduate students to be leaders in the field of learning design and technology in this digital age. They will play various roles (e.g., instructional designers, instructional design consultants, learning experience designers, educational technologists/coaches, curriculum developers, and trainers) in various contexts, such as K-12 schools, higher education institutions, business, industry, healthcare, government, and military.

- Learning Experience Design and Technology, Master of Science (p. 1109)

Professional Counseling

The Professional Counseling Program offers a CACREP-accredited 60-credit hour clinical professional counseling track that meets the state of Oklahoma LPC requirements. A 15-hour Drug and Alcohol counseling certificate and a 15-hour School Counseling certificate can be pursued independently or serve as a concentration in the Clinical Professional Counseling Program. The primary training goals are to facilitate student integration of counseling theory, research and practice, to cultivate an understanding of the mutual influences of practice and science, and to foster the development and appreciation of holistic counseling skills.

- Clinical Professional Counseling, Master of Education (p. 1108)

Science of Psychology, Data, and Research in Education

The Science of Psychology, Data, and Research in Education program bridges the fields of educational psychology, research design, and data analytics. We seek to introduce students to cutting edge theoretical

and methodological frameworks to make an impact in a wide array of educational contexts. The program prepares students for a range of careers that may include higher education faculty and/or administration, program evaluation and psychological test development, and research design and data analysis within educational or business settings. Students in the program learn about cognition and motivation, the psychology of learning, quantitative and qualitative research methodologies, and measurement and assessment.

- Science of Psychology, Data, and Research in Education, Master of Science (p. 1110)

Special Education

The Special Education, Master of Education program is designed to prepare master educators to meet the needs of individuals with disabilities in schools and other natural environments. It is possible to complete special education teacher certification requirements while working towards the M.Ed. degree. Graduates of the program typically assume positions as teachers or administrators of programs serving individuals with disabilities. Students have the opportunity to work closely with nationally recognized faculty and develop a support network of professional colleagues as they become master educators.

- Special Education, Master of Education (p. 1110)

Graduate Certificates

- Applications of Educational Research and Evaluation (p. 1111)
- Applied Behavior Analysis (p. 1112)
- Drug & Alcohol Counseling (p. 1112)
- Fundamentals of Special Education (p. 1112)
- Learning Design and Technology (p. 1113)
- Secondary Transition Education Specialist (p. 1113)
- School Counseling (p. 1113)

Doctoral Programs

Educational Psychology Doctoral Programs are designed for present and prospective administrative, service and faculty positions in colleges and universities, public schools, and other education and training agencies in government and the private sector. Doctoral programs exist in the areas of Learning Experience Design and Technology (p. 1114), Science of Psychology, Data, and Research in Education (p. 1114), and Special Education (p. 1115).

Admission to doctoral study in the department requires a minimum 3.25 grade point average on all graduate work attempted. Applicants present Graduate Record Examination general test scores (Verbal, Quantitative, and Analytic), which is optional for some programs and are used along with other data as a basis for admission. Programs may impose admission requirements in addition to those set by the Graduate College and the department. The program area coordinator should be consulted for special program application requirements, and for annual admission application deadlines. A TOEFL of 550 or better is required for international students.

An advisory committee will be appointed by the graduate dean upon recommendation from the student's area and the department chair and/or graduate studies committee in consultation with the student. The advisory committee will consist of a chairperson from the student's major field, at least one faculty representative outside the Department of Educational Psychology and other members to total at least four. The Graduate College Representative should be a regular graduate faculty

member at the University of Oklahoma Norman campus. The advisory conference will determine the program of study that must be completed to qualify for the degree.

Upon completion of the majority of required coursework (exclusive of dissertation), the student must complete the General Examination. Prior to attempting the General Examination, a student must demonstrate proficiency in research methods. For more detailed descriptions of research proficiency procedures, contact the graduate liaison in the department. The student must also meet all relevant requirements of the Graduate College, as well as those of the student's individual program area.

The candidate is expected to complete all degree requirements within five years after the General Examinations. Failure to accomplish this may require the candidate to retake the General Examination.

Prospective students are encouraged to consult the Department of Educational Psychology *Graduate Student Handbook* for information about program availability, and college and departmental requirements. In addition, the section of the *Graduate Bulletin*, which describes the procedures and requirements for graduate study at the University, should be reviewed and kept as a reference.

Courses

EDPC G4413 Introduction to Counseling 3 Credit Hours

Prerequisite: Senior standing or permission of instructor; Majors only. Topics covered include development of the counseling and guidance profession, various approaches and techniques employed in counseling, the work of the counselor in various settings, and an introduction to basic theoretical and philosophical positions in counseling and guidance. (F, Sp)

EDPC 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

EDPC 5113 Human Development 3 Credit Hours

Prerequisite: Admission to Professional Counseling M.Ed. program or permission of instructor. An introductory survey of current theory and research as it applies to human development across the lifespan. Emphases include cognitive and language development, self and social development, and contextual influences on development. Particular focus will be on human development as related to counseling. (F)

EDPC 5253 Assessment in Counseling 3 Credit Hours

Prerequisite: admission to Professional Counseling, M.Ed. program or permission of instructor. Theories of personality and intelligence testing will be discussed. Students will gain knowledge and experience in administering, scoring, and interpreting personality tests and in interpreting intelligence tests with an emphasis on the Wechsler scales. (F)

EDPC 5263 Professional Issues and Ethics in Counseling 3 Credit Hours

Prerequisite: Must be admitted to masters program in Professional Counseling. This course introduces graduate students in counseling to professional, legal and ethical issues in professional counseling. The course reviews literature and covers topics pertaining to counseling, supervision, teaching, and research, with special focus on areas that are most important and most current in the field. (Sp)

EDPC 5413 Occupational Information--Career Development 3 Credit Hours

Prerequisite: admission to Professional Counseling, M.Ed. program or Counseling Psychology, Ph.D. program, or permission of instructor. Methods of preparing informational files for student use; nature of educational and occupational information, job classification, sources of information, and occupational surveys and trends. Theories of career development; techniques of job and occupational analysis; individual experiences of reporting client career development. (F)

EDPC 5423 Methods and Techniques of Counseling 3 Credit Hours

Prerequisite: admission to Professional Counseling, M.Ed. program or Counseling Psychology, Ph.D. program, or permission of instructor. Introduction to stages in the counseling process; interviewing skills; counseling objectives; appropriate strategies. Common theories of counseling and psychotherapy and ethical considerations are considered. (Su)

EDPC 5433 Theories and Techniques of Group Counseling 3 Credit Hours

Prerequisite: admission to Professional Counseling, M.Ed. program or Counseling Psychology, Ph.D. program. Introduction to types of groups, group development, group leadership, and group dynamics with an emphasis on counseling groups. Includes experiential training in group work. (Su)

EDPC 5443 Family Systems Theory 3 Credit Hours

Prerequisite: Admission to Professional Counseling M.Ed. program (M216). An introduction to family counseling and therapy as one of the approaches to dealing with interpersonal conflict. The focus of the course is to introduce a scientific paradigm for family systems and counseling and to use a competency-based approach to intervention that is consistent with current guidelines. Assessment approaches are also discussed. (F)

EDPC 5453 Social & Cultural Diversity 3 Credit Hours

Prerequisite: Admission to Professional Counseling M.Ed. program (M216). Focuses on increasing understanding of and sensitivity regarding cognitive aspects, discourses, political realities, and issues of awareness in various minority groups, including issues related to cultural values and spirituality. Methods for increasing multicultural communication and social justice research in counseling are discussed. (F)

EDPC 5473 Counseling Theories 3 Credit Hours

Prerequisite: admission to Professional Counseling, M.Ed. program or Counseling Psychology, Ph.D. program, or permission of instructor. Surveys prevalent counseling theories within the overarching categories of psychodynamic, humanistic, behavioral and cognitive-behavioral, and contextual and constructivist approaches. In addition, multicultural counseling competencies will be reviewed. Theories presented will be discussed in terms of counseling goals, central concepts and techniques, diversity applications, and research support. (F)

EDPC 5483 Diagnosis & Treatment in Counseling 3 Credit Hours

Prerequisite: EDPC 5423, 5473, 5263, and Majors only. Diagnostically oriented course in abnormal behavior stressing standard nosology exemplified by the Diagnostic and Statistical Manual of the American Psychiatric Association (DSM). (Sp)

EDPC 5493 Child and Adolescent Counseling 3 Credit Hours

Prerequisite: Graduate standing, admission to the Professional Counseling Program, EDPC 5423, EDPC 5473, and EDPC 5263. Child and Adolescent Counseling presents theories, techniques, and strategies for counseling children and adolescents and their families in both school and clinical settings. The course will explore counseling issues, special considerations, and counseling interventions related to this population. (Sp)

EDPC 5503 Introduction to Neurofeedback in Counseling 3 Credit Hours

Prerequisite: graduate standing; admission to Professional Counseling, M.Ed. program or permission of instructor. The course provides students with an introduction to the integration of neurofeedback into counseling practice and is designed to satisfy BCIA didactic requirements for neurofeedback certification. Neurofeedback is a form of biofeedback used to empower individuals to regulate their brainwave patterns. (F)

EDPC 5513 Introduction to Abuse and Addictions Theory and Treatment 3 Credit Hours

Prerequisite: Admission to Professional Counseling M.Ed. program or permission of instructor. An overview of various abuse and addiction theories, treatment and stages of change, including substance use disorders, gambling addictions and sex addictions. (Su)

EDPC 5523 Addictions and Family Theory 3 Credit Hours

Prerequisite: Admission to Professional Counseling M.Ed. program or permission of instructor. An overview of various addictions with emphasis on substance use disorders and their effect on individuals, families, and communities. The course will focus on prevention and treatment. (Sp)

EDPC 5533 Psychopharmacology/Neurobiology of Addiction 3 Credit Hours

Prerequisite: Admission to Professional Counseling M.Ed. program or permission of instructor. In this course, alcohol and drug dependency is explored through the study of brain chemistry and related causal factors and pathophysiological processes. The role of psychopharmacology is addressed as an agent frequently used in the management and resolution of withdrawal symptoms. (Sp)

EDPC 5543 Addictions Counseling: Theoretical Approaches and Co-Occurring Disorders 3 Credit Hours

Prerequisite: Admission to Professional Counseling M.Ed. program or permission of instructor. Examines major theoretical approaches to the treatment of substance abuse. Diagnosis of co-occurring disorders will also be addressed. (F)

EDPC 5553 Addictions in Family Counseling 3 Credit Hours

Prerequisite: Admission to Professional Counseling M.Ed. program or permission of instructor. Examines major Family Counseling Treatment approaches to substance abuse and addiction. Various assessment instruments will be examined and family dynamics will be studied. Multicultural issues will also be examined. (Sp)

EDPC 5623 Advanced Counseling Techniques 3 Credit Hours

Prerequisite: Admission to Professional Counseling M.Ed. program (M216). This course is for students with advanced standing in Professional Counseling with a focus on deepening understanding of counseling theory and honing applied therapeutic skill. It is designed to facilitate exploration of advanced counseling theory and technique, with an emphasis on applied procedures. (Sp)

- EDPC 5633 Counseling Supervision and Consultation 3 Credit Hours**
Prerequisite: Graduate standing and admission to Clinical Professional Counseling M.Ed. program. The purpose of this course is to begin to familiarize students in counseling with the research and applied literature on clinical supervision. The primary model examined is the developmental approach to supervision. Consultation will also be discussed. (Sp)
- EDPC 5643 Foundations of School Counseling 3 Credit Hours**
Prerequisite: Graduate standing and admission to the Professional Counseling program or School Counseling Certificate program. The role and functions of school counselors, including their work with students, teachers, administrators, and parents, as well as their complementary relationships with other student services personnel. (F)
- EDPC 5653 Crisis Counseling 3 Credit Hours**
Prerequisite: Admission to Professional Counseling M.Ed. program (M216) or permission of instructor. An overview of methods and techniques used in assessing and implementing effective interventions in crisis counseling settings. (Su)
- EDPC 5913 Practicum in Counseling--Master's 3 Credit Hours**
Prerequisite: Admission to Professional Counseling, M.Ed. program or Counseling Psychology, Ph.D. program. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (F, Sp)
- EDPC 5920 Optional Internship in Professional Counseling 1-3 Credit Hours**
1 to 3 hours. Prerequisite: Graduate standing, departmental permission, and admission to the Professional Counseling M.Ed. program. Optional counseling internship designed to allow students to make up hours required for completion of practicum and/or internship requirements during summer semester. Introduces student to the profession under supervision of a practitioner whose professional credentials are equal to those of members of the clinical professional counseling program faculty. (Irreg.)
- EDPC 5923 Internship in Professional Counseling 3 Credit Hours**
Prerequisite: Graduate standing and admission to the Professional Counseling M.Ed. program. May be repeated; maximum credit 6 hours. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDPC 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)
- EDPC 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDPC 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. Laboratory (F, Sp, Su)
- EDPC 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)
- EDPY 2960 Individual Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)
- EDPY 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- EDPY 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)
- EDPY 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EDPY 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- EDPY 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EDPY 4960 Directed Readings in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- EDPY 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

- EDPY 4980 Practicum in Educational Psychology 1-3 Credit Hours**
1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)
- EDPY 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- EDPY 5940 Field Studies in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- EDPY 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. Directed readings and/or literature reviews under the direction of a faculty member. (Irreg.)
- EDPY 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDPY 5980 Research for Master's Thesis 2-9 Credit Hours**
2 to 9 hours. Prerequisite: Graduate Standing. Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- EDPY 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- EDPY 6920 Internship in Education--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDPY 6930 Intensive Studies in Education 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)
- EDPY 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- EDPY 6970 Post-Master's Seminar 2-4 Credit Hours**
2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)
- EDPY 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. Maximum of 15 hours credit for the Ed.D. and 30 hours for the Ph.D. (F, Sp, Su)
- EDPY 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)
- EDSP 1115 American Sign Language I 5 Credit Hours**
Prerequisite: permission of the department. An Introduction to American Sign Language (ASL) which includes the development of receptive and expressive skills in authentic situations and an introduction to Deaf Culture. (F, Sp, Su) [I-FL].
- EDSP 1225 American Sign Language II 5 Credit Hours**
Prerequisite: EDSP 1115 and permission of the department. Continuation of American Sign Language (ASL) I. This course further develops receptive and expressive skills in ASL in authentic situations and expands the study of Deaf Culture. (F, Sp) [I-FL].
- EDSP 2113 American Sign Language III 3 Credit Hours**
Prerequisite: EDSP 1115, EDSP 1225, and permission of the department. Continuation of ASL II. This course emphasizes the receptive comprehension and expression of advanced ASL grammatical structures, and use of expanded knowledge of Deaf Cultural norms will be applied to engagement with the Deaf community. (F, Su) [I-FL].
- EDSP 3053 Understanding and Accommodating Exceptional Learners 3 Credit Hours**
Prerequisite: admission to Teacher Education program. Course provides foundation to legislation, policies and procedures for educating children/youth with exceptionalities. Course focuses on primary recipients of special education services, procedures for providing special education to children and youth w/educationally-related problems, understanding responsibilities associated with the implementation of special education programs and services, and emerging skills needed to ensure successful educational experiences for children/youth with exceptionalities. (F, Sp, Su)
- EDSP 3223 American Sign Language IV 3 Credit Hours**
Prerequisite: EDSP 1115, EDSP 1225, EDSP 2113, and permission of the department. Continuation of ASL III. The course emphasizes the receptive comprehension and expression of development with a more mature understanding of American Sign Language grammatical structures includes narratives and dialogues. Use of expanded knowledge of Deaf Cultural norms will be applied to engagement with the Deaf community. (Sp)

- EDSP 3960 Honors Reading 1-3 Credit Hours**
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)
- EDSP 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EDSP 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- EDSP 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EDSP 4013 Fundamental Academic Instructional Strategies 3 Credit Hours**
Prerequisite: EDSP 3053. Instructional strategies and effective techniques for teaching students with mild to moderate disabilities in a variety of general and special education settings. Class objectives target remediation and progression of skills focused around an academic curriculum for students with mild/moderate disabilities. (Sp)
- EDSP 4023 Assessment for Eligibility and Program Planning 3 Credit Hours**
Prerequisite: EDSP 3053 and EDSP 4013; corequisite: EDSP 4033. Study of assessment instruments, interpretation and use in eligibility, placement and program planning for individuals with mild to moderate disabilities. Competencies addressed include: response to intervention, pre-referral, student assistance teams, administration of curriculum-based assessment and adaptive behavior scales, interpreting functional assessment results into IEPs and individual case studies. (F)
- EDSP 4033 Intensifying Mathematics Interventions for Students with Disabilities 3 Credit Hours**
Prerequisite: EDSP 3053 and EDSP 4013; Special Education majors only. Students will apply research-aligned mathematics practices for students with disabilities. Topics include literature on why students with disabilities struggle to learn mathematics, the use of assessment data to inform instructional decision making, and research-aligned mathematical instructional practices for students identified with disabilities. (F)
- EDSP 4043 Classroom Management in Special Education 3 Credit Hours**
Prerequisite: EDSP 3053 and EDSP 4013 and EDSP 4023 and EDSP 4033; corequisite: EDSP 4053 and EDSP 4063 and EDSP 4072. Philosophical perspectives supported by management strategies based on sound theoretical foundations and best practice. Preservice educators develop a personal plan for creating a well-managed classroom, identifying and documenting behavior concerns and developing intervention plans that remediate difficulties and increase appropriate behavior in general and special education environments. (Sp)
- EDSP 4050 Internship in Special Education 6-10 Credit Hours**
6 to 10 hours. Prerequisite: EDSP 3053, EDSP 4013, EDSP 4023, EDSP 4033, EDSP 4043, EDSP 4053, EDSP 4063, EDSP 4072, EDSP 4083, EDSP 4093, EDSP 4103, EDSP 4112, and departmental permission; Corequisite: EDSP 4123. The internship experience is the culminating experience for our pre-service special education teachers. Students will apply content and pedagogical knowledge acquired throughout their undergraduate preparation program. Emphasis is placed on developing their competencies in: (a) professionalism; (b) preparing, implementing, and evaluating instruction; and (c) improving student engagement and the classroom environment. (F, Sp)
- EDSP 4053 Language, Literacy, and Communication Strategies 3 Credit Hours**
Prerequisite: EDSP 3053 and EDSP 4013 and EDSP 4023 and EDSP 4033; corequisite: EDSP 4043 and EDSP 4063 and EDSP 4072. Competencies developed include: understanding language and literacy development; 32 hours tutoring; formal/informal literacy assessments; implementation of guided reading lesson plans; data collection monitoring; phonics/decoding; literal/inferential/prediction comprehension; fluency and written expression; research to practice; development of learning strategies enhancing content and literacy. (Sp)
- EDSP 4063 Teaching Students with Significant Support and Educational Needs 3 Credit Hours**
Prerequisite: EDSP 3053 and EDSP 4013 and EDSP 4023 and EDSP 4033; corequisite: EDSP 4043 and EDSP 4053 and EDSP 4072. Examines how low-incidence physical and intellectual disabilities, including autism, traumatic brain injury, deafness, blindness, and other health impairments affect academic and job performance and outcomes. You will learn and demonstrate current research-based methods for teaching and training individuals with low-incidence disabilities. (Sp)
- EDSP 4072 Introductory Practicum in Special Education 2 Credit Hours**
Prerequisite: EDSP 3053 and EDSP 4013 and EDSP 4023 and EDSP 4033; corequisite: EDSP 4043 and EDSP 4053 and EDSP 4063. Two hundred hours of special education field placement with supervision by master public school teachers and OU professionals. Weekly seminars based on reflections, discussion of course assignments implemented at school sites, competencies such as IEPs ecological assessments, parent interviews, and development of original lesson plans with articulated accommodations and modification. (F, Sp)
- EDSP G4083 Individual Behavior Supports 3 Credit Hours**
Prerequisite: EDSP 3053 and EDSP 4013 and EDSP 4023 and EDSP 4033 and EDSP 4043 and EDSP 4053 and EDSP 4063 and EDSP 4072. Corequisite: EDSP 4093 and EDSP 4103 and EDSP 4112. Special techniques and materials used in the instruction and behavioral modification of students who have significant behavioral disorders. Content includes proactive classroom strategies, effective instruction, and planned behavior interventions. (F)
- EDSP 4093 Transition and Self-Determination 3 Credit Hours**
Prerequisite: EDSP 3053, EDSP 4013, EDSP 4023, EDSP 4033, EDSP 4043, EDSP 4053, EDSP 4063, EDSP 4072; corequisite: EDSP 4083, EDSP 4103, EDSP 4112. This course will cover transition education practices, including assessment, and transition planning, to facilitate educational, employment, and independent living post-school outcomes for students with disabilities. Federal and state laws and regulations governing transition practices will be covered along with best-practice methodology. Assessment, goal writing, transition planning, self-determination instruction, multi-cultural issues, interagency collaboration, resources, among other topics will be discussed to (F)

EDSP 4103 IEP Development and Family Advocacy 3 Credit Hours

Prerequisite: EDSP 3053, EDSP 4013, EIPT 3473; corequisite: EDSP 4033. In this course, students will extend their knowledge of the Individualized Education Program (IEP) process as outlined in federal legislation and case law. The course is designed to improve students' abilities developing compliant, high-quality IEPs by considering both legal and research evidence. In addition, the course will focus on how to build successful partnerships with families and strategies for improving (F)

EDSP 4112 Advanced Practicum in Special Education 2 Credit Hours

Prerequisite: EDSP 3053, EDSP 4013, EDSP 4023, EDSP 4033, EDSP 4043, EDSP 4053, EDSP 4063, EDSP 4072; corequisite: EDSP 4093, EDSP 4103. Two hundred hours of supervised field experience with instruction and behavior management provided to students with disabilities. Weekly seminars focus on self-evaluations and reflections on evidence-based practice, development, and implementation of curriculum unit with modifications and accommodations, and discrepancy analysis of past and current IEPs. (F, Sp)

EDSP 4121 Applied Research in Special Education 1 Credit Hour

Prerequisite: EDSP 3053, EDSP 4013, EDSP 4023, EDSP 4033, EDSP 4043, EDSP 4053, EDSP 4063, EDSP 4072, EDSP 4083, EDSP 4093, EDSP 4103, EDSP 4112. Corequisite: EDSP 4144 and EDSP 4134. Designed to enhance understanding of research related to the education of children and youth with disabilities. Students will demonstrate a comprehension of legal and ethical aspects of research in special education. Students will improve their ability to critically review research literature and conduct applied research projects. (F, Sp) [V].

EDSP 4123 Applied Research in Special Education 3 Credit Hours

Prerequisite: Prerequisites: EDSP 3053, EDSP 4013, EDSP 4023, EDSP 4033, EDSP 4043, EDSP 4053, EDSP 4063, EDSP 4072, EDSP 4083, EDSP 4093, EDSP 4103, and EDSP 4112; Corequisite: EDSP 4050. This course serves as a capstone experience, requiring students to apply their foundational knowledge of the field and their professional ethical principles to inform their special education practice. In their assigned field placements, students will develop their abilities to select, adapt, and use a repertoire of evidence-based instructional strategies to advance learning of individuals with exceptionalities. (F, Sp)

EDSP 4134 Internship in Special Education I - Elementary 4 Credit Hours

Prerequisite: EDSP 3053, EDSP 4013, EDSP 4023, EDSP 4033, EDSP 4043, EDSP 4053, EDSP 4063, EDSP 4072, EDSP 4083, EDSP 4093, EDSP 4103, EDSP 4112; corequisite: EDSP 4121, EDSP 4144. The Special Education Internship is designed to allow students to practice teaching under the supervision and guidance of master special educators and University clinical supervisors. Special education interns learn to apply the knowledge and skills they acquired throughout the program coursework and field experiences in an authentic, extended situation. (F, Sp) [V].

EDSP 4144 Internship in Special Education II - Secondary 4 Credit Hours

Prerequisite: EDSP 3053, EDSP 4013, EDSP 4023, EDSP 4033, EDSP 4043, EDSP 4053, EDSP 4063, EDSP 4072, EDSP 4083, EDSP 4093, EDSP 4103, EDSP 4112; corequisites: EDSP 4121, EDSP 4134. The Special Education Internship is designed to allow students to practice teaching under the supervision and guidance of master special educators and University clinical supervisors. Special education interns learn to apply the knowledge and skills they acquired throughout the program coursework and field experiences in an authentic, extended situation. (F, Sp) [V].

EDSP 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

EDSP 4980 Practicum in Special Education 1-3 Credit Hours

1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)

EDSP 4990 Special Problems in Education 1-4 Credit Hours

1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)

EDSP 5013 Evidence-Based Practices for Mathematics Instruction for Students with Disabilities 3 Credit Hours

Prerequisite: Graduate standing. The focus of this course is on translating evidence-based instructional practices related to mathematics instruction for students with mathematical disabilities into guidelines for instruction, intervention, and assessment. This course will cover assessment procedures, instructional procedures, curriculum and instruction alternatives, and program planning for the mathematical development of students with disabilities. (F)

EDSP 5063 Instructional Methods for Students with Significant Support Needs 3 Credit Hours

Prerequisite: Graduate standing. Examines how particular types of low-incidence disabilities, including intellectual disabilities, autism, physical disabilities, traumatic brain injury, deafness, blindness, multiple disabilities, and other health impairments, affect academic and job performance. Students will learn and demonstrate current methods for teaching and training individuals with low-incidence disabilities. (Sp)

EDSP 5093 Transition and Self-Determination 3 Credit Hours

Prerequisite: Graduate standing. Transition education practices including theory, assessments, planning processes, and instructional methods to facilitate positive postschool outcomes for individuals with disabilities. Laws and regulations governing transition practices are covered along with best practice methodology. Assessment, transition planning, self-determination instruction, multi-cultural issues, interagency collaboration, resources, etc., will be discussed to facilitate a successful transition for students into further education, employment, and independent (F)

EDSP 5143 Individual Behavior Planning in the Classroom 3 Credit Hours

Prerequisite: Graduate standing. This course will teach how to effectively manage challenging and severe behavior problems in the classroom using proactive classroom strategies, effective instruction, and planned behavioral interventions. This course examines applied behavior analysis (ABA) principles and techniques, including observational analysis, data-based instruction, and social validity to increase students' social and task-related behavior. (F)

EDSP 5163 Leadership & Advocacy in Special Education 3 Credit Hours

Prerequisite: Graduate standing in the College of Education. This course will provide students with a history of special education litigation and legislation. Students will gain a deep understanding of the Individuals with Disabilities Education Improvement Act, the major legislation governing the provision of special education services. Students learn about federal statutes and regulations concerning assessment and evaluation procedures, due process and mediation, discipline, and individual education plans (IEPs). (F, Su)

EDSP 5183 Advanced Assessment 3 Credit Hours

Prerequisite: Graduate standing. Focus will be on innovative approaches to assessment and education of students with mild to moderate learning and/or behavior problems. Techniques, methods, and materials will be presented within a career/ecological framework and will be research-based. (F, Sp)

EDSP 5193 Post-Secondary Education and Employment 3 Credit Hours

Prerequisite: graduate standing and EDSP 5093. Examines options for students with disabilities in terms of post-secondary education and post-secondary employment. Learning is focused on research-based best practices. (Sp)

EDSP 5213 Evidence-based Practices for Reading Instruction for Students with Disabilities 3 Credit Hours

Prerequisite: Graduate standing. This course focuses on translating evidence-based teaching methods related to literacy instruction for students with reading disabilities (e.g., dyslexia, language-based learning disabilities) into guidelines for instruction and intervention. The course will cover instructional procedures, curriculum and instruction alternatives, and program planning for the literacy development of students with reading and/or writing disabilities. (Sp)

EDSP 5243 Applied Behavior Analysis II 3 Credit Hours

Prerequisite: EDSP 5143. This course focuses on the basic principles, procedures and underlying philosophy of applied behavior analysis (ABA) (Sp)

EDSP 5293 Transition-Based Assessment 3 Credit Hours

Prerequisite: graduate standing and EDSP 5093. Presents the three-part transition assessment model and the means to enable students to answer long and short term questions to assist in developing good annual transition goals. (F)

EDSP 5313 Multi-Tiered Systems of Support 3 Credit Hours

Prerequisite: Graduate standing and EDSP 5413. This course will provide an overview of the historical, legal, and theoretical foundations of multi-tiered systems of support; review the research and evidence base of a multi-tiered system of support approach in academics and behavior; and explore the advances and controversies resulting in the proliferation of multi-tiered systems of support. (Sp)

EDSP 5343 Applied Behavior Analysis III 3 Credit Hours

Prerequisite: EDSP 5143 & EDSP 5243. This course focuses on the identification of factors that contribute to behavioral challenges and improved performance; and on procedures that minimize behavioral challenges, improve performance, teach new behaviors and increase probability of behaviors occurring under appropriate circumstances. (F)

EDSP 5393 Research and Practicum in Transition Education 3 Credit Hours

Prerequisite: Graduate standing, EDSP 5093, EDSP 5193, and EDSP 5293. Transition Practicum is part of the Transition Education course sequence. It is designed to work in conjunction with the first three courses in the sequence to solidify knowledge and skills in transition education. Foundation issues are interwoven into course expectations, including leadership, parent/professional partnerships, inclusion, multiculturalism, special education policies and procedures, and auxiliary service delivery. (Sp)

EDSP 5413 Characteristics & Methods in Teaching Students with Exceptionalities 3 Credit Hours

Prerequisite: Graduate standing and admission to a graduate program in the College of Education. The course provides foundation to legislation, policies and procedures for educating children/youth with exceptionalities. It focuses on primary recipients of special education services, procedures for providing special education to children and youth with educationally-related problems, understanding responsibilities associated with the implementation of special education programs and services, and emerging skills needed to ensure successful educational experiences for children/youth with exceptionalities. (F, Sp, Su)

EDSP 5443 Ethical & Professional Conduct of Behavior Analysts 3 Credit Hours

Prerequisite: EDSP 5143. This course will familiarize the student with ethical issues and responsibilities of special educators and behavior analysts. Informed consent, due process, protection of confidentiality, and selection of least intrusive and restrictive behavior change procedures will be discussed within the context of case method. Ethical decision-making processes and the relationship between ethics and law will be discussed. (Su)

EDSP 5603 Philosophical Assumptions of Behavior Analysis 3 Credit Hours

Prerequisite: Graduate standing. This course will provide fundamental knowledge and experiences for understanding Applied Behavior Analysis principles and techniques, including the dimensions of behavior analysis, the assumptions of science, and the philosophical foundations on which the science rests. Students learn the basis of methodological and radical behaviorism, Skinner's view on human behavior, and the philosophy behind the interventions making up behavior analytics principles. (F)

EDSP 5613 Principles and Concepts in Applied Behavior Analysis 3 Credit Hours

Prerequisite: Graduate standing and successful completion of EDSP 5603. This course, in combination with the other courses, will provide fundamental knowledge on the concepts and principles of ABA. This course is heavily based on understanding the definitions and seminal articles across a variety of fundamental concepts within ABA. Students learn the basis of respondent conditioning, verbal behavior, stimulus control, motivating operations, and the role of contingencies in behavior. (Sp)

EDSP 5623 Ethics in Applied Behavior Analysis 3 Credit Hours

Prerequisite: Graduate standing. This course will familiarize the student with ethical issues and responsibilities of special educators and behavior analysts by leading organizations in the fields of education and mental health. Informed consent, due process, protection of confidentiality, and selection of least intrusive, least restrictive behavior change procedures will be presented and discussed within the context of case method. (Su)

- EDSP 5633 Organizational Behavior Management 3 Credit Hours**
Prerequisite: Graduate standing in College of Education. This course is in a sequence of courses for the Applied Behavior Analysis Certificate Program at the University of Oklahoma. This course provides students with specific examples of effective supervision and how to create that experience when they oversee others. The course highlights behavior skills training and how to ensure they are upholding the ethical code across various supervisory relationships. (Su)
- EDSP 5643 Behavior Change in Applied Behavioral Analysis 3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor. Behavior Change is offered toward the middle of the ABA program and provides a place for students to learn specific interventions they can implement with clients whose behavior is maladaptive. Students will learn strategies that work across a multiple of issues from social skills and eloping to compliance and transitioning. (F)
- EDSP 5653 Behavior Assessment in Applied Behavioral Analysis 3 Credit Hours**
Prerequisite: Graduate standing and permission of instructor. This course's purpose is to take the information learned across the first set of courses and apply it to both private behavior and the behavior of others through behavior assessment. Students will engage in record reviews of both real and fictional clients. Using this information, behaviors will be selected, measured, and targeted for change using a variety of assessment tools. (Sp)
- EDSP 5910 Practicum in Education--Master's 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission of instructor and dean. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)
- EDSP 5920 Internship in Education--Master's 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDSP 5940 Field Studies in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- EDSP 5960 Directed Readings 4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)
- EDSP 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDSP 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- EDSP 5983 Directed Project in Special Education 3 Credit Hours**
Prerequisite: graduate standing and permission of instructor. Under the direct supervision of the student's adviser, the student conducts an applied project on a topic or challenge in special education related to the student's interest. (F, Sp, Su)
- EDSP 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- EDSP 6003 Critical Thinking in Special Education Research 3 Credit Hours**
Prerequisite: Graduate standing. This course provides a critical analysis of research methodologies used in special education. Emphasis is placed on developing student skills in asking and answering sound research questions as well as the analysis and critique of research articles. This course is specifically designed for developing critical thinking skills in special education research. (Irreg.)
- EDSP 6023 Single-Case Research Design 3 Credit Hours**
Prerequisite: Graduate standing in the College of Education and successful completion of EDSP 5143 and EDSP 5243, or permission of instructor. This course provides a critical analysis of single-case research methodologies. Emphasis is on developing skills in asking and answering sound research questions and designing investigations to answer such questions. The course also explores the development and implementation of single-case research designs. (Sp)
- EDSP 6113 Grant Writing 3 Credit Hours**
Prerequisites: Admission to the Graduate College and the Special Education doctoral program D855. This core course in the special education doctoral sequence will prepare students to write competitive funding proposals and will provide opportunities to prepare funding proposals. Focus will be upon federal personnel preparation, demonstration proposal preparation and grant administration for funded proposals. (Sp)
- EDSP 6123 Contemporary Issues/Research 3 Credit Hours**
Prerequisite: 5173, graduate standing, and permission of instructor. Examines critical issues influencing the field of special education and services for persons with disabilities. (Sp)
- EDSP 6203 Professional Seminar 1 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Designed for post-master's student who has been accepted into the Ph.D. program. Covers review and synthesis of a current research area, professional writing and dissemination. (F)
- EDSP 6503 Professional Seminar III, Systematic Literature Reviews 3 Credit Hours**
Prerequisite: Graduate standing and EDSP 6203. Systematic reviews have a rich history of informing research, teaching, and policy. This course provides a step-by-step approach to conducting systematic reviews. Emphasis will be placed on consulting published standards to identify essential components of the methodology that will increase the internal and external validity of the project. (Sp)

- EDSP 6523 Single Case Research Design II 3 Credit Hours**
Prerequisite: Graduate standing and EDSP 6023. Provides the foundation for students to conduct independent research using single case research design. Provides students with an understanding of salient features of multi-element and complex designs as well as advantages and disadvantages of these research methodologies. Explores responsible research and ethics, open science principles, advanced multi-element designs, randomization, non-parametric procedures, and randomization concepts. (Sp)
- EDSP 6910 Practicum in Education--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)
- EDSP 6920 Internship in Education--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: must be a student in the Special Education Ph.D. program. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDSP 6930 Intensive Studies in Education 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)
- EDSP 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- EDSP 6970 Post-Master's Seminar 2-4 Credit Hours**
2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)
- EDSP 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. Maximum of 15 hours credit for the Ed.D. and 30 hours for the Ph.D. (F, Sp, Su)
- EDSP 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)
- EIPT 2960 Individual Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)
- EIPT 3043 Learning with Educational Technologies 3 Credit Hours**
Prerequisite: EIPT 3473 or EDEC 3413; EDSP 3053 or concurrent enrollment. Designed to familiarize students with alternative instructional approaches using both cognitive and hardware technologies. Development of practical skills for using technology to solve instructional problems and accomplish educational goals. (F, Sp, Su)
- EIPT 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- EIPT 3473 Learning, Development, and Assessment for Teachers 3 Credit Hours**
Prerequisite: Admission to Teacher Education program. Classroom implications from the study of cognition, learning, and development are presented. Topics include various perspectives on human development and learning, factors influencing individual variations in cognition, and an introduction to the assessment of educational outcomes. (F, Sp, Su)
- EIPT 3483 Motivation and Classroom Management for Teachers 3 Credit Hours**
Prerequisite: EIPT 3473 or EDEC 3413; Admission to Teacher Education program. Classroom implications from the study of motivation and classroom management are presented. Topics include various perspectives on motivation processes in achievement settings and holistic approaches to classroom management. (F, Sp)
- EIPT 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)
- EIPT 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EIPT 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- EIPT 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

- EIPT 4960 Directed Readings in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- EIPT 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EIPT 4980 Practicum in Education 1-3 Credit Hours**
1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)
- EIPT 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- EIPT 5023 Analysis of Quantitative Data I 3 Credit Hours**
Prerequisite: graduate standing in the College of Education, or permission of instructor. A brief review of descriptive statistics, introduction to basic inferential statistics, and analysis of variance. Topics covered include data screening and cleaning, correlation, simple regression, oneway ANOVA, factorial ANOVA, analysis of covariance, repeated-measures designs, and nonparametric techniques. Focus is on computer-based data analysis, and substantive conceptualization and interpretation of results. (F, Su)
- EIPT 5033 Introduction to Research and Evaluation in Education 3 Credit Hours**
Prerequisite: graduate standing. An introduction to major methods of scholarship and research in education. The main goal of the class is to help students develop the knowledge and skills required for critical reading of research. (F, Su-Irreg.)
- EIPT 5113 Educational Psychology of Human Development 3 Credit Hours**
Prerequisite: graduate standing. An introductory survey of current theory and research as it applies to human development across the lifespan. Emphases include cognitive and language development, self and social development, and contextual influences on development. (Sp)
- EIPT 5183 Learning and Motivation 3 Credit Hours**
Prerequisite: Graduate standing. This course will examine our current understanding of various psychological phenomena and their relevance to teaching and learning in school or other educational settings. We will analyze, synthesize, and build upon current theories and research as we develop ways of understanding the processes involved in human learning, cognition, motivation, and emotion. (Irreg.)
- EIPT 5203 Assessment and Evaluation in Education and Counseling 3 Credit Hours**
Prerequisite: graduate standing. An introduction to basic concepts of assessment, measurement, and evaluation in education and counseling, with a focus on the study of concepts and instruments, procedures, methods, and techniques that may be used to assess knowledge, strengths, limitations, and behaviors. Students will study basic principles of measurement and statistics. Scaling metrics, reliability, and validity are emphasized. (F, Sp, Su)
- EIPT 5333 Introduction to Extended Reality (XR) for Education 3 Credit Hours**
Prerequisite: Graduate standing, EIPT 5533, EIPT 6143, and EIPT 6343, or permission of instructor. This course introduces students to extended reality (XR), which covers augmented reality (AR), virtual reality (VR), and mixed reality (MR). Students will acquire both conceptual understanding and hands-on experiences about XR for education and training, specifically involving learning analysis and design and XR apps creation, implementation, and evaluation. (Irreg.)
- EIPT 5513 Teaching with Technology 3 Credit Hours**
Prerequisite: graduate standing. Students will explore current technologies used in schools to assist learners of varying abilities succeed in educational settings. Relevant learning theory will be used to evaluate the ways in which technologies are being used with students. This course will assist students in meeting the ISTE National Educational Technology Standards for Teachers (NETS-T). (F)
- EIPT 5533 Foundations of Learning Sciences 3 Credit Hours**
(Crosslisted with LIS 5533) Prerequisite: Graduate standing or permission of instructor. Learning Sciences is an interdisciplinary approach to investigating, understanding, and supporting learning. It draws on diverse fields and methodologies. The goal of this class is to develop a critical orientation with regard to how we use them in integrated, meaningful, contextual, and ethical ways, in service to learners and society. (F)
- EIPT 5613 Classroom Management in the 21st Century 3 Credit Hours**
Prerequisite: graduate standing and departmental permission. Classroom management is one of the most important skills for the success of a teacher. It is based on a keen understanding of fundamental educational psychology concepts including motivation theory, child/teen development, and human learning. This course will guide students in the exploration of these topics. (Sp)
- EIPT 5683 Technology-Enhanced Problem-Based Learning 3 Credit Hours**
Prerequisite: graduate standing and departmental permission. The goal of this course is two-fold: (1) to develop collaborative problem-solving skills through problem-based or project-based learning using advanced learning technologies as tools; and (2) to design a collaborative problem-based /project-based learning environment supported with advanced learning technologies. Students in the course will learn important 21st century skills, including critical thinking, problem solving, communication, collaboration, self-regulation, and use of information and communication technology to support collaborative problem solving. (Sp)
- EIPT 5693 Critical Literacy 3 Credit Hours**
Prerequisite: Graduate standing. The impact and pervasiveness of media in its many forms - both in and out of formal education settings - requires development of critical awareness, discernment, and engagement by educators. This course explores the intersections of (a) media and its influences; (b) social and cross-cultural skills and perspectives; and (c) personal and pedagogical (and andragogical) responsibility. (Sp)

- EIPT 5703 Building Capacity for STEM 3 Credit Hours**
Prerequisite: graduate standing and departmental permission. Science Technology Engineering and Math is an area of great need of development in the United States and the world. In this course students will explore the current status of STEM education and the STEM pipeline, the need for STEM development and current barriers that exist in education for all students from a variety of backgrounds that wish to pursue STEM careers. (Su)
- EIPT 5712 School and Community Relations 2 Credit Hours**
Prerequisite: graduate standing and departmental permission. The course is organized around concerns that are central to the development of a thoughtful and pragmatic community relations policy for the 21st century. Particular foci include: a) public confidence in American schools; b) leadership, development, and key mediation of school mission and capacity; c) communication with external and internal publics; d) collaboration with multiple stakeholders e) understanding the challenge and impact of high quality community relations. (Su)
- EIPT 5910 Practicum in Education--Master's 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission of instructor and dean. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)
- EIPT 5920 Internship in Education--Master's 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EIPT 5940 Field Studies in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education selected by the students and approved by the instructor. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- EIPT 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)
- EIPT 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EIPT 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- EIPT 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- EIPT 6023 Analysis of Quantitative Data II 3 Credit Hours**
Prerequisite: 5023. A continuation of 5023. Topics include power analysis, multiple linear regression, analysis of variance models, and an introduction to non-parametric statistics. (Sp)
- EIPT 6033 Research Methods in Education 3 Credit Hours**
Prerequisite: Graduate standing; and EIPT 6043 and EIPT 6063. The purpose of this course is to assist doctoral students in the process of designing research. This course covers fundamental assumptions of quantitative and qualitative research, various research designs, and the underlying logic of each design. Emphasis will be given to understanding and justifying why certain research designs are appropriate for certain research questions/hypotheses and map out students' own studies. (Sp)
- EIPT 6043 Qualitative Research Methods 3 Credit Hours**
Prerequisite: Graduate standing. Topics include qualitative research traditions, qualitative designs, data collection techniques, qualitative data analysis. Students design, conduct, and analyze their own qualitative study during the course. (F)
- EIPT 6063 Applied Multivariate Statistics in Educational Research 3 Credit Hours**
Prerequisite: 5023 and 6023, or equivalent. Covers selected multivariate techniques with an emphasis on detecting and correcting violations of assumptions, applications, and interpreting results from popular computer statistics packages. (Sp)
- EIPT 6073 Program Evaluation 3 Credit Hours**
Prerequisite: EIPT 5033, or an equivalent research course or instructor permission; one prior course in measurement or assessment is recommended. Designed to develop understanding and experience in systematically evaluating outcomes related to program goals and standards. Topics include: purposes and uses of evaluation; role of concepts and constructs; planning, standard setting, selecting methods, developing measures, analyzing and interpreting outcomes; reporting findings; ethics and organization; and utilization. (Sp)
- EIPT 6083 Qualitative Research Methods II 3 Credit Hours**
Prerequisite: EIPT 6043 or permission of instructor. Topics include qualitative research design, data analysis, data interpretation, theory building, and write-up. Students should have qualitative data ready to analyze before enrolling in the course. (Sp)
- EIPT 6101 Propaedeutic Seminar 1 Credit Hour**
Prerequisite: admission to Instructional Psychology and Technology doctoral program. Summarizes the history of the field of instructional psychology and technology and introduce research typical of field and specific to interests of program faculty. Also discusses expectations for scholarship in the program and field and how students meet those expectations. (F)
- EIPT 6103 History and Philosophy of Educational Psychology and Research 3 Credit Hours**
Prerequisite: Graduate standing. This course asks students to grapple with questions that will be foundational to their development as scholars in the field of education. Students will learn foundational theories of educational psychology and research. The course surveys the broad variety of philosophical and scholarly traditions in educational psychology theory and underlying educational research. (F)

- EIPT 6143 Instructional Development 3 Credit Hours**
Prerequisite: graduate standing. This course is designed to develop understanding and experience in systematically designing and developing instruction and instructional systems. Topics will include: task, context, and learner analysis, assessment design, principles of educational psychology, instructional design principles and strategies, development and production techniques, formative and summative evaluation methods, and flexibly adaptive approaches to implementation. (F)
- EIPT 6153 Motivation and Emotion in Education 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Survey and analysis of historically significant and current theories of motivation and emotion. This course examines basic and applied issues related to motivation and emotion from a general perspective as well as motivation to learn. (F)
- EIPT 6163 Instructional Design 3 Credit Hours**
Prerequisite: 6143. This course is designed to develop understanding and experience in systematically designing instruction, building on the principles, processes and skills of EIPT 6143. Topics will include: strategies of instruction for specific learning outcomes, formative and summative evaluation, learning assessment design, designing jobs aids and performance support systems, rapid application development and knowledge management. (Sp)
- EIPT 6173 Management of Instructional Technology Programs 3 Credit Hours**
Prerequisite: graduate standing. This course is designed to introduce the core principles of project management, and then develop understanding of how those principles and practices are subject to adaptation. topics include: defining the field, contexts and influences, strategic analysis, managing risk, managing people, managing time, managing budget and other resources, managing evaluation, problem-solving, and project reporting. (F)
- EIPT 6183 Cognition and Instruction 3 Credit Hours**
Prerequisite: graduate standing. Examines the contributions of cognitive psychology to issues of instruction. Surveys basic issues in cognition and examines applied issues in greater depth.(Sp)
- EIPT 6203 Instrument Development 3 Credit Hours**
Prerequisite: 5203 or permission of instructor. Students in this course will have the opportunity to design items for assessments, collect data, and develop them into items that will produce reliable and valid scores. Measures and procedures in affective (e.g., Likert-type, semantic differential) and cognitive (e.g., true/false, multiple choice) instrument development will be covered. Topics including scaling techniques, methods of obtaining score reliability, use of human participants, manuscript preparation, and current methodological advances will be discussed. (F)
- EIPT 6223 Mixed-Methods Research 3 Credit Hours**
Prerequisite: EIPT 5023 and EIPT 6043, or equivalent courses approved by instructor. Topics include history, assumptions, and benefits of mixed-methods research along with practical implications such as design, implementation, and write-up of mixed-methods research. Students will design and write their own mixed-methods study during the course. (Sp)
- EIPT 6233 Educational Design-based Research 3 Credit Hours**
Prerequisite: Prerequisite: Graduate standing; EIPT 6143, EIPT 6343, and EIPT 5033 (or other research equivalent course with permission of instructor). Introduces educational design-based research (EDR) as an alternative research method and tool to address rigor, validity, and practicality for educational research. Students develop understanding of EDR concepts, models, and procedures, and additional specific skills for developing assessment tools and evaluation plans and conducting EDR research. (Sp)
- EIPT 6313 Multimedia Design and Development for Learning 3 Credit Hours**
Prerequisite: graduate standing. Students will go through multiple phases of instructional design to develop computer-based, interactive programs while developing their multimedia authoring skills. They will gain hands-on multimedia design experience by working on a real-world instructional project using advanced technologies. (F)
- EIPT 6323 Game-based learning: Design, Development, and Integration 3 Credit Hours**
Prerequisite: Graduate standing, EIPT 5533, EIPT 6143, and EIPT 6343, or permission of instructor. This course introduces digital game-based learning and its underlying theories and concepts, and engages students in hands-on projects of designing, developing, implementing, evaluating, and researching digital games for education. Issues related to identity development, social justice, equity and inclusiveness will be explored in game-based learning. (Irreg.)
- EIPT 6343 Design of Learning Environments 3 Credit Hours**
Prerequisite: Graduate standing; EIPT 5533 and EIPT 6523, or permission of instructor. Examines cognitive and theoretical foundations underlying various instructional design theories and models for designing and developing effective learning environments to support various types of learning outcomes. Various pedagogical models, approaches, and scaffolding tools will be explored and applied in a real-world design and development project. (Sp)
- EIPT 6423 Digital Audio & Video for Learning & Instruction 3 Credit Hours**
Prerequisite: Graduate standing, EIPT 5533, EIPT 6143, and EIPT 6523, or permission of instructor. Designed to prepare students with theoretical understanding and practical skills for creating audio and video for learning and instruction purposes, including processes related to recording, editing, and disseminating, such as for podcasting and videocasting. (Irreg.)
- EIPT 6433 Theories, Pedagogy, and Tools for Online Learning 3 Credit Hours**
Prerequisite: graduate standing. Focuses on theoretical understandings of building virtual learning communities; pedagogies for engaging learners in social, cognitive and reflective processes; and advanced technologies for mediating learning and enhancing online collaboration. (Sp)
- EIPT 6503 Messaging & Layout for Learning 3 Credit Hours**
Prerequisite: Graduate standing, EIPT 5533, EIPT 6143, and EIPT 6523, or permission of instructor. Design and development of prose-heavy learning materials for print and digital use, including considerations of message design, readability, organization, signaling and structure, effective use of graphics, and designing for accessibility and inclusion in both printed and digital forms. (Irreg.)

EIPT 6523 Visual Literacy and Digital Development for Learning 3 Credit Hours

Prerequisite: Graduate standing; EIPT 5533 or permission of instructor. The course is for teachers, instructional designers and developers, and other professionals to increase understanding of visual communication principles and theories, and to develop skills and abilities to produce visuals for instructional communication via a variety of digital media. Topics include visual communication, and development and manipulation of graphics, sound, animation, and video. (Sp)

EIPT 6533 Capstone - Development for Learning with Digital Technologies 3 Credit Hours

Prerequisite: Graduate standing, EIPT 5533, EIPT 6143, and EIPT 6523, or permission of instructor. Terminal and capstone course for Learning Design & Technology (LDT) Master's Program. Design-based development, evaluation and research of LDT products (e.g. digital instructional materials, scaffolding tools, tutoring systems) or technology-supported learning environments (e.g., games-based, mobile, augmented/virtual reality). (Sp)

EIPT 6613 Research Issues in Instructional Technology 3 Credit Hours

Prerequisite: doctoral standing. May be repeated with change of content; maximum credit 12 hours. Examine specified research issues in the field of Instructional Technology. Students will read and critique existing research, as well as identify directions for new and continuing research. (Irreg.)

EIPT 6713 Research Issues in Instructional Psychology 3 Credit Hours

Prerequisite: doctoral standing. May be repeated with change of content; maximum credit of 12 hours. Examine specified research issues in the field of instructional psychology. Students will read and critique existing research, as well as identify directions for new and continuing research. (Irreg.)

EIPT 6910 Practicum in Education--Doctoral 1-6 Credit Hours

1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)

EIPT 6920 Internship in Education--Doctoral 2-6 Credit Hours

1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)

EIPT 6930 Intensive Studies in Education 1-6 Credit Hours

1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)

EIPT 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

EIPT 6970 Post-Master's Seminar 2-4 Credit Hours

2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)

EIPT 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. Maximum of 15 hours credit for the Ed.D. and 30 hours for the Ph.D. (F, Sp, Su)

EIPT 6990 Individual Study in Education 1-4 Credit Hours

1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)

Overall GPA - Combined and OU: 2.75

Major GPA - Combined and OU: 2.75

Program Code: B855

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better. English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. Meet one of the six performance criteria listed by Oklahoma State Regents for Higher Education (OSRHE) that students may use to qualify for admission into an Oklahoma teacher education program. **Speak with your Education Advisor for more details.**

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to

Special Education, B.S.

Minimum Total Credit Hours: 124

Minimum Upper-Division Hours: 40

dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.

6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6-year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of **2.75** grade point average with no grade less than a **C** in the Professional Education and the Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators and apply for a license.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the University-Wide General Education Approved Course List. The General Education courses below meet minimum University, College and State General Education Requirements.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English and Communication (9 hours)</i>		
ENGL 1113	Principles of English Composition (Core I - EN1)	3
ENGL 1213	Principles of English Composition (Core I - EN2)	3
or EXPO 1213	Expository Writing	
COMM 1113	Principles of Communication (Core I)	3
or COMM 2613	Public Speaking	
<i>Language (0-10 hours)</i>		
University-Wide General Education Requirement: Choose two college-level courses in a single language; may be satisfied by successful completion of 2 years in a single language in high school (Core I)		0-10

Oklahoma State Regents for Higher Education Requirement: Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English OR demonstrate the knowledge and skills necessary to address the needs of Emergent Bilingual (English Learner) students in the P-12 classroom and are proficient in the strategies required for successful delivery of P-12 instruction in that area¹

Mathematics (12 hours)

Choose two MATH courses (Core I)	6
MATH 2213 Mathematical Systems	3
MATH 2223 Data Analysis and Geometric Systems	3

Core Area II: Natural Science (12 hours, including one laboratory course)

Choose one course in biological sciences (Core II): BIOL, HES, MBIO, or PBIO	3-5
Choose any 2000-level or higher science course	3-4
Choose one course in physical sciences (Core II): AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS	3-5

Core Area III: Social Science (6 hours)

P SC 1113 American Federal Government (Core III - PSC)	3
PSY 1113 Elements of Psychology (Core III - SS)	3

Core Area IV: Arts and Humanities (12 hours)

HIST 1483 United States to 1865 (Core IV - HIST) or HIST 1493 United States, 1865 to the Present	3
GEOG 1103 Human Geography (Western Culture Core IV - WC) or GEOG 2603 World Regional Geography	3
Artistic Forms: Choose one ENGL 2000-level or higher (Core IV-AF)	3
World Culture: Choose one course from the University-Wide General Education Approved Course List (3000-level or above) and advisor approved (Core IV - WDC)	3

Core Area V: First Year Experience (3 hours)

Choose one course (Core V - FYE)	3
----------------------------------	---

Electives (1 hour)

Additional elective hours may be required to meet the 55 Liberal Arts hours required to graduate	1
--	---

Total Credit Hours **55-65**

¹ The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language. Courses that demonstrate knowledge and skills necessary to address the needs of Emergent Bilingual students are determined by the College of Education.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching

Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by May 1 for fall graduation, December 1 for spring graduation, and March 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Clinical Professional Counseling Graduate Elective Courses

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Applications of Educational Research and Evaluation, Graduate Certificate

Minimum Total Hours: 12

Program Code: G018

The Applications of Educational Research and Evaluation Graduate Certificate provides a strong foundation in the techniques for conducting program evaluations using educational research, and offers a series of high quality online courses.

Certificate Requirements

Code	Title	Credit Hours
EIPT 5033	Introduction to Research and Evaluation in Education	3
EIPT 5023	Analysis of Quantitative Data I	3
EIPT 5203	Assessment and Evaluation in Education and Counseling	3
EIPT 6073	Program Evaluation	3
Total Credit Hours		12

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.

- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Applied Behavior Analysis, Graduate Certificate

Minimum Total Hours: 21

Program Code: G019

The Applied Behavior Analysis Graduate Certificate provides students with a comprehensive set of skills that integrates theory and ethical practices of applied behavior analysis.

Certificate Requirements

Code	Title	Credit Hours
EDSP 5603	Philosophical Assumptions of Behavior Analysis	3
EDSP 5613	Principles and Concepts in Applied Behavior Analysis	3
EDSP 5623	Ethics in Applied Behavior Analysis	3
EDSP 5633	Organizational Behavior Management	3
EDSP 5643	Behavior Change in Applied Behavioral Analysis	3
EDSP 5653	Behavior Assessment in Applied Behavioral Analysis	3
EDSP 6023	Single-Case Research Design	3
Total Credit Hours		21

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Drug and Alcohol Counseling, Graduate Certificate

Minimum Total Hours: 15

Program Code: G034

The embedded certificate in Drug & Alcohol Counseling requires 15 hours which are specific to drug and alcohol counseling that meet or exceed all requirements for licensure in the state of Oklahoma. This is not a standalone certificate- it provides a transcribed credential for students who wish to pursue licensure as drug and alcohol counselors in the state of Oklahoma.

Certificate Requirements

Code	Title	Credit Hours
EDPC 5513	Introduction to Abuse and Addictions Theory and Treatment	3
EDPC 5523	Addictions and Family Theory	3
EDPC 5533	Psychopharmacology/Neurobiology of Addiction	3
EDPC 5543	Addictions Counseling: Theoretical Approaches and Co-Occurring Disorders	3
EDPC 5553	Addictions in Family Counseling	3
Total Credit Hours		15

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Fundamentals of Special Education, Graduate Certificate

Minimum Total Hours: 18

Program Code: G041

The curriculum for this embedded certificate consists of six (6) graduate courses that are the most necessary and fundamental courses for persons who are interested in teaching individuals with disabilities but have not received their undergraduate degree or master's degree in Special Education.

Certificate Requirements

Code	Title	Credit Hours
EDSP 5413	Characteristics & Methods in Teaching Students with Exceptionalities	3
EDSP 5143	Individual Behavior Planning in the Classroom	3
EDSP 5183	Advanced Assessment	3
EDSP 5163	Leadership & Advocacy in Special Education	3
Choose two courses from the following:		6
EDSP 5013	Evidence-Based Practices for Mathematics Instruction for Students with Disabilities	
EDSP 5093	Transition and Self-Determination	
EDSP 5213	Evidence-based Practices for Reading Instruction for Students with Disabilities	
Total Credit Hours		18

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Learning Design and Technology, Graduate Certificate

Minimum Total Hours: 18

Program Code: G567

Certificate Requirements

This combination of courses and experiences provides learners with the expertise, and evidence of that expertise, to be highly competitive for jobs related to Instructional Design, Learning Design and Technology, Instructional Consulting, and Instructional Development.

Code	Title	Credit Hours
EIPT 5183	Learning and Motivation	3

EIPT 6523	Visual Literacy and Digital Development for Learning	3
EIPT 6533	Capstone - Development for Learning with Digital Technologies	3
Total Credit Hours		18

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

School Counseling, Graduate Certificate

Minimum Total Hours: 15

Program Code: G098

The curriculum for this embedded certificate includes a sequence of five (5) graduate courses that are part of the concentration in School Counseling within the Master’s program in Professional Counseling. The certificate provides a transcribed credential for students who wish

to pursue alternative certification as school counselors in the state of Oklahoma.

Certificate Requirements

Code	Title	Credit Hours
EDPC 5513	Introduction to Abuse and Addictions Theory and Treatment	3
EDSP 5413	Characteristics & Methods in Teaching Students with Exceptionalities	3

Dissertation

EIPT 6980	Research for Doctoral Dissertation	9
-----------	------------------------------------	---

Total Credit Hours 90

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be S/U-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: <http://www.ou.edu/gradcollege/forms/bulletin>

General Information

The ILAC mission is to prepare teachers and other professionals for leadership roles in education-related settings; to engage in critical inquiry through professionally recognized research and scholarship; to support and promote access, opportunity, social justice and service; and to provide leadership to the profession and society.

Department Goals

- Interrelate teaching, research and service.
- Model reflective practice through our own teaching, research, service and advocacy.
- Facilitate OU students' learning and professional development at the initial and advanced program levels.
- Help OU students discern among multiple modes of educational practice, formulate their own philosophical orientations based on scholarly inquiry, and enact approaches consistent with these philosophical perspectives.
- Promote coherent, dynamic, robust programs with collaborative university and community partners.
- Foster programmatic, departmental, college, and university coherence.
- Develop, pursue, and sustain clear, dynamic, and programmatic lines of scholarly inquiry.
- Produce and disseminate scholarly artifacts through critical inquiry that meet rigorous standards of quality in relevant fields.
- Share knowledge and expertise at the international, national, regional, state and local levels of professional organizations and other constituencies.
- Support, develop, and retain faculty through a collaborative departmental environment..
- Advocate for diversity and social justice within our programs, profession, and society.

Programs & Facilities

Oklahoma Writing Project (OWP)

The Oklahoma Writing Project has provided the best in professional development for tens of thousands of teachers from all corners of Oklahoma for over 40 years. OWP works to help teachers become better writers and better teachers of writing. OWP works to improve writing, thinking and creativity for all learners. The goals of the OWP are to improve student achievement by improving the teaching of writing and improving learning in the Oklahoma Schools, to help every

teacher of writing realize they can be a writer, to provide professional development for teachers to enhance writing instruction, to network Oklahoma teachers for collaboration of best teaching strategies and how to implement them, to help teachers strengthen leadership skills to build leaders in local schools/districts, and to share current research strategies and practices impacting Oklahoma classrooms.

The Early Childhood Education Institute (ECEI)

The ECEI, which is located on the Tulsa campus, is an applied research group focused on young children, birth to age 8, their families, and early care and education providers and group settings, such as Early Head Start, etc. The ECEI's mission is to advance and support early childhood programming and policy through research, evaluation, and outreach. Since its inception in 2006, the ECEI has conducted a variety of program evaluation projects, worked with many state and national partners, and impacted policy and programming decisions. For example, the ECEI has served as evaluation partners with Tulsa Educare and CAP-Tulsa providing data to help inform their programming for young children birth through age 5. In addition, the ECEI has launched independent research aligned with the Institute's vision and mission. The recently launched a Supporting Effective Educator Development (SEED) study, in collaboration with colleagues from Georgetown and Harvard, seeks to document factors that make children successful or not as they progress from preschool to grade 3.

John W. Renner Science Education Center

The John W. Renner Science Education Center conducts research in the teaching and learning of science; provides instruction in the latest techniques and materials in the teaching of science in kindergarten, elementary, middle, and secondary schools; and assists state agencies in the introduction of science into the classrooms of the public schools. The center also has participated in national curriculum studies. For the undergraduate student in the College, the Science Education Center makes possible an approach to learning in which teacher and students participate in discovery. The center has been responsible for leadership in science education and for providing future teachers with a strong science background for the profession.

Institute of Child Development

The National Academy of Early Childhood Programs accredits the Institute of Child Development, which serves approximately 50 children from the Norman and University communities. The OU Institute of Child Development was the first group of licensed childcare facilities in the United States to be accredited. Working with children from 2-5 years old, the Institute meets a variety of strict standards, including providing activities appropriate for preschool children, having an adequate student-staff ratio, meeting stringent health and safety standards, and providing opportunities for parental involvement. Undergraduate teacher candidates in the Early Childhood program complete a practicum at the Institute, and teachers at the Institute also teach courses in the Early Childhood program.

Undergraduate Study

Bachelor of Education

Early Childhood Birth through Third Grade: Tulsa Campus

The Early Childhood: Birth through Third Grade (p. 1143) Bachelor of Education program prepares students to teach children through the third grade. In addition, students participating in the program on the OU-Tulsa Campus will have a particular focus on working with very young children (birth to age 8) and their families, in a variety of settings.

Bachelor of Science, in Education

Early Childhood Education: Norman Campus

The Early Childhood Education program on the Norman campus prepares students to teach children through the third grade. Students who are passionate about working with children in a preschool or elementary setting will find the University of Oklahoma College of Education's nationally recognized Early Childhood Education (p. 1140) program to be a mixture of hands-on experience and solid theoretical education.

Elementary Education

The Elementary Education (p. 1149) program is truly a hands-on experience for students. As soon as students are fully admitted to their major within the college, they begin spending time in classrooms. This real-world education is coupled with what students learn in the classroom. The curriculum focuses on first grade through sixth grade (and possibly up to eighth grade) in social studies, science, language arts and math. Students study areas such as educational psychology, child development, pedagogy and teaching methodology.

Language Arts Education

Students who are passionate about teaching literature, writing and speaking will find the nationally recognized Language Arts Education (p. 1152) program a stimulating blend of English literature and writing courses and diverse hands-on classroom experiences.

Mathematics Education

The Mathematics Education (p. 1155) program offers its students excellent preparation for this responsibility with in-class education and hands-on opportunities. Mathematics teachers help to educate our doctors, engineers, scientists and business leaders in basic skills required to do their jobs every day.

Science Education

The Science Education program includes teaching certification options that give students who wish to teach secondary school science a solid foundation in the natural sciences and proven pedagogy. After students complete a rigorous study of science content related to their certification field of study, they thoroughly investigate sound, successful, theory-based pedagogical coursework in the John W. Renner Science Education Center. At the completion of their degree program, students are highly qualified for science teaching positions at the secondary level.

- Science Education: Biological Sciences (p. 1158)
- Science Education: Chemistry (p. 1162)
- Science Education: Earth Science (p. 1165)
- Science Education: Physical Science (p. 1168)
- Science Education: Physics (p. 1171)

Social Studies Education

The Social Studies Education (p. 1175) program prepares students to teach a variety of social sciences areas, including economics, history, geography and government, and help their students to become responsible citizens.

World Language Education

Students who love languages and have a desire to teach will find the World Language Education program to be strong mixture of in-class education and hands-on experiences. Students take courses in grammar, conversation, composition, reading, culture, civilization, literature, history of the language, second language acquisition theory and methodology. To become experts in the language and culture, students are strongly

encouraged to participate in one of the many Study Abroad opportunities at the University of Oklahoma.

- World Language Education, French (p. 1178)
- World Language Education, German (p. 1181)
- World Language Education, Latin (p. 1184)
- World Language Education, Spanish (p. 1187)

Graduate Study

Admission

Admission to master's degree programs in Instructional Leadership and Academic Curriculum requires a minimum overall grade point average of 3.00 in undergraduate coursework. Applicants with grade point averages below 3.0 may apply for conditional admission. The master's degree includes intensive preparation in an area of specialization and the completion of six hours in research. Students who are not currently certified to teach may want to fulfill certification requirements as part of the program. Students seeking to combine certification with a master's degree should consult with the faculty advisor.

Master of Education

Early Childhood Education

The Early Childhood Education program increases the depth and breadth of understanding of developmental theory, curriculum, and instructional methodology for educating and caring for children from birth to age eight. Students explore current research and issues in the field.

Elementary Education

The Elementary Education program provides advanced professional education and specialized academic work designed to enhance the professional competence of teachers in grades PK-8.

English/Language Arts Education

The English Education program advances student understanding of English through teaching, curriculum, and research in literacy, language, composition, and literature.

Instructional Leadership

The Instructional Leadership program increases understanding of the multi-disciplinary nature of the field, including inter- and cross-disciplinary studies within and outside the department.

Mathematics Education

The Mathematics Education program promotes professional and scholarly growth in students' understanding of mathematics learning and pedagogy from theoretical, research, and practical orientations, as well as provide leadership for the community of mathematics educators.

Reading Education

The Reading Education program fosters students' understanding of current theory and research in literacy learning, teaching, and curriculum, from birth through post-secondary education. Students may also wish to obtain a reading specialist certification in conjunction with the master's degree. Please see the Reading Specialist Certification description below.

Science Education

Central to the Science Education program is the development of professionalism, scholarship, and leadership in pedagogy and science content. Students explore teaching and learning at all school levels and in diverse environments.

Secondary Education

The Secondary Education program provides advanced professional education and specialized academic work designed to enhance the professional competence level of teachers in secondary schools.

Social Studies Education

The Social Studies Education program advances student understanding in social studies teaching and content in elementary and secondary education.

Teacher Education

The Teacher Education program is designed for students interested in the broad field of teach education, as well as in graduate-level pursuit of teaching certification.

World Languages Education

With its flexible structure, the World Languages Education program serves:

1. certified teachers of world languages who wish to enrich their knowledge of research, theory, and best practice;
2. students with a demonstrated competency (such as a bachelor's degree or native fluency) in a language who wish to pursue a master's degree and teaching certification;
3. students seeking to become teachers of English as a Foreign Language (EFL) in international settings; and
4. teachers seeking to build expertise in instructing English Language Learners (ELLs) in American classrooms

Reading Specialist

The Reading Specialist program prepares candidates to serve in the roles of reading specialists, literacy interventionists, or literacy coaches in K-12 schools, colleges, and universities. The program also welcomes in-service and pre-service teachers who want to remain in the classroom but who wish to gain greater knowledge and understanding in developing engaged, strategic readers and writers.

Master of Arts

Integrated Childhood Well-Being

The Integrated Childhood Well-Being Master of Arts (p. 1200), offered at OU's Tulsa Campus, focuses on the four domains that children need most to thrive: (1) Economic Well-Being, (2) Education, (3) Health and (4) Family and Community.

Graduate Certificates

Graduate Certificate in Literacy Specialist

The embedded graduate certificate for Literacy Specialist consists of 18 hours, and contains the core courses of the nationally recognized and accredited Reading Specialist program (Master's of Education, Instructional Leadership and Academic Curriculum, Reading Education concentration). Our specialized professional association, the International Literacy Association, requires that candidates meet the following standards: Foundational Knowledge, Curriculum and Instruction, Assessment and Evaluation, Diversity, Literate Environment, and Professional Learning and Leadership. The courses included in the certificate are all required courses in the master's degree that leads to a recommendation for state certification as a Reading Specialist and have assignments that are used to assess mastery of the standards.

Doctoral Programs

ILAC Doctoral Programs prepare students for faculty positions in colleges and universities; positions in curriculum, instruction, and

assessment in schools; and for jobs in research and curriculum design in public or private institutions. The program requires the completion of a professional core, a minimum of 12 hours of research, and concentrated study in an area of specialization.

Admission to doctoral study requires a minimum 3.25 grade point average on previous graduate work. To apply, students should provide the following:

- a brief overview of experience,
- a statement describing interest in a particular concentration and career objectives,
- a sample of writing (perhaps a piece of published writing, an old research paper, or an abstract of the thesis),
- recent GRE scores (five years old or less), and
- three letters of reference.

For international students, a 79/550 TOEFL or 6.5 IELTS are the minimum acceptable scores for admission.

No minimum requirement for Graduate Record Examination general test scores (verbal, quantitative and analytic) has been established. Program faculty consider all parts of an application when making an admissions decision. A student may be accepted into a doctoral program only after the application is complete and the student has been accepted by the program area.

Faculty in ILAC are engaged in a variety of significant writing, research, and service projects, and often invite the participation of graduate students in these projects.

Courses

EDEC 2203 Creative Expression in Early Childhood 3 Credit Hours

Characteristics and processes of creativity as expressed by children from age two to eight are reviewed. Planning and production of materials that enhance creativity in self-expressive thought and play are emphasized. (Sp)

EDEC 2960 Individual Study 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)

EDEC 3211 Laboratory Placement I 1 Credit Hour

Prerequisite: admission to Teacher Education program; Corequisite: EDEC 3333. Designed to provide students with the opportunity to implement what they are learning in other courses as they interact with children in a classroom setting. Students will carry out assignments during this lab that have been assigned in EDEC 3333 as well as other specialization classes. (F)

EDEC 3221 Laboratory Placement II 1 Credit Hour

Prerequisite: admission to Teacher Education program; Corequisite: EDEC 3513 and EDEC 3233. Designed to provide students with the opportunity to implement what they are learning in other courses as they interact with children in a classroom setting. Students will carry out assignments during this lab that have been assigned in EDEC 3513 as well as other specialization classes. (Sp)

- EDEC 3233 Family Engagement in Early Childhood Education 3 Credit Hours**
Prerequisite: Admission into the ECE Norman/Tulsa Program; Junior Standing; EDEC 3333; corequisite: EDEC 3221, EDEC 3513, and EDLT 4123. Includes techniques for parent conferencing and referrals, planning and presenting effective parent education meetings, parent involvement in the classroom and experience in making home visits. Focuses on family needs when children are aged two to eight. (Sp)
- EDEC 3333 Social Emotional Learning and Child Guidance 3 Credit Hours**
Prerequisites: EDEC 3413; EDEC 2203; EDEC 3543. Teaching strategies to promote prosocial skills in young children. Principles and practices of positive child guidance and facilitating an effective classroom community. How to enhance children's social and emotional learning. (F)
- EDEC 3413 Early Childhood Development 3 Credit Hours**
Prerequisite: Admission to Early Childhood Teacher Preparation program. Social, physical and cognitive influences on behavior during the preschool years are described and explained. The developmental implications of changing from caregiver to peer relationships are examined. (Sp)
- EDEC 3513 Integrated Curriculum (Birth-5) 3 Credit Hours**
Prerequisite: junior standing and admission to OU Norman/Tulsa early childhood education program. Explores early childhood development domains (social, emotional, cognitive, language, fine motor, large motor, and creative development) and concepts associated with the subject areas of math, science, social studies, language, arts, music, and physical education. The course will focus on integrating the curriculum through teaching strategies, methods, and concepts that are appropriate learning experiences for young children, emphasizing ages birth through five years of age. (F Tulsa; Sp Norman)
- EDEC 3523 Field Experience with Seminar (Infants/Toddlers) 3 Credit Hours**
Prerequisite: Junior standing and admission to OU-Tulsa early childhood education program. This course will focus on connections between developmental theory and practice. Emphasis will be placed on planning developmentally appropriate environments for infant-toddler growth and learning. This course includes 45 hours of field experience and a seminar that meets 90 minutes each week. (Sp)
- EDEC 3533 Infant-Toddler Development and Care 3 Credit Hours**
Prerequisite: junior standing and admission to OU-Tulsa early childhood education program. Designed to provide the student with knowledge and understanding of the importance of the developmental processes that occur in infants from conception to their third birthday. Environmental influences on each of the important stages of development (prenatal, neonatal, young, mobile and older infancy) will be explored. Theories of development, philosophies of care, and techniques for the promotion of optimal physical, motor, cognitive and social-emotional development will be shared. Cultural difference in caregiving strategies will be examined as well as the importance of a mutual supportive partnership between parents and substitute caregivers in caring for children with and without special needs. (F)
- EDEC 3541 Field Placement I 1 Credit Hour**
Prerequisite: admission to teacher preparation program. Co-requisite: EDEC 3543. Birth - three field placement where students will observe and interact with children. (F)
- EDEC 3543 Teaching and Learning in Early Childhood Education 3 Credit Hours**
Prerequisite: admission to OU Norman/Tulsa early childhood education program. Includes theoretical and practical aspects of the four domains of development for children ages birth to age eight. A major focus will be on the theoretical dispositions of Piaget and Vygotsky and major topics of study will include: autonomy, play, children's thinking, peer interactions, and child guidance. (Sp)
- EDEC 3551 Theory & Practice in the ECE Setting 1 Credit Hour**
Prerequisite: Admission to OU Norman early childhood education program. This course will focus on connections between guidance, developmental theory, and practice. Students will have an opportunity to learn about and apply guidance practices in the early childhood classroom. Students will be mentored by master teachers at the Institute of Child Development. (F)
- EDEC 3553 Field Experience with Seminar (3-5s) 3 Credit Hours**
Prerequisite: Junior standing and admission to OU-Tulsa early childhood education program. Focuses on implementing the theoretical aspects of the development of the whole child focusing primarily on ages 3-5. Emphasis will be placed on planning developmentally appropriate teaching and learning. (F)
- EDEC 3563 Family and Community Connections 3 Credit Hours**
Prerequisite: junior standing and admission to OU-Tulsa early childhood education program. Focuses on the importance of family and community connections in the education and development of young children (0-8 years). Strategies for strengthening family and community connections in early childhood classrooms will be discussed including techniques for communicating effectively with families, promoting parent involvement, engaging community agencies and members, and making home visits. (Sp)
- EDEC 3573 Diverse Learners 3 Credit Hours**
Prerequisite: junior standing and admission to OU Norman/Tulsa early childhood education program. Focuses on strategies for providing individualized, inclusive, and developmentally appropriate instruction for children 0-8. Topics addressed include cultural diversity, teaching in contexts of poverty, individualizing instruction according to learning styles, supporting dual language learners, and modifying/adapting instruction and environments for children with special needs. (F Norman, Su Tulsa)
- EDEC 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)
- EDEC 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EDEC 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)

- EDEC 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EDEC 4123 Curriculum of Early Childhood Education 3 Credit Hours**
Prerequisite: EDEC 4513; Admission to the ECE Norman program and senior standing. Co-requisite: EDUC 4050. A comprehensive study of the scope of early childhood education with specific concern for curriculum foundation and organization. (Sp) [V].
- EDEC 4513 Integrated Curriculum (K-3) 3 Credit Hours**
Prerequisite: Admission to the OU Norman/Tulsa early childhood education program; EDEC 3513; senior standing. Explores concepts associated with the major subject areas of math, science, social studies, language arts, music, and physical education. Focus is placed on integrating the curriculum through teaching strategies, methods, and concepts that are appropriate learning experiences for young children, emphasizing grades K-3. (F)
- EDEC 4523 Field Experience with Seminar (K-3rd) 3 Credit Hours**
Prerequisite: Junior standing and admission to OU-Tulsa early childhood education program. Focuses on implementing the theoretical aspects of the development of the whole child focusing primarily on grades K-3. Emphasis will be placed on planning developmentally appropriate teaching and learning. (F)
- EDEC 4533 Assessment in Early Childhood Education 3 Credit Hours**
Prerequisite: Senior Standing and admission to the OU Norman/Tulsa early childhood education program. A survey of the multiple purposes and types of assessment in early childhood including classroom assessment, standardized child assessment, and program evaluation. Addresses consideration of the various forms of assessment, evaluation of assessment techniques, and examination of current trends and practices. An overview of common assessment tools and techniques used with young children birth through age 8 will be included. (F)
- EDEC 4543 Senior Seminar in Early Childhood Education (Capstone) 3 Credit Hours**
Prerequisite: Senior standing and admission to OU-Tulsa early childhood education program. Focuses on being a professional in the field of early childhood education. This includes dissecting what it means to be a leader, advocate, collaborator, researcher, mentor, and a life-long learner. (Sp)
- EDEC 4960 Directed Readings in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- EDEC 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDEC 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- EDEC 5233 Family Engagement in Education 3 Credit Hours**
Prerequisite: graduate standing. This course includes techniques of parent conferences and referrals, planning and presenting effective parent meetings, fostering parent involvement in the classroom, and experience in making home visits. The focus is on family needs of children aged two to eight years. (Irreg)
- EDEC 5333 Social and Emotional Learning 3 Credit Hours**
Prerequisite: graduate standing. This course is designed to address the social and emotional development of young children and how development influences learning. This course links theory and research to the preschool early learning environment. It includes materials on ways to foster social and emotional well-being and enhance creativity in children. Effective methods of discipline and a multiethnic approach to curriculum are emphasized. (Irreg)
- EDEC 5413 Early Childhood Development 3 Credit Hours**
Prerequisite: graduate standing. Social, emotional, physical and cognitive influences on development from prebirth to age eight are identified. Issues associated with child development are discussed. The role of the early childhood professional is defined and examined. (Irreg)
- EDEC 5533 Advanced Studies in Infant-Toddler Development 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. An exploration of issues related to infant-toddler development and learning, especially as it relates to care in settings such as childcare centers and family childcare homes. Topics include exploration of the contexts in which infants and toddlers develop, and the influences of the caregiving environment on children's physical, emotional, and cognitive development, with a focus on attachment and brain development. (Irreg.)
- EDEC 5573 Diverse Learners 3 Credit Hours**
Prerequisite: Graduate standing; admission into the Teacher Preparation Program. This course will study the needs of diverse children ages 0-8. Focus will be placed on strategies that provide for individualized inclusive and developmentally appropriate instruction, identifying historical and current factors of influence that characterize children's social environments, the roles of constructivist leadership, democratic ideals, and establishment of ethical environments essential in maximizing the individual potential of all children. (F)
- EDEC 5910 Practicum in Education--Master's 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission of instructor and dean. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)
- EDEC 5920 Internship in Education--Master's 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)

- EDEC 5940 Field Studies in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- EDEC 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)
- EDEC 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDEC 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- EDEC 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- EDEC 6033 Theory and Research in Early Childhood Education 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Designed to facilitate student's understanding of various theories relevant to early childhood education. In-depth analysis of various theories will be accompanied by examination of research guided by these theoretical perspectives. Discussion will include how these theoretical views and the research associated with them influences the field. (Irreg.)
- EDEC 6303 Parent Involvement and Parent Education 3 Credit Hours**
Prerequisite: graduate standing. This seminar explores current developments in parent involvement and parent education. Research on parent education programs and parent involvement will be discussed as well as the effects of each on children and families. Interventions designed for various populations of children and families are examined. (Irreg.)
- EDEC 6403 Advocacy and Leadership in Early Childhood Education 3 Credit Hours**
Prerequisite: graduate standing. Focuses on developing the skills and knowledge necessary to help individuals build coalitions and design effective public policy/advocacy initiatives. (Sp)
- EDEC 6433 Methods in Qualitative Research with Young Children 3 Credit Hours**
Prerequisite: graduate standing. The purpose of this course is to expand student's knowledge of qualitative methods in educational research, more specifically addressing the unique methods required when children are involved in the research process. The course has both a theoretical and applied focus. First, we examine how qualitative research is used in educational research. We will discuss qualitative methods as an interpretive inquiry focusing on topics such as the development and use of theory, kinds and interpretation of data, and issues of reliability. We will compare the different methods and methodologies used by researchers. Students will analyze and critique research articles using ideas and concepts discussed in the required texts and in class. Second, students will engage in a pilot study of their own in which they apply and experience qualitative research for themselves. Here students will develop a question, examine their own theoretical position, conduct a review of the literature, collect data, and produce a research paper. Together, these two approaches will introduce students to the main questions, concerns and goals of qualitative research. (Irreg.)
- EDEC 6533 Assessment and Program Evaluation in Early Childhood Education: Advanced Seminar 3 Credit Hours**
Prerequisites: graduate standing or permission of instructor. An in-depth exploration of the multiple purposes and types of assessment in early childhood education including classroom assessment, standardized child assessment, program evaluation, and accountability assessment. Also focuses on the various forms of assessment, evaluation of assessment techniques and practices, and examination of current trends and practices. A special focus will be placed on program evaluation and accountability assessments and approaches. (F)
- EDEC 6833 Advanced Qualitative Analysis 3 Credit Hours**
Prerequisite: graduate standing. This course is designed to provide doctoral students with an in-depth understanding of the variety of ways to theory build, analyze & interpret qualitative research, write up findings, and synthesize information for interpretation. It is assumed that students enrolling in this class have already completed an introductory qualitative research methods course. (Irreg.)
- EDEC 6910 Practicum in Educ--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)
- EDEC 6920 Internship in Education--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDEC 6930 Intensive Studies in Education 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)

- EDEC 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- EDEC 6970 Post-Master's Seminar 2-4 Credit Hours**
2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)
- EDEC 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisites: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- EDEC 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)
- EDEL 2960 Individual Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)
- EDEL 3002 Promoting Healthy Lifestyles for Elementary Students 2 Credit Hours**
Prerequisite: admission to the teacher education program. Students explore models for teaching that transform research on human movement, physical activity and health education into effective classroom teaching practice. Students gain understanding of teaching strategies that foster active, healthy lifestyles, the practice of skills for good health and enhanced quality of life for elementary students. (F, Sp)
- EDEL 3243 Integrated Arts Education 3 Credit Hours**
Prerequisite: admission to the teacher education program. Promotes literacy and skills involving art principles and processes in education and life. Explores arts integration across the curriculum as a means of expressing beauty/aesthetics, self-identification, social criticism, and critical reflection. (F, Sp, Su)
- EDEL 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- EDEL 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)
- EDEL 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EDEL 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- EDEL 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EDEL 4063 Critical Inquiry and Integrated Instruction 3 Credit Hours**
Prerequisite: EDMA 4353, EDLT 4813, EDSC 4193, EDSS 4323, EDEL 4980; corequisite: EDUC 4050. Course for teacher candidates to understand how to support critical inquiry across the disciplines. Teacher candidates will also understand how to integrate and apply what they have learned throughout their coursework to organize a classroom to create a community of learners. (F, Sp) [V].
- EDEL 4101 Mentoring 1 Credit Hour**
Prerequisite: admission to Teacher Education program and permission of adviser. This course should be taken in the semester which precedes enrollment in EDLT 4813, EDMA 4353, EDSC 4193, EDSS 4323, EDEL 4980. Students will study and analyze current education practices existing in today's elementary classrooms. Selected readings, significant discussion, hands-on activities and practical experiences will enable students to think critically about the challenges and rewards of becoming an elementary educator. The course also guides students in preparing program portfolios. (F, Sp)
- EDEL 4960 Directed Readings in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- EDEL 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDEL 4980 Practicum in Elementary Education 1-3 Credit Hours**
Prerequisite: EDEL 4101; corequisite: EDMA 4353, EDLT 4813, EDSC 4193, EDSS 4323. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (F, Sp)
- EDEL 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- EDEL 5593 Issues in Teaching in Elementary Schools 3 Credit Hours**
Prerequisite: graduate standing. Interdisciplinary seminar focusing on critical analysis of issues related to teaching and learning in elementary schools. (Irreg.)

- EDEL 5910 Practicum in Education--Master's 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission of instructor and dean. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)
- EDEL 5920 Internship in Education--Master's 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDEL 5940 Field Studies in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- EDEL 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)
- EDEL 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDEL 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- EDEL 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- EDEL 6910 Practicum in Education--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)
- EDEL 6920 Internship in Education--Doctoral 2-6 Credit Hours**
1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDEL 6930 Intensive Studies in Education 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)
- EDEL 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- EDEL 6970 Post-Master's Seminar 2-4 Credit Hours**
2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)
- EDEL 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisites: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- EDEL 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)
- EDEN 2960 Individual Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)
- EDEN 3223 Teaching Grammar and Composition in Middle/Secondary School 3 Credit Hours**
Prerequisite: admission to teacher preparation program. Emphasizes the centrality of writing in the language arts, the teaching of grammar, and socio-cultural influences on learning. (F)
- EDEN 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- EDEN 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)

- EDEN 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EDEN 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- EDEN 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EDEN 4273 Creativity in Teaching Composition 3 Credit Hours**
(Slashlisted with 5273) Prerequisite: junior standing or permission of instructor. Features visual-verbal arts integration and teaching composition at primarily middle and secondary school levels. Students will paint, write, and otherwise practice the arts as well as consider current teaching implications. No student may earn credit for both 4273 and 5273 (Su)
- EDEN 4283 Mediacy and the Pop Culture 3 Credit Hours**
Prerequisite: admission to the Teacher Education program. Examines the significance of youth media cultures as they intersect with literacy and learning in school settings. (Sp)
- EDEN G4914 The Teaching of English 4 Credit Hours**
Prerequisite: EDEN 3223, senior standing. Development of expertise in teaching the language arts at the secondary level, including classroom management, planning, data-based decision-making, and delivery of great lessons. 35 hours of field work in local schools. Written reports. (Sp) [V].
- EDEN 4923 Literature for Adolescents and Young Adults 3 Credit Hours**
(Slashlisted with EDEN 5923) Prerequisite: EDEN 3223. A survey of literature written for adolescents and young adults and affiliated, contemporary pedagogies. No student may earn credit for both 4923 and 5923. (F)
- EDEN 4960 Directed Readings in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- EDEN 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDEN 4980 Practicum in Education 1-3 Credit Hours**
1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)
- EDEN 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- EDEN 5203 Action Research in English Education 3 Credit Hours**
Prerequisite: graduate standing; co-requisite: 5920 (Internship). Nature and methodology of teacher research. Students will conduct a field research project with EDUC 5920, Internship in Education, to demonstrate understanding of fundamental field research design and practice, including writing the teacher research report. (F, Sp)
- EDEN 5213 Secondary English Curriculum 3 Credit Hours**
Prerequisite: graduate standing. General principles of curriculum development and particular problems with planning literature curricula. Evaluation and revision of school curricula based on theories of curriculum planning.
- EDEN 5223 The Teaching of Composition: Theory and Practice 3 Credit Hours**
Prerequisite: graduate standing. Analysis of competing theories of composition instruction. Study of issues related to planning writing activities, and consider problems related to writing about literature, informal writing, writing apprehension, teaching basic writers, and teaching syntax.
- EDEN 5233 The Teaching of Literature: Theory and Practice 3 Credit Hours**
Prerequisite: graduate standing. Research and methodology important to teaching literature to young people and adults with particular focus on developing reading and responding abilities to poetry and fiction. Other emphases include reading-writing interactions, creative approaches to teaching traditional literature, uses of young adult literature, and developing middle/secondary literature curricula. (Sp)
- EDEN 5243 The Teaching of Language: Theory and Practice 3 Credit Hours**
Prerequisite: graduate standing. Research and teaching methodology important to providing language instruction for young people with particular focus on oral and written language development in a culturally diverse society. Topics include grammar, usage, dialect, semantics, vocabulary instruction and curriculum design. (F)
- EDEN 5253 Research in English Education 3 Credit Hours**
Prerequisite: graduate standing. Study of issues and methods involved with research in English education. May include experience in the collection and analysis of data. (Irreg.)
- EDEN 5263 Special Topics in Literacy I 3 Credit Hours**
Prerequisite: Permission of department. Possible topics include students in and out of school, culture and literacy, socio-historical perspectives on learning, and other analysis of literate activity. (F)
- EDEN 5273 Creativity in Teaching Composition 3 Credit Hours**
(Slashlisted with 4273) Prerequisite: graduate standing or permission of instructor. This course features visual-verbal arts integration and teaching composition at primarily middle and secondary school levels. Students will paint, write, and otherwise practice the arts as well as consider current teaching implications. No student may earn credit for both 4273 and 5273 (Su)
- EDEN 5283 Mediacy and the Pop Culture 3 Credit Hours**
Prerequisite: graduate standing. Admission to the Teacher Education program. Examines the significance of youth media cultures as they intersect with literacy and learning in school settings. (Sp)
- EDEN 5303 Oklahoma Writing Project 3 Credit Hours**
Prerequisite: graduate standing and permission of instructor. Course is offered at summer institute. Focus is on improvement of personal writing and classroom writing instruction. Participants completing course become teacher consultants with Oklahoma Writing Project. (Su)

- EDEN 5910 Practicum in Education--Master's 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission of instructor and dean. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)
- EDEN 5920 Internship in Education--Master's 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDEN 5923 Literature for Adolescents and Young Adults 3 Credit Hours**
(Slashlisted with EDEN 4923) Prerequisite: EDEN 3223. A survey of literature written for adolescents and young adults and affiliated, contemporary pedagogies. No student may earn credit for both 4923 and 5923. (F)
- EDEN 5940 Field Studies in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: twelve hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- EDEN 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: twelve hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)
- EDEN 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDEN 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- EDEN 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- EDEN 6910 Practicum in Education--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)
- EDEN 6920 Internship in Education--Doctoral 2-6 Credit Hours**
1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit twelve hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDEN 6930 Intensive Studies in Education 1-6 Credit Hours**
1 to 6 hours. Prerequisite: twelve hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)
- EDEN 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- EDEN 6970 Post-Master's Seminar 2-4 Credit Hours**
2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)
- EDEN 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisites: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- EDEN 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: twelve hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)
- EDLT 2960 Individual Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)
- EDLT 3143 Language and Literacy Development Birth through 5 3 Credit Hours**
Prerequisite: Junior standing and admission to OU-Tulsa/Norman early childhood education program. Acquaints early childhood preservice teachers with theories of language and emergent literacy development, including key precursors to conventional reading and writing, developmentally appropriate assessment practices, evidence-based curriculum and instructional practices, and materials to support language and literacy learning in early childhood settings for children from birth through age 5. (Sp)

- EDLT 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- EDLT 3911 Language and Literacy Practicum 1 Credit Hour**
Prerequisite: admission to Teacher Education program. Support pre-service teachers in making connections between theories of language and literacy evaluation and instruction and literacy learning processes and behaviors of children in primary grades.
- EDLT 3913 Literacy in the Primary Grades 3 Credit Hours**
Prerequisite: admission to Teacher Education program. Explore issues and factors related to language and literacy development in primary grades; examine how to develop proficiency in supporting children's language development; learn literacy assessment activities, interpret findings and identify children's strengths and needs; and choose instructional strategies to help children become strategic readers and writers. (F, Sp, Su)
- EDLT 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)
- EDLT 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EDLT 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- EDLT 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EDLT 4113 Literacy in the Intermediate Grades 3 Credit Hours**
Prerequisite: EDLT 3913. Understand how to support students in the intermediate grades (4th through 6th) with a wide variety of instructional strategies and procedures to implement a balanced, comprehensive literacy program, including differentiating literacy instruction, using assessment to plan instruction, and emphasizing content area literacy. (F, Sp, Su)
- EDLT 4123 Language and Literacy Development in Kindergarten through 3rd. grade 3 Credit Hours**
Prerequisite: Senior standing and admission to OU-Tulsa/Norman early childhood education program. Acquaints early childhood preservice teachers with foundations of reading and writing development in kindergarten and the primary grades, including a comprehensive literacy curriculum for reading, writing, and oral language learning how to assess literacy understandings, use data to plan instruction, evidence based developmentally appropriate instructional practices and materials to support children becoming independent conventional readers, writers, and language users. (F)
- EDLT 4813 Literature and Writing Across the Curriculum 3 Credit Hours**
Prerequisite: EDLT 4113. Provides pre-service teachers with the knowledge and skills needed to provide writing instruction in the elementary classroom. Students will explore children's literature as a tool for language and literacy development and writing instruction. (F, Sp)
- EDLT 4960 Directed Readings in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- EDLT 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDLT 4980 Practicum in Education 1-3 Credit Hours**
1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)
- EDLT 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- EDLT 5910 Practicum in Education--Master's 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission of instructor and dean. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)
- EDLT 5920 Internship in Education--Master's 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)

- EDLT 5940 Field Studies in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- EDLT 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)
- EDLT 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDLT 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- EDLT 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- EDLT 6910 Practicum in Educ--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)
- EDLT 6920 Internship in Education--Doctoral 2-6 Credit Hours**
1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDLT 6930 Intensive Studies in Education 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)
- EDLT 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- EDLT 6970 Post-Master's Seminar 2-4 Credit Hours**
2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)
- EDLT 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisites: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- EDLT 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)
- EDMA 2353 Mathematical Communication and Structures 3 Credit Hours**
Prerequisite: Admission to Jeannine Rainbolt College of Education and instructor permission. Manipulatives are learning tools used to create concrete and/or visual representations of abstract concepts. Students will use manipulatives to develop deeper conceptual understandings of elementary mathematics as well as their ability to communicate these understandings. Topics include number concepts, operations, algebraic reasoning, and geometric concepts. Students will develop and use multiple strategies for doing mathematics and communicating their mathematical thinking.
- EDMA 2960 Individual Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)
- EDMA 3353 PK-3 Mathematics Concepts 3 Credit Hours**
Prerequisite: admission to the teacher education program and 1000-level Gen Ed approved Math, MATH 2213. Addresses the important "big" ideas in mathematics that are appropriate for pk-3rd grade students to learn. How research, theory and practice facilitate young children's learning will be explored. Will also be emphasis on inquiry based/problem centered curriculum, instructional strategies and assessment. (F, Sp, Su)
- EDMA 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- EDMA 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)

- EDMA 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EDMA 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- EDMA 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EDMA 4233 Developing Problem-Solving Environ for Secondary Math Learning 3 Credit Hours**
Prerequisite: Mathematics 2433 or Mathematics 2924, and full admission to the Mathematics Education Program. The development of problem-solving environments for middle and high school mathematics learning. Emphasizes student characteristics, issues of equity and diversity, theories of teaching and learning, and current best practices from research into mathematics teaching and learning. Areas of focus will include problem-centered learning, appropriate uses of technology, and inclusion of historical and interdisciplinary topics in teaching mathematics for all students. (F)
- EDMA 4243 Fundamental Concepts of Secondary Math Learning 3 Credit Hours**
Prerequisite: EIPT 3473, and senior standing. Fundamental concepts of mathematics relevant to the secondary school mathematics curriculum. Development of secondary mathematics curriculum and appropriate instructional methods for the teaching of Algebra, relations and functions. This course will serve as the senior capstone. (Sp) [V].
- EDMA 4253 Teaching and Learning of Mathematics Reasoning and Proof 3 Credit Hours**
Prerequisite: full admission to Mathematics Education Program; recommend completion of EDMA 4233. This course focuses on the content and methodology of teaching middle and high school mathematics including geometry and trigonometry generally defined as reasoning and proof. (F)
- EDMA 4353 4-8 Grade Mathematics Concepts 3 Credit Hours**
Prerequisite: MATH 2213; MATH 2223; EDMA 3353; EDEL 4101; corequisite: EDLT 4813; EDSC 4193; EDSS 4323; EDEL 4980. Students will be engaged in planning, implementing, and evaluating mathematics curriculum and instruction in the elementary school grades 4 - 8. Materials and discussions relevant to learner diversity, the appropriate use of technology, and how to integrate mathematics with other subjects will be infused throughout the course. (F, Sp)
- EDMA 4960 Directed Readings in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- EDMA 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDMA 4980 Practicum in Mathematics Education 1-3 Credit Hours**
1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)
- EDMA 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- EDMA 5153 Problem Centered Learning in Mathematics 3 Credit Hours**
Prerequisite: graduate standing. Intended for mathematics teachers at any level, the course is designed so participants can engage in non-routine problem solving as a basis for examining and reflecting on such an approach to the teaching and learning of mathematics. (Irreg.)
- EDMA 5523 Elementary School Mathematics Curriculum 3 Credit Hours**
Prerequisite: graduate standing. Analysis of research, trends, and issues in elementary mathematics teaching. Special attention is given to the research and theoretical bases underpinning curricula. (Irreg.)
- EDMA 5533 The Middle School/High School Math Curriculum 3 Credit Hours**
Prerequisite: graduate standing. Analysis of research, trends, and issues in middle school and high school mathematics teaching. Special attention is given to the research and theoretical bases underpinning curricula. (Irreg.)
- EDMA 5753 Theory and Research in Mathematics Education 3 Credit Hours**
Prerequisite: graduate standing. Designed to enhance appreciation for and understanding of research methods and findings in mathematics education. Students explore the history of research in mathematics education, discuss various theories of mathematics learning and understanding, evaluate, synthesize, and critique mathematics education research, understand a variety of research methodologies, and conduct original research. (Irreg.)
- EDMA 5763 History of Mathematics for Educators 3 Credit Hours**
Prerequisite: graduate standing. Designed to offer a sense of the rich history of mathematics as an intellectual pursuit as well as for its practical significance. Will include presentation of methods and materials historical in nature that can be utilized by practicing classroom teachers to motivate and understanding of and appreciation for mathematics. (Irreg.)
- EDMA 5863 Social Justice by the Numbers 3 Credit Hours**
Prerequisite: Graduate standing. This course invites students to expand their knowledge and awareness of issues of social justice in the context of numbers, develop a pedagogical model for teaching for social change, critically examine the content of school curriculum and instructional practices from the perspective of social justice, and contemplate the role of the teacher as an agent of change and transformative intellectual. (Irreg.)

- EDMA 5910 Practicum in Education--Master's 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission of instructor and dean. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)
- EDMA 5920 Internship in Education--Master's 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDMA 5940 Field Studies in Mathematics Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- EDMA 5960 Directed Readings 1-3 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)
- EDMA 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDMA 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- EDMA 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- EDMA 6163 Systems Theory & Learning Organizations 3 Credit Hours**
Prerequisite: Graduate standing. Examines system theories, including the development and significance of complex adaptive systems, complexity analyses, and paradigms associated with new science, especially related to the educational context. (Irreg.)
- EDMA 6910 Practicum in Education--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)
- EDMA 6920 Internship in Education--Doctoral 2-6 Credit Hours**
1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDMA 6930 Intensive Studies in Education 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)
- EDMA 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- EDMA 6970 Post-Master's Seminar 2-4 Credit Hours**
2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)
- EDMA 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)
- EDMA 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)
- EDSC 2960 Individual Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)
- EDSC 3233 Environmental Issues in the Community 3 Credit Hours**
Prerequisite: 6 to 9 hours in the natural sciences and sophomore standing; Majors only. This course is designed for students to explore environmental problems and resulting issues in the surrounding community while actively engaging in scientific and engineering practices and applying crosscutting concepts to develop and deepen their understanding of core ideas in the sciences. (Irreg.)
- EDSC 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

- EDSC 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)
- EDSC 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EDSC 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- EDSC 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EDSC 4093 Inquiry-Based Science Teaching 3 Credit Hours**
Prerequisite: majors only or admission to Teacher Education program. This course is designed to introduce students to the nature of science, scientific practices, and disciplinary concepts fundamental to science education at the PK-3 grade band including the goals of PK-12 science education. The course emphasizes understanding of science disciplinary core ideas and science and engineering practices. (F, Sp)
- EDSC 4193 Teaching Science in Elementary Schools 3 Credit Hours**
Prerequisite: admission to Teacher Education program, EDSC 4093, EDEL 4101; corequisites: EDMA 4353, EDLT 4813, EDSS 4323, EDEL 4980. Experiences are provided, following the position that science is the quest for knowledge, and that this position is compatible with modern educational theory. (F, Sp)
- EDSC 4513 Teaching Science in Secondary Schools 3 Credit Hours**
(Slashlisted with EDSC 5513) Prerequisite: EIPT 3473 and majors only. This course establishes a vision of secondary science instruction that promotes deep understanding of science concepts, practices, and the nature of science. Students will examine the aims and purposes of science education, explore how students learn science, and develop their understanding of the nature of science. No student may earn credit for both 4513 and 5513. (Sp)
- EDSC 4533 Advanced Methods in Science Teaching 3 Credit Hours**
(Slashlisted with EDSC 5533) Prerequisite: EDSC 4513 and senior standing; corequisite: EDUC 4060. This course follows the position that science is the quest for knowledge. Experiences with advanced science content, technology, laboratory investigations, and modern educational theory are provided. This course will serve as the senior capstone. No student may earn credit for both EDSC 4533 and EDSC 5533. (Sp) V.
- EDSC 4960 Directed Readings in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- EDSC 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDSC 4980 Practicum in Science Education 1-3 Credit Hours**
1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)
- EDSC 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- EDSC 5513 Teaching Science in Secondary Schools 3 Credit Hours**
(Slashlisted with EDSC 4513) Prerequisite: graduate standing with 9 hours of Education coursework or departmental permission. This course establishes a vision of secondary science instruction that promotes deep understanding of science concepts, practices, and the nature of science. Students will examine the aims and purposes of science education, explore how students learn science, and develop their understanding of the nature of science. No student may earn credit for both 4513 and 5513. (Sp)
- EDSC 5523 Learning Theories and Their Implications for Teaching and Scholarship 3 Credit Hours**
Prerequisite: Graduate standing and departmental permission. What does it mean to learn? The course examines the question from various perspectives (constructivist, cognitive, sociocultural, behavioral, and more). Implications across contents and grade levels will be explored for each perspective, and points of influence, coherence, and divergence will be identified. Students need a total of 12 hours from the following courses: EDSP 3055, EIPT 3043, EIPT 3473, EIPT (Irreg.)
- EDSC 5533 Advanced Methods in Science Teaching 3 Credit Hours**
(Slashlisted with EDSC 4533) Prerequisite: EDSC 5513 and graduate standing; corequisite: EDUC 5920 or permission of instructor. This course follows the position that science is the quest for knowledge. Experiences with advanced science content, technology, laboratory investigations, and modern educational theory are provided. No student may earn credit for both EDSC 4533 and EDSC 5533. (Sp)
- EDSC 5543 The Elementary School Science Curriculum 3 Credit Hours**
Prerequisite: twelve hours of education, graduate standing. Elementary school science curricula are examined from a theory-based perspective which includes: the nature of science, purpose of schools, developmental learning theory, and the teaching procedure known as the learning cycle. Students trace the development of American science education from 1700 to present. (Alt. F)
- EDSC 5910 Practicum in Education--Master's 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission of instructor and dean. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)

- EDSC 5920 Internship in Education--Master's 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDSC 5940 Field Studies in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- EDSC 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)
- EDSC 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDSC 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- EDSC 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- EDSC 6333 Research Paradigms For Scientific Investigations 3 Credit Hours**
Prerequisite: graduate standing. Current research paradigms in science education will be constructed through readings, discussions and presentations. In the context of these research paradigms, research designs and research methods will also be explored. A thorough review of the literature will include the use of professional journals, theses, and dissertations and be used to develop a sound understanding of the different approaches to research. (Irreg.)
- EDSC 6910 Practicum in Education--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)
- EDSC 6920 Internship in Education--Doctoral 2-6 Credit Hours**
1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDSC 6930 Intensive Studies in Education 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)
- EDSC 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- EDSC 6970 Post-Master's Seminar 2-4 Credit Hours**
2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)
- EDSC 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. Maximum of 15 hours credit for the Ed.D. and 30 hours for the Ph.D. (F, Sp, Su)
- EDSC 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)
- EDSS 2960 Individual Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)
- EDSS 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- EDSS 3553 Foundations to Social Studies Education 3 Credit Hours**
Prerequisite: admission to Teacher Education program. Designed as a way to view social studies as an integrated body of knowledge while focusing on the various subject matter areas. (F, Sp)

- EDSS 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)
- EDSS 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EDSS 3980 Honors Research (HONORS) 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- EDSS 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EDSS 4323 Teaching Social Studies in Elementary/Middle Schools 3 Credit Hours**
Prerequisite: admission to Teacher Education program, EDEL 4101; corequisite: EDLT 4813, EDMA 4353, EDSC 4193, EDEL 4980. Promotes knowledge, skills, attitudes, and actions required for effective planning, implementation, and evaluation of social studies curriculum and instruction in elementary and middle schools. (F, Sp)
- EDSS 4553 Foundations and Mentoring in Social Studies 3 Credit Hours**
Prerequisite: Full admission to the secondary social studies education program. Provides an opportunity to explore the main themes of the social sciences with limited teaching opportunities. (Sp)
- EDSS G4563 Teaching Secondary School Social Studies 3 Credit Hours**
Prerequisite: EDSS 4553. Curriculum and instructional strategies for teaching secondary school social studies with a focus on (a) appropriate methodologies, and (b) matching these methods to content and learners. The students will study a variety of classroom techniques and the assessment of such techniques for social studies teaching. (F) [V].
- EDSS 4960 Directed Readings in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- EDSS 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDSS 4980 Practicum in Education 1-3 Credit Hours**
1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)
- EDSS 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- EDSS 5043 Analysis of Teaching and Learning 3 Credit Hours**
Prerequisite: graduate standing; Corequisite: Must be enrolled in EDUC 5920, Internship. An understanding of how to analyze teaching and learning using a variety of reflective techniques including journals, oral inquiries, classroom/school studies, and theoretical analysis. (F, Sp)
- EDSS 5333 Seminar in Social Studies 3 Credit Hours**
Prerequisite: graduate standing. May be repeated; maximum credit 9 hours. Attend to special issues in social studies theory and practice. Focus on social studies/citizenship educational problems and possibilities in schools and society. (Irreg.)
- EDSS 5343 Global Education 3 Credit Hours**
Prerequisite: Graduate standing. Explores critical issues in global education across subject areas and teaching concepts. Implications for citizenship education are examined in depth. (Irreg.)
- EDSS 5503 Social Studies Curriculum, Instruction, Technology and Assessment 3 Credit Hours**
Prerequisite: Graduate standing. Analysis of K-12 social studies curriculum, instruction, technology and assessment to achieve knowledge, skills, valuing, and action capabilities in the social studies curriculum. (Irreg.)
- EDSS 5910 Practicum in Education--Master's 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission of instructor and dean. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)
- EDSS 5920 Internship in Education--Master's 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDSS 5940 Field Studies in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- EDSS 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)
- EDSS 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

- EDSS 5980 Research for Master's Thesis 2-9 Credit Hours**
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)
- EDSS 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- EDSS 6910 Practicum in Education--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)
- EDSS 6920 Internship in Education--Doctoral 2-6 Credit Hours**
1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDSS 6930 Intensive Studies in Education 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)
- EDSS 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- EDSS 6970 Post-Master's Seminar 2-4 Credit Hours**
2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)
- EDSS 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. Maximum of 15 hours credit for the Ed.D. and 30 hours for the Ph.D. (F, Sp, Su)
- EDSS 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)
- EDUC 1523 Growing through Education, Teaching, and Learning 3 Credit Hours**
You'll explore your educational past, present, and future while positioning it in the broader context of education's past, present, and future. You'll deepen your understanding of learners and learning, what's shaped education systems, and the role of communities and society in education. (F, Sp) [V-FYE].
- EDUC 2400 Field Experiences in Education 1-3 Credit Hours**
1 to 3 hours. (Also listed under Professional Studies in Education.) Introduction to education as a profession based upon assignment to public schools and other educational agencies. Students will be expected to observe the schools in action, interact with students and professionals and participate in the instructional process. (F, Sp, Su)
- EDUC 2960 Individual Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)
- EDUC 2970 Special Topics/Seminar 1-3 Credit Hours**
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)
- EDUC 3223 Introduction to Education 3 Credit Hours**
Prerequisite: junior standing and majors only. The purpose of this course is to critically explore, question, and discuss issues in education. Questions to be explored include the following: What are teaching and learning? What are the relationships between the student, the school, and society? Emphasis will be reflective learning as an active, contextualized, act of creativity that involves construction of and reflection on knowledge. (F, Sp, Su)
- EDUC 3233 Development, Motivation, and Learning 3 Credit Hours**
Prerequisite: junior standing and majors only. The course will examine our current understanding of various psychological processes and their relevance to teaching and learning in school settings. In other words, we'll be learning about psychology research, or how and why people think, feel, and behave, and how it relates to how adults working in education settings can most effectively engage their students. (F, Sp, Su)
- EDUC 3440 Mentored Research Experience 3 Credit Hours**
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)
- EDUC 3960 Honors Reading 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)

- EDUC 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- EDUC 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- EDUC 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- EDUC 4023 Global Experience: Uganda 3 Credit Hours**
(Slashlisted with EDUC 5023) Prerequisite: senior standing or permission of instructor. Designed to give real-world experience in global education through a multi-disciplinary service-learning program. Lecture component will take place on the OU Norman campus and experiential component in Gulu, Uganda. Students will learn about global education in developing countries, impact of conflict on women's educational trajectories, a postcolonial view of working with educators, and active teaching and learning in diverse settings. No student may earn credit for both 4023 and 5023. (Su)
- EDUC 4050 Teaching Experiences in the Elementary School 4-10 Credit Hours**
4 to 10 hours. Prerequisite: EDMA 4353, EDLT 4713, EDSC 4193, EDSS 4323, EDUC 4980. Corequisite: EDEL 4063. Enrollment requires a signed recommendation form by the student's counselor. Laboratory activities under competent direction and supervision: orientation, observation, and classroom teaching experiences supported by seminars and conferences which focus upon the problems of teaching. Prospective teachers receive instruction, aid, and constructive supervision in classroom management, evaluation of pupil behavior, methods of teaching, selection of teaching materials and school-home-community relations. (F, Sp)
- EDUC 4060 Teaching Experiences in the Secondary School 4-10 Credit Hours**
4 to 10 hours. Prerequisite: permission of College of Education Undergraduate Academic Advising Office. Enrollment for fewer than eight hours requires special recommendation by the student's counselor. Correlation of theory and instructional practices in secondary education; supervised observation, teaching, classroom management, and evaluation; acquaintance with the administration of a school and the school program; selection and use of appropriate instructional materials; conferences with supervisors; seminar on problems of teaching; methodology, professional problems, and placement. (F, Sp)
- EDUC 4123 Introduction to Instruction 3 Credit Hours**
Prerequisite: junior standing and majors only. The purpose of this course is to critically explore, question, and discuss issues in education. Questions to be explored include the following: What are teaching and learning? What are the relationships between the student, the school, and society? Emphasis will be reflective learning as an active, contextualized, act of creativity that involves construction of and reflection on knowledge. (F, Sp, Su)
- EDUC 4223 Learning Environments for Diverse Learners 3 Credit Hours**
Prerequisite: junior standing and majors only. There are two main purposes for this course. The first is to help students develop a better understanding of different cultures and the challenges and benefits of cultural diversity as it relates to educational contexts. The second is to provide students with the background knowledge, understandings, and techniques to work effectively with learners from diverse cultural and ethnic backgrounds. (F, Sp, Su)
- EDUC 4323 Scaffolded Instruction for All Learners 3 Credit Hours**
Prerequisite: junior standing and majors only. Students will develop an understanding of student characteristics and prior learning histories to implement scaffolded instruction in real-life settings among a wide range of learners and learning communities. Students will learn how to become keen observers and will acquire proficiency in selecting materials that will provide useful information to guide the design, implementation, and assessment appropriate for the learning community. (F, Sp, Su)
- EDUC 4960 Directed Readings in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- EDUC 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDUC 4980 Practicum in Education 1-3 Credit Hours**
1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)
- EDUC 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- EDUC 5023 Global Experience: Uganda 3 Credit Hours**
(Slashlisted with EDUC 4023) Prerequisite: graduate standing or permission of instructor. Designed to give real-world experience in global education through a multi-disciplinary service-learning program. Lecture component will take place on the OU Norman campus and experiential component in Gulu, Uganda. Students will learn about global education in developing countries, impact of conflict on women's educational trajectories, a postcolonial view of working with educators, and active teaching and learning in diverse settings. No student may earn credit for both 4023 and 5023. (Su)
- EDUC 5910 Practicum in Education--Master's 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission of instructor and dean. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)

- EDUC 5920 Internship in Education--Master's 1-6 Credit Hours**
1 to 6 hours. Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDUC 5940 Field Studies in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- EDUC 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. Directed readings and/or literature reviews under the direction of a faculty member. (Irreg.)
- EDUC 5970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- EDUC 5980 Research for Master's Thesis 2-9 Credit Hours**
2 to 9 hours. Prerequisite: Graduate standing; maximum credit applicable toward degree, four hours. Research and writing of a thesis for completion of a graduate degree. (F, Sp, Su)
- EDUC 5990 Independent Study 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)
- EDUC 6113 Theoretical Paradigms in Educational Research 3 Credit Hours**
Prerequisite: Graduate standing. Designed to expose students to a variety of educational theories as well as how research uses and engages theory. In addition, a primary objective of this course is for students to understand prominent theories in educational research and how they may utilize theory to evaluate programs, design studies, and create learning environments that support students and educational institutions. (F, Sp, Su)
- EDUC 6222 Dissertation Development & Advisory 2 Credit Hours**
Prerequisite: Graduate standing; May be repeated; maximum credit 12 hours. This course is designed to support doctoral students post-prospectus defense, during data collection, analysis, and the writing of their dissertation. As such, the course is run as a seminar in which students develop and progress their individual research projects. Particular attention is spent on data analysis processes and how to move from analysis toward the written dissertation. (F, Sp, Su)
- EDUC 6223 Dissertation Development & Advisory 3 Credit Hours**
Prerequisite: Graduate standing; majors only; may be repeated with maximum credits of 12 hours. This course is designed to support doctoral students post-prospectus defense, during data collection, analysis, and the writing of their dissertation. As such, the course is run as a seminar in which students develop and progress their individual research projects. Particular attention is spent on data analysis processes and how to move from analysis toward the written dissertation. (F, Sp, Su)
- EDUC 6910 Practicum in Education--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)
- EDUC 6920 Internship in Education--Doctoral 1-6 Credit Hours**
1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- EDUC 6930 Intensive Studies in Education 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)
- EDUC 6960 Directed Readings 1-3 Credit Hours**
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)
- EDUC 6970 Post-Master'S Seminar 2-4 Credit Hours**
2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)
- EDUC 6980 Research for Doctoral Dissertation 2-16 Credit Hours**
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the Doctoral dissertation. Maximum of 15 hours credit for the Ed.D. and 30 hours for the Ph.D. (F, Sp, Su)
- EDUC 6990 Individual Study in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)

EDWL 3003 World Languages in the Elementary School 3 Credit Hours

Prerequisite: Proficiency in a Language other than English via evidence of one of the following: Passing Completion of a 2223 level of modern language course, OR self-identification as a Heritage/Native Speaker in a language other than English, OR an OPI score of intermediate high or above. Introduction to the teaching of World Languages and multilingual learners in the PreK-6 setting by providing practical experience and introducing the tenets of language acquisition theory and research. Addresses second language teaching and learning through a combination of classroom activities, experiential learning through service-learning projects, and opportunities to expand target language knowledge and develop critical thinking and reflection skills. (F)

EDWL 4023 Foundations and Theory for PreK-12 Second Language Acquisition 3 Credit Hours

(Slashlisted with EDWL 5023) Prerequisite: Admission to Teacher Education program. This course is a multidisciplinary approach to second language (L2) acquisition theory, application, and pedagogy. The course focuses on developing, enhancing and improving instructional expertise, pedagogical knowledge and advocacy for the role and value of languages and cultures for those planning or currently working with SLA students in a PreK-12 educational setting. No student may earn credit for both 4023 and 5023. (Irreg.)

EDWL 4033 Methods for Teaching World Languages in PreK-12 Settings 3 Credit Hours

(Slashlisted with EDWL 5033) Prerequisite: EDWL 4023 and Admission to Teacher Education program; EIPT 3483 or concurrent enrollment. This course is a multidisciplinary approach to the teaching of World Languages in the PreK-12 setting. This course is designed to provide students with practical experience in the teaching of world languages and to introduce key issues in classroom language acquisition research and teaching methodology in the PreK-12 classroom. No student may earn credit for both 4033 and 5033. (Irreg.)

EDWL 4323 Foundations and Practice for Bi/Multilingual Learners PK-12 3 Credit Hours

Prerequisite: Education Majors or instructor permission. This course focuses on the theory, research, and policy foundations for effective instruction and practice with bi/multilingual learners. We will focus on the current issues, as well as techniques in instructing and assessing students at all stages of bilingual development. (F)

EDWL 4553 Second Language Literacy for Spanish-speaking ELLs 3 Credit Hours

(Slashlisted with EDWL 5553) Prerequisite: Education Major or instructor permission; EDWL 4023 is recommended, though not required. Course explores differences in literacy development of Spanish/English, and pedagogical approaches that leverage students' home language/literacy practices. Socio-cultural factors influencing literacy development are discussed. Home literacy, biliteracy, and culturally relevant practices are integral to the course framework. Equity/bias in classroom language practices and the multitude of relationships affecting Spanish-speaking families are examined. Taught bilingually in Spanish/English (dependent on student proficiency). No student may earn credit for both 4553 and 5553. (Su)

EDWL 4970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

EDWL 5023 Foundations and Theory for PreK-12 Second Language Acquisition 3 Credit Hours

(Slashlisted with EDWL 4023) Prerequisite: graduate standing. This course is a multidisciplinary approach to second language (L2) acquisition theory, application, and pedagogy. It focuses on developing, enhancing, and improving instructional expertise, pedagogical knowledge, and advocacy for the role and value of languages and cultures for those planning or currently working with SLA students in a PreK-12 educational setting. No student may earn credit for both 4023 and 5023. (Irreg.)

EDWL 5033 Methods for Teaching World Languages in PreK-12 Settings 3 Credit Hours

(Slashlisted with EDWL 4033) Prerequisite: EDWL 5023 and graduate standing. This course is a multidisciplinary approach to the teaching of World Languages in the PreK-12 setting. This course is designed to provide students with practical experience in the teaching of world languages and to introduce key issues in classroom language acquisition research and teaching methodology in the PreK-12 classroom. No student may earn credit for both 4033 and 5033. (Irreg.)

EDWL 5043 Theory and Practice in Bi/Multilingual Education 3 Credit Hours

Prerequisite: Graduate standing. Application of theory, research, and guiding principles to providing high-quality instruction, assessment, and advocacy for bi/multilingual learners in K-12 education. This course includes a specific focus on preparing content area teachers to support the dynamic bilingualism of linguistically diverse children through effective language and literacy instruction. (Sp)

EDWL 5553 Second Language Literacy for Spanish-speaking ELLs 3 Credit Hours

(Slashlisted with EDWL 4553) Prerequisite: Graduate standing and Admission into the Teacher Preparation Program; EDWL 4023/5023 is recommended, though not required. Course explores differences in literacy development of Spanish/English, and pedagogical approaches that leverage students' home language/literacy practices. Socio-cultural factors influencing literacy development are discussed. Home literacy, biliteracy, and culturally relevant practices are integral to the course framework. Equity/bias in classroom language practices and the multitude of relationships affecting Spanish-speaking families are examined. Taught bilingually in Spanish/English (dependent on student proficiency). No student may earn credit for both 4553 and 5553. (Su)

EDWL 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ILAC 2960 Individual Study 1-4 Credit Hours

1 to 4 hours. Prerequisite: good standing in University; fewer than 62 total hours; approval of instructor and dean. May be repeated; maximum credit four hours. Designed to provide an introduction to the study of education through a rigorous program of readings under the direction of a member of the faculty. (Irreg.)

ILAC 3960 Honors Reading 1-3 Credit Hours

Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides students with the opportunity to develop an appropriate body of reading materials on topics not covered in detail in routine coursework. Students will be obliged to assume the primary initiative in selecting the topic, compiling the bibliography and completing the reading, and will report their progress in weekly sessions to their instructor. Credit will be given only after an intensive oral examination. (Irreg.)

- ILAC 3970 Honors Seminar 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Covers variable subjects in education with in-depth studies of issues not covered in the standard course offerings. (Irreg.)
- ILAC 3980 Honors Research 1-3 Credit Hours**
Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for honors students to work on a special project under the guidance of a professor in the student's major area of study. (Irreg.)
- ILAC 3990 Independent Study 1-3 Credit Hours**
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)
- ILAC 4003 Partnerships: Working With Parents and Community 3 Credit Hours**
Prerequisite: admission to Teacher Education program. Approaches for working with students, parents, guardians, and the community (both locally and globally) will be addressed. Primary content for the course includes: student, parental and community involvement in schools, interaction/communication skills, diversity of families, available resources, and emerging trends. Community involvement and non-traditional field experiences will also be an integral part of the course. (F, Sp)
- ILAC 4243 Student Teaching Seminar 3 Credit Hours**
(Slashlisted with ILAC 5243) Prerequisite: Admission to Teacher Education Program; corequisite EDUC 4060. This course is designed to help students evaluate their own practice and develop educational research habits of mind. Specifically, as a result of the course students will better understand: a.) reflective practice and b.) the value of educational research. No student may earn credit for both 4243 and 5243. (Irreg.)
- ILAC 4960 Directed Readings in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students preparing to teach who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)
- ILAC 4970 Special Topics/Seminar 1-3 Credit Hours**
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)
- ILAC 4980 Practicum in Education 1-3 Credit Hours**
1 to 3 hours. Prerequisite: nine hours of education courses. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. (Irreg.)
- ILAC 4990 Special Problems in Education 1-4 Credit Hours**
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of title and subject. Variable as to subject and credit for areas of specialty and/or interest not otherwise provided in the standard offering of courses. (Irreg.)
- ILAC 5003 Models of Instruction 3 Credit Hours**
Prerequisite: completion of undergraduate teacher education. Students will study teaching models and their strategies intended to improve abilities to analyze student-teacher interactions and to increase teacher effectiveness as instructor and manager in a variety of educational situations. (F, Sp)
- ILAC 5133 Multicultural Art Education 3 Credit Hours**
Prerequisite: Graduate standing. Creative expression explores the arts as means of social critique, self expression, and identity development. We consider implications both for teaching and learning. (Sp)
- ILAC 5143 Theory and Research in Education 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. An introduction to the processes and products of educational research, such as stages in designing a study, introduction to research methods, and identification of the components of a research-based article. Develops critical consumers of educational research. (F, Sp, Su)
- ILAC 5233 Understanding Different Cultures 3 Credit Hours**
Prerequisite: graduate standing or permission of instructor. Provides information on cultural styles and characteristics of various ethnic and economic groups with emphasis on how teachers can understand and honor differences and similarities and adjust their teaching in order to be effective with a variety of students and families. (F)
- ILAC 5243 Student Teaching Seminar 3 Credit Hours**
(Slashlisted with 4243) Prerequisite: Graduate standing. This course is designed to help students evaluate their own practice and develop educational research habits of mind. As a result of the course, students will better understand reflective practice and the value of educational research. No student may earn credit for both 4243 and 5243. (Irreg.)
- ILAC 5910 Practicum in ILAC--Master's 1-4 Credit Hours**
1 to 4 hours. Prerequisite: graduate standing, permission of instructor and dean. May be repeated; maximum credit six hours. Variable as to title and subject profession. Provides field-type experience under faculty supervision and is designed to introduce the student to the practical application of theory within an environment in which professional practice takes place. Seminar experience is to be included. (Irreg.)
- ILAC 5920 Internship in Education--Master's 1-6 Credit Hours**
1 to 6 hours. Prerequisite: 5910, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. Available to master's degree programs specifically requiring an internship in addition to thirty-two hours of other coursework as part of the degree. Introduces the student to the profession under the supervision of a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)
- ILAC 5940 Field Studies in ILAC 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education. May be repeated with change of subject matter; maximum credit eight hours. Practical problems in education as defined by members of the classes. Typical topics: defining educational objectives, relating school programs to established objectives, developing teaching-learning aids, organization for participation in developing and evaluating instructional programs, using community resources for learning, improving evaluation procedure. (Irreg.)
- ILAC 5960 Directed Readings 1-4 Credit Hours**
1 to 4 hours. Prerequisite: 12 hours of education, approval of instructor, adviser and dean. May be repeated; maximum undergraduate credit eight hours; maximum graduate credit four hours. (Irreg.)

ILAC 5970 Special Topics/Seminar 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ILAC 5980 Research for Master's Thesis 2-9 Credit Hours

Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

ILAC 5990 Independent Study 1-4 Credit Hours

1 to 4 hours. Prerequisite: graduate standing or permission by instructor. May be repeated with change of subject matter; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

ILAC 6003 Curriculum Theory 3 Credit Hours

Prerequisite: admittance to Instructional Leadership & Academic Curriculum doctoral program. Supports five core themes: scholarly discourse; philosophical thinking/intellectual curiosity; the praxis of curriculum and instruction; democracy, diversity, and community; research knowledge, skills, and attitudes. (F)

ILAC 6013 Proseminar in Instructional Leadership and Academic Curriculum 3 Credit Hours

Prerequisite: admittance to Instructional Leadership & Academic Curriculum doctoral program. Required for new doctoral students, to be taken in sequence with 6023. Intended to introduce students to interdisciplinary, cross-disciplinary, and specialization studies in the field; university educators and fellow students; and the ethos of doctoral study and the academy. (F)

ILAC 6023 Theoretical Issues in Instructional Leadership 3 Credit Hours

Prerequisite: admittance to Instructional Leadership & Academic Curriculum doctoral program. Required for new ILAC doctoral students, to be taken in sequence with 6013. Focus on important theoretical issues which impact the research, curriculum, and practice of schools and other educational agencies. (Sp)

ILAC 6033 Critical Research Paradigms 3 Credit Hours

Prerequisite: admission to Ph.D. program or permission of instructor. Compares research paradigms and epistemologies and examines critical and transformative research approaches. (Irreg.)

ILAC 6043 Multilevel Modeling Applications for the Social Sciences 3 Credit Hours

Prerequisite: Graduate standing, EACS 6023 or ODYN 5163, and EACS 6673; Students must have experience with the statistical software STATA (at the level of EACS 6023 and EACS 6673). This is an advanced quantitative methods course to understand fundamental concepts and assumptions of statistics and learn applicable advanced methodologies in early childhood research. This class will provide sophisticated statistical techniques to formulate and test research hypotheses, examine rigorous research models, interpret results, and report and discuss the results. (Su)

ILAC 6233 Implications of Diversity 3 Credit Hours

Prerequisite: Doctoral-level standing. This course helps students develop a critical understanding of underlying issues related to diversity in school settings, develop a deep understanding of the complexity of different cultures, engage in scholarly and intellectual discourse related to diversity in American schools and society, develop an understanding of the implications of policy and advocacy, and understand the implications for curriculum, pedagogy, and research. (Irreg.)

ILAC 6910 Practicum in Educ--Doctoral 1-6 Credit Hours

1 to 6 hours. Prerequisite: admission to doctoral program, permission of instructor. May be repeated; maximum credit six hours. Variable as to title and subject profession. An advanced practicum for post-master's level students only. The object is to provide professional experience under faculty supervision in fields requiring a high degree of professional skill. Seminar experience is to be included. (Irreg.)

ILAC 6920 Internship in Education--Doctoral 2-6 Credit Hours

1 to 6 hours. Prerequisite: written permission of the instructor. May be repeated; maximum credit 12 hours. Variable as to title and subject profession. An advanced internship for post-master's level students only. The object of the internship is to cultivate within the student a high degree of proficiency and professional independence. Field supervision is by a practitioner whose credentials are equal to those of the graduate faculty. (Irreg.)

ILAC 6930 Intensive Studies in Education 1-6 Credit Hours

1 to 6 hours. Prerequisite: 12 hours of education and permission of instructor. Repeatable with change of title and subject. Opportunity offered for professional educators and others interested in education, cooperatively, to seek solutions to educational problems. Organized groups work in curriculum, guidance, instruction, administration and supervision. Competent leadership and expert consultant service provided. (Irreg.)

ILAC 6960 Directed Readings 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

ILAC 6970 Post-Master's Seminar 2-4 Credit Hours

2 to 4 hours. Prerequisite: master's degree, 24 hours of education, permission of instructor. May be repeated with change of subject matter; maximum credit twelve hours. Enrollment limited to students who hold the master's degree. (F, Sp, Su)

ILAC 6980 Research for Doctoral Dissertation 2-16 Credit Hours

2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. Maximum of 15 hours credit for the Ed.D. and 30 hours for the Ph.D. (F, Sp, Su)

ILAC 6990 Individual Study in Education 1-4 Credit Hours

1 to 4 hours. Prerequisite: 12 hours of education, graduate standing and permission of the instructor. May be repeated with change of subject matter; maximum credit eight hours. For advanced graduate students who need to study some problem or area not adequately covered in the organized courses, under the direction of a staff member in whose area of specialization the problem lies. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Beisly	Amber	H.	2022	ASSISTANT PROFESSOR, INSTRUCTIONAL LEADERSHIP AND ACADEMIC CURRICULUM, 2022	PhD, Univ of Oklahoma Tu; M.S, OSU; BA, Kalamazoo College
Borden	Rebecca		2020	ASSISTANT PROFESSOR OF INSTRUCTIONAL LEADERSHIP AND ACADEMIC CURRICULUM, 2020	Ph.D., Univ of Oklahoma, 2017; M.Ed., Univ of Oklahoma 2012; B.A., Arizona State Univ 1998

Pleasants	Jacob		2021	ASSISTANT PROFESSOR, INSTRUCTIONAL LEADERSHIP AND ACADEMIC CURRICULUM, 2021	Ph.D., Iowa State 2018; M.A.T., Iowa State, 2011; B.A., Washington University in St. Louis, 2010

Ruan	Jiening		2000	PROFESSOR OF INSTRUCTIONAL LEADERSHIP AND ACADEMIC CURRICULUM, 2015	PhD, Purdue Univ, 2000; MEd, Indiana Univ of Pennsylvania, 1996; BA, Xiamen Univ, 1989
Rylak	Danielle		2023	ASSISTANT PROFESSOR, INSTRUCTIONAL LEADERSHIP AND ACADEMIC CURRICULUM, 2023	Ph.D., Arizona State University, 2022; M.A., Columbia University, 2015; B.S., The College of New Jersey, 2009
Torres	Heidi	J	2016	ASSOCIATE PROFESSOR OF INSTRUCTIONAL LEADERSHIP AND ACADEMIC CURRICULUM, 2016	PhD, Indiana Univ, 2016; MS, Indiana Univ, 2011; BS, Univ of Texas, 1994; B Journalism, Univ of Texas, 1989; BA, Univ of Texas, 1989
Velasco	Richard	C. L.	2022	ASSISTANT PROFESSOR, INSTRUCTIONAL LEADERSHIP AND ACADEMIC CURRICULUM, 2022	Ph.D., Texas Tech Univ, 2020; M.A.T., Univ of St Mary, 2010; B.A., Univ of Guam, 2007

Early Childhood Education, B.S.

Minimum Total Credit Hours: 124

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.75

Major GPA - Combined and OU: 2.75

Program Code: B285

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better. English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. Meet one of the six performance criteria listed by Oklahoma State Regents for Higher Education (OSRHE) that students may use to qualify for admission into an Oklahoma teacher education program. **Speak with your Education Advisor for more details.**

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the

appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.

9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6-year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Education and Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators and apply for a license.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>. The following courses meet minimum University, College, and State General Education Requirements.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English and Communication (9 hours)</i>		
ENGL 1113	Principles of English Composition (Core I-EN1)	3
ENGL 1213	Principles of English Composition (Core I-EN2)	3
or EXPO 1213	Expository Writing	
COMM 1113	Principles of Communication (Core I)	3
or COMM 2613	Public Speaking	
<i>Language (0-10 hours)</i>		
University-Wide General Education Requirement: Choose two college-level courses in a single language; may be satisfied by successful completion of 2 years in a single language in high school (Core I)		0-10
Oklahoma State Regents for Higher Education Requirement: Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English OR demonstrate the knowledge and skills necessary to address the needs of Emergent Bilingual (English Learner) students in the P-12 classroom and are proficient in the strategies required for successful delivery of P-12 instruction in that area ¹		
<i>Mathematics (12 hours)</i>		
Choose two MATH courses (Core I-MATH)		6
MATH 2213	Mathematical Systems	3
MATH 2223	Data Analysis and Geometric Systems	3
Core Area II: Natural Science (12 hours, including one laboratory course)		
Choose one course in biological sciences (Core II): BIOL, HES, MBIO, or PBIO		4-5
Choose one course in physical sciences (Core II): AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS		4-5
Choose one 2000-level or higher advisor-approved Science course		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government (Core III-PSC)	3
Choose one of the following (Core III-SS):		3

ANTH 1113	What Makes Us Human? Exploring Cultural and Biological Diversity	
PSY 1113	Elements of Psychology	
SOC 1113	Introduction to Sociology	
Core Area IV: Arts and Humanities (12 hours)		
HIST 1483	United States to 1865 (Core IV-HIST)	3
or HIST 1493	United States, 1865 to the Present	
Artistic Forms: Choose one ENGL 2000-level or higher course (Core IV-AF)		3
Western Culture: Choose one PHIL course (Core IV-WC)		3
World Culture: Choose one course from the University-Wide General Education Approved Course List (3000-level or above) and advisor approved (Core IV - WDC)		3
Core Area V: First Year Experience (3 hours)		
Choose one course (Core V-FYE)		3
Total Credit Hours		54-64

¹ The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language. Courses that demonstrate knowledge and skills necessary to address the needs of Emergent Bilingual students are determined by the College of Education.

Free Electives

Additional elective hours may be required to meet the 124 total hours, and 55 Liberal Arts hours, required to graduate.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching

Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by May 1 for fall graduation, December 1 for spring graduation, and March 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I - EN1)	3

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. Meet one of the six performance criteria listed by Oklahoma State Regents for Higher Education (OSRHE) that students may use to qualify for admission into an Oklahoma teacher education program. **Speak with your Education Advisor for more details.**

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to

dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.

6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6-year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

- *This program is offered only at the University of Oklahoma's Tulsa campus.*

Major Requirements

Students must maintain a minimum of **2.75** grade point average with no grade less than a **C** in the Professional Education and Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators and apply for a license.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>. The following courses meet minimum University, College, and State General Education Requirements.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English and Communication (9 hours)</i>		
ENGL 1113	Principles of English Composition (Core I - EN1)	3
ENGL 1213	Principles of English Composition (Core I - EN2)	3
or EXPO 1213	Expository Writing	
COMM 1113	Principles of Communication (Core I)	3
or COMM 2613	Public Speaking	
<i>Language (0-10 hours)</i>		0-10
University-Wide General Education Requirement: Choose two college-level courses in a single language; may be satisfied by successful completion of 2 years in a single language in high school (Core I)		
Oklahoma State Regents for Higher Education Requirement: Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English OR demonstrate the knowledge and skills necessary to address the needs of Emergent Bilingual (English Learner) students in the P-12 classroom and are proficient in the strategies required for successful delivery of P-12 instruction in that area ¹		
<i>Mathematics (12 hours)</i>		
Choose two MATH 1000-level courses (Core I-MATH)		
MATH 2213	Mathematical Systems	3
MATH 2223	Data Analysis and Geometric Systems	3
Core Area II: Natural Science (9 hours, must include one Laboratory course)		
Choose one course in biological sciences (Core II): BIOL, HES, MBIO, or PBIO		4-5
Choose one course in physical sciences (Core II): AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS		4

Choose any 2000-level or higher science course	3-4
Core Area III: Social Science (6 hours)	
P SC 1113 American Federal Government (Core III - PSC)	3
Choose one of the following:	3
Any ANTH, SOC or PSY course (Core III - SS)	
PSY 1113 Elements of Psychology (Core III - SS)	
Core Area IV: Arts and Humanities (12 hours)	
HIST 1483 United States to 1865 (Core IV - HIST)	3
or HIST 1493 United States, 1865 to the Present	
Artistic Forms: Choose one ENGL 2000-level or higher course (Core IV-AF)	3
Western Culture: Choose one PHIL course (Core IV-WC)	3
World Culture: Choose one course from the University-Wide General Education Approved Course List (3000-level or above) and advisor approved (Core IV - WDC)	3
Core Area V: First Year Experience (3 hours)	
Choose one course (Core V - FYE)	3
Total Credit Hours	54-64

¹ The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language. Courses that demonstrate knowledge and skills necessary to address the needs of Emergent Bilingual students are determined by the College of Education.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching

Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by May 1 for fall graduation, December 1 for spring graduation, and March 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I-EN1)	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV-HIST) or United States, 1865 to the Present	3

Overall GPA - Combined and OU: 2.75

Major GPA - Combined and OU: 2.75

Program Code: B355

Admission and Retention Requirements**Admission Requirements—Jeannine Rainbolt College of Education**

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better. English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. Meet one of the six performance criteria listed by Oklahoma State Regents for Higher Education (OSRHE) that students may use to qualify for admission into an Oklahoma teacher education program. **Speak with your Education Advisor for more details.**

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.

7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years old in the teaching specialization and professional education may not be credited to ward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6- year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Education and Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators and apply for a license.

Total Credit Hours		83

¹ These courses require field experience.

² These 14 hours along with the 41 hours listed in General Education comprise the 55 hour minimum requirement for Liberal Arts hours.

³ These courses are taken together in the final semester.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>. The following courses meet minimum University, College, and State General Education Requirements.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>English and Communication (9 hours)</i>		
ENGL 1113	Principles of English Composition (Core I-EN1)	3
ENGL 1213	Principles of English Composition (Core I-EN2)	3
or EXPO 1213	Expository Writing	
COMM 1113	Principles of Communication (Core I)	3
or COMM 2613	Public Speaking	
<i>Mathematics (3 hours)</i>		
Choose one MATH course (Core I-MATH)		3
<i>Language (0-10 hours)</i>		0-10

University-Wide General Education Requirement: Choose two college-level courses in a single language; may be satisfied by successful completion of 2 years in a single language in high school (Core I)

Oklahoma State Regents for Higher Education Requirement: Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English OR demonstrate the knowledge and skills necessary to address the needs of Emergent Bilingual (English Learner) students in the P-12 classroom and are proficient in the strategies required for successful delivery of P-12 instruction in that area¹

Core Area II: Natural Science (8 hours, including one laboratory course)

Biological Science (3-5 hours)

Choose one course in the biological sciences: BIOL, HES, MBIO, or PBIO 3-5

Physical Science (3-5 hours)

Choose one course in the physical sciences: (Core II) AGSC, ASTR, CHEM, GEOG, GEOL, METR, or PHYS 3-5

Core Area III: Social Science (6 hours)

P SC 1113 American Federal Government (Core III-PSC) 3

Choose one of the following (Core III-SS): 3

ANTH 1113 What Makes Us Human? Exploring Cultural and Biological Diversity

PSY 1113 Elements of Psychology

SOC 1113 Introduction to Sociology

Core Area IV: Arts and Humanities (12 hours)

HIST 1483 United States to 1865 (Core IV-HIST) 3
or HIST 1493 United States, 1865 to the Present

ENGL 2413 Introduction to Literature (Core IV-AF) 3

Western Culture: Choose one PHIL course (Core IV-WC) 3

World Culture: Choose one course from from the University-Wide General Education Approved Course List (3000-level or above) and advisor approved (Core IV-WDC) 3

Core Area V: First Year Experience (3 hours)

Choose one course (Core V-FYE) 3

Total Credit Hours 41-51

¹ The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language. Courses that demonstrate knowledge and skills necessary to address the needs of Emergent Bilingual students are determined by the College of Education.

The 41 hours above, along with 14 hours of ENGL coursework in the Specialized Education requirements, comprise the 55 required Liberal Arts hours.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by May 1 for fall graduation, December 1 for spring graduation, and March 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I-EN1)	3
MATH (Core I-MATH)		3
HIST 1483 or HIST 1493	United States to 1865 (Core IV-HIST) or United States, 1865 to the Present	3
First Year Experience (Core V-FYE)		3
Choose one of the following (Core III-SS):		3
ANTH 1113	What Makes Us Human? Exploring Cultural and Biological Diversity	
PSY 1113	Elements of Psychology	
SOC 1113	Introduction to Sociology	
Credit Hours		15

Second Semester

ENGL 1213 or EXPO 1213	Principles of English Composition (Core I-EN2) or Expository Writing	3
ENGL 2413	Introduction to Literature (Core IV-AF)	3
P SC 1113	American Federal Government (Core III-PSC)	3
PHIL (Core IV-WC)		3
Biological Sciences, one course in BIOL/HES/MBIO/PBIO (Core II)		3-5
Credit Hours		15-17

Sophomore**First Semester**

EDEN 3223	Teaching Grammar and Composition in Middle/Secondary School	3
EIPT 3473	Learning, Development, and Assessment for Teachers	3
ENGL 2273	Literary and Cultural Analysis	3
ENGL 2773 or ENGL 2883	American Literature I or American Literature II	3
Physical Sciences, one course in ASTR, CHEM, GEOG, GEOL, GPHY, METR or PHYS (Core II)		3-5
Credit Hours		15-17

Second Semester

EDSP 3053	Understanding and Accommodating Exceptional Learners	3
ENGL 2443	World Literature, 1700 to Present	3
American Literature Elective (advisor approved)		3
Writing Elective (advisor approved)		3
English or World Literature Elective (advisor approved)		3
Credit Hours		15

Junior**First Semester**

EDS 4003	Schools in American Cultures	3
EDEN 4923	Literature for Adolescents and Young Adults	3
ENGL 2543 or ENGL 2653	English Literature from 1375 to 1700 or English Literature from 1700 to the Present	3
COMM 1113 or COMM 2613	Principles of Communication (Core I) or Public Speaking	3
American Literature Elective (advisor approved)		3
English or World Literature Elective (advisor approved)		3
Credit Hours		18

Second Semester

EIPT 3043	Learning with Educational Technologies	3
ENGL 4523 or ENGL 4533	Shakespeare Comedies or Shakespeare Tragedies	3
American Literature Elective (advisor approved)		3
Writing Elective (advisor approved)		3
World Culture—Upper-Division (Core IV-WDC, Advisor Approved)		3
Credit Hours		15

Senior**First Semester**

EDEN 4914	The Teaching of English	4

ENGL 4853	The English Capstone Course	3
World Literature Elective (advisor approved)		3
English Literature Elective (advisor approved)		3
Credit Hours		16

Second Semester

EDUC 4060	Teaching Experiences in the Secondary School	10
ILAC 4243	Student Teaching Seminar	3
Credit Hours		13
Total Credit Hours		124

Mathematics Education, B.S.**Minimum Total Credit Hours:** 124**Minimum Upper-Division Hours:** 40**Overall GPA - Combined and OU:** 2.75**Major GPA - Combined and OU:** 2.75**Program Code:** B673**Admission and Retention Requirements****Admission Requirements—Jeannine Rainbolt College of Education**

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better. English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. Meet one of the six performance criteria listed by Oklahoma State Regents for Higher Education (OSRHE) that students may use to qualify for admission into an Oklahoma teacher education program. **Speak with your Education Advisor for more details.**

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

- When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
- Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
- Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
- Students must earn a C or better in COMM 1113 or COMM 2613.
- Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
- Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
- Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
- Course work more than 10 years old in the teaching specialization and professional education may not be credited to ward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
- A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6- year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
- Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Education and the Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators and apply for a license.

<i>Language (0-10 hours)</i>		<i>0-10</i>

University-Wide General Education Requirement: Choose two college-level courses in a single language; may be satisfied by successful completion of 2 years in a single language in high school (Core I)

Oklahoma State Regents for Higher Education Requirement: Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English OR demonstrate the knowledge and skills necessary to address the needs of Emergent Bilingual (English Learner) students in the P-12 classroom and are proficient in the strategies required for successful delivery of P-12 instruction in that area¹

Mathematics (6 hours)

MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I-MATH)	3
MATH 1743	Calculus I for Business, Life and Social Sciences (or higher, Core I-MATH)	3
Core Area II: Natural Science (8 hours)		
BIOL 1124	Intro Biol: Molecule/Cell/Phys (Core II-NSL)	4
GEOL 2014	The Earth System (Core II-NSL)	4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government (Core III-PSC)	3
GEOG 3253	Environmental Conservation (Core III-SS)	3
Core Area IV: Arts and Humanities (12 hours)		
HIST 1483	United States to 1865 (Core IV-HIST)	3
or HIST 1493	United States, 1865 to the Present	
HSTM 3013	History of Science to the Age of Newton (Western Culture, Core IV - WC)	3
or HSTM 3023	History of Science Since the Seventeenth Century	
Choose one course from Core IV-Artistic Forms		3
World Culture: Choose one of the following (Core IV-WDC):		3
HSTM 3313	Science and Technology in Asian History	
HSTM 3453	Science and Civilization in Islam	
HSTM 3483	Technology, Politics, and International Development	
Core Area V: First Year Experience (3 hours)		
Choose one course (Core V-FYE)		3
Total Credit Hours		44-54

¹ The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language. Courses that demonstrate knowledge and skills necessary to address the needs of Emergent Bilingual students are determined by the College of Education.

The 44 hours above, along with CHEM 1315, CHEM 1415 and PHYS 2414 (11 hours) in the Specialized Education requirements, comprise the 55 required for Liberal Arts hours.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree**

requirements lies with the student and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by May 1 for fall graduation, December 1 for spring graduation, and March 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I-EN1)	3
MATH 1643	Functions and Modeling for Business, Life and Social Sciences (Core I-MATH)	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV-HIST) or United States, 1865 to the Present	3
BIOL 1124	Intro Biol: Molecule/Cell/Phys (Core II-NSL)	4
First Year Experience (Core V-FYE)		3
Credit Hours		16

Science Education: Chemistry, B.S.

Minimum Total Credit Hours: 124

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.75

Major GPA - Combined and OU: 2.75

Program Code: B831

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. Meet one of the six performance criteria listed by Oklahoma State Regents for Higher Education (OSRHE) that students may use to qualify for admission into an Oklahoma teacher education program. **Speak with your Education Advisor for more details.**

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate**

professional and specialized education courses, with no grade less than a **B**.

4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6-year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Education and Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators and apply for a license.

GEOG 3253	Environmental Conservation (Core III-SS)	3
Core Area IV: Arts and Humanities (12 hours)		
HIST 1483	United States to 1865 (Core IV-HIST)	3
or HIST 1493	United States, 1865 to the Present	
HSTM 3013	History of Science to the Age of Newton (Western Culture, Core IV-WC)	3
or HSTM 3023	History of Science Since the Seventeenth Century	
Choose one course from Core IV-Artistic Forms (Core IV-AF)		
Choose one of the following Core IV-World Culture (Core IV-WDC):		
HSTM 3313	Science and Technology in Asian History	
HSTM 3453	Science and Civilization in Islam	
HSTM 3483	Technology, Politics, and International Development	
Core Area V: First Year Experience (3 hours)		
Choose one course (Core V-FYE)		3
Total Credit Hours		44-54

¹ The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language. Courses that demonstrate knowledge and skills necessary to address the needs of Emergent Bilingual students are determined by the College of Education.

The 44 above hours, along with CHEM 1315, CHEM 1415, ASTR 1514, GEOL 1024, and METR 2603 (11 hours needed, total) in the Specialized Education requirements, comprise the 55 required Liberal Arts hours.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements

for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by May 1 for fall graduation, December 1 for spring graduation, and March 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I-EN1)	3
MATH 1823	Calculus and Analytic Geometry I (or higher) (Core I-MATH)	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV-HIST) or United States, 1865 to the Present	3
BIOL 1124	Intro Biol: Molecule/Cell/Phys (Core II-NSL)	4
First Year Experience (Core V-FYE)		3
Credit Hours		16

Second Semester

ENGL 1213 or EXPO 1213	Principles of English Composition (Core I-EN2) or Expository Writing	3
MATH 2423	Calculus and Analytic Geometry II (or higher, Core I-MATH)	3
P SC 1113	American Federal Government (Core III-PSC)	3
GEOL 1024	The History of the Earth and Life	4
GEOL 2014	The Earth System (Core II-NSL)	4
Credit Hours		17

Sophomore

First Semester		Credit Hours
EIPT 3473	Learning, Development, and Assessment for Teachers	3
Understanding Artistic Forms (Core IV-Artistic Forms)		3
METR 1014	Introduction to Weather and Climate	4
CHEM 1315	General Chemistry	5

COMM 1113 or COMM 2613	Principles of Communication (Core I) or Public Speaking	3
Credit Hours		18

Second Semester

EDSP 3053	Understanding and Accommodating Exceptional Learners	3
EDSC 4513	Teaching Science in Secondary Schools	3
CHEM 1415	General Chemistry (Continued)	5
GEOL 1114	Physical Geology for Science and Engineering Majors	4
Credit Hours		15

Junior**First Semester**

EDS 4003	Schools in American Cultures	3
HSTM 3013 or HSTM 3023 (Core IV-WC)	History of Science to the Age of Newton or History of Science Since the Seventeenth Century	3
Choose one of the following:		5
PHYS 1205	Introductory Physics I for Physics Majors	
PHYS 2514 & PHYS 1311	General Physics for Engineering and Science Majors and General Physics Lab I	
ASTR 1514	Astronomy: Exploring the Universe with Laboratory	4
Credit Hours		15

Second Semester

EIPT 3043	Learning with Educational Technologies	3
GEOG 3253	Environmental Conservation (Core III-SS)	3
Choose one of the following:		5
PHYS 1215	Introductory Physics II for Physics Majors	
PHYS 2524 & PHYS 1321	General Physics for Engineering and Science Majors and General Physics Lab II	
METR 2603	Severe and Unusual Weather	3
Science Elective from approved list		1
Credit Hours		15

Senior**First Semester**

EDSC 4533	Advanced Methods in Science Teaching	3
EIPT 3483	Motivation and Classroom Management for Teachers	3
EDWL 4323	Foundations and Practice for Bi/ Multilingual Learners PK-12	3
GEOL 4533 or METR 4533	Earth's Past Climate or Earth's Past Climate	3
Choose one of the following (Core IV-WDC):		3
HSTM 3313	Science and Technology in Asian History	
HSTM 3453	Science and Civilization in Islam	
HSTM 3483	Technology, Politics, and International Development	
Credit Hours		15

Second Semester

EDUC 4060	Teaching Experiences in the Secondary School	10
ILAC 4243	Student Teaching Seminar	3
Credit Hours		13
Total Credit Hours		124

Science Education: Physical Science, B.S.

Minimum Total Credit Hours: 124

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.75

Major GPA - Combined and OU: 2.75

Program Code: B833

Admission and Retention Requirements**Admission Requirements—Jeannine Rainbolt College of Education**

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. Meet one of the six performance criteria listed by Oklahoma State Regents for Higher Education (OSRHE) that students may use to qualify for admission into an Oklahoma teacher education program. **Speak with your Education Advisor for more details.**

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework

and a minimum 3.00 grade point average in all **graduate** coursework attempted.

- Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
- Students must earn a C or better in COMM 1113 or COMM 2613.
- Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
- Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
- Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
- Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
- A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6-year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
- Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Education and the Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators and apply for a license.

Core Area V: First Year Experience (3 hours)

Choose one course (Core V-FYE)	3
--------------------------------	---

Total Credit Hours	44-54
---------------------------	--------------

¹ The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language. Courses that demonstrate knowledge and skills necessary to address the needs of Emergent Bilingual students are determined by the College of Education.

The 44 hours above, along with CHEM 1315, CHEM 1415 and ASTR 1504 or ASTR 1514 (11 hours needed) in the Specialized Education requirements, comprise the 55 required Liberal Arts hours.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching

Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by May 1 for fall graduation, December 1 for spring graduation, and March 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Freshman

First Semester		Credit Hours

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better: English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. Meet one of the six performance criteria listed by Oklahoma State Regents for Higher Education (OSRHE) that students may use to qualify for admission into an Oklahoma teacher education program. **Speak with your Education Advisor for more details.**

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.
8. Course work more than 10 years old in the teaching specialization and professional education may not be credited to ward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6- year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Education and the Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators and apply for a license.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>. The following courses meet minimum University, College, and State General Education Requirements.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>Communication Skills (9 hours)</i>		
ENGL 1113	Principles of English Composition (Core I-EN1)	3
ENGL 1213	Principles of English Composition (Core I-EN2)	3
or EXPO 1213 Expository Writing		
COMM 1113	Principles of Communication (Core I)	3
or COMM 2613 Public Speaking		
<i>Language (0-10 hours)</i>		<i>0-10</i>

University-Wide General Education Requirement: Choose two college-level courses in a single language; may be satisfied by successful completion of 2 years in a single language in high school (Core I)

Oklahoma State Regents for Higher Education Requirement: Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English OR demonstrate the knowledge and skills necessary to address the needs of Emergent Bilingual (English Learner) students in the P-12 classroom and are proficient in the strategies required for successful delivery of P-12 instruction in that area ¹

Mathematics (3 hours)

Choose one MATH course (Core I-MATH) 3

Core Area II: Natural Science (7 hours, including one laboratory course)

Choose one course in the biological sciences: BIOL, HES, MBIO, or PBIO (Core II-NS) 3-5

One course in the physical sciences is required (AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS), which is satisfied by GEOG 1114 (Core II-NSL) in the Specialized Education section

Core Area III: Social Science (9 hours)		
P SC 1113	American Federal Government (Core III-PSC)	3
SOC 1113	Introduction to Sociology (Core III-SS)	3
ECON 1113	Principles of Economics-Macro (Core III-SS)	3
	or ECON 1123 Principles of Economics-Micro	
Core Area IV: Arts and Humanities (18 hours)		
HIST 1483	United States to 1865 (Core IV-HIST)	3
HIST 1493	United States, 1865 to the Present	3
GEOG 1103	Human Geography (Core IV-WC)	3
	Artistic Forms: Choose one course from the General Education Approved List (Core IV-AF)	3
	World Culture: Choose one course from the General Education Approved List (3000-level or above, and advisor approved (Core IV-WDC)	3
	Choose a World Civilization Elective (advisor approved)	3
Core Area V: First Year Experience (3 hours)		
	Choose one course (Core V-FYE)	3
Total Credit Hours		45-55

¹ The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language. Courses that demonstrate knowledge and skills necessary to address the needs of Emergent Bilingual students are determined by the College of Education.

The 45 hours above, along with HIST 1623, GEOG 1114, GEOG 2603 (10 hours) in the Professional and Specialized Education requirements, comprise the 55 required Liberal Arts hours.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Choose one course (Core V-FYE)	3
--------------------------------	---

Total Credit Hours 51

The 51 hours above, along with FR 1115 (4 hours) in the Specialized Education requirements, comprise the 55 hours required of Liberal Arts.

¹ Oklahoma State Regents for Higher Education Requirement: Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English OR demonstrate the knowledge and skills necessary to address the needs of Emergent Bilingual (English Learner) students in the P-12 classroom and are proficient in the strategies required for successful delivery of P-12 instruction in that area.

The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language. Courses that demonstrate knowledge and skills necessary to address the needs of Emergent Bilingual students are determined by the College of Education.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching

Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by May 1 for fall graduation, December 1 for spring graduation, and March 1 for summer graduation. **The student's degree will not be conferred, nor**

any completion statement entered on their transcript, until the required application is filed.

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Freshman

First Semester		Credit Hours
FR 1115	Beginning French	5
ENGL 1113	Principles of English Composition (Core I-EN1)	3

World Language Education: German, B.S.

Minimum Total Credit Hours: 124
Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.75
Major GPA - Combined and OU: 2.75

Program Code: B883 P271

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better. English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. Meet one of the six performance criteria listed by Oklahoma State Regents for Higher Education (OSRHE) that students may use to qualify for admission into an Oklahoma teacher education program. **Speak with your Education Advisor for more details.**

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level

Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.

8. Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6-year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Professional Education and Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators and apply for a license.

The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language. Courses that demonstrate knowledge and skills necessary to address the needs of Emergent Bilingual students are determined by the College of Education.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by May 1 for fall graduation, December 1 for spring graduation, and March 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.

Suggested Semester Plan of Study

This plan shows *one possible grouping* of courses that would allow students to graduate in four years. Please refer to the front of the degree checklist for official requirements. Students must consult with College of Education academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, College of Education, and major requirements.

Freshman

First Semester		Credit Hours
LAT 1115	Beginning Latin	0-5
ENGL 1113	Principles of English Composition (Core I-EN1)	3
MATH (Core I-MATH)		3
HIST 1483 or HIST 1493	United States to 1865 (Core IV-HIST) or United States, 1865 to the Present	3
First Year Experience (Core V-FYE)		3
Credit Hours		12-17

Second Semester

LAT 1215 or LAT 1315	Beginning Latin or Intensive Introductory Latin	5
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I-EN2) or Expository Writing	3
P SC 1113	American Federal Government (Core III-PSC)	3
Biological Sciences, one course in BIOL/HES/MBIO/PBIO (Core II)		3-5
ANTH, or SOC, or PSY (Core III-SS)		3
Credit Hours		17-19

Sophomore

First Semester

LAT 2113	Intermediate Latin Prose	3
Arts & Humanities course (Core IV-Artistic Forms)		3
COMM 1113 or COMM 2613	Principles of Communication (Core I) or Public Speaking	3
CL C 2000-level or higher		3
Physical Sciences, one course in AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS (Core II)		3-5
Credit Hours		15-17

Second Semester

LAT 2213	Intermediate Latin Poetry	3
EIPT 3473	Learning, Development, and Assessment for Teachers	3
EDSP 3053	Understanding and Accommodating Exceptional Learners	3

HIST 1223 or HIST 1233	Europe, 1500 to 1815 (Core IV-WC) or Europe since 1815	3
CL C 2000-level or higher		3
Credit Hours		15
Junior		
First Semester		
Classical, Modern, or Native Language		5
EIPT 3043	Learning with Educational Technologies	3
LAT 3313	Latin Prose Composition	3
LAT 3000-level or higher		3
CL C 2000-level or higher		3
Credit Hours		17
Second Semester		
Classical, Modern, or Native Language		5
EDS 4003	Schools in American Cultures	3
LAT 3000-level or higher		3
LAT 3000-level or higher		3
EDWL 4023	Foundations and Theory for PreK-12 Second Language Acquisition	3
Credit Hours		17
Senior		
First Semester		
CL C 4503	Classics Capstone	3
EIPT 3483	Motivation and Classroom Management for Teachers	3
World Culture - Upper-Division (Core IV-WDC, Advisor- Approved)		3
LAT 3000-level or higher		3
EDWL 4033	Methods for Teaching World Languages in PreK-12 Settings	3
Credit Hours		15
Second Semester		
EDUC 4050	Teaching Experiences in the Elementary School	5
EDUC 4060	Teaching Experiences in the Secondary School	5
ILAC 4243	Student Teaching Seminar	3
Specialized Education Elective		1
Credit Hours		14
Total Credit Hours		124

World Language Education: Spanish, B.S.

Minimum Total Credit Hours: 124

Minimum Upper-Division Hours: 40

Overall GPA - Combined and OU: 2.75

Major GPA - Combined and OU: 2.75

Program Code: B883 P621

Admission and Retention Requirements

Admission Requirements—Jeannine Rainbolt College of Education

Students are eligible for admission to the Jeannine Rainbolt College of Education with:

1. a minimum of 24 semester hours earned from an accredited institution of higher learning;
2. a minimum of **2.75** combined retention grade point average on all coursework attempted;
3. a declared major in education.

Full Admission Requirements—Teacher Education and Professional Studies Programs

Students are eligible for admission to Teacher Education with:

1. a minimum of 30 semester hours from an accredited institution of higher learning to include the following 24 hours as defined by the Oklahoma State Regents for Higher Education with a grade of C or better. English (Composition and Literature)-6 hours; MATH, Gen. Ed. Core I -3 hours; American History-3 hours; American Government-3 hours; Humanities to include Artistic Forms, Western Civilization, Non-Western Culture, World Language, or other advisor-approved Gen. Ed. course -3 hours; Social and Behavioral Sciences-3 hours; Natural Sciences-3 hours.
2. a minimum of **2.75** grade point average (OU retention and combined retention) on all coursework attempted;
3. Meet one of the six performance criteria listed by Oklahoma State Regents for Higher Education (OSRHE) that students may use to qualify for admission into an Oklahoma teacher education program. **Speak with your Education Advisor for more details.**

Admission to a teaching program requires submission of an application, essay, background check, and an interview with the admission committee prior to enrollment in the first education course.

Retention Requirements—Jeannine Rainbolt College of Education

1. When a student accepts an offer of admission into a JRCoE department or program, they commit to comply with all its regulations, including those regarding professional conduct and dispositions that are contained in the JRCoE Professional Behavior Policy.
2. Students must maintain a minimum **2.75** grade point average (OU retention and combined retention) in all **undergraduate** coursework and a minimum 3.00 grade point average in all **graduate** coursework attempted.
3. Students must maintain a minimum of **2.75 undergraduate** grade point average in both professional education courses and in specialized education courses with no grade less than a **C** and must maintain a minimum of 3.00 grade point average in **graduate** professional and specialized education courses, with no grade less than a **B**.
4. Students must earn a C or better in COMM 1113 or COMM 2613.
5. Students whose OU retention or combined retention grade point averages at the **undergraduate** level fall below **2.75** will be subject to dismissal from the college. At the **graduate** level, students must meet Graduate College requirements.
6. Students who have not earned OU retention and combined retention grade point averages of **2.75** after the completion of 60 semester hours will be dismissed from the college.
7. Because one college level math course is a requirement for full admission into both the college and the teacher preparation program, declared Education majors must complete at least one college-level

Math within the first four semesters of enrollment at OU. Transfer students who have not completed a college level Math course will have two semesters to complete the requirement. Students who fail to meet the requirement within the time limits specified will be subject to dismissal from the college.

8. Course work more than 10 years old in the teaching specialization and professional education may not be credited toward the completion of a teacher education degree and/or certificate program. However, course work over 10 years old may be reviewed by the appropriate certificate committee for possible credit toward the completion of a teacher education degree and/or certificate program.
9. A student has 6 years to complete a teacher education degree and/or certificate program after full admission. After the 6-year period, a student must seek readmission to that program and meet the catalog requirements in effect at the time of readmission.
10. Students will be withdrawn from courses for failing to observe prerequisites and corequisites. Continued disregard of prerequisites and corequisites is grounds for dismissal from the college.

Major Requirements

Students must maintain a minimum of 2.75 grade point average with no grade less than a C in the Profession Education and the Specialized Education courses for graduation.

Certification: To be fully certified, students must pass Certification Examinations for Oklahoma Educators and apply for a license.

Code	Title	Credit Hours
Professional Education (34 hours)		
EIPT 3473	Learning, Development, and Assessment for Teachers ¹	3
EDSP 3053	Understanding and Accommodating Exceptional Learners	3

SPAN 4713	History of the Spanish Language	
SPAN 4773	Topics in Spanish Linguistics	
SPAN 4913	The Structure of the Spanish Language	
SPAN 4923	Teaching of Spanish in the United States	
If additional hours are needed to meet the 124 hour undergraduate minimum for graduation, they may be taken from MLLL, Classics, Language area, Linguistics, or Education courses		
Total Credit Hours		73

¹ These courses require field experience.

² These courses are taken together in the final semester.

³ SPAN 1115 along with the 51 hours listed in General Education comprise the 55 hours required for Liberal Arts & Sciences.

General Education and College Requirements

Courses taken to fulfill the University General Education Requirements must be chosen from the approved General Education course list published in the Class Schedule or at <http://www.ou.edu/gened/courses>. The following courses meet minimum University, College, and State General Education Requirements.

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
<i>Communication Skills (9 hours)</i>		
ENGL 1113	Principles of English Composition (Core I-EN1)	3
ENGL 1213	Principles of English Composition (Core I-EN2)	3
	or EXPO 1213 Expository Writing	
COMM 1113	Principles of Communication (Core I)	3
	or COMM 2613 Public Speaking	
<i>Language ¹</i>		
University-wide general Education requirement met with major work.		
College of Education Contemporary World Culture: Choose two courses which provide an elementary knowledge of another classical, modern, Native, or American Sign Language		10
<i>Mathematics (3 hours)</i>		
Choose one MATH course (Core I-MATH)		3

Core Area II: Natural Science (8-9 hours, must include a laboratory course)

Choose one course in the biological sciences: (Core II) BIOL, HES, MBIO, or PBIO 3-5

Choose one course in the physical sciences: (Core II) AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS 3-5

Core Area III: Social Science (6 hours)

P SC 1113 American Federal Government (Core III-PSC) 3

Choose one ANTH, PSY, OR SOC course (Core III-SS) 3

Core Area IV: Arts and Humanities (12 hours)

HIST 1483 United States to 1865 (Core IV-HIST) 3
or HIST 1493 United States, 1865 to the Present

Choose one of the following (Core IV-WC): 3

HIST 2613 Colonial Hispanic American History, 1492-1810

HIST 2623 Modern Latin America 1810-Present

Another advisor-approved Core IV-Western Culture

Choose one course from the General Education Approved Artistic Forms list (Core IV-AF) 3

Choose one course from the General Education Approved World Culture List (3000- level or above) and advisor approved (Core IV-WDC) 3

Core Area V: First Year Experience (3 hours)

Choose one course (Core V-FYE) 3

Total Credit Hours 51

The 51 hours above, along with SPAN 1115 (4 hours) from the Specialized Education requirements, comprise the 55 hours required of Liberal Arts.

¹ Oklahoma State Regents for Higher Education Requirement: Teacher candidates must demonstrate conversational skills at a novice-high level in a language other than English OR demonstrate the knowledge and skills necessary to address the needs of Emergent Bilingual (English Learner) students in the P-12 classroom and are proficient in the strategies required for successful delivery of P-12 instruction in that area.

The novice-high level language requirement may be satisfied by classical, modern, Native or American Sign Language. Courses that demonstrate knowledge and skills necessary to address the needs of Emergent Bilingual students are determined by the College of Education.

Certification and Degree Requirements

Field Experiences: Transfer students without appropriate field experiences may be required to enroll in EDUC 2400.

Pass/No Pass Enrollment: Only general education electives may be taken under the pass/no pass option.

Residence Requirements: Students must complete either the last 30 hours or 45 of the last 60 hours after being fully admitted to a teacher education program to satisfy this requirement.

Requirements to be Completed to be Eligible for Student Teaching

Internship: Students must be in good standing and have completed all baccalaureate degree requirements with the exception of the appropriate internship course itself and the courses taken with it in the final semester per their major requirements.

Junior College Transfer Students: Students transferring from a junior college may use the transferred credit to meet certain lower-division

course requirements only; that is, freshman and sophomore-level courses.

Degree Completion Responsibility: Although the Dean's Office checks each student's records, **the responsibility for meeting degree requirements lies with the student** and not with the advisor or the Dean. Each student should obtain a copy of his or her requirements for graduation and check it regularly as he or she completes his or her degree program.

Graduation Application: The final step to be completed by the student before graduation is the filing of an official Application for Graduation. The Application for Graduation should be filled out online by May 1 for fall graduation, December 1 for spring graduation, and March 1 for summer graduation. **The student's degree will not be conferred, nor any completion statement entered on their transcript, until the required application is filed.**

Admission & Retention Requirements

It is the responsibility of the student to read and be familiar with the requirements for Admission to, and Retention in, the Jeannine Rainbolt College of Education. The current Admission and Retention policies can be found in the college's overview page in the OU General Catalog, under the Undergraduate tab here: <http://ou-public.courseleaf.com/rainbolt-education/#undergraduatetext>.
